

W. Master 1351

Chapter 1351 I'm the one who killed you!

The middle-aged man who was about to attack Tang Huan and the grey-robed elder who was stopped by the long blade and had no choice but to float down to the ground were completely terrified.

Was this fellow really a divine being that had just successfully transcended heavenly tribulation?

In just a few short breaths of time, he had risen and fell quickly, easily killing off the three of them. Moreover, he had only used the power of his flesh body from the very beginning to the end.

A person from the Heaven Realm who had just entered the Heaven Realm not only relied on his flesh body to kill three one transformations, but also used his flesh body to withstand the ferocious attacks of two one transformations.

This was simply unimaginable!

No matter how strong the flesh body was tempered by the heavenly tribulation, it could not have reached such a stage, right? What was the background of this person? If one did not personally feel the dense immortal spirit aura seeping out from this person's body, it was likely that no one would believe that he had just entered the Heaven Realm.

"Quick, run!"

"Let's go!"

As soon as they caught sight of Tang Huan's cold gaze, the middle-aged man and the elderly man couldn't help but shiver as if they had chased into a ten thousand year old ice cave. A chill ran out from the bottom of their hearts and without any hesitation, they immediately turned around and leaped in different directions.

Tang Huan coldly snorted, his footsteps moving forward on the spot.

After a blink of an eye, Tang Huan and the middle-aged man had landed on the mound of dirt tens of meters away from them at almost the same time, and directly reached out to grab it.

Seeing Tang Huan's figure in the corner of his eyes, the middle-aged man was so scared that his soul almost left his body.

"Die!"

With a shout that sounded like a broken gong, the middle-aged man's face became distorted, as though he was a ferocious beast trapped in a desperate situation, he mustered all the Heaven's Essence in his body. The thick and long rod in his hand danced crazily, and immediately, a streak of blood colored light whizzed towards Tang Huan, as though it could even shatter space.

Tang Huan's face darkened, the five fingers of his right hand hooked directly onto the blood red light.

At this moment, all the energy in Tang Huan's body had been gathered in his right hand, and in an instant, his entire arm was suffused with an abnormally strong golden luster. In the blink of an eye, Tang Huan's hand claw and the middle-aged man's hand holding onto the long rod released a blood colored light and clashed fiercely.

An ear-piercing sound echoed in the air above the mound.

Tang Huan's five fingers, which were glowing with a golden light, grabbed and broke the blood red light in an instant. Then, they rushed in and grabbed onto the blood red long rod that was sweeping towards them.

"You ... Who exactly are you? "

The middle-aged man did his best to pull back the staff in his hand but it didn't budge. An indescribable fear gushed out of his heart and he couldn't help but roar out in horror. The hand holding the staff immediately loosened and his body explosively retreated at an unprecedented speed in an attempt to increase the distance between them.

To these low-leveled transformations, robbing those who had just passed their tribulation to ascend to the heavens was a shortcut to becoming rich. Most importantly, they would not be in any danger at all. The five of them had done this once before, and it was indeed a good harvest.

Now that they had discovered Tang Huan, who had just successfully passed his tribulation, they naturally could not restrain themselves.

But who would have thought that they would actually kick a metal board. The newly ascended Heaven Man who was originally just a lamb to be slaughtered actually had such terrifying strength, and with just his flesh body, he was able to completely destroy the five of them. But now, the other side still possessed tyrannical fighting strength, but their side had already lost three people in a row.

Perhaps, four would die soon!

The middle-aged man was filled with regret and despair. If he had known this would happen, he would have restrained the greed in his heart. Otherwise, why would he have met with such a fatal calamity?

"I'm the one who killed you!"

Tang Huan moved like a shadow, directly smashing the blood-red long rod he had just seized towards the middle-aged man.

The long rod swept through the air, dragging behind it numerous blood red afterimages. The incomparably tyrannical power of the flesh body was completely applied to the long rod, and the sound it produced seemed to be able to tear open one's eardrums. The power of this staff was even greater than when it was activated by Ye Xiao.

The middle-aged man roared with all his might as Tian Yuan quickly gathered in his palm.

In the next moment, his right palm swelled to almost double its original size, slapping towards the blood-red long rod with lightning speed. Wherever it passed, strong wind whistled.

"Bam!"

"Crack!"

The sound of bones breaking was mixed in the air.

The middle-aged man let out a shrill cry, and his body couldn't help but fly horizontally towards the marsh as if he was brought along by a terrifying great force. He discovered that his body was

already in the air above the quagmire, and that the middle-aged man's entire face had become pale and distorted, shaped like an evil spirit, but in an instant, his body seemed to have lost all of its vitality and started to fall straight down, while the Dantian on his abdomen instead produced a small ball of red shadow that scuttled out.

This was the Dao Nascent Soul of the middle-aged man!

"Whoosh!"

With a splash, the middle-aged man's body was swallowed up by the quagmire as expected, and the moment his Dao Soul appeared, he desperately shot off into the distance. In an instant, he was already tens of meters away. Tang Huan frowned, the blood red long rod in his hand was just about to be thrown out, when he realised that the red spirit was suddenly slowed down, and in that moment, a miserable scream came out, and the soul exploded into nothingness.

Tang Huan's eyes narrowed. He naturally understood what was going on.

After the true essence had evolved to the Heaven Origin Stage, the pressure from the "Celestial spiritual energy" had greatly diminished. However, the pressure did not disappear. Instead, it continued to exist. Having lost the protection of her flesh body, just relying on her nascent soul was fundamentally unable to withstand the assault and pressure.

In this situation, even if he abandoned his flesh body and used his Nascent Soul to escape, he wouldn't be able to hold on for long.

The fact that the middle-aged man's Nascent Soul broke under the pressure of the celestial spiritual energy was a testament to this. The reason why the red robed man and the others didn't separate from their Nascent Souls was because they knew that no matter how much they struggled, it would all be in vain.

"What a pity!"

Although the "Sun Immortal Body" was strong, it was still limited by the fact that he had just arrived in the Heaven Realm, so it was difficult for him to display his best fighting strength. If not, he could have completely captured the middle-aged man and searched through his memories.

Now, four of the five enemies had died, and the only one left was the grey-robed old man ...

Tang Huan looked over in the blink of an eye. In just a short span of time, the grey-robed elder's figure had already appeared on top of a hill several hundred meters away. With a flash, he did not appear again.

Travelling such a distance was but a flick of a finger for the old Tang Huan, but now he had to spend a bit of effort! In a blink of an eye, Tang Huan had already made her decision. She gave up on chasing after the gray-robed elder and picked a direction to escape in with her fastest speed.

In the blink of an eye, Tang Huan's figure also disappeared from the mound ...

Chapter 1352 - Transformation of Heaven Yuan

Tang Huan did not move further away. After a few thousand meters, he found a hidden crevice in the ground tens of metres tall and hid within it.

After encountering those five people, Tang Huan had realized that in his current condition, no matter where he went, as long as he met any cultivators, he would be robbed.

This time, Tang Huan's luck was pretty good, the five cultivators he met were all only at the Heavenly Transformation Stage. Furthermore, the number of crystals they condensed was probably not much, only about two or three.

However, this kind of luck could not be present every time.

In this strange place called "Shadow Swamp", he could encounter other cultivators at any time. The immortal spirit aura on his body was at least a hundred meters away, which seemed to be an obvious declaration of his identity as someone who could be robbed. If he was met by someone from the second or even the third transition, it would be a huge disaster.

Of course, in times of danger, he could choose to hide in the "Illusory Sword Heavenly Palace".

However, he could hide, and the Ten Thousand Swords Heavenly Diagram which was in the cave would not be able to hide, if the Ten Thousand Swords Heavenly Diagram fell into someone else's hands, Tang Huan would not be able to escape, and in the cave, his true essence would probably never be able to transform into Tian Yuan, because there was no Sky Spirit Qi.

The most important thing now was to transform his true essence. Only by doing so could he conceal his identity as a newly ascended Heavenly Man.

Ordinary people would not be robbed the moment they met other people, because they were all poor people and could not get anything.

Tang Huan sat cross legged, and very quickly calmed his mind.

Within the Dantian, the true essence within his body began to rapidly enter the Dao Nascent Soul as the "Nine Yang Divine Furnace" flowed. As the Dao Nascent Soul worked at a high speed, the true essence began to transform bit by bit. The one who came out at this moment was Tian Yuan.

