

W. Master 1361

Chapter 1361 - Lu Family, Tie Family

"My name is Tang Huan!"

Tang Huan swept his gaze across the two of them, a smile flashing past his eyes, "Since you must repay this life saving grace, then we do not have to wait for the future."

Tie Kuo was stunned when he heard this, but He Yu Tong understood and quickly said, "Benefactor, if you need any help from us, please do not hesitate to speak up."

"Yes!" "Yes!"

Tie Kuo also reacted as he nodded repeatedly.

Tang Huan nodded his head and smiled, then said slowly: "Brother Tie, Madam Tie, the two of you will appear here. You must be from You Yun City, right?"

"That's right!"

Tie Kuo nodded his head again. When He Yu Tong heard the way Tang Huan addressed her, his face couldn't help but turn slightly red. When he glanced at Tie Kuo, his eyes were filled with gentleness.

"Since you are from Youyun City, do you know who Lu Changqing is?"

Tang Huan's eyes slightly narrowed. When he asked this question, his Perception Ability had already risen to the peak.

"Of course I do."

Tie Kuo and He Yu Tong looked at each other, a strange expression appearing on their faces. Then, Tie Kuo could not help but ask, "Benefactor, you and Lu Changqing ..."

"You don't need to ask."

Tang Huan waved his hand, interrupting Tie Kuo's speech, "Brother Tie, you only need to tell me everything about Lu Changqing."

"Yes sir!"

Tie Kuo could only suppress his curiosity and say, "Benefactor, the Lu family is a very powerful family in Youyun." The ancestor of the Lu family, Lu Ruibo, was said to be a cultivator who had ascended the heavens from the Heaven Punisher World. He had been in Youyun for thousands of years already. However, to this day's young generation, the number of talented Disciples in the Lu family are extremely few. Other than Lu Changqing, the rest are all mediocre people ... "

Tang Huan secretly nodded his head. Since the appearance of the Heaven Realm, it had been countless of years, and until now, there were very few people who had actually transcended the heavenly tribulation. The majority of them were the descendants of cultivators who had climbed through the ranks.

Almost every day, a large number of cultivators from the lower realms would ascend into the skies. But in the last 18 days or so, other than some old monsters that had lived for tens of thousands or even tens of thousands of years, they were all natives.

The Lu family, on the other hand, was a native of the Crimson Light Heaven's "Flowing Flower Domain", Nether Cloud City.

It was no wonder that Lu Changqing had a large group of people following him. Furthermore, when they were fighting over the 'Golden Cicada', they would not hesitate to seize the position that others had already occupied. At that time, the group of hulks did not dare to resist, probably because they were worried about the Lu family who was behind Lu Changqing, so they could only bear with it and give way.

In Youyun City, there were probably many local Cultivator Clans like the Lu Clan.

After thinking about it, Tang Huan suddenly asked: "Brother Tie, what is Lu Changqing's cultivation level now?"

"Last year, he was already at the Five Transformations Heaven stage. Now, he might have already stepped into the Six Transformations Heaven stage."

Tie Kuo said uncertainly, "I heard that after he breaks through to the Seven Transformations, the Lu family will send him to join our 'Flowing Flower Domain', the famous' Heaven Sect of Qian Yuan '. He will be accepted as an elder of the Lu family." As he spoke to here, Tie Kuo sighed lightly, a trace of envy appearing in his eyes.

He Yu Tong also sighed softly, a bitter expression on his face.

Looking at the expressions of Tie Kuo and He Yu Tong, Tang Huan suddenly laughed: "Brother Tie, do you know what cultivation level the experts in the Lu family are at now?"

Tie Kuo regained his senses, and said while pondering: "The Lu family has hundreds of thousands of people, and the Sky Realm is estimated to be around a thousand. There are more than a hundred Heaven Realm warriors, and the previous Head of the Lu family has already stepped into the Sky Sovereign Realm. That should be the case with the Lu Family in the Nether Cloud City. They left the Flowing Flower Region long ago, so I am not too sure. "

Tang Huan slightly nodded, and then continued: "Very good, I've finished asking. Thank you, Brother Tie and Madam Tie, you can go back now. "

"Benefactor, aren't you in need of our help?" Hearing Tang Huan's words, Tie Kuo and He Yu Tong looked at each other in shock.

"You answered all the questions I asked very well. I'm very satisfied." Tang Huan laughed, "After answering these questions, consider it your gratitude for saving me, there is no need to help me with anything else. "Brother Tie, Lady Tie, please go back. I'm about to leave as well."

"Huh?"

Tie Kuo and He Yu Tong were both a little dumbfounded. They only answered a few questions that weren't difficult at all, even if they had to repay Tang Huan for saving their lives? This was too simple!

After a short moment of shock, the two of them were even more grateful and respectful to Tang Huan.

Although Tang Huan did not seek repayment for his kindness, Tie Kuo still felt very apologetic. However, he could not think of how to repay Tang Huan in a short amount of time, and his face immediately flushed red.

At this moment, He Yu Tong seemed to have thought of something and could not help but ask, "Excuse me, does benefactor and that Lu Changqing have any grudges?"

"Indeed."

Tang Huan smiled leisurely, there was no need to hide it.

He had asked so many questions about Lu Changqing and the Lu family just now. Anyone with a bit of intelligence would have guessed sooner or later that he did not want to deal with the Lu family. Although he hadn't thought about it, even if He Yu Tong hadn't said it, he would have been able to understand it later.

"Since that's the case, benefactor might as well go to the Iron family and stay for a while." He Yu Tong laughed and said, "Benefactor is living in the Shadow Mountain Range. You must be worried that Lu Changqing will take revenge upon entering the Nether Cloud City. Although he could avoid Lu Changqing in the Shadow Mountain Range, it was extremely likely that he would encounter the Blood Shadow Wolf, so it was not a particularly suitable place for cultivation. However, if you live in the Iron family, benefactor can cultivate in peace, and won't have to worry about retaliation from the Lu family at all. "

"The Iron family?" Tang Huan's mind moved, he looked at Tie Kuo.

"That's right, why didn't I think of it? Your language eyes are still the smartest."

Tie Kuo also understood what was going on and slapped him hard. He laughed out loud, "Benefactor, to be honest, our Tie Family is also one of the families that have been in Nether Cloud City for many years. Although our overall strength is not as good as the Lu Family's, we're not afraid of him. If benefactor comes to live in our Iron family, Lu Changqing would never dare to seek revenge, and he needn't worry about being disturbed. Benefactor, what do you think? " With that said, Tie Kuo looked at Tang Huan with anticipation.

"This..."

Tang Huan thought.

He could feel that Tie Kuo and He Yu Tong were not lying. The Iron family had the confidence to fight against the Lu family. Although he still had dozens of "golden cicadas" in his cauldron, staying in the Shadow Mountain Range was not a long term solution. To cultivate in the Heaven Realm, his reliance on various resources far surpassed the Forging God Great World.

If he stayed in the Shadow Mountain Range, it would be very difficult for him to advance from Heaven Realm to Heaven Realm.

Perhaps taking this opportunity to enter Nether Cloud City would be a good choice. After some hesitation, Tang Huan finally nodded his head: "Alright! "Then I'll bother Brother Tie and Lady Tie."

Chapter 1362 - Youyun City

Quiet Cloud City. There were no city walls. On the gently undulating fields at the end of the Shadow Mountain Range, there were countless buildings of various styles spread out as far as the eye could see. Within a circumference of several hundred miles, the roads were crisscrossed and the streets were connected. There were shadows everywhere and it was said that millions of people lived here.

Due to the fact that there were so many aboriginals, it was impossible for all of these millions of people to be filled with celestial beings. There were even many that had yet to undergo the tribulation. These cultivators were born and bred, and had lived in the Heaven Realm since childhood. Although they were not at the Heaven Realm, they had long since adapted to the spiritual energy of the Immortal World.

Compared to the cultivators of the lower realms, the training environment of the aboriginals was much better.

When they are two or three years old, their elders will be able to open the Spiritual Meridian, and after completing the meridian opening, they will be able to obtain the cultivation of Heavenly Domain, and their subsequent cultivation speed is enough to make the cultivators of the lower realms flabbergasted. Cultivators that could undergo tribulation and become heaven's man at the age of 20-30 were everywhere. Of course, there were also countless who stopped at the Nine Revolutions Transcendental Tower when they were hundreds of years old.

As for age, the indigenous people of Heaven Realm didn't have any special concept.

This was because with the same cultivation level, the indigenous people of Heaven Realm had a lifespan that far exceeded the cultivators of the lower realms. To them, they were still young even though they were hundreds of years old. If nothing unexpected happened, he could easily live for more than two thousand years even if he couldn't get through the tribulation.

It was also because of this that the population of the Heaven Realm was so large. The Nether Cloud City, which had a population of ten million, would definitely be a large city in the Forging God Great World, but it was just an unremarkable small city in the Heaven Realm. Not to mention the Crimson Radiance Heaven, even the Flowing Flower Domain Realm had countless cities like this.

