

W. Master 2211

Chapter 2211

This mountain peak was completely condensed from power.

This power emitted an extremely majestic aura of a celestial being, and it also contained an intention to transcend the Heavenly Dao. This was a very strange source energy.

Tang Huan's "Primal Chaos Source Crystal" could convert the various source of power between heaven and earth into Chaotic Force.

Strictly speaking, Chaotic Force was also a type of source energy, and it was even the highest quality Chaotic Force in this world. In such a situation, logically speaking, there should not be any source energy that surpassed the source energy of primal chaos in this world. However, the truth was that this was not the case.

At the very least, the power that formed this mountain was at least as powerful as the power of primal chaos.

It was the source energy of this world's celestial spirits.

When Tang Huan calmed her mind and shifted her attention to the top of the mountain, not only was she able to feel the strong connection between his divine body and the avatar of immortals, even her main body was able to produce a kind of miraculous resonance with it.

At this moment, Tang Huan had a faint understanding that the Immortal Spirit and Primal Chaos Source were probably of the same origin.

In between the mind instructs (in a second), Tang Huan had already moved forward.

After a short while, Tang Huan stepped onto the mountain peak, and just as Tang Huan was about to reach the peak, a bizarre scene suddenly appeared in his view. The crystal clear mountain range seemed to have disappeared without a trace, and a ball of white mist rose up into the sky.

As time passed, the ball of Qi continued to expand, becoming bigger and bigger.

Countless millions of years had passed, and at the edge of that ball of aura, a land mass suddenly formed. On the land mass, there were mountains, rivers, lakes, and seas. A wonderful world had been born.

Time flew by, and the ball of aura grew bigger and bigger, and the world was expanding crazily as well, without end.

"Rumble ..."

After an unknown period of time, heaven-shaking, earth-shaking sounds suddenly exploded one after another.

The massive and massive world suddenly shattered, transforming into countless small fragments. Those that could still be said to be huge fragments gradually separated. There were some small fragments that lingered in the surroundings, but there were even more small fragments that constantly fell down. During this process, the celestial spiritual energy was constantly dispersed.

At the same time, the ball of misty white aura was separated like silk and assimilated into the countless fragments.

Another long period of time had passed ...

Around the countless fragments of varying sizes, there was also a misty white aura being emitted. After that, it constantly condensed into round cover of varying sizes, wrapping those fragments within.

That ball of misty white aura continued to shrink and condense, quietly turning into a ball of white chaos that concealed itself within a large piece of debris.

"So that's how it is."

The moment he saw that ball of white primal chaos, Tang Huan felt as if he had just awoken from a dream.

At this moment, Tang Huan had already understood that what he had just witnessed was actually the evolution of this world.

From the moment the Celestial Realm was born to the moment the Celestial Realm was broken through, the dozens of largest land fragments had now become the Celestial Realms that lasted 36 days, 18 days, and 9 days. On the other hand, the countless small fragments that sank had evolved into the lower realms that contained the Forging God Great World and countless other great worlds.

As for the round cover that were condensed into a spatial barrier, it was one by one.

"This is an Immortal Spirit Ancestral Mountain!"

Tang Huan was overwhelmed with emotions, and a strong sense of vicissitudes rose from her heart.

The evolution of this world had continued for an incomparably long period of time, and Tang Huan, who had witnessed this process, seemed to have passed through countless tens of billions of years ... In that moment, Tang Huan's state of mind seemed to have undergone a miraculous transformation, as though the entire world had been absorbed into the depths of her soul.

After a long while, Tang Huan's state of mind finally recovered to normal.

This "Immortal Spirit Ancestral Court" was the origin of the Celestial Realm. After the Celestial Realm was born, he saw countless creatures enter it and create a pure celestial body. Those creatures were the Ancient Era's Immortals. He had also seen countless Ancient Era's Immortals prostrating themselves before this mountain range.

However, it seemed that those Ancient Era's Immortals had never set foot on a mountain before.

When he thought about it, Tang Huan's heart moved, and he subconsciously looked around. But when he looked at it this way, Tang Huan couldn't help but be shocked.

Only now did he realize that he had actually already arrived at the peak of the mountain.

On the peak of this pointed mountain, there was barely enough room for one person.

Unknowingly, it had crossed the entire Immortal Spirit Ancestral Peak and reached its peak ... In this instant, what Tang Huan felt the most was not joy, but surprise. Almost without the slightest hesitation, Tang Huan once again activated her "Nine Yang Divine Furnace" and the divine crystal to their limits as her enormous consciousness spread out.

However, the moment his mind touched the mountain, not only did Tang Huan's avatar feel the pull, even his original body was no exception.

In this instant, Tang Huan's original body and her divine body seemed to be about to fuse with the mountain peaks.

The sudden commotion caused Tang Huan's heart to thump loudly. She wanted to resist, but after the blink of an eye, Tang Huan hesitated, he had a feeling that this was not a bad thing, because at this time, whether it was her soul or the Nine Yang Divine Furnace, neither of them had a sense of danger.

"Maybe we can give it a try?"

In the blink of an eye, his feet had already merged with the mountain peak. Then, his legs, torso and head ... After a few breaths of time, Tang Huan's body had already completely merged with the mountain range.

Tang Huan's body continued to sink downwards and from beginning to end, he had not felt the slightest sensation of suffocation.

Not only that, when Tang Huan stood in this mountain range, she felt as if a newborn baby was returning to her mother's embrace. After an unknown period of time, Tang Huan who was immersed in this wonderful feeling finally regained her senses, and realised that her body had stopped sinking.

"Essence of primordial chaos, Essence of Immortal spirit"

Tang Huan tried to control her mind, but in the next moment, she was stunned.

At first, he thought that what formed this Ancestral Peak was formed from the source energy of the immortal spirit. Later on, the sudden movement of his main body made him feel that the Immortal Spirit Source and the Chaos Source shared the same origin. But now, he suddenly realized that this mountain range was actually formed from both the source energy and the source energy of the immortal spirit.

Chapter 2212 - Chaos Immortal Spirit

The source energy of the primordial chaos and the source energy of the celestial spirits were indeed of the same origin.

However, the power of Primal Chaos was also the reason why the power of the Fairy Spirit outside was unable to sense the existence of the power of Primal Chaos before it had fused with the mountain range. After all, it was difficult for his mind to penetrate the strong power of the Immortal Spirit outside.

At this moment, Tang Huan also slowly began to understand why she could smoothly climb the mountain peaks.

Firstly, because he possessed a pure Immortal body clone, the immortal source energy here wouldn't reject him. Secondly, because he had comprehended the Chaos Laws and possessed a powerful primal chaos aura, the source energy of primal chaos wouldn't reject him either ... In this way, ascending to the peak of the mountain was natural and logical.

As for the countless Ancient Immortals who had been to the Immortal Spirit Ancestral Court, they only fit the former and not the latter. Naturally, they could only stop at the foot of the mountain.

"If I can use my true form to absorb the Essence of primordial chaos, and my Immortal body to absorb the Essence of Immortality"

This discovery caused a thought to suddenly appear in Tang Huan's mind, and in that moment, Tang Huan could not help but be pleasantly surprised. If it was really like this, then Tang Huan's original body and Immortal body would definitely be able to progress together, and that would greatly increase the speed of Tang Huan's cultivation.

Originally, Tang Huan was a little worried that after breaking through the mysterious domain in the "Heavenly Abyss Mansion", the speed at which the Immortal Body's clone cultivated would slow down. However, if she could absorb and refine the boundless power of the Immortal's spirit, then that worry of Tang Huan's would no longer exist in the future.

Not only was his avatar the same, but so was his main body.

Although this mountain looked small, as the source of the Immortal World and Heaven Realm, the amount of Essence of Primal Chaos and Essence of Immortality had reached incredible heights. Even thousands and tens of thousands of years wouldn't be enough to completely refine it, much less ten or a hundred years.

With such a massive supply of energy, Tang Huan's future cultivation would not have any obstacles.

Thinking of this, Tang Huan immediately became excited. In the next moment, Tang Huan displayed the "Creation Divine Arts" to its fullest extent, and couldn't wait to start the experiment.