There was a world of difference between true essence and Sky Essence. The degree of condensing of the two was on a completely different level.

The process of true essence turning into Tian Yuan was like a large bowl of water finally condensing into a tiny drop. Not only did it greatly change his body shape, it also changed his internal quality. As soon as the Heaven Origin Qi appeared, the remaining celestial spiritual energy started to enter it.

"This speed seems rather fast?"

Tang Huan thought quickly, and was a little surprised.

It would take at least half a month for his true essence to evolve into Tian Yuan, and at least a few months for it to slow down. It could be seen that this process was rather slow. According to the information that Tang Huan had gleaned from Pan Ji's soul, most people would need a few days before their first Elemental Meridian would successfully evolve.

But right now, Tang Huan had only spent a few breaths of time to do it.

However, the little surprise at the bottom of his heart had only lasted for a little while, and Tang Huan had already relaxed. It was precisely the existence of that Dao crystal that caused Tang Huan's existence, and the transformation of true essence into Heaven Essence, to occur at such a shocking speed.

"To be able to form a Dao Nascent Soul before ascending to heaven, it actually has such a miraculous effect!"

Suppressing the happiness that had just surfaced in his heart, Tang Huan continued to transform his energy, his mind was focused on no matter what, and without him realizing it, three days had already passed.

"Convert completely!"

In the morning, Tang Huan suddenly opened his eyes, a smile plastered on his face.

The primeval essence within his body had completely turned into Tianyuan. The immortal spiritual energy that was originally in his body had already been absorbed into the Tianyuan.

It was impossible for anyone to sense it anymore. Furthermore, with the continuous circulation of the Sky Origin Stage, the pressure generated by the "Celestial Yuan Spirit" in the surroundings had already affected Tang Huan's body even more weakly.

The newly ascended Heaven Realm man looked like an ordinary person as he stood amidst the spirit energy of the heavenly sky. He carried around forty to fifty kilograms of armor on him, making Tang Huan's condition slightly better, his forty to fifty kilograms of armor turning into fifteen kilograms of armor. Even though their weight had greatly decreased, they would still feel rather awkward.

Now that the True Essence had turned into Tian Yuan, the few kilograms of armor seemed to have been torn off, Tang Huan felt his entire body becoming relaxed.

Now, the boulder in Tang Huan's heart could finally land on the ground.

In these three days, the thing that Tang Huan was most worried about did not happen. He originally thought that the escaping gray-robed elder would draw others to take revenge on him, but from the start, Tang Huan had not sensed the existence of any other cultivators. Of course, this was also related to the huge drop in Tang Huan's Perception Ability. With his current ten meter radius of perception, even if a cultivator were to pass by, Tang Huan would not be able to detect anything.

Tang Huan sighed, he then walked out of the crack in the ground, but did not immediately leave the mound, instead sitting cross-legged on the ground. Although he now had Tian Yuan in his body, the amount of Tian Yuan was not even one tenth of what he used to have.

If he were to fight with his enemies, he would lose all of his Sky Origin Stage cultivation base in an instant.

Tang Huan needed to refine as much of the Immortal Qi as possible to allow himself to have as much Heaven Essence as possible. In a blink of an eye, the "Nine Yang Divine Furnace" and the "Dao Nascent Soul" within Tang Huan's Dantian once again began to circulate at high speeds.

The strong power of the sucking came out of the cauldron, and spread out in all directions with Tang Huan's body as the center.

The Immortal Qi of Heaven and Earth in the Heaven Realm was extremely berserk, it was completely incomparable to the Forging God Great World's natural energies. Celestial spiritual energy was like a fierce tiger, whereas natural spiritual energy was like a sheep.

Most new cultivators would absorb celestial spiritual energy very slowly and refine it very slowly as well. This was also the reason why it would take a lot of time to recover after the celestial spiritual energy in their body was used up.

Fortunately, Tang Huan had the "Nine Yang Divine Furnace" and the strength of his Nascent Soul, so he was definitely not an ordinary newcomer. He was not particularly worried about this problem.

No matter how slow he was, he was still much faster than the other new arrivals.

"Hu!"

Not long after, the berserk Celestial Qi started to be unable to withstand the powerful energy of the sucking, and slowly entered Tang Huan's body from all directions to gather at the "Nine Yang Divine Furnace". Following the activation of the furnace and the Dao Nascent Soul, it was continuously refined and merged into the Sky Origin Stage.

As time passed, more and more celestial spiritual energy was absorbed into his body by the sucking.

Tang Huan's Sky Origin Stage continued to grow, and unknowingly, it was already noon. Within his Nascent Soul Stage, the dao crystal was completely filled with energy. To the cultivators of the Heaven Realm, the Tian Yuan Qi was no longer spread between the Spiritual Meridians in their bodies, but was condensed within the Dao crystal. A Dao-crystal was equivalent to a space of power. As a result, the more Dao-crystals there were, the greater the amount of Tian Yuan would be, and the stronger one's power would be.

From this, it could be seen how powerful Pan Ji, who had over a hundred million dao crystals, used to be.

Chapter 1353 - Dao crystal change

After sensing it for a bit, Tang Huan frowned.

After filling a full Dao crystal, the amount of Heaven's Origin Stage was only a tenth of the original amount of true energy. In order to reach the same amount of primeval essence as before, one had to wait until at least ten dao crystals were condensed. However, this was normal. The seven transformations of Heaven was a process for the newly ascended Heaven Realm people to adapt to.

The Heaven's Transformation was also known as the "Dao Crystal Change". It had ten Dao Crystals and its power was equal to before. When one had eleven or more Dao Crystals, they would be able to fly more and more. Therefore, the second form of Heaven, was also known as the "Void Manipulation".

"One Dao crystal is too weak. Let's see if I can condense a second Dao crystal!"

Tang Huan thought for a while, then his eyebrows relaxed and he closed his eyes once again. Following the activation of the furnace and the Dao Nascent Soul, more and more immortal sky spirit energy was refined. What made Tang Huan quite happy was that it did not seem to be too difficult to condense the second dao crystal.

After about half a day, a small shadow appeared within the Dao Nascent Soul.

The Sky Origin Stage that was formed by the celestial spiritual energy continued to fuse with the shadow. Time flew by and the shadow became fainter and fainter. In the blink of an eye, it was noon of the next day.

"The second one!"

Tang Huan exhaled, and when he sensed the new, round and transparent crystal from the Dantian of the Dao's Nascent Soul, he couldn't help but let out a happy smile.

Early in the morning, the second Dao-crystal had already been formed.

However, Tang Huan did not stop his training, only until Tian Yuan filled the entire new space with energy, did he stop absorbing the spirit energy from the heavens around him.

"It's about time to leave."

Tang Huan thought for a bit and did not continue trying to condense the third Dao Crystal.

It was not that he did not want to, but it was just that Tang Huan had a faint premonition that if he did not have some fortuitous opportunity, and condensed the second crystal without precipitating, and only relied on the celestial spiritual energy to condense the third crystal, it would not succeed so easily. The amount of time he had spent on condensing the second crystal would be at least tens of times, or even a hundred times more. Rather than staying here for so long, he might as well go and see if he could walk out of the "Shadow Dark Marsh".

With a leap, Tang Huan chose the direction that the red robed man and the others had come from, and started moving forward.

Now that he possessed Sky Origin and two Dao Crystals, whether it was Tang Huan's jumping speed or distance from the mound, both had increased greatly. With Tang Huan's current strength, if he were to meet those five Heavenly Transformation Stage people again, he could definitely capture them all!

After a few hundred kilometers, the Shadow Dark Marsh was still boundless.

However, Tang Huan actually bumped into the second group of cultivators that he had encountered ever since he entered the Heaven Realm. There were a total of about ten people, be it male or female, old or young, with extremely fast speeds.

After discovering Tang Huan's existence, the group of people only took a glance at him and did not pay any further attention to him. After all, Tang Huan did not even have a single weapon in his hands.

However, Tang Huan could faintly hear the voices of a few cultivators amongst them.

"He's actually walking alone in the Shadow Dark Swamp. He sure is brave. I think he must have just ascended the heavenly tribulation."

