### Chapter 811 - Soul Gathering Great Image

"Aoouuu ~ ~ ~"

The Black Wolf Leader screamed as his body flew backwards like a kite with a broken string, landing heavily tens of metres away. In an instant, he created a deep crater, as fresh blood spewed out of his mouth uncontrollably.

The black arrow that was formed by the pack of wolves leading them could no longer maintain its previous state of harmony. All the Black Wolf seemed to have simultaneously awakened from some kind of strange state, their empty eyes regained their normal lustre, but they were immediately filled with panic and quickly scattered.

"Bam!"

Following which, an explosive sound shook the void.

Under the pouncing attacks of the gigantic beast Fire Red Huge Tiger, Golden Dragon and white huge eagle, it suddenly disappeared.

"Howl!"

Black Wolf Leader rolled over and stood up. He emitted a wuwu sound and immediately fled into the distance. The other scattered Black Wolf s listened to the imperial edict as if they were listening to it, and didn't dare to stay any longer.

Tang Huan threw out his Conqueror Spear and the Eight Remoteness Dragon King appeared again, chasing after the other three Great Spirit of Divine Weapon s.

"Whoosh!"

Tang Huan was as fast as lightning, following closely behind like a shadow.

At this point, he no longer just watched from the sidelines like before, but used continuously using the soul attacking method, "Soul Killing Stab." Almost every time a sharp needle of a Five Colors Odor swept through the air, a Black Wolf would stagger forward and fall to the ground, before being completely killed by the Spirit of Divine Weapon who pounced on him.

With Tang Huan's help, the efficiency of the Spirits of Four Great Divine Armaments s killing Black Wolf s became incomparably shocking.

In a short moment, almost half of the Black Wolf s had died. The Black Wolf Leader clearly realized that if this carried on, the entire pack of wolves would be annihilated.

"Wuuuuuu ~ ~ ~"

With another whine, the pack of wolves scattered in different directions.

Seeing that, Tang Huan did not mind. When the Spirit of Divine Weapon was devouring his soul, he was simultaneously using the "Heavenly Luo Soul Refining Art". The Spirits of Four Great Divine Armaments had now successively risen from the Rank Three True Spirit to the Rank Four True Spirit, which was much faster than he had expected. He had originally thought that only by annihilating this pack of wolves would the artifact spirit be able to break through.

In an instant, the four artifact spirits had turned into Divine Armament and entered his body.

The Black Wolf Leader ran even tighter, and was already disappearing from his sight. Tang Huan's heart skipped a beat, and in the next moment, a pair of gigantic wings appeared on his back. With a light pat, Tang Huan shot up into the sky like an arrow, and then followed the black figure that was escaping at a fast speed.

There must be a reason why the wolves were able to use such a miraculous method. It just so happened that they were able to investigate this as well.

After rushing out of the valley and into the forest, he would have to change his direction at every step he took when he escaped. He would even occasionally raise his head to look at the sky, but luckily, Tang Huan was able to hide behind the clouds at any time so that he wouldn't be exposed.

It was also because the support of the "Yin and Yang Void Method: Heavenly Invisibility" had not been going on for long, if not, Tang Huan would not have needed to go through so much trouble.

Travelling through mountains and valleys, after about an hour, Black Wolf Leader suddenly entered a valley.

Tang Huan waited for a moment longer before diving down from the skies, landing at the entrance of the valley.

With the power of the True Spirit Level, the fierce beast could move around without leaving any footprints on the ground, but with the Black Wolf Leader being injured, it was already not bad for him to be able to run so far. After reaching the valley, he was already exhausted, and wanted to hide his tracks.

After a long while, Tang Huan stopped in his tracks deep within the valley.

Nearly a hundred meters away, the Black Wolf Leader was lying prostrate at the foot of a precipitous cliff, his mouth open wide, breathing rapidly.

"This is its lair?"

Tang Huan frowned, somewhat puzzled.

Instantly, with a "crack" sound, the cliff on the other side of Black Wolf Leader split apart without any warning, revealing a narrow and long crevice that was one meter wide and nearly ten meters tall. Following that, a grey shadow flashed out from the crevice.

He was a skinny old man dressed in a dry gray robe, with a short stature, thin complexion, and white hair. Beneath him was a wisp of a goatee, and the aura that faintly emanated from his body was extremely tyrannical, even compared to that of the Tiger Clan s.

"There's really someone here!"

Tang Huan's heart was moved, he looked at the crack, but it was extremely white, and he could not see the situation inside clearly.

At this time, the moment he saw the condition of the Black Wolf Leader, the grey robed elder's eyebrows knitted together: "What's going on?" At the same time the voice was heard, the old man swept his hawk-like eyes over the crowd. His gaze was extremely sharp.

"Ugh ..." Woo ... "

Black Wolf Leader forced himself to stand, his mouth releasing waves of wuwu sounds, as if he was saying something, his voice suddenly became longer and shorter, his tone became stronger and weaker, and it was even faintly rising and falling. The grey-robed elder did not say a word, but his expression became more and more unsightly. A hint of anger seemed to have appeared between his brows.

Seeing that, Tang Huan was shocked, could it be that the old fellow was proficient in the beast language?

"Trash!"

After a while, the cries of the Black Wolf Leader suddenly stopped, and the grey robed elder started cursing, "After being killed for over two hundred years, I finally managed to think of using 'Soul Gathering Great Image', if I did it from the beginning, how could I have suffered such a heavy loss? This old man has wasted all my efforts... The reason why you were able to escape and return here should be because of that person! "

He raised his leg and kicked. The Black Wolf Leader did not dare to dodge and Pang Shuo's body flew out more than ten meters away. Fresh blood once again flowed out of his mouth and his eyes became even darker.

Hearing the last words of the gray-robed elder, Tang Huan's mind wavered. He had already discovered her?

"Brat, get your ass out here!"

In the next moment, the gray robed elder looked towards Tang Huan's hiding spot, his face gloomy, and bellowed: "Don't think that you can hide from me just by restraining your Qi, the moment you enter this valley, I found you."

The moment he opened his mouth, the somewhat bewildered Tang Huan actually started laughing. If that old fellow had truly noticed his existence when he followed Black Wolf Leader into the valley, he would have already escaped from the space within the cliff walls. How could he only reveal himself after he had arrived deep within the valley, exposing that secret location!

What the old fellow said, and what he had said before, should just be a scam to see if anyone was really following Black Wolf Leader.

If he bumped into an impatient fellow, he might really be tricked by that old fellow and he might even take the initiative to jump out. Tang Huan smiled in his heart. Not only did he not show himself, he had even used his ability to completely conceal himself as he madly rushed forward.

## Chapter 812 - Bloodline Initial Marrow

After a while, Tang Huan arrived at the edge of the crack.

The grey-robed elder waited for a long time, but no one appeared. He could not help but furrow his brows and mutter: "Could it be that this old man was wrong?"

"Whoosh!"

After a short moment, the grey-robed old man shot forward, rushed into the forest, and started to rapidly move about.

Glancing at the Black Wolf Leader not far away who was struggling to get up, Tang Huan did not hesitate and entered the crevice. After the cracks, was a cave channel that was a few metres wide and nearly ten metres tall. It zigzagged forward as brilliant rays of light emitted from the surrounding cave walls, making it hard to look at.

Tang Huan did not continue going deeper, but silently hid at the edge of the cave.

Not long later, the grey robed elder appeared in the cave, before entering, he had already placed a pill into Black Wolf Leader's mouth. Shortly afterwards, the gray-robed elder raised his hand and broke off a protruding rock on the right side of the cave wall. The crack immediately began to close up.

As for the Black Wolf Leader outside, he miraculously recovered by a lot and rushed out of the valley, disappearing without a trace in an instant.

The gray-robed elder did not discover anyone hiding in at all. After the crack was completely shut, he moved forward along the cave channel as fast as lightning, with Tang Huan following closely behind. After just a short span of a few dozen breaths, Tang Huan had already come to a sudden understanding as a huge space appeared before him.

In the center of the space, there actually sat a complete set of beast bones, Pang Shuo. Strangely, the skeleton was made of gold.

Every bone was crystal clear and extremely shiny. From afar, it was as if a faint layer of golden light was flowing on the surface of the bones like water.

