

W. Master 2231

Chapter 2231

At the foot of the mountain, Gu Daozi had stabilized his body. His face was ashen, and his eyes were frighteningly cold.

He was actually sent flying!

He had thought that it was possible that he wouldn't be able to reach the summit of the mountain, but he never thought that under the gazes of everyone present, he would instantly slide down to the foot of the mountain.

At this moment, a great sense of humiliation emerged from the bottom of his heart.

However, in the end, Gu Daozi was an Sky Sovereign who had cultivated for countless years. This kind of emotion was suppressed by him the moment it appeared, and he narrowed his eyes and coldly glanced at Tang Huan, who was getting closer and closer to the peak. A sinister cold light flashed from the bottom of his eyes.

"Tang Huan, this old man has truly underestimated you!"

Gu Daozi took a deep breath and began climbing up again.

However, the unforeseen event that happened to him a moment ago had caused many cultivators to turn their attention to the top.

As they looked at the figure that continued to advance, the eyes of many Emphyreans revealed unconcealable astonishment and shock. Although they had yet to reach such a height, from Gu Daozi's performance, it could be seen how much pressure they had to bear in the region above them.

Gu Daozi, the number one ranker, was actually unable to endure it.

But strangely enough, not only was Tang Huan able to resist the terrifying pressure, she was also continuously climbing upwards ... This huge contrast made everyone feel even more inconceivable. However, their performance here was completely reversed. From the looks of the current situation,

it was very likely that Tang Huan was the first Sky Sovereign to reach the summit, and possibly the only one —

One.

As for Gu Daozi ...

Originally, everyone thought that he would very likely surpass Tang Huan and be the first one to reach the summit. However, the scene just now caused everyone's thoughts to greatly change.

Now, the crowd was no longer optimistic about his following performance.

After walking so far up the mountain, Gu Daozi must have consumed a massive amount of energy. With his current condition, it was unknown whether he could return to his original position, let alone reach the summit. On this mountain peak, his gains could not be compared with Tang Huan's.

Furthermore, the mistake just now made it possible that he couldn't even catch up to Qin Xian Ye, Yuan Chao, and the others.

Thinking of this, besides feeling regret, everyone could not help but gloat.

Although they were both Emphyreans, there was still a huge difference between Emphyreans and Emphyreans. To them, Gu Daozi was an existence that could only be looked up to, an existence far above them, something that they could not hope to reach. But now, in this trial of the Celestial Ancestor Realm, he had been defeated.

This made those who had been dissatisfied with the Clear Void Dao Pavilion feel even more pleased.

"My strength is lacking, that's exactly it!"

High up on the mountain peaks, Tang Huan also felt the change in events and couldn't help but smile to herself.

On this mountain peak, one could not absorb the energy of the outside world. If one wanted to replenish their own energy, they would have to rely on themselves.

Although Tang Huan did not pay much attention to it, Gu Daozi had obviously absorbed and refined a lot of energy to supplement his energy during his climb. Unfortunately, his rate of replenishment was obviously slower than his rate of consumption, if not, he would not have been smashed down just now due to a moment of absent-mindedness.

At this point, it was already impossible for Gu Daozi to return to his original position, and even more so, catch up to him.

The two treasures at the peak of the mountain were surely not fated to be with him.

Tang Huan shook her head, she had already calmed herself down and focused her attention on herself.

The Yan Luo Golden Immortal was still in his palm, and the energy that was surging out from the flower was also still being refined by the sucking into Tang Huan's body. Even though Tang Huan's Sky Origin was already gone, and the power that kept on replenishing it was able to maintain the balance in her Sky Origin Stage.

With sufficient strength, Tang Huan's footsteps naturally became more steady.

Time trickled by bit by bit. Tang Huan forcefully endured the boundless pressure as she advanced step by step. Unknowingly, the distance between Tang Huan and the peak of the mountain slowly shrank.

Ten meters, nine meters ... Six meters ... Three meters...

When he was only one step away from the peak, Tang Huan's figure stopped once again.

This was the most critical and most difficult step. The pressure that Tang Huan was currently facing was already incomparably strong, and even though her steps were steady, he still had a faint feeling that her body was floating like duckweed.

It was as if once he took another step, his body would float upwards.

Tang Huan took a deep breath, calmed her heart and concentrated. An instant later, Tang Huan had activated her Nascent Soul and "Nine Yang Divine Furnace" to their limits at the same time, and the power in her body started to surge crazily like raging waves.

In that moment, Tang Huan raised her right leg.

Following this action, the enormous power within his body immediately followed along Tang Huan's right leg and roared towards that direction like a collapsing embankment and a raging wave, with the power to topple mountains and overturn the seas.

"Thump!"

After stepping onto the mountain peak, Tang Huan's body leaned forward, and took the opportunity to retract her left leg. Following that, her body slightly trembled, as if she would fall down at any time.

Fortunately the trembling only lasted for a moment, Tang Huan's body became as stable as a boulder.

"He's here!"

Tang Huan heaved a sigh of relief, and revealed a happy smile.

"He went up!"

At the upper part of the peak, Liu Li's taut face relaxed, and her beautiful eyes revealed a deep smile.

When Tang Huan took another step, Liu Li's speed slowed down. Half of her attention was focused on the mountain peaks, and two pairs of eyes were following the figure as he climbed up, step by step. Now, the figure had finally reached the summit.

However, despite her happiness, Liu Li could not help but feel a little rueful.

When she first met Tang Huan in the lower realm, she knew that as long as this little fellow didn't die, there would be a day when she would be able to step into the Sky Sovereign Realm. Furthermore, it would surpass her.

In these past few years, Tang Huan had indeed been advancing towards her judgement step by step. The current Tang Huan had long surpassed her, and had surpassed her by a lot.

Originally, she thought that Tang Huan was still ranked twelfth on the revered list.

But at this moment, she understood, Tang Huan had been cultivating in the space of the "Immortal Spirit Ancestral Court" for a very long time, his cultivation must have made a huge breakthrough. The reason why this breakthrough didn't appear on the honorary list was that the existence of the Ancestral Court had already transcended the heavens' law.

Once they left the Immortal Spirit Ancestral Court and were investigated by the heavens, not only would Tang Huan's ranking change, the rankings of the other Emphyreans would also change. Of course, there would definitely not be as many people on the new ranking board as before. This was because there were already many Emphyreans whose souls had already dispersed.

An Emphyrean that died would definitely be removed from the revered list.

I wonder what Tang Huan's rank will be on the honored list after the new one appears? There was definitely no problem for the top ten. As for the top three ...

Judging from her performance just now, Tang Huan was clearly superior to Gu Daozi. However, she could not say that Tang Huan was able to surpass the number one ranked Gu Daozi from this point on ... From this point of view, Tang Huan could possibly surpass Yuan Chao and Qin Xian Ye and be weaker than Gu Daozi.

The second rank on the revered list was perhaps Tang Huan's new rank.

Thinking of this, Liu Li couldn't help but look forward to it. Compared to her, the other Emphyreans were completely filled with shock.

"They went up! He went up! "

"We've really reached the peak ..."

"That is a precious treasure that can help prove the location of the Dao. It seems like it is already in his possession!"

" ... "

Although everyone had long anticipated the scene that would happen at the peak of Yu Feng and had already mentally prepared themselves for it, to personally witness Tang Huan successfully ascend the peak, everyone couldn't help but be greatly shocked. After all, reaching the summit of Yu Feng meant that they had a high chance of obtaining the most valuable treasure.

It was a supreme treasure that could help verify the Dao of the Gods ...

This kind of treasure, was rarely seen since the ancient times, but it was about to fall into Tang Huan's hands. When this "Celestial Ancestral Immortal Realm" was revealed, Tang Huan was still just a lower Emyrean. She had cultivated in the space of the Ancestral Court for many years, so she might even be a middle Emyrean. While the other peak Superior Emyreans were painstakingly trying to prove their dao, Tang Huan, this intermediate Emyrean, already had a treasure that could be used to prove their dao. This caused everyone to ...

How could he endure this?

For a moment, the gazes that everyone looked at the peak of the mountain were filled with jealousy, envy, and resentment.

Under dozens of gazes, Tang Huan looked at the two streams of white light that were within reach of her body. These two blobs of light were like living creatures, leisurely wandering around this small area. They never left the peak and ran to other areas of the mountain range.

With a thought, the "Smoke Luo Golden Immortal" was put away, and Tang Huan's mind enveloped the two balls of white flowing light.

Although he felt that the chances of success were not high, Tang Huan still wanted to try and see if he could discover the difference between the two balls of white light. When they had just entered this space, Tang Huan had once said that it was possible for them to obtain a treasure that could help them witness the Dao God position ... There was only one possibility!

Whether or not there really was such a treasure, Tang Huan could not confirm.

If he could determine the difference between the two lumps of light, then it would be of great help to him in his next choice. He had already spent a long time anyway, so he was in no hurry.

Tang Huan's heart was as calm as water, her eyes slightly closed as she carefully probed around. After a long while, she could not help but slightly furrow her brows.

The aura exuded by the two balls of white light was exactly the same as that of the mountain range. From Tang Huan's senses, they were definitely a part of the mountain range.

Even though Tang Huan had activated all three of the divine crystals to their limits, she still failed to discover anything.

"Forget it, I'll just leave it up to fate!"

Tang Huan thought for a moment, then suddenly opened her eyes. Her right hand grabbed out like lightning, and a ball of white light landed in her palm.

But right after, the ball of white light had already entered his palm and disappeared.

"Rumble ..."

This sudden turn of events caused Tang Huan to be unable to help but be slightly taken aback. However, before he could even react, she felt a sense of relief, as though she had not felt in a long time. That terrifying pressure actually disappeared without a trace in an instant.

Accompanying this sound, the mountain range began to tremble intensely.

Tang Huan suddenly woke up and immediately realised that the test of the Immortal Spirit Ancestral Court was about to end. Not only that, everyone would be teleported out of the Ancestral Court very quickly.

If no one reached the summit, this space would only send out the cultivators who had obtained the treasures one by one. Only when the final person had been transported away or when the time for the test was over would the Immortal Spirit Ancestral Court close.

However, if someone managed to reach the top and obtain a treasure, all the cultivators would be teleported out together and the ancestral courtyard would be sealed as well. Now that Tang Huan had obtained a ball of white light, it meant that the test was over ... The end of the test wasn't against him alone, but everyone else.

"Sister Liu Li, please make your move quickly. We are about to leave the Ancestral Court." Tang Huan shouted loudly.

"It ended just like that?"

"So fast?"

"Why is this happening?"

"..."

Originally, everyone had their doubts, but upon hearing this, they couldn't help but exclaim. Liu Li, Qin Xian Ye, and Ji Qingtian were stunned for a moment before they immediately moved. Like lightning, they grabbed the ball of white light closest to them. A flash of extreme unwillingness appeared in Yuan Chao's eyes. Although he was unwilling to believe what Tang Huan had said, his body seemed very honest.

Gu Daozi stopped in his tracks. His eyes flickered as he quickly grabbed onto a ball of white light.

In the various parts of the mountain range, although the other Emphyreans could not believe what they were seeing, their hand movements were not slow at all. All of them began to move.

"Whooosh."

In the time it took to take a breath or two, a string of white-colored odor rose from the mountain peaks, wrapping everyone up like cocoons. After a short while, they all felt an irresistible force imprisoning them and involuntarily rose into the air.

Not long after, the energy dissipated into nothingness.

Almost at the same time, a huge change occurred in everyone's line of sight. The conical mountain range, cloud passage, and the tall platform had all disappeared. In their line of sight, there was the boundless space and the continuous undulations of the mountain range.

Everyone immediately looked around ...

Numerous buildings of all kinds stood in the vast area below the white chaos. Numerous auras, whether strong or weak, were densely packed inside or outside the buildings. They crisscrossed each other, appearing just like a huge net that stretched endlessly.

It was an enormous city.

"We're back!"

A cry of alarm jolted the slightly astonished crowd from their stupor.

In that instant, all the Emphyreans realized that they had already left the "Immortal Spirit Ancestral Court" and were being transported to the entrance of Qu Atian's Ancestral Court. In the past few years, such a huge city had spontaneously formed with the "Immortal Spirit Ancestral Court" as the center.

As an Emphyrean level expert, he was able to instantly determine the cause of this city. However, looking at the rapidly shrinking white chaos, everyone had a premonition that this city would soon disappear.

Chapter 2232

This vast area near the entrance to the Immortal Spirit Ancestral Court could be said to be a holy land for cultivation.

This city was founded by the "Immortal Spirit Ancestral Court". Now that the "Immortal Spirit Ancestral Court" was about to disappear, the countless cultivators that had gathered here would quickly disperse and return to their respective Heaven Realms. Without cultivators, this rapidly growing city naturally could not continue to exist.

"The Immortal Spirit Ancestral Court is about to disappear!"

"Are those the Empyreans that entered the 'Immortal Spirit Ancestral Court' previously?"

"..." Top

Soon, the cultivators of the city noticed what was happening.

In just a short moment, the news had swept across the entire city like a storm. Countless cultivators soared into the sky and watched as the white primal chaos that was disappearing along with the numerous figures nearby spread out in all directions with earth-shaking waves. No

Moments later, the originally massive white chaos was reduced to a small ball of white shadow.

