

W. Master 1371

Chapter 1371 - Mysterious Flame, Crimson Fire

"It's been ten days. I wonder how it's going inside?"

At the entrance of the stone chamber in the He Clan, Tie Kuo couldn't help but mutter.

At this time, the immortal sky spirit energy had already stopped gathering in the stone room. Obviously, Tang Huan had stopped absorbing the immortal sky spirit energy.

"Seems like I've already refined the 'Immortal Path Essence' required to forge a low-grade Dao weapon." He Yu Tong muttered to himself.

"So fast?"

Tie Kuo was stunned, but soon after, his face revealed an expression of surprise. "Impossible, right? I once heard from my father that for those Holy Ranked Heavenly Blacksmiths that have reached the Heaven Realm, it would take at least thirty to forty days to refine their Immortal Qi. Even if it's the Heaven Realm, it would take at least twenty days. "

"Just because they can't do it in ten days doesn't mean that Brother Tang Huan can't."

"When Brother Tang Huan was in the lower realms, he was already able to forge weapons that were infinitely close to low-grade Dao-artifacts. Those Saint-rank Heavenly Blacksmiths your father spoke of were able to do this before transcending the tribulation? The success rate of forging a Saint-rank Heavenly Soldier, none of them could have reached thirty percent! "

As he spoke to here, He Yu Tong was somewhat disdainful. "Do you think that they alone can successfully forge a low-grade Dao Artifact?"

"Madam is right."

Tie Kuo scratched the back of his head in embarrassment, then chuckled. "Amongst the Sacred Ranked Heavenly Blacksmith in You Yun City, Brother Tang Huan is definitely the most likely to succeed. Out of the four materials that I bought this time, as long as I successfully forged one of them, the title of the Tang Huan Brothers can be considered authentic. "

"It's good to succeed, but it doesn't matter even if it fails." He Yu Tong took a light breath and said slowly, "Brother Tang Huan has limitless potential, and if we do not succeed now, when my cultivation becomes stronger in the future, I will definitely succeed as well. However, whether it was success or failure, this matter must not be leaked to anyone, including your father. Otherwise, the two brothers Tang Huan brothers would no longer have any freedom to speak. Benefactor believes in us, so we definitely cannot trap him in dangerous situations! "

"I understand! "Don't worry!"

"..."

If they were in those powerful sects or big cities, it wouldn't be a problem for Tang Huan to display an even more astonishing talent. Because in those places, there were simply too many talents and too many strong practitioners. If Tang Huan was able to forge a low-grade Dao Artifact, a large amount of sects would definitely try to recruit him.

However, in a small place like Youyun City, a family like the Lu family, the first thing they did after finding out was not to recruit Tang Huan, but to control Tang Huan and force him to forge a Dao Artifact. It was because they knew that they wouldn't succeed in roping him in or recruiting him.

How could a roaming dragon yield to a shallow pond?

... ..

"Hu!"

Inside the underground stone room, Tang Huan heaved a long sigh of relief. The cauldron had already stood still in front of him and the flames were like a tide as they retreated back into the Dantian. In his palm, there was an additional ball of white misty energy the size of a washbasin. This "Heavenly Immortal Yuan" was enough to forge four low-grade Dao weapons.

With a satisfied smile, Tang Huan placed the ball of "Immortal Heavenly Yuan" back into the "Nine Yang Divine Furnace" and then returned it back to the Dantian.

After a while, the furnace appeared again, the inside of the furnace was already empty, while the big ball of "Immortal Qi" was left inside Tang Huan's Dantian.

"Everything is ready. You can begin."

Tang Huan's gaze fell upon the dao stone and the iron crystal at the side. Even though the two were not the same in quantity, there were only four of them, and each matched up to the other. As for the selection of materials for low-grade Dao tools, they only needed to follow one principle, and that was the characteristics of the Law of the Tao's power contained within the Dao stones and iron crystals.

The two were the same. Forging an Inferior Grade Dao Artifact would allow one to display the best of this single characteristic. Of course, this was only a general consensus. Even if it was the same type of Dao stone or crystal, it was impossible to be completely the same, let alone different dao stones and crystals.

In a blink of an eye, Tang Huan had already grabbed two dao stones and six iron crystals.

The Dao stones were the "Profound Flame Dao Stones" and the iron crystals were the "Scarlet Fire Iron Crystals". After a flick of a finger, all of them were put into the "Nine Yang Divine Furnace" by Tang Huan.

The forging of a Dao Artifact was very different from that of the Heavenly Soldier.

Forging heavenly armaments was first used to temper iron ore, and then to refine gems. However, when forging Dao weapons, one first needed to draw upon the power of the Law of the Tao contained in the materials, causing the two to resonate. Only when the resonance had reached a certain point could he begin smelting the Dao-stone and the iron crystal.

Not only did he need this sort of resonance when smelting the materials, he also needed the same amount of fusion materials.

When forging a Dao Artifact, the resonance of the Law of the Tao's power was extremely important. It continued throughout the entire process of forging the Dao Artifact. If he made a mistake in this step, he would definitely fail.

In addition, the accuracy of the Weapon Refiner's grasp was also required to know to what extent the Law of the Tao's power was resonated with the dao stone and iron crystal. In the instant when the materials were smelting, if the resonance was not enough, the materials would immediately detonate. In addition, this resonance was not constant, as the forging process continued, Weapon Refiner would also need to adjust the resonance of the Law of the Tao's power, be it stronger or weaker.

The resonance of power was only one of them.

There was another important factor that determined the success or failure of a Dao item, and that was the dao diagram. The dao diagram could be said to be an evolved version of the Spirit Map, and it was countless times more complicated than the Spirit Map. Of course, this dao diagram was completely different from the third stage of the ability "Yin and Yang Void Method", "Yin Yang dao diagram".

Different materials required different dao tools, and the dao diagrams needed to be fused were also different. Before forging, no one knew what the Dao Diagram on the Dao Artifact would look like. The Weapon Refiner would need to quickly deduce the Dao Diagram during the process of forging, and then carve it out and incorporate it.

When smelting, fusing with dao stones and iron crystals, one would still need to maintain the resonance of the Law of the Tao's power, as well as analyze the dao diagrams. The difficulty could be imagined. In this process, the control and deduction abilities of the Weapon Refiner were extremely high, if one was careless, they would not be able to escape from failure.

There were so many Saint-rank Heavenly Blacksmiths in Nether Cloud City, but not a single one of them was able to successfully forge a Dao Artifact.

However, Tang Huan was not worried about that.

When he was in Forging God Great World, he had forged many Divine Armaments. The Divine Armament's Spirit Map was actually just a weaker version of a dao diagram. Although Tang Huan had never forged a Dao Artifact before, he gained a lot of experience from the Divine Armament.

Moreover, Tang Huan himself possessed a Dao Artifact, which was far superior to those Saint-rank Heavenly Blacksmiths who had not even touched Dao artifacts before.

There was the God Creation Art, there was the "Primal Chaos Dao Fire", there was the "Nine Yang Divine Furnace", there was an exceptionally strong control and deduction ability, there were Dao artifacts for observation, there was the experience of forging Divine Armaments ... If he still could not forge a low grade Dao Artifact like this, Tang Huan could directly find a place to smash his head.

"Rumble ..."

Amidst the agitated trembling, the "Nine Yang Divine Furnace" had already begun to slowly move. Tang Huan squinted his eyes, his expression was solemn and his mind was completely immersed in the cauldron.

Chapter 1372 - Celestial Crafts

"Twenty days!"

In the courtyard of the He Clan, Tie Kuang and He Yu Tong glanced at each other, worry could be seen between their brows.

Ever since the flow of the celestial spiritual energy stopped ten days ago, they hadn't detected any activity outside. After Tang Huan refined the "Immortal Dao Yuan", he was sure that he would immediately begin forging Dao Artifacts. Generally speaking, after obtaining "Heavenly Immortal Essence", it would take about five days to successfully forge a low quality dao tool. But if he failed, then it would be hard to say. Not to mention failing four times in a day, he might even fail ten times in a day.

In ten days, if Tang Huan had completed one attempt, he would have long started to absorb the Immortal's Sky Qi and refine the "Immortal Heavenly Yuan" a second time.

However, there was still no movement from inside the stone chamber.

It was extremely likely that Tang Huan's four sets of materials had all failed. They were not worried that Tang Huan would fail, and lose all of the materials worth more than 20,000 Heaven beads, which was indeed heartbreaking, but there was still a lot of time to come, and if they lost it now, and in the future, they could just earn it back, which was definitely something Tang Huan had the ability to do.

What they were worried about was that Tang Huan would suffer consecutive failures and would never be able to recover from his losses.

The more amazing a cultivator was, the more likely such a situation would occur. Tang Huan was a favored son of heaven, a First Saint Ranked Heavenly Blacksmith. He condensed his Nascent Soul before ascending to the sky, and forged weapons that were close to Dao weapons. When he reached the Upper Realm, his cultivation speed was still astonishing, and could be said to be a prodigy.

