

W. Master 171

Chapter 171 - Stone Gambling!

"Tang Huan, you're thinking too much!"

Mu Yan said blandly with a calm expression. However, a strange expression that was difficult to detect flashed in the depths of her beautiful eyes.

Hearing this, Tang Huan didn't mind, and continued to speak with a smile: "Forces like the three great empires' imperial families and Divine Weapon Pavilion s simply don't need to go against the Star Ocean Commerce, so it is highly likely that another powerful merchant guild will secretly attack the Star Ocean Commerce."

"In this world, the Star Ocean Commerce is the number one merchant guild without a doubt. But there are two people whose strength is close to the Star Ocean Commerce. One is the Spirit Feather Merchant Guild and the other is the Flowing Flower Merchant Guild.

"Judging from the tone you used the other day with Hu Sen, he should be the manager of this Chamber of Commerce in Dragon Spring Town, and your position in the Chamber of Commerce is obviously higher than Hu Sen's."

"As for Zhong Kang, he's naturally your subordinate."

Tang Huan looked at Mu Yan with a smile on his face, "That Hu Sen is really good at scheming, when you have obtained the 'Phoenix Flame Essence', I will take the opportunity to kill you, and then get rid of Zhong Kang without anyone noticing, even if we were to inquire about it in the future, it would all be for naught."

"Tang Huan, what exactly do you want to say?"

After hearing Tang Huan's analysis, Mu Yan could no longer hold back. She bit her red lips and stared at Tang Huan, her face turning ugly.

It was just a tiny clue, yet this fellow was able to deduce so many things.

Tang Huan said while beaming: "Mu Yan, my intentions are actually very simple. Since this Dragon Spring Town has the 'Heavenly Wood Stone', then, the 'Spirit Feather Merchant Guild' and the 'Flowing Flower Merchant Guild' that are not much weaker than the 'Star Ocean Commerce', it shouldn't be that they don't have a few 'Heavenly Wood Stones', right? Of course, you don't have to limit yourself to 'Heavenly Wood Stones'. As long as you have enough gems, I am willing to pay a high price. "

As he said that, Tang Huan deliberately dragged out his tone, "For example, a 'Phoenix feather'."

"What?"

"Ya!"

Suddenly hearing this, Mu Yan was startled, and at the same time, her young and tender voice sounded out.

Tang Huan curiously looked down and saw Feng Ming sucking on her delicate little finger. Her black eyes were sparkling and translucent, "Father, hungry ..."

"Alright, alright. We will set off immediately." Tang Huan rubbed her head and comforted her, he then looked at Mu Yan.

"You're willing to use the phoenix feathers to exchange for the 'Heavenly Wood Stone'?" Mu Yan took a deep breath, still in disbelief.

"Of course!"

Tang Huan laughed loudly.

that 'phoenix feather' was indeed a priceless treasure; a 'phoenix feather' was enough to make a high ranking Weapon Refiner. But to Tang Huan, who had already fused with the "Nirvana Sacred Fire", the remaining "Phoenix Feathers" was like chicken ribs, tasteless, and a pity to abandon them.

Using "Phoenix Feather" to exchange for the "Heavenly Wood Stone" did indeed seem like he was at a disadvantage, but to Tang Huan, this was only a reasonable utilization of the resources in his possession. Of course, Tang Huan was not an idiot. A few "Sky Wood Rocks" would use a "Phoenix Feather" to exchange for them.

Hearing Tang Huan's words, Feng Ming could not help but take a big bite on her finger, her beautiful and cute little face instantly wrinkled.

"It is indeed touching, but... "You're right!"

Mu Yan exhaled lightly, her heart also thumping, but after a while, she came back to her senses, took a deep breath, and fiercely looked at Tang Huan, and snorted, "I don't know about the situation of the Spirit Feather Merchant Guild, but the branch in Dragon Spring Town does not even have a 'Heavenly Wood Stone'." These words of Mu Yan basically showed that she was a member of the Flowing Flower Merchant Guild.

"Oh?"

Tang Huan was startled, and immediately frowned.

If the Flowing Flower Merchant Guild did not have it, it was inconvenient for the Star Ocean Commerce to buy it, so it was even more impossible for the Spirit Feather Merchant Guild to appear. Even with Xiao Budian's help, finding enough "Heavenly Wood Stones" in such a vast area wasn't something that could be done in a short amount of time.

Most importantly, even with the support of the "Scorching Sun Stone", the "Phoenix Flame Essence" could only exist for two months. Previously, he had stayed in the Phoenix Lair for half a month, and from Bloody Flame Peak to Dragon Spring Town, he had spent an entire ten days.

At this moment, Mu Yan suddenly spoke. "If you want to obtain the 'Heavenly Wood Stone' in a short period of time, it's not like there's no other way."

"What method?" Tang Huan raised his eyes slightly.

"Stone gambling!" Mu Yan spat out the two words.

"Stone gambling? "What do you mean?"

Tang Huan was a little suspicious. These two words were rather familiar in his previous life, but this was the first time he had heard of it ever since he came to this world.

"Many gems were dug out from deep underground Gem Vein that were said to have existed since the ancient times, and their surfaces were covered by a thick layer of something called stone glue."

Mu Yan slowly said, "That stone pendant is extremely strange, not only does it completely isolate the gem's aura inside, it also prevents the Genuine Qi from penetrating deeper. Even a top class expert like the Stage Nine Martial Saint would not necessarily be able to find out what kind of gem is hidden inside the pendant."

"Only by cutting these ancient ores that were covered in stone glue would one be able to find out the true state of the ores. Most of the time, the ancient ores were just ordinary worthless stones. Of course, it was also possible to obtain low-grade, mid-grade, and even high-grade gems. Even gems worth ten million gold coins were not rare gems in this world ... However, this will all depend on luck. "

"So that's how it is."

Hearing her explanation, Tang Huan suddenly understood.

Aren't these the stones from my previous life? In his previous life, when the Jadeite Ore Stone was mined, it was wrapped in a layer of weathered skin. In his previous life, when the Jadeite Ore Stone was mined, it was wrapped in a layer of weathered skin.

This kind of trade was like gambling, it was extremely risky. In Tang Huan's previous life, he had heard many times that someone went bankrupt because of a rock bet, becoming heavily indebted, or even jumping off a building and dying.

In this world's stone gambling, what blocked out was not jade, but gems. However, there was not much difference between the two.

"There are tens of thousands of different types of gems. To find an ancient ore with a gem hidden in it is already not easy. To find a gem with the 'Heavenly Wood Stone' hidden in it is even more difficult." Tang Huan thought for a moment, then laughed bitterly and shook his head, "Mu Yan, your method is too unrealistic. Even if I sell those 'phoenix feathers' and exchange them for gold coins, I might not even be able to find a 'Heavenly Wood Stone'. "

"To others, it is indeed unrealistic, but to you, it might not be so. Don't forget, your Xiao Budian is the second ranked Blue Dragon in the world." Mu Yan smiled lightly.

"Xiao Budian?"

Tang Huan slightly froze for a moment, and in the blink of an eye, he looked at the blue figure that was ten meters away from him, following the Rainbow Spirit Mouse as it scuttled back and forth.

"Can you do it?"

It was very easy to find those gems that were hidden in the shallow layer of the ground. However, if it was an ancient ore, it was unknown if it could still make an accurate judgement regarding the location of those gems.

"How would we know without trying?"

"..."

Chapter 172 - Ancient Source Stones

Within the Dragon Spring Town, there were four families of the Gem Store.

Three of them were opened by the three major merchant guilds, Galaxy, Ling Yu and Liuhua, while the fourth belonged to the Divine Weapon Pavilion. The name of the Gem Store was very similar to that of the Divine Weapon Pavilion, directly called Divine Armament Tower.

The Divine Armament was three stories tall and located in the north of the Dragon Spring Town. It wasn't the largest among the four Gem Stores, but it definitely had the largest amount of Primordial Ore in its possession.

The biggest reason was that the Divine Weapon Pavilion had an enormous vein in the Sword Crafting Valley region, which could provide an unending stream of primeval stones.

Because of this, Martial Warriors who participated in the stone gambling were the most common.

Almost every morning, there would be hundreds of fanatical stone gamblers gathered outside. When Divine Armament opened the door, they would rush in excitedly.

However, the number of Martial Warriors gathered outside the Divine Armament building had increased by several folds.

"So many people?"

When Tang Huan and Mu Yan rushed to the exit of the Divine Armament, what they saw was a scene of one shoulder rubbing against one's shoulder and one head moving.