"The more daring you are, the faster you will die. If he dares to go deep into the Dark Shadow Marsh, he probably won't even know how he died. Every year, who knows how many lives will be lost in this Dark Shadow Marsh, and we don't need him. "

"Don't worry about him. Let's hurry to the Lengsha River. The Bodhisattva Golden Cicada has been out of the river for several days already. It won't be long before the golden cicada is born. If we go too late, I'm afraid we won't even be able to get a hair on it."

"If I had a 'Golden Cicada', I think I would be able to step into the third form of Heaven Man!"

"..."

The group of people quickly disappeared into the sky on the right.

"Bodhisattva Golden Cicada Flower? "Golden Cicada?"

A look of doubt flashed across Tang Huan's eyes, and then he searched through Pan Ji's memories, but to no avail. This was not strange at all. Although Pan Ji was once a Heavenly King of the Upper Realm, he lived countless of years ago. It was impossible for him to know everything about the current Heaven Realm.

"The 'Golden Cicada' is able to raise one's cultivation. It ought to be a rather valuable treasure, at least to the heavens."

Thinking back to what that group of people had revealed, Tang Huan's mind moved, and immediately came to a decision. Since he did not know where he could get out of the Shadow Mud, it would be better for him to follow and take a look. There should be a large number of cultivators gathered there, so they might be able to get a lot of information.

Tang Huan immediately took action, and chased after the group of people.

Although they had not flown, and Tang Huan had not been able to inspect their situation, the feeling they gave Tang Huan was far stronger than the red robed men he had met before. According to Tang Huan's judgement, they were probably second or even third transition people.

Although Tang Huan was a heavenly person who had only condensed two Dao Crystals, not only was he not slower than them, he was even a little faster.

Not long after, Tang Huan could vaguely see their figures that leaped about as if they were flying.

However, Tang Huan did not increase his speed to catch up, but stayed far behind to keep up with their speed. Separated by such a great distance, and with Tang Huan constantly taking care to conceal his own figure, the group of people in front didn't notice that he was being followed at all.

After a long while, Tang Huan saw another group of cultivators, the number was small, only around ten.

Both sides seemed to recognize each other as they also headed towards the 'Cicada'. They greeted each other from afar before they proceeded forward together. After that, they encountered a few groups of cultivators that were formed by celestial cultivators. They all headed in the same direction and moved at their fastest speed.

Tang Huan no longer followed them sneakily but revealed himself instead, moving forward openly.

After discovering that he was alone, there were indeed quite a few people who shot surprised gazes at him. When the first group that was followed detected of Tang Huan's whereabouts, they revealed faint expressions of disdain and ridicule. However, regardless of their expressions, they did not interfere.

Everyone's attention was focused on the "Lengsha River", the "Bodhisattva Golden Cicada Flower" and the "Golden Cicada"; they simply didn't have the time to pay attention to the other cultivators. At the end, around Tang Huan, there were dozens of teams of cultivators, most of them had dozens of people, and some of them had even fewer.

After an unknown amount of time, a buzzing sound came from the front. It was the sound of a large number of cultivators converging into a sound wave.

"Luo Sha River is about to arrive!"

Cheers rang out from the surroundings. The Heaven Realm cultivators were all filled with joy and anxiety.

The deeper they went, the louder the noise became, and after about fifteen minutes, countless of figures gradually appeared in front of Tang Huan, and in front of them was a sea of people, the noise was loud and earth-shaking.

Chapter 1354 - Bodhisattva Golden Cicada Flower

A mountain range of several hundred meters tall stretched out from the distant horizon like a giant dragon crawling in a dark swamp. However, it was suddenly cut off several dozen kilometers in front of them. The wide river flowed out from the bottom of the mountain range and flowed into the river from the bottom of the mountain range.

The river flowed underground, and no one knew where it came from or where it flowed to. Only the several dozen li of land between the mountains was visible on the surface. On each side of the river, there was a wide beach. Black sand was spread all over the beach, and they were all brought out by the underground current and kept in this place.

The so-called "Liushi River" was named because of this.

The river was about ten miles long, with a golden color in the middle. Taking a closer look, there were countless golden leaves that were as big as disks floating on the surface of the river, and between the leaves, there were many golden fist-sized flower buds. Through the gap between the bud and the leaf, one could see the black water below.

The Lengsha River was not only as black as ink, it was also as black as ink.

After realising this, Tang Huan who had already arrived at the riverside couldn't help but click his tongue in surprise. However, his attention was quickly attracted by the leaves and flower buds on the river surface.

"Bodhisattva Golden Cicada Flower!"

As Tang Huan muttered this name in his heart, his eyes flashed.

Along the way, Tang Huan had already captured quite a bit of information from the discussions of the many cultivators by the river.

This "Bodhisattva Golden Cicada Flower" would appear every once in awhile, every eight or ten years in this part of the Sand River. It would bear fruit the moment it bloomed, and what it bore were ripe fruits. The fruit was known as the "Golden Cicada". Regardless of whether one plucked the fruit or not, the "Bodhisattva Golden Cicada Flower" would wilt within a few breaths of time.

Each Bodhisattva Golden Cicada Flower would have nine "golden cicadas".

For a Transcendent, one "golden cicada" could condense two Dao Crystals. For a Transcendent, one "golden cicada" could condense one Dao Crystal. For a Transcendent, two "golden cicadas" could condense one Dao Crystal. For those at the fourth form and above, the effect of "Golden Cicada" was quite ordinary.

It was precisely because of this that a majority of those gathered here were people under the fourth form.

Of course, they definitely did not come here to snatch the 'Golden Cicada' for their own use. They most likely wanted to sell it, or to help others steal it.

Tang Huan secretly estimated, there were at least thousands of flower buds in Lengsha River, able to produce tens of thousands of "golden cicadas". However, there were already tens of thousands of Heaven Realm cultivators gathering on both sides of Lengsha River, and there were even more groups gathering on the two sides of the beach.

This meant that once the "Bodhisattva Golden Cicada Flower" bloomed, an intense battle would erupt on the riverbank because of the "Cicada".

Now, the most suitable place to seize the "golden cicada" had already been occupied.

As for the others, they could only fight for it with all their might. At that time, who knew how many people would die here and how many monks would have porridge? In the end, a large number of heaven's cultivators would return empty-handed.

Tang Huan's mind raced, his mind racing. A good thing like the golden cicada, since he had encountered it, he definitely could not miss it.

On the way there, he had already secretly tested the two transformations of the Divine Powers "Yin and Yang Void Method" and "Void Escape" and "Heavenly Invisibility". For the two transformations to be performed in the lower realm, it would require a large amount of True Essence.

The elemental energy contained in the two Dao-Crystals temporarily couldn't support the amount of energy needed to use the divine ability.

Fortunately, although he was unable to use his sacred art, after his primeval essence was converted to Tianyuan, the "Nine Yang Divine Furnace" was able to use it. During the fight for the 'Golden Cicada', both sides of the River Lengsha would be thrown into chaos. At that time, he could take the opportunity to activate the 'Nine Yang Divine Furnace' and ingest some 'Golden Cicada'. The reason why he could rely on the "Nine Yang Divine Furnace" this time was because after transcending the heavenly tribulation, the "Nine Yang Divine Furnace" could not only expand, but also shrink greatly.

As long as they weren't too far ahead, no one would notice its existence.

While thinking, a smile surfaced on Tang Huan's face, and he quietly moved to the back of the crowd, after that he calmed his mind, and carefully distinguished the sounds around him, obtaining some useful information.

"Hmm?"

After a long while, Tang Huan's brows twitched, and his gaze suddenly turned to his left and front.

Just now, there seemed to be someone spying on him. However, he didn't notice anything strange wherever he looked. This was the result of the significant weakening of the Perception Ability! If it was in the lower realms, he would be able to lock on to the person even if they were spying on him from a thousand meters away.

Just as Tang Huan wanted to search the crowd once again, a clamor suddenly sounded out.

Several hundred meters away on the riverbank, there were actually people arguing.

Over there was a beach that stretched ten meters into the middle of the river. It could be said to be the most suitable place to seize the golden cicada on both sides of the river.

No one dared to enter the river, and if they were to fly, it would be difficult for even a Third Transformation Realm Heaven Realm warrior to last long. Only when the flowers bloomed would people rush into the sky to avoid wasting Sky Origin Stage cultivators.

Under these circumstances, the deeper one went into the river, the easier it was for them to seize the 'golden cicada'.

Previously, that small area was occupied by more than ten abnormally tall and sturdy men, all over three meters tall, but after a short period of clamor, the strong men all came out with their faces covered in dust, and were replaced by another group of cultivators, roughly twenty people.

