

W. Master 2221

Chapter 2221 goes first!

Upon hearing these words, all the Emphyreans, including Yuan Chao, Wei Xuanji, and the others were shocked.

Just now, Yuan Chao's threat was extremely obvious. If Tang Huan did not agree, the dozens of Sky Sovereigns would work together and force Tang Huan to scout out the path. After all, Tang Huan was just a small number of people, even if it was Qin Xian Ye who was ranked second, he still wouldn't be able to fight against tens of Sky Sovereigns.

However, according to everyone's judgement, with Tang Huan's character, she would not easily submit.

In order to achieve their goal, everyone had even made preparations to engage in a chaotic battle on the high platform. After getting rid of Liu Li, Qin Xian Ye and Ji Qingtian, Tang Huan was too weak to contend against the rest. If he wanted to live, she could only scout the path for the rest.

However, Tang Huan's current reaction was completely out of everyone's expectations. Before anyone could even try to force him, Tang Huan had already agreed to it.

This was completely illogical.

Something abnormal must have happened!

Everyone looked at each other, exchanging glances, and they could all see the astonishment in each other's eyes, even Gu Daozi who had been focusing on the mountain range opposite them had retracted his gaze, and looked at Tang Huan in the blink of an eye, with suspicion in her eyes.

Liu Li, Qin Xian Ye, and Ji Qing Tian looked at each other in disbelief. However, after being stunned for a short moment, the three of them came back to their senses.

"Little brother Tang Huan, no, this passage ..."

Liu Li anxiously tried to stop her, but before she could finish, Tang Huan slightly smiled and calmly comforted her, "Sister Liu Li, don't worry, it's just a scout. If I really encounter some danger, I'll just come back here."

When Liu Li heard this, she couldn't help but slightly frown.

She understood Tang Huan's temperament and knew that he was definitely not a reckless person. Hearing Tang Huan say that, she immediately understood, there must be something else going on. Tang Huan definitely would not send herself to her death. Since she dared to make such a decision, she must have a guarantee of her own safety.

"In that case, be careful."

Liu Li took in a deep breath and deeply forgot about Tang Huan.

Both Qin Xian Ye and Ji Qing Tian had heavy expressions on their faces. Since Liu Li could think of this, they could naturally do the same. However, Tang Huan had never experienced this "Celestial Sect of Ancestral Immortals" trial, so even if he managed to obtain the relevant information, he was afraid that he might not be able to guarantee his own safety.

Just by looking at Tang Huan's expression, one could tell that he had already made up his mind. With just the two of them, it would be difficult to persuade Tang Huan to change his mind.

"No need to force it."

Qin Xian Ye looked at Tang Huan, and said slowly: "When the four of us join forces, even if we were to die, at least half of the Heavenly Sovereigns on this stage would accompany us in death." As the words left her mouth, Qin Xian Ye's tone was calm, but the surrounding Emphyreans felt a chill in their hearts.

"That's right. Worse comes to worse, it's just a matter of life and death."

Ji Qingtian's eyes swept the area as he let out a loud laugh.

When the surrounding people heard this, their hearts palpitated. If they really fought, Tang Huan, Liu Li, Qin Xian Ye and Ji Qingtian would not be defeated. But, if Tang Huan and the rest were to really fight until they die, then the casualties would be truly severe. What Qin Xian Ye said just now was not a false threat.

"It's not to this extent yet."

Tang Huan smiled gratefully at Qin Xian Ye and Ji Qingtian, then mockingly swept her eyes over the surrounding Sky Sovereign, "These scoundrels only saw the possible hidden dangers of the passage, but not the benefits that it would bring. On that mountain peak, even if there were truly precious treasures that could help verify one's dao status, there would definitely not be too many of them. It would be good if there were one or two. The sooner we pass through the passageway and reach the mountain peak, the sooner we will be able to seize the initiative. "

The surroundings fell silent. Many Emphyreans had expressions of shame on their faces.

The earlier one passed through the passageway, the greater the chance of obtaining more benefits ... Everyone understood this logic. However, understanding was one thing, daring to take the risk was another. After cultivating for so many years to reach the Emphyrean Realm, this caused the experts here to value their lives even more.

"If I can pass this round, as the first person to climb the mountain, the precious treasure that can help me prove the position of Dao deity will definitely be in my pocket!"

Tang Huan laughed loudly, "Everyone, I will be leaving first."

Seemingly at the instant his voice fell, Tang Huan shot forwards explosively. Many of the Sky Sovereigns didn't have the time to think about it, as they stared at Tang Huan's figure without blinking. At this time, Liu Li, Qin Xian Ye and Ji Qingtian seemed to have sensed something, and looked at each other quickly. They were all slightly surprised.

After a moment, Tang Huan rushed out of the stage under the watch of dozens of gazes.

Right at the instant when Tang Huan was about to leave the range of the stage, his body seemed to have been pressed on top of by a huge, heavy rock. His body descended in a straight line, and quickly floated above the cloud passage.

Seeing this scene, everyone's heart moved. Originally, some people thought that they could go through the void, directly passing through the clouds and mist to arrive at the summit, but the situation that Tang Huan was in just now, was like a blow to their heads, destroying their fantasies.

With a quick thought, everyone felt relieved.

The test that the Immortal Spirit Ancestral Court had set up against the ancient immortals, how could there be a shortcut?

Once they entered the range of the passage, not to mention walking through the void, they probably wouldn't be able to perform the necessary actions with all of their spatial artifacts and other similar means. If he wanted to pass through the passage of clouds, perhaps he would have to use the most primitive method and walk through it step by step.

That seemed to be the case.

After entering the Cloud Mist Passage, Tang Huan moved her legs, moving forward step by step.

Dozens of Sky Sovereigns opened their eyes wide, staring at Tang Huan without blinking, memorizing every single movement and trajectory of its body. No matter how minuscule it was, they did not let it go. Because, no one could be sure if Tang Huan's minute movements hid the dangerous profound principles behind it.

Not long after, Tang Huan had already walked for more than 10 metres.

But what caused everyone to be baffled was, from start to finish, Tang Huan did not encounter any sort of danger. Just like that, step by step, he walked forward, but Tang Huan seemed to be strolling leisurely, as though nothing unusual happened around him ... Seeing this scene, everyone was somewhat amazed.

However, a moment later, several Emphyreans' eyes lit up.

Even though Tang Huan had not encountered any danger, there was a pattern to her footsteps. Every time he took nine steps forward, she would have to take half a step to the front to the left, then return to his original position and continue moving forward. After another nine steps, she took half a step forward to the right, and then returned to his original position ...

He went back and forth like this, going back and forth in a never-ending cycle.

Chapter 2222 - Cloud Passage

Step by step ...

On top of the cloud passage, Tang Huan walked further and further, one hundred meters ... Three hundred meters Five hundred meters In everyone's line of sight, Tang Huan's figure became smaller and smaller.

The dangers that he had imagined did not appear, nor did the accidents that he had imagined happen.

On the high platform, all the Emphyreans exchanged glances from time to time. All of them found it hard to believe, as murmurs and murmurs began to sound out.

"Where did this danger come from? Was Tang Huan trying to scare us?"

"He must be lying to us. Otherwise, how would he dare to scout ahead?"

"I miscalculated, I miscalculated! If I had known, I would have been the first to go in!"

"..."

Many Emphyreans had already arrived at the edge of the stage, eager to give it a try. Even Yuan Chao and Wei Xuanji were no exception. When they looked towards the mountain range, their eyes were extremely fervent.

"Don't worry!"

At this moment, a voice suddenly entered Yuan Chao and Wei Xuanji's ears.

The two of them gaped for a moment, then turned to look at Gu Daozi.

At this moment, Gu Daozi was staring straight at the figure slowly disappearing into the distance. However, both of them knew that the one who spoke out earlier was undoubtedly him.

Yuan Chao and Wei Xuanji looked at each other and withdrew their gazes.

