

## W. Master 631

### Chapter 631 - Soul Method True Explanation (1)

Every time they violently clashed with each other, exceptionally tyrannical Strength Qi would churn about like raging waves. For a moment, the area within a radius of dozens of meters seemed to be filled with hurricanes as whistling sounds rose and fell one after another, rumbling and shaking back and forth in the vast space.

Under the suppression from Tang Huan's Five Colors Heavenly Domain, Fen Tian's counterattack became weaker and weaker.

Several times he tried to activate the Heavenly Domain, but all of them ended in failure. It was clear that the remaining energy in his body was no longer sufficient to support him in condensing the Heavenly Domain's energy.

"Clang!" After another huge explosion, Fen Tian's Blood Red Great Sword flew out of his hand and flew about twenty to thirty meters away. His sturdy body was also flung out like a kite with its string cut, heavily smashing onto the ground.

"Chi!"

Tang Huan moved like a shadow, his spear like lightning. Almost at the same instant Fen Tian landed, the sharp tip of the fiery red spear had already pointed at the front of his chest as he opened his armor.

"Ding!"

A crisp sound rang out.

A flash of astonishment flashed past Tang Huan's eyes, Fen Tian's armor was actually caved in, and not pierced by the spear.

However, although he was astonished, Tang Huan's attack still went on endlessly. After the first spear thrust, another spear thrust forward, and this time, what pierced the spear was Fen Tian's head.

However, right at this moment, a thin needle like Blood Red Odor suddenly shot out from within Fen Tian's helmet without any warning, straight towards the center of Tang Huan's brows.

"Soul attack?"

Sensing the momentum of the Blood Red Odor, Tang Huan could not help but sneer in his heart.

Back then when he had exchanged blows with Fen Tian, he had used such a method, but he could not do anything to Tang Huan's soul. Now that Fen Tian had stepped into the Heavenly Domain realm, his strength was even stronger, so his soul attacks would definitely be more violent. But after Tang Huan broke through to the Heavenly Domain, his soul also improved greatly.

Moreover, Fen Tian was currently attacking him from within the borders of the Heavenly Domain.

In the next moment, Tang Huan's spear attack returned to normal, but the Five Colors Heavenly Domain started to fluctuate rapidly, weakening the Blood Red Odor.

When it entered Tang Huan's forehead, the power it emitted would weaken by at least thirty percent.

In that moment, inside Tang Huan's soul, although the chill was wreaking havoc wildly, the boundless sword intent immediately swept out from the depths of his soul, and fiercely clashed with it. In an instant, an unusually ferocious storm seemed to have been set off within Tang Huan's soul, but Tang Huan's consciousness remained clear-headed.

This was the effect of the Heavenly Domain.

Although he suffered from the soul attack, the long spear in Tang Huan's hands did not slow down at all. Just as Fen Tian raised his upper body, the sharp tip of the spear had already pierced through the hole in his helmet and pierced into his left eye. Immediately after, under Tang Huan's control, the raging flames that lingered at the tip of the spear quickly spread out under the armor, and in less than a breath of time, flames had already started to rise from the gaps in the armor.

"Aooo!"

Fen Tian's body struggled and twisted rapidly, like a wounded beast, he screamed miserably.

At this time, under the sweep of the sword intent, the chilliness had already been completely dispersed. Tang Huan's agitated soul returned to calmness, but a hint of doubt uncontrollably flashed through his eyes.

That spear strike just now had indeed pierced Fen Tian's eyes, but the feeling it gave him was as though it had stabbed into a ball of cotton, and not flesh body.

"Tang Huan, I will admit defeat this time, but I will be back soon to find you —"

The sound however, became weaker and weaker. After he finished speaking, his entire body seemed to have completely disappeared, as the raging flames also dispersed into the air, leaving behind a huge set of armor lying quietly on the ground.

Tang Huan frowned, he fiddled with the spear for a bit, then separated the armor, which was actually empty inside.

"Could it be that like the Secluded Night Divine Palace's Palace Mistress, the only thing that died here is Fen Tian's embodiment?"

Tang Huan couldn't help but mutter softly.

Fen Tian was well versed in the way of the soul, maybe he really had a way to condense a set of soul embodiment for himself. Actually, Tang Huan had already guessed this the first time he fought with Fen Tian, and now that Fen Tian had died, it made him even more suspicious.

However, Tang Huan quickly smiled.

If the one who died here was the embodiment, then it was very likely that Fen Tian's true body was inside the Abyss City, if his true body came looking for him, Tang Huan would definitely want it. Furthermore, even if Fen Tian did not come, Tang Huan would definitely look for him.

With a light snort, Tang Huan's gaze fell on the opposite wall.

The wall was sparkling and translucent like jade, it was extremely smooth and looked normal, but the moment Fen Tian entered the depths of the cave, he immediately rushed towards the wall. In addition, when he had fought with Fen Tian earlier, he had also tried to get close to the wall time and time again, but unfortunately, he was always stopped by Tang Huan.

Fen Tian's abnormality caused Tang Huan to be even more convinced that there must be some other profound mystery hidden within the wall.

Tang Huan's eyes quickly swept the area once, and then he walked to the bottom of the wall and carefully observed and felt everything.

Not long after, a faint smile emerged from the corner of Tang Huan's lips, and following that, his palm that was filled with Genuine Qi directly slapped onto the wall. With a "bang" sound, a crack actually appeared in the wall. Under Tang Huan's push, a door quickly opened.

Behind the door was a small square space.

"Whoosh!"

Tang Huan immediately rushed in.

In the center of the space, there was a praying mat, while on the walls of the space, there were ripples of energy rippling through a radius of a few meters. What was strange was that this space seemed to contain a strange power, which completely isolated the "Dark Spirit Devil Qi" outside of the door. Even when Tang Huan no longer activated the Five Colors Heavenly Domain, the Genuine Qi and Genuine Qi did not suffer any erosion.

"That seems to be the Magical Transmission Formation?"

Merely by inspecting the inner wall, Tang Huan already understood that the reason Fen Tian came to this place and wanted to enter this dimension with all his might was to escape using this teleportation circle. The person this teleportation circle is connected to is most likely Fen Tian's lair Abyss City.

Tang Huan thought slightly, and then shot forward.

However, at this moment, the small area on the opposite wall suddenly fluctuated even more violently, as if a slightly undulating sea surface had suddenly been stirred up by raging waves. The originally stable energy fluctuations suddenly became violent and chaotic, affecting even the surrounding space, causing it to distort rapidly.

"This transmission array is about to collapse!" Tang Huan's heart skipped a beat, with a slight thought, he kept his Conqueror Spear, and quickly danced with both of his hands.

In the instant when a golden round cover enveloped Tang Huan's body, the walls that were fluctuating intensely suddenly released an earth-shaking sound, and a burst of powerful and shocking power surged out like a volcanic eruption. Suffering from such an attack, Tang Huan retreated several steps, and in the air, strong gales were howling, and Strength Qi was spinning.

Chapter 632 - Soul Method True Explanation (2)

It took the space of two to three breaths for the force gushing out from the wall to disappear.

With the protection of the "Golden Bell Cover", Tang Huan had only lost a portion of his Genuine Qi and was not injured.

The Magical Transmission Formation had completely collapsed.

At first, he only believed eighty to ninety percent that the one who was killed was Fen Tian's embodiment, but now, he believed one hundred percent. When the embodiment had just disappeared from here, the Magical Transmission Formation had already crumbled, so the person who acted must have been Fen Tian's actual body or his other embodiment without a doubt.

After understanding this, Tang Huan felt somewhat regretful.

The place where this Magical Transmission Formation had reached must be where Fen Tian was, if not, his movements would not have been so fast. If Tang Huan had gone through the teleportation circle earlier, he would have been able to kill Fen Tian in one go. Now, Tang Huan was a little worried that he would hide.

However, things had already come to this point, there was no point thinking about it, it would be better to visit the Abyss City in a few days.

While he was thinking, Tang Huan collected his emotions and dispelled the Golden Bell Cover.

But just as Tang Huan was about to leave, he seemed to have sensed something, and subconsciously looked towards the center of the space. At that place, there was originally a praying mat. The Strength Qi that erupted when the teleportation formation crumbled had already blown it away, revealing a one-foot square.

There was actually a wooden box of the absolute spirit tree in the alcove.

