

W. Master 751

Chapter 751 - Divine Powers

Wind God Valley, No.643 Courtyard.

On top of the praying mat that was sparkling and translucent like jade, Tang Huan had already sat down quietly as the chant "Yin and Yang Void Method" appeared in his mind time and time again.

This "Yin and Yang Void Method" was neither a combat skill like the "Overlord's Armageddon" nor a pure cultivation technique like the "Great Harmony Heavenly Classics".

Accurately speaking, it was a divine ability that was somewhere between a 'Dao' and a cultivation technique.

The so called "Dao" was the way of cultivation, just like the Way of Nature that Tang Huan had comprehended when he was condensing the pellet. Different 'Daos' could produce different kinds of cultivation methods and battle skills. These cultivation methods and battle skills all had to follow the rules of cultivation.

As for the "sacred art", it did not simply follow the "Law of the Tao", but directly embedded the "Law of the Tao" within it. It could even integrate a cultivation technique or a battle skill.

Once it was used, its power would fill the skies and the earth.

Tang Huan originally did not know a single thing about these things, and even had never heard of any "sacred art" before. However, after acquiring the "Yin and Yang Void Method", he immediately understood everything. In that moment, Tang Huan seemed to see a brand-new door open before his eyes.

Divine abilities could not be cultivated lightly. If it was not compatible with one's body, not only would it cause one's cultivation to stagnate, it was even possible that one's cultivation would go berserk and lose their life.

However, Tang Huan felt that the "Yin and Yang Void Method" he had just acquired in the Tiger Might Hall was extremely compatible with his Way of Nature, especially with the "Great Harmony Heavenly Classics" he had cultivated in. Not only did it not conflict with him, it even felt like there was a mixture of water and milk.

"The meaning behind the 'Great Harmony Heavenly Classics' is that the four images should be combined into one and form Tai Chi, and Tai Chi can transform into Yin and Yang ... The two did not conflict, and perhaps that was the reason. As for Way of Nature, it originally encompassed everything, including the principles of everything. Yin and Yang, were naturally also within it "

Tang Huan's thoughts changed, after coming to a realization, he felt a sense of urgency.

Although it was his first time seeing this, he could feel that this "Yin and Yang Void Method" was extraordinary. In the entire Tiger Clan, there are bound to be extremely few divine powers. Even if there are a few, they are definitely inferior to the "Yin and Yang Void Method", which can be seen from the movements made by the Tiger Might Hall at that time.

If Tang Huan was a person who possessed the bloodline of the Hu, obtaining the "Yin and Yang Void Method" would only raise his spirits.

It was a pity that Tang Huan was a stranger.

For someone with a different surname to obtain the strongest ability in the Tiger Clan, it would definitely attract the attention of the higher ups in the Tiger Clan. To Tang Huan, this might not necessarily be a good thing.

Within Tiger Clan, there were as many as a thousand people.

Furthermore, as a, he definitely has his own Space Aircraft. Although Tang Huan had a flying shuttle and could condense its wings, he did not have the advantage. Furthermore, Tang Huan had heard of it before, the Tiger Clan had an expert whose cultivation had surpassed the True Spirit Level.

Once Tang Huan obtains the "Yin and Yang Void Method," even if he becomes a Guardian, the Tiger Clan would probably not allow him to leave so easily.

If Tiger Clan was thought of in a more miserable way, it might not be long before Tiger Clan used some special method to completely control him and make him into a puppet of the Tiger Clan. Although this possibility was not very high, as long as there was a one in a hundred chance of it happening, then it was enough to make anyone feel uneasy.

When the Space Aircraft and the ability to fly was not enough to rely on, once a conflict broke out with the Tiger Clan, it would be very dangerous.

"We need to change our plans! There are a total of three transformations to this 'Yin and Yang Void Method', and even if one only comprehended the first transformations, they would still be able to preserve their life. "

Tang Huan took a light breath.

He had originally planned to cultivate in "Spiritual Soul Cave" after returning from there. With "Initial Spirit Heavenly Crystal" and "Tiger Vigour Essential Qi", his cultivation would increase even faster. But now, Tang Huan decided to first delve into the "Yin and Yang Void Method".

In an instant, Tang Huan removed all distracting thoughts from his mind and calmed his mind ...

... ..

Time flew, and the news of Tang Huan obtaining the "Yin and Yang Void Method" was not leaked at all. That day, the strange movements of the Tiger Might Hall were gradually forgotten by others, and following the continuous return of the Clan Guardian Group who were out on a mission, the originally calm Wind God Valley became more and more lively.

"Team 50 returned so quickly. Could it be that they're not doing the task of collecting the Flamingo Blood Beads?"

"Am I seeing things? Is the 16th team from Squad 50?"

"Hiss, 650,000 contribution, heck... If I remember correctly, Team 50 used to only have 30,000 contribution points, but they actually got 620,000 contribution points for this mission? "

"Four hundred and eighty-eight ... Nearly five hundred Flamingo Blood Beads only took ten days? Do you think laozi is an idiot to believe such nonsense! What? Is that true? "

"..."

Every time a Clan Guardian Group returned to the main hall in the depths of the Wind God Valley, this kind of conversation would occur again and again.

Squad 50, which had originally been at the bottom of the list for many years, suddenly flipped over. During the course of the Flamingo Blood Beads quest, they collected nearly five hundred blood droplets, causing all the Clan Guardians to be greatly surprised. The six hundred and twenty thousand contribution points that Squad 50 received caused everyone to be even more envious.

Li Tian'en, the leader, was still alright, but Hu Kai, Luo Xingkong, Tong Ge and the other members of Squad 50 were extremely pleased with themselves, causing the other Clan Guardians to feel sour inside as they asked about the details of Squad 50's mission. Although Hu Kai and the rest were short of words, in the end, not everyone was able to handle the attacks from the numerous Clan Guardians, so the news still leaked out.

It was only then that everyone realized that the special called "Chen Huan" had the ability to condense wings and fly in the air. The reason why Team Fifty was able to gather nearly five hundred "Flamingo Blood Beads" in such a short period of time was all due to him.

Not only could it fly, it also had the powerful ability to heavily injure Lei Bao with three punches. This was definitely a treasure!

For a time, many of the Clan Guardian Group Captains were full of regret.

When they were selecting their members that day, everyone's attention was focused on the True Spirit Cultivators who had passed the Clan Guardians elections. They had actually missed out on such a treasure, causing Team 50 to pick up such a great bargain.

However, at this point, he could only call for help.

Just as the many captains of the Clan Guardian Group were feeling regretful, inside the No.643 Courtyard, Tang Huan was not affected by the external influence in the slightest. His entire mind was focused on the "Yin and Yang Void Method". During this period, Chen You had sneaked into the courtyard multiple times. Although Tang Huan had sensed something, he did not stop to comprehend the divine powers, and Chen You did not disturb Tang Huan. He stayed stunned for a moment, and then quietly left.

Unknowingly, Tang Huan had already stayed in the courtyard for an entire month.

In the morning, the gentle sunlight passed through the window pane and shone on Tang Huan who was sitting cross-legged in his room. Tang Huan, who was completely motionless like a wooden sculpture made out of clay, suddenly opened his eyes.

Chapter 752 - Heavenly Invisibility

In the next moment, a bizarre change happened to Tang Huan's two eyeballs. One of them was as black as ink, while the other was as white as snow.

Immediately after, within his eye sockets, a black and white aura started to revolve rapidly, and in the blink of an eye, Tang Huan's eyes seemed to have turned into two vortexes, one black and one white. Very quickly, the two vortexes leaked out of his eye sockets, quickly circling around, and actually covered Tang Huan's entire body.

Following that, Tang Huan's body started to fade, and in the time of one or two breaths, he completely melted into the air. Not only did he not release any of his own Qi, the 'Sumeru Magical Ring' and other items on his body also did not reveal any of his Qi.

It was as if Tang Huan had disappeared from the room without any trace.

"Heavenly Invisibility!"

This was the first change of the "Yin and Yang Void Method"!

Before this, Tang Huan could only rely on the Way of Nature he had comprehended, in addition to the unique Five Colors True Spirit s, to create a feeling of his entire being becoming one with the void. However, this fusion could only allow a perfect fusion of energy into the surrounding world, which could still be seen with the other person's eyes.

On the other hand, the "Yin and Yang Void Method" completely merged itself with the world, showing a miraculous effect similar to invisibility. It was fortunate that Tang Huan had comprehended Way of Nature back then, otherwise, it would have been impossible for him to comprehend this kind of change within a month's time.

