

## W. Master 311

### Chapter 311 - Non-Phase Stone, Diamond Hammer

In front of the Divine Weapon Pavilion, the new high ranking Weapon Refiner s who were taking the test this afternoon had yet to disperse. When they saw the activity in front of the trial monument, they could not help but look at each other in dismay.

Many of them had long since noticed the black-clothed youth at the end of the line, but they had never put him in their hearts. They had only thought that he was standing there for the sake of Tu Yi. After all, this was the "Dao Test Tablet", and was not something that could be casually tested just because he wanted to give it a try.

If it wasn't for the newly advanced s who recklessly ran over to touch the "Dao Test Tablets", the Divine Weapon Pavilion would never be able to stop themselves from punishing them.

Many people had already looked towards the Divine Weapon Pavilion in the blink of an eye. If nothing went wrong, the person in charge of taking the test for the new High Rank Weapon Refiner would come out and stop them soon.

"Where did this brat come from? How dare he make such a ruckus?"

Inside Divine Weapon Pavilion, behind the long table at the side of the door, the yellow clothed man who had already returned to his seat saw the commotion outside and immediately became angry, shooting up into the air.

Just as the yellow-clothed man was about to shout out, he seemed to have thought of something and knitted his eyebrows. He then picked up the registration book that was already closed and quickly flipped it back. That's right, there really is one. I forgot to check his identity... "

Before the word "emblem" could even leave his mouth, the voice of the yellow-clothed man suddenly stopped. His two eyes were roundly widened, and his mouth was opened so wide that it seemed as if a fist could be stuffed inside. His somewhat skinny face was filled with unconcealable shock and disbelief.

"Tang Huan!" The two characters on the page seemed to have transformed into a thunderbolt, rumbling and surging back and forth in his mind.

"Tang Huan? Damn, am I seeing things? "

After a long while, the yellow-clothed man finally came back to his senses. He first rubbed his eyes vigorously, then looked over again, "It really is that word ..." Tang Huan? The Tang Huan who had already advanced to a high ranking Weapon Refiner at the age of sixteen? He actually came to Heavenly Forging City? "

... ....

"Brother Shen, could it be that you're talking about him?"

In front of the window at the top floor of Divine Weapon Pavilion, the green robed elder looked at the tall and sturdy elder beside him.

"A new high ranking Weapon Refiner around the age of twenty ... Sha Long Empire's Kui song? No, that kid wasn't that tall, nor was he that young ... The shock of the Mo Yun Empire? "That's not right. According to the information, that guy is only twenty, but he looks like he's around forty."

"Great Tang Empire... Furious Waves City..."

"Tang Huan?"

The green robed elder's eyes suddenly shone brightly, he could not help but exclaim out loud, "Could it be Tang Huan? It had to be Tang Huan! It had to be Tang Huan, a newly advanced high-level Weapon Refiner who wasn't even twenty years old, who else could it be other than that Tang Huan from the Furious Waves City? I never thought that he would actually come to Heavenly Forging City! "

As he finished speaking, the old man in green couldn't help but take a deep breath. His two eyes had already returned to the tall and sturdy old man, and unconcealable joy could be seen in his eyes.

The tall and sturdy old man was the Great Clan Elder of the Divine Weapon Pavilion, Shen Guan.

However, his attitude was equivalent to tacitly admitting it.

"I was wondering why you suddenly returned to Heavenly Forging City. So it's because this little guy came over."

After a while, the green robed old man calmed his emotions and laughed out loud in anticipation, "This Tang Huan has been famous for a long time. Today is the perfect time to broaden my horizons and see what kind of Tools Method Attainments he can display on the 'Dao Testing Monument' below!"

"If it's you, old brother, you won't be disappointed." Shen Guan was also full of smiles.

"That's not necessarily true."

"On the 'Dao Test Tablet', 'Nirvana Sacred Fire' can be the same as the cultivation of the Genuine Qi, it can't be of much help. Although he is talented, he is after all a high level Weapon Refiner who has just been promoted.

As he said this, the old man in green paused, and slowly said, "According to my estimation, his test results should be between 18 and 20 years old."

"I think he should be able to surpass twenty-one." Shen Guan laughed.

"Since Brother Shen is so confident, how about we make a bet?"

The green clothed old man had a face full of smiles, "If I win, give me your Non-Phase Stone, and if I lose, give you my Meteorite Stone."

"Brother Ruo, I am but a mere two Saint Grade Gem and you have already set your sights on me."

Shen Guan laughed unknowingly, "Fine, I will bet with you. But, if you lose, I won't want your 'meteorite', just give me your 'Vajra Hammer'."

"About this..." The green-clothed old man's right hand that was stroking his beard slightly paused, seeming to be slightly hesitant.

"If you don't have confidence, old brother?" Shen Guan intentionally teased.

"Who said that? Alright, I will use the Vajra Hammer to bet on your Non-Phase Stone. Brother Shen, I have won. " The green-robed elder chuckled.

"It's not certain who will win and who will lose."

" ... "

In front of the trial stage monument, Tang Huan was still holding the jade tablet without moving an inch.

Just then, Tang Huan's eyes opened wide, without blinking, within the Dantian, the "Nine Yang Divine Furnace" and the "Spirit Pill" were circulating quickly, the Genuine Qi kept on seeping into the tablet body. The material of the jade tablet was extremely special, after the Genuine Qi entered, it actually flowed smoothly.

Tang Huan's Perception Ability, had already risen to an unprecedented level.

As the Genuine Qi swam swiftly, the huge jade tablet seemed to have disappeared from Tang Huan's line of sight. Instead, it had replaced it as numerous criss-crossing lines which were extremely dense and complicated. Even the three words "Divine Weapon Pavilion" were covered by a spiderweb-like line in Tang Huan's eyes.

"Eh, what are the people from 'Divine Weapon Pavilion' doing? Why is it that no one came out to stop him? Could it be that they haven't discovered him yet?"

"How is this possible? ~ Could this brat really be a high ranking Weapon Refiner? No .... No, how could there be such a young Weapon Refiner? "

"Who said no, isn't Furious Waves City's Tang Huan one?"

"In such a large Glory Continent, Tang Huan only has one. Moreover, that Tang Huan is still in the Furious Waves City, how could he possibly appear here?"

"This kid is really putting on an act. It really does look like that."

" ... "

Tang Huan remained unmoving but the surrounding Martial Warriors were all surprised.

If they said he was a high ranking Weapon Refiner, then he was too young. If they said he wasn't, why didn't the Divine Weapon Pavilion come and stop them? According to the rules, as long as someone messed around in front of the "Dao Testing Monument", there would be an expert from the Divine Weapon Pavilion coming out to punish them.

In front of the Divine Weapon Pavilion's gate, the group of newly advanced s exchanged shocked and doubtful looks.

They did not leave, but waited for the fellow inside the Divine Weapon Pavilion to come out and issue them the pass to enter the "Tools Method Temple." However, that person seemed to have forgotten about this, as he stared straight at the "Test Tablet" with an extremely strange expression.

Chapter 312 - Shocking Attacks

"How strange."

The blue robed elder looked at Tang Huan who was in front of the jade tablet, and then looked at the yellow clothed man within the Divine Weapon Pavilion in the blink of an eye. He could not help but mutter, "That little brother can't really be a high ranking Weapon Refiner, right? Otherwise, why have they still not given us the pass token for the 'Tools Method Hall'? "

"It really is possible."

A black-clothed middle aged man also nodded subconsciously, "For such a young new high ranking Weapon Refiner, the only person I know of is Furious Waves City's Tang Huan. However, he is still in Furious Waves City and is being protected by a thousand general camp there. He did not come over. "

"I know one more. Sha Long Empire's Kui Ge was also around twenty years old, but his figure was wrong. It's said that this Kui Cult is very short." A middle-aged woman in her forties also frowned. "Could it be that other than Tang Huan and Kui Ge, there's also a new, young, high level Weapon Refiner?"

"Glory Continent is so big, it's possible for one or two genius Tools Method to appear all of a sudden, though we don't know about them." Another old man with white beard and hair said with a smile.

"..."

As the crowd discussed amongst themselves, Wu Yixian did not interrupt them. Instead, he looked at the slender figure in front of the 'Dao Test Tablet' with a surprised look in his eyes.

"Let me ask him, what's going on?"

