

W. Master 1141

Chapter 1141

You know that!

With that thought in mind, Tang Huan laughed: "Senior is an extreme expert who has reached the Void Transformation Stage. I'm afraid this junior is no longer able to do anything that even senior cannot do."

The matter that Shao Yang asked for would definitely be extremely troublesome, and Tang Huan did not want to involve himself in it.

Furthermore, Shao Yang's previous plan was to repay this favor. Although he failed to do so due to a coincidence, it was only to the point that Tang Huan was not happy with this person.

"Little brother, the thing this old man requests must be done by you." Shao Yang said with a face full of smiles. Seeing that Tang Huan seemed to want to open his mouth and refuse, he did not continue to be suspenseful and hurriedly added, "Little brother, don't be in a hurry to refuse. Actually, this matter is also greatly beneficial for little brother. "Little brother is now at the Third Cycle of the Void Transformation stage. If you succeed in this, one year from now, you might be able to enter the Fifth Cycle of the Void Transformation stage."

"Oh?"

Tang Huan's eyes moved, he became interested.

Seeing this, Shao Yang hurriedly took the opportunity and said, "Little brother, in the northwest of the Ancient Clear Heaven Domain, this old man and a few friends have discovered a secret realm. However, that secret realm is completely sealed off by the 'Dark Ink Mysterious Iron', we have to think of all sorts of ways to prevent it from entering, so ..."

Tang Huan continued, "So Senior Shao Yang brought a small piece of 'Dark Ink Mysterious Iron' and came to Skypiercing City to find a Heavenly Blacksmith to smelt it with great rewards?"

"Exactly."

"This old man has stayed in Tongtian City for almost a month, and the news of him releasing the Divine Weapon Catalogue had finally attracted ten Saint-rank Heavenly Blacksmiths. Unfortunately, not one of them succeeded, and after Gengxu also failed, this old man no longer held much hope for this matter. I never expected that once little brother appeared, he would be able to easily refine that piece of 'Dark Ink Mysterious Iron' in such a short amount of time."

As he said that, Shao Yang's gaze fell on Tang Huan, his eyes filled with anticipation. "With little brother's Tools Method, if you are willing to help, opening that secret realm will be easy."

"..."

Geng Xi, Chou Rui, Yin Yu and Yu Zi Chen looked at each other in dismay with a look of surprise on their faces.

They had never thought that the Divine Weapon Catalogue that Shao Yang had taken out was actually just bait. Shao Yang's true goal was to find a Heavenly Blacksmith that could refine the "Dark Ink Mysterious Iron" to open the secret realm. The things inside the secret realm must be incomparably precious, otherwise, how would Shao Yang be willing to take out the Divine Weapon Catalogue and that piece of refining material as compensation.

"Is the secret realm Senior spoke of within the Northwest Tong Tian Tower?"

Tang Huan guessed.

Skysplit Tower was the most mysterious area within the "Ancient Clear Heaven Domain".

To the "Ancient Clear Heaven Domain", the "Tong Tian Tower" was the same as the "Heaven Dipper Realm" to the "Heavenly Desolate Secret World". It was also an existence similar to the "World within a world".

The only difference was that Tong Tian Tower had three floors.

Each layer had an extremely vast space. Within each layer, there were countless dangers and opportunities. This was the place that all Void Transformation Stage powerhouses yearned for and feared the most. However, there was a place that Tong Tian Tower had to go.

Because, Hu Si was sealed in the second floor of Tong Tian Tower.

Although Ancestor Hu Chan's soul had already left his body, Tang Huan had to do his best to save Hu Si. This was the promise he had made to Hu Chan back then.

Of course, before saving Hu Si, he still had to comprehend the third stage of the "Yin and Yang Void Method" first.

"Little brother is right, that secret realm is located on the second floor of Tong Tian Tower."

Shao Yang nodded with a smile.

"I wonder what kind of secret realm that is?" Tang Huan muttered to himself.

"It's still hard to say. However, according to the judgement of the old man and those other friends, that mystic realm is most likely a passageway to the third floor of Skysplit Tower."

Shao Yang stroked his beard and smiled, "Even if you make a mistake, I can be sure that the secret realm contains an extremely pure energy. If you can cultivate inside it, your cultivation will definitely increase by leaps and bounds, and with little brother's talent, stepping into the Void Transformation Stage within a year is not impossible."

"Skysplit Tower's third floor ..."

Tang Huan muttered these words softly. According to the information he had obtained, ever since the existence of the "Ancient Clear Heaven Domain", there had never been a Void Transformation Stage cultivator that was able to enter the third floor of Tong Tian Tower. Even the second floor had only been opened by a few Void Transformation Stage experts ten thousand years ago.

If it was really as Shao Yang said, then that secret realm was the first passage to the third floor of the "Tong Tian Tower." As the first Void Transformation Stage cultivator to enter, although he was at the greatest risk, he still had an extremely high chance of obtaining all sorts of shocking opportunities ... The deal seemed worth it.

Gengxu and the others had obviously thought of this as well, and a look of pleasant surprise appeared on their faces.

If one could really enter the third floor of Tong Tian Tower first, that would be a great lucky chance. However, when they thought about their current status as puppets, their faces filled with bitterness. If they really could enter that place, it would also be because of Tang Huan, and the lucky chances they could obtain would all belong to Tang Huan.

Suddenly, Tang Huan smiled. "Senior Shao Yang, you're not going to invite me to open that secret realm, are you?"

"Little brother, are you saying ..."

Shao Yang was stunned.

Tang Huan smiled lightly and said, "It's hard to say whether or not the secret realm is suitable for cultivation. Even if it's suitable for cultivation, it's not guaranteed that one will be able to step into the Void Transformation Stage within a year, so ... Senior Shao Yang, you understand! " Saying that, Tang Huan smiled craftily.

"I understand ..."

After being stunned for a moment, Shao Yang couldn't help but laugh. He had indeed understood, he wasn't afraid of Tang Huan's request, he was only afraid that Tang Huan wouldn't be interested in that secret realm.

Right now, it was clear that Tang Huan was moved, and things were easy.

"Little brother, if there's anything you need, please feel free to speak your mind." Shao Yang said straightforwardly.

"I need. the Divine Weapon Catalogue. "

Tang Huan stared at Shao Yang, and said the symbol word by word, then continued, "Senior is able to casually take out a Heaven Rank Divine Armament's Divine Weapon Catalogue as compensation for smelting 'Dark Ink Mystical Iron'. I presume that there are still quite a few of these things, and I don't have much of them, a dozen or twenty pages would be enough for me."

Tang Huan opened his mouth wide, but his face was brimming with a smile.

"A dozen or twenty pages?"

Shao Yang's face darkened and he angrily laughed, "Little brother, the reward you want is way too much. Dozens to twenty pages of Divine Weapon Catalogue, why don't you just go snatch it!"

"Senior Shao Yang, since there isn't any, then let's just drop the matter of opening the secret realm. There's no need for us to be friends anymore." Tang Huan looked to be in a slow and leisurely state, but the wariness in his heart had already reached its peak, just in case Shao Yang suddenly attacked to capture him.

"Stop!" "Stop!"

Seeing that Tang Huan was about to turn and leave, Shao Yang did not care about his anger and hurriedly called for Tang Huan to stop. He said with a bitter smile, "Little brother, Divine Weapon Catalogue s are too rare, there are only thirty-six pages to each rank. They have long been scattered all over the Forging God Great World, and no one is able to take out a dozen or twenty pages. One page has already been given to you outside the city of Tongtian, now there is only one page left. Since little brother needs it, this old man will give it to you as a gift. "

Shao Yang's facial features were squeezed into a ball, and he looked like he was enduring the pain of not being loved.

Chapter 1142 - Trading!

The moment he said those words, Tang Huan knew that this old fellow was full of nonsense. He had the "Intangible Buddha" and the God Creation Statue guarding the souls, even a peak expert like

Shao Yang, who had undergone the Nine Revolutions Transcendental Tower's transformation, would not be able to lie in front of Tang Huan without him noticing.

Tang Huan originally wanted the Divine Weapon Catalogue, because he wanted to trick Shao Yang.

In the ten odd years that he had been in the Forging God Great World, although Tang Huan had obtained two pages of Divine Weapon Catalogue, only Shaoyang's page was taken out by him on his own accord. And in the memories of those many puppets, there was also information on the whereabouts of any Divine Weapon Catalogue.

He didn't think that there would really be a chance. Even if Shao Yang really only had one page of Divine Weapon Catalogue left on him, he must still know about the whereabouts of some other Divine Weapon Catalogue.

"One page?"

Tang Huan looked at Shao Yang with disdain and laughed, "Senior Shao Yang, is a suspected third floor passage in Tong Tian Tower worth only a page of Divine Weapon Catalogue? If that's the case, then please forgive me for not being able to accompany you. "Everyone, let's go."

