

W. Master 1941

Chapter 1941 - Fire Phoenix Flying away!

"Let's go as well."

Tang Huan laughed, and then shot forward.

Nine Spirits, Xiao Budian and Xiao Zihan also closely followed along, and in the blink of an eye, four figures had already left the range of the "Heavenly Imperial Dragon Palace" 's might.

Immediately afterwards, the four of them soared into the skies.

"Big brother, where are we going now?" Xiao Budian excitedly exclaimed in the air above the ocean. Walking out of the "Heavenly Imperial Dragon Palace", he felt a sense of novelty no matter what he saw.

"Fire Phoenix Island!"

Tang Huan's gaze grew distant. "Jiu Ling, can you still find the direction of Fire Phoenix Island?"

Back then, he went to Fire Phoenix Island to look for Gao Zu Shan He. Unfortunately, not only did he fail, but he was also chased by a phoenix head that suddenly appeared. He had to do something like 'Heavenly Imperial Dragon Palace'.

Counting the time, more than ten years had already passed.

At that time, Tang Huan was merely a lower Heavenly King, and facing the phoenix head, other than escaping, there was no other choice. But now, Tang Huan was already a Upper Sky King, with three hundred and thirty million dao crystals, she was no longer like the previous Wu Dai and Amon. He was confident that she could fight against the phoenix head, let alone this time, she also had three helpers at the upper sky king level.

"Big brother, don't worry. Leave it to me."

Jiu Ling chuckled. She hurriedly patted her chest and guaranteed, "Even if that Fire Phoenix Island sunk to the bottom of the sea, I would still be able to find it."

Half a day passed in the blink of an eye.

"How strange."

"What's going on?" Seeing the empty sea below, Jiu Ling couldn't help but mutter. "Fire Phoenix Island has actually disappeared. Did they really sink to the bottom of the sea?"

"Could it have flown away?" Xiao Zihan muttered to herself, "Ancestor Tang Huan, you once said that it is extremely likely that Fire Phoenix Island was formed from a fire phoenix. Since even the head of the fire phoenix was able to live through this, after so many years, the entire fire phoenix might have already been alive and flown away from this region of the ocean."

"Fly ..." Fly away? "

Xiao Budian said as she ate, her eyes wide open, and her originally large and round eyes were even larger than before.

Tang Huan slightly froze for a bit, then subconsciously nodded: "There is actually such a possibility. If that fire phoenix were to live, it definitely wouldn't have stayed here. "If it was only outside the Dan Sea Realm, that would still be fine. But if it was outside the Crimson Radiance Sect, it would be very difficult to find it."

Now, what worried Tang Huan the most was that all of the Mountain Sea Sect's people were already scared out of their wits.

After all, so many years had passed. If Gao Zu and the others were truly no longer in this world, then even if they found the Flamephoenix, it would be impossible for them to live again.

"However, there's no need to rush right now."

In a second, Tang Huan was already frowning slightly, "Let me first understand the current situation of the Crimson Radiance Sect."

After he finished speaking, Tang Huan faintly closed her eyes and sent a mind instructs (in a second) to the heart of the sword. Immediately after, the heart of the sword began to communicate with the puppets in the range of the Scarlet Radiance Sky that she controlled.

At the same time, he communicated with the Immortal body clone that was in charge of the Emperor Dragon's Heavenly Mansion.

After entering the "Heavenly Imperial Dragon Palace", the connection between Tang Huan's original body and the Immortal Body was still there, but it was still rather blurry, and it was difficult to obtain information from the immortal body. However, the moment they left the Dragon Palace, the connection between their bodies and clones became clear once more.

With that thought, all the information that had been gathered over ten years ago was transmitted to Tang Huan's mind like a huge wave.

Not long after, Tang Huan's eyes suddenly opened.

"Big brother, what's the situation like?" Xiao Budian and Jiu Ling asked at the same time, and Xiao Zihan's eyes fell on Tang Huan's body as well.

"The Flamephoenix did indeed come back to life and flew away from this place."

A hint of seriousness appeared on Tang Huan's forehead, and she said solemnly, "It is still in the Scarlet Radiance Heaven, but, it is not far from the Jade Imperial City!"

"What, Jade Imperial City?" The nine spirits were very surprised.

"..."

About a year ago, a huge change occurred in the Danhai Realm.

An incomparably large fire phoenix flew over from the depths of the ocean. Raging flames surged, and wherever it passed, many sects were destroyed. Countless creatures turned into ashes, its formidable might impressive.

Many Pill Sea Realm cultivators had gathered in Seahold in an attempt to kill the Flamephoenix, but they had all lost.

In an instant, the entire Sea City had disappeared. Countless cultivators within the city, from the Heaven Marquis to the people below, had all disappeared without a trace. They had all turned into fine powder.

After that, the Flamephoenix emerged from the realm of the Pill Sea and entered deep into the Crimson Twilight.

Along the way, no one dared to obstruct them. Even from a great distance, all of them fled, fearing that they would be unable to dodge in time. Furthermore, its trajectory was clear to everyone here; it was very likely that the Flowing Flower Domain's Jade Imperial City was the Fire Phoenix.

Because of the existence of the Heavenly Dao Academy, the Jade Imperial City, which had been developed for more than a decade, had become the center of the Crimson Radiance Heavens.

Moreover, after determining the Flowing Gold Fire Phoenix's destination, the Jade Emperor City had already gathered all of the Heavenly Kings and the Peak Ninth Marquis within the area of the Crimson Light Heaven.

Even so, the people of Jade Emperor City were still panicking.

Almost no one had the slightest confidence in the upcoming battle. The power that the fire phoenix had displayed in the past year was simply too powerful.

Even if it was Tang Huan's Immortal body clone, they too did not have much confidence.

The experts of the Heavenly Law Academy, including Xiao Niandie and Nie Cangsheng, had all discussed whether or not they should give up the Jade Imperial City and the Emperor Dragon's Heavenly Mansion to temporarily avoid the fire phoenix. However, in the end, they still couldn't make up their minds. After all, the Jade Imperial City and the sects were the blood and sweat of countless cultivators in the Royal Dragon's Heavenly Mansion.

"Although that Flamephoenix has never used a teleportation formation before, she's still quite fast. I estimate that she'll reach Jade Imperial City in three days."

Tang Huan's expression was extremely gloomy, "We must return as soon as possible, otherwise, the Jade Imperial City, and even the Emperor Dragon's Heavenly Palace might be destroyed. In the current Jade Emperor City, although there are a few Heavenly Kings, but not a single Upper Sky King. They are definitely not a match for that fire phoenix. "

Tang Huan had personally experienced the might of that fire phoenix before.

More than ten years ago, he had been chased by the phoenix head until he was in an extremely sorry state. Just the strength of a phoenix head was already so terrifying, let alone a fire phoenix with a complete body.

The current Fire Phoenix was probably even stronger than what Tang Huan had expected.

After learning about the situation, even Tang Huan started to lose confidence, but the more it was like this, the more he needed to hurry back to Jade Imperial City. Jade Imperial City and the sect encampment were the blood and sweat of all the previous generations of cultivators of the Heavenly Imperial Dragon Manor.

No matter what, Tang Huan would not allow the Jade Imperial City to be destroyed by the Flame Phoenix's flames.

"If that's the case, then what are we waiting for? Big brother, let's hurry up and go back." Although Xiao Budian was naive and innocent, he was also at the critical point of her current situation. After hearing what Nine Spirit had said, she immediately echoed her words.

"Xiao Budian, Jiu Ling, Sect Master Xiao, enter my cave!"

Tang Huan also did not delay any longer. In a blink of an eye, the stretched out landscape painting scroll had absorbed Xiao Budian, Jiu Ling and Xiao Zihan. In the next moment, Tang Huan kept the "Myriad Sword Heavenly Diagram", and used the ability "Void Escape", and her figure instantly disappeared without a trace from the sky above the ocean.

Chapter 1942 - Strong Enemy Toward

Flowing Flower Domain, Jade Imperial City.

The approach of the fire phoenix caused the entire city to be filled with fear.

Ever since the news of the fire phoenix's destination was here, almost every day, a large number of weak cultivators would choose to leave the city. As they saw it, although the Emperor Dragon Heavenly Palace and the Heavenly Law Palace possessed powerful strength, they were still inferior to the fire phoenix's ferocious might.

Not only did the ordinary cultivators share this view, the marquis also felt the same way.

If it weren't for the suppression from several Heavenly Kings, the numerous marquises gathered by the Heavenly Dao Academy would have already scattered like ordinary cultivators. Those ordinary cultivators had no confidence in fighting the fire phoenix, and so did the rest of the marquis.

