

W. Master 1171

Chapter 1171 - Meeting the Tribulations

"Fire Tribulation!"

"Fire Tribulation is the first to arrive!"

"This old man's Five Elements is of the metal attribute!"

"..."

Many cultivators were already shocked.

But in an instant, those sounds were covered by the whistling sound as it quickly approached. The dark red light that filled the air was getting closer and closer. After a while, Pang Shuo's fireballs appeared before everyone's eyes. Every single fireball was aimed at a creature below. The violent heat seemed to want to burn everyone into ashes.

Tang Huan quickly discovered that although the thousand fireballs were of the same size, there was a difference in strength.

If his cultivation base was low, the fireballs aimed at him would be even weaker, and vice versa. Furthermore, the gigantic Heavenly Road seemed to have been split into thousands of smaller paths. No matter how strong the heavenly tribulation was, the one thousand creatures inside wouldn't be able to disturb the other Void Transformation cultivators.

The surrounding crowd also noticed this and many of them secretly heaved a sigh of relief.

However, even though the thousand fireballs blotted out the sky and whistled towards them, their might was extremely frightening. The continuous approach of Pang Shuo's fireballs made everyone feel like suffocating.

"It's about time."

In the blink of an eye, the fireball had already landed twenty to thirty meters above the ground.

Tang Huan let out a light breath, and dark blue flames immediately rose up, covering his entire body. The "Absolute Yang Scarlet Scale Sword" in his hand also appeared in a flash, but in an instant it had turned back into the "Hundred Lava Fire Spear", and then soared into the sky, where the Fire Red Long Spear pierced forward like Xu Zhen.

"Spear Extreme!"

In a blink of an eye, the sharp spearhead struck the fireball.

A deafening explosion resounded as the fireball exploded.

Tang Huan's body suddenly sank as the doubt in the blue on his body's surface rapidly fluctuated, continuously eliminating the burning sensation that came pressing down on him. In a blink of an eye, Tang Huan felt a strong resistance, his body sank two to three meters back into the air, and then stopped at a distance, just a few meters away from the ground.

In the blink of an eye, almost everyone took action at the same time he took out his spear.

Earth-shattering sounds rang out one after another, and many people just like him, managed to endure the first fireball's attack, and floated in midair. The strongest, Hu Si, was already hundreds of meters up in the air, while Nie Zhitong and Duan Wuya were also tens of meters high, but even more people were still stuck on the ground.

At this moment, Tang Huan suddenly realised why such a person who had to bear the tribulation of Five Elements and who was ultimately second to none would be able to do so.

All living things inside this enormous pillar could withstand heavenly tribulation and continuously ascend. If they could withstand the continuous bombardment of heavenly tribulation, then they would naturally ascend higher and higher. If he couldn't withstand it, he would have to stay on the ground. Even if he rushed into the sky, he would still be struck down.

"Top ten ..."

These two characters flashed in his mind, and from the sky, a dazzling red light once again poured down like a torrential downpour, coming at an even faster speed. The intense whistling sound shook his eardrums.

Tang Huan's mind instructs (in a second) moved slightly and his body began to expand rapidly. In an instant, he had already reached a hundred meters tall and his entire body seemed to be surrounded by a dense golden aura.

In this kind of situation, it was most suitable for Tang Huan who possessed the "Sun Spirit Body" to use the "Battle King's Golden Body". The incomparably strong flesh body allowed him to resist the heavenly tribulation more easily. However, when the surrounding cultivators saw the change in Tang Huan, they were all shocked.

Especially those experts from the War Clan, who were even more dumbfounded.

"That person is also my War Clan? You clearly only have the cultivation of the Void Transformation Stage, but how can the 'Battle-King's Golden Body' be so tyrannical? " A dozen meters up in the sky, a burly old man could not help but cry out in surprise as his eyes widened in disbelief.

"Besides, is it because you're not dying fast enough to use your sacred art in a place like this?"

After a short moment, the tall and sturdy old man couldn't help but shake his head.

He was one of the Great Clan Elders of the War Clan, Battle King Kong. His cultivation had already reached the peak of the Void Transformation Stage, but even with his cultivation, he did not dare to use the "Battle King's Golden Body". To maintain this divine ability at all times required a massive amount of true essence to be consumed. Even he couldn't withstand it.

In this place, once one's true essence was exhausted, or if their true essence recovery speed couldn't keep up with the rate of consumption, it would be extremely dangerous.

However, he quickly forgot about Tang Huan as the second wave of fireballs came pouring down.

"Chi!"

Tang Huan retracted the flames on his body, and thrust out the "Hundred Lava Spear" once again. However, the technique he used was no longer the "Spear Extreme Death" technique, nor was it any other spear skill.

After comprehending "Absolute Spear", Tang Huan's attainments in the way of the spear were already extremely astonishing. Even with just a casual spear strike, the might he displayed was not to be underestimated. Wherever the fiery red spear head went, the air seemed to be pierced.

Not only was Tang Huan's "Battle King's Golden Body" resisting the impact of this power, it also forcibly resisted the blazing heat as it charged forward. After a while, Tang Huan was already several meters in the air.

"Hu!" The 3rd wave of fireballs descended crazily.

"Boom ..."

"..."

Wuthering sounds, exploding sounds, shouts ...

On the path of the heavens, all sorts of sounds could be heard. Some cultivators were still climbing higher and higher while others were still struggling to stay on the ground. Unknowingly, the speed at which the fireball descended from the sky became faster and faster, and the might contained within the fireball also became more and more violent.

Tang Huan faced the tribulation and ascended, his enormous body displaying an enormous advantage.

When the sixth wave of fireball descended, Tang Huan was already two thousand meters away from the ground.

Faintly, a miserable wail came from below, Tang Huan who had just destroyed the fireball lowered his eyes to look, only to see a Void Transformation Stage cultivator who was tens of metres tall being smashed to the ground by the fireball. In the space of a few breaths, he was burnt to ashes.

This was the first Void Transformation cultivator to die in the Heavenly Road.

After catching sight of this scene, many of the Cultivators grew even more cautious than before. Of the thousand creatures that entered, the lowest was the Void Transformation Stage. With such a level of cultivation, it wouldn't be worth it if they didn't even enter the true 'Heaven and Earth dao world' and lose their lives.

However, if one didn't have enough strength, then this heavenly tribulation wasn't something that could be handled with caution.

As time passed, more and more screams rang out from the depths of the Heavenly Road. By the time the ninth wave of fireballs descended, there were already more than ten cultivators that had died. Some people didn't even have time to groan before they were completely annihilated by the fireballs.

About three thousand meters in the air, Tang Huan sensed the situation below and felt regret.

If he had known this would happen, he wouldn't have released the nine spirits from the "Illusory Sword Heavenly Palace". Gengxu and the other puppets ... if they couldn't hold on to their Five Elements, they would die. If anything happened to the nine spirits, then it would be too late to regret. However, at this point, it was useless to regret.

Life and death in this Heavenly Road depended on the little guy's luck!

Chapter 1172 - Void Transformation

After the ninth wave of fireballs, the rockets began to rain down like rain. After the ninth wave of fireballs, the fireballs began to rain down from the sky like a rain of arrows.

Fireball, rocket, pillar of fire ...

The fire tribulation that had appeared on the Heavenly Road was extremely similar to the one that Shan He had endured at the Broken Sword Peak. However, compared to the real heavenly tribulation, the three types of fire tribulation were still lacking. It was a good thing that this was the case, otherwise most of the cultivators here wouldn't have been able to withstand the fire tribulation.

However, this was only the beginning. The fire tribulation was only one of the Five Elements tribulation, and there were still four more to go.

No one knew whether or not the Four Tribulations would become stronger!

"Bang!"

A sharp spear light shot out like a meteor, striking the ninth thick pillar of fire that had fallen from the sky. In an instant, the pillar of fire exploded like fireworks, and Pang Shuo's body that was over a hundred meters tall sank a little more, before once again rushing upwards with an astonishing speed.

"The fire tribulation should have already ended."

As Tang Huan's thoughts raced, he immediately felt an extremely concentrated surge of gentle energy pour down from the skies above.

Without any time to react, that power was poured into his body at the speed of lightning, fusing with his true essence. In just a mere flick of a finger, Tang Huan's true essence strength had greatly increased, and had actually directly reached the peak of the Void Transformation Stage.

So much so that Tang Huan had already sensed an invisible barrier from within the Dantian's hollow spirit.

"Even after crossing a type of heavenly tribulation, there is actually such an advantage."

