

W. Master 531

Chapter 531 - Hope

Inside the Sword Crafting Valley's "Forging God Cave", amongst the monolith inscriptions left behind by the Glory Emperor, the first sentence said was "In the year 377, an object from outer space flew over and fell into the Infernal domain's desert".

It had been three years, seven years, and more than a hundred and twenty years since then.

This "Infernal domain" had suddenly appeared more than a hundred years ago. It was precisely because of the appearance of the "Infernal domain" that the term "Infernal Desert" had appeared.

Right now, the spatial artifact that Tang Huan, Feng Ming, and Yu Feiyan were in, could very possibly be a type of Space Aircraft. The "Sumeru Magical Ring" that Tang Huan's mother had left behind, as well as the "Space Aircraft" that she had left behind, all came from the even broader "Forging God Great World".

The Space Aircraft in the Demon Area should have come from that place as well, which coincided with the words "something from outer space" written on the tablet.

The more Tang Huan thought about it, the more he felt that his guess was correct.

One hundred and twenty years ago, a certain expert of Forging God Great World, due to certain reasons, urged his Space Aircraft to move, passing through the endless "Turbid Sea Area". When he came to this small world, some unforeseen event occurred, causing his Space Aircraft to fall into this desert.

When the Space Aircraft fell, the expert inside also fell, and because of some reasons, the aircraft produced an incomparably tyrannical suction force, enveloping all of the oasis it resided in and turning it into a devil domain that changed the complexions of future generations.

However, at that time, this strange area that had suddenly appeared had attracted quite a number of experts to explore this place.

Human Clan Ranker Shanhe, who had not yet established the "Glory Empire", had also entered this place and found the "Divine Weapon Catalogue" within the Space Aircraft.

If it was really like that, then it meant that the Space Aircraft had a way out. After all, the mountains and rivers had made it out alive.

As Tang Huan thought about it, his brows unconsciously revealed a hint of happiness. In the next moment, his eyes couldn't help but light up, because if this place was what the Glory Sacred Emperor called "something from outer space", then it was very likely that Shan Shan was inside this Space Aircraft as well.

One had to know, the reason why Shan Shan came to the "Demon Area Desert" was to find the outer space item that mountains and rivers had once obtained from the "Divine Weapon Catalogue".

Thinking about that, Tang Huan's gaze subconsciously fell on the wall at the side.

Out of the four passages, he and Feng Ming had already gone to two of them. Yu Feiyan had went once, so if Shan Shan was around, he would definitely be in the room at the back of the passageway.

Of course, it was also possible for Shan Shan to leave successfully after obtaining what he wanted. After all, so much time had passed.

"An object from outer space?"

Feng Ming was startled at first, but soon realized that on the way to the "Forgotten City", she had heard Tang Huan talking about the Space Aircraft before. All the Space Aircraft that appeared in this small world definitely originated from the "Forging God Great World".

Compared to this small world, "Forging God Great World" was indeed "Outer World".

"It is indeed an object from beyond the heavens."

Yu Feiyan also smiled sweetly, "So there must be a way to get out of this place. Now we'll just have to see if we can find it."

Hearing her words, Tang Huan immediately understood in his heart, she also knew the origin of the "Divine Weapon Catalogue".

In this small world, there were many people who knew of the Demon Area, but the "Divine Weapon Catalogue" of the Sacred Royal Mountain and the rivers that they knew of came from this Space Aircraft. However, Yu Feiyan was the granddaughter of the Divine Weapon Pavilion, so it wasn't surprising for her to know about this.

Moreover, what she had said just now had actually verified Tang Huan's judgement.

"Why is that?" Feng Ming asked doubtfully.

"It's because the Sacred Emperor's Mountain and River had once left this place." Tang Huan smiled slightly, he did not hide the truth from her.

"Huh?"

Feng Ming was startled, and subconsciously wanted to continue asking, but he saw that Tang Huan and Yu Feiyan had already walked towards the last wall at the same time.

"Huff ..."

The small wall began to fluctuate rapidly as Tang Huan, Yu Feiyan and Feng Ming entered the next room.

This room was quite spacious. Aside from a few praying mats, there was nothing else.

Tang Huan only took a quick glance at the walls and walked towards them, his heart was filled with anticipation, the judgement just now had given him a huge boost in his confidence, since he had the previous person's success rate. Of course, if Shan Shan was still here, that would be even better.

A moment later, just like before, Tang Huan moved directly towards the undulating wall.

"Bam!"

But in the next moment, a scene that stunned everyone appeared. Not only was Tang Huan not trapped by the wall like before, the moment he touched the wall, he was rebounded by a strong force. Caught off guard, he took a few steps back to stabilize his body.

"The passageway has been sealed?" Not only was Tang Huan suspicious, Feng Ming and Yu Feiyan also looked at each other with faces full of astonishment.

"Let me try."

Yu Feiyan took a big step forward, the halberd in his hands released a bright light, and instantly shot forth with a speed that the naked eye could not catch.

In a split-second, the halberd fell onto the wall.

A deafening sound reverberated through the room. The moment the small piece of wall collided with the wall, the sound became even louder.

"I really can't get in."

Tang Huan frowned slightly. The space around Yu Feiyan had been sealed was obviously the doing of the Space Aircraft's artifact spirit. Since this passage had been sealed, it was likely no exception.

After devouring a large amount of Spiritual Fire's power, the artifact spirit seemed to have lost all of its strength, so it released the seal on Yu Feiyan's room. But the passageway to the room inside was still sealed, could it be that Shan Shan was still in the room?

That must be the case. Otherwise, there was no need for that artifact spirit to do anything unnecessary.

Instantly, a look of pleasant surprise appeared on Tang Huan's face. "Since you want to block me here, then I'll give you more Spiritual Fire power so you can have a taste."

"Hu!"

In between mind instructs (in a second), Tang Huan had already stepped forward, and his palms, enveloped in flames, were already pressed towards the wall.

Soon after, Feng Ming stood beside Tang Huan.

"Chi!" Her red lips slightly opened as extremely condensed flames spewed out from her mouth. It was as if a thread of red light had also landed on the wall, unceasingly seeping in.

"Me too!"

Seeing that, Yu Feiyan laughed out loud, the halberd aimed at his shoulder, he slightly raised his left arm, the center of his palm was already covered in flames. In the blink of an eye, her palm was already in close contact with the wall.

Even though she had never fused with the Spiritual Fire, her True Fire's tyranny far surpassed that of ordinary Weapon Refining Grand Master's. After condensing the "Ying Ma spirit body", the True Fire had increased yet again, and the heat emitted from her flame now was no longer inferior to that of Tang Huan's "Nirvana Sacred Fire".

Of course, if Tang Huan used the other two Spiritual Fire s to help her, her own True Fire would be inferior.

Chapter 532 - Three Women per Play

Tang Huan, Feng Ming, and Yu Feiyan joined forces. Three types of incomparable heat waves continuously seeped in without any pause.

Tang Huan did not know how the artifact spirit had sealed the passage, nor did he need to know.

Since that spiritual object was the artifact spirit of the Space Aircraft, it meant that it was everywhere. No matter where the energy was channeled into, in the end, it would enter the artifact spirit's body ...

Tang Huan only needed to confirm this point.

If it was only an ordinary Genuine Qi, no matter how much it was transferred, the artifact spirit would still keep it all. But right now, the powers the three of them were channeling contained a fierce heat, of which Tang Huan was the most powerful. If he absorbed too much of this energy, even if he didn't die from it, he would still be incinerated.

Furthermore, the artifact spirit had recently consumed a large amount of the power of the Spiritual Fire.

Time flew. This time, in at most the time of a few dozen breaths, the wall already started to release a red light, and the blazing feeling spread out from the wall. In the next moment, Tang Huan and Yu Feiyan's hand that was wrapped in flames actually started to sink into the wall bit by bit.

"It worked."

Yu Feiyan beamed, and his unique voice resonated in the room.

A faint smile flashed across Tang Huan's eyes as he inserted his hand into the wall. This meant that the seal placed on the wall by the artifact spirit was gradually loosening. With the three of them working together to channel energy, the artifact spirit would probably only be able to endure for a few dozen more breaths of time before retreating.

However, what made Tang Huan a little surprised was that the artifact spirit's support time was even shorter than what he had imagined.

Upon discovering that something was amiss, the artifact spirit immediately stopped tearing itself apart. With a flick of his finger, the constantly fluctuating wall had completely turned illusory, and the resistance had completely disappeared.