Of course, if it wasn't for this, Tang Huan wouldn't have obtained the ability "Yin and Yang Void Method".

"This is the true 'Body Fusion'!"

A smile emerged on Tang Huan's forehead. At this moment, he was still seated cross-legged on the praying mat, but no one could see his existence.

Immediately after, Tang Huan slightly moved his feet, and floated out of the room like a ghost, and did not trigger any movement in the air.

Once the first form of the "Yin and Yang Void Method" ability was unleashed, the entire person seemed to have become a part of nature. As long as one did not use weapons and did not reveal the body of the "Yin and Yang Void Method", even if one used the greatest speed possible, it was impossible to cause any commotions in the air.

After a while, Tang Huan left the courtyard and walked onto the main road of Wind God Valley.

On the road, there would be cultivators at the peak of Heavenly Domain or True Spirit Level walking past them from time to time. However, even though they were less than a meter away from Tang Huan, they did not sense anything. Tang Huan became excited and rushed towards the depths of Wind God Valley. His speed was extremely fast and he had already reached the limit of his flesh body.

Not long after, Tang Huan entered the palace in the depths of the valley.

Inside the palace, a group of Clan Guardian Group s had just returned from a mission, and it was quite lively.

Tang Huan floated past them and went up the stairs. On the second floor of the palace, sat cross-legged in the middle of the dimension with his eyes closed. Tang Huan arrived in front of Hu Xiao in a few steps, and waved his hand in front of him.

Hu Xiao did not move at all.

In a moment of excitement, Tang Huan used his right index and middle finger, using his finger as a sword, using the "Nine Moves of Wandering Dragon" he had initially learned in front of Hu Xiao. Although he had not activated the Genuine Qi, but with Tang Huan's current flesh body, the might of this battle skill was still peerless.

At this time, the distance between the two was only a few meters, but Hu Xiao was still sitting straight and did not notice anything.

After the nine sword techniques, Tang Huan could not help but laugh, as he was completely at ease. Clan Guardian Commander was definitely a strong Ranker from the Rank Seven True Spirit, even he could not discover them, much less the other True Spirit Cultivators. As for those great Rankers whose cultivations exceeded the True Spirit Level, although Tang Huan had not seen any of them, it would not be easy for them to discover Tang Huan after using this sacred art.

Furthermore, with Tang Huan's current state, if he wanted to sneak attack someone, he could directly and silently approach them. When he was extremely close, he could suddenly launch the fiercest of attacks, and no one could dodge him.

The power of this divine ability was indeed astonishing!

Tang Huan thought about it and sighed.

This was only the first stage of the "Yin and Yang Void Method". If he could learn the last two stages, wouldn't it be even more heaven-defying? Unfortunately, with Tang Huan's current cultivation, being able to comprehend "Heavenly Invisibility" could be considered a miracle. If he wanted to comprehend the last two changes, they were still very far away.

After strolling around the second floor, Tang Huan directly jumped down from the window.

His body was as light as a feather. When he landed on the ground, not to mention the sound, even the air around him didn't change at all. Tang Huan's body moved like lightning, sprinting along the main road. He was prepared to explore the Wind Howling City in this state, and also find some strangers to try out the "Heavenly Invisibility".

However, before they could even reach the entrance of the valley, Tang Huan's expression changed drastically as he sprinted back at an even faster speed.

As soon as he returned to the 643 courtyard, before he even had the chance to enter the room, Tang Huan's figure quickly appeared in his view.

"That was close!"

Tang Huan sat down on a stone chair by the side and exhaled, but his face was already exhausted, and he had a dispirited look.

The first time he used "Yin and Yang Void Method: Heavenly Invisibility", in his excitement, he had actually forgotten the most important thing.

Divine abilities were not rooted to the point of being duckweed. They were also based on strength.

Moreover, the speed at which one consumed their strength was unbelievably fast. It had already surpassed any and every combat skill that Tang Huan could execute. When they were almost to the mouth of the valley, realized that his strength was almost at the bottom, hence he returned as fast as he could.

Tang Huan had treated this method as one of his trump cards, if he were to appear halfway and be seen by others, he would not even be able to cry.

Fortunately, he managed to enter his residence in the end.

Now, Tang Huan's energy had been completely exhausted. Not only had the Dantian become empty, not even a single strand of the Mind Power remained.

"When your power is at its peak, when you use 'Yin and Yang Void Method', you can only maintain it for about half an hour. If you use a portion of your power, the duration will be even shorter."

Tang Huan quickly calculated, but he was not worried at all.

When he had just arrived at Forging God Great World, even the "Saber-toothed Green Carapace Beast", which was at the peak of the Heavenly Domain, took a long time to catch up to him. Now that he was using the "Sun Spirit Body", his flesh body was bound to be even faster. Even if he did not use the Genuine Qi, a quarter of an hour was more than enough for him to run far.

At least, it was enough to escape.

And as his cultivation continued to rise, the duration he would be able to maintain "Yin and Yang Void Method: Heavenly Invisibility" would be longer and longer.

While thinking about it, a smile uncontrollably appeared on Tang Huan's face, but after a moment, he raised his eyebrows and a look of surprise flashed past his eyes.

The sound of footsteps could be heard approaching from outside the courtyard.

Chapter 753 - New Mission!

"Brother Chen Huan has been cultivating in seclusion for so long, I wonder how the situation is?"

"If Brother Chen Huan is still in closed door cultivation, then there's no harm in leaving a few days later. After all, we don't have to rush this mission."

As he muttered, the courtyard door opened with a "creak". Two figures walked in stealthily, seemingly afraid of disturbing the owner of the courtyard.

They were the leaders and vice-captains of Squad 50, Li Tian'en, and Hu Kai.

"Brother Li!" Big Brother Hu (Tiger)! "

The voice that suddenly sounded startled the two. They subconsciously looked towards the direction of the voice and saw Tang Huan sitting on a stone chair not far away.

"Brother Chen Huan, are you done cultivating this time?"

Hu Kai came back to reality and immediately became happy.

Li Tian'en was also pleasantly surprised, but in the next moment, his expression could not help but change. "Brother Chen Huan, why are you looking like this, is there a problem in your cultivation?"

"Qi deviation?"

Hu Kai was startled, and immediately shouted out.

Only then did he realise that Tang Huan's face was full of weariness, as if he was dispirited. Tang Huan who had never been injured or exchanged blows with others, suddenly displayed the state he

was in right now. The two words that flashed past Hu Kai's mind was practically a conditioned reflex.

"It's fine, it's fine."

Seeing their expressions, Tang Huan could guess what they were thinking, and said quickly: "Today I have comprehended something, and trained a type of battle skill for a long time, but I went overboard and used up all of my energy, resulting in my current situation, don't worry, I will recover soon."

"That's good."

Li Tian'en and Hu Kai heaved a sigh of relief, but they didn't know whether to laugh or cry.

Tang Huan laughed, then asked: "Brother Li, Big Brother Hu (Tiger), you came to find me, is it to carry out another mission?" While speaking, Tang Huan felt that it was a little strange. Generally speaking, within a year, each faction of the Clan Guardian Group would have to complete four missions, going through them once every three months.

Although Tang Huan did not pay much attention to the days of comprehending "Yin and Yang Void Method", he could feel that he had probably only trained for about a month or so.

"Exactly."

Li Tian'en nodded his head and smiled, "Brother Chen Huan, this time, there is a mission that is more suitable for us. After completing the mission, the rewards will be a lot of contribution and the danger won't be too great, so Hu Kai and I will immediately ask Manager Hu Yue to accept this mission."

"What task is it?"

Tang Huan was a little interested.

To carry out four missions, was the duty of a Clan Guardians. In addition to those four missions, each of the Clan Guardian Group s were also able to take the initiative to look for Hu Yue to receive missions that they found suitable. The reason why Squad One had been able to obtain three million contribution points so quickly was because they had taken on two more dangerous missions in addition to the missions specified in their duties. Furthermore, they had both completed them very well.

"Look for the Gem Vein." Li Tian'en said while beaming.

"Gem Vein?"

Tang Huan's heart skipped a beat. Ever since he left the Chen Village, Xiao Budian's entire group stayed inside the Space Aircraft s, and the gems inside had probably been eaten up already. It was time to replenish some of the gems, if he could successfully find the Gem Vein ...

There was a hint of happiness between Li Tian'en's brows: "If we can complete this mission, we'll be able to receive the highest amount of one million contribution points. Even if we fail, we'll be able to obtain twenty thousand contribution points."

