

W. Master 2031

Chapter 2031 - Premeditated

"As expected of the King of the Nine Heavens, you have good experience."

Tang Huan praised her with a smile.

If not for the God Casting Crystal, Tang Huan really didn't plan to control this fellow who had already stepped into the Heavenly Emperor Realm. This was because no matter if it was the "Puppet Soul Seal" condensed from the soul force of Sword Heart, it was impossible for it to merge with the soul of a half-step Heavenly Emperor.

However, with the God Creation Crystal, it was different. It was an existence that surpassed the Heavenly Dao.

To condense the "Puppet Soul Seal" with the power of the Sword Heart, and then use the God Creation Divine Crystal to assist Tang Huan, he could absolutely fuse it with the half-step Sky Emperor's soul.

It was because of this that Tang Huan had sucked Mo Yunfeng into the cave.

For this purpose, Tang Huan was extremely cautious, she deliberately allowed him to escape for such a long distance before suddenly making a move, and captured him in one go. The reason was very simple, it was to give the spectating cultivators of the Saint Dao City the impression that Mo Yunfeng had successfully escaped. If they had captured him then, they would have been suspicious.

Now, even if Tang Huan controlled Mo Yunfeng, no one would notice it in the next thirty-six days.

"Nice experience?"

After a while, Mo Yunfeng recovered from the extreme shock and could not help but bitterly smile. "I would rather not have such insight."

It was because he understood the divine crystals that he felt such despair.

Being controlled by someone who possessed a Divine Crystal, he would never have any hope of getting out of this predicament. Unless, he was able to prove his position as a Divine Body, and this was even more impossible. Once controlled, the soul would have a flaw. A cultivator with a flaw in their soul would not be able to prove their dao, no matter how strong they were.

His voice paused slightly, and Mo Yunfeng could not help but speak up: "Tang Huan, although I am an elder of the 'Phantom Pill Sect', within the sect, there are as many as a thousand elders of my status. Even if you control me, it would be very difficult for me to help you obtain much benefits in the 'Phoenixcloud Pill Sect'."

"You're wrong."

Tang Huan smiled indifferently, "The reason why I'm controlling you is not to steal benefits from your 'Phecda Core Sect', but to protect my thirty-six day family and friends.

"Originally, I did not plan to do that. However, you delivered yourself to me. Since that's the case, I can only accept it."

"..."

Mo Yunfeng was immediately speechless.

Initially, he still had a trace of hope, hoping to persuade Tang Huan to stop. However, after hearing Tang Huan's words, the last bit of hope in his heart was completely shattered, and an even more bitter feeling rose from the depths of his soul.

If he had known earlier, he wouldn't have come to find trouble with Tang Huan because of the grievances his niece suffered. But unfortunately, things had already come to this point, so there was no point no matter how much he regretted.

"What are you going to do with Wen Yun?"

After a long while, Mo Yunfeng finally spoke again.

He did not ask, whether Tang Huan would also control Mo Wuyun, because there was no need to ask, even though he was a half-step Sky Emperor, Mo Wuyun, whose cultivation was lower, would not be able to escape.

After controlling him, Tang Huan would definitely make a move on Mo Wuyun.

"She will follow me for eighteen days."

Tang Huan laughed, "I have to say, the 'Voidwave Divine Ark' of your Celestial Sect is indeed powerful. Although I cannot take your 'Voidwave Divine Ark' as my own, but as long as I bring her along, it will still have the same effect. As for you, you will be heading towards the Crimson Light Heavens to stand guard over the Jade Imperial City. "

After he finished speaking, Tang Huan's smile grew even wider.

With a Heavenly Emperor Stage powerhouse, numerous Peak Heavenly Kings, his family and friends, as well as the Heavenly Dao Academy, what was there to worry about? Thinking of this, Tang Huan felt extremely comfortable in his heart.

"I've already thought about it."

Hearing Tang Huan's words, Mo Yunfeng laughed, but her smile was uglier than a cry. "Looks like you had such a thought a long time ago, it's just that you couldn't find an opportunity to attack my niece, you hate me and my niece for foolishly jumping into the trap that you dug yourself."

After Tang Huan heard this, she smiled but did not speak.

It was just as Mo Yunfeng had said. After she heard from Hua Tianchi that the "Emptiness Divine Ark" of the Celestial Dan Sect was different from ordinary people, he had the thought of controlling Mo Yanyun.

However, if he were to say it out loud, the spilled water, as well as the friendship between Mo Hanyun, he could only give up and would not do anything else if Mo Hanyun was truly obedient.

However, he didn't expect Mo Hanyun to make a move again, and with such a powerful helper.

Since that was the case, what was there for Tang Huan to be polite with him?

"Make your move!" Mo Yunfeng gave a long sigh and closed his eyes with a bitter smile. His handsome face was filled with helplessness, grievance and despair.

"..."

It was quiet outside the sage realm.

At the edge of the city, the countless spectating cultivators gradually dispersed as well. However, the scene just now caused everyone to feel quite puzzled.

From the commotion, it was obvious that one of the two people fighting was the Principal of the Heavenly Sacred Courtyard, Tang Huan.

As for the other.

The person who was called "Uncle Fifteen", and the one who had called out these few notes, seemed to be that Xuanji Pill Pavilion's Pavilion Master Mo Hanyun. From this, it was clear that Uncle Fifteen was also from the xuanji Pill Sect's Mo Clan's Disciples.

It was said that Mo Hanyun was about to leave XuanDu and return to the nine heavens. That 'Uncle Fifteen' might have come to replace her and stay for thirty-six days.

But what confused everyone was that the relationship between Tang Huan and the "Phoenixcloud Pill Pavilion" should be very good. Those perfect tools auctioned by the "Phoenixcloud Pill Pavilion" a hundred years ago seemed to be Tang Huan's handiwork.

Right now, the cultivator called '15th Uncle' by Mo Hanyun had already escaped, but this matter would not be so easily resolved.

The xuanji Pill Pavilion was a super great sect that hooked up with the heavens and left the world. After suffering such a great loss, how could they just leave it at that?

However, revenge was definitely not the way it was now. That "Uncle Fifteen" was already a half-step Heavenly Emperor Stage powerhouse, and even he was not Tang Huan's opponent. Who else could contend against Tang Huan in the thirty-six days of the Celestial Dan Pavilion? Of course, for cultivators, it wasn't too late to take revenge after a hundred years.

Tang Huan should also be able to think of this point, I wonder if she will continue fighting with Mo Hanyun and Senior xuanji Pill?

The wisest choice would naturally be to find a way to resolve this conflict with the xuanji Pill Pavilion, and not to continue fighting. After all, no matter how strong Tang Huan and the Heavenly Dao Saint Academy were, they could only dominate in the next thirty-six days. They simply could not be compared on par with the super sects that only existed in the nine heavens.

However, Tang Huan had just won a great victory over a dozen Heavenly Kings, and the Heavenly Dao Academy he had created had obtained a brilliant combat achievement from the "Myriad Domain Dao Arts". If he were to explode with confidence because of this and do some irrational actions, no one would be surprised.

Because of this, everyone in the city was secretly paying close attention to the movements of the Xuanji Pill Pavilion.

Chapter 2032

If Tang Huan really did do anything to Mo Hanyun and Senior Xun Ji Dan, in the next thirty-six days, it was unknown just how many people would be wild with joy.

If he were to do so, he would indeed be able to act in an unrestrained manner. However, it would also be equivalent to ringing the death knell of the Heavenly Dao Academy.

If the Heavenly Dao Academy were to continue existing, they would probably be able to obtain the most "Absolute Beginning Immortal Pearl" with absolute superiority every time they used the "Myriad Domain Dao Arts" in the future. As for the other 35 Heavenly Realms, they would be under tremendous pressure. The many Heaven Realms where different sects governed on their own could not be compared to the unified Crimson Radiance Sect.

However, what happened next disappointed countless people.

After around half a day, many people saw Tang Huan enter the Sacred Road City from the east side alone, and then directly return to the Myriad Domain Immortal City. She did not have the slightest intention to cause trouble for the xuanji Pill Pavilion.

After half a month, the new Pavilion Master of the xuanji Pill Pavilion was invited to attend the ceremony. The new Pavilion Master was impressively the "Uncle Fifteen" who had fought a great battle with Tang Huan outside of the Sacred Road City but had fled in defeat. Her surname was Mo Feng, and she was a xuanji sect elder.