"Let's go in!" Tang Huan bellowed, the flames in his palm withdrew, and after taking a step forward, his body immediately merged with the wall.

"Hu!"

In the blink of an eye, Tang Huan had already entered a new space. The brilliant white light in front of his eyes quickly disappeared, and his field of vision returned to normal once more.

Tang Huan squinted his eyes, as his gaze started to scan the surroundings impatiently.

Indeed, just as Tang Huan had guessed before, this room was also in a triangular shape. In the center of the room, there was also a round table, and in the opposite corner of the room, there was a purple round cover.

There were two people who could clearly see their faces. One was a stooped old man in a green robe with wrinkles all over his face, and the other was an old woman with white hair and chicken skin.

They were none other than Lu Chen and Grandma Zhang.

At this moment, the two of them had their eyes closed, and they were as still as statues. Among them, Lu Chen held a purple ball the size of a walnut in his hand.

Other than them, there was another person who had his back facing Tang Huan.

That person was slim and wore a black robe, and her long hair flowed behind her head like a waterfall. Although it was only her back, but with a single glance, Tang Huan was able to determine her identity.

"Shan Shan!"

Tang Huan could not help but cry out, her forehead filled with joy.

At almost the same time, Lu Chen and Grandma Zhang opened their eyes. When they saw that the one standing opposite them was Tang Huan, surprise filled their eyes.

Immediately after, the black figure turned around, revealing Shan Shan's extremely beautiful and charming face.

"Tang Huan?"

Shan Shan's beautiful eyes lit up, and she immediately sprung into the air, her beautiful face revealing unconcealable joy, "Why did you also come here ...". Before she could finish her sentence, Shan Shan's beautiful face darkened. He stared coldly at Yu Feiyan, who had just appeared beside Tang Huan, "You actually came too!"

"This Space Aircraft is not yours either. If you can come, why can't I come?" Yu Feiyan also sneered.

"..."

Seeing that, Tang Huan could not help but rub his forehead, smiling bitterly.

He knew that after Shan Shan and Yu Feiyan met, they would definitely clash like this. What he was most worried about was the two of them fighting in this place.

"Hu!" Just as Tang Huan was thinking about how to advise the two of them, Feng Ming also entered the room.

"Tang Huan, who is she?" Shan Shan slightly frowned as her gaze landed on Feng Ming's body. She had some suspicions, that the red clothed female actually gave her a feeling of familiarity.

"You've seen her." Tang Huan's eyes slightly moved, and immediately said with a smile.

"Oh?" As expected, Shan Shan's attention shifted over, the doubt in his eyes becoming even stronger.

"My name is Feng Ming." Feng Ming laughed, "Miss Shan Shan, how have you been?"

"Feng Ming?"

Shan Shan was startled, then subconsciously recalled the girl that Tang Huan had left in the inn after entering the Heaven's Spirit Secret Realm. The girl in red in front of him seemed to have a shadow of the girl between her brows, could it be that she was the girl's mother or sister, but they had the same name? Hearing what Feng Ming had said just now, it was obvious that he had seen her before.

"I am the child called 'Feng Ming' back then in Heavenly Forging City."

Seeing her like this, a bad premonition surfaced in the bottom of Tang Huan's heart, but before he could even think about it, Feng Ming smiled like a flower and said, "However, there is another name that Miss Shan Shan might be more familiar with, and that is 'Flamewing Phoenix King'."

"What?"

Behind her, Lu Chen and the Grandma Zhang's eyes were also filled with shock, especially Lu Chen. Back then, when he was entrusted by Tang Huan to look after Xiao Budian and Feng Ming, they had met countless times, but he had never thought that she would actually be one of the eight great Demon King s, the "Flamewing Phoenix King".

On the other hand, Yu Feiyan was still rather calm, as if he had known this would happen.

"In the past, I lost a lot of strength, so I became that kind of child. Now that I have been reborn and have fully recovered my strength, I naturally grew up along with him. However, the current Feng Ming is no longer one of the eight great Demon King s, he is only a maid by Tang Huan's side. " Feng Ming said while beaming.

"A maid?"

Shan Shan woke up very quickly, but when he heard these two words, a trace of anger flashed in his eyes. He looked at Tang Huan and said, "I didn't expect that in such a short period of time, you would have such a beautiful and powerful maid. Tang Huan, congratulations!" When the last rune popped out from his mouth, it seemed to be gnashing his teeth.

Tang Huan was slightly taken aback. Her tone of voice was very wrong, could it be that she had misunderstood something?

But just when Tang Huan wanted to explain, Yu Feiyan suddenly rolled her eyes, she raised her left arm and wrapped it around Tang Huan's neck, and laughed: "Junior brother Tang Huan, I forgot to tell you one thing, after we leave this damned place, I will bring you to Two Realms Plain to meet my grandfather, I have long wanted to see you, it's just that I never had the chance to." As he finished speaking, a mischievous glint flashed in the depths of Yu Feiyan's eyes, while her full and straight breasts were already pressed tightly against Tang Huan's arms.

Chapter 533 - Childish Games

Hearing Yu Feiyan's words and then seeing her actions, Shan Shan's face froze: "Yu Feiyan, you really don't know shame."

Regarding Shan Shan's rebuke, Yu Feiyan turned a deaf ear to it. He only looked around and smiled merrily at Tang Huan: "Junior Brother Tang Huan, what do you think?"

Tang Huan lightly nodded, and said slowly: "Pavilion Master, he is an old man, I have admired him for a long time. If I have the chance to visit him, I would naturally wish for it.

After Shan Shan heard this, his face darkened.

"But what?" Yu Feiyan asked in astonishment.

"This is a matter for the future. We can talk about it after we leave." Tang Huan quietly escaped from Yu Feiyan's arms.

"As for now ..."

Tang Huan's voice paused slightly, his gaze swept past Yu Feiyan and Shan Shan, "The most important thing right now is to think of a way to get out of here. I have no interest in playing this kind of boring and childish game with you guys. If you guys still want to continue, why don't you go to another room and quarrel it out?"

With that said, Tang Huan could no longer be bothered with anything else, and quickly walked forward.

He finally understood that Feng Ming purposely said that she was his maid in front of Shan Shan, with the intention of angering Shan Shan, so that he could stop her.

As for the reason why Yu Feiyan invited him to see her grandfather in front of Shan Shan, was also to piss Shan Shan off, and to use Yu Feiyan as a prop.

Regarding Shan Shan, Tang Huan was indeed rather moved.

However, ever since he went to Feng Ming Mountain and she returned to the Heavenly Forging City, the two of them had only seen each other three times. The Sky Spirit Realm happened once, the Luo Fu World did it again, and here, they had too few opportunities to get along with each other.

However, from what she said just now, it seemed as if she was a bit sour. Could it be that she was interested in him as well?

Tang Huan scrunched his face, but his heart was filled with wild thoughts.

"Huh?"

Shan Shan and Yu Feiyan were both dumbstruck, but Feng Ming couldn't help but laugh, and immediately followed along. As for Lu Chen and the Grandma Zhang, they were dumbfounded upon hearing this. However, they were not too worried as to why Shan Shan and Yu Feiyan had such a tit-for-tat relationship.

"Elder Lu!" Grandma Zhang! "

After a while, Tang Huan bowed deeply to Lu Chen and Grandma Zhang under the dumbfounded gazes of Shan Shan. His tensed face relaxed and revealed a slight smile.

At this time, Lu Chen and Grandma Zhang had already stood up, and the round ball in Lu Chen's palm dimmed down quietly. The purple round cover that covered him, Grandma Zhang and Shan Shan disappeared without a trace at the same time, as if it had never appeared.

"Young Master need not be so courteous."

Lu Chen and Grandma Zhang hurriedly supported Tang Huan, their expressions filled with shock and admiration.

The Grandma Zhang was even more so, only seeing Tang Huan again after the Furious Waves City had parted ways. At that time, Tang Huan's strength was low, and now, Tang Huan had probably stepped into the Stage Nine Martial Saint Realm. It was just that in the short span of two years, her cultivation had changed so much that she felt like she had been here for a lifetime.

"Indeed, he is childish and bored."

Shan Shan finally regained her senses, she glanced at Yu Feiyan, a mocking smile forming on her lips, after she finished speaking, she turned around, no longer paying any attention to Yu Feiyan.

How could she not see through the intentions of Feng Ming and Yu Feiyan? She was just a little angry, especially when she saw Yu Feiyan's actions, because even though she knew that her anger would go straight to the heart of the person she was angry at, at that moment, she couldn't suppress the anger in her heart at all.

