

W. Master 2181

Chapter 2181 - The Power of One Strike

Wei Xuanji and Yuan Hua subconsciously looked towards the source of the voice. A familiar figure flashed out of the arched hole, shooting out explosively towards the distance like a black ray of light.

"Tang Huan?"

Both of them cried out in shock.

The one who rushed out from inside was actually Tang Huan, which made the two of them unable to believe their own eyes.

Supreme Elder Yuan Chao was a powerhouse at the peak of the Upper Sky Realm, whereas Tang Huan was only a Heavenly Emperor at the peak. Their cultivations were worlds apart. Logically speaking, with Yuan Chao inside, it was impossible for Tang Huan to escape. This point, even a fool would understand.

However, Tang Huan had actually succeeded in getting rid of Yuan Chao, and had left the space of the Nihilism God Stage.

The extreme shock caused the two of them to be stunned. They forgot to chase after the figure that was rapidly disappearing into the distance.

"This old man has surpassed the limit! Seal off the sect's exit immediately!"

It was at this moment that a thunderous roar suddenly shook the air, and in an instant, the news had spread throughout the entire Clear Void Dao Pavilion, causing the two of them to wake up as if from a dream.

However, before the two of them could react, another figure flew past them, and in an instant, it disappeared without a trace.

"Grand Elder!"

Wei Xuanji and Yuan Hua's hearts trembled.

At this time, the two of them did not have much time to think. After exchanging a glance, they flew into the air almost at the same time, chasing after Tang Huan and the direction that she had gone.

"Yuan Chao? Seal off the sect's exit? "

At the exit of the Clear Void Dao Pavilion's sect encampment, the two old men that were guarding the entrance were suddenly taken aback. However, they started to move without any hesitation.

Not many people had seen Yuan Chao and his men in the Clear Void Sect before, but everyone knew the name of this Supreme Elder. Thus, when they heard his order, they didn't hesitate in the slightest.

In an instant, the rippling void returned to its previous serenity. There was no more ripple.

The area that was originally the exit passage had already been sealed off.

Of course, this blockade was only temporary. If they wanted to completely block it, it would take a long time. Moreover, it wasn't something the two of them could do.

In the sky above the sect encampment, two figures were flying at high speed, one in front of the other. The distance between the two was only a few dozen kilometers.

Tang Huan was in front, and Yuan Chao was naturally behind.

At this moment, Yuan Chao's face had already darkened to the extreme. The speed that Tang Huan displayed not only far exceeded his expectations, it had also exceeded the limit of what he could achieve with his own cultivation.

After leaving the Nihility God's Dao Altar, he, as a Peak Level Sky Sovereign, had actually not closed the distance between them. This made him feel that it was even more unimaginable than usual, even if Tang Huan was indeed an Inferior Level Sky Sovereign, his speed should not be fast to such an extent. Furthermore, he did not believe that Tang Huan was already a genuine lower Emphyrean.

All the Emphyreans in the entire Heaven Realm added together were only a few tens of people, and weren't even filled to the brim with names.

The appearance of a lower Emphyrean would definitely cause a huge commotion. For instance, the aura of the Heavenly Dao would surge and the space around would tremble, even causing the rankings of the High Lords to appear. But in reality, this level of activity had never appeared before, and as for the ranking board, it had never been revealed because of Tang Huan.

From this, it could be seen that Tang Huan was obviously still a peak-level Heavenly Emperor. It was just that she had used some unknown method to raise her aura to an astonishing level.

With Yuan Chao's current strength, even a Upper Level Zun Stage powerhouse would not be able to compete with him in speed.

But now, Tang Huan, who was merely a peak Upper Sky Emperor, could actually do it. Moreover, what made Yuan Chao suspicious was that Tang Huan actually didn't rush towards the exit of the Clear Void Dao Pavilion's residence, but instead walked straight ahead. He estimated that she would reach the end of the encampment space very soon.

The Yuan supernatural wouldn't think that Tang Huan was courting death by doing this.

Maybe Tang Huan felt that some other method could allow him to escape? A cold glint flashed across Yuan Chao's eyes as a green aura emerged from the tip of his finger. Although it was only as thick as a thumb, the power it contained continued to increase.

Not long later, the spatial side wall of the Clear Void Dao Pavilion appeared.

But right at this moment, Yuan Chao's eyes couldn't help but narrow, in front of him, ten kilometers away, Tang Huan's speed did not slow at all, he continued to rush towards the spatial wall like an arrow that had just left the bow, but just as his body was about to touch the spatial wall, countless tiny whirlpools suddenly appeared, and in less than a blink of an eye, a gigantic black and white whirlpool appeared.

As for Tang Huan herself, she had been sucked into the whirlpool.

"This is ..."

Yuan Chao's expression changed slightly as his green aura shot out from his fingers like a stream of light.

An incomparably sharp intent spread out crazily between heaven and earth, as if it could pierce through the heavens. However, in a split-second, the green light traveled through several dozen miles of space at a terrifying speed, and disappeared into the depths of the black and white vortex.

Soon after, the black and white vortex and the azure stream of light disappeared at the same time.

Yuan Chao snorted coldly. With a slight movement of his body, he dashed towards the exit of the Clear Void Dao Pavilion's encampment.

"Hu!"

In the next moment, a black and white vortex appeared in the sky above the city.

Following that, Tang Huan's figure appeared from the depths of the whirlpool.

After escaping from the Clear Void Dao Pavilion, not only did Tang Huan not relax at all, her expression became extremely serious. This was because a green aura burst out from the deepest part of the whirlpool behind him, and with lightning speed, it violently struck towards Tang Huan's back.

That Yuan Chao was truly worthy of being a peak Superior Heavenly Sovereign. His attack had actually extended towards Tang Huan's "Yin Yang dao diagram".

Under such a situation, Tang Huan was already too late to absorb the attack into the dwelling, because activating the "Myriad Sword Heavenly Diagram" also required a bit of time.

Tang Huan didn't hesitate at all. In between her mind instructs (in a second), the "Nine Yang Divine Furnace" appeared between him and that cyan aura.

At almost the same instant the cauldron appeared, the green coloured light passed through the cauldron's mouth and smashed into it.

"Boom —"

A low, muffled sound suddenly burst out.

His voice was not loud, but the moment his voice sounded, an extremely terrifying power exploded out. Although Tang Huan was trying his best to control it, he was still unable to stabilize the "Nine Yang Divine Furnace". In the next moment, the huge force pushed the cauldron, and with the force of a thunderbolt, it struck Tang Huan's back.

With a bang, Tang Huan's body flew forward explosively, and in a flash, she was sent flying nearly a hundred kilometers away.

After barely stabilizing his body, a few cracks started to appear on his skin, Tang Huan felt as though his entire body was about to explode, and his internal organs were suffering from the turmoil of blood energy. In the depths of his soul, an invisible gigantic force shook about, as though it was trying to completely shatter his soul.

Chapter 2182 - Escape

Fortunately, when he mobilized the "Nine Yang Divine Furnace", Tang Huan had also pushed the God Crafting Crystal to its limit, so his soul did not disappear into thin air.

After the intense dizziness passed, Tang Huan woke up very quickly, but deep inside his soul, there was a burst of pain that felt like it was being torn apart. This made Tang Huan immediately realize that although the existence of the God Forging Crystal prevented his soul from collapsing, the attack of an expert at the peak of the Sky Realm could not be completely eliminated just like that.

The Nine Yang Divine Furnace and Tang Huan's minds were linked, their souls were connected.

The attack that Yuan Chao had followed along the "Yin Yang dao diagram" had not only severely injured his body, it had also severely injured his soul. Although the injuries within the soul could not be seen with the naked eye, Tang Huan could clearly feel that inside his soul, the God Creation Crystal that had already fused with his soul had already started to crack in a manner similar to his body.

An expert at the peak of the Upper Sky Realm, with strength that was far beyond what the current Tang Huan could compare to.

At this moment, Tang Huan was also rejoicing.

Fortunately, before Yuan Chao appeared, Tang Huan's original body, Immortal Body clone and Feng Zhuo's cultivation had all reached the realm of the peak of the Upper Sky Emperor. After a period of time, Tang Huan would refine the Feng Zhuo's body and be promoted to Lesser Celestial Sovereign.

However, after feeling the intense sense of danger, Tang Huan could not wait any longer.

