Chapter 711 - Healing Poison

Deep in the night, the interior of the valley was completely silent.

Chen You laid on the wooden bed. Her soft breasts were towering, her waist was slender, her abdomen was flat without any fat, her pair of jade legs looked even more beautiful. Her originally perfect body's curves were now even more mesmerizing, and her smooth jade-like skin, under the illumination of the light, seemed to be giving off a translucent luster, as though there wasn't even a single pore on her body.

Looking at Tang Huan who was standing next to the bed, Chen You was actually a little worried about gain and loss. "Tang Huan, can you really dispel the poison from the 'Green Devil Snake'?"

"Of course."

Tang Huan started laughing unknowingly.

His "Nirvana Sacred Fire" could be said to be the bane of all poisons. Back then, when he was outside of Feng Ming's Phoenix Nest, he had been poisoned by Mu Yan's "Scarlet Profound Fire Python" and "Spirit Devouring Fragrance", and that was how he refined them. However, after that, he practically never refined any poisons using the "Nirvana Sacred Fire" again, so even though he had confidence, he did not dare to say anything too full of it.

His voice paused, and Tang Huan added, "I forgot to tell you, I am actually still a Weapon Refiner."

"You really are Weapon Refiner!"

Chen You looked at Tang Huan in surprise.

In the previous life and death battle, when she saw the flames on Tang Huan's long spear, she had already guessed it, but she was still not sure. After all, there were many cultivation techniques that were able to accomplish this, and now, she could at least confirm it from Tang Huan's own mouth.

But very quickly, Chen You began to hesitate: "The True Fire does indeed have a restraining effect on poisons, but the poison of the 'Green Devil Snake' cannot be compared to ordinary poisons. Even if your True Fire can refine them, it is not something that you can do in a short period of time.

"Don't worry."

Tang Huan smiled slightly, "I am not only a Weapon Refiner, but also a very powerful Weapon Refiner. Even a Weapon Refiner with True Spirit Level cultivation cannot compare to me in terms of firepower strength and control." Tang Huan purposely bragged for a bit, then looked at her with questioning eyes: "However, during the process of refining the snake poison, you will be constantly burnt by the firepower, and it will be extremely painful. I wonder if you can endure it?"

"There is no pain in this world that I can't endure!" Chen You raised his head and snorted in dissatisfaction, but the nervousness in his heart had already disappeared.

"Alright, let's begin!"

Tang Huan laughed, and in that instant, both of his palms struck Chen You's lower abdomen like lightning, the area around his hands were actually as soft and creamy as cream, but at this time,

Tang Huan did not have any charming thoughts, he had already retracted his smile, calmed his mind and heart, and closed his eyes slowly with a solemn expression.

It was the first time that Tang Huan had used the power of the Spiritual Fire to help people cure their poison.

Even though he was extremely confident, he did not dare to be careless in the slightest, lest he fail. Losing firepower was still a small matter, if he harmed Chen You, then he would regret it too late!

"En!"

Chen You subconsciously snorted lightly as his body tensed up, and a blush crept up his cheeks.

Just like the majority of the people in Chen Village, she dressed up very boldly, but in all these years, there had never been a young man who touched her body like this, let alone this strange man whom she had only known for a few days. At this moment, for the first time, she felt embarrassed. All sorts of strange thoughts flashed through her mind.

But in the next moment, Chen You no longer had the time to let his imagination run wild.

At the center of Tang Huan's palm, an abnormally intense wave of heat actually surged out like a torrential flood, seeping into her abdomen with a force that could topple mountains and overturn seas, and spreading crazily. After a short moment, she felt as if her entire body was on fire, her skin was turning red at a speed that could be seen with the naked eye, and large beads of sweat were pouring out.

At this moment, Chen You finally understood that what Tang Huan had just said was not to blow his own trumpet.

Although the Firing Dragon Mountain Range's village was located deep in the forest, it was not isolated from the world. Although there were no Weapon Refiners in the Chen Village, Chen You had personally witnessed a True Spirit Level Expert forging weapons. That Weapon Refiner's firepower was indeed inferior to Tang Huan's.

Tang Huan's heart was as calm as water, his attention was completely focused on Chen You's lower abdomen.

After a while, Tang Huan's palms slowly moved across her abdomen, where the snake poison had invaded. The area that was affected was as big as a bowl, and he needed to slowly refine the poison from the sides area. This required an extremely good amount of patience. Otherwise, a moment of carelessness could cause Chen You to be burned by the firepower.

Time flew by like a shuttle, and Chen You's face was completely red.

She felt as if countless threads of heat were slowly flowing through her abdomen like spirit snakes. Waves of intense pain assaulted her, causing her to feel like she was about to faint, but she was still incomparably clear-headed.

"En!"

After a long while, Chen You, who had been trying very hard not to let out a sound, finally could not hold back from groaning in pain. Her pretty face twitched, and her pair of beautiful eyes widened as her breathing became hurried.

Tang Huan's palms slowly approached the wound on Chen You's abdomen that had just closed up.

After an unknown period of time, Tang Huan slowly raised his left hand and covered the wound which had not been removed from the scab with his right hand. The dark green color on the skin around his palm had already completely disappeared.

"Can you take it? "There's still a bit of snake poison left!" Tang Huan opened his eyes slightly.

"Stop..." He had to ... "Stop..." Chen You clenched his teeth, and said one word at a time.

"Alright!"

Tang Huan nodded, his mind becoming tranquil once again.

Time trickled by, and after a long while, Tang Huan finally raised his palm slowly. Seeing that the green color had completely disappeared from the wound, Tang Huan felt a sense of relief. He slowly let out a sigh and smiled: "Lady Chen You, you can relax now."

"Ugh!"

Chen You could not help but snort lightly, her tensed body relaxed as her tightly clenched fists relaxed. Her perky breasts rose and fell rapidly, like a fish lacking water as she panted heavily.

Looking at her bright red face, Tang Huan couldn't help but have a look of admiration in her eyes. Under the heat of the Spiritual Fire, she just snorted lightly, and didn't move her body an inch.

"Lord, you can come in now."

While he was thinking, Tang Huan suddenly looked towards the door and shouted. Just as he finished speaking, the door was pushed open with a bang and a burly figure rushed in like a whirlwind, "Little brother, how is it? Has the snake poison been successfully refined? "

"Fortunately, I didn't fail you!"

"..."

Chapter 712 - Lord s Invited!

Dawn appeared in the sky.

On a mountain peak that was about a thousand miles away, there were many trees, houses that were high and low. Strands of light penetrated the gaps between the leaves, illuminating this area.

This was the Main Village of the Tie (Iron) Village!

"Hateful!" Hateful! "

Inside the wide stone house, Tie Zhongqian paced back and forth in anger, low growls sounding from time to time, the ground was filled with broken pieces of porcelain.

After returning from the Chen Village, he couldn't help but break quite a few teacups.

It was no wonder why he had such a reaction.

Within one night, the Tie (Iron) Village lost seven experts.

Tie Tianbo and Tie Tianbo, who had been killed in the Chen Village, were both the core strength of the Tie (Iron) Village, and Tie Fenghan was even the most outstanding among the young generation of the Tie (Iron) Village. As for the three brothers Tie Tianhai, Tie Tianhu and Tie Tianhe, they were even the top experts within the Heavenly Domain Cultivator.

And Chen Chong, although he did not have any definite information, it was not a good thing yet.

He was a Disciple of the Iron family. More than twenty years ago, Tie Zhongqian had spent a lot of effort to get the Chen Village to adopt him. This time, he thought that he could exterminate the Chen Village, so he let Chen Chong take action against him. After all, without the Chen Village, it wouldn't matter even if his identity was exposed.

"Brother Tie, don't be angry." A voice sounded from the door, but it was Luo Tong who walked in casually.

"Younger Brother Luo!" Tie Zhongqian took a deep breath and walked over. He asked anxiously, "Is Chen Kui really related to that place?"

"It's still hard to say."

Luo Tong's face became serious, "But being careful is never wrong. Otherwise, not to mention your Tie (Iron) Village, our Luo Village would not be able to handle the calamity. I've already sent the message back. I estimate that there will be news in a few days. "

Hearing his words, Tie Zhongqian's face immediately became gloomy.

After pausing for a moment, Luo Tong said again: "Brother Tie, are you sure that the Chen Village has 'Precelestial Dragon Stone'?"

"Absolutely!"

Tie Zhongqian said in a deep voice, "This news is something that not many people in the entire Chen Village know. And only Chen Kui knows about the location of the 'Precelestial Dragon Stone'."

