

W. Master 2241

Chapter 2241

"Indeed, he is not any weaker than Gu Daozi."

Tang Huan smiled, her mind retreating like a tide, "However, there's no need to bother with it, if it wants to follow, let it follow."

If it was in the past, Tang Huan would perhaps still attack and kill that huge beast from behind. After all, that beast was already at the Honored Warrior Stage and its strength was peerless. This sort of supreme beast was a treasure with almost its entire body. If she obtained it, it would definitely have a significant effect on her cultivation.

But right now, Tang Huan did not take it to heart. There was nothing in this world that could be compared to the chaotic source energy and source energy of the "Immortal Spirit Ancestral Court", let alone Tang Huan's cultivation. With the "Smoke Powder Golden Immortal" transferring the original power of the Ancestral Court, Tang Huan no longer had to worry about the power she needed to cultivate, at least in this world ...

In that moment, Tang Huan cleared her mind and continued to concentrate on her cultivation. Sword Heart also continued to activate the Myriad Sword Heavenly Diagram by itself, ignoring the giant beast behind him.

Time quietly flowed on, after an unknown amount of time, a mysterious feeling suddenly awakened Tang Huan who was immersed in cultivation.

This feeling came from Tang Huan's body.

At this moment, an extremely miraculous change was happening on Tang Huan's body. This was because after refining the origin energy of Primal Chaos and Immortal Spirit Source energy for a long period of time, the quantitative change had finally caused a qualitative change.

Tang Huan could not help but smile.

Before this, the fusion between his main body and the avatar of the immortal body had shown signs of increasing, and it was getting more and more intense. Even the main body and the avatar of the immortal body were slowly changing, but the fusion had not really started.

The fusion of his true body and his Immortal body finally began!

Tang Huan could clearly feel his two bodies fusing together bit by bit, and along with this fusion, Tang Huan could almost feel her body constantly improving. This feeling of becoming stronger and stronger made one feel as if they were drinking nectar. It was an extremely enjoyable feeling.

Very quickly, Tang Huan was immersed in it, and did not know how time had passed.

"Master, we're almost there."

A voice suddenly sounded. Tang Huan was startled awake, and subconsciously raised her hand to look. Skin, muscles, bones, blood ... Every inch of her palms were as clear as crystal, as if they were glazed. They released a faint luster, just like the Immortal Spirit Ancestral Peak in the center of the courtyard.

Not only his palms were like this, so was his entire body.

The fusion of Tang Huan's main body and his divine body was already unconsciously completed. Tang Huan only had a slight thought, then an incomparably majestic energy roared out from the Dantian Dao Nascent Soul, and in an instant, it had spread to every part of his body, surging and surging.

With just a thought, his power would be able to reach his entire body.

At present, there was no longer any Spiritual Meridian on Tang Huan's body that could contain and circulate her energy. Or rather, it could be said that Tang Huan's entire body, was filled with Spiritual Meridian no matter where she went. The current Tang Huan was like a human shaped container, all of the energy flowing in her body made it seem as though her body was completely condensed from energy.

Within this body, the meaning of primal chaos and celestial spiritual energy were perfectly fused together.

Such a body, and such a bizarre Dao Nascent Soul

Tang Huan had a feeling that even if his Nascent Soul and body were to be smashed into pieces, she would be able to come back to life. Although he had not Transcended, his body already had a bit of the feeling of being indestructible This was something that all the other Sky Sovereigns in the Heaven Realm would not be able to accomplish.

Tang Huan let out a light sigh, and with a slight thought, the luster on the surface of her body gradually dimmed, and in an instant, she looked more or less like an ordinary person.

"The Ruins of God are up ahead?"

Tang Huan's mind once again exposed the cave, with the Myriad Sword Heavenly Diagram as the center, she frantically spread out.

Currently, even though Tang Huan was still an Empyrean at the peak of the Upper Sky Realm, his mental state had increased by at least several times compared to the last time she used it.

"That dark void beast is actually still following behind?"

Tang Huan was a little surprised. Roughly a few hundred kilometers away from the "Ten Thousand Swords Heavenly Diagram", the serpent like supreme beast was still pursuing it. However, compared to its initial rage and mania, the enormous dark void beast behind was extremely calm. It just kept chasing and did not do anything else.

"It's been chasing us for three whole years." Jianxin said.

"Three years?"

Tang Huan could not help but be taken aback.

"That supreme beast is able to draw energy from the surrounding void at any time to replenish its energy consumption. In this dark world, its energy is seemingly limitless, so, let alone three years, it wouldn't be tired even if it caught up to thirty years."

Tang Huan suddenly understood and laughed unwittingly. "It's our fault too. If it were any other Empyreans, they probably wouldn't be able to survive even if they risked their lives."

His voice paused slightly, and then, Tang Huan asked in surprise, "Do you know why it is chasing after us so closely?"

"It should have sensed that the [Myriad Swords Heavenly Diagram] was holding the estate within it, and wanted to take it for itself."

Speaking up to here, Jianxin's tone seemed to contain a trace of an almost imperceptible smile, "Master, in this world, not only do human cultivators know of the Divine Thrones, but other living beings also do. "The legendary dark void beast behind, it's strength is extremely strong, obviously it has this thought too."

"It can't be that it wants to chase us into the 'Ruins of God', right?"

Tang Huan nodded her head, and laughed: "Although this guy is strong, he is a little stubborn. He has been chasing it for three years, doesn't he realize that even without the 'Ruins of God' blocking it, this' Myriad Sword Heavenly Diagram ', is not something he can catch up to? If it was smart, it would have given up long ago. "

From this position, one could faintly sense the power of the sucking coming at them. The white whirlpool that acted as the entrance to the Ruins of God was clearly right in front of them. If that enormous beast did not stop, it was likely that it would be swallowed by the vortex. Of course, with its strength, it might not die.

"If it just enters like that, I'm afraid there's only death." Jianxin said again.

"That's right."

Tang Huan nodded her head. If Tang Huan's judgement was accurate before, then there must have been other Sky Sovereigns besides the Great Sky Sovereign in the Ruins of God. That supreme beast might be able to enter the Ruins of God alive, but once it reached the Ruins of God, it would probably die at the hands of those cultivators.

A demigod that had already condensed nine divine crystals was not something that the supreme beast could contend against.

Of course, no matter how that fellow chose to live or die, Tang Huan did not have much of a relationship with him. After a moment, Tang Huan's mind started to recede, but right at that moment, he suddenly heard a voice calling out: "Senior in the cave ahead, please wait for a moment, junior has something to say."

"Hmm?"

Tang Huan's heart skipped a beat, the beast behind him had actually sent a message to him.

At this moment, Tang Huan was somewhat excited, she calmly ordered: "Jianxin, stop for a moment, see what that fellow wants to say." With Tang Huan's current cultivation level and strength, no matter what devious scheme that giant beast wanted to pull off, he would not take it to heart.

"Yes, master!"

Jianxin naturally did not care.

Even if the Zun Stage Beast suddenly went berserk when it got close, swallowing the "Myriad Sword Heavenly Diagram" would be useless. In the end, it was not the Myriad Sword Heavenly Diagram that was absorbed and refined by the Supreme beast, but rather, the Supreme beast was bloated to death. No one in the Heaven Realm could swallow a cave guarded by Tang Huan.

The scroll stopped and the dark void beast dashed forward. It had already passed through hundreds of miles of space and arrived in front of the scroll.

Compared to this enormous beast, this scroll was pitifully small, as though it could easily swallow the beast whole with just a slight opening of its mouth. However, the beast did not do anything out of the ordinary. Instead, it quietly floated in front of the scroll.

"If you have something to say, just say it." Tang Huan's voice sounded out.

"Senior, are you heading to the 'Ruins of God'?" The supreme beast responded very quickly.

"That's right."

Tang Huan gave a bland smile. His goal, the Dark Void Beast had already seen through it so there was no need to hide it.

The beast hesitated for a moment before speaking again. It spoke with a respectful tone, "I don't know if senior can help bring junior along. Junior will be very grateful."

Tang Huan was a little surprised, she did not expect that the Dark Void Beast would actually call out to him with such a plan.

With this thought flashing slightly, Tang Huan said in a slow and leisurely manner, "The God Ruins are just ahead. If you want to go in, just go in, why do you need my help?"

"I would like to go, but unfortunately, I can't."

When the gigantic beast heard this, a hint of bitterness could be heard in its voice as it said, "There are experts guarding the entrance of the Ruins of God. I simply cannot get close to them."

"Oh?"

Inside Supreme Profound Hall, Tang Huan's brows slightly twitched, and a strange look flashed past her eyes.

He originally thought that Exalted Celestial Hannya and the other experts had long entered the Ruins of God. He didn't expect that there would still be people guarding the entrance to the Ruins of God. Why was that so?

"How do you know I can help you?" In the next moment, Tang Huan smiled. Senior possessing such a powerful cave space, he is definitely one of the few most powerful cultivators in Human Clan. Furthermore, the expert guarding the entrance to the God Ruins is also a Human Clan cultivator, even if he doesn't know senior, he should have some connections. If Senior brings this junior in, that expert will definitely not stop you. " Then ...

The legendary behemoth said.

"Your analysis is quite reasonable."

Tang Huan laughed, but then, his voice suddenly became cold, "However, you and I are strangers, and we are not of the same species, why should I help you with this?"

"Senior, if you are willing to help, I will definitely reward you handsomely."

Without waiting for Tang Huan to speak, it added, "I have already lived in the void for countless years. I have already found far too many fragment spaces of the Immortal Realm that I can't even count myself, and adding on to the fact that I have plundered many Human Clan Rankers, I have accumulated countless treasures."

"As long as senior is willing to help, these items will all belong to Senior."

"They might not be of much use to Senior, but to Senior's sect or his friends and relatives, they will certainly have unimaginable uses. I've heard that the number one sect in the Nine Heavens Sect is the Clear Void Dao Pavilion, and my treasures are enough to create two or three powerful treasures

"The sect."

At the end, the supreme beast's voice was filled with anticipation.

Any of the treasures it had accumulated would be enough to attract Heaven Realm cultivators to flock to it. Even Heavenly King Heavenly Emperors or ordinary Emphyreans would have their heads smashed just because of this.

But facing Tang Huan, it did not have that confidence.

When it had first discovered the scroll, it had wanted to swallow it. However, after failing to catch up with it for a long time, it realized that the owner of the scroll was definitely the strongest warrior in the Heaven Realm. If he could obtain its help and enter the legendary Ruins of God, it wouldn't just be a dream, but a reality.

After a long time, no sound came out from the scroll. The rank 1 beast immediately became nervous.

"No matter how many treasures you have, they are of little use to me. As for helping my relatives and friends in the sect, there is no need for you to have such treasures. With my cultivation level, I can't get anything within the Heaven Realm." Tang Huan slowly said.

"Senior is right."

The beast helplessly nodded its head and remained silent for a moment before it said in a dejected tone, "If that's the case, then junior will take his leave. I have been bothering senior for many years, I hope senior will forgive me."

It knew that its strength was definitely not weaker than the Heaven Realm's number one ranker, Gu Daozi. However, at this moment, it did not dare to continue fighting.

The master of the cave wasn't Gu Daozi, but he was definitely stronger than him. Perhaps he could even match up to the experts guarding the entrance to the Divine Ruins.

If he were to completely anger the other party, it would not end well for him. The reason it had such a conclusion was that aside from not catching up to the scroll that contained the cave, it had also sent out a terrifying aura that was beyond the heavens' law from inside the cave.

The aura disappeared in a flash, yet it gave it a deep impression of the abode master's strength.

After disappointedly saying those words, the Dark Void Beast started to float backwards. But at this moment, a voice suddenly came out from the scroll, "Wait!"

After staring blankly for a moment, the supreme beast immediately acted as if it was listening to the imperial edict. Its large and sturdy body immediately stopped and said in surprise, "Senior, what are your instructions?"

"Do you know if there is any space in the crevice?" Inside the Supreme Profound Hall, Tang Huan muttered.

"Junior understands." The supreme beast was stunned for a moment before he quickly replied, "It's said that those slits are connected to the plane barrier. If it's impossible to find the entrance, even an Empyrean would not be able to enter."

"It's good that you know."

Tang Huan nodded and said, "The Dark Void Beast can swallow the spatial barrier. We can bring you into the Ruins of God, but you need to help me do one thing. After we reach the Ruins of God, we can travel together to the lower realms."

"This ..."

The beast was shocked and quickly said, "Senior, with my condition, if I were to go down, I'm afraid that I would be killed by the heavens."

"You don't have to worry about that." Tang Huan said in a deep voice, "After we enter the Ruins of God, I will think of a way to bring you down with me."

"Yes, Senior!"

Chapter 2242

After a while, the gigantic beast appeared in front of Tang Huan.

Of course, at that instant, the enormous beast had already transformed into a humanoid shape. It was the appearance of a black-robed old man.

"It's not easy for you to cultivate to such an extent." After looking up and down at the beast, Tang Huan couldn't help but chuckle.

"Senior, you flatter me."

The beast quickly said, "I just took advantage of my long lifespan."

When he looked at Tang Huan, the reverence in his eyes grew even stronger. In his eyes, even though Tang Huan looked like an ordinary person, she was in fact, abnormally deep and unfathomable.

He had a strong premonition that if he were to act recklessly, he would be turned into ashes in an instant.

This feeling surprised him as well. Back when he was outside, he had known that this Lord of the Celestial Realm was incomparably powerful, but now it seemed as though he was even more powerful than he had expected. This also made him secretly rejoice. His choice seemed to be the right one.

"Do you have a name?" Tang Huan smiled slightly. The age of this Supreme Ranked beast might not lose to Liu Li.

"Junior Void Rainbow."

The beast nodded.

Tang Huan slightly nodded, and said slowly: "Since you're cooperating with me, you should also know my situation. My name is Tang, and I have replaced Gu Daozi as you know me decades ago. "Oh right, there's one more thing I can tell you. Gu Daozi has been turned into ashes."

The fact that Tang Huan was listed as the top on the revered leader's ranking was within Xu Hong's expectations. She believed that for an expert like Tang Huan, to replace Gu Daozi, and to ascend to the top of the revered leader's ranking was only a matter of course.

However, the last few words that Tang Huan said, shocked him a little: "Senior Tang Huan, did he die because he tried to break through to the Divine Realm?"

"No, he was killed."

Tang Huan shook his head indifferently, "Not long after I replaced him and became the top ranker, he suddenly died. The two Sky Sovereigns who died along with him were also the Clear Void Dao Pavilion's Yuan Chao and Wei Xuanji. Wei Xuanji, you may not know about him, but you should have heard of Yuan Chao, he's extremely strong. "

There was surprise in Xu Que's eyes, "I do know about that Yuan Chao. He was previously ranked third on the Honored Warrior Board, but he and Gu Daozi died at the same time? Who killed him? "

"I don't know either."

Tang Huan laughed, "Void Rainbow, you are the Dark Void Beast, you have lived in this area for countless of years, do you know how many cultivators have been removed from the list of respected cultivators in the Ruins of God?"

"Senior, you suspect that the one who attacked was an expert from the Ruins of God?"

"From what this junior knows, there shouldn't be more than five experts in the Ruins of God. However, they shouldn't be the ones to kill Gu Daozi and the other two. Under normal circumstances, even if they were to exit the Ruins of God, they would only be moving around the entrance.

Tang Huan frowned, and muttered: "Since it's not them, then who is it?"

"If senior wants to know who the real culprit is, junior might have a way to find it out." Void Rainbow's heart moved slightly as he suddenly said.

"Oh? "Tell me about it."

Tang Huan's eyes revealed an additional hint of a smile.

