

W. Master 1631

Chapter 1631 - Castle

The scroll drilled into the tulip shaped flower root like a snake, twisting left and right for at least a few hundred kilometers before finally coming to a stop.

Not long after, a strong gust of wind blew and the rolling sand and rocks completely covered the hole at the root of the flower.

Within the dwelling by the side of the Supreme Profound Lake, Tang Huan and Jiu Ling saw She Yuji and the Kui Cow once again. At this time, Tang Huan no longer activated the "Death Spirit Puppet", and returned to its original state. Furthermore, she no longer restrained the powerful Immortal Spirit Insight that was being emitted from Tang Huan's body.

"This is the real. "Human?"

She Yuji's gentle eyes that were as beautiful as water turned as she looked around curiously at Tang Huan.

Since she was born, she had cultivated in the "Nether Death Realm" and had never been to the "Domain Field" before. She had also never snuck into the "Nether Life Domain" before, so naturally she had never seen a true human cultivator before.

She did not care about Tang Huan's appearance, but she did feel that the immortal spirit aura around Tang Huan's body made her feel that it was incomparably strange.

The Kui Cow also widened its eyes as it said with some admiration, "To be able to disguise as a necromancer and not be discovered by the elders, he is indeed the big brother of the Nine Spirits!"

"I only used a small trick."

Tang Huan smiled and said, "Kui Cow, we have met with some trouble now and will probably need to hide for a period of time. So, can I guarantee now that I can bring you into the true Heaven Realm?" If he did not obtain the things that Nine-coloured Senior left for the nine spirits, Tang Huan would naturally not make any promises.

"I understand, big brother."

The Kui Cow nodded.

"Kui Cow, don't call me big brother. You are the fourth prince of the Eastern Emperor Region. I only have eighty-nine princes, and my ranking is much lower than yours." Tang Huan could not help but smile.

"You are Jiu Ling's big brother, so you are naturally my big brother as well." Hearing his words, Nine Spirits smiled and nodded his head in satisfaction.

"..."

Tang Huan was speechless, but she laughed helplessly: "Alright, then it's up to you. Also, my real name is' Tang Huan '."

Although his ranking, cultivation, and strength among the princes of the Eastern Emperor Region were far inferior to that of the Kui Cow, Tang Huan did not feel that he was inferior by a single

level. With Tang Huan's cultivation speed, it was only a matter of time before he would surpass the Kui Cow. Since he insisted on calling her that, Tang Huan would let him go.

"Big brother Tang Huan!"

The Kui Cow grinned and bowed.

But in an instant, the Kui Cow was stunned and in the blink of an eye, it stared blankly at She Yuji who was beside it. Tang Huan and Jiu Ling's gazes also landed on her.

Just now, when the Kui Cow was speaking, a coquettish voice sounded out at the same time. Furthermore, the words that came out of its mouth were the four words "Big Brother Tang Huan".

She Yuji looked at Tang Huan with her beautiful eyes, and she who had always been cheerful and straightforward, was actually a little shy: "Big Brother Tang Huan, I also have a presumptuous request, I hope you can agree to it."

"You want to leave the Nether Realm as well?" Tang Huan suddenly laughed.

"Yes."

She Yuji nodded her head and hurriedly added, "Big Brother Tang Huan, I know that my request is a bit too demanding. I only hope that when you leave, you can bring one more person with you and not abandon me." She Yuji's beautiful eyes sparkled, giving off a pitiful feeling.

"Alright, I agree."

After pondering for a moment, Tang Huan nodded his head and smiled, "However, I cannot give you my guarantee right now."

She Yuji's talent and potential were both very strong. If she brought her out of the Nether Realm, she might be able to become a good helper like the Kui Cow in the future. However, whether or not he could bring her along at that time, it was still hard to say. If he could not bring along so much, Tang Huan could only apologize.

"I know, thank you Big Brother Tang Huan." She Yuji was overjoyed.

"..."

... ..

Above the vast wilderness, tens of thousands of feet high mountains rose from the ground, forming an enormous mountain range that took up thousands of miles of land.

Starting from the edge of the mountain range, the green color appeared more and more frequently.

At the top of the plant, there was a tinge of green, speckled by the stars. Then the green spread to the whole flower, the whole leaf, or the entire stem, and then the green appeared in large patches. When they reached the deepest part of the mountain range, the forest was lush and verdant.

In this place, the cycle of life force and death aura seemed to form an incomparably harmonious and perfect whole.

In the center of the mountain range was an extremely large castle, which had a radius of at least ten miles. The castle had existed for quite a long time. The mottled and ancient surface had also become

covered with green clothes. Countless weeds, vines and shrubs had adorned the surface of the castle.

"Phew!" "Huff ..."

On the east side of the castle, outside of the huge archway entrance, a few black shadows almost appeared out of thin air.

The auras that faintly seeped out from their bodies were extremely tyrannical. They were all undead spirit experts, and two of them were actually Eastern Emperor Region's Elder, Wo Yu, and Western Emperor Region's Elder, Bi Xuan.

"According to my calculations, it should have been long time ago. However, so many days have passed since I last saw him. Could it be that something unexpected happened on the way back?" A voice suddenly sounded out. The one who spoke was an extremely skinny Undead Spirit Master, and there was a trace of doubt between his brows, "Elder Woyu, are you sure she's the Netherworld Nine Spirit Bird?"

"Absolutely."

"Yes." Wo Yu nodded his head resolutely. "Elder Bi Xuan, you'd better confirm again. Have the nine spirits really left Bo Wang City?"

"The news is absolutely correct."

Bi Xuan said in a deep voice, "After all the Nether Beasts in the Bo Wang City were annihilated, the princes of the various imperial domains were tallied. Amongst the thirty princes of the Eastern Emperor Region, there were six missing Nine Spirits, Nether Wing, Kui Cow, She Yuji, and more. You Yi, She Yuji and the others might have already died, but the Kui Cow and Nine Spirits definitely would not have died there. Since they are not dead, they cannot possibly go missing for no reason. If the Nine Spirits really are the 'Netherworld Nine Spirit Birds', then they must be coming this way. "

The thin undead frowned and said, "We haven't seen any trace of them, could they have discovered something and aren't moving forward?"

"Impossible!"

Wu Yu shook his head without hesitation, "Ever since the appearance of the Nine Spirits, from becoming the prince of our Eastern Emperor Region, to coming to the Western Twilight City using the opportunity of the Four Great Alliance and using the excuse of defection as an excuse ... For a very long time, this old man and the others have not revealed any flaws. "

"That's strange. Could it be that they encountered danger on the way?"

Bi Xuan pondered in confusion. "We can't just wait here forever. From my point of view, we can send people to search northwards from Bo Wang City to see if there's anything abnormal on the way there. Then, we can go around to ask around and ask if anyone has seen them."

"This is all we can do for now." The faces of Wu Yu and the others turned gloomy.

" ... "

Chapter 1632 - Body Fusion dao diagram

Within the estate. Within Supreme Mystery Temple.

Tang Huan sat cross-legged, his entire body already exposed, the skin on his body had a crystal golden luster, a powerful immortal aura continuously overflowed from his body.

This Immortal Spirit Insight kept on condensing and imprinting itself onto Tang Huan's body.

However, it didn't take long for those patterns to disappear, but after a while, new patterns started to condense on the surface of his body.

As time passed, the rate at which the patterns dissipated became slower and slower.

"The Dao Diagram has dissipated this time. Next time, I'll definitely succeed!"

After an unknown period of time, Tang Huan slowly opened his eyes. She shook her head and sighed with some regret.

Just now, the patterns on the surface of his body that had persisted for an entire month had disappeared once again. However, not only did the dissipation not cause Tang Huan to become discouraged, it instead gave him even more information. Next time, Tang Huan was confident that he would be able to make the picture stay on his body and not disappear.

Tang Huan had been trying repeatedly recently because she wanted the "Yin Yang dao diagram" to be completely one with him.

If he could succeed, the third stage of the [Yin and Yang Void Method] technique, would become even more powerful for Tang Huan. At that time, the first two divine abilities, "Heavenly Invisibility" and "Void Escape", would be able to be unleashed at an even faster speed and would be able to be controlled even more smoothly.

Of course, the most important thing was the changes to the third ability, the Yin Yang dao diagram.