Although he was also a Supreme Elder of the Clear Void Dao Pavilion, Gu Daozi's cultivation, strength, and seniority were all higher than Yuan Chao's. This also caused Yuan Chao to always treat him with respect.

Gu Daozi's persuasion made both of their hearts tremble.

Could it be that he noticed something?

Naturally, Yuan Chao and Wei Xuanji's strange happenings couldn't be concealed from the other Emphyreans around them. The many cultivators who were previously ready to make a move couldn't help but feel suspicious at this moment as well, and they forcefully restrained their impulse. Even Gu Daozi and Yuan Chao didn't act rashly, so it was better to observe the situation.

That danger might not be in the first half of the Cloud Mist Passage, but in the second half.

It was unclear what would happen next. If he rushed out like that, the risk would be too great, so he decided to wait for Tang Huan to go further before making a decision.

Even Gu Daozi and the others weren't in a rush, so they naturally didn't need to be.

Time trickled by, Tang Huan who was on the cloud cloud path was like an ordinary person who had never cultivated before. An ordinary person's speed naturally wouldn't be any faster. Thousands of meters could be crossed in an instant by an Ascendant, but to an ordinary person, it would take at least an hour.

Fifteen minutes Half an hour ... Three quarters of an hour ...

The further Tang Huan went, the closer she got to the mountain range on the other side. Even at this time, Tang Huan still did not encounter any danger.

Everyone felt like there were countless ants crawling in their hearts; the itch in their hearts was unbearable.

However, Gu Daozi and the others didn't move. They had no choice but to hold it in, and yet, their eyes were filled with anxiety and anxiety that seemed to be on the verge of spilling out.

Another quarter of an hour passed ...

"Tang Huan has gone up!"

"There's really no danger at all!"

"We've all been deceived!"

"..."

The instant that little black dot in the distance climbed onto the mountain range, the crowd on the other side of the stage burst into an uproar. Quite a few Ascendants were already unable to contain themselves and began to curse out loud.

In the eyes of the crowd, they had been completely deceived by Tang Huan.

They were all Empyrean level powerhouses, and they had a firm will and determination. They had seen a great deal of things in these long years, and had gone through countless troubles. But this time, they had all miscalculated.

Of course, this couldn't be blamed on them.

After all, Tang Huan had entered the inner space the moment she entered the Ancestral Court, giving everyone a preconceived impression that Tang Huan's understanding towards the "Celestial Sect of Ancestral Immortals" was definitely much deeper than others. As a result, when Tang Huan introduced the information, everyone subconsciously believed it.

Even though he still had some doubts, he still kept them in his heart.

Whoosh.

The sound of something tearing through the air could be heard.

In the blink of an eye, he had already rushed out of the stage, and just like Tang Huan just now, he directly dropped down onto the cloud passage. It was a green-robed elder with a thin face and a skinny body.

The green robed elder had chosen to stay at the exact same location as Tang Huan.

After entering the Cloud Mist Passage, the green robed old man did not stop at all, and also started to advance step by step like Tang Huan, with extremely steady steps.

Obviously, he had observed Tang Huan's previous movements in detail.

"Dai Yi? His movements were fast enough, he actually took the initiative to leave! "

"The Thunder Immortal Sect's Dai Yi?"

"..."

On the high platform, the crowd of Empyreans recognized the green-robed old man's identity. All of them were filled with regret, but after hesitating for just a moment, they were forced to let him go first.

After a short while, everyone came back to their senses and rushed forward.

"Ahhhhhhhhh!"

But at this moment, a shrill cry suddenly sounded out.

A ball of misty white Qi suddenly emerged from the fog under Dai Yi's feet and moved along his body. In the blink of an eye, the Qi wrapped around his entire body at a lightning speed. In less than

a blink of an eye, Dai Yi had disappeared. The blood-curdling screeches had also stopped, and the ball of misty white aura slowly sank back into the passageway.

This sudden change immediately shocked the crowd on the stage ...

The Emphyreans who were already at the edge of the stage forcefully stopped their charge. Their eyes were wide open as they stared at the cloud channel in shock.

In an instant, the high platform was so quiet that even a pin dropping could be heard.

At this moment, all of the Emphyreans still felt a lingering fear, especially those that had almost entered the cloud channel. At this moment, all of the Emphyreans still felt a lingering fear, especially those that had almost entered the cloud channel.

An Emphyrean level powerhouse had not even taken ten steps before his soul had dispersed after entering the cloud channel. Not to mention his bones, he hadn't even left a single trace of his existence ... If they hadn't personally witnessed this, who would have believed that an Emphyrean level expert would have died so soundlessly?

Although there had been several Emphyreans that had perished, they had all died fighting each other. In the end, they had all died before they could even react.

What was going on?

After Tang Huan entered the Cloud Mist Passage, from head to tail, she had not encountered any danger.

Everyone could not believe their eyes. This was too unbelievable!

"Are you in no danger? Why is this happening? "

"What exactly is going on with this Cloud Mist Passage? When Tang Huan left, everything was calm and peaceful, and Dai Yi died not long ago?"

"..."

After the initial shock, everyone was shocked and angry at the same time.

Chapter 2223

"Senior apprentice-brother ..."

Yuan Chao frowned and looked at Gu Daozi.

In terms of seniority, Gu Daozi was far above Yuan Chao. However, ever since Yuan Chao had also become a peak Upper Sky Sovereign, the two Great Elders had always called him Master and Brother. Of course, for an Emphyrean like Wei Xuanji, in front of the two of them, he still considered himself as a junior.

After all, the difference in cultivation level and strength between Wei Xuanji, Gu Daozi, and Yuan Chao was simply too great.

Originally, Yuan Chao wanted to use this method to force Tang Huan to explore the path ahead and see clearly the situation inside the Cloud Mist Passage. Before this, when Tang Huan had safely passed through the thousands of meters long tunnel and arrived at the mountain peak on the other

side, he had subconsciously felt that the passage was not dangerous, but could very possibly be the mountain peak.

However, what happened to Dai Yi next completely overturned his judgement.

The distance between Tang Huan and Dai Yi to enter the cloud passage wasn't very long, but the two of them had encountered the exact opposite. The former smoothly walked through the entire cloud passage, while the latter had only taken a few steps before her own life was taken away. One in front, one in back. This was a huge contrast.

Not only was the scene just now chilling, it was also unfathomable.

Upon hearing Yuan Chao inquiring about Gu Daozi, the crowd also quieted down subconsciously. The gazes of the crowd landed on the top ranker on the leaderboard.

As the strongest warrior in the Heaven Realm, Gu Daozi might be able to see more.

Gu Daozi remained silent for a while, before finally sighing under the watchful eyes of the crowd, "If I'm not wrong, the danger hidden in the Cloud Mist Passage is changing at any time. Not to mention two people going in one after the other, even if two people went in at the same time, the risk would still be very different."

When everyone heard this, they could not help but suck in a breath of cold air.

"So that means, even if we completely memorize the route Tang Huan took earlier and follow it, it's still useless?" Wei Xuanji said with a frown.

"That's right."

Gu Daozi slightly nodded, and lightly smiled, "Dai Yi is following Tang Huan's route. However, you all have also seen his fate. If there is anyone else who wants to use this method to pass through the Cloud Mist Passage and reach the mountain on the other side, they will definitely die in the end."

Everyone was silent and their expressions were different.

They all had similar guesses about Dai Yi's encounters, but they all had a little bit of hope in their hearts. They all felt that the reason that Dai Yi had turned into dust so quickly was probably because of his bad luck.

After all, when Tang Huan was walking in the Cloud Mist Passage, nothing unexpected had happened.

However, Gu Daozi's words broke their fantasies.

"Then why hasn't Tang Huan encountered any danger at all? Could it be because he has a celestial body? "

After a while, Wei Xuanji took a deep breath and asked in disbelief.