"The prosperity of the Heaven Realm is indeed incomparable to that of the lower realms."

Walking along the streets of Youyun with Tie Kuang and He Yu Tong, Tang Huan was filled with emotion.

After traveling with them for ten days, Tang Huan had a rather good understanding of them and the Iron family. It was as Tie Kuo had said, the Iron family's overall strength was not as good as the Lu family's, but they were completely on par with the Lu family. The main reason was that the Iron family now had a Sky Sovereign expert.

Tie Kuo-tian was the eldest son of the current Head of the Iron family.

As for He Yu Tong, his He Clan was originally one of the large clans in Youyun. However, that clan had long fallen and He Yu Tong was the Head. There were more than ten thousand cultivators in the clan, but there was only He Yu Tong, a man of heaven, and like Tie Kuo, he was only at the Third Transformation.

Tie Kuo and He Yu Tong were in love with each other because He Yu Tong had always wanted to revitalize their family and didn't want to implicate Tie Kuo. This was why he hadn't agreed to marry Tie Kuo. This time, Tie Kuo accompanied He Yu Tong into the Shadow Mountain Range to pick the herbs. However, he almost died in a wolf's den, which was why their relationship had made such a huge breakthrough.

Through their introductions, Tang Huan had a better understanding of this Nether Cloud City.

Countless years had passed, and the situation in the Heaven Realm now was vastly different from when Pan Ji had been here. The population of Heaven Realm continued to swell, but the cultivation resources of Heaven Realm would not increase along with it. At this point, the cultivation resources of Heaven Realm, especially the lower thirty-six days, were almost exhausted.

The most obvious thing was that the concentration of the celestial spiritual energy was much lower than before, and the decrease in the concentration of celestial spiritual energy also caused the cultivators of the Heaven Realm to rely more on various resources when cultivating. The changes in the Heaven Realm did not affect ordinary cultivators, but to those who had already passed through the Heaven Realm, it was extremely obvious.

As a result, the Heaven Realm's resources started to gather more and more towards the big powers.

If one continued to stay in a small city like Quiet Cloud City and did not join a sect, it would be difficult to become a true expert. Not only were the people of Heaven Realm like him, but the cultivators from the lower realms were the same.

After transcending the tribulation, the difference between the cultivators of Heaven Realm and those of the lower realms wasn't too great. If one didn't have a large amount of resources to support themselves, they wouldn't be able to avoid their end. Because of this, Tie Kuo and He Yu Tong were extremely envious of Lu Changqing's ability to join the Heaven Sect.

The Heaven's Expanse School was a major sect at the Flowing Flower Domain. Not just anyone could join it.

"Brother Tang Huan, this is the place."

After walking around the city for a long time, Tie Kuo suddenly raised his hand and pointed forward with a smile.

Under Tang Huan's strong request, He Yu Tong no longer addressed Tang Huan as "benefactor". However, their gratitude and respect towards him did not decrease in the slightest.

Tang Huan looked up and could not help but smile.

The high wall extended along the street and surrounded the building, leaving very few exits. The Iron family was quite similar to the closed off areas in his previous life. The main gate of the Iron family was extremely wide, and they had even built an extremely spectacular memorial archway at the entrance.

There were two young men guarding the front gate. Both of them had a cultivation base at the Nine Revolutions Transcendental Tower.

"Young Master!"

The two quickly bowed when they saw Tie Kuo, but their expressions weren't that respectful.

Tie Kuo nodded and was about to bring Tang Huan and He Yu Tong in, but he was stopped by the two of them. He looked at Tang Huan and asked: "First Young Master, may I know who this is?"

Tie Kuo's brows furrowed, and he was about to explain when He Yu Tong growled, "What, the first young master has brought some friends of his to the Iron family and he still needs to report to you?"

"Miss He, you must be joking. We are responsible for guarding the place. We are only doing our routine questioning."

Hearing that, the two of them laughed, then, one of the man in green laughed, "Since it is inconvenient for Young Noble to speak, then we will not ask any further, but, if Head asks, then we will speak the truth, I hope First Young Noble will not take offense."

"First Young Master will naturally report to Head later, there's no need for you to worry." He Yu Tong laughed coldly.

"That's good, that's good."

The two young men glanced at each other, feeling slightly embarrassed.

"Brother Tang Huan, after you!" As soon as he entered the house, he was made a fool of. This made Tie Kuo feel very ashamed, "I was laughed at by Brother Tang Huan just now."

"It's fine."

Tang Huan shook his head and smiled as he walked forward.

He was not really a weak person that could be bullied, but if he was too kind, he would inevitably give others a feeling of weakness that could be bullied. As a result, he kept kicking his nose and face, and He Yu Tong was the head of the family.

"Tie Kuo, you're just too easy going. There's no need to waste words with two little guards. If you don't care about them, I don't believe they will dare to stop you."

He Yu Tong could not help but roll his eyes at Tie Kuo. He did not lower his voice when he spoke.

Hearing her words, the two young men's faces instantly flushed red, but they didn't dare let it out. However, their eyes revealed traces of anger.

Tie Kuo nodded, scratching the back of his head in embarrassment, but then received He Yu Tong's supercilious look.

Under the guidance of Tie Kuo and He Yu Tong, Tang Huan reckoned that he would not be able to live a peaceful life in the Tie Family for more than a few days, but there was no harm in that. At most, he could just leave, but Quiet Cloud City was so vast, and as long as he was careful, it would be difficult for Lu Changqing to find him.

Chapter 1363 - The Second Young Master of the Tie Family

The Iron family had a small population, probably less than a hundred thousand. It was true that they could not compare to the Lu family, which had several hundred thousand clansmen. However, no matter how few clansmen there were, the existence of a Monarch was enough to ensure that the Iron family could stand on equal footing with the Lu family in Nether Cloud City.

The residence that Tie Kuo had arranged for Tang Huan was located in the northwest corner of the Iron family estate. It was an extremely quiet and isolated courtyard, and there was no one living within a hundred meters around. Tang Huan was very satisfied.

Tang Huan did not care about how Iron University would explain his situation to the Head, he only warned him repeatedly not to reveal the scene when he was fighting the Blood Shadow Wolf. He was only at the third form of the Heaven Realm. If others found out that he could severely injure the Blood Shadow Wolf, which was comparable to a fourth form Heaven, they would probably pay attention to him and cause unnecessary trouble. Tang Huan only wanted to focus on cultivation now, he did not want to be disturbed.

In the Dantian cauldron, he had already ingested sixteen of the eighty-one "golden cicadas", leaving only sixty-five.

In the next moment, Tang Huan wrapped two of the "golden cicadas" and began to refine them. With the help of "Nine Yang Divine Furnace", Tang Huan refined "Golden Cicada" even faster and faster. After about a day, the two "Golden Cicada" transformed into twenty-two Dao Crystals within Tang Huan's Dantian Dao Nascent Soul.

Tang Huan did not stop there. Inside the cauldron, the number of "Golden Cicada" s two pieces of land were constantly decreasing.

Tie Kuo would arrive at the courtyard almost every morning without moving an inch. He discovered that Tang Huan would always leave quietly without disturbing him after he cultivated.

Unknowingly, it was already the tenth day morning when Tang Huan stayed at the Iron family residence.

"Thirty Dao Crystals!"

Just now, another two "golden cicadas" had been refined. Inside Tang Huan's Dantian, there was a total of thirty Dao Crystals contained within his Nascent Soul, which was already the limit of "Spirit Transformation".

The thirty crystals seemed to be intertwined by invisible threads, as though they were one and the same. The Sky Origin Energy churned inside the crystal, giving Tang Huan a strong feeling. At this moment, if it were to meet the Blood Shadow Wolf again, it would have absolutely no chance of escape.

"One more dao crystal and I can step into the fourth form of the Heaven Realm, the 'Soul Essence Transformation'!"

Tang Huan squinted his eyes, but his thoughts raced.

Sure enough, it was as Tang Huan had guessed before. During the Three Transformations of Heaven, every additional Heavenly Crystal would increase Tang Huan's flesh body by a little. However, compared to Tang Huan's original "Celestial Sun Body," that little bit of increase was negligible. Naturally, the Soul Transformation was no exception. However, although these two realms were of little use to Tang Huan's flesh body and soul, they were actually effective in increasing his strength.

If he could obtain thirty-one Dao Crystals, Tang Huan reckoned that his strength would increase by another fold.

"However, the next Dao-crystal probably won't be so easy to condense." Golden Cicada's usefulness to the Four Transformation stage was extremely low. Although Tang Huan was still a Three Transformation stage man and could use the "Golden Cicada" to condense the first of the Heaven Transformation stage's Dao Crystals, the effect was not significant.

Even so, it could not hold up against Tang Huan's numerous "golden cicadas".

"There are forty-seven left!"

The corner of Tang Huan's mouth raised into a faint smile. No matter how bad the effect was, with so many "golden cicadas", it would be enough to condense the thirty-first dao crystal.