With that, Tang Huan floated away. In that moment, he was already tens of metres away, and Geng Wen and the rest immediately followed.

"Little brother, please wait!"

Shao Yang was anxious and angry at the same time, so he chased after him.

He knew that Tang Huan might not truly want to leave, but he did not dare to gamble. After all, Tang Huan was the only Heavenly Blacksmith that was currently capable of smelting the "Dark Ink Mysterious Iron".

It was not like he did not think about taking Tang Huan down and forcing him to the second floor of "Tong Tian Tower" to open the secret plane. After his intentions of seeking repayment had been destroyed, he had thought of this idea, but in the end, he did not do so. The spatial artifact that could send Geng Xun and the others into the sucking made him somewhat worried.

If he could succeed, that would be easy. However, if he failed, then the chances of opening the secret plane would be very slim.

"Little brother, do you know that what this old man's page of Divine Weapon Catalogue bears are not Heaven Rank Divine Armament s, but Saint Rank Divine Armament s!" Shao Yang said in a deep voice.

"So what?"

Tang Huan stopped in his tracks, turned around and looked at Shao Yang who was flying over, "Senior Shaoyang, you must have obtained that Divine Weapon Catalogue quite a long time ago, have you found a Saint-rank Heavenly Blacksmith that you can forge?"

"This ..."

Shao Yang was stunned when he heard this. Saint-rank Divine Armament s were not easy to forge. It had very high requirements for them.

If he were to recklessly forge a Saint-rank Divine Armament, he would definitely fail. Once he failed, the Divine Weapon Catalogue would be gone. To forge a Saint-rank Divine Armament, one would need to find a Heavenly Blacksmith who could forge top-grade Saint-rank Heavenly Soldier s.

It was not enough to forge a top grade saint rank Heavenly Soldier from time to time. It required a success rate of more than fifty percent.

Even so, there was no guarantee that he would be able to successfully forge a Saint-rank Divine Armament.

For all these years, it was said that only two of the thirty-six pages of Holy-ranked Divine Weapon Catalogue had truly become Saint-ranked Divine Armament, while ten pages had failed in forging.

"Others may not be able to forge a Saint-rank Divine Armament, but for me, it's not a big problem." Tang Huan suddenly laughed.

"Little brother's words are a bit too full." Shao Yang laughed, "This old man has to admit, little brother, your Tools Method Attainments is indeed not bad, especially little brother, you have fused with the Five Elements Spiritual Fires, so it can be said to be unparalleled, but a Saint-rank Divine Armament is not easy to forge."

"Senior, please take a look."

Tang Huan did not explain any further. Within his mind instructs (in a second), a brilliant red flashed in his palm, but that had been transformed into a long spear the instant the "Absolute Yang Scarlet Scale Sword" appeared. On the black spear shaft, a red glow coiled around it, and at the tip of the spear, flames seemed to be churning as a terrifying aura filled the world.

Not to mention Geng Xun and the others with weaker cultivations, even Shao Yang felt his heart palpitate at this moment.

"Hundred Mysteries Flame Spear!"

Breathing in a mouthful of cold air, Shao Yang had already exclaimed, "You ... You forged the Heaven Ranked Divine Armament? "

After Tang Huan controlled them, they did not forge any weapons. This meant that the Divine Armament was forged by Tang Huan before. In merely a day's time, the Heaven Ranked Divine Weapon Catalogue had turned into such a terrifying weapon.

"To me, as long as there are Divine Weapon Catalogue and materials, there will be Divine Armament!"

"If Senior Shaoyang still has a Divine Weapon Catalogue, no matter if it's a middle, high, or heaven stage, or saint rank, as long as the quantity is sufficient, I can gift Senior Shaoyang a Saint-rank Divine Armament. As for which one, Senior, you have the final say."

"What?"

Shao Yang was stunned, didn't Tang Huan's words mean that he could succeed in forging any of the Saint-rank Divine Armament s?

He was certain that before this, in the entire Forging God Great World, there was not a single Saint-rank Heavenly Blacksmith that dared to say such words. But now, not only did Tang Huan say

them, he was also brimming with confidence. Shao Yang subconsciously wanted to laugh, but when he saw the "Hundred Fires Flame Spear," he was completely unable to do so.

Although Tang Huan's cultivation was not high, but he seemed to have such confidence.

Although the difficulty of forging a Heaven Ranked Divine Armament was less than that of a Sacred Ranked Divine Armament, it still required ten to fifteen days. Yet Tang Huan only took a day?

With his incredible speed, he could completely see the forging skills that Tang Huan had used in the Divine Armament.

Not long after, the expression he gave Tang Huan became very fervent as he chuckled, "Little brother, this old man accepts it. To be honest, even though this old man only has one page of Saint Rank Divine Weapon Catalogue, I still know the whereabouts of some other Divine Weapon Catalogue. If I collect all of them, there should be around ten pages left, and I don't know if this number meets little brother's requirements or not."

"Only ten pages?" Tang Huan frowned, slightly dissatisfied.

"Little brother, ten pages is enough."

Shao Yang said with a wry smile, "Within those ten pages, there are five pages filled with Saint-rank Divine Armament s. If little brother is able to turn this page of Divine Weapon Catalogue this old man has into a Saint-rank Divine Armament, this old man would be able to deliver the ten pages of Divine Weapon Catalogue in front of little brother without little brother needing to spend any effort."

"Fine, deal."

There were ten pages of the map, and there were even five pages of Holy-ranked equipment. Not only would these weapons allow him and Shan Shan to level up to Holy-ranked Divine Armament, the rest would also be given to Yu Feiyan, Mu Yan and Feng Ming in the future.

"Alright!"

Shao Yang couldn't help but laugh out loud. He had carried that Saint Tier Map with him for decades, and now he finally had a chance to forge it. Ignoring the envious gazes of Geng Xu, Qiu Rui and the other two, Shao Yang looked at Tang Huan with a smile and said impatiently, "Little brother, when are we leaving?"

"We can set off now!"

"..."

Chapter 1143 - Heavenly Horse Snow Mountain

The Ancient Regions were at least several times larger than the "Heavenly Desolate Secret World". To head to the northwest of the Ancient Regions' "Skysplit Tower", one would have to go through many dangerous situations.

The most dangerous of them all was none other than the Ten Thousand Beast Mountain Range.

The mountain range was extremely vast, and at least half of the ferocious beasts in the "Ancient Clear Heaven Domain" were gathered at the Ten Thousand Beast Mountain Range. The strongest fierce beasts were all in the Ten Thousand Beast Mountain Range.

After encountering danger a few times, Tang Huan invited Shao Yang into the Space Aircraft, Geng Xu, Chou Rui and the rest all entered the "Illusory Sword Heavenly Palace".

From time to time, Tang Huan would use "Yin and Yang Void Method Air Escape" and quickly travel through the air. When his strength was about to be exhausted, he restrained his Qi to its limit, and while flying at a high speed, he would also recover his True Essence.

Along the way, Tang Huan sensed the existence of quite a few strong fierce beasts, and had even personally witnessed an incomparably fierce battle. On one side, there were dozens of Virtual Level warriors, all of them with cultivations above the Seventh Cycle of Void. There were even a few strong experts at the peak of the Ninth Cycle of Void Transformation.

On the other side was an exceptionally strong black bear.

The black bear's body was incomparably large, and it sat on the ground like a towering mountain of flesh. The aura it emitted caused one's soul to tremble, and with just a slap of its enormous bear palm, an expert at the Seventh Cycle of Void was blasted to pieces on the spot without even having the time to let out a snort.

Tang Huan did not know what the result of the battle would be, because, after seeing the terrifying scene, Tang Huan immediately "escaped into the air", in case he was caught in the crossfire.

Time flew by ...

Unknowingly, the greenery in the forest began to gradually disappear, and what replaced it was an increasingly dazzling, dazzling white.

High mountains and lofty mountains, finally completely covered with pure white snow.

"Almost there!"

Tang Huan's footsteps paused, and he let out a light sigh, as a faint smile surfaced on his face. Immediately after, with a thought from Tang Huan, the Space Aircraft shot out from his chest with lightning speed, quickly returning to their original state. In a blink of an eye, a white figure flashed out from the aircraft, and it was Shao Yang.

"This is the 'Heavenly Horse Snow Mountain'?" The scene that entered his eyes caused Shao Yang to be stunned. After sizing up the mountain for a moment in the blink of an eye, he couldn't help but exclaim, "Little brother, you actually used five days to pass through the Ten Thousand Beast Mountain Range? This ... This is too fast! "

Beyond the Ten Thousand Beast Mountain Range was the "Heavenly Horse Snow Mountain". Tong Tian Tower was located inside the "Heavenly Horse Snow Mountain".