The middle-aged man who was once in front of Tang Huan could no longer hold it in. With a cold snort, he walked towards Divine Weapon Pavilion, but just as he moved his feet, a cry of surprise sounded out from the crowd. He subconsciously turned his head to look, only to see that Tang Huan, who was standing in front of the jade monument for a long while, had finally moved.

"Chi!"

With a slight ringing sound, Tang Huan lifted his right index and middle fingers, and with a speed that even the naked eye could not catch, he began to walk around the tombstone. Wherever his finger passed by, it actually left behind a series of afterimages. At this moment, a small ball of extremely condensed flame also encircled on top of Tang Huan's finger.

However, the moment the flame appeared, the surrounding people immediately felt a terrifying heat. Even though they were several meters away, they were all drenched in sweat under the onslaught of the heat. They had a strange feeling that their bodies were about to be set ablaze.

"Hu!"

In the next moment, a large amount of fiery red aura rose from the monument. It quickly condensed in the air, and an even more intense heat spread out in all directions.

Wherever it passed, space seemed to ripple.

The many surrounding Martial Warriors s were actually forced to continuously retreat, and there were only a few who were still able to support standing at their original position, their faces completely red.

"What a strong heat! "What a fast speed!"

"This guy is definitely a high level Weapon Refiner. Maybe he has already reached the limit of a high level Weapon Refiner through the Tools Method Attainments."

"How can his True Fire be so powerful? It's actually even more powerful than Young Master Yixian's True Fire."

"..."

"Damn, could this guy be Weapon Refining Master?"

"There are not many high ranking Weapon Refiner s at such a young age. How could it be Weapon Refining Master ... "Eh, could it be that he's only young, and is actually thirty to forty years old?"

"..."

After a short period of shock, the surrounding people came back to their senses. They continuously called out, and their brows were filled with shock and disbelief.

"Incredible!" "Awesome!"

Inside Divine Weapon Pavilion, when the yellow-clothed man lying on the long table saw this, his eyes actually almost popped out. He used all his strength to suppress his cry of surprise, but in his heart, he was wildly shouting. The moment he made his move, it was already so extraordinary. His test results might even be higher than that of a shaman and a deity! "

In front of the Divine Weapon Pavilion, all the newly advanced s were dumbstruck.

Just now, everyone was trying to guess the identity of the black-clothed youth in front of the jade tablet, but they did not take him too seriously. At this age, even if he was a high ranking Weapon Refiner, it was impossible for his Tools Method Attainments to be high enough.

But who would have thought that the black-robed youth's first move would be so shocking?

Amongst all the new high ranking Weapon Refiner who were taking the test this afternoon, the speed at which Wu Yixian drew the Spirit Map was naturally the fastest. However, even while Wu Yixian was drawing the Spirit Map, with everyone's full attention, they could still catch the movement trajectory of his finger.

The youth in black was even faster than Wu Yixian; in fact, it was at least twice as fast.

Everyone knew that the black-clothed youth's finger was moving around in the monument, but they could not see his movements clearly. In their eyes, they saw afterimages constantly flashing and disappearing ... Even though everyone was using their full strength, their eyes were still dazzled, and they couldn't tell where the finger was moving.

It was one thing for the speed of drawing Spirit Map to be so terrifying, but the heat generated from the flames being drawn by the youth in black was also so terrifying.

During the test, the heat emitted by Wu Yixian's flame was astonishing, but it was still inferior to his. If not for the age of the other party, just by looking at the continuous stream of warmth from him, perhaps everyone would have thought that he was Weapon Refining Master.

"F \* ck, who the hell is this guy?"

A short and thin man in grey clothes stared straight at the sky above the "Dao Test Tablet", and couldn't help but cry out, "Look at the power he's channeled ..." "I have never seen anyone who can use the power contained in the 'Test Tablet' character to such an extent."

During the test of the new Weapon Refiner, one could tell how strong the power he was using was just by looking at the sky.

In just a few short breaths of time, an unusually large red aura had already condensed and formed above the jade tablet. Moreover, it was still constantly expanding.

This kind of test for the newly advanced Weapon Refiner, was not only aimed to draw Spirit Map with the heat of fire. In the process of drawing a Spirit Map, one had to constantly control the temperature of the fire. This was because in the end, these Spirit Map lines were all connected to the three runes on the monument, and the places where they were connected were like tightly locked little doors. When the fire was right, it was equivalent to finding the correct key to open the small door.

The door opened, and the power contained within the rune was activated, revealing the body of the tablet and condensing in midair.

This kind of process had extremely high requirements for the various abilities of high level Weapon Refiners. The more powerful one was, the more small doors one would open and the more power one would be able to unleash. As a result, the red aura condensed above the 'Dao Test Tablet' naturally grew larger and larger.

In the eyes of the crowd, the power of the symbol that the boy in black had activated had already reached an extremely terrifying level. This was because the red aura that had risen from the 'Dao Test Tablet' had already turned into a massive red cloud that covered an area of over ten meters.

Chapter 313 is really Tang Huan!

"That's not an ordinary True Fire, it's one of the five great Spiritual Fires, the 'Nirvana Sacred Fire'!"

Suddenly, the black clothed middle-aged man seemed to have thought of something, his eyes suddenly opened wide, his mouth opened to shout, his expression overflowing with surprise.

"Nirvana Sacred Fire?" The surrounding crowd were all startled when they heard this.

"Tang Huan? He is Tang Huan?" Immediately, a newly advanced s came back to their senses and shouted out loud. Their eyes were filled with deep shock.

"Tang Huan?"

Hearing these two words, many of the newly advanced s were stunned.

The black clothed youth who was about to test the Tools Method Attainments on the "Dao Test Tablet" was actually the recently famous Tang Huan? Isn't he in the Furious Waves City? Why did he suddenly come to Heavenly Forging City? Tang Huan's every move was the focus of attention of the world. If he had left the Furious Waves City, the news should have spread far and wide.

However, nothing is absolute.

Heavenly Forging City was less than a thousand kilometers away from Furious Waves City. If Tang Huan were to sneak out of the Furious Waves City, under the full speed of a Stage Seven Martial Master, he could definitely arrive at Heavenly Forging City in two or three days. In such a situation, it was reasonable to not get any information about him.

Could it be, that person was really Tang Huan?

The new high ranking Weapon Refiner were alarmed, their thoughts racing, but the more they thought about it, the more they felt that the possibility of it happening was extremely high.

For a twenty-three year old like Wu Yixian, a genius of the Tools Method who had already reached the peak of the seventh step and was already a high ranked Weapon Refiner, was already a rare occurrence. Even the Sha Long Empire's Kui song, the Tools Method Attainments was at most on par with Wu Yu, and might even be slightly inferior to Wu Yi.

In the entire Glory Continent, among the twenty or so young Tools Method geniuses, there were probably only two who were able to surpass Wu Yixian.

There were two people, a man and a woman, and the man was none other than Furious Waves City Tang Huan.

Firstly, no one expected the Tools Method Attainments to be so astonishing, and secondly, they took it for granted that Tang Huan was still in Furious Waves City ... But after seeing the youth in black's performance on the "Dao Test Tablet", other than Tang Huan, who else could he be?

"Tang Huan? This is indeed a well-deserved reputation! "

Wu Yixian narrowed his eyes as the black figure in front of the jade monument muttered softly in a voice that only he could hear. An unconcealable admiration and amazement appeared on his incomparably handsome face. However, deep within his eyes, there was also a trace of indiscernible depression.

Just as the group of new High Rank Weapon Refiner were in a daze, their exclamations had already spread to the surroundings.

"It can't be, he's the legendary Tang Huan?"

"I was wondering why this high ranking Weapon Refiner was so young. Turns out he's actually Tang Huan. Tsk tsk, looking at his current performance, he will probably show a result beyond the age of twenty-three. "

"Haha, it really is him. You all don't believe me when I said it was him just now."

"..."

Within the hundreds of Martial Warriors s, almost all of them had expressions of intense shock and astonishment.

In an instant, the noise from the crowd condensed into a huge sound wave that reverberated across the sky and land, attracting many Martial Warriors who walked past in the distance to look at them in surprise. There were even some who could not suppress the curiosity in their hearts, and were rapidly approaching them.