However, they had no choice but to obey the orders of the Heavenly Dao Academy.

Since its inception, although the Heavenly Dao Academy had only existed for a short period of over a decade, it had already become a colossal existence in the Crimson Light Heavens, standing above all the other sects. Even the Principal of the Heavenly Dao Academy, Tang Huan, had not appeared for the past few years, so the development of the Heavenly Dao Academy was not affected in the slightest.

Many cultivators had a feeling that if they allowed the Heavenly Dao Academy to continue developing like this, this new force would definitely grow stronger and stronger, while the various great sects would gradually weaken. In the future, perhaps all the sects that had existed for countless years would disappear from the Crimson Light Sky Kingdom.

Of course, this sort of disappearance was not a true disappearance. Rather, they had fused with the Heavenly Law Academy. Their inheritance would not be stopped, and the person who inherited them would also be the Heavenly Law Academy.

In recent years, this trend has become more and more apparent.

Many of the cultivators had mixed feelings about this. They were happy to see what they could do, but they were even more unwilling. However, they didn't dare to fight back, so they could only keep it in their hearts.

This time, the fire phoenix was charging towards Jade Imperial City, obviously heading for the imperial palace.

Although he didn't know the reason, he didn't know how many cultivators were secretly celebrating in the various parts of the Crimson Light Heavens. The reason why the Heavenly Law Academy was able to exist was because of the Royal Dragon Heavenly Palace. If the Royal Dragon Heavenly Palace were to be destroyed, the Heavenly Law Holy Academy would naturally disappear, and the various large sects would also be able to regain their freedom.

Because of this, the numerous marquis that had been forcefully summoned all appeared to be extremely negative.

"Vice Principal Xiao, are we really not going to dodge?"

Inside the Jade Imperial City, inside the Heavenly Dao Academy headquarters, Chong Ze couldn't help but ask as he looked at Xiao Niandie, who was sitting cross-legged across him.

At that moment, there were dozens of people gathered in the main hall of the Sacred Courtyard.

Not only were there Vice Presidents Xiao Niao, Chong Ze, Sang Xiangyang, and Jin Hong, there were also Elders and Branch Presidents of Heavenly Law Academy like Nie Cangsheng, Yu Xinhe, Shen Hanyun, and Yun Feihong. They were the most core and most powerful figures of the Heavenly Dao Academy.

After Chong Ze spoke, everyone's eyes fell on Xiao Niao.

Even though there were four vice principals of the Heavenly King Palace, the one who was truly in charge here was Xiao Niandie. Even the previous Palace Master of the Emperor Dragon's Heavenly Mansion, Nie Cangsheng, had purposely emphasized Xiao Niandie's leading role, so even if there were different opinions, they were only raised privately.

The reason he did this was naturally to train Xiao Nian Die to have her own way. After all, in the current Emperor Dragon's Hall, Xiao Nian Die was the strongest person other than Tang Huan. With Tang Huan's cultivation speed, it was impossible for him to stay in the Scarlet Radiance Sect forever.

Xiao Nian Die's expression was calm as she said slowly, "We can escape, but the Emperor Dragon's Heavenly Mansion cannot. If we are still here, there is still a sliver of a chance for us to protect Emperor Dragon's Heavenly Palace. If we all leave, then Emperor Dragon's Heavenly Palace will disappear like smoke in thin air. " At the end of her speech, Xiao Niandie's tone became heavy.

Of course, she was clear that escaping now was an extremely good chance of survival. However, she could not bear to see the Emperor Dragon's Heavenly Palace being destroyed by the flame phoenix's obscene might.

"What if it's a sect seal?" Sa Xiangyang said in a low voice.

"It probably won't be of much use."

Xiao Nian Die shook her head and sighed, "That fire phoenix definitely has the power of a peak Superior Heavenly King. Even if it were the Feng Sect, we wouldn't be able to hold on for long. At that time, once the sect is destroyed, all of the cultivators in the Royal Dragon Heavenly Palace will disappear without a trace. They will have nowhere to run. "

"There's no need to worry too much, the Fire Phoenix is charging towards the Jade Imperial City and the Royal Dragon Heavenly Palace. It's just a guess, we have no enmity with it. We don't have

to mess around right now. If we wait another day, and if it still doesn't change direction after that, we'll immediately seal the sect. Of course, before the sect was sealed, cultivators with weaker cultivations would all be dismissed, leaving behind only the Heavenly King and the Ninth Heavenly Marquis! "

At this point, Xiao Niandie and Nie Cangsheng exchanged a glance.

This was something that they had already agreed upon long ago.

They could not run, but the young disciples of the sect could leave. Xiao Mushuang, Liu Hanyi, Yu Qing Rong, and Shen Bai had already left Jade Imperial City. As long as they were still alive, even if the Royal Dragon Heavenly Palace was destroyed by the fire phoenix, there would still be a day to rebuild them.

Hearing Xiao Niao's words, Chong Ze, San-Xiangyang, and the others breathed a sigh of relief.

"It's a pity Principal Tang Huan is not here, otherwise ..."

Yu Xinhe couldn't help but let out a long sigh.

However, before she could finish speaking, her voice suddenly stopped, and everyone could hear the unspoken meaning in her words. Tang Huan's strength and that fire phoenix, there was indeed a huge difference, but Tang Huan was often able to create miracles, if he was here, then there might be a way to resolve this crisis.

When everyone heard this, they all subconsciously fell silent.

After a long while, Chong Ze could not help but ask: "Vice President Xiao, Dean Tang Huan has not heard from anyone for more than ten years, where did he go? Could it be that he has already left the Crimson Wyrms Heavens? "

"Since Vice Principal Chong has asked, I won't hide it from you all." "Dean Tang Huan had long since entered the 'Heavenly Imperial Dragon Palace' to gain experience more than ten years ago. However, his clone had been cultivating in the Emperor Dragon's Heavenly Palace for a long time, and is now a middle level Heavenly King."

"He went to the Heavenly Imperial Dragon Palace?"

Everyone sucked in a breath of cold air, especially the two Heavenly Kings, Chong Ze and Ran Xiangyang. Their spirits were greatly boosted.

These past few years, they had thought about going to the Heavenly Imperial Dragon Palace to gain experience, but in the end, they still couldn't make up their minds. They didn't expect that Tang Huan had already entered there more than ten years ago. However, when they thought that Tang Huan had clones, the two of them were relieved. Even if his true body died in the Dragon Palace, his clone would become his new body. No wonder he had the guts to do so.

"Then President Tang Huan is now ..." Sander took a deep breath and asked hesitantly.

"Of course he's alive."

Xiao Nian Die said with a smile, "Dean Tang Huan has yet to leave the Dragon Palace ..." Just as she said that, Xiao Niao's smile froze on her face. She stood up from the praying mat like a spring. Her eyes opened wide, and shock and ecstasy filled her pupils ...

Chapter 1943 What if there were two?

As the first rays of the morning sun began to appear, a dazzling red light suddenly shot up into the sky. With astonishing speed, the red light began to spread in the direction of the direction of Jade Imperial City.

Accompanying this red light was an incomparably violent heatwave.

Wherever it went, the world seemed to turn into a furnace. The temperature soared, the vegetation turned to dust, and dust and dirt were swept up into the air. The crackling sounds of explosions resounded through the sky.

After a short moment, the red light became a sea of flames and surged forward like a violent wave.

In the midst of the sea of fire, an exceptionally large figure would flap his wings from time to time and move forward as fast as lightning. The terrifying Strength Qi churned and wreaked havoc, causing the sea of flames to become even more violent and fierce, even the nearby space had a captivating red color, as if flames were about to ignite at any time.

A hundred miles away from the Jade Emperor City, dozens of figures were moving quickly.

In the past two days, the atmosphere in the city had become increasingly tense and oppressive. The number of cultivators fleeing had increased, and this small group of people all had the intention of distancing themselves.

Suddenly, everyone seemed to sense something. Their bodies slightly trembled as they subconsciously looked over in the blink of an eye.

However, in the next moment, the eyes of these tens of cultivators suddenly opened wide. Shock involuntarily emerged from the depths of their eyes.

"It's here!" It's here! "

"Fire Phoenix!"

"..."

Immediately after, the screams could not help but rush out of the throats of the crowd, and even their voices began to tremble. When moving, the only one who could display such a frightening might was the Flamephoenix. In the past, the fire phoenix had only been a rumor, but now, it had appeared before his eyes.

However, the commotion caused everyone's hearts to tremble uncontrollably.

