Chapter 711: Why did the scripture left by the Ancient Heavenly Lord of Reincarnation suddenly crack?

This battle was extremely tragic as the entire universe was collapsing, turning into an ancient battlefield. One after another, the big stars shattered into ashes, and there were too many corpses in the surrounding broken star region.

“Kill this monster!”

“Kill, don’t let the efforts of all the predecessors and ancestors over the countless years be in vain.”

“This is our last chance this time.”

Under this broken sky. All the powerhouses and creatures were roaring, burning all over, surrounded by light. Shining on the entire sky, fighting against the figure standing at an unknown latitude.

But that figure was too huge, the whole body seemed to be cast from immortal gold, standing at the end of the world. The golden light was shining with the face blurred. The facial features could not be seen clearly. There was only a pair of indifferent eyes that looked at the scene with coldness as if watching dogs.

It looked very similar to the human race, but it had three heads and six arms. Each head was different. A dragon or a phoenix, with six slender arms, holding various heavenly weapons, and long hairs of various colors, which could make people tremble.

Just sweeping down, the entire universe was collapsing and falling apart. Countless powerhouses roared, collapsing and exploding. Their bodies and spirits were destroyed, and they disappeared. But even so, some people rushed forward desperately.

Even if it only caused a little damage to this terrifying monster, they would not hesitate. It seemed that the only thought in their heart was to destroy this terrifying monster. This was a crazy and shocking scene.

“Attack!!”

Too many powerhouses rushed toward the terrifying monster like moths to a flame without fear of death. Then they burst into pieces one after another in the void, including the soul before disappearing in smoke.

The terrifying monster seemed to have no emotions, and its six arms could tear the universe apart.

Boom!!

The next moment, it stretched out and grabbed downward. Its sharp claws were like blades which easily cut through all the laws and order. It grabbed the most powerful creatures in the group of creatures and crushed them with a pop.

Their physical body collapsed, the bones crushed into a blood mist that scattered all over the sky, accompanied by the rain of broken laws, fluttering and descending. These existences with the most powerful aura even broke their weapons. The gods within let out a mournful cry, and also followed their master.

“Even the invincible Emperor has fallen...”

“Ahhh... Fight this monster.”

Seeing this scene, the remaining creatures screamed in horror, their faces full of despair. Some people couldn't stand the huge blow, screamed, and passed out. This scene was too horrifying, it made people tremble and fearful. Their whole body was chilled to the extreme, and they froze in place.

Even the invincible Emperor among them was crushed to death by that monster into a blood mist, coloring the sky red.

Everyone felt a sense of despair and powerlessness, and there was nothing they could do. It seemed that all of this had always been a fantasy, and it had long been doomed. No matter how much it cost them, it was impossible to stop this.

“Becoming Immortal has always been a scam. There are no Immortals in this world. There is only this monster behind the Immortal Path. All those who set foot on the road to Immortality will be eaten by it.”

“Everyone is its nourishment, and when it is full, it will eat the world.”

“Just like what is recorded in the ancient classics, it is a beast that destroys the world. It will destroy the world and return them to Reincarnation...”

An old man was lamenting, his eyes were bleeding, his body exploded, and he looked extremely miserable. For endless years, they had been solving the mystery of becoming Immortals, and they wanted to step into that door.

For this reason, countless sages and seniors paid a heavy price to find the Immortal Path. It was a pity that there was no further news, and it disappeared without a trace, just like a pebble sinking into the sea.

Even those ancient Emperors who had swept invincible since ancient times, fought for hegemony all the way, wiped out their opponents, and reached the peak, had never returned. Some people said that they have become Immortals and went to another world. Some people also said that they were trapped in the Immortal Path and could not look back.

But the true situation was that at the other end of the Immortal Path, there was an incomplete universe, in which there lived an extremely terrifying monster. Over the endless years, the powerhouses who had walked that road had all been reduced to the rations of that horrible monster, swallowed by it, and the corpses had almost filled up that piece of the universe.

Countless latecomers had gained insight into all this by deciphering the many clues left by their predecessors. The Immortal Path was just a scam. In other words, the Immortal Path that they had been pursuing so hard did not exist at all. For endless years, everyone had been blinded by this big lie.

They searched for it one after another, but in the end, they were just reduced to the rations of that terrifying monster.

“Who the hell is telling this big lie?”

“Why deceive us for countless years, and finally tell us that all this is actually a lie. The world is just a cage, and we are just someone who was raised here to feed a monster?”

Someone was angrily denouncing the injustice of this world, with tears in their eyes, trembling all over, desperate to the extreme. More people roared and rushed over, wanting to fight that terrifying monster. But as the figure's six arms fell, countless lights and laws exploded.

The world was gloomy, the divine lights were soaring into the sky, the laws were broken, and countless screams were drowned out. This universe was collapsing, it seemed that all the stars in the sky were trembling, about to fall down.

“I've been planning for so many years, and I finally raised my troops to come to this side. Are they going to be annihilated today, and it will become a spectacle? I'm really not reconciled, why did it end up like this? Heaven and Earth, can you open your eyes?”

A terrifying Emperor shouted angrily, and the Imperial Weapon in his hands was shining with infinite light. The boundless chain of laws was hanging down to protect the army behind him. But at the next moment, a halberd light that came from the terrifying monster's hand slashed the Emperor's forehead with a puff.

Immediately, his head exploded, and the soul fire dimmed and extinguished instantly. The Imperial Weapon in his palm also let out a mournful cry, and then it shattered with a crack.

In the world behind them, they were invincible Emperors. They were invincible for an era, ruling the sky and the earth. But in the hands of this terrifying monster, everyone was as fragile as a piece of paper, easily torn apart.

Many of them had been dormant for several ages just to wait for such a day. However, when the day really came, they found out in despair. It turned out that everything was doomed long ago, the gap was like a natural moat, and they had no chance at all.

Boom!!

Blood rained from the sky, and there was a wail. In this dilapidated universe, the army following this Emperor exploded, and their bodies and spirits were destroyed. The devastated land was filled with seas of corpses, and the scene was extremely terrifying.

“Those who disobey will be killed without mercy.”

The figure of the terrifying monster turned slightly and made an ancient divine sound.

Those eyes had always been cold and ruthless, standing at the end of the world, as if they were especially waiting here. Then, its six big hands stretched across the world as it began to grab the flesh and blood of the corpses below and devour them, making a chilling chewing sound.

At the end of this dilapidated universe, there was an extremely majestic and magnificent portal, surrounded by Immortal aura, which looked divine and abnormal. But now this portal was slowly closing, pushed by a supreme and vast force as it began to close.

It seemed to isolate and seal the two universes outside the door and inside the door.

And at this moment, in a distant unknown latitude. The Daoist sitting cross-legged in nothingness also shook his hands, obliterating the scene in front of him.

“In the ancient world of the Red Ghost, when I think back, there was a character like Red Ghost Heavenly Lord, but now it can’t even deal with a Dao body at the level of a Remnant Immortal. But becoming Immortal? A group of ants also want to become Immortal. Achieving the status of the Immortal King is the best destination for you?”

He let out a sneer, and there was indifference in the depths of his eyes, unmoved by the scene just now. For endless years, he traveled all over the world. Like a similar layout, he didn’t know how many vast and mysterious ancient worlds were scattered.

Although those ancient great worlds were far inferior to the Upper Realm, the foundations accumulated since the creation of the world could not be underestimated in the slightest. If it was given enough time, it was not impossible to grow to a level comparable to that of the Upper Realm.

Since the Forbidden Era, the True Immortal Domain and the Heavens and Earth of the Upper Realm had been connected to each other. The Immortal Path collapsed, the Dao collapsed and even disappeared, no one could become Immortal.

Those ancient big worlds that were far away from the Upper Realm didn’t know much about this matter. They still wanted to become Immortals through the Immortal Path. Therefore, this gave the

Daoists an excellent hotbed to use the Immortal Path as bait to attract those powerful people from the ancient world to come and die.

“For the poor Dao, this is the best opportunity to prove the status of Immortal King.”

“When the True Immortal Path descends onto the world, thousands of poor people will become one, and they will be able to touch areas that were out of reach at the beginning.” The Daoist got up from the spot, and in his deep eyes was a huge ambition that couldn’t be concealed.

He was originally a character from the Immortal Ancient Period, and his peak cultivation back then had already surpassed the Immortal Realm. Even controlling the Dao of Reincarnation. A powerhouse in the Immortal Realm couldn’t do anything to him.

But the Dao of Reincarnation was the most mysterious and vast, involving time. Even if he cultivated for endless years, it was difficult to make progress. Not to mention using the Dao of Reincarnation to seek the status of the Immortal King.

He was already on the verge of despair about this, feeling that he would never be able to gain a foothold in that field. But he never thought that in the taboo era, Heaven and Earth would collapse, and the long river of time would be buried in that era, and Immortals would be separated forever.

He accidentally encountered six strange creatures who were contaminated by the ominous gray mist, whose souls and bodies had been reincarnated countless times. Those six creatures were obviously not strong, but they had the characteristic of being almost Immortal.

From their mouths, this Daoist learned of a place full of mysterious gray fog. That place was holding Immortal secrets. And just a little bit of the aura of those six creatures was enough to ensure that the primordial spirit and the physical body were Immortal and could coexist with Heaven and Earth.

Although that kind of gray fog represented immortality and decay, in the process, it would encounter unimaginable pain and torture. But what was this compared to immortality?

At that time, not long after the Laws of Heaven and Earth were broken, Daoism disappeared, and the cultivation base of Daoists was greatly cut, making it difficult to return to the peak. Therefore, knowing that there were big secrets hidden in those six people, he didn’t take the initiative to question them. Instead, he left a lot of calculations for later exploration.

At that time, the six people also gave him a bowl of well water, claiming that it was taken from that strange and mysterious place.

“It was also thanks to that bowl of well water that I gained insight into the True Life and Death, and the True Dao, which gave me the opportunity to touch the threshold of an Immortal King. I have a hunch that the True Immortal Path will appear in this life, and the day when I reach the peak is not far away.”

The Daoist’s eyes were bright and deep, but at the moment he was indifferent, looking at a certain space in the distance, and muttering.

Although his schemes spread all over the ancient universe. But it didn’t mean that he could exert the power beyond the Immortal Realm now. In order to hide behind the Heavens more silently like a shadow, to avoid the depletion of longevity. He even spared no effort to divide the original Dao fruit into tens of millions and use the existence of the Dao body to guard all ancient worlds.

And those ancient realms were the back gardens and breeding farms that he carefully selected and raised.

“Such a long time has passed, and those six guys should not be dead yet. It seems that the coordinates left at that time are about to take effect.”

A sneer appeared on the Daoist’s face, he tore open the universe in front of him with his bare hands, took a step forward, and quickly disappeared. The Upper Realm was extremely far away from here, even with his cultivation base, it would take some time to rush there.

But that Daoist didn’t care too much. For him, the most important thing he didn’t lack was time. Because in the Immortal Ancient Period, he had a name called the Ancient Heavenly Lord of Reincarnation.

...

Absolute Heavenly Extinction.

In the center of the imperial court. Rich black and white colors were intertwined here as large areas of Life and Death Crystals were broken and melted under Gu Changge's mighty power.

Then, reshaped and constructed in a special order before building it into the appearance of a Daoist platform. Every inch of the corner outlined a magical and complicated Dao pattern, life and death revolved as Reincarnation alternated.

Even ordinary cultivators could perceive the difficulty of this Daoist Platform. The Dao of Reincarnation was hanging down from the four corners of the platform, like a waterfall.

A kind of mysterious and unpredictable power was flowing quietly on the Daoist platform, which could make people feel awe. They couldn't help but want to kneel down to feel the power of Reincarnation.

"This aura can't be mistaken, it is indeed the Daoist platform of Reincarnation, although it is only a prototype..."

In the depths of the Absolute Heavenly imperial family's land, the six Ancient Ancestors stared fixedly at this Daoist Platform and their emotions fluctuated greatly. They had waited for this day for too long.

According to the words left by the Ancient Heavenly Lord of Reincarnation at that time, as long as the Reincarnation Platform was successfully cast and the light the guiding fire on it. Then the mysterious land could be reflected.

Although they just entered it by mistake at the beginning, they had already regarded themselves as the creatures of that mysterious land, and they wanted to return to it all the time. Over the years, they had often used various methods to try to find it, hoping that the existence of that place would lead them back.

Now, Gu Changge had cast the Reincarnation Platform which once again raised great hope in their hearts.

"Crack..."

But at this moment, a crisp cracking sound suddenly came from the center of the square. The six Great Ancient Ancestors also froze suddenly with joyful and hopeful expressions, as if they were in a daze.

The expressions of Jianan and the others froze all of a sudden, and the smile disappeared from their faces.

“Oh, how come suddenly it’s cracked?” Gu Changge, who was moving the platform with his mind, seemed to have just noticed this scene. He couldn’t help raising his eyebrows and said in surprise.

Chapter 712: It really aroused my interest, Why bother to look far away?

Click!!

Strands of extremely fine and obvious cracks appeared on the Reincarnation Platform. Then these cracks became bigger and bigger, quickly spreading to the entire Reincarnation Platform.

A golden light gushed out from it before it exploded with a loud bang, breaking apart.

“What?”

This scene made everyone in the Absolute Heavenly Imperial Court stunned. The joyful expression on their faces disappeared in an instant.

“It broke?”

Jianan’s eyes widened even more as she looked at the cracked platform in disbelief, wondering if she had seen it wrong.

How was this possible? Why did the perfect prototype of the Reincarnation Platform suddenly shatter and explode into ashes?

At this moment, it wasn’t just that she couldn’t believe it. Even the six Ancient Ancestors who watched all this from the clan’s land found it difficult to keep calm. Their expressions fluctuated wildly.

If it weren't for too many scruples, they would have shown up in person to find out the reason behind the Reincarnation Platform being broken. Was this just an accident? Or, was this intentional by Gu Changge?

"If he's playing tricks..." An Ancient Ancestor's complexion was ugly, and gloomy to the extreme.

The faces of the other five Ancient Ancestors were also not good-looking, and they looked at Gu Changge unkindly.

"Where did something go wrong? Why did it suddenly shatter? It seems that these Life and Death Crystals have been wasted. Let's do it all over again." Gu Changge also looked ignorant at the moment, shaking his head lightly as he said with great pity.

Judging from his expression, everyone had no idea that his words were on purpose. Or did the shattering of the Reincarnation Platform truly have nothing to do with him?

"Then I can only trouble Young Master Changge to work hard again." Although Jianan wanted to ask Gu Changge the reason behind the breaking of the Reincarnation Platform, but at this time, she still took a deep breath to calm herself down and kept her words as calm as possible.

In fact, she was quite skeptical that Gu Changge did it on purpose. But why would Gu Changge do this?

"It's okay, it's just a pity for these Life and Death Crystals." Gu Changge shook his head lightly as if he was regretful.

Jianan took a deep look at him, nodded, and didn't say much. Since the six Ancient Ancestors didn't speak up, she didn't dare to call the shots. The rest of the Absolute Heavenly creatures didn't dare to say anything more, but the look in their eyes was even more worried.