Everyone's eyes were focused on the group of Sky Sovereign. Their eyes were filled with unconcealable shock. So many Sky Sovereigns had actually appeared at the same time.

However, what caused the crowd to be even more shocked was the number of Sky Sovereign's men.
By

From what they knew, the number of Ascendants that entered the Celestial Sect of Ancestral Immortals was over 40. But now, there were only 25 that came out. The vanishing Empyreans shouldn't have left so quickly, nor could they have been sent elsewhere ... If that was the case, it was very likely that they had already died.

Over ten or twenty Empyreans died inside the Immortal Spirit Ancestral Court?

Sky Sovereign level powerhouses all possessed a destructive power that could destroy the world. One could only imagine how strong they were. However, such a powerful existence had actually turned into dust in just a few decades.

If this news were to spread out, the entire Heaven Realm would be shaken. can

While the countless surrounding cultivators were still in shock, the twenty-odd Sky Sovereigns that had just been sent out of the Immortal Spirit Ancestral Court were also in a state of extreme shock.

In that instant, the ordinary cultivators were unable to sense it. However, as the Emphyreans, they could all sense that the Heavenly Dao had taken the initiative to manifest its name on the leaderboard. This

There was nothing to be surprised about.

After being in the Celestial Ancestor Realm for so many years, many cultivators had died and their cultivation had greatly increased. Once they left and entered the domain of the heavens, this change would immediately be noticed by the heavens and quickly revealed on the list.

Everyone had already expected this to happen before they came out.

Thus, when they felt the manifestation of the ranking board, everyone was extremely calm. They were only a little curious as to how much their rankings would change. However, when the board was completely revealed, everyone was stupefied with shock. They did not dare to believe their senses at all.

On the ranking board, the name that occupied the top position was no longer Gu Daozi, but —

Tang Huan! " in

As soon as they saw those two characters, the more than twenty Ascendants were shocked. In

After a trip to the "Immortal Spirit Ancestral Court", not only did Tang Huan, who was originally a lower celestial sovereign, manage to enter the top three, she even surpassed Gu Daozi and became the new top of the list.

This kind of change completely exceeded everyone's expectations. in

In the eyes of the other Empyreans, Gu Daozi's position at the top of the rankings should be unshakable for the time being. No one would be able to surpass him before he succeeded or completely failed. Although Tang Huan had that kind of potential, it would at least be many years later before he could achieve his goal.

However, at this moment, the debut that the Heavenly Dao had given birth to had completely overturned everyone's understanding.

The young Tang Huan was able to complete the reverse of the super strong Gu Daozi in such a short amount of time. This

Previously, when they were at the Immortal Spirit Ancestral Court, they couldn't determine his cultivation level, but they didn't pay much attention to it. in

From the crowd's judgement, even if Tang Huan's cultivation was unfathomable, a Mid Peak Empyrean's cultivation should be at its peak. But from the looks of it, Tang Huan was probably already an Upper Level Empyrean, or even an Upper Level Empyrean ... This was the only way for him to surpass Gu Daozi on the ranking board.

"Tang Huan... Tang Huan... " mass

People found it hard to believe. Gu Daozi was even more astonished at this moment as he muttered this name.

This huge change caused his mind to be in a bit of a daze.

He couldn't remember how many years he had been at the top of the list. Ever since he had ascended to the top of the leaderboard, he had become the target of the reverence of countless cultivators in the Heaven Realm. Even the other Empyreans respected him immensely, but now, he had actually been surpassed by someone from the younger generation. This

In that moment, the shock on his mind was not something that could be described with words. He was completely silent, and did not even notice when the white chaos disappeared. Weeks

The other Emphyreans were also the same. For a time, this small region had turned deathly silent, a stark contrast from the clamoring noise around them.

The change that happened to the first rank of the Honorable Ranking was only one of them.

Compared to when he first entered the Immortal Spirit Ancestral Court, his ranking had undergone earth-shattering changes. Zun

The top on the list was Tang Huan, the second was Gu Daozi, the third was Qin Xian Ye, Yuan Chao had fallen to fifth, and Ji Qingtian had risen to fourth, while Liu Li had also advanced to sixth, only second to the third on the honored list, Yuan Chao ... In addition, with the deaths of so many Emphyreans, only 25 names had appeared on the new ranking board. Those Emphyreans that were originally ranked lower had increased their rankings by leaps and bounds.

"I really did not expect it to be like this."

Tang Huan... Sky Sovereign is first place. In other words, he is the strongest person in Heaven Realm? "

"That's hard to say, the first rank on the revered list might not even have the same strength as first rank!"

"..."

It was unknown how much time had passed before the numerous Sky Sovereigns finally regained their senses. Whispers rose and fell, and many gazes shifted towards Tang Huan intentionally or unintentionally.

Tang Huan had already recovered from her shock, and could not help but laugh under the crowd's gaze.

He didn't expect such a change in the ranking. Although his performance in the "Immortal Spirit Ancestral Court" was much stronger than Gu Daozi, it did not reflect the true strength of the two

sides. That kind of test, held a huge advantage for Tang Huan, who had the Immortal Body Clone and Divine Crystal.

Furthermore, Tang Huan had cultivated at the Immortal Spirit Ancestral Peak for a long time, and she had even sensed the entire process of the Immortal World's evolution, so her understanding of the Immortal Spirit Ancestral Court far surpassed Gu Daozi's. Under these circumstances, it was natural for him to outperform Gu Daozi in the test.

Therefore, Tang Huan did not feel that she could surpass Gu Daozi. can

Right now, his name on the name list was actually above Gu Daozi, which was indeed something that Tang Huan had not expected. But when he thought about his own situation, Tang Huan quickly understood. Although his cultivation was not as high as Gu Daozi's, with three divine crystals, it was not impossible for the heavens to believe that he was stronger.

After all, according to Tang Huan's observation, Gu Daozi had not condensed the Divine Crystal yet.

Tang Huan! "

Right at this moment, a low shout suddenly exploded outwards. It was Yuan Chao, whose expression was dark and gloomy, as his gaze, that was as sharp as a blade, landed on Tang Huan's body. vale

Dao Zi suddenly regained his senses, his eyes narrowing to slits, his two eyes landing on Tang Huan's body. vale

Behind Daozi and Yuan Chao, Wei Xuanji also had a fiendish look on his face. Triple

Although he did not say anything, but from their bodies, a burst of killing intent spread out, causing everyone's heart to tremble, their gazes sweeping across Gu Daozi and Tang Huan's group.

Everyone already knew that the Clear Void Dao Pavilion would not let Tang Huan go. in

It was not convenient for the Immortal Spirit Ancestral Court to act, but outside the Immortal Spirit Ancestral Court, if there was an opportunity to act, they would not hesitate at all.

Now was indeed the best time to make a move. such as

Now that both sides were gathered here, there was no need to spend so much effort to deduce Tang Huan's whereabouts, like Yuan Chao did in the past. Furthermore, Tang Huan had already obtained the most official treasure in the Immortal Spirit Ancestral Court and was ranked first on the Ancestor Rankings. If she couldn't get rid of him now, she probably wouldn't have another chance in the future.

Most importantly, if he made a move now, he might even be able to snatch the treasure that Tang Huan obtained.

If Tang Huan refined that treasure, even if she captured Tang Huan, it would not be of much use to him. Furthermore, she had just left the Immortal Spirit Ancestral Court, so the treasure was still on Tang Huan. She did not have the time to refine it, and now was the right time to make a move. Ming

After this point, the crowd did not stay any longer to avoid getting caught in the crossfire.

One figure after another started to float backwards. After a flick of a finger, not only Gu Daozi, Yuan Chao and Wei Xuanji, the three experts of the Clear Void Dao Pavilion, appeared in this small area, there were also Tang Huan, Liu Li, Qin Xian, Ye Xian, and Ji Qingtian. Liu Li and the others firmly stood by Tang Huan's side without any intention to retreat.

"Elder Yuan, what's the matter?" Tang Huan laughed indifferently and said.

"Tang Huan, since you're here today, don't even think about leaving." "Haha ..." Yuan Chao laughed sinisterly.

"I am already ranked first on the Honorable Ranking. Yuan Chao, do you think that the fifth on the Honorable Ranking will be my match now?" Tang Huan looked at Yuan Chao and laughed leisurely.

"You ..."

Yuan Chao's heart sank, he had only wanted to keep Tang Huan here before but had forgotten about the rankings.

On their side, there were only three people, and Gu Daozi was ranked second, while he was ranked fifth. As for Wei Xuan Ji, although he was a middle stage Ascendant, if there was a fight next, the impact it would have was negligible, almost negligible. On the other side, Tang Huan ranked first, Qin Xian Ye ranked third, Sky Sovereign Ji Qing ranked fourth, Liu Li ranked sixth ... In terms of strength, the rankings had already surpassed their Clear Void Dao Pavilion.

"That's right." Leu

The smile on Li Li's face blossomed like a flower, as she said, "Little brother Tang Huan, you're currently ranked number one on the revered list. As the strongest person in the Heaven Realm, you don't need to personally act against an old fellow who's ranked five? Leave it to me, elder sister. If this old man doesn't know what's good for him, then watch how I'll deal with him. "

Yuan Chao's face turned black. He angrily growled, "Liu-Li, you really boast shamelessly. I ..." posterior

Even before he finished his sentence, Gu Daozi waved his hand and stopped him from speaking, but he did not pay attention to Liu Li, and instead looked at Tang Huan who was facing him, and coldly said: "Tang Huan, the honored ranking is only for reference, true strength is not something that can be displayed just by the ranking!"

"Oh?" Don

Happy eyebrow slightly raised, laughed, "You are right. Elder Gu, since this is the case, then let's not waste any more time. I also want to see if my name, as the first ranker of the ranking board, is truly worthy of being called! "

The moment his voice fell, a bizarre aura surged out of Tang Huan's body and swept out in all directions like a stormy sea. Waves of ripples that could be seen with the naked eye appeared wherever he passed, and they were extremely violent, causing even the sky to tremble. Don

On the other side of Huanhuan, Gu Daozi's expression froze, and his eyes widened.

The aura that originated from Tang Huan's body was extremely profound, and seemed to contain the intentions of an immortal spirit, as well as the meaning of primal chaos. However, the two feelings seemed to have been completely separated, yet seemed to have merged together ... However, regardless of what the situation was, the immortal spirit will and the chaos will were one. sensibility

In response to such an aura, Gu Daozi was greatly shocked. This

The trembling did not only originate from the miraculous meaning contained within Tang Huan's aura, but also from the fact that it contained a meaning that transcended the Heavenly Dao. He felt that the current Tang Huan seemed to have successfully crossed the barrier between the Sky Sovereign Realm and the Divine Realm with one foot.

In a blink of an eye, Gu Daozi's eyes were already filled with spirit light, an extremely terrifying Qi had already surged out from his body like a torrential flood, rumbling and surging outwards, with a force that was like a thunderclap that was extremely powerful and mighty, as though it was going to turn Tang Huan into smithereens in a blink of an eye. polar

The stifling atmosphere spread out between Tang Huan and Gu Daozi, and the two of them were already ready to fight at any moment.

Yuan Chao and Wei Xuanji looked at each other and quietly retreated backwards. It was obvious that they were afraid that their distance would interfere with Gu Daozi's exit. When Liu Li, Qin Xian Ye, and Ji Qingtian saw this, they gave each other a mutual look and retreated like flying cotton.

What? I didn't hear it wrong, did I?

This is really ... I remember that Tang Huan has only become an Sky Sovereign not many years ago, right? Fifty years? You reached the first place on the revered list so quickly? "

"This Empyrean Tang Huan's cultivation speed is way too fast. Could it be that she obtained a huge opportunity in the 'Immortal Spirit Ancestral Court'?"

"... " "

As expected, the Sky Sovereign Gu Daozi of the Clear Void Dao Pavilion was not willing to let go of Sky Sovereign Tang Huan.

"I wonder who will win this battle?"

How many years had it been since a war of this level had occurred in the Heaven Realm? Forget it for now, hurry up and retreat! Retreat! Otherwise, it would be too late to retreat! "

"..." Person

In the group, the sound of someone gasping continuously sounded out.

Seeing the tense atmosphere between Tang Huan and Gu Daozi, countless cultivators did not have time to be shocked, and started to retreat as fast as they could. One was currently the first ranker, while the other was the previous first ranker. place

One of them was extremely dangerous.

Chapter 2233

The slightest carelessness could result in him losing his life. kinship

Watching the two super strong warriors fight was indeed a rare opportunity that would only happen once every ten thousand years. To be able to broaden his horizons, however, everything had to be done in order to preserve his life. If

He had even lost his little life, so what use was there in fighting a war that was so shocking?

Thus, the countless cultivators who had regained their senses all chose to stay away from Tang Huan and Gu Daozi without hesitation. However, at the moment when everyone retreated ...

Tang Huan and Gu Daozi had moved at the same time!

"Hu!" surprise

In the midst of the heaven and earth shaking sound, Tang Huan threw out a punch. A near transparent wave roared out from the fist, as if it was a raging torrent of raging flames that was swept away by a hurricane, rolling forward with unstoppable thunder-like momentum. At this moment, Tang Huan was using her own "Primal Chaos Dao Flame".

Almost at the same time, Gu Daozi's five fingers were like hooks as they grabbed out.

