

W. Master 2071

Chapter 2071 - Big Dipper Tianshu

Along the way, they encountered hundreds of enormous beasts of the Dark Void, and among them were some dozen or so Emperor level huge beasts.

Tang Huan wasn't very interested in hunting the Dark Void Behemoth. Because when she encountered those Emperor Stage huge beasts, Mo Wuyun had to rely on the speed of the void divine ark to dodge them. Because of this, Tang Huan had no choice but to temporarily stop absorbing the energy of the void darkness so that the divine ark's speed could reach its peak.

Because of this, they were always safe.

"We're here."

Inside the Primal Chaos Origin Crystal, Tang Huan suddenly noticed movement from outside. It was Mo Wen Yun's voice.

Tang Huan woke up from her stupor and separated herself from the mental statue. She felt deeply moved, after spending more than ten years, she was finally able to go from the 36th day to the 9th day.

Tang Huan was satisfied with her speed.

If it was an ordinary Voidwave Divine Ark, the time it would take to travel on it would be at least ten times more. Moreover, who knows how many dangers it would encounter along the way. From ancient times till now, countless cultivators had lost their lives on the road from the Lower Heaven Realm to the Middle Heaven Realm, from the Middle Heaven Realm to the Lower Heaven Realm.

For Tang Huan to safely arrive in the ninth heaven in less than twenty years, she had already surpassed many cultivators.

With that thought, Tang Huan slightly moved her body and left the Primal Chaos Origin Crystal, arriving in the narrow space inside of the divine ark. Seemingly at the moment she appeared, Tang Huan touched upon Mo Wuyun's incomparably resentful gaze. In these seven years, it was obvious that Mo Wuyun was even more exhausted, and an unknown amount of resentment had accumulated in his heart.

Tang Huan laughed, and looked towards the outside of the divine boat in the blink of an eye.

In a blink of an eye, a dazzling expanse of white filled Tang Huan's field of vision, without end, without end. That was the luster released from the spatial barrier.

"This is the 'Big Dipper'?" Tang Huan asked with a smile.

"That's right." Mo Wuyun snorted in annoyance.

"Alright, are we there yet?"

Tang Huan did not mind Mo Wuyun's attitude, her face still full of smiles.

He had originally wanted to go straight to the "Flying Star Heaven" in the nine heavens, and only there would he want something. However, after acquiring Mo Yunfeng's and Mo Yunfeng's

memories, Tang Huan's thoughts changed. The Meteor Shower was the westernmost part of the Upper Nine Days, while the Big Dipper was the easternmost part of the Upper Nine Days.

Of these, eighteen days would be used to travel straight to the Soaring Star Sky, which would take at least twice as long.

It would be better to enter the Big Dipper Realm first, and then go through the ancient Teleportation Circle of the Heaven Realm. It was also because of this reason that no matter if it was from the Heaven Realm above or from the Heaven Realm above, they would always go to the Heaven Realm above all.

The strongest sect in the Beitung Heaven was called the "Beitung Immortal School".

Their strength was in no way inferior to Gou Litian's Phoenixcloud Pill Sect, Longevity Sky's Black Yellow Dao Sect, and Pan Baitian's Pangu Heaven Sect. The Beitung Immortal Sect, the Phecda Core Sect, the Black Yellow Dao Sect, and the Pangu Heaven Sect, as well as the other five super sects of the Heaven Realm, were all super sects that had existed since the appearance of the Heaven Realm.

In fact, some of the Heaven Realms were named after this sect, such as the Beitung Immortal Sect and the Beitung Heaven Sect.

These sects had been transported for countless years. Their foundation was so deep that it had already reached an unimaginable level. In the last nine days, other than these nine super great sects, no other sect dared to challenge the prestige of these nine great sects.

Although these super sects did not unify their own Heaven Realms like Tang Huan did in the Scarlet Radiance Celestial, there was not much of a difference in reality.

In the various Heaven Realms, the Beitung Immortal Sect and other super sects were always high and mighty. The rest of the sects were basically their subsidiary sects.

Unless some sect suddenly had an Empyrean level super powerhouse appear, then that sect would have the ability to stand on equal footing with those large sects. However, this kind of sect was like a flower in the pan for a short period of time. It would soon decline in strength, and the nine great sects would never lose in strength.

"Isn't that the entrance?"

With a flat mouth, the ethereal ark suddenly sank.

After a moment, an incomparably majestic palace entered Tang Huan's line of sight. This hall was backed by the space barrier of the Big Dipper. The entrance to the palace was actually almost as tall as Tang Huan's "Primal Chaos Origin Crystal", and from time to time, it would come in and out of the hall with Emptiness Realm Experts, who were of various colors.

The entrance to the Heaven Realm was indeed very different from the one in the last 18 days.

"Hanyun, let's go in as well."

Tang Huan could not help but feel a surge of emotions, a tinge of anticipation flashed in her eyes.

Mo Hanyun let out a light snort, and as a response to Tang Huan, he instantly controlled the divine ark and passed through the entrance of the Pang Shuang Palace. A moment later, he landed in the

middle of a large pile of Emptiness Realm Experts. In this region, there were quite a few people that were similar in size to this divine boat.

This sort of divine vessel usually came from nine great sects.

"Hu!"

The fiery red divine boat slightly fluctuated, Tang Huan and Mo Wuyun followed suit, and soon after, they heard quite a few noisy sounds.

Tang Huan was not surprised at all by this.

Although the entrance to the Heaven Realm looked like a palace, it was actually a city.

The city built here was naturally not too big, and could not be compared to the super large cities in the Heaven Realm, but it was also rather lively. Just like this entrance of the Northern Dipper Heaven, which was also known as the Dubhe City, was one of the nine great entrances to the Heaven Realm.

"Let's go, we'll go take a look at Dubhe City first."

All sorts of hawking sounds entered Tang Huan's ears. Tang Huan saw that Mo Wen Yun had kept the Godly Void Boat, and was extremely interested in the source of the sound.

Seeing this, Mo Wuyun had no choice but to follow.

Around them, quite a few cultivators had just emerged from the divine vessel and were advancing in the same direction. These people all had powerful auras, with the weakest being an Inferior Heavenly King.

After walking out of the resting area of the Godly Void Boat, he saw many streets. On both sides of the streets, there were rows and rows of exquisite buildings.

Most of these buildings were shops of all kinds.

Even though Tianshu City was a "city", it was actually a large trading market.

In the vast and endless void near the Heaven Realm, there were not only the void dao flowers and the enormous beast, but also all kinds of immortal world fragments. There were many rare treasures in those space fragments. The experts of the Upper Heaven Realm would occasionally drive their Divine Boats to search for and acquire other things. If they did not need them, they would take them out to trade in the city that was the entrance to the Heaven Realm like Dubhe City.

It was also because of this that for countless years, the cities at the entrances of the Heaven Realm had never weakened.

After a while, Tang Huan and Mo Wuyun entered a street, and all sorts of powerful Qi appeared clearly in Tang Huan's senses.

Chapter 2072 - Mystic Moon Crystal Soul

All of these auras originated from the items sold in the shops, and many of them emanated intense Immortal Spirit auras.

As for the cultivators on the streets and in and out of the shops, their bodies were also exuding either strong or weak auras. Judging from the Qi, the number of Heavenly Kings in Dubhe City had already reached an extremely shocking level.

Of course, not all the people that appeared in Dubhe City were Heavenly King Stage powerhouses. There were also a small number of Heavenly Emperors and many high grade Heavenly Lords. The role of the marquis here was basically to sell items inside the shop. They would not ride the boat into the void and darkness.

"You should be more familiar with this place. Is there any good place to recommend it?" Tang Huan looked at Mo Wuyun in the blink of an eye and asked while smiling.

"That depends on what you want." Mo Wuyun rolled her eyes.

"I want ..."

Tang Huan muttered to himself.

The two of them subconsciously looked over, and saw that there were countless cultivators rushing over from the shops in front of them, and they were excitedly heading in the same direction. In the distance, there was a crowd gathering, and the noise moved the sky, making it even more lively.

"Divine Moon Crystal Soul?"

After a while, Tang Huan agilely caught onto the few most frequent notes from the clamor ahead, and a look of surprise and joy appeared in her eyes.

He had never thought that a "Divine Moon Crystal Soul" would appear in his life.

