Chapter 2081 - Smoke Luo Golden Immortal

Mei Xiuya's eyes stared straight at him. The surprise in his eyes became more and more intense. He had forgotten about the passage of time. Unknowingly, another half a month had passed.

Almost at every moment, the green light would weaken, and the aura of the power that originated from it would weaken as well.

More than ten days later, the treasure that had originally been wrapped in the green light had already been clearly revealed, and was about the size of a palm. Looking at it now, it was more like a flower petal than a leaf. However, the interior of the flower petal was full of strands of green, like countless stacked spider webs.

The dense green had completely covered the original color of the flower petals.

"Hu!" Gu Ying sighed, and her hands finally stopped moving.

"Brother Gu, how's the situation?" Mei Xiu Ya suddenly regained her senses and could not help but ask out loud. Her massive mind had already rushed out and was carefully sensing the situation.

"Not bad."

Gu Ying nodded her head and smiled, as she said in satisfaction, "The repair is only halfway there, I estimate that it will be completed in another half a month."

"Good!" "Alright!"

Mei Xiu Ya clapped her hands and praised, "Brother Gu, your skills are indeed outstanding." Previously when Gu Ying made his move, he could not help but shock the other party. He did not activate his mind to directly investigate the treasure, and could only roughly sense around, but now, it had completely verified his previous judgement.

During the process of repairing the flower petals, they did not suffer any damage.

She was completely relieved.

"I'll rest for a day, then I'll make my move." Gu Ying smiled slightly.

"Rest well, Brother Gu. It's fine if you rest for a few more days before making your move." She smiled and said, "I'll go out for a while, so I won't disturb Brother Gu here."

"Please do as you please, Pavilion Master Mei." Gu Ying nodded.

"..."

... ..

On the second floor, three figures were sitting cross-legged.

Amongst the three of them, one of them was the purple-clothed woman called Elder Yun. One was a white-robed old man with long hair and frosty eyebrows, while the other was a rather elegant looking middle-aged man.

The purple-clothed woman, the white-robed old man, and the black-clothed middle-aged man stood in a triangular formation. The area between them was filled with an incomparably resplendent green light.

That light came from the seventeen green lights.

Each ball of green aura contained a palm-sized petal. Strands of green aura were coiled around the petal and even seeped into the petal. An abnormally powerful aura was continuously emitted from the petal, lingering in this completely sealed space.

The three of them had their eyes closed, as if they were investigating the situation of these seventeen lumps of green.

"Hu!"

The air slightly fluctuated, and with a few inaudible sounds, a figure suddenly appeared in the space on the second floor. It was the Pavilion Master of the Dubhe Pavilion, Mei Xiuya.

"Elder Mei, how is it?"

The purple-clothed woman suddenly opened her eyes and asked subconsciously. The white-robed old man also slowly opened his eyes and his gaze fell on Mei Xiuya.

Only the black-robed man remained, eyes closed and motionless.

"Overjoyed, overjoyed!" "I didn't expect that kid to be so arrogant, but his methods are not bad. Not only can he dissipate the power of the Divine Moon Crystal, he can even completely remove the petals of the Yan Luo Golden Immortal. This time, we really found the right person. "

"That's good."

The purple-clothed woman and the white-robed old man glanced at each other, revealing joyful smiles between their brows.

Meixiu laughed: "According to that guy's estimation, he will take another half a month to completely repair that 'Youluo Golden Immortal' petal. If we count it like this, in another two years, he will be able to repair and reform a total of 18 petals. Elder Yun, have you investigated the background of that kid? "

"Not yet."

The purple clothed lady said helplessly, "That brat seemed to have appeared out of nowhere and should have entered Dubhe City through the void of darkness. However, I've gathered information on all the Heavenly Emperor cultivators from the sect for the past nine days. There are quite a few of them, but none of them match. "

"Logically speaking, to have so many Peak Heavenly King Followers, the power that he must have come from must not be weak. Furthermore, based on his actions, it is very impressive. However, he seemed to have suddenly appeared out of nowhere, and for the entire first nine days, I have not been able to find any trace of him. " As she finished speaking, the purple-clothed woman's face was already filled with depression and disbelief.

"The Heaven Realm is big and full of wonders."

The white robed old man laughed, "We suspect that Gu Ying is the disciple or descendant of a certain reclusive Sky Sovereign, and the residence of that Sky Sovereign should not be located in the top nine heavens, but in a certain fragment space of the Void World. This should be his first time entering the top nine heavens."

Mei Xiu Ya felt a headache coming on. "It would be difficult to find his origins."

"Don't worry so much."

At this time, a sonorous voice rang out, "When he finishes repairing the flower petals, immediately control him and let him repair these seventeen petals as well."

"If he knows what's good for him, it's naturally good. In the future, once he's able to solve the mystery of the Yan Luo Golden Immortal, I'll let him go."

"If he doesn't know what's good for him, then there's no need for us to be courteous. We can just let him consume the 'Maze Immortal Illusion Pill' that we obtained from the 'Mysterious Pill Sect'.

"Not to mention that we are not certain if he has an Empyrean behind him. Even if he does have an Empyrean and has even come looking for us, what is there to be afraid of in our Northern Dipper Immortal Sect?"

The one who spoke was the black clothed middle-aged man.

At this time, he had already quietly opened his eyes, and his eyes seemed incomparably serene, as if they could even send sucking into the void, giving off a deep and unfathomable feeling. Not bad, the aura seeping out from his body was so weak that it almost did not exist.

"The eighth elder is right."

"That being the case, let's do it."

After saying that, his gaze turned towards the purple-clothed woman and the white-robed elder, "Elder Yun, Elder Wu, we will act according to the circumstances in half a month."

"Go back and take a look. Don't come out if you have nothing to do." The black-robed man spoke again.

"Yes, Eighth Elder!"

Meixiu nodded and gave the purple-clothed woman and the white-robed old man a slight nod. Then, her figure moved slightly and she had already left the second floor of the Heavenly Pivot Pavilion.

"Eighth Elder..." The moment Mei Xiu Ya left, the purple-clothed woman smiled at the middle-aged man.

"Hmm?"

However, before she could finish her sentence, the middle-aged man's face darkened and his eyes turned cold. His figure instantly disappeared without a trace from the second floor. When the purple-robed woman and the white-robed old man saw this, their expressions changed slightly. In the next moment, they chased after him almost at the same time.

Chapter 2082 - Vaginal Flipping

On the third floor of the Dubhe Pavilion, Mei Xiuya who had just entered couldn't help but stare with wide eyes.

This entire space was already empty. Not only was Gu Ying completely gone, the "Monarch Moon Crystal Soul" and the "Smokey Golden Immortal" petal had also disappeared without a trace.

It had only been a short period of time, but that kid had actually disappeared along with the two treasures?

The strangest thing was that both of them were in the same pavilion, and it could be said that they were very close. However, as the lower Sky Emperor, he did not know how they had disappeared.

"Hu!"

A figure suddenly appeared. It was the black clothed middle-aged man who had just been on the second floor. As he swept his gaze across it, the middle-aged man's face darkened.

In the next moment, two figures entered the third floor at the same time. It was the white-robed old man and the purple-robed woman.

"What are you doing here? "Go back!"

Noticing the movements of the two, the black clothed middle-aged man's face became even gloomier, and he immediately shouted out, "Not good, those seventeen Yama Golden Immortals!"

Before the voice fell, the figure of the middle-aged man had already disappeared from where he stood.

The faces of Mei Xiuya, the white robed elder, and the purple-clothed woman changed drastically. Following which, the three figures also rapidly disappeared from the third floor at almost the same time.

In the blink of an eye, the three of them had already returned to the second floor of Dubhe Pavilion. The seventeen "Youlan Golden Immortal petals" wrapped in green had already disappeared without a single one remaining.

"All gone?"

The white robed old man and the purple-clothed woman also had extremely ugly expressions on their faces. They could not believe their own eyes.

In just a short period of time, the eighteen petals of the "Smoky Golden Immortal" and the "Divine Moon Crystal Soul" had all disappeared from right under their noses.

Almost without the slightest delay, an incomparably powerful Qi surged out from the Heavenly Pivot Pavilion. In the blink of an eye, it had already filled the entire city.

Its enormous mind and spirit swept about the city, not sparing even a tiny corner of it.

In an instant, the countless cultivators within Dubhe City were all bewildered, their gazes turning to the direction of Dubhe Pavilion, as they tried to guess what was going on there.