Sensing the change in his body, Tang Huan was immediately overjoyed.

He observed his surroundings. Although everyone's positions varied, as long as they endured the fire tribulation, they should be able to obtain such treatment. Every time he passed through a Five Elements heavenly tribulation, his cultivation would advance by leaps and bounds. Even if he failed to obtain the "Universe Dao Bead" in the end, this trip to the third floor of Tong Tian Tower was not in vain.

However, Tang Huan's happiness did not last long, and on his face, it became more and more serious.

A dazzling yellow light appeared in the sky, quickly descending like a collapsed mountain. A powerful and terrifying aura surged over from the sky, as if it could crush any obstacle below into fine powder. It was unstoppable, making one feel insignificant.

"Earth Tribulation!"

Tang Huan continued to ascend, but his eyes faintly focused. What came crashing down from the sky were many huge boulders, and each of the boulders seemed to contain the power of fifty kilograms ...

... ..

"What's going on? The entrance to the third floor of 'Tong Tian Tower' is actually sealed?"

"Damn it, I was so close to that step!" "If I had known, I wouldn't have delayed myself that much."

"Could it be that the Qiankun Dao World has a limit on the number of people who can enter?"

"Ai ai, what a pity. When will this entrance passage open again?"

"..."

On the high platform in the eastern part of the Firestorm Way, the crowd was clamoring with excitement.

There were already dozens of Void Transformation cultivators gathered there.

When they saw the unusual scene from the east, everyone realized that the entrance passage to the third floor of Tong Tian Tower had already been opened, and crazily rushed over as if they had eaten aphrodisiac.

Since they were the furthest to go, they were certainly a step slower in the western part of the "Wind Fire Thunder World" than the other areas. They were all aware of this fact, and mentally prepared for it. However, it would not reduce their eagerness to enter the "Universe Dao World" in the slightest.

In their minds, the vastness of the "Heaven and Earth dao world" was definitely not less than the "Wind, Fire, Thunder Realm" and the "Black Frost Snow World". Even if others were to enter for a few days, they would still not be able to seize all the opportunities. Even if they were a bit late, they still had a lot of opportunities.

But they never would have thought that the entrance to Skysplit Tower would be closed.

Looking at the tranquil void within the arch, everyone felt as if a bucket of cold water had been poured over them. They passed through the arch and were still standing on the stage. It had already lost its function as an entrance passage.

Everyone was either surprised, upset, puzzled, regretful, or angry. All of them had different expressions on their faces.

It was likely that the entrance would not be opened again for a short period of time. Regardless of what the crowd was thinking, they could only call for help.

... ..

"Rumble ..."

There were actually mountains crashing down from the skies.

Among the Five Elements and heavenly tribulation, the first thing to appear were the huge boulders; after nine rounds, there would be a huge earth spikes; after nine rounds, the massive mountain range followed suit.

Now, it was the final round.

Tang Huan took a quick look and noticed that there were only 700 or so mountains.

The Heavenly Tribulation had appeared based on the number of life forms within the Heavenly Road. More than seven hundred mountains meant that only seven hundred or so people were left within the Heavenly Road.

Before the second type of heavenly tribulation was finished, more than two hundred people had already perished.

"Hu!"

As the mountain range closed in at a breakneck speed, Tang Huan's right fist punched upwards. Pang Shuo's fist, which was supposed to be punching, actually expanded rapidly, and in an instant, seemed to fill up this space that was separated from the rest.

Fist Seal! One of the five forms of the God Creation Art!

"Bang!"

A loud sound reverberated out, the mountain range immediately shattered, Tang Huan's body slightly lowered, and continued to climb, in an instant, his huge body had passed through the Strength Qi that was wreaking havoc. Immediately after, Tang Huan felt the extremely condensed and gentle power once again.

Like a collapsing dam, its power poured into Tang Huan's body. Without needing to refine it at all, it quickly fused into his Quintessential Essence.

Faintly, a loud sound came out from Tang Huan's Dantian, the invisible barrier inside the hollow spirit shattered with a loud bang, and the spiral inside of the spirit cave added another attack.

Six Revolutions Void!

A tyrannical aura roared out from his body and started to soar crazily. Tang Huan was only slightly happy for a moment, but his mind had already calmed down.

At this moment, only Hu Si, Nie Zhitong and Duan Wuya remained on top of Tang Huan. Hu Si had firmly occupied the first place amongst them, and was at least two to three thousand meters away from Tang Huan. Nie Zhitong and Duan Wuya were almost parallel to each other. The distance between the two of them and Tang Huan was less than a kilometer.

Below Tang Huan, the tens of figures, including the nine spirits could still be clearly seen. Below them, were only small dots.

"If I maintain this speed, I can definitely enter the top ten."

Tang Huan's eyes moved slightly, the chance of him fighting for the top three was practically zero.

After all, Hu Si, Nie Zhitong and Duan Wuya were simply too powerful, especially Hu Si, who had already condensed a "Dao Nascent" super expert.

Being able to leave behind experts at the Void Transformation Stage and the Void Transformation Stage with cultivations far inferior to Shao Yang and the others, this was already far beyond the imagination of everyone below.

To them, Tang Huan's performance in the Heavenly Road could already be considered a miracle.

"Hu!"

Above the sky, the whistling sound rose again as a dazzling white scene appeared at the top of Pang Shuo's Heavenly Road, making it hard to look at.

The heavenly tribulation of Five Elements had begun!

Chapter 1173 - Wood Calamity

An incomparably sharp aura poured down from the sky, as though nothing could stand in its way.

Tang Huan's body continued to float upwards without the slightest bit of hesitation. Hu Si who was at the highest point was the first to encounter the first wave of golden tribulation. These rays of golden light were dozens of meters long. They resembled shooting stars that tore through the air and descended with shocking speed, dragging a long tail behind them.

Hu Si was the strongest, and the heavenly tribulation she faced was also the most powerful.

However, whether it was the fire tribulation, the earth tribulation, or the metal tribulation, they all posed no threat to him.

In the blink of an eye, the golden light had been destroyed.

After Hu Si, it was Nie Zhitong and Duan Wuya who had to bear the metal tribulation. Tang Huan was next. This time, Tang Huan did not use his fist again, but brandished the "Hundred Lava Flame Spear" in his hand. When they were a hundred meters apart, a spear ray that was surrounded by blazing flames shot out.

"Boom —"

Amidst the piercing sound, the heavenly tribulation of Five Elements continued without end.

After the twenty-seven cycle of the Golden Tribulation, it would be the twenty-seven cycle of the Water Tribulation, and then the twenty-seven cycle of the Wood Tribulation ... The power of the Heaven Stage was getting stronger and stronger, and the number of creatures that could endure till now was getting fewer and fewer.

Relying on the powerful "Battle King's Gold Body", Tang Huan steadily climbed upwards.

In this Heavenly Road, the consumption of true essence from using the 'Battle-King's Golden Body' far surpassed that of the 'Wind, Fire, and Thunder Realms' outside. Initially, Tang Huan had thought that he would have to spend a large amount of precious fruits in order to recover his True Essence in order to maintain this ability.

But as time passed, Tang Huan realized that he had completely overthought things.

Every time when his true essence was about to run out, he would be able to withstand a heavenly tribulation. Then, the energy that was poured into his body not only increased his cultivation, but also caused the true essence in his body to be filled up once more. Until now, Tang Huan had not consumed any strange fruits.

The reason for this was because the True Essence capacity in Tang Huan's body far exceeded that of a Void Transformation Stage cultivator.

If it were any other War Clan cultivator, they would probably not even have enough time to finish the heavenly tribulation before their body's essence was completely used up.

In the blink of an eye, several hours passed before the final round of tribulation began.

"Hu!"

An enormous green leaf swept across the sky like a waterfall.

The green leaf looked lively, but in truth, it also contained a boundless life force. However, within the range of the green leaf, this life force condensed into a whirlpool that stirred up Pang Shuo.

However, what the Green Leaf sucking had was not a body, but a life force.

From the first round of this wood tribulation, no matter what form it displayed, the sucking would still be alive, and this was exactly the thing Tang Huan was least afraid of. As long as Tang Huan pushed the business within the "Great Ultimate Spiritual Fire" to its limits, and protected himself, he would not have to worry about his life being lost at all.

Counting it all, within the Five Elements and heavenly tribulation, the wood tribulation was the least threatening.

However, for the other cultivators, other than Hu Si, who was the strongest, who was still a deity, all the speed of the Void Transformation Stage cultivators, including Nie Zhitong and Duan Wuya, were greatly reduced. By the time the eighteenth wood tribulation had finished, Tang Huan had already caught up to Nie Zhitong and Duan Wuya. By now, Tang Huan had already traveled more than a kilometer away from them.