Tang Huan's heart skipped a beat, and in a few steps he had already went over. With a grab of his hand, the two inch tall wooden case landed in his palm. Gently weighing the wooden box in his hand, after that, with a clatter, Tang Huan undid the lock and lifted the lid, a ray of white light shone into his eyes.

Inside the box was a thin book. The cover was crystal clear and white like jade. The four characters on the book were giving off a soft luster.

Tang Huan looked over, and his heart immediately twitched.

"Soul Method True Explanation?"

Immediately after, an uncontrollable look of ecstasy flashed across Tang Huan's face.

It was said that the reason the Demon Lord Fen Tian was proficient in the way of the soul was because he had obtained a "Soul Method True Explanation". He never expected that he would actually put the "Soul Method True Explanation" in this place.

This should be one of Fen Tian's cultivation grounds, it was very safe for him to place the "Soul Method True Explanation" here. After all, and the Tian Clan's mages would never appear in this "Dark Abyss", and for the people of the Demon Clan, who would dare to intrude upon Fen Tian's training grounds.

The reason why Fen Tian came to this place, aside from wanting to borrow the Magical Transmission Formation, was probably because he wanted to bring the "Soul Method True Explanation" with him. Unfortunately, he had underestimated Tang Huan's speed, and he didn't even have the chance to enter this small dimension, let alone escape with the "Soul Method True Explanation".

After a long while, Tang Huan finally calmed down and took out the "Soul Method True Explanation", and started to quickly flip through it.

There were a total of nine pages inside, and each page was as sparkling and translucent as a jade cover. However, there were no words on the nine pages, only bits and pieces of white light moving around inside the pages, as if each page contained stars that filled the sky.

Tang Huan reckoned that this "Soul Method True Explanation" should be similar to the "Great Harmony Heavenly Classics" he had obtained from the Forgotten City's Universe Pavilion.

If he could successfully cultivate this "Soul Method True Explanation", he would definitely be able to use a soul controlling and soul attacking technique like what Fen Tian had. There was even a method to erase the Mind Stigma that he had left in the "Ghost-killing" artifact spirit.

"Although we haven't completely killed Fen Tian, to be able to obtain this' Soul Method True Explanation 'is also a huge gain."

After going over it a few times, Tang Huan resisted the urge to immediately try it again, and returned the "Soul Method True Explanation" back into the wooden box, and stored it inside the "Sumeru Magical Ring". After that, Tang Huan did not delay any further. In between mind instructs (in a second), he had already activated his Five Colors Heavenly Domain and flew outwards.

At this moment, a completely different scene was occurring in front of the Allied Forces Camp.

When Feng Ming appeared, they did not even have the time to bring Shen Guan and the others who had been captured. They fought to be the first to rush to the bridge that was covered with the "Dark Spirit Devil Qi", while the people in the alliance camp were all cheering.

Other than Xing Meng, many other Stage Nine Rankers from both clans were injured and unconscious. However, Tang Zhao and the rest were still in charge of the situation inside the Human Allied Forces.

Xing Meng, Tang Zhao and the others had originally wanted to wait for Tang Huan to return and wake up before deciding on their next course of action. However, under Feng Ming's suggestion, Xiao Ai rushed into the bridge right in front of them, as if he had never seen anyone before. Seeing the Special Devil Ape, who possessed the strength of Peak Stage Nine being stomped to death by Xiao Ai, no matter whether it was the newly retreated Demon Clan experts or the already settled Demon Clan soldiers on the bridge, all of them collapsed.

Seeing that, Xing Meng, Tang Zhao and the rest no longer had any concerns, the experts from the allied army all moved.

When Tang Huan returned to the front of the camp, the Human Clan and the Tian (Heaven) Clan Allied Forces were moving about in waves, constantly crossing the bridge and settling down on the other side of the "Dark Abyss".

After a bustling day, both sides of the Dark Abyss finally became quiet.

About seventy percent of the allied army moved to the east of the Dark Abyss, while the remaining thirty percent stayed west to guard the camp to prevent any Demon Clansmen from circling around them, cutting off the allied army's retreat. And the other seventy percent would probably attack the Endless Ruins.

If they protected both ends of the bridge, no matter what happened in the future, the allied army could advance or retreat.

Unknowingly, it was already late at night.

In a tent in Allied Forces Camp's eastern region, after Tang Huan sent Xing Meng and the others off, he couldn't wait to take out the "Soul Method True Explanation".

Before, Tang Huan had planned to ask Xing Meng for guidance on the way of the soul after returning to the continent, and then try to erase the "soul imprint" and cure his master. After all, a soul could not be compared to flesh body. When he was at the "Turbid Sea Area", even if his cultivation had stabilized, Tang Huan still had not moved, he was worried about this.

Now, Tang Huan felt that studying "Soul Method True Explanation" was more effective than teaching Xing Meng.

It had to be known that Fen Tian's attainments in the field of the soul far surpassed Xing Meng's, and the reason why he could do this was because of the "Soul Method True Explanation". Tang Huan did not expect himself to reach Fen Tian's level very soon. He only wanted to know exactly what he should do.

Of course, the prerequisite would be that his soul was stronger than Fen Tian's.

#### Chapter 633 - Returning the Human Body

Time quietly flowed on. In the blink of an eye, five days had passed.

"So that's how it is."

In the evening, within the tent, Tang Huan suddenly opened his eyes. A smile of enlightenment appeared on his face, and he couldn't help but exclaim, "This' Soul Method True Explanation 'is truly magical."

The more he studied, the more Tang Huan felt that the "Soul Method True Explanation" was mysterious and profound.

For example, the Spirit Adhesion technique that the Magic Eye had told him about in the Sword Crafting Valley actually had two types of cultivation methods. The first was the "Heavenly Note Soul Controlling Art", and the second was the "Shattered Spirit Art".

The "Heavenly Note Soul Controlling Technique" could be used to absorb souls and nurture them, while the "Fragmentation God Technique" could be used to crush Mind Stigma s that were left in the artifact spirit's soul. At that time, Illusory Eyes had passed down the "Heavenly Voice's Soul Controlling Art" to Tang Huan, leaving out the equally important "Shattered Spirit Arts".

Of course, this was not a surprise to him. He probably did not even know of the existence of the "Fragmentation God Technique".

The complete Spirit Adhesion technique was only one of them.

The "Soul Method True Explanation" also recorded various methods of soul utilization, such as the spirit array that Fen Tian had set up in the Sword Crafting Valley with 981 "Profound Spirit Ghost Bead", the "True Soul Puppet Technique" that Fen Tian used to control illusions, the method to condense soul imprints, soul talismans, and so on.

The soul attack technique that Fen Tian had used against Tang Huan twice could also be found within the "Soul Method True Explanation", which was called the "Soul Killing Stab". Within the "Soul Method True Explanation", there were other methods that were even stronger than the "Soul Killing Stab". Most likely, even Fen Tian had not succeeded in cultivating them yet.

In a blink of an eye, Tang Huan closed his eyes once again as he concentrated his mind.

After a while, Tang Huan felt a wave of soul force coming from his body. This wave did not originate from Tang Huan's soul, but from an extremely condensed black aura.

What this "soul imprint" contained was Fen Tian's soul energy. Back then, when he killed Fen Lei at the "Sky Spirit Realm" Luo Fu World, he transferred the "soul imprint" into Tang Huan's body. Through this "soul imprint", no matter where Tang Huan was, Fen Tian was able to sense his position.

When Tang Huan was trying to save his master in the prison at the bottom of Dark Abyss, he should have relied on this "soul imprint" to guide him in his time to appear.

Previously, Tang Huan clearly knew that the "soul imprint" was hidden between his brows, but he could not detect its existence. In the past, Tang Huan thought that the "soul imprint" was like a transparent object. Even though he knew that it was there, he couldn't see it, but now, the transparent object seemed to have solidified.

Under these circumstances, it was much easier to expel the "soul imprint".

And after researching "Soul Method True Explanation" for so many days, Tang Huan knew where he should start from, in order to successfully eliminate it.

"Let's wait a little longer ..."

But just as Tang Huan was prepared to take action, he suddenly had a change of heart, his mind started to work faster, in just a few breaths of time, Tang Huan's face unconsciously revealed a smile.

After getting rid of Fen Tian's embodiment, Tang Huan was worried that she had actually hidden herself.

In this way, wanting to find him in this vast small world was akin to looking for a needle in a haystack. The chances of success were minuscule. But at that moment, Tang Huan suddenly realised that he could totally use her methods to return the favor. Fen Tian could sense his position using the "soul imprint", so why couldn't he determine Fen Tian's position using the "soul imprint"? If he could successfully borrow the "Soul Seal", no matter how many embodiment Fen Tian had, it would be impossible for him to escape.