Just as he was about to continue cultivating, Tang Huan's eyes suddenly twitched and her narrowed eyes suddenly opened: "Brother Tie, since you're here, why don't you come in and take a seat!"

In the courtyard outside the window, Tie Kuo quietly appeared and prepared to leave without a sound.

"Brother Tang Huan!"

Tie Kuo was startled, he raised his eyes and saw Tang Huan, who was floating in the room as he stood up, his face immediately revealed a surprised look, but right at the moment when he was about to take a step, he slightly frowned. Outside the courtyard, a wave of noisy footsteps came, followed by a flattering laugh: "Second Young Master, it's here."

"Come, let's go in and take a look."

"All along, only the noble guests of my Iron family are arranged to live here. I'd like to see what kind of person my good-for-nothing, Big Bro, treats as a treasure is!"

As his voice faded, a tall figure had already appeared at the entrance of the courtyard.

It was a young man with a face as handsome as jade. He wore a light blue and gorgeous robe, and behind him were six men. All of them appeared to be in their thirties or forties. After the handsome man finished speaking, everyone smiled and nodded their heads, as if they agreed with him.

However, the next moment, those six people were stunned. A look of disdain flashed in their eyes. They unwillingly bowed slightly and said, "Greetings, Eldest Young Master!"

"So Big Bro is here as well."

The handsome man also saw Tie Kuo standing in the yard, and laughed, as if he had forgotten that he had just called his big brother "good-for-nothing" a moment ago. With a face full of smiles, he quickly walked forward, "Go, go, big brother. Quickly introduce your little brother to the one you invited ..."

"Shut up!"

The handsome man hadn't even finished speaking when Tie Kuo's face was already ashen as he angrily yelled, "Tie Kan, you and I are brothers. Tie Kuo's face was already livid as he angrily said, "Tie Kan, you are brothers.

Tie Kuang's voice was like a thunderclap, filled with anger. The seven people, including Tie Kan, were all stunned. They obviously didn't expect Tie Kuo, a simple and honest person, to be angry.

In the blink of an eye, they had regained their senses.

The six followers looked at each other, and the corners of Iron Kan's lips twitched. His handsome face showed shame and anger. "Iron Kuo, are you threatening me?"

"If you think so, then so be it!" Tie Kuo's eyes were like bells as he glared at Tie Kan, not showing the slightest intention of backing down.

"You ..."

A hint of ruthlessness flashed through Tie Kan's eyes as he said with a cold, gloomy face, "To casually bring a random cat or dog back from the Shadow Mountain Range is an honorable guest. Our Iron family's honorable guest is way too easy to be ..." Tie Kuo, since I've said this, I want to see how you avoid brotherly feelings. "

"Alright, Tie Kan, you asked for this yourself!"

Tie Kuo's face was flushed red as he angrily roared. The great sword in his hand was already raised high into the air as the body of the sword suddenly emitted a dazzling azure light.

However, before Tie Kuo could slash the huge azure sword, a palm had already landed on his right wrist. Like an iron hoop, it completely locked his right hand, which was holding the sword, into the air. This sudden turn of events caused Tie Kuang to be greatly shocked.

"Brother Tang Huan, you..."

There was no need to look, Tie Kuo already knew that the one who stopped him was Tang Huan.

Chapter 1364 - Heaven's Mandate

Tie Kan and the others on the other side, also revealed looks of surprise in their eyes. Tang Huan's speed had actually greatly exceeded their expectations. A moment ago, Tang Huan was still in his room, but in the next moment, he arrived beside Tie Kuo. They could not even track his movements.

In the blink of an eye, the shock in Tie Kan's eyes disappeared completely, and was replaced with a thick sense of ridicule. "You are that Tang Huan?"

As if he didn't see Iron Kan, Tang Huan turned a deaf ear to his question.

After releasing Tie Kuo's wrist, Tang Huan said with a smile: "Brother Tie, you are the eldest son of the Iron family's Head. You should be the legitimate next Head, and be magnanimous.

Tie Kuo stared at Tang Huan, deep in thought.

"Tang Huan, how dare you!"

"Impudent!" This is too presumptuous! "

"Eldest Young Master, your friend is too arrogant!"

"..."

Iron Kan's face alternated between green and red, and his eyes were filled with shame and anger. However, before he could even speak, his six followers all began to shout angrily.

"Shut up!"

Tie Kuo regained his senses, his face darkened. "Who are you? Are you even worthy to be rude in front of me?" At this moment, although Tie Kuo's face was no longer filled with anger, there was still an imposing manner that did not seem to be angry. Tie Kan's six followers were momentarily stifled, and their curses came to an abrupt halt.

"Second brother, take care of the dog beside you! If you dare to bark like that again, don't blame me, your brother, for breaking their dog legs! " Tie Kuo's eyes shifted and his gaze fell upon Iron Kan. His tone grew more and more serious. "As for who I'm inviting to the Iron family, it's not up to you to worry." "If you really have the leisure to do so, you might as well think about how to raise your cultivation so that you don't embarrass our Iron family in the future."

"Good!" Good! Tie Kuo, you're the one who said that! "

"I want to see whether I'll embarrass the Iron family or you'll embarrass the Iron family in three months time." Iron Kan's body trembled in anger and his face distorted as he spoke through gritted teeth. His previously handsome appearance had completely vanished.

"Tie Kuo, if your rank is lower than mine, then you won't be the Iron family's next Head."

"Let's go!"

A sinister and vicious gaze swept across Tie Kuang and Tang Huan. Tie Kan flicked his sleeves and left, and those six people all walked out of the courtyard with quick steps, their expressions ugly.

What happened today had completely overturned their understanding. Tie Kuo had always been a good person, and even if there was someone who disrespected him in front of him, he would still laugh and ignore them. But today, he had actually turned against Tie Kan because of Tang Huan, and his tone was also not polite at all.

"Brother Tang Huan, thank you."

Tie Kuo said gratefully.

Tang Huan laughed, and said: "Brother Tie, there is no need to be so formal with me, but, this brother of yours is too brazen, you should be careful."

"I know what he's thinking."

"I don't have much ambition or ambition. It's enough for me to be together with Yu Tong for the rest of my life. As for the next position of the Iron family's Head, I don't care about it at all. But this younger brother of mine doesn't think that way. He has always regarded me as his greatest threat."

"Most likely, only after I die will he be able to truly feel at ease."

"For example, when we went to the Shadow Mountain Range to gather medicinal herbs, I suspect that he had deliberately found someone to leak the news of the medicine to me. If it wasn't for Brother Tang Huan saving him, Yu Tong and I would have already been dead."

"If you don't fight, he won't think that you really won't fight!"

Tang Huan shook his head and sighed. Tie Kuo and He Yu Tong went to the Shadow Mountain Range to find a spirit plant called the "Scarlet Soul Sprout". This sort of spiritual herb could help a cultivator advance from the Three Transformations of Heaven to the Four Transformations of Heaven in a day or two. Tie Kuo had gotten the exact information and set off with He Yu Tong. In

the end, he didn't see the Crimson Soul Sprout and entered the Umbra Blood Wolf's nest. In the end, he almost lost his life.

From the looks of it, Iron Kan must have done something to the news.

Because before Tie Kuo and He Yu Tong had departed, Iron Kan had followed the Iron family's caravan to another city. He had probably only returned during these two days. He was no longer in Nether Cloud City. Even if something happened to Tie Kuo in the Shadow Mountain Range, no one would suspect him.

"Thus, from today onwards, I will not retreat in the slightest."

An unprecedented look of determination appeared on Tie Kuo's honest face as he said in a deep voice, "Since he wants to fight, I'll fight him to the end." If anything happens to me, Iron Kan definitely won't let Yu Tong go, but if I become the next Head, not only will I be able to protect her, I might even be able to help her fulfill her wish. In the 'Heaven's Path' in three months, I will do my best to obtain a higher ranking than Iron Kan. "

"Alright!"

Tang Huan clapped his hands and smiled, but then asked with some doubt: "Brother Tie, what's the situation with the 'Heaven's Path'?"

Tie Kuo explained, "It's a grand occasion that happens once a decade in the Crimson Ways. Every city with a population of over ten million will hold it, and when the time comes, anyone under the age of a hundred will be able to participate. Every time the Heaven's Mandate appeared, the nearby sects would send people to watch it. They would pick out the most outstanding people in the heavens and record them into the sect. "

Hearing that, Tang Huan was palpitating with excitement: "You can participate even if you are less than a hundred years old ... That means, I can do it too? "

"Of course you can!"

Tie Kuo nodded his head and laughed, "Brother Tang Huan, I wanted to tell you about this a long time ago. It's just that you have been focusing on your cultivation these past few days, so you didn't disturb me. Heaven's Mandate is something that both the native and the lower realms can participate in, as long as their age does not exceed the limit. "

"When the time comes, Yu Tong and I will also participate."

