

## W. Master 1851

### Chapter 1851 - Highlights

After Nie Cangsheng finished speaking, he took two steps back with a face full of smiles, showing Tang Huan's figure.

"The main highlight has finally arrived!"

On the platform, the tens of thousands of disciples of various sects all felt their hearts thump, their gazes all turned to Tang Huan. The ceremony for the new Palace Master to take over was only for the sake of a passing by. The Emperor Dragon's Heavenly Palace must have gathered the cultivators of the various sects to host this Great Sect Assembly for the second matter.

In an instant, the hearts of many cultivators were in their throats, and uneasiness filled their brows.

These cultivators all came from sects that had obtained rankings in the "Myriad Domain Dao Arts" from more than ten years ago. Before they left for Jade Imperial City, they had already mentally prepared themselves to be punished by the Emperor Dragon Celestial Mansion. They brewed the bitter wine themselves, so they had to drink it no matter what.

Nie Cangsheng's voice drilled into his ears, causing Tang Huan to come back to his senses.

In between mind instructs (in a second), Tang Huan kept the "Emperor Spirit Dragon Bell", and after she finished dealing with the matters here, it would not be too late for him to study the saint rank dao tool.

"Everyone, I'm sure all of you are very curious about the purpose of this Thousand School Gathering."

Tang Huan composed herself and looked at everyone with a smile, "So, I won't beat around the bush. Although the scale of the Heaven Realm is not inferior to the top ranked Heaven Realms such as Xuan Du Tian and Zi Yun Tian, but it is not weaker than the other Heaven Realms, however, within the Myriad Domain Dao Arts, the results of the various realms and major sects are very poor. I will be completely at the bottom within the next thirty-six days. "

As he finished speaking, Tang Huan couldn't help but sigh, "Whenever I think about this, it makes me sad."

Hearing Tang Huan talk so much, the cultivators of the various sects were all confused.

Undeniably, Tang Huan was speaking the truth.

In these tens of thousands of years, even though there were only a few cultivators who managed to obtain a good ranking in the "Myriad Domain Dao Arts", such as this time's Tang Huan from the Royal Dragon Heavenly Palace, his overall result was extremely unremarkable under these thirty-six days. It was basically a few numbers from the bottom.

However, what does all this have to do with this year's Assembly of Ten Thousand Sects?

There were even some cultivators who were suspicious and couldn't help but silently criticize in their hearts. Earlier, they said they wouldn't beat around the bush, but now they were trying to do so in a roundabout way?

"Palace Chief Tang Huan's words are extremely reasonable."

Just as everyone was immersed in their own thoughts, a crisp voice sounded.

The one who spoke was the mountain master of 'Mt. Xumi', Yu Xinhe. Although she was not a Heavenly King, her strength was abnormally tyrannical. Ten peak-level Ninth Marquis once teamed up against her, but they ended up in failure.

The relationship between the Holy Mountain of Xumi and the Emperor Dragon Heavenly Palace was well-known.

More than a year ago, the Great Elder of the Mt. Xumi, Chong Ze, was forced to swear an oath to the heavens to serve Tang Huan. Even her own middle level heavenly king had become Tang Huan's servant, so the Holy Mountain definitely wouldn't dare to resist Tang Huan.

Now, no one was surprised that Mountain Master Yu Xinhe had jumped out to join them.

"That's right, during the 'Myriad Domain Dao Arts' from more than ten years ago, the Crimson Sky Kingdom suffered a crushing defeat. Fortunately, Palace Chief Tang Huan obtained first place on the Artifact Board, saving us some face." Another clear and melodious voice rang out, the one who spoke was the Seven Stars Immortal Palace's Head, Shen Hanyun.

"Does the Lord Prefect have a way to solve this problem?"

A loud and boisterous voice came out right after. This time, it was a tall and sturdy old man. It was Supreme Sword Sect's Sect Leader, Yun Feihong.

"..."

Following that, several more people started to speak.

On the platform, the cultivators of the various sects were exchanging surprised and uncertain looks. They had already realized that these cultivators who were singing the same tune, were all sect masters who had once besieged Emperor Dragon Sky Manor more than ten years ago, and who had been ruthlessly plundered by Tang Huan more than a year ago.

Mt. Xumi, Seven Stars Immortal Palace, Supreme Sword Sect ...

These sects could all be considered the number one sects in their respective realms. Even in the entire Crimson Radiance Sect, they were the strongest. Now, from Yu Xinhe, Shen Hanyun, Yun Feihong and the rest's performance, it could be seen that these sects had all submitted to Tang Huan's obscene power.

Ten or so years ago, these experts from the dozens of sects had joined hands to attack the Jade Imperial City, causing heavy casualties for the Emperor Dragon Sky Manor, and even forced the Emperor Dragon Sky Palace to protect itself. A year ago, they had once again joined hands to attack the Jade Imperial City, with the intention of completely annihilating Tang Huan ... They had offended Tang Huan the most.

At this point, they couldn't help but side with Tang Huan. The miserable example of the Divine Martial Sect was right in front of them.

If they continued to fight with Tang Huan, they would definitely fall into a second or third rate, or even unranked sect. The sect master, elders, great elders and many other experts would probably lose their cultivation entirely to Tang Huan, or even lose their lives. What was dignity compared to cultivation and life?

"There is indeed a way." Tang Huan faintly smiled in the face of the crowd's gaze. "This is also the reason why everyone has gathered at my Emperor Dragon's Heavenly Palace. In order to change this unfavorable situation, I have a suggestion to divide all the sects in our Heaven Realm into different levels. "

"For this division, the imitation Dao Artifact can be ranked as follows: Middle Grade, High Grade, Heaven Grade."

"The strongest is a Sky Sovereign's sect, a low rank sect; the strongest is a Sky Sovereign's sect, a middle rank sect; the strongest is a high rank sect, a high rank sect; and the strongest is a Sky King's sect."

"A high rank sect can control low rank sects, and a low rank sect can also be promoted to a high rank sect. Above all other sects, they can establish the 'Heavenly Sacred Courtyard', which is in charge of all the sects. As for the sect's rank, it will also be directly responsible for it."

Tang Huan's suggestion didn't have any new meaning.

