

W. Master 761

Chapter 761 - High-grade Raw Stone

Seeing everyone's expression, Tang Huan laughed, but did not explain, and asked: "Big Brother Hu (Tiger), how did you come into conflict with those Eagle Clansmen's?"

Hu Kai regained his senses and an excitement that he found hard to suppress suddenly appeared on his face. "Everyone, this time, we really might have to make a move!"

When he spoke, even Hu Kai's voice was trembling.

"What's going on?"

Tang Huan was surprised to hear it.

The attention of Li Tian'en, Chen You, Luo Xingkong and the rest were all attracted over, and all of their gazes landed on Hu Kai. When they were facing the Eagle Clansmen, although the two sides had not exchanged blows, the atmosphere was still rather tense, and no one spoke a word.

"Ban Lei, tell everyone!"

Hu Kai looked at the young man who was sitting on the ground in a blink of an eye. It was the guy who had suddenly appeared to capture the 'Red Glow Fire Crystal' when he was trying to lure the 'Wind-bell Flamingo'.

Under everyone's gazes, Ban Lei hurriedly stood up, his pale face flushed red: "I ... I think I found a piece of Divine Stone! "

"What?"

"Divine Level Stone?"

"..."

Hearing these two words, other than Hu Kai and a few others who already knew about it, Li Tian'en and the others were all shocked.

Tang Huan's eyes also flashed with surprise.

The Divine Level Stone that Ban Lei was talking about could only be naturally formed Divine Level Stone, not synthetic Divine Level Stone.

In the Forging God Great World, Divine Level Stone could be said to be a priceless treasure. One Saint Grade Gem was worth forty "Initial Spirit Heavenly Crystal", but Divine Level Stone, even the lowest ranked Divine Level Stone, were worth more than ten thousand times that of the Saint Grade Gem, which was four hundred thousand "Initial Spirit Heavenly Crystal".

Furthermore, Divine Level Stone of the same level, the value of Natural Divine Stone, was above the synthetic Divine Level Stone.

"Ban Lei, where is the piece of Divine Stone?"

Luo Xingkong and the others also looked at Ban Lei with shining eyes. If they could really find a piece of Divine Stone to hand over, then everyone in team 50 could get tens of thousands of crystals. This was not even considered as an additional reward.

"Over there."

Ban Lei pointed to the northeastern slope, and then added hesitantly, "I am also not sure if it's the real Divine Level Stone, but before we even had the chance to inspect it carefully, Ying Yu and the others already appeared and injured us without saying anything. Then, the vice-captain not far away heard the commotion and came to stop us, and then Big Brother Tang Huan and Chen You rushed over to support us.

"It doesn't matter if it's true or not, let's go take a look first."

Li Tian'en waved his hand, and grabbed Ban Lei's wrist, bringing him to the northeastern part of the city. Tang Huan and the rest brought the other injured members, and quickly followed.

Not long later, they crossed the 100m area and arrived at the slope.

In the middle of the dense forest, there was a small hole. The hole was several dozen meters deep and had a diameter of twenty to thirty meters. However, the bottom was extremely small, like a funnel. The side of the hole was dotted with clumps of weeds and shrubs. The area around the hole was also filled with crevices and ravines. Broken pieces of rotten wood could be seen everywhere.

Clearly, an intense battle had occurred at this place. This was why there were so many traces left behind. The time that they had fought should have been a few years ago. With a single glance, Tang Huan made a judgement in the bottom of his heart, and then, he started to carefully search within the hole, his Perception Ability also starting to increase rapidly.

In the next moment, Tang Huan's gaze fell onto the bottom of the cave, where a clump of shrubs seemed to have been uprooted.

"Everyone, look over there!"

Ban Lei pointed to the bottom of the hole and immediately, Li Tian'en jumped down. Tang Huan, Hu Kai and the others also followed along and stood in a circle around the hole.

Li Tian'en picked up the bush and threw it away, then quickly pushed the loose black soil away.

A small piece of black stone wall was revealed. The stone that was buried under the black soil was obviously quite huge. At this moment, all he saw was a small dot.

"Everyone look, there really seems to be something inside."

Li Tian'en shouted in surprise.

Tang Huan looked over, inside the stone, it was dark and misty, as if there were churning clouds and mist, and in the midst of the clouds, there would occasionally be a flash of white light. Chen You, Luo Xingkong, Tong Ge and the others also sensed the situation inside the black stone and could not help but exclaim out loud.

"High-grade Raw Stone! This must be a High-grade Raw Stone! " Hu Kai said confidently as he rubbed his eyes and rubbed his rough palms.

"High-grade Raw Stone?"

Tang Huan's heart skipped a beat.

Above the "Fancy Raw Stone" was the "High-grade Raw Stone".

"If this piece of black stone is truly a 'High-grade Raw Stone', then the hidden meaning must be definitely a Divine Level Stone. High-grade Raw Stone was different from ordinary Primeval Stones. There was a large chance that Primeval Stones were useless rocks, but once the High-grade Raw Stone was cut out, it would definitely be Divine Level Stone s.

In all these years, this area had already been searched countless times, but no one could have imagined that there was actually an incomparably precious "High-grade Raw Stone" concealed under their noses.

But, upon thinking about it, Tang Huan understood what was going on.

The color of the dirt and stone here was very similar. When the cultivators fought back then, the dirt fell and covered the black stone at the bottom of the hole once more. That was why they didn't find it. After that, this kind of place would naturally not attract attention. It was only this time, on a whim, Ban Lei managed to pull out the clump of shrubs that grew from the bottom of the hole, and only then did he notice the abnormality.

If the cultivators who had fought and searched this place knew of the situation here, they would be so angry that they would vomit blood!

"No, we have to take it out immediately and send it back to the Wind Howling City. Otherwise, we probably would be able to make it here even faster than the other stronger Eagle Clansmen."

Li Tian'en suddenly asked.

When everyone heard this, they could not help but feel a sense of urgency.

Those Eagle Clan Cultivators s who escaped already knew about the existence of this "High-grade Raw Stone," they would definitely spread the news to other Eagle Clan Rankers, if they could not take advantage of the time when these people were rushing over, then no one could escape, even Tang Huan, who could fly, was no exception.

"Right, right, hurry and dig it out."

"Hurry up!" Hurry up and make your move! "

"..."

Hu Kai and the rest immediately scattered. Tang Huan also floated to a higher place on the cave wall, leaving Li Tian'en at the bottom of the hole. Seeing this, Li Tian'en did not hesitate any longer. He placed both of his hands on the black stone and roared out with green Qi. The green Qi flowed along the surface of the black stone and seeped into the soil below.

"Come out!"

With a low roar, Li Tian'en suddenly raised both his hands, and the soil around him immediately tumbled forward, causing the black stone beneath his feet to immediately be lifted up. It was actually round and round, with a layer of cyan Qi covering it, and the diameter was at least three meters.

After the huge black boulder was revealed, the situation became even clearer. Inside the stone, the black mist was surging. The cloud was strange and the white light was faintly discernible.

Chapter 762 - Strong Enemy!

At this moment, Li Tian'en's situation didn't seem right. His face was flushed red, the veins on the back of his hands and on his forehead were bulging. Even his arms holding the black boulder was trembling, as if it was extremely strenuous.

"The High-grade Raw Stone is actually this heavy?" Tang Huan was a little surprised.

"Aooo!"

Li Tian'en suddenly roared out, he raised the black boulder and rushed forward. In the blink of an eye, he had already rushed out of the hole.

However, in the next moment, he could not hold on any longer. He lowered both of his arms, and the huge black boulder fell forward. With a hong sound, half of the stone had already sunk into the ground. The green aura on the surface of the stone quickly dissipated, revealing the original black luster of the "High-grade Raw Stone".

As for Li Tian'en, he seemed to be exhausted. Both of his hands supported the boulder as he gasped for breath, this short distance seemed to have used up all of his strength.

Seeing this scene, Hu Kai, Chen You and the others who had rushed out of the hole immediately looked at each other in dismay.

Li Tian'en was a strong Rank Five True Spirit Ranker, although he had not fully recovered from his injuries, his strength was still strong. However, holding up a huge boulder and crossing such a small distance, it was as if he had lost half his life?

"Brother Li, are you alright?"

Tang Huan appeared beside the boulder, the shock in his eyes grew even stronger. As far as the ore was concerned, the gelatin on the surface was extremely tough but very light. Its weight was mainly determined by the precious stones contained within. Ordinary primeval stones were so, so were "Fancy Raw Stone" and "High-grade Raw Stone".