The skeleton remained in a squatting position, but even so, it was still twenty to thirty meters tall, like a towering mountain quietly standing there. It was vast and majestic, with an extraordinary domineering aura.

"What a big fierce beast!"

Tang Huan could not help but take a deep breath.

If even the skeleton after death was so massive, then this vicious beast must have had an even more frightening body. How did such a huge vicious beast come in from the outside?

Just as Tang Huan was about to take a closer look, a voice came out from the skeleton: "Clan Elder Lin, what's going on outside? The 'Dark Wind Demonic Wolf' suddenly ran back, have you caught him?"

"Don't mention it!"

"First, he was killed by someone in a single breath, and then he used his 'Soul Gathering Great Image'. Not only did he not kill his opponent, he was even broken by them, and then, another half of the 'Dark Wind Demonic Wolf' were already crippled, so even if the rest of the 'Dark Wind Demonic Wolf' used their 'Soul Gathering Great Image', they wouldn't be able to catch a few small fishes."

As he spoke, the gray-robed old man had already disappeared into the skeleton like lightning.

"This guy trained the wolves to capture people?"

It was only then that Tang Huan realised that behind the skeleton, there was a shadow of a person standing beside a leg bone. From the looks of it, it was an old man in his sixties or seventies,

dressed in a yellow robe, his stature was even more muscular and tall. At this moment, his hands were rubbing on the leg bone, no one knew what he was doing.

The yellow-clothed old man seemed to be somewhat suspicious, "To actually be so powerful that it could even break the 'Soul Gathering Great Image', which one of the experts from Tiger Clan could it be?"

The gray-robed elder said with a strange voice: "It's not the experts from Tiger Clan, but a very young fellow. He should be around twenty years old, but his strength is very powerful.

"Oh?"

When the yellow-clothed old man heard this, he was immediately surprised, "When did Tiger Clan have such an outstanding little fellow? This kind of little fellow was most suitable for testing 'Bloodline Initial Marrow'. That little fellow probably hasn't gone far. Elder Lin, why don't we head out right now and capture him? With 'Dark Wind Demonic Wolf' leading the way, it shouldn't be difficult to find him. " As he finished speaking, the yellow-clothed old man was already somewhat eager to give it a try.

The grey robed elder snorted, "Elder Ying Hu, although this place is the closest to the Tiger Clan, those who come here are not necessarily from the Tiger Clan. It can be that they are from the Snake Clan, it can also be that you are from the Eagle Clansmen, or it can even be that you are from outside the Four Great Clans, for example, our Cloud Desolate City."

"Eagle Clan, Cloud Desolate City ..."

Hearing the gray-robed elder's words, Tang Huan's heart couldn't help but thump. These two old men, one was from the Eagle Clan, and the other was from the Cloud Desolate City, what kind of scheme were they hiding here, and what did they mean by 'Bloodline Initial Marrow'?

"That's true."

The yellow robed elder called Ying Hu laughed, "If that kid wasn't Tiger Clan with the surname Disciples, capturing him would indeed have been a waste of time. But, we still have to hurry up and capture a few more experts from Tiger Clan, the best being those from Rank Seven True Spirit. "These guys are no longer of any use. We need to get rid of them as soon as possible."

"Personally kill him, that's too much of a risk!"

The gray-robed elder shook his head, "Let's wait a few more days and see if we can capture a few more people from the other 'Dark Wind Demonic Wolf'. Fortunately, we are about to finish collecting the 'Bloodline Initial Marrow' here, so even if Tiger Clan finds out, nothing bad will happen. "

While the two of them were conversing, Tang Huan's gaze had already begun sweeping across them.

In the left corner of this space, there was actually a huge iron cage. Within the cage, there were many motionless figures lying on the ground, and it was unknown whether they were alive or dead.

"They are ... Tiger Clan's surname is Disciples? "

Tang Huan was secretly shocked.

He suddenly understood why Ying Hu and the Cloud Desolate City's Elder Lin would use the "Dark Wind Demonic Wolf" to capture people. If they personally made a move against the Tiger Clan, no matter if they caught or killed them, they would definitely cause the Tiger Clan to investigate. If they accidentally left behind any traces, they might even expose the existence of this place. However, if the Tiger Clan were to die in the mouths of the fierce beasts known as the "Dark Wind Demonic Wolf", it would be impossible for the Tiger Clan to investigate everything. After all, every year, there would be a lot of cultivators dying in the Firing Dragon Mountain Range and there would be hundreds of thousands of them.

In the blink of an eye, Tang Huan had already arrived in front of the iron cage with lightning speed.

There were seven people inside the cage. All of them were men and their auras were weak. Their clothes were a dark red color where the blood had solidified. Their exposed skin was also covered in dense cracks.

Tang Huan swept his eyes across it and a look of unwillingness flashed across his face.

If his senses were not wrong, these people had all been struck and destroyed by the Dantian. Although they were not dead yet, they were no different from cripples even if they were healed.

Secretly sighing, Tang Huan leapt forward and back into the skeleton structure.

Just like Ying Hu, both of Elder Lin's hands rubbed against a leg bone as well, and in front of the two of them was a white jade bottle gourd that was the size of a bowl. Tang Huan squinted, that was the so called "Bloodline Initial Marrow"?

#### Chapter 813 - Tiger's Mouth

After a while, Ying Hu raised both of his palms, and a small bead of golden liquid fell into the bottle gourd.

There was only this many Bloodline Initial Marrow that could be collected at once. With such a large gourd, how many years would it take to collect them?

"'Bloodline Initial Marrow' is definitely not an ordinary item, the reason why these two old fellows captured Tiger Clan is so that they can use the 'Bloodline Initial Marrow' to conduct an experiment, they have to think of a way to take away this bottle gourd of stuff."

Tang Huan estimated the remaining time that "Yin and Yang Void Method: Heavenly Invisibility" could last, and his brain's thoughts quickly spun. If it really wasn't possible, he could only return to the cave channel, put a piece of the Divine Armament on the table and attract Ying Hu's attention. Then, he could take this opportunity to collect the "Bloodline Initial Marrow".

"Aooo ..."

Suddenly, a wolf howl came from afar.

"Back again?" Ying Hu frowned slightly.

"It's not the previous one. The other 'Dark Wind Demonic Wolf' is coming." The gray-robed elder said in a deep voice.

"Great."

Ying Hu clapped his hands and smiled, saying with some excitement, "Looks like I caught him. Let's go out and take a look! " With that said, Ying Hu's figure had already disappeared from the skeleton, and in the next moment, he disappeared from cave channel.

When the grey-robed old man saw this, he couldn't help but laugh. His body moved like lightning as he swiftly followed.

"A good chance!"

Tang Huan's heart was filled with joy. Two figures disappeared from the cave channel in succession, and after waiting for around ten breaths of time, he estimated that the two of them were long gone, and only after thinking about how to store the "Bloodline Initial Marrow" inside the bottle gourd, did his figure reappear.

had already expected this would happen. With flying footsteps, he rushed to the front of the iron cage. With just a tug of energy, the chain was broken. Tang Huan did not hesitate to take out the seven Tiger Clan s from the iron cage.

"Whoosh!"

In the next moment, Tang Huan sped towards cave channel, and at the same time, the Space Aircraft quickly shrank and burrowed into his chest. If the golden skeleton was not too big, Tang Huan would have taken one with the aircraft.

"Alright, Rank Six True Spirit!"

At this moment, outside the cave channel, before the cliff, Ying Hu looked at the tall and sturdy figure lying on the ground and could not help but start laughing, "If I remember correctly, this fellow should be the captain of the first Clan Guardian Group, Hu Ben. I never expected to catch him this time. Elder Lin, the group of 'Dark Wind Demonic Wolf' that you taught me did quite well."

"Aooo ..." In front of the figure, sat a Black Huge Wolves. Hearing Ying Hu's words, the Black Huge Wolves actually bared his teeth, licking his lips, and growled softly, as if he was proud of himself.

"It's not bad."

The gray-robed elder slightly raised his eyebrows in satisfaction, but snorted, "Just the captain of the Clan Guardian Group. If we can capture Tiger Clan's's Commander Yun, then that would truly be good. "

"How could it be so easy to capture Hu Xiao? As a Clan Guardian Commander, he spends most of his time inside the Wind Howling City. If there is nothing urgent, he would never enter the depths of the Firing Dragon Mountain Range. Your two teams of 'Dark Wind Demonic Wolf' wouldn't even be able to meet him. " Hearing this, Ying Hu could not help but laugh.