The two of them had undergone a huge change. Tang Huan's face was a sallow yellow, and she looked like she had just recovered from a long illness. Mu Yan's beautiful jade like face had also become normal, this was the result of her smearing the medicine.

After Tang Huan saw his new face, he was greatly impressed by Mu Yan's methods.

Mu Yan, this follower, was simply too worth it. She was proficient in poisons, and naturally knew of other medicines. To her, concocting a medicine to change her appearance was as easy as flipping her palm. Of course, this potion wouldn't last long. At most one day, it would lose its effect.

However, for Tang Huan, one day was enough.

Furthermore, Tang Huan was still holding onto Feng Ming, so they looked like a young couple with a daughter. Who would link them with Tang Huan, who was ranked first or third in the Phoenix Spirit Martial Meeting?

"It's still not enough."

Hearing Tang Huan's words, one of the middle aged man by the side laughed, "Let's wait and see, there will definitely be more people rushing over later."

"Why is that?" Mu Yan asked doubtfully.

"You don't know?" The middle-aged man glanced at Tang Huan and Mu Yan in surprise, seeing their blank expressions, he explained while smiling, "Yesterday evening, Divine Armament just arrived at the new batch of Ancient Ore Stones. It was said that there were tens of thousands of them. "For an ancient ore like this one that hasn't been picked out yet, the chances of having the gem drop is the highest. Otherwise, why would so many people come here and try their luck?"

"Eh, why is that guy also here?"

With that, the middle-aged man's eyes lit up and he squeezed forward as if he had found someone familiar.

Tang Huan and Mu Yan heard and looked at each other. To others, this was indeed a good opportunity to test their luck, but to Tang Huan, it was not necessarily a good thing. Tens of thousands of primeval stones might seem like a lot, but with so many people coming, on average, not many people could get a share.

If Tang Huan had enough gold, he could just go in and pick out a large amount of primeval stones and buy them first. But what he lacked the most right now was gold coins.

Currently, he only had three gold notes on him, two of them were for two hundred gold, one for a hundred gold. In total, he only had five hundred gold.

This was all from when Tang Huan left the Phoenix Lair's cave passage, and on a whim, he had searched Hu Sen and Zhong Kang's body. According to Mu Yan, 500 gold coins was only enough to buy a few of the worst quality ancient ores, while the best quality ancient stones cost several thousands or even tens of thousands of gold coins per stone.

"We'll see. If we don't find the 'Heavenly Wood Stone' here, then we'll think of another way."

Tang Huan frowned slightly, his mind raced, but he looked around him. Right now, there were already two to three thousand people gathered, and, the middle-aged man was not wrong at all. The Dragon Spring Town was indeed still continuously heading towards the Divine Armament.

"F * ck! Tens of thousands of ancient raw stones, this father will definitely take one or two of them this time!"

"Hey, don't blow the whistle. If I remember correctly, you have spent over a hundred thousand gold coins in here. Do you think you can sell them for ten thousand gold coins if you put them all together?"

"Scram, brat, don't talk about this in front of me, it's bad luck!"

"Haha, Divine Armament Tower's ancient essence stones have finally arrived. If I didn't wait for this batch of ancient essence stones, I would have returned to Glory Continent a long time ago."

"Rumor has it that the ancient raw stones that the Divine Armament Tower brought over this time could be considered the best in recent years."

"Where did you hear this from? Is it accurate?"

"..."

Everyone was either whispering or talking loudly. The clamor was rising and falling one after another.

Many Martial Warriors' eyes flashed with excitement and anticipation. There were even some Martial Warriors whose faces were filled with impatience, wishing that they could immediately charge into the Divine Armament's tower.

"Creak!"

Just as everyone was looking forward to it, the door of Divine Armament finally opened.

Tang Huan and Mu Yan were squeezed by the Martial Warriors behind them, and could not help but move forward.

Not long later, the two of them passed through the lobby of Divine Armament's first floor and entered a hut connected to it. This hut was about four meters tall, with length and width of several hundred meters, making it extremely vast, and around the shed, there were many tall walls. If one wanted to enter, they could only enter through Divine Weapon Pavilion.

With a single glance, Tang Huan saw the situation inside.

The shed was divided into six areas, and each area had a signboard. He entered the shack. There was a stone area on the left hand side and a toll area on the right hand side. In front of him were ancient ores. They were divided into four areas according to their quality: lower, middle, upper and top quality.

Most of the Martial Warriors who entered the shack rushed towards the middle and upper grade raw stone areas. Only a few of them went to the top grade raw stone area while only a few dozen people ran towards the lower grade raw stone area.

Tang Huan and Mu Yan looked at each other, and almost at the same time, walked towards the low grade ore region on the right side.

It wasn't that Tang Huan didn't want to see the middle grade, high grade, and even the top grade Ancient Source Stones, but he felt that his money was thin and he could only go to the low grade primeval stones area to take a look. Those three areas did not have tens of thousands of gold coins on them, so it was best not to go there.

Each ore was as big as a sea bowl. It was dark and there were no colors on it. Its surface was smooth, but it was bumpy and had an irregular round shape.

In this area, there were at least tens of thousands of primeval stones placed together for others to choose from. Some of the ancient ores were bright. It was obvious that they had just been transferred here. However, most of the ancient stones were dim and did not shine. One look was enough to tell that they had been here for quite some time.

The dozen or so Martial Warriors that came in front of Tang Huan and the others had already scattered in all directions.

They were obviously the same as Tang Huan, not too much gold. They came here to try their luck. However, most of their attention was focused on those newly arrived, fresh ancient ores. As for those ancient ores that had existed for a long time, their gazes swept past.

Chapter 173 - Selection

After a moment, Tang Huan picked up a stone from the mountain-like pile. It was cool to the touch, but it was still rather heavy.

Tang Huan's thoughts moved slightly, and he subconsciously activated a strand of Genuine Qi, but just as Mu Yan had said, when that strand of Genuine Qi flowed out from his palm and entered the inside of the Ancient Ore Stone, it was immediately like touching a firm wall, unable to penetrate at all.

To discover the hidden gems in this way was like a fantasy.

Experienced Martial Warriors usually choose the primeval stones through the runes and marks on the surface. However, that kind of experience would at the very least have to be a medium-grade ancient ore. There were no traces or traces on the surface of these low-grade ores.

Otherwise, they wouldn't have been selected and stocked up here, and would only be sold for a hundred gold coins each.

Generally speaking, this kind of ancient ore was the hardest to find and the most unpopular one. Even if someone was lucky enough to find a gem, they would usually find it to be a low-grade gem. After cutting it open, the chances of finding high-grade gems and mid-grade gems were very low.

Throwing the ore back to its original place, Tang Huan carried Feng Ming and slowly walked among the piles of Ancient Ore Stones, like a beautiful woman.

Not long after, there was a burst of deafening shouts coming from the distance.

It was not only Tang Huan and Mu Yan, but the other Martial Warriors in the lower tier area had all turned to look. Several hundred meters away, in the rock dispelling area, a large group of figures was already surrounding them. In the crowd, brilliant rays of golden light were indistinctly visible at first, but after a while, it had already become incomparably resplendent.

"Haha, the 'Venus Stone'!" It really is the 'Goldstar Stone'! "

In an instant, a wild and joyous laugh resounded from the crowd. "Hahahahaha"

"Hahahahahaha
ahahahaha!

Hahahahahaha

Amongst the crowd, there seemed to be a guy dancing and gesticulating excitedly. Presumably, he was the owner of the "Venus Stone". Following that, a chaotic mess of sounds could be heard from all directions. Tang Huan could not see what kind of expression the people in the distance had, but all the nearby Martial Warriors had envious looks on their faces.

"Goldstar Stone' ... This is a high-grade gem, and among high-grade gems, it could be considered a high-grade gem. "

"That guy is pretty lucky. He just started out with a high-grade gem."

"A 'Venus Stone' costs around 500,000 gold coins!" I just noticed that the guy seemed to have come out of the upper section. A single piece of the Ancient Source Stone was 50,000 gold coins, and that fellow had earned 450,000 gold coins in an instant! Tsk tsk, this luck is really ... "

..

Similar sounds would come into his ears from time to time, and even Tang Huan was moved when he heard it.

However, the current Tang Huan could only feel envy.

In the next moment, Tang Huan refocused his mind and continued to move forward. Following that, another few waves of heaven-shaking shouting came, and it was clear that all of them were extremely valuable gems.