In the next few days, this place was once again shrouded in black and white. Gu Changge's eyes were silent, and his whole body seemed to be in some kind of trance. According to the first shaping method, he condensed the Life and the Death Crystals again to build a new Reincarnation Platform.

The reason why the last Reincarnation Platform was broken was naturally because of him. He just wanted to test the attitude of those six old monsters, but he never thought that they would be so tolerant.

From this aspect, Gu Changge could also see that the Reincarnation Platform must be extremely important to them.

“This seems to be just a coordinate, and there is no profound meaning to communicate with the Dao of Reincarnation from the Nine Nether. Could it be that they want to summon someone?” Gu Changge was a little surprised.

The muddy water hidden by the Absolute Heavenly Extinction was definitely deeper than what he had seen now.

“If that’s the case, then I’m not going to be polite.” After figuring this out, he glanced at the deepest part of the Absolute Heavenly Clan’s land and smiled faintly.

Buzz!!

Soon, around this square, strands of the Dao of Reincarnation alternated. With the rotation of spring, summer, autumn, and winter, the four seasons of the year, the world of mortals was rolling, and all kinds of life were emerging.

Compared to when casting the Reincarnation Platform for the first time. This time the aura was more intense. Many living beings around had a feeling of entering into reincarnation.

In the back, the entire Absolute Heavenly Extinction was affected by this aura. The misty brilliance soared into the sky, illuminating the originally gloomy sky. The depths of the land soil that were originally shrouded in the gray mist were also affected by this aura.

Everyone could see clearly that there were six terrifying and blurred figures standing there. As if it had existed since the beginning of the world, it exuded a majestic and infinite aura, enough to overwhelm all rules.

“It’s the six Ancient Ancestors, and they are here.”

Seeing this scene, many Absolute Heavenly creatures couldn’t help but kneel down facing that direction. The six Ancient Ancestors did not expect that Gu Changge would reflect their figures through the Reincarnation Platform.

But at this moment, they had nothing to hide. Just standing there quietly, with indifferent eyes, revealing an aura of suffocating coercion.

As the Ancestors of the Absolute Heavenly Extinction, it was because of them that the Absolute Heavenly creatures were born, and all of this was created by them. There was no doubt that they were the supreme gods in the minds of all Absolute Heavenly creatures.

Buzz!!

At this moment, under the reflection of the aura of Reincarnation, the surrounding void and laws were blurred. It seemed that they couldn't carry their revived aura, and they were about to collapse and crack.

“Junior Gu, did you deliberately reveal us?” An Ancient Ancestor stepped out of the clan land.

His whole body was wrapped in gray fog, his eyes fell on Gu Changge as his voice was indifferent and merciless, as vast as a torrent of bells sweeping through the sky. They never planned to show up.

Even that night, Gu Changge went to the deepest part of the clan to spy, and after being noticed by them, he didn't chase him out. But today, they were being revealed by Gu Changge in front of all the Absolute Heavenly creatures, making them feel that they had been humiliated.

If they didn't say anything anymore, they would probably be underestimated by Gu Changge. In front of a group of Absolute Heavenly Extinction, they would also be completely humiliated.

Boom!!

The terrifying coercion poured down like the Milky Way breaking its embankment. The laws and order around it were broken, the void was destroyed, and all the light and energy were disappearing.

“Oh no.”

“The Ancient Ancestor is angry...”

All the creatures of Absolute Heavenly Extinction were trembling and felt uneasy as they knelt down on the ground in incomparable fear. A brilliant aura of heavenly power suppressed and shrouded everyone's heads.

"The Ancient Ancestors are really angry, and the situation is already evolving in an unmanageable direction."

The faces of Jianan and the others changed even more. Their scalps tightened, and they felt as if their hearts were being strangled, and were about to suffocate.

Since ancient times, there had been silence within the depths of the Absolute Heavenly Extinction. It was rare for the Ancient Ancestor to appear, let alone make the Ancient Ancestor angry.

For all the creatures in the Absolute Heavenly Extinction, this was no different from a nightmare, and it was the first time since there were ancient records.

"Can't hold back anymore?" But at this time, facing the anger of an Ancient Ancestor of Absolute Heavenly Extinction.

Gu Changge still had a calm expression on his face as he slowly took his palms away from the prototype of the Reincarnation Platform, as if he was not surprised at all. Up to now, he had indeed deliberately revealed all of them, and he still planned to do so in front of all the Absolute Heavenly creatures.

Didn't the six Ancient Ancestors like to watch all this in secret?

Then Gu Changge refused to let them do what they wanted. And let them know that the initiative was now in his hands.

When he first came to Absolute Heavenly Extinction, he didn't know the background of this place, nor did he know the intentions of these six old monsters, so he didn't choose to startle the snake.

Now, he already knew the importance of the Reincarnation Platform to the Absolute Heavenly Extinction. And, the strength of these six old monsters.

Gu Changge naturally didn't need to worry too much.

“Forget it, as long as you cast the Reincarnation Platform well, we swear on our Dao Heart to never embarrass you.”

At this time, one of the other five Ancient Ancestors seemed to have seen Gu Changge's intentions, and his voice sounded without any emotional fluctuations.

Hearing this, the Ancient Ancestor who had stepped out of the deepest part of the clan also stopped. They didn't want to have too much conflict with Gu Changge before the Reincarnation Platform became a success.

The action just now was just to deter Gu Changge and make him stop playing tricks. If they really wanted to do something, there would never be only one Ancient Ancestor stepping out of the deepest part of the clan.

The other four Ancient Ancestors were still as indifferent as a divine mountain, standing at the end of the clan, without saying a word, giving people a terrifying feeling and deterrence, making people almost suffocate.

“Hmm? But... Do you have what it takes?” Upon hearing this, Gu Changge still smiled lightly, looking indifferent, extremely casual.

As soon as he said this, it wasn't just Jianan and the others whose complexions changed. All the Absolute Heavenly creatures around were horrified to the extreme, feeling their scalps tingling, unbelievable.

The Ancient Ancestors were the supreme beings who created the Absolute Heavenly Extinction and were almost like gods. Who in this world would dare to disobey them?

In their opinion, this kind of behavior could only be described as crazy and unbelievable.

“Junior Gu, are you provoking us?”

Hearing this, the Ancient Ancestor who stepped out of the Absolute Heavenly Extinction Clan's land just now, his complexion turned cold all of a sudden. He really didn't expect that Gu Changge would mock and provoke all the Absolute Heavenly creatures like this in front of them.

It was not as simple as not taking them seriously.

Boom!!

In the next moment, the terrifying gray fog was like a wave that submerged from the deepest part of the clan land. Overwhelming, surging, and endless as if trying to swallow everything in this world.

It had to be said that Gu Changge's words made them really angry. In their long and immortal life, it was the first time someone dared to provoke them like this.

Especially a young junior like Gu Changge.

Boom!!

The terrifying aura pervaded as the earth cracked, the void collapsed, and the depths of the Absolute Heavenly Extinction seemed to have fallen into eternal silence. All the creatures of Absolute Heavenly Extinction trembled, their souls were terrified, and they wanted to kneel down on the ground.

"Today I will let you understand what awe is."

The Ancient Ancestor's eyes were cold, and he stretched out a big hand covered with long gray hair and grabbed Gu Changge.

Another Ancient Ancestor who spoke just now also made a move at this moment. Chains of Laws, as thick as mountains, emerged from behind him.

Then it pierced through the world, tearing apart the Dao, trying to pierce Gu Changge like an arrow.

They did not intend to kill. This was just their prestige, and they wanted Gu Changge to understand who was the master in this Absolute Heavenly Extinction.

After all, they still wanted to keep Gu Changge to cast the Reincarnation Platform for them, and they won't kill him at this time.

In the deepest part of the eternally silent Absolute Heavenly Extinction, the six Ancient Ancestors appeared together. Two of them even opened their mouths and spread the words, wanting to teach Gu Changge a lesson.

This scene made all the creatures of Absolute Heavenly Extinction shocked as they trembled. After all, it was their Ancient Ancestors! The supreme existence that created and nurtured the entire Absolute Heavenly Extinction group. The one that was immortal and coexisted with time.

"This is what I want to say to you. After all, the Absolute Heavenly Extinction is on the verge of being exhausted. I think you old guys won't be able to live for long."

Seeing this, Gu Changge didn't care at all, and smiled lightly. He directly revealed the fact that the six Ancient Ancestors wanted to hide. His words were not without purpose.

In the past few days, he had also figured out the origin of the Absolute Heavenly Extinction aura in the Absolute Heavenly Extinction, which was the mysterious clan land.

The reason why these six old guys woke up from their long sleep was definitely that this matter endangered their life and death. That was why they took it so seriously.

While Gu Changge was speaking, a dim phantom of the ancient world emerged behind him, containing infinite mighty power to suppress it as it directly blocked all the attacks in front of him.

"What?"

Hearing Gu Changge's words, many Absolute Heavenly creatures were shocked, their eyes widened, and they couldn't believe it. How long would the Ancient Ancestors live?

"Junior, don't talk nonsense, we have existed since ancient times. The world is hard to bury, and we are with the long river of time, how can we grow old?"

The faces of the other Ancient Ancestors who had never set out of the clan land also turned cold at this moment. They didn't know how Gu Changge judged all this. However, they would not allow the secrets deep in the clan to be known by others.

As long as the water in the ancestral well kept flowing, they would not perish and grow old. No matter how much they were injured, their lifespan was exhausted, or their bodies and spirits were destroyed. They just had to drink the well water and could be reshaped and restored to their original state.

This was their indestructible reliance.

"It seems that what I said was right. In that piece of land, there is indeed the origin of the Absolute Heavenly Extinction, and it is also that thing that created you." Gu Changge smiled meaningfully.

Now, he no longer had to hide his intentions. He had no intention of helping the Absolute Heavenly Extinction forge the Reincarnation Platform. Since they had the origin of Absolute Heavenly Extinction, why would he have to seek far away?

"What do you mean?"

The Ancient Ancestor who stepped out of the clan frowned, and suddenly felt something wrong in his heart. They seemed to have underestimated Gu Changge's courage and intentions.

"You guys really aroused my great interest. Now I really want to know what is hidden in the depths of that clan land." Gu Changge said lightly and the smile on his face disappeared.

He walked straight forward as a terrifying aura permeated the entire universe where the Absolute Heavenly Extinction was located. Even the stars around him were cracked.

All the powerhouses of the Absolute Heavenly Imperial Court around couldn't bear the aura, coughing up blood and collapsing one after another.

"Could it be that he wants to attack the Ancient Ancestors?"

Looking at this scene, Jianan was also incomparably horrified and couldn't believe it.

Although she was not very old, she had a deep understanding of the six Ancient Ancestors and understood that they were truly immortal and could live forever. Although Gu Changge's strength was unfathomable and unimaginable, while facing the six Ancient Ancestors, even if he was able to fight, he would die from exhaustion in the end.

This was a fact that could not be changed.

"Junior, what do you want to do?" The faces of the six Ancient Ancestors all changed drastically. It was completely unexpected that Gu Changge really dared to attack them.

Boom!!

In the land in the deepest part of the Absolute Heavenly Extinction, while Gu Changge was taking steps, he stretched out a hand, trying to tear away the gray fog in front of him.

That place suddenly collapsed. As Gu Changge took action he didn't hide his aura at all. The palm of his hand moved across, chopping down and shaking.

The surrounding Dao collapsed, the laws were obliterated. Even the land was torn apart, and the gray mist disappeared into nothingness, making all the creatures of Absolute Heavenly Extinction terrified to the extreme.

Chapter 713: The ancestral artifact originating from the Absolute Heavenly Extinction, The Path to Dao emerges

Boom!!!

In the depths of the Absolute Heavenly Extinction, the sky was filled with gray fog as laws were destroyed, and vast energy surged.

"I want to see what you six old ghosts are capable of."

Gu Changge stepped forward as he rushed in, strong and fierce, with indifferent eyes, regardless of the fact that this place was the territory of the Absolute Heavenly Extinction.

He slapped it across the air with his big hand like a huge wave, enough to drown everything. There had been silence for ages, and there was red-gray land everywhere. But now everything had collapsed and cracked, the Great Rift Valley had been completely penetrated. It was as if the world seemed to be pierced through.

The vast gray mist was completely torn apart. The dark black thunder and lightning seemed to run through a universe, reflecting the deeper darkness there, unable to shine the slightest light.

“How dare you, junior!”

“You really think that being invincible in the outside world, you can still run wild in our place! You will have to pay a huge price, and understand that the world is bigger than you imagined.”

The expression of the Ancient Ancestor who stepped out of the Absolute Heavenly Extinction Clan’s land was extremely cold, and at the same time extremely angry.

Gu Changge’s act of intruding into the depths of the clan’s territory in one fell swoop was already slapping them in the face in front of all the Absolute Heavenly Extinction clan.

As the Ancient Ancestors of Absolute Heavenly Extinction, how could they bear this?

“Suppress him and take him down!”

The other Ancient Ancestor spoke with the same indifference and ruthlessness. It was even more difficult to conceal the murderous intent deep in his eyes. The six of them didn’t attack together.

In any case, as the Ancient Ancestors of the Absolute Heavenly Extinction, they didn’t bother to take action to suppress a junior like Gu Changge at this time. Moreover, in their subconscious minds, Gu Changge was not strong enough to require all six of them to deal with him together.

Boom!!

Among them, the three Ancient Ancestors made a move, with all kinds of profound and vast principles. It was just that their true body was manifested, and they had to go out of the clan. But this universe seemed to be unable to bear the aura they revealed, and it was about to collapse.

Especially on their cheekbones, the brilliance was so bright with the endless spiritual power surging in like a river breaking its embankment. Everyone suffocated under this kind of aura, their bodies almost exploded, and Daoism dispersed.

“It turns out that the spiritual power has already entered the Immortal Realm? The physical body is rotten, but the spiritual power is extraordinary. It seems that this is the confidence you are relying on.” Gu Changge raised his eyebrows, feeling that there was a majestic spiritual aura suppressing him.

Buzz!!

In the next moment, there was a misty radiance around him. A Dao map with black and white intertwined like a yin and yang appeared. The vast primordial energy swirled, seeming to divide chaos and evolve prehistorically.

This was the Supreme Dao Map left in that realm when the Supreme God Clan fought with the Eight Desolations and Ten Regions, and it contained supreme defensive power. This map was obtained by Gu Changge on the coast of Boundary Monument.

But he rarely used it, because not many cultivators could threaten him. The spiritual strength of the six Ancient Ancestors in front of him was already enough to crush everyone in the Upper Realm, and even the Remnant Immortals were far inferior.

Gu Changge didn't want to capsize in the gutter, so he chose to be cautious. Although he had many methods, he didn't want to expose them to others, unless he destroyed the entire Absolute Heavenly Extinction.

In addition, he always felt that someone seemed to be watching Absolute Heavenly Extinction's every move in the dark. The Reincarnation Platform was obviously the coordinates that someone deliberately left behind.

“Perhaps it's a game set up by the Ancient Heavenly Lord of Reincarnation.”

Boom!!

After thinking this, Gu Changge's expression became more and more indifferent. He stepped in, entering the depths of the Absolute Heavenly Extinction. There was a map of the Supreme Dao hanging on his head, and his whole body was filled with colorful immortal light.