The upper realm was not inferior to the lower realm. Given Tang Huan's current condition, if she were to encounter a truly powerful individual, the time it would take him to execute the "yin yang dao diagram" was enough to kill him several times over. But once Tang Huan succeeded in her current attempt, she would completely change the situation that was extremely disadvantageous for Tang Huan.

Because with just a thought, Tang Huan could instantly disappear and travel between spaces on his own.

In certain critical moments, this would become a very powerful life-saving measure.

While thinking, Tang Huan calmed her mind and concentrated again. Streak after streak of the pattern slowly condensed and imprinted itself onto the surface of her body. Each of these inscriptions seemed to contain an incomparably mysterious and profound mystery. As time passed, the new Yin Yang dao diagram was finally formed.

At that moment, Tang Huan's entire body was shrouded with a mystical intent.

On his skin that was emitting a golden luster, there were numerous vortexes that had black and white Qi interweaving on them. The black and white swirls seemed to be alive, revolving nonstop. From afar, it seemed to be filled with the tyrannical power of the sucking, as if it could even swallow up the surrounding space.

"It's finally done!"

Tang Huan suddenly opened her eyes and let out a long sigh.

In the next moment, with a thought, countless small black and white whirlpools started to gather on the surface of his body. In less than half a second, a black and white whirlpool with a radius of several meters appeared, as if it wanted to completely engulf Tang Huan. However, after a split second, the gigantic whirlpool disappeared, and those small black and white whirlpools appeared on Tang Huan's body once again.

"It feels good."

Tang Huan laughed with satisfaction. After that, she extended her hand and grabbed, and the black robe that was placed at the side fell into her palm, covering her naked body.

"The 'Yin-Yang dao diagram' has already fused with the body. Now, it's time to raise my level of cultivation and the 'Draconic Tiger Celestial Art'."

Tang Huan thought.

Ever since he entered the cave space this time, Tang Huan had never gone out. According to his estimation, he had probably spent a year trying to fuse the Yin Yang dao diagrams.

To Tang Huan, this amount of time was a little long.

However, to the undead, it was rather short, and to the undead warriors who went into closed-door training for hundreds of years or even longer, it was naturally even more so. Without waiting for the appearance of the nine spirits for a year, the undead warriors guarding the trap would not be careless.

Therefore, Tang Huan had to continue hiding.

Now that he had an even more powerful method of registration, he could take this opportunity to increase his cultivation and strength. During this year, Tang Huan focused all his energy on fusing with the Yin-Yang dao diagram. Although his Tian Yuan became more and more refined, his cultivation did not increase by much.

Therefore, Tang Huan planned to spend about half a year to break through to the fifth level of the Heaven Realm.

After a year, it wouldn't be too late to continue heading north.

In a moment, Tang Huan's mind calmed down.

With only Nine Spirits, Kui Cow, and She Yuji, Tang Huan was not worried at all. They were currently cultivating on the mountain peaks of the Supreme Profound Lake, and their cultivation and strength had both increased by quite a bit.

... ..

"It's been a year and a half!"

"Is that little thing dead or hiding somewhere?"

"Should we wait here?"

"..."

Between the mountains, in front of the castle, the faces of Wo Yu, Bi Xuan, and the other Undead Spirits were filled with gloom.

After the Nether Beast Rebellion had been annihilated, Bi Xuan sent a large number of men to search the area. They went back and forth many times, but they could not find the Kui Cow and the Nine Spirits.

Of course, it wasn't like they didn't get anything.

From some of the undead, they learned that there was a rank 16 undead with a black bird heading towards the north from the south. Looking at the time, when the 16th rank undead appeared, it should be after the princes arrived at Bo Wang City.

According to the judgement of Wo Yu and Bi Xuan, that little black bird should be disguised as a Nine Spirits. As for the Sixteenth Level Death Spirit, it might be one of Nine Spirits' servants, 'Serene Wings'.

This was very different from their initial guess.

They had originally thought that Nine Spirits was together with the Kui Cow, who possessed the cultivation of the twenty-first step. After all, they were extremely close, but they did not expect Nine Spirits to be together with You Yi while the Kui Cow had completely disappeared. This was indeed strange.

According to common sense, it was impossible for the nether beasts from the Borough City to threaten the Kui Cow.

Of course, whether the Kui Cow lived or died didn't matter, as it was just a prince of the twenty-first step. However, Hua Yu and the rest couldn't help but suspect if his disappearance had something to do with the Nine Spirits. Judging from the movements of the Nine Spirits and Ghost Wings, it was very possible that they had arrived at the edge of this mountain range.

However, a year and a half had passed, and neither the nine spirits nor the Underworld Wings had appeared. It was as if they had never appeared at all.

Over this period of time, Wo Yu, Bi Xuan, and the others had speculated more than once that the Kui Cow might have killed the Nine Spirits and Ghost Wings.

Unfortunately, there was no trace of the Kui Cow after so long.

"Wait, wait ..."

"..."

Chapter 1633 - Jianxin Awakening

"It's about time."

Within the cave, inside the Supreme Profound Hall, Tang Huan slowly heaved a sigh of relief. Compared to before, the Dragon and Tiger Elephant around him had almost doubled in size.

Tang Huan was very clear about what this meant.

After refining that "Netherworld Bead", Tang Huan had also refined a large amount of Celestial Spiritual Energy. In the end, she had still stepped into the fifth level of the Sky Realm, and had spent exactly six months.

Following that, Tang Huan continued to cultivate the Dragon Tiger Celestial Art.

Until now, there had been great progress in this immortal technique. Even the "Celestial Body of the Sun" had become much stronger than before. Tang Huan reckoned that with her current level of cultivation and strength, she could easily contend against peak-stage seventh stage human cultivators or peak eighteenth stage undeads.

"After about two years, it's time to go to that place and investigate the situation."

Tang Huan muttered as she stood up and took a few steps towards the exit of the Supreme Profound Hall. Then, she stopped and a look of confusion surfaced between her brows.

Just now, he suddenly felt as if something in the Supreme Mystery Temple had awoken.

"Master!"

A voice directly sounded from the depths of Tang Huan's soul.

"Jianxin... Senior? "

Tang Huan's body trembled, she exclaimed in disbelief, "You're awake?" A long-lost memory suddenly appeared in the depths of her mind. It was the voice of the cave's spirit, Jianxin. Ever since the repair of the "Illusory Sword Heavenly Palace", Tang Huan could feel that his Sword Heart was slowly recovering.

Now, Jianxin had finally awakened from his long slumber.

Seemingly at the instant Tang Huan's words fell, threads of white-colored odor floated out from within Supreme Profound Hall. They quickly gathered in front of Tang Huan, and in not even a single breath of time, a petite, white clothed young lady with a beautiful face appeared.

This white-robed maiden was Jianxin.

"Senior Jianxin!" Tang Huan couldn't help but be excited.

"This servant, Jianxin, greets Master!"

Just like when they first met, Jianxin respectfully bowed to Tang Huan, his face was expressionless, and his voice was cold.

Hearing that, Tang Huan could not help but laugh bitterly: "Jianxin, I will no longer call you 'Senior', and you should also not call yourself a slave, and no longer call me master. Just call me by my name, okay?"

Jianxin had existed for countless years just like this cave abode. The way she called herself and her way of addressing him made him feel very embarrassed.

"Master, etiquette cannot be wasted!"

Jianxin said seriously.

"Jianxin, since you call me Master, shouldn't you listen to Master's orders?"

Tang Huan said somewhat helplessly with a straight face, "From now on, don't call yourself 'servant' anymore, and don't call me 'master' either, call me by my name."

"Alright, Master." Jianxin frowned slightly.

"You ..." Tang Huan was speechless.

The corner of Jianxin's lips curled up imperceptibly, "Master, I have already awakened. Although my strength has yet to reach its peak, if Master is in danger, I can still help a lot. With the toughness of the Illusory Sword Heavenly Palace now, if I were to control it, I can completely block a attack from a ninth level Heavenly Marquis. However, we can only block that level of attack once. If we do it again, I'm afraid the cave will return to how it was before. "

"But of course, if the immortal cave can continue to absorb more energy and continue to grow stronger, I'll be able to withstand even more powerful attacks in the future."

"Alright, I understand."

Although Jianxin no longer called herself a 'servant', her way of addressing Tang Huan had never changed. There was nothing Tang Huan could do, she could only follow her. However, her words made Tang Huan feel quite happy. When Jianxin woke up, it would definitely be of great help to him, and it would make him even more at ease with his following journey north ...