During the ceremony, many cultivators saw Tang Huan and his family.

Many cultivators saw that Tang Huan, Mo Yunfeng and Mo Hanyun, the two new and old Pavilion Master of the xuanji pill house, were talking and laughing. The conflict half a month ago seemed to have turned into smoke in the blink of an eye.

From this point of view, the feud between the two sides had indeed been resolved.

This scene left everyone disappointed. After the news spread, even more cultivators in the Sacred Dao City felt regret. An opportunity to make the Heavenly Dao Academy disappear had just disappeared.

However, although they were extremely disappointed, the crowd could do nothing about it. It was not an easy thing to provoke the two sides to continue fighting, and it might even lead to disaster.

Time flew, and the bustling atmosphere within the Sacred Road City waned slightly as the "Myriad Domain Dao Arts" came to an end.

As more and more cultivators returned to the various Heaven Realms, the figures of Tang Huan, Shan Shan and the rest would appear in different parts of the Myriad Domain Immortal City and Saint Dao City from time to time. After all, who knew how many years they would have to spend together the next time they met?

Unknowingly, the "Heaven Splitting Platform" that led to the Heaven Splitting Red Radiance Sect finally opened.

"Whooosh."

The dazzling light gradually disappeared and the Heaven Splitting Platform became silent. Along with the light, the numerous cultivators that were originally on the platform also disappeared.

Beneath the Heaven Cracking Platform, Tang Huan stood still for a long time before sighing dejectedly.

After separating for fifty years, they finally reunited in the Heaven Realm. After a few short decades, they had to separate again. Although Shan Shan and the rest did not say anything, their reluctant gazes caused Tang Huan to feel pain in her heart.

"Big brother."

A clear and delicate voice came out, it was the voice of the nine spirits and Xiao Budian.

Two little girls stood beside Tang Huan, one on the left and one on the right, their beautiful eyes full of concern. As for Ling Tian, he also laid on Xiao Budian's shoulder, and looked at Tang Huan.

"We should leave as well."

Tang Huan calmed her emotions and laughed, then looked behind him.

At this moment, Hua Tian Chi was standing about two to three meters away from him with a respectful expression. Ever since he had decided to follow Tang Huan, Hua Tian Chi had always been strict with him, not slacking in the slightest. Beside Hua Tianchi, there was a slim and graceful woman dressed in a red dress. She was Mo Yanyun.

Just a moment ago, Mo Yunfeng, Shan Shan and the others had been sent to the Crimson Radiance Sect by the "Sky Cracking Platform." Naturally, Mo Hanyun had stayed behind.

Other than Xiao Budian and Jiu Ling, who were Tang Huan's closest friends, no one else knew that not long after Tang Huan had returned to the Sacred Dao City, Mo Wuyun, like her "Uncle Fifteen" Mo Yunfeng, had been forced to merge with the "Puppet Soul Seal" at the heart of the sword, and had become a puppet under Tang Huan's indirect control.

After controlling Mo Hanyun, Tang Huan finally understood why this woman had acted in such a way in the xuanji Pill Pavilion.

She was indeed like what Mo Yunfeng said. She wanted him to join the "Phecda Core Sect". However, the way she joined was naturally not a normal method.

There was a powerful pill called the "Maze Immortal Illusionary Infant Pill" in the Xuanji Pill Sect.

After fusing the Mind Stigma into it and giving it to others, the pill would immediately seep into the Dao Infant, blending perfectly with it. From then on, the person who took the medicine would be controlled by the owner of the Mind Stigma, and even if it was a Heavenly Emperor Stage expert, they would be at the mercy of the pill's owner.

However, this kind of pill was extremely rare, so Mo Wuyun didn't bring it with her.

She wanted to first trick Tang Huan into going up to the nine heavens' worth of the Celestial Phantom Pill Sect, and then ask for a "Fantasy Fantasy Infant Pill" to control Tang Huan. There was a super powerhouse of the Empyrean level within the Phecda Core Sect. If Tang Huan had really been lured into the encampment of the sect by Mo Wuyun, she would not have been able to escape.

The reason why Mo Hanyun chose Tang Huan was because of the importance that Mo Hengqing placed on Tang Huan. As for Tang Huan, she stepped into the realm of the peak of the Sky King a hundred years later. Furthermore, she had shown Mo Hanyun Tang Huan's astonishing potential, thereby making a firm resolution.

Because it was controlled by the "Bewitching Infant Pill", it wouldn't affect his training in the slightest.

If they could really control Tang Huan, it would be equivalent to possessing a Heavenly Emperor or even an Empyrean level super puppet in the future. In order to achieve this goal, Mo Wuyun was willing to give up her own capital, and was even willing to use her own body as bait.

It was only a pity that Tang Huan did not take the bait.

Now, not only her, even the Mo Yunfeng who had just arrived from the last nine days was already controlled by Tang Huan. When she thought of this, Mo Wuyun became incomparably furious.

Tang Huan didn't mind Mo Wuyun's gaze in the slightest.

Knowing her sinister intentions, Tang Huan did not feel the slightest bit of guilt in his heart for controlling such a beautiful woman.

As his gaze swept past the two people, Tang Huan said with a smile, "Elder Hua, you can enter the Space Aircraft of the nine spirits first. Then, we can board Pavilion Master Mo's' Void Divine Ark 'and head towards the eighteenth day." As the sound of his voice faded, the Nine Spirits' Life and Death Dao Lotus appeared in a flash.

"Yes, dean."

He looked at Mo Hanyun, who looked like he wanted to speak but was hesitating in the end. In the end, he did not speak and simply nodded his head, before turning into a streak of light and being sucked into the Nine Spirits' " Life and Death Dao Lotus'. In an instant, he disappeared.

Tang Huan summoned the "Myriad Sword Heavenly Diagram", nodding to the nine spirits, Xiao Budian and Ling Tian, and then sending them along with the nine spirits' "Life and Death Dao Lotus".

Chapter 2033 - Entering the Void

"Tang Huan, my 'Voidwave Divine Ark' can only carry one more person at most. I can't carry so many people like you."

Mo Wuyun frowned and said, "Although they have entered your spatial artifact and do not occupy the space of the 'Great Void Divine Ark', as long as you enter the 'Great Void Divine Ark', the heavens will acknowledge their existence. I will have to expend more of my bloodline energy to activate the 'Great Void Divine Ark'."

With a cold snort, Mo Hanyun said bitterly, "When I carry you more, I will need to consume one more fold of my bloodline power. Adding on the four of them, my bloodline power will be depleted in no time. At that time, the 'Voidwave Divine Ark' will definitely be lost in the void."

"What do you mean?" Tang Huan smiled slightly.

"Of course it's to let them stay for thirty-six days." Mo Wuyun angrily rolled her eyes.

"This is impossible."

Tang Huan smiled charmingly at Mo Hanyun, and only when she was scared witless did he slowly say, "Hanyun, you are the Mo Family Disciples from the 'Phantom Pill Sect' from the Ninth Heaven, how could you not be able to do such a small thing? I trust in your abilities, it's up to you now. "

"You, you ..." Mo Han gritted his teeth in anger.

"Alright, now you can take out your 'Voidwave Divine Ark'."

Tang Huan said while beaming.

Mo Hanyun tensed up her seductive face and angrily glared at Tang Huan, but she could only helplessly summon the "Void Divine Ark" out of the Dantian. Her "Voidwave Divine Ark" was the same as Mo Yunfeng's. It was less than two meters long, red like fire, sparkling like jade, shiny and shiny.

Tang Huan sized up the area for a moment, then looked towards the direction of the Sky Cracking Platform, instantly calming herself down, she took a deep breath and waved at Mo Wen Yun: "We can set off now."

"Humph!"

Mo Hanyun depressingly released such a note, which was considered a response to Tang Huan's orders. The next moment, her thoughts moved slightly, and a strange ripple-like fluctuation immediately rose from the surface of the divine ark. A powerful and gentle suction force immediately surged out, enveloping both Tang Huan and herself within.

In a split-second, the two figures followed the suction from the divine boat and entered its body like flowing lights.

Narrow and small! It was extremely small!

This was the first feeling Tang Huan had after entering the "Void Divine Ark".

The interior of the divine vessel was a circular space, and was indeed extremely narrow, with a diameter of only a little more than a meter. The interior of the divine vessel was a circular space, and indeed was extremely narrow, and a diameter of only a meter.