The gems were of a different kind.

According to common sense, all the gems from the same vein should be the same. Even if they were not identical, their characteristics should be similar. However, in this world's mines, gems were disorderly and disordered. There were no rules, and it was possible for any kind of gems to appear.

No one knew how such a vein was formed, and it became one of the biggest mysteries in the world.

Time flew, more and more Martial Warriors entered the Divine Armament Building to participate in the bet, there were even many armored soldiers present. The primordial stones that contained gems were selected one after another, which stimulated many of the Martial Warriors who were in the middle of selecting them to go crazy.

Even in the low rank ore area, the number of Martial Warriors increased to a few hundred.

Tang Huan's expression was still calm from the start. In this region, he and Mu Yan had already walked a third of the way, but Xiao Budian, who was hidden in the cloth bag in front of his chest, had not made a single movement from start to end ... Fortunately, although Tang Huan had some expectations for the stone gambling, but he did not have much, so he was not anxious at all.

"Yiya!"

After a while, Xiao Budian's extremely soft voice finally sounded out.

Tang Huan's heart jumped, his footsteps paused, and his gaze immediately fell on the small pile of Ancient Prairie stones a few meters away. Of the ores in the vicinity, besides the two piles behind him, there was only the pile that was the closest to him. Xiao Budian reminded him at this moment, the one he was sure to point at was those ores.

Beside the pile of rocks, there was a yellow-clothed youth who was clearly a novice. He was currently bent over, curiously sizing up the place.

"This pile of ores looks pretty good."

"Let's go and take a look."

Tang Huan and Mu Yan exchanged glances, while talking and laughing, they slowly walked over and started searching through the rocks. According to their agreement, if Tang Huan were to come across any gems hidden within the Primordial Stone of Inheritance, Xiao Budian's head would lightly bump against him.

"Do you also think that it's not bad?" The yellow-clothed youth looked at the two of them with interest, he also grabbed an ancient ore, "I ..."

"Lil 'Lin, what are you doing here?"

"All of these ancient stones have been piled up for who knows how many years, and those with gems have already been picked up. Let's go, let's go over there to take a look, there's a pile of new Ancient Stone."

Without a word, the Black Costume Brawny Man pulled up the yellow clothed youngster and walked forward. Before he left, he shot a glance at Tang Huan and Mu Yan with disdain.

Tang Huan laughed in his heart as he started to search the ores around.

When he left this place and walked to the next pile of primeval stones, Tang Huan was still hugging the sleepy Feng Ming who was lying on his shoulder. However, both of Mu Yan's hands were already holding onto one of the primeval stones.

"Those two guys look like newbies. Two hundred gold coins is a waste of time."

Ten metres away, in front of a pile of fresh ores, a Black Costume Brawny Man unconsciously lifted his eyes and saw Tang Huan and Mu Yan's figures leaving. He could not help but snort, and upon catching a glimpse of the dark and dull ores in Mu Yan's hands, he could not help but sneer.

The yellow-clothed youth at the side could not help but weakly say, "Third Uncle, what if they ..."

"How could there be so many? If we can find gems in that pile of old rocks, the roosters can lay eggs and the hens can crow. " Black Costume Brawny Man laughed coldly.

" ... "

After finding two Ancient Ore Stones, Tang Huan's luck was exceptionally good. Not long later, Tang Huan found two more Ancient Ore Stones according to Xiao Budian's judgement.

"Just one more." Mu Yan could not help but ask.

"There's no need to search any further."

Tang Huan shook his head and laughed, then suddenly threw back the ancient ore he had picked out earlier. He then casually took out two of the ores from the pile and collected five of them.

Mu Yan was startled for a moment, "Why are you ..."

"Let's go, we'll pay over there."

Tang Huan did not reply. Instead, he grabbed onto a piece of ore and stood up while smiling. With a lift of his feet, another ore fell into the crook of his arm which was wrapped around his chest.

"I understand!" With that thought, a smile of realization appeared in Mu Yan's eyes.

" ... "

Chapter 174: Is there something wrong with this kid!

On the left side of the hut, the stone opening point had already been surrounded by many Martial Warriors. From the crowd, a long line of people stretched out.

After handing over the three golden notes that were worth five hundred gold coins, Tang Huan stood at the back of the convoy with the purchase certificate. The five Ancient Origin Stones were all in a cloth bag gifted to him by a Divine Armament building, which Mu Yan carried.

At this time, there were still approximately forty to fifty people in front of Tang Huan.

It was reasonable for such a situation to occur. The glue on the surface of the Ancient Ore was not something that could be easily cut, it required a special Heavenly Grade Armament, and the power of a Heavenly Grade Armament was not something that any Martial Warriors could unleash, it had to be at least at the eighth stage of Martial Lord.

Rankers like Martial Lord of the eighth step, were not like Stage Five Martial Master, who could easily find thousands of them.

However, even though there was only one Martial Lord of the eighth step in charge of opening stones, their speed was still extremely fast. Not long after, Tang Huan had lost about ten people, and this group had not shortened, but instead grew even longer.

When Tang Huan turned his head back, he was even able to see the Black Costume Brawny Man and the yellow-clothed youth in the lower tier who were also picking ores. Only when he noticed Tang Huan's gaze, Black Costume Brawny Man's expression became somewhat strange, as though he was ridiculing him, but at the same time, feeling pity for him.

Tang Huan thought for a bit, and then guessed what the fellow was thinking. He smiled slightly, and turned his gaze back ahead.

At the end of the line, one could vaguely see a green-robed elderly man sitting cross-legged in front of a low table. The Heavenly Grade Armament in his hands seemed to be a dagger, and a white light was faintly discernable.

The indescribably excited laughter and the cries of the surrounding Martial Warriors occasionally stirred the void. Everyone in the room understood what this signified. Since there were people who succeeded, there were naturally people who failed as well. Martial Warriors came out of the crowd continuously with depressed and frustrated expressions on their faces.

Not even fifteen minutes later, only a young man remained in front of Tang Huan.

When that guy handed over the Primordial Ore in his hand, his hands were trembling a little. Tang Huan observed carefully and discovered that the surface of the ore was dotted with irregular red lines.

"Tsk tsk, the upper grade region's ancient essence stones, every single one of them is worth 50,000 gold coins."

"For such a pattern to appear after being unraveled, it must be a gem of the fire attribute."

"You're right. However, fire gems are also divided into ranks." It could be a low-grade gem, 'Flaming Cloud Stone'. It could be a mid-grade gem, 'Heart Flame Stone'. It could also be a high-grade gem, 'Crimson Sun Stone' ... Although this ore has deep markings, it is fragmented and incoherent. It is extremely likely for a low-grade gem like the 'Flamecloud gem' to appear. "

"I think so too."

"..."

In the surrounding crowd, Martial Warriors began to whisper to one another. Hearing these voices, the young man's face turned pale.

"Swish ..."

In the next moment, the thin sound of breaking through the air was dragged out like a thread. The old man waved the dagger in his hand without the slightest pause.

In Tang Huan's line of sight, the ore in the old man's palm tumbled, a white light rapidly flickered near the surface of the ore, and the fragments of the stone flew around, causing him to be dazzled. He could not pinpoint the trajectory of the dagger at all, but he could clearly feel the sharp intent it emitted.

Tang Huan could faintly understand in his heart that the old man must have tried his best to restrain himself. Otherwise, when he brandished the dagger, there would not be many people around him that could get within a few metres.

"Chi!"

After another slash, a red light appeared in the old man's palm. At the same time, a very strong heat was emitted.

In that instant, the surroundings immediately quieted down. Soon, cries of alarm arose from the crowd.

"It can't be, I can see the gem so soon?"

"The ore has shrunk to less than half its original size, and a gem has already appeared. Fuck, could this be a 'red sun stone'?"

"It's definitely a 'Crimson Sun Stone'! None of the other fire gem are this big! "

"This kid is really lucky. A single 'Crimson Sun Stone' costs at least six hundred and fifty thousand gold coins!" He made six hundred thousand in one go! "

"..."

As the crowd discussed amongst themselves, the ore in the old man's left hand started to glow with a red light. The movements of the dagger in his right hand also became more and more detailed.

When the young man saw this, his body trembled even more violently. However, this was all because of his excitement. His slightly pale face had already swelled up to a flushed red.

Moments later, the old man paused for a moment. The white light from his dagger instantly disappeared, and in his hand lay a gem the size of a rice bowl.

