

W. Master 2271

Chapter 2271

In order to avoid getting entangled with the Primal Beginning again, the Heavenly Daos' speed was extremely fast. In the blink of an eye, it had already disappeared along with the remnants of the dark hole.

With his departure, the Heavenly Energy of the real world had already filled up every corner of this area in the blink of an eye.

Under the cover of the vast Heavenly Energy, Tang Huan had already slightly closed his eyes. His body was like a boulder and he remained unmoving, however the fluctuation coming from the nascent soul above his head was getting more and more intense.

If cultivators from the lower realms wanted to ascend to heaven, they would have to endure heavenly tribulation.

The so-called "divine tribulation" was completely manifested from the will of the Heavenly Dao.

If one was able to successfully overcome the divine tribulation's tempering, then they would be able to confirm their dao and transcend the Heavenly Dao. Even the Heavenly Dao would not be able to move a single inch.

Tang Huan was very clear that the Absolute Beginning was already displeased with him, and now that he had borrowed his hand to force the heavenly dao from the world next door back, he was sure to be even more displeased.

This meant that the Absolute beginning would be within the limits of the laws of the world, trying to strengthen the divine tribulation as much as possible.

If he failed with the help of the Heavenly Daos, he would kill him amidst the divine tribulation.

The Divine Tribulation that he had to endure would definitely far surpass Hannya, Duan Yuan, and the others from that year, as well as the peak Superior Emphyreans that had once broken through into the Divine Realm.

Regarding this, Tang Huan was well aware of it, but he did not pay too much attention to it.

Strengthening Divine Tribulation at the beginning was an even more powerful training for him. As long as he could endure this level of training, his strength would definitely rise by leaps and bounds. At that time, all the Divine level experts who had just established their dao might not even be as strong as him.

Because of this, Tang Huan's mood was extremely relaxed.

At the same time, in the air above the whirlpool at the entrance to the Ruins of God, Hannya, Duan Yuan, Song Gao Yang, Fire Phoenix, and Void Rainbow all simultaneously opened their eyes. They heaved long sighs of relief.

"It's finally over."

Hannya laughed out loud, her tone was relaxed and carefree like never before.

Duan Yuan, Song Gao Yang, and the others couldn't help but look at each other and laugh. After the laugh, the Void Rainbow said weakly, "I wonder how senior is doing right now?"

"Brother Tang Huan must have made good progress, otherwise, Tian Dao would not have left. We would not speak so casually here." Hannya laughed, "Have you guys noticed? The Heavenly Road just withdrew, and this whirlpool is starting to shrink without support."

"That's true."

Everyone gathered their thoughts and enveloped the whirlpool. Sure enough, they discovered that it was shrinking at a shocking speed.

Not long after, the whirlpool became hundreds of thousands of miles in size. Then, it became tens of thousands of miles in size. Soon, it was only a few thousand miles ... In just ten short breaths of time, the entrance to the Ruins of God had shrunk countless times. Even Hannya and the others were somewhat speechless.

But even so, the vortex didn't slow down at all.

Within a radius of a few hundred kilometers ... Within a radius of several dozen kilometers ... Thousands of meters in radius ... When the whirlpool stopped shrinking, it was only a few hundred meters in size. Its circulation seemed to have weakened greatly, and the power of the sucking that surged out from the depths of the whirlpool had also weakened by many times, not affecting Hannya and the others in the slightest.

With the current state of the entrance, even an ordinary Heavenly King would be able to easily enter the Ruins of God, as long as he could pass through the endless void and reach this place.

"Everyone, let's return to the Ruins of God first and wait for Brother Tang Huan ..."

Duan Yuan Hong laughed, but before he could finish his sentence, his voice abruptly stopped. His eyes revealed a trace of unconcealable astonishment.

Not only him, even Hannya, Song Gao Yang, and the others by the side had a drastic change in expression.

They discovered that deep within the whirlpool, an incomparably dense white-colored odor had begun to rise. In the blink of an eye, it had nearly filled up half of the whirlpool, and was even rapidly expanding. Hannya and Duan Yuan snapped out of their daze and hurriedly retreated.

When they, who were several hundred kilometers away, looked again, the lump of white-colored odor had already expanded countless of times. It was like a gigantic mushroom cloud as it floated in the sky above the vortex.

In the mushroom cloud, the Heavenly Energy was rampaging. It was terrifying to the extreme.

Not only was it the case that, in everyone's eyes, there seemed to be many thick bolts of white lightning that were like giant snakes darting crazily through the clouds within the mushroom cloud. Occasionally, they would roar down from the sky and stab into the depths of the whirlpool, causing thunderous sounds.

"Divine Tribulation!" This is a divine tribulation! "

Instantly, exclamations of surprise rose one after another!

Whether it was Duan Yuan, Song Gao Yang, Hannya, or Fire Phoenix, all of their expressions had changed drastically at this moment. Their eyes were filled with deep fear and shock. It was because they had all experienced such a scene before. Their memories of the tribulations of a narrow escape from death were still fresh in their minds, leaving a lingering fear in their hearts.

Even the void rainbow that had never experienced a divine tribulation could not help but be dumbstruck at this moment. Such a strange and shocking scene caused his eyes to stare blankly.

"Among the cultivators in this area, other than the few of us, there's only Brother Tang Huan. This divine tribulation must be aimed at him!"

"Strange! Strange! Why did Brother Tang Huan choose to reach the Divine Realm? "

"Yeah, I have just forced back the Heavenly Dao, and it is time for me to rest and recuperate. It is not wise for Brother Tang Huan to attack the Divine Realm right now."

"..."

After the short period of shock, Hannya, Duan Yuan and the rest swiftly recovered from their shock. As they spoke, they exchanged glances, but all of them could see shock and disbelief in each other's eyes. Indeed, Tang Huan choosing to break through into the Divine Realm at such a moment was too illogical.

Among them, other than the void rainbow, whether it was the fact that they had not interacted with Tang Huan for a long time, or that they had not interacted with him often enough, it could be seen that Tang Huan was definitely not a reckless individual. Even if he wanted to do some extremely dangerous things, he would only start only after he had confidence that they could do them.

Just like how his original body had descended to the lower realms to save his mother.

But this time, no matter how he thought about it, it seemed that Tang Huan should not have made such an unwise move, because this was indeed not a good time, and from the position, the place where Tang Huan had advanced to the Divine Realm seemed to be the area where he was trying to repair the barrier on the surface. To be able to reach the Divine Realm at such a time and in such a place, even with Tang Huan's strength and aptitude, the possibility of failure was still shockingly high.

Chapter 2272

Just when everyone was in a different mood, within that area, Tang Huan, who was enveloped by the power of heaven, finally felt the divine tribulation descending from the sky above.

"Rumble ..."

Amidst the deafening sound, a thick white electric snake pounced down crazily with the force of a thunderbolt.

However, the surrounding space did not show any movement as it passed by.

It was as if this divine tribulation was one with the heavens and the earth. However, the aura emitted from that white lightning snake was extremely terrifying. Powerful, majestic, vast, vigorous ... That aura was actually very upright, as if it contained the might of the world itself. It could crush any obstacle into dust.

At this moment, Tang Huan felt that other than himself and the white electric snake, everything else in the world seemed to have disappeared without a trace.

In between Tang Huan's mind instructs (in a second), the infant above his head began to rapidly expand, and actually swallowed the thick white electric snake in one gulp. An extremely violent hurricane suddenly appeared on the calm sea surface. An incomparably terrifying power began to wreak havoc in the Dao Nascent Soul's body like a madman.

However, at almost the same instant, the nine divine crystals and the nearly forty billion Dao-Crystals which made up this infant began to wildly revolve, quickly eliminating the explosive power of the divine tribulation. In the process, the massive white lightning serpent shrank at a speed which was hard to capture even with the power of his mind.

"Rumble ..."

However, the moment the white lightning snakes completely disappeared from the Dao Nascent Soul's body, an earth-shaking sound rang out once more. This time, there were actually two thick white lightning snakes that descended from the sky at the same time. In the sky above Tang Huan, the nascent soul stood still, and once again swallowed the two electric snakes. The power that the two electric snakes released was naturally even more terrifying, as it had caused quite a huge impact to Tang Huan's nine divine crystals and the tens of billions of dao crystals. However, while divine crystals and Dao-Crystals could withstand the impact of a divine tribulation, it was also a powerful training for the user. Only after experiencing enough tribulation can one reach the Nascent Soul stage

A qualitative change had occurred.

In the blink of an eye, the two lightning serpents disappeared once more. However, in the blink of an eye, four lightning serpents descended. Divine tribulation was different from heavenly tribulation. Every time a tribulation attacked, the next one would double in power. Under normal circumstances, an Empyrean would have to experience nine levels of heavenly tribulation in order to be able to confirm their own Dao of the God level. But if this trend was multiplied, then at the ninth level, there would be 256!

This kind of white electric snake.

To a peak peak Empyrean, a single bolt of lightning was already extremely terrifying, much less having two hundred and fifty-six of them appear at the same time. Therefore, the majority of Empyreans that managed to reach the Divine level would end up in failure. As long as there were a few lucky ones, they would be able to keep their lives or be called demigods.

Only one in a million Empyreans would be able to prove their existence as Deities of the Dao. Of course, the Nine Stage Divine Tribulation was something that an ordinary Heavenly Sovereign would face. When Tang Huan was at loggerheads with the heavenly dao, the Absolute beginning would definitely strengthen the Divine Tribulation that Tang Huan had to endure within the realm allowed by the laws of heaven and earth. According to the information that Tang Huan had gathered from the Serene Flame's memories, there had been several Heavenly Sovereigns that could endure the Ten Stage of Divine Tribulation.

◦

In the neighboring plane world, such an example had appeared in ancient times.

The ninth tribulation was a set of 256 white lightning serpents ... and the tenth tribulation was naturally a set of 512 white lightning serpents descending at the same time ... To the vast majority of Emphyreans, the sixth layer of 32 electric snakes was already a nightmare, not to mention 500 of them.

Under such a level of divine tribulation, even the most powerful of peak Highest Emphyreans would be instantly burnt to ashes.

As for the Emphyreans, they only needed to withstand nine levels of heavenly tribulation. As for the Emphyreans, they needed to withstand ten levels ... There wasn't a clear answer to the question in You Yan's memories, but one thing was certain. Before entering the Divine Realm, the more divine crystals one possessed, the more likely they would be able to withstand the Divine Tribulation.

Tang Huan now had nine divine crystals, which was the limit that the Heavenly Sovereign could reach.

Therefore, if Absolute Beginning bestowed ten levels of heavenly tribulation upon Tang Huan, it would not go against the rules of the world at all. If Tang Huan's soul was shattered by such a heavenly tribulation, Tai Chu would not suffer any backlash.

However, since Tang Huan dared to choose to ascend to the Divine Realm at this time, he naturally had long since been prepared in his heart.

Within the Nascent Soul above his head, as the four lightning snakes dissipated, the eight white lightning snakes came crashing down at the same time ... And then, sixteen to sixteen white lightning snakes ... Thirty-two white electric snakes ... Every single electric snake was overflowing with power, forming an extremely strong contrast to the tranquil space around them.

"Rumble ..."

The rumbling sounds became even louder and more ear-piercing as sixty-four white electric snakes rapidly descended. Tang Huan's body remained unmoving and the baby above did not cower as it once again swallowed all of them ... In that instant, his already huge Dao soul instantly expanded to twice its original size.

Within the Dao Infant's body, lightning snakes were scurrying about wildly, as if they were going to tear it to shreds.

However, under the guidance of the nine godgems, the tens of billions of Dao-Crystals were blocked off layer by layer, becoming smaller and smaller. However, under the guidance of the nine godgems, the tens of billions of Dao-Crystals, under the guidance of the nine godgems, layer by layer, intercepted and grew smaller and smaller.

This was the seventh tribulation!

From the Qi, Tang Huan could vaguely sense a trace of emotion that came from the heavens.

To be able to successfully pass the seventh level of Divine Tribulation with just his Dao Nascent Soul, the Absolute Beginning seemed to be a bit impatient.

Tang Huan was naturally clear of the reason why he had such a change in mood.

Even if it was the tenth stage of the Divine Tribulation Realm, there would only be three stages remaining. If Tang Huan successfully passed through the Divine Tribulation Realm, no matter how furious and resentful Tai Chu was, he could only watch helplessly as Tang Huan was promoted to the Divine Realm. However, after witnessing the Divine Tribulation Realm, not only was Tang Huan fearless of the Heavenly Dao, he could even attack the Heavenly Dao.

The Heavenly Dao was one with the outside world.

Although Tang Huan could not destroy the Heavenly Dao, he could still greatly weaken its power. If Tang Huan's methods were strong enough, he could even make the Heavenly Dao its most basic state. At that time, if he wanted to recover to his current state, who knew how long it would take.

If the Absolute beginning failed after crossing the river, they would definitely be worried about the retaliation from Tang Huan. Naturally, they did not want Tang Huan to succeed in proving the location of the God.

"Absolute beginning, don't worry, we'll take our time." The corner of Tang Huan's mouth curled up into a mocking smile, and a surge of mind instructs (in a second) spread out in all directions like lightning.

"..."

The Absolute beginning did not reply, but the emotions contained within the aura of the Heavenly Dao were getting more and more intense, and right after, the eighth stage of Divine Tribulation appeared!

128 white lightning snakes shot down from the sky at the same time ...

...

"This is the eighth heavenly tribulation!"

In the dark void, Hannya and Duan Yuan who were looking at the direction of the whirlpool couldn't help but cry out in alarm, their eyes unblinkingly looking in the same direction.

At this moment, their minds were greatly shaken.

At first, when they discovered that the Heavenly Dao had revealed the divine tribulation, they were all worried for Tang Huan. After all, regardless of time or place, they were all unsuitable for Tang Huan to break through to the Divine Realm.

Tang Huan would naturally pay the price for his impulsiveness.

Probably within a few stages of Divine Tribulation, Tang Huan would turn into dust and completely disappear from this world. Of course, with Tang Huan's terrifying strength that could easily suppress a SemiGod, he might be able to preserve his life but he would definitely receive heavy injuries. For his impulsive actions this time, he had paid an extremely huge price.

Moreover, even if he managed to keep his life this time, the difficulty of his second attempt at becoming a Divine Knight would undoubtedly increase greatly in the future.

To Tang Huan, this was evidently extremely disadvantageous.

However, what everyone didn't expect was that Tang Huan had successfully passed through the first to seventh stage tribulations unscathed. Moreover, from the looks of the situation over there, Tang Huan had only survived a short period of time per stage, which was much faster than when they were trying to reach the Divine Realm.

The divine tribulation required one to successfully cross one level before the next one would descend. As a result, it was very easy to determine how long it would take for a person to survive each level. In addition, it was because of this reason that a small number of Emphyreans were able to survive when they failed to ascend to the Divine Realm.

If one level had not passed and the next level came one after another, then there would probably be no living being that had survived the divine tribulation. In that case, there were only two possible outcomes to breaking into the Divine Level, one was to succeed, the other was to die from failure, and the option to survive would no longer exist.

Amongst the few people here, other than the void rainbow, Hannya, Duan Yuan, Song Gao Yang, and the fire phoenix had all experienced divine tribulation and understood it somewhat. But looking at the current situation, Tang Huan clearly still had some strength left over, otherwise, it would have been impossible for Tang Huan to face the eighth stage of divine tribulation so quickly.

"There are only two levels left!"

"The most dangerous part is the ninth tribulation!" However, if Brother Tang Huan still has some power left over from the eighth stage of the heavenly tribulation, then the ninth stage of the heavenly tribulation should not be too difficult for him! "

"In my opinion, the chances of Brother Tang Huan failing are extremely small!"

