

W. Master 2101

Chapter 2101 - Myriad Dragon Sword Sect

Upon hearing this, both Pan Zhou and Pan Xin frowned slightly.

The alliance between the Pangu Heaven Sect, the Northern Dipper Immortal Sect, and the Unparalleled Dao Gate was originally a verbal agreement. The three sides had never sworn an oath on the Heavenly Dao, and their trust bases were extremely low to begin with.

His lips slightly moved, and just as he was about to speak, a hearty laugh resounded through the sky, "The few of you from the Pangu Heavenly Sect, Northern Dipper Immortal Sect, and Unparalleled Dao Gate, you don't have to be tangled up over anyone else. Let me handle this matter for you, hahahaha ..."

In the sky in front of them, eight figures flew over as if they were flying.

The person at the very front was an old man who looked to be around sixty years old. He wore a purple robe, and although his appearance was ordinary, his entire body was surrounded by an unbridled and overbearing aura, as if he was a high and mighty emperor.

Not only that, but the aura that emanated from the purple-robed old man was terrifying to the extreme.

The seven people behind him were young and old, men and women, and yet their auras were also incredibly powerful. This group of people were all obviously Empyreans that had occupied a part of the Divine Realm.

When the eight Empyreans arrived together, they immediately felt a heart-palpitating pressure.

Seeing these eight people suddenly appear, Pangu's Sky Sect's Pan Zhou, Pan Xin, and the Unparalleled Dao Sect's Yan Guang's faces immediately changed color. Although the black cicadas from the Northern Dipper Immortal Sect didn't show any changes in their expressions, the aura radiating from their bodies only became increasingly colder.

"Yunxiu, I didn't expect you to come too!" The black cicada's tone was as cold as water as it spoke word by word.

"If you can come, then why can't I?"

The purple-robed elder called Yun Xiu laughed out loud. He stopped above the Nine Palace Mountain and looked down at peaks's Liu Li from above. His gaze became serene in an instant, as if he wanted to pierce through her soul.

"You just advanced into the Empyrean level and you're already ranked 28, able to defeat two Empyreans of the Pangu Heaven Sect. Now, even the twentieth rank, Black Cicada, has been defeated by you ..."

"Little miss, not bad, not bad. In the past ten thousand years, the most outstanding Heavenly Sovereign in the Heaven Realm has indeed been you. After a few tens of thousands of years, perhaps even this old man might not be your match."

"Little girl? Are you calling me? "

Liu Li pursed her lips with a strange expression on her face.

On the summit, Mo Yun Hua Tian Chi was already very nervous, especially Hua Tian Chi. Although he was a peak Sky King, these were all Sky Sovereign Stage powerhouses that were in front of him. Normally, they were rarely seen, but now, there were more than ten of them.

This was something that had already appeared. There might even be some hidden in the distance that had yet to appear.

Each and every one of these Emphyreans could crush him to death like he was an ant. Now that they were all gathered here, the psychological pressure of the Heavenly Lake could be imagined.

Tang Huan remained calm, but after hearing Yun Xiu's words, his expression became strange as well.

As for the three people of nine spirits, Xiao Budian and Ling Tian, they were currently not at the summit of the nine palaces. The moment the protective shield formed by the large array collapsed, Tang Huan had absorbed it into the cave.

Yun Xiu seemed to have noticed that something was wrong and couldn't help but raise his brows slightly.

At this time, Liu Li turned her gaze towards Tang Huan and smiled, "Little brother Tang Huan, this fellow called Yun Xiu came from the 'Myriad Dragon Sword Sect' of Yu Long Tian. She used to be first on the revered list and is now eighth on the honorary list. "Amongst Emphyreans, they aren't the strongest, but they are the oldest and also the most arrogant."

"So that's how it is, no wonder the word 'old' was written all over his face." Tang Huan laughed.

"How dare you!"

Yun Xiu shouted with a deep voice, his voice was like a thunderclap, the anger between his brows was faintly discernable.

Currently, there were a total of 40 or so Emphyreans in the Heaven Realm. He was the oldest and had already stepped into the Emphyrean Realm the earliest.

However, the only reason why he was able to reach that position was because the Heavenly Sovereign who was ranked ahead of him had vanished in the face of the Dao. This allowed him to make a breakthrough in the rankings, but in less than a hundred years, a junior had already surpassed him. Since then, more and more of his juniors had surpassed him.

His ranking was going lower and lower as well.

Every time he thought about it, his heart would ache. And now, it could be said that Liu Li had stabbed his sore spot, immediately making him angry.

"Yun Xiu, is there anyone called Yun Feiling in your Myriad Dragon Sword Sect?" Liu Li ignored his shouts and asked with a smile.

"It is indeed the Yuan Ancestor of our Yun Family."

Yun Xiu snorted with a dark expression. Immediately, he asked with some surprise, "How do you know?" It was unknown how many generations of his ancestors Yun Feiling had lived in the past. The reason he could remember this name was because Yun Feiling was once an Emphyrean.

However, Yun Feiling had another name, Yun Zhan. Because he was crazy about fighting, he gave himself this name.

On the contrary, no one knew about Yun Feiling's life. Yun Xiu knew this because he had experienced the cultivation experience left behind by this ancestor.

But how could Liu Li know?

Liu Li laughed as she narrowed her eyes, "Back then, when that Yun Feiling saw me, he had to address me as 'Big Sister' respectfully. You, Yun Feiling's descendant, actually dared to call me 'Little Girl'? If Yun Feiling is still alive, seeing how rude you are to me, I'm afraid that you, your unworthy descendant, will be smacked to death. "

"What?"

Hearing Liu Li's words, Yun Xiu couldn't help but be shocked.

The Black Cicada, Painted Bird, and Pan Zhou all looked at each other in surprise. Although they had never heard of Yun Feiling, since he was the ancestor of Yun Xiu, he must have lived for a very long time. Such a person actually called Liu Li elder sister, just how old was this woman?

"This is utter nonsense."

Naturally, he would not believe these words. If Yun Fei had not turned into ashes in the past, he would have died due to the coming of the end of his lifespan. If this Liu Li really knew Yun Feiling, how could she have lived for such a long time?

This Liu Li must have somehow found out about the existence of Yun Feiling, the distant ancestor, and deceived him.

"Liu Li, you dare to insult my ancestor. You are really reckless."

Instantly, Yun Xiu said coldly, "However, this old man can give you one more chance, quickly hand Tang Huan over, and this old man will spare your life, if not, I'm afraid that you will be removed from the revered list today."

Chapter 2102 - Qin Xian Ye

"They are indeed unworthy descendants!"

Liu Li gently shook her head, and looked at Yun Xiu with a hint of ridicule in her eyes. "At first, I wanted to leave some face for you after knowing Yun Feiling, but since you're so tactless, I can only help Yun Feiling teach this disappointing descendant a lesson."

"Teach this old man?"

Yun Xiu did not get angry. Instead, he laughed, as if he had heard the funniest joke in the world.

"Little girl, are you not afraid of making people laugh their teeth off by saying such big words?"

When Pan Zhou, Black Cicada, Pu Yang and the rest heard this, they could not help but laugh.

No matter how strong Liu Li was, there was only one person at the peak of the nine palaces. And on this peak, other than her, was either the Heavenly Emperor or the Heavenly King ... These people did not have any chance to resist in front of the group of Sky Sovereigns.

Today, if Liu Li gave up protecting Tang Huan, then it would be fine, but if she protected Tang Huan to the death, then maybe she would even throw her life away.

Liu Li didn't seem to hear Yun Xiu's mockery. Under everyone's gaze, she suddenly revealed a strange smile and said, "Immortal leaf, I'll leave it to you!"

"Immortal leaf?"

Hearing these words, the crowd was filled with bewilderment. Could it be that there were other Emphyreans in Liu Li's Nine Palace Mountain?

Just as Pan Zhou and the others were puzzled, the expression on Yun Xiu's face slightly changed. He suddenly had a bad premonition in his heart.

"Yes, Senior Liu Li!"

A vigorous voice suddenly sounded.

Almost an instant later, a circle of minute ripples appeared in the air in front of Liu Li. In less than half a blink of an eye, a white shadow separated itself from the air at lightning speed.

