

W. Master 1421

Chapter 1421 One on One against Five

The gray-robed man and the other five Heaven Saint Masters of the Heaven Origin Sect all stopped in their tracks.

Although the spear in front of them was slow, the moment it thrust out, it caused them to feel as if their entire bodies were being locked by spear intent, and there was no reason for them to feel a burst of fear. As for the Strength Qi that came rolling over with the spear, it was like a violent storm, rolling over and pressing down, causing them to feel like they were suffocating.

A single attack from a Heavenly Swordsman like Huang Ji could actually display such terrifying power?

All of a sudden, the five of them were shocked.

But in the next moment, their expressions suddenly changed. Not even a blink of an eye, that seemingly slow dark blue spear had already pierced through more than ten meters of space, arriving before them. The sharp point of the spear seemed as though it was about to penetrate their bodies, and that terrifying Strength Qi seemed as though it was going to turn them into fine powder.

"Be careful!"

Many cultivators of the Heaven's Origin Sect, upon seeing this, could not help but cry out in alarm.

However, their shouts had no effect.

With a flick of his finger, a muffled groan could be heard, and the grey robed man seemed to have been hit by a meteorite falling down from the sky at a high speed. The Sky Origin Barrier that was just condensed in front of his chest instantly exploded, and his tall and sturdy body flew over ten meters like a cloud before heavily crashing onto the ground.

"Pfft!"

In a pit several meters deep, the grey-clothed man barely managed to raise his head and spit out a large mouthful of blood. Then, his head slanted and he directly fainted.

Seeing this scene, the surrounding cultivators were all dumbstruck.

The majority of the people here were only at the seventh heaven, but they still had good eyesight. After all, the difference in their cultivation level wasn't that great.

Of course they knew that the reason why such a strange situation had occurred was because Tang Huan's strength had already far surpassed that of Heaven Scholar Huang Ji of the Qian Yuan Heaven Sect. Under the pressure of Tang Huan's powerful spear force, they had already been completely suppressed, and even fighting back became difficult.

As a result, the muscular man in grey easily became Tang Huan's first defeated opponent.

Of course, Tang Huan's spear skills were beyond divine, and was also an important factor in causing such a situation.

However, just as they were about to move, they noticed that the longspear in Tang Huan's hand was once again thrust out. That dark blue stream of light that seemed to be extremely slow had already expanded to the limits of their eyes in an instant.

"AA
NN!"

After a scream, another figure was thrown more than ten meters away and landed beside the grey-clothed man. A new mud pit was revealed.

In less than half a breath of time, a third figure flew over, and then a fourth!

"I... I think... "Ah ..."

Moments later, before the last Heaven Saint Master, Huang Ji, of the Qian Yuan Heaven Sect, could even utter the word "lose", it turned into an ear-piercing scream.

"Bam!"

Mud flew everywhere as a fifth hole was formed.

At this moment, there was dead silence around them, and almost all of the cultivators were dumbstruck. Every time a spear shot out, the Yellow Level cultivators of the Heaven's Expanse School would be knocked to the ground, unconscious. From start to finish, only one or two breaths of time had passed.

Such a scene was completely out of everyone's expectations.

At this moment, as everyone looked at the five mud pits that were arranged in a row, the shock in their hearts could not be described with words. Tang Huan's performance had completely overturned their understanding of Huang Ji. When had Huang Ji become so terrifyingly strong?

"Awesome!"

The woman in white finally came to her senses. Her lips slightly parted and her pair of beautiful eyes widened. The surprise on her face was so dense that it was difficult to dissipate.

"To think that... "To think that..."

A moment ago, he was still confidently declaring that Tang Huan's fate would be very miserable, but in the blink of an eye, all five of the Heaven Saint Masters from the Qian Yuan Heaven Sect fell, while Tang Huan, who was from the Emperor Dragon's Heavenly Mansion, was still alive and kicking, not a single injury on his body.

Just as the Qian Yuan Sky Sect, Everlasting Temple and the cultivators of the other sects were immersed in extreme shock, the disciples of the Royal Dragon Sky Mansion had already woken up from their shock. The crowd erupted into earthshaking cheers, and almost everyone looked at Tang Huan with eyes filled with respect and admiration that could not be concealed.

When they left the Black Dragon Mountain, Tang Huan had already reached the top of the Dragon Rankings.

But at that time, Tang Huan was, after all, only a Seventh Transformation. Even though Tang Huan had already become a Huang Ji Realm warrior, facing off against five of his opponents, no one felt that Tang Huan could defeat them. However, the final result had greatly exceeded all expectations.

Not only did Tang Huan win, he won it cleanly!

Under Tang Huan's spear, the five Heaven Saint Masters of the Qian Yuan Heaven Sect were so weak that they did not even have the strength to fight back. At this moment, everyone was indescribably surprised.

"Everyone, do you have any opinions on my proposal just now?"

Tang Huan's gaze swept across the cultivators from the Qian Yuan Heavenly Sect and the Limitless Temple, seeing that everyone was silent, he smiled blandly, "Since there is no objection, then it is decided, if the 'treasure cave' has a treasure, the Qian Yuan Heavenly Sect and the Limitless Temple can take 10% each, but you can take 20%."

At the end, Tang Huan pointed at the group of cultivators that the white-clothed woman was at.

It was not that Tang Huan did not want to eat it alone, but in such a situation, it was not suitable for him to eat it alone.

If he really took all the treasures inside as his own, out of the two hundred plus disciples of the Black Dragon, it was likely that not many would be able to walk out of the Reincarnation Mountain Range alive. They would all become targets for the other cultivators to hunt.

Although Tang Huan belonged to the same sect as them, he couldn't possibly continue to protect them.

"Thank you, Brother Tang!"

She had long heard Tang Huan's name from the discussions of the Heavenly Palace's cultivators. With regards to the current allocation method, not only her, but the cultivators of the surrounding large sects and sects were also quite satisfied at this time. Twenty percent, was still better than ten percent.

Furthermore, even if she didn't have 10%, she wouldn't mind. To be able to see the dejected faces of the people from the Heaven's Expanse Sect was already a worthwhile trip.

"On what basis?"

However, that yellow robed man couldn't help but shout out in anger.

The other cultivators from the Temple were also filled with indignation. Previously, they were only able to receive 30%, but now, they were only given a pitiful 10%. No one could accept this.

"Even if you three of you join forces, you still won't be my match." Tang Huan laughed sinisterly.

"You ..."

The yellow-clothed man and the other two Heavenly Scholars felt their faces turn red. Their hearts were filled with extreme grievance, but they were unable to continue speaking.

Chapter 1422 - Treasure Cave

Tang Huan's eyes turned and looked at the five holes in the ground. The grey robed man and the other people had already been pulled out by the Qian Yuan Sky Sect cultivators.

After consuming the medicine, they had already woken up from their coma, but their faces were pale and dispirited. When they met Tang Huan's gaze, they could not help but lower their heads with

faces full of shame and resentment. They joined hands to attack the enemy, but failed to find a hole to hide in.

Tang Huan scoffed, and ignored them, walking towards the treasure cave.

The two hundred Heavenly Palace disciples, the white clothed female and the other cultivators from the various sects, thought that Tang Huan was preparing to attack the entrance to the cave, so they quickly followed. The yellow clothed man, the grey clothed man, and the rest of the Heavenly Scholars exchanged glances. In the end, they gritted their teeth with a dark expression and followed behind him.

Not long later, Tang Huan stopped at the entrance of the cave to watch.

"Brother Tang, we will do as you say." The woman in white couldn't help but ask.

"No rush."

Tang Huan waved his hand, "I'll take a look first!"

After he finished speaking, Tang Huan's right palm had already pressed down on the entrance of the cave.

The woman in white and the others looked at each other in dismay.

"Deliberately mystifying!" The yellow clothed man behind him couldn't help but twitch his lips and sneer, "Does he think he's some kind of genius to be able to understand the dao diagram on this door?"

"Let's see what he can pull off!"

The gray-robed man and the others all had dark looks on their faces, while hatred filled their hearts.

Under everyone's gazes, Tang Huan stood there quietly for a long while before finally opening his eyes. Although his face did not change, his heart was exclaiming.

Above the cave entrance, the complexity of the dao diagram was somewhat surpassing Tang Huan's imagination.

Even with his probing and extrapolation abilities, it would take him at least ten days and a half to completely understand it. Fortunately, after being immersed in the lake for a long time, the effect of the dao diagram had greatly decreased.