At almost the exact same time, numerous figures rushed out from within Dubhe Pavilion.

The group of people quickly split into two groups. One group headed towards the entrance of the Big Dipper, while the other group shot towards the exit of the void. Along the way, there were constantly cultivators joining the fray. When they arrived at their destination, the two groups had hundreds of people each.

After around 15 minutes, on the second floor of Dubhe Pavilion.

"Who did it?"

Meixiu's face was ashen and ferocious.

All the emperors of Dubhe Pavilion had immediately pushed their minds to the limits of what they could, carefully inspecting the entire city countless times over. Unfortunately, they had not been able to find anything out of the ordinary. All the members of the Northern Dipper Sect in Dubhe City moved out and sealed off the two entrances to the city as quickly as possible.

Everyone was only allowed to enter, no one was allowed to leave.

However, so far, there were still no clues.

This made Mei Xiu Ya even more baffled. Exactly who was the strong warrior that invaded Dubhe Pavilion, quietly kidnapped Gu Ying, and took away all eighteen petals and the "Divine Moon Crystal"?

For safety's sake, after the Divine Moon Crystal Soul's information was released, as well as the supreme peak Heavenly Emperor of the Beitang Immortal Sect, they secretly entered Dubhe City to guard against any unexpected incidents.

In addition, the great formation of the Heavenly Pivot Pavilion was extremely powerful.

Even a peak level Heavenly Emperor would not be able to sneak in without a sound, and it was also an extremely short amount of time. He had continuously snuck into the third and second floors of Dubhe Pavilion.

However, with the protection of a great array and a peak Sky Emperor guarding the outside, this unimaginable thing still happened.

"Other than Gu Ying herself, who else could it be?"

The middle-aged man's face was so gloomy that it seemed as if water was being poured out: "I didn't expect that we would fail today after experiencing so many storms!"

"Gu Ying? How is that possible? " Mei Xiu Ya was startled, she immediately exclaimed in disbelief, "Eighth Elder, Gu Ying is only an Inferior Sky Emperor."

"So what if I'm a lower Sky Emperor? but you still want to play us for fun! "

The black-clothed middle-aged man gave a cold snort, "This old man once sensed that the Heavenly Pivot Pavilion's great formation had produced three extremely minute ripples. The first time the ripple appeared, it was on the third floor and it came from the inside. This meant that there were no outsiders who came to take Gu Ying away, but Gu Ying herself had left. The second fluctuation appeared on the second floor of Dubhe Pavilion, and it was coming from the outside. The third time was also on the third floor, and it was coming from the inside. "

"Eighth Elder, you mean ..."

"Then, Gu Ying took the flower petals of the 'Heavenly Moon Crystal' and the 'Yama Golden Immortal' and left the third floor. When we arrived at the third floor, she immediately entered the second floor and snatched away the other seventeen 'Yan Luo Golden Immortal' flower petals. Then, she left this place before we returned to the second floor?"

Saying that, she couldn't help but take in a deep breath, "If it's true, then not only does Gu Ying possess the ability to travel through space, but she can also investigate the situation within our formation. Otherwise, he wouldn't have been able to grasp the opportunity to enter the second level so well."

"That's right."

The black-clothed middle-aged man nodded with a dark expression.

"Since he can sense the general situation of the second floor, then he might have heard our conversation. Knowing that we are going to detain him, he immediately escaped with the 'Celestial Moon Crystal' and the 'Yama King Immortal'?"

"This is unknown."

The black clothed middle-aged man said slowly, "Perhaps, the original purpose of that Gu Ying coming to our Dubhe Pavilion was to capture all of them in one go."

Mei Xiu Ya was stunned: "Isn't that possible?" How dare he? "

"Even if he didn't have such a goal in the beginning, he should have planned to escape long ago."

The black clothed middle-aged man narrowed his eyes and said solemnly, "Since he has already restored the Yan Luo Golden Immortal to such a state, how could he not realize that your introduction of the Yan Luo Golden Immortal was a lie? "Since he's already seen through it, how can he be at ease and continue to stay in Dubhe Pavilion to restore Yan Luo's Golden Immortal?"

After staring blankly for a moment, she patted her head in regret and sighed, "Sigh, we should have taken action earlier to detain him."

"For the time being, I don't need to rush."

The black clothed middle-aged man sneered, and slowly said, "How can the things of our Northern Dipper Immortal Sect be so easily obtained? Inside the 'Mystic Moon Crystal Soul', there is a mental imprint left by the Sect Master. Even if he can avoid our detection, he won't be able to avoid the Sect Master's reaction to his own Mind Stigma. "

Chapter 2083 - He Can't Run!

"Alright!"

Mei Xiu Ya nodded, gritting her teeth, "If we can find Gu Ying, we must skin him alive, make him beg for death!"

There were so many Heavenly Emperors guarding Dubhe City, yet they allowed that unknown fellow to rob the treasure.

When she thought about that, Mei Xiu Ya's face burned with anger, and her hatred for Gu Ying became even more intense, wishing that she could immediately capture him.

"Don't worry, he won't be able to escape."

As long as he dares to take it out for refinement, it will definitely trigger the Sect Master's Mind Stigma. Even if he were to hide in an independent space that is completely isolated from the outside world, the Sect Master would still be able to find out. "

Mei Xiu Ya nodded slightly, and then said: "Eighth Elder, do we still need to lock down and search Dubhe City? "It's already very noisy outside."

At this point, she couldn't help but have a headache.

Even though this Heavenly Coffin City was within the sphere of influence of the Northern Dipper Immortal Sect, even if it was the Northern Dipper Immortal Sect, they could not act rashly. After all, not all the people living in this city were from the Northern Dipper Immortal Sect, and there were also experts from super sects such as the Celestial Sect of Wonders, the Black Yellow Dao Sect, and the Pangu Heaven Sect.

Sealing up Dubhe City for a long period of time would surely incur the wrath of the crowd.

"No need, I couldn't find it just now, so there's no way I'll find it again."

The black clothed middle-aged man said coldly, "As long as he dares to randomly hide in the Voidwave Divine Ark or any other spatial equipment, even if we turn Dubhe City upside down, we won't be able to find him."

"Yeah, it's almost impossible to find him by searching him."

Meixiu shook her head, feeling quite depressed. Some of the smaller sects could still forcefully search for the Emptiness Divine Ark, but for the super sects like the Celestial Sect of Wonders, the Black Yellow Dao Sect, and the Pangu Heaven Sect, they had no way of entering the ship, nor would they be able to conduct a search.

If Gu Ying was related to some super large sect, the chances of finding him like this was basically zero.

"The grand master is almost aware of the change in this place now. Next, it will depend on whether the grand master can sense his presence or not." The black-clothed middle-aged man's eyes were ice-cold.

"..."

Dubhe City, the resting area of the Godly Void Boat.

In the narrow space inside a fiery red ark, there was no one. All that was left was a small scroll. Inside the cave dwelling carried by the scroll, Tang Huan sat cross-legged in the Supreme Mystery Temple. She took a deep breath and beside him, the Nine Spirits, Xiao Budian, Ling Tian and Mo Hanyun were all looking at him anxiously.

"Big Brother, hurry, hurry!" Jiu Ling was burning with anxiety and couldn't help but urge.

"What are you so anxious about!"

Tang Huan laughed and scolded. With a slight movement of her thought, seventeen balls of dense green light nearly exploded out in front of him at the same time. This ball of green light was intertwined with a dull green flower petal.

"Isn't that the item that Maya took out the other day?" So many! " Mo Wuyun slightly counted, and in an instant, she could not help but exclaim, "Just as you guessed, there are a total of eighteen of them. It looks like you've swept clean all of the assets in Dubhe Pavilion. "

Upon seeing this, the nine spirits, Xiao Budian and Ling Tian all had a look of novelty on their faces.

"This thing is called 'Golden Immortal Yan Luo'."

Seeing everyone's expressions, Tang Huan could not help but laugh.

These eighteen petals of the "Smoky Firmament Golden Immortal", came from the Dubhe Pavilion, and Gu Ying who had stayed in the Dubhe Pavilion for an entire month was naturally Tang Huan. However, in that period of time, the person in front of him was not Tang Huan's main body, but his Immortal body clone.

At that time, Tang Huan had already transferred the "Myriad Sword Heavenly Diagram" into his clone's body, while his main body was still hidden in the cave.

Bringing so many peak-level Heavenly Kings into Dubhe Pavilion at the same time, was naturally for the sake of bluffing, making Dubhe Pavilion suspect his origins. In this way, even if the Dubhe Pavilion truly had ill intentions, they would first spend a period of time to investigate whether or not the previous nine days had a person like him.

