

W. Master 601

Chapter 601 - Sudden Change

Inside the Space Aircraft, the atmosphere was gloomy and gloomy.

On the round center stage, Xiao Budian suddenly squatted and sat down. He suddenly stood up and paced around, his dark blue eyes filled with anxiety.

Around the circular platform, Wu Zhu and the other dozens of people had different expressions, all of them remaining silent.

"Almost two days have passed, right? "It can't be..."

After an unknown period of time, a skinny old man in a green robe finally broke the silence of this space. He did not say anything else, but everyone understood what he meant.

Tang Huan and Feng Ming definitely went out to stop Fen Tian from chasing after them.

If Tang Huan and Yue Shan had won, they would have definitely returned to the Space Aircraft already, but until now, they were still nowhere to be seen.

The result of the battle outside was obvious.

Tang Huan and Feng Ming had definitely been viciously attacked by Fen Tian. Unfortunately, after Tang Huan left the Space Aircraft, the transparent wall had already returned to its original state. No one could see what was happening outside anymore, if not they would more or less be able to obtain some information about the outside of the aircraft.

"Yiya!"

On the round platform, Xiao Budian bared his fangs and brandished his claws at the green robed elder as he cried out. His large eyes were filled with anger.

"Little fellow, this old man also hopes that little brother Tang Huan is safe and sound. If he is still alive, then we can all be alive. The old man in green shook his head and could not help but laugh bitterly.

"Yeah, that Fen Tian is really too strong. If the His Sacred Emperor Majesty was still here, he might be able to suppress it. Even if the old man from Tian Clan did not die, they would still be able to share the glory. It's a pity that the His Sacred Emperor Majesty had already 'passed away'.

Another tall and sturdy old man with completely white beard sighed, "Although Little Brother Tang Huan is strong, he is still young in the end. Even with Feng Ming's help, it would be difficult for him to match up to Fen Tian. If only it will be another ten years, with Little Brother Tang Huan's talent, he will definitely surpass Fen Tian. "

"If I knew this would happen, I wouldn't have left the 'God Forbidding Cave'." A short old man suddenly said hatefully, "In the 'God Forbidding Cave', although there is no freedom, at least one can still live. But in this damned place, not only is there no freedom, in the end, one can even starve to death."

"Mo Qi, are you addicted to being a prisoner?"

Hearing that, the tall and sturdy old man could not help but frown, and said angrily, "This old man would rather starve to death here than be imprisoned in God Forbidding Cave again."

"Mo Qi, Little Brother Tang Huan brought you out of that dark place. It's fine if you don't feel grateful, but you actually dare to say such rude words." Wu Zhu said angrily as well.

"Yan Wuji, Wu Zhu, am I wrong?" The short elder called Mo Qi slowly stood up. "That Tang Huan doesn't have the strength, so don't try to show off at Dark Abyss's place. Now, not only will he harm himself, he will also harm all of us here."

"Yiya!" "Yiya ..."

Xiao Budian angrily flapped her little wings as she rushed in front of Mo Qi, crying out repeatedly. Her two little claws were also gesturing nonstop, as if scolding him. But at that moment, Mo Qi suddenly stretched out both of his arms, and his hands that were as skinny as firewood grabbed onto Xiao Budian's neck.

"Yi ..." "Yah ..."

Xiao Budian flapped his wings and struggled desperately. However, the more he struggled, the tighter both of his hands were clasped, and his mouth opened wide uncontrollably. His pair of deep blue eyes were wide open, filled with an expression of disbelief.

"Mo Qi, what are you doing?"

"Let it go!"

This sudden change caused Wu Zhu and Yan Wuji to be startled and furious, they shouted out loud, and upon seeing what happened, everyone was shocked.

"Everyone, do you know what this is? Spiritual Beast Blue Dragon! "

"However, Mo Qi laughed out loud," This Spiritual Beast's' Spirit Dragon Sacred Marrow 'has a miraculous healing effect. Furthermore, this is a' Six-winged Blue Dragon ', and its fourth pair of wings is about to grow.

"We have been imprisoned in the 'God Forbidding Cave' for over a hundred years. Although we have survived until now, we have always been trapped in the 'Dark Spirit Devil Qi' with countless internal injuries. Even if we were to return to the Glory Continent, it would be impossible to recover to the state we were in back then. I believe that everyone is very clear about this point. "

"After entering the aircraft, I had always wanted to recover, but until now, I have only recovered to the level of a Stage Four Martial Master. Give me a few more years, and I'll be able to become a Stage Six Martial Master, and that'll be good enough. If a miracle doesn't happen, even if I cultivate till I die, I will still only be a Stage Six Martial Master."

"But with this' Spirit Dragon Sacred Marrow ', it is completely different. With it, all the hidden injuries in my body can be healed and I will not only be able to quickly step back into the Stage Nine Martial Saint realm, I can even go one step further. Everyone, this Blue Dragon has no small number of 'Spirit Dragon Sacred Marrow', would you all be willing to enjoy it with me? "

"Insane!" This is simply insane! " Wu Zhu was furious.

"Mo Qi, this old man really did not expect you to be so ungrateful! Everyone, we were all saved by little brother Tang Huan, who is willing to join this old man in killing this heartless, wolf-hearted thing? " Yan Wuji was instantly like a hedgehog, his beard went wild and his face filled with anger.

"I am ashamed to be associated with such a despicable person." An old lady with a long hair and chicken skin suddenly spoke out and stood beside Yan Wuji. She looked at him with eyes filled with disdain.

"Brother Yan, count me in."

"..."

After a while, there were six people gathered by Yan Wuji and Wu Zhu's side, but more and more people hid themselves from view, many of them had emotions in their eyes.

"Those who are willing to enjoy this' Spirit Dragon Sacred Marrow 'with me, come over."

Suddenly, Mo Qi looked around and laughed out loud. After he finished saying those words, although no one moved, many people started to move.

Seeing that, Mo Qi smiled: "Everyone, there is no need to worry, this Space Aircraft is so big, it must be unstable, as long as we are promoted back to Stage Nine Martial Saint, we can work together to break through this Space Aircraft, and force our way out, we will not starve to death here."

"Me!"

"Me too!"

"This old man is willing to give it a try!"

"..."

One figure after another walked towards Mo Qi.

In the blink of an eye, there were only six people by Yan Wuji and his side while beside Mo Qi's side, there were more than twenty. Mo Qi's last words dispelled the last bit of worry in many people's heart, and instantly divided them into two sides.

"Yan Wuji, Wu Zhu, and everyone else, since we have been companions in the God Forbidding Cave for dozens of years, I will give you all one last chance." Mo Qi smiled as he looked at Yan Wuji, Wu Zhu and the rest.

"Ungrateful and unscrupulous!" A cruel, unscrupulous person! " Wu Zhu was so angry that his entire body was trembling, he never expected that the final outcome would be like this.

"Mo Qi, stop putting on an act." Yan Wuji also laughed out of extreme anger.

"Since that's the case, I can only fulfill your wish. "Everyone, move together, kill them all" Mo Qi's face turned cold as he bellowed. But right at that moment, the Space Aircraft suddenly trembled, and on the walls surrounding it, a green light quickly shined.

"Phew!" "Hu!"

An instant later, two figures appeared at almost the same time. It was Tang Huan and Feng Ming.

Chapter 602 - Lightning Fury

"Little Brother Tang Huan!"

"Tang Huan!"

After a brief moment of shock, cries of surprise broke out from within the space.

Wu Zhu, Yan Wuji and the others were pleasantly surprised, and the expressions of Mo Qi and the rest of the twenty odd people changed. Especially Mo Qi, his expression was extremely ugly to behold.

He had originally thought that Tang Huan and Feng Ming had not returned for a long time because they had been viciously attacked by Fen Tian. That was why he dared to covet the "Spirit Dragon Sacred Marrow" of Xiao Budian's Golden Horn.

Otherwise, even if he was lent 10,000 times the courage, he wouldn't dare act rashly.

After all, Tang Huan was a genuine Peak Stage Nine Martial Saint. Even though he was also a former Peak Stage Nine Martial Saint, his current strength was only equivalent to a Stage Four Martial Master, and the difference in strength was too great. Tang Huan only needed to move a finger to stab him to death.

But who would have thought that Tang Huan and Yue Shan actually came back alive.

Mo Qi's hands were trembling, the depths of his heart was filled with fear and resentment. This Blue Dragon was Tang Huan's spirit pet, if he made a move on it, how could Tang Huan forgive him so easily? Tang Huan had returned at the wrong time. Even if he came back by one or two hours late, she would have nothing to fear from him!

