Chapter 741 - Flamingo Blood Beads

"It's really too hard to get someone to join our team."

"Damn, looks like I can only wait until the end."

"Hai, there's nothing we can do about it. Our team is the weakest out of all of us."

"..."

Those cultivators who were pulling people to the right of the round table dejectedly ran back. Seeing that there was an additional True Spirit Level Cultivators in the group, they were all pleasantly surprised.

However, their judgement was not wrong at all. After the other teams had finished selecting their members, a pale yellow clothed man who was as thin as a stick walked over with a group of peak Heavenly Domain cultivators that no one wanted.

Tang Huan knew that this yellow clothed man was the party leader, Li Tian'en.

Judging from the Qi undulations, he should be a Rank Five True Spirit cultivator, but seeing his sickly look, it was very likely that he was still injured and had not fully recovered.

Although Tang Huan was somewhat curious, he did not ask further. After all, it was the first time they had met.

Thinking about it, when he was still on the left side of the round platform, Li Tian'en had already noticed the situation on the other side.

The fifty squads had been rearranged neatly and were fully filled.

Combined with the Clan Guardians's manual and the introductions of Hu Kai and the others, Tang Huan had a good understanding of the situation in the Clan Guardian Group.

Fifty teams would rank themselves according to the amount of contribution. Each time they successfully completed a mission, they would receive a certain amount of contribution points. Generally speaking, the larger the contribution a team had, the stronger the strength, and such a team would often be assigned some very good missions. As for the lower ranked teams, they would often receive difficult and tiring missions, and the contribution points from completing the missions would also be relatively low.

For example, the team that Tang Huan was on, currently only had around thirty thousand contribution points. Among all the teams, it was the lowest, and the team that was ranked first actually had three million contribution points.

The difference between the two was a hundred times.

As for the strength of the two teams, there was a world of difference. Squad fifty on Tang Huan's side only had three True Spirit Cultivators, but Team One ... Tang Huan had secretly observed just now that the twenty members of the party were all True Spirit Cultivators.

It was very likely that the leader of the party was a Rank Six True Spirit cultivator. Even if compared to Luo Hao who had fought with Tang Huan before, they would not be much weaker.

Amongst the "Five Great Geniuses" who were participating in the Clan Guardians's general election, Luo Chen and Gu Ziyang were both recruited.

"Very good. Since you've chosen your teammates, next is the allocation of missions." Across from the group of fifty, Hu Xiao said with a solemn expression and a voice that was as loud as a bell, "There have been quite a few missions accumulated during this period of time. After receiving your mission, please carry it out as you wish, and do not delay it for too long. "

"Yes sir!" Everyone answered loudly.

"Hu Ben!"

Hu Xiao slightly nodded, his gaze turned towards the first group as he yelled out. A stack of papers appeared out of nowhere in his hands.

"Here!"

A man with an abnormally robust physique replied. He was like an ancient fierce beast that had just broken free from its cage, and his imposing manner was extremely intimidating, causing people to feel fear at first glance.

"Chi!"

With a flick of Hu Xiao's finger, a piece of paper flew towards Hu Ben like an arrow that had just left the bow.

With a grab, the page appeared in his hand. Hu Ben quickly took a look at it, then waved his hand and laughed out loud: "Brothers and sisters, let's go. Let's all go back to our respective residences and make preparations. We will gather at Wind God Valley's entrance after an hour." Moments later, twenty figures jumped down from the round table.

"Mo Lan!" Hu Xiao shouted loudly once again.

"Here!"

Amidst the crisp voice, another figure flew out from the crowd.

She was the captain of the second squad. She was extremely tall and wore an extremely loose black robe. For some reason, she wore a mask on her face. Hu Xuan and Hu Qin had joined this team, but what surprised Tang Huan was that the leader of this team was actually a woman.

"Hua Jingting!"

"Here!"

"Wei Zheng!"

"..."

The pages were sent out by Hu Xiao one by one, and the team that received the mission either left or stayed behind to discuss things in a low voice. Not long after, the number of people on Pang Shuo's round table decreased by almost half, and most of them gathered together.

"..."

"Li Tian'en!"

"Here!"

Very quickly, Li Tian'en also received the page that Hu Xiao popped out. After giving out all the team missions, Hu Xiao did not stay any longer, he turned and faced the huge hall behind the round altar, and after just looking at the page, he started laughing bitterly, with an expression of "as expected".

"Captain, what is our mission this time?" The crowd gathered around, and Hu Kai could not help but ask.

"See for yourself?" Li Tian'en helplessly gave the paper back to Hu Kai.

"A hundred Flamingo Blood Beads?"

After he recited these few notes, Hu Kai's face immediately collapsed, as if he wanted to cry but had no tears. Even Chen You couldn't help but pat her forehead, her pretty face showing signs of depression.

"Everyone's expression is the same. Is there something wrong with this 'Flamingo Blood Beads'?" Tang Huan asked doubtfully.

Right after he said that, the surrounding team members' gazes landed on Tang Huan, with strange expressions on their faces. Chen You smiled a little embarrassedly, and quickly explained, "My brother has been focused on cultivating since he was six, and he was almost isolated from the world. He only started to interact with the outside world recently, so ..."

"So that's how it is."

Everyone immediately understood, so Hu Kai also nodded his head, but his smile was uglier than crying: "Brother Chen Huan, you might not know, but this 'Flamingo Blood Beads' is a type of thing that exists in the body of 'Wind-bell Flamingo'. It was a type of flying beast, its strength was not considered strong, only at the peak of Heavenly Domain, but if one wanted to obtain a 'Flamingo Blood Beads', he or she had to capture 'Wind-bell Flamingo' alive. They had to be alive. If this kind of vicious beast died, then the bead of blood condensed in the crown of the head would also dissipate. For a single 'Wind-bell Flamingo' with only one blood bead, you would need to capture one hundred 'Flamingo Blood Beads' alive. Even if it is two or three months, it would not necessarily be a success. "

"I see."

Tang Huan finally knew why Li Tian'en and Hu Kai had such a lifeless look on their faces.

In a situation where one did not have the ability to fly, catching flying beasts was indeed not an easy task. One had to lure them down from the skies or touch their nests; no matter what method, it was impossible to catch too many "Wind-bell Flamingo" at once.

"Tsk tsk, 100 'Flamingo Blood Beads', your luck is pretty good."

A mocking laughter suddenly rang out, "If I remember correctly, this seems to be the third time Squad 50 has received this mission, right? In my opinion, you don't need to take any more missions in the future, just focus on collecting 'Flamingo Blood Beads' for Tiger Clan. "

Chapter 742 - Lei Bao

Everyone looked towards the source of the voice and saw a group of people approaching. The one in the front was actually Lu Yi, the person who wanted to recruit Tang Huan previously. His eyes flashed with ridicule. Almost immediately after he finished speaking, the cultivators beside him began to wantonly roar with laughter.

Seeing them, Hu Kai and the rest had ugly expressions on their faces.

"Haha, you're right."

Another voice sounded, "The 'Flamingo Blood Beads' is an essential part in the refining of the 'Large Success Treasure Star Pellet', it has always been lacking in the Tiger Clan. Li Tian'en, Hu Kai, I suggest that we should carefully consider Brother Lu Yi's suggestion of collecting the 'Flamingo Blood Beads', although it will be a bit hard, but it will be safe and there won't be any danger. If we were to carry out other missions, with your current strength, you guys might not be able to make a complete loss, so it doesn't matter if we lose face for the Clan Guardians, when the time comes we still have to implicate our Lord Commander."

The one who spoke was a man in his thirties. He was dressed in green, had a medium build, a sallow complexion, and a fierce-looking face. When he spoke, he looked serious and serious, but his eyes were full of ridicule.

"That's right, that's right, what Captain said makes too much sense. If it were me, I would have gone to ask the Lord Commander to agree to this proposal."

"Having accumulated so much experience to gather 'Flamingo Blood Beads', it would be a waste for me not to persevere on."

"Do your job well. From now on, all of our 'Maharet Treasure Star Pellets' will fall to you."

"..."

"F * ck your mother!"

"Zheng Qi, with that little cultivation of yours, you still have the nerve to mock others."

"How ridiculous, I wonder which team nearly died in the mission."

"..."

The cultivators beside the green robed man agreed and mocked and ridiculed him. Squad 50, Hu Kai, Tong Ge and the others all looked angry as they ridiculed him one after another. The area instantly became extremely noisy, immediately attracting the gazes of everyone around.

