

W. Master 2261

Chapter 2261

In this plane of existence, the area where the Heavenly Dao did not exist should be very close to the neighboring plane.

Tang Huan only needed to head in one direction now, and then walk around the edges of this region once. He was sure that he would be able to touch the walls of these two worlds. If this area still existed in the space between the cracks, they might be able to find the secret behind the Ghost God Clan's infiltration.

"Whoosh!"

In a moment, Tang Huan selected a direction, and with lightning speed, his body moved forward like a bolt of lightning.

At the same time, Tang Huan's mind was pushed to an extremely shocking level. This way, if something strange were to appear in front of him, he would be able to sense it with his fastest speed.

Time flew by, after an unknown amount of thousands of miles, Tang Huan had a feeling in his heart.

At the edge of his perception range, Tang Huan finally detected the existence of the Heavenly Dao. Since the time of the crack in space, Tang Huan had also traversed across an extremely vast area. The places he had passed through were also extremely weak, however, they had not been weak to such an extent. At this moment, from what Tang Huan could sense, the power of the Heavenly Daos had almost reached a point where it could be ignored.

However, the appearance of that tiny bit of Heavenly Energy allowed Tang Huan to know that his judgement should be correct.

In the next moment, Tang Huan changed his direction, grabbing onto the weak Heavenly Energy, he used it as a guide, and rushed forward.

It seemed like several hours, but also like several days had passed

A white aura finally appeared within Tang Huan's line of sight. It was unknown just how far it went, up, down, and at this point, the Heavenly Energy had already completely disappeared.

"That is the plane barrier!"

Tang Huan's heart jumped, his eyes became serious, and his mind started to wander to the endless white-colored odor.

It was only a short moment, but Tang Huan could not help but frown. That face wall was like an incomparably huge sponge, the moment his consciousness entered it, it was like a clay ox entering the ocean, instantly disappearing without a trace, and there were no longer any traces of its existence.

However, after a moment, Tang Huan's face revealed a smile.

Under normal circumstances, his mind would not be able to detect the condition of this face barrier, but Tang Huan was not an ordinary Sky Sovereign. He had the [Nine Yang Divine Furnace], and he also had four Divine Crystals.

In the next moment, Tang Huan activated the "Creation Divine Arts", whether it was the "Nine Yang Divine Furnace" or the four divine crystals, both of them were activated to their limits, as his mind once again shot towards the barrier.

Different from the previous time, this time around, his mind contained an intention to transcend the Heavenly Dao.

Sure enough, the result this time was also very different.

The face barrier did not enter Tang Huan's mind like it did with a sponge. Like a sharp thorn, his mind quickly pierced into the white mist of the Qi, and further in, but not long after, Tang Huan felt a resistance.

The further they went, the greater the resistance.

After they had stretched forward for several kilometers, the resistance had reached an extremely terrifying level. It was as if the white-colored odor had completely solidified, and no matter how he

urged it, it was difficult for Tang Huan's mind to advance any further. On the surface of the barrier, this should be the limit of what Tang Huan's mind could reach.

Even so, Tang Huan was not disappointed. He was not arrogant enough to think that his mind could penetrate the barrier and arrive at the world which was next to his.

Although Tang Huan was strong, he was still an upper peak Sky Sovereign. At most, he could only be compared to half-god level experts. As for this face barrier, it would require a true Divine Inheritor Ranker to be able to cross it. For Tang Huan, there was still a long way to go.

After taking in a light breath, Tang Huan calmed his mind and focused as he continued to advance along the wall barrier.

At this time, under the dual effects of "Nine Yang Divine Furnace" and the four divine crystals, the range that Tang Huan's mind could sense expanded even further. However, in the next very long period of time, Tang Huan did not sense anything unusual at this surface barrier;

Traveling in this place, there was no sound at all from start to finish. As time passed, anyone without strong will would go crazy.

Unknowingly, a long period of time had passed.

"Huh?"

Tang Huan's body trembled slightly, and he let out a low cry that could not be heard. In the next moment, Tang Huan squinted his eyes, which revealed a look of pleasant surprise, and then, following along the face barrier, Tang Huan shot downwards explosively, his speed reaching its limit.

Before long, Tang Huan seemed to have arrived at the bottom of this space. However, at the point where the bottom of this space intersected with the barrier, there was a faint mass of blood that was faintly discernible in the white mist.

The blood-colored aura was extremely faint. Even if ordinary cultivators were to come near, they would not be able to sense its presence.

The reason why Tang Huan discovered him was because, firstly, his mind was strong enough, and secondly, that aura gave him a familiar feeling.

After the Netherflame escaped from the Crescent Heavenly Sphere, it actually came here?

Previously, he was still worrying about where he could go to find You Yan and wash away his shame. After all, there was an extremely vast space between the cracks, and most importantly, it had already been eight years since the battle, so it would not be easy to find him.

But what Tang Huan did not expect was that he actually found some clues about the Netherworld Flame in this facade.

In the next moment, without any hesitation, Tang Huan's slender body, like a ray of black light, shot straight towards the blood red dot.

Not long after, Tang Huan approached it, and completely covered it with his mind.

Within the misty white aura, that bit of blood color seemed to flicker incessantly like stars, and very quickly, Tang Huan discovered that it looked like a small whirlpool that had condensed to the limit.

After a close inspection, Tang Huan couldn't help but raise his eyebrows. This small whirlpool did not exist alone, but was closely connected to the face barrier.

Could it be that this whirlpool is the passage through which the Fairy Clan transmigrated?

This thought uncontrollably surfaced out from the depths of Tang Huan's mind. Immediately after, Tang Huan became restless, wishing that he could immediately enter the whirlpool to investigate.

However, Tang Huan did not act rashly.

Before long, Tang Huan had a faint feeling of enlightenment in the depths of his heart. The existence of this small blood-colored swirl had such a connection to the so called Silent God Tribe.

However, this whirlpool was not something that could be entered just because he wanted to. It required a tremendous amount of strength to force him to enter.

"Hu!"

Between the mind instructs (in a second), a vigorous energy surged out from within Tang Huan's body, and rushed towards the blood-colored vortex like a violent storm.

Tang Huan was originally a little worried that this kind of power would not work.

But after a short moment, Tang Huan calmed down, the blood vortex was like a bottomless pit, quickly absorbing Tang Huan's power, it did not reject him, and the blood vortex that had absorbed the power, under Tang Huan's gaze, expanded and expanded at a visible rate.

Tang Huan was ecstatic, the energy in his body was like a collapsing river, roaring and rushing in at an even faster speed.

At first, it was only the size of a walnut. But after a few seconds, it had already expanded to a radius of ten meters, then hundreds of meters, and then thousands of meters... After a dozen breaths, the scarlet vortex actually covered an area of tens of thousands of meters.

At this point, the vortex had completely stopped expanding.

Tang Huan took a light breath. With a thought, he stopped channeling his power, and in the next moment, his body became like a stream of light, sinking straight into the depths of the whirlpool.

The power of sucking then wrapped around Tang Huan's body ...

In a split-second, Tang Huan only saw a red light flash before his eyes, and his feet touched the ground, following that, a blood-red light aura filled Tang Huan's line of sight. At this moment, what appeared before Tang Huan's eyes was a circular, arched blood colored channel that was a few thousand meters wide and tall.

The enormous tunnel stretched out in front of them in a straight line. The only difference was that the area in front of them was red and blurry. The exact situation couldn't be seen.

Behind Tang Huan, a thick blood-colored aura was intimately connected to the tunnel, and that blood-colored aura was churning violently, as though the moment it touched Tang Huan, it would be swept into the tunnel.

After taking just a glance, Tang Huan refocused his mind and quietly advanced.

Tang Huan didn't know if the Netherworld Flame was still hiding in the blood-colored passage, or if it had already escaped back to its own plane following the passage ...

To be safe, Tang Huan restrained his aura the moment he entered the whirlpool of blood. If You Yan was still in the passageway, he probably wouldn't be able to sense Tang Huan's existence. However, he should be able to feel the change in the blood-colored swirl, so he might come out to investigate.

If it was really like this, Tang Huan would naturally wish for it.

If he reunited with You Yan, Tang Huan would never let him escape, he needed to use You Yan's life to pay tribute to the innocent human cultivators who had died in vain.

Tang Huan collected his emotions and quickly proceeded.

The further he went, the thicker the bloody mist became. Unknowingly, the passageway seemed to be filled with a thick bloody mist.

Inside the blood colored fog, Tang Huan actually felt a familiar aura.

"You Yan!"

Tang Huan's eyes lit up, these two characters seemed to jump out of his mind uncontrollably, the joy between his brows somewhat difficult to contain.

If the Netherworld Flame had already escaped back to the plane he resided in, Tang Huan really wouldn't be able to do anything to him for a while.

After all, it was impossible for Tang Huan to enter that plane of existence for a while. Otherwise, the Heavenly Dao there could have easily killed him. Only by successfully attesting one's Dao as a Deity and transcending the Heavenly Dao could one no longer have to worry about the Heavenly Dao in the world next door.

Now, upon discovering that the Netherworld Flame was still here, the boulder in Tang Huan's heart also fell to the ground.

In an instant, Tang Huan had quietly increased his speed, and within the Dantian, the "Nine Yang Divine Furnace" and the four divine crystals were fully utilized, his mind moving forward quickly.

That wave of aura was still increasing in intensity. After a while, Tang Huan sensed that the wave of aura had almost reached the peak of what it could reach.

"There it is!"

In the blood mist passage, Tang Huan thought of something and his body shot forward.

In just a short span of one or two breaths, the world in front of Tang Huan suddenly cleared up, and the dense color of blood seemed to have disappeared without a trace.

At this time, what appeared in front of Tang Huan was an extremely vast space.

In the center of this space, there was a huge altar. Its shape was almost exactly the same as the one on the top of the Crescent Moon Sphere.

As if it was completely formed from fresh blood, it surged and churned non-stop. And within this blood-colored aura, there was a large blood-red ball that was faintly discernible, as if it had a life of its own, suddenly shrinking, then suddenly expanding.

"He's actually cultivating here!"

Tang Huan's face revealed a mocking smile.

With almost no hesitation, the "Pure Yang Divine Sword" appeared in his hand, following that, a monstrous sword intent surged out crazily like a hurricane. Tang Huan decisively brandished the sword, as a gigantic sword beam swept out like a waterfall, its power was like thunder, as though it could destroy everything.

Riiiiip. The sound of splitting silk suddenly broke the silence of this area. It was as if space itself had been cut into two halves.

"Tang Huan!"

A scream filled with both anger and surprise came out from the blood-red aura. It was the voice of You Yan.

The moment the voice rang out, the roiling blood-colored aura on the high altar rapidly contracted, and the massive blood-red sphere immediately appeared clearly. Immediately afterwards, the enormous sphere fiercely twisted and fluctuated, transforming into a giant jellyfish.

"Hu!"

A thick stream of blood-colored light roared out from the Netherworld Flame's body. It was as fast as lightning. In the blink of an eye, it collided with the enormous sword beam. With a bang, an earth-shattering, incomparably ferocious Strength Qi began to wildly wreak havoc in the area.

The bloody beam of light and the enormous sword beam collapsed almost at the same time.

"Tang Huan, you are truly a lingering spirit!"

A sound that was close to grinding his teeth burst out from within the giant jellyfish. This sound contained a monstrous hatred that was completely difficult to conceal, as if it was about to spill out.

Towards Tang Huan, You Yan was indeed resentful to the extreme.

He had operated the Crescent Moon Sphere for many years, and had even created a vast "Demonic Domain" with that sphere as the center. In time, the entire space between the cracks would definitely be covered by the Demonic Sound God's domain. However, at that time, the Heavenly Dao of his world would descend.

If the Heavenly Dao on his side could devour and merge with this world, as the vanguard, he would be able to obtain astonishing benefits from the Heavenly Dao.

However, Tang Huan's appearance had destroyed all of his many years of hard work.

Chapter 2262

Even though he had successfully escaped, he was seriously injured. After hiding here, eight years had passed, and his cultivation was still quite a distance away from the peak of his peak.

He never expected that under such circumstances, Tang Huan would actually come chasing after him again.

At this moment, You Yan wished she could grind Tang Huan into fine powder. As a result, as soon as he finished speaking, tens of thousands of extremely condensed blood-red streams of light explosively shot out from the body of the giant jellyfish, like locusts, they blotted out the sky and covered the earth as they whizzed towards Tang Huan.

In an instant, an ear-piercing sound filled the entire space. Seeing that, Tang Huan could not help but snort out, in the next moment, the 'Pure Yang Divine Sword' in his hand started to dance once again, a ray of sword light appeared in front of him, interweaving and rolling forward, not only was its speed shockingly fast, it was also like a snowball rolling bigger and bigger, in a short moment, it had changed.

It was extremely huge.

An incomparably sharp sword intent swept out in all directions, and the surrounding space seemed to be instantly sliced into countless pieces.

This time, Tang Huan's attack was shockingly powerful.

"Boom —"

In just a split-second, the blood-colored light and the huge sword light fiercely collided, and an earth-shaking explosion seemed to shatter the entire space. The terrifying Strength Qi seemed to have solidified as it churned around the area like a tidal wave.

Under the impact of this crazy and fierce Strength Qi, Tang Huan's body only floated back a few meters before swiftly stabilizing. But above the high altar, the body of the giant jellyfish was directly flung outwards, and just when it was about to touch the side wall of this space, it barely stopped.

That year, after the incident with the Crescent Moon Sphere, Tang Huan's cultivation had recovered, but the Netherworld Flame had not.

Even though Youyan was a SemiGod, she wasn't as strong as Tang Huan when he was at his peak. Right now, Tang Huan was still in his peak condition, but YouYan was much weaker compared to back then ... In the previous confrontation, both of them had used their full strength. The result was obvious.

Xiao Yan was already well aware of this fact. If he was still in human form, his expression would definitely be incomparably ugly.

To continue escaping? Or fight to the death? If he ran, it was clear that he could not escape back into the spatial crack, and could only escape back to the plane that he came from, but since he escaped back, he would probably not have the chance to return for a while. This Tang Huan, however, was already the first on the revered ranking board of this plane.

At that time, even if he were to return to this place, how could he find Tang Huan to wash away his shame?

However, if he were to stay and fight to the death, he would most likely die in this place. He had spent a lot of time to cultivate to his current state. Moreover, as a demigod, he had great ambition for the realm of the Divine Realm. Once the Heavenly Dao of the world he resided in devoured this world and he made a great contribution to it, his benefits would definitely be great ...

At that time, he might be able to take advantage of this opportunity to break through his shackles and become a true Divine level expert.

However, if he wanted to reach that step, he had to preserve his life. If he lost his life, then everything would be a waste of time.