Even though they were still quite a distance away, everyone could feel the terrifying heat. It was as if a volcano was erupting and moving. The moment the wave of heat swept over them, everyone felt as if their souls were about to be melted.

"Let's go!" "Hurry up and leave!"

A muscular man in a yellow robe was the first to wake up, shouting hoarsely.

At the same time as he spoke, the yellow-robed man had already charged towards the direction of Jade Imperial City without looking back. The other cultivators all seemed to have woken up from a dream as they turned around and charged towards the Jade Imperial City. They seemed to wish that they could grow a few more wings and escape from the range of the fire phoenix's power.

However, even though their reactions weren't slow, they were still unable to escape this calamity.

Almost a moment later, a captivating red heat wave rolled in from Xie liang's side. The tens of cultivators only had enough time to gather their Tian Yuan energy to form a barrier before they were engulfed by the heat wave. The defensive barrier did not have much of an effect either. In the blink of an eye, it had all crumbled into pieces.

Shock, fear, regret, sorrow, despair ...

As soon as the various emotions appeared in the eyes of the crowd, the bright red flames came pressing down on them. In the blink of an eye, the horrified faces disappeared into the depths of the flames, instantly melting away without leaving a single trace.

"Clang!"

A high-pitched cry, like the sound of metal clashing, suddenly shook the heavens and earth, spreading over a thousand miles away.

Within the raging flames, the Flamephoenix flapped her wings a few times and in an instant, she had traveled a hundred miles of space and appeared outside the Jade Emperor City. Soon after, an earth-shattering berserk aura followed the heat wave and spread out in all directions, as if doomsday had arrived.

At this moment, at the edge of Jade Imperial City, a few figures appeared in the sky a few thousand meters above the fire phoenix. They were Xiao Niao, Jin Hong, Chong Ze, and Sang Xiangyang. There were more figures standing in the air in the city behind them, but they were all silent and terrified.

"One middle level Sky King, three lower level Sky Kings ..."

A cold and stern voice suddenly reverberated across the sky. That bright-red flame suddenly withdrew like a receding tide.

Its enormous wings spread out, covering the sky and covering the sun. Every single feather on its body seemed to have been condensed into a flame, and the burning heat actually turned into substance that circulated around its body.

"You want to stop me with just you two?"

Looking at Xiao Nian Die and the rest, the fire phoenix's red eyes were filled with a cold aura. After a moment, a musical note came out of its mouth, rolling like thunder and condensing into a terrifying oppressive feeling. It rumbled forward with frightening power.

At this moment, no matter if it was Chong Ze, the God King, or Xiao Niandie and the other Inferior Heavenly Kings, they could not help but have their expressions change drastically.

Standing in front of the fire phoenix, Xiao Niandie, Chong Ze, and the rest all felt a strong sense of insignificance, as if they were standing on a towering mountain peak, and they were only a rock at the foot of the mountain. Even if the fire phoenix hadn't done anything yet, they could still feel the pressure.

However, after a moment, Xiao Niao and the rest calmed down.

"Just the four of us aren't enough."

Xiao Nian Die's face was filled with laughter, but she didn't seem to be afraid at all.

An unusual expression that was difficult to detect flashed across the fire phoenix's eyes when it saw this.

The low level Heavenly King on the other side was simply too calm, causing it to be curious. Was the group of Heavenly King cultivators bluffing, or was there something else they could rely on? With just a flash of this thought, a hint of interest appeared on the Flamephoenix's face.

"But what if we include her?"

Xiao Nian Die raised her hand and pointed to the left.

As soon as she said that, a slim figure appeared a few thousand meters away to the left of the Flamephoenix without any warning. The woman in the purple dress had a slim and graceful figure, snow-white skin, picturesque features, and a beautiful face.

At almost the same instant she appeared, an exceptionally terrifying aura roared out from within her body without any concealment, and a violent storm was set off around her body.

"Upper Sky King?" The Flamephoenix snorted lightly, her tone filled with disdain.

"One Upper Sky King might not be enough, but what about two?"

Xiao Hui Die raised her hand and pointed at the right side of the fire phoenix with a smile. Thousands of meters away, a jade-like little girl appeared. Her fair face was covered in an innocent smile.

The body of the little girl began to ripple after she blinked a couple of times at the fire phoenix. In the blink of an eye, it had transformed into a huge, golden-colored dragon with a sharp horn on its head, while an extremely brilliant deep blue color appeared on its body. Six pairs of fleshy wings spread out, causing it to appear incomparably large.

Chapter 1944 - Dragon Meridians

"Blue Dragon?"

The fire phoenix slightly narrowed her eyes, her eyes revealing an extremely human-like surprise. "Furthermore, she's a twelve-winged Blue Dragon, is she a descendant of the Chaotic Heavenly Dragon? He actually has the potential to become a Divine Beast. What a pity that she's still a bit too weak right now. She won't be able to block my attack!"

As she said that, the surprise in the Flamephoenix's eyes turned into even more scorn, "To me, the two Upper Heavenly Kings are still nothing more than trash."

"Oh? What about the three Upper Sky Kings?" Xiao Nian Die's smile was like a flower, but her gaze went beyond Huo Feng Pang Shuo's body and landed on his back.

"Ga ji!"

The cry was like a thunderclap that suddenly rose up from behind the Flamephoenix.

The Flamephoenix's eyes narrowed slightly. She could actually feel an incomparable deathly stillness come roaring from behind her. In an instant, the vitality in this space seemed to have been completely melted away. At this moment, an area of several dozen kilometers seemed to have turned into a hell of death.

"This is ..."

The Flamephoenix jerked her head to look back, and a dazzling rainbow of colors appeared in front of her eyes.

Behind it, a giant bird of nine colors actually appeared. The feathers on its body were gorgeous to the extreme, yet the aura emitted from such a beautiful bird contained an endless deathly stillness. It was as if the place where the giant, nine-colored bird appeared was a dead end for the dead.

"The Nether Nine Spirit Bird of the Nether Realm?"

The light in Fire Phoenix's eyes became even denser as she said, "Moreover, it's the Netherworld Nine Spirit Bird that has undergone nine cycles ... It looks like I really made the right decision to come to Jade Imperial City! One twelve-winged Blue Dragon and one 'Netherworld Nine Spirit Bird.' If I can refine them all, I will have a chance to recover to the Sky Sovereign Realm. "

As she spoke to here, the red light in Huo Feng's eyes suddenly scattered, as if there were raging flames surging within them.

"Refine them? "You miscalculated!"

Almost at the same moment the Flamephoenix finished her sentence, a cold snort burst forth.

In front of Xiao Nian Die, a figure suddenly appeared, a handsome face, tall and straight, wearing a black robe, it was Tang Huan.

After knowing the whereabouts of the Fire Phoenix, Tang Huan began to quickly return to the Jade Imperial City.

Of course, on the road back, Tang Huan didn't forget to let Xiao Huaidie, who was cultivating in the Inner Palace of the sect, feel at ease.

They rushed on the way and finally arrived at Jade Imperial City last night.

Fortunately, Tang Huan had already levelled up to become an Upper Sky King, and could maintain her "Void Escape" for a longer period of time. Otherwise, he would probably still be on the way.

Now that the Fire Phoenix had appeared, Tang Huan's strength had reached its peak state.

Looking at Pang Shuo's fiery red figure, Tang Huan's lips curled up into a cold smile. Since the fire phoenix had come today, then there was no way for it to leave.

"It's you?"

The Fire Phoenix couldn't help but freeze for a moment the moment she saw Tang Huan. She then laughed, "Brat, I've thought of you. Ten years ago, you were in an extremely sorry state after being chased by me, and if you didn't hide in the Heavenly Imperial Dragon Palace, you would have been turned into ashes long ago. I never thought that after more than ten years of not seeing you, a mere lower heavenly king like you, would be promoted to a upper heavenly king ... Seems like you have gained quite a bit of fortune in the 'Heavenly Imperial Dragon Palace'. "

As she spoke, the fire phoenix's bright red eyes revealed an unconcealable surprise.

In just a short ten years, he advanced from the lower Heavenly King Stage to the Upper Sky King Stage, this cultivation speed was extremely astonishing, even in the previous nine days, but he did

not know what fortuitous encounters the human cultivator had had in the ten years he had entered the "Heavenly Imperial Dragon Palace", to actually raise his cultivation so quickly and rapidly.

Behind Tang Huan, Xiao Nian Die, Chong Ze and the others were also shocked when they heard the Fire Phoenix's words.

Before this, they had never thought that Tang Huan and the fire phoenix would actually know each other.