After a split second, strands of the origin power of Primal Chaos started to segregate from the surrounding mountain peaks, continuously seeping into Tang Huan's body. At almost the same time, the power of the Immortal Spirit Source also penetrated through the surrounding source of power of Primal Chaos and entered Tang Huan's body.

The 'Creation God Tactic' was not only applicable to the cultivation of the main body, but also to the avatar of the immortal body.

Before, when Tang Huan cultivated, her main body and Immortal body would be separated for the most part. But now that she cultivated at the same time, the "Creation Art" actually drew in all the energy the two bodies required ... Although there wasn't much source energy in his body, it was a good start.

At this moment, not only was Tang Huan not disappointed, she was actually pleasantly surprised.

If nothing unexpected happened in the Immortal Spirit Ancestral Court, Tang Huan felt that she could cultivate until she reached the peak of the Upper Sky Realm, maybe even to the point that she could break through the shackles of the Sky Sovereign Realm and step into the supreme realm of the Gods.

Taking a light breath, Tang Huan suppressed the joy in her heart.

Originally, Tang Huan felt some regret, she did not have the time to absorb and refine the mist energy at the edge of the "Immortal Spirit Ancestral Court". Right now, Tang Huan only had one wish, and that was to stay in the "Immortal Spirit Ancestral Court" for as long as possible.

The longer he stayed behind, the more origin energy of Primal Chaos and Immortal spirit energy Tang Huan would be able to absorb, so naturally, his harvests would also be greater.

Right now, the only people Tang Huan was slightly worried about were Liu Li, Qin Xian Ye and Ji Qingtian.

"I wonder how they are doing right now?"

Tang Huan's heart raced. Previously, when she felt the changes in the world, she already had a rough understanding of the "Immortal Spirit Ancestral Court". This "Immortal Spirit Ancestral Court" was actually a circular space. The sticky fog that they had encountered earlier was at the edge of the space, and it was distributed in a circular shape.

Tang Huan was currently in the center of the "Immortal Spirit Ancestral Court".

There was a vast area between the center of the Ancestral Court and the misty area. It was equivalent to a mini version of the Immortal World. Indeed, there were many treasures of heaven and earth within that region. However, over the course of time, those treasures had gained a powerful spiritual will.

Every single heavenly resource had strength comparable to an Empyrean level expert.

Not only that, after entering that area, their bodies would undergo a transformation. This meant that if the Sky Sovereign who entered didn't resist, they would unknowingly possess a pure Immortal body and become an existence similar to Ancient Immortals.

To an Empyrean like them, this wasn't necessarily a good thing.

However, if he wanted to resist that kind of transformation, he would have to expend a lot of strength and mental strength. Not only should he resist the changes in his body, he also had to be wary of other Emphyreans looting him while he was on fire. At the same time, he also had to guard against heavenly materials and earthly treasures that could rival an Emphyrean ... That area could be said to be filled with danger.

Fortunately, Liu Li, Qin Xian Ye, and Ji Qingtian wouldn't split up. If they were to work together, their ability to deal with danger would greatly increase. Even if he encountered Gu Daozi, Yuan Chao, and Wei Xuan Ji from the Clear Void Dao Pavilion, they would not dare to act rashly.

After all, if the two of them were to clash, both of them would inevitably suffer.

It was impossible for Gu Daozi and the others to not think of this. Everyone entered the "Immortal Spirit Ancestral Court" in order to reap some benefits. If they were to fight with a strong enemy, wouldn't that benefit others? As a result, when there was still enough heaven and earth treasures, even if they met and clashed with each other, it would still be enough.

After he understood this point, Tang Huan also let go of his worries.

Since they wouldn't be in any danger for a while, and he couldn't get close to them, even if he joined in, it wouldn't be of much use, so there was no need to find a way to meet up with them. In this period of time, it would be better to focus on cultivation and raise his cultivation as much as possible.

If he became a Mid Level Emphyrean, he would definitely be able to fight against Gu Daozi.

If he could successfully become a Highest Emphyrean, let alone a single Gu Daozi, even if four or five Gu Daozi and four or five others joined forces, that wouldn't be enough!

After thinking for a while, Tang Huan cleared her distracting thoughts, calmed her mind, and started to concentrate on activating the "Creation God Technique". Before continuing to absorb the origin energy, Tang Huan needed to refine all the mist energy that was accumulated by the "Nine Yang Divine Furnace", as for the spirit source energy, she could continue to absorb it.

Chapter 2213

Outside the mass of white primal chaos that carried the "Immortal Spirit Ancestral Court" was a sea of people.

It had been several months since the appearance of the "Immortal Spirit Ancestral Court".

At this time, the commotion caused by the Ancestral Court was still there. Even though there were still cultivators leaving every day, there were still more cultivators coming from all directions every day.

The "Immortal Spirit Ancestral Court" that had existed only in legends for countless years had appeared. Which cultivator from the nine heavens did not wish to take a good look at it?

Because of this, as long as one had the conditions, they would all rush over. Because of this, the number of cultivators gathering in this area continued to increase.

"..."

"How many Emphyreans were there?"

"It should be around the 40th or so ..." "With that said, the majority of Sky Sovereign and Sky Sovereign who were up to nine days have already entered the 'Immortal Spirit Ancestral Court'."

"The remaining Emphyreans are probably in the void space of the Celestial Realm. Even if they noticed the commotion here, they wouldn't be able to return so quickly."

"..."

"Say, do you guys think that Tang Huan has gone in yet?"

"That's hard to say. I've asked the first people that rushed over, but I don't think I've seen Tang Huan before."

"Maybe Sky Sovereign Tang Huan entered the 'Immortal Spirit Ancestral Court' the moment she appeared. Don't forget that he and Sky Sovereign Liu Li are siblings, and this 'Immortal Spirit Ancestral Court' was rumored to have been discovered by Sky Sovereign Qin Ye. Although Sky Sovereign Tang Huan and Sky Sovereign Qin Xian did not have much of a relationship, Sky Sovereign Liu Li and Sky Sovereign Qin Xian had a deep relationship. The three of them have never shown up, so they must have entered the 'Immortal Spirit Ancestral Court' very early on."

"..."

All sorts of whispers rose and fell.

Surrounding the white mass of chaos, all kinds of sounds were continuously surging back and forth.

The group of cultivators gathered here had their own guesses as to what was going on inside the "Immortal Spirit Ancestral Court". Every time they saw an Sky Sovereign enter the Ancestral Courtyard, many cultivators would feel as if their hearts were being scratched by a cat, constantly wondering what kind of harvest they could obtain in the "Celestial Sect of Ancestral Immortals".

Many cultivators wanted to see when the first Sky Sovereign would come out of the "Immortal Spirit Ancestral Court".

As a result, many people had made mental preparations to stay here for a long period of time. Moreover, staying here was not a waste of time, many people had already discovered that cultivating in the vicinity of the "Immortal Spirit Ancestral Court" could actually have twice the effect of half the effort.

Thus, even though the cultivators that had rushed over couldn't all stay, there were still a few that left.

Unknowingly, the population base in this area had grown larger and larger.

One year, two years ... Five years ... Ten years ...

From the depths of the white chaos, a city quietly appeared.

And as time went on, it kept expanding in all directions. The city didn't have any city walls, and its layout was a mess. Moreover, the buildings inside the city were all rather simple and crude, but the cultivators that lived in the city weren't any weaker than those in the Upper Nine Heavens.

A city of this size had been built over countless years, but from the moment the city appeared until now, it had only been ten or so years. Moreover, the scale of this city was far from its limit. Thus, even after so many years had passed, many cultivators still gathered here every day.

The increase in population naturally brought about the expansion of the city!

The city expanded every day!

Gradually, the city began to have a traditional name — —

"Immortal Spirit Ancestral City!"

... ..

It was naturally impossible for Tang Huan to know of any activity happening outside the Ancestral Court.

In the center of the Ancestral Courtyard, inside the Celestial Ancestor Mountain, Tang Huan was still as unmoving as a statue.