Since it was the "Divine Moon Crystal", it naturally had to do with the "Divine Moon".

At that time, Tang Huan's cultivation was extremely low, and was just a small heaven warrior. While she was training in the Ghost Snake Valley, a green moon suddenly appeared, and sucking appeared in the water of the Dark Nether Lake.

However, the appearance of Shen Yue that time had given Tang Huan a huge harvest, and even greatly raised her cultivation.

The Tang Huan of the past, like most cultivators of the lower thirty-six days, basically did not know anything about the various secrets of the Heaven Realm. She did not know how the divine moon was formed or how it appeared, nor did she know why it needed a large amount of water from the sucking. Because she had absorbed Pan Ji's memory, he knew more than most people that Shen Yue was an extremely magical and mysterious secret realm, and few people in the world could enter it.

However, things were different now. Countless years had passed since Pan Ji had first appeared. The secrets of those years were no longer a secret for some powerful experts.

After searching through the memories of the many strong warriors, Tang Huan had a general idea of what was going on with Shen Yue.

Countless years ago, the Celestial Realm collapsed, and the largest fragments became nine days old, eighteen days old, and thirty-six days old. The smaller fragments gradually formed their own space, and most of them were hidden in the surroundings of the Celestial Realm. The reason it was like this was because the Heaven Realm of the upper nine heavens was the most powerful. It was extremely attractive to those small Immortal Realm fragments.

However, there was also a small fragment that was different from the others.

Inside those fragments was a type of celestial treasure called the "Divine Moon Crystal Soul". This sort of thing possessed an incomparable amount of vitality. Furthermore, it had an extremely strong intelligence. After the Celestial Realm collapsed, the fragment containing the "Divine Moon Crystal" wouldn't stay in the surrounding nine heavens but would instead wander around.

As time passed, the spirit and life force of the "Divine Moon Crystal" would become stronger and stronger.

However, the space carrying capacity of those fragments was limited. When the "Divine Moon Crystal Balls" reached a certain level of strength, if a part of the power wasn't released, the entire space would collapse. Therefore, whenever such a time came, the "Divine Moon Crystal" would sneak into the Heaven Realm.

The reason for that was because it needed to absorb a huge amount of water after expelling its power.

"Within the Five Elements, water can create trees, and the" Monarch Moon Crystal Soul "can use water to replenish the life force it consumes, allowing the body to quickly pass through the period of weakness left after the energy has been vented. The power of the Divine Moon Crystal Soul had a miraculous effect, turning ordinary flowers, plants, and stones into immortal herbs and dao stones.

When it was weak, it was also the most suitable time to enter the dimension and snatch the "Divine Moon Crystal Soul."

However, such an opportunity was extremely rare and hard to come by. Ordinary cultivators, even if they encountered the phenomenon of the divine moon in the sky, wouldn't be able to enter the space in which the "Divine Moon Crystal" was stored. Even if they were lucky enough to get in, they would only be able to summon the "Divine Moon Crystal".

Furthermore, the time was very short and fleeting.

As such, at the very least, they had to be at the peak of the Upper Sky Realm, in order to have that tiny chance of success.

This also meant that in the next thirty-six days, even if someone encountered the strange phenomenon of 'the divine moon in the sky', no one would be able to seize the 'divine moon crystal soul'. This was because in the lower Heaven Realms, Heavenly Kings were already extremely rare, and peak Heavenly King Stage experts were naturally even rarer.

Because of this, the lower Heaven Realm was the "Divine Moon Crystal" 's most favorite place.

The ZhongTian Realm was second, only when they didn't have time to rush to the Lower Heaven Realm, would they sneak into the nearby ZhongTian Realm, and release their excess energy. As for the Upper Heaven Realm, it was impossible to enter the "Divine Moon Crystal". The reason was simple, there were too many Rankers in the Upper Heaven Realm.

This caused the "Divine Moon Crystal Soul" to be extremely rare. Every time a "Divine Moon Crystal Soul" appeared in the world, it would cause a huge commotion.

The appearance of the "Divine Moon Crystal Soul" upon arriving at the Cardinal City in the Big Dipper Realm made one feel extremely surprised and amazed. This truly was a bit coincidental and unwritten.

"That's right, it's the 'Divine Moon Crystal Soul'!"

Within Mo Hanyun's beautiful eyes, there was also an expression of surprise. It was obvious that she, like Tang Huan, had also caught a hold of a few key runes. It wasn't just them. The other cultivators around them also reflexively increased their speed after a brief moment of surprise.

For a moment, exclamations and shouts arose from the surroundings, and the entire Dubhe City seemed to be stirred up.

"Let's go. Let's go take a look as well."

Mo Youyun was somewhat impatient. She immediately followed the flow of people and swiftly moved forward.

Tang Huan couldn't help but laugh and hasten her pace.

Not long after, Tang Huan and Mo Wuyun arrived at a beautiful pavilion, and outside the pavilion, a large amount of figures were gathered. Most of them were Heavenly Kings, and some of them were high-grade Heavenly Lords. There were even a few Heavenly Emperor Stage powerhouses mixed in.

Chapter 2073 Are you interested?

"..."

"I really did not expect to encounter the Divine Moon Crystal Soul today."

"I wonder who is so capable as to actually obtain the 'Divine Moon Crystal Soul'."

"This' Divine Moon Crystal Soul 'will definitely sell for a sky-high price!"

"..."

"This level of treasure, just with Heavenly Jewels alone, is definitely not enough. No matter how much there is, it is useless, as we will definitely have to use other precious treasures to exchange for it."

"We don't have much hope. We can take a look at the 'Divine Moon Crystal Soul' and feel its aura. Let's broaden our horizons and broaden our horizons."

"..."

The crowd broke out into a flurry of discussion, excitement evident on their faces.

At the entrance of the pavilion stood two burly looking muscular men. Judging from the Qi that was leaking out from their bodies, they were actually at the peak of the Upper Sky Realm.

With them blocking the way, everyone stopped outside the pavilion.

This also caused the number of people gathering in front of the pavilion to increase. Not long later, it became a sea of people and the noise shook the heavens. It was likely that all the cultivators in Dubhe City had gathered over.

"This' Dubhe Pavilion 'is the Beitang Immortal Sect's auction house."

Mo Wuyun pointed at the pavilion and softly introduced, "Looks like the 'Divine Moon Crystal Soul' will be auctioned off here. I wonder who will be able to obtain it."

As she spoke, her expression was one of envy and regret.

This level of treasure was definitely not something she could obtain. Even if she had not become Tang Huan's puppet, there was no treasure that could be exchanged for the "Divine Moon Crystal Soul."

Moreover, with her current strength, even if she obtained the "Divine Moon Crystal", she wouldn't be able to protect it. In the Heaven Realm and the Lower Heaven Realm, countless sects would need to estimate the Phecda Core Sect. But in these nine days, those super sect experts wouldn't care if you were a cultivator of the Phecda Core Sect or not.

When they stole the treasures, they didn't show the slightest mercy.

Tang Huan nodded her head, his eyes squinting as she looked at the pavilion. The Perception Ability had been raised to its limit, and even the God Forging Crystal had been activated, as his mind quietly covered the entire pavilion.

After a moment, Tang Huan's heart could not help but tremble slightly.

Inside the pagoda, powerful and weak auras crisscrossed one another, but there were only 12 auras that belonged to cultivators ... No, it should be thirteen, one of the auras was being restrained extremely well, and even with Tang Huan's Perception Ability, he could only faintly sense his existence.

He should be a peak-level Heavenly Emperor.

It was likely that no one would be able to detect him, not even the Heavenly Emperors. Other than him, among the twelve people in the pavilion, there were three Inferior Heavenly Emperors, four Heavenly Kings, and five high-grade Heavenly Marquis. At this moment, besides the Sky King and Sky Marquis, all four Sky Emperors were on the second floor.

Those four people seemed to be discussing something.

Tang Huan was unable to hear what they were saying. If Tang Huan were to forcefully investigate, she would definitely be discovered. Of course, it was within reason that he would be able to protect herself like this. Otherwise, there wouldn't be any secrets within Dubhe City, which had numerous experts.

After sensing it for a while, Tang Huan's mind retreated like the tides.

Earlier, he did not discover any suspected treasures of the "Divine Moon Crystal Soul". This was not surprising. It was likely that his aura was being isolated by something.

