

## W. Master 2051

### Chapter 2051

Tan Zhong, Tao You, and the rest were all peak Sky Kings in these eighteen days, it was impossible that they hadn't come to observe this Great Cloud Wall.

In their memories, there were many experiences that had occurred here, and there were also many experiences where they had observed the Great Cloud Wall. Naturally, Tang Huan had long since prepared herself for the situation that had just occurred.

Of course, indulging oneself in the countless changes of the cloud wasn't a bad thing.

There were even quite a few Heavenly Kings who had comprehended it. Although they had not been able to directly break through and step into the lower level Heavenly Emperor Stage, they had been able to greatly increase their own strength.

Tang Huan didn't want to immerse herself within it, she only wanted to use her clearest posture to observe and study the Great Cloud Wall.

Of course, this was only because he had the God Crafting Crystal and the Nine Yang Divine Furnace, and was the only one able to easily escape the attraction of the cloud transformation. If it were another peak level Heavenly King, they wouldn't be able to fall for it even if they didn't want to, because they simply couldn't resist the temptation and could only passively accept it.

In the next moment, Tang Huan's attention was once again focused on the Great Wisdom Sect's Wall.

The white cloud still had countless changes, and when the white cloud changed, it still gave birth to a strong attracting power. However, while it was still in a clear-headed state, Tang Huan was not confused by it.

The white clouds fluctuated, seemingly containing endless mysteries within.

Tang Huan's heart was moved, between the mind instructs (in a second), he used his mind to the limits of what she could, to carefully sense what was going on.

The changes in the clouds were like the passing of a lantern, appearing one after another in his soul. The speed at which the changes happened was extremely fast. If one only used the naked eye, it would be difficult to completely grasp it. Similarly, if one's mind was not strong enough, it would be difficult to completely control all the changes in the cloud.

Time flew, and Tang Huan was completely immersed in the changes in the clouds.

Of course, this infatuation was not his.

While passively immersing himself in the cloud's changes, his mind would only move along with the cloud's changes, and would only sigh in amazement at the endless mysteries contained within the cloud's changes. And while Tang Huan was immersed in immersing himself with the cloud, even though his mind was moving along with the cloud's changes, he was also feeling the profoundness within.

As time passed, Tang Huan's soul had actually become more and more active. It was hard to hide the aura of her soul, as it surged out wave after wave like a tide.

However, Tang Huan's body did not move at all. She was like a sculpture, and did not notice the passage of time in the slightest.

At this time, with the departure of the Heavenly Kings from the eight great sects, news of Tang Huan's origins quickly spread throughout the Non-Phase Sky. It had even spread from the Non-Phase Sky to the rest of the seven days at an astonishing speed, causing a huge uproar in the entire Heaven Realm.

The moment they entered the Heaven Realm, they even managed to ascend to the King Board, which was derived from the Heavenly Dao. One of them even managed to reach the top of the King Board, how could the many Heavenly Kings of the Heaven Realm endure this?

The cultivation environment of the Heaven Realm was much better than the lower Heaven Realm, and the environment of the upper Heaven Realm was much better than the middle Heaven Realm. Ever since the appearance of the King Board, those who had been able to rank at the top of the Board were basically the Heaven Kings of the Upper Heaven Realm. Even those who were originally from the Heaven Realm were only able to rank at the top of the Board after entering the

Heaven Realm. From ancient times till now, there had never been a case of a cultivator from the lower realms occupying the top position of the Heaven King Board.

That Tang Huan fellow could be said to have created history, and also created the first river for the lower Heaven Realm King to reach the top of the Heaven King Board.

A large number of Heavenly Kings had rushed over from the other Heaven Realms. They wanted to see just what kind of person the thirty-six Heavenly Kings who could ascend to the top of the Heaven King Board were. Even Heavenly Emperor Stage Rankers became interested in Tang Huan.

These 18 days were not comparable to the 36 days. I will be 36 days, and if I want to go to other heavenly realms, I would have to spend a long time traversing the void, or wait for the Myriad Domain Dao Arts, which occurs once every 100 years, to open the Heaven Splitting Platform.

There was no other way.

Therefore, it's extremely difficult for me to travel between Heaven Realms in the next thirty-six days, and the transmission of information between Heaven Realms is also extremely slow. However, being in the middle of 18 days was different. There was an extremely long distance teleportation array formation in the Heaven Realm. It could be activated every few days. Although it might not be able to reach the Non-Phase Sky, it would still be able to reach its destination after a few rounds. It was just that it required a bit more effort.

Thus, the number of experts gathering in the Non-Phase Great Wisdom City increased.

In the center of Hannya City, at the edge of the cloud-like Jade Disc, there were occasionally Sky Kings who came to their senses, stood up and quietly left, their faces full of helplessness and disappointment.

Under normal circumstances, it would take at most half a year to study the Great Cloud Wall.

If one was still unable to gain enlightenment after half a year, they would be forcefully separated by the Great Wisdom Sect. They would need another year before they could try again. Of course, if one had comprehended something within the Cloud Wall, the period of time one's mind would be immersed in it would be even longer. One year, two years, or even three to five years.

For countless years, practically all those who could observe the Mo Yun walls for three to five years had advanced into the Sky Emperor.

Therefore, whether there was any hope for him to become a Heavenly Emperor or not, he just needed to see how long the Mo Yun Wall would last. Of course, seeing the Mo Yun Wall for the first time without any results did not mean that he would continuously fail in the following period of time.

Unknowingly, half a year had passed.

Mo Yunxi's fat body slightly twisted a few times before lightly sighing. His mind had already been completely separated from the Great Cloud Wall. Judging from Mo Yunxi's expression, it was obvious that his observation this time had not yielded the slightest result. However, he only sighed, obviously used to it.

In the blink of an eye, Mo Yunxi calmed her mind and began to scan her surroundings.

During this period of time, the Heavenly King left, and the Heavenly King also joined in. The number of people around the Great Cloud Wall did not decrease. After a while, Mo Yunxi's small eyes revealed a hint of surprise. Beside him, Tang Huan, Mo Hanyun, Jiu Ling and the rest were still sitting cross-legged.

If he remembered correctly, Tang Huan and the others should have started to look at the Mo Yun Wall at the same time as him.

Right now, half a year had passed and he had already been forcefully separated out by the Great Wisdom Wall. However, Tang Huan and the rest were still immersed within the Wall of Clouds.

Could it be that all of them had gained something from the process of observation?

After all, with his talent, it was normal for him to have comprehended something because of the Great Cloud Wall. However, with Mo Wuyun, Jiu Ling, and the others, they all had comprehended something, which was very inconceivable.

Chapter 2052 - Three Years In a blink of an eye

Fortunately, Mo Yunxi calmed down a bit. Mo Wuyun quickly regained consciousness, and Hua Tianchi also woke up. If they had all come to an understanding, and he, who had been struggling here for hundreds of years, had been wasting his time, he would have really wanted to smash his head into a wall.

Mo Yunxi and Mo Hanyun glanced at each other, then sat down quietly on the ground, waiting for Tang Huan and the others to wake up.

From time to time, people would wake up and leave. From time to time, people would approach the Jade Disc and sit cross-legged. In the blink of an eye, nearly half a year passed. In this period of time, Mo Yunxi, Mo Wen Yun, and Hua Tianchi had traveled back and forth between the Great Wisdom Sect and the Cultivation Pill Pavilion dozens of times.

However, not only was Tang Huan still sitting in place like a rock, not moving an inch, even the three little fellows, Nine Spirit, Xiao Budian and Ling Tian, were the same.

This situation made it difficult for Mo Yunxi to remain calm.

He had observed the Great Cloud Wall for almost a year, and this wasn't something that could be accomplished so easily. Of the many Heavenly Kings surrounding the Cloud Wall, the majority of them would be separated from their minds once the time limit of half a year had passed. There were very few who would be able to observe for a longer period of time after awakening.

But the four of them just stood there, unmoving.

Not only was he excessively young, he was also extremely talented. Even in the last nine days, he had never seen a Heavenly King that could be compared with Tang Huan in terms of talent and potential.

That Nine Spirits was also ranked on the King Rankings once she entered the Heaven Realm. Her talent and potential were about the same, so it was reasonable for her to have such a performance. However, those two little fellows called Xiao Budian and Ling Tian, had also been observing the Jade Disc for a long time.

Another six months passed.

Mo Yunxi, Mo Hanyun and Hua Tianchi once again arrived at the center of Hannya City.

