

## W. Master 791

### Chapter 791 - Snake Clan Still

Tiger Clan, Dragon Clan and a portion of the cultivators left behind their camp at the mines. After that, the three clans would arrange for people to mine the mines. As for the Eagle Clan, this mine no longer mattered to them, as all the Eagle Clan Cultivators had already followed Ying Feichen and left in disappointment.

As for the other cultivators of the Dragon Clan, they followed their Lords to the Tiger Clan.

When the group of cultivators returned to the Wind Howling City, the entire city was shaken, all sorts of information regarding the competition quickly spread, causing countless cultivators to discuss about it, and what made people especially excited was Tang Huan who was like a black horse coming out of hiding in the sky.

Tang Huan, who was ridiculed because his Peak Rank Three True Spirit cultivation had been selected to participate in the second round of the competition for Dragon Clan, lost to Long Yunxuan who had lost first, then to Long Ziyue who had lost to the Peak Rank Four True Spirit, and then to Long Xueying who was at the peak of the Rank Five True Spirit.

Tang Huan practically helped the Tiger Clan to obtain first place in the competition by himself.

Other than the astonishing cultivation level that Tang Huan had revealed, his identity as a Weapon Refiner caused the people of the Tiger Clan to be extremely excited.

The Four Great Clans was a remote place in the Forging God Great World. The original surname of the Four Great Clans was bloodline Great Image and it was simply impossible for a Weapon Refiner to appear. Although cultivators with another surname could become a Weapon Refiner, they could not be counted on one hand due to their luck and resources.

It could be said that the Firing Dragon Mountain Range lacked the soil to cultivate them.

If the Four Great Clans wanted to buy a weapon, he could only use a gem to exchange for another or use a "Initial Spirit Heavenly Crystal" to buy one. But now, the Tiger Clan actually saw hope for him to forge a weapon. With Tang Huan's Peak Rank Three True Spirit cultivation, his attainments in forging weapons were probably not low at all.

It was also because of this that Long Xinquan and Qian Yu accepted Hu Lie's invitation to bring the cultivators of the two clans to the Wind Howling City.

Compared to Tang Huan's miraculous performance, Hu Lie and Ying Feichen's wager, winning over ten percent of the mine and three piece of Divine Stone, was actually not that eye-catching.

Zhuo Dongqing, Long Xinquan and the others followed Hu Lie to the Tiger Vigour Summit, while the young cultivators of the Dragon Clan and the Snake Clan were arranged to live together with the Clan Guardians.

Because of Tang Huan, Squad Fifty's Li Tian'en, Hu Kai and the others suddenly became very popular, especially Chen You who came from the Chen Village. Ever since the end of Four Clans's competition, there had been many people surrounding her, trying to find out more about Tang Huan's situation. Chen You was never tired of it, and the moment she entered the Wind God Valley, she hid in Tang Huan's courtyard.

"Finally, peace and quiet."

Closing the gate to the courtyard, Chen You breathed a sigh of relief, and walked towards Tang Huan with a smile as beautiful as flowers. After the identity of the Weapon Refiner was exposed during the competition, Hu Lie had ordered that no one from his clan was allowed to disturb Tang Huan. When she came here, there was finally no one by her side to pester her anymore.

"That's not necessarily true!" Tang Huan suddenly said.

"Oh?"

Chen You was startled, he just sat down on the stone chair beside Tang Huan, and noticed the sound of light footsteps, following that, a knocking sound came out.

"But the Lady Yi Ran? "Come in!"

He smiled at Chen You, and Tang Huan turned to look at the courtyard door and said.

Just as Tang Huan finished speaking, the courtyard door creaked open and a tall and graceful figure entered his eyes. It was a young woman with delicate facial features, beautiful face, and skin as white as cream that could be broken with a blow. Beneath her eyebrows, there seemed to be two streams of spring water contained within her black eyes that were as bright as the stars.

Her legs were long and slender, and her waist could barely fit in the grasp. However, her chest and buttocks were abnormally full and perky, and did not seem exaggerated in the slightest. Instead, it just happened to benefit her body, making her appear even more graceful.

After pushing open the gate, she gracefully walked towards Tang Huan and Chen You. Dressed in a blue dress, her waist swaying like a water snake, her beautiful curves were completely revealed, and her entire body was emitting a mature charm.

"Yes, it's Snake Clan. Greetings, Brother Tang!"

The blue dressed woman cupped her hands towards Tang Huan, her eyes curved into an extremely beautiful arc, and her delicate face bloomed into a smile that could shake the world.

"Please have a seat Lady Yi Ran."

Tang Huan laughed, and could not help but size up the blue dressed lady, who remained silent for a moment, with eyes filled with unconcealable praise and amazement. Forget about the men from Snake Clan, the Snake Clan women seemed to have gathered all the essence of heaven and earth, they were all as beautiful as flowers.

Snake Clan and Lian Yu were the same, but this was even more so.

Of course, Chen You was not inferior to her by much, but their beauty belonged to two different styles.

"Thank you, Brother Tang."

She was still sitting opposite of Tang Huan with a smile that was like flowers. Then, her eyes moved and looked at Chen You who was beside Tang Huan.

"I am Chen You."

Sensing that Tang Huan's expression was still different from before, Chen You could not help but snort lightly with a heavy face. She subconsciously moved the stone chair closer to where Tang Huan was sitting, her eyes revealing a trace of vigilance and precaution that even she herself was not aware of.

Still unknowingly smiling, she lifted her jade-like fingers slightly, lifting the hair at her temples to her ears.

Although this action was small, it made her look extremely charming and seductive in an instant. Even though Chen You found her extremely displeasing to the eye, he had no choice but to admit that this woman was always able to borrow the strength of some unintentional little trick to display her absolute beauty. Thinking about himself, Chen You suddenly felt a little sour in his heart.

"Brother Tang, all this while, little sister has always been proud of her cultivation and strength, but after seeing what you can do, little sister realized that she really was a little overseeing in the past, compared to brother Tang, little sister's cultivation level is not even worth mentioning."

"Lady Yi Ran is too modest."

Tang Huan laughed involuntarily, naturally he would not lose his head from such flattery, "Lady Yi Ran, what are you looking for me for today?"

"If there's nothing else, can't I talk to Brother Tang?"

However, before Tang Huan could speak, a smile had already appeared on her forehead, as the topic changed, "Alright, Brother Tang guessed right. I indeed have a matter to discuss with Brother Tang, but I don't know if I should speak of it."

As he finished speaking, his expression still seemed somewhat embarrassed.

## Chapter 792 - Heavenly Blacksmith

Seeing that her expression was still the same, Tang Huan faintly guessed what she wanted to say, and slowly laughed: "If Lady Yi Ran feels embarrassed to speak, then it's better that you don't say anymore, we should talk about other things."

He was looking for him at this time because he wanted to find him to forge a weapon.

However, Tang Huan didn't have any plans on forging weapons for the time being. After all, he was not familiar with the way of refining in the Forging God Great World, and needed to get a good understanding of the situation first. Furthermore, even if he understood the situation, he would still need to give priority to forging weapons for the Tiger Clan.

"Huh?"

Still choked to death by Tang Huan's words, her watery beautiful eyes widened roundly, and her beautiful face was filled with astonishment. Obviously, she didn't expect him to say such a thing.

Chen You was startled, she immediately covered her mouth, preventing herself from laughing it out, but her eyes had curved like crescent moons, she was secretly satisfied.

"Brother Tang, what do you want to talk about?"

After a while, she had already regained her senses, and when she looked at Tang Huan again, the expression in her eyes was tinged with hidden bitterness, causing others to be unable to help themselves from feeling pity for her.

Tang Huan acted like he did not see anything, and said smilingly, "Among all the Four Great Clans s, Snake Clan is the most mysterious, and this is the first time I have seen him. It was said that the Snake Clan Cultivators lived in underground caves, and her "Myriad Caves City" lived thousands of meters underground? Within the city, there are countless caves of varying sizes crisscrossing each other. It's like a maze, incomparably mystical.

"Brother Tang, you must be joking. This is just a rumor."

Hearing that, her pretty face slightly twitched, and she actually had the urge to curse in her heart. We are Snake Clan, right? Snake Clan's base, "Myriad Caves City", was indeed filled with caves, but it was just a low-lying area, not constructed in the depths of the earth.

Tang Huan suddenly understood: "So that's how it is. Lady Yi Ran, I also heard that ... "

"AA  
AA  
you any further. We'll chat again in the future. "

Tang Huan had not finished speaking when she was interrupted by a tender cry. Immediately after, she stood up once more, and by the time she finished speaking, she was already at the entrance of the courtyard.

This Tang Huan was simply too cunning, she was worried that if she did not leave, Tang Huan would ask even more questions that would make people want to beat him up.

"Puchi!"