The cultivators who had just joined the two squads obviously didn't think that their relationship would be so bad. They looked at each other in dismay for a moment, then uncontrollably joined the battle of words as well.

Tang Huan secretly sized up Lu Yi, his brows knitted slightly.

He had a premonition that Lu Yi's group of people might have come not just to ridicule everyone, but also for some other reason.

However, Li Tian'en squinted his eyes, and his expression became more and more gloomy.

"Alright!"

His gaze swept across the green robed man and Lu Yi, and a trace of anger could be seen between his brows: "Pu Han, Lu Yi, if you two are truly bored to death, I can accompany you two to have a good spar here, but if you don't have the guts, then get the hell out of here right now!"

"Exchange pointers?"

The green robed man called Pu Han was stunned. He looked at Li Tian'en with a hint of embarrassment, anger and fear, but then suddenly laughed and laughed sinisterly. "Li Tian'en, do you think that this is still a year ago? With your current appearance, even if I win against you, it will still be an unfair victory. As for Hu Kai, even if I don't say I'm not interested, Brother Lu Yi isn't interested in playing around with him at all. "

Saying this, Pu Han curled his lips in disdain, "This team of yours only has two True Spirit Cultivators in total. Now, one of them is sickly and the other one is a defeated opponent of Brother Lu Yi.

In these words, Pu Han actually misunderstood Li Tian'en's intentions. Li Tian'en's original intention had been to spar with him and Lu Yi, but it had been exchanged for a spar between two small teams.

Hearing that he did not even put Team 50, Li Tian'en and Hu Kai, the two vice captains, in his eyes, Luo Xingkong and the rest were all filled with anger.

But, without waiting for them to retaliate, Lu Yi suddenly opened his mouth and laughed: "Brother Pu Han, you forgot? Team 50 has just recruited a fellow with Rank Two True Spirit! " When his eyes swept across Tang Huan, a sinister look actually surfaced in his eyes.

"Hmm?"

Hearing that, Tang Huan's eyebrows twitched, he suddenly realised that Pu Han and Lu Yi might have come for him, the previous taunts he made were just a prelude, regardless of what Li Tian'en said, they would definitely take care of him.

Looks like rejecting Lu Yi's recruitment earlier had indeed made him hate himself.

Chen You was obviously aware of this as well. Her two charming eyebrows were tightly knitted, and a look of worry quietly appeared in the depths of her bright and black eyes. Regarding the sparring between the Clan Guardians, as long as no one died and they did not drag each other down while they were doing their tasks, the Tiger Clan would not interfere.

"Ah, I really forgot about that."

Pu Han clapped his hands lightly, and with a face of enlightenment, he said with a cold smile. "Li Tian'en, didn't you say you wanted to spar? However, we will not bully you. Since the guy in your team is a Rank Two True Spirit cultivator, then our team will also produce a member that is a Rank Two True Spirit cultivator. " After saying that, without waiting for Li Tian'en's response, Pu Han fiercely roared out: "Lei Bao, you go!"

"Yes sir!"

The thunderous reply suddenly sounded, and a tall and sturdy young man walked out with large strides. His three-meter tall body made him look like a moving mountain of flesh, and the moment

his feet stepped down, thumping noises could be heard, even this enormous round platform seemed to tremble.

Upon seeing this person, the expressions of Luo Xingkong, Tong Ge and the others immediately changed, and even the expressions of Li Tian'en and Hu Kai changed greatly.

They all understood this fellow called Lei Bao quite well. Among all the Clan Guardians s, Lei Bao's cultivation level was not considered high, but his strength had far surpassed their level. In almost a year, he had challenged many cultivators of the Rank Three True Spirit, and up till now, he had never lost.

Tang Huan was merely a Rank Two True Spirit cultivator, how could he be a match for Lei Bao? Compared to them, Chen You had actually calmed down.

Although Lei Bao looked extremely terrifying, she believed more in his strength. Back when she had just broken through the Rank One True Spirit realm, Tang Huan had already killed Tie Zhongqian who had defeated Luo Tong who had also used the Rank Three True Spirit. Now that Tang Huan had already stepped into the Rank Two True Spirit, his strength would definitely far surpass that of the past, and it wouldn't be difficult for him to defeat Lei Bao.

"Brat, come out!"

After a few steps, Lei Bao stopped, he was like a hungry and bloodthirsty beast licking his lips, and then crooked his finger at Tang Huan, his face fierce.

Chapter 743 I don't have time to play with you!

"Chen Huan, ignore him!"

The corner of Tang Huan's mouth lifted slightly. Just as he was about to move, Li Tian'en had already walked forward with large strides to stand in front of Lei Bao, but his eyes were staring at Pu Han and as he sneered, "You two have a good plan. If you really want to spar, then I will accompany you.

Not long ago, Hu Kai had quietly mentioned to him about the process of Tang Huan joining the party.

When Pu Han, Lu Yi and the others first came over, he did not think too much about it, but when Lu Yi mentioned Tang Huan, he immediately understood his intention. Although Lu Yi's cultivation was high, but he was always vengeful, and had been humiliated while recruiting for Tang Huan, and was not to be let go?

Since Lu Yi was a cultivator of the Rank Four True Spirit, it was naturally embarrassing for him to fight against it himself. Hence, he sent Lei Bao out to fight. If they were to really fight, Lei Bao would definitely not fight in an orderly manner, and would instead go all out, and heavily injure Tang Huan.

Since they could see through Pu Yang and Lu Yi's plans, how could Li Tian'en let them succeed?

Pu Han did not reply Li Tian'en. Instead, he looked at Tang Huan in the blink of an eye and mocked: "Chen Huan, do you really plan to act like a coward and hide behind your team leader?"

Lu Yi smiled as he looked at Tang Huan, and said: "After all, this is a specially recruited Clan Guardians, it definitely cannot be compared on the same level as us Clan Guardians s who have

only joined the Tiger Clan after passing the general elections. All of us have been through hundreds of battles, so we are naturally not afraid of any challenges. Clan Guardians who are specially recruited have never been tested like this, so it is normal for us to be a little bit timid.

"Yes!" "Yes!"

"If you don't even dare to accept the challenge from a cultivation realm opponent, then what kind of Clan Guardians are you? You should go home and give birth to a child as soon as possible!"

"Tiger Clan should have their spot cancelled, recruiting this kind of cowardly fellow, simply ruining our Clan Guardians's reputation."

"..."

The crowd around Pu Han and Pu Han echoed his words, laughing without restraint.

Team 50's cultivators all had gloomy expressions. Pu Han and Lu Yi had truly played a beautiful hand.

Even if they were clear about their goal, it was impossible for Clan Guardians s with a little blood to pretend that they didn't hear it. In Wind God Valley, even if they knew that they would suffer a crushing defeat when facing a challenge, they could not avoid battle. It was precisely because of this that Pu Han and Lu Yi were fearless.

For a moment, Hu Kai, Luo Xingkong and the others scolded Pu Han and Lu Yi for being despicable and shameless, and their eyes were filled with unconcealable worry.

Li Tian'en also frowned, somewhat hesitating.

This time, if Tang Huan really avoided the fight, even if it was because he blocked it, it would be very difficult for him to raise his head up from now on in the Wind God Valley.

The surrounding team members also started to watch with interest as one after another gazes fell on Tang Huan, as if they wanted to see what choice he would make.

If he accepted the challenge, not only would Tang Huan have a slim chance of winning, he would also be severely injured by Lei Bao. Of course, if Tang Huan avoided battles wholeheartedly, it was true that no one would be able to force him. However, with his status as a Clan Guardians, he would be easily criticized by others, and if this happened again, he would be pointed at by others in the future.

"Whoosh!"

Under the crowd's gazes, Tang Huan's footsteps suddenly moved, he appeared by Li Tian'en's side, two pairs of eyes looked at Pu Han and, and with a smile that was not a smile, he said: "It took so much effort for you two, forget it, I will just play with this guy, as you wish."

"Chen Huan, you ..."

Li Tian'en was rather hesitant, but before he could finish, he was cut off by Tang Huan smiling.

"Captain, there's no need to worry, it's just a clown, I'll first send him off, then we can discuss the mission properly.

"Huh?"

, Lu Yi and the others, as well as the surrounding cultivators, were all stunned for a moment.

This Clan Guardians of the Rank Two True Spirit was actually so arrogant?