Under normal circumstances, even if a Void Transformation Stage cultivator were to pass through the Ten Thousand Beast Mountain Range that was fraught with danger, it would still take about a month or so. For example, Shao Yang, who had passed the Ten Thousand Beast Mountain Range more than ten times, he could be said to be experienced, but even so, he would still need at least twenty-five days to travel.

In addition, he had been cautious throughout the entire process, treading on thin ice.

However, Tang Huan had actually only used five short days to travel through the entire Ten Thousand Beast Mountain Range. After staying in the "Heavenly Completion Ancient Region" for so many years, this was the first time he heard of someone passing through the "Ten Thousand Beast Mountain Range" to reach such a speed. And the person who created this speed was a Third Cycle Void Transformation Stage cultivator.

After entering the Space Aircraft, although he did not witness Tang Huan's following experiences, but from the looks of Tang Huan's current situation, he should be able to live a rather relaxed life for the past five days.

"Five days? "Very soon?"

Tang Huan laughed indifferently, then continued to move forward.

Shao Yang was stunned speechless when he heard this. A dignified expert of the Nine Revolutions Transcendental Tower, at this moment, he felt a huge blow to his pride. Even if five days were not fast, how could he endure when he needed twenty-five days to cross the Ten Thousand Life Mountain? Instantly, the gaze Shao Yang used to look at Tang Huan became somewhat sullen.

Only when Tang Huan's figure was about to disappear did Shao Yang collect his emotions and give chase ...

... ..

Heavenly Horse Snow Mountain. Mountain just like its name.

This snowy mountain was named after the Purple Rainbow Heavenly Horse. The Purple Rainbow Heavenly Horse was not an ordinary vicious beast, but was a completely purple, winged horse.

It was said that as soon as the Ancient Clear Heaven Domain appeared, there was already a Holy Beast within the snowy mountain.

In the countless years that followed, there were cultivators that would occasionally see traces of the Purple Rainbow Heavenly Horses. From ancient times until now, countless Void Transformation Stage experts had wanted to tame this Spiritual Beast, but unfortunately, no one had been able to do so.

The last time it had appeared seemed to be two thousand years ago.

Tang Huan was not interested in the "Purple Rainbow Heavenly Horse." He already had the "Netherworld Nine Spirit Bird", so the potential of this Holy Beast was definitely above that of the "Purple Rainbow Heavenly Horse". As for Blue Dragon Xiao Budian, who had been taken away by Yan Zu, his achievements in the future would definitely surpass that of the Nine Spirits of Saint Beasts.

"Whoosh!" "Woosh ~ ~ ~"

Tang Huan and Shao Yang, one in front and one behind, seemed to be floating above the snow, and their speed was extremely fast.

After all, the difference in cultivation was extremely great. In a situation where Tang Huan did not use the sacred art "Void Escape", there was still a certain difference in speed when compared to Shao Yang. The distance between the two of them was shrinking bit by bit.

When Shao Yang completely caught up with Tang Huan, and entered together with Tang Huan, a white round tower immediately entered Tang Huan's line of sight. On the peak of the snow-capped mountain that pierced the clouds, the round pagoda silently stood there. It seemed to be sculpted out of beautiful jade, blooming with a gorgeous luster that was consistent with that of ice and snow.

The two of them soared into the air, and before long, they landed on the summit. The round tower then appeared exceptionally clearly in front of Tang Huan.

The tower was only three stories high, about a dozen meters tall, neither towering nor massive. However, the feeling it gave people was immense and majestic, a magnificent sight, the top of the tower seemed to connect with the sky, giving people a huge pressure, making people's souls tremble, even giving them the impulse to kneel down and worship the ground.

"Tong Tian Tower!"

Tang Huan squinted his eyes and took a deep breath. With a move of his feet, he passed through the opened door of the tower.

On the first floor of the round tower, an arch that looked like it was carved from snow stood erect at the center. Inside the arch, the air rippled slightly.

Four figures were sitting cross-legged on the ground near the arch.

One of the four was a white-haired old man in a blue robe; the other was a middle-aged woman in a red dress, a middle-aged woman in a red dress, a middle-aged woman in a red dress, a middle-aged woman in a black robe;

It was as if they had just experienced a fierce battle. Their faces were filled with exhaustion, and the clothes of the blue-robed old man and the bald old man were stained with blood. However, the aura that faintly seeped out from their bodies was extremely tyrannical. They had actually already reached the Void Transformation Stage.

Seeming to have sensed the movement at the tower's door, the four people simultaneously opened their eyes. A cautious expression flashed between their brows.

Only after seeing the appearances of Tang Huan and Shao Yang did they secretly heave a sigh of relief.

Immediately after, the blue-robed old man cupped his hands toward Shao Yang and said with a smile: "So it's Brother Shao. Brother Shao is still as elegant as ever after so many years! "

Chapter 1144 - Black Frost World

"So it's Brother Dai Tao."

Shao Yang not only recognized the blue-robed old man, but he was also very familiar with him. He greeted him with a surprised expression and teased when he saw the blue-robed old man's sorry state, "I am indeed as elegant as ever, but Brother Dai Tao, your situation doesn't look too good."

When he finished speaking, Shao Yang and Tang Huan had already arrived near the arched door.

"Don't mention it."

Dai Tao smiled bitterly and said, "Brother Shao, a cold wave suddenly broke out from the Ice Snow Realm in the first level of Tong Tian Tower. Fortunately, the four of us are very close to the exit, so we desperately rushed out. However, the other Void Transformation Stage cultivators are in danger. This time, more than half of the people here will be killed. "

"Cold Wave?"

Tang Huan couldn't help but be moved when he heard the two runes that Dai Tao spoke of, but when Shao Yang heard this, his face changed color.

Dai Tao's voice slightly paused, and after he sized up Tang Huan and Shao Yang, he immediately reminded them, "Brother Shao, if you two want to enter this 'Tong Tian Tower', you'd better wait for a year. You all have never personally experienced the might of that cold tide, even with Brother Shao's cultivation of the Void Transformation Stage, it would still be extremely dangerous, not to mention that this little brother is only at the Void Transformation Stage.

At the end, Dai Tao's face was filled with lingering fear.

"One year..."

Shao Yang frowned slightly.

The first level of the "Tong Tian Tower" was also known as the "Ice Snow Realm". Whether it was hundreds of years or thousands of years, the "Blackfrost Snow World" would erupt with a cold wave from time to time. Moreover, the cold wave didn't gradually spread out, rather, it engulfed the entire area within a short period of time.

Once the cold tide descended, the entire "Frigid Snow Realm" would become extremely dangerous.

That cold wave would last for a whole year, and even a Void Transformation Stage cultivator would be frozen to death. Every time after the cold tide passed, the number of dead people in the "Frigid Snowy Ice World" would reach more than half. In this "Ancient Clear Heaven Domain", many cultivators' expressions changed when they heard of the cold wave.

"Senior Shao Yang intends to enter after a year?" Tang Huan suddenly laughed.

"This..."

Shao Yang revealed a hesitant expression.

Tang Huan smiled again, "The cold tide is accompanied by great danger and it also brings about great opportunities. I heard that after the cold wave descends, a heavenly treasure called the 'Black Ice Red Lotus' will appear in the 'Ice Snow Realm'. For a Third Cycle Void Transformation Stage cultivator like me, I only need one and I can raise my cultivation by one stage. "Senior Shao Yang, if you want to stay, then stay. I can't keep you company. We can't miss an opportunity like this."

"Little brother, you want to go in?"

Shao Yang was shocked.

When Dai Tao and the others heard this, they looked at each other in dismay. They also did not expect that a cultivator at the Void Transformation Stage would be so daring as to venture into the

cold waves to enter the "Mystic Frost Snow World" to search for a heavenly treasure called the "Black Ice Red Lotus".

Did he not know that at such a low level of cultivation, entering the "Blackfrost Snow Realm" that was covered in frost was no different from courting death?

I wonder which sect's spoiled disciple this fellow is, to actually be so ignorant! When the four of them, who were in the void, discovered the cold wave, they fled in panic, afraid that if they were too slow, they would lose their lives. However, this fellow was still thinking of entering.

"The 'Black Ice Red Lotus' is indeed a rare treasure that appears only once in ten thousand years. But little brother, do you know how many people in the entire 'Snow Glacier Realm' are lucky enough to find such a treasure every time the frost wave descends? "As I see it, there's no harm in waiting a year before entering." Dai Tao couldn't help but advise.

"Thank you for your good will, senior."

Tang Huan slightly smiled and said, "According to the news I heard, every time the cold wave came, there should not be more than ten people who would be able to find the 'Profound Ice Red Lotus'. However, if they can't find it, then so can I. Maybe we can find eight out of ten plants after going in this time. "

"..."