Therefore, Tang Huan made a prompt decision in advance to begin refining Feng Zhuo's body. However, Tang Huan's actions were tantamount to pulling up seedlings and increasing his strength. Although Tang Huan's strength had risen explosively along with it, and even her own aura had undergone a huge transformation, it was impossible for him to truly become an Inferior Sky Sovereign.

The current Tang Huan was still an upper peak Heavenly Emperor, but she was not an ordinary upper peak Heavenly Emperor.

Otherwise, Tang Huan would have been taken down by Yuan Chao long ago at the Void God Dao Altar. Facing a peak Superior Emphyrean, Yuan Chao, even the number one ranked Heavenly Emperor would not be able to resist. But now, not only had Tang Huan escaped from the Void God Arena, she had also forcefully withstood Yuan Chao's attack, which had gathered strength. This was because Tang Huan had decisively decided to fuse with Feng Zhuo ahead of time.

However, Tang Huan had only left the Green Void Sect's encampment, and could not truly be considered to be out of danger.

It was a good thing that the Clear Void Dao Pavilion had sealed off the sect's encampment, and it would take some time to lift the seal again. This had given Tang Huan a perfect opportunity.

In the next moment, Tang Huan endured the pain in his body and soul for a moment, and retracted the "Nine Yang Divine Furnace". After that, she concealed his body, and with a spatial escape, she disappeared from the high altitude while the black and white vortex had completely dissipated the moment Tang Huan's body was sent flying.

Within the city, many cultivators had noticed the commotion in the sky.

However, the change in the Clear Void Dao Pavilion happened too suddenly. Even the cultivators inside the pavilion were not aware of it, let alone the people in the city. They did not know that Tang Huan had just escaped from the Clear Void Dao Pavilion's encampment, and the speed at which Tang Huan disappeared was shockingly fast. Before they could even figure out what was going on, the figure in the sky above them had already completely left their line of sight, causing the many cultivators in the city to look at each other in dismay.

After approximately half a quarter of an hour, numerous figures flashed and appeared at the entrance of the Clear Void Dao Pavilion. The ones leading at the front were Yuan Chao, Wei Xuanji, and Yuan Hua.

At this moment, Yuan Chao's expression was extremely unsightly.

He made people seal the exit of the Clear Void Dao Pavilion's encampment. Originally, he wanted to block Tang Huan's exit, but he didn't expect Tang Huan to not take the right path and instead directly use a strange divine ability to pass through the spatial walls of the Clear Void Dao Pavilion. Tang Huan had such a divine ability, but he did not have it.

If he wanted to leave the Clear Void Dao Pavilion, he could only open the entrance once more.

Unfortunately, it was easy to lock up the passageway, but it was not immediately possible to open it. Thus, this delay lasted for nearly a quarter of an hour. For a peak peak Heavenly Emperor, half an hour was more than enough time for him to escape for a long time.

"Tang Huan is already injured."

With a slight reaction, Yuan Chao shouted with a cold face, "Send the order to seal the teleportation circle of the Flying Star Palace and the entrance to the void. It's time for the Emphyreans in the Flying Stars Sect to make their move. Let them go to these two locations and guard them. Just tell them that it's this old man's order. "

"Yes sir!"

Wei Xuanji and Yuan Hua looked at each other for a moment before responding and leaving.

At almost the same time, Yuan Chao also rose into the air and instantly disappeared from the horizon, leaving behind many cultivators who had just left their sect's encampment looking at each other in shock.

Previously, they had heard Yuan Chao order to seal off the entrance to the sect's encampment, but they didn't understand why.

Now they all understood, but the shock and astonishment in their hearts could not be described with words. The great enemy of the Clear Void Dao Pavilion, Tang Huan, had actually sneaked into the sect's encampment without anyone knowing ... No matter how she looked at it, the news didn't seem to be true. As the strongest sect in the Heaven Realm, the Clear Void Dao Pavilion had countless experts and many experts. Furthermore, their management was very strict, so how could a single person casually sneak in.

However, this kind of fake thing happened.

Tang Huan had indeed snuck into the Clear Void Dao Pavilion.

If not for the fact that the Supreme Elder Yuan Chao had returned from the void of darkness, it was unknown how long it would have taken before he could have discovered Yuan Chao's whereabouts. However, what was even more unfathomable to the disciples was that even though Tang Huan had snuck in, he actually managed to escape the sect's encampment right under Yuan Chao's nose.

Yuan Chao was a Peak Superior Heavenly Sovereign, and Tang Huan, a mere Heavenly Emperor, could actually escape from his capture?

No matter how one looked at it, this was incredible! After a moment of silence, everyone could not help but whisper among themselves.

I really don't know how that Tang Huan managed to do it. To me, Tang Huan can be considered to be extremely powerful, but in the eyes of the Grand Elder, Tang Huan is probably no different from an ant. However, he is actually able to escape from the Grand Elder and the Clear Void Dao Pavilion?

"We can escape the Clear Void Dao Pavilion, we can't escape the Flying Stars Heavens!" After sealing off the teleportation formation and the exit into the void, Tang Huan would no longer have any hope of escaping. With the extrapolation methods of the Supreme Elder, we'll probably be able to find his location very soon and capture him again. "

"This time, our Clear Void Dao Pavilion has really lost a lot of face. We actually let an enemy sneak into our sect's encampment. If this gets out, who knows how many people will mock our sect!"

"..."

Chapter 2183 - Empty Joy

The fact that an enemy had infiltrated their sect for so many years was a huge disgrace to all the cultivators of the Clear Void Dao Pavilion.

At Wei Xuanji's order, all of the experts from the Clear Void Dao Pavilion began to move.

Wei Xuanji and Yuan Hua each led a small team of Heavenly Emperor, respectively rushing towards the teleportation array and the direction of the Flying Star Pavilion's exit. Wei Xuanji and Yuan Hua each led a small team of Heavenly Emperors, respectively headed the teleportation array and the direction of the Flying Star Pavilion's exit.

As the number one sect in the Heaven Realm, the entire Flying Stars Sky Sect was under the control of the Clear Void Dao Pavilion. In other Heaven Realms, the orders of the Clear Void Dao Pavilion might have been disobeyed by the major sects.

Not long after that, almost all the Heavenly Emperors of the Flying Stars also began to act. Even the other Emphyreans in the Flying Stars Sect had no choice but to leave their secluded cultivation grounds after receiving the message from the Clear Void Dao Pavilion. They respectively headed for the Ancient Teleportation Formation and the exit of this Heaven Realm.

When all the Heavenly Emperors and Emphyrean were ordered by the Clear Void Dao Pavilion to attack Tang Huan, the amount of energy that exploded out was terrifying to the extreme.

This huge commotion caused by the Clear Void Dao Pavilion instantly caused the related news to spread like a storm throughout the entire Flying Star Pavilion and to the other Heaven Realms.

In an instant, countless cultivators were tongue-tied.

In the past, the Clear Void Dao Pavilion had also searched everywhere for Tang Huan's whereabouts, but they had never had such a vast and mighty presence, as if they wished to turn all of the stars and sky upside down.

After hearing the reason, everyone was shocked and relieved.

Tang Huan who had been invisible for a long time had actually snuck into the sect encampment of the Clear Void Dao Pavilion. It was fine if it was just that, but the Supreme Elder of the Clear Void Dao Pavilion, the third on the revered list, Yuan Chao, had personally made a move and actually allowed Tang Huan to escape from under her nose. It was no wonder the Clear Void Dao Pavilion was so angry and instigated all the experts in the Starsky Sect, insisting on killing Tang Huan.

If he did not kill Tang Huan, then where would Yuan Chao's face be?

Whoosh.

In the skies above a city, a figure flew by like lightning. The speed at which this figure moved had already reached a level that could be imagined. However, just as they passed through the sky above the city, the figure seemed to sense something and suddenly stopped. It was a beautiful woman with a graceful figure and a slim figure.

This woman was none other than Empyrean Glazed.

"It really is little brother Tang Huan."

Liu Li's eyebrows creased, and then instantly relaxed.

The news traveled extremely quickly and had already reached the Long Life Heavens where the Black Yellow Dao Sect was. When she passed through, she caught the voices of many cultivators discussing about her. She purposely paused to listen carefully. What made her feel at ease was that Tang Huan had already escaped from Yuan Chao's hands and successfully left the Clear Void Dao Pavilion. Furthermore, from the news that she had obtained from the city, Tang Huan should not have been found out by the Clear Void Dao Pavilion yet.