The gem was round and red like fire. The most amazing thing was that inside the gem, there seemed to be a layer of faint red light. From afar, it looked like there was a small sun hidden inside.

"It really is a Crimson Sun Stone!"

"Crimson Sun Stone!"

The crowd burst into cheers once again.

For a moment, many Martial Warriors s couldn't help but look at the young man with eyes that revealed unconcealable envy and jealousy. If not for the fact that it had dozens of even more precious "Phoenix Stones," it might have really thought of a way to get hold of this Scarlet Sun Stone.

"That's right." The green-robed elder smiled, then tossed the gem towards the young man.

"Thank you, senior!"

The young man's voice trembled as he received the gem. With a face full of ecstasy, he walked to the side, but was immediately surrounded by several people, as if they wanted to ask him if he was selling the gem. The young man ignored them and directly walked to the edge of the crowd. It was only then that Tang Huan realised that there was a Divine Armament Tower's gem purchasing area.

Without bothering to look, Tang Huan immediately took the cloth bag with the ore from Mu Yan's hands and gave it to the old man, then bowed slightly and returned while hugging Feng Ming.

The green-robed elder didn't say much and directly took out an ancient ore from his cloth bag.

The moment this ore appeared, everyone around was stunned. Not only them, even the green robed elder was startled. After looking at Tang Huan with a bit of surprise, his gaze returned to the Origin Stone in his palm, and at this time, the surrounding people who had recovered from their shock burst out into laughter.

"Ha, could this kid be crazy? Or is he crazy because he wants to pick up the ore? He dares to buy this ore?"

"Look at the appearance of this ancient ore. It has been in the lower grade area for at least five years. This ore is no different from trash."

"He's definitely a newbie who wants to try his luck. Anyone with some experience wouldn't do such a stupid thing."

"..."

All kinds of sounds could be heard. Some were ridiculing, some were ridiculing, some were taking pleasure in others' misfortune, and some were feeling sympathy for them. Everyone's expressions were all different, but none of them were optimistic about this ancient ore.

In the early years of the stone gambling, there were indeed quite a few people who picked up these ancient ores with the intention of picking them up, but without exception, those who picked up these stones all ended up in failure. After that, this kind of fella practically disappeared from the Dragon Spring Town, but unexpectedly, another one appeared today.

Madam, we're rich!

"Chi!"

The old man's dagger in his hand began to dance rapidly once more, and the fragments of the stone fragments began to pile up higher and higher. The ancient ore in his palm became smaller and smaller, and in the time it took for ten breaths, it was only the size of an egg.

Crack! The dagger slashed across the ore once again, but the sound it produced suddenly changed slightly.

The old man didn't stop. The sharp dagger was still dancing in the air like a fairy jumping from one finger to the other, leaving behind a series of afterimages.

After a moment, the sound of the blade and ore grinding against each other came to a screeching halt. The green-robed elder's movements finally came to a halt.

Then, a walnut-sized stone appeared in the elder's left palm. It looked like a goose egg, and it was grayish without any light.

"An ordinary stone!" "Haha, it's true!"

"I knew it. How could such an ancient ore open a gem?"

"Has this kid gone silly?"

Laughter once again rang out, and when everyone looked at Tang Huan and Mu Yan, the teasing and ridiculing intent became even more intense.

Behind the group behind Tang Huan and the other ten people, the Black Costume Brawny Man curled his lips in disdain, with a "I knew it would be like this" expression, "That kind of Primordial Ore that has been here for many years, absolutely do not choose it. If you want to choose, pick a new one that hasn't been there for a long time."

The yellow-clothed youth nodded his head with an unconvinced expression, but he didn't argue.

"Chi!"

Another ten breaths of time passed. Another gray stone appeared in the green-robed elder's left palm. It was only twice the size of the previous stone.

"I really don't know what they are thinking. Even if they were to randomly choose a few ancient ores that they sent over last night, they wouldn't be as good as these old stones."

The surrounding Martial Warriors were muttering, with an expression that was as expected.

A moment later, the old man grabbed the third ancient ore under the crowd's gaze.

[illegible]

"Am I seeing things? Is there a gem hidden inside?"

"This is a water attribute gem?"

"Hiss, what kind of luck does this brat have? He was able to pick out an ancient ore with gems inside. Judging from the appearance of this ancient ore, it must have been here for quite some time."

"..."

Astonishment voices sounded from time to time in the crowd.

"Third Uncle, look! A gem has dropped!" In the group, the yellow-clothed youth was a bit excited and couldn't help but pull at the clothes of the strong man beside him.

"I was just lucky enough to stumble upon one. What's there to be surprised about? In my opinion, it should at most be a low-grade gem." Black Costume Brawny Man's face turned black as he replied in a low voice.

"If I'm lucky, I can make a return even if it's a low-ranked gem. It might even be a mid-ranked gem." The boy mumbled.

"What did you say?"

"No, nothing..."

"..."

Just as the two of them were muttering to each other, Tang Huan, who was in front of them, could not help but grin.

"Haha, at least I managed to get one. Fortunately, I didn't lose all 500 gold coins!"

Tang Huan grinned, his face full of joy.

Just as he finished speaking, the old man stopped his dagger. A light blue gem had been created. The gem was about the size of a baby's fist. It was flat and sparkling with a blue light. Within the gem, deep patterns could be seen, like rippling waves.

"Water Immortal Stone!" It's worth close to ten thousand gold coins! "

"Middle gem!"

"It's actually a Water Immortal Stone!"

"..."

At first, there was silence, but soon, cries of surprise rose and fell.

When Tang Huan heard it, he could not help but be stunned for a moment. But in an instant, as if he was holding such a valuable item for the first time, he actually shouted in ecstasy, "The Water Immortal Stone! This is a Water Immortal Stone worth nearly ten thousand gold coins. "We're rich ..."

Excited, Tang Huan found it hard to suppress his emotions and hugged Mu Yan tightly.

"I really made it."

Mu Yan's eyes were also shining brightly, she was so excited that she was smiling, but her delicate body was stiff, and an undetectable sense of shame and anger flashed past her eyes, while her cheeks and ears were quickly burning, but because of the medicinal liquid, it wasn't obvious.

Seeing the two of them like this, the originally surprised crowd immediately became speechless.

Just which corner did this pair of bumpkins come from to cause them to behave like this? It was just a "Water Immortal Stone" worth nearly ten thousand gold coins, but if it was a high-grade gem worth several hundred thousand gold coins, then wouldn't they go crazy?

Immediately, when many people looked at Tang Huan and, there was an extra trace of despise in their eyes.

"Father, mother ..." A sweet call came out, but Feng Ming was awakened by Tang Huan's sound and rubbed his large eyes in a daze.

"It's okay, it's okay. Little darling, go back to sleep. Dad will bring you to buy some good food when you wake up." Tang Huan smilingly patted Feng Ming's little butt.

"Woo ..."

Feng Ming lied on top of Tang Huan's shoulder and squinted his eyes. The moment before his eyelids closed, his shiny black eyes seemed to flash with embarrassment.

"Swish!"

At this moment, the green-robed old man had already placed the Water Immortal Stone to the side and picked up the fourth ancient ore.

Tang Huan stared at the old man's hands and muttered.

Many of the surrounding Martial Warriors listened attentively, only to discover that this fellow was muttering these words repeatedly. "Another middle ranked gem, and another middle ranked gem ..."

"You want a mid-grade gem?" This fellow is too greedy! "

"Motherf * cker, it's good enough that this kind of ancient ore could produce a middle rank gem. To think that it would open another one, this is simply daydreaming!"

"Let's wait and see. It must be another useless piece of rock!"

"..."

A large number of Martial Warriors s were cursing in their hearts, and a few of the Martial Warriors s could not help but start cursing in a low voice.

Chapter 176 It wasn't playing dumb, it was really stupid!

But after a short while, the surrounding Martial Warriors were already speechless, the green robed elder's left palm, that was quickly turning the ore, had suddenly revealed a large amount of black color.

Another gem was about to appear?

The couple's luck was that good!

One had to know that the location where they chose the Ancient Ore Stone was neither the middle or upper grade area nor the top grade area that had a 100% success rate. It was the lower grade area with the lowest success rate! Furthermore, the five ancient ores that they had chosen were all ancient stones that had been left behind for many years.

Let alone the Martial Warriors who came in to gamble, even the Divine Armament himself, did not hold much hope for these ores.

But now, two of the five old stones that the two of them had picked out had actually dropped a gem.