In such a situation, it would be very easy for Tang Huan to destroy this diagram.

In a blink of an eye, Tang Huan had activated the "Primal Chaos Dao Flame" within the Dantian's cauldron to the extreme. Threads and wisps of fire penetrated through the palm of his hand and into the hole, and then began to wildly spread like a spider web along the dao diagram. Tang Huan did not plan to decipher the dao diagram, but to directly destroy it.

This method was also very crude, but compared to the strength of the gathered cultivators, it was much more gentle.

In the next moment, the Heavenly Mansion disciples, the white-clothed woman and the other cultivators were all stunned. The grey robed man, the yellow robed man, and the other cultivators from the Heaven Origin Sect and the Limitless Temple all froze in their sneers, as if they had seen a ghost.

Under the attentive gaze of the crowd, the runes on the door of the cave continuously melted, with Tang Huan's right palm as the center.

In just the blink of an eye, the faint glimmer on the door dimmed, and the lines and patterns within a meter of it had completely disappeared. Moreover, the range of the lines and patterns were still rapidly expanding, and within the span of a few breaths, all the lines and patterns had already melted away.

If the lines were gone, it meant that the dao diagram on the door had also disappeared!

The reason why they could not even open the cave entrance with all their might was because of the dao diagram on the door. However, Tang Huan could only press his palm and the dao diagram disappeared without a trace.

What kind of technique did he use?

"Creak ..."

Suddenly, intense rubbing sounds woke everyone up, they looked over, only to see the heavy door was slowly being pushed open by Tang Huan's hands.

Without the effect of the dao diagram, the door was no different from an ordinary stone door. Not to mention Huang Ji, even someone with seven transformations could easily open it.

The crack in the door grew larger and larger, and a multicolored light shot out from it.

"Dao Stone!" "So many dao stones!"

"Haha, this time we really did it."

"That place must even have mid-grade Dao stones!"

"..."

Voices rose and fell one after another.

Everyone's eyes were wide open, and all kinds of expressions could be seen on their faces: excitement, excitement, shock, and greed. Some of the cultivators even subconsciously charged towards the inside the cave. However, when Tang Huan shot them a glance, he immediately calmed them down.

Tang Huan also never thought that there would be so many dao stones inside.

He, Lei Jiayuan and the others had been searching the banks of the Dark Nether Lake for such a long time. Amongst the treasures they had obtained, most of them were immortal herbs and only had a little more than 80 dao stones. However, in the vast space of the treasure cave, there were tens of thousands of Dao stones piled up like a mountain. There were even many mid-grade Dao stones.

After Tang Huan entered the cave, his eyebrows were also filled with a smile.

The cave was spacious, but there was nothing else apart from the dao stones. However, with so many dao stones inside, he could freely forge dao artifacts.

"Everyone, we shall now begin distributing the Dao stones!"

Then, Tang Huan shouted loudly.

Each of the four groups of cultivators picked a cultivator to grab a Dao stone. Every time a cultivator from the Emperor Dragon's Heavenly Mansion captured six of them, the white-clothed woman would capture two of them. As for the grey robed man who represented Qian Yuan Heavenly Sect and the yellow robed man who represented Everlasting Temple, they could only capture one each.

The large pile of Dao Stones was quickly distributed.

This cave had a total of 9,632 low-grade Dao stones and 408 medium-grade Dao stones, which added up to just over 10,000. Among them, the Royal Dragon Heavenly Mansion's cultivators received sixty percent, the Heaven's Qian Yuan Sect and the Limitless Temple each received ten percent, and the many cultivators represented by the white-clothed woman received twenty percent.

With such a large number of dao stones, even if it were just ten percent, there would still be a thousand. However, when it was distributed to everyone, there weren't that many. There were only a few.

The white-clothed female and the others did not complain, but the cultivators of the Heaven's Expanse Sect and Limitless Temple looked at the pile of Dao Stones in front of Tang Huan with indignation. Ten thousand Dao-Stones. The imperial clan had taken six thousand. How could they be willing to give up?

"Everyone, it's your turn."

With regards to the expressions of the sturdy grey-clothed man and the yellow-clothed man, Tang Huan didn't mind at all as he smiled and signaled to the Heavenly Palace's disciples.

Hearing this, the Heavenly Mansion cultivators who had long lined up in groups began to move excitedly.

If they were to split the six thousand spirit stones equally, almost everyone would be able to obtain thirty of them. However, what surprised Tang Huan was that these disciples of the Heavenly Palace seemed to have agreed on a long time ago, each of them only went forward to grab five low grade dao stones, and they did not even touch a single middle grade dao stone.

Chapter 1423 - 5000 Dao Stones

"Everyone, this is..."

Seeing the simultaneous actions of the many Heavenly Palace disciples, Tang Huan could not help but ask in surprise.

"Brother Tang, we didn't do anything without doing anything. It's already very embarrassing to just take five low-grade dao stones. How can we go and get more?"

"That's right, that's right, Senior Brother Tang Huan, keep the rest."

"That's right, Senior Brother Tang Huan, you are the Weapon Refiner. If you want to upgrade your Tools Method Attainments to become a real piece of heaven's work, you cannot do it without a large amount of Dao Stones."

"..."

With a few words from the Heavenly Palace's disciples, the cave immediately became noisy.

The eyes of the surrounding cultivators, especially those of the Heaven's Expanse Sect and the Limitless Temple, were all glowing with a green light, and their faces were filled with envy.

The Emperor Dragon's Heavenly Palace had taken over six thousand Dao Stones, two hundred Sky Palace disciples, each taking five, and only took away a thousand. Didn't this mean that Tang Huan could take five thousand Dao Stones by himself?

A low grade Dao-stone alone was worth one to two thousand Heaven beads, not to mention the fact that there were more than two hundred middle grade Dao-Stones.

If he were to exchange the 5000 Dao Stones for Heavenly Jewels, it would definitely be a huge fortune.

"In that case, thank you very much. "If I am able to become a low-grade Heavenly Craftsman one day, I will definitely help everyone forge a low-grade Dao Artifact for free."

Tang Huan thought for a bit, then nodded his head, he did not reject everyone's good intentions, he did indeed need a large amount of Dao Stones right now. With these Dao Stones, it wouldn't be long before he would be able to openly reveal his identity as a low-grade Heavencraft.

With this identity, obtaining cultivation resources would be even easier, and he might even have the chance to once again enter the "Soaring Sky Violet Palace."

When all the Heavenly Palace disciples took away their five pieces of Dao Stones, Tang Huan also kept the remaining five thousand stones into his spatial ring.

The "Sumeru Magical Ring" that he was using now was no longer the one that his mother, Ji Ruqing, had left him. The space inside was rather vast, but after taking the five thousand Dao stones, it was more or less full.

When Tang Huan and the group walked out of the cave, many cultivators had already scattered everywhere, continuing to search for the immortal herbs and dao stones that were transformed from the divine moon in this area.

"Senior Brother Tang Huan, let's return to Samsara. Once we get there, there's no need to worry."

A young lady with a beautiful face could not hold back and said, as the rest of the people looked at Tang Huan.

Tang Huan had obtained five thousand dao stones by himself, which would arouse the jealousy of countless cultivators, especially those from the Heaven's Expanse Sect and the Limitless Temple.

If Tang Huan acted alone, there would definitely be someone who would take action to snatch it, and there might even be a possibility of attracting an even stronger Sky Realm warrior. Although Tang Huan was strong, he could only be considered to be at the level where he could dominate Huang Ji Divine Soldiers. If he were to meet the Mysterious Sky Scholar, Tang Huan reckoned that he would not be his match.

If he stayed with all the Heavenly Palace's disciples, he would not have to worry.

The Emperor Dragon's Heavenly Palace was after all, one of the three major sects of the "Flowing Flower Domain" realm. In this region, no one would ever dare to kill two hundred Heavenly Palace disciples.

"Thank you for your kind intentions."

Tang Huan naturally understood what they meant, he cupped his hands and smiled, "However, I still have other matters to take care of, so I can't return to Samsara for the time being, so let's separate here!"

"Senior Brother Tang Huan..."

When everyone heard this, they were somewhat anxious.

"Don't worry, I have my own ways of protecting myself, take care everyone, we'll meet again at Black Dragon Mountain!"

Tang Huan did not stay any longer. Once he finished speaking, he rushed out from the center of Dark Nether Lake, leaving the two hundred Emperor Dragon Sky Palace disciples looking at each other in dismay with helpless and worried expressions. Because once Tang Huan left, many figures would immediately chase after him.

