

## W. Master 731

### Chapter 731 - Wind Howling City

"Whoosh!"

Several days later, in the early morning, a white light rushed out of the valley where the Chen Village was. This was Tang Huan's Space Aircraft.

This time, Chen You was also travelling together with him.

Although Tang Huan was feeling rather comfortable in Chen Village, this place was not a place to stay for long. Even without Yuan Kun's invitation, Tang Huan would still be leaving after a period of time.

In the western part of Firing Dragon Mountain Range, becoming a Clan Guardians was something many cultivators yearned for even in their dreams. Every time the Tiger Clan held a general election, the cultivators in this region would rush in like a flock of ducks.

This time, Chen Kui gave him the "Precelestial Dragon Stone". Not only did he possess a "Holy Tiger Gold" that could protect the village forever, he also obtained two spots that did not need to go through the Clan Guardians's general elections to directly become the Tiger Clan. If this news were to spread, who knows how many people would be envious and jealous.

If he wanted to become a Clan Guardians, he had to at least be a Heavenly Domain cultivator.

Generally speaking, every time during the Tiger Clan's general election, the people participating in the selection were the most talented young people from the various villages. After all, after becoming a Clan Guardians, one could use the resources of the Tiger Clan to increase their cultivation as much as possible.

Because of this, the Chen Village obtained two Identification Tags. Other than the one Yuan Kun specified, he gave the other one to Chen You.

According to Chen Kui's disclosure, the restrictions on the Tiger Clan were not particularly strict. Other than the missions that the Tiger Clan occasionally had to complete, they were extremely free normally. They would not interfere in anything as long as they did not do anything that went against the interests of the Tiger Clan.

Furthermore, Tiger Clan was not a system that could last a lifetime. As long as one stayed long enough, they could leave the Tiger Clan and fully recover their freedom.

An ordinary Tiger Clan would take ten years!

To others, ten years might not be considered long, but in Tang Huan's eyes, this period of time was a little too long. He still had many things to do in the Forging God Great World, and would definitely not stay in the Wind Howling City for too long. That place, was merely Tang Huan's stepping stone.

However, Tang Huan had yet to tell Chen You his true intentions. Whether or not he wanted to become a Clan Guardians, he would first go to the Wind Howling City and check the situation.

In the blink of an eye another few days passed.

High up in the sky, the aircraft suddenly stopped. In the air in front of them, Tang Huan's eyes flashed with a strange light. His two eyes had already passed the almost transparent wall in front of

him, and looked towards the distant horizon. At the point where the sky and the earth intersected, a towering mountain rose up from the ground. Pang Shuo's mountain seemed to be constructed with all sorts of buildings. Even from several tens of kilometers away, one could still faintly see them.

The most wonderful thing was that from afar, the mountain peak was like a huge tiger crouching on the ground with its head raised while roaring. And, around the huge mountain peak, there were even dozens of small mountains.

"Is that the Tiger Vigour Summit?"

Tang Huan subconsciously muttered.

Tiger Clan's lair, the Wind Howling City, was built around the Tiger Vigour Summit. It was said that the mountain peak was formed after the death of a giant tiger. There seemed to still be a trace of the giant tiger's soul left within the mountain.

The bloodline was inherited from generation to generation, this was the origin of the Tiger Clan!

"This is it!"

Chen You rubbed his hands together, and said with a grin on his face.

At this moment, she was no longer dressed in beast skin clothing but had changed into a purple dress. Her figure was graceful and her face was pretty. Her wheat colored skin made her look even more valiant and energetic.

After the night of Luo Hao's attack, Tang Huan finally found an opportunity to explain the situation to Chen You.

Tang Huan didn't know what Chen You was thinking, but the relationship between the two of them had stealthily improved. At the very least, in front of Tang Huan, they were no longer as arrogant and spoiled.

Towards such a change, Tang Huan was happy to see it happen.

"Yiya!"

Beside Tang Huan's body, Xiao Budian who was sprawled on the ground and sleeping soundly seemed to be startled by the conversation between the two. His eyelids twitched slightly as he mumbled to himself, and then his small body curled into a ball, falling asleep again.

"Let's go!"

Tang Huan smilingly patted Xiao Budian's head. In a blink of an eye, the Space Aircraft had already dived down and disappeared into the vast forest.

The Tiger Vigour Summit's surroundings were actually crisscrossed with roads, connected in all directions.

On every road, people could be seen rushing about. Some were traveling alone, some walking together, some riding on various mounts, and some even riding beast carriages. Tang Huan and Chen You quietly entered a street to the south of the Tiger Vigour Summit and continued north.

What he saw along the way greatly expanded Tang Huan's horizons.

The people on the streets were all cultivators, with both cultivation bases of the eighth and the Stage Nine, filled with them. There were also quite a few experts in the Heavenly Domain, and one could even see a True Spirit-level Experts from time to time.

About five kilometers away from Tiger Vigour Summit, they began to enter his vicinity.

There were no city walls in that city. Instead, on the broadest road in the east, south, west, and north, there were tall and big memorial buildings built on each of them. The words "Howling Wind" were written on them.

After passing through the memorial archway, one could see endless waves of buildings.

Between the houses, towering ancient trees that were several tens of hundreds of meters tall were also there. Many houses were even built on the huge trees. Although the Wind Howling City was not like the small world of Cloud Sky City, which was built on top of a big tree, it seemed to be one with the jungle.

After entering the city, on his way, Tang Huan felt even more powerful auras.

Even the Chen Village and Tie (Iron) Village had True Spirit-level Experts s like Chen Kui. In this Wind Howling City, there were over a million people and those who lived in the Wind Howling City were not limited to just the people from the Tiger Clan, there were even more cultivators from various places that gathered here.

Counting it all, there were at least two million people in Tiger Vigour Summit.

"Tang ..." Chen Huan, where should we go first? " There were many people around, and Chen You did not call him by his real name anymore. This was also what Tang Huan had requested. Temporarily speaking, with the history of the Chen Village, he would be able to avoid a lot of trouble. If he joined the Tiger Clan, he would not be investigated thoroughly, otherwise, no matter how talented he was, it would be impossible for the Tiger Clan to let an unknown person become a Clan Guardians.

"Go first ... "Huh?"

The moment Tang Huan opened his mouth, he gasped in surprise. In a blink of an eye, he looked at Chen You and asked, "Chen You, is the Tiger Clan about to hold a general election?"

## Chapter 732 - Five Great Geniuses

Chen You was slightly stunned, then understood why Tang Huan would suddenly ask such a question. At this moment, a few cultivators who passed by were discussing the general election of the Clan Guardians, so they immediately nodded and said, "The Clan Guardians's general election is held once every three years. This time, it will indeed start very soon. "

Chen You smiled, "Actually, long before you appeared, all the villages, including our Chen Village, received this news. If there were no more unforeseen events, I would probably come to participate. However, this general election of the Clan Guardians no longer has anything to do with us, I have forgotten to tell you. "

"That's true."

Tang Huan laughed, "In the general election of Tiger Clan, I presume all the small and large villages in the western part of Firing Dragon Mountain Range would send cultivators to participate."

"Although it can't be said to be all of them, but a vast majority of the villages definitely won't miss such an opportunity." Chen You nodded, and said with deep emotion, "In the general election of the Clan Guardians, almost all of the powerful cultivators of the young generation have gathered here. If I were to participate, the chances of me passing would be very slim."

"Oh?"

Tang Huan found it hard to believe, "The Clan Guardians's general election is so intense?" In his opinion, Chen You, who had already stepped into the Heavenly Domain realm at the age of eighteen, and was now twenty-three, was extremely close to the peak of the Heavenly Domain. She could be considered a top genius, yet even she did not have the confidence to pass the Tiger Clan elections?

Chen You laughed bitterly: "Tiger Clan only selects cultivators under the age of thirty. Moreover, the number of people chosen will not exceed three hundred. From what I know, there are probably thousands of peak Heavenly Domain cultivators in the western region of the Firing Dragon Mountain Range. Among them, there are probably dozens of people who have stepped into the True Spirit Level. "If I had another three years, with my strength at that time, I should have been able to pass the selection without any problems. But this time, I hope it's basically zero."

"There are both Rank Four True Spirit s?"

Tang Huan could not help but take a deep breath.

Chen You said: "That's right, the five most talented cultivators of the young generation in the western region of Firing Dragon Mountain Range all have such cultivation."