This was also what Wei Xuanji found most difficult to comprehend. When Tang Huan had walked for such a long period of time, the cloud and mist passage was extremely calm and peaceful without the slightest ripple. This was the only possibility he could think of. One must know that this test was prepared for ancient immortals by the "Immortal Spirit Ancestral Court".

Tang Huan had an Immortal body and was considered an Ancient Immortal by the Ancestral Court.

Maybe it was because of this that Tang Huan was able to finish the Cloud Mist Passage safe and sound, but there was still a part of it that did not make sense.

"Because Tang Huan could determine where the danger is, so she avoided it." Gu Daozi faintly sighed.

"What?"

When everyone heard this, they were stunned.

One could tell from Dai Yi's encounter just now that there was more than one hidden danger within the passageway. After all, Tang Huan was a Ranker ranked 12, her strength was extremely strong, and was able to avoid all the dangers in the tunnels, which was kind of shocking.

After a short period of hustle and bustle, the stage descended into a deathly silence once more.

"Everyone, there's no need to be so timid."

After a long while, a cold laugh sounded out. "Tang Huan is ranked twelfth, but he was able to sense the danger in the Cloud Mist Passage ahead of time.

The person who spoke was none other than Yun Xiu of the "Myriad Dragon Sword Sect", ranked eighth on the ranking list.

"Brother Yun, do you mean to say that you wish to enter this Cloud Mist Passage to give it a try?" A young and handsome man in white clothes suddenly spoke up.

"Exactly."

Yun Xiu said in a deep voice, "This old man wants to see what's so strange about this cloud tunnel!"

As soon as he finished speaking, Yun Xiu's body shot forward like a beam of light, like a bolt of lightning. In the next moment, his feet landed on the cloud path.

At this moment, the many Ascendants on the platform were all staring at Yun Xiu's figure without blinking. This Yun Xiu had previously been ranked first on the Honored Warrior Board. Although his ranking was constantly declining, his strength still far surpassed that of Dai Yi. Therefore, he didn't think that he would lose so quickly.

Of course, Dai Yi's ranking wasn't that low.

He felt that Tang Huan was safe and sound from the start to the end, and the reason why she had followed's path to leave this place, was also because he felt that Tang Huan would be safe and sound. In the end, danger had arrived and he was caught off guard, unable to dodge in time. Otherwise, a mighty Empyrean level super powerhouse, even if she couldn't escape death in the end, shouldn't have died such a useless death.

At this moment, on the cloud path, Yun Xiu's expression turned serious as his heart became calm.

Although he was extremely confident in his own strength, he had seen Dai Yi's previous mistakes, so he didn't dare to act rashly. In almost the instant he rushed out of the stage, his mind had already been pushed to the limits. What comforted him was that his mind still had some use for this passage of clouds.

However, the limit that he could feel right now was only two meters around him.

Compared to an Empyrean level powerhouse, this range of perception was pitiful to the extreme. In this place, it was far better than nothing. At a critical moment, this two meter radius might have a life-saving effect. Of course, that was only if the reaction speed was fast enough.

Taking a deep breath, Yun Xiu began to move.

In the next moment, Yun Xiu knew why Tang Huan was moving forward like a normal person when she entered the Cloud Mist Passage. After entering the area of the tunnel, it was as if there were ten thousand jin boulders tied to each of her feet. It was difficult for him to even move forward. She was simply unable to unleash her speed.

Not only that, the space around him was also incomparably solid. It would be impossible to traverse this distance using spatial teleportation.

Chapter 2224

Yun Xiu wasn't in a hurry to move. He quietly stood where he was, carefully inspecting the situation within a two meter radius around him.

From his judgement, if he did not move after entering the cloud tunnel, he should not encounter any danger. Therefore, he must try to understand as much of this cloud tunnel as possible during this period of time.

After a long time, Yun Xiu let out a sigh and took a step.

On the high platform, the hearts of many Empyreans tightened as they stared at Yun Xiu.

This was the third Empyrean to enter the cloud channel!

Tang Huan's performance was too perfect, it was nothing to be relied on, and Dai Yi's performance was too poor, so it could not be used as a reference. Perhaps, some clues could be seen from Yun Xiu's body regarding the condition of the Cloud Mist Passage ... She hoped that Yun Xiu would be able to hold on for a long time.

Of course, it would be best if the cloud elementalist could successfully pass through the cloud tunnel. Only by doing so could everyone regain their confidence.

If he also dispersed his soul like Dai Yi did, it would deal a huge blow to everyone's information. If even the eighth rank, Yun Xiu, was unable to withstand it, how about others?

One step, two steps ... Five steps, six steps ...

Eight steps!

On the cloud path, Yun Xiu's expression suddenly changed. He suddenly took a step back. Everyone on the tall platform felt their hearts skip a beat when they saw this.

At this moment, in front of Yun Xiu, a cloud of misty white air rushed out from the bottom of the passageway like a column of smoke. It only dispersed after reaching a few meters in the air and melted back into the passage.

Upon catching sight of this scene, the other Empyreans on the stage all gasped in relief, their hearts pounding.

Just now, if Yun Xiu hadn't taken that step back, that ball of Qi would have crashed into him. If his body had been touched, Yun Xiu would have immediately done the same as Dai Yi. Luckily, Yun Xiu had noticed this beforehand and reacted fast enough, which had saved his life.

In addition, Yun Xiu and Dai Yi were in different places when they were in danger. From this, it could be seen that Gu Daozi's earlier judgement was correct. Within the cloud mist tunnel, danger could appear at any time. One could learn from the successes of others, but they definitely couldn't follow through with it. Otherwise, they would die very soon... Everyone felt their hearts tremble, but they still felt a sense of fear ...

Although danger may be a threat, judging from Yun Xiu's reaction, he should be able to detect that danger ahead of time.

Even if he couldn't be like Tang Huan, being able to avoid danger, or even be affected by danger, it was still possible to be like Yun Xiu and successfully dodge it.

"That was close!"

Above the cloud tunnel, the Yun cultivator also felt a lingering fear.

Just a moment ago, he only had to hesitate, but now, there was no one like him in this world. Fortunately, his reaction was fast enough. However, even though he had successfully escaped this calamity, not only did Yun Xiu not relax, he even felt an even greater pressure. Before he could even reach ten meters, it was already so dangerous ...

Would he really be able to walk thousands of meters safely?

With this thought, Yun Xiu calmed his heart and quickly walked forward. At that moment, he no longer had time to think. The cloud path was constantly changing. Right now, the place where they were standing was still safe, but if they continued to stand there, they would become extremely dangerous.

This time, Yun Xiu walked more than ten steps before he encountered danger again, but he was still able to avoid it.

He took another seven steps and encountered a third danger ...

...

Under the close attention of dozens of gazes, Yun Xiu walked closer and closer to the cloud path. On the high platform, many Emphyreans had smiles on their faces.

"Senior Yun Xiu is almost halfway through. It seems like he's not as dangerous as we imagined."

"Haha, it's all because we're scaring ourselves."

"Heavenly Master Yun can always avoid danger and travel so far away. It seems like our minds can be useful in the Cloud Mist Passage. As long as we investigate carefully, we should be able to detect it ahead of time, just like what Heavenly Master Yun Xiu did."

"That's right, Sky Sovereign Dai Yi was too careless. He kept following Tang Huan's route, which was why he encountered such an accident. If we want to pass through the tunnel successfully, we have to follow our own feelings. "

"..."

Many of the Emphyreans grouped together in groups of twos and threes and muttered amongst themselves. All of them revealed eager expressions.

"I won't wait any longer. I'll give it a try as well!"

A tall and sturdy green-robed man could no longer hold himself back. He laughed out loud, and before he finished speaking, he had already shot forward like a lion that had just escaped from its cage. By the time everyone had regained their senses, the green robed man had already appeared on top of the cloud passage.

"Everyone, this old man is about to begin as well!"

After the azure-robed man, another skinny old man left the platform and entered the cloud tunnel.

