Chapter 421 - Huge Debt

Not long after, Tang Huan brought Gu Fei to the "Four Seas Inn" that was not far from the Divine Weapon Pavilion.

Pushing the door open and entering the familiar courtyard, Tang Huan's mood immediately became excited, he could already sense the auras of Xiao Budian and the little girl.

"Yiya?" In the room opposite of them, a suspicious cry sounded out, followed closely by a small blue figure that scurried out. It was Xiao Budian.

"Yiya!"

Seeing Tang Huan at the door, Xiao Budian was first startled, but then immediately shouted out with excitement. With a flap of her wings, her small body immediately flew up into the air.

In an instant, Xiao Budian had already leapt more than twenty metres away, his meaty little claws grabbing onto Tang Huan's head, his small red tongue quickly licking Tang Huan's face, his crystal clear eyes filled with excitement.

In a short while, Tang Huan was already drooling all over his face.

After reuniting with the little fellow for so long, Tang Huan was quite excited in his heart. However, the way it expressed intimacy towards him made Tang Huan feel very depressed. He hurriedly pinched its two little claws and moved it away from his head, saving his face from being poisoned.

"Three pairs of wings."

Tang Huan directly wiped his face dry with his sleeves and sized up Xiao Budian with an excited expression. When he first left the Heavenly Forging City and entered the "Heavenly Spirit Realm", Xiao Budian was in a deep slumber. Now that over a year had passed, the third pair of wings on the back of the little guy had indeed grown out.

When it came to a pair of wings, Xiao Budian could only flutter twice as he completely had no ability to fly. But when he had two pairs of wings, Xiao Budian could already fly in the air for a while, but no matter if it was height or speed, they were both extremely limited. Now that it had grown a third pair of wings, its flying ability finally had a qualitative change.

This could be seen from its behavior just now.

"Yiya!" Xiao Budian flapped his three small pairs of wings proudly, his mouth wide open as though he was laughing.

"Tang Huan, is this a Spiritual Beast?" Behind Tang Huan, the dumbstruck Gu Fei had finally recovered from her shock and her beautiful eyes were filled with surprise.

"Exactly."

Tang Huan released Xiao Budian and nodded while smiling. With his current cultivation level and strength, there was no need for him to hide anything from Xiao Budian's existence. "It is the second ranked Spiritual Beast in Spirit Beasts Board, Blue Dragon ... In the blink of an eye, it has already become a Six Winged Blue Dragon. "

As he finished speaking, Tang Huan's expression couldn't help but reveal an emotional expression.

Back then in Maze Realm Forest, this Xiao Budian stole a lot of wine from a certain experienced Martial Warriors and got drunk. In the end, he was woken up by the pack of wolves chasing after him. Unknowingly, two years had already passed since Tang Huan saved it.

At that time, Tang Huan had never thought that Xiao Budian could grow so fast, nor that his own cultivation could reach its current state so quickly.

"Yiya."

Xiao Budian bared his teeth as he made a face at Gu Fei, then circled around Tang Huan lightly. He suddenly dove, flew backwards, and somersaulted a few times. Compared to before, Xiao Budian's flying skills were like the difference between heaven and earth. Any girl would have extremely weak resistance against this kind of cute and smart Spiritual Beast. Not long after, Gu Fei had already seen it to the point where his eyes were shooting stars.

But very quickly, Gu Fei was attracted by another clear voice.

Looking towards the direction of the voice, they saw a little girl, who looked to be about three or four years old, quietly standing in front of Tang Huan. She looked sweet and delicate, with fair skin and a cute little red skirt.

"Tang Huan, you're already a Stage Nine Martial Saint?"

The little girl rolled her eyes as she sized Tang Huan up.

This little girl could actually determine Tang Huan's strength. Although Tang Huan was not Stage Nine Martial Saint now, he was not far from her. However, Gu Fei quickly calmed himself down. She could not feel any energy fluctuations from this little girl's body. It was obvious that she was an ordinary little girl.

"No, he's still a Martial Lord of the eighth step."

Tang Huan smiled and rubbed her little head.

After a year of not seeing her, the little girl had grown a lot taller. However, the person who had entered the fastest was still her cultivation, and Gu Fei was unable to sense any fluctuations in her body, but Tang Huan could clearly feel that she had recovered to the level of Stage Six Martial Master.

The little girl jumped away in anger: "Tang Huan, it's good that you're back. Here's your bill, take a good look." After saying that, the little girl giggled and quickly took out a piece of paper from her pocket. One could vaguely see that it was filled with densely written words.

"Bills?"

Tang Huan received the page doubtfully.

After opening it, with just a glance, Tang Huan was stunned, and his expression became extremely strange. Seeing that, Gu Fei could not help but take a look.

"One... Ten billion three hundred million ... Gold coins? " After a while, Gu Fei gasped in shock, his eyes filled with unconcealable shock.

"Xiao Budian?"

Tang Huan finally regained his senses, growled, and looked around in the blink of an eye. Xiao Budian who was happily flying around had already disappeared without a trace.

"Come here!"

Sweeping his gaze across, Tang Huan saw the room's door opposite him.

As soon as the voice fell, a small head stuck out from the edge of the door frame, and two large dark blue eyes were filled with innocence. But under Tang Huan's stare, Xiao Budian slipped out of the room, drooped his head, and slowly walked in front of Tang Huan.

"You ate these things?" Tang Huan's face turned black.

"Yiya ..." Xiao Budian scratched his head and replied weakly. Then he looked at Tang Huan pitifully, like a child begging for forgiveness.

"Isn't that a bit too much?"

Of course, Tang Huan wasn't really angry, he was just a little unsure of whether he should laugh or cry. On the page that the little girl provided, there were records of the Star Ocean Commerce and the Spirit Feather Merchant Guild buying gems on credit. There were only about twenty records, but each record was worth more than a hundred million, which added up to more than ten billion.

Before Tang Huan entered the "Spirit Realm", afraid that Xiao Budian would not be able to eat after waking up, he spent a few days to forge a large number of high grade weapons, which he gave to the Star Ocean Commerce for auction. He obtained more than 900 million gold coins and used it to buy gems from the Star Ocean Commerce. He thought it would be enough for Xiao Budian to eat for a year or two.

However, he didn't expect that when he came out of the "Sky Spirit Secret Realm" in a year or so, he would owe Star Sea and Spirit Feather Merchant Guild ten billion gold coins.

This was a huge debt!

Chapter 422 - Goodbye Xing Yan

"Yiya!"

Xiao Budian sneaked a peek at Tang Huan and carefully shook his head, as if he wanted to say that there were not many things at all.

"Tang Huan, you bought this gem with 900 million gold coins. It finished it in the first month after waking up, and then it begged me to help it buy a gem at Star Ocean Commerce. I don't have the money to buy it, so I have to buy it on credit. In just three months, it had devoured all the high grade gems that the Star Ocean Commerce could find. After that, Xing Yan brought me to find the Spirit Feather Merchant Guild. Two months later, the Spirit Feather Merchant Guild's high-grade gems were also almost all devoured by them. "

"Because of this little scoundrel, the price of high-grade gems has at least doubled in the entire Glory Continent. Even so, many high-grade gems that were common in the past are no longer easy to buy. "

The girl said with a hint of schadenfreude.

Tang Huan was speechless when he heard this, causing Gu Fei to be even more stumped. Just how many high grade gems did this "Blue Dragon" eat, to actually be unable to supply Star Sea and Spirit Feather, the two great organizations, in the end actually caused the price of the high grade gems in the Glory Continent to rise greatly as well.

"Star Ocean Commerce and the Spirit Feather Merchant Guild are willing to let you buy so many gems on credit?"

Tang Huan laughed bitterly.

Star Ocean Commerce was alright, but Xing Yan had a good relationship with her, but on his account, buying the high-grade gems worth billions on credit shouldn't be a problem, but he never thought that even the Spirit Feather Merchant Guild would become so friendly, he and Weng Ting didn't have a good relationship at all.

"Why not?"

The little girl giggled, "Tang Huan, your name is extremely useful in this Heavenly Forging City. I found Xing Yan from the Star Ocean Commerce, and asked him to buy a large number of high grade gems on credit. After you come out, he would forge weapons and pay off his debt, and she would not ask why he needed so many gems.

"After that, Xing Yan brought me over to the Spirit Feather Merchant Guild. After knowing that you would use your weapon to pay back your debt in the future, that Gong Ting agreed without hesitation. I have already made my preparations, if you still do not return today, I will have to look for the Flowing Flower Merchant Guild. "

"..."