The true culprits of killing the three of them, Gu Daozi, Yuan Chao and Wei Xuanji, had always been hidden in the shadows, causing him to feel somewhat uneasy. After all, his wife, son, and many of his friends were all on the peak of the Nine Palace. If the true culprit was hostile towards him, it might be because of Shan Shan, Mu Yan, Jiu Ling and the others.

If Tang Huan was still in the top nine days, there was no need for him to worry, but she was already far, far away from Crimson Nimbus ...

Once the real culprit attacked, it would be very difficult for him to rescue the culprit in time.

Fortunately, just in case something happened, Tang Huan had already completed her preparations. She sealed up a part of the souls of Shan Shan and the others, and even if something really did happen to them, Tang Huan would be able to revive them in the future. Of course, this was the worst case scenario.

If he knew who the real culprit was, he might be able to take precautions.

"Senior Tang Huan, junior is more suited to speak in the race of the Dark Void Beast." Void Rainbow quickly said, "Junior can send a message and mobilize all the dark void beasts to see if they found anything strange in the vicinity of the ninth heaven."

"This method is indeed not bad."

"The culprit who had killed Gu Daozi, Yuan Chao, and Wei Xuanji must not be an ordinary person. Furthermore, I suspect that it is very likely that they were killed in the void of darkness, and the sounds of their battle would definitely not be any less."

This guess of Tang Huan's was not without reason.

After exiting the "Immortal Spirit Ancestral Court", Tang Huan had surpassed Gu Daozi, and reached the top of the list. She had even defeated Gu Daozi, causing him to self-destruct her cave dwelling and escape in a sorry state. They were probably worried that Tang Huan would seek revenge and cause trouble for them, so they wouldn't be able to stay in Qu A Tian's place forever.

Furthermore, according to what Tang Huan had heard from Liu Li later on, Gu Daozi, Yuan Chao, and Wei Xuanji didn't even return flying stars, and directly entered the void of darkness from Qu Ah Tian.

"Since that's the case, I'll send you out of here first. Hurry up and give it a try." Suddenly, Tang Huan gave the order.

"Yes, Senior!"

An instant later, a gentle force wrapped around the rainbow light and sent him out of the Supreme Profound Hall, while Tang Huan's mind also expanded along with it.

Outside the scroll, the virtual rainbow had already returned to its original form. An incomparably long snake-like body was spread across the void of darkness. In the next moment, the Dark Void Behemoth opened its huge mouth. A strange yet powerful ripple was emitted from its mouth. It merged with the darkness and quickly spread.

Tang Huan couldn't help but slightly nod her head. The fluctuation that came from the body of the Void Rainbow was like a soundless sound wave, able to frantically spread along the Origin Energy in the void of darkness. Within the sound wave, there was an extremely strong mind instructs (in a second) that was concealed within, and it also contained a trace of willpower that couldn't be defied.

In the race of the Dark Void Beast, the Void Rainbow should be the most powerful existence.

He was obviously passing down his orders to his own kind just now.

Using the dark void origin force as a link, it should be able to quickly transmit his orders to an area infinitely far away. If this continued, it probably wouldn't take long for all the enormous dark beasts in this dark void to receive his orders.

The void shut its mouth, not moving an inch, as if it was quietly listening to something.

Inside the Supreme Profound Hall, Tang Huan was also quietly sitting cross-legged.

It was impossible for him to pass down the order and report back in a day or two. Fortunately, he had not truly entered the entrance area of the Ruins of God. Under the control of Jianxin, the dwelling could easily resist the suction force that was spreading over from there. It would be fine to stay for a while longer.

A long time passed. In the dark void, the body of the Void Rainbow, which was as large as Pang Shuo, finally moved. In an instant, it changed back into the appearance of the black-robed old man.

With a thought, Tang Huan returned the rainbow back into her cave.

"Senior, the result is out." Without waiting for Tang Huan to ask, the Void Rainbow hurriedly spoke, "Nearly thirty years ago, in the void space outside Qu A'tian, an intense battle had indeed occurred.

One side was fighting the three Sky Sovereigns, while the other side was fighting a gigantic fire phoenix."

"The time and numbers match."

Tang Huan thought for a while, then said, "The three Sky Sovereigns should be Gu Daozi, Yuan Chao and Wei Xuanji. As for the fire phoenix ... Maybe it was created by Empyrean Flamephoenix."

After saying that, Tang Huan's expression became gloomy.

When he discovered that Gu Daozi and the rest had died, Tang Huan had thought that it was because of the Heavenly Flame Phoenix Sect but he never thought that it was really her. That Empyrean Flamephoenix was truly lingering around like a ghost. She had actually arrived near Qu A'tian. To be able to kill Gu Daozi and the others, their strength could be imagined.

"Where is Empyrean Flamephoenix now?"

After a while, Tang Huan asked.

The true reason why Empyrean Flamephoenix came to Qu A'A was for him.

As for Gu Daozi, Yuan Chao, and Wei Xuanji, they were probably just supplementary items. If not for the fact that they had coincidentally bumped into Empyrean Flamephoenix in the outer space of Qu A'A, they probably wouldn't have died.

"It's still there." Void Rainbow hurriedly said.

"What has she been doing there? has his strength not fully recovered, or ... "

Tang Huan was a little suspicious. It was very likely that after the Heavenly Elder Fire Phoenix merged with his embodiment, his cultivation had already reached the realm of a half god.

It was because of this that her name did not enter the ranking board, but at the same time she possessed the terrifying strength to kill Gu Daozi and the rest. The more Tang Huan thought about

it, the more she felt that it was possible. If the Heavenly Lord Fire Phoenix was truly a demigod more than thirty years ago, she would have been able to kill off Gu Daozi, Yuan Chao and Wei Xuan Ji in an instant.

If that was the case, the "fierce battle" that Xu Qihong had mentioned just now would not have happened at all.

However, even if Empyrean Flamephoenix wasn't a true demigod in the past, so many years had passed and she probably wasn't too far away from becoming a true demigod. Once she finished her cultivation, she would immediately enter the nine heavens. At that time, Qin Xian Ye, Ji Qingtian, Liu Li, and the others wouldn't be able to stop her.

"Void Rainbow, immediately send out a few Void Beasts and pretend to carelessly approach the Empyrean Flamephoenix. Afterwards, spread the news that I'm already rushing towards the 'Ruins of the Gods'."

"Understood."

Tang Huan sent the rainbow light out of the Supreme Profound Hall once again.

In the next moment, a thin jade slip appeared in Tang Huan's hand, which was used for communication. Relying on the Void Beast to spread the news was not enough of a guarantee. Tang Huan needed to inform Liu Li of the news she had just heard, and let her spread the news at the same time.

After a long time, the rainbow returned to the cave.

Tang Huan heaved a sigh of relief. This was all he could do now, and after that, she could only listen to the heavens' will. To be able to lure the Empyrean Flamephoenix into the Ruins of God, that would naturally be the best.

If Empyrean Fire Phoenix chased after Liu Li and the rest ...

Then, Tang Huan could only use the Yan Luo Golden Immortal to teleport extremely far away. After she had dealt with the trouble with the Heavenly Flame Phoenix Sect, he would head back to the Ruins of God.

"Jianxin, continue forward."

Tang Huan gave an order, her mind continuing to flow outside of the "Myriad Sword Heavenly Diagram", the void rainbow quietly sat in front of Tang Huan, respectfully.

As the scroll flew forward, one could faintly see a hint of light, and the further the scroll went, the stronger the feeling of the sucking became.

"Void Rainbow, it's time for us to leave." After a few days, Tang Huan's eyes that were slightly closed opened, and she stood up.

"Yes, Senior!" Void Rainbow responded.

"..."

In a blink of an eye, the figures of Tang Huan and the Void Rainbow had already disappeared from the Supreme Profound Hall. Then, they appeared in the sky outside, and a brilliant light immediately appeared in front of Tang Huan's eyes.

With a thought, the scroll turned into a stream of light and entered Tang Huan's Dantian. The sucking in the Ruins of God was terrifyingly strong. Creatures that were slightly weaker would not be able to resist it and would immediately be sucked in. However, it would be too naive if she thought that she could enter the Ruins of God just because she was sucked in. If one was not strong enough, the moment one entered the depths of the Ruins, they would be completely crushed ...

Broken.

No spatial artifact could withstand the power of the God Ruins' entrance. It would be directly used on the body.

If Tang Huan continued to stay in the cave, once that power descended, it was very likely that it would be greatly damaged. Tang Huan believed that with her current Primal Chaos Immortal's

physique, she would definitely not have any problems resisting the pressure at the entrance of the Ruins of God.

As for the void rainbow, if no one stopped it, it shouldn't be too difficult to enter. After all, in this aspect, he had a greater advantage than the human cultivators.

In a blink of an eye, Tang Huan had already adapted to the intense light, and the rapidly spinning Pang Shuo vortex had already filled his vision. At this moment, he and Void Rainbow were at the edge of the white vortex.

Tang Huan resisted the pull of the sucking's power, and stood firmly without moving, while her enormous consciousness swept forward.

In just a blink of an eye, the several hundred thousand kilometers of area ahead of him had completely entered Tang Huan's perception range, and his mind had even touched upon the center of the whirlpool.

"Hmm?"

Instantly, Tang Huan gasped out.

In the air above the center of the white vortex sat a figure.

From within his well-built body, there seemed to be a formless and formless enormous power that howled out like a collapsing dam and overturned the seas. It was so mighty that it completely suppressed the power of the sucking that was gushing out from the depths of the vortex.

Tang Huan's face changed, her eyes becoming solemn.

The power that was roaring out from the red-robed elder's body not only helped him resist the suction force from the whirlpool, but also allowed him to sit firmly on top of it like a boulder. The power seemed to suppress the huge white whirlpool, limiting it to a radius of hundreds of thousands of miles.

In that moment, Tang Huan suddenly realized a problem that she had never thought of before.

The reason why the SemiGods were guarding the entrance to the Ruins of God was most likely not to prevent creatures like Void Rainbow from entering, but rather to suppress the white vortex and stop it from expanding any further. Otherwise, the entrance to the Ruins of God wouldn't have been just hundreds of thousands of miles in size. It would have been millions of miles in radius, tens of millions of miles in radius, or even greater.

Chapter 2243

"Little brother, you're finally here!"

Suddenly, a vigorous voice resounded.

This voice came from the center of the whirlpool. It wasn't loud, but it carried an incomparable penetrating force and in an instant, it traveled across hundreds of thousands of kilometers of space and entered Tang Huan's ears.

Tang Huan's heart was moved, the red robed elder's aura seemed to be leaking out, containing a hidden meaning that transcended the heavens, and also something that she was familiar with.

"Are you Senior Hannya?"

After a short moment, a thought flashed across Tang Huan's mind.

"That's right." In the air above the vortex, the red-robed elder was laughing loudly.

"Junior Tang Huan greets Senior Hannya."

Tang Huan's face also revealed a hint of a smile, and after that, she bowed deeply, which was hundreds of thousands of kilometers away.

Tang Huan could vaguely guess the reason behind her existence. After all, she had once observed the "Great Cloud Wall" left behind by the Great Cloud Wall in the Non-Phase Heaven stage and had a huge breakthrough before that.

In the past, Tang Huan's strength was limited and she could not detect it, but now that she thought about it, there should have been a Mind Stigma inside the Great Wisdom Sect.

It was because of this that the Great Heavenly Sovereign knew of Tang Huan's existence.

It was also because of this that there was still the trace of the Great Heavenly Sovereign's aura within the Wall of Clouds, allowing Tang Huan to quickly judge the Great Heavenly Sovereign's identity.

"What senior? Brother Tang Huan, if you're willing, just call me big brother." The Great Sky Sovereign laughed.

"Alright, Big Brother Hannya!" Hearing his words, Tang Huan did not bother to be courteous anymore.

"Satisfying."

"Brother Tang Huan, you came earlier than I expected. I had thought that you would arrive here in at least another few thousand years, but who would have thought that you, who were still participating in the 'Myriad Domain Dao Arts' in the lower Heaven Realm, would already become a peak-level Heavenly Sovereign."

Hearing this, the void rainbow behind Tang Huan could not help but suck in a breath of cold air. Although he was not a human cultivator, she was still one of the strongest living beings in the Heaven Realm. Those who participated in the "Ten Thousand Domain Dao Arts" were all young cultivators and were well-known amongst their generation. However, for an expert like him, it was not enough for him to become a Dao Cultivator ...

However, after hearing the words of the Great Sky Sovereign, it had only been a few hundred years, and Tang Huan had already changed from the young cultivator from the lower heaven realm back then to the current number one on the rankings, an expert who was even stronger than him.

Compared to the Tang Huan of such a young age, who had already lived for a very long time, how could he endure?

"Yeah."

Tang Huan said rather emotionally, "Even I didn't think that I would have stepped into this realm in less than five hundred years."

But in the next moment, he couldn't help but be dumbstruck, as if something wasn't right. "Big Brother Hannya, when did you know that I participated in the Myriad Domain Dao Arts?"

"Of course I do."

"I also know that at that time, you were only a high-grade heaven's work, but in the end, with your record at the top of the eighth round, you became the top of the Myriad Domain Dao Arts' Artifact Board ..."

"Inside that 'Great Void Immortal Mirror', there is my Mind Stigma." Seeing the doubt in Tang Huan's eyes, the Great Sky Sovereign did not continue to keep them guessing, and directly gave them his answer.

"So that's how it is."

Tang Huan suddenly realized.

Since the "Great Void Divine Mirror" had merged with the Mind Stigma of the Great Sky Sovereign, it would be easy for him to know the situation there.

"Brother Tang Huan, after knowing your performance in the 'Myriad Domain Dao Arts', I have a feeling that we will one day meet again."

"Big brother Hannya, you have more confidence in yourself than I do."

Tang Huan laughed involuntarily. Meeting his at the entrance of the Divine Ruins ... The entrance to the Ruins of God was not something that just anyone could come to just by thinking about. First, one had to know that there was such a place, and secondly, had to possess incomparably tyrannical strength.

Even if Gu Daozi did not die, he did not dare guarantee that he would be able to make it here alive.

The first 20 years of nine days were still okay, but even if they met with danger, with Gu Daozi's strength, he should be able to safely pass through it. However, the rest of the journey for the next ten years or so was not easy to be covered. On the way, from time to time, they would encounter the Dark Void Beast of the honored rank, or even the super strong ones among the beast of the honored rank.

For example, the rainbow behind him.

Gu Daozi might not be able to deal with it with just the Void Rainbow. For nearly three years, the Void Rainbow had been unceasingly chasing the "Myriad Sword Heavenly Diagram." Its existence also caused the other Supreme Beasts nearby to not dare to approach. Because of this, he didn't encounter any more dangers along the way.

And now, the Great Sky Sovereign had asserted that being able to meet Tang Huan here was clearly due to him being extremely confident.

"Of course."

Exalted Celestial Hannya laughed, "Judging from your performance in the Myriad Domain Dao Arts, no matter how great the danger you encounter, you shouldn't die so easily. If something were to really happen to you, then maybe thousands or tens of thousands of years later, this Heaven Realm would experience the same kind of change as back then. "

As she finished her sentence, the Great Sky Sovereign's tone became rather solemn.

"Oh?"

Tang Huan was slightly taken aback, "Big Brother Hannya, why?"

Exalted Celestial Hannya actually said that if he had not encountered it, would there be a huge change in the Heaven Realm? The so-called great change should refer to the collapse of the Celestial Realm and its transformation into the Heaven Realm. If the Heaven Realm suffered another huge change, it was unknown just how many living creatures would turn to dust because of this. Tang Huan could not take on such a responsibility.

"Brother Tang Huan, I presume you have already sensed it."

Exalted Celestial Hannya sighed, "If this entrance to the Divine Ruins is suppressed, it will continue to expand. It was originally small, but now it had a radius of hundreds of thousands of miles. We old fellows have suppressed it here for a long time, but its power is still increasing. "

"At most, it will be a few thousand years. Even if we attack together, we won't be able to suppress it."