"Immortal leaf?" Qin Xian Ye? "

Yun Xiu was startled, but in the next moment, his expression changed. He stared at the old man in white robes and couldn't believe his eyes.

When Pan Zhou, Pan Xin, Black Cicada, Painted Bird Yan, and Lian Jin heard this name, they all came to a realization. They all sucked in a breath of cold air at the same time.

"You, you ..."

After a while, as if he had just awoken from a dream, Yun Xiu said with an ugly expression, "Why are you here?" In his eyes, there was actually a deep sense of dread, even fear.

On the ranking board, there were several people. Even for someone like him who was also an Emphyrean, his face still paled.

One of them was none other than Qin Xian Ye, the second ranked super expert on the ranking board. His cultivation had long since reached the limits of an Emphyrean, and his strength had already reached the pinnacle.

What was different from most Emphyreans that came from super sects was that Ye Wuque had always been alone.

After realizing that the person in front of him was ranked second on the rankings, Yun Xiu's astonishment could not be described with words. He had never thought that Qin Xian Ye would appear on Nine Palace Peak, and that he would have a deep relationship with the woman called Liu Li.

One rank 2, one rank 28 ...

The difference in strength between the two was so great that it exceeded one's imagination. If Liu Li referred to Qin Xian Ye as 'senior', then that was normal. However, the situation was reversed. The former referred to Qin Xian Ye as 'senior', which was very strange.

Could it be that what Liu Li said was true, and that she did indeed know her family's distant ancestor, Yun Feiling?

"If you can come to this place, then why can't I?"

Qin Xian Ye smiled indifferently, "Senior Liu Li is my respected elder. For a small matter like disciplining an old friend and an unworthy descendant, let me do it for you." With that, Qin Xian Ye started to dance in the air as he walked step by step towards Yun Xiu. There was still a faint smile on his face.

"Wait!" "Wait!"

Yun Xiu's face paled as cold sweat dripped from his forehead. He shouted anxiously, "Brother Qin, it's a misunderstanding! It was just a misunderstanding..."

Before he could finish, Yun Xiu's voice suddenly stopped.

At this moment, Qin Xian Ye had already appeared in front of Yun Xiu. He placed his right index and middle fingers together and slowly pointed at Yun Xiu's abdomen.

His previous arrogant and domineering aura had already completely vanished, and his entire face had become hideous and distorted. He desperately tried to dodge, but his body was completely restrained, and he was unable to move an inch as he helplessly watched the two fingers get closer and closer to his body.

Seeing this scene, the faces of Pan Zhou and the others changed.

They had almost never interacted with Qin Xian Ye before, but as the second ranked existence on the ranking board, he must be someone who had the means to transcend the heavens. Everyone was well aware of this. However, no one expected that the eighth on the ranking list, Yun Xiu, would be completely controlled by Qin Xian Ye in an instant.

In front of Qin Xian Ye, the shockingly powerful Yun Xiu actually had no way to resist.

These were all the top ten powerhouses of the ranking, but was the disparity really that great? If even the Yun Xiu was like this, wouldn't they, who were ranked lower on the ranking board, be unable to withstand a single blow?

At this moment, everyone's faces were ashen, their souls trembling in fear.

In peaks, other than Liu Li who still had a smile on her face, the rest of the people were staring at her with their mouths agape, completely dumbfounded. Even Tang Huan was no exception.

In front of Qin Xian Ye, the eighth ranked Yun Xiu was like a clay puppet; he couldn't even move.

Furthermore, even with Tang Huan's super strong Perception Ability, she did not realize how Qin Xian Ye had sealed the Yun Xiu. One thing she could be sure of was that Qin Xian Ye had definitely controlled the power of the Heavenly Energy. However, Tang Huan could sense that the Heavenly Energy in the area wasn't fluctuating at all.

Without making a sound, Yun Xiu was controlled by Qin Xian Ye.

From this, it could be seen that Qin Xian Ye's comprehension and control of Heavenly Energy far exceeded that of Yun Xiu's. The two were on completely different levels. Tang Huan was unable to

sense what kind of method Qin Xian Ye used, and it was naturally because the difference between his cultivation level and Qin Xian Ye's was too huge.

"Brother Qin, show mercy, show mercy ..."

Yun Xiu screamed, his face was filled with unconcealable fear and dread.

However, Qin Xian Ye remained unmoved. In an instant, his two fingers, under the gaze of the crowd, landed on Yun Xiu's abdomen.

As soon as his finger touched Yun Xiu, his expression immediately became sluggish like a deflated ball and his appearance visibly aged. Originally, Yun Xiu seemed to be about sixty years old, but now he appeared to be eighty or ninety years old, as if he had stepped into a coffin.

"Yun Xiu, today is merely a punishment. If there is a next time, there is no place on the honorary list. Scram!" Qin Xian Ye said slowly.

Chapter 2103 - Honorary List - 2

"Yes, yes, thank you, Brother Qin!"

Yun Xiu seemed to have escaped from a strong prison and regained his mobility. He cupped his hands towards Qin Xian Ye as though he had met an amnesty. Then, as if he had thought of something, he turned around and bowed deeply to Liu Li with a face full of unconcealable bitterness, "Thank you, Liu Li ... Senior! "

With that said, Yun Xiu didn't dare to waste any more time and flew off into the distance with all his might.

The few people who followed him came back to their senses, their hearts were filled with fear, they subconsciously wanted to chase after Yun Xiu, wanting to distance themselves from this place. However, when they saw the smiling Qin Xian Ye and the smiling Liu Li on the summit, they did not dare to make even the slightest movement.

Qin Xian Ye allowed Yun Xiu to leave, but did not allow them to leave with him.

Although they didn't know what kind of damage Qin Xian Ye's attack had done to Yun Xiu, they could guess that Yun Xiu's injuries were definitely not light. If they were to escape and cause Qin Xian Ye to be angered, it would be too late to regret it.

Since they were all like this, naturally, the Emphyreans such as Pan Zhou, Pan Xin, Black Cicada, Painted Bird Yan, and Lian Jin were even more so.

Qin Xian Ye's power was far beyond their expectations.

With the previous example of Yun Xiu, they were now completely silent, not even daring to breathe. Their eyes were filled with fear and shock, and even the face of the black cicada had become clear. Its eyes were sunken in, and its cheeks were sunken like a skeleton's; it was extremely unsightly.

"You can get lost now!" Qin Xian Ye looked at everyone and waved his hand as though he was shooing away flies.

"Yes!" "Yes!"

"Goodbye!" "Farewell!"

"..."

Everyone felt as if a heavy burden had been lifted, and in just a short while, all of them had disappeared.

The cultivators in the distance who had hidden themselves in the darkness and hadn't shown themselves also didn't dare to pause for a moment, and they all began to flee into the distance at the fastest speed possible.

In the blink of an eye, the mountain peak returned to its previous tranquil state.

"Senior Liu Li, it is fortunate that you did not fail your mission. From today onwards, no one will come to bother you at the Nine Palace Mountain anymore." Qin Xian Ye floated down to the peak of the mountain as he smiled.

"Truly worthy of being the second rank on the revered list."

Liu Li smiled as she looked at Qin Xian Ye, teasing him, "I wasted so much saliva previously, but it was nothing compared to the two fingers you poked out."

"Senior must be joking."

Immortal Qin Ye couldn't help but say, "The reason why Senior has only recently advanced to the Sky Sovereign Realm is because Senior has been stuck in the 'Heavenly Imperial Dragon Palace' for countless years. However, in those countless years, Senior has accumulated more resources than anyone else."

"Although that Yun Xiu is a nuisance, he was right about one thing."

"Before long, not only will Senior surpass him, he will also surpass me. Even that old guy who's ranked first on the Prestigious List will not be a problem. In the current Heaven Realm, there are several tens of Emphyreans, but the person who has the highest chance of successfully verifying the Divine Dao is definitely Senior. "

"Celestial leaf, I'll thank you for your auspicious words first."

Liu Li beamed as she spoke.

Qin Xian Ye also laughed: "Senior, since the matter has been settled, I shall take my leave first. If you need anything in the future, you can summon me anytime."

"Alright, you can go now."

Liu Li did not urge him to stay and only nodded with a smile.

Qin Xian Ye nodded his head and smiled, his gaze sweeping across Tang Huan's body. There was some meaning in his eyes, but he did not say a word. A moment later, the space where he stood started to fluctuate slightly. His figure actually swiftly merged into it.

