

W. Master 1191

Chapter 1191 - Sisters

After a while, a small ball of white power was pulled into the Dantian cauldron.

Tang Huan tried to refine it. Indeed, it was as the rumors said, a Void Transformation Stage cultivator might not even be able to refine it. If the world's spirit energy was said to be an easy to digest tofu, then the power of the "Ancient Cave of the Heavenly King" was like a hard rock. Even if one ate it, it would not be easily digested.

However, if he were to use the "Nine Yang Divine Furnace" to refine it, the situation would be a little different.

The cauldron in Tang Huan's Dantian was like a broken stone machine, able to directly smash the white-colored odor that was as firm as a rock and then refine it bit by bit. Of course, even if he were to use the cauldron, the time it would take to refine this kind of energy would far exceed the amount of time needed to refine ordinary energy.

A short while later, Tang Huan uncontrollably revealed a surprised expression.

After just refining this small amount of strength, he felt his true essence increase slightly. The power within this "Heavenly King's Ancient Cave" had such a clear effect on raising one's cultivation. If it was refined in large quantities, one might be able to break through to the Void Transformation Stage or even the Void Transformation Stage.

Tang Huan could not help but smile, but immediately calmed down. With a thought, the "Nine Yang Divine Furnace" appeared in a flash, and the power of the sucking increased exponentially.

Under Tang Huan's control, the cauldron whistled forward.

To control the cauldron, the most important thing was to rely on the soul. Although Tang Huan's flesh body could not endure much further, his soul was strong enough. In a split second, the cauldron had already forcefully withstood the terrifying pressure and entered the "Ancient Celestial King Cave", directly touching the violently churning white-colored odor.

If he wanted the cauldron to go in a little bit, Tang Huan could of course do it, but the resistance that the cauldron had to endure started to increase exponentially.

Furthermore, Tang Huan was only absorbing energy, so there was no need for him to do so.

"Hu!"

Under the guidance of the powerful sucking, the white-colored odor rolled in. Not long after, Pang Shuo's "Nine Yang Divine Furnace" was already filled to the brim.

With a thought, the cauldron returned to the Dantian, and Tang Huan called out the "Myriad Sword Heavenly Diagram".

As the painting slowly unfurled, it left Tang Huan's hands and slowly floated forward, entering the side of the ancient cave like the cauldron from before. With the scroll as the center, similarly tyrannical sucking power spread out in all directions. The white-colored odor formed from energy instantly rushed in like a flood.

After that, Tang Huan sat down outside the cave, while activating the "Nine Yang Divine Furnace", refining the energy, and activating the "Myriad Sword Heavenly Diagram" to absorb the energy.

In the vicinity of the "Ancient Cave of the Sky King", he did not need to worry about being disturbed at all. In this area, there were no beasts that were willing to approach, and there were also very few Void Transformation Stage cultivators.

As time passed, the power of the "Heavenly King's Ancient Cave" gradually decreased, and the landscape painting also slowly entered the cave. Unknowingly, the picture scroll was already several meters inside the hole. Tang Huan sat cross-legged on the ground without moving, but the pressure on him had weakened by quite a bit.

"Peak of the Void Transformation Stage..."

After an unknown period of time, Tang Huan let out a light sigh. The energy in the cauldron had finally been completely refined, and the result made Tang Huan quite satisfied.

At such a high level of cultivation, if one didn't have a great lucky chance, it would be extremely difficult to raise their cultivation.

For example, if Tang Huan did not have enough "Profound Ice Red Lotus" and had not experienced the heavenly tribulation in Five Elements of the third floor of the "Tong Tian Tower", it would be impossible for him to break through from the third transition to the seventh circulation in just one or two years.

But now, just by relying on the power of that cauldron, Tang Huan's cultivation had reached the peak of the Void Transformation Stage.

Suppressing the happiness in his heart, Tang Huan looked up to see that the "Myriad Sword Heavenly Diagram" was still absorbing the energy, but its speed was slower by an unknown amount.

This was the reason why the "Supreme Mystery Temple" was already saturated!

's figure flashed slightly, and he entered the "Illusory Sword Heavenly Palace". He sat down cross-legged in the Supreme Profound Hall, which was brimming with energy, and once again activated the "Limitless Sword Formation". A vigorous energy frantically spread out along countless of meridians.

Outside the Heavenly King's Ancient Cave, the painting slowly closed and floated down to the ground. It glittered with light, but it no longer showed any signs of movement.

...

"Whoosh!" "Whiz!" "Whiz!"

A few hundred meters away from the cave, three figures suddenly appeared. The one in the front was a petite lady in a red dress, with a delicate and beautiful baby face, making her look like a sixteen or seventeen year old girl.

A little later on, there was a purple-clothed woman. Her figure was tall and slim, with a delicate and beautiful face, but her entire body seemed to exude an ice-cold chilliness. She just stood there silently, and the area of tens of meters around her seemed to have turned into a thousand year old ice cave.

There were some similarities between the two. They should be a pair of sisters.

Behind the sisters was an old woman in black robes. She had chicken skin and crane hair, and looked like she was in her prime. However, the aura that emanated from her body was terrifying to the extreme.

Judging from her aura, the red-dressed girl and the purple-clothed woman should be around the Void Transformation Stage, and the black-clothed old woman at least had the cultivation of the Void Transformation Stage. However, the strongest among the three of them had an expression of exhaustion that was difficult to conceal.

"Sis, this is the 'Ancient Celestial King Cave'?"

Her big, black eyes turned, and the girl in the red dress called out in confusion, "It doesn't seem to be the same as in the legends."

The purple-dressed woman frowned slightly. In the blink of an eye, she turned to look at the black clothed old woman and asked: "Grandma Cui?"

The black clad old woman squinted her eyes, looking a little puzzled: "Miss Xiang Jun is right, this' Ancient Cave of the King 'is not as it used to be. Almost twenty years ago, this old one came here to see that the ancient cave was filled with power, but now that the power has been greatly reduced, the pressure on the outside of the cave has been greatly reduced. "

"The power of the 'Ancient Cave of the Sky King' has actually decreased?"

As she spoke, she had already dashed forward. However, after a short moment, she stopped and called out in surprise, "Sis, Grandma Cui, quickly look. What is that?" Two pairs of eyes landed on the small scroll not far away from the entrance of the cavern.

"Huh?"

The violet-clothed woman and the black-clothed old woman that followed closely behind couldn't help but stop as well.

After sizing it up for a while, the black-clothed old woman couldn't help but exclaim in a low voice, "If this old woman isn't wrong, it should be a spatial artifact. Moreover, the space it carries must be extremely vast ... No, it seems to be very different from normal spatial equipment. "

The young lady in red subconsciously opened her eyes wide, she was extremely suspicious, "Strange, outside the 'Ancient Cave of the Heavenly King', how could such a thing appear?"

Chapter 1192 - Heaven's Will City

"Maybe someone fought here and ended up dying together, and only it survived." The black-clothed old woman muttered to herself, as if this was the only explanation. Spatial tools were always precious, it was impossible for them to be abandoned on purpose. Even if they were damaged, they would still be taken away.

"Let's not care too much for now. Let this old body take a look at it. If it really is an ownerless object, then it might be of great use to us."

The black-clothed old woman seemed to be thinking of something, her eyes faintly shining. Before she had finished speaking, she had already shot forward like lightning.

"Hmm?"

Just as his fingers were about to touch the scroll, the black-clothed old woman's expression suddenly changed, and she retreated ten meters at an even faster speed. Her eyes revealed a strong sense of caution, and the eyes of the girl in red and the girl in purple, who were following closely behind, were filled with surprise and anger.

On the side of the scroll, a figure appeared without any warning.

It was a young man wearing a fiery red robe. He had a handsome face, fair and tender skin, and long hair that hung down from the back of his head.

A strange look flashed past the red-robed man's eyes, but in an instant, his gaze swept past the black-clothed old woman, and landed on the purple-clothed woman and the red-dressed girl behind her. He said with a smile, "Two young ladies, what a coincidence, we meet again."

"Yang Chen, you're really like a ghost that won't leave." The young girl in the red dress was extremely angry and her face was tense.

"Thank you for your praise, Lady Xiang Jun." The red robed man called Yang Chen was not angry, but the smile on his face became even wider, "On the way here, the two ladies must be tired. Why don't you follow me back to Heaven's Will City? The young city lord is still waiting for the two ladies to return and get married!"

"Don't even think about it!" The young girl in the red dress blushed.

