

W. Master 1451

Chapter 1451 - The Lord of the First Prefecture

"..."

"Forging 60 low-grade Dao weapons in a month, and each one is of high quality. This is simply not human, this is a god!"

"Tang Huan is only a Mysterious Heaven Scholar, yet his Tools Method Attainments is already so deep. In the worst-case scenario, the next Patriarch Que of our Huang Long Heavenly Palace's Artifact Spirit 'might really be him."

"Haha, that Peng Lian must have gone green with regret by now!"

"..."

"A one hundred percent success rate for the low-ranked. Tsk tsk, forget about the Emperor Dragon's Heavenly Palace, I'm afraid there's no one in the entire 'Flowing Flower Domain' who can compare to him in the low-ranked heavenly work. Sigh, it makes laozi want to ask him to help me forge a Dao Artifact right now, and if I offer the materials and another 20,000 Heaven beads, would he agree? "

"Twenty thousand?" If he is willing to help, I am willing to give him 50,000 Heaven beads! "Hehe, what he forged is a high-quality low-grade dao tool, not an ordinary low-grade dao tool."

"..."

Similar sounds continuously rang out from every corner of the Emperor Dragon's Heavenly Mansion.

Tang Huan's actions in the Artifact Cultivation Hall made countless people exclaim in admiration, while Peng Lian who had started all this trouble, became a complete fool in the eyes of the crowd. Of course, many people were grateful to that idiot. If not for his words, who would have known that Tang Huan's Dao Artifact Forging skills were so high?

Everyone was shocked, thinking that there were too many cultivators who asked Tang Huan to help them refine low grade dao tools, or to look for Tang Huan to help them.

As the crowd discussed animatedly, the news had already spread into the inner palace and it quickly spread, causing the minds of many experts from the sects to greatly tremble.

In the midst of the misty clouds, an incomparably majestic manor towered over them. At the manor gate's plaque, the words "Sky Dragon Manor" were dancing in the air, exuding a majestic aura.

This Heavenly Dragon Mansion was the residence of the previous Patriarchs of the "Emperor Dragon's Heavenly Mansion".

Within the mansion.

"In a month, I have successfully forged sixty high-grade low-grade Dao artifacts. On average, I have forged two of them in a day ..." It's been so many years, but I never thought that our Huang Long Sky Palace would finally produce another genius with such a stunning Tools Method! Good! Very good! "Hahahaha..."

An old man with long, snow-white hair and a frosty brow lightly stroked his long, snow-white beard as he laughed in an extremely carefree manner. Deep within his deep eyes, there was a faint sense of excitement.

This tall old man was the current Palace Lord of the Emperor Dragon's Heavenly Palace, Nie Cangsheng.

"Elder Lu, where is that kid from?" After a long while, Nie Cangsheng turned towards the handsome and refined middle-aged man and asked with a face full of smiles.

"It is said that the lower realms ascended to the sky and then joined the Nether Cloud City's' Heaven's Mortal Technique '. They obtained the first rank on the Rankings and were accepted by Elder Sun Kui and Sun Rankings as a disciple of the Heaven Palace sect."

The middle-aged man said, "Speaking of which, Elder Sun Kui was still sent by me to Youyun City. At that time, the Qian Yuan Heaven Sect made all sorts of movements in Youyun City, moreover, it was caused by their upper grade heaven rank work, Xue Yu. Xue Yu even planned on watching Youyun's' Heaven's Perfection ', so I sent Elder Sun to take a look at the situation. In the end, Elder Sun snatched Tang Huan over right under the noses of Xue Yu and Yue Zichuan of Limitless Temple. "

As he finished speaking, the middle-aged man couldn't help but burst out laughing.

He was the grand elder of the Emperor Dragon's Heavenly Mansion, Lu Tianyao. Back then, when Sun Kui had returned, he had reported the matters regarding Youyun City to Sun Kui.

"Elder Sun has done a great service to our Heavenly Mansion."

Nie Cangsheng laughed heartily. "Of course, this is also due to the fact that we were fated to meet that little guy. That little fellow has such astonishing talent, you need to nurture him well. " After a slight pause, Nie Cangsheng muttered to himself, "Elder Lu, send someone to invite Master Du Que here. Tell him that I have something to discuss with him."

"Yes, I will go now." Lu Tianyao exited the Heavenly Dragon Manor with a smile on his face.

"..."

At this time, the news about Tang Huan had already spread to the entire Heavenly Imperial Palace, setting off a huge wave.

"Sixty high-grade low-grade Dao weapons?" How is that possible? "

"The news is right, right? Are you sure the news is correct? Go ask again, and when you're done, tell me. "

"It's simply a joke. You're the one who told me that Tang Huan had done something that not even the Palace Chief was able to do?"

"..."

In the middle of the sea of clouds, a massive mountain peak was faintly discernible. On the peak of the mountain, various buildings were also surrounded by mist, making it seem as if it was a paradise. However, at this moment, exclamations of disbelief rang out from every hall on this fairy-like mountain.

"Sixty pieces a month... How did he do it? "

Inside a mansion, Lu Zhitao was sitting cross-legged on the ground. His face was pale, his eyes were absent-minded, and he muttered.

After returning to his residence, he did not even step out of his house. He wholeheartedly focused on studying Tools Method, hoping to advance to middle tier heaven's work as soon as possible.

After a few days, his mood had finally eased up, and he had just heard such shocking news. With his current cultivation and Tools Method Attainments, if he used his full strength, he would be able to successfully forge ten to fifteen low grade Dao artifacts in a month. Amongst the low grade heaven's work of the "Artifact Spirit Heavenly Fault", it could be considered as the best, and the other low grade heaven's work would not exceed ten artifacts in a month.

This had always been a place that Lu Zhitao was proud of.

However, Tang Huan had sixty pieces per month, which was four to six times more than what he had. Other than that, Tang Huan's quality had all reached high quality, and the majority of the things he forged were average, with a small number being low quality. As for the high quality, it would depend on whether the heavens were willing to show them face or not.

Such a difference was so great that it caused one to feel despair.

"Tang Huan..."

Only after a while did Lu Zhitao come back to his senses. He clenched his teeth and squeezed out the word from his throat. His tightly clenched fist had fingernails that had sunk deep into his palm.

Several thousand meters away, in an even larger inner region, the two elders, Que Lord Du Xinghe, Liu Tiangang, and He Qingzhu, were gathered together.

The three people who had just received the news looked at each other in silence. Their faces still had traces of shock that couldn't be dispersed.

At this moment, they couldn't help but act in such a manner.

Although they had never personally seen a low-grade Dao Artifact forged by Tang Huan, they could guess from the number and quality of those low-grade Dao Artifacts how astonishing Tang Huan's Tools Method Attainments was. Back then, when they were still low grade Heaven's Arts, they could not even catch up to Tang Huan.

"Owner Que, you're right." After a long while, Liu Tiangang finally broke the silence of this space.

"With this little guy around, the level of our Heavenly Palace's Tools Method will definitely far surpass that of the Heaven's Qian Yuan Sect and Limitless Temple." He Qingzhu was also extremely excited.

"..."

Du Xinghe let out a long sigh, and the shock in his eyes faded away. What replaced it was a faint smile, "Our Huang Long Heaven Manor might be able to produce another saint rank heavenly work in the future ..."

Chapter 1452 - Zong Hu Peak

"What?"

In a tall building in the western part of Jade Emperor City, a skinny Black Costume Old Man was so shocked that his eyeballs almost fell to the ground, "Where did you hear this from, is it accurate?"

"Absolutely!"

"This was personally said by a Black Dragon disciple who had an extremely good relationship with me. There is absolutely no doubt about it."

"Incredible!" It's really unbelievable! "

The Black Costume Old Man gasped in surprise, "Even if our Qianyuan Sky Sect were to go all out with this high grade heaven's work, we would only be able to successfully forge this low grade Dao Artifact in a month. Furthermore, we cannot guarantee that all of them would be of high quality, so how did that low grade heaven's work, Tang Huan, manage to do it?"

The young man laughed bitterly and shook his head: "That Tang Huan's speed of forging Dao artifacts was indeed unbelievably fast."

"I never thought that the Emperor Dragon's Heavenly Palace would actually have such good luck, to have produced such a Tools Method genius ... Eh? Wait, why does the name Tang Huan sound a little familiar? After a moment of deep thought, Black Costume Old Man suddenly frowned in puzzlement, as he fell into deep thought.

"I remember."

The young man suddenly clapped his hands and shouted, "A while ago, Clan Elder Xue sent a message to us. He said that we should pay attention to a Black Dragon disciple called Tang Huan.

"That's right, that's right." Black Costume Old Man said in a deep voice, "Go and inquire about the situation regarding that Tang Huan again, and then immediately send the message back to the sect."

"Yes, I will go now."

"..."

... ..

