

W. Master 1411

Chapter 1411 - Dark and Dark Ghost Snakes

"Roaaaaaar!"

The canyon was deep and serene, and ancient trees towered into the sky. A dozen figures carefully moved forward, and from time to time, roars of beasts could be heard, causing everyone to be extremely vigilant.

They were Tang Huan, Lei Jia Yuan and Fang Xu who came from Samsara.

This place was the entrance to the 'Ghost Snake Valley'.

This area was located in the southwest of the Reincarnation Mountain Range. The entire valley was thousands of kilometers wide and was tens of thousands of kilometers long. Not only were there a lot of Heavenly Beasts inside the valley, but there were also many dangers lurking in the fog.

"Brother Lei, to the right!"

Suddenly, Tang Huan yelled in a low voice.

The moment they entered the canyon, Tang Huan's Perception Ability was already at its limits.

After stepping into the "Heavenly Heart Transformation", Tang Huan's Perception Ability had improved by leaps and bounds, reaching a radius of a hundred meters. After advancing to the level of Huang Ji Heaven Scholar, his Perception Ability had increased explosively, and now, the range that Tang Huan's mind could cover, had reached a radius of a thousand meters.

This was about ten times more than the average Huang Ji.

Even though this valley was dark and gloomy, the powerful Perception Ability allowed Tang Huan to easily capture any hint of activity in the surrounding area.

When Lei Jia Yuan heard this, he suddenly turned around.

Nearly a hundred meters away, a black shadow as thick as an infant's fist, yet several meters long, suddenly leapt up from the ground, shooting like lightning towards Lei Jia Yuan. Its speed was unbelievably fast, and the strangest thing was that it never made the slightest sound from start to finish.

That black shadow closed in like a ghost. In an instant, the one hundred meters distance between them had been shortened by dozens of meters. The shape of the black shadow was also faintly visible. It was actually a long snake. Its entire body was pitch black without any other colors, perfectly blending with the environment here.

"Ghost Shadow Snake!"

Lei Jiayuan's complexion suddenly changed. As he let out a low growl, the golden staff in his hand shot out like an arrow leaving the bowstring. The whistling sound echoed through the air and wherever the staff passed, a golden storm that seemed to be able to destroy anything was brought about.

"Bam!"

In a split-second, the tip of the staff forcefully collided with the round and flat head of the "Dark Ghost Snake". The powerful Strength Qi immediately swept in all directions, and within a radius of ten metres, sand and rocks flew everywhere, and countless branches and leaves were instantly turned into dust.

As if he had suffered a heavy blow, Lei Jia Yuan took more than ten steps back.

The "Dark Ghost Snake" twisted its body and actually shot back like a spring. It landed on the ground twenty meters away and instantly disappeared without a trace.

Whoosh.

The slight sound of something breaking through the air resounded as Fang Xu and ten other people came over from all directions. Their faces were filled with shock that could not be concealed.

The reason why this "Ghost Snake Valley" was so famous was because of the "Ghost Shadow Ghost Snake".

This sort of Heavenly Beast liked to hide in dark and damp surroundings, and it was not particularly strong. Besides a few mutated ghost snakes that could have the strength of Huang Ji, the majority of ghost snakes were only equivalent to Seventh Transformation humans.

However, this kind of Heavenly Beast hiding technique was extremely clever, it was extremely difficult to find, and its speed was also unbelievably fast, making it hard to guard against, if they were to be ambushed by the Ghastly Dark Serpent, the death rate for seven transformations was as high as 50%, and if their cultivation was lower, they would definitely die.

In the Reincarnation Mountain Range, the "Ghost Shadow Ghost Snake" caused the faces of countless of people to change. Luckily, there were not many Heavenly Beasts, and most of them were hidden deep within the Ghost Snake Valley.

However, not long after entering the "Ghost Snake Valley", they encountered the "Ghost Shadow Snake", causing everyone's hearts to be shrouded in a layer of shadow.

"Thank you, Brother Tang."

Lei Jia Yuan sighed lightly, looking at Tang Huan who was walking over with them, he felt extremely grateful. If Tang Huan had not reminded him in time, he would have been severely injured. In this place, if one was seriously injured, it was very easy to implicate the entire team.

"Brother Lei, no need to be so polite."

Tang Huan waved his hand, "This is all part of my plan."

Although the Ghost Snake had concealed itself extremely well, it was still unable to hide from Tang Huan's senses. He had already detected its existence several hundred meters away, however, Tang Huan did not remind him at that time that he did not want to expose his Perception Ability, which was much more than normal.

"Next, I'll have to rely on Brother Tang."

"A Heavenly Beast like the Ghost Shadow Ghost Snake is extremely difficult to deal with, and it also remembers its enmity. If its ambush fails, it will definitely hide in the vicinity and launch another sneak attack, it can be said to be a lingering spirit. It is said that someone had been entangled with the Ghost Shadow Ghost Snake for months."

Fang Xu and the others also furrowed their brows. There was a "Ghost Shadow Snake" lurking in the shadows, spying on them. This was truly frightening.

If he wasn't careful, he might not be able to survive.

Although Tang Huan was a Heavenly Scholar Huang Ji, and his Perception Ability far surpassed these seven transformations, he might not always be able to discover the "Dark Underworld Ghost Snake" early on in its sneak attack. For countless years, in this "Ghost Snake Valley", it was not uncommon to see groups of cultivators being entangled by the Ghost Snake and completely annihilated.

Because of this, even though the Ghost Snake had disappeared, the group did not let down their guard in the slightest. Everyone was very clear that the Ghost Snake was still nearby.

"Why don't we change locations to look for the Rainbow Pill Heart Grass and the Silver Frost Dao Stone?"

"Right, this' Ghost Snake Valley 'seems to be too dangerous."

"..."

Some had already started to retreat, but there were also many who opposed this.

"Everyone, although this Ghost Snake Valley is dangerous, compared to the other perils in the Reincarnation Mountain Range, it is still considered to be safe. "The path to heaven is extremely dangerous. If a mere Ghost Snake can scare you like this, then why did you run out to gain more experience? It would be better to stay at home and live for thousands of years." When Lei Jia Yuan heard this, he could not help but shout out loud. Those who had thoughts of retreating, all had embarrassed looks on their faces.

"Everyone, there's no need to worry about this Ghost Snake ..."

Tang Huan swept her eyes across the crowd and suddenly smiled. The moment his voice fell, Tang Huan's figure suddenly horizontally moved without any warning. His speed was as fast as a meteor, and the dark blue spear in his hand pierced onto the ground that was covered in withered branches and broken leaves dozens of meters away.

"Chi!"

In the midst of the ear-piercing hissing sounds, the long spear was like a dark blue stream of light, which seemed to be extremely swift, the powerful Strength Qi forced its way out, condensing into a terrifying storm that followed along the spear aura and roared forward. The thick branches, leaves, and black soil on the ground churned and turned into dust in the air.

"Hiss!"

With a screech, the crowd faintly discovered that a black figure was already crawling and not moving under the several meters deep black soil.

Chapter 1412 - Mystic Moon

"Ghost Shadow Snake!"

Everyone cried out in alarm. The Ghost Snake was indeed hiding there, and its proximity was beyond their imagination. They had originally thought that it was at least a hundred meters away.

At this distance, he could launch another sneak attack at anytime.

"Whoosh!"

Under numerous gazes, the "Ghost Shadow Snake" suddenly soared into the air. However, it did not head for the long spear. Instead, it fled into the distance.

This Ghost Snake was obviously quite shrewd as well.

When no one else had any reaction, Tang Huan could sense its existence. When no one else felt anything, Tang Huan was able to pinpoint its exact location, which made it realize that it was no match for Tang Huan. If it were to fight head on, it was very likely that its life would be forfeit, which was why it made the most instinctive decision.

However, its speed was still a beat slower, and just as its body sprung up, the dark blue spear tip, which carried a fierce Strength Qi, had already landed on its neck.

"Bam!"

Without even time to let out a wail, the "Ghost Shadow Snake" was ripped to shreds and turned into a cloud of blood mist, following that, it was scattered by the Strength Qi. At the place where the spear was pointed at, countless sand swirled up, and a hole appeared at a speed that was difficult to see with the naked eye.

Seeing this scene, Lei Jiayuan, Fang Xu and the others around them were all speechless.

Until the Strength Qi dissipated, it took a long time for everyone to regain their senses. Not only did the "Ghost Shadow Snake" cause the expression of the heavens to change, it also gave Huang Ji the same headache.