"Slash!"

The sound of silk breaking through the sky shook the heavens as a massive dark blue stream of light explosively shot out from Gu Daozi's hand. It was like a completely enraged giant dragon was leaping rapidly in the sky with a fiendish aura and overflowing power, as if it was about to tear all the obstacles in front of it into pieces. two

People's attacks were all extremely fast. Electricity

In the time it took for a light stone to ignite, the transparent flame torrent and Pang Shuo's enormous dark blue dragon collided head on with each other at a speed that was difficult to even move at in one's mind.

"Boom —"

An explosive sound burst forth like the breaking of a golden mountain. one

A terrifying wave of force immediately swept in all directions, and the mountain range not far away instantly turned into dust. The countless people below also disappeared in an instant, as the Strength Qi, mixed with the dust and sand, stirred, setting off a ten thousand meter tall wave that swiftly spread out between the heaven and earth.

Wherever the waves passed, no matter if it was the mountains or the forests, they were all turned to dust.

In the blink of an eye, the surrounding thousands of miles were completely flattened, the grayish sand wave covered the vast sky and completely enveloped Tang Huan and Gu Daozi within it.

Such a terrifying scene caused those Emphyreans that were retreating to be dumbstruck.

Being pushed back by that powerful wave, they, who had already retreated several thousand meters, were able to endure it. However, the ordinary cultivators were still unable to withstand it. Under

that enormous force, they were pushed back nearly a thousand miles before they managed to stabilize their bodies. Looking at the scene in front of them, the color of almost everyone's faces changed.

"What terrifying strength!"

"Is this the expert ranked first and second on the revered list?"

"Too terrifying, too terrifying!"

"..."

At this moment, everyone was extremely shocked. However, at the same time, they were also extremely glad.

Just by looking at the situation ahead, one could tell how powerful the two of them were when they were fighting.

If they hadn't retreated and stayed to watch, they would have completely disappeared like the Immortal Spirit Ancestral City.

"Tang Huan..." Person

In the group, Lin Si Wei's inaudible mutter came from her mouth. Her eyes were dazed, and the vibrations in the depths of her soul could not be described with words.

When he had just arrived at the Immortal Spirit Ancestral City, Tang Huan was ranked twelfth on the revered list. in

After cultivating in the city for so many years, her strength had increased by leaps and bounds. In her estimation, if Tang Huan were to enter the "Immortal Spirit Ancestral Court", his cultivation would definitely increase by leaps and bounds, and he might even be able to enter the top ten of the revered list.

In her opinion, for Tang Huan to be able to enter the top ten at such a young age, was already an outstanding accomplishment.

However, she never would have thought that the moment Tang Huan left the "Immortal Spirit Ancestral Court", he would actually surpass Gu Daozi, who had dominated the leaderboard for countless years, and become the new head of the leaderboard. As the most powerful cultivators of the Heaven Realm, each and every one of the Emphyreans was an earth-shattering existence.

Tang Huan had become the strongest amongst them! such as

Now that she had personally felt the power of Tang Huan and Gu Daozi's exchange, Lin Si Wei's soul immediately suffered an incomparable shock. In this life, in the depths of her soul, this kind of scene would probably never fade away. Not only her, but the surrounding cultivators should also be the same.

"Boom —"

Another loud sound echoed out.

At the end of everyone's line of sight, the dusky space seemed to have been ruthlessly stirred up. It once again began to churn with incomparable intensity, as if it wanted to shatter the entire world. give

It was a pity that they could not see anything as they once again pushed their minds to the extreme, wanting to investigate the situation within the battle circle. However, the powerful shock wave that followed along with it immediately dispersed everyone's minds.

No one knew anything about the situation in the deeper parts of the battle. can

Even so, everyone was still in high spirits, their eyes unblinking as they stared at the horizon, carefully capturing every single movement that came from that direction.

"Elder Gu, is this all you've got?"

In the middle of the circle of battle, Tang Huan laughed out loud, and the "Primal Chaos Source Crystal" smashed outwards with a thunder-like speed. Compared to the massive creature that was over a hundred thousand meters tall, Gu Daozi was like a grain of sand in the desert, minuscule to the extreme, as if he could shatter it in an instant.

"Tang Huan, don't be so arrogant, this is only the beginning!" vale

The Dao resounded like a thunderclap.

Almost at the same time his voice came out, a ball of dark blue colored aura sprayed out from his body in all directions with him as the center. In an instant, it transformed into a crystal clear dark blue ball and Pang Shuo actually reached the extreme; This

As soon as the dark blue ball took shape, it began to smash towards the 'chaos origin crystal' at high speed.

"Bam!" wink

Before they even had time to react, the two enormous objects clashed against each other at a lightning speed. Terrifying sound waves accompanied by powerful Strength Qi swept across the sky and earth, instantly dispersing the dust and sand that filled the surrounding space, allowing the entire central area of the battle circle to return to clarity.

"Huuuuu ~ ~ ~"

After frequent and fierce collisions, both the dark blue ball and the Primal Chaos Source Crystal separated at almost the same time. The two massive objects flew backwards at an astonishing speed. Don

Just as Huanhuan was about to use the chaos origin crystal to collide with him, his figure suddenly disappeared from where he stood. Actually, he did not intend to stop it from retreating. In the blink of an eye, the chaos origin crystal whizzed past where he was standing before. No

After that, although Tang Huan did not take action to retrieve the "Primal Chaos Source Crystal", the enormous object, in the process of retreating, began to contract rapidly. And after the flick of a finger, Tang Huan's figure appeared in front of the dark blue ball without any warning.

Elder Gu, the cave you refined is not bad, but it's a pity that it's a little small! " Tang Huan's lips curled up into a smile, and the "Pure Yang Divine Sword" appeared in her hand.

"Swish!"

In the blink of an eye, a gigantic sword ray infused with monstrous sword intent hacked down towards the dark blue ball. In the midst of a shrill screeching sound, the space in front of them seemed to have been cut into two halves.

"Tang Huan, although this old man's cave is small, it is not something you can go up against!"

"At the same time that Gu Daozi's cold laughter came out from the dark blue ball, the surface of the ball gave rise to a strange fluctuation, and immediately, the dark blue ball split open and absorbed Tang Huan's sword light, and then started to fluctuate intensely once again, and the ball returned to its original state."

"Chi!" "Swish ..."

Soon after, an extremely condensed dark blue will shot out from the ball like a water arrow, faster than lightning, followed by a second, then a third ... In less than a breath of time, thousands upon thousands of dark blue water arrows had already appeared, and enveloped Tang Huan like locusts. Don

Huanhuan's eyes narrowed slightly. She waved the longsword in her hand and swept it out. white

The colourful sword light flew over like lightning and cut the blue water arrow at the front into two. However, the water arrow did not dissipate because of this, but continued to fly back at Tang Huan, covering the sky and covering the earth once again.

"Interesting!"

Tang Huan laughed, and the "Pure Yang Divine Sword" in her hand danced quickly, the "Primal Chaos Daoism" spread out from the sword, and in an instant, it was mixed with a boundless sword

intent that rolled forward. From afar, it looked like a thick and unstoppable transparent fire wall, constantly pushing forward. This

Although the speed at which the transparent wall of fire pushed forward wasn't fast, it still released a terrifying, overwhelming, and unstoppable might.

In an instant, the blue water arrows fell on the transparent wall of fire!

There were no deafening sounds, nor was there a berserk Strength Qi ... After the two powerful attacks collided, the world actually fell into a deathly silence. The concentrated sounds of breaking through the air from before also disappeared in an instant, as if it had never happened before. No

After the two collided, a bizarre scene appeared. Then ...

On the transparent wall of fire, countless flames seemed to flash as they tightly twined around the countless blue water arrows that were colliding with them. Under the melting of the flames, the front part of the dark blue water arrows shrunk rapidly, but they did not completely disappear. Instead, a section of them were covered by the flames.

Looking from afar, those flames were like suction cups, absorbing the dark blue water arrows onto the transparent wall of fire.

"Tang Huan, you want to waste my energy?" Within the dark blue ball, Gu Daozi let out a sneer.

"You're right." Don

Huan Huan also smiled. "I'm just curious as to just how long you, a peak Superior Heavenly Sovereign, can last under such strain."

Do you think this old man is as bored as you!? " vale

Dao Zi let out a mocking laugh. The large amount of dark blue balls that had been attached to the wall of fire burst apart at the same time like fireworks.

The ferocious Strength Qi struck the transparent wall of fire layer by layer like raging waves.

"Boom —" Fire.

The wall shook violently. Positive

In the blink of an eye, it had already become the size of a fist. In an instant, it drew out a strange arc, bypassed the wall of fire that had not yet dissipated, and crazily smashed towards Tang Huan, who was behind the wall of fire.

"Hu!" Don

Huan Huan narrowed her eyes slightly. A white stream of light whizzed over from the side, violently colliding with the small jade-blue stream of light. "Boom!" Like two shooting stars colliding with each other, an earth-shattering sound exploded in the area.

"Bang ~ ~ ~"

The two beams of light swiftly retreated. and

What was colliding together with the extremely shrinking dark blue balls was precisely Tang Huan's "Primal Chaos Origin Crystal". At almost the same time, a ball of resplendent fiery red light shot up from within her body like lightning.

After a fierce collision, the dark blue ball and the chaos source crystal retreated once more. also

Right at that moment, the fiery red light suddenly descended from the sky like a bolt of lightning, instantly covering the dark blue ball.

"Magic tool?" Gu Daozi's surprised voice sounded.

"That's right!" Don

Huan Huan squinted her eyes and laughed, that ball of blazing red light also revealed its true color. It was Tang Huan's "Nine Yang Divine Furnace." That jade blue water ball was currently being surrounded by the "Nine Yang Divine Furnace."

With Tang Huan's current cultivation level, she could definitely utilize the Artifact in broad daylight. There was no need to hide anything like before.

"How is this possible? How did you manage to get a magic tool? " Gu Daozi was clearly in disbelief.

"Elder Gu, there are a lot of things that you don't know."

Tang Huan smiled and reached out to grab the ball. The "Nine Yang Divine Furnace" spun around and appeared in front of Tang Huan, and through the mouth of the furnace, she could clearly see the ball of dark blue water ball crazily rushing left and right. The cauldron that was trying to escape from the shackles of the cauldron also began to shake violently.

"Tang Huan, it's too early for you to be complacent!"

Gu Daozi angrily roared, "If you have already proven your dao, then I will definitely die if you use this magic tool. But you are now an Emphyrean, so even if you have a magic tool, what can you do?"
Speak

The moment the voice fell, the dark blue ball within the "Nine Yang Divine Furnace" suddenly expanded rapidly.

"Hmm?" Don

Huanmei slightly raised his eyebrows, his pupils shrank, and he couldn't help but let out a low cry. However, the instant his voice sounded, a loud sound that caused one's mind to abruptly explode out.

Bang!

Within the "Nine Yang Divine Furnace", the dark blue ball suddenly exploded.

At this moment, it was as if countless volcanoes had erupted at the same time, and an extremely terrifying energy continued to surge out with an irresistible force. The "Nine Yang Divine Furnace" immediately shook violently, as if it was going to collapse and disappear in the next moment. Don

As if he was hit hard, his body swayed and his face turned slightly pale. instantaneous

After the time it took to take a breath, the furnace could no longer hold on. A peerlessly powerful force came roaring out from the furnace's mouth. "At almost the same time, a figure shot out from the cauldron under the cover of the energy. In half a blink of an eye, he disappeared from the sky."

You just ran away like that? " Don

Huanhuan's brows slightly furrowed, but she did not give chase. After a long while, the trembling cauldron finally regained its calm.

Chapter 2234

Taking a deep breath, Tang Huan extended her hand out, and the cauldron floated into her palm.

Just now, although he had used the "Nine Yang Divine Furnace" to seal Gu Daozi inside, he did not think that he would be able to get rid of him immediately. But what he did not expect was that Gu Daozi was so decisive, the moment he realized the situation was not good, he immediately ignited his own cave abode.

The reason why the Ascendant formed his estate was so that he could verify the Dao of the Gods.

If the estate was detonated, all of the effort he had spent over the course of countless years would be in vain. In the future, if Gu Daozi wanted to reach the Divine Level, he would have to refine his cave abode again. And that would take a long time... With Gu Daozi's current lifespan, it was not known whether he would be able to last until the day the cave was formed.

However, the explosion had indeed caused Gu Daozi to immediately emerge from the cauldron.

Even if the interior space of a cave was small, once it exploded, the power that would burst out would be extremely terrifying. Even if Tang Huan was already a peak Superior Heavenly Sovereign, as long as she did not confirm her dao, it would be impossible for him to trap Gu Daozi, who was already in this kind of situation.

Fortunately, the "Nine Yang Divine Furnace" that trapped Gu Daozi was a magical equipment, otherwise, the cauldron would have long since vanished into thin air.

It was just that although the furnace was able to withstand the terrifying power that erupted from the cave and was not harmed, the extremely powerful impact caused Tang Huan's soul who was connected to it to experience an intense shock, as she was in a daze for a moment, and was allowed to escape by Gu Daozi.

At this moment, even though the trembling of Tang Huan's soul had disappeared, she still felt a strong sense of dizziness.