"Yuan Chao, if Little Brother Tang Huan is fine, then it's fine, but otherwise ..."

Liu Li's eyes were ice-cold. In a flash, her figure had already disappeared from her original location.

...

Flying star in the sky, Star City.

"Grand Elder, is Tang Huan really in this city?"

In front of a palace, a middle-aged man asked with some doubt, "He's already injured, it's impossible for him to use the transfer array that we've just restored to reach Star City so quickly?"

This middle-aged man was the seventh elder of the Clear Void Dao Pavilion, Fu Anguo. The elder beside him was the Supreme Elder of the Clear Void Dao Pavilion, Yuan Chao. At this moment, Yuan Chao was wielding two long swords in his hands. One of them was as red as fire while the other was as black as ink. Both of them exuded an aura that was incomparably tyrannical.

These two swords were of the highest quality.

Back then, Tang Huan had gifted them to Wei Xuanji at the Void God Dao Altar, saying that she wanted to repay the kindness the Clear Void Dao Pavilion had shown to Feng Zhuo in nurturing them.

"How can I be wrong about the result of my deduction?"

Yuan Chao said coldly, extremely displeased with Fu Anguo's doubt.

This time, he had used Tang Huan's two saint rank dao tools to deduce Tang Huan's whereabouts. Although Tang Huan's Mind Stigma were not inside the saint rank Dao Artifacts, they were forged by Tang Huan herself. Furthermore, they stayed by Tang Huan's side for an extremely long time.

Tang Huan had the ability to deceive the heavens. If she relied on the remnant presence in the Nihility God's Dao Altar, it would be impossible to determine his position. However, if one were to use the chaos energy that Tang Huan had left in the saint artifact to deduce, it could make Tang Huan's method of deceiving the heavens useless.

According to the results of his deductions, Tang Huan should be in Star Fantasy City right now.

Fu An Guo felt that Tang Huan wouldn't be able to return to Star City in such a short time, but Yuan Chao didn't think so. For Tang Huan to be able to escape from his hands and quickly pass through the spatial walls of the Clear Void Dao Pavilion, to be able to cross the endless space and arrive at this place in such a short period of time, was not a rare thing.

Yuan Chao ordered the ancient teleportation formation and the exit of the Heaven Realm to be sealed, just in case.

And now, to be able to capture Tang Huan here, he naturally wished for it greatly.

"That rascal intentionally gifted these two saint rank Dao Artifacts. I didn't know that her whereabouts would be exposed because of them."

Yuan Chao laughed mockingly as he soared into the sky.

Seeing that he was so confident, Fu Anguo did not say anymore and quickly followed. He only had one goal, and that was to help Yuan Chao send the message or contact Wei Xuan Ji and the others. As for capturing or killing Tang Huan, with the help of the Great Clan Elder, he was not qualified to do so.

In the blink of an eye, the two of them had already arrived in the sky above the Thousand Star Garden.

The Thousand Star Garden below had already been rebuilt to perfection, and then, it returned to the hands of the Clear Void Dao Pavilion. Tang Huan's concealment here was indeed rather surprising.

Yuan Chao sank down and in a blink of an eye, he appeared in front of a small and inconspicuous hall as if he was an old horse that knew his way.

"Rumble ..."

After a split-second, a loud sound almost shocked the entire Star Mirage City.

In the depths of the Thousand Star Garden, the small hall had already disappeared without a trace. A deep pit that had a circumference of a few hundred meters had appeared where it was originally at.

At the edge of the deep pit, Yuan Chao's complexion alternated between green and red. Unexpectedly, it was extremely hard to see. In his palm, a small stone had appeared.

Based on the results of the two saint rank dao tools, he found this place, but the last thing he found was not Tang Huan, but this thing!

It also contained the same chaotic intent as the two saint rank dao tools!

At this time, how could Yuan Chao not know that he was tricked by Tang Huan. The reason he gave this saint rank Dao Artifact to Tang Huan at the Void God Dao Altar was most likely for this moment.

"Let's go!"

Taking a deep breath, Yuan Chao suppressed the anger that seemed to erupt from his heart like a volcano as he squeezed out a character from between his teeth...

Chapter 2184 - Dragon Port

Eastern Astral Sky.

The two small pieces of land extended into the sea and formed a harbor. Within the harbor was a town of hundreds of thousands of people. There were rows upon rows of houses.

The name of this small city by the sea was Dragon Harbor.

In front of Dragon Harbor was an endless expanse of green, and behind Dragon Harbor was a mountain range that rose and fell continuously.

"That Yuan Chao should have already been to Star City by now, right?"

In a place about fifty kilometers from Dragon Harbor, Tang Huan who was seated cross-legged let out a light sigh. She slowly opened her eyes and revealed a slight smile between her brows.

His original body, his Immortal body and Feng Zhuo were all inside the Clear Void Dao Pavilion, so Tang Huan had to make some preparations.

Thus, after Tang Huan destroyed the great teleportation formation of the Clear Void Dao Pavilion in Star City, she hid a Heaven grade dao stone inside the Thousand Star Garden that had just undergone its initial repairs.

The Heaven Grade Dao Stone was naturally not an ordinary Heaven Grade Dao Stone.

The interior of the Dao Stone contained Tang Huan's extremely dense primal chaos aura. That primal chaos aura was extremely dense and even though it would decrease with the passage of time, maintaining it for thirty to forty years would definitely not be a problem.

He had left it behind just in case.

Not long ago, when Yuan Chao returned, Tang Huan's whereabouts and identity were exposed. Hence, he decisively gave out two Holy-ranked Dao Artifacts. The main purpose of his actions was to divert Yuan Chao's attention.

After he escaped from the Clear Void Dao Pavilion, once he disappeared, Yuan Chao would once again deduce his whereabouts, and those two saint rank Dao artifacts that also contained his chaos

energy would be able to point Yuan Chao's deduction toward the Heaven grade Dao Stone in Star Illusion City, which would buy him more time.

Once Tang Huan stepped out of the Clear Void Dao Pavilion, she forcefully suppressed her injuries and sped south.

When Yuan Chao was able to figure out the location of Star City and rush over to discover the real situation, Tang Huan had long since left the Clear Void Dao Pavilion, so she was not worried about being discovered by the cultivators that were sent out by the Clear Void Dao Pavilion. However, even though she felt that the distance was safe, Tang Huan did not rush to heal. Instead, she rushed forward as fast as she could as she stopped only after reaching Dragon Port, which was located at the eastern side of the sea.

Now, Tang Huan was not afraid of being exposed at all.

Previously, Yuan Chao had relied on the residual soul of the Heavenly Emperor Elders of the Clear Void Dao Pavilion to determine the location of the cave's space and determine his whereabouts. However, it was now impossible for Yuan Chao to find Nie Tian's location in such a manner.

Before refining Feng Zhuo's body, even though Tang Huan could use the God Casting Crystal to deceive the heavenly dao, it would still be able to prevent others from spying on him. However, that barrier was limited to himself. When Yuan Chao tried to start with the cave space, Tang Huan could not do anything about it, and was eventually discovered by Yuan Chao.

Now, even though Tang Huan had not truly become an lower level Emphyrean, her own aura had already undergone a qualitative transformation, and was completely capable of enveloping and isolating the space within the cave. With her Qi not working and his cave not working, Tang Huan didn't believe that Yuan Chao would find him again.

There was no need to worry about Yuan Chao's tracking anymore, Tang Huan could naturally heal his injuries peacefully.

Tang Huan's flesh body and soul had already been severely injured by Yuan Chao's attack, and after travelling for a long period of time, her injuries had worsened greatly.

Even with Tang Huan's condition, it would take a long time for him to completely recover.

Originally, Tang Huan planned to stay at Dragon Harbor. But, thinking about it, Tang Huan decided to give up on that idea for now. At this time, all the news regarding him must have spread to the small city by the ocean already, and all the cultivators inside the city probably received the order to search for him.

In this situation, even if Tang Huan herself did not show herself, and only send Meng Gaofei or those Heavenly Kings out of the cave, it would not be safe.

After all, Dragon Harbor was a small city. The appearance of any stranger could raise suspicion.

Since he could not go to Dragon Port, Tang Huan decided to stay in the forest and hide without leaking any aura. He did not need to worry about being detected by any cultivators that passed by.

"Such a huge commotion has occurred in the Flying Star Peak, the news should be spreading to the Crimson Sky Kingdom soon." Tang Huan thought for a while, "If elder sister Liu Li, Little Thing,

Jiu Ling, Ling Tian and a few others were to find out that I am being chased by a third ranked expert, how worried would they be?"