"Boom —"

After an unknown amount of time, an earth-shaking explosion seemed to have erupted from within Tang Huan's body.

Immediately afterwards, a terrifying Qi that was rising rapidly from Tang Huan's body roared out in every direction. However, the further the incomparable Qi spread out, the more it weakened, until it finally disappeared, and there wasn't even a trace of it leaking out from the mountain peaks.

"Intermediate Emphyrean!"

After a long while, Tang Huan gasped from her cultivation within the Immortal Spirit Ancestral Peak, and woke up.

He didn't know how long he had been here, but he was sure that it wouldn't take more than 20 years.

Within twenty years, he had already advanced from a lower level Emphyrean to a middle level Emphyrean ...

This speed had already exceeded Tang Huan's expectations.

It had to be known that back then, it had taken Tang Huan a long time to advance from the realm of the Highest Heavenly Emperor to the realm of lower Emphyreans.

When he advanced to the lower Emphyrean, Tang Huan had directly charged up to the twelfth rank on the revered list. Now that he had ascended to the middle Emphyrean, the honorary list had actually not been revealed. This caused some people to be suspicious.

However, this doubt had just appeared, and Tang Huan's heart had already become relieved.

The existence of this Immortal Spirit Ancestral Peak had already transcended the Heavenly Dao. When he broke through here, the Heavenly Dao would not be able to sense the change in his cultivation.

It was precisely because of this that the name list did not appear when he broke through.

If this was outside of the "Immortal Spirit Ancestral Court", not only would he be able to feel the rank he had revealed himself, but all of the cultivators who hadn't entered the Ancestral Court would also be able to feel it. Unlike now, no one, no matter inside or outside the sect, knew that his cultivation level had increased.

"I wonder what rank you are currently ranked at."

Tang Huan thought.

Now, his strength was countless times stronger than when he had first ascended to become a lower Emyrean. There was no doubt that he would be able to reach the top 10 rankings on the Divine Seal Decree. As for the top three rankings ...

Tang Huan felt that she should be stronger than the third place holder of the honor list, Yuan Chao.

Compared to Qin Xian Ye who was ranked second, especially compared to Gu Daozi who was ranked first, there should still be some gap. However, if they truly were to fight, Tang Huan would be fearless as well. Even if he were to face them head-on, he would not be in any danger. Even if she was no match for them, she would still be able to calmly retreat.

Thinking about it this way, if the Heavenly Dao could sense his change and was ranked third, there shouldn't be any problems.

If he broke through again and was promoted to Upper Sky Sovereign, then he would definitely be at the top of the rankings.

"More than ten years have passed. The Sky Sovereigns that have entered the Ancestral Courtyard shouldn't be able to reach the center of the Ancestral Courtyard so quickly, but they can't be careless either."

Tang Huan's mind raced, she also felt a sense of urgency.

Once other cultivators arrived at the center of the Ancestral Courtyard, he would probably not be able to continue cultivating here without distractions. This was because someone had entered, meaning that the passageway to the center of the ancestral courtyard had already been opened. At that time, a change would happen to Immortal Spirit Ancestral Mountain. He reckoned that it would probably separate from the mountain range.

Therefore, Tang Huan had to use this time to cultivate. Before anyone enters, the higher the better.

In an instant, Tang Huan had already calmed her mind and concentrated once again ...

Chapter 2214

"Rumble ..."

In the depths of an enormous canyon, an earth-shaking explosion suddenly broke the silence of this space.

In an instant, a burst of vigorous laughter rang out, and there was a hint of excitement that was difficult to conceal in his voice: "After enduring for so long, we finally got this Immortal Grass."

"After refining this Immortal Grass, our cultivation bases will definitely increase by quite a bit."

"That's right, the treasures of the Ancestral Court are too difficult to obtain."

Following which, exclamations sounded one after another.

At the end of the ravine stood a precipitous cliff. In front of the cliff stood three figures. They were none other than Liu Li, Qin Xian Ye, and Ji Qingtian.

At this moment, Qin Xian Ye was holding a crystal clear Immortal grass in his right hand. Its roots were fat and its leaves were sparse. It looked like a radish that had just crawled out of the ground. However, it was precisely this radish shaped Immortal Grass that had caused them to spend nearly two years here.

Even though it was being held by Qin Xian Ye, the herb was still restless. It kept twisting and turning as if it wanted to break free.

Looking at this stalk of Immortal Grass, a relieved smile appeared on their faces. Over the past two years, they had taken turns attacking this stalk of Immortal Grass. During this process, Liu Li and Ji Qingtian had even been injured.

"If little brother Tang Huan was here, it would probably be much easier. Her Primal Chaos Daos would definitely be the nemesis of these immortal grasses."

Liu Li laughed, then asked worriedly, "Even after so much time has passed, there still hasn't been any news at all. I wonder where Little Brother Tang Huan is?"

"There's no need to worry about Brother Tang Huan. His gains are definitely not small compared to ours."

Immortal Qin Ye smiled and said, "He has a pure Immortal body. To the Immortal Spirit Ancestral Court, he is an Ancient Immortal. Thus, all of us Ascendants have come here. Yet, he was seen as an Ancient Era's Immortal being teleported away. For the Ancient Era's Immortal to enter the Ancestral Court, what sort of treatment would he have? "

"That's right."

"We should hurry and refine this Immortal grass. If the other Celestial Sovereigns were to discover it, we would have wasted quite a bit of energy."

When Liu Li and Qin Xian Ye heard this, their expressions turned slightly cold.

After entering the "Immortal Spirit Ancestral Court", they had indeed gained quite a bit of advantage and obtained quite a number of easily obtainable treasures. However, in the following period of time, they encountered quite a few Empyreans.

They did not have to worry about ordinary Empyreans, but for Gu Daozi and Yuan Chao, they had to be on guard.

Almost a few years ago, they had met with Gu Daozi, Yuan Chao and the rest from afar. However, at that time, both parties had some scruples and did not want to waste any time, thus, they did not fight.

Once they revealed a flaw, Gu Daozi and the others would definitely not show mercy.

"Hu!"

Moments later, the figures of the three disappeared from where they stood.

There were countless cracks appearing on the cliffs, as if they could collapse at any time. But as time passed, those cracks and depressions were slowly closing up, bit by bit, and the cracks on the cliffs were also shrinking.

Before long, everything had returned to how it was before. All traces of the battle had disappeared, as if the battle that had lasted two years had never occurred here ...

... ..

At the center of the Celestial Ancestral Temple.

Inside the Ancestral Peak, Tang Huan woke up from her cultivation once again.

It had already been about a year since he had advanced to become a middle age Empyrean. During this period of time, not only did the amount of dao crystals at Tang Huan's Dantian s not increase, it had even decreased by one.

However, just now, there was an increase in the number of divine crystals.

After becoming an Empyrean, in terms of the number of Dao crystals, from 41 to 10 billion Dao crystals would become Demigod Empyreans; 10 to 20 billion Dao crystals would become Intermediate Empyreans; 20 to 40 billion Dao crystals would become Highest Empyreans. Whether it was Demigod, Median or Highest, the number of Dao crystals was terrifyingly high.

After his cultivation had stabilized, Tang Huan's cultivation did not slow down at all. He originally thought that the number of dao crystals would continue to increase at an alarming rate.

However, the following situation greatly exceeded Tang Huan's expectations.

The number of Dao-Crystals did not continue to increase, but the critical Dao-Crystal that had allowed him to break through to the Intermediate Empyrean Realm was slowly changing. Not only that, as he continued his cultivation, Tang Huan even realised that his main body and the Immortal Body was showing signs of fusing together.

At first, Tang Huan didn't really understand why such a change occurred.

However, Tang Huan did not deliberately prevent this kind of change from happening. He even had a faint feeling that this kind of change shouldn't be a bad thing for him.

In the period of time after that, Tang Huan's heart was filled with anticipation.

Now that he thought about it, the fusion between his main body and his Immortal body had become even more obvious, and even though it had not really begun, it was not too far away from the day it truly began. And inside the Dantian, the continuously changing dao crystal had finally come to an end, and it had even made Tang Huan pleasantly surprised.