"Haha, it hit!" It hit! It must be another mid-grade gem! " Tang Huan laughed, beaming with joy.

"Intermediate gem? It's too early for you to be celebrating! " Seeing his appearance, a white clothed man in the crowd couldn't help but mock him.

"That's not necessarily true."

Tang Huan said complacently, "As the saying goes, good things come in pairs. Since there's a mid-ranked gem, there must be another, maybe even a high-ranked gem ..."

Before he could finish his words, he was interrupted by a wave of laughter. The old man had already stopped his attack, and an egg-sized gem appeared on his left palm, dark as ink.

"High-grade gems?" This old man is going to die from laughter, haha! "

"Brat, open your eyes wide and take a look. See what kind of gem it is."

"It's actually a low grade jewel, 'Ink Spirit Stone'!"

"..."

The sounds of ridicule and ridicule never stopped.

Looking at the black gemstone, Tang Huan was dazed for a moment. He then scratched the back of his head and laughed helplessly: "Low level gems are not bad too. That 'Water Immortal Stone' can be sold for close to ten thousand gold coins. This 'Ink Spirit Stone' can be sold for at least a few hundred, right?"

"A few hundred?" The white-robed man sneered. "You still want to sell it for a few hundred gold coins?" A single Ink Spirit Stone is worth fifty gold in Origin Continent, and in this Dragon Spring Town, if you can sell it for thirty gold, you will be burning incense! "

"That little?"

Tang Huan was shocked, then he withered down like an eggplant.

But when he saw the green robed elder put down the "Ink Spirit Stone" and grab the fifth Ancient Stone, Tang Huan's eyes lit up again, as he clenched his teeth and swore, "I'll take thirty, I still have one Stone of Origin, this Stone will definitely produce another middle leveled gem!"

"..."

Hearing his words, the crowd was angered.

How ignorant must this fellow be to be able to say such brainless words? Even the carefully selected ancient ores from the upper tier had a certain chance of dropping a useless rock. This guy actually had the guts to say that a low tier ore was definitely hiding a middle ranked gem?

With regards to the surrounding gazes, Tang Huan turned a blind eye to them and continued to stare at the old man's hands as he recited an incantation.

Beside Tang Huan, Mu Yan also had a face full of anticipation.

However, in her heart, she was almost laughing out loud. This Tang Huan really knew how to play dumb, but he succeeded in diverting everyone's attention. After all, to choose a ore in the lower tier area, and succeed in one of the dozens, could be considered good luck.

And out of the five gems that Tang Huan had chosen, he had already succeeded in choosing two of them!

"Swish!"

A soft sound could be heard as the dagger in the old man's hand danced like a butterfly. Unknowingly, a black shadow had appeared on the ore in his left hand.

"Dammit, do they really have gems?"

"Three pills in a row, right? This luck is simply too great. "

"Pfft!" Black? Could it be another low grade jewel, 'Ink Spirit Stone'? "Haha ..."

"..."

Everyone was startled at first, but then they burst out laughing.

This Ancient Ore Stone came from the lower tier area, so the possibility of a "Ink Spirit Stone" appearing after it was unlocked was very high. The guy who had just promised he would drop a mid-grade gem, after seeing the current situation, he must have had a very interesting expression on his face.

Quite a few people subconsciously looked towards Tang Huan, and realised that his face had fallen.

This greatly relieved everyone. Why was it that so many people had lost everything from gambling? These two bumpkins were clearly the first time they had bet stone, yet they were able to make a huge profit. Unfortunately, he also bet a "Water Immortal Stone", otherwise, those two "Ink Spirit Stone" would have been able to wake him up.

"It's the 'Ink Spirit Stone' again. Sigh, Madam, we've suffered a huge loss. Two ores cost us 200 gold coins, but we only earned 60 gold coins. We've lost 140 gold coins." Tang Huan sighed, feeling extremely depressed.

"I told you not to pick the ore long ago, but you insisted. Is it okay now?" Mu Yan's face was stern, and he snorted in anger.

"..."

Seeing the two of them in such a state, everyone was filled with black lines.

These two ores were only worth a hundred and forty gold coins, yet the previous one had earned nearly ten thousand gold coins. Why didn't you say it?

"Huh?"

Just when everyone was at a loss whether to laugh or to cry, the old man in green robe suddenly let out a soft cry and his hand movements also stopped.

Everyone was startled when they saw the abnormal behavior of the old man, but soon after, their eyes were filled with bewilderment and bewilderment. Although the old man didn't even have the

time to breathe, this was the first time something like this had happened after he had been here for so long.

Could it be that there was another mystery to that ore?

Everyone began speculating. As they carefully observed, they discovered that the old man's movements seemed to become even more meticulous, just like when he unraveled the ancient essence stone that contained the 'Crimson Sun Stone'.

After about ten breaths of time, the old man had finally finished unraveling the stone.

A pitch-black gemstone appeared in his palm as expected, but what was completely different from the "Ink Spirit Stone" from before was that this gemstone actually released an incomparably dazzling black radiance. It looked like a small black hole, as if it wanted to completely suck in the surrounding light.

With a single glance, one could tell that this gem was extraordinary.

"Obsidian!" It's actually 'Obsidian Stone'! "

"Damn, this isn't a Ink Spirit Stone, this is clearly a high-grade gem, the 'Obsidian Stone'!"

"An old stone from the lower tier area actually managed to produce 'Obsidian Stone'. I've seen a ghost!"

"..."

In the surrounding crowd, everything was quiet for a moment, then erupted into deafening exclamations. Everyone looked at Tang Huan with eyes filled with surprise, this guy's luck was too good, three of the five raw stones were hit, and there were even high-grade gems like the "Obsidian Stone"!

Under hundreds and thousands of gazes, Tang Huan was dumbstruck as well.

This time, he was not pretending to be stupid, but was truly stupid!

As he had expected, another middle-ranked gem would be more or less, even if it was not as valuable as the "Water Immortal Stone". After all, the "Water Immortal Stone" was a kind of special gem, not only did it contain low-ranked gems but also mid-ranked gems. Because of this, its value among mid-grade gems was considered quite high.

It would not be easy to get another mid-ranked gem of such value. However, Tang Huan did not expect that the last Ancient Ore Stone would actually give out a high-ranked gem, the "Obsidian Stone".

Chapter 177 I took it at random!

Previously, in the low rank area, he had thrown one of the four ores that Xiao Budian had chosen back, and casually added two more, because he did not want to attract too much attention.

But now, things seemed to have gone against his wishes.

If it was just two mid-ranked gems and a low-ranked gem "Ink Spirit Stone", then it wouldn't be a big deal.

However, not only did three of the five ores drop, but one of the three gems dropped a high-grade gem called the "Obsidian Stone". This was extremely inconceivable.

"High-grade gem!" High-grade gems, haha ... "

In an instant, Tang Huan looked as if he had just woken up from a dream, and then, as if he had lost control of himself, he laughed out loud.

After laughing for a while, Tang Huan seemed to have thought of something, and said nervously: "The middle ranked gem is worth close to ten thousand gold, this high ranked gem can be sold for up to one hundred thousand ... "No, fifty thousand gold coins?"

"Fifty thousand gold coins?"

Hearing Tang Huan's words, the surrounding Martial Warriors were a little crazed.

High-grade gems were worth at least a hundred thousand gold coins! Was this guy even a Martial Warriors who didn't know anything about the price of gems?

It was undeniable that there were many people in the world who were not concerned about this at all, especially those who stayed in the depths of the mountains because of the invasion of the Demon Clan. Their descendants were isolated from the world, and had not been out for many years, thus they were completely unaware of the situation outside.

"Brat, you've struck gold. Even 'Obsidian' costs at least 450,000 gold coins!" An old man with white beard and hair couldn't help but laugh bitterly.

"What?" Four hundred and fifty thousand? "

Tang Huan's eyes widened, as he gasped for air, his face full of disbelief: "Senior, you're not lying to me right? I casually took out a piece of ore, but it's actually worth so much gold coins. "

"You took it at random?"

Everyone looked at each other and felt the urge to vomit blood.

The ones they chose from the middle and upper tier could only be medium-grade or low-grade gems or even low-grade gems. Yet, this fellow casually picked up an old stone from the lower grade area and created a high-grade 'Obsidian Stone'!

"My luck is good. Catch it."

The green robed elder revealed a smile, and raised his head to look at Tang Huan. He spoke a few more words, and with a light wave of his left hand, he threw the three gems over.