The other twenty odd people by Mo Qi's side were also feeling anxious.

Although they did not personally make a move against Blue Dragon, their actions just now had already caused them and Mo Qi to become grasshoppers on a rope. If they had known earlier on that Tang Huan was still alive and would return right now, they definitely wouldn't have made such a choice. Now, how was he to endure Tang Huan's wrath?

For a time, everyone was full of regret.

"Yi ..." "Yah ..." Xiao Budian's eyes flashed with excitement, she cried out with difficulty, her mouth opened wide, her bright red tongue had a long grin, she was almost unable to breath.

"Hmm? Xiao Budian! "

After looking at Xiao Budian's situation, Tang Huan's face changed. Although he did not know what had just happened, but he could feel that Mo Qi was harboring malicious intentions towards Xiao Budian. In an instant, the killing intent in Tang Huan's two eyes condensed to the point where it seemed to be real, and could seemingly penetrate Mo Qi's body.

"Tang Huan, don't come near me, don't come near me, or else I'll ... I'll kill it — "Mo Qi shuddered and came back to his senses, growling out loud. The extreme fear and panic had already caused his face to contort and he retreated several steps, as if he wanted to hide into the crowd. At this time, his two claws had already unconsciously increased his strength, causing Xiao Budian's eyeballs to bulge out of their sockets.

"Let it go!"

Tang Huan's eyes were cold as he shouted word by word.

As soon as he said that, an extremely terrifying aura swept out like a storm. In the next moment, this green space seemed to have frozen, and the surroundings were deathly silent.

"Pata!"

A light sound suddenly broke the silence in this space, but Mo Qi was unable to control himself and released his hands, causing Xiao Budian to fall onto the ground, his two little claws clutching his neck, as he gasped for breath. Mo Qi regained his senses and bent down to reach for his arm in a hurry, wanting to catch Xiao Budian once again.

However, before he could even touch Xiao Budian, Mo Qi's body had already floated up from the ground. Tang Huan suddenly appeared in front of him, grabbed his neck with his right hand and directly lifted him up.

"Uh, uh ..."

Mo Qi moved his hands and feet recklessly, his face had already swollen to the point of purple as his bulging eyes were filled with despair and pleading, "Spare ... "Spare me" Just as he squeezed out these few words from his throat with great difficulty, a snapping sound rang out. It was Tang Huan who snapped his neck.

Mo Qi's head tilted, his eyes gradually becoming hollow, and no longer had any signs of life.

In the space between Tang Huan's mind instructs (in a second), a ball of hot, restrained flame rose from his palm, which then engulfed Mo Qi's short and thin body. In just a few seconds, the former Peak Stage Nine Ranker had turned into ashes, as if he had never existed.

"Yiya!" "Yiya ..."

Xiao Budian finally regained his breath, shakily fluttered his little wings and floated in front of Tang Huan, pointing at the 20 odd people in front of him while complaining to Tang Huan angrily.

Tang Huan patted Xiao Budian's head. Two pairs of eyes swept past him and revealed a cold glint.

The people around them kept quiet, not daring to make a sound. There was panic on their faces, they had all witnessed Mo Qi's disappearance. They had already expected Mo Qi's ending, but they still hadn't expected that Tang Huan would act so decisively. He killed Mo Qi without even asking, and from this it could be seen how much weight Blue Dragon had in Tang Huan's heart.

"Senior Wu Zhu, what happened here just now?" Just as everyone was worried, Tang Huan withdrew his gaze and looked at Wu Zhu.

"Little brother, Mo Qi thought that you and Lady Feng Ming had been harmed by Fen Tian, so he captured the Blue Dragon and incited these people to share the 'Spirit Dragon Sacred Marrow'. After recovering your strength, he prepared to break the Space Aircraft forcefully so that you wouldn't starve to death." Wu Zhu came back to reality and sighed.

Mo Qi's death caused Wu Zhu to sigh endlessly. He had been bullied by the Demon Clan for dozens of years, especially in recent years, but in the end, he was able to endure it all and rushed out of the "Dark Abyss".

Although Mo Qi died under Tang Huan's hands, this was not to be blamed on Tang Huan. No matter who it was, if something like that happened, Mo Qi would never be spared.

"So that's how it is."

"After my battle with Tang Huan, Fen Tian had already retreated. I had also consumed a lot of energy and cultivated outside for two days before I could finally recover, so I came back a bit late. However, I didn't expect that I would almost lose Xiao Budian's life."

If it were only the consumption of the Genuine Qi and the Mind Power, it would naturally be able to quickly be replenished. However, the side effects of the "Nine Yang Divine Furnace" being overoperated, actually caused Tang Huan to have to spend two days to recover. He also did not expect that Mo Qi and the others would not even be able to wait for this little bit of time.

"Fen Tian lost?"

Yan Wuji could not help but exclaim, and the surrounding sounds of people sucking in cold air could be heard. For Tang Huan and Feng Ming to be able to come back, the result was obvious. But it was just a guess, and now that they heard the result from Tang Huan, they were extremely shocked.

At this moment, the twenty or so people felt even more regretful.

"I did not win, and Fen Tian did not lose." Tang Huan smiled lightly.

"A draw?"

Yan Wuji was still in shock, he clapped his hands and praised, "Little brother, you are only in your twenties, to be able to tie with Demon Lord Fen Tian, is already very amazing."

"I've lived for over a hundred years, but this is the first time I've seen a peerless genius like you, little brother."

"It's a draw now, in a few years, Fen Tian will not be a match for you, little brother."

"..."

The voices of praise rose again and again, and Tang Huan no longer explained. It was simply impossible to explain the reason for Fen Tian's retreat. After a long while, the entire space finally quieted down.

Chapter 603: Send them on their way!

"What do you think I should do with you?"

Tang Huan's gaze once again landed on the twenty odd people, and the corner of his mouth hooked into a cold smile.

Everyone was silent. All kinds of expressions could be seen: regret, panic, nervousness, bitter smiles, dejection, hesitation.

Wu Zhu hesitated for a moment, then couldn't help but say: "Little brother, Mo Qi is the head of the evil, he deserved to die. They were only instigated by Mo Qi, they are not guilty ..."

"Brother Wu Zhu, you're too kind."

Before he could even finish his last word "die", Yan Wuji could not help but interrupt him and let out a cold snort, "In this old man's opinion, all of these people deserved to die. Although our strength is not as good as Mo Qi's, we are still roughly at the level of Stage Two Martial Disciple and Stage Three Martial Disciple.

Wu Zhu laughed bitterly and shook his head, no longer saying anything.

The more Yan Wuji spoke, the angrier he became. "They are people who have lived for almost a hundred years, or even over a hundred years, yet they don't even know how to repay favors. Only Fen Tian has never come to the 'God Forbidding Cave' to recruit people, if not, they would have pledged their allegiance to the Demon Clan already. "

"Yan Wuji, what you said was too unpleasant to listen to. No matter how much this old man cherishes his life, he will not rely on the Demon Clan." A horse-faced old man finally couldn't help but ask.

"Do you believe the words of an ungrateful person?" Yan Wuji scoffed.

"As far as I know, there are many people in the 'God Forbidding Cave' who have expressed their wish to rely on the Demon Clan, but unfortunately, Fen Tian has never bothered with it." Just then, Feng Ming, who had never made a sound since entering the Space Aircraft, suddenly laughed, her beautiful eyes revealing a look of ridicule.

"You ..."

The horse-faced old man blushed slightly, as though he was afraid to argue with Feng Ming, and then looked towards Tang Huan and explained, "Little brother, we were indeed at fault, but we could not blame all of us. No one knew that you and Lady Feng Ming had forced Fen Tian to retreat, and they even thought that you two had been killed by Fen Tian. With so many people crowding here, if we do not think of a way to leave as soon as possible, all of them will eventually die from hunger and thirst. "

The moment he said this, weak sounds of agreement rose in the surrounding area.

"So, you decided to make a move on this kid?"

Tang Huan smiled as he glanced at the horse-faced elder and the others, but there was no smile in his eyes. To die from hunger and thirst was just an excuse for Mo Qi and the others.

Although their strength had greatly declined, they were still once Stage Nine Martial Saint. Even if they had stayed here for six or seven days, they would not have died.

Obviously, their real goal was to borrow Xiao Budian's "Spirit Dragon Sacred Marrow" to heal their injuries. With "Spirit Dragon Sacred Marrow", they would be able to recover to their peak strength. Before, with Tang Huan and Feng Ming here, they did not dare have such thoughts. Otherwise, Tang Huan would have definitely noticed it long ago. Now that they felt that the two had been killed by Fen Tian, they started to have no scruples.