Chen Chong unintentionally found out about the existence of the "Precelestial Dragon Stone."

After Tie Zhongqian found out, he immediately decided to borrow the power of Luo Village to eliminate the Chen Village. As expected, Luo Village was moved by the temptation of the "Precelestial Dragon Stone" and sent Luo Tong over. Otherwise, the Tie (Iron) Village wouldn't have enough things to move a strong power like the Tie (Iron) Village.

At the same time that he attacked the Chen Village, he attacked them because he wanted to use the younger generation of the Chen Family's Disciples to force Chen Kui to hand over the "Precelestial Dragon Stone".

Unfortunately, it was a complete failure.

"Precelestial Dragon Stone..."

The look in Luo Tong's eyes became very passionate, as if there were two balls of flame burning in his eyes. However, it was quickly extinguished, and what replaced it was a deep sense of fear, "Brother Tie, wait for news from our Luo Village before making a decision. For the next few days, let us not act rashly."

"Understood!" Tie Zhongqian spat out these two words while grinding his teeth.

"..."

... ..

As the first rays of the morning sun began to rise, a gentle light passed through the window panes and sprinkled onto the interior of the wooden house.

Tang Huan who was seated cross-legged on a prayer mat let out a light breath, slowly opened his eyes, and his face revealed a satisfied smile. After he successfully treated Chen You's poison last night, Chen Kui called for people to arrange a rest for him. After cultivating for half a day, he finally recovered the Genuine Qi he consumed yesterday.

Tang Huan was almost unable to absorb the spirit energy of heaven and earth from the outside world. If he wanted to recover the Genuine Qi, he could only continue to refine the mysterious power in his body, which made it take a very long time for Tang Huan to recover his Genuine Qi.

"Dong, dong, dong!"

A gentle knock sounded out.

"Is it Miss Chen You?" Tang Huan smiled.

"It's me!"

Chen You's clear voice came out as she stood up, and when she opened the door, she was instantly stunned.

At this time, Chen You was wearing a purple cheongsam, her body's curves were indistinct, which actually gave her a different kind of charm, and her face seemed to have undergone some slight modifications, becoming less heroic and more gentle.

Seeing this disguised Chen You, if it was in any other place, Tang Huan would really not dare to recognize him.

"Why? It's only been half a night and you don't recognize me?" Seeing Tang Huan staring straight at him, Chen You couldn't help but blush. After half an hour had passed, Chen You was once again brimming with energy and vitality, and the gaze he looked at Tang Huan with was filled with unconcealable gratitude.

"Uh, I didn't react in time." Tang Huan laughed awkwardly, and asked curiously: "Miss Chen You, why did you suddenly put on your clothes?"

Once he said that, Tang Huan immediately felt that something was wrong.

Sure enough, when Chen You heard that, a blush appeared on her pretty face. She glared at Tang Huan fiercely and gritted her teeth: "Am I not wearing any clothes before?"

"No, no..."

Tang Huan laughed and waved his hands, looking a little awkward.

Seeing Tang Huan like that, Chen You suddenly laughed, but in the next moment, she tensed up again, wrinkled her nose, and snappily snorted: "Tang Huan, you really think that we are barbarians? In order to live in the forest, it is more convenient to dress like that. "

"That's right."

Tang Huan laughed, nodded, and then immediately changed the topic, "Miss Chen You, why did you come to find me?"

Of course, Chen You wasn't really angry, he was only using such a method to cover his embarrassment. Hearing what was said, he immediately clapped his hands and exclaimed, "Ah, I almost forgot. Tang Huan, my grandfather had an important matter to discuss with you, so he called me over to see if you had woken up. "

"Oh?"

Tang Huan was a little surprised, "Miss Chen You, do you know why Lord is looking for me?"

"I don't know about that."

Chen You shook his head. He was also rather curious, but he couldn't help but say, "Tang Huan, just call me by my name. Miss Chen You, hearing my name is too awkward."

"Alright, Chen You."

Tang Huan did not bother with pleasantries, he simply smiled and did not think too much about it, since he has met with Chen Kui, he already knew, "Since there is something important, let us quickly go, so that Lord will not have to wait for too long."

Between the continuous rise and fall of the houses, a wide stone path crisscrossed.

At this time, the road was filled with the silhouettes of the heavy clan members. Seeing Tang Huan, almost everyone had a smile on their face, and their expressions were full of undisguised gratitude and admiration. What happened last night, had already made all the people of Chen Village see Tang Huan as their savior.

Two figures turned left and right along the stone path, and after a long while, Tang Huan finally arrived in front of a tall and imposing wooden building.

Chapter 713 - Matchmaking

"Little brother, come in!" You Er, wait outside! "

Chen Kui's loud voice came out from inside the building, his tone full of fervor.

When Tang Huan and Chen You heard this, they could not help but look at each other.

Since Chen Kui had said this, it was obvious that he wanted to talk to Tang Huan alone. What other matters did Chen Village have to avoid his own granddaughter?

"Chen You, I will be going in first then."

Watching Tang Huan's figure enter the building, the doubt on Chen You's face deepened. After a while, she rolled her eyes and suddenly went around to the back of the building.

Once Tang Huan entered the building, he saw Chen Kui sitting on the chair.

"Little brother, quickly sit, quickly sit!"

Chen Kui stood up with a smile, and pointed to the seat beside him.

"Greetings Lord."

Tang Huan bowed slightly, and without any more formalities, the two of them sat down. The building seemed to be separated into many different spaces, and at this moment, where the two of

them were, it was likely that they were Tang Dynasty s. Inside, two rows of chairs were arranged neatly, there were more than ten of them.

"Little brother, did you rest well last night?" Chen Kui caressed his smooth head and asked with a smile.

"It's pretty good." Tang Huan laughed.

"Little brother, what do you think of our Chen Village?" Chen Kui asked again.

"Very good." Tang Huan smiled again, but there was some doubt in his heart, what was this old fellow trying to do? Summoning him in alone and leaving Chen You outside, it was impossible for him to be chatting with him like this. However, he did not know what his real motive was.

"Little brother, are you still not twenty-five yet?" Chen Kui asked with a smile.

"Exactly." Tang Huan nodded.

"You are already at the peak of Heavenly Domain at such a young age, and your strength far surpasses that of ordinary peak Heavenly Domain cultivators. Your little brother's future is definitely limitless." Chen Kui looked at Tang Huan emotionally, "A genius like little brother is definitely extraordinary."

"..."

Tang Huan knew that Chen Kui was trying to find out his identity and intentionally smiled without saying a word.

He did not casually create an identity for himself. Although he had asked for a lot of things from the likes of Sayo, he still knew too little about the Forging God Great World, the more he talked, the easier it would be for him to be exposed. Rather than being seen through by Chen Kui, it would be better to not say it.

Seeing that Tang Huan did not take the bait, Chen Kui continued: "I presume that little brother came to Firing Dragon Mountain Range to train and gain experience?"

"Indeed."

Tang Huan nodded and sighed, "I stayed at the peak of Heavenly Domain for a long time, hoping to break through. Thus, I entered the Firing Dragon Mountain Range to look for an opportunity to enter the True Spirit Level. Unfortunately, I still overestimated my strength, and underestimated the dangers of Firing Dragon Mountain Range. After getting heavily injured, I met with Saber-toothed Green Carapace Beast, and if Chen You hadn't appeared in time to save me, I probably wouldn't even be able to find my corpse and bones. "

Saying that, Tang Huan laughed at himself.

"Being able to run so far after being heavily injured while being chased by 'Saber-toothed Green Carapace Beast' is already a miracle." Chen Kui laughed, "Little brother, you shouldn't be leaving Firing Dragon Mountain Range so soon, right?"

"Since I have come here for a breakthrough, I will not leave until I step into the True Spirit Level. I will be disturbing the Chen Village for a while now, so please do not take offense to it."

Tang Huan said with a smile.

With his current cultivation, he would be able to dominate the small world, and even if he met powerful people like Jian Yi and Secluded Night Dark King, he would be able to win in battle. But in Forging God Great World, if he met any True Spirit Level Experts, he would probably be able to escape, and only be able to protect himself after entering the True Spirit Level.

Of course, the most important thing was that Tang Huan was currently alone.

He did not know the condition of his mother, did not know the location of Shan Shan and the others, and perhaps because he was too far away, he could not even sense Feng Ming's existence. Under these circumstances, he temporarily did not have a better place to go, so staying in the Chen Village for a while was undoubtedly the best choice.