To put it bluntly, when he was in the Forging God Great World, creating a copy of the martial arts academy for the Imperial Emperor of the Glory Empire, he had only changed a little bit of it here.

However, the cultivators on the platform were all dumbfounded.

Tang Huan wanted to unify the Scarlet Radiance Heaven!

A sect led by a Heavenly King was the highest ranked sect. Before Tang Huan had returned to the Scarlet Radiance Heavenly, there were only five sects that had Heaven Kings within the Scarlet Radiance Heavenly Territory.

After Tang Huan returned, the Heavenly King of the Seven Stars Immortal Palace fled. The Heavenly King of the Divine Martial Heavenly Sect died, the Heavenly King of the Spiritual True Immortal Sect was crippled. The Heavenly King of the Xumi Temple and Supreme Sword Sect all became Tang Huan's servants.

According to Tang Huan's methods, there were only three Heaven rank sects in Crimson Light Heavens Sect: Royal Sacred Mansion, Xumi Sacred Mountain, and Supreme God Sword Sect. The latter two had already submitted to Tang Huan. As a result, although there were three of the highest ranked sects, it was no different from the one in the Emperor Dragon's Heavenly Palace.

Regarding the orders of the Royal Heavenly Mansion, the Xumi Sacred Mountain and Supreme Sword Sect definitely wouldn't dare to disobey.

Chapter 1852 - Heavenly Law Palace

Furthermore, there was also the Heavenly Law Palace that stood above all the sects.

Aside from Xiao Zihan, who came from the Nine Colored Immortal School of Zi Yun, out of the six heavenly kings in the Crimson Ways, four were staying in the Huang Long Heaven Palace, while the other two were loyal to the newly appointed Palace Chief, Tang Huan. Once the Heavenly Dao Academy was established, they would definitely be completely under the control of Tang Huan and the Huang Long Heaven Palace.

The cultivators weren't idiots; they immediately realized this and became silent.

"Alright!"

"This suggestion of Palace Chief Tang Huan's is extremely good. With a division among the sects, they can combine cultivation resources and avoid internal damage each other. It would be beneficial for raising the strength of the Crimson Light Sky Sect."

"My Supreme Sword Sect fully agrees with Palace Chief Tang Huan's suggestion."

As he finished speaking, Yun Feihong's face was filled with excitement.

Seeing that, many of the cultivators on the platform secretly cursed, as their own Heavenly King was now Tang Huan's servant, how could the Supreme Sword Sect not agree? At the very least, they should not find anyone from the Supreme Sword Sect. It would be more realistic to let Freezing Snow City be the first one to jump out and chime in.

"The Lord Prefect is right."

This time, it was the head of the Spiritual True Immortal School, Du Siwei, who opened his mouth. The short and stout old man actually had a flattering smile on his face, "Many sects are on their own, attacking and attacking incessantly, the Crimson Radiance Sect has been in chaos for too long. If this is carried out according to the Mansion Lord's suggestion, the cultivators of the Crimson Radiance Sect will definitely be able to wholeheartedly cultivate and achieve a result they have never achieved before in their next 'Myriad Domain Dao Arts'."

"Everyone, don't think too much into it. Just follow Palace Chief Tang Huan's suggestion."

"The Divine Martial Sect fully agrees."

"..."

The cultivators from the dozens of sects all responded in unison.

With so many Heavenly King Stage powerhouses guarding the area, with so many sects responding, who would dare to resist, the calamity of annihilation would be in front of them. There was no need for the Emperor Dragon Sky Mansion to make a move, the Seven Stars Immortal Palace, the Xumi Holy Mountain, and the other sects could do it for them.

For a moment, everyone's hearts turned cold.

Although he knew that he couldn't go against his will, he was still unwilling to submit to them just like that.

After a while, a low voice sounded out from the crowd: "Prefecture Lord's suggestion is not bad, but if all the sects were to be divided according to their ranks, each region's upper rank would have a few upper rank sects, and many would have dozens, wouldn't there still be a dispute?"

The person who spoke was a middle-aged man. He wore a white robe and was quite handsome and elegant. The aura that lingered around his body was quite powerful — it was a rank nine Heaven Lord.

"I wonder which sect this fellow cultivator came from?"

Tang Huan looked over in the blink of an eye and laughed leisurely.

The middle-aged man's eyes flashed, and instantly cupped his hands towards Tang Huan: "The sect master of the 'Pure Heart Sect', Lu Yue, greets Palace Chief."

"Master Lu's considerations are quite reasonable."

Tang Huan slightly nodded her head, "Sects of the same rank do indeed have differences in strength. For example, high-rank sects only have a few Heaven Marquis, while some sects have tens or even hundreds of Heaven Marquis. Thus, they need to formulate a detailed rule. "For example, how many Heaven dukes do you need in a sect to be classified as a superior sect? How many Heaven dukes do you need in a middle sect to be promoted to a superior sect?"

"This can only be done after we have discussed it with our fellow Daoists and slowly come to an agreement."

"However, before that, we can first establish the 'Heavenly Dao Sacred Courtyard'. Afterwards, we can establish a division in each Territory. The headquarters of the Heavenly Dao Academy was in charge of the Crimson Radiance Sect while the branches were in charge of the sects at the domain level. There is one Headmaster and five Vice Presidents at the headquarters, corresponding to the Eastern, Southern, Western, Northern and Central Regions. There are four hundred and seventy-two Elders corresponding to the four hundred and seventy Elders at the territory. "

"Since the position of the Principal of the Main Academy needs to be taken by the Heavenly King, I won't let him go."

"Five vice principals, I suggest that you all take the position of Sky King as well. As for the 472 elders, each of them were led by a ninth level pinnacle Heaven Marquis. Of course, these peak-level ninth level sky dukes cannot come from sects that do not care about the bigger picture and only know how to waste energy internally. "

"As for the chairmen of the 472 branch academies, they are also selected in this manner."

"Fellow Daoists, what do you think?"

Tang Huan's eyes were blazing as she looked past Lu Yue and at the rest of the people on the stage.

Ten years ago, there were also cultivators from the Pure Heart Sect who entered the Primal Beginning Immortal Domain, so they naturally participated in the operations against Tang Huan. When Tang Huan said that "there's no consideration for the bigger picture, only internal problems", he meant the many sects like the Pure Heart Sect.