The cloud tunnel was quite wide. Not just the azure-robed man and the skinny elder; even the dozens of people on the platform would be able to fit inside if they moved.

With the azure-robed elder and his son leading the way, it only took a short period of time for ten people to arrive at the cloud passage.

"Senior Brother, we ..."

"Too much!"

On the high platform, Yuan Chao and Wei Xuanji were about to make a move. On top of the Cloud Mist Passage, Yun Xiu had already walked a roughly ordinary distance, and Tang Huan, who had set out early, had already climbed quite a distance when he arrived at the peak of the mountain. If they were to take action now, they might have the chance to catch up with Yun Xiu, or even Tang Huan.

Got it.

If Tang Huan reached the summit of the mountain and obtained the precious treasure that could help them prove their existence as gods, then they would be filled with regret.

"No rush!"

Gu Daozi was as calm as ever. He lightly waved his hand, closed his eyes, and even sat down on the high platform.

Yuan Chao and Wei Xuanji couldn't help but look at each other in dismay when they saw this.

Not too far away, Liu Li, Qin Xian Ye, and Ji Qingtian all exchanged glances. They weren't like the other Emphyreans, encouraged by Yun Xiu's performance and didn't rush into the passageway. On the cloud path, Yun Xiu continued to walk forward step by step. He didn't notice that there were already many Emphyreans behind him. Of course, even if he did discover them, he wouldn't care. Others had only seen him avoid danger time and time again, but they had no idea that he was completely drenched in sweat ...

Through ...

Moreover, from the beginning till the end, he had continuously pushed his mental strength to the limit, causing his soul to become increasingly tired. Now, as an expert ranked eighth on the Supreme Ranking, he actually felt that his strength was slightly insufficient.

It was even difficult to maintain the detection range of the surroundings within a two meter radius. He had only walked halfway. With his current condition, Yun Xiu wasn't very confident that he could make it out of the remaining half.

Chapter 2225

On more than one occasion, Yun Xiu had almost been hit by the white mist coming out of nowhere.

Even now, he was still a little scared. At this moment, he was indeed a bit regretful. If he had known earlier, he would not have shown his face.

Unfortunately, there was no medicine for regret in this world.

"Ahhhhhhhhh!"

Terrified screams suddenly burst out from the passageway, but after a split-second, it stopped abruptly.

The Cloud Cultivator's heart trembled. He immediately understood that there must be another Sky Sovereign that had entered the Cloud Mist Passage. Judging from the voice, the Sky Sovereign must have met with some kind of disaster. Yun Xiu forcefully restrained the urge to turn his head to look. A strong warning aura surged from the depths of his soul.

Without any hesitation, he backed up.

However, that moment of absent-mindedness had slowed his reaction by quite a bit. Almost at the same time his right foot stepped back down, a ball of misty white Qi rose up from where his left foot had stepped. In less than half a blink of an eye, his entire foot had been covered.

Yun Xiu's expression suddenly changed. The moment the aura spread along his calves, his finger had already cut towards his knee like a sword.

"En!"

With a muffled groan, Yun Xiu's left leg broke into two pieces at the same instant, and his right leg bounced back once again. The misty white aura seeped through his severed leg and shot up to the sky like lightning. It then dissipated and instantly dissipated into nothingness. The severed leg had also completely vanished.

Yun Xiu stabilized his body. His face was as pale as a sheet of paper and beads of sweat dripped from his forehead.

At this moment, the tension in his heart had reached its peak. If he had not decisively cut off half of his leg, his entire body would have been covered by the white-colored odor.

If that was the case, how could he survive?

Now, although he had temporarily escaped danger, the following journey would be even more difficult.

To an Empyrean like him, losing half of one of his legs wasn't a big deal. Not even a drop of blood came out of his knee, and after a few days, the other half of his leg would regrow. But, what happened just now would affect his future movements.

Moreover, this place was still so far from the mountain peak.

Now that he had lost half of his leg, if he was unable to dodge in time, would he have to give up on the other half? If he lost both of his legs, could it be that he would have to climb up to become an Empyrean?

If he were to crawl, it would be even more difficult to dodge in the face of danger.

Yun Xiu took a deep breath, his expression dark.

At the starting point of the Cloud Mist Passage behind him, the Empyreans were all frightened. They, who were originally brimming with confidence, were now completely terrified.

Just now, another Sky Sovereign had been completely melted away in front of their eyes.

Also, the one who died wasn't a lower Empyrean, but a middle Empyrean. Although he had sensed the danger beneath his feet, his dodging speed had slowed down a bit.

In the end, he lost his life.

The cloud elemental seemed to have successfully avoided many dangers, but to pass through this cloud tunnel was definitely not as simple as he appeared. Moreover, Yun Xiu had almost failed to dodge it just now.

However, they were already in a dilemma.

He might not be able to avoid it twice, but as long as he was not able to dodge in time or failed to do so, it was possible for him to lose his body, or even his life, like Yun Xiu.

However, if he were to stay in place or retreat ...

Everyone's minds were racing. Up till now, the person who had walked the furthest on the Cloud Mist Passage, other than Tang Huan, was Yun Xiu. The former had never stepped back, and the latter only retreated a step or two to avoid danger, before continuing onward. If one were to step back, no one knew how far they could do so.

Back to the safety of the platform.

If they could return to the high platform, then everyone would be happy. However, if they couldn't, then it would be dangerous.

Thinking of this, everyone's heart became heavy.

After a while, a skinny old man gritted his teeth and tried to retreat step by step. Soon, he was close to the stage. When the Empyreans, who had been paying attention to his movements, saw this, they all felt joy in their hearts and quickly retreated as well. In just a moment, they were less than a meter away from the stage.

"Hu!"

The old man was the first to attempt it. He pushed his body to the limit and charged into the sky. However, just as he was three meters in the air, a tremendous force came crashing down from above like collapsed mountains, pressing down on his body and instantly knocking him back into the cloud channel.

Seeing this scene, the Sky Sovereign, who was beside him, had an extremely ugly expression on his face.

Retreating was fine, but wanting to return to the stage was like a dream. After entering the Cloud Mist Passage, one either had to pass through it alive like Tang Huan, or die here. Other than this, there might not be a third possibility. No matter whether he advanced or retreated, no matter whether he stayed where he was, he could not guarantee his own safety. He might be in danger at any moment ...

Life.

Moreover, they had reason to suspect that even if they retreated and stayed in one place without encountering danger, it did not mean that they could leave this place alive. Even if they survived through the cloud tunnel, they might still be trapped inside it forever.

The crowd on the platform also guessed this point, and their expressions were all solemn and solemn.

Upon entering the cloud tunnel, there was no escape.

However, there didn't seem to be any way out of this situation. It was as if this test could only be accepted and not avoided. This was to say that whether it was an Empyrean on the high platform or an Empyrean in the foggy passageway, they were both forced to advance through the foggy channel.

As everyone's thoughts raced, the stage became extremely silent.

"Let's go."

After an unknown amount of time, a crisp sound suddenly broke the silence of the area.

The person who spoke was Sky Sovereign Liu Li, who was on good terms with Tang Huan and her sister. After he finished speaking, Liu Li had already walked to the edge of the stage, and together with her were the two tyrannical Sky Sovereigns, Qin Xian Ye and Ji Qingtian.

Seeing the three of them moving together, everyone's expression became complicated. The cultivators who were originally eager to give it a try had completely put that thought out of their minds and planned to check out the situation first. But now, Liu Li, Qin Xian Ye and Ji Qingtian had actually started to take action, which caused them to be astonished. They were still entering the Cloud Mist Passage at this time, could it be that they were not aware of the dangers inside?

Chapter 2226

Or could it be that Tang Huan had revealed some secret technique to them?

It was possible!

The reason why Tang Huan was able to pass through the Cloud Mist Passage so easily was definitely not because of his powerful soul and astonishing Perception Ability. The most important reason was probably because she had a very detailed understanding of the Cloud Passage, otherwise, he would not have been able to do it to such an extent.