Under normal circumstances, the Ghost Snake's sneak attack would not be fatal to Huang Ji, but it was also not an easy matter for Huang Ji to kill him. In addition, if he provoked the "Ghost Shadow Snake", he would be scouted by such a Heavenly Beast at all times. Once Huang Ji Tian got injured, he would be in danger. If the heavily injured Huang Ji, were to be attacked by the "Ghost Hell Snake", his outcome would not be any better than that of a celestial being.

But now, a "Ghost Shadow Snake" was killed so easily by Tang Huan?

However, thinking about Tang Huan's performance within the Space Aircraft, everyone's heart moved. Tang Huan's current cultivation probably had already reached the limit of a Huang Ji Realm cultivator, and looking at his usual performance, even an ordinary profound practitioner would not necessarily be his match right now.

With such strength, killing the "Ghost Shadow Snake" would be much easier.

"Everyone, don't just stand there. Let's continue!" A voice woke everyone up from their daze.

Looking towards the direction of the voice, they saw that Tang Huan was already tens of metres away. They looked at each other and quickly followed. With such an expert in the group, everyone felt much more relaxed.

"..."

...

"Hiss ..."

Beneath a gigantic tree, a sharp scream suddenly stopped, and another black "Dark Underworld Ghost Snake" turned into a spirit under Tang Huan's spear.

"Alright!"

The dozen or so cultivators couldn't help but clap their hands in praise.

They were the ones who took care of all the other Heavenly Beasts in the canyon, and Tang Huan was the one who took care of the "Ghost Shadow Snake". No matter how good the Ghost Snakes were at hiding, as long as they were within ten metres of, no one would be able to detect them. However, once they were discovered by Tang Huan, the Ghost Snakes' fate would be sealed.

He had encountered many Heavenly Beasts, but had not gained much.

On the way, he didn't find any "Blood Rainbow Core Grass" or "Silver Frost Dao Stone". On the other hand, he found two other immortal grasses. Although they weren't worth much, they were still better than nothing.

"Brother Tang, something's wrong."

Lei Jia Yuan's figure flashed and appeared beside Tang Huan, "This is already the fifth 'Dark Underworld Ghost Snake' we've met! "In the past, these Ghost Shadow Snakes would usually only stay in the Dark Nether Lake deep within the canyon. But now, there are actually so many people running to the canyon's edge. It's very abnormal."

"Something abnormal must have happened!"

Tang Huan's eyes slightly congealed as he said solemnly.

He knew the habits of this "Ghost Shadow Snake". The lair of this Heavenly Beast was the Dark Nether Lake in the depths of the valley, hence the name "Ghost Shadow Snake". Under normal circumstances, the Ghost Shadow Snake wouldn't have left the area of the Dark Nether Lake for a thousand miles. However, this place was at least twenty thousand kilometers away from the Dark Nether Lake.

"Let's look in a different direction."

"..."

Changing directions, the result didn't seem to make much of a difference. In less than an hour, Tang Huan and the others had encountered four more "Ghost Snakes".

"The Ghost Snakes from the Dark Nether Lake have all come out?"

When Tang Huan killed the ninth Ghost Snake in the canyon, everyone couldn't help but look at each other in dismay.

Tang Huan also frowned slightly. He had a feeling that something big was going to happen within this gorge.

"We ..."

After a moment, Lei Jia Yuan looked at Tang Huan and could not help but speak.

Originally, he wanted to ask Tang Huan if he still wanted to go deeper into the canyon. For such an important matter, the strongest person in Tang Huan's group had to make a decision, but before he could finish, he was suppressed by a deafening explosion.

"Rumble ..."

The entire sky and the earth rumbled, and the entire Ghost Snake Valley trembled.

Tang Huan, Lei Jia Yuan, Fang Xu and the rest looked at each other, and in an instant, a dozen of them rose into the air at almost the same time, shuttling between the lush leaves. In a blink of an eye, they were already a hundred meters above the ground. It was already dusk, and the entire Reincarnation Mountain Range was shrouded by the darkness of the night.

Everyone's gazes simultaneously looked towards the depths of the canyon.

At this moment, not only Tang Huan and the rest, all the cultivators in the other parts of the canyon who felt a headache from the "Ghost Hell Snake" also rushed into the sky, looking towards the depths of the canyon. There were even quite a few cultivators outside the canyon who were alarmed and turned to look at the source of the sound in the blink of an eye.

"Hu!"

The huge whistling sound suddenly surged crazily in the world, as if it could tear open one's eardrums. In the depths of the canyon, a hint of dark blue was suddenly imprinted into the eyes of all the cultivators. It seemed to be an enormous pillar of water that gradually rose from the bottom, and was actually rising higher and higher.

At almost the same time, in the sky above, hundreds of millions of green lights suddenly penetrated the drowsy night sky, falling into the depths of the canyon and getting brighter and brighter.

In just one or two breaths' time, the dazzling green light had already made it hard for everyone to look at it. Then, a huge green ball completely drilled out from the darkness of the night and hung in the sky like a bright moon. Above the sphere, there were mountains and rivers, lakes and seas, as though it was its own world.

"Green moon?"

Looking at the dark blue water pillar that was getting closer and closer to the green ball in the sky, Tang Huan couldn't help but to be moved. Two characters uncontrollably surfaced in his mind,

"Shen Yue?"

Chapter 1413 - Nameless Celestial Grass

"Mystic Moon!" It's the divine moon! "

In the next moment, both Lei Jia Yuan and Fang Xu who were beside Tang Huan and the other dozens of people around him started shouting, all of them blushing with excitement.

Shen Yue was the name that the cultivators of the Heaven Realm gave to the green moon in the sky.

No one knew how the divine moon was formed, nor did anyone know where it came from. They only knew that once the divine moon appeared, either a lake or a river would be drained clean. And now, the divine moon's goal was obviously the Dark Nether Lake in the depths of the canyon.

"Hahahaha, I know why so many Dark Underworld Ghost Snakes came out."

Lei Jia Yuan suddenly jumped up and shouted.

At this time, not only did he understand the reason, but everyone else around him also understood. According to the legends that had been passed down since ancient times, the Divine Moon was the symbol of luck.

It was said that the light of the divine moon contained an incomparably mysterious power.

When ordinary flowers and plants were exposed to the divine moonlight, it was possible for them to transform into immortal herbs. When normal sand and stones were exposed to the divine moonlight, it was possible for them to transform into Dao-stones. When the divine moon appeared, it would normally be accompanied by countless heavenly materials. And those who were able to see it were naturally the lucky ones.

This time, Shen Yue wanted to absorb the water from the Dark Nether Lake. As a native of the lake, the "Ghost Shadow Snake" must have sensed something. The Ghost Snakes were a group of living Heavenly Beasts, and these types of Heavenly Beasts would definitely have a leader. The Ghost Snakes in the group must have been driven by their leader, which was why they were spread out throughout the valley.

The purpose of his actions was very simple.

The Ghost Snake Leader wanted to monopolize the best heavenly resources in the Dark Nether Lake, and the existence of those Ghost Snake Leaders could very effectively block the cultivators and Heavenly Beasts in the valley. When the Ghost Snake couldn't stop them, perhaps all of their best treasures would have been taken by the Ghost Snake Chief.

"That Ghost Snake Chief has such a big appetite."

Tang Huan naturally understood the reason and couldn't help but laugh. The Ghost Snake Chief could only occupy the best portion of the heavenly resources, which was why it was impossible for it to take all the heavenly resources for itself. Otherwise, it would not hesitate to take them all for itself.

"Brother Tang, what should we do now?"

Lei Jiayuan gripped the weapon tightly as his eyes burned with madness.

Not only him, but Fang Xu and the others were no exception as well. The sight of the divine moon in the sky could be said to be a once in a lifetime opportunity. Many cultivators, even when their lifespans were running out, would not see it once. But now, with such a great opportunity right in front of him, how could he let it slip by so easily?

Facing the burning gazes of the crowd, Tang Huan smiled: "People die for money, birds die for food, the heavens give us away, and we shall be blamed. Everyone, let's go straight to the Dark Underworld Lake."

"Let's go!"

Lei Jiayuan, Fang Xu and the others echoed his words.

Dozens of people flew into the forest. With such speed, it was naturally impossible to compare to the Space Aircraft.

At this time, the movements at the Dark Nether Lake would definitely attract the nearby flying beasts, and the lowest end of the Space Aircraft actually did not have a very strong defensive power, so even if it met with a few flying beasts that were comparable to the Seven Transformations Sky People, it was extremely likely that the aircraft would collapse.