At that time, the purpose of Tang Huan and the nine spirits going to the "Pill Sea Region" was to investigate the situation of the Mountain Sea Sect's disappearance. However, not long after, Tang Huan's clone told them that the main body and the nine spirits had already entered the "Heavenly Imperial Dragon Palace".

But now, everyone realized that Tang Huan didn't enter the "Heavenly Imperial Dragon Palace" herself, but instead, had to enter the dangerous place in order to escape the fire phoenix's pursuit.

Fortunately, more than ten years later, not only had Tang Huan and the nine spirits walked out safely, they had even advanced to the level of Highest Sky King. Furthermore, at such a critical juncture, they brought back Sect Master Xiao Zihan, who had also become an Upper Sky King, and another Heavenly King, whose original body was also that of an Blue Dragon.

The four Upper Sky Kings, this was the reason why Xiao Niandie, Chong Ze, and the others were so confident.

"You're right."

After being exposed by the fire phoenix, not only did Tang Huan not get angry from the embarrassment, she instead laughed emotionally, "Speaking of which, I have to thank you for that. If I hadn't been chased by you and had to accept the protection of that 'Heavenly Imperial Dragon Palace', I wouldn't have become an Upper Sky King so quickly, and I definitely wouldn't have been able to reunite with my friends and little sister in the 'Heavenly Imperial Dragon Palace'. In this respect, you are indeed my great benefactor. "

His voice paused, and then Tang Huan smiled, "Even though you said that, I am unable to accept your kindness. "Fire Phoenix, time has changed. Back then, you were the one who chased after me. Today, I'm afraid that you will lose your life in my hands." However, before we make a move, I have two questions for you. I wonder if you are willing to answer them? "

"After making a trip to the 'Heavenly Imperial Dragon Palace', you sure are arrogant."

The fire phoenix's laugh was rather cold and fierce, "Since you want to ask, then ask. I am in a good mood today. Not only have I met the Twelve-winged Blue Dragon and the Netherworld Nine Spirit Bird, I have also met a Highest Heavenly King with the power of Primal Chaos. I have refined all of you, especially you brat, and within five years, I will definitely become an Empyrean. Seeing that you are about to give me such help, I am satisfied with your little wish, so that you can die in peace. "

"Alright, let me introduce myself first."

Tang Huan also stopped arguing with the fire phoenix, and said with a smile. "I am Tang Huan, the current Palace Chief of the Emperor Dragon Sky Palace in Jade Emperor City. "As far as I know,

there is no enmity between us in this Royal Dragon Heavenly Palace and I. Why did you come straight to the Royal Dragon Heavenly Palace the moment you left the Pill Sea Region?"

"So that's what you want to ask."

The fire phoenix's gaze was ice-cold as it chuckled, "Brat, to think that you're even the master of a manor. How could you be so naive? Who said that I can't come to the Emperor Dragon's Heavenly Palace because I have no grudge with the Emperor's Heavenly Palace?"

"Since your death is near at hand, there is no harm in me telling you."

"There is a dragon vein hidden in this place that is greatly beneficial to my recovery. Since I have already felt its existence, how could I not notice it? My coming here has nothing to do with whether or not there are any grudges between us. However, since you are the Palace Chief of the Royal Dragon Sky Hall, then from now on, there will be no longer be a sect called the Emperor Dragon Sky Palace in the world! "

Chapter 1945 - Dragon Yuan

Dragon Bloodline?

Hearing the Fire Phoenix's words, Tang Huan was stunned, Xiao Nian Die, Chong Ze and the rest were also stunned.

Ever since they had roughly determined the Flamephoenix's destination, Xiao Niandie and the others had been guessing at each other's intentions. After all, there really wasn't any enmity between the two parties before.

However, after guessing countless of reasons, they never would have thought that this was the real reason.

The Emperor Dragon Heaven Manor possessed dragon veins?

Not to mention Chong Ze and Sang Xiangyang, this was the first time even Xiao Niao, the cultivator from the Emperor Dragon's Hall, had heard of this news. Even the previous Martial House Master, Nie Cangsheng, probably didn't know about it.

"A dragon's vein, huh ..."

Tang Huan regained her senses and nodded slightly. As the current Palace Master of the Emperor Dragon's Heavenly Palace, he didn't know anything about it before.

Of course, this was also because he hadn't stayed in the Emperor Dragon's Heavenly Palace for too long, and he had never carefully investigated the situation there either. Otherwise, he would have long since discovered some clues. After taking care of this fire phoenix, he would properly investigate this Emperor Dragon's Heavenly Palace.

If there really was a dragon vein, then it would undoubtedly be extremely beneficial to one's cultivation.

In this world, a dragon's vein was a fusion of different types of power. The power was called "Dragon Yuan", and because the dragon's vein was shaped like a giant dragon, it was called a dragon's vein. This sort of draconic vein would generally be hidden deep underground.

The power of the dragon essence was like raging waves, surging and surging. It was very suitable for breaking through higher realms.

However, dragon essence was not something that anyone could casually refine. If one's endurance was insufficient, even a High Rank Heavenly King might be devoured by it.

The Flamephoenix was extremely powerful. If she really sensed the existence of the dragon fountain, she naturally wouldn't let it go.

"Although the dragon fountain is good, it is still inferior to yours."

The fire phoenix slowly turned its head, and swept its two eyes across Tang Huan, Xiao Budian and the nine spirits, "That dragon vein could at most help me recover to the Sky Emperor Realm, but the three of you flesh and blood could help me once again step into the Sky Sovereign Realm.

As she spoke to here, the fire phoenix's ice-cold eyes began to burn.

"So you were actually an Empyrean in the past. I apologize for my disrespect."

Tang Huan cupped her hands together and smiled faintly, but there was no respect between her brows, "There has been a rumor that the Mountain Sea Sect's Fire Phoenix Island was created by a fire phoenix. No one used to believe that it was true, but I wonder where all the cultivators of the Mountain Sea Sect have gone to now, could it be that they have all been devoured by you?"

"Is that your second question?"

The fire phoenix's gaze returned to Tang Huan, revealing a hint of a smile yet not a smile.

"That's right." Tang Huan nodded, "About ten years ago, I went to Fire Phoenix Island to investigate the reason for the disappearance of the Mountain Sea Sect. I wonder if you can explain to me why?"

"Kid, it's fine if I tell you."

The Flamephoenix snorted, her tone filled with pride, "I was an Empyrean, and my body formed its own world. Because of the changes that occurred, my cultivation level plummeted, but the world inside me still exists, and all of those Mountain Sea Sect cultivators have been absorbed into my world."

"So that's how it is."

Tang Huan suddenly nodded his head, and then laughed again, "You want my two younger sisters' flesh and blood, to recover your former cultivation, your calculations are not bad."

No matter if it was the Netherworld Nine Spirit Bird or the twelve-winged Blue Dragon, they were both unusual species of nature that was rarely seen in countless of years. If there was really a way to refine their flesh and blood, then it would absolutely have an unimaginable impact on one's own growth.

In addition, Tang Huan himself also possessed the Immortal Body Technique and the Primal Chaos Inheritance. If they could refine him, their effects would be no worse than that of the Nine Spirits and Xiao Budian. The Fire Phoenix saw through the mysteriousness of Tang Huan, the nine spirits and Xiao Budian with a glance. It could be seen that its eyes were extremely vicious.

"But unfortunately, you probably didn't think of this."

A strange smile appeared in Tang Huan's eyes as she said, "To you, we are all sent to your doorstep as treasures, but to me, you are also delivered to your doorstep as treasures."

"You have the body of the fire phoenix and the purest and purest source of fire energy. Although my dao flame contains the meaning of primal chaos, no matter how much chaos energy I absorb, it is still impossible for me to evolve into a true 'Chaos Dao Flame'. I didn't understand it in the past, but after seeing you, I realized it."

"Chaos Daos?" Hearing the four words that Tang Huan had said, the Flamephoenix's eyes immediately filled with shock.

"The reason that my flame didn't complete its final transformation was because it lacked the opportunity to transform. As for your flame of origin, that is exactly the opportunity that I need!"

Tang Huan didn't care about the change in the fire phoenix's expression as she continued speaking. As she finished speaking, his eyes instantly became filled with a brilliant light, and his eyes also burned with passion, "So, don't blame me for being unkind next. Do it!"

The moment the last note left his mouth, a white luster the size of an infant's fist whizzed out from Tang Huan's palm, and shot towards the fire phoenix. Wherever it passed, a loud rumbling would rise up, and even the air seemed to be smashed into a long pitch black hole.

