

W. Master 1341

Chapter 1341 - Dual Joy

"Big brother Tang Huan!"

"Big brother!"

In the evening, the hall door creaked open. Seeing Tang Huan walking out of the palace, Xiao Budian and Jiu Ling immediately went to welcome him.

After the "Puppet Soul Seal" was removed and his soul was set free, the nine spirits did not choose to leave. Instead, they remained in the Heavenly Forging City, which made Tang Huan feel very gratified.

"Why are you two standing here? What's the matter?"

Glancing at the two little fellows, Tang Huan asked with some surprise.

From his senses, he could tell that these two little fellows hadn't been here from the start, but had only just appeared when he had started smelting the "Thunder God's Brahma Blade".

"Big Brother Tang Huan... "Yiya ..."

Xiao Budian immediately opened his mouth to speak, but before he could finish, Nine Spirit's mind instructs (in a second) had already started reverberating, "Big bro, the four sister-in-law told you to go to the northern suburbs to find them the moment you come out from seclusion, it seems like she has something to tell you ..." As he finished speaking, his Nine Spirit Eye revealed an extremely human-like smile, but it also seemed like he was forcefully restraining it.

"Yiya!" Seeing that his words had been stolen, Xiao Budian was extremely dissatisfied, and stared at the nine spirits fiercely.

"Oh?"

Realizing that the expression of the nine spirits were a little strange, Tang Huan became even more curious and nodded: "I will go over!" While speaking, Tang Huan's figure had already disappeared.

The two little fellows glared at each other before leaping up into the air and flying towards the north of the city.

In a short moment, Tang Huan had arrived at the courtyard located at the northern outskirts of Heavenly Forging City. The auras of Shan Shan, Yu Feiyan, Mu Yan and Feng Ming were within the courtyard. Tang Huan laughed, he raised his hand and pushed open the gate, but upon seeing Shan Shan and the rest, he stopped in his tracks.

Inside the courtyard, other than Shan Shan and the other two who were joking around, there were actually two other tiny yet vigorous auras of life.

Furthermore, those two auras of life actually came from Shan Shan and Mu Yan's lower abdomen respectively.

"Shan Shan, Mu Yan, are you both pregnant?"

After a blink of an eye, Tang Huan seemed to have awoken from a dream and with a flash, he arrived in front of the four of them.

"You can see it."

"Yes."

Shan Shan and Mu Yan nodded, they looked at each other and laughed, then used her hand to caress their lower abdomen, which did not reveal any of their characteristics, her beautiful face was filled with a maternal radiance. Seeing their actions, both Yu Feiyan and Feng Ming revealed signs of envy between their brows. Soon after, their beautiful eyes glued onto Tang Huan's body.

"Haha, I'm going to be a father now, haha ..."

Receiving the affirmation of the two people, Tang Huan felt a great joy and happiness hit his heart. He actually swung his fists like a child and couldn't help but to laugh foolishly. However, the happiness did not last long before Tang Huan's face changed, his eyes revealing a strong sense of depression and helplessness.

"Tang Huan, what's wrong?" Seeing that, Shan Shan and the rest were all confused.

"I can see the children coming into this world, but I can't see them grow up!"

Tang Huan laughed bitterly and sighed.

The "Divine Concealment Seal" only had a short duration of three years and he did not have much time left in the Forging God Great World. When a child was born, as his father, he had no choice but to separate from them. Moreover, after ascending to the heavens, he didn't know when they would meet again. How could he be happy about this?

Hearing Tang Huan's words, Shan Shan and the rest were helpless.

"Tang Huan, don't think too much."

Yu Feiyan smiled merrily, "After a child is born, we will raise them properly. When they have cultivated enough in the future, we will naturally be able to go to the Heaven Realm to find you. However, you must prepare a place for them to stay in the Heaven Realm, otherwise, you won't be able to find your people. "

"You're right."

Shan Shan also revealed a smile, "Heaven Realm is so big, and it's said that it's billions times larger than the Forging God Great World. If you don't fare well after going up there, then we'll still have our children in such a big place. Therefore, I shall leave the matters of the upper realm to you, and the matters of the lower realm to us. "

"Yiya!"

"Ga ji!"

Two cries sounded from behind, it was Xiao Budian and the nine spirits who rushed over. The two little fellows landed on Tang Huan's shoulders and nodded continuously, showing expressions of agreement.

After hearing what the two had said, Tang Huan's mood immediately became much better. "I came here from a small world, and alone for more than ten years, I have already founded the Glory Empire, becoming the ruler of the two great worlds, God Creation and Vermillion Bird. When we reach the Upper Realm, your husband will only be doing better. "

"Then we'll wait and see." Shan Shan and the other two looked at each other and laughed.

"Just wait and see. In at most fifty years, we will have a home in the Heaven Realm." Tang Huan laughed with boundless ambition.

"Fifty years ... Hmm, alright, then we shall stay in Forging God Great World to accompany the children. After fifty years, we will go to the Heaven Realm to find you! " Shan Shan said with a smile, "Little Sister Mu Yan and I getting pregnant at the same time can be considered a double celebration. However, this one double wedding isn't enough."

"Little Sister Feiyan, Little Sister Feng Ming, from now on, I'll leave Tang Huan in your care."

"Huh?"

Tang Huan was stunned. With that, Shan Shan and Mu Yan floated away, while Yu Feiyan and Feng Ming stared straight at him, her beautiful eyes were full of energy, as gentle as water, her tender and limpid cheeks were suffused with a faint blush, as though a gentle pinch would cause juice to leak out.

At this moment, Tang Huan completely understood the meaning behind Shan Shan's words.

"Yiya?"

"Ga ji?"

Xiao Budian and the Nine Spirit Cry came out, blinking their eyes suspiciously.

However, in the eyes of Tang Huan, Yu Feiyan, and Feng Ming, the two little fellows who were normally very cute, seemed to not be very cute at this moment ...

... ..

Time flew by and time flew by.

Tang Huan was one of the few events that occurred in the outside world, but even if he did not do anything, his terrifying strength was more than enough to make the Glory Empire feel as if it was as stable as a rock.

Although Tang Huan had let go of his control over the puppets, the Glory Empire had not lost control over it. The Forging God Great World and the Vermillion Bird Great World were very calm, and even if there was occasional chaos, it would quickly be resolved.

Moreover, as the system related to the martial arts school became more and more perfect, the overall strength of the Glory Empire rose day by day.

In addition, when the news of him setting up a statue of the monarch Tang Huan in the academy and was spread out from the Tiger Roar Institution in Yan State, the other institutions in the Yan State followed suit. Very quickly, this wave of commotion spread out in all directions, spreading to the entire Forging God Great World.

Currently, statues of the king could be seen in all the martial arts academies as well as the Sacred Courtyard. This made Tang Huan's prestige in the Glory Empire even higher.

However, Tang Huan did not care about all these.

Another evening.

Outside the exquisite courtyard on the northern outskirts of Heavenly Forging City, Tang Huan was leaning on a recliner as he smiled at the four chubby children on the grass in front of him. It had to be said that the children of this world were growing much faster than in his previous life. No matter if it was the two bigger ones or the two smaller ones, they were both able to crawl back and forth.

They were all Tang Huan's children, just like the two girls.

Shan Shan was born with a son, and Mu Yan was born with a daughter. Not even two months after they had given birth, Yu Feiyan and Feng Ming had given birth one after another. Tang Huan took his lazy name and directly picked one word from their mother's name, as the name of their four children.

Thus, Old Man called Tang Shan. Second Brother was Tang Mu. Third Brother was Tang Yan. Fourth Brother was Tang Ming.

Because of this, Tang Huan had been scolded many times by the four girls, but, their names were still fixed on that spot.

"Hmm?"

After a while, Tang Huan seemed to have sensed something, he suddenly stood up and looked up at the sky with a stern expression. Then, he reached into his chest and took out the "Divine Hidden Tribulation Seal".

In less than the time of a single breath, the "Divine Concealment Seal" had already revealed countless cracks that were densely packed like a spider web. With a bang, the "Divine Concealment Seal" turned into fine powder in Tang Huan's hand, and floated down from between his fingers.

Chapter 1342 - The Gift of the Heavens

"Is it time?"

Sensing that Tang Huan's expression was abnormal, the nearby Shan Shan, Yu Feiyan, Mu Yan and Feng Ming had almost appeared by his side at the same time. Their expressions were filled with nervousness, attachment, and reluctance.

"We're here!"

Tang Huan said in a heavy voice.

In the endless sky, space was fluctuating rapidly, and the Heavenly Road seemed to be condensing rapidly.

Shan Shan heaved a sigh of relief, he exchanged glances with Yu Feiyan, Mu Yan and Feng Ming, and their expressions suddenly calmed down. At this time, if they revealed the feelings at the bottom of their hearts, it would instead affect Tang Huan's state of mind and cause him to be unable to peacefully pass through the tribulation, adding to the danger.