"Thank you, senior. Thank you, senior."

Tang Huan quickly caught the three gems and bowed continuously. He smiled until his mouth couldn't close, then pulled Mu Yan who was standing at the side, "Madam, why are you still standing there foolishly? Let's quickly sell these gems and buy more ores. This time we are going to the middle and upper tier. "

"Oh, oh."

Mu Yan seemed to have not recovered from the pleasant surprise and followed behind Tang Huan foolishly.

After a while, Tang Huan and Mu Yan went to the storage area set up in Divine Armament Tower, using three gems to exchange for a large stack of gold notes, then excitedly jumped out of the crowd and ran towards the inside of the shed.

Everyone paid attention to Tang Huan and Mu Yan, who were currently in the middle tier. Looking at the two's figures disappearing in the distance, everyone sighed with emotion.

"Truly a treasure, I bet he definitely just came out from a deep forest somewhere in the Sword Crafting Valley area. However, his daughter is quite pretty, and his woman, even though she doesn't look much, her figure is still extremely good."

"This guy's luck is pretty good. He found five ancient raw stones in the lower tier area and actually got three of them, and one of them was a very precious' Obsidian Stone 'among the high grade gems. Even in the middle tier area, finding five ancient stones would not necessarily result in such a harvest."

"No one's luck will continue to be good. If they stop right now, it can be said to be a huge profit. If they continue gambling, perhaps they will lose all of the several hundred thousand gold coins they just got."

"..."

Everyone sighed, they were extremely envious of Tang Huan and Mu Yan's good fortune, but the actions that the two of them were doing right now, made many people secretly shake their heads, there were even many Martial Warriors who were gloating from the bottom of their hearts, and were prepared to watch the two of them betting on the loss of everything.

Amongst the group waiting to be untied, the yellow-clothed youth retracted his gaze from Tang Huan's body. His eyes rolled around as he ran off into the distance with familiarity.

"Lil 'Lin ..."

When Black Costume Brawny Man just woke up from the great shock, he felt his face burning and his gaze becoming extremely complicated. He could not help but shout out in regret, but when he realised that his nephew had already run far away, he was shocked and chased after him while shouting, "Little bastard, come back here!"

Tang Huan and Mu Yan naturally did not pay attention to the voices behind them. Their footsteps were extremely fast, and they were getting closer and closer to the middle grade area.

"You sure know how to pretend. If I didn't know who you were, I would have definitely been deceived by you." Mu Yan's eyes moved about, and he could not help but ask in a low voice.

"I'm trying to drive the ducks out of the house!"

Tang Huan laughed somewhat helplessly. If he did not act like a country bumpkin who had never seen the world and kept on making jokes, the most likely thing that the Martial Warriors would pay attention to right now was not his good luck.

Mu Yan smiled, then said slowly: "Good luck can only be used once, but not twice. We can only gamble again, if we do not find the 'Heavenly Wood Stone' this time, we will have to leave the Divine Armament."

"That's right, this time I'll have to spend all my gold."

Tang Huan slightly nodded his head. Divine Armament Tower's recovery gem prices weren't low, "Ink Spirit Stone", "Water Immortal Stone" and "Obsidian Stone" were sold for a total of 480,000 gold coins.

The ores in the medium-grade area were each worth 2000 gold coins. In the high-grade area, each one was worth 50,000 gold coins while the ones in the top-grade area cost 200,000 gold coins. These gold coins of Tang Huan's could not be spent in the top grade area, but he could buy a lot of Ancient Ore in the middle and high grade areas.

While they were talking, Tang Huan and Mu Yan had already entered the middle grade raw stone area.

The Ancient ores were arranged neatly on wooden shelves, in rows and rows for others to choose from. Amongst the four regions, Martial Warriors had the most people wandering around.

Tang Huan estimated that there were at least a thousand people gathered here.

Tang Huan walked along the wooden shelf with Feng Ming in his arms. It was not that he did not want to hand Feng Ming over to Mu Yan, it was just that his existence of hugging Feng Ming made it easier to conceal Xiao Budian.

Time flew, and after walking around the middle grade area for almost an hour, the large cloth bag that Mu Yan was holding was almost full, the number of raw stones inside had increased to exactly forty.

Tang Huan continuously walked into the middle grade area. Forty middle grade Ancient Origin Stones cost eighty thousand gold coins, and the remaining four hundred thousand gold coins were just enough for him to choose eight Ancient Origin Stones in the high grade area.

Compared to the middle grade area, the number of ores and people in the high grade area was greatly reduced.

The marks on the surface of the ore became even more obvious. This time, Tang Huan didn't walk around like before and look at the flowers, but rather, he moved through them with the ores in the rocks

Chapter 178 See Green

After nearly an hour, Tang Huan and Mu Yan arrived at the Comprehending Rock Area once again. Four hundred and eighty thousand gold coins had already been exchanged for a full bag of forty-eight primeval stones.

It was only now that Tang Huan realised that there were already three rows of people queuing up for the opening of the rock.

There were more than a hundred people in each group, and at the front of the group, there were a human figure sitting cross-legged, constantly waving his dagger in his hand and slicing the ancient ore. It seemed that when the Divine Armament saw that the green robed elder was in a fluster, he asked for two Martial Lords of the eighth step to help him.

Tang Huan and Mu Yan almost didn't even think as they stood in front of the green-robed elder.

This caused the number of people gathering in front to be many times more than before. Every time an extremely valuable gem appeared, the shouts from in front to there would shake the heavens and the earth, causing one's ears to buzz, as though even their eardrums would shatter.

Very quickly, people discovered the 'husband and wife' that Tang Huan and Mu Yan were having with their children.

"Look, the guy who picked three of the five old stones in the lower tier area is truly coming again."

"Such a big bag of Ancient Ore ... I'm afraid there's at least forty to fifty of them. Tsk tsk, even though he's so rustic, he's quite bold. It looks like he's already spent all of his 400,000 gold coins!"

"Hmph, just wait and see. It's already good enough that he could earn half of his 400,000 gold coins. It's easy to find a high-grade gem like the 'Obsidian'."

"What, you can even get 'Obsidian Stone' from a few of the old ores in the lower tier?" Isn't his luck too good? Or does he have some methods to choose ores? "

"What tricks could he have? A bumpkin that just came out of a forest deep in the mountains, we just ran into him."

"..."

All sorts of voices came from afar, the fingers of a few Martial Warriors s touched upon this matter, drawing even more attention from Tang Huan and Mu Yan.

Hearing those words, Tang Huan frowned, he seemed to be displeased, but at the same time, he was not convinced. From time to time, he would tiptoe to the side and peek his head out, looking extremely impatient, as though he wished that he could immediately run to the front and take out the ore to gag those people.

Time passed bit by bit, and the number of people waiting in front of him gradually decreased.

"The 'Black Tortoise Stone'! It's actually a high-grade jewel, the 'Xuanwu Stone'! "

"There are so many gems hidden in the old ores in the low rank area?" "Damn, just two high-grade gems appeared today."

"First it's an 'Obsidian Stone', and now it's a 'Black Tortoise Stone'! This old man's heart's slightly moved!"

"I'll go to the lower tier area to pick a few old ores and see how my luck is."

"..."

Tang Huan subconsciously looked towards the front of the convoy to the far left in the blink of an eye. Two familiar figures entered his eyes: it was Black Costume Brawny Man and Huang Yi's uncle and nephew.

His luck was good. Although the value of the "Black Tortoise Stones" could not be compared to the "Obsidian Stone", a single one was worth at least three hundred thousand gold coins.

This sudden good luck had obviously caused the uncle and nephew to be somewhat dazed. They stayed in a daze for a long while before their faces flushed with excitement, and their hands and feet danced. Then, Black Costume Brawny Man excitedly ran over to the purchase point with the

precious stones in hand. The yellow-clothed youth smiled widely as he followed behind, his eyes sweeping the area.

After a while, the yellow clothed youngster's two eyes fell on Tang Huan, and his eyes were actually filled with ... Gratitude?

This caused Tang Huan to be a little surprised. The Primordial Stone that they picked out was not the one that Xiao Budian dropped after picking it, right? This possibility was extremely high. When he was in the lower tier area, he had noticed that the youth was looking at him and Mu Yan several times.

Even so, Tang Huan did not feel that it was such a pity, but his face still revealed an envious look, which suited his current identity.