However, there was no need for Tang Huan to squeeze into this place with Mo Wuyun, it would be fine as long as she entered the cave later. Since Mo Wuyun had already been controlled, it would be impossible for her secrets to be leaked out. The reason why he came with Mo Hanyun was because he wanted to take a closer look at the condition of this "Voidwave Divine Ark".

Hence, after a while, Tang Huan had already adjusted her mental state and carefully investigated.

This "Voidwave Divine Ark" was indeed incomparably mysterious. When Tang Huan calmed down, she realized that the boat body contained countless lines that were constantly intertwined with the power of the heavens. Once the "Voidwave Divine Ark" was activated, Heavenly Energy would certainly be channeled into it, continuously adding fuel to the fire.

At this moment, Tang Huan completely understood why the xuanji Pill Sect's "Void Divine Ark" was faster than ordinary "Void Divine Ark".

The root of it all lay in the Heavenly Energy.

With the help of the Heavenly Energy, the speed of the "Voidwave Divine Ark" had reached an extremely terrifying level. The price it had to pay was the sacrifice of the space within it as well as the number of people it carried.

In this way, the nine spirits, Xiao Budian, Ling Tian, Hua Tian Chi and the Heavenly King Puppets that were inside the cave space would indeed be considered passengers on the divine ark, just like Tang Huan.

In addition, this kind of "Voidwave Divine Ark" could only be activated by at least the Heavenly King.

"Begin!"

Tang Huan slightly nodded, unrestrainedly giving out orders.

Mo Hanyun glared angrily at Tang Huan before he sat down cross-legged in the small space. After an instant, a rich blood colored aura rolled out from her body, as though it had turned into blood colored spiritual snakes, fusing into the surrounding walls of the space.

"Rumble ..."

In the next moment, trembling sounds echoed out in all directions.

After absorbing the power of the Ink Aura's bloodline, the countless patterns on the boat seemed to have turned into living beings. They were circling rapidly but gradually fading away. In just a short span of two to three breaths, all the patterns had disappeared and the entire boat became transparent.

Tang Huan looked around and saw the scenery in the outside world clearly.

"Slash ..."

Under the urging of the Ink Aura, the "Void Divine Ark" seemed to have condensed an invincible force. After an instant, Tang Huan heard a sharp noise that sounded like the tearing of silk, and in front of the Divine Ark, a long and narrow crack in space had actually been torn open, turning the place completely pitch black.

"Hu!"

Without the slightest bit of hesitation, the divine vessel passed through the spatial crack like lightning. It had already left the Profound Sky Sect and entered the void. As the spacial rifts rapidly closed behind them, the surroundings of the fiery red divine ark became endless darkness and silence.

"That's right."

Tang Huan was rather satisfied, and nodded her head with a smile on her face.

But just at this moment, Mo Hanyun's beautiful face changed, she gasped for breath, and even her voice became somewhat shrill, "Tang Huan, just how many people did you bring in?"

"Thirty." Tang Huan said with a smile.

"Three... Thirty? " Hearing this number, Mo Wuyun's entire face turned green, and she couldn't help but scream.

"I'm talking about the other thirty other nine spirits, Xiao Budian and the other four."

Tang Huan chuckled as she added.

Originally, Tang Huan had planned to leave more puppets for Shan Shan and the rest, but her plan couldn't keep up with the changes. With the addition of Mo Yunfeng, that half step Celestial Emperor from the Celestial Emperor from the Celestial Sect of Xudan, he had reduced the number of puppets she could use to protect her wife and children to nineteen.

"You ... You. Tang Huan, are you trying to tire me to death? "

There were thirty-four of them inside the spatial artifact. Adding Tang Huan and herself, it meant that there were thirty-six people inside the "Void Divine Ark". Bringing so many passengers along in the dark void for so many years, just how much bloodline energy would be expended?

"Just another thirty people."

Tang Huan laughed and said: "Hanyun, you are the Mo Family Disciples from the Upper Nine Heavens' Phecda Core Sect. How could you not be able to do such a small thing?"

Chapter 2034 - Blood God Pill

"But? Is that all? "

Mo Wen Yun laughed, her beautiful face was swollen red, and words almost came out from her teeth, "Tang Huan, you are making it sound so easy, aren't you? Originally, this was only for a single person to use to refine the 'Divine Void Ark'. Bring thirty-six people along with it, you ... You're telling me this is just a small matter? "

"Enough, enough."

Tang Huan waved her hand and smiled, "Great Pavilion Master Mo, don't keep pretending with me. You have so many 'Blood God Pills' in your spatial ring, why haven't you used them?

"You ... How do you know? " When Mo Wuyun heard this, she could not help but be stunned.

"Don't forget, I am your master."

Tang Huan said with a face full of smiles.

Long before he had taken control of Mo Yunfeng, Tang Huan already knew that these Mo Family Disciples s would accumulate a lot of "Blood God Pellets", in case he needed them. The so-called "Blood God Pill" was a pill specially concocted by the "Phoenixcloud Pill Sect" to aid the sect's Disciples s in recovering their bloodline power.

When Mo Yunfeng traveled through the void of darkness for a long time and arrived at XuanDu Sky, she had a total of a thousand Blood God's Pills. After meeting Mo Wuyun, she gave her another five hundred.

Thus, after controlling Mo Wuyun, Tang Huan searched through the memories in her soul once more and discovered that she actually had as many as two thousand "Blood God Pellets". It was because of this that Tang Huan dared to take the thirty Upper Peak Heavenly King Puppets and go for eighteen days of journey together.

With so many Blood God's Pills, even if he consumed them faster, it would still be more than enough to last him eighteen days.

In the future, if she wanted to go up to the nine heavens, she could easily obtain enough Blood God Pills from the 18 days of the "xuanji Pill Pavilion" before setting off.

Of course, Tang Huan's search of Mo Wuyun's memories was carried out without her realizing it. She didn't know that Tang Huan was already aware of her current situation.

"Alright, you win."

Mo Youyun said dejectedly.

Tang Huan laughed: "I am also going to enter the spatial artifact. In the next moment, you just need to focus on activating this 'Voidwave Divine Ark', if there is a situation, you can contact Sword Heart at any time, she will tell me."

"Yes sir!"

Mo Wen Yun stood up and nodded in agreement. However, Tang Huan's domineering look made her angry and angry.

Seeing that the scroll in Tang Huan's hand had begun to unfold, Mo Hanyun's beautiful eyes turned and a flirtatious look appeared on her charming face, "Tang Huan, even if you have my 'Void Divine Ark', it would still take at least three or four years to travel from the Profound Sky Continent to the eighteenth day. After such a long time, you are willing to leave me here all alone." As she finished speaking, Mo Hanyun's eyes were like the limpid autumn waters, full of allure, extremely alluring.

"I can bear it!"

Tang Huan cast a sidelong glance at Mo Wuyun, and said with a smile that was not a smile.

Mo Wuyun gritted her teeth in hatred, but her charming face became even more seductive: "When you enter that space, aside from training, there's nothing else you can do. However, this place is different, there's only the two of us. For such a long time, a lone man and a single woman, don't you think that staying here would have more fun?"

As she spoke, the power of her bloodline continued to flow out from Mo Wuyun's body. However, her slim and graceful body had already fallen forward.

This place was narrow to begin with, so the moment she got here, she immediately leaned on Tang Huan.

In such close contact, she could clearly feel the curvature of her body, and her cheeks were flushed red, she bit her lips lightly, her eyes were misty, as though she was a free picker. It captivated one's heart, and a ripple uncontrollably surfaced in Tang Huan's heart.

However, it was only for a moment, and Tang Huan had already recomposed her mind.

"Are you trying to seduce your master?"

"It's such a pity, your acting skills are a bit clumsy, it's not natural at all. I can only give you a bad evaluation, next time you want to seduce master, I'll have to trouble you to find a mirror to practice your skills, don't be so fake."

"You ..."

Mo Wen Yun was so angry that she almost bit her lips.

However, Tang Huan did not plan to continue wasting time with her. She pinched his tender and smooth face fiercely, and with a thought, he entered her cave. The painting that had just been unfurled slowly turned into a scroll, and floated to the ground.

"Damn it! 'Bastard!'"

Mo Hanyun gritted his teeth and cursed.

Of course, she wasn't so naive as to think that she could confuse Tang Huan and remove the "Puppet Soul Seal" in her soul after getting hold of him. However, according to her understanding of Tang Huan, if they really had a relationship, her life would definitely be much better, at least she wouldn't be treated as a laborer.