However, in order to preserve his life, he had to escape and return. It was already a blessing that he did not suffer the punishment of the Heavenly Dao, let alone making a great contribution.

However, Tang Huan did not give him the time to be conflicted. After a few breaths, a piercing howl once again sounded out in the space around him, as an incomparably sharp gigantic sword beam seemed to completely fill up the entire space, the fearsome sharp sword intent seemed to want to tear his body to shreds.

Sensing the might of Tang Huan's sword strike, You Yan could not help but tremble inwardly. He, who had originally been hesitant to make a decision, immediately made a decision.

The most important thing was to stay alive!

"Wuuuuuu ~ ~ ~"

A deep wuwu sound came out from the giant jellyfish. This sound seemed to contain a frightening power that shocked everyone as it moved towards Tang Huan. Almost at the same time, a huge blood-red ball separated from the jellyfish's body, roaring loudly as it moved forward.

Another earth-shaking explosion was heard.

The moment the blood colored ball touched the sword beam, it suddenly exploded like fireworks. Not only did it wrap around the sword beam layer by layer, it also congealed into a thick blood colored barrier, standing in front of the altar, completely isolating You Yan and Tang Huan.

The power contained within this blood-red ball contained an incomparably strong corrosive force. Although the sword beam tore the barrier time and time again, it still quickly shrank. The surging force, before even coming into contact with the blood colored barrier, had already been corroded by it and quickly melted into nothingness. The existence of this barrier seemed to have been pulled out from between Tang Huan and the Netherflame Sword.

A chasm.

At the same time, wisps of blood-colored aura seeped out from the giant jellyfish and merged with the huge altar at an astonishing speed.

"RUMBLE ~ ~" it seemed as if a sound rose from deep underground, in the blink of an eye, it had already turned from low and deep to incomparably high, and then like a clap of thunder, it rumbled back and forth in this space, and that high altar began to shake violently, hundreds of millions of red lights shot out from it, incomparably resplendent.

Dazzling.

In an instant, the body of You Yan transformed into a human body and appeared at the top of the tall altar.

The tall altar that was located within the wall was the tunnel that connected him to the world he was in. As long as he moved it, he could open a tunnel. However, the time it took for that face tunnel to exist was extremely short. He needed to pass through it in the instant it appeared.

As long as there was a moment of hesitation, this opportunity would be wasted. If they missed this opportunity, they would need a long time to accumulate power for this high altar. Only then would they be able to open the dimensional passage again. And this would take at least hundreds of years. If he failed to escape this time, he was afraid that he would very quickly fall into Tang Huan's hands. He should be here several hundred years later ...

There was nothing left of him. Because of this, when he arrived at the peak of the high altar, his heartstrings were taut to the extreme.

"Rumble ..."

The huge sounds coming from this high altar didn't stop.

In the empty space in front of You Yan, a red glow rose from the tall altar. It was several meters tall and extremely minute. However, it continued to expand bit by bit as the tall altar shook.

This was the plane passage. Once it had expanded to a certain extent, the Netherworld Flame would be able to enter and instantly leave this place.

As a result, no matter how strong Tang Huan was, he would not be able to do anything to it. However, if Tang Huan had already broken through the barrier before it had expanded to its limit, or

if Tang Huan had appeared the instant he had entered the spatial passageway, then he would be in great trouble. Therefore, while paying attention to the state of the blood-colored barrier, he paid attention to the passage ahead of him ...

◦

For a moment, You Yan was nervous to the extreme.

His eyes stared unblinkingly at the plane passage, and his mind was constantly enveloped by the blood-colored barrier. He only felt that every breath was extremely long. However, he still had some confidence that the blood-colored barrier had gathered almost all of his power.

Relying on that blood-colored barrier, to completely block Tang Huan was impossible. However, it should be possible to delay Tang Huan for a while.

"It's about time."

However, in reality, in just a few short breaths of time, the dimensional passage was already half a meter wide. This, however, was the limit of the face barrier. At this moment, the flame also felt a sense of relief.

Xiao Yan exhaled gently. He did not hesitate and his body rushed toward the tunnel.

However, right at this moment, a hole several meters in radius appeared on the blood colored barrier behind him. A fiery red light shot out from the hole like an electric current, and in an instant, it appeared at the top of the high altar.

The fiery red light that suddenly appeared was "Nine Yang Divine Furnace".

Under the guidance of the sucking, the Netherworld Flame Body couldn't help but pause for a moment when it was about to touch the surface passage. This sudden change scared You Yan to the point that his soul almost left his body. At the most critical moment, the thing he was most worried about finally happened.

However, although he was shocked, he knew that this was not the time to hesitate. The remaining energy in his body gushed out like raging waves and he was barely able to resist the attraction of the sucking, while he continued to move forward with all his might.

At this moment, You Yan was close to going crazy. His face appeared a little sinister and frightening.

"You Yan!"

A sneer suddenly rang out beside his ear, and at this very moment, an incomparably terrifying force rushed into his soul like a torrent. At this critical moment, Tang Huan had actually launched an exceptionally fierce attack at his soul.

As a demigod, You Yan's soul was extremely powerful.

However, under Tang Huan's fierce offensive, his soul still felt a sharp pain, and then, he unavoidably fell into a trance for a moment. After a blink, the Netherworld Flame had regained consciousness. However, its face became as pale as paper. The dimensional passageway had started to shrink.

This passage had originally been formed with the help of the high altar's power, so it was easy to guess what it meant.

Once the plane passage showed signs of shrinking, even if he was at his peak state, he wouldn't be able to go any further, not to mention that he was almost exhausted and was almost at the end of his strength. In other words, that moment of absent-mindedness had caused this plane of passage to close the door to him.

At this moment, You Yan's eyes uncontrollably showed a trace of despair.

The spatial passageway began to close. His hope of escaping back to that plane had already failed. After the high platform absorbed enough power, it could still activate the plane passage again, but he might never have the chance to activate it again, because he felt that Tang Huan was right behind him.

"Tang Huan, you think you've won?"

Behind him, the passage to the surface quickly disappeared, and the high altar under his feet also gradually returned to its calm. The rumbling sounds quickly disappeared, but his eyes gradually became crazed.

At this time, Tang Huan had indeed already reached the top of the stage, and was merely twenty to thirty meters away from him.

"Do you think I've lost?" Hearing You Yan's words, Tang Huan smiled slightly, his eyes uncontrollably displaying a bit of ridicule and ridicule.

"You'll know soon enough."

You Yan's eyes were red like blood as she stared at Tang Huan. At this moment, the madness deep within his eyes became increasingly dense. Almost at the same instant as his words left his mouth, an aura that transcended the Heavenly Dao roared out from within his body. However, this aura was incomparably ferocious and ruthless, as if it contained an aura that could destroy the world ...

◦

"Bang, bang, bang ~ ~ ~" In the next moment, a loud explosive sound came from the body of the Netherworld Flame. This sound continued to sound, as if it wanted to tear one's eardrums apart.

Step.

"Detonate the divine crystals?"

Tang Huan's eyes became serious, but he immediately laughed out loud: "You Yan, so it turns out that you want to die with me, but unfortunately, you have the wrong idea!" At practically the same time the sound was heard, the four divine crystals within Tang Huan's Dantian had already been pushed to the limits.

A similarly powerful aura that transcended the Heavenly Dao gushed out from Tang Huan's body.

In just a blink of an eye, a layer of round cover was able to support itself as it surrounded Tang Huan. Right at this moment, from the opposite side of the Netherworld Flame's body, the ninth deafening explosion resounded like a thunderclap. This signified that he had detonated the last divine crystal.

At the same time, an incomparably terrifying power of the Divine Crystal gushed out of the body of the Netherworld Flame like a volcanic eruption. This power was like a roaring torrent from above the ninth heaven, surging and surging with unstoppable power, as if it could cleanse all obstacles in the world.

Seeing this scene that he had personally created, his face contorted to the extreme.

As a demigod, the nine crystals were the foundation of his life.

After the nine divine crystals were detonated, although he wasn't dead, he wasn't too far away from death. When she thought about how her years of training had gone to waste, she felt extremely unwilling. However, she could comfort herself by saying that before she died, she would be able to drag along her hated enemy and bury him with her. Whether it was the eyes or the face, everything was filled with unconcealable shock and disbelief. In his line of sight, the terrifying current of energy from the explosion of the nine divine crystals did not shatter the round, transparent barrier surrounding Tang Huan, but instead flowed mightily around him after coming into contact with it ...

Chapter 2263

"This... How is that possible? "

You Yan could not believe her eyes.

As a demigod, he was very clear on the power of exploding Divine Crystals, not to mention exploding the nine Divine Crystals at the same time. At such a close distance, even if the opponent was also a demigod, it would still be difficult to escape from them. He still had the confidence to avoid this. Otherwise, he wouldn't have made such a decision.

However, what he saw now completely overturned everything he knew.

Even a SemiGod Ranker couldn't take the attack, but Tang Huan, a Peak Level Sky Sovereign, actually managed to take it head on. Furthermore, it looked like he was completely unscathed.

This was simply unbelievable!

Before long, the stream of blood-colored energy dissipated into the air. However, the power it emanated seemed as if it would shatter the entire area, as if it would collapse at any moment. However, the transparent round cover continued to fly forward while Tang Huan was still being watched by the unfathomable You Yan.

"You Yan, do you think that I don't have God's Crystal when you have it?"

Facing the shock and fear in her eyes, Tang Huan smiled indifferently. The moment she finished speaking, the transparent round cover disappeared at a speed that could be seen with the naked eye.

The nine crystals detonated by his Netherflame was truly incomparably powerful.

However, Tang Huan's protective shield formed from the power of the Divine Crystal had a natural advantage when fighting against the Netherworld Flame. Different cultivators had different levels of divine crystals, but the quality of Tang Huan's divine crystals far surpassed Nether Flames'. This was the reason why Tang Huan was so confident.

The power of the divine crystal allowed Tang Huan's divine crystal power to form a kind of suppression on the flame, eliminating its offensive to the point of nothingness.

Of course, this kind of suppression was also built on the basis that Tang Huan was stronger than the Netherworld Flame.

If Tang Huan was even weaker than the You Yan, his previous actions might have been a mess. Other than that, if the Netherworld Flame chose to attack using some other method, Tang Huan would not be able to rely on the power of the divine crystal alone. Just like how Tang Huan had been severely injured when the Crescent Moon Celestial Sphere was detonated by the Netherworld Flame.

"God ... The divine crystal ... "

You Yan stared at the round cover that was quickly dissipating around Tang Huan, her eyes filled with unconcealable anger, sorrow, and even regret.

He should have thought of that.

To be able to defeat a SemiGod expert like him, how could he be an ordinary peak Superior Empyrean? Tang Huan definitely had Divine Crystals, and there was more than one of them. After he had escaped from the Crescent Heavenly Ball, he had had a faint guess. Unfortunately, he had subconsciously ignored it.

At this moment, he was in complete despair.

Since escaping failed, he knew that he wouldn't be able to escape death, so he decided to perish together with Tang Huan. This way, even if he died, he could at least drag someone along with him. In the future, the Heavenly Dao might bring him back to life due to his contributions.

However, what happened next was completely out of his expectations.

Now that the nine divine crystals had exploded, his Dao Nascent Soul was on the verge of collapse, so even if Tang Huan didn't kill him, he wouldn't be able to hold on for long.

Tang Huan did not speak further, he extended his arm, and hooked his fingers around the flame's head.

In the midst of mind instructs (in a second), a powerful mind had already extended towards the Netherflame Spirit. Facing Tang Huan's state of mind, he had no way of defending. In a split second later, Tang Huan's mind had already entered the depths of You Yan's soul.

"What do you want?" The Netherworld Flame suddenly woke up, shocked and angry at the same time.

"To look at the memories in your soul, of course." Tang Huan smiled slowly.

"You ... "In your dreams!" The Netherflame roared.

"It's not up to you." Tang Huan's eyes turned slightly cold and in an instant, his boundless soul force swept through his mind like a flood and quickly invaded the Netherworld Flame Soul. With lightning speed, it overturned the mountains and completely dispersed the resistance the Netherworld Flame had formed with its life on the line.

"..."

Although Youyan's body was still struggling, it was getting weaker and weaker.

After a few short breaths of time, the Netherworld Flame had completely calmed down, and under Tang Huan's slightly raised right palm, a dense, blood-colored aura rose from the top of his head. This blood-colored aura fluctuated intensely, as if it was a spirit object that possessed life.

However, no matter how much he struggled, he was unable to escape the imprisonment of Tang Huan's right palm.

This was the soul of the Netherworld Flame!

After a while, the ball of blood Qi had completely left You Yan's head and landed on the palm of Tang Huan's right hand. You Yan's body quickly went limp and collapsed at the top of the altar.

Tang Huan no longer paid any attention to You Yan's body. Instead, he sat cross-legged on the high altar as his mind was completely immersed in his soul.

The flame was sent by the Heavenly Dao of the world on the other side of the world. It could be said to be the vanguard of the Heavenly Dao.

No matter how one looked at it, the Netherworld Flame was a very important existence.

Searching his soul, he would definitely be able to learn many secrets. However, this fellow was a half-god expert after all. Although Tang Huan had extracted his soul from his body, it wasn't possible to completely destroy his consciousness and obtain all of his memories in a short period of time.

Time passed quietly.

"Hu!"

After a few hours, Tang Huan finally let out a light sigh, and slowly opened his eyes.

Just as he had guessed, this crevice space was used as a bridgehead for the Heavenly Dao to devour this plane of the world, while the Heavenly Dao was used by the Heavenly Dao to control the Heavenly Dao in the Realm of the Gods.

Once the Netherworld Flame was set up, the Heavenly Daos would descend into this space, and the invasion and devouring of the real world would also begin.

"He is cultivating the path ahead of us, and he is secretly training in Chen Cang!"

Tang Huan couldn't help but sigh.

This time, he sneaked into the crack in the space to save his mother. In the end, he got entangled with the Netherworld Flame, and it could be said that he accidentally foiled the plans of the Heavenly Dao. Now that You Yan was dead, it was impossible for Tian Dao to send another demigod powerhouse like He Yan to stand guard over there in a short period of time.

The reason that You Yan had been chosen by the Heavenly Daos was because of the unique characteristics of his Ghost Goddess race. With him as the mother body, he could split into many extremely powerful children, and with those children as the mother body, he could once again split into many more children. He could continue this cycle, and as long as the Netherworld Flame came over, his Phantom God Clan would be able to successfully take root here, causing their tribe to become more and more powerful ...

The more powerful it was.

If the heavenly ball was not destroyed, then every few decades in the future, the number of members of the Demonic Sound Clan would be able to double. In at most two to three hundred years, the entire space would be encompassed by the Demonic Sound Domain.

However, the Crescent Moon Sphere had been detonated, and the Netherworld Flame was not far from death. The plot of the Celestial Way had been completely ruined.