Tang Huan muttered to himself, "There are indeed no dangers in this mission, and completing any rewards will be extremely tempting. However, the difficulty of completing it is not small. After

spending a lot of time, it's very likely that our team 50 would return empty-handed. In the end, we'll only be able to obtain 20,000 rewards. "

"Indeed."

Li Tian'en laughed, "Whether or not we can complete this mission, it all depends on luck. However, even if we can't find the mine, we can search for the gem in that area. If we can find a certain amount of gem, we can still obtain a lot of contribution points. This time, if we can get a hundred thousand contribution points, that's about it. "

Hu Kai added: "The most important thing is that this mission is indeed very suitable for our team."

"That's true."

Tang Huan couldn't help but laugh.

The rest were all Heavenly Domain Cultivator s, and Li Tian'en, the person with the strongest cultivation, was even injured. Even though he had not fully recovered from his injuries, and had climbed up to the top twenty of the Contribution List s, his overall strength was still at the bottom of the fifty Clan Guardian Group s.

For Squad 50, although the dangerous missions that required them to go deep into the Firing Dragon Mountain Range would reward them greatly, they would simply be unable to execute them. They could only watch as the rewards drooled, and this current mission to search for the Gem Vein was indeed very suitable.

"Brother Li, Big Brother Hu (Tiger), when are we leaving?" Then, Tang Huan asked.

"If you are still in closed door cultivation, then we will leave late. However, since you have already left, the earlier you leave, the better." "How about we set off in the afternoon? You should be able to recover almost all of your strength in half a day." Li Tian'en laughed.

"Alright, then let's do it in the afternoon!"

"..."

After sending Li Tian'en and Hu Kai out of the courtyard, Tang Huan returned to his room and sat down cross-legged. With a thought, a small box appeared from within the "Sumeru Magical Ring", inside contained the one hundred and twenty "Initial Spirit Heavenly Crystal" that he had obtained from the Tiger Crouching Seed back then.

Taking one out and holding it in his hand, Tang Huan immediately activated the "Great Harmony Heavenly Classics".

Within the Dantian, the "Nine Yang Divine Furnace" and the "Five Colors True Spirit" operated to their limits. In just the blink of an eye, Tang Huan felt a gentle power from the "Initial Spirit Heavenly Crystal" in his palm that continuously flowed into his body like water.

Although this power was extremely gentle, it was abnormally pure, rich, and majestic. Even the "Tiger Vigour Essential Qi" could not compare to it.

"The Initial Spirit Heavenly Crystal is magical indeed!"

Tang Huan was slightly surprised. The reason why the Spiritual Soul Cave's cultivation speed was so fast was mainly because of the coordination between the "Tiger Vigour Essential Qi" and the

pressure inside the cave. However, if one were to continuously use "Initial Spirit Heavenly Crystal" to cultivate outside, the effect would have exceeded that of the Middle Section of Spiritual Soul Cave.

It might even be comparable to the later parts of Spiritual Soul Cave.

In an instant, Tang Huan had already calmed his mind and the Genuine Qi and the Mind Power in his body quickly became filled up.

The long period of time he had gained insights into the "Yin and Yang Void Method", had allowed Tang Huan's comprehension of the "Great Harmony Heavenly Classics" to deepen by another level. Adding the effects of the "Nine Yang Divine Furnace" and the "Five Colors True Spirit", the speed at which Tang Huan had absorbed and refined the "Initial Spirit Heavenly Crystal" was shockingly fast. After approximately half an hour, Tang Huan's energy had already recovered, and the "Initial Spirit Heavenly Crystal" in his palm had disappeared without a trace, completely refined.

Tang Huan did not stop, he extended his hand and grabbed out ten Initial Spirit Heavenly Crystal s from the box and continued to circulate his cultivation technique.

On the fields in the northwest of Firing Dragon Mountain Range, a river snaked its way forward, like a crawling dragon.

This river originated from the depths of the mountain range. After extending for several thousand miles, it converged into a massive lake. However, the river and lake had dried up long ago. On the exposed riverbed, all kinds of big and small stones could be seen, and the lake itself had turned into sand.

"Whoosh!" "Whiz ..."

Weak sounds were heard, like threads dragging them through the air, 20 of them were like lightning, flying along the riverbed, they were the 50 Clan Guardian Group s from Wind Howling City.

Li Tian'en and Hu Kai were at the front, with Tang Huan following closely behind. Behind them were Chen You, Luo Xingkong, Tong Ge and the other cultivators at the peak of Heavenly Domain.

In order for the team members to catch up, Li Tian'en, Hu Kai, and Tang Huan did not use their full strength.

But even so, under the high-speed rush, Li Tian'en and Hu Kai were like wild horses that had escaped the reins, their movements were rather rough, yet Tang Huan had always been strolling leisurely, not only was his speed not slow, he even looked kind and pleasing to the eye. When the people behind looked at Tang Huan, their eyes were filled with admiration.

The crowd did not utter a word as they moved quickly. Unknowingly, it was already noon.

Ever since the lake and river dried up a hundred years ago, word had been spreading, saying that there were Gem Vein in this area.

No one had ever seen that mine before.

However, there were indeed many people who found a large number of precious gems in the river and in the lake. Because of this, not only Tiger Clan s who were closest to the rivers and lakes, but even Dragon Clan s from the east and south of the Firing Dragon Mountain Range s would frequently send cultivators over.

Initially, the people who came here to investigate were the most powerful figures of the various clans, but they didn't discover anything. Thus, in recent years, the people who came here were all young cultivators.

For example, the Tiger Clan would always issue a quest after obtaining new information about the Gem Vein, so that he could investigate.

For Squad 50 to receive this mission this time, it was purely luck.

The cultivator who reported the news about the mine to Hu Kai was his cousin Hu Kai. On the same day, he revealed the situation to Hu Kai, who immediately found Hu Yue. Sure enough, when the two rushed to the Clan Guardians's Main Hall, Hu Yue was prepared to post the quest of finding the mines.

If they were just one more step, most likely many teams would rush to complete this quest.

"It should be here!"

Suddenly, Li Tian'en who was at the front stopped in his tracks, and took out a small map from his bosom. After comparing it with the terrain of this area, he revealed a smile on his face.

The terrain of this area was quite strange.

After the river, which spanned tens of kilometers, arrived at this place, it was suddenly split open in the middle by a narrow mountain range that was thousands of meters wide. It continued to zigzag forward for hundreds of kilometers before converging once more. A few days ago, a cultivator from the Wind Howling City found dozens of gems in this area.

"Brother Li, why don't we all split up?" Tang Huan swept his gaze once around, and said with a smile, "I will be in a team with Chen You, you and Big Brother Hu (Tiger) will each take one person, and the other four or five people will be in a group. Six groups will search around at the same time, and we'll be able to search this area faster."

"Alright, we'll follow what Brother Chen Huan said!" Li Tian'en clapped his hands and laughed.

"..."

After a while, the six groups of Clan Guardians began to move at the same time. Two groups of Clan Guardians s went to the left, two groups to the back, and two groups of Clan Guardians s entered the small mountain range in the middle of the river.

Tang Huan and Chen You were at the left side of the river, and the two of them were following the river to the left.

"Buzz!"

After walking forward another few thousand meters, the flying shuttle had already rushed out from within Tang Huan's embrace as it rapidly expanded, and let out an excited rumbling sound.

In the next moment, a blue shadow flashed, and the Little Thing appeared from within the Space Aircraft.

"Yiya!" "Yiya ..."

After being stunned for a moment, the Little Thing immediately regained its senses, and started to cry out repeatedly in surprise. The four pairs of small wings flapped continuously, and then flew up

dozens of meters into the sky, rolling and tumbling non-stop, before suddenly diving down and jumping crazily. It stayed inside the Space Aircraft all alone for a long time, eating, sleeping and eating, almost making it go crazy.

"I knew it. You proposed that everyone split up to search for the mine in order to release this little guy." Seeing that, Chen You could not help but smile.

"After being trapped inside for so long, it's time for this little fellow to come out and take a breather."

Looking at the cheerful figure of the Little Thing, Tang Huan revealed a doting look in his eyes. "With this little fellow here, even if I can't find the mines, I'll be able to find a large number of gems."

Tang Huan had already understood that this river and this lake contained a myriad of gems, but there was only one that appeared the most, and that was the "Neon Gem".

In Forging God Great World, the classification of gems was slightly different from that of small dimensions.