"I still have to hurry and tell them, so they won't be worried."

Following that, a jade slip that was as thin as a cicada's wing appeared in Tang Huan's palm. She was immersed in it, and after a moment, she sent a message.

"It's about time."

Tang Huan smiled and kept the jade slip.

But after a moment, Tang Huan frowned, her eyes filled with worry.

Although he did not directly inform the cultivators of the Clear Void Dao Pavilion, based on the various information gathered about him, he should be able to deduce that he came from the Lower Heaven Realm. This time, the Clear Void Sect had suffered such a huge loss. They would definitely not let the matter rest.

If Yuan Chao and the others couldn't find him, they might vent their anger on his close friends and relatives in the Heaven Realm.

Once the Clear Void Dao Pavilion dispatched people to travel for 36 days, his previous arrangement in the Lower Heaven Realms would be a bit insufficient. It seemed that he had to prepare in advance.

Most importantly, he could not completely disappear.

Yuan Chao and the others would only stay in the Flying Star Pavilion until their patience was completely worn out.

In the next moment, Tang Huan made her decision ...

...

Inside the Clear Void Dao Pavilion, inside a palace.

Yuan Chao stood with his hands behind his back. A red and a black long sword were quietly floating in front of him. Yuan Chao stared at the two saint rank dao tools expressionlessly, but his eyes were cold.

After he returned from Star Fantasy City, he once again used this pair of swords to deduce which stone was the Heaven grade Tao stone he obtained from Star Fantasy City's Thousand Star Garden.

Based on Tang Huan's remaining presence in the Void God Dao Altar, she had gained nothing at all.

He even used the memories of Yang Yi and the other two Sky Emperor to deduce the cave that Tang Huan owned. The last time he made a similar deduction, he had successfully found Tang Huan who was hiding within the Void God Dao Altar.

Without anything to guide him, no matter how skilled his deductions were, it was impossible for him to find Tang Huan.

"Grand Elder!" A figure hurried over. It was the seventh elder of the Clear Void Dao Pavilion, Fu Anguo.

"What is it?"

Yuan Chao said coldly as his eyes darkened.

Fu Anguo's heart skipped a beat as he hurriedly said, "According to the news from Star Illusion City, the Empyrean Liu-Li from Crimson Sky Kingdom's Nine Palaces has entered our Starry Sky Sect through the ancient transfer array."

"Liu Li?" Yuan Chao narrowed his eyes slightly.

"..."

Chapter 2185 - You finally came!

Liu Li was an Empyrean who had only appeared in recent years. Yuan Zhou, on the other hand, had been away from the Upper Nine Heavens for an extremely long time, thus his understanding of Liu Li was very limited.

Of course, from his reaction to the rankings, he had a rough understanding of Liu Li's strength. Furthermore, he had also heard Wei Xuanji mention the relationship between Tang Huan and Liu Li before, and knew that behind Liu Li, there was Qin Hongye, who was ranked number two, as her backer.

However, he wasn't an ordinary Empyrean.

Qin Hongye was ranked second, and his ranking was third. All the Empyreans that had reached the peak of the Upper Realm were ranked third, and it was still unknown who would be the victor in a battle. Not to mention, he was not the strongest Empyrean on the Clear Void Dao Pavilion, and above him, there was also Gu Daozi who was ranked first on the ranking.

The Clear Void Dao Pavilion had mobilized all of the experts in the Flying Star Heaven Palace to search for Tang Huan's whereabouts in the Heaven Realm.

Liu Li had a close relationship with Tang Huan, so after hearing the news, she quickly rushed over. As for her goal, she did not ask Tang Huan, so her appearance was not strange at all.

"Liu-Li, you've come at the right time."

Yuan Chao muttered softly as a sinister light flashed across his eyes.

Liu Li had a close relationship with Tang Huan, so it was obvious that she had a communication device that could fuse with Tang Huan's Mind Stigma. As long as they could capture Liu Li, take the communication tool from her hands, and investigate Tang Huan's whereabouts, it would be easy for them. With Mind Stigma, even if Tang Huan could deceive the Heavenly Dao, it would be hard to escape his deduction.

"Grand Elder, you mean ..." Fu Anguo's heart stirred slightly.

"Since she has delivered herself to my doorstep, does this old man even need to hesitate?" Yuan Chao laughed coldly, and between the mind instructs (in a second), he had already put away the two saint rank dao tools, "The Qin Xian Ye who is ranked second on the leaderboard can indeed make many Empyreans and sects cower in fear, but this old man is not one of them. Our Clear Void Dao Pavilion is not one of them."

"Send the message to the Sky Sovereign, make sure to keep an eye on Liu-Li." Immediately, Yuan Chao shouted again.

"Yes sir!"

Fu An Guo immediately bowed and agreed. When he straightened his waist, Yuan Chao's figure had already disappeared from the palace. After a slight hesitation, Fu Anguo immediately followed him out. It was just as Yuan Chao had said, the Clear Void Dao Pavilion did not need to worry about Qin Xian Ye, who was behind Liu Li.

He felt that no matter how difficult Qin Xian Ye was, he wouldn't be as difficult to deal with as Tang Huan.

... ..

Outside Star City, tens of thousands of miles away, Liu Li was walking with a cold expression.

She was well aware of the huge risks she would face if she entered the Starry Sky. If she stayed on the peak of the nine palaces, no one would dare to act rashly. Even the third ranked Yuan Chao wouldn't dare to make a move.

In these past few years, the great formation she had set up had become even more stable.

Even if Yuan Chao acted personally, with her as the guardian, it would still be sufficient to keep Yuan Chao out of the array for a long time. With this buffer, he could last until Qin Xian Ye arrived to save him.

However, after leaving the Nine Palace Peak and arriving at the Flying Star Peak, she was like a tree that had no roots, a weed that had no roots.

Yuan Chao definitely wouldn't have any qualms about staying in the Clear Void Dao Pavilion. However, with her current cultivation level, it would be difficult for her to contend against Yuan Chao.

Not to mention that in the Flying Star Pavilion, Yuan Chao was not the only Sky Sovereign.

Just as he arrived at the Flying Star City through the ancient transfer array, Liu Li discovered that she was being watched. Even after he left Star City, the tail behind him did not disappear.

Following her was a peak lower Emphyrean from the Flying Stars, called Suo Mao.

Liu Li was not surprised by Suo Mao's appearance. Although he was also an Emphyrean level powerhouse, he couldn't resist the orders of the Clear Void Dao Pavilion in this Flying Star Pavilion.

With Suo Mao following him, Yuan Chao would probably appear before long.

"Huh?"

Liu Li's mind quickly spun but his speed did not slow down in the slightest. A moment later, Liu Li seemed to have sensed something, and her delicate body slightly trembled as a thin jade piece appeared in her hand. It glittered with a bright light, and was filled with an intense spirit. A hint of surprise exploded in Liu Li's eyes as she hurriedly tried to sense what was going on.

Not long after, a happy smile appeared on Liu Li's face before she let out a light sigh of relief.

She had just received Tang Huan's message.

Tang Huan told her that in the process of getting rid of Yuan Chao and leaving the Clear Void Dao Pavilion, he had suffered some injuries. Now, she was hiding the Flying Star Sky Island's shore and healing his injuries, telling her not to worry.

This time, she was truly relieved.

For Tang Huan to be able to send a message to her she showed that she was indeed out of danger, and the actions of the Clear Void Dao Pavilion had confirmed this point. Even though Yuan Chao's deduction techniques were astonishing, he was obviously helpless against the idea of figuring out Tang Huan's whereabouts. If not, he would not have caused such a ruckus in the sky.

Since Tang Huan was safe, then she would have to think of a way to get rid of the danger that was about to befall him.

Putting away the jade slip, the corner of Liu Li's mouth curled up into a sly smile.

Since she dared to openly enter Starry Sky, she naturally believed in her own ability to protect herself. Furthermore, the main reason why she did so, was to attract the attention of the Clear Void Dao Pavilion, especially Yuan Chao, so as to lessen, and even completely eliminate the pressure on Tang Huan's side.

A moment later, a dense aura that was alternating between white and green continuously emanated from the Glazed Palm, constantly distorting and fluctuating.

In the blink of an eye, a palm-sized leaf was formed.