... ..

"Haha, your father has finally broken through!"

At the peak of a mountain in the Great Xuan Lake, the voice of the Nine Spirits suddenly sounded out.

This was already the second time he had broken through. When he entered the "Illusory Sword Heavenly Palace", he was only at the fourteenth step of cultivation, but now, he was at the sixteenth step.

It was not only her cultivation that increased, but She Yuji was the same as well. She had now broken through to the 15th step.

As for the Kui Cow, it had finally broken through its shackles and stepped into the twenty-second stage. However, all of its "Pearl of Styx" and "Nether Soul Heart Crystal" had already been exhausted.

"Congratulations, congratulations."

Seeing Nine Spirits beaming with joy, She Yuji couldn't help but smile, and the Kui Cow couldn't help but grin.

After her happiness had passed, Jiu Ling couldn't help but look in the direction of Supreme Profound Hall with some curiosity. "It's been so long. I wonder how is big brother's current situation?"

"Big Brother, he ... "He's already here."

The Kui Cow suddenly stood up.

After his cultivation had broken through, his aura had become even more restrained and condensed. However, the pressure that emanated from Pang Shuo's body had become many times stronger.

Nine Spirits Concealed sensed it and suddenly opened his eyes wide. In the next instant, a black shadow appeared on the peak.

"Big ..."

It was only then that she realized that not only had Tang Huan appeared at the summit, a beautiful white-clothed young lady had appeared with him. The young lady gave off an extremely strange feeling, as if she was completely condensed and formed from sword intent.

"Nine Spirits, Kui Cow, and Yu Ji. This is the spirit of the cave, Senior Jianxin!"

"..."

... ..

Above the vast wilderness, between a cluster of black leaves, a stem extended high.

At the top of the stem, a fist-sized flower proudly bloomed. The flower was extremely strange. The petals were all pitch-black, but the further they extended, the fainter the black became. In fact, there was a bit of green that gradually seeped into the flower petal.

At the root of the flower, the sand suddenly rose up.

Soon after, a small scroll carefully crawled out like a snake. After circling a few times in the air, a black shadow suddenly appeared.

This man was Tang Huan.

After keeping the scroll in the Dantian, Tang Huan looked around and already determined the direction to go.

In between mind instructs (in a second), the "Divine Art" of the Heavenly Invisibility was already unleashed. After hiding his body, Tang Huan did not hesitate at all and immediately used his ability "Void Evasion". Here, Tang Huan did not dare to use his full strength, and every time he used it, he would deliberately control the distance to travel. In an instant, Tang Huan was already hundreds of miles away.

Within his line of sight, there were numerous peaks, and between the peaks and mountains, there were specks of green.

"This should be the 'Evergreen Mountain Range'!"

A hint of a smile flashed past Tang Huan's eyes.

Immediately after, Tang Huan no longer used the sacred art "Void Escape", and instead, continued to maintain the "Heavenly Invisibility" state as she ran deeper into the mountain. In this kind of situation, Tang Huan could not use Sky Origin Stage, but the power of Tang Huan's "Sun Immortal Body" was incomparably strong, and its speed was similarly extremely fast.

What Tang Huan was going to do now was to go to the "Castle of Life" located deep within the Evergreen Mountain Range!

Chapter 1634 - Holy Spirit Castle

Tang Huan had heard about the situation in the Evergreen Mountain Range from the nine spirits many times.

However, Tang Huan did not know much about the "Holy Spirit Castle". After all, the information that the nine spirits had received was information that had been sealed in her soul. That information

had been passed down from Nine Colors, and when that happened, the Holy Spirit Castle had yet to appear.

After a moment, Tang Huan entered the mountain range.

Sure enough, the further they went, the more green it became. The closer they got to the depths of the Evergreen Mountain, the more life force they could grow from the deathly aura.

In the "Nether Death Realm", only this kind of place can give birth to beings like the Nine Colors and Nine Spirits.

Tang Huan lamented in her heart. If nothing unexpected happened, after the nine spirits are gone, there should still be a "Netherworld Nine Spirits Bird" being born in the depths of the Evergreen Mountain Range. But since the "Holy Spirit Castle" was built there, perhaps the environment would be severely disturbed and damaged, but she did not know if there would still be creatures that would be born there.

Unknowingly, Tang Huan had already traveled more than two thousand kilometers deep into the mountain range.

Tang Huan was only guessing whether it was true or not. After all, for those undead warriors, two years was still not long enough time, and she did not even know whether it would be true or not. After all, two years was not long enough.

Fortunately, the current Tang Huan was no longer the him of two years ago. The increase in cultivation and strength was only one of the factors, and the other was still the awakening of Jianxin.

The existence of the sword heart allowed Tang Huan's Perception Ability to extend into an extremely wide area through the "Illusory Sword Heavenly Palace".

Tang Huan's figure was as fast as lightning. In the time it took a flick of a finger, she had already appeared on top of a lush green mountain peak. With a thought, the "Myriad Sword Heavenly Diagram" appeared, and Tang Huan's figure instantly disappeared from the mountain peak, appearing within the Supreme Profound Palace.

In the ancient palace, Jianxin, Jiu Ling, Kui Cow, and She Yuji were all quietly sitting cross-legged on the ground.

"Big brother, we're almost at the Holy Spirit Castle?" Jiu Ling suddenly opened her eyes, her small body jumping up to Tang Huan's side, as she asked anxiously.

"Only a few hundred miles away." Tang Huan nodded her head, and then looked at Jianxin who had just opened her eyes and said: Jianxin, I'll have to trouble you to follow up.

"Alright!"

Jianxin straightforwardly nodded his head and his body immediately turned into a white-colored odor. In the blink of an eye, he had already merged with the Supreme Profound Hall.

In the next moment, the entire Supreme Mystery Temple and even the ten thousand mountains within the Supreme Mystery Lake began to tremble intensely. An enormous sound instantly spread throughout the entire dwelling space. After the flick of a finger, white sword lights condensed from boundless sword intent rose up from the tens of thousands of mountains, interweaving in the sky.

This was the 'Limitless Limitless Sword Formation'.

Compared to when Tang Huan was activating the array alone before, with the help of Jianxin, the power of the array was at least ten times stronger.

Within Supreme Mystery Temple, the nine spirits looked calm, but the Kui Cow and She Yuji were inexplicably shocked. That terrifying sword intent that filled the skies caused their hearts to tremble uncontrollably. It was fortunate that the sword intent did not target them. Otherwise, they would have suspected that their souls would have been destroyed by the sword intent.

At this time, Tang Huan was already seated cross-legged, her mind was already immersed in the cave, following which the Limitless Sword Formation began to circulate at a very fast speed as it revealed the "Myriad Sword Heavenly Diagram". With an astonishing speed, it extended out to the deepest parts of Evergreen Mountain Range, and in an instant, it had passed through fifty kilometers of space.

Tang Huan could not help but be pleasantly surprised.

Now, with the help of Jianxin and the power of the cave, the range that his mind could sense had completely surpassed his imagination. At that moment, Tang Huan felt like he had a pair of eyes that was suspended high up in the sky, looking forward, wherever his gaze passed, he could see everything.

The most important thing was that with the countless years of existence of the "Illusory Sword Heavenly Palace" as support, even if it was an expert at the level of a Death Spirit Elder, they would not be able to detect Tang Huan's state of mind.

Hundreds of kilometers of space passed in the blink of an eye.

Within Tang Huan's perception, there was already an incomparable amount of vitality. This kind of vitality was something that Tang Huan had never felt before, even within the "Nether Life Domain". However, it had appeared in the deepest parts of the Evergreen Mountain Range. This made Tang Huan understand that they had probably arrived at the "Holy Spirit Castle".

As expected, Tang Huan's mind continued to stretch forward by a small distance.

An incomparably large castle appeared in Tang Huan's mind through her mental perception. Around the castle, the peaks stood high, the vast area surrounded by the mountains had already been completely occupied by the castle. The castle was overgrown with grass and trees, flourishing with business. Around the castle, ancient trees towered into the sky.

"This is the 'Holy Spirit Castle'!"

Tang Huan thought for a while, then used his huge mental power to cover the entire castle, as she carefully checked it out.

After a while, waves of auras, whether strong or weak, had already entered and were caught by Tang Huan. Outside the castle, there were no undead, but inside the castle, there were many undead. From what Tang Huan could sense, there were exactly a thousand undeads in the castle.