With just that one sentence from Tang Huan, it was equivalent to excluding all the sects from the Heavenly Dao Sacred Courtyard!

All of a sudden, the sect masters revealed expressions like Lu Yue's: awkward, helpless, bitter, and even sullen and resentful.

Once the Heavenly Dao Academy was established, all the sects in Crimson Radiance Sect would be under its control. If they could not even secure the position of Elders and Principal, they would be in an extremely disadvantageous position in the future. If he was deliberately suppressed by the Heavenly Dao Academy again, he might even gradually decline.

"Mansion Lord, we have no objections. The position of the principal of the Heavenly Law Academy's main branch must belong to the Mansion Lord."

"The Principal and Vice Principal of the Main Academy are naturally the Heavenly King, which is why they are able to intimidate the world. The Principal of the Main Academy is the Martial House Master, and the five Vice Principal are the Xumi Holy Mountain's Prince Chong Tian, the Supreme

Sword Sect's Heavenly King Sands, the Emperor Dragon Heavenly Mansion's Xiao Tian Wang, the Golden Rainbow Heavenly King, and the Nine Spirits Heavenly King."

"Mansion Lord's suggestion is simply too satisfying. A sect cultivator who disregards the general situation and only knows the inner sect, how can he steal a high position within the Heavenly Dao Academy?"

"..."

On the platform, sounds of admiration and agreement resounded once more.

Some of the sect cultivators who had lost their chance in the "Myriad Domain Dao Arts" and thus missed their chance to enter the Immortal Domain saw this opportunity and began to clamor. Since the establishment of the Heavenly Law Academy was unavoidable, then he would have to strive with all his might for the headquarters or branches to occupy a seat.

Tang Huan's words had eliminated many of the strongest sects in the realms. As a result, the hopes of the experts from the other sects rose greatly.

"Manorlord."

Suddenly, a slightly hoarse voice rang out. "I have a different opinion on this matter. I don't know if I should say it." The one who had suddenly spoke was actually a woman, with a young and elegant appearance, but her figure was extremely tall, even when compared to Yun Feihong, she was not inferior in any way.

Judging from the aura radiating from her body, she was also a ninth level pinnacle marquis.

However, her words caused everyone to cast sidelong glances at her.

Chapter 1853

Tang Huan's power overflowed into the heavens and she proposed the establishment of the Heavenly Sacred Academy. She would take charge of countless sects in the Scarlet Radiance Sect and none of the tens of thousands of experts in the sect would dare oppose him.

Now, this woman actually dared to question Tang Huan?

For a time, countless gazes of surprise fell upon the tall woman.

With regards to her sudden action, not only were the cultivators of the various sects extremely shocked, even the cultivators of the Emperor Dragon's Heavenly Mansion on the platform were also extremely astonished.

"Gu Yan?"

"The Sect Leader of the Thousand Crane Immortal Sect in the Lan Heavenly Domain Realm?"

"..."

Immediately, some people recognized the tall woman's identity, and a few voices immediately sounded from the platform.

In a flash, the many cultivators looked at her with strange expressions. More than ten years ago, the "Lanlan Heavenly Domain Realm" was precisely the Thousand Crane Immortal Sect that obtained

the five Immortal Domain placings. This meant that the Thousand Crane Immortal Sect's cultivators had also participated in the operation against Tang Huan in the Primal Beginning Immortal Domain.

Tang Huan was just about to find trouble with the various sects, but she took the initiative to jump out.

In a split-second, ridicule could be seen in the eyes of many people.

"Sect Master Ling, feel free to speak."

What surprised everyone was that when Tang Huan looked at Gu Yan in the blink of an eye, her face was still smiling without a trace of anger between her brows.

"Manorlord!"

However, Gu Yan remained fearless as she looked at Tang Huan. She cupped her hands and said, "People always make mistakes, not to mention a sect that is made up of many cultivators. There were many sects that had done wrong here, but the Martial House Master should have given all of the sects a chance to start anew. How could they all be killed in one blow? In order to make up for our mistake, my Thousand Crane Sect is willing to offer sixty percent of the sect's heaven and earth treasures, including all the Dao Stones and iron crystals, to the Heavenly Sacred Academy! "

Hearing this, everyone was stunned.

Initially, they thought that Gu Yan was doubting Tang Huan's decision, but they never expected that she would turn around and agree with Tang Huan's suggestion. Furthermore, she even took out her blood to support the "Heavenly Law Holy Courtyard".

After a brief moment of shock, many cultivators cursed in their hearts.

The cultivators that besieged Tang Huan came from hundreds of sects and the other sects were indifferent to it, but she had actually taken the initiative to admit his mistakes, and even took out a large amount of cultivation resources to compensate. He could be said to be extremely cunning.

Especially since Gu Yan actually emphasized that he had to take out all the Dao stones and iron crystals.

Everyone knew that Tang Huan had become an extremely powerful Upper Ranked Sky Craftsman more than 10 years ago. Now that Tang Huan was an Inferior Sky King, there was a possibility that she could be promoted to a Heaven Ranked Sky Craftsman. Taking all these materials out was obviously to curry favor with the Weapon Refiner Tang Huan.

Because of the price Gu Yan had to pay, Tang Huan would very likely agree to her request. And as the first sect who admitted his wrongs on his own accord, Thousand Crane Sect would definitely be favored by Tang Huan. After the other sects came to their senses, even if they gave more cultivation resources to the Heavenly Dao Academy, they still wouldn't be able to have the same effect as Gu Yan.

At this moment, many cultivators were filled with grief.

"What the grand master said makes sense."

Sure enough, Tang Huan quickly praised her, "There is nothing wrong with understanding someone's wrongs. For the Sect Master and Thousand Crane Sect to be able to deeply realize their

own mistakes, they will naturally be given the same opportunity as the other sects. The position of Principal Elder, Branch Head, is naturally up to standard. "

Saying that, Tang Huan smiled again, "I propose that the Sect Master represent 'Lanlan Heavenly Domain Realm' to be the old head of the Heavenly Dao Academy. What do you all think?"