Fortunately, Tang Huan's words had allowed her to calm down. Only when she thought back to her reaction just now, the bottom of her heart felt somewhat embarrassed and annoyed.

"Bored and childish?"

Yu Feiyan wasn't angry at all, he pinched his delicate and sharp chin and muttered with a smile, "Why does this old lady feel that it's so interesting? After they go out, they would go with Junior Brother Tang Huan to the 'Two Realms Plain' to have fun. Sigh, now that I'm at Stage Nine Martial Saint, Weapon Refining Grand Master, and will have to continue cultivating, this old lady does not have much of a goal anymore. It's time to find someone to marry and create a few villains to play with. "

Shan Shan originally had no intention to bother with Yu Feiyan anymore, but after hearing her words, her delicate body trembled slightly.

After enduring for a while, she was finally able to resist the strong impulse to turn around and scold her. She understood in her heart that if she were to continue shouting and cursing, she would probably fall into Yu Feiyan's trap. Since young, she had never once fought with Yu Feiyan.

Tang Huan rolled her eyes as she felt even more speechless in her heart. Yu Feiyan had a very carefree personality, so in order to anger Shan Shan, she really dared to say anything.

He secretly shook his head and decided not to get involved with Shan Shan.

After a while, Tang Huan completely refocused his mind, he then realised that there were a few pages on the ground that were as thin as a cicada's wing, but were crystal clear.

The length and width of each page were about two feet, but it was unknown what material was used to make them. The surface was smooth and bright, but countless lines and lines were hidden inside. Those lines were densely packed like a spider's web. At a glance, they seemed to have no pattern to them.

"Elder Lu, what are these?" Just now, before he entered, Shan Shan seemed to have been studying these four pages.

"This is a Spirit Map."

Hearing this, Lu Chen couldn't help but laugh, "There are four round tables within the Space Aircraft. One of the round tables will be for the Spirit Map. The method to leave the Space Aircraft is hidden within the Spirit Map. My family's young miss is not a Weapon Refiner, she had to spend many days meditating before she finally understood one of the Spirit Map s. Young Noble came at the right time, with your help, the time we have to leave this Space Aircraft will be greatly shortened. "

Finished speaking, Lu Chen looked at Tang Huan, his eyes revealing an uncontrollable look of anticipation.

For Tang Huan to be able to obtain one hundred and eight Sword Seal from the Sword Crafting Valley's "Mazy Sword Valley", his attainments in the Spirit Map could be easily imagined. If Shan Shan wanted to make all four Spirit Maps into watches, it would probably take him close to a year's time. However, if it was Tang Huan, it might even take a month or two.

"With this, things will be much easier." Tang Huan was ecstatic, he immediately sat cross-legged on the ground and picked up one of the Spirit Maps.

"When great-grandfather left this place all those years ago, he only took two things with him. One, 'Divine Weapon Catalogue,' and two, are these four Spirit Maps."

"At that time, the Space Aircraft's artifact spirit was extremely weak. Great-grandfather had only comprehended one of the Spirit Maps and already left, but now, after the artifact spirit had devoured the power of many experts and experts, it had already recovered quite a bit. It could only comprehend one of the Spirit Maps and it would not be able to leave.

"So that's how it is."

Tang Huan nodded, and his gaze landed on the Spirit Map in his hands.

Chapter 534 - Space Spirit Map

After a while, Tang Huan could not help but reveal an expression of unconcealable surprise.

This Spirit Map was very different from any Spirit Map Tang Huan had ever seen before.

In his previous life, all the Spirit Maps that he had seen before and the Spirit Map that he had drawn while forging weapons were all flat maps. However, the Spirit Map that he was holding in his hand was a cube map, and the difference was that it was rectangular and cuboid.

"Spatial Spirit Map?"

Tang Huan muttered.

The Space Aircraft could only be refined by a Tian Clan Mage who was proficient in spatial and fire magic. Such a device was different from a weapon. It had its own small space. When refining such tools, it was reasonable for the Spirit Map to be different from the others.

However, this kind of Spirit Map was extremely strange. Tang Huan's mind was already completely immersed within it, and he began to deduce this piece of Spirit Map.

"Spatial Spirit Map?"

Hearing these words, Yu Feiyan's beautiful eyes lit up. In a flash of red, her delicate body had already appeared beside Shan Shan. After that, she squatted down and grabbed at the map on the ground.

It was a pity that Shan Shan was even faster and already caught the other three Spirit Maps with a light wave of her jade hand.

"Hey, hey, Shan Shan, what are you doing?" Yu Feiyan could not help but shout out.

"I'm just putting my Spirit Map away. What does it have to do with you?" Shan Shan's beautiful eyes revealed a ridiculing smile.

"You ... Shan Shan, there's no need to be so stingy, right? Yu Feiyan laughed dryly.

"You are wrong, I am such a petty person." Shan Shan sneered, rolled up the three Spirit Map and stuffed them into his sleeves.

"..."

Yu Feiyan was speechless.

Looking at Shan Shan's sleeves, she felt as if she was scratching her head. For a Weapon Refining Grand Master like her, seeing this kind of spatial Spirit Map that she had never seen before was like seeing a pervert seeing a naked exceptional beauty. She wanted to immediately pounce over and enjoy the view.

Of course, she could also snatch the Spirit Map from Tang Huan's hands. But looking at Tang Huan's current state, it was obvious that he was focusing all of his attention on the Spirit Map, with no other intentions in his heart. If he were to snatch the Spirit Map, it would definitely interrupt Tang Huan's deduction, and she would not be able to do such a thing.

Yu Feiyan rolled her beautiful eyes, then laughed: "Shan Shan, more people means more power. I am a Weapon Refining Grand Master, so if Tang Huan and I study this spatial Spirit Map together, we will definitely be able to get out faster."

"Weapon Refining Grand Master?"

Shan Shan raised her eyebrows and looked at Yu Feiyan mockingly, "You, this Weapon Refining Grand Master, can even be compared on the same level as Tang Huan? When Tang Huan was still a middle stage Weapon Refiner, he could obtain one hundred and eight Sword Seal from the "Mazy Sword Valley". When Tang Huan was still at Martial Master, he had already successfully fused with the Spiritual Fire. The high grade weapons that Tang Huan forge can compare to high grade Heavenly Grade Armament, can you do it? "

"Err ..."

Yu Feiyan was speechless.

Seeing her expression, Shan Shan felt as if he had drank a cup of ice water from the heavens, feeling refreshed from head to toe. Then, a faint smile surfaced on Shan Shan's pretty face: "Since you're not even as good as him, then what's the difference between you? To meditate on a Spirit Map, Tang Huan alone would suffice. If you still have a bit of self-awareness, you should stay by the side and not get in the way. "

"What?"

Yu Feiyan's chest rose rapidly as her almond-shaped eyes widened roundly. Her beautiful oval face was filled with anger, and her two rows of jade-like teeth nearly shattered into pieces.

It was true that she had never entered the "Mazy Sword Valley" before, had never fused with the Spiritual Fire, and the quality of the weapons she forged did not greatly surpass that of ordinary people. However, this did not mean that her level was low, but in Shan Shan's eyes, her Tools Method Attainments was simply not even worth mentioning.

Seeing that, Shan Shan felt even more pleased in his chest, he endured it, but did not laugh out loud, but the smile on his face became wider and wider.

However, just like the Shan Shan from before, Yu Feiyan endured and endured until she managed to suppress her anger. Following that, a smile actually appeared on her face. "Shan Shan, do you think that after comprehending the Spirit Map with Junior Brother Tang Huan's ability, you can remember all of them?"

"Of course." Shan Shan frowned, she didn't quite understand the meaning of her words.

"That's good."

"After we exit the Space Aircraft, Junior Brother Tang Huan will be coming with me to 'Two Realms Plain'. At that time, I will be asking Junior Brother Tang Huan to draw the four Spirit Maps.

"Haha, I'm really a genius. Why didn't I think of that idea just now?"

As he finished speaking, Yu Feiyan couldn't help but burst out laughing. The expression in his eyes when he looked at Tang Huan became dubious, "However, such a long journey like this, it's only a boring one to study Spirit Maps. I have to study them in detail in other than that, perhaps by the time I and Junior Brother Tang Huan return to the Glory Continent, there would already be a little girl by my side ... Maybe two, maybe even three? "

Yu Feiyan's gaze shifted as he looked at Grandma Zhang, "Grandma Zhang, is there any more possibilities?"