Once he left, Chen You couldn't help but burst out laughing, "Tang Huan, you're really too bad."

"Don't talk nonsense, I'm really curious."

Tang Huan said in all seriousness, but in his heart he felt somewhat helpless.

Hu Lie strictly forbade the Tiger Clan from coming and disturbing him, but it was impossible for the Dragon Clan and the Snake Clan Cultivators to come and find him.

He had just returned to the Wind God Valley and he didn't want to immediately hide there to cultivate.

Of course, Tang Huan reckoned that it would only be this day, and he would have a headache. Tomorrow, the first people to come to find him wouldn't be Dragon Clan or Dragon Clan. Sure enough, in the morning the next day, the ones who came to visit Tang Huan once again were still empty with Lian Yu and the rest.

Peak of Tiger Vigour Summit, Tiger Divine Palace.

The moment Tang Huan entered the palace, he was shocked by Hu Lie's enthusiasm.

"Little brother, you really hid an old man like me from me with much difficulty. I really didn't think that little brother would actually be a Weapon Refiner."

Hu Lie held Tang Huan's arms tightly and pushed him onto the praying mat, the smile on his face almost overflowing. Looking at Tang Huan, his two copper bell-like eyes were blooming with light, as if he was sizing up a rare treasure that could not be measured by its value.

If he did not have to entertain Zhuo Dongqing, Long Xinquan, Qian Yu and the others yesterday, he would have gotten Hu Xiao to bring Tang Huan over to the Tiger Divine Palace a long time ago. It was not easy to hold it in until today, and he could not hold it in any longer. Therefore, just as dawn arrived, Tang Huan arrived.

"The Tools Method Attainments is limited, it's not worth mentioning." Tang Huan laughed.

"Little brother, you are too modest. According to Zhuo Si's judgement, little brother, you should at least be at the level of a Lower Grade Heavenly Blacksmith." Hu Lie said with a smile.

"Lower Grade Heavenly Blacksmith?"

Tang Huan was startled.

Back then in the small world, Tang Huan felt that he had learnt a lot of information from Luiyu, but after he had actually reached the Forging God Great World, he realized that the information he had gathered from Luiyu was pitifully little. It was even his first time hearing about the word "Heavenly Blacksmith."

Seeing Tang Huan's expression, Hu Lie thought that he had acknowledged it.

Immediately, Hu Lie became even more excited: "Above Weapon Refining Grand Master is Heavenly Blacksmith, and Heavenly Blacksmith is also divided into low, middle, high, heaven stage and saint stage. This little brother is only twenty-four years old, and is already a Lower Grade Heavenly Blacksmith.

Hu Lie's words did not count as flattery, as in his eyes, Tang Huan was a Disciples who was out training. With Tang Huan's background, as long as he performs well enough in the future, the War Clan will definitely be able to provide him with enough resources to continuously upgrade his Tools Method Attainments.

One day, Tang Huan would definitely become a Saint-rank Heavenly Blacksmith.

Unfortunately, he did not know that it was only because of the "Sun Spirit Body" that Tang Huan had obtained the golden blood, and he was not the real War Clan.

"Saint-rank Heavenly Blacksmith? That's easier said than done."

Tang Huan had no idea about the situation with the "Saint-rank Heavenly Blacksmith", and pretended to sigh while shaking his head. "Being able to become a Lower Grade Heavenly Blacksmith can already be considered inviting the heavens. At this point, for every little bit of increase in the Tools Method Attainments to occur, the amount of resources used up will be incomparably terrifying."

"Indeed."

Hu Lie agreed and nodded, "However, little brother, do not be anxious. Brother, this Tiger Clan actually has so many gems, little brother, just open your mouth wide and use them. He still had fifty percent of the Neon Gem lode. I have already told Dragon Clan and Snake Clan that we will mine that mine as fast as possible so that we can exchange it for many other different gems. Other than

that, if little brother wants something, you can directly go to Tiger Crouching to get it. If you want a cultivation technique, you can also enter Tiger Might Hall at any time.

"How can that be?"

Tang Huan was shocked.

Tang Huan's intentions were clear to Tang Huan. He wanted to invest in his Weapon Refiner, and he used so many resources from his Tiger Clan. If he didn't forge some weapons for his Tiger Clan in the future, it wouldn't make sense!

Even if it was because of his identity as a "War Clan", that was why Hu Lie made such a decision, which was enough to make people have a whole new level of respect for him. After all, not everyone was as bold as Hu Lie, and what Hu Lie had said just now was equivalent to opening up all the resources in the Tiger Clan to him, and allowing him to obtain whatever he wanted.

"Little brother, you don't have to be courteous to me."

Hu Lie sighed, "Old brother, I am also a little selfish by doing this. Four Great Clans was considered the number one power in the entire Firing Dragon Mountain Range, but in the entire Yan State, it was nothing much. In the entire world, it was not even worth mentioning. For a power like ours, wanting to obtain a few good weapons is as difficult as ascending to the heavens. If little brother can gain some benefits from this bit of resources from Tiger Clan, little brother will definitely not be able to treat our Tiger Clan well. "

Chapter 793 - A Handwritten Letter

"Ok, old brother, I will do as you say."

Tang Huan remained silent for a moment, then took a deep breath and said.

Hu Lie's help did indeed have a reason for it, but Tang Huan was still very grateful. With his current strength, he wouldn't be able to obtain so many things in a short period of time.

Of course, if the Tiger Clan truly consumed a large amount of resources, Tang Huan would definitely forge enough weapons in the future to repay the debt.

"Little brother, there is no need to thank me for this great favor."

Seeing that Tang Huan had agreed, Hu Lie was overjoyed. He suddenly stood up and bowed deeply to Tang Huan. Tang Huan immediately sprung up and held Hu Lie.

After a while, the two of them sat back down.

"Little brother, this is a handwritten letter that one of our ancestors in Tiger Clan accidentally obtained."

Then, Hu Lie took out an old book with a yellowed page, and handed it over to Tang Huan, "It is said that the owner of this book is a Upper Grade Blacksmith. This thing has been in our Tiger Clan for almost a thousand years, and it has never been put into use.

"Thank you, brother."

Tang Huan accepted it, his heart was secretly happy, this thing was exactly what he was in urgent need of.

However, Tang Huan still maintained a calm expression. After all, he was now the "War Clan", and the Upper Grade Blacksmith's handwritten letter was a treasure to him. It was probably not something rare in the War Clan, and if he got too excited, it would cause suspicions to arise in Hu Lie's heart.

After a long while, Tang Huan finally left the Tiger Divine Palace under Hu Lie's expectant gaze. However, he did not return to the Wind God Valley, but instead followed behind a young man named Hu Qian, and headed towards the Tiger Crouching, where there was a small palace specially used to store various types of precious stones.

The current Tang Huan was like a heavenly emperor and a great star from his previous life.

When he appeared outside the Tiger Crouching, he was immediately recognized by the people. After that, no matter where Tang Huan went, he immediately became the focus of attention of all the cultivators there. If not knowing that Hu Qian who led the way was one of Lord's trusted followers, there might have been people who could not help but come forward to chat.

Following behind Hu Qian, he made a left and right turn along the corridor, and finally arrived in front of a small hall.

"Brother Tang, this is the place. Please!" Hu Qian stopped and laughed.

"Thank you, Brother Hu Qian."

Tang Huan smiled and nodded, then pushed open the door and walked in.

After a moment, Tang Huan's line of sight was filled with a resplendent luster. In the palace's space that was over a hundred meters in length and width, all kinds of gems were piled into a small mountain.

Other than a few Heavenly Jewels, the majority of them were Saint Grade Gem s.

Amongst the pile of gems, there were still a few iron ore of different colors scattered about. Tang Huan could not call out their names, but the Spirit Qi they emitted were extremely powerful, the quality of these iron ore were probably not any weaker than the "Indestructible Brilliant Golden" he used to forge low leveled Divine Armament.

As for the "High-grade Raw Stone" he found last time, he was lying quietly on the left corner of palace, he had not cut it open yet, and it was unknown what kind of Divine Level Stone was hidden inside the thick stone gum.

"Creak!"

Hu Qian closed the door, and the many eyes of the Tiger Clan cultivators who followed along were all blocked outside.

Tang Huan quickly went around the palace once, secretly exclaiming in his heart. There were at least a hundred types of Saint Grade Gem here, and recognized some of them, but it was the first time he had seen some of them.

Without a few decades, Tiger Clan would not be able to save these things.

If he could use all these gems and get enough iron ore s, he could at least forge thousands upon thousands of high-quality Saint-rank weapons. Tang Huan had observed that ever since he entered the Forging God Great World, the cultivators he had met all used Saint-ranked weapons.

Of course, they weren't ordinary Saint Tier weapons. They were the best of Saint Tier weapons.