"Who are the five great geniuses?" Tang Huan subconsciously asked.

"One is Luo Chen, who was born in Luo Village and is now around 25 or 26 years old. I heard that he had broken through to the Rank Four True Spirit some time ago; another is Gu Ziyang, who was born in Gu Village in the south, and seems to be slightly older, and has already reached the Rank Five True Spirit; another is Qin Xiu, who was born in Qin Village, located in the east of Chen Village. He is about the same age as Luo Chen, and has also reached the Rank Four True Spirit. Chen You said as if she knew everything.

"Hu Xuan, Hu Qin, Qin Xiu, Gu Ziyang, Luo Chen ..."

When Tang Huan saw the envy in Chen You's eyes, he couldn't help but pat her shoulder and laugh, "There's no need to envy them, they're all from a large village, especially Hu Xuan and Hu Qin, they're all from the Tiger Clan, and the cultivation resources they possess are much stronger than yours. If you have the same cultivation conditions as yours, your cultivation speed will definitely not be inferior to theirs."

"That's true."

Chen You chuckled, and did not belittle himself, "I heard that there is a 'Spiritual Soul Cave' in the Tiger Vigour Summit, where the cultivation speed is shockingly fast. One day, I will catch up to them! " Chen You confidently waved her fist, a look of longing appearing in the depths of her beautiful eyes.

"Spiritual Soul Cave?" Tang Huan thought for a bit, and said, "Chen You, let's go check out the 'Tiger Power Palace' that reported to Clan Guardians first."

"..."

Tiger Power Palace was at the foot of the mountain on the east side of Tiger Vigour Summit.

Tang Huan and Chen You were in the southern part of Wind Howling City, so they needed to go around a distance. When the two of them reached their destination, they couldn't help but be shocked.

In front of the Tiger Power Palace, it was already a sea of people.

Knowing that the Tiger Clan's general election was about to begin, on the way here, Tang Huan observed for a bit and sure enough, he discovered that there were many young cultivators who were the same as him, heading towards the Tiger Power Palace. With regards to the situation over here, Tang Huan had already somewhat expected it, but what he saw now still exceeded his expectations.

Although there were a lot of cultivators gathered outside the Tiger Power Palace, they were not in a mess. They lined up in a long queue, obviously waiting to register.

There were so many young cultivators that had yet to register, it was unknown how many that had already signed up.

"Adding them all up, there should be at least tens of thousands of people participating in the Clan Guardians's general election. Is it really necessary for tens of thousands of people to fight for that tiny amount of Clan Guardians slots?" Seeing the bustling scene in front of him, Tang Huan could not help but mutter to himself, the chance of success was 100 to 1, or even a few hundred to one, it was simply too low. Most of the young cultivators that travelled long distances to come to Wind Howling City, in the end, all of their efforts were in vain, and were only able to broaden their horizons.

"It's necessary! Of course it's necessary!"

A voice suddenly sounded, to the side, a middle-aged man who was spectating could not help but laugh, "In Firing Dragon Mountain Range, no matter how big a village is, there is a world of difference between cultivation environment and resources compared to Four Great Clans. "For example, our Tiger Clan's' Spiritual Soul Cave 'can be said to be a holy land for cultivation, and the cultivation speed there is at least two to four times faster than the outside world. Not only that, our Tiger Clan still has all kinds of cultivation pills and powerful weapons, and there are even many miraculous cultivation techniques, as long as one becomes a Clan Guardians, all of these cultivation resources will have the chance to be enjoyed."

"If they stay in their respective villages, entering the True Spirit Level will be as difficult as ascending to heaven. However, if they become Clan Guardians, their chances of entering the True Spirit Level will definitely increase several fold. If one has already stepped into the True Spirit Level, then the resources of the Tiger Clan can help them break through the True Spirit barrier as fast as possible and constantly increase their cultivation. "

The middle-aged man was obviously a member of the Tiger Clan. When he spoke, his expression was one of pride.

Tang Huan couldn't help but feel his heart palpitate, but then he shook his head slightly, "Becoming a Clan Guardians indeed has a huge benefit, but it's a pity that I have to serve you for ten years."

If Tang Huan did not have a lot of things to do, it would be fine even if he stayed in Wind Howling City for ten years. After all, as long as nothing happened to True Spirit-level Experts, it would not be difficult to live for a few hundred years. Compared to his extremely long lifespan, ten years was just a blink of an eye.

"Little brother doesn't know about this."

The middle-aged man laughed, "To those ordinary Clan Guardians, ten years of service is only a matter of time. If you improve to become a Tiger Guard, five years will be enough, if you improve further, and become a Guardian of the Tiger Clan, two years will be enough, after two years, no matter if you leave or continue to stay, you will not be restricted. "

#### Chapter 733 - Special Admission of Clan Guardians s

Ten years in the Clan Guardians, five years in the Tiger Guard, and two years as a Guardian.

Tang Huan subconsciously looked at Chen You, only to see her nodding her head with a smile. Obviously, what the middle aged man said was true.

The reason why he didn't want to join the Tiger Clan was because ten years was too long. If he became a Guardian, he only needed to serve the Tiger Clan for two years;

I wonder what the conditions are for one to become a Guardian?

With a quick thought, Tang Huan could not help but let out a probing sigh. "In a short span of two years, it's not easy to advance from an ordinary Clan Guardians to a Tiger Guard and then to a revered master."

"That's true."

The middle-aged man nodded his head in agreement, "To become a reverend requires a cultivation of Rank Seven True Spirit. In every Clan Guardians election, there will only be one or two people who pass the selection and break through to the Rank Seven True Spirit realm within two years, and become a reverend figure in the Tiger Clan."

"Rank Seven True Spirit..."

Tang Huan secretly took a deep breath.

An expert like Luo Hao, who only had the Peak Rank Six True Spirit, would definitely not be an easy person to step into.

Tang Huan slightly hesitated, but in the next moment, Tang Huan's thoughts became firm. When he was sixteen, he was still an ordinary person who couldn't even cultivate Genuine Qi, but in just a few short years, he had already reached the realm of the Heavenly Domain. Now, he had even broken through to the True Spirit Level.

With this "Nine Yang Divine Furnace" by his side, if he were to enter Tiger Clan to cultivate, his speed would definitely be faster than others.

Even if I don't step into the Rank Seven True Spirit within two years, it should be enough for three years right?

In any case, after two years, no matter what time he broke through to the Rank Seven True Spirit, he would be able to become a Guardian, obtain his freedom, and wouldn't be restricted by the Tiger Clan anymore.

"Chen You, let's go." In an instant, Tang Huan had already made up his mind.

"Little brother, have you decided to register?"

The middle-aged man chuckled.

Tang Huan smiled and took the lead to walk forward. Chen You did not know that Tang Huan had already thought of many things in that moment, and upon seeing that, he subconsciously followed.

"Chen You, why didn't you tell me that you only need two years to become a Guardian of the Tiger Clan to obtain your freedom?"

After looking around for a while, Tang Huan couldn't help but ask in a low voice. If he knew about this situation earlier, he wouldn't have bothered for so long.

Chen You looked at him strangely. "Uh, after I joined the Tiger Clan, I naturally knew about it, there's no need to clarify anything about it.

"..."

Tang Huan was speechless. Only now did she realize that she did not tell Chen You before that she did not want to join the Tiger Clan, so she naturally did not mention it intentionally. She could not help but let out a dry laugh: "It is indeed a little far away, but I am about to become a Clan Guardians.

Hearing this, Chen You unhappily rolled his eyes at Tang Huan.

Very quickly, Tang Huan and Chen You entered the gap between the two groups of cultivators. In the plaza in front of the Tiger Power Palace, the lines were neat and orderly, and among the lines, there were practically no figures walking randomly. When they appeared, they immediately attracted many gazes.

"Are these two fellows trying to cut the queue?"

"Tsk tsk, there's going to be a good show."

"Looking at their clothes, they are obviously not from the Tiger Clan. There are so many of us waiting in line to sign up, but they want to cut in line. They must have some status, otherwise they wouldn't be so daring. However, this is the Wind Howling City, their identity is probably insufficient. "

"The last time you tried to cut in line, he seemed to have been carried away by a reverend in the Tiger Clan, didn't he?"

"..."

Among the team, there were a series of low mutters who were well-informed, and all of them looked at Tang Huan and his group with eyes full of ridicule and schadenfreude.