A piece of Divine Stone was already this heavy, how much weight would a weapon forged with so many materials, including Divine Level Stone, have to be?

It was unknown what cultivation it would take to use such a weapon!

In the small world, Tang Huan's weapon forging skills had already reached the peak of Weapon Refining Grand Master, even for the Divine Weapon Catalogue s, forging them was not difficult at all.

But the appearance of this piece of High-grade Raw Stone, had made Tang Huan feel an enormous challenge.

However, Tang Huan was very clear that with his current strength and Tools Method Attainments, even if he was given a piece of Divine Stone, it would still be difficult for him to use it to forge a weapon.

"Everyone must be ridiculing me!"

Li Tian'en let out a long sigh, then said with a bitter smile, "This is the first time I've seen the 'High-grade Raw Stone' with my own eyes. Before this, I've also heard that the 'High-grade Raw Stone' is very heavy, but I never thought that this thing would actually be this heavy.

To prevent it from being exposed, it would be best for the 'High-grade Raw Stone' to be hidden by Brother Chen Huan. "

This method was indeed feasible, but it was extremely dangerous for Luo Xingkong and the others.

Moreover, with the weight of the "High-grade Raw Stone", even if Tang Huan was to hide, he wouldn't be able to hide it too far away. If those Eagle Clansmen were to carefully search through this area, they would be able to find it easily.

But other than that, there seemed to be no other way.

"I can only..."

After thinking about it, Li Tian'en nodded his head helplessly, but before he finished speaking, Chen You shouted out anxiously: "Everyone, quickly look over there!"

Hearing that, everyone subconsciously followed Chen You's gaze, and saw a few small black spots suddenly appear at the end of the distant horizon.

"Eagle Clansmen!"

The expressions of Li Tian'en, Hu Kai and the rest changed as they exclaimed. To think that those Eagle Clansmen would come so quickly. Right now, it was impossible to hide the "High-grade Raw Stone" even if one wanted to. Such a precious treasure, to actually find such a precious treasure, was the wedding cloth for the Eagle Clan.

"Buzz!"

However, right at this moment, an abnormally intense buzzing sound entered everyone's ears without any warning. Looking towards the source of the sound, they saw a ten-meter-long flying shuttle floating above them. It was sparkling and translucent like jade, releasing a dazzling white luster.

"Space Aircraft!" Li Tian'en was the first to react as she cried out in surprise. A hint of a smile was revealed deep within Chen You's beautiful eyes.

"Space Aircraft?"

Hu Kai, Luo Xingkong and the rest were startled at first, but after that, they seemed to have understood something, and looked towards Tang Huan, eyes flickering with uncontrollable surprise.

Chapter 763 - Gem Vein

"Everyone, don't resist!"

Tang Huan did not have time to explain, with a low shout, a huge vortex formed, and the power of the sucking spread out from the Space Aircraft.

In the blink of an eye, Li Tian'en, Hu Kai, Chen You and the other nineteen people had already entered the inner parts of the aircraft.

Immediately after, the power of the sucking enveloped the gigantic boulder once again.

"High-grade Raw Stone?"

Shocked cries suddenly sounded out, and following that, an angry shout that sounded like rolling thunder surged over, "You think you can escape from this old man with just this tiny Space Aircraft?" "Innocent!"

Almost at the same moment, hundreds of meters away, a huge white eagle flapped its left wing, and a huge blade flew forward.

"Slash!"

A loud sound rang out, as if the sky itself was being torn apart.

The extremely fierce Qi undulations covered the sky and the earth, as though countless sharp blades were filling up the surrounding hundreds of meters including Tang Huan.

Tang Huan's scalp exploded, the chill in his heart soared, as though his entire body was going to be sliced into pieces.

"Hu!"

Fortunately, at this time, the heavy "High-grade Raw Stone" was finally lifted by the sucking and submerged into the depths of the vortex. Tang Huan did not hesitate at all. In the span of a mind instructs (in a second), the Space Aircraft quickly shrank, and his eyes instantly turned into two black and white vortexes that quickly flowed and expanded.

When the exquisite flying shuttle entered Tang Huan's chest, the clothes on Tang Huan's body and even his skin started to crack, and fresh blood started to seep out. Pieces of grass and trees were torn apart, and countless cracks began to appear on the ground.

Even the Space Aircraft had continuously produced shockwaves, as if it had been struck by an invisible Strength Qi.

"This fellow's strength is actually so terrifying!"

Tang Huan was shocked, but his body was immediately covered by the black and white whirlpools, and instantly melted into the air. Compared to when he was in the Wind God Valley back then, his speed of merging into the void had become even faster.

In the next moment, the white blade-light poured down like a waterfall and landed at the place where Tang Huan was previously standing.

Ripples that could even be seen with the naked eye appeared in the air. At the same time, a huge crack also spread out with shocking speed left and right. Black soil shot out, forming a wave dozens of meters tall that shot straight into the sky with frightening might.

"Hu!"

With a flick of his finger, a hurricane flew from the sky and swept away the waves. It was the giant white hawk that had reached the sky and spread its wings, covering the sky and the earth.

"Hmm?"

The giant eagle floated to the ground and within its large golden eyes, two cold gazes that seemed to have condensed into substance shot out. After quickly sweeping its gaze around once, a

somewhat surprised voice rang out, and its tone contained a tinge of suppressed anger, "You actually managed to escape?"

"Phew!" "Huff ..." Immediately after, another dozen of the smaller eagles landed on the ground, their eyes filled with shock and disbelief.

"Search!" Do not let even an ant escape! " The giant white hawk suddenly shouted.

"Yes sir!"

In the midst of the chorus, a dozen figures rushed into the sky without hesitation and scattered in all directions.

The giant white hawk's eyes darkened. Both of its eyes scanned the surrounding space again and again as if trying to find some clues.

In the forest several hundred meters away, Tang Huan was quietly hiding.

He did not immediately move away from the attack. Although he successfully dodged it, he was still hit by quite a bit of it. His clothes were already blue and green, and there were countless fine cracks on the north side of his body.

However, Tang Huan possessed the "Sun Spirit Body", his healing ability was ridiculously strong. After a while, the golden blood stopped flowing.

When Tang Huan saw the white giant hawk's true appearance, he was extremely shocked.

When Ying Yu's Great Image was activated to its limit, it was already big enough, but this white hawk was even bigger than Ying Yu's Great Image by several times. Standing on the ground, it was actually more than ten meters tall. To cultivators who had the Four Great Clans bloodline, the larger the Great Image, the stronger it was.

"This guy's strength definitely surpasses the True Spirit Level!"

Tang Huan secretly took a deep breath, as he was also rejoicing in his heart. This group of Eagle Clansmen should have been nearby to begin with. Otherwise, it would have been impossible for them to arrive so quickly.

Fortunately, when he discovered them, he immediately made a decision. Otherwise, even if he had hesitated for even a second, he would not have been able to completely dodge the giant white hawk's attack. Even with a "Sun Spirit Body", he would not have been able to withstand an attack of that degree.

Of course, apart from being fortunate, Tang Huan was also quite happy.

The white giant hawk did not discover his presence. "Yin and Yang Void Method: Heavenly Invisibility" was clearly something that could hide even experts above True Spirit s.

Unfortunately, his cultivation level was still too low, so this method wouldn't be able to be maintained for a long time.

In a blink of an eye, Tang Huan had already thought of retreating, but just as Tang Huan was about to turn around, the white giant hawk seemed to have discovered something, and its wings suddenly started to flap.

"What does he want?"

Tang Huan muttered to himself in confusion. The direction in which the giant eagle wings were flapping was exactly where the hole was previously located. The blade light wielded by the eagle landed directly on the edge of the hole. At this moment, most of the hole had already been absorbed by the hole.

In addition, the depth of the crevice exceeded that of the cave.

"Slash!" "Riiiiip!"

The sound of silk splitting once again rang out between the heaven and earth. Two massive white blade lights whizzed out with the beating of the eagle's wings, and actually cut into the bottom of the crack like a waterfall. Huge chunks of earth were like monstrous waves, rolling out layer after layer in all directions.

The giant eagle flapped its wings, and rays of blade light shot out.

The fissure continued to expand and sink. After a while, the giant eagle even jumped into the fissure and disappeared. However, the waves of earth continued to rush out. Tang Huan did not approach him, the wave contained a powerful force, if he were to rush in there, he might reveal his location, but he could vaguely estimate that the crack line was already more than a few hundred meters deep, or even a thousand meters.