It was impossible for them to not know that secreting "Spirit Dragon Sacred Marrow" would cause great damage to Xiao Budian, especially with over twenty people here, they would probably need to squeeze Xiao Budian's "Spirit Dragon Sacred Marrow" dry to barely use it. After exhausting all the "Spirit Dragon Sacred Marrow", Xiao Budian would definitely die.

Perhaps they had never thought of killing Xiao Budian, but they knew that such an outcome would occur, yet they still chose to stand by Mo Qi's side.

This is particularly unforgivable.

"Since you've become an ingrate, you should know that ingrate will not have a good ending."

Tang Huan laughed coldly, "Just like what Senior Wu Zhu said, you guys are not the head of the evil sect, and I will not kill you. Whether or not you can survive will depend on your luck. "

As he spoke, ripples started to appear in the air above his head. In only an instant, a cyan vortex condensed into shape.

"Everyone, please!"

Everyone's face became ashen as they understood Tang Huan's meaning. They backed off unconsciously, their eyes filled with pleadings. Outside of this place was Tranquil Continent's "Snowy Mountain Splitting Land." If they were to leave, with their strength, it would be impossible for them to survive the journey from "Snowy Mountain Splitting Land" and "Dark Night Marsh" back to Origin Continent, and they might even be caught by the Demon Clan very quickly, or even be killed off directly.

"Feng Ming, send them on their way."

"Yes."

Feng Ming's figure flickered, and with one in each hand, he threw them into the whirlpool. Within the space, cries of shock rose and fell, and in a short while, all twenty plus people were thrown out.

"Aiya, I think something fell outside. Tang Huan, you'll have to bring me in later."

Feng Ming suddenly remembered something, and with a flash of red, he disappeared into the whirlpool.

Tang Huan was a little doubtful, but he did not think much about it. In a moment, the vortex in the sky had already dissipated, and with a slight movement of his feet, he arrived at a corner where Ou Xie was quietly sitting cross-legged. At this time, in the group of people outside the Space Aircraft, the red shadow was flashing rapidly as it screamed and cursed.

When the red figure stopped, revealing Feng Ming's graceful body, the twenty odd people were all lying on the ground, motionless.

"Fen Tian will neither kill them nor subdue them, he has only imprisoned them in the 'God Forbidding Cave'. His true goal is to extract their souls at the critical moment and help him step into the true Heavenly Domain realm. Since you can't bear to kill them all, let me do it for you. "

Looking at the corpses on the ground, Feng Ming muttered out loud, and then laughed, her beautiful face revealed a mischievous look, "Even if you knew, you can't blame me, it was you who asked me to 'send them on their way', I will send them on their way now, it's all in accordance with your wishes."

Not long after, the Space Aircraft floated to a few meters in the air while trembling, and the resplendent green light it emitted quickly turned into a vortex.

"Hu!"

Feng Ming rose into the air and entered the depths of the whirlpool. Moments later, the Space Aircraft turned into a green stream of light, shooting straight into the sky ...

... ..

Outside the Dark Shadow City, corpses were strewn all over the ground, as if the battle had just ended.

The army of Demon Clan that had rushed over from the direction of the Snowy Mountain Splitting Land, along with the Tian Clan and the others, had carried out an extremely intense battle in the depths of the swamp.

This fierce battle had involved more than 200,000 participants for an entire day.

In order to recapture the Dark Shadow City, the entire Demon Clan did not care about dying. Unfortunately, the Demon Clan still suffered a great loss in the end. After the battle, the remaining tens of thousands of defeated soldiers ran towards the "Snowy Mountain Splitting Land". Moreover, out of the dozen or so Stage Nine Demon King s, seven of them had left their lives outside the Dark Shadow City.

In this battle, the Demon Clan's losses were extremely heavy.

Inside and outside the Dark Shadow City, Human Clan and the rest of the Profound Sky Continent, however, were in jubilation.

"Whoosh!"

High in the dark void, a green glow came from the direction of the Snowy Mountain Splitting Land, and like a meteor, it entered the waist of the mountain peak within the Dark Shadow City.

Chapter 604 - Two Ways

"Aunt Xing, why are you ..."

In the spacious Savage Palace, not only did Tang Huan see Shen Guan, Tang Moyang, Sha Mi, Mo Huang and other Human Clan experts, he also saw Tian Clan as well as Hei Yan. However, what made Tang Huan feel even more surprised was that the current Xing Meng seemed to be rather tired.

Xing Meng was not the only one, Shen Guan, Tang Moyang and Mo Huang's faces were also pale white.

"Little brother, you don't know this."

Shen Guan laughed bitterly, "This time, there were a bit of a change. Although the Demon Clan had a lot of Demon King s, and most of them were ordinary Stage Nine Demon King s, but just as we were about to exterminate them all, a very powerful person suddenly appeared in the Demon Clan, and in a short amount of time, he already severely injured me, Brother Tang, and Brother Mo. Luckily, the Lord appeared in time and beat him back.

Tang Huan was surprised: "Other than Fen Tian, there is actually such an expert in Demon Clan?"

"That person is not a of the Demon Clan."

Xing Meng shook his head lightly, and said in a deep voice, "According to my judgement, he should be the Hall Master of the Secluded Night Divine Palace, and moreover, his real body."

"Him again!"

Tang Huan's face slightly darkened.

Back then, at the Sword Crafting Valley, that Secluded Night Divine Palace Master had sent out a set of embodiment to stir up trouble, but in the end, he was killed by him.

"That person is powerful, and he is also proficient in assassination techniques, making it hard to guard against him."

Xing Meng's expression became a little solemn, and reminded them, "For the next period of time, it would be best for all of you to stay together, in case they attack you one by one, affecting the overall situation."

"Lord Xing Meng is right."

Shen Guan, Tang Moyang and the others could not help but nod their heads.

Xing Meng's face relaxed, he looked at Tang Huan and chuckled: "Tang Huan, on your journey to the 'Dark Abyss', did you succeed in saving your master?"

"It's saved."

Tang Huan laughed, "Not only is there my master, there are also seniors who have been imprisoned in the Demon Clan for many years." While speaking, Tang Huan's thoughts moved, the Space Aircraft beside him started to vibrate, a green light shone, shining brilliantly and after a moment, a skinny old man appeared.

"You are..."

"Brother Wu Zhu?"

"Brother Wu Zhu!"

"..."

After a moment of silence, a cry of surprise sounded out from within the Savage Palace, Shen Guan even sprung up like a spring, and hugged the skinny old man, he was extremely excited. Before everyone could calm down, a burly man appeared behind Wu Zhu.

"Are you Brother Yan?" Brother Limitless? "

"Senior Yan Wuji?"

"..."

Following that, almost every single figure that appeared would cause an exclamation of disbelief.

Very quickly, the news of Wu Zhu and the other powerful Stage Nine cultivators who had already disappeared dozens of years ago and even hundreds of years ago being saved by Tang Huan from the "Dark Abyss" spread.

And at this time, there were only a few people left in the Savage Palace.

Tang Huan, Feng Ming, Xing Meng and Hei Yan sat facing each other. Between the four of them was Ou Xie who looked like a motionless sculpture. As for Wu Zhu, Yan Wuji and the others, they had already left the palace with Shen Guan.

"Tang Huan, your master's condition is extremely serious."

Xing Meng's palm lightly touched Ou Xie's forehead, the dark blue aura seeped out, and instantly covered his entire head, but after a moment, Xing Meng had already raised his hand, his expression serious, "His soul has already been completely sealed by Fen Tian, and furthermore, Fen Tian is using his own soul energy."

After pausing for a moment, Xing Meng continued, "There are only two ways to make your master wake up and recover. The first is to find a person whose soul force far surpasses Fen Tian and forcibly remove his soul force."

Tang Huan frowned slightly. In the current small world, no one would be able to use this method, neither he nor Xing Meng.

The strength of Fen Tian's soul had already reached an extremely shocking level. Even Tang Huan, who had fused with one hundred and eight "Sword Seal," would not dare to claim that his soul was stronger than Fen Tian's, let alone someone far stronger than his. Furthermore, Fen Tian's attainments in the way of the soul, could be said to be the number one person in his small world.

"Aunt Xing, what's the second method?" After a short moment, Tang Huan could not help but ask.

"Kill Fen Tian!" Xing Meng softly spat out the four words.

"Kill him?" Tang Huan was startled.

"Right, kill him!"