The leader seemed to be a young man wearing a white robe, standing tall and straight, surrounded by the others like stars surrounding the moon.

However, the man was facing Tang Huan, so he could not see his face clearly.

The strength of the strong men before was not to be underestimated. However, they were now easily driven away. The white-cloaked man either possessed overwhelming strength, or his status was extraordinary. But it had nothing to do with Tang Huan, after a while, he retracted his gaze.

Before long, the hubbub in front started again, and it was the group of muscular men who had snatched another person's seat.

The lower realms respected the strong. In the upper realms, the same was true for those weaker than them. No matter where they went, they would inevitably suffer the fate of being oppressed. Tang Huan heaved a sigh of relief. Inside the Dantian, the "Nine Yang Divine Furnace" and the "Dao Nascent Soul" were circulating continuously.

The number of cultivators by the Lengsha River continued to increase.

The two mountain ranges that had been cut in two were completely enveloped in darkness. Only the "Bodhisattva Golden Cicada Flower" in the middle of the Shasha River was emitting a faint golden luster, illuminating the entire riverbank in a dream-like light.

Time flew by ...

Suddenly, the golden light of the middle section of the Lengsha River shone brightly. The river bank, which had become rather quiet due to the arrival of night, immediately erupted with noise. The crowd immediately became restless.

Chapter 1355 - Golden Cicada

"Get ready! "Get ready!" "The Bodhisattva Golden Cicada Flower is about to bloom!"

"Quick, quick, get to the front!"

"F * ck, who is pushing me? I'm tired of it!"

"Scram!" Get lost! "

" ... "

Shouts, urging, and cursing filled the air as the crowd on both sides of the river surged forward like a tide. Huge waves of voices surged through the night sky, and the sounds of fighting and killing began to resound in several places.

Tang Huan also followed behind the crowd and moved forward.

Just like many other heavenly beings, Tang Huan's face was also filled with excitement and excitement, but his mind was incomparably calm. As his two eyes stared forward, he was also paying close attention to the movements around him, so as to not be caught in the crossfire.

At this moment, through the gaps between the crowd, great changes could be clearly seen on the surface of the river in front of them. Whether it was the leaves floating on the surface of the water or the flower buds that were a foot tall, they all released a resplendent golden luster, and cracks could be seen on the surface of the flower bud.

All of this indicated that the "Bodhisattva Golden Cicada Flower" was in the process of opening!

Everyone stared at the river with burning eyes. Not only were there excitement and anxiety in their eyes, there was also greed and desire. The atmosphere along the river bank instantly became tense and restless.

With the exception of a few cultivators who were fighting, the rest were all waiting to take action.

Time passed bit by bit.

At this moment, every breath of time felt like an eternity to him. The cracks on the surface of the flower bud also began to grow larger and larger under the gaze of countless pairs of eyes. In the blink of an eye, it was as if thousands of years had passed, and the petals which had been slowly opening, suddenly and completely opened.

Within each fully bloomed "Bodhisattva Golden Cicada Flower", there were nine thumb-sized fruits. The golden light was brilliant, extremely eye-catching, and an intoxicating fragrance. In an instant, it swept across Liu Sha He's two banks, causing all of the cultivators' blood to boil.

Nine Flowers in One! Golden Cicada!

"It opened! "It opened!"

"Snatch!"

"Attack!"

"..."

Hurried shouts suddenly erupted, and one figure after another charged into the sky. After reaching the sky above Lengsha River, they swooped down, catching the golden cicada. At the same time, rope-like objects shot out from the riverbank. They were also fruits that were swept up by Tian Yuan and thrown onto the riverbank.

"Haha, we have the golden cicada in our hands!"

Above the river, a Black Costume Old Man was so excited that his entire face was twisted. After grabbing the nine "golden cicadas", he did not have the slightest interest in them and immediately retreated. The direction he retreated in was not towards the sand on the two sides of the river, but towards the air, following the river.

"Leave the 'Golden Cicada' for this old man!"

"It won't be that easy to take away the 'Golden Cicada'!"

However, when Black Costume Old Man had only moved a few dozen meters, a loud shout came from the left and right, and two figures actually rushed over like lightning from the sides.

There was almost no room for compromise as the three of them immediately began to fight to the death.

... ..

"Scram, these nine 'Golden Cicada' are mine!"

"Damn it, it was clearly this old man who planned to pick it first."

The two cultivators swooped down to catch the same "Bodhisattva Golden Cicada Flower". However, the moment they touched the fruit, both of them discovered the existence of the other. They immediately shouted out in anger and anger, and pounced towards each other. They were vicious and didn't hold back in their attacks at all.

"A good chance!"

Not too far away, a young man's eyes flashed with surprise, shooting towards the nine golden cicadas, "Haha, now the golden cicadas are mine!"

"Swish!"

However, just as the young man was about to seize the "Golden Cicada", an ear-piercing sound suddenly sounded out as a long saber cleaved down from the sky.

"Huh?"

Under these circumstances, the young man had no time to dodge. He could only let out a cry and gather all the Sky Origin Stage qi in his body onto his back. But it was useless, although the wall made of Sky Origin Stage Qi blocked the blade, the Strength Qi that was unleashed by the long blade directly threw it into the river.

Before he could even scream, his body had been completely melted by the pitch-black river water.

"With such little strength, he dares compete for the golden cicada. He's courting death!"

His gaze looked towards the Bodhisattva Golden Cicada flower on the river surface, but after an instant, his copper bell-like eyes became round, as if he wanted to jump out of his eye sockets, and his eyes were filled with disbelief.

The Bodhisattva Golden Cicada Flower was empty, the nine "golden cicadas" had already disappeared.

"Which blind bastard stole my fruit?" The robust man emitted a heaven-shaking roar as his two furious gazes swept towards his surroundings ...

... ..

"If you want the golden cicada, then hand over your life!"

On the left bank of Lengsha River, a man in cyan with a cold expression spoke with a cold tone. He waved the sword in his hand rapidly as a cold sword light lingered around his body.

The light robed man stepped forward and the sword lights that filled the sky rolled like snowballs.

Cries of pain rang out one after the other. Wherever the sword light passed by, it swept past everything. With only a blink, the azure-clothed man rushed out of the crowd and left behind several corpses.

... ..

Similar scenes were constantly playing out.

On both sides of the beach, Strength Qi s erupted from Tian Yuan as they rampaged across, leaving many cultivators in the sky above the Sha River to fall into the river, not sparking any ripples at all. Miserable screams, shouts and curses, the sound of colliding weapons, the rumbling of Strength Qi ... All sorts of notes echoed in the air.

Almost every second was filled with life.

He had painstakingly cultivated in the lower realms for many years, finally transcending heavenly tribulation and successfully entering the upper realms. At this time, he had fallen because of the struggle over the several fruits.

Compared to the lower realms, the cruelty of the Heaven Realm was even worse.

Looking at this tragic scene, Tang Huan couldn't help but feel a chill in his heart. In such an environment like the Heaven Realm, even Heaven Man was just like an ant, too insignificant.

Taking a deep breath, Tang Huan calmed himself down and moved dozens of meters horizontally, avoiding the few people fighting on the side.

Amidst the extreme chaos, Tang Huan controlled the "Nine Yang Divine Furnace" from afar and swept across the river like lightning nine times. After he stored the "Bodhisattva Golden Cicada Flower" fruit into the cauldron, he did not make a move. At this time, most of the "golden cicadas" already had an owner, and the rest were also focused on. They no longer had the chance to fish in troubled waters.

"Hu!"

The cauldron turned into a ball of red light, quickly travelling through the crowd and rushing towards Tang Huan.

At this time, the "Nine Yang Divine Furnace" was only the size of a bowl and had shrunk to its limit. However, the power of the sucking that erupted from the cauldron did not decrease in the slightest. This kind of size greatly facilitated its movements; otherwise, it would definitely become the focus of attention the moment it appeared.

Chapter 1356 - Crimson Sky Kingdom, Flowing Flower Region

When they were on the surface of the river, although there were people who noticed the cauldron, they all thought it was a cultivator's weapon.

Furthermore, every time Tang Huan controlled the cauldron to snatch the "golden cicada", he had done it in an extremely secretive manner, and the timing of his actions was perfect. In addition, with

everyone being restricted by the Perception Ability, it was impossible for anyone to discover its abnormality, thus, no one had been able to discover that it was fishing in troubled waters.