"Tang Huan... Tang Huan... "

In the southern part of Jade Emperor City, a faint sigh could be heard from a courtyard, "If nothing unexpected happens to this person, in another hundred or so years, the Tools Method of the Emperor Dragon's Heavenly Palace will definitely increase by a great amount. In the future, the strongest sect in the 'Flowing Flower Domain' would most likely change from the Heaven Sect to the Emperor Dragon's Heavenly Palace. Emperor Dragon's Heavenly Palace can be considered to be truly lucky, to have actually allowed them to get their hands on such an outstanding Weapon Refiner. "

The one who spoke was a middle-aged man with an unremarkable appearance. He sat by the stone table in the courtyard with his legs crossed. His expression was filled with emotion.

"Brother Wei, you're not exaggerating so much, right?" Opposite him was a green-clothed man that seemed to be around 40 years old. He couldn't help but laugh involuntarily.

"Perhaps in the future, it will be even more exaggerated than I thought."

The middle-aged man shook his head and smiled, "In all these years, have you ever heard of any lower tier heaven's work that can create sixty lower tier dao tools, and sixty upper tier ones at that? Not a single one! "

"With such a genius in Tools Method coming out of the Emperor Dragon's Heavenly Palace, there's no need for us, Limitless Temple, to be in such a hurry."

"Just wait and see. Perhaps before long, we'll be able to personally witness and see if that Black Dragon disciple of the Huang Dragon's Heavenly Palace, Tang Huan, is as outstanding as the rumors say."

"You're right, the Qian Yuan Sky Sect won't be able to sit still for long." A smile also appeared on the green clothed man's face.

"..."

... ..

Everything that had happened in the Artifact Cultivation Hall had long since spread from the external residence of the Emperor Dragon's Heavenly Palace to the Jade Imperial City.

All sorts of news were wildly spreading throughout the enormous city.

After all, this situation was too shocking, and the ordinary cultivators in the city might only take it as a chance to chat when they were free. However, the cultivators from the other powers stationed in the Jade Imperial City seemed to be on stimulants as they spread the news in all directions.

The outside world was filled with activity, and so was the imperial palace.

Outside of the first courtyard of the Black Dragon Mountain, the disciples of the Heavenly Palace came and went. What appeared here, were not only the disciples of the Black Dragon Mountain, but also the disciples of the Azure Dragon and even the disciples of the Gold Dragon.

However, no matter what kind of goal they had, they were unable to see Tang Huan.

In the sleeping quarters in the courtyard, Tang Huan was calmly concentrating on refining the pellets.

After leaving the Artifact Cultivation Hall, Tang Huan entered the Black Dragon Palace at the side, and obtained the first prize of the two months ranking. Just as Tang Huan had expected, the reward this time was not the time to cultivate in Soaring Cloud Violet Palace, but two "Scarlet Profound Thunder Fire Pills", which were also pills used to condense Dao crystals.

This pill was slightly inferior to the "Dew Congealing Pill". To ordinary Mysterious Heaven Scholars, each pill could condense about a hundred dao crystals.

However, on Tang Huan's body, the amount of dao crystals he could condense had decreased greatly. After all, Tang Huan had reached the level of an unusual one, so the amount of medicinal energy required to condense a single dao crystal was far greater than that of an ordinary person. He could tell from the "Dew congealing Pill" that while others could condense three pills, he could only condense one pill out of the same medicinal strength.

With these two medicinal pills, the total number of Dao-Crystals would probably reach nine hundred and seventy.

Time flew by like a shuttle. The number of Heavenly Palace's disciples outside courtyard number one changed wave after wave, yet Tang Huan, who was in the courtyard, seemed to not have noticed as he remained completely unmoved.

... ..

Qian Yuantian Sect, Zong Artifact Mountain.

"Information about Tang Huan?"

Within an exquisite and ancient wooden building, Xue Yu's gaze left the red and dazzling Dao Stone in his hand and he looked with some surprise at the white-clothed young man that quickly walked over. On the jade platform not far away from Xu Jiu Yu, a shining, fiery red long blade was quietly lying down.

The long saber was the low-grade Dao tool that he had brought back from the "Phantom Jade Pill House" in Youyun City.

In this period of time, he had spent a lot of energy to study the long blade, and he could clearly feel that his Tools Method Attainments had increased by quite a bit.

This caused Xue Yu to feel extremely fortunate.

Back then, if he had left Nether Cloud City earlier, he would have missed out on this perfect lower grade Dao Artifact. It would be extremely difficult for his Tools Method Attainments to improve even a little. Now, he even had a faint feeling that he had a chance of advancing to Heaven rank. To him, this was incredibly good news.

However, the same thing that had happened in Nether Cloud City made him feel extremely unhappy even to this day when he thought about it.

The person called Tang Huan, who was ranked first on the Rankings, had actually rejected his invitation to join the Emperor Dragon's Heavenly Palace. He was simply blind and would definitely regret it one day in the future.

"Tell me about it!" Hearing the youth mention Tang Huan, Xue Yu could not help but snort.

"Yes, Elder."

The white clothed youth hurriedly bowed and told her the information regarding Tang Huan. "... The Reincarnation Mountain Range had acquired five thousand low-grade and medium-grade Dao-stones ... Absorbing an enormous amount of 'Sky Luo Profound Energy' ... About a month later, I have successfully forged sixty low-grade Dao tools. Each of them is of high-grade quality ... "

"Wait! "Hold on!"

Even when he heard that Tang Huan had obtained five thousand stones, he was still a little surprised. But in the end, he could not help but open his eyes wide and exclaimed, "Did you just say that those sixty high-grade low-grade Dao artifacts were all forged by Tang Huan in a month's time?"

Chapter 1453 We meet again!

"This is what the news that came back from Jade Imperial City said." The man in white nodded. His eyes were still full of shock.

"Could it be that our Qianyuan Sky Sect only sent a bunch of trash to Jade Imperial City? How dare they pass such ridiculous news on to us?" Xue Yu was extremely enraged and cursed.

"Elder, they only sent the information back after many inquiries and confirmation." The white-clothed youth dryly laughed twice and couldn't help but explain, "To prevent the sect from not believing it, they even specifically emphasized the fact that they dared to vouch for this information with their lives."

"Oh?"

Xue Yu was slightly startled, the anger on his face receded, and what replaced it was unconcealable surprise. "You even dare to say such words, could it be that all of this is true? How is that possible? It's one thing to raise your cultivation to the level of Mysterious Heaven Scholar in such a short period of time and to raise your Tools Method Attainments to the level of low-grade heaven's work, but you can actually forge sixty high-grade Dao Artifacts in such a short period of time? "

As he spoke, Xue Yu's face was filled with disbelief.

The white-clothed youth was speechless. He was unable to answer Xue Yu's question, the news that was sent over from the Jade Imperial City was indeed too inconceivable.

"Check with them again to see if the news is true." Only after a short moment, Xue Yu said in a low voice.

"Yes sir!"

The man in white bowed and left.

Xue Yu once again sat cross-legged, and his mind slowly recovered its calmness. Although he still felt that it was unbelievable, he understood that the news that came from the Jade Emperor City, should be true.

When he was in You Yun City, he knew that Tang Huan was no ordinary person.

He understood Tang Huan's talent in Tools Method even better than Sun Kui of the Royal Heavenly Palace and Yue Zichuan of the Limitless Temple. He also knew that Tang Huan becoming an Inferior Heaven Ranking would happen sooner or later. The facts proved that his judgement was not wrong at all. Tang Huan had indeed become an Inferior heaven's work.

But he absolutely did not expect that Tang Huan would be even more outstanding than he had expected.

Even for someone as experienced as him, the speed and quality of forging a low-grade Dao Artifact was only comparable to Tang Huan's. And the most important part was that he was already an upper grade heaven's work, while Tang Huan was only an lower grade heaven's work.

When low-grade heavenly work was already showing off such an astonishing ability, Tang Huan's future achievements were completely incalculable.

A high-grade Heaven-Crafting Skill was definitely not something that Tang Huan could reach its peak.

"Holy Grade Heaven Craftsman?" "Or is it a divine grade heavenly work?"

This thought flashed across Xue Yu's mind, and he suddenly felt extreme regret in his heart. If he had known that Tang Huan had such talent and power, even if he had caught Tang Huan that day, he would have brought him to the Qian Yuan Sky Sect. So what if he chose the Emperor Dragon's Heavenly Palace? At most, he would just have a war with Sun Kui.

But unfortunately, Tang Huan was now a disciple of the Emperor Dragon's Heavenly Palace, so even if he regretted it, it would be useless.

After a long while, he helplessly let out a long sigh. However, right after, his heart moved, every time Tang Huan forged a weapon of the highest quality, this meant that his level was definitely stronger than what he displayed, or else it would not be possible for his level to be of the lowest quality. Among those 60 low-grade Dao tools, there were probably several that surpassed the superior quality!