"Little brother, you can stay in Chen Village as long as you want. This old man is asking for it!" Chen Kui's face was full of smiles, but following that he suddenly asked in a cold tone: "Little brother, how do you feel about You Er?"

"Chen You..."

Tang Huan was startled, then he laughed: "Chen You is a good girl, she is beautiful, has a kind heart, and is also powerful in strength and talent outstanding, her future is limitless."

"Haha, good!"

Chen Kui clapped his hands together and laughed, "Little brother, you have good eyes indeed, not only is my granddaughter the most beautiful girl in Chen Village, even in all of the villages in Firing Dragon Mountain Range, there aren't many who are as beautiful as her. All these years, my Chen Village has proposed countless marriage, but, none of them have caught her eye."

"Lord, you mean to say ..."

The expression in Tang Huan's eyes flickered, and a bad premonition surfaced in the bottom of his heart.

Chen Kui sighed, and said: "Little brother, I won't beat around the bush either. You'er had both her parents killed, and she was raised by an old man like me. I have already reached the Peak Rank Three True Spirit Realm, and am about to breakthrough to the Rank Four True Spirit, my chances of success are slim. If I die, You Er will not even have a family member in this world. "

After Tang Huan heard this, he also lamented in his heart.

Above Heavenly Domain, was the True Spirit Level. True Spirit also had the seven ranks, so every time they broke through a realm, they practically had to go through life and death. Although Tang Huan had yet to experience it personally, but from the information that he had gathered from the people of Shiyung and the others, he understood the degree of danger involved.

After a while, Chen Kui calmed himself down, looked at Tang Huan, and said: "So, I plan to betroth this girl to you, little brother!"

"Huh?"

Although he had already guessed what was going on, but now that he heard it with his own ears, Tang Huan was shocked and couldn't help but exclaim.

"What do you think, little brother?" Chen Kui's eyes were filled with anticipation.

"This... Thank you, Lord, for your kindness, but I ... " Tang Huan was rather hesitant.

"Little brother, do you think that You'er is not worthy of you?" Without waiting for Tang Huan to say anything, Chen Kui's face darkened as if he was angry.

"Lord misunderstood."

Tang Huan laughed bitterly, "To be honest, I already got married a few years ago." Tang Huan's words were half true and half false. Even though he had already confirmed that Shan Shan was his wife and that the two of them were husband and wife, they had never held a wedding before they left the small world.

"I thought it was a big deal." Chen Kui waved his hands and laughed heartily, "Little brother, you don't have to worry about this at all. "Since you've already gotten married before, you might as well marry one more now. You've got to get to know that girl, You'er, a bit too late."

"Huh?"

Tang Huan was dumbstruck.

Seeing Tang Huan's silly look, Chen Kui said proudly: "Little brother, do you have any other concerns now?"

Chapter 714 - Four Great Clans

"Lord is joking. Since we have already married, how can we marry again?" Tang Huan immediately felt a huge headache, but when he spoke, his tone did not loosen even a bit.

"Don't be in such a hurry to refuse, little brother still has to stay in Chen Village for a period of time anyways, you can think about it slowly."

Hearing that, Chen Kui could not help but frown, but immediately became relaxed, and did not continue forcing Tang Huan, but smiled at him, "This time, other than wanting to entrust You Er to you, there is actually another reason."

"Please speak, Lord!"

Seeing Chen Kui change the topic, Tang Huan secretly heaved a sigh of relief and said.

Chen Kui's smile faded as he said in a low voice: "Last night, the reason why Tie Zhongqian and Luo Tong brought the experts of the Tie (Iron) Village to our Chen Village, little brother must have guessed it right?"

"Is it the 'Precelestial Dragon Stone'?"

Tang Huan's heart was moved.

Before Luo Tong appeared, Tie Zhongqian had used the excuse that the infant Amethyst Thunder Lion had been forced to hand over something called a "Precelestial Dragon Stone", and had even wanted to use the younger generation's Chen Village s to intimidate them. Of course, because of the failure of Tie Tianbo and the others, he did not succeed.

This gave Tang Huan the feeling that Tie Zhongqian's most important goal might very well be that "Precelestial Dragon Stone."

However, Tang Huan could not be sure whether or not this so called "Precelestial Dragon Stone" was an excuse that Tie Zhongqian had casually invented. After all, at that time, it was not only Chen Kui who had denounced and denied the existence of this so called "Precelestial Dragon Stone", but all the other members of the Chen Clan did not seem to know of its existence.

"Exactly." Chen Kui nodded, and said, "Little brother, I won't hide it from you, our Chen Village does indeed have a 'Precelestial Dragon Stone'."

"Oh?"

Tang Huan's eyes flashed, filled with shock.

He never thought that there would actually be a "Precelestial Dragon Stone" in Chen Village. Tie (Iron) Village did not come knocking on his door for no reason at all last night. Only, Tang Huan was surprised to find that the rest of the Chen Village did not know about the information regarding the "Precelestial Dragon Stone", so why did he reveal it to him?

"I accidentally acquired that 'Precelestial Dragon Stone' a few years ago."

Chen Kui slowly said, "This thing is too precious, if news of it gets out, it will definitely attract countless people's attention, causing endless trouble for the Chen Village, and may even cause the Chen Village to be in danger of being destroyed. That's why I had always kept this a secret, but never did I expect that Chen Chong, that rascal, would discover some clues in a moment of carelessness. I wasn't really worried, and thought that Chen Chong knew the importance of the matter. Even if he guessed that it was the Precelestial Dragon Stone, he would still keep it a secret, but who would have thought that the rascal was actually a spy that Tie Zhongqian had planted himself! " Speaking till the end, Chen Kui was completely furious.

"Everyone in the Chen Village is from the Chen family. How did the Tie (Iron) Village manage to insert him in?" Tang Huan was quite curious.

"The father of the rascal is my cousin. When his wife went out, she was hurt by someone, so they only left behind a baby that was a few months old. It was only after what happened yesterday that I understood. It should have been at that time that I was tricked, and my cousin brother and wife were most likely killed by the Tie (Iron) Village. " Chen Kui's face was gloomy.

"So that's how it is. Tie Zhongqian planted spies in their midst, he is truly scheming." Tang Huan suddenly understood.

"The Chen Village and the Tie (Iron) Village have a grudge, Tie Zhongqian wanted to destroy my Chen Village, but it's not just for a day or two. It's just that his strength is inferior, which is why he doesn't dare to act rashly."

Chen Kui coldly snorted, and said in a deep voice, "Now that he found out about the news of the 'Precelestial Dragon Stone', he immediately hooked up with Luo Village. Even though they did not succeed last night because of your help, little brother, Tie Zhongqian and Luo Tong will definitely not let this go. "

Tang Huan hesitated for a moment, but was unable to resist: "Last night, Luo Tong suddenly appeared, and proposed a life and death battle, to prevent the two villages from fighting one another. From my observations, Tie Zhongqian and Luo Tong seem to have their reservations ... "

"Little brother's judgement was not wrong at all!"

Chen Kui gave Tang Huan a big thumbs up, and then pulled open his clothes, exposing his chest, and pointed at the sinister black tiger tattoo, grinning: "What they are worried about is this! If not for it, our Chen Village would definitely have suffered heavy casualties last night. "

"Tiger's head..."

Tang Huan was startled, he had indeed seen the tattoo on Chen Kui's chest, but he did not pay much attention to it at that time, thinking that it was a subconscious movement of Chen Kui.

But from the looks of it, that black tiger tattoo seemed to have a different meaning.

Chen Kui squinted: "The Firing Dragon Mountain Range has countless of villages, but the strongest are the dragon, tiger, hawk, and snake Four Great Clans. Among them, the Dragon Clan was in the east, the Eagle Clan in the north, the Snake Clan in the south and the Tiger Clan in the west. This area we are in, is the territory of the Tiger Clan. "

"In the western border regions of Firing Dragon Mountain Range, our Chen Village and our Tie (Iron) Village are all considered to be mid-tier villages, and the Luo Village, which has tens of thousands of people, can be considered as a large village. However, compared to Tiger Clan, who has tens of millions of people, Luo Village is not worth mentioning. "

"Last night, Tie Zhongqian and Luo Tong changed their plans because they felt that the Lord was related to the Tiger Clan!"

Tang Huan immediately woke up, but in his heart he was secretly muttering.