This would definitely give him a lot of leeway.

Actually, after Tang Huan entered the third level, she was immediately able to leave with the "Monarch Moon Crystal Soul" and the "Yan Luo Golden Immortal". Even with the seal of the great formation and Meixiu watching over him, it was still unable to stop his "Yin-Yang dao diagram" divine ability.

The reason why Tang Huan did not act was because she wanted to see if she could find the whereabouts of the other seventeen "Smoke Flower Golden Immortal petals," and secondly, because she had not confirmed whether Mei Xiuya and the rest had ill intentions.

If Dubhe Pavilion had simply used the "Divine Moon Crystal" as compensation and found someone to repair the "Youluo Golden Immortal", Tang Huan would naturally not have done anything else. She would focus on repairing the "Heavenly Moon Golden Immortal" and then take the "Divine Moon Crystal" away. But unfortunately, Dubhe Pavilion did indeed have some other scheme.

After the restoration of the Yan Luo Golden Immortals came to an end, the power of the divine moon crystal soul within the petals had been greatly reduced. The connection between the flower petals and the other Yan Luo Golden Immortals that were suppressed by that power had become much clearer. This allowed Tang Huan to quickly conclude that the other seventeen petals should be on the second floor of Dubhe Pavilion.

Coincidentally, at that time, Mei Xiuya had left the third floor of Dubhe Pavilion and entered the second floor. Inside the great formation of Dubhe Pavilion, after Tang Huan activated the God Forging Crystal to its peak, it was even easier to investigate the situation inside than outside the pavilion.

After knowing the contents of the conversation between Mei Xiu Ya and the rest, Tang Huan naturally did not hold back.

After his main body left the cave space and merged with his Immortal body, Tang Huan didn't hesitate any longer and immediately took the "Divine Moon Crystal" and the "Smoky Golden

Immortal" away. Originally, Tang Huan planned to leave just like that, but Tang Huan didn't expect that all of the people on the second floor would all go to the third floor.

This was an opportunity bestowed by heaven, how could Tang Huan miss it? Thus, she used her supernatural ability once again and entered the second floor, taking away all the remaining seventeen petals of the "Youluo Golden Immortal".

After exiting the Dubhe Pavilion, Tang Huan did not delay at all and completely retracted her Qi. She then used the "Heavenly Invisibility" sacred art, and once again entered the "Myriad Sword Heavenly Diagram", and with Mo Wen Yun who was already waiting nearby, she took the "Myriad Sword Heavenly Diagram" and wandered around the city for a while before returning to the divine ark.

No matter how the cultivators of the Northern Dipper Immortal Sect searched or felt, they wouldn't be able to find Mo Wuyun within the divine vessel.

Presently, Dubhe City was already abuzz with excitement.

The blockade placed upon the city by the Dubhe Pavilion could not be maintained for too long, and as long as they stayed, they would be able to leave the Heavenly Pivot City and enter the Big Dipper. As long as the aura of the "Divine Moon Crystal Soul" was not leaked, even if he was walking outside, no one would be able to link him with the change in the Dubhe Pavilion.

Chapter 2084 - Something is not right!

"Tang Huan, what is this 'Yan Luo Golden Immortal' used for?" Mo Youyun asked curiously.

"I'm not sure yet."

Tang Huan shook her head and laughed, "However, this thing must be hiding a huge secret. After I repair all eighteen petals and synthesize them into a complete Yan Luo Golden Immortal, I should be able to find some clues ... "Um, I guess it'll take me another year or so."

"So long."

Jiu Ling rolled his eyes and laughed, "Big brother, why don't you go and capture that Mei Xiu Ya and search through his memories. They will all come out soon."

"That's a good idea."

Tang Huan nodded her head, and said seriously: "Jiu Ling, I will leave this mission to you."

"Huh?"

Jiu Ling was dumbfounded.

Seeing her like this, Xiao Budian, Ling Tian and Mo Hanyun could not help but laugh.

"Big brother, I can't do that. That guy is a Heavenly Emperor, and I'm just a Heavenly King. How could I possibly be a match for him now?" Jiu Ling came back to her senses, let out a dry laugh, and quickly changed the topic. "Right, big brother, where is the 'Divine Moon Crystal Soul'? Show it to us and see if it is really that magical."

"Don't be anxious, don't be anxious, I'll take it out now."

Tang Huan shook her head and laughed. With a thought, an even brighter ball of green appeared in front of everyone's eyes. It was a green ball that was the size of a bowl, sparkling and translucent, countless green Spirit Qi that seemed to hover around it.

However, what caused them to be even more shocked was that the green ball emitted an extremely tyrannical aura. The green ball seemed to contain countless volcanoes, and after it erupted, it seemed to possess the power to destroy the world.

"This is indeed a rare treasure that even Celestial Emperors would go crazy over." After a long while, Mo Hanyun finally came back to his senses and couldn't help but exclaim in admiration.

"Big brother, this thing can help you advance to a Medial level Sky Emperor?" Xiao Budian asked somewhat curiously.

"That's right."

Tang Huan nodded and smiled, "This thing can not only help me advance to a God Emperor, it can also help you and the Nine Spirits step into the lower Sky Emperor realm. In the next period of time, I will have to repair these eighteen Yama Golden Immortals. Jiu Ling, Xiao Budian, the two of you can focus on refining this' Divine Moon Crystal 'until your cultivations break through. "

Upon hearing this, Jiu Ling and Xiao Budian were beaming with joy as they nodded their heads repeatedly.

A "Divine Moon Crystal Soul" was enough to help many Upper Sky Kings advance to the Inferior Sky Emperor level. If she could also refine and absorb the power of the "Divine Moon Crystal Soul", she would definitely be able to break through the shackles of the Heavenly King Realm and become a true Heavenly Emperor.

It was a pity that her identity was different from the Nine Spirits and Xiao Budian.

Tang Huan had unreservedly trusted these two little fellows who had followed him from the lower realms. As for her, they were merely puppets controlled by Tang Huan, so naturally, it was impossible for Tang Huan to give such a precious thing to her for his to refine.

Furthermore, although Jianxin had greatly increased during the journey from the middle Heaven Realm to the Heaven Realm, he was still unable to control the two Heaven Emperor Golems.

Therefore, Jianxin definitely wouldn't allow her to advance to the Heavenly Emperor Stage in a short period of time.

At this time, she could only envy the good fortune of Jiu Ling and Xiao Budian. Under normal circumstances, it would take them at least ten years before they could be promoted to the level of Inferior Sky Emperor. However, the fortuitous opportunity Tang Huan brought them this time was enough for them to shorten their time to breakthrough to two years.

This meant that after absorbing the power of the "Divine Moon Crystal", the nine spirits and Xiao Budian would be able to step into the Heavenly Emperor Realm within two years.

Mo Wuyun's mind raced, but she could only sigh helplessly to herself.

"Big Brother, Xiao Budian and I have refined this" Divine Moon Crystal Soul ", is your remaining strength enough for you to advance to a middle level Sky Emperor?" After a moment, the nine spirits seemed to have thought of something and suddenly spoke up.

"Right. Big brother, it's best if you bind it all by yourself." Xiao Budian also came to her senses and said quickly.

"The two of you, don't decline."

Tang Huan laughed and said, "The amount of power contained within this 'Divine Moon Crystal' is beyond your imagination. It's enough for the three of us to use. "Come, try refining it now." After saying that, Tang Huan indicated towards the nine spirits and Xiao Budian. With a light wave of her right hand, the 'Divine Moon Crystal' floated over.

"Big Brother, is it really enough?" Nine spirit and Xiao Budian looked at each other and asked with uncertainty.

"When did I ever lie?" Tang Huan laughed involuntarily.

"Alright, let's give it a try." "Yes." Jiu Ling and Xiao Budian nodded their heads, and at the same time, placed their hands on the glittering "Divine Moon Crystal", and activated their cultivation techniques. Once the Divine Moon Crystal's Soul was touched, it immediately released an even brighter light. A terrifying aura surged out wave after wave.

"Wait!" But right at that moment, Tang Huan suddenly frowned, and bellowed.

"What's wrong?"

Jiu Ling and Xiao Budian immediately stopped, and not only them, Mo Hanyun and Ling Tian also looked curiously at Tang Huan, not understanding why he would stop them.

"There's something wrong with this thing."

Tang Huan said in a heavy voice.