"..."

Yu Feiyan and Shan Shan had an extremely good relationship when they were young, but when they were ten years old, they actually started to get along with each other because of a small matter that made it difficult to laugh or cry. For the next ten years, the two of them continued to dislike each other.

"Feng Ming, what do you think?" Yu Feiyan was unconcerned, in a blink of an eye he looked at Feng Ming.

"In the Demon Clan, there was once an increase of six dozens of years ago. As for the five, they should have appeared even more often." Feng Ming cleared his throat and said seriously.

"Great, I..."

"Enough!"

Yu Feiyan beamed with joy, but before she finished speaking, Shan Shan had already let out a low growl, his expression as overcast as water. He said while nearly gnashing his teeth, "Yu Feiyan, didn't you want to see the 'spatial Spirit Map'? Take it! However, I hope you can keep that mouth of yours in check next. "

With that, a Spirit Map slipped out of Shan Shan's body and flew towards him.

"As you wish!" From now on, I won't say a word! " Yu Feiyan caught the Spirit Map, and her eyes narrowed into crescent moons. But after a moment, she unconsciously stopped smiling, her expression became solemn, and became immersed into the Spirit Map like Tang Huan.

Seeing this, Lu Chen and Grandma Zhang heaved a sigh of relief. They did not continue the fight.

Feng Ming looked at Yu Feiyan who was holding onto spatial Spirit Map with motionless hands, and then looked at Shan Shan who was extremely angry, and felt that it was really funny, but after laughing it off, she somehow felt a little helpless. After a long while, she finally calmed down and sat down quietly with her legs crossed.

Chapter 535 - Heavenly Domain

The room finally quieted down.

The Space Aircraft's spirit also did not make any other movements. Presumably, it also knew that even if it took action, it would not be able to gain the slightest bit of advantage.

Time trickled by, Tang Huan and Yu Feiyan were completely focused on the battle.

Shan Shan, Feng Ming, Lu Chen and the Grandma Zhang did not disturb them. Shan Shan even took out the other two spatial Spirit Map s and placed them quietly in front of Tang Huan.

After who knows how long, Tang Huan finally put down the Spirit Map in his hands and grabbed the second one in front of him.

After a long while, Yu Feiyan also woke up from his stupor, and placed the Spirit Map in his hand in front of Tang Huan.

The spatial Spirit Map was constantly being picked up and put down. Unknowingly, the one in Tang Huan's hands was already the fourth one.

"Hu!"

Shan Shan woke up from his cultivation and after exhaling a light breath, his gaze landed on Tang Huan. Seeing that his eyes were closed and motionless, he could not help but ask in a low voice:

"Grandma Zhang, how many days have passed?"

"Miss, it's been twenty days."

Grandma Zhang was currently sitting cross-legged beside Shan Shan. His voice slightly paused, and he added: "What Young Master is holding, is already the fourth Spirit Map. For the first three Spirit Map, Young Master only took five days each, and with this, the fourth one will be completed soon."

While he was speaking, Grandma Zhang's wrinkled face was filled with smiles.

's speed of deducing and comprehending Spirit Map was simply too fast. In just a short span of twenty days, it had almost come to an end.

"Alright."

Shan Shan could not help but laugh. Although she was talented, she was not a Weapon Refiner, even with a part of the explanation from her great-grandfather, it took her a long time to understand the first Spirit Map. If she was the only one, it would take her at least a year to get out.

And now, with Tang Huan's help, he became much faster, and perhaps, he could even exit very quickly.

"This spatial Spirit Map is amazing indeed."

The moment Shan Shan's words fell, Tang Huan had already opened his eyes and put down the Spirit Map in his hands. His eyes could not help but reveal an expression of surprise.

The four Spirit Maps were not independent, but were able to join together and form a perfect whole.

At this moment, in Tang Huan's mind, the four Spirit Maps had already become models formed from countless lines. The two ends of the models were sharp and thin like flying shuttles, while the interior of the models were separated into many spaces, the shapes inside and outside were exactly the same as the Space Aircraft.

After comprehending the four Spirit Maps, Tang Huan had a pretty good understanding of them.

There was a round table in each of the four rooms on the left and right of the aircraft. The four round tables were the key to activating the aircraft, and the one in the room was the key. It was the central crux of the entire Space Aircraft, and by fusing the mind with it, one could become the owner of the aircraft.

Then, a certain gem that contained a strong power was placed into a groove on the four round tables. The gem would then be able to control the aircraft to absorb energy and fly in the air.

However, this kind of aircraft, perhaps not just anyone could use it.

On each of the four round tables, there were six grooves. This meant that in order to activate the aircraft, there had to be 24 gems placed inside at the same time.

According to the Spirit Map's judgement, even if there were 24 gems that looked like Saint rank demon essence stones, they wouldn't be able to last for even a quarter of an hour.

"Tang Huan, how is it?" Shan Shan could not help but ask.

"It's about time."

Tang Huan nodded his head, and then said with regret: "What a pity, although this Space Aircraft is completely undamaged, it is not something we can activate, even if we can use it, it is not something we can use now. This thing, in the Forging God Great World's opinion, is a very high grade item. "

Hearing this, Shan Shan unconsciously smiled, and said: "The owner of this 'Space Aircraft', being able to obtain such a strange item like 'Divine Weapon Catalogue', naturally, it is not far off. The notebook that great-grandfather had left behind had mentioned this Space Aircraft, saying that it already had a 'Heavenly Domain', and that to activate it, one would need to be a 'Heavenly Domain-level Expert'. And in our world, the strongest people are only Stage Nine. "

"Heavenly Domain?" Tang Huan's heart skipped a beat, "Above the Stage Nine, is the Heavenly Domain?"

"Exactly."

Shan Shan nodded and smiled, "The Stage Nine is 'Force'. One more step and that 'Force' will transform into 'Heavenly Domain', and this 'Space Aircraft' will possess an extremely powerful 'Heavenly Domain'. The oasis outside that is called 'Demon Area' will be completely covered by its 'Heavenly Domain'."

"As a result, everyone who enters the oasis will be sucked into the Space Aircraft."

As he spoke till here, a hint of relief unconsciously appeared on Shan Shan's face. "Fortunately, the Space Aircraft's artifact spirit isn't strong enough, so it can only release 'Heavenly Domain' to bring in the people that enter the oasis. It can't leave this place. If it was able to control this Space Aircraft to fly alone, all of the Stage Nine Rankers in our world would probably be captured by it and swallowed cleanly. "

Tang Huan suddenly understood, the Demon Area was actually formed like this.

"Let's not worry about that for now."

Shan Shan said with a smile that was like flowers, "Tang Huan, have you found a way to leave this Space Aircraft?" Hearing her words, other than Yu Feiyan who was still analyzing the Spirit Map with his eyes closed, Lu Chen, Grandma Zhang and even Feng Ming who had just gotten out of his cultivation state all turned to look at Tang Huan.

"Of course."

Tang Huan smiled slightly and said slowly, "The reason His Sacred Emperor Majesty was able to leave this Space Aircraft back then was because he had caused the absorption force of this Space Aircraft, which also means the 'Heavenly Domain' that you spoke about earlier, to temporarily disappear. At that time, the artifact spirit was weak, and the His Sacred Emperor Majesty only needed to activate the round altar that was the center of the round altar, but now, the artifact spirit had become extremely strong, to make the aircraft's 'Heavenly Domain' disappear, you would need to activate all four of the round platforms at the same time, and that would require four Stage Nine Rankers. "

"Four..."

Shan Shan's expression became happy, "You, me, Feng Ming, add more..."

Her beautiful eyes subconsciously turned to look at Yu Feiyan, but Shan Shan's voice suddenly stopped, and her face became ugly. Four Stage Nine Rankers had to work together to activate the round table to leave, and right now inside the Space Aircraft, including Yu Feiyan, there were exactly four people.

"Including me! What a coincidence! "

Yu Feiyan quietly opened his eyes, laid down the Spirit Map, and gave a weird smile at Shan Shan, "Looks like this old lady can still play a role ... " After saying that, Yu Feiyan seemed to have thought of something, "Aiya, I forgot. I can't speak now."

Chapter 536 - Opening of the passageway

Just as Shan Shan was about to retort, Tang Huan suddenly laughed bitterly with a headache: "If the two of you still haven't made enough noise, then why don't you continue? I have enough 'Circular Fusion Pills' with me, so there's no harm in going out a few days later. I can also take this opportunity to carefully study these spatial Spirit Map."