Not only that, but the massive loss of life energy also made these two peak-level powerhouses look as if they had aged dozens of years.

The originally beautiful Nie Zhitong already had a head full of white hair and wrinkles could be seen on her delicate cheeks. The already old Duan Wuya's body was now even more hunched, as if he had already stepped into a coffin. The other Void Transformation Stage experts also experienced the same situation.

There were even some cultivators who died of old age in the Heavenly Road.

Although Tang Huan had never seen that kind of scene with his own eyes, he could judge the number of wood tribulations that were constantly decreasing from the sky. Until now, out of the first 1000 creatures that entered, only 200 or 300 remained. The number of dead Void Transformation cultivators had actually reached seventy to eighty percent.

Of the puppets that Tang Huan had released, only Geng Xu, Chou Rui, Yin Yu, Ji Haitian and the rest were still alive. All the other Void Transformation Stage cultivators had already been turned into ashes.

Such a death rate was extremely shocking.

If they had known earlier, most of the cultivators would not have entered the third floor of the "Tong Tian Tower". However, Jiu Ling was able to hold on. Especially after the wood tribulation

descended, the little guy was like a fish back in water. The powerful aura of death had reduced the power of the wood tribulation to its limit.

Ever since the first round of the wooden tribulation, the nine spirits had been constantly overtaking the Void Transformation cultivators who had been at the forefront. Now, they had already caught up to Nie Zhitong and Duan Wuya.

"Whoosh!"

Tang Huan's body moved like a stream of light, the green flames on the surface of his body churning.

The long spear in his hand struck the green leaf whirlpool with an irresistible force, the Strength Qi erupted crazily, in a moment, the green leaf was torn apart, Tang Huan's body froze for a moment, then pierced through the green leaf that was everywhere. In an instant, that familiar energy appeared once more and entered his body.

Inside the Dantian, an invisible barrier once again shattered and the spiraling went on for another lap.

Seven Transformations Void!

Sensing the change in his own aura, a great joy emerged from the bottom of Tang Huan's heart. In the "Profound Frost Snow World", by relying on the numerous "Profound Ice Red Lotuses", he had directly broken through from the Void Transformation Stage to the Void Transformation Stage Five. Now on the third floor of the Tong Tian Tower, he had once again gone from the Void Transformation Stage Five to the Void Transformation Stage Seven Transformations.

It was right that he had come to the "Ancient Clear Heaven Domain"!

If he were to leave this place, he would have to seize every moment to gather energy. He had to not bring him to the Nine Revolutions Transcendental Tower, as the "Illusory Sword Heavenly Palace" was still as dilapidated as ever.

"Hu!"

With that thought, Tang Huan suddenly realized that he seemed to have broken through a thin, formless barrier. Immediately after, the space around him began to fluctuate rapidly. Tang Huan felt as if he was enveloped by a gentle force that pulled him forward unceasingly.

After a short moment, the power suddenly disappeared.

Tang Huan felt that his two feet had landed on the ground. Looking ahead, he saw that he was already in a white space, which was around a thousand meters in size. After some thought, Tang Huan realized that this place looked extremely similar to the "Tong Tian Tower".

This should be the so-called "Heaven and Earth dao world." He never thought that it would actually be so small and completely different from the "Mystic Frost and Snow Realm" and the "Wind Fire and Thunder Realm."

"Such pure energy!"

Soon after, Tang Huan couldn't help but get excited.

Within this space, an extremely pure energy seemed to have solidified, giving off an extremely sticky feeling. It was as if a casual grab would allow one to grasp a large amount of the energy. Tang Huan did not know what kind of power it was, but he knew that the quality of this energy was definitely not inferior to the energy he absorbed in the Heavenly Road.

Chapter 1174 - Dao Bead in Hand

"Kid, over here!"

In the next moment, Tang Huan was drawn over by Hu Si's voice. She was currently standing in the center of the space, and in front of her, there were nine floating beads of varying sizes.

"Heaven and Earth dao pearl!"

Tang Huan's footsteps slightly moved, and he immediately appeared by Hu Si's side. He extended his hand and grabbed, and a white pearl appeared in his hand very easily.

He chose the largest of the remaining nine "Heaven and Earth Dao Beads", and it was actually comparable to a baby's fist. Once the pearl was in his hand, he could feel a bizarre and powerful strength from it.

"Master Hu Si, congratulations."

Tang Huan did not continue observing and instead looked at Hu Si with a big smile on her face. In her hand, she was holding a Heaven and Earth dao bead. With just a glance, Tang Huan was stunned, he suddenly realised that the "Heaven and Earth dao pearl" that Hu Si had chosen was much smaller than his own.

Amidst his shock, Tang Huan looked at the "Heaven and Earth Pearl" in his hand, then looked at the remaining eight, and quickly compared them. In terms of size, not only was Hu Si's was not the biggest, it was not even the second largest, but he was ranked third.

"Master Hu Si, why did you ..."

Tang Huan could not resist asking.

Without waiting for Tang Huan to finish speaking, Hu Si said smilingly: "I have already condensed the 'Dao Nascent', and the 'Heaven and Earth dao pearl' is no longer of much use to me, so naturally, there is no need to choose the largest one, the big two, will be given to you, and the little thing Nine Spirits."

"Master Hu Si, what did you want to leave for me?" Almost as soon as Hu Si finished speaking, Tang Huan caught onto a stream of mind instructs (in a second), and was the third of the nine spirits to enter the "Universe Dao Realm."

"Ga ji?" Heaven and Earth Pearl! "

Nine Spirits almost instantly saw the eight white beads. With a flap of her small wings, they shot out like a streak of dazzling nine lights, and the largest of the remaining eight beads was caught in her mouth. Her gem-like eyes were filled with an extremely human-like excitement and excitement.

Thank you, Master Hu Si.

Tang Huan took a light breath and bowed deeply. He did not continue to be courteous with Hu Si, but he was actually extremely grateful in his heart. To Hu Si, who had already condensed her "Dao

Soul", the "Heaven and Earth Dao Pearl" was indeed not as useful as a normal Void Transformation Stage cultivator, but it was definitely not as useless as she said it was.

"Let me try again ..." "Ga ji!"

Hu Si waved his hand, and just as he was about to open his mouth, the nine spirits threw their own "Heaven and Earth Holy Bead" behind them, and stored it in the "Nine-coloured Spirit Shell".

Tang Huan and Hu Si did not even have the time to stop the nine spirits before the little fellow rushed towards the other "Heaven and Earth Dao Bead". In the end, it was as if it collided with an incomparable repulsive force before the bead even touched it.

Fortunately, it was able to stabilize its body and did not suffer any damage.

Tang Huan was relieved and couldn't help but laugh. This little guy was too greedy.

There were only ten of them in total, and they were only obtainable in the top ten. This meant that every living creature could only obtain one of them. This was the natural law of the Heaven and Earth. Even if an expert from the Heaven Realm were to descend, it would be impossible to break it.

"Whooosh."

In an instant, the sound of something tearing through the air rang out once more. Nie Zhitong and Duan Wuya had appeared at almost the same time.

In the end, Duan Wuya was still faster by a little bit as well. After he grabbed hold of the largest bead, the moment the bead appeared in his hand, he could not help but laugh out loud, and his aged face became even more sinister and terrifying.

Nie Zhitong could only take a step back. Although the "Heaven and Earth Dao Pearl" was a bit small, she was also extremely excited after receiving her thousand years of longevity.

It was only when another cultivator entered the "Universe Dao World" that Duan Wuya and Nie Zhitong finally managed to calm down a little.

Duan Wuya's gaze flickered as he reached out to grab the other Heaven and Earth powers, but just like the nine spirits earlier, he was sent flying several meters back. Seeing this, Nie Zhitong inwardly rejoiced. Fortunately, she was a step too slow and did not embarrass herself like Duan Wuya.

However, when she glanced at Hu Si, Tang Huan, and the nine spirits, Nie Zhitong's eyes shone with an unconcealable envy.

It was one thing for Hu Si to be first, after all, he was a super strong Ranker who had condensed a "Dao Nascent Soul". She was convinced and convinced, but at the last moment, after being surpassed by a young man in his thirties and a small "Spiritual Beast", she felt extremely aggrieved. However, no matter how unhappy she was, she would not dare to express her displeasure. Hu Si's strength made her extremely fearful, and even if her strength had greatly increased in the Heavenly Road, she would not dare to act rashly.