"It looks like a Divine Promised Expert will appear in front of us soon!"

" ... "

Hannya and the others kept muttering nonstop, all of them subconsciously lowering their voices, as though they were afraid that they would startle the Tang Huan under the divine tribulation.

Behind the group of demigods, Void Rainbow was tightly clenching her fists and was extremely nervous. However, when he heard that there was a very high probability that Tang Huan would be able to pass the test, the nervousness in his eyes was quickly replaced with excitement. He had long thought of himself as Tang Huan's follower, and had even placed himself in the position of his servant.

Anthracene.

At this time, under the eighth stage of Divine Tribulation, which was made up of one hundred and twenty-eight white electric snakes, the infant returned to his dantian as Tang Huan's Chaos Immortal body began to inflate at a speed that was difficult to catch by the naked eye.

In less than half a blink of an eye, Tang Huan's body had already reached a height of several hundred meters.

It was also at this moment that the hundred over electric snakes smashed onto Tang Huan's body at the same time, but all directly charged into Tang Huan's body, and quickly spread out. In this instant, Tang Huan's flesh body, the Sky Origin within his dantian's Dao Nascent Soul, and even the "Primal Chaos Dao Flame", were all channeled to the limit.

As the electric snakes tore apart Tang Huan's internal organs, limbs and bones, they were also constantly being melted and weakened by the energy within Tang Huan's body. The damaged regions of his body were also constantly being repaired at an astonishing speed ... Destroy, repair ... Destroy, repair ...

Within Tang Huan's body, this cycle continued.

However, it had only lasted for the span of a few breaths, and the interior of Tang Huan's body had already regained its calm. The surrounding aura of the Heavenly Dao seemed to contain more and more anger. If the Absolute Beginning was right in front of him, then his face would probably be filled with rage right now.

The corner of Tang Huan's mouth widened, and his mind quickly calmed down. High above in the sky, there were already two hundred and fifty-six thick white electric snakes roaring down at him from all directions. A rumbling sound filled the skies, but those white lightning serpents actually gave off a feeling of silence.

An incomparably terrifying pressure was born out of thin air, as if it could directly strike into the depths of one's soul.

"The ninth tribulation!"

"Last layer!"

"It's almost over!"

In the dark void, Hannya and the rest couldn't help but cry out, their eyes opened even wider.

The crucial ninth level of the Divine Tribulation was about to descend. Whether he succeeded or failed, it was time to make a move! If it was successful, Tang Huan would become the first Divine Inheritor in the past tens of thousands of years. Tang Huan could become a demigod like them, but he could also turn into ashes.

Becoming a demigod was still alright.

However, if it died, then that would be too much a pity, since from ancient times, it was extremely rare to find a cultivator with talent like Tang Huan. If a genius like this died to a divine tribulation, wouldn't that be a blow to the heart?

At this moment, regardless of whether it was Hannya, Duan Yuan, Song Gao Yang, or Void Rainbow, their hearts all suddenly rose up.

Even the Fire Phoenix was staring at the whirlpool without blinking at all, and its emotions were a little complicated. If Tang Huan succeeded, it would be a great thing for the outside world, but if Tang Huan failed to become a witness to the gods, and even died, then she would have avenged her great vengeance.

Everyone was paying close attention to the movements of the divine tribulation, yet Tang Huan remained as calm as ever under the divine tribulation.

"Rumble ..."

The rumbling sounds lingered on endlessly, and continuously attacked Tang Huan's eardrums. However, at this time, Tang Huan's body had undergone a rather strange change. His robes had long since turned to dust in the face of the divine tribulation, and his entire body was now completely exposed.

In a split-second, more than two hundred white lightning snakes had already rushed into Tang Huan's Primal Chaos Immortal's body. Through the surface of Tang Huan's body, one could seemingly see streaks of white light shuttling quickly, like numerous mad poisonous snakes, constantly pulling at and cutting at Tang Huan's body. In just a blink of an eye, Tang Huan's internal organs, muscles and bones seemed to have been disrupted.

Chapter 2273

However, such a degree of injury could not cause any fatal damage to Tang Huan. Tang Huan's Primal Chaos Celestial Body had long ago ceased to be a pure flesh body; it would not even be an exaggeration to say that it was a physical entity condensed from energy. As long as Tang Huan's soul was not destroyed, even if his body was blasted into smithereens by the ninth level of Divine Tribulation, it could still be reformed ...

form.

Moreover, even though the ninth stage of the Divine Tribulation is strong, it isn't strong enough to the point of destroying Tang Huan's Primal Chaos Immortal Body. After all, Tang Huan's body did not exist alone. Inside his body, there were not only nine divine crystals and a nascent soul formed from nearly forty billion dao crystals, there was also a majestic and vigorous "Primal Chaos Dao Fire". His power surged and his firepower surged. He was constantly wearing down the two hundred over lightning bolts that had charged into his body ...

Snakes.

No matter how chaotic his body looked, Tang Huan's body remained as unmoving as a boulder.

At this time, Tang Huan did not use the artifact "Nine Yang Divine Furnace," nor did he use the "Illusory Sword Heavenly Palace," nor the "Primal Chaos Origin Crystal," nor did he use the "Divine Corroboration Orb" that he had obtained in the Celestial Ancestral Court ... He was completely using his own flesh body to forcefully take on the nine stages of divine tribulation.

After about ten breaths of time, he finally regained his calm.

"Success!" "It's a success!"

"Brother Tang Huan has successfully proven himself as a divine being!"

"Haha, the ninth level of the Divine Tribulation has disappeared!"

"..."

In the void of darkness, Hannya, Duan Yuan, Song Gao Yang, and Void Rainbow could hardly help but cheer out loud. The fire phoenix also had a complicated expression on its face, but the envy in its eyes could barely be repressed.

Judging from the situation at the entrance, the ninth level of Divine Tribulation had truly disappeared!

As SemiGods, Hannya and the Fire Phoenix were very clear on what this meant. The disappearance of the ninth level of the Divine Tribulation meant that Tang Huan had withstood the attack of the final level of the Divine Tribulation and succeeded in proving his prowess as a deity. From now on, Tang Huan would become the only Divine Realm expert in this plane.

After so many years, many Emphyreans had continuously tried to break through to the Divine Level. However, most of them had turned into dust during this process and only a few had become SemiGods. But now, there was finally such a cultivator who could truly prove the existence of a Divine Level.

At this moment, the excitement from the bottom of Hannya and the others' hearts couldn't be described with words. The excitement in their eyes had also turned into intense bewilderment and confusion. If Tang Huan could successfully pass through the divine tribulation, then, in the sky above the whirlpool, the huge and bulky tribulation cloud should quickly dissipate without a trace. However, it still existed at this moment, and it did not have a trace.

Signs of dissipation.

What was going on?

Could it be that Tang Huan had failed?

If Tang Huan failed to witness the divine might, then the ninth level of Divine Tribulation, which was condensed from the two hundred and fifty-six white electric snakes, would once again return to the calamity cloud the moment Tang Huan failed ... Just now, Hannya and the others had been watching very carefully. The ninth tribulation definitely hadn't returned.

This completely confirmed that Tang Huan had passed the ninth level of Divine Tribulation.

The only thing that puzzled everyone was that Tang Huan had already proven himself, so why did the tribulation cloud that should have disappeared still exist?

Everyone looked at each other in dismay. Their hearts were filled with doubts. The situation over there was extremely strange.

"Rumble ..."

Another loud sound echoed in this dark void.

"No, no!" Hannya suddenly widened her eyes, and shouted in shock, "The divine tribulation is not over, there is still the tenth divine tribulation! There's still the tenth level of Divine Tribulation! "

"The tenth level of the Divine Tribulation?"

Duan Yuan and the others were flabbergasted.

A pair of eyes stared fixedly at the violent rolling tribulation cloud. Almost at the same instant Hannya's voice fell, the thick white lightning snake once again poured down from the sky. The number of white lightning snakes that formed the divine tribulation had actually reached a terrifying 512!

He had originally thought that after the ninth level of tribulation, he would be able to confirm the location of a Dao deity. He hadn't expected that now, a tenth tribulation would appear!

This was simply unheard-of and unheard-of.

At the very least, to their knowledge, they had never heard of such a situation appearing before. Furthermore, their own experiences were telling them that there were only nine levels to the divine tribulation. However, the scene they were witnessing with their own eyes had completely overturned their previous understanding of the divine tribulation.

What the hell? There was actually a tenth heavenly tribulation in this world!

While Hannya and the others were shocked, a trace of worry involuntarily appeared. The two hundred and fifty-six lightning snakes of the ninth level of Divine Tribulation was already frightening enough, so the tenth level of Divine Tribulation was basically double that. However, the power contained within this Divine Tribulation was not something that the ninth level of Divine Tribulation could compare to.

512 white lightning snakes ...

Even though they were separated by quite a distance, they could still feel the terrifying might within the divine tribulation that caused even the souls of people to tremble.

A divine tribulation of this level definitely had the power to destroy the heavens and the earth. It was fortunate that it had descended into the darkness of the Void.

Of course, if it was the first nine days, the middle eighteen days, or a place thirty-six days down, it would not cause any destructive damage to the Heaven Realm.

This was because every time a divine tribulation descended, the Heavenly Dao itself would place restrictions on the range of the divine tribulation's effects.

If the restrictions were to be completely released, Hannya and the rest would probably be forced to retreat countless miles. If they were to hold on for too long, they would most likely be caught up in the disaster and be turned into ashes very soon.

This tenth level divine tribulation was simply too terrifying!

When they saw the white lightning serpents condensing into the tenth divine tribulation pouring down, a sense of foreboding arose in their hearts at almost the same time. Even as demigods, facing such a divine tribulation, it was likely that they would not be able to escape the fate of having their souls completely dispersed.

"It's finally here!"

Tang Huan took a light breath and slightly opened his eyes. Calm as water, the "Primal Chaos Source Crystal" appeared in a flash and rushed into the sky. In the blink of an eye, it had expanded to its limit and collided with the 512 thick white electric snakes at lightning speed.

An earth-shattering explosion seemed to have transformed into a terrifying sound wave that rolled in all directions.

In the next moment, the enormous "Primal Chaos Crystal" absorbed the tenth level of tribulation, and the 512 white lightning serpents rapidly shuttled back and forth in the passageway within the crystal. Wherever they passed, the thumping sounds of explosions could be heard, and large and small cracks began to appear on the side walls of the passageway.

In less than a breath of time, the countless cracks had already spread to the entire Origin Crystal.

From afar, the "Primal Chaos Source Crystal" looked like it was wrapped up by a huge spider web. However, after maintaining this spider web for a short while, it had already started to collapse into pieces, turning into powder. With a flick of his finger, the entire "Primal Chaos Source Crystal" had already completely exploded like fireworks.

Five hundred and twelve white electric snakes, with unstoppable force, roared once more.

This kind of situation, was not outside of Tang Huan's expectations.

The tenth stage of Divine Tribulation was the last tactic that the Heavenly Dao Great Beginning could use against Tang Huan, and was also his last chance to kill Tang Huan. Its power was naturally not something that the previous ninth stage of Divine Tribulation could compare to, and on the surface, it was only the difference of two hundred over electric snakes.

If it was only the ninth level of Divine Tribulation, under Tang Huan's manipulation, the "Primal Chaos Source Crystal" should have more or less been able to withstand it.

Of course, it was also impossible for Tang Huan to place his hope of resisting the divine tribulation entirely onto the "Primal Chaos Origin Crystal".

Tang Huan had only used the "Primal Chaos Origin Crystal" in order to weaken the might of the divine tribulation. Although it had been destroyed, it had still achieved the goal set by Aung San. Although the 512 white electric snakes in the sky still looked as thick as before, they were much smaller in comparison to their initial size.

"Hu!"

Tang Huan gave a bland laugh. Almost at the instant the "Primal Chaos Source Crystal" shattered, the "Nine Yang Divine Furnace" had already flashed out from within the Dantian, turned into a huge ball of fiery red flowing light, and shot into the sky. Once again, it welcomed the five hundred and twelve white electric snakes.

In a split-second, the "Nine Yang Divine Furnace" made contact with the tenth level of Divine Tribulation.

Almost at the same time as this loud explosion erupted, the 'Primal Chaos Dao Flame' transformed into a transparent sea of fire that howled out from the cauldron. It then spread out along the electric snakes, burning and melting them at an astonishing speed, as if it were alive.

This "Chaos Dao-fire" could melt everything, even the divine tribulation.

However, compared to the tenth level divine tribulation formed by the 512 white lightning serpents, the fire was still a bit weaker. It couldn't possibly cause the divine tribulation to instantly dissipate. As a result, in the next moment, the Divine Tribulation had to withstand the erosion and melting of the flames, pressing down on the cauldron and rapidly sinking down.

In the face of the divine tribulation, Tang Huan's expression was still calm.

Although the 'Nine Yang Divine Furnace' could not withstand the divine tribulation, the 'Primal Chaos Dao flame' was still unable to instantly incinerate it. However, the existence of the 'Primal Chaos Dao flame' caused the more than five hundred electric snakes to shrink bit by bit.

Of course, even so, the speed at which the divine tribulation descended was still quite astonishing. In the blink of an eye, Tang Huan was already less than a kilometer away from him, and it was also at this time that the "Myriad Sword Heavenly Diagram" appeared above Tang Huan's head, atop the cave's Tai Xuan Lake.

Circulating.

In the next moment, five hundred and twelve white electric serpents were pressing down on the "Nine Yang Divine Furnace" and the mountain peaks.

Just as they were about to collide with the mountain peaks, the "Nine Yang Divine Furnace" and the "Primal Chaos Dao Flame" in the furnace disappeared in a flash. The tenth level of Divine Tribulation had failed to block them and instantly fell down, but had disappeared without a trace in an instant.

At the same time, above the Limitless Sword Formation in the cave space, the space began to fluctuate rapidly. Five hundred and twelve white electric snakes appeared out of thin air, and like five hundred and twelve grimacing snakes, they began to crazily bite downwards without the slightest delay.

"Boom —"

A terrifying explosion instantly echoed throughout the entire estate.

The absorption of the "Heaven's Path Pearl" into the cave was already incomparable to before. The moment the two sides made contact, the divine tribulation seemed to have struck a hornet's nest, the "Myriad Manifestation Sword Formation" immediately boiled up, and a myriad of powerful sword intents rushed towards the five hundred white lightning serpents like a fierce torrent.

In a split-second, his strength surged as sword qi weaved through his body.

Under the attack of the Myriad Manifestation Sword Formation, the more than five hundred white electric snakes rampaged wildly, as if they wanted to completely destroy all the obstacles. In the sky, cracks were torn open one after another, but they quickly closed up and the sky above the Tai Xuan Lake immediately became chaotic.

"It's time to condense the tenth divine crystal!"

Outside the cave, within Tang Huan's mind instructs (in a second), the "Nine Yang Divine Furnace" that had just returned to the cave quickly began to circulate.

Inside the cauldron, an egg-sized, transparent bead was rotating due to the impact of the firepower. This bead was called the "Divine Corroboration Bead".

This magical pearl was able to speed up the formation of divine crystals. And now, it was the crucial moment to verify the dao of the gods.

Tang Huan needed to condense his tenth divine crystal as fast as possible before the tenth stage of the Divine Tribulation was over. If the God Crystal was successful, he would be safe. As a result, when the cave withstood the divine tribulation's attack, Tang Huan did not hesitate at all and immediately activated the "God Creation Art".

"Bam!"