Even the aircraft had collapsed, so the cultivators hiding in the inner space were bound to be heavily injured.

As a result, these low level aircraft could only be used in a safe environment to travel. If it were those high level aircraft, they would naturally not have such concerns.

"Whoosh!" "Woosh ~ ~ ~"

Without holding back in the slightest, everyone pushed their speed to the maximum.

Roars rang out from time to time, clearly indicating that the Heavenly Beasts were also rushing towards the depths of the canyon. At the same time, sounds would occasionally ring out from high up in the sky. Not only that, Tang Huan and the rest could even occasionally catch some sharp hissing sounds and the angry roars of Heavenly Beasts, as if there was a "Ghost Snake of Darkness" fighting against other Heavenly Beasts.

Not only did the Heavenly Beasts suffer, Tang Huan and the rest suffered the same fate.

Along the way, there were constant sneak attacks by "Ghost Shadow Snakes". However, under Tang Huan's sharp counterattacks, these sneak attacks did not have much of an effect. After killing dozens of "Ghost Shadow Ghost Snakes", although they could still occasionally hear the cries of Heavenly Beasts, the Ghost Snakes were nowhere to be seen.

Tang Huan and the rest immediately realised that the Dark Nether Lake was not far away.

High up in the sky, the dark blue water column that had become even larger and larger, as well as the forest that was illuminated by the green luster also proved this point. After such a long period of time, the column of water had long since connected with the green divine moon in the sky, and the lake water continued to rise.

"Immortal grass!" "Immortal grass"

Lei Jia Yuan and the rest suddenly shouted in surprise.

Under the tree opposite, there was a nameless grass plant that was glowing with a faint green light. It was exceptionally agile. Even though it was tens of meters away, one could still feel the strong medicinal energy emanating from it. There was a large gap between the leaves in the sky where the small grass was located, which was enough for a large amount of moonlight to pour down.

This immortal grass formed from the light of the Divine Moon was very different from those that normally grew.

First, it was very easy to recognize. This immortal herb had a divine moonlight attached to its surface, making it very eye-catching. Second, the medicinal effects of this herb were all released outwards and not contained within. Regardless of whether it was the green light or the dense medicinal energy, even after the divine moon disappeared, it could still be maintained for around an hour. After an hour, they would have to search carefully.

Lei Jia Yuan rushed forward and carefully pulled out the nameless immortal grass and stored it in his spatial ring.

Before reaching the Dark Nether Lake, they had already gained something that lifted their spirits and continued onward at great speed. In this area, the number of trees decreased as compared to the previous years. Without the cover of the big trees, there were more and more flowers and plants on the ground. However, the majority of the flowers and plants didn't change at all. The only difference was that the immortal spiritual energy was much richer and the life force was more vigorous.

This kind of plant was not even called immortal grass.

The reason for this was that only ordinary flowers and plants that already contained some medicinal effects would have such a change. Under normal circumstances, the medicinal power of those flowers and plants would not be of any use for cultivation, but after being exposed to the light of the divine moon, there would be a qualitative change. The medicinal power contained within them would need to be explosively increased, and the quality was already not the slightest bit inferior to the normal immortal herbs that normally grew.

However, even if the chance of metamorphosis was very small, with such a large base for normal flowers and plants, the harvest would naturally not be small either.

Before long, Tang Huan and the others had found more than ten nameless immortal herbs, and all of them were stored in Lei Jia Yuan's spatial ring.

They did not scatter to search for the Immortal grass, nor did they change directions to go somewhere else, but continued to move forward. First, they were in the depths of the valley, where dispersing was extremely dangerous, and second, they were all aware that the most precious heavenly materials were all concentrated at the edge of the lake, because the light of the divine moon was the strongest there.

Chapter 1414 - Whirlwind

After a long while, they climbed over a ridge that was only a dozen meters tall, and a huge pit, which was extremely huge, finally entered the line of sight of Tang Huan, Lei Jia Yuan and the rest.

He had arrived at the Dark Nether Lake!

In the air above the lake, the enormous dark blue water pillar was quickly shrinking. In a mere blink of an eye, it was completely dried up by the Divine Moon sucking, and in the sky, the brilliant green luster began to dim immediately.

On the lakeside below the mountain ridge, there were balls of green light, big and small. At the bottom of the dry lake, there were also spots of green light.

"Immortal grass!" Haha, so much immortal grass! "

"Ahhhh, those are all Dao stones, right?"

"We're rich! We'll be rich this time!" "I'm rich..."

"..."

Seeing this, Lei Jiayuan, Fang Xu and the others started talking incoherently, dancing nonstop. But after that moment, everyone's voices paused, in the distant skies above, the brilliant green luster had already completely disappeared, and the green moon had once again drilled into the darkness.

The divine moon had disappeared!

The moonlight, which had been scattered down from the sky, illuminated the entire stretch of the world, causing it to darken once again. However, lumps of green luster flickered within the insides of the Dark Nether Lake, and from afar, it seemed as if the depths of the "Ghost Snake Valley" was covered by a sea of green stars.

Lei Jia Yuan and the rest were so excited their eyes were glowing green.

Every ball of green in the darkness represented a type of heavenly resource, whether it was immortal grass, immortal stones, or even iron crystals, or other precious objects.

"Next up, everyone has to be careful."

However, in the next moment, Tang Huan's voice was like a bucket of cold water poured on everyone's heads, "There must be a lot of Dark Underworld Ghost Snakes here, and the ones that are left here are definitely strong amongst the Ghost Snakes. That Ghost Snake Chief should have the strength comparable to Huang Ji, and might even be more powerful than that.

"There may be countless treasures here, but if I'm not careful, I might be unable to escape!"

"Therefore, when everyone collects heavenly materials, you need to pay attention to your surroundings at all times. If anything strange happens, you have to be alerted immediately. The most important thing is, do not scatter too far. Otherwise, even if 'Ghost Shadow Snake' approaches, I might not be able to detect it ahead of time. "

Tang Huan's face was gloomy, his tone solemn.

At this time, everyone was a little too pleased with themselves, and Tang Huan had no choice but to remind them. Of course, if someone turned a deaf ear to his words, he would not act as a savior.

"Understood!"

Lei Jia Yuan, Fang Xu and the rest were all in a cold state of mind as they solemnly nodded their heads. The fervor in their hearts gradually cooled down.

Just as Tang Huan had said, even though there were countless treasures by the side of the Dark Nether Lake, there were similarly huge hidden dangers. For the time being, there were not many Heavenly Beasts and Cultivators who could break through the Ghost Snakes' blockade, but those Ghost Snakes would not be able to hold them off for long. There was no need for that. As long as there were two or three Huang Ji Realm warriors, it would be difficult to deal with them.

Once they lost their minds to these treasures, they wouldn't be too far away from death.

"Alright, let's go!"

Tang Huan waved his hand, and everyone immediately jumped down from the mountain ridge, and then started moving quickly by the side of the Dark Nether Lake.

With Tang Huan's reminder, everyone was paying close attention to their surroundings to see what was happening. Furthermore, they did not move more than ten meters away from Tang Huan. Regardless of whether it was immortal grasses, Dao stones, or other treasures, no one had the time to check them. They were all kept in their spatial rings.

Everyone knew very well that the most suitable time to collect heavenly materials and treasures was only around an hour. After this period of time, the divine moonlight on the surface of heavenly materials like immortal herbs and dao stones would disappear, and at that time, the collection efficiency of heavenly materials would be greatly reduced.

The crowd moved along the banks of the Dark Nether Lake like a whirlwind. Wherever they passed, things that flickered with a green light were swept away.

"Something's wrong!"

Tang Huan suddenly stopped his steps, and a low voice sounded out right after.

Everyone subconsciously stopped, following Tang Huan's gaze, they saw those shining green dots disappearing one after another a thousand meters away from Tang Huan.

Everyone was slightly alarmed and immediately realized what was going on.

In that area, there would definitely be cultivators collecting all sorts of heavenly resources, or Heavenly Beasts devouring immortal herbs. Furthermore, the cultivators or Heavenly Beasts would have already discovered their presence, because the green light dots were disappearing in the direction of them at an extremely fast speed.

Everyone that was originally scattered over a dozen metres away immediately gathered beside Tang Huan, their eyes filled with vigilance.

"Brother Tang, should we leave ..." Lei Jia Yuan could not help but whisper. At this time, the commotion was already hundreds of meters away. With the help of the luster of the immortal grass, it was possible to tell that it was a group of cultivators. There were roughly forty to fifty of them, three times the number.