There were Eaglemen, bear-men, treemen and other populations of Demon Clan in the small world. In the Forging God Great World, there were definitely Demon Clans as well, and their species definitely far surpassed that of the small world's. After all, all of the Demon Clans in the small world originated from the Forging God Great World. The strongest powers in the Firing Dragon Mountain Range are all named after animals, but I wonder if they are related to the Demon Clan? Draconian? Tigerman? Eagleman? Snakeman?

"Yes, that's it."

Chen Kui said slowly, "One of the ancestors of our Chen Village was once the 'Clan Guardians'. After the ancestor failed to break through to the fifth transition and died, the identity of 'Clan Guardians' was also inherited from generation to generation of the Chen Village's 'Clan Guardians'. However, this sort of inherited identity isn't a real 'Clan Guardians' after all, and isn't necessarily protected by the Tiger Clan. Once they learn the truth, Luo Tong and Tie Zhongqian will definitely come back. "

"At that time, our Chen Village will be in great danger."

Chen Kui's face became grave, "What's more, even if we can get the protection of the Tiger Clan, it would still be too far away to satisfy our thirst. The distance between the Chen Village and the Wind Howling City was very far. Perhaps the Chen Village had already been annihilated, and the reinforcements of the Tiger Clan had not even arrived yet. Furthermore, even if Luo Village and the Tie (Iron) Village have concerns and do not dare to directly take action, they can spread the news that our Chen Village has the 'Precelestial Dragon Stone'. Even if only a small portion of the people believed it, it would be big trouble for the Chen Village. The Tiger Clan is powerful, but there are always people in this world who are not afraid of death! "

"I see."

Tang Huan slightly nodded, "Lord, if there is anything that you need my help with, please do not hesitate to tell me."

Chapter 715 - Secret Chamber

Chen Kui's considerations were indeed very reasonable.

Words are false, and the bones are destroyed. If Tie Zhongqian and Chen Kui really released the news, the fake news might actually become true, not to mention that Chen Village did indeed possess a piece of the "Precelestial Dragon Stone". Using such a method, the Chen Village would fall into chaos, but the Luo Village and the Tie (Iron) Village could take advantage of it.

"Little brother, then I won't beat around the bush."

Chen Kui looked at Tang Huan, and said slowly, "Since the news about the 'Precelestial Dragon Stone' has been leaked, then it can't continue to stay in our Chen Village."

After Tang Huan heard this, he secretly nodded.

That "Precelestial Dragon Stone" was indeed a huge hidden danger for the current Chen Village. A man's wealth was his own fault! This was the sorrow of a small power. It possessed abilities beyond its own. Once the news was leaked, it would naturally attract the greed of others.

Under such circumstances, sending it out was also a good choice.

"I will leave Chen Village for a period of time and contact him. While I'm away, I hope that little brother can help me protect Chen Village. " Chen Kui's expression became serious.

"That's no problem at all, but ..."

Tang Huan nodded without hesitation, but there was some worry between his brows, "I am only at the peak of Heavenly Domain now, if there were people like Tie Zhongqian and Luo Tong coming here, I would not be their match." If something like that really did happen, Tang Huan would have no choice but to use his aircraft to escape. However, even if he filled up all the space inside, it would be impossible to bring all the people from the Chen Village away.

"Don't worry, little brother."

A smile surfaced on Chen Kui's face, and he said, "If you can step into the True Spirit Level, then you will have the strength to fight against the enemies of the True Spirit Level."

"Stepping into the True Spirit Level, that's easier said than done." Tang Huan sighed.

"Don't forget that 'Precelestial Dragon Stone'." Chen Kui looked at Tang Huan smilingly, and said, "Little brother, your cultivation has now reached the limit of the Heavenly Domain, if you have the help of the 'Precelestial Dragon Stone', you will be able to step into the True Spirit Level in a short amount of time."

"Little brother, although you are currently at the peak of Heavenly Domain, with your true strength, you should be able to fight even against an opponent at the Rank One True Spirit Realm. Once you step into the True Spirit Level, you will definitely be able to contend against the cultivators of the Rank Two True Spirit, and you will have more than enough time to protect Chen Village. "

Seeing the situation where Tang Huan was fighting with Tie Tianhai and the rest, Chen Kui had a rough understanding of him.

"Lord is too kind."

Tang Huan was surprised, she never thought that Chen Kui would actually have such confidence in his strength, and even surpass him. However, with just a thought, Tang Huan stopped thinking about it and muttered, "When does Lord plan to leave the Chen Village, and contact the Tiger Clan?"

"Naturally the earlier the better."

Chen Kui retracted his smile, and said in a deep voice, "Right now, Tie Zhongqian and Luo Tong are probably not certain of my identity, and will not act rashly for the next few days. Therefore, I will make some arrangements, and we will set off immediately. Little brother, there is no time to lose, I will bring you to the place where the 'Precelestial Dragon Stone' is kept, from now on, you can directly rush to the True Spirit Level. "

With that, Chen Kui shot up into the air.

"Alright!"

Tang Huan also stood up and followed Chen Kui out.

He had originally planned to continue refining the strange energy that originated from the "Ling Xiao Ancient Road" in his body, maybe he could smoothly enter the True Spirit Level. However, his plans could not keep up with the changes, and he could attack the True Spirit Level first.

If he could borrow the power of the "Precelestial Dragon Stone" to break through to the True Spirit Level and then refine that strange power, he could say that he could not directly raise his cultivation to the peak of the Rank One True Spirit.

"Eh, where's Chen You?" Tang Huan was a little suspicious. Outside the building, Chen You was no longer there.

"This girl is probably going to cultivate. Don't worry about her." Chen Kui's face turned strange.

"..."

The two figures quickly disappeared into the distance.

Inside the building, the wall suddenly rippled slightly, and a purple figure appeared. With a beautiful face and a slim figure, it was Chen You.

"Do you want to give the 'Precelestial Dragon Stone' to the Tiger Clan?"

Then, he muttered to himself, "With the help of the Precelestial Dragon Stone, I can increase the success rate of condensing True Spirit greatly. I wonder how many days Tang Huan will need to truly step on the True Spirit Level?"

After standing there for a while, Chen You finally walked forward. When he was about to exit the building, he suddenly thought of something and gritted his teeth.

...

In the quiet courtyard room, there was a passageway that slanted downwards. Inside the passageway, the white light emitted by the gem illuminated everything.

With Chen Kui in front and Tang Huan behind, they had only advanced a few dozen meters before reaching the end of the passage.

Pushing open the white stone wall in front of him, a square shaped space appeared in front of him. It was around five meters tall, ten meters wide and ten meters long.

Tang Huan's eyes flashed with a strange light. He never thought that Chen Village would have such an underground secret room.

Just as he finished inspecting the surroundings, the stone walls around him became extremely strange, similar to the walls in the building that were used to isolate space previously. They were like sponges, possessing an extremely strong power of sucking. However, while the sucking sponge contained liquid, the sucking on the stone wall had all sorts of auras.

This meant that any aura in the secret room wouldn't leak out. Of course, the condition was that it didn't exceed the limit of the sucking that the stone wall could release.

With that thought, Tang Huan's gaze turned towards the inner side of the secret room.

It was round, columnar, crystal clear, and as white as snow. Within the boulder, there were actually dense white-colored odor s distributed in circles, looking like a white dragon in a ball.

Dragon head, dragon body, dragon claw ... In fact, even the dragon's scale was clearly visible. It was vivid and lifelike.

Although they were still separated by a few meters, Tang Huan could already feel an exceptionally peaceful aura from the round stone, as though at this moment, even his soul had been cleansed.

"This is the 'Precelestial Dragon Stone'?" Tang Huan's tone held a slight tinge of amazement.

"Exactly."

Chen Kui slightly smiled and nodded, "The 'Precelestial Dragon Stone' contains a very majestic 'Innate Dragon Energy'. In the process of entering the True Spirit Level from the Heavenly Domain, one needed to destroy spirit pellets and condense True Spirit. If they were not careful for a bit, their soul would be destroyed and they would completely disappear. The most important thing is, even if this' Innate Dragon Strength 'is completely used up, it can still be regenerated. " Chen Kui looked at the "Precelestial Dragon Stone", his eyes burning with passion.

Chapter 716 - Postnatal, Innate

Tang Huan could not help but exclaim: "Does that mean that with this' Precelestial Dragon Stone ', True Spirit Level Experts can continuously appear?"

"Indeed."

Chen Kui lightly nodded his head, and said with emotion, "The 'Precelestial True Dragon Qi' accumulated by this' Precelestial Dragon Stone 'can allow a peak Heavenly Domain cultivator to charge into the True Spirit Level, and after that, approximately half a year's time, the' Precelestial True Dragon Qi 'can completely recover. If we keep this up, then this' Precelestial Dragon Stone 'can let two people become True Spirit Level Experts every year!"