Within the cauldron, the boundless firepower had already wrapped around the "Enchantment Magic Bead". In the next moment, a muffled sound rang out and the round, transparent bead had completely melted away and turned into a mysterious and marvelous power. This power contained an intention that far surpassed the Heavenly Dao.

Following the circulation of the technique and the furnace, this power quickly fused into the Dantian Dao Nascent Soul.

Tang Huan calmed his heart and concentrated.

Not long after, his lips curled up into a smile. The "Incriminating Divine Bead" was indeed worthy of its reputation. Within a short period of time, the prototype of the tenth God Crystal appeared. At this moment, the other nine divine crystals also began to circulate, forming a miraculous resonance with the tenth divine crystal.

Immediately after, the 40 billion crystals inside the Dantian Dao Infant seemed to be pulled, causing strange undulations to appear quickly, and then started to melt at a shocking speed, continuously fusing into the divine crystals. Within his Dao Soul, all of the crystals had disappeared.

Time slowly passed, and the sounds coming from the cave were earth-shattering. The tenth level of the Divine Tribulation that was condensed from the 512 white lightning serpents had been greatly weakened, but the circulation of the Myriad Manifestation Sword Formation was also greatly exhausted. It was likely that it would not be able to last much longer. Although the divine tribulation had weakened, its power was still as strong as before. Once the formation couldn't withstand it, the divine tribulation ...

It was possible that he would immediately penetrate the cave and descend into Tang Huan's body. If even Tang Huan was unable to endure it ...

Naturally, he had to give up on everything. However, first it was the "Primal Chaos Source Crystal", then it was the "Nine Yang Divine Furnace" and "Primal Chaos Dao Flame", and then it was this "Illusory Sword Heavenly Palace" ... Tang Huan did not use all of his trump cards for the purpose of welcoming a tragic end to himself. Right now, Tang Huan was racing against time.

Chapter 2274

Tang Huan wanted to condense the extremely important divine crystal before the cave space could no longer hold out.

The strength of the tenth stage of the Divine Tribulation was far beyond Tang Huan's expectations. From the very beginning to the present, although the five hundred and twelve white lightning serpents had been greatly weakened, they were still as tenacious as ever.

The divine tribulation was formed by the Heavenly Dao. It was able to absorb the Heavenly Energy at all times in order to increase one's own might. Fortunately, after the divine tribulation was formed, the rate at which one absorbed Heavenly Energy was not too fast. Otherwise, no one in this world would be able to successfully prove themselves as gods.

Time flew by. Within the cave, the exhaustion rate of the 'Myriad Manifestation Sword Array' had increased at an alarming rate. The situation had become more and more urgent.

However, although the situation was urgent, Tang Huan remained even calmer.

The tenth divine crystal of the inside the Dantian was condensing at an astonishing speed, while the remaining ones were becoming fewer and fewer. Not only that, the other nine divine crystals, after having absorbed a large amount of Dao crystals, were constantly increasing in power ... In the entire process, the "Soul Confirming Orb" indeed played a great role.

Without it, Tang Huan wouldn't have been able to condense Divine Crystals at such a fast speed.

"The tenth level of the Divine Tribulation!"

Above the dark void, Hannya looked at the violently churning tribulation clouds at the entrance of the Divine Ruins, and couldn't help but mumble to herself, "Do you guys think that Brother Tang Huan can hold on?"

Duan Yuan and the others remained silent, and their eyes still flashed with unconcealable shock.

"It's hard to say."

After a long while, Song Gao Yang shook his head and smiled bitterly as he broke the silence of this region, "A divine tribulation like this is something that I have never seen or heard of before. However, the tenth level of the heavenly tribulation is too terrifying.

"When all the Emphyreans reach the Divine Realm, they only have to endure the nine levels of Divine Tribulation. Why would the ten levels of Divine Tribulation appear when Senior Tang Huan was in the Divine Realm?" Void Rainbow couldn't help but ask.

"Probably because Brother Tang Huan is too strong."

Duan Yuan sighed lightly. "Since ancient times, I have never heard of a Peak Superior Emphyrean that is strong enough to easily kill a SemiGod. Brother Tang Huan is the only one."

Hannya, Song Gao Yang, and Fire Phoenix subconsciously nodded when they heard this.

The strength of Tang Huan's strength had already far surpassed the experts of the SemiGod Realm. With his strength, he would be able to pass through the first nine levels of the Divine Tribulation with ease. That was why the tenth level of the Divine Tribulation had appeared.

"Perhaps there's another reason ..."

After a moment, Duan Yuan once again muttered to himself. But before he could finish speaking, his voice abruptly stopped.

They had already guessed the meaning behind Duan Yuan's words. Back then in the Ruins of God, the Heavenly Dao had personally displayed its embodiment and advised Tang Huan to be lenient and let Ji Yun go for the time being, but Tang Huan did not listen to them.

It was very obvious that Tang Huan had already offended the Absolute Beginning at that time.

Now that Tang Huan had reached the Divine Level, the Absolute Beginning would definitely be within the range allowed by the laws of the heaven and earth, and would try to make it harder for Tang Huan to prove his dao.

"I'm afraid Brother Tang Huan is in danger before the first stage of the Divine Tribulation."

Song Gao sighed softly.

No matter how they looked at it, the chances of Tang Huan surviving the tenth stage of the Divine Tribulation was very slim. They thought that Tang Huan would become the only expert who could successfully become a witness to the gods in the last tens of thousands of years, but they never thought that ...

What a pity!

Everyone's faces were filled with regret and helplessness.

When they were enduring this kind of divine tribulation, no matter how strong they were, outsiders would not be able to provide assistance. As a result, no matter how much they felt it was a pity, they could only look on helplessly.

"It's a success!"

Beneath the tribulation clouds, Tang Huan suddenly opened his eyes, and two breathtaking auras instantly burst out from within his eyes. Nearly forty billion Dao-Crystals had completely disappeared from the area of the dantian's Dao of the Soul, completely merging into the ten divine crystals. This meant that there were only ten divine crystals that were condensed into the Nascent Soul. Such a change also made the Spirit of the Dao to have a miraculous change. It was a change that transcended the meaning of the heavens ...

The energy was getting thicker and thicker.

Once the transformation was complete, the Nascent Soul would become a true Divine Soul.

At this moment, Tang Huan couldn't help but be excited.

At this point, Tang Huan had no reason not to be excited. He had already rushed to condense the most critical divine crystal before the tenth level of Divine Tribulation was able to rush out of the cave. This meant that in this battle against the Heavenly Dao, Tang Huan had already gained the upper hand.

He had already seen the dawn of success!

"Rumble ..."

Right at this moment, a world-shaking explosion suddenly came out from Tang Huan's body. At about the same time the voice came out, the "Myriad Manifestation Sword Formation" completely disappeared into nothingness. Tang Huan released the seal on the cave space as the 512 white electric snakes appeared out of nowhere. For a moment, it seemed like there were five hundred and twelve additional pieces of Tang Huan's inside the Dantian that were about to explode ...

Volcano.

"This divine tribulation should come to an end!"

Tang Huan snorted from the bottom of his nose. In between mind instructs (in a second), the ten divine crystals quickly circulated and a wave of energy that exceeded the Heavenly Dao, like a net, crazily shot towards the hundreds of electric currents. Those electric snakes did not even have the time to explode before they were wrapped up by layers.

In an instant, Tang Huan's "Creation Divine Arts" was activated to the extreme, and the "Nine Yang Divine Furnace" was also activated crazily.

The five hundred and twelve white lightning serpents were immediately refined by Tang Huan at an astonishing speed. After being refined, the incomparably pure energy of heaven was directly assimilated into Tang Huan's divine crystal, and continuously accelerated the transformation of his Nascent Soul. Not only that, the transformations quickly spread outside of the Nascent Soul stage.

Time passed bit by bit.

The hundreds of white electric snakes that were trapped by Tang Huan's inside the Dantian were continuously being melted, and outside Tang Huan's body, the emotions revealed by that heavenly aura started to become angry, depressed and helpless. Obviously, the absolute beginning was also very clear, in this battle, he had already lost.

At this point, even if it was the Heavenly Dao, they could not do anything to Tang Huan.

Of course, he could also continue to create an even more powerful eleven divine tribulation. However, a divine tribulation like that would definitely go against the rules of the heaven and earth. Whether or not he could deal with Tang Huan, the moment that divine tribulation appeared, as the Heavenly Dao, he would immediately endure the incomparably fierce backlash.

He couldn't endure the consequences that would befall him.

"Huh?"

In the void of darkness, Hannya suddenly shouted, "Everyone, quickly look over there!" Almost at the same time his words came out, everyone's eyes were already fixated at the entrance to the Divine Ruins.

What was unbelievable was that the massive tribulation cloud was dissipating!

Beneath the tribulation cloud, the pillar of white-colored odor also dissipated. Inside the pillar of smoke, the five hundred and twelve white electric snakes had completely disappeared without a trace.

Many Emphyreans would use their caves to fend off the divine tribulation when they were trying to reach the Divine Realm.

However, even after the divine retribution had entered the cave, the illusionary lightning could still be seen inside the pillar of smoke. However, at that moment, all of the illusions disappeared ... Didn't this mean that Tang Huan had successfully passed the tenth stage of the Divine Tribulation?

A hint of unconcealable joy exploded in the eyes of Hannya and the others.

"Hu!" Right at that moment, a bizarre and mysterious aura suddenly emanated from the entrance of the Ruins of God. This aura was boundless and majestic. It transcended the Heavenly Dao and its meaning was incomparably pure. Not only that, it also contained a kind of majesty that made people want to pay their respects to it. It was as if it was high above them ...

The deity above quietly looked down on everyone. Everything in this world seemed to have nothing to hide from the eyes of the deity.

What was even more strange was that this aura made Hannya and the others feel like they were familiar with each other.

This was Tang Huan's Qi!

"It's a success!"

"Brother Tang Huan has succeeded!"

"A Divine Realm expert... The Divine Realm has finally appeared ... "

" ... "

After a brief moment of astonishment, Hannya and the rest couldn't help but cheer out loud, their faces all flushed red from their extreme excitement. Even the Flamephoenix felt a hint of excitement in her heart when she sensed the aura coming from the entrance of the Ruins of God.

Due to the tenth stage of Divine Tribulation, all of them thought that Tang Huan had little hope of winning.

But she never expected Tang Huan to succeed.

While everyone was still in shock, the tribulation cloud had completely disappeared. The whirlpool at the entrance of the Ruins of God reappeared, and that wondrous aura wreaked havoc in the world at a frightening speed.

The upper, middle, and eighteenth heavens. The lower thirty-six days. The Nether Realm. The myriad worlds of the lower realms. The countless mystic realm spaces ... In just a short period of time, that aura had completely engulfed the entire plane, imprinting itself deep within the souls of countless living creatures, leaving it unerasable for all eternity.

Crimson Sky Kingdom, Nine Palace Peak.

"This is ..."

Within the palace inside the mountain peak, Liu Li suddenly awoke from her cultivation. With a flash of her eyes, her delicate figure appeared outside. She subconsciously raised her head to look at the sky, and her charming face was filled with shock.

The moment that wondrous aura seeped into her soul, she felt as if there was a pair of eyes quietly watching her from the top of the sky, watching all the creatures in the world.

At this moment, she actually had the impulse to kneel on the ground and worship him.

However, what shocked Liu Li even more was that the aura gave her a strong sense of familiarity.

"This is brother Tang Huan's Qi!"

After a short moment, Liu Li exclaimed, her beautiful eyes had an unconcealable astonishment in them: "Realm of the Gods? Brother Tang Huan has already stepped into the Divine Realm? "

Just as his voice fell, a slight sound of something tearing through the air sounded out.

Nine spirits, little one, Ling Tian, Shan Shan, Mu Yan and the rest all appeared one after another, their expressions were all filled with shock and joy that could not be hidden ...

... ..

The Black Yellow Dao Sect's profound and pure inside the cave.

"... This aura has completely transcended the Heavenly Dao! "

Ji Qingtian's eyes widened. He couldn't help but leap up from the praying mat he was sitting on and exclaim in surprise. His voice trembled slightly as he spoke, "Who is it ..." Successful proof of the Divine Throne of the Dao? Tang Huan... is Brother Tang Huan ... How many years has it been?

It was no wonder why Ji Qingtian felt that it was so outrageous. According to his knowledge, Tang Huan did not seem to be even five hundred years old.

A deity-proof expert that hasn't even reached the age of five hundred?

In the history of the plane, there had never been such a young Divine Realm expert ... But now, Tang Huan had actually created such a miracle and announced it to the world.

... ..

"It's Tang Huan! It's Tang Huan! "

Beidou Tian, Beidou Immortal Sect, the black cicada's voice was hoarse, its eyes almost popping out from their sockets, "God ... Soul witness ... How is that possible? "

At this moment, the black cicada could not believe its senses.

Tang Huan's talent was extraordinary, and his cultivation speed was also rarely seen. It could be predicted that as long as he was here, no one in the Heaven Realm would be able to take over the position of the first ranker.

The Black Cicada had long predicted that as long as Tang Huan didn't die, he would definitely become the first Divine Level expert in the past tens of thousands of years.

With Tang Huan's cultivation and strength, if such a thing were to happen again in a thousand years, the black cicada wouldn't be surprised at all. But it was happening right now, which made it even more inconceivable.

After being stunned for a moment, the black cicada seemed to have thought of something, and a revered banner appeared within its mind between its mind instructs (in a second).

In the next moment, the black cicada was stunned.

On the leaderboard, the name at the top of the leaderboard had changed to Qin Xian Ye, and the two words "Tang Huan", which had always dominated the top of the rankings, had disappeared without a trace.

Under normal circumstances, with such a massive change occurring in the ranking, the Heavenly Dao would certainly take the initiative to show itself and announce this to all Emphyreans.

But now, the Heavenly Dao had actually lost Tang Huan's name without saying a word, which was really puzzling. But the disappearance of Tang Huan's name, coupled with the appearance of the aura, had further confirmed one fact, and that was that Tang Huan had already become a genuine Divine Realm expert!

... ..

In an extremely short period of time, all the Sky Sovereigns in Heaven Realm knew that someone had succeeded in proving their identity, and that person was actually Tang Huan!

After all, they had participated in the "Immortal Spirit Ancestral Court" test before, so even Sky Sovereign, who was still alive today, could recognize Tang Huan's aura. Even if they couldn't be certain, they would be able to figure out the answer after sensing the list of names.

From ancient times until now, there had never been a single Sky Sovereign expert that had succeeded on the path of proof.

From this, it could be seen how difficult and dangerous the Path of God was!

But now, a young man who wasn't even 500 years old had actually managed to successfully cross that dangerous thorny road. How could so many Emphyreans possibly endure this?

As for the other life forms below the Sky Sovereign ... The Heavenly Emperor and the Heavenly Kings might have been able to guess that a Divine Realm expert had just been born in this world, but they might not be able to understand the other living beings. However, there was one thing that all living beings could confirm, and that was the owner of that aura.

He must be a supreme expert with unparalleled strength!

Chapter 2275

At the entrance to the Divine Ruins, the terrifying Heavenly Energy had already dissipated, as though it had never existed.

"I finally succeeded in proving my Dao Divinity!"

Deep within the whirlpool, at the edge of the spatial barrier, Tang Huan let out a light sigh and slowly stood up.

At this moment, Tang Huan had completely transformed from the inside out.

After the Heavenly Energy contained in the tenth stage of the Divine Tribulation was completely refined, Tang Huan's internal organs were reconstructed at an alarming rate. His originally Primal Chaos Immortal Body shone with a layer of soft radiance, as if this body was made entirely out of fine sculpting gems.