Looking at the four figures who were still seated cross-legged in front of the Jade Disc, the three of them had different expressions. He had chosen to follow Tang Huan, naturally hoping that he would be able to see his become stronger and better. Now, it seemed that Tang Huan's strength would definitely improve once again.

Seeing this, the expression in Mo Wen Yun's eyes became quite complicated.

The stronger Tang Huan was, the more slim the chances of her losing control of Tang Huan, but, when Tang Huan's strength was strong enough to ignore the threat of the xuanji Pill Sect, maybe he would take the initiative to let go of her control. But similarly, that would depend on Tang Huan's mood, and she did not know if he could wait until that day came.

As for Mo Yunxi, her expression was somewhat blank.

Currently, Tang Huan and the others had already observed the Great Cloud Wall for an entire year and a half. During this period of time, not only did they come here to check on the situation, many

of the Heavenly Kings who had come to visit in the name of Mu Tang Huan had also come before the Great Wisdom Sect.

After secretly meeting Tang Huan, some of them stayed behind to look at the Mo Yun's Wall, while others left.

Most importantly, as far as he knew, in the current Great Wisdom City, there were at least two Heavenly Emperor level powerhouses lurking around. Of course, for the time being, he had no idea what their goal was. However, as long as Tang Huan was still in the Great Wisdom City, even Sky Emperor would not dare to mess around.

Even the Celestial Emperor was unable to withstand the backlash of the Great Ruo City's influence.

It was just that Tang Huan could not stay in the Great Wisdom City forever, and only hoped that his observations of the Great Wisdom Sect would bring him more benefits. If only she could step into the Heavenly Emperor Realm, that would be even better. Of course, Mo Yunxi could also casually think of ways to advance to the Heavenly Emperor Stage. How could it be so easy?

According to what he knew, there had never been a single Heavenly Emperor Stage powerhouse who managed to break through to the next level while observing the Great Cloud Wall for the first time. These cultivators either observed it dozens of times or watched it hundreds or even thousands of times before they finally gained some enlightenment and entered the Heavenly Emperor's realm.

Although Tang Huan and the others had observed the Great Cloud Wall for a long time, that was it.

After they regained their consciousness, their power would definitely improve. However, it would not be easy for them to advance from the Upper Sky King Realm to the Lower Heavenly Emperor Realm.

Mo Yunxi rubbed his chubby face, secretly sighing, but his expression suddenly changed, as his gaze swept across Jiu Ling, Xiao Budian and Ling Tian.

"I should be able to wake up soon."

In a flash, Mo Yunxi smiled with narrowed eyes.

After the Heavenly King observed the Great Cloud Wall and became immersed in it, his soul would be in a completely relaxed state, and the fluctuations of his soul would be very intense. The soul auras of the nine spirits, Xiao Budian and Ling Tian were the same, while Tang Huan's soul auras fluctuated intensely.

At the moment, Tang Huan's soul force was still fluctuating violently, but the soul force undulations of the nine spirits, Xiao Budian and Ling Tian were gradually weakening.

A moment later, the fluctuations of their auras stabilized one after another.

As if they were one, first the nine spirits, then Xiao Budian, then Ling Tian, and then the three of them opened their eyes. Jiu Ling and Xiao Budian looked at each other, their faces brimming with smiles. It seemed that they had benefited greatly from this one and a half year of observation.

Ling Tian looked at Nine Spirits and Xiao Budian. At first, he was a little confused, but then he squinted his eyes and laughed happily. Of course, whether or not he was also observing the Great Cloud Wall and reaped as much rewards as Xiao Budian and the nine spirits, only he himself knew.

After a while, Mo Yunxi left the area with infinite regret.

Not only did Jiu Ling, Xiao Budian, and Ling Tian choose to stay, even Yun Mo and Hua Tian Chi also stayed behind and began to observe the Great Cloud Wall.

It was obvious that Nine Spirit and the others' performance had given the two of them quite a shock.

A moment later, the mind of Yun Hua Tian Chi was immersed in the cloud wall. Nine Spirits and the other two had just awoken and could not continue watching the Mo Yun Wall, so they all calmed down and focused on cultivating in front of the Cloud Wall. The spirit energy of the Celestial Realm here was much richer than outside by many times, making it extremely suitable for cultivation.

Time flew by, another year and a half passed.

"It has been a waste of half a year."

In front of the Great Wisdom Sect's Jade Disc, Mo Yunxi opened his small eyes and sighed in disappointment.

Half a year ago, he was unable to hold back and once again began to view the Mo Yun Wall. Unfortunately, this time it was the same as last time, with nothing to show for it. Thus, before the time limit of half a year was up, his consciousness was forcefully separated by the Great Wisdom Sect once again, and he had awoken from his infatuation.

In the blink of an eye, Nine spirit, Xiao Budian and Ling Tian were still seated without moving.

Mo Yunxi immediately looked towards Tang Huan's direction, but when his eyes landed on the black figure, she seemed to have seen a ghost, his mouth suddenly opened wide, and his eyes turned round.

#### Chapter 2053 - Celestial Emperor (1)

Tang Huan was still sitting cross-legged without moving an inch.

However, within a radius of a few meters around him, space suddenly started to surge violently, like boiling water, boiling water, or rolling clouds stirred up by a hurricane. Moreover, this kind of movement was also spreading out in all directions at an astonishing speed.

Of course, this was not because Tang Huan had activated her Sky Origin Stage, but because of the spirit aura being released from his body, which was too intense.

Tang Huan was deeply engrossed with the Great Cloud Wall, so she could not actively use her power to influence the fluctuations of her own soul.

This meant that everything happened naturally.

The soul aura that was subconsciously produced could actually be so violent to such an extent. It was incredibly inconceivable. According to what Mo Yunxi knew, in the past countless years, those who had caused such a commotion while observing the Great Cloud Wall had all stepped into the Heavenly Emperor Realm in one go.

In other words, in front of the Great Wisdom Jade, the appearance of this degree of fluctuation in the soul aura could be considered as the precursor to the advancement from the peak of the Upper Sky King to the Inferior Sky Emperor.

He was about to become a Celestial Emperor in just three short years?

At this moment, Mo Yunxi was extremely shocked.

All the Heavenly Kings who had been promoted to Heavenly Emperor Stage here, had only managed to find the opportunity to breakthrough after studying the Great Wisdom Wall many times. However, this Tang Huan, who had been training for thirty-six days, was about to successfully break through the shackles of the Heavenly King and step into the Heavenly Emperor Stage after observing the Great Wisdom Wall for the first time?

This was extremely unbelievable, but it was happening right in front of his eyes.

Mo Yunxi and Hua Tianzhi, who had never observed the Great Floating Cloud Wall before, also noticed the abnormality around Tang Huan and were both dumbstruck like Mo Yunxi. It was obvious that they shared the same view.

"Aiyaaaaaaaaaaaaaaaaah!"

A few surprised cries rang out, waking Mo Yunxi, Mo Wen Yun and Hua Tian Chi up, but Nine Spirit, Xiao Budian and Ling Tian suddenly woke up. They were the closest to Tang Huan and were also the fastest to be affected.

The three of them looked at each other, and then fixed their gaze on Tang Huan. They were surprised at first, but after thinking of something, their surprise turned into pleasant surprise.

After them, more and more Heavenly Kings were affected by the commotion.

In just a few breaths of time, the sound had covered an area of a few thousand meters, including the entire Great Wisdom Wall. It also caused all the cultivators in the area to wake up, and they all jumped up, and looked at Tang Huan.

Amidst the numerous gazes, the surprise and astonishment contained within could no longer be concealed.

Many of the Heavenly Kings stared unblinkingly at the black figure. At the originally quiet place, murmurs could be heard.

"He... Is he about to be promoted to the lower Sky Emperor? "

"That person is Tang Huan, the top ranker of the Heavenly King Ranking, the number one king of the Heaven Realm. Moreover, I heard that he was born in the Crimson Sky Kingdom, one of the lower thirty-six days."

"He's only been in the Non-Phase Heavens for three years, right? And it's his first time seeing the Great Wisdom Sect, and he's actually about to break through?"

"..."

The crowd muttered incessantly. The envy and jealousy in their eyes could not be concealed at all.

This group of Heavenly Kings had stayed in the Great Wisdom City for at least ten thousand years, and in the shortest amount of time, they could stay there for dozens or even hundreds of years. Some of them had observed the Great Cloud Wall countless of times, and many among them had obtained some benefits from watching the Mo Yun Wall, but were still unable to find the opportunity to advance to the Heavenly Emperor Realm.