That was the only thing that was more worrisome.

No matter how gentle a genius was, he was still a prideful person. The blow he received was too heavy, and he might not be able to recover.

"Don't let your imagination run wild for now."

He Yu Dai's brows slightly knitted as she muttered to herself, "Let's wait a few more days. If Brother Tang Huan still hasn't made any movements from inside, we'll go in and take a look."

"Alright, then let's wait a few more days!" Tie Kuo nodded.

"Brother Tie, Lady Tie, why wait a few more days?"

A voice suddenly rang out.

Tie Kuo and He Yu Tong were stunned. They instantly turned to look at the entrance of the stone chamber, only to discover that the heavy stone door had silently opened. A figure stood at the entrance.

"Brother Tang Huan!"

With a leap, they had already traversed over a dozen meters and arrived in front of Tang Huan, their faces filled with surprise and joy.

Just a moment ago, he was still worried about Tang Huan, but in the next moment, he came out.

"Brother Tang Huan, it's good that you're fine! It's good that you're fine! "

Tie Kuo grinned, "It's just four failures, it's not a big deal. With these four failures, I will definitely succeed next time." As for the over twenty thousand Heaven Pearl materials, they will be gone if they are gone. With Brother Tang Huan's capabilities, it won't be long before you earn even more. "

He Yu Tong unhappily rolled his eyes at Tie Kuo. Tang Huan had suffered a huge blow from repeated failures, and yet he was still consoling him like this. Moreover, previously, Tang Huan was full of confidence, but now that it had ended in failure, if he mentioned this matter again, it would make him lose a lot of face.

"Don't listen to Tie Kuo's nonsense."

Immediately after, He Yu Tong laughed, "Brother Tang Huan, some of the little fellows in our He family are extremely curious about the matters of the lower realms. Since there's nothing to do, why don't I call those little fellows over, and they'll listen to Brother Tang Huan talk about the situation of the lower realms and broaden their horizons so that they don't have to pester me too much."

"Yes, yes, that's it."

Tie Kuo also came to his senses and nodded with a coy smile.

When Tang Huan heard this, he was a little confused. But now, he had already completely understood that Tie Kuo and He Yu Tong had thought that he had failed to forge all four low grade Dao Artifacts. That was why they suggested such a method to divert his attention.

Capturing the concerned gaze of the two, Tang Huan's heart was moved. He did not keep them in suspense as he smiled and said, "Brother Tie, Madam Tie, you two do not have to worry, I am fine. The first two attempts to forge a Dao Artifact were a failure, but the last two times were a success."

"What?"

"Success?"

Tie Kuo and He Yu Tong looked at each other in dismay.

After a moment of shock, the two of them were both excited and in disbelief. They had been worrying for a long time, but Tang Huan's four ingredients had not all failed. Tang Huan actually succeeded in forging an Inferior Grade Dao Artifact, which was definitely one of a kind in the current Youyun City.

"Great, great!"

In the next moment, Tie Kuo was so excited that his face was flushed red, and he shouted with excitement: "Brother Tang Huan, you are already an Inferior heaven's work ..." When he said the last few words, Tie Kuo suddenly came to his senses. He quickly lowered his voice as if he was afraid that others would hear it.

He Yu Tong also smiled and nodded his head.

He Yu Tong seemed to have thought of something, and looked at Tang Huan hesitantly: "That's not right, you said that the last two ingredients were successful, and that means you have forged two low rank Dao Artifacts, but to us, it feels like you have only refined one 'Immortal Dao Yuan'."

Hearing her mention this, Tie Kuo also realized this point, and a look of astonishment appeared on his face.

"Brother Tie and Madam Tie might not know about this, but the 'Heavenly Immortal Essence' that I refined at the beginning was sufficient to forge a low-grade Dao Artifact twice."

Tang Huan's face was brimming with a smile, but he did not speak the truth to the two of them.

In fact, not only did he refine four pieces of low quality dao tools at once, but he also successfully refined four pieces of materials into low quality dao tools. However, in a city without any Saint-rank Heavenly Blacksmith crafting tools, his success rate was truly frightening. Even Tie Kuo and He Yu Tong might not be able to accept it. Therefore, Tang Huan hid half of it.

Actually, a success rate of fifty percent was just as shocking.

"So that's how it is."

Tie Kuo and He Yu Tong were suddenly enlightened, but they were even more shocked in their hearts. Other saint rank Heavenly Blacksmiths would only be able to produce enough "Immortal Deity's elemental energy" to forge a low-grade Dao Artifact in thirty to forty days, but Tang Huan, on the other hand, had successfully refined two of them in ten days.

When Tang Huan was in the lower realms, he probably obtained an extremely powerful inheritance of Tools Method and possessed a secret method to refine the "Immortal Mystical Pill".

"Brother Tie, Lady Tie, why don't you go in and see how my skills are. We can discuss how to use them to trade for pills from the Xun Ji Pill Pavilion in secret." After looking at the two of them in his eyes, Tang Huan said with a smile.

"Good!" "Alright!"

Tie Kuo and He Yu Mu did not object, and after a while, the two of them followed Tang Huan into the underground stone room.

The originally empty space was now completely filled with a mix of red and blue lights. The dazzling light made it hard to look at. The moment Tie Kuo and He Yu's eyes adapted to the dazzling light, their gazes were glued to the blade and sword in the middle of the stone room like paste ...

Chapter 1373 - Senior

Deep in the night, Quiet Cloud City was brightly colored, as if it were a dream or illusion.

At the center of the city, the originally rather old Xumi Pill House was now shining brightly with a resplendent light as night fell.

The Pill Pavilion on the left was similar to the one on the right. It had over a hundred sealed rooms that were able to completely isolate all movements on the outside. In front of each room, there was a long line. By nightfall, the xuanji Pill House seemed to have become even more crowded with customers.

In a room to the right of the Pill Pavilion, a young lady was seated behind a counter. She had a pretty face and beautiful eyes.

If an expert were here, he would be able to tell that she was a Heavenly Swordsman.

"Creak!"

The door opened, revealing a tall and slender man in a white robe. Although he had a young appearance, his age was not young, and his entire body gave off a sage-like aura. What was even weirder was that the aura surrounding this person's body was extremely marvelous, causing one's heart to palpitate.

The yellow dressed woman's heart trembled. She immediately determined that this old man should be an expert with an unfathomable cultivation.

"Senior, we welcome you to visit the Xun Ji Pill House. May I ask what kind of pills Senior would like?"

The girl in the yellow dress stood up and bowed slightly. Her smile was still the same as before, but her tone of voice carried a hint of respect. Not only did the staff of the Xuanji Pill Pavilion have to have a good eye, but they also needed to have an exquisite appearance. For such an unfathomable customer like this, she naturally had to be cautious and not be slow.

Of course, with the background of the Xuanji Pill Pavilion, there was no need to fear anyone. However, opening a shop naturally required one to have the attitude of opening a shop.

"Little girl, how many juniors do you have in my family who need two 'Yang Soul Pills', three 'Divine Abilities Pills', one 'Heavenly Heart Treasure Dew' and one 'Heaven's Might Powder'? How many Heaven beads do they need?"

The white robed old man's vigorous voice rang out.

The yellow dressed lady smiled sweetly and said unhurriedly: "Senior, the 'Yang Soul Pill' is twenty thousand Heaven beads per pellet, and two is forty thousand; the 'Divine Abilities Pill' is forty thousand per pellet, and the three is one hundred and twenty thousand; the 'Heavenly Heart Treasure Dew' is sixty thousand Heaven beads per pellet; and the 'Heaven's Might Powder' is eighty thousand Heaven beads per pellet, for a total of three hundred thousand Heaven beads."

After calculating the price, the yellow dressed woman continued, "Senior, do you plan on using the pearl card to pay the bill, or ..."

"Little lady, this old man will use this thing to settle the bill. How about it?"

As soon as the white-robed cultivator finished speaking, the girl in the yellow dress felt as if her eyes were filled with a brilliant red light.

In front of him, there was a white robed old man with a red blade in his right hand. The blade was two meters long and looked like it was carved out of jade. It was crystal clear and red like fire. Almost at the same instant the long blade appeared, a terrifying aura filled the entire small room.

"Low grade Dao weapon!" The yellow dressed woman's expression changed slightly as she couldn't help but exclaim out loud.

"Little miss, I wonder if this low-grade Dao weapon is worth three hundred thousand Heaven beads?" The white-robed old man smiled as he placed the longblade in his hand on the counter.

"Buzz!"

The lady in the yellow dress held the handle of her blade, and sent in a burst of Profound Sky Qi, causing a clear and loud buzzing sound to echo out, as though it wanted to flip the whole room over,

following that, an increasingly terrifying aura filled the air, while a blazing Strength Qi surged out from the blade.

Ripples that could be seen with the naked eye swept out from the blade.

"Senior, this is a high-grade, low-grade Dao weapon."