In an instant, only Liu Li, Tang Huan, Mo Wen Yun and Hua Tian Chi were left on the summit.

Even though Tang Huan's face was rather calm, the shock that she felt in her heart, was not any weaker than the two of them.

Initially, Tang Huan had thought that an intense battle would be inevitable when she saw the Empyrean level experts, such as Lian Jin, Hua Yan, Black Cicada, Pan Zhou, Pan Xin, and Yun Xiu, appear on the stage one after another.

He had always been curious as to how his big sister Liu Li would deal with this crisis.

Or perhaps he could use an abnormally powerful treasure to instantly send the people on the peak out ... Or perhaps he used some sort of special method to scare off those Empyreans ...

Tang Huan had thought about many possibilities, and also thought that Liu Li would probably ask for Sky Sovereign level help.

However, Tang Huan had rejected this possibility the first time. Firstly, he had never seen any outsiders on the Nine Palace Mountain, and secondly, there were too many Sky Sovereigns gathering here. If she were to request for help, how many people would she need? It had only been nine days since Liu Li entered, so the number of Ascendants he had invited could not be that high.

However, what made Tang Huan even more surprised, was that the least possibility of such a situation actually appeared.

Liu Li had indeed invited for help, and only one person had been invited. However, it was that person who had scared all the Empyreans into fleeing in panic. The intense battle that he had imagined had ended before it had even begun. The great danger had been easily resolved.

However, this method of resolving the crisis was even more shocking than an intense battle.

The Sky Sovereign was the peak existence of the Heaven Realm. To the countless cultivators of the Heaven Realm, the Sky Sovereign was always a superior and mysterious being. Even to Tang Huan, it was about the same. However, in that split second, that feeling had completely shattered in Tang Huan's mind.

The two fingers that Qin Xian pointed out not only punished Yun Xiu, but also completely shattered the reverence Tang Huan had for the Sky Sovereign.

"Little brother Tang Huan, you must have a lot of questions now, right?" A light laugh suddenly sounded out, immediately bringing Tang Huan, who was still immersed in thought, back to reality. In the blink of an eye, she looked over, and saw Liu Li smiling at him.

"Elder sister Liu Li, you've really hidden a trump card like this tightly."

Tang Huan shook her head and laughed, and couldn't help but exclaim.

It was no wonder that Liu Li didn't pay attention to the other Empyreans that had gathered around Nine Palace Mountain and repeatedly told him to be at ease here. With the aid of the second ranked expert, what other dangers were there that he couldn't resolve? This trump card of hers was indeed too powerful.

With today's scene, the news would definitely spread far and wide.

Before long, the entire Heaven Realm would know that Liu Li of the Nine Palace Mountain was called "Senior" by Qin Xian, who was ranked number two. From now on, no one would come to the Nine Palace Mountain to cause trouble.

No matter how unwilling the Beitang Immortal Sect was, they could only swallow the bitter consequences of the tribulations of the "Divine Moon Crystal Bowl" and the "Smoke Immortals".

At this point, even if the Beitang Immortal Sect leaked the news of the Yan Luo Golden Immortal, it wouldn't be of much use.

As long as Tang Huan did not leave the Nine Palace Peak, she would not need to worry about threats from the outside world.

Chapter 2104 - The Celestial Court

Even if Tang Huan left the Nine Palace Mountain, those people would only sneakily make their move, and would not dare to act as openly and brazenly as they did today.

"I wanted to give you a surprise." Liu Li said with a smile, "How about this surprise?"

"This surprise is indeed great."

Tang Huan laughed helplessly, then asked curiously, "Sister Liu Li, how did you get to know that Sky Sovereign?"

"This matter is rather coincidental."

Liu Li said with a smile, "Not long after I arrived at the Nine Palace Mountain, I entered the void of darkness to search for some immortal herbs. In the end, I ran into Qin Xian Ye in a fragment space. At that time, he failed his first attempt at becoming a Divine level expert and his life was hanging by a thread. Coincidentally, I saved him. That's why this time, as soon as he received my summons, he immediately rushed over to help. "

"So that's how it is."

Tang Huan came to a realization, "To prove the position of the God is indeed difficult, even someone like him failed. However, after this failure, the next time I want to reach the Divine Level, it will be even more difficult and the possibility of success would be even lower. " Saying this, Tang Huan could not help but sigh.

In this Heaven Realm, every Sky Sovereign will have three chances to reach the Divine Level.

If he failed the first time, if he could preserve his life, he could try a second time. However, when he tried again, the difficulty would increase exponentially, and it wouldn't just increase by one or two times. Of course, if he wasn't able to keep his life when he made his first attempt at the Divine level, then everything would be over.

In the history of the Heaven Realm, most of the experts who had successfully verified their Divine Places had succeeded on their first try.

The second success was extremely rare, and the third success was naturally even rarer.

Also, the failure of the first Divine Body, meant that his life had entered the countdown. Within a thousand years, he had to make a second attempt, or else, the heavens would melt, and not even a bit of his residual soul would be left. If he failed the second time, he would have to try the third time within a thousand years.

Qin Xian Ye had failed once, the possibility of him successfully proving the Divine Throne was extremely slim.

"Indeed."

"There's nothing we can do about it. Over the years, there have been many Empyreans that have appeared in the Heaven Realm, but very few have been able to prove their existence as Dao Gods. The vast majority of Empyreans failed the first time they tried."

Speaking up to this point, Liu Li's brows raised and revealed a slight smile. "However, his second success rate for reaching the Divine level might be a bit higher than the first time."

"Why is that?" Tang Huan asked doubtfully.

"Supposedly, he has already found traces of the 'Immortal Spirit Ancestral Court'." Liu Li's face was full of smiles.

"Immortal Spirit Ancestral Court?"

Tang Huan was secretly shocked.

This was not the first time Tang Huan had heard of "Celestial Ancestral Temple". Back then, when she was training in the "Primal Beginning Immortal Domain", the "Yuan Zheng", who was condensed from the residual soul of numerous ancient immortals, had also revealed to Tang Huan information regarding the "Celestial Ancestral Temple". That place was said to be the source of all ancient immortals, an incomparably mysterious place.

"I'm not sure yet."

Liu Li nodded and said, "However, at most a hundred years, there will probably be results. If you are able to step into the Sky Sovereign Realm within these hundred years, then maybe you will also be able to enter the 'Immortal Spirit Ancestral Court' to look for opportunities. It's said that even the Celestial Emperor wouldn't be able to enter that place. Only Empyrean can enter that place. "

"Advancing to become an Empyrean in a hundred years is beyond difficult." Tang Huan patted her forehead and said helplessly.

"How old are you now?"

Liu Li unhappily rolled her eyes at Tang Huan. Without waiting for Tang Huan's response, she continued, "You're not even two hundred years old, right? With a mere 200 years of age, you can go from an ordinary person from the lower realms to a lower level Heavenly Emperor. Within a hundred years, to a lower level Empyrean from a lower level Heavenly Emperor, what's so strange about that? To others, this is completely impossible, but for you, it's extremely possible. "

Tang Huan was a little speechless. She didn't expect Liu Li to have even more confidence in him than he did.

"Moreover, you have now obtained the 'Monarch Moon Crystal Soul'. Even if you absorbed a portion of the energy absorbed by the nine spirits or Xiao Budian, the remaining should be enough for you to advance to a God Emperor."

"So, as long as nothing unexpected happens, with your innate talent and potential, the possibility of advancing from the God Emperor to a lower Empyrean in the following time is extremely high. Don't belittle yourself."

"Okay, Sister Liu Li, I will do my best."

Tang Huan nodded her head and smiled, a trace of hope and expectation rose from the bottom of her heart, maybe it was really possible.

Sky Emperor was divided into lower, middle, and upper echelons, and Empyrean was also the same. Within a hundred years, it was only a lower Empyrean. Perhaps the chances of this happening weren't small at all.

With a quick thought, Tang Huan became excited, and asked strangely: "Oh right, Sister Liu Li, how is Yun Xiu's injury?"

"His Dao Nascent Soul has already been severely injured. If he wants to recover, it'll probably take more than twenty years." Liu Li laughed, "Seeing that his cultivation was not easy, the Immortal Leaf did not do anything inappropriate. Otherwise, Yun Xiu's entire Dao Nascent Soul would have collapsed."