"Gem Vein?"

Not long after, an uncontrollable cry of surprise could be heard from underneath the crevice, "Four Clans searched for over a hundred years for a vein, and he actually hid himself in this place. Good, good, the heavens are truly aiding my Eagle Clan!" The giant white eagle's voice mixed with the sound of the waves breaking through the air was full of excitement.

"The mine is actually here?"

Tang Huan was startled, and immediately after, his heart skipped a beat. The Gem Vein, was actually hiding under that "High-grade Raw Stone"? Judging from the direction, this should be the end of the Gem Vein, and from here, it would extend all the way to the upper reaches of the river.

As he thought about it, Tang Huan no longer delayed, and shot off into the distance like a bolt of lightning ...

Chapter 764 - Contribution List First!

Two days later, when it was almost noon, a group of people hurriedly returned to Wind Howling City and entered it. It was the Fiftieth Clan Guardian Group composed of Tang Huan, Li Tian'en, Hu Kai and Chen You.

After Tang Huan left the Riverside Mountain Range, he desperately ran for a distance and then found a place to hide before he ran out of energy, to avoid the Eagle Clansmen s searching in the sky. After carefully using "Initial Spirit Heavenly Crystal" to recover his strength, he once again advanced.

After spending more time than when he came, Tang Huan finally returned to the vicinity of Wind Howling City and released Li Tian'en and the others.

The moment they entered the Space Aircraft, under Tang Huan's orders, the artifact spirit of the aircraft sealed the passage to the surrounding space. In the past two days, they had stayed within the

center of the space and did not know about Xiao Budian's existence. Naturally, they also did not know about the large number of "Initial Spirit Heavenly Crystal" that were hidden inside.

"What?" You found a 'High-grade Raw Stone,' and you even found the location of a mine? " Not long after, a cry of shock came out from within the hall deep inside the Wind God Valley. Manager Hu Yue jumped up from her chair in shock, her eyes were round as though she was about to jump out from her eye sockets.

"Is that true?"

Before Tang Huan and the rest could speak, another urgent shout came out. directly jumped down from the window on the second floor, and with large strides, he entered the palace.

Seeing Luo Xingkong, Tong Ge and the other cultivators at the peak of Heavenly Domain flushed red to the ears, almost to the point of suffocation, Hu Xiao came to a realization. In a moment of mind instructs (in a second), the pressure that was pressing on palace disappeared without a trace, but on his grave and stern face, the excitement could be clearly seen, and his eyes were staring straight at Li Tian'en.

"Absolutely!"

Glancing at Tang Huan at his side, Li Tian'en clenched his teeth, and nodded fiercely. He did not personally see the existence of the mine, but he believed that Tang Huan would definitely not joke about such a thing, since he said that the location of the "High-grade Raw Stone" was the mine, then there must be one.

"Alright!"

Receiving Li Tian'en's affirmation, Hu Xiao heaved a sigh of relief, but his excitement could be seen from his words.

"Lord Commander, the Gem Vein is in the middle of the mountain range that we are investigating this mission. However, it is currently occupied by the Eagle Clan." Li Tian'en hurriedly added.

"It doesn't matter, as long as there's a mine!"

Hu Xiao clapped his hands together and laughed loudly, "Hu Yue, give Team 50 the statistics of your contributions and rewards, calculate everything with the maximum amount, and I'll go see the Lord right away."

"Yes sir!"

Hu Yue immediately agreed, and when he finished speaking, Hu Xiao's figure had already disappeared from the palace.

"Captain Li, where are you guys putting the 'High-grade Raw Stone'?"

Hu Yue looked at Li Tian'en, and there was still some shock in his eyes.

Previously, when Li Tian'en came to accept this mission, he did not think much of it. After all, all these years, whenever news of the mine appeared, he would always issue a mission to investigate it with the Clan Guardian Group. But who would have thought that after just a few days, Squad 50 had not only completed this kind of mission, but had also brought a huge surprise that no one could ignore.

A "High-grade Raw Stone" represented a Natural Divine Stone. Even the lowest ranked Natural Divine Stone was incomparably precious. With a "Initial Spirit Heavenly Crystal", it was extremely difficult to buy.

As for the value of that vein, it was immeasurable.

The vein in that dried up river should be the "Neon Gem" vein. However, within the mines, not only would there be "Neon Gem", there would also be many other precious stones growing along with it, and there might even be "High-grade Raw Stone" that contained Divine Level Stone s.

Hearing Hu Yue's words, everyone's gaze turned to Tang Huan. Seeing that, Hu Yue turned and looked at him suspiciously.

"Buzz!"

With a slight movement of his thought, the flying shuttle flew out from Tang Huan's embrace, rapidly expanding within the palace, and his trembling sound resonated through the air. Back then, when he was in Chen Village, his aircraft had already been exposed in front of Luo Hao.

"So that's how it is!"

Hu Yue suddenly realized that Tang Huan actually had a Space Aircraft on him, so the "High-grade Raw Stone" was definitely inside the aircraft. Only in this way would Team 50 be able to bring the "High-grade Raw Stone" back.

After all, with the weight of the "High-grade Raw Stone," even if Li Tian'en, Hu Kai, and Tang Huan were to carry it together, they would still not be able to go far.

"Thump!"

In a split-second, a round black boulder flew out from the Space Aircraft. The moment it landed, the entire hall trembled.

"It really is a 'High-grade Raw Stone'."

Hu Yue's figure flashed and arrived in front of the huge boulder. His entire face seemed to be plastered on the stone surface, his two eyes constantly emitting a dim light. After a long while, Hu Yue's palms pressed down onto the stone surface, pushing it a bit, "Judging by the weight, the one inside should be the Lower Grade Divine Stone."

"However, even if it's a Lower Grade Divine Stone, it would be worth hundreds of thousands of 'Initial Spirit Heavenly Crystal' outside." Hu Yue looked at the crowd and said with a smile, "You guys have handed it over, so naturally, we can't let you guys suffer a loss. How about this' High-grade Raw Stone 'becomes five hundred thousand' Initial Spirit Heavenly Crystal '?"

"Thank you, Manager."

Everyone was overjoyed. This number far exceeded their expectations.

Under normal circumstances, he should be able to obtain four hundred thousand "Initial Spirit Heavenly Crystal". Hu Yue instantly increased by a hundred thousand, evidently because he had discovered the Gem Vein. Five hundred thousand "Initial Spirit Heavenly Crystal", if divided evenly, everyone would get twenty-five thousand. This could be called a huge reward.

"Besides the five hundred thousand Initial Spirit Heavenly Crystal, this High-grade Raw Stone will also be counted as your team's one million contribution."

Hu Yue said with a smile, "In addition, Clan Guardian Group's highest reward is one million contribution points. However, your mission this time is extraordinary, but on top of that, you will receive an additional one million contribution points. Adding it together, it will be two million contribution points."

"Two million for the mission, and one million for the 'High-grade Raw Stone', that would be three million!"

"There used to be six hundred and fifty thousand... "That means our team 50 now has 3.650 million contribution points."

"Three million six hundred and fifty thousand!" Haha, I can already be ranked first in Contribution List! "

"We're rich, we're rich! Our team really is rich this time!"

"..."

After a brief moment of surprise, everyone was wild with joy.

As for Li Tian'en and Hu Kai, they were so excited that their faces were flushed red. Three million six hundred and fifty thousand contribution points, it was not a simple number, it was a number that represented a large amount of rewards.

"These are all what you deserve." Hu Yue said with a face full of smiles, "Of course, compared to the contribution your team has made to the Tiger Clan, this amount is still a little small. I will consult with the Elders and give them the other rewards for Team 50. I'll register them for you first."

"Wait, Manager Hu Yue, I still have something here ..." Hu Yue returned to the table, just as he was about to pick up the pen, Tang Huan's voice sounded out.

Chapter 765 - Tiger Vigour Bell's Cry

"This is ..."

Looking at the cloth bag that Tang Huan handed over, Hu Yue was startled. He then received it and opened it to look, and immediately exclaimed, "'Neon Gem'?"

With that said, Hu Yue flipped over the cloth bag anxiously.

With a "Hua la" sound, all the items inside were thrown onto the table. A dazzling burst of light burst out, dazzling the eyes of those who saw it.

"Hiss!"