As long as the rank surpasses Iron Kan, I will be satisfied. But Brother Tang Huan, you are different, you have just entered the third form of the Heaven Realm, and with one slash of your blade, you have severely injured a Blood Shadow Wolf that can rival a Four Transformations Heaven Realm expert. It is very likely that a certain sect will set their sights on you.

"Brother Tie, do you know which sect will send people to watch?"

The Heaven Realm was completely under the control of the sects. It was even more so in a small place like the "Flowing Flower Domain". If one could join a sect, it was indeed better than cultivating alone. Of course, if one wanted to join a sect, they would have to join a better sect.

"From past experience, the Broken Star Sect, the Intense Flaming Sect, the Black Tortoise Sword Sect ... When the time comes, people will probably come from all the sects. " Tie Kuo muttered to himself.

"Where is the 'Heaven Sect of Heaven and Earth' that Lu Changqing intends to join?" Tang Huan suddenly asked.

"The Qian Yuan Heaven Sect is one of the top three sects in the Flowing Flower Domain. Normally, they would only participate in the 'Heaven's Mandate' in a few of the biggest cities in the Domain. They wouldn't come to a remote city like the one in the Nether Cloud City. Furthermore, the minimum requirement for choosing a Heaven Realm disciple is the Seventh Transformation realm." Tie Kuo smiled bitterly.

Chapter 1365 - xuanji Pill Pavilion

"So that's how it is."

Tang Huan frowned slightly, "What level is the Broken Star Sect, the Intense Flaming Sect, the Black Tortoise Sword Sect and the other sects at in the 'Flowing Flower Domain' realm, and how far is their difference from the 'Heaven's Expanse Sect'?"

"There's no comparison at all." Tie Kuo shook his head and said regretfully, "These sects are only extremely famous in the nearby regions. They are not even worth mentioning in the entire 'Flowing Flower Domain'. But even so, only those with outstanding potential and power will have the chance to join. "

"Looks like it's really a great fortune for Lu Changqing to join the Heaven Sect."

Tang Huan nodded slightly.

The "Heaven's Sect" was like the "Ling Xiao Sword Sect", "Tian Clan", "War Clan" and other powerful forces of the Forging God Great World, while the "Star Shattering Sect" was the same as the "Dragon, Tiger, Hawk, Snake Four Clans" of the Forging God Great World. The strength of both sides were on completely different levels.

Since he couldn't enter the Sky Sect, then he could only try out the small sects like the Broken Stars Sect.

With a quick thought, Tang Huan thought of something. "Brother Tie and your little brother both have the cultivation of Heaven's Three Transformations, if you can step into the Heaven Transformations Four Transformations before the 'Heaven's Path', then you are more confident."

"It's too difficult."

Tie Kuo said gloomily, "Yu Tong and I had already condensed thirty Dao Crystals last year. However, the thirty-first Dao crystal was no different from the previous Dao crystal. It didn't affect our cultivation at all. If you do not have the spirit grass like the Scarlet Soul Sprout or some other special opportunity, there is no hope for you to break through to the Four Transformation stage within three months. " As he finished speaking, Tie Kuo couldn't help but let out a long sigh.

"Is there anything similar to the Crimson Soul Sprout in Nether Cloud City?" Tang Huan muttered to himself.

"I do."

Tie Kuo nodded, "In the center of Quiet Cloud City, there is a xuanjie Pill Pavilion. It is said that a super sect called the xuanji Pill Sect opened up in the Upper Nine Heavens. It is divided into the upper, middle, and lower sixty-three day cities. There are all sorts of pills within the Phecda Pill Pavilion. Among them is a type of 'Yang Soul Pill' that has a miraculous effect. After consuming it, it can help one advance from the three transformations of Heaven to the four transformations within a moment. "

As he spoke, Tie Kuo's eyes began to burn.

He bitterly smiled and sighed, "Although the pills of the 'xuanji Pill House' have a miraculous effect, they are too expensive. Neither I nor Yu Tong can afford them, and the Iron family can't bear to spend such a high price to buy them. Otherwise, we wouldn't need to look for the 'Crimson Soul Sprout'."

"Celestial Dan Sect?"

In Pan Ji's memory, there was some information related to the "Phantom Pill Sect". That was indeed a great sect from the ninth day, but at that time, the pill pavilion opened by the "Phantom Pill Sect" had not even fully occupied the ninth day, and he never thought that it would grow to such an extent.

Tang Huan thought for a while, "Brother Tie, then how expensive is the 'Sun Soul Pill'?"

"Twenty thousand 'Heavenly Jewels' or other treasures of equal value?" Tie Kuo raised two fingers.

"Twenty thousand... Heavenly Jewels? "

Tang Huan frowned slightly.

The "Initial Spirit Heavenly Crystal" of the lower realms was a crystal condensed from the spirit energy of heaven and earth, and the "Heavenly Jewel" was a crystallization condensed from the spirit energy of heaven and earth. A single "Sun Soul Pill" with ten thousand Heaven beads was not considered expensive. According to Tang Huan's knowledge, such a pill would cost at least fifty thousand Heaven beads.

However, with just a thought, Tang Huan was relieved.

The production of Heavenly Jewels was extremely high, and any small clan would be able to produce tens of millions of Heavenly Jewels. However, the production of Heavenly Jewels would also drop quickly, especially in the next thirty-six days.

Furthermore, the Heavenly Jewels were the most common consumables, and the entire Tie Family probably did not have a hundred thousand Heavenly Jewels. Naturally, they would not be willing to take out twenty thousand to buy the "Sun Soul Pill".

"It is indeed quite expensive." Tang Huan slightly nodded, then suddenly asked, "Brother Tie, how many Heaven beads can a low rank Dao tool sell for in Youyun City?"

"At least a hundred and fifty thousand Heaven beads, right?"

Tie Kuo thought about it for a moment, then asked curiously: Brother Tang Huan, why are you asking this?

Afterwards, he seemed to have thought of something, and Tie Kuo was startled, and said in a low voice, "Brother Tang Huan, you can't be thinking of selling your weapon in exchange for the 'Sun

Soul Pill', right? No! Absolutely not! Without the 'Heart Yang Soul Pill', it would still take a long time to reach the fourth transformation, but without a Dao Artifact, it would be difficult to buy another one even with enough Heavenly Jewels. In the Spirit Cloud City, Dao Artifacts are extremely rare. "

"In the entire city, there are probably only a few dozen low-grade Dao artifacts. Our Iron family only has two of them."

When he left the Shadow Mountain Range, the weapon that Tang Huan used to heavily injure the Shadow Blood Wolf suddenly disappeared. He could guess that what Tang Huan had most likely was a Dao Artifact. But of course, although he knew it in his heart, he and He Yu Tong had never inquired about it, nor had they leaked it out.

"Brother Tie, what are you thinking about?"

Tang Huan could not help but laugh.

Forget that the "Brahma Thunder Blade" was not a genuine Dao Artifact, even if it was, Tang Huan did not plan to sell it. Before the descent of the Heavenly Road, Tang Huan had left almost everything on his body to Shan Shan, Yu Feiyan and the others. Other than the "Nine Yang Divine Furnace", "Myriad Sword Heavenly Diagram", and the "Pure Yang Divine Sword", the only thing he had brought with him to the upper realm was a "Sumeru Magical Ring" that carried a few sets of clothes on it, and the "Brahma God's Thunder Sound Blade".

To Tang Huan, the "Brahma God's Thunder Blade" had an extraordinary significance, so how could he give it up?

"Brother Tie, aside from the 'Heart Yang Soul Pill', is there any other pill suitable for cultivators above the Third Transformation?" After flicking his fingers, Tang Huan asked again.

"There is also the 'Heavenly Heart Pill' that can allow a cultivator to advance from the fourth form of Heaven Man to the fifth form of Heaven Man, the 'Heavenly Heart Treasure Dew' that allows a cultivator to progress from the fifth form of Heaven Man to the sixth form of Heaven Man, and the 'Heaven's Might Powder' that allows a cultivator to advance from the sixth form of Heaven Man to the seventh form of Heaven Man." Tie Kuo spoke out the names of each pill as if they were his family's treasures.

"Yang Soul Pill, Divine Abilities Pill, Heavenly Heart Precious Dew, Heaven's Might Powder

"What a great 'xuanji Pill Pavilion'!"

Tang Huan could not help but exclaim.

Before the Three Transformations of Heaven, he could actually rely on pills to improve himself. Before the Three Transformations of Heaven, naturally, he was no exception, and pills suitable for Heaven Realm experts to use were also likely to be few and far between. The pill refining strength of that "Celestial Dan Sect" was indeed ridiculously strong, no wonder it was able to open up a branch to the entire Heaven Realm. With this sort of Pill Pavilion and the wealth of the "Phoenix-Star Pill Sect", there were not many sects in the Heaven Realm that could compare to them.

"Brother Tie, if you have no business with me tomorrow, come look for me here. I have a big business deal to do with Brother Tie. Of course, it would be best to call your wife."