Hearing Tang Huan's words, Dai Tao was completely speechless. The look in Tang Huan's eyes which he and the other three looked at had changed, as if he was looking at an idiot.

Where did such confidence come from when he was merely at the Third Cycle of the Void Transformation Stage?

Shao Yang couldn't help but pat his forehead as he looked at Tang Huan speechlessly. He obviously knew where Tang Huan's confidence had come from. This Tang Huan was not an ordinary Saint-rank Heavenly Blacksmith, but a Saint-rank Heavenly Blacksmith who had fused with the Five Elements Spiritual Fires. However, even if they could resist the cold, they might not be able to find a treasure like the "Black Ice Red Lotus".

Not to mention, he had even found eight stalks!

"Senior Shao Yang, I'll be leaving first. We'll meet again on the second floor of the Tong Tian Tower in the future." Tang Huan naturally knew what Dai Tao and the others were thinking about him at this time. He was too lazy to explain anything else, so he simply nodded at them, then bid farewell to Shao Yang and shot towards the arched door.

"Little brother, wait for this old man ..." Shao Yang had not finished speaking when the air within the arch fluctuated slightly like a ripple, and Tang Huan was nowhere to be seen.

"Brother Shao, you want to enter as well?"

Dai Tao looked at Shao Yang with a little surprise. "Since that kid wants to go to the 'Blackfrost Snow Realm' and court death, then Brother Shao should just leave it to him. Why did Brother Shao accompany him when he was in danger? Let's just wait outside for a year. It just so happens that we can go to the Ten Thousand Beast Mountain Range together and hunt a few powerful Vicious Beasts."

"Brother Dai Tao, you might not know this, but even if this old man dies ten times in the 'Snow Glacier Realm of Ice and Snow', that kid must not die!" Shao Yang said helplessly.

"Why is that?" Upon hearing his words, Dai Tao and the others were astonished.

"Because he is Tang Huan!" With these words, Shao Yang quickly rushed into the arch, his figure immediately disappearing without a trace.

"Tang Huan?"

Outside of the arch, Dai Tao and the other three touched this unfamiliar name and looked at each other. What the hell was Tang Huan?

"Hu!"

On top of a high platform, an arch stood there. The air slightly trembled, and Tang Huan's figure flickered as he appeared.

The moment his feet touched the ground, Tang Huan felt a chill that went straight to his soul, and he couldn't help but shiver. He felt as if his entire body was about to be frozen, the True Essence in his body suddenly slowed down, and he could turn into an ice sculpture at any time.

"So cold!"

Tang Huan sucked in a breath of cold air. No wonder Dai Tao and the others were so afraid of the cold tide in the "Snow Glacier Realm of Ice and Snow".

This was because as long as one was within this "Realm of Ice and Snow," they would have to constantly revolve their true essence to resist the cold invasion. Once their true essence was exhausted, they wouldn't be too far away from death. However, if they were able to endure this cold wave, even if they could not do anything in this year, the benefits were beyond imagination.

Chapter 1145 - Cold Wave

"Hu!"

A light piercing sound came from behind him. Tang Huan looked over in a blink of an eye, and saw that Shao Yang had also followed in. He could not help but laugh, "Senior Shao Yang also changed his mind?"

Shao Yang narrowed his eyes and said generously, "Since little brother wants to test the cold tide within the Snow Glacier Realm, then this old man can only sacrifice his life to accompany you."

"Thank you, senior."

Tang Huan laughed, but inwardly, he cursed the old cunning fox.

Shao Yang must have judged that Qin Lie, who had merged with five Spiritual Fire s, was extremely unlikely to lose his life in the "Mystic Frost Snow World", which was why he followed him in. As long as he didn't die, and when Shao Yang couldn't hold on, as long as he hid inside his Space Aircraft, his life would definitely not be in danger.

Shao Yang smiled and said, "Of course, of course. Little Brother accepted this old man's invitation to go to the second floor of Tong Tian Tower to open the secret realm.

"In that case, let's set off."

Tang Huan laughed and then jumped down from the west side of the stage. This stage was located to the east of the "Ice Snow Realm", and on the high platform, the position was clearly indicated. Next, Tang Huan only needed to continuously head west, and he would be able to reach the passageway to the second floor of the "Tong Tian Tower".

After leaving the high platform, the chill seemed to have increased even more.

Shao Yang, who was jumping down behind Tang Huan, couldn't help but shiver. His expression slightly changed as he immediately channeled his true essence with all his strength.

As Tang Huan thought about it, he also began to circulate the "Great Ultimate Spiritual Fire."

Immediately after, Tang Huan's body was covered by a thin layer of red flame, but the heat in the flame was extremely restrained, and did not leak out at all.

The cold air that was sweeping over from all directions was blocked by the layer of flames, and could not penetrate Tang Huan's body anymore.

However, Tang Huan immediately felt an incomparable resistance.

After trying for a while, Tang Huan couldn't help but shake his head and laugh bitterly. In this "Ice Snow Realm" which was enveloped by the cold wave, even if he used his speed to the fullest, it was still not very fast. It was just like when he was a Heavenly Domain cultivator, and to Tang Huan, this speed was simply as slow as a snail.

However, Shao Yang was dumbstruck a hundred meters behind Tang Huan.

In this "Mystic Frost Snow World", Tang Huan was actually able to fly at such a fast speed, it was simply somewhat inconceivable.

One must know that every time the frost wave descended upon the "Frosty Snow Realm", the force of the chill would be so strong that it would cause one's speed to drop greatly. Even a powerful expert of the Void Transformation Stage like him would probably only be able to display a speed of around the same as a cultivator of the Eight Stage Nine.

If his cultivation was a bit lower, then his speed would be even slower.

This sort of speed was simply not enough to allow the vast majority of cultivators to escape the cold tide by going to the second floor or leaving the Tong Tian Tower.

Because of this, after the appearance of the cold wave, the death rate of the "Black Frost Snow World" was astonishingly high.

Tang Huan had the Five Elements Spiritual Fires enveloping his body, so he could resist the cold attacks. However, the blocking power within the surrounding cold energy would not weaken because of this. According to common sense, with Tang Huan's cultivation of the Void Transformation Stage, no matter how fast he was, he should not be able to be faster than a cultivator of the sixth step.

But now, Tang Huan's speed was comparable to Heavenly Domain Cultivator's.

This speed was nothing outside of Tong Tian Tower, but in the current Tong Tian Tower's first floor "Mystic Frost Snow World", it was extremely fast. There was probably no one that could compare to him.

"Little ..."

After a short moment of shock, Shao Yang recovered from his shock and opened his mouth to shout.

But after a moment, Shao Yang's voice suddenly stopped, and Tang Huan's figure suddenly disappeared from a hundred meters ahead. Shao Yang's heart thumped when he saw this.

Originally, in addition to this terrifying chill, dangers still existed within the "Blackfrost Snow World". In fact, they might even become even more dangerous.

It was like the holes of various sizes that were hidden under the snow.

In the past, it didn't matter even if he fell into a hole. With his strength as a Void Transformation Stage expert, he could have charged out the moment a hole was formed. But now, it was very difficult to achieve this. Not only did the Void Transformation Stage powerhouse have great speed, but he had also lost the ability to fly.

As soon as he entered the "Blackfrost Snow Realm", he would fall into the snow cave?

"Whoosh!"

Shao Yang crazily rushed forward, and after a moment, he had already arrived at the place where Tang Huan had disappeared to. Shao Yang couldn't help but be stunned as his two eyes quickly scanned the area. In the surrounding area, there weren't any holes revealed and neither had fallen into the snow cave. Then, where had Tang Huan gone to?

"Senior Shao Yang, this way."

A shout came from the front.

Shao Yang was shocked and looked towards the source of the sound. He saw a small black dot on the white mountain ridge thousands of meters away.

"Tang Huan?"

Shao Yang was completely dumbstruck.

In just the blink of an eye, Tang Huan had already traveled that far? At this moment, Shao Yang found it hard to believe his own eyes. Even his speed had decreased by countless times, and he couldn't fly in the air.

However, what Tang Huan had just used, was something similar to the Space Moving. Otherwise, it would have been impossible for Tang Huan to instantly appear there.

He first passed through the Ten Thousand Beast Mountain Range and entered the "Mystic Frost Snow Realm" at the first level of Tong Tian Tower in just five short days, yet he was still able to maintain a speed comparable to that of Heavenly Domain Cultivator within the cold tide, and could even teleport far away ... Just what kind of weirdo is this Tang Huan?

Shao Yang was stunned into silence.

It was only when Tang Huan called out again that Shao Yang seemed to have awoken from a dream and continued to rush forward. After a long while, he finally arrived in front of Tang Huan and looked at him as if he was looking at a monster.