"This Tang Huan, he absolutely cannot be let off scot-free!" At the entrance of the treasure cave, the grey robed man's face was pale. He looked at the direction Tang Huan left with a gloomy expression and sneered in a low voice, "Junior brother Ma, didn't you manage to contact Senior Brother Yu? If I tell him the news here, I believe he will be very interested. "

"I've already sent a message to senior brother, he's in the center of the Dark Nether Lake." One of the man in black to the side laughed sinisterly, "We are not Tang Huan's match, but Senior Brother Yu is a Mysterious Scholar with close to a thousand Dao Crystals. If he makes a move, Tang Huan will definitely die."

"Oh? This Tang Huan is truly courting death. " The gray-robed man laughed savagely.

"..."

"What a big appetite, he actually dares to take all five thousand Dao stones by himself." Not far from the cave entrance, a thin youth said as he gnashed his teeth in anger. He was one of the three Huang Ji Realm soldiers of Everlasting Temple and the events of the past few days had caused him to feel extremely humiliated.

"Should we just let this matter go just like that?" A short and stout man on the right side of the skinny young man said angrily.

"Of course not." The yellow clothed man laughed coldly, "The appearance of the divine moon has attracted a lot of profound practitioners. Just our Limitless Temple alone has two senior brothers from Xuanji, what do you think their reaction would be if they found out that Tang Huan had five thousand stones on him?"

"Good idea!"

"..."

Tang Huan quickly dashed forward, like an arrow that had just left the bow, but his lips curved into a mocking smile.

A large number of cultivators followed him without a care. Tang Huan was not blind, how could he not know? With regards to their plans, Tang Huan was very clear that those people behind him could do nothing to him. However, as long as they could ensure that he did not disappear from their sight, there would definitely be powerful experts appearing soon.

But too bad, how could Tang Huan let them do as they pleased?

After diving into a deep ditch at the bottom of the lake, Tang Huan immediately used the "Yin and Yang Void Method" ability, and flew along the deep ditch.

In just a few short breaths of time, dozens of figures had gathered above the deep ditch.

"Eh, where is he?"

"Strange, why did it suddenly disappear!"

"He must be hiding down there, searching! "Search carefully!"

"..."

Everyone couldn't help but look at each other.

In an instant, they all jumped into the deep ravine at the same time. They carefully searched, and then continuously expanded their range. However, after about an hour, they could only give up in extreme depression. After Tang Huan entered the deep ravine, it was as if he had disappeared into thin air.

At this time, Tang Huan had actually quietly returned to the treasure cave.

All of the cultivators had left, but there were still many traces of searching inside the cave. It was obvious that after distributing the ten thousand Dao stones, there were still many cultivators searching the cave, however, they obviously did not get anything.

Tang Huan's eyes moved, after a moment, he directly walked towards the interior of the cave.

Chapter 1424 - The Divine Concealed Dao Diagram

The stone walls of this space had been polished to an extremely smooth, mirror-like appearance that was so bright that it could be seen through.

There were no hidden doors or anything strange on the stone wall.

However, this was only an appearance. If Tang Huan had not detected anything earlier, there was a very likely chance that there was a dao diagram hidden on the inner wall of the cave. However, this dao diagram was completely restrained and the aura it emitted was extremely weak.

Not long later, Tang Huan's right palm landed on the stone wall.

The Sky Origin Stage qi seeped out of his palm like silk and continuously seeped into the stone wall. Following the continuous expansion of Tian Yuan, Tang Huan's mind was also completely immersed in it, the powerful Perception Ability was unleashed to its limits, as he carefully looked at the wall bit by bit.

Moments later, Tang Huan frowned slightly, the Qi from the map was still there, and compared to before, he could feel it even more clearly.

But strangely, Tang Huan still did not catch the existence of the dao diagram.

"Divine Hidden Dao Diagram?"

After a while, Tang Huan could not help but be moved, the so called "Divine Concealment" was a technique used to inscribe dao diagrams. Generally speaking, high grade and above dao tools, when

forging, would usually use the "Divine Concealment" method. The dao diagrams contained within this type of dao tool were simply undetectable by ordinary cultivators.

Of course, if the Perception Ability was strong to a certain degree, one could still find traces of the dao diagram.

In the next moment, Tang Huan activated the power of the God Creation God Crystal that was in the depths of his soul.

Right now, the power of the divine crystal that Tang Huan could summon had already far surpassed the time when he was in the lower realms. The moment the power of the Divine Crystal was released, the Perception Ability, which was already powerful, soared once again. The situation inside the stone wall became even more distinct in Tang Huan's mind.

"Sure enough."

Not long after, Tang Huan revealed a smile between his brows.

Unknowingly, a dao diagram had already begun to appear in Tang Huan's mind.

Compared to the diagram at the entrance of the abode, this one was a bit simpler. However, because it was made use of the Divine Concealment Method, its wonders were somewhat better.

If the effects of this "Divine Concealment Dao Diagram" were still at its peak, with Tang Huan's current strength, he would simply be unable to do anything to it, because he was simply unable to find the right place to strike. In this way, the "Primal Chaos Dao Flame" would be useless no matter how amazing it was.

But now, it was much easier for Tang Huan to touch it.

The effect of the "Divine Concealment Dao Diagram" had been greatly weakened, causing a substantial connection to the diagram. With the power of the divine crystal, there was no place for those connections to hide from Tang Huan's senses. At this time, he was just needed to activate the "Primal Chaos Dao Flame" and dissolve part of the connection, then the dao diagram would collapse.

In the blink of an eye, the firepower of the "Primal Chaos Dao Fire" whizzed out from Tang Huan's palm and seeped into the stone wall.

Under the assault of the firepower, threads of the "Divine Concealment Dao Diagram" quickly melted, and in less than half a quarter of an hour, Tang Huan had already pulled back and retreated.

"Bam!"

Within the stone wall, something seemed to have exploded.

The mirror-smooth stone wall actually turned into dust, rustling as it fell. In an instant, the ten-meter-tall prototype of the archway was revealed. Tang Huan naturally knew what was going on. The dao diagram completely crumbled, and the part of the stone wall that carried the dao diagram also turned into powder.

At this moment, Tang Huan's eyes could not help but reveal a hint of anticipation. The outer layer of the cave had already stored ten thousand dao stones, so the items placed inside must be even more precious.

"Huala!"

As more and more powder fell from the stone, the hole continued to dig deeper and deeper.

After a few breaths of time, along with the fall of the last layer of rock powder, a terrifying energy aura roared out, and at the same time, a thick white fog rushed out of the cave like an ancient beast baring its fangs.

Tang Huan's face changed slightly, he did not even have the time to use his "Air Escape" ability, and was already trapped inside the mist.

In less than the time of a blink of an eye, Tang Huan's legs had already collapsed on the ground again. It was obvious that the white mist had already drawn him into the cave within.

This sudden change in events surprised Tang Huan.

However, along the way, he had been incomparably determined. At this moment, not only did he not show the slightest bit of panic, he had even calmed down, something he had never done before.

From what Tang Huan could sense, this white mist that was wrapped around his body should have been condensed from some kind of extremely powerful energy. This energy was extremely pure, and even though it was not as strong as the "Heaven-Soaring Purple Clouds" from the "Soaring Sky Violet Palace" of the Emperor Dragon's Heavenly Palace, it was far more powerful than the spirit energy of the heavens.

This power was most likely derived from some sort of treasure.

Back then, when a certain sect existed within the Dark Nether Lake, people would constantly absorb the energy. However, as the sect disappeared, the energy would grow more and more, and they would be sealed within the inside the cave, and would not be able to dissipate. Over the course of countless years, there was a high chance that there would be a strong spiritual force within them.

It was precisely because of this that it took the initiative to attack Tang Huan.

Indeed, as Tang Huan's thoughts were spinning, that terrifying binding power had already swept over from all directions. Standing in that place, Tang Huan was unable to move at all, and at the same time, countless threads of energy from the surrounding white fog drilled into his body like spirit snakes.

At this moment, not only was Tang Huan not afraid, he was actually quite happy.

For more than 30 years, what he was least afraid of was power!

After almost an instant, within Tang Huan's Dantian, the "Nine Yang Divine Furnace" and the Dao Nascent Soul had begun to circulate rapidly. There was no need for Tang Huan to guide them, the energy that was flowing through his body like snakes was all gathered at the Dantian, but like mud in the sea, they were all sucked into the cauldron.