When a Dao-Crystal transformed into a Divine Crystal, it was like a cocoon breaking through a cocoon and transforming into a butterfly.

The current Tang Huan already possessed two divine crystals. The decrease in the number of cultivation crystals and the increase in the number of divine crystals had not changed, but Tang Huan could clearly feel that her strength had increased by a huge amount.

After the initial surprise, Tang Huan's state of mind gradually calmed down.

He had understood long ago that the transformation of this Dao-crystal into a divine crystal, as well as the fusion of his body and his Immortal body, had all been influenced by this Immortal Spirit Ancestral Peak.

The two types of source energy that had condensed into this Ancestral Mountain contained a meaning beyond the Heavenly Dao. This resulted in a strong catalytic effect, allowing the Dao crystal to naturally evolve towards a divine crystal. If it wasn't in this Immortal Spirit Ancestral Mountain, this kind of transformation would have happened, but it would not have happened so quickly.

At the same time, because this Ancestral Peak contained the powers of the Primal Chaos and the powers of the Fairy Spirit, and both were perfectly fused together, Tang Huan cultivated here and absorbed both powers at the same time. His main body and the Immortal Body would naturally follow their unique characteristics and undergo changes.

If Tang Huan's main body and immortal clone completed the fusion, then it would perhaps be the same as this mountain, a situation where celestial spirits appeared on the outside, and the primal chaos settled peacefully ... As long as Tang Huan kept her true nature and did not get assimilated by this Immortal Spirit Ancestral Peak, this kind of change would be beneficial for Tang Huan.

Chapter 2215

Tang Huan calmed down and continued to immerse herself in cultivation.

The appearance of the second divine crystal increased the speed at which Tang Huan was refining the Primal Chaos and Immortal Energy. Within the Dantian Dao Nascent Soul, the number of Dao Crystals started to increase explosively.

10.5 billion ... 11 billion ... 12 billion ...

The speed at which the Dao crystal was being increased was so crazy that even Tang Huan, the instigator, was shocked.

Of course, after the moment of shock, the only thing that remained in the depths of Tang Huan's soul was ecstasy.

If this trend continued, perhaps in just a dozen or so years, his cultivation would once again suddenly jump into the Upper Level Zun Stage.

In just a few short decades, he rose from a lower Emyrean to a upper Emyrean ...

If word of this got out, most of the cultivators in the Heaven Realm would go crazy. As for the Emyreans, it would take countless years for their cultivation bases to reach such a level.

Of course, if it was really like that, Tang Huan wouldn't mind at all.

To him, the shorter the time it took to be promoted to a Upper Level Zun Stage Heavenly Jewel Master, the better.

Once he had truly stepped into the Upper Sky Sovereign Realm, Tang Huan would once again use the "Blood Refinement Canon" to activate the power of his bloodline to perform a more precise calculation, to confirm whether his mother, Ji Ru Yi, was really like what Liu Li and Ji Qingtian had said, and was in a spatial rift that was connected to another plane.

Tang Huan's mind was calm like water, the number of crystals continued to increase exponentially.

14 billion ... 16 billion ...

... ..

Another ten years passed in the blink of an eye.

Compared to ten years ago, the Immortal Spirit Ancestral City had become even bigger, this area had long been treated as a holy land for cultivation by the cultivators from the Ninth Heaven. Moreover, the area that the white primal chaos could affect was shockingly large, and even now, the expansion of the Immortal Spirit Ancestral City had yet to reach its limit.

"Hu!"

Another ten figures appeared at the peak of the mountain in the center of the Immortal Spirit Ancestral City. Everyone's face was filled with shock as they stared at the white mass of chaos floating in the air.

This kind of scene happened countless times every day in this area.

The cultivators that were nearby were already used to this.

"Master, is this the entrance to the Immortal Spirit Ancestral Court?" A peerlessly beautiful woman murmured. Deep within her beautiful eyes, there was an unconcealable astonishment. If Tang Huan were here, she would definitely be able to recognize her at a glance. She was Lin Siwei, who had once been in the "Realm of Unbridled Domain" of the Lower Heaven Realm, the Desolate God Palace.

Not long after training in the Primal Beginning Immortal Domain ended, Lin Siwei had already left Xuandu Heavenly Palace and entered the Heaven Realm.

She stayed there for a long time, until a few decades ago, when she was lucky enough to become a disciple of a Celestial Emperor. The Heaven Emperor was not a Heaven Realm cultivator, but an elder from a super sect called the "Spiritual Martial Immortal Hall" in the Upper Nine Heavens.

On the way back, Lin Si Wei accompanied her for nine days.

"That's right, I really didn't expect to have the chance to see this' Immortal Spirit Ancestral Court 'in my lifetime."

Beside Lin Si Wei, a middle-aged woman in a white robe couldn't help but sigh emotionally. It wasn't just her, almost all the cultivators that saw this mass of white chaos for the first time would sigh with similar emotions.

Lin Si Wei nodded slightly. "The 'Immortal Spirit Ancestral Court' has been exposed for many years. It's said that not a single Emyrean has appeared. I wonder what's going on inside?"

"This is unknown."

When the middle-aged woman heard this, she unconsciously smiled, "Compared to this, what I would really like to know is what kind of fortune that Emyrean Tang Huan has inside."

"Tang Huan..."

Hearing this familiar name, Lin Si Wei couldn't help but fall into a trance.

She had a strong premonition when she left the "Primal Beginning Immortal Domain" that it might not be long before Tang Huan's cultivation would completely surpass hers. As the proud daughter of the heavens, Lin Siwei didn't want to be overshadowed by that detestable bastard.

The reason she left the lower Heaven Realms was to improve herself more quickly.

No matter if it was on the way to the Heaven Realm or after eighteen days, she had been training diligently and had never let her guard down. A hundred years later, she had successfully raised her cultivation level to the peak of the Upper Sky King Realm.

However, before she could feel happy for long, she was stunned by the sudden appearance of the Heavenly Dao.

At that time, a name unexpectedly rose up the ranks, directly to the top of the King's Rankings ...

That person was Tang Huan!

After leaving the lower Heaven Realms for many years, to see Tang Huan's name once again, was actually on the King Board. Furthermore, the moment Tang Huan had arrived, he had immediately charged to the top of the King Board. However, she quickly pulled himself together and threw herself into cultivation.

Several decades ago, Lin Si Wei had finally stepped into the lower Heavenly Emperor Realm.

But at that time, Tang Huan was already the strongest on the Emperor Board and his name had spread far and wide. Even the countless cultivators of the Heaven Realm had heard of Tang Huan's name. It was said that although Tang Huan was the Heavenly Emperor, she could still fight head on against the Heavenly Sovereign's Pavilion Master, Wei Xuan, and even the third ranked disciple on the Sovereign Board, Yuan Chao, was humiliated because of him. In the countless years of history of the Heaven Realm, such a miraculous Celestial Emperor was unprecedented.

From then on, Lin Si Wei no longer had any thoughts of chasing after Tang Huan.

For a Tang Huan like this, let alone her, even if he combined all of them, it would still be impossible to catch up to his. Dozens of years had passed, and Tang Huan was an expert who had long respected the twelfth rank. Now that she had been in the "Immortal Spirit Ancestral Court" for so many years, if nothing unexpected happened, his strength would definitely become even stronger.

"When Tang Huan comes out of the Immortal Spirit Ancestral Court, no one in nine days would be able to contend with him."

After a long time, Lin Si Wei could not help but sigh faintly. She didn't know what she was thinking in her heart. Admiration? Envy? Jealousy? Or was it out of helplessness?

The grudge from that year had long gone with the wind.

As a cultivator who had walked out for the next thirty-six days, Tang Huan was able to reach such a level. Being born for the next thirty-six days, she indeed felt both admiration and envy, but most of them were helplessness when he heard this name. If not for Tang Huan, with her innate potential, even if she had entered the top nine days, he would still shine brilliantly. After all, in the current Heaven Realm, there were very few Heaven Emperors as young as her.

However, Tang Huan's existence had completely concealed the light emitted from her body.

Not only her, all of the geniuses in Heaven Realm were the same. Compared to Tang Huan, who was now an Empyrean, all the geniuses lost their luster.