Tang Huan could naturally feel the malicious intent in the gazes of the surrounding people, but he did not put it to heart. Did he and Chen You need to cut the queue?

Before long, Tang Huan and Chen You had already reached the front steps.

The big doors of the Tiger Power Palace opened, and young cultivators filed in, entering the hall to register for the general election of the Clan Guardians. After registering, they left the front of the line one by one.

To the left of the hall stood a thirty year old or so young man. He had a handsome face, wore a blue robe, and his eyelids were drooping, as though he was resting with his eyes closed. To the right of the hall stood a tall and sturdy man.

"Hmm?"

The moment Tang Huan and Chen You got close, the Black Costume Brawny Man on the right snorted with a dark face, his bell-like eyes opened wide as he waved his large fan-like hand in displeasure: "In front of Tiger Power Palace, no one is allowed to cut in line. Retreat quickly, line up!"

The ridiculing gazes of the nearby young cultivators who were queuing up grew even more intense, and many people even started to laugh mockingly. Hearing Black Costume Brawny Man's words, he immediately retreated, it was fine, but if he dared to argue or use his power to suppress them, he would be thrown away immediately.

However, after a short moment, everyone was stunned.

"Brother, we are here to report, not to register!" Tang Huan cupped his hands and laughed.

"Reporting in?"

The Black Costume Brawny Man was startled, and then the blue-clothed man on the left side of the palace door suddenly opened his eyes, and his gaze landed on Tang Huan. He looked at the black jade tablet that he and Chen You had just taken out, and in the next moment, he closed his eyes again.

"A specially recruited Clan Guardians?"

Black Costume Brawny Man immediately regained his senses, his eyes subconsciously looking at the black jade medallion in Tang Huan and the other two's hands. He did not doubt the authenticity of the jade token, in the Western region of Firing Dragon Mountain Range, no one dared to copy it, and they did not copy it either. After all, it was obvious whether or not the Clan Guardians was specially recruited. Therefore, after a moment of hesitation, the Black Costume Brawny Man waved his hand, signaling the two of them to come in.

"Thank you, brother."

Tang Huan slightly nodded as he entered the Tiger Power Palace with Chen You.

"Special Clan Guardians? You do not need to participate in the selection to directly become a Clan Guardians? "

"We can't cut in line, so how can they go in?"

"What's going on? Not only did you not throw them out, you even allowed them to enter the Tiger Power Palace? "

" ... "

Seeing the situation at the entrance of the hall, the plaza immediately burst into an uproar. A small portion of the cultivators nearby more or less understood what was going on, but even more of the cultivators in the distance were filled with confusion and confusion. It was only when the news reached them that they finally understood.

However, the realization only lasted for a moment. Following that, everyone became even more suspicious.

Clan Guardians can do special recruitment?

Were the two of them from extraordinary backgrounds? Or were those two already at a level where they didn't need to participate in the general election? The former was a bit possible, but the latter was completely impossible. If even strong practitioners like Luo Chen, Gu Ziyang, and Qin Xiu had to participate, then no matter how strong those two were, could they be stronger than the three of them?

#### Chapter 734 - Wind God Valley

Not long after, Tang Huan and Chen You walked out of the Tiger Power Palace under countless astonished gazes.

This Tiger Power Palace, was not only the place to register for the Clan Guardians's general elections, but also the place to report. In a few days, the young cultivators who passed the elections would have to report to the Tiger Power Palace to collect a piece of unique Identification Tag. Only then would they be considered as an official Tiger Clan.

Tang Huan and Chen You already had Identification Tag, but their Identification Tag was not complete. The picture of the tiger head on the front of the number plate looked lifelike, but it was missing two eyes. After reporting, his eyeball was retracted and the number plate was completely activated. The tiger head was shining with light and was exceptionally agile.

Carrying this completely activated number plate on his body, once there was a mission to carry out, no matter where he was, Clan Guardians would feel the summon from the Tiger Clan.

This time when Tang Huan and Chen You reported to the, other than the Identification Tag being completely replenished, they also obtained a map of the Tiger Vigour Summit and a manual for the Clan Guardians. Through the map, the two quickly found their next destination — Wind God Valley!

The Wind God Valley was the place where the Clan Guardians lived. It was located in the northeastern part of the Tiger Vigour Summit.

There was a serial number on each of Tang Huan's and his Identification Tag's numbers, and this serial number was their residence's number. Tang Huan's was 643, Chen You's was 979.

After a while, the two of them arrived at an unusually vast valley.

The great roads in the valley were crisscrossed, and the courtyards could be seen one after another. At the entrance of each courtyard hung a signboard with a number on it. The closer they got to the mouth of the valley, the bigger the number became, and the biggest number was a thousand. From this, it could be seen that Tiger Clan only had a total of a thousand people.

Every year, there would be cultivators that left the Clan Guardians and moved out of the Divine Wind Valley because their lifespan had expired, or because they had stepped into the Rank Seven True Spirit Realm.

After three years, the number of Clan Guardians was naturally lacking quite a bit.

As a result, the number of cultivators lacking would increase every three years in the Clan Guardians's general election, to maintain the number of cultivators at 1000.

Although it was just a thousand people, their strength couldn't be underestimated.

After all, other than a few Clan Guardians s who were specially recruited, most of the Clan Guardians s who passed the elections were at the peak of Heavenly Domain, while the rest were all experts of the True Spirit Level.

Such a force was enough to sweep through the entire western part of Firing Dragon Mountain Range.

"If Tiger Clan is so, then Dragon Clan, Eagle Clan and Snake Clan are no exception."

Tang Huan sighed in his heart.

On this valley road, young cultivators could be seen passing by from time to time. The ones with the lowest cultivation were all at the peak of Heavenly Domain, and from time to time, they would see a True Spirit-level Experts, obviously they were all Clan Guardians s. Seeing and Chen You who were strangers to him, the eyes of the Clan Guardians s revealed a look of surprise, especially when they sensed Chen You's Qi, it was even more so, after all, compared to the others, Chen You's cultivation level was truly lower.

After a while, Tang Huan calmed himself down and started searching the valley with Chen You.

Very quickly, Chen You's residence had already been found, and her courtyard number 979 was in the row closest to the valley entrance. As for Tang Huan's No.643 Courtyard, they were in the depths of the mountain valley. Their courtyard was about a kilometer away from Chen You's, not too far away.

All the courtyards were the same. There were three rooms in the courtyard, but the courtyard was extremely spacious. The ground was paved with a huge green stone slab, and the surface had countless varying depths, clearly indicating that it was made from a weapon. However, there were no cracks at all, demonstrating the toughness of the material.

This kind of environment was suitable for practicing battle skills. At the very least, it wouldn't cause the ground to become so bumpy and messy.

"Chen Huan, what should we do now?" In the courtyard, traces of joy could still be faintly seen on Chen You's pretty face, who had followed along.

"Naturally, training."

Tang Huan laughed.

On the way to the Wind God Valley, he had already read through the contents of the manual. According to the narration above, the Wind God Valley s were divided into a total of one thousand Tiger Clan s into fifty small teams, with twenty people each. The captain of the small teams was one of the Tiger Guards.

The so called Tiger Guards were the strongest fifty out of the one thousand Clan Guardians s. They were just able to form teams with an average of fifty people.

As for the vice-captain, he would be appointed by the strongest member of the True Spirit Cultivator, excluding the Tiger Guards. After every election, the new Clan Guardians would always be assigned to a small team that was not full, and Tang Huan and Chen You, the two new Clan Guardians s that were specially recruited by Yuan Kun, were no exception.

When they were in the Tiger Power Palace, Tang Huan had also asked, about four Clan Guardians s that had recently been specially recruited.

The Tiger Clan had four major subordinate cities that occupied the east, south, west and north sides of the Tiger Vigour Summit, respectively known as the east, south, west, and north cities. Every subordinate city was guarded by a deacon, and the deacon of the southern city was Yuan Kun. Before Chen Kui left the Chen Village, what he went to was not the distant main city Wind Howling City, but the southern city which was closer. Only by doing this could he travel back and forth in the shortest amount of time possible.

The attendants of the four major cities had the right to specially recruit Clan Guardians s, and they also had two spots every three years.

The basis of special recruitment was not cultivation, but contributions. Because of that "Innate Spirit Stone", Yuan Kun had given both of his spots to Chen Village. The other two Clan Guardians s that were specially recruited were respectively from the Western City and the Northern City. It was said that they had long since reported in, but Tang Huan had yet to see them.