The more Tang Huan thought about it, the more he felt that this method was feasible.

There must be a strange connection between Fen Tian and this "soul imprint"; otherwise, it would be impossible for Fen Tian to sense Tang Huan's location. As long as Tang Huan could capture the indistinct connection between the "soul imprint" and Fen Tian, he would be able to locate Fen Tian's position.

In that moment, Tang Huan's heart was overjoyed, and he immediately focused his mind, his own enormous soul starting to follow the strange rhythm as it slowly fluctuated.

Time passed bit by bit as the sky quietly darkened.

Tang Huan's body was like a sculpture as he remained motionless. Feng Ming, Xiao Budian and Xiao Ai walked in and out of the tent a few times, but they did not manage to distract Tang Huan in the slightest.

Unknowingly, dawn had finally arrived.

"Got it!"

Tang Huan suddenly opened his eyes, his pupils releasing a terrifying aura.

After countless failures and attempts, he finally managed to catch a glimpse of the connection between the two of them, and the connection was precisely directed to the Endless Ruins.

Even after these few days had passed, Fen Tian still did not flee from the Tranquil Continent. Rather, he was still hiding somewhere within the Endless Ruins, or even the Abyss City.

"There's no time to lose, let's go to Endless Ruins and find him!"

Tang Huan stood up with a smile on his face.

On this trip to the Endless Ruins, not only was it necessary to find Fen Tian, it was also necessary to find one of the Five Great Spiritual Fire s, the "Sharp Spiritual Fire".

Furthermore, the positions of the "Sharp Spiritual Fire" and Fen Tian, seemed to overlap.

"Whoosh!"

In the next moment, Tang Huan appeared from within the tent ...

... ....

Endless Ruins, just by hearing the name, knew that it was an extremely desolate area.

It was said that before the separation from the Forging God Great World, this place was filled with large areas of towns and cities. Not only did the earth-shattering battle cause the small world to collapse from the Forging God Great World, it also turned all of the cities and towns into ruins. It even completely destroyed the environment of that area.

Even today, the ruins were still in ruins. In this vast area, it was hard to find any traces of vegetation.

"Whoosh!"

In the air above the ruins, Space Aircraft flashed like meteors that spanned across the sky.

Within the aircraft, Tang Huan pressed both of his hands on the center of the round platform, but his two eyes had fallen on the Ou Xie who was standing motionlessly to the side.

All along the way, Tang Huan had been researching the condition of the old man's soul.

This old man's soul had already been completely imprisoned. The difficulty of recovering his soul was much greater than expelling a "soul imprint."

Right now, Tang Huan dared to remove the "soul imprint" in his body, but the more he thought about the "Soul Method True Explanation", the more he was amazed by Fen Tian's method. This

also caused Tang Huan to not dare to rashly make a move within this old man's soul, in case something were to happen and he would regret it for the rest of his life.

However, Tang Huan also believed that as long as he continued to study the "Soul Method True Explanation" to help the old man recover, it would just be a matter of time. Moreover, even if he gave up on the "Soul Method True Explanation", as long as he was able to kill Fen Tian on this trip, the old man would naturally be able to recover.

#### Chapter 634 - Abyss City

"Tang Huan, Abyss City is almost here."

Feng Ming's voice caused Tang Huan to wake up, and in the blink of an eye, he turned to look. In the distant horizon, an incomparably large hole had appeared.

"Yiya!" "Gurgle gurgle ..."

Xiao Budian and Xiao Ai curiously laid on the almost transparent wall, their eyes opened wide and round, their mouths constantly shouting.

"Is that the Abyss City?" Looking at the hole, Tang Huan was surprised.

"Since the Demon Clan's lair is named after the word 'abyss', then it will naturally not be built on the surface." Feng Ming said with a smile.

"Oh?"

Tang Huan's interest was piqued. He had heard people talking about this Abyss City a few times, but he never thought that he would build such a pit.

A moment later, the Space Aircraft appeared above the hole.

The hole was at least ten miles in radius and was so deep that the bottom couldn't be seen. On the barrel-shaped wall of the hole, many paths snaked up, and inside the hole, strange stone pillars of various shapes and sizes shot up into the sky.

Thick ropes criss-crossed between the stone pillars and the walls of the cave. They were densely packed like spider webs, and from time to time, one could see figures shuttling back and forth on the ropes.

After observing for a while, Tang Huan's eyes revealed a strange look.

Below, many Demon Clansmen s were carrying large and small bags, and were converging into the long dragon-like line on the east side of the hole.

They were evacuating from Abyss City.

In a second, Tang Huan understood what was going on. In this war, the Tian Clan and the Tian Clan could be considered to have achieved complete victories, but Tang Huan did not feel that it was necessary to completely exterminate all the Demon Clansmen s. Without the Demon Clan's threat, the honeymoon period between Tian Clan and himself would probably end quickly. As for the civil war between the three countries of Human Clan, it might break out soon, and it might even reach an extremely intense degree.

Therefore, Tang Huan did not plan to stop them.

It was not a bad thing for these Demon Clansmen to escape. What Tang Huan cared about now was the Demon Lord Fen Tian. After leaving the allied army camp, Tang Huan stayed inside of the Space Aircraft. In there, without being able to sense Fen Tian's location, he didn't want to follow them and escape Abyss City.

"Let's go out and take a look."

After a short moment, Tang Huan and Feng Ming appeared in the air one after another and formed their wings, while Xiao Budian and Xiao Ai, who followed closely behind, landed on Tang Huan's shoulders on their left and right. As for the Space Aircraft, it was grabbed by Feng Ming.

Just by sensing it, Tang Huan could not help but be excited. Fen Tian was already in the Abyss City, and not only that, the "Sharp Spiritual Fire" was also in the pit.

"Let's go!"

Tang Huan couldn't wait and shouted. He flapped his wings, and dove down together with Xiao Budian and with him. Feng Ming followed closely behind.

The two of them moved as fast as lightning, getting closer and closer to the pit, and very quickly, Demon Clansmen sensed their existence.

Then, from inside and outside the hole, sounds of exclamations came out. Not long after, many figures flew out of the hole and shot up into the sky. They were all Demon Clansmen. However, they came fast, and escaped even faster. When they saw Tang Huan and Feng Ming's faces clearly, they immediately ran far away while screaming.

"Whoosh!" "Whiz!"

Tang Huan and Feng Ming directly rushed into the pit, and in the next moment, the Abyss City that was inside the pit started to boil, while the Demon Clansmen on the rope road were like ants on a hot pan, they swam around desperately, and fear and panic quickly spread.

"Tang Huan! It's Tang Huan! "

"Tang Huan is here!"

"The Flamewing Phoenix King is also here, run quickly ... .."

"..."

Panic filled the air.

These days, even though there were a large number of Demon Clansmen who had left the Abyss City, there were still quite a few remaining. The appearance of Tang Huan and Feng Ming caused this bizarre city to become chaotic. Many people panicked, and even slid down from the thick ropes.

Both Tang Huan and Feng Ming turned a blind eye to the chaos that was occurring in the air.

His figure continued to sink, and the scene inside the Abyss City slowly played out, to the surprise of Tang Huan, who was entering the place for the first time. The stone pillars that rose up from the bottom of the hole, as well as the barrel-shaped cliff, were all dotted with countless big and small caves.

These caves were like the houses in the Heavenly Forging City; they were all the residences of the Demon Clansmen.

The deeper they went, the larger the stone pillars became. Some of the caves even ran through the entire stone pillar, and they were connected to the other stone pillars with thick ropes. This kind of cave was equivalent to the streets and alleys of Human Clan city. Moreover, one could see countless of abandoned stalls in these alleys.

After a while, Tang Huan and Feng Ming finally arrived at the bottom of the pit.

This place was about ten kilometers from the ground, but it was not as dark and gloomy as Tang Huan had imagined. Resplendent white luster rose continuously from below, and illuminated the lower half of the Abyss City as bright as day.

"Sharp Spiritual Fire?"

Tang Huan's mind was moved, at the bottom of Abyss City, he could not even see the shadow of a Demon Clansmen, but in this vast region, the sharp aura and the murderous aura seemed to have solidified, and in the middle of it, it made the skin on one's body feel like it was pierced by needles.