If Liu Li and the rest really did master some tricks, they might be able to see some clues from their next actions.

Everyone's thoughts rapidly spun. A moment later, Liu Li, Qin Xian Ye, and Ji Qingtian, under the close attention of the crowd, landed on the cloud path.

The three of them did not get together, and the moment they touched the surface of the tunnel, they split up.

They did not stay there for long. With a sweep of their gazes, the three of them moved forward almost at the same time. Before they even walked ten meters, the three of them met with danger one after the other. However, just like the Cloud Cultivator, they also quickly avoided the white-colored odor that suddenly rushed out, and continued to move forward.

Whether it was the Ascendants on the platform or the many Ascendants in the Cloud Channel, they had all given up on observing Yun Xiu's actions. Their attention was completely focused on Liu Li and Ye Qingtian, with dozens of pairs of eyes staring unblinkingly at their figures.

However, several hundred meters in front of them, Liu Li and the other two did not show any signs of abnormality.

However, when they were about a kilometer away, Liu Li and the others actually stopped moving forward and sat down on the spot, as if recovering their strength.

Seeing their actions, all the other Sky Sovereigns on the stage and in the tunnel couldn't help but look at each other in dismay.

Would they still be able to stop like this within the cloud tunnel and recover? This passageway was constantly changing. Aren't they afraid of danger during breaks?

If that was really the case, then they wouldn't even have the chance to dodge.

After about a quarter of an hour, the three of them once again advanced, successfully avoiding all of the dangers they faced. After another thousand meters, they finally stopped.

"This old man understands!"

On the cloud tunnel, the skinny old man said in surprise, "Every thousand meters or so, there is a safe zone above this tunnel."

Not only did this thin old man understand, but all of the other Emphyreans also came to their senses, smiles plastered on their faces.

Although the passage was still as dangerous as before, this discovery gave the other Emphyreans several chances to relax and recover their strength. They did not need to take many steps to get to the end of the passage, making it easier for them to pass through. They could at least take a breather halfway through.

"Ahhhhhhhhh!"

A loud scream suddenly rang out in the cloud tunnel.

In a passageway two thousand meters away from the mountain range, Yun Xiu's body was covered by a ball of white mist. Although the people behind couldn't see Yun Xiu's face, they could imagine how terrified, anxious, and desperate this eighth ranked expert was right now.

However, Yun Xiu's personality was also very decisive.

"Bam!"

In less than half a blink of an eye, Yun Xiu's body exploded like a firework, turning into a cloud of crimson blood mist. His Dao soul emerged from the blood mist and floated forward. In this critical juncture, Yun Xiu had actually completely given up on his own flesh body.

Seeing this scene, the other Emphyreans felt their hearts tremble.

At that moment, not every cultivator had this kind of reaction speed. As long as they hesitated a bit, not only would their bodies be melted away, even their Nascent Souls would be able to escape. It was a wise decision for Yun Xiu to give up his physical body to protect his Dao Nascent Soul.

However, this decisive action only allowed Yun Xiu to live for a moment longer.

"Hu!"

Just as Yun Xiu's Nascent Soul was a few meters away, another misty white aura whizzed up and hit the Nascent Soul in the middle, wrapping it up as fast as lightning.

In the time it took to snap a finger, the Nascent Soul and the ball of aura had disappeared without a trace.

On the high platform, the crowd of Sky Sovereign's expressions were filled with unconcealable shock. A mighty expert ranked eighth on the Proclamation of Liberation had actually lost his life in this Cloud Mist Passage. This was indeed a great pity. If he had lasted another fifteen minutes, he would have already reached that mountain peak.

After a brief moment of shock, everyone felt great pity and regret. Travelling along the cloud channel consumed a great deal of strength and mental energy. Even an Emphyrean would find it difficult to withstand such a massive consumption of energy and energy. At the end of the day, Yun Xiu was still a bit too early to act. If he were to set off now, he could stop for a bit at a kilometer. With his power, he would definitely be able to reach the top

Up the mountains.

But unfortunately, it was too late to say anything now.

"It's time for us to head out."

On the high platform, Gu Daozi shook his head and sighed. His gaze swept past the stunned Yuan Chao and Wei Xuanji as he floated forward and entered the cloud passage.

Seeing this, Yuan Chao and Wei Xuanji immediately took action and followed closely behind Gu Daozi as they arrived at the cloud passage.

The three Emphyreans from the Clear Void Dao Pavilion moved, and the other Emphyreans who knew that they had found the trick also began to move. The three Emphyreans from the Clear Void Dao Pavilion moved, and the Emphyreans who knew that they had found the trick also began to move.

In just a short period of time, the situation on the cloud path had changed greatly.

At this moment, on the mountain peaks, Tang Huan was also climbing upwards step by step. This mountain range could not be considered high, but Tang Huan's speed was not fast, it was even slower than when she was passing through the cloud passage.

Just as everyone had guessed, there was indeed a trick to passing through this cloud tunnel.

When the Immortal World still existed, all of the Ancient Era's Immortals that participated in the trials knew about it. Tang Huan did not plan to hide it from the beginning. After all, amongst the tens of Sky Sovereigns, only Yuan Chao, Black Cicada and the rest had enmity with him. The other Sky Sovereigns did not have any grudges with Tang Huan, so there was no need to offend them.

What Tang Huan did not expect was that when Yuan Chao forced him to explore, other than Liu Li and the rest, not a single Sky Sovereign made a sound. Although they did not directly oppose Tang Huan, they had indirectly become Yuan Chao's accomplices. How could Tang Huan forget about this?

Since that was the case, Tang Huan decided to not speak of it anymore and secretly divulged the news to Liu Li, Qin Xian Ye and Ji Qingtian.

Although that trick wouldn't allow a person to pass through the passage of clouds directly, it would lighten the burden and greatly increase the success rate of passing through the passage of clouds. If Liu Li and the rest took action, the secret would definitely be revealed, but Tang Huan did not specifically warn them to move late.

Of course, Tang Huan did not give them an explanation, but Liu Li and the others did it directly. Several Emphyreans were scared out of their wits while standing on the cloud path. This could be said to have greatly vented Liu Li's anger.

Chapter 2227

To the other Emphyreans, passing through this cloud of fog was extremely difficult. If they weren't careful, they would be completely annihilated.

Even if they knew the trick behind it, it was still extremely dangerous. According to Tang Huan's judgement, out of so many Sky Sovereigns, there were probably only twenty or so who could successfully make it to the top of the mountain. This meant that nearly half of the Emphyreans would die in the Cloud Mist Passage. This

The death of so many Emphyreans was indeed a huge loss to the Heaven Realm.

Towards the Sky Sovereigns who were on the verge of losing their lives, Tang Huan did not have much sympathy or compassion. In this world, danger and rewards always coexist. Even if they did die, that would be their fate. When

However, for Tang Huan who had cultivated on the Immortal Spirit Ancestral Peak for many years, passing through the cloud passage was not difficult. Now

He, who was here, had long since changed. in

Before Liu Li and the rest entered the central area of the Ancestral Court, Tang Huan had already made a breakthrough and stepped into the Upper Sky Realm. Furthermore, he had condensed his third divine crystal.

Tang Huan who possessed three Divine Crystals, was shockingly strong even after entering the Cloud Mist Passage. is

His Heavenly Sovereign's senses were extremely narrow, but Tang Huan's senses had already spread out to a radius of tens of meters, which was already more than ten times of what others could sense.

Relatively speaking, the range of its sensing allowed Tang Huan to be like a fish in water after entering the cloud passage, allowing him to easily judge the dangerous area.

If one was able to determine the danger long in advance, they would naturally be able to dodge it before it was triggered. Positive

Because of this, when Tang Huan walked through the Cloud Mist Passage, there were no dangers in front of him, and from start to finish, it was calm and peaceful. Furthermore, it was precisely because she could accurately determine the danger that allowed Tang Huan to make her movements in the Cloud Mist Passage seem to be extremely orderly. in

In Tang Huan's eyes, the hardest part was still this mountain peak.