Five of the undead had a cultivation base similar to that of the Kui Cow, reaching the twenty-second stage.

There were still two more dead spirits that should have surpassed the Kui Cow, and the rest of the nine hundred and ninety-five were all below the twenty-second step.

"No, there seems to be more than that in the castle."

Tang Huan's heart was moved.

When he had just left the "Illusory Sword Heavenly Palace" and was heading towards the Evergreen Mountain Range, the dangerous alarm he had at the bottom of his heart was still there, but it was not as strong as it was before. Tang Huan thought that the reason the danger had lessened was probably because of Sword Heart. There must still be Undead Spirits in the castle.

In Tang Huan's eyes, although the two undeads that were slightly stronger than the Kui Cow could be considered "strong", it was not enough for him to give birth to such a dangerous premonition.

Inside the castle, there must be even stronger undead spirits, it was just that Tang Huan had not noticed their existence yet.

"Master, look over there."

Jianxin's voice suddenly resounded within Tang Huan's soul, and immediately after, Tang Huan felt as if her mind was being pulled by an unknown force, as she was completely immersed in the northeastern part of the "Holy Spirit Castle". Immediately after, an extremely minute wave of aura was detected by Tang Huan.

"There are indeed even more powerful Undead Spirits." Tang Huan's heart was moved.

"Master, that is a level 26 death spirit, equivalent to a human cultivator level 5 Heaven Marquis." Jianxin's voice once again came out from Tang Huan's soul.

"Fifth level Heaven Lord ..."

Tang Huan secretly nodded her head in her heart. The sky phase has ten stages, above the sky phase is the Heaven Marquis, the Sky Marquis is divided into nine stages, which is equivalent to the Heaven Marquis's twenty-six stages of death, and his strength far surpasses that of the Kui Cow. With Tang Huan's current cultivation, even with the help of Jianxin, it was reasonable that she would not be able to sense its aura fluctuations.

Chapter 1635 - Luring the Snake Out of Its Hole (1)

"And there!"

Under the guidance of the Sword Heart, Tang Huan's attention was once again focused on an area at the southeast corner of the "Holy Spirit Castle".

Yet another powerhouse of the 26th step!

Following that, with the help of Sword Heart, Tang Huan discovered two more people at the 25th step, located at the northwest and southwest of the castle.

"Four experts of the 25th step and the 26th step are stationed at the four corners of the castle."

A map of the positions of the four Undead Spirits and the other one thousand undead spirits appeared in his mind. In the next moment, Tang Huan's mind retreated like the tide. In merely the time of a flick of a finger, Tang Huan's consciousness had already returned to the dwelling space, and returned to his own body.

"Big brother, what's the situation like?"

Seeing that Tang Huan had finally opened her eyes, the nine spirits immediately asked.

"Not bad."

Tang Huan smiled and explained the general situation inside the "Holy Spirit Castle" to his. Hearing this, Nine Spirits, Kui Cow, and She Yuji let out a sigh of relief.

The strongest person in the castle was only at the 26th step, although it was much more powerful than everyone in the Supreme Mystery Temple, and even if they were to join hands, they would still not be able to defeat the 26th step, but no matter what, it was much safer than facing an elder.

"Jiu Ling, let's talk this through first."

Tang Huan muttered to herself, he now understood, the reason why the danger was reduced was not because of the Sword Heart, but because the Undead Spirits in the "Holy Spirit Castle" had decreased their cultivations by a lot.

Back then, there were perhaps really powerhouses of the elder rank guarding the castle. Since they hadn't seen any Nine Spirits for so long, those elders should have already left and switched to Undead Spirits of the 25th and 26th step. It was completely worth it to wait two years before taking action.

However, for Tang Huan and the others, the Undead Spirits of the 25th and 26th step were still extremely dangerous existences.

If he acted rashly, the outcome would probably be extremely bad.

The reason why the elders had let the four level twenty-five and twenty-six dead spirits guard the "Holy Spirit Castle" was because they had enough confidence in their strength. After all, Nine Spirits were only at the fourteenth stage two years ago. No matter how much their cultivation base increased, it was difficult for them to compete with them.

"The entrance to that space is within the castle."

Nine Spirits frowned, "If Big Bro is alone, after using the Heavenly Invisibility's ability, Big Bro will be able to enter the Holy Spirit Castle without making a sound, but Big Bro won't be able to find the location of that space. If you bring me along, I won't be able to use the 'Heavenly Invisibility' ability, and won't be able to infiltrate the castle. "

It was a real headache.

Tang Huan sank into deep thought, She Yuji also slightly knitted her brows, while the Kui Cow looked at this and that, finally scratching its head, not thinking about it anymore. After two years, the Kui Cow and She Yuji were very clear on the reason why Tang Huan and Jiu Ling wanted to go to the "Holy Spirit Castle".

After all, the trip to the "Holy Spirit Castle" not only depended on whether Tang Huan and the Nine Spirits could return to the Thirty Six Heavens, but also depended on whether they could truly enter the Heaven Realm.

It was said that in the true Heaven Realm, the "thirty-six days" Tang Huan and the nine spirits had spoken of was merely a low-grade Heavenly Domain. Above the thirty-six days I am now, there are still the middle eighteen days and the top nine days.

Towards the true Heaven Realm, both the Kui Cow and She Yuji would yearn for it.

"Nine, after I infiltrated the 'Holy Spirit Castle', I summoned you out of the cave. How long would it take you to determine the position of the space and open the space?"

After a moment, Tang Huan said.

"Finding the exact location of that space is very easy. I'll be able to do it soon." "It won't take long to open the dimension. At most ten breaths of time." That space was originally prepared for the nine spirits to begin with. As long as one had a bloodline as a guide, they could open it within a short period of time. His voice paused for a moment before he added, "After the space opens, we must enter within a breath's time, otherwise the space will close again."

"Ten breaths ..."

Tang Huan heaved a sigh of relief, and then revealed a smile on her face.

... ..

A river snaked out from within the Evergreen Mountain Range, flowing eastward for a thousand li before forming a huge lake.

On the lakeside, there was a small city called 'Chao Yang City'. There were tens of thousands of residents in the city, and the strongest person there was only at the 17th step. When the Nether Beasts were in chaos in the Bo Wang City, the dead spirits in the city had all fled. Only when the hundreds of princes of the Four Great Imperial Regions had destroyed the Nether Beasts did they return.

"Ga ji ~ ~ ~"

A loud sound suddenly burst out, as if space itself was about to explode.

All the living creatures inside Rising Sun City were startled awake. They subconsciously raised their heads to look, only to see a huge ball of black mist rolling towards them from the horizon.

Within the black mist, the dazzling nine colors were faintly discernible. It seemed as if an enormous bird was slowly flapping its wings, and a terrifying pressure was pressing down on them from afar. The tens of thousands of residents in the city were all terrified, as if their souls were about to be pulverized into fine powder.

In a split-second, all sound within the city disappeared, as if it had fallen into a deathly silence.

"Hu!"

With a fierce whistling sound, the black mist came closer and closer.

In the blink of an eye, it had already arrived in the skies above Chao Yang City. Huge shadows covered the entire city, but the black mist only served to brighten up the bright colors of the city, making the outline of the giant bird even more obvious.

All the creatures inside the city were kneeling on the ground. They were terrified, not daring to make the slightest movement.

Fortunately, the black mist came and left quickly. In the blink of an eye, it had already rolled over the sky above Chao Yang City. However, it was only after a long time did the city recover from its shock.

"What nether beast is that? How can its body be so huge?"

"Ai ai ai, I was really scared to death just now."

"It's a good thing that it didn't attack. Otherwise, all of us in this city would have been turned into ashes."

"Since when did our Western Region have such a nether beast?"

"..."

"Nine Spirit Prince!" That must be the Nine Spirit Prince of the Eastern Emperor Region! " Shocked cries suddenly rang out from a low stone house in the northern part of Zhaoyang City. "She disappeared for an entire two years, why did she suddenly appear here? "No, we must immediately inform the general director of this matter."

"What?" The Nine Spirits of the Eastern Region have appeared in Chao Yang City? "

In the northeast corner of Saint's Castle, deep within the Evergreen Mountain Range, a black figure sitting cross-legged suddenly opened his eyes. A trace of disbelief emerged between his brows.

Chapter 1636 - Luring a snake out of its cave (2)

In just ten short breaths of time, four figures had already gathered outside the entrance of the arched cave on the east side of the Holy Spirit Castle.