Duan Wuya stabilized his body and his gaze swept across Hu Si, Tang Huan and the nine spirits. A fierce light flashed in his eyes, but he immediately concealed it.

He had never clashed with Hu Si before, but someone had told him about the situation at that time.

However, his understanding of the "Dao Nascent Soul" was far inferior to Nie Zhitong's. Therefore, although he was wary of Hu Si, he was far less knowledgeable than Nie Zhitong. This made him greedy; after all, the "Heaven and Earth Pearl" that the first living had chosen was definitely a little bigger.

As Duan Wuya's thoughts raced, more and more cultivators entered the "Universe Dao World".

The remaining five "Heaven and Earth dao beads" quickly gained their ownership. Shao Yang was the tenth to enter and also obtained a "Heaven and Earth dao bead".

The moment the Dao Pearl appeared in his hand, the old man's face became like a chrysanthemum.

After Shao Yang, more than two hundred people arrived in this place one after another. This spacious area immediately became quite noisy.

"Damn it, I finally made it." And the Cosmic Dao Realm? Is this how it looks like? "

"This heavenly tribulation of the Five Elements is really powerful. All of my six friends have died."

"What kind of power is this, for it to be so pure?"

"Ahh, if I had arrived a bit too late, I would have definitely obtained the Cosmos Sack if I had arrived a bit faster."

"..."

Various sounds rang out in succession, and everyone had extremely complicated expressions on their faces. Some were excitement, some were grief, some were amazement, some were regret.

Naturally, these Void Transformation Stage cultivators would not be able to obtain the "Heaven and Earth Dao Bead."

Of course, it wasn't like they didn't get anything.

Within the Heavenly Road, as long as one can withstand one type of heavenly tribulation, they would be able to pour energy into their body. After five consecutive cycles, the cultivators below the Void Transformation Stage would all be able to increase their cultivation level by one or two levels, and the ones below the Void Transformation Stage will also be able to increase their cultivation level greatly.

Also, the power that filled the "Heaven and Earth dao world" was so pure that it was enough to make people exclaim in admiration.

Very soon, there were cultivators sitting on the ground and beginning to absorb and refine the Heaven and Earth bead. It was not bad to cultivate here for a while since they did not obtain the Heaven and Earth bead. Before long, the "Universe Dao Realm" had completely quietened down. Everyone sat down, even Tang Huan and Hu Si.

Chapter 1175: He's the one behind this!

After a moment, Tang Huan frowned.

It was not difficult to absorb the power within the "Heaven and Earth Dao World", but the speed of refinement was extremely slow. Even with "Nine Yang Divine Furnace", he could do it, let alone other cultivators. Sure enough, Tang Huan only observed for a bit before noticing that many of the surrounding cultivators had bitter smiles.

But even so, no one stopped.

There was no exit within the "Universe Dao World." Other than absorbing this power for cultivation, there seemed to be nothing else to do.

"I wonder how many days I can stay in this' Universe Dao World '?"

Tang Huan guessed in his heart that if he guessed right, this kind of energy should be refined more often and faster, making this place suitable for long-term cultivation. However, this space would definitely not be open to those who had passed through the heavenly tribulation of Five Elements indefinitely.

If he could only cultivate for a dozen or twenty days, it wouldn't be of much use to his cultivation.

With a thought, Tang Huan's mind suddenly moved.

After glancing left and right, he quietly stood up, walked to a corner, and sat cross-legged with his back facing everyone. Hu Si, Shao Yang and the rest also noticed his actions, but did not care. Instead, they followed right after him, squatting on Tang Huan's shoulders.

"Hu!"

In the next moment, the "Myriad Sword Heavenly Diagram" appeared in Tang Huan's palm.

The power within this "Heaven and Earth dao world" was just perfect. Since the power here was currently extremely difficult to refine and it was unknown as to how long it could stay in this place, he decided that he might as well absorb a little energy and place it in the "Illusory Sword Heavenly Palace" first.

"Hu!"

The mountain and river painting scroll slowly unfurled, and under Tang Huan's control, the strong power of sucking was born.

When the surrounding forces were attracted by this, they immediately rushed over in large swathes, entering the Myriad Sword Heavenly Diagram. In just a few short breaths of time, Tang Huan's entire body was enveloped in a layer of white mist. That incomparably dense energy gathered over him, and completely covered his figure.

The movement in the corner was quickly noticed by the few cultivators closest to him. They couldn't help but reveal expressions of surprise.

It was true that the power of the "Universe Dao World" was easy to absorb, but after absorbing it, it had to be refined.

No matter how fast the absorption speed was, it was useless. If it was overdone, there might be a backlash. That guy absorbing energy so crazily has no use for himself.

They looked at each other and a strange smile appeared on their faces.

Although they did not know who the person was that was covered by the condensed power, that did not prevent them from gloating. However, before long, their smiles froze on their faces.

Logically speaking, for such a terrifying rate of absorption, the Dantian should have already been filled to the brim, but the person's absorption speed did not decrease at all, instead it continued to increase.

Faintly, a vortex of energy appeared where the person was standing.

"Whooosh."

The commotion became louder and louder. Not long after, almost all of the cultivators in the "Universe Dao Realm" were alarmed. One by one, they looked over in surprise.

"Who is cultivating there?"

"Absorbing energy like this, isn't he afraid of exploding the Dantian?"

"Damn, has that person gone mad?"

"..."

Many cultivators turned their heads to look. As long as they knew who was missing from the "Universe Dao World", they would naturally be able to determine that person's identity.

"This little guy!"

Hu Si wrinkled her brows, a look of doubt flashing deep within her beautiful eyes.

She already knew that the one who created the energy whirlpool was Tang Huan, but she did not rashly interrupt his actions. Tang Huan was not a child. He was already in the realm of the seventh circulation at the age of thirty, so he definitely knew what to do and what not to do.

The power of this "Heaven and Earth Dao World" was extremely difficult to refine, but even so, there must be a reason why Tang Huan was still frantically absorbing power.

She only needed to quietly watch from the side.

"It's him!"

A few hundred meters away, Nie Zhitong's eyebrows unconsciously raised as she realized who had caused such a huge commotion with just a single glance. Her gaze swept past Hu Si unintentionally, making her completely indifferent towards him. The surprise in Nie Zhitong's eyes immediately intensified.

On the other side, Duan Wuya had also awoken from his cultivation, but his eyes were flickering. It was unknown what he was thinking about.

Under the numerous gazes, Tang Huan did not show any signs of stopping.

"Hu!"

Huge amounts of energy rushed over from all directions. The whirlpool that was rapidly spinning was actually expanding bit by bit. The momentum was getting more and more shocking.

After the initial surprise, everyone gradually calmed down and continued to cultivate.

As time passed, those people who wanted to see Tang Huan become a joke had no choice but to calm down and absorb energy to refine it. Every moment in the "Heaven and Earth dao world" was extremely valuable. It would be a pity if he used all his attention to pay attention to the situation of others.

The space once again fell into a silence so quiet one could hear a pin drop.

"Hmm?"

After an unknown period of time, a low cry rang out, "What's going on, I can't absorb any more energy?" The one who spoke was a young man in white, but he was definitely over a hundred years old. His cultivation had also reached the peak of the eighth circulation.

"Me too!"

"And me, I've f * cking seen a ghost!"

"..."

Moments later, a chorus of agreement sounded out around the white-robed man. The ten or so cultivators closest to the whirlpool looked at each other, their faces full of bewilderment and bewilderment.

Soon after, everyone's eyes fell on the whirlpool.

"It's that guy!"

Anger loomed between everyone's brows. They already understood what was going on.

The power in this area had already been completely cleaned up by the guy inside the whirlpool. Under these circumstances, the energy in the area would be continuously replenished, but the moment the energy came over, it would immediately be attracted to the whirlpool.

"Hateful!" If he does this, how can others cultivate! "

A tall and big old man leaped up and shot towards the whirlpool in an uncontrollable rage. He was like a wild horse that had just broken free of its reins, and his speed was incomparably fast.

"Hu!"

When he was only a few meters away from the vortex, the tall and sturdy old man waved the thick long rod in his hand. Instantly, the sounds of whistling wind crazily surged. Wherever the staff passed by, a windstorm swirled and a terrifying aura spread out like a tidal wave, distorting the air as if it was a thunderbolt that struck down at everything.

Not far away, Hu Si suddenly opened her eyes. In the depths of her pupils, a cold light flashed and her white, tender, and jade-like hands slightly raised.

"Bam!"