His voice paused slightly, and Chen Kui sighed: "Unfortunately, after obtaining this' Precelestial Dragon Stone ', I was too far-sighted, and always worried that I would leak out information. If I had

all of the peak Heavenly Domain's cultivators come here earlier, I'm afraid that many people in my Chen Village would have already stepped into the True Spirit Level. "

Saying that, Chen Kui felt extremely regretful.

"Things are already like this, Lord doesn't need to blame himself too much." Tang Huan advised.

"True, there is no point in regretting it now. As long as I can save the Chen Village, I will be satisfied." Chen Kui tidied up his mood and said, "Little brother, you can stay here to cultivate with peace of mind, I won't disturb you any longer. After we leave this place, I will leave the Chen Village. After you step into the True Spirit Level, I will entrust my Chen clan's Disciples to you. "

"Please rest assured Lord, I will do my best to protect everyone." Tang Huan said solemnly.

"Thank you, little brother."

"..."

Chen Kui left the secret room, and after about an hour, he quietly left the Chen Village. Other than Tang Huan, the only one who knew where he was going was Chen You.

Inside the secret underground room, Tang Huan had already sat down cross-legged at the "Precelestial Dragon Stone" area.

The path of cultivation was divided into precelestial and postcelestial stages.

From the first stage to the Stage Nine, it belonged to the precelestial stage. After breaking through from Heavenly Domain to the True Spirit Level, it was from the precelestial stage to the postcelestial stage. As for the Heavenly Domain Realm, it was the transition stage from the Postnatal Realm to the Innate Realm, which was the bridge between the Postnatal Realm and the Nascent Realm.

Once he completely crossed the threshold between precelestial and postcelestial, he would be reborn.

Tang Huan's heart was as calm as water. Inside the Dantian, the Nine Yang Divine Furnace and the Five Colors Spiritual Pills were circulating extremely quickly.

At this time, Tang Huan did not refine the strange power in his body. Instead, he continuously circulated the "Great Harmony Heavenly Classics" and carefully felt the condition of his body. Time trickled by, after an unknown amount of time, Tang Huan finally felt an impulse in the bottom of his heart.

"It's time!"

With a thought, the Five Colors Spiritual Pills began to tremble under Tang Huan's control, following a miraculous rhythm.

At first, it was light and slow, but as time passed, the frequency and amplitude became faster and faster, and within the Dantian, the rumbling sounds similar to that of Lei Ming continuously increased. Almost at the same time, Tang Huan's entire body seemed to have fallen into a resonance as it violently fluctuated like a ripple.

"Crack!" Suddenly, a crisp sound of something splitting suddenly came out from the Dantian. A crack had appeared on the Five Colors Spiritual Pills.

"Crack!" "Crack ..."

The cracking sounds became more and more intense, and the cracks on the surface of the elixir became more and more numerous. In just a short span of two to three breaths, the elixir had already been covered by a layer of spider web.

"Bam!"

A short while later, a low and deep explosion finally shook the area.

The Five Colors Spiritual Pills that was filled with cracks could no longer hold on and completely exploded, turning into countless specks of colorful fragments that seemed to fill the entire Dantian.

At almost the same time, an exceptionally terrifying aura rippled out from the Dantian. Within this secret room, it seemed as if an exceptionally violent storm had been set off in thin air, and around Tang Huan, within a radius of two meters, the void itself began to fluctuate even more violently.

This was the first step to breaking through the True Spirit Level, the Shattered Spirit Pill.

"En!"

In a moment, Tang Huan could not help but let out a groan, the power released when the spirit pellet was shattered was extremely terrifying, causing Tang Huan's internal organs to tremble, blood Qi surging in his chest. However, Tang Huan was already prepared, and at least half of the force had been absorbed by the "Nine Yang Divine Furnace".

The Spirit Shattering Pill was extremely dangerous.

Furthermore, the stronger a peak Heavenly Domain cultivator was, the more dangerous this process would be. This was because the stronger a cultivator was, the stronger the backlash they would have to endure would be when their spirit pills shattered. If he couldn't withstand it, he would at least be severely injured, and at most, lose his life.

From ancient times until now, there have been countless peak Heavenly Domain cultivators who have died like this. Of course, if he could not even last through this step, it would be useless even if he had "Precelestial Dragon Stone".

"Next, I need to condense a True Spirit!"

Tang Huan did not hesitate at all as he continued to circulate the "Great Harmony Heavenly Classics" at a high speed. The rainbow colored fragments around the Dantian followed the rapid circulation of the Genuine Qi, strolling into his limbs, organs and even a portion of it, following the guidance of the Mind Power, slowly seeping into his soul.

"Ang!"

Right at this moment, a dragon's roar that seemed to surge out from within the "Precelestial Dragon Stone" below them. Immediately after, the White Dragon inside the boulder seemed to have come alive, rising up abruptly and circling around Tang Huan.

Threads of white-colored odor flowed out from the white dragon's body, like spirited snakes that kept drilling into its pores.

"So this is the 'Precelestial True Dragon Qi'?"

Tang Huan thought for a moment, then calmed down.

The "Precelestial True Dragon Qi" was like a minute spring water, upon entering Tang Huan's body, it was as if he had drank fine jade liquid, his entire body felt extremely comfortable, the earlier discomfort from the spirit pellet shattering immediately disappeared.

This kind of wondrous feeling made Tang Huan feel like he was drunk, and he was immediately immersed in his own body.

In the blink of an eye, the rainbow colored fragments of the spirit pellets had completely fused with the flesh body and even the soul. It was also at this time that threads of Five Colors Odor began to separate from every part of their body and souls, converging like rivers converging into the Dantian.

In a short while, Tang Huan had produced hundreds and thousands of Five Colors Odor. Every one of the Five Colors Odor seemed to possess a life of their own as they freely swam back and forth within the Dantian.

If these Five Colors Odor could be condensed into form, they would be called "True Spirit".

Under the guidance of these Five Colors Odor, the "Precelestial True Dragon Qi" would also slowly be absorbed into the Dantian. The power derived from this "Precelestial Dragon Stone" was like a type of adhesive that could continuously combine Five Colors Odor and greatly increase the speed at which they were formed.

However, Tang Huan was unable to wait any longer. With a thought, the "Nine Yang Divine Furnace" began to circulate to its limits, and the terrifying power of the sucking began to spread outwards.

"Hu!"

Immediately after, the white-colored odor s that were revolving around Tang Huan's body separated, and in that moment, they enveloped Tang Huan's entire body, making him seem like a shadow.

Chapter 717 - Rank One True Spirit

The wondrous "Precelestial True Dragon Qi" was continuously sent into the "Nine Yang Divine Furnace", and then, with the operation of the cauldron, it seeped out at an astonishing speed into the many Five Colors Odor s.

After a while, the Five Colors Odor seemed to have an additional strange binding power, and was actually closing in bit by bit. In just a few breaths of time, all the Five Colors Odor had gathered into a lump, roughly the size of a walnut.

Following the continuous influx of the Five Colors Odor and the "Precelestial True Dragon Qi", that glass-like object within Tang Huan's Dantian also unceasingly grew.

Time flew, Tang Huan's body was like a statue, unmoving.

In the end, it turned into an illusion and slowly sank into the "Precelestial Dragon Stone". It then curled up once again, and the white-colored odor that lingered around Tang Huan's body began to quickly disappear. Soon after, its figure became clearer and clearer.

"Hu!"

An instant later, an exceptionally terrifying aura whizzed out from Tang Huan's body, and within the secret room, it was as though a hurricane had appeared out of nowhere.

This aura was like the raging waves of the ocean, spreading out endlessly.

After a flick of a finger, it had surpassed the limits of the sucking s on the surrounding stone walls, and surged towards an even wider area. In an instant, it enveloped the entire Chen Village.

At this moment, the entire Chen Village was alarmed.

The moment they felt that aura, everyone's hearts trembled as if they were going to suffocate. Moreover, the stronger the cultivator, the stronger their perception of this aura became.

"Eh? "What's going on?"

"What a terrifying aura! I think I can only sense this kind of aura when Uncle Kui stepped into the True Spirit Level. "

"Someone from our Chen Village has stepped into the True Spirit Level? Who is it? Chen Hong? Chen Li? "Or ..."

" ..."

From every corner of the Chen Village, cries of surprise rose one after another.

"Tang Huan?"