A punch descended, and the surging power of blood seemed to be mixed with endless chaotic energy. The vast power surged, soaring through the sky and piercing the sky, it was so powerful that it was a complete mess.

"Young man, you will regret it." The Ancient Ancestor who was the first to attack said indifferently. His eyes were cold, and a terrifying beam shot out, like a heavenly sword that could split the universe.

At the same time, the vast spiritual power on his cheekbones was evolving, as if opening up chaos as an ancient world emerged. The vast and boundless sacrificial sound sounded.

Three thousand Gods and Buddhas appeared in it as if condensed by the laws, happy or sad, angry or furious, they all were summoned to suppress Gu Changge. However, under Gu Changge's punch, the vast chaos was filled with energy and blood, crushing all tangible things in front of him.

Boom!!

The three thousand Gods and Buddhas began to collapse, and horrible cracks appeared. Then they all exploded with a click, turning into ashes.

"Transforming reality with emptiness, but it's still far from the true reality." Gu Changge understood all of this. Although, in terms of aura, these three thousand Gods and Buddhas had all reached the level of Enlightened being. But it was just this aura, their flesh was as fragile as paper.

On the other side, another Ancient Ancestor's ultimate move also arrived. His whole body was wrapped in gray fog, only a rotten and sharp claw like a heavenly sword protruded, which easily cut through all the laws before him. It tore apart all substances, and was about to collide with Gu Changge's fist.

Boom!!

However, at the next moment, there was a crisp bone-cracking sound and an uncontrollable muffled hum. This cyan sharp claw splashed black blood, and the white bones splashed everywhere. It was directly punched by Gu Changge into a blood mist as it disappeared in the thick fog.

Seeing this scene, the other Ancient Ancestors' complexions changed, and they were no longer as calm and natural as before.

"It's me who underestimated you." Another Ancient Ancestor appeared, feeling that Gu Changge's strength was a bit beyond their imagination.

Gu Changge said lightly, "I overestimated your abilities."

Such a physical body was far less powerful than the Yan Luo he subdued when he wiped out hell. Soon, this most terrifying battle broke out amidst the terrified gazes of all the Absolute Heavenly creatures since the birth of the Absolute Heavenly Extinction.

Accompanied by a thrilling roar and a beam of light penetrating the sky and the earth. Several blurred figures, shrouded in thick fog, let out earth-shattering roars as if they wanted to shatter this universe.

A space barrier was torn apart, and large areas of Dao patterns were obliterated. The gray fog dissipated, and some of the terrifying scenes appeared in front of everyone.

"How is this possible..."

"He is facing the three Ancient Ancestors alone!"

Even the powerful members of the Absolute Heavenly Royal family felt terrified and trembling, and they wanted to kneel on the ground, unable to control themselves.

Jianan, Jia Jiu'er, and the others were terrified to the extreme, unable to control themselves.

From their field of vision, it could be seen that endless laws were pouring out there. The three towering figures were fighting with Gu Changge, and their every move brought endless divine light and Dao.

The vast spiritual power evaporated all the surrounding matter, and even the void melted, becoming nothingness. This kind of battle was too horrifying and terrifying, and the surrounding lonely small worlds exploded together.

Gu Changge was really too powerful with the sword light filled around him, there was endless immortal light emerging, and it didn't look like the three Ancient Ancestors were fighting him.

On the contrary, it seemed that he was suppressing the three of them, still appearing calm and relaxed.

"If we don't take action again, I'm afraid there will be accidents." The three Ancient Ancestors who had not done anything all this time had serious expressions on their faces at this moment.

They didn't expect that the three Ancient Ancestors would not be able to take down Gu Changge together. They even seemed to be at a disadvantage.

That black-and-white Dao map was really mysterious and weird. It actually evolved from the yin and yang, which could defuse many attacks. Gu Changge stood there, surrounded by endless silver lights.

But all the attacks including mental power evaporated on him. It was like all laws were invincible. And just when the other three Ancient Ancestors were about to make a move.

In the midst of the fighting battlefield, a terrifying light of the Great Dao suddenly emerged. Like a Heavenly Sword condensed from laws and order, it shone brightly, tearing through the sky through the ages, turbulent for a long time before it slashed at the head of an Ancient Ancestor.

All of this was really too fast, without any sign, as if it appeared out of thin air.

Puff!!

Blood splattered everywhere, and a rotten head covered with various corpse spots was thrown out in an instant. Then the remaining body collapsed into pieces and exploded into a bloody mist.

“The Ancient Ancestor has fallen...”

“How is this possible?”

Seeing this sudden scene, all the Absolute Heavenly creatures stared wide-eyed in horror, their scalps were numb, and they couldn't believe it. Many people were even more sluggish in place as if they were stupid.

How could their immortal Ancient Ancestor be beheaded today? Even his body exploded into endless blood mist?

The other Ancient Ancestors of Absolute Heavenly Extinction also did not expect Gu Changge to suddenly resort to such a method, and their complexions changed. However, they didn't show too much worry. They were not worried that their companions would perish and die.

“There is a problem with that gourd, it can kill our spirit with one blow, be careful...”

“Although we are Immortal, it would be ridiculous if our bodies were cut off because of such a small trick.”

An Ancient Ancestor had a deep gaze, staring at the Immortal Slaying Gourd in Gu Changge's hand.

The other four Ancient Ancestors nodded. After knowing Gu Changge's methods, they were no longer as contemptuous as they were at the beginning. After all, even reshaping their body was painful torture for them.

Both the body and soul must be reshaped and reconstructed. Although they had long been used to such pain, they still didn't want to suffer it again.

“The origin has been dissipated, the soul has been wiped out, and even the traces have been eliminated... Such a body and spirit is still not dead?”

Gu Changge paid attention to the expressions of the remaining five Ancient Ancestors and was even more interested in the secrets hidden in the depths of that clan land. He didn't wait for the five of them to attack together but took the lead.

This time the attack was even more terrifying. The torrential fire was burning, reflecting the three thousand worlds, and directly burning all the gray fog around. The depths of the clan's land, which was already extremely pale and blurred, now seemed even more barren.

Everyone could see the dilapidation and silence there. The earth had completely collapsed, filled with cracks, and it was not an exaggeration to describe it as fragmented.

Boom!!

This time the battle was even more tragic, and the five Ancient Ancestors fought together. Although they were not True Quasi-Immortals, their spiritual power was terrifying.

Even a Quasi-Immortal would not dare to take the lead with the means evolved. But Gu Changge used the Supreme Dao Map to protect his body.

Moon and sun circulated, life and death were intertwined, and the chaos of the sky had evolved, which was unpredictable and vast as it could dissolve all attacks. This made the five Ancient Ancestors look extremely gloomy, making it difficult to hurt Gu Changge.

They were also not sure if Gu Changge was still hiding many methods and hadn't shown his real strength. Gu Changge's expression seemed too relaxed. It even started to make them wonder if they had been in seclusion for too long.

"The level of the Supreme Dao Map itself is by no means as simple as an ordinary Daoist or Immortal weapon..." Gu Changge really didn't show his real strength.

If he wanted to destroy the six Ancient Ancestors, it was actually not difficult, but the secret of the subsequent resurrection was difficult to see clearly. Soon, there was another explosion sound here and the blood mist filled the sky.

With a bang, an Ancient Ancestor exploded. Instead of being decapitated by the gourd, he was blown up by Gu Changge's hard blow, destroyed both in his body and spirit. This scene made the other four Ancient Ancestors start to panic.

Whether Gu Changge was fighting the three of them or five of them, he acted calmly, without much difference. Moreover, he still had time to suppress and kill other people.

All the Absolute Heavenly creatures were almost speechless by all this shock, their scalps were numb, and their bodies were completely cold.

Buzz!!

Just when this Ancient Ancestor was completely destroyed, a misty radiance suddenly appeared in the depths of the Absolute Heavenly Clan's land. It was like a mist blowing from an unknown place, heavy and majestic, suppressing everyone's trembling, almost suffocating.

It became extremely dark all of a sudden, and then three hazy ancient wells appeared, shining brightly as if reflecting in the heavens and myriad worlds. There was a strange black substance floating at the mouth of the well.

The Ancient Ancestor who was killed by Gu Changge with the Immortal Slaying Gourd before was sitting cross-legged at the mouth of the well. His body was extremely blurry and faint, with strands of black matter penetrating into his body, helping him reshape his physical body.

This scene shocked all the Absolute Heavenly creatures, it was hard to imagine.

"Is this ancestral well? The secrets of the eternal life of the Ancient Ancestors are all in the ancestral well?"

There were Absolute Heavenly creatures with wide-eyed eyes, muttering to themselves, witnessing the Ancient Ancestor's reshaping of the body for the first time.

"It turns out that this is the reason why the Ancient Ancestors are immortal. No matter how many times they are destroyed, they can be rebuilt in the ancestral well?"

Jianan was also staring at all this and discovered the secrets that the Ancient Ancestors had been hiding all along. If it wasn't for Gu Changge to disperse the thick fog around the clan's land, they might not be able to see clearly for the rest of their lives.

“It turned out to be three wells? Is this the origin of the Absolute Heavenly Extinction?” Gu Changge’s eyes also fell there, and he felt a very familiar atmosphere.

He understood that it was the smell of Absolute Heavenly Extinction.

Boom!!

But at this moment, in the center of the Absolute Heavenly Imperial Court, the unfinished Reincarnation Platform suddenly trembled violently.

Immediately after that, under everyone’s horrified gazes, the Reincarnation Platform began to disintegrate on its own initiative.

A series of mysterious runes appeared, soaring into the sky, lighting up, and reflecting in the void. An incomparably mysterious and profound path appeared in a distant place under the reflection of those runes.

Chapter 714: Ancient Heavenly Lord of Reincarnation arrived, Cheap heir and master

This road was extremely clear with the pervasive golden fog extending all the way from a distant place. This scene shocked everyone. Unexpectedly, this Reincarnation Platform that had not been fully cast had caused such a terrible change.

“It seems that my guess is correct, these are the coordinates left by the Ancient Heavenly Lord of Reincarnation.” Gu Changge’s eyes flicked across, and his mind turned, but he was not surprised.

He had guessed this before and felt that there was someone who had left this behind in this Absolute Heavenly Extinction. After thinking about it, the only possibility fell on the Ancient Heavenly Lord of Reincarnation.

In the beginning, the Ancient Heavenly Lord of Reincarnation must have visited the Absolute Heavenly Extinction. Otherwise, Jianan and the others wouldn’t be looking for the descendants of the Ancient Heavenly Lord of Reincarnation to help them forge the Reincarnation Platform.

Looking at it this way now, the Ancient Heavenly Lord of Reincarnation definitely had a plan. He left his coordinates in the Reincarnation Platform, hoping to arrive here someday in the future.

As for his purpose, from Gu Changge's point of view, it was most likely related to the origin of Absolute Heavenly Extinction. Speaking of which, the true descendant of the Ancient Heavenly Lord of Reincarnation had suffered from his cruel hands.

The many inheritances left by the Ancient Heavenly Lord of Reincarnation were now in his hands. If the Ancient Heavenly Lord of Reincarnation really appeared and descended, it would be difficult to say whether he would be an enemy or a friend.

"What's going on here? The Reincarnation Platform has not been cast yet, why is it suddenly like this?"

"Who is coming?"

The golden road reaching the sky pierced through the dark sky and spread all around. This caused many Absolute Heavenly creatures to widen their eyes in shock.

"This road..."

"Isn't it the way we wanted to reveal? Who is leading this change?"

"Could it be that we have all been deceived?"

Several Ancient Ancestors also reacted all of a sudden, and their faces were extremely ugly. The Reincarnation Platform itself was used to help them reveal that mysterious and strange place. But now it was ignited ahead of time and turned into a lighthouse, guiding someone to the coordinates of this world.

If someone still did not think of it as a problem, they would not believe it even if they were killed. After all, the Reincarnation Platform hadn't been cast yet, not to mention it was even just a prototype that couldn't reach the level they wanted.

"Could it be a trick of this junior named Gu?" An Ancient Ancestor stared at Gu Changge firmly, his words were cold.

Although two Ancient Ancestors had died at the hands of Gu Changge successively, the existence of ancient wells allowed them to reshape their bodies. So they hadn't yet had any extremely dangerous thoughts in their hearts.

"It's not him, it may be due to the scripture left by the Ancient Heavenly Lord of Reincarnation back then." Another Ancient Ancestor said, his tone was very firm, and he was not suspicious.

At this time, several other Ancient Ancestors also reacted. It was the Ancient Heavenly Lord of Reincarnation who left them the casting method of the Reincarnation Platform.

He had informed them that through the Reincarnation Platform, they could discover the mysterious land that also belonged to the Ancient Heavenly Lord of Reincarnation. There, if the Ancient Heavenly Lord of Reincarnation moved something, they would have nothing to do.

"We were tricked by him." An Ancient Ancestor's expression quickly turned ugly.

The Ancient Heavenly Lord of Reincarnation was the supreme existence during the ancient time of Immortals. He controlled the Laws of Reincarnation and could step into the long river of time. If such a character was determined to plot against them, it would be difficult for them to notice anything.

What was more, in the beginning, the Ancient Heavenly Lord of Reincarnation swore an oath and made a deal with them. Who would have thought that the Ancient Heavenly Lord of Reincarnation would dare to violate a Dao oath?

"It seems that you guys are not stupid, and finally understand. Unfortunately, at this time, it is too late." Gu Changge laughed lightly, and seeing the expressions of the Ancient Ancestors of Absolute Heavenly Extinction, he knew that they had understood.

"Damn it, in the end, it turned out to be in vain..."

"I hate it!"

In the depths of the Absolute Heavenly Extinction, a terrifying fog swept in again. Accompanied by the palpitating black lightning that pierced the sky, as if to split the universe.

Once the Ancient Ancestors figured it all out their emotions fluctuated greatly with anger, regret, and even despair. The ancestral well was about to dry up if they couldn't find that mysterious land again.

Then it won't be long before they would be eaten away by death, and they would truly die, making it impossible to reshape them.

At this moment, all the creatures of Absolute Heavenly Extinction felt the despair of the Ancient Ancestors, and couldn't help kneeling on the ground. They didn't know why the Ancient Ancestor became so desperate, and they couldn't figure it out.

Boom!!!

And just at this moment, there seemed to be some kind of terrifying fluctuations permeating the distant sky. That golden road kept spreading out.

There was a sacred light descending, like a burst of immortal echoes, welcoming someone. Everyone saw a vague Daoist figure, who seemed to be crossing across the galaxy.

Jianan and the others even felt palpitations, as if their spirits were frozen under the gaze of that figure. This kind of vast power was even more frightening than their Ancient Ancestors.

“Ancient Heavenly Lord of Reincarnation!!”

“It really is him!!”

Seeing this Daoist figure, the complexions of the Ancient Ancestors became gloomy, and extremely ugly, revealing an astonishing killing intent. They didn't expect that the Ancient Heavenly Lord of Reincarnation, who had disappeared for countless years, was still alive. He even came to Absolute Heavenly Extinction using this method.

“Is this the Ancient Heavenly Lord of Reincarnation?”