"What do you think the price of the 'Divine Moon Crystal Soul' will be?" Tang Huan suddenly laughed.

"I can't guess, but no matter how high the price is, it's normal." Mo Wuyun laughed, then asked in surprise: "Tang Huan, you aren't interested in it are you?"

"Everyone here is interested in it."

Tang Huan laughed and said, "I am also interested in it, what is there to be surprised about? I have to think about it carefully. If I were to participate in the auction, what items would I be able to take out to exchange for the 'Divine Moon Crystal Soul'?"

If he was able to completely refine a "Divine Moon Crystal", even he himself would be able to advance to a God Emperor.

If even he was like this, then it would be of even greater use to the other Heavenly Kings and Heavenly Emperors. And because of this, it was a fatal temptation to all the strong people here. However, those Heavenly Kings would probably not participate. After all, even if they managed to obtain the Divine Moon Crystal's Soul, they would not be able to protect it.

Thus, the ones who were truly competitive should be the Heavenly Emperors.

However, he did not know how the Heavenly Sacred Assembly would proceed. If it was immediately held, it would be easy, but if it was delayed a little, the entire Northern Dipper Heaven, or even the other Heavenly Emperors eight days would rush over. After all, the temptation of the "Divine Moon Crystal" was too great.

A Heavenly Emperor Stage powerhouse couldn't resist it at all.

However, this was somewhat strange. The person who obtained the "Divine Moon Crystal Soul" was actually willing to take it out to auction? Even if he couldn't use it, he could add a tyrannical Heavenly Emperor to his sect. Or could it be that what he wanted to exchange the "Divine Moon Crystal Soul" for was more important to him?

"You don't seem to have any valuable treasures on you that can be exchanged, right?"

Mo Hanyun looked askance at Tang Huan, and snorted. Tang Huan's treasures were indeed quite a few. For example, the "Primal Chaos Origin Crystal" had a value that was absolutely not inferior to the "Divine Moon Crystal". After all, the "Divine Moon Crystal" was a one-time consumable item, while the "Primal Chaos Origin Crystal" could always exist.

To those who were able to refine the Chaotic Force, the "Chaos Source Crystal" could be called a godly item.

It was a pity that this object had already fused with his mind, so it was impossible for him to use it to exchange for the "crystal body of the Divine Moon." Moreover, it was not worth it to exchange for it.

Furthermore, Tang Huan's "Pure Yang Divine Sword" was also a supreme treasure. He would not be surprised in the slightest that it would one day evolve into a divine grade dao tool. However, it was also impossible for Tang Huan to exchange the "Pure Yang Divine Sword" for this "Divine Moon Crystal Soul".

All of these were things that she knew. Tang Huan might have other treasures on him, but they might not be comparable to the "Divine Moon Crystal".

Thinking about it, Mo Wuyun felt that Tang Huan's chance of obtaining this "Divine Moon Crystal Soul" was rather slim.

"Let's wait and see."

Tang Huan laughed and said. He thought about it, the treasures that she was suitable to take out, and equal to the "Divine Moon Crystal Soul", was indeed not on him.

Since that was the case, he could only react accordingly. He had no choice but to give up.

In a second, Tang Huan stopped thinking about it.

As time passed, more and more figures gathered in front of the pavilion. About a quarter of an hour later, a thin figure walked out from the pavilion. He wore a blue robe and looked to be around sixty years old. The aura that faintly seeped out from his body was extremely tyrannical.

This azure-robed elder was one of the three Lesser Celestial Emperors.

Chapter 2074 - Leaves Like Flowers

Seeing the old man appear, the two burly men at the door slightly bowed and moved to the side. Their expressions were filled with respect.

"He is the Heavenly Pivot Pavilion's Pavilion Master, Mei Xiuya."

Mo Hanyun's lips moved slightly, and directly sent the voice into Tang Huan's ears. He paused for a bit, and then added, "He's also an elder of the Beitang Immortal Sect."

Tang Huan slightly nodded her head, and almost at the same time Mo Wuyun finished speaking, a slightly anxious voice sounded out from the crowd in the pavilion: "Pavilion Master Mei, there's no need to speak anymore. Can you tell us directly, is the 'Monarch Moon Crystal' going to be auctioned, or is it being sold in some other way?"

The one who spoke was a white-clothed man with delicate features. He looked like a 16-17 year old youth, but the aura that emanated from his body wasn't weak at all. There were several Celestial Emperors mixed in the crowd, and this young man in white was one of them.

"That's right, that's right, Pavilion Master Mei, everyone says that the 'Divine Moon Crystal Soul' has appeared in your Heavenly Coffin Pavilion, but no one has ever seen it before. Why don't you take it out first for everyone to see."

"Pavilion Master Mei, does Dubhe Pavilion really have a 'Divine Moon Crystal Soul'? It can't be that we were fooled, right? "

"..."

Many cultivators began to cheer.

"Calm down, everyone."

The old man in cyan clothes called Mei Xiuya waved his hand, signaling everyone to quiet down. His gaze shifted to the young man in white, who obviously knew who he was, and said with a smile, "Brother Zhang, there's no need to worry. This old man will guarantee with the prestige of Dubhe Pavilion that there will definitely be a 'Divine Moon Crystal Soul'! "

At this point, Mei Xiuya changed the topic, "However, all of you should know that the 'Divine Moon Crystal Soul' is a rare treasure that is hard to come by even after thousands of years. Tianshu Pavilion will not hold an auction for it, and furthermore, we are not preparing to make an auction for it. "

"No auction?"

After hearing what Mei Xiuya said, the cultivators in front of the pavilion could not help but be stunned. In an instant, the crowd burst into an uproar.

"Pavilion Master Mei, are you joking with us?"

"If we don't auction it, why would your Dubhe Pavilion release the news about the 'Divine Moon Crystal Soul'?"

"It can't be that there aren't any."

"..."

Many cultivators began to clamor, and many people revealed expressions of doubt and even displeasure.

"Everyone! Everyone!"

Upon seeing this, Mei Xiu Ya immediately raised her voice, "Although the 'Monarch Moon Crystal Soul' is not auctioned, everyone has a chance to obtain it, whether it is the Heavenly King or the Heavenly Emperor, as long as one thing is possible." At the end, her eyebrows slightly raised and a mysterious smile appeared on her face.

There was a moment of silence in front of the loft. Everyone could not help but look at each other.

"Pavilion Master Mei, I'm afraid it won't be easy to do what you said right?" The youth in white could not help but frown as he spoke in a deep voice.

"Of course."

"If it was that easy, there would be no need to take out the 'Divine Moon Crystal Soul'. Once anyone has completed that matter, the 'Divine Moon Crystal Soul' will be the reward for it. "

Hearing this, Tang Huan, along with the other cultivators around, couldn't help but secretly nod their heads.

Even such a rare treasure as the "Divine Moon Crystal Soul" was taken out. The matter that the Dubhe Pavilion wanted others to do must be extremely difficult.

Otherwise, it would not have been possible for Dubhe Pavilion to have put in so much effort.

"Pavilion Master Plum, tell us what exactly is going on."

Another urgent voice urged.

This question could be said to be out of everyone's mind. In an instant, almost all of the cultivators in front of the pavilion turned to look at Mei Xiuya.

"Everyone, this 'Spirit Moon Crystal Soul' was obtained recently by an elder of our Beitang Immortal Sect." Mei Xiu Ya's eyes swept across the crowd and smiled, "In the process of acquiring the 'Divine Moon Crystal's Soul', the elder of my Northern Dipper Immortal Sect encountered a strong resistance from the 'Divine Moon Crystal's Soul.' Although he is safe and sound, he brought a treasure with him, which caused him to suffer heavy injuries. That treasure is extremely important to the elders. "

"Many of our Beitang Immortal Sect's cultivators are powerless to do anything."

"That's why the elder is willing to take out the 'God's Moon Crystal Soul' as a reward in exchange for a capable person to repair the treasure."

When everyone heard this, there was a hint of surprise on their faces. They obviously didn't expect this to be the case.

"Pavilion Master Mei, is that treasure a Dao item or something else?"

The white clothed man frowned even more, he looked at Mei Xiuya and said in a deep voice, "If it's a Dao Artifact, then won't only the Weapon Refiner be able to repair it? "As far as I know, the Beitang Immortal Sect has a saint rank heavenly work that even he was unable to restore. How many people in this last nine days have been able to restore it?"