The surrounding Martial Warriors all had faces full of jealousy and hatred. First, it was Tang Huan's "Obsidian Stone" bet, and now it was the uncle and nephew pair's "Profound Martial Stone", causing everyone's heart to stir. In just a few breaths, there were at least a hundred people who left the crowd and ran towards the lower tier area.

"Haha, we're here again!"

After almost half a quarter of an hour, all of the Martial Warriors at the front finally finished deciphering the stone. Some were depressed, some were excited. Tang Huan had an impatient look on his face. After grinning, he waved towards Mu Yan who was behind him, "Madam, quickly give this bag of ores to Senior."

Before he finished speaking, Mu Yan had already brought a bag of ores to the old man's side, smiling widely.

Seeing that, many of the surrounding Martial Warriors had strange looks in their eyes.

But the ones that won were only a small minority. Even if they had won in the beginning, if they did not know how to control themselves, they would still lose everything in the end. After all, luck was always going to be used up in that moment. The couple was no exception.

Everyone had different expressions. However, the old man in green robe didn't say anything and just grabbed a ore from his bag.

The middle-grade, high-grade, and even top-grade ancient stones all had labels on them. The label that the old man had just taken out had the word 'medium-grade' on it. On the surface of the ore, there were four green lines, one deep and the other shallow. It was hard to say if there were gems hidden inside.

"Swish ..."

While everyone was carefully sizing up the ancient ore, the old man in green robe had already moved the dagger in his hand. The slight sound was like a thread, continuing without end.

Feng Ming who was lying on Tang Huan's shoulder, suddenly woke up, and looked around with his black eyes, with an innocent look.

Tang Huan and Mu Yan, on the other hand, uncontrollably clenched their fists as they stared unblinkingly at the green robed elder's hands. Their expressions were filled with anticipation and

apprehension. In the process of deciphering the stone, the Martial Warriors who had participated in the stone gambling revealed almost all of these expressions.

Tang Huan had a deep impression of this ore, and the gems hidden inside had indeed made him look forward to it, just that it was not as exaggerated as he was showing off at the moment.

While choosing the ore, Xiao Budian's head knocked three times on Tang Huan's chest. According to their agreement, Xiao Budian would only react like this when he met extremely powerful wood type gems.

There was definitely a gem inside the ore, but since it wasn't a "Sky Wood Stone", Tang Huan didn't dare be sure.

"It's green! It has become green! "

"There are gems!"

"..."

Just as Tang Huan was thinking about that, a few exclamations of surprise sounded out at the same time. Tang Huan looked over, and indeed, a green light appeared on the left palm of the old man in green robes.

"Haha, it's definitely a high-grade gem!"

Tang Huan blinked his eyes a few times, then waved his fist excitedly and laughed out loud. Under the cover of this exaggerated expression, Tang Huan's heart was secretly relieved, but at the same time, a hint of happiness rose in his heart.

Chapter 179

Almost at the same time Tang Huan finished speaking, the green-robed old man's hands froze in the air, and the left palm of his hand shone with a bright light. It was a green gem, sparkling and translucent like an emerald, but its shape was extremely irregular. It was actually extremely similar to the cartoon tree from Tang Huan's previous life.

"Sky Wood Stone!"

In a split-second, exclamations and gasps sounded in succession in the surroundings.

Even the eyes of the green-robed elder slightly nodded as he looked at the gem in his palm. His thin face revealed a trace of unconcealed admiration.

"Sky Wood Stone? "Is this a high-grade gem?"

Tang Huan seemed to have noticed that the atmosphere was not right, the smile on his face slowly disappeared, and after looking for a while, he asked curiously.

All of the surrounding Martial Warriors immediately regained their senses, but they did not know whether to laugh or cry.

"If the Heavenly Wood Stone is not even considered a high-grade gem, then what gem could be considered a high-grade gem?" Not only was the Heavenly Wood Stone the best wood type high-grade gem, but even amongst all the high-grade gems, it was one of the most valuable, and it was also priceless.

"The 'Heavenly Wood Stone' is an extremely rare high grade Wood Spirit Stone. This brother, if you want to sell it, our Divine Armament Tower is willing to buy it for a million gold coins."

A loud and clear voice suddenly came from not too far away. It was actually from a few meters away, the middle-aged man in charge of purchasing gems in Divine Armament Tower could not help but stand up, and shouted out loudly. When he looked at the gem in the green-robed elder's hand, his eyes unexpectedly burned with passion.

"Hundred ..." A million gold coins? " Tang Huan's eyes were wide open, as if he could not believe his ears.

"That's right, a million gold coins!" The middle-aged man chuckled as he emphasized the point.

"I want this' Heavenly Wood Stone '. One million two hundred thousand gold coins!" But before he finished speaking, a metallic clang suddenly sounded out. The one who spoke was a golden robed elder around the age of sixty. He was only of medium height, but his body was extremely robust and he had an imposing manner when he spoke.

"One million three hundred thousand!" Divine Armament Tower's middle-aged man looked at the gold robed elder and frowned.

"One million and five hundred thousand!"

The old man in golden robes didn't even blink as he increased the bid by 200,000.

The middle-aged man's lips slightly moved, as if he still wanted to raise the price. But the words that came out of his mouth were swallowed back down. He helplessly shook his head with a smile and sat back down.

The golden-robed elder laughed loudly. "Brother, how about one million and five hundred thousand gold coins?"

"Ha... "Ah, no hurry, no rush. We'll talk about it later, we'll talk about it later."

Hearing what the gold robed elder said, he was just about to blurt out his agreement, but was gently pulled by Mu Yan on the sleeve. Only then did he seem to have thought of something, his eyes rolled around as he laughed and refused to do so.

Seeing that, how could the surrounding people not know what Tang Huan and Mu Yan were planning?

It was definitely because of the price they had raised just now that this country bumpkin couple felt that there was still room for an increase in the price of the "Sky Wood Stone." That was why they did not immediately sell the "Sky Wood Stone." This couple was not stupid, it was a pity that they were too ignorant and ill-informed. If they knew the identity of the old man who bid one million and five hundred thousand gold coins, even if they were given a hundred guts, they would not dare to raise the price.

The Martial Warriors s who knew of the golden-robed elder's origins did not utter a word of warning at the same time.

"Alright, alright, then we'll talk about it later!"

The golden-robed elder only chuckled and nodded his head when he heard this. His eyes narrowed slightly as his gaze suddenly became a bit sharper.

Tang Huan seemed to not have noticed, and laughed, proudly saying: "The first ore is a high rank gem that costs close to two million gold coins, my luck isn't bad, and I probably won't be much worse off next. There are a total of forty-eight ores, if only I could produce another ten or eight high rank gems!"

One was already good enough, yet he still wanted another ten or eight? Furthermore, what did the first half of his sentence mean? Nearly two million gold coins? This was the price he wanted to offer for the "Heavenly Wood Stone"?

Many of the surrounding Martial Warriors snorted coldly in annoyance. It had to be said that Tang Huan's current expression truly made them look like he deserved to be beaten up.

"Swish ..."

The green-robed elder, however, did not care about what was happening around him. He had already put down the "Sky Wood Stone" a long time ago, and took out the second ancient ore from his pouch to cut it up.

As time passed, the situation inside the ancient ores became more and more apparent.

"Trash!" A useless rock! A useless rock ... "Ha ha, I'm so happy, four of them are useless stones in a row, but this kid still wants to get another ten high-grade gems?"

"... Eh? Intermediate gem 'iceheart stone'? "It's so-so."

"Two pieces of high-grade ore in a row, and each piece is a low-grade gem that is only worth three hundred gold coins ..." A hundred thousand gold coins and only six hundred gold coins. Haha, look how dark that kid's face is.

"This is probably another useless piece of rock ... "Hm?" Heavenly Wood Stone? "How is this possible? Another high-grade gem appeared so quickly?"

"..."

"Forty eight gems. I've already opened thirty of them. Ten of them. Five of them are of low quality. Three of them are of medium quality. Two of them are of high quality. Tsk tsk ..."

"I only spent 480,000 gold coins to buy these ores, but now those two high-grade gems have already helped him earn several times the capital. The other 18 ores, even if they are all useless stones, it doesn't matter ..."

"Am I seeing things? Is this the third 'Heavenly Wood Stone'?"

"..."

About a quarter of an hour later, a pile of rubble appeared on the elder's left, while a pile of multicolored and resplendent gems was placed on his right hand. Among them were ten low-grade gems, four mid-grade gems, and a high-grade gem ... It was also four pills!