Although it had not recovered its original size, due to Tang Huan's use of all her might, the might of the chaos origin crystal was still extremely frightening. In this instant, the vast space around it seemed to have been pulled back by the Strength Qi that had erupted from the "Primal Chaos origin crystal", as it violently twisted and distorted.

"Hmm?"

The fire phoenix narrowed her eyes and instantly opened her mouth slightly. A red light shot out from her mouth like a ray of light. The sharp sound of breaking through the air seemed to be able to tear apart the sky.

In a split-second, the red light collided with the "Chaos Origin Crystal".

"Boom —"

The terrifying Strength Qi, with the point of impact as the center, swept in all directions like a monstrous wave. Wherever it passed, violent ripples that could be seen with the naked eye would instantly appear.

Tang Huan was the closest to it, so she was the first to bear the brunt of the attack.

However, Xiao Nian Die, Chong Ze and the rest of the lower and middle Sky Kings behind Tang Huan were barely able to withstand the impact of the Strength Qi. The moment shock appeared on their faces, they subconsciously retreated dozens of miles back before they managed to stabilize themselves.

The few of them looked at each other, seeing the unconcealable shock in each other's eyes. When the Upper Sky King made his move, the power was truly terrifying!

Chapter 1946 - Mighty

After an instant, under many gazes, that red light exploded like fireworks, but that white light only paused for a moment before continuing to rush forward. Its might was not the slightest bit weaker than before, and it was still as terrifying as before.

At almost the same time, Xiao Zihan, nine spirits, and Xiao Budian had also brazenly made their moves.

"Sizzle sizzle."

With an ear-piercing sound, countless dense, purple sword Qis condensed in front of Xiao Zihan. They covered the sky like a locust swarm as they rushed towards the fire phoenix, and the terrifying sword intent immediately spread out like a wave. In the blink of an eye, it filled every inch of the surrounding space.

Behind the fire phoenix, the death aura roaring out from the nine spirits had already turned into an incomparably ferocious black storm. The death aura roaring out from the nine spirits had already turned into an incomparably ferocious black storm behind the fire phoenix.

On the other side, the Golden Horn above Xiao Budian's head released a golden light. In that moment, a majestic golden aura surged out of the Golden Horn like a flood and rushed towards the Flowing Gold Fire Phoenix. This power seemed to be able to cleanse the mind, and was able to instantly pacify any fluctuations in the mind.

"What is this thing?"

High up in the sky, the Flamephoenix's expression changed.

The surrounding attacks were like a wave, but its eyes were focused on the front.

With its eyesight, it was naturally able to see that the ball of white light was actually a pebble-shaped object. Of course, even an idiot would not treat it as a real pebble. The chaos power that it emitted was as vast as the ocean, and even it felt its heart palpitate.

Originally, it had been skeptical that Tang Huan possessed the "Primal Chaos Dao-flame" that had yet to mature. But now, there was no longer any doubt in its heart.

However, even though it was extremely surprised by the item, the fire phoenix's reaction was not slow at all. It stretched its neck forward and pecked forward with its sharp, iron-like mouth.

It was also at this moment that its body seemed to have transformed into a gushing volcano, and the flames that lingered around its body instantly transformed into three large torrents that shot out explosively towards the left, right, left, and right, as well as behind. The frightening heat caused the heaven and earth to churn, and the surrounding fifty kilometers seemed to have become an enormous furnace.

"Something that can crush you to death!"

Tang Huan laughed out loud. The moment she finished speaking, a loud "bang" sound suddenly burst forth in the air. It was the Fire Phoenix's sharp beak that had forcefully landed on the "Primal Chaos Source Crystal".

The Strength Qi that was even more berserk started to wreak havoc in all directions, causing the surrounding air to roil violently. As for the ground that was thousands of metres below, countless dust and sand were being blown, rolling around like stormy waves.

Under the violent clash, the "Primal Chaos Origin Crystal" immediately shot back towards Tang Huan and the Fire Phoenix Pang Shuo's body also explosively retreated several thousand meters back. At about the same time, the three blazing streams of flames also collided with Xiao Zihan, Jiu Ling, and Xiao Budian's attacks.

"Boom —"

An earth-shaking explosion shook the heavens.

At this moment, Xiao Zihan's countless purple colored sword Qis had shattered into nothingness, the death aura storm of the nine spirits had dissipated, and Xiao Budian's golden aura had also vanished into nothingness. However, the three streams of flames also turned into countless specks of red light, dissipating into the air and disappearing completely.

However, the Strength Qi produced by these three collisions was wantonly roaming about the world.

Although Xiao Zihan, Jiu Ling, and Xiao Budian's attacks did not pose a real threat to the fire phoenix, it still restricted its strength by quite a bit.

Under other circumstances, this would not have any effect on it. However, the moment it collided with the "Primal Chaos Source Crystal", its strength was suppressed and it felt a huge impact within its body. It felt as if all of its organs were being crushed by the energy unleashed by the "Primal Chaos Source Crystal."

Not only that, the Flamephoenix even felt as if her mouth was about to explode.

"You want to smash me to death? "Heh ..."

A sneer burst out from her mouth, while the fire phoenix's expression instantly turned extremely dark. Its two gigantic wings flapped violently, and just as it was about to shoot forward, it could not help but shrink its pupils. Within its eyes, an extremely shocking scene had already appeared at an astonishing speed.

Just as the ball of white light was caught by Tang Huan, it was thrown out once again.

But just at that time, the object that was like a pebble started to rapidly expand. Without even half a blink, it already reached ten thousand meters. That was already extremely terrifying. Even so, its expansion did not slow down in the slightest. 20,000 meters, 30,000 meters ... One hundred thousand meters!

Tang Huan's figure had already disappeared, and even her aura had completely disappeared.

It was comparable to the massive creature floating in the air in front of it, but it still seemed extremely small. Even if one were to raise their heads to the extreme, it would still be difficult to see their entire appearance. What surprised Fire Phoenix was that after this object appeared, it actually felt an enormous pressure.

"Fire Phoenix, what do you think now?"

Before his voice had even faded away, the "Primal Chaos Source Crystal" had already collapsed like a huge mountain as it rumbled down towards the fire phoenix, forcing the incomparably powerful Strength Qi to disperse, as if it could crush all the obstacles below into fine powder.

Upon catching sight of this scene, Xiao Niandie, Chong Ze, and the rest who had retreated far away were dumbstruck and tongue-tied. They were even suffocating. Even when they were standing at their position and saw the scene of the giant rock falling, they were still shocked. They felt as if they were about to be enveloped within.

Xiao Zihan, Jiu Ling, and Xiao Budian had long since known that Tang Huan had this move. When she was forced to retreat by the fire phoenix, her figure did not pause at all, and took advantage of the momentum to retreat a hundred kilometers away, so as to not be affected by the "Primal Chaos Source Crystal".

"Damn it!"

The fire phoenix completely ignored Xiao Zihan and the other two, as it let out a low shout of surprise and anger. Endless flames roared out from its body, and its body rapidly expanded like an inflatable ball. In an instant, it had reached the same level as the huge rock.

This was about the size of Fire Phoenix Island.

"Go!"

In the next moment, the Flamephoenix let out a sharp cry. Pang Shuo's wings were erected high up, and like two terrifyingly huge fiery blades, he slashed forward with lightning speed. Crack! Crackling sounds immediately rang out in the air as two enormous spatial rifts appeared in the air in front of them.

Seeing this, Xiao Zihan and the others were shocked, and subconsciously held their breath with rapt attention. Xiao Zihan, Jiu Ling, and Xiao Budian also couldn't help but be shocked, and looked far ahead into the distance with shining eyes.

Chapter 1947 - Wings Like A Blade

Its wings were like blades, seemingly capable of splitting apart the universe and splitting apart the heavens. Its might overflowed into the heavens.

In the blink of an eye, the Flamephoenix's two wings slammed against the 'chaos source crystal'.

"Bam!"

Suddenly, an earth-shattering sound was heard from thousands of miles away.

The terrifying Strength Qi roared out in all directions, and in the blink of an eye, it had already affected the borders of Jade Imperial City. Xiao Niao, Chong Ze and the other two Heavenly Kings involuntarily retreated, while the other cultivators who were nearby watching the battle from high up in the sky were thrown out.

Outside the city, an enormous crater extended from the point of impact.

In an instant, a large part of the Jade Imperial City was swallowed up by the crater. Countless buildings turned into dust at a speed that even the mind could not keep track of.

The vast space above the hole had already become hazy and chaotic.