It was a pity that Tang Huan didn't take the bait.

In this regard, she felt extremely helpless. She could only angrily sit down and focus on moving the "Godly Nether Boat".

Whoosh.

The sound of breaking through the air was unceasing, echoing through the air.

The Voidwave Divine Ark was like a streak of fiery red light as it shuttled back and forth through the endless void. Wherever it went, darkness seemed to exist forever.

Inside the divine boat, the anger and embarrassment in Mo Youyun's heart had long since disappeared.

Due to the fact that she had to carry thirty-six people, the rate at which her bloodline power was being consumed was unbelievably fast. Every day or so, she would summon a "Blood God Pill" from her spatial ring and refine it, quickly replenishing the bloodline power she had consumed.

Seeing the "Blood God's Pill" rapidly shrinking, Mo Hanyun felt as if his heart was bleeding.

Even though this pellet was specially made to recover the power of the Bloodline, its use was not only to recover the power of the Bloodline, but also to refine the power of the pellet. She had accumulated so many "Blood God Pills" just so that she could use them to break through to the Heavenly Emperor Stage in the future.

But this trip would take around half of the eighteen days.

Although it was painful, Mo Wuyun could do nothing about it. After all, he could not let the "Voidwave Divine Ark" wander in the darkness. Once it was lost, who knew how much effort it would take to find the right direction.

Time passed like water.

In this void of darkness, it was impossible to deduce how much time had passed by just by looking at the changing sun and moon. However, the amount of Blood God Pill consumed told her that she had been using this "Voidwave Divine Ark" for two years.

For the past two years, the divine vessel had been quiet without a single sound or movement.

She was the only person in this narrow space. Tang Huan had only come out to take a look around a year ago.

In the past, when using the divine vessel to travel through the void of darkness, Mo Hanyun had felt extremely relaxed. However, this time, there were too many people on board. Even with the Blood God Pill replenishing him, he still felt exhausted. Refining medicinal pills day after day, consuming the power of his bloodline was already maddening for Mo Hanyi.

Chapter 2035 - Dao Flower Appearance

"It's only been two years, and I'm already at my limit?"

A light laugh suddenly sounded out, the scroll had already been opened, Tang Huan's figure suddenly appeared out of nowhere, laughing while sizing up Mo Wuyun who was sitting cross-legged.

"Why don't you try it yourself?"

Mo Wuyun glared at Tang Huan and felt like his lungs were about to burst.

In the past, when she activated the "Void Divine Ark", she could still give some consideration to cultivation. Once she started cultivating, ten years of time could be said to have passed in a blink of an eye. Thus, at that time, even though the distance between the first nine days and the second thirty-six days were infinitely far, it felt like it would happen very soon.

But now, she couldn't do so. She had to focus her attention on the divine boat every day.

"I would like to test how it feels to use this 'Voidwave Divine Ark', but unfortunately, it doesn't have the power of your Mo bloodline." Tang Huan smiled as he sat cross-legged across Mo Hanyun.

Mo Hanyun snorted with a cold face as a response.

"..."

Tang Huan didn't mind as she started to ramble nonstop.

He had also found out from Jianxin that Mo Wuyun's emotions were fluctuating intensely. That was why he came over to help her relieve her anxiety and boredom. Although he could send a compulsory order to Mo Wuyun through his Sword Heart, he could not use it to ease her frantic state of mind, so he had no choice but to take matters into his own hands.

Right now they were on the way to the 18th day, so nothing bad could happen to Mo Wuyun.

Unknowingly, Mo Hanyun's emotions had finally calmed down a lot. A hint of a smile even emerged on her charming face. In this kind of extremely lonely environment, as long as there was someone who could talk, no matter what, it would be a pleasant thing.

Time slowly passed. Outside of the divine boat, it was still an endless darkness.

If it weren't for the "Blood God's Pill" that Mo Wuyun had accumulated and consumed every day, this scene would have easily given birth to the illusion that the divine vessel had never been moved.

"Huh?"

Suddenly, Mo Hanyun raised his head and looked to the left in surprise.

When Tang Huan heard this, he couldn't help but turn her head to look at the direction of the voice. She saw that in the darkness beyond the divine ark, a small ball of white light actually appeared, like a star hanging in the night sky. It flickered, then brightened and dimmed.

"What's that?" Tang Huan could not help but mutter.

"Could it be the Void Stage Dao Flower?" Mo Youyun whispered.

"He can encounter a Void Stage Dao flower like this?" Tang Huan was unknowingly.

"Is that strange?"

"In the depths of this void of darkness, the 'Void Essence Dao Flower' could appear at any time."

"Since that's the case, let's hurry over and take a look."

Tang Huan laughed, and then laughed, "It's fine that I didn't see it, but since I did, how could I not see it? I would like to see what the Void Essence Dao Flower looks like. "

Long before in the Crimson Light Sky, he had obtained the memories of several peak Heavenly Kings, such as Sandalwood Bell and Tao You, and his understanding of the "Void Essence Dao Flower" was definitely not any less than Mo Yin's. It was just that the information he had obtained from the memories of others was not as good as what he had felt with his own eyes and body.

"The Void Stage martial art will always be around, don't blame me for not reminding you." Mo Hanyun rolled his eyes at Tang Huan, and snorted lightly.

"No worries, as long as it doesn't encounter a respected level dark void beast."

Hearing this, Tang Huan couldn't help but wave her hand, her face revealing a relaxed smile. "As for the Emperor Stage Void Beast, with its speed, it shouldn't be a problem for you to escape. If it's only a King Stage Dark Void Beast, I can use it to train. "

Only when one's strength reached a level comparable to a Heavenly King could a Xumi Beast be called a Dark Void Beast.

The Dark Void Beast was divided into king, emperor and honored rank, and its strength corresponded to the Sky King, Sky Emperor and Sky Sovereign respectively.

In this endless void, there were many king level great beasts. The Emperor level realm followed second, the Supreme level followed second, and the number of supreme level great beasts were even fewer than Emphyreans.

Aside from the search for the "Void Primeval Dao Flower", the other experts of the 18 days were mainly searching for king level beasts. However, if one was unlucky and was discovered by, or even entangled by, an Emperor Class giant beast, it was possible that all the cultivators on this "Voidwave Divine Ark" would have to pay with their lives.

"Alright, you're the one who said that."

Mo Wuyun couldn't help but twitch her mouth. Then, she urged the "Void Divine Ark" to change its direction and shot it towards the endlessly flickering white lightning.

In this kind of place, it was hard to tell how fast Mo Wuyun was moving with the naked eye, but in Tang Huan's eyes, the ball of white light was gradually expanding. After around half an hour, its shape was clearly displayed in front of Tang Huan.

It was indeed a flower, proudly blooming with layers upon layers of petals, similar to the peony in Tang Huan's previous life.

"It really is the Void Initiation Dao Flower!"

Tang Huan sized him up and couldn't help but laugh.

The smile on her face was like a flower. Although she came from the Celestial Sect of xuanji, she did not need to risk her life to find the "Void Yuan Dao Flower" like the Heavenly King of the 18 days ago. However, this kind of rare treasure could still be of great use to her cultivation, so it was naturally not a small temptation.

But when he thought about his current situation, the smile on Mo Wuyun's face disappeared. She was only Tang Huan's puppet now, she wouldn't be able to get her hands on the "Void Essence Dao Flower". She sighed to herself and, like a deflated balloon, dispiritedly activated the "Voidwave Divine Ark" and continued onward.

Another quarter of an hour passed and the distance between the "Void Divine Ark" and the "Void Primeval Dao Flower" was less than a hundred meters.

That "Void Primeval Dao Flower" wasn't small at all. It was around a hundred meters in radius, flickering and sparkling like glazed glass. This sort of rare treasure was completely condensed from power. It was incomparably majestic and pure. It was no wonder that so many experts rushed to it like a flock of birds.

"Wait here, I'll go take a look." Tang Huan rose up.

"Be careful of the dark void beast."

Mo Wuyun snorted, "The Void Beast is hidden in the void of darkness, you can't find it with your eyes. Although my mind can spread outwards using the 'Voidwave Divine Ark', I can't sense their existence. If you are not careful, I'm afraid I won't even be able to pull you back in time. "

Tang Huan looked at Mo Hanyun with some surprise, "I really didn't expect that you would still care about my safety."