If the Heavenly Dao wanted to devour this world, they could only start with the "Ruins of God"... Thinking about it, Tang Huan's expression immediately became heavy.

According to You Yan's judgement, the reason why the two Heavenly Daos had been in a stalemate for so long was not because the Heavenly Daos did not have the strength to invade from that direction, but because it wanted to achieve its goal at the lowest price. Otherwise, even if it defeated the Heavenly Daos here, it would consume a lot of energy.

If this was the case, the Heavenly Daos would need an incomparably long time to completely engulf this world.

Therefore, it had opened up a new path, starting from this crevice in space.

But now that something had happened, the Heavenly Daos might very well place a desperate bet on the Realm of the Gods, speeding up their invasion and absorption of this plane of existence.

In that moment, a sense of urgency rose in Tang Huan's heart.

Once the Heavenly Daos completely invaded and Tang Huan hadn't confirmed her dao position, it would be difficult for her to even protect herself, let alone her wife, children, and friends.

"I need to get back to the Ruins of God as soon as possible!"

Tang Huan made a prompt decision, but before leaving the crevice in space, he needed to destroy this altar.

Within the plane barrier, the altar was formed by the Heavenly Daos after spending countless amounts of time and energy. It was able to connect the Heavenly Daos.

As long as it existed, the Heavenly Dao would continue to stir up trouble through this high altar. If the "Ruins of God" didn't progress smoothly, the Heavenly Daos might use this high altar to create a hole in the face barrier. If that happened, it would be even more dangerous.

Without this high tower, the Heavenly Dao would lose an important chess piece.

With a single thought, a ball of "Primal Chaos Dao-fire" covered the soul of the Netherflame in his palm. After an instant, the blood-colored aura had already completely melted. Immediately after, Tang Huan took a light breath, and completely enveloped the altar under his body with his enormous consciousness, seeping it in bit by bit.

In the deepest part of the high altar, there was a small space with a radius of ten meters.

In the center of the space floated a blood-colored ball the size of a sea bowl. From time to time, it would give off a faint, bloody luster, giving off a demonic feeling.

The bead was called the "Heaven's Path Pearl" by the dark flame and was formed by the heavenly dao from the world next door. What it contained was the heavenly dao energy from that world. It was precisely because of the existence of the "Heaven's Path Pearl" that this high altar could constantly absorb the energy of this world and use it to open up dimensional passages.

Right now, what Tang Huan wanted to do was to take the Heavenly Dao Pearl away.

Without the Heaven's Path Pearl, this tall altar would naturally vanish into thin air.

After a few breaths of time, Tang Huan had already used his "yin and yang dao diagram", and the black and white whirlpool appeared out of nowhere, as if it had absorbed Tang Huan. In half a blink of an eye, Tang Huan had disappeared from the top of the altar, and immediately, a black and white vortex appeared in the space inside the altar.

Then, Tang Huan's figure flashed and appeared.

In the very instant he appeared, Tang Huan's gaze landed on that blood colored ball.

Tang Huan did not hesitate at all. With just a thought, the "Nine Yang Divine Furnace" immediately fell towards the Heavenly Dao Pearl's barrier.

The moment the cauldron was about to swallow the blood red bead, a terrifying resistance surged forth from within, and actually nearly knocked the "Nine Yang Divine Furnace" away. Fortunately, Tang Huan was already prepared, as he concentrated his mind, the boundless divine crystal power was instantly injected into the cauldron.

The cauldron that had been slightly stagnated because of the obstruction once again ruthlessly sank down. However, right at this moment, Tang Huan seemed to have felt two gazes passing through the spatial barrier towards him. That gaze was so cold that it was devoid of any emotion, yet it also seemed to contain a supreme dignity that was difficult to resist. It was like a lofty emperor looking down on all living beings ...

◦

However, at almost the same time, the cauldron had ultimately been swallowed by the blood-red bead.

"Heavenly Dao!"

Those two extremely dignified gazes, seemed to be cut off from each other. Tang Huan who was just distracted suddenly woke up, but his heart immediately had a trace of understanding. He knew that what he experienced just now was definitely not an illusion. The moment the cauldron touched the "Heaven's Path Pearl," the Heavenly Dao in the neighboring world sensed it and shifted its attention to it. It was a good thing that there was a wall blocking the way. Otherwise, the Heavenly Dao would have arrived here immediately ...

Tang Zheng instantly killed everything. The Heavenly Dao of a single plane of existence was not something the current Tang Huan could contend against.

Right now, even though Tang Huan was still safe and sound, he knew that Tian Dao had already noticed him.

It seemed that he had to be careful after returning to the Ruins.

On the God Ruins' side, the powers that the Heavenly Daos can utilize are not something that this place can compare with. It was a good thing he had [Nine Yang Divine Furnace], four Divine

Crystals, and a Chaos Immortal Body. If Tang Huan could completely hide his Qi, then there was no need for him to panic.

With that thought, Tang Huan's gaze fell on the "Nine Yang Divine Furnace" that was flying back.

Inside the cauldron, the "Heaven's Path Pearl" lay still, not struggling at all. In regards to this, Tang Huan was not surprised at all. The "Nine Yang Divine Furnace" was a magical equipment that transcended the Heavenly Dao. Its existence had completely cut off the connection and response between the Heavenly Dao and the "Heavenly Dao Pearl".

With a thought, the cauldron returned to Tang Huan's Dantian with the "Heaven's Path Pearl". Soon after, Tang Huan discovered that the surrounding space had become much emptier. He understood that the high altar was melting. "The reason is also very simple." The Heaven's Path Pearl was the foundation of this altar. Now that the foundation was gone, this altar could no longer exist like a tree that had no roots and no source

◦

Not long later, the altar completely disappeared from Tang Huan's sight.

Tang Huan did not hesitate, immediately turning into a ray of light and flying out of the cave at an astonishing speed. Very quickly, Tang Huan charged out of the passage through the spatial barrier. At this time, not only did the high altar disappear, the blood-colored whirlpool also disappeared without a trace.

Tang Huan did not plan to absorb that "Heaven's Path Pearl by himself." Rather, he planned to merge it into the "Illusory Sword Heavenly Palace" after refining it. This "Heaven's Path Pearl" contained an incomparably pure Heavenly Energy. If it could be completely absorbed, not only would the space of the abode be completely restored, it would even be able to ascend to another level.

Chapter 2264

Time flew by. Unknowingly, several months had passed.

Whoosh.

In the air, a storm was raging and a wisp of white colored light seemed to be riding on the wind and breaking the waves as it swiftly shuttled back and forth. This was shockingly Tang Huan's "Myriad Sword Heavenly Diagram".

Inside the cave within the Supreme Profound Hall, Tang Huan was sitting cross-legged.

After so many months, the "Heaven's Path Pearl" in his hand was now only the size of a walnut. This kind of treasure that was completely condensed from Heavenly Energy, could not be refined by normal cultivators. However, under Tang Huan's "Nine Yang Divine Furnace" and "Creation Art", it became the nourishment of the cave.

Now, not only was the cave completely restored to the state it was before the Crescent Moon Sky Sphere had exploded, it was even better than before.

After fusing with the power of the Heavenly Dao Pearl, the sword intent contained within the ten thousand peaks of the Great Xuan Lake had grown even larger. If he were to activate the 'Ten Thousand Endless Sword Array' at this time, he would be able to display an even greater power. Perhaps, he might even be able to double the power compared to before.

Feeling the changes in the cave, Tang Huan was ecstatic.

However, what made Tang Huan even happier was that from the changes in the cave, he had confirmed his judgement. If he could absorb even more Heavenly Energy, the cave might be able to undergo a qualitative change. Perhaps the Immortal's cave after its transformation would be its true peak state.

From this, Tang Huan realized —

It was very likely that this cave dwelling did not lose to any magic tool in the past. This more likely meant that its original owner was also an expert capable of proving the existence of the Divine Throne of the Dao. Of course, if one wanted the cave to undergo a transformation and return to its peak state, it wasn't something that could be done in a day and a night. This required an extremely long period of time.

Tang Huan took a light breath, calmed his mind, and continued to instigate his cultivation technique to refine the remaining "Heaven's Path Pearl".

Outside the cave, the Myriad Sword Heavenly Diagram continued to move forward.

Nearly half a month quietly passed by and Tang Huan, following the reaction of his Mind Stigma, finally found that white deer heavenly ball. Compared to the original location, it had already shifted very far.

The unforeseen event back then had caused the heaven and earth to change tremendously in the area around the "Demonic God Domain". The White Deer Heavenly Ball was only one of them.

Originally, Tang Huan had left the Mind Stigma behind just to locate their position.

However, after that, the Crescent Moon Celestial Sphere and the "Demonic God Domain" were gone, and Tang Huan had even drifted to the area of the surface barrier where the Heavenly Dao did not exist. Tang Huan's purpose for coming here was very simple: to retrieve his own Mind Stigma.

Generally speaking, with his strength, even if one Mind Stigma was left outside, it would be very difficult for it to pose any threat to him. After all, he was not afraid of ten thousand things. He was just afraid that if one of them were to master the Mind Stigma, it would be easy to track his tracks.

After getting hold of the Mind Stigma, Tang Huan did not stay any longer at the White Deer Sky Sphere.

After leaving some precious treasures behind for Su Ye and Jiang Han as a reward, Tang Huan continued to travel through the endless storm space.

Tang Huan did not return along the same path he came from, but chose to head towards the center of the crevice.

It was said that the Heavenly Energy there was the strongest. Inside the cave, Tang Huan refined the last of the "heaven's way pearls" and began to absorb the source energy from the Immortal Spirit Ancestral Court. He was completely focused on it and did not notice the passage of time at all. However, there was one thing that was getting more and more obvious to Tang Huan, and that was that his absorption of the origin energy was getting faster and faster ...

Tang Huan knew what this meant. The stronger the Heavenly Energy was, the faster he would be able to absorb the Ancestral Energy.

From this change, he knew that the destination was getting closer and closer to him.

"It should be here!"

He did not know how much time had passed, but Tang Huan suddenly felt something, and abruptly stopped his training. It was a pity, he had already absorbed a huge amount of the origin energy of Primal Chaos and Immortal Energy, but, he was still quite a distance away from condensing the fifth crystal.

In a blink of an eye, Tang Huan had calmed his heart down and his mind was out of the cave.

In the next moment, Tang Huan's figure disappeared from the Supreme Profound Hall and reappeared in the outside world. The surrounding windstorm had already become extremely weak, and Tang Huan's line of sight was instantly filled with an unusually large round ball. Its size, was larger than any heavenly ball Tang Huan had passed through in the middle of the crevice space.

This should be the "Aurora Sky Ball" located in the center of the crevice. Inside and outside the Sky Ball, there were shadows that appeared from time to time. Tang Huan did not go and join in on the fun, nor did he plan to enter the heavenly ball. He came to this place in order to find the place with the strongest Heavenly Energy and use "Yan Luo Golden Immortal" to return to the Heaven Realm. Initially, Tang Huan had planned to follow the original route after everything here was finished.

After returning to the lower realms, he once again made a trip to the Forging God Great World. However, the discovery of the spatial barrier caused Tang Huan to change his mind.

If he went to Forging God Great World, and returned to Heaven Realm, he would definitely delay them for a while.

And what he wanted to do the most right now was to go to the Ruins of God.

Tang Huan could obtain the black hole passage from the God Ruins and the lower realms, but the possibility of success was very small. The reason was very simple. When Tang Huan came down, he was alone with Xu Hong, but when he went back, he had to add his mother Ji Ru Lang.

Tang Huan was indeed unable to protect the three life forms, including himself, in the black hole tunnel.

Therefore, Tang Huan needed the help of the "Yan Luo Golden Immortal".

After carefully inspecting his surroundings, Tang Huan's mind slightly stirred, and the "Heavenly Abyss Golden Immortal" appeared in his hand, flickering with a faint light.

"Rumble ..."

Suddenly, a loud buzzing sound echoed in the air. Soon after, the 'Youluo Golden Immortal' revealed trillions of rays of light, making it hard for people to look at him closely. In the next moment, an incomparably terrifying aura, with the "Yan Luo Golden Immortal" as the center, surged out in all directions. This aura was mysterious and mysterious, and it contained a meaning above the heavens' law ...

◦

Tang Huan's body moved, and he had already entered the "Heavenly Net Immortal Mansion" that this flower carried, and it was the space located in the deepest part of the immortal estate.

Almost at the same moment Tang Huan entered the immortal estate, a miraculous change happened to the Yan Luo Golden Immortal.

The eighteen petals all seemed to have a life of their own, stretching and extending without end ... In just a few short breaths of time, the flower had grown many times larger and turned into a huge object. It seemed like it could take over the entire sky and was extremely terrifying.

At this time, the figures of cultivators were flashing inside the Aurora Sky Ball.

All of them were alarmed by the commotion outside and came out to investigate the situation. However, that enormous glowing flower caused everyone to be flabbergasted and their minds to be shaken to the extreme. Even the dozen or so strongest Heavenly Emperors were stunned like wooden chickens.

"What's that?"

"Flower? That was ... A flower? "

"How did it happen?"

" ... "

After a moment of silence, the outside of the Sky Ball was in an uproar as murmurs rose and fell one after another. Countless questions flashed through everyone's minds, and many people were even more worried.

In this crevice, even Sky Ball was not completely safe.

A few days ago, that Crescent Moon Sphere had vanished into thin air. Over the years, the Crescent Moon Sphere had turned into ashes because of various reasons. There were many. Now that such a huge monster had appeared outside of the Aurora Sky Sphere, there was a possibility that some unmanageable disaster would happen very soon.

The aura that was revealed from the Pang Shuo flower caused everyone's heart to tremble uncontrollably. Amongst them, the Heavenly Emperors had the deepest feeling. They were very clear that the aura contained an intention to surpass the Heavenly Dao.

An existence with such an ability was definitely extraordinary.

"Rumble ..."

The sound from the flower became more and more intense, causing everyone's ears to ring.

Immediately, under countless gazes, the huge flower underwent a bizarre change. The gigantic flower petals began to close up quickly. In just a short span of two to three breaths, the initially proud and arrogant flower had turned into a round bud.

It was also at this moment that an incomparably terrifying aura of power roared out from the flower bud. It was like a monstrous wave, and wherever it passed, violent fluctuations could be seen with the naked eye.

In the blink of an eye, only ten Heavenly Emperors remained in front of the Sky Ball. The remaining cultivators either hid inside the Sky Ball or behind it.

However, even though the Heavenly Emperors were still able to stand in place, their bodies were still trembling uncontrollably. It seemed that they might not be able to endure for long. Within their line of sight, the flower bud had once again underwent a strange transformation. However, this time, the flower bud was shrinking rapidly.