They were the four powerhouses that were guarding this castle. They were respectively from the Eastern Emperor Region and the Western Emperor Region. Each of these two regions had twenty-six Death Spirits and twenty-five Death Spirits.

One of the powerhouses at the 26th step in the Western Region was called Gu Rui, and he had been the general director of the Holy Spirit Castle for many years. As for the powerhouse at the 25th step in the Western Region, his name was Yuan Chi. As for the two level 26 and 25 death spirits from the Eastern Emperor Region, they were called Jia Sheng and Wan Zheng respectively.

Both Yuan Chi and Gu Rui had been in charge of the castle for many years.

On the other hand, Jia Sheng and Wan Zheng came to the Western Region two years ago when the Four Great Alliance came. Three months ago, after the departure of the elder, Hua Yu took their places in the Holy Spirit Castle.

The four of them knew very well what the next mission would be.

However, they did not have high expectations for the prince of the Eastern Emperor Region, Nine Spirits, to appear in the Evergreen Mountain Range again. After all, those nine spirits had already been missing for two whole years, who knew if they were still alive. Even if they were alive, they probably wouldn't appear for a short period of time.

The reason why he was still guarding this place was that he had no intention to continue chatting.

However, what they didn't expect was that in the short span of three months since the elders from the Eastern Emperor Region and the Western Emperor Region had left, that Nine Spirits fellow had appeared.

The moment they received the news, the four of them were wild with joy.

They looked at each other and immediately began to move. Among them, the two powerhouses of the 25th step, Yuan Chi and Wan Zheng, without hesitation soared into the sky, flying east like lightning. The two powerhouses of the 25th step, Gu Rui and Jia Sheng, flashed and disappeared from where they stood.

After waiting in the "Holy Spirit Castle" for almost two years, the thoughts of the elders from the two empires, such as Wu Yu, had greatly changed.

Before leaving the castle, they had warned Gu Rui, Jia Sheng, and the others to capture the Nine Spirits without any hesitation.

So when he went to the east with ten thousand battles, he captured the nine spirits.

After all, two years ago, Jiu Ling was said to be only at the fourteenth step. No matter how strong she is now, she shouldn't be a match for a powerhouse of the 25th step. Furthermore, she is also a companion of two powerhouses of the 25th step.

Even if she was lucky enough to avoid Yuan Chi and Wan Zheng at the moment, there were still Gu Rui and Jia Sheng, the two powerhouses of the 26th step, guarding the entrance of the castle. By now, the other three entrances to the castle had been completely closed, and there were many undead guarding them. The eastern entrance was the only entrance.

If the nine spirits wanted to enter the castle, they had to pass through the east entrance.

With Nine Souls' strength, it was impossible for her to break through Gu Ruoyun's defenses. If the Nine Spirits' target this time wasn't the "Holy Spirit Castle", then so be it. Unlike last time, they had made preparations long ago. Since the nine spirits had appeared, they could always find traces of her presence.

"Whooosh."

At this time, several hundred miles above the river in the west of Chao Yang City, the black mist surrounding Nine Spirits' body quickly converged. As Pang Shuo's body shrunk, he swooped down from the sky. When her body became small and exquisite, she had already landed on the shoulder of the black figure by the river.

"Big brother, can you really draw the undead spirits from the castle over like this?" Jiu Ling was lacking in confidence.

"It's indeed impossible to lure all four of them out."

The black figure was naturally Tang Huan, and said with a slight smile, "However, one or two people shouldn't have any problems ... Don't worry, we'll wait here for now. " With that, the "Myriad Sword Heavenly Diagram" appeared, and the painting scroll extended toward the nine spirits and sucked them in.

After a moment, using the "Heavenly Invisibility" ability, Tang Huan's figure disappeared from the riverbank.

"Whoosh!" "Whiz!"

Yuan Chi and Wan Zheng were like two black flowing lights, quickly crossing the sky, their Perception Ability had already risen to the extreme.

Suddenly, the two of them exclaimed in a low tone almost at the same time. Their figures paused in the air, and their four gazes landed on the riverbank below them. A strange look flashed across their eyes. Soon after, they exchanged glances, then simultaneously dove down from the sky, landing gently on the riverbank.

"The remnant aura is so majestic, it must be those nine spirits."

Yuan Chi frowned, his voice slightly shrill.

"This is indeed the aura of nine spirits!" Wan Zheng said in a low voice. He came from the Eastern Region, and had personally felt the auras of the nine spirits back in Dongming City.

"That's good."

A hint of joy appeared on Yuan Chi's face, before he asked doubtfully, "However, her aura suddenly disappeared here. I wonder why?"

"Could he have dived into the river?"

"..."

"The two of them are at the 25th step. It looks like the two at the 26th step are still guarding the 'Holy Spirit Castle'."

Ten kilometers away, Tang Huan's figure was hidden in the void.

Although Yuan Chi and Wan Zang did not sense Tang Huan's existence, Tang Huan had actually seen their figures flying above the river.

With just a thought, Tang Huan unleashed her "Void Evasion".

At the moment, Tang Huan did not hold back, he had to rush to the castle as fast as she could before the two level 25 undead warriors could react.

To Tang Huan, travelling thousands of kilometers through space while using her full strength was merely a matter of the blink of an eye.

After a while, Tang Huan saw the "Holy Spirit Castle" with his own eyes.

The two Level 26 Death Souls, whether they were guarding inside or hiding outside was unknown to Tang Huan, and he did not need to know. After quickly circling around the "Holy Spirit Castle", Tang Huan stopped outside the closed arched entrance at the west side of the castle.

Three of the four entrances to the castle had been sealed off, leaving only the eastern entrance.

Unfortunately, if Tang Huan wanted to enter the castle, she basically didn't need to go through the entrance. In the blink of an eye, Tang Huan had already revealed his figure. Boundless and boundless immortal spirit energy, like an ocean, roared out from within his body, and then, under Tang Huan's deliberate activation, he swept towards the east like a hurricane.

"The will of a Immortal!" "What a dense will of Immortal spirit!"

"An immortal treasure actually appeared in the west side of the castle?"

Outside the eastern entrance of the castle, two black shadows suddenly appeared. They were the two powerhouses of the 26th step, Gu Rui from the Western Emperor Region and Jia Sheng from the Eastern Emperor Region.

The two of them looked at each other with eyes full of shock.

But soon after, the greed in their eyes uncontrollably surfaced.

The depths of the Evergreen Mountains were already an extremely mysterious region. It wasn't impossible for an Immortal treasure to suddenly appear! After a short moment, Gu Rui and Armored Victory could no longer suppress the impulse in their hearts. They both rushed up to the sky towards the west side of the castle, using their full speed

Chapter 1637 - Holy Spirit Mountain Opening

"Whoosh!" "Whiz!"

Not long after, two shadows appeared outside the closed archway on the west side of the "Holy Spirit Castle" at the same time. At this moment, the boundless immortal spirit aura had been greatly restrained. Gu Rui and Jia Sheng didn't care about this, but their eyes were burning with fervor.

Generally speaking, the moment the celestial treasure appeared, the immortal spirit will was the strongest. After that, as time passed, the will of the Celestial Realm was rapidly suppressed.

Gu Rui and Armored Victory turned to look at the giant tree, which was about ten meters away.

Without the slightest hesitation, the two shot forward. Their hearts were even more on guard. At the same time, they also discovered Immortal treasures. If there was only one type, and no one wanted to give it up, then there would definitely be a battle Whether it was Gu Rui or victory, both were well aware.

However, in the blink of an eye, the two of them were stunned.

Under the huge tree on the back, there was actually an egg-sized white pebble lying among the fallen leaves, emitting a dense immortal sense.

As powerhouses of the 26th step, the two of them could tell what was happening to the cobblestone with a single glance.

Although there was Immortal Spirit within the pebble, it didn't originate from the pebble itself, but rather, was something that could be added to the pebble. Once it was released, it would completely melt away. It was just a misconception that the immortal spirit's will had been suppressed so quickly.

What was truly emitted from the pebbles was the most commonly seen aura of death in the "Netherworld Udumbara Realm". However, it was temporarily covered up by the immortal spirit's will.

This meant that the pebble was only an ordinary object, not a so-called celestial treasure.