With Tang Huan's current condition, even if she caught up to Gu Daozi, it would be difficult for him to keep him. The monk could not run away from the temple, and the Clear Void Dao Pavilion was there. For now, let him go, there would be plenty of opportunities to deal with him slowly in the future.

Fortunately, Tang Huan's cultivation had advanced greatly in the Immortal Spirit Ancestral Court. If she was still an Inferior Sky Sovereign, her soul would have probably collapsed from the impact. Of course, if Tang Huan was only an Inferior Sky Sovereign, she would not be able to trap Gu Daozi, and Gu Daozi would not be able to detonate his cave and escape.

Tang Huan sneered and put away her "Nine Yang Divine Furnace", "Primal Chaos Origin Crystal" and "Pure Yang Divine Sword". She closed her eyes slightly, activated her Dantian Soul and slowly eliminated the discomfort in her soul.

Thousands of miles away, all the Sky Sovereigns were trembling with fear.

With their strength, they were naturally able to sense the situation within the depths of the battle circle. However, the results of their investigations caused all of them to be dumbstruck.

The fact that Tang Huan was able to come out of the Immortal Spirit Ancestral Court and take Gu Daozi's place, becoming the number one on the revered list, her strength could be imagined.

Everyone was not surprised that he was on par with Gu Daozi, but at the last moment, Tang Huan actually activated her spirit weapon, trapping Gu Daozi within. Everyone was shocked, not only did Tang Huan, an Sky Sovereign, have a spirit weapon, he could even use one, this was completely unheard-of.

It had to be known that magical equipment was a weapon that only Divine Realm experts could use. Ordinary Empyreans would not be able to use its power, not to mention using it to seal off a peak Superior Empyrean with a strength comparable to their own. However, not only did Tang Huan manage to do it, it even seemed rather easy.

If it was just this alone, it would have been fine.

But then, what shocked all the Empyreans was that Gu Daozi had actually escaped from that magic tool. And the method he had escaped from was to ignite the cave he had spent countless years refining ... He was even willing to detonate his immortal cave. Was that magical artifact really that powerful?

Right now, Gu Daozi had disappeared without a trace, and Tang Huan stood unmoving in the middle of the circle of battle. However, it was more likely to be the former, if Tang Huan suffered from a heavy injury when the cave was detonated, Gu Daozi would not be able to escape.

With his temperament, he would definitely blast Tang Huan into smithereens.

This result greatly exceeded everyone's expectations.

Initially, everyone thought that the battle would last for a long time, but Tang Huan and Gu Daozi would both be injured, but this time, the fight ended in a short amount of time, and it ended with Gu Daozi escaping. As for Tang Huan, even if she was injured, her injuries were probably not serious.

In that moment, many of the Sky Sovereign's expression changed, as different emotions filled their hearts. Tang Huan, such a young age, was actually able to become the strongest warrior in the Heaven Realm.

Compared to the others, Yuan Chao and Wei Xuanji's faces were full of uncertainty as fear and dread flashed between their brows.

The Clear Void Dao Pavilion had deep enmity with Tang Huan, even if they had reconciled once, they would still wish that they could kill Tang Huan quickly. Initially, she thought that after leaving the Immortal Spirit Ancestral Court, doing this much would not be difficult. With Gu Daozi's shocking strength, it would be easy for him to deal with Tang Huan.

But who would have thought that after going in and out of the Immortal Spirit Ancestral Court, Tang Huan's strength had risen dramatically, to the point that it had even surpassed Gu Daozi's.

At that point, even if the Clear Void Dao Pavilion did not pursue what Tang Huan had done that year, Tang Huan would not let them go. Right now, the number one ranker Gu Daozi had escaped, and the two of them were weaker than him, how could they be a match for Tang Huan?

"Let's go!"

Yuan Chao gritted his teeth as he let out a low cry. In an instant, he had already disappeared into the dusty and hazy sky. When Wei Xuanji saw this, his heart trembled slightly as he hurriedly followed. As soon as the two left, the nearby black cicada was jolted awake and immediately transformed into a black ray of light, disappearing without a trace.

As the surrounding Empyreans felt the three of them, they all felt a bit of sympathy for them. The incident when the Beidou Immortal Sect chased Tang Huan and searched for her traces in the Clear Void Dao Pavilion caused an uproar in the entire Heaven Realm. Now that Tang Huan had become the strongest warrior in the Heaven Realm, they would probably not forgive the Beidou Immortal Sect and the Clear Void Dao Pavilion.

The power of annihilation.

Although their enmity with Tang Huan wasn't as deep as Yuan Chao's and Gu Daozi's, they had also once coveted for Tang Huan, and had even visited the peak of the Crimson Sky Kingdom's Nine Palaces. If Tang Huan took revenge on them, their fates wouldn't be good either.

On the other hand, Liu Li, Qin Xian Ye, and Ji Qingtian were in a relaxed state. Initially, they were still a little worried that Tang Huan would lose, but they did not expect him to win so quickly. With Tang Huan's current strength, there was probably no one in the entire Heaven Realm who could threaten him. This also allowed everyone to completely relax. Just now, they had also realized that Yuan Chao and the others were trying to escape, but they didn't stop them.

Obstruct.

After all, how to deal with Yuan Chao and the rest would depend on Tang Huan's decision. After a short moment, Liu Li and the others turned into streaks of light and shot towards the depths of the battle circle as fast as lightning. In an instant, their figures had already left their line of sight ...

Chapter 2235

The massive Immortal Spirit Ancestral City had disappeared. The mountains and peaks that had originally risen from the ground had also disappeared. The area with a radius of thousands of miles had been razed to the ground.

A black figure sat on the ground below the entrance of the Immortal's Ancestral Spirit House, looking like a sculpture. It was Tang Huan.

"Whoosh."

Tang Huan slowly opened her eyes, a smile emerging on her face, seven days had passed since the great battle between him and Gu Daozi.

In seven days, Tang Huan's soul finally fully recovered.

"Let's first make a trip to the 'Clear Void Dao Pavilion' and then use the 'Blood Refinement Heart Canon' to deduce the situation. As for the 'Blackcicada' of the Northern Dipper Immortal Sect, I can ask Elder Sister Liu Li to help."

Tang Huan laughed, he stood up and in the next moment, the smile on his face froze.

"How could this be?" As he whispered, a hint of unconcealable shock surfaced in Tang Huan's eyes.

"Whoosh!" "Woosh ~ ~ ~"

Amidst a barely audible piercing sound, three figures shot out from different directions and appeared in front of Tang Huan at about the same time. They were none other than Liu Li, Qin Xian Ye and Ji Qingtian. At this moment, the three of them had expressions of deep shock on their faces.

In the past few days, they had stayed nearby. One was to protect Tang Huan, and the other was to ponder over the treasures they had obtained after passing the test in the Immortal Spirit Ancestral Court.

But now, they had arrived at the same time.

Tang Huan, Liu Li and the others quickly exchanged glances, and then fell into silence. In the last few years, these four Sky Sovereigns had all felt the honorary list at almost the same time.

After a short seven days, the Heavenly Dao had once again taken the initiative to reveal its name list. Tang Huan took Gu Daozi's place and ascended to the top of the honored list. Now, seven days later, the honored list appeared again, and Tang Huan's name was still at the top of the list. However, the words "Gu Daozi", who was previously ranked second on the honored list, had disappeared. If, however, it was only a matter of Gu Daozi who disappeared

One person was fine, but the weird thing was, the names Yuan Chao and Wei Xuanji also disappeared along with Gu Daozi.

In just seven short days, the three great Emphyreans had been removed from the rankings.

And there were only three possibilities for an Emphyrean to be removed from the Honorable Ranking: first, to successfully prove the Divine Throne; second, to destroy the soul; and third, to plummet to become an Emphyrean.

The first method was definitely impossible. If it wasn't for the great battle seven days ago, Gu Daozi would have been the most likely Sky Sovereign to succeed in establishing his Dao. However, after exploding his cave abode, he definitely wouldn't be able to break through to the Divine Realm in a short period of time. Furthermore, it wasn't just Gu Daozi who had disappeared, Yuan Chao and Wei Xuanji were also missing.

Dao Divinity. Second, the possibility of Gu Daozi being ranked second, Yuan Chao being ranked fifth, and Wei Xuan being ranked eighteenth, in the current Heaven Realm, who could kill them all at the same time? Of course, there was also the possibility of them being captured one by one and then killed together. However, it was possible to capture Gu Daozi.

Yuan Chao's men were all gathered here, while Tang Huan, Qin Xian Ye and Ji Qingtian hadn't even taken half a step out of this area in the past few days.

As for the third method, it was basically impossible. It was still possible for one person's cultivation to plummet, but for the three of them to fall below an Emphyrean at the same time, that was definitely impossible.

All three possibilities would appear, but the name of the three Ascendants from the Clear Void Dao Pavilion would disappear.

This matter was simply too inconceivable.

Not only was Tang Huan unable to figure out the reason, even Liu Li, Qin Xian Ye and Ji Qingtian couldn't think of it.

"Little brother Tang Huan, was Gu Daozi injured when he escaped?"

After a long while, Liu Li finally spoke. Tang Huan frowned slightly, shook his head and said, "When Gu Daozi detonated the cave that was connected to his mind, his soul must have suffered serious injuries. However, other than that, he should not have suffered any other injuries." Speaking to here, Tang Huan said with even more suspicion, "With his cultivation, even if his soul is injured, other than us, the rest of the Heaven Realm ...

Furthermore, there are two Emphyreans, Yuan Chao and Wei Xuanji, who helped him! "

Liu Li, Qin Xian Ye, and Ji Qing Tian looked at each other. The entire area fell into silence once again.

"Are the Sky Sovereigns of the Heaven Realm really only those on the revered list?" After a long while, Tang Huan seemed to have sensed something and suddenly said.

"It should be... "Right!"

Liu Li didn't expect Tang Huan to ask such a question. She was stunned for a moment before nodding her head.

"Have you heard of Empyrean Flamephoenix?" Tang Huan suddenly said.

"Empyrean Flamephoenix?"

Hearing this, the three people couldn't help but be startled. Instantly, Qin Xian Ye spoke out: "I've heard of this Empyrean Flamephoenix. It was said that she was ranked very high on the list, but she seemed to have been severely injured by someone and her whereabouts were unknown, and I no longer saw her name on the list.

"Xu Guoliang has long been annihilated."

"No, she is not dead."

Tang Huan couldn't help but shake her head, "She has always been alive, and has countless of clones. When I was in the lower Heaven Realm, I killed one of her clones ..."

His voice paused for a bit, then Tang Huan slowly said, "If he absorbed and refined all of the clones, not only would Hierarch Fire Phoenix's strength recover, it would also become even stronger. It might even surpass Gu Daozi's ... However, there was no new name on the leaderboard just now. "

"Therefore, I am not sure if she has recovered by now."

The existence of the Empyrean Flaming Phoenix was a great threat to Tang Huan.

However, Tang Huan didn't even know where the true body of the Heavenly Elder Huo Feng was in the past, so it was impossible for him to do anything to her. Right now, if Feng Ming was by his side, Tang Huan might be able to deduce the position of Empyrean Flamephoenix's true body through her bloodline, and make an accurate judgement.

"I didn't expect that she was still alive."

Hearing Tang Huan's words, Qin Xian Ye couldn't help but exclaim in surprise, while a hint of surprise appeared between Liu Li's and Ji Qingtian's brows.

"A cultivator with strength not inferior to an Empyrean. Before the Divine level is verified, there is only one situation where it is not listed on the revered list." After a moment, Qin Xian Ye muttered, "That is to condense more than nine divine crystals, and that is basically impossible. An ordinary Empyrean would be able to reach the Divine Level just by possessing a single Divine Crystal. An Empyrean with nine Divine Crystals or more would have long since proven themselves to be an Empyrean and would no longer stay in the Heaven Realm.

"

"Nine divine crystals?"

Tang Huan was stunned upon hearing this. She seemed to be muttering to herself, but also asking Liu Li and the rest, "If the original body of the Empyrean Flamephoenix absorbs all the embodiment, would it be able to possess nine divine crystals?" Liu Li was stunned as she said, "Little brother Tang Huan, do you think that Empyrean Fire Phoenix killed Gu Daozi, Yuan Chao and Wei Xuanji?"

Chapter 2236

"Not really."

Tang Huan shook her head and laughed, "I just suspect that in the current Heaven Realm, there are people with strength stronger than Gu Daozi who have not been listed on the revered list."

For example, the Flamephoenix Elder. If she were to fuse all of her embodiment, her strength would definitely surpass Gu Daozi's by no means.

And also that Heavenly Sovereign expert from the Tian Clan ...

When he was in Forging God Great World, Tang Huan had destroyed one of his clones that had descended, but his main body was definitely still alive and well. However, on the ranking board, no matter if it was before they entered the ancestral courtyard or after they came out, there was not a single name that matched his name.

In addition, there was also the Great Sky Sovereign, who was also one of the strongest existences in Heaven Realm.

However, by the time Tang Huan had made it onto the list, his name was no longer on the list. Tang Huan had once asked around, the time when the Great Heavenly Sovereign was removed from the list was long before he went on the tribulation to ascend to the heavens, and the Great Heavenly Sovereign had not succeeded in proving the dao god position either.