Because of the time difference, when he was in Dubhe Pavilion, he did not inspect this "Divine Moon Crystal Soul" in detail, but at this moment, when the nine spirits and Xiao Budian had just begun refining it, he discovered that there was a strange soul aura mixed with the power aura of the Divine Moon Crystal Soul itself that had been emitted.

As soon as he finished speaking, Tang Huan reached out with his claw, and the "Divine Moon Crystal Soul" immediately appeared in front of him.

Immediately after, Tang Huan activated the God Binding Crystal to its limit, and the God Crystal's power whistled out, covering the entire "Moon God Crystal" and isolating it from the outside world. The God Creation God Crystal transcended the Heavenly Dao. By using this kind of power, one could completely cut off the connection between the soul aura and the outside world.

Seeing that, Jiu Ling, Xiao Budian, Ling Tian and Mo Hanyun could not help but look at each other.

From the change in Tang Huan's expression, they had also realized that there was some sort of danger within this "Divine Moon Crystal Soul", but they did not know if they had discovered it in time.

Just as their thoughts were spinning, Tang Huan had already slightly closed her eyes as her enormous mind completely enveloped the "Divine Moon Crystal Soul".

After around ten breaths of time, Tang Huan opened her eyes, the corner of her mouth hooked into a cold smile, and she slowly said: "The inside of this 'Divine Moon Crystal' has been assimilated by

someone into a Mind Stigma. The master of the Mind Stigma is extremely powerful, if my judgement is not wrong, she should be a peak Upper Sky Emperor! "

"Mind Stigma?"

Upon hearing Tang Huan's words, Mo Hanyun and the others could not help but look at each other in shock.

Chapter 2085 - Zhuo Qinglan

Nine Spirits instantly added, "We didn't discover anything just now."

"Your cultivations are lacking, so of course you can't discover it."

Tang Huan said in a deep voice, "That person's Mind Stigma had concealed themselves extremely well, and the fusion method was also extremely peculiar. Moreover, it was an Mind Stigma at the peak of the Upper Sky Emperor Realm, not to mention ordinary Heavenly Emperors, even cultivators at the peak of the Upper Sky Emperor Realm might not be able to discover its existence."

Mo Hanyun frowned and said, "They even used such a method. The Northern Dipper Immortal Sect really didn't plan to send out the 'Divine Moon Crystal Soul' for a long time."

"The reason why the Beitang Immortal Sect is doing this is to prevent accidents like this from happening."

Tang Huan laughed sarcastically, "Just now, when the nine spirits and Xiao Budian refined the 'Divine Moon Crystal', they touched the Mind Stigma. Right now, the master of the Mind Stigma must have sensed it."

"Hanyun, you go out first and take the 'Voidwave Divine Ark' to another place. If the people from the Beitang Immortal Sect no longer seal Dubhe City, you can also enter the Beidou Heaven first."

Tang Huan paused for a bit, then laughed, "We did this just in case. However, there is no need to be too worried, I have already completely isolated myself from the aura of the Mind Stigma. Even if that person had just sensed it, the connection between him and the Mind Stigma has already been severed. "

"Alright, I'll be going now." Mo Wuyun nodded.

"Take care of your own safety." Tang Huan warned, and with a slight thought, she sent Mo Wuyun out of the cave.

"Big brother, what should we do now?" Xiao Budian said somewhat worriedly.

"Don't worry, I'll refine this Mind Stigma later." Tang Huan laughed, "If the peak of the Upper Sky Emperor stood in front of me, not only would I be unable to do anything to him, I might even have to escape quickly. But the ones here are only the Mind Stigma of the peak of the Upper Sky Emperor, what is there to be afraid of?"

" ... "

...

In the central region of the Big Dipper, the Northern Dipper Immortal Sect.

In the sect's encampment, in a quiet and elegant valley, a palace was faintly discernible amidst the towering ancient trees. The surroundings of the palace hall were filled with a dense mist, making it seem like a paradise.

"Hmm?"

A low cry of surprise suddenly rang out in the hall.

On the outside, she looked to be around twenty years old, but the aura that faintly seeped out from her body was terrifying to the extreme. It was as if every single movement of hers could cause the Heavenly Energy to surge incessantly.

This white-clothed woman was the head of the Beitang Immortal School, Zhuo Qinglan. She was a peak level Heavenly Emperor. It was said that several thousand years ago, she had already reached this level of cultivation.

"The 'Mystic Moon Crystal Soul' has appeared!"

Zhuo Qinglan's eyes narrowed as a cold light flashed through them. She instantly closed her eyes and carefully sensed the situation, "The mental connection is so powerful, it seems like the 'divine moon crystal soul' has yet to enter the 'Big Dipper'. Furthermore, it has yet to enter the dark world of nothingness, if not, the mental connection would be even weaker ... In other words, the 'Divine Moon Crystal Soul' is still in Dubhe City, but that fellow has quite the guts. "

"Quickly send the message, tell them that the item is still in Dubhe City!" I will also head to Dubhe City later on! " The next moment, Zhuo Qinglan shouted.

"Yes, Sect Leader!"

A figure respectfully answered and left through the door.

However, just as he left, Zhuo Qinglan's expression changed: "What happened? The mental connection was actually completely severed? "

She was very clear about the Mind Stigma that she had left in the "crystal body of the divine moon".

As long as someone refined the "Divine Moon Crystal" and triggered the Mind Stigma, it would continuously release their soul aura. Even if someone was in an independent space, the connection between the Mind Stigma and her would not be severed, unless the Mind Stigma disappeared.

But now, the mental connection had been completely severed. Moreover, in Zhuo Qinglan's senses, the Mind Stigma clearly still existed, but she could not determine its location.

Even an independent space wouldn't be able to block the mental connection. Ordinary methods wouldn't be able to affect it at all. At most, it would only cause the mental connection to weaken a bit. The possibility of it being completely severed was extremely small, unless an Emphyrean acted.

That Gu Ying was obviously not an Sky Sovereign, and in the current Dubhe City, there was obviously no Sky Sovereign either.

Otherwise, that Sky Sovereign would have been able to detect the abnormality of the "Divine Moon Crystal Soul" a long time ago. It wouldn't have been so chaotic that she would have been able to sense the location of the "Divine Moon Crystal Soul."

However, something unthinkable happened.

Zhuo Qinglan stood up, frowning slightly as she paced back and forth in the palace.

After a short while, she once again sat cross-legged on the praying mat. Without closing her eyes, her slender and delicate fingers, like a butterfly, quickly danced in front of her body. Strands of white-colored odor s came out from her fingers, and with astonishing speed, blended into the surrounding space.

Not long later, the space in palace started to fluctuate slightly. A terrifying aura started to revolve and the power of the heavenly dao was activated.

"This is ..."

However, after the flick of a finger, Zhuo Qinglan once again opened his eyes. An incredulous expression could be seen in the depths of his eyes, "What method did that person use to deceive the Heavenly Dao?"

The Heavenly Dao was omnipresent and omnipresent. There were many things one could accomplish by communicating with the Heavenly Dao.

For example, re-establishing the connection between her and that Mind Stigma. Zhuo Qinglan had done so just now. However, the results of her attempt had surprised even her, a dignified peak-level Heavenly Emperor, greatly. After she communicated with the heavenly dao, she realized that Lian Tian Dao could not catch her Mind Stigma's position.

The Mind Stigma had always existed, but it seemed to have disappeared.

Zhuo Qinglan was well aware of what this meant. Someone must have deceived the Heavenly Dao in order for such an unbelievable situation to occur.

If he wanted to deceive the Heavenly Dao, then he needed a method that transcended the Heavenly Dao.

Under normal circumstances, such a method could only be used by a character who had proven to be a God! How could there be such a strong expert by Gu Ying's side?

Zhuo Qinglan rejected this thought in a flash.

If Gu Ying truly had such a Divine Ranker as her backer, why would she need to spend so much effort to obtain the 'Divine Moon Crystal' and the 'Youluo Golden Immortal'? As long as the Divine level expert gave the order, no matter how precious the "Divine Moon Crystal Bowl" and the "Youluo Golden Immortal" were, the Northern Dipper Immortal Sect would have already obediently offered them up.

Not to mention her, the head of the Beitang Immortal Sect, who did not dare to resist, even that Lord Reverend in the sect did not dare to have the slightest bit of complaint.

It seemed that Gu Ying, or someone beside him, had luckily obtained some kind of mysterious object that could transcend the Heavenly Dao. Of course, that strange item must have originated from a Divine level expert.