"Exactly."

Tang Huan laughed awkwardly: "I have let senior down. Under the cover of the cold tide, the condition of the 'Realm of Ice and Snow' changed greatly indeed. Not only did it slow down several times, even when using its ability, it could only shift a small distance. The power it consumed was over a dozen times greater than before. If I were to continue like this for a few more times, my true essence would probably run out. " As he finished speaking, Tang Huan also felt somewhat helpless.

In the current "Realm of Ice and Snow", the consumption of the "Air Escape" technique was simply too great.

Shao Yang was even more speechless, and the gaze he looked at Tang Huan with was filled with hidden bitterness.

How could he not be satisfied after coming a few times?

It had to be known that in such a dangerous situation, such an instant escape method was enough to save his life. Shao Yang did not ask for too much, being able to come here once was enough.

Unfortunately, he was not even able to do it once as an expert of the Nine Revolutions Transcendental Tower.

"..."

After silently cursing in his heart for a while, Shao Yang chose to silently continue forward. If he continued to talk with Tang Huan about this, he reckoned that he would be hit even harder.

Tang Huan suspiciously sized Shao Yang up and quickly followed. What's going on with this old fellow?

... ..

Chapter 1146 - Mysterious Ice Red Lotus

Between heaven and earth, the mountains rose and fell, covered in silver.

Whoosh.

Tang Huan and Shao Yang, one in front and one behind, were wildly running on the frozen ground.

At this time, Tang Huan's body was still covered in a thin layer of flames, and his expression was relaxed, but Shao Yang's face, who was not far behind him, had already turned purple.

"Little... Little brother ... I don't. "Enough..."

Shao Yang's voice was trembling as he continuously attacked with the cold. Not only did it erode his true essence, it also made his entire body feel stiffer and stiffer.

At this moment, Shao Yang seemed to have smelled death.

This caused him to be somewhat terrified, but when he lowered his head and was about to request to hide in Tang Huan's Space Aircraft s, he suddenly felt that the situation around him was not right.

That terrifying chill suddenly weakened by several times. Even if one didn't revolve their true essence, they would still be able to withstand it.

"This place..."

Shao Yang was stunned for a long time before he seemed to have thought of something, and exclaimed as if he had just awoken from a dream, "The 'Black Ice Red Lotus' "There's the 'Black Ice Red Lotus' here!"

Instantly, the eyes Shao Yang looked at Tang Huan with, was filled with disbelief.

In this "Realm of Ice and Snow", one could occasionally find a space that was immune to the cold. In such a place, there was bound to be a "Mysterious Ice Red Lotus" growing.

In such an area, the chill was not isolated, but was completely absorbed by the [Black Ice Red Lotus].

Generally speaking, if the Void Transformation Stage cultivator was lucky enough to find such a place, he would be safe. After that, as long as he walked out of the area that the "Mysterious Ice Red Lotus" affected, he would be able to obtain the protection of this rare treasure. It would basically not be a threat to his life.

Of course, he also needed to take out the "Black Ice Red Lotus" before the frost wave disappeared. Otherwise, the "Black Ice Red Lotus" would wither and wither along with it.

Every time the cold wave descended, there would be very few lucky people like him.

Shao Yang never thought that he and Tang Huan would discover the traces of a "Profound Ice Red Lotus" within the short period of half a month that he and Tang Huan had entered the "Mystic Frost Snow Realm". No, what Tang Huan relied on was not luck.

Shao Yang was greatly shocked after he suddenly realized this point.

Along the way, he discovered that Tang Huan had been carefully sensing something. Furthermore, even though the two of them were travelling westwards, they had changed their direction several times. Before this, he had always thought that they were probing for and avoiding the hidden dangers beneath the ice and snow, but now, he discovered that Tang Huan seemed to be searching for the "Profound Ice Red Lotus." However, such a judgment instead caused Shao Yang to feel disbelief.

From ancient times until now, the "Mysterious Ice Red Lotus" had always been encountered, not found!

If it was really as he had guessed, Tang Huan's performance in the past half month could be said to have completely overturned all of his knowledge.

"Looks like my judgement isn't wrong. There is indeed a Mysterious Ice Red Lotus in this direction." Tang Huan had already stopped in his tracks. He did not pay attention to the change in Shao Yang's expression behind him, and instead muttered to himself. Right after, both of his eyes looked to the ground in front of him at the same time.

Under the thick layer of ice and snow, there was indeed a faint red shadow that appeared. Seeing this, Tang Huan could not help but smile.

"Little brother, you really found this 'Black Ice Red Lotus'." Shao Yang took a few steps forward and couldn't help but open his mouth. When he said the word "find", he actually couldn't help but stress up his tone.

"What is it? Does Senior Shaoyang think that this is a little impossible? "

Tang Huan tilted his head slightly, and smiled as he looked at Shao Yang. Without waiting for Shao Yang's response, he smiled again, "Although the cold aura of this 'Snow Profound Realm of Black Frost' is extremely strong, there are still extremely minute differences between the strong and the weak. As long as one feels carefully, one can see that the distribution of the cold aura is actually following a certain pattern.

At first, Tang Huan did not detect it, but after he carefully sensed it for a while, he astonishingly discovered, that if he drew out all the lines between the cold and cold, they were actually extremely similar to a complicated set of Spirit Map. Following that, Tang Huan continued to probe and at the same time, tried to deduce ... The result caused Tang Huan to be extremely shocked, as the lines drawn by the cold was actually the same as the lines of Spirit Map s.

This wave of frost that covered the "Ice Snow Realm" was a complete set of Spirit Map. However, this set of Spirit Map was formless and formless, and without a Perception Ability like his, it was impossible to detect it.

Tang Huan continued his deductions and after ten days of hard work, he finally found a "Red Lotus of Profound Ice" that he had desired. This made Tang Huan even more convinced that the cold wave contained the deductions of Spirit Map s. From then on, all he had to do was follow the movements of the Spirit Map s and he would be able to find even more "Black Ice Red Lotus."

"Rules?" This old man will give it a try! "

Shao Yang was extremely surprised. Subconsciously, he walked out of this safe zone and once again entered the cold and oppressive zone.

Immediately after, Shao Yang brought out his Perception Ability and began to carefully sense the situation around him. After a short moment, Shao Yang's brows knit tightly together. He felt that the surrounding coldness was extremely terrifying, and there wasn't any difference in strength.

"To think that the Perception Ability would be inferior to the little fellow who has reached the Void Transformation Stage Nine Transformation Stage."

Shao Yang smiled wryly inside, that bone-chilling cold made his body shudder and even his soul tremble non-stop. He no longer had the mood to feel the strength of the chill and immediately rushed more than ten meters forward, returning to the safe zone.

However, at this time, the gaze Shao Yang used to look at Tang Huan was filled with even more regret.

Normally, when a Void Transformation Stage cultivator was caught in the cold tide, they would need to constantly resist the onslaught of the chill; they simply didn't have the energy to check the strength of the chill. Moreover, from the results of his previous experiment, the difference between the strength of the chill must have been extremely subtle.

It was basically impossible to find the "Profound Ice Red Lotus" based on the strength of the cold. After all, to be able to do this, it was not necessary to sense it occasionally, but it would require

Tang Huan to be able to maintain his sharp perception of the surrounding cold throughout the process.

If he made a mistake in his senses, he would probably go in the wrong direction.

Not to mention the Void Transformation cultivators in the current Realm of Ancient Clear Heaven, even the Void Transformation cultivators that had entered the Domain of Ancient Clear Heaven would not be able to accomplish this kind of incredible thing. In this world, freaks like Tang Huan, who not only had astonishing Perception Ability, but also had fused with it, and were not afraid of the cold invasion, were ultimately few in number.

Chapter 1147 - Void Transformation

As Shao Yang was sighing with emotion, Tang Huan had already slightly closed his eyes while both of his palms were pressed in front of him, followed by the rolling of dark red flames.

A fireball then dropped down onto the ice surface, and under Tang Huan's urging, it directly seeped into the layer of ice.

Even if there was no cold tide, this "Realm of Black Frost" was a place of ice and snow all year round. The layer of ice here had already existed for countless of years. Even if a Void Transformation cultivator's attack wasn't powerful enough, it would still be very difficult to damage the layer of ice and only leave a small mark on it.

However, even under the effect of "Great Ultimate Spiritual Fire", where Tang Huan had pushed the temperature to the limit, the layer of ice actually melted at an astonishing speed. After the ice melted, it did not turn into water. Instead, it immediately evaporated into nothingness.

In just a few short breaths of time, an additional deep pit with a radius of several meters appeared in this area. Tang Huan was already inside of the pit.

Following the rapid melting of the layer of ice, Tang Huan's body also continued to sink downwards.