Not long after, the leaf turned into a phantom image that covered Glazed Body, followed by a green and white aura appearing from her palm. A new leaf was formed, and there was no aura coming out from this strange leaf.

When Liu Li flew past the peak of a mountain, the leaf in her palm floated down and disappeared into the forest below.

Unknowingly, hundreds of thousands of kilometers had already passed.

"Whoosh!"

A figure suddenly appeared behind Liu Li in a ghostly manner and then, like a black ray of light, appeared in front of her, blocking her way.

This person was the elder of the Clear Void Dao Pavilion, Yuan Chao.

Not long after, another figure appeared a dozen miles behind him. His body was sturdy and he had a mighty appearance. It was surprisingly Suo Mao.

"You finally came."

Liu Li didn't pay attention to Suo Mao who was behind her. Instead, she looked at Yuan Chao and said with a smile.

"Hand over the communication device that you have with Tang Huan, for Qin Xian Ye's sake, I can let you go. Otherwise, you won't be able to leave this Xing Tian."

Yuan Chao couldn't be bothered to waste his breath anymore and shouted straightforwardly.

"Countless years ago, the disciples of the Pangu Heaven Sect also said something similar to this to me. It's a pity that I'm still alive and kicking, and I guess this time is no exception."

Liu Li's forehead was filled with laughter.

Chapter 2186 - Substitute Body

"Stubborn fool!"

Yuan Chao's expression was dark and solemn. He raised his hand and struck out without the slightest hesitation the moment his words sounded out. An unusually large green palm image agglomerated in the air and rumbled as it pressed down, like a mountain collapsing and the rivers turning upside down.

However, Liu Li didn't dodge or fight back. Instead, she just looked at Yuan Chao with a smile.

"Boom —"

Yuan Chao wrinkled his brows. A trace of doubt had just emerged in his mind when his huge green palm landed on Liu Li's body. Amidst the earth-shaking vibrations, the enormous green palm unexpectedly blasted Liu Li's body into pieces with a crushing force. Then, with the force of a thunderbolt, it slammed onto the mountain peaks below.

In a split-second, sand and dust were sent flying everywhere.

The mountain peak that was thousands of meters tall collapsed and caved in at a speed that even the naked eye could not detect. In less than a breath's time, the mountain peak had already disappeared without a trace. In the place where the mountain peak had originally been standing, there was now a huge crater that resembled a palm imprint.

As for Liu Li, there were no longer any traces of her existence.

"Dead?"

Seeing this scene, Yuan Chao couldn't help but be startled. However, as soon as this thought appeared, it was immediately thrown to the back of his mind. As a dignified Emphyrean level powerhouse, even if Liu Li could not defeat him, she would not be able to dissipate her soul so easily. There must be some other reason behind this.

Covering the entire area with his massive concentration, Yuan Chao started to examine the surrounding area carefully.

After a few breaths' time, Yuan Chao seemed to have sensed something. He stretched out his hand and a small ball of green and white light rose from the bottom of the pit.

In the blink of an eye, it had fallen into his palm. It was a glittering leaf.

Before Yuan Chao could examine it closely, the leaf disappeared without a trace, as if it had never appeared in the first place.

Yuan Chao immediately understood what was going on. A wisp of green air appeared on his face, and his eyes were filled with rage, as if he was going to explode at any moment. Liu Li quietly took out a leaf as a substitute and used it as her cover to attract attention. Her real body, on the other hand, had long since escaped from Suo Mao's pursuit.

"How hateful!"

Yuan Chao growled, "Liu Li, you are courting death. If that Tang Huan can deceive the heavens, then I don't believe you! Elder Suo, give the aura that you have collected along the way to this old man! " Two gazes that seemed condensed solid looked towards the distant Suo Mao with overflowing killing intent.

This killing intent, although it wasn't directed at Suo Mao, it still caused his heart to tremble.

"Yes."

Suo Mao didn't dare to delay and immediately responded. A ball of misty white Qi floated to Yuan Chao from his palm. Although Liu Li had also restrained her Qi to its limit, she was still not as thorough as Tang Huan. She still kept on releasing some of her weak Qi which was collected by Suo Mao who was behind her.

Yuan Chao floated down to the top of a huge tree with an ashen face.

Sky Sovereign, who was ranked third on the Honorable Ranking, was first escaped by Tang Huan, then was played by Liu Li. This already caused the anger accumulated in his heart to reach its peak.

Therefore, he couldn't wait to figure out the position of Liu Li and vent the anger in his heart.

Time passed bit by bit ...

Yuan Chao's body was like a statue, standing tall and unmoving. As for Suo Mao, he could only wait quietly nearby before receiving Yuan Chao's new orders.

"He's actually hiding over there!"

After a long while, Yuan Chao suddenly opened his eyes. With a cold snort and a gloomy expression, he quickly disappeared into the horizon like a shadow.

When Suo Mao saw this, he could only follow.

"Boom —"

Not long after, in a forest several hundred thousand miles away, an earth-shattering explosion once again burst out. In the middle of the dust and sand that rolled like a wave, an unusually large depression once again appeared in the world. It was still like a palm print, as if it had been forcefully pressed down by a giant palm.

Yuan Chao stood in the air above the pit, in his palm was another green and white leaf, swiftly vanishing into thin air.

At this moment, Yuan Chao's expression was extremely ugly, just like a thoroughly enraged ancient beast. The anger within his eyes was like a volcano that was about to erupt, while a ruthless aura that could destroy the heaven and earth seemed to surround his entire body, causing one's heart to tremble.

After sensing that something was wrong, Suo Mao stopped in the distance to prevent himself from getting too close. In his heart, he was quite surprised by Liu Li's methods to be able to condense such a substitute to attract Yuan Chao's deduction. This was not something that any Emphyrean could do.

At the very least, none of the Emphyreans he knew had such methods.

The most important thing was that Liu Li and her double were perfectly linked. Before the double disappeared, she could even use it as her real body. At this moment, a strong premonition arose from the bottom of Suo Mao's heart. Although Liu Li's deduction technique was extremely profound, it would be very difficult to find her true body.

The third ranked Yuan Chao was undoubtedly strong, but if he was unable to find Liu Li's real body, it would be useless no matter how strong he was.

Counting it, Liu Li had already used a substitute twice. If Yuan Chao wasn't willing to be played by him and wanted to continue analyzing the situation, then the next target he would encounter would definitely be a third and fourth substitute for Liu Li ... He even had a premonition that Liu Li's double would be endless.

It wasn't a wise move to pester such an opponent.

Around the pit, the dust and sand dispersed.

Yuan Chao seemed to have finally awakened from his stupor. He took a deep breath and said in a deep voice, "Elder Suo, you should return to Star Illusion City immediately and guard the ancient transfer array. You absolutely cannot let Liu Li escape from your side."

"Yes sir!"

Suo Mao sighed inwardly and immediately left in agreement.

Whatever problems Suo Mao discovered, he would naturally be able to find out. If he were to continue fighting with Liu Li's substitute, it would be a waste of time, and the most important thing right now was to find Tang Huan and force him to reveal the secret behind the transformation of his Qi.

As for this Liu Li, he only needed to trap her in the Starsky.

In the future, if his cultivation could advance further, or if the number one on the list, Gu Daozi, could return to the sect, then he could come up with a way to determine and verify Liu Li's real body and double. After coming to this realization, no matter how furious Yuan Chao was, he could only swallow his anger and lend the money to the future.

Only after a long while did Yuan Chao's mind finally calm down.

"Liu Li, today, this old man will let you go. After this old man captures Tang Huan, no matter how many bodies you have, you will not be able to escape death!"

"..."

Chapter 2187

Dragon Harbor, the eastern part of the Starsky.

This small town that had always been calm and tranquil, had waves set off because of the entrance of a cultivator from the Clear Void Dao Pavilion.

Tang Huan's portrait was continuously posted at the entrance of the town. Although she could not find the person through the portrait, she was not a reliable person because to cultivators, they could easily control their muscles and bones to change their physique and appearance. Even a small divine being could do this.

However, in a situation where there was no other way, doing so was better than doing nothing.

In addition to the portrait, there was another thing. In the near future, all the strangers that appeared at Dragon Port would have to report to that cultivator from the Clear Void Sect.

This was also done to screen Tang Huan.

After all, everyone was very familiar with the people that lived in this remote city. The appearance of a foreign cultivator was naturally very eye-catching.

This is more effective than posting portraits.