Xing Meng said in a low voice, "Once Fen Tian dies, the soul force he used to confine your master's soul will vanish like smoke into thin air. Your master will naturally wake up." Speaking till here, Xing Meng looked at Tang Huan, and said in a low voice, "These two methods, are not only effective towards your master, but also towards you. The 'soul imprint' that Fen Tian condensed in your body can only be eliminated by using these two methods."

Hearing this, Tang Huan could not help but smile bitterly.

The second method, in the current small world, was also something that no one was able to accomplish. Together, he and Xing Meng might be able to defeat Fen Tian, but the possibility of killing him was next to none.

If he wanted to kill Fen Tian, he had to become a real Heavenly Domain-level Expert!

"Heavenly Domain..."

Muttering these two words, Tang Huan's eyes suddenly lit up.

It was better to beg for oneself than for others! If he could step into the Heavenly Domain and kill Fen Tian, not only would his master be able to recover, the hidden danger in his body would also be eliminated. However, to do this, it would be best if he could surpass the Stage Nine and become a Heavenly Domain-level Expert before Fen Tian.

"Not the best, but the necessary!"

In a moment, Tang Huan could not help but clench his fists.

Fen Tian had now touched the threshold of the Heavenly Domain, and would likely take the last half step at any time. At that time, no one in this small world would be able to contend against him,

and disaster would probably befall himself and his master. Because, the soul imprint in his body and the soul energy in his master's body, allowed Fen Tian to sense his position with his master at any time. Only by advancing to Heavenly Domain before Fen Tian, would he be able to take the initiative.

"Aunt Xing, if I want to break through to the Heavenly Domain Realm, do I have a suitable place to go?" Tang Huan was already feeling angry at the bottom of his heart.

"You want to do it yourself?" Xing Meng and Hei Yan were both stunned.

"That's right!"

Tang Huan clenched his teeth, "I have to be ahead of Fen Tian and step into Heavenly Domain. Once Fen Tian succeeds, I will probably be at his mercy."

When Xing Meng heard this, his expression slightly changed. Clearly, he had also realized the difficult situation Tang Huan was currently in.

"If you want to step into the Heavenly Domain realm faster, there is one place you can go. However, that place is extremely dangerous, even if you have the cultivation of Peak Stage Nine, you can die at any time." After a long while, Xing Meng finally said with some worry as her brows tightly knitted together.

"Aunt Xing, what kind of place is that?"

"Turbid Sea Area!"

"..."

Chapter 605 - Turbid Sea Area

The vast ocean seemed endless.

"Whoosh!"

Thousands of meters in the sky, there were countless soft sounds. The Space Aircraft dragged a green glow with it as it moved quickly through the sky like a meteor.

Inside the Space Aircraft, Tang Huan sat in front of the round center stage with a solemn expression.

In front of an almost transparent wall, Feng Ming was seated cross legged, and her beautiful face was also filled with a solemn expression. Seeming to have been infected by Tang Huan and Feng Ming, Xiao Budian quietly sat at the side as his large eyes continuously rolled around.

Right now, they were on their way to the Turbid Sea Area.

At first, Tang Huan only planned to go alone, since it was too dangerous. However, after thinking about it, his master's soul was restricted by Fen Tian's soul force, so whether it was leaving him in the Origin Continent or inside the Glory Continent, it was possible for him to be found.

As for Feng Ming, Tang Huan originally wanted her to stay in the continent, but she insisted on going with him, so he could only let her do it in the end.

"I think we'll soon reach the 'Storm Eddy'." Feng Ming suddenly opened her mouth, her voice uncontrollably tinged with an additional sense of nervousness.

"I feel it already."

Tang Huan squinted as a strange look flashed past his eyes.

Just at this moment, he suddenly realized that the Space Aircraft was already covered by a surge of sucking, and that the force was not considered strong, obviously the aircraft had only just entered the borders of the sea that the "Storm Eddy" could affect.

According to what Xing Meng had revealed, the "Storm Eddy" was around a hundred kilometers in radius, but the surrounding five hundred kilometers of sea area were all affected by the vortex energy.

Right now, the Space Aircraft was still a thousand miles away from the whirlpool.

At this time, if he wanted to get rid of the power of the sucking, it would be very easy. However, Tang Huan was not in a rush to avoid the whirlpool, and continued to advance along with the power of the sucking.

He wanted to see the "Storm Eddy" in front of him, to see just how strong the sucking's power was. This place was not even considered a "Turbid Sea Area", and there was only one "Storm Eddy". However, once one entered a true "Turbid Sea Area", "Storm Eddy" would be one after another.

Now that he tried it, he knew what he should do. After he entered the dangerous "Turbid Sea Area", he could deal with it more easily.

"Whoosh!"

The Space Aircraft continued to move forward and Tang Huan felt the power of the sucking gradually increase. Thousands of meters below him, the sea water had already started to follow the flow of the whirlpool.

After another long moment, the spot where Hai Tian had crossed paths with him suddenly caved in.

It was as if a huge, deep pit had suddenly appeared at the bottom of the sea. Countless amounts of sea water spiraled down from the surroundings, forming an abnormally huge whirlpool with an incomparably frightening momentum.

The air above the whirlpool seemed to have been stirred up to a terrifying degree as it condensed into a terrifying storm. The water in this area was also half as fast as the sea, and it actually reached up to thousands of meters in the air.

"Yiya!" Xiao Budian pointed to the whirlpool and shouted loudly.

"Storm Eddy!"

Tang Huan and Feng Ming shouted out at the same time. The Space Aircraft was still at least a hundred miles away from the "Storm Eddy", but even from that distance, the "Storm Eddy" that was imprinted in their eyes made them tremble in fear, they could not help but be shocked.

"Tang Huan, do you want to continue?"

Feng Ming swallowed his saliva and looked at Tang Huan subconsciously, both of his fists were clenched tightly.

Xiao Budian opened his mouth wide, his blue eyes looked towards Tang Huan, pinching his two little claws, with a nervous expression on his face.

"I can still take it. Move closer." Tang Huan nodded. At this moment, not only were Feng Ming and Xiao Budian extremely nervous, even Tang Huan himself had a tight grip on the heartstrings.

"Whoosh!"

The Space Aircraft continued to advance.

Tang Huan had already consciously slowed down the input of the Genuine Qi. The Space Aircraft's speed had initially decreased quite a bit, but following the unceasing increase in the sucking's power, the Space Aircraft had also gradually increased in speed. In just a dozen breaths of time, it had reached its previous state.

The closer they went, the more terrifying the "Storm Eddy" was. Unknowingly, Feng Ming's expression had already changed, and even Xiao Budian's eyes were filled with fear.

"Let's go!"

Tang Huan focused his eyes and suddenly shouted in a low voice.

In the next moment, within Tang Huan's Dantian, both the "Nine Yang Divine Furnace" and the "Five Colors Spiritual Pills" had already been operating to their limits. In an instant, the space began to shake violently. Amidst the sound, the aircraft shifted its direction from the north to the east and shot out explosively. In just a short two breaths of time, the Space Aircraft's speed suddenly increased by almost twofold.

Feng Ming and Xiao Budian held their breath, not daring to move, afraid that they would disturb Tang Huan.

"Whoosh!"

At that moment, Tang Huan did not dare hold anything back. Under his great strength, the Space Aircraft carried the terrifying power of the sucking and flew quickly. The sound of the sea below them became quieter and quieter, and one could see the distance between the Space Aircraft and the "Storm Eddy" increasing gradually.

When the sea recovered its calmness, Feng Ming's tight face finally relaxed, and she quietly moved her neck a few times.

"Finally out."

Tang Huan let out a long sigh of relief. Right now, he had completely gotten rid of the power of the "Storm Eddy", allowing him to feel relieved.

Although the process of leaving was smooth and smooth, he was very clear on the degree of danger involved. Just now, even if the Space Aircraft were to continue advancing another thousand or even a few hundred meters, the difficulty of Tang Huan controlling it would skyrocket, and it would be even more difficult to shake off the power of the sucking.

Looking at the scene in front of him, Tang Huan finally understood why the "Turbid Sea Area" was so hard to pass through.

This "Storm Eddy" between the three continents, namely Holy Spirit, Origin, and Destruction, could be considered small. It was only around the size of a hundred mile radius, and in the real "Turbid Sea Area", there were "Storm Eddy" with a radius of a hundred kilometers, and even more within a radius of a thousand kilometers.

Even coming close to such a small "Storm Eddy" was already so terrifying, let alone those larger "Storm Eddy".

What was even more frightening was that those "Storm Eddy" were extremely concentrated, and in that sea realm, Space Aircraft simply could not fly high into the sky.