Shao Yang stood at the edge of the hole and looked over. Deep within the ice layer, the vague red figure became more and more clear, and not long later, its complete outline entered his line of sight. Sure enough, it was a proud blooming lotus flower.

Immediately after, the flames on Tang Huan's palm began to quickly converge, so as to not hurt the red lotus.

After a while, at the bottom of the dozens of meters deep hole, the "Mysterious Ice Red Lotus" was completely revealed. There were no leaves, only a single red stem sticking out from the soil.

A faint fragrance wafted out. Tang Huan took a few light sniffs, feeling relaxed and happy, as though he was drunk.

This "Profound Ice Red Lotus" was born from the cold of the sucking, but the aura it gave off was extremely warm. Warm, powerful auras emanated from it in a steady stream, roasting a small, spherical space of about one meter in a wide area within the thick layer of ice. This allowed it to grow safely.

With a slight tug at the stem, Tang Huan pulled out the Ice Red Lotus at its roots.

The sparse roots were the same as the stems. They were sparkling red in color. However, they were extremely clean and didn't have the slightest hint of dirt on them. From this "Profound Ice Red Lotus," Tang Huan sensed an incomparably pure and boundless power; every petal of its petals, was like a dormant volcano.

It was no wonder that a "Mysterious Ice Red Lotus" like this was enough to allow a Void Transformation Stage powerhouse to advance a stage.

"Hu!"

Tang Huan's body moved slightly, he had already leaped up and floated down to the edge of the hole.

The fragrance of the flowers assaulted the nostrils, Shao Yang could not help but twitch his nose a few times, and his eyes actually became burning hot. Even a powerhouse of the Ninth Cycle of the Void Transformation Stage like him could not help but feel his heart palpitate with eagerness after witnessing the actual object of the "Mysterious Ice Red Lotus" with his own eyes.

However, this thought only flashed through his mind before it was suppressed.

This "Mysterious Ice Red Lotus" was indeed extremely precious, but it was only for cultivators below the Nine Revolutions Transcendental Tower. For a Nine Revolutions Transcendental Cultivator like Shao Yang, its use was limited. After all, even if Shao Yang refined this "Mysterious Ice Red Lotus", it was impossible for him to directly ascend into the heavens.

"Little brother, congratulations."

Shao Yang smiled and cupped his hands towards Tang Huan.

Tang Huan looked at Shao Yang with a smile that was not a smile. This old fellow was not a good person, just now, he could clearly feel Shao Yang's emotions.

"It's just a 'Black Ice Red Lotus'."

With a quick thought, Tang Huan said with a smile, "I plan to refine this 'Profound Ice Red Lotus' next. Senior, do you plan to join my Space Aircraft, or stay outside?"

Shao Yang laughed and said, "Refining the 'Black Ice Red Lotus' would take quite a long time, staying outside would be a waste of my primeval essence. This old man should go inside little brother's Space Aircraft."

"Sure."

Tang Huan could only wish for it, he summoned his Space Aircraft and sucked him in.

The reason why Shao Yang was able to attack the "Frigid Snow Realm of Ice and Snow" within the Space Aircraft after entering it was also because the aircraft was carried on him by Tang Huan and was covered by the "Great Ultimate Spiritual Fire". Otherwise, even within the aircraft, he would still not be able to escape from the cold.

After putting the aircraft back into his bosom, Tang Huan directly sat cross-legged on the snowy ground.

"Hu!"

In between his mind instructs (in a second), a "Nine Yang Divine Furnace" had already appeared from within the Dantian. Tang Huan took off the fiery-red lotus and threw it directly into the cauldron. The roots of the Mysterious Ice Red Lotus had no effect. However, their existence could ensure that the effects of the lotus would not be lost for a long time after they were pulled out.

"Buzz!"

In the next moment, the "Nine Yang Divine Furnace" returned to the Dantian and started to operate it quickly.

Tang Huan activated his "Void Spirit" and channeled "Great Harmony Heavenly Classics". The True Essence in his body surged like a tide, and within the cauldron, one petal after another separated from the body, before an incomparably boundless energy gushed out like a volcanic eruption.

As the "Nine Yang Divine Furnace" continued to circulate, the energy was continuously refined. Then, it overflowed the cauldron and merged into the "hollow spirit".

Tang Huan's true essence strength began to increase at an alarming rate ...

Before long, Tang Huan had already reached the limit of the third transition, and the strength of his True Essence no longer increased. However, as the "Profound Ice Red Lotus" continued to be refined, Tang Huan's True Essence became more and more pure.

After an unknown period of time, from within the Dantian's hollow spirit, a loud sound rang.

A layer of invisible barrier suddenly shattered into nothingness, and inside the hollow spirit, another circle of thread appeared. Almost at the same time, the Qi that faintly seeped out from Tang Huan's body started to soar, and after nearly half a quarter of an hour, it finally stopped.

"Void Transformation Stage Four!"

Tang Huan let out a light breath and slowly leaped into the air. The "Profound Ice Red Lotus" had already completely disappeared from within the Dantian's "Nine Yang Divine Furnace", but a portion of its energy was still left inside the cauldron. It would still take a while to be completely refined.

Tang Huan did not delay either, after sensing for a bit, he picked the direction he wanted to go.

"Whoosh!"

In a blink of an eye, Tang Huan was like a wild horse that had escaped from its rein and galloped forward with an extremely fast speed.

The existence of this "Nine Yang Divine Furnace" was completely capable of allowing him to advance while he refined energy. Furthermore, his strong soul was more than enough to support him when he refined energy, so he could deduce the location of the second "Profound Ice Red Lotus" from the Spirit Map that was completely condensed by the cold.

... ..

Chapter 1148 - Tian Clan Ranker

Within the middle section of the aircraft, it was dead silent.

Shao Yang sat cross-legged with his eyes closed. He was as motionless as a statue.

He was very clear that at this place he was at, there were passages to other spaces on the four walls. It was just that this passage was sealed up by the aircraft's artifact spirit. With his strength, he could of course forcefully open the tunnel. However, since he was cooperating with Tang Huan, he wouldn't do it recklessly.

During the first few days, Shao Yang would still calculate how much time had passed, but as time went by, he had long since lost this thought.

He didn't have to resist the onslaught of the cold; he could cultivate without worry.

However, every time he woke up from his cultivation, he couldn't help but think about whether Tang Huan had found a new red lotus after refining the "Mysterious Ice Red Lotus".

Using the methods that Tang Huan had revealed before, it was not difficult to find more "Profound Ice Red Lotus."

To a Void Transformation Stage cultivator, the first refining process of the "Black Ice Red Lotus" was the best. A "Black Ice Red Lotus" would definitely be able to increase their cultivation base by one level.

The second time, the effect would be greatly reduced. The third time was even more so.

Of course, with the boundless power contained within the "Black Ice Red Lotus", even if one couldn't step into a higher realm every time, the effects of increasing true essence or consolidating their cultivation were extremely obvious. Of course, it would be a bit too extravagant if a treasure like the "Mysterious Ice Red Lotus" was used to do such a thing.

"Buzz!"

After an unknown amount of time, a series of quaking sounds suddenly woke Shao Yang up. He raised his head to look up and saw that there were actually slight fluctuations above his head.

Whoosh! Then, the power of the sucking poured down.

Shao Yang's mind slightly stirred, and immediately understood that Tang Huan was asking him to leave the Space Aircraft. He did not resist and directly followed the power of the sucking to rise into the air. In a split-second, the scenery in front of Shao Yang changed drastically. The boundless snow-white color once again filled his eyes.

His gaze quickly swept once around, and Shao Yang saw Tang Huan. The current Tang Huan, was actually already at the Void Transformation Stage Five Revolving Realm.

It seemed that after he had refined the "Profound Ice Red Lotus" that day, Tang Huan had found even more "Profound Ice Red Lotus". However, other than Tang Huan, there were also five other figures around them. Judging from the auras radiating from their bodies, two of them were at the Void Transformation Stage Eight and three were at the Void Transformation Stage Seven Cycle.

The five of them were originally staring at Tang Huan like tigers stalking their prey, but a mocking smile surfaced on their faces. However, the moment Shao Yang appeared, the sneer froze on their faces. Between their brows, there was shock and panic that could not be hidden. It was obvious that they had determined that Shao Yang was a peak expert at the Void Transformation Stage.

"Senior Shao Yang, these people" Tang Huan squinted his eyes and laughed, but while he was speaking, the Space Aircraft had already shrunk and entered his bosom.

"Relax, leave it to me!"

Shao Yang's glasses turned and he'd already guessed what was going on, and he couldn't help but burst out in laughter.