“The aura is extremely deep, not like a simple person. He is worthy of being the overlord of the Ancient Immortal era.” Gu Changge's eyes also fell over, with great interest.

He could feel that the Reincarnation Platform that he received when he was in the Immortal Ancient Continent was shaking, and the many Dao runes on it were recovering.

Originally, after he obtained this object, he devoured and absorbed the Dao of Reincarnation in it, and condensed a Reincarnation Seal as a means of saving his life.

Afterward, the object became as if it was dead, completely losing all spirituality. But he never thought that it would recover again today, and a completely different force would emerge.

“It seems that the Ancient Heavenly Lord of Reincarnation had a deep meaning in leaving the inheritance.” Gu Changge’s thoughts surged, suppressing this Reincarnation Platform as his eyes suddenly became extremely deep.

He really wanted to know, what was the Ancient Heavenly Lord of Reincarnation hiding behind the Heavens for so long? What was he plotting?

The Ancient Heavenly Lord of Reincarnation at the peak period definitely surpassed Enlightened beings. His plot was definitely not as simple as becoming Immortal.

“Immeasurable Heavenly Lord greets Daoist brothers.”

Soon, the golden avenue stretched from outside the sky and quickly descended to the center of the Absolute Heavenly Imperial Court.

The Ancient Heavenly Lord of Reincarnation appeared and walked over, wearing a star crown in feathers and fluttering Daoist robes. He looked only thirty or forty years old, but he was Immortal, giving people a sense of immortality in the world.

With a kind smile on his face, he lightly brushed the Reincarnation Platform in front of him, his eyes seemed to be full of nostalgia and emotion.

“Thanks to it, the poor Daoist can find his way back.” While speaking, he seemed to be quite nostalgic, with a deep reminiscence color.

However, the few Ancient Ancestors standing deep in the Absolute Heavenly Clan didn't say a word, they just looked at him indifferently, extremely cold. They were not stupid.

At first, it was because of his Dao oath that they mistakenly believed in the Ancient Heavenly Lord of Reincarnation. Now after reacting, they understood that the Ancient Heavenly Lord of Reincarnation definitely had another purpose, with deep calculations and plans. The visitor was not here with good intentions.

"You are the heir of the poor Daoist, right?" Looking away from the Reincarnation Platform, the Ancient Heavenly Lord of Reincarnation looked at Gu Changge and said very kindly.

Gu Changge's expression was still calm and breezy. Hearing this, he just smiled and said, "Senior, you have mistaken someone. This junior is not your heir. Instead, I killed the heir you chose and took his inheritance as my own."

What he said was extremely casual and natural, without any concealment. Since the Ancient Heavenly Lord of Reincarnation had already calculated, he must know that he was definitely not the heir he chose.

And upon hearing this, many Absolute Heavenly creatures were extremely shocked and in an uproar. They always thought that Gu Changge was the true successor of the Ancient Heavenly Lord of Reincarnation, and they didn't know about it at all.

The true heir of the Ancient Heavenly Lord of Reincarnation was killed by Gu Changge long ago.

Yet upon hearing this, the expression of the Ancient Heavenly Lord of Reincarnation didn't change much. He seemed to have known about it for a long time. So he just smiled and said, "No matter what the reason is, as long as you received the inheritance of the poor Daoist, then you will naturally be the successor of the poor Daoist."

What he meant was that no matter how Gu Changge got his inheritance, as long as his inheritance fell on Gu Changge in the end, then Gu Changge was his successor.

"Oh, the junior should call the senior Master?" Gu Changge raised his eyebrows lightly, and said with a faint smile, still without the slightest respect in his words.

The Ancient Heavenly Lord of Reincarnation didn't seem to care about this at all, and said with a smile, "Why should you stick to these common etiquettes between you and me?"

To be honest, when he saw Gu Changge for the first time, he was actually extremely amazed and unbelievable. After all, from the perspective of age, Gu Changge was not very old. However, his cultivation had reached a point where he gave a vast aura. Something that even gave him a feeling of extreme danger in the dark.

The Ancient Heavenly Lord of Reincarnation intended to trace the fragments of time, trying to deduce Gu Changge's origin and future. But a great crisis and unimaginable terror suddenly enveloped him, almost causing him to suffer a huge backlash. So he had to stop, not daring to continue spying.

The origin of this cheap successor in front of him was beyond his imagination. At least the current him was far from being able to touch.

"Birds of the same flock, are you still starting to cherish each other at this moment?"

The Ancient Ancestors had been watching all this with cold eyes. They didn't expect that the Ancient Heavenly Lord of Reincarnation didn't care about Gu Changge's identity at all. He didn't care that Gu Changge killed the true heir of the Ancient Heavenly Lord of Reincarnation and took away his fortune.

"Brother Daoist, are you fine now? From my point of view, the few of you must have almost reached the point where the oil has exhausted."

Hearing this, the Ancient Heavenly Lord of Reincarnation turned his eyes away from Gu Changge, and smiled at the Ancient Ancestors, looking tepid. He was only of medium stature, standing in front of several Ancient Ancestors standing in the sky, he looked extremely small.

But there was a terrifying aura pervading his body, even the laws and order were blurred as no one dared to underestimate him.

"At the beginning, you made an oath to help us find that mysterious land. Now that you have broken the contract and betrayed us, aren't you afraid that your Dao heart will suffer backlash?" An Ancient Ancestor said with an ugly face and was poked by the Ancient Heavenly Lord of Reincarnation.

“This guy indeed swore to help fellow Daoists find that place. Of course, the premise is that all Daoist brothers have to hand over the three mysterious ancestral wells to me...”

The Ancient Heavenly Lord of Reincarnation had a kind smile on his face, but his eyes were filled with indifference and deepness.

At this time, he didn't hide his intention and purpose. From the beginning to the end, his purpose had not changed. In the past, he was afraid of the means of the six Ancient Ancestors who were almost Immortal.

But later, when he realized that their greatest reliance was the three mysterious ancestral wells, he began to plan, waiting for the wells to dry up before doing anything. Because even if the six Ancient Ancestors were resurrected and reshaped, they would fall into weakness for a period of time.

And the process of resurrection and reshaping was the process of consuming the well water of the three mysterious ancestral wells. When the well water eventually dried up, they would also have the day when they would truly die.

“Ancient Heavenly Lord of Reincarnation, don't even think about it. The ancestral well is where our origin lies, how can we allow you, an outsider, to get involved?” Except for the Ancient Ancestor who had not yet reshaped his body.

The faces of the five Ancient Ancestors here were all gloomy, with murderous intent raging.

“Immeasurable Heavenly Lord. Since the preacher of the poor Daoist is here today, it happens that the three ancestral wells are occupied by the two of us. If you fellow Daoists are smart, don't be stubborn.” The Ancient Heavenly Lord of Reincarnation shook his head as if gently persuading the Ancient Ancestors.

He looked like an Immortal, but since he had been able to calculate for so long, plan in the dark places of the Heavens, and be dormant for endless years, he was naturally not a simple and kind person.

And he could tell that before he came here, his cheap heir, had already fought against the six Ancient Ancestors. The two Ancient Ancestors even fell because of this, had to reshape their bodies, and fell into a period of weakness.

Gu Changge looked at the Ancient Heavenly Lord of Reincarnation with a slightly strange look, and it was difficult to guess his real purpose. Would it be too simple if the Ancient Heavenly Lord of Reincarnation hibernated for so long just to eliminate the Origin of Absolute Heavenly Extinction?

He always felt that the Ancient Heavenly Lord of Reincarnation had other intentions. Having been hiding in the dark for so many years, he must be planning something else.

“Let’s see what he is planning, maybe it can be used by me.”

Many thoughts flashed through his mind, Gu Changge’s complexion returned to normal. He smiled at the Ancient Heavenly Lord of Reincarnation and said, “Since master has said so, Changge will naturally help the master win these three mysterious ancestral wells today.”

“It’s so good. Then this master and my disciple can take this thing today to get a glimpse of the secret of eternal life.” The Ancient Heavenly Lord of Reincarnation was taken aback for a moment, then nodded with a smile.

In fact, he didn’t expect Gu Changge to change so quickly, and he looked calm and indifferent just now. But after thinking about it, he was a giant powerhouse since ancient times, and many legends about him were still circulating in this world.

Although Gu Changge’s background was unknown, he didn’t seem like a stupid person who didn’t understand how to choose at this time. Compared to offending him, his master, it was better to take the opportunity to establish a good relationship with him, so as to seek more benefits.

Chapter 715: Affecting the battle of the world, The curse of the Ancient Ancestors

In the depths of the clan land, the gray mist was surging. The Ancient Ancestors of Absolute Heavenly Extinction stood as they saw that the cheap master and apprentice pair of Ancient Heavenly Lord of Reincarnation and Gu Changge was unabashedly trying to snatch their ancestral well in front of their faces.

Their faces suddenly turned gloomy, as if they were about to drip water while their murderous intent surged. Although Gu Changge was young, his true strength was unfathomable and difficult to guess.

In the short period of time just now, two of them had been killed one after another.

When the Ancient Heavenly Lord of Reincarnation was at his peak, he was the dominant figure in the Ancient Immortal era, his cultivation was unrivaled and surpassed the Immortal Realm. Such a character had unimaginable means even in this era.

The only thing they could rely on now was the three ancestral wells, which could continuously reshape their physical bodies. Otherwise, they would definitely not be the opponents of Gu Changge and the Ancient Heavenly Lord of Reincarnation.

All the creatures of the Absolute Heavenly Extinction looked at the scene in front of them and trembled to the extreme with horror. For endless years, no one had ever broken into the depths of the clan's territory, let alone alarmed the birth of the Ancient Ancestor.

But now, Gu Changge forced his way into it, and even killed two Ancient Ancestors, causing them to reshape their bodies. The Ancient Heavenly Lord of Reincarnation from the ancient time of Immortals had reappeared now, wanting to kill their Ancient Ancestors.

For the entire Absolute Heavenly Extinction, this was tantamount to an earth-shattering and terrifying event as it had reached the verge of life and death. Everyone was terrified, and could only kneel on the ground under that unrivaled aura.

Even those Enlightened beings Absolute Heavenly creatures felt chills all over their bodies. They had a premonition that the entire Absolute Heavenly Extinction would probably become fragmented if not destroyed today.

At this moment, Jianan, Jia Jiu'er, and the others felt like ants. A little aftermath could destroy them thousands of times.

"There are six of them in total, one is still reshaping his body, the other is in a weak state. You and I can each kill two of the remaining four, how about that?"

The Ancient Heavenly Lord of Reincarnation looked casually at the remaining Ancient Ancestors and asked Gu Changge with a smile. He seemed very confident, even though he knew that the six Ancient Ancestors were hard to kill, he was still calm.

Gu Changge smiled lightly when he heard the words, "Then I'll follow Master's words."

“You’re looking for death.” Seeing this, several Ancient Ancestors uttered angrily, feeling that they were being underestimated. Their sound shook the sky, tearing the sky like lightning.

Terrible black lightning, one after another, stretched endlessly, as if torn from another universe as it descended straight toward Gu Changge and the Ancient Heavenly Lord of Reincarnation.

Like a True Black Dragon, all laws and order were annihilated and dissipated under it. This place suddenly turned into a black hole, vast and surging.

“Very good. I’ll use these few people to show you the power of Reincarnation.” The Ancient Heavenly Lord of Reincarnation nodded and said with a smile.

While speaking, the figure disappeared from the spot immediately, as if he was walking over.

Buzz!!

A hazy and void domain of laws spread out from his footsteps, submerging all directions. Within the laws of this domain, the flow of time seemed to have slowed down, and everything in the world had begun to become stagnant.

The domain of law was like slowing down time thousands of times. Under the gaze of the Ancient Heavenly Lord of Reincarnation, it even began to collapse.

The black lightning fell down, but it seemed to have decayed for thousands of years in an instant, and began to disintegrate, gradually turning into nothingness.

This was a shocking scene as the Ancient Heavenly Lord of Reincarnation seemed to be walking in the field of time. Wherever he looked, it was the time domain, and all Daoism and divine powers were under his control.

All creatures were shocked to the extreme, unable to imagine this kind of power.

Boom!!

The Ancient Heavenly Lord of Reincarnation shook his sleeves as the space before him collapsed all of a sudden, turning into a cycle of life forever. All creatures and order were trapped in it, forever trapped in a Reincarnation, continuing life and death.

“So what if you can use the time domain? Within this clan, we are invincible. You will have to pay a heavy price today, the Ancient Ancestors must not be humiliated!” An Ancient Ancestor roared, wanting to break free from the shackles of such laws.

Thick chains pierced through the terrifying gray fog, like mountains. Heavy and majestic, suppressing the head and making it hard to breathe. In the depths of the clan’s land, an even more chaotic thunder descended.

It seemed that the gods wanted to punish the disrespectful creatures in the world. Every inch of space trembled, and a black whirlwind blew up between Heaven and Earth. Accompanied by black rain and ominous thunder, it fell toward Gu Changge and the Ancient Heavenly Lord of Reincarnation.

Several other Ancient Ancestors also made a move as their decayed bodies shrouded in gray mist suddenly burst into immeasurable light. The big hand stained with black blood slapped down toward the two people below.

The chains of order, accompanied by the sound of clattering, seemed to be dragging a group of evil spirits.

Boom!!

In the next moment, the brilliant fists rained down suddenly, like the fists of a bright golden sun before it directly hit one of the arms. The black blood splashed, and the thick gray mist was suddenly dispelled.

“I overestimated your power. Your spiritual power is transcendent, but that’s all...” Gu Changge abandoned his previous detached and immortal appearance.

His eyes were cold and sharp while his fists were powerful and sacred accompanied by the chaotic aura, like a piece of eternal sky, covering and crushing toward the bottom.

The arm of an Ancient Ancestor exploded in an instant. It shattered into the blood mist and drifted apart before it collapsed in an instant in the collision of the flesh. This was an indescribable suppressive power, the fluctuation of the physical body alone was enough to shake the universe.

All the creatures of Absolute Heavenly Extinction trembled and feared. Witnessing with their own eyes that their invincible Ancient Ancestors were being repeatedly beaten up by Gu Changge.

Some Absolute Heavenly creatures who were very close were trembling constantly. Under this aura, their bodies began to crack and blood continued to surge.

The endless gray fog exploded, revealing the scene deep in the clan's land. This world was dilapidated with the vast land full of scars, and ruins were everywhere. Now under the attack of Gu Changge and the Ancient Heavenly Lord of Reincarnation, every inch was broken.

The void was cracking, the laws of Heaven and Earth were exploding, the divine chain of order was broken, and the Dao pattern was obliterated, leaving nothing left. Three mysterious and lofty ancestral wells emerged as they reflected at the end of the clan, covering this world.

The six Ancient Ancestors were blown up one after another. Even though their spiritual power went against the sky, they could evolve and use many unparalleled methods. But in the face of the power of absolute suppression, there was still no way to resist as they exploded very quickly, destroying both their body and spirit.

Buzz!!

A mysterious and misty aura flowed from the ancestral well, covering the six Ancient Ancestors.