Tang Huan was speechless, he had really been sold by this little girl. 10 billion gold coins, then how many high grade weapons would he need to forge to get it back? Of course, Heavenly Grade Armament could also be forged. However, the materials needed to forge a Heavenly Grade Armament were all quite rare, and were not something that could be obtained just by thinking about.

This little guy's appetite was just too big.

Tang Huan looked down at Xiao Budian. The little fellow was grinning, its tongue licking its mouth from time to time, looking as if it wanted to continue eating, but when it saw Tang Huan's gaze, it immediately shut its mouth and drooped its head. Its eyes flickered, looking pitiful.

"Enough, stop pretending!"

Tang Huan bent down in annoyance and knocked on Xiao Budian's head with a chestnut, but it gave him a headache.

In just a few months time, the price of the Glory Continent's High Rank Gems had doubled. With its speed, if it kept eating like this, the price of the High Rank Gems would double again very quickly, to the point that it might not even be able to buy them with money. At that time, what would he use to fill the little fellow's stomach?

"Yiya!"

Xiao Budian was very smart to realize that Tang Huan would not care about this anymore, and immediately let out a happy cry, proudly sticking his tongue out at the little girl. Xiao Budian seemed to be prepared for it. He flapped his wings and rushed towards the sky, but the little girl's speed was not slower than him, as she grabbed onto one of its hind legs with lightning speed.

After being swung around by Xiao Budian a few times, the little girl gracefully turned around and actually climbed onto Xiao Budian's back. This greatly annoyed the little fellow. It was rolling and soaring non-stop in the air above this small courtyard, and it was making all kinds of extremely dangerous movements.

Seeing that, Gu Fei was initially worried that the little girl would be thrown to the ground, but very quickly, she relaxed. The little girl knew all the movements of the Blue Dragon like the back of her hand, and normally, she would play around like this, but she could faintly sense that the little girl was not simple.

Tang Huan only glanced at it once, and stopped paying attention to it. Instead, he slowly walked to and fro in the courtyard ...

... ..

"Tang Huan, I knew you would come over."

In the evening, in the top room of the Southern Star Ocean Restaurant in Heavenly Forging City, Xing Yan sat cross-legged on the ground. With regards to Tang Huan's arrival, she seemed to not find it unexpected at all. She quickly sized him up, and the depths of her beautiful eyes brimmed with a smile.

"Miss Xing Yan, in the past few months, that little girl in my house has given you too much trouble, I am truly sorry." Tang Huan said apologetically.

"Brother Tang Huan is too formal." Xing Yan said while beaming, "Our Star Ocean Commerce did nothing much either, we only gave Feng Ming a few high-grade gems."

"That's not just a high-grade gem. It's a high-grade gem worth seven billion gold coins."

Tang Huan said emotionally. Even though it was on credit, it was still an enormous favor, and after all, it was the debt of seven billion, which was an enormous burden even to the Star Ocean Commerce.

After a slight pause, Tang Huan asked with some curiosity, "Miss Xing Yan, don't you want to ask my family's little girl why does she need so many high grade gems?"

"If Brother Tang Huan is willing to reveal it, then you don't need to ask me to know." Xing Yan chuckled.

"To be honest, I have the Spiritual Beast 'Blue Dragon'."

Tang Huan said slowly as he looked at Xing Yan.

Seven billion gold coins from the Star Ocean Commerce, three billion gold coins from the Spirit Feather Merchant Guild ... The total amount of high-grade gems that were worth more than ten billion was beyond imagination. Even the Divine Weapon Pavilion would not be able to consume so many high-grade gems in such a short time.

Under these circumstances, there was no longer a need to conceal the existence of the Blue Dragon. Those who were serious would be able to guess its existence. In this world, only Blue Dragon, who was ranked second in Spirit Beasts Board, needed a massive amount of gems to feed it.

As expected, when Xing Yan said this, Xing Yan did not feel the slightest bit of surprise. Instead, he narrowed his eyes and laughed, "Brother Tang Huan, that Blue Dragon of yours probably has six wings. When it was two wings and four wings, it was still alright. However, when it was six winged Blue Dragon, its ability increased explosively and its appetite also increased explosively. However, the production of high-grade gems by Glory Continent and Glory Continent is limited. It will not be easy for you to raise a Six Winged Blue Dragon. Brother Tang Huan, in the future, you should go and have a headache. "

"Indeed."

Tang Huan nodded with a helpless smile, then said hesitantly, "Miss Xing Yan, the truth is, I came this time because"

"Pah!" "Pah!"

Without waiting for Tang Huan to finish speaking, Xing Yan smilingly patted her hands. Under Tang Huan's surprised gaze, she shouted out, "Bring in the thing that I prepared a while ago."

Do you think that's possible?

"Yes sir!"

A voice sounded from outside the door, and after a while, heavy footsteps could be heard. Subsequently, a thin, middle-aged man pushed open the door and entered with a large wooden chest in his hands. After placing it between Xing Yan and the two, the middle-aged man bowed and retreated.

"Miss Xing Yan, this is..." Tang Huan said somewhat hesitantly. He could tell that this wooden chest was made from the "Absolute Spirit Tree".

"Crack."

Xing Yan's eyes revealed a faint smile, he quickly opened the lock, opened the lid, and a multicolored light burst out from the lock.

"Heavenly Jewels?"

Tang Huan couldn't help but exclaim just by peeking at it.

Within the box, there were not just a dozen or so Heavenly Jewels, but over a hundred. Aside from that, there were also a large number of precious various iron ore.

"Brother Tang Huan, all of these are for you." Xing Yan smiled slightly.

"For me? Miss Xing Yan, you absolutely cannot do this. "

Tang Huan was shocked.

Although he had only taken a glance, he was able to determine that the value of this case of Heaven Ranked Gems and iron ore was probably not much less than the huge debt he owed Star Ocean Commerce.

Tang Huan had originally planned to buy some high quality iron ore s, as well as a few hundred high quality gems and a dozen Heaven Ranked gems from the Star Ocean Commerce. It was just that he had not paid his previous debts, and now he was owing a new debt, which was a little difficult to raise. He never thought that Xing Yan would prepare so many Heaven Ranked Gems and iron ore for him before he even finished speaking. Most likely, half of the Star Ocean Commerce's assets would be in this wooden chest.

"Don't be in such a hurry to refuse."

Xing Yan laughed crisply, "Brother Tang Huan, you have long stepped into the realm of Martial Lord of the eighth step, but you are still a high ranking Weapon Refiner. Coming out of the 'Sky Spirit Realm', you need stones and gems in order to level up your skills. These things are all lent to you by our merchant guild, Brother Tang Huan. "

If Brother Tang Huan feels apologetic, after he ascends to Weapon Refining Master, he can refine all of our remaining gems and ores into Heavenly Grade Armament and give them back to our Chamber of Commerce. At that time, we can write off all our debts.

"That won't do. If that's the case, wouldn't your company suffer a huge loss?" Tang Huan shook his head.

"With Brother Tang Huan, the quality of the Heavenly Grade Armament that you have forged will not be any worse."

A crafty smile flashed across Xing Yan's eyes, "As long as you control it well, the price of the Heavenly Grade Armament in your hands will definitely be two to three, or even four to five times higher than other Heavenly Grade Armament."

"With the price of one hundred and fifty to two hundred million gold coins, as long as you have seventy of these Heavenly Grade Armament, our Star Ocean Commerce will not suffer any losses. If we surpass this number, then our company will be able to earn one or two hundred million for every extra item. "

"Miss Xing Yan, I have never forged any Heavenly Grade Armament before, aren't you afraid that I will only produce twenty to thirty of them?" Tang Huan could not help but ask. If the number of Heavenly Grade Armament in this chest were to fall below seventy, then Star Ocean Commerce would lose everything.

"Brother Tang Huan, do you think that's possible?" Xing Yan said while beaming.

"Impossible!" Tang Huan was shocked, he stared fixedly at Xing Yan for a long while, only then were the three words coming out from his mouth, causing the two of them to look at each other and laugh out loud. After laughing, Tang Huan's expression became serious, he stood up and bowed deeply to Xing Yan, "Miss Xing Yan, thank you very much."

"..."

After leaving Starsea Restaurant, a large wooden chest appeared beside Tang Huan.