However, even though that flower bud was getting smaller and smaller, not only did the aura of the power that was roaring out from it not weaken, it actually increased dramatically. After enduring for a while, the dozen or so Sky Emperors could no longer withstand the pressure that came sweeping over them and started to involuntarily float backwards.

Not long later, they were behind the Sky Ball. However, when they exchanged glances, they could see a shock and astonishment that was hard to conceal in each other's eyes. If that flower bud had been directly aimed at them, they would have already been crushed into smithereens a long time ago.

Pink.

"Rumble ..."

The sound became more and more intense, and in the end, it rumbled back and forth like thunder. In the vast space, even this huge Aurora Heavenly Ball started to fiercely tremble, and the flower bud became smaller and smaller. In less than ten breaths of time, it had already turned into a small dot and disappeared without a trace.

The remaining sound reverberated unceasingly, but the oppressive feeling instantly disappeared without a trace.

The dozen or so Heavenly Emperors were the first to sense the change in front of the Sky Ball. Their figures slightly moved, and they quickly flashed out, and the figure of the flower bud was no longer within their line of sight. However, at the spot where the flower bud was previously located, there was a black hole that was shrinking at a speed that was difficult for the naked eye to catch.

When the black hole entered their vision, it was still hundreds of meters wide, but after a moment, it was only a small black dot. With a snap of a finger, even the speck had disappeared, and that area had completely returned to calmness, as if nothing had ever happened before.

"Disappeared?"

"He left? He really left! "

"What on earth is that?"

"..."

Everyone looked at each other, bewildered. At this moment, the worry in their hearts had finally disappeared along with the flower, but their curiosity and doubt had become more intense than ever before. Just what kind of existence was that flower? How did it appear here? Where did it go now? Will you return in the future

Come?

Many questions arose from the bottom of everyone's heart.

However, their questions were destined to remain unanswered, just as they might never know what had happened at the string heavenly ball a few years ago.

With regards to this crevice, Tang Huan was after all, just a passerby. Regardless of whether or not he could eliminate the huge threat that came from the world next door, his chances of returning to this crevice was very low.

Just when countless cultivators were wondering about the situation, inside the Yan Luo Immortal Manor, Tang Huan had a faint misconception that his body was also shrinking along with the Yan Luo Golden Immortal. However, in the blink of an eye, he had become as small as a grain of rice.

Under the escort of Yan Luo Golden Immortal, who was as small as a grain of rice, Tang Huan quickly flew across the sky, passing through numerous spatial barriers ...

It was as if he was in a trance, as if he had flicked his fingers in the blink of an eye, but also as if tens of years had passed.

That strange feeling suddenly disappeared and Tang Huan abruptly woke up as well. He instantly felt an incomparably boundless source of primal chaos energy and celestial spirit energy, and his entire body felt extremely comfortable, as if he was wandering in the ocean condensed from the source energy.

This wondrous yet familiar feeling caused him to be stunned for a moment. Then, as if he had just awoken from a dream, not only did he return to the "Immortal Spirit Ancestral Court", he even found himself in the "Immortal Spirit Ancestral Peak". It was only on the "Immortal Spirit Ancestral Peak" that Tang Huan could feel such a vast source of power.

"I'm finally back!"

Tang Huan took a light breath, his body slightly moved, and he quickly rose into the air.

Not long after, Tang Huan had already left the ancestral peak and stood at the summit. Looking at the conical shaped mountain range, Tang Huan could not help but feel excited. After so many years, he had finally returned to the "Immortal Spirit Ancestral Court". The events that happened in the Ancestral Court seemed to have happened just yesterday.

With that thought, the "Heavenly Abyss Golden Immortal" appeared in Tang Huan's palm once again. The flower was as proud as ever, but it was much dimmer than before. The long distance travel had obviously exhausted most of the power it had accumulated. Following that, Tang Huan could only use it to absorb the Origin Energy. If he wanted to teleport again, he would have to wait a long time.

Chapter 2265

"Even after dozens of years, Big Bro still hasn't had the slightest bit of news!"

Chi Xiao Tian, in a hall at the waist of the Nine Palace Peak, Xiao Budian sighed gloomily, "I wonder if Big Brother has achieved his wish?"

From the upper Nine Heavens to the God Ruins, then from the God Ruins to the lower realms, then from there to the lower realms and then back to that place again, how can it be happening so quickly? " Jiu Ling harrumphed and said, "Don't worry about it for now. Let's continue training. Don't worry about it. Big brother will definitely be fine."

"Right. Cultivate. Cultivate."

Ling Tian hurriedly agreed, nodding his head like a chicken pecking rice.

After dozens of years, the three of them had their cultivation and strength greatly improved. They were already at the Upper Peak Heavenly Emperor Stage, and could become Emphyreans at any time. in

In their situation, it was definitely much easier for them to become an Emphyreans than it was for ordinary cultivators. This

For the past few years, they had not left the Nine Palace Peak even half a step. Besides cultivating, they had also closely observed the Mind Stigma that Tang Huan had left behind. cinnabar, cinnabar, cinnabar, cinnabar, cinnabar, cinnabar, cinnabar, cinnabar, cinnabar, cinnabar, cinnabar, cinnabar

After a few years, the connection between Tang Huan and the Mind Stigma suddenly became extremely weak, scaring the rest of them, Shan Shan, Mu Yan and the rest to the point that they were unable to breathe. Then ...

The situation he was in could very well mean that Tang Huan had met with great danger, or even his life was in danger.

Fortunately, in the following period of time, the connection between Tang Huan and the Mind Stigma was slowly growing stronger. Only then did everyone relax a little. And then, after almost eight whole years, the connection was completely restored and stabilized once more. This made everyone completely sigh in relief. such as

Right now, Tang Huan was clearly out of danger, but with Tang Huan's cultivation and strength, the possibility of encountering that kind of danger twice in a row should not be very high.

According to Jiu Ling's judgement, the previous situation should not occur again.

"Other than cultivating, we can't do anything else. I hope Big Brother..." small

He patted his forehead helplessly, but before he could finish his sentence, his voice suddenly stopped. In an instant, a smile of pleasant surprise appeared on her exquisite face, and with her eyebrows raised, she happily shouted out, "Big brother is back, big brother is back ..." Speak

With that, Xiao Budian's figure had already disappeared from the palace.

"What did I say just now? Big Bro will definitely be fine. Look, Big Bro is already back!" "The nine spirits were stunned for a moment and then instantly laughed, their expressions changing in delight. Before they had even finished their words, they had already disappeared from the hall at an astonishing speed, just like a streak of nine colored light."

You just said that Big Brother wouldn't be back so soon. " Ling Tian grumbled as he followed with a smile.

"..." Don

Huanhuan is back!

As the news spread, the entire peak of the Nine Palace was in an uproar. When

However, although it had been decades, there were not many new people on Nine Palace Peak. Other than the servants like Elder Liu Li and Tan Yue, there were only the wives and children of Tang Huan, Xiao Budian, Mu Yan and Tang Shan, as well as some puppets under the control of the Sword Heart. No

It didn't matter if it was to Jiu Ling, Shan Shan and the others, Tang Huan felt that he was a pillar to them. such as

Today, he had finally returned. The entire peak of the Nine Palace Mountain was brimming with a joyous atmosphere. in

Previously, even though they knew that Tang Huan's life wasn't in danger, because they were separated by an immeasurable distance, no one knew what Tang Huan had experienced within the crevice. Now, seeing Tang Huan with their own eyes, the large stone suspended in front of everyone's chest finally fell to the ground, and their moods were completely relaxed. No

He had never stayed in the "Immortal Spirit Ancestral Court" for too long, so he had never stayed in the Nine Palace Peak for too long either. Only

After a few days, Tang Huan quietly left the Nine Palace Peak. Of course, he left his mother, Ji Ruyi, in his care. Shan Shan, Yu Feiyan, Yu Feiyan and Feng Ming took care of her.

Not long after, Tang Huan arrived at the Big Dipper Realm, and from there, the Heavenly Pivot City entered the void. and

The previous commotion was different. This time, Tang Huan did not disturb anyone, and in the entire nine days, no one heard anything related to him.

"Hu!" one

After a long and joyous cry, the long, snake-like body of Void Rainbow moved swiftly through the boundless darkness like a flash of black lightning. gyri

In this kind of environment, as the void rainbow of the Dark Void Beast, it was like a fish in water. He

Although the speed was not as fast as when Jianxin activated the "Myriad Sword Heavenly Diagram", it was not much slower. Right now, the cave dwelling was at the critical point of improvement after absorbing the power of the "Heaven's Path Pearl." Therefore, Tang Huan did not disturb Jianxin, but rather handed the mission of hurrying over to the void rainbow.

As for the "Myriad Sword Heavenly Diagram", it was held in the mouth by the illusory rainbow.

Inside the cave inside the scroll, Tang Huan sat cross-legged within the Supreme Profound Hall and was already meditating, continuously absorbing the power of the "Immortal Spirit Ancestral". in

During the period of time between the gaps, although Tang Huan's cultivation had increased, it was still an increase. end

To think that this region's Heavenly Dao was too weak and the speed of absorbing the origin energy was too slow. It was naturally not advantageous for Tang Huan's cultivation. Now, Tang Huan needed to increase his own cultivation and strength as much as possible during the period of time before he reached the "Ruins of God" in order to plan for the future. cuddle

With four God Crystals, he definitely would not be a demigod in the Ruins.

However, this bit of power, compared to the Heavenly Dao of a world, was not enough. As a result, Tang Huan did not have much confidence in repairing the spatial barrier in the Ruins of God. As for, he had already been noticed by the Heavenly Dao. The moment Tang Huan appeared at the barrier on the surface of the plane, he might immediately be attacked by the Heavenly Dao. Don

Although Huanhuan was powerful, it was still insufficient to withstand the attacks of the Heavenly Dao.

However, things had already gotten to this point. Whether it was for the sake of his family and friends or this entire plane of existence, Tang Huan, who was almost the strongest in this world, could not retreat. Fortunately, this place was still very far from the Ruins of God. Moreover, this person's Heavenly Dao wasn't weak either, and it was possible that things might take a turn for the better. Don

Huan Huan's expression was focused, her mind was completely focused. The "Art of Creation" circulated at a high speed, the "Nine Yang Divine Furnace" and the Dantian Dao Nascent Soul also circulated to their limits, continuously refining the absorbed energy. They did not notice the passage of time at all, but he could clearly feel himself unceasingly improving.

Time slipped by, and it was unknown how much time had passed ... "

"Boom!" Don

An extremely terrifying aura quickly swept out with Tang Huan's body as the center. In an instant, it had almost filled the entire space of the cave, the aura was extremely mystical, and even contained an intention to transcend the Heavenly Way. No. 1

Five divine crystals! too

Within the Profound Palace, a smile surfaced on Tang Huan's face. With every additional divine crystal, he could feel his strength increasing rapidly. cuddle

With these five godgems in hand, he was now far more powerful than he had been when he had acquired four.

If Tang Huan had possessed five Divine Crystals, then even if he had been injured, he wouldn't have suffered such heavy injuries. "Of course, so many years have passed, so there is no point in making such a hypothesis now."

Void Rainbow, how far is it from the God Ruins? " In a blink of an eye, Tang Huan had already collected himself and sent a mind instructs (in a second) out of the cave.

"Senior, we're still far from here. We're only halfway there, and we'll probably need at least another ten or twenty years to reach the Ruins of God." After a short moment, Tang Huan's mind had caught the Void Rainbow's response.

"Only half?"

Tang Huan could not help but be stunned, and was a little surprised.

He thought that it would take a long time to condense this divine crystal, but from what the Void Rainbow said, it seemed that it only took less than ten years. This was somewhat out of Tang Huan's expectations. However, in the blink of an eye, Tang Huan was relieved. This should be because of the Primal Chaos Immortal Body. This

A similar physique allowed Tang Huan to absorb and refine the primordial energy of Primal Chaos and the primordial energy of immortal spirits at double the rate of effort. In addition to the unparalleled wonders of the "Nine Yang Divine Furnace" and "Creation God Tactic", as well as the

fact that he had an extremely abundant amount of energy to support him, this allowed Tang Huan's refining speed of the divine crystal to increase greatly.

In less than ten years, we'll have an additional divine crystal. From the time we reach the Ruins of God, we'll need more than a dozen years ... " one

Thinking about that, Tang Huan's heart could not help but beat faster. such as

In terms of time, before he reached the Ruins of God, he might be able to add another two God Crystals. That way, he could have as many as seven God Crystals.

If there was no rush to repair the plane barrier, he could have continued cultivating in the Ruins of God, raised the number of God Crystals to nine in one go, and then reached the Divine Realm. He said that he couldn't use the power of the "Invisible Divine Magic Bead" to break through the shackles of the Empyrean Realm in one go and achieve the supreme Divine Throne.

If it really was like this, then he would not have to be afraid of the Heavenly Dao of the neighboring world, and could leisurely repair the barrier on the surface of the world. thought

As he thought about it, a tinge of joy appeared on Tang Huan's face. No

After a while, Tang Huan took a deep breath and continued his cultivation.

Days passed ... deficiency

The rainbow moved like lightning through the void. It didn't stop at all.

There was no need for any guidance. Void Rainbow, which had lived in this world of darkness for countless years, could easily find the direction of the "Ruins of God". body

Because of this surface world's oldest and most powerful supreme beast, none of the other dark void beasts dared to circle around, let alone block his way. At almost the same instant they sensed his aura, the other enormous dark void beasts hidden in the vicinity all retreated far away.

As for the nearby cultivators, they didn't dare to covet this kind of supreme beast. After discovering his existence, they all desperately tried to distance themselves like the other beasts, afraid of being targeted by the rainbows.

On the way, the rainbows were unobstructed.

Inside the cave, Tang Huan did not have to worry about the situation of the outside world at all. All of his focus was on cultivating as he refined more and more of his origin energy.

Unknowingly, a sixth and seventh divine crystals quietly took shape.

Senior, we have arrived in the God Ruins! "

At the edge of the huge whirlpool, the rainbow stopped.

Pang Shuo's body trembled, and he instantly transformed into a human body. After that, he slightly opened his mouth, and the Myriad Sword Heavenly Diagram flickered and appeared in his palm.

"Master!" Inside the cave, after Jianxin heard the sound of the rainbow, a beam of mind instructs (in a second) was directly sent to Tang Huan.

"Arrived?"

Tang Huan suddenly awakened and subconsciously asked, but his attention was still focused within his body. At the location of the Dantian's Dao Nascent Soul, there were seven divine crystals, causing a thick smile to emerge on Tang Huan's face. To Tang Huan, the more divine crystals there were, the greater his chance of breaking through to the Divine Realm.

Once he possessed nine divine crystals, even if Tang Huan failed to prove his dao, there was a very high chance of surviving and becoming a demigod like Hannya and the others.