"That's right."

Chen You took a light breath, "Three days from now, the general election of the Clan Guardians will officially begin. Six days from now, we will divide the troops together with the newly selected Clan Guardians. Chen Huan, why don't we go to the 'Spiritual Soul Cave' now? "

After entering the Wind God Valley, although she was not ridiculed by the passing Clan Guardians, she could clearly feel the strange gazes that were landing on her. Of course, she understood the reason.

The Wind God Valley was the gathering of the most talented and talented experts among the young generation of the western region of the Firing Dragon Mountain Range. She was not at the peak of the Heavenly Domain and could be considered the weakest amongst them. Chen You didn't think that he would always be the one at the bottom, but that strange look in her eyes made her feel as if her back was covered in goosebumps.

Back when they were still in Chen Village, Chen You had a faint feeling that he had already touched the threshold of the peak of Heavenly Domain, and now that he had a try, he wanted to see if he could borrow the strength of the "Spiritual Soul Cave" to raise his cultivation before assigning teams, and step into the peak of Heavenly Domain in one go.

At that time, even if one's strength was still the weakest, one would at least be on the same level as the majority of Clan Guardians s.

"Let's go, I also want to see the miracle of the 'Spiritual Soul Cave'." Tang Huan was greatly moved.

"..."

## Chapter 735 - Spiritual Soul Cave

At the side of the Wind God Valley, there was a large staircase leading up the mountain, like a giant snake crawling inside the Tiger Vigour Summit. At the waist of the mountain, there was another wide stone path that forked to the left. After approximately one thousand meters, it was at the end of the road. An abnormally steep cliff rose from the ground.

The stone wall was as translucent as jade and as smooth as a mirror, clearly reflecting a human figure.

Its width and height both reached a few dozen meters, and the interior of the cave was misty white. At the mouth of the cave, the vast void rippled unceasingly, and it was difficult to see the situation inside, giving people a strong and mysterious feeling.

On the left side of the cave, there stood a ten-meter-tall boulder. On the boulder, the words "Spirit" were carved with flying dragons and dancing phoenixes.

This cave was the holy land of cultivation for the Tiger Clan, the Spiritual Soul Cave!

From time to time, some people would enter the cave while others would emerge from it. Almost all of the cultivators that came out had miserable appearances; some were gasping for breath, some were flushed red to their ears, some were drenched in sweat, and there were even some that fainted the moment they came out.

In front of the cave in the plaza, there were at least a hundred figures sitting motionlessly on the ground, adjusting their breathing and recovering. Obviously, they were all cultivators from Spiritual Soul Cave.

When Tang Huan and Chen You saw this scene, they couldn't help but look at each other in shock.

In the Clan Guardians's Manual, there was a description of the Spiritual Soul Cave s. When one cultivates in the cave, both the soul and flesh body would have to bear an immense pressure, and the deeper they go, the more pressure they would have to bear. And what is proportional to this is the effect of cultivation, the greater the pressure, the faster the cultivation speed would increase.

In the Middle Section of Spiritual Soul Cave, the speed of cultivation was twice as fast as in the outside world, but in the Middle Section of Spiritual Soul Cave, the speed of cultivation was four times faster than in the outside world, and in the latter half of the Spiritual Soul Cave, the speed was eight times faster. Of course, this kind of training speed was only a rough estimate. The specifics depended on the individual.

Furthermore, because of the pressure, he could not stay in Spiritual Soul Cave to cultivate.

According to the instructions in the Clan Guardians's manual, the peak cultivators of the Heavenly Domain could at most cultivate in the front section of the Spiritual Soul Cave for twelve consecutive hours. After twelve hours, he had to come out, or there would be harm. As for the Middle Section of Spiritual Soul Cave, they would need to be at least in the Rank Three True Spirit realm to enter, and at the same time, they could only cultivate for twelve hours continuously.

In addition, after every cultivation, he needed to spend a bit of time to digest all the things he had gotten from the previous attempt before he could enter again. Otherwise, it would greatly affect his cultivation.

"Let's go!"

Both Tang Huan and Chen You were shocked and curious at the same time.

Not long later, the two of them arrived at the entrance of the Spiritual Soul Cave. The moment his body touched the undulating void, the Clan Guardians plate at his waist immediately released a low and deep tiger roar, and following that, a thick black aura rose, covering the two of them.

"Hu!"

Immediately after, Tang Huan felt a strong suction force pulling him forward. In the blink of an eye, it seemed as if a long time had passed. His feet had already landed on the ground, and the black shadow in front of him disappeared. What replaced it was a bright white light.

In the next moment, an exceptionally strong pressure swept in from all directions, wave after wave, like raging waves and stormy waves, continuously attacked Tang Huan's body and soul.

"What a strong pressure!"

Tang Huan's heart trembled. In a short period of time, the Five Colors True Spirit had already started operating at a fast speed, and his entire body became relaxed as he let out a sigh of relief.

It was also at this time that Tang Huan had the time to survey the situation in the Spiritual Soul Cave.

At that instant, the place he was in was a circular space. It was extremely vast, at least several thousand meters in radius. The top, the ground, and the surrounding stone walls constantly emitted a soft white light. The light illuminated this huge area until it was as bright as day.

A Black Tiger Sculpture tens of meters tall sat in the center of the space. Its body was massive and terrifying, and the moment one saw it, they would involuntarily feel small. The gigantic black tiger's shadow came out of the statue again and again, expanding rapidly. Almost every time the shadow expanded, a terrifying pressure would sweep in all directions with the sculpture as the center. It was actually rolling like a wave.

Around the sculpture, there were many white, jade-like prayer mats placed one after another.

At this moment, there was a large number of figures seated on the praying mat, and around every figure, there were dense and faint white-colored odor s. At the edge of this space, the figures of cultivators were the most concentrated, and the closer one was to the Black Tiger Sculpture, the thinner the area was. The reason for this situation was very simple. Although they were in the same space, the closer they were to the Black Tiger Sculpture, the more pressure they would feel.

Inside the space, there was another arched hole. The air rippled like water, and that was clearly the middle section of the tunnel to Spiritual Soul Cave.

"Hu!" The sound of breaking wind suddenly came from beside him. Chen You had also entered the Spiritual Soul Cave.

"En!"

The moment he appeared, Chen You could not help but let out a stuffy groan, his face had turned slightly pale. After he had activated his cultivation technique, his complexion turned slightly better, and he heaved a long sigh of relief: "The pressure here is shockingly strong, no wonder the cultivators at the peak of Heavenly Domain can only cultivate for a maximum of twelve hours."

"Ah, I can't hold on any longer."

Just as Chen You's voice fell, a low exclamation came from afar. A cultivator at the edge of space suddenly grabbed a jade tablet by his waist. Then, a group of white-colored odor wrapped him up tightly. In just a breath or two, the cultivator disappeared without a trace.

Tang Huan had already discovered that the cultivator's identity plate was different from his and Chen You's Clan Guardians number plate. After all, those who had the qualifications to enter the Spiritual Soul Cave were not limited to the Clan Guardians s, Tiger Clan Priests and the other experts of the Tiger Clan s.

Those people naturally could not carry the Clan Guardians's number plate.

"Let's start as well."

With that thought, Tang Huan turned to Chen You and warned, "If you can't hold on, don't force yourself, activate your number plate and leave this place."

"Yes, you too."

Sensing Tang Huan's concern, Chen You smiled as he nodded his head, took a quick look around, and selected an empty praying mat at the right side of the dimension, and then walked over. After watching Chen You's graceful figure sit down on the praying mat, Tang Huan walked towards the center of the space.

Since Tang Huan was a cultivator of the Rank One True Spirit, he naturally didn't need to stay at the edge of the spatial realm to cultivate like Chen You had done.

At this very moment, not only had Tang Huan activated his True Spirit to the limit, the "Nine Yang Divine Furnace" had also been pushed to the limit, and his Perception Ability had been raised to an unprecedented level. The further he went, the more pressure he felt from the Black Tiger Sculpture s. However, Tang Huan continued to move smoothly and did not slow down at all.

#### Chapter 736 - Tiger Vigour Essential Qi

Within a five hundred meter radius around the Black Tiger Sculpture, all of the cultivators were True Spirit Level Cultivators. After a short while, Tang Huan was already walking closer to this area, and directly arrived at the center of the space in front of the Spiritual Soul Cave. He was only around ten meters away from the massive Black Tiger Sculpture.