"It's a Dao item, but it's not a Dao item either."

Mei Xiu Ya sighed: "Speaking of which, our elder was too careless. He didn't expect that the 'crystal soul' he had encountered was so powerful that he was hit with a trick. That treasure, anyone would have the chance to successfully repair it. It was not limited to Weapon Refiner, as long as they had the ability. If I say this, you may not understand it. I'll take out the damaged treasure first and let everyone take a good look at it. "

"Pah!" "Pah!"

As she spoke, she lightly clapped twice.

A moment later, a beautiful young woman walked out with a white jade box that was about a foot square in her hand. It was unknown what material this box was made of, but there was no aura being emitted from it, but the various auras that rippled out from its surroundings would be immediately sucking s that entered the box the moment they touched it ... Its unusual behavior immediately attracted the attention of everyone in the area.

Tang Huan and Mo Hanyun couldn't help but look at each other as well before their gazes fell onto the jade case.

Instantly, Mei Xiu Ya looked at the young woman and smiled as she nodded. After a while, the young woman sent a stream of Sky Origin Stage Yuan Qi into the jade box, and the jade box immediately started glowing with a bright light. Then, layers of ripples started to appear on the jade box, visible to the naked eye. In the next moment, a green light rose from the box.

It was almost like a leaf, but also like a petal. It was about the size of a palm, and the green glow that it revealed was incredibly dense, so much so that in the instant it appeared, everyone in front of the pavilion could sense a boundless life force that seemed to want to drown everyone out.

Everyone couldn't help but reveal an expression of surprise as they continuously whispered to the cultivator beside them.

"This is ..."

Tang Huan squinted, a strange color appearing in her eyes. She took a rough look, the green luster was emitted from the something that looked like a leaf or a petal, but if she looked carefully, she would realize that the green luster did not originate from it, but instead was wrapped around it.

Chapter 2075: Great joke!

That green aura was like a thread, like a spider web. Layers of leaves and flowers were intertwined together, and even seeped into its interior.

The glimmering light was like water, giving off a strong feeling of spirituality.

Not only that, the aura that was emitted by the green light was also extremely strange. The powerful life force also had an extremely fierce corrosive feeling. As for the thing that was wrapped in the green light, Tang Huan was unable to feel its Qi, because the two of them seemed to be one.

However, in that green ball of energy, there seemed to be a trace of a strange immortal spirit.

Tang Huan frowned slightly, an unfathomable look flashing past her eyes.

"Everyone, this is the item."

She pointed at the green ball with a helpless look on her face.

"Pavilion Master Mei, what is this thing? Could it be that even your esteemed Sky Sovereign cannot repair it?" The youth in white scrutinized them for a moment and asked with some doubt.

"Although Lord Sky Sovereign is strong, she's not omnipotent." "This thing was injured by the 'Divine Moon Crystal Soul' and has been completely eroded by its power. If the Sky Sovereign were to make a move, although she can dissolve the 'Divine Moon Crystal Soul' power, she cannot repair the treasure that has already been damaged. Therefore, he decided to use the 'Divine Moon Crystal Soul' to try and see if anyone else can do it."

"If even Lord Sky Sovereign is unable to accomplish that, how could we possibly succeed?" The man in white smiled bitterly.

"That's right, that's right, Pavilion Master Mei, your joke is too big. Your esteemed sect's Lord Empyrean has some methods that even he cannot accomplish, that's even more impossible for us. " A Black Costume Old Man could not help but shake her head and sigh. From the aura she had, it was obvious that he was also a lower Sky Emperor.

"..."

The rest of the people outside could not help but nod as well.

"The things that the Heavenly Sovereign cannot do may not be impossible for everyone. The Heaven Realm is vast and boundless, and there are many capable people. If you don't try, how can you come to such a conclusion?" Meixiu laughed out loud and said, "Everyone, the item is here. If any of you are interested, you can follow me into Dubhe Pavilion and give it a try."

"Alright, I'll give it a try." The white-robed youth hesitated for a moment, then finally spoke.

"I'll give it a try too."

"..."

After a while, more people came out from the crowd, just like the young man in white. Although their auras were strong and weak, they were all Heavenly Emperor Stage powerhouses. However, it was clear that they did not have much confidence. However, the temptation of the "Divine Moon Crystal Soul" still made them unable to restrain themselves.

"Is there anyone else?"

Mei Xiuya's eyes swept across the crowd. Seeing that no one else stood up, he laughed loudly and said, "Everyone, please help to spread this news." According to the Sky Sovereign's estimates, this treasure could last for 10 years. If it couldn't be repaired within 10 years, then it would be thoroughly damaged. Therefore, within ten years, no matter who it is that is interested, they can come to the Heavenly Coffin Pavilion and give it a try. As long as they succeed, the 'Divine Moon Crystal Soul' will be his and will not go back on his words. "

It was indeed a good choice to release the news here.

This was because there were many Heavenly Kings and Heavenly Emperors gathered here for the last nine days. Of course, if Dubhe Pavilion truly wanted to find someone to repair that thing, they would not be setting themselves free in this place. It was likely that the other few Heaven Realms had already spread word of this, and perhaps even more experts would gather here very soon.

"Let's go."

Tang Huan suddenly said softly.

"Leave?" Mo Hanyun could not help but be taken aback, and asked in surprise, "Didn't you want the 'Heavenly Moon Crystal Soul'? Why not enter Dubhe Pavilion and give it a try? "

"We'll talk about it when we get back." After a moment, Tang Huan and Mo Wuyun came out of the crowd.

"Hmm?"

Meixiu's eyebrows slightly raised as she looked at the two figures walking away in surprise.

Outside of Dubhe Pavilion, none of the Cultivators had planned to try. However, at the moment, none of them were in the mood. Only the man and woman were the first to leave. That girl should be a peak stage Heavenly King, and as for that man ... A hint of doubt flashed through Mei Xiuya's eyes. He couldn't tell the opponent's cultivation level, and he didn't even feel a trace of his aura from the opponent's body, which was quite strange. One must know that he was not a Heavenly King, but an Inferior Heavenly Emperor!

However, this thought only lasted for a second before Mei Xiuya stopped thinking. Instead, she looked at the youth in white and smiled, "Everyone, please —"

With that, Mei Xiu Ya led the way back to Dubhe Pavilion.

At first, they thought that they would be able to participate in the "Mystic Moon Crystal Soul" auction. Otherwise, they would be able to see its appearance and broaden their horizons, but they never thought that this would be the result. This caused everyone to lose some of their interest.

At this time, Tang Huan and Mo Wuyun had already returned to the resting area of the divine vessel.

"Tang Huan, from the looks of it, are you not confident, or is there something wrong with that thing?" In the narrow space within the divine vessel, Mo Wuyun asked with a puzzled expression.

"What do you think?" Tang Huan didn't answer her question but asked with a smile, "Earlier, you also investigated that thing a bit, did you find anything?"

"I don't think so."

Mo Hanyun said somewhat gloomily, "That thing seemed to have been completely corroded by an extremely strange life force. It should have been caused by some sort of technique used by the 'Mystic Moon Crystal Soul'."

"Every single 'Divine Moon Crystal Soul' in the Heaven Realm had been passed down since the time when the Immortal World was still around. It is unknown how many years they have existed for, but some of them have already become extremely terrifying. Let alone the Heavenly Emperor, even the Heavenly Sovereigns might not be able to do anything to them. For the treasure of that Elder of the Beidou Immortal Sect to be damaged like that by the Spirit Moon Crystal is nothing special. "

"Tang Huan, if you go and try, you might actually succeed."

Mo Hanyun rolled her beautiful eyes, a smile on her face as she said, "Didn't you always boast that your primordial flames could melt everything? Without harming that thing in the least, it would be difficult for even an Ascendant to remove the invading life force. However, to you, it isn't a difficult matter. If you really did succeed, then the 'Divine Moon Crystal' would be your possession. Why did you suddenly leave? "

"That's right." Tang Huan laughed, and then immediately shook his head and said, "However, if I really do as you say, then it's fine if I don't succeed, but if I do, not only will I not get the 'Divine Moon Crystal', I will also become a prisoner of the Northern Dipper Immortal Sect?"

"Why?"

Mo Wuyun was shocked.