"Let's shift direction and see if they follow us or not."

Tang Huan said in a heavy voice.

Thus, everyone began to move to the right front. However, with their sudden movement, the group of cultivators also changed their direction, still heading towards them. It had only been a short period of time, but the distance between them was even closer. The situation over there had become even clearer to everyone.

"Sure enough, they are here for us."

"We have to be careful!"

"..."

Lei Jia Yuan, Fang Xu and the rest were all furious and worried.

After all, the difference in numbers between the two sides was just too great. There were at least forty to fifty people there, and they only had a dozen or so people on their side. However, since they were able to break through the tight seal of the "Ghost Shadow Snakes" so quickly and arrive at the banks of the Dark Nether Lake, there was bound to be experts within the group.

"Don't worry, if we really plan on escaping, they might not have the chance to chase us!" Tang Huan sneered, a bit of coldness flashing through his eyes.

"Halt!"

Hearing Tang Huan's words, everyone was slightly stunned, but before they could even ask, a loud shout had already sounded out, it was already over ten figures that were over ten meters away. All of them had an aggressive look, their legs moved as though they were flying, while the other thirty odd people were collecting the treasures on the ground while approaching them.

"Hand over the immortal herbs and Dao Stones you've collected and I'll let you off the hook. Otherwise, I'm afraid you guys will have a hard time walking down the banks of the Dark Nether Lake!"

Another shout rang out.

Using the luster of the immortal grass, its appearance could be vaguely seen. It was actually a tall and sturdy man with a fierce-looking face, carrying a gigantic blade that was pitch black on his shoulder, with a sinister smile on his face. He looked at Tang Huan, Lei Jia Yuan and the others as if he was looking at a group of fish that could be cut at any man.

Chapter 1415: It won't be long before I can't laugh anymore!

"Wanting our immortal herbs and our Dao stones is simply a dream!"

"This is wishful thinking!"

"If you want to keep us here, then come here. I want to see what kind of abilities you have!"

"..."

Lei Jia Yuan, Fang Xu and the rest were filled with rage as they shouted out.

The tall and sturdy man and the others were slightly surprised, but immediately started to laugh. His expression was as though he was looking at a group of mice that were baring their fangs in front of a group of cats.

"Is it funny?" Tang Huan suddenly said.

"Funny! This is so damn funny! " That muscular man grinned and laughed sinisterly, "You dare to fight against us, you bunch of bastards? Looks like you really want to die! If that's the case, you can do as you wish! Brothers, don't you think so? "

"Yes sir!"

Dozens of cultivators responded in unison.

When Lei Jia Yuan and the rest saw this, they became even more furious.

However, seeing the other party closing in on them with brisk steps, the crowd was furious and a little worried. An hour soon passed. Once the Mystic Moon Light and other obvious signs disappeared, the difficulty of finding those heavenly resources would greatly increase. From the large amount of green light that had disappeared behind them, it could be seen that they had collected a large amount of heaven and earth treasures.

However, Tang Huan seemed to not care about the people in front of him, and laughed: "Then, let's laugh for a while, very soon, you guys won't be able to laugh anymore."

"What do you mean?" The tall and sturdy man was stunned.

"Ahhhhhhhhh!"

At this moment, a mournful scream was heard.

Ten meters behind the burly man, a figure flew out without any warning, his body bent into a bow. A black shadow, carried by the fresh blood, pierced through the cultivator's body, landing on the ground and quickly disappearing. The cultivator also fell to the ground, no longer moving.

On his abdomen, there seemed to be a bloody hole the size of a bowl.

"Ghost Shadow Snake!"

The tall and sturdy man's face suddenly changed as he shouted in shock, "There's a Ghost Shadow Snake!" However, almost as soon as the words left his mouth, miserable shrieks rang out.

Another cloud flew back like a soaring cloud. It flew for nearly twenty meters, and its abdomen was similarly hideous with a bloody hole.

"Be careful! "Be careful!"

The group of tens of cultivators was in an uproar as cries of alarm rang out. With four people in a group, they all gathered back to back at the fastest speed possible. Their faces were all solemn and alert as they could no longer be bothered to snatch the heavenly resources collected by others.

The deaths of his two companions showed how the Ghost Snake liked to attack.

Attacking the stomach of a cultivator, using the powerful force of impact to pierce through the Dantian and shattering the Dao soul, one would be able to kill. If any other part of the cultivator was attacked, although it would be severely injured, it wouldn't be fatal. Even if the cultivator's head exploded or the Ghost Snake released a powerful venom, as long as the cultivator escaped from the Nascent Soul in time, they would still be able to survive.

This sudden development caused Lei Jia Yuan and the rest to be shocked as they looked around vigilantly.

Judging from the situation just now, there were at least two Dark Ghost Snakes nearby, which greatly increased their threat. However, when they remembered Tang Huan's miraculous performance in the Ghost Snake Valley, they immediately calmed down and understood the meaning of Tang Huan's words from before.

Now, those fellows on the other side could no longer laugh!

Tang Huan must have sensed the existence of the "Ghost Shadow Snake" a long time ago. Lei Jia Yuan and the rest understood what was going on. The muscular man and the rest seemed to have realized this as well. Surprised, they became even more embarrassed and annoyed. If it weren't for the Ghost Snake, they would have already killed them.

"Brother Tang ..."

Lei Jia Yuan lowered his voice.

But before he could finish his sentence, Tang Huan had already shot to the side, the long spear in his hand struck the ground, the speed of the spear was extremely slow, he could clearly catch the trajectory of the blue ray of light through the air, but wherever the spear tip passed, the space in front of him seemed to quickly shrink.

Pointing to the spear, the Strength Qi flipped, raising dust and sand in the air.

In less than half a blink of an eye, a hole appeared on the ground and a long black shadow appeared. It arched its body and tried to escape.

"Bam!"

But after an instant, the black figure had already snatched it away and turned into a blood mist, which was then immediately scattered by the Strength Qi.

After entering the Ghost Snake Valley, Lei Jia Yuan and the rest had witnessed this kind of scene over and over again, and were already used to it. However, the muscular man and the rest of them were immediately stunned, and killed a Ghost Snake with a single spear strike.

"Everyone, take your time and enjoy this special product of the Dark Nether Lake. We'll be leaving first!"

Tang Huan cupped his hands and smiled at the muscular man, he walked forward and at the same time, thrust the spear in his hand towards the ground, causing a shiny stalk of Immortal Grass to fall into his palm.

Lei Jiayuan and the others followed him. Before leaving, they intentionally winked at the people in front of them and gave them a strange smile. Their expressions were full of ridicule.

The burly man was enraged, his face swollen like a pig's liver. He had only taken a few steps when he heard a cry of surprise from behind him. He had no choice but to stop, but his expression turned uglier and uglier.

Although the Ghost Snake was powerful, it still bullied the weak and feared the strong. That guy had easily killed one Ghost Snake with a single spear strike and had already intimidated all the other Ghost Snakes nearby. Following that, the ghost snakes would only stare at them, not chase after the dozen or so people who were leaving.

The tall and sturdy man and the others could not help but curse repeatedly while guarding against the ghost snakes' sneak attacks. However, they could only watch as their opponent continued to move forward while collecting heavenly and earthly treasures.

Not long after, the green luster that had been flickering about the exterior of the Dark Nether Lake quickly dimmed, then completely disappeared. The entire area became even darker.

Tang Huan, Lei Jia Yuan and the others who had also obtained a lot of treasures heaved a sigh of relief.

The disappearance of the Mystic Moon Dazzling Light would increase the difficulty of finding heavenly materials, but it would also help them avoid exposure.

If they were to meet any other cultivators, they would find that the rest of their land was covered in green light. Only the area behind them was dark, and even a fool would be able to guess that they had harvested a large amount of heavenly resources.

As time passed, more and more cultivators and Heavenly Beasts gathered here.

However, even if they didn't obtain anything in the next half hour, just the treasures they had collected would be enough to allow them to exchange for a large amount of cultivation resources in the Emperor Dragon's Heavenly Mansion. Even if they didn't exchange them, they would still be able to use those immortal herbs to greatly increase their cultivation.

Suppressing the excitement in their hearts, they continued to search for treasures of heaven and earth.

Unknowingly, the sky had become brighter and brighter.

Chapter 1416 - Cui Wei Shen Lan

After a night of rest, the surrounding area of the Dark Nether Lake had seen a large number of cultivators, and occasionally, the figures of Heavenly Beasts could be seen.

