Chapter 621 - Five Colors Heavenly Domain

"Is this the realm of the Heavenly Domain?"

After a long while, Tang Huan finally came back to reality. In the Dantian, the Five Colors Spiritual Pills was still the same Five Colors Spiritual Pills, but in reality, it had undergone a tremendous change.

In the past, the Five Colors Spiritual Pills was like a solid ball, but now, the Five Colors Spiritual Pills was like a hollow ball.

Within the elixir, there was actually a tiny space. Within that space, the elementary form of "Tai Chi" could actually be seen. This was obviously due to the "Great Harmony Heavenly Classics" that was being practiced. Not only that, the current Five Colors Spiritual Pills had a incomparably close connection with his soul.

In between Tang Huan's mind instructs (in a second), the Five Colors Spiritual Pills was frantically revolving.

Whoosh! Instantly, an incomparably terrifying wave of Five Colors Odors surged out from the spirit pellet, with their body acting as the center and spreading out in all directions. In an instant, they had congealed into a gigantic round covers, covering an area of a hundred meters, which were extremely colorful, dazzling and enchanting.

"Heavenly Domain!"

Tang Huan suddenly opened his eyes. Compared to the half-finished state the fake Heavenly Domain was in before, the one he was using now was already extremely different.

Even though the fake Heavenly Domain from before had solidified, its essence was still its force. And the current Heavenly Domain, even though it was also formed from the force of nature, had fused with Tang Huan's power of the five elements. Tang Huan's mind had followed the expansion of the Heavenly Domain to every corner of the area.

Within this region, Tang Huan's Perception Ability increased explosively once again. At this time, even the slightest of movements could not escape Tang Huan's senses.

Even though there was still a gap between the first stage of Heavenly Domain and the little white rabbit, Xiao Budian, was still able to distinguish its light and steady heartbeat and breathing sounds. In the eyes of the current Tang Huan, the little white rabbit, who was a strong Heavenly Domain, seemed to no longer be as invincible as before.

This was the feeling of a true ruler.

He had originally thought that he would have to fight with the little white rabbit for a few more rounds before he could find an opportunity to step into the Heavenly Domain. However, the little white rabbit and Xiao Budian's fruit, which they brought back, allowed him to successfully break through.

This plan really couldn't keep up with the changes.

Tang Huan took a deep breath, calmed himself down, and with a slight thought, a position above the Five Colors Heavenly Domain began to fluctuate rapidly, and the extremely powerful energy immediately converged towards the center of the fluctuation. Not long later, another location in Heavenly Domain started to fluctuate intensely.

This was the method the Pterosaur used to control the Heavenly Domain when fighting him. It could be used to delay the opponent's attack.

This method did not have any profound techniques. The strong Perception Ability and mind allowed Tang Huan to easily execute it.

In the distance, the Pterosaur was dumbstruck.

Ever since it was able to activate the Heavenly Domain, it had experienced repeated failures and attempts. It took it a whole few years to finally use this method successfully, but this damned bastard was able to skillfully use this method right after he reached Heavenly Domain.

Being proficient in techniques was only one of them. The most frightening thing was that the pressure exuded by this bastard's Heavenly Domain was simply too frightening. Even though it was within the boundaries of the Five Colors Heavenly Domain, it could still feel a terrifying pressure that made even its heart tremble.

If he were to fight against this fellow now ...

Pterosaur couldn't help but shiver. Pang Shuo's body was curled up into a ball, and his pair of huge eyes revealed dense fear.

"Yiya!" "Yiya ..."

In front of Tang Huan, after a brief moment of shock, Xiao Budian couldn't help but shout out loud. Although it was unclear what the change in Tang Huan meant, it knew that Tang Huan's strength had increased by a huge amount. It was enough to understand this point.

After the initial shock, the little white rabbit's bright red eyes revealed a hint of joy. Then, its entire body began to stir.

"Goo —"

After a moment, the little white rabbit suddenly opened its mouth and let out an earth-shaking cry, shaking the sky like a thunderclap.

Tang Huan woke up from his stupor and looked towards the source of the voice.

Seeing the little white rabbit eager to give it a try, Tang Huan immediately understood its meaning. Laughing loudly, Tang Huan sprung up, the fighting intent in his chest rising, "Alright, let's fight again."

"Goo!"

Seeing that, the little white rabbit was even more excited, the Heavenly Domain slightly trembled, causing Xiao Budian's body to be squeezed out, while it himself dropped to the ground.

Almost at the same time, Tang Huan's Five Colors Heavenly Domain disappeared and the huge pressure instantly dissipated, "Xiao Budian, go to a place a bit further away."

"Yiya!"

Xiao Budian understood what Tang Huan meant, and immediately flapped his three pairs of wings, flying off into the distance. In the blink of an eye, he was already hundreds of meters away. The Pterosaur, who was already very far away, also hurriedly retreated, afraid that he would be affected by the battle between the two of them.

"Begin!"

Tang Huan bellowed, a dark red light flashed and the Conqueror Spear appeared in his hand. Following that, the Five Colors Heavenly Domain erupted like a volcano as it erupted from his body again, enveloping a hundred meter radius around it. This area was immediately filled with a tyrannical pressure.

"Goo!"

The little white rabbit let out a loud cry as its body turned into a white light and shot towards Tang Huan at an astonishing speed. The moment it kicked up, countless dust and sand on the ground were scattered about by Tang Huan's rapidly surging power of the Heavenly Domain.

As Tang Huan thought about it, the Five Colors Heavenly Domain started to fluctuate violently and in an instant, he couldn't help but reveal a hint of surprise and joy.

Last time, when he fought with the little white rabbit, the semi-finished Heavenly Domain only increased Tang Huan's Perception Ability, and had almost no effect on the little white rabbit. Within the range of Tang Huan's half finished Heavenly Domain, the little white rabbit was still moving freely. But now, Tang Huan could clearly capture the little white rabbit's trajectory of movement. With a thought, the energy that rippled out from all directions even decreased the little white rabbit's speed of teleportation.

"Chi!"

Tang Huan moved both his hands, and the Conqueror Spear thrust out. On the long spear, a red glow exploded outwards, and at the tip of the faintly trembling spear, a blazing heat swirled out, instantly turning into an exceptionally blazing fiery storm, as if it wanted to melt the surrounding space.

Although it was just a normal spear strike, no matter how fast the spear was shot, or how strong the Strength Qi and might it contained, they all had a qualitative leap compared to before. Wherever the spear passed, sharp whistling sounds resonated outwards, seemingly congealing into reality that tore apart the space.

On the opposite side, the little white rabbit stretched out her body and stomped her leg. Heavenly Domain seemed to have transformed into a sharp awl which carried a shocking amount of energy as it smashed into Tang Huan's Conqueror Spear.

With a deafening explosion, the Strength Qi began to wreak havoc as two figures shot out at the same time.

Chapter 622 - Xiao Ai

This space at the bottom of the sea was quite vast, covering an area of several thousand miles. At the western border of the space, a giant whirlpool was spinning rapidly.

As the night gradually passed, the sky became brighter and brighter.

"Whoosh!" "Whiz!"

In the air above the lush forest, two figures were flying over at a lightning speed. In an instant, they had already landed in front of the whirlpool. One of them was a slender young man around the age of twenty. He had a handsome face and had a cute little blue beast sitting on his shoulder. The other person was a young woman wearing red clothes. Her figure was tall and slim, and she had a curvy figure. In her hands, she was holding something that looked like a spinning top.

These two people were precisely Tang Huan and Feng Ming. The moment they landed, the wings on their backs receded.

Right now, it had been half a month since Tang Huan had stepped into the Heavenly Domain.

In this half month, Tang Huan and the little white rabbit practically battled each other every day. After every fight, Tang Huan's control over the Heavenly Domain would improve. Although his abilities in this area could not be compared with the little white rabbit, he had made tremendous progress compared to the beginning.

Tang Huan had very little knowledge about the realm of Heavenly Domain.

Based on the recent days of sparring with the little white rabbit, Tang Huan reckoned that the realm of the Heavenly Domain should be at a few levels, and he had just stepped into the initial stages of the Heavenly Domain. As for the little white rabbit's current realm, it was one level higher than his. As long as Tang Huan activated it, the Heavenly Domain would expand to the limits, enveloping an area of around a hundred meters. He tried to narrow the range of the Heavenly Domain, but unfortunately, he could not succeed even once.

However, the little white rabbit was different.

When Tang Huan first saw how small the little white rabbit's Heavenly Domain was, he thought that it was naturally so. Only a few days ago did he find out that it was the result of the little white rabbit's control. Under his request, the little white rabbit gave Tang Huan a demonstration once, and actually expanded the range of the Heavenly Domain to cover a radius of two to three hundred meters.