"By that time, it will probably engulf the entire Heaven Realm, the entire plane, and even all living beings including us."

Tang Huan's face darkened slightly as her eyes became serious, "Big Brother Hannya, as far as I know, while the Immortal World still exists, the Ruins of God are the places where immortals can bear witness to the gods. How did its entrance become like this?"

From the evolution of the world that he remembered, it seemed that the entrance to the Divine Ruins was indeed expanding nonstop for a long period of time. The reason it had stopped afterwards should have been because Exalted Celestial Hannya and the others had suppressed it.

Behind Tang Huan, Void Rainbow was dumbstruck as she heard this.

Initially, he thought that it was because he was different from his own race that he was not allowed to enter the Ruins of God. But now, it seems that there was a reason behind it, and this Ruins of God also seemed to contain a huge hidden danger.

"The Ruins of God is indeed where the ancient immortals testified to the existence of the gods."

"However, when the Immortal World was destroyed, it caused great damage to the planar barrier of this world. The heaviest part of it was connected to the entrance of the Ruins of God." Next to us is an even larger world. Over the years, the energy of that plane world had gradually seeped in and fused into the entrance of the Ruins of God. Once we can't suppress it, the power of the Surface World will inundate us and make this entrance ...

It will expand rapidly, and eventually engulf the entire world here. That world will become even larger. "

"I see."

After hearing the Great Sky Sovereign's explanation, Tang Huan immediately understood something.

All living things have a spirit. The plane world also possesses a spirit. As for this spirit, it is the lofty Heavenly Dao. Different planes and worlds had different Heavenly Daos, and some had different levels of power while others had different levels of power. Under normal circumstances, the Heavenly Daos of different worlds would not disturb each other, and would not violate each other.

However, if he grabbed the opportunity, the powerful Heavenly Dao would immediately devour the weak Heavenly Dao.

Apparently, the Heavenly Dao in the next world had found such an opportunity. The Heavenly Daos here were clearly much stronger than the Heavenly Daos in this plane.

However, the difference between the two sides shouldn't be that great.

Otherwise, it would be impossible for Empyrean Hannya and the others to suppress the expansion of this vortex. The reason why they were able to suppress the entrance to the Divine Ruins for such a long time was because they had borrowed the Heavenly Energy of this world. It was impossible for them to do it on their own.

If the heavenly laws of this world could not resist it, the heavenly laws of the next world would extend their tentacles further and further, until they completely engulfed this world.

No living being could resist the corrosive power of the Heavenly Dao of a world, not even a Demigod powerhouse like Empyrean Hannya and the others.

Thinking of this world being swallowed up by this white vortex, the Void Rainbow couldn't help but be shocked.

Tang Huan also felt a chill in her heart, the skin was gone, there was nothing to be afraid of, if this plane of existence was gone, how could Shan Shan and the rest who were living in this plane of existence continue to exist? At that time, not only would Shan Shan and the rest of the people in Heaven Realm be scared out of their wits, the relatives and friends of the lower realm would also disappear like smoke into thin air.

With a quick thought, Tang Huan frowned and took a deep breath: "Big brother Hannya, this is a contest between two Heavenly Daos, a contest between two planes of the world, I don't seem to be able to play much of a role?"

He was only a peak Superior Empyrean. His strength might not even be equal to a peak Empyrean's.

Even if he succeeded in proving his Dao Divinity, he would only be able to suppress the entrance of the Divine Ruins like the Great Hierarch Hannya. He wouldn't be able to resist the erosion of the outside world, and would at most be able to delay it for a while. He could have passed through the plane of existence and left, but he could not have brought Shan Shan and the others to leave together.

"Brother Tang Huan, you're wrong."

"If it was only to suppress the entrance of the Ruins of God, you wouldn't have been of much use back then. However, if you were to repair that damaged planar barrier, then you would have been of great use. Moreover, you will be able to play a decisive role."

As he spoke to here, in the air above the vortex, Exalted Celestial Greatjoy's eyes began to grow more and more profound. He said slowly, "Because you now have the unique 'Dao of Primordial Fire' of this world."

"Dao-fire ..."

After muttering these words, Tang Huan somewhat understood what was going on.

Tang Huan was not surprised that the Great Sky Sovereign knew that he possessed the Primal Chaos Dao Flame. Within the "Great Void Immortal Mirror", although Tang Huan's performance could be

hidden from all the other cultivators, it could not be hidden from the Great Celestial Sovereign who had Mind Stigma fused into the "Great Void Immortal Mirror".

It was not strange for the Great Sky Sovereign to be able to determine that Tang Huan possessed a Primal Chaos Dao flame by looking at Tang Huan's current situation.

Moreover, after entering the nine heavens, the news of him possessing a 'Chaos Dao flame' was no longer an absolute secret. Empyrean Hannya likely also had a way to obtain relevant information.

To use the 'Dao of Primordial Fire' to temper and repair the surface barrier was indeed a feasible plan.

After a moment, Tang Huan muttered: "Big Brother Hannya, with my current cultivation and strength, even if I possess the 'Primal Chaos Dao Flame', I probably won't be able to successfully repair the surface barrier."

"Brother Tang Huan, there's no need to be so anxious about repairing the spatial barrier."

Exalted Celestial Hannya smiled and said, "I can keep this old bone alive for a little longer, and the rest of the people in the Ruins of God can also be replaced. That Ruins of God is the proof of God for Ancient Immortals. It will definitely be of great help to your cultivation level and strength. First, enter the Ruins of God and familiarize yourself with the situation. "

"Sure."

Tang Huan nodded her head, and immediately activated the "Creation Divine Arts", the Dantian for the Nascent Soul and the "Nine Yang Divine Furnace" activated to their limits, and she flew forward.

Upon seeing this, the void rainbow quickly followed.

The closer they got to the center of the vortex, the more violent and violent the power of the sucking became. However, this level of strength was still insufficient to deal with Tang Huan. From start to end, Tang Huan's speed did not slow down at all, her body was also extremely stable without any signs of shaking.

Two or three hundred thousand kilometers passed in the blink of an eye.

Behind Tang Huan, the rainbows could no longer bear the attraction force from the sucking and began to show signs of falling. At this time, the admiration in his eyes for Tang Huan grew even stronger.

Following behind, he could not help but notice Tang Huan's situation, walking in the air above the whirlpool for a long time. From the start, Tang Huan seemed like he was strolling leisurely, it seemed extremely relaxed, even until now, he did not feel any difficulty, and actually ignored the terrifying sucking power as though it was nothing.

In comparison, he was in a much more miserable state.

Although he could still keep up with Tang Huan's speed, it was getting more and more difficult. He estimated that in at most fifty thousand kilometers, the power of the sucking would completely drag him down.

This kind of judgement caused him to be somewhat worried. Not to mention whether he could withstand the crushing pressure in the depths of the vortex, just his identity as a Void Beast was already a little difficult. If they entered the Ruins of God just like that, they might be killed the moment they appeared.

"Don't worry."

Right at this time, a voice sounded.

Immediately after, he felt a gentle power wrap around him, isolating him from the terrifying power of the sucking, his entire body immediately relaxed.

"Thank you, senior." The rainbow-colored light was as though a heavy burden had been lifted off its back.

Chapter 2244

Not long after, Tang Huan met the Great Sky Sovereign.

"Brother Tang Huan, you want to bring him into the Ruins? If I'm not wrong, he should be a dark void beast." The gaze of the Great Sky Sovereign fell on the figure of the Void Rainbow.

"Exactly."

Tang Huan nodded, "Big Brother Hannya, he's called Void Rainbow. The reason I entered the Ruins of God this time, is to use my true body to descend to the lower realms, and head to a place where the walls of the lower realms are connected to each other. At that time, I will need the help of Void Rainbow to open a passage into the space between the walls of the lower realms. "

"Go to the seams?"

Empyrean Hannya was a bit surprised. "There are life forms within the crack in the space. However, that place is extremely dangerous. Even a peak Superior Empyrean might lose their life there."

Tang Huan nodded her head: "I know, but I have to go to that place."

The Great Sky Sovereign did not ask Tang Huan for the reason why she didn't go. He was only silent for a moment, then said in a deep voice, "Fine, then I won't advise you. That's right, the passageway to the lower realms is also extremely dangerous. If you can't do it, don't act rashly. "

"Understood, thank you Big Brother Hannya."

Tang Huan nodded solemnly, "Then we will enter the Ruins of God."

"Go." Exalted Celestial Hannya slightly nodded as his gaze swept past the void.

"..."

Moments later, the two figures sunk into the depths of the whirlpool.

At this time, if one were to comply with the power of the sucking at the entrance of the Ruins of God, they would naturally reach a faster speed. However, Tang Huan did not do so, he still maintained her stable speed and brought the void rainbow into the depths of the vortex, unaffected by the sucking's power.

The lower they descended, the narrower the space of the whirlpool would be, and the power of the sucking would become even stronger.

Unknowingly, Tang Huan and the void rainbow had already reached the deepest part of the whirlpool, which was a white misty area with a radius of a few meters. The extremely terrifying power of sucking was released, and compared to the edges of the whirlpool, it was already many times stronger, as though it could tear apart everything.

Inside the depths of the whirlpool, the power of the sucking blotted out the sky and earth, filling up every inch of space in the surroundings.

Even with Tang Huan's cultivation, at this moment, she still felt a great pressure, and after all, he was not alone, and brought along a rainbow. Fortunately, Tang Huan's flesh body was extremely strong and the energy in her body had reached its peak, so she was still able to endure it.

However, at this moment, the eyes of the nearby Void Rainbow flashed with a thick sense of surprise and shock.

Although he did not personally come into contact with the sucking's power because he was under Tang Huan's protection, he was still able to sense it. Reaching this area, the spiraling sucking's power had already solidified, and could be seen clearly with the naked eye.

In the face of such power, no matter how stable something was, it would disintegrate into nothingness under the influence of the sucking.

However, what caused the Void Rainbow to become even more shocked was that even in such a dangerous situation, Tang Huan was still able to display her skills easily, and there was not even the slightest hint of panic on her face.

Tang Huan's body did not pause at all, in the next moment, she brought the rainbow-colored light and sank into the white mist below him. Immediately after, a cloud like force enveloped Tang Huan and Xu Hong, and then pulled their bodies, quickly descending. At this time, Tang Huan did not resist, because the power was different from the power of the sucking that was derived from the vortex, it was filled with the intent of the heavens.

Accumulation.

"Hmm?"

But after a short moment, Tang Huan could not help but exclaim.

The moment he sensed the profoundness of the Heavenly Dao, Tang Huan felt another wave of Heavenly Dao energy at almost the same time. Vast, vast, vigorous, ferocious, and even a little berserk roared out from the depths of the whirlpool.

"Sure enough."

Tang Huan took a light breath and felt a white light flash before her eyes. The terrifying power of the sucking had already disappeared without a trace and the energy that covered her body had also retreated like floodwaters.

At this moment, Tang Huan felt that she was in the starry sky.

In the pitch-black expanse of space, countless fragments of land were scattered about, be it large or small, sometimes up or down. Each piece of land was shining brightly, as if they were stars embedded in the sky.

The situation in this space was extremely complicated.

At the same time, there were also streams of auras that seemed to transcend the Heavenly Dao, flowing endlessly, as if they originated from the ancient times and were eternal. Among the two, there was also an extremely dense amount of celestial spiritual energy filling the sky, as well as a boundless amount of celestial spiritual energy filling the sky.

"This is the Ruins of God?" Void Rainbow's eyes lit up as he muttered.

"That's right, this is the Ruins of God."

Tang Huan nodded her head, her gaze flickering.

This Ruins of God was an extremely chaotic place.

Of course, this was just the feeling he had when he first arrived. It was just that with a single thought, an incomparably harmonious feeling involuntarily arose. The Heavenly Dao Aura, the aura above the Heavenly Dao, the celestial spiritual energy, and celestial spiritual energy seemed to have fused together into a perfect whole.

"Indeed, in a place like this, it can increase the chances of successfully obtaining a Divine level seat."

Tang Huan's brows revealed a smile, the Qi lines that surpassed the Heavenly Dao should have been left behind by the experts that had proven themselves. Capturing the meaning of the Qi meant that she would definitely be able to gain some insights, and in the process of obtaining the Divine Body, she would definitely gain some benefits.

Of course, this was not an easy place to enter.

Like the rainbow in the sky, if he did not bring her along, then even without Empyrean Hannya blocking the way, he would only have a fifty-fifty chance of passing through the entrance alive. Even he was the same. Gu Daozi, whose strength was still weaker than his, probably only had a twenty to twenty percent chance of making it to the Ruins of God alive.

If he couldn't even get into the Ruins of God, then naturally, it wouldn't be considered a success rate for him in raising his deity title.

"After so many years, finally, a new friend has entered this damn place."

A long burst of laughter suddenly reverberated in the air, like a great bell ringing, causing one's ears to buzz endlessly.

The moment the voice came out, a black figure appeared at the end of their line of sight, and slowly flickered, avoiding pieces of land of different sizes, his speed was extremely fast, in an instant, he had already appeared in front of Tang Huan and Xu Hong, impressively, it was a strong and sturdy man.

Although this brawny man's aura and that of Empyrean Hannya's had different characteristics, they were the same. They both had the same feeling of transcending above the Heavenly Dao. It was obvious that he was also a demigod like Empyrean Hannya.

Black Costume Brawny Man looked at Tang Huan with both eyes, while she ignored the rainbows beside him.

"I am Tang Huan, greetings senior."

Tang Huan looked at Black Costume Brawny Man, cupped her hands and smiled, she was neither humble nor arrogant. Although this Black Costume Brawny Man was also a demigod, he was different from the Great Sky Sovereign. When they first met, Tang Huan had willingly put herself in the position of a junior. Although Tang Huan also called this Black Costume Brawny Man senior, in actuality, Tang Huan had an equal mentality ...

To treat him.

The Black Costume Brawny Man was unconcerned about this and laughed: "Regardless of age or cultivation, as long as you can enter this place, you will be considered as one of the same generation. Tang Huan, my name is Duan Yuan, I will directly call you by your name, and you can also just call me by my name. There is no need to call me senior anymore. "

"Brother Duan."

Tang Huan nodded and smiled, then spoke again.

Duan Yuan laughed out loud. Before he could even speak, he let out a cold snort, "A mere Superior Peak Empyrean is able to repair the barrier? I think Hannya is really old and muddleheaded, to actually place their hopes on such a little brat. "

These words not only mocked and ridiculed him, they were also filled with the bearing of an old man.

The moment she said that, the owner of the voice appeared in a flash. It was a young lady with a beautiful face, tall and slender body, wearing a white dress as white as snow, with a frosty expression on her face. She coldly stared at Tang Huan, and a cold glint flashed deep within her eyes.

"I didn't expect to see you again."

Tang Huan smiled lightly. The moment she saw the woman, the image of a person appeared in the depths of Tang Huan's mind. It was the "Ancestral God Sculpture" that Tang Huan had seen at the Tian Clan's lair all those years ago.

This woman was obviously the Heavenly Sovereign of the Tian Clan. She descended from the lower realms, her residual soul attached to the "Ancestral God Sculpture", as she continuously sacrificed herself as the Holy Maiden of the Tian Clan. At that time, Tang Huan's mother, Ji Ruyi, was the Holy Maiden of the Tian Clan. After that, Tang Huan attacked the Tian Clan's lair and completely destroyed the "Ancestral God Sculpture".

If not for this, as the new Holy Maiden of the Tian Clan, his cousin Ji Jin Xiu would not have been able to escape his fate of being sacrificed.