But to be safe, when the "Nine Yang Divine Furnace" returned to him, Tang Huan did not directly take it back.

"Even though it's not the largest number of 'golden cicadas', but it still surpasses the vast majority of the people."

Tang Huan was satisfied with his harvest this time.

However, Tang Huan did not immediately leave. Instead, he looked around, as if he was prepared to snatch the "golden cicada" at any time. At this moment, anyone who left would think that they had successfully become the "golden cicada", and would thus become the target of many cultivators.

Tang Huan had personally witnessed several people dying innocently because of this. What he did not see, was naturally even more.

Not long after, the leaves of the Bodhisattva Golden Cicada that were proudly blooming began to wither at a speed visible to the naked eye. The golden luster that had illuminated the sandy beach on both sides of the river began to fade, and very soon, the world turned dark.

On both sides of the river, shadows could be seen as the weapons in the hands of numerous Empyrean Gods began to glow.

The fight for the 'golden cicada' did not stop because of the withering of the 'Bodhisattva Golden Cicada Flower'. On the contrary, it only intensified. Within a circumference of several thousand meters, hundreds of battles were taking place, involving two to three thousand people, and there were even more cultivators who were waiting for an opportunity to take part.

Of course, there were even more cultivators that took advantage of the night and scattered.

Tang Huan was among them.

After arriving at the beach, Tang Huan had already understood a lot from the discussions of the cultivators.

The Heaven Realm had nine days, the middle eighteen days, and the lower thirty-six days. And the place he was currently at was the "Crimson Sky", one of the lower thirty-six days. Each of these Heaven Realms was vast and boundless. After the Void Transformation Stage cultivators successfully ascended to heaven, they would enter the next 36 days.

This Crimson Sky meant that after Shan Shan and the others passed through the tribulation, they would also enter the Crimson Sky Kingdom.

For example, the Forging God Great World had thirty-six prefectures, and each Heaven Realm was also divided into many different realms.

For example, in this Crimson Ways Heaven, there were hundreds of realms. What Tang Huan was at was the "Flowing Flower Domain" in the northern part of the Crimson Ways. From the northernmost "Flowing Flower Domain" realm to the southernmost "Chenguang Region" realm, if one were to rely solely on his feet, it would be impossible for him to complete this journey in his entire life.

Just the "Flowing Flower Domain" alone was countless times larger than the Forging God Great World. From this, it could be seen just how vast the Crimson Light Heaven was.

And in the lower thirty-six days, in terms of area, the Crimson Sky Kingdom was only in the middle grade.

As for the "Shadow Dark Marsh" that Tang Huan was currently staying in, it was located in the northwest direction of the "Flowing Flower Domain". This "Shadow Dark Swamp" was probably the size of a Forging God Great World. If only they could travel at the speed of the lower realm, all the people here would be able to traverse the entire Shadow Dark Swamp in a very short amount of time.

But now, without dozens of days, it was impossible.

On the east side of the Dark Mirage, there was a city called Gloomy Cloud City. It was located at the end of the lower half of this mountain range. It would only take ten days or so for them to reach there.

Tang Huan planned to go to You Yun City first. Relatively speaking, the inside of the city was much safer than the outside world.

Once he reached that place and completely refined all of the eighty-one "golden cicadas", his cultivation would definitely greatly increase. Only with an even more powerful strength would he be able to compare to the others.

But, after walking for a dozen metres, Tang Huan suddenly felt like he was being watched.

Looking back, he only saw a shadow flash past. It was either a fight or a fight, or he was ready to move out and watch, or he was ready to leave. As for everything else, he gained nothing.

Could it be that the matter of him seizing the 'Golden Cicada' had been discovered?

Tang Huan frowned, there must be a reason for everything that happened! The first time he had been spied on could be considered a coincidence, but the second time he had been spied on was not something that could be explained by the word 'accidentally'.

There must be someone watching him from the shadows on the banks of the Shansa River.

Although they had not found the man yet, they still had to leave. This place was even more dangerous. If that person had any other intentions, he would definitely catch up!

In a second, Tang Huan started to move calmly.

At this time, the amount of cultivators leaving increased more and more, and those who coveted the "golden cicada" was no longer able to keep an eye on everyone who was leaving. Cultivators like Tang Huan, who had never made a move, paid less and less attention to them. Very quickly, Tang Huan left the group of people, and gradually increased his speed as he followed along the Sha River.

There were many cultivators who chose the same direction to leave in and prepared to return to Nether Cloud City.

In Tang Huan's front, back, left, and right, there were shadows speeding along.

Not long after, Tang Huan arrived at the foot of the mountain and suddenly discovered that there were more than twenty figures lined up horizontally in front of the forest.

After arriving in the Heaven Realm, although the Perception Ability had weakened, the ability to see in the dark was still normal.

At this moment, Tang Huan could already see the man in white's face. He was very young, with delicate features, but the arrogance on his face could be clearly seen even from twenty to thirty meters away. Previously, his group had occupied the best positions on the riverbank.

Tang Huan frowned, he had a premonition that these people were here for him.

Almost as soon as this thought appeared in his mind, an angry shout came from the crowd across from him, "Young Master, it's him!"

"Hmm?"

Tang Huan's face turned gloomy, following the voice, he saw a somewhat familiar figure.

Four of them were thrown into the quagmire by him and were completely engulfed. Only one gray-robed old man successfully escaped, and in the group facing him, the person who just spoke was precisely the grey-robed old man.

Just now, Tang Huan's attention was completely focused on the white clothed man, and actually did not notice his existence.

"I was wondering who it was. So it was you. You escaped rather quickly last time." In another moment, Tang Huan was already smiling. His tone was filled with ridicule, but in his heart, a trace of understanding quietly rose.

Now, he finally understood why he felt like he was being spied on twice.

It was obvious that the gray-robed elder had been by the Sands River the entire time, and had also discovered his presence. Afterwards, he had been secretly observing the elder's movements. After all, other than this former enemy, the other cultivators wouldn't even bother to pay attention to such a small and insignificant Transcendent cultivator like him.

Chapter 1357 - Borrowing a Blade to Kill

"You, you ..."

The gray-robed elder was slightly angry from embarrassment.

He, a man who had already condensed a few Dao Crystals, was frightened by a man who had just ascended to the heavens. He fled in panic. He was truly ashamed.

"Your courage isn't bad."

"However, in front of me, no matter how brave you are, it's useless. Hand over all of your 'Golden Cicada' and you can scam."

Upon hearing this, Tang Huan could not help but laugh: "Friend, do you think that I, who had just completed my tribulation a few days ago, would be able to snatch the 'Golden Cicada'?"

"A newly promoted Tian?"

The man in white was slightly surprised as he coldly looked at the old man in grey beside him.

The gray-robed elder retracted his neck, then barked sternly, "Young master, don't listen to this person's nonsense. I personally saw him control a Dao artifact and have collected a few of the 'golden cicadas' of the 'Bodhisattva Golden Cicada Flowers'."

"Dao item?"

Hearing these two runes, the eyes of everyone, including the white clothed man, lit up, and their eyes burned with passion as they looked at Tang Huan.

"This is getting more and more interesting."

Tang Huan laughed, "Everyone, do you think that a newly ascended man from the lower realms will be able to obtain a Dao Artifact?"

Seeing the doubtful look on the white clothed man's face, Tang Huan smiled again, "Everyone, I have just ascended to heaven through the heavenly tribulation. Then, I met this person and his four companions, who took away all the things on my body. As a result, they themselves were unevenly distributed, causing internal strife and fighting each other. "

"He joined forces with another person, and after the other three were killed, the two of them became enemies. Unfortunately, he was not that person's opponent. Not only did he not get a single item, he even got heavily injured. Fortunately, his escaping technique was not bad and he successfully escaped from that person's hands. "

"It must be because I said a few words of fairness when they were distributing the items, that this person hated me to the bones. But he has not fully recovered from his injuries, and I have already converted my true essence to Tian Yuan. When he made his move, he did not have any confidence, which was why I was able to obtain a large number of 'Golden Cicada' with my Dao Artifacts.

"Old man, you sure can borrow a knife to kill people!"

Tang Huan's words slowly came out, but they made the faces of everyone around change.