"Don't think too much of yourself. I'm worried about my own safety."

Mo Hanyun let out a cry and sneered, "If you die, to Jianxin, I will be of no use anymore. She will absolutely not let me live. That's why, if you live, then I can continue to live. If you die, then I must die as well. I'm still young, so I don't want to die with you. "

Chapter 2036 - Emperor Stage Giant Beasts

"You do understand!"

Tang Huan could not help but laugh hoarsely, but, Mo Wuyun was indeed not wrong, according to his understanding of the spirit in Jianxin's cave, if he died, other than the Nine Spirits, Xiao Budian and Ling Tian, all the other Sky King puppets, including Mo Wuyun, Tao You and the rest, would all die.

Thus, Mo Wuyun's worry was somewhat justified.

"Rest assured, you will always live well."

Tang Huan laughed, "If I were to die so easily, how could I have become a peak-level Heavenly King in just a hundred years?

Mo Hanyun curled his lips and did not say another word. The space of the divine vessel rippled slightly, and after a moment, Tang Huan was wrapped by a gentle force and moved into the darkness of the void. When he left, Tang Huan had already grasped the "Myriad Sword Heavenly Diagram" in his hands.

Boundless darkness shrouded his body, and the surroundings were deathly silent.

Tang Huan's heart was as tranquil as water, her enormous mind spread out, in an instant, it enveloped Pang Shuo's "Void Yuan Dao Flower", and continued to spread outwards.

In the next moment, a happy smile appeared on Tang Huan's face.

The "Void Yuan Dao Flower" was born from the void, and the source energy of the space had condensed into the shape of a flower, but the inside of the "Void Yuan Dao Flower" had merged with the incomparably majestic Heavenly Energy, and the moment it had entered his perception, Tang Huan felt an extremely rich Heavenly Dao Inheritance.

In this regard, any treasure that Tang Huan had ever seen that possessed the power of the heavens could not compare to the "Void Yuan Dao Flower".

If he used this "Void Primeval Dao Flower" to cultivate it, it would indeed have a miraculous effect.

Just as Tang Huan was about to use the Ten Thousand Swords Heavenly Diagram to absorb the Hollow Origin Dao Flower into the cave, a sense of danger suddenly came from the depths of her soul.

In the blink of an eye, Tang Huan turned to look at her left side. Suddenly, a gigantic figure pounced out from the darkness at the side.

Its size was abnormally large, but its appearance was extremely strange. Its head was shockingly large, but behind the head, it suddenly shrank in size. From afar, it looked like a giant tadpole.

The beasts that could appear here were naturally the "Void Beasts".

This enormous dark void beast was pitch black in color. Its aura completely blended into the darkness of the void. Ordinary cultivators wouldn't be able to sense its existence at all. Even someone as strong as Tang Huan did not realize that something was amiss. It was only when it moved that she noticed something was amiss.

"Wuuuuuu ~ ~ ~"

After a long howl, the enormous dark void beast opened its mouth.

Its mouth was so big that it seemed to be able to swallow all of the space within a radius of hundreds of kilometers, including the "Great Void Divine Ark" and the "Void Primal Dao Flower". In practically the blink of an eye, whether it was Tang Huan, the Divine Ark, or the flower, they were all inside the mouth of the enormous beast.

The beast's mouth was like a black hole, and Tang Huan immediately felt an incomparable power of sucking.

"Emperor Stage Dark Void Beast?"

Tang Huan could not help but narrow her eyes.

In the split second earlier, Tang Huan had actually received a message from Sword Heart, saying that this was an emperor level "Void Beast", and Sword Heart's judgement was naturally from Mo Wuyun. She had already moved out of the "Void Divine Ark", and was floating at the side of the small boat, waving at with a face full of anxiety.

Tang Huan's understanding of the enormous Dark Void Beast all came from sandalwood and the others.

The moment he saw the Dark Void Beast, Tang Huan had a rough estimate of its rank, but it was his first time seeing the Dark Void Beast, so it was hard to come to a conclusion. Now, hearing Jianxin's description of Mo Wen Yun's judgement, it coincided with Tang Huan's own guess.

With a slight movement of his body, Tang Huan subconsciously wanted to retreat in the direction of Mo Hanyun and the Great Void Divine Ark, but before he could even move, he suddenly thought of something. In the next moment, "Primal Chaos Crystal" appeared in a flash, and with a flick of his finger, it had transformed into a huge object that was over a hundred thousand meters tall.

"Hu!"

Under Tang Huan's use of all her might, the enormous being brought about an incomparably ferocious storm, as it rumbled and crashed into the deepest part of the Dark Void Beast's mouth. The terrifying power exploded out in a flash, and wherever it went, the space around it would fluctuate violently, as if it was going to tear the Dark Void Beast's mouth into pieces.

The Emperor Stage huge beast was a Dark Void beast that was comparable to a Heavenly Emperor Stage powerhouse.

Celestial Emperors were divided into the lower, middle, and upper echelons. There was also a difference in the strength of an Emperor level giant beast. According to Tang Huan's judgement, the enormous Dark Void Beast in front of him should be at the level of the lower Sky Emperor. It was precisely because of this that Tang Huan did not immediately hide within the "Voidwave Divine Ark".

He wanted to test whether his current strength was enough to contend against a lower Heavenly Emperor.

This way, in the next eighteen days, even if he became enemies with Heavenly Emperor Stage Rankers, Tang Huan would still be able to accurately measure the difference in strength.

An instant later, an earth-shaking explosion reverberated through the endless void.

The Dark Void Beast's rapidly closing mouth had already bit onto the "Primal Chaos Source Crystal" that had just turned into a giant object. The extremely powerful Strength Qi immediately went berserk, the "Void Divine Ark" and the "Void Essence Flower" were immediately sent flying by the shockwave.

Just like the "Voidwave Divine Ark", Mo Wuyun also instantly retreated nearly a hundred li away. On her pretty face, there was anxiety and anger.

The reason she left the Divine Ark was to warn Tang Huan so she could hide inside it immediately. With the speed of the "Void Divine Ark", she could completely shake the Dark Void Beast. As long as he didn't move that "Void Primeval Dao Flower" and was unable to catch up to it in a short period of time, the Dark Void Beast would immediately choose to give up.

But what she didn't expect was that not only did Tang Huan not retreat, he was actually still standing at her original position, fighting against the huge beast from the Dark Void.

Although Tang Huan was strong, he was after all still a peak-level Heavenly King. And no matter how weak that enormous dark void beast was, it was still comparable to a Lesser Heaven Emperor.

Although Tang Huan had defeated Mo Yunfeng, who was half a step away from Heavenly Emperor, it was hard to say if she would still be able to win if she met a true Heavenly Emperor.

However, at this point, no matter how anxious he was, it was useless. Mo Wuyun could only restrain her emotions and watch the battle from afar, the "Void Divine Ark" beside her maintained its activation. That way, if Tang Huan was not a match for the huge beast from the Dark Void, he would be able to absorb him in as fast as possible.

"Whooosh."

An ear-piercing whistling sound filled the air. Within Mo Wuyun's line of sight, that cobblestone-like giant object had already retreated several tens of kilometers, almost completely filling her vision.

Chapter 2037 - Emperor Stage Giant Beasts (2)

However, that enormous dark void beast didn't seem to have any advantages.

After the violent collision, Pang Shuo had similarly collapsed and retreated several kilometers. However, the next moment, his body had already disappeared into the darkness without a trace. Even his aura had disappeared. If not for the Strength Qi still churning on the other side, people might really suspect that it had appeared before.

Above the Primal Chaos Origin Crystal, Tang Huan's eyes slightly narrowed as the corner of her mouth hooked into a cold smile.

Before this, he had never used the God Creation Divine Crystal, so he was unable to detect the existence of the enormous dark void beast in time. But now, it was impossible for it to conceal itself like before.

The dark void beast was one with the void space, but it wasn't without any flaws.

It was quite similar to the "Void Essence Dao Flower" in that not only did its body contain the source energy of this dark void, but it also contained the intent of the Heavenly Dao. The former allowed it to completely merge with the void of darkness. However, the latter became an opening for it.

Of course, this weakness was only felt by Tang Huan.

An ordinary Heavenly King would not be able to sense the Heavenly Dao Inheritance in the Dark Void Beast unlike Tang Huan, who possessed the God Creation Divine Crystal that surpassed the Heavenly Dao. And this, was also the most dangerous place for the Void Beast. Even if it was extremely close, it would still be difficult to detect their tracks.