"With this kind of lesson, I believe he won't dare to have any presumptuous thoughts in the future."

Tang Huan sighed and then changed the topic. She spoke a little urgently: "Sister Liu Li, this matter should not be delayed. There are no dangers now."

"Alright, go ahead and be at ease. I will take care of everything outside."

"..."

The entire Upper Nine Heavens quickly bustled with noise and excitement, as if a powerful hurricane had swept across the lake's surface. The calm lake water immediately turned into a monstrous wave.

Pan Gu Heavenly Sect's Pan Zhou, Pan Xin, the Beidou Immortal Sect's Black Cicada, Unparalleled Dao Gate's Consecutive Entering, Engraving Painting, and the Myriad Dragon Sword Sect's Yun Xiu... A dozen or so Heavenly Sovereigns rushed towards the Nine Palace Mountain and appeared one after another, to force the Heavenly Sovereign Liu Li to hand over the genius Weapon Refiner, Tang Huan. However, just as the announcement was about to be made, Qin Xian Ye, who was ranked second on the Honorary Ranking suddenly appeared. He effortlessly injured Yun Xiu, scaring away all the Sky Sovereigns.

The moment the news was released, countless cultivators from the ninth heaven were shocked.

Liu Li was merely an Empyrean that had just been promoted. It had only been nine days since she entered, but she never thought that she would have such a close relationship with a powerhouse of that rank.

Qin Xian, who had always been alone, actually went to protect Nine Palace Peak. With the protection of such a strong enemy, who would be able to touch the Nine Palace Mountain and Tang Huan?

Chapter 2105 - Consecutive Promotions

After the extreme shock, the cultivators that had been on the verge of moving for the next nine days all stopped. As for the people from the Beitang Immortal Sect, they also stopped all movements.

Everything seemed to have returned to normal.

The only change was that the Beitang Immortal Sect had lost an incomparably precious "Divine Moon Crystal". If one added in the unknown "Yan Luo Golden Immortal", the losses could be described as "heavy". Even though this was the case, the 'Northern Dipper Immortal Sect' could only swallow this resentment.

At least, for the time being.

Qin Xian Ye was on the same mountain that was pressing down on the body of the Northern Dipper Immortal Sect, causing him to not dare to make the slightest bit of movements. The incident that happened to the Beitang Immortal Sect also caused many of the cultivators of the nine heavens to feel pity, sympathy, or gloat over his misfortune ... Because of this, they had a lot to talk about in their free time.

However, with the passage of time, the matter gradually settled down. It was just that when they talked about it occasionally, everyone would still be curious as to what level the Tools Method Attainments had reached to Tang Huan, who had caused such a huge commotion.

Unknowingly, about half a year had already passed.

"Rumble ..."

An earth-shattering sound erupted from the depths of the sky. It was as if thunder had exploded, resounding across the entire Heaven Realm in an instant.

Soon after, the void surged as a terrifying aura howled down from the sky, wantonly spreading throughout the world.

This was the aura of the Heavenly Dao!

At this instant, almost all the cultivators in Crimson Sky Kingdom were alarmed. In these nine days, the reactions of the cultivators were naturally much faster.

Everyone immediately realized that this was someone advancing to the Heavenly Emperor Stage.

In an instant, countless people sensed the terrifying Heavenly Energy and began to search for the source of the commotion. They wanted to see who it was that had advanced to the Heavenly Emperor Stage.

"Nine Palace Peak!" The one who got the promotion to Heavenly Emperor is on the Nine Palace Mountain! "

"It really is Nine Palace Mountain ..." "However, there are only a few people on Nine Palace Peak right now."

"Could it be that one of the maids of the Heavenly Sovereign Liu Li had achieved a breakthrough?"

"..."

Ten thousand miles northeast of Nine Palace Mountain was a small city with over a hundred thousand cultivators. After a moment of shock, the small city began to boil.

As the closest city to the Nine Palace Mountain, the cultivators there could clearly feel the commotion. In a short moment, they were able to determine that the source of the commotion was from the Nine Palace Mountain. In an instant, almost all the gazes in the city turned towards the Nine Palace Mountain peak.

Everyone was astonished, but the envy in their eyes couldn't be suppressed.

In the Heaven Realm, although there were many Heaven Emperors, they were not to the point of being everywhere. To the vast majority of cultivators, the Heavenly King was someone they could

only look up to, let alone the even more powerful Heavenly Emperor. The appearance of a newly ascended Heavenly Emperor was enough to attract the attention of the large sects.

Therefore, news about this spread all over the city. Although they didn't know who had broken through, as long as they knew that person was at the Nine Palace Peak, it would be enough ... This was especially true half a year ago, when a shocking event occurred on the peak of Nine Palace Mountain.

Only after a long while did the commotion from the Nine Palace Mountain peak gradually calm down. The surging Heavenly Energy also quickly withdrew.

The cultivators in the small city, on the other hand, continued to chat excitedly.

"Rumble ..."

However, it didn't take long for a loud sound to burst forth from the depths of the sky.

The space shook violently and the terrifying Heavenly Energy once again surged out. In an instant, it enveloped the small city and rapidly expanded across the world at a speed that even the mind could not catch ... It hadn't even been a quarter of an hour and such a commotion actually happened again.

Not only that, the commotion originated from the peak of the Nine Palace Mountain.

Was there someone in the Nine Palace Mountain who had advanced to the level of a Demigod Celestial Emperor?

In a split-second, the entire city fell into a deathly silence. Many cultivators turned their heads and stared straight at the Nine Palace Mountain, their eyes bulging out of their sockets.

It would be difficult for any other sect, even the super sects, to think of a Celestial Emperor. Yet, in such a short period of time, two of the Nine Palace Peak disciples were promoted to Heavenly Emperor Stage consecutively. If this news were to spread, who knew how many cultivators would be amazed.

At the waist of the Nine Palace Peak, in a wooden building.

"First it's nine spirits, then it's Xiao Budian ..."

Mo Congyun sighed lightly. The envy in her eyes was so strong that it seemed like it was going to spill out at any moment.

In just a short span of half a year, Nine Spirits and Xiao Budian had, with the help of the "Divine Moon Crystal", stepped into the realm of the lower Sky Emperors one after another. In the past half year, although she had not relaxed her cultivation, her cultivation had not improved at all. As for advancing to Heavenly Emperor, there was not even the slightest hint.

Of course, she also knew that even if she showed signs of being promoted to Heavenly Emperor, Jianxin would still interfere with her soul and would not allow her to break through at this time.

However, it was still much better to be able to see a glimmer of hope.

However, in the other wooden building not far from where she was, Hua Tian Chi was actually quite agitated at the moment. The fact that Nine Spirits and Xiao Budian had broken through to the lower realm of Heavenly Emperor in succession had indeed provoked him.

Although he was also incomparably envious, what was different from Mo Wuyun was that not only was he not discouraged in the slightest, he was instead growing more excited, and his conviction to follow Tang Huan had also become even more resolute. He believed that as long as he followed Tang Huan, he would definitely be able to get promoted to the Sky Emperor, and maybe even further.

"To think that these two little fellows actually broke through one after the other."

At the peak of the ninth palace, Tang Huan slowly opened her eyes and let out a light breath. A hint of a smile floated onto her face as she softly sighed with emotion, "That 'Mystic Moon Crystal Soul' is indeed extremely miraculous!"

At this moment, the nine spirits and Xiao Budian were not inside the Glass Palace.

When Qin Xian Ye left, Tang Huan summoned the nine spirits and Xiao Budian out of the cave and asked Liu Li to arrange a place for them to stay. After all, he was going to repair the petals of the 'Youluo Golden Immortal'. If he continued to stay in the same place as them, it would likely interfere with their cultivation.

In this half a year, Tang Huan had not seen Jiu Ling and Xiao Budian, but Tang Huan had always been well aware of their cultivation situation.

With their talents and potential, with the help of the "Divine Moon Crystal Balls", it was natural for them to break through.

Following that, they only needed to consolidate their cultivation, and it was also the right time for Tang Huan to borrow the "Divine Moon Crystal" to raise his own cultivation.

Looking at the dazzling golden flower in his palm, a smile rose on Tang Huan's face.