In the Main Palace, a collective gasp sounded out. Li Tian'en, Hu Kai and the rest all stared wide-eyed with shock.

"Brother Chen Huan, you and Chen You found so many 'Neon Gem' in such a short amount of time?"

Li Tian'en looked at the table, then looked at Tang Huan, and could not help but exclaim.

After arriving at their destination, they had only gone through half a day's worth of time, from when the team was split apart to when Hu Kai called out to them. Aside from the "High-grade Raw Stone", within the six squads, they did not find a single gem. However, Tang Huan and Chen You had gotten such a big bag.

"You can only blame Chen You for being too lucky. He casually flipped open a rock and found a nest of gems." Tang Huan laughed.

"I've only found the gem once. I've flipped through it hundreds of times, but I haven't found a single gem."

Seeing Tang Huan putting all the credit on himself, Chen You speechlessly rolled his eyes at him, but he could not explain it, and only pursed his lips and laughed.

Looking at the smiling Chen You, everyone was even more speechless.

It was already heaven-defying enough to have such luck once! If you were to do it a few more times, wouldn't those cultivators who had climbed over the rocks countless times over the past hundred years cry themselves to death?

One had to know, this was no ordinary Saint Grade Gem, but a "Neon Gem." This gem had always been a popular commodity. In the past few days, many people had visited this dried up river. Being able to find one or two gems was already a very good fortune.

"50 Neon Gem s, 6 other Saint Grade Gem s."

Hu Yue had already counted the number of gems he had, and his face was twisted into a chrysanthemum, "Fifty 'Neon Gem' is equivalent to two thousand 'Initial Spirit Heavenly Crystal', five hundred thousand contribution points. The other six gems are considered fifty 'Initial Spirit Heavenly Crystal', ten thousand contribution points. Adding it up, your team will have five hundred and fifty thousand Initial Spirit Heavenly Crystal, and the accumulated contribution of your team will be four million and one hundred thousand. "

His voice paused for a second, and then Hu Yue said with a smile on his face, "Also, with every hundred thousand contribution points, the team will get twenty 'Initial Spirit Heavenly Crystal's'. With this, each of you twenty people will get another seven hundred 'Initial Spirit Heavenly Crystal's', and with every five hundred thousand contribution points, you will get a chance to choose a cultivation technique or technique, which also means, you can all choose seven different cultivation techniques or techniques from the first level of Tiger Might Hall."

"However, I do not recommend that you use all of your opportunities on the first level of Tiger Might Hall."

"According to the rules, if you have the chance to choose a battle skill from the first six levels of Tiger Might Hall, you can exchange it for one to enter the second level of Tiger Might Hall. Of course, you can decide whether or not you want to change it. "

"There's no need to think about it further. Let's go to the first floor of Tiger Might Hall, second floor one time."

"Change!" It definitely has to be changed! "

"Haha, I heard that the battle skills of the second floor of Tiger Might Hall are far stronger than the first floor."

"..."

Li Tian'en, Hu Kai and the others did not hesitate at all.

Tang Huan naturally had no objections, he was also extremely curious about the second and third floor of Tiger Might Hall, so he definitely could not miss this chance to enter.

Before long, Squad 50 left the Audience Hall.

This time, another three jade plates appeared in Li Tian'en's hands. One of them looked like a "tiger in its den", while the other two jade plates revealed the word "tiger's might", only one of the jade plates had a golden symbol, while the other one had a golden and red color.

Just like last time, the moment everyone left the great hall, they charged towards the Tiger Vigour Summit ...

... ..

At the peak of Tiger Vigour Summit, in a small hall.

"Great!"

A rough voice suddenly sounded.

Hu Lie's muscular body sprung up from his seat and he fiercely clapped his hands. His face was filled with an irrepressible excitement: "After so many years, that mine has finally been discovered! Hehe, Eagle Clan ... Gem Vein is not something that their clan can take on alone! "

Hu Lie walked a few steps back and forth in the hall complacently as Hu Lie suddenly raised his eyes to look at Hu Xiao, and said solemnly: "Hu Xiao, this time, Squad 50 must receive a heavy prize! It's fine if it's just one High-grade Raw Stone, but that Gem Vein is too much of a help to our Tiger Clan. "

"Yes, I have already instructed Hu Yue." Hu Xiao nodded.

"Someone, come!" Hu Lie nodded, and shouted.

"Here!"

At the entrance of the palace hall, a figure appeared in a flash.

"Knock on the Tiger Vigour Bell, gather all the elders, come here to discuss the matter!"

"Yes sir!"

"..."

This time, the first to go was the Tiger Might Hall.

A stack of Initial Spirit Heavenly Crystal with over five hundred thousand members was like a small mountain. Even if they were divided into twenty portions, there would still be a pile of them. First, he would go to the "Tiger Might Hall", and then, he would go to the "Tiger Crouching". Naturally, he wouldn't have to carry around a large bag of "Initial Spirit Heavenly Crystal" and run all over the place.

Seeing the huge pavilion surrounded by trees once again, everyone's anxious mood calmed down.

"Thump!"

At this moment, a resounding bell chime sounded out, resounding through the world. But before the bell chime could fade away, an earth-shattering roar resounded.

"Roaaaaaar!"

This roar came from the summit, as if there was a fierce tiger roaring with its head held high.

"Tiger Vigour Bell?"

Everyone was startled, and after a moment, Hu Kai who came back to his senses first exclaimed: "Seems like Lord wants to gather all the clan elders for a discussion!"

Tiger Vigour Bell s were like giant tigers. After they were struck, not only would there be a bell chime, there would also be the sound of a tiger's roar that would sound out.

Tang Huan, Li Tian'en and the others looked at each other, and naturally understood why the words "Tiger Vigour Bell" had been rung at this time. It was clear that Lord had received news about the "High-grade Raw Stone" and the Gem Vein from Hu Xiao. To the Tiger Clan, this was definitely a huge matter.

However, the people of Tiger Clan who did not know the reason were all shocked.

"Tiger Vigour Bell? Am I hearing things? "

"Hiss, it really is a Tiger Vigour Bell! How many years has it been since this Tiger Vigour Bell has been knocked? "

"What's wrong, the Lord wants to gather all the clan elders?"

"There's an invasion, or ..."

"..."

On Tiger Vigour Summit, countless cultivators were alarmed by the deafening bell chimes and tiger roars, and they all looked towards the summit of Tiger Vigour Summit in shock. In a split-second, the entire area fell into a frenzy. All kinds of discussions were going on without end.

"Hu!"

In Tiger Might Hall, a white figure suddenly flashed out from the first floor of the pavilion. It only glanced at Tang Huan and the others, then quickly turned towards the back of the pavilion and disappeared without a trace.

Chapter 766 - Superior Arrow True Skill

"Thump!"

"Roar!"

"..."

The sound of a bell and the roar of a tiger resounded through the sky for the third time in a row.

Tang Huan was not concerned about the outcome of the discussion between Tiger Clan and the elders. On the third time the Tiger Vigour Bell rang, he, Li Tian'en, Chen You and the others had already entered the Tiger Might Hall.

There was no one by the door on the first floor of the pavilion, but Li Tian'en still obediently placed his jade tablet on the floor. For an important place like the Tiger Might Hall, there was no way that only the white robed old man would be guarding it. He had been summoned away by the Tiger Vigour Bell, there must be other Tiger Clan experts present as well.

And then, the impatient crowd started to move.

Tang Huan also started to wander around the pavilion, following which the "Nine Yang Divine Furnace" and the "Five Colors True Spirit" began to circulate rapidly, his Perception Ability rapidly increased.

"Last time, after we obtained the sacred art 'Yin and Yang Void Method', the Tiger Clan actually did not make any unusual movements, moreover, the situation that happened in the Tiger Might Hall that day did not spread throughout the Tiger Clan, it is obvious that this is illogical. It is likely that the Tiger Clan has sealed off the news, I wonder what exactly are their plans?"

Tang Huan's mind raced.

Since the sacred art was taken away by an outsider, the Tiger Clan definitely would not turn a blind eye to it.

However, since they did not react for the time being, that was what he wished for. He wanted to borrow the Tiger Clan's resources to increase his cultivation as much as possible. In any case, he had already comprehended the first level of transformation of the "Yin and Yang Void Method." This kind of miraculous method of escaping and saving his life gave him the confidence to quietly wait and see!

Tang Huan leisurely walked past the rows of statues.