"Husband, take care." In the next moment, all four of them revealed a smile at the same time.

"Big Brother Tang Huan, I will be up there soon!" Xiao Budian rushed out from the courtyard and landed on Tang Huan's left shoulder, his dark blue eyes were filled with reluctance, "I will soon be able to manifest my human form, at that time, I will go through heavenly tribulation to look for you in the Upper Realm."

"Big brother! Big brother! Me too!"

The Nine Spirits also spread their wings and floated over, landing on Tang Huan's right shoulder, and said while grinning. It was not too far away from the time to materialize, so it might even be faster than Xiao Budian. However, it was unknown how long it would take for Flying Jade Hare, Rainbow Spirit Mouse and Blood Plume Heavenly Hawk to rush out of the courtyard.

"Good!" Good! I'll be waiting for you in the Upper Realm! "

Tang Huan nodded with a smile, and did not say anymore. After accompanying each other for such a long time, he had already said what he needed to say countless of times. It was indeed regrettable that he could not personally see four children grow up, but to be able to see them being born and even accompany for so many days, he should be satisfied.

"I... "He went!"

Taking a deep look at Shan Shan's group of four, his four children and the other little fellows, Tang Huan retracted the reluctance in his eyes. The moment he said those words, a gentle force pushed Xiao Budian and the nine spirits away, and at the same time, disappeared from everyone's sight.

Picking up the child, Shan Shan and the other three, along with Xiao Budian, Jiu Ling and the rest, all looked towards the mountain peak dozens of miles away.

Even though they could not see Tang Huan, everyone knew that Tang Huan was definitely there.

"Rumble ..."

In the blink of an eye, the deafening sound spread throughout the world as a bunch of extremely dense white-colored odor s poured down from the endless skies. In the blink of an eye, it was as though the entire mountain was enveloped within as the energy of heaven and earth crazily surged.

Seeing this scene, the faces of Shan Shan, Yu Feiyan, Mu Yan and the others immediately changed. Xiao Budian, Jiu Ling and the other little fellows also cried out.

This Heavenly Road was beyond his imagination!

However, before they could open their mouths, an incomparably majestic and imposing aura surged over from the direction of the Heavenly Road like raging waves. In less than a breath of time, that aura had already spread throughout the entire Heavenly Forging City, causing people's hearts to tremble.

In the blink of an eye, all the cultivators within the city were alarmed by this huge commotion. Numerous figures soared into the sky as countless gazes landed on the north side of the city.

When the white pillar that connected the sky and the sky came into view, cries of alarm rose and fell one after another.

"Who is undergoing the tribulation?"

"To think that the Heavenly Road's passageway would be so shocking, it should be at least ten times more than a normal peak of the Nine Revolving Core realm cultivator, right?"

"The bigger the passage to the Heavenly Road, the stronger it is. In our Glory Empire, the only ones with such strength are probably His Majesty the Emperor!"

"..."

"Your Majesty? It's actually His Majesty who is transcending tribulation? "

"The Heavenly Road is this frightening. I wonder how terrifying the impending heavenly tribulation is? I wonder if the country leader will succeed? "

"Does this even need mentioning? With the king's strength, how could he not be able to overcome a mere heavenly tribulation?"

"..."

"Aiya, this is bad. The king has ascended to the heavens. Who will take over the throne of our Glory Empire?"

"It must be Young Master Tang Shan. Without a doubt, Shan Shan will be the Regent!"

"Ai ai, the king has ascended to the heavens too early. Currently, the Young Lord was not even a year old. If he were to succeed the throne, the Glory Empire would be in trouble from then on. Perhaps it will fall apart and return to its original state. The country should just wait for another twenty years before transcending heavenly tribulation. "

"..."

"Is the king undergoing his tribulation?"

In the air above the Martial Saint Courtyard, Wu Hongchang gazed into the distance with a slight frown on his brow, but soon became at ease.

Wu Hongchang had anticipated this would happen. He was a Spirit Stage powerhouse, and was more familiar with Tang Huan's power. The more powerful one was, the harder it was to suppress them. With Tang Huan's condition, the Heavenly Road should have descended a few years ago. Being able to hold on until now was already his limit and couldn't be dragged out indefinitely.

Furthermore, the Heavenly Road that was revealed in the distance was terrifyingly large.

The more powerful one was, the greater the Heavenly Road would be, and the more powerful the Heavenly Tribulation would be. The greater the danger of transcending the tribulation. From this, one could tell that the drawbacks of delaying the tribulation for too long were obvious. Of course, if it was successful, it would be even stronger in the Heaven Realm, and the benefits would be very obvious.

"Eh? What heavenly tribulation is that? "

In the next moment, Wu Hongchang suddenly froze.

He suddenly realized that Tang Huan's heavenly tribulation was actually not any of the heavenly tribulation within the Five Elements. The Heavenly Road was filled with a chaotic storm, yet it seemed to contain a power that seemed to be able to destroy the heavens and earth.

That was a heavenly tribulation that was even scarier than the heavenly tribulation of Five Elements!

At this moment, Wu Hongchang felt as if the surrounding world was trembling. If that chaotic storm rushed out of the Heavenly Road, it would be able to instantly destroy the entire region.

Wu Hongchang was deeply shocked.

If Tang Huan was able to successfully pass through this kind of heavenly tribulation, the benefits he would receive would definitely exceed imagination. Heavenly tribulation was both dangerous and fortuitous. Failure to undergo the tribulation would cause everyone's expression to become dangerous, but success was an opportunity because cultivators that succeeded could be reborn.

"Elder Wu!" "Elder Wu ..."

A few shouts suddenly sounded out and dozens of figures shot over like lightning from the distance. They were Jiang He Xian, Mo Qianjiang, Gong Jing, and Zhan Jianfeng.

"Everyone, what's the matter?"

Wu Hongchang was slightly surprised.

Although they were powerful, in the newly built Glory Empire, they had already become marginal figures. Not only did the Prefectural Masters and Deputy Prefectural Masters of the 36 prefectures not have their share, they also did not have their seats in the Sacred Martial Courtyard. Even the various academies did not accept them.

On the other hand, the disciples of their sects were able to survive in the various martial arts institutions. Other than cultivating, they had no choice but to wait for the Heavenly Road to descend.

"Don't you think this is a heaven-sent opportunity, Elder Wu?" Jiang He Xian said with a smile.

"A godsend chance?" Wu Hongchang's eyes flashed.

"..."

Do you want to rebel?

"This Heavenly Tribulation"

In the northern suburbs of Heavenly Forging City, Shan Shan, Yu Feiyan, Mu Yan and the others looked at each other with deep worry. Xiao Budian, Jiu Ling and the other little fellows were also extremely worried.

Before transcending the tribulation, Tang Huan had once said that because of the "Primal Chaos Dao Fire", his Law of the Tao was also extraordinary. The future heavenly tribulation might not be the Five Elements heavenly tribulation.

Tang Huan's prediction was right, the heavenly tribulation right now was not the most common one.

Not only that, the power and might of this heavenly tribulation was probably tens, or even a hundred times greater than that of the heavenly tribulation in Five Elements.

Originally, they were full of confidence in Tang Huan, but they had started to become a little nervous.

"Yiya!" Big Brother Tang Huan is so strong, I think he will definitely succeed in overcoming the heavenly tribulation! " Xiao Budian waved his two front paws fiercely.

"That's not necessarily true."

Just at this moment, an eerie laughter sounded out, "The stronger you are, the stronger the heavenly tribulation is, the more difficult it must be for His Majesty, if you were to suffer a little more, the

situation would be even worse. Sigh, it's a pity that His Majesty the Emperor possesses unparalleled talent and unparalleled strength. I'm afraid he will soon die in the midst of his heavenly tribulation.

"

The expressions of Shan Shan and the rest changed, they turned back and saw a group of people floating tens of metres away.

"Jiang He Xian, you guys want to rebel?"

Yu Feiyan's beautiful face congealed as she shouted coldly.

They could all call out the names of this group of people. Jiang He Xian, Gong Jing, Mo Qianjiang, Zhan Jian Feng ... All of them were once sect masters, leaders of clans, and all of them were powerful experts at the Void Transformation Stage. They were tyrannical and were once the peak existences in the Forging God Great World.

The person who had just spoken was precisely Jiang He Xian.

"That's right, we want to rebel."

Jiang He Xian looked at Shan Shan, Yu Feiyan and the others with a ruthless and mocking expression on his face, "This bastard Tang Huan, not only did he build his own glorious empire, but he even made a fool of his martial arts institution, causing countless sects in the Forging God Great World to lose their heritage. This old man and the others hate him to the bone! "Before, this old man's strength was inferior to someone's, so I could only forcefully endure it. But now, it is time for his retribution to arrive."