Although the Dark Void Beast was hidden in the darkness, Tang Huan could still clearly sense its position the moment the Qi disappeared.

The will of the Heavenly Dao was like a bright lamp, displaying its own existence.

"Hu!"

In the midst of the mind instructs (in a second), the "Primal Chaos Source Crystal" had already begun to whistle towards Tang Huan's right, causing a sound that seemed like it could pierce through gold and shard stones to sound out from this dark void.

In a split-second, that colossal creature disappeared into the darkness at an astonishing speed.

At this moment, the direction in which the "Primal Chaos Source Crystal" had gone, was at least a few dozen kilometers away from the location where the enormous dark void beast had originally disappeared.

An instant later, an earth-shattering sound once again burst forth from the void. Soon after, a thunderous cry rang out, filled with shock and anger.

Tang Huan's "Primal Chaos Source Crystal" had obviously hit the huge beast's head, and that huge beast obviously did not expect Tang Huan to find its hiding place so quickly either.

The terrifying Strength Qi once again swept in all directions, like raging waves.

Under the flickering light of the "Primal Chaos Source Crystal", the enormous tadpole-like appearance of the Void Beast could be faintly seen. There was no time for it to dodge the abnormally violent and sudden collision. Pang Shuo's head was caved in, and it looked as if there was a huge hole there.

If a normal beast encountered such a situation, it would have been seriously injured.

However, the huge dent on the head of the Dark Void Beast was restored to its original state at a speed that was hard to see with the naked eye. However, the huge dent on the head of the Dark Void Beast was restored to its original state at a speed that was hard to see with the naked eye.

"Wuuuuuu ~ ~ ~"

With another screech, the enormous dark void beast no longer hid its body and instead furiously pounced forward. In an instant, Pang Shuo's body had already approached the "Primal Chaos Source Crystal". Compared to the head, the slender body was like a long whip that was pulled out viciously.

In a split-second, a series of loud crackling sounds exploded in the air, as if the space itself had been sucked into a series of explosions.

Tang Huan's eyes focused slightly. In between the mind instructs (in a second), the "Primal Chaos Source Crystal" that had just stabilized earlier spiraled and once again shot out explosively. It didn't even have the time to blink a second before it collided with the enormous whip-like body of the Void Beast, causing even more ear-piercing explosions in this area.

At that very instant, Mo Wuyun had retreated several hundred miles away.

After catching sight of this scene, a trace of unconcealable astonishment appeared in her limpid eyes.

If it was only a king level gigantic beast, no matter how strong it was, with Tang Huan's abilities, it shouldn't be a problem to deal with it. But the Emperor Stage Dark Void Beast was different. Its strength was countless times stronger than the King Stage beast, and Tang Huan was only a peak Sky King. How could she resist its power?

She had originally thought that Tang Huan would probably lose soon, and had also prepared to support him and run away with her.

But what Mo Wen Yun never expected was that the scene of Tang Huan fleeing in distress did not appear. Tang Huan's performance had far exceeded her expectations. After fighting with the Emperor Stage Dark Void Beast for a few rounds, Tang Huan actually did not fall into a disadvantage at all.

If this matter were to spread out, not to mention 18 days, even if it were up to the ninth day, countless cultivators would be dumbfounded and tongue-tied.

According to her knowledge, even if they were catching or killing peak Superior Grade Heavenly Kings, they would still need several or even more than a dozen of them to succeed. If he wanted to fight against the Emperor Stage Giant Beast, even the weakest Emperor Stage Giant Beast would have to be a peak lower level Sky Emperor.

However, even now, Tang Huan still did not retreat under the attack of the Emperor Stage Giant Beast.

Even if Tang Huan was unable to resist it in the end and chose to escape, just her current performance was enough to make him proud.

I wonder how long he can last?

Mo Wuyun's eyes were wide open as she stared ahead without blinking.

Of course, in this kind of environment, even if she were to gather her eyesight, she would only be able to vaguely see the Primal Chaos Origin Crystal and the outline of the huge beast. It was extremely difficult for Tang Huan to see it, but she had already long activated her mind to the maximum, and it seemed as if she was covering the entire area in front of her.

Tang Huan no longer tried to conceal her own aura, as Mo Wuyun could clearly feel his every move.

"Boom!" "Boom ~ ~ ~"

A thunderous noise resounded in this dark void one after another.

Under the close attention of Mo Hanyun, Tang Huan's "Primal Chaos Source Crystal" and the enormous beast continuously clashed against each other. The boundless and berserk Strength Qi was like a monstrous wave, roaring wave after wave in all directions. The area within a radius of hundreds of miles was constantly filled with violent ripples.

Time passed bit by bit. Unknowingly, a quarter of an hour had already passed.

Mo Hanyun had already relaxed quite a bit. However, the surprise within the depths of her beautiful eyes did not disappear. Instead, it became denser and denser. She did not miss a single bit of the battle in front of her. What Tang Huan and the giant beast Emperor Stage had displayed at this time was actually a situation where they were evenly matched.

"Wuuuuuu ~ ~ ~"

The wailing sound started to become sharp and ear-piercing, and that enormous dark void beast was already mad with rage.

Chapter 2038: Filled to death?

After struggling for such a long time, he still couldn't do anything to his opponent. For this enormous dark void beast, perhaps this was the first time it encountered something like this. At the very least, this should be the case after he advanced from the king level to the emperor level.

Sensing its manic mood, Mo Hanyun couldn't help but reveal a slight smile between her brows.

Since ancient times, for Tang Huan to be able to force the Emperor Stage Dark Void Beast to such an extent, even if she wasn't the only one, it was definitely extremely rare for him to be able to do something like this.

"This bastard really won't die, and from the looks of it, he won't be in any danger for now."

Mo Hanyun curled her lips and turned her gaze to the distance. In the pitch-black void, a small speck of white light flickered like a star. It had already become extremely weak.

That white light was naturally the Void Dao Flower.

Currently, they were probably already more than a thousand kilometers away from each other. If not for the surrounding darkness, even if Mo Wuyun was a Heavenly King at the peak of the Upper Sky Realm, just by looking at her naked eye, he would not have been able to see the existence of that flower.

Fortunately, although the "Void Primeval Dao Flower" continued to move further away, it still had not left the range of Mo Wen Yun's senses.

However, if this were to continue, it would be hard to say.

"Whoosh!"

With a slight movement of her delicate body, Mo Hanyun entered the Voidboat.

In the next moment, the divine boat turned into a streak of red light, chasing after the Void Daoflower. However, the moment the small fire boat moved, Mo Wuyun, who had just sat down in the inner space, could not help but be slightly startled.

Up till now, no matter if it was Tang Huan or Jianxin, neither of them had given her an order to keep the "Void Yuan Dao Flower", yet she actually did such a thing herself?

Being forced to fuse with "Puppet Soul Seal" and become a puppet under Tang Huan's indirect control, made her extremely resistant to Tang Huan's orders. Although it was useless, she still had to complete any of Tang Huan's orders without any hesitation. But there was no order now, so she began to consciously protect Tang Huan's interests?

This change made Mo Wuyun feel a sense of fear, and she subconsciously wanted to stop.

Although Tang Huan and Jianxin didn't have any orders, if she continued to watch the "Void Stage Dao Flower" grow further and further away, once Tang Huan gets rid of the Dark Void Beast, she would definitely come to settle the score with her.

"Bastard!" With a low and bitter curse, Mo Wuyun continued to operate the divine boat and rapidly approached the "Void Dao Flower".

"Boom —"

Behind the divine vessel, another deafening explosion occurred. It was the Dark Void Beast's body that was like a whip, clashing against the "Primal Chaos Crystal" several times already.

The giant beast's body bounced off and the chaos crystals flew out ...

This kind of scene happened who knows how many times.

The Dark Void Beast's attack method was rather simple, so Tang Huan did not use any other methods at the moment, only using the "Primal Chaos Source Crystal" to deal with the enemy, and the two sides were fighting head on.

One fierce collision after another, constantly exhausting both sides' power.

However, until now, no matter if it was the Emperor Stage Dark Void Beast or Tang Huan, their powers were almost endless, as if they would never run out.

"Wuuuuuu ~ ~ ~"

The dark void beast became even more enraged.