The corner of Tang Huan's mouth hooked up into a ridiculing smile: "The thing that Maya has taken out is not the so-called treasure that had been damaged by the elders when they obtained the 'divine moon crystal soul'. Furthermore, there is more than one of it, there should be 18 of them.

Chapter 2076 - Decoy

"What?"

When Mo Hanyun heard that, his beautiful eyes immediately went wide with shock, and he couldn't help but ask, "Tang Huan, how did you know?"

Tang Huan laughed and asked: "Do you still remember what my clone is?"

"It's an Immortal body avatar!"

Mo Wuyun rolled her eyes in annoyance, "Don't keep us in suspense, hurry up and tell us."

Tang Huan smiled slightly and said: "That thing contains an extremely minute amount of immortal spirit energy. However, even though it is minute, it is extremely stubborn and can continue to exist even under the constant erosion of the power of the 'Monarch Moon Crystal Soul'. It will be able to last for at least another few more years."

"The will of an Immortal?"

Mo Wuyun knitted her eyebrows doubtfully, "Why didn't I sense it?"

After saying that, she touched upon Tang Huan's smiling yet not smiling expression. She could not help but become angry, as she knew what Tang Huan's eyes meant.

Tang Huan was too monstrous.

Although she was a lower Sky Emperor, the Perception Ability was definitely not something a lower Sky Emperor could compare to. According to her estimations, even a middle Sky Emperor could not compare to Tang Huan, and even the upper Sky Emperor's Perception Ability could not compare to Tang Huan in certain aspects. She was just a Heavenly King, it was normal for Tang Huan to be able to detect an anomaly that she couldn't detect.

"Don't mention that you didn't sense it, those Celestial Emperors in front of Dubhe Pavilion probably didn't sense it just now."

Tang Huan laughed and said, "My Perception Ability, was originally stronger than them. Adding on to that, with the purest divine body, it could be said that my Perception Ability was the strongest under the Heavenly Sovereign Realm. It was because of this, that I was able to sense the existence of a bit of immortal spirit energy within that thing."

Mo Hanyun nodded slightly. He didn't think that Tang Huan was just boasting, but thought that it was natural.

"The will of the Celestial from that item is not isolated."

Tang Huan said indifferently, "Inside it, there are seventeen other connections. This means that those connections are as stubborn as the spirit intents. So, I deduce, there are seventeen other things like that. Adding them up, there are a total of eighteen of them. "

"These eighteen items definitely did not belong to that Beitang Immortal Sect elder."

Tang Huan revealed a confident smile between her brows, "If I'm not wrong, they should have originally been within the dimension that contains the 'Divine Moon Crystal'. That Beitang Immortal Sect elder barged into the Divine Moon and seized the 'Divine Moon Crystal Balls'. She also brought them out. "

After pausing for a bit, Tang Huan continued to speak slowly, "They were probably the treasures from the Immortal World. When the Immortal World was destroyed, by chance, they coexisted together with the 'Monarch Moon Crystal Soul' in a small piece of the Immortal World's fragment. Then, over the years, they were eroded by the power of the 'Monarch Moon Crystal Soul', resulting in their appearance."

"Is that so?"

Instantly, he seemed to have thought of something as he said in surprise, "If it's really as you said, why did the Northern Dipper Immortal Sect take out the 'Divine Moon Crystal Soul' as a reward and find someone to repair it? Is it worth it to pay such a huge price? "

"That's what they say."

Tang Huan could not help but laugh, "After all, no one has repaired that thing yet. I wonder if the Northern Dipper Immortal Sect is really willing to do this. Maybe the 'Divine Moon Crystal' was just a bait. If someone really could repair it, they would immediately be controlled and forced to repair the other seventeen items. Perhaps there is an enormous secret hidden within them. Else, the Beitang Immortal Sect would not be acting in such a manner. "

"If it really is bait..."

However, if it succeeds, it might really be as you said, and become a prisoner of the Northern Dipper Immortal Sect. Not only can it not obtain the 'Divine Moon Crystal Soul', it might even be killed by the Northern Dipper Immortal Sect to keep the secret. Since that was the case, it was better not to join in on the fun. Tang Huan, it would be better if we just leave this Heavenly Pivot City right now. "

"Why did you leave?" Tang Huan laughed out loud and said, "The Northern Dipper Immortal Sect definitely has the 'Divine Moon Crystal Soul'. How could they miss such a good opportunity?"

"You mean ..."

Mo Hanyun was a little suspicious and a bold idea suddenly emerged in his mind. He immediately jumped in shock, "Tang Huan, you aren't thinking of snatching that 'Divine Moon Crystal Soul' right?"

"This is also one way."

Tang Huan said with a smile all over her face, "If the Northern Dipper Immortal Sect did not have any evil intentions, I would indeed feel very sorry if I were to snatch the 'Divine Moon Crystal Soul'. However, if the Northern Dipper Immortal Sect truly harbors malicious intentions, then the 'Divine Moon Crystal Balls' will only be fodder. If I were to bring it over, there would be no psychological pressure at all. "

"However, I'll go and check the situation first."

Tang Huan said slowly, "Let's see if the 'Divine Moon Crystal Soul' is still in the Northern Dipper Immortal Sect, or if it is in the Heavenly Coffin Pavilion. Once we understand this, we can decide on what to do next."

"You're crazy." Mo Wuyun couldn't help but glare at Tang Huan, but his pretty face was filled with an expression that said "What do you want to do now?"

"..."

Unknowingly, half a day had already passed.

As the crowd of cultivators gradually dispersed, although there were still many cultivators remaining outside Dubhe Pavilion, it was much more deserted compared to before.

At this moment, a line of dozens of figures suddenly appeared outside the pavilion.

The two burly men guarding the door looked at each other with a hint of surprise in their eyes. This was not a rare occurrence, but that group of people was rather strange.

Among the 31, the one in front was a handsome young man. He emitted a bit of celestial spiritual energy from his body. It seemed he was carrying a celestial item, but other than that, no other aura was revealed. As for the other thirty, all of them were at the peak of the Upper Sky Realm. However, whether it was their steps or their demeanor, they all exuded a sense of reverence and respect, as if they were servants.

Such a lineup was indeed out of the ordinary.

In a short moment, that group of people had all arrived in front of the pavilion, and an old man with a thin appearance took a few steps forward, cupped his hands and smiled, "I heard that Dubhe Pavilion used the 'Divine Moon Crystal's Soul' as a reward to find a person who can repair the

treasure of your esteemed sect's elder, my Young Master is extremely interested, and has specially come here to try."

"Young master?"

The two burly men couldn't help but glance at the young man, their expressions full of surprise. Was it the young master of some super big sect, or was it the young master of some big and powerful clan? To be able to bring 30 Peak Heavenly King Stage servants with him, it seemed like this young lord's background was not simple at all!

"Please!" In an instant, the two didn't dare to be negligent.

Chapter 2077: How much is it worth?

The purpose of the opening of the Heavenly Pivot Pavilion in the Northern Dipper Immortal Sect was to purchase or sell all sorts of treasures that came from the void and darkness.

However, the counters that were originally placed in the pavilion had all been removed, leaving the originally spacious pavilion empty. Right now, in the center of the tower, there was a round table that was one meter tall. On the platform, there was that lush green object.

There were two figures sitting cross-legged at the side of the round table. It was the white-clothed youth and the other two Celestial Emperor who had entered the pavilion earlier.

Their expressions were solemn and their bodies were as still as statues. It was likely that they were still examining the object on the sensing platform.

Far away, two other figures were seated in the lotus position.

One of them was Heavenly Coffin Pavilion's Pavilion Master Mei Xiuya, while the other was a plump and charming young lady. She wore a purple robe, appearing extremely beautiful.

The moment the group of thirty or so people entered the pavilion, the two youths in white clothes remained as silent as before, completely unaffected by the activity of the outside world. However, Mei Xiuya and the purple-dressed woman both opened their eyes at the same time, their gazes falling onto the handsome young man who was referred to as the "Young Master".

"Friend, how should I address you?"

Xiu Ya exchanged glances with the purple-clothed woman and stood up in an instant. She smiled and cupped her hands as she asked. A trace of doubt flashed across her eyes.

Thirty peak stage Heavenly Kings following him, this was a huge battle.

Even the Celestial Emperors of the Northern Dipper Immortal Sect and other super sects would not be surrounded by so many peak-level Sky Kings unless something special happened. However, looking at the formation before them, the thirty heavenly kings looked respectful, and it would not be an exaggeration to call them servants. It was clear that no matter where the young lord went, they would follow him.