However, now, a Heavenly King, who had seen the Mo Yun's Wall for the first time and had only seen it for a short three years, had actually revealed signs of a breakthrough.

Tang Huan's talent was already strong to this extent?

Everyone found it difficult to accept this fact, but they had no choice but to believe the movement that was being generated from Tang Huan's body.

"Elder Mo, is my elder brother really going to break through?"

Jiu Ling couldn't help asking, too, wanting to confirm something.

She, Xiao Budian, Ling Tian and Mo Yunxi were gathered together. In order to not disturb Tang Huan, they had even followed the intense spirit energy fluctuations, retreating thousands of meters away. At this moment, Tang Huan's figure had already turned into a small black dot in their eyes.

"If nothing unexpected happens, Brother Tang Huan will become the Heavenly Emperor very soon."

Mo Yunxi nodded, his expression full of emotion.

When Tang Huan first met him, although Tang Huan was the first king of this Heaven Realm, he was also an elder of a super sect like the Phecda Core Sect. But if Tang Huan were to become the Heavenly Emperor, he would not be able to call him brother Tang Huan like before.

It was hard to accept the fact that one of them was still standing in the same place and the other had suddenly leaped up into the sky.

However, this also made him even more determined to win Tang Huan over to the Xun Ji Sect.

When Tang Huan went to the lower Heaven Realm, perhaps she had her own sect, but when he entered the upper Heaven Realm, she did not belong there. A hundred year old lower level Heavenly Emperor, as long as she didn't die, she would enter into the Empyrean realm in the future. Without a doubt, if she missed out on such a peerless genius, it would absolutely be the loss of the xuanji Pill Sect.

"Great."

Hearing that, Jiu Ling and Xiao Budian both clapped their hands and laughed out loud in excitement. Their eyes were squinted into crescent moons in delight, and Ling Tian was also smiling widely while clapping his hands. Hua Tianzhi, who was at the side, was naturally no exception. His eyes were shining and his face was filled with unconcealable joy.

Mo Wuyun recovered from the shock and could not help but bitterly smile and sigh.

At this moment, she felt a strong sense of regret. Her way of dealing with Tang Huan was indeed wrong. If she had not schemed against Tang Huan and instead befriended him like her cousin Mo Hengqing, she might have been able to become good friends with Tang Huan, and would not have fallen to such a state.

But unfortunately, it was too late for regret.

Everyone had different expressions and different moods, but no one left at this time. Not only that, the number of Heavenly Kings gathering in this region continued to increase.

Not long after that, thousands of strong warriors had gathered at the edge of the space.

Amongst the crowd, the sighs and murmurs that had been suppressed with all his might rose and fell one after another. It was definitely rare to see a chance for a lower level Heavenly Emperor to be promoted at such a close distance.

Outside of the Great Wisdom City, there were countless cultivators who were bewildered.

"What's going on? All the Heavenly Kings ran over to the Great Wisdom Sect? "

"From what I see, something big is definitely going to happen over there. Unfortunately, with my cultivation, I can't enter that place. Otherwise, I would have to see it with my own eyes."

"Something big is happening over there. Could it be that someone is going to be promoted to the Heavenly Emperor Stage?"

"You don't say, but there really is such a possibility."

"..."

## Chapter 2054 - Celestial Emperor (2)

All sorts of speculations and speculations were circulating in Hannya City.

More and more cultivators believed that the reason so many Heavenly Kings were gathering at the Great Wisdom Sect in the center of the city was because a certain Heavenly King was about to be promoted to the Heavenly Emperor Stage.

Amongst the many people viewing the Mo Yun Wall, there were even those who had been observing it for more than ten thousand years, the Peak Heavenly King, who suddenly gained an epiphany and stepped into the Heavenly Emperor Realm, this was nothing out of the ordinary.

Soon, the news spread out from the center of the city, confirming everyone's speculations.

However, no one had expected that the person who was about to be promoted to the lower Sky Emperor was not the peak Sky King who had observed the Great Wisdom Wall for tens of thousands or even tens of thousands of years. Instead, it was the first time Tang Huan had observed the Great Wisdom Wall, which had already persisted for three years ... This was completely out of everyone's expectations.

As time passed, the excitement of Tang Huan reaching first place on the King Board for the Heaven Realm King had decreased by quite a bit.

However, in this city, there were still many cultivators paying attention to his movements.

The matter of Tang Huan being unable to sit still in front of the Great Wisdom Wall was something that almost all the cultivators in the city had heard of. However, everyone was just curious about how long Tang Huan could endure and they were also envious of her achievements. However, they had never thought that he could directly step into the Sky Emperor Realm.

From ancient times till now, there had never been a person who had been promoted to the Heavenly Emperor just by looking at the Mo Yun Wall for the first time.

But now, Tang Huan's performance had completely destroyed all of the people's perceptions ... The most unlikely scenario would happen in Hannya City.

At the same time that everyone was in disbelief, they were all paying close attention to what was happening in the center of the city.

The outcome of Tang Huan's true promotion to the lower Sky Emperor would be revealed very quickly.

However, to everyone's disappointment, after this, there were no other movements in the central area of the Great Wisdom City, nor were there any other new news that spread out.

He had always been talking about how Tang Huan was about to break through, but he had never broken through. Unknowingly, another two years had passed.

In front of the Great Wisdom Jade, Tang Huan was still seated cross legged, his body remained unmoving and the soul aura that was seeping out from his body was also as strong as ever.

At the edge of this space, there were already fewer and fewer people.

With the huge commotion caused by Tang Huan, even if the others wanted to look at the Mo Yun's Wall, it would be difficult for them to assimilate into it. As a result, only a very small number of the Heavenly King Warriors that had gathered here stayed behind. The others would come over from time to time to check on whether Tang Huan's situation had changed or not.

In the beginning, almost everyone thought that Tang Huan would definitely step into the Heavenly Emperor Realm.

But as time passed, Tang Huan never took her final step.

Until now, there were not many people who felt that Tang Huan would make a breakthrough. Of course, with Tang Huan's strength as the First King of the Heaven Realm, advancing to the Heavenly Emperor Realm was inevitable. It was just that after looking at the Mo Yun Wall for so long, she couldn't break through the shackles of the Heavenly King Realm in one go and step into the higher realms.

Some of the Heavenly Kings felt pity for Tang Huan, but there were quite a few that felt balanced seeing that Tang Huan was unable to break through.

A cultivator from the lower thirty-six days, to be able to reach the stage of the King Rankings as soon as he entered the Central Heaven Realm, was already extremely stunning, not to mention that he had directly risen to the top of the King Rankings.

Just this alone, had already made many Heaven Kings of the Heaven Realm and Heaven Realm extremely unconvinced.

If this lower Heaven Realm King had only used a few years to advance to a lower Heaven Emperor after entering the middle Heaven Realm, wouldn't that only make the Heaven Kings like him a bunch of trash? The fact that Tang Huan was unable to break through in one go, could be said to be perfect for them, the Heavenly Kings.

"Strange, could it be that I really can't break through?"

Thousands of meters away from the Great Wisdom Wall, Mo Yunxi pinched his chubby chin, his brows tightly knitted as he softly muttered in doubt.

Counting it, Tang Huan had already stayed in front of the Great Cloud Palace for a whole five years.

According to what he knew, after he showed signs of advancing, he would be able to reach the Sky Emperor Realm in about half a year. But on the other hand, Tang Huan had not broken through even after two years had passed. Around him, there were still only signs of a breakthrough.

"I can't break through this time, I'll definitely be able to do it next time." He was the same as Mo Yunxi, because he did not have too much confidence in Tang Huan's breakthrough this time. However, he didn't care too much about it. Since he couldn't make it this time, then he might as well come again.

"..." Mo Youyun also slightly nodded her head, as if agreeing with the words of Hua Tian Chi.

"Don't worry, big brother will definitely be able to get promoted to the lower Sky Emperor."

"That's right, big brother will definitely be able to do it."

Jiu Ling who was seated cross-legged glanced at Mo Yunxi and laughed. Xiao Budian also started waving her fists around, and Ling Tian naturally nodded his head.

Compared to Mo Yunxi, Hua Tian Chi, and Mo Hanyun, Jiu Ling, Xiao Budian, and Ling Tian had more confidence in Tang Huan.