On the innermost ring, there were only nine prayer mats. Only three of the prayer mats had people cultivating on them, while the remaining six were empty.

Just by sensing it, Tang Huan couldn't help but laugh.

Judging from the aura fluctuations, the three of them should all be at Rank Three True Spirit level, comparable to Luo Tong who was defeated by Tang Huan previously. With their cultivation level, they could totally enter the Middle Section of Spiritual Soul Cave to cultivate, yet they were still stuck here. It was likely that they couldn't withstand the stronger pressure inside.

He randomly picked a praying mat to sit on, and in the blink of an eye, Tang Huan had already calmed his mind and focused, the tyrannical power of the sucking immediately suffused out. In a split-second, threads after strands of white-colored odor came out of thin air and continuously entered the "Nine Yang Divine Furnace".

This was no ordinary Spiritual Qi of Heaven and Earth.

According to the Clan Guardians manual, they were called "Tiger Vigour Essential Qi". It was said that the Tiger's Soul was formed from absorbing the Spiritual Qi of Heaven and Earth. As long as the Giant Tiger's Soul continued to exist, the "Tiger Vigour Essential Qi" in the Spiritual Soul Cave would be endless.

For ordinary cultivators, refining this "Tiger Vigour Essential Qi" was much more difficult than refining the Spiritual Qi of Heaven and Earth. However, for Tang Huan who had the 'Nine Yang Divine Furnace', the difficulty of refining the 'Tiger Vigour Essential Qi' was just like a normal cultivator refining the spiritual energy of heaven and earth.

Compared to the power that he had obtained from refining the Ling Xiao Ancient Road, refining the "Tiger Vigour Essential Qi" could be said to be extremely easy.

Not long after, just like the numerous cultivators around him, white-colored odor started to circulate around Tang Huan's body. As time passed, the white-colored odor became denser and denser, and Tang Huan's figure started to become blurry. After a long while, Tang Huan's figure was completely obscured.

"Hu!"

After an unknown amount of time, on a praying mat ten meters away, the gathered white-colored odor quietly dissipated and returned back to the void. The blurry figure that was sitting cross-legged had also become clear, and it was a black-clothed man.

"It's about time."

The man in black was already sweating profusely, and his face had swelled to a dark red color. "If I keep cultivating, I'll definitely get injured!" As he muttered, the black clothed man's right hand had already grabbed the jade tablet at his waist. However, just as he was about to activate it, he couldn't help but be stunned.

Directly in front of him was what used to be an empty praying mat, but now there was an extremely large lump of white-colored odor, at least a few meters in radius, and it was extremely thick. In his current position, he could not see who was cultivating inside.

"Who is cultivating there?"

The man in black opened his eyes in surprise. He recognized the three people who were cultivating in the furthest circle. They were all Rank Three True Spirit cultivators like him.

However, the fellow facing him, made him even more suspicious. That person was actually absorbing such a large mass of "Tiger Vigour Essential Qi", at least several times bigger than the other three, and judging from the extremely intense undulations from the "Tiger Vigour Essential Qi", it could be seen that whether it was the speed of absorbing the "Tiger Vigour Essential Qi" or the speed of refining the "Tiger Vigour Essential Qi", the person was far faster than the other three people in the same circle.

"Could it be a Rank Seven True Spirit Ranker?"

"No, no, if he really is a Rank Seven True Spirit Ranker, even if he did not go to the 'Spiritual Soul Cave' area to cultivate, he should still be in the middle section, why would he come to the front section?"

"Since it's not a Rank Seven True Spirit, then it's a Rank Six True Spirit?"

"..."

The thoughts of the black clothed man quickly churned, but he could not believe it. In the previous stages of the "Spiritual Soul Cave", the highest cultivation level was only Rank Three True Spirit, maybe there would be some cultivators with Rank Four True Spirit s or Rank Five True Spirit s that would pass here, but they would never stop.

It was not only his imagination that was running wild, but also the occasional muffled exclamations of surprise from the surroundings. It was obvious that other cultivators who had temporarily stopped cultivating had also noticed this abnormality.

"Huh?"

But after a short moment, the black clothed man could not help but exclaim softly. He suddenly realized that the "Tiger Vigour Essential Qi" more than ten meters away from him was quickly dissipating. In just a few breaths of time, a black figure that was sitting on a praying mat slowly appeared.

The black-clothed man's eyes subconsciously opened wide, that person's body was long and slender, just like him, he was also dressed in black robes, although his face could not be seen, but judging from his body's size, he should still be very young. As for his cultivation, judging from the fluctuations of his aura, it should be ...

"Rank One True Spirit?"

The black-clothed man could not believe his eyes. He could not help but exhale. His originally large mouth had expanded even further, as if several eggs could be stuffed in it. He never thought that the person training in the innermost area would actually be a Rank One True Spirit cultivator.

The disparity was too great, and it completely overturned all of his knowledge.

The speed at which someone from the Rank One True Spirit absorbed and refined the "Tiger Vigour Essential Qi" was actually faster than the speed of the cultivators from the Rank Three True Spirit.

Could this fellow be a peerless genius?

"Hmm?"

Hearing the commotion behind him, Tang Huan subconsciously turned his head to look back. Seeing an extremely fierce looking fellow staring at him with his mouth agape, probably shocked by the speed at which he was absorbing the "Tiger Vigour Essential Qi", Tang Huan did not mind, and immediately fell into deep thought.

After refining "Tiger Vigour Essential Qi" for a while, Tang Huan had already realized that he had entered the wrong place.

In the Spiritual Soul Cave, the reason why his cultivation speed far surpassed the outside world, was because of the pressure from the Black Tiger Sculpture. Therefore, during the process of cultivation, it was best not to circulate one's energy to fight against the other. One should rather

allow the pressure to invade one's body. When absorbing and refining the "Tiger Vigour Essential Qi", that pressure could also refine the flesh body and soul at the same time. This way, it could greatly increase the speed of one's cultivation.

Ever since Tang Huan entered the Spiritual Soul Cave, he had been resisting and eliminating the pressure of the Black Tiger Sculpture.

Thus, Tang Huan stopped resisting the pressure.

He quickly noticed that the effect of his cultivation was much lower than he expected.

"If the soul is too strong, the endurance of the 'Sun Spirit Body' would far surpass that of cultivators of the same level, causing the pressure from the sculpture to be unable to achieve the desired effect. If you continue to stay in the front section of Spiritual Soul Cave, your cultivation speed will probably be lower than everyone here.

In the blink of an eye, Tang Huan had already turned around and walked toward the passage inside the spatial space.

Chapter 737 - Rank Two True Spirit

"Where is he going?"

The black clothed man regained his senses and muttered in suspicion, his gaze following Tang Huan's figure. After a long while, he couldn't help but take in a breath of cold air, as though his eyes were about to pop out of their sockets, "Middle Section of Spiritual Soul Cave ... He wants to go to Middle Section of Spiritual Soul Cave ... "

When he broke through to the Rank Two True Spirit, he entered the Middle Section of Spiritual Soul Cave's dimension on a whim.

In the end, he only stayed inside for the time of ten or so breaths before he was forced to leave by that extremely terrifying pressure. After stepping into the Rank Three True Spirit realm, he had once entered the Middle Section of Spiritual Soul Cave again. It had taken him two hours to stay there, but after leaving the Spiritual Soul Cave, he seemed to have contracted a severe illness. It took him five whole days to finally recover.

Even a Rank Three True Spirit cultivator would have such a performance, let alone a Rank One True Spirit cultivator.

Under the limitations of cultivation and strength, no matter how fast one absorbed and refined the "Tiger Vigour Essential Qi", it was impossible for one to stay inside for a long period of time. Maybe once they entered the Middle Section of Spiritual Soul Cave space, they would be forced to flee immediately. Even their inner organs and soul would be damaged because of this.

"That brat is only at Rank One True Spirit, right?"

"With such a low cultivation level, entering the Middle Section of Spiritual Soul Cave is just asking for trouble."

"Looking at him, he looks unfamiliar. It seems like this is the first time I am here in this Spiritual Soul Cave, I wonder how big the central zone is, after he has experienced some suffering, he will be more obedient."

"..."

Thin laughter came from time to time.