The gems of this small world were divided into five ranks: Low, Middle, High, Heaven, and Saint. In addition, there were God Tier gems above Forging God Great World and Saint Tier gems.

However, Divine Level Stone s were divided into five ranks, and there were extremely few naturally occurring God Tier gems. The majority of them were synthesized through mysterious means.

Because of this, in the Forging God Great World, other than the Weapon Refiner who was respected as usual, there was also another type of existence that had extremely high status, and that was the Gem Synthetic Master. As to how the God Tier Jewels were synthesized, Tang Huan didn't know for the time being. If there was a chance in the future, he could try to find out more about it.

Although the grade of the gems here wasn't much different from that of a small world, the types of gems here were by no means comparable to those of a small world.

There were more than a thousand kinds of Saint Grade Gem among the gems that had been explored so far. That "Neon Gem" was also a Saint Grade Gem, and it was the highest quality Saint Grade Gem.

In the Wind Howling City, a single "Neon Gem" was worth forty "Initial Spirit Heavenly Crystal", and they were so priceless that there was no market for them.

If Clan Guardians found "Neon Gem" and turned them in, not only would they get forty "Initial Spirit Heavenly Crystal" for each of them, their subordinate Clan Guardian Group would even get a reward of ten thousand contribution points. The same was true for the other gems. Li Tian'en and the others did not hold much hope for the mines, they only wanted to find a few more gems.

"It seems like our trip here will not be in vain." Chen You was all smiles, and a trace of anticipation appeared in her beautiful eyes.

"Of course."

Tang Huan laughed, then waved his hand at the Little Thing, saying, "Little guy, it's time for us to work, your future rations will all be here."

"Yiya ..." The Little Thing flapped its little wings and quickly landed on Tang Huan's shoulder. It was extremely happy.

"Let's go!"

Tang Huan patted the Little Thing's head and put it away.

At almost the same time, the horns on Little Thing's head started to reveal an extremely agile golden luster. Its pair of big eyes were slightly closed, its small body was motionless, as though it was extremely focused.

Chapter 755 - Fancy Raw Stone

Chen You followed closely behind. The one hundred and twenty "Initial Spirit Heavenly Crystal" allowed her cultivation to improve greatly, and the speed at which she travelled was even faster than when she was collecting the "Flamingo Blood Beads" a month ago. When Tang Huan had slightly slowed his pace, she also followed suit quite easily.

Not only her, Luo Xingkong, Tong Ge and the other cultivators at the peak of the Heavenly Domain were no exception.

"Yiya!"

Not long after, Xiao Budian suddenly let out a joyous cry. Four pairs of wings flapped, and like arrows, they shot out from Tang Huan's shoulders like arrows, instantly landing on the gigantic boulder tens of metres away. Then, he first beckoned with his claws at Tang Huan, who was following him like a shadow, and then pointed at his own lower body.

"You found the gem so quickly?"

Chen You sized up the boulder in surprise, and then muttered in doubt, "This rock seems to have been touched by someone, are there anymore gems below it?"

Judging by the traces, he should have been pulled out by someone and put back in place. Not only was this huge rock in such a state, many other rocks in the surrounding area had also been turned over.

Besides, it should have been not that long ago.

"You'll know when you see it."

Tang Huan squinted his eyes and smiled, then nodded towards the little fellow. When it floated into the air, it grabbed onto the edge of the rock and lifted itself up, causing the big rock that was at the bottom of the Immortal River to fly up ten metres. There was an additional two metres deep hole in the rock.

At the bottom of the cave, there was a large amount of Goose Warm Rock that had been pressed into the ground, but not a single gem.

This was normal. If there was a gem at the bottom of the hole, it would have been taken by the person in front. Tang Huan's eyes swept across the area, and then he jumped down to the bottom of the pit, taking down the Conqueror Spear s on his back.

In the next moment, the long spear in Tang Huan's hand stabbed deeply into the bottom of the pit.

The boundless Genuine Qi surged like a flood, with the Conqueror Spear at the center. It roared continuously, with power that could topple mountains and overturn the seas. In the blink of an eye, the sand and rocks at the bottom of the crater started rolling around like waves. The hole became deeper and bigger. In just a few moments, it had changed from several meters to a radius of ten meters, and from two meters to nearly twenty meters. Within a hundred meter radius, the sky had already turned gray.

At the edge of the hole, Xiao Budian was already lying on Chen You's shoulder, while Chen You's beautiful eyes were staring unblinkingly at the sand and earth waves that rolled up from Tang Huan's side.

"Yiya!" Xiao Budian shouted out happily, and almost at the instant it finished speaking, three streaks of rainbow light shot up into the sky.

"Gem?"

Chen You's beautiful eyes lit up, and instantly flew into the air, chasing after the ray of light. Xiao Budian also rushed out from Chen You's shoulder without hesitation, and grabbed onto the ray of light. At almost the same time, a figure soared into the sky from the depths of the pit, faster than lightning.

When Chen You landed on the ground, Tang Huan had also appeared beside her.

Both of them held a multicolored gem in their hands. It looked like a crescent moon, and was about the size of a fist. It was emitting a magnificent luster, dazzling everyone who saw it.

"It really is a 'Neon Gem'." Chen You beamed.

"Yiya!"

Xiao Budian had also flown back, holding a "Neon Gem" in her two little claws.

"There's no aura coming out from this rock?"

Tang Huan studied the gem for a moment, his eyes revealing a look of doubt.

In the past when they were gambling in the Dragon Spring Town, the Ancient Ore was wrapped in a thick layer of stone glue, which could completely isolate the gem's aura. However, there was no stone glue on the surface of the "Neon Gem", and no Qi was leaking out, but he did not know why.

When he finished, he noticed that Chen You's eyes were strange.

Tang Huan was startled, and then he understood that for a "Neon Gem" to have such a situation, it should be the common knowledge of the people of Forging God Great World, and he, a grand Weapon Refiner, actually did not know, so it was no wonder Chen You had looked at him with that kind of gaze.

Tang Huan rolled her eyes. Just as Tang Huan was about to speak, her delicate voice rang out: "Among the ores of this world, aside from the ordinary primordial stones, there is also the 'Fancy Raw Stone'. Above the 'Fancy Raw Stone', there is also the 'High-grade Raw Stone'. The effect of the Fancy Raw Stone isolating its aura far surpassed that of ordinary primeval stones. This' Neon Gem 'should be originated from' Fancy Raw Stone '."

"After leaving the mine, the stone colloid on the surface of the 'Fancy Raw Stone' will become thinner and thinner with the passage of time, until it finally disappeared. However, the deepest layer

of transparent colloid, in its natural state, will always exist, and even the strong Rank Seven True Spirit found it difficult to cut it apart."

His voice paused slightly, and Chen You joked: "My Great Weapon Refiner, do you understand now?"

"I understood the reason long ago. It's just that I couldn't react to it in such a short time."

Tang Huan laughed, and then laughed brazenly. However, his two eyes started to carefully observe, and sure enough, there was a completely transparent layer of gelatin on the surface of the "Neon Gem", which was around one centimeter thick. Even with Tang Huan's Perception Ability, he could not detect the slightest hint of an aura.

It was fortunate that this was the case, otherwise, the "Neon Gem" here would probably have been completely searched by the Four Great Clans a hundred years ago.

Chen You rolled his eyes at Tang Huan in annoyance, but when he looked at Xiao Budian, his eyes contained a surprise that was hard to hide: "No matter how high my cultivation is, I would have to rely on luck to find the 'Neon Gem' here. I never thought that this little fellow would be able to sense the existence of the gem from so far away."

If not for Xiao Budian, who would have thought that there were three "Neon Gem" hidden twenty meters under that huge boulder? If the guy who flipped the giant rock knew that someone found the gem here, his eyes would probably turn red from jealousy.

"Yiya!" On Tang Huan's shoulder, Xiao Budian raised his head and squinted his eyes complacently.

"This guy has a talent for finding gems. I'm afraid there aren't many people in this world who can match up to him."

Tang Huan was all smiles, but a hint of anticipation instantly surfaced in his eyes, "This' Neon Gem 'came from a' Fancy Raw Stone '. Since there is an ore, then there must be a mine. If my luck is good, I might even be able to find mines. "

"That's hard to say."

Chen You shook his head, "In the past hundred years, this river has basically been rummaged through thoroughly, but it's a pity that I didn't discover anything. Although this little guy's ability to search for gems was truly astonishing, a vein of gold was not comparable to a gem. It was possible for it to hide within a few thousand meters of the ground.