With regards to the harvest this time, he did not have much expectations. After all, the fortuitous encounter from last time was something that could only be encountered by chance and not sought. It was impossible for him to obtain the sacred art every time he entered the first level of Tiger Might Hall.

To be able to find a suitable battle skill for his cultivation technique, this trip was worth it.

After a long while, Tang Huan stopped in front of a crystal clear jade statue. After observing for a moment, Tang Huan lightly pressed on the head of the sculpture.

This statue caused Tang Huan to feel an almost invincible sharpness.

"Weng ..."

With a clear buzzing sound, a dense golden Qi rose up, quickly condensing into a small ball that shot towards Tang Huan. In the time it took for lightning and fire, it had already fused with the center of his brows, disappearing without a trace. In the next moment, a large amount of information appeared in the depths of Tang Huan's mind.

Following that, Tang Huan calmed his heart and concentrated, carefully considering the situation.

"Superior Arrow True Skill..."

After approximately half a quarter of an hour, Tang Huan could not help but laugh.

This time, the "Superior Arrow True Skill" Tang Huan had obtained was not a pure cultivation technique nor was it a pure battle skill. Instead, it was a technique that was somewhere between a cultivation technique and a battle skill, it could be used to complement an arrow type battle skill.

"With this 'Superior Arrow True Skill', combined with the Exquisite Carving Bow's 'Eagle Feathered Arrows Technique', the power displayed will definitely increase greatly."

Satisfied, Tang Huan swept his gaze across the place and quickly walked towards the stairs leading to the second floor of the Tiger Might Hall.

Over ten people had already gathered there. All of them were members of the 50th Squad who had obtained their cultivation techniques and battle skills. Their faces were all filled with joy; it was evident that their harvest was not bad.

"It's too awesome. I wonder what kind of cultivation technique I will get after entering the second layer of Tiger Might Hall?"

"No matter what kind of battle skill it is, it's definitely stronger than the first level."

"Big brother Chen Huan, it's all thanks to you this time!"

"..."

Everyone either lowered their voices, waiting for the results, or thanked Tang Huan.

They knew very well in their hearts that whether it was the last time they went on a mission to collect the "Flamingo Blood Beads" or this time's exploration of the mines, Tang Huan had played a decisive role.

If not for Tang Huan, they would still be lying in the forest deep in the mountains of Firing Dragon Mountain Range, trying to lure the "Wind-bell Flamingo" over. As for the rewards brought by the "High-grade Raw Stone" and the mines, they would not have anything to do with them.

Everything that had happened now, was all brought over by Tang Huan.

Very quickly, Chen You, Li Tian'en, Hu Kai and the rest all walked over with smiles on their faces. When all the members of Squad 50 were here, everyone started to climb the stairs to the second floor of Tiger Might Hall.

The second floor was slightly smaller, and there was another old man sitting on a prayer mat by the side of the door. He was wearing a grey robe, and although he was weaker than the old man in the white robe, he gave off a feeling that he was as tall as a mountain, as if he was a giant.

"Yet another unfathomable fellow!"

Tang Huan's mind was slightly shaken. The strength of the grey robed elder should be even stronger than the one who was overseeing Tiger Might Hall. Four Great Clans was indeed a crouching tiger and hidden dragon.

In a blink of an eye, Tang Huan, along with the rest, bowed deeply towards the grey robed elder.

After that, Li Tian'en respectfully stepped forward and placed another Tiger Might Hall jade tablet on the table in front of the gray-robed elderly man. The crowd dispersed with excitement.

On the second floor of Tiger Might Hall, there were also many different kinds of statues.

However, compared to the lower level, the number was much less. Tang Huan did a quick count, there were only a total of 99 statues. Although the Qi emitted by each statue was extremely minute, the strength of the Qi was extremely shocking, and could not be compared to the statues below.

"It seems like the battle skills here are much stronger than the ones in the lower levels."

Tang Huan was also quite looking forward to it.

Just as he was about to take a step forward, he suddenly felt a strange sensation in his heart.

Unconsciously turning his head, he saw that the old man in the grey robe had opened his eyes, and a hint of smile could be seen in his deep black hole eyes. However, when he focused his eyes, the old man's eyes were closed, as if he was sitting upright.

"Illusion?"

Tang Huan frowned, a little doubtful.

He could feel that the old man must have recognized him as the person who had obtained the [Yin and Yang Void Method], but he did not seem to have any ill intentions.

Tang Huan was too lazy to think anymore and walked towards the two rows of statues.

Time passed bit by bit.

"Haha ..."

After a long while, Hu Kai, who had just fused with a ball of black Qi not long ago, suddenly started to laugh uncontrollably.

After he said that, he seemed to realize that this was not the place to make such a ruckus, so he quickly covered his mouth, suppressing the laughter that had rushed to his throat. His face instantly flushed red, but the ecstasy on his face could not be hidden no matter how hard he tried.

Looking at his appearance, even a fool would know that he had found a powerful technique that was very suitable for him.

"This guy!"

Seeing that, Tang Huan was speechless.

In the Tiger Might Hall, the position of the statues changed frequently. It was completely impossible to find a specific cultivation technique through the experiences of others.

Of course, the reason the Tiger Clan did this was not to make things difficult for the cultivators that enter the Tiger Might Hall. It was to let them sense the Qi to determine which cultivation technique or technique was most suitable for them.

Everyone wanted the most powerful cultivation technique, but it wasn't necessarily what he needed the most. Tang Huan retracted his gaze, and observed the statues, then suddenly stopped in his tracks.

Chapter 767 - The Harmonization of Sky and Earth Arts

"Yuan Rong Life Tactic!"

Inside the Wind God Valley, Tang Huan let out a long sigh. He slowly opened his eyes and revealed a satisfied smile on his face.

This was the cultivation technique Tang Huan had acquired from the second floor of Tiger Might Hall.

Compared to the "Superior Arrow True Skill" he had obtained from the first level of the space, the "Harmonization of Heavenly Arts" was indeed much stronger and more miraculous. This kind of cultivation method could absorb life force and strengthen the body. Not only could it allow Tang Huan's "Sun Spirit Body" to have an even stronger recovery ability and cultivate it to the extreme, it could also take away another person's life and give them even more life.

In a moment of thought, Tang Huan raised his eyes and looked out the window. In the next moment, Tang Huan shot out of the courtyard.

After around fifteen minutes, Tang Huan entered the Spiritual Soul Cave, and after his figure appeared in the front, he entered the middle section of the space without any hesitation.

There were around 120 to 30 cultivators cultivating here, slightly more than the last time.

The terrifying pressure was like a tidal wave, continuously seeping out from the giant tiger statue in the center, engulfing everything in its path. Tang Huan slowly advanced. For the second time that he had entered the Middle Section of Spiritual Soul Cave, he felt much more relaxed.

Tang Huan understood that this should be because of the "Yin and Yang Void Method". After comprehending the first transformation of this kind of sacred art, Tang Huan's flesh body seemed to have established a mysterious connection with the surrounding world, and the endurance of his body against this kind of invisible pressure became increasingly tyrannical.

After a while, Tang Huan arrived at the area closest to the Giant Tiger Statue, and casually picked a praying mat to sit down on.

"Eh? Rank Two True Spirit, this guy is ... "

On a praying mat that was about ten meters away from the sculpture, a ball of white-colored odor quickly dissipated, revealing a slim figure. It was a young lady with delicate facial features and snow-white clothes. Just as she was about to stand up, the woman in white felt something and subconsciously looked up.

However, in the next moment, she involuntarily let out a soft cry, and her pair of beautiful eyes seemed to jump out from her eye sockets. Her face was filled with an expression of disbelief.

Not long after, she seemed to have reflexively jumped up, heading towards the other side of the Giant Tiger Statue. She wanted to see clearly what the fellow who viewed the pressure of the Middle Section of Spiritual Soul Cave space like was like.

It was a pity that the woman in white was already shocked halfway through.

After that guy sat down cross-legged, the "Tiger Vigour Essential Qi" separated itself from the void in large swathes and surged out from the surroundings like raging waves. In just a few breaths of time, that figure was completely submerged by the extremely dense white-colored odor.

The white-clothed woman was dumbstruck, her expression stiff.

Even if an expert from the Rank Seven True Spirit was cultivating inside the Middle Section of Spiritual Soul Cave, it would still be impossible for them to absorb so many "Tiger Vigour Essential Qi" so quickly. But now, a person from the Rank Two True Spirit was able to do it ... This scene completely overturned everything he had ever known.