It could be said that in all of Ji Ruqing's encounters, this Heavenly Sovereign Tian Clan was the main culprit. Now that Tang Huan saw him, although there was a smile on his face, there was not a single trace of happiness in his eyes.

"I also didn't expect that we would meet here." The white-clothed woman gave a cold snort.

"Ji Yun, Tang Huan, you two ... You actually know him? "

Duan Yuan looked at the girl in white and then looked at Tang Huan in surprise. According to his knowledge, Tang Huan was extremely young, not even five hundred years old, and the girl in white, Ji Yun, had not left this place for thousands of years. However, the two of them not only knew each other, but had a grudge with each other?

What was going on?

"Ji Yun? "So that's your name." Tang Huan raised her eyebrows, her eyes revealing a look of ridicule, "The surname 'Ji', on you, is truly tainted."

"Tang Huan, shut up!"

Ji Yun's eyes turned cold as he stared at Tang Huan. Killing intent surged in his eyes, "In front of me, you don't even have the right to speak nonsense. Since you can enter the Ruins of God, you should treasure this opportunity. "If you dare to continue to be so disrespectful, don't blame me for finding you to properly calculate the debt from back then!"

The instant his voice fell, an exceptionally terrifying aura seeped out of his body and headed towards Tang Huan.

"Ji Yun, this is exactly what I wanted to tell you."

Tang Huan laughed continuously as a majestic aura surged out from her body. It seemed to have solidified and surged forward, its aura as powerful as a thunderbolt.

An instant later, the two auras forcefully collided together.

There was no heaven-shaking explosion, but an incomparably ferocious wave of Strength Qi rippled outwards in the surroundings. Tang Huan, Ji Yun, and Duan Yuan remained standing and unmoving. However, the moment the Void Rainbow touched this wave, its expression couldn't help but change greatly as its body involuntarily retreated several thousand kilometers backwards.

In this silent confrontation, Tang Huan and Ji Yun were actually evenly matched. Duan Yuan's gaze swept past Tang Huan and Ji Yun, and his eyes couldn't help but reveal a hint of astonishment. One was an upper peak Sky Sovereign, while the other was a demigod who had already condensed nine divine crystals ... Under normal circumstances, the strength of both sides could be said to be extremely obvious, but now, he was confused ...

Logically speaking, under the oppression of Ji Yun, this demigod, even the most powerful of the Upper Sky Sovereigns would not be able to withstand it. But not only did Tang Huan withstand it, he was not at a disadvantage in the slightest. If he hadn't seen it with his own eyes, he definitely wouldn't have believed that an Emphyrean would be able to do such a thing.

How could Tang Huan not be weaker than Ji Yun?

How was this possible?

Duan Yuan's gaze seemed to be rooted to Tang Huan's body. After the initial shock, the doubt in his eyes grew stronger and stronger.

He wasn't the only one. Ji Yun was shocked.

Earlier, she only wanted to teach Tang Huan a lesson and hadn't really planned to make a move. Even though this Tang Huan had destroyed her soul in the lower realms, now, she was a person that Hannya valued greatly. She had to give him this bit of face.

However, even if he was only using his aura to suppress it, it was not something that the Sky Sovereign could resist.

After all, she was still a semi-god, and although her strength was not as strong as a true expert's, it was not something that Tang Huan, who had never broken through the limits of an Sky Sovereign, could compare to.

However, the final result made her feel even more inconceivable.

Tang Huan, who was only at the peak of the Upper Sky Realm, could actually resist her pressure?

From the very beginning, Tang Huan did not retreat half a step, nor did his body sway even a little. Furthermore, the aura Tang Huan gave off, was strong as well, and gave off a faint feeling that even she could not describe it clearly ... It even made her heart palpitate slightly.

This was simply a joke! Tang Huan was not a demigod, but an Sky Sovereign!

If not for the Dark Void Beast behind Tang Huan, who instantly retreated thousands of miles, Ji Yun would have suspected that there was something wrong with his cultivation.

It was just an accident!

I don't believe that Tang Huan can withstand the first time, but I don't believe that he can withstand the second or third time!

Ji Yun narrowed her beautiful eyes as the coldness in them became even stronger.

In front of her, the corner of Tang Huan's mouth curled up slightly, forming into a mocking smile, but she didn't have the slightest intention of retreating. The opponent had nine divine crystals, he only had three, and although it looked like he was strong and I was weak, his Chaos Immortal's physique had succeeded, causing Tang Huan to not be afraid of such a level of threat. If he couldn't even defeat a demigod, then what was she supposed to talk about?

Chapter 2245

Tang Huan and Ji Yun went head to head, and for a moment, the atmosphere in the area became incomparably heavy.

Both sides were about to start a fight when a burst of laughter suddenly came from afar, "Ji Yun, our new friend just arrived. It's not appropriate to be fighting like this."

As the sound of his voice faded, another silhouette appeared in the distant horizon.

It was a slender old man dressed in green who looked like he was strolling leisurely. However, his speed was extremely fast and in the blink of an eye, he had already appeared between Tang Huan and Ji Yun.

"You two, why don't you give me some face and just let it go?"

The green robed elder looked at Tang Huan and Ji Yun, and said smilingly, "The Heavenly Energy from the neighboring plane is currently invading. If the two of you were to fight, the entrance to the Divine Ruins will definitely be affected.

The voice paused slightly before the green-robed old man said earnestly, "Therefore, even if the two of you truly have a grudge that is difficult to resolve, it is not suitable for you to fight here."

"Forget it, for your sake, I won't bother with him for now."

Ji Yun snorted coldly, "If I am to leave this Ruins of God one day ..." Ji Yun stopped abruptly, but the meaning behind his words was very clear.

"Anytime!"

Tang Huan's face darkened slightly as she said unrestrainedly.

Ji Yun was the distant ancestor of the Forging God Great World, so there was a high chance that Ji Ruyi was even her blood descendant. Of course, after so many years had passed, that bit of blood was already extremely thin, and it wouldn't pose any mental hindrance to Tang Huan. The battle between him and Ji Yun would definitely be a battle of life and death for both of them.

Ji Yun laughed disdainfully as his figure disappeared into the distance.

Duan Yuan's lips moved slightly, as if he wanted to call out to Ji Yun, but in the end, he did not. In the blink of an eye, Ji Yun had already disappeared without a trace.

"Brother Tang Huan, my name is Song Gao Yang."

The green robed elder watched Ji Yun leave and shook his head helplessly. He then looked away, looked at Tang Huan with a face full of smiles, and said happily, "I heard brother Hannya mention you a long time ago, I didn't think that you would reach the Divine Ruins so quickly. This is a great thing."

Song Gao Yang's expression was filled with emotion as he said, "With you here, there will be hope for repairing this wall."

"Brother Song, you flatter me."

Tang Huan smiled, seeing that both Song Gao and Duan Yuan were looking at him with shining eyes, she could only repeat what she had said to Hannya. Regardless of whether it was Hannya, Song Gao Yang, or Duan Yuan, they all felt that he could fix the surface barrier, but he wasn't as optimistic.

If he were to use the Dao of Primordial Fire to begin repairing it, then the Heavenly Dao of the other world would definitely not sit idly by and watch as that barrier was completely repaired by him.

At that time, he might become the first target of the Heavenly Daos.

As a result, it was hard to say if the Heavenly Dao could protect him. Of course, if he had already succeeded in proving the Divine Throne before repairing the surface barrier, then it would be much easier. The Divine Realm expert should be able to withstand the attack of the Heavenly Dao from the neighboring world.

Therefore, before he was completely confident, no matter how others tried to persuade him, Tang Huan would not rashly make a move.

Once he was in the process of repairing the surface barrier, his soul would be scattered. Those cultivators that had gone up to the nine heavens would not think well of him. Perhaps after finding out the news of his death, he would be the one to add insult to injury. Tang Huan did not want to put Shan Shan and the others in danger because of him.

"We're going to the lower realms ..."

"Brother Tang Huan, it's extremely dangerous for you to descend to the lower realms with your original body. Even if you're a peak level Sky Emperor now, it's possible that you'll lose your life in the passage to the lower realms. Moreover, you still have to bring it along with you."

He pointed to the virtual rainbow that had just approached from the distance. Song Gao's expression was grave as he said, "It was like this when you descended from the God Ruins. Returning to the God Ruins from the lower realms is also extremely dangerous. As for those slits that are connected to the spatial barrier, their danger level is no less than that of the God Ruins and the lower realms. "

"Brother Tang Huan, you must not be rash!" "The passage connecting the God Ruins to the lower realms is extremely strange. The higher the cultivation of those who enter, the more dangerous it becomes. We've stayed in the Ruins of God for countless years, and we've never dared to lightly try. "

The higher the cultivation, the more dangerous it was. Furthermore, the lower the cultivation level, the less dangerous it was.

However, people with low cultivation couldn't even enter the Ruins of God. It was completely impossible to sneak in using a method of hiding in another's spatial space.

"I have made up my mind. Brother Song and Brother Duan do not need to persuade me anymore."

Tang Huan laughed, to cross the heavenly tribulation from the lower realms and enter the upper realms was to comply with the heavens' dao, and to travel from the upper realms to the lower realms was to act against the heavens' dao. Naturally, it was extremely dangerous. In regards to this, Tang Huan had long since been mentally prepared. Now that she was in the Divine Ruins, how could she possibly retreat?

After a slight pause, Tang Huan said again, "Can I trouble Brother Song and Brother Duan to bring me to the passage and take a look?"

"Fine."

Seeing that Tang Huan was so stubborn, Song Gao Yang and Duan Yuan both helplessly nodded.

This trip of Tang Huan's could be said to be fatal. If something were to happen to him, the matter of repairing the spatial barrier would be delayed indefinitely. If she wanted to wait for a cultivator with the Chaos Daos Fire to appear, the chances of that happening were extremely slim. Even if it did appear, it would probably be countless years later.

It was still unknown if the barrier would be able to hold on until then.

If the surface barrier completely collapsed, it would be too late.

Four figures that were like lightning rapidly shuttled back and forth between the fragments of the land. It was just that in about half an hour, Song Gao Yang and Duan Yuan had already stopped in front of them.

"Here it is!"

Song Gao pointed downwards.

Tang Huan and Xu Hong followed his gaze and looked down. They saw a black hole with a radius of a few hundred metres, vaguely visible under the cover of a few pieces of land. The black hole was completely silent and did not emit any aura. It was like an ancient beast with its mouth wide open, wanting to devour a person.

"Thank you Brother Song and Brother Duan."

Tang Huan cupped her hands and smiled, as she said gratefully.

The moment Tang Huan saw the black hole below, she checked her memory of the Immortal World's evolution. The passage between the God Ruins and the lower realms was indeed at this location.

Song Gao Yang nodded, then said: "Brother Tang Huan, in my opinion, it wouldn't be too late for you to cultivate in the Ruins of God for a period of time before you head down to the lower realms."

When Duan Yuan heard this, he also agreed, "That's right. Although the higher the cultivation level, the more dangerous it is to enter, but the stronger you are, the greater the chance you have."

"Thank you for your good intentions Brother Song and Brother Duan." Tang Huan thought for a moment, then shook his head and said, "My cultivation has already reached the peak of the Sky Sovereign, so cultivating here, will probably not increase by much in the near future. Since that was the case, it would be better to leave as soon as possible. In that space, anything could happen. It was better not to delay it for too long ...

"

"Since that's the case, Brother Tang Huan, take care."

Song Gao sighed softly. Duan Yuan also felt helpless.

They thought that it wouldn't be difficult to force Tang Huan to stay here. Doing so would indeed prevent Tang Huan from getting into danger, but they would definitely become enemies with Tang Huan.

At this time, no matter how unwilling they were to see Tang Huan heading towards the lower realms, they could only keep this thought in their hearts.

Tang Huan nodded her head, her body slowly descending. Not long later, she arrived at the edge of the black hole.

Xu Hong also followed him over. She stood by Tang Huan's side and looked at the dark area in front of them with a bit of trepidation. Tang Huan did not use any means to control him, but the void rainbow did not dare to have any ill intentions. After the short confrontation between Tang Huan and Ji Yun ended, it became even more so.

Not to mention that there were even SemiGod experts like Song Gao Yang and Duan Yuan in the Ruins of God, just Tang Huan alone was enough to completely suppress him. Although he did not have any confidence that his original body would descend into the lower realms, at this moment, if he were to escape, Tang Huan would definitely not show him any mercy.

Rather than dying in vain under Tang Huan's hands, they might as well fight it out until the last minute, just in case they succeeded in entering the lower realms.

Furthermore, he believed that Tang Huan would definitely not stand idly by the side and watch him get into danger. After all, Tang Huan still needed him to open a passageway to enter the spatial crevice.

Tang Huan did not immediately enter the black hole.

The moment his mind touched upon the interior of the black hole, an unparalleled suction force exploded outwards, dragging Tang Huan's mind along with it as he headed deeper into the black hole.

At this moment, Tang Huan's mind seemed to have turned into a rubber band that was being stretched unceasingly.

The rubber band was elastic, and it grew longer and longer. However, no matter how long it could be stretched, there was still a limit. Once he reached his limit and continued to stretch, his skin and tendons would definitely be broken. This was the case for the skin and tendons, as well as for the mind of the Cultivator.

After the skin tendons were broken, it could only be scrapped, but after the mind was broken, it would damage the soul.

In just a blink of an eye, Tang Huan's mind had been pulled to an unfathomable depth by the black hole's suction. The limit that her mind could endure, had already been reached. With a thought from Tang Huan, the three divine crystals at the "Nine Yang Divine Furnace" and Dantian's Nascent Soul were activated to the extreme.

The boundless meaning of primal chaos and the intent to transcend the Heavenly Dao quickly fused into his mind.

As if the elasticity of his skin had suddenly increased by a large amount, Tang Huan's strained and extreme mind actually relaxed, and once again followed the terrifying suction force and went deep into the black hole.

Time passed bit by bit, and soon, twenty to thirty breaths of time had passed.

Not far away, when Song Gao Yang and Duan Yuan saw Tang Huan, their eyes couldn't help but reveal a hint of astonishment. She had stayed in the Ruins of God for a long time, so she naturally knew a lot about this black hole. She had used her mind to probe the black hole many times, but to no avail.

Seeing Tang Huan's actions, they knew what Tang Huan was doing.

Based on their experiences, they estimated that Tang Huan's mind would collapse in the next five breaths of time, and her soul would be heavily injured. However, as if they had agreed on it beforehand, they did not make any sound to remind Tang Huan. It was not a bad thing to have a soul that was severely damaged before it entered the black hole.

It allowed Tang Huan to fully understand the dangers of this passage. If she were to give up the idea of descending to the lower realms, then it would be for the best.

But as time passed, Song Gao Yang and Duan Yuan were both stunned.

Five breaths later, Tang Huan was safe and sound ... After ten breaths, Tang Huan was safe and sound ... Twenty breaths had passed but Tang Huan still did not receive any form of injury. Looking at Tang Huan's current situation, it was clear that his mind was still in the black hole and there was no sign of it breaking.

Song Gao and Duan Yuan were both a bit baffled. An abnormality like that completely overturned their understanding.

With the two of them being demigods, their minds were focused on the black hole, so they weren't able to hold on for more than ten breaths.

For a peak Highest Empyrean, it was already a very good result if their mind could last for five breaths of time. The greatest possibility was that after two or three breaths of time, their mind would collapse. But the strange thing was, Tang Huan had already persisted for twenty to thirty breaths of time, and there wasn't the slightest hint that she couldn't endure it at all.

No matter how strong Tang Huan was, she was still not out of the Sky Sovereign Realm, but how could his mind be so strong?

Unknowingly, another twenty breaths passed by ... Song Gao Yang and Duan Yuan looked at each other, and both saw an unconcealable look of disbelief and shock in each other's eyes. In total, it had already been forty to fifty breaths of time, yet Tang Huan, a peak Superior Empyrean, was actually able to hold out for such a long time.