After so many days, there were very few people who had a Dao Artifact. Wasn't it a joke if a newcomer from the lower realms actually had a Dao Artifact? That guy was clearly lying.

Raiding a newly ascended man was a normal thing, but none of the newly ascended men were willing to hand over their belongings. It was only because they were weaker than the others that they could not help but swallow their anger. However, this newly ascended Tian Man had opened up a different path and used a few "fair words" to provoke the other party's internal strife.

As a result, three of them died, and one was heavily injured. Although this newly ascended Heavenly man had lost something, it could still be considered as taking revenge with one arrow.

The injured person was naturally extremely unwilling, and thus this scene occurred.

Tang Huan's words were flawless, causing many people to look at the grey robed elder with unfriendly eyes. The white clothed man's eyes were even colder than ice.

"You ... You're slandering us! "

The grey-robed old man's entire body was trembling, not only because of his extreme anger, but because of the change in the man's expression. After cursing, he hurriedly started to explain, "Young Master, don't listen to this person's nonsense, we don't have any internal conflicts, my four companions were all killed by him."

"Hehe ..."

Tang Huan didn't say anymore, and only replied with a cold laugh.

The man in white's eyes were even colder, and the old man in grey was even more terrified: "Young master, you don't know how powerful this newly ascended Heavenly man is, to be able to knock down one of my most powerful companions with one punch, he ..."

"Enough!"

Before the gray-robed old man could finish speaking, the white-clothed man nearly squeezed out the word from between his teeth. His voice was like a wisp of yin wind from hell, causing one to shudder in fear, "Your strongest companion couldn't even withstand a punch from this newly ascended Heavenly man, and you actually managed to escape. What a miracle!"

The gray-robed elder was stunned and his voice suddenly stopped.

He suddenly realized that although what he said was true, this was clearly outside of what other people knew, so the more he explained, the more false it seemed.

"I don't want to see him again. Send him on his way!" The man in white waved his hand in disgust.

"Yes, young master!"

Two figures walked forward and grabbed the old man's arms, one on the left and one on the right, and dragged him away.

The gray-robed elder seemed to have awoken from a dream and did not dare to resist at all. He only screamed in fear and despair, "It's true! Gongzi, everything I said was true, you ... Ah... Lu Changqing, you idiot, you will definitely regret it, you will definitely ... "Ah ..."

Before he could finish his words, a blood-curdling scream rang out from the foot of the mountain, as if a bloody mist was rising into the night sky.

The grey-robed old man had clearly been killed!

The man in white called Lu Changqing's expression was still as dark as ever. He was almost deceived by a man who changed the heavens, becoming a tool for him to borrow a knife to kill people. It obviously made him extremely angry.

"Thank you, young master, for your insight and for getting rid of this treacherous and cunning person."

Tang Huan cupped his hands and said seriously.

Lu Changqing stared at Tang Huan coldly, the coldness in his eyes did not lessen at all. After a moment, he said in a deep voice, "I do not want to see this person anymore!"

"Yes, young master!"

After Lu Changqing said this, he turned and floated away, the rest of the people quickly followed along, leaving behind two middle-aged men who had a sinister smile on their faces as they shot towards Tang Huan.

"Brothers, why did you kill me?" Tang Huan retreated diagonally to the side, looking anxious.

"Brat, aren't you smart enough to incite the people who stole your things to fight amongst themselves? Why have you become so stupid now?" A middle-aged man dressed in black jokingly said.

"The reason is simple!"

The other middle-aged man was also full of mockery, "Young Master doesn't like you, so you have to die!" With that, he raised the golden sword in his hand.

"So that's how it is?"

The anger in Tang Huan's heart churned, and he immediately rushed towards the two middle aged men who were only a few metres away and waved his hands, "Wait, wait, two big brothers, hold on. I have something to say before I die."

"Fine, I'll let you say one more word so that you won't die with regrets!"

The two of them looked at each other, and then the middle-aged man in black chuckled. The ridicule in his eyes became even stronger, as if he was looking at a mouse that was struggling to its death under the claws of a cat.

Tang Huan took a deep breath, and looked as if he had been brewing for a long time. The worry on his face finally disappeared, and what replaced it was a strange smile, and he said in a low voice, "Brothers, what I want to say is, the guy you killed just now, was all true. Your young master is indeed a big idiot!"

"What?"

The two middle aged men were stunned, just as they were stunned, Tang Huan used his fastest speed to rush towards the nearby forest.

Chapter 1358 - The Second Transformation

"Bastard!"

"You're courting death!"

After a blink of an eye, the two middle aged men had already regained their senses and shouted angrily. However, they suddenly realized that after being absent-minded for just a moment, Tang Huan had already moved as fast as lightning dozens of metres away, and his figure submerged into the pitch black mountain forest. The two of them were anxious and furious as they chased after him.

A few hundred meters away, Lu Changqing and the rest who were walking along the foot of the mountain sensed the commotion behind them, they suddenly stopped in their tracks and turned around, just in time to see the two middle-aged men chasing Tang Huan as they rushed into the forest.

The two people that stayed behind were two people that had condensed more than ten Dao Crystals, but they actually let a newly ascended man, who had just converted his primeval essence into Heaven Origin Stage, escape?

"Chase!" The corner of Lu Changqing's mouth twitched, his expression was dark and uncertain. He waved his hand and bellowed while gritting his teeth, "If you want to see life, if you want to see death, if you want to see corpses!"

"Yes, young master!"

There were only a few people left beside Lu Changqing, the rest of the dozen or so men all started moving, rushing towards that direction, after a while, they also went into the forest

This mountain range, which had been cut off by the Shansa River for dozens of miles, was called Shadow Mountain Range. It was located at the edge of the Shadow Dark Swamp.

"Although the mountain range is not very tall, it is extremely vast and the widest part of it is several thousand li wide. The mountain is covered in lush vegetation, and it is said that there are many extremely vicious Heavenly Beasts known as "Blood Phantom Wolves "growing inside." Although the Blood Shadow Wolf was only a Heaven Realm beast of the lowest level, its flesh body was extremely strong. A normal "Blood Shadow Wolf" could completely contend with a Three Transformations Heaven man, and the strongest could even contend with a cultivator of the Seven Transformations Heaven Realm.

To the current Tang Huan, the Shadow Mountain Range was indeed a rather dangerous place.

However, Tang Huan couldn't care so much for now. Right now, the most important thing was to get rid of Lu Changqing's lackeys. He had purposely stalled for time just now, and only when Lu Changqing and the rest were almost at the same distance from the two middle-aged men did he suddenly take action, with a very good effect.

Whoosh.

In the dark forest, Tang Huan's body moved like a stream of light, rapidly jumping up and down.

At this moment, he had already activated both the "Nine Yang Divine Furnace" and the "Dao Nascent Soul" to their limits, and within his body, heavenly essence was boiling. When combined with the tyrannical power of his flesh body, Tang Huan's speed became rather astonishing. Not only did the speed of the two middle-aged men behind him not decrease, it actually increased.

Tang Huan did not hold back at all, as long as he left the line of sight of the people behind, he could easily shake them off.

The large decrease in the Perception Ability was actually beneficial to Tang Huan. If they couldn't detect his condition, it meant that they could only rely on their own eyes. In such a dark night, it was impossible to find him without being able to see him at all.

Tang Huan's speed was extremely fast and had already grown to a Perception Ability of about fifteen meters in radius. He was like a fish in water, and wherever he went, he practically did not leave any obvious traces in the forest.

Not long later, the two middle-aged men behind him disappeared.

Tang Huan continued to walk left and right in the forest, and after a long time, he finally arrived at an extremely hidden tree hole. Tang Huan breathed a sigh of relief as he camouflaged himself at the cave entrance. He no longer had the Immortal Spirit Insight that he had left in his body when he went through the tribulation.

Even if those people were to pass by, they would not be able to detect his existence.

After about half an hour, Tang Huan heard extremely soft footsteps, and a total of four people appeared in the vicinity at almost the same time. Obviously, after Lu Changqing discovered that he had escaped, he sent even more cultivators to chase him down and kill him.

The four did not stop and quickly continued their search.

Tang Huan sat cross-legged quietly. He was not in a hurry to refine the "Golden Cicada", as he did not want to attract those people again by dragging the surrounding immortal energy. Time quietly flowed by. Unknowingly, there were already a couple of faint rays of light seeping into the tree hole. It was obvious that it was already daybreak outside.