After understanding this point, Gu Rui and Jia Sheng's eyes flashed with a hint of surprise. Their expressions were quite ugly, they were actually deceived by this fake "Immortal Treasure", but they

couldn't fake the originally sea of immortal spirit will, and this fake treasure couldn't appear for no reason.

"This is bad!"

An instant later, Gu Rui and Jia Sheng seemed to have thought of something at the same time. Their expressions changed greatly, and the moment they cried out in alarm, they rose into the air and shot toward the east side of the castle like lightning ...

... ..

"Hu!"

The black and white whirlpools appeared out of nowhere northwest of the Holy Spirit Castle. Tang Huan's figure suddenly flashed and the whirlpool disappeared.

The moment his feet touched the ground, Tang Huan started to look around.

There were no buildings in this castle. The green grass covered everything, and the ground rippled slightly.

Tang Huan did not immediately use the "Yin-Yang dao diagram" outside the arched hole on the west side of the castle. Instead, she moved to the northwest corner and used this ability there.

With a thought, the 'Myriad Sword Heavenly Diagram' appeared in Tang Huan's hand, and the nine spirits appeared.

"Big brother, go to the center of the castle!"

Knowing that time was of the essence, the nine spirits did not delay at all. They immediately narrowed their eyes to sense the situation, and within half a breath's time, the nine spirits suddenly opened their eyes and looked towards the center of the castle. Within their eyes, a hint of unconcealable excitement could be seen.

"Alright!"

Using the ability "Void Evasion", Tang Huan and the nine spirits immediately disappeared from their original positions.

Tang Huan could bring others to use the second stage of the [Yin and Yang Void Method]'s transformation, "Air Escape", but in this kind of situation, she could not use the second stage at the same time, the "Heavenly Invisibility". Otherwise, there was no need for Tang Huan to go through so much trouble and directly bring the nine spirits in from the east entrance.

After a moment, Tang Huan and the nine spirits once again appeared.

At that moment, there was a mountain peak several hundred meters tall lying before them. The entire mountain peak was overflowing with greenery. However, it wasn't because the mountain peak was covered with lush vegetation, but because the entire mountain range was condensed with life force.

Boundless life force gathered in the very center of the castle, solidifying into the shape of a mountain.

"What a powerful life force!"

Tang Huan took a deep breath. The vitality of the mountain was actually completely hidden, previously when she was investigating the "Holy Spirit Castle", even with the help of Sword Heart, she was unable to sense its existence. However, at this moment, standing at the foot of the mountain, he could completely feel the majestic and terrifying vitality within the mountain range.

"Holy Spirit Mountain!" It's here, it's here! "

Jiu Ling excitedly cheered. In the next moment, she turned into a tiny, multicolored bird. Her body rapidly expanded like an inflatable ball, and in an instant, she was already a thousand meters long. Compared to her body, the business of the vast "Holy Spirit Mountain" seemed rather small.

After an instant, strands of a nine-colored aura rose from the huge body of the Nine Spirits. They quickly gathered in front of her, and in an instant, they formed into the image of a huge, nine-colored bird.

"Hu!"

The nine-colored shadow rushed forward like a bolt of lightning, landing on the Holy Spirit Mountain and completely merging into it in the blink of an eye.

It instantly landed on Tang Huan's shoulder and became a little dispirited. However, the excitement in her eyes still remained, and just like Tang Huan, he stared unblinkingly at the Holy Spirit Mountain, and an incomparably resplendent green brilliance exploded from the mountain range.

"Crack ~ ~"

At the top of the mountain, a crack suddenly opened up and quickly spread to the foot of the mountain. The thunderous sound resounded throughout the entire castle.

At this time, the undeads guarding the entrances to each of the entrances were completely shocked. They all turned to look at the center of the castle in a blink of an eye. Shock that could not be concealed was revealed on their faces.

Although they couldn't see the exact situation on the other side of the Holy Spirit Mountain, the loud sound and the dazzling green brilliance didn't fail to make it clear that an enormous change was happening there.

"Sou — —" On the east side of the Holy Spirit Castle, Lone Sharp and Armored Victory were like two black streaks of light, shuttling through the entrance of the archway. The sound of them breaking through the air could be heard.

"Jiu Ling, so you're the one behind this!"

An enraged bellow rang out within the castle.

The dead spirits guarding the four entrances of the castle came to their senses, and they all shot towards the center of the castle, feeling extremely shocked.

Nine spirits! It was actually nine spirits!

In the past two years, when the Elders were guarding the Holy Spirit Castle, they had sent out a large number of people to search for a prince from the Eastern Emperor Region named "Nine Spirits", but they still couldn't find anything. However, they didn't expect that he had managed to hide it from the Chief Emissary and others, silently sneaking into the "Holy Spirit Castle".

Moments later, the fastest of the Undead Spirits first saw the Holy Spirit Mountain, only to find that the lush green mountain had split in two!

Chapter 1638

In front of the crack on Holy Spirit Mountain, the expressions of Tang Huan and the nine spirits did not change at all.

However, the shout he made just now made them feel a sense of urgency. The two Undead Spirits of the 26th step who had been led to the west side of the castle had already entered the castle, and were rushing to the center of the castle at lightning speed.

Now, it all depended on whether they arrived first, or if the space opened up by Senior Nine-Rainbow first.

"They're here!"

Nine's voice suddenly rang out.

Tang Huan looked over in the blink of an eye. Two black figures were approaching from the left, and a terrifying aura was sweeping across the castle like a storm.

"What's going on?"

"Is that a human cultivator?"

Thousands of meters away, high up in the sky, Gu Rui and Armored both felt immense shock and disbelief in their hearts.

Although the black figure in front of the crevice of Holy Spirit Mountain didn't reveal any aura, based on their many years of experience, they could determine that he was definitely a human cultivator.

The little nine-colored bird on his shoulder was indeed the Nine Spirits that had been missing for two years.

The two were extremely bewildered, not only because the Nine Spirits and the human cultivators were mixed in, but also because some human cultivators had actually snuck into the "Holy Spirit Castle". This was not the "Domain Field" at the border of the "Nether Life Domain", but the deepest part of the "Nether Death Realm" in the Western Region.

Even if it was an Elder level human expert, the possibility of them entering this place was very small.

Could it be that this person's strength is comparable to the Four Great Death Spirit Emperors?

Gu Rui and Armoured Victory subconsciously exchanged glances. However, just as this thought flashed through their minds, the two of them immediately rejected it. If that human cultivator really had the strength comparable to the Four Great Emperors, why would he need to use that fake immortal treasure to lure them out of the castle and sneak in?

That kind of powerhouse could totally kill his way into the Holy Spirit Castle without any scruples!

The two of them thought quickly, but did not slow down at all, in an instant, they were only a thousand meters away from Tang Huan and the other nine spirits.

"We'll know how strong he is after a single try!"

Gu Rui and Armored Victory looked at each other again.

In the next moment, Gu Rui extended out his arm and grabbed, a gigantic blood red claw quickly formed and shot towards Tang Huan and the Nine Spirit Claw from a distance of more than a thousand meters, in a blink of an eye, Pang Shuo's blood red claw appeared above Tang Huan and the Nine Spirit Claws, and fiercely clawed down.

The space within a hundred meter radius around Tang Huan and the nine spirits was completely sealed.

Under the blood colored claw shadows, the space rapidly distorted as a terrifying strength poured down. It was like a vast ocean had collapsed and a huge mountain had collapsed, seeming as if it could crush all obstacles into fine powder. In that instant, the terrifying might had already filled every inch of space below, causing one's heart to tremble.

Tang Huan's face was calm, she raised her right hand, releasing the Mountain River Painting that flew above her head and welcomed the gigantic blood claw.

In a split-second, the huge blood-red claw had already sunk into the painting.

"Hu!"

Almost at the same time, an enormous crimson claw silhouette flashed out of thin air within the space of the abode, and descended onto the shore of the Supreme Profound Lake at the speed of lightning. Amidst a loud bang, countless sand and sand tumbled upwards, instantly forming a crater of several hundred metres in radius. The terrifying Strength Qi wreaked havoc in all directions, and within the crater, five narrow and dark spatial cracks actually appeared, but they quickly closed up.

Within the Great Xuan Lake, atop a mountain peak, the Kui Cow and She Yuji suddenly shot up into the air.

After they subconsciously looked at each other, a tinge of worry appeared between their brows. From the movements by the lake, they could guess that the Undead Spirit Master of the Holy Spirit Castle had already made his move. They just did not know if the space Tang Huan and Jiu Ling were in had been completely opened.