In a blink of an eye, Tang Huan had already chosen a small clearing and sat cross-legged there. Then, he took out the handwritten letter from his bosom and began to read it.

The handwritten letter was rather thick, roughly over a hundred pages long.

Tang Huan's speed was extremely fast, to the point that he could see ten lines at a glance. Not long later, he had finished flipping through all of the pages, but the contents of the handwritten letter were completely branded into his soul.

After that, Tang Huan slowly closed his eyes and thought back.

After a long while, a slight smile appeared on Tang Huan's forehead, as he had a rough understanding of the Forging God Great World's way of refining.

And just as Hu Lie had casually revealed, above Weapon Refining Grand Master were Lower Grade Heavenly Blacksmith s, Intermediate Heavenly Blacksmith s, Upper Grade Blacksmith s, Heaven Ranked Heavenly Blacksmith s, and Saint Ranked Heavenly Blacksmith s.

As for the weapon ...

Weapons that surpassed the Saint rank were called "Heavenly Soldier". Just like the Weapon Refiner, there were also low, middle, high, heaven and earth ranks and Saint ranks.

The "Conqueror Spear", "Xuanyuan Sword", "Dragon Slaughtering Saber" and "Exquisite Carving Bow" that Tang Huan forged belonged to the lower level Divine Armament, and their power was equivalent to that of lower level Heavenly Soldier. The biggest difference between the two was that the Divine Armament was able to fuse with the cultivator's body, while the Heavenly Soldier was not.

However, when one reached the middle stage Divine Armament, that was not something a middle stage Heavenly Soldier could compare to.

There were very few records of the Divine Armament in this letter.

However, there was a very detailed description of the forging process of the Heavenly Soldier s within, especially the more than ten times where the forging heavenly armaments had failed. The lessons learned from the Upper Grade Blacksmith s were all recorded in this letter, it was extremely detailed.

Other than that, there was a sigh that seemed to go through the entire letter, "It's a pity that this old man is not Gem Synthetic Master. Otherwise, I would never have failed!"

"We need Divine Level Stone s for our forging heavenly armaments."

Tang Huan put away the letter, as his mind raced, "Just like how the world doesn't have the same two leaves, for a synthetic Divine Level Stone, there would never be the same two leaves. Even if it's a synthetic Divine Level Stone of the same species, the quality and characteristics are extremely minute differences."

"This tiny difference is often able to determine the success or failure of a forging heavenly armaments. The person who understood the situation of a certain gem the best must have been the Gem Synthetic Master who created it. Sometimes, Gem Synthetic Master understands things that he cannot detect very well. "

It was because of this that the Upper Grade Blacksmith kept sighing.

The most important reason why he failed to forge those Heavenly Soldier s was because he did not notice the differences in the Divine Level Stone before forging the weapon. However, after he understood this point, it was already too late for him to make any adjustments.

Of course, Tang Huan only scoffed at his sighs. In the end, the Upper Grade Blacksmith's Tools Method Attainments was still not strong enough. If every Heavenly Blacksmith were to fail in refining, then it would be better to not continue refining. In this world, the number of Weapon Refiner s who could be counted on one hand.

"Gem Synthetic Master is even rarer than Weapon Refiner."

Tang Huan's eyes flashed, "In this Forging God Great World, there is a huge disparity between the number of Weapon Refiner s and the number of s, and cultivators who are also Gem Synthetic Master s and Heavenly Blacksmith s are even less. Within ten thousand Heavenly Blacksmith s, there might not even be one Gem Synthetic Master coming out."

#### Chapter 794 - Gem Synthetic Master

The Gem Synthetic Master was a combination of all these Divine Level Stone.

Every single Gem Synthetic Master was a member of the strong generation, and even the lowest-level Gem Synthetic Master was still a True Spirit Level Cultivators.

Of course, it was fortunate that the weight of the fusion Divine Level Stone was far lower than that of the Natural Divine Stone, which was why a low-leveled Gem Synthetic Master would not be able to take on the joke of him synthesizing a Divine Level Stone himself. Tang Huan still vividly remembered the weight of the Natural Divine Stone. That thing was unbelievably heavy.

If even Lower Grade Divine Stone were like that, then what about higher ranked Divine Level Stone?

The difficulty of using Natural Divine Stone to forge weapons could be imagined. On the contrary, the difficulty of using Divine Level Stone to make weapons was much lower.

Of course, the prerequisite would be a Divine Level Stone of the same rank.

"In the Forging God Great World, if one wishes to become a Weapon Refiner, one must first head to the 'Heavenly Region' in the central region of the Forging God Great World to receive the inheritance of the True Fire. Almost no single 'True Fire' would be able to survive in that place, and this is one of the most important reasons why there aren't many Weapon Refiner in such a remote area like the Firing Dragon Mountain Range."

"This is quite different from a small world."

"In the small world, as long as one has money, he would be able to buy True Fire s from weapon stores or Gem Store. The reason why it was so difficult for to appear in small worlds like the Forging God Great World s was because of the True Fire Fire Seed. This Forging God Great World's True Fire Fire Seed has existed for god knows how many years, and has long developed an incomparably strong spirit. "

"If a normal cultivator wanted to forcefully go there and obtain the True Fire, they would probably turn into dust before they could even get their hands on it. Relatively speaking, it would be safer to

go to the Heavenly Region to receive the inheritance of the 'True Fire'. However, the Heavenly Province is so far away, but it will cause the vast majority of cultivators in the remote areas to stop in their tracks. "

"As for becoming a Gem Synthetic Master, the difficulty is greater than becoming a Weapon Refiner."

"To synthesize a gem, one first needs to fuse with a wood attribute Spiritual Fire. In the small world, there are only five Spiritual Fire s, which are coincidentally divided into the gold, wood, water, fire and earth five elements;. Amongst them, there is only one type of Wood Attribute Spiritual Fire, and in the Forging God Great World, the number of Spiritual Fire s is even more, but no matter how many Spiritual Fire s there are, compared to the True Fire, there are just too few of them, which also caused the number of Gem Synthetic Master s to be extremely small. "

"There's more than one type of Wood Attribute Spiritual Fire and there's definitely more than one type of Soil Attribute Spirit Fire. If I want to obtain my own Soil Attribute Spirit Fire, it isn't necessarily 'Colored Glaze Spiritual Fire'. There's absolutely no need to find that Weapon Refiner's White Crane who brought this kind of Spiritual Fire into the Forging God Great World a few thousand years ago."

"In addition, I have long since merged with the Wood Attribute Spiritual Fire 'Bodhisattva Fire', so I can definitely become a Gem Synthetic Master."

In the blink of an eye, a large number of thoughts flashed through Tang Huan's mind, and a smile uncontrollably surfaced on the corner of his mouth.

Of the things he had been thinking about, there was only a brief description of them on the handwritten letter. It was not detailed at all, and most of them were conclusions that he had come to after careful analysis. He, Tang Huan dared to guarantee that it was completely correct, but he believed that it was most likely correct as well.

After knowing about the existence of the Gem Synthetic Master, Tang Huan initially did not wish for himself to become one of them. After all, there were too few of these people.

But now, Tang Huan felt an uncontrollable impulse in the bottom of his heart, because becoming an obstacle in the way of the Gem Synthetic Master, simply didn't exist for him.

Once he became a Gem Synthetic Master, he could create Divine Level Stone for himself at any time. If he wanted any Divine Level Stone, he could synthesize any Divine Level Stone he wanted, and when refining, he would not have to be controlled by others. Otherwise, they would need some kind of Divine Level Stone. Either they go to the Gem Synthetic Master to ask for help, or they could only search the entire world to find them, and after that they could spend a large amount of "Initial Spirit Heavenly Crystal" to buy them.

"The Wind Howling City definitely does not have a Gem Synthetic Master, I just wonder if the Tiger Clan has any letters or notes that he would like to collect?" While he was thinking, Tang Huan had already stood up and walked out of the hall. If Tiger Clan didn't have it, he could perhaps take a look at Dragon Clan and Snake Clan.

"Gem Synthetic Master's handwritten notes?"

After a long while, inside the Tiger Divine Palace, Hu Lie gasped in surprise. Zhuo Dongqing, Long Xinquan and Qian Yu also looked towards Tang Huan in surprise.

When Tang Huan followed Hu Qian back to the Tiger Divine Palace once again, Hu Lie and the others were discussing about the mining operations.

This time, Tang Huan did not avoid Zhuo Dongqing, Long Xinquan and Qian Yu.

"Little brother, what do you want this for?" Long Xinquan stroked his long beard and said with some confusion.

"In this world, only the Gem Synthetic Master knows the characteristics of gems, and especially Divine Level Stone. If I were to see the notes in their letters, it would definitely be beneficial to my path of artifact forging. The most powerful weapon that I am able to forge right now is a Saint-rank weapon. I have always wanted to try out my forging heavenly armaments, but was unsure of it, and did not dare to make a move in the end.