Chapter 2106 Make it behave!

This was already the last petal of the "Smoky Firmament Golden Immortal". Just as Xiao Budian had levelled up to become a Lesser Heaven Emperor, Tang Huan had finally finished repairing it.

At this point, the restoration of the eighteen "Yan Luo Golden Immortals" petals had been completed.

Compared to Tang Huan's initial expectations, more than half a year had already been shortened by a lot. Tang Huan was already very satisfied that she had used such a small amount of time to complete the repair.

"Gather these eighteen petals together. Let's see what exactly is the Yan Luo Immortal Manor?"

With a thought, the other seventeen golden petals appeared in front of Tang Huan, and right at this moment, a violent buzzing sound abruptly shook the area.

When the eighteen petals appeared together, it actually produced a strong resonance, causing a brilliant golden light to explode outwards, instantly filling the entire palace.

"It can actually gather itself?"

Tang Huan was startled, and immediately understood what was going on.

When these petals collapsed in the Celestial Realm, they were supposed to be in the complete form of the Youluo Golden Immortal. It was only due to the long years of erosion from the power of the

Divine Moon Crystal that they were split apart. Now, the power of the divine moon crystal spirit that was immersed within the petal had completely vanished, and the immortal spirit energy within the petal had been greatly stimulated. Although the spirit energy had not reached its peak state yet, it was already much stronger than before.

Now that the eighteen petals had gathered together once more, the strong connection between the petals would naturally allow them to swiftly combine together, as if they were metal that had touched a magnet.

In moments, those petals had formed a complete golden flower.

"Whoosh."

The moment the flower appeared, a majestic aura of immortality gushed out of the flower like a volcanic eruption, and seemed to have solidified. Wherever it went, the quiet space of palace seemed to be stirred up by a hurricane, and visible undulations appeared in the air.

Tang Huan clearly felt the change and could not help but feel her heart skip a beat.

With almost no hesitation, Tang Huan's five fingers formed a ditch as she grabbed towards the "Yan Luo Golden Immortal" in the darkness. On the tip of her fingers, the strong Sky Origin Stage Qi roared out, its power capable of toppling mountains and overturning seas.

But right at this moment, the "Smoke Fairy" suddenly closed and then bloomed again. When the petals opened, an extremely ferocious power surged out like a torrential flood. It surged out like a thunderbolt, as if it could cause all the obstacles in the world to fly away.

In a split-second, the energy clashed against the Sky Origin Stage force that was surging out from Tang Huan's finger.

The terrifying Strength Qi surged in all directions, and Tang Huan's claws immediately felt an unparalleled attack power, which unexpectedly bounced off uncontrollably, while the Yan Luo Golden Immortal turned into a ray of golden light and shot out towards the entrance of the palace.

This "Yan Luo Golden Immortal" was indeed trying to escape!

Tang Huan frowned, her face sank, and the Myriad Sword Heavenly Diagram suddenly appeared and unfurled itself from the golden flower, releasing the terrifying sucking's power which enveloped the Yan Luo Golden Immortal.

"Buzz!"

The fleeing momentum of the golden flower immediately slowed down, but right after, a rumbling sound like that of thunder suddenly burst forth. As the flower rapidly trembled, a strange yet powerful fluctuation roared in all directions, instantly cancelling out the sucking in the painting.

Tang Huan could not help but reveal a surprised look in her eyes.

With his current strength, he was able to control the cave and even an Inferior Heavenly Emperor Stage expert would be able to enter the sucking. However, the newly formed "Yan Luo Golden Immortal" was able to easily escape.

"Whoosh!"

In the blink of an eye, Yan Luo's Golden Immortal transformed into a ball of light and arrived at the entrance of the palace.

Without much time to think, Tang Huan chased after it. It took him a lot of effort to finish repairing the eighteen petals, if she were to let it escape after condensing the complete Yan Luo Golden Immortal, it would be a huge joke. However, in the next moment, Tang Huan stopped, and a smile appeared in her eyes.

At the entrance of the hall, countless green and white vines suddenly appeared, crisscrossing each other and forming a wall of vines, blocking all exits of the palace.

Seeing this scene, Tang Huan knew that Liu Li had arrived!

Regarding this, Tang Huan was not the least bit surprised. Just now, there was such a huge commotion in the hall, if Liu Li, the master of Nine Palace Peak, did not know about it, then she would have become the Heavenly Sovereign in vain.

The vine wall appeared too suddenly, and Yan Luo Golden Immortal did not have the time to stop his charge. Perhaps he had never thought of stopping it at all. In the blink of an eye, it heavily collided against the vine wall. It was like a rock had smashed into a ball of cotton as it completely sunk into it.

"Bam!"

With a muffled sound, the golden flower sank into the wall of vines.

The powerful force of the impact was completely absorbed by the vine wall. The "Monk Yanluo Golden Immortal" seemed to be a bit flustered, the eighteen petals actually began to rapidly flap, continuously releasing powerful forces in an attempt to break free of the vine wall. However, before it could succeed, the wall of vines began to wiggle.

Vines separated themselves from the walls and swarmed in from all directions.

With only a blink of an eye, Yan Luo's Golden Immortal was sealed within the vine wall. The vine wall rapidly shrank, and in an instant, it became a round ball the size of a washbasin. Almost at the same time, Liu Li's graceful figure appeared in Tang Huan's line of sight.

"Sister Liu Li, it's a good thing you arrived in time." Tang Huan unwittingly smiled, "Otherwise, if this Yan Luo Golden Immortal managed to escape, then all my effort would have been in vain."

"Even if I don't come, it won't be able to escape from your hands."

Liu Li unhappily rolled her eyes at Tang Huan, then held the round ball and slowly walked in. The surface of the ball was still bulging from time to time, showing that the "Smoke Golden Immortal" was not willing to give up, and was still desperately struggling inside, trying to break free from the shackles of the rattan ball.

Tang Huan smiled slightly, as if she had tacitly agreed to Liu Li's words. She continued to speak, "Sister Liu Li, the 'Yan Luo Golden Immortal' has already been formed, next, you only need to wear down its resisting power and then merge it with the Mind Stigma. Then, you should be able to activate it and create the 'Yan Luo Immortal Manor'."

"If you want to fuse with a Mind Stigma, you'll need to fuse with your Mind Stigma as well."

When Liu Li heard this, she smiled and said, "This thing is yours, I don't want it. Elder sister, I just want to enter the 'Heavenly Net Immortal Mansion' to gain some knowledge and experience."

"Sister Liu Li ..."

Tang Huan waited for a while longer before Liu Li waved his hand, "Little brother Tang Huan, you don't need to say anymore. It's settled then."

Chapter 2107 - Immortal Mansion

Seeing that Liu Li was adamant, Tang Huan had no choice but to agree.

Liu Li's method of making the "Smokey Golden Immortal" behave was very crude. The rattan ball spread out and turned into countless rattan vines, but they circled around it, cutting off any possibility of it escaping.

Shortly after, a few vines would land on the golden flower.

Its movements appeared to be rather light, but every time the vine touched a flower, there would be an invisible force that would rush into it, causing a strong impact to the soul of the "Golden Smoke Immortal".

But even so, it still took a full nine days before the "Yan Luo Golden Immortal" finally quieted down.

Even an Empyrean level expert had personally made a move. From this, it could be seen just how stubborn the resistance of the 'Monarch Golden Immortal' was. However, from this, he could vaguely feel that the "Heavenly Net Immortal Mansion" that the "Heavenly Net Golden Immortal" carried must also be incomparably mysterious.

"You can begin."

With a gentle wave of her right hand, the vines wrapped around the "Smoking Golden Immortal" disappeared, and the golden flower floated in front of Tang Huan.

"Big brother, hurry, hurry."

By the side, Jiu Ling and Xiao Budian looked forward to it. They were a little impatient, and Ling Tian was also blinking his eyes, staring at the Yan Luo Golden Immortal.

Mo Congyun and Hua Tianchi were also looking on without blinking, their expressions full of curiosity.

Tang Huan took a light breath and caught the "Smokey Golden Immortal" in her palm. After being worn out by Liu Li for such a long time, she did not have the slightest intention of resisting anymore. Following that, Tang Huan's soul force penetrated the flower continuously, and in a short while, a Mind Stigma was formed.