In the center of this chaotic region, the "Primal Chaos Source Crystal" and the Flamephoenix retreated nearly half a kilometer away at the same time. However, after an instant, the Origin Crystal whistled forward again under Tang Huan's full control.

"Clang!"

The incomparably resounding Feng Ming burst forth from heaven and earth, the fire phoenix raised its head high, and in its pupils, fury burst out, as a pair of Pang Shuang's wings once again slashed out like sharp blades.

The two clashed again, again and again.

Earth-shaking explosions sounded continuously as the berserk Strength Qi rolled in the surroundings layer after layer. After being attacked by the explosion, the hole below became bigger and bigger, and it became deeper and deeper.

The dust and sand that accompanied the strong waves had already covered up the vast expanse of space, completely isolating the 'Primal Chaos Source Crystal' and the Fire Phoenix's figure from the view of the crowd in the distance.

"The battle between the Upper Sky Kings is actually so terrifying!"

In the skies above the Jade Imperial City, Xiao Nian Die couldn't help but shiver as she sensed the horrifying activity that was occurring in the distance.

"Fortunately Dean Tang Huan came back in time, otherwise, us middle level and lower level Sky Kings would not even be able to withstand a single strike from the fire phoenix. Even if we hide inside the Heaven Palace, we would have to endure for a long time."

Xiao Nian Die nodded slightly and asked worriedly, "I wonder if Principal Tang Huan can win this battle?"

"This..."

Chong Ze, Sang Xiangyang and Jin Hong looked at each other with hesitation. Tang Huan's strength was indeed peerless, especially after he had activated the gigantic object, the power that he had unleashed was even more terrifying. However, the strength of the fire phoenix was equally terrifying, it was hard to predict who would win and who would lose.

Instantly, Chong Ze revealed a smile again, "We do not need to worry. From the current situation, even if Dean Tang Huan does not win, she will not lose. If both sides were to suffer, the one who would ultimately leave his life here would be the Fire Phoenix without a doubt. Don't forget that we still have three Upper Sky Kings on our side. "

"That's true."

Hearing this, Xiao Niandie could not help but relax a little. But in the blink of an eye, she saw that half of the Jade Imperial City had disappeared, causing her heart to ache.

This city had spent a lot of effort and effort to reach its current size.

However, this huge battle had caused the entire Jade Imperial City to disappear...

Although half of the city had yet to be devoured by the giant pit, all of the buildings within the city were affected by the Strength Qi and turned into large areas of ruins. Even if a few of the strong ones had yet to collapse, they had already revealed countless cracks, and could collapse at any moment.

A Jade Imperial City like this was no different than a complete disappearance.

Fortunately, the entrance to the Emperor Dragon's Heavenly Mansion at the central plaza of the city remained as stable as ever, unaffected. The cultivators that were left behind in the city also all kept their lives, and only a portion of them were affected by the impact of the Strength Qi because they could not retreat in time.

As long as he was still alive, he would be able to rebuild Jade Imperial City sooner or later.

Compared to Xiao Nian Die and Chong Ze who were far away from the battle, Xiao Zi Han, Jiu Ling and Xiao Budian who were closer to the battle felt even more terrified.

Every time that enormous collision sound rang out, it would cause their souls to quiver.

Each time the Strength Qi exploded out, it seemed as if it wanted to tear their bodies apart. Every single one of them would revolve the power within their bodies to the extreme, forcefully resisting the impact of the Strength Qi, and from the beginning till the end, they stood at a distance of several hundred kilometers away from the "Soul-Splitting Source Crystal" and the fire phoenix.

Compared to Xiao Nian Die and the rest's worries, although Xiao Zi Han, Jiu Ling and Xiao Budian were shocked by the intensity of the battle, they were still full of confidence. Even if the Flamephoenix was once an Empyrean, in the end, she was still an Upper Level Heavenly King, and she had not even recovered her Heavenly Emperor's cultivation.

They had personally seen the Heavenly Emperor at the "Heavenly Imperial Dragon Palace". Naturally, they knew how powerful the Heavenly Emperor was. In front of the Heavenly Emperor, even the peak level Heavenly Kings were like ants.

If that fire phoenix was really the Sky Emperor, Tang Huan definitely wouldn't fight it head on.

Even though the current Tang Huan was not a peak-level Sky King, she still had the strength to contend against a fiery phoenix that was only a peak-level Heavenly King. Even a fiery phoenix's strength far surpassed that of an ordinary peak-level Heavenly King ... This was Tang Huan's confidence! Xiao Nian Die and the others had no doubts about this.

"Tang Huan, I have truly underestimated you!"

Deep within the hazy battlefield, the fire phoenix's cry could faintly be heard from the surging Strength Qi, its voice was filled with unconcealable anger.

At this moment, not only was the Flamephoenix angry, she was also extremely shocked.

The strength of its opponent had completely surpassed its imagination. The gigantic being that Tang Huan controlled was practically indestructible. With its wings at full power, even if it was a towering giant mountain that was tens of thousands of meters tall, they could still shatter instantly without harming the gigantic being in the slightest.

Hiding within that enormous object, was Tang Huan's extremely hard protective shield as she battled against it.

Initially, even though it had realised this point, it was still filled with confidence, feeling that it would not be a problem for it to take down the opponent. At most, it would just take a bit more time, and once this Tang Huan was done with, the other three Sky Kings would not be a problem. However, what happened next surprised it more and more.

Against such opponents, it wasn't as though there was no other way.

His opponent was hiding within the enormous object, but if its wings and the enormous object collided directly, it would definitely produce an incomparably powerful force. This force would then go through the gigantic object and directly affect the Tang Huan's soul which was connected to it. When the Flamephoenix realized that she was unable to destroy that item, she did have this idea in mind.

Unfortunately, as time passed, it noticed that Tang Huan, who was hiding inside, didn't seem to be affected in the slightest.

The soul of a Upper Sky King, could actually be tyrannical to such a degree, it was unbelievable, but the truth was right in front of its eyes, it had no choice but to believe it.

Chapter 1948 - Escaping Just like that?

"Three days apart is a whole new level of respect for a person, not to mention more than ten years."

Within the Primal Chaos Origin Crystal, Tang Huan's laughter resounded but her attacks did not slow at all. It was unknown just how many times a hundred thousand meter tall boulder had charged towards the fire phoenix with a roar.

The fire phoenix did not know about the story of Tang Huan's previous life, but it understood the meaning behind her words. It snorted angrily, "Tang Huan, you, the soul of a Highest Heavenly King, can actually endure such continuous attacks?"

"If your soul fused with a divine crystal, it would still be able to withstand it." Tang Huan gave a carefree laugh, and didn't try to hide it.

"Divine crystals?"

The Flamephoenix cried out in surprise, and her two massive wings clashed against the incoming "Primal Chaos Crystals." With an earth-shattering explosion, both sides retreated yet again.

Although it appeared that they were still evenly matched, the Flamephoenix was already complaining in her heart.

The enormous object was completely unharmed and Tang Huan, who was hiding inside, was unharmed as well. However, its energy was like flowing water, and even with the support of the heaven and earth, it was impossible for it to withstand such consumption for a long period of time.

Its wings felt like they were about to shatter after clashing against the gigantic creature so many times. If it continued like this, it would become a reality very soon ... At this moment, aside from being enraged, Fire Phoenix also felt a great sense of humiliation at the bottom of her heart.

It used to be an Empyrean powerhouse of the Nine Heavens, but today, it had fallen to such a state.

Moreover, the one who forced it to this state was actually a fellow who it had been chasing after in panic. How could it endure this? However, although it was somewhat difficult to accept this fact, its mind was abnormally clear. It knew that if it did not make a decision earlier, it would likely fall into a trap.

"Tang Huan, don't be complacent!"

"Do you really think that you can rely on such a thing to protect you forever? "Try this one on me again!" The instant her voice fell, the fire phoenix opened its mouth, and in that instant, a sharp and resonant cry resounded from its throat.

"Clang!"

The instant the note left his mouth, it seemed to condense into an incomparably sharp substance. Like a sharp thorn, it shot towards the "Chaos Source Crystal" like an electric current, as if it could even pierce through the blue dome of heaven.

"Hmm?"

Within the Primal Chaos Origin Crystal, inside the mind sculpture, Tang Huan couldn't help but raise her eyebrows slightly. The fire phoenix's scream seemed to contain an endless amount of penetrating power, and the moment the cry sounded, it made him faintly feel as if this enormous "Primal Chaos Source Crystal" was being penetrated.

Tang Huan did not dare to let her guard down, and immediately activated the divine crystal and waited patiently.