Tang Huan smiled as he spoke frankly with confidence. He did not want to reveal his true purpose, so he thought of a good reason on the way here.

"Indeed."

Zhuo Dongqing nodded his head and smiled, "Ever since our 'Pure Yang Sword Sect' became a Heavenly Blacksmith, he started to collect letters and notes from all over the place. Unfortunately, this thing is too rare, and after dozens of years, we only found a mere two of them. Usually they are treated like treasures and are unwilling to lend them to anyone else, unless there is a Heavenly Blacksmith who used the notes from other Gem Synthetic Master to exchange."

As he finished speaking, Zhuo Dongqing was already feeling rather helpless, "Otherwise, this old man could borrow it and let little brother read it."

"Gem Synthetic Master's handwritten notes are not comparable to Weapon Refiner's handwritten notes. They are indeed extremely rare."

Hu Lie could not help but laugh bitterly, "This old man has lived for over a hundred years, I have only seen him once at an auction." Speaking till this point, Hu Lie could not help but look at Long Xinquan and Qian Yu, "Brother Long, Lord, I wonder if Dragon Clan and Snake Clan have such a treasure?"

Long Xinquan shook his head and sighed, "Brother Hu, I am even worse than you. You have at least seen it before, but I have never seen it before."

After Tang Huan heard this, he could not help but feel some disappointment in his heart.

The Gem Synthetic Master's handwritten notes were so rare that it far exceeded his expectations. Even the strongest powers in the Yan State, the "Pure Yang Sword Sect", only had such pitiful strength, let alone the rest of the and the rest of the Dragon Clan s.

"Our Snake Clan seems to have a share of this stuff."

A melodious voice rang out.

Tang Huan's heart was moved, his gaze immediately landing on Qian Yu, who, Zhuo Dongqing, and Long Xinquan all looked at him at the same time.

"Lord Qian Yu, if you can lend me the money, I will definitely thank you." Hu Lie was ecstatic.

"I would like to, but unfortunately, I am unable to do so. I will need Little Brother Tang Huan to personally head over to the Myriad Caves City to see." Qian Yu smiled beautifully.

"..."

## Chapter 795 - Myriad Caves City

"Whoosh."

Tiger Vigour Summit, Middle Section of Spiritual Soul Cave. An abnormally fierce and rapid wave of aura suddenly broke the tranquility of this space.

All the cultivators who were cultivating in this area were startled awake, the white-colored odor that was lingering around them quickly disappeared, and then, everyone turned to look at the center of the space.

At the place closest to the Giant Tiger Statue, a huge cloud of white mist seemed to have been stirred up by a hurricane and was violently churning. If it was before, when they saw this shockingly large "Tiger Vigour Essential Qi", everyone would definitely be surprised like they were before at the cultivator who caused this kind of commotion.

But now, almost everyone knew that the person who was cultivating was Tang Huan.

"Tsk tsk, the Rank Four True Spirit! We have only cultivated here for ten days, and have already stepped into the Rank Four True Spirit realm. "

"In just a few short months, he broke through from the Rank One True Spirit to the Rank Four True Spirit. Truly, compared to other people, it's extremely infuriating!"

"If this speed continues, wouldn't Tang Huan be able to advance to the Rank Seven True Spirit very quickly? At that time, he will be the fastest person to become a Guardian in our Tiger Clan. "

"..."

Everyone whispered amongst themselves, their expressions full of admiration and envy. There was even a hint of jealousy.

Not too long after, the crazily increasing aura stabilized, and the white mist gradually calmed down. Everyone either continued to cultivate or left the "Spiritual Soul Cave". From time to time, new cultivators would enter this area to cultivate.

Everything was back to normal.

After two days, the gigantic ball of white mist suddenly started to quickly dissipate and melt. In just a few breaths of time, Tang Huan's figure had appeared.

The present was different from the past; Tang Huan no longer needed to conceal himself.

In the next moment, Tang Huan activated the number plate at his waist, and was wrapped by a black Qi and left Middle Section of Spiritual Soul Cave, when he appeared again, he was already outside of Spiritual Soul Cave.

Just now, he had felt a strange movement from the number plate. If he was not mistaken, Qian Yu and the rest should be returning to the Myriad Caves City soon.

"Whoosh!"

Tang Huan's body moved like a ray of light and quickly returned to the Wind God Valley.

But when he arrived at the entrance of the No.643 Courtyard, the scene that appeared in front of him made him startled.

In the courtyard, Chen You, Still, Lian Yu were chirping away noisily, talking and laughing merrily. It was unknown what they had just said, but Chen You's beautiful face was flushed red. Her pair of bright black eyes were filled with shyness and she gave off an alluring charm.

The situation didn't seem right?

Tang Huan and Chen You had known each other for so long, yet it was the first time he had seen her reveal such a bashful expression. And what confused him the most, was that ten days ago, Chen You still came to visit him in a very unwelcome manner, but now, saying that the two of them were blood-related sisters, probably no one would not believe him.

"What are you talking about?" Tang Huan's figure moved, and he entered the courtyard.

"Nothing, nothing."

The sudden voice startled the three people inside, especially Chen You. Her small hands continuously moved, and her cheeks flushed red, like a peach that had matured, as if a gentle pinch would cause juice to spill out, and the two of them who had regained their senses, pursed their lips and laughed.

"We came to say goodbye to Little Sister Chen You."

And then, she continued to smile softly, her eyes as gentle as water. "Brother Tang, are you ready? If you are ready, let's set off. "

"That's right, it's a pity that Little Sister Chen You is a Clan Guardians, you can't leave. Otherwise, you can invite Little Sister Chen You to travel with us." Lian Yu also had a smile that was like a flower.

"I can leave at any time!" Tang Huan swept his gaze across Chen You,, and the two others.

"Tang Huan, take care." After Chen You heard this, he did not care about being embarrassed anymore. There was a trace of reluctance in the gaze he used to look at Tang Huan.

"..."

After about half an hour, a circular shaped Space Aircraft shot up into the sky from the depths of the Wind God Valley.

Inside the space in front of the flying shuttle, Tang Huan sat in front of the round table.

By the side, Xiao Budian was sleeping soundly. After he finished eating all of Tang Huan's Saint Grade Gem, Xiao Budian once again fell into a deep sleep. After all these years, Xiao Budian's slumber time grew longer and longer. This time, he would probably not wake up until half a year had passed.

However, when it woke up, the shape of the fifth pair of wings would also appear.

Tang Huan was looking forward to it.

"Whoosh!" "Whiz!"

The two aircraft were like flowing lights, shuttling quickly in the sky.

Qian Yu, Lian Yu and the rest of the Snake Clan Cultivators were all gathered in the front of the round disc aircraft, and in the back of the flying shuttle, other than Tang Huan, there was another person, and that was Clan Guardian Commander Hu Xiao, who was a Rank Seven True Spirit cultivator. He was currently seated silently in the middle of the flying shuttle.

Hu Lie was not opposed to Tang Huan going to the Snake Clan, but he did not have complete trust in the Snake Clan either. Although Tang Huan had never forged Heavenly Soldier before, his firepower had already reached the level of a Lower Grade Heavenly Blacksmith.

If that copy of Gem Synthetic Master's letter was just a pretense, then Snake Clan's purpose was quite thought-provoking.

Of course, Snake Clan did not display anything abnormal at the moment, but Hu Lie had no choice but to be on guard, and so he sent Hu Xiao to travel with Tang Huan. If the Snake Clan made a move, Hu Xiao could use a strange method of communication to quickly let Hu Lie know of the news, so that he wouldn't be kept in the dark.

Although Tang Huan felt that it was unnecessary, he did not have any arrangements to oppose Hu Lie.

After a while, the two aircraft left the Wind Howling City at top speed, leaving Tiger Vigour Summit far behind. In order to avoid the attacks of the strong flying beasts deep within the Firing Dragon Mountain Range, the aircraft had always been circling around the border regions of the Firing Dragon Mountain Range.

In the blink of an eye, another ten days passed.

It was late in the evening, and the setting sun was as red as blood.

Within Tang Huan's line of sight, the initially endless forest was suddenly replaced by a mountain range that reached into the clouds. There were dozens of them. At the foot of these mountain peaks, there was actually an incomparably dazzling and sparkling light that flickered and appeared. Under the reflection of the magnificent multicolored light that was shining down from the sky, it became even more dazzling and resplendent.

Very quickly, the two aircraft entered the mountains.

It was only then that Tang Huan realised that there were countless caves at the bottom of all the mountain peaks. The light beams were emitted from the inside the cave, and in between the mountain peaks and under the cover of the trees, there were countless roads and buildings. From time to time, he could see figures shuttling back and forth.