"No matter what, I have to find more gems first. It's good to be able to find the mine. As long as I have enough gems, I can make a lot of contribution points."

"..."

Chapter 756 - Eagle Clan

As the day went by, in a ravine that was dozens of meters wide, sand and earth were like waves as they rose into the air. After a while, a colorful light mixed within and soared into the sky.

Immediately after, a black shadow chased after him and caught him in the palm of his hand.

Following which, the black shadow landed on the side of the valley and Tang Huan's handsome face was revealed. Dust filled the sky and sand rolled about, but his entire body was still spotlessly clean.

"Catch!"

Tang Huan casually threw the newly dug out "Neon Gem" at Chen You, "How many are there?"

"Including this one, it's fifty-six pills."

Chen You laughed until his eyes became crescent moons, then happily placed the gem into the cloth bag in his hands. "The 'Neon Gem' number happens to be exactly fifty, while the other gems number six."

Even when Xiao Budian had first found the three "Neon Gem", she had never thought that he would have such enormous gains.

In less than an afternoon, he had already found over fifty gems.

In Wind Howling City, there were many large sized Gem Store s. However, it was impossible for any of the Gem Store to have so many "Neon Gem". Under normal circumstances, it was as if every time a Gem Store released a few "Neon Gem", they would immediately be snatched away by someone at a high price.

If these fifty Neon Gem appeared, it would probably cause a huge commotion in Wind Howling City.

Most importantly, Xiao Budian had not even finished searching for ten percent of the region. If this entire area, and even the entire river and lake were to be searched thoroughly, the "Neon Gem" and other numbers would definitely reach an extremely frightening degree.

Just thinking about it made Chen You dizzy.

"One Neon Gem could be exchanged for 40 'Initial Spirit Heavenly Crystal', 50 'Neon Gem', that would be two thousand 'Initial Spirit Heavenly Crystal', and adding the five hundred thousand contribution points, I could get a hundred 'Initial Spirit Heavenly Crystal', but it's still a bit too little." Tang Huan scratched his chin and thought.

"More than two thousand Initial Spirit Heavenly Crystal and they're not enough?" Chen You was a little speechless.

"If I don't find enough gems to exchange for tens of thousands of Initial Spirit Heavenly Crystal s, how can I bring myself to go back?"

Tang Huan smiled from between his brows.

To Chen You, two thousand over "Initial Spirit Heavenly Crystal" could indeed be considered to be a huge amount. But this number, was only twenty percent of the "Initial Spirit Heavenly Crystal" that Tang Huan had collected. Most importantly, Tang Huan's refining speed of the "Initial Spirit Heavenly Crystal" was simply too fast.

He could not hold on for more than a few days at this level of "Initial Spirit Heavenly Crystal."

"What ..." Tens of thousands ... " Chen You said as he ate.

"Go, let's continue..."

Seeing Chen You's stupefied expression, Tang Huan could not help but laugh out loud, but after a moment, Tang Huan's laughter stopped, and he frowned as he looked to his right.

"Oh!"

A long roar that sounded like it broke through gold and stone came from afar. The source of the sound was at least ten miles away, and there seemed to be a hint of anxiety in the sound.

"Hu Kai's voice!" Chen You immediately regained consciousness.

"Are you in danger?"

Tang Huan frowned, when they were spreading out, they had agreed that if there was an emergency, they would use a whistle to inform everyone, and now that Hu Kai had called out, there must be something going on, who knows, maybe he had met an enemy, or maybe there was some other unexpected situation?

In this area, it wasn't only Tang Huan and the rest of the fifty team's Tiger Clans that were there, there were also other cultivators.

This afternoon, Tang Huan and Chen You saw a few people in the distance.

However, they had hidden themselves well, those people did not realise the existence of Chen You's jewel bag and Xiao Budian, if not, they would have already started fighting.

In between mind instructs (in a second), a hum sounded and Space Aircraft appeared in a flash. After sending Xiao Budian in, Tang Huan did not care so much, and grabbed onto Chen You's small hand, causing the majestic Genuine Qi to spill out. Like a water current, it flowed out and covered her in an instant.

"Let's go!"

Chen You's beautiful face turned slightly hot, just as she was about to pull back her hand, she was suddenly carried by Tang Huan, and flew forward quickly like a meteor.

"Whoosh!"

Without touching the ground, he seemed to float, and in an instant, he was already several kilometers away. In a little effort, Tang Huan and Chen You had already passed through the dried up riverbed, and squeezed into the narrow mountain range in the middle of the two rivers.

The edge of the mountain range was filled with small trees and shrubs. They were sparse and sparse in nature. Many areas were full of potholes, and there were traces of being dug out.

Only at the center could he see the entire forest.

"Oh!"

After a short moment, another long howl surged into the sky, and it practically exploded in his ears.

Tang Huan slightly adjusted his direction. After just a few thousand meters of walking through the forest with Chen You, more than ten figures had already entered his vision, and a fierce battle was currently taking place in the depression in front of them. One side was comprised of more than a dozen young men and women who were dressed in the same way, while the other side was only Hu Kai.

Behind Hu Kai, around twenty to thirty meters away, six figures laid motionless on the ground, their fates unknown.

Amongst the group of 10, only one person was fighting with Hu Kai, the others were all spectating from all around. He was about twenty-eight or twenty-nine years old, with a handsome face and fair skin. Above his head, a huge white hawk with a frightening power pounced forward crazily, and facing Hu Kai, there was also a huge black tiger on top of his body, baring its fangs and brandishing its claws, looking sinister.

Whether it was the white hawk or the black tiger, they were both condensed out of energy and this method was known as the "Great Image". Hu Kai's Black Tiger was a Great Image that came from his Hu Clan's bloodline. As for that giant white hawk ...

"Eagle Clan!"

These two words seemed to come out of Tang Huan's mind out of reflex.

Other than the Eagle Clan, there was no one else who would appear here and condense a Great Image like Hu Kai and condense a White Eagle Great Image.

Unexpectedly, the Eagle Clan Cultivators and Hu Kai had a conflict.

Looking at the current situation of the battle, the black tiger Great Image activated by Hu Kai was being forced back step by step by the White Eagle Great Image.

"Haha, big brother Ying Yu, this brat can't hold on much longer, kill him."

"I've long disliked this fellow from the Tiger Clan. This time, I've given them a good and deep lesson."

"With such a low cultivation, you actually dared to challenge Big Brother Ying Yu. You truly don't know your own limits."

"..."

In the surroundings, various sounds of ridicule and ridicule rose and fell.

Hu Kai clenched his teeth and glared, his entire body drenched in sweat, almost to the point of being weak.

On the other hand, Ying Yu's expression was much more relaxed, and a cold smile appeared between his brows: "Hu Kai, I've played with you for so long, it's about time to end it!"

"Screech!"

Almost at the same time Ying Yu finished speaking, a sharp cry seemed to ring across the sky, as the giant white hawk's body instantly expanded in size by one fold!

Chapter 757 - Flat Fur Beasts!

"Roar!"

Seeing that the White Eagle's power had increased greatly, Hu Kai's face changed.

Then, like a tiger, he let out an earth-shaking roar. Streaks of dark red stripes actually appeared on the body of the black tiger that was above his head.

"Bam!"

In the next moment, the falcon tiger frantically clashed with each other.

With a loud crash, the Strength Qi was sent flying.

The black tiger immediately retreated, and the dark red markings on its body vanished into thin air. Below, Hu Kai also suffered a heavy blow. His face immediately turned red, and in a moment, he was pushed back more than 10 meters, barely stabilizing his feet, as he spat out a mouthful of blood.

The giant white hawk's body trembled slightly, but its ferocity only increased.

"Eh? I have underestimated you! "

Ying Yu raised his eyebrows, and glanced at Hu Kai in surprise. However, in the next moment, his lips perked up as he laughed coldly, "However, that's all for now! After capturing you, your teammates should be arriving soon, and today, your Clan Guardian Group will not be able to escape. "

"Screech!"

Almost at the same time Ying Yu finished speaking, the white giant hawk shook its wings and pounced forward once again. Pang Shuo's body moved, and swept up a terrifying storm.

Under the impact of the storm, Hu Kai's body was on the verge of collapse, and his complexion had already become as pale as paper. In the sky above, the black tiger had opened its bloody mouth, and its appearance was extremely ferocious.

Hu Kai's brows furrowed in anger, but his heart was filled with a bitter and bitter feeling.