Ten thousand meters in the air, was indeed not affected by the "Storm Eddy", but there was an abnormally wild and violent astral wind there. Even if it was a Space Aircraft, it was possible that it would completely shatter under the astral wind. According to Luoyu, the reason why the aircraft was harmed was because of the astral winds.

Amongst the dangers of the "Turbid Sea Area", Storm Eddy and astral winds were only two of them.

"Tang Huan, once you enter the real 'Turbid Sea Area', you can lose your life at any time, and you still insist on going?" Feng Ming suddenly laughed.

"Of course!"

Tang Huan looked at the tall and sturdy figure of his master in the corner and nodded without hesitation. That day, when Fen Tian sensed his Sword Soul, she fearfully retreated. However, that did not mean that Fen Tian would always be afraid. If one could not step into Heavenly Domain, the only road left for them was death.

In that case, he might as well take the risk!

Chapter 606 - Vicious Beasts

"Wuuuuuu ~ ~ ~"

Several days later, in the evening, on an island that had a radius of several miles, an extremely piercing wuwu sound pierced through the void, directly piercing into the heavens.

In the northern part of the island, a strange looking beast was roaring continuously. In front of him, Tang Huan and Feng Ming had already summoned their Divine Armament. Between two giant boulders that were hundreds of meters away, Xiao Budian was holding onto Space Aircraft, sticking his head out and peeking his neck out as he watched.

After walking for two days while controlling the Space Aircraft, Tang Huan and Feng Ming finally saw the real "Turbid Sea Area", and they entered the border region of "Turbid Sea Area".

After carefully moving through the "Storm Eddy" for half a day, the two of them finally found a place to rest. This island was located between the two "Storm Eddy" of the north and the south. Furthermore, the power of the sucking that originated from both sides stopped at a place fifty kilometers away from the island.

This was the reason why this island had always existed.

However, as soon as the two of them exited the Space Aircraft, they were discovered by the huge beast.

Whether it was Tang Huan or the others, this was the first time they had seen such a vicious beast's appearance. Its mouth was long and pointed, its head was flat, its body was fat like a crocodile, but its body was covered with pitch black scales.

Just then, the front half of the gigantic beast's body was already on the rocks by the shore, while the other half was still in the water, its bloody mouth had already opened wide for Tang Huan and Feng Ming, its fangs ferocious, saliva was continuously dripping from its mouth, making it look extremely fierce.

"I'm afraid this beast possesses the strength of the Peak Stage Nine."

Tang Huan squinted his eyes and said.

His strength was not weak when compared to the Peak Stage Nine Beasts like the "Special Devil Ape". This caused Tang Huan to grow a sense of vigilance in his heart, the "Turbid Sea Area" of the fierce beasts was definitely stronger than the ones on the continent; to be able to survive in such a dangerous environment was something that could not be casually compared to.

Tang Huan had a feeling that the ferocious beasts here definitely had an unimaginable Perception Ability. After all, this place was filled with "Storm Eddy", if the "Perception Ability" was slightly weaker, then it might be sucked in by the "Storm Eddy" and disappear without a trace.

"Wuuuuuu ~ ~ ~"

The moment Tang Huan's voice fell, Feng Ming did not even have time to reply before the huge beast roared once again. Immediately, a terrifying aura spread out from its enormous body, which instantly transformed into an extremely violent storm, howling forward as if it wanted to tear Tang Huan and Feng Ming into pieces.

"imposing manner?"

Tang Huan and Feng Ming quickly exchanged glances, their expressions suddenly changing. It was normal for a Stage Nine Ranker to have an imposing aura, but it was the first time they had seen one with a ferocious beast's imposing aura. If fierce beasts could condense 'potential', didn't that mean that they would have the chance to step into the Heavenly Domain as well?

However, Tang Huan and Feng Ming did not have much time to think about it.

"Hu!"

Tang Huan's pupils abruptly shrank and within his mind instructs (in a second), a similarly terrifying storm of aura swept out from his body. Almost at the same time, the Conqueror Spear in his hands released an excited buzzing sound and a brilliant red light exploded outwards, illuminating the surrounding area of several tens of meters.

The Flame Dancing Sword in Feng Ming's hand also buzzed and a red light shot out in all directions.

However, she did not attack together with Tang Huan. At this time, she focused her attention on her surroundings to prevent any more Vicious Beasts from rushing out of the sea.

In a split-second, the two auras fiercely bombarded each other.

Following that, a terrifying wave of energy spread out from the point of collision, creating an even more violent storm. Countless pieces of sand and stones were sent flying high into the air.

"Chi!"

Right at this moment, a sharp cry suddenly burst forth, Tang Huan's spear shot out like an angry dragon bursting out of its lair, the blazing flames on the tip of the spear spinning at a rapid speed, in the blink of an eye, it turned into a sharp awl, bringing about an incomparably strong heat wave that shot out explosively.

At that time, Tang Huan almost did not hold back at all, for one, he used the Spear Technique's "True Flaming Rainbow" style.

"Howl!"

The beast let out a high-pitched cry, and when it was in the air, its thick and long tail had actually swept back, ripping apart the blazing storm, fiercely smashing onto the Flaming Pointed Awl.

Instantly, the sound of explosions rang out in the air. Under the attack of the huge beast's long tail, the Flaming Pointed Awl actually exploded into pieces, and the huge beast Pang Shuo's body also fell down heavily. After a "bang", the island trembled, and sand and rocks scattered in all directions.

Tang Huan's heart trembled, his footsteps sped up, and before the figure in front of the huge beast could dissipate, he had already traversed twenty to thirty meters and appeared on the right side of the huge beast. The long spear seemed to have merged with the surrounding space, and with an astonishing speed, it pierced towards the belly of the huge beast.

"Howl!"

However, the gigantic beast seemed to have sensed something, and turned its head, its lantern-like eyeballs stared straight at Tang Huan, following that, its front paws slammed onto the ground, causing a rock the size of a dustpan to fly up, and pummel Tang Huan hard.

Tang Huan's movements changed, the Conqueror Spear swept across like a dragon swinging its tail.

Bang! The stone immediately crumbled into fine powder, but Tang Huan did not slow down at all. With a light shake of his wrist, the long spear, like a spring, suddenly plunged down, once again stabbing towards the stomach of the gigantic beast. On the tip of the spear, the flames suddenly soared, the heat seemed to be able to melt the space around it.

"Hu!"

The beast's long tail lashed out once more.

Not only that, it pounced ferociously with its bloody mouth. At that instant, the huge beast's body was bent into a semicircle.

A cunning look flashed across Tang Huan's eyes. With a step, his body suddenly appeared next to the gigantic beast's neck.

The gigantic beast seemed to have sensed him and wanted to twist its body, but the powerful inertia could not be changed immediately, the afterimages that Tang Huan had left on the ground were still shattered by the gigantic beast's tail. Right at this time, the long spear in Tang Huan's hand pierced through the huge beast's bloody mouth at an angle, and was actually as fast as lightning.

"Wuuuuuu ~ ~ ~"

The huge beast screamed as it suddenly closed its mouth. Its sharp fangs had actually firmly stuck onto Tang Huan's Conqueror Spear, slashing its tail at Tang Huan for the third time.

Seeing that, Tang Huan's face darkened.

Whoosh! In the next moment, Tang Huan was already in the air, a pair of wings on his back extended outwards at the same time, and below, from the mouth of the beast that was biting onto the Conqueror Spear, a dark red flame appeared. It quickly spread, and in the blink of an eye, it covered the entire head of the beast.

The gigantic beast seemed to be in extreme pain. Its body bounced up abruptly and crashed down heavily onto the ground, stirring up countless of sand and rocks. The Conqueror Spear that was bit in its mouth was also blown away. Then, Tang Huan extended his hand out and grabbed, causing the Conqueror Spear to fly into the air like a spirit object, straight into his palm.

Chapter 607 - Fighting

"Wuuuuuu ~ ~ ~"

A mournful roar resounded through the sky as the gigantic beast suddenly dove into the sea.

In the blink of an eye, the surface of the sea began to churn violently. However, the ball of flames did not extinguish. A dazzling red ball could still be seen through the water. Not long after, the red ball of light floated up into the air. At the same time as it floated up to the surface of the sea, there was also the gigantic beast's body.

At this moment, the gigantic beast's head had already been completely incinerated, and the flames continued to spread.

After about ten breaths of time, the body of the huge beast, Pang Shuo, completely disappeared and the ball of fire gradually melted on the surface of the sea.

Tang Huan heaved a sigh of relief, and floated down to the ground.

The flesh body of the fierce beasts in the Turbid Sea Area were actually even stronger than the s, Savage Heavenly Corpse s and Rocky Devil Spirit s.