Eyes.

The two of them stared at Tang Huan blankly, flabbergasted.

"Whooosh."

After nearly ten breaths, Tang Huan heaved a long sigh of relief, and her faintly closed eyes suddenly sprang open.

"Brother Tang Huan, how do you feel?" Song Gao Yang suddenly woke up. His body moved slightly, and he appeared beside Tang Huan, staring straight at him.

"Brother Tang Huan, your mind, uh, your soul ..."

Duan Yuan appeared beside Tang Huan like a bolt of lightning as he asked, unable to suppress his emotions. However, halfway through his words, his voice suddenly stopped. Looking at Tang Huan's current condition, his soul definitely did not have the slightest intention of being damaged ... But how was this possible?

In the span of fifty to sixty breaths, Tang Huan's mind was completely focused on the black hole, and yet it did not collapse.

"I'm fine."

Tang Huan waved her hand and shook her head with a smile, "Brother Song, Brother Duan, I just tried and found out that the suction of this black hole was indeed very scary. It almost tore off my mind, but luckily, I managed to endure it in the end and was able to see some of the worlds outside this black hole."

"A world outside the black hole?"

Hearing Tang Huan's words, Song Gao Yang and Duan Yuan were both shocked and stunned. Immediately after, Song Gao Yang anxiously asked, "Brother Tang Huan, your mind entered the lower realm beyond the black hole?"

"That's right." Tang Huan nodded her head, and laughed: "My luck is good, I never expected to succeed."

Chapter 2246

Earlier, under the influence of that suction force, Tang Huan's consciousness had continuously sunk into the black hole. In the end, it had actually passed through the black hole and entered a space that was extremely rich in spirit energy.

That space must be some large world in the lower realms.

Tang Huan originally wanted to explore a little more, but unfortunately, his mind could already bear it no longer. Without waiting for his mind to be ripped apart, Tang Huan took the initiative to sever the connection between her soul and that mind. Although this would consume a large amount of soul force, it was still better than having one's mind torn apart and having one's soul be damaged.

However, even though his words were simple, the shock in Song Gao and Duan Yuan's hearts couldn't be described with words.

As far as they knew, from ancient times till the present, there had never been a single cultivator whose mind could pass through this black hole and reach the lower realm.

This was something not even a demigod could do, let alone an Emphyrean.

But Tang Huan, the Sky Sovereign at the peak of the Upper Sky Realm, had done such an unbelievable feat. Moreover, from the looks of it, it seemed to be rather relaxed.

Just how powerful was Tang Huan's soul to be able to do this?

Tang Huan could naturally see the uncertainty in Song Gao Yang and Duan Yuan's eyes. She only smiled slightly and did not explain.

Divine crystals and divine crystals were also different.

Song Gao, Duan Yuan, Hannya and Ji Yun all had nine divine crystals, but Tang Huan was completely confident that their mental state would definitely not be able to match her. Although Tang Huan only had three Divine Crystals, each of his Divine Crystals had reached the standard of a Divine Witness.

As for the divine crystals of Song Gao Yang, Duan Yuan, and the others, they would definitely not reach that level.

The strength of the divine crystal also meant the strength of the soul. And an extremely strong soul, naturally allowed Tang Huan's mind to accomplish many things that others couldn't.

"Brother Song, Brother Duan, we will be leaving now."

In a moment, Tang Huan took a deep breath, she then grabbed onto the rainbows beside him and jumped into the black hole. In that moment, both of their figures had disappeared.

It was as if two small stones had fallen into a vast ocean, causing no waves at all.

At the edge of the black hole, Song Gao Yang and Duan Yuan had already come back to their senses. They subconsciously exchanged glances and then looked back into the black hole without saying anything.

"He went in?"

After a while, a sneer sounded.

Soon after, Ji Yun appeared beside the two of them. Her eyes contained a hint of ridicule, "Cultivating in the Ruins of God means that there's a chance to become a Demigod. Even if the Demigod fails, there's still a chance for him to become a Demigod like us. But he just went down to the lower realms to torture."

"Going to the lower realms is fine, but you still want to enter the space between the cracks."

Ji Yun then snorted coldly, "In my opinion, even if his life wasn't lost in this black hole, he would still have been thrown into the crevice."

"Ji Yun, can't you say something nice?" Duan Yuan frowned, and said in a dissatisfied tone, "If Brother Tang Huan is dead, then there will be no one who can repair the spatial barrier on the face of our world. Once the Heavenly Dao of the next world invades us, not only will our world disappear, all of us Demigods will perish as well."

"

Ji Yun curled his lips and replied, "If I die, so be it. I've been tired of living for a long time!"

"You ..."

Duan Yuan was instantly enraged.

"Alright, alright. Both of you, stop talking." Song Gao Yang withdrew his gaze from the black hole and sighed, "Even though we are already SemiGods and have lived for a long time, we have not

truly stepped into the Divine Realm yet. If we cannot prove our dao, then even if we die, we won't be willing to accept it. "

" ... "

Duan Yuan and Ji Yun fell silent.

He failed at a critical moment and was unable to verify his dao. Although he was lucky enough to survive and become a demigod, he was still not a true Divine level expert. Regarding this, not only was Song Gao Yang unwilling, Duan Yuan and Ji Yun were also unwilling. Hannya, who was guarding the entrance to the Ruins of God, was the same.

Under normal circumstances, it would be almost impossible for demigods to truly prove themselves as Deities.

However, there were exceptions.

Whether or not he could become an exception depended on whether or not he could seize this opportunity.

"I hope he comes back alive!" After a long while, Song Gao Yang let out a long sigh.

"I actually have quite some confidence in him. According to what I know, this Brother Tang Huan is really extraordinary. "From ancient times till now, I have never heard of a cultivator from the lower realms who used less than five hundred years to achieve such an achievement." Duan Yuan was flabbergasted.

"That's right."

Song Gao Yang couldn't help but nod his head and laugh as well. "Even the Divine Cast Dragon Abyss that transcended tribulation countless years ago is comparable to him."

"Don't boast about him like that. Even if he comes back alive, so what?"

Ji Yun laughed and said, "I don't believe that he alone is enough to fix this face barrier. You just wait and see, the greater the hope, the greater the disappointment, there will be a time when you will regret it in the future. Hannya was also muddle-headed, she actually placed all her hopes on him. "

Ji Yun didn't say anything else after he finished speaking. He moved his body slightly and disappeared from the spot.

Song Gao and Duan Yuan couldn't help but look at each other and shake their heads. In an instant, they too had disappeared. The black hole's surroundings once again returned to dead silence.

Inside the black hole, the moment Tang Huan entered, the terrifying suction force immediately pulled him down.

At that moment, Tang Huan was enduring an unparalleled force.

Once he was inside the black hole, the suction force came from all directions, causing Tang Huan to feel as if his body was the same as his mind from before, being continuously stretched.

His mind could extend along the suction force rapidly, but his body could not reach such a state.

His mind, under the support of the divine crystal, could pass through the black hole and reach the lower realm. However, if his body had been infinitely stretched, the final result would definitely have been countless shattered pieces. In other places, with his body being destroyed, Tang Huan still had the confidence to form a new body.

However, in this black hole, if one's body were to collapse, there would be no way to survive.

Therefore, if Tang Huan wanted to reach the lower realms safely, she had to first be able to resist the pull of the black hole's suction force. Not only did he have to withstand it, she also had to help Kong Que to withstand it and not let him fall here.

If not for his help, even if Tang Huan managed to reach the lower realm safely, it would have taken much more effort to enter the space between the cracks. And it was because of this that Tang Huan had already fully unleashed the "Creation God Technique" the moment he felt the pulling force.

"Nine Yang Divine Furnace" and "Dao Nascent Soul" also quickly circulated as boundless power roared out of his body like a violent storm.

He and the Void Rainbow were completely wrapped inside. Not only that, Tang Huan had also activated "Primal Chaos Daos", covering the surface of their bodies.

The suction force from the black hole was like a tidal wave that was swept away by a hurricane. It kept pressing down on the two of them, layer after layer, seemingly endless.

After a moment, Tang Huan felt a huge pressure.

Although the 'Primal Chaos Dao Flame' was able to melt the energy that was rushing towards him, its speed was still slower than the energy that was pressing down on him. In the next moment, Tang Huan felt that the barrier that she had created with her own power on the surface of the void rainbow seemed like it was going to shatter.

Tang Huan knew that the suction force of this black hole was completely formed from her Heavenly Energy.

The process of passing through this black hole passageway was the process of resisting the power of the Heavenly Daos. Before the Divine Proof, the stronger one's cultivation was, the stronger the rebound would be when fighting against the power of the Heavenly Dao.

At this critical moment, Tang Huan did not dare to hesitate at all. With the force that could topple mountains and overturn the seas, she continuously rushed out from the Nascent Soul to resist the suction.

Time slowly passed.

Ten breaths ... Twenty breaths ... Time seemed to pass extremely slowly within this black hole, and every breath, to Tang Huan, felt as if it had taken tens or hundreds of years. Tang Huan understood the reason behind this feeling, it was because Tang Huan had to endure the suction force from the black hole thousands to tens of thousands of times during this period of time ...

Pull. Wave after wave of stretching power was concentrated to the extreme, causing Tang Huan's power to dissipate at an alarming rate.

Thirty breaths!

40 breaths!

Tang Huan's heart had already tensed up, she had not passed through the black hole yet, but his energy was almost depleted.

It had been several hundred years since he had cultivated to this day, but Tang Huan had never thought that the speed at which his own energy was being consumed would actually reach such an unbelievable level.

It had to be known that although Tang Huan was a peak Superior Empyrean, her powerful body of a Primal Chaos Immortal coupled with her bizarre Dao Nascent Soul allowed him to accumulate power that far surpassed peak Superior Empyrean like Gu Daozi and Qin Xian Ye. However, in just a short period of time, Tang Huan's power had already been depleted.

Of course, Tang Huan also understood that the reason she was using up her strength so quickly was probably because she had brought the Void Rainbow with him.

If not for the rainbow, Tang Huan should still be able to leave behind a roughly average power, enough to persevere until the moment she could pass through the black hole's passageway.

"Should we detonate a divine crystal, or ..."

Tang Huan thought quickly.

One of the reasons he was so certain that he was able to bring the Void Rainbow through the black hole tunnel was because of the three divine crystals.

If a single divine crystal was detonated, it would be sufficient to provide enough power for him and the Void Rainbow to pass through the black tunnel. However, detonating the divine crystal would definitely inflict severe damage to the Dao Nascent Soul. After entering the lower realms, it would take a long time to recover.

Furthermore, once the divine crystal was ignited, it would completely disappear and Tang Huan's strength would drop by a large amount.

In the future, when he was able to condense the third crystal, his cultivation and strength would be restored to its peak. Tang Huan was still willing to pay the price of a Divine Crystal. But what Tang Huan was hesitating about was, if his strength dropped greatly, it would definitely affect his movements in the crevice of the space.

But if he didn't detonate the divine crystal, then the only thing he could do was ...

At that time, there was already no time for Tang Huan to think about it; within the span of a mind instructs (in a second), Tang Huan had already made her decision. In the next moment, Tang Huan firmly clenched her teeth, and that remaining portion of energy as well as the "Primal Chaos Dao Flame" instantly surged out in all directions like a volcanic eruption.

The sudden eruption of power created a safe zone around Tang Huan.

In between the mind instructs (in a second), the "Nine Yang Divine Furnace" appeared and sucked in the void rainbow that did not have any intention of resisting. The moment Tang Huan withdrew the cauldron, that safe zone had also completely disappeared. The pulling force generated by the black hole's suction force came surging over crazily, bringing along great billows and perilous waves.

At this time, the Sky Origin and Dao Fire in Tang Huan's body were completely exhausted, and the pulling force had already completely landed on Tang Huan's body.

In that moment, the clothes on Tang Huan's body turned into flying ashes.

Regarding this, Tang Huan had already expected it and had already mentally prepared herself.

Almost the instant that power touched his body, Tang Huan's body had undergone a miraculous change. As a result, after the robe disappeared, the body that Tang Huan revealed became as clear and translucent as the Immortal Spirit Ancestral Court. It looked like it was made out of clear glass, as if it was carved out of beautiful jade.

Using the flesh body to resist the suction of the black hole was a choice that Tang Huan had long considered.

Before entering the black hole, Tang Huan was still a little hesitant. Or was she going to use her flesh body to take it head-on? After entering the black hole, the balance in Tang Huan's heart started to tilt towards the latter. Because of this, with just a thought just now, Tang Huan had quickly made her decision.

The skin, muscles, fascia and bones of Tang Huan's body were not only indestructible, they were also extremely flexible.

The toughness of the Primal Chaos Immortal's body had already reached an extremely terrifying level. When the black hole's energy pressed down, Tang Huan was actually able to forcibly endure the extension of the energy.

This greatly increased Tang Huan's confidence.

However, Tang Huan also knew that this situation could not continue on forever. No matter how powerful his Chaos Immortal's body was, it still had a limit to what he could endure. Right now, what Tang Huan needed to do was to endure through this black hole with his flesh body until the moment she passed through.

Based on Tang Huan's previous experience of passing through the black hole with her mind, the entire process should last for around sixty breaths of time.

It was more than half over now!

Tang Huan concentrated completely on her own body.

The pulling force came wave after wave, and Tang Huan's body was able to resist it repeatedly. The supporting time continued to extend, one breath, two breaths ... Five breaths, six breaths ...

After holding on for almost eight breaths, Tang Huan felt her body beginning to slowly stretch.

Even if Tang Huan tried her best to hold on, it would be difficult to reverse this trend.

When it was ten breaths of time, Tang Huan felt that her body had almost become twice as long, and was almost five meters long. No matter how tough an ordinary person's body was, it was impossible for them to be stretched like this. Even a cultivator would not be able to reach such a state.

However, Tang Huan's body seemed to have turned into a spring.

Five meters, six meters ... Ten meters ... Fifteen meters ...

Twenty meters!

Inside the black hole, Tang Huan's face was already extremely ugly. Without using any sort of sacred art or technique, his body had been forcibly stretched to this extent, to the point where it could reach the limits of her Primal Chaos Immortal Body. If she were to continue, his body would probably break apart.

It seemed he still had to use his divine crystals! But just as Tang Huan was making her decision, her eyes suddenly lit up, and an extremely relaxed feeling emerged.

Chapter 2247

"It's a success!"

Tang Huan let out a long sigh of relief, following which his body burst out into crackling sounds of explosion, and his elongated body rapidly shrank, in an instant, returning to its original state.

A brand-new black robe flickered, and at the same time, wrapped around his body, Tang Huan steadied his body, as he soared into the air, his eyes quickly sweeping through his surroundings.

Directly below was a piece of barren land. Around the wasteland, circular peaks rose high into the sky, encircling the wasteland in the center like iron buckets. And above Tang Huan's head, was the black hole.

Between the heaven and earth, there was complete silence, a deathly stillness.

"I wonder which great world this is from the lower realms, and how far is it from Forging God Great World?"

With just a thought, Tang Huan had floated down, passing through the Black Hole Passage in the Ruins of God, exhausting all of his Sky Origin and Fire Force. Even her Primal Chaos Immortal's body began to feel a strong sense of exhaustion, and she needed to cultivate properly until she completely recovered.

"Roaaaaaar!"

But the moment Tang Huan's feet touched the ground, a deep growl suddenly came out from the depths of the ground.

The corner of Tang Huan's mouth lifted slightly, and a faint smile floated on it. In a flash, Tang Huan's body retreated a few hundred metres, following that, the vast ground in front of him started to reveal crisscrossing cracks, and then, the soil started to rise up at a speed visible to the naked eye.