"This is the 'Myriad Caves City'?"

Tang Huan's mind was slightly shaken. Just as he carefully sized them up a few times, the aircraft in front of him swooped down. Tang Huan immediately activated his flying shuttle and followed it. In just a few breaths of time, the two aircraft landed on an extremely wide field below.

In the center of the arena, there were nine massive jade pillars that were a hundred meters tall. On top of each jade pillar, there were giant snakes coiling around.

#### Chapter 796 - God Sealed Spirit Map

This was the Myriad Caves City!

The center of the mountain was filled with black rocks that were hollowed out by the spiderweb-like cave. All caves were naturally formed and there were no signs of manmade excavation. Moreover, the texture of these rocks was extremely peculiar, constantly emitting countless specks of white light.

Being in it was like walking in the sea of stars in the firmament.

Each mountain peak was like a maze of caves. There were dozens of mountains and dozens of labyrinth caves, which were the Myriad Caves City's lair.

Good Fortune Bell!

Even though he had met the Holy Spirit Continent of the small world's Feiyun city and Tranquil Continent, Tang Huan was still amazed when he saw the Myriad Caves City.

After putting away the Space Aircraft, and with Qian Yu and the others' guidance, Tang Huan and Hu Xiao followed a cave and entered the inner part of the mountain.

The cave was over ten meters wide, and its height was at least thirty or forty meters. It was cool, dry, and completely devoid of any cold.

From time to time, there would be forks in the road to the left and right.

At the beginning, he had met many Snake Clan Cultivators who respectfully bowed and saluted to Qian Yu, but the deeper they went into the mountain, the fewer Snake Clan Cultivators they met. Everyone rapidly advanced. After around fifteen minutes, they made a turn and arrived at the end of a cave.

"We're here!"

Qian Yu smiled as he pointed ahead.

Tang Huan looked over, and noticed that at the end of the cave, there was a crescent-shaped groove.

Then, under everyone's watch, Qian Yu gracefully walked in front of the stone wall and placed his right hand on the groove. The white-colored odor lingered in his palm, and along with a burst of unusually violent energy fluctuations, the stone wall actually emitted a creaking, creaking sound, and slowly slid to the left.

It was only a small crack, but one could already see that there was another world inside. When the entire thick stone wall was pushed open, the scene before their eyes became even more clear.

"Little brother, after you!"

He gestured to Tang Huan and Qian Yu walked in first.

The interior was an irregular oval space, each with a length and width of about ten meters, separated by smooth stone slabs into several rooms of varying sizes. The first thing that everyone entered into should be the hall, other than a few simple stone tables and chairs, there were no other decorations.

After a while, Qian Yu had already opened the largest room, with a smile spread across his forehead: "Little brother, this is the place."

"This place is the cave of the Gem Synthetic Master."

"No one knows when the cave dwelling first appeared, but a thousand years ago, when our Snake Clan moved over to build it, it had already existed. It is very likely that someone had already visited it before, and other than a large pile of precious stone scraps, there is nothing else of value inside. And also through those things, the ancestors of our Snake Clan. I think this is the cave of a Gem Synthetic Master. "

"When our ancestors in the Snake Clan found this place, they even found a skeleton in this room, it should be that of the Gem Synthetic Master, and his letter was carved in this room, but it was all contained in a Spirit Map, and is said to be a 'God Sealed Spirit Map'."

"God Sealed Spirit Map? is he a Gem Synthetic Master at the same time? "

Hearing that, Tang Huan's heart could not help but move.

The letter from the Upper Grade Blacksmith that Hu Lie had given him had mentioned the words "God Sealed Spirit Map". It was a very powerful Spirit Map technique, and it was carved into the weapon. When fighting with an enemy and killing them, one could seal their soul into their weapon, leaving them with no way to escape.

This kind of "God Sealed Spirit Map" was a perfect match with his Spirit Adhesion.

After knowing that there was a 'God Sealed Spirit Map'.

When they existed, Tang Huan's heart had been restless and he had even tried to deduce their situation. Unfortunately, the records in the Heavenly Blacksmith's handwritten letter were too sparse and there were no ready-made "God Sealed Spirit Map" for him to examine, so he had no idea how to proceed.

But he did not expect that when he came to Snake Clan this time, he would run into a "God Sealed Spirit Map."

Even if he did not have the Gem Synthetic Master's letter and was able to observe and study the "God Sealed Spirit Map", coming to the Snake Clan this time would not have been a waste.

In that moment, a large amount of thoughts went through Tang Huan's mind, a look of happiness flashed past his eyes.

"Extremely possible! In the last thousand years, our Snake Clan has had a few Weapon Refiner s, but the highest ranking was only Weapon Refining Grand Master, and not one of them could be promoted to Heavenly Blacksmith. The God Sealed Spirit Map had never been able to figure anything out. Little brother, whether or not you can obtain the Gem Synthetic Master's letter is up to you. " Qian Yu lamented, and looked at Tang Huan with a trace of anticipation.

"Thank you, Lord Qian Yu."

Tang Huan took a light breath and walked into the room.

The Snake Clan did not take out the existence of this cave dwelling out for free. That day, Qian Yu had once requested that if Tang Huan were to receive a letter from that Gem Synthetic Master in the

cave, in the future, if he were to succeed in forging heavenly armaments, he would need to forge three pieces for him.

This wasn't anything difficult, so Tang Huan naturally agreed without hesitation.

Now, all he wanted to do was to see if he could really find something here.

The room was about ten meters wide and had no decorations. On the wall facing the door, there were countless small engravings. It was so dense that it was dazzling.

At first glance, they looked like neatly arranged text, but when he looked again, he discovered that they were all crisscrossing lines. They seemed chaotic and disorderly, yet seemed to contain endless mysteries.

"This Spirit Map is magical indeed."

Tang Huan thought for a while, then closed his eyes slightly.

When he opened his eyes again, the "Nine Yang Divine Furnace" and the "Five Colors True Spirit" had already been operating to their limits. The Genuine Qi circulated freely in his body, and in an instant, the Perception Ability had risen to its limit as it encompassed the entire wide wall. After a moment, Tang Huan was already immersed in it.

At the door, Qian Yu and Hu Xiao exchanged a glance, then quietly closed the door, no longer disturbing Tang Huan.

Time passed slowly.

"Hu!"

After an unknown amount of time, Tang Huan suddenly heaved a sigh of relief, and slowly turned her gaze away. Her pretty face was filled with exhaustion.

He tried to deduce the "God Sealed Spirit Map" on the wall, but before he could even understand 10% of it, he felt a little exhausted.

However, the completed deductions of the Spirit Map had allowed Tang Huan to reap a lot of benefits. As if he had suddenly learned everything, he felt that his abilities in the Spirit Maps had improved by quite a bit. If he could comprehend this entire set of "God Sealed Spirit Map," Tang Huan's Tools Method Attainments would definitely improve by leaps and bounds.

As a result, although Tang Huan was exhausted, he was still extremely excited.

Immediately, Tang Huan summoned a few Initial Spirit Heavenly Crystal from within the "Sumeru Magical Ring", and then activated Great Harmony Heavenly Classics to its limits, and then began to harmonize his Qi and cultivate. When Tang Huan became energetic once again, he removed all of the distracting thoughts from his mind and immersed himself once again into the Spirit Map.

Chapter 797 - Transforming the Void into the Nine Revolutions, the Great Way of the Heavenly Path

Unknowingly, a month had already passed.

Hu Xiao and the others would enter the cave once every few days or so, but they would not disturb Tang Huan. They would only silently push open the door and leave, and would still place some

fresh fruits in every single time. However, Tang Huan had never moved. After arriving at the True Spirit Level, even if he did not eat or drink for a month, he would not feel hungry.

"Huh?"

Another day passed. In the room, Tang Huan suddenly exclaimed in surprise, shock written all over his face.

This "God Sealed Spirit Map" indeed contained the Gem Synthetic Master's letter. Amongst the Spirit Map, there were many nodes, which were "Spirit Essences". Every time he tried to deduce the location of a spiritual well, a portion of the Gem Synthetic Master's letter would be revealed.

In this kind of situation, when Tang Huan looked at the wall again, what appeared in front of him were no longer lines, but characters.

The handwritten letter recorded the success or failure of many Divine Level Stone. Tang Huan had benefited a lot from the successful fusion of their Wood Attribute Spiritual Fire and Gem Synthetic Master s, as well as from the high level Divine Level Stone to the heaven level Divine Level Stone. It was hard to imagine how much he had benefited from it.

Of course, the Gem Synthetic Master s of Heaven Stage were able to fuse Heaven Stage Divine Level Stone.

As for that Gem Synthetic Master's Tools Method Attainments ...