They were extremely worried. In the castle, Gu Rui and Ju Sheng were so shocked that their eyeballs almost popped out of their sockets.

The attack just now was swallowed by the landscape painting in the human cultivator's hands?

"Big Brother, enter!"

Just as the two of them were astonished, Nine Spirit's voice suddenly rang out, and her tone of voice revealed a faint excitement that was difficult to suppress. At this time, the crack in the Holy Spirit Mountain in front of them was already more than ten meters wide. Inside the crack, there was a faint green color.

"Alright!"

Tang Huan did not hesitate at all as she rushed forward. The mountain and river painting in the sky quickly shrank and floated in the middle of Tang Huan's right palm.

"Capture them!" Upon seeing Tang Huan's actions, Gu Rui and victory were filled with both surprise and anger. The two who had just reached the crevice moved out together.

"Slash!"

A sound that sounded like it was lacerated silk suddenly rang out.

With a quick wave of his right hand, a huge black light that was tens of meters long swept across the sky like a waterfall, and whistled towards Tang Huan and the nine spirits, as if it wanted to block their path.

"Swish!"

Almost at the same time, a sharp piercing sound came out at the same time. In Gu Rui's hand, a blood dividend pierced through the air at a speed so fast that even one's mind would not be able to see it, piercing towards Tang Huan.

In an emergency, both Gu Ruoyun and Gu Rui didn't hold back at all. Furthermore, the painting that just appeared didn't allow them to hold back at all. Even an attack like the one before was able to completely suck, so even his current attack might not be able to do anything to that human cultivator.

Fortunately, the difference from before was that two of them attacked at the same time.

"Hu!"

At the same time the landscape painting scroll opened once again, Tang Huan and Nine Spirits' figures disappeared.

The picture scroll wrapped around the blood bonus thorn and the huge black light sucking and Tang Huan and the nine spirits were revealed. The green crack on the mountain was already within reach.

With a thought, the painting shrunk into a scroll and shot forward. The moment Tang Huan and the nine spirits rushed into the crevice, the scroll returned into Tang Huan's Dantian.

Seeing this scene, Gu Rui and Armored Victory were both shocked and furious, rushing towards the fissure without any hesitation.

They were already sure that the human cultivator whom the Nine Spirits called 'big brother' did not have a very high cultivation base, probably not even at the Tenth Order of the Heaven. However, the treasure in his hands was extremely magical, to the point where the two of them were able to simultaneously attack and devour it.

Under these circumstances, the chances of catching Nine Spirits and that human cultivator for a short period of time were very slim.

Right now, there was only one way out, and that was to follow them into the newly opened space of the Holy Spirit Mountain. However, just as their bodies were about to rush into the crevice, large amounts of transparent flames suddenly roared out from within Tang Huan's body, like a volcano erupting.

That transparent flame did not emit any heat, nor did it emit any aura. However, the moment they saw the flame, Gu Rui and Armoured Souls felt a strong sense of fear. They had a premonition that if they continued to collide with it, the damage to their bodies would not be small.

Chapter 1639 - Life and Death Tao Lotus

What the transparent flames gave them was extremely strange, as if they could melt everything in the world. Even if it was power, it was no exception.

It was the first time they had encountered such a flame. They could not help but slightly pause, subconsciously hesitating. However, even though he was hesitating for a moment, the green crack had already closed. Tang Huan and the nine spirits, as well as the transparent flame that was gushing out from Tang Huan's body, also disappeared at the same time.

The lush green Holy Spirit Mountain had been completely restored to its original state, and the crevice looked as if it had never appeared before.

"This ..."

Gu Rui's and Armored Victory's faces immediately became incomparably gloomy. The space that had just opened up was actually completely closed so quickly?

"Phew!" "Whooosh."

The sound of breaking wind rang out one after another, and the undeads around the castle also came one after another.

When they saw the expressions on Gu Rui's and Jia Sheng's faces, they all stopped at a distance. They did not dare to approach too close to avoid being caught in an unexpected situation. Just now, they had also seen what happened in front of the Holy Spirit Mountain, and were extremely shocked. Even when the two powerhouses of the 26th step joined forces, they were still unable to stop Nine Spirit and that other guy. If they didn't see it with their own eyes, no one would believe such news.

After quite a while, Gu Rui and Jia Sheng's gloomy voices resounded in front of Holy Spirit Mountain.

"Let Yuan Chi and Wan Zhai come back!"

"Send the news back. Let the elders decide what to do next!"

"..."

... ..

"Hu!"

In a verdant space, the figures of Tang Huan and the nine spirits suddenly appeared.

"Haha, I finally got in!"

The nine spirits were wild with joy as they cried out.

It was really too dangerous just now. Fortunately, Tang Huan's "Primal Chaos Daos" made Gu Rui and Jia Sheng worry. Otherwise, they might have also rushed in.

Although they could hide inside the "Illusory Sword Heavenly Palace" and also have the cave space, it would still be very difficult for Gu Rui and Jia Sheng to threaten them even if they entered. It would also be impossible for them to take away the things that Jiu Cai had specifically left for her, but if those two fellows really barged into this place, it would be extremely troublesome.

Seeing Jiu Ling's happy expression, Tang Huan subconsciously smiled, and then looked around.

The space opened up inside the Holy Spirit Mountain wasn't very large, only a few hundred meters in radius. Inside the space, it was full of life and vitality, as vast as the abyss. In the center of this space, there was a crystal green flower bud that was about a hundred meters in size.

"This is it!"

Nine Spirits transformed into a little girl. With a slight movement of her body, she appeared in front of the large green flower bud. Then, she opened her mouth and a dense, colorful aura was spat out, fusing into the flower bud.

Tang Huan floated forward, but did not act rashly. That flower bud was definitely left behind for the nine spirits by Senior Jiu Cai, and only the nine spirits should be able to understand the profoundness and profoundness behind it. All that was left to the nine spirits, if he acted blindly, perhaps she would really fail.

"Rumble ..."

In the next moment, a light cry rang out. Green light exploded in the surrounding space, creating tens of thousands of rays of light.

On top of the flower bud, enormous petals constantly bloomed. In the blink of an eye, the flower bud had completely bloomed, occupying an even wider area. Every petal was glistening and transparent, with an emerald luster that flowed like water.

"Life and Death Dao Lotus!"

Jiu Ling's expression changed, it was likely that she had just obtained a lot of information from the gigantic flower, and looked at Tang Huan: "Big brother, this 'Life and Death Dao Lotus' is the thing Senior Jiu Cai left for me. If we use it, we will be able to break through the spatial barrier of the Nether Realm and return to the Purple Cloud Sky, which is one of the thirty-six days! "

"Zi Yun Tian?"

Tang Huan frowned, but she relaxed in the blink of an eye.

"Purple Cloud Sky" and "Crimson Light Sky" were the same, being one of the lower thirty-six days. However, it was still quite a distance away from the "Crimson Light Sky", with the three great Heaven Realms separating them. However, this was not a problem. As long as he could return to the "Purple Cloud Sky" and spend more time, he would definitely be able to reach the "Crimson Light Sky".

In an instant, Tang Huan revealed a slight smile between her brows.

"Yes, Zi Yun Tian."

"The message I received from Senior Nine-Colored was that 'Violet Cloud Sky' is the closest to the Nether Realm, so she left an imprint in the 'Violet Cloud Sky' which will guide the 'Life and Death Dao Lotus' forward. When we leave the Nether Realm, there will be no need to worry about getting lost. "

"Big brother, let's first go take a look at the space inside the 'Life and Death Dao Lotus'."

With a thought, the layers upon layers of petals of the "Life and Death Dao Lotus" began to undulate as if they were alive. Threads of green light converged at the center of the flower, and in an instant, a huge green vortex appeared at the stamen.

"Whoosh!"

The nine spirits didn't hesitate at all. With a slight movement of their bodies, they disappeared into the depths of the whirlpool.

Seeing the anxious look on Nine Spirit Monkey's face, Tang Huan smiled unconsciously. She soared into the sky and followed behind her into the green vortex on the stamen of the flower.

The interior space of this "Life and Death Dao Lotus" was even wider than what Tang Huan had imagined. It was almost two hundred meters in radius.