As the lanterns lit up, he was not in a hurry to return to the "Four Seas Inn." Instead, he made another trip to the "Spirit Feather Merchant Guild." He owed three billion in the Spirit Feather Merchant Guild as well. Now that he was out of the "sky spirit secret realm" and had gone to the "Star Ocean Commerce", he had no choice but to go to the "Spirit Feather Merchant Guild".

However, when Tang Huan walked out of the "Spirit Feather Merchant Guild", the number of wooden boxes beside him had increased to two.

The box that they had brought out of the "Spirit Feather Merchant Guild" was a little smaller, but there were still tens of Heaven Ranked Gems inside, along with iron ore s that could match up to these gems. The Spirit Feather Merchant Guild's General Manager, Weng Ting, and the Star Ocean Commerce's Xing Yan were thinking the same thing.

When he brought the two wooden boxes back to his living quarters, Gu Fei and the little girl had already disappeared. Without even asking, one could tell that they had gone for a stroll in the city. The night market of the Heavenly Forging City was extremely bustling, even at midnight, it was not cold and cheerless. For an occasion like that, it was obvious that it was not suitable to bring Xiao Budian along.

Therefore, when Tang Huan saw the little fellow, it was squatting pitifully under the roof.

"Yiya!"

Xiao Budian wagged his short tail and rushed in front of Tang Huan, his bright big eyes filled with grievance. However, when Tang Huan put down the two wooden boxes, its attention immediately turned to them, and excitedly opened them one by one, drilling around the boxes non-stop. Its mouth would occasionally emit a joyful, crisp sound, and it did not even notice the appearance of a figure in the courtyard.

"Elder Lu."

Seeing the old man in green suddenly appear in front of him, Tang Huan immediately bowed and saluted. When he returned in the afternoon, Tang Huan did not sense any fluctuations in Lu Chen's Qi from the courtyard next door. However, even though Lu Chen was not there, there were two Stage Seven Martial Master s guarding the place for him.

Tang Huan was extremely grateful to Lu Chen. In this period of more than a year, Xiao Budian and Feng Ming had all thanks to him taking care of them.

"Young Master's improvement on the trip to the 'Heavenly Spirit Realm' is indeed astonishing." Lu Chen's face was full of smiles as he praised, "Now that Young Noble has returned, this old servant shall leave as well."

"Leave?"

Tang Huan was startled.

Lu Chen grinned and said, "Miss, after you left the 'Sky Spirit Realm', you went to the Origin Continent's' Demon Area Desert '. That place is very dangerous, and although this old servant's current strength is not as good as Miss's, I still have some experience in winning against her, and might be able to help Miss a little. "

"Infernal desert?" Tang Huan was slightly shocked, "What is Shan Shan doing there?"

"I believe young master already knows the origin of the 'Divine Weapon Catalogue'. A hundred years ago, there was an object from outer space that entered this world. The place where it fell was the 'Infernal Desert'. Back then, when the His Sacred Emperor Majesty found the 'Divine Weapon

Catalogue', it seemed that there was something else that he had yet to bring out. This trip of Miss is to find the place where the foreign object fell. " A look of reminiscence appeared in Lu Chen's eyes.

"So that's how it is."

"Elder Lu, you don't have to worry too much. Shan Shan was able to condense a 'Extreme Yin Spirit Body' from the 'Seven Glorious Star Plate. With her current strength, as long as she doesn't run into those powerful people from the Peak Stage Nine, she will be safe."

"Even so, if we don't go over to take a look, we still might not be able to rest at ease."

"..."

Chapter 424 - Shock

Lu Chen had already left that night, including the two Stage Seven Martial Master s next door. In the early morning of the next day, Gu Fei had also left the Heavenly Forging City alone, and returned to Furious Waves City to visit her parents. It just so happened that Tang Huan had brought her to visit her own blacksmith shop. Before Weapon Refining Sacred Assembly, she would have returned to Heavenly Forging City.

On the afternoon of the same day as Gu Fei's departure, Tang Huan also brought Xiao Budian, the little girl Feng Ming and the big wooden chest, which had already increased to four, to the "Wonder Artifact Hall".

Compared to the Furious Waves City's "Wonder Artifact Hall", this place was not only larger in size, the quality of the various equipment was also higher.

When Tang Huan said her goodbyes to him yesterday, she mentioned to him that she wanted to borrow this "Wonder Artifact Hall" for her own use. Shen Guan agreed without hesitation and had even given the order that no one was to enter the "Wonder Artifact Hall" to disturb Tang Huan before the "Weapon Refining Sacred Assembly".

This meant that in the next ten days, "Wonder Artifact Hall" would solely be Tang Huan's.

Regarding this, Tang Huan naturally wished for it.

Around the Wonder Artifact Hall, there were a large number of white jade beads embedded, brilliant luster emitting from them at all times, even when the door to the hall was tightly shut, the inside of the palace was still as bright as day.

"Yiya!"

Xiao Budian jumped down from Tang Huan's shoulder and happily scuttled around the palace.

Yesterday evening, Tang Huan went to the Star Ocean Commerce and the Spirit Feather Merchant Guild, and obtained a lot of information from Xing Yan and Weng Qing. In recent months, Xinghai and Lingyu Merchant Guild had sent ten billion high grade gems to his residence. The news had long stirred up Heavenly Forging City. The news about Tang Huan possessing a Spiritual Beast also spread like wildfire. Currently, almost everyone in the Heavenly Forging City knew about it.

Therefore, when Tang Huan left the room this time, he let Xiao Budian lie on his shoulder without trying to cover himself any longer.

Along the way, almost everyone raised an eyebrow. Douluo Continent 3. Legend of the Dragon King http://www.biqugez.com/0_48/ Even after entering the Divine Weapon Pavilion, there were still many passing Weapon Refiner pointing fingers. After all, there were far too few Blue Dragon s. "Childish."

The little girl curled her lips in disdain towards Xiao Budian, and quickly climbed onto a clean table, sat cross-legged, and held onto the blue ball that seemed to have been condensed from water, and closed her eyes, she calmed down and focused, beginning to absorb the power of the Spiritual Fire. Douluo Continent 3. Legend of the Dragon King

Tang Huan calmed his heart and poured out all of the contents of the four wooden boxes.

Two of the wooden boxes were filled with Heavenly Ranked Gems and ores, which Tang Huan had personally brought back from the two great merchant guilds yesterday evening. The other two wooden boxes were filled with high-grade gems, mid-grade gems, and even low-grade gems.

To forge Heavenly Grade Armament, it was not necessary to have ores and Heavenly Ranked Gems. It also required various other ores, because each Heavenly Grade Armament required four different types of gems.

If he had chosen all the Heavenly Jewels, the construction cost would have been too high, and he would not have been able to find so many Heavenly Jewels. Thus, under normal circumstances, only one type of Heavenly Jewel would be used, and according to this Heavenly Jewel, the other three would be of lower quality.

When Tang Huan returned to his residence yesterday, he only did one thing: to choose the other gems for the Heaven Ranked Gems.

It required a great deal of effort to understand all the characteristics of the gems. Moreover, he would have to keep analyzing them.

Even with Tang Huan's Tools Method Attainments, his super strong Perception Ability and his deduction ability, it still took him an entire night to finish selecting and matching those hundred or so gems. After all, this was Tang Huan's first time seeing all these Heaven Rank gems, and he had only heard of them before.

Of course, Tang Huan's speed was already extremely astonishing. If it were any other high ranking Weapon Refiner, they probably wouldn't be able to finish it in three days and three nights under the same circumstances.

This morning, Tang Huan sent the list of the jewel formulas to the two great merchant guilds.

Xing Yan and Weng Ting were very fast, and should have made preparations in advance. Before even noon, they sent over all the gems on the list.

Tang Huan sorted out all the gems before grabbing a piece of iron ore and starting to try his luck ...

... ..

Early morning, outside Heavenly Forging City, there were not many pedestrians.

"Tap tap, tap tap ..."

Suddenly, at the end of the road, a line of dozens of people galloped over, their horses' hooves continuously hitting the ground as they emitted concentrated sounds. In the time it took to take ten breaths, the crowd, who was less than twenty meters away from the city gate, reined in their horses.

After a long howl, all the horses stopped on the ground and started to breathe heavily. Obviously, they had been running for a long time.

"Heavenly Forging City, your reputation is well-deserved." A loud laughter sounded out from the front of the horse team. The person who spoke was a middle-aged man around the age of 40. He was tall and wore a green robe. His face was filled with a moustache, his eyes were sunken in, and he had a pair of light green eyes.