"That's right!" Tang Huan is currently under the attack of the heavenly tribulation. If he were to discover that we have captured all of his wife and son, I wonder if he will still be able to safely pass through the heavenly tribulation! "

Gong Jing's face was hideous as she laughed while gritting her teeth.

The matter that made her angry was that Li Shijun and Li Xiangjun, the two most outstanding disciples in the Ru Yi Sect, had actually become Tang Huan's fans. They had taken the initiative to help build the academy, ignoring her as the sect master's orders.

This caused her to be incomparably furious. If she hadn't taken Tang Huan into consideration, she would have killed the two traitors already.

"Haha, so what if you're rebelling? Your father has been waiting for this opportunity for a long time!"

"Tsk, tsk, as expected of the imperial concubine of Glory Empire, this kind of beauty is really rare, if we were to bring them in front of Tang Huan for a large open meeting, how would Tang Huan feel about this?"

"Those four children are quite adorable. This old man can't bear to do anything."

"..."

All sorts of mocking voices sounded out behind Jiang He Xian.

Tang Shan, Tang Mu, Tang Yan and Tang Ming, the four little kids were completely ignorant. Their shiny black eyes rolled over the crowd, seemingly extremely curious, but Shan Shan and the others had already turned ice-cold.

The schemes of Jiang He Xian and the others could be said to be extremely sinister and ruthless. To make a move on them at this time and bring them to Tang Huan, disturbing his state of mind. In the face of such a terrifying heavenly tribulation, even using all of his strength was not enough. If he were to lose his mind, he would definitely die.

"Jiang He Xian, it seems like you've already planned this out."

Shan Shan laughed coldly, "Since that is the case, call out all your people. I want to see what makes you so daring. Although the Glory Empire has been established less than three years ago, do you think that His Majesty would not be prepared to face the tribulation and ascend to heaven? "

Hearing Shan Shan's words, everyone around was shocked, and their faces turned ugly.

Tang Huan's terrifying strength had brought about an enormous psychological trauma to everyone present. If Tang Huan had truly prepared in advance, then he would have ...

"Hahahaha!"

Jiang He Xian suddenly laughed out loud, "Little girl, what are your so-called preparations by Tang Huan, are you Elder Wu Hong, Chang Wu? Tsk tsk, this old man is really scared! "

The expressions of Shan Shan and the rest changed, as if Jiang He Xian's words had hit on their minds.

When everyone heard this, their expressions immediately eased as they laughed without restraint. The ridicule and ridicule between their brows became even more intense.

"Come, let us invite our future king!"

Jiang He Xian clapped her hands and laughed. The surrounding crowd immediately dispersed with a "Hua La" sound, revealing the current head of the Martial Saint, Old Wu Hongchang, who was hidden in the crowd.

"Elder Wu, I didn't expect that you would go back on your word." Yu Feiyan's face darkened.

"Yu Fei is being too serious."

Wu Hongchang stepped forward slowly and sighed softly, "A nation cannot afford to lose its lord for a day! After the Sovereign of Tang Huan ascended to heaven, if a child like Young Master Tang Shan ascended the throne, the empire would definitely be thrown into chaos. If the monarch were to fall into chaos once more after establishing such a great empire, wouldn't that be a pity? "

"This old man shall act as the Holy Master of the Martial Way and be entrusted with a heavy responsibility by the country lord. At such a critical moment, this old man can only be a merciful person and temporarily accept the country lord's position. In the future, when the young master grew up, the throne would naturally be returned to him. This old one has put in so much effort, I hope that the Divine Empress can come to an understanding with you. "

Wu Hongchang sounded like "I'm thinking for the sake of Glory Empire, which is why I have no choice but to take over the throne", but when he finished his speech, he couldn't suppress the smile on his face anymore.

For a dignified Nascent Soul cultivator to be forced to become Tang Huan's puppet for so long, this was the shame of his life. How could he not hate Tang Huan? Previously, when he was peacefully staying in the Sacred Courtyard, it was only because Tang Huan was too strong, that he did not dare to make the slightest of movements.

Now that Tang Huan was going through the tribulation, it was equivalent to when the gigantic mountain above him was suddenly moved away.

Thus, when Jiang He Xian and the others came to find him, his mind immediately started to move. It was as Jiang He said, this was indeed a heaven-sent opportunity.

Under such a situation, the two sides naturally hit it off.

Moreover, as the only Spirit Stage powerhouse between the Forging God Great World and the Vermillion Bird Great World in the future, other than him, who else had the qualifications to inherit the throne of Glory Empire? That was called Young Master Tang Shan? A little child who could not even speak became the king, who would be convinced?

"Wu Hongchang, do you think that you can become the king of Glory Empire just because you want to?" Mu Yan shouted angrily, "You, a descendant of the Vermillion Bird Great World, want to be the king? All the Void Transformation Stage cultivators of the Forging God Great World will not agree! All the martial arts academies in the thirty-six prefectures will also not agree to it! "

Chapter 1344 - Delusions

"There's no need for the empress dowager to worry."

Jiang He Xian laughed mockingly, "In the end, this old man and the rest were once a sect master and clan leader, and there are still a few disciple Disciples s who are willing to serve. Moreover, His Majesty the Emperor was once an elder of Heaven's Will City, so naturally there are a lot of Heaven's Will City cultivators who are willing to be loyal to him. Of course, the most important thing is that the king is strong enough. When the time comes, the king only needs to wave his hand.

"Jiang Prefecture Lord is too kind."

Wu Hongchang smiled reservedly and began to call himself the king.

If he became the Imperial Lord of the Glory Empire, Jiang He Xian, Gong Jing, Mo Qianjiang, and Zhan Jianfeng would naturally be able to become the rulers of a region.

"So that's how it is."

Shan Shan nodded, he had already understood Wu Hongchang and Jiang He Xian's plans.

It was clear that these people hadn't made contact with their sect's Disciples before, but they had directly rushed here as fast as they could to prevent the news from leaking out and causing the two of them to escape. If it was successful, with Wu Hongchang's strength as a Nascent Soul Stage powerhouse, it was indeed possible for the Glory Empire to change masters.

However, could they succeed?

It was obviously impossible! Shan Shan, Yu Feiyan, Mu Yan and Feng Ming looked at each other, their faces melting into ice like they were melting ice, and all of them revealed brilliant smiles. Xiao Budian, Jiu Ling and the other little fellows on their shoulders could not hold it in anymore, and started to laugh strangely.

Seeing Shan Shan and the rest's expressions, Wu Hongchang, Jiang He Xian and the rest all looked at each other. They were confused and suspicious.

Following that, Shan Shan chuckled and said, "Jiang He Xian, the king has indeed gone to find Wu Hongchang a few days ago and entrusted him to fully support my son. Do you really think that His Majesty would be so foolish as to place all his hopes on a descendant from the Vermillion Bird Great World? "

"The previous Sect Master of the Ling Xiao Sword Sect was actually so naive. It's really too funny." Feng Ming laughed until the flowers were shaking, and little Tang Ming, who was in his embrace, was shocked. His little mouth immediately curled up as he started crying loudly.

"There's nothing we can do. These people want revenge so much that they want to go crazy." Mu Yan said while grinning.

"This is simply wishful thinking." Yu Feiyan curled his lips in disdain.

"Idiot! "What a fool!"

On Shan Shan's shoulder, Xiao Budian and Jiu Ling were winking their eyes, already laughing so hard that they were about to fall off.

Seeing this, everyone's expression changed.

Whether it was Wu Hongchang, Jiang He Xian, Mo Qianjiang, or the others, they all felt a bad premonition at this moment. Could it be that the Forging God Great World was hiding other Spirit Stage powerhouses? Impossible! If there really was one, it was impossible for not a single piece of information to leak out.

"Little girl, what do you mean?" Jiang He Xian could not hold it in any longer and shouted harshly.

"What I mean is, after saying so much nonsense, you can all die now." Shan Shan's smiling face was like a flower, as though he did not put the people in front of him into his heart at all.

"Die?"

Wu Hongchang was slightly stunned, but soon he laughed out loud, "I want to see, other than Tang Huan who is undergoing his tribulation, who else can kill me!"

"As you wish!"

Shan Shan thought slightly, and the 'Spirit Melting Puppet Seal' appeared in front of him.

In less than half a blink of an eye, that small jade piece had turned into a fiery red giant. Pang Shuo's body, which was over a hundred meters tall, seemed to have been completely formed from molten lava.

"This... "This is ..."

Wu Hongchang paled.

He never thought that there would be such a terrifying molten lava giant hiding by Shan Shan's side. That terrifying aura caused his mind to be at a loss, and the moment he saw it, Wu Hongchang knew that he was no match for it. In the past, even the City Lord Gu Jinglei was only mediocre in this aspect.

Damn it, where did Tang Huan get this thing from!

"Retreat!"

Almost without any hesitation, that thought flashed through Wu Hongchang's mind. However, before he could even translate that thought into action, the molten lava Giant had already pounced over.