"Perfect quality?"

Once these few characters jumped out of his mind, Xue Yu's heart thumped, then he looked at the fiery-red long saber on the jade platform beside him in the blink of an eye. An incomparably bold thought involuntarily appeared within his mind. But after a moment, Xue Yu could not help but shake his head and laugh involuntarily: "Impossible, impossible, how could Tang Huan be the Weapon Refiner that forged this blade in You Yun City? "First of all, the Dao fire doesn't match."

This possibility had been completely eliminated by Xue Yu. However, since this thought had appeared, it was instead like a blade of grass that continuously grew and grew within his mind, and it didn't go away.

... ..

"Nine hundred and sixty-eight... If you're missing two, that would be nine hundred and seventy percent. "

Within the first courtyard of the Black Dragon Mountain Range of the Emperor Dragon's Heavenly Palace, Tang Huan exhaled lightly and slowly opened his eyes, a slight smile appearing between his brows.

By condensing another 32 Dao-Crystals, one could reach the pinnacle of the Myriad Temple.

It had been a while since he had the breakthrough. It was about time to reach the Earth Elemental Heaven Realm. However, he needed a huge amount of power to condense that key Dao crystal. Of course, Tang Huan was not worried. With 46 low rank Dao Artifacts in his hands, he had enough confidence.

Maybe others only thought that those low rank Dao tools were high quality, but Tang Huan knew in his heart, that the quality of these Dao tools could be said to be perfect. As long as a few of them were handed over to the sect, they would be able to be exchanged for the power or corresponding pellets needed to reach the Extreme Earth Realm.

With a thought, Tang Huan had already stood up.

Just as he walked out of the room, a surprised look surfaced on Tang Huan's face. He could feel that there was still a large number of cultivators gathered outside the hall, but just a moment ago, the chatter from the crowd outside the hall had disappeared without a trace.

However, in the next moment, Tang Huan understood what was going on.

"Greetings, Que Lord!"

A huge sound suddenly rang out, and all the cultivators outside the courtyard seemed to be chanting these words in unison.

Although Tang Huan had not seen the scene outside, an image of everyone bowing and greeting had already appeared in his mind. When Tang Huan opened the courtyard door, indeed, he saw a white-haired, grey-robed, old man with a face full of wrinkles leisurely floating over tens of meters away.

That person was indeed the "Artifact Spirit Heavenly Fault", the Palace Master, Du Xinghe.

"Kid, we meet again."

Waving his hands at the crowd, Du Xinghe said this without waiting for Tang Huan to speak, and the moment he finished speaking, he had already traversed a dozen meters in the air and appeared in front of Tang Huan. His deep eyes were filled with admiration, and it seemed like it would solidify into reality.

"Disciple pays his respects to the Sect Leader!"

Tang Huan smiled and bowed towards Du Xinghe.

Even though he didn't know the purpose of Du Xinghe coming to Black Dragon Mountain, he knew that Du Xinghe's appearance must be related to his actions in the Artifact Cultivation Hall yesterday.

This was all within Tang Huan's expectations. He had created such a huge commotion. If not for the appearance of the upper echelons of the sect, it would have been impossible for the Emperor Dragon's Heavenly Palace to have survived for so many years. The fact that the master of the Heavenly Imperial Equipment Spirit Palace had personally come to see him in the Black Dragon Mountain showed the importance that the sect placed on him.

"No need to be so polite."

"I had originally thought that it would take us another two or three years to meet again. Who would have thought that it would only be a short month and this old man would see you again. "Little fellow, this time you have given this old man a huge surprise."

Chapter 1454 - Sect Citation

"Owner Que, you're too kind."

Tang Huan laughed, "The reason this disciple has a Tools Method Attainments like this, is all thanks to Elder Sun Kui's help to deliver the refining experience of a senior from the sect."

"Little guy, you're too modest."

When Du Xinghe heard this, he unconsciously became mute. "Not only has this old man seen the artifact forging experience you're talking about, I've also seen all the low-grade heaven's work of the 'Artifact Spirit Heavenly Fault.' However, none of them can reach your level."

"At the end of the day, this is all because of your own natural talent. That bit of refining experience will at most have a catalytic effect." After a slight pause, Du Xinghe smiled again, "Little guy, can

you tell this old man that when you forge low grade Dao weapons, can all of them reach the highest quality?"

After a slight delay, Tang Huan said with a smile on her face, "Clan Master Que, forging a high-grade low rank Dao Artifact is no longer difficult for this disciple. The success rate can also reach a hundred percent."

"Oh?"

Du Xinghe raised his brow as an expression of surprise rose in his eyes.

The crowd of Heavenly Palace disciples that had gathered outside the first courtyard burst into an uproar. At first, when everyone heard Tang Huan's words, they were filled with extreme envy just because the Qilin Master, Du Xinghe, had taken the initiative to come to see Tang Huan.

Previously, Tang Huan's success rate in forging a low rank Dao tool was 100%. It was something that only existed in the rumors.

But now, Tang Huan was equivalent to admitting it.

Moreover, this was not a simple success rate of 100%, but when forging a high-grade low-grade Dao item, it could also guarantee its success. Ensuring that both low-grade and high-grade Dao tools were successfully forged was vastly different from each other.

For Weapon Refiner with such a level of Tools Method, forget about the "Heavenly Sword of the Artifact", even if the Palace Chief himself came to pay him a visit, it would not be surprising.

"Alright!"

After a while, Du Xinghe laughed heartily, the amazement in his eyes turned into excitement, "This old man is right, just based on the attainments of a low-grade Dao Artifact, forget about the Flowing Flower Domain, I'm afraid even in the entire Crimson Sky Kingdom, there is no low-grade heaven's work that can compare to you."

After a slight pause, Du Xinghe hid the excitement in his eyes and said, "Little fellow, in view of your extraordinary talent in Tools Method, the Palace Chief specially rewards you, allowing you to enter 'Soaring Cloud Violet Palace' to cultivate for seven days, allowing you to enter and exit the Inner Palace freely. The Dao stones and iron crystals in 'Artifact Heavenly Imperial Sword' can also be chosen by you.

When the surrounding people heard this, they looked at each other, at a loss for words.

The Emperor Dragon's Heavenly Palace did their utmost to reward Tang Huan. Just by entering "Soaring Sky Purple Palace" and cultivating for seven days, it was already enough to make countless disciples of the Heavenly Palace drool in envy.

Hearing this, Tang Huan was also surprised, and could not help but ask: "Sect Master, aren't these rewards too much?"

He had displayed sufficient value in the Artifact Cultivation Hall previously, so it couldn't be any more normal for the Emperor Dragon Heavenly Mansion to cultivate him with great effort.

But Tang Huan never thought that it would already be like this in the beginning. Not only did he possess the qualifications to cultivate in the "Soaring Sky Violet Palace" for seven days, he could even choose all the Dao stones and iron crystals in the "Heavenly Artifact Palace". Compared to

these two, the reward of entering and leaving the Inner Palace freely was not even worth mentioning.

However, to many Outer Palace disciples, entering and leaving the Inner Palace freely was an enormous honor.

"Not much, not much at all."

Du Xinghe said with a smile, "For the cultivation of Weapon Refiner, the sect has always spared no effort. If you have enough Inherent Skill in terms of Tools Method, the sect will provide you with the appropriate materials. Little fellow, in this old man's opinion, it would be better for you to enter the Heavenly Imperial Palace as soon as possible so that you can easily raise your Tools Method Attainments. "

Tang Huan said gratefully: "Thank you for your kindness, Sect Master Que, but, disciple still intends to stay in Black Dragon Mountain first."

"Alright. Since you insist, I will not say anymore."

Du Xinghe helplessly nodded with a smile, "However, in half a month's time, you'd better make a trip to Tian Que. On that day, all the lower tier heaven's work will enter the 'Artifact Heart Hall' and try to obtain the Tools Method of a senior from the sect. If you succeed, it will be beneficial for your advancement to middle tier heaven's work."

"Many thanks to Owner Que for telling me that this disciple will definitely go to the 'Artifact Spirit Heavenly Fault' that day." Tang Huan agreed. As long as he didn't stay in the Inner Palace for too long, he didn't have to worry about his secret being exposed.

"That's good!"

Du Xinghe nodded in satisfaction, "Little guy, take these two things first."

The former was a proof of entry to the "Soaring Sky Violet Palace", while the latter was a dragon tablet representing one's heaven's work status. With this, even if that purple jade tablet were to melt into the Violet Palace in the future, he would still be able to freely enter and exit the Inner Palace.

"Yes sir!"

"..."

Du Xinghe did not stay any longer. After sending the jade token out, he floated away.

"Thank you for your concern, but I don't plan on selling or helping others forge Dao artifacts in the near future. I hope that everyone will forgive me."