The sonic wave attack launched by the Flamephoenix was a soul attack technique as well. If it was an ordinary peak-peak Sky King using such a method, Tang Huan would not be afraid, but the fire phoenix was an ex-Sky Sovereign after all. It definitely had many powerful trump cards, which Tang Huan would not underestimate.

However, in the next moment, Tang Huan suddenly realised that although the sound wave gave off the feeling that it was as sharp as a needle, as though even the Primal Chaos Origin Crystal could pierce through it, but after being cut down by the Primal Chaos Origin Crystals and reached the center of the space, the sound wave had almost dissipated, it was not a threat at all.

The sound wave attack of the fire phoenix was nothing special!

This was definitely abnormal!

"This is bad!" It's trying to escape! "

Just at this time, outside of the Origin Crystal, the Fire Phoenix Pang Shou's body suddenly shrank at a rapid pace, and after a split second, its body, which had shrunk to a few thousand meters long, disappeared from the sky of Strength Qi.

This had indeed somewhat exceeded Tang Huan's expectations.

His original plan was to first use the "Primal Chaos Source Crystal" and the Fire Phoenix to clash head on for a while, weakening its strength by a large amount, then leave the Origin Crystal and separate out the Immortal Body clones. He would join forces with Xiao Zihan, Jiu Ling, and Xiao Budian, the three Upper Sky Kings, and attack them together.

did not expect the previous Sky Sovereign to be this cautious.

Even before the elephant was revealed, it had already begun to flee ... Its sudden action had indeed caught Tang Huan somewhat off guard. However, although Tang Huan was shocked, her reaction wasn't slow at all. Within her mind instructs (in a second), the "Primal Chaos Source Crystal" had also started to contract at a rapid pace, and his figure flashed and appeared.

"Hu!"

His mind spun wildly, instantly enveloping a circumference of ten thousand kilometers.

"Over there!"

With just a thought, Tang Huan executed her "Void Evasion" ability, and her figure as well as the "Primal Chaos Source Crystal" immediately disappeared from the high skies. Meanwhile, his voice resounded throughout the world at almost the same time, "Sect Master Xiao, Nine Spirits, Xiao Budian, you guys guard the Emperor Dragon Sky Manor, and do not stray too far away from it!"

"To think that... They ran away just like that? "

In the air above the hole, Xiao Zihan, the nine spirits who had already transformed into a human body, and Xiao Budian all looked at each other in dismay.

According to their speculations, the fire phoenix definitely wouldn't be able to escape so easily. After all, she was once an Emyrean. Although his cultivation had dropped to the peak Heavenly King Stage, the pride and dignity of an Emyrean should still exist. Naturally, he would not casually run away.

However, the fire phoenix had so easily abandoned its pride and dignity as an Emyrean.

"According to what big brother said, this should be called ..." What was his name? A tiger's head, a snake's tail! That's right, those four words! "

However, she used a word that Tang Huan had once used to describe the fire phoenix's actions. After that, she scolded in a slightly resentful manner, "It used to be an Sky Sovereign, even if it dies here, it's not possible for it to escape. This is truly embarrassing for an Sky Sovereign."

"Do you know that the higher the cultivation, the more precious one's life is?" Xiao Zihan couldn't help but laugh, "With the dignity of an Emyrean, how is one's life more important? It turned into that Fire Phoenix Island, sleeping for countless years before finally waking up with great difficulty. How could it take its own life so easily and risk it? "

"That is true, but if it really does flee, then big brother's Dao of Primordial Fire will be lost, right?"

Jiu Ling gloomily said. The Fire Phoenix's ability to travel through space was shockingly strong, otherwise it would not have been able to force Tang Huan into the "Heavenly Imperial Dragon Palace". Using such a method to escape was definitely an extraordinary feat. Right now, although Tang Huan's strength had improved greatly and she might not be able to catch up to it, she was still an unknown number.

Hearing that, Xiao Budian also nodded her head, but she immediately smiled and said: "Eyah, don't worry, big brother will definitely catch up to it, we will still listen to big brother and return back to the city."

"That's right. If that Flamephoenix were to return, the three of us in the city would be able to resist for a while."

"..."

Chapter 1949 - Fanaticism

"Hu!"

About five thousand kilometers away, Tang Huan's figure suddenly appeared, and in her line of sight, the fiery phoenix's red figure disappeared in a flash, once again disappearing without a trace.

Tang Huan coldly snorted in her heart as she cast "Void Escape" yet again, and her figure also fused into the air.

Nearly ten thousand meters in the air, two figures, one chasing and one fleeing, were constantly flashing. Their speed was extremely quick, and almost immediately disappeared with a flash.

Every time the fire phoenix traveled, it traveled across a large amount of space. In an instant, it traveled close to 10,000 kilometers.

However, at his current cultivation level, Tang Huan's "Void Evasion" was not any weaker than the Fire Phoenix's. Unless the Fire Phoenix was able to escape from Tang Huan's perception, no matter where it escaped to, Tang Huan could catch up to it accurately.

"Tang Huan, you can't catch up to me!"

In the sky above a boundless desert, the figure of the Flamephoenix flew off once more. Her voice echoed in the air, and her tone was filled with anger.

Nearly ten thousand kilometers away, the Flamephoenix once again flashed and passed away. However, she caught a laugh from behind. "You'll know once you try to catch her."

"Just wait and see. You are destined to waste your time." With a cold laugh, the Flamephoenix pierced through the air.

"..."

... ..

"Have you heard? Have you. Yesterday, Principal Tang suddenly appeared in Yuhuang City?"

"Dean Tang?" But the Principal of the Heavenly Sacred Courtyard, Tang Huan? I heard that he hasn't appeared for more than ten years. It is said that she is cultivating in seclusion.

"That goes without saying. Dean Tang Huan is already an Upper Sky King, and three other Upper Sky Kings appeared with him. They killed that fire phoenix in an instant."

"As expected of our Crimson Radiance Sect's number one powerhouse. Haha, I knew it! Fire Phoenix has come! He definitely won't sit idly by!"

"..."

In the Fierce Tooth Region in the northern part of the Crimson Radiance Sect, more than ten cultivators were walking on air amidst the vast snow-capped mountains. They were discussing incessantly, and all of them were in high spirits.

News from the Jade Emperor City had already spread far and wide.

The fire phoenix came from the Pill Sea Realm and destroyed the entire city. It burned the earth as well as the entire city. The majority of the cultivators were not optimistic about the ending of the Jade Imperial City and the Emperor Dragon's Heavenly Mansion. The Emperor's Heavenly Mansion may have been Crimson Radiance Sect's strongest sect, but it was still inferior to the Fire Phoenix.

This also made many cultivators happy, but there were also many who felt worried.

If the Royal Sacred Mansion and the Jade Imperial City were to be destroyed, the newly founded Heavenly Law Palace would definitely fall apart. The forces of all the sects in the Crimson Radiance Sect had only just gathered together through the Heavenly Dao Academy. If it were to collapse just like that, the rest of the Crimson Radiance Sect would become incomparably chaotic.

The cultivators who were unwilling to see their sects weakened were naturally extremely happy. However, many cultivators who already felt a sense of belonging to the Heavenly Law Academy were extremely worried.

However, a battle of such a high level was not something that ordinary cultivators could participate in.

However, no one in the Scarlet Radiance Sky everyone had expected that Tang Huan would actually appear in the nick of time, and that she would bring three Upper Sky Kings. Not only that, Tang Huan herself had been promoted to an Upper Sky King. In a short ten years, he had gone from the lower level to the upper level!

Everyone was stunned when they heard the news.

This kind of cultivation speed was simply too terrifying. Other Inferior Heavenly Kings, even if they spent a thousand years, might not even be able to advance to Upper Sky Kings. Yet Tang Huan, on the other hand, had already completed this difficult process in just a short ten years ... This was truly unbelievable.

The four Upper Sky Kings had blocked the fire phoenix outside of Jade Emperor City.

Of course, the main reason was Tang Huan, using her super strength, she defeated the fire phoenix, and even chased after it. As for the other three Upper Sky Kings, they stayed behind to guard the destroyed Jade Imperial City, to prevent the fire phoenix from suddenly returning, and to pose a threat to the Emperor Dragon Heaven Palace once again.

Now, a day had already passed. Had Tang Huan managed to catch up to the fire phoenix yet?

"Eh? "That is ..."

Just as they were talking excitedly, a muscular man in a green robe suddenly let out a surprised cry. His two eyes were as big as bells. Everyone subconsciously looked towards the direction of the voice and saw a fiery red figure flash across the distant horizon. It seemed to be a giant bird, its entire body wreathed in raging flames.