Afterwards, the little white rabbit slowly reduced the Heavenly Domain's circumference to a radius of about one meter.

The Heavenly Domain was compressed, but the power of the Heavenly Domain was increased instead of decreased. This made Tang Huan understand that the smaller the Heavenly Domain shrank, the more concentrated the energy would be. The little white rabbit's control over the Heavenly Domain s had already reached the point where it could send and receive things at will. Tang Huan was still rather far from such a realm.

Tang Huan didn't know anything about the way of cultivation in the future, but from looking at the little white rabbit, he could see the direction that he needed to work hard in in the future.

Furthermore, Tang Huan had not yet reached the level of a little white rabbit in the Heavenly Domain. In his first battle with the little white rabbit, Tang Huan was basically in a passive state receiving beatings. But in the past few days, relying on the Dantian's "Nine Yang Divine Furnace",

"Five Colors Spiritual Pills", and the powerful "Sun Spirit Body", Tang Huan and the little white rabbit were on par with each other.

Unfortunately, the little white rabbit did not seem to plan to leave this underwater world. This time, the 'abduction' could be considered a failure.

After the battle last night, Tang Huan bade farewell to the little white rabbit. He had once invited the little white rabbit to accompany him today, but it had not agreed to it. He had originally wanted Xiao Budian and the little white rabbit to be his companions, but now, they matched each other's strengths. One was an extremely strong Perception Ability, and the other one had astonishing combat prowess.

Of course, this kind of thing was entirely dependent on its own will. Forget about Tang Huan being unable to force the little white rabbit, even if Tang Huan was stronger than it, if it itself was unwilling, Tang Huan would still not force it.

"Yiya ..." Xiao Budian turned his head to look, and unwillingly called out.

"Don't be so reluctant. If we have the chance in the future, we can come here and visit it."

Tang Huan patted Xiao Budian's head and said softly. He also knew that after leaving the island world, he would not have the chance to come back.

Although he was already in the Heavenly Domain and the old man was inside the Space Aircraft, Tang Huan didn't dare to make a move. He was prepared to help his master break free from the shackles in his soul after his cultivation was stable and then treat the old fatty's injuries before taking care of Fen Tian.

Once these things were done, Tang Huan would enter the Ling Xiao Ancient Road.

If he was successful in reaching Forging God Great World, Tang Huan was afraid that he would never be able to return to this little world ever again. Even if he did, it would be unknown how many years later it would be.

"Yiya!"

Xiao Budian obviously knew that Tang Huan was trying to console him, and snorted depressingly.

Seeing it in such a state, both Tang Huan and Feng Ming laughed helplessly.

The little guy only had two friends of his own, one was a Rainbow Spirit Mouse, and should still be staying in Holy Spirit Continent with Mu Yan. It had not seen him for a long time, and the other one was the Flying Jade Hare.

Tang Huan pinched Xiao Budian's mouth. "Alright, alright, let's go back and check on the little white rabbit first before we go, okay?"

"Yiya!"

Xiao Budian's eyes lit up as he nodded excitedly.

Tang Huan was speechless. He and Feng Ming looked at each other and the wings on his back appeared. Just as he was about to rise into the air, a low growl came from afar.

"Gu — —" Immediately after, another familiar cry sounded out, the sound was rather soft at first, but after a moment, it was as though it was Lei Ming.

"Yiya!" Xiao Budian flapped her wings and soared into the sky excitedly.

"Little White Rabbit!"

Tang Huan's heart was also filled with joy, he looked up, to see a black shadow appearing in the sky, its speed was extremely fast, and not long later, its appearance was clearly visible, it was the Pterosaur, and on the head of the Pterosaur sat a white shadow, impressively it to be the Flying Jade Hare.

In just a few short breaths of time, the Pterosaur had landed in front of the whirlpool along with the little white rabbit. Xiao Budian could not wait and landed on the Pterosaur's head.

"Gu gu ..."

"Yiya?" "Yiya!"

"..."

On the head of the Pterosaur, the two little fellows were quickly communicating with each other. Xiao Budian was actually more and more excited.

Sensing the change in Xiao Budian's emotions, Tang Huan couldn't help but exchange a glance with Feng Ming, and saw a hint of happiness in the other party's eyes.

The abduction seems to have succeeded?

Just as this thought flashed through Tang Huan's mind, the little white rabbit jumped onto Xiao Budian's back and then, with a flap of its three pairs of wings, Xiao Budian arrived in front of Tang Huan and gestured excitedly.

"Little Bunny, do you want to come with us?" Tang Huan asked subconsciously. Although he had already guessed the answer, he still had to confirm it.

"Gu gu!" The little white rabbit grinned and nodded.

"Great." Tang Huan was overjoyed, then he suddenly thought of a question, "Little Bunny, how should we address you? Do you have a name?"

"Ai Ai, ai — —" The little white rabbit nodded again, releasing another sound from its mouth.

"Ai ai? Ai ai? Ai Ai? "

Tang Huan was startled for a moment, and then he couldn't help but smile, and said: "Okay, from now on we will call you 'Xiao Ai'." Seeing that the little white rabbit didn't seem to have any objections, Tang Huan pointed at the Space Aircraft and said, "Xiao Ai, let's go in there first, and then we can go out together."

Before long, one figure after another entered the Space Aircraft, and then the aircraft dove into the depths of the whirlpool like lightning, disappearing without a trace. At the edge of the whirlpool, the Pterosaur stuck his head out and looked around. After he was completely sure, he howled crazily as he charged into the sky, his voice filled with unconcealable joy and excitement.

Once the little white rabbit left, it became the overlord of this space. It was finally completely free!

Chapter 623 - Three Feet Thunder Eagle

Between Origin, Holy Spirit and Destruction, two thousand miles east of "Storm Eddy", was a towering mountain. It was like an incomparably large sharp sword that rushed out of the water surface, piercing straight into the sky.

On the peak of the mountain, a stone statue sat cross-legged quietly.

The statue depicted an old man in a white robe. His face was thin, his hair was white, and his eyes were slightly closed. He looked very lifelike.

"Hmm?"

Suddenly, a low cry rang out. The eyes of the stone sculpture were suddenly opened, revealing a pair of pitch black, deep eyes.

Immediately after, the old man in white seemed to have come to life. His beard and robes that seemed frozen started to flutter in the wind.

"Have you already stepped into the Heavenly Domain realm? "What a fast speed!"

Muttering softly, a satisfied smile appeared on the wrinkled face of the old man in white. "It's time to see this little rascal ..." Eh? This little guy actually ran all the way to the edge of Turbid Sea Area, you sure have guts. "

The white-robed old man was slightly surprised, but as soon as he finished speaking, he floated into the air as if he was as light as a feather and flew to the north ...

...

At the edge of Turbid Sea Area, on a desolate island.

"Crash!"

On the slightly undulating surface of the sea, a small wave suddenly splashed outwards.

Amidst the waves, a ball of green light actually rushed out like lightning and appeared in the air above the island. It was Tang Huan's Space Aircraft that looked like a top.

Inside the aircraft, Xiao Ai sat in front of the transparent wall.

Looking at the vast ocean outside, the little guy's eyes bloomed with a breathtaking light. His ears flapped rapidly, and his mouth opened widely as he cawed from time to time. He was inexplicably excited. On the right side of the little white rabbit, Xiao Budian responded incessantly.

"Come, let's go deeper into the Turbid Sea Area to take a look."

After seeing the actions of the two little fellows, Tang Huan laughed heartily. As he spoke, the Space Aircraft had already rushed up to a thousand meters high in the sky, like a ray of light, and flew away.

Time flowed like water, the aircraft shuttled swiftly between each Storm Eddy.

Now, Tang Huan's strength had greatly increased, and his control of the Space Aircraft had become even more proficient. Especially after Tang Huan had stepped into the Heavenly Domain, his Perception Ability had improved by leaps and bounds, allowing him to sense the auras of the outside world through the Spirit Map.

Through those fluctuations, Tang Huan was able to sense the existence of the Storm Eddy earlier and was also able to more accurately determine the power of the sucking produced by the Storm Eddy.

As a result, he was able to respond with ease.

"Whoosh!"

The Space Aircraft s were shockingly fast, Tang Huan's Genuine Qi and the Mind Power were being used alternately, but his current power recovery speed had finally caught up to his rate of consumption. This meant that Tang Huan could continuously use Genuine Qi and Mind Power, allowing the Space Aircraft to be in a state of flying speed at all times.

Day passed, and night came. Unknowingly, another two days passed.

In these past few days, the Space Aircraft had encountered many vicious beasts, either by themselves or in groups.

However, they were basically all Stage Nine Beasts, so Tang Huan wasn't too interested in them. The reason why he wanted to go deeper into the Turbid Sea Area was to see if he could find some of the Heavenly Domain Fierce Beasts's souls to forge an even stronger Divine Armament.