At this moment, Tang Huan almost instinctively thought of one of the Five Great Spiritual Fire s, the "Sharp Spiritual Fire".

The reason why he could sense such an anomaly must definitely have something to do with the Spiritual Fire.

However, the most important thing for Tang Huan was not to investigate the location of the "Sharp Spiritual Fire", but rather to look for the hiding place of the Demon Lord Fen Tian.

"Whoosh!"

Following the faint trace of connection between souls, Tang Huan seemed like an arrow that had left the bow, constantly shuttling between the stone pillars. After about ten breaths of time, Tang Huan suddenly stopped, and stood in front of a gigantic stone pillar.

At this moment, what appeared in front of Tang Huan was a cave that was a dozen meters tall, shaped like a round arch.

The hole continued to extend deeper into the stone pillar, and all one could see was a dazzling white light. They couldn't see the inside of the cave.

"Fen Tian and the 'Sharp Spiritual Fire' are hidden in the same place?"

Tang Huan's eyes flashed, a trace of doubt sweeping past his eyes.

No matter if it was the connection they had with Fen Tian's "Soul Seal," or the connection the "Flame Heart" transmitted, they all pointed towards the bright and white cave. At this time, within Tang Huan's Dantian, the "Nine Yang Divine Furnace" had already taken the initiative to quickly circulate.

Judging from his previous experience, the "Sharp Spiritual Fire" was clearly not far away from him.

"Since Fen Tian and the 'Sharp Spiritual Fire' are together, it's just right that we'll catch them all in one fell swoop." After a moment of delay, Tang Huan's body was already like a stream of light, leading the way and entering the cave.

## Chapter 635 - Heavenly Devil Cave

The deeper they went into the cave, the stronger the sharp killing intent became.

After about a few hundred metres, Tang Huan and Feng Ming stopped in their tracks. Right now, what laid in front of them was a rock wall that resembled white jade.

This stone wall was a door. There must be another space behind it.

The sharp aura and murderous aura that Tang Huan felt, was emitted from the stone wall. Not only that, Tang Huan had also captured a burst of extremely tyrannical aura.

"Fen Tian!"

These two words subconsciously flashed across Tang Huan's mind.

He had once killed Fen Tian's embodiment and was extremely familiar with his aura, so the aura fluctuations that originated from the stone wall now were exactly the same as Fen Tian's aura fluctuations.

Fen Tian was definitely behind the stone wall.

Tang Huan squinted his eyes, the killing intent in his eyes shooting out, following that, he calmed his heart and concentrated, carefully inspecting the stone wall.

After a while, Tang Huan understood that the stone wall did not have any sort of array or spirit array, however, it would not be easy for him to enter.

"Bam!"

In a blink of an eye, Tang Huan's palms, which were filled with Genuine Qi power, suddenly struck forward, like two gigantic rocks that weight over ten thousand kilograms, smashing ruthlessly into the stone wall. The heaven shaking sound echoed crazily in the inside the cave, as if it could tear open one's eardrums. However, the stone wall only trembled for a moment, before it returned to normal.

Tang Huan frowned slightly, he did not know what material the wall was made of, although he had not set up any enchantments or spirit arrays, it was still extremely heavy. Furthermore, Fen Tian seemed to have sealed it completely from the inside, making it difficult for even with Tang Huan's strength to break it open.

"This is the 'Heavenly Devil Cave', the place where all previous generations of Demon Lord cultivate in seclusion."

Feng Ming couldn't help but say, "This place is already very different from a few years ago. In the past, this door seemed to have been easily opened. "

"Heavenly Devil Cave..." Feng Ming's words confirmed Tang Huan's judgement.

"Xiao Ai, come with me!" Following which, Tang Huan patted the two little fellows on his shoulders and said, "Xiao Budian, you go over to Feng Ming's side first."

"Goo —"

Xiao Ai pursed his lips, releasing a sound that sounded like thunder. After lightly stretching his body, he jumped out from Tang Huan's shoulder, and landed a few dozen meters behind him. However, Xiao Budian made a "Yiya" sound, flapped her wings, and floated behind Feng Ming.

Tang Huan took a light breath. "Nine Yang Divine Furnace" and "Five Colors Spiritual Pills" circulated to their limits at the same time, and a layer of faint golden luster appeared on the surface of his body.

"Begin!" Abruptly, Tang Huan growled, and once again struck out with both palms.

"Goo!"

Almost at the same time, a sound like that of gold breaking stone exploded out, Xiao Ai's legs suddenly stomped on the ground, transforming into a ball of white light, flying straight towards the stone wall at the end of the cave, wherever he went, a powerful storm was stirred up, and the whistling sounds seemed to have congealed into a terrifying sound wave.

In less than a blink of an eye, Xiao Ai had already turned his body in midair and heavily stomped his legs on the stone wall. Xiao Ai's incomparably powerful strength was like a volcanic eruption, roaring out from his two hind legs, and fiercely smashed onto the stone wall with the force of thunder.

"Bam!" Almost at the same time, another loud noise burst out, it was Tang Huan's palms that had landed on the stone wall as well. The boundless Genuine Qi, combined with the tyrannical power of the flesh body, surged out of his palms with the force of a landslide.

Under the impact of the two huge forces, the stone wall trembled violently. It could not hold on any longer and was pushed back almost a meter.

"Again!" Tang Huan's brows raised in joy, as he shouted out.

"Goo — —" Xiao Ai once again bounced several tens of meters away.

"Begin!"

"..."

After a short moment, a shocking rumbling sound once again reverberated in the air.

Under Tang Huan and Xiao Ai's second round of joint attacks, not only did the stone wall continue to move back by about a meter, it even revealed numerous crisscrossing cracks.

"Again!"

After the third joint attack, the stone wall was no longer able to take it and completely exploded into pieces. It shattered into pieces and was swept inside the cave by the tornado formed by the Strength Qi, however, it had only advanced a few meters before it quickly spread outwards.

Tang Huan concentrated and looked over, it was the cave behind the stone wall that had suddenly expanded, and his line of sight also opened up abruptly. Through the drifting sand in the air in front of him, he could vaguely see a huge round ball standing there, with white flames seemingly blazing around the ball.

Not long later, the dust and sand dispersed and everything became clear.

The space in the depths of Heavenly Devil Cave was around a hundred meters in radius. In the center of the space, there was not a round ball, but a white colored ... The flower bud had a height of ten to twenty meters, as if it was carved from a piece of white jade. It looked like a perfect whole.

The surface of the flower bud was covered with a layer of white flames, the tip of the flame crazily swayed, and burned extremely fiercely. However, there wasn't the slightest bit of warmth within the flames.

"Sharp Spiritual Fire!" Tang Huan subconsciously gasped, the flames were definitely one of the Five Great Spiritual Fire s, the "Sharp Spiritual Fire".

"There's someone inside!" Just then, Feng Ming suddenly shouted out.

"Yiya!" "Gu gu!" Xiao Budian and Xiao Ai also raised their little claws, pointing at Pang Shuo's flower bud as surprise filled their eyes.

"It really is him!"

Inside the flower bud that was as white as jade, a tall and sturdy figure actually sat cross-legged. Although his appearance could not be seen clearly, the pair of blood-red wings on his back had already exposed his true identity.

Furthermore, within the flower bud, there was a powerful Qi that Tang Huan felt even more familiar with, which continuously fluctuated outwards.

"Fen Tian!" Tang Huan suddenly shouted, his voice was like thunder, resounding throughout the Heavenly Devil Cave.

"Tang Huan, I didn't expect you to find me so quickly!"

From inside the flower bud, Fen Tian suddenly opened his mouth, and his ice-cold emotionless voice came out.

Immediately, Fen Tian raised his eyelids, revealing a pair of blood red eyes, he chuckled, and said with a sinister killing intent: "It's good that you're here, it'll save me the trouble of going out to find you again. Tang Huan, this' Heavenly Devil Cave 'of mine is the place where you will die today! "

"Open —"

"Buzz!"

The moment the word "open" rang out, intense trembling sounds filled the entire Heavenly Devil Cave. The white flames that burned fiercely on the surface of the flower bud were like a receding river, shrinking quickly and entering Fen Tian's body. Following that, the bud that was about to bloom layer by layer quickly bloomed.

In less than a breath of time, the proud blooming white flower had already fully bloomed, occupying nearly half of the Heavenly Devil Cave's space.

Chapter 636 - Killing you twice!