However, at this time, whether it was cultivators or Heavenly Beasts, they were all focused on the heavenly resources, and did not have the mood to fight with each other. Of course, the more time passed, the more difficult it was to maintain this peace.

After all, regardless of whether it was immortal herbs, Dao stones, or other heavenly materials, there was no sign of the half an hour period last night. Some cultivators with strong Perception Ability would be able to gain something soon, but those with weak Perception Ability might not be able to.

In the long run, battles were inevitable.

In just half a day, Tang Huan and the rest had witnessed six battles between cultivators. Not only that, those Ghost Snakes, who had already returned to the Dark Nether Lake from all over the canyon, were also attacking from all directions to ambush and kill the cultivators. Just Tang Huan and the others alone had been ambushed by the "Ghost Snake of Darkness" four times.

Fortunately, Tang Huan was here, so no one was injured.

It was just that this series of experiences had already made everyone full of joy, even Lei Jia Yuan and Fang Xu were no exception.

There were already quite a few Heaven Saint Masters that had appeared in the region of the Dark Nether Lake. Everyone had already crossed paths with the lone cultivator that was suspected to be a Heaven Saint Master several times. The aura being emitted from Tang Huan's body was extremely powerful, causing them to be wary, and hence they did not engage in battle. However, it was impossible for them to have this kind of luck every single time.

Tang Huan was well aware of what Lei Jia Yuan and the rest were thinking. Not only did he not object, he was completely in favor of it.

However, Tang Huan did not plan to leave the Dark Nether Lake alone. Thus, after sending Lei Jia Yuan and the rest off a thousand miles, he began to return. When they found out that Tang Huan did not want to leave together with them, they tried their best to persuade him, but Tang Huan never changed his mind.

With Lei Jia Yuan and the rest by his side, Tang Huan had to conceal his [Perception Ability]. When he was searching for treasures of heaven and earth, he always felt that his hands and feet were tied.

Alone, Tang Huan no longer had such considerations.

Although the auras of the treasures had been restrained to the limit, under Tang Huan's probing, within a thousand meters, no matter how well they were hidden, they were nowhere to be found. After returning to the Dark Nether Lake, Tang Huan did not stop at all and immediately started to move at his fastest speed.

This time, Tang Huan did not swim around the banks of the Dark Nether Lake, but instead headed deeper into the lake.

After the lake had been cleaned by the Divine Moon sucking, the bottom of the lake was completely exposed. From what he saw last night, there were countless immortal herbs and dao stones hidden in the water at the bottom of the lake. However, the danger level of the Dark Nether Lake was also above the lakeside. Most of the Ghost Snakes that had returned were in the lake.

Of course, to Tang Huan, this kind of threat wasn't anything at all.

Whoosh.

Tang Huan swam swiftly in the lake, unrestrainedly collecting all sorts of heavenly and earthly treasures. Only when the cultivators enter his sensing range, would Tang Huan slightly restrain himself. He did not wander around like the other cultivators, but instead headed straight for the center region of the Dark Nether Lake.

When he returned to the Dark Nether Lake this time, what Tang Huan valued the most were not immortal herbs, dao stones and other treasures.

Collecting these things was only along the way. What Tang Huan really wanted was to find them in the center of the Dark Nether Lake, which was also brought by Shen Yue.

A hundred miles passed in the blink of an eye.

In the center of the Dark Nether Lake, at the bottom of the lake which was thousands of meters deep, there was actually a huge hall hidden inside. It occupied an extremely wide area and its length and width had almost reached three thousand meters.

The hall had been submerged in the lake for who knows how many years. There were ruins everywhere, and it was in ruins. However, one could still see its majesty and majesty.

At this moment, in the center of the hall, there was a glowing green light.

Tang Huan did not hesitate, and immediately flew forward as fast as he could. The Dantian Cauldron, the Dao Soul, and even the "Intangible Buddha" had all been activated, and Tang Huan was already unleashing his own Perception Ability to the fullest. The Ghost Snake Chief had never appeared, so he had to be on guard.

"Hmm?"

When he was about a kilometer away from the ball of green, Tang Huan's footsteps slightly paused, and his eyes became somewhat solemn.

In that area, he could sense more than ten powerful auras. Seven auras originated from the cultivators, while six auras originated from the Heavenly Beasts.

With only a slight delay, Tang Huan continued to advance, but kept the dragon medallion on his waist, and then took out a black robe from his spatial ring, covering his entire body, and only revealed two eyes, causing Tang Huan's intentionally released Qi to disappear.

Swiftly shuttling between the ruined palace, after a while, a small three level round altar had entered Tang Huan's line of sight. At the top of the round altar grew an emerald green plant. At the top of the stem, which was as thick as a thumb, were five thin branches. On each branch, there was a small round bud.

Whether it was the flower buds or the stems and leaves, they were all crystal clear and sparkled with a green light. From afar, they looked as if they had been completely condensed by the divine moonlight.

"Divine Jade Orchid!"

These four characters came out of Tang Huan's mind reflexively.

Tang Huan's understanding of Shen Yue actually far surpassed that of ordinary people. Of course, Tang Huan's understanding of Shen Yue came from Pan Ji, the Heavenly King Stage powerhouse.

Pan Ji didn't know how the divine moon had been formed.

However, he knew that the Divine Moon was actually an extremely magical secret realm. Only a very small number of people could enter it by chance. Furthermore, every time the divine moon appeared, in addition to producing a large amount of heavenly materials, the remaining energy would create a type of immortal herb called 'Jadeite Divine Orchid' under the divine moon. That immortal herb would completely form at noon the next day, and then blossom into a flower bud.

Compared to a large amount of heavenly materials, the "Jade Tiny Divine Orchid" was the most essence.

This time, Tang Huan was heading towards the "Jade Micro-Divine Orchid".

However, Tang Huan had arrived a little too slowly. At the highest level of the round altar stood seven figures, male and female, all of them relatively young, and the auras emanating from their bodies were extremely powerful. If Tang Huan was not wrong, they should all be extremely powerful.

Opposite the seven Mysterious Heaven Scholars, there were six dark, sleek snake silhouettes.

It was the "Dark Underworld Ghost Snake". Different from the ordinary Ghost Snakes, the six Ghost Snakes on the round altar were much thicker, and one of the Ghost Snakes was especially huge, probably already possessing the strength comparable to a peak-stage Divine Soldier. The other six Ghost Snakes were also comparable to an ordinary Heavenly Soldier.

The seven cultivators and the six Ghost Snakes were facing each other at a distance of ten meters, with the "Jade Divine Orchid" in the middle.

Chapter 1417 - Threatening

The strongest cultivators and Heavenly Beasts in the Ghost Snake Valley and the surrounding area should be gathered here, and there might even be people on their way to the Dark Nether Lake.

It was just that the immortal grass was still growing and had yet to mature. Moreover, both sides were wary of each other because they did not attack each other, but the vigilance and vigilance displayed by both sides was very obvious.

The Ghost Snakes definitely didn't know the origins and effects of the "Jade Light Divine Orchid", but based on their instincts, they would definitely be able to sense that the stalk of immortal grass before them had a huge instinctive effect on them. As for those Heavenly Saints, even if they did not know about them, they must have felt the same way.

The moment Tang Huan appeared from an arched door, he was noticed by the cultivators and the Heavenly Beasts at the top of the round altar.

"Hiss ..."

The few "Dark Underworld Ghost Snakes" immediately raised their heads, opened their mouths, and emitted sharp and ear-piercing hisses, as though they were giving Tang Huan a warning.

The gazes of the Heaven Realm warriors also swept towards Tang Huan, and their eyes instantly turned cold and fierce.

Under the black hood, Tang Huan's lips curled up into a smile. He was actually meeting the gazes of the Heaven Realm warriors and the Ghost Snake, and continued to move forward at a moderate pace.

After a while, the expressions of the seven soldiers started to change.

The man in black had already entered their perception range, but strangely, they couldn't sense any aura from his body. Even if he was an ordinary person, an aura would seep out from his body, but there was not even the slightest bit of aura coming from the body of the man in black.

This was extremely unbelievable.

The black-robed man was clearly within their line of sight, yet it seemed as if he did not exist. At the same time, he seemed to have completely merged with the surrounding space, causing others to be unable to detect his presence at all. At this moment, if they closed their eyes, they wouldn't be able to sense that someone was approaching them.

The seven of them exchanged glances and saw a hint of shock in each other's eyes.

Could this person be the Heavenly Monarch?