It was as if something was breaking out from the earth.

Tang Huan quietly watched the scene unfold without a hint of panic on her face. When she was sizing up her surroundings, Tang Huan had already instigated her mind to scout out the area within hundreds of thousands of kilometers around him. In this large area, besides the plants, there were no other cultivators or creatures with any other auras other than the ground. An extremely powerful life force was hidden deep underground ...

Life Qi.

The reason why this area was extinct was because there was such a creature hidden under the black hole.

Obviously, Tang Huan's appearance had alarmed it.

With that creature's strength, even if Tang Huan's power was exhausted, it still would not be able to sense Tang Huan's existence. However, after Tang Huan rushed out of the black hole, he made quite a big movement, so it was impossible for the creature below him to not hear it. However, Tang Huan did not take this to heart.

Before entering this dimension, the creatures that could threaten him in this lower realm were almost non-existent.

Unless another super strong expert like Yan Zu appeared.

"Rumble ..."

A moment later, countless motes of dust exploded into the air.

A huge blood-red figure instantly appeared. It looked like a crocodile that had expanded countless times; it had a sinister appearance and its body was covered with blood-red scales.

At the moment, the gigantic beast opened its mouth slightly, and there were two rows of sharp teeth on its upper and lower rows of teeth, as though a sharp sword, saliva was flowing out from between its teeth, dripping down from its lower jaw to the ground. Its two gigantic eyes stared straight at Tang Huan, and the ruthless and bloodthirsty light seemed to congeal into a solid mass.

"Roaaaaaar!"

Another roar resounded.

The gigantic beast opened its big mouth, its thick forelimbs stopped, Pang Shuo's body soared into the sky, directly pouncing towards Tang Huan, as though it wanted to swallow him whole.

"You're the wrong person to show off to."

Tang Huan laughed to herself.

After a moment, the blood red beast that was pouncing in front of Tang Huan suddenly trembled, and dropped down from the sky with a loud thud, causing a large amount of sand to fly in all directions. The gigantic beast crawled back into the hole it had made, motionless. Its eyes were filled with deep fear.

At this time, the huge beast was not even a meter away from Tang Huan. With a stretch of its tongue, it could suck Tang Huan into its mouth, but it did not dare to make the slightest of movements. This was because in that very instant, it felt a terrifying aura that caused even its soul to tremble within the body of the human cultivator in front of it.

Under the suppression of that aura, even its soul was trembling. Not to mention continuing to attack, it could not even turn around and escape.

What he sensed just now was the aura emitted by the divine crystal Tang Huan. As a living being of a lower realm, who had yet to ascend to heaven through tribulation, no matter how strong he was, he would not be able to withstand the suppression of the divine crystal's aura. After all, there was a world of difference between the two.

Even though it didn't know what cultivation level this human cultivator in front of it had, it instinctively knew that the other party was not someone it could contend against.

As a result, not only did it not dare to move, it did not even dare to breathe loudly.

Tang Huan smiled, raised her hand and lightly patted the blood red beast's head, the beast's body uncontrollably trembled, a strong sense of fear and despair emerged in her eyes, as if she was afraid that the palm would accidentally kill him.

"It's not easy for me to reach your level of cultivation in the lower realms." Tang Huan clapped a few more times with a smile, then waved his hand and said, "Don't be afraid, go back, I won't kill you! However, don't even think about running away, just stay down there. In a few days, I still have some questions to ask you. "

"Woo ..."

As if amnesty had been granted, the giant beast heavily nodded its head, letting out an extremely grateful whimper from its mouth.

In an instant, the long tail of the huge beast was like a steel pillar that directly pierced deep into the ground. Its two hind legs quickly dug a few times, and its body drilled back into the ground at an astonishing speed. In the blink of an eye, the huge beast disappeared without a trace.

Seeing the mess in front of him, Tang Huan could not help but laugh.

This small episode made Tang Huan feel much more relaxed. Soon after, Tang Huan sat down on the ground with her legs crossed, and in the span of a mind instructs (in a second), a "Heavenly Abyss Golden Immortal" appeared in her hands.

Even though the spirit energy in this place was extremely dense and exceeded that of the Forging God Great World, it was already useless for Tang Huan's cultivation. If Tang Huan wanted to recover quickly, she would still have to borrow the Yan Luo Golden Immortal's power to absorb the Primal Chaos power and the Immortal Spirit Qi from the "Immortal Spirit Ancestral Court".

Tang Huan and the Immortal Spirit Ancestral Court were very far away, and one of them was in the lower realm and the other was in the upper realm.

Only after a long while did the origin energy leak out from the flower like strands of silk.

With a thought from Tang Huan, the "Nine Yang Divine Furnace" appeared in her palm, and in the next moment, the figure of the Void Rainbow floated out from the cauldron and floated to the side.

"Senior, you're already in the lower realms?" In the blink of an eye, the Void Rainbow sized up the area for a moment and then said with a bit of surprise and joy.

"That's right."

Tang Huan nodded and smiled, "Xu Hong, you should rest here for a while, wait for my strength to recover before setting off."

Logically speaking, since Tang Huan had exhausted all of his strength, and his strength was inferior to before, this was not the best time to release the Void Rainbow. After all, if the Void Rainbow discovered that his strength had decreased greatly, it was very likely that it would think of something that it shouldn't have.

However, Tang Huan was not worried about this.

As long as this Void Rainbow wasn't stupid, it wouldn't act rashly.

Because, without Tang Huan's help, he would never have been able to pass through the black hole and return to the Ruins of God. If she continued to stay in the lower realms and did not return, he would no longer have any hope of proving her prowess as a Divine Spirit. Furthermore, even though Tang Huan's strength had plummeted, she still had the strength to protect herself.

Void Rainbow wasn't stupid. He naturally knew what he could and couldn't do.

"Yes sir!"

Xu Hong hurriedly agreed.

Tang Huan did not speak further. The moment she kept the cauldron, she had already activated the [Creation Divine Art] to its limit, continuously absorbing the origin power that the Yan Luo Golden Immortal had transferred to him, and began to quickly refine it.

The rainbow-coloured light quietly sat down beside Tang Huan and scanned through their surroundings.

With just a thought, he knew that something had happened right before he came out. It was obvious that the guy below him had launched an attack on Tang Huan, but in the end, he had been completely stunned.

Since Tang Huan spared that guy's life, the Void Rainbow naturally would not kill it again.

As a result, after a while, he no longer paid any attention to the fellow underground. His two eyes once again landed on Tang Huan's body, and reverence could be seen from the depths of his eyes.

When he entered the black hole in the Ruins, although he did not directly face the suction from the passageway, he could feel how terrifying the suction force was. If he were to bear the power himself, he would most likely be burnt to ashes in less than ten breaths of time.

However, not only had Tang Huan withstood it, she had also protected him.

From this, it could be seen just how powerful Tang Huan was. Even if his current situation wasn't too good, she wouldn't be able to easily deal with him.

As a result, at this time, the Void Rainbow didn't even have the slightest intention of attacking Tang Huan.

Because he was very clear that the moment he took action, Tang Huan would definitely have some sort of strong countermeasure. At that time, the one who would die would definitely be himself. This was his instinct. He believed in his own intuition, otherwise he wouldn't have been able to live for so many years.

Time passed little by little, day and night alternating nonstop.

Several days later.

"Whooosh."

Tang Huan heaved a long sigh of relief and kept the Yan Luo Golden Immortal. She had indeed used up too much energy this time. It took him a few days to completely recover.

"Senior." At the side, Void Rainbow immediately opened her eyes, "How do we get to the crack space now?"

"There's no rush."

Tang Huan waved her hand and laughed, "Let me ask you, what is this place?" With that, Tang Huan lightly tapped the ground with her palm, "Come out!" The sound waves were like hammers, smashing straight into the ground.

"Roaaaaaar!"

Roaring, the ground in the distance rose up once more. Not long later, a hideous blood-red head emerged from the mound. After which, its entire body quickly burrowed out from the ground, and it

quickly moved forward a few dozen meters. The huge beast lay on the ground like a cat, its two large eyes staring at it ...

It was full of fawning on him, and then, one of the of the huge beast came out: "Greetings, senior. May I ask what senior wishes to ask?"

"Do you know what sort of world this is?" Tang Huan went straight to the point.

"Reporting to you, senior, this is the Azure Blood Great World." The huge beast hurriedly let out a mind instructs (in a second).

"The Azure Blood Great World ..."

While muttering these words, Tang Huan's mind started to churn. When she was in the Heaven Realm, he had obtained a map of the lower realms. The map was detailed with the locations of each major world. Now that she thought about it, there was the name "Azure Blood Great World" inside.

The image of the Celestial Realm that had changed into a Heaven Realm flashed across Tang Huan's mind. After comparing it with the map of the lower realms, she soon determined the location of the Forging God Great World.

The Forging God Great World was extremely far from the Azure Blood Great World, and there were even hundreds of other great worlds in the middle of it.

There were very few tunnels and tunnels between the great worlds here, and there were no teleportation formation connections either. In the case of the Forging God Great World and the Vermillion Bird great world, there were only a few exceptions. There were no shortcuts, which meant that in order to travel to the outside world, Tang Huan had to travel a very long distance.

"Do you know the Forging God Great World?" Suddenly, Tang Huan asked.

"Forging God Great World? Senior, does the lower realms have another great world like this, one that is far from Cang Xue?" The huge beast's eyes revealed a perplexed expression.

"..."

Tang Huan shook her head slightly and did not say a word.

Tang Huan had already anticipated the answer from the huge beast, and didn't hold much hope in the first place. It was only natural for this fellow to not know about the Forging God Great World, but if it did, it would be abnormal. Many cultivators from the lower realms didn't even know what kind of great world was next door.

If the Forging God Great World was very close, Tang Huan wanted to go take a look first. After all, it wouldn't take too long.

But since they were so far away, they could only go to the seams.

In the blink of an eye, a ball of white mist appeared in Tang Huan's right palm. With a slight flick of her finger, this ball of mist floated towards the huge beast.

Seeing this, that enormous beast was shocked. It did not dare to dodge, but fear was revealed in its eyes.

Tang Huan smiled lightly, then said in a deep voice: "This is one of my Mind Stigma, for the rest of the time, you will stay here. You are not allowed to go anywhere, and you are not allowed to go through heavenly tribulation, until we return."

After pausing for a moment, Tang Huan added, "At that time, I will naturally take back this Mind Stigma."

"Yes, Senior!"

The huge beast did not dare to disobey and hurriedly agreed, but it was more at ease. It believed that this kind of powerful expert would not lie to it.

"Very well, go back."

Tang Huan raised her hand and waved back the blood red beast.

The reason why he left his Mind Stigma in the body of the huge beast was very simple. That was, when he returned to the Azure Blood Great World in the future, he could use this Mind Stigma as a guide so that he could quickly return here. If they entered the void of darkness, they could avoid getting lost.

"It's time to make another deduction." Tang Huan took a light breath, "Void Rainbow, guard this place well."

"Yes sir!"

The virtual rainbow complied, and its figure instantly appeared on the peak of the mountain in the distance. Tang Huan cleared her distracting thoughts and calmed her mind. In the next moment, she had already unleashed the "Blood Refinement Heart Canon" ...

Chapter 2248

"Slash ..."

The sound suddenly burst out.

Tang Huan stood in the air, the Pure Yang in her hand swung out a gigantic sword beam, and like a waterfall, it smashed onto the spatial barrier of the great world.

It was so sharp that it could even be seen everywhere, tens of thousands of miles away.

The spatial barrier was instantly torn apart, and a dark rift that was a hundred kilometers long appeared out of nowhere at high speed.

"Huff ..."

Tang Huan and the illusory rainbow body became flowing light and instantly disappeared into the crevice, merging into the darkness.

After the two of them entered the dark void, the crevice quickly closed up. In a short one to two breaths' time, it had returned to its original state, and the terrifying sword intent that remained in the void was a sign of the shocking scene that just happened here.

After a long while, several figures appeared in front of the spatial barrier. Shock that could not be hidden was revealed between their brows.

"What a strong sword intent..."

In the blink of an eye, he sized it up for a moment before sighing, "I've cultivated for hundreds of years, but I've never seen such a terrifying sword intent! If that senior were to use his sword intent without holding back, the entire Azure Blood Great World would probably be destroyed by his sword intent. "

At the end of his words, the old man's eyes revealed a strong sense of fear.

"Great, then is senior really so terrifying?"

A tall and sturdy man at the side could not help but say. The others also looked at each other in disbelief.

Roughly ten thousand kilometers away from the spatial barrier, there was a fairly powerful sect that could rank in the top three of the Azure Blood Great World.

They were all cultivators from that sect.

In the Azure Blood Great World, they could be considered as the peak group of cultivators. However, in the sect encampment just now, the sudden sword intent had scared them out of their wits. In the instant that the sword intent swept past, everyone was paralyzed on the ground, unable to move.

Just that fleeting sword intent was already so terrifying, so how powerful would the cultivator who activated it be?

However, although they had already tried their best to estimate the cultivator's strength, the old man's words still caused them to feel that it was inconceivable.

Destroy a major world? Could this be a joke?

In the lower realms, who could be a cultivator at such a level?

"In that case, I'm afraid that I've still underestimated that senior."

The old man naturally knew what the crowd was thinking, he glanced at them and sighed, "In our lower realms, it is obviously impossible for anyone to have cultivated to such a level, but don't you forget, in the heart of our Azure Blood Great World, what is that black hole that has existed since ancient times?!"

The tall and sturdy man and the others were stunned for a moment before they instantly sucked in a breath of cold air.

"My lord, you mean to say, that senior came from ..."

A young woman wearing a yellow dress pointed to the sky with a look of disbelief.

The burly man and the others also had shock that was hard to hide between their brows. They stared at the old man, as if wanting to hear the negative answer from his mouth.

"That's right." "If it were not for the fact that a senior descended from above, where would he have obtained such terrifying strength? If my guess is correct, that senior should have used his sword just now to break through this spatial barrier and enter the dark, empty world. That sword intent was only emitted when he wielded his sword."

I can't use it at all. " As he spoke, the azure clothed old man's eyes couldn't help but reveal a trace of yearning and admiration.

A single sword blow had shattered the spatial barrier ...

Just the mere thought of it was incomparably shocking and shocking.

In that instant, everyone became silent. They were all stunned by the scene that the elder described.

After a long while, the tall and sturdy man couldn't help but say hesitantly, "It's too high. Didn't they say that it's impossible for someone to come out from the black hole?"

"Is there anyone that can descend from there? How would those of us from the lower realms know?"

The green robed elder laughed involuntarily, "Furthermore, even if someone really did come down from there, they wouldn't tell us. However, it would be extremely difficult to get down from there. An expert like that senior just now should be as rare as phoenix feathers and qilin horns, even up there. "

When everyone heard this, they subconsciously nodded their heads.

Even if it was a normal cultivator, they would not be able to get close to them, let alone a powerful cultivator at the top. That kind of character was said to have the terrifying ability to destroy the heavens and the earth, overturning rivers and seas. Perhaps he really did possess the terrifying ability to destroy a great world.

"Grand Elder, what is that senior trying to do?" someone on the side asked curiously.

"How would this old man know?"

The old man in green shook his head and smiled, "It is said that the black hole is extremely dangerous. That senior must have had a very important thing to take the risk and descend here. "Let's go. That senior has already left. It's time for us to return."

"..."

Everyone gradually disappeared into the distance. The terrifying sword intent that had suddenly appeared had become a mysterious legend of the Azure Blood Great World.

At this moment, Tang Huan, who had created the legend, had already brought the rainbow into the Supreme Profound Hall of the cave and quickly advanced according to the guidance of her bloodline.

Whoosh.