Of course, all the people of Dragon Harbor, including the Void Clear Dao Pavilion in Dragon Harbor, knew that it was basically impossible to find Tang Huan using this kind of method.

That Tang Huan was a Ranker that could fight against the Sky Sovereign, so even if she was hiding somewhere, it would be impossible for them to detect him.

Furthermore, even if they found Tang Huan by a fluke, they would have no choice but to do so. If they wanted to obtain the rewards promised by the Clear Void Dao Pavilion to intercept him, the one who would die in the end wouldn't be Tang Huan, but themselves. Therefore, they could only send out the message and leave the matter at that.

By the time the experts of the Clear Void Dao Pavilion or other sects rushed over, Tang Huan would have already disappeared without a trace.

Because of this, after ruling out the suspicion of those few foreign cultivators that had recently appeared, Dragon Bay returned to its former tranquility. Even that Clear Void Sect cultivator had become lazy, and he just wandered around the city twice a day, completing the mission assigned by the sect.

This kind of thing was happening everywhere in the Starsky.

With the passing of each day, the ordinary cultivators from all over the place, although still searching for traces of Tang Huan, had gradually begun to perfunctory search. After all, whether it was the cultivators from the Clear Void Sect or cultivators from other sects, they couldn't possibly spend all their time and effort on finding someone.

However, the experts of the Clear Void Dao Pavilion and various sects still didn't relax.

They were either patrolling the various parts of the Soaring Star Sky, or guarding the teleportation array and the exit of the Heaven Realm. For both of these places, only entry and exit were allowed, in order to eliminate the possibility that Tang Huan had hidden herself and flown out.

Unknowingly, half a year had already passed.

In the depths of a cave 50 kilometers west of Dragon Harbor, there was a small scroll quietly hidden in a dark and hidden crevice. It did not emit any aura, and even if a cultivator was lucky enough to enter this inside the cave, they would not be able to detect the existence of the scroll.

Inside the cave's space, which was loaded with scrolls, inside the Supreme Profound Hall, Tang Huan took a deep breath and slowly opened her eyes.

"After spending so much time, my injuries have finally healed."

A happy smile surfaced on Tang Huan's face, but not long later, he couldn't help but frown.

Although it was joyous to have his injuries completely healed, forcefully prematurely refining the body that day at the "Void God Dao Altar" brought about powerful aftereffects. During this period of time, as his soul injuries healed, he could clearly feel an additional layer of formless barrier in the depths of his soul.

That barrier was incredibly strong, and with Tang Huan's current condition, it was actually difficult to shake it in the slightest.

Originally, if Tang Huan were to wait until the time was ripe before refining the Feng Zhuo's body and advancing to the lower realm of Sky Sovereign, it would have been a natural thing to do. However, after this unforeseen event, the difficulty of Tang Huan advancing to an Inferior Sky Sovereign had increased by at least ten times, or even more than ten times, compared to before.

Back then, when he was at the peak of the nine palaces in the Crimson Sky Kingdom, Tang Huan had thought about becoming an Empyrean within a hundred years.

But right now, Tang Huan was not sure if she would be able to step into the Sky Sovereign Realm in the next few decades.

However, since it had already come to this, there was no point in thinking about it. If the matter were to repeat itself, Tang Huan would still make the same decision. It was much more difficult to become an Inferior Level Empyrean than to throw one's life away in the Clear Void Dao Pavilion. To lose one's life was nothing but empty talk.

Right now, what Tang Huan needed to do the most, was to once again attract the attention of the Clear Void Dao Pavilion, so that they wouldn't use their other ways of thinking. As for the cultivation of breaking through to the Empyrean realm or the 'Blood Refinement Art', it wasn't something that could be done overnight. One had to progress gradually.

In a moment of thought, the scroll flashed out from the crevice of the cave and extended.

Immediately after, Tang Huan's figure disappeared from the Supreme Profound Hall, and when he reappeared, he was already inside the dark inside the cave outside. Tang Huan did not stay any longer. Putting away the scroll, she left the cave and after determining the direction, her body quickly merged into the air and disappeared without a trace.

The activation of the sacred art "Void Evasion" again and again, allowed Tang Huan's speed to progress at an unbelievable pace.

Although Tang Huan was too hasty and was unable to immediately raise her cultivation to an Inferior Sky Sovereign, her strength had at least increased more than tenfold compared to before. Inside the Dantian Dao Nascent Soul, there were billions of dao crystals. The vast amount of Sky Origin Energy contained within them had already reached an unimaginable level.

In addition, not only did Tang Huan possess a tremendous amount of energy within her body, the recovery speed of his energy had also become even more shocking.

The current Tang Huan, even if she were to continuously use the sacred arts "Heavenly Invisibility" and "Void Evasion" for dozens of days straight, she would be able to hold on with her boundless Sky Origin.

Such an increase was naturally extremely convenient for Tang Huan.

Although he hadn't been walking around during this period of time, from time to time, he would use his mind to check the situation of Dragon Bay. However, he had managed to obtain a lot of information. Currently, the Clear Void Dao Pavilion was still searching for him everywhere. Every stranger that appeared within the great formation would be closely scrutinized.

Because of this, if Tang Huan used a teleportation formation, even if her identity was not exposed, it would still waste a lot of time.

Rather than wasting time like that, it was better to just keep using the divine abilities.

This time, Tang Huan's destination was extremely clear, and that was the entrance to the void space where the Flying Star Palace was located.

According to the information that Tang Huan had gathered from the cultivators in Dragon Harbor, there were already a large number of Flying Star Realm experts gathered at the exit of the Heaven Realm. Among them, the number of Sky Sovereigns was said to be two, while the number of Sky Emperor s numbered in the tens.

Tang Huan did not think much of the Heavenly King, nor did she care about the Heavenly Emperor, he only cared about the two Sky Sovereigns.

Chapter 2188 - Starfire City

It was a pity that the cultivators staying at Dragon Harbor didn't have much cultivation. Their strongest cultivator was merely a Tier 5 Heaven Lord.

They only had a limited amount of information, and the amount of information they could find out was naturally not much either. They were able to find out that there were two Emphyreans and dozens of Heavenly Emperors at the exit of the Heaven Realm, which was already very good.

As for the two Emphyreans' lower bodies, they were still in the middle, or perhaps, their cultivation realms were not something they could know.

Fortunately, there was no need to rush this matter. They were still very far from the exit of the Heaven Realm, so even with Tang Huan's speed, she would have to spend a lot of time on the road.

Once they were there, it would not be too late for Tang Huan to investigate more.

In the sky above, Tang Huan's body moved like lightning, continuously flashing past. The mountain ranges, forests, rivers and seas, as well as the two supernatural powers, "Air Escape" and "Heavenly Invisibility", allowed Tang Huan to quickly approach from the east as if she was a ghost, as she flew toward the exit of Heaven Realm in the south.

Wherever he went, no one was able to detect Tang Huan's figure.

The reason was very simple. Firstly, Tang Huan's speed was fast enough and she often hid herself, and secondly, Tang Huan's strength was strong enough. The current Tang Huan, although still not an Sky Sovereign, was one of the few experts standing at the peak of the Ninth Heaven. With just the flying stars, other than Emphyrean level experts, no one else would be able to contend against Tang Huan. In this kind of situation, wanting to find him was simply a pipe dream.

Unknowingly, Tang Huan was only several million kilometers away from the exit of the Heaven Realm ...

... ..

Flying star in the sky, Star City.

In a hall behind the Spirit Dao Tower, Yuan Chao sat cross-legged with his eyes slightly closed. He was as still as a statue and there seemed to be a violent intent surging on his calm face.

After capturing Liu Li, he stayed in Star City and didn't return to the Clear Void Dao Pavilion.

In this period of time, he had been trying his best to deduce Tang Huan's whereabouts, but unfortunately, he didn't manage to obtain any gains. However, he didn't have any thoughts of giving up at all.

Originally, when he returned to the Flying Star Pavilion, he only wanted to relax and deal with Tang Huan, who had caused a lot of trouble for the Clear Void Dao Pavilion.

However, the development of the matter after this far exceeded his initial expectations. Now, capturing Tang Huan had already become his obsession and if she did not complete this matter, it would definitely become a demon in his heart. No matter how hard he tried to condense the immortal cave, it would be impossible for him to successfully attest to the dao god position in the future.

It wasn't that he didn't want to make a trip to the peak of the nine palaces. If Liu Li could hide there, there was no way he could hide.