Chapter 2086

What exactly is it?

"What exactly is it?"

Zhuo Qinglan's brows tightened as he thought hard and whispered, "Could it be a magical equipment?"

The moment he finished speaking, Zhuo Qinglan's eyes couldn't help but light up, "Right, right, it must be a magical equipment, and only magical equipment can deceive the heavens, completely cutting off my connection with the Mind Stigma ... Eh? Not good, my Mind Stigma is actually weakening bit by bit? "

"Someone is refining my Mind Stigma!"

After a split-second, Zhuo Qinglan woke up as if from a dream, his eyes filled with shock and anger.

She was unable to determine the position of his Mind Stigma, but she knew that it was still there.

With a quick thought, she knew the reason.

Someone must have immediately started to refine it after cutting off her connection with the Mind Stigma. Once it was completely refined, that feeling of existence would completely disappear.

At this moment, Zhuo Qinglan couldn't help but feel anxious.

Even though Gu Ying was only a lower Sky Emperor, he was definitely accompanied by a peak Sky Emperor at the moment. Otherwise, it would be impossible to refine her Mind Stigma.

Once the Mind Stigma was gone, the chances of finding the "Divine Moon Crystal Soul" was practically zero.

"That Mind Stigma should be able to hold on for a few more days. We absolutely cannot allow it to be refined like this!" After a moment, Zhuo Qinglan's body shot up and disappeared from the palace. When she once again revealed herself, she was already standing in the middle of a mountain range that was shrouded in clouds and mist.

"Disciple Qinglan requests to meet Master!"

Zhuo Qinglan bowed, and in front of her was a round arched cave. The entrance to the cave seemed to be covered by a layer of mist, blurry and indistinct.

"Come in." After a long while, a faint and uncertain sound came out from the cave, and the cave became clearer.

"Yes, Master."

Zhuo Qinglan's figure slightly moved and entered the inside the cave. Soon after, the cave entrance returned to its original state and once again became blurred, exuding an endless sense of mysteriousness.

... ..

Tianshu City, Divine Ark parking area.

"Whoosh!"

A ten meter long Voidwave Divine Ark floated down. It was as white as snow and as sparkling as jade. At the head of the Divine Ark, there was an exquisite golden axe shaped imprint.

This was the emblem of Pan Xingtian's Pangu Sect.

"Phew!" "Whooosh."

After a moment, the surface of the divine vessel began to ripple. Then, a few figures flashed out, a total of six people.

"It's all thanks to the Pangu Sky Sect's Divine Ark that I was able to reach the Big Dipper Realm so quickly. Brother Pan, thank you so much."

The person who spoke was a tall and sturdy gray-robed elder with a fierce appearance. He was the Divine Firmament Sky Sect's Elder, Du Zhongxuan, who came from the Non-Phase Heaven stage.

"Brother Du, there's no need to be polite. It's on the way anyway."

A thin, middle-aged man laughed. He was Pan Yi of the Pangu Heaven Sect.

After escaping the calamity at the entrance of Wu Xiangtian, Pan Yi had brought his men to Hannya City. There was a messenger sent by the Pangu Sky Sect who had obtained a Voidwave Divine Vessel there.

The speed of the Pangu Sky Sect's divine boat couldn't compare to that of the Phecda Core Sect's, but its interior space was a bit larger, allowing it to carry even more cultivators more easily. After receiving the news that they were going to leave Wu Xiang Tian, Du Zhongxuan came to find them, wanting to go to heaven together.

With a God Emperor willing to travel alongside him, it was natural that Pan Yi would desire it.

After entering the dark void, it would be difficult for the Pangu Sky Sect's divine vessel to shake off the powerful giant beast by relying on its speed. If something like that really happened, then the person riding the divine vessel would naturally have to be as strong as possible. Needless to say, along the way, he relied on Du Zhongxuan to frighten and repel several dark void beasts.

"There seems to be something strange going on in this Heavenly Pivot City."

Suddenly, a voice came from behind him. It was a young man who spoke, "When I first came in, I realized that the exit seems to be sealed. I can only enter but not exit."

When Du Zhongxuan and Pan Yi heard these words, they couldn't help but look at each other, a few more traces of seriousness appearing between their brows. Instantly, Pan Yi instructed, "Pan Yuan, go investigate."

"Yes sir!"

The young man called Pan Yuan quickly left.

Pan Yue left quickly and came back quickly. Before long, his figure appeared once again in the line of sight of Du Zhongxuan, Pan Yi, and the others.

Pan Yi asked in a low voice, "Did you figure out what had happened?"

Pan Yuan hurriedly said, "Nearly a month ago, the Pavilion of Heavenly Secrets released news that they want to use the Spirit Moon Crystal's Soul as a reward to find someone to help repair a treasure of an elder of the Beitang Immortal Sect. That day, an Inferior Heavenly Emperor called Gu Ying ran in and stayed in Dubhe Pavilion for a month. "

Not long ago, there was news that Gu Ying had escaped and stole away the 'Monarch Moon Crystal Soul' and the treasure that needed to be repaired. So, Dubhe Pavilion sealed off the entrance and searched the entire city. "

"Originally, Dubhe Pavilion had already released the seal."

"But not long after, Dubhe Pavilion must have obtained some information from somewhere and once again sealed the city, then continued to search the entire city like a madman."

At this point, Pan Yuan chuckled as he gloated, "The Northern Dipper Immortal Sect is extremely unlucky this time. They even lost a treasure like the 'Divine Moon Crystal Soul'."

There was no wall in the world that was impervious to the wind.

Even though Dubhe Pavilion had kept this a secret, the news had still leaked out after causing such a commotion. Dubhe Pavilion's actions had already attracted the complaints of the cultivators within the city. As a result, it naturally caused more and more people to be waiting to see Dubhe Pavilion and even the Northern Dipper Immortal Sect become a joke.

Under such circumstances, it was naturally easy for Pan Yuan to get the information he wanted.

Du Zhongxuan, Pan Yi, and the others exchanged glances and saw an unconcealable look of shock in each other's eyes. The Divine Moon Crystal Soul was a treasure that was extremely valuable. Since the Pavilion of Heavenly Secrets dared to take it out, it must have full confidence in being able to protect it. Since Tianshu City should also have numerous experts from the Beitang Immortal Sect, but now, the 'Divine Moon Crystal Soul' had actually been snatched away by someone.

"Do you know who took the 'Divine Moon Crystal Soul'?" Pan Yi returned to his senses and asked curiously.

"Rumor has it that it's that Gu Ying." Pan Yuan asked in surprise.

"That Demigod?" Du Zhongxuan said in a deep voice.

"That's right!"

"To be able to take away the 'Divine Moon Crystal Soul' under the watch of so many experts of the Northern Dipper Immortal Sect and even after not discovering its whereabouts for so long, this strength and courage is truly not to be underestimated. Only, I wonder how long Tian Shu City will be locked down by them for?"

Chapter 2087 - Incitement

"That 'Monarch Moon Crystal Soul' was originally given to Gu Ying as a reward, so why did he take it away?"

Du Zhongxuan's brows furrowed slightly as he asked in puzzlement, "Is it because he was unable to repair the treasure that belonged to Dubhe Pavilion? Or could it be that after being repaired, Dubhe Pavilion did not give him any treasures? "

"This is unknown." Pan Yuan shook his head.

"I feel that the possibility of this happening in the future is extremely high."

Pan Yi laughed, "The 'Divine Moon Crystal Soul' is too precious. It is normal for Dubhe Pavilion to go back on their word. After all, this is not the first time the Northern Dipper Immortal Sect has

done this. However, they probably never would have thought that the lower Heavenly Emperor called Gu Ying would be this powerful. Not only did she take the treasures, he even successfully escaped. "

"Let's not worry about that for now. This is not something that we can get involved in."

Du Zhongxuan nodded his head, and then looked at Pan Yi with a smile, "Brother Pan, let's take a look first and see if Tang Huan and Mo Hanyun from the Celestial Pill Sect have reached the ninth day?"

"I already inquired about it along the way." Pan Yuan laughed, "About a month ago, a Phantom Pill Sect's' Emptiness God Ark 'entered Dubhe City. Someone saw a man and a woman coming out, and according to the description, they should be Tang Huan and Mo Wuyun."

"Oh? They are actually only a month ahead of us? "

Hearing this, Du Zhongxuan immediately clapped his hands and laughed, feeling both happy and surprised at the same time.