Tang Huan crawled out of the tree hole, avoiding the path that the people had left behind last night, and continued deeper into the mountain range.

had no choice but to change his plans as he had unexpectedly formed an enmity with Lu Changqing. Originally, he had planned to go to Quiet Cloud City. But now ... it seemed he would have to stay in the Shadow Mountain Range for a while longer. Although he did not know Lu Changqing's specific cultivation level, but he should be the strongest person he had seen in the past few days, a celestial being.

After approximately half a day, Tang Huan finally stopped at a dry ravine in the mountains. Luckily, along the way, they did not encounter any of Lu Changqing's henchmen, nor did they encounter any of the Shadow Blood Wolves.

"I don't want to be the one to borrow a blade to kill someone, but in the end, it's still my blade!"

Thinking about Lu Changqing, the killing intent in Tang Huan's heart surged, but it was instantly suppressed. After that, he sneered and sat down cross-legged.

At this time, within the cauldron lay the eighty-one fruits. Each fruit was the size of a thumb and glittered brightly like a golden cicada. This was the origin of the name 'Golden Cicada'.

Every "golden cicada" contained an extremely gentle and pure power.

Tang Huan calmed his mind and focused, choosing a random "Golden Cicada" to refine. Not long after, strands of power flowed out of the fruit and into the Dao Nascent Soul. Surrounding Tang Huan, the Immortal Sky Spirit Qi swirled around slowly. Although he had not absorbed it intentionally, but following the operation of the cauldron, the Immortal Sky Spirit Qi was unavoidably drawn and circulated around the surface of his body. Of course, such a movement would definitely not be too big.

The refining speed of this "Golden Cicada" was rather slow, but the effect was still better than directly absorbing and refining the spiritual energy of the heavens.

Three days of time quietly passed by. In Tang Huan's cauldron, the "Golden Cicada" had already been completely refined, and within the body of the Dao Nascent Soul, there were two additional dao crystals. Tang Huan did not hesitate at all and immediately picked a second "Golden Cicada" to refine, then a third, then a fourth ...

Along with the increase in the number of dao crystals, the refining speed of Tang Huan's "Golden Cicada" became faster and faster.

The first one took three days. The second one took two and a half days. The third one took two days. By the fourth time, it only took a little more than a day. After contacting four "golden cicadas", the number of crystals within Tang Huan's Dantian Soul had increased explosively, from two to ten.

The content of the ten Dao Crystals was almost at the level it was before the ascension of the heavens.

As the Dao Nascent Souls continued to circulate, the ten Dao-Crystals began to tremble violently. Not only did they resonate with each other, they even seemed to form tiny connections with each other. This also caused the nascent soul to experience an unfathomable change. And it was this change that greatly increased the power required to condense a dao crystal. After a day, Tang Huan had completely refined the fifth "Golden Cicada", and only then, a new Dao crystal appeared in his body.

However, with eleven dao crystals, it also meant that Tang Huan had reached the second stage of Heaven's Transformation.

What was rather strange was that this newly condensed dao crystal's inner strength space was actually slightly larger than the first ten. Moreover, the moment it appeared, the other ten dao crystals also began to rapidly expand amidst the violent tremors.

Chapter 1359 - Shadow Blood Wolf

It was normal for such a change to occur.

As one's cultivation level continued to rise, the amount of Dao-Crystals in a Nascent Soul would only grow stronger and stronger. One of his Dao Crystals could not be compared with Tang Huan's current Dao Crystal. The difference between the two could be said to be like the sky and the earth.

Correspondingly, the stronger one's cultivation, the more power was needed to form a Dao Nascent Soul.

Regarding this, Tang Huan already had a deep understanding of it.

Fortunately, Tang Huan had plundered enough "golden cicadas" from the Lengsha River, and the remaining seventy or so "golden cicadas" were enough for him to cultivate for a few days.

Following that, Tang Huan never left the cave.

Inside the cauldron, the number of "golden cicadas" had decreased one by one, while the number of dao crystals within the body of the Dantian's Dao Nascent Soul had increased one by one. It was extremely addictive, just like how a drug addict would be in his previous life, unable to stop at all.

Tang Huan was not distracted at all and did not notice the passing of time.

After an unknown amount of time, the number of dao crystals in Tang Huan's Dantian's Nascent Soul had increased to twenty, and within the "Nine Yang Divine Furnace", there were two more "golden cicadas" that were being simultaneously refined by Tang Huan.

"Twenty-one Dao Crystals!"

In the early morning, Tang Huan's face revealed a smile, "Right now, it is the Three Transformations of Heaven!"

The Three Transformations of Heaven Man was known as the "Spirit Soul Transformation". During this process, the strength of the Heaven's Person's flesh body could be greatly increased. However, it shouldn't be that obvious to Tang Huan since his "Celestial Body of the Sun" was already very strong. For the time being, it wouldn't increase by much.

What was strong was the soul of a man. To Tang Huan, the effect of the four transformations was not too far off from the three transformations. The strength of Tang Huan's soul now, was something even the seven transformations of Heaven, Earth, and Man could not compare to. Ten Dao Crystals would not be able to bring about much improvement.

The only things that would cause Tang Huan's power to increase greatly would be the following five transformations, the "Divine Abilities Transformation", the "Six transformations", the "Innate Heart" and the "Seven transformations", the "Heaven's Might Transformation".

Of course, to Tang Huan, the last three changes were still a little far away.

After thinking about it for a while, Tang Huan calmed himself down and wrapped himself with the two "Golden Cicada". However, just as he was about to continue refining, a hissing sound suddenly sounded out between heaven and earth.

"Aoouuu ~ ~ ~"

This was a wolf's howl!

In the Shadow Mountain Range, only the Heavenly Beast, the Blood Shadow Wolf, could make such a sound.

Tang Huan's mind raced with his thoughts, and could not help but exit the inside the cave in a flash. Lying in the crevice of the rocks, he looked around, only to see that in the downstream of the dried up gorge, there was a giant blood red wolf galloping forward with a body that was at least three metres tall, four thick and strong limbs, and a mouth that opened wide that was filled with fierce teeth. From time to time, it licked the scarlet lips of its long tongue, which seemed to be dripping with saliva.

Although the wolf was large in size, its speed was extremely fast. It landed on all fours without a sound, as though it was a ghost.

The man was tall and had a simple and honest face, while the woman was petite and petite. She wore a green skirt, but whether it was a man or a woman, both of their faces were filled with unconcealable panic and anxiety.

"The Blood Wolf Shadow is indeed formidable!"

At the crack in the stone, Tang Huan was startled.

The speed of this "Blood Shadow Wolf" was much faster than when he had first entered the Shadow Mountain Range. If Tang Huan had encountered this kind of Heavenly Beast at that time, it would have been difficult for him to get rid of it. In the end, he could only use the "Primal Chaos Dao Flame" to scare it.

As for the head-on attack, Tang Huan, who only had two Dao Crystals, had zero speed in defeating the Shadow Blood Wolf.

However, Tang Huan now had 21 Dao Crystals. Seeing the Blood Shadow Wolf that was charging towards him, not only did he not feel any fear, he was even excited to give it a try.

If not for the Shadow Blood Wolf chasing the two cultivators, Tang Huan would have already rushed out to check on the results of his training. If that man and woman kept on running, it would be hard for them to escape from death. However, Tang Huan did not plan to rush out to rescue them.

This was not because Tang Huan was cold-blooded and emotionless, but for his own safety.

He did not know where those two came from and what their temperament was. If he took the initiative and made a move, if Lu Changqing were to find out about his whereabouts, it would definitely bring about a lot of trouble. Even though he wasn't afraid, he didn't want to abandon such a good training ground because of this.

"Ao — —" The Quiet Shadow Blood Wolf moved as fast as lightning. In the time it took to take a few breaths, the distance between it and the man and woman was reduced to ten meters.

"Yu Tong, you go first. I'll stop it!"

The tall man suddenly roared, he suddenly turned around and leaped up, waving the gigantic sword in his hand to slash at the Shadow Blood Wolf, atop the sword blade, a green light rippled out, the ear-piercing sound resonated outwards, the extremely powerful Strength Qi was like a waterfall of clouds, howling down along the sword force.

"Aooo!"

The Quiet Shadow Blood Wolf's eyes seemed to be filled with anger, but at the same time, it also seemed to be extremely disdainful. Its two giant blood-red claws actually swung out at a lightning fast speed.