After someone's body collapsed, it didn't take long for someone to emerge from the ancestral well, quickly reshaping the physical body. The spiritual power entered the sea of consciousness between the brows, and they once again attacked Gu Changge and the Ancient Heavenly Lord of Reincarnation.

The sky was turned upside down here, and the entire gray sky was collapsing. This big world couldn't bear the aura. The turbulent aura seeped out from the broken cracks and spread to the outside world.

At the same time, among the many forces in the Upper Realm, there was an ancient existence with a high level of cultivation, who suddenly opened his eyes and felt the fluctuations from distant space. This kind of fluctuation made him feel palpitations, even anxiety, and fear.

“That wisp of gray mist has come again, descending into the world again...” Someone thought of something, and a look of fear appeared in his eyes.

The fluctuations in the great battle in the Absolute Heavenly Extinction were so terrifying that it even alarmed many old monsters. They came out of the dusty place or appeared from the underground palace and the ancient caves, looking at the place where the battle was fought.

In the land shrouded by the absolute Heavenly Extinction, within the territory of nearly ten thousand miles in radius, there were no living beings and no sects. But it did not prevent them from deducing and guessing what had happened.

“If the Absolute Heavenly Extinction erupts again, without the power of the Immortal Realm, no one can suppress it.”

“At that time, within a radius of hundreds of millions of miles, all living beings will be wiped out and everything will be exterminated.”

In the True Immortal Academy, several elders stood in a pavilion with a chessboard and compass placed in the center, as if they were deducing something. The Great Elder of the Heavenly Dao Immortal Palace was also here, with an extremely dignified expression.

There was also one of Gu Xian'er's Masters from Peach Village, a figure of the same era. His true strength was unfathomable, and he was one of the pinnacle existences in the current Upper Realm.

Even he felt that it was extremely difficult, which went on to describe the difficulty.

“Did it come out? Is it true that something had happened in the Absolute Heavenly Extinction, causing Absolute Heavenly auras to suddenly spread out?” The Great Elder asked with a serious expression, worried.

“Reporting to the Great Elder, there is indeed a problem with Absolute Heavenly Extinction, and I don't know why.”

“The aura of Absolute Heavenly Extinction, which seemed extremely dead before, now seems to be boiling, sweeping in suddenly.”

“Many space cracks also appeared, from which a large amount of Absolute Heavenly energy had rushed out. Many of the surrounding forces were too late to migrate, and had already been submerged.”

When the elders in the pavilion heard the words, they all replied solemnly. They also noticed this all of a sudden, and there was no sign of it at all before. Even a long time ago, when the Absolute Heavenly Extinction appeared, it never erupted so suddenly.

“First find a way to stabilize the space around Absolute Heavenly Extinction, so as to prevent the aura of Absolute Heavenly Extinction from spreading and engulfing the rest of the ancient world, otherwise the consequences will be disastrous. I’ll contact the rest of the Immortal Lineages and let them take action.” The Great Elder said solemnly and began to give orders.

The purpose of the establishment of the True Immortal Academy at the beginning was to prevent Absolute Heavenly Extinction from causing unspeakable disasters to the Upper Realm in the future. But right now, the Immortal Project had not yet succeeded, and such a terrifying riot broke out in the Absolute Heavenly Extinction.

All this was too unexpected.

“Could it be that a terrifying creature in the Absolute Heavenly Extinction has recovered?” An elder said with concern, unable to bear such speculation.

And just when the entire Upper Realm was feeling worried and uneasy because of the riots in the Absolute Heavenly Extinction.

In the depths of the Absolute Heavenly Extinction, Gu Changge was fighting with the six Ancient Ancestors. He didn’t know that the fluctuations in this place had already spread to the Upper Realm, and caused many forces to be swallowed up by the Absolute Heavenly aura.

Of course, even if he knew, he didn’t care. The origin of Absolute Heavenly Extinction was right in front of him, and to him, this matter was even more important.

“You are already weak to this extent, I am afraid that it will not be long before the mysterious substance in the ancestral well will be exhausted. If you don’t want to be truly destroyed, you should obediently hand over these three wells to the point before the origin is really exhausted.” The Ancient Heavenly Lord of Reincarnation opened his mouth lightly.

He appeared under the ancestral well, and confronted the six Ancient Ancestors who were reshaping their bodies. He seemed very unhurried. Even in the battle with several Ancient Ancestors, there was no sign of exhaustion. Although his current strength was far from the peak. But it was easy to deal with the six Ancient Ancestors who were constantly being weakened in front of him, let alone Gu Changge who made him unable to see the truth.

In the battle with several Ancient Ancestors just now, Gu Changge’s performance really made the Ancient Heavenly Lord of Reincarnation vary, and he couldn’t help but keep an eye on him.

He felt that Gu Changge was definitely the same person as him. His thoughts were as deep as an abyss, his emotions and anger were invisible, and it was difficult to see what he really thought.

Until now, the Ancient Heavenly Lord of Reincarnation didn’t know the reality of Gu Changge, nor did he know what methods he had. Although the two had a relationship of cheap master and apprentices in the name. But they absolutely didn’t take this matter to heart, they were all on their own guard.

“Ancient Heavenly Lord of Reincarnation, sooner or later you will regret your actions today.”

“Dao is everywhere. Since you dare to break the contract, you will naturally bear the due karma in the future.”

The six Ancient Ancestors coldly looked at the Ancient Heavenly Lord of Reincarnation. Their figures were faint, and their aura was no longer what it used to be. Although there were three ancestral wells behind them, reshaping everything for them, this process also needed to consume the substances in the ancestral well, and it was not a long-term solution.

What was more, the Ancient Heavenly Lord of Reincarnation was right, when the material in the ancestral well was exhausted, it was the time when they would really die. However, the Ancient Heavenly Lord of Reincarnation still didn’t care about it.

“After the Taboo Era, the Dao collapsed and the Immortal Path was cut off. Even if the poor Daoist swears by the Dao, how will it manifest to punish the poor? If the Dao is manifested, why should

the poor Daoist be dormant for endless years, making it difficult to see the Dao fruit in that realm?” He said lightly, with a sneering attitude toward Dao.

When Gu Changge heard this, his eyes moved slightly. The Dao had collapsed and it was hard to see the Dao fruit.

In the Immortal Ancient Era, the Ancient Heavenly Lord of Reincarnation already existed beyond the Immortal Realm. Could it be that the realm he wants to spy on was above the Immortal Realm?

Then what was this boundary? The Immortal King, Immortal Emperor or the Dao Ancestor?

In this life, the Immortal Path was destined to manifest, and the Ancient Heavenly Lord of Reincarnation had appeared at this time. His plot was definitely not just as simple as the Immortal Realm.

Gu Changge still remembered that before Gu Qingyi left, she told him that the Upper Realm would encounter unimaginable drastic changes. Could this upheaval be related to the Ancient Heavenly Lord of Reincarnation?

“It turns out that you didn’t care about that oath a long time ago, and you have been deceiving us all this time?”

“Hateful!!”

After knowing the truth from the Ancient Heavenly Lord of Reincarnation personally, the faces of the six Ancient Ancestors turned extremely ugly. Their emotions could no longer be described as anger.

“But you still have to pay the due price for this, with my Immortal Soul, engraved in the long river of time, I’ll curse you!”

They were not simple people. After understanding all this, they immediately made a decisive decision. Someone’s body quickly blurred, every inch of the body seemed to be burning, and endless fog filled the air.

Some kind of weird rune flew out of the thick fog, bursting with endless light, and quickly burned to nothing in the void.

Chapter 716: I accept it, It could be converted into a huge benefit

The Ancient Ancestors of the Absolute Heavenly Extinction were extremely decisive. After understanding the cause and effect of the matter, they immediately chose to burn themselves.

They received a strange aura from somewhere and used it to curse the Ancient Heavenly Lord of Reincarnation. It could be seen that their hatred and murderous intentions for the Ancient Heavenly Lord of Reincarnation were so deep that they couldn't wait to smash him to pieces.

Rumble!!

The dome of the sky was broken and fragmented like an ancient mirror that was already full of cracks. The terrifying gray fog spread and engulfed it continuously.

“Burning my soul, cursing the world. The world will be overturned, the sun and the moon will lose their light...”

An Ancient Ancestor was full of murderous intent as he fixed his eyes on the Ancient Heavenly Lord of Reincarnation. He gave up the last chance of immortality, and let himself be crushed and disintegrated.

Every inch of his soul light was burning, as if countless wronged souls had been released. Covering the sky and the earth, drowning towards the Ancient Heavenly Lord of Reincarnation.

At this moment, even someone as indifferent as the Ancient Heavenly Lord of Reincarnation changed his complexion a little.

“You are really ruthless. Even trying to take me down with you?” However, he recovered quickly as he mouthed lightly, and shook his head.

At the same time, the robe flicked forward and some kind of grand and supreme laws emerged.

Buzz!!

The blurry black and white divine light spread out like a Dao, constantly rotating and zooming in, covering all the gray fog that engulfed him. But, he was an Ancient Ancestor, and one should not underestimate the curse birthed by the igniting and burning of his soul.

On the face of the Ancient Heavenly Lord of Reincarnation, a ray of blue appeared. It seemed that some kind of unknown substance was contaminating him. This made him frown as he tried to drive out the blue substance. However, this streak of blue substance was like a tarsal maggot, branded on his face, difficult to erase.

“The power of the curse, an unknown source?” Gu Changge noticed this scene and raised his eyebrows.

He thought of the creatures that had been contaminated and corroded by the aura of Absolute Heavenly Extinction that he had seen when he was outside. Logically, once one had reached the level of the Ancient Heavenly Lord of Reincarnation, ordinary unknown substances, let alone contaminate him, even if they got close to him, it was impossible to even touch him.

However, at the cost of the burning of an Ancient Ancestor of the Absolute Heavenly Extinction, the wisp of matter that was attracted was not included in this list. This made Gu Changge a little curious. Where did the origin of the Ancient Ancestor of Absolute Heavenly Extinction come from?

Logically speaking, it was unlikely that such a substance would appear in the current Upper Realm.

“It seems that you still have some tricks up your sleeve. This curse is quite weird, and it will make it difficult for the poor Daoist to get rid of this curse for a while.”

The complexion of the Ancient Heavenly Lord of Reincarnation didn’t change much because of this curse, and he recovered quickly. He looked at the remaining Ancient Ancestors and uttered.

This wisp of green energy appeared and disappeared on the face from time to time, which looked extremely strange.

“Even this curse can’t stop you, it seems that our time is really numbered.” The few remaining Ancient Ancestors sighed softly. They seemed to look away at this time and stood quietly at the end of the clan.

Seeing this scene, Gu Changge had a premonition of something, and couldn't help frowning.

“What do you want to do?”

The Ancient Heavenly Lord of Reincarnation also noticed something, his expression changed from indifference just now, and he looked a little gloomy.

“Since we can't protect the ancestral well, the ancestral well will be buried here with us today.”

“Accomplished in the ancestral well and returned to the ancestral well, this can be regarded as our final destination.”

The remaining five Ancient Ancestors all spoke together with unusually indifferent and calm expressions, as if they were discussing a trivial matter.

“What?”

All the Absolute Heavenly creatures also widened their eyes when they heard this. They were shocked, feeling unbelievable. The Ancient Ancestors actually planned to destroy the ancestral well.

Didn't that mean that the entire Absolute Heavenly Extinction will be destroyed together?

All the creatures of Absolute Heavenly Extinction would also be buried here and fall into eternal silence. They couldn't believe all of this. How could things come to this point suddenly?

“You want to destroy the origin?”

The expression of the Ancient Heavenly Lord of Reincarnation was abnormal, not as indifferent as before. For a long time, he had been plotting against Absolute Heavenly Extinction for these three ancestral wells.

And now these Ancient Ancestors actually planned to destroy the ancestral well? How could this keep his mind from being in a state of chaos as his killing intent surged?

But these Ancient Ancestors of Absolute Heavenly Extinction no longer intend to talk nonsense. Even with the ancestral wells, they were not the opponents of Gu Changge and the Ancient Heavenly Lord of Reincarnation. Even if they continued to fight with them, they would only end up exhausted in the end.

“Damn it.”

The complexion of the Ancient Heavenly Lord of Reincarnation changed drastically. He wanted to stop all this. The time domain spread away, but it was still too slow.

Boom!!

The terrifying gray beam of light, like a divine light soaring into the sky, pierced and tore apart the sky. The three mysterious ancestral wells reflected in the sky emitted endless light and were lit by the five Ancient Ancestors.

This kind of light was too bright like three round brilliant suns rising in the darkness. But at the next moment, there was a heart-shattering crackling sound. Terrible cracks began to appear in the three ancestral wells.

The terrifying energy was surging and vast, like a river breaking its embankment, suppressing everyone so that they couldn't breathe. Even the five Ancient Ancestors were almost crushed at this moment, making it difficult to stand upright.

The origins of these three ancestral wells were too mysterious, even if they got them by chance, they had no idea about their true origins.

Even if they occupied and studied it for endless years, it was still difficult to see the mysterious runes in these three ancestral wells. However, they had occupied the three ancestral wells for a long time, and they still had some control over them.

So at this time, they all held the idea that it would be better to have it destroyed. They insisted on making the Ancient Heavenly Lord of Reincarnation and Gu Changge pay the price, and they would not let their plan succeed.

But at this moment, the entire Absolute Heavenly Extinction began to collapse because of the collapse of the three ancestral wells. The vast energy released was like a flood, constantly washing away everywhere, causing the space barrier to shatter and explode.

The Ancient Heavenly Lord of Reincarnation sacrificed a golden seal, covering the front, to prevent the three ancestral wells from breaking. Yet the remaining five Ancient Ancestors obviously had guessed his intention long ago.

At this moment, they didn't care about anything and rushed toward him, trying to stop him. The five people worked together, displaying unprecedented terrifying strength. With every gesture, the vast energy boiled violently.

Hundreds of thousands of strands of law and order were turned into various divine weapons, evolving mountains and rivers that suppressed them all.

"You are looking for death." The complexion of the Ancient Heavenly Lord of Reincarnation had long been extremely ugly.

He had hidden a lot of strength before, but at this juncture, he couldn't care about it at all.

The five Ancient Ancestors attacked him, but they didn't care about Gu Changge on the other side. In their eyes, the Ancient Heavenly Lord of Reincarnation calculated the origin of the ancestor artifact for a long time, and this object must be of great importance to him.

On the contrary, Gu Changge was just a young junior. Although his strength was terrifying, his means might not be more powerful than that of the Ancient Heavenly Lord of Reincarnation.

Facing the ancestral well that was exploding, even they were helpless. What could Gu Changge do?

"No matter how much you can collect, go find the fragments of the broken ancient well at this time..."

"Even if they are only fragments, they contain unimaginable mysteries."

The Ancient Heavenly Lord of Reincarnation was also aware of the intentions of the Ancient Ancestors as he uttered to Gu Changge while fighting with them. He didn't think that Gu Changge would be able to stabilize the ancestral well that was bursting.

So he just hoped that he could collect more fragments at this time. And this was the only way.

“Master, don't worry, this disciple will go collect it now.”

Gu Changge smiled lightly when he heard the words. Naturally, he would not refuse, his figure disappeared from the spot immediately as he rushed toward the three ancestral wells that were collapsing in the distance.