The speed of the xuanji Pill Sect's "Voidwave Divine Ark" was extremely fast. They had originally thought that they would be able to reach the nine heavens in four or five years. However, Du Zhong Xuan was relieved in an instant. After all, in the void of darkness, anything unexpected could happen.

A slight change could delay him for months, or even a year or two.

"Is this news accurate?" Pan Yi exclaimed in surprise.

"Absolutely."

"All of this information was purchased from the 'Heaven and Earth Pavilion'."

The so-called "Heaven and Earth Tower" was actually a place that sold information in Dubhe City. It was said that it was opened by a super great sect in the Upper Nine Heavens. As long as he got the news from the Heaven and Earth Tower, there would be no mistakes. Of course, some secret information was extremely expensive.

The voice paused slightly, and Pan Yuan continued, "Oh right, their 'Voidboat' has also stayed in this place for nearly a month. It has just left today. "He took advantage of the moment when Dubhe City released the blockade to enter the Big Dipper Realm. I estimate that less than an hour has passed since then."

"What?"

When Du Xiangxuan and Pan Yi heard this, they could not help but be greatly shocked. Tang Huan and Mo Hanyun had actually left for less than an hour?

In an instant, not only the two of them, even the surrounding people sighed in regret.

When they felt that they were about to reach Dubhe City, their moods had completely relaxed, and as a result, they deliberately slowed down the speed of the "Void Divine Ark". If they were to continue at their maximum speed, they could completely arrive two hours ahead of time and block Tang Huan and Mo Hanyun right in front of them in Dubhe City.

But now, Dubhe City had been sealed once again, so they could only allow Tang Huan and Mo Hanyun to flee further and further inside the Northern Dipper Realm, while they could only stay here.

"Since things have come to this point, there's no use in regretting it."

After a long while, Du Zhong gave a helpless smile, "Brother Pan, since we're temporarily unable to leave Dubhe City, why don't we release the news of Tang Huan first ..." As he said that, Du Zhongxuan seemed to have thought of something, and his face suddenly revealed a look of shock.

Pan Yi did not sense the abnormality in Du Zhongxuan's expression, however, he was very clear on Du Zhongxuan's intentions. He hesitated before saying, "The people from the Northern Dipper Immortal Sect are currently suffering because of the 'Divine Moon Crystal Soul' being robbed. I'm afraid that they will not be distracted and will not go and look for Tang Huan ..."

"Say, do you think that Gu Ying was disguised by Tang Huan?" Before Pan Yi could finish his sentence, Du Zhongxuan abruptly interrupted him.

"..."

Pan Yi and Pan Yuan were stunned. Wasn't this speculation way too whimsical? How could Tang Huan be that Gu Ying?

"Even though that Gu Ying is a lower Heavenly Emperor, what she did was not something an ordinary lower level Heavenly Emperor could do, and that Tang Huan is also not an ordinary lower level Heavenly Emperor. Not long after she advanced, he killed my junior brother Jiang Yu, who is already a peak lower level Heavenly Emperor."

Du Zhongxuan ignored them and continued, "Also, according to my judgement, Tang Huan is an extremely skilled Weapon Refiner. The dao flame she possesses is extremely mystical, it actually contains the meaning of primal chaos. If such a Dao flame was used to repair a Dao item, it could be said to be of no harm. In this regard, even if Tang Huan is not a saint rank work of heaven, his means are definitely above that of an ordinary saint rank work of heaven. "

Du Zhongxuan's tone gradually grew higher and higher, becoming more and more excited the more he spoke.

Pan Yuan glanced at Pan Yi and asked doubtfully, "But, according to the information I've bought, that Gu Ying has the body of a half immortal, is that completely inconsistent with Tang Huan?"

"How could it not? Hearing you say that, it's even more fitting. "

"At the Formless Heaven entrance, I once felt an extremely rich immortal spirit aura. Originally, I thought that it was because Tang Huan was carrying an extremely good quality immortal equipment, but now, it seems that it is most likely because he has a half immortal body."

Originally, he had only guessed this on a whim, but now, even he himself believed this guess by eighty to ninety percent.

"Brother Du, hearing you say this, there's really a great possibility."

When Pan Yi heard this, he was also pleasantly surprised, "Pan Yuan, immediately release the news about Tang Huan. Remember, don't say it directly. Tang Huan is actually Gu Ying, and that would cause the people from the Northern Dipper Immortal Sect to be suspicious of him."

"Understood, I'll go right away." Pan Yuan nodded and quickly walked away.

"..."

A piece of news quickly spread throughout Dubhe City. It was that a month ago, Tang Huan had already boarded the xuanji Pill Sect's Voidwave Divine Ark and arrived at Dubhe City.

Who was Tang Huan? She was the person who had shocked the entire nine heavens and the eighteen heavens!

Once he entered the King's Rankings, he would be at the top of the Rankings. However, it had only been a mere five years since he had occupied the top position of the Rankings, and his name had already disappeared from the rankings. The reason he disappeared was not because he died or was pushed off the King Board, but because he had already become a lower Heavenly Emperor ... This name had already been known by countless cultivators.

As a result, once the news was released, it attracted the attention of everyone in Dubhe City.

Quite a few people subconsciously wanted to find out more news about Tang Huan. They quickly found out that Tang Huan was a stunning Weapon Refiner, and could even be a Holy-ranked Skypalace. Furthermore, he possessed a Dao Flame that was incredibly mystical.

Not only that, it was rumored that someone had once felt an extremely strong Immortal Spirit Aura from Tang Huan's body.

Chapter 2088 - Flowing Cloud in All Directions

"Tang Huan... Gu Ying... "

Inside the Dubhe Pavilion, Mei Xiu Ya's brows were knit tightly together as she read out these two names again and again, "Eighth Elder, could it be that they are really the same person?"

"Very likely."

In front of Mei Xiu Ya, the black clothed middle-aged man nodded with a dark face, "Regardless of whether it's Gu Ying or that Tang Huan, he is not an ordinary lower level Sky Emperor. For Gu Ying to be able to easily repair the petals of the Yan Luo Golden Immortal, it is possible that he is truly a Weapon Refiner with a mystical flame.

Pausing for a moment, the black clothed middle-aged man muttered to himself, "And that Immortal Spirit Insight ..." Maybe Tang Huan really does have a Half Immortal Body! "

"But, isn't this too much of a coincidence?"

"The goal is for us, the Northern Dipper Immortal Sect and the Phecda Core Sect to engage each other. That Tang Huan is said to have boarded the Phoenixcloud Pill Sect's Voidwave Divine Ark 'to travel to the Heaven Realm from the Lower Heaven Realm and then from the Heaven Realm to Dubhe City. She might have been recruited by the Phantom Pill Sect 'long ago."

"It's not impossible."

The middle-aged man in black said slowly, "But we found out who spread this news." As he spoke till here, the black clad middle-aged man could not help but sneer, "The ones who spread this news should be people who have just come from the middle Heaven Realm. They might even have had a grudge with Tang Huan in that Heaven Realm."

"The eighth elder's judgement is extremely accurate."

Mei Xiuya nodded his head, "Not long before this news spread, a Pangu Heaven Sect's Voidwave Divine Boat entered Dubhe City from the void side."

"People have already recognized those people who came out of the Divine Ark as the Pan Clan Disciples that left Tianhuan City almost twenty years ago. When they left, there were more than two hundred people, and only six returned! Of course, this is because they changed the Divine Ark. Right now, that Divine Ark can't carry that many people. "

"However, this also proves that they have been to the Heaven Realm before. Otherwise, it would be impossible for them to exchange for this Divine Ark."

"The Pan Gu Heaven Sect?"

"Although the relationship between our Northern Dipper Immortal Sect and the Pangu Sky Sect isn't very good, it isn't too bad either. I don't think that they would deliberately provoke us to fight against the Phecda Core Sect. Moreover, even if they did provoke us, I don't think that they would do it so obviously."

Speaking to here, the middle-aged man in black suddenly asked, "Oh right, where is that Tang Huan now?"

"During the short time that we released the seal, the Divine Ark of the xuanji Pill Sect had already left Dubhe City and entered the Big Dipper. Tang Huan is definitely one of them. " At this point, Mei Xiu Ya couldn't help but become anxious, "Eighth Elder, do you need to send someone to catch up?"

"Immediately inform that great elder who was guarding the entrance to lead our people to track down that divine vessel."

After a moment of thought, the middle-aged man in black shouted, "Also, continue to lock down Dubhe City for a period of time, and keep an eye on those people from the Pangu Heavenly Sect."