"The 'Nirvana Sacred Fire'! As expected of the 'Nirvana Sacred Fire'! "

In front of the window at the top floor of Divine Weapon Pavilion, the green clothed old man clapped his hands and praised, "The existence of this Spiritual Fire has already made his firepower completely comparable to that of the Weapon Refining Master."

"The 'Nirvana Sacred Fire' is still not good enough. Look at the speed at which he drew the Spirit Map!"

Shen Guan praised.

He had long heard that Tang Huan's Tools Method Attainments was extremely astonishing, but he had never personally witnessed Tang Huan forging weapons before, so he was not clear about what level Tang Huan's Tools Method Attainments had reached. He only set a standard for Tang Huan in his heart based on the information he had obtained.

But after looking at Tang Huan's performance on the "Dao Test Tablet", he realized that Tang Huan's Tools Method Attainments had already greatly exceeded the standard that he could withstand.

"His speed is indeed frightening."

The green robed elder found it hard to cover the surprise in his eyes as he said with emotion, "To reach this kind of speed, Perception Ability, judgement, observation, deduction, control over Spiritual Fire and the fire, none of them are weak. I really don't know how this little fellow can do it ... Brother Shen, this bet, it seems that I will lose to you in the end. "

"It's not a possibility. Rather, you will definitely lose." Shen Guan laughed.

"That might not necessarily be the case. Only now..."

The green robed elder was unconvinced and snorted, but before he could finish, his voice suddenly paused, and both he and Shen Guan looked down at the "Dao Test Tablet" at the same time.

"Buzz!"

An earth-shaking quaking sound suddenly resounded through the air as the surrounding people's ears buzzed.

Almost at the same time, the "God" character on the jade monument exploded into a dazzling red light. And high up in the sky, that ball of fiery red aura was also twisting and changing at a rapid speed.

After the flick of a finger, an incomparably large "Spirit" character condensed under the crowd's gaze and actually occupied an area of nearly twenty meters around them. The fiery red glow that was released from the character was even denser, to the point that it dyed everything within a radius of ten meters red.

The heat emitted by the rune was ridiculously strong. The crowd who had already retreated a lot had to move back at the same time.

"Hu!"

Not long after, the red light around the tablet vanished, and the gigantic rune high up in the sky also quickly formed and dissipated. However, the moment the symbol dissipated, a wave of energy that was more terrifying than ever surged out in all directions like a raging wave. It was extremely vast.

In just a short span of one or two breaths, all the Martial Warriors within a radius of several thousand meters were stunned by this aura.

The crowd surrounding the jade monument bore the brunt of the attack, especially so. Even the tyrannical Martial Lord s of the eighth step were all shocked speechless.

"Chi!"

After an unknown period of time, a sound that was as thin as silk woke everyone up. Immediately, the crowd, who didn't have time to catch their breath, looked at the lower right corner of the "Dao Test Tablet" in a conditioned reflex. The dazzling light that was revealed by the lines of red lines nearly blinded everyone's eyes.

Twelve red lines! What appeared at that place were twelve red lines!

Everyone held their breath, no one making a sound, other than the soft sounds produced by Tang Huan's finger, there were no other movements in the area. At the bottom right corner of the Dao Test Monument, there were lines of eye-piercing red light that caused everyone to find it hard to believe their eyes.

It was only the first symbol, yet Tang Huan's results had already reached such a terrifying level!

## Chapter 314 - 24!

There were so many newly advanced s that had not revealed more than ten red lines on the "Dao Testing Tablet" after they had finished testing it out. Even the extremely talented and rare Tools Method geniuses like Wu Yixian added up to only twelve red lines after the first two symbols appeared.

But for Tang Huan, it was only the first character, and the red line had already reached an astonishing 12 lines.

"The moment they appeared, twelve red lines appeared... Fuck, is he really a high level Weapon Refiner and not a Weapon Refining Master? "

"Twelve lines per rune. If he stabilizes himself later on, won't he end up with more than thirty red lines?"

"Just how much power did this kid use!"

"..."

After a short period of silence, everyone could no longer suppress the shock in their chests as they continuously yelled out. Their faces were also filled with unconcealable shock.

Not far away, the group of newly advanced s were also tongue-tied and speechless.

The other Martial Warriors only felt that the results of this test were extremely shocking, and knew that it would be extremely difficult to achieve this stage. However, they did not know how difficult it was, but they were very clear on the newly advanced high stage Weapon Refiner s who had used the "Dao Test Tablet".

The Spirit Map's markings on the "Dao Test Tablet" were extremely complicated.

Even if one had chosen the wrong line, it would still be able to lower the power of activation. When they investigated the condition of the "Dao Testing Tablet", they could only choose the most obvious Spirit Map patterns.

The most obvious, however, was not necessarily the best.

However, there was nothing they could do about it. This was because everyone had a time limit on inspecting the Dao testing monument. A quarter-hour would be the limit! In such a short amount of time, even the most powerful Weapon Refining Master would probably not be able to completely figure out the Spirit Map in the "Dao Test Tablet".

"Don't tell me this kid has completely understood all the Spirit Map of the 'Dao Test Tablet'?" After a long while, the blue-robed elder finally broke the silence of this small region with a bitter smile.

"How is this possible?"

A middle-aged woman subconsciously shook her head without thinking.

Based on the complexity of the Spirit Map in the "Dao Testing Tablet", how terrifying must one's senses, deductions and other abilities be if they wanted to clearly investigate it within fifteen minutes? No matter how talented Tang Huan was, he was still a newly advanced Weapon Refiner.

Furthermore, the reason why Tang Huan's name resounded throughout the world was mainly because he had obtained one hundred and eight "Sword Seal" from the "Mazy Sword Valley" and also obtained the "Nirvana Sacred Fire".

Whether it was the Sword Seal or the Spiritual Fire, both could greatly enhance Tang Huan's own strength.

However, these two things only had a limited effect on the "Dao testing monument".

"If that wasn't the case, how could he activate the twelve red strings at the first rune?" The middle-aged man dressed in black also had a wry smile on his face.

"I wonder how many red lines can be revealed for each rune of this 'Dao Test Tablet'?"

"He couldn't have pushed the power contained in the first symbol to the limit, right?"

"..."

Everyone seemed to be talking to themselves, but at the same time, they seemed to be muttering to the high ranking Weapon Refiner beside them.

The result of 21 red lines set by Wu Yixian was already impressive enough, but the result of 25 red lines set by a woman whose name shook the world a few years ago was astonishing beyond belief. Ever since the appearance of the 'Dao Test Tablet', the number of achievements could be counted with a single palm.

He thought that with that kind of result, no one would be able to surpass him. However, he never expected that Tang Huan would reveal 12 red lines from the start. As long as he did not make any mistakes, he would be able to make it out steadily and surpass the record from a few years ago.

"Tang Huan, Tang Huan..."

At the edge of this group of high ranking Weapon Refiner, Wu Yixian muttered these few names softly. His handsome face was covered with an extremely helpless expression.

"This kid is really ..."

In front of the window at the top floor of Divine Weapon Pavilion, the green-clothed old man gasped, and was unable to speak for a long time.

By the side, Shen Guan was also dumbstruck.

Tang Huan's performance on the Dao testing monument was completely out of his expectations. Even if he had more confidence in Tang Huan, he never thought that it would end like this.

"Twelve red lines. This is the limit of each rune on the 'Dao Test Monument'." Only after a long while did the green-clothed old man come back to his senses. His expression was strange, and he didn't know whether to laugh or cry.

"Will this kid be able to produce thirty-six red lines in the end?" Shen Guan opened his eyes wide, and said slowly.

"It really is possible."

The green robed old man rubbed his forehead, not knowing whether to laugh or cry. "Looks like I will really lose this bet." My 'Vajra Hammer'... "

As he finished speaking, the green-clothed old man's face was filled with pain.

"If you're an old brother, you'll soon belong to me. Don't think about it anymore." Hearing this, Shen Guan could not help but chuckle.

"..."

"Chi!"

The soft sound was like a thread, flowing out from the tip of his finger.

In front of the jade tablet, Tang Huan's mind was preoccupied with nothing. His fingers moved like lightning, maintaining his initial speed the entire time, without the slightest hesitation. In the air above the jade tablet, a continuously rising red aura had once again condensed into a gigantic and growing red cloud.

The crowd all had different expressions on their faces as the clamor grew louder and louder.

This was because after the surrounding Martial Warriors had been alarmed by the frightening aura undulations, they had all approached this place, wanting to see what was going on.