In the darkness, his body twisted and his mouth once again opened. The terrifying power of sucking surged towards Tang Huan and the "Primal Chaos Source Crystal".

Tang Huan frowned, with a thought, her figure disappeared.

He did not conceal himself. Instead, he turned into a stream of light and entered the "Chaos Source Crystal", and the "Chaos Origin Crystal" began to rapidly shrink at almost the same time.

Until now, Tang Huan had already understood the strength of both sides well.

According to the information that Tang Huan had, it was extremely difficult to kill a giant beast in the void. Even if it was severely injured, it could absorb the energy in this space at any time and quickly recover from its injuries.

Although Tang Huan was not at a disadvantage, she was still not confident.

Furthermore, Tang Huan did not plan to get rid of this Emperor Stage beast. His original intention for leaving the Godly Void Boat was to obtain the "Void Essence Dao Flower", and after confirming the rank of the Void Stage Beast, she decided to stay behind and fight with this Emperor Stage Beast to verify her own strength.

Now that Tang Huan had achieved her goal, there was naturally no need for him to continue pestering him like this.

"Huh?"

Tang Huan's disappearance and the contraction of the "Primal Chaos Origin Crystal" seemed to have caused the enormous beast to be a little suspicious.

In just a split-second, the "Primal Chaos Source Crystal" had been completely devoured.

"You really dare to eat it. Aren't you afraid of being crushed to death?"

Inside the Origin Crystal, Tang Huan was exceptionally sensitive to the changes in the outside world and couldn't help but sneer.

However, Tang Huan did not let this "Primal Chaos Origin Crystal" return to its original state. Instead, she circulated the "Nine Yang Divine Furnace" to the extreme. After a split second, the intense firepower pierced through Tang Huan's body and turned into a transparent flame. It followed the countless channels inside the Origin Crystal and whizzed out in all directions.

At this moment, it was as if an unusually huge volcano had suddenly erupted.

Flames gushed out and turned into a sea of fire around the "Chaos Source Crystal". It was as if a hurricane had swept up the flames, rolling and churning in all directions. Everywhere it passed, all obstacles melted. Even the darkness seemed to have been completely melted away by the primordial flames.

For a time, it was as though a transparent region around the Origin Crystal was rapidly expanding.

"Wuuuuuu ~ ~ ~"

At this moment, the enormous dark void beast seemed as if it was set ablaze as it abruptly emitted an extremely sharp roar, and its voice actually contained a trace of panic. In the next moment, the body of the Dark Void Beast Pang Shuo began to twist rapidly, and soon after, it dispersed.

After the flick of a finger, the entire Dark Void Beast seemed to have disappeared without a trace. However, where it was originally at, the sphere of transparent space was still expanding.

"They escaped so quickly?"

Inside the Primal Chaos Origin Crystal, Tang Huan couldn't help but be taken aback.

He had originally thought that the Emperor level giant beast would be able to hold on for a bit longer even if it couldn't withstand the erosion and melting of the primal chaos flames. He hadn't thought that it would escape so quickly. That enormous dark void beast, on the other hand, saw the opportunity quickly enough. Under this flame, the more time it had to escape, the more energy it would consume.

Slightly shaking his head and smiling, Tang Huan withdrew his flames and his figure appeared outside of the Origin Crystal.

Looking around, he could no longer see any trace of the Dark Void Beast. However, within Tang Huan's perception range, there was a minute strand of Heavenly Energy flying away at a fast speed. In not even half a breath of time, it had already completely broken away from his mind scan.

"This fleeing speed is quite astonishing."

Tang Huan muttered in surprise, but the smile on her face instantly disappeared as two pairs of eyes looked towards the other direction, the coldness in her eyes surfacing.

Chapter 2039 was already awkward!

More than a thousand miles away, in the void of darkness, the "Void Essence Dao Flower" was still flickering with a white luster. Although the intense battle between Tang Huan and the Emperor Stage Dark Void Beast had given it an enormous impact and caused it to teleport so far away, it had not been harmed in the slightest.

Mo Wuyun and her Voidwave Divine Boat were currently floating above the Daohua.

However, not far from her stood dozens of figures, all of them emitting an extremely powerful aura. These people were clearly Heavenly King Stage powerhouses, and behind the dozens of Heavenly Kings, floated a huge white ship that was dozens of miles long.

To be able to appear here in the shape of a ship, it was naturally the Voidboat. The lustre it emitted was extremely intense, illuminating the vast area around it until it was as bright as day.

Compared to it, the inky Emptiness Divine Ark really did seem small.

However, facing so many Heavenly Kings and that enormous Void Divine Boat, Mo Wuyun did not have the slightest trace of fear. Her pretty face sank slightly as she shouted in a loud voice, "Everyone, you all should know the principle of first come first served. I was the one who discovered this' Hollow Origin Dao Flower 'first. Please leave quickly."

Before he even got close, Mo Hanyun could see that the white ship was also approaching him. It was obvious that he had also discovered the existence of this "Hollow Essence Dao Flower".

Fortunately, the Emptiness Realm Experts' speed was much faster than the Emptiness Realm Experts', so they arrived at the flower's location first.

However, it was clear that the Divine Vessel did not plan to give up or retreat, and after a while, fifty-six Heavenly Kings rushed out, amongst them with more than twenty Upper Sky Kings. As for this, it was clear that it was not all of the Heavenly Kings in the Divine Void Boat, but perhaps even more.

Under normal circumstances, a divine vessel that could search for the Void Dao Flower and hunt down the Dark Void Beast would have at least a hundred heavenly kings, with the possibility of at least two to three hundred people, or even five hundred people. With such a line-up, even if they accidentally encountered a lower level Emperor level Dark Void Beast, they could still fight.

Moreover, there might be even one or two Heavenly Emperors overseeing some of the divine boats.

But even so, it was impossible for Mo Wuyun to back down. This was not only because she was a proud descendant of the xuanji Pill Sect's Mo Clan Disciples, but also because of Tang Huan's trump card. Tang Huan, who was even able to contend against a low level Emperor Stage Dark Void Beast, would definitely not allow a Void Essence Dao flower to be snatched away from him.

"Look at this Godly Void Boat. Does this young lady think that she is a disciple of the Xuan Ji Sect?"

The one who spoke was an old man in a green robe in the front of the group. He had a huge build, a full beard, white hair, sharp facial features, and an extremely intimidating appearance. His voice was like a great bell, causing one's eardrums to buzz.

"That's right."

Mo Wuyun said with a smile.

The old man in the blue robe laughed, "I am the Elder of the Divine Nether Sky Sect, Non-Phase Heaven. I have a good relationship with the Pill Pavilion Master stationed there by the Xuanji Pill Sect ..."

"There's no need to befriend me. Who you are has nothing to do with me." Mo Wuyun interrupted the old man's words and said with a cold snort, "Even if you wear the same pants as the Pavilion Master of the Phaseless Sky Pill House, this Void Essence Dao flower still won't be given to you."

"You ..."

Chu Ting's face darkened, anger could be seen from between her brows, but she forced herself to calm down. "Miss, you saw this Void Essence Dao Flower, we saw it as well. Anyone who saw this would have a share. No matter where it was, eating alone was not a good thing, much less in this

void. From my point of view, splitting this Void Essence Dao Flower into two is the most suitable for both parties. Young lady, why don't you consider it carefully first. "

"There's no need to think about it."

Mo Wuyun did not hesitate to sneer, "You actually want half of my things to be given to you? Old fellow, are you joking with me? Let alone half of it, even if it's just half of it, you guys don't have a share in it. I advise you all to leave quickly, lest you lose your lives in vain. "

"You bitch, what are you talking about?"

"I've long heard that the people of the Phantom Pill Sect are incomparably arrogant. Today, I've finally seen it for myself."

"..."

The crowd instantly erupted into an uproar, the Heavenly Kings could not hold it in any longer, and started cursing loudly.

He waved his hand, signaling the crowd behind him to quiet down, then opened his mouth again: "Miss, for the sake of the face of Wu Xiang Tian, the Pavilion Master of the xuanji Pill House, this old man will remind you again, this is a void space, and not any other place in the Heaven Realm."

"Here, it is not bad to have more friends, otherwise, who knows when you might die in the mouth of the dark void beast, while your teachers and friends in the Xudan Sect do not even know how you died, much less find the dark void beast to avenge you, wouldn't you feel wronged?"

As she spoke to the end, killing intent was revealed in Chu Ting's eyes.