In the middle of the layer after layer of flower petals, Fen Tian had already stood up. His burly body was covered with a black robe and his face was rather delicate and pretty. At this moment, the wings on his back had already spread out, flapping gently, as though he wanted to soar into the sky.

"You fused with the 'Sharp Spiritual Fire'?"

The look in Tang Huan's eyes instantly became extremely sharp, and the moment the flower bud bloomed, the aura of the "Sharp Spiritual Fire" disappeared without a trace.

"Your eyesight is not bad, you actually know this' Sharp Spiritual Fire '!"

Fen Tian swept his eyes across Tang Huan, and then started to laugh loudly, "Tang Huan, a few years ago, you fused with the 'Nirvana Sacred Fire', why, why do you still want the 'Sharp Spiritual Fire' now? Unfortunately, you came a step too late, this' Sharp Spiritual Fire 'already belongs to me. This humble one has worked hard for many years and has finally managed to completely fuse with the 'Sharp Spiritual Fire' today. Tang Huan, you will soon be able to taste the taste of this kind of Spiritual Fire. "

As he finished speaking, Fen Tian's laughter became even more insolent, and in his palm, a ball of white flames had already sprung up, fluctuating rapidly with his laughter.

"Fen Tian, you made three mistakes."

Hearing that, the smile on Tang Huan's face suddenly became strange, "Firstly, I have not only fused the 'Nirvana Sacred Fire', but also the 'Bodhisattva Fire' and the 'Xuan Ming Initial Fire'."

"Second, your 'Sharp Spiritual Fire' is of the five elements metal, while my 'Nirvana Sacred Fire' is fire. My Spiritual Fire can perfectly counter your 'Spiritual Fire'; third, after a person dies, the fused Spiritual Fire will not die out as well. As long as I kill you, your 'Sharp Spiritual Fire' will still be mine!"

"What?"

Hearing Tang Huan's words, Fen Tian not only stopped laughing, his expression became even more unsightly, "If you want to kill this reputed one, you should not be afraid of losing your tongue! Tang Huan, die for me! "

Fen Tian was furious, but as soon as he said that, he spread his wings and rushed up to the sky, and immediately, Black Heavenly Domain flew out from his body. Compared to the Heavenly Domain which he used his embodiment on a few days ago, this Heavenly Domain now had an additional intent of showing off its sharpness and being able to destroy anything.

"Fen Tian, if I can kill you once, I can kill you twice!"

Tang Huan laughed heartily. With a "sou" sound, he was like a ferocious beast who had just escaped its cage, as he charged forward at lightning speed. At almost the same time, his Five Colors Heavenly Domain appeared as well.

However, although Tang Huan's tone was light, there was not the slightest bit of contempt in his heart.

The last time he was able to easily kill Fen Tian's embodiment was because Fen Tian had just broken through, and in his battle against Xing Meng, Fen Tian had also been injured. But right now, what he was facing was actually Fen Tian's true body, so his strength definitely far exceeded that of his embodiment.

This could be seen from the Heavenly Domain that Fen Tian had activated.

A few days ago, when he activated the embodiment, it covered an extremely wide area, but now, Fen Tian's embodiment only covered a few meters of area.

Upon stepping into the Heavenly Domain Realm, the greater the degree of contraction of the Heavenly Domain, the greater the explosive power.

Xiao Ai was a living example.

In just a few short days, Fen Tian's Heavenly Domain had already shrunk to such a state. In addition to successfully fusing with the "Sharp Spiritual Fire", his strength must have been raised by a great amount. At this time, if Tang Huan wanted to defeat him, she would have to spend a lot of time and effort.

In a split-second, the little cluster of Black Heavenly Domain s collided with the rapidly expanding Five Colors Heavenly Domain.

Amidst an earth-shattering sound, the powerful Strength Qi rolled out, and at the place where the two Heavenly Domain s collided, there were even more intense ripples that could be seen with the naked eye.

After a moment, Tang Huan's pupils could not help but constrict as the Conqueror Spear appeared in his palm.

On the other side, Fen Tian's face was sinister, his body was like a lightning bolt, and the Black Heavenly Domain that covered his body seemed to have turned into an incomparably sharp sword, fiercely piercing into the Five Colors Heavenly Domain and quickly approaching Tang Huan. Fen Tian's current control over the Heavenly Domain actually had a faint hint of Xiao Ai's demeanor, but it was not as smooth and at ease as it was now. Even so, the might unleashed by the Heavenly Domain was not to be underestimated.

"Chi!"

In between Tang Huan's mind instructs (in a second), the Heavenly Domain suddenly fluctuated, continuously delaying Fen Tian's attacks. The Conqueror Spear in his hands pierced out at an astonishing speed.

At this moment, Tang Huan had already activated "Nirvana Sacred Fire", "Bodhisattva Fire" and "Xuan Ming Initial Fire" to their limits, and a terrifying heat surged out from the spear. At the sharp tip of the spear, a captivating red flame continuously surged out, and in an instant, it turned into a huge fireball.

"Bam!"

In the blink of an eye, that fireball had already whizzed out from the spear, and like a blazing sun falling from the sky, it fiercely smashed onto Fen Tian's Black Heavenly Domain, causing a loud noise that seemed as if it would split gold.

Immediately after, the terrifying Strength Qi began to wreak havoc in the vicinity of Tang Huan's Five Colors Heavenly Domain, while the Black Heavenly Domain began to shake intensely. Inside Heavenly Domain, Fen Tian's eyes were wide open, his face was warped, and a black Qi surged out of his body. After a moment, the Black Heavenly Domain finally recovered its stability.

In the next moment, Fen Tian could not help but sneer, and then, he extended his hand to his back and grabbed.

If it was someone with a weaker cultivation, they would probably go insane from the impact of this aura.

In Fen Tian's palm, a white flame surged out, like a jade dragon, it circled around the Blood Red Great Sword, and in that moment, the entire gigantic sword was enveloped by the dense flame, the sharp intent was extremely terrifying.

Fen Tian laughed out crazily, he flapped his wings, and his body rushed forward explosively, the gigantic sword in his hand that was surrounded by white flames hacked down from above Tang Huan's head. In this instant, the Black Heavenly Domain also began to change shape along with Fen Tian's sword force, as though all of the Heavenly Domain's power had been superimposed onto the gigantic sword.

An ear-piercing whistle rapidly fluctuated within the cave as the enormous sword descended. Flames danced wildly as it emitted a soul-stirring might. At this moment, it was as if a huge mountain had collapsed. Tang Huan was the first to bear the brunt of the impact, immediately feeling an incomparable sense of pressure.

With a slight raise of his eyebrows, Tang Huan shook both his arms. The Conqueror Spear, like a bow that had been pulled to the shape of a full moon, fiercely bent and released its bowstring, causing the spearhead to suddenly collapse upwards.

In a split-second, the spear and sword separated from each other under the impact of the tremendous force.

The giant sword in Fen Tian's hand flew high, and his body involuntarily floated up, both of his arms seemed to tremble slightly. The body of the Conqueror Spear in Tang Huan's hands was pressed into a curved arc, the tip of the spear just touched the ground, and his palm even felt a numbing pain.

However, the tyrannical "Sun Spirit Body" immediately caused the cracks on Tang Huan's palms to stop bleeding and quickly heal.

In this blow, both sides were actually evenly matched.

"Fen Tian, looks like you're going to be disappointed."

Tang Huan laughed, with a flap of his wings, his body rose into the air as well. The spear in his hand was like a dragon, thrusting towards Fen Tian as fast as lightning.

He had clearly sensed the battle between and the embodiment in the Dark Abyss. Initially, he had thought that after successfully fusing with the "Sharp Spiritual Fire" and advancing into the Heavenly Domain, he would possess the strength to surpass Tang Huan. However, from the looks of the exchange just now, the strength of both parties seemed to be on par with each other.

If the opponent was only Tang Huan, then it wouldn't matter even if the battle ended in a draw. However, there was still a rabbit with shocking power that came with Tang Huan.

He already knew that the rabbit should be the "Flying Jade Hare", a type of Spiritual Beast that was famous for its tyrannical battle power, its strength was probably not any weaker than Tang Huan.

If it were to participate, it would definitely lose this battle. It might even lose its life. His only embodiment had already died in the Dark Abyss and his true body was here. If his original body was no more, then his soul would have been completely destroyed.

In an instant, Fen Tian's reaction wasn't slow at all.

"Hu!"

While quickly flapping his wings and flying forward, the gigantic sword in Fen Tian's hands was also rapidly dancing. Blood Red Odor s unceasingly surged out and lingered around the sword.