"If we can't meet before, we might not meet again in the future."

The grey robed elder sneered, "This Hu Ben possesses the cultivation of Rank Six True Spirit, not only is he the number one Clan Guardian Group Captain, he is also the Disciples whose surname is, so he must definitely be an important person to be groomed by the Tiger Clan. If he went missing in

the Firing Dragon Mountain Range, how could Hu Xiao not come and investigate him thoroughly? As long as he appears here, our chance will come. "

The voice paused slightly, and an expression of anticipation flashed across the face of the gray-robed elder, "Using the Rank Seven True Spirit's Hu Xiao to test the 'Bloodline Initial Marrow', the effect is much better than the Rank Six True Spirit's Hu Ben!"

That's reasonable, but we need to prepare first. If we want to capture Hu Xiao, just relying on 'Dark Wind Demonic Wolf' is not enough. Ying Hu's expression changed, "Elder Lin, let's bring this guy in and have a try, then we can have a good plan." With that, Ying Hu extended his hand and grabbed Hu Ben who was on the ground, but just as his fingers were about to touch Hu Ben's body, the sturdy body that was lying on the ground without moving, suddenly shot out a dozen meters without any warning.

"This kid has woken up!"

Ying Hu was startled, and then immediately became angry from the embarrassment. When he saw Hu Ben, the first thing he did was to check Hu Ben's condition, and the result was that Hu Ben's organs were severely injured, making it impossible for him to wake up in a short period of time. However, he did not expect the reality to slap him so hard, to the point that his nose was crooked.

"Aooo!" Black Huge Wolves also roared and pounced forward.

"So what if I wake up? You still want to escape after coming here? Get down! " The gray-robed elder's reaction wasn't slow either. The instant his eerie laughter rang out, his shriveled right palm had already struck out. After a moment, there was a huge palm that carried a heaven overflowing Strength Qi, which smashed onto Hu Ben's abnormally tall and sturdy body.

"Whoosh!"

With a slight piercing sound, Hu Ben, who had just gotten up from the ground, suddenly flew high into the sky at an astonishing speed, avoiding Ying Hu and the Black Huge Wolves's lightning-fast pouncing attacks, and also escaping the attack range of the palm image of the gray-robed elder.

The huge palm image landed on the ground like a thunderbolt, causing the sand to immediately tumble up like a wave. A huge palm imprint could be seen with the naked eye as it sunk in at a depth of ten meters.

Just at this moment, Hu Ben had already charged up to a hundred meters in the air, and was about to descend with all his might.

"Aooo!"

Black Huge Wolves stood up and roared towards the sky.

Ying Hu's hawk-like eyes were also staring fixedly at the figure in the sky, but deep in his eyes, there was a hint of suspicion. Hu Ben had made two moves in a row, yet did not emit any kind of energy aura, as if he had only relied on the power of his flesh body. This was somewhat strange. What was even more strange was that his movements were extremely stiff and sluggish, without even the slightest sign of him circulating his strength. Even his eyes were closed the whole time.

However, before he could figure out the doubt in his heart, the scene that caused the two people and the wolf to be stunned appeared.

Just as Hu Ben was about to fall from the highest point, a black shadow suddenly appeared beside him without any warning. It was a slender young man wearing a black robe. His face seemed quite handsome. Almost as soon as he appeared, a pair of giant wings appeared on his back and started flapping rapidly.

"Argh?" Black Huge Wolves's front legs fell to the ground, his mouth wide open in shock.

"This... "This..."

Ying Hu was also dumbstruck. How did that guy appear, and how did he condense wings? It was only at this time that he suddenly realized that the reason Hu Ben did not wake up, whether it was charging forward or charging upwards, was all because of that black clothed man.

#### Chapter 814 - Firing Dragon Desperate Domain

Who the hell was that guy?

It was one thing for him to be able to completely hide in front of the two of them, but not only was he unable to see them, he did not even reveal a trace of Qi at all. If not for the fact that he took the initiative to reveal himself, he would not even know of the existence of such a person.

If that guy had not saved Hu Ben earlier and instead launched a sneak attack ...

The moment this thought flashed through Ying Hu's mind, he couldn't help but shiver. A wave of uncontrollable chill ran from his coccyx to his head.

"Damn it!"

The grey robed elder had also woken up, and suddenly shouted angrily, "It must be that bastard who killed all the 'Dark Wind Demonic Wolf' of this old man. He really is following us ..."

"Not good!" Bloodline Initial Marrow! "

Before he finished speaking, the grey robed elder's face suddenly turned black, and he rushed towards the crevice as he screamed. In a split-second, his figure had already disappeared into the depths of cave channel.

Ying Hu's face also became extremely ugly.

If that person above him had really been the "Dark Wind Demonic Wolf" that had been following him from before, with his godly concealing technique, he might have already entered the cave.

In this way, how could the "Bloodline Initial Marrow" in the gourd be preserved?

Thinking about how the "Bloodline Initial Marrow" that he had painstakingly collected for so many years could fall into the hands of another, Ying Hu's two eyes immediately turned red.

"How hateful!"

The moment he spat out the two runes, Ying Hu activated Great Image, and a black giant hawk rose from his body. In the next moment, Ying Hu's body fused with the Great Image, and with a flap of his wings, he shot towards the figure in the sky.

A hundred meters in the air, the black clothed man did not immediately flap his wings and flee.

At almost the same time Ying Hu's Great Image appeared, a white shuttle that was more than ten metres long appeared in a flash. Immediately, the black clothed man brought Hu Ben inside the shuttle.

"Space Aircraft!"

Seeing that, Ying Hu was startled and angry at the same time.

The Space Aircraft was a very rare existence in the Firing Dragon Mountain Range, even in the Eagle Clan, there were only two of them, and the quality was also quite normal. But this fellow that suddenly appeared not only casually took out the aircraft, the quality of the aircraft was also clearly not bad, otherwise it would not have appeared so suddenly without any warning. The reason it was like that was definitely because the aircraft had shrunk extremely small earlier and had been hidden on its body.

Generally speaking, only a high quality aircraft could do such a thing.

To be able to condense wings and bring such a good Space Aircraft with him ... Could this fellow be Tian Clan? The thought that terrified him only flashed slightly and was immediately thrown away. The Tian Clan and this Tiger Clan were separated by an unknown distance, how could the two be related?

It must be because that guy used some kind of strange battle skill!

"Whoosh!"

Subtle sounds rang out, and the Space Aircraft had already flown over.

Ying Hu didn't have time to think, he flapped his wings quickly and the giant eagle Great Image became a ray of black light, chasing closely behind the Space Aircraft.

"Bloodline Initial Marrow!" The Bloodline Initial Marrow is gone! "

Not long after, a hysterical cry rang out from the valley.

The grey-robed elder bared his fangs and brandished his claws as he shot out explosively from the crack in the cliff wall. His eyes were wide open and his face had a ferocious expression.

"Aoooo ~ ~ ~"

The Black Huge Wolves roared, and chased after the direction where the Space Aircraft and the black hawk disappeared to. The grey robed elder did not hesitate at all, and followed along crazily ...

... ....

In the space in front of the Space Aircraft, Tang Huan sat cross-legged in front of the round center stage.

Tang Huan never thought that the one who would be captured by the other pack of wolves would actually be the captain of Tiger Clan's first group, Hu Ben.

He and Hu Ben were not friends, if he had ignored them, they could have completely slipped away, and by the time Ying Hu and Yue Yang could react, he would already be hiding in the distance.

However, with regards to the cultivators of Tiger Clan, Tang Huan could not ignore them, so he saved them.

also had no choice but to use the Space Aircraft.

Bringing Hu Ben along, his "Yin and Yang Void Method: Heavenly Invisibility" wouldn't be able to display its full potential. Moreover, he had already used his sacred art twice in a row, and his energy consumption was quite severe. He wouldn't be able to maintain it for long.

Rather than running out of energy and getting caught by Ying Hu and the other two Rank Seven True Spirit experts, it would be better to take advantage of the time when they still had some energy to hide inside the Space Aircraft and run as far away as possible. Even if the two could not catch up to him, relying on the Space Aircraft, they could still hold on for a while.