The Myriad Sword Heavenly Diagram was like a faint, white stream of light, constantly shuttling through the endless darkness.

With a clear direction, there was no need to worry about getting lost. With Jianxin controlling the cave, Tang Huan could take advantage of this time to peacefully cultivate inside the Supreme Profound Hall.

Both the primal chaos and immortal spirit energies of the Immortal Spirit Ancestral Mountain were sent over via the Heavenly Dao.

Even if it was inside the cave, Tang Huan would be able to unceasingly absorb the Immortal Spirit Ancestral Peak's energy and refine it using the "Smokey Golden Immortal" method.

Tang Huan's heart was as calm as water, she did not know how much time had passed.

"Boom —"

He did not know how much time had passed, but a loud sound seemed to have burst forth from within Tang Huan's Dantian Dao Nascent Soul, and in an instant, a mystical and terrifying aura surged out from Tang Huan's body.

"The fourth divine crystal!"

Tang Huan still had her eyes closed, quietly sensing the changes in her Nascent Soul, but she could not help but reveal a happy smile.

At this moment, within Tang Huan's Dantian Dao Soul, there was one more divine crystal, and it was missing one more dao crystal.

The increase in the number of God Crystals and Dao Crystals had brought about a drastic increase in Tang Huan's strength. Currently, Tang Huan was still a peak Superior Heavenly Sovereign, but

her strength had at least doubled compared to before. If she were to face an expert like Ji Yun at this time, Tang Huan would definitely be more confident.

The soaring of his strength had also allowed Tang Huan to become more confident in his trip through the crack in space.

With every additional divine crystal, Tang Huan's strength would increase greatly. If she could condense nine divine crystals before breaking through to the Divine Realm ...

Once he succeeded, Tang Huan's strength would definitely surpass any previous generation who had just proven their abilities.

In a moment, Tang Huan's heart became excited, but she instantly calmed down and continued to use the power of the Yan Luo Golden Immortal.

By the side, the rainbow-coloured light that was sitting with its legs crossed had awoken. It looked at Tang Huan in surprise.

The aura that had burst out from Tang Huan's body earlier, was beyond the limits of the Heavenly Dao, causing him to jump in fright. If he was not certain that Tang Huan was indeed a peak Superior Empyrean, he would have thought that Tang Huan was already a SemiGod expert like Ji Yun, Duan Yuan, Song Gao Yang and the others.

A peak Superior Empyrean emitted an aura that actually contained a meaning that surpassed that of the Heavenly Dao ...

The virtual rainbow was inconceivable.

However, the next moment, a light of pleasant surprise flashed in the rainbow's eyes.

The so called 'Proof of God' was above the Heavenly Dao.

Right now, Tang Huan had yet to prove her divinity, and her body already possessed a will that transcended the heavens. This would definitely allow him to have a great advantage that other Sky Sovereigns could not compare to. If she continued to cultivate like this, the moment Tang Huan started to reach the Divine Level, the process would be much easier than for others.

After the other Emphyreans reached their peak cultivation, they spent all sorts of effort to make all sorts of preparations. Only then did they tremble with fear as they tried to break through to the Divine Realm, hoping to obtain that tiny sliver of hope. But for Tang Huan, although she did not have a hundred percent chance of breaking through to the Divine Realm, she was definitely seventy to eighty percent.

Compared to the countless failed Emphyreans from ancient times, not to mention a seventy to eighty percent success rate, even a ten percent was incomparably frightening.

Currently, in the Heaven Realm, there were only a mere twenty or so Emphyreans.

Even if another few thousand years passed, it would be very difficult for the number of Heavenly Sovereigns to exceed fifty. And amongst the current Sky Sovereigns, and the ones in the future, Tang Huan was definitely the one with the most hope of proving herself.

After understanding this point, the happiness at the bottom of Void Rainbow's heart was somewhat difficult to suppress. Although he was also one of the most powerful beings in Heaven Realm, he was still a Dark Void Beast, his success rate as a god witness was even lower than a human Sky Sovereign. But now, he saw a glimmer of hope for success. "Following an expert who has the best chance of becoming a witness to the gods, the harvest is bound to be extraordinary"

Big.

At this moment, Xu Hong suddenly felt that she was incredibly lucky.

Back then, in the void of darkness, if not for the fact that he was closely chasing after Tang Huan's space in her cave abode, he would have missed this great opportunity.

However, if he wanted to follow Tang Huan, he had to complete this mission well.

The virtual rainbow let out a sigh, suppressing the excitement in its heart. Before this, he had thought that it would be easy to get by, but now, he completely changed his mind. Whether it was in the lower realms or when he returned to the Ruins of God, he had to firmly hold onto this thick leg.

"Master!"

Time flew, and after a long while, a light call woke Tang Huan from her cultivation.

"But where are we?"

Tang Huan suddenly opened her eyes and asked.

stopped his cultivation in the span of a few mind instructs (in a second) s and returned back to the Dantian as well. At the side, the Virtual Rainbow heart felt something and also suddenly opened its eyes.

"Exactly."

The moment Jianxin made a firm response, Tang Huan and Xu Que's silhouettes had already disappeared from the Supreme Profound Hall.

The next moment, the two of them appeared outside of the Myriad Sword Heavenly Diagram. Within his line of sight, a misty white aura spread out like a rapidly churning wave, seemingly without end.

"That is the space between the cracks?"

Tang Huan thought slightly, and her boundless consciousness rushed forward.

At this time, Tang Huan did not hold back at all. Within the Dantian, her nascent soul and "Nine Yang Divine Furnace" started circulating, and the four divine crystals were activated to the limit.

An instant later, Tang Huan sensed an extremely chaotic and berserk aura fluctuation, as though it was a violent storm that had been stirred up by a hurricane. Song Gao and the others didn't exaggerate at all over the crevice. Even the air they emitted was like this, not to mention the crevice itself.

However, no matter how dangerous the space inside the crevice was, Tang Huan could not retreat.

"Void Rainbow, it's up to you!"

Tang Huan took a deep breath and looked at the rainbow-coloured light.

"Senior, don't worry. Just leave it to me."

The Void Rainbow heavily nodded its head. In the next moment, its body began to fluctuate rapidly, and before it could even blink of an eye, the Venerable Dark Void Beast's original body was revealed. It glanced at Tang Huan, then roared and shot forward towards the ball of white mist.

"Roaaaaaar!"

In a split-second, the enormous snake-like Dark Void beast and the spatial barrier in the crevice were very close.

Tang Huan's eyes fell on the huge beast's body, her heart was actually a little nervous, this space between the gaps, was not the space barrier of the big worlds of the lower realms, so swallowing it would be extremely difficult.

If the Void Rainbow couldn't work, Tang Huan could only think of another way.

However, just as this thought flashed through Tang Huan's mind, the Zun Stage Beast had already opened its mouth wide, and even more so, its mouth wide open to the extreme.

"Hu!"

After the flick of a finger, a dark black Qi exploded out of the beast's mouth like a volcanic eruption, pouring onto the white, fog-like spatial barrier.

The dark black aura seemed to have a very strong corrosive effect, and in an instant, a dent appeared on the spatial barrier.

The rainbow-colored light did not stop at all as a pitch-black Qi continuously howled out from its mouth, bombarding the spatial barrier that was in the crevice.

As time passed, the hole became bigger and deeper. Tang Huan watched from afar for a while, and couldn't help but smile. This Void Rainbow indeed did not disappoint him, the Void Stage Beast's instinct of devouring the spatial barrier was extremely strong, it could even devour space between the gaps. Of course, it was also fortunate that the Void Rainbow was the strongest in Heaven Realm, the Dark Void.

If it were any other supreme beast, no matter how many there were, they might not be able to shake this spatial barrier.

In the span of a mind instructs (in a second), Tang Huan's body had already floated forward. After a short while, Tang Huan had already appeared by the side of the huge head of the Dark Void Beast. At this moment, the huge head had already traveled half of the way through the pit into the spatial barrier, and the surroundings of the head were also surging with black energy, constantly eroding the berserk white-colored odor s around.

Chapter 2249

However, as time passed, Tang Huan discovered that the speed at which the virtual rainbow body penetrated the spatial barrier was getting slower and slower.

The dark void beast was not like other beasts, its body was completely made up of energy.

The more powerful the body, the bigger the body.

If his strength was greatly depleted, his body would also gradually shrink. Of course, as long as his strength recovered, his body would also expand to its original state.

The reason for such a change in the body of the Void Rainbow was self-evident.

Tang Huan was not in a rush, the energy accumulated by the void rainbows was incomparably majestic, and could sustain itself for a long time. Furthermore, it was currently still in the void, and the Netherworld Behemoth could absorb energy from it at any time to replenish its energy.

According to Tang Huan's judgement, the spatial barrier was as strong as the spatial barrier in the Heaven Realm. It was obviously impossible to completely engulf the barrier with just the power of the Void Rainbow, but it should be possible to open a small pathway in the spatial barrier.

What Tang Huan needed now was to wait quietly.

Time trickled by slowly. Tang Huan stood still as a statue, but her heart was as calm as water. Within her line of sight, Xu Hong's body had already shrunk to almost half its original size. Most of her snake-like body had crawled into the spatial barrier, leaving only a small piece of his tail outside.

"It should be about time."

Tang Huan's mind followed the rainbow's body and spread inside. A moment later, she arrived at the front of the Dark Void Beast's head, and the aura she felt from there became even more berserk and chaotic.

"Haha, success! Senior, quickly come in!"

Right at this moment, the Void Rainbow suddenly let out a loud laugh. Almost at the same moment its voice fell, the spatial barrier in front of them suddenly vanished, and Pang Shuo's body abruptly surged forward. Outside of the spatial barrier, Tang Huan did not hesitate at all.

In the blink of an eye, Tang Huan had already closely followed the enormous Dark Void Beast, passed through the passage that had just been completely cleared, and entered into the crevice space.

The moment they rushed out of the passageway, the passageway behind them quickly closed.

And it was also at this moment that Tang Huan sensed an extremely ferocious storm sweeping over from her side, with power akin to a thunderbolt that was at the peak. Vigorous and majestic energy surged out from his body, both of her legs seemed to have rooted out, as she forcefully withstood the attack, and remained unmoving inside the storm.

After a blink of an eye, Pang Shuo's body had already rapidly shrunk, turning into a human body. His brows were filled with surprise, and his body was also swaying in the storm. It was obvious that it was a bit strenuous, as if he could be blown away by the storm at any time.

Tang Huan reached out her hands and grabbed, pulling the rainbow closer to his body, the power that surged out from his body enveloping it.

At this time, Tang Huan finally had the time to carefully size them up.

The tempest had completely condensed into a misty white substance, like a huge torrent of water rushing down majestically from the nine heavens, seemingly able to wash away all the obstacles in the world. However, the tempest came and went as quickly as it came, disappearing without a trace in the blink of an eye.

However, in half a breath's time, another storm came rolling in from another direction.

The storm had completely engulfed the entire area, covering Tang Huan and the Void Rainbow once again.

According to Tang Huan's senses, this storm should have occupied an area of at least a thousand kilometers. Of course, with Tang Huan's current formidable strength, she would be able to avoid the area of effect of the storm in an instant. However, after entering the space, it would be difficult for him to act rashly to prevent herself from getting into danger.

The chaotic and violent nature of this space was evident from the raging storm.

In addition, the tornadoes never stopped. If one was to go, then another would come. It was impossible to predict where they would come from. Even if it were a Void Rainbow at its peak, it would probably find it difficult to resist the onslaught and impact of the storm for a long period of time. Of course, he should be able to endure it for a short period of time.

While thinking, Tang Huan activated the "Blood Refinement Heart Canon".

Now that he was inside the crack in space, there was no need to go through all this trouble like before. Not long after activating his cultivation technique, Tang Huan could feel the pull of the bloodline.

In a blink of an eye, the windstorm disappeared, while Tang Huan turned to look to the right.

Ji Ru Man was over there!

At this moment, Tang Huan couldn't help but feel a hint of uncontrollable joy and excitement from the bottom of her heart.

Several hundred years had passed. From the small world to the Forging God Great World, from the lower realms to the upper realms, and from the upper realms to within the crevice of this lower realm ... Now, the day of their reunion was finally about to arrive.

Tang Huan took a deep breath and calmed herself down.

With a thought, the "Myriad Sword Heavenly Diagram" appeared in a flash of light, and sucked the rainbow into the dwelling space of the Supreme Profound Hall.

The role of the Void Rainbow was to use his powerful instincts to open up a tunnel into the crevice of space. The following matter was up to Tang Huan, and there was no need for him to help.

"It's time to go!"

Tang Huan muttered to herself, and explosively shot forward.

However, at the same time, an even more violent storm rolled over in front of them. Its speed was so fast that it was hard to imagine, and in half a blink of an eye, Tang Huan was caught up in it.

This was only the beginning. Powerful storms came roaring from all over the place, front and back, left and right, up and down ... It was like stormy waves, one after another. However, it was different from the waves. The storm was unpredictable and chaotic. The surrounding space was also constantly in a state of upheaval ...

This one.

Tang Huan had already expected such a situation.

In the midst of the tempest, Tang Huan was like a peerlessly sharp sword that revealed its edge, shuttling swiftly, her figure did not slow down in the slightest.

There was no land, no water, no birds or insects, no vegetation, and as for the people in this area, there was not a single shadow.

Aside from storms, there were also storms.

However, Tang Huan was clear that if they passed through this chaotic area, they would definitely be able to see a place suitable for living. Otherwise, it would be impossible for her mother, Ji Ru Huan, to live to this day.

Tang Huan did not stop at all, and continued moving forward as if she did not notice the passage of time at all.

After an unknown period of time, that chaotic storm, which was practically everywhere and was constantly in existence, finally began to appear less frequently, and the tempest also seemed to become weaker and weaker.

Another day had passed, and the storm had completely disappeared.

Within Tang Huan's line of sight, an unusually large white ball that was at least several hundred kilometers in size appeared, quietly floating in midair.

Without any hesitation, Tang Huan's mind rushed forward, and in that moment, she enveloped the ball.

After a while, Tang Huan's face revealed a smile. However, in her previous life, humans and other living creatures all resided on the surface of the earth. Here, all living creatures should be living within the sphere.

Because of this, the closer they got to this place, the fewer storms there were, and the weaker they became.

"I wonder where is the entrance to this sphere?"

Tang Huan thought for a bit, and then she heard a burst of buzzing sound. In the middle of the white ball, there was a gigantic arched hole, with a circular shape.

"Someone is coming out?"

With that thought, he had activated the ability of "Heavenly Invisibility", causing Tang Huan's figure to disappear from the place without leaving any trace. In just a few breaths of time, several figures shot out from the arched holes. Not long after, there were at least hundreds of thousands of people surrounding the round ball.

Although Tang Huan had hidden herself, she did not hide her thoughts.

From his senses, he could tell that the cultivation levels of these hundreds of thousands of people were not bad. The lowest was a high-grade Heaven stage, and the vast majority was a Heaven Lord or even a dozen Heavenly Kings. When this group of people appeared, they gathered together in groups of twos and threes before sitting down cross-legged in the air.

Shortly after, strands of strange energy came out of the void and was absorbed by the cultivators.

"He's actually cultivating?"

Tang Huan frowned in surprise. She no longer had the interest to continue watching and in an instant, she floated forward and arrived in front of an arched cave.

At the entrance of the cave stood two high-grade Heavenly Lords, one on the left and one on the right.

After pausing for a moment, Tang Huan rushed over, to be able to hide her body at all times, even if she could not, it did not matter if she was discovered.

At the entrance of the arched cave, the air rippled and Tang Huan's figure was contained inside.

"Hmm?"

In the blink of an eye, the two high level marquises looked at the space where the arched cave had been restored to its former tranquility. They exclaimed in surprise before exchanging glances with each other. They could see a trace of doubt in each other's eyes. However, the two of them did not say much. It was obvious that they thought everything that had happened was just an illusion.