"We will never go back with you!" The purple-clothed woman's expression was ice-cold.

"Ladies, you two go first. Let this old man stop him!" The black-clothed old woman had a calm face as she shouted out in a low voice, and her brows were filled with a serious expression.

"Leave?"

A strange smile appeared on Yang Chen's jade-like face, "I'm afraid it won't be easy for the two ladies to leave now."

The black-clothed old woman, the red-clothed young girl, and the violet-clothed young girl seemed to have noticed something, and they abruptly turned around to look. There were actually five figures that had silently appeared a few hundred meters away. There were males and females, both old and young. Their clothing were all different, but the aura that lingered around their bodies was extremely tyrannical.

The five of them were quickly approaching the area and had completely sealed off the entire area. No matter which direction they fled in, they would not be able to avoid them.

The three of them realized the seriousness of the situation and their expressions changed drastically.

"Yang Chen, even if you have more people, what can you do?"

The purple-clothed woman laughed coldly. Her eyes flashed with determination as she said, "Even if we sisters were to follow you back to Heaven's Will City, we would only be two corpses."

"That's right. At worst, I'll just die!"

The young girl in the red dress coldly snorted.

A sorrowful expression flashed across the black-clothed old woman's eyes when she heard the words of the two of them. She immediately clenched her teeth and said, "Little misses, there is no need to worry. As she finished speaking, a hint of ruthlessness had already appeared on her face.

"Die?"

Yang Chen ignored the black-clothed old woman, his gaze first sweeping over the purple-clothed woman and the red-dressed girl, before he smiled and said, "A woman that Young City Lord has his eyes on, is not someone who can die just because he wants to. As long as I am here, even if you die, I can save you."

"You ..."

The young girl in the red dress was so angry that her delicate body trembled.

However, before she could finish her sentence, a light sigh sounded out without any warning.

"You're so ungrateful to a beauty like her. What a terrible scene!" The sound was barely discernible, and it was faintly discernible, making it difficult for people to tell where it came from.

"Who?"

Yang Chen's expression changed slightly, and he quickly swept his gaze over the crowd. His eyes became sharp, as if he could cut through space with his sharp gaze.

The purple-dressed woman, the red dressed girl, and the black clothed old woman were all shocked. Other than them, there were only Yang Chen and the five people behind him. They did not know where that person was hiding.

The five cultivators behind them were also somewhat bewildered as they looked around.

"I'm in your hands!" The voice rang out again.

"What?"

Yang Chen's pupils constricted as he let out a cry.

Immediately after, not only did his gaze fall on the scroll in his hand, even the purple-dressed woman and the others also looked towards his right hand. He originally thought that the spatial artifact had no owner, but unexpectedly, not only did it have a master, its master was also inside the spatial artifact.

"Hu!"

In a split-second, Yang Chen felt an irresistible force coming from the scroll. His palm and right arm were numbed, and he couldn't help but loosen his fingers. This sudden turn of events caused Yang Chen's heart to sink, and he fiercely retreated a dozen meters.

The scroll unfurled at a moderate pace, revealing a painting of mountains and rivers.

Immediately afterwards, a figure flickered out from the scroll. It was a young man wearing a black robe. He was tall and slender, but his appearance was extremely handsome.

"Big brother Tang Huan!"

"Tang Huan!"

" ... "

The purple-dressed woman and the red-dressed girl were both stunned when they saw the black-clothed man. However, the girl in the red dress instantly cheered out in wild joy. The purple-dressed woman also cried out in surprise.

Strangely, not only did the two of them recognize the black-clothed man's identity, the five people behind them also cried out in alarm at almost the same time. As for the black clothed old woman, doubt surfaced on her aged face. As for Yang Chen, his expression was also somewhat uncertain.

"Lady Xiang Jun, Lady Shi Jun, how have you been?"

Looking at the pair of sisters on the opposite side, Tang Huan was also deeply moved in his heart.

They were precisely the sisters Li Shijun and Li Xiangjun. It had been many years since they parted ways in the "Heavenly Desolate Secret Realm." These two old friends were as beautiful as ever.

In the past, Li Xiang Jun was only a sixteen year old girl. Although she was innocent, her cultivation was extremely high. After all these years, she still looked like a young girl, but her cultivation had already reached the Third Cycle of Void Transformation. Her sister Li Shijun was also at the Third Cycle of the Void Transformation Stage, and her face was still very young. However, her body naturally exuded an aura that prevented strangers from entering, which was getting stronger and stronger.

After leaving the "Heavenly Desolate Secret Realm", Tang Huan had never seen these two "Ru Yi Sect" genius disciples again. She did not expect that they would meet each other again in front of the "Sky King's Ancient Cave" of the "Ancient Clear Heaven Region."

Chapter 1193 - A bunch of trash!

"Not good, big brother Tang Huan, run!"

After a short moment of joy at the reunion, Li Xiang Jun seemed to have thought of something and suddenly shouted. Her pretty face was filled with worry.

"Since you've come out, you should stay!"

Yang Chen suddenly laughed. After the initial shock, he had completely calmed down and a hint of disdain could be seen on his face.

"You think you're worthy of keeping me here?"

Tang Huan laughed slowly. The guy opposite her, who was as beautiful as a woman, was also an expert of the Void Transformation Stage, and was extremely close to the peak of the Void Transformation Stage. However, Tang Huan was not afraid at all. He had seen many Void Transformation Stage powerhouses at this level of cultivation.

"Hmm?"

Yang Chen still had a faint smile on his face, but his eyes became extremely cold, "Interesting. I've been in the Ancient Clear Heaven Domain for a few months, but this is the first time I've seen someone so confident in their strength ... A peak cultivator at the Void Transformation Stage! Liu Hua, I'll leave him to you! "

"Brother Yang, I ... " I'm afraid I am not his match! "

Behind Li Shijun and Li Xiangjun, a tall and sturdy looking old man could not help but laugh bitterly as he glanced at Tang Huan.

"What?"

Yang Chen's face darkened. He looked in disbelief at the old man called Liu Hua. Then, with a furious tone, he asked, "Liu Hua, are you joking with me?"

Li Shijun, Li Xiang Jun, and the black-clothed old woman all had surprised expressions on their faces when they heard this.

Although the two sisters could not tell Tang Huan's cultivation level, but from Yang Chen's words just now, they knew that Tang Huan was only at the peak of the Void Transformation Stage, and Liu Hua, who was behind, was most likely a powerful warrior at the Void Transformation Stage. Right now, Liu Hua, this expert of the Void Transformation Stage, actually admitted that he was not Tang Huan's match.

The impact that this brought to them was not something that could be described with words.

Especially Li Xiang Jun, she was so shocked that her beautiful eyes had turned round. She told Tang Huan to run, she was worried about encountering Yang Chen and the others' evil hands. But from Liu Ye's reaction, even though Tang Huan's cultivation had yet to reach the limits of the Void Transformation Stage, his strength seemed to have already reached an unfathomable height?

"Brother Yang, I can't do anything to him!"

Liu Hua shook her head in embarrassment.

Seeing that Liu Hua did not seem to be lying, Yang Chen seemed to only know Tang Huan. He sized him up, and that's right, judging from his aura, he was indeed at the peak of the Seventh Cycle of Void. According to common sense, even if dozens of such cultivators came together, they could still easily kill the Void Transformation Stage experts.

But when Liu Hua saw this person, it was as if he was a mouse seeing a cat. What was the reason?

"Zheng Shucheng, you come!" Yang Chen's gaze shifted to the middle-aged man behind Li Shijun and Li Xiang Jun.

"Brother Yang, I can't do it either!"

The middle-aged man called Zheng Shucheng also shrunk his neck back, a wry smile appearing on his face. What kind of joke was this, letting him fight with Tang Huan? You want to die? In front of Skysplit Tower, although he had not personally witnessed the fates of over ten Nine Revolutions and Eight Revolutions Transcendental Realm cultivators, he had already heard of them countless times.

"You ..."

Yang Chen frowned, and looked at the other three.

However, the moment they met his gaze, the three Void Transformation Stage cultivators' eyes flashed evasively, causing his anger, which had just recently dissipated, to rise once again.

"A bunch of trash!"

In an instant, Yang Chen couldn't help but angrily shout out.

Being scolded as "trash", they would not lose a single piece of meat. However, if they really foolishly rushed towards Tang Huan, they might just lose their lives there. It goes without saying what their choice was.