The astonishment in the depths of the yellow dressed girl's beautiful eyes became even stronger.

After testing it out, she was able to immediately confirm the quality of this low-grade Dao item. Her own Law of the Tao did not match with the longblade, but even so, she was still able to move it to such a state. If she fell into the hands of a suitable person, she would definitely be able to unleash a greater power.

"In my xuanji Pill Pavilion, a normal low grade dao tool would be worth 150,000 Heaven beads, medium grade dao tools, 200,000 Heaven beads, high or low grade dao tools, and 300,000 Heaven beads. Senior, are you sure you want to use it to exchange for pills? If we use it to auction, we should be able to sell it at an even higher price. "

The yellow dressed woman calmed down and said slowly. She explained the situation clearly first, in case the customer suddenly regretted after the transaction was completed.

"Of course I know."

The white robed old man laughed, "It's just a low-grade Dao tool. I can't be bothered to go to the auction house and deal with it. Little miss, since it's worth 300,000 Heaven beads in the xuanji Pill House, I'll trade it for you."

"Alright!"

The yellow dressed lady nodded her head and revealed a smile on her face. She then folded her fingers and started writing on the counter that was as smooth as a mirror. The Heaven's Essence lingered on her fingers and seeped in like a thread.

What she wrote down was the various pills that the white-robed aged cultivator needed.

"Senior, please wait a moment. The medicinal pill you requested will be here shortly." However, she was even more curious about the origin of this white robed old man. He actually treated a low-grade Dao item like it was nothing, so his origin must be extraordinary.

"Crack!"

After about four to five breaths, a crisp sound came from the wall behind the girl. He turned around and lightly pressed against the wall. A secret compartment opened up. There was a small tray with four sparkling jade bottles on it. They were all the size of a baby's fist.

Each bottle was labeled with the words "Yang Soul Pill" and "Divine Abhijina Pill".

"Senior, the medicinal pill that you want is here." The yellow dressed woman took out the tray and placed it on the counter, "Senior can open it and examine it."

"No need. This old man believes in the credibility of the xuanji Pill Pavilion."

The white robed old man laughed, "Little girl, I wish you a pleasant cooperation. I will take my leave!" With a flick of his sleeve, he kept the four bottles back into his sleeve.

"Senior, take care!"

"..."

Under the yellow-clothed girl's respectful gaze, the white-robed old man opened the door and walked away. Then, he quickly left the Xun Ji Pill Pavilion.

On the main street outside the Pill Pavilion, there was an endless flow of cultivators and it was bustling with noise and excitement.

The white robed old man's sleeves fluttered as he quickly entered the stream of people. After walking for a while, he came to a secluded path with few people. He then quietly climbed over the wall and entered a yard by the side of the road. There was a man and a woman waiting in that courtyard. It was Tie Kuo and He Yu Tong.

"Brother Tang Huan, what's the situation?"

Seeing the old man in white robe appear, Tie Kuo could not help but feel happy as he lowered his voice and said.

"Done."

The white-robed old man smiled and nodded. His snow-white brows and hair quickly turned jet-black, and his facial features began to twist rapidly. A moment later, a brand-new, handsome face appeared.

This person was naturally Tang Huan.

The control over his vitality allowed Tang Huan to easily change the color of his hair, and changing his appearance was an easy thing for a heaven. The most important thing was that when Tang Huan entered the Xun Ji Pill House, he triggered the power of the God Crafting Crystal, causing it to slowly materialize. It made people feel that he was very strong, but not strong enough to see through him.

Such an image of a master could be said to be like a disguise.

Hearing Tang Huan's answer, Tie Kuo and He Yu Tong heaved a sigh of relief. Following which, He Yu's eyes landed on the long prepared black robe and turned with Tie Kuo. With a flash of the flames, the white robe on Tang Huan's body turned into powder and then into a black robe ...

Chapter 1374 - Superior Grade Heaven Crafting!

"A high-grade low-grade Dao weapon?"

Behind the Xun Ji Pill House, in a hall, a surprised voice suddenly sounded out, "A small Nether Cloud City can actually receive a high quality low-grade Dao Artifact? This was truly unexpected! Here, show it to this old man!" The one who spoke was a skinny old man in a green robe with a thin face.

"Yes, Pavilion Master!"

The middle-aged man opposite him nodded with a smile.

A fiery red blade had already appeared in his palm, and a powerful aura immediately filled the entire hall. This aura was mighty and overbearing, giving off a huge sense of pressure, and within

the blade, an incomparably majestic heat seemed to surge, as if an ancient volcano, which could erupt at any time, was hibernating within the blade.

"Huh?"

The old man in green robe exclaimed in surprise. He waved his right hand and a fiery red long blade flew out from the middle-aged man's hand. Grasping the long blade, the old man carefully examined it for a moment. Then, with a thought, vigorous Tian Yuan surged into the blade like a flood.

"Rumble ..."

The body of the blade trembled slightly, but it let out a deafening cry. On the surface of the blade, hundreds of millions of bright red lights burst out, shining so bright that the entire palace was flushed red.

At this moment, the volcano inside the blade suddenly erupted. The terrifying heat rolled out in all directions like raging waves. The air in the hall was immediately covered in a layer of red, as if it was about to ignite into a raging fire.

"Good saber!"

The green-robed elder's eyebrows twitched, and he couldn't help but praise, "It is indeed a high-grade low-grade Dao item. Guo An, who took this Dao item?"

"It's the little girl Shuang Rong."

The middle-aged man called Guo An laughed, "According to her, the one who brought out this low-rank Dao item is an old man wearing a white robe." The middle-aged man called Guo An laughed, "According to her, the one who brought out this low-rank Dao item is an old man wearing a white robe.

"All of these pills were used by the heavens?"

The old man was slightly surprised. After the Tianyuan sword dissipated, its luster dimmed and its power was greatly reduced.

"Guo An, go, bring Master Xue Yu here for verification. This blade doesn't seem to be as simple as it seems. This old man isn't Weapon Refiner, and I'm not too sure if he's a high-grade heaven's work, or if he might be able to discern something."

"Alright, I'll go now!"

Guo An left quickly.

The azure-robed old man rubbed the long blade in his hand, his gaze sweeping over the area again and again, the suspicion in his eyes growing even stronger.

After a while, a slightly dissatisfied voice sounded out, "Brother Qin, is a mere low-grade Dao item worth you finding me for verification in the middle of the night?" As his voice faded, a skinny short elder dressed in black appeared at the entrance of the hall.

This short elder was naturally Xue Yu. Not far behind him, Guo An also followed in.

"Brother Xue, don't worry. You'll know once you see it." Qin Dynasty laughed.

"Isn't it just a high-quality low-grade Dao item?" No matter how good it is, it is still just a low-grade treasure! "

Xue Yu arrived in front of Qin Dynasty in a few steps. He reached out his hand and grabbed the fiery-red longblade without a care. However, in the next moment, he exclaimed in surprise, "Yo, not bad ..."

"Eh? "This low-grade Dao weapon ..."

However, this little bit of surprise did not last for even a moment before he frowned and suspiciously glanced at Qin Chao. His gaze once again landed on the longblade in his hand as his withered hand slowly swept over the hilt and blade.

"Perfect!" "Perfect..."

Not long after, Xue Yu's gaze towards the fiery-red longblade became hotter and hotter, and a wisp of red actually appeared on his face. "Qin Dynasty's old brother, this isn't an ordinary low-grade Dao tool, but a top-grade one, perfect! It was simply perfect! "I never thought that the day before I left Nether Cloud City, I would see such a perfect low-rank Dao item!" The more Xue Yu spoke, the more excited he became. In the end, even his body was slightly trembling.

At this moment, when he looked at the longblade in his hand, his gaze was like a perverted wolf that had been starved for many years before suddenly discovering a naked and exceptional beauty.

The Qin Dynasty and Guo An looked at each other. Xue Yu was a heaven's work, and there were dozens of high-grade Dao tools that were successfully forged by him, making him a famous Weapon Refiner in the entire Flowing Flower Domain. But now, he had actually lost his composure because of a low-grade Dao tool.

"Good!" "Alright!"

Xue Yu didn't care about their reactions at all. His two gazes were completely glued to the longblade, as if he wished for nothing more than to drill his two eyeballs into the blade.

"Cough, cough!"

Qin Dynasty coughed, and could not help but say, "Brother Xue, this high-quality low-rank Dao item is indeed powerful, but is it really as exaggerated as you said?"

"Why isn't there one?"

Hearing that, Xue Yu's eyes instantly glared, as if he was extremely dissatisfied with the Qin Dynasty's questioning of his judgment. "Brother Qin, let me tell you, the perfection of this low-grade Dao Artifact is absolutely beyond your imagination! "Let me put it this way, this high-grade divine art that this old man has forged can have thousands of low-grade dao tools, but none of them have reached the level of this low-grade dao art. The best one is probably only seventy to eighty percent of this blade."

Hearing his words, both Qin Dynasty and Guo An were very surprised, then they gave Guo An a look. Guo An understood and quickly left the palace.