Yu Xinhe, Shen Hanyun, Yun Feihong and many other cultivators immediately joined in.

"Good!" Since no one has any objections, the first elder of the Heavenly Dao Academy's headquarters will be the head of the clan! " As for the cultivators from the various sects that did not make a sound, they were once again disregarded. Since they did not object, then they naturally agreed.

"Thank you Mansion Lord!" Thank you fellow daoists! "

When Gu Yan heard it, she couldn't help but to bow deeply towards Tang Huan, then cupped her hands towards the surrounding people. She couldn't hide the smile on her face anymore.

When many cultivators saw this, their eyes reddened with envy, and they were filled with regret.

Although the Thousand Crane Immortal Sect was the number one sect in the Lan Heavenly Domain Realm, it was not ranked very high in the entire Crimson Light Heavens Sect. This was because the Lan Heavenly Domain Realm was located in more than four hundred realms, and regardless of whether it was in terms of size or population, it was at the bottom of the list.

But now, she actually got the upper hand.

Giving away sixty percent of the sect's accumulated treasures was indeed heartbreaking, but even if they didn't take the initiative to pay it back, they would still be forced to do so. When the time came, they would be forced to hand over all their treasures and be excluded from the Heavenly Law Palace.

However, what made everyone even more depressed was that Gu Yan actually took out sixty percent of the heaven and earth treasures.

This was equivalent to drawing a line between the various sects. With the Thousand Crane Immortal Sect's Pearl Jade in front of them, how could the other sects be inferior to the Thousand Crane Immortal Sect?

"Mansion Lord, our 'King of Hell Heavenly Sect' is also willing to hand over sixty percent of the heavenly resources, including all the Dao-stones and iron crystals, to the Heavenly Dao Academy." A young man dressed in white said loudly.

"Our 'Evil Sword Sect' is also willing."

"Heavenly King Tang, the Sky Falling Martial School is willing to offer seventy percent of heaven and earth treasures, including all the Dao stones and iron crystals."

"..."

On the platform, shouts rang out in all directions.

The hundreds of sects that had obtained the Immortal Domain quota through the "Myriad Domain Dao Arts" were all unwilling to lag behind. The amount of treasures they were willing to take out was actually increasing.

"Martial House Master, the Demon Sealing Heart Sect is willing to hand over all their heavenly materials!"

A deafening roar ended the hustle and bustle, and the platform immediately became quiet. Almost all eyes were focused on the bearded man. His eyes were like copper bells, and his body was as strong as a lion. He looked like a fiendish demon.

This person was quite bold to actually take out all the treasures the sect had accumulated?

After a moment of surprise, many cultivators secretly complained in their hearts. If they had known earlier that this bastard had put in so much effort, they would have spoken of it earlier. Compared to the price that the Demon Sealing Heart Sect had to pay, sixty to seventy percent of these heavenly materials were truly not enough.

"Very good."

Tang Huan looked at the cultivator from the Palace who had just stopped writing, then turned to look at the crowd and laughed, "I have already ordered people to record down everyone's thoughts, since everyone is so sincere in repenting, the Heavenly Dao Saint Academy will naturally not hold back."

"The cultivators of the sects that you all are in will have the same opportunity as those of the other sects, the Thousand Crane Immortal Sect."

When he said till here, Tang Huan's smile faded, and his tone became stern, "Some mistakes, but one cannot repeat them, I hope everyone will take this seriously, and remember them clearly. If you were to make a mistake again, I'm afraid that your entire body will be destroyed, and at that time, it is not something that a few heaven and earth treasures can make up for."

"Yes sir!"

"..."

## Chapter 1854 - Wonders

Another two hours passed, and the Ten Thousand Sects Assembly came to an end.

The tens of thousands of cultivators from the various sects all left the Emperor Dragon's Heavenly Mansion with their own thoughts and returned to the Jade Imperial City. As for the crowd of Emperor Dragon's Heavenly Mansion cultivators, they too scattered in excitement.

The atmosphere of the outer palace of the Emperor Dragon's Heavenly Palace gradually returned to normal.

On Golden Dragon Mountain, in front of an exquisite hall, Tang Huan stood with her hands behind her back, smiling as she watched Gu Yan being led away by a disciple of the Royal Dragon Heavenly Palace.

Ling Gu Yan was actually one of the helpers that Tang Huan had found.

Originally, with his current power and the Emperor Dragon's Heavenly Palace's current strength, there was no need for him to do this. However, using this method, he could naturally show more face.

Through a cultivator of the Thousand Crane Immortal Sect controlled by Jianxin, Tang Huan very easily conveyed her message to Mu Guyan.

At first, Tang Huan's goal was to plunder forty percent of the heaven and earth treasures held in the hands of the hundreds of sects. Tang Huan treated the other sects of the Seven Stars Immortal Palace the same way as she did with the Divine Martial Sect. She only took away about half of the cultivation resources, including Dao Stones and Iron Crystals.

Tang Huan's original intention was to use the Heavenly Sacred Courtyard to take control of all the sects and integrate them into one entity, to reach the level where one could use their hands like that, not to let so many sects suffer a huge loss of vitality. If he did too much, the more she suppressed it now, the more likely it would rebound in the future.

After all, it was impossible for Tang Huan to stay in the Crimson Radiance Sect forever.

If the Heavenly Dao Academy was successfully established, after a long time, even if Tang Huan was no longer present, those sects would voluntarily continue to protect the Heavenly Dao Academy's existence.

However, Tang Huan did not expect Gu Yan to be so much more ruthless than him. He only opened his mouth 60%.

Soon after, more and more compensation was being paid by the sects. In the end, the Demon Sealing Heart Sect had agreed to take out all of the resources they had accumulated.

They had voluntarily offered this "sincerity", so Tang Huan naturally would not reject them.

Tang Huan knew what they were thinking. Firstly, was that he was worried that he would pursue the matter of when they ascended to the Immortal Palace in the Grand Beginning Immortal Domain.

This was why he had spent so much.

"Ancestor Tang Huan, do you really plan to let those people to become the principal or the branch principal?" A voice came from the side, and it was Xiao Zihan who had quietly walked over. Currently, Xiao Zihan's injuries had already completely recovered, and the healing effect of the life force within Tang Huan's Dao Fire was extremely miraculous.