The same "Nirvana Sacred Fire" had burnt the bodies of Eight Remoteness Dragon King and the others within a moment, and the duration of this fierce beast was at least three times longer than theirs. And this was just a random fierce beast he met, the "Turbid Sea Area" had countless stronger fierce beasts.

Suddenly, Tang Huan became a little excited. No wonder the Aunt Xing said that if he wanted to step into the Heavenly Domain realm even faster, he had to come to this "Turbid Sea Area".

Training in a dangerous place and lingering between life and death was indeed the best way to break through.

However, this method was extremely dangerous. From ancient times till now, there were countless Stage Nine Rankers who came here with the same thought as Tang Huan. However, the number of people who were able to successfully achieve their goals could be counted on one's fingers. The vast majority of them died in this sea.

"Yiya!"

Xiao Budian's body had already returned to normal. Carrying Space Aircraft, he flew in front of Tang Huan, his two little claws slapping his chest, his eyebrows dancing in joy.

"Tang Huan..."

Feng Ming also floated over, but before she could finish speaking, her voice suddenly stopped, and a look of doubt flashed in her beautiful eyes.

But at this moment, Tang Huan seemed to have sensed something, and his brow slightly rose:
"Next, we have some work to do."

"Hmm?"

Feng Ming looked at Tang Huan in surprise, then immediately followed with a frown. On the sea surface tens of metres behind Tang Huan, a black figure with a long pointed mouth and a flat head actually appeared, looking exactly the same as the beast that was killed by him just now.

Did that fellow's companion come for revenge?

Just as this idea surfaced in his mind, Feng Ming's beautiful face immediately changed color. Following after the black figure, one after another, ferocious beasts with similar physiques floated up to the surface of the sea. Feng Ming slightly counted, and within his line of sight, there were more than a dozen of these fierce beasts.

"So many?" Feng Ming could not help but exclaim, but Xiao Budian was stunned, and blankly stared with her pair of deep blue eyes wide open.

"You see only a small part of it." Tang Huan laughed.

"Hiss!"

Feng Ming turned around in understanding, and couldn't help but take in a breath of cold air in the next moment.

In an even wider area behind them, there were dozens of long-tongued, flat-tongued beasts gathered together. It looked like a black mass of beasts.

There were at least over a hundred ferocious beasts in this group.

"Wuuuuuu ~ ~ ~"

After a short moment, on the surface of the sea, hundreds of ferocious beasts suddenly opened their bloody mouths and roared at the same time. After a short moment, on the surface of the sea, hundreds of fierce beasts suddenly opened their bloody mouths and roared at the same time.

"Crash!"

In the next moment, all of the fierce beasts broke through the surface of the water and landed on the island. They madly rushed towards Tang Huan and Feng Ming, and stomped down with their huge feet.

"Yiya!"

Xiao Budian was so frightened that he trembled. He immediately threw away the Space Aircraft on his back and slipped through the front of Tang Huan's chest like a wisp of smoke.

"Buzz!" Amidst intense trembling sounds, the Space Aircraft floated to the air above their heads. The resplendent green light it emitted instantly condensed into a long vortex.

"Xiao Budian, you go in first."

Holding Xiao Budian's Golden Horn, he pulled it out from his chest and threw it into the whirlpool.

"Feng Ming, bring this thing up there." In the next moment, the vortex disappeared, and Tang Huan handed the Space Aircraft over to Feng Ming.

"Tang Huan, what about you?" Feng Ming caught the aircraft and asked.

"Me?"

Tang Huan laughed loudly, the fighting spirit between his brows flourishing, "The reason why I came to 'Turbid Sea Area' is to find the opportunity to break through in the face of death. Now that the battle is here, how can I avoid it? Now, I'll properly take care of this group of fierce beasts and see to what extent can they be forced to? "

"Whoosh!"

Just as he finished speaking, Tang Huan shot forward like an arrow, the Conqueror Spear in his hand danced quickly, the flames rapidly expanded, after that, an extremely condensed fireball shot out from the tip of the spear, like a meteorite falling from the sky, it smashed into the fastest ferocious beast.

And then, an extremely fierce battle broke out on the island.

Wuthering sounds, roars, colliding sounds, shouts, screams ... On the island that rose and fell from the sky, smoke and dust billowed as numerous figures rapidly churned.

Several hundred meters in the air, Feng Ming held the Space Aircraft in her hands as she flapped the fiery red wings on her back gently. Her beautiful eyes did not blink as her gaze continuously chased after the familiar figure on the island.

Amongst the hundreds of large sized beasts, Tang Huan was like a ghost as he jumped up and down like a rabbit, quickly moving and jumping. The Conqueror Spear in his hands also flew up and down, spinning left and right. This Divine Armament seemed to have turned into a living being in Tang Huan's palm, the tyrannical power was fully displayed, and from time to time, there were beasts that were swept away by the red lance and from time to time, a ball of flame would spew out from their bodies.

Before long, night had completely fallen.

The Conqueror Spear in Tang Huan's palm suddenly disappeared without any warning, and on the island, all sorts of attacking methods of the five elements magic appeared. Some were the "Fire Dragon Dance", some were the "Thorny Wood Forest", and some were the "Violent Waves Tsunami" ... Its power was ferocious, and the battle became even more intense.

After a long while, the magical attack disappeared, and Tang Huan's Conqueror Spear appeared again. Its long spear was like a dragon, the heat waves were monstrous, many of the fierce beasts were also roaring, their killing intent boiling.

Unknowingly, the island's height continued to drop, and the number of ferocious beasts on the island also gradually decreased.

Eighty, seventy ... Fifty...

After losing almost half of their companions, the surrounding fierce beasts could no longer hold on. First, they charged into the ocean with two or three sounds, then all the remaining fierce beasts abandoned Tang Huan and ran away one after another.

In just a few breaths of time, only Tang Huan was left standing proudly on the island that had risen to a radius of several tens of meters.

"We finally won!"

Feng Ming cheered as he swooped down. But right at this moment, Tang Huan suddenly fell to the ground, unmoving.

Chapter 608 - Red Top Golden Vulture

It was like he was in a trance...

Tang Huan seemed to have returned to the time when he had obtained the "Great Harmony Heavenly Classics" from the Forgotten City's Qiankun Building.

In the depths of Tang Huan's soul, the green, white, red and black colored auras converged together and formed a ball of yellow aura. The azure color represented the Azure Dragon, white was the White Tiger, red was the Vermillion Bird, and black was the Black Tortoise. The Azure Dragon was the Wood, the White Tiger was the Gold and the Vermillion Bird was the Fire, and the Black Tortoise was the Water. This was the merging of the four images into one, turning them into primal chaos.

The scene of the four images blending flashed by again and again.

After an unknown period of time, Tang Huan finally opened his eyes again. The first thing that entered his eyes was shockingly that Feng Ming's face that was like a flower and jade.

However, her dimples were currently filled with anxiety and worry.

"Tang Huan, you're finally awake." Seeing that Tang Huan had woken up, Feng Ming immediately let out an exceptionally happy cry, as the anxious expression on her face was completely gone.

"How long have I been asleep?"

Tang Huan suddenly flipped over and sat up. In the blink of an eye, he sized up the surroundings and discovered that he was right in front of an extremely irregular inside the cave. The outside of the cave was very high, but the inside was very low. It had a slope of a few meters. Tang Huan and Feng Ming were now at the bottom of the cave.

"Five days and five nights!" Feng Ming raised five of his fingers.

"That long?" Tang Huan was shocked, "This doesn't seem to be the original island?"

"Of course not."

Feng Ming said snappily, "After being tormented by you and those vicious beasts for so long, the sea surface area has been reduced by at least seventy percent, and there are corpses of ferocious beasts everywhere. If he continued to stay there, he might attract even more powerful people. After

you fall, I will fly with you for half a day before finally finding an island that is between the crevices of 'Storm Eddy.' However, this place is even more dangerous than the island previously. "

Saying that, Feng Ming could not help but let out a bitter laugh.

"Why?" Hearing that, Tang Huan could not help but be startled.

"You'll know when you see for yourself."

Feng Ming raised his hand and pointed outside the cave, Tang Huan puzzledly stood up and crawled to the cave entrance, upon closer look, he could not help but take a deep breath.

The cave was located on a cliff that was a hundred meters high, and on the beach a kilometer away from the cliff, there were groups of large and small golden figures crawling about. They were obviously birds of prey, and even though they did not make any movements at this time, Tang Huan did not think that they were dead objects.

Tang Huan did not need to count to know that there were at least a thousand flying beasts there.