"Siwei, do you think so highly of him?" When the middle-aged woman at the side heard this, she looked at Lin Si Wei with some surprise. "There are many people in the Ancestral Court who wished to kill him as soon as possible."

"Master, if he had been so easily killed, he wouldn't have made it this far."

"..."

Chapter 2216 You're looking for the wrong person!

Within the Immortal Spirit Ancestral Court, dozens of figures were gathered in front of a mass of white primal chaos.

It was exactly the same as Qu A'Tian's sphere of white chaos outside, but it was only a few dozen meters in size. It floated in the air without moving, yet it seemed to be filled with mystery.

Gu Daozi, Yuan Chao, Wei Xuanji ... Liu Li, Qin Xian Ye, Ji Qingtian ... Black Cicada, Pan Xin, Pan Zhou, Painted Eagle Yan, Yun Xiu, Chu Gao Ge ... Wang Rui, Wu Anshi...

Over forty people, all of them were Emphyreans.

Currently, more than 90% of the Emphyreans in the Heaven Realm had already entered the "Immortal Spirit Ancestral Court". Regardless of whether they entered early or early, most of them had gathered here, and those who did not, had already fallen within the "Immortal Spirit Ancestral Court".

More than five Emphyreans had lost their lives in this "Immortal Spirit Ancestral Court." If this news were to spread, who knew what kind of shock it would cause in the Heaven Realm.

However, the Sky Sovereign, who was still alive, more or less had their own gains.

Compared to when they first entered, almost everyone's cultivation and strength had risen. Some of them had even risen from a lower level Emphyrean to a middle level Emphyrean, or from a middle level Emphyrean to an upper level Emphyrean.

Just a moment ago, everyone was still scattered all over the region, and they were trying their best to find heavenly and earthly treasures.

In the blink of an eye, strange changes occurred in the area, and the air around them seemed to shrink. Everyone was now gathered in the area, and what they saw in front of them was the white primal chaos.

It was the existence of this group of treasures that kept them from acting rashly.

Otherwise, this place would have fallen into chaos long ago.

After all, the more than forty Emphyreans here either already had a deep grudge against each other outside the Ancestral Court, or they became enemies after entering the Ancestral Court and fought over the treasures of heaven and earth ... Now that they had clashed once again and there was nothing else to divert their attention, they naturally had to calculate the new and old grudges.

Just like Yuan Chao and Wei Xuanji, at this moment, their gazes were focused on Liu Li, Qin Xian Ye, and Ji Qingtian.

Amongst the forty odd Sky Sovereigns, there was no sign of Tang Huan. This was clearly illogical. Yuan Chao and the rest didn't know that after walking out of the mist, Tang Huan had already parted ways with Liu Li and the others. Now that they didn't see Tang Huan, it meant that Tang Huan was hiding within Liu Li and the others' spatial equipment.

If it weren't for the fact that the situation was currently unclear, Yuan Chao and Wei Xuanji would have lost their temper a long time ago.

Tang Huan had caused the entire Clear Void Dao Pavilion to be covered in dust, and now, in the Ancestral Courtyard, Tang Huan had nowhere to run, how could they let go of such a great opportunity?

"This chaos region is very likely a corridor."

Chu Gao Ge muttered to himself, and then his eyes lit up, "Could it be that in this Ancestral Court, there are two layers of space? Right now, we are only in the outer space of the Ancestral Court. In addition, there is also the inner space. This mass of primal chaos is connected to the inner and outer space of the Ancestral Court! "

The more he spoke, the more certain Chu Gao Ge's tone became.

Hearing Chu Gao Ge's guess, many of the surrounding Ascendants nodded in agreement.

Pan Zhou nodded and laughed, "Brother Chu is right." Once we pass through the mist, we will enter the outer space. Only when all of the heavenly resources in the outer space have been obtained by us will the passage to the space within the Ancestral Court be revealed. We have benefited greatly from the outer space. I wonder what kind of harvest we can reap after entering the inner space? If there really is such a treasure that can help us prove our dao, that would be great! "

At the end of his sentence, Pan Zhou's eyes couldn't help but light up.

It wasn't just him. The other Emphyreans also had shining eyes. Their faces were filled with anticipation, and their eyes burned with a hint of fervor. To these Emphyreans, the treasures they had obtained before could only increase their cultivation and strength. It wasn't much help to them in proving their Dao Deity status.

For experts like Gu Daozi and Yuan Chao, this was even more so.

After entering the Immortal Spirit Ancestral Court, what they wanted the most was a treasure that could help them prove their dao. As for the other heavenly materials, they would only be able to obtain them along the way. Yes, it was good, no, it didn't matter. However, they all knew that such a treasure only existed in legends.

No one could be sure if it really existed.

"Whether this is the case or not, once we enter, we will naturally see!"

Qin Xian Ye smiled.

Everyone nodded when they heard this, but no one moved.

After all, what happened just now was just a guess.

No one knew if that mass of white chaos truly carried a passageway. Even if it really was a passageway, would it be dangerous after entering? There were already several Emphyreans that had fallen in this space. If there was any danger within it, it would definitely be stronger than the space outside.

It was not a good thing to be in the lead at this time.

Everyone stopped talking and just exchanged glances, secretly paying attention to each other's actions, as if wanting to see who would be the first to lose control.

"Brother Qin, where's Tang Huan? Why haven't we seen him?"

At this moment, a voice suddenly broke the silence of this space.

The person who spoke up was Yuan Chao. His hawk-like eyes swept across Qin Xian Ye, Liu Li, and Ji Qingtian, his gaze carrying a hint of ridicule, "When we were flying star in the sky, Tang Huan stirred the wind and stirred the waves. He was extremely daring, but it can't be that he became as timid as a mouse when he arrived here, to the point he doesn't even dare show his face, right?"

Seeing Yuan Chao's sudden outburst of anger, everyone's spirits were lifted. Their gazes swept across Qin Xian Ye and Yuan Chao's group.

Amongst the tens of Emphyreans here, these two groups of cultivators were the strongest, and if they were to fight to the death, it would be a great thing for the others. After all, if there really was a treasure in the Ancestral Courtyard, without them, there would be no one left as a rival.

However, such a good thing could only be imagined. No one would foolishly jump out to continue instigating the relationship between the two parties.

How could Qin Xian Ye, Yuan Chao, and the rest not have thought of such a result?

"Brother Yuan, you found the wrong person to meet Tang Huan."

Qin Xian Ye's expression was calm and unperturbed, while Liu Li and Ji Qing Tian's expression didn't change in the slightest.

According to their estimations, Tang Huan most likely was in the Ancestral Courtyard's space.

For them to have acquired this much in the outer space, it must be even more so for Tang Huan. In these few years, Tang Huan's cultivation might have increased by leaps and bounds. Once they entered, if they saw Tang Huan, both sides would definitely clash. However, at that time, they would not cower in the slightest.

"Whether or not you found the wrong person, all of you are well aware."

Yuan Chao sneered, "If he's not willing to come out now, then so be it. I won't believe that he's still unwilling to show his face even after we've entered the inner space!"

Chapter 2217

"Elder Yuan, no matter how you think about it now, it has nothing to do with us. As long as you are happy."

"However, the Clear Void Dao Pavilion is the number one sect in the Heaven Realm. Now that the passage to the space in the 'Immortal Spirit Ancestral Court' has already appeared, as experts of the Clear Void Dao Pavilion, don't you want to give us a good example?"

Hearing this, Yuan Chao's expression turned extremely gloomy.

Wei Xuanji was worried that Yuan Chao wouldn't be able to handle it, so being the first to enter the space of the "Immortal Spirit Ancestral Court" was not necessarily a good thing, so he immediately sneered: "Brother Qin is ranked second on the revered list, and this Immortal Spirit Ancestral Court was also discovered by Brother Qin.

"That's right."

When Qin Xian Ye heard this, he agreed indifferently, "Since that's the case, we'll scout the place for you first." After speaking, Qin Xian Ye shot a glance at Liu Li and Ji Qingtian. In the next instant, the three silhouettes turned into three streaks of light and explosively shot towards that cluster of white primal chaos.