Watching Tang Huan's figure disappear into the passageway, the black clothed man laughed slyly and immediately activated the jade tablet at his waist, disappearing without a trace as a result of the thick black Qi.

In the next moment, his figure appeared outside of Spiritual Soul Cave, but he did not immediately leave. As time passed, the doubt in his eyes grew stronger and stronger. Surrounding him, figures would appear out of nowhere from time to time.

... ..

Compared to the previous section, the Middle Section of Spiritual Soul Cave's dimension was almost doubled in size. In the middle of the dimension, there was also a huge tiger sculpture that was even larger in size. In the space in front, the giant tiger's entire body was as black as ink. In the space in the middle, the sculpture was a dark gold color.

The moment he entered the area, Tang Huan discovered that the pressure coming from the Giant Tiger Statue had suddenly increased several times over.

Tang Huan didn't resist, allowing the pressure to strike at his soul and body.

Under the invasion of the frightening pressure, Tang Huan's calm soul seemed to have been swept up by a hurricane, bringing about stormy waves. But within his body, his muscles, bones, blood, fascia, every single one of his Spiritual Meridian, every single vein, and every single nerve seemed to be surging rapidly.

Standing in place, quietly enjoying the smell for a moment, Tang Huan revealed a smile, and then moved forward step by step. When he was about two hundred meters away from the gigantic sculpture, Tang Huan stopped in his tracks, casually found a praying mat, and sat down. The people cultivating in this space were obviously all cultivators above the Rank Three True Spirit. Compared to the previous section of space, the number of people here was greatly reduced.

Not long later, Tang Huan calmed his mind and closed his eyes.

A strong soul and a strong "Sun Spirit Body" allowed Tang Huan to completely withstand the waves of pressure. Tang Huan's mind was as calm as water, the "Great Harmony Heavenly Classics" immediately activated to its limits, the "Nine Yang Divine Furnace" and the Five Colors True Spirit quickly circulated.

Boundless sucking power spread out, and after a flick of a finger, large groups of white-colored odor came out from the void.

In this middle section of space, not only was the pressure there several times greater than in the previous section, the density of the "Tiger Vigour Essential Qi" was also several times greater than in the previous section of space. In just a few short breaths of time, Tang Huan's figure had already been completely covered, and the "Tiger Vigour Essential Qi" that lingered by the side was violently churning like clouds and mist.

Time flew, and in the blink of an eye, three days passed.

The sky was still bright, and the entire Wind Howling City was already abuzz with noise and excitement. Countless people were converging from the Tiger Power Palace to the streets and

alleys, and many cultivators were walking down from the Tiger Vigour Summit, preparing to watch the upcoming general elections. Unknowingly, the wide open space in front of the Tiger Power Palace was already filled with a sea of people, and the clamorous noise had already congealed into a gigantic sound wave.

Within the Middle Section of Spiritual Soul Cave space, low exclamations rose and fell one after another.

"Who the hell is this guy?" If I remember correctly, he started to cultivate here three days ago. When I came in today, he was still in that position, so could it be that he has already cultivated here for three whole days? "

"With my Rank Six True Spirit's cultivation, I can't take it anymore after practicing for 24 hours. He can actually stay here for such a long time, how is that possible?"

"Could it be the Rank Seven True Spirit ... Impossible, impossible, even with the cultivation of the Rank Seven True Spirit, it is impossible to cultivate in the Spiritual Soul Cave for three days straight. "

"..."

A few young men stared at the ball of Tiger Vigour Essential Qi that was still being condensed, and unconcealable shock and bewilderment appeared between their brows.

"You think too much."

Right at this moment, a metallic laughter rang out, and the one who spoke was a robust man of about thirty years of age, clad in a golden robe. "No one is doing nothing but staring at him, how can you tell how long he has trained for? In my opinion, he definitely went out once, but his recovery speed was rather fast, so he went back to cultivate once more. "

They looked at each other, as if this was the only explanation.

"Hu!"

However, at this moment, a whistling sound suddenly echoed in this space.

The few of them subconsciously looked towards the source of the voice and discovered that the group of "Tiger Vigour Essential Qi" had started to churn even more intensely. Soon after, a powerful aura began to fluctuate out from within the "Tiger Vigour Essential Qi" that seemed to be made of clouds, and started to soar rapidly at an astonishing speed.

"This aura ...." No way, Rank One True Spirit? " After a moment of shock, a handsome young man couldn't help but exclaim.

"The Rank One True Spirit just broke through to the Rank Two True Spirit?" The other azure-robed man was stunned as well.

"With such a low cultivation, you can still come to Middle Section of Spiritual Soul Cave to cultivate?"

"..."

The few of them found it hard to believe.

It wasn't that no cultivators under the Rank Three True Spirit had entered this space before, but those people had all left the moment they came in and couldn't stay to cultivate. But this guy from the Rank One True Spirit, not only did he cultivate here for a long time, he even stepped into the Rank Two True Spirit.

"Damn it."

The golden-robed man stared dumbly at it for a long while before slapping his head and mumbling. His eyes were filled with disbelief.

Chapter 738 - Confusion of Experts

After a long while, the wave of energy finally stabilized.

"Rank Two True Spirit!"

Inside the violently churning "Tiger Vigour Essential Qi", Tang Huan carefully felt the changes in his body, and he couldn't help but feel pleasantly surprised.

This Spiritual Soul Cave was truly worthy of being the cultivation holy land of the Tiger Clan.

As long as one was able to endure the onslaught of the frightening pressure, their soul and flesh body would be in an incomparably active state. In this state, the speed at which he was refining the "Tiger Vigour Essential Qi" would greatly increase, not to mention that Tang Huan also possessed a "Nine Yang Divine Furnace," and the speed at which he was refining the "Tiger Vigour Essential Qi" would even reach an extremely terrifying level. Here, Tang Huan could feel his Genuine Qi becoming more and more powerful.

The feeling of himself levelling up at all times was intoxicating, Tang Huan's mind was completely immersed in it.

Unknowingly, Tang Huan had already sensed the existence of that layer of invisible chains from the Five Colors True Spirit, and it was getting clearer and clearer. Tang Huan did not stop his cultivation, but continued to destroy the attack on the invisible chains. In the end, he shattered it and stepped into the Rank Two True Spirit.

"I wonder how many days have passed?"

After being overjoyed, Tang Huan's thoughts quickly changed.

Ever since he entered the Middle Section of Spiritual Soul Cave, Tang Huan had been cultivating quietly, and no one knew how much time had passed. However, during this period of time, the Clan Guardians plate around his waist had not moved at all. It was likely that the general election of the Clan Guardians had not ended yet, and it had not even been six days.

"Damn, I have to take a good look at him later to see who he really is."

"Cultivating in the middle of the 'Spiritual Soul Cave' with just the Rank One True Spirit and breaking through to the Rank Two True Spirit in one go? This has never happened before."

"Looks like my previous judgement wasn't wrong. He really might have cultivated here for three days straight. Otherwise, how could he have broken through his original cultivation realm?"

"..."

Soft murmurs could be heard from time to time.

"Three days?"

Upon catching the sound, Tang Huan's mind moved. He had been immersed in training this entire time, so he did not think much about it, but now that he thought about it, his performance in the Middle Section of Spiritual Soul Cave was indeed extremely eye-catching. After all, in this space, even the strongest Rank Six True Spirit could only be cultivated for a maximum of two hours.

When he just joined the Tiger Clan, he was not familiar with the situation, so everyone started to pay attention to him.

In a blink of an eye, Tang Huan's right hand had grabbed the number plate at his waist. Without waiting for the "Tiger Vigour Essential Qi" which lingered by his side to disperse, a strand of vigorous Genuine Qi was already integrated into the number plate. With a clear trembling sound, a thick black Qi rose up and completely enveloped Liu Ming in an instant.

"Hu!"

In a split-second, Tang Huan's figure had already disappeared from the spot. The Tiger Vigour Essential Qi lost its support and immediately disappeared, merging back into the air.

"Gone?" Staring at the empty prayer mat, the golden-robed man and the others were all stunned.

"I'll go out and take a look!"

The azure-robed man was immediately carried away by the dense black Qi and left the Spiritual Soul Cave. In the next moment, his figure appeared outside the cave, and his gaze swept across the numerous figures in the plaza. However, the aura that no one emitted matched the aura of the person he was looking for.

"I refuse to believe that you can leave so quickly!" The green-robed man suddenly revealed a smile that brimmed with interest.