Inside an exquisite wooden house, Chen You who was seated cross-legged on the map suddenly opened her eyes, a look of surprise on her pretty face.

Seemingly at the instant that aura appeared, Tang Huan's figure subconsciously appeared in her mind.

Others might not know what was going on, but she knew it very well. The reason why the astonishing Qi suddenly appeared was because Tang Huan had already become a True Spirit Level Experts. What she did not expect was that Tang Huan had actually crossed Heavenly Domain so quickly and formed a True Spirit!

One had to know that it had only been three days!

Even if he had that "Precelestial Dragon Stone," he wouldn't have done it so quickly, right? According to the information she had gathered in the past, using the "Precelestial Dragon Stone" to attack the True Spirit Level would take at least ten days. But now, the amount of time Tang Huan had to spend, wasn't even half of ten days.

"What a monster!"

Not long after, the Profound Spirit Qi suddenly disappeared without a trace, Chen You regained his senses and muttered to himself.

"Sis!" "Sister ..."

The door creaked open, and Chen Mu rushed in like a gust of wind, her face had an unconcealable look of excitement, "Sis, did Big Brother Tang Huan breakthrough into the True Spirit Level?"

"How do you know?" Chen You was startled.

"It's really big brother Tang Huan!" Chen Mu clapped his hands, he was so excited that he was beaming with joy, "These few days, Big Brother Tang Huan has never appeared. I can only guess that it's him."

"..."

Within the secret underground room.

"Hu!"

Tang Huan exhaled, and slowly opened his eyes.

At this time, within his Dantian, the lump of Five Colors Odor was already as big as a fist. Not only was it extremely condensed, it was also overflowing with light and color, like a beautiful sparkling and translucent gem.

Although the figure was extremely faint, one could faintly see its facial features.

This was the True Spirit.

The so called True Spirit, was actually like a miniature body of the main body, connecting the soul and flesh body. Through the True Spirit, one could not only control the Genuine Qi, but also the Mind Power.

Compared to the spirit pellet, there was a tremendous change. Even if the flesh body were to disappear, the True Spirit could still exist for a long time. If they could find a suitable body, they could even possess a new body. It was impossible to do this through a spirit pill.

Even if he had the cultivation at the peak of Heavenly Domain, it would still be impossible.

"Rank One True Spirit!"

Tang Huan muttered softly, a satisfied smile appearing on his face.

There were seven stages to the True Spirit Level. When one cultivated to the peak of the Rank One True Spirit, they would be able to sense the layer of invisible chains that existed within the True Spirit. Breaking through those shackles would allow one to step into the Rank Two True Spirit, following suit. After breaking the six shackles, one would then be able to step into the Rank Seven True Spirit.

Every time a layer of shackles was broken, the figure inside the True Spirit would become a little clearer, and the shape of the True Spirit would also gradually change.

After he advanced to the Rank Seven True Spirit, the lump of True Spirit inside it would transform into a complete human form.

At that time, he would be able to attack a higher realm in the Upper Sky Realm!

Whether it was assaulting the True Spirit Level from the Heavenly Domain or breaking through the sixth floor of the True Spirit Level, they were all extremely dangerous. The former had to endure the danger of failure of shattering the core and condensing the True Spirit, but the latter, each time she breaks a shackle, the True Spirit would have to undergo a process of rebirth.

Of course, to Tang Huan, he did not know how great the dangers would be in the future.

The existence of the "Nine Yang Divine Furnace", was the result of the sucking exploding when breaking down a large amount of cores. Moreover, because of its existence, coupled with the effects of the "Precelestial Dragon Stone", his speed of condensing True Spirit had reached an unimaginable level.

However, if it was any other peak Heavenly Domain cultivator, even "Precelestial Dragon Stone" would not be this easy.

Firstly, the terrifying power one would gain from breaking the pellet was enough to take away half of a person's life. Secondly, if there was no "Nine Yang Divine Furnace", even if one was able to absorb "Precelestial True Dragon Qi", the speed at which the True Spirit was condensed would not be as fast as Tang Huan. Furthermore, the slower it was, the lower the chance for the True Spirit to condense and take shape.

"I wonder how many days have passed?"

Tang Huan thought for a while, then closed his eyes and closed them once again.

Now that he had just broken through to the Rank One True Spirit, he needed to spend more time and stabilize his cultivation. He could also completely refine the power that originated from the "Ling Xiao Ancient Road" in one go and increase his strength to the maximum.

As for the safety of the Chen Village, Tang Huan was not worried.

After Chen Kui goes out, he should tell Chen You about what happened here. If Chen Village was in danger, Chen You would definitely come here to find him.

During this time, Chen You did not appear, so it was probably because the Chen Village was safe and sound.

After a while, Tang Huan calmed his mind and focused. He circulated the technique, inside the Dantian, the "Nine Yang Divine Furnace" and the "Five Colors True Spirit" were circulating at a fast speed, that bizarre power was continuously being refined and assimilated into the Genuine Qi, the speed was astonishing, compared to before, it was at least several times faster.

Chapter 718 - Enemy

In the blink of an eye another two days passed.

Late at night, within the Tie (Iron) Village, balls after balls of light, whether strong or weak, shot out from the houses, illuminating this mountain forest like it was a dream.

"Younger Brother Luo, how is it?"

Tie Zhongqian strode into the stone hut that was as bright as day. Upon seeing Luo Tong who was sitting cross-legged on the ground, he could not help but ask out, his expression anxious.

"Brother Tie, it looks like this is a false alarm."

Luo Tong laughed out loud, and handed over the written note in his hand to Luo Tong who was walking quickly towards him, "It has been investigated clearly, Chen Village did indeed have a Tiger Clan's' Clan Guardians'. However, that person was not Chen Kui, but Chen Kui's Great Ancestor. After his ancestor's death, the Clan Guardians's identity had been inherited through generations. Until now, it was Chen Kui. That's why he has the Tiger Clan's tattoo on him. "

"So that's how it is."

Tie Zhongqian heaved a sigh of relief, "He's actually just a Clan Guardians who has inherited the legacy of a Tiger Clan, and not a real Tiger Clan. If Chen Kui were to participate in the Tiger Clan's

general elections, given his status, he would have a slight advantage, but it would be difficult for him to obtain the real protection of the Tiger Clan. "

"It looks like there's no need for us to worry."

Tie Zhongqian chuckled, but then his face darkened, "That Chen Kui is truly crafty, a few days ago he was just bluffing, and we were cautious, that's why we let him escape. This time, I want to see what he can rely on! Younger Brother Luo, how about we set off now? "

Luo Tong muttered to himself, "Did Chen Village make any unusual movements in the next few days?"

Tie Zhongqian shook his head: "For now, there are no movements. However, that old fellow Chen Kui is more cautious, he has sent a lot of experts to patrol the vicinity of the village. It is a pity that Chen Chong is dead, if he is still alive and has not been exposed, then we can find out more about the Chen Village's situation. "

"Since that's the case, then let's hurry up and make the move. That 'Precelestial Dragon Stone', the earlier we get it, the better." After pondering for a moment, Luo Tong fiercely clapped his hands and jumped up.

"I'll go gather the people!" A sinister look flashed past Tie Zhongqian's eyes.

"Just gather the cultivators of Heavenly Domain, and the ones of Stage Nine will not be needed."

"Understood!"

"..."

The sky gradually brightened. In the valley, the Chen Village that had been quiet for an entire night gradually became lively once again.

"Wuuuuuu ~ ~ ~" Suddenly, a low, deep, penetrating sound reverberated in the distance, resounding throughout the entire valley.

"This is bad!" "Enemy attack!"

The shouts resounded throughout the valley.

In a flash, one figure after another rushed out of the valley like lightning. In the time it took for ten breaths, more than a dozen figures had already gathered at the entrance of the village.

They were all Heavenly Domain experts from the Chen Village, Chen Hong and Chen Li were impressively among them.

"Whoosh!" "Whiz!"

After a while, a slight sound of something tearing through the air could be heard.

On the road in front of the trees, two figures were rapidly approaching, and behind them, at the end of the road, there were eight or nine figures following.

The two people in front were unbelievably fast. A moment ago, they were still more than 100 meters away, but in the next moment, they were only 20 to 30 meters away from the village entrance.

"Tie Zhongqian!"

"Luo Tong!"

"It's them again!"

"..."

When they saw the faces of the two, everyone couldn't help but cry out.

"Tie Zhongqian, our Chen Village does not welcome you. Leave quickly!" One of the Chen Village Ranker took a step forward and bellowed.