After comprehending all four of the spatial spirit palaces, Tang Huan had already faintly touched upon the opportunity to comprehend spatial magic.

At this time, what he wanted to do the most was to find a quiet place and ponder over the spatial Spirit Map. Then, he would take out the grimoire that Xing Meng had gifted him, and carefully study the spatial magic recorded within.

This undamaged Space Aircraft could not be used, but after comprehending spatial magic, it was able to repair the Space Aircraft left behind by Luoyu and the rest. Although due to the lack of vital ingredients, the item still did not have the ability to cross the "Turbid Sea Area" even after being repaired, being able to motivate Space Aircraft to go around the "Turbid Sea Area" region was still an incomparably exciting thing.

"Haha, I'm joking with Shan Shan. Junior brother Tang Huan, tell me, what should we do?" Yu Feiyan laughed dryly twice, and said awkwardly.

"Humph!" Shan Shan snorted from the nose and did not say another word.

"Alright then."

Tang Huan took a light breath and said seriously, "If you want to activate these four round tables, you can't just directly inject power into them. You must follow the routes of the Spirit Map and send some of your power in to make it work. Four round tables, I will be in charge of this one. Feng Ming will be in charge of the right side, Senior Sister Feiyan will be in charge of the left side and Shan Shan will be in charge of the back. "

As they spoke, Tang Huan had already moved the Spirit Map in front of Yu Feiyan to where she was now, and then he gave the other two Spirit Map to her and Shan Shan respectively.

"Now, let me talk about Shan Shan's Spirit Map."

Tang Huan pointed at the spatial Spirit Map as she spoke slowly, Shan Shan nodded her head from time to time. Feng Ming, Lu Chen and the Grandma Zhang did not say a word as they quietly listened to Tang Huan's explanation, while Yu Feiyan listened to Tang Huan's voice.

After nearly an hour, Tang Huan finally finished explaining the three Spirit Map s of Shan Shan, Yu Feiyan and Feng Ming.

Taking a deep breath, Tang Huan muttered: "When we attack, that artifact spirit might come out to cause trouble. Senior Sister Feiyan has a treasure capable of protecting the soul, so she will not be bewitched by the artifact spirit. Shan Shan ... "

"I also have a soul-protecting treasure." Shan Shan continued.

Tang Huan was overjoyed, "Alright, since you and Senior Sister Feiyan both have treasures protecting them, then let's invite Elder Lu, Grandma Zhang and Feng Ming to head to the room on the right of the aircraft later."

The purple ball in Lu Chen's hand must also be a treasure used to protect one's soul. With Lu Chen and Grandma Zhang following them, there was no need to worry about Feng Ming getting bewitched again.

"No problem, I'll follow your arrangements."

"Alright, let's move then."

" ... "

In order to prevent the artifact spirit from blocking the room's passageway once again, Tang Huan sent Shan Shan, Yu Feiyan, Shan Shan, Lu Chen and the Grandma Zhang all to their respective designated spots before Tang Huan returned to his own room. Then, he stood in front of the circular platform, his mind gradually calming down.

This round platform was the center of the entire Space Aircraft, linked to the other three round tables, it carried the most complex Spirit Map, and in order to activate it, one would have to expend even more energy and mental strength. Fortunately, Tang Huan had understood the entire Spirit Map, so he did not need to worry about making mistakes.

Of course, even if something really goes wrong, it doesn't matter. After recovering his strength, he can try again.

"Whoosh!"

After a moment, a slight sound of breaking through the air could be heard. Tang Huan's body was like a stream of light, quickly circling around the round platform, and at the same time, Tang Huan's right index and middle finger, which were slightly raised, landed on the stage.

"Chi!"

At the same time, an extremely condensed and powerful Genuine Qi overflowed from his fingertips and penetrated into the round stage. It was as if it was a strand of silk, as though it was endless.

Time flew by like a shuttle, but Tang Huan's movements became faster and faster.

A series of afterimages dragged out, and in the span of a dozen breaths, the round platform seemed to be completely surrounded by Tang Huan's silhouettes.

"Huh?"

A soft cry suddenly sounded.

However, Tang Huan's movements were still as swift as lightning, and didn't pause in the slightest. In that instant earlier, he actually faintly felt as if he was being watched. After a moment, Tang Huan understood that the person spying on him was the Space Aircraft's spirit artifact.

With the strength of his soul, he wouldn't be bewitched by the artifact spirit. Yu Feiyan, Shan Shan and Feng Ming were also the same. In a situation where this method failed, the artifact spirit could only block the passageway, but there was no need for them to leave the room.

It was obvious that the Artifact Spirit had no other choice but to watch as Tang Huan and the others activated the four round tables.

After a long while, threads of white light finally blossomed from the round table. As time passed, the white light also became denser and denser.

In the practical operation on the round platform, Tang Huan's comprehension of spatial Spirit Map deepened. Following the drawing on the tip of his finger, the countless crisscrossing lines in Tang Huan's mind seemed to have become spiritual objects with life, the models formed from the interweaving lines also seemed to be changing little by little.

This kind of wondrous feeling, was impossible to feel just by looking at the spatial Spirit Map.

Roughly a quarter of an hour later, the room was filled with an intense ringing sound.

In the next moment, Tang Huan felt as if the entire space of the aircraft was trembling slightly. A relaxed smile involuntarily appeared on his face, and he suddenly retracted his finger, leaving the circular platform. Immediately after, Tang Huan shot towards the energy channels on the walls.

After passing through two walls consecutively, Tang Huan had already reached the center of the aircraft.

Shan Shan's body was wrapped in a black robe, and her figure seemed to arrive at the same time as Tang Huan. Before the two of them, Yu Feiyan, Feng Ming, Lu Chen and Grandma Zhang had already arrived. When all four round tables were activated, the power of the Space Aircraft's "Heavenly Domain" temporarily disappeared, and the artifact spirit had temporarily lost control of the Space Aircraft as well.

The six of them exchanged glances, and all of their gazes turned to the top.

"Hu!"

After a moment, the area within a few meters of the rooftop gradually became illusory, and ripples began to appear.

"The exit passage is open!" Shan Shan couldn't help but laugh.

"Quick, quick, everyone hurry up and leave!"

Tang Huan urged, and no one hesitated any longer. The six figures leaped up at the same time, and when their heads touched the small region, they were immediately trapped. In the blink of an eye, the six of them had already appeared on the oasis outside.

Chapter 537: Get out of the way!

Almost at the same time, the Space Aircraft also entered everyone's eyes for the first time.

The two ends were indeed sharp like flying shuttles. Their entire bodies were sparkling and translucent like jade, and they emitted a faint white luster. From the beginning to the end, they were about ten meters long, and the widest point was only five meters. Of course, the size of the inner space of the aircraft had naturally far exceeded what they could see at this moment.

Now, the white vortex formed by the Space Aircraft had disappeared without a trace, and the terrifying suction force that permeated the entire oasis had vanished as well. However, this situation was only temporary. It wouldn't be long before everything would return to normal.

"Let's go!"

Sweeping their eyes across the Space Aircraft, none of them stopped, and immediately flew out of the oasis as fast as lightning.

"Whoosh!" "Whiz ..."

The thin sound of something breaking through the air could be heard. The four Stage Nine Warriors Tang Huan, Feng Ming, Yu Feiyan and the others were all extremely fast. Lu Chen and Grandma Zhang were slightly inferior, but Tang Huan and Shan Shan each carried one of them, not causing them to fall behind at all.

Ten kilometers of space passed in the blink of an eye.

Not long after, the six rushed out of the oasis at almost the same time and stopped in front of the Gobi Desert.

Turning around to look, the sky above the oasis rippled rapidly, and one could even see it clearly with the naked eye. Within the time of one or two breaths, the ripple had spread from the center of the oasis to the edge, and then the void had quickly regained its tranquility.

At this time, the oasis looked no different from before, but everyone knew in their hearts that the "Heavenly Domain" that was born from the Space Aircraft had once again covered the entire oasis. If they entered the oasis now, they would definitely be able to feel the terrifying suction force.

"Finally out."

Shan Shan revealed a happy smile.

also chuckled. To be able to come out so quickly, the Spirit Map that Shan Shan had provided was indeed impressive, or else, Tang Huan would have to go through the four round tables to figure it out. If he were to use this method, it would probably take several times longer.