Lei Bao was strong, and had already surpassed normal Rank Three True Spirit cultivators, but to think that such an expert was seen as a clown?

"Chen Huan, you dare to underestimate me!"

Tang Huan's words were so angry that even his nose was smoking. Right now he was like a lion who had been thoroughly enraged, staring at Tang Huan with its two large eyes, as if he wanted to punch him to death.

"Underestimating? I'm just stating a fact. "

The corner of Tang Huan's mouth curled up slightly. With a light smile, he walked forward step by step. "Lei Bao, hurry up and make your move.

"You ..." Lei Bao's face suddenly changed.

"Lei Bao, don't be angry, since he is so impatient, you should properly entertain him!" Lu Yi's cold laughter came out.

"Yes sir!"

Lei Bao came to his senses and took a deep breath, then laughed sinisterly. "Chen Huan, my hospitality will definitely be something you will never forget for the rest of your life!"

Just as the sound of his voice faded, Lei Bao roared, he leaped forward and directly smashed his palm towards Tang Huan. Lightning snakes coiled around his fingers, Strength Qi whistled, and a berserk Qi engulfed the area, even if it was a mountain peak, it would still be smashed apart by that palm.

"You're thinking the same thing as me!"

Tang Huan slightly raised his brows, and his body was like a flowing light as he explosively shot forward.

Li Tian'en's lips slightly moved, as if she wanted to say something. But before she could speak, she was pulled by Hu Kai.

Looking at Tang Huan's figure that was as fast as lightning, Hu Kai was suddenly filled with anticipation. At first, he, like Li Tian'en and the others, were also shocked by Tang Huan. But very quickly, when he thought about how Tang Huan had entered the Middle Section of Spiritual Soul Cave and stayed there for a period of time, a different thought flashed through his mind.

"Hu!"

After a moment, Tang Huan had already raised his right fist, and like a cannonball, he welcomed Lei Bao's huge palm with a wild roar.

The Strength Qi was hidden, but Tang Huan's fist seemed to contain a terrifying and hot energy that was surging inside it, to the point that the skin of his right hand was a deep red, as though what was thrown out was not a fist, but an active volcano that could erupt with endless power at any time.

"Lie down!"

Lei Bao let out a heaven-shaking explosive roar, and his widened eyes contained unconcealable contempt and disdain. Almost in the next instant, his palm smacked down on that fist. Tang Huan's eyes flashed with ridicule, and the power within the fist immediately erupted.

"Bam!"

A deafening explosion suddenly sounded out, and even the entire space seemed to tremble violently. The instant the fist and palm collided, a wave that could be seen with the naked eye spread out rapidly. The Strength Qi surged crazily, and seemed to set off a violent storm.

Chapter 744 - Three Fist!

"En!"

Lei Bao could not help but let out a stifled groan as his face greatly changed. The immense power gushed out from his fist caused his entire arm to instantly become numb and it bounced up high without his control. The terrifying heat contained within that power also made him feel as if his palm was about to melt.

How could this bastard's Genuine Qi be so tyrannical?

Lei Bao didn't dare believe it, but before he could even react, he heard an extremely ear-piercing whistling sound. Yet another bright red fist rushed over from the front with a speed that reached the extreme, leaving him no time to block or dodge.

"Aooo!"

Lei Bao clenched his teeth and roared loudly. The Dantian was pushed to its limits, and many electric snakes as thick as a thumb roared out from his body. They crisscrossed in front of him and quickly condensed, turning into a thick purple barrier that flickered with light.

An instant later, Tang Huan's fist had already imprinted itself onto the purple barrier.

"Bam!"

In the midst of the loud noise, a terrifying power exploded out crazily like a collapsing dam, as though it was destroying everything in its way. In the blink of an eye, the purple wall was completely torn apart, and Tang Huan's fist struck ruthlessly at Lei Bao's abdomen. Ghost Gate

"Oh!"

Lei Bao's face contorted and his eyes bulged. Like a giant shrimp, his huge body was bounced up into the air as an indescribable pain spread out instantly, causing him to feel as if his intestines were shattered into countless pieces.

But, before he could even catch his breath, Tang Huan had risen into the air.

"Hu!"

Another fist struck his abdomen, and Lei Bao didn't even have the time to let out a groan this time. His body that had just used up all of its momentum rose several tens of meters before plummeting down from the skies like a meteor. He actually didn't struggle at all;

"Plop!"

In the blink of an eye, the sound of a heavy object landing on the ground resounded through the air. The moment the voice disappeared, the round table fell into a deathly silence. Looking at Lei Bao who was lying on the ground like a dead dog, everyone was dumbstruck, unable to believe their own eyes.

Lei Bao, who had already defeated a lot of Rank Three True Spirit experts, was actually killed by a Rank Two True Spirit guy in just three punches?

This Clan Guardians that was specially recruited, was actually this powerful?

"Well done!"

After a while, a burst of laughter suddenly broke the tranquility of the place, and it was actually Li Tian'en who gave a tight slap, her pale face had a surprised smile plastered across it.

Hu Kai who had been awakened, could not help but grin.

This time, he really picked up a treasure! Although Lei Bao did not use a weapon, the "Chen Huan" also did not use a weapon. Under the situation where he was unarmed, if he could knock Lei Bao out with three punches, with a weapon in hand, wouldn't "Chen Huan" be even more powerful?

Squad 50, Luo Xingkong, Tong Ge and the others were not only shocked, but also grinning from ear to ear. Compared to them, Chen You was a little surprised. She never thought that Tang Huan would lose, but she never thought that the battle would end so quickly.

"He actually lost just like that?"

The reason why they let Lei Bao and Tang Huan spar was because they had complete confidence in Lei Bao. However, the final result caused the two of them to be splashed with cold water, and made them so stifled that they wanted to vomit blood.

The rest of the members around the two and the surrounding Clan Guardians were all completely shocked.

It was one thing for Lei Bao to lose, but he lost so quickly, and from start to finish, it only took two or three breaths of time.

"Where did this kid come from?" With only a cultivation of Rank Two True Spirit, you are already so powerful? "

"Chen Huan? Chen Huan... Heavy ... In our western region of Firing Dragon Mountain Range, you have such a surname? "

"If I remember correctly, there seems to be a Chen Village."

"Lei Bao has lost a lot of face this time, he actually lost in such a pathetic manner."

"..."

Whispers could be heard from time to time, either guessing at Tang Huan's origins, or curious about his strength, or sympathizing with his encounters.

"He really is a clown." Everyone had different expressions, but Tang Huan merely glanced at Pu Han and Lu Yi, and turned to leave.

"Halt!" Lu Yi suddenly shouted out as he gnashed his teeth.

"What is it? You want to spar with me personally? "

Tang Huan turned his head to look, and seemed to laugh indifferently. Facing this Rank Four True Spirit Ranker, his expression did not contain the slightest bit of fear.

"You ..."

Lu Yi's face was unsettled.

Of course it would be inconvenient for him to personally go down and teach Tang Huan a lesson. With his strength, even if he won against Tang Huan of the Rank Two True Spirit, there was nothing to be proud of. However, if he lost to Tang Huan or only fought to a draw, then in the future, he would not have the face to meet anyone in the Wind God Valley.

But how could he be willing to let Tang Huan go like this?

Originally, he wanted Lei Bao to give him a deep lesson, to the point where he jumped out of his chest. However, he didn't expect that Lei Bao would actually become the stepping stone for his opponent's fame. After this battle, forget about the other Clan Guardians s, even Clan Guardian Commander Hu Xiao himself, had probably looked up to him.

"Haha, Captain Li, congratulations."

Just when Lu Yi was at a loss for words, Pu Han opened his mouth and said with a dark face and a fake smile, "Your team actually found such a powerful expert. "Today's time is very urgent, so we will not delay any longer. Once we complete our mission, we will come back to seek advice."

"At any time!" Li Tian'en snorted.

"Let's go!"

Pu Han swept Tang Huan with two ice-cold eyes, waved his hand, and turned around. Lu Yi also coldly swept a glance at Tang Huan, signalling two members to lift Lei Bao up, and quickly left as well. As soon as they left, Tang Huan was actually surrounded by Hu Kai and the others, and started to laugh merrily.

"This kid is quite interesting."

On the second floor of the great hall about a hundred meters away from the round table, Hu Xiao stood in front of the window, narrowed his eyes and muttered softly.

Not long after, the round table with Pang Shuo completely disappeared and was completely silent.

At the entrance of the Wind God Valley, the Clan Guardian Group left in a wave.