Almost every time Fen Tian moved forward a little, that giant sword that looked like a door board would expand by a bit, and the white flames surrounding the sword would also become even more fierce. When the two sides were only about ten meters apart, the Blood Red Great Sword had already expanded by several times, and the aura it emitted made people's hearts tremble.

"Tang Huan, try this again!"

Fen Tian growled, and suddenly waved the gigantic sword.

In a blink of an eye, the condensed Blood Red Odor began pouring down like a waterfall, covering an area with a radius of more than ten metres, including Tang Huan. At this moment, an incomparably sharp aura whizzed out, and the void seemed to be sliced into pieces by countless sharp blades.

In a blink of an eye, Tang Huan's figure had been completely torn apart.

"This is bad!"

Fen Tian's expression suddenly changed. The instant this thought flashed through his mind, he discovered a blazing heat shooting towards him from the left rear. The speed was so fast that he had no time to retaliate. Just then, Fen Tian flapped his wings without hesitation and floated into the air.

In a split-second, a large ball of fireballs smashed onto Fen Tian's Black Heavenly Domain, erupting with a sound similar to a great bell.

The terrifying Strength Qi wreaked havoc as Fen Tian retreated quickly. The Black Heavenly Domain trembled even more intensely, and streams of fiery red aura penetrated through the seal of the Heavenly Domain, getting extremely close to Fen Tian's body. The terrifying heat made him feel as if his entire body was about to ignite.

"Fen Tian, how do you feel?"

Tang Huan laughed, his long spear danced as he chased after it like a shadow.

Earlier, he had coordinated the "Visional Phoenix Five Footwork" with the "Space Moving" to display it. Within the Five Colors Heavenly Domain, when Tang Huan used these two methods, he became even more relaxed and at ease. Also, the speed at which he traversed through space became even faster, making it impossible to guard against his opponents.

When they were sparring in the Turbid Sea Area, Tang Huan rarely used such a method. Now that he was fighting with Fen Tian, he naturally did not have to hold back.

"Tang Huan!"

Fen Tian was finally able to stabilize the Heavenly Domain, but he clenched his teeth and spoke sinisterly. However, when he saw that Tang Huan had already arrived in front of him, he could only forcefully suppress the angry Blood Red Great Sword in his chest and slashed outwards with a sweeping force of a thousand soldiers, dragging a long white flame tail behind him.

After a moment, the sword had cut the Conqueror Spear, and also cut Tang Huan's waist.

At practically the same time, Fen Tian reacted, whether it was the Conqueror Spear or Tang Huan, they were both afterimages that had yet to disperse. Just like earlier, Tang Huan's real body had already teleported away.

"Damn it!"

Fen Tian cursed in his heart, but he did not hesitate to charge forward.

But right after, Tang Huan's figure appeared on the left in front of him. Before he even had the chance to react, the Conqueror Spear that was surrounded by raging flames had already pierced into the Black Heavenly Domain as fast as lightning.

This sudden change of events caused Fen Tian to be greatly shocked. Tang Huan had actually consecutively made two transformations, and the connection between the teleportation and the teleportation was extremely perfect. This had greatly exceeded his expectations.

"Chi!"

In the instant that the ear-piercing scream came, Fen Tian had already retreated backwards, and dense black Qi surged out of his body, instantly forming a thick barrier. It was also at this time that Tang Huan's spear had passed through Fen Tian's Heavenly Domain and landed on the black barrier.

With an explosive sound, a terrifying strength surged out of the spear like a violent storm.

The black barrier immediately shattered into pieces, while the Heavenly Domain was no longer able to hold on, and was immediately torn to shreds by the Strength Qi. As for Fen Tian, he felt as if he had suffered a heavy blow, his tall and sturdy body was thrown more than ten meters away, and he spat out a mouthful of blood.

At this moment, the anger in Fen Tian's chest was already hard to conceal.

Compared to the psychological blow he'd received, the injuries he'd received in his body could be considered negligible. He had originally thought that he and Tang Huan were evenly matched, but when Tang Huan unleashed his spatial magic, he suddenly realized that Tang Huan seemed to be even stronger than him.

Tang Huan was only around twenty years old, and had only cultivated for a few short years. He was a dignified Demon Lord, had commanded the Demon Clan for dozens of years, and had even led an army to attack the Origin Continent several times, almost exorcising the Human Clan from the continent. And now, his embodiment could not even compare to Tang Huan's, and he was actually not even Tang Huan's opponent?

Immediately, an indescribable feeling of humiliation erupted from the bottom of Fen Tian's heart.

Chapter 638 I must thank you!

"Chi!"

A sharp whistle suddenly pierced the ears, awakening Fen Tian from his stupor. Tang Huan appeared in front of him once more, and the blazing spearhead quickly expanded and expanded within his pupils.

That terrifying warmth immediately calmed Fen Tian down, and that sense of humiliation was immediately replaced by an intense sense of danger.

"Hu!"

The Black Heavenly Domain activated it once again, but it was no longer shrinking. Instead, it instantly expanded to the limit, and the majority of its coverage overlapped with Tang Huan's Five Colors Heavenly Domain. At about the same time, the Blood Red Great Sword in Fen Tian's hand also slammed out, like a raging mountain or a raging river.

"Clang!"

Amidst the loud sound, the spear and the sword separated upon contact.

In the next moment, from between Fen Tian's brows, a group of Blood Red Odor roared, and instantly transformed into a blood red tempest, sweeping towards Tang Huan with a speed that no one could dodge.

"Soul Killing Storm!"

Tang Huan's eyes darkened.

The soul attack that Fen Tian had unleashed, was not 'Soul Killing Stab', but an even more powerful 'Soul Killing Storm'. He never thought that he would actually succeed in cultivating this technique. The sword spirit could withstand the Soul Killing Stab, but it might not be able to.

Seeing Fen Tian brandishing the sword and rushing towards him, Tang Huan did not hesitate at all. The Conqueror Spear withdrew, and his ten fingers immediately danced, "Golden Bell Cover" immediately covering his body. And at this moment, the sanguinary storm had already engulfed him.

The chilliness was bone-chilling, and it seeped into the depths of his soul, making it impossible for him to stop it. After a short moment, the sanguinary storm had also seeped into his soul. Tang Huan tried his best to maintain the "Golden Bell Cover", but the Five Colors Heavenly Domain was unable to hold on, and in an instant, it disappeared.

Abruptly, an explosive sound echoed. It was Fen Tian's Blood Red Great Sword, which was surrounded by white flames, landing on the golden round cover around Tang Huan's body with a lightning speed.

The "Golden Bell Barrier" instantly shattered, turning into specks of golden light that quickly dissipated, while Tang Huan's body involuntarily retreated backwards.

"Tang Huan!" Seeing that, Feng Ming was shocked, he immediately flapped his wings, using the "Phoenix Soaring Sky" technique, and shot towards Tang Huan with an astonishing speed.

"Yiya ..." Xiao Budian also cried out in alarm, as he followed right behind Feng Ming.

"Whoosh!"

At this time, Fen Tian did not continue to chase after Tang Huan. Instead, he strongly patted his wings, turned into rays of light, and rushed out of Heavenly Devil Cave.

"Gu" Xiao Ai angrily opened his mouth and let out an earth-shaking roar. He then stomped on the ground and rushed towards Fen Tian like a meteor.

"You little beast, scram for me!"

Fen Tian roared out, and another group of Blood Red Odors appeared from between his brows, transforming into a gust of wind that swept towards Xiao Ai.

In a blink of an eye, Xiao Ai was surrounded, and his speed plummeted. His curled up figure immediately revealed itself and stretched, and then, as though he was drunk from alcohol, he staggered a few times in the air, and then fell down with a "Pa Da" sound.

"Whoosh!"

Fen Tian secretly heaved a sigh of relief, flying above Xiao Ai without the slightest hesitation.

However, just as he was about to pass through this vast space and enter the circular arched passageway, a change suddenly occurred. A figure suddenly appeared at the mouth of the passageway.

"Tang Huan?"

Fen Tian's body shook, he could not believe his eyes.

The one who was at the entrance of the passage, was Tang Huan.

"Tang Huan, you can actually recover so quickly?" Fen Tian was shocked and angry at the same time.

"Fen Tian, I have to thank you."