Behind him, the expressions of the dozens of Heavenly Kings suddenly turned fierce, as if they were ready to make a move.

The Phecda Core Sect was a super sect that spanned up to nine days. It was truly frightening. But it was just as Chu Ting had said: this place was dark and empty, not the Heaven Realms. If she died here, no matter how her seniors or elders used heaven's methods, they would not be able to find out who killed her.

"Old man, are you threatening me?" Mo Wuyun curled her lips, her tone full of ridicule, "However, this threat of yours has no standard. If you want to kill a flower, you can just do it. Why do you have to be so roundabout?" However, I have to remind you that it took you so much effort to cultivate to this stage. Don't think that you didn't obtain the Void Primal Daoist Flower and instead lost your old life.

"Little girl, this is what you said!"

Being mocked like this by Mo Wen Yun, Chu Ting flew into a rage. Her face turned ashen, and she was actually unable to hold it in any longer, as she roared out in a low voice. "Go, kill her!"

Almost at the same time, she explosively shot forward. As she waved the weapon in her hand, a wave of extremely powerful attacks whistled through the air, covering the entire sky and earth, as if she wanted to completely annihilate Mo Wuyun and her Void God Ark.

"Dozens of Heavenly Kings, is it appropriate to surround and attack a woman like this?"

Suddenly, right at this moment, a cold snort came out, it was accompanied by a black shadow. It was Tang Huan. Almost at the same instant the words left her mouth, a transparent wave shaped like a flame roared forward with its body as its source, like a violent stormy sea.

In a split-second, this enormous ripple that was like a torrent collided with the attacks that filled the sky.

There were no earth-shaking sounds, but the attacks were rapidly melting.

Chapter 2040 - scared off!

"This... "This is ..."

Upon seeing this, everyone's expression abruptly changed as they became overwhelmed with shock.

In just an instant, the tens of attacks that seemed to be able to destroy the heavens and earth had vanished without a trace. They did not even cause any ripples, and the transparent flame like huge wave was like a hot knife through butter, rushing straight in, almost without the slightest pause.

In the blink of an eye, the front part of the ripple was about to touch everyone's weapon.

"Retreat!"

"Retreat!"

"..."

At this time, no matter if it was the dozens of Heavenly Kings who attacked or Chu Mian who did not, they all seemed as though they had just awoken from a dream. They no longer had the time to be shocked by Tang Huan's capabilities, and all of them quickly retreated, in an instant, the entire group explosively retreated thousands of metres, almost reaching the white ship behind them.

"With just this little bit of skill, you actually dare to covet a Void Initiation Dao Flower?"

Tang Huan squinted her eyes, laughed out, and the "Primal Chaos Dao Flame" contracted, and entered her body.

Tang Huan naturally knew about the Divine Firmament Sky Sect. Within the space of his cave abode, there was currently a peak-level Sky King who came from the Divine Firmament Sky Sect. After looking through the memories of the puppet, Tang Huan felt a sense of familiarity with the faces of Chu Chuan and many other cultivators of the Divine Firmament Sky Sect.

However, the group of Heavenly Kings on the other side obviously didn't all come from the Divine Firmament Sky Sect.

"You are also a disciple of the Xun Ji Sect?"

Everyone stabilized their bodies as they trembled with fear. However, Chu Chou's expression was already extremely ugly, and without waiting for Tang Huan's reply, he shouted out with a mixture of shock and anger, "What method did you use just now, to have such a strange expression?" As he spoke, his eyes contained a deep dread as he looked at Tang Huan.

"You think you're qualified to know this?"

Tang Huan's face darkened, and said indifferently, "I'll give you guys ten breaths of time, get out of my sight, or else, none of you will be able to leave!"

"You ..."

Chu Xun's face turned from green to red before she gritted her teeth, "Retreat!"

The fierce attacks of dozens of people melted in an instant. Who could fight against such an opponent? Although there were still over a hundred Heavenly Kings within the Godly Void Boat, it would be very difficult to rely on numbers to defeat such a strange enemy. Even if he won in the end, it would still be worth it ...

He didn't know how many were going to die.

No matter if it was Chu Mian or the other Heavenly Kings, they were all extremely unreconciled. However, there was nothing they could do. They were completely stunned by the strange situation just now. The Void Primordial Dao Flower was indeed incomparably precious, making people covet it. However, it was not precious to the point of exchanging one's life for it.

Moments later, the dozens of people all entered the white warship.

A short while later, Pang Shuo's "Voidwave Divine Ark" was urged to the extreme. After adjusting its direction, it quickly flew away, and in an instant, it disappeared without a trace.

"He's too scared, he escaped so quickly. How boring."

Mo Hanyun couldn't help but twitch her lips and say, "You know, we shouldn't have let them go just now. We should have killed them all and taken their divine vessel." They must have been in this place for quite some time, since the Divine Ark has already stored quite a few things. "

Hearing this, Tang Huan looked at Mo Hanyun with some surprise: "The dignified Mo Family Disciples from the xuanji Pill Sect, would they even put their little things in their eyes?"

Mo Hanyun said sarcastically, "I really don't put him in my eyes, but after following such a poor master, I can't help but think it over for him."

"You've made progress. You finally know that your master is thinking of you." As if he didn't hear the mockery in Mo Wen Yun's words, Tang Huan praised her with a smile. "However, even though I, your master, am poor, I really do not place any importance on the things that they have collected in this void space."

The group of Heavenly Kings just now had probably only found some "Void Primeval Dao Flowers" or the Dark Void Beasts that had hunted down a few King Stage monsters.

All these things could not be as useful to Tang Huan as they could to a normal Heavenly King. Tang Huan had left behind this "Void Essence Dao Flower", and it was only for the nine spirits to try refining. If he wanted to use his "Primal Chaos Source Crystal" to absorb the origin energy here, she could turn it into chaos energy.

With Tang Huan's current condition, it would indeed be very easy for him to accumulate power in the void of darkness.

Not meeting Tang Huan's pleased and appreciative eyes, Mo Wuqing gritted his teeth in anger, but in the end, he could only swallow his anger.

Tang Huan did not see her expression, after that, his attention shifted to the "Void Essence Dao Flower" below, after looking at it for a moment, with a thought, the mountain and river painting

unfurled, a majestic power of sucking was released, enveloping the entire "Void Essence Dao Flower".

However, in just a split-second, that huge Dao flower was sucked into the space of the abode.

"Alright, let's continue on our way. If anything happens, inform Jianxin at any time."

Tang Huan gave an order to Mo Hanyun, and then, in between her mind instructs (in a second), his figure also submerged into the mountain and river painting scroll.

Seeing this, Mo Wuyun was both angry and helpless. A moment later, she could only grab the landscape painting that had already been folded into a scroll and sink it into the divine boat.

"Whoosh!"

Not long after, Mo Wuyun reconfirmed the direction. Afterwards, with her great efforts, the little "Voidwave Divine Ark" became a streak of fiery red light, constantly penetrating through the layers of darkness. It rapidly traveled forward, and in an instant, was already several thousand miles away.

Generally speaking, every Voidwave Divine Vessel would merge with a "Heavenly Diagram."

The Heavenly Diagram marked the location of each Heaven Realm. If one was lost in the void of darkness, they could activate the Heavenly Diagram to adjust themselves. However, if the divine boat was damaged and the heavenly map was damaged, it would be absolutely impossible for them to determine the true direction in this vast darkness.

Therefore, no matter what happened, the first thing he had to do was to ensure the safety of the divine vessel.

Earlier, there was also a reason behind the departure of Chu Ling and the rest. The power that Tang Huan's "Primal Chaos Daoflame" had displayed caused them to tremble in fear. They were naturally worried that they would encounter it, and that the Divine Ark would not be spared either. Although it was just a guess, none of them dared to take this gamble.

If they lost the bet, their Heavenly Diagram would be destroyed. Even if they managed to survive, they would die in the void.

On the other hand, Mo Wuyun was not that worried.

In this void of darkness, unless one encountered a supreme level Dark Void beast, otherwise, no living being would be able to damage the special 'Great Void Divine Vessel' of the xuanji Pill Sect. And a honorable level Dark Void Beast, the entire void space didn't have much space, and it wouldn't wander around, so the chances of it meeting was close to zero.

Time passed like flowing water, and Mo Hanyun once again sank into the lonely cycle of the past. Unknowingly, another two years had passed.