Of course, it wasn't that easy for Ying Hu and Yue Yang to catch up to him.

"Hu!"

With a thought, a large group of "Initial Spirit Heavenly Crystal" appeared from within the "Sumeru Magical Ring". With one hand, Tang Huan sent his power into the round altar in front of him, then he activated the "aircraft" and began to refine the "Initial Spirit Heavenly Crystal" with the other. With this, the speed at which he could recover his strength would be faster than what he would consume.

This meant that within the Space Aircraft, not only would his energy not be exhausted, it would become more and more abundant as time passed.

Tang Huan did not have the energy to determine the direction, so he continued to move forward.

Countless mountain ranges and forests flew past below. Unknowingly, the sky had already darkened. When Tang Huan turned the aircraft around, he discovered that thousands of meters away, the giant black hawk that Ying Hu had transformed into was still following him closely.

"What is the use of the 'Bloodline Initial Marrow', for Ying Hu to chase so closely?"

Tang Huan was even more curious. With a thought, a white jade bottle gourd containing a "Bloodline Initial Marrow" appeared from within the "Sumeru Magical Ring".

Previously, when he was at the inside the cave, Tang Huan did not have the time to feel it carefully. Now that the bottle gourd was in his hands, he could immediately feel a berserk Qi undulation from the small bottle gourd.

"This thing..."

Tang Huan was secretly shocked, seeing that the black hawk had caught up, he did not bother to continue probing, and casually placed the white jade bottle gourd to the side, then turned around and continued walking forward. Very quickly, Tang Huan became fully focused again, but did not realize that Xiao Budian, who was not far away, suddenly snorted.

Night passed, and the sky gradually brightened.

Tang Huan suddenly woke up, and when he looked ahead, the sky was actually filled with red light.

Over there, numerous bright red mountains shot up into the sky like sharp swords. These should all be volcanoes. Magma continued to gush out from the peaks of the mountains. After which, it was

like a torrent of water falling from the nine heavens as it roared down along the ravines of the mountains.

Looking further down, the rolling forest had disappeared. What replaced it was endless rocks, sand, and thick dust.

"We've already reached the center of Firing Dragon Mountain Range?"

Tang Huan couldn't help but be taken aback. Before he left the Wind Howling City, Hu Lie had told him in detail about the situation of the Firing Dragon Mountain Range, and she had even warned him over and over about a place in there. She told him not to go near, and that place was the "Firing Dragon Desperate Domain" in the center of the Firing Dragon Mountain Range.

Thinking about Hu Lie's extremely serious expression when he warned her, Tang Huan felt a little uneasy in the bottom of his heart. Since it was called the "Absolute Domain", it definitely wasn't a good place.

However, this was still only the outskirts of the "Firing Dragon Desperate Domain", and he was even staying inside the Space Aircraft. It was unlikely that there would be any danger. Tang Huan's mind raced, he calmed himself down and turned the aircraft's head to look behind him. The giant black hawk had already disappeared, and he did not know when it had thrown him off.

Chapter 815 - Xiao Budian awakening!

Hundreds of kilometers away, a huge black hawk circled around a few times and swooped down, floating on the ground. Ying Hu's figure immediately separated from the huge hawk's body.

In this area, there were no longer any tall trees, only sparse shrubbery.

This was the dividing line between the "Firing Dragon Desperate Domain" and the surrounding area. After passing through several tens of kilometers of shrubs, they could be considered to have stepped into the "Firing Dragon Desperate Domain" area. However, even though they were separated by quite a distance, they were still able to see the scene of a volcano erupting and molten lava gushing out from the absolute region.

When that strange scene appeared before his eyes, Ying Hu's expression became even more unsettled.

"Whoosh!"

Suddenly, a figure rushed over as fast as lightning, in a moment, he had landed beside Ying Hu. It was the grey robed elder from Cloud Desolate City, and a few tens of metres behind him, a Black Huge Wolves also rushed over.

"Elder Ying Hu, he entered the 'Firing Dragon Desperate Domain'?" The gray-robed elder's face was ashen.

"That's right."

Ying Hu's face twitched, he was angry and helpless.

"That bastard is brave enough to run to the 'Firing Dragon Desperate Domain'. Does he not want to live?!" The gray-robed elder almost bit his teeth to pieces.

"It doesn't matter if he dies, but it's a pity for the 'Bloodline Initial Marrow' that we painstakingly gathered!"

"That bastard is extremely detestable!"

"..."

... ..

"Seems like he has stayed outside of the absolute region and doesn't dare to follow us."

Inside the Space Aircraft, Tang Huan's eyes flashed, "But there's no harm, flying around the side of the 'Firing Dragon Desperate Domain' for half a circle before leaving, and then naturally we can avoid those two old fellows."

Although Tang Huan wanted to go deeper into the "Firing Dragon Desperate Domain" to see what was going on there, he was not a reckless person. Even Hu Lie, who was an expert whose cultivation and strength exceeded the True Spirit Level, felt fear and dread towards the "Firing Dragon Desperate Domain".

In a situation where there was no compelling reason to go, if one knew that the dangers of the "Firing Dragon Desperate Domain" was not something he could handle and yet had to dive in and lose his life in vain, he would be no different from a fool.

In the future, when he grew more powerful, it wouldn't be too late to enter the depths of the Absolute Domain and take a look.

With that thought, Tang Huan made his decision, but just as he was about to turn and leave, he heard a voice that he hadn't heard in a long time.

"Yiya ..."

"Xiao Budian woke up?"

Tang Huan was in disbelief.

Originally, he thought that after Xiao Budian fell asleep this time, he would need at least half a year to open his eyes.

"Xiao Budian!"

Tang Huan was ecstatic, he suddenly turned his head to look.

At the foot of the wall behind him, Xiao Budian laid on the ground with his stomach bulging and looked extremely satisfied. The white jade gourd that was originally placed beside Tang Huan had already reached Xiao Budian's head and fell to the ground. It was empty inside, and Xiao Budian's lips seemed to still have a trace of golden liquid.

"You ate everything in the gourd?" Tang Huan's heart skipped a beat, his expression immediately becoming extremely terrifying.

"Yiya!"

Seeing Tang Huan's ugly expression, Xiao Budian was suddenly startled, and struggled to get up and sit properly. As if he was a child who made a mistake, he lowered his head and looked timidly at Tang Huan.

Tang Huan felt dizzy.

The "Bloodline Initial Marrow" that Ying Hu and Yue Yang collected from the golden skeleton was not something that they could casually consume. Otherwise, they would not deliberately capture Tiger Clan to test him. The reason the Tiger Clan in the cave iron cage had become so miserable was probably because after using the "Bloodline Initial Marrow", they could not withstand the energy that it had exploded out.

Just by looking at the difficulty of collecting "Bloodline Initial Marrow", one could tell that the "Bloodline Initial Marrow" used by the Tiger Clan as test tools would not be too many. If a little "Bloodline Initial Marrow" could cause such a terrifying amount of damage, then what about this half of the gourd?

Thinking about the miserable state Xiao Budian was going to be in, Tang Huan couldn't help but feel a burning anxiety in his heart.

"You little thing..."

Seeing Xiao Budian's innocent eyes, Tang Huan laughed bitterly, at the moment, it was useless to blame it, furthermore, the biggest responsibility was still with him. If he had not placed the bottle gourd by his side and kept it back into his spatial ring, such a situation would not have happened.

Now, no matter how regretful he was, it was useless.

His top priority right now was to think of a way to help Xiao Budian survive this huge crisis. In the past, even though Xiao Budian was greedy, other than being addicted to alcohol, he only had a crush on gems and would not randomly eat anything else. This time, he actually drank up all of the "Bloodline Initial Marrow" in one gulp ...

"That's not right!"

Tang Huan's eyes suddenly lit up. With Xiao Budian's perception of danger, how could he drink so many "Bloodline Initial Marrow" that could possibly cost him his life?

Maybe the reason it did this was because this "Bloodline Initial Marrow" had a huge effect on it. Maybe the reason why it woke up early was also because it was attracted to the "Bloodline Initial Marrow", otherwise, why didn't it wake up earlier and later?

Thinking about it this way, although the anxiety in Tang Huan's heart had dissipated, it was still hard to hide from his eyes. After all, Xiao Budian had eaten too many "Bloodline Initial Marrow".