Tsk tsk, although this old man has never personally witnessed the process of forming it, this old man can imagine that when forging this low-grade dao tool, the resonance of its strength and power must have been maintained at the highest level from start to finish. The compatibility of the dao

diagram also reached one hundred percent, the control of fire, the timing of the fusion of the dao diagram and the metal crystal, the timing of drawing of the dao diagram, and even the fusion of the immortal Heavenly Energy.

"From beginning to end, it was a complete and natural feat! An expert, an absolute expert! This old man himself laments his inferiority! "

"Brother Qin, which heavenly work did this?" Xue Yu gently caressed the longblade, unwilling to let go. He seemed to be caressing his lover's skin, but his two eyes were finally willing to move away from the blade. They revealed a trace of anticipation as they looked towards the Qin Dynasty.

"Brother Xue, I don't know either."

Qin Dynasty laughed dryly, "This was collected by a little girl from our xuanji Pill Pavilion. Someone traded this blade for four pills to raise one's cultivation, it's worth 300,000 Heaven beads!"

"Three hundred thousand Heaven beads?"

When Xue Yu heard this, he instantly let out a strange cry and said with grief, "Which bastard did this? Such a perfect Inferior Grade Dao Artifact was actually used to exchange for such a pile of trash."

Chapter 1375 - 1.5 million Heaven beads!

Qin Chao's face turned black as he said angrily: "Brother Xue, in your eyes, the pills that are worth three hundred thousand Heaven beads in my xuanji Pill House are actually trash?"

"Okay, let me correct you."

Xue Yu also realized that he had spoken the wrong words and said awkwardly, "The xuanji Pill House's pills are indeed not trash, but compared to this blade, those pills that are only suitable for Heaven Man cultivators are no different from trash." Seeing that the Qin Dynasty's expression was even darker, Xue Yu hurriedly said, "Brother Qin, do you know how many Heaven beads such a low-grade Dao item is worth?" Without waiting for the Qin Dynasty to speak, he snorted and said, "At least one million Heavenly Jewels!"

"A million?" The Qin Dynasty was shocked, but they didn't bother to bicker with Xue Yu. "Brother Xue, is that possible?"

"How is that impossible?"

"To an ordinary cultivator, he's only worth five hundred thousand at most, but to a heaven's work like this old man, not to mention one million, even if it's two million, there would still be a lot of people fighting over it. If one were to thoroughly understand the forging methods of this Dao Artifact, then it would simply be unimaginable for them to improve their Tools Method Attainments. Brother Qin, this old man will not speak anymore. Give me the friendly price, one million and five hundred thousand Heaven beads, and this old man will buy it. "

"Uh, well..."

The Qin Dynasty was a bit inconceivable. Tonight, they had just exchanged medicinal pills for an Inferior Grade Dao Artifact. In the blink of an eye, it had risen by 1.2 million. This was a net profit. One had to know that the profit from this Xun Ji Pill House was probably only around one million.

"Too little? This old man doesn't want your friendship price anymore, two million! " Xue Yu grunted.

"Brother Xue, you misunderstand." The Qin Dynasty suddenly came to its senses, and said with a wry smile, "I just feel that it is somewhat inconceivable. This blade was bought by our Xuanji Pill Pavilion with three hundred thousand Heaven beads. If Brother truly wants it, then give me three hundred thousand Heaven beads and I will not lose anything. "

"How can this be?" Xue Yu repeatedly shook his head. "How can three hundred thousand reflect the value of this blade? One million and five hundred thousand, that's settled! "In a moment, tell Guo An to come to this old man's place and take the bead card."

"Huh?"

The Qin Dynasty was a little dazed. He realized that he had the same thoughts as this high-grade heaven's work guy. Three hundred thousand, he actually had to buy it for a million and five hundred thousand?

"Brother Qin, farewell. I need to study more quickly. Also, I won't leave tomorrow. I'll stay here for a while longer ..."

Before he finished speaking, Xue Yu grabbed his long saber and anxiously turned around to leave. He'd only walked a few meters before Guo An led a beautiful young woman in a yellow dress in. Xue Yu seemed to have thought of something and his footsteps suddenly stopped. He actually suppressed the anxiousness in his heart and stopped.

"Greetings Pavilion Master, Greetings Great Master!" Seeing the Qin Dynasty and Xue Yu, the yellow dressed woman hurriedly bowed and greeted them.

"Xiu Rong, tell me the details of the situation." The Qin Dynasty nodded.

"Yes."

The young woman in a yellow dress, called Shu Rong, quickly explained the situation of the old man in white robes using a low rank Dao tool in exchange for a pill. She was also quite surprised in her heart, as she completely did not expect that the low rank Dao Artifact she had received would attract the attention of the Pavilion Master and Master Xue Yu.

Xue Yu suddenly asked: "Girl, you're the only one who has come into contact with that person in the xuanji Pill Pavilion. What judgement do you have towards him?"

"I can't see the cultivation of that person. The feeling he gives off is extremely strong. He most likely possesses a cultivation above Heavenly Monarch."

Shu Rong smiled bitterly, "However, according to my judgement, he should be a cultivator from Nether Cloud City." If he were to pass through Youyun City, there would be no need for him to come to our xuanji Pill Pavilion to exchange for pills. Instead, he would be able to go directly to his original city. "

"Makes sense." Xue Yu nodded.

"Strange, besides me and Brother Xue, there are also cultivators who have crossed the Sky Sovereign Realm in the current Youyun City?" However, the Qin Dynasty murmured somewhat doubtfully.

"Oh right, Pavilion Master, Master, I have a question."

Suddenly, Shu Rui seemed to recall something as her eyes flashed with suspicion, "When that person collected the pills, the spatial ring on his hand seemed to be something from the lower realms. Its capacity should be extremely small ... With a cultivation above Heavenly Monarch, you are already an expert. To actually use such a spatial ring, that is truly unbelievable. To be able to take out such a low rank Dao item, it shouldn't be possible for you to buy even better spatial items, right? "

Qin Dynasty frowned and asked: "This is really puzzling!" Other than that, are there any other clues? "

"No more."

She shook her head.

Since that person has appeared in the Xun Ji Pill House, there is no way that he would not leave behind any traces. Moreover, he is a cultivator of Nether Cloud City, and moreover, a family that can casually take out such a low-grade Dao tool must have quite the power.

Xue Yu chuckled. "With the capability of the xuanji Pill House, finding him shouldn't be too difficult."

"..."

Tang Huan did not know that the Dao Artifact that he had taken out had already been highly valued by the xuanji pill house. He, Tie Kuo and He Yu Tong had already returned to the courtyard where the He Family's Head lived.

"Brother Tie, Madam Tie, this is yours."

Taking out the medicine bottle from his spatial ring, Tang Huan smiled as he handed over the label "Yang Soul Pill". From the other bottle, he took out two crystal clear white pills and handed it over to the two of them, "These two" Divine Abilities "are also for you and your wife, accept them."

"Brother Tang Huan, didn't you only have the 'Sun Soul Pill'? Why"

Tie Kuang and He Yu Tong were both shocked. They did not intend to take any compensation from Tang Huan. Back then, after much persuasion from Tang Huan, they had reluctantly agreed to accept two "Yang Soul Pellets". However, they did not expect Tang Huan to not only exchange two "Yang Soul Pellets", but also two "Divine Powers Pellets".

"If you think I'm a friend, then accept me."

Tang Huan laughed, "Furthermore, I have already exchanged the pills. If you all do not want them, then that would be a waste, since it is impossible for me to sell them."

Tie Kuang and He Yu Tong looked at each other and laughed bitterly. Since Tang Huan had already said so, they would have to accept it no matter what. The Sun Soul Pill and the "Divine Abilities" were enough to save them several years or even ten years of cultivation. To break through to the Heavenly Transformation Stage before the "Heaven's Path" was too much of a favor.

After a long while, Tie Kuo and He Yu Tong left with a great amount of pills, leaving Tang Huan to live in the courtyard.

"I've got the pill. I'll try out this' Divine Abilities Pill 'first!"

Tang Huan did not stay outside. Instead, he went into the underground stone room and sat down cross-legged.

In the next moment, the "Nine Yang Divine Furnace" appeared in a flash, Tang Huan directly threw the "Divine Abilities Pill" into the cauldron, and then returned it back into the Dantian.

Chapter 1376 - Divine Transformation

In the blink of an eye, the medicinal power of the pellet started to spread crazily in the cauldron, and under Tang Huan's guidance, it started to flow endlessly into the Nascent Soul Stage.

Following the rapid circulation of the Dao Nascent Soul, the thirty-one Dao Crystals within his body started to tremble violently. The vast Sky Origin Stage seemed to boil as it continued to absorb and absorb the medicinal effects of the "Divine Abhijina Pill". The effects of the pill were like a catalyst, causing Tang Huan's Heavenly Yuan strength to immediately increase.