After approximately an hour, Hu Kai, Tang Huan, Chen You, Luo Xingkong and the others all arrived at the entrance of the valley one after another, each of them carrying a small bag and their usual weapons. Even Tang Huan took the opportunity to summon his Conqueror Spear when he returned to his courtyard.

Li Tian'en was the last to appear.

Other than his weapon and bag, he was also carrying a black wooden chest that was about one foot long and wide. The material of the box seemed to have surpassed the "Absolute Spirit Tree" that Tang Huan was familiar with, and not a single trace of aura was leaking out. Reportedly, it contained something to lure the "Wind-bell Flamingo".

After a while, under Li Tian'en's orders, Squad 50 left the city south ...

Chapter 745 - Red Glow Fire Crystal

It was late in the evening, and the setting sun was as red as blood.

In the midst of the lush forest concealed twenty figures, which were Tang Huan, Li Tian'en, Hu Kai and the rest.

It took them five whole days to get here.

"The 'Wind-bell Flamingo' should be moving soon."

Li Tian'en instructed softly as he stared at the huge pit in front of him that was a thousand meters away. The hole was bright red and extremely deep. It seemed to be filled with heat as it continued to rise. The area within ten meters of the hole was completely barren.

"Ding Ding!" "Ding ding..." Not long after that, a loud sound came out from the hole. It sounded like a jade plate that had fallen from the sky.

"He's here!"

Everyone's spirits were lifted as they held their breath.

Moments later, a red figure flew out from the hole. It was a huge, fiery-red bird with a slender neck and a large, sturdy body. There was not a single trace of other colors on its body. On top of its head was a fist-sized, round crown of flesh, inside which were the blood droplets that were to be collected during the mission.

After capturing "Wind-bell Flamingo" alive, you can cut open the crown of flesh and obtain the drop of blood. After the wound healed, in another five or six years, new blood droplets would appear.

Not long later, several hundred "Wind-bell Flamingo" appeared high in the sky.

"Ding ding ~ ~"

With a clear bird cry, three fiery red figures suddenly dove down from the summit where Tang Huan and the rest were.

At this moment, there were several pebbles scattered across the empty space between the trees. Each of them was a captivating red like fire and as big as a fist.

Inside the stone, there seemed to be clouds floating about and a scorching aura was constantly seeping out.

They were "Red Glow Fire Crystal", a type of crystal grown in an extremely hot place. They had a fatal attraction to "Wind-bell Flamingo".

Every time they executed a mission like this, they would need to prepare dozens of "Red Glow Fire Crystal", and in the end, there were less than ten left.

"Hu!"

The three "Wind-bell Flamingo s" were extremely fast, and in an instant, they were only a hundred meters away from the peak.

Everyone was focused and did not dare to make the slightest sound. They had to take action the moment the "Red Glow Fire Crystal" was swallowed by the "Wind-bell Flamingo". If eaten, the "Red Glow Fire Crystal" would quickly melt. Even if he killed the Flamingoes, it would be impossible to take it out.

"Ding ding ~ ~"

But just when everyone was waiting for the "Wind-bell Flamingo" to tear open the branches above the "Red Glow Fire Crystal" and throw themselves into the forest, the three fiery red figures suddenly changed their direction and shot into the sky, leaving behind a string of extremely clear cries, causing everyone to stare at each other in the forest.

Li Tian'en did not say anything, but signaled everyone to stay calm, and then continued to lurk around.

"Ding Ding!" "Ding ding..."

After the time of about ten breaths, the clear and melodious shout came closer, there were also fiery red figures approaching, and one of them was actually ten 'Wind-bell Flamingo'.

However, the scene from before replayed itself very quickly.

Those "Wind-bell Flamingo" also flew past the peak of the mountain at a high speed, about a hundred meters away from it, and soon after, reached a thousand meters in the air.

It would have been fine if it was only one or two times, but not long after, this kind of scene occurred more than a dozen times. The descending "Wind-bell Flamingo", or two, or even dozens of them, were actually able to resist the enticement of "Red Glow Fire Crystal".

Luo Xingkong, Tong Ge and the other old members were still able to maintain their composure, while some of the new members of Team 50 were unable to keep their cool.

And after this kind of situation had occurred dozens of times in a row, even Li Tian'en and Hu Kai began to worry.

Tang Huan and Chen You couldn't help but look at each other. On the way here, they had heard Li Tian'en and the others repeatedly say that the "Wind-bell Flamingo" was extremely intelligent and vigilant.

"Ding ding ..."

At least a hundred "Wind-bell Flamingo" came rushing down, as they flapped their huge wings. As the strong wind blew past, the sky was filled with fallen leaves, and all the trees on the mountain were falling in the same direction. The "Red Glow Fire Crystal" on the ground was also blown away.

"Aiya!"

One of the members at the peak of Heavenly Domain could not help but exclaim softly when he saw this. Subconsciously, he rushed out from his hiding spot, soared into the air, and grabbed those "Red Glow Fire Crystal" one by one. Almost at the same time, the hundred over "Wind-bell Flamingo" drew an arc in the air as they rapidly climbed.

The moment the member fell to the ground, he seemed to have realized something and stood there, stunned.

"I've been exposed!"

Hu Kai punched the ground and jumped up gloomily. Li Tian'en and the rest also came out from their hiding spots. It was also at this moment that almost all the "Wind-bell Flamingo" flew over. They were happily playing and crying in the air with deafening sounds at a thousand meters high in the sky.

Everyone's faces darkened. They were actually mocked by the group of vicious beasts.

"Yes. 'I'm sorry...' The team member drooped his head, feeling incomparably guilty.

"No need to blame yourself, you can't be blamed for this."

Li Tian'en smiled bitterly and waved his hand, consoling them, "Even if you didn't intervene, I would have done so later. If not, these 'Red Glow Fire Crystal' would have been eaten for nothing by the 'Wind-bell Flamingo' very soon, I never thought that these fellows would be so vigilant and smart."

Even though he said that, there was a trace of regret in his eyes.

Hearing that, Tang Huan could not help but say: "Captain, they should have already discovered that there is a trap down there."

"Oh?"

Li Tian'en was startled.

Tang Huan muttered to himself, "When Ban Lei appeared to collect the 'Red Glow Fire Crystal', the group of 'Wind-bell Flamingo' above did not panic at all. It is likely that they already knew that someone was hiding here."

"After hearing what you said, it's true."

Li Tian'en frowned, "About ten years ago, a small team once came to this place to collect Flamingo Blood Beads. It seems that they still remember it."

Lifting his head to look at the "Wind-bell Flamingo" that was circling in the sky, Li Tian'en said somewhat helplessly, "Everyone, we need to change locations."

"You want to go to Dragon's Valley?" Hu Kai hesitated.

"We can only go there." Li Tian'en sighed, "The 'Wind-bell Flamingo' in other places have all had their blood collected, so I am afraid it will be difficult for us to obtain them again. Even if we are able to succeed a few times, without a year of time, it would be very difficult to complete this mission. "

Everyone was helpless.

There were only two locations where blood droplets had not been collected. The first place was the "Wolong Valley" that Li Tian'en and Hu Kai had spoken of, and it would take at least twenty days to reach the "Wolong Valley" from there. There was another place where even a month of travel might not be enough. The most important thing was that these two Flamingoes nests were deeper inside the Firing Dragon Mountain Range, and were both extremely dangerous.

"Captain, we're not at that stage yet."

Tang Huan's eyes flickered, then suddenly said, "I do have a method that might be able to help us gather enough Flamingo Blood Beads here."

Chapter 746 - One Pot!

"Whoosh!"

After a moment, a figure suddenly flew through the lush leaves and branches of the mountain peak and into the sky.

This man was Tang Huan, the wings formed from energy flapped frantically in accordance to a strange pattern, the speed, had already reached an extremely inconceivable level.

"So fast!"

At the top of the mountain, Li Tian'en, Hu Kai and the rest all jumped onto the tree as they cried out in alarm.

Although she knew that Tang Huan had the ability to fly, she never thought that Tang Huan's speed would be able to reach such a level.

In the blink of an eye, Tang Huan was already less than a hundred meters away from the group of "Wind-bell Flamingo".

"Ding ding, Ding ding ..."

Those Flamingoes knew that the cultivators below did not have the ability to fly, which was why they fearlessly circled the sky, but they did not expect such an unexpected turn of events. After staring blankly for a while, they suddenly woke up. They all screamed as they fell into chaos.