The ones with large bodies should have already reached adulthood, up to several hundred. They were several times more powerful than the group of fierce beasts they encountered a few days ago. To be able to grow up in a dangerous place like the "Turbid Sea Area", these birds of prey would definitely not be weaker than the sea beasts.

"These are the 'Red Top Golden Vulture'." Feng Ming's rather helpless voice came from the bottom of the cave, "They all go out to look for food in the evening. They have almost returned in the morning, and I arrived at this place just as they were about to leave the island. These few days, I also thought about leaving while they were searching for food, but since I don't have a good place to go, I was worried that I would encounter them, so I didn't dare to act rashly. "

"Red Top Golden Vulture..."

Tang Huan muttered softly as he slipped back into the cave.

"I have once seen two fierce beasts of this age in the Tranquil Continent's 'Endless Ruins'. Each of them had the strength comparable to a Stage Nine Demon King. In here, a mature 'Red Top Golden Vulture' would definitely be even more powerful, and would be comparable to a Peak Stage Nine Demon King. "

Feng Ming said faintly, "Tang Huan, you can't be thinking of fighting them again this time, right?"

"How is this possible?"

Tang Huan laughed, "I am here to gain experience, not to send myself to my death!"

If there were only a hundred or so "Red Top Golden Vulture", he could give it a try, but there were at least a few hundred adult "Red Top Golden Vulture" here. If they still charged out to fight with them like a few days ago, then he would be no different from a fool. Practicing life and death in a life and death situation was not tantamount to courting death.

In the fierce battle a few days ago, the speed at which Tang Huan's "Nine Yang Divine Furnace" operated had once again surpassed his limits.

Thus, he finally fainted. Not only did he recover his full strength, the side effects of the Nine Yang Divine Furnace's overdrive was also completely gone. Most importantly, after he woke up, Tang Huan realized that there was a miraculous change in his Dantian.

This kind of change in the Five Colors Spiritual Pills had happened once before, after the battle with Fen Tian. However, it wasn't as obvious as this time.

Tang Huan knew that this was definitely the effect of the "Great Harmony Heavenly Classics".

This also allowed Tang Huan to understand one thing. Making the "Nine Yang Divine Furnace" operate at a speed that exceeded his own limits, could speed up the "Great Harmony Heavenly Classics" cultivation. This also made Tang Huan eager to continue fighting like he did a few days ago. Maybe after a few more times, he would be able to successfully cultivate the "Great Harmony Heavenly Classics".

"That's good." Feng Ming heaved a sigh of relief, and a smile appeared on her beautiful face.

"We will enter the Space Aircraft first, and wait for them to go out at night to look for food, then we can leave."

"..."

Sunlight gradually slipped out of the cave and without realizing it, the inside the cave had become drowsy. Outside the cave, the sky had also darkened.

"Screech!" "Screech ~ ~ ~"

At first, there were only a few "Red Top Golden Vulture" calling out, but after a moment, hundreds of "Red Top Golden Vulture" began calling out at almost the same time, the sharp sound wave shot up to the sky, as if it could pierce through the blue dome of heaven.

Not long after, the concentrated sounds of the wailing gradually disappeared into the distance.

After a while, the night sky had completely fallen, and in the depths of that pitch-black cave, a green ball hidden between the cracks of the rocks suddenly flickered, emitting an intense trembling sound. In an instant, an exceptionally bright green luster exploded forth, illuminating the entire cave.

"Whoosh!"

In the next moment, the ball of green light had already turned into a streak of light, rushing out of the cave and into the dark sky.

Inside the Space Aircraft, Tang Huan pressed both of his hands on the center of the round platform, while his two eyes passed through the transparent wall and paid close attention to the situation outside. After circling around the island, Tang Huan had already chosen a direction and flew away with the aircraft.

However, before even a quarter of an hour had passed, Tang Huan and Feng Ming's expressions changed. In the night sky to their left, a golden figure had actually whizzed over, and in that golden area, there were striking red dots mixed in. The "Red Top Golden Vulture" that had not been gone for long, had actually come back?

PS: Thank you very much for your concern, mainly because this is already the second time. Once at the beginning of the year and once at the end of the year, so I am especially worried. As long as you

have free time these days, you will be able to write as many characters as you can. Thank you for your understanding.

Chapter 609 - Undersea World

"Red Top Golden Vulture? "What's going on?" Feng Ming could not help but exclaim.

"Yiya!" Xiao Budian was also shocked.

"Our Space Aircraft should not be attacked by any attacks, right?"

Tang Huan frowned, he did not immediately turn back, and instead stopped in mid air. Turning around and avoiding this might even arouse their curiosity.

The speed of the "Red Top Golden Vulture" had reached an extreme, and even compared to the speed of the Space Aircraft, they were not any slower. In just a short moment, the distance between the two sides had been reduced by almost half and the appearances of the "Red Top Golden Vulture" at the very front could faintly be seen.

Their bodies were huge, and their wings were at least ten meters long. Other than the bulbous crown on their heads, which revealed a bright red color, the feathers on their bodies, their feet, and even their mouths were shining with a golden luster, which was exceptionally eye-catching under the night sky.

Moments later, more "Red Top Golden Vulture" began to howl as they flew in from the left and right, bringing about waves of unusually violent gales.

In just ten short breaths of time, all the "Red Top Golden Vulture" had already flown away.

From beginning to end, the Space Aircraft was not attacked.

"They seem to be running for their lives?" Feng Ming suddenly spoke out, her beautiful eyes revealing a look of doubt.

"Indeed."

Tang Huan subconsciously nodded his head. Just now, every single "Red Top Golden Vulture" he saw had eyes that seemed to be filled with panic. Some of the adult "Red Top Golden Vulture" even had some little fellows lying on their backs.

Two pairs of eyes pierced through the transparent wall and looked in the direction where the 'Red Top Golden Vulture' had escaped from. Tang Huan's heart was filled with suspicions.

"Yiya!" "Yiya ..."

After a short while, Xiao Budian started to shout anxiously, her two little claws gesturing nonstop, as though she was urging Tang Huan to leave.

Seeing that, Tang Huan's heart skipped a beat, and he subconsciously looked at Feng Ming, then looked at him again.

Xiao Budian was extremely strong against the dangerous Perception Ability. Even though it was inside the Space Aircraft, the moment danger arrived, regardless of whether it came from inside or outside of the space, it would still give off a warning sign. The last time it was in this space, the reason it was grabbed by Mo Qi was because Mo Qi's evil idea came too suddenly, causing it to be unable to react in time. And now, Xiao Budian could clearly sense the danger.

"What's that?" Feng Ming's beautiful eyes suddenly became round.

"Hmm?"

Tang Huan's brows slightly jumped, and his pupils suddenly shrank.

At the end of his line of sight, there seemed to be a black tornado sweeping towards him. It filled the entire sky, and wherever it passed, the sea waves were at least a thousand meters tall. At the moment, inside the Space Aircrafts, there was no sound at all, but outside, the tornado had stirred up a terrifying commotion.

At this moment, Tang Huan could already feel an extremely strong pulling force, as if it was going to drag the Space Aircraft over.

"Let's go!"

Tang Huan no longer hesitated. In between mind instructs (in a second), an even more majestic Genuine Qi was injected into the center of the round platform, in an instant, the Space Aircraft had already turned around and chased after the group of "Red Top Golden Vulture". In this "Turbid Sea Area", as a native, was much more familiar with the surrounding area than Tang Huan. It would be safer to follow their escape routes.

"Whoosh!"

The Space Aircraft's speed had already reached its limit, and not long later, that gold light once again appeared in front of Tang Huan's eyes. However, the suction force that swept over from behind was still there, showing that the black tornado was also gradually increasing its speed.

Those "Red Top Golden Vulture" also seemed to have noticed and flew even more desperately.

Tang Huan quickly discovered that they were not heading to the island they had previously lived on. Although he was a little surprised in his heart, Tang Huan still followed closely behind.

Not long later, Tang Huan closed the distance between them by dozens of metres.

However, at this moment, the "Red Top Golden Vulture" at the very front suddenly dove down from the sky. When they were still ten meters away from the sea surface, they retracted their wings, straightened their bodies and like arrows, they smashed into the sea. In an instant, they were covered by the sea water and disappeared without a trace.

The "Red Top Golden Vulture" behind him also followed suit. In the blink of an eye, all the "Red Top Golden Vulture" had fallen into the sea.

"What are they doing?" Feng Ming was extremely suspicious.

"Yiya?"

Xiao Budian also opened his mouth wide in shock, his dark blue eyes widening even wider.