The ten Divine Crystals slowly revolved, and the divine power transformed from the Sky Origin Stage, with the God Soul as the center, it started to endlessly spread out in all directions, covering Tang Huan's limbs, bones and internal organs.

That miraculous power that transcended the Heavenly Dao was no longer a mixture, but became incomparably pure.

As long as he was willing, even the Heavenly Dao would not be able to sense his existence. It was as if his entire body was already at the highest point in the sky, overlooking the entire incomparably vast world.

However, after his initial happiness, this mental state that was above the rules of the heaven and earth, made Tang Huan feel a sense of desolation.

"The cold cannot overcome the cold!"

These words appeared in his mind, and Tang Huan immediately took a deep breath, dispersing this strange feeling. Then, with a slight thought, powerful firepower roared out of his body like raging waves, and easily fused into the surface barrier.

Immediately afterwards, the firepower traveled along the surface of the barrier, spreading towards the remaining dark holes.

The power contained in the firepower had become several times denser than before. Now that it had been activated, the boundless power of the primal chaos was like firewood being thrown into a raging fire, and the barrier around the surface of the wall became even more active.

This Wall of Dilemma had been repaired pretty much by Tang Huan, even if he didn't do anything, after a period of time, this Wall of Dilemma's self-repairing function would be able to heal the remaining holes.

In the following days, even if the heavenly passage from the next world came back, it wouldn't be a big waste. The Absolute beginning could easily drive it back.

However, Tang Huan did not plan to wait for this Facial Barrier to completely repair itself.

Because the Absolute beginning would probably no longer have the strength to face the Heavenly Dao of the neighboring world, Tang Huan had to first eliminate the possibility that the Heavenly Dao would attack him once again.

Therefore, Tang Huan chose to make his move.

With the power that Tang Huan was able to unleash now as well as the Chaos within the power of the firepower, completely repairing the face barrier was a piece of cake. As the primordial flames spread out, the surface barrier began to violently fluctuate. Following that, the surrounding dark caves began to shrink at a speed visible to the naked eye ...

◦

Not long after, this area was completely restored, and the newly recovered plane barrier also merged back into the surrounding plane barrier.

Before long, this area will become as stable as the rest of the barrier.

As for the tunnel in the plane, it was nothing to worry about. When Tang Huan took away the "Heaven's Path Pearl," the passageway would also disappear. Currently, it had been almost thirty years since Tang Huan had left that place, so the passage should no longer be there.

"Absolute beginning, you think that if you leave by yourself, the debt between us will disappear?"

In the blink of an eye, the "Primal Chaos Dao Flame" returned to his body. Following that, the corner of Tang Huan's lips curled up into a slightly mocking smile, and in the next moment, his figure disappeared from where he stood.

After a moment, Tang Huan appeared at the entrance of the Divine Ruins, and his figure slowly floated up from the depths of the vortex.

This whirlpool was countless times smaller than it was at the start, and the suction force it generated had also weakened greatly. When it touched Tang Huan's body, it felt like it was scratching an itch, and it was difficult to stop it in the slightest. Not long later, Tang Huan was already floating above the whirlpool.

Whoosh.

Amidst a few inaudible sounds of breaking through the air, Hannya, Duan Yuan, and the others flew over as if they were flying.

At this moment, the group of demigods looked at Tang Huan with complicated eyes. They were excited, happy, envious, admiring, admiring, and perhaps even a little jealous.

Back then, they had even called out Brother Tang Huan's name.

At that time, they had more or less the feeling of superiority a senior warrior had when facing a younger brother, but not long ago, when Tang Huan returned to the Divine Ruins, he instantly shattered their sense of superiority. Now, Tang Huan had even jumped to a height that was difficult for them to reach.

The only Divine Realm expert in the last tens of thousands of years was most likely the youngest Divine Realm expert in the history of this plane world.

A Divine Realm cultivator like Tang Huan, when had he ever appeared before? Now, standing in front of Tang Huan who had succeeded in proving his identity, everyone's emotions were in turmoil. The Fire Phoenix's emotions became even more complicated. If she knew that Tang Huan could have this day, she wouldn't dare to attack him no matter what she said. Fortunately, compared to Ji Yun, her ending could be considered to be very good ...

This also made the Fire Phoenix rejoice slightly. It was fortunate that she did not offend Tang Huan too fiercely, otherwise, she would not exist in this world anymore.

Compared to demigods like them, Void Rainbow's thoughts were much purer.

Facing Tang Huan, in the eyes of this mighty being who was a rank 1 Dark Void Beast, there was only an unconcealable sense of respect and admiration.

"It's been hard on you all to go against the Heavenly Dao."

Tang Huan laughed as he looked at everyone.

Although he didn't know how Taichu, Hannya and the others had restrained the Heavenly Dao, he could imagine that in the process of restraining the Heavenly Dao, their contributions must have been not little.

"Tang Huan..."

Hannya and the others hurriedly spoke up.

But the moment they called out Tang Huan's name, their voices suddenly stopped. In that moment, they did not know how to address Tang Huan. In the past, calling them brother Tang Huan could be considered senior's care and care for the younger generation. But now, calling them that didn't seem appropriate.

Tang Huan was already the one and only Divine Inheritor Ranker in this world. Even though they were half gods, from their strength and status, there was already a huge gap between them and Tang Huan.

"Senior, we didn't do anything. The one who is truly tired is you!" "Senior, if it wasn't for you quickly repairing the broken surface barrier, I reckon we would only be able to hold off the Heavenly Dao for another ten years."

"Not bad, not bad."

When Hannya returned to her senses, she also nodded continuously, and said with a bit of awkwardness: "Senior Tang Huan ..."

Hearing that, Tang Huan felt helpless, "Big Brother Hannya, don't call me senior, we should just call you by that name."

"That's fine too, Brother Tang Huan, then we'll have to trouble ourselves."

When she looked at Duan Yuan and Song Gao Yang, she smiled, and then said with incomparable emotion, "You breaking through to the Divine Realm at this time really gave us a huge shock. Luckily, you succeeded in the end."

Duan Yuan and the others subconsciously nodded in agreement.

They did not know that the reason why Tang Huan had suddenly reached the Divine Realm was not because of them, but because they were forced to do so. Originally, Tang Huan had planned to return to the Ruins of God to cultivate for a period of time after he had fully recovered from the planar barrier before breaking through to the Divine Realm.

However, he did not expect that the sudden change in events would completely be part of Tang Huan's plan, and would force him to breakthrough to the Divine Realm. This was because only then would he be able to borrow the power of the primal stage of the heavens to resist the heavenly power of the world next door, so that he would not be swept away.

"Brother Hannya, there's no need to guard the entrance to the Ruins of God. What plans do you have for the future?" Tang Huan changed the topic.

"With our current situation, we are only suitable to cultivate in the Ruins of God."

Hannya said somewhat helplessly, "Now that the plane barrier has been successfully repaired, the Ruins of God will become more and more stable. It might be of great benefit to our cultivation." As she finished speaking, a hint of hope flashed past Hannya's eyes. Not only him, but Duan Yuan and the others also felt the same way.

For a Demigod rank expert like them, the chances of success were very slim.

However, Tang Huan's successful confirmation of the God Realm this time had really excited them. They, who had originally not held much hope because of the testimony of the God, regained their spirits.

"Then I wish that all of you brothers will be able to fulfill your wish." Tang Huan laughed.

"..."

Not long later, only Tang Huan was left in the air above the whirlpool.

Hannya, Duan Yuan, Song Gao Yang, and the fire phoenix all sank into the depths of the vortex, while Void Rainbow followed them back to the Ruins of God. Of course, before Void Rainbow left, Tang Huan had also asked Hannya and the others to take care of him, as a reward for all the hard work he had done during the past few decades to and from the upper and lower realms.

With the guidance of a demigod like Hannya, the cultivation of Void Rainbow should be quite smooth.

However, could not decide whether or not he would become a deity or not. It would depend on his own fate.

Watching as Hannya and the rest disappeared into the depths of the vortex, the smile on Tang Huan's face gradually disappeared, and a trace of coldness flashed through his eyes.

"Hu!"

In the next moment, an incomparably majestic aura whizzed out from Tang Huan's body, and wildly spread outwards in this dark void. It was so fast that it had already reached an unimaginable degree, and it did not even take a blink of an eye to cover an area of millions of kilometers.

Currently, Tang Huan's mental state had reached an extremely terrifying level.

As long as he wished, he could cover the entire plane with his senses. Nothing in this plane could escape his notice.

In a blink of an eye, with a thought from Tang Huan, the entire area with a radius of billions of miles started to move, as though it was struck by a hurricane, and started to tremble violently.

Immediately after, an extremely powerful suction force swept out from Tang Huan's body, covering every inch of space in the area. In a split-second, this area seemed to have transformed into an incomparably majestic whirlpool. An incomparable suction force extended out towards an even wider area.

However, this suction power was not directed at the source energy of the void, but towards the Heavenly Energy that was everywhere. In a split second, strands of Heavenly Energy separated out from the void and poured endlessly into the enormous whirlpool. Then, following the guidance of the sucking, they entered Tang Huan's body and were refined by Tang Huan.

◦

Such a huge whirlpool was able to absorb the Heavenly Energy at a terrifying speed. Moreover, this suction was always taking place.

What Tang Huan wanted to do now was to give that Tai Chu a painful lesson.

The only way to do this was very simple, and that was to use the Heavenly Energy of the sucking, and never stop using the sucking!

The Heavenly Energy filled every inch of the space in this surface world, and it was extremely majestic. If it was just losing a little Heavenly Energy, it wouldn't affect the Absolute beginning at all. However, the current Tang Huan was like a Taotie, devouring the energy of the heavens in big gulps.

If it was just for one or two days, it still wouldn't affect the beginning of the world.

After all, Tang Huan was facing the entire plane of the Heavenly Energy of the world, and its content was definitely terrifying to the extreme. In this world, there was no power that could be compared to the Heavenly Energy, and it was only through relying on such a huge amount of Heavenly Energy that the Absolute Beginning could control the entire plane.

However, no matter how vast the power of the heavenly dao was, it would not be able to withstand Tang Huan's sucking day after day.

Time flew by, and many years had passed.

After absorbing a huge amount of Heavenly Energy, Tang Huan's "Illusory Sword Heavenly Palace" had become even more powerful. Not only that, it even showed signs of fusing with his body. This kind of change caused Tang Huan to be pleasantly surprised. If this were to continue, the space within Tang Huan's body would become its own.

All the Emphyreans condensed their immortal cave for this reason.

Not only could the existence of the cave block the divine retribution while proving the Dao, it could also completely fuse with cultivators to become their inner world.

It was said that the strength of this internal world was directly related to the future of the Divine level experts.

Tang Huan originally thought that it would take a very long time before he could reach that state, but he didn't expect that he would already show signs of fusing together.

Feeling the changes in the cave, Tang Huan's slightly unstable state of mind gradually calmed down.

Time flew by like a shuttle. From beginning to end, there was no movement, Tang Huan continued to absorb the Heavenly Energy, as if he did not exist. Tang Huan did not mind, since Tai Chu was going to feign death, then he would have to feign ignorance. He reckoned that before long, he would not be able to continue feigning ignorance. More and more of the Heavenly Energy was being refined by Tang Huan and this energy had already been completely assimilated into the cave. Unknowingly, the change in the cave was becoming more and more obvious.

Chapter 2276

On a rather large piece of land in the Ruins of God.

Hannya, Duan Yuan, Song Gao Yang, Fire Phoenix, and Void Rainbow had already gathered in one place. The Void Rainbow was still somewhat at a loss, but Hannya and the others all revealed a strange expression.

"Everyone, it seems you all have discovered it as well." Hannya glanced around, then suddenly spoke.

"That's right. Several years ago, I discovered that the Heavenly Law Aura was weakening. Merely, at that time, I thought that it was my imagination. Thus, I did not pay too much attention to it." Duan Yuan was slightly bewildered as he said, "I didn't expect that the speed at which the Heavenly Energy would decay would be so fast."

Song Gao and the Flamephoenix also subconsciously nodded their heads.

Only Void Rainbow couldn't help but be shocked when he heard what Duan Yuan said. His Heavenly Dao aura was actually weakening? This ... How was this possible?

But looking at the expressions of Hannya and the rest, it was obvious that it was not fake.

This caused the Void Rainbow to be stunned. However, in this aspect, he was indeed unable to compare to Hannya and Duan Yuan, who were already SemiGod experts. He was not able to detect the change in the Heavenly Energy like they did, nor was it enough for him to be able to do anything about it.

Strange.

"What happened?" Hannya murmured, her eyes filled with deep suspicion.

"The aura of the Heavenly Dao definitely will not weaken for no reason at all." The Flamephoenix frowned and thought for a moment. "Could it be that the Heavenly Dao from the world next door has made a comeback?"

"Impossible, impossible."

"Not to mention that the wall has already been completely repaired, even if the Heavenly Dao were to invade again, it wouldn't cause much of a commotion, let alone cause the Heavenly Dao aura on our side to weaken. Don't forget, we have Brother Tang Huan overseeing everything."

Hearing his words, the Flamephoenix also felt that this made quite a bit of sense.

Hannya and the others also nodded subconsciously. For a moment, the entire area fell into silence.

Tang Huan had already successfully proven his Divine Plane. An expert of this level was completely capable of suppressing the Heavenly Dao. With Tang Huan overseeing this world, even if the Heavenly Dao next door were to come back, it would be impossible for it to do anything.

"If it's not the Heavenly Dao invasion, what could it be?"

Hannya whispered, "The reason why the aura of the Heavenly Dao has weakened is because the Heavenly Energy has greatly decreased. What kind of situation is this under?"

"Could someone have absorbed and refined a large amount of Heavenly Energy?" Void Rainbow couldn't help but ask.

"How is this possible?"

Duan Yuan laughed involuntarily. "The aura of the Dao of the Heavens has weakened, which means that the depletion of strength has caused the Dao of the Heavens to suffer. Who in this world can do this?"

"Could it be..."

Song Gao Yang's eyes twitched, an exceptionally bold thought uncontrollably came out from the depths of his mind, and he asked hesitantly: "Brother Tang Huan?"

"Brother Tang Huan?"

Hannya and Duan Yuan couldn't help but look at each other in dismay.

Was the change in the heavens caused by Tang Huan?

It had to be said that Song Gao's guess was extremely shocking. Indeed, as a Divine Inheritor Ranker, Tang Huan had such abilities, but why did he do it? Perhaps ... It's possible! " After a while, Duan Yuan's eyes flashed and he spoke extremely quickly, "At that time, the heavens advised the Tang Huan brothers to let Ji Yun go. The Tang Huan brothers did not listen, but the Tang Huan brothers behind them reached the Divine Realm and ten stages of divine retribution descended from the heavens consecutively ... But ...

Even though Brother Tang Huan successfully proved himself to be a god, but he definitely had some grudges towards this kind of treatment that has never been seen before. "

" ... "

Hannya, Song Gao Yang, and the others couldn't help but exchange a look that was a little surprised.

Needless to say, it was possible.

The tenth stage of the Divine Tribulation could be said to be the revenge against Tang Huan at the beginning of the Heavenly Dao. In the worst-case scenario, when the heavenly dao aura failed, it would be Tang Huan launching a counterattack against the Absolute Beginning, causing his strength to decrease at a mind-numbing rate.

The more everyone thought about it, the more they felt that the possibility of such a thing was extremely high.

"Everyone, I'll take a look outside the Ruins!"

"I'll go too!"

" ... "

The five figures moved as fast as lightning.

In just a few short breaths of time, the five of them had risen up like lightning at the entrance to the Divine Ruins. In an instant, they stood in the air above the whirlpool.