"What happened just now?" That aura is too terrifying, it scared me so much that my heart almost jumped out. "

"Is this the test of the Dao testing monument? Hiss, what a loud noise! "

"Who the hell is that brat? His speed is so fast, I am a Martial Lord of the eighth step, how can I not see what he is doing?"

"..."

The newcomers began to ask the people beside them about the situation.

"Buzz!"

However, at this time, an earth-shattering sound once again rang out from the "Test Tablet". It shook the heavens, suppressing all the noise in the surroundings.

Instantly, the word "soldier" on the jade tablet and the word "soldier" which was quickly transforming from the red cloud in the sky exploded with extremely dazzling fiery red radiance in succession, causing people to have no choice but to narrow their eyes. And at this moment, a violent wave of enthusiasm surged forth like a tidal wave, causing everyone to mobilize their Genuine Qi in succession to resist it.

At this moment, the shock in everyone's hearts could not be described with words.

Sure enough, Tang Huan did not disappoint others, and once again, used the "Test Tablet" to create such a shocking scene. One could foresee that after the second rune was formed, there would be no less than twelve red lines appearing on the surface of the jade monument.

There was almost no suspense.

When the red light disappeared and the symbol turned into a tyrannical aura that spread out in all directions, everyone immediately noticed that the red horizontal lines at the bottom right corner of the jade monument had doubled, from the previous twelve lines, it had increased to twenty-four.

Chapter 315 - Final Outcome!

"Indeed, there are still 12 red lines. It looks like there will be 36 red lines without a doubt!"

"I originally thought that the results of the twenty-five red lines is already the limit. To think that it would be twenty-four lines with just two characters."

"So he is Tang Huan, no wonder! "No wonder!"

"I thought that the first two runes added together would reveal twelve red lines. I didn't expect one runes to be twelve."

"..."

With regards to the results revealed by the jade monument, although the Martial Warriors were shocked, they were already mentally prepared. As a result, they very quickly accepted the reality;

The huge movements in the surroundings did not cause any disturbance to Tang Huan at all.

"Chi!"

The sound of bells rang out in a continuous manner.

Tang Huan was completely immersed in the densely packed Spirit Map patterns, and had already pushed his speed to the limit. On the jade tablet, around the word "pavilion", were the shadows of Tang Huan's fingers almost everywhere. It was as if there were more than a dozen fingers rapidly drawing at the same time, which made it very difficult to take in what was happening.

A moment later, Tang Huan raised his finger again.

"Buzz!"

The trembling sound seemed to want to tear everyone's eardrums apart.

In a split-second, the seemingly solid red light exploded like a volcano eruption. The surrounding space was dyed a crimson red.

"Hu!"

In front of the jade tablet, Tang Huan heaved a sigh of relief. The flame at the tip of his finger suddenly disappeared, and a trace of unconcealable exhaustion appeared between his brows.

On this "Dao Test Tablet", he did not hold back. Although the duration of the previous test was not long, the amount of mental and mental energy consumed was incalculable. He could only use the power of these three runes, but to Tang Huan, it would be more tiring than forging more than ten weapons.

Fortunately, the whole process was still considered perfect.

While he was thinking, Tang Huan subconsciously looked down towards the bottom right corner of the jade monument.

"Ten, twenty, thirty... Thirty-six? "

The moment he finished counting the number of red lines, Tang Huan was startled.

During the test earlier, Tang Huan had been completely focused on the test and he was not the least bit distracted. Moreover, from start to finish, he did not look at the results of his test, and he had also never paid attention to the movements around him. Only now did he know the results of his test.

Tang Huan had thought that he should also have twenty-five red lines, and if there were more, he would only have twenty-eight.

Compared to Wu Yixian, there were fifteen more. And compared to the woman, there were eleven more.

"Isn't that a bit too much?"

Tang Huan couldn't help but think of this.

Just as Tang Huan was stunned, the red light and the words in the air quickly converged and dissipated. That majestic and abnormal aura swept out for the third time.

In the next moment, an earth-shaking hubbub broke out from the crowd.

"Did you see that!?" Thirty-six, it really is thirty-six! "

"After so many years since the appearance of the 'Dao Test Tablet', there has never been a high level Weapon Refiner that had a result that exceeded thirty lines, right?"

"Not to mention more than thirty lines, not even twenty-eight."

"This Tang Huan, is really the bane of records. In the 'Mazy Sword Valley', he broke the record for Emperor Mountain and River's seventy-two Sword Seal, and now, he also broke the record for the results of the 'Test Tablet'. "

"..."

In a short period of time, thousands of Martial Warriors s had gathered in front of the Divine Weapon Pavilion.

Judging from Tang Huan's performance with the first and second runes, with the third runes, the possibility of showing any signs of abnormal behavior was close to zero. The first two runes had a result of 24 red lines, followed by the third. No matter what, it would be able to break the record.

As such, everyone had expected such an outcome.

However, when the crowd saw the thirty-six red lines on the jade monument, their hearts couldn't help but to tremble. After all, this result was simply too shocking.

"Merging the 'Nirvana Sacred Fire' and obtaining one hundred and eight 'Sword Seal'. Right now, the results of these thirty-six red lines are nothing to me."

The surrounding noises woke Tang Huan up. In a moment of relief, he cupped his hands towards the surroundings and laughed as he walked forward. Seeing Tang Huan's actions, the opposing Martial Warriors subconsciously moved to the side, creating a path for him.

"Alright!"

Inside Divine Weapon Pavilion, behind the long table at the side of the door, the yellow clothed man suddenly came to his senses.

He slammed the table heavily and quickly recorded the results of Tang Huan's "Test Diagram" on the booklet. After he finished writing the numbers, the yellow-clothed man started laughing out loud with excitement, as if the one who had displayed his prowess on the "Dao testing monument" was not Tang Huan, but himself.

"36 lines!"

On the top floor of Divine Weapon Pavilion, the green robed elder left the window and sighed, "In other words, he can only reach thirty-six. Otherwise, his test results would probably be even more ridiculous."

Shen Guan also laughed emotionally, "It's been so many years, but there's actually a high level Weapon Refiner capable of pushing the power contained within those three characters to the extreme. It's really too surprising. If we did not see it with our own eyes, even if this news were to spread out, I'm afraid not many people would believe it. "

"That's right. I wonder what that girl's thoughts will be when she learns of this news?" The elder in green rolled his eyes and lightly stroked his long beard. His expression suddenly became strange.

"That girl ..."

A strange smile appeared on Shen Guan's forehead, but he instantly laughed mischievously, "If you're an old brother, don't mention that girl, let's talk about the 'Vajra Hammer' now. It's better for us to talk about it."

"Brother Shen, about this ... Don't worry, that 'Vajra Hammer' isn't anything special. Otherwise ... Brother Shen, I will still give you the 'Meteorite Day'. " The green-robed old man's face stiffened. The right hand that was stroking the black beard under his chin suddenly sank. He had actually pulled a few off.

"I only want the 'Vajra Hammer'. If you're an old brother, don't tell me you want to renege on the debt?" Shen Guan sized the green robed old man up with a playful look.

"How is this possible?"

The green clothed old man raised his eyebrow and rolled his eyes at Shen Guan in annoyance, "Just you wait, I'll give you the 'Vajra Hammer' right now."

With a light snort, the green-clothed old man turned around and left. When he took a step forward, his face couldn't help but twitch, and he had an expression of extreme pain.

"Who said that the 'Vajra Hammer' is not a good item ... With this, forging high grade weapons will be much easier. " Shen Guan smiled and muttered.

" ... "

## Chapter 316 - Shocking of the Holy City

In front of the Divine Weapon Pavilion, all the newly advanced s had complex expressions as they watched Tang Huan slowly walk over.

Especially those elderly Weapon Refiner.

They had only risen to a high ranking Weapon Refiner at the age of fifty or sixty, but Tang Huan, on the other hand, was already a high ranking Stage Seven Martial Master at the age of seventeen.

Tang Huan cupped his hands to everyone and then stood by the side. When his eyes swept past the middle-aged man who once stood in front of him, he mischievously blinked a few times.

The middle-aged man was stunned for a while before he regained his composure. His face was flushed red as if he was burning up. His eyes were full of shame.