"Yes, Eighth Elder, I will arrange it right away!"

"..."

...

"Not good, this matter needs to be reported to the High Lord."

In an antique shop south of Dubhe City, exclamations of surprise sounded out. The one who spoke was a beautiful and graceful black-clothed girl.

A girl in cyan beside her said gloomily, "Senior Sister Tan Yue, the entrance to the Heavenly Pivot City has already been sealed. We won't be able to enter the Northern Dipper Realm."

"Who said that if we don't enter the Big Dipper, we won't be able to contact the High Lord?"

Tan Yue laughed. "Knowing that Tang Huan only used five years to advance to a lower level Sky Emperor, the High Lord guessed that she probably obtained such a fortuitous opportunity by observing and observing the Great Cloud Wall in the Non-Phase Sky, and also predicted that he would soon leave the Heaven Realm and go to the Heaven Realm. Thus, she specifically sent me to

guard this place, and before we set out, the High Lord gave me something so that I could touch the Mind Stigma she left there after discovering Tang Huan."

"I see."

The azure-dressed woman suddenly said: "As long as the Mind Stigma is touched, the High Lord will immediately know, Tang Huan has already arrived in the Big Dipper Realm."

"That's right."

Tan Yue nodded. "At that time, the High Lord will personally rush over. Even if Tang Huan encounters some other danger, the High Lord can also help him settle it." While she was speaking, an additional white-green leaf had already appeared on her palm. It was sparkling and translucent like a glazed leaf, exceptionally agile.

"Rumble ..."

A strand of Sky Origin Stage qi seeped in, and the leaf immediately revealed a bright luster.

At this time, something seemed to have awoken from within the leaf. A strange undulation continuously rose from the leaf and quickly blended into the surrounding space.

"It's done."

Tan Yue slightly smiled and put the leaf into his bosom. "By now, the High Lord should have already sensed it."

Seeing that, the green clothed lady could not help but say with envy, "I never expected that the High Lord would actually look at Tang Huan, who came from the lower heaven realm, in such a manner."

"We can't envy you that."

Seeing her expression, Tan Yue unconsciously smiled and slowly said, "I once heard the High Lord mention that the High Lord was trapped in the lower realm for countless years. It was Tang Huan's help that allowed the High Lord to successfully escape. It can be said that Tang Huan owed a great debt to the High Lord, so the High Lord also treated Tang Huan as a little brother. "

The green-clad woman nodded in realization. "Senior Sister Tan Yue, what are we going to do now?"

"There's no need to do anything. Just pay attention to the movements of the Pavilion of Heavenly Secrets and the city."

"..."

... ..

Chi Xiao Tian, with his towering mountain peak and misty clouds.

"Hmm?"

Liu Li, who was sitting cross-legged inside the palace inside the mountain peak, let out a soft exclamation and abruptly woke up. He seemed to have sensed something and asked, "Is this because Tan Yue touched my Mind Stigma?"

"Tan Yue has gone to the Big Dipper Sect's Tian Zhu City and is waiting for Little Brother Tang Huan. It seems that he has indeed come."

"I haven't gone out for all these years. Right now, it's the right time to meet my little brother."

"..."

Amidst the light laughter, Liu Li's figure floated out and instantly disappeared into the distant horizon ...

... ..

"Gu Ying? Tang Huan? "

Within the Ancient Wood Concealed palace of the Beidou Immortal Sect, a delicate voice suddenly sounded out, "That Gu Ying is the one who stood at the top of the Heavenly King's List all those years ago? Is this news accurate? "

Zhuo Qinglan looked at the middle-aged man in front of him, puzzled.

The middle-aged man quickly bowed and replied, "Reporting to Sect Leader, this is the deduction made after Pavilion Master Mei and the Eighth Elder obtained some new information."

Zhuo Qinglan's dainty eyebrows wrinkled, "Have you found out the whereabouts of the Void Divine Ark or that Tang Huan from the Xuanji Pill Sect?"

"Not yet."

The middle-aged man shook his head with a bitter smile

Zhuo Qinglan's brows furrowed even more. In the blink of an eye, she looked to her right and said with a respectful expression: "Master, look ..."

The middle-aged man subconsciously followed Zhuo Qinglan's gaze and saw a figure approaching. It was a skinny old man in a black robe. The middle-aged man was shocked. If he remembered correctly, there was no one at that spot, but now there was another person at that place.

However, when he thought of the way Zhuo Qinglan addressed the old man, the middle-aged man could not help but be shocked. He quickly bowed deeply, "Greetings, Lord Sky Sovereign ..."

Chapter 2089 - Sunset Clouds Island

The Big Dipper, at the western border.

In between the towering mountains and lofty ridges, three large rivers intersected and merged into one, continuing to surge towards the east. However, at the intersecting point, it formed a huge lake.

In the middle of the lake, there was an island that was about ten miles in size.

The island was covered in trees, and many houses were scattered about. Those who lived here were all cultivators that came to the island to look for the Dao stones. In the northern part of the island, there was a very good place called "Cloudsoar Valley". The fog within the valley roiled about, but after entering the valley, one could often find quite precious dao stones.

Because of this, the Immersed Cloud Valley attracted a lot of cultivators from the smaller sects nearby. Because of the Immersed Cloud Valley, this island was also called the Sinking Cloud Island.

Every day, there would be people coming from the Sunset Clouds Island. Thousands of people would be going there.

One evening, a beautiful woman in red arrived at the Sunset Island and found a building without a owner to live in. Her arrival didn't attract anyone's attention. After all, most of the cultivators that lived on the island weren't familiar with her before, so they naturally didn't care about the number of people on the island.

A few days later ...

A few young men entered a nearby wooden building. As they inadvertently caught sight of the woman in red's face, they were immediately astounded. As a result, the activity of the woman in red began to be noticed by many cultivators on the island, especially the male cultivators.

Almost every morning, she would enter the valley once. However, every time, it seemed that she would leave empty-handed without any results. From the looks of it, besides being unlucky, her strength didn't seem to be that great.

The more powerful one was, the more time they would have to stay in the valley, and the more chance they would have to find precious dao stones. If one's strength was lacking, then they would lose their will to enter not long after. Then, they would be forcefully sent out by the power within the valley.

The woman in red had always entered the valley for a moment before coming out. It went without saying just what it meant.

Originally, everyone on the island felt that the woman in red was somewhat mysterious. This was because no one had been able to determine her true cultivation. Everyone thought that she was extremely strong, which was why she seemed so unfathomable. However, after knowing how she had performed in the Sunset Valley, everyone relaxed.

The woman in red must have used some sort of technique or weapon to conceal her cultivation.

After confirming this point, many of those who coveted the woman in red's beauty became restless. On the ninth night after that woman had arrived at Sinking Cloud Island, three men sneaked into her residence and didn't come out for the whole night. This made many people who had the same thoughts very upset.

If he had known earlier, he would have taken the first step and not let others take the lead.

However, on the morning of the next day, someone discovered that the three males were hung in a forest not far from the side of the wooden building. Their auras were all gone.

This caused everyone on the island to be incomparably shocked.

Those three were all seventh level heaven dukes, and yet they'd been so silently killed. In the Upper Nine Heavens, experts were as numerous as the clouds. Let alone a Grade Seven Heaven Marquis, even a peak Grade Nine Heaven Marquis was nothing. However, in the Sinking Cloud Island, a Grade Seven Heaven Marquis was truly an expert.

However, the expert died so easily. No one on the island heard anything.

That woman should not be the Heavenly King, as the Heavenly King would never be able to come to such a small place. If that was the case, she could very possibly be a peak-tier Ninth Heaven Marquis, or even a Heavenly King ... Only a cultivator of this level could easily kill three Tier 7 Heavenly Marquis.

After realizing this, those people who had evil intentions completely dispelled those thoughts.

The three companions of the level seven marquis didn't dare to say anything. After bravely putting their corpses down, they left the Sunset Island dejectedly. The cultivators who originally lived not far away all quietly moved their residences further away.

For a time, the area around the woman in red's residence was quiet.

"Tang Huan, how much longer before you refine that Mind Stigma?" Inside the wooden building, the woman in red sat cross-legged on the ground as she muttered to herself.

"About nine days? "Fine!"

As if she received a response, the red-clothed girl helplessly nodded.

The woman in red was Mo Hanyun, and the one who replied was naturally not Tang Huan but Jianxin.