It was said that there were several companions of Tang Huan on the Nine Palace Mountain and they also had a communication device that contained Tang Huan's Mind Stigma. Catching them would have the same effect as grabbing Liu Li.

However, after pondering for a moment, Yuan Chao gave up on this idea.

If those people were captured by him after leaving the Nine Palace Peak, there was nothing much to talk about. But if he fought those people to the peak and brought them here, the nature of the situation would change. Although he was not afraid of Qin Xian Ye, he did not wish to provoke such a strong enemy at this time. If he and Qin Xian Ye were to both lose, it would be even more impossible to capture Tang Huan.

"What's the situation?"

After an unknown period of time, Yuan Chao suddenly spoke.

The sound of light footsteps could be heard, and in an instant, a voice rang out. "There's still no movement from the Ancient Teleportation Formation and the exit of Heaven Realm. The person who spoke was Fu Anguo. Yuan Chao stayed behind as well.

Every day at this time, Fu Anguo would enter the palace to report the situation to Yuan Chao.

However, every time he reported something, he would go over and over again with these few lines of reasoning.

Upon hearing that, Yuan Chao went silent. A moment later, he suddenly opened his eyes, "It's said that Tang Huan came from the Thirty-sixth Heaven?"

"Exactly."

Fu Anguo was stunned for a moment before he nodded his head.

Yuan Chao slightly narrowed his eyes, a cold light flashing past his eyes. "An absolute genius like Tang Huan, no matter where she is, cannot be unknown. In these thirty-six days, I am sure that there will be sects or clans that he is from, and there will be quite a few people that are close to him ... "

"Great Master means to capture them all within the next 36 days?" Fu Anguo was stunned.

"..."

Yuan Chao's eyes flickered, but he didn't say anything.

Fu Anguo was a bit perplexed as he said rather hesitatingly, "Supreme Elder, from the first nine days to the second thirty-six days, it will take at least twenty to thirty years for you to come all the way here. Moreover ..."

"And what?" Yuan Chao humphed softly.

"..."

Fu Anguo was stumped for words. As the number one sect in Heaven Realm, they went to capture Tang Huan's friends and relatives in the next thirty-six days since they could not find Tang Huan. If this news were to spread, the remaining reputation of the Clear Void Dao Pavilion would all be ruined.

However, Fu Anguo could only silently curse a few times. He did not dare to voice such thoughts out loud.

"Arrange for the manpower to prepare for the next thirty-six days and wait for my orders." "Go ahead." Yuan Chao didn't say anything else and waved his hand with a grim expression.

"Yes."

Fu Anguo's lips moved a few times, but he eventually replied and left.

... ..

There was one in the Big Dipper City, and there was one in the Flying Star City.

Dubhe City was completely erected at the entrance of the Heaven Realm, while the Starfire City contained the entrance to the Heaven Realm. Of course, there was also a passageway that connected the two sides of the city.

And because of this, the area of Star Flame City was almost twice as big as Dubhe City.

However, when it came to the level of noise and commotion, the Star Fire City, which took up an even larger amount of land, was far inferior to Dubhe City. Furthermore, because of Tang Huan's matter, many experts guarded the place, sealing the exit.

Early morning, the first rays of the morning sun rose.

In the plaza in front of the exit of the Heaven Realm in the Starfire City, dozens of figures were sitting on the ground. The aura that was faintly emitted from their bodies was extremely tyrannical.

This group of people were all the experts that were ordered to guard the Starfire City.

"Half a year has passed, but Master Yuan Chao still hasn't been able to find that Tang Huan. It's not like he can't defend this way forever."

"Then tell me, what other better way is there?"

"Tang Huan can't be found in a year, but we can't be found here for a year, ten years, and ten years. If we can't be found in a hundred years, then don't tell me we have nothing to do and can't guard this place for a hundred years?"

"..."

Sounds of mutterings would occasionally ring out from within the crowd. After a long period of guarding, it had already caused many experts to feel resentment in their hearts.

However, no matter how dissatisfied they were, they could only grumble here. It was impossible for them to leave without a care.

They did not have Tang Huan's ability to avoid Yuan Chao's deduction and tracking. If they really dared to ignore the orders of the Clear Void Dao Pavilion and leave, the sect would not easily let them off.

Just that, if Tang Huan was not hiding somewhere for tens of hundreds of years, would they have to stay in this wasteland for hundreds of years?

From time to time, everyone's eyes turned towards the exit. There, two figures were sitting cross-legged on either side of the exit. One was an ordinary looking man in white, while the other one was an old man with a thin face.

No one could sense any aura fluctuations emanating from the two of them.

However, the white clothed man and the green robed elder only sat there quietly, letting the crowd deeply feel that what stood in front of them was a towering hurricane, a vast and boundless ocean, majestic and vast and unfathomable, as if any violent storm could not shake them in the slightest.

Those two were the Sky Sovereign who stood at the peak of the Heaven Realm.

Among them, the man in white was surnamed Wu, An Shi, and the old man in green was named Wang Rui. Neither Wu Anshi nor Wang Rui were cultivators from the Clear Void Dao Pavilion. As Empyrean experts, the reason why they were here was because they had been here for half a year. Naturally, they had also come under the orders of the Clear Void Sect.

Although Wu Anshi and Wang Rui didn't say anything, everyone would only follow their lead from now on.

This was, of course, a subconscious decision on everyone's part.

If they left, they would naturally leave. However, if they stayed, then no matter how unwilling they felt, they could only stay.

For the time being, everyone could see that Wu Anshi and Wang Rui were showing signs of leaving.

No one was surprised by this. Although Wu Anshi and Wang Rui were also Empyreans, when compared to the third place on the Honored Warrior Board, the Clear Void Sect's Supreme Elder, the disparity was too great. Even if the two of them joined forces, they still might not be able to fight

against Yuan Chao. Not to mention that the Clear Void Dao Pavilion had more than just one Empyrean.

In this situation, Wu Anshi and Wang Rui were like the rest of the people around them. No matter how displeased they were, they could only endure it.

It looked like he would still have to stay here for a long time.

Everyone was enlightened and could not help but sigh to themselves.

The amount of immortal spiritual energy in this region was even lower than the average level of the Flying Stars. The effects of cultivating in this sort of place were naturally not that great. It was foreseeable that as long as they didn't leave this place for a period of time, it would be difficult for their cultivation levels to increase.

However, it was at this moment that Wu Anshi and Wang Rui opened their eyes at almost the same time. They stood up and a breathtaking light burst out of their eyes.

The surrounding Celestial Emperors couldn't help but be startled when they felt the two of them move. They subconsciously stood up as well, their expressions uncertain.

Could it be that the two Sky Sovereigns had discovered something by making such a move?

Suspicion grew in the hearts of the crowd, but in the blink of an eye, they already knew why Wu Anshi and Wang Rui were acting this way. It was because a small black dot was rapidly approaching them from the horizon at an unimaginable speed.

With merely a flick of his finger, the little black dot became a black-coloured figure. The person who came was a young man. He had a handsome face, was tall and slender, and wore a black-coloured robe. He was clearly in everyone's line of sight, but there wasn't even the slightest bit of aura emitted from his body.

For a moment, everyone seemed to have an illusion, as if the black shadow that was rapidly approaching them did not exist.

However, after a brief moment of blankness, everyone came to their senses. Looking at the young face of the man in black, a strong sense of familiarity involuntarily arose. They had no idea how many times they had seen the portrait of the black-robed man. There were even many portraits posted at the exit of Heaven Realm.

"Tang Huan! Tang Huan! "

"Tang Huan came here!"

"It's really Tang Huan!"

"..."

After a split-second, exclamations rang out one after another, and following that, the crowd's elation became clear to see.

That Tang Huan really had the guts to appear in this place. If Wu Anshi and Wang Rui joined hands, they would definitely be able to capture him. As long as Tang Huan was caught, they naturally no longer had to guard this place.

Although Tang Huan had a glorious record of fighting Wei Xuan Ji and escaping from Yuan Chao's hands, no one felt that Tang Huan's true strength was comparable to the Heavenly Sovereign. Regardless of whether it was fighting Wei Xuan Ji or escaping from Yuan Chao's pursuit, Tang Huan must have used some sort of method.

If they were to really fight, Tang Huan would definitely be inferior to the Sky Sovereign. Furthermore, it would be two Sky Sovereigns working together.