Li Shijun and Li Xiangjun's eyes were shining, and their beautiful faces were filled with unconcealable astonishment.

After being chased by Yang Chen and his group for a long time, they knew that Liu Hua and his men were the only ones who would obey. But now, after Yang Chen gave the order, Liu Hua and Zheng Shuicheng actually refused to accept the challenge. If one Void Transformation Stage powerhouse was like this, then it would be fine. But two Void Transformation Stage powerhouses were actually like this. Only Yang Chen did not give the other three an order. Otherwise, he would probably get the same answer as Liu Hua and Zheng Shuang Cheng.

Tang Huan's strength, was he that tyrannical?

The black-clothed old lady's eyes flickered. While she was extremely shocked, she had already secretly heaved a sigh of relief. With the help of the young man called Tang Huan, she had hopes of escaping this time.

"Tang Huan, it seems that I have really underestimated you!"

"Since these cowards don't dare to take action, then let me experience it for myself. I really want to see what kind of abilities you, a peak of the Void Transformation Stage cultivator, has!" As he finished speaking, Yang Chen's expression was already stern. With a gentle wave of his right hand, a fiery-red longsword appeared.

"Kill —"

With a loud shout, the long sword in Yang Chen's hand pierced forward like lightning, and a terrifying and scorching aura immediately swept across the area. If not for the huge pressure coming from outside the "Ancient Celestial King Cave", wherever the long sword passed, a terrifying, blazing storm would have been formed.

Even so, the power behind Yang Chen's sword attack was extremely terrifying. With a thrust of his sword, a majestic sword intent had already spread out in all directions. The fan-shaped area dozens of meters in front of him was already enveloped by the sword intent, a sharp and sharp intent seemed to fill every inch of space.

Those with weaker cultivations would be torn to pieces by the strong sword intent before the sword could even pierce through their bodies.

Even though he was not a true expert at the peak of the Void Transformation Stage, one could tell from this strike that his strength was not the least bit weaker than a peak expert at the Void Transformation Stage.

If Tang Huan was still the Tang Huan who just left Tong Tian Tower, his first reaction would be to use "Yin and Yang Void Method Sky Escape" to avoid the blade and then use the "Heavenly Invisibility" to attack. After all, there was such a large gap in cultivation. He would definitely not take the opponent's attack head on. Instead, he would choose a safer method to get entangled with him and try to wear out his opponent's true essence as much as possible.

Once the opponent had exhausted most of their primeval essence, Tang Huan's chance would come.

But now, Tang Huan didn't need to go through so much trouble.

Right now, he was already at the peak of the Seventh Cycle of Void and it was still difficult for him to face the experts of the Ninth Cycle head-on. However, with the "Myriad Sword Heavenly Diagram" in his hands, the situation was completely different. Having absorbed a huge amount of energy this time, he had already restored almost sixty percent of the "Illusory Sword Heavenly Palace". Now that the cave's space had been restored to such an extent, Tang Huan could already use the "Illusory Sword Heavenly Palace" to do even more things.

So, in a blink of an eye, Tang Huan had already unfurled the mountain and river painting scroll which was in front of Yang Chen's fiery sword!

Chapter 1194 - What the hell is this?

The painting gently trembled. It was as if the mountain inside had turned into a living creature. It rose up one after another and rapidly spiraled around. An incomparably terrifying traction force spread throughout the world.

In a split second, a gigantic whirlpool seemed to have appeared in the space in front of Tang Huan, and the Mountain River Painting in his hand became the center of the whirlpool.

"Hu!"

In an instant, all the power contained within that sword strike had already entered the whirlpool, and the terrifying might was completely gone. Yang Chen's expression changed as he drew his sword and retreated without any hesitation. He had a premonition that if he continued his thrust forward, it was very likely that he would be devoured along with his sword.

At this moment, in the Illusory Sword Heavenly Palace, an exceptionally strong and sharp Strength Qi suddenly appeared out of nowhere, poured down from above, and landed by the side of the Supreme Profound Lake.

A long and deep gully was revealed.

Tang Huan had directly teleported the enemy's attack into the "Illusory Sword Heavenly Palace". After repairing more than half of the cave's space, Tang Huan realized that he could already do this. He originally thought that he would have to wait until the cave's space was completely repaired.

Of course, this didn't mean that this method could block any attack.

The extent to which Tang Huan could achieve using the "Myriad Sword Heavenly Diagram", was closely related to his own strength as well as his opponent's strength. If he was facing an ultimate expert like Hu Si, even if Tang Huan activated the "Myriad Sword Heavenly Diagram" with all his might, it would still be difficult for him to shift the opponent's attack.

However, if it was Duan Wuya or Nie Zhitong, with Tang Huan's current ability, he should be able to do it.

As for an expert at the Void Transformation Stage like Yang Chen, Tang Huan could even deal with him easily. Once the "Myriad Sword Heavenly Diagram" completely completes its shallow repairs, it would be even easier to deal with him.

If Tang Huan's cultivation and strength were slightly stronger, he could definitely send an opponent that was stronger than him, directly into the "Illusory Sword Heavenly Palace" with sucking. Of course, this required the burst of sucking power from the "Myriad Sword Heavenly Diagram" to be able to suppress the opponent's resisting force.

Back then, just like Geng Xu and the others, in a rush, before even having the time to resist, Tang Huan had already activated the "Myriad Sword Heavenly Diagram", but in the "Coiling Dragon Rod", Tang Huan had wanted to enter Hu Si's sucking, but he was unable to do so. At that time, Tang Huan did not understand the reason, but now, Tang Huan knew very clearly, it was because Hu Si was not truly unconscious, the will of resistance had completely overshadowed the power of the sucking that Tang Huan was activating.

"What the hell is this?"

Yang Chen did not know the reason, but his brows were filled with shock and doubt.

Spatial equipment like the "Sumeru Magical Ring" had the biggest use for storing items; spatial equipment like the Space Aircrafts had the biggest use to being similar to carriages, only that their speed was faster, but the spatial equipment in Tang Huan's hands could actually absorb other people's attacks.

Such a spatial artifact was simply unheard-of and unheard-of.

When Li Shijun, Li Xiang Jun, and the old woman in black saw this, they were all dumbstruck. Behind them, Liu Hua, Zheng Shuang Cheng and the others also felt that it was inconceivable, and after the initial shock, they were all secretly rejoicing. Compared to when they were first in front of Tong Tian Tower, Tang Huan's methods seemed to be a little more crafty, but luckily no one acted just now, otherwise, it would probably be dangerous now.

Even the attacks of a Void Transformation Stage expert could be engulfed, so who could be his match?

"Something that wants your life!"

Hearing Yang Chen's question, Tang Huan couldn't help but sneer. The moment he finished speaking, his figure had already disappeared from where he stood. Yang Chen had even recovered from his shock when Tang Huan was already behind him. In his left hand was the scroll that had been closed, while his right hand flashed with a red light, the "Hundred Lava Fire Spear" shot out at an astonishing speed, and in an instant, the tip of the fiery red spear was less than a foot away from Yang Chen's back.

"Chi!"

As he charged forward, he quickly turned around. The fiery-red longsword in his hand also swept out at almost the same time, a large and scorching sword gleam swept through the air like a waterfall.

But just at this moment, Tang Huan's Mountain River Painting flew out of his hands and extended out once more to meet the sword beam.

In a split-second, the fiery red sword beam disappeared into the painting.

The fiery-red longsword in Yang Chen's hand suddenly stopped in the air, while Tang Huan's "Hundred Lava Flame Spear" continued to pierce towards Yang Chen's chest at a lightning speed. A violent and scorching energy surged out from the tip of the spear, and at the same time, boundless true essence roared out from Yang Chen's chest.

Amidst the earth-shaking sounds, the violent Strength Qi was sent flying in all directions. Yang Chen seemed to have suffered a heavy blow and was thrown back dozens of meters, but he immediately stabilized his body.

Tang Huan also retreated by a dozen or so meters and a hint of surprise couldn't help but flash between his brows.

Although he had not used his full strength when he stabbed out with the spear just now, it should not be underestimated. However, after the 'Myriad Sword Heavenly Diagram' devoured his attack, Yang Chen's haste allowed him to mobilize enough powerful primeval essence to successfully defend against it. Moreover, it was a success, which was quite extraordinary.

It had to be known that in front of the Tong Tian Tower, none of the powerhouses that had broken through to the Void Nine Revolutions was able to reach such a level.