According to Tang Huan's judgement, this "Bloodline Initial Marrow" could very likely be something that specializes against the power of bloodlines.

Otherwise, Ying Hu and Yue Shan would not have chosen to capture Tiger Clan based on their surname, and ignored the other cultivators of Tiger Clan. In truth, Tang Huan also possessed the power of a bloodline, but it was from the Tian Clan and not from the Human Clan. The Human Clan was the most common and its bloodline was also one kind of bloodline. However, the bloodline power it possessed was so thin that it could be ignored, and was completely incomparable to the Four Great Clans's.

"Xiao Budian is too weak, it might not be a good thing to eat too many 'Bloodline Initial Marrow'."

Looking at Xiao Budian's round stomach, Tang Huan thought of something, "It has clearly just finished eating the 'Bloodline Initial Marrow', and the energy contained in the 'Bloodline Initial Marrow' at this time should not have exploded yet. If its movement was fast enough, maybe it would be able to make Xiao Budian spit out part of it."

"Yiya!"

However, before Tang Huan could even think of what to do, he suddenly jumped up in shock, and his small body started to expand like a balloon.

"Yiya!" "Yiya ..."

Xiao Budian anxiously shouted, her voice anxious.

Tang Huan immediately understood what Xiao Budian meant, he grabbed it out and rushed towards the undulating wall. In just a few breaths of time, Tang Huan and Xiao Budian had already flashed out of the Space Aircraft, and their figures appeared above the "Firing Dragon Desperate Domain".

Chapter 816 - ten-winged Blue Dragon

"Hu!"

Tang Huan instantly conjured a pair of wings and Xiao Budian who was by his side seemed to have grown a pair of wings with the wind.

A blue body that was a few dozen meters long, a huge head, a round stomach, strong hind legs, short forelimbs ... Xiao Budian's petite body seemed to instantly enlarge a thousand times larger. Four pairs of gigantic wings spread open, covering the sky and covering the sun.

"It actually became so big!"

Seeing that, Tang Huan could not help but take a deep breath. It had been a long time since he last saw Xiao Budian's transformed form, but he did not expect it to be this big, no wonder it was anxious to come out just now. With such a large body, the Space Aircraft could not contain it.

"Roaaaaaar!"

Blue Dragon opened his mouth and released an earth-shaking roar.

Tang Huan's mind was moved, if he remembered correctly, this was the first time Xiao Budian made such a sound.

In the instant that the roar came out, two sarcomas formed on the roots of the fourth pair of wings on Blue Dragon's back suddenly cracked open. Two small fleshy wings quickly extended out from within, quickly expanding at a speed close to the naked eye.

In just a few short breaths of time, another two pairs of fleshy wings appeared on Blue Dragon's back.

At this moment, the Eight-winged Blue Dragon had become a ten-winged Blue Dragon!

"That 'Bloodline Initial Marrow' is indeed mysterious. It actually allowed Xiao Budian to complete the transformation so quickly."

Under normal circumstances, Xiao Budian would continue to sleep for a few more months before he finally woke up. After a period of time, it could be several months or even a year before the two sarcomas on its back grew to become the fifth pair of wings.

But now, the long process of transformation had been shortened to a short period of time. It was unknown whether the "Bloodline Initial Marrow" would bring about any side effects.

"Roaaaaaar!"

Seemingly at the same time that this thought flashed through Tang Huan's mind, the Blue Dragon's howl rang out once again, and within the sound, there was actually a hint of pain that was difficult to contain.

Immediately after, Tang Huan discovered that Xiao Budian's body was slightly trembling, as though an unusually berserk aura was spreading from within his body.

"Bang, bang, bang ..."

In the next moment, an exceptionally dense explosion sound came out from Blue Dragon Pang Shuo's body, following that, Xiao Budian's body revealed countless of cracks, like a spider web crisscrossing, dense and dark red fresh blood burst out from the cracks, the space of a hundred meters was instantly dyed red with blood mist.

"Roar!"

With a wail, Xiao Budian fell to the ground.

"Xiao Budian!"

Tang Huan was shocked, with a move of his body, he appeared below Xiao Budian. He pressed his palm on its abdomen, and flapped his wings frantically, forcefully slowing its descent.

At this moment, a raging wave seemed to have been stirred in Xiao Budian's body, an extremely violent and violent surge of energy.

Even Tang Huan was able to feel the faint, terrifying impact from the trembling in Xiao Budian's abdomen; it was as if his entire body was about to be sent flying. At this moment, Tang Huan's eyes uncontrollably revealed a look of shock. Xiao Budian's situation was even less optimistic than he had imagined.

"Roaaaaaar!"

Xiao Budian roared, and his body started to struggle violently. Tang Huan only felt a huge force pressing down from the sky, his palms could not handle it anymore and his body sank down like a meteorite. On the other hand, after Xiao Budian somersaulted a few times in the air in pain, Pang Shuo's body fell down heavily.

Amidst the earth-shaking sounds, the terrifying Strength Qi roared out in all directions, causing countless sand and earth to roll out in all directions, with Xiao Budian's body as the center. Wave after wave, they roared as they soared into the sky, and a gigantic pit immediately appeared on the ground.

"Hu!"

With a flap of his wings, Tang Huan finally dispelled the impact. He turned around and landed on the back of the Blue Dragon: "Xiao Budian, hold on!"

With that said, Tang Huan placed his palms on Xiao Budian's back. The "Nine Yang Divine Furnace" and the Five Colors True Spirit began to revolve crazily, and the majestic power of sucking rushed out of his hands and permeated into Xiao Budian's body.

In the next moment, the rampaging and violent energy in Xiao Budian's body seemed to have found an outlet to vent it all.

Wherever the energy passed through, Tang Huan felt as if the Spiritual Meridian and organs within his body were about to be torn into pieces. Even with Tang Huan's "Sun Spirit Body" 's endurance, it was already this unbearable. It could be seen how overbearing and violent that power was.

Tang Huan gritted his teeth and endured, continuously channeling that power into the 'Nine Yang Divine Furnace'.

Although it forcefully endured the urge to struggle, it still trembled uncontrollably. It was evident that the pain had only been alleviated and had not truly disappeared, as it still had to endure the ravaging and tearing of that power.

"Roar!"

A growl that he suppressed with all his might rushed out from his slightly opened mouth. Immediately afterwards, the thick horn on top of Xiao Budian's head revealed an exceptionally resplendent golden radiance, and a layer of dense golden Qi rippled out of the Golden Horn like water, enveloping both him and Tang Huan inside.

The refreshing feeling seeped into his pores, and in an instant, it had already spread to his limbs, bones, and internal organs. That kind of bursting pain finally dissipated a lot.

Tang Huan took a deep breath, and continued to absorb the energy from the Nine Yang Divine Furnace as he refined it.

After absorbing the master of the cave's "Law of the Tao", the "Nine Yang Divine Furnace" had a huge increase in both its ability to absorb and its speed in refining energy. Fortunately, this was the case, which was why Tang Huan was able to ease his pain. If it was still the same as before, then it would be no different from a cup of water with a burning cart of firewood, and the help it could provide Xiao Budian would be extremely limited.

Time passed bit by bit ...

"Hu!"

After an unknown amount of time, Tang Huan let out a long breath, and collapsed on Xiao Budian's back as if he had collapsed. He was so tired that he couldn't even be bothered to move a single finger. Xiao Budian drooped his eyelids and remained motionless. However, his mouth had already opened slightly, and the sound of his breathing was like Lei Ming's. The Golden Horn above his head had already completely dimmed down, no longer having the luster from before.

Not long after, Xiao Budian began to snore.

Tang Huan, who could still keep his eyes open, seemed to have been infected by Xiao Budian, as a strong sense of exhaustion assaulted him from the depths of his soul. In an instant, Tang Huan felt

as if his eyelids were hanging like two giant rocks, which could not be controlled, as they slowly closed.

The instant his eyes were completely shut, Tang Huan seemed to see an incomparably large fiery claw image fall from the sky. The scorching sensation filled the heaven and earth, as though it was able to completely melt everyone in the area.

"What's going on?"

With just a thought, Tang Huan completely lost consciousness.

## Chapter 817 - Flame Dragon Appearance

"That is ..."

"A Flame Dragon has appeared?"