Tang Huan snorted coldly, a look of ridicule flashing past his eyes. "If not for learning 'Divine Sense and Soul Consolidation Method' from you, I might not have been able to handle this' Soul Killing Storm 'of yours." The "Divine Sense and Soul Consolidation Method" was only one of the methods used within the "Soul Method True Explanation." It can make the soul become as stable as a mountain and as firm as a boulder in an extremely short amount of time. It is extremely effective in resisting soul attacks.

The power of this "Soul Killing Storm" was far stronger than the "Soul Killing Stab". If not for the "Divine Sense and Soul Consolidation Method", even if the sword intent within Tang Huan's soul was peerless, it would still be difficult to resist. But after using the "Divine Sense and Soul Consolidation Method", Tang Huan was dazed for a moment, and then he woke up.

It was because of this that Tang Huan was able to use Space Moving in time and block Fen Tian's path.

"Soul Method True Explanation?"

Hearing these words, Fen Tian clenched his teeth so hard his teeth almost shattered.

A few days ago at the Dark Abyss, he used his embodiment to run to that cultivation cave with all his might. There, he used the "Soul Method True Explanation" as an important reason. He had spent a lot of effort to find that "Soul Method True Explanation." There were many methods that he had yet to succeed in cultivating them. However, he did not expect that not only would the embodiment completely disappear, the "Soul Method True Explanation" would also fall into Tang Huan's hands.

With regards to the "Soul Method True Explanation," he had originally been hoping that Tang Huan would fail to notice it, but now, that little bit of hope in his heart had been completely shattered.

"If not for the power that erupted when you destroyed the Magical Transmission Formation and flipped the praying mat placed there, I really wouldn't have been able to discover the 'Soul Method True Explanation' that was placed under the praying mat. Fen Tian, don't you think I should thank you?" At the end, Tang Huan's ridicule grew even stronger.

"You ..."

Hearing Tang Huan's words, Fen Tian was so angry that he wanted to vomit blood.

Before this, he never could have imagined that the reason Tang Huan obtained the "Soul Method True Explanation" was due to him. However, the Magical Transmission Formation was connected to the Heavenly Devil Cave, if he did not destroy it in time, Tang Huan would have charged into the Heavenly Devil Cave and killed the original body that had not completely merged with the "Sharp Spiritual Fire". Thinking of this, Fen Tian immediately felt much better.

However, when he thought about his current situation, Fen Tian's heart turned cold.

That "Soul Killing Storm" had yet to be completely cultivated, and when it was used, it was rather barely able to withstand the pressure. It was only one time, but it was still something he could endure, and two times in a row, it had already caused heavy damage to his soul. A damaged soul would have a tremendous impact on one's ability to unleash their strength.

Under these circumstances, how could he be a match for Tang Huan?

"Fen Tian, you must be feeling really bad right now?"

"Seeing that Xiao Ai, who was originally lying on the ground, had already stood up, Tang Huan couldn't help but slightly relax. His gaze once again fell on Fen Tian, but he seemed to have seen through his worry, and suddenly sneered," After you used the 'Soul Killing Storm', you did not stay behind to attack, but chose to escape, especially after you used this kind of soul attack's method twice, which caused you to not dare to delay any longer. It seems like the two consecutive 'Soul Killing Storm' has brought about quite the aftereffects for you, who knows how much more of your strength you can use right now? "

### Chapter 639 - Fen Tian's Death

Fen Tian's face turned green, he took a deep breath and bellowed: "Tang Huan, if you want to know how much more strength I can unleash, come at me."

Before his voice fell, the colossal sword in Fen Tian's hand had already been swept out. A gigantic blood-red sword beam swept across the sky, and swept towards Tang Huan like a waterfall. Once he made a move, the Heavenly Domain which had already become unstable from the use of the "Soul Killing Storm" twice immediately dissipated.

While Tang Huan was still in the midst of his mind instructs (in a second), the Five Colors Heavenly Domain stirred his power yet again, enveloping Fen Tian within. The Conqueror Spear in his hands, like a divine dragon swinging its tail, welcomed the sword beam.

"Bam!"

Amidst the intense sounds of Strength Qi colliding, the sword beam instantly shattered, the spear and sword clashing once again.

After the loud explosion, Fen Tian could not help but groan out. He was actually sent flying along with his sword, and with a flap of his wings, he barely managed to stabilize himself more than ten metres away. His pale face was uncontrollably flushed red, and his palms were already dripping with blood.

"Chi!"

Tang Huan suddenly appeared in front of Fen Tian, his spear shooting out like lightning.

Fen Tian roared out wildly, and his gigantic sword slashed out brazenly, the tyrannical Strength Qi pouring down, and in the blink of an eye, another "Dang" sound was heard, the spear and sword parted upon contact, and under the violent impact of the Strength Qi that suddenly erupted, Fen Tian's tall and sturdy body fell back yet again.

"Swish ..."

Tang Huan moved like a shadow, spear after spear, spear after spear, sweep and smash, the sound of metal clanging continuously rang in his ears. Fen Tian was short and short, but his attacks were

more and more hurried, and he was becoming more and more powerless, as though every time the spear and sword clashed, his body would be forced to retreat by the Strength Qi.

"Ding!"

In the next moment, Tang Huan's sixth spear thrust out, the tip of the spear had a burning flame spinning around it, the heat was extremely pressing, causing Fen Tian to be in a hurry, he had no choice but to place the greatsword horizontally in front of his chest, and with gritted teeth he pushed forward, and with a clear and melodious sound, Fen Tian once again shot backwards with his sword, his back smashing heavily against the stone wall.

"Bam!" The entire Heavenly Devil Cave trembled violently. Blood spurted out of Fen Tian's mouth as his body slid down the stone wall. Although he quickly stood up, his body swayed as though he was about to fall down at any time.

"Fen Tian, looks like your soul will soon become my Spirit of Divine Weapon." Tang Huan glanced at Fen Tian and sneered. The Conqueror Spear condescendingly smashed towards Fen Tian.

"In your dreams!"

Fen Tian's expression was sinister, his blood red eyes looked as though they were about to drip blood, his appearance was extremely terrifying. Hearing Tang Huan's words, his mouth emitted a creepy laughter, and he grinded his teeth as he growled, "Tang Huan, even if my soul is destroyed, you won't be able to do as you wish."

Almost at the same time the voice came out, Fen Tian's soul force suddenly became extremely berserk.

"Hmm?" Tang Huan's spear stopped, his eyebrows knitted together, and then another set of Blood Red Odor s appeared from between his brows, as an even more violent blood red storm whizzed towards Tang Huan.

"Soul Killing Storm?"

Tang Huan's face darkened, the long spear left his hand, transforming into the body of the "Eight Remoteness Dragon King", Pang Shuang fiercely pounced towards Fen Tian. Almost at the same time, Tang Huan's mind instructs (in a second) slightly moved, and he quickly executed the "Divine Sense and Soul Consolidation Method", causing his soul to follow the wondrous rhythm and fluctuate outwards.

In the next moment, the sanguine storm had already penetrated deep into Tang Huan's soul, and the sinister and cold aura swiftly wreaked havoc.

Immediately after, deep within Tang Huan's soul, a boundless sword intent surged out and crazily collided with the cold. However, the moment before the blood red storm rushed in, Tang Huan's soul had tightly curled into a small ball, unaffected by the cold. This was the effect of the "Divine Sense and Soul Consolidation Method".

He flicked his finger for a moment, and then, a moment ....

Tang Huan finally regained his senses, and saw Fen Tian's body flying backwards under the Eight Remoteness Dragon King's pouncing attack, falling twenty to thirty metres away, and not moving anymore.

Tang Huan exhaled a long breath, and his figure flashed like lightning as he floated to Fen Tian's side. Carefully sensing, within Fen Tian's body, the aura of the soul had already completely dissipated. Tang Huan had a complete understanding of the soul, so he naturally knew what was going on.

Even Fen Tian's soul was unable to endure the third time he used "Soul Killing Storm", as the moment the "Soul Killing Storm" was released, his soul had already collapsed and completely disappeared.

This kind of Fen Tian, was naturally unable to live.

Tang Huan felt somewhat regretful. If such a soul could be collected and obtained, the Divine Armament refined would definitely be incomparably tyrannical.

"Tang Huan, are you alright?" Feng Ming's graceful figure flashed and arrived in a flash, looking at Tang Huan worriedly.

"Yiya, yiya ..." Xiao Budian flapped her three pairs of small wings and flew over. The little white rabbit was already lying on its back.