Originally, the Pterosaur in the underwater world had been a pretty good choice, but Tang Huan could feel that even though the Pterosaur had always been ravaged by the little white rabbit, they still had a good relationship with each other. If the Pterosaur was killed, it would definitely arouse the little white rabbit's displeasure.

Since he couldn't kill the Pterosaur, Tang Huan could only turn his attention to the Heavenly Domain Fierce Beasts outside.

"Look, what's that?"

Suddenly, Feng Ming gasped.

Xiao Budian's yiyaya and Xiao Ai's gurgling also sounded out one after another, especially Xiao Ai's. His bright red eyes were filled with surprise, and even though he had already left the underwater world for two days, anything he saw in the Turbid Sea Area still filled him with interest.

Hearing that, Tang Huan could not help but look over, to see that outside under the night sky, a golden figure had appeared, every golden figure had a red dot in front.

"Red Top Golden Vulture?"

Tang Huan was surprised.

What he saw at this moment made him subconsciously recall the group of "Red Top Golden Vulture" he saw earlier that brought them to the bottom of the sea and left that space one step ahead of them. Judging from the number of golden figures outside, they seemed to be the same as the "Red Top Golden Vulture" he had encountered before.

Tang Huan did not stop his aircraft s, the two of them got closer to each other quickly, and in a few breaths time, the golden figures were clearly visible.

It was the "Red Top Golden Vulture".

With regards to the Space Aircraft that was glowing with a green light, they ignored it as if it was nothing. Tang Huan was a little surprised. Last time, the "Red Top Golden Vulture" had been chased by a terrifying storm but this time, it seemed that they were still being chased by something.

They were also a bunch of unlucky bastards!

In a blink of an eye, an eye-catching purple figure appeared in the night sky, becoming even bigger and bigger. Not long later, its appearance was clearly imprinted in the eyes of Tang Huan, Feng Ming and the two little fellows.

At this moment, Tang Huan could not help but stop his aircraft and continue forward.

"It seems... is it 'Three Feet Thunder Eagle'? "

Feng Ming could not help but speak with a hint of surprise on her pretty face, "This is a beast that has long been extinct in a small world.

"Three Feet Thunder Eagle?"

Tang Huan muttered to himself, "The group of 'Red Top Golden Vulture' that went by earlier should be the group that we met in the past. Amongst them, there are no small number of people that possess the strength of Peak Stage Nine.

As he finished speaking, excitement had already surfaced in Tang Huan's eyes.

At this time, the "Three Feet Thunder Eagle" had already discovered the presence of the aircraft and stopped in front of them. A pair of large lantern-like purple eyes were filled with curiosity. His body was completely covered with purple feathers, and below his stomach, there were three claws. Two of them extended backwards, while the other slightly curled forward, and was actually even thicker than the two behind him. It was a mountain range, and it seemed as if it had been torn apart by the terrifying power contained within the claws.

"Are you interested?" Feng Ming saw through Tang Huan's intention and couldn't help but laugh.

"Since it's the Heavenly Domain Fierce Beasts, we naturally cannot let it go easily. Come, let's go out and try to kill it." Tang Huan laughed and leaped into the air. The space above started to fluctuate and following that, figures started to appear from within the Space Aircraft.

Chapter 624 - Hunting

"Screeeeeeeeeeeeeeeeeeeeeeee!"

Suddenly, a sharp bird cry tore through the night sky.

Three Feet Thunder Eagle Pang Shuo's body suddenly floated dozens of metres, as he looked in shock at Tang Huan, Feng Ming, Xiao Budian and Xiao Ai who had almost appeared out of thin air. This time, with the strong little white rabbit, Feng Ming and Xiao Budian, who had just come out together, would not be in any danger.

"Hu!"

The wings on Tang Huan's back condensed into form, and with a light flap, they shot towards Three Feet Thunder Eagle. In an instant, the Five Colors Heavenly Domain spread out from within his body, rapidly expanding in all directions.

Seeing that, the little white rabbit let out a "Gu" sound, and also activated Heavenly Domain, covering Xiao Budian and Feng Ming who were at the side, isolating the pressure that was coming from Five Colors Heavenly Domain.

"Screech!"

A fierce look flashed past the eyes of the Three Feet Thunder Eagle. Once again, he released a shrill cry that seemed to be able to pierce through one's eardrums. In the next moment, a dense purple aura surged out from the body of the Three Feet Thunder Hawk, instantly transforming into a purple round cover, rapidly expanding.

Within the round cover, it was actually Lei Ming who was emitting a bright light. The incomparably ruthless aura filled the night sky, and crackling sounds could be heard incessantly.

This was the Heavenly Domain of the Three Feet Thunder Eagle.

In a split-second, Tang Huan's and Three Feet Thunder Eagle's purple colored Heavenly Domain's figures collided head on as the two figures rapidly approached each other.

At this moment, it was as though two gigantic rocks had collided at high speeds, causing an earth-shaking explosion. The terrifying Strength Qi spread out crazily, and where the multicolored light met the ball of purple light, the space distorted drastically, as though it could completely collapse at any time.

A short while later, the two Heavenly Domain s couldn't help but retreat due to the impact of the force and the figures of Tang Huan and Three Feet Thunder Eagle were also retreating.

However, within the Five Colors Heavenly Domain, not only was Tang Huan not shocked, he actually revealed a trace of a smile on his face.

Even though the Three Feet Thunder Eagle opposite him had the Heavenly Domain, he was clearly weaker than the little white rabbit. Just like him, he was still in the initial stages of Heavenly Domain.

Heavenly Domain of the Three Feet Thunder Eagle contained the power of thunder and lightning. It was violent and tyrannical, with extremely strong destructive power. At the moment of impact, violent power was released crazily, if the opponent was a little weaker, the Heavenly Domain would probably be torn to pieces or even crumble. Unfortunately, his opponent was Tang Huan.

Tang Huan's Heavenly Domain contained the power of the five elements, which seemed to be one with the world, and was extremely stable.

Let alone the fact that Three Feet Thunder Eagle's current realm was only on par with Tang Huan's, even if it had already risen to the level of a little white rabbit that could move its will, it still would not be able to tear apart his Heavenly Domain.

"Hu!"

An instant later, as soon as the two figures stabilized their bodies, they fiercely rushed forward again without the slightest bit of delay. In the blink of an eye, the Five Colors Heavenly Domain and the purple Heavenly Domain clashed once more as an even more ferocious wave of Strength Qi swept out in all directions.

With an earth-shattering explosion, Tang Huan was pushed back more than ten meters while the Three Feet Thunder Eagle flew ten meters away like a cannonball.

After sparring with the little white rabbit for a long time, Tang Huan had become even more adept at controlling his Heavenly Domain. During the first clash, Tang Huan had only wanted to test it out, but in the second clash, Tang Huan had condensed at least thirty percent of his Heavenly Domain's power ... This was almost the limit that he could reach at the moment.

If he could gather all of the Heavenly Domain's power like the little white rabbit, he could directly crush the Three Feet Thunder Eagle's power with this attack.

Although the Three Feet Thunder Eagle's power was berserk and tyrannical, it was evenly distributed throughout the entire Heavenly Domain. Under such a situation, even if it was just gathering thirty percent of the power of the Heavenly Domain, it was not something that the Three Feet Thunder Eagle could withstand. At this moment, the purple colored Heavenly Domain was already trembling slightly.

"Screeeeeeeeeeeeeeeeeeeeeeee!"

Extremely unwilling to die, Three Feet Thunder Eagle suddenly turned his head, flapping his wings, intending to escape.

Nearly a hundred meters away, the corner of Tang Huan's lips curled up into a smile. The Heavenly Domain scattered, and his pair of wings moved according to a strange rhythm, chasing forward.

With Tang Huan's current strength, coupled with the "Phoenix Dance of the Nine Heavens" technique, the speed at which he was flying at had already reached an extremely inconceivable level.

"Gu Gu!" "Yiya!"

Xiao Ai jumped onto Xiao Budian's back, and the two little fellows shouted as they chased after him. Feng Ming couldn't help but laugh, and also spread his fiery red wings.

In an instant, a few thousand meters had passed.

"Chi!"

The Conqueror Spear that had just appeared out of Tang Huan's hands had already pierced forward, unleashing the "True Flame Flowing Rainbow". A terrifying Flaming Pointed Awl roared out from the tip of the spear, bringing about a shocking heat wave as it stabbed into the purple colored Heavenly Domain that was surrounding Three Feet Thunder Eagle.

After the Flaming Pointed Awl, Tang Huan used its power to cover up his body as he charged head first into the Heavenly Domain like a shadow.

"Screech!"