"Why not?" Tang Huan laughed, "They have invested so much capital, at least we should give them some benefits."

"In this world, only strength is the foundation. Everything else is an illusion. As long as the Emperor Dragon's Heavenly Palace continues to possess the strongest power, even if the four hundred and seventy-two Elders and the four hundred and seventy-two Dean of the Main Academy were to be taken away by them, they wouldn't be able to do anything about it. "

"That's true."

"Those hundreds of sects are the strongest among all the Domain Realms. The amount of treasures they contribute, especially Dao stones and iron crystals, can be said to be an ocean of resources that can be used by Ancestor to raise his Tools Method Attainments."

Xiao Zihan paused for a moment before reminding her again, "However, Martial Ancestor must be careful of them cheating. After all, outsiders don't know how many treasures are in their sect."

"Don't worry."

Tang Huan said worriedly, "Even if they were given a hundred guts, they wouldn't dare."

As he said till here, Tang Huan could not help but reveal a strange smile. Before summoning Mu Gu Yan, Tang Huan had met with a few sect masters with peak 9th level of the Sky Marquis cultivation. At that time, Tang Huan did not say anything and only gave them each a detailed list.

On the list, there were the varieties and numbers of all sorts of treasures in their sect.

The reason why Tang Huan was able to obtain such a list was naturally because of the puppets controlled by Jianxin. Those people had their cultivation greatly improved in the Primal Beginning Immortal Domain. Many of them had already ascended to become elders after returning to the sect. As they held high positions, it wasn't too difficult for them to obtain this information.

After the sect masters finished looking through the list, their expressions became extremely interesting, all of them suspicious and suspicious, their bodies drenched in cold sweat, and then they patted their chests and promised Tang Huan, that they would send people to deliver all the treasures they had accumulated to Jade Imperial City.

When they returned to the Jade Imperial City, the news would definitely spread to everyone.

This was the method Tang Huan used to give the hundreds of sects a warning. If they still hadn't retracted their little thoughts after receiving the warning, then don't blame Tang Huan for breaking through their sect and plundering all their accumulated treasures.

"That's good."

Seeing Tang Huan's expression, he did not say anymore, since he was so confident, she must be confident.

Tang Huan chuckled and said, "It's impossible for the Emperor Dragon's Heavenly Palace to have so many heaven and earth treasures. Thus, I will only leave a portion of it in the Emperor Dragon's Heavenly Mansion, while the rest will be returned to the Crimson Radiance Sect through the Heavenly Dao Academy.

"It's great that the Ancestor thinks this way."

Xiao Zihan's beautiful eyes lit up, a hint of an appreciative smile appearing on her beautiful face.

She had been sect master of the Nine-coloured Immortal Sect for many years and was not a person who did not understand the affairs of the world. Naturally, she understood Tang Huan's intention for doing this.

If Tang Huan only wanted the Heavenly Dao Saint Academy to become a place that all the sects feared, she only needed to rely on her super strength to completely crush those who refused to submit. However, for the Heavenly Dao Academy to truly exert its full potential and to rely on mere suppression was very difficult to accomplish.

After obtaining the treasures of hundreds of sects, it was indeed a brilliant move to let more cultivators share in the benefits.

"After I'm done with the matters of the Heavenly Dao Sacred Courtyard, I'll begin forging the Dao Artifacts."

Tang Huan smiled slightly and said, "Although I have never forged Heaven Grade Dao Artifacts before, I have a lot of experience. As long as I have some time, I should be able to forge a Heaven

Grade Dao Artifact with perfect quality. Sect Master Xiao, are you interested in changing to a Heaven Ranked Spirit Weapon to try? "

"Sure."

When Xiao Zihan heard this, her eyes immediately brightened. A hint of happiness involuntarily rose between her brows, and she said with a smile that was like a flower, "Patriarch Tang Huan, I will be waiting to see. I had originally planned to bid my farewells to the two Patriarchs today, but now it seems that I will have to stay in the Emperor Dragon's Heavenly Palace for a while longer. "

"Farewell?" Tang Huan was slightly taken aback.

"The reason why I came to the Crimson Radiance Sect was to protect the two ancestors. Now that the strength of the two clan masters are already sufficient to protect myself, it is also time for me to leave and travel to the various parts of the Scarlet Radiance Heaven to see if I can find an opportunity to be promoted to the upper level of Heavenly King. I will wait for the next time the 'Myriad Domain Dao Arts' comes, then return to the Violet Cloud Realm from the Mystical Sky Sect. "

"..."

#### Chapter 1855 - Raging Fire

Tens of thousands of cultivators from the various sects had returned to the Jade Imperial City, and in an extremely short period of time, they were like a storm that swept across the sky.

Hundreds of realms, countless sects, and countless cultivators. As for the rumored Heavenly Dao Academy, some were excited, some were anticipating it, some were worried, some were angry, all of them were excited.

Just as the various parts of the Crimson Radiance Sect were discussing, an incomparably large building appeared within the Jade Emperor City at an astonishing speed.

That was the headquarters of the Heavenly Dao Academy.

At the same time, the structure of the Heavenly Law Academy was quickly taking shape.

Tang Huan had been appointed as the Principal of the Heavenly Sacred Courtyard. The five Heavenly Kings were the Vice Principal, while Nie Cangsheng, Yu Xinhe, Shen Hanyun, Yun Feihong, Du Siwei, Gu Yan, Meng Chuyun and more than nine hundred others were the Principal of the Sacred Courtyard.

These chief elders and branch chiefs were all ninth level pinnacle marquis.

The shelves were set up, and the detailed rules regarding the Heavenly Sacred Courtyard were gradually being perfected. Moreover, all sorts of news were being spread in all directions, causing waves of heated discussions among the cultivators from time to time. After all, the appearance of the Heavenly Law Palace was irreversible. It would be closely linked to all cultivators in the future.

In the Heavenly Dao Academy, the domain realms were divided into five different divisions under the control of the five vice principals of the Heavenly King's Hall.

More than four hundred chief elders were also assigned to the five vice headmasters according to the territories they represented. These chief elders needed to stay in Jade Imperial City, and they would occasionally head to various regions to scout. The Head Elder and the Head of the Branch.