As such, all the cultivators of the upper nine heavens felt that the Great Hierarch Hannya had already died in the process of breaking through to the Divine Realm.

However, Tang Huan did not think so.

The moment he had comprehended the Great Wisdom Wall and achieved a breakthrough in his cultivation, Tang Huan had a faint feeling that the Great Heavenly Sovereign was still alive, and that he existed somewhere in the Heaven Realm.

At that time, Tang Huan thought that it was natural.

However, Tang Huan felt that it was a little strange after she did not see the Great Heavenly Sovereign's name on the list. An Heavenly Sovereign did not prove that he was a divine being, nor did he die, and his name did not appear on the list! However, even though she felt that it was a bit inconceivable, Tang Huan did not reveal her feeling.

When Liu Li and Ye Qingtian heard this, they looked at each other, bewildered. A moment later, Qin Xian Ye frowned and said slowly, "The Supreme Realm cultivator at the peak of the Sky Sovereign Realm was neither able to succeed nor fail in proving the Divine Path ... This kind of cultivator could not be considered a Divine level expert, nor could they be considered an Emphyrean. They already possessed the ability to transcend the Heavenly Dao, yet ...

I can't leave this world. "Of course, the probability of this happening is very low. Either it fails or it succeeds."

Liu Li also nodded. "If an Sky Sovereign wants to successfully verify his dao, he will need to condense ten divine crystals. I once heard that when an Emphyrean tried to break through to the Divine Level, they successfully condensed the first nine Divine Crystals. However, there was a problem when condensing the tenth Divine Crystal, so they were unable to do their best. "

"However, although I haven't become a true Divine level expert, with nine divine crystals, I can survive even if I fail to prove my dao. This kind of expert is called a 'demigod'. His strength has surpassed the limits of an Empyrean and his name will not continue to exist on the 'Honorable Ranking'. "

"SemiGod ..."

Tang Huan's eyes flashed, and two words came out of her mouth. From the looks of it, it was very likely that both the Great Sky Sovereign and the Tian Clan's Sky Sovereign were SemiGods.

Liu Li looked at Tang Huan and asked thoughtfully: "Little brother Tang Huan, could it be that you suspect that a demigod killed Gu Daozi and the rest?"

"It's possible, but right now, it's hard to say."

Tang Huan laughed, then shook her head and said: "Gu Daozi and the rest can die, let's not care about that anymore!" Although she said that, at the bottom of Tang Huan's heart, she still had a faint premonition that something bad was going to happen. However, for some reason, he couldn't quite put her finger on it.

With a quick thought, Tang Huan could no longer be bothered to think about it, and asked curiously: "Sister Liu Li, before you left the 'Immortal Spirit Ancestral Court', what kind of treasures did you guys obtain?"

Liu Li, Qin Xian Ye, and Ji Qing Tian couldn't help but smile at each other when they heard this.

In the next moment, Liu Li opened her mouth and said, "What the three of us have obtained is 'Spiritual Communication Source Energy ', a type of source energy that can be used to condense the cave dwelling. However, Elder Ji and I only got one strand of the 'Divine Energy', while the Immortal Leaf reached a higher location, gaining two strands of the 'Divine Energy'. "

His voice slightly paused, and Liu Li asked with some curiosity: "Little Brother Tang Huan, what did you get at the summit of the mountain?" Qin Xian Ye and Ji Qingtian's gaze also landed on Tang

Huan's face at almost the same time. Not only the two of them were extremely curious as to whether Tang Huan had truly obtained a treasure that could help him prove the existence of the Divine Throne, the other Emphyreans, who had already dispersed, were also extremely curious. It was just that they did not have the chance to ask about it.

Forget it.

"It's a 'Soul Confirming Orb'!"

Tang Huan smiled, she did not hide the truth.

As he spoke, a round bead appeared in his hand. It was about the size of an egg and was crystal clear, almost transparent. The moment this bead appeared, a mysterious and marvelous aura gently rippled out. Even Liu Li and the others felt their souls tremble.

This was the harvest that Tang Huan had gained from the peak of the mountain after passing the "Celestial Sect of Ancestral Immortals" test.

After the ball of white light drilled into Tang Huan's body, it quickly withdrew, leaving only this crystal clear jade pearl, and the moment she obtained it, information regarding it appeared in Tang Huan's mind. It was because of this that Tang Huan knew its name.

"Divine Confirmation Spell Pearl?"

After being stunned for a short moment, Liu Li, Qin Xian Ye, and Ji Qingtian could not help but secretly inhale. Shock appeared on their faces in the blink of an eye.

"I never thought that such a legendary treasure would actually exist!" In the next moment, Liu Li couldn't help but exclaim out loud.

"Rumor has it that when one breaks through to the Divine Level, this 'Inscription Pearl' can reduce the time it takes to condense a Divine Crystal by half. With such a treasure in hand, the chances of successfully proving a Divine Level will greatly increase."

Qin Xian Ye also sighed, an envious expression appearing in his eyes.

This was indeed a supreme treasure that could help to corroborate the dao of the gods.

Once he left the Immortal Spirit Ancestral Court, Gu Daozi immediately took action on Tang Huan. His main goal should be to snatch the treasure that Tang Huan had just obtained. Unfortunately, he was not Tang Huan's match, and in the end, not only did he not succeed, he even activated the cave he had painstakingly cultivated.

It was also fortunate that Tang Huan was ranked at the top, with powerful strength. If not, even without Gu Daozi, there would have been other Emphyreans helping him. Although the Sky Sovereigns did not know that Tang Huan had obtained the "Enchantment Magic Pearl", they had all personally witnessed Tang Huan reaching the summit of the mountain range.

How could the treasures he had acquired at the highest point of the mountain range be inferior to it? Right now, even if it was the entire Heaven Realm knew that Tang Huan possessed the "Incriminating Divine Pearl", no cultivator would dare to covet it. As for plundering it, that was even more impossible, as the example of Gu Daozi was right in front of him, as long as he was not tired of living, no one would do such a thing.

Stupid thing. After all, even if there really was a SemiGod in the Heaven Realm, Tang Huan was still the strongest warrior on the leaderboard!

Chapter 2237

Outside Qu Ah Tian, a fireball suddenly exploded in the midst of the boundless darkness. Dark red flames surged in all directions like a tidal wave, dispersing the thick black color. Not long after, a sea of fire that was thousands of miles in radius appeared in the darkness.

"Clang ..."

A loud and clear cry suddenly resonated out, it was Feng Ming's voice.

In the depths of the sea of fire, there was a prostrated, large phoenix. Its huge wings gently flapped, and its bright red eyes revealed an extremely human-like comfort. However, the flames around it would occasionally churn and churn with the flapping of its wings, setting off massive waves in the sky.

"Just a little more." After a long while, the Flamephoenix opened her mouth slightly and mumbled in a regretful tone, "What a pity, that Gu Daozi's cave was detonated and his power was greatly reduced. Otherwise, if I had swallowed all three of them, I would have been able to achieve the position of a demigod in one go."

"Of course, if Gu Daozi's Immortal's cave is still there, his strength will still be at its peak. If I want to capture him, it won't be that easy."

"Forget it, forget it. I will just delay a little longer anyway!"

"After this sovereign has achieved the position of a half god, go and capture that Tang Huan. This sovereign will definitely obtain his artifact!"

"..."

Tang Huan didn't fly to the Starsky, but instead returned to Crimson Sky Kingdom with Liu Li.

Gu Daozi, Yuan Chao, and Wei Xuanji were all scared out of their wits, three Sky Sovereign Realm experts had fallen, the Clear Void Dao Pavilion's strength had been greatly reduced, and after that, there would probably be many sects who would not let go of this chance to be proud, and took the chance to attack the Clear Void Dao Pavilion, Tang Huan did not even bother to go over to watch the scene.

As for Qin Xian Ye and Ji Qingtian, when they left Qu Ah Tian, they parted ways with Tang Huan and Liu Li. The countless cultivators of the Immortal Spirit Ancestral City had long scattered. The news of Tang Huan being at the top of the revered list and his great battle with Gu Daozi had already swept across the entire first nine days like a storm. Even news of the suspected fall of the three Emptiness Realm Experts, namely Gu Daozi, Yuan Chao and Wei Xuanji, spread like wildfire.

To be able to occupy the top position among the rankings at a mere two to three hundred years of age, Tang Huan could be said to be the first person in history.

The countless cultivators who had received the news in the last nine days were all shaken, and saw Tang Huan as their idol. At the same time, there were also countless cultivators speculating about the cause of death of Gu Daozi and the others.

The three of them weren't weak, Gu Daozi and Yuan Chao were the top ten strongest experts on the leaderboard. Gu Daozi was even ranked first on the rankings, and Yuan Chao was also ranked third.

In the entire Heaven Realm, there was probably not a single person who could do this.

After all, after walking out of the "Immortal Spirit Ancestral Court", Tang Huan and Gu Daozi had clashed once, and in the end, even though Gu Daozi had ignited his own cave dwelling, Tang Huan had not left him behind ... It wasn't that he didn't want to, but that he couldn't.

If it wasn't Tang Huan, then who else could it be? Could it be that Gu Daozi's group wasn't killed?

While all sorts of speculations were being spread, Tang Huan and Liu Li quietly returned to the Crimson Sky Kingdom's Nine Palace Peak. When they left Qu Ah Tian, nine spirits, Little Thing and Ling Tian were also summoned by Tang Huan. The three little fellows stayed in the cave for a long time, they were already bored to death, and on the way, they were extremely happy.

After a few more days, in a hall on the mountain peak, Tang Huan quietly sat down cross legged. After a while, she calmed her heart and focused and activated the "Blood Refinement Heart Canon".

"Hualala ~ ~ ~"

A huge sound came out from Tang Huan's body like a clap of thunder.

After a split second, a faint golden aura roared out from Tang Huan's body. It was earth-shattering and vast, and in an instant, it had engulfed his body and filled the entire palace.

Compared to when he had used the "Blood Refinement Heart Canon" back then, it was unknown how much stronger the power of Tang Huan's bloodline was. However, although the power of her bloodline had grown stronger, the golden luster of her bloodline had gradually faded. Tang Huan knew the reason behind this. After cultivating on the Immortal Spirit Ancestral Peak for so many years, after refining countless amounts of origin energy of Primal Chaos and Immortal Spirit energy, his main body and Immortal Body clone had already ...

It started to gradually fuse together, and now, even though it hadn't fused into one, its body was already slowly transforming.

The bloodline transformation was only one of them!

As Tang Huan continued her cultivation, the golden lustre of her bloodline would become increasingly faint. When her main body and her Immortal body completely fused together, her color would probably become like that of the Immortal Spirit Ancestral Peak.

Without a care in the world, Tang Huan waved his fingers, dragging out a string of afterimages. Pale golden blood flowed out of his fingers like threads and continuously seeped out from his fingers, condensing into a series of imprints, and scattered like a fairy.

"Phew!" "Whooosh."

As the imprints fused into his body, the light golden ocean started to churn violently. Unknowingly, the palace seemed to have turned into a huge pot, and the dense light golden Qi seemed to have turned into hot water within the pot, churning, churning, and boiling to the extreme.

"Bloodline is the guide, the spirit soul is drawn, now —"

In the midst of his shout, the light golden aura rapidly contracted.

In a blink of an eye, the palace recovered its clarity. Tang Huan's body revealed itself once again, and a faint golden figure appeared in front of him.

"Phew!" "Huff ..."

Within palace, the sound of something tearing through the air rose and fell.

Before long, the blood shadow that was pointing towards his mother, Ji Ruyi, appeared. Tang Huan's slightly closed eyes suddenly snapped open as the three divine crystals, the billions of dao crystals and the "Nine Yang Divine Furnace" began to circulate frantically. His enormous consciousness followed the blood shadow and blended into the northern side of the sky.

In this instant, Tang Huan's mind was already connected to the Heavenly Dao, attaching itself to the subconscious connection between blood vessels, so as to swiftly spread between heaven and earth.

Upper Heaven Realm, Middle Heaven Realm, Lower Heaven Realm ...

It was unknown when, but Tang Huan's eyes had already closed once again. In the blink of an eye, yet another ten million years seemed to have passed. Tang Huan's mind seemed to have followed that feeling and arrived at the lower realms.

At this point, the blood vessel was still there, but Tang Huan was no longer able to pinpoint its exact location.

"It really is the kind of space that elder sister Liu Li and the rest are talking about!"

As if he had just awoken from a dream, Tang Huan let out a light sigh as he slowly opened his eyes. The faces of Liu Li, Nine Spirits, Little Thing and Ling Tian immediately entered his vision and they sat cross-legged on the opposite side of the mountain.

"You're finally awake." Seeing Tang Huan open her eyes, Liu Li and the others all heaved a sigh of relief.

"Big brother, you scared us to death. This time, you spent nearly ten years to calculate it!"

Chapter 2238

It felt like it happened in the blink of an eye, but it seemed like ten years had passed.

However, to Tang Huan, spending such a long time on deductions was completely worth it, because he had already found the exact location of her mother, Ji Ru Mubai.

What Tang Huan was about to do, was extremely simple.

The first was to descend upon the lower realms, while the second was to corroborate with the Dao.

However, it was not easy to accomplish these two things.