"Hu!"

But just when they were about to flee all over the place, Tang Huan had already rushed into the group of cranes with lightning speed. A wave of exceptionally terrifying pressure pervaded in all directions and actually condensed into a substance, and in an instant, covered a radius of several hundred metres, including all the Flamingoes.

After stepping into the True Spirit Level, the spirit pellet had become a True Spirit, and the Heavenly Domain had transformed into an invisible pressure, causing the pressure to become even stronger.

In an instant, the entire space seemed to have frozen.

The strongest of the several hundred "Wind-bell Flamingo" was only at the peak of the Heavenly Domain, they simply could not withstand the pressure that came sweeping in from all directions. In the next moment, every Flamingoes seemed to have a giant boulder pressing down on their back, as their bodies couldn't help but sink down towards the peak.

Tang Huan's wings slightly contracted, as he too, floated downwards.

"Ding ding ..."

The sharp bird cries resounded in the sky, and the hundreds of Flamingoes were all terrified, they flapped their wings with all their might, and even tried to activate the Heavenly Domain, hoping to escape the restraints of the pressure, but to no avail. They could only watch as they got closer and closer to the summit.

Standing on the branches, Li Tian'en and the others were all dumbstruck.

The group of Heavenly Domain Cultivators in particular were so shocked that their eyeballs almost popped out of their sockets. At the beginning, they had thought that Tang Huan had flown high up in the sky and captured "Wind-bell Flamingo" one by one.

So this was how it could be played!

"The coercion released by Brother Tang Huan is actually this powerful!?"

Li Tian'en was amazed.

Previously, when he had used "Red Glow Fire Crystal" to lure the Flamingoes, it was not as if he had not thought of such a method, but on one hand, he was worried that if he captured a few Flamingoes, they would scare the rest away, and on the other hand, those Flamingoes were too far away from the ground, and were also a little high above it. He was not completely sure, but maybe when he released his pressure to its limits, those Flamingoes had already escaped the area of effect of the pressure.

"Not only is it strong enough, its speed is also fast enough. The range is huge enough!"

Hu Kai was also extremely shocked.

He secretly compared Tang Huan's performance with the might he could unleash and realised that no matter what, he was inferior. At this moment, he even felt that if he were to spar with Tang Huan, he was ninety percent the one who lost.

As expected of a fellow who could enter the middle section of the "Spiritual Soul Cave" to cultivate right now!

"Pah!" "Pah ..."

After a short moment, an ear-piercing explosion sounded and more than a dozen "Wind-bell Flamingo" had already descended onto the mountain peak at the same time, breaking many tree branches.

"Hurry up!"

Li Tian'en shouted, and with a movement of his figure, he appeared beside a "Wind-bell Flamingo". The fierce beast could no longer resist and immediately had its head grabbed by Li Tian'en. His finger was like a blade, slashing across the red crown, and then, with a light squeeze, a red bead appeared in his hand. It was about the size of a walnut, it was round and shiny like a gem.

Putting the blood droplets into the cloth bag tied to his waist, Li Tian'en rushed towards another Flamingoes without stopping in his steps.

Hu Kai and the rest also started to act as if they had just woken up from a dream.

In just a few breaths of time, all of the several hundred Flamingoes had landed on the mountain peak with Tang Huan following closely behind. He did not make a move, but instead stood quietly, controlling the terrifying pressure that enveloped all the Flamingoes within, preventing it from disturbing Chen You and the other Heavenly Domain Cultivator.

Using this kind of method to collect Flamingo Blood Beads, Tang Huan was also somewhat forced to do so.

If he could use a "Red Glow Fire Crystal" to lure enough "Wind-bell Flamingo" with a relatively fast speed, Tang Huan did not plan to show off like this.

Unfortunately, Li Tian'en's plan failed.

This was what Tang Huan didn't want to see the most. Although he had joined the Tiger Clan, he didn't want to be restricted by the Tiger Clan for too long, and if he wanted to become a Guardian within two or three years, he needed to squeeze out as much time as possible to cultivate.

If he were to quickly complete the mission like this and return to the Wind Howling City earlier, he would not need to carry out the mission for at least two months and would be able to train as much as he wanted. Of course, this was also because the matter of being able to condense wings was already known to Yuan Kun.

Otherwise, Tang Huan probably would not have made his decision so quickly.

"Whoosh!" "Whiz ..."

"Ding ding ..."

The sound of clothes tearing through the air and the cries of Flamingoes rose and fell at the same time. Li Tian'en, Hu Kai and the other nineteen people moved and jumped at the peak, continuously collecting the beads of blood.

"Brother Tang Huan, you can let them all go."

Not long after, Hu Kai's carefree voice resonated outwards.

Tang Huan smiled slightly. In an instant, the True Spirit had already calmed down inside the Dantian. The terrifying pressure covering the area within a few hundred meters instantly vanished without a trace. The group of Flamingoes felt as if their bodies had lightened, and they immediately fled into the sky while screaming in pain. Although they knew that their lives were not in danger, they did not dare to stop. Before long, hundreds of figures had drilled into the huge hole.

At the peak of the mountain, Li Tian'en and the other nineteen people had already gathered around Tang Huan.

"Haha, cool!" This is f * cking great! " "In the past, catching a Flamingoes was already extremely difficult. But now, in just that little bit of time, I have collected thirty Flamingo Blood Beads!"

"This is all thanks to Brother Tang Huan!" Li Tian'en also squinted his eyes, his face full of smiles.

"This time, we've collected a few hundred 'Flamingo Blood Beads'. We guarantee that we'll be able to scare those fellows in Wind God Valley so much that their eyeballs will fall out."

"Brother Tang Huan is truly amazing."

"With so many 'Flamingo Blood Beads', to be able to obtain such a large amount of contribution, our team's ranking will definitely increase by quite a bit."

"..."

Luo Xingkong, Tong Ge and the others were also beaming with joy, beaming with joy.

Chapter 747 - Excess Reward

"Congratulations everyone!"

Five days later, in the early morning, a middle-aged man with a friendly face was looking at the twenty Clan Guardians in front of him with a smile. He said in a satisfied voice, "The mission of your group thirty-six has been completed very well."

The middle-aged man was called Hu Yue, Clan Guardians Manager, and he specialized in various tasks related matters.

"Alright, thank you Manager."

A sturdy man cupped his hands and smiled at Hu Yue, and then waved his hand, "Brothers, let's go, go back and have a good rest."

"Gone, gone!"

"This mission is relatively easy. It'll be completed in ten days."

"..."

Just as the twenty people were about to leave the main hall, they all stopped in their tracks with expressions of uncontrollable astonishment on their faces. At this moment, on the stone path that was tens of meters away from the main hall's entrance, twenty figures were rushing over at lightning speed.

"Li Tian'en?"

The short, stocky man muttered, "Strange, why would they be back so soon?"

The people who suddenly appeared were members of Squad 50, Li Tian'en, Tang Huan and another twenty. In the blink of an eye, they were already at the entrance of the palace.

The short guy rolled his eyes, he could not help but let out a laugh, and joked: "Captain Li, for you to return to Wind God Valley so quickly, is it because you failed your mission? If you are willing to transfer 20,000 to 30,000 contribution points, our team would be happy to help."

Captain Qiu Fu, thank you for your good intentions, but, there's no need.

Li Tian'en raised his eyebrows, laughed, and strode into the palace, passing by the short and stout man, "Manager Hu Yue, turn in the mission!" After he finished speaking, the black wooden chest in his hand landed on the stone table in front of Hu Yue with a bang.

"Submit a quest?" Am I hearing things? "The short sturdy man named "Qiu Fu" gasped, and then scratched his ears, thinking that he had misheard.

"What kind of joke is this? It's only been ten days and they've already completed that mission?"

"If I remember correctly, their mission is to collect a hundred 'Flamingo Blood Beads'. It would take ten days to travel from the Wind Howling City to the nearest Flamingoes's lair. In the past, they would need a few months to collect a hundred "Flamingo Blood Beads". But this time, they do not need to use it for a day? "

"..."

The other members of Squad Thirty-Six were also in disbelief.

As the grumbling sounds of the surroundings entered their ears, the faces of Hu Kai, Luo Xingkong, Tong Ge and the others tensed up. They did not make a sound, but the pride between their brows

could not be hidden no matter how hard they tried. Seeing their expressions, the sturdy man Qiu Fu and the rest were even more confused.