Passing through the arched hole, a magnificent sight suddenly appeared in front of Tang Huan's eyes.

Five continents floated in the space inside the sphere, from top to bottom. Mountains rose and fell above the land, and the jungle was dense. Rivers snaked about, and lakes were embedded in them. On each land mass was a city of varying sizes, within which could be seen the figures of Cultivators.

These five pieces of land were connected by a spiral staircase that seemed to be formed from clouds and mist.

From time to time, he could see figures on the stairs.

At this moment, Tang Huan subconsciously thought of the small world's Heaven's Spirit Secret Realm. The structure of the sky spirit realm was extremely similar to the inside of this sphere. Of course, if they were similar in structure, the other situations would be completely different.

The two pieces of land below this ball were filled with dense spiritual energy.

However, from the third continent onwards, the amount of celestial spiritual energy in the sky became denser and denser. The third continent was equivalent to the 36th day, the fourth continent was equivalent to the 18th day, and the top continent was equivalent to the 9th heaven.

This strange phenomenon caused Tang Huan to be stunned.

But after a moment, Tang Huan seemed to have awoken from a dream. The space within this sphere seemed to be the world of the entire plane ...

Zoom.

The small piece of land at the bottom was the "small world" that Tang Huan first appeared on.

The second piece of land was the Forging God Great World. The three lands above them corresponded to the lower, middle and upper Heaven Realms. The cultivators on the ground below were the weakest, and there were even some ordinary people. The strongest group could go through the stairs and enter the second piece of land.

The powerhouses of the second land mass could climb the stairs and enter the third land mass, as if they were undergoing heavenly tribulation.

And so on.

The higher the land, the stronger the cultivators.

On the third continent, the strongest powerhouse was only the Sky Marquis, and on the fourth continent, there was the residence of the Sky King. As for the fifth continent, there was the residence of a Sky Emperor and their servants.

There were no Emphyreans in this sphere.

After all, even in the Upper Nine Heavens, Emphyrean level powerhouses were still extremely rare. In this tiny sphere, the chances of an Emphyrean appearing were indeed very low.

The small realms, Forging God Great World s, lower heaven realms, middle heaven realms, and upper heaven realms have distinct levels.

The same was true for the sphere.

However, the fact that the entire sphere, five continents, and millions of people was able to produce a Celestial Emperor was indeed quite surprising.

Of course, this was a good thing for Tang Huan.

The stronger the cultivators here were, the easier it would be to understand the situation of the space.

In a moment of thought, Tang Huan's figure moved, and directly entered the third continent. All the circular archway were connected to this piece of land.

As for the cultivators of the two continents below, the majority of them had no hope of ever leaving the round ball, unless they could constantly break the shackles of their cultivation level.

Only by having the strength to enter the higher levels of the land would one be able to see the wider world.

Tang Huan's body moved like lightning and in the blink of an eye, she was already inside the city. The staircase to the upper level was at the center of the city.

"Ayaya ..."

When Tang Huan reached the bottom of the stairs, there was a figure that was rolling down from above like a ghost, constantly knocking against it. When Tang Huan landed, her face was already swollen from nose to face, but she slowly got up.

This young man must have wanted to force his way into the Upper Land, but he ended up failing.

The nearby cultivators weren't surprised by this. They only looked at it for a bit before continuing to do their own business. However, there were a few cultivators who seemed to be familiar with the young man and made fun of him. The young man snapped out of his daze, gave an embarrassed smile, and ran off like a wisp of smoke.

Tang Huan laughed unwittingly, and then slowly walked up the stairs.

This step was indeed filled with increasing pressure, but to Tang Huan, it was no different from scratching an itch when such a small amount of power was pressing on her body. In the blink of an eye, Tang Huan had already reached the top of the stairs, and the moment he stepped on the last step, she was swept up by a wave of energy and was brought to the top of the stairs.

Chapter 2250

Everything was silent, and not a single cultivator from the upper or lower levels was alerted.

Tang Huan's footsteps did not stop for a moment, and quickly reached the center of the fourth floor. She climbed up the stairs once again and stepped onto the piece of land at the top of the sphere.

His mind quickly spread out, and in the time it took to snap a finger, the entire piece of land had entered Tang Huan's perception range.

In the middle of the land, there was a city that was faintly discernible among the trees.

Although it was called a city, it was actually pitifully small. There were only a few dozen buildings, and all of them had different shapes. However, every one of them were extremely exquisite. Inside a dazzling palace, there were many young ladies standing on both sides. On the bed inside the palace, which seemed to be carved out of fine jade, there was a handsome young man sitting cross-legged with his upper body naked. Countless fine lines emerged from within his skin ...

At first, it was as if a spider web was crisscrossing in all directions as it condensed into complicated patterns. Dense golden light was revealed, illuminating his face in a rather demonic manner.

However, following the passage of time, the golden ray started to flicker and flicker. After a long time, it actually completely dimmed down.

"There's still no progress in training."

The young man opened his eyes and saw that the tattoos on his body had completely disappeared. He could not help but sigh helplessly and softly shout, "Someone, come!"

A moment later, a figure appeared in front of the bed like a ghost.

The young man seemed to have sensed something, and when he looked up, his entire body seemed to have been electrocuted in an instant. He froze, then his eyes went wide open, and they were filled with shock and disbelief.

The person who appeared in front of the bed wasn't his maid, but a man in black with a similarly handsome face. He had his arms crossed in front of his chest and was looking at Su Hao with a smile.

At this moment, the girls in the hall had also noticed the abnormality and immediately shouted out. Their charming faces were filled with astonishment and shock.

"Tsk tsk, so many maids. You really know how to enjoy yourself."

That black clothed man was naturally Tang Huan. After sizing up that young man from head to toe, he spoke with a smile, and a teasing look in his eyes.

"Senior, please forgive us for not greeting you when we meet."

The young man regained his senses, his expression changing slightly, but he quickly calmed himself down and jumped down from the bed. After tidying his robes, he bowed towards Tang Huan, an additional smile on his face.

"You actually did not get angry. This is somewhat out of my expectations." Tang Huan could not help but laugh.

"Senior must be joking."

The young man looked at Tang Huan with a respectful expression, "Senior was able to barge into this junior's Sky Ball 'without anyone noticing, and have even entered this junior's chamber. It can be seen that senior's strength far surpasses junior's. Although this junior is a Heavenly Emperor, I presume that in Senior's eyes, this junior is nothing. "

As he spoke to here, the young man faintly smiled: "The difference in strength is too great. Unless this junior is tired of living, how would I dare to be angry at senior?"

The maids in the hall had just regained their senses when they heard the words of the young man. They could not help but stare, tongue-tied, and could not believe their eyes and ears.

In their eyes, the young man was the supreme expert of this world.

But now, he was obviously showing his weakness to the black clothed man.

"You're smart."

Tang Huan laughed hoarsely. One had to say, this young man's reaction was quite wise.

If he had truly been angered to the point of attacking just now, Tang Huan would have definitely captured him long ago. After which, he would have searched through the memories in his soul, how could he joke around like this?

However, it was Tang Huan's first time seeing a Celestial Emperor like him.

Almost all the Heavenly Emperors in the nine heavens spent all their energy on their cultivation, and went into closed-door training for hundreds of years at a time. Even those with companions were the same.

Even Tang Huan, although she had four beautiful wives, had never been obsessed with beauty.

"May I know where senior came from?"

When the young man heard this, he immediately let out a sigh of relief and cautiously probed, "Do you have any instructions for me?"

Although he was a Celestial Emperor, he was still just a lower Celestial Emperor. In this chaotic space, he was not the strongest.

Above him, there was still the even more formidable Celestial Emperor. The moment he saw Tang Huan, he could tell that this uninvited guest was very likely to be the Upper Sky Emperor. Otherwise, it would be impossible for the other party to barge into the Sky Ball without alerting him, much less barge into his chambers.

A Superior Heavenly Emperor was not someone he could contend against.

If they angered him, he would probably be crushed into smithereens with a raise of his hand or a leg. Fortunately, his reaction was fast, and from the looks of it, the Upper Sky Emperor would not kill him.

"You don't need to know where I came from." Tang Huan smiled indifferently, "However, I did indeed have some matters that brought me here to look for you."

"It is junior's honor to be able to serve senior." The young man quickly said, and then waved his hand towards the back. "You guys leave first!"

"Yes sir!"

Although the maids were astonished, they did not dare to delay and quickly left.

"Right now, the two of us are the only ones in this palace. Senior, if you have any instructions, please do not hesitate to instruct us." Not long after he finished speaking, the young man added, "Senior, please rest assured. No matter what you do, this junior will definitely keep it a secret."

"It's not that serious. As for the secret... It's not a secret. "

Tang Huan smiled slowly and said, "If I want to do your thing, it's very simple. That is, tell me everything in this space."

"That's it?"

The young man was slightly dazed when he heard this.

He originally thought that Tang Huan would instruct him to do some difficult or secretive things, but he never expected that the thing that Tang Huan requested of him would be so simple.

However, from Tang Huan's words, it was possible that the other party had come from the outside world.

The moment this thought flashed through his mind, the young man was immediately shocked. The Bedlam Lands was almost completely isolated from the outside world. It was very hard for people from the outside world to enter. However, there would occasionally be one or two people who could be swept into the chaotic space, but it was almost impossible for the people inside to leave.

The spatial barrier was so strong that it caused all the cultivators who wanted to leave to feel despair. As a result, they completely gave up on such thoughts.

This senior must have been drawn in by the spatial turbulence as well. Moreover, he had just entered not too long ago and didn't know much about the situation in this chaotic world. That was why he had come looking for him.

"Of course."

Tang Huan smiled, "Tell me everything you know."

"Yes, Senior."

The young man came back to his senses and hurriedly introduced, "Senior, we are in a space that is connected to the surface barrier. "Of course, although it's called a crevice, it's actually very broad ..."

According to this fellow's introduction, Tang Huan made a comparison in his heart. He estimated that this crevice was about ten times the size of the Forging God Great World.

In this crevice, most of the areas were filled with chaotic storms and spatial turbulence.

And in these storms and spatial turbulence, floating in the air were balls of varying sizes. The cultivators in this space called them the "Sky Sphere".

No one knew how the sphere had appeared, nor did anyone investigate it.

All the cultivators in the space were gathered in the various sky balls. There were over a million people with a few hundred million, and there were even a few billion people.

In all of the heavenly spheres, the strongest powerhouse was the upper peak Sky Emperor. It seemed that Sky Sovereign did not have one.

It was said that the Heavenly Energy here was extremely weak; it simply wasn't enough to support a peak peak Empyrean level Heavenly Emperor to ascend to an Empyrean.

"If I want to go to another Sky Ball, is there a shortcut?"

After a long while, the young man finished his introduction. Tang Huan pondered for a moment and could not help but ask.

The reason why he wanted to understand the situation of this crevice was because he could sense that his mother was still rather far away from him. Although the rising and falling chaotic storms couldn't stop him, it still had a significant impact on his speed.

If he continued to advance like he had before, it would probably take him a very long time to reach his destination.

However, if there were shortcuts, it would save him a lot of time.

"Senior, please look at this."

The young man opened up his right palm, revealing a thin jade slip. It was round in shape and as thin as a cicada's wing. It was about the size of a palm, and it was sparkling and translucent.

The jade piece was inlaid with many white specks of light. Some of the specks of light were connected by a curved thread.

"Is this a map of the crevice?" Tang Huan's brows slightly twitched.

"Exactly."

The young man held the jade slip in his hand and placed it in front of Tang Huan, "Senior, each and every speck of white light here represents a heavenly ball. Follow the route and you can reach the other spheres. These routes are all relatively safe, and can avoid the strongest storms and spatial turbulence. "

"These lines are only for security reasons, but they don't save time." Tang Huan frowned slightly.

"Senior, don't be in such a hurry." The young man smiled and quickly explained, "In this chaotic world, there are many enormous heavenly balls that have been constructed with transfer arrays to other celestial spheres. If I follow the route and reach the sky balls, then use the teleportation circle, I'll naturally be able to save a lot of time. "

"That's good. Where are we now?" Tang Huan muttered to himself.

"Here."

The young man pointed to the southwest corner of the jade piece. There, a small white dot burst out with a much denser light than the surrounding white dots, "This map is for Senior. Senior, as long as you concentrate your mind into it, no matter where you go, you will not lose your sense of direction. "

"Alright, then I won't be polite."

"Senior, just take it!"

Tang Huan smiled, she was not stubborn at all, and received the jade from the young man. Then, a white light flashed in front of Tang Huan, and floated towards the young man like a feather, and turned into a white jade sword, "This thing can be considered as your thanks."

"This is ..." The young man subconsciously grabbed it. The moment he touched the sword, an unusually sharp and terrifying aura seemed to have lost its restraints. It howled out crazily from the sword, as if it wanted to shatter the palace. This sudden turn of events caused the young man to be shocked. However, he quickly recovered.

His expression became incomparably excited. "This ... This ... This is a saint rank dao tool ...
"This is a saint rank dao tool, haha ..."

An excited flush involuntarily appeared on his face, and the young man was wild with joy.

"Elder..."

Just as he shouted out these two words, the voice of the young man abruptly stopped. The black figure that was in front of him just now had already disappeared without a trace.

After being stunned for a short while, the young man suddenly regained his senses, and with a jolt, he appeared in the air above the palace. In the blink of an eye, he swept his gaze around, and there were no longer any traces of Tang Huan.

However, the white sword in his hand had clearly told him that someone had been here before.

Initially, he had thought that the person who had come might be the Upper Sky Emperor, but now he had a faint feeling that his opponent's cultivation might have long surpassed the Heavenly Emperor Realm. Otherwise, how could a Celestial Emperor so casually gift him a saint rank dao tool? Furthermore, the quality of the dao tools was quite good.

At this moment, he felt a bit of regret. If he had known this would happen, he wouldn't have accepted the saint rank dao tool. He would have asked that senior to guide his cultivation.

If that was the case, with his stagnant cultivation base, he might be able to ascend to the next level.

However, the young man also had a premonition in his heart that this senior should be someone from the outside world. With his powerful cultivation, he definitely wouldn't remain silent all this while. Although this place was peaceful, it was not helpful for cultivation. It was time to leave!

The young man glanced at the sword in his hand, and his gaze became firm

... ..

What Tang Huan did not know was that due to him, the Heavenly Emperor in the Heavenly Sphere had made the decision to leave. He had just walked out of the Heavenly Sphere.

Outside the Sky Ball, many cultivators were still cultivating.

Tang Huan did not disturb them. With a slight thought, his mind was already immersed in the jade map in her palm. The map in the crevice was indeed mysterious. Every time Tang Huan's mind touched the white light inside, she would receive information about the Sky Ball that it represented.

In addition, his mind followed the directions on the map, allowing him to travel in this chaotic space with unparalleled accuracy. He didn't have to worry about cheap directions at all.

Tang Huan compared the direction that the bloodline power pointed to with the map.

After a while, Tang Huan had pretty much determined the exact location of his mother Ji Ru Mang. She should be in the northern Sky Ball. The distance from the southwest to the north of the space was extremely far. If she wanted to reach there in the shortest time possible, she would have to pass through the transmission arrays of those large heavenly balls.

Tang Huan's mind went upstream on the map, and very quickly found a Sky Ball with a teleportation circle near by.

Of course, the distance was only relative. There were still seven to eight celestial spheres between the one behind him and the other. It would take a very long time to get there. However, Tang Huan did not plan to follow the twisted paths on the map.

Following the route was indeed safe. However, what he cared about was not safety, but speed. In any case, with his cultivation level and strength, normal storms and spatial turbulence would not be able to harm him.