There were only one or two people who had managed to prove themselves as gods in the past tens of thousands of years. The difficulty level was so high that it could be easily imagined, even if Tang Huan had the "God Reaping Orb", it was still not an easy feat. Of course, compared to others, Tang Huan had an advantage. He already possessed three divine crystals.

Furthermore, with Tang Huan's condition, if she were to continue to cultivate the "Creation Divine Arts", the number of divine crystals would continue to increase.

If Tang Huan were to condense her own Divine Crystals to nine, the chances of failure would be very small. However, to condense another six godgems wasn't something which could be accomplished in a short period of time. It might take decades, or even hundreds of years.

As for descending to the lower realms, that was extremely difficult.

Under normal circumstances, even if one could descend, one would only fall out of a clone or embodiment, and the possibility of their true body descending was close to zero. Even if his main body succeeds, his own strength would be greatly suppressed. He probably wouldn't even be able to keep a ten thousandth of his strength in the Heaven Realm.

Until now, Tang Huan had only met a few strong practitioners from the upper realms when she was at the God Forging Stage. One of them was the clone of the Heavenly Sovereign of Tian Clan, who could only hide her soul in the statue of the Tian Clan and could not be left far away. One was the Heavenly King Pan Ji of the Pangu Heaven Sect. He had been sealed by the Cast Divine Dragon Abyss, and only his residual soul remained. One was Hierarch Fire Phoenix's embodiment. Of course, this ...

Tang Huan had never seen the fire phoenix's embodiment before. After all, it only existed in legends, and it had long since left the small world that Tang Huan came from.

In addition, Yan Zu had obviously descended from the Heaven Realm. However, there was a huge difference between him and Pan Ji and the others, and that was that Yan Zu of the lower realms was his main body, and he hadn't been weakened at all. He had once brought Little Thing out of the Forging God Great World and honed him for many years. Tang Huan did not know where he was heading to, and had never asked him about it in detail.

No, but right now, Tang Huan had pretty much guessed that the place he was bringing Little Thing to, was most likely some sort of spatial crack.

In addition, Yan Zu should also be a Deity Tier expert! Otherwise, it would be impossible for him to follow the traces of the Divine Cast Dragon Abyss and leave this plane. They had also descended upon the Forging God Great World before. Of course, at that time, they would already be Divine Inheritors.

"Little Thing, did the Yan Ancestor tell you back then how he returned to the Forging God Great World from the Heaven Realm?"

However, within the palace, other than Tang Huan, the only other person who could be called over was Little Thing.

"Let me think about it..."

Little Thing tilted his head and racked her brains to recall this scene, before finally shaking his head in frustration, "Big bro, Yan Zu didn't seem to have mentioned it before." In an instant, the little girl's delicate and pretty face was filled with curiosity, "Big brother, you want to go back to Forging God Great World?"

At the end, both of her eyes were shining.

She had also come up from the Forging God Great World, and now that she felt that Tang Huan might want to return to the Forging God Great World, she couldn't help but be restless as well.

"To the lower realms, not to Forging God Great World."

Tang Huan laughed, and upon hearing his reply, Little Thing became a little dejected, and immediately changed the topic, adding, "Of course, since we have gone to the lower realm, if circumstances allow, we would definitely go to Forging God Great World to take a look, since that place also has our home."

"Great. Big brother, bring me along. " Little Thing was immediately beaming with joy.

"And me, and me ..." A clear and melodious shout rang out as Jiu Ling swiftly ran in. "Big brother, don't leave me here alone."

"Big brother, I want to go as well." He followed the nine spirits into the palace.

"I can't guarantee that." Tang Huan couldn't help but laugh when he saw Little Thing and the other two looking at him anxiously, "If you want to descend into the lower realms, you will definitely be restricted by the heavens. This is different from entering the 'Immortal Spirit Ancestral Court'. If you go to the lower realms, even if you hide in your immortal cave, you won't be able to hide from the senses of the Heavenly Dao. one

It would be extremely difficult for a single person to travel from the Heaven Realm to the lower realms, and the possibility of success would be even slimmer if they were to bring three people with them. "

Hearing that, Little Thing, Jiu Ling and Ling Tian became gloomy, but, they all knew that Tang Huan was speaking the truth.

If it was that easy to come to the lower realms, there would probably be people who would slip away within a few days. As a result, the lower realms would already be filled with Heaven Realm experts.

"Don't be disappointed either."

Seeing that, Tang Huan laughed again: We don't even know how to go to the lower realms, it's still too far to think about it. Tang Huan's plan to go to the lower realms was not to use clones or embodiment, but to descend using the main body. Furthermore, she had to maintain her own strength at her peak, otherwise, it would be useless if he went. Only clones, embodiment or people with greatly reduced strength would not be able to enter that place ...

interlaced.

Liu Li should be aware of the methods of the doppelgänger and the embodiment Descent, but she probably wouldn't know of the main body's descent.

If there really was no other way, then he would have to wait until he could prove his dao. After all, a Divine Realm expert could completely break the stable space barrier between the Heaven Realm and the Lower Realm. However, Tang Huan would probably have to wait for a long time before she could step into the supreme realm.

Little Thing, Jiu Ling and Ling Tian were also aware of this, and as such, felt helpless.

But right after, Little Thing seemed to have thought of something, he suddenly clapped his hands together, and shouted with a face full of joy, "Yiya, Big Brother, I ... I remember now. Dragon Ancestor once told me that when he went to the lower realms, he did not seem to have testified against the divine dao! "

"Oh?" Tang Huan's eyes moved slightly, the nine spirits and Ling Tian's four gazes also landed on Little Thing's body, their expressions filled with anticipation.

"Let me think, let me think ..." Under the watch of the three, Little Thing started to frown as she paced back and forth in the palace. From time to time, she scratched her ears and cheeks, and from time to time, she would place a finger on her lips and suck on it.

Time passed bit by bit.

Tang Huan did not urge his, and waited quietly. On the other hand, Jiu Ling could not hold himself back for a few times, and wanted to ask about it, but was stopped by the look in Tang Huan's eyes.

"Ha... "Haha ..."

Then, his eyes became like crescent moons as he laughed, "Big bro, I finally remembered it. Yan Zu mentioned to me that he seemed to have entered the lower realms from a place called 'Ruins of Immortality' back then."

"Ruins of Immortality?"

Tang Huan, Jiu Ling and Little Thing looked at each other in dismay before asking, "Where is the Ruins of Immortality?"

"Big brother, I don't know either." Little Thing's smiling face froze, and he stuttered, "Yan Zu didn't say anything."

"Should we ask Sister Liu Li?" The nine spirit eyeball turned and suggested. This kind of question, could only be asked by Liu Li. After all, they were well-informed, and even if all of them added up, they would not be able to compare to Liu Li who had lived for countless years.

"..."

"Ruins of Immortality?" I've never heard of it either! "

Not long after, Liu Li shook her head in confusion within the palace on the summit, "Little Thing, is there really such a place in the Heaven Realm? Could it be that you remembered wrongly? "

"Absolutely not!"

Little Thing shook her head without any hesitation, and then nodded fiercely, "There will definitely be one in the 'Ruins of Immortality'!"

She hadn't thought about it before, but now that she remembered it, it was impossible for her to be wrong. This bit of confidence was something she had, and she didn't doubt Yan Zu's words at all. Even though she hadn't been with Yan Zu for long, she had long since regarded him as her own kin.

Furthermore, there was no need for Yan Zu to lie to him.

Now, the only thing to worry about was whether or not the "Ruins of Immortality" that Yan Zu mentioned had disappeared. After all, Yan Zu had left the Heaven Realm for a long time.

"If that's the case..."

Seeing how determined Little Thing's reply was, Liu Li couldn't help but nod his head, "Then I'll ask Immortal Leaf and Elder Ji now, see if they have heard of it."

Qin Xian Ye and Ji Qingtian were both at the peak of the Upper Sky Realm, and they had lived for a long time.

As she finished speaking, Liu Li thought of something and a white jade piece that was as thin as a cicada's wing appeared in her hand. She immediately took action. Not long afterwards, Liu Li's

communication device received a response from Immortal Qin Ye and Ji Qingtian. "Neither of them have heard of 'Ruins of Immortality'."

"This is troublesome."

Tang Huan frowned slightly. This had indeed exceeded Tang Huan's expectations.

He originally thought that with Liu Li, Qin Xian Ye, and Ji Qingtian's knowledge, even if they didn't know the location of the 'Ruins of Immortality', they would have heard of this place. Therefore, Tang Huan was not surprised that he could obtain some information regarding the "Ruins of Immortality" from them, he never expected that they had never heard of it.

But, upon thinking about it, Tang Huan felt relieved.

The Heaven Realm was vast and limitless. Even super experts like the Cast Divine Dragon Abyss and Nine-colored Clouds, who had corroborated Divine Places, didn't dare say that they knew all the secrets of the Heaven Realm like their own hands. Even though Liu Li, Qin Xian Ye, and Ji Qingtian were quite strong and old, they couldn't possibly know everything in the world.

Even if Liu Li and the others did not know, it would not be meaningful to ask the other Empyreans in the Heaven Realm. Little brother Tang Huan, I know a bit about the method of using a clone or embodiment to descend to the lower realms. Although it is extremely difficult to suppress your strength, with your current cultivation, it isn't too difficult to achieve it. But, with the descent of his main body, and not just that, but power that wouldn't be suppressed at all ... Except for what you call the Ancestral Flame.

Other than them, we have yet to hear of any other Empyrean capable of doing so. " Liu Li helplessly sighed.

She knew what Tang Huan was feeling, so she didn't try to dissuade him.

It was just that Tang Huan's idea, for the time being, was almost impossible to achieve, unless she could find the "Ruins of Immortality" that Little Thing had mentioned.

"Little brother Tang Huan, don't be too impatient." Liu Li paused for a second before continuing to comfort her, "Last time, you could only vaguely sense where your mother was. But this time, you are able to accurately determine her location, this is already a huge improvement. With your cultivation speed, coupled with the "Enchantment Bead" you acquired in the Ancestral Court, I estimate you won't be able to use it ...

How many years will it take for you to successfully become a witness of the gods? At that time, it will be extremely easy for you to head down to the lower realms. "

"Sister Liu Li, I know." Tang Huan relaxed his brows and smiled: "I just want to give it a try first, if there's no other way, then I can only focus on cultivation, then 'Ruins of Immortality'..." As he said till here, Tang Huan's tone suddenly stopped. He seemed to have realized something, his eyes were dull at first, but afterwards, he actually laughed out loud.

Sound.

"Little brother Tang Huan?"

"Big brother?"

Seeing that, Liu Li, Jiu Ling, Little Thing and Ling Tian were all shocked.

"It's fine, it's fine."

Tang Huan waved her hand and sighed with a smile on her face. "I am really dumb, to have actually forgotten such an important thing."

Seeing the puzzled look on Liu Li's face, he hurriedly explained, "When I was in the 'Immortal Spirit Ancestral Court', I saw the entire process of the Immortal World evolving, including the collapse of the Immortal World and the transformation into the Immortal World. As long as I thoroughly understand this process, I will definitely be able to find the location of the 'Ruins of Immortality'. "

"Oh? That is a good idea! "

Liu Li immediately understood what Tang Huan meant, and couldn't help but laugh, "There's no time to lose, Little brother Tang Huan, why don't you start looking for him now."

"That's exactly what I was thinking!"

Tang Huan nodded her head and laughed, then sat cross legged, closed her eyes and calmed her heart and focus.

After a while, the scenes regarding the evolution of the Immortal World appeared in the depths of Tang Huan's soul. Time slowly passed, and with a solemn expression, Tang Huan's body was like a boulder as she remained motionless. His mind was completely immersed in the constantly changing scenes in his mind.

Tang Huan sat there quietly, but the nine spirits, Little Thing and Ling Tian could not sit still anymore.

"Why isn't it enough?" Looking at Tang Huan, the nine spirits said somewhat anxiously.

"It's still early."

"If Little Brother Tang Huan wants to find the 'Ruins of Immortality' during the evolution from the Immortal Realm to the Heaven Realm, not only does it have to be compared horizontally, it also has to be compared vertically. Not to mention that it has only been a short while, ten years from now, it would already be very impressive if there would be results."

"Another ten years?" Hearing that, Jiu Ling, Little Thing and Ling Tian were all dumbfounded.

"Ten years is still short. If things don't go well, it might take twenty to thirty years."

Liu Li said with a smile, "If the three of you can't wait, then go take a good rest. Even if Little Brother Tang Huan found the Ruins of Immortality, not everyone could go there. If you guys are too weak to go to the Ruins of Immortality, don't blame Little Brother Tang Huan for not bringing along the ... "

Before he could even finish saying the word "you", Jiu Ling, Little Thing and Ling Tian had already slipped out of the palace. Seeing this, Liu Li couldn't help but burst out laughing ...

Chapter 2239

During the entire process of the Immortal World's evolution, Tang Huan only needed to pay attention to the changes that occurred after the Immortal World collapsed.

However, after the Immortal World was destroyed and the Heaven Realm formed, the world continued to evolve. Tang Huan not only had to observe every region of the world, she also had to observe the changes that had occurred in every region over the course of time.

The world that Tang Huan needed to observe was not only the Heaven Realm that everyone talked about. Other than the upper nine days, the middle eighteen days, and the thirty-six days below, there were also the Nether Realm, the various dimensional realms, the space within the celestial realm, countless great worlds of the lower realms, and the endless void.