Just by looking at this "God Sealed Spirit Map", one could guess a bit. According to Tang Huan's judgement, the "God Sealed Spirit Map" Lower Grade Heavenly Blacksmith could be carved out. However, to draw the words "God Sealed Spirit Map" so freely and perfectly, it had to at least be a Heavenly Blacksmith of Heaven Stage.

Tang Huan originally thought that the Heavenly Blacksmith s of Heaven Stage and Heaven Stage were the limit of this master of the cave.

After all, Weapon Refiner s with this level of strength were rarely seen in the entire Forging God Great World, and they were also Heaven Rank and Heaven Rank Gem Synthetic Master s. In the era when the master of the cave was still alive, perhaps one could just count them with a single palm.

But what surprised Tang Huan was that when he finished deducing the last part of his Spirit Essence, what he revealed was actually the master of the cave's experience of synthesizing a Holy-ranked Divine Level Stone.

Doesn't this mean that the other party is a Saint Grade Gem synthesizer, and even a Saint-rank Heavenly Blacksmith?

Saint rank seemed to be the limit of the Forging God Great World's Tools Method! Strictly speaking, the gem synthesis was also included within the Tools Method.

"Sacred... Saint Grade Gem Synthesizer... "

After the initial shock, Tang Huan could not suppress the joy that surged from the bottom of his heart. This kind of ruin, in the entire Forging God Great World, probably only had a few.

This was why he only requested for Tang Huan to forge three Heavenly Soldier s in the future. If Qian Yu knew that this master of the cave's attainment had already reached the supreme saint rank, he would feel regret even in his intestines.

And Zhuo Dongqing, when he mentioned the cave, he did not care.

Qian Yu had even invited him to come with him to the Myriad Caves City, but he hadn't agreed either. If he were to find out about the true state of this cave, he would probably regret it a lot.

In a blink of an eye, Tang Huan had already calmed her mind and was frantically absorbing the Spirit Map that appeared like a sponge, unknowingly, she had already immersed herself in the process.

In a trance, Tang Huan felt as if he had quietly entered a misty green space.

"... Transforming the void into nine cycles, and the great dao passes through the heavens ... "

It was as if an ancient voice had traveled through time and space from the endless ancient times. Every note seemed to contain endless mysteries that struck directly into the depths of one's soul, causing one to be unable to help but have an intense urge to bow in worship.

Not long later, Gu Yuan's voice congealed into eight shining green runes, and shot towards Tang Huan's forehead.

"Buzz!"

But right at this moment, within the Dantian, the "Nine Yang Divine Furnace" was violently trembling, the deepest part of his soul was actually showing an incomparably intense sign of alarm.

"This is bad!"

Tang Huan suddenly became clear-headed. Within his mind instructs (in a second), the "Nine Yang Divine Furnace" had already been activated to the extreme, and the unprecedented power of the sucking spread throughout his entire body. The moment the eight cyan characters smashed into the center of his brows, they were drawn towards the power of the sucking, and instantly entered the "Nine Yang Divine Furnace".

was still in the room of the cave, but the eight characters inside the Dantian 'Nine Yang Divine Furnace', had turned into rays of cyan light, and instantly condensed into a small cyan figure.

"The Nine Revolutions Void, the Great Way of the Heavens ..." Nine Revolutions ... "The great Dao connects to the Heavens ...." The green figure repeated this line over and over again.

"This is ..."

Tang Huan's mind was shaken. At his back, his robes had already been drenched in cold sweat.

He had already understood that the green figure was actually a set of residual soul. If not for the "Nine Yang Divine Furnace" suddenly signalling, that set of residual soul would have probably seeped into the depths of his soul while he was still in a daze. At that time, he wouldn't have been able to resist at all.

If Tang Huan felt that it was not wrong, then the residual soul actually contained a trace of a "Law of the Tao".

This kind of residual soul had completely surpassed Tang Huan's own soul. The two could be said to have a qualitative difference. Once invaded, even if the residual soul was incredibly weak right now, it could gradually become stronger by devouring Tang Huan's soul, and ultimately completely replace Tang Huan.

"So close, I was almost possessed."

Tang Huan heaved a sigh of relief, his eyes revealing a hint of rejoicing.

Calming himself down, Tang Huan went over everything he had experienced after entering the cave, and he became even more certain of his judgement.

Furthermore, according to Tang Huan's guess, that residual soul should be the owner of that cave.

Perhaps he was trying to reach a higher realm and was in danger of falling, or perhaps he was trying to force his enemy to come. He didn't have the confidence to keep his life ... The master of the cave left such a "God Sealed Spirit Map" as a backup in the room, and it was likely that he did encounter an accident later on. The only thing left behind was a thread of residual soul that escaped and stayed within the "God Sealed Spirit Map". Because of the existence of the Spirit Map, that residual soul has never been extinguished until today.

The God Sealed Spirit Map s, as well as the letter contained within them, were just bait left behind by the master of the cave.

If there was a Weapon Refiner at the same time who discovered this wondrous Spirit Map, he would definitely be unable to hold back and go deeper and deeper under the guidance of the bait. Until his mind was completely lured and his consciousness sank into a daze, it would be time for the residual soul to make a move.

If the possession was successful through such means, the revived master of the cave would definitely possess both the identity of a Gem Synthetic Master and a Weapon Refiner.

No matter how weak he was, he would still be a Weapon Refiner with astonishing Perception Ability and limitless potential. Otherwise, it would be impossible to deduce "God Sealed Spirit Map".

## Chapter 798 - Dao Tools

"The Nine Revolutions Void, the Great Dao to Heaven?"

"What does that mean?"

Tang Huan's mind raced as he returned his attention to the Dantian's "Nine Yang Divine Furnace" area. The green figure continued to repeat the same eight words again and again.

This should be the strongest will left behind by the master of the cave.

Otherwise, it would be impossible for him to still be yearning even after a thousand years with only one residual soul left!

However, regardless of what "Nine Revolutions Transcendental Great Way" meant, this residual soul had to be completely refined. Leaving it in the cauldron might not pose any threat for the time being, but it was still a hidden danger.

In the next moment, the "Nine Yang Divine Furnace" and the "Five Colors True Spirit s" started to madly revolve again. The boundless Genuine Qi was like raging waves, surging into the cauldron with an irresistible force, refining the green figure.

After a while, Tang Huan's heart was slightly shocked.

Right now, the green figure did not contain a lot of strength, and was probably only equivalent to a Rank One True Spirit cultivator. It was unknown if it was because of the "Law of the Tao", but his resistance was unusually strong, and he unconsciously sat cross-legged inside the cauldron.

"Void Transformation ..." The Grand Dao connected to the heavens ... Nine Revolutions ... "The great Dao connects to the Heavens ...." The sound still echoed from within the cauldron.

"To think that residual soul would be so tenacious."

Tang Huan was surprised, but with a quick thought, he was relieved.

Only when one's residual soul was this strong would they be able to continue existing within the "God Sealed Spirit Map" and maintain that powerful remnant intent. From this, it could be seen that back then, the master of the cave was extremely strong.

Although the power of the residual soul itself was not strong, and was even a little weak, the "God Sealed Spirit Map" that the master of the cave left behind was incomparably profound, able to actually cause a person to unknowingly open their soul completely. At that moment, even a single soul of the Heavenly Domain could directly enter.

If not for meeting Tang Huan, even if it were a Upper Grade Blacksmith, or even a Heavenly Blacksmith of Heaven Stage, he would probably be completely tricked. Being seduced by the "God Sealed Spirit Map," the chances of waking up using one's own strength to do so were minuscule, and once invaded by the residual soul, even if one's consciousness awakened, it was impossible to expel the existence of the "Law of the Tao", so they could only fall into it step by step, and finally be possessed by it.

It was also because Tang Huan relied on "Nine Yang Divine Furnace" that he was even able to recover his consciousness and counter attack at the last moment.

As for the current resistance of his residual soul, Tang Huan did not care at all. Now that he was at the helm of the sword, and that residual soul was like a piece of meat, he had plenty of time to wear down his resistance.

Time flew and in the blink of an eye, another month passed.

"It's finally about time."

Inside the room, Tang Huan who was sitting cross-legged had a satisfied smile on his face. Inside the "Nine Yang Divine Furnace s", the resistance of the green figure was extremely weak.

Until now, he could no longer resist Tang Huan's refinement.

In a blink of an eye, Tang Huan had already activated "Bodhisattva Fire", wrapping the figure within.

The reason why he chose "Bodhisattva Fire" instead of "Nirvana Sacred Fire" or "Sharp Spiritual Fire", was because that ball of residual soul contained an incomparably pure wood attribute energy.

"En!"

But just as Tang Huan was about to start refining, a light groan suddenly came out from the green figure that was covered by the "Bodhisattva Fire". It was as if deep within the residual soul, a consciousness that had been slumbering for countless of years suddenly woke up.