"Quick, run!"

"Go!" "Let's go!"

Jiang He Xian, Mo Qianjiang and the others were even more frightened. Their souls were scattered and they desperately ran in all directions, fleeing. At this time, all thoughts of taking revenge on Tang Huan had been completely thrown away. Everyone only had one thought, and that was to quickly escape, the further the better.

However, just as they moved their feet, another hundred meters tall molten lava appeared.

In front of this giant, any resistance was futile. Jiang He Xian and the rest did not even have the time to use a life escaping technique like the "Blood Spirit Escaped Skill" before a giant fiery palm that blotted out the sun came crashing down from the sky, taking dozens of people with it.

There was no suspense in the battle on the other side.

Even for a Spirit Master like Wu Hongchang, facing the molten lava Giant, escaping was already an extravagant hope. In the end, he had placed his hopes on the "Soul Formation of the Dao" method. However, the moment Pang Shuo's body appeared, he was smashed into pieces by the molten lava giant's palm.

"Pfft!"

Wu Hongchang spat out blood and flew away on a cloud. But before he landed, he was caught by the big hand of the molten lava giant. Enveloped by the scorching heat, Wu Hongchang felt as if his soul was on fire. Although he was not dead yet, he knew that he had no way out.

At this moment, Wu Hongchang was so regretful that tears were about to fall.

If only they knew earlier, Tang Huan had left such a terrifying trump card for Shan Shan and the others. They wouldn't have been instigated by Jiang He Xian and the other bastards just now. In the end, he didn't need to be a proper Martial Saint, and now he had come running over to seize the throne. With his current situation, even if he became the country's ruler, how many years could he be?

It was a pity that things had already come to this point. It was too late to regret!

"Feng Ming, you stay here with everyone, I will make a trip into the city!"

After instructing Feng Ming, Shan Shan controlled the molten lava Giant, took it over, and then gave Little Tang Mountain to Yu Feiyan who was beside him. He himself and the molten lava Giant soared into the sky, flying straight into the Heavenly Forging City.

Yu Feiyan, Mu Yan and Feng Ming knew what Shan Shan was doing. With the molten lava Giant here, there was no need to worry about her safety at all. With the other molten lava Giant by her

side, even if a villain like Wu Hongchang who had ulterior motives were to attack them, they would be fearless.

With regards to today's situation, Tang Huan had long anticipated it, but the reason why he hid all of the molten lava giants, and specially went to visit Wu Hongchang, was only to make people think that he did not have any other trump cards left, in order to lure all those people who had ulterior motives out and make an example out of them.

With the molten lava Giant, Tang Huan's plan would be implemented with no difficulty at all.

Very quickly, Yu Feiyan and the rest had already put this matter at the back of their minds. All of their attention was placed on the huge and sturdy Heavenly Road's passageway that was tens of kilometers away.

Chapter 1345 - Punishing to set an example!

In the sky above Heavenly Forging City, the figures of Void Transformation Stage cultivators were densely packed. Even those who could not fly were all looking up towards the north.

Due to the obstruction of the True Fire from the north, almost no one had noticed the commotion on the outskirts.

However, when Shan Shan and the molten lava Giant rushed to the sky and towards the city, more and more people's gazes were attracted, and the moment they sensed the terrifying aura that the molten lava giant was releasing, everyone's faces changed, their hearts and minds shaking.

"That doesn't seem to be a human cultivator, but some sort of spiritual object?"

"What the hell is that thing? Its strength is so terrifying that even Elder Wu Hongchang of the Martial Saint Courtyard wouldn't be its match!"

"Is the person beside that guy the empress of a nation?"

"..."

From top to bottom of Heavenly Forging City, low cries of surprise sounded out from time to time.

However, after a few breaths of time, the mutterings of the crowd had disappeared. Shan Shan and the molten lava Giant was already standing above the Rainbow Plaza.

"We pay our respects to the!"

A few Void Transformation cultivators who were closest to him exchanged glances and quickly bowed in salute. The surrounding cultivators also came to their senses as similar sounds rang out one after another.

"Everyone!"

Shan Shan's eyes swept across the four directions as her pretty face turned solemn. She suddenly shouted in a deep voice, "Today there are the 'Sacred Courtyard' elder Wu Hongchang, the former 'Ling Xiao Sword Sect' Sect Master Jiang He Xian, the former 'Ru Yi Sect' Sect Leader respectfully, the former 'Demon Clan' Lord Mo Qianjiang, and the former 'War Clan' Lord Zhan Jianfeng ... The forty-three of them took advantage of the time that the king was undergoing his tribulation to cause

trouble, with the intention of disturbing his mind. The crime is unforgivable and should be set as an example to serve as a warning to others! "

A clear voice resonated across the entire Heavenly Forging City. When Shan Shan finished his sentence, his tone was filled with killing intent.

At this time, the inside of the city was in an uproar.

Wu Hongchang was a Nascent Soul Stage powerhouse, the number one powerhouse in Glory Empire after the King, and Jiang He Xian, Mo Qianjiang and the others were all people who had once stood out. Now that the king was undergoing his tribulation, they actually joined hands to rebel? This news caused many people to break out in a cold sweat.

The crowd did not doubt that these people could have done such a thing. One of them was the Sixth Elder of Heaven's Will City, while the others were extremely fond of the country's lord's action of disbanding the sect and collecting the cultivation techniques and records. Now that the country lord was suffering from heavenly tribulation, it was indeed a good opportunity to rebel.

If they really succeeded, the Glory Empire would be in a huge mess.

After all, Wu Hongchang was a Nascent Soul stage powerhouse, and no one in the entire Glory Empire could suppress him. Moreover, he was the only living elder of Heaven's Will City.

By that time, the Forging God Great World that had finally unified the whole world would probably be split apart again.

Fortunately, based on what Wu Hongchang and Jiang He Xian had planned, they didn't know whether those people had already been killed or had been apprehended. Everyone's eyes landed on the molten lava giant beside Shan Shan. If Wu Hongchang and the others failed, then it was likely that it had done a great service.

"Kill —"

Just as everyone was thinking about different things, Shan Shan suddenly spoke out such a cold word.

Roar! Immediately after, the molten lava Giant released a heaven-shaking roar, two thick fingers pinching out a figure from his left fist.

"Wu Hongchang!"

"Elder Wu!"

"Sixth Elder?"

"..."

Exclamations of shock rose and fell from the Heavenly Forging City. Many cultivators could recognize who he was with a single glance.

His face was filled with fear and despair, as if he wanted to beg for forgiveness. Unfortunately, he could not even make a sound, and the molten lava giant did not stop moving at all.

Immediately after, the molten lava Giant grabbed out Jiang He Xian from his left palm and crushed him again. Then, without hesitation, he grabbed out Mo Qijiang ...

"Pah!"

"Pah!"

"..."

The sound of bubbles exploding rang out one after another. All the famous Void Transformation Stage experts that were once at the tip of the molten lava giant's finger had turned into dust.

Regardless of whether it was the cultivators of the Forging God Great World or the cultivators of the Vermillion Bird Great World, they were all stunned.

If Wu Hongchang and Jiang He Xian had been killed long ago, the crowd would've felt shocked after hearing the news. However, they wouldn't have cared too much about it. At most, a heated discussion would have passed.

But now, Shan Shan had brought them before the crowd, and under everyone's gazes, he killed each and every one of them. The shock that this brought to the minds of the crowd could no longer be described with words, and this kind of scene, was deeply imprinted in their souls, and would never be erased.

And this, was also the main reason why Shan Shan wanted to make a trip into the Heavenly Forging City.

In just a short moment, Wu Hongchang, Jiang He Xian and the other forty-three experts at the Nine Revolutions Transcendental Tower had all been crushed by the molten lava Giant.

"Everyone, after His Majesty ascends to the heavens, Young Master Tang Shan will ascend to the throne!"

"No one can succeed in plotting against us. The Glory Empire established by His Majesty will never be thrown into chaos." As his gaze swept across the entire city, the coldness at the corner of Shan Shan's mouth slightly restrained as his voice shook the entire city, adding in an extremely imposing tone, "Now, I ask all of you continue to watch the country lords undergoing your tribulation to ascend to the heavens!"

"Yes!" We respectfully send off our country's! "

Watching Shan Shan and the molten lava giant disappear into the north suburbs, everyone finally heaved a sigh of relief, as their expressions also eased up.

"I can't believe that Wu Hongchang and his men would cause such a ruckus at such a time."

"Why wouldn't I think of that?" When I discovered that the king was undergoing his tribulation, I had already thought that there would be people who would take advantage of this opportunity to plot against me. Heh heh, even your father could think of this, how could the king not? For his Imperial Majesty to dare to undergo tribulation at this point ... he must have made preparations. "

"Since this group of people can't see the bigger picture, they are asking for it. Even though this old man is from the Nine Star Holy Sect, I don't really like them. "

"..."