Within the shrubbery hundreds of kilometers away, Ying Hu and the elderly man in the gray robe were both shocked and their eyes bulged out of their sockets.

In the distant horizon, countless molten lava s spouted out, but they did not descend, and instead rose into the air, quickly condensing at high speeds. In an instant, a huge fire dragon with bared fangs and brandished claws had formed, its scorching heat engulfing the skies, and the empty space instantly turned into a sea of fiery red.

"Hu!"

The terrifying heat spread like wildfire between the heaven and earth. Even the shrubs that were far away were unavoidably affected.

In just a few short breaths, the surrounding bushes began to wither.

Ying Hu and the grey robed elder felt as if their entire bodies were going to ignite, beads of perspiration rolled down their foreheads, and in the next moment, the two of them were like a chicken that was drenched in water, following that, the two of them reflexively circulated their cultivation technique, activated their Genuine Qi, and resisted the heat of the attack.

The strange thing was, the more they activated the Genuine Qi, the stronger the heat became. After a moment, both of them felt their internal organs were on fire, as though they were about to melt.

"Ao ~ ~ ~" The Black Huge Wolves screamed and retreated.

"Hurry and retreat!" "Quick, retreat!"

"I can't hold on any longer!" Go! "Let's go!"

Ying Hu and the gray-robed elder shouted anxiously and retreated quickly.

Right at this moment, in the distant horizon, the Pang Shuo Fire Dragon suddenly raised its head. Its two eyes seemed to pass through the void of hundreds of kilometers in an instant as they gazed over.

"Howl!"

The Black Huge Wolves wailed and fell to the ground.

At almost the same time, Ying Hu and the grey robed elder felt as if they had been struck by an unstoppable invisible force, their souls seemed to have been completely destroyed. Their minds went blank and their bodies stiffened on the ground, as if they had turned into empty shells. After an unknown period of time, his consciousness slowly returned.

In the distant horizon, the fire dragon had already disappeared without a trace. The heat that originally filled the heavens had also disappeared.

Ying Hu and the gray-robed elder's faces were as pale as paper. They subconsciously looked at each other, and saw an unconcealable sense of fear and shock in each other's eyes. Just a glance was enough to make a cultivator like them feel like their souls had been shattered.

The two of them did not utter a single word as their minds were still immersed in that intense shock.

"Whoosh!"

Only after a long while did the two of them calm down a little. They actually turned around at the same time and sped towards the lush forest in the distance, not daring to stop for even a second. Behind the two of them, the Black Huge Wolves had also recovered. She did not dare to stay any longer as she stood up shakily and fled for her life ...

... ....

"So hot!"

Suddenly, Tang Huan felt as if he was in a furnace, a thought uncontrollably rose from his mind. This made Tang Huan feel quite funny. Ever since he had become a Weapon Refiner, he had continuously fused with the Four Great Spiritual Fire, and it had been a long time since he had such a feeling.

This must be a dream!

Tang Huan laughed in his heart. Xiao Budian should be alright now, the energy released by the "Bloodline Initial Marrow" was too strong, he had only used a portion of the "Nine Yang Divine Furnace" to absorb the energy, yet it had actually made him into such a sorry state. In the end, he had even fainted.

Fortunately, they were at the "Firing Dragon Desperate Domain", so Ying Hu and Yue Shan didn't dare to chase after them. Just as this thought appeared in his mind, Tang Huan was immediately shocked, "Firing Dragon Desperate Domain" was not a safe place.

In the next moment, Tang Huan suddenly remembered the gigantic fiery red claw figure that he saw before he fell asleep. After transforming, Xiao Budian's body that was close to a hundred meters long was already huge enough, but compared to the gigantic fiery red claw that could cover a circumference of at least a few hundred meters, it was not even worth mentioning.

If a single claw was already so huge, then how frightening was the other party's entire body?

How could there be such a terrifying beast hiding in the "Firing Dragon Desperate Domain"? Moreover, if he remembered correctly, the last scene he saw when he fainted was that fiery red claw grabbing down from the sky ...

"This is bad!"

Tang Huan's heart trembled. He suddenly opened his eyes, turned around and sat up. The first thing he saw was a bright red light, then a ball of sparkling and translucent blue.

It was Blue Dragon's chubby body!

At the moment, Xiao Budian was sprawled not far in front of Tang Huan, his four limbs curled up, his chin resting on the ground, five pairs of fleshy wings spread out, the golden horn on his head was still dim and dim, but this did not affect his desire to snort or sleep at all, and a large pool of saliva was already flowing out of the corner of his mouth.

Seeing Xiao Budian like this, Tang Huan immediately calmed down and quickly scanned through them.

This space seemed to be located in the deepest depths of the earth, which was incomparably vast, with no end in sight. The stone wall above his head was emitting a dazzling fiery red light, and flames continued to erupt from the rocks, causing the air to crackle as a strong heat filled the void.

"Hu!"

A bunch of molten lava the size of a washbasin suddenly sprung out of the crevice and fell to the ground.

Tang Huan was shocked, as he reflexively raised his right palm. But before he could attack, the molten lava seemed to have been struck by an invisible barrier and exploded, turning into countless fiery red droplets that scattered in all directions. This scene was extremely beautiful.

Seeing that, Tang Huan secretly heaved a sigh of relief and continued observing.

Where he and Xiao Budian were currently standing, was a huge boulder that had a circumference of a hundred meters. The rock surface was flat and smooth, and was similarly as red as fire. At the bottom of this vast and limitless space, stood countless huge rocks of this kind. Amongst these huge rocks, the fiery red molten lava was like a surging torrent, surging and surging towards who knows where.

This place should be inside a volcano!

Tang Huan's mind was abnormally calm. His thoughts quickly turned, he and Xiao Budian would appear here because of the terrifying fierce beast that caught them.

For the time being, he and Xiao Budian should be safe.

Otherwise, he and Xiao Budian would have already turned to dust in their dreams, and wouldn't even have had the chance to wake up.

Tang Huan had already discovered that in this fiery red space, only the boulder that he and Xiao Budian were standing on was protected. If any molten lava fell from above, they would directly smash onto the stone surface, and then converge into the flow of molten lava, unlike here, it would not be bounced back by the barrier.

Moreover, the existence of that protective shield not only blocked molten lava, it also seemed to be able to prevent the majority of the heat from coming out.

If Tang Huan's judgement was not wrong, the heat emitted from outside the protective shield was at least ten times more than that inside the protective shield. Inside the barrier, Tang Huan was not

affected that much, but without the shield, he could probably hold on for a while while using all the energy in his body.

However, once his strength was exhausted, he might not be able to hold on any longer.

The other one would be added tomorrow or the day after.

## Chapter 818 - Chaotic Heavenly Dragon

"Kid, you're awake?"

A vigorous voice suddenly echoed in this space.

The few notes seemed to ring directly within the depths of Tang Huan's soul, causing his mind to float.

There were actually other people here?

"Roaaaaaar!"

Xiao Budian woke up from his deep slumber, those two large ears perked up like sails, followed by a low roar, Pang Shuo's big head raised high, two dark blue eyes swept around, and five pairs of shockingly large wings flapped downwards, raising bursts of fierce winds.

"I am Tang Huan, greetings senior!"

Tang Huan jumped up.

The flames danced wildly all around, the molten lava surged, everything was the same as before, there was no difference. He could not determine where the voice came from, so he was too lazy to investigate. He looked at Xiao Budian, signalling for him to calm down, then casually chose a direction to bow to him.

"Crash!"

In the next moment, the molten lava in the entire space seemed to be boiling as waves of fire red waves swirled around them. It was rising higher and higher, especially around the huge boulder that Tang Huan and Xiao Budian were on, the wave of molten lava s were already dozens of meters tall in the blink of an eye, as if it was trying to smash Tang Huan and his group into pieces.

"Roar!" Xiao Budian bared his teeth and roared, with a vicious look on his face.

"Haha, this little thing!"

Then, in front of Tang Huan and Xiao Budian, the surging wave of fiery red quickly distorted and changed. In an instant, it congealed into a terrifying gigantic head, with a height of over a thousand meters, as though it was about to touch the fiery red rock wall at the top of the dimensional realm.

Seeing that, Tang Huan could not help but secretly take in a breath of cold air, as though his heart had skipped a beat.