Above this mountain peak that looked exactly the same as the Celestial Ancestor Mountain, there were balls of white light floating around like ghosts. Every ball of white light contained a treasure. The higher up the mountain peak, the more precious the treasure hidden within the white light was. No

After that, every cultivator that ascended the peak only had one chance to make a move. one

Once a white light was obtained and the treasure within was obtained, it would immediately be transported outside the "Celestial Sect of Ancestral Immortals". Thus, back when the Immortal World was still around, the Ancient Era's Immortals that participated in the trials would try their best to reach a higher level before taking action. Only

Unfortunately, this mountain range was covered with a frightening pressure. The higher one ascended, the greater the pressure. Don

It had been quite some time since Huanhuan had ascended the mountain, but up until now, he hadn't even gotten a spot on the mountainside. If even he was in this state, then the other weaker Emphyreans could only imagine this. Even if they successfully passed through the cloud channel, it would still be difficult for them to reach the peak of the mountain.

"Wanting to reach the peak of the mountain is probably difficult." Don

Huan Huan raised her head. She looked at the spiked mountain peak that was still quite far away. She involuntarily sighed quietly in her heart. That tyrannical and abnormal pressure followed the mountain range and roared like a torrent, wave after wave, continuous and endless. It seemed as though it wanted to push Tang Huan back to the bottom of the mountain. This

At this moment, a white light flashed past Tang Huan's body from time to time.

It would not be difficult for him to catch the ball of white light. Moreover, at his current height, the treasures hidden within the white light should be somewhere. No

was not moved, nor was he satisfied.

He still wanted to go to the highest point of the mountain range and see what the most precious treasure was. Of course, Tang Huan also understood the difficulty of this matter. Therefore, although Tang Huan had this thought, he did not become overly persistent. In any case, he would do his best.

Tang Huan slowly moved forward step by step ...

... "

"Ah!"

From the mist tunnel, a sharp scream rang out. Another Emphyrean had been cleanly melted away.

At this point, the number of Sky Sovereigns who had died was already six.

At this time, Liu Li, Qin Xian Ye and Ji Qingtian had already successfully traversed nearly half of the Cloud Mist Passage. Among them, Qin Xian Ye was in front, Liu Li was in front, and Ji Qingtian was next ... Although Ji Qingtian's cultivation base was stronger than Liu Li's, Liu Li's speed still surpassed his.

The three of them, just like the Yun Xiu from before, continuously avoided the white-colored odor s that suddenly shot out.

It seemed like a close call, but it was always successful.

The half-way break allowed them to quickly adjust their own situation. Overall, they were much more relaxed than Yun Xiu.

Aside from Liu Li and the others, the other Emphyreans were also moving forward on the cloud path, one step at a time. From

The trick that Liu Li and the other two had discovered made everyone have a bit more leisure time and time again, however, there were still Emphyreans that had lost their lives due to being unable to dodge in time or to judge wrongly. To

At this point, the vast majority of Emphyreans had only advanced several hundred meters. There was still a long distance to go before even more Emphyreans died in the end. No

Unknowingly, another hour passed.

After Tang Huan, Qin Xian Ye was the second to successfully pass through the passageway and reach the mountain ranges. Following closely behind them were the two Emphyreans, Liu Li and Ji Qingtian. However, not long after they reached the mountain peak, another figure appeared at the foot of the mountain. It was the Supreme Elder of the Clear Void Pavilion, Gu Daozi.

His appearance caused Qin Xian Ye, Liu Li and the rest to feel a chill in their hearts.

They set off for quite some time, before Gu Daozi and the others finally entered the cloud path. However, Gu Daozi's speed was astonishing, and he managed to catch up so quickly.

The amount of time that Gu Daozi had spent on this Cloud Mist Passage, was second only to the time that Tang Huan had spent on the first person who passed through. This

To Liu Li and the rest, this was not a good thing. do

As the number one ranker on the honorary list, if Gu Daozi truly obtained the treasure that could help him witness the position of god, he reckoned that it wouldn't be long before he could break the shackles and limits of the Emphyrean Realm and become a genuine Divine Ranker. In that case, Tang Huan would really be in danger. merciful

Okay, Tang Huan went through the Cloud Mist Passage and reached the mountain peaks earlier than Gu Daozi.

Right now, on this mountain range, with Tang Huan far ahead of them, if Gu Daozi wanted to catch up, it would not be easy. If Tang Huan was the first one to reach the summit, then the chances of Gu Daozi stealing away the treasure that could help someone witness the Dao of the Gods from Tang Huan was very slim.

While Liu Li and the other two were thinking about this, they had already retracted their gazes. After exchanging a quick glance, they also began to move their feet and head towards the mountain peaks.

Chapter 2228

After a long time — —

"We're finally here!" Cloud

At the end of the tunnel, Yuan Chao leaped up and landed on the peak of the mountain. with

Immediately, Yuan Chao relaxed his brows and heaved a long sigh, as if he had been relieved of a great burden. However, the pressure that followed the surge of energy caused him to frown once again. lifting

As he looked over, Yuan Chao's expression darkened.

Tang Huan was at the top, with Gu Daozi at the middle, while Liu Li, Qin Xian Ye, and Ji Qingtian were at the bottom. However, even Liu Li and the rest, who were at the bottom, were about a hundred meters away from him. If

If nothing unexpected happened, it would be almost impossible for him to shorten the distance with his current strength.

Yuan Chao's eyes flickered with a cold and unwilling light.

The moment he climbed up the mountain, he understood that all sorts of treasures were hidden within the balls of white light. However, on this mountain peak, the white light that was moving around wasn't endless. Rather, it was limited by the number of people. The higher the mountain, the fewer there were. And ...

In addition, the white beams of light also had distinct levels. Although they were unstable, they had a fixed range. They would not run to a higher area, nor would they move to a lower area. quaque

In his eyes, there were only two balls of white light that lingered around the peaks.

If one were to say that the white streak of light contained a supreme treasure that could help one prove one's Dao, that would mean that only two Emphyreans would have a chance to obtain that treasure.

Amongst the five people in front of him, although Tang Huan was currently at the highest position, the person with the greatest hope of obtaining that treasure wasn't him, but Gu Daozi, who was temporarily behind him.

After calculating, there was only one ball of white light left for other people to compete for. Yuan

Other than Gu Daozi, Tang Huan and Qin Xian Ye posed the greatest threat. After all, the former was way ahead of the others, and the latter was ranked second on the revered list, which was also a

lot ahead of him. As for Liu Li and Ji Qing Tian, although they were also very strong, they were relatively less threatening.

In between the mind instructs (in a second), Yuan Chao had already activated his Sky Origin Stage, forcefully resisting the impact of the pressure as he stepped forward.

Their speed is rather fast, as expected of the number one on the revered list. " peak

On top of the mountain range, Tang Huan took a light breath and couldn't help but laugh. deng

He did not pay any more attention to the movements in the tunnel of mist after he climbed the mountain. However, he could not hide the situation in the mountain range from his senses. When Liu Li, Qin Xian Ye, Ji Qingtian, Gu Daozi, and Yuan Chao entered the mountain, he was very clear about them all.

Gu Daozi's performance actually made Tang Huan feel a sense of urgency. Leu

Li and the other two had already passed through the passageway and arrived at the mountain peak before Gu Daozi. However, before long, Gu Daozi had caught up to them, and even overcame them.

Tang Huan could feel the distance between him and Gu Daozi narrowing bit by bit.

Of course, Tang Huan didn't think that he could catch up. The higher the area, the greater the pressure. Even with Tang Huan's cultivation and strength, it was still rather difficult for him to reach her current position. Even though Gu Daozi looked to be walking rather relaxed, with the passage of time, his speed would definitely become slower and slower, and the distance between the two of them would also become slower and slower. time

Little by little ...