He was still thinking about how to take this ancestral well of origin as his own without the knowledge of the Ancient Heavenly Lord of Reincarnation. Now, this great opportunity was right in front of him.

“It's ridiculous, the power of the ancestral well is so vast. We can only borrow it. Now it has fully erupted, let alone him, even if you go rashly, you will be turned into dust, and your body and spirit will be destroyed.”

The five Ancient Ancestors spoke coldly, not caring about the Ancient Heavenly Lord of Reincarnation ordering Gu Changge to collect the fragments.

In their view, no matter how strong Gu Changge was, it was impossible for him to persist in that vast power for a long time. The physical body would soon collapse and explode, turning into a blood mist, and eventually, the body and spirit would be wiped out.

“You really underestimate this poor Daoist's disciple.” Hearing this, the Ancient Heavenly Lord of Reincarnation just spoke indifferently.

The big golden seal hanging on the head was shining with immortal light. The words containing the profound meaning of the Immortal Way were like big stars, arranged in the surrounding void, matching the number of stars in the sky.

This was an ancient grand formation that could refine Immortals and transform Demons. Although he was no longer at the peak of his cultivation, he could still seal off the five Ancient Ancestors in front of him to refine them.

He still had great confidence in Gu Changge. Although he didn't believe that Gu Changge could regain most of the ancestral well fragments, there were definitely some of them.

This was the intuition of the Ancient Heavenly Lord of Reincarnation.

Rumble!!

In the deepest part of the clan, endless gray mist emerged as the three ancestral wells were broken as if some kind of shackles had been opened. From the ruptured well mouth, an endless gray fog rushed out, drowning everything around it.

The sky, which was originally gray and dark, also became fragmented, with endless cracks appearing. Absolute Heavenly Extinction mist spread out from here and rushed to the outside world.

"No, the sky is collapsing, the Absolute Heavenly Extinction will be destroyed, and all of us will be submerged here."

"The Ancient Ancestors abandoned us."

"Why..."

All the Absolute Heavenly creatures watched this scene in despair, and there were wailing voices everywhere.

They really couldn't believe that in the end, it would be their most revered Ancient Ancestor who would cause their destruction.

Jianan, Jia Jiu'er, and the Absolute Heavenly Royal family also turned pale, trembling, and fell into despair. They were regarded as believers in the Ancestors, and after knowing that they had no hope of eternal life, they insisted on dragging the entire Absolute Heavenly Extinction to be buried with them.

Even if it was to destroy the ancestor artifact, they did not hesitate. This ruthlessness and determination made them bitter and dejected, full of despair.

On the other side, Gu Changge passed the Ancient Heavenly Lord of Reincarnation and the five Ancestors who were fighting and quickly disappeared into the gray fog. The surging energy, like the backlog and collision of several big worlds, wanted to wipe out any living beings who broke into this place.

Feeling this terrifying crushing force, Gu Changge couldn't help frowning. Although his physical body was unparalleled, it didn't mean that it was comparable to the Supreme Immortal Gold and could endure thousands of calamities.

In this place, if an Enlightened being took a small step, they would explode in an instant, turning into a blood mist. The body would die and the soul would disappear.

He also began to have tiny cracks in his body. But under the tyrannical and terrifying vitality, these small cracks quickly healed and disappeared.

“Fortunately, these three ancestral wells have not yet completely collapsed, and one of them is almost complete.”

Gu Changge's eyes moved, and he noticed the scene in the depths. The three floating ancestral wells were like three rounds of brilliant suns, reflecting dazzling and splendid brilliance.

One of the ancestral wells had been torn apart, pieces of debris splashed out, annihilated everything silently in the void, and turned into some kind of complicated runes. If it was not collected in time, it would soon disappear and cease to exist.

“No wonder the Ancient Heavenly Lord of Reincarnation asked me to collect the fragments. It turns out that he has known for a long time that these three ancestral wells were condensed with some kind of runes.”

Seeing this situation, Gu Changge was a little taken aback. But at this time, his attention was not on the crumbling ancestral well. It was on top of another nearly complete ancestral well.

Although the five Ancient Ancestors had controlled these three ancestral wells for a long time, until now, they had not studied them thoroughly. Even if they insisted on destroying the three ancestral wells, it would take some time.

This point might not even have been expected by the Ancient Heavenly Lord of Reincarnation.

“In that case, I will accept this ancestral well. As for the fragments, hehe...”

When Gu Changge thought of this, he couldn't help but smile a little, and then raised his hand to unleash the Great Dao treasure bottle.

The terrifying mouth of the bottle was like a black hole that could swallow the sky, exuding a terrifying and palpitating aura.

With that, even the three ancestral wells in front of him trembled slightly, as if they could not bear the coercive aura of the Great Dao treasure bottle.

Buzz!!

In the next instant, a vast black light gushed out, directly swallowing down the almost complete ancestral well. The light of the great avenue hung down tight and complete, like a huge mouth suddenly swallowing it.

The remaining two ancestral wells of origin were still cracking and exploding, turning into energy and countless tiny fragments. Seeing this, Gu Changge was not idle. He continued to unleash the Great Dao treasure bottle, and swallowed all the fragments and energy.

In the end, only some fragments were left, and it was regarded as the completion of the task for the Ancient Heavenly Lord of Reincarnation.

Before gaining insight into the many calculations and plans of the Ancient Heavenly Lord of Reincarnation, Gu Changge did not intend to turn his face against him. He felt that if everything arranged by the Ancient Heavenly Lord of Reincarnation was handled properly, it could even be converted into a huge benefit for him.

“My cheap master is not so easy to be.”

The gray fog was still overwhelming, covering the sky and the sun, without any boundaries, and there was no trace of retreating.

So at this time, the Ancient Heavenly Lord of Reincarnation, who was still fighting several Ancient Ancestors, did not notice the movement of Gu Changge at all and did not know his many actions.

Chapter 717: The Absolute Heavenly Extinction is destroyed, but it's rich

The land of Absolute Heavenly Extinction crumbled, and the sky was broken into large pieces like a broken mirror. Countless streams of fire and thick gray fog engulfed everything.

This was an extremely desperate scene.

The ground started to crack, a terrifying fissure stretching for tens of thousands of miles appeared, and all creatures of Absolute Heavenly Extinction fled in panic, trying to escape the impending doom.

At the same time, the five ancient ancestors paid no heed to their own lives and battled madly against the Ancient Heavenly Lord of Reincarnation. But the Ancestral Well of Origin had been destroyed, leaving no hope for reshaping their bodies if they died again.(Ed Note, the five ancient ancestors are five people, and the Ancient Heavenly Lord of Reincarnation is a single person.)

The powerful energies collided, making the scene resemble an explosion of cosmic origin. Its aftermath soared into the sky and ground, having a trend to spread out of the land of Absolute Heavenly Extinction.

They made every effort to surround him, intending to make him pay a heavy price.

But his cards kept coming – with a brilliant light, a formation was formed instantly, it transformed into countless stars and dragged them into the brimless starlights.

Countless stars burnt violently and dashed towards them, countless stars transformed numberless Sword Qi and chopped towards them. This was an unstoppable ultimate skill that could not be resisted or avoided. If it was at his peak state, this formation could easily kill immortals. Their spiritual energy was indeed powerful, but there was still a great gap compared with the real immortal realm.

Boom!!

The kill moves of this formation approached close to them, they roared, sacrificed all of Blood Essence and wanted to make a last effort.

Eventually, the violent explosion of hundreds of millions of stars drowned everything until its aftermath gradually subsided.

All creatures of Absolute Heavenly Extinction could no longer perceive the existence sign of their ancient ancestors – our invincible ancient ancestors have died in the hands of the Ancient Heavenly Lord of Reincarnation?

“Hey, Dao Friends, there is no reason for you to impede me once more. Or, do you really want to be buried with your five ancient ancestors, just for an empty pride?”

A faint sense of compassion appeared on the face of the Ancient Heavenly Lord of Reincarnation, he shook his head slightly and took back his formation. Before that, the moment when he took out the formation, the destiny of the five ancient ancestors had been doomed.

The alive creatures of Absolute Heavenly Extinction freezed in place and couldn't believe what happened and kept shivering – our land is done, our ancestors are done, our ancestor artifacts of origin are done. Does it mean our race will be over too?

Thinking of this, sadness and great grief appeared on everyone's faces.

The Ancient Heavenly Lord of Reincarnation ignored them and walked towards the deepest area of Absolute Heavenly Extinction, wanting to know how many fragments of the artifact Gu Changge had collected.

In his perceptiveness, the aura of the artifact had disappeared. It meant the three Ancestral Wells of Origin had been destroyed and disappeared completely from this land.

The deepest areas were covered by thick gray fog, even his divine sense was also unable to detect the inside scene of it. The origin of the three ancestral wells was very mystical, he felt a great palpitation while they were destroyed.

“How many have you collected?”

Soon, he found Gu Changge's figure in the thick fog and stepped faster to ask.

Gu Changge was holding a jade pot and sealed off the surrounding space, it could lock the fragments from being dissipated. After hearing his words, Gu Changge seemed to come back of sense and said with a doubtful expression, "the three wells are not made of hylic materials, but some special runes. The moment they shattered, their fragments directly dissipated. Even though I arrived on time, I didn't collect much." While speaking, Gu Changge handed the jade pot to him.

"I know it."

He did not doubt Gu Changge's words because he already knew it and this was also the reason why he called Gu Changge to collect the fragments.

"You unexpectedly collected so many?"

While glancing at the light points of fragments in the jade pot, his face couldn't help showing joy and the previously disappointed mood was swept away. It really exceeded his expectations!

Before that, he thought that Gu Changge had only collected a little bit, but it at least reached 30% only judging from those light points now.

"If I come earlier, I can collect more." Gu Changge shook his head regretfully.

He smiled and said, "It's okay, this is already a surprise. A little more or less is the same if I can comprehend the mystery of it."

He suddenly felt more satisfied with his new cheap disciple, Gu Changge.

This new disciple has a mysterious background, terrifying strength and an extremely tyrannical method to deal with matters. Although this disciple looked a bit dishonest and sanctimonious, this is exactly what I want.

He had always disliked pedantic and stupid people.

Since this new disciple in front of me could disrupt my original plan and kill my previously established disciple, there must be something extraordinary about him.

“I congratulate you in advance for gaining big progress in cultivation, my master!”

Gu Changge smiled lightly and cupped hands for respect.

“Today, you help me a lot and I am always a fair person, you take this incomplete Formation. Even though it’s incomplete, I found it from the cave of an immortal king. If your cultivation is enough, its rest power is enough to withstand the real immortal experts.”

His mood was obviously very good now, and directly took out a formation sealed with a jade talisman, intending to reward to Gu Changge.

In the Anciently Immortal Era, the Dao had not yet collapsed, and the order of heaven and earth had not been broken, this incomplete formation could even trigger a bloody storm, causing many true immortals to scramble for it.

But now, he also didn’t know how much power this incomplete formation had remained.

Gu Changge’s eyes flashed a light, took the incomplete map and expressed gratitude, saying, “Thank you, master, for this treasure.”

However, out of caution, Gu Changge still scanned it with divine sense and found nothing unusual, so accepting it.

It seems that my cheap master has many treasures! Before that, the big seal he used to defend against attacks from the six ancient ancestors is definitely an innate Dao Weapon, its defensive power is not inferior to the Supreme Dao Map possessed by me. In addition, the star formation he used to kill the five ancient ancestors was also extremely extraordinary, its ability was quite similar to the Great Immortal Formation that I heard from Yan Luo.

My cheap master is really rich!!!

Chapter 718: Taking the opportunity to save most beings and collecting beliefs from them, what will he do?

“The collapse of the land of Absolute Heavenly Extinction brought a terrible disaster for beings in this land, and countless creatures and sects were at risk of being annihilated.”

Gu Changge and the Ancient Heavenly Lord of Reincarnation walked in the vast sky, a faint sense of pity graced the latter’s face as if he was mourned for the wretched suffering of those beings in Absolute Heavenly Extinction.

Pieces and pieces of space collapsed under their feet, turning into nothingness, annihilated and disappeared gradually.

Gu Changge’s face showed a hint of contemplation upon hearing this words, and saying, “these years, they gathered the power of all forces to establish the True Immortal Academy and attempt to gain a true immortal capable of resisting the scourge of the world extinction. However, the academy is established too short, it’s still far away from them to achieve this goal until the scourge arrives.”

“So, with this opportunity, you want me to be their savior, collecting beliefs?” said the Ancient Heavenly Lord of Reincarnation. He glanced at Gu Changge and was somewhat attracted by this idea.

Gu Changge’s words conveyed deeper meanings to him – 1, there were no immortal beings now. 2, only immortal power could resist this scourge. 3, the Ancient Heavenly Lord of Reincarnation possessed this ability to stop this tragedy.

After all, he was one of the big giants in the Anciently Immortal Era and still owned many powerful cards though this was his weak stage in his life.

In fact it’s not difficult for him to solve the scourge this time.

If he did it at this critical moment, it equalled to bring numberless beings light at their most dark moment.

Of course, with the identity of his disciple, Gu Changge would gain benefits more or less. Various forces were now secretly discussing how to kill Gu Changge, spreading that Gu Changge was the real inheritor of demonic arts, and a lot of ordinary cultivators were deeply affected by the rumor. If he solved the scourge, Gu Changge could arrange the future plan more smoothly with the help of his influence.

“Master, you have disappeared for such a long period of time, it would undoubtedly cause boundless waves to the world if you suddenly reappear now. So, maybe, we can take advantage of this opportunity...” Gu Changge smiled lightly and didn’t hide intentions.

He glanced at Gu Changge and shook his head slightly without any words, as if he was considering Gu Changge’s real intentions. From Gu Changge’s mouth, he already knew Gu Changge’s identity, the young child of the Ancient Immortal Gu family. He would not notice much if it was the young lord of other ancient immortal families, but the Gu family was different, they had appeared extremely mysterious since the Anciently Immortal Era and no one knew their background.

Thinking of this, he smiled and nodded, “as you wish, my disciple, I agreed with your plan.”

He was also not sure when the immortal road would emerge in this generation. It just left him enough time to plot the Dao Fruit of Immortal King and reap the lands that he schemed many generations ago.

By the way, as Gu Changge’s new cheap master, this was a good reason for him to visit the Gu family. He was actually quite curious about the difference between the current Gu family and the one in the Ancient Immortal Era. He merely heard that a hostilely immortal king stayed for a long time in front of the gate of the Ancient Immortal Gu family, but the denouement was leaving quietly.

At this moment, the land of Absolute Heavenly Extinction was covered by thick gray fog, ruins laid one by one, ground and space collapsed into nothingness, it appeared the scene of doomsday.

Countless creatures fled hurriedly without a direction, only trying to escape from this land before it finally collapsed into eternal silence. This was a hopeless day for them. After that, the races of Absolute Heavenly Extinction would doubtlessly disappear in the long river of time.

Gu Changge and the Ancient Heavenly Lord of Reincarnation looked at this scene with a calm and indifferent expression, they intended to leave after passing through the vast gray fog.

On the way, Gu Changge saw Jianan, Jia Jiu’er and others who were fleeing.