What was even stranger was that Mei Xiu Ya was unable to see through that young master's cultivation level.

Aside from the endless amount of celestial spiritual energy in his body, there was also a very weak aura. Whenever he wanted to sense something, the aura would suddenly disappear without a trace.

This feeling was extremely strange.

However, no matter what this young lord's cultivation level was, that group of peak Sky King masters must be extremely powerful, perhaps even an Empyrean level existence. Otherwise, how could they control so many powerful Heavenly Kings, making them follow this young lord like servants?

"My name is Gu Ying, my father is Gu Jingcheng." The young man lightly smiled, as arrogance could be seen in his eyes.

"Surnamed Gu?"

In the last nine days, there seemed to be no Sky Sovereign who was called Gu Jingcheng. In an instant, she subconsciously looked at the purple-clothed woman, only to see her shaking her head slightly. It was obvious that she did not know who Gu Jingcheng was.

Of course, this didn't mean that Gu Ying's name was fake.

"So it's Brother Gu."

Mei Xiu Ya instantly reacted and laughed out loud. "Brother Gu, are you interested in trying to repair our Beitang Immortal Sect's elder's treasure?"

"Nonsense!"

Gu Ying cast a sidelong glance at Mei Xiuya, as if she was looking at an idiot, "If I'm not interested, why would I come here? There isn't anything in your Heavenly Coffin Pavilion that I fancy, of course, except for that 'Divine Moon Crystal Soul'. However, right now, no one knows whether you really have that thing or not. "

However, she instantly suppressed the displeasure in her heart and said in a deep voice: "Brother Gu, this old man can vouch for the credibility of our Dubhe Pavilion and the Northern Dipper Immortal Sect. No matter who it is, as long as they can repair this treasure, they will be able to obtain the precious' Moon God Crystal '."

"The credibility of your Dubhe Pavilion and the Beitang Immortal Sect?" How much is it worth? "

The corner of Gu Ying's mouth slightly lifted as she said in disdain, "If I recall correctly, approximately two thousand years ago, there was an Inferior Heavenly Emperor who took out a treasure called the 'Azure Dragon Sky Thorn Fruit' and wanted to exchange it from your noble sect for a treasure."

"In the end, your honorable sect took the 'Azure Dragon Sky Sting Fruit', but you chased that lower Celestial Emperor all over the world, wanting to get all the 'Azure Dragon Sky Sting Fruits' into your pocket. In the end, the Heavenly Emperor had no choice but to escape for nine days. From then on, he has disappeared, and he has likely died in the void of darkness. "

"1300 years ago, Dubhe Pavilion"

"Shut up!"

Hearing that, the purple-dressed woman's face immediately became gloomy, and the veins on Mei Xiuya's forehead bulged, her face ashened, as she could not help but interrupt Gu Ying.

All of these super great sects from the previous nine days had a lot of dark history, but they all knew the same thing. Being said in such a manner was like slapping their face in front of their own faces, and at this moment, the anger in Mei Xiu Ya's heart was almost difficult to contain.

After pausing for a moment to calm the anger in her chest, Meixiu said with a dark face, "Brother Gu, there was something else that happened that happened that happened that year, there's no need to talk about it now. If you are interested in repairing this treasure, this old man welcomes you.

"If I leave, you will definitely regret it." Gu Ying smiled proudly, "Although I have not investigated you in detail before, I can confirm that in the top nine days, other than me, there is no one else capable of repairing this thing of yours. Of course, the exception is the Sky Sovereign. However, the Sky Sovereign would not be able to get involved. "

"What big words you have there!"

Before Mei Xiuya and the purple-clothed woman could say anything, a sneer sounded, but the white-clothed youth had already woken up. He sprung up, and coldly looked at Gu Ying. Black Costume Old Man, who was not far from him, also stood up at almost the same time, and looked at Gu Ying with extremely unfriendly eyes.

"Yes or no, you will soon know."

Gu Ying's expression became even more arrogant. "Pavilion Master Mei, I only have one thing to say. Take a look and see if it's right or not.

"What?" What kind of joke is this? "

The youth in white snickered, "Brat, you really know how to spout nonsense. How could this treasure contain immortal spirit intent, Pavilion Master Mei ..."

As he spoke, the white-clothed youth subconsciously looked towards Mei Xiuya, but his voice suddenly stopped. Whether it was Mei Xiuya or the purple-clothed woman, both of their faces were filled with astonishment. What caused their expressions to change was obviously what Gu Ying had said just now.

Did the treasure really contain the meaning of a celestial spirit?

He turned his head in disbelief, looking at the ball of green light on the round table. He had been searching here for a long time, but he did not find anything, but this Gu Ying, on the other hand, discovered the strangeness of the treasure the moment he entered the Heavenly Coffin Pavilion.

Chapter 2078 - Silly?

The condition of the Black Costume Old Man was also not much better than his. Looking at Gu Ying, then looking at Mei Xiu Ya and the purple-dressed woman, her face was filled with disbelief.

From the reactions of Mei Xiuya and the purple-dressed woman, Gu Ying's judgement was obviously correct.

Ever since they had entered Dubhe Pavilion, the two of them had always felt the treasure on the round table. However, they had not been able to find any clues, and Gu Ying had immediately noticed it, which further demonstrated their incompetence. After a short moment of astonishment, Black Costume Old Man's face was slightly burning.

"You didn't notice it because your strength is too weak." The corner of Gu Ying's mouth raised slightly, full of ridicule.

"You ..."

The youth in white was blushing, feeling humiliated and angry. Just as he was about to let out his anger, Mei Xiu Ya had already recovered. She took a deep breath and asked in a deep voice, "Brother Gu, how did you find out?" Even though her emotions had slightly calmed down, there was still a shock that could not be hidden in her eyes.

There was indeed a trace of celestial spirit hidden within that treasure.

However, the immortal spirit intent was extremely minute and was completely covered up by the power of the "Divine Moon Crystal Soul". None of the Celestial Emperors in the Northern Dipper Immortal Sect were able to detect it, and in the end, it was the Heavenly Sovereign within the sect who personally came out to sense the stubborn remnant immortal spirit intent within the treasure.

This Gu Ying, she can actually do it, his Perception Ability is actually comparable to an Sky Sovereign?

Could it be that Gu Ying was actually some kind of Heavenly Sovereign?

How could this be possible? An existence at the same level as the Sky Sovereign would definitely not come join in the excitement. Moreover, although the "Divine Moon Crystal Soul" was precious, it did not attract the Sky Sovereign at all.

"Because I have a False Immortal Body."

A hint of complacency flashed across Gu Ying's brows, and she arrogantly said, "Of course, it also has a slightly better name, which is the Half Immortal Body." While she was speaking, an extremely majestic immortal aura roared out from Gu Ying's body, instantly filling the entire pavilion.

"Half Immortal Body?"

Hearing Gu Ying's words, Mei Xiu Ya and the rest could not help but be shocked.

The Celestial Realm was no longer here. In the current Heaven Realm, it was almost impossible to cultivate a pure celestial body. Even cultivators with a half-celestial body were as rare as phoenix feathers or qilin horns. Perhaps in the Nether Realm, where there was almost an independent existence, there were more cultivators with such physiques.

Moreover, in the Heaven Realm, cultivators with such a physique usually did not have a high cultivation level.

The reason was very simple, it was because the environment of the Heaven Realm was not suitable for cultivators with the Half Immortal Body to cultivate. That kind of physique of a cultivator, was far more difficult to cultivate than ordinary people. However, they did not know what kind of cultivation Gu Ying had, a Heavenly King? Or ... Sky Emperor?

It should be the Heavenly King!

If a cultivator with the body of a half-immortal wanted to advance to the Heavenly Emperor Stage, the difficulty would be beyond the imagination of an ordinary person.

Mei Xiu Ya's mind raced, carefully sensing the immortal spirit aura, wanting to make an accurate judgement of Gu Ying's cultivation, but in the end, she realized that it was all in vain. The immortal spirit aura around Gu Ying's body was equally ethereal, making it hard for anyone to understand it, making it difficult to come to a correct conclusion.

"Don't waste your time."