The staff descended onto the whirlpool with the force of a sweeping force. Just as the loud cry burst forth, the staff slid away following the whirling force of the whirlpool, and the tall and sturdy old man who swung the staff seemed to be attracted by an irresistible force as he flew away on a cloud, falling down like a dog eating mud.

Chapter 1176 was too worrisome!

Seeing that, Hu Si laughed unwittingly, her jade-like hand slowly drooped down, her beautiful eyes closed once again, and upon seeing the elder's sorry state, the other 10 or so cultivators that wanted to make a move were all stunned, the old man was an expert at the Void Transformation Stage, he was actually unable to shake the whirlpool at all?

That tall and sturdy old man grabbed a long rod and stood up in front of everyone's eyes. Although his body was uninjured, his expression had already become extremely ugly.

"This father doesn't believe it. Everyone, let's attack together!" After remaining silent for a moment, the white clothed man at the peak of the void eighth stage suddenly let out a wild roar. The enormous sword in his hand danced crazily, and sword light that filled the sky wrapped around his body and whizzed towards the whirlpool.

"..."

The other Void Transformation Stage powerhouses looked at each other and quickly followed. Even the tall and sturdy old man who was sent flying before also brandished his staff again.

In a short period of time, within a radius of a few dozen metres, howls sounded in all directions, and the Strength Qi surged into the sky.

"Bang!" "Bang ~ ~ ~"

After an instant, a series of fierce attacks landed on the vortex of energy, the violent collisions created a chorus of sounds, but in the next instant, the dozens of Void Transformation Stage experts were attracted by the vortex one after another, and were flung out uncontrollably, in an extremely sorry state.

More than ten cultivators of the Void Transformation Stage and the Void Transformation Stage could not handle the whirlpool formed by the rapid circulation of energy?

Seeing this, those Void Transformation Stage cultivators that were woken up once again became speechless. They couldn't believe their eyes. Just how much energy did that guy in the whirlpool absorb? Even such a powerful attack couldn't make the energy dissipate!

"We can't absorb any energy over there. If we allow him to continue cultivating like this, then I estimate that it won't be long before all the energy in this Universe Dao World will be completely absorbed by him!"

A gloomy voice abruptly sounded, and the one who spoke was a middle-aged man with skinny cheeks and wearing a black robe; the expression in his eyes was extremely gloomy.

Everyone looked at each other and exchanged glances from time to time. Their expressions were all solemn.

The whirlpool had expanded several times compared to when it first appeared, and more and more energy poured into the whirlpool. Based on this trend, the power here might really be emptied by the sucking, and at that time, everyone would have no choice but to waste their time here.

"How preposterous!"

"The 'Universe Dao World' is everyone's 'Universe Dao World'. The power here also belongs to all cultivators, so how can I allow that person to continue acting as he pleased and absorb the power that should belong to everyone into his own body?"

The person who spoke had an abnormally aged appearance. He looked as though he was in his forties, but the aura that seeped out from his body was incomparably powerful.

"The ancestor is right, we can't let him continue to absorb the spiritual energy like this."

"How can it be possible to absorb all of our energy?"

"Patriarch Wuya, let's attack together!"

"..."

The moment he said this, it immediately attracted the gazes of everyone around. Many cultivators couldn't help but echo his words with anger.

Even the cultivators who didn't make a sound had looks of anticipation in their eyes. The old man who spoke was no ordinary Void Transformation Stage powerhouse. He was Duan Wuya, who people called "Ancestor Wuya." His strength was extremely terrifying. With him around, breaking that vortex would be no problem.

By now, everyone already knew that the one causing such a commotion was the second young fellow that had entered the "Heaven and Earth dao world."

Before he had entered the Heavenly Road, he had only reached the Void Transformation Stage Five and now he had reached the Void Transformation Stage Seven. This kind of cultivation was at the bottom in this place, so it was not something to worry about. The most important thing was that that person's backing seemed extremely terrifying, and it was said that even Nie Zhitong, who was as famous as Duan Wuya, was extremely fearful of him.

As they pondered, many of them turned to look at the white-robed young girl sitting on the ground, their expressions full of worry.

I wonder if the current Ancestor Wuya has the strength to fight against her? If everyone attacked at the same time as Ancestor Wuya, no matter how strong she was, she would still have to be wary of him.

"You really overestimate yourself!"

A thousand meters away, Shao Yang couldn't help but twitch his mouth when he saw Duan Wuya agitating everyone with a few words.

Hu Si didn't make any movements right now because there was no one who could truly threaten Tang Huan. Next, if they were to make a move, Hu Si would definitely not sit idly by and watch. Even though Duan Wuya was strong, wanting to challenge Hu Si who had killed a Void Transformation Stage expert, like cutting vegetables, was definitely asking for trouble.

Hu Si did not rely on his numbers to fight it!

"..."

Nie Zhitong's body did not move, but a strange light flashed in her eyes, as her two eyes inadvertently swept across Hu Si's body. She did not have the courage to test Hu Si's depth. If Hu Si wasn't as powerful as he imagined, then she couldn't be blamed!

As she thought about it, the corner of Nie Zhitong's lips curled up into an almost imperceptible sneer.

"Alright!"

Duan Wuya roared as he looked at Hu Si, whether intentionally or unintentionally.

He was less than a hundred meters away from the whirlpool, and he had carefully felt the situation inside. If he was not mistaken, the person who was absorbing power was not the young man himself, but a treasure in his hand. For a Void Transformation Stage cultivator, even if his strength

was as strong as himself, it would still be impossible for him to completely drain the power of the "Heaven and Earth Dao Realm" from his sucking.

If he could acquire that treasure, the benefits would be unimaginable.

Furthermore, that person also had an even larger Cosmos Sack. Previously, after he obtained the bead, he tried to grab the ownerless bead again, but in the end, he failed. He didn't know if he would be able to get his hands on the owner's Dao-beads, but he would know once he tried it out.

"Everyone, follow me!"

The instant the sound of his voice faded, Duan Wuya had already explosively shot towards the vortex. Almost at the same time, many other cultivators also began to move. One after another, powerful auras began to mix together like raging waves and crashing forward, as if they wanted to crush all obstacles into dust.

"So noisy!"

Suddenly, a sigh rang out. "You guys are really annoying."

The sound was light and indifferent, yet it was like a giant hammer pounding on the hearts of the crowd, causing them to feel as if their hearts were about to miss a beat. By the time the crowd of cultivators came back to their senses, they discovered that the white-clothed girl's figure had already shifted to the giant whirlpool without any forewarning.

Everyone felt their souls tremble as space descended into a deathly silence.

Before this, they hadn't felt much, but now, they realized that after walking down the Heavenly Road, this mysterious woman seemed to have become even stronger. She just stood there silently, her petite and exquisite body seemed to have turned into a towering mountain, the terrifying pressure causing people to feel like suffocating.

Chapter 1177 - Miserable Defeat!

"Lady, that person forcibly snatched away the power in this 'Cosmos Dao World'. He has already angered the masses. Do you still want to protect him?"

Duan Wuya narrowed his eyes and pointed at the whirlpool as he shouted in a low voice.

Hu Si's eyes swept across the crowd, and said indifferently: "The fact that he can absorb the energy in the 'Universe Dao Realm' is his ability, if you guys are not convinced, you can learn from him. If you can't learn it, then you can only blame your own incompetence. A bunch of useless trash can just stay by the side. It's nothing to embarrass yourself by running out here, but if you accidentally lose your life, then it's not worth it. "

With that, the "Coiling Dragon Staff" appeared in Hu Si's palm.

When they heard his words, all of the cultivators felt like their heads were on fire and their lungs almost exploded from anger. However, although everyone's face was ugly, they did not dare let it out. Hu Si's threatening tone made them feel cold. This was an expert that even Nie Zhitong was extremely afraid of. If she really wanted to attack someone, no one other than Duan Wuya would be able to block one of his attacks.

At this moment, many people began to feel regret in their hearts.

He shouldn't have been incited by Duan Wuya and ran out in a fit of excitement. He had to go through hardships on the Heavenly Road in order to preserve his life and enter the "Universe Dao Realm". Even if the energy was cleansed by the sucking, just by relying on the energy that was poured into the Heavenly Road, it was still worthwhile.

If they were to clash with this mysterious and terrifying woman, even if they relied on their numbers to kill her, their own side would still suffer heavy casualties. If it was any other Void Transformation Stage cultivator who died, it wouldn't matter, but if he died at her hands, it would be too much of an injustice.