"Whoosh!"

In the blink of an eye, the azure-robed man had already flown down the mountain, and a faint sound of something tearing through the air was heard.

Within the space in front of Spiritual Soul Cave, Tang Huan had already found a praying mat at random and sat down.

After all, when he had entered the Middle Section of Spiritual Soul Cave from here three days ago, many cultivators had personally witnessed it themselves. Things had already reached this point, so Tang Huan did not care too much about it, but it was good to be exposed a few days later.

Tang Huan collected his emotions, and his gaze began to search the entire space.

Not long later, Tang Huan discovered Chen You's figure not far away.

Compared to three days ago, the aura being emitted from her body had grown by quite a bit. It should have been the second time she had entered the Spiritual Soul Cave and cultivated for a long time. Within the "Tiger Vigour Essential Qi" which was like white fog, one could vaguely see that her entire body was drenched in sweat and her towering chest was rising and falling rapidly.

When he couldn't hold on any longer, Chen You would naturally go out.

Tang Huan was not worried about Chen You's situation, in the next moment, he closed his eyes, eliminating all distractions and activated his cultivation technique.

What he needed to do now was to stabilize his cultivation, and he wouldn't need to crazily use the sucking 'Tiger Vigour Essential Qi' like before. Under Tang Huan's deliberate control, the amount of "Tiger Vigour Essential Qi s" that were being absorbed into his body decreased by a lot. The white-colored odor s that lingered around his body made his body look blurry and indistinct.

"Buzz!"

After a long while, Tang Huan was awoken by a soft cry. He looked down, and saw the Clan Guardians plate at his waist slightly trembling. Not only were there some movements on his number plate, there seemed to be quite a few people around. Fortunately, they were all trembling, and inside the Spiritual Soul Cave, a lot of buzzing sounds could be heard.

"Go!" Go! Hurry and return to the 'Wind God Valley'! "

"Master Hu Xiao is summoning all the Clan Guardians."

"What a pity, what a pity. If I continue to cultivate for a while longer, I might be able to break through."

"..."

Balls of white mist and clouds formed from the "Tiger Vigour Essential Qi" were dissipating. One figure after another stood up and disappeared into the dense black aura.

"Seems like the Clan Guardians's general election is over."

Tang Huan smiled, and reflexively looked to the left.

Ten meters away, Chen You looked over at almost the same time. Laughing merrily, they exchanged a glance and stood up at almost the same time, activating the Clan Guardians card.

The normally quiet Wind God Valley had become extremely noisy. Cultivators constantly entered the valley and rushed into the depths of the valley as fast as lightning. Some were alone, some were in groups.

When Tang Huan and Chen You arrived at the furthest reaches of the Wind God Valley, hundreds of figures had already gathered on top of the round platform that had a circumference of a few hundred meters. Moreover, there were even more people hurrying over.

"Old man, stand to the left. Newcomer, stand to the right!"

The voice came from time to time, and came from a middle-aged man with a strong build, a tiger's back with a bear's waist, and a stern face. He gave off an imposing air, and the Qi that was emitted from his body was extremely powerful, as though he was not one bit weaker than the Yuan Kun that Tang Huan had seen before.

"Rank Seven True Spirit?"

Tang Huan thought for a bit, "Could he be the Tiger Clan of the Tiger Clan, Hu Xiao?"

Amongst the newly joined Clan Guardians s on the right, there were tens of True Spirit Cultivator s, and the rest were all peak Heavenly Domain cultivators. Amongst the elderly people in front of them, there were at least three to four hundred True Spirit Cultivator s!

## Chapter 739 - Seizure

Unknowingly, fewer and fewer figures were rushing in from outside the valley. The people on the left side consciously lined up into fifty rows, some long and some short, some long and some short, some long and some short, and there were only slightly more than ten people.

When the last four figures reached the left of the round platform at the same time, the middle aged man's sonorous voice that sounded like metal clashing rang out: "Everyone, I am Tiger Clan Hu Xiao. Welcome to the four specially recruited friends and the one hundred and ninety-eight who have passed the elections to join the Tiger Clan, and to become one of us." As he spoke, the middle-aged man's eyes shone with a profound light, and his aura was intimidating.

The voices that had been sounding out from time to time immediately disappeared, and the round platform immediately became deathly silent. Almost all eyes fell on Hu Xiao.

After a slight pause, Hu Xiao's gaze fell upon the round table to the right and said: "One thousand Clan Guardians s, divided into a total of fifty teams. The new two hundred and two friends will be allocated to the missing team. Next, each team will choose a new member. Of course, the new friend can also choose a team that you think is suitable. " As he finished speaking, Hu Xiao actually revealed a slight smile.

"Alright, let's begin!"

As his gaze swept across everyone, Hu Xiao suddenly smacked his palms down heavily.

Almost as soon as his voice fell, almost all the elders rushed out from the left side of the round table. The area instantly became abnormally noisy.

"Brother Luo Chen, brother Ziyang, quickly come to our team! Haha, among all the Clan Guardians teams, our team's strength is number one! "

"Come to us, come to us, half of our team are True Spirit Cultivator."

"Little Sister Qin Xiu, all of the members of our team are female, which suits you very well."

"Hu Xuan, Hu Qin, I have been waiting for you two siblings for a long time."

"..."

All sorts of voices rose and fell.

Seeing such a noisy scene, Tang Huan, after being momentarily stunned, could not help but burst out laughing, and then in the blink of an eye, he started to watch.

Aside from him, Chen You and a few other specially recruited Clan Guardians s, the other one hundred and ninety-eight Clan Guardians s had all defeated many opponents in the Clan Guardians elections that were going to continue for three days, and stood out one step at a time. Those old men had long known about their powers and abilities. As a result, they had aimed for the new Human Clan Guards whom they thought highly of the moment they arrived and tried to recruit them. There were a few who were the most popular and were surrounded on all sides.

One of them was about 25 or 26 years old. He was dressed in a blue robe and was as beautiful as jade. One was around twenty-seven or twenty-eight years old, with a square face and distinct facial features. She was called Gu Ziyang, and the other, who was about the same age as Luo Chen, had a petite and exquisite body, beautiful features, and wore a green skirt.

The other two were siblings. The man was tall and sturdy. His eyes were like bronze bells, and under his tight clothes, his muscles bulged as if they contained explosive power. The woman was extremely tall and slender, at least 1.9 meters in height. Her body was exceptionally fiery hot, and she appeared to be brimming with vigor and vitality.

They were and Hu Qin from the Tiger Clan.

From Tang Huan's observation, their cultivations were not too different from what Chen You had told them. Luo Chen should be a Peak Rank Four True Spirit, maybe he could break through very quickly, and Gu Ziyang was a Rank Five True Spirit.

Other than the "Five Great Geniuses" that Chen You had spoken of, there were four other people who received much more attention. One of them was a short young man whose cultivation had already reached the Rank Four True Spirit, but his aura was slightly unstable, so it was likely that he had just broken through, while the other three were all at the Rank Three True Spirit.

As for the other True Spirit Level and a few peak Heavenly Domain s, there were more or less people surrounding them.

Tang Huan and Chen You stood at the right side of the round stage, and during this period of time, almost no one knew him, so they were not noticed for the time being. Although Chen You had managed to step into the peak of Heavenly Domain, the strength of his aura was still inferior to that of the other peak Heavenly Domain cultivators who had passed the general elections, so no one paid too much attention to him. Regarding this, the two of them weren't in a hurry either.

In any case, he would definitely be able to join one of the teams in the end.

Although Hu Xiao had previously said that the new Clan Guardians could also be selected, in truth, only Hu Xuan, Hu Qin and Qin Xiu had the qualifications to be selected. The other new Clan Guardians, even if they had the cultivation of Rank One True Spirit, could only wait to be selected.

"Brother, we meet again." A rough voice suddenly sounded next to his ear. Tang Huan looked over in the blink of an eye, to see a tall and big black-clothed man with a rough face sizing him up with eyes filled with unconcealable surprise.

"Have we met before?" Tang Huan looked at this fellow who had a ferocious expression.

"Spiritual Soul Cave..." The man in black chuckled.

"I remember now, what's your name, friend?"

Tang Huan suddenly realised that when he entered the middle section from the front section of Spiritual Soul Cave, he did indeed attract some people's attention, and the black clothed man was one of them.

"My name is Hu Kai!"