"Spiritual Fire! Wood Attribute Spiritual Fire! This old man has finally come back to life! " Immediately after, the sound of vigorous laughter rang out from the green figure.

"Huh?"

A strange expression flashed across Tang Huan's eyes. Under the stimulation of the "Bodhisattva Fire", the slumbering consciousness of the residual soul actually woke up.

"This old man has wasted his efforts on the road to heaven at the last moment. This time, I will definitely not ..."

Before the last word "failure" could be uttered, the laughter came to an abnormally abrupt halt, replaced by an incredulous cry, "How is that possible? Possession ... Failed? This old man spent a great deal of effort to create this 'God Sealed Spirit Map', 'but someone was actually able to get rid of it, and even give this old man a sucking ..... The 'Dao Artifact' ... It was actually a Dao item? How could a 'Dao Artifact' appear in the Forging God Great World? "

The voice trembled as if it had seen a ghost.

"Dao item?"

Tang Huan could not help but be startled, and then he heard the green figure call out somewhat hysterically, "It's actually a 'Dao Artifact' ... [This old man's scheme was all for nothing in the end. Destiny's will ...] "It really is the will of the heavens..." As he finished speaking, the green figure's voice had already calmed down, but Tang Huan could feel a kind of dejection and helplessness from his heart, "Younger generation, could you let this old man know your name?"

"My name is Tang Huan!" Tang Huan slowly said.

"Tang Huan... Tang Huan... "

As the green figure muttered this name, his voice actually became weaker and weaker. By the fourth time he recited it, his voice had already completely disappeared.

Just by sensing it briefly, Tang Huan discovered that the consciousness in the residual soul had already disappeared completely, which made him feel rather emotional in his heart. The master of the cave used up all his energy to try to seize his body and reincarnate, but in the end, the only result of his efforts was the refinement of his residual soul by the sucking. This was a huge blow, defeating the obsession that had supported master of the cave for countless of years. Once that obsession was gone, his consciousness would naturally vanish into thin air.

Even though his residual soul was no longer there, the information that was leaked out from those few words caused a large amount of suspicions to arise in his heart.

"The Path to Heaven ..."

Tang Huan's mind raced.

master of the cave was already a Saint Grade Gem synthesizer, his cultivation must have reached the peak of Forging God Great World. The Path to Heaven? Could it be that after one's cultivation reached the peak of Forging God Great World, they could go another level higher and the master of the cave was defeated in that process? Could it be that in the end, only a small strand of residual soul remained and he wanted to borrow the strength of the 'God Sealed Spirit Map' to rebirth and try that road to the sky again?

Wait a minute, that "God Sealed Spirit Map" seemed to be the creator of the master of the cave. From this, it seemed that he had existed for more than a thousand years. It had to be known that the letter to the Upper Grade Blacksmith that Tang Huan had obtained from Hu Lie was an item from nearly a thousand years ago.

And that so-called "Dao Artifact" ...

Could it be that it was an existence that was even scarier than a Saint-rank Divine Armament? Otherwise, how could it make the residual soul lose control like this? Looks like the Sword Refine Furnace that he brought with him in his previous life wasn't as simple as it looked on the surface.

Only after thinking wildly for a while did Tang Huan finally calm his mind. In between his mind instructs (in a second), the "Bodhisattva Fire" started to fluctuate violently.

#### Chapter 799 - Mutations in the Divine Stove

Streams of green colored aura were absorbed into the "Bodhisattva Fire", and the green figure became smaller and smaller. Not long after, all that was left was a thick green glow, as if it was a living spirit object that was sparkling and rippling, giving off an incomparably mysterious and miraculous feeling.

"Law of the Tao!"

Tang Huan frowned slightly.

This remaining strand of cyan light was from the "Law of the Tao" of the master of the cave, and was also the most powerful object that the residual soul had. Unfortunately, with his current cultivation, he was still unable to refine such a miraculous item. Hence, leaving it in the cauldron would not be appropriate.

He had to think of a way to remove it from the cauldron!

"Buzz!"

Just as this thought flashed through his mind, a thunderous roar resounded within the Dantian. Almost at the same time, the "Nine Yang Divine Furnace" began to tremble in an unusual rhythm. This sudden unusual movement caused Tang Huan to be surprised, and he immediately tried to sense it carefully. Not long after, a trace of understanding emerged in Tang Huan's heart. The "Nine Yang Divine Furnace" wanted to devour the thread of the "Law of the Tao".

After understanding the situation, Tang Huan was even more surprised, but he did not stop it.

This "Nine Yang Divine Furnace" and Tang Huan's relationship could be said to be one, two, two. Although the current movements of the "Nine Yang Divine Furnace" were due to its instincts, not to its dominance, he knew that any actions it made would not harm him, and that was enough.

As time passed, Tang Huan could faintly feel that an equally mystical power had emerged from within the "Nine Yang Divine Furnace".

The power wasn't released, but was constantly being accumulated.

"Hu!"

After about ten breaths of time, that magical power surged out like a volcano erupting, bombarding over. A huge boom resounded, and in the next moment, that strand of "Law of the Tao" turned into numerous green specks of light.

Immediately after, the power started to converge and the light spots formed by the "Law of the Tao" were swept away. In an instant, it had completely fused into the cauldron.

"Buzz!"

Amidst the intense trembling sounds, the "Nine Yang Divine Furnace" instantly emitted billions of bright red lights. Inside and outside the cauldron, the veined patterns that contained an ancient and distant aura seemed to have become a living thing.

Sensing the current situation of the "Nine Yang Divine Furnace", Tang Huan could not help but feel a tinge of surprise.

He could faintly feel that after the "Nine Yang Divine Furnace" absorbed the sliver of "Law of the Tao" from the master of the cave's residual soul, it seemed to have undergone a strange change. However, he was unclear as to exactly what had changed in the past.

But what is certain is that this is not a bad thing.

Before long, the "Nine Yang Divine Furnace" had returned to its original state and was slowly spinning inside the Dantian. Tang Huan's heart itched, it was as if there were thousands of ants crawling around. He immediately rid himself of all distracting thoughts and forced himself to calm down, beginning to sense them carefully.

After a short moment, strands of red Qi leaked out from the cauldron, rising up along the Spiritual Meridian, and finally fusing into the soul.

"Hu!"

In Tang Huan's mind, a large amount of information instantly appeared.

"So that's how it is!"

With his eyebrows raised, a hint of a smile of enlightenment flashed across Tang Huan's eyes.

In the next moment, with a thought from Tang Huan, a ball of dense yet heavy red Qi came out from the Dantian in front of him like a flood. It quickly gathered in front of him and in an instant, it transformed into a "Nine Yang Divine Furnace".

However, it was already much smaller than when Tang Huan first obtained it.

As for the inside of the Dantian, only a faint shadow of the "Nine Yang Divine Furnace" remained. The "Nirvana Sacred Fire", "Bodhisattva Fire", "Xuan Ming Initial Fire" and "Sharp Spiritual Fire", as well as Tang Huan's "Conqueror Spear", "Dragon Slaughtering Saber" and several other Divine Armament were still inside the Dantian Furnace.

"As expected!"

Tang Huan lightly clasped his hands and couldn't help but slightly frown as he slowly muttered, "After absorbing that sliver of 'Law of the Tao', the 'Nine Yang Divine Furnace' can already leave the body! This kind of 'Nine Yang Divine Furnace' can not only be used to forge weapons, it can also be used to synthesize Divine Level Stones. It is definitely a sharp weapon used by Weapon

Refiner and the Gem Synthetic Master. " In that moment, Tang Huan felt an intense impulse from the bottom of his heart, and wished for nothing more than to try it right away.

Only after a long while did the bottom of Tang Huan's heart calm down a little. It was at this time, that the sound of extremely light footsteps came from outside the room.

"Still?"

Tang Huan's heart moved slightly as a red light flashed within his mind instructs (in a second).

"Nine Yang Divine Furnace" had already fused into his lower abdomen, merging together with the illusion of the cauldron within the Dantian.

After a moment, the door was gently pushed open, and that sexy figure immediately appeared at the door, with some fresh fruits on the tray in her hands. As before, he tiptoed into the room, put down the tray, and picked up the fruit he had previously scaled.

He habitually looked at Tang Huan who was sitting cross-legged and was about to turn around and leave when he was suddenly stunned. His eyebrows instantly revealed a look of pleasant surprise:

"Brother Tang, how is it going?"

In these past two months, he had been here a dozen or twenty times, and every time, he would see Tang Huan facing the figure of the "God Sealed Spirit Map" who was sitting motionlessly. But this time, after she had entered, Tang Huan turned his head over, obviously stopping his deductions of "God Sealed Spirit Map".

"At least I got something out of it."