But he didn’t take another look at them.

After the land of Absolute Heavenly Extinction was destroyed, the so-called royal family of Absolute Heavenly Imperial existed in name only and they were no longer different from ordinary creatures.

From the beginning, it's merely a relationship of mutual use between Gu Changge and Jianan.

“With the ancestral artifact in hand, the next step is to find a suitable ancient land...”

Gu Changge's thoughts was surging, plotting how to set up his big net. He was quite curious what the exact plan of his master was. If his master had been hiding in this world, there would definitely be traces left behind. Therefore, he might be hiding in some remote worlds before.

Those worlds were infinitely far away from this world. Even though a powerful expert cost their whole life, it was also unable to find the exact coord in the space that was filled with chaotic energies.

This might be the reason why my cheap master marked coordinates in the land of the Absolute Heavenly Extinction.

“Perhaps it is possible to find a suitably ancient land to prepare my next plan with the help of my master..” Gu Changge calmly glanced at his cheap master...

Due to the previous fight, the territories around had been engulfed by vast gray fog. Gu Changge and his cheap master passed through the ruined land and tore apart the cosmic barrier to rush towards the center area of the world. (Ed Note, in this world(also called upper world in chapters before c1077), there are many lands like Absolute Heavenly Extinction.)

This world was boundless, the gray fog poured and had corroded many lands around Absolute Heavenly Extinction. All of the sects nearby were planning to migrate. Elders of the True Immortal Academy also sent out messages to seek help from forces behind them.

The scourge triggering from Absolute Heavenly Extinction was not any sign to stop, it would become invincible if nobody dealt at its budding stage.

During this period of time, many sects and the immortal families arranged a lot of people to establish a large number of formations and wanted to block the corrosive gray fog that originated from the Absolute Heavenly Extinction.

Jiang Chuchu, the Holy Maiden of the Human Ancestor Hall, also rushed here with a large number of powerful experts. The main reason for the holy hall building was just to resist the scourge of world extinction, hence they accumulated a lot of experience and methods to deal. She had suppressed the scourge of a small range for many times in these years.

“This time the scourge erupted so violently. It’s more terrifying than before.” said by Jiang Chuchu who was standing on an ancient dead star with many experts guarding around.

She was in a long white dress, with picturesque eyebrows, beautiful face, black long hair, looked so cold and seemed to be detached from the worldly dust.

Not far away from her, there were many powerful experts from other forces who were busy building formations. They cast numberless divine stones and engraved formations in the space.

Ancient warships arrayed in the star field, one after another. With the runes on them lit up, countless attacks blew towards the vast gray fog continuously. But the fog was too thick and those blows couldn’t have whittled it at all.

Among the fog, there were many beings rushing out, obviously, they had been corroded and degenerated, it had already been demonstrated by their blood-red eyes, grumous killing intent and uncoverable evil aura.

Ordinary cultivators dared not to touch those fog a bit and avoided it like facing snakes and scorpions. Because it would not only corrode the cultivator’s body, but also degenerate their soul. Some cultivators once took tests and a new evil soul would occupy the body if someone was infected with this kind of fog and corroded for a long time. This was extremely terrible, because the person wouldn’t not be the original one at that time. The new evil soul was updated and the old soul was deleted, they would lose all of their previous will, intellect and feeling, but a bloodlust instead.

Hence, there were no cultivators daring to take the risk and investigate deeper. All experts from various sects merely watched from afar, no intent to go deep.

“Holy maiden, this time, the eruption of the scourge may not be as simple as imagined. Before that, the third elder once sensed a fight between peerless powerhouses nearby, and she guessed that the battleground might be at the depth of the land of the Absolute Heavenly Extinction.”

On the ancient dead star, an old woman from the Human Ancestor Hall spoke respectfully to Jiang Chuchu, with a little worry in her eyes.

The third elder she talked about was an extremely ancient existence in the Human Ancestor Hall, emerging solely within this generation in countless epochs, and nobody knew what a realm of cultivation this elder had reached.

Even the third elder felt palpitations and cautioned us to be careful? Jiang Chuchu pondered.

Before that, many elders worried about accidents and wanted to stop her trip this time, but she insisted on her will.

“If the scourge originated from a fight between peerless powerhouses this time, it indeed has a risk for me to die. But now, all experts from various sects don’t want to investigate deeper, then who will solve the scourge of world extinction if I choose to flinch?”

Jiang Chuchu lightly shook her head and sighed. She understood the worries of the elders. She also knew the risk of her choice. But with her personality, she really couldn’t choose to flinch. Especially this event related to the death and life of countless living beings.

“Alright, holy maiden, if you insist on your will, we can stay here to wait for your return. Because, with our level of cultivation, we will only encumber your pace in such a dangerous place.”

Several elders couldn’t help sighing when they heard her words and they didn’t persuade her any more. It’s not that they were afraid of death, but once corroded by the fog, they would lose control and become her encumber.

“I understand, every elders, just wait for my return. If there is danger, I will find a way to evacuate in time, and I will not make fun of my life.”

Jiang Chuchu nodded and her gaze was extremely firm.

She had a special physique that could resist the gray fog within a certain degree. This was the main reason why she was willing to take a risk and investigate deeper. This time, she would study the real reason why the scourge erupted and she would solve this event from the root.

“Holy maiden, you must be careful.”

Elders still seemed extremely worried about her safety. Because, even the space talisman would fail to work in the gray fog and anyone who wanted to leave would have to return by foot. The road was very dangerous, any bit of cursoriness would cause death.

At this moment, some experts from other sects had seen the scene of the Human Ancestor Hall, and showed surprise one by one. They didn't expect that at this juncture, the holy maiden planned to go deep into the land of Absolute Heavenly Extinction.

Wasn't it sending yourself to death?

Even the long established experts dared not set foot in, where did this young holy maiden get the courage?

“The Holy Maiden is quite close to Gu Changge, isn't Gu Changge claimed to be the reincarnation of Human Ancestor?”

“Now the scourge broke out, where is Gu Changge now? Is he hiding after listening to this news about scourge?”

“With this of Gu Changge's actions, we can make sure that he is harboring evil intentions and taking Human Ancestor's identity as a semblance.”

Several experts of Heavenly Emperor Mountain said with a sneered smile. Gu Changge's power was indeed terrifying and his strength was indeed unbeatable, but now in their view, Gu Changge would be eliminated by various immortal forces sooner or later.

During this period of time, rumors that Gu Changge was the inheritor of demonic arts had already spread throughout the world, and even ordinary cultivators knew it very well. Although it was far from being the enemy of the whole world, it also helped Gu Changge attracting a lot of hatred.

Now, the scourge broke out and attracted almost all the cultivators' stares.

Wasn't Gu Changge claimed to be the reincarnation of Human Ancestor?

What was he going to do?

Chapter 719: The Ancient Immortal Gu family is not afraid of anyone, the horror of the gray fog

The scourge spreaded very quickly, sweeping toward the surrounding star field with a terrifying rate, many of them had been corroded and perished one by one.

The gray fog covered everywhere in this area, it's just like a mirror corroded with stains if someone watched afar.

Though the main sects had made countermeasures and arranged a lot of experts trying to stop its tendency to spread, the situation was still not promising under its terrifying and eerie power.

The scenes of death, mountains collapsed and land spalled were filled everywhere. Cultivators within it, either died in massive natural disasters, or degenerated in the gray fog. But, it's not the worst, some of them were directly captured and tormented to death by those degenerative beings.

The scourge had attracted all gazes of cultivators in the world and they also formed an alliance trying to stop the scourge of world extinction.

Eventually, some sects arranged for people to investigate deeper after a violent controversy, and tried to make clear the cause of the scourge.

Buzzing...

Ancient warships shuttled and descended one after another with divine light flickering time by time. Many heavenly prides also arrived from all corners of the world, such as Heavenly Phoenix Maiden, Son of Buddha – Jin Chan, Six-Crown King, Heavenly Demon Monarch, and Lan Yifei...

For them, the sudden scourge of world extinction was not only an opportunity to go ahead but also a trial to their cultivation. Whether it was hunting the degenerative beings, or resisting the corroding of the gray fog, both could help them to spread their prestige and accept beliefs from fans.

“The Holy Maiden of the Human Ancestor Hall wants to enter the core area of the Absolute Heavenly Extinction, where did she get the courage?”

The Six-Crown King, Junyao stood in a barren star field, and mumbled with an extremely calm expersion. Around him were many retinues and also a few powerful pathkeepers guarded among.

This special period, every major immortal sect protected their core disciples quite tightly to prevent any accident, because no one was sure if they had any potential to be another Gu Changge to the extent that must be eradicated by other rival sects.

And Six-Crown King was just one of such a seed of hope, so there was no room for accident to his sect.

“Amitabha, the holy maiden of the Human Ancestor Hall may be reckless this time.”

Jin Chan was riding on the back of a golden nine-headed lion with a solemn expression and said while taking a zen gesture.

“The holy maiden of the Human Ancestor Hall has a very close relationship with Gu Changge. She went to Absolute Heavenly Extinction alone. Could it be related to the recent disappearance of Gu Changge?”

Heavenly Phoenix Maiden was wearing a long red dress and pondering carefully. Her face was very beautiful, but her gaze was like ice in winter and staring at the gray fog not far away from her.

It's not strange that she had such a thought, because Gu Changge had disappeared from the world for quite a long time. Many people speculated that he would appear before the day of his wedding with Yue Mingkong. As well as his rumors now spreaded everywhere – the identity of the inheritor of demonic arts, so he disappeared some days to avoid the limelight, this was many cultivators' thoughts. After all, Heavenly Emperor Mountain, Violet Sky Valley, Endless Fire Kingdom, and many other immortal great sects were discussing how to arrest Gu Changge, any normal person would choose the same with him, isn't it

?

...

At the same time, in the Ancient Immortal Gu family, Gu Changge was talking with several family elders about the identity of the Ancient Heavenly Lord of Reincarnation.

On the way back to family, he had already discussed with his cheap master how to introduce him.

Many elders of the Gu family already knew Gu Changge's identity as the disciple of the Ancient Heavenly Lord of Reincarnation, but they never expected that this giant figure from the immortal ancient era would actually be present in the current world now.

They were unbelievable to it and even few powerful ancestors showed up because of the visit of this giant figure.

“Since you are Changge's master, then you are an honorific guest of our Gu family.”

Elders of Gu Family were extremely polite to this giant figure, but they didn't show much awe. Because this was on the territory of the Gu family, no one was qualified or capable of making them fear, even this giant figure.

Hearing this, the Ancient Heavenly Lord of Reincarnation nodded and smiled, “Then I will have to trouble you all during this period of time.”

He looked quite calm on the surface, but in fact, there was already a shocking wave in his heart. He had heard of the fame of the mysterious Ancient Immortal Gu family in the Anciently Immortal Era, but he just understood the vastness and profoundness of its heritage after he really stepped into this place.

Especially in the deepest part of the Ancient Immortal Gu family, it seemed that there were some powerful existences in deep sleep, even he felt a kind of shudder unnaturally...

The dangerous aura was not the only one but it could suppress heavens already, which made him understand that this was the reason for the invincible foundation and confidence of Gu Family.

Any immortal force or supreme sect are unmatched to this family.

As thinking, he couldn't help but raise a sense of awe towards the Gu family and dared not to detect any more with his divine sense.

“Changge, you suddenly disappeared during this time, is that you go to look for your master?”

An elder asked randomly and the polite chat of formulae didn't take too long.

Soon, Gu Changge's cheap master was taken by his attendants to the palace where Gu Family prepared for guests. Whereafter, several elders and powerful ancestors surrounded Gu Changge and started the real talk..

They were really curious about the origin of the Ancient Heavenly Lord of Reincarnation.

After all, the Immortal Ancient Era was so long away from the current era, and no one knew how many epochs it passed, nor expected that this giant figure actually was still alive until now.

If it wasn't for Gu Changge's serious explanation just now, they might still find it hard to believe.

This was too incredible.

“It's actually a long story. After I got the inheritance of my master in the Anciently Immortal Continent, I felt that he seemed to have never fallen. Some time ago, I heard his call saying that he was trapped in a place...”

Gu Changge shook his head and explained slowly.

This explanation was actually very similar to the time when the Hidden Ji family went to Kun Mount to rescue their ancestors. So the elders didn't doubt it because there was a precedent.

They also thought that Gu Changge would not hide to avoid the limelight because of the rumors outside.

“So that is what it is!”

After listening to this explanation, several ancestors first nodded and sighed with a lot of emotion in their hearts. Even in the ear when they were young, they had heard the legend of this giant figure, but unexpectedly they could see him in person today. They had no doubt that it would inevitably

trigger an incomparable wave and cause a major earthquake once the news of this giant figure spread out.

Afterward, a elder began to analyze the current situation, and his expression gradually became serious,

“Your master shows up in this world now, in fact, it is a good thing for you and our family.”

The other clan elders nodded, and said the same to Gu Changge,

“Currently there are many rumors about you outside, Changge, you don’t have to take it seriously. We all understand that it is the various forces and sects splashing dirty water on you.”

“If they want to accuse you, it’s very easy to find a pretext. And everyone with a discerning eye can see their purpose. Do they really think our Gu family is easy to bully... I wonder how much courage they have! We always stand with you even if the war will do great damage to the very fabric of this world.”

Speaking until now, they couldn’t hide the killing intent and anger as if they were very itchy to immediately take a great war with those damn sects and forces.

“Thanks for every elder’s concern to me. In fact, this matter is provoked by me, and the family is also embroiled by me.”

“If I didn’t insist on destroying Hell before, I wouldn’t have attracted such a big reaction from various forces and sects.” (Ed Note, Hell should be a force in previous chapters.)

“I was too reckless at that time.”

Gu Changge smiled warmly as he said, and apologized to everyone.

“Changge, what’s the meaning of your words? What’s your so-called ‘embroiling family’? Your matters are also the family’s affairs. How can you and the family be separated so clearly?”

“With what you said, do you not regard the family as your solid backing? Our Ancient Immortal Gu family has never been afraid of anyone or any force since it was born.”

Hearing Gu Changege’s words, several elders furrowed their brows, looking extremely displeased.

“Everyone with a discerning eye knows that you have nothing to do with the inheritors of demonic arts? On the contrary, you have been hunting the traces of the inheritors of demonic arts all this time. But those people insisted on smearing the white into black, and how many dazzling talents failed to grow up in the end just because of the same tricks.”

“If such tricks happen in our Gu family, no one present can bear it.”

The elders were filled with righteous indignation and clearly saw the hypocrisy of various forces. They also didn’t believe that Gu Changege was the inheritor of demonic arts, and never thought this view from the beginning to the end.

“Actually, I really don’t want our family to be involved in this matter. I have a solution already.”

“I understand the care from our family.”

Gu Changege shook his head helplessly, smiled, and said.

He would seek help from the family unless there were really no other solutions, but it would probably lead to even bigger troubles.

The Gu family was not as simple as the surface. If things go in this direction, his many secrets might be exposed at that time, which had both advantages and disadvantages.

Hearing Gu Changege’s words, the elders had no other choice. They knew what Gu Changege meant, that before the critical moment, they better not use the Gu family’s heritage.