"Impudent!" You think you're qualified to talk to me like that? Scram! "

Tie Zhongqian raised his eyebrows, a sinister look flashing past his eyes.

Almost at the same instant the last rune emerged from his mouth, his right hand swept out, and instantly a thick black aura roared forward like lightning, actually moving as fast as lightning. The Chen Village cultivator was hit hard even before he could react.

"En!"

The Chen Village warrior looked as though he had suffered a heavy blow, he groaned and his body involuntarily flew backwards, first heavily smashing into the stone wall behind him, and then "plop", falling onto the ground. Blood flowed out of the corner of his mouth, and his Qi was rather weak, as he was severely injured.

"Victory!" In the midst of the cries, two people immediately ran backwards.

"Tie Zhongqian, you ... You dare to wantonly harm someone in our Chen Village! " Chen Li was alarmed and angry at the same time, the expressions of the rest of the experts from the Chen Village were also extremely ugly. They never would have thought that this time, Tie Zhongqian would actually attack with such a heavy blow the moment he arrived without worrying about anything.

"Call Chen Kui out to see this old man!"

Looking at the expressions of Chen Li and the rest, Tie Zhongqian felt extremely carefree in his chest. At this moment, all the pent-up anger from the past few days seemed to have been swept away, his cold viper like gaze swept across the people of Tie (Iron) Village as he laughed sinisterly, "Otherwise, not only will I hurt others, I will also kill people!"

"Lord is cultivating behind closed doors. He won't come out to see you!" Chen Hong clenched his teeth and said angrily.

"Concealed cultivation?"

Tie Zhongqian laughed quickly, the killing intent in his eyes overflowing, "Fine, since he does not come to see me, then I will go see him! I would like to see if he can afford it! " The moment his voice fell, Tie Zhongqian had already walked forward step by step. His steps were light and graceful, but every step he took seemed to be accompanied by a terrifying pressure that swept forward like stormy waves, wave after wave, one stronger than the previous.

Under such a strong pressure, Chen Hong, Chen Kui and more than a dozen Heavenly Domain experts retreated step by step. But after a short while, their bodies seemed to have become stiff, as they could not move any further, and could only watch as Tie Zhongqian and the others approached closer and closer.

Shock surfaced in the eyes of Chen Hong, Chen Li and the rest. From the looks of it, Tie Zhongqian was trying to completely tear off Chen Village?

"Heh ..."

At this moment, a chuckle suddenly came from behind.

Immediately after, as if a light breeze had brushed past, the terrifying pressure disappeared in an instant. Chen Hong, Chen Kui and the rest of the Chen Village experts felt their entire bodies relax, as though it was a reflex, they turned to see a figure walking over. The speed seemed to be slow, but in truth, it was not any slower than Tie Zhongqian and Luo Tong.

The person who came was Tang Huan!

"Chen Huan!" Chen Hong and the rest's eyes lit up, they were all pleasantly surprised.

"Whoosh!"

The light sound of something breaking through the air could not be heard. Behind Tang Huan, another purple figure was charging over. She was Chen You. In the next moment, Chen You sensed that the situation was not good and immediately rushed to the secret room that held the "Precelestial Dragon Stone" s.

Fortunately, Tie Zhongqian made his move to everyone's place.

Tang Huan smiled at Chen Hong and the others, and in the next moment, Tang Huan appeared in front of the group. After his gaze swept past Luo Tong, it fell on him, and a cold smile appeared on his face: "Tie Zhongqian, who do you think you are, that this old man in Lord is someone you can see whenever you want to?"

Chapter 719 - Fighting Tie Zhongqian!

"Chen Huan!"

Looking at that slender figure, Luo Tong's pupils constricted. Tie Zhongqian's expression even slightly changed, and shock flashed across his eyes, but instantly, killing intent was revealed, and his tone became cold, "I really didn't expect that, in just a few short days, you would actually step into the True Spirit Level!"

Hearing his words, Chen Hong, Chen Li and the other experts of the Chen Village were all pleasantly surprised.

Ever since they had felt that terrifying aura back then, they had already guessed that Tang Huan had stepped into the True Spirit Level.

On the other hand, the expressions of the Tie (Iron) Village Warriors were gloomy.

On that night a few days ago, they had all personally witnessed the scene of Tang Huan fighting with Tie Tianhai and the others, and were incomparably fearful of Tang Huan's strength. With his cultivation at the peak of Heavenly Domain, he is already so powerful, and now that he has stepped into the True Spirit Level, doesn't that mean his strength is even more terrifying?

Fortunately, Tie Zhongqian was a Rank Two True Spirit Ranker, and his cultivation had reached the Rank Three True Spirit Realm. As for the Chen Village, although Chen Kui was also a Rank Three True Spirit Ranker, but he had just broken through and was only at the Rank One True Spirit Realm.

"I also didn't expect that you would dare come to our Chen Village."

Tang Huan smiled indifferently, "If I were you, I would have stayed in the Tie (Iron) Village to reflect on my mistake instead of continuing to come here."

"How dare you!"

Hearing that, Tie Zhongqian was immediately enraged, inside his eyes, the strong killing intent seemed to have solidified. "Chen Huan, do you really think that you can be so arrogant after stepping into the True Spirit Level? In front of this old man, your insignificant Rank One True Spirit cultivation is nothing but a joke! "

Tang Huan was strong indeed, but that was only in comparison to the cultivators of Heavenly Domain. In his eyes, who had long since stepped into the Rank Two True Spirit realm, he was no different from an ant, and even if Tang Huan was in the True Spirit Level, he was only a slightly stronger ant. But now, this ant was actually so rude and disrespectful to him.

"The Rank One True Spirit, indeed, is nothing ..."

Tang Huan squinted his eyes and smiled, the Sumeru Magical Ring on his finger trembled, and then the Conqueror Spear appeared in his hand. The existence of the Divine Armament s could not be revealed for the time being, so Tang Huan pretended to take out weapons from his spatial artifact. If Tang Huan was still in Heavenly Domain, he would not be able to hide it from Tie Zhongqian and Luo Tong. However, Tang Huan had already stepped into the True Spirit Level, they could not detect him at all.

"However, it is enough to take care of you!"

Tang Huan's tone suddenly changed, his voice becoming heavy as a cold light flashed in his eyes.

In the split second that the voice was heard, Tang Huan had already rushed forward, the Conqueror Spear in his hands releasing an incomparably resplendent and dazzling red light.

Tie Zhongqian and Luo Tong once again brought their men to the Chen Village. It was obvious that they already knew, Chen Kui was not the real Tiger Clan, this also meant that today's matter could not be good.

Since they were going to make a move sooner or later, Tang Huan was too lazy to argue with Tie Zhongqian.

"What audacity!"

Tie Zhongqian's face turned sinister, his entire body releasing a dense killing intent, the dark black long blade in his hand suddenly slashed towards Tang Huan, the blade blade body as wide as a door slashed across the empty space, the black Qi followed the blade aura and surged, wherever it went, the surrounding light would immediately be wiped clean by the sucking.

All of a sudden, the area dozens of meters in radius seemed to have turned from day to night, looking extremely solemn.

"Hu!"

Tie Zhongqian's blade was unbelievably fast, to the point that even Tang Huan did not have time to react.

Almost at the same time that the soft sound of breaking through the air rang out, the terrifying blade force had already completely enveloped Tang Huan, who was rushing towards them.

"Die!"

A cruel smile emerged on Tie Zhongqian's face. In a split-second, Tang Huan was torn into pieces along with his spear, but in the next moment, the smile on his face froze.

"This is bad!" Just as that thought flashed through his mind, Tie Zhongqian heard a sharp voice.

"Swish!"

On the left side of his body,

Tang Huan's figure suddenly appeared without any warning, the spear thrust out again and again, and spear images appeared. In an instant, they congealed into a bunch of gigantic Fire Red Spear Radiance s, whizzing towards Tie Zhongqian like lightning. At this moment, it was as if Tang Huan's spear was wrapped up by a volcano that was about to erupt, and the terrifying Strength Qi was rolling around crazily like a tide, shocking everyone.

This was the first form of the "Conqueror Breaching Army Spear Technique", "Divine Power Beating"!

The same combat skill was used by Tang Huan who had already reached the True Spirit Level. Its power had increased by leaps and bounds. Not only was "Conqueror Breaching Army Spear Technique" the same, so were other methods.

For example, when Tang Huan executed "Visional Phoenix Five Footwork" and "Space Moving," the combination of the two could be said to have reached the point that it was impossible to find.