Of the four high-grade gems, the other three were all "Heavenly Wood Stones" except for one water-attributed "Fan Sea Stone".

"Only four high-grade gems ..."

Tang Huan muttered as he looked at the small pile of gems.

Hearing his words, all the surrounding Martial Warriors couldn't help but clench their teeth. Gambling Stones, one high-grade gem being able to gamble on one was already a good thing, but he was still not satisfied with four of them. Moreover, three of the high-grade gems were "Heavenly Wood Stones" that had no market price!

"Brother, can we have a chat now?"

Just then, the gold robed elder suddenly took a few steps forward, and smiled at Tang Huan: "Three 'Heavenly Wood Stones', five million gold coins, how about it?"

"No rush, no rush." Hearing that, Tang Huan's expression changed, but following that, he smiled and shook his head.

"You ..." A trace of anger appeared between the brows of the golden-robed elder.

"Thank you, senior."

But before the gold robed old man could finish speaking, Tang Huan had already turned his gaze away and smiled sincerely at the green robed old man as he bowed and thanked him. Then, he gestured for Mu Yan to put the gem away, and cupped his hands towards the surroundings as he laughed loudly: "Everyone, the two of us will be staying at the 'Dragon Spring Inn' in the west of the city. Tomorrow morning, we will be leaving for Glory Continent to broaden our horizons.

Everyone looked at each other, but Tang Huan did not speak further. Under everyone's gaze, he and Mu Yan walked away.

Chapter 180 - Dugu Yan, Wind Raises!

"..."

"This guy is really crafty. He actually thought of using such a method to raise the price!"

"High-grade gems like the Heavenly Wood Stone are simply too rare. Even in this Dragon Spring Town's Divine Armament, the number of 'Heavenly Wood Stones' he has obtained in one year is probably only two or three. Yet, this fellow only betted on three stones. "

"The news of him possessing three 'Heavenly Wood Rocks' will probably spread around Dragon Spring Town very quickly. When the time comes, when the wind blows, there will be no small number of Martial Warriors who will go to the Dragon Spring Inn and buy the 'Heavenly Wood Stone' from him. Who knows, at the very last 'Heavenly Wood Stone', it would be worth more than two million gold coins! "

"Even if one has a life to earn money, one must have a life to spend it." "

"That's right. The one who wanted to buy the 'Heavenly Wood Stone' just now was a general of the Sha Long Empire. His name is Dugu Yan and he is already a of the eighth step. That guy has offended him this time.

"Hiss, he is Dugu Yan? It is said that his archery skills are at the peak of perfection, especially his 'Nine Star Links', it is even more amazing. It is said that the reason why the 'Flamewing Phoenix King', one of the eight great Demon King s, was heavily injured is because his 'Nine Star Links' had hit it. "

"Haha, it seems like Dragon Spring Town will be very lively during these few days."

"..."

There were many different opinions around the stone unravelling point.

After discovering that the couple had left, the golden-robed elder's figure had also quietly disappeared. Many Martial Warriors s were somewhat gloating.

Once Tang Huan and Mu Yan left the Divine Armament, they headed towards the west side of the city.

"There are quite a few people following behind." Mu Yan frowned slightly as he tried his best to lower his voice.

"As expected."

Tang Huan's face did not change, he only smiled indifferently and said softly, "That 'Fan Hai Stone' is fine, but the three Heavenly Wood Rocks are extremely rare, so naturally, there will be many people who will be concerned about it. Especially that fellow who offered a price of five million, they will not give up, but they don't need to worry too much right now, they just want to see if we are really staying at the 'Dragon Spring Inn'."

"I have seen that person before. He was a general of the Human Allied Forces, a person from Sha Long Empire called Dugu Yan. His archery skills are superb, especially the 'Nine Star Chain Pearl' technique, which is extremely powerful. During the great battle of Two Realms Plain, the Flamewing Phoenix King, one of the eight great Demon King s, was injured because of him. " Mu Yan said in a heavy voice.

"Oh?" Flamewing Phoenix King was injured, was it because of Dugu Yan? "

Tang Huan was a little surprised, but soon after, a strange look flashed past his eyes.

It was at this time, Feng Ming's eyelashes suddenly trembled a few times when she was lying asleep on Tang Huan's shoulder with her eyes closed.

"I heard the news too."

"If there is no wind and no waves, then there must be a truth. However, why would Dugu Yan come to Dragon Spring Town instead of guarding it? "

"I'll have to ask you then!"

"Ask me?"

"Back at Feng Ming Mountain, didn't Cao Sheng say that the road back to Crescent City would very quickly be sealed up by the experts from the Sha Long Empire's army? "Dugu Yan is the trusted aide of Sha Long Empire's commander, Hong Liang. Since you killed Hong Liang's two sons, he cannot leave the Two Realms Plain without permission. How could he not send his trusted followers to deal with this matter?"

"So that's how it is. In that case, this Dugu Yan was indeed recruited by me."

"..."

As if they didn't sense anyone following them, Tang Huan and Mu Yan leisurely chatted and joked along the way. Around half an hour later, they had already arrived at the west side of the city and entered the Dragon Spring Inn, never to appear again.

However, within the Dragon Spring Town, the news about the incident at the Divine Armament Tower had already spread like wildfire. Dragon Spring Town was not big to begin with, and before long, the news had already spread far and wide.

"In just two stone bets, five hundred gold coins became four hundred and eighty thousand gold coins. Then from four hundred and eighty thousand gold coins to several million gold coins. Amazing! Truly amazing!"

"One 'Obsidian Stone', one 'Fan Hai Stone', three 'Heavenly Wood Stones', plus a dozen or so mid-grade and low-grade gems, his success rate is way too high."

"It's easy to find the 'Obsidian' and 'Fanhai Stone', but the three 'Heavenly Wood Stones' are simply too rare. Let alone two million, there might even be people who would buy one for two million and five hundred thousand each. "

"..."

At the end of the street, at the teahouse and the tavern, similar sounds could be heard one after another.

"Three 'Heavenly Wood Stones'?"

In the southern part of Dragon Spring Town, among the Star Sea Gem Store, a grizzled hair Black Costume Old Man had an unconcealable look of pleasant surprise on his face. "Really?"

"Absolutely!" The sturdy young man opposite him nodded his head resolutely.

"Good!" "Alright!"

"Half a year ago, there were already a few old customers urging me to obtain the 'Heavenly Wood Stone', to the point of making my head explode. I never thought that it would actually be opened in the gambling area of the Divine Armament Building, and there would be three of them! This is great news. Come, we will immediately go to the Dragon Spring Inn. No matter how high the price is, we will capture them! "

"Yes sir!"

... ..

"Four high-grade gems out of the forty-eight ores. That guy's really lucky."

In the western part of Dragon Spring Town, in a courtyard behind the Spirit Feather Gem Store, a handsome, refined, and elegant man in white robes asked in surprise, "Do you know his name and identity?"

"For the time being." The other party was also a middle-aged man, but his appearance and words were much worse. "Observing his actions and words, it is very likely that he is the descendant of one of the remnants of our Human Clan when our Demon Clan invaded."

"The descendants of the people?"

Back then, when the Demon Clan invaded, many people in the Origin Continent did not have time to retreat before they hid in the mountain forest, isolating themselves from the world. After dozens of years, the descendants of those people had long grown up, and in recent years, there were often descendants of those people who walked out of the mountain forest.

"Exactly."

"Forget it, forget it. Let's not care about all of that for now and quickly obtain the three 'Heavenly Wood Rocks'. Let's go, immediately follow me to the Dragon Spring Inn ... "Haha, that husband and wife chose a good place. Among all the forces of Dragon Spring Town, we are the closest to the Dragon Spring Inn."

"..."

"Haha, Your Highness Sunlight has always wanted to find a 'Heavenly Wood Stone' to forge the Little Princess' Heavenly Wood Stone 'for you, but he has never had the chance to do so. Now that the chance has presented itself, how can he miss it?"

"That's right, let's buy all the 'Heavenly Wood Stones' first."

"Let's go, let's go, don't delay any longer."

"..."

Within the Dragon Spring Town, all the powers and Martial Warriors who were interested in the "Sky Wood Stone" all moved, heading towards the west side of the town.

Before long, the outside of Dragon Spring Inn had become bustling with activity and was bustling with activity. Not only were there people who wanted to buy "Heavenly Wood Stones", there were even many Martial Warriors who came to watch the show. However, it was at this point that word spread out that the husband and wife who were taking care of their children

It disappeared!