Watching Du Xinghe's figure disappear from his sight, Tang Huan pondered for a moment, then cupped his hands to the crowd, and headed towards the foot of the mountain. After a long while, the shocked crowd finally came back to their senses. Their emotions were complicated to the extreme, and murmurs could be heard from time to time outside the courtyard.

"Entering the Soaring Cloud Violet Palace is equivalent to training in the outside world for a month. Seven days means seven months, and within those seven months, what I absorb is not immortal sky spirit energy. If Tang Huan had entered the Violet Palace now, by the time he came out, I m afraid he would already be able to advance to the Heavenly Mystery Realm. "

"To Junior Brother Tang Huan, the sect has truly invested a lot. The Dao Stones and Iron Crystals of 'Heavenly Imperial Equipment' are actually all sought after by Junior Brother Tang Huan, and all the weapons that have been successfully forged are also taken care of by you. With the sect's strong support, Junior Brother Tang Huan will probably soar into the skies very soon. "

"..."

"Fuck, this is unfair, this is unfair!" It's one thing for him to take the dao stones and iron crystals inside the Heavenly Imperial Palace, but why should I allow him to enter the Violet Palace to cultivate for seven more days? "

"Unfair? Hehe, for Tang Huan to have such an astonishing innate Tools Method, it is natural for her to be highly regarded by the higher ups of the sect.

"Tsk tsk, a high-grade Dao item. I wonder when I'll be able to obtain one?"

"..."

While the crowd of cultivators were discussing animatedly, the news of the Qilin Master personally coming to the Black Dragon Mountain and announcing Tang Huan's reward had spread like wildfire, causing countless Heavenly Palace disciples to go crazy with envy. At this time, Tang Huan arrived at the foot of the Black Dragon Mountain and entered the Weapon Hall.

Chapter 1455 This is amazing! ^

The Weapon Hall was the place where the disciples of the Heavenly Mansion would exchange their weapons.

Every weapon in this hall corresponded to a certain number of points. As long as they were willing to deduct the corresponding points, they would be able to exchange for most of the weapons inside.

As for points, they could be obtained through various methods.

He could complete the various missions the sect had issued, and also hand over to the sect the various treasures he had found during his training. If one was on duty in various parts of the sect, they would also receive points and rewards. If they made a large contribution to the sect, they would also receive points and rewards.

These accumulated points were common in the Emperor Dragon's Heavenly Mansion. Not only could they be obtained through weapons, they could also be obtained through medicinal pills or even cultivation techniques.

"You want to hand over these artifacts?"

In the Weapon Hall, a twenty-seven or twenty-eight year old woman in black stared blankly at Tang Huan who was sitting at the counter.

Ever since she was on duty at the Weapon Hall, she had used countless weapons, and a lot of Heavenly Palace disciples had come to hand over their weapons in exchange for points. There were even some that brought out medium-grade Dao artifacts, but this was the first time she had seen something like today.

She did not know who the Black Dragon disciple in front of her was, but when she took out several tens of low grade Dao tools and placed them on the counter, she knew that this person was Tang Huan, who had recently become famous in the Emperor Dragon's Heavenly Palace.

However, she never expected that Tang Huan would actually take out all those high quality low quality Dao tools and exchange them for points. Right now, it was unknown how many Sky Palace disciples were wanting to obtain a set of Dao Artifact that Tang Huan had forged, but they were unable to do so.

"That's right. Senior Sister, please help me calculate how many points they are worth?"

Tang Huan smiled and nodded.

The sect gave him the reward of entering "Soaring Cloud Violet Palace" to cultivate for seven days, and also promised him the Dao Stones and iron crystals in "Heavenly Artifact Spirit Fault" for him to use as he pleased. He naturally had to repay the kindness with a peach, and let the sect know that he, Tang Huan, was not an ungrateful and selfish person. If he only knew that he had obtained benefits from the sect and did not know to pay the price, the sect would definitely not treat him as highly as it was now.

This was human nature as well. Mutual benefit was the only way for the long term.

The cultivators that were initially scattered throughout palace had long been attracted by the commotion here. Everyone's eyes shone with a green light. After hearing what Tang Huan said, they were even more shaken, and the desire in their eyes was revealed clearly. In that instant, cries came from all directions.

"46 high-grade low-grade Dao tools, hand them all over. What a huge gift!"

"Such an outstanding Dao weapon definitely has a lot of points."

"Damn, I've decided. No matter how much points I have to spend, I will exchange them for a Dao Artifact forged by Junior Brother Tang Huan."

"Me too, I'll change too."

"..."

Everyone's eyes shined. However, compared to the tens of low-grade Dao tools on the counter, the other low-grade Dao tools in the weapon palace were not worth mentioning.

"Alright, please wait a moment!"

The girl in black suppressed the astonishment in her chest, and looked deeply at Tang Huan, before slowly nodding.

Soon after, she took out the low-grade Dao artifacts one by one, but the more she looked at them, the more shocked her eyes became. Tang Huan's Dao weapons were all of the highest quality, and were beyond imagination. Generally, high quality low rank Dao artifacts were worth three hundred thousand Heaven beads, but for Tang Huan's Dao artifacts, even if he offered a price of six hundred thousand, there would probably be a lot of people who would want them.

"Normally, if you hand over a low-grade Dao tool of high quality, you will get 400 points. These low-grade Dao tools of yours are even better quality. Each piece is worth 600 points, how about it?" After a long while, the lady in black was deep in thought, she then looked at Tang Huan and laughed.

"No problem, just six hundred."

Tang Huan nodded and smiled.

Six hundred points was equivalent to six hundred thousand Heaven beads, which was already very good. Of course, even if it was only three hundred points, Tang Huan would still accept it since he did not hand over the Dao artifacts for the sake of earning points.

The woman in black smiled sweetly, and just as she was about to speak, a gentle and aged voice was heard, "Qi Qi, this batch of Dao artifacts is based on fifteen hundred calculations."

"A thousand... "Five hundred?"

Hearing this, the black clothed female named Qi Qi was shocked, and the surrounding crowd went into an uproar, even Tang Huan himself was in disbelief.

One thousand five hundred points, that was equivalent to one and a half million Heaven beads outside.

Although these Dao artifacts were of high quality, they still belonged to the category of low-grade Dao artifacts. To give such a value was simply too inconceivable. One had to know, one million and five hundred thousand Heaven beads was enough to buy a low-grade mid-grade Dao item.

Everyone was extremely shocked as one by one, their gazes following the source of the noise to the outside of the hall.

Then, a blue shadow suddenly entered their line of sight. It was only a few steps before the figure came to the front of the counter.

It was a blue-robed elder with a medium build and snow-white hair. He looked kind and kind.

"Greetings elder!"

Qi Qi Qi quickly bowed.

Although Tang Huan and the surrounding people did not know who this old man was, the dragon medallion by his waist had already revealed his identity. One after another, they saluted, causing the hall to immediately become noisy. The blue-robed old man waved his hand at everyone. Then, he extended his hand and grabbed a crystal clear, dark blue sword that seemed to be condensed from autumn water.

"Isn't that a bit too high?" "1,500 points ..."

Qi Qi Qi hesitated for a moment and then could not help but speak, but before he could finish speaking, the blue robed elder smiled, "Qi Qi, the quality of these low-grade Dao tools is beyond your imagination. They are not of superior quality, but of perfect quality. "

"Perfect quality?"

Qi Qi Qi and the surrounding people gasped when they heard this.

Dao artifacts of every rank were divided into the lower, middle, and upper ranks. And above the upper ranks, there were also different levels of quality, such as perfection. However, the perfect Dao artifacts were simply too rare, and ordinary cultivators wouldn't be able to tell them apart. Most of the time, they would be overlooked by others.

But now, this elder actually said that Tang Huan's low rank Dao Artifact was of the perfect quality?

It was like a stone that caused a thousand ripples! Qi Qi Qi and the other cultivators' hearts were in turmoil at this moment. Their shock could no longer be described with words.

If it were only a perfect low-grade Dao Artifact, then it would be fine. However, from what the Elder had said, all 46 low-grade Dao Artifacts were perfect!

This was too amazing!

Chapter 1456 - 69,000!

The blue-robed old man smiled and said: "A perfect low rank Dao Artifact, its power is not inferior to a low rank middle rank Dao Artifact. If we were to take it to the auction house, not to mention one million and five hundred thousand Heaven beads, there would be a lot of people who would want it even if it was two million Heaven beads."

After speaking to here, the blue-robed elder put down his sword, turned his gaze to Tang Huan, and jokingly said, "Tang Huan, if I were to give you six hundred points for every single one of them, you would suffer a huge loss."

"Elder must be joking."