The distance between Tang Huan and the peak of the mountain was slowly shrinking. Until now, it was already only a few dozen meters away, but to this extent, every step Tang Huan took was extremely difficult.

That terrifying pressure silently rolled down from above like a thunderbolt.

However, although it was difficult for Tang Huan to move, her steps were still steady.

When he was about ten meters away from Tang Huan, Gu Daozi's brows knitted tightly, and his eyes grew hazy. Nearly a quarter of an hour ago, there was already so much distance between him and Tang Huan. But after a quarter of an hour had passed, the distance between him and Tang Huan was still so much;

Or rather, the distance that had been reduced by fifteen minutes was almost negligible.

After all, on the peak of the mountain, there were two balls of flowing white light. After Tang Huan obtained one of them, the other ball would definitely be his. However, what made him angry, and what was even more unbelievable, was that he was already unsure if she could reach the peak of the mountain, which was less than a hundred meters away.

Tang Huan's steps were still steady, but under the strong impact, her steps were rather shaky.

If Tang Huan were to reach the summit, he actually didn't go up ...

That would be very embarrassing.

In the test of the Immortal Spirit Ancestral Court, his performance was actually not even as good as Tang Huan's, who was ranked twelfth. If word of this got out, he would definitely become the laughing stock of the entire Heaven Realm. Of course, to him who had lived for a long time, this was not the most important thing. No

If one was able to reach the peak of the mountain, it would be impossible to acquire such a precious treasure that could help verify the Dao of the Gods!

This was what Gu Daozi valued the most. This

After entering the "Immortal Spirit Ancestral Court", the thing he wanted to obtain the most was this. If Tang Huan were to successfully obtain the treasure but he did not have it, how could he endure?

Compared to him, Yuan Chao's face was even darker.

Although Gu Daozi had a bad feeling, he still had some hope of reaching the summit. However, after walking for some time, he realized that his little hope had been completely shattered. He

He had already surpassed Liu Li and Ji Qingtian, and there was only about ten meters between him and Qin Xian Ye. Of course

And it was precisely this short distance of ten meters that was like a natural chasm, making it almost impossible for him to cross. If he couldn't even surpass Qin Xian Ye, then there was no way he could surpass Tang Huan.

Furthermore, according to his observation, even Gu Daozi's chances of catching up to Tang Huan was extremely slim.

He didn't think that he would be able to accomplish something that even Gu Daozi couldn't. But

Yes, if he couldn't surpass Qin Xian Ye and Tang Huan, who were both in front of him, if he wanted to succeed in obtaining a ball of peaks's white light, it would be equivalent to daydreaming. The reason why he had entered the "Immortal Spirit Ancestral Court" was because of that precious treasure. However, it had now become a foil to others. "

"Elder Yuan, if you don't walk faster, we'll catch up to you." "Laughter." A crisp laugh came from behind him.

Why don't we stop to rest for a bit and let Elder Yuan walk further away first, haha... " Another laugh rang out, loud and vigorous like a great bell. Yuan

The person who spoke was naturally Liu Li and Ji Qingtian. Even if he did not turn his head to look, he could clearly feel the intense ridicule and ridicule in the eyes of Liu Li and Ji Qingtian, who were behind him.

Chapter 2229

"You're looking down on Elder Yuan too much. He's the third rank on the Honorary Ranking, so why would we need to give him to him?" Elder Yuan, am I right? " Liu Li smiled again.

"Shut up!"

Yuan Chao was flustered and exasperated as he bellowed.

"Tsk tsk, Elder Yuan, are you angry out of embarrassment?" Liu Li's footsteps did not stop. However, a trace of ridicule flashed across her eyes.

"You ..."

He took a deep breath and said in a cold voice, "Liu Li, I am too lazy to argue with you. After this test is over, if you are still interested, I will definitely accompany you. I hope you will not disappoint me when the time comes."

As he finished his sentence, Yuan Chao's killing intent was fully revealed. When

At first, Yuan Chao wanted to capture Liu Li and use her to find out where Tang Huan was. In the end, although he gave up on searching for Liu Li, it did not mean that he had decided to let Liu Li go.

In reality, he still couldn't wait to kill Liu Li.

However, at this moment, he was experiencing the test of the Immortal Spirit Ancestral Court. If he were to fight with Liu Li, Qin Xian Ye and Ji Qingtian would definitely be implicated. At that time, regardless of the outcome, it would be a waste of time.

Furthermore, during the battle, it would be very difficult for him to withstand the pressure from the mountain range, so he might soon slide down to the foot of the mountain.

In this way, even if he stopped immediately, he would have to climb up from the foot of the mountain again. This

With this delay, forget about the's hopeless treasure, even the lower ranked treasures would find it difficult to obtain. He didn't want to waste this rare opportunity because he didn't want to lose it. He could only suppress the anger in his heart and wait for this test to end. fruit

However, in the following time, Yuan Chao's eyes, nose, ears, and heart were all focused on what was happening around him, as if he turned a deaf ear to everything that was happening around him. Leu

Li and Ji Qingtian teased him again. Seeing that Yuan Chao didn't move, Li Jun couldn't be bothered to waste her energy and focused her attention on her feet. time

In the blink of an eye. succeeding

After these few people, there were finally more Emphyreans that successfully passed through the cloud tunnel and ascended this mountain peak. Not only that, there were also Emphyreans that ascended this mountain one after another.

However, Sky Sovereign, who had been turned into ashes on the cloud path, also appeared one after another. When

When the last figure walked out of the cloud tunnel, there were only twenty-five people left alive in this area. is

Emphyrean Yu had all lost his life in the cloud tunnel. This

Such a result caused many Emphyreans to feel sorrowful in their hearts. However, they quickly collected their emotions and focused all of their attention onto this mountain peak. and

Compared to Tang Huan, Gu Daozi and the rest, they were way behind.

Even though they knew that it was impossible for them to catch up, these Sky Sovereign did not relax because of this. They were not able to catch up with Tang Huan, Gu Daozi and the others, and there was still a high chance of them surpassing the other Sky Sovereign. After all, the higher their position was, the more valuable the hidden treasures were. every

The number of treasures in this region was limited. If it was too slow and all of the treasures were taken, then the only choice was to choose from the lower regions. After risking their lives, they finally managed to pass through the Cloud Mist Passage. No one wished for their harvest to be too poor.

On this mountain, everyone was doing their best to climb.

However, when he was about ten meters away from the peak of the mountain, Tang Huan stopped in his tracks.

Despite the calm and steady manner in which he took each step, he was keenly aware of how much pressure he was currently under. If not for the three divine crystals and the "Nine Yang Divine Furnace" supporting him, with his cultivation and strength, he would have been flipped upside down if he did not reach this place.

But now, Tang Huan could already faintly feel that she was being pressured down.

He was currently only about ten meters away from the peak of the mountain and the two balls of white flowing light that lingered around the peaks looked like they were within reach. However, to Tang Huan, this tiny distance seemed like a great chasm that was difficult to cross, and he had a feeling that if she were to take her next step, the final result would probably not be even closer to the peak, but even further away from the peak ... "That's because the instant he took a step forward, he was pushed back by the pressure."

A treasure that can help us corroborate the Dao of the Gods, it is indeed not something that can be easily obtained! "

Tang Huan's thoughts quickly changed, but her heart remained extremely calm. desire

If one wanted to reach the top of the mountain quickly, they definitely couldn't be impatient. If one was too eager, it might actually be harmful. Furthermore, for Tang Huan, the position she was currently in, the treasures that she could obtain ought to be second only to the peak. A treasure that could be placed in this region definitely wouldn't be much. This

After entering the "Immortal Spirit Ancestral Court", Tang Huan was able to cultivate in the Immortal Spirit Ancestral Court for so long, so her trip here was not in vain.