"Ugh ..." A big deal? "

"..."

Chapter 1366 - The Four Transformations of Heaven

Tie Kuo left in a daze with a head full of fog.

Tang Huan returned to his room and sat down cross-legged, his mind quickly thinking. Tie Kuo's news about the "Heaven's Path Divine Art" had already caused Tang Huan to change his mind.

Originally, Tang Huan planned to refine those dozens of "Golden Cicada" with all his might.

However, if one wanted to participate in the "Heaven's Perfection", they could not do so. They had to increase their cultivation to the greatest extent possible in the following three months.

The higher the cultivation, the better the chances of joining a sect.

In order to achieve this goal, one had to rely on the various pills that could raise one's cultivation within the "Xun Ji Pill House".

A single "Sun Soul Pill" cost twenty thousand Heaven beads, and each of the "Divine Abilities Pill", "Heavenly Heart Treasure Dew", and "Heaven's Might Powder" was more expensive than the last. Since Tang Huan had just arrived in the Heaven Realm, he wouldn't be able to produce so many Heavenly Jewels out of thin air to purchase pills. However, it was fortunate that he had an old profession like forging weapons to rely on.

The remaining dozens of "golden cicadas" were Tang Huan's capital.

Tang Huan was unfamiliar with this place, if he took out so many "golden cicadas", they would definitely covet him. However, if the first son of the Iron family, Tie Kuo, showed up, the situation would be much better.

Using the Heavenly Jewels from the Golden Cicada to buy materials would allow him to forge a weapon.

However, before he moved, Tang Huan needed to obtain the Tools Method inheritance from the God Forging Crystal. The moment Tang Huan ascended to the heavens and entered the Upper Realm, he could already do so. However, Tang Huan could not suppress his urge because he did not have the time to do so.

When acquiring a legacy, one would be able to acquire a bit of the power contained within the divine crystal.

If he had absorbed that bit of power as soon as he came to the Heaven Realm, he could at most add a few more Dao Crystals. However, if he tried again when he was about to step into a higher realm, he might be able to break through in one fell swoop. Because of this, Tang Huan had always been patient, but now was almost the best chance.

In between the mind instructs (in a second), Tang Huan had already eliminated all distracting thoughts and was meditating with rapt attention.

The moment his mind touched the red statue in the depths of his soul, countless information started to appear, and was slowly captured by Tang Huan. At the same time, strands of pure energy seeped out of the divine crystal and directly fused into Tang Huan's Nascent Soul.

In the morning of the next day, Tang Huan suddenly woke up, a surprised look appearing in his eyes.

Indeed, as he had expected, the Tools Method inheritance he had obtained this time was related to the Dao Artifact, and the contents could be said to be vast and profound. The last time he had obtained the inheritance in the "Heavenly Desolate Secret Realm", Tang Huan's Tools Method Attainments was already considered to be extremely high in comparison. He was completely able to comprehend the techniques that had been passed down to them, and thus, he had spent quite a long time to thoroughly study them in one go.

Due to the limitations of his cultivation and strength, the information Tang Huan obtained this time was profound and he could only comprehend a small portion of it. This caused Tang Huan to awaken within a day.

However, even though there were not many things that could be comprehended temporarily, it was enough to forge a low-grade Dao Artifact!

Tang Huan's face revealed a smile, and his focus shifted over to the Dantian, inside his body, there were already thirty-one Dao crystals.

"Four Transformation of the Heaven, Soul Transformation!"

The smile on Tang Huan's face became wider, and then he immediately stood up and walked out of the room.

In the courtyard, Tie Kuo and He Yu Tong were already sitting around a stone table, waiting. The former would occasionally scratch his ear and scratch his cheek, attracting the latter's rebuking gaze.

Seeing Tang Huan's appearance, the two of them stood up.

Instantly, Tie Kuo could not help but ask: "Brother Tang Huan, I still have not figured out what kind of huge business we can do." This question had tormented him for the entire day.

"To be honest, when I came from the lower realms, I was a Saint-rank Heavenly Blacksmith." After indicating for the two of them to sit down, Tang Huan also sat down, and smiled at the two of them.

"Saint rank Heavenly Blacksmith?"

Tie Kuo and He Yu Tong looked at each other in surprise.

Immediately after, He Yu Tong looked at Tang Huan and could not help but ask: "Brother Tang Huan, I heard that in the lower realms, the Saint-rank Heavenly Blacksmith is already the strongest Weapon Refiner?"

"That's right."

Tang Huan nodded his head and laughed, then said slowly, "Before I ascended to the heavens, not only was I a Saint-rank Heavenly Blacksmith, I was also born in that great world, and was also a Saint-rank Heavenly Blacksmith among Saint-rank Heavenly Blacksmith. I am extremely confident in my Tools Method Attainments, so I plan to try forging a Dao Artifact."

In order to give the two of them more confidence in themselves, Tang Huan praised himself without hesitation. Of course, what he said was the truth and he wasn't boasting about himself.

"Hiss!"

Tie Kuo sucked in a breath of cold air, his eyes wide open.

He knew that it wasn't long before Tang Huan's tribulation ascended the heavens, but he didn't think that Tang Huan's experience in the lower realms would be so glorious. The strongest Heavenly Blacksmith in a large world wasn't something that just anyone could do. Every day, with so many people from the lower realms undergoing tribulation, those with such attainments in Tools Method were incomparably rare. Moreover, under normal circumstances, Tools Method Attainments and cultivation level were directly proportional.

No wonder Tang Huan possessed strength that far surpassed ordinary Three Transformations Heavenly Men!

He Yu Tong was also extremely shocked, but her thought process was even faster than Tie Kuo's, so she immediately revealed a look of hesitation. She deliberated on her words as she slowly said:

"Brother Tang Huan, I can understand how you feel if you want to display your skills in cultivation, but, the difficulty of forging a low rank Dao Artifact far surpasses that of a Saint rank Heavenly Soldier. In my opinion, it would be better for you to first forge a few Saint rank Heavenly Soldier s. Actually, there is a market for Saint-rank Heavenly Soldier s in Nether Cloud City. "

After he finished speaking, He Yu Tong's expression was somewhat anxious, as if he was worried that Tang Huan would be angered because of this.

"There is no need to be so tactful, I, Tang Huan am not a stingy person."

Tang Huan laughed.

Of course he knew that He Yu Tong was afraid that he would fail in forging the Dao Artifact.

Although he had yet to understand the current "Flowing Flower Domain" Dao Artifact Market, he could tell from the rarity of the Dao Artifacts that the Dao Artifacts of Nether Cloud City were not ordinary people. Moreover, the materials used to forge the Dao Artifacts were likely to be very expensive.

The safest way was obviously to first forge a Saint-rank Heavenly Soldier as per what Yu Tong had said.

In the Spirit Cloud City, almost all cultivators used the Heavenly Soldier s. Not only was the Saint-rank Heavenly Soldier a marketplace, it was also a very good gunner. It was likely that s with good quality were also extremely rare. However, just by relying on forging Saint-rank Heavenly Soldier s, it would be difficult to get enough Heavenly Jewels in a short period of time.

Because there were too many Weapon Refiner s in the forging heavenly armaments.

No matter how good a Saint-rank Heavenly Soldier was, they would not be able to sell for tens of thousands of Heaven beads. Observing the weapons shops he had passed by the day he had entered the city, one would definitely have one to two thousand Heaven beads.

Chapter 1367: Can this deal be done?

"Brother Tang Huan, it's indeed better to be cautious."

Tie Kuo also understood what was going on and nodded his head, "After and his brother ascended to the sky, they have always stayed at the 'Shadow Dark Marsh', and they do not know much about

many things. In the current Heaven Realm, not only are Dao artifacts expensive, the materials for Dao artifacts are also incredibly expensive.

"Both of you make sense."

Tang Huan nodded his head, and then changed the topic, "However, both of you still remember the blade that I used against the 'Shadow Blood Wolf'."

"Of course I do."

Tie Kuo and He Yu Tong said at almost the same time. Even to this day, the elegance of Tang Huan's blade was still deeply branded in the depths of their souls.

"That blade was forged by me in the lower realms." Tang Huan said while beaming.

What ... "What?"

Tie Kuo and He Yu Tong subconsciously cried out in alarm. They found it hard to believe their own ears. When they exchanged glances, they could see the deep shock in each other's eyes. They had also guessed at the origins of Tang Huan's Dao Artifact, but they had never thought that it was actually forged by Tang Huan himself.

It was completely impossible for Heavenly Blacksmith from the lower realms to successfully forge a Dao Artifact.

But from Tang Huan's mouth, they could not help but believe. They knew that Tang Huan would never lie about such a thing. However, this fact was too shocking. It had completely overturned the common sense that they had in the Heaven Realm for dozens of years.

At this time, Tie Kuo realized that he could not see through his savior any more.