Tang Huan regained his senses, and smiled, "I was originally a disciple of the Emperor Dragon's Heavenly Palace, and normally, only by borrowing the sect's resources to cultivate, was I able to increase my cultivation by leaps and bounds. Now that I have forged some weapons and handed it over to the sect, it is only natural for me to do so. Elder, let's say what senior Qi Qi said earlier: 600 points per weapon. One thousand and 500 points per weapon is indeed too high. "

The blue-robed old man was startled when he heard it, then immediately smiled and said: "Tang Huan, that won't do. You are willing to return the favor to the sect, that is your wish, but the sect can't let their own disciples suffer any losses. "1500 points, that's settled."

After saying this with such a firm tone, the blue robed elder turned to Qi Qi Qi, "In the future, if Tang Huan submits his weapon to me again and encounters a high grade dao tool that is difficult to determine his quality, come and ask this old man."

"Yes, elder!"

Qi Qi Qi quickly nodded.

The blue robed elder nodded his head slightly. He glanced at Tang Huan with a pleased look on his face and then went deeper into the Artifact Hall.

The moment he left, the atmosphere at the entrance of the palace hall immediately became lively.

Without batting an eye, everyone's eyes were glued to the dozens of weapons on the counter. Flames seemed to be burning in their eyes.

Since the Weapon Hall was using one thousand and five hundred points to buy Tang Huan's Dao Artifact, when the other disciples exchange for it, they would only need to deduct from the previous five hundred points.

1,500 contribution points was indeed very expensive, but outside, even if there were 1.5 million Heaven beads equivalent to 1,500 points, the possibility of buying a Perfect Low Grade Dao Artifact was next to none. Dao tools of this level were definitely priceless.

However, the Weapon Hall would probably come up with additional conditions. Otherwise, these 46 Dao artifacts would probably be exchanged for very quickly. The number of Azure Dragon disciples and Gold Dragon disciples who could take out one thousand five hundred points was simply innumerable.

Right now, everyone was extremely envious and jealous of Lei Jia Yuan, Fang Xu and the other Black Dragon disciples. Just because they were Tang Huan's friends, they were able to get a perfect low quality dao tool worth one million and five hundred thousand Heaven beads.

"That person was Elder Ning Siyuan from earlier. He was in charge of all matters concerning the Black Dragon Mountain."

Qi Qi Qi's eyes were filled with admiration as she explained in a low voice, then said with a smile that was like flowers, "Junior Brother Tang Huan, out of the one thousand five hundred weapons, forty-six would be sixty-nine thousand points. This score has already surpassed most of the Heavenly Palace's disciples. "

"Junior brother, please give me your dragon medallion."

"..."

When Tang Huan walked out of the Weapon Hall, the value of the points recorded on his dragon medallion had already reached sixty-nine thousand. This caused Tang Huan to not know whether to laugh or cry in his heart. Before coming here, he had never thought that this would be the end result. However, having more points on hand wasn't a bad thing.

Although Tang Huan did not need points to exchange for weapons, for pills that could raise his cultivation, he still needed a lot.

Not long after, Tang Huan entered the Medicinal Hall. A moment later, the Heavenly Palace disciples who heard the news surrounded the Weapon Hall, with not even a drop of water being able to leak out. Countless clamorous sounds condensed into a huge wave, it was as if the sky was being torn apart.

"Those low-rank Dao tools are all of perfect quality?"

Within the Inner Palace, inside a mansion of the Artifact Spirit Heavenly Que, Du Xinghe couldn't help but cry out in alarm, as he almost couldn't believe his own ears.

He had just gone to the Black Dragon Mountain to meet Tang Huan and pass on the sect's reward. Not long after he returned, he had actually heard such shocking news.

"This is the judgment given by Elder Ning Siyuan. There shouldn't be any problems."

Liu Tiangang had a complicated expression on his face.

The surprises that Tang Huan gave were one after another, and each one was even bigger than the last.

At first, he thought that the sixty pieces that Tang Huan had forged were all of high quality. This was shocking enough. When everyone finally accepted this fact, they suddenly found out that the low grade dao tools that Tang Huan forged were actually not high quality, but even rarer, perfect quality. The shock that this brought to everyone's hearts was especially strong, and could no longer be described with words.

"That's right."

Du Xinghe could only smile bitterly.

He Qingzhu said somewhat self-deprecatingly: "Compared to this little fellow's innate talent in Tools Method, us old men are no different from trash." Over the years, he had forged a large number of low-grade Dao tools, but none of them were perfect.

Not only did he not, neither did Liu Tiangang and not even Qilin Lord Du Xinghe.

To them, the Perfect Dao Artifacts only existed in legends. However, Tang Huan, who was merely an Inferior Grade Sky Crafting, was able to create 60 of these legendary Dao Artifacts right under their noses. Although Tang Huan had only handed in forty-six perfect tools, everyone was sure that the sixteen low grade tools that Tang Huan had given to his friends were undoubtedly also perfect.

Tang Huan had produced so many perfect Dao Artifacts in large quantities, causing them, who were middle-grade heaven's work, to feel a deep sense of defeat.

But at the same time, they also felt extremely fortunate that Tang Huan was a disciple of the Heavenly Palace and not a disciple of Limitless Temple or Qian Yuan Heaven Sect. Now, they could completely imagine how marvelous the expressions of Tian Gong from the two sects would be when they heard this news.

"No matter what, I'll go to the Weapon Hall and borrow a perfect Dao-artifact to ponder over it." Liu Tiangang clapped his hands viciously.

"I'll go with you." He Qingzhu also stood up.

"Brother Tiangang, help me borrow one as well." The main reason was that he had never thought about the perfect tools before. Otherwise, he would have been able to borrow a few from Tang Huan when he was at Black Dragon Mountain, so he wouldn't have to borrow from the Weapon Hall now.

"..."

After watching Liu Tiangang and He Qingzhu's figures quickly leave, Du Xinghe sat upright for a long time. Finally, he let out a sigh, and a smile of anticipation appeared on his face as he muttered to himself, "This little guy sure knows how to conduct himself well. This old man is rather looking forward to the trip to Artifact Heart Hall in half a month. Perhaps the Tools Method inheritance left behind by that senior is something that only this little fellow has a chance to obtain. "

Chapter 1457 It must be him!

After about two hours, Tang Huan finally returned to courtyard number 1 in the center of the Black Dragon Mountain.

Of the sixty-nine thousand points that he had exchanged for the Dao tool, he only had sixty thousand left. Of the nine thousand points, he had completely exchanged them for the "Golden Crow Purple Heart Pill".

One for 300 points, a total of 30.

The efficacy of this pill was much worse than that of the "Dew Congealing Pill". Under normal circumstances, the "Dew Congealing Pill" could increase one hundred or so Dao Crystals, even for an Earth Elemental Heaven Saint Master. The "Golden Crow Purple Heart Pill" could increase one hundred Dao Crystals, but that was only for a Mysterious Elite.

However, this pill was more favored by Tang Huan than the "Dew Dew Dew Dew Pill".

After consuming one pill, if he ingested the second, the medicinal effect would be greatly reduced, and if he ingested the "Golden Crow Purple Heart Pill" again, the effect would drop to an extremely small extent.

"Such a small pill is worth three hundred thousand Heaven beads."

In the first courtyard, in the bedroom, Tang Huan looked at the pill in his hand and sighed in his heart. This was the "Golden Crow Purple Heart Pill". It was about the size of a peanut, round and jade-like, with a glistening, urgent luster on its surface. At the center of the pill was a thick purple color.

One could tell how expensive training resources were just from the fact that the "Golden Crow Violet Heart Pill" was.

In order to purchase thirty of these pellets in one go, Tang Huan had traded forty-six pieces of low-grade perfect tools for a large amount of points. However, among the other Black Dragon disciples in the Emperor Dragon's Heavenly Palace, there probably weren't many who were willing to spend such expensive credits in exchange for pellets.

Of course, even if they were willing, they wouldn't be able to take out so many points.

The reason why Tang Huan wanted to exchange so many "Golden Crow Purple Heart Pellets" was because he wanted to use this opportunity to charge into the Extreme Earth Realm. Although he had obtained the reward of entering "Soaring Sky Violet Palace" to cultivate for seven days, it would still be best if he could use this reward at a more critical time, such as when he was trying to break through to the Sky Sovereign Realm.

It would be a pity to use it now.

In a blink of an eye, Tang Huan had already summoned his "Nine Yang Divine Furnace" and threw all thirty "Golden Crow Purple Heart Pellets" in one go, before returning the cauldron back to the Dantian.

"30 pills should be enough."

Tang Huan took a light breath and calmed his mind, then selected a "Golden Crow Purple Heart Pill" and began to refine it. The Dao Crystals condensed and took shape one by one, and the total number of Dao Crystals in the Dantian Dao Infant also continued to increase. Nine hundred and ten ... Nine hundred and twenty ...

...