The Three Feet Thunder Eagle screeched. Within the purple Heavenly Domain, thunder and lightning flourished, striking continuously at the Flaming Pointed Awl with its terrifying might. With waves of ear-piercing exploding sounds, the Flaming Pointed Awl continuously melted. When it completely dissipated, Tang Huan had already penetrated several tens of meters deep into the Heavenly Domain.

Whoosh! With a thought from Tang Huan, the Five Colors Heavenly Domain immediately erupted from the inside of the Three Feet Thunder Eagle. A terrifying power surged out and immediately shattered the Three Feet Thunder Eagle's purple colored Heavenly Domain, then followed Tang Huan's figure into the distance and whistled forward.

In the blink of an eye, Three Feet Thunder Eagle was already inside Tang Huan's Five Colors Heavenly Domain.

"Screech!"

A terrifying pressure surged from its surroundings and the speed at which the Three Feet Thunder Eagle was flying slowed drastically. This caused it to cry out in fear and anxiety.

In the next moment, Three Feet Thunder Eagle wisely stopped running and turned his head. With a sizzling sound, streaks of lightning flashed out from his body and swam towards his head. Then, he opened his mouth and all the lightning gathered together into a thick bundle that shot out.

Tang Huan sneered, then thrust out the Conqueror Spear in his hand again with the move "True Flame Rainbow".

The instant the explosive sound was heard, Tang Huan's afterimage was torn apart by the Strength Qi, but his real body quietly appeared in the air above the Three Feet Thunder Eagle.

Under the Heavenly Domain's suppression, the Three Feet Thunder Eagle had no time to dodge at all. By the time it had detected Tang Huan's trace, the Conqueror Spear had already spat out a captivating red spear light and silently pierced through his back and abdomen, piercing through his entire body.

Screech! Three Feet Thunder Eagle immediately let out an incomparably ruthless and determined hiss, in an instant, streaks of lightning the size of a baby's fist shot out from the wounds on his back, spiralling upwards along the long spear, as though they were tentacles, wanting to drown Tang Huan in them.

"Buzz!"

The long spear trembled, emitting deafening vibrations. Then, an abnormally blazing flame roared out from the spear, and the lightning that twined around the spear began to blaze.

Chapter 625 - Thunder Domains

In the blink of an eye, the lightning had completely melted while the flames were pressing down with the wound on Three Feet Thunder Eagle's back as the center.

"Screech!"

The Three Feet Thunder Eagle let out a sad and shrill cry as Pang Shuo's body suddenly sank down, wanting to break away from the long spear that had pierced his back.

However, its calculations were not working.

The more it sank, the more Tang Huan would sink as well. Not only did the Conqueror Spear in his palm not leave, it even started to emit even more intense flames, which caused the area it covered to

become larger and larger. The material-like heat wave was rippling in the Five Colors Heavenly Domain.

The Three Feet Thunder Eagle screamed again and again as he struggled and thrashed about in the air, trying his best to shake Tang Huan off.

However, Tang Huan seemed to have merged with its body, and no matter how it swayed and tumbled, Tang Huan remained unmoving from the start to the end. As it moved, bolts of lightning came crashing down from other parts. They tried to extinguish the flames, but to no avail.

Not long later, the Three Feet Thunder Eagle actually activated the Heavenly Domain once again.

However, the moment its Heavenly Domain appeared, and before it could even expand, it shattered and dissipated under Tang Huan's pressure.

Under Tang Huan's suppression, the Three Feet Thunder Eagle's struggle became smaller and smaller.

After a long while, a round ball of purple Qi appeared in Tang Huan's palm and he struggled violently. He wanted to escape, but this was the soul of the Three Feet Thunder Eagle. Tang Huan had finally managed to extract its soul before its body was incinerated by the "Nirvana Sacred Fire".

"Now that one soul has been obtained, let's look for the next one!"

Tang Huan's figure moved, passing through the several hundred meters of space, and appeared in front of Feng Ming, Xiao Budian and Xiao Ai. Following that, the Space Aircraft rose up from Feng Ming's hand while trembling. The light that it emitted quickly formed into a cyan colored vortex, enveloping all four of them inside it ...

... ..

Two days later, in the early morning, a tiger-like, lion-like, winged vicious beast fell from the sky like a meteor. It caused an earth-shaking sound that shook the entire island.

"Whoosh!"

Tang Huan held the Conqueror Spear, his entire body emitting a baleful aura. He was actually as cold as a war god, charging down from the sky like a bolt of lightning.

A moment later, a huge commotion once again came from the depths of the island. It was as if clouds and smoke were churning amidst the dust and sand, the fierce beasts' roars were one after another, but they were getting weaker and weaker. Not long after, they had completely disappeared, and Tang Huan's figure soared into the sky.

At this moment, the spear in Tang Huan's hand had disappeared, and what replaced it was a ball of fiery red Qi ...

... ..

A few more days later, in a region of the ocean near Storm Eddy.

In the water that was continuously flowing in accordance with the whirlpool, the two figures of one black and one blue were tangled together. The Strength Qi continuously wreaked havoc as huge

waves that were tens of meters high occasionally rushed out from the sea surface. Not long after that, a thick layer of blood spread in the sea.

"Roaaaaaar!"

Accompanied by a wail, the sea surface regained its former calm. A black shadow broke through the waves and appeared, holding a dark blue object in its palm.

... ..

The Space Aircraft went deeper and deeper into the Turbid Sea Area, and Tang Huan killed more and more Heavenly Domain Fierce Beasts.

On the tenth day after leaving the underwater world, Tang Huan had already killed twenty Heavenly Domain Fierce Beasts. However, Tang Huan had only collected nineteen souls. In the end, the Heavenly Domain Fierce Beasts that they encountered was extremely powerful, and Tang Huan and Xiao Ai had worked together to injure it heavily. However, before Tang Huan could collect its soul, it had committed suicide, and its soul had completely perished, causing Tang Huan to feel extremely regretful.

"Indeed, the deeper you go, the stronger the Fierce Beasts that survive."

Inside the Space Aircraft, seeing that Tang Huan had just recovered, Feng Ming couldn't help but say with a sigh, "No wonder those fellows from Luoyu and the others lost so much their strength, and their aircraft was also severely damaged."

In the past few days, although she had not participated in any battles, she could feel that the ferocious beasts she had encountered had become stronger and stronger, and the possibility of a Heavenly Domain Fierce Beasts also increased. In the first two days, she would only meet one Heavenly Domain Fierce Beasts, but now, she could meet a few every day.

Moreover, in these last few days, it had not been as easy for Tang Huan to kill wild beasts as it had been in the beginning.

"That's right, it's about time for us to ... "Huh?"

Before he could even finish the word "return", he was forcibly swallowed back down by Tang Huan. A strange look unconsciously appeared in his eyes, as Xiao Budian and Xiao Ai's surprised shouts immediately followed, echoing in the green space.

Hearing that, Feng Ming subconsciously looked towards the horizon in the distance. Like a waterfall, a boundless purple wall descended from the sky, straight into the ocean, what was even more shocking, was that the purple wall was actually formed by countless of thick lightning bolts interweaving together.

Inside the Space Aircraft, although he could not hear what was happening outside, just from the shocking scene, he knew that the commotion outside was extremely loud.

"Then the 'Lightning Territory' that Lord Xing Meng mentioned?" Feng Ming could not help but exclaim.

"It must be the 'Lightning Territory' without a doubt."

Before leaving the Tranquil Continent, Xing Meng had warned Tang Huan time and time again to never try to pass through the Lightning Territory. At that time, Xing Meng had described the Thunder Dominion to be extremely terrifying. Although Tang Huan had agreed to it immediately, he did not pay too much attention to it.

The Lightning Territory was only a few hundred kilometers wide, but no one knew how long it was. It was said that the entire Turbid Sea Area had been cut apart by it. If one wanted to pass through the Turbid Sea Area, the Thunder Dominion was, after all, a place where one could not circle high in the sky or from the bottom of the sea.

Bolts of lightning struck down from the dome of the sea, reaching deep into the sea. Countless electric snakes swam around the sea near the Thunder Dominion; it could be said that the sea surface was equally dangerous.

"Are we still going over?"

After a long while, Feng Ming finally swallowed his saliva and said.

Tang Huan regained his senses and shook his head. He had sensed carefully just now that the space outside of the Space Aircraft was already filled with the energy of berserk lightning.

For the time being, the Space Aircraft was still able to withstand such a level of power. However, there was still at least a hundred miles of distance between this place and the "Lightning Territory", and the further they went, the stronger the lightning power would be. If this Space Aircraft got too close to the "Lightning Territory," it might even be injured again.

As for the interior of the Lightning Territory, it was even more impossible for Space Aircraft to enter.

If the Space Aircraft was unharmed and was able to pass through the Lightning Territory, it was clear that Shiyu and the rest were able to make it to the small world alive. However, right now, due to the lack of critical materials, the Space Aircraft had not been completely repaired. It was possible that it would be struck into pieces by the lightning energy before it could even touch the lightning domain.