However, not only did the power not retreat, it even increased its power, and like a collapsing dam, it poured into Tang Huan's body.

As time passed, the amount of energy accumulated in Tang Huan's cauldron became more and more.

Within the "Nine Yang Divine Furnace", there was still a portion of "Sky Cloud Purple Aura" that had been absorbed from the "Soaring Cloud Violet Palace". Now that it had been inundated with the cave's energy, it did not take long for the entire cauldron to be filled to the brim. Tang Huan did not hesitate, the 'Myriad Sword Heavenly Diagram' immediately went up to it.

Compared to the "Nine Yang Divine Furnace", the "Illusory Sword Heavenly Palace" that the "Myriad Sword Heavenly Diagram" carried could be said to be a true bottomless pit.

When the mountain and river painting was being rolled out, Tang Huan had also activated the "Limitless Sword Formation" in his cave, and at the same time, he began to refine the "Heaven-Soaring Purple Clouds" that had accumulated in the cauldron. With his powerful soul and the existence of the "Intangible Buddha", Tang Huan was able to use it multiple times without any difficulty.

Tang Huan was sealed by the power, and although he looked like a statue, he continued to devour the power like a beast with its mouth wide open.

Chapter 1425 - Sky Luo Profound Energy

Time flew by like a shuttle.

One day, two days ...

The power seemed to have finally noticed that something was wrong, and wanted to stop the infusion of power into Tang Huan's body. But right at this moment, an incomparable sucking power suddenly roared out from Tang Huan's body, and in an instant, covered the entire space around him.

Just as the energy invasion showed signs of weakening, it once again increased, as a boundless energy surged towards Tang Huan's body in an even more violent fashion.

However, before, it was the power that took the initiative, but now, it was in a passive state.

"Wuuuuuu ~ ~ ~"

Faintly, angry cries could be heard echoing in the cavern. That power was like a raging wave that was stirred up by a hurricane as it crazily slammed against the surrounding stone walls. Earth-shaking sounds rang out one after another, causing the lake to shake violently.

"What's the situation?"

Ten kilometers away, a few cultivators suddenly stopped in their tracks. They turned around in bewilderment, and all of them had this look of surprise in their eyes.

"That seems to be ..." a young man suddenly shouted.

"Hidden Treasure Cave!"

Three characters popped out from the side of the yellow-clothed man. He was one of the three Heaven Scholars of Everlasting Temple, Su Shan.

"Let's go back and take a look!"

"..."

Su Chang and the others immediately turned around and ran.

The further they went, the more intense the tremors were. It was as if the entire bottom of the lake was about to turn upside down. This made them even more astonished.

When they arrived outside the treasure cave, they discovered that someone was quickly rushing into the inside the cave, and a low rumbling sound continuously spread out from the cave.

They looked at each other and quickly followed him in.

At this moment, hundreds of figures had gathered in the spacious cavern, where the Dao Stones were supposed to be stored. Low cries of surprise could be heard from time to time.

Su Kuang and the others looked around, and their eyes were filled with shock.

On the opposite side of the cave, there was a huge arched hole that was more than ten meters tall. Inside the cave, the thick white mist seemed to be ruthlessly stirred as it violently churned and churned. From time to time, mist would billow out like raging waves.

Su Kuangshan and a few others exchanged glances, they could all see the unconcealable astonishment in each other's eyes.

Before they left, they carefully searched the cave for a while, but they didn't find anything. But now, there was actually such a large arched hole on the smooth stone wall. Even though the cave was filled with white mist, it seemed rather spacious.

There were actually two levels to this treasure cave!

How did the second realm appear? Had it not been for the fact that after everyone had left, someone had entered and found them, and then activated them?

"Whoosh!" "Woosh ~ ~ ~"

Sounds of breaking wind could be heard from time to time as more people entered.

Regardless of whether it was the cultivators who had just come in or the cultivators who had just arrived, most of them had entered this treasure cave before. Upon seeing this scene, almost all of them revealed the same expression as Su Li and the others.

"Could it be that there is a Heavenly Beast fighting inside the cave? "No, no, if that is really the case, then there would be cries of Heavenly Beasts a long time ago."

"The outer layer of the cave has tens of thousands of Dao crystals, while the inner layer might have even more valuable treasures!"

"That white mist seems to be formed from energy and it is extremely pure. If I can absorb and refine it, it will definitely be beneficial for my cultivation."

"..."

Everyone began whispering to each other.

Very quickly, a dozen or so Seven Transformations Heaven people gathered their courage, wanting to go deep into the cave to investigate. However, just as they entered the cave, they were sent flying dozens of meters away, in front of the terrifying Strength Qi that roared out from the cave, the Seven Transformations Heaven People did not have the slightest ability to resist.

Even the Heavenly Scholar Huang Ji was no exception.

"Hu!"

Like a kite with a broken string, he fell twenty or thirty meters away. It was none other than Limitless Temple's Su Kuang. He also tried to test him in a somewhat unconvinced manner, but to no surprise, he found himself following the footsteps of the first few Heavenly Scholars.

"Sky Luo Profound Qi!"

In the blink of an eye, they saw two figures appear not far away from him. One was tall and had a square face with a rigid face, while the other was tall and wore a blue robe. His appearance was much more refined.

The true age of these two people was unknown, but they appeared to be around thirty years old.

"Senior Jiang!" "Senior Hao!"

Su Tong shouted in surprise.

In the area of the Dark Nether Lake, there were currently two Heaven Saint Masters of the Limitless Temple, who were the two men in front of him. The tall man was called Jiang Fangzheng, and the other in green was called Hao Zhi. Upon discovering their arrival, many surrounding cultivators of the Limitless Temple also came closer to greet them. This commotion also attracted the gazes of many surrounding cultivators from other sects.

Jiang Fangzheng and Hao Zhi nodded at the crowd, then turned their gazes back to the arched cave.

"Junior Hao, are you sure that's' Heaven's Net Divine Energy '?" After a short moment, Jiang Fangzheng frowned and said in a deep voice.

"Absolutely, definitely."

Hao Zhi stared straight at the arched hole and said seriously, "I have seen the 'Sky Xuan Qi' before, and have even refined it a little. Its aura is exactly the same as this white mist." Heavenly Luo Immortal Stone absorbs immortal Sky Spirit Qi and produces Sky Luo Profound Spirit Qi. After being refined, it will greatly increase one's cultivation, I never thought that the 'Sky Luo Profound Spirit Qi' in the cave would be accumulated to such a terrifying extent. " Hao Zhi's eyes were filled with an unconcealable greed as he spoke until the end.

"If it's really the 'Sky Xuan Qi', then it's really our fortune." Jiang Fangzheng's eyes lit up as he looked into the archway, "Come, let's give it a try."

"..." Su Li's lips moved slightly, he wanted to stop the two of them, but when the words reached his mouth, he subconsciously swallowed them back, because the two of them had already passed through twenty to thirty meters of space and appeared outside of the arched cave. If he told them that they did not have to try, wouldn't that mean they looked down on their strength?

"I really did not expect that it would actually be 'Sky Luo profound energy'!"

"If I can completely absorb such a huge amount of 'Sky Luo Profound Qi', I wonder how far my cultivation would rise!"

"They seem to be the Heaven Realm warriors of the Limitless Temple. I wonder if they can withstand the impact caused by the 'Sky Xuan Profound Qi'?"

"..."

When they found out that the white mist was "Sky Luo Profound Spirit Qi", many cultivators exclaimed in surprise. Although they had never come into contact with the "Sky Luo Profound Spirit Qi", they had basically all heard of it. Many of the major sects in the Crimson Light World had collected the "Heaven's Net Immortal Stone", which was used to give birth to the "Heaven's Net Xuan Energy" for their disciples to cultivate.

Chapter 1426 is Spiritual!

Under the gazes of many cultivators, Jiang Fangzheng and Hao Zhi got closer and closer to the arched cave.

A powerful Strength Qi surged out from the cave with the power to topple mountains and overturn the seas. The two Mysterious Heaven Soldiers had just entered the arched hole, and their expressions had already turned extremely ugly. They forced themselves to walk a few meters forward due to the impact of the Strength Qi, and then they could no longer endure and flew back dozens of meters.

"Thump!" "Thump!"

After landing on the ground, the two of them took a few more steps back before stabilizing their bodies.