They had almost blind confidence in Tang Huan.

In these two years, Tang Huan had never made a breakthrough, nor did she wake up. They had also never left the area even half a step, and had always been guarding this area.

"Huh?"

Mo Yunxi's mouth moved slightly. Just as he was about to speak, the melody that had rushed to his throat turned into a low cry.

Instantly, a trace of astonishment appeared between his brows, and following that, his gaze started to become slightly stiff, and his pair of eyes became increasingly round. The white and tender skin on his face swelled to a flushed red, and even the fat on his face started to tremble ... Looking at his appearance, he seemed to be extremely excited.

Mo Hanyun, Hua Tian Chi, Nine Spirits, Xiao Budian and Ling Tian were acutely aware of his abnormality and almost looked in his direction at the same time. In the air ahead, the visible undulations caused by Tang Huan's soul aura had undergone a strange change.

The area around Tang Huan was already filled with strange clouds.

From afar, it looked as if there was an incomparably large cloud violently churning and surging around Tang Huan's body. However, the changes in the cloud seemed to contain countless of mysteries, enough to cause one's mind to be completely immersed and unable to extricate themselves, just like watching a piece of jade.

Mo Hanyun, Jiu Ling, and the others immediately focused their minds to prevent themselves from being deeply engrossed.

In an instant, everyone could hear Mo Yunxi muttering to herself, even her voice trembling a little, "It's about to break through!" "She's about to break through!"

"Elder brother is about to be promoted to Heavenly Emperor?"

The nine spirits and Xiao Budian were stunned for a moment, and then instantly overjoyed.

However, the moment this happiness appeared, everyone immediately felt an extremely terrifying pressure pressing down on them. It was like a raging storm was rolling over from where Tang Huan was sitting, and no one could resist it.

Before any of them had time to even think about resisting it, they were pushed back repeatedly. In the blink of an eye, they seemed to have passed through a layer of invisible barrier, and left the center of the Great Wisdom City. At the same time, the figures of Great Wisdom Cloud Wall and Tang Huan had already disappeared from their line of sight.

## Chapter 2055

At this moment, not only was Mo Yunxi, Jiu Ling and the others forced to withdraw, there were even more Heavenly Kings around who had no choice but to leave the center of the Great Wisdom City. There were dozens of people, and after stopping, they couldn't help but look at each other in dismay.

"This... Is this Tang Huan really going to step into the Sky Emperor realm? "

"Looking at the commotion now, I'm afraid there's no mistake."

"It's been five years ... "Initially, I thought that it would be difficult for him to reach Zongshi realm this time, but to think that he would be able to reach Zongshi realm right now. I wonder why he delayed his advancement for the past two years?"

"..."

Everyone grouped in groups of two or three and muttered in whispers.

They had also come to their senses, this sudden huge commotion and change meant that there was no suspense for Tang Huan to be promoted to a lower Heavenly Emperor.

At this moment, the astonishment and envy in everyone's hearts were indescribable.

In the past two years, everyone had felt that Tang Huan had only gained quite a bit of comprehension and benefit from studying the "Great Cloud Wall". But to advance to a lower level Sky Emperor just like that, the hopes were obviously extremely slim ... This kind of view had almost become the common understanding of the majority of cultivators.

The more time passed, the more these thoughts were deeply rooted in the minds of the crowd.

However, right now, Tang Huan was about to break through, and it was at the moment when everyone thought it was impossible, showing the omen of a breakthrough.

"Look over there!"

Jiu Ling and the rest did not pay any attention to the surrounding Celestial Kings as they stared ahead with widened eyes.

The invisible barrier that separated the 'Great Cloud Wall' from the outside world also started to violently fluctuate, and its shape was also sketched out. It was actually like a huge cloud, and its shape was no different from the Great Cloud Wall.

The undulations from the invisible barrier were like the churning of clouds, exactly the same as when he was looking at the walls of the Mo Yun.

This action made Jiu Ling and the others even more convinced that Tang Huan was about to be promoted from the Upper Sky King to the Inferior Sky Emperor. After a short moment of surprise, their faces filled with excitement.

"Rumble ..."

The sound actually became louder and louder. Within two to three breaths of time, it resounded through the entire Non-Phase Sky like a thunderclap. It was as if everyone's eardrums were being torn apart.

At this moment, those dozens of Heavenly Kings who had just been forced into a corner of Hannya City subconsciously shut their mouths, reflexively looking up at the sky.

Not only them, Mo Yunxi, Jiu Ling and the rest who were not far away, even all of the cultivators in the Great Wisdom City and the Non-Phase Heaven stage all subconsciously looked up.

In the blink of an eye, the space above the sky started to fluctuate violently as well.

In the blink of an eye, it was as if countless clouds had emerged, as if a tide was stirred up by a hurricane. At almost the same time, an incomparably terrifying aura poured down from the sky, and in an instant, filled the entire Heaven Realm.

In an instant, regardless of where they were in the Non-Phase Sky, the cultivators all felt an abnormally strong sense of fear from the depths of their soul. That aura was as vast and boundless as the ocean, making one unable to resist it. The moment one felt it, they had the urge to bow down and worship it.

Even the Heavenly King was no exception.

That aura was the aura of the heavens! The change in the sky was naturally caused by the heavens' law!

During this Non-Phase Sky, even cultivators slightly older than them had seen such a scene before. Even if they had never seen it with their own eyes, they had heard countless stories about it from their teachers and elders. As a result, the moment they felt the aura and saw the change in the sky, everyone realized —

With a Lesser Celestial Emperor, he would be born in the Non-Phase Sky!

At this moment, countless people had envious looks in their eyes. Within the 18 days, although there weren't many Heavenly Kings, they weren't too few. However, Heavenly Emperors were extremely rare. Many of the upper peak Heavenly Kings would never be able to touch the threshold of the Heavenly Emperor Realm in their entire lives, it could be said to be their greatest sorrow.

Even so, from ancient times until now, there have still been countless Heavenly Kings looking for the opportunity to break through to the Heavenly Emperor Realm.

The Heavenly King Realm could only communicate with Heavenly Energy, but the Heavenly Emperor Realm could control Heavenly Energy. There was a huge difference between the two realms. Every time he attacked, he would be able to use the Heavenly Energy. Naturally, it would give birth to a terrifying might that could topple mountains and overturn seas.

Such a magical feeling was naturally impossible for cultivators who had never experienced it before to feel, but this did not stop the Heavenly Kings from diligently pursuing it.

Once a Heavenly King advanced to the Heavenly Emperor Stage, the Heavenly Dao would produce a phenomenon.

At this time, it was also the best time to touch on the Heavenly Dao. All the Heavenly Kings who wanted to improve would not let go of this chance. Thus, at almost the same time, the Heavenly

Kings of the various regions of the Non-Phase Sky, and in the Great Wisdom City, forcefully resisted the intense feeling of palpitation and began to quietly feel it.

The deeper one's perception of the Heavenly Dao was, the less obstructions they would face in stepping into the Heavenly Emperor Stage. This was something all Heavenly Kings knew, and those at the peak of the Heavenly Realm would have a much deeper understanding of this phrase.

High up in the skies, clouds swirled and clouds gathered, scattering in all directions. It was as though the boundless mysteries of the Heavenly Dao were contained within them.

After what seemed like a few hours, then several days, the Heavenly Daos' aura finally dispersed, and the phenomenon created by the Heavenly Daos also gradually disappeared from the sky.

Wu Xiangtian quickly returned to his previous state.

However, the people from all over the Non-Phase Heaven Alliance were all boiling with excitement. Countless people were discussing what had happened earlier.

Within the Great Wisdom City, the clamor was even louder.

The cultivators of the other parts of the Non-Phase Heaven may not know where the commotion came from, but they were very clear that the reason for the Heavenly Dao phenomenon to appear was in the central space of the Hannya City. Someone must have comprehended it when he was observing the Great Cloud like Jade, and thus advanced to the lower level Heavenly Emperor in one go.

Ever since Tang Huan showed signs of breaking through, there were no longer any other Heavenly Kings in that area who could continue observing the Mo Yun's Wall.

In other words, Tang Huan was the only person who had been observing the Mo Yun's Wall!

From that, the only person who could be promoted to the next level from the Upper Sky King was Tang Huan, who was ranked at the top of the Heavenly King Ranking! He had actually broken through!

After reaching this conclusion, the countless cultivators in the city were shocked.