While many cultivators were filled with emotions, there were also many cultivators from the Vermillion Bird Great World, as well as those from the "Ling Xiao Sword Sect" and other sects who were feeling complex emotions.

No matter what, Wu Hongchang was once an elder of Heaven's Will City, and Jiang He Xian, Mo Qianjiang, and the others were once the leaders of the sect's clans.

However, just like what many cultivators had said, the Glory Empire had been established. Furthermore, with such a powerful spiritual object as a guardian, this rebellion was truly suicidal.

After a long while, everyone's attention finally returned to the distant Heavenly Road.

Inside Pang Shuo's huge pillar, he could no longer clearly see the figure of the country master Tang Huan. However, the chaos storm from before had already transformed into thick bolts of chaotic lightning that struck down crazily from the sky ...

Chapter 1346 - Heavenly Tribulation of Primal Chaos

"The power of this tribulation has truly far exceeded my expectations."

Above Tang Huan's head at the bottom of the Heavenly Road at the summit, the "Pure Yang Divine Sword" seemed to possess a life of its own as it continuously spiraled rapidly, slicing off the lightning that fell from the sky. And in Tang Huan's hands, the "Brahma God's Thunder Blade" was also crazily dancing.

At the moment, Tang Huan's entire body was releasing a faint golden luster, the effects of the "Sun Spirit Body" was fully displayed.

During the tribulation, Tang Huan had only used the "Pure Yang Divine Sword" and the "Brahma Thunder Blade" two weapons, the "Nine Yang Divine Furnace" which had never been used. When the latter was pushed to its limit, it would consume too much true essence. This time's heavenly tribulation was far more powerful than he had imagined, Tang Huan did not know how long it would last, or whether it was better not to use it.

If he used up all his true essence in this heavenly tribulation, the end result would be miserable.

Before the heavenly tribulation, Tang Huan had already predicted that the one appearing in his Heavenly Road wouldn't be the Five Elements heavenly tribulation, but this heavenly tribulation had still exceeded his expectations.

The most common heavenly tribulation for a Void Transformation Stage cultivator is the Five Elements heavenly tribulation. Of course, there was a difference in strength between the Five Elements and heavenly tribulation, and other than the Five Elements, there was also the Yin Yang heavenly tribulation. However, what Tang Huan was enduring was not the yin yang tribulation, but the legendary chaos heavenly tribulation.

This was the conclusion Tang Huan came up with after reading Pan Ji's memories.

However, even Pan Ji, who was once the upper realm king, didn't know what the situation was exactly like. This was because he hadn't personally seen it. In Heaven Realm, there were no detailed information related to it. The reason for this was that the number of times a tribulation like this had appeared was simply too few.

When he was on the third floor of the "Tong Tian Tower", Tang Huan had also endured the heavenly tribulation. However, compared to the heavenly tribulation that was set up to test one's training, the heavenly tribulation condensed from the laws of heaven and earth was still very different.

The incomparably vast energy of the Law of the Tao contained within the Primal Chaos Heavenly Tribulation seemed to have the same origin as the energy of the Law of the Tao that Tang Huan possessed, but it was even purer and more condensed than Tang Huan's energy. At the same time that Tang Huan resisted the heavenly tribulation, it constantly came attacking from all directions.

It was difficult to resist, but Tang Huan did not try to resist either, allowing the Law of the Tao's energy to freely flow throughout his body. The process of resisting the heavenly tribulation was also part of a process of tempering his body.

However, even if they knew this, the other cultivators would still choose to try their best to resist until they could no longer resist it.

After all, not everyone had a powerful "Sun Spirit Body" like Tang Huan, and not everyone had a strong soul like Tang Huan. Allowing the power of heavenly tribulation to completely invade his body, that intense feeling of pain was akin to watching his own body be ground into smithereens, over and over again, almost without end. This kind of pain was not something an ordinary cultivator could withstand.

If he tried to take it head on, he might even faint.

To faint within this heavenly tribulation meant certain death.

"Rumble ..."

Earth-shaking explosions rang out incessantly as the thick lightning bolts became denser and denser, filling up every inch of space in the Heavenly Road, causing people's expressions to change. If it weren't for the fact that the Heavenly Road was continuously bombarded by these lightning bolts, this mountain would have probably been leveled long ago.

Tang Huan's body remained unmoving. Above his head, under his full control, the speed of the "Pure Yang Divine Sword" was becoming faster and faster, so fast that even his mind was unable to pinpoint its trajectory. The "Brahma God's Thunder Blade" in Tang Huan's hand also scattered blade light that filled the sky, swiftly shattering the lightning.

Within the Heavenly Road, the terrifying Strength Qi was wreaking havoc as its power overflowed into the heavens.

After an unknown amount of time, the dense lightning finally disappeared. What fell from the sky seemed to have been enormous boulders, each of them filling the entire Heavenly Road's passageway. With a loud rumbling sound, the huge rock quickly sank into the ground. It was unstoppable.

Sensing the change in the heavenly tribulation, Tang Huan's expression immediately became solemn.

Heaven Calamity like this, just relying on the "Pure Yang Divine Sword" and the "Brahma Thunder Blade" was not enough to withstand it. In a blink of an eye, Tang Huan fiercely gritted his teeth as he activated both "Battle King's Golden Body" and "Soul Transformation". His abnormally huge body stood at the bottom of the road, yet it was like a pillar that supported the heavens.

At the moment, Tang Huan's entire body was releasing a powerful aura.

"Hu!"

With a thought, the "Nine Yang Divine Furnace" appeared in a flash and expanded to the extreme in an instant.

Tang Huan didn't hesitate at all. He grabbed the giant cauldron and ruthlessly smashed it towards the huge boulder that fell from the sky. With a "bang" sound, even the Heavenly Road seemed to tremble intensely, and the enormous rock instantly exploded under the violent impact, turning into an extremely powerful Strength Qi that surged in all directions.

After Pang Shuo's body, which was hundreds of metres tall, was crazily attacked by the Strength Qi, Tang Huan actually managed to block it head on.

"Bam!"

Tang Huan once again waved his "Nine Yang Divine Furnace", smashing towards the gigantic boulder that was in the air. Another heaven shaking and earth-shattering explosion sound came out from the Heavenly Road, Tang Huan's body was immediately drowned out by the violent and violent Strength Qi. However, this Lion Tiger's third boulder was already several hundred meters above their heads with the might of thunder.

Tang Huan's eyes slightly narrowed as he waved the giant cauldron for the third time. Then, for the fourth and fifth time ...

"Bam!"

"Bam!"

"..."

Deafening sounds rang out one after another, and the distance between each other became shorter and shorter. In the end, the sound of the collision was almost continuous.

When he smashed apart the ninth boulder, Tang Huan's arms had already begun to ache from the pain. When the twelfth boulder exploded, Tang Huan's arms went numb, as if they would explode together with the gigantic boulder. When he blocked the attack of the fifteenth boulder, Tang Huan was already staggering, and his entire body seemed like it was about to explode.

"Bang!" "Bam!"

The enormous cauldron in Tang Huan's hands pushed repeatedly, and smashed apart two more enormous rocks. However, he was already panting like thunder, and almost collapsed onto the ground. At this moment, Tang Huan's arms were practically numb. The surface of his body was faintly rippling and his incomparably bulky body was showing signs of uncontrollable collapse, as if he could collapse at any time.

"Boom!"

The eighteenth boulder immediately appeared.

Tang Huan's eyes were wide open, his face was twisted and he released a heaven shaking roar, all the power in his body had been gathered in the cauldron and was fiercely thrown out.

At almost the same time, Tang Huan's body also began to fluctuate violently.

"Bang ..."

With an explosive sound, the huge boulder turned into a powerful and shocking Boundless Strength Qi, causing Tang Huan to retreat continuously.

In the next moment, Tang Huan's back fiercely collided with that Sky Barrier.

The massive body that was hundreds of meters tall collapsed with a bang and returned to its original state in an instant. However, it was already staggering with a face as pale as paper and a mouthful of blood uncontrollably gushed out from its mouth.

Chapter 1347 - Crossing Tribulation to Heaven

The "Battle King's Golden Body" and "Soul Transformation" could no longer withstand it and collapsed at the same time.

However, before even letting the golden blood in his mouth fall to the ground, Tang Huan stabilized his body. With a slight movement of his thought, the "Nine Yang Divine Furnace" had already shrunk back to the Dantian, while the "Primal Chaos Daos" within the Dantian roared out, instantly filling up the surrounding ten meters around Tang Huan, melting away the Strength Qi that was rolling in his direction.

In order to continuously use "Nine Yang Divine Furnace" to withstand eighteen terrifying heavenly tribulations, not only did Tang Huan's body exhaust all of the true essence, his body even suffered from heavy injuries. His internal organs had mostly shattered into pieces, and many fine cracks had also appeared on his "Dao Nascent Soul".