"Perfect quality? What kind of joke is this? "

Xue Yu of the Sky Sect, Zong Artifact Mountain couldn't help but let out a cry. His eyes seemed as if they were about to pop out of their sockets.

The previous genius had asked the people of the Jade Imperial City to verify the authenticity of the news regarding Tang Huan, but now the news he received said that the 60 low grade Dao tools forged by Tang Huan were not of the highest quality, but rather the perfect quality. Was he trying to fool him?

It was rare for even a perfect Dao-artifact to appear, but the imperial clan had managed to consecutively forge sixty?

That Tang Huan is only an Inferior Grade Heaven Crafting, not a Holy-ranked Heaven Crafting!

"Ridiculous! "This is ridiculous..."

The news of Tang Huan forging sixty top-grade Dao artifacts was something he completely believed in. However, how could he believe a piece of news like the fact that a low-grade heaven's work forging sixty perfect Dao artifacts was completely impossible?

Not to mention that Xue Yu didn't believe it, even he, who had already heard of the news, didn't believe it at all. Only after hesitating for a good while did he come here, and he was already mentally prepared to be scolded by Xue Yu until he was covered in dog's blood.

"Eh, that's not right!"

But just when the young man was waiting for the angry shout to descend, he suddenly noticed that something wasn't quite right with Xue Yu's tone. He raised his head to look over, and he saw that Xue Yu seemed to have thought of something, the rage on his face had already vanished, and what replaced it was dense shock and disbelief. It must be him! "

"A Perfect Dao Tool ... "A perfect Dao Artifact ..."

"The Weapon Refiner in You Yun City who forged the perfect Dao Artifact must be him! Hateful! This old man actually watched as he was snatched away by that bastard from the Emperor Dragon's Heavenly Palace! " Xue Yu was suddenly filled with grief. He gritted his teeth and suddenly regretted Mo Di.

"..."

The young man's head was filled with fog, and he had a stupefied expression.

... ..

"It truly is a perfect Dao artifact."

Within a mansion, the artifact spirit, Tian Que, Du Xinghe laid down the long spear in his hands and couldn't help but exclaim out loud, "From this tool, you can tell that Tang Huan, that punk, has already reached a superb control over fire power, to the point where it's wonderful to the extreme. His grasp of timing is also extremely precise, and even if it's a high-grade heaven's work for forging Dao Artifacts, I'm afraid it's not going to reach Tang Huan's level."

"After trying to figure out this Dao Artifact for ten days, I even feel like my Tools Method Attainments has improved quite a bit. Next time I forge a middle graded Dao Artifact, maybe I'll be able to produce a high grade one." Liu Tiangang waved the black staff in his hand. His eyes were filled with surprise and excitement.

"To Weapon Refiner who have ambitions to level up their Tools Method Attainments, this perfect Dao Artifact is considered a treasure. Let alone one million and five hundred thousand Heaven beads, even if it was three million Heaven beads, they would still be able to sell it." He Qingzhu sighed with emotion, "Que Master, I suggest that you gather all of the low-grade heavenly resources from Heavenly Imperial City and send these three perfect tools out. Let them carefully observe them for a while, they will definitely benefit greatly from this."

"This old man also has the same intention!"

Du Xinghe nodded without hesitation. However, before he could finish his words, a young man hurriedly entered, "Greetings, domain lord Que. Greetings, Elders!"

"Cheng Gang, what's the matter?" Liu Tiangang was slightly surprised.

"Reporting to Que Master and the two elders, the Qian Yuan Heavenly Sect and Limitless Temple have both sent over news, saying that they want to organize a 'Heavenly Arts Competition' in a month's time, and the location is still in the center area of the Flowing Flower Region, the Sky Cloud City. Invited by the three great sects to the other sects in the domain realm. As long as it's an Inferior heaven's work, anyone can participate. The rewards for the gathering will also be provided by our three great sects. "

The young man named Cheng Gang quickly said.

Du Xinghe, Liu Tiangang, and He Qingzhu looked at each other in dismay. Then, they seemed to have understood something and burst into laughter at the same time.

It took a while for the three of them to stop laughing.

Liu Tiangang let out a light breath, "This time, the Qian Yuan Heavenly Sect and Limitless Temple are definitely here for Tang Huan! I think they also don't really believe that Tang Huan could forge a perfect low rank Dao Artifact. "

He Qingzhu said in a deep voice, "The Tools Method Attainments that Tang Huan has revealed is indeed too inconceivable, no wonder they wanted to investigate it."

"Since they've thought of such an idea with so much effort, we'll just satisfy them."

Du Xinghe waved his hand and snorted coldly, "The messenger who replied to the messages from Heaven Sect and Everlasting Temple, tell him that our Emperor Dragon Heaven Palace has agreed!"

"Yes sir!" Cheng Gang replied and left.

"..."

Chapter 1458 - Artifact Heart Hall

"These 101s have finally formed."

Black Dragon Mountain, first courtyard. Tang Huan let out a long sigh, as if a heavy burden had been lifted.

Regardless of whether it was assaulting the Yellow Level or the Profound Extreme Realm, Tang Huan had never experienced such a feeling. The reason for this was due to the transformation of his Nascent Soul.

From nine hundred Dao-Crystals to a thousand, he had only used three of the 'Golden Crow Violet Heart Pills'.

However, Tang Huan had continuously refined twenty-five of the "Golden Crow Purple Heart Pellets" when he condensed his 101th key dao crystal.

Right now, he only had two pills left in the Dantian Furnace, but even though he had used up a lot of them, he still managed to achieve a breakthrough in the end.

"Extreme Earth Skeleton!"

A smile surfaced on Tang Huan's face. That kind of feeling of having one's strength rise was really addicting, "I wonder how I feel when compared to other Earth Elite warriors?"

Tang Huan reckoned that he would be able to kill an ordinary Earth Elite.

However, without personally experiencing the situation with the Heaven Realm warriors at the peak of the Earth Realm, Tang Huan did not dare to be certain. After all, the Heaven Realm warriors at the peak of the Earth Realm had almost two thousand Dao Crystals, which was about twice what Tang Huan had right now. Of course, even if he didn't win, it wouldn't be difficult for him to stay alive.

In an instant, Tang Huan's mind had already calmed down, and was prepared to refine the remaining two pellets.

Before he started to charge into the Extreme Earth Realm, Tang Huan had asked Lei Jia Yuan to remind him that there was no activity outside the courtyard during this period of time. Presumably, it was less than half a month, and he could use the two "Golden Crow Violet Heart Pellets" to strengthen his cultivation.

"Brother Tang!" "Brother Tang..."

But before Tang Huan even closed his eyes, shouts came from outside the hall ...

... ..

The Heart Palace was only one of the small halls within the Inner Palace that wasn't too eye-catching, but it was definitely one of the most important places within the Heavenly Imperial Palace.

Ever since the creation of the Emperor Dragon's Heavenly Mansion, heaven's work of high-grade and above had always left a legacy in this Artifact Palace. After so many years, the total number of inheritances in the Artifact Heart Hall was close to a thousand. Among them, the most eye-catching one was said to be the legacy of a saint rank heaven-made treasure.

It was a pity that after that saint artifact had been created, countless descendents of the Weapon Refiner s of the Emperor Dragon's Heavenly Palace had tried to obtain it, but none of them had succeeded.

Even so, every five years when the Heart Palace opened, many of the workers still tried their luck.

After all, everyone had three chances. Even if they failed to obtain the saint rank inheritance, they could still try to obtain other high-rank inheritances or the Heaven rank inheritance.

When Tang Huan arrived outside the Inner Heart Palace, there were already many figures gathered in front of the seemingly ancient hall.

Que Master Du Xinghe, Liu Tiangang, He Qingzhu, the three middle-ranked Heaven Arts, Lu Zhitao, and the sixty-four low-ranked Heaven Arts, as well as hundreds of Heavenly Blacksmith s. Basically, all the Weapon Refiner s of "Heavenly Sword of the Artifact" were gathered here.

Seeing Tang Huan's appearance, the crowd immediately went into an uproar, and everyone's expression became rich.

Du Xinghe, Liu Tiangang, and He Qingzhu only smiled and nodded towards Tang Huan. Their gazes once again looked towards the door of the Artifact Heart Hall and did not say much.

Every time he saw Tang Huan, he would involuntarily think back to that day when he was humiliated on the stage. Afterwards, he felt that everyone around him seemed to be looking at him, as if they were constantly ridiculing him for being a clown who did not know his place.

What made Lu Zhitao even angrier was that Tang Huan seemed to have become an Earth Elite.

He was now a Heavenly Scholar and Tang Huan had only been for a few short months, yet he had already broken through to the Extreme Earth Realm from the Seven Transformations of Heaven, while his brother Lu Zhiyuan who had joined the Heavenly Palace with Tang Huan had just become a Heavenly Scholar Huang Ji a few days ago.