The man in black immediately laughed, and looked at Tang Huan with great anticipation. "Brother, how about you join our team?"

When Tang Huan and Chen You arrived at the round table, Hu Kai discovered their existence.

That day outside the Spiritual Soul Cave, he rested for a long time but still did not see Tang Huan come out. He was shocked on the inside for a long time, because the fact that a cultivator from the

Rank One True Spirit could stay in the Middle Section of Spiritual Soul Cave for such a long time was truly unimaginable.

If it were not for some matters regarding his departure later on, he might have continued to wait and see just how long Tang Huan could stay inside the Moon Slaughter Devil Nest.

Today, seeing Tang Huan again, he was even more shocked when he realized that Tang Huan's cultivation had very possibly already broke through to the Rank Two True Spirit, and he realized in his heart that this person was probably very extraordinary. Thus, after Hu Xiao gave the order, he immediately looked for him, wanting Tang Huan to join his team.

Hearing Hu Kai's words, Tang Huan couldn't help but exchange a glance with Chen You. Just as he was about to speak, a voice interjected from the side, "Brother, you should come to our team. Hu Kai's group is ranked the lowest among the fifty, it's practically a waste of time to go there."

The one who spoke was a man around thirty years of age, with a thin figure and average appearance. However, the aura emitted from his body was extremely tyrannical, far above Hu Kai, and was a cultivator from the Rank Four True Spirit.

"Lu Yi, you ..." Hu Kai was furious, his fists clenched tightly.

"What, you want to fight me? "Seems like you haven't remembered the lesson from last time!" The man called Lu Yi looked at Hu Kai sideways, raised his eyebrows, and had a trace of disdain in his eyes.

#### Chapter 740 Accession

"Lu Yi, don't go overboard. I was the one who took a fancy to this brother of yours."

Hu Kai's face was ashen as he roared.

"So what if you like it first? This brother is willing to join any team! "

Lu Yi chuckled, and then ignored Hu Kai, looking at Tang Huan in the blink of an eye, he smiled and said, "Our group has 10 True Spirit Cultivator, in Team 50, although our strength cannot enter the top 10, the top 20 are still more than enough, we are still lacking one more spot. If you join, in the future, there will be a lot of opportunities for you to train, and it will greatly help your strength.

Hu Kai glared at Lu Yi, but there was a trace of helplessness in his eyes.

This sudden change of events surprised Tang Huan quite a bit.

There were already many seniors who were selecting their members who noticed the commotion, but all of them had a calm expression. Even Clan Guardian Commander Hu Xiao had also seen the argument between Lu Yi and Lu Yi, but he only took a glance at it and no longer paid attention to it. It was obvious that he did not have any intentions of stopping.

Tang Huan suddenly realised that the competition between these fifty Clan Guardian Group s was much more intense than he had imagined. Furthermore, this competition was allowed.

"Brother, come with me now."

Lu Yi glanced at Hu Kai sarcastically, patted his shoulders and turned away.

After walking a few steps, Lu Yi suddenly realized that something was not right. He suddenly turned around, only to see Tang Huan standing still in his original spot.

Seeing that, Hu Kai was also surprised.

"Brother, what does this mean?" Lu Yi was rather surprised.

"I'm sorry, Brother Lu. I can't join your team." Tang Huan smiled lightly.

"Oh?"

Lu Yi's brows slightly rose, and snorted with displeasure, "Could it be that brother has a better place to go to?"

Moreover, before Hu Kai and him, there were obviously no other teams coming in contact with Tang Huan. It was clear that Tang Huan did not have any comfortable people in this Wind God Valley, he did not believe that Tang Huan could find a stronger team.

"No, I'm just not interested in Brother Lu's team."

Tang Huan said slowly.

This Lu Yi was overbearing and was not an easy person to get along with. Joining his team was not a good choice. Moreover, their team was only missing one person, so it was impossible for them to recruit both Tang Huan and Chen You. Chen You was still relatively weak now, and could help her out when she was in the same small team.

Lu Yi was immediately stunned, and he also opened his eyes wide in shock. Tang Huan's words could be said to have completely exceeded their expectations.

Chen You frowned and looked at Tang Huan with some worry. That Lu Yi was obviously not a person with a big heart, if Tang Huan rejected his recruitment so directly, he would definitely offend him. He had only joined the Tiger Clan for a few days, it was not a good thing to offend an extremely strong True Spirit Cultivator.

After a while, Lu Yi came back to reality and stared at Tang Huan gloomily: "Kid, do you know what kind of opportunity you just missed?"

"Big Brother Hu (Tiger)."

Tang Huan no longer paid any attention to him. In the blink of an eye, he looked at Hu Kai and asked with a smile, "I wonder if you still welcome me to join your group?"

"Of course! Of course! Welcome! "

Hu Kai was startled for a moment, but immediately regained his senses and laughed crazily in joy.

Even if Tang Huan rejected him, he did not hold any hope of winning against her. After all, Tang Huan did not even fancy Lu Yi's team, so how could he possibly join that team which was almost at the bottom of Wind God Valley?

But he didn't expect that in the end, things would take a turn for the worse.

For a moment, Hu Kai felt as if he had been struck by a pie in the sky.

However, Lu Yi's face darkened immediately. His already gloomy eyes became even more dark, refusing a party whose strength could steadily enter the top twenty, changing the main requirement to join a bottom level team. What was the difference between this and slapping him hard in the face?

"Big Brother Hu (Tiger), I have a small request. The two of us come from the same village. I don't know ..." Tang Huan laughed again.

"No problem, absolutely no problem. Our team has enough slots."

Without waiting for Tang Huan to finish speaking, Hu Kai had already understood his meaning and nodded his head with a smile.

The companion beside Tang Huan who was at the peak of Heavenly Domain did indeed have a slightly weaker aura, but Hu Kai did not care too much about it. After answering, his gaze turned towards Tang Huan's side. The moment he saw Chen You's face, he felt an intense sense of awe, and realized how beautiful the woman beside Tang Huan was.

"Thank you, Big Brother Hu (Tiger)."

Tang Huan cupped his hands and said gratefully.

Chen You stared blankly at him, only then did she understand why Tang Huan rejected Lu Yi's invitation without hesitation. A hint of joy that was hard to detect surfaced in the depths of her beautiful eyes.

"Kid, don't regret it!"

Lu Yi's face darkened as he laughed coldly.

Hu Kai waved towards where Lu Yi was standing as if he was shooing away flies, and said smilingly: "Brother, and this lady as well, let's chat over there, so that there won't be a fly buzzing around." With that, without even looking at Lu Yi's changing between red and white face, he pulled Tang Huan and left.

Chen You pursed his lips, held back his laughter and quickly followed.

"He really doesn't care about face!" Staring at the figures of the three, Lu Yi's gaze turned cold as he suppressed the anger in his chest again and again. The string of words that came out of his mouth was like a strand of yin wind blowing from hell, and his tone was cold and sinister, "Brat, you'll regret this very soon!"

"Brother, may I ask how I should address you and this lady?" Not far away, Hu Kai was already cheerfully speaking.

My name is Chen Huan! This is my clan sister, Chen You! "

"..."

As they spoke, the three of them had already arrived at the right side of the round table.

The number of cultivators in this area had gradually increased, and the newbies that were successfully recruited were also brought over by the old members of the teams. The fifty lines once again began to take shape. Not long after, Tang Huan and Chen You followed Hu Kai and arrived at the left side of the crowd.

"Guys, I've brought you two new friends."

Hu Kai laughed, but before he finished, a few young men and women in the last group immediately surrounded the three people.

"Wow, the vice-captain is so strong."

"Brother, my name is Luo Xingkong."

"I am Tong Ge. Welcome to our team."

"..."

In an instant, this small patch of space became chaotic. Towards the arrival of Tang Huan and her, this group of old members all appeared to be extremely passionate.

Tang Huan only needed to sense for a bit before he could understand everyone's situation.

Just these old teammates of his, other than the vice-captain Hu Kai who had the cultivation of Rank Three True Spirit, the rest were all peak Heavenly Domain cultivators. The strength of the party leader would not be weaker than Hu Kai, but the other old members who were still recruiting new members, were most likely at the peak of Heavenly Domain.

Their overall strength was even stronger than that of the Chen Village s, but in the face of Wind God Valley's fifty man team, they were indeed too weak. It was no wonder that Lu Yi had not given them a second thought.