"I'm fine." Tang Huan laughed, his gaze sweeping past Feng Ming and Xiao Budian, and resting on the little white rabbit, "Xiao Ai, how are you doing?"

"Gu gu -" Xiao Ai groaned, looking a little dispirited.

"Don't worry. With me here, you'll be able to recover very soon."

Tang Huan understood the meaning behind the little white rabbit's words and comforted it while rubbing its head. Xiao Ai was not like him, being able to use the "Divine Sense and Soul Consolidation Method". When Fen Tian used the "Soul Killing Storm", it could only forcibly endure it. However, this was not important. The current Tang Huan had a complete method to heal its soul.

"Tang Huan, that 'Sharp Spiritual Fire' is coming out soon." Suddenly, Feng Ming anxiously shouted out.

"Alright!"

At the same time, Tang Huan also felt that sharp and somber aura which was emitting from the Dantian. He turned his eyes and looked at Fen Tian again. After the "Sharp Spiritual Fire" had been fused by Fen Tian, it was like a moth trapped in a cocoon. Now, with Fen Tian's soul destroyed, the "Sharp Spiritual Fire" would immediately separate from it and break out of the cocoon.

Right now, Tang Huan had already achieved his first goal in coming to Abyss City. As long as he could fuse with the "Sharp Spiritual Fire," his second goal would be accomplished.

Feng Ming, Xiao Budian and Xiao Ai held their breath, Tang Huan did not even blink his eyes as he stared at Fen Tian's Dantian, the rise and fall of the small piece was getting more and more intense, the white light that was being revealed also became more and more dazzling, and the sharp aura and killing intent that was being emitted also increased.

"Hu!"

After around ten breaths of time, a ball of white, extremely condensed flame suddenly shot out from Fen Tian's lower abdomen. Tang Huan's eyes slightly focused, and under his great effort, the blazing

flame immediately poured down from his two palms, quickly enveloping that small ball of white fire ...

## Chapter 640 - White Robe

In an instant, the "Sharp Spiritual Fire" was like a caged beast that frantically struggled, wanting to break free from the "Nirvana Sacred Fire".

However, the Spiritual Fire had only been successfully merged by Fen Tian not too long ago and it had only recently separated from Fen Tian, so it was at its weakest moment. Furthermore, its edges had already been sharpened by Fen Tian, so under Tang Huan's suppression, its struggles naturally had no effect.

Not long after, the "Nirvana Sacred Fire" wrapped around the ball of white flames, and it calmed down.

Tang Huan immediately sat cross legged, his face revealing a slight smile.

Amongst the four Spiritual Fire s he had already obtained, this "Sharp Spiritual Fire" was perhaps the easiest one to fuse with, and all of this was thanks to Fen Tian. If Fen Tian had not fused with it first, just the power of wearing it down would have taken a lot of time and experience.

In a moment of thought, Tang Huan closed his eyes and used all his strength to circulate his "Nine Yang Divine Furnace" and "Five Colors Spiritual Pills".

Seeing that, Feng Ming relaxed her mind, her red lips slightly opened, and a ball of blazing flame shot out, falling onto Fen Tian's body. In just a short while, the former master of the Demon Clan had turned into ashes, leaving behind only a dim Blood Red Great Sword.

After taking care of Fen Tian, Feng Ming sat cross-legged near him. Xiao Budian and Xiao Ai also quietly squatted down, causing the Heavenly Devil Cave to instantly become so quiet that one could hear a pin drop.

Inside the cave, the light was shining brightly. Outside the Abyss City, the sky had turned from bright to dark, and from dark to bright.

Unknowingly, the next morning.

One day and one night passed, and the Abyss City underwent a drastic change.

Tang Huan and the others had been living in the Demon Clan for a long time, so the shock they brought to the people of Demon Clan could not be described with words. Especially during the big battle between Tang Huan and the Heavenly Devil Cave, a few brave Demon Clansmen had tried to find out about it outside the cave, but the final result they found out was that Fen Tian was most likely already dead.

When the news spread out, everyone in Demon Clan was terrified.

The Demon Lord Fen Tian had accumulated a lot of prestige and influence in his heart. Being killed by someone, to the Demon Clansmen, was equivalent to having the sky and earth collapse. Even those stubborn people who refused to move did not dare to delay any longer. They all rushed out of the cave and left the Abyss City.

Thus, when the vanguard troops of the Tian Clan and the Human Allied Forces rushed over, what they saw was an empty city.

"Hu!"

Just then, in the Heavenly Devil Cave, Tang Huan heaved a long sigh of relief, slowly opened his eyes, his face had a pleasantly surprised smile.

Within the Dantian's "Nine Yang Divine Furnace", the flames that had fused with the "Flame Heart" had already reached four blobs. The integration of the Sharp Spiritual Fire gave Tang Huan a huge improvement, especially in the area of flesh body, which greatly exceeded Tang Huan's expectations.

Currently, Tang Huan's Spiritual Meridian had nearly doubled in size. This meant that Tang Huan's speed of activating the Genuine Qi would be even faster. Not only could it greatly increase Tang Huan's cultivation speed, when fighting with the enemy, the battle skill would also be able to display an even stronger power.

In addition, the increase in flesh body had also caused Tang Huan's "Sun Spirit Body" to be even stronger.

Before Tang Huan had fused with the "Sharp Spiritual Fire," he had never imagined such a change. Previously, when he was fusing "Bodhisattva Fire" and "Xuan Ming Initial Fire", although Tang Huan had improved, the degree of increase in his cultivation was absolutely incomparable to how it was now. Truthfully speaking, even when he was fusing with the "Nirvana Sacred Fire", Tang Huan had never experienced such a metamorphosis.

"Perhaps it's because the five elements of the physique are metal."

Tang Huan felt the changes in his body, and this thought uncontrollably flashed across his mind. If not for his physique, he would not be able to explain the current situation. With that thought, Tang Huan immediately activated Heavenly Domain.

Almost at the same time the Five Colors Odor gushed out from his body, Tang Huan's heart surged with an ecstatic feeling.

In that instant, he realized that his control over the Heavenly Domain had suddenly become more powerful than ever before. After allowing the Heavenly Domain to expand to its limits, with a thought from Tang Huan, the Heavenly Domain started to shrink. In an instant, it shrunk from a hundred meters around him to only a few meters around him.

Although the scope of the Heavenly Domain had been reduced, Tang Huan's Perception Ability did not decrease in size and instead increased in size.

For a moment, Tang Huan could not help but be excited.

However, not long after, Tang Huan's heart sensed something, he suddenly changed his expression and leaped up, looking towards the right in the blink of an eye, he simultaneously shouted: "Who is it? "Come out!"

He was staring at an empty place, not even a fly, let alone a human.

Feng Ming woke up from her stupor and stood up abruptly. A look of surprise flashed across her beautiful eyes: "Tang Huan, who else is in this Heavenly Devil Cave?"

"Yiya!"

"Gu gu!"

Xiao Budian and Xiao Ai also jumped up and followed Tang Huan's gaze in surprise.

Tang Huan was also quite suspicious. When he was activating the Heavenly Domain, he had used his Perception Ability to its fullest potential and was indeed able to sense a trace of aura from that direction.

It almost felt like it was a Heavenly Domain-level Expert that was stronger than Fen Tian. But strangely, looking back, there was no one in that direction, could it be that that person had invisible powers?

His lips moved slightly, just as Tang Huan was about to speak, a vigorous laugh resounded in the Heavenly Devil Cave.

Tang Huan, Feng Ming, and even Xiao Budian and Xiao Ai were all shocked.

A few dozen meters away, a faint figure quickly separated from the void. In the blink of an eye, it had condensed into reality; it was a white-haired old man in a white robe. Although he wasn't tall, he was thin and had an air of immortality.

"Kid, we finally meet." The white robed old man suddenly laughed.

"May I know who senior is?"

Seeing the old man's appearance, Tang Huan heaved a sigh of relief, but he did not let his guard down.

He had originally thought that the Heavenly Domain-level Expert that had appeared in the Heavenly Devil Cave was most likely some hidden Demon Clansmen, but when the white robed elder appeared, Tang Huan already knew that he was not a Demon Clan Ranker, at least not a pure blood Demon Clan Ranker.

Furthermore, Tang Huan did not feel any hostility from the other party.

But even so, that did not mean that the other party would not act against him. Furthermore, Tang Huan was currently suspicious of the old man's words, from what he had said just now, the other party had already known of his existence. The reason he had appeared in the Heavenly Devil Cave this time, was most likely because of him.