In the next moment, Tang Huan felt a strange connection between him and the "Yan Luo Golden Immortal".

"Rumble ..."

Following that, with a slight movement of Tang Huan's thought, the Yan Luo Golden Immortal started to tremble, and started to exude a bright light.

In the center of the flower, a golden vortex appeared in a flash and expanded at a speed visible to the naked eye. In an instant, it was already a dozen metres in size, and deep within the vortex, there was an extremely dense immortal aura that continuously rose, filling up the entire palace.

Seeing that, everyone's eyes could not help but light up.

"Let's go in!"

Tang Huan laughed, with a wave of her hand, her body flickered, and she entered the whirlpool. Liu Li, Jiu Ling, Xiao Budian and the rest immediately followed.

The moment he entered the whirlpool, Tang Huan felt a gentle force pulling him back and forth.

With a flick of his finger, his feet once again stepped onto the ground. The golden light that was originally stuffed in front of his eyes immediately dispersed, and Tang Huan's vision quickly returned to clarity.

In a white misty space, a manor stood alone.

Magnificent and magnificent.

The immortal spirit aura that seeped out from the mansion was so majestic that even Tang Huan felt like she was going to be assimilated and melted by it the moment she felt it. However, in the next moment, a feeling as if water and milk had fused together involuntarily, and actually made Tang Huan feel as if she was bathed in spring breeze.

Tang Huan knew that the reason why she had such a feeling was because of the divine clone.

"What a great gift."

At this moment, a praising voice sounded out. It was Liu Li who had also entered this place. She sighed with emotion, "The entire mansion was actually formed from the will of an immortal spirit."

After Liu Li, Jiu Ling, Xiao Budian, Ling Tian and Mo Wen Yun Hua Tian Chi's figures also appeared almost at the same time.

"It's really like that!"

Tang Huan was slightly startled, and immediately sucked in a breath of cold air. The huge mansion in front of him was indeed completely condensed from immortal spirit energy. Although she didn't know what was going on inside the house, she could tell by looking at the house that to the avatar, it was a holy land for cultivation.

"Let's take a look inside."

After a while, Tang Huan, Liu Li and the rest rushed forward at the same time.

The door of the manor was opened, but outside, it was impossible to see the situation inside the manor. At the entrance, ripples would surface from time to time, completely blocking everyone's line of sight, and above the door, were carved the words 'Heavenly Dragon Dance'. Upon closer inspection, it was actually the words 'Heavenly Net'.

"Whoosh!" "Woosh ~ ~ ~"

Tang Huan and the rest did not pause for even a moment, and in the next moment, one figure after another passed through the entrance.

A vast golden space appeared in front of everyone's eyes ...

The shape of the space was like a flower petal of a 'Smoke Powder Golden Immortal'. When placed in the flower petal space, everyone could feel the immortal spirit aura become even denser and the surrounding space seemed to have solidified.

"Big brother, this place doesn't seem to be suitable for me." The color on the nine spirits' faces changed slightly, "The immortal spirit aura here is too dense, it actually started to erode my power."

"Me too."

Xiao Budian could not help but speak, Ling Tian also had the same feeling, his eyes rolling around, his pupils full of surprise.

If even they were like this, naturally, there would be no exception.

Furthermore, compared to the two who were already low level Heavenly Emperors, Nine Spirits and Xiao Budian, the two of them felt it even deeper. Shock had already surfaced on their faces.

"You guys are in luck."

When she saw their expressions, Liu Li couldn't help but laugh, "The Yan Luo Immortal Manor's original intention was not to erode your powers, but to use the Immortal's Will to cleanse and purify your bodies, transforming them into a pure Immortal body, just like Little Brother Tang Huan's Immortal body."

"What happened after he transformed into an Immortal?"

The Nine Spirits' beautiful eyes lit up. Hua Tianzhi and Mo Wuyun could not help but feel moved upon hearing this.

"Of course I don't have any power. If I want to recover to my current state, I'll need one or two hundred years." Liu Li smilingly sized up Jiu Ling before turning her gaze towards Hua Tianchi and Mo Hanyun. "Jiu Ling takes one to two hundred years. If you're talking about this, it'll probably take hundreds of thousands of years."

"Then forget it, my body is already very strong now." Jiu Ling smiled in embarrassment before saying painfully, "Big brother, I'll go out and wait for you. If I continue to stay here, then I won't have any of my strength remaining." As she spoke, Jiu Ling did not stay any longer and ran out like a wisp of smoke.

"Big brother, I'll head out as well." Hearing that, Xiao Budian also followed along.

"..."

After them came Ling Tian, Mo Wen Yun and Hua Tian Chi.

In just a blink of an eye, only Tang Huan and Liu Li remained within the space of the flower petals.

Tang Huan could not help but burst into laughter, and then instantly sighed: "Just the fact that it could transform into an immortal body, is already extremely mystical." Back then, in order to obtain a pure Immortal Body, he had put in a lot of effort. However, she could easily obtain a pure Immortal Body in this "Heavenly Abyss Immortal Mansion".

Chapter 2108 - Mysterious Area

"That's right."

Liu Li nodded slightly, "In this Heaven Realm, countless people can't have a pure immortal body even if they wanted to. However, this' Yan Luo Immortal Mansion 'actually managed to continuously transform a cultivator's flesh body into an immortal body. "Before this, I thought that only the Immortal Spirit Ancestral Court could have such a use, but I never thought that the Yan Luo Immortal Manor could do the same."

Tang Huan laughed: "Compared to the 'Immortal Spirit Ancestral Court', the effect of the 'Heavenly Net Palace' in this area should be far worse."

"Of course."

Liu Li nodded with a smile, "The Immortal Spirit Ancestral Court is the source of the ancient immortals. No matter how strong this Yan Luo Immortal Manor is, it can't be compared to the Immortal Spirit Ancestral Court. However, from the fact that it is able to transform into a deity, it seems that this Yan Luo Golden Immortal is definitely related to the Immortal Spirit Ancestral Court. "

Tang Huan was startled, but immediately thought: "Sister Liu Li, what you mean is, this' Yan Luo Golden Immortal 'could have come from the' Immortal Spirit Ancestral Court '?"

"That's just my guess."

Liu Li laughed lightly, "Little brother Tang Huan, you are now the master of this' Yan Luo Golden Immortal ', so after sensing it carefully, you might be able to discover some clues. If you are able to find information about the Immortal Spirit Ancestral Hall in this' Yan Luo Immortal Palace ', in the future, you will definitely have a huge advantage."

"I see." Tang Huan could not help but laugh.

"Okay, little brother Tang Huan, you stay here and inspect, I will also go out first." Liu Li narrowed his eyes and smiled.

"Sister Liu Li, aren't you going to test the effects of cultivating here?" Tang Huan immediately called out to Liu Li who was about to turn around and leave.

"I've only come here to broaden my horizons."

Liu Li smiled happily, "This place is indeed a holy land for cultivation, but it is only suitable for cultivators with pure immortal bodies or half celestial bodies. Those who want to possess a pure immortal body are also suitable to stay here. As for me, although I can cultivate here, the effects won't be that great. "

"Don't worry about me." Don't worry about me.

Finished speaking, Liu Li floated away.

With her departure, only Tang Huan remained in the area of the flower petals.

Although Tang Huan was a little helpless, she could only calm her mind and focus, activating the Dantian's Dao Nascent Soul, "Nine Yang Divine Furnace" and the God Creation Divine Crystal. Her mind, which had already risen to the limit, immediately exited her body, continuously fusing into the space of the flower petals, then quickly spread outwards.

Tang Huan's Mind Stigma had already merged with the "Yan Luo Golden Immortal", and when they investigated the "Yan Luo Immortal Manor" that it carried, they had the enormous advantage of being blessed by the heavens.

After a long while, Tang Huan's eyes that were slightly closed suddenly opened, revealing a strange expression.

He had already realized that the space he was in was only a small part of the Yan Luo Immortal Manor. The Smoky Golden Immortals were formed by eighteen petals. Correspondingly, there were also a total of eighteen petals in this sort of space. The eighteen petal spaces revealed layers of progressive relationships.

Within each petal space, there was something similar to a formation core.

Tang Huan needed to activate the Formation Aperture before she could enter the next layer of space between the petals. The order was similar until she arrived at the eighteenth layer.