's previous Great Image attack had already caused him to suffer heavy injuries. This time, he could not endure it no matter what. However, he would not give up resisting. Just as he was preparing to gather the last of the Genuine Qi in his body, a sneer sounded out —

"Make our team unable to escape? With your little bird? "

"Brother Chen Huan?"

A familiar voice entered his ears. After a moment of daze, Hu Kai's eyes immediately lit up, and his face revealed surprise that was difficult to conceal.

Immediately, Hu Kai heard a sharp sound breaking through the air.

"Chi!"

Following that, the brilliant red light pierced through the air, it was a sharp awl condensed from flames that whistled past. Inside the awl, there did not seem to be any heat spreading out, but Hu Kai could faintly feel that it contained a terrifying heat and an unstoppable sharpness.

In a split-second, the Flaming Pointed Awl had already traversed the last two meters of empty space and smashed into the gigantic claw of the white hawk with lightning speed.

Instantly, the red light shattered as the violent and violent Strength Qi exploded layer after layer. The heat mixed in was like a volcanic eruption, and the temperature of the area began to rise at an alarming rate. Even the air began to emit crackling sounds.

At this moment, visible ripples began to appear in the air.

Hu Kai was not affected by the attack, and almost at the instant of explosion, a black figure had already appeared in front of him. His body was tall and slender, like a spear, and he held a spear in his hand.

"En!"

A few meters away, Ying Yu let out a groan as he retreated several steps.

In the air above his head, the giant white hawk also retreated quickly, and the claw that was slapping towards the Flaming Pointed Awl shattered to pieces.

Seeing this, the surrounding dozen people were shocked.

Not only did this fellow who suddenly appeared not make a sound, he had also forced Ying Yu to retreat with a single spear strike, and even Ying Yu's White Eagle Great Image was injured as well.

It would have been fine if the person who came was an expert whose cultivation was higher than Ying Yu, but looking at his Qi undulations, he seemed to be a Rank Two True Spirit cultivator.

"Who are you?"

Ying Yu immediately stabilised his body, but his face instantly darkened.

Almost at the same time, the white eagle's missing eagle claw quickly formed in the sky. Its two eyes coldly stared at the uninvited guest. Its wings flapped and its sharp hooked mouth slightly opened, as if it wanted to peck at him immediately.

"Tiger Clan, Chen Huan!"

The one who blocked Ying Yu's Great Image attack suddenly, was naturally Tang Huan.

After sweeping a glance at Ying Yu, Tang Huan slowly turned his head and looked at Hu Kai who was behind him, "Big Brother Hu (Tiger), can you still hold on?"

"Don't worry, Brother Chen Huan!" Hu Kai patted his chest and laughed, he was extremely excited.

"Alright, Big Brother Hu (Tiger), you rest at the back first. Leave this group of feathered beasts to me!" Tang Huan nodded his head, when both of his eyes looked forward again, they immediately changed, as though he was holding onto a spear, it was congealed in his hand, it was extremely sharp, as though it was able to pierce through a person's body.

There was indeed a huge difference between Eagle Clan Cultivators and Eaglemen.

The Eaglemen of the small world had the appearance of an eagle, and this Eagle Clan was the same as the Tiger Clan, they looked completely human. Amongst the group of Eagle Clansmen in front of him, there were a total of nine peak Heavenly Domain s and six True Spirit Cultivator s. Among them, Ying Yu had the highest cultivation, so he should be at the Peak Rank Four True Spirit Realm.

But, although Ying Yu's cultivation was strong, Tang Huan was not afraid at all.

"How dare you!"

Hearing that, Ying Yu was immediately enraged.

The dozens of people at the side were shocked awake and fumed with rage at Tang Huan's words. They cursed out loud one after another, the people from Eagle Clan hated this the most.

"A mere Rank Two True Spirit dares to be so arrogant!"

Ying Yu stared coldly at Tang Huan, her long and narrow eyes brimming with killing intent: "Chen Huan, do you know that disaster comes from the mouth? You think you can fight against me just because you forced me to retreat a few steps? Forget it, I will let you know now, compared to me, who is in the Peak Rank Four True Spirit realm, you ... "

"You talk too much nonsense!"

Without waiting for Ying Yu to finish speaking, Tang Huan let out a cold snort. The Conqueror Spear in his hand had already turned into a streak of fiery red light and shot out like lightning.

In the eyes of the Heavenly Domain Cultivators, this was merely a simple spear strike. But in the eyes of Ying Yu, he consecutively thrust forty-nine times in an extremely short amount of time. The power within the 49 spear shot out layer upon layer, condensing into a massive spear light that broke through the air.

Conqueror Breaching Army Spear Technique, Divine Power Beating!

Compared to when he was in the Chen Village back then, Tang Huan's spear art had improved by another huge amount. Previously, when Tang Huan unleashed this battle skill, every thrust would cause a spear image to appear. But now, every thrust of the spear had created forty-nine spear images in the blink of an eye, and all of the spear images had congealed into one.

Although the change was minute, it caused the power of this "Divine Power Beating" move to increase explosively.

Chapter 758 - Playthings!

"Not a bad battle skill. Unfortunately, it's still far from enough to deal with me!"

Ying Yu's pupils shrank abruptly, and he immediately let out a cold snort. In the space between mind instructs (in a second), the body of the white hawk, Pang Shuo, suddenly sank down. In an instant, the originally huge body of the White Eagle expanded by quite a bit. It was now over a dozen meters long.

"Screech!"

With a cry that seemed to pierce through one's eardrums, the giant eagle suddenly pounced forward and pecked at the spear light with its iron hook like beak.

"Bam!"

The spear light immediately exploded.

The giant eagle flapped its wings, the berserk and raging Strength Qi rolled towards Tang Huan. Tang Huan acted as if he did not see it, and rushed straight towards the incoming heat wave. The Conqueror Spear in his hands swept out with a lightning speed, and the majestic Strength Qi surged like a torrent.

The Conqueror Breaching Army Spear Technique, could sweep away an entire army!

The power of this spear was unparalleled. With a single sweep, it actually enveloped everything within a ten-meter radius, including the giant eagle.

"Hu!"

The giant eagle turned its body, and its left wing slashed down at the spear like a white giant blade. The fierce and fierce Strength Qi poured down, and before it could even touch the spear body, it had already cut a 20 to 30 meter long crack on the ground, causing countless dust and dirt to fly into the air.

"Clang!"

After a moment, the long spear and the giant hawk's left wing collided ferociously, and a burst of clanging metal clanging sounds came out, the exceptionally powerful Strength Qi swept out in all directions, and wherever it went, sand and trees were turned over, grass and trees were turned upside down, the area of ten meters around it turned dark and gloomy.

At this moment, those Eagle Clan Cultivators were forced to retreat.

Hu Kai had long since retreated. The members of Team 50 who were lying on the ground had also been moved even further away by Hu Kai and Chen You, who had appeared right after him.

"En!"

Tang Huan's face darkened as he groaned.

The moment the giant eagle wings touched the Conqueror Spear's spear, Tang Huan felt as if thousands of sharp blades were slashing down at the same time. In between the mind instructs (in a second), the "Nine Yang Divine Furnace" and the "Innate realm True Spirit" circulated rapidly, resolving the distance that was following the long spear's attack. However, Tang Huan was still pushed back more than ten meters with his spear before he managed to stabilize his footsteps once again.

"Damn it!"

At almost the same time, the giant hawk also retreated several meters, and half of its wing had actually been shattered by Tang Huan's long spear. However, in less than a breath of time, that pair of wings condensed and formed yet again. The gigantic white hawk roared out and with a flap of its wings, it pounced towards Tang Huan once again.

Seeing that, Tang Huan's eyes turned serious.

When they were rescuing Hu Kai, although Tang Huan had forced him to retreat, it was a sudden attack on his part and Ying Yu had been caught off guard, it did not mean that Ying Yu was weaker than him. And now, Ying Yu had displayed his most powerful strength, Tang Huan did not hold back, clashing head on, Ying Yu was indeed stronger than before.

However, what Tang Huan possessed was not only methods to fight against his enemies.

"Come at me!" Tang Huan bellowed, swung his spear, stepped on it, and shot forward.

"Slash!"

Amidst the sound of ripping silk, one of the giant eagle's sharp claws tore through the air and swiped towards Tang Huan's spear, while the other claw directly grabbed towards Tang Huan's head at an extremely fast speed.