"Big Brother Meng Zhen, should we directly go to the Divine Weapon Pavilion to register later? Or should we first find a place to stay?" Behind the middle-aged man, a young man with a handsome face started laughing.

"There's no rush in registering, since there's still two days until the first day of June, let's find a place to stay, and take a look around Heavenly Forging City." The green clothed man called Meng Zhen laughed, "Damn it, I wonder who will be participating in this time's' Weapon Refining Sacred Assembly '?"

"No matter who attends, Big Brother Meng Zhen has a huge hope of becoming the head of the Sacred Assembly." A short statured young man also said with a face full of smiles.

"You cannot speak nonsense with these words. If word of this gets out, I will become the laughing stock of this Heavenly Forging City."

"That Yu Feiyan has been a Weapon Refining Master for a long time, but she shouldn't be participating in the 'Weapon Refining Sacred Assembly'. Otherwise, there's no need to compete anymore and just directly give her the position of the champion. Other than Yu Feiyan, there are also quite a few other powerful fellows. "

"That thousand-year-old Wu Yixian from the Heavenly Forging City, the Sha Long Empire's Kui song and that from the Furious Waves City ... These people are all my strong opponents, especially that Tang Huan, who is extremely talented. It's been said that he had already become a of the Eighth Order a year ago. I wonder if he has come out of the "Heaven's Spirit Secret Realm", and whether he has already been promoted to Weapon Refining Master? "

"How can Weapon Refining Master be promoted that easily?"

The handsome man curled his lips and laughed, "Weapon Refining Master, you need to have the cultivation of a Martial Lord of the eighth step to be able to do that, but Weapon Refiner of the eighth step is not necessarily able to become a Weapon Refining Master.

"That's true. Let's go. Let's enter the city first." Meng Zhen dismounted and led the horse forward. The people behind him also dismounted at the same time.

"..."

Chapter 425 - Kui Song, Tang Yun

"Young master, Mo Yun Empire's Meng Zhen really did come."

The person who spoke was a tall and thin Black Costume Old Man. His hair was white, his face was thin, and his eyes looked a little sinister, "Moreover, he's the same as us, also living in the Four Seas Academy."

"How can he not come with such a good opportunity to make a name for himself?"

On the other side of Black Costume Old Man, a short statured and rather handsome young man could not help but laugh, "Since he is here, he will definitely perform well at the 'Dao Test Monument'. Uncle Huang, when the time comes, you should also go over to take a look and see what his results are."

Hearing that, the Black Costume Old Man who was called Uncle Huang could not help but laugh: "Young Noble had activated twenty-one red lines on the 'Dao Test Tablet', similar to Wu Yixian. Meng Zhen will definitely be inferior to Young Noble."

"That's true."

The short man laughed, "However, although that Meng Zhen seems to be in his forties or fifties, he is still a bit skilled. The 21 red lines are quite difficult, 18 lines shouldn't be too much of a problem. That's right. Uncle Huang, where's that Tang Huan?"

"Young Master, he still remains in Divine Weapon Pavilion and has not come out." Uncle Huang said in a deep voice.

"Oh?"

The short guy frowned and mumbled in confusion, "It has been seven or eight days, right? What exactly is Tang Huan doing inside, for even Great Clan Elder Shen Guan to personally give the order for no one to enter the Wonder Artifact Hall to disturb him? "

"Oh, it's extremely likely that he's trying to increase his forging skills. From this, it can be seen that he shouldn't be the Weapon Refining Master yet, otherwise, there's no need for him to do this in front of the 'Weapon Refining Sacred Assembly'."

Without waiting for Uncle Huang's response, the short man continued, "But no matter what, this time's 'Weapon Refining Sacred Assembly', this Tang Huan is still my Kui Song's greatest opponent."

At the end, Kui Ge's handsome face was filled with a grave expression.

... ..

"Princess Your Highness, we have investigated thoroughly."

In the east side of Heavenly Forging City, in an exquisite pavilion, a graceful middle-aged woman hurriedly entered, bowing to the figure before the window.

"Oh? Tell me quickly! "

The figure quickly turned around. It was a slim and graceful girl in a white dress.

She looked to be about sixteen or seventeen years old, her delicate body was concave and charming, and her curves were beautiful, especially her soft breasts. She was about to be sixteen or seventeen years old, and her delicate body was concave and beautiful, and her curves were beautiful, especially her soft breasts.

However, what was rather strange was that this girl in a white dress with a well-developed figure actually had an exceptionally delicate and beautiful baby face. Her cherry lips were small, her nose was delicate, and under her crescent-shaped eyebrows were a pair of large eyes as black as the stars in the night. Her skin was as smooth and tender as a newborn baby's, and the redness in her white skin was like a ripe peach; it made one want to take a bite.

With a mature figure and a tender face, this young girl's body was constantly emitting a fatal enticement.

She was the Little Princess of Great Tang Empire, Tang Yun.

"Princess Your Highness, that Tang Huan ..." The middle-aged woman was slightly hesitant.

"Why aren't you saying anymore?" Tang Yun asked doubtfully.

"That Tang Huan's strength is a little beyond my imagination ..." The middle-aged woman was still very hesitant.

"Unimaginable?" Tang Yun curiously blinked his clear and big eyes, and laughed: "He couldn't be Stage Nine Martial Saint, right?"

"That might not be the case, but I'm afraid that his cultivation is not far from Stage Nine Martial Saint, and as for his Tools Method Attainments, it is very likely that he is already at Weapon Refining Master." The middle-aged woman smiled bitterly.

"What?" Weapon Refining Master? "

Tang Yun was instantly dumbstruck and the smile on his face completely froze. After a long while, he asked in disbelief, "Aunt Lan, is your information accurate?"

"This news was revealed by Divine Weapon Pavilion's Pang Bo. It should be true." The middle-aged woman said helplessly.

"I thought that even if I couldn't defeat him this time, I would still be able to tie with him. But now, it seems that there's no hope at all." Tang Yun drooped her head, she looked bitter and small, and mumbled gloomily, but immediately after, she waved her fists crazily, pouting her cheeks, and said angrily, "Tang Huan is too hateful, can't you let me do it more than once? Even if it's more than a day. "

"..."

Seeing Tang Yun's angry look, the middle aged woman did not know whether to laugh or cry, but she felt helpless.

In the past two years, in order for Tang Yun to be on top of the "Weapon Refining Sacred Assembly", the moment the "Weapon Refining Competition" of that year had returned to Fallen God City, Tang Yun had stayed at the place where the Old Ancestor of the Tang Kingdom, Tang Moyang, trained.

It was only a dozen or so days ago that Tang Yun finally came out of there, and hurried towards the Heavenly Forging City without stopping.

Tang Huan had actually long since become a Stage Seven Martial Master and a high ranking Weapon Refiner more than a year ago. Furthermore, the high grade weapons he had forged were actually comparable to Heavenly Grade Armament s.

After arriving at the Heavenly Forging City, Tang Yun had finally recovered from the shock. He did not expect the latest news he received would give her another huge blow.

"Your Highness doesn't need to be discouraged."

The middle-aged woman could not help but advise, "Tang Huan is a complete freak, there is no need for us to compare ourselves with him. Given that Princess Your Highness's Tools Method Attainments is not inferior to Wu Yixian, Meng Zhen, and Kui Ge's, Princess Your Highness will definitely be able to enter the top three this time around. "

Seeing that Tang Huan was still dejected, the middle aged woman continued, "Even if we are going to compete, we do not have to compete with Tools Method Attainments, we can still compete with other things."

"Compared to other things ..." Tang Huan's eyes lit up, and his eyes started to spin.

"..."

The closer they got to the "Weapon Refining Sacred Assembly," the more lively it became.

At practically all of the time, a large number of Martial Warriors or Weapon Refiners had rushed into the large city, yet within the Divine Weapon Pavilion, Tang Huan was not affected in the slightest by the clamor of the outside world.

At this moment, the amount of precious stones and ores on the ground in front of him had already decreased by more than half.

On the table, weapons of all shapes and sizes were arranged in a row. Their lengths were all different, and their thickness varied, but on each of the weapons, there was an incomparably brilliant light shining out, interweaving horizontally, making the entire area look as if it were a dream.

With a single glance, one could tell that the weapon contained an incomparable amount of power. It was as if, once activated, it would erupt forth like a volcano, revealing its overflowing might.

They were all Heavenly Grade Armaments that Tang Huan had forged these past few days!

Chapter 426 - Weapon Refining Master

In front of the long table, the little girl was moving her feet as she carefully observed the row of Heavenly Grade Armaments. Her eyes were shining, and she was drooling in envy.