Not only was Yang Chen's reaction speed faster than theirs, his primeval essence was also stronger than theirs. If the true essence of those experts at the Void Transformation Stage was like iron, then Yang Chen's true essence was like steel. There was a heaven and earth difference in quality between the two. Noticing this, Tang Huan began to be surprised at the bottom of his heart.

At this moment, Tang Huan realised that he had greatly underestimated Yang Chen.

Although his cultivation had yet to reach the peak of the Void Transformation Stage, his strength had far surpassed the average expert at the peak of the Void Transformation Stage.

In a moment of thought, Tang Huan's figure had already disappeared once again.

Upon seeing this, Yang Chen's face turned green, taking Tang Huan's attack, although his body seemed unharmed, his internal organs were injured, the blood and Qi in his body roiled, and luckily, he was of an extraordinary background, if it was any other Nine Revolving Core Cultivator, his injuries would be at least several times more serious.

At this time, he finally understood why Liu Hua, Zheng Shuang Cheng and the others didn't dare to fight Tang Huan.

If this Tang Huan wanted to escape, he might not even be able to catch up with him. Offending him, if he was allowed to escape, then it would become extremely dangerous in the future, because no one knew where Tang Huan would ambush from.

However, at this point, Yang Chen did not have a shred of regret.

"Tang Huan!"

Although Yang Chen did not sense Tang Huan's whereabouts, the longsword in his hand had already been repeatedly thrust out. Streaks of incomparably sharp fiery red sword beams weaved around his body, as the terrifying Strength Qi erupted layer after layer in all directions like a volcano.

Chapter 1195 - Outsider (1)

"Hmm?"

Tang Huan appeared behind Yang Chen once again, but before he could even open his mouth, he couldn't help but exclaim out loud. His expression changed slightly, and immediately after, he disappeared, and the next time he appeared, he was already in front of Li Shijun, Li Xiang Jun and the black clad old lady.

"Chi!"

In the next moment, over ten incomparably sharp sword beams shot out at the same time, enveloping the space twenty to thirty meters in radius, including him, Li Shijun and the others. A terrifying aura surged forth, causing everyone to feel an extraordinary sense of oppression.

After the ray of sword energy, Yang Chen was like a shadow.

The corner of Tang Huan's mouth raised into a cold smile, Yang Chen activated the many sword beams, filling up the space around him, as though he was preparing for Tang Huan's sneak attack, but that was only an illusion.

His true goal was still Li Shijun and Li Xiangjun.

Evidently, he had already realized that he was unable to deal with Tang Huan, so he wanted to heavily injure them before plundering his way out.

However, at the same time, Tang Huan activated the Landscape Painting scroll for the third time.

In less than a breath's time, the dozen or so fiery red sword beams had already submerged into the painting and cut out deep and serene cracks in the side of the Primordial Profound Lake within the dwelling.

"Swish!"

Immediately afterwards, a sharp cry burst forth, and the "Hundred Lives Flame Spear" followed the path of the fiery red sword glows and pierced forward. Although it appeared neither fast nor slow, its speed was extremely fast, and the spear's sharpness and blazing heat had already reached an extremely shocking level.

This was one of the five techniques of the God Creation Scripture, Spear Extreme!

The might of the "Hundred Linking Fire Spear", displayed by the Divine Armament, was extremely tyrannical. It was completely incomparable to the spear Tang Huan casually thrust out earlier, and wherever the spear pointed towards, the space seemed to be completely locked down.

Yang Chen's expression was extremely calm, the sword in his hand was enduring the terrifying sucking's power from the painting, and could not retaliate in time. At this point, he could only use the true essence in his body and quickly form a thick barrier in front of his chest.

The sound of an intense collision resounded through the void.

Yang Chen felt as if he had been ruthlessly hit by a giant rock, the True Essence barrier in front of him immediately exploded, and his body was uncontrollably sent flying backwards. He retreated nearly a hundred meters, and was barely able to stabilize his footing, but he could no longer control

the surging Qi in his body, he vomited a mouthful of blood, and his handsome face immediately turned as pale as paper.

Taking a deep breath, he suppressed the urge to spit out blood again.

A Void Transformation Stage expert and a peak Void Transformation Stage cultivator ...

Under normal circumstances, if the former wanted to kill the latter, it would be too easy, but the situation now was completely different from what Yang Chen was accustomed to. Not only was a Void Transformation Stage expert like him unable to kill Tang Huan, who was at the peak of the Void Transformation Stage, unable to do so, he had even been severely injured by the latter.

If he had launched another attack like that just now, his internal organs would have probably been turned to dust. If he had made another two of those, the Dantian hollow spirit would have been completely destroyed.

"Whoosh!"

Without the slightest bit of hesitation, Yang Chen made a prompt decision and retreated backwards. He didn't even care about Liu Hua, Zheng Shuicheng, and the others who were surrounding Li Shijun and the others.

Being pushed back by Tang Huan twice or thrice made him feel an enormous sense of crisis.

If this continued, his little life would most likely be left here.

A dignified Void Transformation Stage powerhouse, if he was killed by someone at the peak of the Seventh Cycle of Void Transformation, it wouldn't be worth it at all. If this news were to spread back to Heaven's Will City, he would definitely become the laughingstock of that place. Rather than losing his life in vain, he might as well leave this place for the time being.

"Hmm?"

Tang Huan raised his eyebrows, and started to chase after Yang Chen. However, after walking for a few dozen meters, he stopped and allowed Yang Chen to disappear into the horizon. With Yang Chen's current speed, with Tang Huan catching up to him and using the "Myriad Sword Heavenly Diagram", killing him shouldn't be a problem.

In that case, Li Shi Jun and the other two would be in danger.

If he left, Li Shijun and the rest would not be the only ones outside the "Ancient Cave of the Sky King". In addition to them, there were also Liu Hua, Zheng Shuicheng, and the other five Void Transformation Stage powerhouses.

With the black-clothed old woman's strength, it was impossible for her to contend against Liu Hua and the others.

If he had first sent them into the Space Aircraft or the "Illusory Sword Heavenly Palace", then chased after Yang Chen, he would not have been able to make it in time. Of course, Tang Huan could also use a method like "Spirit Attraction Technique" to continue to track him, but it would definitely waste a lot of time. Since he had the time, it would be better for Tang Huan to absorb more energy here.

"Hu!"

His figure moved slightly, Tang Huan returned to Li Shijun's group, nodded at the stunned people, and then swept his gaze across Liu Hua's group.

The five Void Transformation martial practitioners exchanged looks as if they had awakened from a dream, all of them regretting Mo Dai.

From the start of the fight between Yang Chen and Tang Huan to Yang Chen vomiting blood and fleeing, the entire process only took a few breaths of time and completely stunned them. They did not expect to escape at all, but now that Tang Huan abandoned Yang Chen and did not chase, it was impossible for the five of them to escape even if they wanted to.

"What else do the five of you have to say?" The corner of Tang Huan's mouth slightly raised, as a faintly discernable sense of ridicule emerged.

"Tang Huan... Little brother, we were forced into a corner as well. "

Liu Hua forced out a smile, "If we had known earlier that the two ladies and the little brother were old, even if we were killed by Yang Chen, we wouldn't have come here."

"Yes, yes."

Zheng Shucheng nodded his head and smiled apologetically, "Little brother, it's all because of that Yang Chen that I hate him. Fortunately, little brother didn't make any big mistakes in time. "We will leave now, and we will never dare to offend the two ladies again. I hope that little brother can let us go and let us go. We will repay you greatly in the future."

The other three people were also terrified and echoed his words.

In the past, their understanding of Tang Huan was only limited to rumors. Although they knew that Tang Huan was strong, had unpredictable and unpredictable methods, and that there were many experts at the peak of the Void Transformation Stage, or even at the peak of the Void Transformation Stage, hidden in the Space Aircraft, they had never personally seen him before, they still had a sliver of hope in their hearts. However, after witnessing the situation of Tang Huan and Yang Chen's fight, their hope had been completely extinguished.

Without Tang Huan's permission, they did not dare run.

Maybe Tang Huan could only stop one or two people by himself, but if Tang Huan summoned all of the Void Transformation Stage experts within his Space Aircraft, the five of them would definitely not be able to escape this calamity.

Chapter 1196 - Outsider (2)

"Since you want to repay me so much, why wait for the future. It's fine now."

Tang Huan laughed slowly.

When the five of them heard this, they couldn't help but look at each other. A bad premonition arose in their hearts, and immediately, Zheng Shuangheng had a bitter face as he probed, "Little brother, you mean ..."