Such a strong contrast made him feel extremely unhappy. The other low-rank Heaven Craft's expression was also very gloomy.

Tang Huan did not even join the "Heavenly Sword of the Artifact", and the more outstanding his performance was, the more he demonstrated their incompetence. If they had a choice, none of them would agree for Tang Huan to come to the Artifact Heart Hall to obtain the Tools Method inheritance. Since he was not willing to join the "Heavenly Imperial Equipment Spirit Palace", they should stay outside.

However, Tang Huan had appeared because he had received Du Xinghe's invitation, so they could only helplessly accept this result. It was just that when they looked at Tang Huan, their expressions were faintly filled with strong rejection. On the other hand, the Heavenly Blacksmiths all welcomed him with smiles on their faces. However, when the lower tier Heaven Arts in their respective residences glanced over in the blink of an eye, they all restrained their smiles at the same time.

Regarding this, Tang Huan also laughed. When Du Xinghe and the others looked at him, he slightly bowed towards them and stood at the back of the crowd.

"Buzz!"

After a long while, a low and deep sound broke the silence.

The Artifact Heart Hall started to slightly fluctuate. From afar, it seemed as if a faint ripple had appeared on the surface of the hall. When everyone saw this, their faces revealed a joyous expression. In the next moment, the ripple quickly rushed towards the hall's entrance. In the blink of an eye, the originally tightly shut door disappeared, and what replaced it was a rippling void that faintly emitted a mysterious aura.

"Everyone, go in!"

Du Xinghe nodded with a smile. With a slight movement of his feet, his body disappeared into the void, closely followed by Liu Tiangang and He Qingzhu. With the disappearance of the three middle-grade heavenly resources, Lu Zhitao and the others started to enter in a line. Tang Huan was not in a rush, he waited for them to all enter before moving forward.

Moments later, only a few hundred envious Heavenly Blacksmith remained in front of the Artifact Heart Hall.

Even Saint-rank Heavenly Blacksmiths had no right to enter this Artifact Heart Palace. It wasn't that the head of the Dojo of Limits didn't allow it, but rather, even if they did, they wouldn't have the slightest chance at obtaining the inheritance of the Tools Method.

Inside the palace, was a vast expanse of white space.

The statues floated in the air, their bodies overflowing with light and vibrant colors. They looked very lifelike, just like real people.

Nearly a thousand statues displayed a pyramid-like arrangement. At the bottom level, there were hundreds of statues, and on the middle level, there were dozens of statues. At the top, there was only a single white statue that towered over everyone like a monarch looking down at a monarch.

When Tang Huan's figure appeared, they noticed that the gazes of Lu ZhiTao and the others were all focused on the statue on the top floor, their eyes were filled with undisguised fanaticism. Even Du Xinghe, Liu Tiangang, and He Qingzhu's eyes were burning with passion when they looked at the statue.

"Saint rank Heaven Craftsman Ji Qingtian."

These words subconsciously flashed in Tang Huan's mind.

Although he had never been to Heart Palace before, he could deduce from the situation before his eyes that the lowest level statue contained the inheritance of the high-grade heaven's work Tools Method, and the middle level statue contained the inheritance of the heaven's great work Tools Method. The highest level statue was naturally the inheritance of the saint rank heaven's work.

In the countless years of history of the Emperor Dragon's Heavenly Palace, there had only ever been one saint rank expert, Ji Qingtian.

Chapter 1459 - Green Sky Grandmaster

That Ji Qingtian was an expert of the Emperor Dragon's Heavenly Palace tens of thousands of years ago. He was also the Heavenly Palace's Lord Prefect then.

It was said that after Ji Qingtian had advanced to the saint rank, he had left the Crimson Radiance Sect and gone up the nine heavens. There had been no further news of him since then. It was unknown whether he was dead or alive.

It wasn't just Ji Qingtian who felt this way. The vast majority of the heavenly resources left behind in Weapon Heart Hall all ended up in the middle of the eighteenth or ninth day.

The other experts of the Heavenly Court were the same as well.

The situation in the Emperor Dragon's Heavenly Mansion was not a small miniature of the Crimson Light Heavens, or even the thirty-six days following that.

After reaching a certain level of cultivation, one would head for the eighteenth or even the ninth day. Chasing down on the supreme realm, as well as the immortal secret, seemed to be an inevitable path. If they stayed, even if nothing happened to them, they would eventually meet their end.

Only by entering the nine heavens and reaching the Divine Throne could one truly attain eternal life.

"Divine status?"

These two words flashed through his mind, Tang Huan's eyes moved slightly.

If his guess was not wrong, the Divine Cast Dragon Abyss that came with him from the Forging God Great World should be an eternal expert that had attained the Divine Throne. His partner, Nine-colored, might also be the same.

"Everyone, that is the Tools Method inheritance of the Green Sky Ancestral Master." Du Xinghe looked up with a face full of nostalgia, "Ancestral Master Qingtian is the most powerful saint rank work in the history of our Royal Dragon Heavenly Palace. Everyone, don't underestimate the four words, 'saint rank heavenly work'. Back then, thirty-six days had passed, and the only Saint rank cultivator left was Ancestral Founder Qing Tian. "Even in the nine heavens, Sacred Tier Heavenly Crafts are as rare as phoenix feathers and qilin horns ..."

"If one could obtain the inheritance of the Green Sky Grandmaster, one can imagine how great of an honor it would be!"

Du Xinghe withdrew his gaze and looked to the crowd, "If any of you are interested, you can go up and give it a try. However, every time he entered the Heart Palace, he would only have three attempts. If he failed three times, he would be sent out. If you want to enter again, you'll have to wait five years. "

"Everyone, before attempting it, please prepare yourselves."

"Now, who wants to go first?"

"Owner Que, I'll go first!"

A low voice suddenly sounded out, it was Lu Zhitao who had clenched his teeth, and rushed up to the sky, after a breath of time, he appeared tens of meters in the air, standing in front of the Green Sky Sect Ancestor's statue. He took a deep breath, and then placed his palm on top of the statue's right palm, releasing a captivating red flame from his palm, which then quickly spread across the surface of the statue like water, with a flick of his fingers, the entire statue was engulfed in flames.

In this Heart Palace, to obtain the inheritance of the Tools Method of the senior, it was extremely difficult, and also very easy to say.

Every statue here contained a soul imprint that senior Tian Gong had thoroughly separated from his soul. The inheritance of Tools Method was within that soul imprint. Activating the Dao flame would allow it to enter the statue. If it was able to cause a resonance with the soul seal, it would immediately be able to obtain the inheritance of that senior, Tian Gong.

If he couldn't trigger a resonance with the soul imprint, it would cause the statue to reject him.

After a moment, a loud sound came out from the statue, following that, an invisible powerful force spread out, ripping apart the layer of flames on the surface of the statue, and Lu Zhitao was pushed back more than 10 meters, only then was he able to stabilize his body.

Feeling vexed, Lu Zhitao smacked the back of his head. Only then did he slowly sink down, landing between those Heaven rank statues with a dejected expression.

"We failed!"

At the bottom of the dimension, many low-grade Heavencraft were shaking their heads and sighing.

However, this was also within everyone's expectations. No one had succeeded in obtaining the Tools Method passed down by the Green Sky Ancestral Master for tens of thousands of years, so it was not surprising that Lu Zhitao's attempt had ended in failure. This time, it would definitely be the same as before. All attempts to obtain the Tools Method legacy would fail.

Even so, everyone was eager to give it a try.

"I'll give it a try too!"

"I'll do it!"

"..."

Figures soared into the sky one after another as they activated their flames. They were then repelled and forced back by the Green Sky Ancestral Master's statue.

Not too long after, of the sixty-four low-rank Heaven Craftsmen, fifty of them had already tried. The other fourteen chose to give up, wandering among the hundreds of high-rank Heaven Craftsmen statues, or aiming at the tens of Heaven rank Heaven craftsmen statues.

As for Du Xinghe, Liu Tiangang, and He Qingzhu, they remained at the bottom of space and had not moved. They had long since obtained inheritances from the Artifact Heart Hall, and they had even come into contact with the statues of the Green Sky Ancestral Master and the Heaven rank Heaven rank elders. Naturally, there was no need for them to try again.

"Buzz!"

A trembling sound suddenly rang out, immediately attracting everyone's attention. In the middle of the air, within the dozens of heavenly grade sculptures, an incomparably resplendent red light burst out, enveloping a figure standing in front of them.

Immediately afterwards, a walnut-sized, extremely condensed red aura rose from the sculpture's head, and with a speed visible to the naked eye, it struck the person between the brows.

"Senior brother Lu?"

"Lu Tian Gong!"

"..."

In this space, there were exclamations of surprise in an instant. The person covered in red light in the sky was surprisingly Lu Zhitao.