As for the final petal ...

"Huh?"

Tang Huan suddenly exclaimed as her eyebrows slightly knitted together, her face revealing a look of astonishment. In the next moment, Tang Huan once again closed her eyes and carefully tried to sense the surroundings.

This time, it was only after a long period of time had passed that Tang Huan opened his eyes once again, and a trace of suspicion flashed within his eyes.

The distribution of the eighteen petal spaces were the same as the petals of the "Smokey Golden Immortal", and in the center of those petals, there was even an extremely mysterious area. Even if Tang Huan were to merge the Mind Stigma into the "Yan Luo Golden Immortal", he would still not be able to touch the inside of that area.

The eighteen petal spaces were like stars surrounding the moon as they guarded that mysterious area, thoroughly stopping Tang Huan's mind from probing further.

For a moment, Tang Huan could not help but frown as she fell into deep thought.

In that moment, he suddenly understood that his Mind Stigma had indeed successfully merged with the Yan Luo Golden Immortal. However, he was not the true owner of the Yan Luo Golden Immortal so he could only be considered the owner of the treasure.

If Tang Huan was its true master, there would be no need for him to spend so much effort to investigate and sense it. With just a slight thought, the situation inside the "Yan Luo Golden Immortal" could be understood as though it was within her grasp.

Before this, Tang Huan was completely bewitched by the joy of entering the "Yan Luo Immortal Manor", and did not realize this point.

However, the abnormality in the current immortal palace actually caused Tang Huan to wake up as if she had just awoken from a dream.

This meant that as long as Tang Huan failed to solve the mystery contained within that mysterious area, she would not be able to become the true owner of the "Smokey Golden Immortal". If she

wanted to enter that mysterious area, she would first have to pass through the eighteen petal spaces that surrounded it.

"Fine, then let's give it a try."

Tang Huan suddenly revealed a smile and said to herself, "I want to see what is hidden inside!" In a blink of an eye, a figure separated out from Tang Huan's body, and with her appearance, she looked exactly the same as Tang Huan.

This was Tang Huan's Immortal body avatar.

All this while, Tang Huan had a headache over the cultivation of this Immortal Body avatar. The lower Heaven Realm's "Heavenly Imperial Dragon Palace" was indeed suitable for the cultivation of the avatar, and the "Nether Realm" was similarly suitable as well. However, since Tang Huan did not have the "Nether Immortal Talisman", he was also not suitable to keep him in the lower Heaven Realm.

Therefore, Tang Huan could only bring his Immortal body to her side, but without enough Immortal spirit energy, his Immortal body wouldn't be able to keep up with Tang Huan's main body. The speed of his Immortal body would be even faster if she could not use the Immortal spirit energy.

If the two's cultivations were not balanced, it would be hard for Tang Huan to break through, just like how it was back then when she was promoted to the Heavenly Emperor Stage.

However, the appearance of this "Yan Luo Golden Immortal" was the perfect solution to Tang Huan's greatest problem. While the Immortal Body clones cultivated in the Immortal palace, Tang Huan's main body was able to refine the remaining "Monarch Moon Crystal Soul". As long as the two bodies' cultivations could fuse together, it would not be difficult for them to become a God Emperor.

In addition, after activating the Formation Aperture and investigating that mysterious area, it would be more appropriate for the avatar to deal with this matter slowly.

After all, this was a protracted war, and was not something that could be accomplished in a day and a night. With Tang Huan's main body, there was no need to waste time.

With a thought, the deity clone sat down cross-legged in the Petal Space, while Tang Huan herself quietly withdrew.

Chapter 2109 - Sky Emperor at the Peak of Subordinate

Time flew by, and ten years passed in the blink of an eye.

The appearance of two more Heavenly Emperors on the Nine Palace Peak had amazed many cultivators on the top of the Nine Heavens.

However, with the passing of time, everything returned to normal. Even Tang Huan's movements and the cultivators who were still interested in paying attention to him became less and less. After all, so much time had passed and there had been no news of Tang Huan since the incident on Nine Palace Mountain back then.

On the ninth day, in a mysterious space inside the celestial realm, it was as red as fire.

A huge, round ball formed from fire was quietly floating high in the sky. The surface of the ball was constantly rippling.

Inside the ball, there seemed to be molten lava s roaming about, the feeling was intense and majestic.

It seemed as if it contained a dormant ancient volcano that could erupt at any time. Strangely, however, there was not the slightest bit of warmth that leaked out from it.

After an unknown period of time ...

An earth-shattering sound suddenly burst out from within the fireball. Boundless heat roars out like an earth-shattering roar, and at almost the same instant that the fireball gushed out, it turned into a raging flame. Then, it rapidly twisted its undulations, and in an instant, it condensed into a huge phoenix.

A blazing and terrifying aura crazily suffused the air, instantly filling up the surrounding space.

"Clang ..." The Flamephoenix opened her mouth slightly, and her resonant cry echoed back and forth, seeming as though it wanted to shatter this entire space.

"Not bad, not bad!"

After a while, a hint of extremely human-like joy appeared in the Fire Phoenix's eyes as she spoke in human language, "Next up, as long as I fuse with all of my embodiment, this noble one's cultivation will definitely recover completely within a hundred years! Unfortunately, Tang Huan had already left the lower Heaven Realms and was unable to obtain the magical equipment. But it's fine, after I recover all of my cultivation, I will personally go and find him.

As she finished her sentence, the Flamephoenix's eyes were filled with determination.

Soon after, its massive body dispersed into a sea of fire, and like a receding tide, it unceasingly withdrew into the fireball. The terrifying aura also disappeared without a trace with the recovery of the fireball. This fragment of the celestial realm gradually returned to its initial tranquility ...

...

Crimson Sky Kingdom, Nine Palace Peak.

Inside a palace on the mountainside, Tang Huan's body was like a sculpture, not moving an inch. The "Divine Moon Crystal Soul" in his hand was already only the size of an egg.

This was the true body of Tang Huan, and had been quietly sitting in the palace like a boulder for ten whole years.

For the past seven years, Tang Huan had been refining this "Divine Moon Crystal", raising her cultivation to the peak of the lower realm.

In the Heavenly Emperor Realm, 400 million to 1 billion Dao-Crystals was a lower tier; 1 billion to 2 billion Dao-Crystals was a middle tier; 2 billion to 4 billion Dao-Crystals was the upper tier.

At the peak of the Demigod level, there were a billion Dao-Crystals. This was the limit of a Demigod.

In just seven years, he had already acquired several hundred million dao crystals. Even if he had a rare treasure like the "divine moon crystal soul", the speed at which he was moving at was still terrifying.

For the next three years, Tang Huan did not stop cultivating.

However, Tang Huan did not rush to try and break through to a God Emperor Realm. He was very clear that if she tried right now, it would all be in vain, wasting a large amount of time and energy. Of course, although Tang Huan's cultivation had not increased, but during this continuous process of cultivation, his power had become more pure and strong, her strength was much stronger than when she had reached the peak of the Inferior Sky Emperor realm.

The cultivation of the Sky Emperor Stage was different from before.

Right now, if Tang Huan wanted to break through, she needed her body and the clone's cultivation to be perfect together again. Otherwise, it would cause the Heavenly Dao to reject him.

Fortunately, Tang Huan's cultivation had improved by leaps and bounds, but the improvement of her Immortal Body had not lagged behind.

In these ten years, beside Tang Huan, there was a golden flower that was shining brilliantly.

It was naturally the "Smoky Golden Immortal".

Tang Huan's divine body entered the tenth petal space with the speed of one petal space every two years.

The cultivation method of the avatar was very special.

Tang Huan continuously activated the Immortal Spirit Insight in her body, and activated the Immortal Spirit Intent in the flower petal space, and when the two could resonate with each other, the Formation Aperture would activate. After entering the eye of the formation, the avatar of the immortal body would be able to obtain an incomparably pure immortal spirit energy from the petal space.

Up till now, the Immortal Body had already been infused with power four times, and his cultivation had also reached the level of a peak lower stage Heavenly Emperor.

At this time, the avatar was in the midst of communicating with the immortal spirit within the fifth petal space. Moreover, this process had been going on for nearly two years.

"Rumble ..."

After a long while, an earth-shattering explosion suddenly sounded out, causing the entire petal space to tremble violently.