"Yes." "Yes," Jianxin replied.

"We've finally arrived."

Tang Huan regained his senses, and in a moment of mind instructs (in a second), he flashed out from the cave dwelling and appeared by the side of the Void Rainbow, while the "Myriad Sword Heavenly Diagram" merged with the Dantian.

Brother Tang Huan? " A vigorous voice came from afar, its voice was filled with doubt and surprise.

"Big brother Hannya, how have you been?" Don

Huan Huan faintly smiled, while carrying the power of sucking that originated from the whirlpool, she quickly flew forward. Not long later, the figure of a red robed elder entered her line of sight. It was Hannya.

"Brother Tang Huan, it's really you!"

After personally seeing Tang Huan, Hannya couldn't help but burst out laughing, "When I first noticed the guy behind you, I was a little baffled. I didn't think that you would really be back. However, since you have returned from the lower realms, why are you not returning to the Ruins but instead entering the void? "

This is a long story. " Tang Huan unwittingly smiled and changed the topic. He asked with some surprise, "Big Brother Hannya, it seems that the entrance to the Divine Ruins has expanded a lot?"

"Brother Tang Huan really has sharp eyes." like

If we really have to divert their attention, their expressions will become much more serious as they said in a deep voice, "The Heavenly Dao over there has suddenly increased the invasion force for some reason starting from almost thirty years ago. We can't resist it any longer. The entrance to the God Ruins is indeed much larger."

"If this continues, it is likely that we will only be able to endure for a few hundred years." Speak

At this point, Hannya's face was full of worry.

Thirty years ago ... " At that time, it was precisely when he got rid of You Yan and took away the heaven s way bead that Tang Huan smiled helplessly, "Big Brother Hannya, the unforeseen event here is actually related to me."

Oh? "Why is that?" Hannya said in surprise.

"Big Brother Hannya, when I was in the lower realms before, I entered a spatial crack that was connected to a plane barrier. At that place, I met a clan called the 'Ghost God Clan'. The Lord of the god race is a demigod. I searched through his memories and learned a lot of secrets. "

" ... "

Tang Huan told her everything about the Netherworld Flame and the Demonic Sound God Clan.

"The Dao of Heavens is truly treacherous. It even fooled the Heavenly Dao on our side." When Hannya heard about it, she was terrified, "If their scheme succeeds, even if the barrier is successfully repaired, it will be useless. Brother Tang Huan, this time it's really all thanks to you! "

Chapter 2266

"The danger over there has been eliminated, but it will become even more difficult to repair the walls over here."

Tang Huan shook his head and sighed helplessly.

Hannya unknowingly laughed: "Brother Tang Huan, don't worry too much right now. The Heavenly Dao that is coming from that direction naturally has our own Heavenly Dao to restrain it. At that time, Tian Dao should not have the time to take care of you. Brother Tang Huan, you just need to focus on repairing the wall barrier. "

"I hope so."

Tang Huan nodded, who could say for sure what would happen in the future.

His voice paused slightly, and Tang Huan couldn't help but ask: "Big Brother Hannya, when do I have to start repairing the spatial barrier?"

"The Heavenly Dao should have a plan for this."

Hannya muttered to herself, "Perhaps it won't be long before the will of the Heavenly Dao descends. We only need to wait quietly and act according to the instructions of the Heavenly Dao."

"If that's the case, then I'll enter the 'Ruins of God' to cultivate."

"..."

A short while later, Tang Huan bade farewell to Hannya, and once again entered the God Ruins with the rainbow.

Perhaps it was because the neighboring Heavenly Passage had increased its attacking power, but the moment Tang Huan entered the Ruins of God, he discovered that there had been quite a bit of change in this area. Compared to when he first entered the Ruins of God a few decades ago, this place seemed to have become somewhat unstable, and the fluctuations in his aura also began to become somewhat chaotic.

It was as if this was the sign of the Ruins of God collapsing.

Its existence was extremely important. If the Ruins of God really collapsed, the stable situation between the upper and lower realms would immediately be broken. At that time, the entire world would probably become extremely chaotic and unstable.

However, since he needed to wait for the Heavenly Dao to notify him before repairing the barrier, Tang Huan didn't need to think too much into it.

Although the Ruins of God showed signs of collapse, there was still a long way to go until they truly collapsed. There was no need to worry for at least a few decades.

"Brother Tang Huan."

A burly Black Costume Brawny Man shot over from the distant horizon. It was Duan Yuan.

Accompanying him was a tall and slender green-robed old man with completely white hair. He was the God Ruins' other demigod, Song Gao Yang.

In a split-second, the two had already appeared in front of Tang Huan.

"Brother Tang Huan, Brother Song and I just started talking about you and you came back in the end." Duan Yuan's face was filled with a smile, a smile that was difficult to conceal between his brows.

"Brother Tang Huan, you came back at the right time." Song Gao Yang was also full of smiles.

"Brother Duan, Brother Song"

Tang Huan also cupped his hands in a smile, but before he could finish, a cold voice interrupted them from afar, "Bringing along a burden and bringing down the flesh body to the mortal world, yet being able to return alive, and even bringing that burden back, is truly a miracle!"

Ji Yun's snow-white dress gracefully appeared before them as his gaze swept across Tang Huan and Void Rainbow. His eyes were filled with unconcealable ridicule and ridicule.

Xu Hong stood behind Tang Huan and couldn't help but shrink back like a quail, fear leaking out of her eyes.

He was an expert of the Void Illusionary World, and also the king of the gigantic beasts. However, he couldn't afford to offend any of these SemiGod experts in the Ruins of God.

"Ji Yun?"

Tang Huan looked at the beautiful woman, and the corner of his mouth raised into a smile, "To be able to travel between the upper and lower realms with my flesh body and the illusory rainbow, it would not be an exaggeration to call it a 'miracle'. "Over the past few decades, I have created a miracle like this, but you haven't made any progress at all."

Duan Yuan and Song Gao looked at each other and couldn't help smiling bitterly.

When they found out that Tang Huan had returned to the Ruins of God, they had already predicted that there would be an intense battle going on soon.

"You'll know if I've made any progress. Try me." Ji Yun's face was expressionless, and his tone was cold.

"I'm about to give it a try!"

Tang Huan's expression suddenly sank, and his eyes flashed with an extremely dangerous light.

Duan Yuan and Song Gao Yang both noticed the change in Tang Huan's expression and were shocked. They rushed forward almost at the same time and simultaneously shouted, "Brother Tang Huan, you can't!"

The Divine Ruins had become more and more unstable over the past few decades. If Tang Huan and Ji Yun, these two rankers were to fight, it would definitely aggravate the situation and make the signs of the Divine Ruins collapsing even more obvious.

Moreover, once these two started fighting, it would be hard to stop. If someone died, no matter if it was Tang Huan or Ji Yun, both would be a huge loss.

Because of this, Duan Yuan and Song Gao Yang subconsciously wanted to stop Tang Huan.

But, before the two could take action, Tang Huan had already made his move.

With a slight movement of his feet, Tang Huan traversed several tens of meters and appeared in front of Ji Yun. He stretched out his arm with his five fingers that were like hooks as he grabbed forward.

Ji Yun let out a cold snort, seeming to be slightly disdainful.

But after a moment, her beautiful eyes widened, and her head drooped down in disbelief. Looking at the arm she was nodding at, Tang Huan's five fingers were actually like an iron hoop that was

tightly clamping onto her neck, and a strong suffocating feeling immediately arose from the depths of her soul.

Not far away, Duan Yuan and Song Gao Yang who were trying to stop Tang Huan had their bodies stiffened. The gazes they used to look at Tang Huan were filled with shock and disbelief.

What happened in that instant?

They only saw Tang Huan take a step forward and then stretch out his hand to grab at it. In their minds, with Ji Yun's cultivation and strength as a demigod, it should not be a problem for him to avoid this grab. However, the scene that appeared in an instant later completely overturned their imagination.

Tang Huan had only extended his hand to grab, yet he had actually grabbed Ji Yun's neck. It was as if Ji Yun had not dodged and allowed Tang Huan to hit him.

And this, was obviously impossible.

With Ji Yun's enmity towards Tang Huan, he would be happy if he did not take the opportunity to heavily injure Tang Huan. How would he allow himself to fall into Tang Huan's hands? The reason why the two of them wanted to stop Tang Huan, was probably because they were worried that Tang Huan would suffer a loss under Ji Yun's hands. After all, one was a Peak Superior Emphyrean while the other was a SemiGod. If Ji Yun wanted to kill them, and they did not interfere, it would be difficult for Tang Huan to escape unscathed.

◦

However, the results of this battle made it hard for the two of them to believe their own eyes.

It was impossible for Ji Yun to take the initiative to let Tang Huan capture him, which meant that it was extremely possible that she was unable to counterattack in time, or that she was completely unable to do so.

It had only been a few decades, but Tang Huan already possessed such terrifying strength?

When they saw Tang Huan again, they had observed him carefully. Unfortunately, they could not sense any of the aura fluctuations that came from Tang Huan's body, and if they did not personally see Tang Huan standing right in front of them, they definitely would not have been able to sense his existence.

This time, they were able to discover that Tang Huan had returned to the Divine Ruins because they had sensed the aura of the Void Rainbow.

Not only did they not sense any of Tang Huan's aura when he appeared, they did not even detect a trace of his aura at all when he attacked just now. But in the end, Tang Huan casually controlled Ji Yun.

From Ji Yun's expression, it was clear that all of this was outside of her expectations.

Duan Yuan and Song Gao's expressions were dull as they stared at the slender black figure. They even forgot to let out a cry of surprise.

"Brother Duan, Brother Song, do you think this Ji Yun has not made any progress at all?" Right at this moment, Tang Huan suddenly looked at Duan Yuan and Song Gao Yang with a smile.

"Ah?" "This..."

The two of them seemed to have just woken up from a dream, the expression on their originally stiff face became extremely interesting, and their hearts were filled with emotion, but they did not know how to answer Tang Huan's question.

Several decades ago, when Tang Huan had just entered the Divine Ruins, they had once felt Tang Huan's aura and could confirm that he was indeed at the peak of the Upper Sky Realm at that time.

However, at that time, Tang Huan's strength had clearly far surpassed the average peak Upper Sky Sovereign.

When he had fought against Ji Yun's aura back then, he was not at a disadvantage at all. But even so, if Tang Huan had grown to the point where he could easily crush Ji Yun in just a few decades, then that would be too scary. Compared to Ji Yun, Ji Yun's power had not improved at all.

"Tang Huan, you, you ..."

Ji Yun came back to his senses from the shock and forced a few words out of his throat.

However, before she could finish what she wanted to say, her voice suddenly stopped. On her fair and tender face that was tender like congealed oil, her skin had actually swollen to a purple hue, and her facial features seemed to be squeezed into a pile.

Ji Yun was like a fish on the verge of death due to lack of water, staring at Tang Huan with his mouth wide open.

The feeling of having difficulty breathing grew stronger and stronger. It was as though if Tang Huan used even more strength on her hand, she would suffocate because of it. Let alone the Heaven Realm, even in the lower realms, they had never heard of a cultivator suffocating to death. However, she was the only person who knew about this incredible thing ...

It happened to the god.

If she was truly strangled to death, she would become the first demigod in this world to die from suffocation.

To her, this was not only a great tragedy, but also a great joke. If this were to spread out, who knew how many people would mock her in the future?

Tang Huan stared at Ji Yun with cold eyes.

"Brother Tang Huan, please be lenient —" Seeing that Ji Yun's expression was growing more and more unsightly, Duan Yuan and Song Gao finally woke up and hurriedly tried to stop him.

" ... "

Tang Huan acted as if he did not hear anything, and did not show any signs of letting go.

"Brother Tang Huan, now that the great enemy is in front of us, let's work together and overcome this crisis together. Song Gao Yang spoke again with an anxious expression.

"It doesn't matter if there's one less piece of trash who hasn't progressed in decades." Tang Huan started laughing, but his tone remained as cold as ever, "Brother Duan, Brother Song, the reason why I took the risk of descending with my flesh body to the mortal world dozens of years ago was to find my mother who had been separated from me since childhood.

It was controlled for hundreds of years and has yet to awaken. The main culprit who caused all of this is Ji Yun. "

Towards enemies that had once offended him, Tang Huan would not necessarily kill them all.

For example, the Black Cicada from the Beidou Immortal Sect had once chased Tang Huan, and could be said to be Tang Huan's greatest enemy. Afterwards, Tang Huan's strength had improved greatly, so killing the Black Cicada would not be any harder than crushing an ant to death. However, by that time, Tang Huan would no longer have any interest in bickering with the Black Cicada.

However, Ji Yun's condition was vastly different from that of the cicada.

As the Holy Daughter of the Tian Clan, in order to avoid the fate of sacrifice, Ji Ruyan escaped from the Forging God Great World to the small world. Not many years after Tang Huan was born in the small world, she had no choice but to flee back to the Forging God Great World from a small world.

The reason why she had encountered such a rough situation was because of this ancestor of the Tian Clan, Ji Yun.

The moment the Crescent Moon Sphere saw his mother, Tang Huan already had the urge to kill her. Now that they had returned to the Ruins of the Gods, how could Tang Huan possibly let her go just because of Duan Yuan and Song Gao Yang's dissuasion? In the hundreds of years he had been in this world, Tang Huan had never wanted to kill someone so much.

"..."

Duan Yuan and Song Gao looked at each other and fell silent.

They knew that Tang Huan's original body had descended to the lower realms to find his mother, and that there was an extremely deep grudge between Tang Huan and Ji Yun. However, they didn't know that the grudge between Tang Huan and Ji Yun had reached such a depth. Her mother had been a puppet for hundreds of years. As the son of a human, how could Tang Huan not take revenge?

Ji Yun had also brought a calamity upon himself, and could not live on. Back then, when she descended upon her clone and sacrificed the descendants of the sacred daughters of her clan to increase her own strength, how could she ever have imagined that she would face such retaliation one day? Tang Huan's mother was a descendant of the Ji Yun clan, so it could be said that Tang Huan was also her descendant, but now, her distant ancestor was going to die in the hands of her descendants ...

Middle.

Duan Yuan and Song Gao looked at Ji Yun, feeling both ridiculous and conflicted.

Just as they had said before, with the invasion of the heavenly laws from the neighboring realms, with a great enemy at hand, Tang Huan killing one of their own experts, this was after all not a good thing. However, the hatred between Tang Huan and Ji Yun was too deep, they did not know how to persuade him anymore.

"Ji Yun, it's time for you to leave as well."

Tang Huan didn't pay any more attention to Duan Yuan and Song Gao Yang's expressions. Facing Ji Yun's pained gaze, he gave a light smile, but just when Tang Huan was about to finish her life, the surrounding space suddenly fluctuated, and a terrifying aura of the Heavenly Dao appeared very quickly.