Everyone had different expressions, while all sorts of thoughts were going through their minds, the yellow clothed man already walked out from Divine Weapon Pavilion with a face full of smiles, holding the registration book in one hand and a wooden plate in the other. On top of the tray was a pile of white jade tablets, inside the jade tablet, faint red characters could be seen.

"Everyone, the test for the 'Test Tablet' has finished. Everyone, please receive your pass to the 'Tools Method Hall' next."

The yellow-clothed man swept his gaze across everyone with a smile and shouted loudly.

Hearing this, many of the new Weapon Refiner s finally revealed a smile. Wasn't the reason why everyone was competing for the "Test Tablet" was because of that order badge.

"Xu Jian!"

The moment the yellow-clothed man said this name, he took out a jade token from his plate. The number inside the jade token was nine. In the next moment, an old woman around sixty years old stepped forward quickly and took the jade medallion from the yellow-clothed man with a smile on her face.

"Du Ziyi!"

"Li Rui!"

" ... "

The newly advanced s who had been called received their respective pass tokens one after another.

There were only about twenty people here, and more than a dozen of them were lined up in front of Wu Yixian. What surprised Tang Huan was that there were already about twenty high ranking

Weapon Refiner s who had received their tokens, and actually did not call out Wu Yixian's name. However, Wu Yixian seemed to have already expected this to happen.

Seeing Tang Huan looking at her, Wu Yi Xian smiled and nodded towards Tang Huan.

Tang Huan returned a smile and waited quietly.

Not long later, Tang Huan frowned, he was surprised, there was only one order badge left on the jade tablet, but there were three people who did not receive the order badge.

"Zhuo Yuyu!"

After the middle-aged man in front of Tang Huan obtained the last jade tablet, the yellow clothed man's wooden tray was completely empty.

"Tomorrow morning, everyone please gather here. I will send everyone to the 'Tools Method Hall'."

The yellow robed man said with a face full of smiles, "Now, everyone can go back." Wu Yixian, Tang Huan... "The results of your tests are very rare. The tokens need to be refined temporarily, so please wait inside for an hour. The tokens will be created in an hour."

Tang Huan understood when he heard it, but Wu Yi Xian and the rest had normal expressions, obviously knowing that it was going to happen.

"Please!"

The yellow clothed man smiled and gestured to the two of them, then he led the way and entered Divine Weapon Pavilion. Tang Huan and Wu Yi Xian looked at each other and followed along.

... ..

In front of the Divine Weapon Pavilion, several thousand Martial Warriors s and newly advanced high ranking Weapon Refiner s quickly dispersed. The news of Tang Huan participating in the "Dao Test Tablet" quickly swept through the entire Heavenly Forging City like a storm. For a time, countless people in this vast holy city were amazed.

West of Heavenly Forging City, Wu Family.

"What are the results of the test?"

In the depths of the continuous rise and fall of the room, an old woman with a benevolent face smilingly looked at the middle-aged man who had hurriedly entered from the opposite side. Although this old woman had white hair, she looked energetic. Her skin was smooth and rosy like a child's, and her eyes were clear and black.

"Madame, the young master's test results are very good. The number of red lines on the 'Dao Testing Monument' is as many as 21." The middle-aged man laughed.

"Twenty-one. Um, although this number can't compare to her, it's still extremely rare."

Soon after, she said somewhat helplessly, "However, I'm afraid that the immortal himself may not be satisfied with this result. He held back his strength and wants to surpass her, but unfortunately, there is still a gap. Talent is something that cannot be forced."

The old woman smiled again, "In recent years, other than her, I've never heard of a third person who is above 20 years old. If he can't be first, it's good to be second."

"Madame, young master is now ranked third." The middle-aged man said in a somewhat dejected manner.

"Third?"

The old woman was stunned.

The middle-aged man laughed bitterly and said, "Just now, the last new high ranking Weapon Refiner to take the test activated his power to manifest three characters. The 'Dao Test Tablet' displayed thirty-six red lines, which is a full fifteen times taller than Young Master."

"Thirty-six?" The old woman was shocked, "Who is it?"

"Furious Waves City, Tang Huan!"

"..."

... ..

South of Heavenly Forging City, Starsea Restaurant.

This was the Star Ocean Commerce's headquarters. The main body building with a height of six floors and the surrounding subsidiary buildings had countless of people entering and exiting. They were extremely busy.

"Thirty-six red lines?"

On the sixth floor of the building, a surprised and delicate voice broke the silence of the building, "He actually came to Heavenly Forging City quietly?"

The one who spoke was a purple-clothed girl whose face was covered by a veil. Although her face couldn't be seen, her delicate body was curvaceous and alluring, the curves of her dress were extremely perfect, and with the addition of her long hair that fluttered like the clouds, her entire body was shrouded in a mysterious charm.

"Exactly."

One of the Black Costume Old Man bowed slightly, and laughed, "Right now, I'm afraid the news has already spread around the entire Heavenly Forging City. The first thing he did was to make a move with thirty-six red lines. Ever since the appearance of the 'Dao Test Tablet', no one has ever been able to make it before him.

"This Tang Huan, I really wonder to what extent he will reach in the future?" The purple-clothed woman gave a faint sigh.

"Yeah, the thirty-six red lines mean that he can stay in the 'Tools Method Hall' for thirty-six days. When he comes out of there, I believe his strength will increase by quite a bit. "

Black Costume Old Man was also filled with emotion, "However, with the relationship between our Chamber of Commerce and him, no matter how he grows in the future, it will still be beneficial to our Chamber of Commerce. Miss, do we need to find his place of residence and prepare a gift of congratulations? "

"That won't be necessary."

"..."

Within Heavenly Forging City, whether it was the streets, the encampments of the various great powers, or the gathering places of the various great clans, similar sounds practically rose and fell one after another.

Tang Huan's name had long ago spread throughout the world.

When he returned to the Glory Continent, even though he was far away there were still many people secretly watching him, wanting to see what other movements he could make. But now that the news of the "Dao Test Tablet" had come out from the Divine Weapon Pavilion, it immediately caused countless people's hearts to tremble.

The results of the first and second prizes for the book review event of "The Peerless Battlefield Soul" at the beginning of the month have already been announced. Friends who have participated can go over to take a look and see if they have won the prize.

Chapter 317 - Green Jade Stone

Indeed, in less than an hour, Tang Huan and Wu Yixian each received a pass to the "Tools Method Temple". Within the medallion, a number was branded onto each medallion.

Wu Yixian's was twenty-one, Tang Huan's was thirty-six.

When the two of them walked out of Divine Weapon Pavilion, there were already not many people outside. On the other hand, the houses that belonged to the Divine Weapon Pavilion were still bustling with noise and excitement, and from time to time, a large number of people would come and go.

"Brother Tang Huan, farewell." Wu Yi Xian suddenly cupped his hands towards Tang Huan with a smile.

"Oh, Brother Wu, farewell."

Tang Huan was startled, and cupped his hands towards Wu Yi Xian in respect.

Wu Yi Xian smiled at Tang Huan again before floating away. His smile looked rather strange, as if he had been relieved of a great burden, but also as if there was a sense of mischief and schadenfreude contained within it. This caused Tang Huan to be confused, and he was a little surprised.

While he was waiting for the order badge in the Divine Weapon Pavilion, Wu Yi Xian did not say anything, and Tang Huan did not say anything.

After the test, Tang Huan felt a strong sense of exhaustion, which made him not even the least bit interested. He just sat on the floor, meditating and recovering.

Now, his spirit had improved by a lot. However, Wu Yixian's actions caused him to feel quite puzzled. He could feel that Wu Yi Xian did not have any ill intentions towards him, at least for the time being. It was because of this that Tang Huan was puzzled by his actions just now.

After a moment, Tang Huan was too lazy to think about it anymore. He calmed his heart and followed the road in front of the Divine Weapon Pavilion.

After walking for more than a hundred meters, Tang Huan noticed that there were a lot of people behind him, whether it was in the light or in the dark. Regarding this, Tang Huan had expected this

to happen, but he did not take it to heart. He was very clear that if his identity was exposed, his every move would definitely receive a lot of attention.

Tang Huan did not immediately return to his residence. Instead, he followed the bustling main road and headed straight to the southern part of Heavenly Forging City.

Roughly an hour later.

"I never thought that we would meet again so soon. Brother Tang Huan, please take a seat."

South of the city, on the roof of the Star Sea, the purple-clothed woman with a face covered by a veil looked at Tang Huan who was walking in with large strides.