Behind the little girl, Xiao Budian also followed suit. His big eyes would look at his weapon and then at Feng Ming.

"Hu!"

Suddenly, a whistling sound pierced through the air, and then, with a "dang" sound, a weapon appeared on the long table.

What Tang Huan had just forged was a thick and heavy long blade. The style of the blade was similar to the unfamiliar sabre from ancient times, the sabre was two metres long, the sabre's body had a brilliant gold color, and in the middle of the dazzling gold, there were green, red and yellow mixed together.

"Another one! So fast!"

The little girl jumped up, grabbed the sabre in her hand and started waving it.

Although she could not activate the Heavenly Grade Armament, it was still filled with an extremely sharp Qi. After a long while, she returned the weapon to the wooden table and sighed in admiration: "Good blade! Even if it was a Saint-rank weapon, it was probably only so-so. Douluo Continent 3. Legend of the Dragon King http://www.biqugez.com/0_48/ "]"

"In eight days, seventy-eight Heavenly Grade Armament... There were still twenty of the Star Ocean Commerce's ingredients remaining, and he could forge another twenty Heavenly Grade Armament. The Spirit Feather Merchant Guild had a total of forty-two sets of materials, which were enough to forge forty-two Heavenly Grade Armament. "Sigh, I lost. I lost."

The little girl shook her head and kept sighing, "The Star Ocean Commerce and the Spirit Feather Merchant Guild managed to obtain so many high quality Heavenly Grade Armament. If we were to take them all out, not only would the two merchant guilds be able to get back their capital, they would also be able to earn billions more."

"Yiya?" Xiao Budian tilted his head and blinked his dark blue eyes suspiciously.

"It's all your fault..." The little girl snappily knocked on its head.

"..."

Time flowed like water, Tang Huan's heart had never been distracted, but the number of Heavenly Grade Armament on the long table had increased one by one.

"Clang!"

With a wave of his arm, another set of Heavenly Grade Armament landed on the table. Tang Huan exhaled lightly and grabbed another heavy set of iron ore. But before he made his move, Tang Huan seemed to have sensed something, he looked towards the hall's door in the blink of an eye. "Creak!"

It was Pang Bo.

Pang Bo couldn't help but take in a cold breath as his eyes quickly swept across the room. His face was completely lifeless as his mouth grew wider and his eyeballs became rounder and rounder.

"Brother Pang?"

A voice entered his ears.

Pang Bo looked up in shock and realized that Tang Huan was already standing in front of him with a smile on his face. As if he had just woken up from a dream, he couldn't help but gulp down a mouthful of saliva and say, "Brother Tang Huan, this ... All these Heavenly Grade Armament were forged by you these past few days? "

He knew very well that he had asked a useless question.

When Tang Huan entered the Wonder Artifact Hall, there was not a single Heavenly Grade Armament here. In the past few days, the Wonder Artifact Hall had never been opened, and there was no second Weapon Refiner inside. At this moment, as he entered the hall, the numerous Heavenly Grade Armament he saw were all undoubtedly forged by Tang Huan.

It was precisely because he understood this that he couldn't help but ask.

At this moment, the shock in his heart could not be described with words. How could a person forge a Heavenly Grade Armament at such a speed?

Last year, before Tang Huan entered the "Sky Spirit Realm", in a few days, he refined thirty-eight high grade weapons, and sold them to the Star Ocean Commerce for a high price of a billion. The speed at which he forged and the quality of the weapons he forged shook the entire Heavenly Forging City and also caused Pang Bo to be at a loss for words.

Thinking back, it would be very difficult for Tang Huan to regain the speed he once displayed.

After all, Tang Huan had just come out of the "Sky Spirit Realm", he had never forged any Heavenly Grade Armament before, so he had to start all over again. Perhaps, it would take a few days to successfully forge the first Heavenly Grade Armament.

It was even possible that Tang Huan would not be able to forge a single Heavenly Grade Armament during these ten days.

There were hundreds of Weapon Refiner with the strength of the eighth stage of Glory Continent, but only ten percent of them were Weapon Refining Master, the rest were high-ranked Weapon Refiner. It could be seen that it was not an easy thing to advance from a high ranking Weapon Refiner to Weapon Refining Master. It was not strange for Tang Huan to be obstructed at the moment.

But now, Pang Bo realized that he had still greatly underestimated Tang Huan.

"Exactly."

Tang Huan followed Pang Bo's gaze and looked over, then retracted his gaze and smiled, "Brother Pang, is there something important that you're looking for me for?"

"It is indeed an important matter." Pang Bo couldn't help but take a deep breath after he regained his senses, "Brother Tang Huan, tomorrow is the first of June."

"So fast?"

Tang Huan was a little surprised.

In this period of time, he had been completely focused on forging Heavenly Grade Armament and he really didn't care how many days had passed, nor did he count how many Heavenly Grade Armament he had forged here. He didn't expect that tomorrow would be the day the "Weapon Refining Sacred Assembly" was held.

After a slight pause, Tang Huan asked again: "Brother Pang, where are we going to undergo the Weapon Refining Master's promotions examination?"

"Brother Tang Huan, you managed to forge nearly a hundred Heavenly Grade Armament in ten days. There's no need to take the examination." Pang Bo couldn't help but laugh. "You can go straight to the third floor of Divine Weapon Pavilion to find the Great Elder. He's waiting for you there. The identity token of the Weapon Refining Master is already prepared for you."

"Alright, I will go to Divine Weapon Pavilion now."

Tang Huan also laughed, "Brother Pang, can you help me send all these Heavenly Grade Armament to the Star Ocean Commerce?" He just realised that he had used up all the materials provided by the Star Ocean Commerce.

"Sure, no problem."

"..."

When Tang Huan left the Divine Weapon Pavilion with Xiao Budian and the little girl, the high ranking Weapon Refiner's identity badge had already been changed to the Weapon Refining Master.

At this time, the Heavenly Forging City was already completely shrouded in darkness.

On the first floor of the Southern Star Ocean Weapon Shop, and the others who had just arrived and the surrounding customers were all dumbstruck as they looked at the table full of Heavenly Grade Armament.

Even Xing Yan was shocked.

She had originally thought that of the hundred and four sets of ingredients, Tang Huan being able to successfully forge seventy Heavenly Grade Armament was already an incredible feat. He never expected that the number of Heavenly Grade Armament that Tang Huan would bring back would be as many as ninety-eight. Moreover, it only took Tang Huan ten days to forge all these weapons.

To think that the speed and success rate of a Heavenly Grade Armament being forged would reach such a level, this was simply shocking.

"These Heavenly Grade Armament seemed to have been personally sent here by Divine Weapon Pavilion's Pang Bo. Could it be that Star Ocean Commerce invited this Divine Weapon Pavilion to forge them?"

"Didn't you hear what Pang Bo said? These Heavenly Grade Armament were given to him by Tang Huan ... Which Tang Huan? You are truly ill-informed, even Tang Huan doesn't know about this? "

"Tang Huan just came out of the 'Spirit Realm' ten days ago, and now he's giving us ninety-eight Heavenly Grade Armament. Could it be that he used these ten days to forge all these weapons?"

"..."

After a moment of silence, cries of alarm arose from the surroundings.

Chapter 427 - The Holy Meeting

"Ten days ..." Ninety-eight Heavenly Grade Armament s? "

Within the Spirit Feather Merchant Guild, within an exquisite hall, Weng Ting was so shocked that she jumped up. She looked in disbelief at the black robed middle-aged man in front of her.

The two great organizations were not far from each other, and with regards to the movements in the Star Ocean Commerce, the Spirit Feather Merchant Guild was extremely concerned.

Before the news of Pang Bo personally driving a large number of Heavenly Grade Armament into the Star Ocean Weapon Shop had spread throughout the city, it had already reached her.

"Are you sure there are this many?" Wong Ting calmed herself down and said incredulously.

"General director, I've personally counted ninety-eight items!"

The black clothed middle-aged man nodded, and said resolutely, "These weapons were all forged by Tang Huan in these ten days. Xing Yan found a few Martial Lord s of the eighth step to test out some weapons.

As he finished speaking, the black-clothed middle-aged man's eyes couldn't help but reveal an expression of surprise.

"This Tang Huan... Seriously... "What a monster ... " "The Heavenly Grade Armament that is being forged right now has the power of a Holy-ranked weapon. Once he becomes the Weapon Refining Grand Master, the holy-ranked weapon he forges will be infinitely close to the Divine Armament."