"Let's go home!"

"Yiya?"

"..."

Chapter 626 He is here!

Tranquil Continent, at the bottom of the eastern section of the Dark Abyss, in a cave, countless black auras violently churned like clouds, stirring up ear-piercing hisses from time to time.

After an unknown amount of time, a huge rumbling sound suddenly rang out from the depths of the vast cave. The black mist was like a volcanic eruption as it continuously surged out from the center of this space.

Unknowingly, the entire space seemed to have become distorted.

"Heavenly Domain! Heavenly Domain... "

After a long while, the aura finally stabilized and an earth-shaking wild laughter suddenly rang out in the entire space, "I have finally stepped into the realm of Heavenly Domain ..." At almost the same instant the laughter rang out, the surrounding black fog rapidly withdrew like ebbing tides.

In just a short span of two to three breaths, an exceptionally tall and sturdy figure was revealed. Within the helmet, two terrifying red lights burst out from his eyes, and the pair of huge wings on his back flapped slightly.

This man was Demon Lord Fen Tian.

In the blink of an eye, the last bit of the black mist had also entered's body, and there was an extra touch of chilliness within his laughter, "Now that the Heavenly Domain is complete, I want to see, who else in this small world can stop me, Tang Huan? Xing Meng? Even if it is that person, I am not afraid! "

"Whoosh!"

Even before he finished speaking, Fen Tian's body had already turned into a stream of light and disappeared without a trace from the depths of the cave ...

... ..

In the morning, south of the Dark Abyss, the Human Clan and the Tian (Heaven) Clan Allied Forces's camp were all gloomy and gloomy. Inside the wide tent, Xing Meng, Tang Zhao, Mu Qing and the rest were all frowning in silence.

When the "Dark Night Marsh" had fought against the "Dark Night Marsh" back then, the Demon Clan had suffered a great defeat. Taking advantage of the opportunity to give chase, the Human Clan and the Tian (Heaven) Clan Allied Forces had finally seized the "Snowy Mountain Splitting Land" stronghold half a month ago, completely overtaking the "Dark Abyss" and stationed themselves in the southern part of the abyss.

From then on, the Human Clan, the Tian (Heaven) Clan Allied Forces and the army of the Demon Clan faced off against each other across the north and south of the abyss.

The "Dark Spirit Devil Qi" in the "Dark Abyss" could erode all kinds of powers, and Tian Clan mages could circle around it from high up in the sky. However, if Human Clan wanted to pass through this "Dark Abyss", then they could only go through the arch bridge that Demon Clan had built in the narrowest part of the abyss.

However, that arched bridge was always covered by the "Dark Spirit Devil Qi".

However, the Demon Clan had tens of thousands of troops stationed at the other end of the bridge. If they were halfway across the bridge and suddenly encountered an attack from the Demon Clan, not only would the Martial Warriors be alive, the entire Alliance would be affected.

Before they could think of a foolproof plan, the Human Clan and the Tian (Heaven) Clan Allied Forces did not dare to act rashly either.

But no one would have thought that three days ago, the Demon Lord Fen Tian that had never appeared in front of a battle before suddenly appeared. Furthermore, the moment he arrived, he displayed a terrifying strength that exceeded the Peak Stage Nine, and it was said that he had already stepped into the legendary realm of Heavenly Domain.

After displaying his power in front of the Allied Forces Camp, Fen Tian did not fight with Xing Meng, Tang Moyang and the other strong warriors of the two races. Instead, he left a message for Human Clan and Tian (Heaven) Clan Allied Forces to surrender, otherwise, after defeating the allied army of the two races, he would have to slaughter everyone in the origin, glory, and the Holy Spirit Continent to form a river of blood.

Fen Tian had only given Human Allied Forces three days, and today, was the fourth day after three days.

"Everyone, there's no need to think about it. From my point of view, it would be better to just fight Fen Tian."

Inside the tent, an angry shout suddenly broke the silence of this place, and the one who spoke was Mo Huang, "Hmph, Heavenly Domain? So what if you're a Heavenly Domain? I refuse to believe that with so many Peak Stage Nine Martial Saint s and Law Saints working together, they won't even be able to stop a single Fen Tian. "

"You're right!" Another rather angry voice sounded out, "Other than the many Stage Nine Rankers, we also have a few hundred thousand Human Clan s and Tian (Heaven) Clan Allied Forces s. That Fen Tian is indeed strong, but there's only one person.

"..."

Everyone was talking at once and were filled with indignation.

"Everyone, don't forget."

After a while, Xing Meng laughed bitterly, "The one our Allied Forces Camp is facing is 'Dark Abyss'. Even if we use up all of Fen Tian's strength with countless of our lives, as long as he retreat into the Dark Abyss, we won't be able to do anything to him. However, after he recovered his strength as the 'Dark Abyss', he could rush out once more ... Time and time again, you've filled it with human lives. No matter how many people there are, it's not enough. "

Everyone looked at each other in dismay.

They had indeed overlooked this point. This was the Dark Abyss, not the Snowy Mountain Splitting Land, and not the Dark Night Marsh. In this place, if Fen Tian exhausted all his energy, he could completely hide inside the Dark Abyss, which was a difficult place to enter, whether it was the Human Clan or the Tian Clan Mages.

With his back against the Dark Abyss, Fen Tian was already in an invincible position. Furthermore, Fen Tian's strength was stronger than any one of them.

Heavenly Domain! Heavenly Domain above Stage Nine ...

This was the first time many people had ever heard of these two characters! Even though the Fen Tian before was already the strongest of the three clans, at the very least, there was still Xing Meng and Tang Huan who could contend against him. Now, Fen Tian, who had already stepped into the realm of Heavenly Domain, was invincible in this world.

"He's not a match in a one on one fight, what should I do if he can't use his life to fight?"

"If I had known about Fen Tian's situation ten days earlier, I could have retreated to the Snowy Mountain Splitting Land, or even the Dark Night Marsh, and kept Fen Tian far away from them. But now, it's too late to retreat. "

"..."

Everyone was worried.

Originally, the Human Clan and the Tian (Heaven) Clan Allied Forces had the absolute advantage. Although they had stopped for the time being, they could pass through the Dark Abyss, fight their way to the Endless Ruins, and completely destroy the Demon Clan. It was just a matter of time. However, no one expected Fen Tian to break through the limits of the Stage Nine and step into the Heavenly Domain.

"Why don't we act first?"

Shami started to speak, but even he couldn't help but shake his head at the words.

Decline was completely useless against Fen Tian. Fen Tian was proficient in soul control, so it was very likely that he would be able to control the soul of the Stage Nine Ranker who surrendered.

At that time, it would be a true drop in power.

"Don't think too much."

Tang Moyang suddenly said in a deep voice. Let's fight a round with Fen Tian first. If we give this few lives of ours to exhaust Fen Tian's strength, it might be able to buy some time for the allied army to retreat. As long as we retreat into the 'Snowy Mountain Splitting Land', there will still be hope. "

"This is the only way" Xing Meng could only nod his head. Then, he seemed to have sensed something and his face darkened, "He's here!"

Chapter 627 - Seizing!

"Whoosh!" "Whiz ..."

In the blink of an eye, Xing Meng, Mu Qing, Shen Guan, Tang Moyang and the rest of the Peak Stage Nine Warriors had all appeared outside of the Allied Forces Camp. From within their line of sight, one figure after another flashed out from within the churning black mist.

Directly across Allied Forces Camp was the bridge that spanned across Dark Abyss.

At this time, many evil Demon Clan experts walked out from the bridge, their bodies brimming with killing intent. After a short while, hundreds of people had gathered at the end of the bridge. At the front was a giant ape that squatted on the ground while baring its teeth, like a huge mountain of flesh.

Judging from the Qi, the giant ape should have the strength of Peak Stage Nine.

However, after the giant ape, there were only three Stage Nine Demon King s and the rest were all stage eight Demon Commander-in-Chief. In the past, with just this kind of lineup, these Demon Clansmen would not have the guts to pass through the "Dark Abyss" and come to the front of the Allied Forces Camp. But now, they did not have the slightest bit of fear.

The reason they were so fearless was because of the Demon Lord Fen Tian.

At this time, Fen Tian was spreading his wings and floating ten meters in the sky. A terrifying aura was being emitted from the burly body, and the pressure it gave off was extremely terrifying, filling up the heaven and earth, and actually caused the air to seem to solidify, causing one's heart to tremble.

There was complete silence at the entrance of the Allied Forces Camp.

The expressions of Xing Meng, Shen Guan and the other experts from the Tian Clan were all extremely serious. Although Fen Tian had not made his move, it was enough to let everyone feel a huge pressure. Under the onslaught of the pressure, those with weaker cultivations found it difficult to even breathe.