It was inconceivable that Tang Huan, who had originally thought that she would never advance, would instead become a genuine Inferior Heavenly Emperor right under the eyes of the masses. One must know that this was Tang Huan's first time seeing the "Great Cloud Wall", and they didn't know how he did it.

Countless of cultivators subconsciously gathered at the center of the city, wanting to personally see Tang Huan walk out from the Great Wisdom Sect.

Chapter 2056 Changes to the King's Rankings

"The Non-Phase Sky has finally produced another Heavenly Emperor!"

Deep within the encampment of the Divine Netherworld Sect, a faint sigh echoed from an ancient hall that seemed as if it would collapse at any moment.

The one who spoke was a skinny old man in a grey robe. His dried up face was full of wrinkles and he looked like a dried up old tree bark.

"Chang Yuan!"

A moment later, the gray-robed old man suddenly called out softly.

On the left side of the entrance, a tall and sturdy figure that stood as still as a statue suddenly came to life when he heard this voice. He respectfully asked, "Elder, do you have any instructions?"

"Go and ask."

The grey robed elder said slowly, "Did the peak Heavenly King of one of our Non-Phase Heavens' sects break through, or did the peak Heavenly Kings of Hannya City get promoted?"

"Yes, elder, I will go now."

The tall and sturdy shadow bowed and left with a weird pace, as if it had been standing still for a long time and had forgotten how to walk. It looked extremely stiff.

... ..

"Lesser Celestial Emperor!"

In the southeastern part of the Non-Phase Sky Sect's Great Assembly Hall, a handsome and refined looking middle-aged man could not help but sigh, "If that's the case, then we, the Non-Phase Sky Sect, already have five Heavenly Emperors."

"That's not necessarily true."

Hearing this, a white-robed elderly man at the side could not help but laugh, "If the origin of the Heavenly Dao phenomenon is the Great Wisdom City, then it might not be our peakless peak Heavenly King that advanced to the lower level. He might come from the other 17 Middle Heaven Realms, or the top nine heavens."

As he spoke, a tall and straight figure suddenly flashed into the room.

"Leader, Elder Liu, we are clear."

The newcomer was a young man, with thick eyebrows and large eyes, and an aura that seeped out from his body, yet he was only slightly inferior to the middle-aged man and the white clothed elderly man. It was clear that he was also a Heavenly King, "There's news from Hannya City, the person who advanced to the lower level Sky Emperor is that very top ranker, Tang Huan!"

"Tang Huan? How is that possible? "

When the middle-aged man and white clothed old man heard this, they were both shocked and couldn't help but cry out.

While they were talking, the two of them subconsciously looked at each other. They both saw an unconcealable look of surprise in each other's eyes. Instantly, the middle-aged man could not help but ask anxiously: "Elder Meng, is it true, that the person who had just advanced to become a lower Heavenly Emperor, is really Tang Huan?"

"Absolutely." The light man called "Elder Meng Nian" nodded heavily.

"This... How could it be him? "

The middle-aged man and the white-robed old man were still in disbelief. This news was truly unimaginable.

Although they were in the southeastern part of the Non-Phase Sky City, they were not unfamiliar with the happenings in the Great Wisdom City. From time to time, there would be a few disciples from the Celestial Sect who would spread the news back to the sect.

Therefore, they knew Tang Huan's situation during the past five years in Hannya City like the back of their hands.

The longer Tang Huan observed the Great Cloud Immortal Wall, the more people felt that it would be difficult for him to step into the Sky Emperor Realm.

However, reality had slapped them in the face.

The middle-aged man's lips slightly moved. Just as he was about to open his mouth to speak, he seemed to hear a loud rumbling sound, and then the space of the Non-Phase Sky began to tremble. At almost the same time, the extremely terrifying Heavenly Energy appeared once again, filling up every inch of this Heaven Realm.

In the next moment, the King Board automatically appeared within the senses of the middle-aged man and the others.

At this very moment, not only them, even the Heavenly Kings of the eighteenth and the ninth heaven had sensed the existence of the Heavenly King Ranking at almost the same time.

On the ranking board, all the golden characters were violently fluctuating and changing.

After a while, the king's ranking finally calmed down, and at the top of the ranking board, the two words "Tang Huan" had already disappeared, and what replaced it were the words "Pu Hongli". The original top of the King Rankings had been pushed by Tang Huan to the second place on the King Rankings five years ago, and now, she had once again returned to the top of the Heavenly King's Rankings.

"Tang Huan! It's really Tang Huan! "

The middle-aged man snapped out of his daze and mumbled to himself.

... ..

It was a frosty day for the Meteor Sword Sect.

"Tang Huan... This little guy's name has actually disappeared? "

Sensing the change on the king's ranking, Ye Tingyun could not help but be baffled and said in disbelief, "Could it be that he was killed by someone and his soul was destroyed?"

"Impossible, impossible."

In an instant, Ye Tingxiao once again shook his head, "That little guy's life is very big. How could he die so easily? Furthermore, if his soul disappears, his name would still remain on the King Board until the next change on the Board of the King disappears, which would not cause the Heavenly Dao to take the initiative and appear on the Board of the King. "

If the Heavenly King on the ranking board died, the name would not disappear immediately, but would continue to stay, but the luster would become very dim. The next time there was a new Heavenly King or a new Heavenly King on the leaderboard, the name of the deceased Heavenly King on the leaderboard would be replaced.

Most importantly, such a commotion could not be caused by the Heavenly Kings who had just passed away.

"Could it be..."

Once again, Ye Tingxiao tried to sense the name on the leaderboard. An extremely bold thought suddenly flashed through his mind, "Could it be that this little fellow has already advanced to become a lower level Heavenly Emperor?"

... ..

"He only entered the King Board five years ago, and after five years he has already become a lower level Heavenly Emperor?"

On the ninth day, in a simple room of the Pangu Heaven Sect, a voice filled with surprise suddenly rang, "This Tang Huan, where did she come from?"

The person who spoke was the current top ranker on the list, Pu Hongzhe. His appearance was still young, yet aged, and extremely strange.

A moment ago, he was immersed in cultivation, when he suddenly felt the change in the King Board. He originally thought that there would be a new Heavenly King on the Board, or the rankings of the other Heavenly Kings had changed, but he did not expect that it would be Tang Huan who disappeared from the Board, and her own name had returned to the top.

As an old monster who had lived for many years, he immediately understood what was going on.

That was, the position of the original first ranker had already entered the Heavenly Emperor Realm.

After a moment of surprise, Pu Hongliang couldn't help but sigh with emotion, "It's been so long. I wonder how long it will take this old man to break through the shackles of this cultivation technique and ascend to the Heavenly Emperor Realm?"

... ..

"High Lord, great joy! Just now, the King Board changed, and Tang Huan has stepped into the Heavenly Emperor Realm." Nine days later, Chi Xiao Tian, Tan Yue's tone was filled with unconcealable surprise and admiration.

"Oh? "So fast!"

When Liu Li heard this, she could not help but stare blankly for a moment. "If I remember correctly, only five years have passed, right?"

However, after a short moment, Liu Li laughed and said, "Indeed, you are my, Liu Li's, little brother. For others, five years is just a blink of an eye, but for my little brother, five years is indeed not a short amount. After reaching the top of the King's Rankings five years ago, he should be considered the person with the shortest number of years on the top of the Rankings. "

"That's right, the rankers on the other rankings were stunned for hundreds of years, or even thousands of years. Only he, is only a mere five years."

"..."

Chapter 2057 - Congratulations!

In the center of Hannya City, every street had already been filled with the surging tide of people.

After the initial clamor, under the influence of the Great Cloud Wall, the entire area quieted down. Everyone stared at the center of the city without blinking.

"Hu!"

After an unknown period of time, the invisible barrier in the center of the space seemed to slightly fluctuate.

Immediately after, a black figure appeared out of nowhere and entered the surrounding people's line of sight. No one could feel any aura emanating from his body. It was as if the one that walked out from the center of the space was an ordinary young man; at most, he was a bit more handsome.

However, after a short while, the crowd discovered something strange.

Although the young man did not emit any aura, his every move seemed to contain endless mysteries, giving people a mysterious and unfathomable feeling, as if his every action was as great as the clouds. Everyone looked at him as if they were watching the Great Cloud Wall. The clouds were ever-changing and unpredictable.

"Tang Huan!"

This name seemed to appear in everyone's minds at the same time.

Even those who had never seen him before knew that he would be the only one to walk out of the city center at this time. Besides Tang Huan, there was no one else.