However, as soon as this thought appeared, everyone rejected it. The Reincarnation Mountain Range, especially the low risk Ghost Snake Valley, meant that the possibility of a Heavenly Monarch appearing was very small. Let alone the Heavenly Monarch, even the Heavenly Saints, or the Earth Saints, were extremely rare.

In this area, the Profound Extreme Heaven Scholars could be considered the strongest.

Furthermore, if this person was really a Heavenly Monarch Realm expert, there was no need for him to dress up like this.

However, to be able to conceal his aura to such an extent meant that his strength was definitely not weak. He could possibly be a peak-stage Profound Core martial artist, or even a peak-stage Earth Core martial artist!

Everyone's thoughts raced, and their eyes were filled with deep fear.

Although the Ghost Snakes also noticed that the situation was different, they didn't have as much thought as them. Seeing Tang Huan getting closer, they screamed again and again.

"Hiss ..."

After an instant, the thickest body of the "Dark Underworld Ghost Snake" suddenly let out a shriek that seemed to be able to pierce through one's eardrums. One of the Ghost Snakes by the side seemed to be listening to the imperial edict, its body arched and shot forward, its 10 metre long body directly flying towards Tang Huan who was at the bottom of the round altar.

Tang Huan squinted his eyes, the "Pure Yang Divine Sword" appeared in his hand.

"Buzz!"

The sword which had not left Tang Huan's Dantian for a long time immediately released an earth-shaking buzzing sound, and a sword intent even more terrifying than the one from the lower realms roared out. It condensed into a substance, and in an instant, it turned into a terrifying storm that rolled in all directions.

Huge ripples that could be seen by the naked eye appeared in the space within a radius of a hundred meters.

After entering the Heaven Realm, although Tang Huan hadn't used the "Pure Yang Divine Sword" anymore, it was constantly being nurtured by Tang Huan's Dao Nascent Soul, and had always been improving. Furthermore, the stronger the Dao Nascent Soul was, the stronger the nurturing effects were, and the current "Pure Yang Divine Sword" was several times stronger than when it was in the lower realms.

Even a middle tier sword type item would not have its boundless sword intent.

"What a strong sword intent!"

On the round altar, the few soldiers were trembling in fear. When they looked at Tang Huan, the fear in their eyes became even stronger. A Dao item that contained such boundless sword intent was definitely not ordinary, and a cultivator with such a Dao item would definitely not be weak.

Extremely human-like fear surfaced in the eyes of those "Ghost Shadow Snakes".

"Hiss ..."

Suddenly, the Ghost Snake who had the thickest body, which was obviously the leader, let out a sharp cry, as if it wanted to summon back the Ghost Snake that was scurrying towards Tang Huan. But right at the moment when the voice was heard, the "Pure Yang Divine Sword" in Tang Huan's hand started to dance quickly under everyone's attentive gazes.

Like a volcanic eruption, countless snow-white sword radiances, with Tang Huan's body as the center, churned in all directions.

Sword Corrosion of the Five Techniques of the Legacy of the Creation God!

Although the "Ghost Shadow Ghost Snake" had heard the Ghost Snake Chief's call, it didn't have the time to retreat at all. It didn't even have the time to scream before its black body was enveloped by the sword aura rolling towards it.

Following that, the sword lights that filled the sky faded away, and the void returned to its previous calm state. However, that "Ghost Shadow Snake" had already disappeared without a trace, turning into ashes and vanishing into thin air.

Upon seeing this scene, the round altar instantly fell into a deathly silence.

The shock in the eyes of the seven Heaven Realm Soldiers could no longer be hidden. The "Dark Ghost Snake" that had been killed, was definitely comparable to a normal Heaven Saint Master, but under the mysterious black robed man's sword, it was unable to withstand even a single strike! Moreover, the ingenuity of that sword skill was also amazing.

They had a feeling that if they were the ones facing that sword skill just now, then their souls would have been dispersed as well.

Extreme Earth Skeleton! He was definitely an Earth Elite!

The seven of them exchanged glances, their hearts trembling.

Opposite of them, the few "Ghost Shadow Snakes" were clearly quite shocked as well. Their eyes stared fixedly at the black figure at the foot of the round altar as their bodies continuously twisted, suddenly curling up into a ball, then dispersing and slowly moving around, as if they were afraid and uneasy.

However, Tang Huan acted as if he did not notice the looks from the Heavenly Monsters and Heaven Monsters above him, as he leisurely walked up the stairs.

At this time, the "Pure Yang Divine Sword" in his hand had already quietly returned to the Dantian, but under the hood, the smile on Tang Huan's face had become even wider. After obtaining the five hundred crystals, his strength had indeed increased by many times, and with his Sword Erosion, he was able to instantly kill a "Dark Nether Ghost Snake" that was comparable to a profound practitioner. Now, even if it was a Heavenly Scholar at the peak of the Xuan Ji Realm, he wasn't afraid of a fight.

Chapter 1418 - Mystic Moon Essence

As Tang Huan got closer to the top of the round altar, those warriors subconsciously felt the urge to retreat.

If it was just him alone, he would have no other choice but to retreat, but with so many Mysterious Heaven Realm warriors, he could still fight with them. Furthermore, if they really fought, those Ghost Snakes could also become their helpers.

They were indeed opponents when fighting the Ghost Snake previously, but now, their biggest enemy was the man in black robes.

After all, after the man in black finished them off, there was no way he would ignore the Ghost Snake that was coveting the immortal grass. Even though the Ghost Snake was a beast, it definitely understood this point. From the other party's reaction, it could be seen that the Ghost Snake Chief was already frequently looking in their direction, as if it wanted to reach a tacit understanding with them.

However, to their great surprise, after the black-clothed man walked up to the top of the round altar, he directly sat down with his legs crossed. He ignored them as if they were nothing and showed no signs of continuing to attack.

Everyone looked at each other in dismay. Although they were confused, they were secretly relieved.

The ghost snakes seemed to be puzzled as well, but they did not take the initiative to provoke him. Hence, the round altar descended into a strange silence. However, regardless of whether it was the seven Heaven Realm warriors or the six Ghost Hell Snakes, they did not let their guard down one bit.

Time flew by, and another few figures arrived at the top of the round altar.

Judging from the auras that were seeping out from their bodies, they should be the Heaven Saint Masters of Huang Ji. They only stayed around the round altar and did not dare to come up. After

these Huang Ji soldiers, there were also a few others who rushed over. All of them were Heavenly Saints, the Mysterious Spirithail Dragon.

Their arrival did not cause any of those Mysterious Heaven Scholars to be displeased, but instead made them secretly rejoice. Although the increase in the number of people would reduce the chances of obtaining the Immortal grass, the more people there were, the less of a need to worry about that mysterious man in the black robe. Those Ghost Snakes also seemed to understand this principle and didn't cause too much trouble.

Above the sky, the red sun was rising higher and higher.

Compared to before, the five tiny flower buds had expanded by several times. Strands of green aura lingered around the stem, branches, and bud. It was like smoke, like a dream or illusion, and it was filled with mystery.

As noon approached, the flower bud showed signs of blooming.

Whether it was the soldiers or the Ghost Snakes, all of their eyes were shining. They were ready to make a move, and a tense atmosphere spread out from the top of the round altar.

After a while, the five flower buds of "Divine Emerald Orchid" suddenly bloomed at the same time. The emerald green light exploded outwards, covering the entire round altar in its light, and an incomparably rich fragrance spread out in this area.

However, the moment the green flower bloomed, it separated from the "Divine Emerald Orchid" and flew off in five different directions, seemingly wanting to escape.

"It's blooming!"

Almost at the same time, a series of explosive sounds rang out. Ten or so Heaven Realm warriors and several "Ghost Shadow Snakes" shot out without hesitation, rushing at the five flowers. They either stretched out their arms, channeled their Heaven Origin Energy into their palms, or opened their mouths wide to the point where their fangs were ferocious.

Seeing that, Tang Huan's eyes flashed with a ridiculing smile. He who was originally different stood up, and with a slight movement of his feet, he had already arrived beside the "Jadeite Divine Orchid". He reached out to grab it, and the "Blue Divine Orchid", which had lost its flowers and only had the roots of its stem and branches, fell into his palm.

The Heavenly Scholars and Ghost Snakes were all fighting over the flowers of the "Jade Magnolia Divine Orchid." What they didn't know was that the true essence of the "Jade Magnolia" wasn't the five flowers, but the remaining stems, leaves, and roots. The Divine Orchid Flower could only harden its roots, but it could also nurture the stem of the Divine Orchid Flower.

Simply put, the flower could only refine flesh body, but the stem and other things could be used to refine a Dao Nascent Soul.