These two positions were occupied by the elites of different martial institutions. They could be used to supervise each other.

After the headquarters of the Heavenly Law Academy was built and the headmaster of the branch had been appointed, the encampment of the various territories started to be built as well.

At this time, the treasures from the hundreds of sects were being delivered to the headquarters of the Heavenly Law Academy in Jade Emperor City. Dao stones, iron crystals, medicinal pills and herbs were piled into a mountain.

"Elders, Headmasters."

In front of the countless treasures, Tang Huan's face was full of smiles as he looked towards Yu Xinhe, Shen Hanyun and the other nine hundred over elders and branch elders, "They don't belong to me alone, they belong to the whole Heavenly Sacred Courtyard."

After this, the Heavenly Dao Academy will recruit all the deacon disciples in the entire Crimson Radiance Sect. Regardless of origin, regardless of cultivation or aptitude, each division will temporarily recruit three thousand people before selecting the best among them to be nurtured at the headquarters. Many of these heavenly resources will be used on them.

Hearing Tang Huan's words, the faces of many sect masters present began to twitch, and their hearts started to drip blood.

These treasures were all taken out by them.

"In addition, the Heavenly Dao Academy will hold regular competitions."

Tang Huan's voice sounded out once again, "For example, every ten years, the competition will also be separated into martial grounds and artifact fields. The competition's rewards will also be obtained from these heaven and earth treasures, and not only that, I will also provide a portion of upper grade perfect dao tools, or even a partially perfect heaven grade dao tool as rewards."

"A perfect Dao weapon?"

Many cultivators were shocked.

Immediately after, the sound of someone taking in a breath of cold air sounded out one after another.

All of them were using high-grade Dao-tools, but most of them were of medium quality. Very few were of high-grade, and none of them were of the perfect quality.

But now, Tang Huan had actually promised to bring out a Perfect High Rank Dao item as a reward for the competition.

As for the Heaven grade Dao-item ...

It was an extremely rare treasure in the lower thirty-six days. Even if it were a low-grade Heaven-grade Dao weapon, once it appeared, it would provoke intense competition. A perfect Heaven grade Dao item ... It was as if he had never heard of any Lower Heaven Realm before, at least not this Crimson Light Heaven.

In the future "Heavenly Dao Competition", not only would Tang Huan take out a perfect upper grade Dao Artifact, he would even take out a perfect heaven grade Dao Artifact.

However, after the initial shock, everyone was suspicious.

Tang Huan was only an Inferior Sky King now, it was already very good for him to be able to forge a low-grade Heaven Ranked Spirit Weapon. A Perfect Heaven Ranked Spirit Weapon, would he really have the ability to forge one? For his Tools Method Attainments to reach such a state, even raising it by a single point would be extremely difficult.

Even after another twenty or so years, when Tang Huan ascends to become a middle level Heavenly King, the difference between today and the Tools Method Attainments may not be that great. Back then, the Ji Qingtian of the Emperor Dragon's Heavenly Mansion was already powerful enough. But even he wasn't able to successfully forge a perfect Heaven grade Dao Artifact.

After taking in the crowd's expressions, Tang Huan did not explain any further. He only smiled and said: "Alright, since we've finished what we needed to say, the elders can go back first and finish up the sect's matters. The Headmasters can also go back and construct the branch institutions. After this matter is settled, the elders will return to the headquarters to take charge, while the dean will remain in the branch, hoping that all of you will uphold the public will. "

"Yes sir!"

"..."

The group of experts that had stayed in the capital for many days finally dispersed.

On the same day, Tang Huan bid farewell to Hu Si in Jade Imperial City.

After she left the Imperial City, Hu Si and the rest of the disciples naturally followed her back to the Azure Clouds Territory.

Tang Huan originally wanted to keep Hu Si in the Emperor Dragon's Heavenly Palace, even Meng Chuyun agreed to it.

With her cultivation, she would not be in any danger even in the Cyan Aurora Region, not to mention that Meng Chuyun was now the Principal of the Heavenly Law Holy Academy. He could be said to have the power in his hands, and ordinary people would definitely not dare to offend the Snow City easily.

After handing over the affairs of the Sanctuary to a few Vice Principal, Sun Kui and a few other elders, Tang Huan entered the Inner Palace of the Emperor Dragon's Heavenly Palace.

And at this time, with the return of the various Elders of the Heavenly Dao Academy as well as the branch heads of the Heavenly Dao Academy, the Crimson Radiance Sect was in an uproar.

If they had been the heads of the sects before, many of them would have chosen to relinquish their position. After all, it was not suitable for a person who had stayed in Jade Imperial City for a long time to continue being the heads of the sects.

As the dean of a branch, those who had once been the head of a sect all chose to pass on their seats.

Of course, this was Tang Huan's request. Those branches in various realms could only belong to the Heavenly Law Academy and could not become the embodiment of some powerful sect in those realms. Therefore, there would also be a certain number of elders supervising the dean of the branch.

One of the elders would be Marquis of Heaven, who was controlled by Jianxin.

The Branch Principal did not dare slight Tang Huan's orders, as the structure of the Branch Sect was in full swing. When the news of the Heavenly Dao Holy Courtyard recruiting a disciple for their disciple spread, the sky of the Scarlet Radiance Sect was even more excited. Not only were the young cultivators of various sects enthusiastic, but many of those who hadn't joined any sects also showed a strong interest. The people who rushed to the encampment from all directions were almost endless every day.

## Chapter 1859 - Fire Phoenix Island

The Mountain and Sea Sect was one of the top three sects in the Violet Sea Realm, and its encampment was located deep in the sea.

The deeper they went, the more Heavenly Beasts they encountered, the stronger they became. Unknowingly, there were already Heavenly Beasts attacking Tang Huan and the nine spirits that passed by.

However, when the nine spirits completely released the terrifying aura that contained a deathly silence, that disturbance also completely disappeared.

Heavenly Beasts were extremely intelligent, and they did not dare to fight against the King.

"Big brother, it's over there."

After an unknown amount of time, Nine Spirits suddenly raised her delicate little hand and pointed forward.