Thirty-two Dao-Crystals, thirty-three Dao-Crystals ... Thirty-eight Dao-Crystals ...

Time quietly passed by, and new Dao Crystals were being produced one by one inside the Dantian Dao Infant, Tang Huan's Sky Origin Stage was also getting stronger and stronger.

"Forty-one Dao Crystals!"

After an unknown period of time, Tang Huan's mind shook and he slowly opened his eyes. As the last Dao crystal condensed and took shape, the effects of the "Divine Abilities Pill" had already been completely absorbed.

After sensing the situation of the Dantian, Tang Huan was overjoyed: "As expected of the xuanji pill pavilion's pills, the 40,000 Heaven beads is too worth it!"

"Heaven Man Five Transformation, Divine Transformation!"

"As the name implies, upon reaching this realm, Tian Yuan will be able to execute the sacred art in the Heaven Realm!"

With that thought, Tang Huan instantly shot out of the room and quickly exited the stone room. He then activated his ability "Void Escape" and his figure instantly disappeared. When his body reappeared, he was already several hundred meters away in an alley that still belonged to the He family.

After secretly inspecting it for a while, Tang Huan could not help but secretly inhale some cold air.

At his current level, although he could use the sacred art, the consumption of Sky Origin Stage was too shocking. After the first "Sky Escape", his 41 crystals contained less than 30% of the heaven's essence. This meant that the heaven's essence in his body could only last three to four times the power of the "Sky Escape".

Moreover, the distance that an air escape could travel couldn't compare to the distance one could travel in the lower realms.

Judging from the result of his previous attempt, the limit of his escape through the air should be around one thousand meters. Of course, the further the distance, the more Tian Yuan it would

consume. If he could travel a thousand meters in just two jumps, he would probably run out of Tian Yuan in just two tries. However, Tang Huan was not anxious, after all, this had only just started.

After clearing up his emotions, Tang Huan walked out of the alleyway and called out to a passing He Clan Disciples.

The man knew that Tang Huan was an honored guest invited by the Head and did not hide anything from him. It was then that Tang Huan found out that he had spent a day to absorb all the medicinal power of the "sacred art pill". In a single day, he advanced from the fourth to the fifth. Although he had borrowed the power of pills, his speed was still extremely astonishing.

Relying on the "Nine Yang Divine Furnace" to refine the medicinal power, he still spent a day. Tie Kuang and He Yu Tong took the "Sun Soul Pill", and although the medicinal power was not as good as Tang Huan's Divine Ability, the time they spent on it would definitely be much longer. When Tang Huan returned, he discovered their auras in a side courtyard.

The two of them were still absorbing the Sun Soul Pill.

Tang Huan did not disturb the two and returned to the stone room.

He was not in a hurry to absorb the "Heavenly Heart Precious Dew" that could raise his cultivation to the Six Transformations of Heaven Man. The medicinal pill was different from a natural treasure like the "Golden Cicada". After refining the Golden Cicada, Tang Huan's dao crystals had slowly formed one by one, but the ten dao crystals now appeared in a single day.

If the Dao crystal appeared so quickly, it would definitely cause the foundation to be unstable.

Since he had enough time, he decided to consolidate his cultivation. As a result, for the rest of the period of time, Tang Huan continued to refine the immortal sky spirit energy.

After approximately half a month, Tang Huan finally used the cauldron to bring the "Heavenly Heart Treasure Dew" into the Dantian ...

... ..

"Strange, there isn't such a person in the Nether Cloud City."

In the hall at the back of the xuanji pill house, Qin Dynasty and Xue Yu looked at each other, "In the past half month, our xuanji pill house has searched all over Youyun City, but we haven't found any trace of that person. Could it be that our previous judgement was wrong? That person isn't a Youyun cultivator, and he just passed by from here?"

"No, no."

Xue Yu shook his head. "Even if he isn't a cultivator of Quiet Cloud City, since he'd come to this city, there will still be traces left behind. It's impossible for him to be unable to find anything."

Qin Dynasty forced a smile and said: "That is strange, that person seemed to suddenly appear out of thin air, and then suddenly disappeared out of thin air, making people unable to find him." "I estimate that before that person entered the Xun Ji Pill Pavilion, he had already disguised himself. Besides the fact that the Dao Artifact is real, everything else he revealed was fake."

"I can't find him. It seems like I can only use this low-grade Dao item."

Xue Yu looked at the fiery-red longblade in his hand as he muttered to himself. In this half month, no matter where he went, he would seize this low grade Dao Artifact in his hands.

"Brother Xue, how do we proceed?"

The Qin Dynasty said.

Xue Yu laughed slyly and said, "After half a month of research, this old man already knows that this low grade Dao Artifact is forged from two materials, the 'Mysterious Flames Dao Stone' and the 'Scarlet Fire Iron Crystal'. Moreover, it shouldn't take long to take shape, and at the most it won't exceed two months."

"If that person really is a passing cultivator and his strength is really that strong, disguising himself would simply be superfluous. "Since he is trying to conceal his true identity, it just means that he is a cultivator of Nether Cloud City. His cultivation base should not be as high as we previously thought."

"Moreover, he should be the Weapon Refiner who forged this low grade Dao Artifact. That was the only reason why he needed to change his appearance so that no one would know that he was in danger. From this, it can also be seen that the Weapon Refiner does not have any background, which is why he is so cautious. "

"Only the Artifact Martial Arts Hall sells Dao equipment and materials in Youyun City. Therefore, we only need to find out who bought the 'Mysterious Flames Dao Stone' and 'Crimson Fire Iron Crystal' there in the last two months or so and we can determine that person's identity by eliminating them one by one." Xue Yu had a face full of smile and full of confidence.

"Bro, brilliant."

The Qin Dynasty praised him, but then said, "If we can think of this, how can he not? If he were to go to a nearby city to buy the Dao stones and iron crystals, or if he bought the same stone and iron crystal from another cultivator a long time ago, it would be useless to look into it. "

The smile on Xue Yu's face froze and he was instantly slightly dumbstruck.

After a while, Xue Yu said depressingly: "Then what should we do? "With such astonishing skills, it would be a pity if you could not recruit us, the Heaven's Yuan Sky Sect."

"Just do as I was told. It's better than nothing."

"..."

... ..

"Six Transformations of Heaven, Heart of Heaven!"

Within the underground stone room of the He family, a faint smile emerged from between Tang Huan's brows.

A portion of "Heavenly Heart Precious Dew" caused his profound strength to explosively increase by twenty dao crystals. Stepping into this realm, Tang Huan clearly felt that his Perception Ability had increased by a large amount.

"I wonder how is the situation between Tie Kuo and his wife?"

Once Tang Huan exited the stone room, he saw Tie Kuo and He Yu Tong, whose expressions were a little anxious, at the entrance.

Chapter 1377: Lower Realm Genius?

"Brother Tang Huan, something is not right." When they saw Tang Huan coming out, Tie Kuo and He Yu Tong immediately went up to him, looking extremely worried.

"Brother Tie, Lady Tie, don't be anxious. If you have something to say, then say it slowly."

Tang Huan frowned and asked.

Tie Kuo quickly composed himself and suppressed his voice, "Brother Tang Huan, I just returned to the Iron family. I received news that someone was looking for you!"

"Investigate me?" Tang Huan was startled.

"That's the person who checked out the day when he traded a low-grade Dao Artifact for pills in the xuanji Pill Pavilion." He Yu Tong added, "Moreover, it seems to be the xuanji Pill Pavilion checking."

"I see."

Tang Huan nodded his head, and said with some surprise: "This Phantom Jade Pill Pavilion is really not busy, it is just a low grade Dao item, to actually do such a thing. "Brother Tie, Lady Tie, do you know that they've already investigated to the point?"

Tang Huan's outfit from that day could indeed be said to be flawless, but it was only limited to disguises.

If the xuanji Pill Pavilion was determined to investigate everything from the bottom to the top, they would definitely find some clues. For example, you could judge the materials used to refine a Dao Artifact through a Dao Artifact. The wise Weapon Refiner could even estimate the approximate time that a Dao Artifact was forged.

According to the materials and the time limit, he would go to the Equipment Martial Arts School to find out who bought the Dao stones and iron crystals before going through the screening process.

Of course, this alone was not enough to completely determine who had forged this Dao Artifact. However, it was enough for him to enter into the line of sight of the Xun Ji Pill Pavilion.

"Not yet."

Tie Kuo shook his head, "However, we haven't found anything. Otherwise, the people from the Xun Ji Pill House would have already come looking for us." This is really strange. The Xun Ji Pill House has never paid attention to the origin of all sorts of things that can be exchanged for pills. This time they actually have to put in so much effort to find you. "

"Perhaps the quality of the Dao Artifacts I forge is too good."

Tang Huan joked, "Brother Tie, Madam Tie, don't worry, this is not a big deal. If they were to find out about the Equipment Martial Arts Hall, they might ask you guys. At that time, you don't have to hide it from me, just tell me if I want to buy the Dao stones and iron crystals. "

"This... If that's the case, won't Brother Tang Huan be exposed? " When Tie Kuo and He Yu Tong heard this, they immediately shook their heads.