"So it's Lady Xing Yan."

Tang Huan's eyes flashed with surprise, and immediately after, his face revealed a smile, and he sat cross-legged on the praying mat in front of him.

Back then, when the Star Ocean Commerce was hosting the "Phoenix Spirit Martial Meeting" at Feng Ming Mountain, he had seen this purple-clothed woman before. However, Tang Huan's understanding of her was limited to knowing that his name was "Xing Yan".

Just now, Tang Huan had arrived at the side of this Starsea Gem Store and was invited by the shopkeeper to come here. He said that someone wanted to see him.

What surprised Tang Huan was that the person who wanted to see him was this mysterious woman called Xing Yan.

From Tang Huan's perspective, this Xing Yan's position in the Star Ocean Commerce should be extremely respected. Otherwise, Lei Ming and the others would not follow her orders. What he saw now confirmed Tang Huan's guess. This Starsea Restaurant was the headquarters of the Star Ocean Commerce. To be able to live on the roof of this Starsea Tower, Xing Yan's identity was evident.

"Brother Tang Huan, I heard that you want to buy a large amount of high level gems?" Xing Yan's eyes moved, the smile between his brows became even wider.

"Exactly."

Tang Huan nodded and smiled, "Miss Xing Yan, I wonder how many high grade gems that are worth more than two hundred thousand gold?"

"There are always a thousand." Xing Yan laughed, "How much does Brother Tang Huan need?"

"All of them." Tang Huan said without the slightest hesitation.

"All of them?"

Hearing this, Xing Yan could not help but be startled, there was some doubt in his eyes, "Brother Tang Huan, are you planning to take them all away later?" She had never seen anyone buy so many high grade gems at once, not even Divine Weapon Pavilion.

"That's right."

The corner of Tang Huan's mouth curled into a faint smile, and he took out two stones the size of duck eggs from his bosom.

"Saint rank demon essence stone?" Xing Yan cried out, a look of shock flashing across her eyes, obviously she did not expect Tang Huan to take out such a treasure.

"Two Saint rank 'Demon Essence Stones'. Can I exchange it for a thousand high-grade gems like that?" Tang Huan said with a smile.

"One is enough."

Xing Yan came back to her senses and blinked her beautiful eyes a few times. "Brother Tang Huan, those high-grade gems that you need can basically be bought with gold coins, but these Saint-rank 'Demon Essence Stones' are priceless treasures. "If you sell it at the auction, even if it's 300 million or 400 million gold coins, there will probably be people who want it. After calculating it, if you exchange it for high-grade gems with 'Saint Ranked Demon Essence Stones', our Star Ocean Commerce will have a huge advantage over you."

"If Miss Xing Yan feels apologetic, then there's no harm in taking note on my behalf and whether or not you can find three 'Desolate Jade Rocks'." Tang Huan laughed heartily and placed one of the Holy-ranked "Demon Origin Stones" in front of Xing Yan, while the other holy-ranked "Demon Origin Stone" was placed in his bosom.

Using a Holy-ranked 'Demon Origin Stone' to exchange for a high-grade gem, Tang Huan had no choice but to do so.

The last "Phoenix Stone" had already been eaten by Xiao Budian yesterday. If he did not prepare some rations for it, Xiao Budian would starve by the time he entered the "Tools Method Hall". After all, he did not stay in the "Tools Method Hall" for only a day or two, but thirty-six days.

"Green Jade Rock?"

Xing Yan raised his brows, and then, a look of understanding flashed past his eyes, "This' Desolate Jade Stone 'is an extremely high quality water attribute gem, and its effects are not inferior to the' Heavenly Wood Stone '. Brother Tang Huan, you want to use the' Desolate Jade Stone ', I presume that you plan on using it to level up your weapon?"

"Miss Xing Yan really has sharp eyes."

Tang Huan chuckled.

It would not be an easy thing for a high-quality weapon to advance to a higher level.

The most difficult part was finding a suitable gem. Tang Huan had used the "Phoenix Stone" and "Heavenly Wood Stone" to forge the "Dragon Phoenix Spear". If he wanted to advance, he needed to use a high-grade water attribute gem, and its effects couldn't be inferior to the "Heavenly Wood Stone".

If he failed to advance, the Spirit Map inside the spear would definitely be severely injured, and by then, the entire spear would be ruined.

"The 'Green Jade Rock' and the 'Heavenly Wood Stone' are the same. They are both extremely rare."

Xing Yan muttered to himself, "In the past five years, our Star Ocean Commerce had only moved two 'Green Jade Rock' last year. According to my knowledge, other merchant guilds rarely came across a jade-like stone as well. But, Brother Tang Huan need not be anxious, I will send down

orders tomorrow and let the various branch organizations investigate the situation, but I cannot guarantee that I will be able to find it, after all, 'Desolate Jade Stone' is too rare. "

"Regardless of whether or not I can find it, I still have to thank Miss Xing Yan."

"..."

## Chapter 318 - Tools Method Temple

Tang Huan's inn was very close to the Divine Weapon Pavilion, just a few hundred meters away.

According to Tang Xiong, the size of this inn could be ranked in the top three of the entire Heavenly Forging City. An ordinary inn usually only consisted of one or a few buildings. However, this inn only consisted of a few tall buildings, and other than these, there were also rows of small quiet and elegant courtyards.

What Tang Huan rented, was one of the courtyards.

When the lanterns were lit, Tang Huan returned to his living quarters, followed by two burly, bald muscular men. Tang Huan had seen them before at Feng Ming Mountain. At this moment, the two of them were carrying a huge cloth bag in one hand as they walked into the courtyard.

"Thank you, big brothers."

Tang Huan cupped his hands in thanks, the two bald muscular men only nodded their heads, and then placed the cloth bags down, and without saying a word, they left the courtyard.

"All of them are high-grade gems?" By the time Tang Huan had closed the gate to the courtyard, the little girl had already opened one of the cloth bags.

"Yiya?"

After sensing the commotion, Xiao Budian ran into the room and hid. Sensing the aura of the many high grade gems, he immediately let out a happy cry and quickly slipped out from the room into the huge cloth bag opened by the little girl.

"Don't worry, it's all yours ... "Who?"

Seeing that Xiao Budian's entire body had sunk into the pile of gems, Tang Huan could not help but laugh, but in the next moment, Tang Huan's face changed. He looked towards the right side of the wall and grabbed the hilt of the dark red sword, releasing an extremely sharp sword concept out of his body.

The moment Tang Huan spoke, the little girl's body tensed up, her bright black eyes looked over.

In the large bag beside her, the little guy who was happily drilling around also suddenly quieted down, not letting out the slightest sound. However, in that split-second, it was as if the entire space froze, and a serious aura filled everywhere.

"Young master, don't be surprised, this old servant is here."

An elderly voice suddenly sounded outside the wall.

Soon after, a petite figure leapt over the courtyard walls and entered the courtyard. It was none other than Lu Chen, a green-robed old man with wrinkles all over his face.

"So it's Elder Lu."

Tang Huan laughed, his hand released the sword hilt, and the sword intent disappeared without a trace. Almost at the same time, the little girl's small body relaxed, and from the side bag, Xiao Budian started to laugh, and all of a sudden, the heavy atmosphere disappeared.

Even when Shan Shan was still in Furious Waves City, Lu Chen had already known of Xiao Budian's existence. At this moment, there was no need to avoid him.

"After he was promoted to Stage Seven Martial Master, Young Noble's strength has indeed undergone a tremendous change. This old servant originally thought that he had hidden his abilities well enough, but who knew that it was actually discovered by Young Noble right away. If we were to fight, this old servant is afraid that I am no longer Young Noble's match. "

He was very confident in his concealment techniques and thought that even a Martial Lord of the eighth step would not be able to discover his existence. However, the moment he got close to the courtyard, Tang Huan had already called out to him to go into hiding.

"Elder Lu is too modest."

Tang Huan laughed, and said: "Elder Lu, I wonder how your young miss is doing recently?"

Lu Chen chuckled and said, "Young Master need not be anxious. Young Miss is at a critical moment in her cultivation and should not be disturbed. So young master is not aware that he has arrived at Heavenly Forging City. When Miss has mastered her cultivation, that old woman will immediately inform Miss about the news regarding Young Noble. "

"No rush, no rush."