If she hadn't seen it with her own eyes, she definitely wouldn't have believed that this was true.

"Could it be that this fellow is ..."

The white clothed female suddenly remembered that someone had mentioned that an extremely fast cultivator had appeared in the Middle Section of Spiritual Soul Cave to absorb the "Tiger Vigour Essential Qi". The astonishment in her eyes became even stronger.

Inside the "Tiger Vigour Essential Qi" that was white like clouds and mist, Tang Huan was concentrated on nothing else.

This time, his training was different from before. At the same time that he absorbed the "Tiger Vigour Essential Qi", Tang Huan also continued to absorb and refine the "Initial Spirit Heavenly Crystal".

As time passed, the number of "Initial Spirit Heavenly Crystal" Tang Huan took out from the "Sumeru Magical Ring" increased at an alarming rate.

Tang Huan didn't mind at all. This time, the rewards he had obtained, in addition to his original "Initial Spirit Heavenly Crystal," were enough for him to squander for a relatively long period of time as he pleased.

His mind was completely immersed in cultivation, and Tang Huan was completely unable to sense the passage of time ...

... ..

"Manager Hu Yue!"

Deep inside the Wind God Valley, a rough voice suddenly exploded forth.

An exceptionally tall and sturdy figure strode into the palace, followed by nineteen other figures. Each of the figures emitted an extremely powerful aura.

This was the's first Clan Guardian Group for all its members!

"So it's little brother Hu Ben."

Behind the table, Hu Yue slowly stood up and asked with a smile, "Did the mission go smoothly this time?" These few days, Hu Yue's mood was exceptionally good, the smile on his face never faded.

"Haha, of course."

Hu Ben patted his chest and laughed out loud, "All these years, our first team has carried out so many missions, yet we never failed once. It's an even more dangerous mission"

Before he could finish his words, he heard a burst of shocked exclamations coming from behind him.

Hu Ben's voice paused slightly, and he subconsciously turned his head to look, only to see that the members of the party were all looking in the same direction with a ghastly expression on their faces.

Frowning, Hu Ben subconsciously looked towards the crowd's gaze. After a moment, he revealed the same expression.

"Manager Hu Yue, am I seeing things?"

After a long while, Hu Ben finally regained his senses, and pointed to the Contribution List, his eyes wide, "4.16 million contribution points? Are you sure it's true? "

On the jade tablet's Contribution List, the first team's rank was originally first place, but now it had fallen to second place. The one who replaced the first team was actually the old group of fifty, and the contribution points recorded on it was actually over four million, almost a million higher than the first team's.

This was unbelievable!

The last time Squad One had returned from its mission, Squad Fifty had entered the top twenty with six hundred thousand contribution due to completing the mission of collecting Flamingo Blood Beads s. At that time, it had even caused a sensation in the Wind God Valley and they were also quite surprised by it.

After that, within a few days, Team One took the initiative and accepted a mission, and then left the Wind God Valley. But he did not expect that after returning this time, the number one position in the Contribution List had already changed hands.

It would have been fine if they had been surpassed by the second place Contribution List's team, but what had surpassed the first team was actually only the three True Spirit Level Cultivators's group of fifty!

Forget about Hu Ben, even the other members of the first group found it hard to accept this. As a result, one after another, their gazes landed on Hu Yue, as they wanted to hear the answer they were waiting for from his mouth.

However, they were quickly disappointed.

"That's right."

Hu Yue looked up at Contribution List and smiled, "It's precisely four million and one hundred sixty thousand contribution points. This Contribution List was just adjusted by me today!"

"This... How is that possible? " Hu Ben's eyes went wide open as he stared at Hu Yue in disbelief.

"You must be joking. A trash team 50 can still make it to first place in Contribution List?"

"If I'm not wrong, last time they only made 650,000 contribution points, right? Now they have more than 3 million contribution points?"

"Indeed, we've only been out for around ten to twenty days. This amount of time should only be enough for Squad 50 to complete one mission. You can earn so much in a single mission? "

"Isn't the reward for this mission the one million RMB?"

"..."

Chapter 768 - Mutation in the Wind and Cloud

In the Wind God Valley's Main Hall, above the newly announced Contribution List, with the contribution of 4.16 million, Squad Fifty greatly surpassed the Squad One that had always dominated the top position of the Contribution List in the past.

Once the news was spread, not only was the Wind God Valley in shock, the rest of the cultivators in the Wind Howling City and the rest of the Tiger Vigour Summit were also shocked.

In the past hundred years, the order of the other Clan Guardian Group s had changed frequently.

Only team one, even if the team's Clan Guardians s were swapped over and over again, their team numbers would still be unshakable. All along, Team One had the most True Spirit Cultivator s and was the strongest. The contribution they received always maintained their position as number one and no other team could shake them.

This time, it could be said that for the first time in a hundred years, the first ranking on the Contribution List of the first squad fell.

If Squad One was not able to make it past Contribution List Ling Yun, next year's first squadron would be the current Squad 50.

After hearing this shocking news, countless people began to inquire about the situation of Squad 50. However, the results of their inquiries were even more shocking.

Out of the twenty members of team fifty, seventeen of them were cultivators at the peak of Heavenly Domain, while there were only two in True Spirit Cultivator.

Not to mention the difference between his trashy strength and the strength of the first squad, it was even worse than the strength of any other team.

However, it was precisely this kind of Clan Guardian Group, whose strength was at the bottom of the Wind God Valley, that first used a short ten days to complete the task of collecting the "Flamingo Blood Beads". After obtaining nearly five hundred blood droplets, its contribution quickly increased by six hundred and twenty thousand, directly from the top fifty to the top twenty.

The mission that he had completed so recently was even more unbelievable.

It was almost impossible to earn more than 3 million contribution points from a reward of 1 million contribution points. This was also the first time such a situation had occurred in the past hundred years.

Generally speaking, only when Clan Guardian Group's contributions to the Tiger Clan reach a shocking level would he be able to receive such a large amount as a reward.

Thus, some clever fellows could not help but connect the sudden ringing of "Tiger Vigour Bell" and the change in Clan Guardians a few days ago.

In a short time, rumors spread all over Wind Howling City.

After approximately half a month, a shocking piece of news suddenly spread out, like a storm, it swept through the entire Wind Howling City and Tiger Vigour Summit in an instant.

In the northwestern fields of Firing Dragon Mountain Range, a Gem Vein had already appeared in the dried-up "Dragon Ascending River," and it was even a "Neon Gem" vein!

The "Neon Gem" was a main material used to make Lower Grade Divine Stone, and its value was hard to imagine.

As a result, when the news spread out, it caused a huge sensation in the entire Tiger Clan. Following that, another piece of news spread out, saying that the Gem Vein was found by the 50 Clan Guardian Group s.

Not only that, Team 50 also found a "High-grade Raw Stone" at the location of the discovered vein and successfully brought it back to the Wind God Valley.

It was only now that the crowd finally realized why fifty Clan Guardian Group could surpass the first group and become the top of the Contribution List. Discovering the lode and obtaining the "High-grade Raw Stone" ... With just these two things alone, no matter how much contribution he made, it was all to be expected.

Following that, news regarding the Gem Vein s continued to spread back to the Wind Howling City s and Tiger Vigour Summit s.

At the same time as Team 50 discovered the "Neon Gem" lode, that Gem Vein also occupied it. "However, thankfully Squad 50 managed to send the message in time." On the day the the Tiger Vigour Bell was called, Lord Hu Lie personally led the clan's many experts to head to the "Dragon Ascending River".

Amongst the Four Great Clans, Dragon Clan was the strongest, followed by Tiger Clan, followed by Eagle Clan, and the weakest.

Under the coercion of the strong warriors of the Tiger Clan, the Eagle Clan weighed the pros and cons and finally gave up on the idea of monopolizing the Gem Vein.

Although the Tiger Clan was stronger than the Eagle Clan, he was obviously not strong enough to monopolize all the mines. He and the Eagle Clan both had half of the mines, so the result was still considered ideal.

However, just as Tiger Clan and the others were about to secretly mine the mine vein, something suddenly happened and the news was leaked.

The "Cloud Desolate City" that was hundreds of thousands of miles to the north of Firing Dragon Mountain Range actually coveted the mines, and sent people to pressure them.

Then the power and influence of the Cloud Desolate City was above that of the Tiger Clan.

Even if the Tiger Clan and the Eagle Clan joined forces, they would probably only be slightly stronger than the Cloud Desolate City.