This was an incomparably huge project!

If he was lucky, he would be able to find the Ruins of Immortality very soon. However, if he was unlucky, he might not even be able to find anything after searching the entire world. In that case, his efforts would have been in vain. However, as long as there was hope, Tang Huan was willing to try, even if there was nothing in the end.

Liu Li quietly left the palace, while Tang Huan was completely focused on her task. She did not know how day and night had passed, nor did she know how time had passed.

The figures of Nine Spirits, Little Thing and Ling Tian would appear at the entrance of the palace from time to time, peeking their heads in, and seeing that Tang Huan was still like a statue, they quietly left.

One year, two years ... Five years ... Ten years ...

"Hmm?"

After an unknown amount of time, Tang Huan's heart suddenly moved, her attention focused on a certain place.

At first, it was only a few dozen kilometers in size. However, as time passed, the whirlpool became a large board with a large number of names on it, and reached the terrifying size of several hundred thousand kilometers.

Tang Huan's attention followed the direction of the whirlpool and went back to its source ...

Not long after, Tang Huan understood in her heart, that this whirlpool was actually connected to a mystical space, and that space was also connected to the lower realms.

"Ruins of Immortality!"

These two words seemed to have a conditioned reflex to it.

That mystical space could very well be the Ruins of Immortality, and that massive white vortex embedded in the void was the entrance to the Ruins of Immortality.

While thinking, Tang Huan suddenly opened her eyes, and three faces entered her sight.

Tang Huan's face revealed a smile.

Jiu Ling, Little Thing and Ling Tian ran over to the entrance of the palace once again. In this period of time, although Tang Huan was not focusing on the outside, the three of them could not be hidden from him.

He raised his eyes and looked into the palace. Nine Spirits and the others habitually turned around and left, but after taking one step, the three of them stopped and turned back to look into the hall. Blinking their eyes a few times, they felt like they had woken up from a dream. A smile of pleasant surprise blossomed on their faces.

"Big brother, you're awake!" The nine spirits, Little Thing and Ling Tian cheered as they ran into palace.

"How long have I been here?" Tang Huan laughed.

"Sixteen years ... Six years more than the last deduction! " Jiu Ling couldn't help but roll her eyes before asking curiously, "Big brother, have you found the location of the Ruins of Immortality?"

"I found it. It wasn't a waste of time after all." Tang Huan lamented.

"Really?"

Jiu Ling, Little Thing and Ling Tian looked at each other with pleasant surprise.

Tang Huan nodded slightly, then asked with some doubt: "Oh right, where did Big Sister Liu Li go?" Within the boundaries of Nine Palace Mountain, one would not be able to sense the existence of Liu Li. With Tang Huan's current cultivation level and strength, even if Liu Li were to hide her aura to the extreme, she would still be unable to hide it from Tang Huan's mind.

"He seems to have gone to another Heaven Realm."

Nine Spirits spoke out, and immediately seemed to have thought of something, as he hurriedly replied, "I almost forgot one thing. Brother, a few days ago, Big Sister Liu Li messaged back and said that an Empyrean told me to find a place called the 'Ruins of God'. I just don't know if there's a connection between 'Ruins of Immortality' and 'Ruins of Immortality'? "

"Ruins of God?"

Tang Huan was slightly startled, as the dark void once again flashed past her mind and that incomparably large white whirlpool.

Little Thing nodded as well, and said, "Sister Liu Li should still be searching for information related to the 'Ruins of God'. Brother, do you think that the Ruins of God will be the Ruins of Immortality that Yan Zu mentioned? "

"Very likely."

A clear and melodious voice rang out. Liu Li's figure suddenly appeared at the entrance of the palace, then she leisurely walked in.

"Sister Liu Li, you're back!" Tang Huan stood up, and looked at the smiling pretty face, his heart feeling grateful. While he was looking for the 'Ruins of Immortality', Liu Li had obviously not been idle, and had spent a large amount of time searching the entire Ruins of Immortality for information.

"Coincidentally, I came back this time."

Liu Li's eyes quickly swept across Tang Huan, Jiu Ling and the other two, and said with a light smile, "When you woke up, I had already returned to Nine Palace Mountain at about the same time."

His voice paused slightly, and Liu Li's expression became serious, "Little brother Tang Huan, do you remember that Great Sky Sovereign?"

"Of course I do."

Tang Huan nodded, and said with slight surprise, "'Ruins of Immortality' ... Uh, is the 'Ruins of God' related to Senior Hannya? "

The Heaven Realm's "Great Cloud Wall" was left behind by the Great Heaven Saint Master. Back then, Tang Huan had received great benefits from it, so it was naturally impossible for him to forget its existence so quickly.

"That's right." Liu Li nodded, "Everyone says that Empyrean Hannya and Immortal Leaf are rogue cultivators and have never joined any sect. This is actually a mistake, after entering the Upper Nine Heavens, Empyrean Hannya served as a guest elder in the Jade Emperor Immortal School for a period of time. Right now, there was still Hannya within the Jade Emperor Immortal School

This honored one has accepted an honorary disciple back then, and her cultivation has long since reached the peak of the Upper Sky Emperor Realm. Unfortunately, it was still difficult for her to become an Empyrean. "

Tang Huan nodded her head slightly, not interrupting Liu Li's words. She naturally knew of the Jade Emperor Immortal Gate, one of the nine great sects in the Heaven Realm. Although its strength could not compare to the Clear Void Dao Pavilion, it was not inferior to the Black Yellow Dao Sect, Pangu Heavenly Sect and other great sects.

"I heard the name 'Ruins of God' from that honorary disciple of Empyrean Hannya."

Liu Li smiled, and then slowly said, "And the reason that the Great Sky Sovereign knows about the existence of the 'Ruins of the Gods' is because of an ancient book that the Jade Emperor Immortal School has collected. It contains relevant records, and although the description is very brief, after reading through it, one would still be able to understand the general situation."

"When the Immortal World was still alive, there was an area where the ancient immortals used to prove their dao positions. That area was the 'Ruins of God', and it seems to exist in the deepest parts of the void of darkness." Back then, Exalted Celestial Hannya failed his first confirmation of the Divine Throne and luckily survived. After reading about the 'Ruins of God' and leaving the Jade Emperor Immortal School, he wanted to head to that region to look for the opportunity to obtain the Divine Throne. Many years later, when the Great Sky Sovereign was suddenly removed from the list, everyone thought that he was already dejected ...

But his honorary disciple knows that he is still alive, and that he should be in the Ruins of God by now. "

"The 'Ruins of Immortality' that Yan Zu mentioned to Little Thing should be the 'Ruins of Immortality' that the Great Sky Sovereign went to."

"When the Immortal World was still here, the place where the Ancient Immortals had their Dao and God Places was known as the 'Ruins of Immortality'. "After the collapse of the Immortal World, the name 'Ruins of Immortality' was still used for a long period of time. The era in which the Cast Divine Dragon Abyss and Ancestor Yan lived in should still be known as 'Ruins of Immortality '. Only later on would it be known as 'Ruins of God '."

"That's right." Tang Huan suddenly laughed and said seriously, "The place that I found in my memories is also deep within the void of darkness. It is extremely close to the end of this Heaven Realm. The place senior Hannya went should be there. The entrance was very wide, almost several tens of thousands of kilometers in radius. You can enter from that entrance.

After passing through the Ruins of God, one would be able to reach a major world in the lower realms. If you wish to descend upon the lower realms with your true body, you would have to make a trip there. "

After he finished speaking, a hint of excitement emerged from between Tang Huan's brows.

"Big Brother, can we go to that place?" After listening for a long time, Little Thing finally could not hold it in and said anxiously. The nine spirits and Ling Tian had the same expression.

"The Ruins of Gods are the land of the ancient immortals. With your cultivations, you still won't be able to go there."

Tang Huan shook her head regretfully.

If the situation allowed, he could bring Nine Spirits, Little Thing, Ling Tian and the rest along. even wanted to bring his wife and children back to Forging God Great World to take a look, but when he found the huge whirlpool that spanned hundreds of thousands of miles, he gave up on this idea.

Although he had not personally experienced the power of the whirlpool, he could vaguely judge its strength.

Let alone the Celestial Emperor, even if it were an ordinary Emphyrean, once they entered that vortex of energy, they would be instantly disintegrated by that terrifying energy.

The entrance to the Ruins of God was already so, but the passage connecting the Ruins of God and the lower realms was definitely even more frightening. Tang Huan might be able to bring Nine Spirits and the others to the Ruins of God, but she could not bring them to the lower realms. If one wanted to enter the lower realms, they would inevitably be suppressed by the Heavenly Dao, much less by the descent of the true body. If Nine Spirits and the others had also followed him, the moment Tang Huan had entered the tunnel, she would probably be filled with the terrifying power of the Heavenly Dao ...

The energy would descend upon the cave, and with the cultivation and strength of Nine Spirits and the rest, they would definitely not be able to withstand it.

For safety's sake, they had to stay in the Heaven Realm.

Hearing that, Little Thing immediately pouted his lips, Nine Spirit's beautiful face was filled with helplessness, Ling Tian scratched her head, also feeling disappointed. However, they all knew that what Tang Huan said was the truth, so they did not pester him.

"Don't be sad, we can't do it now. We still have a chance in the future."

"After I succeed in proving my Divine Plane, I will not be bound by the heavens' law. However, if I can return to the Forging God Great World at any time, at that time, not to mention the three of you, there will be no problem at all bringing Shan Shan and the rest along with me."

"We'll have to wait a long time." Little Thing said in a muffled voice.

"Maybe when I return from the lower realms, I will have already proven to be a Dao deity." Tang Huan laughed and rubbed Little Thing's little head.

"..."

After confirming the existence of the "Ruins of Immortality" or "Ruins of Immortality" and finding the exact location, Tang Huan had put down her worries.

However, Tang Huan did not immediately complete the mission, but chose to leave the peak of the nine palaces.

This time, Jiu Ling, Little Thing and Ling Tian were all with him.

This time, he didn't hide anything. Not long after he left the Nine Palace Mountain, the news about him spread out like a storm.

The current Tang Huan was no longer the same Tang Huan he once was.

As the number one on the revered list, the moment his whereabouts were exposed, every single action related to him would be noticed by countless cultivators. Not to mention, many years ago, his

painting was spread across the entire continent, and with the changes occurring later on, countless people would view him as a god.

By now, even a child would know what he looked like.

Hence, no matter where Tang Huan appeared, as long as there were any cultivators nearby, they would immediately be recognized, and the news would quickly spread. Within two days, practically the entire nine heavens were watching Tang Huan's movements closely as they were extremely curious about his destination.

With regards to these concerns, Tang Huan did not mind them and continued to head east.

Not long after, Tang Huan entered the Big Dipper Realm under the watch of tens of thousands of eyes.

Since the start, when Tang Huan had first entered this Heaven Realm, the people of the Beitang Immortal Sect had all been terrified. Now that Tang Huan had actually entered this Heaven Realm, the people of the Beitang Immortal Sect were even more so terrified.

There was a deep grudge between the Beitang Immortal Sect and Tang Huan. Back then, when Tang Huan had just entered the ninth day of life, the first grudge she had with Tang Huan was formed with the Northern Dipper Immortal Sect. The Black Cicada Sky Sovereign of the Northern Dipper Immortal Sect had even personally made a move to kill Tang Huan. Afterwards, the news about Tang Huan released by the Northern Dipper Immortal Sect attracted many Sky Sovereigns to gather at the Scarlet Firmament.

Outside of Heavenly Nine Palace, if not for Liu Li inviting the Qin Xian Ye who was ranked second on the revered list, Tang Huan's fate would not have been good.

Such hatred was obviously difficult to resolve.

After Gu Daozi, Yuan Chao, and Wei Xuanji of the Clear Void Dao Pavilion were eliminated, the Northern Dipper Immortal Sect's Empyrean Blackcicada and Sect Master Zhuo Qinglan became frightened birds. They did not know how Gu Daozi and co. died, but they instinctively felt that their death had something to do with Tang Huan.

Gu Daozi and the rest were turned into ashes. With Tang Huan's strength, she would definitely not find trouble with the Clear Void Dao Pavilion. However, the Beitang Immortal Sect could not say for sure.

Therefore, over twenty years ago, Black Cicada and Zhuo Qinglan had personally brought gifts to visit the peak of the nine palaces of the Crimson Sky Kingdom. They did not see Tang Huan, nor did they see Liu Li. It was Liu Li's maid, Tan Yue, that had received the two of them. What was slightly reassuring was that Tan Yue had taken the gift on behalf of Liu Li. All these years, Tang Huan and Liu Li had never come looking for trouble with the Northern Dipper Immortal Sect, making them think that they had a grudge back then ...

It was over.

However, after hearing the news that Tang Huan had arrived at Big Dipper, the two of them started to feel uncertain. The Black Cicada was clear that if Tang Huan still refused to release her grudge from that year, the only thing that awaited him was death. Of course he could choose to escape, but with Tang Huan's capabilities, it wouldn't be difficult for him to deduce his whereabouts. Once his whereabouts were exposed, it would be practically impossible for him to escape.

Chapter 2240

"Big Brother, should we go directly to Dubhe City or take a look around the Northern Dipper Immortal Sect?"