Under these circumstances, Tang Huan could no longer use the "Nine Yang Divine Furnace s", and even the "Pure Yang Divine Sword" and the "Brahma Divine Thunder Blade" were difficult to activate. However, Tang Huan was not sure if this "Primal Chaos Dao flame" could melt away the heavenly tribulation in an instant.

If the speed of the dao flame melting through the heavenly tribulation was not up to the speed of the giant boulder's descent, Tang Huan reckoned that it would soon be smashed into meat patties.

Compared to the Primal Chaos Heavenly Tribulation that he was facing, the one back then, although Gao Zu Shan He's was also strong, it was not worth mentioning. After all, when both parties descended upon the Path of Heaven, the difference in cultivation was extremely huge, after all, Tang Huan was already a Dao Nascent Soul stage expert while Mountain and River were purely at the peak of the Void Transformation Stage.

In the next moment, Tang Huan glared fiercely at the top of the Heavenly Road. What surprised him was that the Heavenly Tribulation that was getting more and more intense, actually did not appear again.

"Success?"

Tang Huan was a little unsure.

"It really succeeded!" A while later, the heavenly tribulation still did not appear. Tang Huan was finally able to confirm that the heavenly tribulation had passed, and great happiness immediately rose from the bottom of his heart. He could not help but laugh heartily, and his two eyes looked towards the northern outskirts of Heavenly Forging City.

Previously, he had already seen the appearance of two molten lava giants.

There must be someone trying to stir up trouble while he was undergoing his tribulation. However, with the molten lava Giant protecting them, in front of absolute strength, even if there was a Nascent Soul Stage powerhouse like Wu Hongchang who was participating, their scheme would still end in failure. Thus, Tang Huan was not worried at all.

Right now, the molten lava Giant was still standing there quietly. Obviously Shan Shan and the others had settled the matter.

"The next time we meet, I'm afraid it will be decades later!"

After the joy passed, Tang Huan felt an unbounded melancholy from the bottom of his heart, but he suddenly became excited. His life was long, and in the blink of an eye, dozens of years had passed, and as his husband and father, he had gone ahead to settle down his wife and sons in the Upper Realm. In the future, they would have a safe place to live.

With that thought in mind, Tang Huan felt an invisible power surge up from below, supporting his body as he floated up. At the same time, a gentle and wondrous energy actually rushed in from all directions like water, and continuously poured into his body.

"This is the upper realm's' Celestial spiritual energy ', and it's extremely condensed Celestial spiritual energy!"

Tang Huan was pleasantly surprised, the influx of "Celestial Sky Spirit Qi" was actually causing the injuries in his body to heal at an alarming rate, and his body seemed to be transforming bit by bit ...

... ..

"Did you succeed in your tribulation?"

At the northern outskirts of Heavenly Forging City, Shan Shan, Yu Feiyan, Mu Yan and the others looked at each other with some nervousness.

From this, it seemed that Tang Huan should have successfully passed through the tribulation. However, Tang Huan's heavenly tribulation was greatly different from the Five Elements heavenly tribulation, and no one knew whether or not the current calm was the preparation for an even more terrifying heavenly tribulation.

But in the next moment, their nervousness and the anxiety of the little fellows vanished completely.

"Success!" Darling succeeded in transcending the tribulation! "

"Big brother will soon be in the Heaven Realm."

"Yiya, I knew Big Brother Tang Huan would do."

"..."

Even the two molten lava Giants who were originally standing motionlessly seemed to have been infected and opened their mouths slightly. However, the four little fellows in Shan Shan's embrace, who were playing around, had already closed their eyes and were snoring loudly.

... ..

"Haha, look! The Heavenly Road is beginning to shrink!"

"The king succeeded in transcending the tribulation!" The king succeeded in transcending the tribulation! "

"Wu Hongchang and Jiang He Xian, those traitors, still want to interfere with the country lord's tribulation. They deserve what they deserve."

"..."

From top to bottom of Heavenly Forging City, waves of cheers and sighs of admiration also sounded out.

Ever since Nine Colors City had changed its name to Heavenly Forging City, there had been at least dozens of people that had experienced tribulation outside the city. However, those people's heavenly tribulation, were all heavenly tribulation based on Five Elements. This was the first time that everyone had witnessed such a terrifying heavenly tribulation.

The giant rocks behind him were even more terrifying.

Those boulders weren't real stones, they were formed from the power of the divine retribution and were even more powerful than the real boulders. Even if a cultivator at the peak of the Void Transformation Stage was to be smashed down by a boulder like that, he would definitely not be able to escape his fate of becoming a meat patty.

However, Tang Huan had actually shattered eighteen huge rocks and successfully passed through the heavenly tribulation in one go.

This level of strength was shockingly powerful.

He himself was extremely strong, and after facing such heavenly tribulation, his gains would definitely be considerable. If the King were to enter the Heaven Realm, he would probably be able to survive as well.

When they thought of this, many cultivators that were about to undergo their tribulations couldn't help but sigh with emotion.

However, in the entire Forging God Great World, a character like the Emperor Tang Huan might not even appear once every ten thousand years.

Everyone's emotions surged. On the peak of the mountain in the distance, the Heavenly Road rose higher and higher. In just a blink of an eye, it turned into a small ball of white light and disappeared into the depths of the sky.

It was night. The news of the country lord's successful tribulation as well as the news of young master Tang Shan about to succeed the throne and become the next king had already spread far and wide.

At the same time ...

The news of the Elder Wu Hongchang of the "Sacred Martial Courtyard" and the previous Sect Leader of the "Ling Xiao Sword Sect", Jiang He Xian, causing trouble and attempting to destroy the Imperial Lord's tribulation, was instead seized and killed. Like a storm, it quickly swept through the entire Forging God Great World, and was even continuously spread to the Skypalace Ancient Region and the Vermillion Bird Great World.

As for the story of how Wu Hongchang and his men were captured and killed, it was vividly depicted, and countless versions of it were produced.

It was said that before the king Tang Huan ascended the Heaven Calamity, he left behind numerous spirit object puppets. Every spirit object puppet was hundreds of meters tall, and their strength was not inferior to the master of Heaven's Will City, Gu Lei. What was even more terrifying was that there were more than ten of these spirit object puppets.

It was said that the country master, Tang Huan, had unintentionally discovered a powerful race within the "Ancient Clear Heaven Domain." Every single cultivator of that race was a giant, and each one was a Dao-Nascent Soul stage expert. The King had a premonition that after he ascended to the heavens, there would be a rebellion, so he invited a few people to stand guard over the Heavenly Forging City.

The rumors were getting more and more outrageous, but the Glory Empire was becoming more and more stable

Chapter 1348 - Celestial Body of the Sun

Inside the Heavenly Road passage, Tang Huan had already taken out a new set of clothes and put them on, as her eyes closed slightly.

The wondrous feeling of "Celestial spiritual energy" entering his body made Tang Huan feel as if he was drinking nectar, pottery, and intoxicating. It also made him feel as if he was walking in a hot spring, floating gracefully.

In the blink of an eye, it felt like tens of thousands of years had passed

Immediately, Tang Huan woke up from his stupor. In the blink of an eye, he discovered that the Heavenly Road was no longer surrounded by the Forging God Great World's vast and limitless sky, but instead a white spatial barrier whose thickness was unfathomable.

In Pan Ji's memory, even those Heaven Realm warriors who were at the peak of their power could not forcibly break the barrier between the two realms.

If he wanted to enter the lower realms from the Heaven Realms above, he could only do so through other means.

Generally speaking, such methods were extremely rare.

"We will be entering the Heaven Realm soon!"

Tang Huan thought for a while, and then allowed the Heavenly Road's passageway to pull him through the spatial barrier at a fast speed, while focusing on his own body.

Now, his injuries from the heavenly tribulation had completely healed.

What was even more miraculous was that under the infusion of "Celestial spiritual energy", his body, which had been tempered by the Law of the Tao's power countless times during the heavenly tribulation, was finally undergoing a transformation from a new body to a new one. Tang Huan could clearly feel that his skin, flesh, blood and bones all contained a majestic power. Not only that, Tang Huan also discovered that every part of his body had a faint aura of immortality overflowing.

"It used to be a 'Sun Spirit Body'. Now, it might even be called a 'Sun Immortal Body'!"

A faint smile emerged between Tang Huan's brows.

Compared to the "Sun Spirit Body," the "Sun Immortal Body" was many times stronger in all aspects, and the two were on a completely different level. If he had used this flesh body during his tribulation, even without using the "Nine Yang Divine Furnace", Tang Huan was confident in being able to withstand the final eighteen heavenly tribulations with his flesh body.