If the two races could sincerely unite and trust each other, they would naturally not fear the Cloud Desolate City. However, this was obviously not possible. It was also because of this that the Cloud Desolate City had nothing to fear, but the two great clans could not send their mines to him, and a huge battle seemed unavoidable.

When the news travelled back, the atmosphere of the Wind Howling City and the experts immediately became tense. The remaining experts and experts of the Tiger Clan were all ready to fight.

However, not long after, a new message arrived.

When the Cloud Desolate City Warriors descended upon the "Dragon Ascending River", many experts from the Eastern and Southern Snake Clans appeared at the same time.

Firing Dragon Mountain Range was united to the outside world, and he finally backed off, retracting his extended claws and fangs.

The battle cloud had yet to condense and had already quickly dissipated. The tense atmosphere that was near to freezing had also quietly dispersed within and among the Wind Howling City.

Many cultivators were guessing how the Four Great Clans would distribute the Gem Vein. To force the Cloud Desolate City to retreat, the contributions of the Dragon Clan and the Snake Clan would be great. The two clans definitely would not help them for nothing. Since the matter had arisen from the mines, the Dragon Clan and the Spirit Star Realm would surely have their own interests.

The situation in the outside world had changed, but Tang Huan was not affected in the slightest.

Inside the Middle Section of Spiritual Soul Cave's space, Tang Huan was constantly concentrating on cultivation.

No matter when those Tiger Clans of the True Spirit Level entered this space, they would almost always be able to see an incredibly thick and bulky "Tiger Vigour Essential Qi" that had turned into white mist.

The wave of intense churning fog had already completely covered the figures inside, no one had seen the true appearance of the cultivators inside, but, it was said that the cultivator was only at Rank Two True Spirit cultivation level.

When they heard this news, almost everyone's first reaction was disbelief.

Rank Two True Spirit cultivators could indeed enter the Middle Section of Spiritual Soul Cave, but they definitely could not cultivate in there for such a long time. However, the person who revealed the information was very confident. Many people were skeptical. They wanted to lift up the clouds and see what was going on inside.

Tang Huan naturally did not know about other people's reactions.

While he was cultivating here, not only had he refined a large amount of "Tiger Vigour Essential Qi", he also had to consume a large amount of "Initial Spirit Heavenly Crystal" everyday. The advantage he brought with him was the rapid increase of his Genuine Qi, and without him realizing it, he had caught a glimpse of the second stage of invisible chains that existed within the Five Colors True Spirit.

Under Tang Huan's crazy attacks, not long after, the layer of invisible chains dissipated with a loud bang and a terrifying aura swept out in all directions.

Chapter 769 - Peak Rank Three True Spirit

The intensity of this aura had reached an unbelievable level, far surpassing the time Tang Huan broke through to the Rank Two True Spirit here. In the very next instant, all the True Spirit Cultivator who were cultivating in this Middle Section of Spiritual Soul Cave space were disturbed.

When everyone woke up, the "Tiger Vigour Essential Qi" that was condensed like mist quickly scattered, and many figures that were sitting on prayer mats revealed themselves. Immediately after, almost all eyes fell on the unusually large white fog closest to the Giant Tiger Statue.

At that moment, the ball of mist seemed to have been stirred up by a hurricane and was churning madly.

"Looking at his aura, he obviously just broke through to the Rank Three True Spirit. Does this mean that the person who was previously cultivating there is really just at the Rank Two True Spirit?"

"Why is the aura so violent when the Rank Two True Spirit is promoted to the Rank Three True Spirit? It's at least several times stronger than when I broke through."

"Heh, I heard that he continuously trained in the Middle Section of Spiritual Soul Cave for more than a month, could you do it while you were in the Rank Two True Spirit?"

"Who the hell is this guy?" The last time he was here, I think he went from the Rank One True Spirit to the Rank Two True Spirit, and now that he went from the Rank Two True Spirit to the Rank Three True Spirit, it seems like it's only been two to three months? "

"I already told you that he is Rank Two True Spirit, and you all didn't believe me, but now you all should believe me!"

"Eh, that's not right, that's not right, it doesn't seem to be just a simple matter of breaking through to the Rank Three True Spirit. From the looks of it, his aura is rising to the level of the Peak Rank Three True Spirit? No wonder your aura is fluctuating so strongly. "

"Peak Rank Three True Spirit? It seems to be true! "

"..."

Within the Middle Section of Spiritual Soul Cave space, exclamations rose one after another.

There were only a few True Spirit Level Cultivators who came and went training here.

In this period of time, the extremely dense "Tiger Vigour Essential Qi" had completely concealed the auras of the cultivators inside, making it impossible for people to determine his cultivation level, they only heard that it was a guy from the Rank Two True Spirit. More than once, there were people who wanted to disperse that ball of "Tiger Vigour Essential Qi", but in the end, they still endured such thoughts. In the Tiger Clan, this kind of frightening action that disturbed the cultivation of others was always strictly prohibited.

Now that the person's cultivation base had been confirmed, everyone was shocked.

"If he goes out later, I want to see who he is!" Such a mysterious guy came out of our Tiger Clan, but I actually didn't know about it.

"I was here the last time he broke through. As soon as he went out, I followed him out as well. It's a pity that he ran too fast. I didn't even see his shadow. "

"There are so many people here this time, are they afraid that he'll run away?"

"..."

Everyone's eyes were burning as they stared unblinkingly at the white mist.

Time flew by and that aura quickly seemed to have reached its peak. From the violent fluctuations, it gradually stabilized, and finally, it completely disappeared. Evidently, it had once again been completely concealed by that large ball of "Tiger Vigour Essential Qi" that had calmed down at the same time. This meant that the process of his cultivation breaking through had come to an end.

At this moment, quite a few cultivators had their hands on the jade medallions at their waists. The moment that person was covered by the fog, they would immediately follow him out.

However, not long after, the mist began to surge again. Merely, it was not as fierce as before.

A quarter of an hour. Two quarters of an hour. Three quarters of an hour ...

Everyone looked at each other. They all had the urge to curse in their hearts. That guy actually started to cultivate again. He had no intention of leaving.

If he didn't leave, the others wouldn't be able to just stand there and watch.

Every second of the Middle Section of Spiritual Soul Cave's space was extremely precious and a waste of time was too much of a pity. Under this helplessness, everyone could only continue to cultivate, and some of the True Spirit Cultivator who were on the verge of collapsing could only helplessly leave.

Unknowingly, three days passed.

"Hu!"

A ball of white mist dissipated, and the figure of the True Spirit Cultivator that was sitting cross-legged quickly became clear. He could no longer bear the pressure, and before he left, he subconsciously looked towards the central region.

"Damn, that guy ran away!"

After being stunned for a moment, the True Spirit Cultivator could not help but curse loudly.

Wind God Valley. In the courtyard of No.643 Courtyard, Tang Huan sat down on a stone bench. After leaving the Spiritual Soul Cave, he walked around the entire place and obtained a lot of information. Firstly, he had cultivated in Spiritual Soul Cave for nearly a month and a half; secondly, there was indeed a "Neon Gem" vein at the place where they found the "High-grade Raw Stone". Furthermore, a series of unforeseen events had occurred to the location of the vein.

"Cloud Desolate City..."

As he lightly recited these words, Tang Huan's heart filled with emotion. He never thought that in the period of time he was fully immersed in cultivation, a huge battle would almost break out because of that mine. Now that the Four Great Clans was involved, he wondered how much of the mine the Tiger Clan would obtain in the end.

With that thought, Tang Huan stopped thinking further.

After the mission to find the vein was completed, this matter no longer had much to do with him. He returned here to enter the Space Aircraft and take out more "Initial Spirit Heavenly Crystal" from inside. Afterwards, he would go to Wind Howling City and buy some Saint Grade Gem for Xiao Budian.

The last time he had found those "Neon Gem", their surface was covered with a layer of tough gelatin. With Tang Huan's current cultivation, even if he activated the Divine Armament, he would find it hard to take out the gems inside. Rather than keeping them for himself, it would be better to give them to the Tiger Clan first.

Then, he would use "Initial Spirit Heavenly Crystal" to buy some more ordinary Saint Grade Gem.

In the Forging God Great World, there were huge differences in the prices of Saint Grade Gem. Some Saint Grade Gem could buy one with one "Initial Spirit Heavenly Crystal", and some could even buy a whole bunch. But Saint Grade Gem like "Neon Gem", each one was worth forty "Initial Spirit Heavenly Crystal".