As their eyes swept across the area, the five people sucked in a breath of cold air as their eyes widened.

Within the darkness and void, there seemed to be an endless, massive whirlpool. The whirlpool had not affected them at all. However, they could clearly feel that an endless amount of Heavenly Energy was gathering towards the depths of the whirlpool.

Indeed, someone was absorbing the Heavenly Energy.

There was only one person in this world who would dare to recklessly absorb the Heavenly Energy! And that person with that ability was Tang Huan!

He actually did it!

Everyone was dumbstruck. They stood still in the air above the whirlpool for a long time before they gradually regained their senses.

"When Brother Tang Huan absorbed and refined the Heavenly Energy, it would definitely cause the Heavenly Dao to weaken.

Song Gao was worried.

Hannya took a light breath, then sighed and said: "Brother Tang Huan definitely knows what to do, we don't need to worry."

"That's right."

"Since Brother Tang Huan dares to say such a thing, then you must have long since made complete preparations. Moreover, this isn't a bad thing for us either."

"..."

Hannya and the rest were stunned for a moment, then a hint of understanding appeared in their eyes.

The weakness of the Dao of the Heavens might be an unexpected benefit to them breaking through to the Divine Realm. They did not expect themselves to be as powerful as Tang Huan, who would be the witness of a God. As long as they could be compared with the ordinary Divine Level Rankers of ancient times, they would be satisfied.

This change in the heavens' law might be a great opportunity for them.

As they thought of this, a hint of surprise and anticipation appeared on everyone's faces.

"Everyone, let's return to the Ruins of God. We won't stay here to disturb Brother Tang Huan." A moment later, Hannya swept her gaze across the crowd with a profound look in her eyes.

"You're right. Return to the Ruins of God immediately." Everyone nodded in understanding.

"..."

One by one, the silhouettes disappeared into the depths of the whirlpool.

In the depths of the dark void, Tang Huan's heart was as calm as water. The appearance of Hannya and the others naturally could not be hidden from his senses, however, he did not pay too much attention to it. Inside the Dantian, that 'Myriad Sword Heavenly Diagram' was melting little by little, while the cave that it carried with it was fusing continuously with Tang Huan.

"Tang Huan, how long are you going to stay in this state for?"

Right at this moment, a vast mind instructs (in a second) suddenly surged over. In front of Tang Huan, a figure suddenly appeared, wearing a white robe. It was none other than the Absolute Beginning.

Tang Huan suddenly opened his eyes, the corners of his mouth curled up in ridicule. "The Absolute beginning, you finally don't want to be a turtle that shrinks its head anymore?" The appearance of

the Absolute Beginning was not out of Tang Huan's expectations. Although the Heavenly Energy was incomparably majestic, it was still unable to withstand Tang Huan's sucking's refinement. After fighting for so long, Tang Huan's sucking's Heavenly Energy had already reached almost one percent of the level of this plane of existence, yet he had only spent around ten years or so ...

Nothing more.

If Tang Huan had been heartless, he could have spent tens of hundreds of years, or even longer, to absorb the power of the heavens.

At that time, the Heavenly Dao would lose not one percent of its power, but one tenth, or even more. For the Heavenly Dao, this was an enormous loss. It was unknown how many years it would take to make up for the loss of Heavenly Energy.

If there was no movement, there would be a day when he wouldn't be able to hold it in.

"You ..." He took a deep breath and said, "Tang Huan, the reason why you were able to withstand the tenth level of tribulation of the Divine Path was entirely because of yourself. You have nine divine crystals, and you are far more powerful than any peak Superior Empyrean would have been in the past.

Your divine tribulation has only reached the tenth stage, and it has surpassed their ninth stage. Now that you are absorbing the Heavenly Energy to vent your anger, you are completely looking for the wrong person. "

"Oh?"

Tang Huan scoffed, "The tenth level of the Divine Tribulation was caused by me, and when the Heavenly Dao from the next world retreated, he actually dared to attack me without restraint while I was repairing the barrier between the two realms. Could it be that it was also because of me?" "Absolute beginning, do you really think I'm a 3 year old child that you can easily deceive?"

Tai Chu became silent and did not continue to defend himself. Obviously he knew, no matter how he tried, it would be of no use.

"Tang Huan, speak frankly. What do you want to do before you are willing to stop?" After a long while, he opened his mouth again, "You have already confirmed the God Realm. You should be

very clear that the Heavenly Dao is the manifestation of the laws of the world, immortal and indestructible. No matter how much Heavenly Energy you absorb, you can't do anything about it."

"The Heavenly Law is immortal and indestructible. However, you are not." Tang Huan laughed, "The Heavenly Dao only needs to maintain its initial abilities, and if it can make the plane world function properly, then that's fine. There's simply no need to produce its own will. Absolute beginning, don't you think that your existence is completely unnecessary? Without you, this surface world would have gone more smoothly

"Great."

"How dare you!"

Absolute beginning's face slightly changed, he shouted sternly, "Tang Huan, you are simply wishful thinking."

At this moment, he completely understood Tang Huan's intention.

Tang Huan actually wanted to destroy the will of the Heavenly Dao and restore the Heavenly Dao to its original state. At that time, the Heavenly Dao would still be the Heavenly Dao, but it would no longer have its own independent will.

Even if a Ranker like Tang Huan were to reach the Divine Realm in the future, and had to endure several stages of Divine Tribulation, he would be completely materialized from the Heavenly Dao and would not be affected by the interference of the will of the heavens. As for persuading Tang Huan to let Ji Yun go, that would definitely not happen again.

Such an outcome would not be acceptable to him at the beginning.

If the Heavenly Dao was really as Tang Huan had said, he would definitely disappear. Even after a long period of time, when the Heavenly Dao gave birth to its own will, the will of the Heavenly Dao would no longer be his absolute beginning.

"Whether it is wishful thinking or not, you will know very soon. It might not even take a hundred years."

Tang Huan smiled leisurely, and said slowly, "Absolute beginning, your fate has already been decided, it's absolutely impossible to change it. You don't need to think about any more miracles that will appear, and there's even less of a need to struggle until your death. "Even though you were created by the Heavenly Dao, you are unable to do anything in front of me."

"Tang Huan, don't go too far! "Otherwise..." Tai Yi gritted his teeth, his voice was a bit shrill, almost saying word by word.

"Otherwise what?"

Tang Huan glanced at Tai Chu, and smiled indifferently, "Don't tell me you dare to attack me? If you really do this, I won't say if you can hurt me, but you are definitely going to die. "You may be the will of the Dao of the Heavens, but the backlash of the laws of Heaven and Earth isn't something that you can handle."

"So what if it backfired?" Tai Chu stared at Tang Huan, and said coldly, "Since you have already said so, my fate of death is already sealed, why not, at the same time I die, pull you along to accompany me in death?" Seeing the disapproval in Tang Huan's expression, Tai Chu's voice slightly trembled, then sneered. "Tang Huan, don't think that I'm trying to scare you.

"If I really choose to attack, then I will definitely die. However, you will also die. There is no way for you to survive."

"In that case, why don't we try it out here?" Tang Huan tsk-tsked, and teased.

"You ..."

Hearing this, his face became even more gloomy. He had already said things to such an extent, but he never thought that Tang Huan would still have such a fearless look, this made him feel that it was difficult to stop halfway, and he was also a little uncertain, did this fellow really have a backer, or was he just putting on an act?

If it was the former, then he would be in big trouble. He might really disappear because of this. However, if it was the latter, it would also be difficult to deal with. As the will of the Heavenly Dao,

he was practically omnipresent. Nothing could be hidden from him. He could be said to be the ruler of this world. Because he was a Heavenly Dao, his existence was governed by the natural laws of Heaven and Earth. Everything he did was governed by the natural laws of Heaven and Earth.

is the yardstick.

Therefore, when Tang Huan attempted to break through to the Divine Realm, although he really wanted to get rid of Tang Huan, he could only restrict his actions to the scope of the rules set by the Heavenly Emperor. Otherwise, he would have been able to create an even more terrifying eleventh level divine tribulation, or even an even more terrifying twelfth level divine tribulation.

Tang Huan was able to survive the tenth stage of the Divine Tribulation, but the eleventh stage of the Divine Tribulation was definitely going to be his death. Even if he had luckily passed the eleventh stage, there was still the twelfth stage waiting ... If this were to happen according to his will, then this kind of divine tribulation could go on endlessly. No matter how strong Tang Huan was, he would not be able to survive.

Unfortunately, such an idea was impossible to realize.

The tenth level of Divine Tribulation was the limit of what he could do. If he had really intended to form the eleventh divine retribution, then when it was formed, he would have been turned into dust. The backlash of the laws of the world itself was incomparably powerful, so powerful that it was impossible for him to withstand it. Therefore, he did not dare gamble, because no matter what Tang Huan thought, as long as he dared to make a move, he was dead for sure.

Chapter 2277

"Tang Huan, if I were to die, the heavens' law would be destroyed, and if there is the invasion of heavenly law from the outside world, how would the heavens' law in our world be able to withstand it?"

Tai Chu stared fixedly at Tang Huan, and took a deep breath, "If your own plane of existence were to be devoured, you would have already proven yourself and your life would not be in danger. However, your wife, children, and other living beings will undoubtedly die. Tang Huan, you really didn't feel guilty at all by putting billions of lives in a place to die just for your own selfish sake? "

"Absolute beginning, you think too much!"

Tang Huan smiled indifferently, and said, "If I didn't fix this barrier, would you be able to withstand the attack of the Heavenly Dao? Your existence is far less important than what you imagine it to be. Moreover, with me here, which plane of the next world would have the Heavenly Dao to invade in?"

Hearing that, Tai Chu immediately felt depressed, there was nothing wrong with Tang Huan's words.

If not for the fact that Tang Huan had repaired the broken surface barrier, he and this world would probably not have been able to escape the fate of being devoured by Hong Yun.

Right now, Tang Huan was a Divine Inheritor Ranker, and with him here, there was indeed no world's heavenly law that could barge in, even if he barged in, it would probably be absorbed and refined by him.

"It seems that you want to fight to the death with me?"

There was no use in threatening Tang Huan, Xiao Si could not do anything, the Absolute Beginning was at a loss of what to do, both of his eyes were staring at Tang Huan, his face was tight with tension, looking somewhat sinister.

At this moment, there was also deep regret in his heart.

Before this, he had never felt that Tang Huan was a threat, and even after Tang Huan had proven himself, he did not pay too much attention to it. In his mind, he couldn't do anything to the Divine Empress's Tang Huan, and Tang Huan couldn't do nothing to him either. In the future, when the two of them coexisted in this plane, they could not disturb each other.

But he never thought that Tang Huan would actually be able to pose such a huge threat to him.

Previously, it was not that there were no Divine Warriors who were refining the Heavenly Energy, but the speed at which they refining the Heavenly Energy was simply unable to reach Tang Huan's level. Even if it lasted for hundreds or thousands of years, it was not a threat to him.

If he had known this earlier, he definitely would not have allowed Hong Yun to attack Tang Huan while he was retreating.

He was a cultivator of his own plane, and Tang Huan was also a cultivator of his own plane. If he were to make a move himself, it would violate the rules of the heaven and earth. This was his idea of borrowing someone's life to kill them.

Unfortunately, the plan that he had originally thought was certain to succeed ended in failure.

Now, it was too late for regret!

"You can think of it that way."

Tang Huan could no longer be bothered to waste her breath on him, as she laughed leisurely.

While he was speaking, Tang Huan's "God Creation Art" did not stop moving in the slightest, as a large expanse of the Heavenly Energy followed the flow of the whirlpool and roared towards him, while Tang Huan's body seemed like a bottomless pit. No matter how much Heavenly Energy was used, it would still be able to obtain the sucking.

"Tang Huan, since that's the case, then you and I will die together!"

Tai Chu was silent for a moment, then he gritted his teeth, a hint of madness flashed past his eyes.

Tang Huan insisted on not giving in at all. Other than risking his life, he had no other choice but to do so, because if he did nothing and allowed Tang Huan to use the sucking's heavenly energy, then at most, in a hundred years, the heavenly law would weaken to the point of its spirituality being extinguished.

The disappearance of the spirit of the Heavenly Dao meant that he would disappear into thin air.

As matters stood, facing Tang Huan who was getting closer step by step, there was no way out for Tai Chu. However, following that, boundless Heavenly Energy gathered together at a terrifying speed. In an instant, it had already covered an area of hundreds of thousands of miles, as if all the Heavenly Energy in the entire Heaven Realm had been gathered here.

Here.

"Ang!"

Faintly, the sound of a dragon's roar resounded through the void and darkness.

In the blink of an eye, it had already transformed into a gigantic dragon that was hundreds of thousands of miles long, roaring at Tang Huan with bared fangs and brandished claws, as if it wanted to swallow Tang Huan and the whirlpool in one gulp.

At this moment, the void and darkness seemed to have been completely filled up by the gigantic dragon phantom.

In the blink of an eye, the incomparably terrifying aura of the Heavenly Dao filled the heavens and earth, as if it could destroy all the tangible and intangible obstacles in the world.

"It truly is worthy of being the Heavenly Dao of a world."

Tang Huan couldn't help but exclaim in his heart. Once Absolute Beginning made the decision to perish together with Tang Huan, he would attack without showing any mercy. The Heavenly Dragon had condensed too much Heavenly Energy, it was extremely powerful and ferocious, even if Tang Huan was a Demigod rank expert, he would still find it hard to resist. However, Tang Huan also never thought that he would have to forcefully defend against Tai Chu's fatal strike.

◦

Seemingly at the same time that the incomparably long and huge Heavenly Dao dragon pounced at him, Tang Huan's body swiftly dissipated, and even his divine soul had disintegrated at the same time. In just half a blink of an eye, Tang Huan's body had completely disappeared, as if he was never there.

"Hu!"

The instant Tang Huan disappeared, the void and darkness at the place where he previously stood and within a few kilometers of the surrounding area was engulfed by the enormous dragon. All of a sudden, a huge black hole appeared in the area where a large amount of Heavenly Energy had gathered.

The swirl around the black hole disappeared without a trace. The heavenly energy that followed the swirl returned to the void. Wherever it passed, the air would distort and tremble, as if doomsday had arrived. Nothing in the world seemed to be able to withstand the impact of the Strength Qi, even the towering mountain, seemed to be able to instantly disappear into thin air.

Cloud Dispersing.

"Tang Huan!"

However, just at that moment, a hysterical roar rang out from the huge dragon. It was one filled with unconcealable despair and unwillingness, and in the instant that voice rang out, the body of the huge dragon started to collapse at a frightening speed.

In just one or two breaths of time, the several hundred thousand mile long Heavenly Dao dragon's body was covered with countless large and small cracks, crisscrossing and densely packed like a spider web. At the same time, the Heavenly Dao aura that emanated from the dragon's body also gradually became berserk.

The fact that the Absolute Beginning had made a move against Tang Huan had already caused a backlash from the laws of the world.

"Boom —"

After an instant, an incomparably terrifying loud sound suddenly burst out from within this dark void.

As if countless fireworks were ignited at the same time, the colossal dragon's massive body suddenly exploded with a loud bang, and a peerless power raged throughout. In a split-second, violent fluctuations swept out in all directions like raging waves, and it was unknown how much distance they spread in this dark void.

Wherever this wave passed through, the space between large and small fragments of the immortal realms dissipated, and the souls of countless gigantic beasts from the void perished. The wave even followed the Heavenly Energy that was present everywhere and extended into the Nine Heavens, causing the position of the nine great Heaven Realms to be forcibly shifted by quite a bit.

As for the nearest entrance to the Ruins of God, the vortex had completely disappeared. Only after a long time did the void of darkness return to its previous calm state, and only then was it formed again.