"Does this mean that if he were to successfully forge a Divine Armament one day, wouldn't his power be even greater than the ones forged by the Sacred Emperor's Mountain and River Sect's Divine Armament?" The black clothed middle-aged man couldn't help but ask.

"..."

... ..

"What, Tang Huan is already a Weapon Refining Master?"

In a courtyard within the Four Seas Academy, Kui Ge found it hard to believe his ears as he stared at the tall and skinny old man in front of him.

The tall and skinny old man said: "Young master, it is really the news from the Star Ocean Commerce, it is completely true! So it turns out that Tang Huan had been forging Heavenly Grade Armament in Wonder Artifact Hall for the past few days. Not long ago, Divine Weapon Pavilion's Pang Bo had sent all the weapons he had forged to Star Ocean Commerce. "

"Ten days? How many Heavenly Grade Armament he forged? " Kui Ge frowned.

"Ninety-eight pieces!" The tall and skinny old man smiled bitterly.

"Nine ... "Ninety-eight ... " Kui Ge took a deep breath and sat down on a stone bench. His face twitched and his eyes stared straight ahead.

"..."

"Weapon Refining Master... Weapon Refining Master... "

In the courtyard of the Four Seas Academy, Meng Zhen also laughed bitterly and sighed, "How can we, a group of s, compete with one another in a single Weapon Refining Master? It's fine if Tang Huan doesn't participate in the 'Weapon Refining Sacred Assembly', but if he does, the chief of the Sacred Assembly will definitely be him! "

"Does this Tang Huan really not know how he cultivates?"

A young man at the side said in a muffled voice, "It's the 'Nirvana Sacred Fire' and the 'Sun Spirit Body'. It's said that he obtained the 'Spirit Seed' from the Luo Fu World s of the Heaven's Spirit Realm, and is now a peak eighth stage Martial Lord and Weapon Refining Master at the age of eighteen. He can probably become a Stage Nine Martial Saint by the age of twenty!"

"First there's Yu Feiyan, then there's Tang Huan, and finally there's this Shan Shan ... Could this be a clear indication that our Human Clan will soon reappear in the glorious era a hundred years ago? "

"..."

"He really became a Weapon Refining Master. Douluo Continent 3. Legend of the Dragon King
http://www.biqugez.com/0_48/ In a pavilion east of Heavenly Forging City, Tang Yun pouted with

a grunt, then pinched her round and delicate chin, her beautiful eyes roaming about, thinking about something unknown. After a long while, Tang Yun suddenly waved her fair arms, and her eyes flashed with excitement, "Let's do it!"

"The difference between us is really getting bigger and bigger." In the depths of the Wu family manor, Wu Yixian, who had just returned home a few days ago, could not help but sigh.

"..."

The news that spread out from the Star Ocean Weapon Shop quickly spread like a storm, and before long, the entire Heavenly Forging City was once again stirred.

This night in Heavenly Forging City was also destined to be a sleepless night.

In the early morning of the next day, almost at the first light of dawn, there were people beginning to gather in the direction of the Divine Weapon Pavilion. At this time, there were already many people bustling about the wide plaza in front of the Divine Weapon Pavilion. When the first glimmer of dawn appeared, the Sacred Assembly had already been set up.

When Tang Huan brought the little girl and Xiao Budian outside the Divine Weapon Pavilion, the plaza was already filled with a sea of people, and even the roofs of the nearby houses were already filled.

Tang Huan did not stay outside and directly walked into the Divine Weapon Pavilion.

On the first level of Divine Weapon Pavilion, a large number of figures were also gathered there.

From the aura fluctuations that leaked out from these people, Tang Huan knew that they were all Weapon Refiner s waiting to participate in the "Weapon Refining Sacred Assembly s". There were actually as many as a thousand of them, and they were all young men and women.

Everyone gathered in groups of twos and threes, constantly muttering and clamoring.

There was a little girl who looked like she was carved from jade following Tang Huan, causing him to immediately attract the attention of many Weapon Refiner. Fortunately he had considered that there would be a lot of Martial Warriors s around today, so he intentionally placed Xiao Budian in his pocket when he was about to leave, otherwise, he would have already become the focus of attention outside.

"Who is this person, and why is he bringing a little girl?"

"That little girl is so cute. Is she his daughter?"

"This is the first time I've seen someone bring their daughter to participate in the 'Weapon Refining Sacred Assembly'."

"..."

Within the crowd, sounds of surprised mutters immediately rang out, and quite a few Weapon Refiner s could not help but laugh. In the Glory Continent, there were many twenty year old Weapon Refiner who were parents, but those who brought their children to participate in the "Weapon Refining Sacred Assembly" were people they had never seen before.

"I'm not his daughter, I'm his sister!"

Hearing the noises from time to time, the little girl was so angry that her face turned green. She waved her two little fists and roared while baring her fangs and brandishing her claws.

Although being Tang Huan's sister was very unpleasant, it was still better than being treated as Tang Huan's daughter. However, not only did her furious appearance not intimidate anyone, it instead made her seem even cuter. Immediately, more laughter sounded from the crowd.

"Tang Huan!"

Right at this moment, a tender cry suddenly sounded out, and immediately after, a beautiful young lady in a white dress appeared in front of Tang Huan. Right at this moment, a tender cry suddenly rang out, and immediately after, a beautiful young lady in a white dress appeared in front of Tang Huan.

However, compared to this beautiful baby-faced girl, the most eye-catching person was the young man with the little girl whom she had stopped.

"Tang Huan? Did I hear wrongly? She called him 'Tang Huan'? "

"He's that Tang Huan who forges ninety-eight Heavenly Grade Armament in ten days?"

"Tsk tsk, it really is Tang Huan. The last time I saw him, he was still at Furious Waves City's' Weapon Refining Sacred Assembly '. At that time, he was not much stronger than me, but in just a short span of two years, he was already a Weapon Refining Master, while I am still just a mediator now. "

"..."

Chapter 428 - The Last One!

In the vast space on the first floor of Divine Weapon Pavilion, cries of alarm suddenly sounded. Thousands of gazes practically fell on Tang Huan at the same time, as if his entire person was about to be penetrated.

Tang Huan, this was definitely the most resounding name for the Glory Continent in recent years.

Even after Tang Huan had entered the "sky spirit secret realm", the news regarding him continued to be transmitted out and spread across the entire continent.

After entering the secret realm, he had immediately rushed to the top 20 ranks of the Heavenly Ranking. First, with the Stage Seven Martial Master's cultivation, he had become the Martial Lord's Yan Zhangkong and Yang Dong, who were both at the eighth step of the Spirit Ranking, then he entered the Luo Fu World and ascended the 72nd step of the Heaven Stairway.

After that, Tang Huan killed the young master of the Demon Clan, Fen Lei, and then crossed the Sky Stairway to enter the "Extreme Spirit Palace"!

All of the Martial Warriors talked excitedly about Tang Huan's achievements, especially last night, when Tang Huan had actually done another huge thing that countless people were interested in. In ten days, he had successfully forged close to a hundred Heavenly Grade Armament. This was definitely something that no one had ever forged before or after.

Even the Sacred Emperor from a hundred years ago would not be able to accomplish something like this.

Regardless of whether they acknowledged it or not, this guy who was rising like a comet became the target of admiration for the countless youths and children in the Glory Continent.

"So you're a Your Highness of a princess."

Under everyone's watch, Tang Huan revealed a smile, and bowed to the young lady in white, her eyes revealing a trace of surprise.

This young lady in the white dress was the Little Princess of the Great Tang Empire, Tang Yun, whom he had arranged to battle on top of the Weapon Refining Competition. In the two years that they had not met, she had changed even more than Gu Fei.

"Don't call me Princess Your Highness, just call me 'Tang Yun'." Tang Yun squinted his eyes and laughed: "Tang Huan, do you still remember our agreement?"

"Of course I do." Tang Huan laughed, feeling a headache.

"You are already a Weapon Refining Master and I am only a high ranking Weapon Refiner. There is no need to compete to know the result."

Tang Yun said in a very depressed manner with a bitter face.

Tang Huan was about to console her, but the dejected look on Tang Yun's face suddenly disappeared, and unexpectedly became spirited again. He waved his fist a few times, as though he was encouraging himself: "However, I won't admit defeat so easily, Tang Huan, I will definitely see you again."

"Huh?"

Tang Huan was startled, but before he could speak, Tang Yun had already ran away happily.