Regardless of whether it was Tie Zhongqian or himself, neither of them could see any clues.

"This ..."

Tie Zhongqian never thought that Tang Huan's attack would be so strange. Even with his strength, he did not know how Tang Huan appeared on his left side.

Tie Zhongqian immediately felt a great sense of danger. Without the slightest hesitation, he turned around, and the dark black long blade in his hand slashed horizontally, the boundless energy quickly condensed and shot out from the blade's edge, as though it was unstoppable. Boom!

In the blink of an eye, the black blade beam condensed from power had already touched the Fire Red Spear Radiance. A thunderous explosion resounded in the world as a massive spear light instantly exploded. A powerful force and a violent heat burst out like a volcanic eruption, transforming into an incomparably blazing storm.

As for the place where Tie Zhongqian was standing at, he did not even take the time to blink his eyes before he was sucked into it. Within the storm, the space twisted and layers of soil were lifted into the air, turning into ashes.

The space that was originally shrouded in darkness immediately turned bright red like fire.

"Retreat!" "Quick, retreat!"

The Strength Qi was like a raging wave, filling the void, and the heat that pervaded the air seemed to turn into something substantial, burning fiercely. Whether it was Chen You, Chen Hong, Chen Li or the many experts of the Chen Village, or the Heavenly Domain Cultivators, they all involuntarily retreated backward by nearly a hundred meters.

Even Luo Tong of the Rank Three True Spirit had no choice but to retreat a distance.

At this time, the gaze he used to look at Tang Huan contained an extra sliver of shock that was hard to hide: "How is this possible? He had just stepped into the Rank One True Spirit, and his strength had already reached such a powerful level? Furthermore, the technique he had used just now ... Was it the Tian Clan's spatial magic? Impossible, impossible, the current Tian Clan is already far, far away in the northwest of the great world, so how is it possible for this kid from the Chen Village to possess the Tian Clan's bloodline! "

Chapter 720 The joke is you!

"En!"

Just as everyone was in shock, at the center of the fiery red storm, a groan came out as a tall and skinny black figure retreated. It was Tie Zhongqian. Tang Huan's spear erupted with incomparable force, to the point that even a Rank Two True Spirit Ranker like him could not withstand it.

"Bang!" "Kacha..."

With each step he took, Tie Zhongqian's face became even redder. After continuously taking six steps back, his face had already swelled red, and the blood in his chest was churning. He gritted his teeth, barely managing to stabilize his body.

The first time they had fought, it had actually ended like this! Tie Zhongqian could hardly believe his eyes.

He knew very well that his own strength was definitely inferior to Chen Kui's when compared to the Rank Three True Spirit. That was why he dared to attack the Chen Village when he was with Luo Village and Luo Tong.

However, facing this mysterious fellow called "Chen Huan", he was extremely confident. After all, "Chen Huan" had only stepped into the True Spirit Level in the past few days, and was only at the Rank One True Spirit level.

Even though his counterattack was quite hasty, he didn't think that he would be at a disadvantage.

However, reality had given him a huge blow, not only did Tang Huan's spear display an extremely powerful might, the effect was also extremely shocking.

After the first shot, he almost vomited blood!

How could this little bastard possess such terrifying strength?

If he wasn't certain that the other party had just advanced into the Rank One True Spirit, he would have thought that the person he was facing was a powerful figure from the Rank Three True Spirit!

"Looks like the joke isn't me, but you!"

Amidst the guffaw, Tang Huan's figure shot forward without pause.

When Chen You entered the secret underground room, Tang Huan had more or less finished refining the strange energy that originated from "Ling Xiao Ancient Road", and his cultivation was just as he expected, at the peak of the Rank One True Spirit.

In terms of cultivation level, Tang Huan was indeed inferior to Tie Zhongqian and Luo Tong, but after determining the true cultivation levels of the two, Tang Huan reckoned that with his Four Great Spiritual Fire s and soul attacks, he would still be able to fight even against Luo Tong of the Rank Three True Spirit.

Of course, this was just a guess, but this time, the clash with Tie Zhongqian caused Tang Huan's confidence to increase greatly.

"Chi!"

Before the sound of his voice had finished echoing, the Conqueror Spear in Tang Huan's hand, like a gorgeous fiery red stream, pierced out once again with an astonishing speed. Tang Huan no longer used any combat skills for this spear, but the power and warmth contained within the spear was as vast as the ocean, and it was unstoppable.

"Aooo!"

Tie Zhongqian did not have much time to think, his eyes suddenly opened, his mouth roaring, the wide and dark black long blade already sliced out diagonally, the violent energy waves following the blade rolling along the edge of the blade, a gloomy and cold aura started to pervade the air, the temperature of the entire area instantly dropped.

"Clang!"

The blades and spears clashed fiercely, the Strength Qi stirred, and a wave that could be seen with the naked eye spread out from the point of contact.

In the blink of an eye, the weapon separated the moment it came into contact with him. Tie Zhongqian's face turned sinister as he involuntarily took a step back.

"Dang, dang, dang, dang ..."

Soon after, the sound of an intense collision resounded from the valley entrance. It was extremely concentrated. The first one didn't even fall, but the second one had already arrived.

In just a few breaths of time, Tang Huan had already thrust out forty-eight times.

Every spear strike contained an unimaginable power, and every time the blade and spear clashed with it, Tie Zhongqian would have to retreat a step. When he retreated to the thirty-sixth step, he could no longer suppress the raging Qi in his body, and a mouthful of fresh blood was uncontrollably spat out.

"Chi!"

Just as he steadied his feet, Tang Huan's forty-ninth strike had already pierced through the sky. Tie Zhongqian gritted his teeth as both of his eyeballs seemed as if they were going to pop out from his eye sockets.

From the second strike, Tie Zhongqian discovered that he had fallen into an extremely passive state.

Tang Huan shot out spear after spear like water, the spear power was endless, there was almost no gap in between them. Not to mention dodging, he didn't even have the chance to use a battle skill. He could only follow Tang Huan's rhythm and counterattack with every slash.

Under Tang Huan's attack, he was forced to retreat step by step, and his counterattack also became weaker and weaker.

In the Forging God Great World, there were many things like ox hairs. However, in the Firing Dragon Mountain Range, they could be considered to be strong. Ever since he had stepped into the True Spirit Level, he had not sparred with many people who were stronger than him, but he had never encountered such a depressing situation.

Not to mention, his opponent's current cultivation level was even lower than his.

"Clang!"

The sword and spear clashed violently once again, the Strength Qi wreaked havoc, causing the void to ripple. Tie Zhongqian unconsciously took a step back, the long blade in his hand raised high, almost falling out of his hands. In the end, although he firmly held onto the hilt of his saber, he spat out another mouthful of blood.

In that moment, Tie Zhongqian felt as if all of his internal organs had been crushed.

"The Rank Two True Spirit, is only mediocre!"

Tang Huan laughed continuously as he leapt into the air, performing the "Overlord Tactic" style of the "Conqueror Breaching Army Spear Technique", and smashed the spear in his hand downwards towards Tie Zhongqian's head from above. The spear didn't have any fancy moves, but it seemed to emit an unparalleled domineering aura. Wherever the spear went, it made it seem like a mountain was collapsing. The horrifying power spread out everywhere, making people unable to avoid it.

Sensing the might of Tang Huan's spear, the expressions of those experts from the Tie (Iron) Village all changed, their hearts hanging in their throats.

"Stop!"

At this moment, a loud shout suddenly resounded in the world.

Luo Tong who was shocked at Tang Huan's strength suddenly regained his senses, but could not stay any longer, his figure moved, and shot out from the rear. His right hand swept past his waist, and a Golden Soft Sword appeared in his palm, growing in the wind, and in an instant, the 1m long sword body had extended out several times.

"Shameless!"

"Chen Huan, be careful!"

"..."

Seeing that, the faces of Chen You and the rest changed, they were furious.

Sensing Luo Tong's movements, a cold intent flashed past Tang Huan's eyes, the Conqueror Spear's descending momentum did not slow down at all, but he turned his head and a lump of Five Colors Odor whizzed out from between his eyebrows, immediately transforming into an extremely terrifying tornado, sweeping towards Luo Tong.

This was the "Soul Killing Storm"!

"Hu!"

The five-colored storm's speed was so fast that Luo Tong had no time to dodge at all. The storm had overflowed the rattan like Golden Soft Sword the moment the five-colored storm had appeared in front of his eyes, revealing him within. With a groan, Luo Tong's body suddenly stopped.