The giant ape and the other experts of Demon Clan were not affected by the pressure at all.

Their gazes towards Fen Tian were filled with excitement and fanaticism, and every part of their body seemed to be ready to move, wishing that they could immediately pounce and fight to the death to vent out all the grievances brought about by the defeat of the Demon Clan during this period of time.

"Everyone, three days have passed. Have you all made up your minds?" High up in the sky, Fen Tian suddenly opened his mouth, his voice was not loud, his tone was calm, but every syllable seemed to contain a terrifying power. At this moment, everyone's already unstable minds trembled even more.

"Fen Tian, you don't need to put on an act anymore."

Xing Meng suddenly laughed out loud, "Back then you did not make a move, it must be because you have just broken through to Heavenly Domain, your cultivation is still unstable, and if we make a move, the number of casualties will be disastrous. You yourself will not be much better. Your cultivation may not have stabilized today, but it is much better compared to that day. You know that we will never surrender, so if you want to make a move, hurry up, I am also trying to broaden my horizons. "

When Xing Meng's current aura fluctuated, compared to a few days ago, Xing Meng already understood why Fen Tian had only come to the Allied Forces Camp to flaunt his might and then left after saying a few harsh words. To start before he stabilized his cultivation, Fen Tian would have to take a huge risk. After all, his opponents were not one or two people, but many Peak Stage Nine Rankers in the Human Clan and the Human Clan.

After cultivating for a few more days, Fen Tian stabilized his cultivation realm and levelled up. He came to the front of the Allied Forces Camp once again, and it was clear that he was not doing this for the sake of being humiliated, but for a massacre. Although he did not reveal it clearly, Xing Meng could already faintly feel the vigorous killing intent in his body.

"Good!" Good! In that case, I shall grant your wish! "

Fen Tian laughed out loud.

In the blink of an eye, a dense and cold killing intent was emitted from within his body like a storm. It seemed to have solidified as it swept forward. Wherever they passed by, space seemed to freeze. The moment they felt this killing intent, everyone's heart involuntarily felt bone-chilling cold.

"Hu!"

Without waiting for everyone to regain their senses, Fen Tian swooped down.

In an instant, sand and rocks flew everywhere, dust tumbled, and everyone quivered as they suddenly became clear-headed. A ball of black aura surged out of Fen Tian's body like a volcanic eruption, and swept in all directions; its speed was so fast that it reached an unbelievable level.

When the crowd saw the black Qi, they didn't even have time to react before they were enveloped by it. Following that, they felt an even more intense and terrifying pressure pressing down on them from all directions.

"Heavenly Domain?"

"This is the Heavenly Domain?"

"..."

At this moment, regardless of whether it was Mu Qing, Shen Guan, Tang Moyang or the others, they were all dumbstruck.

Before, they thought that just relying on their numbers to fight to the death would be able to exhaust Fen Tian's strength and buy time for the allied army to retreat. But now, they suddenly understood that the strength of the Heavenly Domain, Stage Nine and even the Peak Stage Nine were worlds apart.

No matter how many Peak Stage Nine Martial Warriors and Mages there were, they probably wouldn't be able to do anything to Fen Tian.

"Everyone, how do you feel?"

Fen Tian laughed out loud, and the that was condensed like a round cover suddenly fluctuated violently.

After a split second, Shen Guan, who was inside the Heavenly Domain, felt as if he had been struck by a huge force. Blood spurted out of his mouth as his body staggered backwards, but before he could stand firmly, he was grabbed by a huge claw.

"Plop!" Not long later, Shen Guan rushed out of Black Heavenly Domain and landed heavily in front of the giant ape.

"Take him down!"

Following Fen Tian's command, the giant ape immediately let out an excited roar and picked Shen Guan up from the ground. At almost the same time, another area of the Black Heavenly Domain began to fluctuate violently. In the blink of an eye, another figure fell in front of the giant ape like a kite with its string cut.

"Take him down!"

"Take him down!"

"..."

Inside Black Heavenly Domain, the number of Rankers captured by the Giant Apes and the other experts of the Demon Clan increased as time passed. For a time, earth-shaking shouts rose and fell one after another. The people of Demon Clan were so excited that they were dancing with joy.

However, the inside of the Allied Forces Camp was deathly still.

Many Human Clan and Tian Clan Mages were closely watching the movement outside the camp, but what they saw was the scene of Shen Guan and the other Stage Nine Rankers being captured one by one. Inside the Demon Lord Fen Tian, the experts of the Human Clan and the Tian Clan did not even have the strength to fight back.

Unknowingly, panic started to spread crazily all over Allied Forces Camp.

"Xing Meng, come over here as well!"

Just as Fen Tian finished yelling, the space around Xing Meng started to distort violently, but right at this moment, a blue Qi suddenly rose up from Xing Meng's body. In an instant, it congealed into a blue bubble, covering her entire body.

Chapter 628 - Fantasy Tide Dance

The bubble rippled a little like a ripple and actually managed to forcibly resist the Heavenly Domain's pressure.

Immediately after, Xing Meng flew backwards as his long fingers danced like butterflies piercing through flowers, and in an instant, strands of blue light pierced through the blisters, shooting forward like arrows leaving the bow. Every thread of blue light was like a sharp needle, extremely sharp.

"Hmm?"

Seeing that, Fen Tian snorted coldly, he flapped his wings, causing a terrifying gust of wind to kick up in the Black Heavenly Domain, pressing towards the dense blue light.

But in the next moment, a hissing sound was heard, and the needle-sharp blue light actually penetrated through the storm, as they appeared in front of Fen Tian with lightning speed.

"Huh?"

Fen Tian exclaimed in a low voice, a little surprised. He obviously did not expect Xing Meng to be able to unleash such a powerful attack under the suppression of his own Heavenly Domain.

However, Fen Tian was quickly relieved. As the strongest warrior with the longest lifespan among the three clans, how could Xing Meng not have some trump cards?

In the blink of an eye, Fen Tian grabbed the back of his right hand, and a Blood Red Great Sword appeared in his palm.

"Buzz!"

The body of the sword trembled slightly, emitting an excited ringing sound. A glaring blood-red luster burst out crazily. At the same time, a tyrannical aura surged out of the sword like a broken dam. After a short moment, the gigantic sword in Fen Tian's hand was swung out with astonishing speed.

"Hu!" A thick Blood Red Odor sprayed out from the sword and swept out like a waterfall. In a split-second, it collided with the blue light.

"Bam!"

An earth-shaking explosive sound resounded throughout the world. The Blood Red Odor and the blue light nearly collapsed at the same time, transforming into a powerful and shocking Strength Qi that swiftly wreaked havoc.

Fen Tian was like a ferocious beast that had just broken free from its cage, his burly body bursting forward as the gigantic sword in his hand chopped out once again.

"Chi!"

With a sharp whistling sound, a condensed blood-red blade light roared out, slicing through the air. Its power was monstrous, as if even a mountain in front of it could be cleaved in half.

Xing Meng had retreated to the edge of the Heavenly Domain, and upon sensing the might of Fen Tian's strike, his pupils couldn't help but contract, and his ten fingers danced wildly. His speed was actually even faster than before, and immediately, a blue wall whizzed forward, followed by a second, third, and fourth!

"Boom ..."

But right at this moment, the gigantic blood red blade suddenly flashed and shot down like lightning, the blue wall actually shattered one after another. Xing Meng's hands did not pause at all, the moment the fifth blue wall appeared, the sixth also followed closely behind.

However, the speed of the blood-red blade light seemed to be even faster.

When the sixth blue wall appeared, the third had already disappeared without a trace. The instant the ninth blue wall appeared, the blood-red blade light also swept over.

The last barrier dissipated with a bang, and the greatly weakened blood-red blade light rushed in, chopping at the blue bubble. With a "peng" sound of impact, the bubble rapidly fluctuated, and the blade light also melted little by little. However, inside the bubble, Xing Meng's face had become pale.

"Xing Meng, eat my sword again!" A loud laughter suddenly sounded as Fen Tian chased after him like his shadow. The Blood Red Great Sword in his hand, which carried the power of fifty thousand kilograms, directly struck down.

"Pah!"

As though she had suffered a heavy blow, her delicate body was sent flying several tens of meters away. The moment she landed, she spat out a mouthful of blood, and her originally pale face now had a sickly bright red color.

"It's time to end this!"

Fen Tian's voice was filled with a ghastly coldness. Almost at the same time the voice rang out, the Black Heavenly Domain around Xing Meng started to shake violently, and the Blood Red Great Sword in Fen Tian's hands started to wave quickly as well. Streams of sword light scattered out, as if they had interweaved to form a blood red net, and rolled forward.

"Swish!"