Therefore, in this trial, Tang Huan's attitude had always been very balanced. Right

Towards the treasures of the peaks, he did not have any thoughts of wanting to catch up. He only wanted to see where he could get to the top of this mountain, and even if he could not reach the summit in the end, he did not feel that it was regretful. When

However, if he was able to reach the summit of the mountain and obtain the treasures there, Tang Huan would not act rashly. thought

As he thought about it, Tang Huan turned his head and looked behind him. a few

In the blink of an eye, Gu Daozi's figure appeared in Tang Huan's line of sight. Gu Daozi was not directly behind him, but was right behind him.

As if he had sensed something, Gu Daozi also looked over.

Instantly, their gazes met. vale

He was at least tens of meters away from Tang Huan. The moment he caught sight of Tang Huan's gaze, a cold light flashed deep within his eyes. Seeing that, Tang Huan did not mind, but smiled and retracted her gaze.

"Maybe we can try it this way."

A thought suddenly emerged in the depths of Tang Huan's mind.

In the next moment, a crystal clear flower appeared in Tang Huan's palm, shining brilliantly. After entering the mysterious area in the center of the Yan Luo Immortal Manor, Tang Huan knew that the Yan Luo Golden Immortal was actually the medium to drive the Immortal Ancient Court.

The little round ball that Tang Huan had obtained from that mysterious area was actually an immortal seal that contained the source of the Ancestral Court. in

During the time that he was cultivating deep within the "Celestial Ancestor Mountain", Tang Huan had already silently fused the immortal seal into the mountain range. With this, even if Tang Huan left the "Immortal Spirit Ancestral Court" in the future, and is hundreds of millions of kilometers away, he could still return to the Ancestral Court through the "Youlan Golden Immortal".

Chapter 2230

Of course, this method could not be used without any limits.

Every time he used it, he would need to use the accumulated strength of the "Smoke Powder Golden Immortal". The further away it was, the more energy it would consume. It was even possible that his strength would be completely depleted. Once his energy was depleted, the "Smoke Powder Golden Immortal" would need at least a hundred years to replenish his energy.

Thus, such a long distance teleportation could only be used once in a short period of time.

Tang Huan was currently in the "Immortal Spirit Ancestral Court", so he could take out the "Smoke Golden Immortal". Naturally, she couldn't use that kind of method, he only wanted to borrow the "Smoke Golden Immortal's" source energy.

The source energy of this Yan Luo Golden Immortal was exactly the same as that of the Immortal Spirit Ancestral Peak. also

This was something that Tang Huan had only discovered after entering the center of the "Heavenly Abyss Mansion".

"Hu!"

After a moment, a dense source of power surged out from the "Smokey Golden Immortal" and was sucked into Tang Huan's body, quickly being refined. Don

The main reason why Huanhuan found it hard to continue was because the rate at which the energy was being consumed was too fast.

Even Tang Huan found it hard to hold on. If this were any other place, Tang Huan could completely absorb the energy of the outside world and refine it to replenish his own consumption. can

On this mountain range, there was no power that could be refined by Tang Huan at all.

Although Tang Huan's strength could grow endlessly, in this place, the rate at which she could replenish her strength was still not comparable to her rate of consumption. The most depressing thing was that after she had consumed more than half of her strength, it would become increasingly difficult to resist the impact of the pressure ... Tang Huan was currently in such a predicament. This

To Tang Huan, the injection of the origin power of the "Smoke Powder Golden Immortal" was equivalent to a sweet rain when she was thirsty. Dan

The Dao Crystals and Divine Crystals in the field were activated, the "Nine Yang Divine Furnace" was activated to the extreme, and the "Creation God Technique" was displayed to the fullest ... Under this situation, the Origin Energy of the "Heavenly Abyss Golden Immortal" was quickly refined and replenished Tang Huan's Nascent Soul.

Tang Huan stood motionlessly on the mountain peaks, but she did not stop her power from being exhausted. No

However, with the help of the origin power of the "Yan Luo Golden Immortal", the rate at which Tang Huan's energy was replenished had finally surpassed the rate at which her energy was consumed.

"Time passed by bit by bit."

"Hmm?" Lateral

Ten meters behind him, Gu Daozi frowned and exclaimed in surprise. Don

From his judgement, the reason why Tang Huan did not advance, should already be because he was at the end of his rope. Reaching his current position, was already the limit of Tang Huan's strength, and it would be impossible for him to advance even another step.

At this time, the best way was to use all of our strength to grab the ball of white light beside us and obtain the treasure it contained. If he continued to hesitate, it was very likely that his strength would run out and he would be unable to hold on any longer. Then, he would be washed to the bottom of the mountain range by that terrifying pressure. If

It would be hilarious if such a scene really happened. force

The exhausted Tang Huan would never be able to reach the same height again. She would probably only be able to catch a ball of white light at the foot of the mountain and obtain the worst of the treasures. Meaning

With a thought, Gu Daozi's spirit was lifted. can

In an instant, his expression darkened as he stared at Tang Huan's right palm. There, a flower was spinning.

Yan Luo's Golden Immortal? "

Gu Daozi's eyes were cold as he instantly determined the flower's origins.

It was said that this treasure had a lot to do with the "Celestial Sect", but no one knew what secrets this treasure that was passed down in the Celestial Realm was hiding. Now

In the end, Gu Daozi was unable to sense Tang Huan's condition, but with his experience, she could tell with a glance that Tang Huan was absorbing and refining energy at an astonishing speed. If Tang Huan could do this, didn't that mean that the energy that she had consumed could be quickly replenished? Now

He just hoped that the speed at which his strength was replenished wasn't too fast, otherwise ...

Gu Daozi's face darkened, he let out a light snort, but his legs did not slow down at all. Tang Huan's pause had already allowed him to see a hope of surpassing his opponent.

"Why did Brother Tang Huan stop?" Liu Li had also noticed Tang Huan's abnormality and subconsciously muttered.

"I think I've used up most of my energy. After I stepped onto this mountain, my energy consumption speed was too fast." Ji Qingtian let out a long sigh, then said somewhat helplessly, "If I continue to waste energy like this, I'm afraid I won't be able to hold on for long. My requirements are not high, and I just need to be able to obtain treasures of the second level. "

"Aren't your requirements high?" Liu Li couldn't help but roll her eyes.

"... " "

"What is Tang Huan doing?"

He stopped, but Venerable Lord Gu Daozi did not stop. She might be caught up very soon. "

"..."

The other Emphyreans began to mutter to themselves when they noticed the situation.

At first, they thought that it was hopeless for Gu Daozi to chase after Tang Huan, since the distance between the two of them was not small, but now, it was obvious that Tang Huan could not hold on much longer, and was still standing there. But after a while, it was unknown whether or not she could continue standing there. At that time, Gu Daozi would be able to achieve a breakthrough. It shouldn't be a difficult matter.

Gu Daozi stared at Tang Huan without blinking, the distance between them shortening bit by bit. To

Every step he took, he would have to use all of his strength to stand firm on his feet. However, the determination to surpass Tang Huan allowed his whole body to maintain its vigor. No

Unknowingly, Gu Daozi and Tang Huan were only about ten meters apart.

"He recovered so quickly?"

Gu Daozi took a deep breath, raised his leg again, but before his foot could step on the ground, Tang Huan who was ten metres away also followed suit and stepped on the ground. Seeing this, Gu Daozi's eyes darkened. He felt a strong urge to vomit blood in his heart.

"Hm!" Fear

Under the pressure, his steps became weaker and weaker, but before he could even stabilize himself, he let out a muffled groan, and his body subconsciously followed the pressure as he was sent flying backwards.

"In the blink of an eye, Gu Daozi had fallen to the foot of the mountain."

"What's going on?"

"It seems to be Empyrean Valley Daozi!"

Was he washed away? He's the first on the revered list! "

"..." scattered

The many Empyrean that had landed in various parts of the mountain range immediately noticed it and cried out in disbelief. It was one thing for the mighty top ranker on the Honored Warrior List to not only not surpass Tang Huan and reach the summit, but he had also been pushed down by the pressure from above. This had indeed exceeded everyone's expectations.