Furthermore, both Wu Anshi and Wang Rui were not ordinary Sky Sovereigns. Their cultivations had long since reached the peak of the lower realm and were not weaker than Wei Xuan Ji. With the two of them working together, how could a mere Tang Huan possibly escape? At this moment, everyone's emotions were in turmoil.

In just a blink of an eye, Tang Huan was already less than a kilometer away from the group. Her appearance was clearly imprinted into everyone's line of sight.

"Tang Huan, you actually showed up here, this old man is truly surprised!"

Wang Rui flew up and stared at Tang Huan. Both of his eyes sized him up and down, and his brows revealed surprise that was difficult to conceal.

"Tang Huan, you want to leave the Starsky, and enter the void of darkness?"

Wu Anshi's figure flickered, he also stood in the air, his gaze towards Tang Huan mixed with surprise and ridicule, "Unfortunately, this path is not open to us!"

The fact that Tang Huan had appeared here without any concealment truly surprised Wang Rui and Wu Anshi.

However, after the initial surprise, the two of them quickly felt relieved.

There were only two ways to leave the Flying Star City. The first was through the ancient teleportation circle of the Star City to another Heaven Realm, and the second was through the Heaven Realm exit of the Star Fire City to enter the dark void world.

The former obviously wouldn't work. In Star Illusion City, other than the other Emphyreans, there was also Yuan Chao, the Supreme Elder of the Clear Void Dao Pavilion. If Tang Huan went there, it would be equivalent to walking into a trap. That Yuan Chao had already learnt his lesson at the Clear Void Dao Pavilion, how could he let Tang Huan escape?

From this, it could be seen that if Tang Huan wanted to leave Starfire City, she could only do so.

However, if Tang Huan wanted to go out, she could only do so by force, and if she wanted to do so by force, she would have to fight with the two of them, the two Sky Sovereign. Since there was no way to avoid a fight in the end, there was no need to hide anymore.

Chapter 2190 - I'm in a hurry!

According to the normal way of understanding, these two Emphyreans were definitely inferior to the peak Superior Emphyrean Yuan Chao.

As long as Tang Huan was not an idiot, avoiding strong was the best choice. Unfortunately, even if they were weaker than Yuan Chao, they couldn't be compared to a peak Superior Grade Heavenly Emperor!

Thus, after just a short while, Wang Rui and Wu Anshi looked at Tang Huan, their eyes filled with ridicule and ridicule.

"This road is still blocked. How do you know without trying?"

Tang Huan's gaze swept across the exit area of the Heaven Realm, where numerous Heavenly Emperors were gathered, then returned to Wang Rui and Wu Anshi, and asked with a smile. "What are the names of the two Sky Sovereigns?"

Wang Rui raised his eyebrows and was about to say something, but before his voice could reach his throat, Tang Huan casually waved his hand and smiled, "Forget it, before long, the two Sky Sovereigns will probably become the laughingstock of the world. Even if I do not know your names, it doesn't matter."

"How dare you!" Wu Anshi's face darkened, and he burst into rage.

"Savage as expected!" Wang Rui held his breath as his face immediately flushed red. After a while, an angry roar came out of his mouth.

"..."

Dozens of Heavenly Emperors in the exit area of the Heaven Realm were all stunned when they heard this.

No one could have thought that Tang Huan would be so arrogant and conceited that she would even dare to humiliate two Sky Sovereign class experts like Wang Rui and Wu Anshi.

It seemed that Tang Huan had the confidence to face the threat of the two Sky Sovereigns and escape into the dark void world through the exit of the Heaven Realm. In this regard, everyone couldn't help but scoff.

Tang Huan wasn't even an Sky Sovereign, how could she possibly win against two Sky Sovereigns?

Furthermore, there were still dozens of Heavenly Emperors guarding the exit.

If they were to fight alone, none of them would be a match for Tang Huan, but if dozens of them were to join hands, even Tang Huan might not be able to stop them! It seemed that Tang Huan had grown extremely powerful after escaping from the Clear Void Dao Pavilion and successfully avoiding Yuan Chao's pursuit.

"I don't have much time, and I'm too lazy to waste it on you. Receive my attack!"

However, Tang Huan ignored the chattering noise from the exit area and the ugly expressions of Wang Rui and Wu Anshi who were high up in the sky. She started laughing loudly, and the moment Tang Huan finished laughing, an extremely shocking white light shot out from in front of Tang Huan.

"Swish!"

The white light engulfed the two Sky Sovereigns at an astonishing speed, causing ear-piercing screams to ring out.

In the blink of an eye, an extremely terrifying sword intent followed the white light and roared out, and like a stormy sea, it crazily surged in all directions. It didn't even have the time to blink a

second before it had already enveloped half of the entire Starfire City, including the thousand mile area.

In that instant, the world shook, and the clouds in the sky changed color.

The dozens of Heavenly Emperors that were gathered at the exit area of the Heaven Realm, as well as the numerous Heavenly Kings that were gathered in the city, were all extremely shocked at this moment.

To think that there would be such a terrifying sword intent in the world, Tang Huan was truly worthy of being called the strongest on the Emperor Board, if this sword intent was aimed at a certain Heavenly Emperor, she would instantly lose her soul. It was no wonder that Tang Huan had dared to speak so arrogantly. He did indeed have quite a bit of confidence.

However, this bit of confidence was laughable when compared to the two Emyreans.

Everyone's gaze reflexively gathered on Wang Rui and Wu Anshi. With their cultivation and strength, it would definitely not be a problem for them to block this sword ray.

Under the watchful eyes of the crowd, Wang Rui and Wu Anshi attacked at almost the same time.

"Hu!"

A huge round sun formed in front of Wu Anshi, releasing trillions of dazzling golden rays that dazzled the eyes, completely covering the figure of the Sky Sovereign. In almost the time of the blink of an eye, the golden sun rumbled as it shot forward.

An earth-shaking sound rang out as a majestic and vast Qi pervaded the area. This Qi contained an unstoppable sharpness, as though it wanted to grind all the obstacles in front of it into dust, and wherever it went, a huge dark hole would appear and heal after the full sun.

"Slash ..."

Wang Rui lightly flicked his finger, and the sound of silk breaking was heard. A beam of green light broke through the air.

The moment the green light appeared, the surrounding area began to tremble violently. Countless strands of green energy were separated from the surrounding space and were absorbed by the green light. With every inch that he advanced, the green light expanded. In an instant, it turned into a huge green blade.

The huge blade quickly moved forward, but the signs of absorbing the surrounding green aura did not stop.

What the giant blade absorbed was not anything else, but the life force in the world around it. Even with their level of cultivation, the moment they saw the giant blade, they felt the life force in their bodies move as if they were about to break away from it. Fortunately, their reactions were quick and immediately caused the life force in their bodies to stabilize.

However, where the huge blade went, it seemed to be able to sever all life.

Looking at the two Sky Sovereigns' explosive attacks from high up in the sky, the many cultivators in the Starfire City were all shaken to the core. Their eyes were filled with unconcealable admiration and yearning.

As expected, the power of an Sky Sovereign was not something a Sky Emperor could fathom.

If Wang Rui and Wu Anshi's attack were aimed at them, the Heavenly Emperors, then perhaps half of the dozens of people would disappear in an instant.

"Boom —"

In a split-second, a loud sound rang out like a great bell and spread far and wide. It seemed as if it was able to tear apart the eardrums of everyone in this city.

The golden sun and the giant green blade collided with the huge white sword beam at almost the same time.

The moment the collision sound resounded in the sky, the sun, huge blade and sword beam exploded with a loud explosion. The golden, green and white Strength Qi transformed into a heart wrenching tempest that swept out in all directions, not only fierce but also tyrannical to the extreme, as if it could even shatter all obstacles in the world.

Wherever this Strength Qi storm passed by, violent ripples that could be seen with the naked eye would appear in the air. In the city below, all of the buildings and mountains outside of Starfire City had been turned into dust, as well as the forest.

In half of the Starfire City, whether it was the Heavenly King or the Heavenly Emperor, both of them seemed to be experiencing the end of the world. In the other half of the Starfire City, whether it was the Heavenly King or the Heavenly Emperor, both of them seemed to be experiencing the end of the world.

In the air above the Strength Qi, Tang Huan, Wang Rui, and Wu Anshi all suffered from the intense impact at the same time as they retreated. However, in just a split-second, Wang Rui and Wu Anshi, who had just stabilized their bodies, once again charged forward. Their expressions were extremely dark.