As they gazed at the slowly moving figure, everyone's expression became incomparably complicated.

Envy, jealousy, surprise, shock, disbelief ...

However, no matter how the crowd looked at this moment, there was still a trace of unconcealable awe in the depths of their eyes. This was not only reverence for Tang Huan, the newly born Inferior Heavenly Emperor, but also reverence for the Heavenly Dao. The current Tang Huan could casually use Heavenly Energy.

"He is Tang Huan?"

On a tall building tens of kilometers away, a figure was leaning against the window as he gazed into the distance. His two eyes seemed to have traveled across space and landed on Tang Huan, who was standing in the middle of the city.

With both hands on the window, his skin was white and his fingers were slender. The wind from the sky poured in through the window, causing his clothes and hair to flutter behind his head. It further accentuated his extraordinary beauty.

"Exactly."

Beside the young man, an old man dressed in green slightly bowed as he spoke.

This old man was short and thin, with an unremarkable appearance, but the Qi that leaked out from his body was extremely tyrannical. This old man was short and thin, with an unremarkable appearance, but the Qi that came out of his body was extremely tyrannical.

"After entering the Heaven Realm for five years, the first time I saw the Great Wisdom Sect, I was promoted to the Lesser Heaven Emperor level."

The young man sighed, "If such a character doesn't die, he will definitely become an Empyrean in the future." As he finished speaking, a trace of unconcealable envy flashed within the young man's eyes, but in the next moment, he couldn't help but exclaim in a low voice as an unusual expression flashed within his eyes.

"That is ..."

After a moment, the young man's eyes squinted, but they opened in an instant. In that instant, greed seemed to flash past his eyes.

... ..

"Big brother!"

In the center of Hannya City, Jiu Ling, Xiao Budian and Ling Tian cheered, and like a tornado, they rushed towards Tang Huan, their small faces had smiles plastered all over them.

"How is it? Have you gotten anything in the past few years?"

Tang Huan looked at the three of them and laughed.

This time, Tang Huan himself was somewhat surprised to be able to step into the Sky Emperor Realm on her first try at the Great Wisdom Wall.

The difference between a peak level Heavenly King and a lower level Heavenly Emperor was only one Dao crystal.

However, after truly stepping into the Heavenly Emperor Realm, Tang Huan finally realized how huge the gap between the two realms was.

Of course, this kind of enormous difference was only for Tang Huan herself. When Tang Huan was still at the peak of the Upper Sky King Realm, she was still able to fight against the Emperor Level Giant Beast in this dark void. At that time, even though he was still at the peak of the Upper Sky King, she was still completely able to fight against the lower Sky Emperor.

Now, Tang Huan was already a lower Heavenly Emperor. However, Tang Huan was completely confident that she would be able to contend against a middle Heavenly Emperor, even if it was a peak level Heavenly Emperor.

This was because Tang Huan was not fighting alone, but was fighting shoulder to shoulder with her Immortal body.

Not long ago, Tang Huan's original body and his Immortal body had both ascended to the level of Lesser Celestial Emperor at the same time. He had observed the "Great Cloud Wall" for several years before breaking through, and it was also because she wanted to further hone the relationship between his original body and his Immortal body.

It took longer, but it was worth it.

After becoming an Inferior Heavenly Emperor, the strength of Tang Huan's Immortal Body's clone had increased by an unknown amount compared to before. It was already in no way inferior to his original body.

The Great Cloud Wall was indeed marvelous.

Tang Huan now completely understood that the only change that he could sense in the clouds while immersed in the Great Cloud Wall was the change in the way the heavens dao. If she could comprehend the changes of the Heavenly Dao in her heart, it would be natural for him to step into the Heavenly Emperor Realm, because only by comprehending the changes of the Heavenly Dao would she be able to use the Heavenly Energy.

However, the key to this was still the word "infatuation".

Taking the initiative to indulge and passively indulge were two completely different things. He was immersed in it passively, and his mind was captivated by the changes in the Heavenly Dao. Even if he had comprehended some of it, it would be difficult for him to achieve a breakthrough.

Those who took the initiative to indulge themselves, but were able to sense the changes in the Heavenly Dao as much as they wanted to. In the past, those who had stepped into the Heavenly Emperor Realm would all become like Tang Huan. Perhaps after observing countless times, she could finally not be captivated by the changes of the clouds or suddenly wake up in the process of observing, turning passivity into initiative.

Of course, there were very few people who could do both.

The vast majority of Heavenly Kings, even after hundreds or even thousands of years, still found it difficult to shake off the influence the Great Wisdom Sect had on their minds. Naturally, they could not truly comprehend the changes in the Heavenly Dao, and could only completely give up in the end.

"Of course."

Jiu Ling chuckled, "Although we were unable to directly advance to a lower level Heavenly Emperor like you, big brother, our harvest is still not small."

Xiao Budian and Ling Tian also smilingly nodded their small heads.

"Not bad, your strength has increased quite a bit."

Tang Huan laughed in praise. After that, she seemed to have sensed something as she glanced towards the distance, but she immediately retracted her gaze and landed on Mo Wuyun who was rushing over, "Congratulations, you have entered the King Board again."

Logically speaking, the Heavenly Emperor would not be able to sense the name of the leaderboard, but because the change in the leaderboard was related to him, the moment he sensed his name disappearing from the leaderboard, he also discovered that Mo Wuyun's name had reappeared on the leaderboard, and was coincidentally ranked 100th.

"..."

Mo Wen Yun was originally smiling, but after hearing what Tang Huan said, her smile immediately froze, and she angrily gritted her teeth.

Chapter 2058 was about to cry!

"What? Leaving now?"

After about an hour, within the xuanji Pill Pavilion, Mo Yunxi's small eyes were wide open as he gasped for breath.

It was impossible for someone as talented as Tang Huan to stay in the Heaven Realm for long, not to mention that Tang Huan had already become a lower level Heaven Emperor. Thus, when she was certain that Tang Huan was about to make a breakthrough, Mo Yunxi came to a realization that the day that Tang Huan would leave was not far off.

However, even though Tang Huan wanted to leave so quickly, he was still a little shocked.

"That's right."

Tang Huan nodded with a smile that was not a smile on her face as she looked at the astonished Mo Yunxi, and slowly said, "My purpose for coming here is to see if I can find the opportunity to breakthrough from 'Great Wisdom Sect's'. Since I have already been promoted to the lower Sky Emperor, I naturally don't need to stay behind."

"Tang Huan... "Brother..."

Seeing that Tang Huan did not mind, Mo Yunxi anxiously shouted, "You have already been promoted to the Inferior Sky Emperor, but the nine spirits, Xiao Budian and Ling Tian have not yet."

"Nine spirits, Xiao Budian, Ling Tian, what do you think?" Tang Huan laughed.

"For me, advancing to become a Heavenly Emperor isn't difficult. Whether or not I have the Great Cloud Wall is similar."

Jiu Ling waved her small white hands and carelessly spoke with an unconcerned expression. She did indeed have such confidence. For a "Netherworld Nine Spirits Bird" like her who had completed her cycle of reincarnation, the path of cultivation was a completely easy one. Before the Heavenly Sovereign, there was no bottleneck.

As long as one cultivated to such an extent, breaking through would naturally happen.

Mo Yunxi was not aware of this. Seeing how easily Jiu Ling spoke, he was once again taken aback. His mouth slightly opened and an expression of disbelief appeared on his face.

"Big brother, it's the same for me. I should be able to advance after cultivating for a period of time. I don't need to continue studying the Great Cloud Wall." Xiao Budian said with a beaming smile.

"This ..." Mo Yunxi's mouth opened even wider.

"Big brother, as long as it's time for me to arrive, I can be promoted to Heavenly Emperor at any time."

Ling Tian's eyes rolled around as he had an extremely honest look on his face, giving off the feeling that there was a huge difference. However, his words were filled with confidence.

He was the embodiment of the "Spiritual Dao of the Heavens and the Soul", and the "Spiritual Dao of the Heavens and the Soul" was originally meant to help someone advance to the Heavenly Emperor Stage.

"..."

Mo Yunxi was close to tears when she heard this. She had nothing left to say.

Nine spirits, Xiao Budian, Ling Tian ...

None of them took the Great Cloud Wall in their eyes, nor did they take the shackles between the Heavenly King and the Heavenly Emperor seriously. In their eyes, stepping into the Heavenly Emperor Realm was as easy as eating and drinking, completely easy for them.