In the blink of an eye, the two claws had already touched their target, but the spear and Tang Huan had immediately disappeared.

"This is bad!"

The white eagle flapped its wings crazily without any hesitation.

Pang Shuo's body rose up, and at the same time, a Fire Red Spear Radiance shot out from behind him and flashed under the giant eagle's stomach. Although it did not hit the giant eagle, the Strength Qi that came at the giant eagle still tore a long gash on its stomach.

"Bam!" Immediately after, the spear light descended onto the slope twenty metres away, and the Strength Qi exploded, blasting out a huge pit and filling the sky with sand.

"Screech!"

The giant eagle cried out in anger.

Afterwards, its wings were slightly drawn, and like a meteorite falling from the sky, it pounced towards Tang Huan at an extremely terrifying speed. Its two sharp claws instantly shrouded an extremely vast area, and even if a mountain peak was standing below, it would still be able to explode from the claws of the white eagle.

"Swish!"

After a split-second, Tang Huan's figure melted away once again. What was left behind after the giant hawk's claw was only an afterimage in the air, but Tang Huan's real body had actually disappeared once again.

With its previous experience, the eagle reacted faster this time. It did not hesitate to rush upwards.

"Chi!"

However, this time, it did not cause him any harm. Even so, the giant hawk was even more furious, his body turned, and his huge wings cut down like Tang Huan.

What was destroyed was still only an afterimage.

This scene was repeated time and time again, causing the giant eagle to be extremely angry.

However, this was just the beginning. In the following time, the giant hawk pounced over and over again, either tearing claws, pecking mouth, or slicing wings, moving even faster than a shooting star. However, it did not touch Tang Huan's real body even once, but had instead been nearly pierced by the Conqueror Spear in Tang Huan's hands multiple times.

All the attacks missed, this feeling was as if he had struck cotton with all his might, once or twice he could still endure it, eight or ten times he could barely endure it, but it was the same dozens of times in succession, causing the giant eagle to go mad, its angry cries rising and falling one after another.

"Just where did this guy come from, to the point where even Big Brother Ying Yu can't do anything to him."

"Ai ai, another phantom!"

"Big Brother Ying Yu, be careful, he's behind you from the left!"

"..."

The dozens of Eagle Clan Cultivators were dumbstruck.

Hu Kai was also speechless, after the initial shock, he was secretly pleasantly surprised. Originally, he was worried that Tang Huan would not be able to hold on much longer, but he never expected that this would actually be the result. Tang Huan's strength was indeed not as good as Ying Yu's, but the teleportation that he displayed was godly and unpredictable, to actually use his cultivation of Rank Two True Spirit to play around with Ying Yu.

"Swish!"

After shattering Tang Huan's illusion for the thirty-second time, the giant hawk once again flew up into the sky at a rapid pace. It seemed as if it had gone insane as it roared at the top of its lungs with extreme rage, "Go, capture those two fellows!" Stretching out his wings, he was actually pointing at Chen You and Hu Kai who were watching the battle from several tens of meters away.

The dozen or so Eagle Clan Cultivators on the ground seemed to have awoken from a dream.

But before they even had the chance to act, a loud roar rang out, "If you want to touch them, you have to ask me whether I agree or not!"

Chapter 759 - Assault!

From the forest on the right, Li Tian'en took the lead and galloped over.

Although his cultivation was higher than Tang Huan, but in terms of speed, even when using his full strength, he was still inferior to Tang Huan, and thus arrived later than Tang Huan.

Seeing his figure, Hu Kai and Chen You were pleasantly surprised.

Tens of meters in the air, the giant eagle was stunned. Judging from the aura, the person's cultivation was clearly higher than his. The Eagle Clan Cultivators below who were prepared to take action were all shocked, other than Ying Yu, the highest cultivation among their group was only at Rank Three True Spirit.

"Brother Li, you came at the right time."

Not far from the giant hawk, Tang Huan's figure suddenly appeared, and laughed out loud, "I'll leave this side to you, leave the beast with the flat fur to me, I'll tease it a little more!" With that, Tang Huan turned and like a shadow, he flew towards the forest in the distance.

"Brother Chen Huan..." Li Tian'en was shocked, just as he was about to call out to Tang Huan, his figure had already disappeared into the forest.

"How hateful!"

The giant white hawk screamed and chased after them without any hesitation. Its wings flapped crazily. Wherever it went, sandstorms and rocks flew and rolled in the wind.

Li Tian'en did not see the battle previously. When he saw Tang Huan lead the giant hawk away, he started to worry.

Initially, he had planned to replace Tang Huan with himself to deal with the giant hawk, while Tang Huan looked at the other Eagle Clansmen s. But now, Tang Huan had lured away the giant hawk first, he could not rush over to support them, if not, Hu Kai, Chen You and the rest would fall into the hands of the other party.

"Be careful!"

In a moment, Li Tian'en could only shout in the direction that Tang Huan had disappeared to, and then looked at the dozens of Eagle Clansmen s, two pairs of eyes were condensed into a solid, sharp blade, and at the same time, a huge pressure erupted from his body.

Close to a hundred meters away, dozens of Eagle Clan Cultivators seemed to have sensed something, and they immediately retreated, escaping from the range of the pressure, and then stared at Li Tian'en and the rest from afar, not daring to get closer.

Although they had a lot of people and five True Spirit Cultivator s, Li Tian'en was too strong.

If there were two or three True Spirit Cultivator s fighting desperately against Li Tian'en, the others would indeed be able to easily catch Hu Kai and the others. Of course, this was a lose-lose situation, and it hadn't reached that stage yet.

As the two sides faced each other, two figures could be seen in the northern forest. One of them was in the air while the other was on the ground.

"Whoosh!" Tang Huan suddenly entered a small forest that was abnormally lush and lush.

"Where is he?"

High up in the sky, the giant eagle's body suddenly stopped above the dense forest. After Tang Huan entered the area below him, he actually did not rush forward again.

Not only that, but its aura had also disappeared without a trace.

"Do you want to hide there and ambush us?" "Childish!"

Sneering, the eagle gazed down at the dense forest with a vicious glint in its eyes. After an instant, there seemed to be countless feathers that had broken away from their wings and shot out, densely packed and overwhelming. In an instant, the dense forest was completely enveloped within.

It was as if thousands of sharp blades were hacking down at the same time. With an earth-shaking ringing sound, the dense forest within a radius of twenty to thirty meters turned into dust in an instant. Countless dust and sand flew everywhere, and the ground had already become riddled with holes and ravines.

However, upon seeing this scene, not only did the eagle not feel any sense of accomplishment, it also felt somewhat bewildered.

At the same time the attack was launched, it was also closely watching the movements below. However, not only was Tang Huan not retaliating, his figure also did not appear in the surroundings, and not even a single trace of abnormal aura fluctuations could be seen. After Tang Huan entered the dense forest, he seemed to have disappeared into thin air!

"How is this possible?"

When it was only a few meters away from the ground, the surface of the giant hawk's body started to ripple. In the next moment, Ying Yu's figure appeared, floating lightly on the ground, while the giant eagle's body in the sky started to shrink greatly.

Two hawk-like eyes swept across his surroundings, but Ying Yu did not let his guard down.

Tang Huan's godly teleportation was hard to guard against. Ying Yu didn't think that the hateful fellow had already been smashed into dregs by that strike just now. He must have definitely left the place with some sort of crafty method before even made his move.

After carefully observing for a moment, he still did not discover anything. Tang Huan did not suddenly appear nor did he conduct a sneak attack.

That guy lured me here just to make me disappear all of a sudden?

Ying Yu frowned, his thoughts running fast.

"This is bad!"

After a short moment, Ying Yu was shocked.

He suddenly thought of a possibility. If Tang Huan lured him away, and then quietly returned ... The of the Rank Five True Spirit was strong, but he was only one person, and it was hard for him to pose a threat to the Eagle Clansmen that was still there.

Ying Yu's expression suddenly changed, and his entire body was covered in cold sweat.

But just when Ying Yu wanted to return, a great sense of danger suddenly welled up from the depths of his soul. In that instant, he felt all thirty-six thousand fine hairs on his body suddenly explode, the biting cold from his spine to the top of his head, causing his soul to tremble.

"This bastard still hasn't left!"

Ying Yu was terrified, a terrifying aura of sharpness suddenly appeared behind him, as though it was going to pierce a hole through his body.

The source of this sharpness was definitely the long spear in that fellow's hand!