Not to mention the fact that he was forging a Dao weapon before he ascended to the heavens, he didn't even emit the slightest bit of Qi. Those who didn't know him would probably view him as an ordinary person and not a man of three transformations. Tie Kuo reckoned that even the Sky Realm people, or even the Sky Sovereign Realm experts, would not necessarily be able to see through Tang Huan's cultivation.

A layer of dense fog seemed to forever be shrouded around Tang Huan's body, as countless secrets were hidden within.

"Actually, the two of you still can't be considered as true Dao weapons." After taking in the duo's expression, Tang Huan smiled and said, "When I forged the blade, although I condensed a Nascent Soul, I was still a Void Transformation Stage cultivator. Due to the limitations of my abilities and the materials, I was only able to refine it to that extent. "Now that I have reached the fourth stage of the Heaven Transforming, there will definitely be no problem when I forge a genuine low-grade Dao Artifact."

"He already formed a Dao Nascent Soul before transcending tribulation?"

"Brother Tang Huan has undergone four transformations?"

Tie Kuo and He Yu Tong were once again stunned by Tang Huan's words.

However, with the extreme shock from before as a foundation, the information that Tang Huan had revealed made it easier for them to accept. For someone who was able to forge such a weapon in the

lower realms, forming a Dao soul before his tribulation, and then using a very short period of time to advance from the Three Transformation to the Four Transformation Stage, it was also within reason.

"Since Brother Tang Huan is so confident, then the two of us no longer need to persuade him any further."

Tie Kuo took a deep breath, "Although I don't have any status in the Iron family, I'm still the eldest son of a Head of the Iron family. I should be able to borrow one to two thousand Heaven beads. As for the other one or two thousand or so, I will think of a way. I will definitely help Brother Tang Huan gather enough Heavenly Jewels to buy the materials. "

He Yu Tong smiled sweetly and said: "You don't need to think of anything else. My He family is rather poor, we don't have many Heavenly Jewels, but we can still produce two thousand. "If you count it like this, there's a total of three to four thousand Heaven Beads, and it's about enough to buy a set of materials for a low-rank Dao Artifact."

"Thank you for your kindness, Brother Tie and Lady Tie."

Tang Huan was moved, but he still waved his hand and smiled, "However, you two don't have to spend so much money. I might be able to exchange this small thing for enough Heavenly Jewels." Finished speaking, Tang Huan's thoughts moved, his fingers flashed with a gold light, and several tens of "Golden Cicada" appeared on the stone table.

Yesterday, after Tie Kuo had left, Tang Huan had taken them out from the "Nine Yang Divine Furnace" and stored them in the "Sumeru Magical Ring" so that when he took them out now, he wouldn't expose the existence of the cauldron.

"Golden Cicada?"

"Four... Forty-seven pills! "

Tie Kuo and He Yu Tong couldn't help but exclaim softly. Their four gazes looked at the golden fruits on the table, then looked at Tang Huan, their eyes filled with astonishment.

They had all heard of the incident where the Bodhisattva Golden Cicada Flower had appeared in Lengsha River dozens of days ago.

The time from the appearance of the "Bodhisattva Golden Cicada Flower" to its wilting was too short, it was only a few days, and it took a long time for a Heaven Man cultivator to arrive at the Liusha River from Youyun City. This caused many of the people from Youyun City to not be able to make it in time, but even so, tens of thousands of people were attracted to it.

Everyone was fiercely fighting and fighting on the riverbank. It was said that at least several thousand people had died.

The reason why such a situation occurred was because the experts of Youyun City had already agreed that cultivators above the level of Heaven would not participate in the "Golden Cicada" competition. If that was the case, then even if the Heaven Realm cultivator died in the battle, the great clans in the city would not suffer any injuries.

If even Heavenly Saints were involved, just one of them would be enough to cause heartache. If even one of them were to die, the entire clan would fall.

"You two, if I sell these 'golden cicadas', can I exchange them for a set of ingredients?" Tang Huan said with a face full of smiles.

"Yes!" "Of course!"

Both Tie Kuo and He Yu Tong were extremely moved. They had already guessed that Tang Huan had participated in the fight for the "golden cicada" by the Lengsha River before, and had even felt that with Tang Huan's strength, he should have obtained something. However, they had never expected that Tang Huan's harvest would actually have reached such an astonishing level.

The forty-seven "golden cicadas" were definitely not them all, and there had been more than a few that had been refined by Tang Huan in this period of time.

"A single 'Golden Cicada' is worth five hundred Heaven beads, and 47 'Golden Cicada' is worth nearly twenty thousand four days. It's enough to exchange for five sets of ingredients for very good low-grade Dao artifacts." He Yu Tong laughed.

Very good, I'll ask Brother Tie and Madam Tie to help me get rid of these 'golden cicadas'. After exchanging them for the materials, I'll immediately forge them, and if they succeed, I'll give them to the 'xuanji Pill Pavilion' to exchange for pills. At that time, Brother Tie and Madam Tie will each have a 'Sun Soul Pill'. Saying that, Tang Huan joked, "Brother Tie, is this deal alright?"

"..."

Tie Kuo and He Yu Tong were completely dumbfounded.

With their identity, they were indeed more suitable than Tang Huan himself to sell "Golden Cicada" and exchange it for medicinal pellets. Tang Huan was their savior, so it was natural for him to help them out, but Tang Huan actually planned to gift each of them a "Sun Soul Pill" after things were completed.

Two Yang Soul Pills, that was forty thousand Heaven beads!

Even if it was the Iron family or the Lu family that had an even stronger power in Youyun City, forty thousand Heaven beads was a huge sum of money, yet Tang Huan actually gave it away just like that.

"You two, there's no time to lose. We'll set off now." Tang Huan smiled slightly, then walked out of the courtyard.

"Wait, brother Tang Huan, we can't, we can't ..." It was as if Tie Kuo and He Yu Tong had just awoken from a dream, they immediately chased after Tang Huan. After chasing for a few meters, they suddenly remembered that the "golden cicadas" were still on the table.

"..."

Chapter 1368 - Weapons Craftsmen Hall

The xuanji Pill Pavilion not only sold pills, but also purchased all sorts of rare and precious herbs.

Most importantly, the reputation of the xuanji Pill Pavilion was extremely good. The transaction was fair, and there was no deceit or deception. Because of this, the xuanji Pill Pavilion was bustling with noise and excitement every day.

The bottom floor of the pavilion was connected to the first floor, but the top two floors and the third floor were separated. Looking from afar, it was like two ox horns placed together.

At the back of the pavilion, there were many rooms. Obviously, they all belonged to the Xun Ji Pill House.

Entering through the main entrance of the pavilion was a spacious hall. On the left and right sides of the hall, there were two arched doors. The left side of the arch led to the 'Pill Pavilion' that sold all sorts of pills. The right side of the arch led to the 'Medicine Pavilion' that purchased all sorts of precious herbs. Both sides were bustling with activity.

When Tang Huan, Tie Kuo, and He Yu Tong arrived at the Xun Ji Pill House, what they saw was a bustling scene.

No matter if it was the Pill Pavilion on the left or the Medicine Pavilion on the right, there was an endless stream of people.

As he entered the Medicine Pavilion, he saw more than a hundred teams lined up inside, each with a few dozen cultivators. In front of each group was a small sealed room, from time to time, cultivators who had finished selling their goods would walk out, and from time to time, cultivators at the front of the line would open the door and enter.

This method could indeed be kept a secret to the greatest extent possible for the guests.

Once the door closed, as long as the people of the Xuanji Pill House didn't leak out, no one knew what customers were selling, much less how many Heaven beads they had sold. As for the Xuanji Pill Pavilion, they also strictly forbade the employees to reveal their secrets.

Tang Huan, Tie Kuo, and He Yu Tong randomly picked a team and lined up at the end.

Not long after, it was their turn. Pushing the door open, he saw a small room about three meters in length and width. In the room, there was a counter, and behind the counter was a middle-aged man that seemed to be in his forties.

The moment the door closed, the noise outside was immediately blocked.

The middle-aged man swept his gaze across the place and saw Tang Huan pause for a moment. Then, a strange look flashed across his eyes, as if he was suspicious of the fact that Tang Huan did not emit any kind of Qi from his body. However, the middle-aged man did not pay too much attention to Tang Huan. His gaze immediately landed on Tie Kuo, and said with a smile: "So it's the eldest son of the Tie Family that has arrived. What a rare guest, may I know what the eldest son wants to sell?"

Tang Huan did not find it strange that this person could recognize Tie Kuang at a glance.

On the way here, Tang Huan had heard from Tie Kuo that he had accompanied He Yu Tong to sell some spirit herbs. In addition, the xuanji Pill Pavilion was very familiar with the situation of the large families within Nether Cloud City. A person with a bit of status would be recognized by the shop assistant the moment they arrived here.

Tang Huan did not utter a word, and left the whole thing to Tie Kuo.

Tie Kuo didn't say anything more as well. With a wave of his sleeve, a pile of glittering golden fruits appeared on the counter.