That was the Heavenly Emperor Realm!

In these countless years, it was unknown how many Heavenly Kings had stopped here. Even when the end of their lives arrived, they were still unable to cross over. To countless Heavenly Kings, the barrier between the Heavenly King and the Heavenly Emperor was like a chasm, but to them, it was like a shallow and shallow waterway that they could cross with a lift of their feet.

This was something that Mo Yunxi, who had been stuck at the Sky King Realm for many years, could not handle.

"Elder Hua, what about you?" Tang Huan looked at the Heaven Lake again.

"Oh?"

"Dean, I know my own limits. With my current situation, even if I were to observe the Great Cloud Wall for a thousand years, I still might not be able to enter the Heavenly Emperor Realm. Rather than continuing to stay here, I might as well go up to the nine heavens to take a look."

"Tang Huan, why didn't you ask me?" Mo Hanyun's beautiful eyes widened as she stared at Tang Huan fiercely, as if she wanted to bite that smiling face of his.

"You?"

Tang Huan slightly raised her eyebrows, as if she had just noticed Mo Wen Yun's words, and a faint smile rose on her lips, "You have no affinity with the 'Great Cloud Wall', even if you stay and observe it for several hundred years, you still wouldn't be able to help me become a lower Sky Emperor. Rather than wasting your time here, you might as well go back to the Ninth Heaven sooner."

"You, you ..."

Mo Congyun frowned, and his lungs almost burst.

Tang Huan did not care about Mo Hanyun's anger, her gaze had already shifted away from her, and she said to Mo Yunxi, "Elder Mo, since you do not need to continue observing the Great Wisdom Wall, then we will take our leave. I hope that elder can prepare more Blood God Pellets for Han Hanyun to use on the road."

"Of course, of course."

Mo Yunxi returned to his senses, smiled bitterly and nodded, "Brother Han Yun, Tang Huan, how many 'Blood God Pills' do you guys still need to go up to the next nine days?"

Tang Huan laughed: "2000 pills, I think that should be enough."

"How much?"

Mo Yunxi's two small eyes nearly popped out from their sockets, "Two ..." Two thousand? Even if all six of us were to board the 'Voidwave Divine Ark', we wouldn't need that much. "

Tang Huan said in a slow and unhurried manner, "We are preparing to look for the 'Void Essence Dao Flower' on the road, and also plan to kill a few Emperor Stage huge beasts while we are at it. We will have to stay here for a relatively long time."

Seeing Tang Huan being so serious with her nonsense, Mo Wuyun could only roll her eyes.

Naturally, she couldn't tell Mo Yunxi that her "Voidwave Divine Ark" wasn't only carrying these six people, but also thirty-six people.

"I only have a total of two thousand Blood God Pills."

Mo Yunxi clenched his teeth with a pained look on his face, "However, who told you that you and I are friends at first sight. Alright, I'll give all of you these 'Blood God Pills' for you to use on your journey. However, you must consider your plans carefully, don't stay in the void for too long, and make it so that you don't even have enough Blood God's Pills. "

"Thank you for your concern, Elder. We will definitely pay attention."

"..."

Another two hours later, Mo Yunxi sent Tang Huan, Mo Hanyun and the rest out of the Great Wisdom City. After that, under Mo Yun's helpless and frustrated gaze, a "Void Divine Ark" transformed into a streak of fiery red light that shot into the sky, and instantly disappeared from her line of sight.

This scene was simultaneously captured by the countless cultivators in the city.

Although Tang Huan did not stay in the Non-Phase Sky Realm for long, and only for a short five years, in these short five years, the shock brought about by Tang Huan's stay in the Non-Phase Sky Realm, especially the people of the Great Wisdom City, was indescribable.

A Peak Sky King who came from the lower thirty-six days, ranked at the top of the King Rankings as soon as he entered the Heaven Realm. After that, he entered the Great Wisdom City and observed the "Great Cloud Wall" for five years, yet he stepped into the realm of the lower Sky Emperors in one go ... This was definitely an unprecedented feat.

In a short period of time, the name Tang Huan was deeply engraved in the souls of everyone present.

Even if countless more years passed, they would never be erased.

Chapter 2059

"Whoosh!"

On the inside of Wu Xiang Tian's wide entrance platform, a small fiery red boat passed through the rapidly fluctuating circular arched passageway, and quickly landed. In the narrow space within the boat, two figures were seated cross-legged facing each other, their bent knees already touching each other. They were naturally Tang Huan and Mo Hanyun.

The nine spirits, Xiao Budian and Ling Tian had already entered the dwelling space, while Hua Tian Chi remained within the nine spirits' "Life and Death Dao Lotus."

"Why stop here?"

Mo Youyun sized up the surroundings of the divine vessel as she asked with some doubt.

At this moment, behind the divine vessel, there was a glowing spatial barrier. And in front of it was an endless void; it could be said to be black and white.

"I want to see if any prey has followed us." Tang Huan smiled, but his tone did not reveal the slightest hint of a smile.

"What do you mean, prey?"

Hearing that, Mo Hanyun could not help but be stunned, her eyebrows slightly knitted, but she instantly seemed to have thought of something, and said, "You're saying .... "Huh?" Before she finished speaking, Mo Hanyun could not help but exclaim out loud, her gaze sweeping past Tang Huan and looking at the dark void.

"What's wrong?"

Tang Huan turned her head in surprise.

In the blink of an eye, it had already expanded several dozen times. Judging from its appearance, it was obviously a "Void Divine Boat", but its size and build was many times bigger than Mo Wuyun's huge ship.

After a while, the "Voidwave Divine Ark" landed on the Non-Phase Heaven stage. The distance between it and Mo Wuyun's small boat was less than a thousand meters.

After which, several silhouettes flickered and appeared from within the divine vessel. There were over a hundred of them.

"It's actually them?"

As his gaze swept across the crowd, Tang Huan couldn't help but laugh, "We met them before, and we met them before we left, it really is fated!"

Amongst the group of cultivators that just came out, Tang Huan found that there were many who were familiar with each other. One of the faces was especially familiar; A few years ago, in the void space, after the huge battle with the Emperor Stage Dark Void Beast, Tang Huan and Mo Hanyun had met this group of people.

At that time, Chu Mian and the others wanted to snatch the "Void Essence Dao Flower", but in the end, they were scared witless by Tang Huan and ran away.

"I think it's the enemy's fault."

Mo Wuyun furrowed her brows, and gave a cold snort.

She had always been dissatisfied with Tang Huan for letting Chu Ting and the others go so easily. No matter what, she had to rob all of them.

Tang Huan was speechless, he naturally knew Mo Wuyun's thoughts.

Back then, they only scared away Chu Ting and the others and did not punish them. Naturally, they had their own considerations.

Firstly, because the height that Tang Huan stood was already different from ordinary Heavenly King Stage experts. Although he was still a Heavenly King, in his eyes, Chu Chou and the others who were also Heavenly Kings were no different from ants. With his strength, there was no need to be too fussy over a bunch of ants.

Secondly, Tang Huan planned to enter the Non-Phase Heaven to observe and study the "Great Wisdom Cloud Stone", but she did not know how long she would stay for. He could kill the several tens of people outside, but with regards to the other Sky Kings inside the Void Divine Ark, Tang Huan was not completely confident that she could take them all out in one fell swoop.

Once one of them managed to escape, the news would spread to Wu Xiang Tian, which would likely affect Tang Huan's future activities and cause unnecessary interference, and affect his search for an opportunity to become a Heavenly Emperor.

Now, that Tang Huan had successfully stepped into the lower Sky Emperor realm, if the group of people outside still could not recognize what was good for them, Tang Huan naturally would not mind causing all of them to turn into ashes on the platform.

When Tang Huan and Mo Hanyun discovered Chu Ting and the others, they had already noticed the small fiery boat.

"Whoosh!" "Woosh ~ ~ ~"

The moment their figures appeared, everyone turned into streaks of light and started to flash rapidly.

However, in a split-second, Chu Ting and the other hundred or so cultivators all appeared around the small fiery boat. However, they all had expressions of hesitation and indecision on their faces. Obviously, they weren't too sure if the owner of this small boat was the woman they had met in the void.

After all, there couldn't be only one Mo Family Disciples from the Phecda Core Faction.

"Everyone, I hope you've been well."

Right at this moment, the surface of the fiery red boat suddenly rippled, and immediately afterwards, a soft laugh sounded out, followed by two figures flashing out of the Divine Ark at almost the same time. A man and a woman, both looked very young.