Not only had he successfully obtained the "Blue Flames Emperor Dragon's Aroma", he had also met Shan Shan and comprehended the four spatial Spirit Map that she had provided him. This allowed Tang Huan to vaguely grasp the opportunity to comprehend spatial magic.

The only regretful thing was that they were unable to capture the soul of one of the Demon Clan's eight great Demon King, "Ju Mo Sha".

The "Jiu Mo Sha" was also sucked into the Space Aircraft, but Tang Huan did not discover his whereabouts since he entered the Space Aircraft, not even Feng Ming, Yu Feiyan, Lu Chen and the Grandma Zhang saw him.

There was only one reason for such a situation, and that was that the moment he entered, he was bewitched by the Space Aircraft's artifact spirit, and was then swallowed by it. Even Feng Ming would lose his consciousness. After the strength of the "Jiu Mo Sha" suffers a huge loss, it was not surprising that it would not have any ability to resist the Weapon Spirit.

"Junior Brother Tang Huan, where do you plan to go next?"

Yu Feiyan casually raised his hand and patted Tang Huan's shoulder, and said with a smile, "If there's nothing else, why don't you follow me to 'Two Realms Plain' to visit my grandfather?" While she was speaking, she intentionally or unintentionally glanced at Shan Shan, who was beside her, with a mischievous smile on her lips.

Hearing this, Shan Shan frowned and glared at Shan Shan in anger. When her gaze landed on Tang Huan, there was actually a trace of indescribable nervousness.

"Uh, okay."

Tang Huan subconsciously nodded his head, upon hearing her words, Shan Shan's face became gloomy, he nearly bit his teeth into pieces, but after a moment, Tang Huan's tone suddenly changed, "However, I'm afraid it won't be that fast, I need to find a place to cultivate for a while."

"Humph!" Shan Shan let out a light snort, his expression becoming slightly clearer, as if he had secretly heaved a sigh of relief.

"Seclusion?"

Yu Feiyan nodded his head, and smiled: "Alright, Junior Brother Tang Huan, Senior Sister will go first, I will wait for you at the 'Two Realms Plain'."

After that, Yu Feiyan taunted Shan Shan as she tweaked her brows, carried her halberd, and turned to leave, her large strides as fast as the wind. In the time it took to snap a finger, her fiery-red figure had already disappeared from the distant sand dune.

"Shameless!" Shan Shan stared at the place where Yu Feiyan had disappeared to, and scolded angrily, but his voice was barely audible.

"Huh?"

Tang Huan retracted his gaze and looked at Shan Shan in surprise.

"What are you looking at? Tang Huan, I will also take my leave, Grandfather Lu, Grandma Zhang, let's go! "

Shan Shan unhappily shot a glance at Tang Huan, and started to float in another direction. After a while, his figure had also disappeared from everyone's line of sight.

"..."

Tang Huan laughed bitterly, Shan Shan and Yu Feiyan could really not meet face to face, upon meeting, a situation like this would definitely occur.

"Gongzi, aren't you going to say something to the little miss?" Grandma Zhang inched closer to Tang Huan's side, saying meaningfully that she and Lu Chen did not follow behind Shan Shan.

"Oh, yes, yes."

As if he had just awoken from a dream, Tang Huan's figure flashed, and immediately headed towards the direction where Shan Shan had left.

After a few hundred meters, when she saw Shan Shan again, her speed wasn't so fast. Tang Huan had already landed in front of her with a few leaps. Shan Shan was tall and slender, with a graceful figure. When the wind blew, her robes fluttered, revealing her curvaceous and curvaceous figure, making her look extremely beautiful. Even though her face was still tight and her face was frosted over, her entire body still carried a unique charm that would cause one's heart to flutter.

"What are you doing here?"

Shan Shan lightly bit her red lips, and said coldly, "Why aren't you quickly going into closed door cultivation, and then quickly coming out to meet your Senior Sister Feiyan who was waiting for you at the 'Two Realms Plain'?"

Hearing Shan Shan's words, Tang Huan was stunned for a moment, then laughed involuntarily.

"What are you laughing at?" Shan Shan was a little angry.

"Shan Shan, I suddenly realized that you were so cute when you were angry just now." Tang Huan smiled as he looked at Shan Shan.

"You ... Get out of the way! "

Hearing that, Shan Shan's face turned red, and she almost exploded in anger. She glared fiercely at Tang Huan, and seeing that he was still motionless and looking at her with a smile on his face, Shan

Shan suddenly had a guilty conscience. With a cold face, he wanted to escape from Tang Huan's side, but right when she was about to step forward, her wrist was grabbed by Tang Huan.

This turn of events was too sudden, causing Shan Shan to be stunned.

Immediately after, within Shan Shan's line of sight, Tang Huan's face got closer and closer. Before she could even react, her soft and tender red lips were tightly sealed. In the next moment, Shan Shan quivered, and her delicate body suddenly tensed up. All of the hairs on her body seemed to explode, and her pair of eyes widened until they were round.

Chapter 538 - Seclusion

[illegible]

Suddenly, a scream resounded above the desert.

Feng Ming, Lu Chen and the Grandma Zhang who were standing on the Gobi Desert outside the oasis were all shocked by his shout. It was obviously Shan Shan's voice, could it be that something had happened over there? The three of them quickly exchanged glances and subconsciously dashed towards the source of the voice.

But after rushing for only a few dozen meters, Shan Shan's figure flew over from the opposite side, and the distance between the two rapidly shortened.

"Grandfather Lu, Grandma Zhang, let's go!" Shan Shan's cheeks were flushed red, and her watery eyes shone with an unconcealable anger and embarrassment. As she spoke, her footsteps continuously flew past the three of them. By the time her voice fell, she was already tens of meters away.

"Whoosh!" "Whiz!"

Lu Chen and the Grandma Zhang looked at each other in dismay before they hurriedly chased after him, leaving only Feng Ming, whose head was filled with mist, behind. After Shan Shan, Lu Chen and Grandma Zhang disappeared into the sand dunes, Feng Ming blinked his eyes in doubt and continued forward.

Not long after, Feng Ming saw an ashen-faced Tang Huan.

"Tang Huan, what were you doing just now?" Feng Ming looked around curiously.

"Nothing..."

Tang Huan laughed dryly.

He had only kissed Shan Shan once, but what he got instead was a flurry of punches and kicks from Shan Shan's embarrassment and anger. He was too rash in doing this, there was no foreshadowing, Shan Shan was caught off guard, and having such an intense reaction was not surprising. It was hilarious that their first kiss had ended in such a state, but Tang Huan had a premonition that his relationship with Shan Shan had grown closer by a lot.

After Shan Shan left, Tang Huan did not chase after him.

Even though the actions just now were reckless, it allowed Shan Shan to understand what he was thinking. Right now, after separating for a period of time, it would be better to let her calm down.

However, what made Tang Huan feel at a loss was, after this separation, he did not know how long he would have to wait to see her again.

As for what exactly Shan Shan was looking for after he entered the Space Aircraft, Tang Huan did not ask, but he could tell that Shan Shan had already fulfilled his wish. Since she took the risk to come here, that thing should help her greatly in raising her strength. If she met her again, perhaps she would also be a Martial Saint of the Peak Stage Nine.

"Really?" Feng Ming had a face of disbelief.

"Why are you asking so much?"

Tang Huan unhappily flicked his fingers on her forehead, and in that instant, he had already refocused his mind, condensing a pair of wings on his back and rising into the air.

"Where are we going?" Feng Ming rubbed his forehead in frustration. After a moment, he had also condensed two wings, which were as red as fire.

"Star Stone Continent."

"..."

... ..

a small oasis, a picturesque landscape,

A stone inside the cave in the northern part of the oasis was so quiet that even a pin drop could be heard. Tang Huan was sitting cross-legged on a praying mat, not moving at all.

This was already the fifteenth day since Tang Huan and Feng Ming had arrived at Star Stone Continent.

On that day, after he returned from the Demon Area, Tang Huan spent a lot of effort to enter the oasis which was surrounded by countless huge rocks through the natural spirit formation.

Tang Huan's appearance caused Cang Mo and the others to be dumbstruck. They simply could not believe their eyes.

After seeing Tang Huan being sucked into the Demon Area with their own eyes, Cang Mo thought that he was definitely going to die. After revealing the information, everyone who had lived in seclusion for dozens of years unanimously decided to set up a memorial grave beside the graves of General Feng Wu Ye and the others.

Of course, although it was called a tomb, Tang Huan's clothes were not inside, it was just an empty grave.