"Don't worry, it won't be exposed." Tang Huan laughed indifferently.

"Really?"

"..."

Seeing that Tang Huan was completely confident, Tie Kuo and He Yu Tong finally left in peace. They followed Tang Huan's instructions and went to purchase some materials needed to forge a Saint-rank Heavenly Soldier.

Tang Huan was indeed not worried about this.

After carefully thinking back to that day, Tang Huan's heart suddenly moved. He removed the "Sumeru Magical Ring" from his hand and stored it in his cave.

After confirming that there were no other flaws, Tang Huan started to cultivate.

In order to avoid being called over by people from the Xun Ji Pill House, Tang Huan did not enter the stone room, but stayed outside in the courtyard to absorb the immortal spirit energy, and solidified his cultivation.

...

"Pavilion Master, Master, I've checked all the people who bought the 'Profound Flame Dao Stones' and 'Scarlet Fire Iron Crystal' within a year."

Early in the morning, inside the palace behind the xuanji pill house, Guo An said in a deep voice, "There are a total of sixty-one people, and only eighteen of them have been bought in the past two months. Amongst the sixty-one people, there are sixty Sacred Ranked Heavenly Blacksmiths. I have checked all of them one by one, and there are no problems, they simply do not have the ability to do so. They want to use the 'Profound Flame Dao Stones' and 'Scarlet Fire Iron Crystal' to forge low-grade Dao Artifacts, but all of them end in failure. "

"And the other one?" The Qin Dynasty asked in confusion.

"That person is the first son of the Iron family's Head, Tie Kuo. He has the cultivation of the Four Transformations of Heaven and Earth." Guo An slowly said, "He himself is not a Weapon Refiner, but he has a friend called Tang Huan who came from the lower realms to become a Saint, and the materials he bought are for that friend.

"Earlier on, the 'Bodhisattva Golden Cicada' appeared in Liu Sha He. Tang Huan had snatched dozens of 'Golden Cicada', and they sold those 'Golden Cicada' to our xuanji Pill Pavilion. Then, they used more than 20,000 Heaven beads to buy four sets of materials from the Equipment Martial Arts School, and all of them failed to be forged."

At the end, Guo An couldn't help but laugh.

"A Saint rank Heavenly Blacksmith from the lower realms that ascended to the heavens. If I remember correctly, that fellow who exchanged the dao tools for pills is wearing a spatial ring from the lower realms." Qin Dynasty muttered.

"What is Tang Huan's cultivation level?" Xue Yu's gaze slightly moved as he raised his eyebrows.

"Six Transformations of Heaven, Man."

"Six Transformations of Heaven, Earth?" Xue Yu sighed in disappointment. "Your cultivation is too low, so it can't be him. This low rank Dao Artifact has extremely high requirements for the Weapon Refiner's ability to control dao flames and deduce dao diagrams, it's definitely not something that can be forged by a celestial being. If it's a Heavenly Monarch, it's possible."

"It really can't be him."

Guo An nodded, "After I asked Tie Kuo, I went to see that Tang Huan, who was currently forging a Saint-rank Heavenly Soldier. It is a pity that his dao flame was transformed from the Spiritual Fire that is water attributed to his Five Elements. According to what the master said, the dao flame of the Weapon Refiner who forged this blade contains the laws of fire. "

"Seems like I won't be able to find that expert. Forget about it, forget about it. There's no need for me to waste anymore time."

Xue Yu waved his hand in a somewhat dispirited manner.

Immediately after, he asked with some curiosity, "Guo An, you said that Tang Huan was able to forge a top-grade Holy-ranked Heavenly Soldier? From what this old man knows, it's not rare for a Heaven Realm Saint Ranked Heavenly Blacksmith to be able to forge a top grade Saint Ranked Heavenly Soldier. How is it possible for him, a Saint Ranked Heavenly Blacksmith from the lower realms, to do such a thing? "

"That's right. Although I do not know how to forge artifacts, my eyesight is still a bit high. "

Guo An laughed, "Although that Tang Huan has failed four times in a row when he tried to forge a Dao Artifact, whether it's the power of the dao fire or the Tools Method Attainments, he should have already surpassed most of the Holy-ranked Heavenly Blacksmith in Heaven Realm. Otherwise, it would be impossible for him to forge a top-grade Holy-ranked Heavenly Soldier with ease. His potential can be said to be limitless. As long as he has the right opportunity, he will definitely soar into the sky in the future. "

"Oh?"

The Qin Dynasty and Xue Yu looked at each other and were slightly surprised.

"Guo An, your evaluation of Tang Huan is so high?" The Qin Dynasty replied in surprise.

"Pavilion Master, Master, if you are interested, you can go take a look." Guo An added with a smile, "Most importantly, that guy isn't even forty yet."

"Less than forty?"

Qin Chao and Xue Yu were both surprised.

Furthermore, he was an extremely skilled Tools Method Attainments's Sacred Ranked Heavenly Blacksmith. This kind of person was definitely a peerless genius that would only be seen once in a thousand years in the lower realms. There were many people in the Heaven Realm at such a young age, but it was quite rare for a Saint-rank Heavenly Blacksmith to have such a young person. This kind of genius Weapon Refiner from the lower realms, no matter which sect it was taken into, would always be considered profitable.

"Brother Xue, are you interested in meeting that kid?" The Qin Dynasty laughed.

"Let's wait and see. Didn't the 'Heaven's Path' start soon? This old man will wait until the end of the 'Heaven's Perfection' before leaving Serene Cloud City, just in time to see his performance in the 'Heaven's Perfection'. Geniuses like them were usually proud and arrogant, so it was not appropriate for them to look for him at this time. After he experiences the tempering of the 'Heaven's Path', his will may become even more mature." Xue Yu slightly hesitated before making his decision.

"Sure."

"..."

Chapter 1378 - The Qiankun Battleground

"After so long, no one has come back, and from now on, no one should be coming either."

In the He family, Tang Huan looked at Tie Kuo and He Yu with a smile. Not too long ago, the three of them had sent Guo An, the great deacon of the Phecda Pill Pavilion, out.

When Guo An had questioned Tie Kuo and He Yu Tong, He Yu Tong's trusted aides had informed Tang Huan of the news as soon as possible.

Therefore, Tang Huan began to forge the Saint-rank Heavenly Soldier s in the courtyard, using water-attribute dao flames. His "Primal Chaos Daos" had always been evolved from the Five Elements Spiritual Fires, and could completely evolve into a type of Five Elements. Moreover, it allowed a single attribute to reach the extreme.

Initially, Tang Huan had been cautious because he did not use the "Primal Chaos Dao-flame" to forge a Dao Artifact. Instead, he had relied on the characteristics of the materials and developed the corresponding Five Elements Dao flame.

Just like the long blade used to exchange pills, Tang Huan used fire type dao flames.

The reason why he used the completely opposite water attribute dao flame to forge a Saint-rank Heavenly Soldier was so that Guo An could see it. This was because, according to the knowledge of almost all cultivators, it was basically impossible for water and fire type dao fires to appear on the same person at the same time.

After discovering that Tang Huan had water type dao flames, Tang Huan's suspicion could naturally be completely ruled out.

The facts proved that Tang Huan's method should be extremely effective.

"Brother Tang Huan is still the strongest." Tie Kuo praised. He and He Yu Tong had never seen Tang Huan's progress in forging a Dao Artifact, so they naturally did not understand the reasons behind it. However, they could tell that Guo An's suspicions had been completely dispelled after witnessing the entire process of Tang Huan forging a Saint-rank Heavenly Soldier.

This also made them admire Tang Huan even more.

Tang Huan smiled slightly: "Brother Tie, it will be 'Heaven's Path' soon. All of you need to hurry and break through to the Fifth Transformation, in order to get a better rank."

Tie Kuo and He Yu Tong nodded, their eyes filled with anticipation.

If one performed well in the "Heaven's Perfection" after possessing the Heaven's Perfection, it was entirely possible for the Broken Star Sect, Black Turtle Sect, and other sects to have their eyes on it.

Once the danger was gone, the three of them relaxed and concentrated on their cultivation ...

... ..

From the name, one could tell that this was a duel between heaven and earth.

The purpose of the "Heaven's Perfection Technique" was to facilitate the selection of disciples by the various sects. As a result, all the disciples were limited by age and were not allowed to participate when they were over a hundred years old.

Quiet Cloud City's "Heaven's Perfection Technique" was held in the Liuzheng Hall on the north side of the city. Within a radius of dozens of miles, it was a huge circular plaza. The exceptionally grand hall was located in the center of the plaza.

Usually, the main gate of the Alkaid Hall was tightly shut. Only when the "Heaven's Path Divine Art" was opened would it be opened.

"..."

"Haha, after waiting for ten years, the 'Heaven and Earth Art' is finally about to begin!"