"Your mission has been completed?" Hu Yue was also shocked.

"Manager, you can tell at a glance!"

Li Tian'en laughed and pointed to the wooden box.

Hu Yue was skeptical, but with a clatter, he opened the lid of the wooden chest. At the bottom of the box were a few "Red Glow Fire Crystal" and a large cloth bag. After just a brief count, Hu Yue had discovered that the "Red Glow Fire Crystal" Li Tian'en had received from this place ten days ago was not the least bit lacking.

Suppressing the shock in his chest, Hu Yue opened the cloth bag and poured out the contents inside. Sparkling, jade-like, blood-red beads poured out one after another, covering all of the "Red Glow Fire Crystal" at the bottom of the box in an instant.

"Hiss!"

Regardless of whether it was Hu Yue, Qiu Fu or the others, they were all shocked speechless. Gasps sounded one after another, and the number of "Flamingo Blood Beads" in the box was at least four to five hundred.

Ever since Tiger Clan first refined the "Mighty Star Restoration", the mission to collect the "Flamingo Blood Beads" had been announced ten times, with only a hundred and fifty of them being collected the most. At other times, when he had obtained enough blood droplets, he would quickly return to the Tiger Clan. After all, this mission wasted too much time and energy. But this time, the amount of blood droplets collected by Squad 50 was three times the maximum.

Where did these fellows get so many "Flamingo Blood Beads"?

What was even more outrageous was that Team 50 didn't spend much time collecting the four to five hundred Flamingo Blood Beads, they didn't even spend a day collecting them! Or could it be that they found a new Flamingoes lair closer to him? This did not seem possible, if there was a new group of cranes near the Wind Howling City, it would have been discovered long ago.

Sensing Hu Yue and the rest's expressions, everyone in Squad 50 laughed, as if they had just drunk nectar, and felt all thirty-six thousand pores on their bodies expand, from head to toe, all the previously oppressive and stifling atmosphere seemed to have been swept away.

Seeing Hu Kai and the others being so cocky, Tang Huan could not help but laugh.

"Manager Hu Yue, please count!" Li Tian'en lightly coughed, and reminded her.

"Oh? "Oh!"

As if he had awoken from a dream, Hu Yue hurriedly suppressed the shock in his heart and quickly began to count. Not long later, Hu Yue couldn't help but exclaim, "'Four hundred and eighty-eight Flamingo Blood Beads'!"

"Four hundred and eighty-eight?"

Qiu Fu's heart twitched. Although he had expected it, but when he heard the figure coming out from Hu Yue's mouth, he still couldn't help but exclaim out loud, "Brother Li, Big Brother Hu (Tiger),

how did you do it?" This was close to five hundred blood droplets. Not to mention their group thirty-six, even if they were to send out their entire True Spirit-level Experts's number one team, they would probably need more than a month to collect so many blood droplets.

"Guess!"

Hu Kai laughed.

Guess your mother!

Hearing Hu Kai's words, Qiu Fu's face turned black, he could not help but curse at the bottom of his heart, but Hu Kai obviously did not want to reveal it, so he could only call for help.

However, Li Tian'en didn't pay attention to Qiu Fu. Instead, he asked Hu Yue: "Manager Hu Yue, how many contribution points did our team receive this time?"

Hu Kai, Luo Xingkong and the rest all looked at Hu Yue.

Tang Huan was also quite looking forward to it.

As far as he knew, the amount of contribution points awarded for such missions was not constant. Just like collecting "Flamingo Blood Beads" and completing the collection of a hundred blood droplets, one could earn twenty thousand contribution points. This number appeared to be twice the reward for the mission of Squad Thirty-six. However, if there was a choice, any team would be willing to execute the mission of Squad Thirty-six and not collect the 'Flamingo Blood Beads'.

After all, the latter would take too long, and the gains wouldn't make up for the losses.

However, if he could exceed the limit and complete the mission, he would also receive a similar excess reward.

Hu Yue let out a long sigh, and the smile on his face seemed to be about to spill out: "Completing the collection of a hundred 'Flamingo Blood Beads', will give me twenty thousand contribution points. He had collected 200 Blood Beads, and his reward was doubled, so he could earn another 40,000 contribution points. After collecting three hundred Blood Beads, the reward is doubled and you'll get another eighty thousand contribution points. "

"Wait and see. If you collect four hundred Blood Beads, you can earn another one hundred and sixty thousand contribution points. If you collect five hundred Blood Beads, you can earn another three hundred and twenty thousand contribution points. "Although your team still lacks twelve blood droplets to reach five hundred, this difference can be completely ignored. I believe that no one will object."

Now it seemed like he could rate the book. He first entered the circle of books, then clicked on "The Book: Master of Weapons" in the upper left corner and entered the first page of the novel. His friend who liked the book helped him to give him a five star rating.

Chapter 748 - Tiger Crouching

"A total of 620,000?"

Qiu Fu quickly added it and couldn't help but scream out.

The members of Squad Thirty-Six beside him were also dumbfounded, their eyeballs bulging out of their sockets. Hu Kai, Luo Xingkong and the others, after being stunned for a moment, were wild

with joy. They were so excited that their faces were flushed red, and even their breathing had become a little hurried.

Even the pale face of Li Tian'en, the captain of Squad Fifty, had a faint flush to his face.

"So many contributions!"

was also secretly surprised, for a small team that could finish a quest extremely quickly, Tiger Clan would always reward them generously, but for a quest that originally only had a mere twenty thousand rewards, the reward's contribution points suddenly increased to six hundred and twenty thousand, this was indeed very scary.

"Manager Hu Yue, if we collect a few hundred more blood droplets, wouldn't we receive a few million in rewards?" Tang Huan could not help but ask.

"For all the missions, 1 million reward is the cap." Hu Yue laughed.

"A million is not bad."

Hu Kai laughed until his entire face became a big bun. He rubbed his hands and said, "Manager Yue, if we go and collect more 'Flamingo Blood Beads', can we get a reward?"

Hearing his words, the eyes of Tang Huan, Li Tian'en and the rest lit up, many of them wanting to move, Qiu Fu and the others also pricked up their ears, staring straight at Hu Yue.

If the reward of one million was sealed to the top, six hundred Flamingo Blood Beads would be enough for it to be collected at a time.

If Hu Kai could complete this idea, he could go through all the known Flamingoes s' lairs and at least obtain tens of millions of contribution points.

However, on second thought, it seemed unlikely.

He could not keep the "Flamingo Blood Beads" for too long. If he could not keep up with the refining speed of the "Grand Star Pellet", it would be a waste to collect too many blood droplets.

"You think too much."

Sure enough, Hu Yue rolled his eyes at Hu Kai in annoyance, "The 'Flamingo Blood Beads' does not compare to medicinal herbs or gems. Even if there is no mission for these two things, once you find them and hand them in, you will be rewarded.

"What a pity."

Tang Huan, Li Tian'en and the others all felt extremely regretful.

If he had known earlier, he would have gone to the Flamingoes's lair and collected more blood droplets. That way, he would have received the highest amount of one million contribution points, but it was too late now.

When Qiu Fu and the others heard this, they secretly heaved a sigh of relief. Squad 50 obtaining over six hundred thousand contribution points in one go was enough to make them so jealous that their eyeballs turned red. If they were to use this method to obtain over ten million contribution points, then they wouldn't be able to let the other squads live.

"Oh, they can make it to 16th place!"

Moments later, a cry of surprise attracted everyone's attention, and soon after, everyone's gazes landed on the white monument inside the hall.

On the body of the tablet, it was carved with the Clan Guardian Group s of the Clan Guardian Group.

Currently, Squad One was ranked at the top of the leaderboard with three million contribution points, while Squad Fifty was ranked at the bottom with over thirty thousand contribution points. But if we add in the current six hundred and twenty thousand contribution points, he would immediately climb to the sixteenth place of the Contribution List s with over six hundred and fifty thousand contribution points.

Under normal circumstances, if there was a change in the number of members or contributions to a party, Hu Yue would update the list once every five days. As for the amount of contribution points each team would contribute, they would be counted again by the end of the year.

"Haha, we don't need to be at the bottom anymore."

"Right now we are ranked 16. Even if all the teams return after completing their missions, we will definitely be in the top 20!"

"Let's see who dares to look down on us from now on."

"..."

Many members of Squad 50 were beaming with joy and feeling extremely excited.