Tang Huan caressed the spear in his hand and laughed: "Do you know how the last three managed to survive that day in front of Tong Tian Tower?"

"..."

The five of them had a drastic change in expression.

Of course they knew how the three had survived.

On that day, in front of Tong Tian Tower, fourteen powerful Warriors of the Void Transformation Stage and the Void Transformation Stage coveted the "Heaven and Earth Dao Bead" and besieged Tang Huan. In the end, Tang Huan also summoned seven strong warriors of the Void Transformation Stage and the Void Transformation Stage.

In the end, only three people were left, and were willing to serve Tang Huan.

The five of them were not stupid, upon hearing Tang Huan mention this matter, they immediately understood what Tang Huan meant. He wanted everyone to learn from the three people in front of Tong Tian Tower and become his servants! This way, he could naturally continue to live, if not, Tang Huan would probably have to take action.

If it was any other peak of the Seventh Cycle Void Transformation Stage cultivator speaking like that, they would only take it as a joke. However, Tang Huan's words caused their faces to darken.

How could they be willing to become servants of someone else when they were only a dignified expert of the Nine Revolutions Transcendental Tower? But if he refused, then he could only face Tang Huan and his servants fighting around them.

Firstly, Tang Huan's servants exceeded them in terms of numbers, and among the servants, it was said that there were two experts at the peak of the Void Transformation Stage, with such a disparity in strength. Once they attacked, the chances of them escaping was extremely slim, and the chances of them being annihilated in both body and spirit was actually more than 99%.

None of them dared to block the seemingly negligible life force.

Li Shi Jun, Li Xiang Jun and the black clad old lady did not understand what was going on, and their gazes continued to sweep across Tang Huan, Liu Hua, Zheng Shuang Cheng and the others from time to time. The change in Liu Hua's and the others' expressions caused them to feel puzzled, but their eyes couldn't help but reveal an expression of surprise.

After a short while, Zheng Shucheng looked left and right, then sighed and said with a bitter face: "I ... "I am willing to be a servant!"

"I'm willing to be your servant too!" Seeing that Zheng Shucheng had chosen to obey, Liu Hua let out a long sigh in dejection.

"Me too!"

"..."

With two people making such a decision, the other three naturally did not dare to resist.

Seeing Tang Huan forcing Liu Hua and the others to become his servants without making a move, Li Shi Jun, Li Xiang Jun and the black clad old woman were all astonished.

Before this, it was already shocking that Liu Hua, Zheng Shuang Cheng, and the others did not dare to make a move against Tang Huan. But now, Liu Hua, Zheng Shuang Cheng, and the other experts of the Nine Revolutions Transcendental Tower could even say such words. What exactly did Tang Huan do in this "Ancient Clear Heaven Domain" that caused these strong warriors to be so afraid?

"A wise man knows what to do. The five of you, make your choice."

Tang Huan clapped his hands, "Now, I will ask this old lady to first seal all of you 'hollow spirits'. I hope that everyone will not do anything that would cause misunderstandings." After saying that, Tang Huan turned to look at the black clad old lady beside Li Shi Jun, and laughed: "Grandma, thank you for your hard work!"

"Alright, this old one will go now."

The black-clothed old woman came back to her senses and immediately agreed. Then, her figure moved and appeared in front of Liu Hua. She threw a palm towards his abdomen.

Liu Hua's expression changed, as if he wanted to resist. However, he glanced at Tang Huan's smiling face, whose eyes were ice-cold, and endured it in the end, allowing that palm to fall onto his Dantian.

The black-clothed old woman was originally quite vigilant. After her strike succeeded, her mind was set and she appeared in front of Zheng Shuangheng, as if she had done the same. After two or three breaths of time, the black clad old lady had returned to Li Shijun's side, and all five of them had their Dantian hollow spirits sealed.

"Little brother, this old man was lucky enough to not fail his mission." A slight smile appeared on the black-clothed old woman's aged face.

"Thank you grandma."

Tang Huan nodded his head and laughed, then looked at Liu Hua's group, then said: "Those servants before, they had all been sent by me to look for Divine Level Stone, you should make it in time."

"What?"

Hearing Tang Huan's words, Liu Hua's group of five's faces suddenly turned extremely ugly.

The reason why they were willing to serve Tang Huan, why they did not resist when the Dantian hollow spirits were sealed by the black clothed old lady, aside from being afraid of Tang Huan, they were even more afraid of Tang Huan's powerful servants. But now, Tang Huan had actually told them, none of those servants were by his side?

At that instant, Liu Hua and the others were so angry that their bodies were trembling and they wanted to spit out blood. Their chests were filled with anger and regret.

If they had known earlier, would they have given up? Although Tang Huan who had lost his servants posed a great threat, it would not be that easy to keep them here. If they were to fight to the death, perhaps two or three of the five of them would be able to escape.

But unfortunately, the five of them didn't resist.

Now that the Void Spirit was sealed and their True Essence was completely imprisoned, the five of them were no different from fish on the chopping block. They could only allow themselves to be slaughtered by Tang Huan. In a split-second, Liu Hua and the others looked at Tang Huan with extreme resentment, as if they wished that they could immediately tear him into pieces.

A dignified expert of the Void Transformation Stage was fooled by Tang Huan.

"Don't look at me like that. Becoming my retainer is not an insult to you."

Tang Huan laughed in ridicule, and then, his figure appeared in front of Liu Hua. He reached out his hand, and a ball of soul force came out from between his eyebrows, and into his palm.

If it was in the past, Tang Huan would need to use some sort of "Flying Astral Soul Explosion" to attack their souls. But now, Tang Huan could directly extract the soul power of a Void Transformation Stage expert. A moment later, a "Puppet Soul Seal" was cast by Tang Huan into the depths of Liu Hua Mu's soul.

Seeing this scene, Li Shijun and the others could faintly guess what was going on. They secretly sucked in a breath of air, while Zheng Shuang Cheng and the others' faces were filled with terror, seeing Liu Hua's "Puppet Soul Seal", they understood, from today onwards, there would be no chance for them to escape Tang Huan's control.

Tang Huan did not bother to pay attention to what they were thinking, as "Puppet Soul Seals" formed one after another, and not long after, he had five puppets that were at the Void Transformation Stage.

"Lady Shi Jun, Lady Xiang Jun, why are you two here?"

After requesting the black-clothed old lady to release the seal on Liu Hua's and the others' souls, Tang Huan's attention then turned back to Li Shijun and Li Xiang Jun. He asked in surprise, "There's also that Yang Chen who mentioned 'Heaven's Will City'.

When Li Shijun and the rest appeared outside the cave, Tang Huan, who was in the cave, had already sensed it. He knew everything that happened afterwards clearly, but it was the first time Tang Huan heard about the so called "Heaven's Will City" from Yang Chen.

Chapter 1197 - Outsider (3)

"Big Brother Tang Huan, the 'Heaven's Will City' that Yang Chen is from isn't from our Forging God Great World at all, but the 'Vermillion Bird Great World'." When Yang Chen, Liu Hua and the others were tricked by Tang Huan, Li Xiang Jun had already fully calmed down. However, when Yang Chen was mentioned, her pretty face was still filled with anger.

"Vermillion Bird ..." "A major world?"

Tang Huan was startled for a moment before realizing what Yang Chen meant. The "Heaven's Will City" Yang Chen was referring to was not a power from the Forging God Great World, but a world from another world.

In the sky, there were thousands of great worlds, but this was the first time Tang Huan heard of cultivators from other great worlds coming to Forging God Great World.

Not only was he extremely shocked, even Liu Hua and the others who had complicated moods also had tongue-tied eyes and tongue-tied mouths.

"Is that true?"

After a moment, Tang Huan could not help but speak again. It was no wonder that he was like that. Li Xiang Jun's information was far too unexpected, a Void Transformation Stage powerhouse had actually appeared in the Forging God Great World. Could it be that there was a channel connecting these two worlds?

"Absolutely."

Li Xiang Jun nodded without hesitation, "Elder sister and I followed the four sect elders into the Ancient Clear Heaven Domain not long ago and headed south to the Spirit Realm to search for the Ice Fire Demonic Fox. We were lucky enough to find one, but in the end, it escaped into a hidden cave."