Taking the chance that Dubhe City had released the seal, she entered Northern Dipper, but she was only able to control the divine boat to fly forward for a short while, before she kept it. Then, she brought the "Myriad Sword Heavenly Diagram" to such an inconspicuous place, and stayed there for a while, waiting for Tang Huan to finish refining the Mind Stigma.

He stood up and left the wooden building with the Ten Thousand Swords Heavenly Diagram in his hands. He then headed in the direction of the Sunset Valley.

The dao stones produced by the Chenyun Valley were rare treasures to the cultivators on this island. However, she, who came from the Phecda Core Sect and had seen countless rare treasures, was not the least bit interested in them. The reason why he went to the Sinking Cloud Valley was to follow the customs of the country.

Within the estate. Within Supreme Mystery Temple.

Tang Huan held onto the "Divine Moon Crystal", without moving, like a sculpture. However, an extremely terrifying aura continued to surge out from within the crystal soul, like a raging wave. Waves after waves, ripples that could be seen with the naked eye appeared in the surrounding space.

That Mind Stigma was truly worthy of being a powerhouse from the peak of the Upper Sky Emperor Realm. It was extremely stubborn, and the resistance it produced was also extremely tyrannical.

Tang Huan used the Cast God Crystal to cut off the mental connection between the brand and its master, and then activated the "Primal Chaos Dao Flame" to refine it.

This was also the reason why Tang Huan was only a lower Sky Emperor. If he was also a peak late stage Sky Emperor, refining that Mind Stigma was just a matter of time.

Days passed.

On Sinking Cloud Island, Mo Hanyun still went out once a day, went to the Sinking Cloud Valley, and then returned to her residence. On Sinking Cloud Island, Mo Hanyun still went out once a day, went to the Sinking Cloud Valley, and then went back to her residence.

Inside the cave, Tang Huan had already activated both the God Creation Divine Crystal and the Primal Chaos Dao Flame to the limit.

In the depths of the "Divine Moon Crystal Soul", the Mind Stigma that had been refined for dozens of days had already been weakened to the extreme. It could completely collapse and dissipate into nothingness at any time.

"I'm finally going to succeed."

Tang Huan's face revealed a relaxed smile.

Suddenly, a "pah" sound was heard. It sounded like the bursting of a bubble. But right at this moment, Tang Huan's expression couldn't help but change slightly.

Chapter 2090 - Sky Sovereign

The moment the Mind Stigma exploded, an incomparably tyrannical power rose up.

This power came quickly, and left even faster. However, in the process that it disappeared in a flash, it broke through the seal formed by the power of the Tang Huan Divine Crystal.

After being completely isolated for nearly twenty days, the Mind Stigma's soul aura finally leaked out.

If it was only that, then it was fine, but at the moment his Spirit Qi leaked out, Tang Huan actually felt a trace of the fluctuation of the Heavenly Energy.

This sudden commotion gave Tang Huan a bad premonition.

"We need to leave this place immediately."

A thought flashed through Tang Huan's mind, and she made this decision without hesitation.

On Sinking Cloud Island, the moment Mo Hanyun returned to his living quarters, he couldn't help but be stunned. The Myriad Sword Heavenly Diagram flickered out of his chest without any warning and then quickly expanded. The next moment, a slender and straight black figure appeared.

"Tang Huan, you ..."

Before she could finish her sentence, Tang Huan said in a deep voice, "This place has probably already been exposed. Han Yun, you go in first."

Without waiting for Mo Hanyun's permission, the landscape painting swept past her and sucked her in.

Tang Huan's face became gloomy, and in the span of a mind instructs (in a second), the scroll once again closed and returned to the Dantian, and then, he used the sacred art 'Void Evasion', and her figure quickly disappeared.

It was no wonder that Tang Huan's actions were a little urgent. It was because the message from the situation earlier was too dangerous.

He was able to use the Heavenly Energy to spy on him the moment his soul aura was revealed, and even went deep into his cave ... This method was definitely not something that the owner of the Mind Stigma, the Sky Emperor at the peak of the realm, could do.

The one who made a move just now was most likely the Heavenly Sovereign of the Beitang Immortal Sect.

If it was a peak stage Sky Emperor, even if Tang Huan was no match for him, she could still preserve her life. But if the Sky Sovereign gave chase, then it would be hard to say.

Therefore, Tang Huan had to leave as fast as possible, and the farther the better.

In the blink of an eye, Tang Huan's figure had already appeared tens of thousands of kilometers away. However, in less than half a blink of an eye, Tang Huan had disappeared once more. At this time, Tang Huan had already completely restrained all of her aura, and the God Crafting Crystal was still being used to its fullest extent.

This way, he could first avoid being sensed by others, and secondly, deceive the Heavenly Dao.

Just that, whether this method would be effective against Empyrean level Rankers, Tang Huan did not know. After all, other than the Cast Divine Dragon Abyss and the Nine Colors Palace, the strongest cultivators he had ever encountered were the Heavenly Emperor. She was temporarily unsure of the strength of an Empyrean.

Of course, the Empyrean clone that Tang Huan eliminated in the Tian Clan's lower realm could not be counted as one of them. The Empyrean clone's strength had already been suppressed countless of times when it remained in the lower realm. Otherwise, with Tang Huan's current cultivation and strength, she wouldn't have been able to do anything to it.

Fortunately, Tang Huan still had another insurance.

At this moment, he was holding a white and green crystal leaf in his hand.

This was what Liu Li had given her before she left the "Heavenly Imperial Dragon Palace" all those years ago.

If there really was an Empyrean level powerhouse chasing after him, then this leaf would be of use.

This was because the Heavenly Emperor Liu Li from back then had now become the Heavenly Sovereign Liu Li. He occupied Scarlet Firmament, and his fame had long ago spread throughout the entire Heaven Realm.

Tang Huan thought quickly, but her speed did not slow down at all, her figure kept flickering ...

... ..

On the Sunset Clouds Island.

Not long after Tang Huan left, the air above the island started to tremble violently, an extremely terrifying aura of heavenly dao emerged, causing a strong pressure to spread out instantly. In an instant, ripples that could be seen with the naked eye enveloped the entire island, including the vast space.

This sudden change caused the expressions of all the cultivators on the island to change, and they were overwhelmed with shock.

In an instant, the entire island fell into a deathly silence.

"Hu!"

After a short moment, there seemed to be a sound of something tearing through the air.

High up in the sky, a black figure suddenly appeared in the area with the most intense fluctuations. It appeared to be a skinny old man in a black robe.

He shifted his gaze and the old man in black descended towards the south of the island. His figure then disappeared into the forest.

After another short moment, the sky above the island returned to calmness. The horrifying pressure also instantly disappeared, and the old man in black also did not appear again.

Only then did the cultivators on the island recover from their shock, as if a heavy burden had been lifted off their shoulders.

However, they were still feeling relaxed, and their hearts were full of doubts. Just what kind of cultivation level was that person? Just his appearance was enough to cause such a commotion? Just as everyone was feeling suspicious, some of the cultivators suddenly realized that the place where the black-robed old man had disappeared to seemed to be where the mysterious woman in red lived.

This made everyone curious.

Not long after, someone stealthily and stealthily made his way over.

However, when he looked, he discovered that not only was there no trace of the black-robed old man that had just fallen down, even the woman in red that had just left Sunset Valley had also disappeared without a trace.

The crowd was even more bewildered, but one thing was certain, the old man in black was most likely after that mysterious woman in red. They didn't know where he had gone, whether he had taken her away, or whether he had sensed her ahead of time and escaped from Chen Yun Island.

They did not know, nor did Mo Wuyun know where Tang Huan had taken her to.

Within the space of the cave, in Supreme Profound Hall, the nine spirits, Xiao Budian, Ling Tian and Mo Hanyun were gathered together. Although it was not good for them to contact Tang Huan and disturb him, but through the Sword Heart, they could understand the situation of the outside world at this moment.

[illegible]

Swordheart revealed that there seemed to be a great enemy on the level of an Ascendant moving around.

In regards to this, Jiu Ling, Xiao Budian and the others were also powerless. After all, amongst the few of them, the strongest was only the Peak Sky King, and they were not even the lower Sky Emperors. They did not have any possibility of fighting against the Sky Sovereign and could only hope that Tang Huan could turn the situation around.

In the outside world, Tang Huan's face was filled with calmness but she still did not stop.

He had a faint premonition that if there really was an Empyrean level powerhouse behind him, it wouldn't take long before he could catch up. His divine ability 'Air Escape' was indeed shockingly fast, but in terms of speed, there was still quite a large gap between it and an Empyrean.