On the edge of the sky above the city in the Big Dipper Realm, several people were riding on the void. When Little Thing and Ling Tian heard this, they also became excited.

Back then, the things that the Beitang Immortal Sect did were not good at all.

Even though Black Cicada and Zhuo Qinglan personally went to the Nine Palace Peak to apologize, it was not the same as in the past. If they really had to go to the Northern Dipper Immortal Sect to cause trouble, no matter how dissatisfied they were, they could only swallow their anger.

"There's no need."

Tang Huan laughed, with his current strength, killing the Black Cicada was an easy task, but since it had already passed, there was no point thinking about it.

When Black Cicada and Zhuo Qinglan were going up Nine Palace Peak to apologize, Tang Huan was still deducing and did not see them. However, Liu Li told him about this later. Tan Yue had accepted the gifts that they had brought, and had ruthlessly humiliated them. It could be said that they had paid the price for what had happened all those years ago.

"They got lucky."

The Nine Spirits' nose snorted twice.

Tang Huan's face was smiling, her lips slightly moved, just as she was about to speak, she could not help but exclaim in surprise, then laughed: "We did not go look for them, instead they came themselves."

"Black Cicada and Zhuo Qinglan?"

Jiu Ling, Little Thing and Ling Tian looked at each other in surprise.

Instantly, they felt something and turned to look at the same time. They only saw two figures rising up from the depths of the city as they chased after them at lightning speed.

The person who came was a man and a woman. They were the Master and disciple pair of the Beitang Immortal Sect, Hei Chan and Zhuo Qinglan.

"Greetings, Heavenly Sovereign Tang Huan!"

From far away, they had already begun bowing.

When the voice fell, the two had already arrived in front of Tang Huan, trembling with fear. The black cicada no longer acted mysterious, and its face was clearly revealed.

"You two came pretty quickly."

Tang Huan smiled indifferently, she naturally knew why the two people had come.

It was likely that they were worried that he would head to the Northern Dipper Immortal Sect due to the grudge from back then. Therefore, they decided to take the initiative to head over here first.

His destination this time was Dubhe City, not the Northern Dipper Immortal Sect.

The black cicada laughed awkwardly and said: "Heavenly Sovereign Tang Huan and all my friends came from far away. My Beitang Immortal Sect is the Lord of the land, how can we neglect you? The two of us ... "

"Alright, alright, let's not say any more polite words."

Jiu Ling impatiently waved her hand, looked at the black Cicada and said, "Black Cicada, aren't you guys afraid that Big Brother Tang Huan would go to the Beitang Immortal Sect? Originally, we did not plan to go. However, if you continue to speak so much rubbish, we might really have to make a trip to the Beitang Immortal Sect. "

"..."

The old black cicada's face swelled red as it stuttered without a word. Zhuo Qinglan was also incomparably embarrassed.

If it was any other Celestial Emperor who said this, the two of them would have long ago erupted, causing each other to regret it for life. However, the one who spoke was Nine Spirits, so they didn't dare to complain in the slightest. Not to mention Nine Spirits being the Celestial Emperor, even if Nine Spirits were just a tiny divine being, they could only keep smiling.

However, Jiu Ling's words made the two of them heave a sigh of relief. Originally, they thought that Tang Huan was heading towards the Northern Dipper Immortal Sect.

But from the looks of it, that didn't seem to be the case.

Although they were somewhat curious about Tang Huan's true goal, Black Cicada and Zhuo Qinglan did not dare to ask too much.

"If there is nothing else, you may withdraw. "Let's go!" Tang Huan was not interested in wasting her breath on the two of them, she signalled to the nine spirits, Little Thing and Ling Tian, then continued to float forward.

"Greetings to Empyrean Tang Huan!"

The black cicada and Zhuo Qinglan bowed respectfully again, and watched as Tang Huan and the rest left. However, they secretly heaved a sigh of relief, looking at the situation they were in. From the looks of it, they had been worrying too much, as long as they did not offend Tang Huan or any other people related to Tang Huan, they would be safe and sound.

The countless cultivators in the city below who saw this scene with their own eyes all sighed in amazement.

Sky Sovereign Blackcicada and Sect Master Zhuo Qinglan of the Beidou Immortal Sect, how mighty were they back then. However, in front of the number one ranker Tang Huan, they had been extremely cautious and had lowered their voices, afraid that they would accidentally enrage Tang Huan, bring about their own death or bring about the destruction of the Beidou Immortal Sect.

Although they were both Sky Sovereign, in Tang Huan's eyes, the Black Cicada was probably no different from an ant.

In a split-second, although no one in the city made a sound, when they looked up at the black cicadas and Zhuo Qinglan, their eyes were filled with a strange light. High up in the sky, the Black Cicada and Zhuo Qinglan naturally sensed something. Their hearts surged with a thick sense of shame, but they did not dare to show the slightest dissatisfaction.

Although Tang Huan and the rest had disappeared from her sight, they did not leave.

After a quick glance at each other, Black Cicada and Zhuo Qinglan left in a somewhat sorry state. They felt a chill down their backs even if they stayed in this place for even a moment longer.

Not long after, the news about what had happened above the city spread like wildfire.

Some of the people who were originally waiting to watch a good show were immediately disappointed.

Originally, they thought that Tang Huan had come to cause trouble for the Beitang Immortal Sect and were all taking pleasure in her misfortune. They wanted to see what would happen to the Beitang Immortal Sect in the end.

If it was Gu Daozi who killed his way up to the Northern Dipper Immortal Sect, the Northern Dipper Immortal Sect would also be in a panic, but they would definitely not be as fearful as they were now. Even the black cicada and Zhuo Qinglan had left the sect and rushed over to welcome them with the fastest speed possible.

The reason was very simple. Although Gu Daozi was strong, he did not have the power to destroy the Northern Dipper Immortal Sect, but Tang Huan was different. If he was determined to make a move, the Northern Dipper Immortal Sect might really be completely destroyed.

Facing such an enemy, the Beitang Immortal Sect could do nothing other than wait for their deaths.

Black Cicada and Zhuo Qinglan were smart enough to actually take the initiative to show up. Even if Tang Huan took action, he would only target the two of them and let the Beitang Immortal Sect go. However, to everyone's surprise, after the two sides met, it turned out to be so calm. Tang Huan actually gently let Black Cicada and Zhuo Qinglan go.

Tang Huan naturally did not need to care about the opinions of others, and directly brought Jiu Ling, Little Thing, and Ling Tian over to Dubhe City.

The city was the same as ever, flourishing just as it had been in the past.

When Tang Huan, Jiu Ling and the others arrived, the cultivators of the Beidou Immortal Sect were already waiting there respectfully. After entering the city, Tang Huan, Jiu Ling and the rest settled down near the exit to the darkness and emptiness of Dubhe City.

From then on, Tang Huan stayed at her dwelling everyday to cultivate without doing anything else.

Previously, they thought that Tang Huan and the others had come to Heavenly Coffin City to look for some kind of treasure. After all, this place was a place where cultivators from all over the world gathered, and there were many things that could not be found elsewhere.

But looking at Tang Huan's performance, her objective was evidently not as everyone had expected, and it was obvious that Tang Huan couldn't possibly come here to simply cultivate.

About a month later, a xuanji Pill Sect's Emptiness Realm Divine Ark entered Dubhe City. When the divine ark stopped, Tang Huan and the others had already appeared by the side of the divine ark. Not long later, Tang Huan returned to her residence with the group of young men and women who had exited the divine ark. Not long after, the people in the city finally heard some news, that the majority of the young men and women were Tang Huan's wives ...

Children.

The cultivators that received the news all had strange expressions on their faces.

Before this, they had guessed countless of possibilities, but hadn't thought that Tang Huan's purpose in coming to Heavenly Pivot City would be so simple, and only came to welcome their wives and children that they had sent over from the thirty-sixth day.

Another month later, the void divine vessel set out again. It entered the Northern Dipper, heading towards the Crimson Sky Kingdom.

Everyone thought that Tang Huan was also inside the divine ark, but in truth, when the divine ark set off, Tang Huan had already quietly entered the void of darkness.

This time, Tang Huan brought no one with him.

Shan Shan and the others, as well as Nine Spirits, Little Thing and Ling Tian, who had rushed over from the lower Heaven Realm, were all sent by the Emptiness Realm Ship to the Ninth Hall of the Crimson Sky Kingdom. The group of Heavenly Kings, who had been staying in Tang Huan's cave, were also let out by Tang Huan to travel together with them.

Tang Huan entered the void of darkness alone and headed straight for the God Ruins.

With Tang Huan's current strength, there was no longer a need to ride the Godly Void Boat. After arriving in the void of darkness, he entered the cave. Directly controlling the Ten Thousand Swords Heavenly Diagram to travel through this boundless darkness would be much faster than the speed of the Xuanji Pill Sect's Emptiness Realm Divine Ark.

"Whoosh!"

The inaudible sound was like a thread of white silk that spread rapidly through the world of darkness.

no longer had to worry. Inside the Supreme Mystery Temple, Tang Huan sat cross-legged and began to cultivate quietly. The "Smokey Golden Immortal" floated in front of him, shining brightly, and provided Tang Huan with the primal energy of primal chaos and immortal spirit energy that she needed for her cultivation.

There were only two uses for this "Yan Luo Golden Immortal".

One was teleportation, no matter where Tang Huan was, she could teleport back to the Immortal Spirit Ancestral Court. Of course, there was a big prerequisite, and that was that Tang Huan was still in the vicinity of this plane. The other was because Tang Huan was using it to absorb the Immortal Spirit Ancestral Court's power.

The existence of this "Yan Luo Golden Immortal" allowed Tang Huan to have sufficient power to cultivate no matter where she was.

Days passed ...

The existence of this "Myriad Sword Heavenly Diagram" would from time to time alert the nearby enormous beasts. The cultivators who had reached the "Voidwave Divine Ark" would also occasionally sense it, and they even thought that they had encountered some sort of rare treasure.

Whether it was the dark void beast or the human cultivators, none of them could keep up with the speed of the "Myriad Sword Heavenly Diagram".

However, as time passed, the number of encounters with the dark void beast and human cultivators decreased, but they would occasionally come across a few spatial fragments of the Celestial Realm.

Tang Huan's heart was as calm as water, and was not affected by the situation of the outside world.

Inside his Dantian Dao Infant, the number of Dao Crystals was still increasing crazily.

Unknowingly, Tang Huan's dao crystal and divine crystal combined had already reached a terrifying forty billion, which was the limit of a Upper Sky Sovereign. The increase in the number of Dao Crystals was only one of them. As she continued to cultivate, the fusing of Tang Huan's body and her Immortal body became more and more obvious.

Seemingly at every moment, Tang Huan could feel her body undergoing a potential metamorphosis.

This kind of transformation made Tang Huan look forward to it as well.

Tang Huan had long experienced the power of the Sun Immortal Body and Primal Chaos. Right now, although the two had not completely fused, Tang Huan could already feel his own body gradually improving. Inside Tang Huan's body, the two powerful essences, Primal Chaos and Celestial Spirit, seemed to have become one.

"Chaos Immortal Body?"

Within the Supreme Profound Hall, these words suddenly flashed across Tang Huan's mind. She immediately stopped cultivating and let out a sigh, a smile appearing on her face.

Immediately after, Tang Huan could not help but be taken aback. At this moment, he suddenly had a feeling that once her transformation was complete, she would be able to completely fuse with the Celestial Sect of Ancestral Immortals with the help of the Yan Luo Golden Immortal. At that time, would she become the source of the Immortal World?

Tang Huan shook her head, suppressing this absurd thought.

"Jianxin, how much time has passed?" Tang Huan collected her emotions and sent a mind instructs (in a second) over.

"Twenty-eight years." Jianxin said.

"Twenty-eight years ..."

Tang Huan couldn't help but shake her head and smile.

Who would have thought that time would pass so quickly? In the blink of an eye, nearly thirty years had passed, and it was unknown how far he was from reaching the Ruins of God.

"Master, there's something chasing after us from behind." At this time, Jianxin suddenly said.

"Oh?" After Tang Huan heard this, she couldn't help but raise her eyebrows and ask in surprise, "A Void Beast? "Could it be a legendary dark void beast?"

"It's not an ordinary Supreme Behemoth." Jianxin said, "Its speed is extremely fast, and its power is even stronger than Gu Daozi's."

"So powerful?"

Tang Huan was surprised but also interested, "I would like to see, what does that beast look like?"

As he spoke, Tang Huan had already slightly closed his eyes, his humongous consciousness using the "Myriad Sword Heavenly Diagram", was spreading out at an astonishing speed, in an instant, it had covered an area of tens of thousands of miles, and at this time, an extremely minute yet exceptionally strong Qi entered Tang Huan's senses.

Its body was shockingly large, at least several hundred miles long. From time to time, it would pounce forward with its mouth wide open, and a terrifying suction force would surge forward like raging waves, as if it wanted to swallow up the swiftly flying "Myriad Sword Heavenly Diagram" in one gulp.

However, although it was fast, under the control of Jianxin's full strength, its speed was as fast as lightning. Every time the supreme beast threw itself forward, it would pounce on empty air and fail again and again. It was obvious that it had thoroughly ignited the supreme beast's competitive spirit.