After a short moment, the red light vanished, which meant that the statue had calmed down. Lu Zhitao quietly stood there for a moment, then realized what was going on, and started dancing. The legacy of Senior Xia Zhi's Tools Method of Heaven rank Heaven rank! "I've succeeded..."

A heaven-rank inheritance!

A look of envy appeared in the eyes of the crowd.

In the Heart Palace, the best place was naturally Ancestral Master Qingtian's Tools Method inheritance. However, for almost everyone, the inheritance was just out of their reach. In such a situation, to be able to obtain the inheritance of a Heaven rank Heaven rank Heaven rank cultivation technique became the greatest hope of the crowd.

However, the vast majority of the people would constantly bump into the statues in the middle of the space and would only be able to obtain high-grade Heavencraft's inheritance in the end.

Out of a hundred people, there were only one or two who were able to obtain the inheritance.

For example, today in Que these sixty-four low-rank heaven craftsmen, other than Lu Zhitao, there was not a single one that had a heaven rank heaven rank heaven rank heaven rank inheritance.

Lu Zhitao's success had provoked quite a few people.

A lot of the lower tier Heaven Craft that were originally wandering around the bottom had moved to the middle tier of this space, while Lu ZhiTao landed on the ground complacently.

When two pairs of eyes glanced at Tang Huan, his eyes actually revealed undisguised provocation. The long accumulated depression in the bottom of his heart had been completely swept away with the success of obtaining the Tools Method inheritance. He even had a feeling of exaltation, both inside and outside, making him feel much more carefree.

"Kid, go and give it a try?"

Du Xinghe smiled as he looked at Tang Huan. He raised his hand and pointed to the sculpture of the Green Sky Ancestral Master floating at the highest point, a look of anticipation in his eyes.

Chapter 1460 - Water and Fire Dual Attribute Dao Flames

There were so many lower tier Heaven Arts, only Tang Huan had yet to make his move.

"Alright, then I'll give it a try!"

Hearing that, Tang Huan also laughed.

The other low rank Heaven Arts were all eager to get stronger inheritances, but Tang Huan didn't have such a obsession. The main reason he entered the Heart Palace and obtained the inheritance of the Tools Method was to conceal himself. With an inheritance, if one were to perform outstandingly, they would only be viewed as an extraordinary talent.

As a result, for Tang Huan, just the high-grade Heaven Arts inheritance was enough.

Of course, it would be even better if he could obtain the inheritance of the Heaven grade, or even the inheritance of the Heaven grade, Tools Method. At that time, it wouldn't matter if his performance was even more eye-catching.

"Little fellow, this old man believes in you. You will definitely succeed!"

Du Xinghe said with incomparable anticipation, while Liu Tiangang and He Qingzhu's faces were also filled with anticipation. In their eyes, Tang Huan was definitely the Weapon Refiner who had the most hope of succeeding after Ancestor Qing Tian, because in the last tens of thousands of years, no one had ever possessed such a shocking talent like Tang Huan.

If Tang Huan even touched a wall near the Green Sky Ancestral Master's statue, perhaps no one would be able to succeed anymore. At least, the few of them probably wouldn't be able to see that.

"Thank you, Owner Que."

Tang Huan gave a slight smile before rising into the air and finally stopped in front of the statue of Ji Qingtian, who was at the highest point of the mountain. As he moved, he immediately attracted

the attention of several tens of the lower tier Heaven Arts, each one of them landing their gazes on Tang Huan who was in the air.

"Heh, how could the inheritance of Patriarch Green Sky's Tools Method be so easily obtained?"

"Wait and see, Tang Huan will definitely lose!"

"Amongst all of the low-grade heavenly resources in the Emperor Dragon's Heavenly Palace, Tang Huan is indeed the one with the most hope, but he only has hope, and does not say that he will definitely succeed."

"..."

Soft murmurs could be heard from time to time.

Everyone had different expressions, but no matter what kind of expression was on their faces, none of them hoped that Tang Huan would succeed.

"Silence!"

Sensing the activity around him, Du Xinghe frowned slightly and shouted in a low tone.

As long as he did not cause too much trouble, he would not interfere. But at this time, he did not wish for anyone else to interfere with Tang Huan's plans. If Tang Huan succeeded, and if no accidents happened, the Heavenly Palace would definitely produce another Green Sky Ancestral Master.

Everyone's expression turned cold. Although they disapproved, they all quieted down.

High up in the sky, Tang Huan's expression was calm, but a hint of surprise surfaced in the bottom of his heart. He could feel a soul imprint emitting from the statue of the Green Sky Grandmaster. The aura contained the meaning of Dao fire, but the Dao fire of the Green Sky Grandmaster was very special.

If Tang Huan's judgement was not wrong, that strand of fire should have been made from the agility of the water and fire attribute.

In Heaven Realm, there were also Spiritual Fire s, and their numbers far surpassed that of the lower realms. Before transcending the tribulation, the proportion of in the Heaven Realm who had fused with the Spiritual Fire far surpassed the lower realms. However, Weapon Refiner who had fused with two types of Spiritual Fire, water and fire, were as rare as the lower realms.

Until today, Tang Huan had only heard of Ancestral Master Qing Tian among those who had fused with dual attribute Spiritual Fire s and above.

There were very few Weapon Refiner who possessed dual attribute Spiritual Fire s and above, and had levelled up to Heavenly Arts, while there were even less who had fire and water attributes as well. In the past tens of thousands of years, it was likely that none of them had appeared in the Emperor Dragon's Heavenly Palace.

In order to obtain the Tools Method inheritance of the Artifact Heart Palace, the first requirement was the compatibility of the dao with fire.

If it did not even match the fire attribute, then there was no point in talking about obtaining the Tools Method inheritance. However, with the fusion of fire and dao, the success rate would reach at

least fifty percent. If it was under any other circumstances, the Weapon Refiner would be able to obtain the approval of the soul imprint and obtaining the Tools Method inheritance would be extremely easy.

There had never been an appearance of a genius who possessed a dual attribute water and fire dao flame within the imperial palace, so it was naturally impossible for him to obtain the Tools Method inheritance of the Green Sky Ancestral Master.

Thinking about it, Tang Huan couldn't help but smile.

Following that, Tang Huan reached out his right arm and grabbed the slightly extended right palm of the Green Sky Ancestral Master statue. The blue colored flame that was transformed from the "Primal Chaos Flame" immediately soared from his palm and quickly spread. In an instant, it covered the entire statue, and then, like a thread, it seeped in and approached the soul imprint.

The eyes of the crowd of low-grade Heavencraft martial practitioners burned with concentration. Du Xinghe and the others were also staring at the sculpture with unblinking eyes. They were actually a little nervous.

However, the reason for their nervousness was the complete opposite.

Those lower tier Tian Gong were afraid that Tang Huan would really succeed, while Du Xinghe and the other two were worried that Tang Huan's attempt would also end in failure.

A loud bang suddenly sounded out from within the sculpture.

Upon catching sight of this familiar voice, Du Xinghe, Liu Tiangang, and He Qingzhu couldn't help but sigh helplessly.

On the other hand, Lu Zhitao was the same. The sneer on his lips was so dense that it seemed like it was going to spill out, so what if his talent was outstanding, obtaining the Tools Method Endowment wasn't just a matter of talent.

However, after a moment, the sneers on their faces froze.

High up in the sky, an incomparably intense power of expulsion had yet to burst out from the Green Sky Ancestral Master's sculpture. A dense fiery red intent emerged from Tang Huan's palm, and the flames that shot out turned from blue to red, then extended outwards with a speed that was difficult to be seen with the naked eye.

In the next moment, the Green Sky Sect Ancestor's statue was covered in flames. The repulsive force that was about to burst out from the statue seemed to have disappeared.

When they saw that strange scene, all of them were stupefied. Even Du Xinghe and the others were no exception.

"This is a fire type Dao Fire!" "Haha, Dao fire of the fire attribute ..."

After a short moment of shock, Du Xinghe had finally regained his senses and he couldn't help but cry out loudly. His face was flushed red from excitement, "This little guy ... Haha... This little fellow actually possesses a dual attribute dao flame ... "It's done, it's done, it's done, we'll definitely succeed this time!"

"I really did not expect this!" He Qingzhu murmured, her eyes wide open and her mind greatly shaken.

"What Ancestral Master Qing Tian possesses is a dual attribute water and fire dao flame. Tang Huan is completely compatible with his elder's dao fire ..." An excited red glow appeared on Liu Tiangang's face. Although he wasn't incoherent like Du Xinghe, he still waved his arms around like a child.

It was no wonder the three of them lost control of themselves. The dao flame Tang Huan revealed was simply too shocking.

Royal Dragon Heavenly Palace was established countless of years ago and only Ancestral Master Qing Tian was in possession of water and fire dual-attribute dao flames. Now, there was another Tang Huan.