Catching the low exclamations coming from their surroundings, the two of them couldn't help but feel a bit embarrassed and annoyed. However, the shock in their hearts became more and more intense, just how large was the "Sky Luo Profound Qi" in the cave?

The surrounding people were all secretly amazed. If even the Mysterious Heaven Scholar had yet to enter the cavern, could it be that he had to be an Earth Heaven Scholar, or even a Heavenly Heaven Scholar? However, this "Ghost Snake Valley" did not even have that many Heaven Scholars on it, and Heaven Scholars could be counted on one hand. Where did the Heaven Scholars and Heaven Scholars come from?

However, it was impossible for them to leave just like that.

When they found out that the majestic white fog in the cave was the "Sky Luo Profound Qi", a strong desire welled up from the bottom of everyone's hearts. With such a huge amount of "Sky Luo Profound Qi", even if everyone were to cultivate at the same time, they would be able to hold on for a long time, causing their cultivation to greatly increase.

It was true that he could not enter the cave now, but it would be hard to say if the "Sky Luo Profound Qi" of the Strength Qi was exhausted.

With so much "Sky Xuan Qi", it was impossible for someone to seize it. When the time came, all the cultivators that were attracted by the commotion would have a share.

Looking at the surging white mist in the cave, many cultivators felt as if they were looking at a peerless beauty's perverted wolf. Their hearts were itchy, but they had no choice but to suppress the impulse in their hearts and wait outside the cave.

"Boom —"

The cave continued to shake violently, as if it would collapse at any time.

Although it seemed to be very dangerous, everyone didn't care. As time passed, more and more cultivators entered the cave. What made everyone excited was that within the arched cave, the commotion caused by the white mist was getting louder and louder, and the surging Strength Qi was also weakening.

From the fact that Jiang Fangzheng, Hao Zhi and a few other Mysterious Heaven Scholars were already standing firm in the arched cave, it could be seen. As a result, the few Heaven Scholars and Seven Transformations people that had been waiting in the distance gradually moved closer and gathered at the entrance of the cave.

"Has everyone noticed that the 'Sky Luo Profound Qi' inside seems to be decreasing?"

Suddenly, an uncertain voice sounded. The surroundings instantly became silent. The clamoring suddenly disappeared, but soon after, the crowd burst into an uproar.

[illegible]

"If you didn't tell us, we wouldn't have noticed. Your reminder is indeed true."

"What's going on? "What's going on?" Why was the Sky Xuan Qi constantly decreasing? Could it be that someone is in the cave absorbing and refining 'Sky Luo Profound Qi'?"

"What's on your mind? If even Senior Jiang and Senior Hao could not enter the cave, how could anyone enter the cave and cultivate inside? "

..

Everyone was astonished.

"No need to rush, everyone." Jiang Fangzheng's eyes slightly narrowed. After sizing him up for a moment, he suddenly shouted in a deep voice, "The 'Heaven's Net Spirit Qi' has been accumulating in this treasure cave for countless years and is suddenly connected to the outside world. This has caused a commotion, so the consumption of a portion of the energy is inevitable."

"Brother Jiang is right. Compared to the huge amount of 'Sky Xuan Qi', this loss is negligible." A round-faced man about thirty years old laughed. He was dressed in a purple robe and had a medium height. He was one of the Mysterious Heaven Scholars of the Qian Yuan Heaven Sect, Wang Liangjun.

Hearing his words, Jiang Fangzheng and Hao Zhi both snorted coldly.

Two days ago, when they were at the center of the Dark Nether Lake, they had been fighting with Wang Liangjun and his men over the "Jade Light Divine Orchid" Flower. Upon seeing this, Wang Liangjun pinched his chin and laughed without a care.

"It's done!"

After a long while, Jiang Fangzheng suddenly shouted in a low voice and charged forward with Hao Zhi.

Although the white mist was still churning, the Strength Qi that was emitting from it had been greatly weakened. This level of attack was already within the endurance range of the Heavenly Mystery. A moment later, two figures had already submerged into the mist.

"Whooosh."

However, after a while, the white mist seemed to be enraged and once again crazily surged. Then, one figure after another shot back out. In just one or two breaths' time, Jiang Fangzheng, Hao Zhi, Wang Liangjun, and the other Mysterious Sky Scholars were all forced out by the white fog.

Everyone looked at each other in shock, feeling indecisive.

"The 'Sky Xuan Qi' is already alive!"

Jiang Fangzheng said with a gloomy face.

Hao Zhi, Wang Liangjun and the rest of the Mysterious Sky Scholars also had ugly expressions. At this moment, if they did not understand this point, they would be no different from fools.

"Spirit?"

Su Shan and the other cultivators all exclaimed in surprise.

However, the Heaven Realm was huge, and was full of surprises. "Sky Luo Profound Qi" would accumulate for countless of years and give birth to a new consciousness, so it wasn't really a surprise.

However, what confused everyone was that since the "Sky Luo Profound Qi" had its own intelligence, how could it squander its power like this? Even if they wanted to stop the cultivators from entering the cave, there was no need to keep tormenting themselves. Once someone made a move, it would save a lot of effort to chase them out.

If the "Sky Xuan Qi" continued like this, even if it was intelligent, it would probably not be able to stop it for long.

Not only did these Seven Transformations Heaven Scholars and Huang Ji Tian not understand this, Jiang Fangzheng, Hao Zhi, Wang Liangjun, and the other Mysterious Sky Scholars were also extremely confused.

Under the puzzled gaze of the crowd, the white mist rapidly weakened again, as if the ferocity from before had only lasted for a brief moment. With the lesson just now, Jiang Fangzheng, Hao Zhi, and the rest of the Mysterious Sky Scholars were in no hurry to go in. They continued to wait outside the arched cave.

The night quietly passed.

The early morning light already shone in from outside the cave. Although the white mist was still churning, the Strength Qi that came out was already extremely weak.

"It should be about now."

Jiang Fangzheng and Hao Zhi exchanged a glance, and simultaneously shot forward into the mist. The white mist fluctuated rapidly, as if it wanted to force the two out of the way, but it was in vain. When Wang Liangjun and the other Xuan Ji cultivators saw this, they no longer hesitated and quickly followed.

The crowd at the cave entrance were even more agitated. They could not hold it in any longer and rushed in like a surging tide.

Chapter 1427 - Mysterious Sky Scholar

Presently, nearly two thousand cultivators had gathered in the cave.

With so many people rushing in, that "Sky Net Profound Energy" was useless no matter how much they resisted. The white fog of the inside the cave, was already unable to force all the cultivators out.

Everyone sat cross-legged in the mist and operated their respective Nascent Souls to the maximum. They tried their best to absorb and refine the "Sky Luo Profound Qi".

What they did not know was that in the depths of this cave, there was another person crazily using sucking's "Sky Luo profound energy".

That person was naturally Tang Huan.

From the moment Tang Huan had used "Nine Yang Divine Furnace" and "Myriad Sword Heavenly Diagram" to absorb its power, the restraining power derived from "Sky Luo Profound Energy" had already become useless towards him.

When the "Sky Luo Profound Spirit Qi" came to its senses, and violently churned in an attempt to get rid of Tang Huan's sucking, the resulting pressure became even stronger. However, to Tang Huan, it still had no effect.

This was because all of the "Heavenly Luo profound energy" had already passed through the "Myriad Sword Heavenly Diagram" and entered the "Illusory Sword Heavenly Palace" it carried, and then, as the "Limitless Sword Formation" continued to circulate, all of the energy slowly fused into the cave.

Under these circumstances, Tang Huan could definitely cultivate in peace.

As for the entrance of the crowd of cultivators, Tang Huan had long since noticed it. There were even a few auras of its owner who had once appeared in the center of the Dark Nether Lake, the Profound Extreme Heaven Scholar.

However, Tang Huan did not care about it in the slightest, nor did he appear to expel her.

By the time those people entered the cave, "Sky Luo profound energy" had almost completely lost its ability to resist, which meant that the vast majority of "Sky Xuan profound energy" was already in his pocket. Although there were many of them, they could not absorb much of the "Sky Luo Profound Qi" even if they cultivated together.

After all, there was not much of the "Sky Xuan Qi" left in the first place.

"501 Dao crystals!"

Tang Huan secretly heaved a sigh of relief. After completely refining the remaining "Heaven-Soaring Purple Clouds", he had only managed to condense such a critical Dao crystal. He could foresee that if he wanted to break through to the next realm, the amount of energy needed to condense the key Dao crystal would only grow larger and larger.