Seeing that, Hu Yue also laughed, and then said: Everyone, congratulations on obtaining so many contribution points in one go. Based on the current amount of contribution points you have, your party can go to the 'Tiger Crouching' to collect one hundred and twenty 'Initial Spirit Heavenly Crystal' to choose a cultivation technique or battle skill book from the first floor of the 'Tiger Might Hall'.

According to the rules of the Tiger Clan, every 100 thousand contribution points Clan Guardian Group received 20 Initial Spirit Heavenly Crystal s, and every 500 thousand, they could choose a cultivation technique or technique.

"Take it!"

Following that, Hu Yue took out two three-finger-wide jade plates from beneath the stone table and handed them over to Li Tian'en.

The jade plates were sparkling and translucent, showing a golden lustre. However, the characters interweaved with patterns were different. One of the words was "Tiger" while the other two words were "Tiger Might". It perfectly matched what Hu Yue had said about "Tiger Crouching" and "Tiger Might Hall".

"Thank you, Manager."

Li Tian'en accepted the jade tablet, and after thanking Hu Yue, he laughed out loud, "Go, let's go to 'Tiger Crouching'!" After a while, a group of people excitedly left the hall.

Watching the group of fifty get further and further away, Qiu Fu and the others were so envious that their saliva almost started to drool.

Counting the new contributions that they had just received, their thirty-six squads only had a total of one hundred and thirty thousand contribution points. They were still quite far from receiving the next "Initial Spirit Heavenly Crystal", and even more so, far from entering the five hundred thousand contribution points that they needed to enter the first level of the "Tiger Might Hall".

Damn it, what kind of luck did these fellows have? They actually managed to get their hands on nearly five hundred Blood Beads at one go? Qiu Fu racked his brains, but still couldn't figure it out.

... ..

The Tiger Crouching, on the mountain side north of the Tiger Vigour Summit, was an extremely large palace hall. It occupied a vast area of several hundred meters, and other than an exceptionally majestic main hall, there were also over a dozen side halls. In front of the main hall, there was a huge tiger statue that was dozens of meters tall.

This Tiger Crouching had gathered the majority of cultivation resources from the Tiger Clan, and there were people coming and going every day.

After approximately an hour, when Tang Huan, Li Tian'en, Hu Kai, Chen You and the other twenty people walked out from one of the side halls, almost all of them had joyous expressions on their faces. At this time, a wooden box appeared in everyone's hands. Each box held one hundred and twenty Initial Spirit Heavenly Crystal s.

"Brother Chen Huan, thank you."

Li Tian'en felt the weight on his palm, and said with emotion, "If not for you, our team would have worked so hard to obtain only twenty thousand contribution points. Maybe by the end of the year, we would only be able to gather one hundred thousand contribution points, and would have gotten twenty Spirit Cloud Heavenly Crystals."

Hu Kai, Luo Xingkong and the others also nodded repeatedly with faces full of gratitude. The reason why this mission could be completed so quickly and beyond expectations was indeed all thanks to Tang Huan.

"We are all friends, let's not talk about courtesies. Everyone, let's hurry to the 'Tiger Might Hall'."

Tang Huan said with a smile.

Li Tian'en, Hu Kai and the rest were all very satisfied with the Initial Spirit Heavenly Crystal 'that they received this time, but Tang Huan did not take it to heart. What he was really interested in were the techniques and techniques of the Tiger Clan, as for the 'Initial Spirit Heavenly Crystal ', he still had close to ten thousand of them hidden within his Space Aircraft!

In this period of time, Tang Huan had not tried using "Initial Spirit Heavenly Crystal s" to cultivate, but looking at how Li Tian'en and the others viewed them like they were treasures, he reckoned that they were pretty good.

"Yes, yes, to the 'Tiger Might Hall'."

"..."

"Tang Huan?" "?" "?"

Chapter 749 - Statue Chiming

The distance between Tiger Might Hall and him wasn't too far, only around a thousand meters.

However, the situation between the two was vastly different. The Tiger Crouching was bustling with noise, but the Tiger Might Hall was completely silent. The pavilion was three stories high, and the building was huge. It quietly stood in a small valley, surrounded by huge trees. It was quiet and elegant, serene and solemn.

Separated by a distance of a few hundred meters, Tang Huan and the others, who were previously laughing and laughing, could not help but quiet down.

The further they went, the more solemn and solemn the atmosphere became.

Everyone was silent as they quickly arrived in front of the pavilion. The door opened, and no one guarded the entrance, as if anyone could freely enter or leave the building. However, Tang Huan understood in his heart that the Tiger Might Hall was the most important place in the Tiger Clan's inheritance ability, and not just anyone could casually enter it.

In and out.

This place must have Tiger Clan Warriors guarding it!

Indeed, after following behind Li Tian'en and Hu Kai, the moment he crossed the threshold of the pavilion, Tang Huan saw a rather skinny figure. It was a white-robed old man with a head full of white hair. He sat cross-legged about three to four meters from the door. There was a low table in front of him, which seemed to be carved out of white jade.

The thin old man looked unremarkable, but the aura that faintly seeped out from his body caused one's heart to palpitate. It gave people a feeling of strength that was as majestic as a mountain and as vast as the ocean.

At this moment, although the old man's eyes were closed, the moment they entered Tiger Might Hall, everyone felt a strange feeling of being stared at. However, on the way here, Li Tian'en, Hu Kai and the other old members who had been in the Tiger Might Hall before had all warned them about this.

Li Tian'en gently placed the jade tablet with the word "Tiger's Might" on the table in front of the white robed old man, then bowed to him deeply before scattering.

The interior space of the Tiger Might Hall was circular, with a radius of a few dozen meters.

In the space on the first floor of the pavilion, there were many colourful, humanoid statues arranged neatly. Each statue was around 1.6 meters tall, sparkling and translucent, vivid and lifelike. The auras exuding from the statues were different, be it strong, weak, hot, cold, light, overbearing, or gentle like water, or violent like fire.

Tang Huan scanned through with his eyes, there were at least two to three hundred of these statues.

According to the number of cultivation technique battle skills the statue represented, there were two to three hundred of them. This was only the first and second floor of Tiger Might Hall, adding on the second and third floor, Tiger Clan would have even more battle skills. To be able to become one of the Four Great Clans of the Firing Dragon Mountain Range, he truly lived up to his name.

Before everyone had entered, there were only a few cultivators in the pavilion.

Tang Huan only glanced at it once, and stopped paying attention to it, and started shuttling between the statues.

To Tang Huan, if he really wanted to cultivate, then with his Five Colors True Spirit, he should be able to learn any of the cultivation technique here.

However, since he could only choose one, he naturally had to choose the best.

"This one!"

The excited laughter suddenly resounded in the entire space. It was Hu Kai's fan like palm pressing on the head of a golden statue, following that, a clear buzzing sound came out from the statue's body, strands of golden Qi rose up, quickly condensing into a ball the size of a cherry, shooting towards Hu Kai. In a blink of an eye, it had already entered between his brows and disappeared without a trace.

After Hu Kai, countless people kept on choosing the martial skills they wanted.

"Huh?"

Tang Huan was not anxious at all, walking leisurely to the center of the pavilion, but suddenly stopped in front of a statue, and exclaimed in surprise. This statue was extremely strange. One half of it was pitch black, while the other half was as white as snow. Strangely, no aura was emitted from this statue.

"What skill is this statue hiding?"

Tang Huan was a little doubtful.

With that thought, Tang Huan immediately activated the "Great Harmony Heavenly Classics", and within the Dantian, the "Nine Yang Divine Furnace" and the "Five Colors True Spirit" began to quickly circulate. The Perception Ability instantly raised to the limit, and began to carefully inspect the sculpture. After a moment, Tang Huan's eyes revealed a strange light.

It was not that the statue did not have any aura. It was that the aura it gave off had blended into the surrounding air.

When Tang Huan first condensed the pellet, what he comprehended was the Way of Nature. Now that the pellet had turned into a True Spirit, his comprehension of the Way of Nature had deepened, and he could merge his own body into the surrounding world at any time. If not for that, Tang Huan would never have sensed the presence of the statue.

Amidst the shock, Tang Huan became even more curious and continued to investigate carefully.

Very quickly, Tang Huan discovered the unique part of the statue's Qi. The Qi was actually filled with a sense of harmony between right and wrong, and merged with yin and yang. When Tang Huan's mind was immersed in it, he could even faintly feel that it was resonating with the "Great Harmony Heavenly Classics" he was cultivating.