"There was originally a seal at the end of the cave, but it was already extremely unstable. The Ice Fire Demon Fox was unwilling to let go of it, so it actually exploded all of the power in its body and destroyed the seal, revealing a teleportation channel. In the end, all of us and the few elders fell into the passage. "

Tang Huan slightly frowned. He knew that "Spirit Realm South" was indeed a secret realm within this "Ancient Clear Heaven Domain." An extremely rare "Ice Flame Demon Fox" lived there.

This was a kind of Spiritual Beast. It could give birth to something called the "Ice Fire Spirit Dew" within its body and it could be used to refine extremely precious medicinal pellets. However, not only was the "Ice Fire Demon Fox" cunning, it was also abnormally fierce and extremely difficult to capture. It could only be met by luck and not sought.

Li Xiang Jun and the rest were indeed very lucky to be able to find the "Ice Fire Demon Fox", and it was also normal for the "Ice Fire Demon Fox" to self-destruct in the end. However, unexpectedly, the "Ice Fire Demon Fox" chose to self-detonate at the end of the cave to hide a teleportation channel.

"Is that passageway connecting to the Vermillion Bird major world?" Tang Huan said subconsciously.

"That's right."

Li Xiang Jun nodded her head, "We thought we would definitely die, but not long after, we entered an extremely large Sky City. "The City in the Sky is precisely the City of Heaven's Will. The people living inside are all in the Void Transformation Stage." At this point, Li Xiang Jun's face was filled with amazement. Beside her, Li Shi Jun also revealed a trace of shock that was hard to conceal. However, the black-clothed old woman's eyes were filled with anger.

Seeing Tang Huan's doubt, Li Xiang Jun hurriedly explained, "Big Brother Tang Huan, the situation in the Vermillion Bird Great World seems to be different from ours. The entire outside world seems to be ruled by the 'Heaven's Will City'. All cultivators who break through to Virtual Level must enter the Heaven's Will City. "

"So that's how it is."

Tang Huan was enlightened, then his expression turned serious. "Lady Xiang Jun, when you entered, did any of the Heavenly Will City cultivators notice?"

"That's not true."

Li Xiang Jun shook her head, "The place we appeared at was very secretive, and no one noticed us, but something went wrong soon after. That young city lord of Heaven's Will City somehow found out about me and my sister, and actually wanted to force us to marry him. This is too much, of course we wouldn't agree."

Li Xiang Jun was extremely angry. "In the end, someone came to capture us. We could only flee. In the end, only the two of us passed through the passage. The four Elders behind us were all killed by them." As she finished her sentence, Li Xiang Jun's beautiful eyes were filled with grief.

Li Shi Jun didn't say anything, but her eyes were filled with sadness as well.

"Lady Xiang Jun, Lady Shi Jun, please accept my condolences."

Tang Huan sighed secretly. From Li Xiang Jun's words, he knew that the Heavenly Will City had gathered almost all of the Void Transformation Stage cultivators of the "Vermillion Bird World", and that the strong were like the clouds in the sky. For them to be able to escape from that place, it must be the result of the four Ruyi Sect elders risking their lives together.

With a quick thought, Tang Huan thought of something. "Grandma Cui is ..."

Li Shijun and Li Xiangjun had come to the "Ancient Realm of Heavens" together with the four elders of the Ruyi School. Now that they had all died in Heaven's Will City, it was clear that Grandma Cui wasn't one of the four elders.

"Young master, this old one is also from Heavenly Will City." Before Li Shijun and Li Xiang Jun could say anything, the black-clothed old woman said, "In Heaven's Will City, this old man was severely injured and his life is at stake. He was saved by Lady Xiang Jun. When the two misses returned to Forging God Great World, this old one followed along.

"It's all thanks to Grandma Cui this time. Otherwise, we would have been captured by Yang Chen long ago in the South Li Spiritual Domain." Li Shijun bit her red lips.

"Miss Shi Jun, is Yang Chen the only one chasing us from the Heavenly Will City?"

This time, Liu Hua's group of five and the others were captured together with Yang Chen. However, from Liu Hua's and the others' previous reactions, they should be the cultivators of Forging God Great World, but it was unknown whether they were forced by Yang Chen or lured here.

"Of the four who came chasing after us, three of them have already been killed by Grandma Cui."

Li Shijun's expression turned cold.

Tang Huan looked at the black clad old woman in shock. The strength of the three people that were killed should not be much weaker than Yang Chen's, to have all died by her hands. However, judging from Grandma Cui's condition, she must have suffered some serious injuries.

While his mind raced, Tang Huan had already muttered to himself: "When Yang Chen escapes, he will definitely not leave it at that. If it's just him alone, then there won't be much of a threat, and I'm afraid that even more Void Transformation Stage cultivators will use the passage from the 'Spirit Realm of South Asgard' to teleport over from 'Heaven's Will City'."

Tang Huan paused for a moment, then turned to look at the black robed old woman, "Grandma Cui, can you reseal the seal on the passage to the 'Southern Li Spirit Realm'?" This person's cultivation base was much higher than Li Shijun and Li Xiang Jun. Furthermore, he had traveled through the passageway once, so he should have a better understanding of it.

"Does young master want to reseal the passage?"

The black-clothed old woman shook her head, "Please forgive this old man for speaking bluntly. Although young master is strong, I'm afraid you won't be able to seal that tunnel. This old one does

not understand the situation in the Forging God Great World, but I'm afraid that I have to have a cultivation level comparable to the City Lord's to be able to accomplish that. "

"City lord of Heavenly Will City ..."

Tang Huan could not help but frown.

Tang Huan didn't know what that City Lord's cultivation was, but for him to be able to become the City Lord at a place where all the Void Transformation Stage experts gathered, his strength should be even stronger than Duan Wuya and Nie Zhitong. He might even be able to be on par with Hu Si. Based on his calculations, only Yan Zu could reseal the teleportation channel. Furthermore, he was still in the "Tong Tian Ancient Region." Even if he were to return to the Firing Dragon Desperate Domain, he might not even be able to see Yan Zu's true body.

Since he couldn't reseal the passage, it would be useless even if he chased after Yang Chen and killed him outside the passage.

Chapter 1198 - Sacred Body

"Since that's the case, then there's no need to bother with it."

After thinking for a moment, Tang Huan continued, "Lady Shi Jun, Lady Xiang Jun, Grandma Cui is already severely injured, if you leave now, I'm afraid that once you are intercepted by Yang Chen, it will be extremely dangerous. Why don't you enter my space first, and wait for Grandma Cui's injuries to fully heal before making any plans?"

With that, Tang Huan waved the scroll in his hand.

Li Shi Jun, Li Xiang Jun, and the black-clothed old woman glanced at each other and subconsciously nodded. Tang Huan's spatial artifact could even attack a Void Transformation Stage powerhouse with sucking s. If they stayed inside, they could completely avoid Yang Chen, and would not be in any danger at all.

However, the danger would most likely pass to Tang Huan who carried this spatial artifact with him.

If Yang Chen couldn't find them, he would definitely find trouble with Tang Huan. Just Yang Chen alone, Tang Huan was definitely not afraid, but if there were even more Void Transformation Stage powerhouses entering the "Tong Tian Ancient Region", Tang Huan would not be able to handle it, even with Liu Hua and Zheng Shuang Cheng's help.

After realizing this, Li Shi Jun couldn't help but frown. However, before she could say anything, Li Xiang Jun had already asked in concern, "Big Brother Tang Huan, what about you?"

"I will stay here for a while longer."

After seeing the change in their expressions, Tang Huan knew what they were worried about without guessing. He couldn't help but laugh, "Don't worry, even if Yang Chen brought more people over, he wouldn't be able to harm me at all. Even if I'm not their match, it's still not a problem for me to escape."

"..."

Seeing Tang Huan's confident face, Li Shijun and Li Xiangjun still had some doubts.

They entered the "Illusory Sword Heavenly Palace" together with the black clothed elderly woman. As for Liu Hua and Zheng Shuang Cheng's group of five, Tang Huan had them guard the surroundings of the "Ancient King Cave".

At the same time, Tang Huan was also looking through the memories of one of the people.

Originally, they were lured here by Yang Chen. After encountering Yang Chen in the "Spirit Realm of the South", they were bewitched and joined in the chase to capture Li Shijun and the others. The reward was a "Second Phase Dragon Shocking Pill" that could greatly increase their cultivation.

Now that Yang Chen had fled, they were now puppets. The pellet was naturally not in their hands, but Tang Huan had given each of them a Profound Ice Red Lotus.

This thing was enough to allow their cultivation to reach the peak of the Void Transformation Stage.