In the blink of an eye, even though many cultivators were feeling furious and aggrieved at the same time, they had already begun to quietly retreat, distancing themselves from Duan Wuya and the others.

"You're quite sharp tongued, but I have something to give you as well." Duan Wuya couldn't help sneering when he felt the hearts of the cultivators behind him flutter. "Right and wrong is because you want to stand out. If you want to protect him, you have to see if you have the ability to." If you don't have that ability, you can just stay by the side. It's nothing to embarrass yourself by running out here, but if you accidentally lose your life, then it's not worth it. " As he finished speaking, Duan Wuya actually followed Hu Si's earlier tone and sent the latter half of her sentence back.

"Interesting."

Hu Si sized Duan Wuya up and couldn't help but laugh. "Fine, there's no need to waste our breath here. I'll let you see whether or not I have the ability! " After he finished speaking, the "Coiling Dragon Staff" in Hu Si's hand transformed into two streams of flowing black and white light that smashed forward.

This strike seemed to have reached the realm of returning to one's true self.

It was simple and without any fancy movements, but as the long rod moved, everyone felt as if the space within a radius of several dozen meters was enveloped and sealed. They could only watch as the shadow of the rod rapidly expanded within their pupils, and a cold chill instantly spread from their coccyx to the top of their heads.

"Come at me!"

Duan Wuya roared, but his countenance was extremely grave.

As soon as his voice fell, a long, dark red blade appeared in his hand. The blade was as wide and heavy as a door as he slashed forward, and a blood-red blade light instantly swept through the air. A violent aura surged out, crazily surging between the heaven and earth.

The cultivators behind Duan Wuya finally found some time to catch their breath, and they all stepped back as though they had been relieved of a heavy burden.

Before the blood-red saber light could even touch the whizzing "Coiling Dragon Staff", it let out a violent cry. It was as if the terrifying pressure created by the "Coiling Dragon Rod" had crushed it to pieces. Then, the "Coiling Dragon Rod" collided with the blood-red saber.

"Clang!"

The huge force surged out, and where the blade and staff came into contact, a wave of energy that could be seen with the naked eye was sent out.

After a short moment, Duan Wuya let out a muffled groan. His wrinkled face instantly flushed red, and he staggered back several dozen meters. Some of the Void Transformation Stage cultivators that couldn't retreat in time were completely unable to withstand the violent impact of this force and were directly sent flying.

At this moment, Duan Wuya couldn't help revealing a shocked expression.

Of course, he knew that this girl before him was much stronger than him. This could be seen from her ability to scare off Nie Zhitong with ease, as well as her performance on the Heavenly Road. However, he had originally thought that even if this woman was stronger than he was right now, it would be limited because in the process of resisting the heavenly tribulation of the Five Elements, his hollow spirit had already undergone a tremendous change, causing his strength to rise by leaps and bounds.

Otherwise, he wouldn't dare be the first to step up.

However, after the exchange, he immediately regained his consciousness. There was still a huge gap between his own strength and this woman's.

"Humph!"

Hu Si snorted, his body rushing forward, and the flying "Coiling Dragon Staff" smashed forward again. It was still a simple swing, but it seemed to contain boundless power, as if it could turn everything in the world into dust. At this time, ordinary cultivators would not even be able to resist it.

"Hu!"

Duan Wuya had yet to stabilize his body, but upon seeing this, his expression changed once again. He howled out, and the blood-red saber slashed out once again, whistling through the air.

"Clang!"

After a loud bang, Duan Wuya was sent flying another ten meters back.

Immediately after, a whistling sound rang out as Hu Si's third strike followed suit. The black and white luster seemed to have filled the entire space, causing one's soul to feel as if they were being sucked in. The surroundings had become completely silent.

"Clang!"

Amidst the violent sounds of the collision, Duan Wuya was no longer pushed back like before. Under the astonished gazes of several hundred people, he was thrown back like he had been defeated. After that, he heavily smashed onto the ground, spurted out blood from his mouth, and broke the blood-red blade in his hand into two pieces.

"Whoosh!"

Hu Si moved like a shadow and instantly appeared beside Duan Tianya. The "Coiling Dragon Staff" pointed directly at his chest, and the black dragon head coiled around the tip of the rod became even more ferocious, as if it wanted to swallow him up. Duan Wuya's face was pale, and his expression was dispirited. His eyes revealed traces of regret and unwillingness.

He knew that with this strike, he would undoubtedly die.

In the future, he would ascend to the heavens and enter the Heaven Realm. It was possible that he would make a good living out of it, yet, he died in the "Heaven and Earth Dao Realm" on the spur of the moment. How could Duan Wuya be willing to accept this?

Unfortunately, there was no medicine for regret in this world.

Duan Wuya's face was filled with bitterness, and he closed his eyes in some despair. However, he didn't realize that the moment before the rod was about to land on his chest, he actually stopped for a moment, without any warning. Hu Si's brows couldn't help but frown, as a look of doubt seemed to flash past in the depths of her beautiful eyes.

Chapter 1178 - sucking Empty

"Scram!"

Immediately after, Hu Si let out a low shout, and with a light swing of his "Coiling Dragon Staff", Duan Wuya flew out a few hundred meters.

Duan Wuya spat out another mouthful of blood. At first, he was bewildered, but soon after, his joy from surviving the calamity filled his brows. He crawled up with all his might, stumbling as he fled towards the distant "Heaven and Earth Dao World", only stopping after he reached the edge of the "Heaven Dao Realm" that was thousands of meters away.

Hu Si relaxed her brows, feeling somewhat regretful.

Earlier, just as she was about to kill Duan Wuya with a swing of her rod, a sense of alarm arose from the bottom of her heart. She had a strong premonition that if Duan Wuya really died under the coiling dragon staff, then she too would be killed by this "Cosmic Dao Realm." This situation forced her to choose to stop.

However, this Duan Wuya wouldn't pose much of a threat to her, so she didn't mind temporarily keeping her life. If he was still as untactful as before, he would just give him another staff after exiting the "Heaven and Earth dao realm".

In a blink of an eye, Hu Si's gaze swept across the surrounding Void Transformation Stage cultivators. His figure faintly moved, and he returned to his original position. He once again sat cross-legged, and closed his eyes slightly.

The surrounding cultivators couldn't help but shudder, secretly rejoicing in their hearts. Luckily, they weren't in a hurry to make a move, otherwise, they would have been in the same situation as Duan Wuya. They didn't know where this woman came from, but she was actually this strong.

Before this, one of the two strongest people in the "Ancient Clear Heaven Domain" was actually unable to withstand her three rod strikes.

With deep doubts in their hearts, everyone subconsciously retreated to a distant place to avoid being disturbed by the vortex of energy. As for the idea of breaking through the vortex of energy, it had long since vanished into thin air. That girl's strength was too terrifying. Even if more people were to go up, they wouldn't be able to harm a single hair on her head.

"He really is powerful!"

Even Duan Wuya didn't have the strength to retaliate when facing Hu Si's rod strike. After three staff strikes, he had already been utterly defeated, and if it wasn't for Hu Si showing mercy, Duan Wuya would have already been burnt into ashes.

When she glanced at Hu Si's figure, her eyes were filled with deep fear.

She had long since predicted that Duan Wuya would end up with a miserable defeat, but his speed had exceeded her expectations. At first, she had thought that she would be able to cause some damage to him by risking her life. However, now she realized that she had overestimated herself and had also underestimated him.

At this moment, Nie Zhitong was also rejoicing at herself for retreating a moment ago.

If she had not fought back then, she definitely would not have been the only one out of the thousand that had entered the Heavenly Road. The other party probably wouldn't have suffered any injuries.

That woman was someone he would never offend.

Looking at how she acted just now, she seemed to have some misgivings in this "Heaven and Earth dao world." Only then did she change her mind. She did not kill Duan Wuya, but now that she had exited the "Heaven and Earth dao world", it was hard to say. If he were to leave this place in the future, he must disappear from his sight as fast as possible.

After taking two deep breaths, Nie Zhitong finally managed to somewhat calm down.

Time flowed like water, more and more energy was being sucked into the sucking. The cultivators in this "Universe Dao Realm" could only constantly move to increase the distance between them and the energy whirlpool. Even so, it was difficult to avoid the strong interference from the energy whirlpool.

After a long while, even if everyone retreated to the edge of the "Heaven and Earth dao world", they still could not absorb a single bit of the power.

Among all of them, only Hu Si and Nie Zhitong were still absorbing part of the energy. As for Duan Wuya, he was still focused on healing his injuries.

Not long after, even Nie Zhitong and Hu Si stopped in succession.