They were naturally Tang Huan and Mo Wen Yun.

"It's really you two."

"Originally, I thought that we would never meet each other again after parting in the void. I never thought that you two would actually come to the Non-Phase Heaven and even meet us here. It seems that even the heavens do not want to let you two off."

"From what you're saying, you want to calculate the old scores from that day?"

Hearing that, Tang Huan laughed out loud: "That day, you dozens of people fled in panic. I wonder what kind of strength you all have, what dozens of people do you have now?"

As they spoke, Tang Huan's gaze swept across Chu Ting and the others once again. Their strength should have grown by quite a bit compared to when they were in the Void World. Of course, this progress was only because of themselves. To Tang Huan, the difference between him and this group of Heavenly Kings was even larger.

"Of course not."

Almost at the same time that his voice fell, another large group of figures flashed and appeared from within the Void Divine Ark behind him. There were actually more than two hundred people there, and judging from their auras, the people who appeared afterwards, were all Heavenly Kings.

Currently, the number of Heavenly Kings on the platform, added up, was already close to four hundred.

"There are actually this many?"

Seeing this scene, Tang Huan and Mo Wuyun could not help but be a little surprised.

Chu Ting sneered, then turned and clasped her hands at the two hundred Heavenly Kings that just came out, and shouted loudly: "Thank you everyone for your help."

"Sure, sure."

A deep voice suddenly sounded.

Soon after, a slender figure stepped out from the crowd. It was a middle-aged man wearing a green robe, with a hooked nose, sunken eyes, and thin cheeks, giving people a sinister feeling. However, the aura radiating from his body was exceptionally tyrannical.

Compared to her, Chu Ting and the other peak level Heavenly Kings were still much weaker.

"So he's actually a Half Martial Emperor." Tang Huan couldn't help but laugh as her gaze fell on the green robed middle aged man.

Chapter 2060

"To be able to see through my cultivation, my eyesight is quite good."

The green robed middle aged man's pupils contracted as his eyes quickly swept across Tang Huan's body. He spoke with some surprise, "However, since you know that I'm a half step Sky Emperor and yet you still dare to remain so calm in front of me, you must have some guts."

As he spoke till here, without waiting for Tang Huan's response, his gaze once again turned to Mo Wuyun who was next to Tang Huan, and said while beaming: "Miss Wuyun, long time no see."

"Pan Yi!"

With only a flick of a finger, Mo Wuyun's expression already became gloomy and she almost squeezed out two characters from her teeth.

"You Yun, you two know each other?" Tang Huan said in surprise.

"This is the Pan Clan Disciples of the 'Pan Gu Heaven Sect'. I've met him before." Mo Wen said fiercely.

"So that's how it is."

Tang Huan suddenly realized that in the last nine days, the relationship between the "Phecda Core Sect" and the "Pangu Sky Sect" was very bad. It could even be said that they were like fire and water. If the disciples of these two great sects were to encounter such a situation, a few casual words or words from them would very likely lead to a very fierce battle.

Instantly, Tang Huan laughed again, and said, "For a disciple of the Pangu Heaven Sect to actually come here to stand up for others, is a little strange."

"People of the Pangu Heaven Sect have always been shameless. I wouldn't be surprised even if I heard one day that they spent thirty-six days as thugs for nothing." As he finished speaking, Mo Hanyun cast a sidelong glance at Pan Yi and deliberately sneered at him, his expression full of disdain.

"Little girl, control your own mouth!"

An angry roar that sounded like a clap of thunder suddenly rang out. The one who spoke was an abnormally tall and sturdy man behind Pan Yi, and his expression was currently very ugly. Not only him, even the surrounding Heavenly Kings who had just come out all had gloomy expressions. As they looked at Mo Wuyun, their gazes were filled with ill intent.

"Hehe, don't scare her like that."

Pan Yi smiled and waved his hand towards the muscular man, then smiled and said, "When we were hunting the Dark Void Beast in the void space, we encountered a Highest Emperor level giant beast. Although we successfully escaped, we caused damage to the Divine Void Boat, making it difficult for us to sail on it.

"To us, this is a great favor to save lives."

His voice paused and the smile on Pan Yi's face slowly faded, "Now, since we've met and helped Elder Chu and the others deal with these troubles, it can be considered as repaying the favor of saving their lives. "Don't blame us. If you want to blame something, blame it. Why did you want to become the enemies of Elder Chu and the others?"

"Thank you, Elder Pan."

Hearing Pan Yi's words, the smile on Chu Ling's face became even wider and she clasped her hands in thanks.

The surrounding Heavenly Kings also had smiles on their faces, their eyes filled with pride. Indeed, they weren't a match for the two people in front of them. The black clothed man's methods in particular were truly frightening. However, just because they couldn't do it didn't mean that the others couldn't either.

Their team was formed by the Heavenly Kings of the other sects, but Pan Yi and the others all came from the Pangu Sect. Although they were all Heavenly Kings, the strength of Pan Yi's group was not something that their combined team could compare with.

Especially that Pan Yi. He was a half-step Heavenly Emperor, and his strength was extremely frightening.

They had seen with their own eyes how Pan Yi, with his own strength, had killed a lower level Emperor-level enormous beast, the Dark Void Beast. If it weren't for the Highest Emperor level huge beast they had encountered being too powerful and having damaged their divine boat, it would have been impossible for them, the Non-Phase Sky Kings, to have any interaction with Pan Yi and the others.

Now, with the help of Pan Yi and the others, the other two would undoubtedly die. They would finally be able to release the anger they had felt when they were frightened into fleeing in panic in the void.

"Pan Yi, do you really think we'll die?" Mo Wen Yun said coldly.

"Isn't it?"

Pan Yi said with a face full of smiles, "If you were still within the Godly Void Boat, with its speed, it would be truly possible for it to let you escape. But unfortunately, you guys ran out on your own. If this isn't suicidal, then what is? Since you are tired of living, how can I not help you? "Everyone, do you agree?"

"Yes sir!"

"Yes!" Chu Ting and the other Heavenly Kings responded.

When Pan Yi saw this, he looked at Mo Wuyun with great interest.

But, Mo Hanyun was not afraid at all. Instead, he looked at Tang Huan, and a strange expression formed on his lips: "Tang Huan, he said we are courting death, what do you think?"

"So your name is Tang Huan!"

Chu Lian laughed and mocked, "This name isn't bad. Unfortunately, you will become a dead man soon."

Hearing this, the expression on Mo Wuyun's face became even weirder. If it was the Heaven Kings of Heaven Realm or Heaven Realm, they would have been so scared by this name that their faces would have turned pale. It was a pity that Chu Min and the rest had been in the void all these years. Over there, they couldn't sense any changes happening to the leaderboards.

Since he did not know of the changes on the King Board, he naturally did not know what the name meant.

"I really wonder where all of you got your confidence from?"

But Tang Huan acted as if she did not see Chu Ling, and her gaze landed on Pan Yi's body, laughing indifferently. At the same time, she took a step forward, and appeared in front of Pan Yi.

The smile on Pan Yi's face had not yet disappeared, when five fingers of Tang Huan's right hand, under his incomparably astonished gaze, landed on his neck. Pan Yi didn't have the time to do anything. He didn't even have the time to let out a grunt as he watched his neck being tightly gripped.

"..."

Upon seeing this scene, the smiles on the faces of several hundred Heavenly Kings froze. Shock filled their eyes, and all noise came to an abrupt stop.

In that instant, everyone was silent. The entrance to the Non-Phase Sky was enveloped in a deathly silence.

Pan Yi from the Pan Gu sect was their greatest reliance.

But Pan Yi was a half-step Celestial Emperor, yet he did not even have the time to raise his finger. Was he easily controlled by that Tang Huan fellow? He was ranked in the top 20, but in front of Tang Huan, it was like paper. What exactly was going on?

Was this an illusion?

Everyone was dumbstruck, finding it hard to believe their own eyes. The scene that happened just now had completely reversed their world. They had originally thought that with the half-step Sky Emperor as their base, the two young men and women opposite them were no different from lambs waiting to be slaughtered.

However, after a short period of time, it seemed like this half-step Heavenly Emperor was just a lamb waiting to be slaughtered.

What was wrong with this world?

Not to mention that they were unable to understand the current situation, even Pan Yi himself found it difficult to accept the fact that he had been captured without even being able to use a single move.