He had already discovered that even though this area was also rather cold, that coldness did not pose any threat to Void Transformation Stage cultivators. This meant that there was another "Profound Ice Red Lotus" growing under the layer of ice here, and from what he could see, a ball of red light was indeed faintly discernible beneath Tang Huan's feet.

It was probably because after Tang Huan found this place, the five people in the surroundings had also discovered the existence of the "Profound Ice Red Lotus." In the current "Mystic Frost Snow Realm", most likely, other than Tang Huan, no other cultivators would covet the "Profound Ice Red Lotus" after seeing them.

Even he was no exception, if the "Black Ice Red Lotus" had been found by another Void Transformation Stage cultivator, he would have taken action to snatch it.

"Wait, wait, old man, I think there might be a misunderstanding here."

Without waiting for Shao Yang to make a move, a green-robed old man among the five hastily forced a laugh. His forehead was actually covered in a layer of fine sweat.

The other four people had ugly expressions on their faces.

When Tang Huan arrived, they were just a few hundred metres away. They were all surprised to see a fella that was able to reach the Void Transformation Stage and was not afraid of the cold. They immediately ran towards the direction he came from. As soon as they approached the area, they thought they had discovered the truth.

Beneath Tang Huan's feet, there was actually a "Mysterious Ice Red Lotus"!

Almost without any hesitation, the five of them immediately made a decision to take it for themselves. As long as they could possess this "Black Ice Red Lotus," they would easily stay here until that terrifying chill disappeared. They would no longer have to struggle amidst the cold tide.

As for the Tang Huan who had discovered the "Profound Ice Red Lotus" first, he had been completely disregarded by them.

A cultivator at the Fifth Cycle of Void Transformation could indeed be considered an expert in the Forging God Great World, but in their eyes, this fella at the Fifth Cycle of Void Transformation was nothing more than fart. Regardless of whether he was willing to give it up or not, he had to die. If he allowed the other party to leave, this news might leak out to add to his troubles.

However, just as they surrounded, Tang Huan summoned his Space Aircraft.

They thought that Tang Huan was planning to rely on his aircraft to escape and were ridiculing him in their hearts, but just as they wanted to make their move, Shao Yang appeared.

This was actually a top-notch expert at the Void Transformation Stage!

The five of them were immediately stunned. Not to mention that they had already been stuck in this cold wave for a long time, their strength was no longer at its peak state. Even if they were in their peak state, even if they were to work together, they would still not be a match for a Void Transformation Stage powerhouse.

"That's right, that's right. Brother, don't be hasty."

A Black Costume Brawny Man also forced out a smile, "We just want to borrow little brother's place to avoid the cold tide. We definitely don't have the slightest bit of malicious intent. Actually, we wanted to discuss it with little brother, but we didn't say anything before you showed up. "

"Regardless of whether it is a misunderstanding or not, regardless of whether it is malicious or not, since we are already here, we must die!" Shao Yang said with a beaming smile. His tone, however, was overflowing with killing intent. The instant he finished speaking, a frightening and terrifying pressure had already filled the entire space.

"Brother, we really have no ill intentions!"

"We are Tian Clan cultivators, if you kill us, you will become enemies with the entire Tian Clan!"

"Please show mercy!"

"..."

The five cried out in shock, begging for mercy or threatening.

"Humph!"

At this time, Tang Huan gently coughed and said, "Senior Shao Yang, I have a small request. Can we capture these five people alive?"

"About this..."

Shao Yang's gaze slightly moved and he was slightly hesitant.

At that time, he did not know the reason behind it, but when he recalled later on, he realized that seemed to have used some sort of method to control them. If these five people were captured alive, it was very likely that they would also be controlled by Tang Huan.

"If Senior Shao Yang is able to accomplish this, this Mysterious Ice Red Lotus will belong to Senior." Tang Huan smiled slightly.

"Oh?"

Shao Yang's eyes lit up when he heard this.

On the other hand, Black Costume Brawny Man and the other three were looking at Tang Huan in bewilderment. What did he want to do to actually use the "Black Ice Red Lotus" to capture them alive?

Chapter 1149 - Mourning Valley

"Little brother, you're being too formal. Capturing these guys is just a small effort, why would you need to repay them with the Black Ice Red Lotus?" "

Shao Yang rolled his eyes and said sternly. However, he quickly changed the topic, "However, little brother should already have many 'Black Ice Red Lotus'. There's no harm if there's less. Then this old man will refuse."

While speaking, Shao Yang had already laughed and pounced toward the green robed old man.

"Run!"

The green robed elder exclaimed as he retreated backwards, a pair of wings appearing on his back. The reactions of Black Costume Brawny Man and the other three were also extremely fast, as they spread their wings and scattered in all directions.

The cold wave covered the "Frosted Snow World", making it difficult for the Void Transformation Stage cultivator to fly, but to Tian Clan Warriors, he could still condense his wings.

After all, this was the instinct of the people of Tian Clan. Of course, they could only fly at a low altitude.

In this place, the speed of one's flight in the air was not much faster than running on the ground. But with the wings spread, there was one big advantage in flying, and that was being able to avoid the many dangers hidden beneath the ice, such as the kind of ice cave that could appear at any time.

If ordinary cultivators fell into the ice cave, they would be trapped or even lose their lives. However, to the cultivators of the Tian Clan, the ice cave was not a threat at all.

Unfortunately, their current opponent was actually Shao Yang, a Void Transformation Stage powerhouse who had cultivated in the Space Aircraft s for a long time and maintained his strength at his peak condition.

"Trying to escape in front of me? You must be dreaming!" With a sneer, Shao Yang's right palm slapped out.

"Hu!"

A huge palm shadow whizzed out and landed on the body of the old man in green like lightning. With a "peng" sound, the old man in green didn't even have time to make a sound before he fell to the ground. Immediately after, he spat out a mouthful of blood, staining the snow-white ice bright red.

"Brother Ji!"

Sensing this scene, the other four Tian Clan Warriors were scared out of their wits, and they screamed out loud. Shao Yang curled his lips, collected the bill and slapped the paper again.

"Bam!" Black Costume Brawny Man also spat out blood and fell to the ground.

"Bam!"

"..."

In just a few breaths of time, all five Tian Clan Warriors had fallen down. The fastest person to escape was only able to travel a hundred meters. Shao Yang's figure flashed again and again as he carried the green-robed old man, Black Costume Brawny Man and the others over. A moment later, all five bodies were tossed in front of Tang Huan.

"Little brother, this old man was lucky enough to not fail his mission!" Shao Yang cupped his hands and smiled.

"Thank you, senior."

Tang Huan said smilingly, "The 'Profound Ice Red Lotus' will be dug out by senior. I will send the five of them into the Space Aircraft first."

"Please, little brother."

"..."

It was weird, because the nine spirits were wearing a "nine colored spirit shell", they couldn't enter the smaller sized aircraft, but Tang Huan who had the "Illusory Sword Heavenly Palace" could enter and exit the aircraft easily.

The root of the problem should be that the nine spirits had not yet merged with the "Nine Colored Spirit Shell", and Tang Huan had already merged the "Myriad Sword Heavenly Diagram", that carried the "Illusory Sword Heavenly Palace", into the Dantian.

Inside the middle section of the aircraft, under the continuous barrage of Tang Huan's "Astral Soul Explosion", the five severely injured Tian Clan Rankers all fainted away, before they woke up one by one. And after they had awakened, each of them had an additional "Puppet Soul Seal" deep inside their souls.

"Have you all heard of Ji Ru Huan?"

After sweeping a glance at the five, Tang Huan was too lazy to bother with their expressions, and directly asked.

During the time of the "Heavenly Desolate Secret Realm", Tang Huan controlled many cultivators of Tian Clan. Ever since they had returned to the Northwest Great Western Region, they had all been doing their best to secretly investigate the news regarding Tang Huan's mother. Now that he had met these Tian Clan Warriors, Tang Huan would naturally not miss out on them.

"Ji Ru Mang?"

The green robed elder, Black Costume Brawny Man and the rest looked at each other in dismay. It was obvious that this was the first time they had heard of this name.

However, one of the handsome middle-aged men had a change in expression. He seemed to be puzzled and surprised, but he quickly covered it up and pretended that nothing had happened. What he did not know was that any change in his expression would not hide from Tang Huan's eyes.

"You!"

Tang Huan squinted as he raised his hand to point at him.

The middle-aged man reflexively walked in front of Tang Huan. After being stunned for a short moment, he seemed to have woken up from a dream, and the feeling of his body losing control caused fear to fill his face.

After they woke up, they felt that they were under Tang Huan's control.

However, that was only a guess after all. Now that his guess had completely turned into reality, as a Void Transformation expert, it truly was hard to accept.

Tang Huan ignored the gazes of these people and directly pressed his hand on the middle-aged man's head. In between his mind instructs (in a second), he had already calmed his mind and concentrated, as he began to search the man's memories.