When the treasure appeared in their hands, the five of them found it hard to believe their own eyes. After being planted in the "Puppet Soul Seal", they knew that they no longer had the power to resist, and had already prepared to be Tang Huan's slave. But they never would have thought that Tang Huan would immediately give them the "Profound Ice Red Lotus".

Having muddled along in the "Ancient Clear Heaven Domain" for so many years, they naturally knew how precious the "Black Ice Red Lotus" was.

This was a rare treasure that would only appear when the "Blackfrost Snow World" on the first floor of Tong Tian Tower was covered by the cold tide. The difficulty in obtaining it was beyond one's imagination. Under normal circumstances, even if there were people who found one or two stalks, they would still keep them and would never give them to others.

However, Tang Huan took out five of them and gave them to the puppets.

Tang Huan did not care about their complicated looks, and very quickly, under the gaze of Liu Hua's and the other's ten pairs of eyes, he summoned out the "Nine Yang Divine Furnace". Like last time, after absorbing all the energy, he sat down at the cave entrance and started to refine the "Myriad Sword Heavenly Diagram".

Liu Hua and the others who had just come to their senses were once again dumbstruck as they looked at the energy whirlpool.

Throughout the countless years since ancient times, there had never been a person who could refine the power within this "Heavenly King's Ancient Cave". Although they did not know whether Tang Huan was able to refine it, to be able to use the power of the sucking to such an insane degree, refining it was probably not a problem either.

If he continued with this trend, the power inside the "Ancient Cave of the Sky King" might even be completely wiped out by the sucking.

Only after a long while did Liu Hua and the other three calm down a little. They could only suppress the shock in their hearts as they began to refine the "Black Ice Red Lotus" that they had obtained...

... ..

"How hateful!"

Tens of thousands of miles away, Yang Chen's figure suddenly appeared on the lakeshore, cursing angrily. His handsome face was already filled with malice.

What happened not long ago made Yang Chen feel a great sense of humiliation.

A mighty Void Transformation Stage expert was actually injured by a fellow who was at the peak of the Seventh Cycle of the Void Transformation Stage and forced to flee in panic. If not for the five helpers staying there and causing that fellow to be hesitant to chase after him, it would have taken a lot of effort for him to escape.

From the day he started cultivating until now, he had encountered countless dangers and many powerful enemies. He had almost lost his life.

If the person who had caused him such a mess was that old woman, Cui Yu, he would have felt wronged, but he would have been able to accept it. After all, Cui Yu had the same cultivation base as him, and her strength was even above his.

However, the one who made him run was not Cui Yu, but Tang Huan!

However, he knew that this matter would never stop there.

[Li Shijun and Li Xiangjun are the two sisters of Heaven's Will City. They are bound to get what they want, so how could they let them escape?] According to what he had heard, that little girl called Li Xiang Jun seemed to have a "Sacred Body". With this kind of physique, she was definitely a good furnace for dual cultivation!

If he didn't return, then there would definitely be more people coming over from Heaven's Will City in the future.

Unfortunately, that passageway was too fragile. He couldn't teleport too many people within a short period of time, or else the passageway would collapse. Otherwise, it would be impossible for the four of them to be the only ones to chase Li Shijun and the others to this place called the "Skypiercing Ancient Region".

"Relying on your power as an artifact, you can't be considered as capable. In a few days, I'll definitely make you face a life and death dilemma for me!"

Yang Chen grimaced in pain, then sneered as he soared into the sky. His speed was extremely fast, and in a short while, he disappeared into the horizon. He did not return to the Spirit Realm in the south and instead waited for the people from Heaven's Will City to arrive. Instead, he headed for the place called "Tong Tian City".

Sneaking guard there, even if Tang Huan fled, he would still know.

Tang Huan did not know where Yang Chen was, his entire mind was focused on the "Myriad Sword Heavenly Diagram" and the "Nine Yang Divine Furnace" inside his Dantian.

As time passed, more and more power was accumulated within the Supreme Profound Hall of the cave abode, while the power in Tang Huan's Dantian Furnace was being refined less and less by Tang Huan, and his cultivation was increasing bit by bit.

Unknowingly, a new invisible barrier disappeared into thin air, and another spiral appeared within the Void Spirit Cave.

Eight Transformations of Void!

Chapter 1199 - Inner Qi

Tang Huan heaved a sigh of relief, and a smile appeared on his face.

Sensing that the Supreme Mystery Temple was about to be filled with this energy, without further ado, his figure moved and once again entered the space within the cave.

After a moment, the Limitless Sword Formation was activated.

Presently, the "Illusory Sword Heavenly Palace" had already been restored by about sixty percent, and at this point, the repair speed had also become faster and faster.

"Hu!"

After nearly half a month, Tang Huan's figure appeared outside of the "Sky King's Ancient Cave" and the cave had already been completely repaired. All the spatial rifts had been closed, all the spatial traps filled, and the fragile regions of space had become much more stable.

At this time, Shan Shan and the rest were walking in the cave, no longer having to worry about being devoured by the spatial rifts or falling into the spatial traps.

Of course, if there was a fierce battle in an area where space cracks, space traps and even space was weak, it could still cause space to collapse again. If he wanted to restore the "Illusory Sword Heavenly Palace" to its original state, it would require a rather long period of time and an even greater amount of power.

However, with the current situation of the cave space, it would at least not implicate Tang Huan during his tribulation.

As a result, Tang Huan couldn't help but feel a great sense of relief when he exited the cave. After tormenting himself for such a long time, the greatest danger he had faced had finally been resolved. Even if the Heavenly Road descended right now, Tang Huan could still calmly face it and not worry about his cave abode collapsing in the midst of the heavenly tribulation.

While he was thinking, Tang Huan's eyes quickly scanned his surroundings.

About a hundred meters away, Liu Hua, Zheng Shuicheng, and the others had already finished refining the Ice Red Lotus.

Tang Huan did not disturb them, and placed his focus on the ancient cave.

The force that was originally in the cave had been reduced by a lot. What was even more strange was that the pressure that had been generated from the cave had already greatly decreased.

This level of pressure no longer had much of an impact on Tang Huan.

After a moment of hesitation, Tang Huan could not help but enter the "Ancient Celestial King Cave". The further he went, the stronger the pressure became, but, even if the energy inside the cave was at his fingertips, Tang Huan was still able to withstand the pressure, which made his heart involuntarily beat faster.

With his current condition, he might even be able to go deeper into the "Ancient Celestial King Cave" and see what was hidden inside. It could actually give birth to such a majestic power.

As soon as this thought appeared, it became uncontrollable.

In just a few breaths of time, Tang Huan had already made a decision. In between the mind instructs (in a second), dense True Essence had already surged out, condensing into a stable barrier over his body, he then kept his scroll, his feet moved, and his body entered the churning white-colored odor.

"Hu!"

Seemingly at the same time, the "Absolute Yang Scarlet Scale Sword" appeared in Tang Huan's palm. Amidst an intense trembling sound, the red light crazily exploded outwards, yet was still unable to penetrate the extremely dense energy in the surrounding area. At this time, Tang Huan's field of vision was also only about a meter or so wide.

For safety's sake, Tang Huan's speed was not fast, moreover, he had already fully unleashed the Perception Ability.

Of course, in this "Heavenly King's Ancient Cave", due to the layers of obstructions in the surrounding energy, Tang Huan could at most sense the situation within a radius of a few dozen meters.

Twenty meters, fifty meters ... One hundred meters ...

Tang Huan continued to go deeper and deeper. Not long later, he reached around two hundred meters.

"Huh?"

Just at this moment, Tang Huan couldn't help but exclaim in surprise. Thirty to forty meters in front of him, there seemed to be an additional extremely sturdy wall, which completely isolated his mind from his senses. Even if he continued to walk forward, he couldn't sense anything.

"Could it be that we have reached the end of the 'Heavenly King's Ancient Cave'?"

Tang Huan was suspicious, but he did not stop.

After about ten breaths of time, Tang Huan frowned. In his senses, the barrier was right in front of him, if he took one more step, he would hit it, but he did not see any traces of the stone wall, nor did he sense the power of the barrier.

Around Tang Huan, the white-colored odor condensed from energy was still churning incessantly. However, the barrier that he sensed seemed to have become completely transparent.

"What's going on?"

This strange situation made Tang Huan even more suspicious.