The incomparably sharp Strength Qi spread out, as though it wanted to tear Xing Meng into pieces.

Seeing that, a ruthless and determined look appeared in Xing Meng's beautiful eyes. She actually forcefully endured the terrifying pressure, and her hands started to dance with an unprecedented speed. In the blink of an eye, countless afterimages appeared in front of her, as though dozens of hands were swiping at the same time.

It was so powerful that it could topple mountains and overturn the seas. In an instant, Xing Meng's body was already engulfed, and the entire area seemed to have turned into a vast ocean, as monstrous waves whizzed forth, crashing down towards Fen Tian.

In the next moment, that sword light was shattered, and the Black Heavenly Domain trembled, as if it could collapse at any moment.

"What a good old woman, is this Tian Clan's most powerful water-based magic, 'Fantasy Tidal Dance'?"

Seeing that, Fen Tian was startled and angry: "You want to fight me to the death? If I have never entered the Heavenly Domain, I might really be able to let you succeed. But now, you have miscalculated! " As he spoke, abnormally rich black Qi gushed out from his body. Like giant black snakes baring their fangs and brandishing their claws, they crazily pounced into the dark blue wave.

"Boom!" "Boom ..."

It was as if the end of the world had arrived. The heavens and the earth were trembling. Huge explosions rang out one after another, as if one's eardrums were about to be torn apart.

On the bridge where the black Qi was roiling, when the giant ape and the other experts of the Demon Clan saw this scene, they were extremely shocked. Inside the Allied Forces Camp, countless of Human Clan and Tian Clan mages saw this scene, they too were shocked and tongue-tied, dumbfounded.

"Bam!"

After a while, the Black Heavenly Domain could no longer hold on and finally collapsed into nothingness, but the dark blue wave was also suppressed and began to shrink at a speed visible to the naked eye. However, when the dark blue wave shrunk to a radius of only two meters, it suddenly exploded without any warning, and the extremely violent Strength Qi wreaked havoc, constantly tearing the huge black snakes into pieces.

Before long, the entire area had regained some peace and quiet. Xing Meng's figure once again appeared, but his entire person seemed to have aged several tens of years.

"Fen Tian, you're injured?" Xing Meng's body swayed. Looking at Fen Tian who was surrounded by black Qi, he suddenly laughed.

"Old granny, go and die for me!"

The eyes inside Fen Tian's helmet revealed a sinister look. With a roar, the black mist around him quickly converged, but the pair of wings slapped down viciously.

Immediately after, he appeared above Xing Meng, the Blood Red Great Sword in his hand hacked down, the sharp Strength Qi surged out, even the air seemed to split open, a terrifying killing intent swept out in all directions like a wave, at this moment, the surrounding temperature unexpectedly dropped.

Xing Meng slowly closed his eyes as the corner of his mouth hooked up into a smile.

In exchange for heavily injuring Fen Tian with their lives, Tian Clan and Human Clan still had hope. As long as Tang Huan could step into the Heavenly Domain realm and return from Turbid Sea Area ...

"Stop!"

Just at this time, a shout suddenly exploded in Xing Meng's ears.

Chapter 629 We meet again!

Tang Huan? Xing Meng was shocked, that seemed to be his voice.

In shock, Xing Meng subconsciously opened his eyes and looked towards the source of the sound. What entered his line of sight was actually a small ball of white shadow.

The speed of the white shadow was unbelievably fast.

"Whoosh!"

In an instant, the sound of breaking air resounded through the world, and along with that sound, an extremely terrifying aura fluctuation appeared.

The giant sword in Fen Tian's hand did not pause at all, but two pairs of eyes could not help but sweep over.

In the next moment, a trace of surprise uncontrollably appeared in his eyes.

That white shadow was too fast. Just a moment ago, it was only a hundred meters away, but in the blink of an eye, the distance between them was less than ten meters. What was even more unbelievable was that even at such a close distance, he could not see the shape of the white shadow clearly.

However, the aura that the white shadow was emitting was becoming clearer and more frightening to him.

The more powerful the aura, the more power it contained. Once that power erupted, even he might not be able to withstand it. This meant that if he were to use his original sword force to chop down, even if he was able to kill Xing Meng, he would definitely suffer a heavy injury.

"Chi!"

At that time, Fen Tian could not care about being angry, his arm steeped, his wrist spun quickly, causing the sword force to change from a straight cut to a horizontal slash, welcoming the white shadow, where the sword was, the lustrous light blazed brightly, the cold and tyrannical Strength Qi spread out crazily, setting up a violent blood storm.

"Bam!"

With a deafening sound, the white shadow ruthlessly smashed into the sword blade.

Fen Tian could not help but let out a stuffy groan as the Blood Red Great Sword was knocked away by the huge force. Its body flew out a few dozen meters before crashing heavily onto the ground, staggering for a few more meters before it managed to stabilize its legs.

That white shadow shot out at the same time, landing on the ground about ten meters away. Dust filled the air, and a crater appeared in the sky at a speed visible to the naked eye.

After a moment, the white figure revealed its true appearance. It was actually a cute little white rabbit.

"This is ..."

"Rabbit?"

"How is this possible?"

"..."

At this moment, not only was Xing Meng dumbstruck, even the Giant Ape and the other experts of the Demon Clan, as well as countless of Martial Warriors and mages, found it hard to believe their own eyes.

The thing that suddenly appeared to repel the Demon Lord Fen Tian was actually such a little white rabbit?

In the blink of an eye, the sound of people sucking in cold air successively sounded out.

Even Fen Tian himself, upon clearly seeing the ball of white shadow, was also incomparably shocked. A small rabbit, could actually possess such terrifying strength. But right after, Fen Tian seemed to have thought of something, and suddenly looked towards the direction where the little white rabbit appeared.

The black shadow's speed was also extremely fast. In a blink of an eye, it was already a hundred meters away.

"Tang Huan?" The expression in Fen Tian's eyes changed slightly.

"Tang Huan!" Xing Meng, however, had an unconcealable look of pleasant surprise on his face. The one who spoke just now was indeed Tang Huan, he had actually rushed back from the Turbid Sea Area at such a crucial moment.

"Roar!"

At the end of the bridge, the giant ape angrily roared.

Back then, it was at the bottom of the "Dark Abyss". If not for the timely appearance of the "Demon Lord Fen Tian", it might have died at Tang Huan's hands.

The Allied Forces Camp was in an uproar as the huge sound wave reverberated back and forth in the sky.

Seeing the figure that was quickly approaching, the hearts of countless Human Clan and Tian Clan Mages couldn't help but feel a sense of hope. They didn't know where Tang Huan went nor where he came from, but his appearance made them feel as if they had grabbed onto a straw of straw to save their lives.

Fen Tian had already stepped into the Heavenly Domain realm, so perhaps Tang Huan was not his match. However, that little white rabbit that appeared obviously because of Tang Huan had

displayed its ability to contend against him. As long as they could stop Fen Tian, to Human Clan and him, it would be a victory.

"Whoosh!"

Tang Huan's body moved like lightning, and in the blink of an eye, he had already arrived in front of the white rabbit.

"Goo — —" The little white rabbit's mouth slightly opened, and emitted a complacent cry that sounded like exploding thunder. With a jump, it landed beside Xiao Budian.

"Flying Jade Hare?"

She finally remembered that this little white rabbit should be the Spirit Beasts Board that was ranked third in the whole world. Tang Huan went to the Turbid Sea Area, and surprisingly found such a Spiritual Beast.

In the blink of an eye, a voice entered his ears but it was actually Tang Huan who was already in front of him. "Aunt Xing, are you alright?"

"I'm fine."

Xing Meng gave a slight smile, as he was already completely relieved, "It's just that my energy was exhausted, and I suffered some minor injuries, so I'm fine. You're finally back."

As he finished speaking, Xing Meng's brows were already filled with gratitude.

She knew Tang Huan's personality. Since he had returned to this place from the Turbid Sea Area, it meant that he should have broken through to the Heavenly Domain's realm just like Fen Tian.

"That's good, Aunt Xing, leave this to me." Tang Huan heaved a sigh of relief, and turned to look at Fen Tian, his eyes revealing an extra cold intent: "Fen Tian, we meet again!" The moment he finished speaking, a dark red light flashed and the Conqueror Spear appeared in his palm.

"Kid, last time, I had something important to take care of so I spared your life. This time, you won't be so lucky!"

The expression in Fen Tian's eyes was unsettled, he immediately laughed wildly, and rushed towards Tang Huan with large strides, the greatsword in his hand released a blinding blood-colored luster.

With a distance of twenty meters between them, the Blood Red Great Sword pierced forward at an astonishing speed.

"Chi!" "Chi!" "Swish ..." The sharp sound of something tearing through the air rang out, and huge blood-red sword beams condensed into form as they tore through the air. Wherever they passed, space itself seemed to be sliced into countless pieces, and an exceptionally sharp aura instantly filled an area of dozens of meters around them.