Not long after, Tang Huan stopped attacking, but there was some excitement on his face.

This middle-aged man's name was Ji Haitian. It had already been ten years since he entered the "Ancient Clear Heaven Domain" for the second time. The first time he entered the "Tong Tian Ancient Region" was fifty years ago. However, more than twenty years ago, he had been called back by the Tian Clan and he had led a team to the Li Province to search for the Tian Clan Holy Maiden who had defected at that time. He had indeed discovered Ji Ru Huan's whereabouts there, but it was a pity that staying in the State of Li for so many years had proved to be futile.

"The Spirit Enchantment Valley?"

As he lightly chanted the three characters, Tang Huan's state of mind quietly stabilized. The last place Ji Haitian was tracking down was a place called "Bewitching Spirit Valley" in the Li Province.

After he had absorbed the memories of several cultivators from the Li Province, Tang Huan had a better understanding of the "Spirit Enchantment Valley".

There were people who mistakenly entered the "Spirit Enchantment Valley", and suddenly disappeared without a trace. However, there were also people who discovered that they had appeared in the Spirit Abyss, and had traveled across the entire Forging God Great World. It could be said to be extremely strange, and the reason was something that no one knew until now.

It was because of the strangeness of the "Hidden Spirit Valley" that Tian Clan sent people everywhere to search for traces of Ji Ru Man.

"After I leave this Skypiercing Ancient Region, I'll still have to make a trip to the Spirit Enchantment Valley of the Li Prefecture."

Tang Huan muttered to himself. After the initial agitation passed, Tang Huan could not help but start to worry, if her mother entered the "Spirit Enchantment Valley" and teleported to other regions of Forging God Great World, that would be fine, but if she completely disappeared, that would truly be a disaster.

However, it was useless to let his imagination run wild right now. He would have to wait until he went to the Spirit Enchantment Valley to investigate before he could confirm anything.

Chapter 1150 - Phantom Ice Butterfly

"What is your relationship with Ji Ru Mang?"

He had already noticed that all of his memories were being absorbed by Tang Huan, so he naturally knew the main point that Tang Huan was paying attention to.

Tang Huan did not reply. With a slight thought, five Mysterious Ice Red Lotus appeared from within the "Sumeru Magical Ring", floating towards Ji Haitian and the others.

"Mysterious Ice Red Lotus?"

The five people could not help but cry out in surprise when they saw this.

They completely did not expect that Tang Huan would actually take out five "Profound Ice Red Lotus" in one go. If word of this got out, the entire Ancient Region would be shaken.

"I have to refine them and absorb them!"

"What?"

Ji Haitian's group of five could not believe their own ears. They were all stupefied.

How precious was this "Black Ice Red Lotus"? Even if it was an expert at the Void Transformation Stage, after refining one, their cultivation level would also increase to the Void Transformation Stage.

Now, Tang Huan had actually not hesitated at all to distribute the five "Profound Ice Red Lotus" to the already controlled of them!

This was way too extravagant.

"Whoosh!"

Tang Huan did not speak further. A short while later, he left the extremely shocked Ji Haitian and the others behind, left the Space Aircraft, and returned to the outside "Mystic Frost Snow Realm".

Giving the "Mysterious Ice Red Lotus" to Ji Haitian and the others was also part of Tang Huan's plan for the future.

Among the five of them, there were two of them who had reached the Void Transformation Stage and three of them had reached the Void Stage and the Seventh Cycle. This meant that Tang Huan would very soon have two powerful fighters at the Void Transformation Stage Nine and three at the Void Transformation Stage Eight.

It was impossible for Tang Huan to completely trust Shao Yang.

In this "Skypiercing Ancient Region," Geng Xu and the others' cultivations weren't low, but they were still inferior to Shao Yang. However, if Ji Haitian and the other four were present, the situation would be completely different.

Of course, the reason Tang Huan dared to do that was also because he had enough "Mysterious Ice Red Lotus."

After breaking through to the Fourth Cycle of the Void Transformation Stage, Tang Huan had refined four more "Mysterious Ice Red Lotus", and only then did he step into the Fifth Cycle of the Void Transformation Stage.

After that, after Tang Huan refined another "Profound Ice Red Lotus", he discovered that the effect was extremely bad, so he decisively chose to stop it and gathered all of the "Profound Ice Red Lotus" that he had found. Currently, within Tang Huan's "Sumeru Magical Ring", even after eliminating the five red lotuses that he had sent out, there were still fifteen left. Even if there were three of them, Shan Shan, Yu Feiyan, Mu Yan and the others, they would still have a huge surplus.

"Haha, we've gotten the 'Mysterious Ice Red Lotus'."

Immediately after, Shao Yang's figure soared into the sky, and landed at the side of the hole. The smile on his face was practically overflowing, and in his hands he held a "Profound Ice Red Lotus" that looked like it was about to drip, filling the air with its fragrance.

"Little brother, thank you so much ... "Huh?"

After a split-second, Shao Yang's laughter abruptly stopped, and a surprised expression appeared between his brows.

Under normal circumstances, once the "Profound Ice Red Lotus" was pulled out, it would stop the sucking and the original safe zone would naturally no longer be safe. But now, Shao Yang suddenly noticed that the chill he imagined didn't come from the surroundings.

"Senior, the cold tide has retreated!" Tang Huan also noticed, and immediately revealed a smile.

"The cold tide has retreated?"

Shao Yang was startled and was rather surprised. "A year passed so quickly?"

In the next moment, Shao Yang was overjoyed, "Retreat well! Good retreat! Little brother, let's hurry to the second floor of Tong Tian Tower. " Seemingly at the same time his voice fell, Shao Yang had already charged into the sky and floated forward. Tang Huan smiled slightly and immediately followed along.

After the cold tide had disappeared, the situation in the "Black Frost Snow World" had greatly changed.

The chilliness that could freeze a person's soul had completely disappeared. However, frost had quickly started to fall from the sky and covered the sky.

Every tiny ice shard that landed on his body contained a strong power.

A person with a slightly weaker cultivation would likely be crushed to death in this "Realm of Black Frost", but it was still not as dangerous as the overwhelming wave of frost from before. In addition, after the frost tides had passed, the ferocious beast "Phantom Ice Butterfly", which was originally hiding within the layer of ice, would also wake up and attack the cultivators training in this area.

The "Phantom Ice Butterfly" was the unique fierce beast of this "Realm of Ice and Snow". Every fierce beast had a single ice crystal inside them, and once killed, their body would immediately vanish, leaving behind only the ice crystal. When the "Black Ice Red Lotus" was not around, the "Phantom Ice Butterfly" ice crystal was the most precious item in the entire Snow Song Realm because it contained the power of the Law of the Tao.

With Tang Huan's "Great Ultimate Spiritual Fire" and Shao Yang's powerful Nine Revolutions Transcendental Tower, there was no need to worry about the ice crystals that sprinkled from the sky.

"Buzz!"

After a short while, the Nine Yang Divine Furnace began to tremble inside Tang Huan's Dantian. In a moment, Tang Huan who was in mid air understood what was going on. The "Absolute Yang Scarlet Scale Sword" flashed without hesitation and struck towards a certain area on the ice layer.

"Chi!"

With a sharp piercing sound, a terrifying and blazing sword intent wreaked havoc in the world. A terrifying sword beam quickly descended, seeming to be able to cut open the space itself.

At the same time, a faint white butterfly silhouette rushed out from the layer of ice below. Even in Tang Huan's eyes, her speed was unbelievably fast.

However, his speed was so fast that no one could believe it. Once struck, his body would immediately become stiff and numb, and if he couldn't save himself quickly, once the second strike came, even the strongest Void Transformation Stage cultivator would turn into an ice sculpture and then be turned into dust under the fierce impact.

"Pah!"

However, even though the "Mirage Ice Butterfly" was fast, Tang Huan had already struck out with his sword a long time ago, and the direction of its attack was incredibly accurate as well. In a split-second, that fiery sword beam had already struck the body of the "Mirage Ice Butterfly." After the sound of the bubbles exploding, the "Phantom Ice Butterfly" had already turned into countless white dust, floating in the air. A butterfly shaped white crystal dropped to the ground.

Tang Huan rushed down, and immediately grabbed the ice crystal with his palm, releasing a cold feeling into his body, which in the next moment spread throughout his limbs and bones. Just by sensing it for a bit, Tang Huan revealed a smile on his face. The power of the Law of the Tao within the ice crystal was extremely pure, and he could completely absorb and refine it.

"Little brother, good move."

Even he had to be careful when dealing with "Phantom Ice Butterfly", but Tang Huan was able to easily kill one with one strike. It was not only because Tang Huan was very strong, it was also because of that weapon.

"..."

Tang Huan smiled, and continued walking.