Seeming to have detected Mei Xiuya's intention, Gu Ying sneered, "To tell you the truth, not only am I a Half Immortal Body, I'm also a lowly Heavenly Emperor!"

"What?"

Hearing that, Mei Xiu Ya and the rest were shocked, looking at the arrogant Gu Ying in disbelief.

None of them felt that Gu Ying was lying. After all, there was no need to lie at all. They were only purely shocked by Gu Ying's cultivation. If it was back in the Immortal World, who knows how many Ancient Immortals had the purest Immortal body. Half Immortal Body was definitely not worth mentioning.

However, in an environment like the Heaven Realm, for a cultivator with a half immortal body to be able to raise his cultivation to such a level, it would be shocking even if he wanted.

Gu Ying's eyes swept across the youth in white and the Black Costume Old Man, and jokingly said, "How could an ordinary Heavenly Emperor compare to a Heavenly Emperor with the body of a half-immortal?"

"..."

The white clothed youth and Black Costume Old Man looked at each other with dark and uncertain expressions. Their lips slightly moved, and they subconsciously wanted to refute, but in the end, they swallowed the words that rushed to their throats. What Gu Ying had said was not wrong. In other aspects, the other Sky Emperors might be stronger, but in terms of their perception of the Immortal's Spirit, the other Sky Emperors would definitely not be a match for the Sky Emperor with the Half Immortal Body. Even the Upper Sky Emperor would not be able to.

"You're right, Brother Gu. This old man was disrespectful earlier." She cupped her hands with a smile on her face and said.

"Although the Perception Ability is powerful, it might not be able to repair this treasure." The youth in white was still unwilling to accept this.

"You don't even know that? I really wonder how did you, the Celestial Emperor, get promoted?" Gu Ying curled his lips in disdain, "With a half immortal body, I can hook onto the immortal spirit intent from this treasure and protect it. This will prevent it from getting damaged during the process of recovery. "Thus, I dare to guarantee that in these nine days, other than me, the Celestial Emperor with the body of a Half Immortal, no one will be able to completely repair this treasure." After he finished speaking, Gu Ying's face was filled with confidence.

"Good!" Good! Well said! "

The white-clothed youth was completely silent and the Black Costume Old Man was also silent. Meixiu and the purple-clothed woman met and immediately clapped their hands together, smiling as

they said, "Brother Gu, since you have such confidence, then this matter should not be delayed. Why don't we begin repairing it now!"

"Are you stupid?"

Gu Ying glanced at Mei Xiu Ya as if she was looking at an idiot.

Mei Xiu Ya clearly did not expect Gu Ying to suddenly say such words, the smile on his face immediately stiffened, the anger in his eyes surfaced, but he endured it. He repressed the anger in his chest, and then he forced a smile: "Brother Gu, what is the meaning of this?"

"Like I said earlier, the reputation of your Northern Dipper Immortal Sect and Dubhe Pavilion isn't worth much."

Gu Ying's face slightly darkened, her tone filled with ridicule: "The 'Divine Moon Heavenly Soul' was always spoken of by you guys, but I didn't even see a single hair on it. Do you think I would help you repair this treasure? If the treasure is repaired, and you all go back on your word and not admit it, then wouldn't it be a waste of my time? "

"You, you ..." Meixiu's face turned gloomy.

"I've already said all that needs to be said, now it's time to see what your Dubhe Pavilion will do!"

Gu Ying replied calmly, "Pavilion Master Mei, I will at most give you thirty breaths of time to consider. If you cannot see the 'Mysterious Moon Crystal Soul' first, you should know the outcome."

Chapter 2079 - Casual People

When Mei Xiu Ya and the purple-clothed woman heard this, they both frowned and their expressions became unsettled.

The gaze of the white-clothed youth and the Black Costume Old Man also landed on the two of them. They did not have any confidence in repairing this treasure, so they did not insist on letting Mei Xiuya display the "Divine Moon Crystal Soul" first. If they were confident, they would probably be the same as Gu Ying.

Although they were also from a super sect that was above nine heavens, the Northern Dipper Immortal Sect was also a super sect. If they were to put up a front, they would truly be helpless.

After all, they couldn't possibly let the two super great sects start a war just because of this matter.

Now that Gu Ying had strongly requested for Dubhe Pavilion to take out the "Divine Moon Crystal Soul" first, they were happy to watch a good show. Looking at Gu Ying's appearance, if they did not see the "Divine Moon Crystal Soul", it was obvious that she would not start repairing the treasure.

Speaking of which, they had never seen the "Divine Moon Crystal Soul" before.

"Pavilion Master Mei."

Seeing the two's expressions, Gu Ying laughed, "What's there to be embarrassed about? Are you two worrying that I'll snatch the 'Divine Moon Crystal Soul' away from the Heavenly Coffin Pavilion?" After saying that, Gu Ying's brows slightly rose, "In fact, you guys don't even have a 'Spirit Moon Crystal'. That's why you're stalling like this."

"How is this possible?"

The color on Mei Xiu Ya's face changed as she said in a deep voice, "Brother Gu, since you insist on seeing if we have the Divine Moon Crystal Soul, then it will be as you wish." After she accepted it, Mei Xiuya cast a glance at the purple-clothed woman beside her and said with a smile, "Brother Gu, please wait for a moment."

"Alright."

Gu Ying laughed and nodded in satisfaction.

Under the gazes of everyone present, the purple-clothed girl gracefully left, and the one that ascended was the second floor of the Heavenly Pivot Pavilion. Not too long after, she walked down the stairs with a white jade box in her hands. If there were no surprises, then the box contained the 'Divine Moon Crystal Soul'.

The white-clothed youth and Black Costume Old Man obviously understood this, and even their breathing had become a little hurried as they stared at the jade box.

Although Gu Ying's performance was not as obvious as the two of them, her eyes still burned brightly and her forehead was filled with interest. As for the thirty Heavenly Kings at the peak of the mountain behind him, all of them were able to see and understand what was inside, as if they had no idea what kind of rare treasure was inside.

A moment later, the purple-clothed woman smiled sweetly. The jade box in her hand immediately began to emit a resplendent light, and ripples began to appear on the surface of the jade box. In the next moment, an even denser mass of green appeared in the box. It was so dazzling that it was hard to look at.

It was a green ball about the size of a sea bowl. The surface of the ball was crystal clear.

However, within the sphere, there seemed to be countless strands of green mist swirling around it, giving it an incomparably strong feeling of spirituality. The energy that emanated from the sphere was extremely tyrannical.

However, the most shocking thing was not this. Instead, it was the boundless life force that was condensed within the sphere. The life force did not exist alone, but was contained within the ball's power. It was like a vast ocean, mighty and mighty. It seemed that the slightest movement could cause a monstrous wave that could annihilate people.

"It really is the 'Divine Moon Crystal Soul'!"

The youth in white and the Black Costume Old Man both took a deep breath, exclaiming in unison, their eyes shining with light.

"The 'Mystic Moon Crystal Soul' truly lives up to its name."

Gu Ying sized up the green ball for a moment, she could not help but exclaim in admiration, and her expression was extremely satisfied.

After seeing everyone's expressions, the purple-clothed woman could not help but squint her eyes and smile. In an instant, she returned the "Divine Moon Crystal Soul" back into the jade box. That frightening aura of vitality and strength instantly disappeared without a trace. When the white-clothed youth and Black Costume Old Man saw this, their eyes were filled with regret and helplessness.

Such a rare treasure was destined to never be fated with them.

"Since we've confirmed the 'Divine Moon Crystal Soul', I wonder when Brother Gu can make his move?"

Mei Xiu Ya looked at Gu Ying and asked with a smile. At this moment, not only did his eyes reveal a strong sense of anticipation, but there was also a hint of coldness. Whether this boy was bragging or if she really had the ability to repair the treasure on the stage, it would be very soon known.

"Anytime."

Gu Ying said with a smile on her face, "Pavilion Master Mei, you can find a place that you think is safe. I will be repairing your treasure inside, but I will also need to leave the 'Monarch Moon Crystal Soul' there. Once the repair is complete, I will return the treasure to you all, so the 'Monarch Moon Crystal Soul' will naturally be mine."

"Brother Gu, be careful." Brother Gu, be careful.

This time, Mei Xiu Ya agreed readily. "Elder Yun, I'll trouble you to prepare the room on the top floor of our Dubhe Pavilion."

"Alright!"

The purple-clothed woman left with a jade box in her hand.