"Whooosh."

Five figures shot up like lightning from the newly formed whirlpool. They were precisely Hannya, Duan Yuan, Song Gao Yang, Fire Phoenix, and Void Rainbow.

"The Great Desolation of the Heaven Dao, the Absolute Beginning really did make a move on Brother Tang Huan."

In the blink of an eye, Hannya glanced around, then shook her head and bitterly smiled as she sighed.

Although they had not personally seen the changes occurring in the void, they could sense it. After all, even the entrance to the Ruins of God had been lost for so long. The entrance was gone, and the exit was no longer there. They wanted to go out and see what was going on, but it was difficult.

They would only be able to reach the entrance of the Ruins of God if they could see it again.

"I thought Tai Chu would endure this. I didn't expect him to actually dare to make a move." "It must be because Brother Tang Huan forced him too much, causing him to feel that there's no hope of surviving, that he decided to ignore the aftereffects of the laws of the world and attack Brother Tang Huan."

"The commotion from before must have been triggered by the backlash from the natural law."

Duan Yuan said in a deep voice, "Even if it was the Absolute beginning, it still wouldn't be able to bear the backlash of the laws of heaven and earth. Right now, the Absolute Beginning must have already ceased to exist, I just don't know if Brother Tang Huan ..."

His voice paused slightly as a look of worry appeared on Duan Yuan's face.

Hannya and the rest were also silent, worried in their hearts. Under normal circumstances, Tang Huan had already transcended the Heavenly Dao. Naturally, he was not afraid of the Heavenly Dao, and the Heavenly Dao could not do anything to him.

However, when the Heavenly Dao disregarded the backlash of the heavens and earth and attacked with all its might, the attack it launched would definitely be as powerful as a thunderbolt, unstoppable and unstoppable. Although Tang Huan had already proven himself, he was afraid that he wouldn't be able to withstand Tai Chu's desperate attack. Maybe Tang Huan and Tai Chu had already died together.

"Impossible." The Void Rainbow shook her head, "If it wasn't for the fact that the Absolute beginning had no other choice, it wouldn't have done such a thing. And the reason why he fell to such a state must have been forced by Senior Tang Huan. Since Senior Tang Huan dares to do such a thing, he must have something to rely on. I think Senior Tang Huan is definitely still alive.

"

Amongst the five of them, only Kong Hong was completely confident in Tang Huan. Even after the great change had happened, she had not weakened her.

When Hannya and the others heard this, they couldn't help but look at each other.

Needless to say, Void Rainbow's analysis just now was quite reasonable.

The absolute beginning must know that once he makes a move, it will cause a backlash from the laws of heaven and earth. If that happens, he will die. However, even though he knew this would be the result, he still chose to take action. It was definitely because he was forced into a corner by Tang Huan.

If Tang Huan did not have someone to rely on, he would not dare to threaten the Absolute beginning. Otherwise, what would be the difference from courting death?

He had just proven his abilities, how could he die together with the Absolute beginning?

That means, Tang Huan is really still alive?

It was really a pity to fall just like that, hoping that Tang Huan was really safe and sound. Hannya and the others quickly turned their heads, the more they thought about it, the more likely they felt that this was going to happen. It was only a pity that they didn't have Tang Huan's Mind Stigma ...

Otherwise, his life and death would have been determined immediately.

However, even though they could not be sure, the crowd felt much more at ease. They stayed here for a while longer before sinking into the depths of the whirlpool.

Right at this moment, in the darkness several tens of thousands of kilometers away from the entrance of the Divine Ruins, bits and pieces of faint light suddenly gathered from all directions and gradually condensed into a shiny crystal. This crystal wasn't large, but it emitted an aura that transcended the Heavenly Dao.

After the crystal appeared, the faint light surrounding it continued to gather.

Unknowingly, a second crystal appeared in the void, then a third, and a fourth ... The seventh, the eighth ...

The tenth pellet! After the crystal was formed, all the crystals around it seemed to give off a traction force at the same time, slowly closing in on each other. After what seemed like an hour, then several days, the ten crystals had finally all gathered together. Following which, it began to twist and change like a spiritual object with a life of its own ...

◦

After an unknown period of time, the ten crystals actually formed into a child that seemed to have shrunk many times.

The little infant's eyes were closed, and he sat cross-legged, not moving at all. The surface of his body was shining brightly, as if it was carved out of a precious stone. Following that, countless glimmers of light spread out from the center of the infant and gathered in his direction once again.

Like iron filings attracted by a magnet, more and more faint light was attracted over, gradually congealing into a large ball that completely covered the infant's figure.

Immediately, that huge light ray began to twist and change like the ten crystals from before.

After a long period of time, a human body gradually took shape. As time passed, the body became more and more distinct, until it finally turned into a twenty-something year old young man. The body was tall and slender with a handsome face.

This young man was Tang Huan, and the ten crystals that had condensed into a small infant before was precisely Tang Huan's ten divine crystals.

His eyelids slightly trembled, and not long later, Tang Huan suddenly opened his eyes. Within his mind instructs (in a second), a black robe wrapped around his body.

"I've finally revived."

Tang Huan twisted his neck, and in a blink of an eye, his face lit up with a smile, "However, to be precise, this is not called reviving from the dead, because I am not dead at all."

The heavens' law didn't care about the backlash at all. When they fought to the death, the power of the attack would be unparalleled. Although Tang Huan was a Divine Realm expert, he did not have the confidence to face the Heavenly Dao which was on the verge of death head-on. Therefore, Tang Huan changed to another method, which was to completely disintegrate his Primal Chaos Immortal Body and even his Divine Soul, and fuse them into the void of darkness.

Chapter 2278

Before the divine position was confirmed, Tang Huan's Dao Nascent Soul had almost reached the stage of indestructibility. Now that he had successfully revealed his Dao Origin, the divine soul that was transformed from a Dao Nascent Soul was naturally even more so. Even when the Great Celestial Dragon was formed at the beginning, Tang Huan would not do anything, and the divine soul would not die under its devouring, not to mention that Tang Huan had already dissected both his own body and the divine soul, causing the Heavenly Dragon to fight back.

The threat posed by Tang Huan was greatly reduced.

In the end, nothing unexpected happened. The Heavenly Dragon finally disappeared like smoke into thin air. The Absolute Beginning who brazenly launched his attack was also destroyed due to the backlash of the laws of the world. It no longer existed as Tang Huan was able to reform his body and divine soul at this moment. Tai Chu wanted to die together with Tang Huan

The plot had already become a complete joke.

Of course, under such an attack, it was impossible for Tang Huan to not be affected at all. However, although Tang Huan was not injured by the enormous dragon, he had exhausted a large amount of his divine power.

Fortunately, with Tang Huan's current cultivation, to restore himself to his peak, it would not be difficult at all, and he would only need to spend a little bit of time.

To Tang Huan, for him to be able to get rid of the Absolute Beginning, such a small loss was completely worth it. At present, the Heavenly Dao still exists in the plane of the plane of his consciousness, but it no longer possesses its own will. Perhaps after a long period of time, the Heavenly Dao will once again emerge, but at that time, it would no longer be the absolute beginning. Absolute beginning ...

It was now history.

"After coming out for so many years, it's time to go back."

Tang Huan took a deep breath, with a thought, he turned into a black ray of light, flying at a terrifying speed through the void. At the same time, the "Smoky Golden Immortal" appeared in Tang Huan's palm. Boundless source energy was constantly being transmitted from the "Immortal Spirit Ancestral Court", and was quickly being absorbed and refined by Tang Huan. Previously, when Tang Huan absorbed the Heavenly Energy from his own world, the most important thing was ...

His goal was still to force Tai Chu to appear, and promoting the "Illusory Sword Heavenly Palace" was just a passing thought. Now that the Absolute Beginning was no longer, Tang Huan naturally did not need to use sucking s worth of Heavenly Energy.

Although the "Illusory Sword Heavenly Palace" had not completed its transformation, and Tang Huan still had to continue absorbing the Heavenly Energy, the sky was boundless.

Time passed like water. The exhausted divine power within Tang Huan's body gradually recovered, allowing Tang Huan's speed to traverse the void and darkness at an even faster rate. In merely a few short years, Tang Huan had crossed over the vast expanse of darkness that he had previously needed nearly thirty years to traverse ...

The void returned directly to Crimson Nimbus.

Within the Nine Palace Mountain, there was a sense of peace and harmony.

However, not long after, the silence in the mountain peak was broken. The reason for this change was very simple, it was because Tang Huan had returned! Dozens of years ago, when Tang Huan left the Nine Palace Peak, he was only a Peak Level Sky Sovereign. Regarding the things that he needed to do, whether it was Liu Li, Jiu Ling, little one, Ling Tian, or his wife and children, they were all worried.

The enemies were too strong.

However, dozens of years had passed, and not only had Tang Huan returned safe and sound, he had even successfully proven himself in the Dao of the Gods more than a decade ago.

Everyone on the peak of the nine palaces was filled with pride.

Now that Tang Huan had returned to the Nine Palace Mountain, the excitement in everyone's hearts could not even be described with words. Even after a long time had passed, the mountain was still brimming with an atmosphere of joy.

However, at this time, Tang Huan appeared in a hall on the mountain peak. In the depths of the palace, there was an exquisite wooden bed. Ji Ruyi quietly laid on top of the wooden bed, still not moving an inch, but her complexion was no different from a normal person's. It was as if she was only sleeping.

Waiting for someone to take good care of her.

"Tang Huan, after so many years, Mother still hasn't woken up."

Shan Shan looked at Tang Huan with a somewhat worried expression. Mu Yan, Yu Feiyan and Yu Feiyan also couldn't help but nod their heads, feeling rather worried.

Currently, in the palace, other than Ji Ru Mang, there were only Tang Huan and the four of them.

"Usually, other than them, the rest of the nine spirits, little one, Ling Tian and even Tang Shan rarely enter this palace, so as to not disturb Ji Ruyi. "It's fine, don't worry too much." Tang Huan's mind moved slightly as a smile appeared on his face, and he said slowly, "After so many years of rest, Mother's soul has already completely recovered.

After being under her control for so many years, her own consciousness had fallen into a deep slumber, which was why her soul had recovered and why her consciousness was still in a deep slumber. "

"Then how can I awaken my mother's consciousness?" Shan Shan, Mu Yan and the others looked at each other and could not help but ask.

"That's simple." Tang Huan laughed, and then looked towards Shan Shan and the others and said, "We just need to return to Forging God Great World, and return to the small world there." Tang Huan was already a Divine Inheritor Ranker. With his attainments and methods in the soul, he could definitely deal with Ji Ru.

She woke up completely from her sleep. However, if he did that, he would definitely trigger all of Ji Ruxuan's memories, including the years he spent in the crack, which would definitely increase her pain. Unless it was absolutely necessary, Tang Huan would not do that, so Tang Huan decided to change the method.

Awakening her sleeping consciousness.

"Really?"

Hearing Tang Huan's words, the pretty faces of Shan Shan and the other three instantly filled with unconcealable joy. Although they had expected this to happen, but after hearing it out loud with their own eyes, they still felt extremely excited.

Although they had been undergoing tribulation and tribulation for many years, the Forging God Great World was their birthplace. There should still be many family members alive in there.

All this time, they had been looking forward to returning one day. After knowing that Tang Huan had proven to be a divine being, they knew that the time to return shouldn't be too far away. In the past, even if Tang Huan was already an Empyrean at the peak of the Upper Realm, he would never have brought his wife and children down to the mortal world. However, after Tang Huan succeeded in proving his identity ...

The situation was very different.

Tang Huan, who had already stepped into the Divine Realm, had already completely transcended the Heavenly Dao. Passing through the spatial barrier of the upper and lower realms, bringing everyone back to Forging God Great World was not a difficult matter. Just like the Divine Cast Dragon Abyss and the Nine Colors of countless years ago, they descended upon the lower realms after witnessing the awakening of the Divine Craft Divine Dragon Abyss. In the Forging God Great World, there is still the "Heavenly Desolate Secret Realm" that the Divine Cast Dragon Abyss has personally refined. There was also Yan Zu, who had been sitting up from Dragon Lake, who had also returned to the Creation Formation ...

The Realm remained there for a long time.

"Of course it's true."

Tang Huan smiled at the four of them, his eyes filled with pity. Ever since they had ascended to heaven, they had spent most of their time apart from the others. Now that they had gained their Dao, there was nothing in this world that could separate them. Of course, under normal circumstances, a Divine level expert wouldn't be able to reign ...

She had stayed in this world for too long, but Tang Huan did not plan to leave this place as soon as possible. Furthermore, he had ways to make himself stay as long as possible to accompany them.

"Great."

"If those little fellows were to find out about this news, they would probably be mad with joy."

"..."

Shan Shan, Mu Yan, Feng Ming and Yu Feiyan were all excited.

"Then... When are we leaving? " Mu Yan's eyes moved about, he could not help but ask, his brows revealing signs of wanting to move.

"There's no time to lose, I need to inform Sister Liu Li first."

"..."

Tang Huan quietly returned to Nine Palace Peak, and then quietly left Crimson Sky Kingdom. It was just that when he returned, he was alone with Tang Huan. When he left, other than Tang Huan, there were also Jiu Ling, little one, Ling Tian, Shan Shan and his wife and children. As for his mother, Ji Ru Mang, she was also placed in the cave by Tang Huan at the Supreme Mystery Temple.

Inside, Mo Wuyun and the other cultivators didn't follow.

After proving the dao god position, Tang Huan allowed the Sword Heart to completely remove the restrictions on all the puppets. With Tang Huan's current cultivation and strength, those puppets already could not help him at all. Furthermore, their existence had dispersed a lot of Sword Heart's energy, which was not conducive to the "Illusory Sword Heavenly Palace" transforming.

As far as the estate was concerned, there was absolutely no harm in doing so.

However, when Tang Huan left the Crimson Nimbus Guild, he did not immediately descend down to the mortal world.

The "Immortal Spirit Ancestral Court" was in the Heaven Realm.

Before arriving at Forging God Great World, Tang Huan still had two things to do. First, he had to return to the Scarlet Radiance Sect, and secondly, to take the "Celestial Ancestral Court". Tang Huan had already proven that the key to stay in this plane for a long period of time was the "Immortal Spirit Ancestral Court". After taking back the Ancestral Court and fusing it with the "Illusory Sword Heavenly Palace", Tang Huan could even make it part of the Illusory Sword Heavenly Palace's internal space

There was no harm in living in this world for billions of years.

In the sky, Tang Huan stood there motionlessly as his palm suddenly flashed with the words "Yan Luo Golden Immortal".

"Weng ..."

Amidst the excited chirping, the flower immediately started spinning, sparkling like a spiritual object. Following the movement of the flower, a strange aura immediately overflowed and blended into the surrounding space. Without realizing it, a strange ripple appeared in the air, and a small whirlpool quietly formed. This was the ...

The entrance to the Celestial Sect of Ancestral Immortals.

Of course, the scene that appeared at the entrance was completely incomparable to back then. There wasn't even a single cultivator that was disturbed.

Tang Huan's figure faintly flashed, before he entered the whirlpool, and was then directly teleported to the space within the Ancestral Courtyard. Counting it, this was already the third time Tang Huan had entered the "Celestial Ancestor Realm". Every time he did so, the way he entered was different. The first time was to enter with the other Emphyreans. After entering, they first spent a long time to pass through that strange fog.

The second time was to teleport in directly through the Yan Luo Golden Immortal. The third time was to use the Yan Luo Golden Immortal to reopen the entrance to the Immortal Spirit Ancestral Court.