In the blink of an eye, the huge flaming bird disappeared. In the instant it disappeared, a small black dot also appeared.

The black dot seemed to be a black shadow, also disappearing in a flash.

When they saw this strange scene, the dozen cultivators couldn't help but look at each other in dismay. Shock surfaced in their eyes and a shocking thought involuntarily appeared in their minds.

"Fire Phoenix?"

After a split-second, the crowd almost simultaneously blurted out the two characters. Their faces were filled with shock and disbelief.

Compared to the appearance of the rumours, the huge flaming bird that appeared in the sky was clearly the fierce and impressive fire phoenix. From the looks of it, the one who was following closely behind should be Palace Chief Huang Long Tian Palace and Tang Huan, the Principal of the Heavenly Dao Academy. The pursuit of the fire phoenix had actually persisted until now and he had even chased it to the Fierce Tooth Region! In just a single day, he had traversed such a vast space.

This speed was simply sensational!

Only after a long while did the green-robed strong man and the others regain their senses. There was still a dense shock remaining between their brows.

But soon after, an unconcealable excitement appeared on their faces. The green robed man clapped his hands and laughed loudly: "Did you see that? Dean Tang Huan is indeed chasing after the fire phoenix and has been chasing it for an entire day and night.

"Some people speculated that the fire phoenix was a Heavenly King at the peak of the Upper Sky Realm, but right now, it is only being chased by Dean Tang Huan."

Beside him, a young man in a white robe had a look of admiration in his eyes as he said emotionally, "It looks like out of the thirty-six days of Heavenly Kings, no one can contend against Principal Tang Huan, his true strength has definitely far surpassed her cultivation level."

"That goes without saying. Dean Tang Huan is definitely the first king of the thirty-six days."

"So what if it's the next thirty-six days, even if it's the eighteenth or even the ninth day, I'm afraid no Heavenly King is a match for Dean Tang Huan!"

"I've decided. After I return, I will go and register. No matter what, I will become a deacon disciple of the Heavenly Dao Academy!"

"Brother Dong, I'll go with you!"

"And me, and me ..."

"..."

The eyes of the dozen or so cultivators were all filled with fanaticism.

Chapter 1950 - Nirvana Divine Flame

Tang Huan naturally did not notice whether there were other cultivators around, nor did she know that the pursuit of the fire phoenix would cause them to admire him even more.

He had already chased the Flamephoenix for an entire day and night. However, her speed had not slowed at all.

He had to constantly refine the chaos energy within the Origin Crystal in order to be able to sustain the continuous usage of his divine ability, 'Void Evasion'. But the Flamephoenix was actually able to withstand it as well. Even if the other party was forced to flee from the Jade Emperor City, he could not help but feel admiration for it.

The strength of the fire phoenix was indeed shockingly strong.

Fortunately he had that "Primal Chaos Source Crystal". Otherwise, even if he teamed up with Xiao Zihan, Jiu Ling, and Xiao Budian yesterday, he still might not necessarily have been able to defeat it.

"Tang Huan, how long are you going to chase me for?" The moment his figure appeared, the slightly shrill and angry shout of the Flamephoenix suddenly came from afar.

"To catch you, of course." Tang Huan laughed loudly, "However, if you are willing to hand over your firepower, I can consider letting you live."

"Dream on!" How can I hand over my 'Nirvana Divine Flame' to you? "

"..."

In just a few words, the two of them had already traveled tens of thousands of miles.

The fire phoenix's tone was filled with impatience.

At this point, she could not help but feel anxious. She had to rely on the countless years of accumulation at the embodiment and Fire Phoenix Island to be able to continuously travel through space. However, the bit that she had to use was the lesser, and if this were to continue, the capital that it had accumulated over the course of countless years would be slowly consumed.

At this time, it even had the strong impulse to return and fight with Tang Huan again.

However, it restrained its impulse in the end. Under this kind of situation, not only would it not solve the problem, it would even make the situation worse.

The fire phoenix pierced through the void at a rapid speed, but its mind was working rapidly as it tried to think of a way to escape.

"Nirvana Divine Flame ..."

Behind the Fire Phoenix, Tang Huan also used "Air Escape" time and time again, but these words couldn't help but flash through her mind.

This familiar name made Tang Huan subconsciously recall the first Spiritual Fire he absorbed and fused, it was the "Nirvana Sacred Fire". One was the "Nirvana Sacred Fire" and the other was the "Nirvana Flame". The difference between the two was only a single word, but the difference was like heaven and earth.

However, these two types of firepower were related to phoenixes.

Decades ago, the "Nirvana Sacred Fire" that Tang Huan had fused with was inside the "Phoenix Lair" of the small world's Feng Ming mountain. At that place, he had encountered the "Flamewing Phoenix King" Feng Ming who was healing there.

Currently, this "Nirvana Divine Flame" originated from a fire phoenix ...

In that instant, Tang Huan's heart moved, she subconsciously thought of the Phoenix that was ranked first in the small world's Spirit Beasts Board. After leaving the small world and going to the Forging God Great World, the phoenix did not leave behind any trace of life, so whether it lived or died was unknown. If it lived, would it have anything to do with the fire phoenix?

"Tang Huan, who exactly are you?" The fire phoenix's fierce shout came from the front once again.

"Me?"

"Actually, other than the Palace Chief of the Emperor Dragon's Heavenly Palace and the Principal of the Heavenly Sacred Courtyard, I also have another identity, and that is that I am not from the Heaven Realm. I am a cultivator who went through heavenly tribulation from the lower realms, and I am also from the Forging God Great World."

When Tang Huan pointed out "Forging God Great World," he naturally meant to probe his.

"Forging God Great World?"

The fire phoenix subconsciously repeated these words. However, it seemed to have thought of something in an instant and suddenly exclaimed, "You actually come from the Forging God Great World?"

"There's hope!"

However, Tang Huan's eyes could not help but light up. She once again used an "Air Escape" to travel across nearly ten thousand kilometers of space. "From your tone, it seems that I have also heard of Forging God Great World."

"More than just hearsay?"

Fire Phoenix coldly snorted, "I have a set of embodiment that was birthed in that Forging God Great World."

"Oh?"

Hearing that, Tang Huan's heart could not help but thump, "That embodiment of yours was born in that small world that was separated from the Forging God Great World."

"You actually know this?" A hint of surprise appeared in Fire Phoenix's voice.

"Of course!"

Hearing this, Tang Huan could not help but laugh out loud.

Now, he was completely sure that the phoenix in the small world was one of the fire phoenix's embodiment. This world could be said to be large but it was also small. The phoenix had left the small world many years ago, and now, it was able to meet its true body here.

This was fate!

However, this sort of fate didn't seem to be good for the Flowing Gold Fire Phoenix.

"What are you laughing at?" Fire Phoenix said angrily.

"To be honest, I'm also from that small world." Tang Huan laughed.

"What?"

The Fire Phoenix could not help but be shocked, but quickly calmed down and said: "Tang Huan, that means you and I are from the same place! "Since that's the case, you and I should help and support each other. But look at what you're doing right now?"

"You're right."

When Tang Huan heard this, the smile on her face became even wider, but she did not relax in the slightest as she continued to chase after the fire phoenix, "My dao flame has already reached the critical stage of its breakthrough, and your 'Nirvana Divine Flame' is the best opportunity for me to break through. As long as I fuse with it, my dao flame will transform into my true 'Primal Chaos dao flame'. Fire Phoenix, since you said that you will help each other and help each other, now is the time for you to fulfill those words.

"Bullsh * t!"

Fire Phoenix was so angry that she started scolding, "Tang Huan, I never thought that you would be so greedy and malicious. I want to see if you can last until the end, or if I can last until the end. You

don't have to be afraid to tell me that the power that I have accumulated in the world within my body is enough for me to last for a year. "

"What a coincidence."

Tang Huan said with a smile, "The amount of chaos energy that is accumulated within my 'Primal Chaos Source Crystal' is enough for me to consume for a long time. Right, the 'chaos origin crystal' is the treasure that nearly killed you. You probably haven't forgotten about it yet. "

"You ..."

Fire Phoenix was on the verge of vomiting blood. She was a little doubtful about what Tang Huan had said.

If it was real, then Tang Huan reckoned that even after using up all the capital it had saved up, it still possessed a lot of energy. However, regardless of whether what Tang Huan said was exaggerated or not, the "Primal Chaos Origin Crystal" had accumulated a vast amount of power, and this must be true.