"Golden Cicada? Forty-seven pills! "

When the middle-aged man saw this, his eyes flashed with a strange light. He had bought quite a few "golden cicadas" in this period of time, but this was the first time he had seen several "golden cicadas", and in his position, he had seen even more precious things. As a result, his expression quickly became tranquil as he said calmly, "According to the calculation of a single five hundred Heaven beads, a total of twenty-three thousand five hundred Heaven beads."

With that, the middle-aged man quickly took out crystal clear jade plates from the drawer and handed them over to Tie Kuo. He said with a smile, "Ten thousand bead cards, two; a thousand bead cards, three; five hundred bead cards, one ... Young master Iron, please keep this properly."

"Thank you, farewell!"

Tie Kuo nodded his head as he kept the six pearl cards in his bosom. Afterwards, he gave a signal to Tang Huan and He Yu Tong, and the three of them quickly left the small room.

The entire process went smoothly, causing Tang Huan to sigh with emotion.

It wasn't without reason that the Phecda Pill Pavilion had been able to grow to such a degree. Just the fact that it was so secretive was enough to make one exclaim in admiration. If Tie Kuo had taken out nearly fifty "golden cicadas" in public, it would have instantly caused a sensation and would have spread throughout the entire Nether Cloud City in a very short period of time. Tie Kuo had exchanged the "golden cicada" for nearly twenty-four thousand Heaven beads, which was enough for many to be jealous of.

"Let's go to the next stop!"

Walking out of the hall, he turned to look at the pill house. Tang Huan resisted the urge to go in and take a look, waved his hand, and walked away with big strides. Tie Kuo and He Yu Tong chased after Tang Huan with quick steps. It was difficult to maintain the calmness from before, so their brows were filled with excitement.

The next stop was the "Artifact Martial Arts School" in the south of the city, where weapons and materials were sold.

Although the "Artifact Martial Arts Hall" was not as vast as the Xuan Artifact Pill Pavilion and spread throughout the entire Heaven Realm, in the Crimson light sky, it was a very powerful business. Behind it was a very powerful sect called the "Weapon Martial Arts Sect", and it was famous for crafting weapons for the next 36 days.

The flow of people in the Equipment Martial Arts School was not any less than that of the Xuan Ji Pill House.

Just like the Phecda Pavilion, the Equipment Martial Arts Hall was also divided into two parts: one was a specialized weapon, and the other was a specialized material. The Weapon Pavilion was filled with people, but the Material Hall seemed rather deserted. It was normal for something like this to happen, after all, there might not be a Weapon Refiner among the thousand cultivators there.

Although the number of people was small, the field was not small at all.

In the field that was hundreds of meters in length and width, all kinds of materials were arranged neatly on the ground. If you need any materials, you can go in and pick them. Once you've chosen

them, go to the exit and check out. As long as you don't hide any of the materials, the employees of the Equipment Martial Arts School will not interfere.

Tang Huan activated the Dantian Cauldron and the Dao Soul, he even activated "Intangible Buddha" and began to carefully investigate.

In the next moment, Tang Huan felt a faintly discernable pressure. Although he did not know the situation in the other areas of the stadium, he believed that the pressure had completely covered the entire area. This should be the cultivator's "power of the heavens". Only by stepping into the seven transformations of Heaven, could the normal pressure of the cultivators be converted to power. However, for this power to cover such a vast area, its owner's strength must not be very strong.

It was no wonder that the staff of the Artifact Martial Arts Library didn't interfere with the cultivators who picked out the materials. If they were to steal from here, they would immediately be discovered by the experts guarding the Artifact Martial Arts Library.

After exchanging glances with Tie Kuo and He Yu Tong, the three of them started to wander around the stadium. There were many materials that Tang Huan had seen or even possessed before in the lower realms, such as Natural Divine Stone. However, what was different from the lower realms was that these Divine Level Stone were all surrounded by either dense or faint immortal energy.

Chapter 1369 - Celestial Six Pin

In the lower realms, Natural Divine Stone were all very expensive, but in the Heaven Realm, they were relatively cheap.

According to the grade of the piece of Divine Stone, there would be at least one or two Heavenly Jewels and at most one hundred Heavenly Jewels. Moreover, there were many Divine Level Stone. Even if it was a Saint-rank Divine Level Stone, unless it was one of the extremely rare ones, there would usually be hundreds, or even thousands, of them.

If this was the case for the small Nether Cloud City, then if it was the "Flowing Flower Domain" or even the famous big cities like the Crimson Radiance Sect, the "Equipment Martial Commerce Pavilion" would be considered extremely huge.

Natural Divine Stone were only one of a kind, but other precious materials such as synthetic Divine Level Stone, iron ore and other lower realms could be seen everywhere. From this, it could be seen that the demand for Heavenly Soldier s in Heaven Realm, especially in a small city like Nether Cloud City, was extremely high.

The majority of the customers in this place wandered around in front of these Heavenly Soldier materials.

With Tang Huan's Tools Method Attainments, if he had enough time, he could completely refine a large number of Heavenly Soldier s to sell. Unfortunately, it was only three months away from the "Heaven's Path", and Tang Huan couldn't use all of it to forge weapons these days. Even if he could buy pills from the xuanji Pill House to increase his cultivation, he would have to leave enough time for cultivation.

After casually looking around, Tang Huan walked towards the depths of the arena.

There were only a few dozen people in that area. The ones who were truly picking out the materials were only a few dozen or so people, and the rest were all followers. The appearance of Tang Huan,

Tie Kuo, and He Yu Tong immediately attracted the attention of the cultivators. However, in an instant, those people disdainfully shifted their gaze away.

Noticing the gazes of the cultivators, Tie Kuo and He Yu Tong's faces were filled with dissatisfaction.

However, Tang Huan ignored them, and stared straight at the fiery red rocks a few meters in front of him. Each of them was around the size of a baby's fist, round and crystal clear, as if they were carved from beautiful jade. A dozen of them were stacked together, shining brightly, like a Divine Level Stone with dense immortal spirit energy lingering around it.

"Dao Stone!"

These two characters appeared in Tang Huan's mind reflexively.

In the lower realms, different grades of gems were needed to forge weapons. In the Heaven Realm, Dao Stones were needed to forge Dao weapons. This was a type of stone that contained the power of Law of the Tao. According to the strength of the Law of the Tao, it could be divided into lower, middle, upper, heaven, saint and divine rank.

Those who would appear in the "Artifact Martial Commerce Hall" in Youyun City would only have low-grade Dao stones.

After all, the strongest Weapon Refiner in the entire You Yun City were only Saint-rank Heavenly Blacksmiths. In the Heaven Realm, Weapon Refiner who could craft Dao artifacts were called "Heavenly Arts". There were also lower, middle, upper, sky, sage, and divine sixth grade.

Without low-grade divine tools, it was sufficient to have low-grade materials. Even if he were to sell medium-grade materials, they would only be for decoration. As for the low rank materials, there would often be Holy-ranked Heavenly Blacksmiths who wanted to advance to the Heaven Arts Realm buying them. Although the sales weren't good, they weren't bad either.

After all, the Weapon Refiners were relatively rich, and were very willing to spend Heavenly Jewels on this.

Tang Huan's two eyes quickly moved down, and indeed, he discovered the sign for the fiery-red Dao-stone: "Profound Flame Dao Stone, low grade, one thousand five hundred Heaven beads!"

One thousand and eight hundred Heaven beads for one, this price was truly expensive!

Although Tie Kuo and He Yu Tong knew that the materials were expensive, that was only according to hearsay. Now that they had entered the Equipment Martial Arts Hall for the first time and saw the prices displayed in front of the Dao Stone, they were quite shocked.

Tang Huan did not immediately make a decision. After carefully inspecting the "Profound Flame Dao Stone" for a moment, he continued to move forward.

"Green Spirit Dao Stone, low rank, one thousand Heaven beads!"

"Ice Edge Dao Stone, low rank, two thousand Heaven beads!"

"Jade Rainbow Clouds Dao Stone, low rank, one thousand five hundred Heaven beads!"

"..."

"Xuan Xiao Iron Crystal, low rank, five hundred Heaven beads!"

"White Cloud Iron Crystal, low grade, eight hundred Heaven beads!"

"..."

The area where the materials for the Dao Artifact were stored only occupied ten percent of the entire area. Tang Huan, Tie Kuang, and He Yu Tong very quickly finished their tour. The cheapest of the low grade Dao Stones here cost a thousand Heaven beads each, while the most expensive ones cost three thousand Heaven beads.

There was a heaven and earth difference between Heaven Realm iron ore and the lower realms.

Like dao stones, they were also tainted with either dense or faint immortal spirit energy, and contained either strong or weak power of the Law of the Tao. They condensed into crystals that were as lustrous as jade. It was also because of this that the iron ore of the Heaven Realm and the lower realms were completely different, and were called "Iron Crystals".

Compared to Dao Stones, there were fewer types of Iron Crystals, but there were quite a few of them.