But no one had expected that not only was Tang Huan not dead, he had even successfully left the "Demon Area" where it was said that no one had ever walked out of alive.

After being stunned for a long while, Cang Mo and the rest finally believed that it was true. When they found out that Tang Huan wanted to go into closed door cultivation in Star Stone Continent, Cang Mo and the rest did not hesitate at all, and immediately arranged for him to stay in this cave.

On that day, Xiao Budian who had fully recovered from the arrow wound on his wing, woke up with tears in his eyes. By Tang Huan's side, there were no more Heaven Ranked Gems, and even more so, there were no high Ranked Gems.

After continuously eating twenty drops of the Saint Grade Gem's juice, Xiao Budian once again fell into a deep slumber. Tang Huan reckoned that Xiao Budian was probably undergoing a new transformation, and did not disturb it. Instead, he calmed his mind and continued to focus on comprehending the spatial Spirit Map.

After spending a few more days of time to thoroughly study the spatial Spirit Map, Tang Huan finally took out the magic book and began to focus on studying spatial magic.

Spatial magic was very different from the five elements magic.

This kind of magic could make various forms of changes to space, and could even open up an independent space that was separate from the existing space. However, in order to do this, one needed to have a soul that far surpassed the average person, as well as a Mind Power.

Of course, before that, one had to have an extremely thorough understanding of space, especially the ability to capture the fluctuations of its auras.

In this world, everything had auras and undulations, including the plants, the fish, birds, and beasts.

The stronger one was, the more powerful the Qi fluctuations they would emit, just like Stage Nine Rankers, if one did not intentionally hide it, the Qi undulations emitted by their bodies would be extremely intense, while the plants on the ground, although there were Qi undulations, the kind of undulations that would be difficult for most people to sense.

Compared to plants and vegetation, the fluctuations in the air were even more elusive and difficult to fathom.

Only when one could feel the aura fluctuations in space constantly would one be able to activate the Mind Power and manipulate it. Only then would the Mind Power be able to merge with space and change the flow of space.

"Swish ..."

A light sound suddenly broke the silence in the cave, and it was actually Tang Huan's ten fingers that drew in front of him at an astonishing speed, strands of Mind Power flowed out from his fingers, and continuously fused into the air. After a while, Tang Huan's figure actually started to fade little by little.

"Pah!" Beside Tang Huan's body, space suddenly distorted and fluctuated. A split second later, Tang Huan's figure had regained its clarity, and the ten fingers on his hands had also suddenly stopped in mid-air.

"We failed!"

Tang Huan muttered to himself, then slowly closed his eyes. What he had just tested was the spatial spell, "Space Moving." To cast this spell, the Mind Power would need to condense into a spatial tunnel, and after passing through, he would be able to instantly travel dozens of meters in the air.

Unfortunately, Tang Huan's first attempt ended in failure.

However, Tang Huan was not discouraged at all. Each and every move that he had made just now, was repeatedly played in his mind, attempting to find any flaws.

Time flew. Tang Huan tried again and again, failed again and again, and learned the lessons again and again.

In the blink of an eye, another 15 days passed.

I need to save some manuscripts for the new year so that we won't have to go through with it. I hope everyone will forgive me, but I can guarantee you that there will be some friends who will attend the event on Wednesday as well. Please read the comments in the comments section, and the deadline for receiving the award is almost upon you.

Chapter 539 - Furious Billows Castle

"Swish ..."

Tang Huan suddenly opened his eyes, and the ten fingers on his slender hands danced about like a butterfly dashing through flowers. The tyrannical Mind Power flew out from his fingers, resonating with a sound that was almost inaudible.

After a moment, Tang Huan's figure had already started to fade, and before even the blink of an eye, her figure had already disappeared, appearing right at the entrance of the cave.

"It worked!"

Although it was only a distance of ten metres, it was not his limit. It was because he was at the inside the cave, which allowed him to only teleport so far away. When he had executed the "Space Moving" earlier, he felt that he had done so with ease and ease.

"How many meters can I move?" Tang Huan thought slightly, and almost impatiently opened the entrance of the cave.

"Hmm?"

Not far from the cave entrance, in a small pavilion, Feng Ming who was meditating on the ground seemed to have sensed something. He suddenly opened his eyes, and Tang Huan's figure entered his line of sight.

Feng Ming's red lips slightly opened, but just as she was about to speak, she realized that Tang Huan's figure had already disappeared from the cave entrance.

In the next moment, she discovered Tang Huan about fifty meters away in the forest.

But right after, Tang Huan strangely disappeared from his original position, and when he reappeared, he was already in the pavilion where Feng Ming was.

"Tang Huan, you've comprehended spatial magic?" Feng Ming stood up and said with surprise and joy.

"Yeah, I finally succeeded."

Although he had just learnt the "Space Moving" in spatial magic, he still knew all about it. The most difficult step had already been completed, and after that, he could completely learn other spatial magic, and when his attainment in spatial magic had reached a certain level, he could begin to repair the Space Aircraft left behind by Zang Gu and the others.

After a moment, Tang Huan retracted his smile: "The objective of this time's closed door cultivation has been achieved, in a while, let's leave Star Stone Continent."

"Where to?" Feng Ming said subconsciously.

"Furious Billows Castle."

These four notes came out of Tang Huan's mouth as a hint of reminiscence flashed across his eyes. Of the two maps that the old man had made him memorize, one was the Sword Crafting Valley, and the other was the Furious Billows Castle.

had already went to Sword Crafting Valley, and gained a lot. had wanted to go there since a long time ago, but that place was occupied by one of the eight great Demon King s, the "Eight Remoteness Dragon King". Tang Huan did not have time before, and adding that he did not have enough strength, he could only suppress the impulse in his heart.

Now that Tang Huan was a Martial Saint of the Peak Stage Nine, even if he were to face the Eight Remoteness Dragon King himself, he would be fearless.

According to Tang Huan's judgement, what that old fogey left for him in the Furious Billows Castle was most likely some materials used to forge Divine Armament s. This made Tang Huan look forward to seeing it. He already had thirteen pages of "Divine Weapon Catalogue", which meant that there were thirteen Divine Armament s that he could forge.

Currently, what he lacked the most were all sorts of precious materials needed for weapon crafting.

If his gains in the Furious Billows Castle were too great, Tang Huan was prepared to first return to the Heavenly Forging City, purchase a few Saint Grade Gem and precious ores from the Star Ocean Commerce to upgrade his own Tools Method Attainments. After that, he would head to the Feng Ming Mountain and move all the "Indestructible Brilliant Gold" from the Phoenix Nest to the Sword Crafting Valley. When he thought about the scene of the Divine Armament being released, Tang Huan's heart surged.

In his previous life, his greatest wish was to forge a few peerless treasured swords that were renowned throughout the ages. However, before they could be realized, they died due to the forging of a sword. After his rebirth in this small world, the weapons that Tang Huan forged had become more and more powerful, but the one that he wanted to forge the most was still the Divine Armament.

Now he was finally getting what he wanted.

"Hehe, you want to meet your senior sister Feiyan?" Feng Ming turned her beautiful eyes and laughed mockingly. The current her was no longer the same bitter and vengeful person she used to be, but instead, had become cheerful, just like how she was when she was still a little girl.

"Don't talk nonsense."

"However, Furious Billows Castle is not too far away from the Human Allied Forces. If Senior Sister Feiyan is still at the Two Realms Plain, then I really need to go and see her, then pay a visit to the old man in the Pavilion Master, and then see Big Brother Gu and the others."

As they spoke, Tang Huan was already walking towards the cave.

"You even said that you wanted to meet your senior apprentice sister Feiyan, how am I spouting nonsense?" Feng Ming laughed and followed closely behind Tang Huan, excitedly asking, "Tang Huan, let me ask you a question, do you like Shan Shan, or do you like him, or do you like him?"

Tang Huan stopped walking and suddenly turned around. He looked at Feng Ming who had a face full of curiosity and said, "Feng Ming, I really didn't think that you would be so gossipy."

"Gossip?" "What do you mean?" Feng Ming asked suspiciously.

"The way you are now, you are constantly asking about things you shouldn't know. It's called 'gossip'." Tang Huan said snappily.

"But I think I should know."

Feng Ming's beautiful eyes that carried a little red color rolled back and forth, and said with a sly smile. "I am your maid, you are my master, and the woman you like, will also be my master in the future. "You tell me which one you like, and I'll get on good terms with her first."