"Tang Huan, stop!" A light shout suddenly echoed out. This voice seemed to contain a great majesty, as if it was the voice of an exalted emperor that ruled over the entire world. It was something that one could only obey and not defy. Almost at the instant the voice rang out, the aura in the sky seemed to solidify. Then, it rapidly distorted and in a blink of an eye, it turned into a handsome young man wearing a white robe.

Chapter 2267

The sudden appearance of the white-robed youth was caused by the will of the heavens.

Ji Yun seemed to sense something as well, and a hint of hope appeared in his eyes. By the side, Duan Yuan and Song Gao Yang couldn't help but secretly sigh in relief. Now that the will of the heavens had personally revealed their bodies and advised them otherwise, Tang Huan wouldn't be so stubborn as to kill Ji Yun, right?

Tang Huan looked at the white gowned youth, and unconsciously went silent, but his brows secretly knitted. Tang Huan, you can call me 'Absolute Beginning'. " The white-robed youth smiled slightly and said, "What this Ji Yun has done does indeed have a way to kill him. Tang Huan, if you want to kill her, I, Xue Xue'er, hate you. However, Tang Huan, you also know that right now is the critical moment in defending against the Heavenly Dao's attack.

SemiGod, we are lacking a bit of strength. How about we give her face and let her live for now? "

"Right, right, Tang Huan, if you really want to kill her, it won't be too late to do so after you've repaired the barrier and passed through this crisis." Duan Yuan and Song Gao nodded in agreement.

"Senior Tai Chu, you are the Dao of Heaven and the spirit of this world. Every cultivator that lives in this world can be considered your subjects. Since you've already spoken, then logically speaking, I should have just let this Ji Yun go ... " After a moment of silence, Tang Huan finally spoke.

Hearing Tang Huan's words, Duan Yuan and Song Gao Yang's hearts skipped a beat, and then they had a bad premonition.

The absolute beginning also sensed it, after which his eyebrows slightly creased.

Sure enough, after a moment, Tang Huan's tone changed and he spoke in a low voice, "However, my mother has suffered for hundreds of years. As long as Ji Yun lives one more day, my heart will not be at ease, and I will not be able to wait for the day that the Facial Barrier will be repaired.

As soon as he finished speaking, a terrifying power surged out from Tang Huan's palm and poured into Ji Yun's body with the force of an avalanche, causing everything to become chaotic.

"Brother Tang Huan!" Duan Yuan and Song Gao's expressions changed greatly and they cried out involuntarily.

"Hmm ..."

Ji Yun's eyes were wide opened, filled with shock and disbelief. This Tang Huan actually dared to disobey the orders of the heaven, to kill him?

After a short period of shock, Ji Yun subconsciously wanted to ask the Dao of Heaven for help.

However, she only had enough time to let out a painful groan before the Dantian was invaded by the terrifying power. Under this surge of power, her nine divine crystals actually didn't have any effect and disappeared into thin air.

Ji Yun's eyes were filled with unwillingness and despair, but they quickly lost their luster.

Even a Demigod rank expert would find it hard to survive when their Dao Nascent Soul completely collapsed. Once a Dao Nascent disappeared, no matter how powerful their soul would be, it would dissipate like rootless and headless water at an astonishing speed ... Just like Ji Yun was right now.

In the blink of an eye, Ji Yun's soul had completely vanished.

In between Tang Huan's mind instructs (in a second), a cluster of primal chaos flames appeared from within his palm and enveloped Ji Yun within. In an instant, she had turned into ashes and disappeared without a trace.

Seeing this scene, both Duan Yuan and Song Gao felt a chill in their hearts.

Although their relationship within the "Ruins of God" wasn't very harmonious, after spending such a long time together, seeing a demigod like her being destroyed in such a manner made the two of them feel a sense of sadness.

Seeing this, his pupils suddenly contracted, his eyebrows slightly furrowed, but soon relaxed again.

"Forget it, forget it."

"Since things have come to this, I will not say anymore. Tang Huan, the next thing to do is to rely on you."

"Senior Absolute beginning, I will definitely try my best!" Tang Huan cupped his hands and said.

"Okay, okay. You should prepare first. Once the time is ripe, I will inform you."

The absolute beginning nodded, no longer saying anything else, his figure instantly disappeared and that terrifying Heavenly Energy also merged back into the void, as if it had never appeared before.

"Hu!"

Tang Huan squinted his eyes and sighed.

Duan Yuan and Song Gao slightly moved their bodies forward. After sizing up Tang Huan, Song Gao Yang couldn't help but shake his head with a bitter smile, and said with a sigh: "Tang Huan, you're really too bold, even Senior Tai Chu was not willing to listen to his advice, and still killed Ji Yun."

"Yeah, if it was me, I wouldn't have such guts." Duan Yuan also sighed, and when he looked at Tang Huan, the expression in his eyes became complicated.

"Brother Duan, Brother Song, I have to do the same." Tang Huan said in a deep voice, "As long as I look at this Ji Yun, I can imagine the suffering my mother has endured over the past few hundred years. Let alone the time when the barrier is being repaired, even if I had to let her live for one more day, I would still find it hard to bear."

"I believe Senior Tai Chu can understand my thoughts, and won't blame me for it."

As he spoke till here, Tang Huan revealed a smile, but in her heart, she did not feel this way. However, not only did Tang Huan not listen, he even killed Ji Yun in front of Absolute beginning at lightning speed. This went against Absolute beginning's wishes, even if he did not have any ill feelings towards Tang Huan, he would still feel displeased.

Furthermore, Tang Huan did indeed detect his displeasure from the change in his expression at the beginning.

However, Tang Huan did not mind it too much.

The Heavenly Dao is indeed this Faced Spirit. However, he is also a product of the laws of the world. The laws of the world were the foundation for how the outside world worked.

And the Heavenly Dao, as the spirit of the plane, would also suffer the backlash from the laws of the heaven and earth. If it was serious, the outside world would collapse without even needing to suffer the invasion of the adjacent Heavenly Dao.

If this world collapsed, how could the Heavenly Dao appear in this world and continue to exist?

Therefore, as long as Tang Huan did not go against the rules of the heaven and earth, then he did not need to worry about bearing grudges against the heavens.

Of course, if Tang Huan swore the oath to the heavens, and then violated his own oath to the heavens, then the heavens could not be blamed for taking care of him. Under such a circumstance, even if the heavens truly killed him, the heavens would not be harmed, because Tang Huan had violated the laws of the heaven and earth first.

In addition to that, the outside world was currently facing an invasion of a heavenly law by the outside world, and the barrier before him still needed Tang Huan's "Primal Chaos Dao Fire" to be repaired. No matter how displeased Tai Chu was with Tang Huan, he could only endure, and could not truly act against Tang Huan.

Other than wanting to avenge his mother, Tang Huan also wanted to kill Ji Yun so that he could prove his identity as a divine being.

The Divine Proof of the Dao meant to transcend the Heavenly Dao. And to transcend the Heavenly Dao was to defy the heavens. Just now, if Tang Huan had listened to Tai Chu's advice and went against his own intentions, this period of experience, would definitely become a huge obstacle in his path to becoming a divine spirit in the future. Currently, Tang Huan already possessed seven divine crystals, and was not too far away from becoming a god. He would definitely not allow his own path of cultivation to develop any further.

Like a stain.

"You don't have to worry about that."

Song Gao Yang couldn't help but smile, "Senior Tai Chu is magnanimous, he would definitely not mind."

He was naturally clear that even if Tang Huan went a little overboard, the Heavenly Dao would not do anything to him. After all, Tang Huan possessed the unique "Primal Chaos Dao Flame", its importance. Not to mention Ji Yun, even if all these demigods were to add up, they would still not be able to compare to it.

If they had to make a choice between Tang Huan and them, the Heavenly Dao would definitely choose Tang Huan, not them, the group of SemiGods.

"Brother Tang Huan..."

Duan Yuan also nodded, but before he finished speaking, Tang Huan had waved his hand, stopping him from speaking. Soon after, Tang Huan looked towards the sky on his right, and with a look of ridicule in his eyes, he slowly said: "Eavesdropping for so long, you don't want to show yourself for a while?"

When Duan Yuan and Song Gao heard this, they were slightly surprised, but they soon came to a realization.

However, before the two of them had the chance to speak, Tang Huan's voice sounded once again, "I'll give you five breaths of time, roll over here immediately, or else" Otherwise, did not say anything. However, the faint killing intent in his tone, made his meaning extremely clear.

Hearing this, Duan Yuan and Song Gao couldn't help but look at each other and hesitate.

Whoosh.

Without waiting for the two to speak, an extremely minute sound of breaking through the air came from the right side of the sky. Accompanying this voice was a fiery red figure. In the blink of an eye, it had already appeared in front of Tang Huan.

From the moment Tang Huan's voice fell to the moment the woman in red appeared, only two to three breaths of time had passed.

The woman in red had clearly been startled by what had just happened. In the depths of her eyes, there was still some lingering shock, astonishment, and disbelief.

"Brother Tang Huan, this is the Fire Phoenix SemiGod."

Song Gao Yang laughed and quickly introduced him to Tang Huan, "The Fire Phoenix SemiGod entered this Ruins of God only after you descended into the lower realms a few decades ago."

"Fire Phoenix greets the Tang ..." "Brother Tang."

The lady in red secretly took a breath, and bowed to Tang Huan with a complicated look in her eyes.

"Fire Phoenix, is this not our first time meeting each other?" Tang Huan sized the red-clothed female up once, and then laughed leisurely.

"No."

The fire phoenix's coquettish face squeezed out a smile, "In the thirty-six days of my Crimson Radiance Heavens, one of my embodiment has seen Brother Tang."

Duan Yuan and Song Gao Yang looked at each other in shock. Unexpectedly, Tang Huan and this Fire Phoenix SemiGod had already known each other for a long time.

"Did you just see it?" Tang Huan said indifferently. My embodiment is still ... It had even chased Brother Tang for a period of time, but that embodiment still died at the hands of Brother Tang in the end. "The fire phoenix said with a bitter face, "After I received the news, I had once again

dispatched a new set of embodiment to Crimson Radiance Heavenly Palace to investigate Brother Tang's whereabouts. I wanted to seize Brother Tang's treasure, but to no avail.

No effort. Actually, the reason I came to the 'Ruins of God' this time, is also because of Brother Tang's treasure, but I didn't expect that ... "

As she spoke to here, the fire phoenix had a pained expression and could no longer continue.

She was the former Empyrean Flamephoenix. From the moment Tang Huan was still in the Scarlet Radiance Heaven, she had already planned to steal the treasures on Tang Huan's body.

Later on, after the "Immortal Spirit Ancestral Court" was closed, she took the opportunity to kill Gu Daozi and the other experts from the "Clear Void Dao Pavilion".

After that, they unintentionally found out that Tang Huan had gone to the Divine Ruins. She knew very well that there were many SemiGods in the Ruins of God. If they came too late and the treasure on Tang Huan's body was taken away, it would be extremely difficult to get her hands on it.

However, what she didn't expect was that after she arrived in the God Ruins, Tang Huan had already descended into the lower realms. And now, after entering the God Ruins, she had another mission, which was to suppress the entrance of the God Ruins along with Hannya, Duan Yuan, Song Gao Yang and Ji Yun.

The Flamephoenix had no choice but to stay.

However, the next scene that happened caused her soul to tremble. Ji Yun was a dignified SemiGod Ranker, but in front of Tang Huan, he did not have the slightest bit of power to resist.

Even when the Heavenly Dao had personally appeared to advise against it, Tang Huan still killed Ji Yun.

In the instant that Ji Yun's soul was destroyed, the fire phoenix seemed to have been splashed with ice water and completely awakened. It no longer hoped to steal the treasure on Tang Huan's body, but started to think about how to avoid attracting Tang Huan's attention.

Unfortunately, before she could even retreat, Tang Huan had already called for her to go into hiding and she had no choice but to appear.

Ji Yun's example was not far away. At this moment, the fire phoenix was trembling with fear and didn't dare to make the slightest movement. If it was killed like Ji Yun, it would be an unjustifiable death.

At the side, Duan Yuan and Song Gao were dumbstruck as they listened. They never would have thought that there was actually such a grudge between the newly arrived Fire Phoenix SemiGod and Tang Huan. Previously, Ji Yun did what he wanted and could not live on. The fire phoenix did the same, and did not live on its own, provoking anyone, including Tang Huan. It even wanted to steal Tang Huan's body.

The treasure above, did he think his life was too long? However, she couldn't seem to be blamed for that. After all, who would have thought that in just a short few decades, Tang Huan, a peak of the upper echelon of the Heavenly Sovereign Realm, would actually be able to grow to such an unbelievable degree?

Right now, if she had to blame something, she could only blame her bad luck. She could only hope that Tang Huan would not start killing again.

Otherwise, the Flamephoenix probably wouldn't have been able to escape this calamity.

"You're honest."

Tang Huan laughed slowly, "Don't worry, since you're here within five breaths of time, I won't kill you!" Hearing that, the Fire Phoenix was overjoyed, but after an instant, Tang Huan's following words made her, a semi-god level expert, feel as if she had fallen into an ice cave.

Chapter 2268

"I want half of your blood essence." Tang Huan said casually.

"This... This..."

The Flamephoenix's heart was ice-cold. She had been severely injured in the past and was on the verge of death. The reason she was able to recover and improve her cultivation was because her phoenix blood essence was strong enough. If half of it was given to Tang Huan, her strength would definitely be greatly reduced.

If he wanted to recover to his current state, it would be impossible to do so without tens of thousands of years.

"This is impossible!"

She subconsciously wanted to shout out these few notes, but when the words reached her mouth, she forcefully swallowed them back down. She only dared to think about this in her head. This Tang Huan was a cruel and merciless person, if she really rejected Tang Huan's request, she would probably lose her life very quickly.

If he could not even preserve his life, all the blood and essence in his body would fall into Tang Huan's hands.

But if she were to hand over half of her blood essence for free, how could she be willing? If she lost 50% of her blood essence, not to mention Duan Yuan, Song Gao Yang, and the other SemiGods, a Upper Level Zun Stage Heavenly Jewel Master would be able to heavily injure her.

"What is it? "You don't want to?" Tang Huan glanced at Fire Phoenix, his expression somewhat gloomy.

"No ..." "That's not it..."

Fire Phoenix's mind shook and she hurriedly shook her head. In an instant, her charming face squeezed out a smile that was uglier than a cry. She said with a trembling voice, "I ... I am willing!"

As she spoke, the Flamephoenix felt as if her heart was bleeding.

"Alright!"

Tang Huan reached out to grab it.