In Tang Huan's palm, the "Jadeite Divine Orchid" had already started to dissipate, but Tang Huan was already prepared. The moment the Divine Orchid touched his palm, boundless Tian Yuan immediately rose from his palm and enveloped it tightly. In the blink of an eye, "Divine Emerald Orchid" had completely disappeared, leaving only a ball of dense green colored aura, that was wrapped in Sky Origin Qi, on Tang Huan's right palm, that was around the size of a disk.

In fact, the process of the growth of the "Jade Magnolia Divine Orchid" was also a process of condensing the power of the divine moon and separating the impurities.

Those five flowers were the impurities that had been separated by the "Jade Light Divine Orchid", while the power of the essences was condensed into the stems, leaves, and roots. Of course, to cultivators, the impurities were also a treasure, but this kind of treasure was incomparable to the essences of the stems.

"If I can refine this lump of divine moon essence, then the growth of my Dao Soul will definitely be beyond my imagination."

Tang Huan smiled.

But in the next moment, he couldn't help but raise his eyebrows. Within his mind instructs (in a second), five hundred crystals trembled crazily and all the Sky Origin Stage power in his body was mobilized.

"Leave the things for this old man!"

It was also at this time that a loud shout suddenly shook the heaven and earth. An abnormally powerful burst of heavenly might swept over like a storm from afar, its might overflowing the heavens, as if it wanted to crush Tang Huan into fine powder.

Accompanying the appearance of the heavenly might was a white figure, whose speed was unbelievably fast. In an instant, he had already traveled across a thousand meters of space and appeared on top of the round altar. Surprisingly, it was a skinny white-clothed old man with a long white beard.

But at almost the same time, Tang Huan who was originally standing on the round altar, suddenly disappeared without a trace.

"Damn it!"

The old man in white snorted, stomped with his right foot, and flew into the sky. In the blink of an eye, he disappeared without a trace, but the round altar that had been at the bottom of the Dark Nether Lake for countless years collapsed with a loud rumble, filling the sky with smoke and dust.

The dozen or so Heavenly Scholars who were fighting over the Divine Orchid Flower and the few "Ghost Snakes" were completely stunned by the sudden commotion.

"Heavens ..." "Heavenly Monarch?"

A middle-aged man mumbled with a face full of surprise. The other cultivators' expressions didn't look any better as these two words flashed through their minds.

If the might of the Heavens was so strong, then he must be a Heavenly Monarch without a doubt.

Who would have thought that a Heavenly Lord would appear in Ghost Snake Valley, a place that even Earth Elemental Skies cultivators rarely saw. Furthermore, it was obvious that he was here for the Immortal Grass.

But the strange thing was that the old man in white came like the wind to snatch the immortal grass stalks and other things that the man in black had obtained, and turned a blind eye to these five flowers?

Originally, they had felt quite baffled by the man's actions.

However, from the looks of it now, the true treasures were probably the things that the black-robed man had taken away, and not the flowers that they were fighting over.

At that moment, those who had realized this had complicated expressions on their faces.

However, they were not in the mood to care about this. Whether it was Heaven Saints or Ghost Snakes, they once again threw themselves into the battle for the green flower ...

Chapter 1419 - Underground Lake Cave

"Hu!"

At the bottom of the Dark Nether Lake, above a clump of aquatic plants, the space fluctuated slightly as a figure suddenly appeared. A person's body was completely covered in a black robe, only exposing his eyes.

This person was naturally Tang Huan.

While Tang Huan was inspecting his surroundings, his hands did not stop moving at all. With a few moves, he tore off the black robe on his body and kept it back into his spatial ring, revealing his original attire. "Nine Yang Divine Furnace" also appeared around the same time, and threw in the ball of green aura in his palm, then quickly returned it to the Dantian.

Everything that might possibly reveal its traces had already disappeared. Only then did Tang Huan let out a light breath, took out the Emperor Dragon's Heavenly Palace's dragon medallion, and tied it around his waist. Then, he called out the dark blue longspear from his spatial ring.

If Tang Huan had guessed correctly, the guy who had appeared just now was very likely to be the Heavenly Monarch.

The Heavenly Monarch clearly knew the true essence of the "Desolation Divine Orchid". Under such circumstances, Tang Huan couldn't help but be cautious. The current him, was definitely not able to defeat Heavenly Monarch. If he was discovered by him, Tang Huan could only avoid the road of "Illusory Sword Heavenly Palace".

After all, with his current strength, he would not be able to continuously use the "Space Escape" ability of the "Yin and Yang Void Method" for a long period of time. Just now, when he used it, he had only used a few dozen kilometers, but the cost of using it had almost reached twenty percent.

However, after making this change, even if Jun Mo Xie had walked past him that day, he would not have been able to discover that he was the black-robed man from the center of the lake who had stolen the "Divine Luan of Emerald".

Tang Huan smiled slightly, then sat cross-legged on the aquatic grass.

Just to be cautious, Tang Huan did not use the "Nine Yang Divine Furnace" anymore. Instead, he took out a stalk of Immortal grass and swallowed it, refining it to recover the Heaven's Origin Qi he had consumed earlier. Most of the immortal grasses needed to be refined into pills in order to bring out the strongest medicinal effects. If consumed like this, the medicinal effects would be greatly reduced.

Fortunately, Tang Huan had collected a lot of immortal herbs, so he didn't mind wasting them once.

"Ang!"

After an unknown amount of time, an earth-shaking dragon roar suddenly resounded through the sky, awakening Tang Huan who had almost completely refined all of the immortal grass. Looking towards the origin of the sound, he saw that in the air slightly north of the center of the Dark Underworld Lake, there was actually a black dragon image that was baring its fangs and brandishing its claws.

"Buzz!"

The Dragon plate on Tang Huan's waist suddenly trembled, and burst out a black luster, as if it was resonating with the black dragon shadow high up in the sky.

In the time it takes to take a breath or two, the dragon's shadow had already dissipated.

Tang Huan frowned slightly.

As a cultivator of the Emperor Dragon's Heavenly Mansion, he naturally knew what that black dragon shadow signified. By using the Dragon Tablet, one could create a corresponding dragon shadow in the sky. The color of the dragon shadow signified the identity of the owner of the dragon medallion. The black dragon shadow signified that the owner of the dragon medallion was a disciple of the black dragon.

When the Heavenly Palace's cultivators encountered danger, they would always do the same to ask their nearby companions for help. According to the sect rules, all of the surrounding Heavenly Mansion cultivators had to rush over to help their fellow sect members when they saw them asking for help.

Otherwise, he would be severely punished.

After a brief moment of hesitation, another massive white hall and a gigantic fiery-red ball appeared in the sky above that area.

"Limitless Temple? "Qian Yuan Sky Sect?"

Tang Huan muttered in surprise as he watched the two phantoms disappear.

Not only did the disciples of the Emperor Dragon's Heavenly Mansion ask for help, even the people from the Limitless Temple and the Heaven's Expanse Sect begged for help? Maybe someone was not in danger, but something else was!

In a blink of an eye, Tang Huan had already made her decision. She leaped up, and with lightning speed, she rushed towards the direction of the dragon image, like a shooting star.

Not long after, Tang Huan heard a burst of noise.

In a valley at the bottom of the lake, hundreds of figures were gathered, divided into four groups. Most of them were Seven Transformations Heaven Person, and there were even a few Heaven Scholars Huang Ji had.

From the jade medallions on their waists, one group came from the Emperor Dragon's Heavenly Mansion, one group came from the Limitless Temple, one group came from the Heaven's Expanse School, and the other group came from the other large sects.

Cultivators continued to gather from every direction, but there were no signs of action.

Tang Huan strolled leisurely towards that group of Heavenly Palace cultivators, but he was a little surprised, and immediately discovered that there was a round arched shaped cave inside the ravine, which was tens of metres tall. However, the entrance was already sealed up by a large door, and the door was covered with innumerable lines, releasing a faint luster.

These cultivators should all have come for the cave.

"Are you Brother Tang?"

Just as Tang Huan arrived at the side of the group of Heavenly Palace disciples, a slightly hesitant voice sounded out, and the person who spoke was a young man dressed in green robes. The dragon medallion on his waist showed that he was a Black Dragon disciple, and not only him, the other Heavenly Palace cultivators here were also Black Dragon disciples.

"I am Tang Huan."

Tang Huan nodded.