In the time it took for a spark to fly, Qin Xian, Liu Li, and Ji Qingtian were all absorbed into the primal chaos.

Seeing this scene, everyone was stunned, especially Wei Xuanji.

What he said just now was just to push Qin Xian Ye away. He thought that since he did not know what was going on, and no one knew if there was any huge danger hidden within the white mass, Qin Xian Ye would not go in so quickly. However, he did not expect that Qin Xian Ye and the other two would rush in without hesitation.

This sudden change had completely exceeded Wei Xuanji's imagination.

Even Gu Daozi, who was ranked first on the revered list, had a strange look in his eyes as he stared at the white mass of chaos. It was evident that the actions of Qin Xian Ye and the rest had surprised him as well.

"Sky Sovereign Qin and the others are too bold, aren't they? Are they just going in like that?"

"This' Immortal Spirit Ancestral Court 'was discovered by Empyrean Qin. Could it be that he knows even more things than us?"

"It's extremely possible that there might not be any danger inside. Otherwise, how could Hierarch Qin and the others act so recklessly?"

"..."

After a brief moment of shock, the crowd of Sky Sovereigns snapped back to reality and could not help but mutter to themselves.

"Let's go in as well."

It seemed as if he was strolling leisurely, but his speed was extremely fast. In an instant, his figure and the white primal chaos appeared right before him. With the flick of a finger, his figure had already fused with the chaos.

Yuan Chao and Wei Xuanji only lasted for a brief moment before they swiftly followed. In the blink of an eye, the two of them had also entered the ball of white chaos.

Seeing this, the surrounding dozens of Empyreans began to move without hesitation.

Qin Xian Ye and Gu Daozi, the strongest Empyreans, entered the white chaos one after the other. There was no need for them to delay any longer.

Their strength was inferior to him in the first place, and if he dragged things out any longer, they might not even have anything left.

Now was not the time to hesitate. In any case, even if there was danger inside, Qin Xian Ye and Gu Daozi were the ones who had just entered.

In the blink of an eye, there was no one in this area.

"Whooosh."

In the blink of an eye, everyone seemed to have entered a space that was condensed from clouds. In this place, there were no flowers, grass, trees, nor bugs, fish, birds or beasts. There was only a bare mountain range. That mountain range was sparkling and translucent, as if it was carved out of crystal, but its shape was extremely strange.

From afar, it looked like a huge cone floating above the clouds.

The moment they saw those mountains, everyone immediately felt a powerful aura. That aura was majestic and vast, surpassing the Heavenly Dao. It made people's souls tremble, making them unable to resist it.

"This... "This is the space within the Ancestral Court ..."

A low murmur sounded, and the one who spoke was a middle-aged man. The originally rather handsome, refined, and elegant him, was now staring blankly with his eyes.

"This aura" "This is too scary!"

Almost an instant later, another voice sounded out. It was Chu Gao Ge from the Golden Cauldron Immortal Sect. At this moment, his face was filled with shock.

"..."

Not only was the Empyrean like this as well, even Qin Xian Ye, Liu Li, and Ji Qing Tian, who were the first to barge into the space, had faces full of shock.

Such a scene was completely out of their imagination.

Before they entered, they had thought that the interior of the Immortal Spirit Ancestral Court might be filled with dangers, or it might be filled with heavenly materials, or it might be extremely desolate, or it might even be filled with resplendent gold and jade ... He had never expected that there would be such a strange mountain in the space of the Ancestral Courtyard.

However, with their strength, they were able to determine that the mountain peak was completely condensed with power.

After the initial astonishment, Qin Xian Ye and the rest gradually calmed down. They subconsciously looked at each other and saw a trace of surprise and doubt in each other's eyes. Originally, they thought that Tang Huan should be inside the space of the "Celestial Ancestor Realm". But now, it seems that wasn't the case.

At least until now, besides these Empyreans that had just come in, they hadn't found anyone else present.

"Look, there seems to be someone inside!"

A cry of alarm rang out, immediately drawing the attention of all the Empyreans.

The one who spoke was the Pavilion Master of the Clear Void Dao Pavilion, Wei Xuanji.

Everyone followed his gaze and looked towards the conical mountain range. When they did so, a series of low cries instantly rang out. There really seemed to be a black figure sitting cross-legged at the center of the mountain range.

"There's really someone here!"

"Who is that person?" "Why did you run into the mountain?"

"Could it be that someone else entered the space of this Immortal Spirit Ancestral Court before us?"

"Impossible, impossible, everyone might have guessed wrongly, that's not even human!"

"..."

Everyone was amazed and began to speculate.

Liu Li did not say anything, but her eyebrows were already knit together slightly. Although she did not see that person's face clearly, that person's figure was rather familiar to her. A name also subconsciously surfaced in her mind.

Not far away, Yuan Chao could not help but frown as a look of doubt flashed deep within his eyes.

"Tang Huan!"

However, after a short moment, Yuan Chao seemed to have thought of something and suddenly opened his eyes wide, gritting his teeth as he squeezed out two characters from his mouth.

Chapter 2218 - Tang Huan Appears!

"Tang Huan?"

When they heard Yuan Chao call out this name, the surrounding people were speechless and had eyes agape. However, after a short period of silence, a hubbub filled the air.

"Tang Huan? He is actually Tang Huan? "

"No wonder I haven't seen him in the outer space. He has long since entered the inner space!"

"What's going on? Why is it that when we were outside, he was inside and had even entered the mountain? "

"..."

Everyone was baffled.

Although no one could see the face of the person inside the mountain range clearly, Yuan Chao's judgement of Tang Huan after being entangled with him for such a long time was definitely not wrong.

Before this, although no one had seen Tang Huan before, they all believed that he was inside the "Immortal Spirit Ancestral Court".

After all, Tang Huan was also an Empyrean, so she couldn't miss such an opportunity.

The reason why Tang Huan had yet to appear in front of everyone was probably because she did not plan to clash with Gu Daozi and Yuan Chao of the Clear Void Dao Pavilion so quickly.

But who would have thought that Tang Huan did indeed enter the "Immortal Spirit Ancestral Court". However, he did not enter the space outside the Ancestral Courtyard like the rest, but had instead entered the space inside the Ancestral Courtyard alone.

This was indeed too unbelievable.

Even if the crowd thought of something, they still could not understand how Tang Huan was able to enter.

As everyone was discussing, Yuan Chao's gaze landed on Liu Li, Qin Xian Ye, and Ji Qingtian. His eyes were extremely sinister.

"Elder Yuan, are we right?"

Liu Li gently smiled, a hint of ridicule on her face.

Previously, she had vaguely sensed that the person at the center of the mountain was Tang Huan, but she didn't dare to confirm anything. At this moment, her heart was filled with curiosity. After all these years, Tang Huan had always stayed in the space within the Ancestral Courtyard, who knew what kind of opportunity she had obtained?

Yuan Chao snorted coldly. His gaze swept across Liu Li and the rest before returning to the mountain peaks. Killing intent surged within his eyes.

"Interesting."

Right at this moment, the previously silent Gu Daozi suddenly squinted his eyes and smiled, "This is the 'Immortal Spirit Ancestral Court', the origin of the immortal world, and also the place where the Ancient Immortals were born. Tang Huan possesses a pure Immortal body clone, so she is likely to be considered an Ancient Immortal the moment she enters the Ancestral Court.

Gu Daozi was truly worthy of being called the number one expert on the leaderboard. In an instant, he understood the reason behind this. After he finished speaking, the crowd went silent, and everyone turned their gazes onto him.

Some of the Sky Sovereigns nodded in realization, while some others were extremely shocked, as they had obviously just found out that Tang Huan had an Immortal Body Clone.

"Brother Gu is indeed wise." Qin Xian Ye's eyes moved slightly as he laughed.

"What a pity."

He suddenly shook his head and sighed, "Tang Huan has an Immortal Body, but that mountain peak is condensed from the power of immortal spirits. Tang Huan has been cultivating in that mountain for so many years, she should have long been assimilated into it and become a puppet of the 'Immortal Spirit Ancestral Court'."