“Since you have other arrangements, Changege, then we will follow what you said.”

The ancestors looked at each other, nodded, and agreed to Gu Changege’s request.

...

After leaving the main hall, Gu Changge returned to the divine island where he usually lived and ordered that no one could bother him.

At the same time, he also set up a heavenly deceiving formation to prevent the spying from his cheap master.

“The scourge triggering in Absolute Heavenly Extinction has broken out, and all the forces and sects gathered there.”

“I haven’t shown up outside for a long time, now, it’s time for me to take a look there.”

“I should let them remember my terribleness again. I will not take the disrepute of the inheritors of demonic arts... er...and release the news about my cheap master is still alive by the way.”

With that, Gu Changge closed his eyes and sat cross-legged on the futon.

The Great Dao Vase floated up and down above his head, and wisps of gray fog floated down from it.

These gray fog seemed to be alive, floating in the surrounding space, containing extremely terrifying corrosive power.

The space around him kept collapsing into nothingness then began to reshape as if caught in a cycle, this scene went back and forth which was so creepy.

The gray fog in the ancestral artifacts originating from the Absolute Heavenly Extinction, even unbeatable powerful experts would avoid it as ordinary people avoid snakes and scorpions. A wisp of it contained unimaginable destructiveness and enough to destroy an anciently immortal world.

After the Great Dao Vase devoured the two ancestral wells of origin, the gray fog condensed in it was even more terrifying than the fog spreading around the Absolute Heavenly Extinction now.

But there were tens of thousands of strands of such a terrifying gray fog in the Great Dao Vase.

If Gu Changge was willing, he could use this gray fog to easily destroy many immortal sects, even make all of the universes go to death and extinguish vitality.

But revenge was not in a hurry, he was waiting for those big fishes to jump out and get into his trap themselves.

“These worlds are not enough...”

Afterward, Gu Changge opened his eyes, and many pictures flashed in front of his eyes.

The vast power of faith turned into a silver sea, appearing around him.

Although the Dark Heaven was born not long ago, it had already accumulated a lot of believers.

Some of these believers came from the mortal worlds and some came from the immortal worlds, and among them there were even the chosen ones shaped by Gu Changge himself.

Chapter 720: A show of vigor, purely to disgust people

Among these chosen ones shaped by Gu Changge, Wang Qi was a special one who had many legendary experiences.

He had been betrayed and plotted by his childhood sweetheart, causing his Qi Sea to be destroyed. (Ed Note, Dantian (丹田 dāntián) – it’s also called Qi Sea and refers to the region in the body where a person’s Qi is concentrated. (located three finger widths below and two finger widths behind the navel).)

Gu Changge ever noticed him, knowing that he now had a quite good life with smooth sailing after revenge.

For Wang Qi, the existence of the Dark Heaven not only helped him in taking revenge but also became his biggest backer to step out of his original world.

Of course, in Gu Changge’s views, such a chosen one and others were just thriving chives waiting for his reap.

Compared with ordinary cultivators, the power of faith that those heavenly prides could provide was more pure and abundant, it even contained the original fate power of their world.

Also, the Dark Heaven was like a shadow and constantly penetrated every corner of immortal worlds.

“After solving the matter of Absolute Heavenly Extinction, I can start the plan about my cheap master...”

“He should be comprehending the mysteries of those fragments of the ancestral well these days.”

As Gu Changge thought, his eyes suddenly became extremely deep.

He was not in a hurry to plot against his cheap master because he didn't have a 100% certainty to take down him.

By the way, actually the main reason was that Gu Changge didn't know exactly what his cheap master was planning.

...

A few days passed, and the news of Gu Changge's appearance in the Ancient Immortal Gu family spread quickly, causing shocks from all forces and sects.

But, the existence of the Ancient Heavenly Lord of Reincarnation was not revealed under the deliberate orders of elders of the Gu family.

During this period, Many cultivators were guessing about Gu Changge's whereabouts.

But with that, now these rumors that Gu Changge deliberately hid somewhere to avoid the previous storm, was also self-destruct without being attacked.

...

Boom!!!

On the marginal area of the Absolute Heavenly Extinction, the space was torn apart with a “rumble” voice.

Ancient warships appeared one after another, the huge “Gu” were set on numberless banners of the ships, which attracted all the attention of cultivators around, making them expression-changed one by one.

Within those ships, many invincible experts walked out, with powerful auras roaring, it was like one after another universe dragon traversing the sky.

At the head of them, a young man stood loftily. His hands sitting behind the back, his overcoat fluttering in the wind, his handsome face and his warm smile, made him resemble a real immortal who was demoted to the mortal world. The hazy and blurred immortal light emerged around, as if the three thousand Dao was embracing him up and down.

All the cultivators around were in an uproar as if they saw something unbelievable when they saw clearly who he was. The surrounding area seemed to stir up a stormy wave, sweeping toward all the forces and sects.

“Gu Changge...”

Heavenly Phoenix Maiden, Six Crown King—Jun Yao, Jin Yun, Jin Chan, and many other young heavenly prides all changed expressions, showing extreme shock.

They never expected that Gu Changge dared to face the gazes of the entire world and showed up here at this moment.

Gu Changge appeared so calm and casual, as if he didn’t care about all the previous rumors.

How dare he!!! They couldn’t help but think.

After all, Gu Changge was now with the identity of the inheritor of demonic arts.

They also knew that this rumor was a conspiracy made by various sects for eradicating Gu Changge. But ordinary cultivators wouldn't think so, they would only follow the general trend and regard Gu Changge as the real inheritor of demonic arts.

None of these heavenly prides present knew if Gu Changge would be really done for today?

“He is really bold. Isn't he afraid of being besieged and killed here?”

The Six Crown King—Jun Yao shook his head lightly and said, his mood was really complicated now.

“He really dares to come, isn't he afraid of dying here? It seems that he didn't take those rumors to mind at all.”

“This Gu Changge doesn't take us in eyes at all.”

...

In the depths of the space, the origin-energy fluttered ups and downs, which seemed able to evolve an explosion of cosmogenic origin at any time.

The ancestors of many immortal sects concealed here and their faces became very dark after seeing Gu Changge. They never thought that Gu Changge dared to show up here really.

At this moment, they really wanted to take down Gu Changge, eradicating him and the restless factor that threatened them and their sects.

But the consequences would be serious and terrifying, this matter had far-reaching implications and it was even able to trigger the battle between all the immortal forces in this world.

They were very cautious and returned intellect eventually, it needed a deliberate plan and a right time even if they were so itchy to kill Gu Changge immediately.

Thinking and thinking, their killing intents dissipated gradually, then ordered a few experts to spy Gu Changge.

...

“Is this the marginal area of the scourge erupting of Absolute Heavenly Extinction?”

At this time, Gu Changge ignored the gazes from other cultivators and asked while standing on the ancient warship and looking at the vast gray fog in front.

He asked the question deliberately. After all, he knew exactly why the scourge suddenly erupted, let alone the trigger was just himself.

“Lord Changge. The scourge has spreaded with an unstoppable trend in the past few days. Merely a short period of time, it has swept across a territory of nearly a million miles, and it is still moving toward the surrounding star fields at a terrifying speed.”

An old expert from other sects explained with respect after hearing Gu Changge’s question.

Although the rumor said that Gu Changge was the inheritor of demonic arts, many smart people could see through such a trick at a first glance.

They were very clear that this was just a consistent trick of the immortal sects, the goal was of course finding an excuse to suppress Gu Changge.

If someone and forces wanted to suppress a person, they would always find a reasonable excuse on the surface.

If Gu Changge was really the inheritor of demonic arts, how dare he show up at this time? This was just the old expert’s thought.

“If this scourge is going on in this way, I am afraid that more people will die in it. Before that, I am delayed by something, hoping my presence is not too late.”

Gu Changge shook his head when he heard the response, and seemed to be sighing.

“It turns out that lord Changge was delayed by some things, not because of rumors to avoid...”

“As I said before, how could lord Changge hide because of these rumors?”

“Yeah, with the character of lord Changge, how could he shrink back because of rumors? It’s obviously someone to frame him. I don’t believe that lord Changge will be the inheritor of demonic art. This is a lie, splashing dirty water.”

The crowd around suddenly boiled up, and all kinds of voices were extremely noisy.

Some young people were even more excited and they regarded Gu Changge as a role model in their hearts.

Heavenly Phoenix Maiden, Six Crown King–Jun Yao, and others also looked at each other, but they were all wordless.

They actually knew Gu Changge fairly well, and thought that he was not such a just and upright person who always showed gentle and humble on surface, it’s just a false mask in fact. But the rumor was too ridiculous and said that he was the inheritor of demonic arts, there was no little evidence and thread to prove it.

“Justice rests in the hearts of the people. I have always behaved with a clear conscience, and I am not afraid of the conspiracy of any people.”

Gu Changge smiled faintly then walked down from the ancient warship, his foot stepped on the space slowly appearing extremely relaxed.

The gray fog whistled like an inexpressible huge creature in cthulhu mythos, wanting to swallow all being’s souls in this concrete world. The surrounding space was becoming distorted and collapsed, even the sight also turned into blurred under the impact of its terrible energy.

However, as one of Gu Changge’s palms slapped forward, the gray fog in front of him began to collapse in disorder, showing signs of fading.

Everyone present looked at this scene in shock, and their eyes were nailed by his move. Even the ancestors of those immortal sects couldn't help but frown and fall in a deep thought, thinking of the hidden meaning in his movement.

"The gray fog seems to be more overbearing than before, no wonder its momentum is so terrifying this time."

Gu Changge said and frowned. He stretched out a finger and a wisp of fog immediately appeared and curled around it.

A corroding voice sounded. The flesh and blood of his finger were quickly melting away and the white hand bones were exposed soon.

He didn't use any power just for trying to test its terrifying corrosiveness.

This scene was so terrifying, making everyone's scalps numb and their bodies cold. They were unbelievable.

"If I remember correctly, lord Changge's strength is far superior to ordinary cultivators of Dao-Building. But incredibly his physical body could also be corroded..."

"If we touch it, I'm afraid that we will be swallowed immediately, and directly vanish upon death."

"Thanks to lord Changge, otherwise the waiting for us will be nothing but death."

Many cultivators subconsciously gulped saliva because of fear and couldn't help taking a few steps back, daring not to approach the uncanny fog any more.

"What the hell is Gu Changge doing? Is he really planning to find out the composition of the gray fog?"

"Although the fog is terrifying, it hasn't reached the extent able to corrode the cultivator's body of Dao-Building."

Seeing this scene, these sacred ancestors were full of confusions and couldn't figure out Gu Changge's intentions.

At this time, Gu Changge was still frowning. He disregarded the terrible pain of corrosion and was investigating the composition of the gray fog.

"Only by understanding the source of this fog can we completely solve this scourge." Gu Changge said softly, as if explaining to others.

This kind of fog that even Dao-Building experts did not want to contaminate a bit, but Gu Changge was willing to bear the pain and research. Many cultivators nearby immediately rose in awe of him. They didn't expect Gu Changge here just to stop the scourge and prevent more innocent cultivators' death, without any other reason.

This demeanor to save other beings as his own responsibility made them have to compel in awe of him.

Some older generation cultivators who were dissatisfied with Gu Changge before, their expressions were also changed to complicated at this moment. If introspecting themselves, they would dare not touch it anyway.

After all, only Jiang Chuchu, the holy maiden of the Human Ancestor Hall, took the huge risk to go deep into it before. The rest of the other people were just watching from the edge, maybe they would take action to block the fog at the critical moment, maybe they wouldn't.

"Nothing can be found in this way. It seems that I have to go deeper to research."

Gu Changge shook his head lightly, the corroded fingers were soon recovered as before after a bright light flashed. With his current cultivation, rebirth from a drop of blood was just a matter of thought. Even if his body was split and buried in different places afar, it couldn't really kill him and he would be healed instantly.

"Gu Changge's intent is likely to gain a good reputation of kindheartedness. With his cultivation, how could he be corrupted by this fog?"

"If he solves this scourge, those bad rumors about him will be collapsed without attack."

The ancestors of sects looked at each other, and their face changed very dark after understanding Gu Changge's real intentions.

However, a roar suddenly sounded from the crowd in the distance at this moment, with that, a terrifying Sword Qi shot toward Gu Changge and was filled with killing intent.

"The inheritor of demonic art is a common enemy for everyone. Gu Changge, you are so insane to slaughter many geniuses. Today, you will have to pay with your life for it."

A middle-aged man shouted angrily and attacked Gu Changge, his eyes were red and it seemed that he had an unforgivable hatred for Gu Changge.

Behind the middle-aged man, there were also other cultivators carrying out attacks while shouting angrily. Their cultivation was not high, and didn't even reach the Sacred Realm. But how dare they.

"Kill, kill the inheritor of demonic art, restore peace to the world."

"I will avenge for my junior brother, kill Gu Changge, and kill this demon."

This scene shocked everyone, and many cultivators hadn't reacted yet. They never expected that someone or force would rush to attack Gu Changge at this moment.

Those cultivators present who were unaware of the truth, opened their eyes wide, not knowing what to do

"Hehe, what is Gu Changge going to do at this time? If he is not inheritor of demonic arts, but kills these cultivators, then his previous performance of whitewashing in front of everyone would be in vain completely."

"But if he doesn't kill them, then he will have to bear the teasing this time."

The ancestors of sects all wore expressions of amusement and mockery as if they had long anticipated this situation.

Yes, these cultivators were arranged by them, their purpose was to test Gu Changge's reaction while trying to provoke him.

"These cultivators are obviously the death squad of some forces. Because they don't reach the Sacred Realm, but dare to attack Gu Changge."

"This action is not to hurt him, but to make him eat a fly. If he doesn't deal with it well, he will fail in his previous performance of whitewashing."

Some young heavenly prides, such as the Six Crown King—Jun Yao and Heavenly Phoenix Maiden, also reacted quickly, and their expressions were different and extremely complicated now.

"You guys are looking for death! Lord Gu is not someone you can humiliate."

Just as everyone with shock watched the few people attacking Gu Changge, a cold voice sounded in the space with invisible ripples spreading. The terrifying aura was like mountains and seas toppled over, crushing and covering everything.

At this moment, almost all the cultivators present were about to suffocate while their physical bodies felt about to burst.

Puff puff.....

A burst of blood mist erupted, diffusing in the space. Before these dead men could even scream, their bodies and souls had exploded, disappearing completely in this world.

Yan Luo, the former master of the fourth hall of Hell, also known as Ah Er, appeared behind Gu Changge.

He had a tall figure, was wearing a mask and a dark iron battle suit. The horrifying aura around him seemed to collapse the space.

"It turned out to be..."

"A Remnant Immortal..."

Those ancestors of sects hiding in the depth of space, all changed expressions, an unprecedented feeling of terror and insecurity rose in their mind at this moment.

Gu Changge didn't seem to be surprised by this, his expression was calm from the beginning to the end.

He smiled faintly, turned to look at certain places in the surrounding space, and then said unhurriedly,

“This time the scourge suddenly broke out, is anyone looking for the root cause? And are the Dao-Building Realm experts just standing by and watching indifferently?”

“If it's this, then don't play such little tricks in front of me anymore.”