Tang Huan laughed dryly twice, and then looked at the little girl and Xiao Budian in the blink of an eye, and spoke while hesitating a little: "Elder Lu, this junior has something ..."

As if he knew what Tang Huan wanted to say, Lu Chen nodded his head and smiled, "Sir, please do not hesitate to go to the 'Tools Method Hall'. As for the rest, Sir, you can leave them to this old servant."

"Thank you, Elder Lu!"

"..."

The night quietly passed.

The next day, when the sky had just started to brighten, Tang Huan had already arrived at Divine Weapon Pavilion.

According to what the yellow clothed man said yesterday, it was today's morning. The morning time was between 7 and 9 o'clock, and Tang Huan reckoned that it was only around 6 when he went out. He had originally thought that he had arrived early enough, but he hadn't expected that there were still dozens of people ahead of him.

When Tang Huan appeared, the crowd became slightly restless.

"He is Tang Huan?"

"Tsk tsk, 17 years old? "He's really young!"

"Thirty-six red lines ..." I really don't know how he did it, but it's such a pity, it's a pity that I finished my test yesterday morning and couldn't see it. "

"..."

Subtle chirping sounds could be heard from time to time.

Dozens of newly advanced s looked at Tang Huan with a complicated expression. Some of them were surprised, some were envious, some were jealous, some were unfathomable.

Tang Huan quietly stood at the edge of the crowd. Since no one came over to talk, he was happy to have no one disturb him.

Time flew. More and more high-level Weapon Refiner gathered, and in a short while, there were seventy to eighty of them, and the last one who appeared seemed to be both Wu and Immortal. He was wearing snow-white clothes, looking as elegant as a fairy. A faint smile hung on his jade-like face.

"Looks like everyone is here. Everyone, please follow me."

The Divine Weapon Pavilion's door creaked open, and the yellow-clothed man's figure flashed, his eyes swept around, and he smiled and waved to everyone, returning back to Divine Weapon Pavilion first.

Everyone entered in a line and followed behind the yellow-clothed man. They quickly passed through this spacious and empty space and exited through the back door.

Behind Divine Weapon Pavilion, there were many buildings.

The yellow clothed man brought Tang Huan, Wu Yixian and more than eighty other new high ranking Weapon Refiner s and took a left turn. About half a quarter of an hour later, an exceptionally grand palace appeared in everyone's line of sight.

"Tools Method Hall!"

Every single character was flickering with golden light, dazzling the eyes of others.

At this moment, whether it was Tang Huan, Wu Yi Xian, or the other new high ranking Weapon Refiner, all of them had expressions of anticipation uncontrollably. An old man with white hair and a beard was so excited that his face was flushed red, and his body was trembling slightly.

This "Tools Method Hall" was actually equivalent to a place of inheritance for the Weapon Refiner. It was also a Sacred Ground in their hearts, just like the Sword Crafting Valley back then. It could be said that none of the high ranking Weapon Refiner s in the Glory Continent didn't want to enter the "Tools Method Temple" and stay there for a few days.

Being able to enter the "Tools Method Hall" was a great honor, even if it was only for a few days.

It was still five o'clock every day, so the update was not updated until around 11 o'clock at night. This was to prevent everyone from waiting so late. 0^

## Chapter 319 - Burning Spirit Jade

At this moment, the Tools Method Hall's door was wide open, and a young man stood by the door. He held a tray in his hands, and on the tray were many small red jade bottles.

"Everyone, this is a round fusion pill, consuming a single pill can ensure that you won't be hungry for a day." "Everyone, please receive your corresponding pills according to the number in your

travel tokens." Arriving at the entrance of the hall, the yellow-clothed man smiled as he pointed at the tray in the young man's hand and introduced it.

Each bottle was labeled with a number, and everyone stepped forward.

Very quickly, Tang Huan received a jade bottle labeled "Thirty-six". The moment he uncorked the bottle, a faint, delicate fragrance wafted out, and inside the bottle, numerous bright red pills appeared. They were only the size of soybeans, and seemed to fill up the entire small jade bottle.

"That's all I can do for you, please!" Seeing that all the new high ranking Weapon Refiner had received their pill bottles, the yellow clothed man cupped his hands and smiled.

"..."

Everyone could not wait any longer and immediately rushed into the hall.

Although the door was opened, standing outside the hall, it was not clear what was going on inside. It was as if there was a thick layer of mist shrouding the door, but after entering the palace, it was incomparably bright, and the situation inside the Tools Method Palace also entered everyone's line of sight.

Tang Huan quickly scanned the place, and his eyes couldn't help but reveal a strange light.

From the outside, the Tools Method Hall should have been made of wood, but when inside the hall, what was seen was instead walls and floor that resembled white jade. This palace was extremely vast, and just like the "Phoenix Nest" Tang Huan had entered before, the internal space was separated by a region. However, the "Phoenix Nest" had three levels, while this place only had two levels.

Between the outside and the inside, there was an arch. However, the arch was also covered by mist, making it difficult to see through the door and the interior.

In the vast space, there were many small jade tables that were not even two feet long arranged neatly. On each jade table, there was a jade box. And on the jade table, there was a sparkling and translucent white praying mat.

Dozens of newly advanced s quickly spread out, moving around the jade tables.

The other ten or so people walked straight towards the arch in front of them. The two s with the strength of the eighth stage who had performed quite well on the trial monument yesterday afternoon were among them. Seeing that, Tang Huan was surprised, what was the difference between the inside and the outside?

"Brother Tang Huan, are you interested in heading to the inner sanctum of the Sacred Hall?" At this moment, a clear voice entered his ears. It was the voice of Wu Yixian, who was walking over to him with a smile.

"Brother Wu, then what is inside the Holy Palace?" Tang Huan came back to reality and laughed.

"Huh?"

Wu Yi Xian obviously didn't think that Tang Huan would ask him such a question, and asked in a daze, "Brother Tang Huan ... "You don't know?"

"I only know that the Tools Method Temple has a large number of Grandmaster's handwritten refining letters." Tang Huan laughed.

"Well, that's true."

"There are two main differences between the inner and outer layer of the Sacred Hall. The first is that the inner layer is filled with the letters from the strongest Weapon Refining Grand Master, such as the Emperor of Glory, Gongsun Wanjun from two hundred years ago, the Weapon Refining Grand Master Gong Shao from six hundred years ago, and even the Weapon Refining Grand Master White Crane who had once fused with one of the Five Great Spiritual Fire s, the 'Colored Glaze Spiritual Fire', from several thousand years ago."

"The ones on the outer layer are the smithing handwritten by the somewhat ordinary Grandmasters. Of course, this kind of commonness is only relative to the Mountain River Emperor and the others. Weapon Refining Grand Master who can receive the inheritance of the 'Tools Method Hall', no matter which one of them is the renowned genius in the way of martial arts or Tools Method. "

"So that's how it is."

Tang Huan smiled and nodded, but his mind was greatly shaken.

Who would have thought that within the inner reaches of the Tools Method Temple, there would be a letter from a Weapon Refining Grand Master who had fused with the Spiritual Fire. Among the five great Spiritual Fire, the "Colored Glaze Spiritual Fire" belonged to the five elements. After a few thousand years, the Weapon Refining Grand Master White Crane Ming would have definitely died a long time ago, but who knew where the "Colored Glaze Spiritual Fire" he had fused with before was now?

Wu Yixian said with a smile: "Another difference is that those 'Burning Spirit Jades' in the inner layer are twice as effective as those in the outer layer."

"Burning Spirit Jade?"

Tang Huan was slightly startled, and immediately pointed to a praying mat beside him, "Are you talking about them?" After entering the Tools Method Sacred Hall, Tang Huan had already noticed that the white jade praying mats were unusual. Inside the praying mats, it seemed to contain an extremely profound and majestic power.

"Exactly."

Wu Yi Xian nodded, "Once the power contained in this' Burning Spirit Jade 'is activated, it will continue to enter the body. It can broaden the Spiritual Meridian and temper the flesh body."

"In that case, what are we waiting for?"

Tang Huan laughed.

No wonder every new high level Weapon Refiner was so concerned about the number of days they had to enter the "Tools Method Temple", even if it was just for a day more than others, they would still be happy for a long time. Under normal circumstances, they would naturally have to stay in the Tools Method Hall for longer periods of time before reaping greater rewards from that "Burning Spirit Jade" for the newly advanced Weapon Refiner s.