The moment the gigantic head appeared, the surrounding space seemed to completely freeze. The churning molten lava s and dancing flames all froze in mid air, a terrifying aura that made one want to suffocate filled every corner of the area, arrogantly, domineeringly, looking down upon the world.

It was as if a sovereign of the nine heavens was looking down on all living things. When the two gazes swept down from within the enormous head, Tang Huan's heart actually trembled, as though he had received a heavy blow, and immediately gave birth to a strong urge to bow down and worship. If it were not for Tang Huan restraining himself with all his might, he would probably have knelt down.

"Yiya!"

With a crisp sound, Xiao Budian's original form appeared. His body that was almost a hundred meters long shrank rapidly, and in the time it took to snap a finger, he had turned into a small ball of meat. He flapped his wings with all his might, and laid down on the back of Tang Huan's neck.

The change to Xiao Budian calmed him down a lot.

He recognized it. It was a dragon head!

From this, it could be seen that before he lost consciousness, what he saw should be a dragon's claw. The fierce beast that was hidden within this "Firing Dragon Desperate Domain" was actually a huge dragon!

Before he left the Wind Howling City, Hu Lie had mentioned to him a rumor related to the "Firing Dragon Desperate Domain".

It was said that this area concealed an extremely large "Flame Dragon". It seemed that even before the appearance of the Four Great Clans, the Flame Dragon had already existed. From ancient times until now, there had been many people who had seen the appearance of the Flame Dragon. Legends about the Flame Dragon had also been passed down from generation to generation.

Firing Dragon Mountain Range was also named after the "Flame Dragon".

And the area that the Flame Dragon was hiding in was known as the "Firing Dragon Desperate Domain". No cultivator or vicious beast dared to enter the absolute domain. All the life forms that entered were already gone. Over time, not only did the Four Great Clans view this "Firing Dragon Desperate Domain" as a forbidden area, the foreign cultivators did not dare to take even a single step further.

Regarding this rumor, Tang Huan did not believe it at all.

The amount of time that the Four Great Clans had passed on was measured by "ten thousand". It was inconceivable for a vicious beast that had lived for even longer than the Four Great Clans.

But now, Tang Huan had no choice but to believe it.

From his observations, the way this Flame Dragon existed was rather special, as if it had already completely left the body of its flesh and blood, and the molten lava in the volcano was its body.

"That coward!"

There was a hint of a smile in the Flame Dragon's eyes.

In the next moment, the gigantic dragon head started to quickly shrink, and transformed into a tall and sturdy figure that floated in front of Tang Huan. On his face, were dense wrinkles and his hair was red like fire.

The moment the red-robed elder appeared, the frozen space returned to its original state.

molten lava surged, flames danced about, the fiery red wave gradually calmed down, and the terrifying aura that filled the sky melted into nothingness. Inside the invisible shield, Tang Huan felt as if the giant rock that was pressing down on his back was suddenly moved away, and his entire being felt relieved of a burden, becoming a lot more relaxed.

"Yiya!"

After the sinister and terrifying Pang Shuo's head disappeared, Xiao Budian's courage seemed to have increased a bit as he slowly moved from the back of Tang Huan's neck to his shoulder.

"May I know how to address you, senior?" Tang Huan hesitated, and then cupped his hands and asked.

"This old man is 'Flame'!"

The red-robed elder squinted his eyes and laughed, then said with deep emotion, "After so many years, I never thought that this old man would be able to meet a pure descendant of the Dragon Clan, and also a descendant of the 'Chaotic Heavenly Dragon'."

"Chaotic Heavenly Dragon?"

Hearing that, Tang Huan's mind could not help but move a little.

When he was in the small world, he had heard Mu Yan introduce the origins of the Blue Dragon. At that time, Mu Yan had mentioned the words "Chaotic Heavenly Dragon".

It was at this time that Tang Huan suddenly realized that the Flame Dragon had not killed him and Xiao Budian, who had barged into the vicinity of the absolute domain, but had instead brought the two of them here. Presumably, it was because of Xiao Budian's identity as a descendant of the "Chaotic Heavenly Dragon".

"Unfortunately, my bloodline is too thin."

Yan Xiao regretfully shook his head and sighed, "Otherwise, why would I need to borrow the 'Bloodline Initial Marrow' of the 'Golden Radiance Holy Tiger' to use the power of my bloodline? However, this little thing can still hold on after eating so many 'Bloodline Initial Marrow'. It can be considered a miracle. "

"The 'Bloodline Initial Marrow' of tiger-type fierce beasts, can the Dragon Clan use the power of bloodline after being consumed?" Tang Huan was a little surprised, the inside the cave's golden skeleton was actually called the "Golden Radiance Sacred Tiger" when it was alive.

Originally, Tang Huan had guessed that Ying Hu and Yue Shan were both capturing Tiger Clan s with the same surname, but after seeing Xiao Budian use the "Bloodline Initial Marrow", he thought that the skeleton might have been left behind by a dragon beast. After all, Xiao Budian was the Blue Dragon, and it should be the "Bloodline Initial Marrow" of the dragon beast in order for it to be effective. However, he didn't expect that his initial judgement was correct.

"Where did an ordinary tiger type fierce beast get its 'Bloodline Initial Marrow'?"

"That 'Golden Radiance Holy Tiger' is no ordinary tiger type fierce beast, it is a Holy Beast. Any Bloodline Initial Marrow from a Holy Beast can use their bloodline's power to power up their 'Bloodline Initial Marrow', so they don't have to belong to the same race or group."

Chapter 819 - Yan's Proposal!

"Saint Beast?" Tang Huan was startled.

"There are natural Holy Beasts in this world, as well as Holy Beasts transformed from Spiritual Beast. This Firing Dragon Mountain Range Dragon, Tiger, Hawk and Snake Four Great Clans are descendants of natural sacred beasts. "

"This little thing is a descendant of the 'Chaotic Heavenly Dragon'. The 'Chaotic Heavenly Dragon' is not a Holy Beast, but a divine beast. It was a pity that the bloodline was thin after so long, so this little thing could only be considered a Spiritual Beast. However, after consuming the Bloodline Initial Marrow of the 'Golden Radiance Holy Tiger', it would have a huge chance of transforming into a Holy Beast in the future. However, if it wants to transform into a Divine Beast again, it will be difficult. "

As he spoke till here, Yan's gaze fell upon Tang Huan. "Little fellow, leave this little thing here. This old man has a way to make it reappear the glory of its ancestors!"

"This ..."

Tang Huan's heart shook, the meaning of Yan Shi Yan's words were extremely obvious. Xiao Budian's ancestor was a Divine Beast's 'Chaotic Heavenly Dragon', allowing it to reappear in its glory, naturally meant for Xiao Budian to transform into a Divine Beast. If it really was like this, for Xiao Budian, this would be a rare opportunity.

"Yiya!" "Yiya ..." Xiao Budian seemed to have realized something, as her two little claws waved continuously and her head shook like a rattle drum. Her dark blue eyes were filled with anxiousness and anger, as though she was afraid that Tang Huan would agree and leave her here.

"Elder..."

Seeing that, Tang Huan could not help but reveal a look of hesitation. Ever since Xiao Budian saved him in the small world's Maze Realm Forest, all these years, Tang Huan had already treated him as a family member and left him alone in this "Firing Dragon Desperate Domain".

However, if he were to miss such a great opportunity, it would truly be a pity.

Tang Huan could feel that Yan Shi Yan was not lying to him. With his peerless strength, if Yan Shi Yan really wanted to harm him and Xiao Budian, there was no need to say so much. He could just make a move, he and Xiao Budian definitely had no way to resist.

"Little fellow, don't be reluctant."

Seeing the expressions on Tang Huan and Xiao Budian's face, Yan Xiao laughed out loud, "With your talent, there is hope for you to reach the top in the future, but this little thing is hard to say."

"Rising to heaven?"

Tang Huan's heart skipped a beat. This was the second time he had heard these words. In Snake Clan's base Myriad Caves City, that master of the cave failed at the very last moment on the road to heaven. In the end, only a small part of her residual soul remained, and even her possession had failed and completely vanished into thin air.

Now, Yan mentioned ascending to the heavens.

"On the Heavenly Road, other than relying on yourself, no one else's power can be borrowed."