Inside the Dantian, the transparent Dao Nascent Soul had undergone a tremendous amount of "Celestial spiritual energy" infiltration, making it seem increasingly pure. In addition, within the small and exquisite body of the Dao Infant, there was actually a round and tiny crystal.

"Dao crystal?"

Tang Huan could not help but be pleasantly surprised.

Normally speaking, after the cultivators of the lower realms ascend to the heavenly tribulation, they would need a relatively long time to condense a Dao crystal. However, Tang Huan had yet to enter the Heaven Realm, and the Dao crystal had already formed.

In the Heaven Realm, how many Dao-Crystals there were depended on the strength of the person.

The more Dao-Crystals a Nascent Soul contained, the stronger one would be, and vice versa. Before the upper realm king like Pan Ji had been captured by the Cast Divine Dragon Abyss, he had over a hundred million Dao crystals, and eighty percent of his Dao Nascent Soul body had been converted into Dao crystals.

Just the thought of more than a hundred million Dao-Crystals was enough to make one feel terrified.

Compared to Pan Ji at that time, Tang Huan, who only had one Dao crystal, was not even worth mentioning.

After obtaining the memories of Pan Ji's soul, Tang Huan deeply understood how lucky he was to be able to kill Pan Ji. If Pan Ji, who had been suppressed by the God Creation God, was the one in his prime, even a single glance would be enough to kill him.

However, he was already very satisfied with possessing a Dao crystal.

Amongst all the cultivators who had just ascended the heavenly tribulation, one could obtain a Dao crystal before entering the Heaven Realm.

In the next moment, Tang Huan discovered that the surrounding spatial walls seemed to have become thinner.

"We're almost there."

Tang Huan thought for a moment, then immediately calmed down and made his preparations.

After only about ten breaths of time, the heavenly path which had guided him all the way up disappeared, and the space in front of him seemed to have been affected by a violent gust of wind as it rippled out in all directions. With a flash, Tang Huan landed on the ground, and his vision changed accordingly.

However, before Tang Huan could even take a good look at his surroundings, he felt an extremely dense "Celestial spiritual energy".

However, the "Heavenly Immortal Aura" here was completely different from the one in the Heavenly Road. The "Celestial spiritual energy" on the Heavenly Road was pure and gentle and would not cause any harm to a cultivator's body. However, right here, the "Heavenly Immortal Aura" turned from a gentle breeze to a violent storm. It was abnormally violent and oppressive. One could immediately feel a terrifying pressure coming from it, causing one to be unable to breathe.

"This is the Heaven Realm!"

After the moment of surprise, joy started to surge in Tang Huan's heart.

The Heaven Realm was no longer filled with the Spiritual Qi of Heaven and Earth, but with the Spiritual Qi of Immortality.

In the Heavenly Road, all cultivators who successfully crossed heavenly tribulation would be infused with "celestial spiritual energy" during their ascension. This allowed the cultivator's body to adapt to their existence. After entering the Heaven Realm, it would also greatly offset the pressure from the "Celestial spiritual energy" in the area.

If they hadn't experienced this, of the ten thousand cultivators that ascended to the heavens, nine thousand nine hundred and ninety-nine would have immediately died under the terrifying pressure of the "Heavenly Immortal Spiritual Energy". Only one particularly strong cultivator would have managed to survive.

After pouring in the "Celestial spiritual energy", the terrifying pressure would still remain, but with the gentle "Celestial spiritual energy" pushing against each other, the pressure on the body would be greatly reduced. Even though he had felt that it was extremely inappropriate in the beginning, at least his life was fine. Especially for Tang Huan who possessed an extremely tyrannical flesh body and the "Celestial Immortal Body", the pressure he felt from the "Celestial Energy" was completely unbearable.

Of course, in order to completely adapt to the environment of the Heaven Realm, one had to make the primeval essence in their body transform into Tianyuan.

Beneath his feet was a mound of green grass that was more than ten meters tall. Surrounding him were mound after mound of grass, and between the mound and the depression in the ground, it was also covered with clusters of green grass.

Tang Huan subconsciously activated his "Dao Infant", "Nine Yang Divine Furnace" and "Intangible Buddha", but discovered that his sensing range was only around ten meters.

This couldn't help but cause Tang Huan to slightly frown.

Through Pan Ji's memories, Tang Huan had long known about this situation. However, after personally experiencing it, he still felt extremely uncomfortable. For cultivators who had just ascended the heavens, their true essence had yet to be converted to Heaven's Essence, and the Perception Ability would be strongly suppressed by the "Celestial Sky Spirit", causing it to decrease greatly.

Generally speaking, the first time he entered the Heaven Realm, his sensing range was only around a meter, which was almost negligible.

Tang Huan being able to sense the area within ten meters was already very magical. If the news were to spread out, countless cultivators who had just entered the Heaven Realm would be dumbstruck.

Chapter 1349 - Heaven Man

However, to Tang Huan who was already used to absorbing large regions of land into his senses, he could only sense in such a small area, to the extent that he was no different from a deaf person and a blind person who had suddenly become deaf.

He didn't go to the depths of his soul to draw out the power of the God Crafting Crystal. With such a small amount of power, even if he used the God Crafting Crystal, the sensing range wouldn't be too far off.

"I have to convert my Quintessential Essence to Tianyuan as soon as possible!"

After taking in a light breath, Tang Huan calmed himself down and carefully examined his surroundings. Even though it was only ten meters in radius, it could still be of some use.

After a while, a hint of surprise surfaced between Tang Huan's brows.

In the concave area around the mound, there was actually an extremely tyrannical power of the sucking. If one recklessly stepped into it, one would probably fall into a quagmire and would not be able to escape.

"If I want to leave, I can only leave through those mound."

Tang Huan looked around.

This region was boundless, and the mound was as high and low as it was high and low. He had just entered the Heaven Realm, so it was impossible for him to have the ability to fly before his True Essence became Tian Yuan. If he wanted to walk out of this place, he would have to jump over the hills one by one.

However, he didn't know how long it would take to get out. If he were to spend too much time, he might as well stay here and transform his true essence. However, true essence conversion wasn't done overnight. It was said that this process took anywhere from half a month to several months. No one knew if there were other dangers hidden in the surrounding area.

In the Heaven Realm, Tian Yuan could be considered the foundation of everything.

Without Tian Yuan, not only could they fly, but they couldn't even use their Dao magic tools. If they met an enemy, most people would have no other choice but to run away. However, even if the cultivators that just ascended the sky were to escape, their chances of success were extremely slim.

For countless years, countless cultivators died the moment they ascended the mountain.

After personally experiencing the situation in Heaven Realm, Tang Huan couldn't help but feel a little worried. When entering the upper realm from the lower realms, there wasn't any fixed place to stay, if Shan Shan and the rest, with their four children and their other close friends were to be placed in danger after climbing the mountain, wouldn't it be extremely likely that they would lose their lives?

In that moment, Tang Huan suddenly regretted saying such a thing.

To use fifty years in the Heaven Realm to settle down for them was as difficult as ascending to heaven. However, since he had successfully entered the Heavenly Tribulation, whether it was for himself, his wife, his children, or even finding his mother, he would have to desperately improve his strength in the Upper Realm.

It was said that there was a great divine ability user who could deduce the location of the cultivators of the lower realms when they ascend to the heavens. If Tang Huan were to possess such methods in the future, then naturally, he wouldn't have to worry about anything.

As for now, there was no point in overthinking it.

Tang Huan collected his emotions and casually chose a direction. With a leap, he landed on top of an even larger mound of dirt thirty meters away from the other party. Although Tang Huan's "Celestial Body of the Sun" could withstand the pressure brought by the "Celestial spiritual energy", the moment it moved, the blocking power still exceeded Tang Huan's imagination.

However, it was a good thing that Tang Huan's flesh body was extremely powerful. According to his calculations, with the distance he jumped, he should be able to reach at most fifty meters. Although the distance between the surrounding hills was over fifty meters, it was still the vast majority within fifty meters.

Tang Huan pondered for a moment, and just as he was about to go over the mound, his eyes revealed a trace of coldness.

From their movements, they seemed to be extremely light and light, and after a short while, they were already several tens of meters away from Tang Huan.

"Huh?"

In front of them was a young man wearing a fiery red robe. His face was fair and clean, and there were two curved horns that were about a foot long on his forehead. Looking at its appearance, it was neither a pure Human Clan nor a Demon Clan, as it was probably from a strange race in the other great worlds.

After discovering Tang Huan, the red robed man's eyes lit up.

The four people behind the red robed man also followed behind him like shadows. All of them had the appearance of a pure Human Clan, and at this moment, their faces were actually flashing with surprise and joy.

Tang Huan's mind raced, but his face remained calm.

Although these people did not say anything to him nor did they express their intentions, Tang Huan could feel a deep malice from their expressions.

However, Tang Huan did not choose to escape.