If it was just Tang Huan's spear thrusting over, it would not be enough to shock Ying Yu. After all, before this, situations like this had happened quite a few times. However, the situation this time was very different. The sudden burst of sharpness he felt was not even half a foot away from his back.

This meant that the spear point was also less than half a foot away from his body!

With such a small distance, let alone retaliating, he couldn't even dodge!

"Slash!"

The sound of clothes ripping came from behind him, causing a sharp pain to come out immediately. It was the skin on his back being torn apart, causing Ying Yu to smell the scent of death.

A flash of determination appeared in Ying Yu's eyes, and a group of Blood Red Odors suddenly shot out from his stomach.

"Screech!"

Just at that moment, the giant hawk in the sky suddenly let out a mournful cry and rushed into the sky. At the same time, the group of Blood Red Odor also entered his body.

In less than the time of half a blink, the giant hawk's body was completely covered by a dense bloody light, and the speed at which it was flying had increased by countless times.

"Bam!"

An explosive sound was heard from the ground.

Ying Yu's body instantly turned into a rain of blood, but before he could even land in the capital, he had been completely evaporated. Two to three meters away, Tang Huan's figure had already appeared, the bright red spear in his hand maintained its forward trajectory, with his two eyes looking towards the horizon.

The giant blood-red hawk had already disappeared without a trace.

"The moment the True Spirit escaped and stayed in the Great Image, and in the instant it was sent out, it used 'Blood Spirit Escaped Skill'. This method of escaping is rather miraculous."

Tang Huan murmured to himself, feeling somewhat regretful, "What a pity, this is the first time that he's using the 'Yin and Yang Void Method: Heavenly Invisibility' to ambush someone, and he's still not skilled enough. If we were to do it again, he wouldn't be so lucky!"

Chapter 760 - Spear!

In the messy concave area, Li Tian'en and the dozen or so Eagle Clan Cultivators continued to clash with each other.

Both sides had their own misgivings and did not dare to make the first move.

Behind Li Tian'en, Luo Xingkong, Tong Ge and the other peak stage Heavenly Domain cultivators had all rushed over. The unconscious cultivators, after taking the medicine to recover from their injuries, had all woken up.

This also caused Luo Xingkong and the others to be filled with anger when looking at the other side.

However, the dozen or so Eagle Clan Cultivators did not care at all about the angry gazes. It was true that they did not dare to make the first move, but it was not certain that they would be able to make a move later on.

That guy called "Chen Huan" could indeed rely on his strange teleportation methods to show off his strength for a while, but if time passed, he would definitely not be a match for Ying Yu. Once Ying Yu defeated or killed that guy, the group of Tiger Clan would have nowhere to run.

Li Tian'en naturally knew what the Eagle Clan Cultivators were planning, and his brain was already working hard, trying to figure out a way to make Hu Kai, Chen You and the other injured members retreat first. However, if they were to retreat just like that, the Eagle Clan Cultivators would definitely take action to stop them.

"Haha, big brother Ying Yu is back!"

Suddenly, a loud laughter came from afar. The group of Eagle Clan Cultivators all looked towards the north, all of them were excited.

Ying Yu is back, but what about Chen Huan, did he encounter an accident?

Li Tian'en, Hu Kai and the rest were all shocked, their expressions immediately changed as they looked towards the north. In the distant horizon, there was indeed a figure with wings on his back flying at lightning speed, so fast that it actually reflected a string of afterimages.

But in the next moment, the faces of the group of Eagle Clan Cultivators froze, and their laughter suddenly stopped.

"Haha, brother Chen Huan! Brother Chen Huan is back. " After being stunned for a moment, Hu Kai immediately became ecstatic and started laughing maniacally.

"It really is Brother Chen Huan." Li Tian'en also laughed, his eyes shining brightly.

"I knew it, Brother Chen Huan wouldn't have met with any mishaps!"

"Look at those guys on the other side. I'm going to die from laughter. Do they still think that only feathered animals like them can fly?"

" ... "

Chen You, Luo Xingkong, Tong Ge and more than ten other cultivators at the peak of Heavenly Domain were overjoyed, their spirits uplifted.

"How could it be this bastard called Chen Huan?"

"Where's Big Brother Ying Yu? Why hasn't he come yet? Could it be ... "That ... "

"He can actually fly, this... How is that possible? "

" ... "

The group of Eagle Clan Cultivators s could not believe their eyes at all. After that moment, an uproar broke out among the crowd, and questions emerged uncontrollably from the bottom of their hearts. The two of them left together, and now that only one had returned, the other had an obvious ending.

Ying Yu, who was a Peak Rank Four True Spirit cultivator, was killed by a Rank Two True Spirit cultivator? Even if he wasn't killed, he would have been defeated!

Otherwise, Ying Yu would not allow his opponent to return alone!

"Hu!"

The figure rapidly approached. In just a few moments, his face was already clearly visible.

It was Tang Huan who had previously lured Ying Yu away by himself. After arriving above the canyon, he did not land on the ground, and instead instantly flew to the top of the group of Eagle Clan Cultivators s under the watch of many gazes.

"Chi!"

Before the dozen or so Eagle Clan Cultivators s could regain their senses, Tang Huan had already dived down, the Conqueror Spear in his hands smashed down, and a powerful Strength Qi mixed

with blazing heat roared out from the spear's body. In an instant, it condensed into a substance, and like a fiery waterfall, crazily poured down from the skies.

A Eagle Clan Cultivators of the Rank Three True Spirit took the lead and suddenly opened his eyes wide. He roared out wildly and a rich black Qi surged from his body rapidly.

In the blink of an eye, a black eagle that was a few meters long took shape.

"Screech!"

Immediately after, the black hawk screamed, his two wings raised high, with the force of a thunderbolt like force, he slammed forward, after that, he fiercely crashed into the Fire Red Long Spear that was surrounded by the shock wave, a burst of extremely fierce undulations spread out from the point of contact.

In an instant, the sound of the collision shook the heaven and earth, and the Strength Qi frantically spread out.

High up in the sky, the giant black hawk paused for a moment and then began to explosively retreat. Not even a breath's time had passed before both his wings completely collapsed.

"Pfft!"

The Eagle Clan Cultivators also suffered a heavy blow and staggered a few steps back. Blood spurted out of his mouth and his face revealed an unconcealable look of shock. "Everyone, run!"

As soon as he finished speaking, he rose into the air and merged into the giant black hawk's body. The wings on which the black hawk had disappeared once again emerged at the same time.

"Hu!"

With a flap of its wings, the giant black hawk fled into the distance.

With a single spear strike, an expert of the Rank Three True Spirit actually managed to escape with serious injuries. The other Eagle Clan Cultivators were also extremely shocked when they saw this. One by one, they also turned into giant eagles and quickly fled in different directions. They actually wished that they could grow a pair of wings and escape as far away as possible.

The corner of Tang Huan's mouth slightly rose, but he did not give chase.

If Ying Yu was completely killed, none of these fellows would be able to escape in case the news got out. But now that Ying Yu had already escaped, killing them would be useless. Instead, it would very likely cause a fierce conflict between the two great clans of Tiger Clan.

In Firing Dragon Mountain Range, conflicts between the younger generation often happened.

However, both sides will limit the conflict to a certain extent, trying to avoid the death of each other. So far, Ying Yu and the rest had only severely injured the Tiger Clan members, and not killed them the moment they arrived. Of course, this was also the reason why Ying Yu wanted to lure all of the members of Squad Fifty over and capture them in one net. If not for Tang Huan, they might really succeed.

There was no evidence. Even if he knew that it was Eagle Clan who did it, there was nothing Tiger Clan could do. Of course, secretly using the same method to exact vengeance was unavoidable.

Both of his wings withdrew and Tang Huan's figure swiftly floated to the ground. In a few flashes, he had already appeared beside Li Tian'en and the others.

"Brother Chen Huan, where's that Ying Yu?" Li Tian'en asked somewhat impatiently.

"He escaped, but, there's only one True Spirit left."

Tang Huan laughed, and said somewhat regretfully, "It's a pity that we didn't kill him, and that he didn't die, so these fellows could only let them escape."

Li Tian'en, Hu Kai and the rest all took in a breath of cold air, and Luo Xingkong, Tong Ge and the rest nearly had their eyes popped out of their heads. After Tang Huan appeared, they thought that Tang Huan had only lured him to a place far away before stealthily returning to, but they never expected that the real situation would actually be like this.

Under Tang Huan's hands, Ying Yu of the Peak Rank Four True Spirit had actually fallen to the stage of using his True Spirit to escape!