Between Tang Huan's mind instructs (in a second), he had already entered the interior of the Immortal Spirit Ancestral Peak. The key to collecting this "Immortal Spirit Ancestral House" was inside this "Immortal Spirit Ancestral Peak". To Tang Huan who possessed the "Smoke Powder Golden Immortal", the process to collect the "Immortal Spirit Ancestral House" was already more or less half complete.

The owner of the Spirit Ancestor Realm was no different.

Next, Tang Huan only needed to fuse with the Immortal Spirit Ancestral Peak's core and he would be able to complete the remaining half of the process.

This "Immortal Spirit Ancestral Mountain" was formed from the source energy of both the immortal spirit and the primal chaos. However, this source energy wasn't gathered here for no reason. In the deepest part of this Immortal Spirit Ancestral Peak, there was a crystal core. It was the core of this mountain, as well as the core of the entire Immortal Spirit Ancestral Court. According to the confidence that Tang Huan had gained from the Immortal Spirit Ancestral Court, that crystal origin had a name.

It was called the "Primal Chaos Immortal Ancestral Stone."

After fusing with the Ancestral Essence Stone and collecting it from the Immortal Spirit Ancestral Court, naturally everything would be completed in a natural manner. In less than half a blink of an eye, he had already made contact with the "Primal Chaos Immortal Ancestral Stone". Immediately after, Tang Huan's boundless divine power, followed his mind, and pulled out the Origin Ancestral Stone.

It was wrapped in layers.

The Ancestral Stone was almost transparent and was only the size of a washbasin. It was shaped like a round ball, slowly rotating. And with the activation of the Ancestral Stone, the Essence of Primal Chaos and Essence of Immortal Spirits began to constantly flow out. All these years, Tang Huan did not know how much of his power he had absorbed from the Immortal Spirit Ancestral Peak, but this mountain range looked like ...

But there was no change.

All of this was because of the Primal Chaos Immortal Ancestral Stone. Tang Huan cleared his mind, his mind was extremely calm, and his divine power was like a strand of silk as it slowly seeped into

the Ancestral Stone. However, Tang Huan was not anxious, after all, this "Primal Chaos Immortal Ancestral Stone" could be said to be the strongest object in the entire firmament.

Something that is the source.

Taking it for his own definitely wasn't something that could be accomplished overnight. This was also why Tang Huan already had the body of a Chaos Immortal. If it was any other cultivator, even if they were experts who had proven themselves to be Dao Gods, they would not be able to do anything to the Ancestral Stone. Tang Huan's divine power could penetrate into the interior of the "Primal Chaos Immortal Ancestral Stone".

It already meant that success was right in front of him.

Right now, Tang Huan only needed to wait quietly. judged that this process would take at least ten years. Fortunately, before Tang Huan left the Nine Palace Peak, he had already told all of his plans to Shan Shan, Jiu Ling, and the others. He didn't have to worry about everyone not seeing each other for a long time.

When it came to him, he was worried about his safety.

Time passed bit by bit, and Tang Huan's attention was completely focused on the Ancestral Stone.

Divine power continued to seep in, seep in ...

"Done!" After an unknown amount of time, within the Immortal Spirit Ancestral Peak, Tang Huan suddenly opened his eyes, a happy smile surfacing on his face. At that moment, his divine power had finally spread throughout the entire "Primal Chaos Immortal Ancestral Stone". In that instant, Tang Huan almost without any hesitation, immediately activated "God Creation Art" to the extreme. Boundless God Power circulated quickly inside the Ancestral Stone, and a Mind Stigma condensed and took shape bit by bit.

Chapter 2279

After a long time.

"Hu!"

Qu Ah Tian, the void suddenly rippled with a slight fluctuation, following that, Tang Huan's slender figure separated out from the void.

A slight smile floated on his face as Tang Huan slowly extended his right palm. After about ten breaths of time, an unusually large white ball gradually appeared in front of Tang Huan, blooming with billions of dazzling and dazzling balls of light.

The light made it hard for one to look closely at it.

"Whooosh."

An incomparably terrifying aura swept out in all directions, and in an instant, it filled the entire Qu Ah Tian, and even spread to the entire Heaven Realm at a terrifying speed.

In an instant, countless cultivators were alarmed by the sudden appearance of this aura.

"This is ..." the aura of the 'Immortal Spirit Ancestral Court'?"

"How is this possible? Has the Immortal Spirit Ancestral Court appeared again?"

"The reappearance of the Ancestral Court is a great opportunity!" Last time, I was still a peak Sky Emperor and couldn't enter the Ancestral Court, but now, I am an Emphyrean! "

"..."

Exclamations of surprise rose again and again in the various Heaven Realms. (TL:

UUUUUUUUUUUUUUUUUUUUUUUUUUUUUUUU -

UU)) Countless cultivators took action upon hearing the sound and rushed towards Qu Aotian. As for Qu Aotian's cultivators, they were also inexplicably happy as they all took action. Although cultivators below the Sky Sovereign Stage could not enter the "Immortal Spirit Ancestral Court", they could cultivate near the entrance to the Ancestral Court for a long period of time to improve themselves

The effect of a cultivation base was astonishing.

As for those Empyrean level powerhouses, they began to madly move out.

However, not long after they left their residences, they were all stunned. The aura of the "Immortal Spirit Ancestral Court" was rapidly weakening, as if it was about to disappear at any moment.

"What happened to Qu A'Tian?"

"They just appeared and are about to disappear. What's going on?"

"The opening of the Ancestral Court last time lasted for many years. How could it be like this?"

"..."

This unforeseen event was too sudden, causing countless cultivators to be bewildered.

"To collect the 'Celestial Sect', I never thought that little brother Tang Huan would be able to do it." Chi Xiao Tian, within the Nine Palace Peak Hall, Liu Li couldn't help but smile. The moment she sensed the aura of the "Immortal Spirit Ancestral Court", she did not act like the other cultivators and immediately rushed towards Qu Atian. This was because she knew of something ...

There were many more than the other cultivators.

Others might not know why the aura of the "Immortal Spirit Ancestral Court" would appear, but she was extremely clear about that.

Initially, Tang Huan thought that taking over the Ancestral Court would be extremely difficult for him. After all, the Ancestral Court was the Immortal World's source.

"Qu A'tian's matter is done, looks like little brother Tang Huan will appear soon and go to the Scarlet Radiance Heaven."

Liu Li smiled again as she slowly closed her eyes.

Qu Ah Tian, Tang Huan stood there with a smile on his face. At this moment, the white ball of light in front of him was shrinking at a rapid pace, and the aura roaring out from it was also rapidly shrinking like a receding tide. Not long after, the aura was completely restrained, and the ball of light was gently landing on the ground ...

On Tang Huan's right palm.

As of now, the ball of white light was only the size of a bowl.

What this ball of light carried was the "Immortal Spirit Ancestral Court". With a thought, the "Myriad Sword Heavenly Diagram" appeared on Tang Huan's left palm. He then unfurled the scroll and absorbed the ball of white light. The fusion of the cave and the "Celestial Ancestor Realm" was not something that could be completed in a short period of time. Fortunately, Tang Huan was not anxious, as he

There is plenty of time to complete the process.

With but a thought, the scroll returned to his dantian.

Tang Huan laughed, and then sighed, and in the next moment, his figure had disappeared from his original location. Not long after Tang Huan left, a figure suddenly appeared from the horizon, flying over at a lightning speed. In a split-second, he appeared in the place where Tang Huan previously stood. The man had a handsome face and a tall body. He was dressed in red ...

The person wearing a colored robe was the Golden Cauldron Immortal Sect's Chu Gao Ge.

First, his eyes quickly scanned the area, and then, Chu Gao Ge's massive mind enveloped the entire area.

"Hmm?"

After a while, Chu Gao Ge could not help but exclaim in a low voice.

Back then, this was where the entrance to the Celestial Sect of Ancestral Immortals had appeared. Now that the void seemed calm, if he did not feel the terrifying aura of the "Immortal Spirit

Ancestral Court" earlier, he might have thought that nothing had happened here. But now, after careful examination, he realized that ...

The area seemed to be missing something.

However, he didn't know what exactly was missing. After frowning for a while, a thought flashed through Chu Gao Ge's mind and he was shocked. He finally understood what was going on. Back then, although the entrance to the Ancestral Court had disappeared, Chu Gao Ge, as an Empyrean, could faintly feel that this area was inlaid with the "Celestial Sect of Ancestral Immortals".

The void contained a meaning that transcended the Heavenly Dao.

However, that meaning had completely disappeared now.

Had the "Immortal Spirit Ancestral Court" truly disappeared, or had it moved somewhere else?

This was not only a question to Chu Gao Ge, once the news spread, it would also become a question to countless cultivators of the Heaven Realm, and the location of the "Immortal Spirit Ancestral Court" would become an unsolved case in the Heaven Realm.

In the next 36 days, Crimson Radiance.

Jade Imperial City, where the Emperor Dragon's Heavenly Mansion used to be. The current encampment of the Heavenly Law Academy's headquarters was several times larger than it was a few hundred years ago.

After hundreds of years, the Heavenly Dao Academy had become Crimson Radiance Sect's sole power. Whether it was the Seven Stars Immortal Palace, the Spiritual True Immortal School, the Heaven's Expanse School, the Everlasting Temple, or even the Emperor Dragon's Heavenly Mansion, they had all completely disappeared. As of now, the only thing cultivators in the Crimson Radiance Sect knew about was the Heavenly Sacred Courtyard. As for the sects that used to be large and small ...

They only existed in the memories of everyone present.

In the entire Heaven Realm, the Heavenly Sacred Courtyard was the only existence. This was very beneficial for the integration of cultivation resources. For the past few "Myriad Domain Dao Arts", the Heavenly Dao Academy had always had Heavenly Kings participating. Regardless of whether it was the dojo or the artifact yard, the Heavenly Dao Academy was the best. Because of this, many other cultivators of the Heaven Realm all ended up using the "Myriad Domain Dao Arts".

After that, he arrived at the Crimson Radiance Sect and joined the Heavenly Dao Academy.

Their actions also caused the Heavenly Dao Academy to flourish even more. Within the next thirty-six days, Crimson Light Sky had already surpassed the rest of the Lower Heaven Realms and became the strongest sect. The Heavenly Sacred Courtyard naturally became the strongest power within the next thirty-six days as well.

It was impossible for them to be compared on the same level as the Heavenly Sacred Courtyard.

Of course, the reason why the Heavenly Dao Academy could be at such a scale, was greatly related to his founder, Tang Huan. After the news of Tang Huan becoming a Heavenly Emperor and becoming an Empyrean was spread out, a tide of people joining the Heavenly Dao Academy surged up within the thirty-six days. After the news of Tang Huan successfully verifying the position of Dao God spread out, the Heavenly Dao Academy went into a state of absence for the next thirty-six days.

A place where countless cultivators rushed like a flock of ducks.

There were even cultivators from the Heaven Realm who crossed the void to join the Heavenly Sacred Courtyard.

"I never expected the Heavenly Law Academy to already have such a scale."

Above Jade Imperial City, Tang Huan looked down at the endless houses, and could not help but be moved. At this moment, Tang Huan was not the only person standing in the air. Shan Shan and the others, as well as the nine spirits and little one were all summoned out of the cave by Tang Huan. Of course, even though it was a large group of people, it did not alarm the cultivators outside of Jade Imperial City.

Even if they were in the skies, they wouldn't be able to discover their existence.

"Big brother, you are the only Divine level expert in the past tens of thousands of years." Jiu Ling chuckled, "With your name placed here, how can the Heavenly Dao Academy not flourish? In other words, in this Heaven Realm, if he moved the Heavenly Dao Sacred Courtyard to the Upper Heaven Realm, the Clear Void Dao Pavilion, the Pangu Heaven Sect ... He estimated that these sects ...

Soon they will all be closed. "

little one and Ling Tian heard and nodded their heads. Shan Shan and the rest could not help but smile.

"How can it be so exaggerated?"

Tang Huan laughed involuntarily, "All the sects like the Clear Void Sect and the Pangu Heaven Sect have been in existence for countless years, how could they close the doors just because they're closed?" That was what he said, but Tang Huan knew very well that if the Heavenly Sacred Courtyard were to really move to the Heaven Realm, and if he were to personally take charge, the Clear Void Dao Pavilion and the other sects would definitely weaken quickly. It was estimated that in less than a thousand years, they would become like the Seven Stars Immortal ...

Like a sect, the palace gradually disappeared.

"Tang Huan, are we going to go down and see Senior Sister Xiao and the others?"

After laughing, Shan Shan couldn't help but ask. During the time when Tang Huan went down to Heaven Realm, Shan Shan and the others had a good relationship with Xiao Nian Die and the others.

"Forget it. It won't be too late to meet them when we return from the lower realms." Tang Huan shook his head while muttering to himself, both of his eyes looked towards the center of the Jade Emperor City, where the entrance to the Emperor Dragon's Heavenly Palace was. As they spoke, Tang Huan's mind had already delved deep into the interior of the encampment space, and there were many familiar auras there.

His senses showed up.

Gao Zu, Shan He and Hu Si were actually among them.

As for Xiao Yuan Die ...

Tang Huan's eyes flashed with a smile, with a flick of his finger, a strand of God Power shot out from the tip of his finger. In the blink of an eye, it passed through the spatial barrier, straight into the depths of the spatial realm.

"Let's go!"

Following that, Tang Huan smiled at Shan Shan, the nine spirits and the others, and then disappeared.

Deep within the space of the Emperor of the past, Long Tianfu's Residence.

Xiao Niao sat cross-legged in a hall, not moving at all, like a statue. Hundreds of years had passed, and the current her was already a peak-level Heavenly King. Her cultivation had reached the limit of a Heavenly King, and under normal circumstances, it would be almost impossible for me to break through the Heavenly King's shackles. So, Xiao Niandie was trying one last time

She was prepared to fail when she tried to break through to the Sky Emperor Realm.

If she really failed, then she would have to leave this Scarlet Radiance Heavenly Palace and head to the Heaven Realm.

"I still can't do it." Suddenly, Xiao Niao's eyebrows furrowed as she sighed in her heart. Her beautiful eyes slowly opened as she murmured, "It looks like it's time ..." His voice came to a sudden stop before the latter's words could be uttered. Both of his eyes were suddenly opened until they were round. That pretty face ...

He was also filled with disbelief. Just as she was about to give up, a mysterious power entered her body. In the blink of an eye, the invisible barrier between the Heavenly King and the Heavenly Emperor disappeared. Before this, she had used all of her strength.

It was difficult to break through that barrier, but now, it had easily disappeared without a trace. It was shocking, but at the same time, an extremely unreal feeling arose.

However, her rapidly rising aura soon brought her back to reality, and deep doubts arose in her heart.

That mysterious power could not appear for no reason!

After breaking through the invisible barrier and helping her step into the Heavenly Emperor Realm, the power had disappeared. However, the power was so great that even her soul was trembling in fear.

This kind of power, definitely did not come from an ordinary cultivator.

Not to mention in the last 36 days, even in the last 18 days, no cultivator could possess such a mysterious power! Could it be ...

A face that he had not seen for a long time involuntarily appeared in the depths of his mind.

"Tang Huan!"

Xiao Nian Die let out a cry and shot herself up. Her eyes were filled with joy. She didn't even wait for her aura to stabilize before she shot out of the hall.

However, just as they left the hall, Xiao Niao's figure suddenly stopped. It was just that Tang Huan had used this kind of method to help her breakthrough to the Heavenly Emperor Realm, yet had not appeared. Even if she went out, she would not be able to see Tang Huan.

Powerful experts were rarely seen.