Originally, Tang Huan was worried that she would not be able to bring the Kui Cow and She Yuji away, but now, not to mention the two of them, even if there were another two hundred people, it would be fine. This sort of spatial artifact was different from the "Nether Immortal Talisman". As long as it could contain enough space, it would consume the same amount of energy, not counting how many people it took away.

In the center of this space, there was a two meter tall lotus throne that was about ten meters in size.

Unlike the surrounding dark green color, the lotus seat was as black as ink, and the dense aura that leaked out of it was the same as the aura of death.

"Life and Death Dao Lotus ..."

As Tang Huan muttered these four words, a hint of understanding suddenly flashed through her mind.

He faintly understood why it had this name. In this spatial artifact, the life force and the deathly aura would probably be able to complete a miraculous transformation. With this, even if the nine spirits left the "Nether Death Realm", this area full of dead energy, it would not affect their cultivation speed.

"Big brother, the 'Life and Death Dao-lotus' is capable of absorbing life, transforming it into an aura of death upon passing through this lotus throne, and then using that aura of death to drive the 'Life and Death Dao-lotus' through space."

"With this, I don't have to worry about the problem of cultivation in the next thirty-six days. It can transform its life force into death energy at any time, and can be absorbed and refined by me!"

At the end of her sentence, Nine Spirits could not help but dance in joy.

Tang Huan laughed upon hearing this, and it was as she had predicted, this "Life and Death Dao Lotus" was not only a spatial artifact, it was also a treasure that could aid the cultivation of the nine spirits.

Chapter 1640 - Entry and Return

"The power contained within this 'Life and Death Dao Lotus' doesn't seem to be enough to send us from the Nether Realm to the Violet Cloud Sky." Then, Tang Huan spoke out.

"Big brother, don't worry about the problem of strength."

Jiu Ling chuckled, "The Holy Spirit Mountain outside was prepared for us by Senior Jiu Cai. The next thing we need to do is to use this 'Life and Death Dao Lotus' to absorb the vitality of Holy Spirit Mountain. After all of the vitality there has been converted into the aura of death by the Lotus Altar, we will immediately depart. "

"How long will it take to absorb and convert the vitality of the entire Holy Spirit Mountain?" Tang Huan muttered to himself.

"It should be around ten days."

Jiu Ling uncertainly scratched her head.

"A dozen days ..." "It's too long..."

Tang Huan frowned slightly, "After absorbing all the vitality, without the concealment of the Holy Spirit Mountain, would those Undead Spirit Elders be able to discover the spatial space opened by Senior Rainbow?"

"Big brother, you can relax for a hundred times."

Hearing this, Jiu Ling confidently patted her chest, and said with a smile, "Senior Jiu Cai, what kind of person are you? Even without Holy Spirit Mountain, those elders alone would not be able to detect the existence of this space. Even the more powerful Eastern and Western Emperors would not be able to detect it. "

Tang Huan nodded her head. He believed what Jiu Ling had said, but Tang Huan's frown did not relax as she said, "If we want to break through the spatial barrier of the 'Nether Realm', we have to leave this space first. At that time, the 'Life and Death Dao Lotus' will definitely appear. If at that time, an Elder, or an expert such as the Eastern Emperor or the Western Emperor were to stand guard outside, would the 'Life and Death Dao-lotus' be able to break through their barriers and successfully leave the Nether Realm? "

After being asked by Tang Huan, Nine Spirit Stunned. It was only after a long while that she jumped down from the black lotus throne with an ugly expression. "It's all thanks to Big Brother's reminder. Right now, those two Level 26 Dead Spirits outside must have already sent back information about us. I think it won't be long before the elders of the Western Region and even the Western Emperor appear in the 'Holy Spirit Castle'. "

Jiu Ling paused for a moment before sighing gloomily. "Big brother, are we going to have to wait here for a few more years before we act?"

"That won't be necessary."

Tang Huan smiled slightly and said, "We do not need to depart after all the life energy has turned into death aura. As long as the 'Life and Death Dao Lotus' can break through the spatial barrier of the 'Nether Realm', we can leave immediately."

"If it's just breaking through the spatial barrier of the 'Nether Realm', then given the power of the 'Life and Death Dao Lotus', it should be able to do so right now."

Jiu Ling looked at Tang Huan with doubt, "But, what about after breaking through the spatial barrier? "Big brother, if we don't absorb the vitality of Holy Spirit Mountain, and if we don't have

enough power to activate the 'Life and Death Dao Lotus', we'll just be able to roam about in the void. I'm afraid we'll never have the chance to return to the thirty-six days."

"Of course, we have to take away the life force of the Holy Spirit Mountain together."

Tang Huan said seriously, "With the help of the 'Heart of the Sword', 'Illusory Sword Heavenly Palace' can swallow the entire Holy Spirit Mountain in one go. When that time comes, you will immediately activate the 'Life and Death Dao Lotus' and pass through the spatial barrier. After leaving the Nether Realm, I released my life force from within the estate and began to convert it to the 'Life and Death Dao-lotus'. This way, we can leave as fast as possible, and don't have to worry about being trapped in the 'Holy Spirit Castle'. "

"Alright!"

"Big brother, let's do this. After leaving this space opened up by Senior Rainbow, I'll use the 'Life and Death Lotus' to attract the attention of those fellows, and big brother can safely absorb the Holy Spirit Mountain."

Tang Huan slightly nodded and no longer said anything.

If one only relied on the cave space or the life force of the "Nine Yang Divine Furnace", it could be carried out in the space opened up by Senior Rainbow. However, if one wanted to absorb the entire Holy Spirit Mountain, they had to return to the Holy Spirit Castle outside to be able to move.

Actually, Tang Huan's "Illusory Sword Heavenly Palace" could also break through the spatial barrier and traverse the void.

However, the space contained in the "Illusory Sword Heavenly Palace" was simply too enormous. The amount of energy it needed to reach this level was countless times greater than that of the 'Life and Death Dao Lotus'. Not to mention a single Holy Spirit Mountain, even a hundred or a thousand Holy Spirit Peaks wouldn't be enough.

"Hu!"

Jiu Ling's footsteps slightly moved, and her figure once again landed on the black lotus throne.

With but a thought, the circular green wall around him became crystal clear. Through the spatial walls, he could clearly see the situation in the outside world.

"Big brother, get ready. We're going out."

As soon as Ninelotus finished her words, the 'Life and Death Dao-lotus' rose into the air, smashing directly against the outside world's green space.

In order to enter the space created by the Nine Colors Sect, one needed the power of the Nine Spirits to open it, but to leave it was much easier. Also, once the 'Life and Death Lotus' disappeared, that green space's mission would also come to an end, and it would disappear along with it.

In the blink of an eye, the 'Life and Death Dao Lotus' slowly sank into the walls of space, and the green space began to shrink as well.

Inside the Holy Spirit Castle, all the undeads, including the four powerhouses Gu Rui, Jin Sheng, Yuan Chi, and Wan Cheng, were gathered in front of the Holy Spirit Mountain.

After such a short period of time, Gu Rui's and Jia Sheng's complexion had already improved a little. However, Yuan Chi and Wan Zheng, who had just returned, had expressions filled with embarrassment and annoyance.

After receiving the news, they, who were still searching for Nine Spirits in the river, realised that they had been tricked. Nine Spirits actually snuck into the space within the Holy Spirit Mountain. Fortunately, even the stronger Gu Rui and Jia Sheng were unable to stop Jiu Ling. This allowed them to console themselves.

However, no matter what, the four of them had to bear the greatest responsibility for the failure this time.

There was no way to avoid a severe punishment!

"Look, what's that?" Suddenly, a cry of alarm sounded. The one who spoke was a Death Spirit of the twenty-first step, and his two eyes were fixed on the Holy Spirit Mountain.

"Petals?"

"That is... Lotus flower? "

"What's going on? Why would something appear?"

"..."

Everyone looked towards the direction where the voices came from, and saw that in the middle of the Holy Spirit Mountain, huge green petals appeared one after another from the peak. In just a short span of one or two breaths, an incomparably large green lotus was completely revealed.

"This is not a lotus, but a spatial artifact!"

The four people sitting cross-legged on the ground, Gu Rui, Jia Sheng, Yuan Chi, and Wan Xiang, jumped up like a spring. Immediately after, Gu Rui's pupils suddenly shrank, and he cried out in alarm.

"Hu!"

As soon as Gu Rui's voice fell, whistling sounds filled the air, and the huge green flower unexpectedly shot toward the east of the Holy Spirit Castle like lightning.