Tang Huan smiled as he stood up, and then with a movement of his feet, he appeared in front of, "Lady Yi Ran, thank you very much. If I am able to successfully forge a Heavenly Soldier this time, and become a true Lower Grade Heavenly Blacksmith, I will definitely help Lady Yi Ran forge a low levelled Heavenly Soldier. "

"Really?" It was still a pleasant surprise. A brilliant smile appeared on her beautiful face, as proud as a blossoming flower, intoxicating.

"Of course."

Tang Huan laughed and said, "Lady Yi Ran, let's go out together now, it's about time for me to bid farewell to Lord Qian Yu."

He was stunned at first, but soon after, he asked in disbelief: "Have you finished deducing the entire 'God Sealed Spirit Map'?"

Seeing Tang Huan smile and nod her head, she couldn't help but be stunned. Her beautiful eyes widened until they were round, and her small cherry lips had even opened wide enough to fit an egg inside. Although she was not a Weapon Refiner, she had heard of the mystical powers of the "God Sealed Spirit Map" before. In Forging God Great World, for the first time meeting a "God Sealed Spirit Map," even if it was the simplest, it was said that Lower Grade Heavenly Blacksmith would need at least half a year to complete its deductions.

But now, Tang Huan had actually only used a short two months time. Moreover, the "God Sealed Spirit Map" in the cave was probably not fated with anything.

"Lady Yi Ran?"

"Weirdo!"

After a long while, only then did those who heard Tang Huan's voice wake up as if from a dream.

## Chapter 800 - Ice Soul Divine Stone

Ten days later, Tiger Vigour Summit.

As the door closed, Tang Huan sat cross-legged on the prayer mat inside the hall. He had returned to Tiger Clan the day before yesterday.

That day, when Tang Huan asked to return, Qian Yu did not stop him.

Hu Lie was initially worried that the Snake Clan had plans, but from the looks of the situation, she had indeed worried too much. Tang Huan had also tried to probe before, to see if Qian Yu knew of the existence of the master of the cave's residual soul. No matter if Qian Yu truly did not know, or if he had disguised himself too well, it was already irrelevant. That residual soul had already turned into dust, and Tang Huan had actually obtained a huge harvest.

At this moment, in front of Tang Huan, a dazzling array of gems was laid out.

The one on the far left was as big as a fist. It was sparkling and shiny purple light, but in the center of the gem, there was a mass of extremely rich cyan energy that was constantly fluctuating. From afar, it looked like a small, beautiful cyan flame.

There were a total of three of them. A few days ago, the Eagle Clan had sent someone to deliver them to the Wind Howling City. The moment Tang Huan returned to the Tiger Clan, Hu Qian came over.

Other than the three "Azure Fire Purple Light Stone", there were six other Lower Grade Divine Stone. Two of them were from Tiger Clan, and the other four were from Snake Clan. When Tang Huan and Hu Xiao left the Myriad Caves City, Qian Yu gave them to Tang Huan to bring back to the forging heavenly armaments.

There were a total of nine piece of Divine Stone here, and all of them were synthetic.

Despite their small size, they were shockingly heavy. The lightest one of them weighed at least two to three thousand pounds, while the heaviest one weighed at least ten thousand pounds. Of course, compared to the Natural Divine Stone that the "High-grade Raw Stone" contained, this was just child's play.

The aura emitted by these Divine Level Stone were all tyrannical beyond compare. If all nine were successfully forged, then these nine Lower Grade Divine Stone could be used to craft nine low-leveled Heavenly Soldier s.

In the current Forging God Great World, most likely no Heavenly Blacksmith would be able to achieve a 100% success rate while still in the forging heavenly armaments. Even Saint rank Heavenly Blacksmith s would have a chance of failure when forging a low-ranked Heavenly Soldier, but the probability was rather low, and they could fail even if there were ten of them.

But to the Lower Grade Heavenly Blacksmith, two or three of the ten attempts of forging heavenly armaments were already considered good, so if he could succeed in five of them, the success rate would be shocking.

Because of this, when Tang Huan said his goodbyes, she said that out of the four piece of Divine Stone, one would be satisfied with forging to the Heavenly Soldier. As for the other two Heavenly Soldier s and Tang Huan's promise to send over to Heavenly Soldier who was still forging, Snake Clan would gather enough Divine Level Stone as soon as possible.

"Before forging heavenly armaments, let's first try to synthesize Divine Level Stone."

Tang Huan thought.

The former needed to use Divine Level Stone, while the latter used those unique Divine Weapon Catalogue and Saint Grade Gem. Although the forging process of the two was different, the difference in difficulty shouldn't be too great. When Tang Huan was still a Weapon Refining Grand Master, he had already created many Divine Armament. Now that his cultivation was higher and his Tools Method Attainments was stronger, he naturally did not feel that it was difficult to forge a low level Heavenly Soldier.

Relatively speaking, synthesizing Divine Level Stone was a bit more challenging.

"Let's try out that 'Ice Soul Divine Stone' first!"

Tang Huan muttered softly. With a slight thought, he kept the nine piece of Divine Stone in front of him back in the "Sumeru Magical Ring". With a flick of his body, he began to walk slowly amidst the stones.

The Snake Clan had recorded more than twenty Divine Level Stone formulas in the letter that the master of the cave was hiding within the "God Sealed Spirit Map".

The Ice Soul Divine Stone was one of them.

Refining pills required a formula, and refining a Divine Level Stone required a formula as well. Synthesizing a Lower Grade Divine Stone required a variety of gems. It was possible that all of them were Saint Grade Gem s, but there was also a possibility that there would be a small amount of Heavenly Ranked, High Ranked, or even Middle Ranked Gems.

There was an extremely strict requirement for each of the gems. The gems were fused first, and then the gems were fused later. Otherwise, any mistake would result in a failure to synthesize the gems, wasting a large amount of precious materials.

It was one thing for the fusion of the Lower Grade Divine Stone to fail, but what was lost were gems of the Saint-rank or below.

However, if the fusion of middle stage Divine Level Stone failed, the losses would not only be Saint level and lower stage stones, there would also be Lower Grade Divine Stone. If the fusion of Saint Grade Gem failed, the losses would be even worse, even if it only failed once, it would cause a sect to lose everything.

From this, it could be seen how important the Divine Level Stone formula was.

For the Gem Synthetic Master, if they invented a kind of Divine Level Stone recipe, or modified a kind of Divine Level Stone formula, once it spread out, their name would immediately shake the whole world.

"The 'Icy Sharping Spiritual Stone' weighs eight hundred and fifty kilograms, the 'Profound Leaf Stone' weighs three hundred, the 'Frost Dew Stone' weighs twelve kilograms, and the 'Fantasy Moonstone' weighs forty-six kilograms..."

Tang Huan found all kinds of gems and moved them to the palace.

According to the description in the recipe, there were a total of eight required gems to synthesize 'Ice Soul Divine Stone'. All of them were Saint Grade Gems, which could be found in the palace. Of these eight gems, six of them were stones that Tang Huan had recognized from his small world, and the remaining two were gems that he had only recognized yesterday.

After returning to the Wind Howling City, Tang Huan immediately spent an entire day's worth of time to stroll around the entire city's Gem Store. Those gems that he had never seen in the small realms but which were quite common in Forging God Great World, although he did not know them all by heart, he could at least call them by their names.

After a while, all eight gems were found.

Then, with a thought, Tang Huan took out the scale he bought yesterday from the "Sumeru Magical Ring".

Not every gem of the same type had the same size and weight.

It was said that when the Gem Synthetic Master first synthesized Divine Level Stones and prepared the materials, all sorts of gems were discussed. However, in the end, the gems gradually evolved to be counted by a jin, which meant that the weight of the gems was controlled even more accurately, and the success rate of the Divine Level Stone was also higher.

After a long while, Tang Huan finally finished weighing the gem ...

With that thought, a thick ball of fire red Qi roared out from the Dantian, and in a blink of an eye, a 'Nine Yang Divine Furnace' had already condensed and formed in front of Tang Huan.

"Begin!"

Tang Huan savored the recipe of the "Ice Soul Divine Stone" once again, after that he took a light breath. With a wave of his right hand, a strong wave of energy wrapped around half of the "Icy Sharping Spiritual Stone" and sent it into the cauldron.

Immediately, Tang Huan held onto the two ears of the cauldron with both hands.

"Hu!"

Immediately after, two days of green flames whizzed out from Tang Huan's palm and extended out along the cauldron. In the blink of an eye, the entire "Nine Yang Divine Furnace" was completely engulfed within. As the green flames burned fiercely, an incomparably boundless and rich life force surged and boiled within the cauldron.

This was the "Bodhisattva Fire", a type of fire of vitality.

The reason why Spiritual Fire could only become Gem Synthetic Master was because it could give the gem life force, and then use life force as a bond, causing different types of gems to have strange reactions, and this, was something any other type of Spiritual Fire could not do.