In a situation where he did not have any Sky Origin or could not use any "Void Evasion" or Space Moving, Tang Huan was not familiar with the terrain here, so he would definitely not be able to escape from them. Since that was the case, he might as well wait and see. When they landed on the mound at Tang Huan's feet, he secretly heaved a sigh of relief.

Although these five people had completed their conversion from true essence to Tian Yuan, it was obvious that they had just crossed their tribulation.

"Did he just ascend from the lower realms?" After looking up and down at Tang Huan, the red robed man started laughing with a teasing look in his eyes.

"That's right."

Tang Huan nodded his head and laughed, "I wonder what your names are, my five friends?"

Tang Huan did not find it strange that the other party was able to see this point. The cultivators who had just ascended from the heavenly tribulation would have a distinct spirit aura emanating from their bodies. This kind of intent existed together with the "Celestial spiritual energy" that was poured into his body. As long as one day his true essence didn't completely transform into Tian Yuan, this kind of meaning would never disappear. As someone who had experienced the passage of time, the cultivators of Heaven Realm were not fools.

"You don't need to know our names."

The red robed man chuckled, "Tsk tsk, I just successfully ascended the heavens, and was sent by Heavenly Road to the 'Shadow Dark Marsh'. Alright, cut the crap. As a man of heaven who had just passed his tribulation, he naturally has to abide by the rules of the Heaven Realm.

"What rules?"

Tang Huan frowned slightly.

Tang Huan was very clear about the meaning of the word "heavenly man" that the red robed man spoke of. All the cultivators who had just ascended from the lower realms or who had experienced the tribulation in Heaven Realm were called "heavenly men".

There were seven transformations to Heaven, and during this process, the cultivators that ascended to the heavens, from flesh body to soul, would undergo seven complete transformations. Every transformations would raise one's strength by a level.

If one were to judge by the number of Dao Crystals, possessing one to ten Dao Crystals would make one a Heaven Transformation; obtaining eleven to twenty Dao Crystals would make one a Heaven Transformation; obtaining twenty-one to thirty Dao Crystals would make one a Heaven Transformation; obtaining thirty-one to forty Dao Crystals would make one a Heaven Transformation; obtaining forty-one to sixty Dao Crystals would make one a Heaven Transformation; obtaining sixty-one to eighty Dao Crystals would make one a Heaven Transformation; and obtaining eighty-one to one Dao Crystals would make seven Dao Crystals would make one a Heaven Transformation!

Using the Dao Crystals as calculations, Tang Huan had just barely stepped into the Heavenly Transformation Stage. As for the five people in front of him, they were clearly at the same level of cultivation as well, at most one or two Dao Crystals higher than Tang Huan.

Chapter 1350 - Fist Kill

A muscular, middle-aged man stepped forward and laughed: "Anyone who meets a man from the heavens who just ascends to the heavenly tribulation can obtain all the items he carries, this is the rule of our Heaven Realm. Kid, hand over the thing obediently!"

"What if I don't?"

Tang Huan laughed coldly.

In the myriad great worlds below, precious weapons were extremely rare. In the upper realms, Dao artifacts were similarly unreachable to the weaker Empyrean. Those that possessed them were few and far between. Generally speaking, those who had just transcended heavenly tribulation would usually have superior weapons or other treasures. In such a situation, it was a common occurrence for those who came first to come first to rob others.

It was the same countless years ago, but it is still the same today.

"If you don't hand it over, then die!" The middle aged man opened his mouth widely, his eyes staring straight at Tang Huan, laughing sinisterly as he raised the thick and sturdy blood red long rod in his hand slightly.

"Rather than me dying, why don't you all die!"

Tang Huan's tone was as cold as ice, and the moment his voice rang, his body had already shot towards the red robed man. He could feel that amongst the five, the red robed man was the strongest. However, no matter how strong he was, he was still at the Heaven Realm.

"Hu!"

The terrifying power of the flesh body contained within the "Sun Immortal Body" allowed Tang Huan to instantly explode with an extremely shocking speed.

The red robed man completely didn't expect that Tang Huan, a heavenly person who had just ascended to heaven, would actually dare to take the initiative to attack.

However, Tang Huan's massive fist was already right in front of him. Caught off guard, the red-robed man had no time to wield his weapon. He could only use all of his Sky Origin Stage strength to block it with his right arm. He let out a dragon's roar as his arm swelled with red scales.

"Bam!"

With a muffled sound, the fists and arms collided heavily together.

The red robed man's expression changed. The moment his arm touched the fist, he felt a majestic wave of energy surging towards him like a broken dam. That kind of power was neither true essence nor Heaven Origin, nor did it belong to any other attribute. It was pure and pure flesh body.

A man of heaven who had just transcended heavenly tribulation, was actually this strong?

"En!"

The red-robed man didn't dare to believe his eyes, but his body still reacted in the most honest manner. Under the tremendous impact, the red-robed man felt as if his arms were about to explode. His internal organs were also violently agitated, and he couldn't help but groan in pain.

Almost at the same time, the red-robed man's body flew out uncontrollably, falling down from the skies like a meteor, smashing towards the ground outside of the mound.

"Help!"

The red-robed man danced in the air, his expression full of fear.

This sudden change of events had completely stunned the other four men. They only came to their senses when they heard the red-robed man's cry for help.

"Brother Long, don't panic!"

The horse-faced youth who was the closest to him shouted. A black light shot out from his palm and wrapped around the red-robed youth's body. But at almost the same time, Tang Huan appeared behind the horse-faced teenager. Without any fancy movements, he directly punched the youth in the back.

The horse-faced man did not turn around to retaliate, because the burly middle-aged man and a skinny Black Costume Old Man beside him had already attacked Tang Huan at the same time. The old man in the gray robe who was the furthest away also reacted quickly, jumping up, like a hawk rabbit, he clawed towards Tang Huan's head.

This group of people had obviously been together for a long time, and they cooperated extremely well.

With the middle-aged man, Black Costume Old Man, and the gray-robed elder attacking Tang Huan at the same time, the horse-faced elder didn't need to save himself at all. He only needed to focus on saving the red-robed man. According to common sense, if they were to coordinate like this, there was no problem and they could basically succeed.

Unfortunately, their opponent this time was Tang Huan!

With regards to the attacks of the middle-aged man and the others, Tang Huan turned a deaf ear to them. His fist continued to strike towards the young man's back and unexpectedly did not hesitate at all.

Noticing the movement behind him, the young man's expression finally changed.

However, at the current stage, he had no time to react at all. In a blink of an eye, Tang Huan's fist had already landed on his back, and he released a huge force.

"Bam!"

With a loud clash of fists, the horse-faced youth couldn't help but let out a painful groan. His body flew out of the mound like a cloud and fell towards the ground.

At this moment, the black rope in his hand had just touched the red-robed man's waist. But before they could do anything, the two of them heavily collided with each other. Their gazes met, and they could see unconcealable fear, terror and despair in each other's eyes.

"Plop —"

After an instant, the red-robed man and the horse-faced man fell onto the ground one after the other. The swamps as if they hadn't eaten in a long time, started to violently shake, and in less than half a blink, the two bodies had already sunk deep into the ground.

"This swamp is indeed dangerous!"

Tang Huan's mind was in a state of shock, and at the same time, he let out a groan. It was the middle aged man's staff striking his waist. But, Tang Huan took the opportunity to take a few steps to stabilize his body. Then, he grabbed onto Black Costume Old Man's blade that was coming towards him from above.

Shock appeared on Black Costume Old Man's face. He felt that his weapon was stuck in the air and could not be moved at all.

"Come here!"

Tang Huan roared, he used all his strength to pull, causing Black Costume Old Man to fly up with his blade, rushing towards Tang Huan.

Black Costume Old Man screamed out loud, he was already scared out of his wits, in a panic he released his grip on his blade, and his body suddenly sank down to the ground.

Tang Huan's eyes turned cold and harsh. He flung his right arm, and the blade flew towards the grey robed elder who was brandishing his claws to grab him, and he himself rushed forward, in a split-second, less than a meter away from Black Costume Old Man who had just stepped on the ground, he punched towards his abdomen.

"Bastard!" This old man will fight it out with you! "

Black Costume Old Man was both shocked and furious. He roared out and struck towards Tang Huan's chest with both of his palms. The True Essence in his body was pushed to the extreme, wanting to injure Tang Huan on both sides.

"Bam!"

Bang!! With a loud crash, almost at the same time that Tang Huan's fist struck Black Costume Old Man's abdomen, both of his palms also hit Tang Huan's chest.

Tang Huan groaned once again, he retreated a few steps, but the Black Costume Old Man in front of him was like a cooked shrimp, bent over and flew a dozen meters, then fell towards the swamp. When he regained his senses, he was less than a meter away from the swamp. He was so frightened that his face was as pale as a sheet of paper.

"Save me! "Save ..."

With a plop, Black Costume Old Man's pleas came to a halt as his body was quickly swallowed by the mud.