In the next moment, the Blood Shadow Wolf's right claw slammed into the tall man's greatsword. After a "peng" sound, the greatsword flew out of his hand and flew dozens of meters into the ground. Almost at the same moment, the enormous claw of the Blood Shadow Wolf struck against the chest of the muscular man.

"En!"

Although at the last moment, he condensed the Tian Yuan Qi in his body into his chest, the tall man was still unable to avoid the fate of being sent flying. With a muffled groan, his body was sent flying like a cloud, heavily smashing against the edge of a ravine twenty meters away.

"Tie Kuo!" The green dressed woman cried out in alarm before she pounced towards the tall man.

"Let's go!" Run! Otherwise, both of us will die ... "

His face was red from the swelling, and before he had finished speaking, blood had already gushed out of his mouth, his body on the verge of collapse. Although he was supported by the green skirted woman, he was even more worried, "Yu Tong, you ..."

"Tie Kuo, you don't need to say anymore."

Before Tie Kuo could finish, he was interrupted by the green dressed woman. The panic on her face had disappeared, and what replaced it was a calm face facing death, and she smiled sweetly. "You and I are one. "Since we cannot escape, then let us die here today."

"Yu Tong, you've agreed to marry me?"

Tie Kuo was stunned for a moment before hugging He Yu Tong tightly as he burst out laughing with incomparable excitement.

On the opposite side, ten meters away, the Blood Shadow Wolf that was about to pounce froze in shock. After staring blankly for a while, its eyes showed a hint of rage and mania that was ignored.

"Aoooo ~ ~ ~"

In the midst of its deafening roar, the Blood Shadow Wolf's forelimbs had already bent down, and it opened its bloody mouth wide. Then, it abruptly charged forward, pouncing towards the two of them.

Chapter 1360 - Benefactor, please wait!

Tie Kuo and He Yu Tong closed their eyes subconsciously. They both knew that in the next moment, the two of them would be buried in a wolf's belly, so they didn't struggle for nothing. However, they hugged each other even more tightly, as if they wanted to completely bury the two of them into their own bodies.

However, the feeling of the wolf's mouth being torn apart did not appear. Instead, the Shadow Blood Wolf's painful howls could be heard.

Tie Kuo and He Yu Tong opened their eyes in disbelief, and then looked over at the same time, only to see that the Blood Shadow Wolf had already retreated several tens of meters away. About twenty meters away from them, a black figure had already appeared, its slender body standing upright like a spear, the long blade in its hand slanted forward, its broad body blossoming with an incomparably bright and dazzling fiery red luster, making it hard to look at.

The one who had blocked the Blood Shadow Wolf was naturally Tang Huan.

Even under the Shadow Blood Wolf's threat, this pair of man and woman were still able to stay together. Their life and death were indeed worthy of admiration and respect. To be able to do this, Tang Huan's character would not be too bad. Under circumstances where he would not be in too much danger, Tang Huan did not mind helping them.

Thus, at the same time that the Blood Shadow Wolf pounced at Tie Kuang and He Yu Tong, Tang Huan also shot out from his hiding spot, slashing the Heavenly Beast out with his blade. Judging from the previous exchange, the strength of this Blood Shadow Wolf should be comparable to an ordinary Four Transformations Heavenly Wolf.

"Aoooo ~ ~ ~"

Being forced back by the blade, the Quiet Shadow Blood Wolf was completely enraged, it roared out hoarsely, revealing its sharp white teeth as it rushed towards Tang Huan at an extremely fast speed, the strong wind around it whistled, causing sand and stones to fly, it actually revealed a shocking amount of power.

"Friend, be careful!" Tie Kuo's cry of surprise came from behind him.

"Don't worry, this evil creature can't do anything to me!"

Tang Huan laughed indifferently, his eyes as cold as ice. Within the Dantian Dao's Nascent Soul, the 21 Dao Crystals were trembling intensely, the vast Sky Origin Stage power roared out and poured

"Slash ..."

Tie Kuo and He Yu Tong were originally worried that Tang Huan might not be able to beat them, but after seeing the might of the blade, they opened their mouths blankly, their eyes revealing unconcealable shock. It was clearly just a simple blade, yet it seemed like it encompassed everything, giving people a feeling that it was unavoidable.

There seemed to be panic within those lantern-like large blood-red eyes. However, no matter where the Blood Shadow Wolf dodged to, it could not avoid the incomparably sharp, fiery red light that seemed to be able to cut apart the world with one slash. It could only let out a fierce hiss as it swatted out two front claws.

In a split-second, the fiery red blade and the pair of blood-red wolf claws collided.

"Aoo
ooo
ooooo ..." "" "" "" The moment it came into contact with the fiery red blade, the blood red Strength Qi that was hovering around the wolf's claws exploded. Half of its skin was instantly sliced off, and the sharp blade continued to chop down towards the huge wolf's head, with an unstoppable force. However, at this moment, an even denser blood-red power rose from the head of the huge wolf.

"Bam!"

Another loud sound echoed out.

The Blood Shadow Wolf's blood red aura above its head exploded with a loud bang. Pang Shuo's wolf body was smashed by the falling meteors in the sky. Like a cloud, he was thrown tens of meters away before fiercely smashing onto a huge rock, blood gurgling out of his mouth. However, this Blood Shadow Wolf was extremely powerful as well. With a roll, it stood up once more. With a frightened howl, it dashed out in a panic along the path it came from.

With a few leaps, the giant wolf disappeared into the gully.

Tang Huan squinted his eyes, a look of surprise flashing past his eyes, he had thought that after the blade attack, the Blood Shadow Wolf would have to lie down, he did not expect it to have the power

to escape. Although it was an accident, Tang Huan did not pursue it. Although he had the confidence to kill it, it was not necessary.

This was the first time Tang Huan had used a battle skill in the Heaven Realm. The power of the technique was a little beyond Tang Huan's expectations, and the amount of damage that the Sky Origin Stage had suffered had similarly exceeded Tang Huan's expectations. In the previous slash, Tang Huan did not consume much of his Sky Origin Stage Qi, but this slash had directly drained half of the energy in the 21 Dao Crystals, which meant that Tang Huan could only use the "Death Blade" twice.

Of course, this was also because Tang Huan was using the God Creation Art, if it was a normal battle skill, the energy consumption wouldn't be that great, but the power would also have to be reduced greatly.

This time, it could be said that Tang Huan was somewhat more confident in his own strength.

"The two of you are safe now!"

Letting out a light breath, Tang Huan slowly retracted the "Brahma God's Thunder Blade", glanced at the dumbstruck Tie Kuo and He Yu Tong, and then turned to leave.

Tie Kuo and He Yu Tong were completely stunned by the power that Tang Huan had just displayed.

Both of them were Three Transformations Heaven Man, but that Blood Shadow Wolf definitely had the strength of a Four Transformations Heaven Man. Otherwise, it would not have caused them to be in such a sorry state, or even nearly lose their lives. However, such a powerful Heavenly Beast had been severely injured by the blade. Just now, they had clearly seen the scene of the huge wolf's front paws being hacked in half. Not only that, even the head of the huge wolf had a long and narrow cut from the blade.

The moment the wolf turned around, blood spurted out from its wound.

If it were not for the fact that at the final moment, the Blood Shadow Wolf desperately channeled all of the power in its body to block the attack, that slash would have split its head into two halves.

"Benefactor, please wait!" Upon realizing that they were about to leave, the two of them seemed to have woken up from a dream. They chased after Zhang Xuan at almost the same time as they called out in unison.

"What else do you two want?"

Tang Huan stopped and slightly frowned.

After all, there were still dozens of "golden cicadas" waiting for him to refine within the Dantian cauldron. Furthermore, for the sake of safety, it was obvious that he could not stay in this place any longer. After all, he had to find a place to hide.

Tie Kuo was not dissatisfied with Tang Huan's harsh tone as he hurried to bow and express his gratitude, "Benefactor, I am Tie Kuang, this is my wife's name, if it weren't for benefactor saving me in time, we would have already been buried in the stomach of wolves. I hope that Benefactor can tell me your name and save me. How can I not repay you? However, today, he does not have much wealth, so he can only first engrave his benefactor's name into his heart. In the future, he will repay the benefactor. "

At the end, Tie Kuo's face was full of shame.