"I don't know if it's a skill or a battle skill, but there's no harm in choosing it."

Tang Huan squinted his eyes and immediately made a decision.

In the next moment, Tang Huan's right arm raised slightly, his palm pressing onto the head of the statue, following the activation of the Five Colors True Spirit, the vigorous Genuine Qi roared out like a torrent.

"Hmm?"

Beside the door, the white robed old man sitting behind the table suddenly opened his eyes.

The old man looked at Tang Huan with surprise, and a voice that only he could hear sounded out, "This guy actually chose the most powerful technique of the 'Tiger Might Hall', is he trying to test his luck, or did he really sense the difference in the sculpture?"

"This kind of cultivation technique is not so easy to obtain."

The white robed old man's face revealed a slight smile, and his eyes slowly closed again. "Ever since Lord Hu Si obtained this cultivation technique and kept it within his 'Tiger Might Hall', in the past two thousand years, there has not been a single person ..." But before he finished speaking, his eyes that had just closed opened once again, as if he had found something extremely inconceivable.

In front of Tang Huan, the statue seemed to have come to life as black and white lights flashed around it.

"Buzz!"

In a split-second, the sound from the sculpture started to vibrate, gradually increasing in volume from low to high. At the same time, strands of two colored Qi started to rise from the statue, quickly gathering in the air above his head.

"Weng!" "Weng ..."

And it was also at this time that the hundreds of statues in the area started trembling simultaneously. Several hundred notes burst out at the same time, overlaying one another, and immediately formed a huge sound wave that spread throughout the entire first level of Tiger Might Hall. It was extremely deafening.

Chapter 750 - Yin and Yang Void Method

The trembling sound of the black and white statue actually made all the statues in this space cry in unison.

Not only was the first floor of Tiger Might Hall so, even the second and third floors were filled with thunderous sounds, as if the entire pavilion was about to collapse from the thunderous noise.

"This is ..."

The sudden commotion caused Li Tian'en and the others who had yet to leave were greatly shocked. First, they subconsciously looked around, then one after another, their gazes fell on Tang Huan who was in the middle of the pavilion.

What kind of battle skill did that statue contain? How could it cause such a commotion?

After a short moment of surprise, Li Tian'en and the others were extremely shocked and curious, suppressing the strong urge in their hearts to run over and over again, only then did they not run over.

"This kid actually succeeded?"

At the side of the door, the white robed old man widened his eyes as he involuntarily sucked in a breath of cold air, an expression of disbelief on his face.

"What's going on?"

"What's going on?"

"Ssh, it seems like all the statues are ringing..."

"..."

Outside Tiger Might Hall, Hu Kai and the others who had been the first to come out were all startled by the thunderous roar that suddenly came out from the pavilion, and then they stuck their heads out and looked around, all of them bewildered. Since the creation of Tiger Might Hall, there seemed to have never been such a commotion.

A thousand meters away, the cultivators inside and outside the Tiger Crouching also stopped what they were doing, and in the blink of an eye, they all looked towards the Tiger Might Hall.

"It seems to be the voice from the Tiger Might Hall, right?"

"With such a large commotion, could it be that the Tiger Might Hall has collapsed?"

"Impossible, the Tiger Might Hall is the most important place for us Tiger Clan to collect cultivation techniques and battle skills. Even if the Tiger Crouching falls, the Tiger Might Hall will not fall."

"..."

Everyone looked at each other in shock as they muttered.

"Hmm?"

Deep within the Tiger Vigour Summit, inside the cave s, a low cry that was as thin as a mosquito sounded out.

This was a white space that had a radius of over ten meters. The fog churned and a figure was faintly discernable within it. It was a middle-aged man around the age of forty. He wore a green robe, and he was handsome and refined. The elegance of his youth could be vaguely seen between his brows.

"There's actually a later generation kid who obtained the 'Yin and Yang Void Method' that Master had left behind all those years ago ..."

The mumbling sound became weaker and weaker, and after a while, the surrounding mist churned, completely enveloping middle-aged man in purple robe's figure.

"What kind of technique is this?"

Inside Tiger Might Hall's first floor, Tang Huan's heart was also thumping loudly.

That was totally out of his expectation. However, things had already come to this, so Tang Huan naturally could not stop. According to his observations, after the black and white energy condensed and formed above the statue's head, it was actually extremely similar to the "Yin-Yang Image" from his previous life.

Of course, at this moment, it was the size of a walnut ball.

"Hu!"

In a blink of an eye, the black and white Qi turned into a ray of light and shot forward like lightning. Tang Huan did not dodge and allowed it to strike between his eyebrows. It was also at this moment that the world-shaking rumbling sound disappeared without a trace, and the Tiger Might Hall was calm once more.

In the next moment, the black and white aura seemed to explode in his mind, instantly transforming into countless pieces of information.

Tang Huan calmed his heart and became immersed in it.

After a long while, Tang Huan finally retracted his hand and let out a long sigh. In the blink of an eye, he slightly nodded towards Li Tian'en and the others who were staring at him blankly. Tang Huan then walked out of the pavilion, but there was an unconcealable joy and excitement between his brows.

"So it's a 'Yin and Yang Void Method' ..." Tang Huan walked quickly through the entrance of the pavilion, but he did not realize that the white robed old man beside the door had already disappeared.

... ..

"Yin and Yang Void Method?"

At the peak of the Tiger Vigour Summit, within a small hall, a cry of alarm suddenly sounded out, "The 'Yin and Yang Void Method' that Ancestor Hu Si obtained two thousand years ago?"

The one who spoke was a tall and sturdy old man with snow-white hair. The moustache on his face was like numerous steel needles, making him look extremely mighty.

This old man was Tiger Clan, Hu Lie.

Although he didn't move an inch, it was as if a terrifying power was surging and churning within Hu Lie's abnormally robust body. It was as if it could erupt out like a volcano at any time and tear all the obstacles in the world to pieces.

"Exactly."

Opposite Hu Lie, a thin figure sat upright. It was the white robed elder from the Tiger Might Hall. Even at this moment, there was still a trace of surprise between his brows.

After a moment of shock, Hu Lie's eyebrows rose as he laughed: "Elder Hu Zhong, who is that person? But our Hu Family's Disciples? "

"This is not the case."

Hu Zhong shook his head, and said somewhat helplessly: "That man is surnamed Huan, and came from the Chen Village, and was specially accepted by Deacon Yuan Kun as the Clan Guardians a few days ago."

"Chen Huan, Chen Village ..."

Hu Lie frowned, but came to a realization, "I remember that a while ago, Deacon Yuan Kun sent someone to deliver a piece of 'Precelestial Dragon Stone s', saying that it was given by the Chen Village, while he gave the 'Holy Tiger Gold Medallion' to the Chen Village, giving two spots to special as a reward."

"I never thought that the one who would obtain the 'Yin and Yang Void Method' would be a Disciples with another surname." Hu Lie sighed with regret, but his eyebrows soon relaxed, "There's no harm in having a different surname from the Disciples, they're all from my Tiger Clan. Elder Hu Zhong, how old is Chen Huan now?"

"He's not even twenty-five, he's a Rank Two True Spirit cultivator." Hu Zhong said.

"Although he can't compare to Hu Xuan, Hu Qin and the others, he can still be considered to be a genius." Hu Lie slightly nodded, and then immediately said in a heavy voice, "Elder Hu Zhong, immediately warn everyone who knows about this, under no circumstances can this news be leaked, the violator will be severely punished!"

"Yes, I will go now."

Hu Zhong's figure flashed and disappeared from the palace.

There was a trace of excitement on Hu Lie's face, and he sighed as he muttered to himself: "It's been two thousand years, and now someone has finally obtained the 'Yin and Yang Void Method' from Tiger Might Hall, the heavens are truly helping my Tiger Clan. Perhaps, the blame will fall on this kid named 'Chen Huan'... "

Someone, go ask Commander Hu Xiao to come here!

"Yes sir!"

At the entrance of the palace hall, a silhouette replied as he departed.

At this moment, on the second floor of the great hall, a trace of astonishment appeared on Hu Xiao's stern face. "In ten days time, you completed the mission of collecting the 'Flamingo Blood Beads', and it was even more exceptional. The number of blood droplets you have collected is close to five hundred, and with just Li Tian'en and Hu Kai, it's impossible for them to accomplish this step ... Could it be because of him? " Hu Xiao could not help but think of a young and handsome face.

"Chen Huan?"

Hu Xiao squinted, and softly muttered the name...