However, when he felt all the Dao Crystals in his Nascent Soul Dantian that had undergone a huge increase, Tang Huan couldn't hide his joy.

Exchanging all of the remaining 'Heaven-Soaring Purple Clouds' for the 50th Dao-crystal, it was completely worth it.

"He's already a Mysterious Scholar now!"

Tang Huan smiled slightly, then calmed his mind and concentrated once again. The "Nine Yang Divine Furnace" and "Myriad Sword Heavenly Diagram" started to move at the same time, an even more terrifying traction force whizzed out, and the surrounding "Heaven's Net Profound Energy" became like a collapsing dam as it endlessly poured into Tang Huan's body in an even more berserk manner.

After the "Heaven-Soaring Purple Clouds" had been completely refined, there were quite a few empty spots left in the cauldron, so it was now the perfect opportunity to replenish them. Although an entire cauldron full of "Heaven's Net Profound Qi" would not allow him to directly advance to become an Earth Elite, condensing hundreds of Dao Crystals would not be a problem at all.

Unknowingly, the "Heaven's Net Divine Energy" in the cave had become thinner and thinner.

In the depths of the cave, the whirlpool of energy that was originally hidden in the white mist became more and more clearly visible. Very quickly, those people of the seventh transition who were closest to the whirlpool discovered that it became harder and harder to absorb "Sky Luo profound energy".

After a short moment, one of the Seventh Transformation finally could not help but stop his cultivation and opened his eyes.

In the next moment, the seven transformations man looked as if he had seen a ghost, his face full of incredulity. It had only been a short while, but the surrounding dense "Sky Luo Profound Qi" had already become so thin? After being stunned for a while, the Seven Transformations Heaven Man finally discovered an abnormality, and the "Sky Luo Profound Qi" at his side seemed to be flowing towards the deeper parts of the cave.

He jumped up like a spring, and in the depths of the cavern about a hundred meters away, there was actually a gigantic whirlpool of air that was faintly discernible under the cover of the white mist. The surrounding mist actually poured into the whirlpool like water.

Many of the surrounding cultivators were startled by this loud shout and looked over with their eyes wide open. Not long after, almost all of them stopped cultivating and stared at the vortex in surprise. In the time it took to take a few dozen breaths, the scene inside the cave was already clear to see.

Within the cavern with a radius of two to three hundred meters, there was a huge boulder that was about a hundred meters in diameter.

This was the "Heaven's Net Immortal Stone", which could give birth to the "Heaven's Net Divine Energy". It continuously emitted a milky white luster, illuminating the entire area with its light. Above the immortal stone, a whirlpool of air was revolving rapidly, sucking in the last remaining bit of "Sky Luo Profound Qi" in the cave.

"There's someone here! There's someone there! "

"Motherf * cker, he's really human!"

" ... "

Even Jiang Fangzheng, Hao Zhijun, Wang Liangjun, and the other Mysterious Scholars had looks of disbelief on their faces. At the bottom of the whirlpool, there was actually a black figure sitting cross-legged. Although it seemed a bit blurry, it was clearly a human.

At this moment, the biggest doubt in everyone's hearts was finally solved.

The reason why the "Sky Xuan Qi" had kept going all out was not to stop them from entering the cave. Its true purpose was to resist the sucking from the person against its own power, and to chase them out of the cave while they tried to enter.

The reason why the "Heaven's Net Profound Energy" was constantly decreasing was because it had been absorbed by that person. It was not a natural loss due to it using all of its strength.

Furthermore, this cave was probably not naturally revealed due to the impact of the "Sky Luo Profound Qi", but was instead opened by a person.

After they understood the reason, everyone's hearts were filled with shock.

Just who was it, to be able to withstand the impact of such a huge volume of "Sky Xuan Qi" by himself, and ultimately take all of his strength for his own?

When the "Sky Luo Profound Qi" was at its peak, Jiang Fangzheng and the other Profound Sky Scholars could not even enter the cave. Although the Earth Elemental Heaven Realm warriors and the Heaven Realm warriors were stronger, they probably could not stay in the inside the cave for a long period of time. Could it be that the person who was absorbing the "Sky Luo Profound Qi" was a Sky Sovereign?

Under everyone's bewildered gaze, the whirlpool of air finally began to shrink. The condensed "Sky Xuan Qi" quickly entered the body of that person.

A short while later, the blurry black figure began to grow more and more distinct.

It was actually a young man with a handsome face. Although he was sitting cross-legged on the ground, his body was very straight, and his black hair was casually tied up behind his head, giving off an indifferent feeling.

Chapter 1428 - One Lance

"Tang Huan! It's Tang Huan! " Su Kuangshan was stunned for a moment, then suddenly shouted in shock, his two eyes became round, as though they were about to jump out from his eye sockets.

"Damn it, damn it, it really is Tang Huan!"

"I've seen this person before. He is a disciple of the Emperor Dragon's Heavenly Mansion. A few days ago, outside this treasure cave, he injured five of the Heaven Sect's Huang Ji cultivators with a single spear strike."

"Isn't Tang Huan just a cultivator named Huang Ji? How could he come in?"

"Tang Huan? Tang Huan who has monopolized five thousand dao stones? "

" ... "

Almost at the same time, exclamations arose from the crowd.

This inside the cave, almost half of the cultivators had seen Tang Huan display his divine might when they were outside the cave, and all of them were extremely shocked.

A few days ago, Tang Huan left alone with five thousand stones.

As the news spread, the outer and outer parts of the Dark Nether Lake were in an uproar, and many experts immediately began to move as well. But not long after, Tang Huan suddenly disappeared without a trace, and never appeared again. All of the cultivators' plans to snatch the Dao Stone vanished without a trace.

However, he never expected that Tang Huan would actually return to the treasure cave.

Not only that, he even opened the inner space of the treasure cave, and even absorbed all of the "Sky Xuan Profound Qi" that had accumulated inside the cave for countless of years. First, it was five thousand low-grade dao stones and mid-grade dao stones, and then it was the "Heaven's Net Profound Qi". Such abundant harvests caused everyone to be so envious and jealous that they almost went crazy. This "treasure cave" had actually become a blessed place for Tang Huan alone!

"Tang Huan?"

Jiang Fangzheng, Hao Zhi, and the rest of the Mysterious Sky Scholars were shocked at first, but soon after, their eyes began to blaze.

Of course they knew that Tang Huan had heavily injured five of the Heavenly Saints, but they did not take it to heart. They knew the Heavenly Saints, so how could they take a mere Heavenly Swordsman Huang Ji in their eyes? As a result, a few days ago, they had all participated in the search for Tang Huan, but in the end, they wasted their efforts.

Now that they saw Tang Huan here, their hearts immediately started to move.

If it was an unfamiliar cultivator inside, they would definitely not dare to act rashly, but if it was Tang Huan, then there was no need to worry. The reason why Tang Huan was able to absorb the "Sky Luo Profound Qi" unscathed was probably because he carried a treasure that could absorb energy, which was why he was able to survive.

That treasure could helpless against the "Sky Xuan Qi" that was already born, but it could not pose any threat to the Mysterious Sky Sentinel.

Tang Huan was a disciple of the Emperor Dragon's Heavenly Palace's Black Dragon, so it wasn't convenient for him to kill him in front of everyone. However, if he captured him, he could take back all five thousand spirit stones and the treasure that absorbed all the power. Even if they had to split the spoils among multiple profound practitioners, it would be a huge gain that would make anyone jealous.

"Tang Huan!"

Jiang Fangzheng suddenly shouted loudly, his voice was like thunder as it rumbled within the cavern, causing the surrounding people's ears to buzz.

"Which piece of trash is calling grandpa?"

A chuckle sounded.

The instant the whirlpool completely disappeared, on top of the Heavenly Luo Immortal Stone, Tang Huan suddenly opened his eyes, held his dark blue long spear, and sprung into the air. When his gaze swept across the crowd, a faint smile hung on his face.

Jiang Fangzheng's face turned green, and then he started sneering, "Hand over the five thousand dao stones and all the 'Heaven Gathering Profound Qi', or else, don't blame us for being ruthless!"

"Tsk tsk, what a big appetite!"

Tang Huan let out a strange laugh, and an extremely powerful aura of heavenly might surged out from his body, like a violent and stormy wave roaring in all directions. In an instant, it had covered the entire space of the cave, and those Seven Transformations Heavenly Saints and Huang Ji immediately felt a huge sense of pressure, making them feel as if they were about to suffocate.