"Ten years ago, I was just a third form of the Heaven, but now I have broken through to the seventh form of the Heaven. I dare not say that I will have a place in the top ten of the Rankings, but there is bound to be a place for me in the top twenty. "

"I wonder how many sects are here to spectate this battle?" Hopefully, the more the better. The more sects we have, the greater our chances will be. "

"..."

"Broken Star Sect, Intense Flaming Sect, Black Tortoise Sword Sect ... The sects in the vicinity would surely come for sure every single time. However, I have heard a very confidential piece of news. It seems like the Qian Yuan Sky Sect will also come to the Fushe Hall this time, and the person who is here is a high-grade Heavencraft. "

"Qian Yuan Sky Sect?" What kind of joke was this? Brother, aren't you afraid of breaking the skin of a cow!? Such a top-secret news, how can a mere heaven's person like you know about it? "

"Hmph. Let's wait and see. Whether it is true or not, we will soon know."

"..."

"This is already my third and last time participating in the 'Heaven's Path'. If I'm still unable to join a certain sect, then I'll surely have no chance in the future."

"This is also my third time. Although I still have one chance, the older I get, the less hope I have."

"In the current Nether Cloud City, there are hundreds of Heaven Man cultivators that have reached the Seven Transformations of Heaven Man. Last time, there were only a hundred."

"..."

In the early morning, there was a sea of people on the wide plaza surrounding the Hall of Suppressing Orders. All sorts of sounds formed a huge sound wave that reverberated across the plaza. Even from the edge of the Youyun City, one could still catch this terrifying sound wave.

The ten-year Heaven's Path Divine Art was held today.

The entire city was paying close attention to such a grand event, especially those who had fulfilled the requirements to participate. They had long since anticipated this day to come.

Since last night, a large number of cultivators had gathered in front of the Heaven's Path Palace.

At dawn, even more cultivators gathered to form streams of torrents that whistled towards the northern part of the city. At this point, there were already hundreds of thousands of cultivators gathered around the Alkaid Hall. Of course, the ones that truly met the requirements were only the tens of thousands.

"Creak ..."

Violent rubbing sounds suddenly burst forth, seemingly capable of tearing apart a person's eardrums.

When the crowd around the Alkaid Hall heard this voice, they were happy instead of alarmed. Numerous gazes landed on the door of the large hall. Sure enough, the door that had been closed for ten years was slowly opening. The long and narrow crack became wider and wider, and a dazzling white light overflowed.

Inside the vast palace, a huge square platform appeared. It was crystal clear, shining white, dazzling people's eyes.

"Qiankun Battlestage!"

The cheers were so loud that the crowd was in an uproar.

The Heaven and Earth Arena was the place where the "Heaven's Path Divine Art" was held. On the surface, it appeared to be a square platform. However, the truth was that the interior of the square platform was different from the outside. Inside was an isolated space. Before the "Heaven's Path Divine Art" began, all cultivators participating in the battle would be teleported inside.

Once the "Heaven's Path Divine Art" began, the "Heaven and Earth Arena" would automatically choose a random opponent for the cultivator.

If the number of times one lost surpassed three times, they lost the qualifications to continue participating in the duel and were sent outside of the "Universe Battlestage". That method was very fair to everyone who participated. As for the envoys sent by the various sects to watch the battle, there was no need for them to enter the arena. If one were to immerse their mind in the battle, they would be able to detect the state of any battle within the Hall. It could be said to be extremely convenient.

The rankings of the Heaven's Perfection would appear at any time on the four walls of the Hall.

The Rise Palace and the "Universe Battlestage" inside were all one entity. Every city that had the qualifications to host the "Heaven's Perfection" had its own hall and battle stage. As for how they appeared, it was still a huge mystery to almost all cultivators.

Chapter 1379 - Heaven and Earth

"The great roc rises together with the wind in a single day, rising more than 90,000 miles!"

At the edge of the crowd, looking at the majestic and imposing palace, Tang Huan could not help but exclaim, "At that time, the Reaching Mountain Hall will be very meaningful. If you can get a good rank in the 'Heaven's Path', then it would be a huge leap for you to rise up to the top in a sect."

Tie Kuo and He Yu Tong, who were at the side, also sighed with emotion. Their eyes revealed a look of anticipation.

First, they were saved by Tang Huan in the Shadow Mountain Range, and then, because of Tang Huan, they obtained the "Sun Soul Pill" and "Divine Abilities Pill", these two precious medicinal pellets, and their cultivation quickly rose from the Three Transformations of Heaven to the Five Transformations of Heaven.

If he performed well, this level of cultivation was enough to join a small sect.

What's more, the two of them were still young. Even if their rankings were not good, it didn't matter if they didn't attract the attention of those sects. They could still participate in another ten years.

By that time, their cultivation would have already reached the seven transformations of Heaven, Earth, and Man.

As for Tang Huan ...

After this "Heaven's Mandate" was finished, he was sure that he would be able to leave Youyun City. When they first met at the Shadow Mountain Range, Tang Huan was the same as them, both in the Three Transformations of Heaven and Earth. But now, Tang Huan's cultivation had reached the Seven Transformations of Heaven, so his position on the Rankings would definitely not be bad.

However, once Nether Cloud City separated, he didn't know if there would be a day he would see her again.

When they thought of this, Tie Kuo and He Yu Tong were a bit at a loss.

"Silence!"

Suddenly, a loud shout rang out.

These two characters were like rolling thunder as they rumbled and exploded in the sky. Immediately, they suppressed the enormous sound waves that were rising and falling in the plaza around the Hall of Pendulum.

"The registration for 'Heaven's Path' will now begin!"

A loud shout once again rang, "Heaven man cultivators no older than a hundred have lined up to register, get out of here immediately!" People unrelated to this matter should immediately leave the front of the Losers Temple! Violators will be severely punished! " The voice was very dignified, causing one to unconsciously start acting according to their words.

Some of the cultivators that came to watch the show quickly left the front of the palace, while the cultivators that were prepared to fight stayed in the front of the palace.

Not long after, there were tens of long queues in the plaza in front of the palace. Each team had as many as a thousand people. Although the group was large in numbers, the speed of the dozens of teams advancing at the same time wasn't slow. After around an hour, it was Tang Huan, Tie Kuo, and He Yu Tong's turn to line up at the end of the line.

On the inner side of the door, in front of each team, there was a small round table.

Circulating Tian Yuan to write down his name on it, the cultivator's unique aura would enter the "Heaven and Earth Arena" through the round platform, and the round platform would form a red

ball of energy that would form a red "Battle" symbol on the cultivator's forehead. Only this way could he enter the arena.

If he failed, the mark would disappear.

Of course, if one's age exceeded the limit, the mark would disappear before it was formed. Even if the guard beside the circular platform wasn't careful and slipped in, it was still impossible to enter the "Heaven and Earth Stage". Inside the Hall of Supports, anyone who tried to fish in troubled waters would be unable to hide.

Following the example of the god, Tang Huan, Tie Kuang and He Yu Tong entered the palace one after the other.

Inside the hall, there was no need for them to line up. The tens of thousands of people were gathered together, and the discussion was very chaotic. Luckily, this Floating Hall was large enough that even if it was twice as large, it would still be able to accommodate people. Tang Huan, Tie Kuo, and He Yu Tong randomly picked a corner with fewer people to stay at and quietly waited.

"Tie Kuo, I've finally met you. I thought you wouldn't dare to come."

The cold laughter entered his ears, and in front of Tang Huan, Tie Kuang, and He Yu's eyes, a handsome man dressed in light blue robes appeared.

This person was precisely Tie Kan.

Each of the great clans in Nether Cloud City had a small privilege. They had arranged for their own people, the heavenly beings, to participate in the war, to be located in the area closest to Alkaid Hall. Therefore, Iron Kan and the other Iron family Disciples had long since entered the hall. However, if they entered the 'Universe Battleground', they would lose all privileges.

If one wanted to get a good ranking on the Rankings List, one had to rely on their strength to speak for themselves.

"Are you disappointed to see me here?"

Tie Kuo's expression was cold.

Tie Kan's mocking gaze swept past the three people, "With the 'Heaven's Perfection' at hand, instead of diligently training, and instead hanging out with this woman every day, it's truly disappointing to the extreme. The reputation of our Iron family will likely be completely ruined by an unambitious piece of trash like you this time. "

"Iron Kan, clean your mouth!"

He Yu's eyes were livid with anger, while Tie Kuo's face was also filled with rage.

Seeing the two's expressions, the ridicule in Tie Kan's eyes grew even stronger, and he laughed heartily. "Oh right, let me tell you one thing, my cultivation has changed from the fourth level of heaven to the fourth level of heaven." Iron Kan, if I were you, I would withdraw from the 'Heaven's Perfection' right now, so as to not embarrass myself. " After saying this, Iron Kan turned around and left with a look of disdain on his face.

"Let me also tell you, I have undergone the five transformations!" Tie Kuo's face tensed up, the rage in his eyes boiling.