When Tang Huan and Wu Yi Xian arrived at the arched door in succession, there were already more than twenty people gathered there.

From what Tang Huan had sensed, the majority of them should be Martial Lord s of the eighth step. However, what was unexpected was that these fellows were all staring at each other, waiting at the door.

"I'll go first!"

Finally, a tall and sturdy middle-aged man could no longer hold himself back as he strode forward. A moment later, his silhouette had already disappeared from within the circular arched door, as though he had already been covered by the mist.

"Hu!" However, not long after, a burly figure flew out and landed heavily on the ground. It was the burly middle-aged man from before. The burly man stood up again like a carp, but he was a little embarrassed. With a sullen face, he turned around and left, not wanting to stay any longer.

"This inner sanctum really isn't that easy to enter."

"We should prepare ourselves before we act."

"I wonder how many people will successfully enter the inner layer this time?"

"..."

Many of the new High Rank Weapon Refiner were muttering, but their eyes were on Tang Huan and Wu Yixian. After all, among so many people, only two people had the best results.

"Brother Tang Huan, I will be leaving first."

Wu Yixian smiled and then under everyone's gaze, he leisurely walked forward. In just a blink of an eye, his figure had already disappeared. In just a few breaths time, his figure had also disappeared without a trace.

"Looks like he went in."

Tang Huan's footsteps moved, and he did not delay any further.

At this moment, Tang Huan had already quickly activated both the "Nine Yang Divine Furnace" and the "spirit pellet." Inside his body, the boundless Genuine Qi began to surge like a violent storm. Seemingly at the instant he stepped into the arched door, Tang Huan felt an exceptionally terrifying pressure pressing down.

## Chapter 320 - Inner Level of the Temple

That pressure not only targeted the flesh body, it also directly impacted the soul. Furthermore, the pressure that the soul was under was far greater than that of the flesh body.

"Hmm?"

Tang Huan stopped in his tracks, and his body trembled slightly.

But in the next moment, in the depths of Tang Huan's soul, an incomparably majestic sword intent suddenly exploded outwards, continuously shattering the pressure that was rushing at him into nothingness. Following that, Tang Huan's body became as steady as Mt.

At this time, Tang Huan finally understood that the main test of this place was the soul of the new high ranked Weapon Refiner.

If the soul was strong enough, it would naturally be able to resist the attack of the pressure and enter the inner circle of palace. However, if one's soul was too weak, under the pressure, one's consciousness would be momentarily stunned. If a Stage Seven Martial Master was in a clear state, their flesh body would definitely be able to withstand the pressure that came sweeping over. However, once their consciousness became blurry, the result was obvious.

After Tang Huan had fused with the one hundred and eight "Sword Seal", his soul had become incomparably strong. That kind of pressure simply couldn't shake Tang Huan's soul.

As a result, the pressure of the flesh body was naturally unable to stop Tang Huan.

Although his vision was blurry, Tang Huan's mind was calm. He walked forward without any hurry, and after nine steps, the pressure suddenly disappeared, and everything became clear in front of Tang Huan's eyes.

The inner space of palace was much smaller than the outer space.

Inside, there were also rows and rows of low jade tables. On the table, there were jade boxes, and on the table, there was a prayer mat made from 'Burning Spirit Jade'. Tang Huan quickly counted. There were a total of thirty-eight jade tables in the inner layer. Wu Yixian was currently walking among the jade tables.

But what was somewhat different was that on every low table outside, the name and life of a Weapon Refining Grand Master were written. The box probably contained a corresponding Grandmaster's handwritten letter. However, in this inner layer, there was only the word "Artifact" written on the lid of the jade box.

Other than that, there was no other hint.

"I wonder which part of the contents of the box belongs to His Majesty. Which part belongs to Weapon Refining Grand Master White Crane?" Tang Huan looked at the dozens of jade tables, as his mind raced.

"Brother Tang Huan, every high ranking Weapon Refiner that enters the inner layer of this' Tools Method Hall 'only has one chance to choose, you must be sure about this before making your move. Every single Weapon Refining Grand Master here who have left behind a letter's legacy are all extremely powerful, but not all of them are suitable for you."

Wu Yi Xian paused in his steps, and looked at Tang Huan in the blink of an eye, as he said smilingly, "Of course, you don't have to be too nervous, even if the inheritance you chose is not suitable for yourself, you can still learn from it, and furthermore, cultivating in the inner sanctum for dozens of days is not a small achievement."

"Thank you for the reminder, Brother Wu."

Tang Huan nodded, and said with gratitude.

Wu Yixian smiled lightly and continued to walk and observe. However, Tang Huan frowned. He had thought to open the jade boxes one by one, but fortunately Wu Yi had warned him in time, otherwise, he would probably have to choose the items in the first box.

It was reasonable for Divine Weapon Pavilion not to give any hints on the jade box or the jade table, and to set such a rule. After all, it was impossible for only one or two people to enter the Tools Method Hall every single time, so if they were like the outside, and were able to tell who was inside the box with a single glance, it would easily cause a fierce fight.

After a while, Tang Huan also followed Wu Yi's example and walked slowly between the jade tables.

All the jade boxes were exactly the same. There was no difference except for the different "Artifact" on the lid. If he wanted to determine which box contained a letter that was suitable for him, he could only make a decision based on the observation of the character on the lid.

While thinking, Tang Huan's gaze landed on a jade box in front of him.

Each and every word of the word "Tool" was incomparably sharp, as if they were being carved by knives or axes. It was as if one was placed within a world of weapons that displayed its sharpness.

Tang Huan frowned, his gaze turning to the jade box.

It was the same word 'tool', but the strokes were gentle and graceful. It seemed to come from the hands of a woman, as if it had the power to comfort people. Upon seeing it, one's heart actually became much calmer.

Tang Huan guessed that the characters on the lid probably represented some of the characteristics of the Weapon Refining Grand Master.

After all, the people who left behind the letters in the hand were mostly people who lived thousands of years ago. At that time, there still weren't even Divine Weapon Pavilion in this world.

Tang Huan looked at each of them, and the moment he saw the tenth, he gave up.

All one could see was the appearance. Just by looking at it, it was difficult to find what one wanted. With a thought, Tang Huan stopped in his tracks, and closed his eyes slightly. In the next moment, Tang Huan calmed his mind and concentrated, and within the Dantian, the "Nine Yang Divine Furnace" and the spirit pellet were gradually being activated to the extreme.

Unknowingly, Tang Huan felt as if his entire being had become one with the space around him. The Perception Ability continued to rise at an alarming rate, and very quickly, it had reached an unprecedented stage.

Then, Tang Huan noticed the energy waves.

The energy fluctuations that originated from the 'Burning Spirit Jade' prayer mats, as well as the aura fluctuations that were emitted from the bodies of Witch and Immortal. In addition, above, on the ground, in the surrounding walls, and even from the doorways at the back, there were all sorts of strange aura undulations that seemed to have seeped out like strands of silk.

However, what Tang Huan was interested in at the moment was not these, but the miraculous undulations coming from the jade box on the table.

Just like the jade box that Tang Huan observed for the first time, the Spirit Qi that leaked out of the jade box congealed above the box, it had the shape of a sword, and the Spirit Qi from the second box transformed into a unique looking blade.

The situation of the other jade boxes was the same.

"Could it be that this fluctuation of aura turned into the pride of the various Weapon Refining Grand Master?"

Tang Huan's mind slightly stirred.

Generally speaking, other than the few Weapon Refiner s like Tai Yin who only focused on forging swords, the vast majority of Weapon Refiner knew how to forge all kinds of weapons. Even so, there were still categories that every Weapon Refiner was most proficient in. For example, Tang Huan himself, although he had forged blade, spear, sword, rod, axe, hammer, and many other weapons, the one he was most proficient in forging was actually still sword, not blade and spear.

Any proud work of the Weapon Refiner must have come from the type of weapon he was the most adept at forging.

Not long after, Tang Huan's attention was focused on a jade box located in the center of palace. The auras within the box fluctuated, and what appeared in the air was an extremely beautiful long bow. Furthermore, the shape of the bow gave Tang Huan a rather familiar feeling.

"Peacock Plume?"

In the next moment, those words flashed past Tang Huan's mind, but following that, he was stunned, Wu Yi Xian was actually standing right beside the jade box.