The Flamephoenix didn't dare to dodge. Of course, even if she wanted to, she wouldn't be able to. After an instant, she felt a gentle yet mysterious power wrap around her entire body, and then slowly seeped into her body. In an instant, it had already spread to her limbs and bones.

The fire phoenix knew what Tang Huan wanted to do, and didn't dare to resist.

In the next moment, the fire phoenix felt that the power contained a strange kind of magic. As it swam around, the blood essence in its body seemed to be attracted by a magnet and was slowly separated from its body, gathering at the bottom of Tang Huan's palm at an astonishing speed.

Seeing this scene, Duan Yuan and Song Gao were both silent, but in their hearts, they could only bitterly smile.

When Tang Huan had just entered the Ruins of God, although they had addressed him as Brother Tang Huan, deep in their souls, they still felt a sense of superiority. After all, they were all SemiGod level experts, and Tang Huan was merely a Peak Level Sky Sovereign, which was similar to how they sensed him.

But he didn't expect that in just a few short decades, the situation would be completely reversed.

Once Tang Huan returned to the "Ruins of God", he went against the will of the heavens, killed the SemiGod Ji Yun, and then forced the semi-divine fire phoenix to hand over half of its blood essence ... The current Tang Huan had already become an existence that even they had to look up to. This kind of enormous disparity caused the two's emotions to become extremely complicated.

They were lucky that they did not have a relationship with Tang Huan back then. Otherwise, they would not have suffered as much as Ji Yun and Huo Feng right now.

After a short while, a fiery-red ball the size of a bowl appeared in Tang Huan's hands.

It made one's heart tremble, as if this small ball contained an ancient volcano that had been brewing for countless years. At any time, it could erupt with a terrifying power that could destroy the heavens and obliterate the heavens.

This was the blood essence of the Fire Phoenix! Tang Huan flipped his palm and slowly retracted his arm. The power that covered the body of the fire phoenix also retreated like the tides. An instant later, when the energy completely withdrew, the fire phoenix's delicate body could not help but

sway a little. Her face had also turned somewhat pale and her expression was filled with a tiredness and sorrow that could not be left behind ...

Grief.

With just a slight reaction, Tang Huan kept the ball of Fire Phoenix blood essence.

Fifty percent of a SemiGod Ranker's blood essence was considered a priceless treasure, but of course, Tang Huan didn't plan on using this for himself. With his current cultivation, refining this blood essence wouldn't have any obvious effects. Therefore, Tang Huan prepared to leave this ball of Fire Phoenix blood essence with Feng Ming.

Feng Ming was born from this fire phoenix's blood essence, if she could refine and absorb this ball of blood essence, her strength would definitely rise by leaps and bounds.

"You can leave now!" Tang Huan waved his hand.

"Yes sir!"

The fire phoenix bowed, not daring to stay any longer. It quickly retreated, and soon disappeared without a trace.

"Brother Tang Huan, we will be taking our leave too."

After a while, Duan Yuan and Song Gao Yang bade farewell to Tang Huan as well. Everything that had happened today was too mind-boggling.

"Brother Duan, Brother Song, please do as you please!" Tang Huan smiled slightly.

"..."

Fire Phoenix, Duan Yuan and Song Gao Yang left in succession. Not long later, only Tang Huan and Xu Que were left in this region.

"Void Rainbow!" suddenly said after sending Duan Yuan and Song Gao Yang off with his eyes.

"Junior is here."

The void rainbow shuddered, then suddenly woke up. The eyes it looked at Tang Huan with, was filled with respect and admiration that it was difficult to conceal.

What happened just now had left him dumbstruck.

To him, whether it was Ji Yun or the fire phoenix, both were existences he had to look up to. Their current cultivation levels were also beyond his reach. However, this kind of a SemiGod Ranker was easily killed by Tang Huan, and there was also a person who obediently handed over half of his blood essence.

In front of Tang Huan, these two SemiGod Stage Rankers did not have any strength to resist.

What shocked the Void Rainbow even more was that even though the will of the Heavenly Dao had been personally displayed to persuade her, Tang Huan still had not changed his mind and killed Ji Yun in one go. Having lived in this world for countless years, had he ever seen a creature that possessed such elegance?

"You should find a place to cultivate. No one will make things difficult for you here." Tang Huan waved his hand.

"Yes!" Thank you, senior! " The Void Rainbow said respectfully.

"..."

After the rainbow quickly left, Tang Huan casually found a place to sit down. After that, he calmed his mind and concentrated.

To Tang Huan, cultivating in any place was of no importance.

This was because while he was cultivating, he didn't need to absorb all the energy in the surrounding space. Instead, he would use the Yan Luo Golden Immortal to absorb the source energy from the Immortal Spirit Ancestral Court. This meant that even if there was no power by his side, he could still cultivate at an extremely fast speed.

As long as it was in an area that could be covered by the Heavenly Dao!

Tang Huan's mind was focused and focused, he did not notice the passage of time at all.

"Boom —"

After an unknown period of time, an incomparably terrifying aura burst out of Tang Huan's body, quickly sweeping out in all directions.

In the blink of an eye, this aura had already spread throughout the entire Divine Ruins.

"This is ..."

On a piece of land fragment not far away, the rainbow-colored light suddenly woke up. It looked in the direction of the aura, somewhat bewildered and uncertain.

After a moment, a hint of joy appeared between the brows of the Void Rainbow. From the looks of it, Senior's cultivation had broken through again!

"Divine crystals?"

On another piece of land fragment, Duan Yuan abruptly opened his eyes. His eyes revealed a hint of surprise as he simultaneously muttered these two words. In that enormous aura, there was a hidden intent that transcended the Heavenly Dao. Moreover, this intent was extremely powerful.

From this, it could be determined that Tang Huan had just condensed a Divine Crystal.

Not too far away, Song Gao Yang also cried out and suddenly woke up from his cultivation.

"As expected, Brother Tang Huan is not an ordinary peak Superior Emphyrean."

After being stunned for a moment, Song Gao Yang could not help but mutter to himself, "I wonder, how many divine crystals did Brother Tang Huan refine?"

Before, after they bade Tang Huan farewell, Song Gao Yang and Duan Yuan had gathered together and speculated for a long time.

According to their guesses, Tang Huan should have obtained a Divine Crystal long ago, and there shouldn't be just one of them. It was truly inconceivable that a peak Emphyrean that had yet to reach the Divine Realm would actually possess a Divine Crystal. If this news were to spread, it would probably cause a huge uproar in the nine heavens.

However, although such a judgement was extremely inconceivable, this was the only possibility that could explain Tang Huan's performance in the Ruins of God. If Tang Huan did not possess many Divine Crystals, how could he have displayed such overwhelming power towards Ji Yun and the Flamephoenix?

After such a conclusion, Song Gao Yang and Duan Yuan came to an even more shocking conclusion.

That was, within a thousand years, or even several hundred years, Tang Huan would be able to prove his success in obtaining the Divine Throne and become the first Divine Realm expert to do so in the last tens of thousands of years.

Now that he felt the terrifying aura that originated from Tang Huan, Song Gao Yang once again thought of this conclusion. The envy in his eyes was completely uncontrollable.

"Tang Huan..."

On a fragment of land at the edge of the Ruins of God, the Flamephoenix softly spat out these two words, her face filled with a bitter smile.

Since Song Gao and Duan Yuan were able to come to such a conclusion, the Flamephoenix naturally wouldn't have thought of it.

During the time she had lost fifty percent of her blood essence, the fire phoenix had indeed hated Tang Huan to the extreme. She was well aware that with the actions she had taken against Tang Huan back then, if Tang Huan was narrow-minded, she could definitely kill him.

Taking half of her blood essence to spare her life could be said to be completely magnanimous to Tang Huan.

If she continued to complain about herself, it would cause her hatred to cloud her reasoning. It would not be beneficial to her in the future. Since this had already happened, rather than hating him day in and day out, he might as well put all other thoughts aside and focus on cultivating, slowly replenishing that half of his lost blood essence.

However, even though the fire phoenix had calmed down, it still felt waves of emotions when it sensed Tang Huan's divine crystal aura.

"The eighth divine crystal!"

At this time, Tang Huan slowly opened his eyes, excitement flickering deep within his eyes.

Next, he only needed to condense another God Crystal to be able to reach the Divine Level. Once he succeeded, he would become the only Divine Level powerhouse in the entire Planar World.

After a moment of happiness, Tang Huan's heart suddenly became anxious.

It would take close to ten years to condense a single God Crystal, but it was impossible for him to stay here to cultivate in peace. Once the time was ripe, the Absolute beginning could notify him to repair the surface barrier at any time.

However, Tang Huan would not drag things out. This was because it was not only related to his own safety, it was also related to the safety of his friends and relatives. It was even related to the safety of the countless living creatures in the entire plane of the plane.

Therefore, Tang Huan needed to make the best use of his time and diligently cultivate. If he could condense the ninth divine crystal before he could truly repair the surface barrier, it would naturally be a heavenly happy occasion. If he could prove the position of the God, then, Tang Huan wouldn't have to worry about anything.

Taking a deep breath, Tang Huan quickly rid himself of all distracting thoughts, and continued to immerse himself in cultivation.

Time trickled by, many years had passed, and Tang Huan seemed to have sensed something, he abruptly stopped his cultivation, opened his eyes and looked towards the right, where he found his landing spot in the Ruins of the Gods. At this moment, there was a strange wave of energy coming from that side.

"It's time!"

Tang Huan sensed something and leaped up.

Just then, Tang Huan caught sight of the majestic mind instructs (in a second): "Tang Huan, get ready." That was the voice of the absolute beginning.

Other orders of the Absolute Beginning, Tang Huan would not necessarily follow them, in case it became an obstacle for him to verify his dao heart, but for this matter, Tang Huan would definitely not reject it, because he had to follow his own heart and not the orders of the heavens.

As a result, after capturing the mind instructs (in a second), Tang Huan did not hesitate at all and shot to the right.

Dozens of kilometers passed in the blink of an eye, and Tang Huan stopped at the side of the exit to the Divine Ruins.

In the blink of an eye, Void Rainbow, Duan Yuan, Song Gao Yang, and the fire phoenix all appeared one after another. It was clear that they had all received mind instructs (in a second) from the Absolute beginning.

The few of them looked at each other without uttering a word. However, they could see the solemnity in each other's eyes.

They all knew that they were at a critical juncture. Whether or not they could successfully repair the surface barrier was up to them. If he succeeded, this world would continue to exist, but if he failed, not only would the Heavenly Dao not escape, all these demigods would also be destroyed.

The exit of the Ruins was originally a white whirlpool with a radius of a few dozen meters. Naturally, it couldn't be compared to the scene of the entrance of a radius of hundreds of thousands of kilometers. It was fortunate that the exit was only this big. Otherwise, the entire Ruins of God would have been swallowed up by the exit whirlpool, never to exist again.

However, at this moment, the movement of the white vortex was gradually weakening. It was even dissipating bit by bit.

That bizarre fluctuation that Tang Huan felt earlier, had precisely originated from this whirlpool. Under the gaze of Tang Huan and the rest, not long after, the white vortex finally stopped. It looked like the exit of the Ruins of God had turned into a ball of white mist, churning endlessly.

"Come in!" After a blink of an eye, Absolute Beginning's mind instructs (in a second) was once again transmitted over.

Chapter 2269

Tang Huan, Duan Yuan, Song Gao Yang and the others looked at each other, and in the next moment, almost simultaneously leaped into the white mist formed by the vortex.

In the blink of an eye, several hours passed

Tang Huan discovered that he had already entered into a vast area covered in white mist. However, this region was already like a sieve that was full of holes, with many dark holes of varying sizes scattered throughout.

The aura of that day had given Tang Huan a sense of familiarity.

Tang Huan knew that the aura should be from the Heavenly Dao that originated from the neighboring world. However, at this moment, the Heavenly Daos seemed to have been restrained, and his attention was not diverted to this place. The aura that had rushed in was not intentionally instigated by the Heavenly Daos, but naturally spread out.

The only thing keeping the Heavenly Dao in check was the first phase of the Heavenly Dao.

Not knowing what kind of method Tai Chu used to be able to do this, Tang Huan felt that it was a little strange. Furthermore, Duan Yuan, Song Gao Yang and the others who jumped into the white mist with Tang Huan did not appear here.

"Tang Huan, quickly make the move. We only have about forty to fifty years to repair this wall." Shortly after, the mind instructs (in a second) of Absolute Beginning surged.

"Understood!"

Tang Huan's mind went cold, and immediately eliminated all distracting thoughts.

In the next moment, Tang Huan activated "Godly Creation Art", and then activated both "Nine Yang Divine Furnace" and the Nascent Soul in his dantian to their limits. Not long later, "Primal Chaos Daos" spewed out in all directions with Tang Huan's body as the center, and a small, almost transparent sea of fire immediately gathered and formed around him.

Tang Huan's "Primal Chaos Daos Fire" could melt all living things, but the primal chaos that it contained possessed the characteristic of endless life. Using the primal chaos energy to merge with the barrier would allow the barrier's self-healing technique to be fully unleashed, and the holes would be quickly healed.

The spatial barriers of the various great worlds of the lower realms as well as the various Heaven Realms of the upper realms were all able to repair themselves.

So what if it was a spatial barrier? An even more powerful spatial barrier would naturally be able to be repaired as well. The reason why these holes had always existed was because they were suppressed by the Heavenly Daos of the neighboring worlds. After so many years, the self-repair function of the surface barrier had been lost.

Therefore, if he wanted to bring out the self-recovery function of the surface barrier, he had to first restore it.

Tang Huan calmed his mind and focused. As he urged the flames to permeate into the barrier, he also absorbed the origin energy from the "Celestial Sect of Ancestral Immortals" to refine it, to

replenish the consumption of the Primal Chaos Dao Flame ... At this moment, Tang Huan was sincerely glad.

Moreover, the rate at which the firepower was being consumed was shockingly fast as well. If not for the Immortal Spirit Ancestral Peak in the Ancestral Temple, Tang Huan would not be able to last much longer.

Time flew by, the transparent sea of flames churned violently, but Tang Huan remained focused on the matter.

At this moment, Hannya, Duan Yuan, Song Gao Yang, the Flamephoenix and the Void Rainbow had already gathered together and were sitting cross-legged in the air above the whirlpool at the entrance to the Divine Ruins. The five of them seemed to have deliberately arranged their positions, with Hannya in the center while the other four figures surrounded him like stars surrounding the moon.

However, their positions were not fixed. After an instant, the one in the center had become Duan Yuan, then Song Gao Yang, the fire phoenix, and the Void Rainbow ... As the cycle continued, the five of them seemed to use their own bodies to form a large formation that continuously revolved according to a mysterious pattern. Following the operation of the formation, a strange power that was like strands of silk surged out from their bodies like a huge net, enveloping the entire vortex ...

Inside.