"Extreme Profound Skies?"

The expressions of Jiang Fangzheng, Hao Zhi, and Wang Liangjun changed slightly.

A few days ago, this Tang Huan was still a Heavenly Scholar Huang Ji, but now, he had actually stepped into the Extreme Profound Realm. Although from the perspective of the Heaven's Might, Tang Huan seemed to be stronger, his true strength was not determined solely by the strength of the Heaven's Might.

The most important thing was that Tang Huan was only by himself, and in this cave space, there were already many Mysterious Heaven Scholars.

"Tang Huan, do you really think that you can act so arrogantly just because you have stepped into the Extreme Profound Realm?" His gaze was sharp like a blade as he shouted in a deep voice,

"Again, hand over five thousand Dao Stones and all your 'Heaven Gathering Mystical Qi'.

Otherwise, you will probably leave this treasure cave today!"

"You want me to get out with just trash like you?"

His speed was swift to the extreme, and from afar, he looked like an ancient beast that had just escaped its cage. His imposing manner was like a rainbow, and he seemed to be unstoppable, unstoppable, and unstoppable.

"You're courting death!"

After being scolded by Tang Huan twice or thrice for being trash, Jiang Fangzheng was extremely enraged. With a roar from his mouth, he charged towards Tang Huan. The distance between the two sides rapidly shortened. When the distance was less than twenty meters, Jiang Fangzheng's huge saber suddenly flashed and slashed out like lightning.

"Chi!"

In the midst of the hissing sound, a bright fiery red light tore through space and poured down from the sky like a waterfall. The strong wave spread out to cover the surrounding area of over twenty meters in an instant, and the blazing heat surged, dyeing the entire space red, as if it was about to ignite.

"Hu!"

Tang Huan's arm slightly moved, and the long spear transformed into a jade blue stream of light, which swept across with the momentum of sweeping away an army of a thousand.

At this time, Tang Huan did not use the Absolute Spear Style anymore. He swept out with his spear directly, but the might of his strike was overflowing, as if he could wipe out all the evil spirits and demons, and this world was still bright and clear.

"Clang!"

In a split-second, the blades and spears had already intersected.

Amidst an earth-shaking ringing sound, the huge blade in Jiang Fangzheng's hand immediately slipped out of his grasp. As if he had suffered a heavy blow, his body flew diagonally for more than ten meters before heavily smashing into the Heaven's Net Immortal Stone.

It was still only a single spear strike, but Jiang Fangzheng, as a Mysterious Sky Scholar, had already been sent flying.

Seeing this scene, not only were Su Kuang and the other cultivators speechless, Hao Zhi and Wang Liangjun who were behind Jiang Fangzheng and charging towards Tang Huan were even more dumbfounded. A chill involuntarily rose up from their coccyx and exploded on the top of their heads, causing their scalps to go numb.

When Tang Huan was a Heaven Scholar, Huang Ji couldn't block his spear, but now that Tang Huan was a Heaven Scholar, even a Heaven Scholar couldn't block his spear?

Chapter 1429 - Sweeping

"You only have such pitiful strength, yet you still dare to act so arrogantly in front of me. Truly laughable!"

Glancing at Jiang Fangzhang, Tang Huan laughed out loud in ridicule.

"Pfft!" The blood energy in Jiang Fangzheng's body was surging, but after being ridiculed by Tang Huan, he could no longer hold it in. The blood that rushed into his throat immediately spurted out.

"Senior Jiang!" Immediately, several cultivators of the Limitless Temple ran over in alarm.

"Whoosh!"

Tang Huan laughed out loud, and directly leaped towards Hao Zhi, the spear in his hand carried a brilliant blue light, and directly smashed towards the man's head, the vast Strength Qi spreading out everywhere. At this moment, it was as if a massive mountain had collapsed and the pillars in the sky had collapsed. It was as if all the obstacles below had been crushed into fine powder.

The piercing whistling sound caused Hao to feel like he had just awoken from a dream.

"Yah!"

"Roar!" At the same time Hao Zhi shouted, the golden spear in his hand crazily moved to block the attack. His face had already turned pale and an unconcealable fear could be seen in his eyes. Under the current situation, it was already too late for any exquisite battle skills or powerful abilities to be used. They could only use the simplest methods in order to be able to block Tang Huan's thunder-like attack.

After a loud explosion, the golden spear immediately dimmed and broke into countless pieces. As blood spurted out of Hao Zhi's mouth, both of his legs bent and he knelt on the ground with a 'putong'. His upper body fell forward and he actually fainted on the ground, his face as pale as paper.

Wang Liangjun and the rest who were closest to Hao Zhi were forced to retreat due to the Strength Qi, their faces completely pale.

Whether it was Jiang Fanzheng or Hao Zhi, neither of them were the newly promoted Mysterious Heaven Scholars. They had at least six hundred or seven hundred dao crystals, but Tang Huan had definitely only advanced a short while ago, with only a mere five hundred or so dao crystals. In fact, it was possible that he had only acquired five hundred and one dao crystals. However, facing such a Heaven Saint Master, Jiang Fangzheng and Hao Zhi were actually unable to retaliate at all, and they were both severely injured!

"Go!" Up! "Let's attack together!"

Catching Tang Huan's gaze, Wang Liangjun suddenly screamed out loud. A black sledgehammer roared and rumbled forward, and on the surface of the sledgehammer, there seemed to be flashes of lightning, electric snakes swimming about. Violent sounds of wind and thunder resounded in the cave, a terrifying might filling up the void.

The moment Wang Liangjun made his move, the rest of the Mysterious Scholars also launched their most violent attacks without hesitation. If they had been any slower, they would definitely have been defeated by Tang Huan one by one. However, if they had escaped in front of everyone's eyes, they would have definitely become laughingstocks in the future.

At this point, he could only try his best and maybe even reverse the situation.

"Hu!"

Weapon after weapon swept up a monstrous wave of energy that covered the skies and earth, pressing down towards Tang Huan.

The terrifying Strength Qi surged in the air at the same time, revealing a bright and resplendent light. Compared to the white light emitted by the Celestial Stone, the light emitted by the weapon made the air around them seem as if it was in a dream.

Tang Huan slightly narrowed his eyes. Under the powerful coverage of his mind, not even the slightest movement from his inside the cave could escape from his senses.

The attacks of these fellows were indeed shockingly strong. If it were any other Heavenly Profound Scholar, no matter how strong they were, they would most likely be wounded or dead. However, in Tang Huan's eyes, these Heaven's Extreme Profound experts had only attacked together in a hurry, and could be said to be full of holes.

"Chi!"

With a cold smile, the long spear in Tang Huan's hand suddenly thrust forward. The spear's momentum was sluggish, yet it instantly appeared in front of Wang Liangjun, and struck the berserk hammer. After a "ding" sound, Wang Liangjun's fierce attack disappeared.

"Aooo!"

With a loud scream, Wang Liangjun flew back dozens of meters with his hammer.

B00
M! The huge hammer heavily smashed into the ground, causing the entire cave to tremble. Wang
Liangjun felt as if his body was being turned upside down. Blood from his internal organs was

sputtering out of his mouth. Then, he fainted. He vaguely heard the sound of something heavy falling on the ground not far away from him.

"Thump!"

"Thump!"

"..."

One figure after another fell beside Wang Liangjun.

Tang Huan thrust out his spear repeatedly, the spear's speed giving people the illusion that it was extremely slow, but the speed at which the spear pierced through the void was unbelievably fast. In less than the blink of an eye, Tang Huan had already thrust out six times, completely destroying the ferocious attacks of Wang Liangjun and the rest that they had launched at almost the same time.

Right now, Wang Liangjun and the other six, along with the Jiang Fangzheng and Hao Wen duo, were eight Mysterious Sky Scholars who had been easily defeated by Tang Huan.

Of the eight opponents, Tang Huan had only released eight spear strikes.

At this moment, the scene within the cave was like the scene from a few days ago that had changed his appearance. However, the two sides that were fighting had turned from the Heavenly Monarch Huang to the Heavenly Mysterious Monarch.

At this moment, all of the cultivators were completely silent. They no longer knew how to describe the shock in their hearts.

For a time, the entire area fell into a deathly silence.

It was laughable that everyone had initially thought that Tang Huan's five thousand stones and the enormous amount of "Heaven's Net Profound Qi" he had absorbed would be taken away and shared by Jiang Fangzheng and the others, allowing them to gloat over his misfortune.