"What?"

Iron Kan suddenly turned around and stared at Tie Kuo in disbelief. "Five Transformations of Heaven Man?"

However, in the next moment, Iron Kan seemed to have thought of something and laughed involuntarily, "Tie Kuo, I really didn't expect that you would still play such a childish trick at a time like this. Do you think that just because you say that, you can confuse my mind and prevent me from participating in the battle in peace? "Idiots are idiots!"

"I hope you can still smile after the 'Heaven's Perfection'." He Yu Tong gritted his teeth.

"Of course I can laugh. Tie Kuo, between the two of us, the one laughing at the end will definitely be me, haha ..." Tie Kan laughed loudly and walked away.

"..."

Moreover, Tie Kuo's current cultivation was already higher than Tie Kan's. If the person who took the Head as his successor was ranked on the Rankings List, Tie Kuo would definitely win as long as nothing unexpected happened, then Tie Kuo would definitely take care of it.

In the next moment, Tang Huan suddenly had a thought and subconsciously looked over to see that dozens of meters away, there were pairs of eyes staring straight at him. Amongst the hundred or so Heaven Realm people, the white-clothed men with the most handsome features and haughty expressions were the most eye-catching. Tang Huan practically noticed his existence with a single glance.

"Lu Changqing?"

Tang Huan was a little surprised.

It was already certain that he would join the Heaven's Origin Sect. There was no need for him to join the Heaven's Path Divine Art in Nether Cloud City. Of course, there were no disadvantages in coming here to participate. One, to increase his combat experience, and two, to obtain a good ranking. It would also be beneficial for him to join the Heaven Sect.

After a moment of surprise, Lu Changqing had already regained his senses, and the gaze he used to look at Tang Huan was filled with malice, he moved his feet and walked over, but at that moment, an earth-shattering note once again resonated in everyone's ears, "Welcome, Emissaries of the various sects, we are here at the Fu Huang Hall!"

Chapter 1380 - Three Great Sects

The hall suddenly became quiet as everyone turned to look outside. It was also quiet outside the palace.

Lu Changqing stopped in his tracks, his face became gloomy, and the chill in his eyes became even stronger, he looked towards Tang Huan and laughed, then turned and looked out of the hall.

"Brother Tang Huan, Lu Changqing has noticed you."

Tie Kuo lowered his voice and said, "He has a lot of henchmen around him. If he encounters them in the 'Heaven's Path', he must be careful and not show any mercy."

He Yu Tong however, was extremely confident in Tang Huan: "Don't mind it too much. With Brother Tang Huan's current strength, even Lu Changqing would not be a match for you."

After Tang Huan heard this, he nodded slightly.

Ten days ago, he had already completely absorbed and refined the Heaven's Might Powder. His cultivation had already stepped into the seven transformations of Heaven, Earth, and Man. Even if Lu Changqing had condensed a hundred dao crystals, Tang Huan was confident enough that he could defeat him.

"Black Tortoise Sword Sect's Elder Lin is here!"

With a loud shout, an old man with white hair and a beard entered the hall from the back.

The cultivators near the door subconsciously moved to the sides, opening up a path. The passage continued to extend deeper and deeper and all the way until it reached a row of seats in the depths of the palace. Those seats were naturally a part of the entire Hall of Lifestyle. As one sat atop it, one's mind and spirit could easily merge into the Qiankun battle stage.

"Ardent Flame Sect's Elder Fu is here!" This time, it was a red-robed man who came in.

"The Broken Stars Sect's Elder Dongfang has arrived!"

"Cloud Sky Sect's Elder Hu is here!"

"Illusory Sea Sword Sect's Elder Mi is here!"

"..."

Shouts rose and fell.

One figure after another entered the palace and sat on the seats in the deepest parts of the palace. Unknowingly, the number of sect envoys in the Rising Mountain Hall had already increased to a few dozen.

Whatever was coming, it was all here.

In the previous sessions of the "Heaven's Path Technique", these sects were probably the ones who sent people to Youyun City to watch the battle and select disciples. Since the sect's envoys had all arrived, the next step was to start the Heaven and Earth arena platform, and then the tens of thousands of people would begin their battles within the vast arena.

Many people in the sky were already overwhelmed with emotions, and their fighting spirit was boiling.

"Elder Xue of the Qian Yuan Sky Sect has arrived!"

However, what made everyone within the palace even more surprised was that the loud voice of Hong Zhong once again rang out. The information contained within the short words caused everyone to be dumbstruck and their minds to be greatly shocked. After a short moment, everyone could no longer maintain their calm.

For a time, the crowd within and outside the Alkaid Hall burst into an uproar.

"Fuck, damn it! Sky Origin Sect, quickly give me a slap! Did I hear you right?"

"There's actually an elder in the Qian Yuan Sky Sect who came to watch the fight?" "What's going on?"

"Not only is the Heaven's Expanse School one of the top three sects in the Flowing Flower Domain, it is also quite famous in the Crimson Radiance Sect. Why did they send an elder to the city this time?"

"Ha ha, ha ha, good timing, good timing. I am a cultivator with the Seven Transformations of Heaven, Earth, and Heaven Transformations. If the Qianyuan Sky Sect has set their eyes on me, I will definitely rise in power."

"..."

Cries of surprise rang out one after another.

Surprise, shock, and disbelief filled their eyes and faces, but after a split-second, everyone's eyes and faces were filled with excitement, excitement, and wild joy. This was especially true for those with high cultivation levels like the Seventh Transformation, whose eyes were shining brightly. Even those who had no hope of being chosen by the Heaven's Expanse Sect were flushed with excitement.

Compared to the Heaven's Expanse Sect, the Black Tortoise Sword Sect, the Intense Flaming Sect, and the Broken Star Sect could only be described as weak. The two sides were worlds apart. The matter of the Qian Yuan Sky Sect sending a messenger to the Nether Cloud City to see the Heaven's Path Divine Art and pick a disciple could be described as a miracle.

"Brother Tie, Lady Tie, didn't they say that the Qian Yuan Sky Sect wouldn't send people to Nether Cloud City?" Tang Huan asked in surprise as he looked at the figure in the distance.

"Yeah, what's going on?" Tie Kuo stared blankly at him and said.

"The Qian Yuan Sky Sect actually came this time?" Strange! "Strange!" He Yu Tong softly murmured, as an incredulous expression appeared on her pretty face.

"..."

Not only did Tang Huan, Tie Kuang, and He Yu Tong not understand, even Lu Changqing who was in the distance found it hard to believe.

In almost the same instant that the shout rang out, he was completely dumbstruck. His mouth was wide open and astonishment filled his face.

In the blink of an eye, a short, thin old man wearing a black robe floated in under the surprised gazes of everyone. As soon as he appeared, he became the focus of everyone's attention.

However, the shock in everyone's hearts did not end there, because the loud shout once again rang out.

"Emperor Dragon Sky Palace's Elder Sun has arrived!"

"Elder Yue of the Limitless Temple has arrived!"

Two more figures flashed into the room. One of them ...

The old man was tall and sturdy, his imposing aura was like a mountain, while the other man was handsome and elegant. Looking at him from the outside, he seemed to be around 30 years old.

"Oh my god, Emperor Dragon's Heavenly Mansion, Everlasting Temple, and the Heaven's Expanse School ... The top three sects in the 'Flowing Flower Domain' have all sent people to our Nether Cloud City. "

"What day is it today? The three strongest sects have actually sent their elders over."

"Big brother, big brother, I'm not dreaming am I? Our Nether Cloud City's' Heaven's Path Divine Art 'has become this popular? Or maybe one of the cultivators that participated in the 'Heaven's Path'

That's why the three great sects, who have never come to the city of You Yun to watch the battle, are here? "

"..."

The inside and outside of the Rise to the Trembling Hall became even more boisterous.

Especially the many people inside the hall that were preparing to participate, after the extreme shock, their hearts surged with extreme excitement and ecstasy.

It was fine if it was just the Heaven's Heaven Sect, but even the Emperor Dragon Sky Mansion and the Limitless Temple came!

Quiet Cloud City's "Heaven's Path Divine Art" had actually become so attractive?

This question not only confused the crowd outside the Hall of Suppressing Orb, but also confused the Sky Men inside the Hall, including Tang Huan, Tie Kuo, and He Yu Tong who were looking at each other in dismay. They did not understand the reason behind it.

However, regardless of what the elders of the Heaven's Expanse Sect, the Emperor Palace, and the Everlasting Temple had appeared for, their arrival was great news to the entire Nether Cloud City.

This was because after the three great sects had arrived, the next "Heaven's Path Divine Art" would definitely send even more people from the other sects to watch the battle.

"Silence!"

Hong Zhong's loud shout once again suppressed the clamorous noise in the hall, "The 'Qiankun Battlestage', activate —" The moment he said that, the four cultivators standing around the 'Qiankun Battlestage' all simultaneously raised their palms and smacked it. As true essence rushed in, Pang Shuo's square platform began to fiercely shake.