In the blink of an eye, the whirlpool that was covered by the huge net seemed to have transformed into a huge swamp.

Within the swamp, two abnormally huge streams of Heavenly Energy were constantly intertwining and surging. One of the streams of Heavenly Energy seemed to have merged with Hannya and the other party, who were in the sky, into a perfect whole. It actually drew the other streams of Heavenly Energy into this whirlpool.

From a distance, the whirlpool seemed calm and peaceful. Boundless darkness filled the void. The Heaven Realm, the lower realms ... In fact, the entire world seemed calm and serene. However, only the living beings within the world knew how dangerous and soul-stirring the battles within the vortex were This battle concerned the entire plane!

Existence.

Inside that area with hundreds of thousands of holes, Tang Huan was extremely clear about the severity of the situation. The chance to repair the barrier was only this once. The absolute beginning must have paid a huge price in order to tie down the Heavenly Dao of the neighboring world. If the Dao of Heavens had not been restored to a certain degree after being rid of the restriction from the Absolute Beginning, then the world would have almost entered into its end ...

Got it.

After all, it had been restraining the Heavenly Dao for dozens of years. The consumption of the Absolute beginning must be huge. Once the Heavenly Dao invaded, the Absolute beginning would have difficulty resisting it.

As a result, Tang Huan didn't dare to have the slightest bit of attention right now.

As time passed, Tang Huan's firepower consumption rate had reached an extremely shocking rate. However, luckily, Tang Huan's replenishing speed was also extremely fast, so he did not need to worry about the firepower being suddenly depleted. It was also because of this that Tang Huan was able to go all out.

As his mind was immersed in it, Tang Huan was completely unable to sense the passage of time.

However, Tang Huan was not in a hurry. The transparent sea of flames around him had not expanded, and had always covered a radius of tens of metres. And in this area, there were only three small, dark holes.

Everything was difficult at the beginning. If the coverage was too wide, it would definitely divert everyone's attention.

Therefore, Tang Huan had to first focus on the small area around him. As long as he reactivated the repairing function of this small area's barrier, it could gradually spread outwards, and at that time, his speed would become faster and faster. Of course, during this period, Tang Huan had to restrain himself.

Fortunately, Tang Huan had an extremely clear goal for what he wanted to do, so he maintained his calm demeanor the entire time.

Time flew, and after who knows how long, Tang Huan suddenly had a feeling, and a happy smile appeared on his face. In that instant, Tang Huan realized that in that small area covered by the sea of fire, the face barrier had actually begun to squirm in an extremely minute manner.

To Tang Huan, this was the same as seeing a business oasis to the hungry travelers in the desert. Hope was right in front of his eyes.

After a moment of happiness, Tang Huan once again calmed his mind. Along with the raging and surging of the Chaos Daos, the dense chaos energy was separated out piece by piece, unceasingly seeping into the surface barrier. This chaos energy was like a catalyst, causing the barrier to wiggle faster and faster. The life force that had disappeared for a long time seemed to be gradually returning to normal ...

Repeat.

Tang Huan calmed his mind and carefully observed the small changes in the barrier.

"It should be about time."

At almost the same time, Tang Huan noticed that the three black holes had shrunk by a little bit at almost the same time.

A great sense of joy uncontrollably arose from the bottom of Tang Huan's heart.

The hole had shrunk, which meant that the wall barrier's self-repair function had been restored. Of course, it had only just recovered its function. It was still very weak and could not be compared to its peak state. If it was completely restored, even the holes in the surrounding hundreds of miles would be completely healed in an instant. "However, this is already a great improvement."

Tang Huan took a deep breath. This was a critical moment, he did not dare to relax in the slightest.

The face barrier was wiggling more and more intensely. As time passed, the whirlpool was shrinking bit by bit. It seemed like a year, but also like a few years later. Finally, the three dark holes completely disappeared. The small surface of the barrier had also changed from wriggling to rolling like clouds.

"It's time to expand!"

In between Tang Huan's mind instructs (in a second), the transparent sea of flames immediately surged out in all directions, and in an instant, it had expanded to nearly double its original size.

With the previous experience, Tang Huan was now even more at ease.

The chaos energy spread along the surface of the barrier, and the movement of the barrier also spread in all directions. The chaos energy spread along the surface of the barrier, and the movement of the barrier also spread in all directions, but it became smaller and smaller.

However, the longer it persisted, the louder the commotion became.

This time, it only took a short period of time for the new surface barrier to regain its ability to repair itself, and the small holes in that area to heal at a faster rate ... This made Tang Huan excited, as everything was progressing in a good direction.

When those holes completely healed, Tang Huan's sea of fire expanded once again.

This kind of successful experience continued to circulate. The area that was covered by the sea of fire became wider and wider, and more and more planar barriers were restored to the vitality and vitality that they were supposed to have.

Needless to say, this function of the plane barrier was very powerful.

When its instincts were spurred on, even if Tang Huan stopped, under the situation where he was not being suppressed by any external force, it could slowly recover and gradually become stronger.

And with Tang Huan's help, its recovery speed was naturally even faster, to the point that even Tang Huan was surprised by it.

Of course, this was also a heavenly good thing for Tang Huan.

After repairing nearly half of the dark black hole on the surface of the barrier, Tang Huan no longer needed to use so much firepower, nor did he need to merge more of the primal chaos intent.

With such a change, Tang Huan could even split part of his energy to refine the origin energy and condense the ninth divine crystal that had yet to take shape.

At the entrance to the God Ruins, in the whirlpool.

The struggle and entanglement between the two Heavenly Daos had reached its climax.

"Absolute beginning, you won't be able to hold on much longer, it's better to give up as soon as possible, don't struggle to the death anymore." "If I were to be tactful, I might not be able to completely engulf you, but rather condense you into my Heavenly Dao clone while retaining your consciousness."

"You're dreaming." Tai Chu sneered, "Hong Yun, don't talk so much nonsense. Even if I were to turn into ashes, you still wouldn't get away with it."

"How stubborn!" "In that case, don't blame me ..."

"Eh? No, that's not right. Someone was actually repairing the wall barrier ... How is this possible? More than half of it has already been repaired?" Hong Yun was shocked, but he quickly came to a realization, "Absolute beginning, I understand, this is your real goal, to restrain me here, and then take this opportunity to repair the wall barrier!"

"Yes, but unfortunately, you understand it too late." The absolute beginning snorted coldly.

"Chaos energy ..." Dao-fire ... Hateful! Hateful! "Absolute beginning, where did you find such a cultivator?"

Hong Yun was extremely angry. His energy was restricted here, so he didn't have time to pay attention to the situation in other areas. However, just now, he suddenly felt a great danger. After some investigation, he finally understood where that danger came from. However, this moment of distraction had already made the Absolute beginning swallow a lot of his Heavenly Dao ...

Power.

"Where did I find it? This has nothing to do with you. " His mind instructs (in a second) revealed a sense of exaltation, it was extremely carefree and carefree, and it was extremely satisfying. "Hong Yun, if I were you, quickly retreat, otherwise, your loss this time might not be small."

"If you want me to leave, it won't be that easy ... I know, it's that bastard who is spoiling my plans!"

"..."

Inside the vortex, mind instructs (in a second) was flowing unhindered. In the air above the whirlpool, the great formation formed by Hannya, Duan Yuan, Song Gao Yang, Fire Phoenix, and Void Rainbow was still continuously revolving.

Within the vast area covered in white mist, the speed at which the surface barrier was being repaired had become extremely quick.

Even those large holes could not sustain it for long. Very quickly, they disappeared amidst the churning waves of the spatial barrier, and unknowingly, the area around them that had thousands of holes in it had become narrower and narrower.

If this situation continued, it was estimated that it would not take long before this wall would be completely repaired.

"Jianxin, how much time has passed?"

Tang Huan's current expression had already become rather relaxed. As he refined the origin energy and activated the "Primal Chaos Daos," he sent a streak of mind instructs (in a second) over to the heart of the sword.

"Thirty-five years!" Jianxin had quickly recovered.

"Thirty-five years ..."

Tang Huan sensed the situation in the area and secretly nodded in his heart.

With his current speed, he should be able to completely repair the face barrier before Tai Chu can take it. Also, he won't need 40 to 50 years to do that. It was impossible for the Heavenly Daos of the neighboring planes to not be aware of the situation here. Once it discovers the changes in this place and knows that there is no hope of devouring its own world, it will probably retreat.

Chapter 2270

"Eh? It's already starting to recede. "

Just at this time, Tang Huan's mind was moved, the remaining dark holes in the area, the incoming heaven's aura started to retreat like the tides.

This meant that the Heavenly Energy in the world next door had already started to shrink.

The surface barrier had already been repaired to such a state, and it was not far from a complete recovery. The Heavenly Road clearly felt the enormous pressure from this.

Now, if he still didn't leave, it would be too late to leave once the plane barrier was completely restored.

At that time, the portion of Heavenly Energy that he invades will be completely cut off from the world he resides in, and then it will be absorbed by the Absolute Beginning. If this was calculated, the Heavenly Energy consumed during this period of time would be greatly compensated.

Things had already come to this point. No matter how unwilling he was, the Heavenly Dao could only choose to retreat. Even though it would be embarrassing to retreat now, it was better than losing a large amount of Heavenly Energy.

Tang Huan smiled slightly, he no longer paid attention to the movements in the holes, but shifted most of his attention to his own body. At the point where his dantian was about to enter the Nascent Soul, the ninth divine crystal was about to take shape.

Then, just at that moment, a strong sense of warning rose up from the depths of Tang Huan's soul. At the dark black holes, the aura of the heavenly dao suddenly appeared again, following that, an extremely terrifying amount of heavenly dao force surged in from the holes, sweeping towards Tang Huan.

Tang Huan suddenly opened his eyes and immediately understood the reason.

Even though Tian Dao had made the decision to leave, he had planned to kidnap Tang Huan when he left and had even planned to take action.

To make such a move on Tang Huan, it did not go against the rules of the heaven and earth, and it would not cause any backlash.

This was because Tang Huan was a cultivator of this plane, and he was not the heaven's way of this plane. The heavens and earth would not restrict him.

However, what surprised Tang Huan was that the attack and defense of the two heavenly Daos had already changed. Facing the pressure from the Absolute beginning, the Heavenly Daos still had time to attack Tang Huan?

This did not make much sense.

However, in the next moment, Tang Huan immediately understood that there was something fishy about it. The reason the Heavenly Dao was able to do that, should be because someone was releasing the water, and the only person who was able to do that, was the Heavenly Dao of this plane. It seemed like the matter of him killing Ji Yun in the Ruins of God, had not been resolved in the first place.

Now that the plane wall barrier was almost repaired, even without his Primal Chaos flame, the barrier's self-repair function would become more and more powerful. It would just take more time for the remaining area to be repaired.

Because of this barrier, even if the world next door were to come back, it wouldn't be able to cause much trouble. The Absolute Beginning didn't need to personally attack Tang Huan, and didn't need to go against the rules of the heaven and earth to remove the spikes in Tang Huan's eyes.

Also, after Tang Huan was kidnapped by the Heavenly Dao, Tai Chu didn't have to worry about Tang Huan rebelling at all, and working for him. It has to be said that Tang Huan's wife and children were all in this plane of existence, if Tang Huan really helped the Heavenly Dao to launch an attack on this plane of existence again, it would be equivalent to putting them to death.

"Victory is assured. Let's start by destroying the bridge after crossing the river. How could there be such a cheap deal?"

Tang Huan could not help but sneer inwardly.

Seemingly at the same time this thought flashed through his mind, an earth-shattering rumbling sound exploded from within Tang Huan's body as the ninth divine crystal finally condensed and formed.

"Little bastard, you dare to spoil my plans, I won't forgive you!"

An angry mind instructs (in a second) had already arrived along with the roar of the divine way.

However, right at this moment, a gigantic Qi suddenly surged out with Tang Huan's body as the center, surrounding him. The Qi contained an exceptionally dense intent contained within it, and in that instant, it clashed against the power of the Heavenly Daos like raging waves.

In an instant, a loud rumble reverberated throughout the entire area.

"Divine crystals?"

"So what if you condensed a divine crystal? Possessing a divine crystal does not mean that you have to verify the dao of the divine, your plane of existence is innumerable, and there are a lot of people who possess divine crystals. How many can prove that you have reached the divine realm?"

"Come over here!"

With a furious roar, the immense power of the Heavenly Dao instantly dispersed the surging aura around Tang Huan's body, and crazily swept towards him.

However, after the flick of a finger, Tian Dao was stunned again.

Tang Huan who was sitting cross legged suddenly opened his eyes, in that moment, his eyes became extremely deep, as though the entire sky was contained within them. At the same time, a small figure quickly rose from Tang Huan's body and floated above her head.

That figure was also seated cross-legged like Tang Huan, as though he was a greatly reduced baby. He was Tang Huan's Dao Nascent Soul.

As soon as the Dao soul appeared, it gave rise to a very strange and violent fluctuation. Wherever this fluctuation passed by, the Heavenly Energy of the original world would immediately appear and rapidly surge.

"Attack the Divine level?"

The mind instructs (in a second) of the Heavenly Dao was filled with disbelief.

No matter which peak peak Empyrean it was, as long as they could reach the Divine Realm, they would definitely trigger the descent of the Heavenly Dao. This was a type of natural law that no one could change, not even the Heavenly Dao itself.

At this time, if he were to continue attacking Tang Huan, he would definitely clash with Absolute beginning once again. To be able to reach the Divine level at this time, this brat could indeed avoid being abducted by him.

However, without making preparations, it was no different from courting death to attempt to become a divine being. Even though this brat helped Tai Chu to repair the surface barrier, but Tai Chu obviously didn't have a good impression of him. Otherwise, he wouldn't let him go at such a

time and let him take advantage of this situation to kidnap this brat ... He clearly understood the evil intentions of the Absolute beginning, and this opportunity was exactly what he wanted ...

o

Without the restraint of the Absolute Beginning, there was no difficulty for him to abduct a cultivator who had yet to prove his god.

He had never imagined that at such a critical moment, the Cultivator would make such a decision.

"Rumble ..."

An earth-shaking explosion then reverberated in the entire space, and a burst of extremely majestic Heavenly Energy poured down like a waterfall. In an instant, Tang Huan was enveloped within it, and then like a stormy sea, it swept out in all directions, with an irresistible force that was like a thunderstorm, it was unstoppable.

"F * ck!"

That day, the mind instructs (in a second) could not help but explode. Although Tang Huan had assaulted the Divine Realm and was definitely going to die, he had planned to kidnap Tang Huan not to kill him, but to borrow Tang Huan's Primal Chaos Dao Fire to remove the barrier on his face so that he could come back in the future. But now, all of his plans had been for nothing. Seeing the power of the Absolute Beginning approaching, although he was unwilling, he could only retreat in anger.