The young man was immediately overjoyed and clapped his hands together, "This is great, I did not expect Brother Tang to be in Ghost Snake Valley. With you here, we, the disciples of the Heavenly Palace, have finally gained some confidence. "

"Tang Huan? The top ranker of the dragon ranking, Tang Huan? "

"Senior Brother Tang Huan came just in time."

"My senses aren't wrong, right? Senior Brother Tang is already a Heaven Scholar Huang Ji?"

"..."

Hearing the voices of Tang Huan and the young man, the rest of the Heavenly Palace's cultivators nearby were also excited. Especially when they sensed the aura being emitted from Tang Huan's body, they were even more agitated.

Tang Huan naturally knew why his fellow disciples had such reactions. Whether it was in Limitless Temple, Heaven's Qianyin Sect, or the other cultivators from the other sects, they all had several members of the Huang Ji Realm. Only in the Emperor Dragon's Heavenly Mansion, before he had appeared, there wasn't even a single Heavenly Soldier.

"What's going on here?"

Tang Huan looked around and asked.

The young man quickly explained in high spirits: "Brother Tang, that cave may have many rare treasures hidden inside, but that door contains a dao diagram, so we couldn't open it no matter what we did. So we gathered all of our fellow disciples here, preparing to blast it open."

"How do you know that..."

Tang Huan subconsciously asked, but before he could finish, his voice suddenly stopped.

He already understood why everyone thought that the cave had some sort of rare treasure. This was because the words "Treasure Cave" were clearly carved into the side wall of the cave. It was a long time ago, and the effect of the dao diagram had already been greatly depleted. In a situation where one was unable to decipher the dao diagram, forcefully breaking it open was indeed a method.

After knowing what was going on, Tang Huan slightly nodded, and did not say anymore.

Chapter 1420 - Trash!

There were more and more cultivators. After a long while, there were nearly a thousand. Among them, there were about two hundred Black Dragon disciples from the Emperor Dragon's Heavenly Mansion.

"Everyone, the numbers are almost up."

A loud and rough shout suddenly sounded out, suppressing the surrounding noise, "Next, let's attack this treasure cave's entrance together." However, in order to prevent the door from being breached, and to increase the number of casualties, it would be better if we can agree on the distribution of the various materials inside right now. "

The one who spoke was a sturdy man in grey. He scanned the surroundings and shouted loudly, "What do you guys think?"

"Agreed!"

"Alright!"

"This is a good idea!"

"..."

The grey-robed man was a cultivator of the Heaven's Expanse Sect, and the moment he finished speaking, a chorus of agreement sounded out from the crowd behind him.

When the other cultivators heard this, they couldn't help but slightly nod their heads.

It was a good idea to make an agreement on how to divide the forces. If not, who knew how many people would end up here when the thousand contenders started fighting? In such a large-scale battle, let alone a seven transformations sky, even Huang Ji himself would be scared out of his wits.

"In your opinion, how should we split it?"

A delicate shout suddenly sounded out, and the person that spoke was a white clothed young girl with a slim figure and a beautiful face, and she held an emerald green sword in her hand that flickered with light.

"I think we should split the loot based on the number of Heaven Saint Masters Huang Ji has."

The grey-clothed man laughed, and said somewhat proudly, "I've just counted, there are ten Huang Ji Realm warriors here, and the items in the treasure cave can also be divided into ten portions. One Huang Ji Realm warrior can get one portion, and as for how you divide it, that will be up to you."

As soon as he finished speaking, the surrounding crowd burst into an uproar.

"You have a good plan."

The white-clothed woman laughed coldly, "According to your distribution method, your Qian Yuan Heaven Sect has five Heaven Saint Masters here, and can take five of them in an instant. With three of Limitless Temple's Heaven Scholars and three more, we have the most people, and we are the ones who contribute the most, but we can only take that pitiful portion."

The hundreds of people behind the woman in white came from different sects, and all of them looked furious.

"Having points is better than not having any points at all!" The grey robed man laughed and ignored the white clothed woman. In the blink of an eye, he looked towards another group of cultivators, "Does your Limitless Temple agree to this?"

"You ..." The white-clothed woman was angered to the point that her long, shapely eyebrows slanted inwards.

"We have no objections."

Amongst the cultivators of Everlasting Temple, a young man wearing a yellow robe nodded with a smile. Although they had three Heaven Saint Masters, after such a long time, they had become the smallest group. Although their share was less than the Qian Yuan Heaven Sect's, it was still within their range.

The woman in white's face froze, but there was nothing she could do.

This group of cultivators came from different sects, and although they had a lot of people, they didn't have the same thoughts. Moreover, they didn't dare to offend the Heaven Sect, so they only dared to be angry. As for the Emperor Dragon's Heavenly Mansion, although it could compete with the Qian Yuan Heaven Sect, there was only one Heavenly Scholar Huang Ji could contend with. No matter how dissatisfied he was, he could only accept this reality and share his share of the treasures with them.

Since that was the case, he didn't mind if he didn't want the items from the treasure cave.

"I have an objection!"

Just as the white-clothed woman was about to leave, a clear voice suddenly rang out. Looking over, the black-clothed man who spoke was the only Heavenly Scholar Huang Ji from the Emperor Dragon's Heavenly Palace. Unfortunately, he was only one person, how could he contend against the five people from the Qian Yuan Heaven Sect?

Thinking up to this point, the woman in white couldn't help but shake her head and sigh inwardly.

"What do you have to say for me?"

The grey-robed man looked at the man in black with a teasing look in his eyes. Not only did he have such an expression, even the Heaven Sect cultivators behind him had looks of mockery and ridicule on their faces.

Since there was only one Heaven Scholar Huang Ji in the Emperor Dragon's Heavenly Mansion, it was naturally impossible for him to accept such a distribution. He was bound to oppose it, but opposing it in such a manner was completely futile. This point was something that the cultivators of Everlasting Temple and the other sects understood. As for the grey-robed man and the others, they understood even more. That was why they were so confident.

Even the cultivators of the Emperor Dragon's Heavenly Mansion were well aware of this.

"I feel that we should not use the number of Heaven Saints Huang Ji has, but his strength. For example, although I was alone, it was more than enough to defeat five trash. Under these

circumstances, if five pieces of trash get five portions, then I can only get one portion. This is clearly unreasonable. "

The black clothed man was naturally Tang Huan. When he spoke, a smile was plastered on his face.

The moment he said these words, the surroundings immediately became silent. Be it the grey-clothed muscular man's group, the white-clothed woman's group, or the Heavenly Palace's disciples, all of them were stunned.

Not only did he call the five Heaven Saint Masters of the Heaven's Sky Sect trash, but he even thought he could defeat five of them by himself? Was there something wrong with his head, or was he overconfident?

"Isn't it a little too much?"

After their initial shock, the Heavenly Palace's disciples couldn't help but look at each other in dismay. However, if Tang Huan were to completely enrage the Heaven Saint Masters of the Heaven's Expanse Sect, he was afraid that he would suffer a huge loss. If the situation got out of control, a chaotic battle might take place in front of the cave.

Thinking of this, everyone immediately became vigilant.

A moment later, the cultivators of the Qian Yuan Heaven Sect returned to their senses and all let out angry curses. Under the extreme anger of the grey-robed man, a ferocious smile appeared on his face, "Since this friend of the Huang Tian Manor is so confident of his strength, then we, the five useless Heaven Saint Masters, can only accompany you for a test."

"Brothers, let's attack together!"

With a shout, the five people dressed in grey jumped out from the crowd. They brandished their weapons and rushed towards Tang Huan, their bodies radiating with the might of the heavens.

Seeing this scene, many cultivators, especially the disciples of the Heavenly Palace, couldn't help but cry out in alarm.

The woman in white shook her head, a bit regretful. That fellow's appearance was pretty good, but it was a pity that he had no brains. Fighting one against five, he would lose for sure. In this sort of situation, simply being courageous was not enough.

Of course, those Heaven Sect cultivators would not dare to kill a disciple of the Emperor Dragon's Heavenly Mansion in front of everyone. However, if it was just a serious injury, they would have no qualms.

Amongst the cultivators of Everlasting Temple, the yellow robed man also subconsciously shook his head and muttered with a hint of schadenfreude: "That guy is going to suffer."

"No matter how many pieces of trash there are, they are still trash!"

At this time, Tang Huan laughed indifferently, the spear in his hand slowly pierced out in front of everyone's eyes.

"Chi!" Amidst the piercing sound of air being torn apart, a resplendent jade-blue luster burst forth, dazzling everyone's eyes. At the same time, Strength Qi roared out from the spear, instantly condensing into a terrifying wave that howled forth, slicing the surrounding space into pieces.