Tang Huan followed the direction of her finger and looked forward. An extremely long black shadow had appeared at the point where the distant skies and oceans intersected. There should be an enormous island there.

"Fire Phoenix Island?"

Tang Huan raised her brows, and the three characters came out of her mouth.

According to the information he had gathered from the nine spirits, the Mountain Sea Sect's island was called Fire Phoenix Island.

This island was said to be rather young. According to the rumors, there was a Fire Phoenix that descended from the sky, its body turning into an island in the sea ...

This kind of reasoning was quite far-fetched, so it naturally didn't have much credibility.

The reason that Fire Phoenix Island had such a name was because it looked like a phoenix floating above the sea with its wings spread. And, the head of that phoenix was bright red like fire. When they arrived at the sky above the island, Tang Huan realized that this Fire Phoenix Island was indeed as its name implied.

The island was huge, but its shape was extremely irregular. The widest part was at least a few hundred miles wide, like a giant bird floating on the water.

At the head of the island, it was indeed bright red, as if there was a fire burning underneath the ground. And in the center of the island, there was also the fiery red intent that was faintly discernable under the cover of the huge trees.

Tang Huan and the nine spirits looked at each other, and then floated down to the center of the island.

The moment he landed, within Tang Huan's Dantian, his nascent soul and "Nine Yang Divine Furnace" began to revolve at the same time. His enormous consciousness immediately enveloped Fire Phoenix Island and the surrounding vast ocean.

However, in Tang Huan's senses, other than the plants and the beasts hiding in the sea, there were no other living beings.

Tang Huan was not surprised, after all, the nine spirits had already told him about this situation.

Elder Brother, I've asked some of the cultivators who came to visit the Mountain and Sea Sect.

When they were high up in the sky, they could vaguely see it, "The entrance to the Mountain Sea Sect's encampment is right on top of this boulder. It's said to be a giant shell, but now, not even the shadow of the shell can be found."

Tang Huan remained silent. Although the entrance to the Mountain and Sea Sect was gone, the remnants of the Mountain and Sea Sect cultivators could still be seen throughout the island.

This confirmed that the Mountain and Sea Sect had existed on Fire Phoenix Island before.

It was impossible for such a large sect to suddenly disappear. No matter how it disappeared, there would definitely be traces of it left behind. The fact that the nine spirits did not discover it during their previous investigation did not mean that it did not exist.

Tang Huan's mind raced, and instantly activated the God Sculpting Crystal, causing the Perception Ability to instantly increase in strength by leaps and bounds.

After a while, Tang Huan's mind detected a strange fluctuation of life force. It was completely different from the living aura of the vegetation on the island, as well as the living aura of the Heavenly Beasts surrounding it. If not for the huge increase in the Perception Ability after Tang Huan activated the God Binding Crystal, it would probably be just like the nine spirits, with no way to detect its existence.

This discovery made Tang Huan slightly frown, and a strange look flashed past her eyes.

The aura of life force gave him an extremely strange feeling, as if this Fire Phoenix Island had a one, two, one relationship with it ... In the next moment, an extremely bold idea emerged in Tang Huan's mind. Could it be that the source of the life force was coming from the island below him?

As this thought flashed across his mind, another even more shocking thought popped out from the depths of Tang Huan's mind.

"Is Fire Phoenix Island a living creature?"

When that thought appeared, Tang Huan's heart could not help but thump loudly, even he herself was shocked by her own thoughts.

Could it be that the rumors about Fire Phoenix Island were true? Could it be that it really was a Fire Phoenix that had descended here in ancient times?

"Big brother, did you find something?" The puzzled voices of the nine spirits suddenly drilled into his ears, pulling Tang Huan back to reality.

"I suspect that this island is alive."

Tang Huan took a light breath, and a strand of voice was directly sent into the Nine Spirit Ears, as an additional trace of seriousness appeared on her face.

If his guess was correct, then the sudden disappearance of the Mountain and Sea Sect must have had something to do with the Fire Phoenix Island.

"The Fire Phoenix Island gave birth to a spirit?"

Jiu Ling's pair of beautiful, colorful eyes widened until they were round, and she almost cried out in alarm. She finally managed to control herself with great difficulty, and just like Tang Huan, she also sent her voice into his ears.

She did not connect Tang Huan's words to the rumors, but had subconsciously assumed that Tang Huan was referring to the Spirit of Fire Phoenix Island. This made her quite shocked. She had seen all of this before, but this was the first time she had heard about the Spirit Ascension of an island.

However, in an instant, she was relieved. Heaven Realm was so big, even immortal pills could become spirit, and the spirit formation on the island was not that hard to accept.

"It's hard to say. We have to be careful next." Tang Huan shook her head slightly. At the same time that she warned Yun Che, the "Myriad Sword Heavenly Diagram" had already flickered out of the Dantian and was hovering around him.

"Understood."

Seeing Tang Huan's solemn expression, even taking out the spatial scroll for the cave, the nine spirits were stunned, but they realized that the situation was not so simple.

Tang Huan nodded her head, her mind was once again focused on the island, and started investigating carefully.

That aura of life energy undulated around every inch of the island, and seemed to be emitted from the entire island. However, when Tang Huan sensed it carefully, she still discovered that there was something strange about it.

If he found the source, he would be able to find even more.

Tang Huan's mind was calm, and instantly connected with the laws of the world, after a long while, she finally managed to catch the direction of the life force.

"It's actually over there."

Tang Huan's eyes lit up, and indicated to the nine spirits, "Come, let's go over there."

In the next moment, Tang Huan moved like lightning, bringing the nine spirits with him as she flew forward. Several hundred miles passed in a blink of an eye. In just a short while, the two of them had already arrived in that bright red area.

Chapter 1860 - Chasing

The island was shaped like a phoenix, and this place was the head of the phoenix.

In their line of sight, the place was as red as fire. The sea of fire beneath their feet seemed to be a raging inferno, but what was strange was that there wasn't the slightest bit of heat leaking out from this place.

Of course, Tang Huan was very clear that what she was seeing now was only appearance.

According to Tang Huan's senses, the front part of Fire Phoenix Island seemed to contain an incomparably terrifying primordial volcano. The moment the heat that was contained within the volcano erupted, it seemed to possess the power to destroy the heavens and earth.