In an instant, Xiao Niao's eyes flashed with a hint of disappointment. She was now Senior Sister Tang Huan, and after several hundred years, she had already succeeded in proving her way to the Divine Realm. Furthermore, she had just borrowed the power of Tang Huan to advance to the Heavenly Emperor Realm, and the gap between the two sides was already like heaven and earth.

It was time to meet again.

Of course, as a friend, she was sincerely happy for Tang Huan to have accomplished such a thing.

A moment later, Xiao Niao smiled and returned to the hall ...

... ..

Flowing Flower Domain, outside of Quiet Cloud City.

In the sky above the Mirage Marsh, the figures of Tang Huan and the rest appeared quietly. Back then, after I ascended to the heavens, I first appeared here. " Looking at the swamp area below, Tang Huan said smilingly, a look of nostalgia flashing through his eyes. Thinking back to that scene, it was as if it happened yesterday ...

This made Tang Huan sigh in his heart.

Hearing Tang Huan's words, everyone started to size up curiously. They had heard Tang Huan mention the "Shadow Dark Swamp" many times, but this was the first time they had come to this place. At this moment, inside the Dark Swamp, there were still many cultivators training inside, among them, a small number of people from the lower realms who had transcended heavenly tribulation were also here.

A native cultivator of the Crimson Radiance Sect.

Of course, no one dared to rob or kill those cultivators from the lower realms that had just ascended to heaven. This was an iron-clad rule after the establishment of the Heavenly Sacred Courtyard.

If there were any violations, they would be killed without mercy.

"We're going down."

A short while later, Tang Huan refocused himself and nodded at Shan Shan and the others, and then sucked them into the cave.

The reason he chose to descend from here was only because Tang Huan wanted to satisfy his desire to travel back to his former world. After collecting the scroll that contained the cave dwelling back into his dantian, between Tang Huan's mind instructs (in a second), a mighty divine force surged out from his body and slashed forward like a sharp blade. In an instant, the space in front of him cracked open, and a gigantic spatial rift appeared in the sky above the Shadow Dark Swamp almost soundlessly ...

Chapter 2280

"..."

"Big brother, I met you here back then."

"Yeah, at that time, you were very arrogant!"

"Cough cough ..."

At the top of the mountain, by the side of a huge hole, Jiu Ling couldn't help but dryly laugh. Seeing her current state, Tang Huan couldn't help but to smile.

This place already belonged to the Forging God Great World.

This place was an independent space within the Forging God Great World, the "Heavenly Desolate Secret Realm". Back then, when Tang Huan entered the "Heavenly Desolate Secret Realm" as a disciple of the Pure Yang Sword Sect, because of the news revealed by Li Shijun and Li Xiangjun, he encountered a "Netherworld Nine Spirit Bird" here, which was the current Nine Spirits.

He subdued it and brought it out with him.

Several hundred years had passed, and the little guy back then could now be said to be an extremely powerful expert, even if he was in the upper ninth heaven.

Returning to their previous place, not only did Tang Huan feel somewhat regretful, the nine spirits also sighed inwardly. A moment later, Nine Spirits couldn't help but ask, "Big Brother, why are we here?"

Right now, it was already the tenth year since Tang Huan had led everyone down into the mortal world.

After leaving the Heaven Realm, Tang Huan and the others returned to the Nu Lang (Furious Waves) City of the small world. Three years ago, Tang Huan was there to accompany his mother and others. Although Ji Ruyan's mind was in a deep slumber, she returned to the environment that she missed the most. Under Tang Huan's intentional guidance, her soul slowly underwent a subtle change as it was sealed away from her mind.

The closed consciousness would also gradually awaken.

After confirming that Ji Ru Mang's condition was better off, Tang Huan passed through the barrier of the plane and entered the neighboring plane world, absorbing a huge amount of heaven's power.

The Heavenly Dao of that plane's world was precisely the Hong Yun who had once invaded his own world.

Seven years later, Tang Huan returned to the Nu Lang (Furious Waves) City of the small world. However, a few days later, Tang Huan suddenly broke into the "Heavenly Desolate Secret Realm" with nine spirits.

"You'll know in a while."

Tang Huan smiled, his figure moved and he entered the black hole. The nine spirits saw him and quickly followed, but they could not help but feel suspicious.

Inside the pit was a tunnel that led to the Spirit Cloud Mountain in the middle of the secret realm. Back then, when Tang Huan and the nine spirits were heading towards the Spirit Cloud Mountain Range from the tunnel, they had entered into a strange space. There, Tang Huan found out the origins of this "Heavenly Desolate Secret Realm" and found out the origins of the nine spirits.

The inheritance of the Tools Method of the Cast Divine Dragon Abyss.

Moments later, the two of them arrived at the place where the "Death Spirit Tablet" was erected all those years ago.

After Tang Huan helped the Nine Spirits to remove the seal in the body of the phalanx, the "Death Spirit Tablet" had already disappeared into thin air. However, the lotus-like Nine Colored Imprint still remained.

Tang Huan's finger moved slightly, and a strand of Spirit Qi entered it.

In a flash, the Nine-Colored Lotus seemed to come alive and quickly expanded to a radius of ten meters around it. At the center of the colored lotus, a nine-colored whirlpool had already appeared.

"Let's go!"

Tang Huan nodded at the nine spirits, and took the lead to enter the nine-coloured vortex.

After a moment, Tang Huan and the nine spirits had already entered the strange space. Within this region with a radius of over ten meters, the fiery-red aura was like flowing water, sparkling and translucent, making the surrounding space seem like a dream. In the center of this space, the statue that Tang Huan had destroyed back then actually condensed and took form once more, and his body trembled slightly.

Dressed in a red robe, he still looked as handsome and suave as ever, extraordinary and extraordinary.

This is the sculpture of the Divine Cast Dragon Abyss!

Even though it had been several hundred years, when he returned to this place, everything that had happened here back then was still vividly remembered to him, Tang Huan, and to the nine spirits.

The two of them looked at each other, and then turned to look at the statue in the blink of an eye.

After a short moment, under the gaze of four pairs of eyes, the statue's closed eyes suddenly opened.

At this moment, the statue seemed to have come to life.

"Junior Tang Huan greets Senior Long Yuan." With regards to this scene, Tang Huan did not find it strange at all. In an instant, he smiled and bowed.

"Junior Nine Spirits greets Senior Long Yuan."

Jiu Ling was stunned for a moment before she gave a deep bow as well. At this moment, the nine spirits finally understood. The reason why Tang Huan wanted to enter the "Heavenly Desolate Secret Realm" and return to this place, was because a line of mind instructs (in a second) from the Cast Divine Dragon Abyss still existed here.

The relationship was extraordinary.

"You're finally here." A hint of a smile surfaced on Long Yuan's face. His gaze swept past Tang Huan and the nine spirits at first, then returned to Tang Huan, and said slowly, "Tang Huan, at a time like this, are you still calling this old man 'senior'?" Long Yuan's tone was gentle, as if it didn't contain the slightest bit ...

The smell of smoke and fire was as refreshing as the spring breeze.

Tang Huan was slightly startled, and his face instantly lit up with joy, as he hurriedly bowed once more. "Disciple Tang Huan greets Master!" Ever since he had obtained the inheritance of the God Slaying Abyss' Tools Method, Tang Huan had already viewed him as her master, and from then on, had always regarded himself as a disciple. Even Yan Zu and Nine-coloured also viewed him as a descendant of the Dragon Abyss.

In the end, he had never truly taken her as his master.

But now, the Cast Divine Dragon Abyss had personally acknowledged his identity and brought him into the sect.

"What remains here is only a strand of my Divine Sense." Long Yuan nodded with a smile, and his expression was quite satisfied, "You can feel Master's telepathic thoughts, which must have already completely fused with the cave, forming a space within your body. A person like you can be considered a true Divine Cultivator. Master would have never thought that in such a short period of time, you would become a true Divine Cultivator.

You can reach such a level in years. "

When he said these words, Long Yuan was also filled with emotion.

"This is all thanks to Master's legacy. Otherwise, this disciple would not have been able to live until today." Tang Huan said with a smile.

"You don't have to be modest."

Long Yuan laughed involuntarily, "Tang Huan, what are your plans for the future? When are you planning to go to the God Realm? "

"Master, this disciple doesn't know either."

Tang Huan hesitated for a moment, then said calmly: "However, this disciple may stay in this world for a very long time." When Long Yuan heard this, he nodded and said, "The God Realm is boundless, with countless paths, but it is also not a good place. It is good for you to stay here with your family and friends. Now that you have come here, I no longer need to maintain the connection with this spiritual will. In the future you

If you head to the God Realm, it can guide you. "

"Yes, Master!"

"Tang Huan, if there's any unnecessary words, Master will not say them anymore. Take care of yourself, I look forward to the day you meet me in the future." Long Yuan slightly smiled, his gaze then turning to the nine spirits once more as he said in a gentle voice, "Little fellow, back then, Jiu Cai was quite worried for you. Now that you have successfully cultivated it, I hope that when Tang Huan comes to the God Realm in the future, you will be able to travel with him.

"I'd like to see your little sister with my own eyes."

"Don't worry, senior ..." No, Brother-in-law, I will definitely be able to keep up with big brother. " Jiu Ling bravely laughed.

" ... "

Hearing the Nine Spirits' way of addressing him, Long Yuan was not angry. Instead, he couldn't help but laugh. After a short moment, Long Yuan looked deeply at the two of them. Then, he slowly closed his eyes and his body began to dissipate bit by bit. In the time it took to take a few breaths, the two meter tall statue had already disappeared, only leaving behind a flower ...

A fiery red bead the size of a raw walnut floated in the air.

This was the crystal condensed from Dragon Lake Divine Sense. Even with the Cast Divine Dragon Abyss's cultivation and strength, to sustain his mind instructs (in a second) through the countless planes of the universe and the distant space was probably not an easy feat. But now, not only was he no longer maintaining the connection with his divine will, he was even able to relax.

After breaking the connection, the telepathic thoughts crystal did not disappear, but it no longer contained the spiritual thoughts and mind instructs (in a second) of the Cast Divine Dragon Abyss, nor could it communicate with Tang Huan like it did with the nine spirits. However, seeing that Tang Huan had this divine intent on him, if he ever entered the God Realm in the future, Long Yuan would be able to immediately sense Tang Huan's location through it. And Tang Huan would also be able to follow its directions to find out where Long Yuan was. This was the first time that someone from the God Realm had come ...

Saying that would naturally save him a lot of time.

Tang Huan reached out his hand, and Long Yuan's divine will crystal dropped into his palm.

With a thought, Tang Huan stored it back into his internal space. This object was currently useless to him, but one day, it would still be useful to him.

"Jiu Ling, if you want to head to the God Realm with me, you should hurry up and cultivate."

Tang Huan looked at Jiu Ling in the blink of an eye, and jokingly said, "According to little one, you have been wandering around for the past few years, visiting many of the neighboring realms."

"Don't worry, Big Brother. When you head to the God Realm, who knows how long it will take."

Jiu Ling patted her soft breasts and said with a smile, "If I have that much time to cultivate, if I still can't prove my dao, then I might as well find a rock to smash myself to death."

"Shitou won't be able to kill you ..."

Tang Huan laughed, and before he could even finish, he couldn't help but frown. "Not good, this 'Heavenly Desolate Secret Realm' seems to be disappearing soon."

"Disappeared?"

Nine Spirits exclaimed in astonishment. Before she finished speaking, she discovered that she was wrapped up by a majestic force, as if not being able to pass through it at an astonishing speed. When she came back to her senses, the power had already faded away, and she was already at the peak of a peak.

Standing beside was Tang Huan.

The nine spirits knew that he was already outside of the "Heavenly Desolate Secret Realm."

"Big brother, why did the 'Heavenly Desolate Secret Realm' disappear?"

The nine spirits looked at Tang Huan, then followed his gaze and looked at the empty space in front of them, as they spoke with some doubt. Tang Huan did not say anything. The nine inspiration points could not come out, but he could clearly "see" that the "Heavenly Desolate Secret Realm" embedded in the world in front of him was rapidly collapsing and melting. However, this commotion did not happen in the Forging God Great World.

He Langlan, everything was silent.

In less than ten breaths of time, the "Heavenly Desolate Secret Realm" no longer existed.

At this point, the "Heavenly Desolate Secret Realm" that had existed for countless years had already become a part of history. From today onwards, the young cultivators of Forging God Great World would not be able to undergo this experiential learning.

"Master doesn't want me to be idle." After a while, facing the doubtful gaze of the nine spirits, Tang Huan said somewhat helplessly, "That divine will crystal is the crux of the entire 'Heavenly Desolate Secret Realm'. Master cut off all contact and I took it away again.

。 Without even a foundation, the Heavenly Desolate Secret Realm will naturally disappear into thin air. "

"So that's how it is."

Jiu Ling suddenly realized, "But, so be it. What does it have to do with you? Could it be that Brother-in-law wants you to form another independent dimension? "

"That's right." Tang Huan nodded. "The 'Heavenly Desolate Secret Realm' has existed for so many years, and its potential has almost reached its peak. "Forget it, when Master left back then, she had left behind a 'Heavenly Desolate Secret Realm'. As her disciple, I naturally could not be inferior to Master ..."

If you have too much respect, let me create a new independent space for the younger generations to train in! " As he finished speaking, Tang Huan couldn't help but laugh. The current Forging God Great World still had the connected Vermillion Bird Great World. There was only one power and that was the Glory Empire that he had founded back then. Countless martial arts institutions had been built within this vast empire. Compared to back then, these two places were now in a different era ...

The power of this world had increased who knows how many times.

Tang Huan had condensed a "Heavenly Desolate Secret Realm" as a training space, which could be considered as a little help to the Glory Empire that he had created.

"To condense such a space, it would probably take hundreds, or even thousands of years." "Jiu Ling smacked her lips and looked at Tang Huan in sympathy. Just take it slow. It's not like I'm in a hurry anyway. " Tang Huan laughed, and said slowly. The higher the quality of the condensed space, the

longer it would take and the more effort needed to be expended. Fortunately, there was no need to rush over this matter, Tang Huan had enough time ...

Time and energy to perfect it.

"That's true. Brother, where are we going now? " Jiu Ling said with a smile.

"To the Nu Lang (Furious Waves) City of course."

"..."

After hundreds of years, that small Nu Lang (Furious Waves) City had become the smallest city in a small world. However, the old city district of Nu Lang (Furious Waves) City had retained its original appearance, the purpose of which was to commemorate Tang Huan. To the cultivators of the small world, the old city district was almost like a holy land. They could not easily enter it, and there were even some who were not allowed in ...

Cultivators from countless great worlds came to pay their respects.

The small world today was the coexistence of all races.

Nearly three hundred years ago, the Great Tang Empire had voluntarily merged with the Great World's Glory Empire. This small world had also established several martial arts institutions. Because of the appearance of the academy, some of the families and influences in the small world had either disappeared into the endless river of history or voluntarily merged into the academy. Just like the Nu Lang (Furious Waves) City Tang Clan back then, they had long since turned into ashes.

The Divine Armament Hall had actually merged with the martial arts school.

In the evening, the old city of Nu Lang (Furious Waves) City was brightly lit. Two figures quietly appeared above the old city. They were Tang Huan and Nine Spirits, who had just returned from Forging God Great World. In the instant he appeared, a hint of pleasant surprise flashed across Tang Huan's eyes, and after which, his figure slightly moved, and he appeared in the same place as back then ...

Outside a small blacksmith shop.

Cheers and laughter continued to be heard from inside. Through the door, Tang Huan saw a beautiful yet familiar figure.

It was Ji Ruyi, Shan Shan and the rest who were surrounding her like stars surrounding the moon.

She finally woke up! Finished)