When he said this, everyone was stunned.

When Liu Li, Qin Xian Ye, and Ji Qingtian heard this, the three of them were shocked and frightened. They subconsciously exchanged glances and saw a hint of worry in each other's eyes.

Tang Huan had an Immortal body clone, so being able to enter the space of the Ancestral Courtyard was not necessarily a good thing for him.

If it was really as Gu Daozi had said, then Tang Huan had already been assimilated by the "Immortal Spirit Ancestral Court", that would be a huge problem. Although the assimilated Tang Huan would not be in any life-threatening danger, she would never be able to escape the existence of this "Immortal Spirit Ancestral Court" again.

The most important thing was that the assimilated Tang Huan would probably never be able to prove her identity as a god ever again.

However, what caused Liu Li to console herself was, in the end, that Tang Huan was not an Ancient Immortal. Other than having a pure Immortal body, she also had an exceptionally strong main body.

Suddenly, Liu Li and the rest thought of something and their expressions were all different. As for the black cicada, Pan Zhou, and the others, they couldn't help but reveal happy expressions on their faces.

"What a pity, I'm afraid I will have to disappoint Elder Gu!" However, right at this moment, a clear laughter suddenly burst forth, reverberating between the heavens and the earth.

"Hmm?"

The moment this voice rang out, Gu Daozi's eyes focused. Yuan Chao's and Wei Xuanji's expressions changed slightly, while Liu Li's and the rest's expressions turned joyous, while Black Cicada's group were greatly shocked. However, regardless of what expressions the crowd had, two gazes involuntarily turned towards the mountain peaks.

At this moment, the black figure sitting inside the mountain range rapidly rose up.

In the blink of an eye, the figure had already appeared on top of the mountain peak. Its face had also clearly entered everyone's line of sight.

Tang Huan! It's really Tang Huan!

Although they had already heard about that person's identity from Yuan Chao, when they saw it with their own eyes, the other Emphyreans couldn't help but feel shocked. Forget about the other cultivators in the Heaven Realm, even for Sky Sovereign like them, Tang Huan, who was currently ranked twelfth on the Honorable Ranking, was a legend.

Tang Huan's rising speed was just too fast, so fast that it was unimaginable!

"..."

There was almost no sound. Everyone only felt a blur in front of their eyes as the figure that was originally standing on the peak appeared in front of them.

At this moment, many of the Emphyreans ranked at the top of the ranking board had their faces sink.

However, their ranking was higher than Tang Huan's. It was clear that, even if their strength did not surpass Tang Huan's, they would not be weaker than him. However, in that instant just now, even they did not realize how Tang Huan had teleported here.

If only it was just that, they would not be able to determine Tang Huan's cultivation level.

Tang Huan stood in front of everyone, but in their eyes, Tang Huan seemed to have become one with the conical shaped mountain range and this space. It gave people a kind of unfathomable

feeling, making them unable to see through him ... In that moment, everyone looked at Tang Huan with unease.

It was obvious that Gu Daozi, who was ranked first on the Proclamation of Liberation, felt the same way. A hint of coldness flashed through his narrowed eyes.

Before this, he had never placed Tang Huan, an inferior Empyrean, in his eyes. Even if Tang Huan were to torment Yuan Chao, who was ranked third on the revered list, to no avail, he had never made any changes to Tang Huan's judgement. After all, the difference in their cultivations and strength was indeed like heaven and earth.

In his mind, Tang Huan was just a junior who had just been promoted to the lower realm Sky Sovereign!

Even if he managed to reach the twelfth rank in one fell swoop, it would not be a concern. If the "Celestial Ancestor Realm" did not appear in the world, it would not be difficult for him to find Tang Huan with his cultivation and strength. As long as they could find Tang Huan and eradicate the calamity that was the Clear Void Dao Pavilion, it would all be in the blink of an eye.

However, the Tang Huan that he saw at this moment, greatly exceeded his expectations.

After cultivating for so many years, he had also occupied the position of the first ranker for so long. With his current self-control, it was already difficult for anything to shake his heart, and with his cultivation, there were very few people in the Heaven Realm that he could not see through. But now, this Tang Huan had become one of them.

"Is this the effect of the Celestial Sect of Ancestral Immortals?"

Gu Daozi's eyes flashed, and a thought flashed through his mind.

"Tang Huan, you are too bold, this old man has not made a move, but you ran away."

At this moment, Yuan Chao's eyes flashed. He coldly said, "Aren't you afraid that the old me will immediately attack and capture you?"

By the time Yuan Chao's voice sounded out, the power within his body had already surged crazily. A terrifying aura erupted out of his body like a volcanic eruption. The air rippled violently wherever it passed by with the force of a thunderbolt.

"Whether or not you have the ability is up to you. For now, I'm afraid you won't have the chance." A strange smile rose on Tang Huan's face.

"Rumble ..."

Almost at the same instant Tang Huan finished speaking, an earth-shaking explosion suddenly rang out, and following that, the entire space within the ancestral courtyard started to tremble.

"Look!" Look! "

In the midst of the exclamations, everyone's gaze turned to the conical mountain range.

Under the gaze of many pairs of eyes, a misty aura that was like smoke seeped out from the mountain at an extremely fast speed. After a short moment, everyone noticed that the mountain peak seemed to be melting. In just a few short breaths of time, the entire mountain peak turned into a faint cloud of smoke.

The smoke seemed to be blown away by a breeze, spreading outwards in a neither fast nor slow manner. It was getting closer and closer to the dozens of Sky Sovereigns.

Many Emphyreans subconsciously wanted to retreat, but in the next instant, they discovered that the entire space seemed to have frozen over. Even if they pushed their strength to the maximum, they couldn't move a single inch.

"Everyone, be careful!"

"Something doesn't seem right!"

"I can't move!"

"..."

Low exclamations were heard from time to time.

Not long after, almost all of the Emphyreans had noticed what was happening. Their expressions were all different, some were calm, some were surprised, some were flustered, and some were worried.

This was the "Immortal Spirit Ancestral Court". No one knew whether this change would be beneficial to everyone or not.

At this moment, everyone was unable to move. If there was a hidden danger within the smoke, then the consequences would be too terrifying. Even if it was an Emphyrean, they probably wouldn't be able to escape. They could only helplessly watch as death approached them.

He had spent countless hardships in order to reach the Emphyrean level. If he were to silently die inside the Immortal Spirit Ancestral Court, it wouldn't be worth it.

"Little brother Tang Huan, what's the situation?"

Liu Li's eyebrows raised as she subconsciously asked.

She did not deliberately hide it, and the voice was immediately heard by the surrounding people, causing all of them to look at Tang Huan.

The moment Tang Huan entered the Ancestral Court, she came here. Furthermore, she had cultivated at the mountain peak for a long time, so she probably knew more than anyone else why the mountain range had undergone such a change.

"Sister Liu Li, don't worry, this is a good thing." Tang Huan smiled slightly.

"Oh?" Liu Li was somewhat surprised.

"This Immortal Spirit Ancestral Court is not only the source of the Immortal World, it is also the place for the Ancient Era's Immortals to train." Tang Huan said with a smile, "Once the passage to the central region is opened, there will be a test for the Ancient Era's Immortals. If it succeeds in passing, there will definitely be a bountiful harvest."

"What if he doesn't pass?" One of the Sky Sovereign asked subconsciously.

"If I can't pass it, I'm afraid my life will be in danger." Tang Huan said slowly as she stared at the smoke that was getting closer.

"What's so good about that?" The Sky Sovereign couldn't help smiling bitterly.

"With our cultivations at such a level, how could we not take the risk if we wish to reap some rewards from the Immortal Spirit Ancestral Court?" Tang Huan smiled faintly. If I am not wrong, in the next trial, the greater the risk, the greater the rewards, and maybe, we can even obtain a treasure that can help us prove our dao. "

"..."

Hearing Tang Huan's words, the surrounding suddenly became quiet.

Many of the Sky Sovereign's eyes started to burn, even their breathing became ragged. Since Tang Huan dared to say that in front of everyone, it seemed like it was true.