Soon after, boundless immortal spirit power gushed out of the space of the petals like a flood. In an instant, it mixed with the immortal spirit power that was roaring out from the avatar of the celestial body.

The vortex was the core of the formation within the fifth petal.

A joyful smile appeared on the face of the avatar. In an instant, it shot towards the vortex with a speed as fast as a meteor.

In the instant his body entered the whirlpool, an incomparably dense amount of celestial spiritual energy surged over from all directions.

The avatar was already prepared for this. Not only did it not resist, it even activated the celestial spell and allowed the power to overwhelm its body.

In the blink of an eye, the avatar entered a completely new space.

This was the sixth petal space within the Yan Luo Immortal Manor. If the avatar wanted to continue, it would have to stimulate the array core within the petal space.

However, this time, the avatar didn't stop to absorb the energy and stabilize its cultivation before continuing to communicate with the surrounding immortal spirits. With just a slight reaction, the space around the avatar slightly fluctuated, then the avatar disappeared into thin air.

After a split second, the Immortal Body appeared again, and was placed in the middle of the palace where Tang Huan's original body was, while the "Monk Golden Immortal" transformed into a ball of golden light, and entered the Dantian.

"Now, it's time!"

A smile appeared on the foreheads of Tang Huan's main body and the Immortal Body at the same time. In an instant, the Immortal Body fused with her main body. Tang Huan's expression turned solemn, she exhaled lightly, then slowly closed her eyes and started to reconcile the cultivation levels of her original body and her avatar, allowing the two to perfectly work together.

Chapter 2110 - The Emperor Ranking

Unknowingly, another three years had passed.

"Hu!"

Within the Nine Palace Mountain, an incomparably terrifying aura suddenly swept out. In an instant, it covered the entire mountain range, and then with an astonishing speed, it whistled in all directions. In a blink of an eye, it had already enveloped an area of several tens of thousands of miles.

That aura was majestic and vast, vigorous and grand. Moreover, it was constantly increasing.

"He broke through so quickly."

Within the palace on the summit of the nine palaces, Liu Li suddenly opened her eyes, and between her brows, a hint of a happy smile emerged, as she softly muttered to herself, "She advanced from the lower Sky Emperor to the middle Sky Emperor in more than ten years. If nothing unexpected happens, she might actually be able to step into the Sky Sovereign Realm in the next few decades."

As she spoke, her beautiful eyes were filled with unconcealable admiration.

More than ten years ago, when she had mentioned the "Celestial Sect of Ancestral Immortals", she had encouraged Tang Huan to advance into the Sky Sovereign Realm within a hundred years. At that time, Liu Li had displayed full confidence in Tang Huan, but in truth, she was not very confident about this point.

Tang Huan was extremely talented and talented. In terms of talent and potential, no one in the entire Heaven Realm could compare to him and he would definitely be able to become an Empyrean in the future.

There was no doubt about it!

However, it was hard to say whether Tang Huan could become an Heavenly Sovereign within a hundred years. After all, fate was something that one could not see or touch, and no one could say when it would appear. It was normal for it to not appear within a hundred, a thousand, or even ten thousand years.

However, right now, her confidence in Tang Huan had doubled.

"Look, big brother is the Sky Sovereign."

Inside another palace hall at the waist of the mountain, nine spirits and Xiao Budian woke up at the same time.

"The gap between us and Big Bro has widened again." Xiao Budian said somewhat vexedly.

"What's there to be afraid of? With such a small gap between us?"

Jiu Ling unconcernedly snorted and immediately looked at Ling Tian, who was beside her, and laughed, "Ling Tian, when will you break through? If you still haven't advanced to become a Heavenly Emperor, you'll really be left far behind. When that happens, don't blame us for abandoning you. "

"If I want to advance, I can do so anytime." Ling Tian was already becoming increasingly quick-witted. Upon hearing these words, he arrogantly raised his head.

"Yo, what big words you have there. Since you can do it at any time, then why don't you promote one right now for Xiao Budian and me to see." Jiu Ling giggled.

"Good!" "As long as you're promoted, you'll be promoted!"

Ling Tian didn't think much of it.

The next moment, he closed his eyes. In the blink of an eye, an earth-shattering sound echoed in the world.

"Rumble ..."

The aura of the Heavenly Dao permeated the entire sky, causing the entire space to tremble.

Within the Nine Palace Mountain, another incomparably powerful aura rose up and rapidly rose ... Although this aura was not as strong as Tang Huan's, the disturbance had far surpassed before.

This kind of phenomenon was quite strange. When one broke through a great realm, they would be able to stir up the entire Heaven Realm and raise their cultivation by a small realm, but there wouldn't be such a shocking event.

"This fellow is really ..." Within palace, Jiu Ling and Xiao Budian all looked at each other in dismay when they sensed such a commotion.

"Ling Tian?"

"Another one!"

Within the Nine Palace Peak, Mo Wen Yun and Hua Tian Chi were immediately attracted by the commotion. They didn't even have the time to flick their fingers and had already understood what was going on. After sighing emotionally, the two had different expressions.

In a small town thousands of miles northeast of Nine Palace Mountain, almost all cultivators were alarmed. The distance between them and the Nine Palace Mountain was not that far. Not only could they sense the terrifying aura that had swept towards them, they could also sense the huge commotion that was about to occur.

For a moment, everyone was shocked beyond belief.

The earlier commotion should have been caused by a certain Heavenly Emperor advancing to a higher realm, and the current commotion was definitely caused by a peak level Heavenly King advancing to a low level Heavenly Emperor. In just a short span of more than ten years, there were already three Heavenly Emperors on the Nine Palace Peak. If you added Tang Huan, there were four more Heavenly Emperors.

It was said that there was also a Celestial Emperor among Liu Li's maids.

Based on this, aside from having an Empyrean, there were also five other Heavenly Emperors on the Nine Palace Peak. Just by looking at the number of experts on the Sky Emperor and Sky Sovereign level, although the Nine Palace Mountain couldn't compare to the Black Yellow Dao Sect and the Beitang Immortal Sect, it wasn't too far off. Of course, the number of Disciples in a sect couldn't be compared.

With a thought, all of the cultivators sighed.

If it were not for Liu Li's lack of concern for power, Nine Palace Peak would have already become a major sect after the nine super sects in less than a year, and cultivators like them who had gathered in this small town might have been able to enter Nine Palace Peak.

In these past few years, the number of cultivators gathering in this small town had increased.

Especially in the last ten years, the number of cultivators that stayed here had increased by several folds. The newly added cultivators came from all over the Heaven Realm. Their goal was very simple, they wanted to test their luck and see if they could join the Nine Palace Peak. But unfortunately, after so many years, not a single person was able to succeed.

This caused them to be extremely envious and jealous of the previous Nine Palace Mountain sect disciple. They had thought of all sorts of ways to join Nine Palace Mountain, but since Empyrean Liu-Li had set her eyes on Nine Palace Peak, it was only natural for them to enter the Nine Palace Mountain.

It was like a pie falling from the sky.

"Rumble ..."

Just as everyone in the town was sighing to themselves, another loud explosion occurred. Following which, the entire Crimson Sky Kingdom started to shake intensely. The terrifying aura was like a flood, mighty and mighty. In an instant, it swept through every corner of this Heaven Realm.

Immediately after, a strong sense of trembling emerged from the depths of everyone's souls.

"This is ..." Someone else has advanced? "

"No, that's not right. It's not that someone advanced to become a Heavenly Emperor, but that the Emperor Board appeared!"

"The Emperor Leaderboard? Heavenly Emperor Ranking? Someone activated the Emperor Board? Ahh, too bad, this daddy's cultivation is not strong enough. Not to mention the Emperor Board, I haven't even seen the King Board before. "

"..."

After a short while, the entire small town started to boil and exclamations and shouts followed one after another. Instantly, they condensed into a huge sound wave that reverberated above the city.

No one had expected that just a moment ago, when someone advanced to Heavenly Emperor, the next person would trigger the Emperor Board!

However, he did not know who had triggered the Emperor Board.

Obviously, it was impossible for that person to be the newly ascended lower level Heavenly Emperor from the Nine Palace Mountain. If even a lower level Heavenly Emperor had the power to trigger the appearance of the Emperor Board, then that person would truly be a demon.