Her last words made Tang Huan somewhat suspicious, but after a slight thought, he did not think anymore, and under everyone's attentive gaze, he quickly passed through the crowd and headed towards the second floor of Divine Weapon Pavilion. Not long later, Tang Huan's figure disappeared from everyone's sight.

However, before the crowd could react, Pang Bo had already appeared at the entrance. Following which, a loud voice rang out, "Everyone, please enter the stage."

The crowd filed out and followed the isolated passageway into the square.

At this time, the center area of the plaza had already been neatly arranged with many low jade tables and prayer mats. Everyone walked to the table in succession and sat down. As time passed by, more and more Martial Warriors gathered around and more and more of them also entered the plaza from the passage.

However, many of the Weapon Refiners that were sitting cross-legged on the prayer mat would occasionally glance towards the Divine Weapon Pavilion's door. Until now, Tang Huan had still not come out.

"It seems like there is only one table left, and that should be Tang Huan's table?"

"No, no, the last table was just taken."

"The positions here are all based on the number of people who have signed up, and all of them have been occupied. Don't tell me Tang Huan isn't going to participate in this' Weapon Refining Sacred Assembly '?"

"..."

was already a "Weapon Refining Master" and his Tools Method Attainments far surpassed everyone else's. If he were to participate, then there would be no suspense for the position of the champion. To Tang Huan, this was meaningless.

Like Yu Feiyan, she did not participate in the "Weapon Refining Sacred Assembly" as well.

"Looks like Tang Huan won't participate in the 'Weapon Refining Sacred Assembly'." "Without Tang Huan, the fight for the position of chief of the Sacred Assembly would have been very intense. However, the chief of the Sacred Assembly would have been me in the end."

"Great."

Almost at the same time, in another corner of the venue, Meng Zhen could not help but clap his hands and laugh. He heaved a sigh of relief as his tensed face relaxed.

"Since he is not participating in the 'Weapon Refining Sacred Assembly', then why is he still running to the Divine Weapon Pavilion?" In the center of the venue, a sturdy man could not help but mutter.

"He shouldn't be going to be the referee for this Sacred Assembly, right?" Wu Yixian, who was next to the burly man and was as beautiful as a woman, jokingly said.

"How is this possible?" The stocky man didn't even think before he shook his head.

"..."

A few meters in front of Wu Yixian and the muscular man, a beautiful woman in red tightly pursed her lips to prevent herself from laughing. However, her blade-like shoulders kept shaking, causing the surrounding Weapon Refiner s to look surprised.

For the Weapon Refiner who had the power to become the champion, it was indeed a good thing if Tang Huan didn't participate in the "Weapon Refining Sacred Assembly", but there was no need to be this happy, right?

"It's here!" It's here! "

At this moment, there was a sudden burst of loud shouting from outside the venue. The noise was earth-shaking. The many Weapon Refiner s subconsciously looked over, and saw many figures walking out from the Divine Weapon Pavilion, with Great Clan Elder Shen Guan at the front.

Generally speaking, every time there was a "Weapon Refining Sacred Assembly", there would be a Weapon Refining Grand Master and nine Weapon Refining Master s.

Great Clan Elder Shen Guan was a Stage Nine Martial Saint, so naturally, those following behind him were all Weapon Refining Master. Almost all of the Weapon Refining Master s were famous figures, and every time one of them appeared, they would be recognized.

"Gu Yi!"

"Wu Xin!"

"..."

"Nie Wuji!"

"Qing Ye!"

Eight Weapon Refining Master had come out, there was still one more!

Everyone looked at the figure of a slender figure that walked out from behind Qing Ye. It was a young man dressed in black robes with a handsome face.

The moment they saw him, the entire venue immediately quieted down. Everyone looked at each other in dismay, unable to believe their eyes.

The last judge of this time's "Weapon Refining Sacred Assembly", was actually him?

Chapter 429: It's Your Time to Go onstage!

Tang Huan! That person was actually Tang Huan!

Originally, when everyone saw that all the seats were occupied, they thought that Tang Huan would not participate in this time's "Weapon Refining Sacred Assembly." In the end, everyone's guess was wrong. Tang Huan still participated in the "Weapon Refining Sacred Assembly", however, he did not participate as a competitor, but as a referee.

Unknowingly, Tang Huan had already reached a position that everyone had to look up to. However, with Tang Huan's Tools Method Attainments, he was more than enough to be the referee for the Sacred Assembly.

For a time, many people had complex expressions on their faces within the Sacred Assembly. After a brief period of silence, the surrounding area erupted into an even more deafening clamor.

"I thought that Tang Huan wouldn't be participating in the 'Weapon Refining Sacred Assembly', but I didn't think that not only would he be participating, he would even become the referee."

"The 'Weapon Refining Sacred Assembly' has been holding this competition for so many years, but this is the first time that a referee of such a young age has appeared. Tsk tsk, a referee that isn't even twenty years old."

"Tang Huan is indeed powerful, but compared to Yu Feiyan, he's still lacking a little. Allegedly, she was already a Stage Nine Martial Saint, a Weapon Refining Grand Master. It's a pity that she left Heavenly Forging City as soon as she came out of the 'Heaven's Spirit Secret Realm'. If not, the main judge for this gathering would not be Great Elder Shen, but her. "

"..."

Amidst the clamoring noise, Tang Huan followed Shen Guan and the others and sat down on a high platform set up on the north side of the plaza.

This was the second time Tang Huan had participated in a gathering of this kind of Weapon Refiner in more than two years.

One was Furious Waves City's "Weapon Refining Competition", the other was this "Weapon Refining Sacred Assembly." Last time, they were just competitors, but this time they were the

referees. The change in cultivation, the increase in Tools Method Attainments, and his identity had also caused Tang Huan to feel completely different from before.

"Everyone ..."

Shen Guan's loud and mighty voice had already echoed throughout the world.

He didn't speak too much, and after a few simple opening words, he returned to his seat. However, his voice seemed to contain an inspiring strength.

"Tang Huan, it's your turn."

Qing Ye smiled and looked at Tang Huan.

Aside from the referee Shen Guan, the rest of the Weapon Refining Master s that acted as referees, there were actually three people that Tang Huan recognized. One was Gu Yi, one was Wu Xin, and the other was Qing Ye.

Tang Huan took a deep breath, he then calmed himself down and nodded towards Shen Guan and the rest, then stood up and walked to the front of the stage.

"Everyone, this time's' Weapon Refining Sacred Assembly ', a total of four rounds"

Tang Huan had a light smile on his face, his tone was clear and gentle, but it was extremely penetrating.

After he slowly explained the situation regarding the "Weapon Refining Sacred Assembly", Tang Huan could not help but feel that this Sacred Assembly was indeed worthy of being called the most elite competition that targeted the young Weapon Refiner of Glory Continent. No matter if it was the competition's specifications or the competition's rewards, they were both not something that the "Weapon Refining Competition" could compare to.

The Sacred Assembly was one more round than the "Weapon Refining Competition".

The first round was about Weapon Refiner's attainments in the area of Spirit Map; the second round was about Weapon Refiner's ability to control fire; the third round was about Weapon Refiner's comprehension in terms of Tools Method; and the fourth round was about Weapon Refiner's overall strength.

The reward for passing the first round was a precious iron ore and two high-ranked gems. For passing the second round, he would receive five high-ranked gems, and the reward for passing the third round would be two Heaven-ranked gems. As for passing the fourth round, he would receive five Heaven-ranked gems, the first three gems, and the rest of the Saint Grade Gem.

The prizes from the first few rounds were not bad, but the prizes from the top three were a little shocking. Even if it was the Divine Weapon Pavilion s, they would only have a limited number of Saint Grade Gem, but this time, they took out three of them.

"Get on the Spirit Map!"

Following Tang Huan's loud shout, a group of young men and women entered one after another, holding trays. Not long after, a thin jade slip about a foot long and a foot wide appeared on the table in front of everyone. If he were to find the correct Spirit Map within the time it takes for an incense stick to burn, he would be able to pass.

"Everyone, begin!"

Tang Huan growled again.

In the auction, no matter what those Weapon Refiner s thought about Tang Huan, they could only restrain their emotions and quickly make their move.

Tang Huan smiled and returned to his seat.

When he was at the second floor of Divine Weapon Pavilion, he had tried out the Spirit Map s that were used for the entrance exams. They were not considered very complicated, but they had been drawn in extremely tricky and tricky ways, requiring extreme care. Otherwise, he really wouldn't have been able to pass within the time it took for an incense stick to burn.