After the last bit of energy quickly entered the whirlpool, Pang Shuo's whirlpool started to shrink. Unknowingly, Tang Huan's blurry figure had already appeared.

In just a few short breaths of time, the whirlpool completely disappeared, and Tang Huan's figure clearly entered everyone's line of sight.

"Why is my strength all gone?"

At a point where no one could see what was happening, Tang Huan slowly opened his eyes and muttered in doubt.

The many cultivators in the distance all heard Tang Huan's voice and felt a strong urge to vomit blood. You were the only one who lost the sucking, so why are you still asking about the loss of power? However, no one could do anything but silently complain in their hearts, not daring to show any dissatisfaction on their faces.

"Rumble ..."

Right at this moment, a loud noise like that of Lei Ming's suddenly reverberated within the "Universe Dao Realm" without any forewarning. Immediately after, in the center of the area, a huge arched door suddenly rose up, and what appeared afterwards was the platform that carried the arched door.

"This is the exit of the Universe Dao Realm!"

"Haha, we can finally get out!"

"If my guess is correct, the exit passage will be revealed as soon as the power within this Universe Dao World disappears."

"..."

All sorts of sounds began to ring out as they stared at the gradually revealing arch.

Tang Huan regained his senses, and in a split-second, the "Myriad Sword Heavenly Diagram" was closed, and merged back into the Dantian. With a flash, it arrived beside Hu Si.

All the cultivators looked at Tang Huan with complicated expressions.

If this guy did not suddenly appear and mess things up, when everyone's cultivation was cleansed by the sucking, their cultivation would have definitely risen by a lot.

However, other than the few cultivators who had obtained the "Heaven and Earth Dao Bead", the rest of the people in the "Heaven and Earth Dao World" could be said to have obtained nothing at all. This opportunity had been taken away by that guy, causing everyone to feel aggrieved.

But because of Hu Si's existence, they did not dare to say anything.

Sensing that everyone's expression was strange, Tang Huan could not help but ask in surprise:

"Master Hu Si, what's wrong with these people, as if I stole their billions of 'Initial Spirit Heavenly Crystal'?"

"You did not snatch their billions of Initial Spirit Heavenly Crystal s, but you absorbed all the energy that they deserved." Hu Si smiled.

"Huh?"

Tang Huan was startled. He only reacted and discovered that the entire "Heaven and Earth dao world" was empty. He couldn't help but smile.

Previously, he had always been focusing on the "Myriad Sword Heavenly Diagram". Although he knew that his sucking contained a huge amount of power and felt that during this process, there had been a person who had attacked him before, he did not take it to heart and also did not think that he would need to cleanse this place of all the energy. Even after he woke up, he did not immediately realize this point.

"Don't even think about it, you being able to obtain all the power here in the sucking is also your ability."

Hu Si slightly smiled, and said while floating forward, "Little fellow, let's go out first." As she spoke, Duan Wuya had already rushed into the archway, followed by Nie Zhitong. The moment the two moved, the rest of the cultivators also explosively shot towards the high platform.

Tang Huan took a light breath and quickly followed.

Chapter 1179 - Returning to the Wind, Fire and Thunder Realms

Firestorm Lightning World, at the eastern platform.

Many cultivators came and went, but there were still hundreds of people gathered there.

Although the entrance to the third floor of the "Tong Tian Tower" had already closed, with so many people inside, there was bound to be a chance they would open it again.

Once the entrance was opened again, the people guarding it would naturally be able to enter as fast as possible.

"Buzz!"

After an unknown amount of time, a violent ringing sound suddenly rang out, and all of the cultivators on the high platform were immediately woken up.

Within the arched door, the originally calm space actually began to ripple with minute fluctuations.

"The entrance to the third floor of Tong Tian Tower is about to open?"

"Great, luckily I didn't leave."

"If I knew about this, those fellows who left earlier would probably regret it until their intestines turned green!"

"..."

One by one, the figures stood up. Everyone was inexplicably excited. After waiting for such a long time, they were finally about to get their wish.

"Hu!"

Suddenly, a stooped figure flashed out from the arched door.

It was an old man with wrinkles all over his face. After his feet landed on the ground, he didn't hesitate and immediately jumped off the stage, shooting off into the distance.

In an instant, the old man was gone.

"That is... Patriarch Wuya? " A green-clothed middle-aged man couldn't help but exclaim in a low voice, but a trace of surprise was revealed between his brows.

"I've met Patriarch Wuya! It's definitely him!"

"I was just saying that Patriarch Wuya must have entered the Cosmic Dao Realm. From the looks of it, he really did. I wonder if he acquired the Cosmic Dao Pearl or not?"

"What's he doing running so fast, no one's going to steal his things!"

"..."

Everyone muttered.

"Hu!"

Immediately after, another figure revealed itself; it was actually a purple-clothed woman.

Almost the same as Ancestor Wuya, she flew into the distance the moment she came out without pausing. Her speed was even faster than Ancestor Wuya's.

The actions of the two people in succession caused everyone to be baffled.

Could it be that they had obtained some extremely precious treasure from the "Heaven and Earth dao world", so they had to quickly leave the moment they came out in order to prevent others from stealing it?

If it was only the violet-clothed woman, it would be possible.

Yet now, even Ancestor Wuya had done such a thing. He was one of the most powerful experts in the "Skypiercing Ancient Region." Who would dare to snatch a treasure from his hands?

Just as everyone was wondering, several more figures appeared from the arch, and behind them, even more cultivators appeared.

When they came out, there were quite a few people who immediately scattered in all directions. However, none of them were as anxious as Patriarch Wuya and Han Li.

Everyone subconsciously looked around and quickly discovered that something was amiss.

There were more than 200 people behind him. Other than a few, the majority of the cultivators were not in a good mood. It seemed that they did not have much to gain from the "Universe Dao World".

In addition, almost everyone was intentionally or unintentionally distancing themselves from the two figures.

It was a young girl with an extremely beautiful face. She was around 30 years old and had a nine-colored little bird on her shoulder.

When the surrounding cultivators looked at them, there seemed to be a deep dread in their eyes.

The crowd at the high platform naturally did not know that the two people were Hu Si and Tang Huan. Tang Huan did not care about the gazes that were all around him, and glanced around once, then smiled at Hu Si: "Master Hu Si, where do you plan to go next?"

"I plan to go to Tiger Clan ..."

Hu Si smiled, but after a moment, her expression changed and she frowned, but immediately displayed it again, saying helplessly, "Seems like I cannot return to Tiger Clan. The Heavenly Road will soon descend. I must immediately leave the Tong Tian Tower and face the calamity in the Tong Tian Ancient Region, otherwise, the heavenly tribulation will become stronger and stronger. "

Within the "Tong Tian Tower", the Heavenly Road would not descend, but outside in the "Tong Tian Ancient Region", the Heavenly Road would not be obstructed by space. However, a majority of cultivators would choose to face the danger in the Forging God Great World. The reason for this was that in the Forging God Great World s, the heavenly tribulation would be slightly weaker than the "Celestial domain".

Of course, those with enough confidence in their strength wouldn't deliberately leave the "Ancient Clear Heaven Domain" to face the tribulation.

Just like Hu Si, there was no need to run back to the Forging God Great World.

Most importantly, even if she wanted to return now, she wouldn't be able to. If he could not suppress his cultivation and sensed that the Heavenly Road was about to descend, then he would

deliberately go to a place like the "Tong Tian Tower" to hide. This was not a good idea, because it was impossible to hide like this for a lifetime.

The more he hid himself, the more terrifying the Heavenly Tribulation would be upon him once the Heavenly Road descended.

Out of the ten thousand people who did this, there were an estimated nine thousand nine hundred and ninety-nine that would turn to dust the moment the heavenly tribulation appeared. Just like Hu Si, she reckoned that the moment she stepped out of Tong Tian Tower, the Heavenly Road would appear. At that time, the strength of the heavenly tribulation would be beyond imagination.

Because of this, she couldn't afford to delay any longer.

"Master Hu Si, since that's the case, you should hurry up and leave!"

Hearing Hu Si's words, Tang Huan couldn't help but feel a sense of urgency for her.

Hu Si nodded his head: "Little fellow, do you want to go out with me? Outside the Tong Tian Tower, with your abilities, it's impossible for Duan Wuya and Nie Zhitong to find you. If you continue to stay here, as long as the two of them block the exit, it will be very difficult for you to leave in the future. "

"I plan to stay here for a few more days to gather some thunder, fire, and wind crystals."