At this moment, Tang Huan subconsciously thought of the Forging God Great World's "Firing Dragon Desperate Domain".

The reason the "Firing Dragon Desperate Domain" had appeared was naturally because of the existence of Yan Zu. The Firing Dragon Desperate Domain and Fire Phoenix Island were the exact opposite of each other. One was releasing heat, while the other was restraining heat ... However, no matter what the manifestations were, the heat they contained would be terrifying to the extreme.

"Big Brother, over there!"

Just as he was about to continue inspecting, the nine spirits suddenly spoke up.

Following her gaze, she saw that the tip of the phoenix's head was slowly rising ... The two of them subconsciously looked at each other. They could both see unconcealable astonishment in each other's eyes. What they saw wasn't an illusion, but it had really happened right in front of their eyes.

In the blink of an eye, the two of them simultaneously floated upwards, moving horizontally to the edge of the island. When they looked again, there was a long and narrow crack at the front of the island, and the crack continued to expand at a speed visible to the naked eye. The widest part was already several hundred meters wide.

It was as though an ancient beast that had been sleeping with its mouth shut for countless years had suddenly awakened. It raised its head slightly and opened its bloody mouth.

This sudden change gave off an extremely strange feeling.

"This island... You're alive? " Nine Spirits' two beautiful eyes opened wide.

"This is bad!"

After Tang Huan heard this, just as she was about to speak, the words that came out of her mouth turned into an alarmed cry. An intense feeling of danger suddenly erupted from the depths of her soul. Tang Huan felt a thick layer of goosebumps all over her body, a bone chilling aura suddenly shot out from her tail bone to the top of her head.

"Nine spirits!"

With a loud shout, the 'Myriad Sword Heavenly Diagram' quickly spread out under Tang Huan's control.

Tang Huan's expression suddenly changed, although he was startled by the scene, the trust he had always gave others did not cause her to hesitate at all. When the 'Myriad Sword Heavenly Diagram' 's suction force enveloped her body, she did not hesitate at all and immediately followed the instructions drawn out by the painting and entered the cave.

Without the slightest hesitation, Tang Huan kept the "Myriad Sword Heavenly Diagram" and quickly used the ability "Yin and Yang Void Method".

It was only a "spatial escape", but Tang Huan was already two thousand kilometers away.

"That was close!"

Standing above the ocean, Tang Huan breathed a sigh of relief.

That was too dangerous!

The moment he used the spatial escape technique to leave, Tang Huan caught a glimpse of that phoenix like head island from the corner of his eye. It had completely turned around and directly peck towards him, and wherever it went, the vast space around it would continuously collapse, and the loud rumbling sounds would almost be enough to tear one's eardrums.

If his reaction had been slightly slower, he would have probably been pecked dead on the spot.

Even though Tang Huan was currently a lower Heavenly King and had teamed up with his Immortal body to defeat a middle Heavenly King, the warning aura that originated from Fire Phoenix Island made him feel that it was difficult for him to resist, and even made him smell a hint of death. Of course, even if the main body had truly turned into ashes, Tang Huan would not truly die. Before coming to this Pill Sea Region, Tang Huan had left her Immortal Body clone in the Emperor Dragon's Heavenly Mansion.

He did this just in case. If the main body's soul was destroyed, the Immortal Body Avatar would become Tang Huan's new body.

But without his original body, Tang Huan's losses were definitely incalculable.

Furthermore, if the main body dies, then the nine spirits that were staying with the main body, even if they were to hide in the cave, it would definitely be very dangerous. This was also something that Tang Huan did not wish to see.

Fortunately, he had left in time.

Now, Tang Huan was sure that the Mountain Sea Sect's disappearance was related to the Fire Phoenix Island that had a life of its own. Just that, where did the Mountain Sea Sect's encampment space go? Is Gozu's Mountain and River still alive? The fact that the Sect Master Meng Chuwen was not dead did not mean that the other cultivators of the Mountain and Sea Sect were safe and sound.

Tang Huan couldn't help but to be a little worried as she turned her head to look in the direction of Fire Phoenix Island.

"Hmm? "Not good, they're catching up!"

In the next moment, Tang Huan's heart sank, and her expression changed as an incomparably strong sense of danger surged from the depths of her soul. Without any hesitation, Tang Huan immediately used the sacred art "Void Evasion" and his figure instantly disappeared without a trace.

Just as Tang Huan was about to escape, a gigantic fiery red bird head appeared in the sky without any warning, and peck towards the place where he was standing earlier with the force of a thunderbolt. At that instant, the extremely terrifying aura was like a storm as it madly wreaked havoc between the heaven and earth.

"Boom —"

Amidst the heaven-shaking, earth-shattering sonic booms, the void itself exploded like a firework, revealing a gigantic, pitch-black hole, which seemed capable of devouring everything in its surroundings.

If Tang Huan walked slowly for a moment, even if it did not explode, she would probably be engulfed.

After its beak pierced through the air, the fiery red bird's head also flashed and disappeared. At almost the same time that the head disappeared, the dark spatial hole also swiftly closed up. However, that might caused the sky and earth to change color. Even the space within a few hundred kilometers around them shook intensely.

"Hu!"

Two thousand kilometers away, in the air above a small island, Tang Huan's figure once again appeared.

However, this time, Tang Huan did not pause at all. Seemingly as soon as she was revealed, she continued to execute the sacred art "Void Escape", and once again disappeared.

"Boom —"

After a short moment, the sound once again resounded through the world.

The fiery red gigantic bird's head actually popped out from the void once again, fiercely pecking at the spot where Tang Huan's figure had previously been exposed. A terrifying force suddenly exploded, and the pitch-black spatial hole appeared once again.

As for the island below, it instantly shattered, and was then completely submerged by the surging waves.

A hundred miles away, over ten meters above the sea, ten-odd celestial beings were battling against a hundred-meter-long, bulky sea serpent. However, in the blink of an eye, both the ten Celestial Phenomenon Ascendants and the long sea serpent were sent flying by an invisible force, as if they had been struck by a kite with a broken string.

Shock appeared in the eyes of each pair. In their line of sight, there seemed to be a fiery red light flashing at the end of the horizon ...