After hesitating for a moment, Tang Huan tried extending the fiery red greatsword in his hand, but the vigilance in his heart had already reached its peak. The Dantian hollow spirits and Nine Yang Divine Furnace were circulating crazily, and the "Intangible Buddha" in his soul had already started to circulate.

However, although Tang Huan was completely prepared, the following situation was still out of his expectations.

The moment the tip of the sword touched the transparent barrier, Tang Huan felt as if it had turned around, and actually rushed up the broad body of the sword. The speed was extremely fast, to the

extent that it was extremely terrifying, and before Tang Huan even had time to react, the barrier had already covered both himself and the sword.

In the blink of an eye, a terrifying suction force came from the front.

Tang Huan could not help but rush forward. In a split-second, he seemed to have passed through that transparent barrier, the suction force instantly disappearing without a trace.

In the next moment, everyone seemed to have disappeared from Tang Huan's line of sight, as though a shadow had appeared before him.

It was a young man who appeared to be around thirty years old. He wore a white robe, and his eyes were closed as he sat motionless on the ground. He wore a golden crown on his head, and his facial features were sharp and defined. It was as if he had been carved with a knife, giving others a firm and unyielding feeling.

"Come here for This King!"

Abruptly, an extremely dignified voice echoed in the bottom of Tang Huan's heart without warning, and the man in white suddenly opened his eyes. His pupils were as black as ink and extremely deep, almost as if they had turned into two whirlpools the instant his eyelids opened, causing Tang Huan to instantly fall into a trance.

Just at this time, an earth-shattering sound suddenly exploded out from deep within Tang Huan's soul. Pang Shuo's Buddha image rose up, enveloping Tang Huan's body safely as an incomparably vast ethereal intent surged out. The invasion of the external force had actually completely activated the "Intangible Buddha".

Tang Huan who was in a daze, immediately woke up. In his line of sight, the white clothed man had already disappeared, and what replaced him was a bone that was as white as jade!

Chapter 1200 - Dao Crystals, Dao Artifacts

"Break!"

A note suddenly exploded like a thunderclap.

Following that, Tang Huan noticed that the Buddha image suddenly collapsed, as though a terrifying invisible force had taken advantage of the situation and invaded his body, and even his soul seemed like it was about to completely shatter.

Even a "Intangible Buddha" would not be able to withstand the soul attack from its opponent.

"What is the origin of this skeleton?"

Tang Huan's mind shook, he gritted his teeth, and Pang Shuo's "Nine Yang Divine Furnace" roared out from the Dantian, and smashed towards the skeleton.

Since that "Intangible Buddha" could not withstand the enemy's attack, its soul would definitely be severely injured.

At that time, even if his soul truly collapsed, Tang Huan would definitely not let that skeleton have an easy time. With his current cultivation level and strength, even if he could not destroy the skeleton, he could definitely injure it by activating the "Nine Yang Divine Furnace". As for whether

he would be able to completely enrage it and whether he would be able to survive this crisis, Tang Huan did not care about that anymore.

"Buzz!"

But just as the invisible force was about to wreak havoc in Tang Huan's soul, deep inside his soul, a buzzing sound came out, and immediately, Tang Huan noticed that the small God Forging Statue was releasing trillions of fiery red lights.

At the same time the red light exploded, an incomparable force seemed to be howling in all directions.

In just a blink of an eye, the invisible power that had rushed into his soul had completely disappeared without a trace.

"God-Forging statue?" Tang Huan was slightly startled, he never thought that the God Creation Divine Statue would have such a usage.

Almost an instant later, the "Nine Yang Divine Furnace" struck the skeleton.

Amidst the deafening sound, the white jade skeleton immediately broke apart, causing Tang Huan to wake up. However, the sense of danger did not disappear, as if it was growing stronger.

"We have to leave immediately!"

Tang Huan didn't hesitate at all as a black and white vortex suddenly appeared.

The strange state of that transparent barrier caused Tang Huan to give up using the "Yin and Yang Void Method: Void Escape" and instead directly used the third stage of this sacred art, the "Yin Yang dao diagram". According to Tang Huan's judgement, the space they were in right now was most likely an independent space.

"Crack!" "Crack ~ ~ ~"

Following that, a series of cracking sounds could be heard, and the bones, which had been blown apart, actually reassembled. In the blink of an eye, a complete set of bones appeared once again.

"Hu!"

Tang Huan's body moved like lightning, and without hesitation, he quickly merged into the black and white vortex.

"Chi!" As the sharp sound of breaking air rang out, the ghastly white bone claws grabbed over. However, they only grabbed the empty space as the black and white vortex disappeared without a trace.

"Huh?"

The claw withdrew, but the skeleton didn't chase after it. Instead, it sat back down, and its soft mutterings echoed in the space.

"Divine crystals? A magical equipment? "

That voice actually contained a trace of unconcealable shock, "No, no, it's just a mere lower realm, how could there be 'divine crystals' and 'magical equipment'? Perhaps it was just the 'Dao crystal'

and the 'Dao artifact'? Even if there were only these two things, it would be sufficient for This King to return to the upper realm. "

"Unfortunately, This King will not be able to leave this place for the time being!"

"..."

"Hu!"

Outside the Heavenly King's Ancient Cave, a black and white vortex condensed and Tang Huan's figure suddenly appeared.

After both of his feet landed on the ground, the first thing Tang Huan did was to summon the "Myriad Sword Heavenly Diagram" from the Dantian.

After a moment, Tang Huan turned and retreated, his two eyes looking back at the "Ancient Cave of the Sky King".

Inside the cave, the white-colored odor was still rolling around, the strong pressure was spreading in waves, it was almost the same as before.

However, Tang Huan was very clear in the depths of his heart about what kind of terrifying enemy was hidden in the depths of that cave.

Under the soul attack of the skeleton, even the "Intangible Buddha" was of no use. If not for the statue, there would be no one on this earth.

When he was about a hundred meters away from the cave entrance, Tang Huan stopped.

The skeleton in the depths of the cave did not seem to chase out, causing Tang Huan to heave a sigh of relief.

If the skeleton chased him out, Tang Huan would enter the cave as fast as he could. He would first save his life, then think about other things. But with that, the Myriad Sword Heavenly Diagram would definitely fall into the hands of the skeleton, and at that time, it would be extremely difficult for Tang Huan to escape.

Fortunately, the skeleton didn't chase after him!

However, thinking back to what happened just now, Tang Huan still had a lingering fear.

He didn't know why the skeleton didn't chase after him, nor did he know what kind of state it was in. He also didn't plan to go back in and find out the root of the problem. Reentering the cave to satisfy his curiosity was no different from being a fool.

In fact, Tang Huan did not plan to absorb any more power from the "Ancient Cave of the Sky King", even though half of the energy remained there. If he were to continue drawing energy from those terrifying existences that were hiding in his inside the cave, it would be similar to dancing at the edge of a cliff.

After all, no one was sure if the skeleton was trapped in that space or not, so it would be best to be careful.

Fortunately, he had achieved his objective in coming to the "Ancient Clear Heaven Domain", so it was time for him to leave.

He still had a lot of things to do after leaving this place. The first to go were the Li Province, to investigate his mother's tracks, and then to see Mu Yan, Shan Shan and the others.

After so many years, Master Ou Xie, Old Fatty Ye Chongshan, Xing Meng and the others might have also entered the Forging God Great World. If they really came, Tang Huan would have to send people to find them, and if they didn't come, Tang Huan would have to prepare a place for them to stay.

Of course, if he had the time, it would be the best if he could make a trip back to the small world!

Tang Huan was now at the eighth circulation, if he did not finish these things before the Heavenly Road arrives, he would truly regret it for the rest of his life.

With the plan set in mind, Tang Huan did not hesitate any longer.

In the midst of mind instructs (in a second), faint sounds of breaking through the air already continuously sounded. It was Liu Hua, Zheng Shuang Cheng and the others all stopped cultivating and came to Tang Huan's side. Of the five people, besides Liu Hua and Zheng Shuicheng, the other three also had a bit of the "Black Ice Red Lotus" that they hadn't finished refining.

However, all five of them had already reached the peak of the Void Transformation Stage.

"Hu!"

With a flick of the painting, all five of them were absorbed into the cave dwelling. Then, Tang Huan immediately kept the scroll back into the Dantian and soared into the sky without hesitation.

"Whoosh!" "Woosh ~ ~ ~"

Not even an hour after Tang Huan left, a soft and light sound of something tearing through the air resounded once again outside of the "Ancient Cave of the Sky King".