"I'm not your master. I think we should be friends." Tang Huan laughed bitterly.

"You've asked your friends to dance a few times, and you even want your friends to do a striptease?" Although she had completely accepted reality and was no longer hostile towards Tang Huan, she still kept it in mind the orders that Tang Huan had given her several times.

"..."

Tang Huan was speechless. That matter was indeed a little absurd, but a normal method wouldn't be able to scare Feng Ming at all. After laughing twice, Tang Huan ignored her and went back to the inside the cave to pick up Xiao Budian, then picked up his spear and walked out.

"Little brother, are you leaving now?"

After a while, in a simple stone house, Cang Mo looked at Tang Huan and Feng Ming who had come to say their goodbyes. Although he was a little surprised, he did not feel that it was unexpected, because Tang Huan and Feng Ming definitely would not be able to stay in this small Star Stone Continent for long.

"Exactly." Tang Huan said while smiling, "We plan to travel to the Furious Billows Castle and will definitely come back to visit you seniors when we are free in the future."

"In that case, little brother, please wait for a moment."

With a light sigh, Cang Mo quickly returned into the room.

After a while, Cang Mo walked out quickly with a big wooden box in his hands. "Little brother, please accept these items."

"Saint Grade Gem?"

Tang Huan was slightly surprised, but when he subconsciously opened the wooden chest to take a look, he couldn't help but gasp.

Before opening the box, Tang Huan had already guessed that 90% of the items inside were gems. After all, the wooden box was made by the "Mortal Spirit Tree". If there were only twenty Saint Grade Gem inside, Tang Huan would not have been so shocked, but the one in the box was not

twenty, but one hundred or two hundred! This number of Saint Grade Gem, no matter where they were placed, was enough to cause a huge earthquake.

Chapter 540 - General's Estate

"These Saint Grade Gem were all collected by the General back then."

Cang Mo sighed, "After Lord General passed away, we hid him in the rocks around us. It's been decades now."

Tang Huan slightly nodded, as he already understood.

On that day, what Xiao Budian dug up was only a small part of it. As for the others, they were discovered by Cang Mo before he could even make a move.

"And this..."

Cang Mo quickly dug around the pile of stones in the box, and actually took out a wooden box called the "Absolute Spirit Tree" and passed it to Tang Huan, "The reason that Jiu Mo Sha entered the Star Stone Continent multiple times, was not only because he wanted these hundred plus Saint Grade Gem, but also because of it."

"Oh?"

Tang Huan was rather surprised, opening the wooden box, he only took a glance, then froze. What entered his eyes was actually a dazzling golden page, on top of the top page, a black axe could be seen, faintly emitting an extremely berserk and domineering aura.

"'Divine Weapon Catalogue'... An incomplete manual! "

After a long while, Tang Huan finally snapped back to reality. The contents of the box was not a single map fragment, but three!

"Looks like little brother has seen something like this before."

Cang Mo laughed, "Leaving this 'Divine Weapon Catalogue' remnant scroll and the 'Star Stone Continent' of the Saint Grade Gem behind is completely wasteful. Little brother, since you are the Weapon Refiner, it just so happens that you can use it."

"Senior, these things are really too valuable." If it were only a few dozen Saint Grade Gem, he would definitely accept them without hesitation. However, there were not only over a hundred Saint Grade Gem here, there were also three pages of even more precious "Divine Weapon Catalogue s" scrolls.

"Little brother, don't decline."

"Back then, the reason why Lord General gathered gems was to find someone to forge the three Divine Armaments out of the Divine Weapon Catalogue, but unfortunately, he was unable to do so. Young brother, you have great talent, this wish of the general might be realized by you. "

"The matter of the Jiu Mo Sha has given us old fellows a huge lesson. This time, it's because little brother helped us kill the Dove-Mo Sha that we were able to keep the Saint Grade Gem and the map fragments. But next time, I'm afraid we won't have that much luck. "

As he spoke till here, Cang Mo's face was filled with an unconcealable bitterness.

Tang Huan sighed inwardly, and bowed deeply towards Cang Mo: "Since that's the case, then this junior will not be courteous. As long as the time comes, this junior will definitely forge these three Divine Armaments out."

"Good!" "Alright!"

"..."

To the east of the Infernal domain, there was the Two Realms Plain.

The western part of the Two Realms Plain was in the Origin Continent, while the eastern part was in the Tranquil Continent. There was a narrow strait between the western and eastern parts of the Two Realms Plain, and the Furious Billows Castle was at the northern end of the Two Realms Plain, on the other side of the ocean.

Nearly three years ago, after the fierce battle at Two Realms Plain, the Demon Clan's army was forced to retreat and confronted the Human Allied Forces across the sea. However, because of the unique terrain and the fact that it was difficult to defend and attack the Furious Billows Castle and the fact that the one guarding the place was the extremely strong "Eight Remoteness Dragon King" of the eight great Demon Kings, it had not been attacked at all. Even until now, there were still a large number of soldiers stationed outside the Furious Billows Castle.

On a field about a hundred miles away from the Furious Billows Castle stood a city called "Ocean Gazing City".

Wang Haicheng was originally a very small city, but because of the invasion of the Demon Clan, it had long been abandoned. However, after the Human Allied Forces stayed in the Two Realms Plain, the city expanded by several times, and in just a few years, it had become a bustling city once more. Almost every day, there was a caravan that delivered food to and from the city.

In the evening, with the setting sun as red as blood, two figures quietly entered Seahold.

They were Tang Huan and Feng Ming who had just rushed over from the "Infernal Desert". On this trip to the "Two Realms Plain", Tang Huan did not want to easily reveal her whereabouts. Thus, once she came out of the desert, she wrapped the dragon and phoenix spear with cloth cloth as a veil, covering Feng Ming's face as well. After all, she had participated in the great battle between Human Clan and Two Realms Plain, and amongst the warriors of the Human Clan, there were many who had seen her true face.

While he was on his way to Wang Hai City, Tang Huan had already heard a lot of information from some of the merchants.

Furthermore, the ten thousand generals that were guarding this place were all at the peak of the eighth step. Aside from the three generals, the allied forces of the three clans had even sent one of their Stage Nine Martial Saints to take turns keeping watch here. After all, this was an important place to stock up the rations.

If the experts of the Demon Clan snuck in and burned all the food, all the generals of the Human Allied Forces would have no food left.

Not long after, Tang Huan and Tang Huan arrived in front of the Thousand Generals Palace in the northern part of the city.

Just that after showing the Weapon Refining Master's emblem to the guards at the door, the two of them were quickly invited in respectfully. Although Wanghai City was bustling with noise and excitement, it was heavily guarded and people with unknown identities could not enter. Just now, the two of them had relied on their identity tokens to enter the city.

The reason why Tang Huan came here first, was to ask the ten thousand generals about the situation in the Furious Billows Castle in detail.

Although Tang Huan had already heard a lot of relevant information from some of the merchants, it was not accurate. If Tang Huan wanted to enter the Furious Billows Castle, he still had to get a better understanding of it.

"Master, please wait for a moment. The general will be here shortly."

In the hall, a thin looking old man said with a face full of smiles. Almost as soon as he finished speaking, a low and deep laughter was heard, "I wonder which great master from Divine Weapon Pavilion has come. Luo Lang, please forgive me."

As soon as his voice fell, a black robed middle-aged man walked in with big strides. He had phoenix eyes, a hawk nose, a slim figure, and a sallow face full of smiles. The aura that faintly seeped out from his body was extremely tyrannical, and was definitely that of a peak Martial Lord of the eighth step.

When his gaze fell on Tang Huan, the middle-aged man called Luo Lang was stunned. It was clear that he did not expect the Weapon Refining Master in Divine Weapon Pavilion to be so young.

Tang Huan cupped his hands towards Luo Lang and smiled: "I am Ye Ming, greetings to Lord General."

"I really didn't expect that little brother Ye Ming would be so young."

Luo Lang came back to his senses and said with some emotion, "If I'm not mistaken, little brother Ye Ming is probably only in his twenties, right? He is already a Weapon Refining Master at such a young age, and his future is limitless. Perhaps in a few years, another Weapon Refining Grand Master will appear in our Human Clan. "

"The general is joking."

Hearing that, Tang Huan could not help but shake his head and smile, "I might look young, but I am actually over thirty years old. I have just advanced to Weapon Refining Master not too long ago, so I'm afraid my chances of becoming a Weapon Refining Grand Master are slim." Saying that, Tang Huan pretended to sigh helplessly.