After all, one or two low-grade Dao stones were enough to forge a low-grade Dao weapon. However, there were at least four low-grade iron crystals, so the Equipment Martial Arts School had plenty of them.

After pondering for a moment, Tang Huan, Tie Kuang, and He Yu Tong pulled over a small trailer and started to move.

One by one, the iron crystals and Dao stones were placed inside ...

The other cultivators in this area had already completely treated Tang Huan and the others as the young Disciples of some family who had been sent to purchase materials.

There were only a few Sacred in Youyun City who had a chance of successfully forging a Dao Artifact, but when they saw the materials they were picking, they could not help but turn their heads to take a look from time to time, but the more they looked, the more shocked they became. They actually managed to obtain so many Dao Stones and Iron Crystals at one go?

"Motherf * cker, with all these materials, the total should be more than 20,000 Heavenly Jewels, right?"

"Which family is planning to forge a Dao Artifact with such a generous hand?"

"You're quite rich, but in the end, all of it was for naught."

"..."

After a brief moment of surprise, some of the Saint-rank Heavenly Blacksmiths could not help but sneer.

It was said that there was a chance to forge a Dao Artifact, but that was only a hope. There was still a long way to go between hope and reality.

Saint like them also had a chance of success, but they didn't dare to wantonly purchase Dao Stones and iron crystals to forge Dao Artifacts. This was because the chances of success were less than half, but the chances of failure was more than 99%.

As long as the Tools Method Attainments was not bad, they could quickly earn a lot of Heaven beads. However, they were also very poor, because to advance to the lower tier Heaven Arts, they would have to constantly buy materials to try to forge Dao artifacts.

It could be said that all their Heavenly Jewels were filled in the hole made by the Dao Equipment, a hole that could never be filled.

The materials for the twenty-thousand Heaven beads, if they failed, even the richest clan or Saint-rank Heavenly Blacksmith in Nether Cloud City would have to suffer for a very long time. Under the gazes of many people that were full of ridicule and ridicule, Tang Huan very straightforwardly paid his bill and left quickly with Tie Kuo and He Yu Tong.

Chapter 1370 - Refining Dao Elements

After leaving the Artifact Martial Arts School, Tang Huan, Tie Kuang, and He Yu Tong did not return to the Iron family, but instead went straight to the He family.

This was Tang Huan's request!

Iron Kan's appearance yesterday had taught Tang Huan a lesson.

If someone else from the Iron family were to barge in during the forging process, they might expose the existence of the "Nine Yang Divine Furnace" and the secret that he was able to forge Dao artifacts. This would bring him a huge amount of trouble; even if Tie Kuo was standing guard outside the door, it would not guarantee his safety.

It was much better to go to the He Clan to forge Dao artifacts.

Although He Yu Tong was only a Three Transformations Heaven Realm person and her cultivation was not high, she was still a Head of the He family with the strongest cultivation in the clan. With her and Tie Kuo's presence, Tang Huan did not need to worry about being disturbed by anyone as he was able to calmly forge his first weapon in the Heaven Realm.

The He Clan and the Equipment Martial Arts School were quite far from each other. When they arrived at the area where the He Clan cultivators lived, it was already afternoon.

The prestige He Yu Tong had in the He family could not be compared to Tie Kuo's in the Iron family. Everywhere he went, the He family cultivators he encountered were all well-behaved and extremely respectful to the Head. Before long, they had arrived at Head's residence. Then He Yu Tong and Tie Kuang brought Tang Huan into an underground stone room.

It was said that this stone room was able to isolate sound and breath. Even if the Dao item was released, there was no need to worry about the news leaking out.

The He family had been in ruins for a long time, yet they still kept such a place. Tang Huan was indeed surprised, but this was what Tang Huan wanted. Of course, it was impossible to completely isolate the aura within this underground stone chamber. It was just that the cultivators of Youyun City were too weak and could not detect it due to the obstruction of the stone chamber.

"Brother Tie, Lady Tie, I'll have to trouble you two to help me keep watch next." Tang Huan warned.

"Brother Tang Huan, don't worry about forging. As long as the two of us are still alive, no one will be able to disturb you." Tie Kuo pounded his chest.

"Brother Tang Huan, if you have any orders, feel free to greet us." He Yu Tong also laughed.

"..."

After Tie Kuo and He Yu Tong left the stone room, Tang Huan exhaled lightly and sat down cross-legged. With a slight thought, the six dao stones and the twenty odd metal crystals left the "Sumeru Magical Ring", revealing themselves in a crisscross pattern. If all of them were successful, then these materials would be enough to forge four low-grade dao tools.

Out of the forty-seven "golden cicadas", only a little over twenty thousand were left.

Only low-grade dao stones and low-grade iron crystals could be forged into low-grade dao tools, and they would need "Immortal Dao Yuan" to succeed. This item was not sold in the Nether Cloud City, it was only found in those large cities, and it was very expensive. A low-grade dao tool called "Immortal Dao Yuan" would cost thousands of Heaven beads.

So even if he could sell it, Tang Huan did not plan to buy it.

The Sacred Tier Heavenly Blacksmith of Nether Cloud City would not even try to forge a weapon and would instead spend a lot of time to refine the "Immortal Path Essence" from the Celestial Sky Spiritual Aura.

Tang Huan was also prepared to do the same.

The most commonly used method to refine "Immortal Heavenly Yuan" was widely spread throughout the Heaven Realm, but it also required the longest amount of time. As for some better methods, they were basically all secret techniques. If one didn't join a sect or force, the chances of learning them were close to zero.

Taking the "Immortal Path Essence" as an example, a cultivator would need at least a month or even longer to refine it using the most ordinary methods. However, the secret arts of some sects and powers could shorten them to fifteen days, or even less.

Amongst the inheritance of Tools Method of the Forging God, there was also a secret method to refine the "Immortal Dao Yuan" from the Immortal Sky Spiritual Energy.

With his current cultivation base of the Fourth Transformation, he would only need eight days to obtain enough Immortal Path Essence to forge a low-grade Dao Artifact. This speed could be said to be shockingly fast, if people knew that Tang Huan had such a secret technique, countless of cultivators would probably attack him.

However, to Tang Huan, this speed was still rather slow. After all, what he wanted to forge was not one Dao Artifact, but four. In that case, just refining the Immortal Heaven's Path Essence would take over a month. If the forging time was added in, around one and a half months would have passed.

Fortunately, Tang Huan had the "Nine Yang Divine Furnace". Its existence could greatly shorten this process.

In a blink of an eye, the cauldron came out of Tang Huan's Dantian, revealing a huge body, but under Tang Huan's intentional control, the cauldron immediately shrank, and in the end, it became only a few metres in radius, and started to circulate at an unprecedented speed in front of Tang Huan.

A huge amount of sucking power emerged and the immortal sky spirit energy gathered endlessly in the cauldron.

Not long after, all of the surrounding celestial spiritual energy was extracted. However, even though this stone room was sealed, it couldn't stop the celestial spiritual energy from seeping in. After a while, some celestial spiritual energy began to pass through the thick stone wall and enter the stone room.

"It's starting!"

At the entrance of the stone room in the outer courtyard, Tie Kuo and He Yu Tong simultaneously sensed the movement of the surrounding celestial spiritual energy. At the entrance of the stone room in the outer courtyard, Tie Kuang and He Yu Tong simultaneously sensed the movement of the surrounding celestial spiritual energy.

The speed at which Tang Huan absorbed the Immortal Qi was shockingly fast.

Fortunately, compared to the amount of Celestial Sky Qi in the sky, Tang Huan did not absorb much, so it would not cause too much commotion.

Earlier, He Yubing had given the order that she and Tie Kuo would go into seclusion and break through to the fourth level, not allowing anyone to disturb them. As a result, even if the surrounding He family cultivators noticed, they would think that the change in the celestial spiritual energy was caused by their cultivation.

In the underground stone room, Tang Huan was completely focused.

"Rumble ..."

After an unknown amount of time, the "Nine Yang Divine Furnace" within a radius of a few meters was finally filled with the spirit energy of the heavens. In between Tang Huan's mind instructs (in a second), the cauldron began to follow a strange rhythm and started to tremble in front of him, the intense sound immediately burst out, becoming increasingly loud and clear in the stone room.

At the same time, Tang Huan released the transparent "Primal Chaos Dao Flame" from his palm and covered the cauldron.

Immediately after, the transparent dao flame on the surface of the cauldron seemed to have transformed into countless tiny spiritual snakes that drilled into the cauldron from all directions. They swiftly swam through the entire cauldron full of dao immortal spiritual energy ... Tang Huan's powerful control ability had reached its peak at this moment.

Time flew by, and within the cauldron, the immortal sky spirit energy seemed to be dissipating, traces of white energy started to rise, but before they could float out of the furnace, the flame sealing the furnace mouth was like an invisible giant hand, continuously kneading them, gathering and forming into a ball.

The white energy was the "Immortal Dao Yuan"!