In the auction, many Weapon Refiner had obviously noticed this and could not help but frown. The atmosphere became tense in an instant. Around the venue, the onlookers seemed to be infected as the earth-shaking noise died down a lot.

On the other hand, on the stage, everyone still maintained a relaxed expression, occasionally smiling and watching the Weapon Refiner below make some comments.

However, when their eyes swept past Tang Huan, they could still see the lingering shock in everyone's eyes. Forget about the shock that Tang Huan gave to everyone last night, just his performance on the second floor of Divine Weapon Pavilion shocked everyone once again.

A Weapon Refining Master called Nie Wuji jokingly wanted to test Tang Huan's attainments with the Spirit Map. Hence, he got someone to bring out a pile of jade plates that were used by everyone. In the end, not even half an incense worth of time had passed before Tang Huan found all the correct Spirit Map from the pile of jade plates.

That was not a dozen or twenty jade plates, but a hundred!

At that time, Nie Wuji and the others were completely shocked. It was only then that they found out how Tang Huan was able to obtain all the "Sword Seal" from the "Mazy Sword Valley."

In next to no time, an incense stick's worth of time had passed.

Wailing sounds came from the audience. It was clear whether or not the first round of the Sacred Assembly was passed at a glance. If a Spirit Map was successfully found and activated, that jade piece would immediately release a brilliant luster, and even if the first round of exams ended, the luster would not disappear.

From beginning to end, the jade slip in front of him had always been dim and dull. Naturally, he would be eliminated.

Many people left dejectedly. Not long after, almost half of the Sacred Assembly was empty. Those that were eliminated were all middle stage Weapon Refiner.

"It's your turn again."

Qing Ye smiled and raised her eyebrows at Tang Huan.

Tang Huan laughed helplessly, and walked to the front of the stage once again. At this time, a jade table had already been placed there. On the table, there were sparkling and translucent black beads.

Each bead was only the size of a thumb: "Everyone, this is the content of the second round of the examination!"

Chapter 430 - Fire Line Piercing Beads

Tang Huan's voice was like a bell ringing, immediately attracting everyone's attention, and the black beads on the table stacked up, they could be seen clearly in the audience. Hearing his words, everyone's curiosity was piqued.

"This round is called 'Fire Thread Piercing Bead'. The test is on your ability to control fire."

Two pairs of eyes quickly swept across the place, Tang Huan smiled lightly.

Immediately after, with a thought from Tang Huan, a small ball of flame appeared in his right palm. Under the gazes of countless people outside the auction site, the flame in Tang Huan's palm continued to shrink until it became a long red filament. It was nearly a meter in length, and its head and tail were extremely evenly matched.

Everyone immediately understood what "Fire Thread Piercing Beads" meant, and inside and outside the venue, a collective gasp could be heard.

"This Tang Huan's ability to control fire is too terrifying, to be able to condense fire to such a degree?"

"Damn, this is too difficult! I'm finished! I'm finished! I'll definitely be eliminated in this round!"

"I wonder how many beads will be needed to pass this round?" I estimate that it will only be able to string nine beads at most, if I add more ... "

"..."

Shouts and curses rang out from time to time.

Some of the Weapon Refiner in the venue had extremely ugly expressions. This kind of test, was extremely difficult.

On the high platform, Tang Huan's expression did not change as he slowly picked up a black pearl and tied it to the thread formed by the flames. The hole in the middle of the bead was only as big as a grain of rice. The flame threads that were formed had to be smaller than the hole in order to enter.

In the blink of an eye, the bead fell to the bottom. Tang Huan then picked up the second bead and the third bead ...

Tang Huan's speed was extremely fast, in just a short span of a dozen breaths of time, all the beads on the table had been linked, and there were already forty-nine of them. Under countless gazes, Tang Huan turned his right palm to the side and that originally rising flame thread immediately floated horizontally in the air.

The threads were actually as hard as iron. None of the forty-nine pearls that were connected by the flame fell to the ground.

Seeing this scene, not only were the Weapon Refiner s' and Martial Warriors s' faces filled with shock, even Shen Guan, Gu Yi and the others on the stage exclaimed out in surprise. This "Fire Threaded Pearl" looked simple, but to achieve Tang Huan's level, it was as difficult as ascending to the heavens.

Using a red line to string up forty-nine pearls, this could be said to be a godly feat.

"Among all of us, I'm afraid only the Great Clan Elder would be able to do what Tang Huan did." Inside the stage, Gu Yi was praising.

"Tang Huan actually strung all of those beads on it." Wu Xin could only laugh bitterly, "I estimate that it would be pretty good if he could get twenty to thirty beads."

"Of the 49 pearls, this old man can probably barely make it. It will be impossible for me to be as smooth as Tang Huan." Looking at Tang Huan's back, Shen Guan was deeply moved.

"This fellow..." Qing Ye's beautiful eyes opened wide, she had thought of the method to test the "Fire Thread Piercing Pearl", and the forty-nine pearls on the table in front of Tang Huan, were also prepared by her orders, but she did not expect Tang Huan to string them all together, luckily he had only placed forty-nine of them, if he had placed sixty or seventy of them, Tang Huan might not even be able to string them up one by one.

"..."

"Tang Huan is really powerful."

Within the auction house, Tang Yun's beautiful eyes flashed with a strange light. Being able to string forty-nine beads together was one thing, but to be able to control the flames so that all the beads were suspended in midair without dropping anything, the difficulty of Tang Huan's move could be imagined.

"Is this kid even human?"

After a brief moment of shock, Wu Yixian smiled bitterly.

He had stealthily tried it just now, and when he had condensed the fire to its limit, he estimated that he could only string together a dozen or so pearls at most. Furthermore, the amount of time he had spent maintaining that state of flame, was not as long as Tang Huan.

"With such a method, even if all the Weapon Refining Master s in Glory Continent call out, I'm afraid not many would be able to compare to him." Meng Zhen's eyes were filled with shock.

"Fortunately, he is the referee, not the opponent." Kui Ge took a deep breath, suppressing the shock in his chest.

"..."

Similar sounds would be heard in the hall from time to time.

Outside of the arena, however, there was a hubbub of thunder. Huge waves of sound reverberated back and forth in the open ground in a deafening manner.

At this time, Tang Huan had already slowly flipped his palm, and the black beads quickly fell on the table.

"Everyone, have you seen it clearly?"

Tang Huan retracted the flame in his palm, and his voice resounded once again, "Similarly, in the time it takes for an incense stick to burn, you were able to tie up six pearls, so this second round of 'Weapon Refining Sacred Assembly' can be considered as passed."

Hearing that, many of the Weapon Refiner in the hall heaved a sigh of relief, but there were still many with bitter and gloomy expressions.

Compared to the forty-nine beads that Tang Huan had strung together, the six beads were indeed much fewer.

However, to many middle stage Weapon Refiner, this was still a difficult task to accomplish. This was because there were some Weapon Refiner that were unable to condense their flames to the extent that they could pass through the holes in the bead, much less string them together. Of course, this was also the crux of the exam.

"Clap clap!"

On the high platform, Tang Huan was already clapping his hands.

Many young men and women who had been waiting at the side of the platform walked back into the hall. All of them were holding trays in their hands. Before long, a tray with six black beads was placed on the jade tables in front of the remaining young Weapon Refiner.

"Everyone, you can begin!"

As soon as Tang Huan gave the order, the young Weapon Refiner moved at almost the same time. A ball of fire consecutively shot out from their palms, yet Tang Huan had already returned back to his seat.

No one could enter the arena to supervise. Under the gazes of a single Weapon Refining Grand Master, nine Weapon Refining Master s, no one was able to pass through.

"Tang Huan, honestly, how many beads can you string like you just now?" Qing Ye leaned her head close to the side of Tang Huan's neck, and her pair of clear and shining beautiful eyes were filled with an unconcealable curiosity.

"If I can still wear forty-nine crystals, would you want to beat me up?" Tang Huan joked.

"You ... You're right, I really want to beat you up! " Qing Ye immediately calmed down, clenched his fist and waved it in front of Tang Huan, then said while gnashing his teeth.

"Just kidding. Those forty-nine pellets are already my limit."

All along, Qing Ye had given Tang Huan an impression that he was similar to the intellectual white-collars from his previous life. Now that he saw her fierce expression for the first time, Tang Huan immediately felt that it was interesting. But now was not the time to laugh, Tang Huan's expression became serious and retracted his smile.