"Who else wants my five thousand dao stones and 'Heaven's Net Divine Energy'?"

Tang Huan's eyes were like lightning, sweeping across everyone's body.

Su Kuang and the others lowered their heads and kept quiet. Even so many Mysterious Heaven Cultivators had been defeated so easily. What was the point of them having so many people? If they were to charge forward, even if they won in the end, it was unknown how many people would fall, and the cultivators that fell would all be fated to be the wedding clothes of others.

"They are indeed a bunch of trash."

Seeing this group of cultivators who were previously in high spirits become speechless, Tang Huan could not help but sneer and then float away.

With regards to that gigantic "Heavenly Luo Immortal Stone", although Tang Huan was moved, he still chose to give it up in the end. That item would require him to take out the "Myriad Sword Heavenly Diagram" before he could keep it. If the Myriad Sword Heavenly Diagram appeared, many cultivators would immediately recognize it as the cave.

If the news of him possessing the cave space were to leak out, then the Emperor Dragon Heavenly Palace might not be able to stay here anymore.

To give up a place like the Emperor Dragon's Heavenly Palace for a "Celestial Stone" and also have to face the pursuit of countless cultivators, wasn't that too much of a waste?

After exiting the treasure cave, Tang Huan did not linger, and headed straight towards the town of Samsara.

After so many days, all the heavenly and earthly treasures inside and outside the Dark Nether Lake had probably been completely searched, so there was no need to waste any more time.

After leaving the dry lake and passing through a patch of grass and shrubs, Tang Huan once again entered the eerie ancient forest. After a long while, Tang Huan suddenly stopped, and laughed indifferently: "Senior, you have followed me for quite some time, reaching here, there's no need to hide anymore, why don't you show yourself?"

Chapter 1430 - Xiao Nian Die

"You can actually sense my existence?"

A hundred meters away from Tang Huan, a figure suddenly appeared.

It was actually a white-clothed old man with long, snow-white hair and a thin body. Although his face was full of wrinkles, it was as if a sharp sword had been unsheathed. His edge was revealed, and his imposing manner was extremely fierce.

"No."

Tang Huan slightly turned around and shook his head with a smile, "I was just casually saying it.

Tang Huan had seen this white robed old man before on the round altar in the center of Dark Nether Lake.

At that time, he suddenly appeared, and wanted to seize the "Desolation Spirit Orchid". Tang Huan used the "Void Evasion" ability of the "Yin and Yang Void Method" to quickly escape, and only then did he get rid of the "Ancient God Orchid". He had followed Tang Huan here, so it was obviously not because he discovered that Tang Huan was the black-robed man from a few days ago.

Tang Huan would of course not tell him that she had indeed discovered his existence long ago.

After he had advanced to become a Divine Profound Realm cultivator, Tang Huan's Perception Ability had risen in level once again. When he defeated those Divine Profound Realm cultivators in the treasure cave, he had a faint feeling that someone was spying on him. After that, he quickly left the Dark Nether Lake.

"Kid, not only are you bold, you're also very arrogant."

The white clothed old man's figure moved, and he was already less than ten meters away from Tang Huan. His hawk-like eyes landed on Tang Huan and said coldly, "It's like this in the treasure cave, it's the same in front of this old man. Do you know that people who are too arrogant have never had a good ending? And at this time, the Dragon Medallion of a Black Dragon disciple from the Emperor Dragon's Heavenly Palace won't be of much help to you. "

Tang Huan's calmness surprised the white clothed elder.

However, in a situation where the difference in strength was too great, calming himself down was useless. A mere Profound Extreme Heaven Scholar was no different from an ant in front of him. If he wanted to squash an ant, no matter how much that ant tried, it wouldn't be able to escape death.

"That's not necessarily true." Tang Huan smiled and shook his head.

"Is that so?"

The white-clothed old man's eyes turned cold. Almost at the same instant the two characters shot out from his mouth, a thick killing intent surged out from within his body. In an instant, the area with a radius of ten meters around him seemed to have been sealed by ice as a terrifying chill uncontrollably surged out from the depths of his soul.

Under the invasion of such a terrifying killing intent, an ordinary profound practitioner would probably be unable to even move their limbs. However, it did not have any effect on Tang Huan, and practically the instant that cold aura appeared within his soul, it was quickly eliminated.

"Hmm?"

Seeing that Tang Huan was still smiling, the white clothed elderly man could not help but become angry, his right claw that was as skinny as a stick directly grabbed towards Tang Huan, the Strength Qi churning between his fingers. Riiiiip! With a sound like the tearing of silk, the dark space between the trees seemed to have been torn open.

However, at this moment, a white jade-like palm suddenly stretched over from the side, and with a flick of his fingers, an incomparably terrifying power seemed to erupt like a volcano. The small piece of land seemed to tremble violently.

"Bam!"

Instantly, the claws and fingers collided together.

Amidst the thunderous booms, the powerful Strength Qi swept out in all directions, and in an instant, sand and rocks flew, and dust rolled everywhere. The two trees closest to it turned into dust at a speed that could be seen with the naked eye, and light scattered down, dispersing the gloomy and cold atmosphere in the area.

Within Tang Huan's line of sight, the white clothed elderly man let out a stuffy groan, and looked as if he had been struck by a huge rock. His figure flew back several tens of meters, and an exceptionally tall figure appeared in front of him.

She was wearing a light blue dress, and although he could only see her back for the time being, he could tell from the outline of her body that her body was not particularly plump, but it was extremely voluptuous. Her looks must not be too bad.

"Xiao Nian Die?" As this name came out of his mouth, the white-clothed old man's face became incomparably gloomy.

"Old man Fu, the dragon medallion of the Emperor Dragon's Heavenly Palace is still quite useful. What do you think?" The blue-dressed woman called Xiao Niao Die crossed her arms in front of her chest and laughed.

"Haha, Miss Xiao, this old man was only joking with this little brother." The white-clothed old man let out a laugh, forcing out a smile on his face.

"Are you joking? "Fu Peng, this is already the second time!"

Xiao Niao's tone was cold, "This so called matter is not more than three. If there is a next time, I'm afraid you won't be able to leave the Reincarnation Mountain Range. Scram!"

"You ..."

Fu Peng's face darkened, but he was unable to say anything. Instantly, he gritted his teeth, turned around, and sped away. In an instant, he had vanished without a trace.

After looking in the direction Fu Peng left in for a while, Xiao Niandie finally turned around.

A beautiful face that seemed to be finely sculpted came into Tang Huan's line of sight, on her dimples, her skin was snow-white, tender like cream, so tender that it could be broken with the wind, but the most eye-catching thing was her abnormally plump and round breasts, which were currently standing out even more due to the support of her two arms.

"Greetings Senior Sister Xiao."

Scanning with his eyes, Tang Huan cupped his hands and greeted with a smile.

"Tang Huan, how did you know I was your senior sister?" Xiao Nian Die sized Tang Huan up, her eyes that were as clear as autumn water revealed a look of surprise.

Tang Huan's gaze fell on Xiao Nian Die's chest. She smiled but did not speak, between her astonishing items, there was a faint gold glow. It was a jade tablet. Although it was only a small piece of the jade tablet that had not been completely revealed yet, it was already recognizable as the golden dragon disciple's Dragon plate.

"Junior brother Tang Huan, you have good eyes."

Xiao Nian Die subconsciously looked down and could not help but giggle as she stuffed the Dragon plate into the ravine. After a wave, the golden light that the Dragon plate revealed was completely covered up while Tang Huan stared with his eyes wide open.

"Senior Sister, you flatter me."

Tang Huan retracted his gaze and retracted his mind.

Xiao Nian Die's eyes moved and her eyebrows creased in a smile. She said meaningfully, "Junior Brother Tang Huan, there is no need to be modest. Under your eyes, there is nothing that can hide."

"Senior sister must be joking. Senior sister's Dragon plate is so eye-catching, I can't even pretend I didn't see it."

Tang Huan's heart jumped, and he pretended not to know.

According to Tang Huan's judgement, Fu Peng was a Heavenly Sovereign. One of the main reasons why he was still fearless even after Fu Peng had made his move was because he sensed that Fu Peng was not the only one following him, there was also another Heavenly Lord Realm expert. Furthermore, they were also from the Emperor Dragon's Heavenly Palace, just like him.

Xiao Nian Die had obviously guessed that her whereabouts were not hidden from Tang Huan, which was why she said those words.