"An insignificant skill!"

Tang Huan laughed coldly as his footsteps sped up.

In the blink of an eye, the Conqueror Spear in his hands had already thrust out a hundred times as dense spear beams carrying a blazing heat wave whizzed forward. In a split-second, the spear

beams and sword beams ruthlessly clashed, and produced sounds as if they were piercing through gold and cracked stones.

"Heavenly Domain?"

Fen Tian's pupils suddenly shrank.

Tang Huan did not activate the Heavenly Domain, but compared to the last time, his attacks had undergone a tremendous change. If Tang Huan's cultivation was still in the Peak Stage Nine, there would never be such an increase. Fen Tian could almost confirm that Tang Huan was also a Heavenly Domain-level Expert.

"Retreat!"

Without any hesitation, Fen Tian's body retreated. In that moment, he submerged into the rolling black mist of the Dark Abyss. Seeing that, Tang Huan frowned, and in the next moment, he passed through the area where the Strength Qi was wreaking havoc, and chased after the Dark Abyss.

Chapter 630 - Fighting Fen Tian again

"Hu!"

The moment they entered the abyss, Tang Huan had already activated his Five Colors Heavenly Domain, causing the dense black mist to block them from entering.

The "Dark Spirit Devil Qi" of the Dark Abyss could corrode the Genuine Qi and the Mind Power, but this Heavenly Domain was not just any normal power. Instead, it was a transformed form of its aura, something that the "Dark Spirit Devil Qi" could not devour. After activating the Heavenly Domain, Tang Huan's movements in the abyss were unimpeded.

However, after a while, Tang Huan frowned, he could no longer feel Fen Tian's existence.

As if Fen Tian had disappeared without a trace after entering the Dark Abyss, his aura seemed to have completely merged with the surrounding "Dark Spirit Devil Qi".

In between Tang Huan's mind instructs (in a second), both the "Nine Yang Divine Furnace" and "Five Colors Spiritual Pills" were activated to the extreme. The Perception Ability was raised to an unprecedented level, and in a circumference of a few hundred meters, all the minute movements appeared in his mind without the slightest error.

Not long later, Tang Huan discovered a trace of an extremely minute movement.

On the cliff behind Tang Huan, there were no auras fluctuating nor were there any sounds coming from it. However, in that small area, the flow of the "Dark Spirit Devil Qi" was rather strange, with less natural, and a few signs of manmade activity, as if it was being fanned by something, and was in a state of indecision.

"Where should I hide?"

Tang Huan thought for a moment, then suddenly turned and shot out.

Almost at the same time he moved, the "Dark Spirit Devil Qi" there began to surge intensely, and there were even sounds of wailing suddenly bursting forth.

He was indeed hiding there.

If he did not discover him earlier and continued to chase after him, Fen Tian reckoned that he would have charged out of the Dark Abyss very quickly and returned to the front of the Allied Forces Camp. In that case, Xing Meng would be in danger. If Fen Tian used his soul attack, even a little white rabbit would be in danger.

There was no time to stop them.

"A cunning fellow!"

Tang Huan snorted from the nose, and quickly chased after her.

In the Dark Abyss, Fen Tian was like a fish in water, his speed was actually even faster than when he was in front of the Allied Forces Camp. Even with Tang Huan's current strength, he was still unable to immediately shorten the distance between the two parties. However, Tang Huan was not anxious. At this kind of speed, Fen Tian would definitely not be able to maintain it forever, and in terms of durability, Fen Tian would definitely not be able to compare to Tang Huan, who was able to circulate and use the Genuine Qi.

As long as nothing unexpected happened, it was only a matter of time before he could catch up with Fen Tian.

As for before the Allied Forces Camp came up, it was likely that the outcome had already been decided. If Fen Tian was not there, Special Devil Ape and the other experts of the Demon Clan would not be able to create any trouble. After all, other than the "Flying Jade Hare" Xiao Ai, the great killing machine, Feng Ming, who was left behind, had already rushed over.

"Whoosh!"

Fen Tian and Tang Huan, one in front and one behind, unknowingly, it seemed as though they had already traveled back and forth several thousand kilometers within the Dark Abyss.

Suddenly, a bit of light appeared in front of Tang Huan's eyes, he was clearly at the bottom of the "Dark Abyss", a hundred meters ahead, Fen Tian's tall and sturdy figure could be vaguely seen.

Under Tang Huan's chase, Fen Tian seemed to have gone all out, as he desperately tried to flee. At this time, if he hesitated even a little, he would be enveloped by Tang Huan's Five Colors Heavenly Domain, and once he was enveloped by the Heavenly Domain, his speed would definitely drop greatly.

Tang Huan laughed in his heart. He could feel that Fen Tian was already at the end of his rope, and wouldn't be able to hold on for long.

Perhaps, when he was fighting the Aunt Xing above, Fen Tian had already suffered some hidden injuries. Otherwise, even if he felt that he was no match for the Aunt Xing, he wouldn't have escaped into the "Dark Abyss" so quickly. Fen Tian probably did not expect to be discovered so quickly, and as a result, fell into such a predicament.

After a few hundred metres, Fen Tian who was flying close to the cliff wall suddenly disappeared. He looked over and realised that he had entered the inside the cave at the side.

Tang Huan's mind moved, and immediately followed.

This cave was quite wide, and it curved forward. After entering the cave, Fen Tian had already retracted his wings. The sound of his clothes tearing through the air continuously came from the

front, without end. Before long, Tang Huan's eyes suddenly opened, and an even wider area appeared before him.

Fen Tian's figure once again entered Tang Huan's line of sight. A hundred meters away, Fen Tian actually charged towards the wall in front of him without pause.

Could it be that there was some sort of secret behind the wall?

In a second, Tang Huan swiftly stepped on the ground. With "Space Moving," the distance between him and Fen Tian was reduced to tens of meters.

"Roar!"

Fen Tian's body froze, and from his mouth, he started to scream like a wild beast.

After a split second, an exceptionally dense black Qi roared out from Fen Tian's body. It was rolling and surging like waves, continuously eliminating the terrifying pressure that was sweeping over from all directions. Immediately after, Fen Tian continued to rush forward, but his speed was still nearly twice as fast.

The corner of Tang Huan's mouth curled into a cold smile. The Conqueror Spear in his hand had already pierced out, and a form of "True Flame Flowing Rainbow" conjured a violent and shocking heat wave that seemed to be able to melt even the air.

"Hu!"

Fen Tian had no choice but to stop in his tracks, and slashed out with his sword behind his back, as the thick blood-red intent seemed to transform into a dense, cold torrent. In a split-second, the black mist around him was torn apart, and the Flaming Pointed Awl s in Tang Huan's hands activated.

The clanging sound filled the air.

After Tang Huan had stepped into the Heavenly Domain, the power of the "True Flames Rainbow" technique was now many times stronger than before. Before even the blink of an eye, the Flaming Pointed Awl had already pierced through the torrent of blood colored energy released from Fen Tian's greatsword and ruthlessly smashed against his chest.

"Bam!"

The sound of metal clanging rang out suddenly. Fen Tian groaned, as though he had been struck by a huge hammer, his body involuntarily flew out, he first smashed heavily onto the wall, and then bounced back a dozen meters. Only then did he fall to the ground with a thud, and immediately stood up.

"Tang Huan, I have truly underestimated you. I never thought that you would step into the Heavenly Domain realm so quickly!"

Fen Tian's tone was overcast, and actually revealed the intent of grinding his teeth.

Originally, even if Tang Huan was a Heavenly Domain-level Expert, he had the confidence to fight her. But he never thought that before Tang Huan appeared, he would actually get injured under Xing Meng's "Fantasy Neptune Dance". This left him no choice but to take shelter after he had confirmed Tang Huan's strength.

"There are a lot of things you don't think of."

The corner of Tang Huan's mouth curled slightly, and his figure shot forward like lightning. Soon after, he was less than three meters away from Fen Tian as the Conqueror Spear in his hands pierced forward continuously with lightning like speed, the body of the spear releasing hundreds of millions of dazzling red rays.

"Chi!" A sharp sound of space being torn apart sounded out, and a terrifying heat surged forth. The sharp point of the spear was just inches away, and the speed of Tang Huan's spear was astonishing.

At this time, Fen Tian had no choice but to brandish his sword to parry.

"Clang!"

A huge crash sounded out, and Fen Tian couldn't help but take a step back. However, Tang Huan's second shot came one after another, the roaring heat wave seemed like it was going to burn him up. A deep and furious roar resounded throughout the space as Fen Tian slashed out with the greatsword in his hand once again.

Spear after spear, sword after sword, a clanging sound resounded through the void.