Tang Huan laughed, then continued, "Lord Hu Si need not worry, with the ability 'Yin and Yang Void Method', even if I am not their opponent, escaping is not a problem."

"Whatever, take care."

Hearing that, Hu Si could only nod his head, then thought of something, and a golden tiger statue appeared in his hand, flickering with light.

With a light sigh, Hu Si continued, "This is a precious treasure of the Tiger Clan. After being trapped with me for more than two thousand years, the strength of the Tiger Clan will definitely not be as strong as it was in the past. Now that I have no time to return, I can only ask you to send it back to Tiger Clan. With it there, Tiger Clan should be able to recover its former strength in the future. "

"Master Hu Si, don't worry, I will definitely send it back to Tiger Clan." Tang Huan took the Golden Tiger Statue seriously. Just by sensing it, Tang Huan knew that this should be something that could awaken the Tiger Clan's bloodline. It was not useful to others, but to the Tiger Clan's rare treasure.

"Alright, little fellow, thank you."

Hu Si patted Tang Huan's shoulder with a smile. "If that's the case, I will be leaving first. In the future, in the Heaven Realm, we might meet again." With that, Hu Si turned into a ray of light and shot forward with an astonishing speed. In the time it took to flick of a finger, he had left Tang Huan's line of sight.

Chapter 1180 - Myriad Manifestation Sword Formation

"Little brother!"

The moment Hu Si left, Shao Yang, who was waiting ten meters away smiled sincerely and came closer, "Do you remember our trade?"

He had reaped great rewards from this trip to the "Universe Dao Realm". If he could once again obtain the Saint-rank Divine Armament forged by Tang Huan, he could use the Heavenly Road to climb into the heavens at any time.

"Of course I do." Tang Huan retracted his gaze and smiled.

"Alright, little brother, here are the ten pages for you."

As he spoke, a stack of golden pages appeared in Shao Yang's palm. There were exactly ten of them.

What awaited them on the stage was also a swarm of bees that disappeared from the arched door. In this area, other than him and Tang Huan, only Ji Haitian and the others remained, so there was no need to worry about others watching them and leaking the news.

Tang Huan took it and started to inspect it carefully.

Just as Shao Yang had said, among these ten pages of Divine Weapon Catalogue, there were five pages containing Saint-rank Divine Armaments, two pages containing Heaven-rank Divine Armaments, two high-rank Divine Armaments and one mid-rank Divine Armament.

"Senior must have paid a great price in order to collect these diagrams." Tang Huan nodded in satisfaction. With a slight thought, he kept all of them in his "Sumeru Magical Ring."

"Little brother, you're right. For these ten pages of Divine Weapon Catalogue, this old man has given away all my savings. It is also fortunate that those who possess Divine Weapon Catalogue no longer hold any hope of forging them into the Divine Armaments. Otherwise, even if this old man has to pay a huge price, it would be difficult to obtain them." Shao Yang shook his head and sighed endlessly. His expression was slow but painful.

"Oh?"

Tang Huan curled his lips. If it was this old fellow's words, it would be good if he could buy five points. Maybe these ten pages of Divine Weapon Catalogue were something he had coaxed over from those guys who were smashed to death by Hu Si's "Coiling Dragon Staff".

Now that the ten pages of the atlas were in his hands, it all belonged to him.

With a quick thought, Tang Huan said with a smile: "Senior Shao Yang, the Saint-rank Divine Armament that you want to forge, do you have the necessary ingredients prepared. If you are ready, I can start forging today."

"This old man has long since been prepared. I was waiting for little brother to make his move!"

Shao Yang's expression changed, his entire face flushed red from excitement. After pausing for a moment, the old man said, "Little brother, where are we going to forge?"

"Senior, please follow me."

"..."

After a while, Tang Huan brought Shao Yang, Ji Haitian, Geng Xun, and the others and entered the clouds.

In between mind instructs (in a second), the "Myriad Sword Heavenly Diagram" appeared, and slowly spread out, absorbing the nine spirits, Ji Haitian and the other puppets. Tang Huan's gaze

turned towards Shao Yang, and smiled: "Senior, do you want to go in with me, or do you plan on leaving the map and ingredients outside for me?"

Shao Yang looked at the landscape painting scroll in Tang Huan's hands and was a little hesitant.

He had personally witnessed Geng Xu and Chou Rui being taken in by the sucking, and after coming out, they had listened to everything Tang Huan said, and if he entered, even life and death would be in Tang Huan's hands. If they accidentally discovered some of Tang Huan's secrets after entering, it might not be a good thing for both of them.

After a brief moment of hesitation, Shao Yang laughed and said, "I think it's better for me to stay outside. If little brother's treasure is taken away, then things won't be good."

After he finished speaking, a golden page of Divine Weapon Catalogue appeared in Shaoyang's palm, which he handed over to Tang Huan. Then, the naturally occurring Divine Level Stone s of various ranks and valuables were revealed one by one, but before they even fell into the clouds, they were sucked in by the "Myriad Sword Heavenly Diagram".

"Senior, I'll be going in first."

After collecting all the materials, Tang Huan also entered the "Illusory Sword Heavenly Palace".

The landscape painting scroll slowly closed, turned into a scroll and floated into Shao Yang's palm. Tang Huan was not worried in the slightest that Shao Yang would snatch the "Myriad Sword Heavenly Diagram" away. As long as he was still alive, this object would not fall into the hands of anyone. Even Hu Si, who was extremely powerful, would not take it for himself.

Looking at this shiny scroll, Shao Yang was a bit worried about his gains and losses.

He was also worried that Tang Huan would refuse to give him the weapon after he had forged it. After all, this was not an ordinary Heavenly Soldier, but a Saint-rank Divine Armament.

There were only a handful of Saint-rank Divine Armament s who had already succeeded in being produced. He had never personally witnessed the process of forging. Even if Tang Huan told him that he would fail in the future, he would be helpless. However, other than choosing to believe in Tang Huan, he had no other choice.

After a long time, Shao Yang withdrew his aura and entered a cloud ...

... ..

Illusory Sword Heavenly Mansion, Supreme Mystery Temple.

The little thing Nine Spirit, Ji Haitian, Geng Wen and the others who came in first already left, while the Natural Divine Stone and ore landed in the center of palace. At this moment, the ancient white palace was already filled with the enormous power that Tang Huan had absorbed from the "Universe Dao Realm".

Tang Huan did not immediately forge Shaoyang's [Holy Ranked Divine Armament]. Instead, he sat cross-legged inside the hall.

After a short while, Tang Huan had already calmed his mind and focused, his soul merging into the Supreme Profound Hall. What was most important right now was to first use this power to repair the cave, so that it wouldn't continue to collapse.

"Buzz!"

After the flick of a finger, an intense trembling sound suddenly rang out.

In that instant, the Supreme Mystery Temple trembled intensely as trillions of white beams of light condensed into reality, immediately startling all the living beings in the cave. Within the Tai Xuan Lake, at the peak of a mountain, Shan Shan also suddenly opened his eyes as a hint of joy floated up between his brows.

Then, she couldn't help but spring up.

"Weng!" Weng! * "Weng ~ ~ ~"

However, before she could continue, an increasingly intense cry resounded through the sky.

From close to the distance, they corresponded with the Supreme Profound Hall. In just a blink of an eye, the sound had already spread to the ten thousand peaks in the entire Supreme Xuan Lake, and one after another, it condensed into a huge sound wave that resounded throughout the entire cave.

"Whooosh."

Following which, streams of sword light condensed from various sword intents, piercing through the mountain peaks and soaring up into the sky, shuttling back and forth above the Grand Xuan Lake.

The tens of thousands of sword lights seemed to be independent, yet at the same time, they seemed to be a perfect whole.

Various kinds of sword intents interweaved, and with Supreme Profound Hall as the center and tens of thousands of sword glows as the crux, they congealed into an incomparably large sword net. Not only did it envelop the entire Tai Xuan Lake, it even contained countless strands of incomplete intent that were coded from within the sword net, as if it contained the entire cave abode's space.

This was the 'Myriad Manifestation Sword Formation'!

After understanding "Illusory Sword Heavenly Palace" thoroughly, as the master of the cave, Tang Huan naturally grasped this sword formation.

The foundation of this sword formation was the ten thousand mountains in the Great Xuan Lake, the Supreme Mystery Temple and the ten thousand sword intents. As long as his foundation was not broken, no matter how badly the other regions were damaged, as long as he had enough power and passed through the Limitless Sword Formation, he would be able to repair it.

However, if his foundation was damaged, then he wouldn't be able to do anything.