The main reason for this situation was because the resources here were much richer than in the small world.

In the blink of an eye, Tang Huan had already taken out the flying shuttle from his bosom.

But before he could let it return to normal, Tang Huan's mind moved, he looked towards the outside of the courtyard in the blink of an eye, and at the same time, stood up and placed the flying shuttle back inside. Immediately, Tang Huan moved a step, and when he pulled open the courtyard door, a figure appeared at the entrance.

The person who came was Clan Guardian Commander Hu Xiao!

"Chen Huan greets the Lord Commander."

Tang Huan smiled and cupped his fists in respect.

Hu Xiao squinted his eyes, as if he was surprised. However, in an instant, he lightly nodded his head, and a look of admiration flashed across his cold face: "Not bad! "That's right!"

"Lord Commander is too kind."

Tang Huan modestly said, "The reason Chen Huan was able to make such a huge improvement is all because he joined the Tiger Clan."

He knew why Hu Xiao suddenly said that. When Hu Xiao neared the courtyard, his aura was restrained to the extreme, and even cultivators with Rank Six True Spirit s might not be able to detect him. However, he noticed Hu Xiao's arrival from several tens of meters away and opened the door ahead of time.

This naturally showed that Tang Huan was extraordinary.

Chapter 770 - Lord Hu Lie

Of course, this was done intentionally by Tang Huan.

When Tang Huan was still in the Rank One True Spirit, he had already been in the Middle Section of Spiritual Soul Cave to cultivate, and he had already made such a huge movement twice, to the point where he had a breakthrough in his cultivation. Especially this time, he actually went from the Rank Two True Spirit to the Peak Rank Three True Spirit realm. Although he had hidden it well during his cultivation, he could only hide it from ordinary people, it was impossible for him to hide it from the upper echelons of the Tiger Clan.

Especially after he had obtained the sacred art "Yin and Yang Void Method", he was afraid that he had become the target of the Tiger Clan's secret observation.

In just a short span of two to three months, he had advanced from the Rank One True Spirit to the Peak Rank Three True Spirit. Especially in the "Dragon Ascending River", Tang Huan had escaped the pursuit of Eagle Clan Warriors, which was something that even Rank Seven True Spirit cultivators might not be able to do.

In such a situation, if he kept concealing himself, it would make people think that he had other intentions. Sometimes, it would be better to show something slightly different than an ordinary person.

"To be able to achieve such a great increase in such a short period of time, although Tiger Clan's resources are invaluable, the most important thing is still your outstanding innate talent."

Hu Xiao seemed to be rather satisfied with Tang Huan's performance, and after that, he slowly said, "Little brother Chen Huan, the reason I'm looking for you this time, is because Lord wants to meet you."

"Lord?"

Is it finally coming? Ever since he had obtained the ability "Yin and Yang Void Method", no one from the upper echelons of the Tiger Clan had come to look for him. Tang Huan did not expect that he was actually from the Tiger Clan, and that person should be a great Ranker whose strength surpassed the True Spirit Level!

He originally thought that he was still in Dragon Ascending River, but unexpectedly, he returned there.

With a quick thought, Tang Huan's mind had calmed down, but at the same time, he revealed a surprised expression: "Commander, do you know why Lord is looking for me?"

"Don't worry, it's not a bad thing!"

"..."

At the peak of Tiger Vigour Summit, within Tiger Divine Palace, Tang Huan saw Tiger Clan Hu Lie.

Above his face, the short and dense white moustache was like numerous hard thorns, and under his robe, the muscles all over his body bulged out, as if an explosive and terrifying power was hidden within his body, making him unforgettable.

"Greetings Lord."

Inside the small and plain palace, Tang Huan gave a deep bow to Hu Lie.

The furnishings of the Tiger Divine Palace were extremely simple, other than a few antique chairs, there were a few shiny white mats.

Hu Lie sat cross-legged on one of the prayer mats.

At this moment, other than Tang Huan, there was only one other person in palace. As for Commander Hu Xiao, he had already left after bringing Tang Huan here.

"Kid, sit!"

Hu Lie looked at Tang Huan with a smile, and in fact, an amiable smile on his face, indicating for Tang Huan to sit down. If he did not have the status of Tiger Clan, he would not pay attention to the powerful feeling that his body was giving off, instead, he was like a friendly old man sitting next to him.

Since he was already here, he might as well take things as they were! Tang Huan did not bother with pleasantries. He calmly sat on the praying mat opposite of Hu Lie and said: "Thank you, Lord."

Hu Lie stroked his steel-like beard, and suddenly laughed: "Little guy, I wonder if I should call you Chen Huan or Tang Huan?"

Chen Huan? Tang Huan?

His identity was exposed?

Tang Huan's heart skipped a beat, and he broke out in a cold sweat.

Thinking about it carefully, the identity of "Chen Huan" was indeed full of holes. Almost everyone in Chen Village knew that his real name was Tang Huan and this was the biggest loophole.

He had used the name "Chen Huan" to fight in the Chen Village and successfully hid it from the Tie (Iron) Village and Luo Village. However, he could not keep it a secret forever, as exposure was only a matter of time.

But Tang Huan never thought that it would be revealed so quickly.

However, this is not so hard to understand. If Tang Huan was just an ordinary Clan Guardians, he would naturally not attract the attention of the Tiger Clan, and it would not be a problem to fool around with his identity as "Chen Huan" for two to three years. However, his performance in the Tiger Clan during this period of time was simply too eye-catching.

Since he had garnered the special attention of the Tiger Clan, investigating his situation could be said to be expected. Exposing his identity was unavoidable.

In a short moment, countless thoughts passed through Tang Huan's mind.

But after a moment, he calmed down and said somewhat helplessly, "I knew it wouldn't be able to be hidden from you. Lord, please just call me Tang Huan." After these words came out, Tang Huan couldn't help but laugh bitterly to himself, the moment he came to the Tiger Divine Palace today, he was attacked.

"Kid, this old man really admires you!"

Hu Lie laughed out loud, "When you are at Heavenly Domain, you can easily kill all the Heavenly Domain Cultivators in Luo Village. The moment you step into the True Spirit Level, you can kill all the Tie (Iron) Villagers in Luo Village, and the Luo Tong who defeated the Rank Three True Spirit, and force him to use 'Blood Spirit Escaped Skill' to flee. Until now, he has not recovered, and even the Luo Hao of the Peak Rank Six True Spirit can't do anything to you."

"After becoming my Tiger Clan, first, you entered the Middle Section of Spiritual Soul Cave to cultivate continuously for a few days, breaking through the Rank Two True Spirit realm in one go, then, you saw Clan Guardians Lei Bao, who had heavily injured the Peak Rank Three True Spirit with three punches from his Wind God Valley. When collecting 'Flamingo Blood Beads', he

condensed his wings and flew in the air, forcing hundreds of 'Wind-bell Flamingo' to lose their ability to escape, helping the fifty small teams to complete their missions."

"Especially in the 'Dragon Ascending River', where he almost killed Ying Yu completely. Then, under the eyes of that old fellow from the Eagle Clan, he disappeared without a trace. After returning to the Tiger Clan, he only used a short one and a half months to step into the Peak Rank Three True Spirit in one go. Impressive, impressive, what you have done in the past three to four months, at your age, I can't do a single thing. " As he finished speaking, Hu Lie's expression was filled with emotion.

"Thank you, Lord, for your praise."

Tang Huan was not surprised by his own experiences and achievements after coming to the Chen Village. He corrected himself and said, "The reason why this boy has such progress and capabilities is mostly because of the Tiger Clan."

"Kid, I just praised you, and you're already up to no good."

Hu Lie did not let Tang Huan pass by so easily. He smiled and said, "Since you were able to break through the Rank One True Spirit so quickly, then Spiritual Soul Cave did indeed have a bit of contribution; for you to be able to escape from that old fellow in Eagle Clan, the 'Yin and Yang Void Method' must have a lot of merit as well."

"However, you can do all this because of your own talent. That Spiritual Soul Cave has existed for countless years, but only your cultivation speed is shockingly fast, and that 'Yin and Yang Void Method' has been in the first level of the Tiger Might Hall for two thousand years, and only you can acquire this ability."

"As for the fact that you can condense wings and fly, that you have a spatial ring and a Space Aircraft, that has nothing to do with our Tiger Clan. Especially as this old man knows of it, little fellow, what you possess is still golden blood! " After saying that, Hu Lie's eyes became serious.