No matter how great the risk, it was all worth it.

"Tang Huan, are you serious?"

The reason why he didn't let Tang Huan go back then was because Tang Huan had killed many of the Heaven Emperors of the Clear Void Dao Pavilion, causing him to lose face greatly. Furthermore, he wanted to obtain the secret on Tang Huan's body, and the latter was especially important.

After all, that secret was related to whether or not he could successfully reach the Divine Realm.

However, if he was able to pass the test of the "Immortal Spirit Ancestral Court" and obtain the rare treasure that can help him prove his identity as a Dao God, the secrets on Tang Huan's body would no longer be that important.

Of course, nothing he said would be of any use until the very last moment.

The number of precious treasures would not be high. There were over forty Emphyreans here. To be able to obtain that supreme treasure was not only a simple matter of successfully passing the "Immortal Spirit Ancestral Court" trial, but also a matter of the best performance. Only in this way would he have a greater chance.

"..."

Tang Huan curled her lips, there was no response, as though she did not hear anything, she just quietly watched the smoke.

Seeing Tang Huan ignoring him like this, Yuan Chao was enraged, but she could do nothing about it. Now, he was completely trapped in this space, unable to even harm a single hair on Tang Huan's body. She could only stare at Tang Huan sinisterly, as if wanting to grab him and cut him into pieces.

"Alright."

Gu Daozi suddenly spoke up, "There's no need to say anymore, we'll see in a while."

Yuan Chao snorted lightly, but put away his previous expression.

The crowd was worried about the outcome of the battle, but there was no time for them to speculate about it. A split-second later ...

The faint smoke was already rolling in. In that moment, all the Sky Sovereigns, including Tang Huan, Gu Daozi and the rest were all enveloped by the smoke.

In the blink of an eye, everyone had disappeared.

Chapter 2220 was just that simple!

In a split-second, everyone's vision changed drastically.

A mountain range that was also shaped like a cone entered their line of sight. At this moment, everyone was standing on a circular platform that was thousands of meters away from the mountain range. There was a tunnel that seemed to be formed from clouds and mist between the summit and the mountain peaks, giving people a strong and mysterious feeling.

Seeing this scene, the crowd standing on the high platform couldn't help but look at each other in dismay.

According to what Tang Huan had just said, at this moment in time, everyone should be facing the "Immortal Spirit Ancestral Court" test. However, as to how this test was going to be carried out, the tens of Emphyreans present there were completely clueless about it.

However, what made everyone secretly heave a sigh of relief was that although they did not understand the situation here, after entering the platform, the irresistible restraining force had disappeared, and everyone had regained their freedom.

Su Yun's mood relaxed, and instantly, many gazes landed on Tang Huan, their gazes full of curiosity.

Even Yuan Chao, Wei Xuanji, and the black cicada's eyes were intentionally or unintentionally looking at Tang Huan. Only Gu Daozi's eyes were fixed on the mountain range in front of him after he entered, and it was unknown what he was thinking about.

Tang Huan's eyes quickly swept across them, and met his gaze. Yuan Chao snorted with a dark face, but the expressions of Black Cicada and the others were quite awkward.

"Everyone, from here to the mountain peak on the other side, we have passed the test." After a while, Tang Huan revealed a smile, "It is said that the higher one's reach is after entering the mountain, the better the rewards would be. If I can reach the summit, perhaps I can get a treasure that can help me prove my identity as a god. "

"It's that simple?" One of the Black Costume Old Man s said in disbelief. Many of the Sky Sovereign looked at Tang Huan with suspicion.

"Simple? That's right, it's that simple! " Tang Huan squinted his eyes and laughed, with ridicule in his eyes.

"It sounds simple, but I'm afraid it won't be that easy to reach the top of that mountain. The path in the middle would definitely be filled with danger." Yuan Chao sneered.

"Elder Yuan, you're not stupid after all." Tang Huan nodded in approval.

"You ..."

Yuan Chao's face darkened, but Black Costume Old Man's face flushed red and she looked away in embarrassment.

The surrounding crowd clearly understood what was going on.

To the Ascendants, it was indeed very simple to go from this stage to the peak of that mountain. A mere several thousand meters was an extremely short distance, and to them, they could pass through

it in an instant. But if it really was that simple, why would the "Immortal Spirit Ancestral Court" place such a test on the ancient immortals?

Wouldn't it be better to give the items directly to those Ancient Era's Immortals?

It was just as Yuan Chao had said, the several thousand meters long cloud mist tunnel was filled with dangers at every corner. Perhaps, the slightest mistake could lead to his death.

To some Empyreans, such a short distance was like the distance between heaven and earth.

In fact, there were even some Empyreans who had already activated their mind, preparing to investigate the passage of the cloud. But after a moment, they discovered that the moment their minds left the perimeter of the circular platform, they had already disappeared without a trace, like a clay ox entering the sea.

His mind was useless. With just his eyes, he couldn't detect anything unusual in the passage of clouds.

After a long while, everyone finally stopped observing, and their expressions were dejected.

Although they couldn't wait to rush to the summit of the mountain, no one dared to act rashly. Everyone was very clear that the first to act would be the fastest to die. At this moment, he ran out of the circular platform to scout. He might just lose his life or give up his life to someone else.

No one moved. For a moment, the round table fell into a deathly silence.

"Tang Huan, you understand this' Immortal Spirit Ancestral Court 'the best, how about you scout the path for us first?" Suddenly, a voice broke the silence in the area. The one who spoke was Yuan Chao, who was staring at Tang Huan with her hawk-like eyes, and a fake smile on her face.

Hearing this, many Empyrean's eyes lit up.

That's right, out of the dozens of Sky Sovereigns present, Tang Huan, who had stayed in the space for a long time, was the one who understood the "Immortal Spirit Ancestral Court" the best. Since she knew about this trial, she must also know about the circumstances of it.

For example, there were those places in the cloud tunnel that could be traversed with ease, and those areas with hidden dangers.

Regarding the path exploration, Tang Huan was the most suitable candidate.

If Tang Huan had walked over first, the safety of the others would definitely have greatly increased.

Since they knew the situation inside, they still had not passed through this passage. Still, there was a huge danger, it was impossible for Tang Huan to be willing to help them find the way, but it didn't matter, because with only one Tang Huan, Liu Li, Qin Xian Ye and Ji Qingtian, she would only have four people. As for the remaining Heavenly Sovereigns, there were more than thirty people, including the number one on the honorific list, Gu Daozi.

"Are you sure?" Tang Huan looked at Yuan Chao and laughed slowly, the ridicule in her eyes became even stronger.

"Of course."

Yuan Chao said coldly, "Tang Huan, are you unwilling? Unfortunately, this is not up to you! "You have to scout it out even if you want to, you have to scout it out even if you don't want to."

"That's right, brother Tang Huan, you are the one who is most familiar with this' Immortal Spirit Ancestral Court ', why don't you make a difficult trip here?"

"That's right, Empyrean Tang Huan. I can only entrust this matter to you."

" ... "

As soon as Yuan Chao finished speaking, several of the Empyreans quickly responded.

Although the other Sky Sovereign did not say anything, their gazes towards Tang Huan revealed their thoughts at the moment. It was obvious that they had the same thoughts as Yuan Chao and the rest.

Liu Li, Qin Xian Ye and Ji Qingtian's expression changed, and they reflexively moved closer to Tang Huan.

"Shameless!"

"All of you have cultivated for so many years and have finally stepped into the Sky Sovereign Realm, yet all of you have become so timid and afraid of death. However, you all seem to have forgotten one thing, why is Little Brother Tang Huan willing to scout this place for you?"

"Just based on the fact that this old man is ranked third, and our Clear Void Dao Pavilion's Elder Gu is ranked at the top of the list!" Yuan Chao laughed sinisterly, "If that's not enough, then we can just add another Sky Sovereign. Just with the thirty odd Sky Sovereigns here, they all wish for Tang Huan to give us a demonstration!"

"Well said!"

Tang Huan clapped her hands and laughed, then sighed: "The situation is better than the person, looks like I have no choice but to comply, fine, I will take this path first!"