Tang Huan was also surprised, but, that "Red Top Golden Vulture" definitely did not commit suicide by throwing themselves into the ocean, they would definitely do so for their own reasons. Therefore, just like the "Red Top Golden Vulture" before him, the Space Aircraft only paused for a moment before diving into the sea.

The sea water surged, the resistance was extremely strong, the aircraft's speed immediately decreased by quite a bit.

Fortunately, even after entering the pitch-black sea, one could still see the golden figures in front of them. The group of "Red Top Golden Vulture" continued to dive deeper.

However, after a short while, Tang Huan and Feng Ming surprisingly realised that the golden figures were disappearing one by one. Without hesitation, Tang Huan controlled the Space Aircraft and followed it. After a flick of a finger, Tang Huan felt as if the aircraft had entered a whirlpool.

Tang Huan greatly reduced the input of the Genuine Qi, and no longer forcefully controlled the aircraft to resist the pulling force of the vortex. In the next moment, the Space Aircraft had already started to spin according to the vortex. Inside the cyan space, Tang Huan, Feng Ming and the others also began to quickly spin.

In the blink of an eye, several hours passed

Tang Huan suddenly felt the aircraft lighten, and the pulling force around it suddenly disappeared. Evidently, it had already charged out of the whirlpool.

"Yiya?" After a short moment, Xiao Budian cried out in surprise.

"This is ..."

At this moment, in the world outside the Space Aircraft, the darkness had already been replaced by daylight. What appeared before Tang Huan's eyes was no longer the endless ocean water, but instead an endless expanse of green.

It was actually a forest.

Golden figures could be seen in the sky above the forest. They should be the group of "Red Top Golden Vulture" that entered earlier.

Tang Huan and Feng Ming exchanged looks of surprise.

"Luo Fu World?"

The next moment, the two of them said the two words at the same time.

Tang Huan and Feng Ming had obviously thought of the same thing, and there was a high possibility that this place was an independent space like the "Luo Fu World".

"Yiya!"

Abruptly, Xiao Budian's anxious voice roused Tang Huan and Feng Ming from their stupor. In the blink of an eye, they looked over, only to see the "Red Top Golden Vulture" pouncing towards them from the front.

Chapter 610 - Danger

"This is bad!"

Tang Huan's face sunk. Just as he was about to increase the distance, he felt the Space Aircraft sink. It was obvious that it had suffered an attack from the "Red Top Golden Vulture". Without waiting for Tang Huan to stabilize himself, the Space Aircraft rushed forward again. This attack came from behind.

Immediately after, a curved beak like a "Red Top Golden Vulture" in front peck over, and the Space Aircraft that had just charged a few dozen meters away immediately shot backwards.

"Yiya?"

In the cyan space, Xiao Budian couldn't stand steadily either. He immediately jumped onto Tang Huan's shoulder and hugged his neck tightly with his two little claws.

However, Tang Huan and Tang Huan frowned and laughed bitterly.

Outside, the "Red Top Golden Vulture" treated the Space Aircraft as a toy and pecked it all over the place.

Inside the aircraft, Tang Huan could only see ahead. He was completely unaware of the situation around him, and under such circumstances, his extremely strong Perception Ability did not have any place of use either. It was impossible for him to dodge the pecking blows of the "Red Top Golden Vulture".

Tang Huan's brows furrowed even tighter. It had only been a little while, and his expression had already become rather unsightly.

Even though this Space Aircraft had already been repaired by Tang Huan, due to the lack of the most important materials, its stability was completely incomparable to before. This was the reason why it no longer possessed the ability to traverse the "Turbid Sea Area" and could only roam around the borders of this sea.

The pecking from the "Red Top Golden Vulture" outside was always heavy and powerful, it was fine for a short period of time, but if it continued for too long, the aircraft would definitely collapse.

The most troubling thing was that these Space Aircraft were not Divine Armament like Conqueror Spear s and Flame Dancing Sword s, they did not have the ability to attack. Although when activated with full strength, they could rely on their shocking speed to attack, allowing them to do so with terrifying killing intent, the killing power was mutual.

If he killed a few 'Red Top Golden Vulture' that were comparable to Peak Stage Nine Rankers, this Space Aircraft would probably be repaid.

"Feng Ming, you and Xiao Budian stay inside. I'll go take a look!" When the aircraft descended again, Tang Huan immediately made a decision. He handed Xiao Budian over to Feng Ming, and in the next moment, the top of the cyan space started to fluctuate rapidly like ripples.

"Be careful!"

Feng Ming warned her. This time, she did not request to go out with them. If it were only a few dozen "Red Top Golden Vulture", she could still help out by following them. However, there were a thousand "Red Top Golden Vulture" outside.

"Yiya!" Xiao Budian's head was nodding like a chicken pecking rice.

"Don't worry, killing those 'Red Top Golden Vulture' outside is unlikely. However, escaping isn't a big problem."

Tang Huan laughed heartily. Almost at the same time he finished speaking, his figure had already risen into the air and disappeared within this cyan colored space. Without even a blink of an eye, Tang Huan's figure had already appeared in the sky above the forest while condensing a pair of wings on his back.

All the surrounding Red Top Golden Vulture were stunned, seeing this uninvited guest who seemed to appear out of nowhere, all of their golden eyes were filled with astonishment. The "Red Top Golden Vulture" who was closest to the aircraft and was stretching his neck and mouth to touch it was even more shocked.

"Hu!"

However, Tang Huan did not hesitate at all. He grabbed onto the Space Aircraft and shot it towards the forest like an arrow that had been shot from a bow.

"Screech!" "Screech ~ ~ ~"

In an instant, the many "Red Top Golden Vulture" seemed to have awoken from a dream as the sharp cries became one, as if they were about to stab holes into the sky. Immediately, one golden figure after another rushed down from Tang Huan's back, those golden eyes were filled with a human-like anger.

Tang Huan's speed was unbelievably fast, after a moment, he had already disappeared into the forest, his two wings dissipating at the same time.

"Hu!"

Tang Huan's footsteps did not pause at all, as he continued to advance in the mysterious rhythm. In the next moment, Tang Huan's true body had already appeared several tens of meters in front of him, and it was also at this time that an intense storm was set off behind him.

It was obvious that the "Red Top Golden Vulture" had caught up!

The strong wind whistled, and the crackling sounds were like thunder, rising and falling, the leaves flying, the trees falling, the forest below Red Top Golden Vulture, everything turned into chaos in an instant.

"Whoosh!"

Tang Huan moved through the forest like a bolt of lightning.

At this moment, Tang Huan's speed had already reached its limit, the dim light did not affect him in the slightest, and was practically running non-stop. Behind him, a huge commotion was constantly following him, and "Red Top Golden Vulture" was completely infuriated as sharp bird cries sounded out one after another.

Both sides continued to chase at breakneck speed. After a short while, they had already traveled several hundred li. Wherever they went, those towering ancient trees that had been growing for countless years all suffered. The obstructions from the trees still had an effect on the Red Top Golden Vulture as the distance between the two parties quietly widened to over a hundred meters.

Once again, he rushed up the short mountain ridge. Suddenly, he saw many humongous peaks appearing in his line of sight.

In between the mountain ranges, the terrain was much more complex, and it was easier to get rid of the group of 'Red Top Golden Vulture' behind them than in the forest. As long as he could get out of their sight, Tang Huan could find a chance to completely hide his Qi, and completely shake them off.

Tang Huan's body was like a stream of light, and in a short period of time, he had already traversed several thousand meters of forest and entered the midst of the mountain peaks.

"Hmm?"

But just at this moment, Tang Huan was stunned.

He suddenly realized that the loud noise that was created by the "Red Top Golden Vulture" had disappeared without him realizing it. Turning his head to look, he saw that a thousand meters away, the group of "Red Top Golden Vulture" that was flying close to the forest had already ascended to the sky and were circling around continuously. However, none of them continued to fly forward, as if there was a thick and invisible barrier that blocked all of them.

In that moment, a sense of warning rose up in Tang Huan's heart. Almost as if he had a conditioned reflex, he turned his head around, and his Perception Ability rose to the limit in an instant.

"Roar!"

A moment later, a roar suddenly burst out from the mountain peaks, as if some huge beast had suddenly awoken from its slumber. The sound was faint at first, but it became stronger and stronger. After about two to three breaths of time, the roar was earth-shattering, as if it was going to split the sky.

High up in the sky, the group of "Red Top Golden Vulture" suddenly turned around at the same time, flying towards the direction they had come from, and didn't dare to stay for even a moment longer.

Tang Huan did not sense the escape of the "Red Top Golden Vulture". His eyes stared straight ahead as he sensed an extremely dangerous aura.