"Since it has been decided, we can disperse the others." Gu Ying waved at the white clothed youth and the Black Costume Old Man casually.

"Gu Ying, you are going too far!"

The white-clothed youth and the Black Costume Old Man were enraged when they heard this. Even before the Heavenly Pivot Pavilion Pavilion Master, Mei Xiuya, could speak, Gu Ying had already helped them drive him away.

"Brother Zhang, Brother Li, don't be angry."

Mei Xiuya quickly laughed and said, "I am truly sorry for what happened today. I will invite the two of you to come to Dubhe Pavilion another day to have a good chat." Although these words had to be said in a more tactful manner, the meaning behind it was not much different from what Gu Ying said, it was inviting people to leave.

"Farewell!"

How could the white-clothed youth and the Black Costume Old Man not recognize him? With a cold snort, he flicked his sleeves and left.

Gu Ying curled her lips in disdain.

In a flash, a small scroll appeared in his palm, and as the scroll opened and closed, the thirty Peak Heavenly Kings disappeared without a trace. Putting away the scroll, Gu Ying said with a face full of smiles: "They have all entered my spatial artifact, I'm sure Pavilion Master Mei wouldn't mind, right?"

"It's fine, it's fine. Brother Gu, please go upstairs."

Meixiu said with a smile on her face.

Under Mei Xiu Ya's lead, Gu Ying walked to the inside of the pavilion and climbed up the stairs. The second floor of the pavilion was separated from the rest by a wall and there was no entrance.

However, this was normal. The Heavenly Pivot Pavilion was not made of wood, but rather it seemed like it had been dug out by a huge rock. Not only was it so, but the other buildings in the city were also like this. If this kind of building was used to support a great formation, it would be much more suitable than a wooden building.

Gu Ying did not stop her footsteps and continued to follow Mei Xiu Ya. In a short while, she had already entered the third floor.

Chapter 2080 - Attempts

The space on the third floor was not that big. It was only about a dozen meters in radius.

In the center of the space, there was a prayer mat. In front of the prayer mat, there was a jade box containing the "Divine Moon Crystal Soul". The purple-clothed woman was smiling as she stood beside the prayer mat.

"Buzz!"

A light trembling sound was heard.

In an instant, the four walls of the pavilion, as well as the ground and the top of his head, began to emit ripples that could be seen with the naked eye. After a short while, the ripples had completely disappeared. However, there seemed to be an invisible barrier that completely enveloped the third floor of the pavilion.

"The formations in this building aren't bad."

Gu Ying casually looked around, and said while smiling. The real reason that Elder Yun came up to this place was obviously to open the array.

"Brother Gu has good eyesight." Mei Xiu Ya laughed.

"It seems that if I can't repair that treasure, then I won't be able to leave the Heavenly Pivot Pavilion." Gu Ying smiled again, and spoke as if he had some sort of profound meaning to it.

"Brother Gu must be joking, please!" With a slight movement of her right hand, the ball of green light that came from the small round table on the first floor floated towards Gu Ying.

"In that case, I shall begin."

Gu Ying received the ball of green light and sat on the prayer mat, then looked at Mei Xiu Ya and Su Yun and asked, "Do the two of you want to leave, or continue staying here?"

"I can stay here alone."

Mei Xiuya smiled slightly and said, "Elder Yun, you should go busy yourself with other matters first."

The purple-dressed woman nodded her head and was about to leave when Gu Ying suddenly spoke: "Before Elder Yun leaves, please take out the 'Divine Moon Crystal' first. Within this great formation, Pavilion Master Mei probably wouldn't be worried that I would be able to secretly bring it away from Dubhe Pavilion before repairing this treasure. "

"Brother Gu, you're too cautious."

Mei Xiu Ya was stunned for a moment before she burst into laughter.

He naturally knew that Gu Ying was worried. The first to arrive, Elder Yun, swapped out the "Divine Moon Crystal" for it and so he gave the purple-clothed woman a meaningful glance. The purple-dressed woman also smiled helplessly. She walked forward and once again took out the "Divine Moon Crystal Soul" from within the box. After which, she placed it on top of the jade box.

"There's nothing wrong with being cautious."

Gu Ying carefully sized them up, then laughed in satisfaction, "Pavilion Master Mei, Elder Yun, both of you do as you please, I will begin now." After she finished speaking, Gu Ying's attention was focused on the ball of green light in front of him. After inspecting it carefully, she slowly closed her eyes.

Mei Xiu Ya glanced at the purple-dressed woman before nodding slightly. She then sat down on the ground, and the purple-dressed woman's figure flashed as she left the space.

For a time, the entire third floor was completely silent.

Mei Xiu Ya looked at Gu Ying with shining eyes, paying close attention to her movements. However, Gu Ying was like a wooden statue, her body remained unmoving from the start to the end. As time passed, Mei Xiu Ya unconsciously frowned. A trace of doubt and impatience appeared on her face.

Could it be that this kid had been bluffing all along?

However, the 30 Peak Heavenly King Stage followers could not be faked, his Half Immortal Body could not be faked, and he could also sense the immortal spirit energy hidden within the treasure could not be faked ... It was just that he didn't know if he was really confident or was just lying when he said that he could repair the treasure.

I should take another look ...

She continued to wait as time flew by. One day, two days, three days...

Unknowingly, half a month had already passed.

The news of the appearance of the "Divine Moon Crystal Soul" in Dubhe City had already quickly spread throughout the Northern Dipper Sky. It had even continuously spread towards several other Heaven Realms. In this half month, almost every day, Heavenly Emperor Stage experts would arrive in Dubhe City and pay a visit to the Heavenly Pivot Pavilion.

Although they were warmly received by Dubhe Pavilion, the Pavilion Master Meixiu still did not show his face. The treasure that needed to be repaired, as well as the precious "Mystic Moon Heaven Soul", also did not appear.

On the third floor, Mei Xiuya's patience had almost been worn out.

A cold look uncontrollably appeared in Mei Xiuya's eyes. He waited for half a month, but Gu Ying did not make any movements. In a moment, if this kid didn't give enough reasons, then it wouldn't be so easy for him to leave the Heavenly Pivot Pavilion.

"Gu ..."

With a snort, Mei Xiu Ya's lips moved. Just as she was about to shout out, the note that rushed to her throat was forcibly swallowed by him, and her eyes revealed an uncontrollable look of astonishment. In the middle of the pavilion, Gu Ying, who was like a statue, actually moved.

"Phew!" "Huff ..."

A few barely audible sounds rang out in the air.

The ball of green light was already floating in front of Gu Ying, and the ten fingers on Gu Ying's hands started to flutter like butterflies, as her fingers repeatedly pressed against the green light. Although the movements were light, they seemed to contain an abnormally strong power, as though every time it touched the green light, there would be a powerful Strength Qi quietly rippling out.

Mei Xiu Ya stared at Gu Ying's hands without blinking.

However, after looking at it for only a moment, he couldn't help but frown slightly. As a Pavilion Master of the Heavenly Pivot Pavilion, and also an elder of the Northern Dipper Immortal Palace, his knowledge was definitely not far off. But now, he really couldn't understand what this Gu Ying fellow was trying to do.

However, as time passed, she suddenly realized that the green ball of light seemed to have dimmed quite a bit.

After sensing this, Mei Xiuya could not help but be shocked. She immediately found out that the aura radiating from the green ball of light was also greatly reduced.

At this moment, Mei Xiu Ya was both surprised and worried.

It was not difficult to dissolve the power of the 'Divine Moon Crystal Soul' in the treasure. Any Heavenly Emperor in the Beitang Immortal Sect could do it, but the difficulty was that while neutralizing the power, one had to guarantee that there would be no damage to their protection. This was something that none of the people from the Beitang Immortal Sect could do anything about, including that extremely powerful Lord Reverend. The reason is very simple. The two are one and the same. As long as the power is dissolved, the treasure will be damaged.

He wondered if this Gu Ying fellow had that kind of ability.

His eyes were fixated on the ball of green light in front of Gu Ying. As long as the treasure inside the green light showed any signs of being out of place, he would definitely proceed with Gu Ying at the fastest speed possible, not allowing him to continue any further.

However, what made him even more surprised and astonished was that the green light was still dim, and the aura of power radiating from it was still weakening, while the treasure inside the green light, up until now, still did not show any signs of loss.