Yan Qing stroked her fiery red beard and smiled, "Little fellow, no matter how strong you are, you won't be able to bring this little thing up to the sky with you. At that time, you will ascend the sky, but this little thing can only stay in the Forging God Great World. Instead of having to be separated at that time, it would be better to be separated for the time being. With me here, this little thing will ascend the sky at the same time as you. I believe there won't be too much of a problem. "

"Yiya?"

Xiao Budian was slightly quieter, her eyes filled with doubt.

"This..." Tang Huan could not help but ask, "Senior Yan, what exactly is ascension?"

"Huh?"

Yan was stunned. His pair of fiery red eyes seemed to have widened a little as he revealed an expression of "you don't even know this". He laughed involuntarily, "This is not a secret, there is no harm in telling you. Little guy, there are tens of thousands of worlds in this world and the Forging God Great World is just one of them. Above the thousands of big worlds, there is still the Heaven Realm. Between the myriad great worlds and the Heaven Realm, there was a passage. That passage was the path to heaven. Once your cultivation reaches a certain point, you will naturally feel the summons of the Heavenly Road. No one will be able to avoid it. "

"So that's how it is."

Tang Huan was greatly shocked.

When he first came to a small world, he thought that the small world was everything and then he found out that there was a Forging God Great World, thinking that the Forging God Great World was the limit. But now he found out, that the Forging God Great World was only one of the myriad great worlds, and there was even a Heaven Realm above the great world.

The world was much larger than he had imagined.

The Earth where he lived in his previous life probably also occupied an extremely small corner in the myriad great worlds. Otherwise, it would be impossible for a Dao item like the "Nine Yang Divine Furnace" to appear on Earth. Of course, that Dao item didn't originally belong to Earth, but it was lost there due to certain reasons.

"You will know about the situation on the Heavenly Road in the future, so don't think too much into it. Right now, you should carefully consider this old man's suggestion." Yan Xiao said with a smile.

"Junior knows what to do now."

Tang Huan took a light breath.

Xiao Budian continued to follow him. The most he could provide Xiao Budian was at most a variety of gems and it was impossible for Xiao Budian to possess a strength compatible with its descendant as a "Chaotic Heavenly Dragon". It was even more impossible for Xiao Budian to be promoted to the same level as its ancestor.

Xiao Budian relied on him, but he couldn't be so selfish. This little fellow still had its own path to walk.

Moreover, this was only a temporary separation, not an eternal one. If one wanted to see it in the future, they could just come straight to this "Firing Dragon Desperate Domain".

"Xiao Budian!" Tang Huan cupped Xiao Budian down from his shoulder.

"Yiya?"

As if he had noticed Tang Huan's thoughts, Xiao Budian's blue eyes started to tear up, as if tears were about to fall from them at any time. Her expression was full of attachment, as if she knew that her abandoned child was looking pitifully at her parents.

Tang Huan's heart softened. His nose felt sour, but he immediately hardened his heart, "Xiao Budian, don't be sad, stay here with Senior Yan for a while and learn some skills from Senior Yan. After you learn it, I'll come and pick you up.

"Yiya!" "Yiya ..."

Seeing that Tang Huan was not willing to change his mind, Xiao Budian changed her cute and pitiful look. She angrily shook off Tang Huan's hands and then flapped her little wings as she waved her little claws.

Seeing her overbearing and "I'm a hoodlum and I'm not afraid of anyone" expression, Tang Huan could not help but to laugh bitterly, but he was also secretly worried that this Xiao Budian would not infuriate Yan, right? Xiao Budian did not know how to speak human language, so he could not hear what Xiao Budian was scolding, but it was definitely not good news.

"Senior Yan ..."

Just as Tang Huan was about to stop Xiao Budian, Yan laughed, "Don't worry, this old man is not that petty. Little fellow, this little thing really does have a deep relationship with you, and I'm not willing to part with you. Fine, let this old man have a private chat with this little thing. "

Chapter 820 - Giving You A Good Fortune!

"Roaaaaaar!"

Just as Tang Huan was in a daze, Yan suddenly opened his mouth, revealing an inhuman sound. Instead, it was a long and low growl, and the sound waves he released were extremely loud, as though there were countless profound runes inside. When Tang Huan heard it, it actually sounded like a strange melody.

At that moment, Tang Huan suddenly understood why people would use "Roar" to describe a dragon's voice. Within the roars of flames, there was indeed a type of chant.

Xiao Budian was suddenly stunned, and then stopped.

The moment it heard the low roar of the flame, something deep within its soul seemed to explode, causing its mind to enter a trance as if it had fallen into a strange state of consciousness. In the blink of an eye, and after what seemed like ten million years, Xiao Budian suddenly woke up.

Initially, Tang Huan was still a little worried about Xiao Budian's condition, but now, he realised that there seemed to be an additional enlightenment in Xiao Budian's eyes.

"Roar!"

Suddenly, Xiao Budian's mouth opened slightly, and what rushed out of his mouth was no longer the "yiya" sound, nor was it the simple howl that he had made when he transformed into a ten-winged Blue Dragon.

"Roaaaaaaaaaar!" Yan Xiao let out yet another deep roar.

"Roar!"

Xiao Budian raised his small head and roared again.

Under Tang Huan's doubtful gaze, Yan and Xiao Budian shouted out together, as though they were communicating.

"You little thing, you actually dare to make a request to me."

After a long while, Yan suddenly laughed out loud, "Whatever, who asked a little thing like you to be a descendant of the 'Chaotic Heavenly Dragon', this old man will satisfy you."

With that, he looked at Tang Huan and saw him looking at him in surprise. He laughed and said, "Little fellow, this little thing knows how to think for you, it just said that if I cannot give you enough benefits, he won't even be willing to stay here."

"Huh?" Tang Huan was immediately dumbstruck, and subconsciously looked at Xiao Budian.

"Yiya!"

Xiao Budian crossed her two small claws in front of her chest, looking pleased.

Xiao Budian should have already been persuaded by Yan Feng. However, what Tang Huan did not expect was that Xiao Budian actually used this matter to exchange for some benefits.

Immediately, Tang Huan opened his mouth and said: "Xiao Budian is too young and still a little childish. It is just casually saying it, Senior does not need to take it to heart."

"Yiya ~ ~ ~"

Xiao Budian glared with his eyes, and started to protest with dissatisfaction.

The flame eyed Tang Huan, and said while smiling: "It doesn't matter if this little thing is speaking casually, since this old man has agreed, I must do it."

His voice paused slightly, and it seemed as if a strange power that caused people to be completely unable to resist was being emitted from Yan Na's two eyes that were looking at Tang Huan. In that instant, Tang Huan felt as if his soul and body had been penetrated, and all of his secrets were exposed in front of Xiao Yan's eyes.

Fortunately, this strange feeling only lasted for a moment, causing Tang Huan to secretly sigh.

"Kid, you are more outstanding than this old man expected."

"Not to mention having the 'Sun Spirit Body' of the Seven Planets Spirit Body, you have even fused four Five Elements Spiritual Fires, you are only missing one type of Soil Attribute Spirit Fire ... This old man has lived for countless years, but this is the first time I've ever seen someone who could fuse with so many Spiritual Fire of different attributes. Forget it, this old man will gift you with some good fortune. Let's see what level you can reach after gathering the Five Elements Spiritual Fires. "

"Senior has a Soil Attribute Spirit Fire?" Tang Huan was pleasantly surprised.

"I don't have one now, but I will have one soon. Little fellow, wait here for a moment. "

Narrowing his eyes and smiling, Yan's hands made a grasping motion in front of him.

In the next moment, a scene that stupefied Tang Huan and Xiao Budian appeared. With an ear-piercing "chi la" sound, the fiery red space was torn apart like silk, and a long and narrow crevice immediately appeared.

After a while, the dark crevice closed.

Tang Huan and Xiao Budian stared at each other without saying a word. They were both shocked by the miraculous method that Yan Zhan had used.

Although Tang Huan did not know what kind of strength Myriad Caves City, who stood at the peak of the Forging God Great World, possessed, he was sure that the master of the cave would definitely not be able to reach such a level of strength as Yan.

The strength of the master of this "Firing Dragon Desperate Domain" must have far surpassed the limits of what all cultivators in the Forging God Great World could achieve under normal circumstances. Logically speaking, such an existence should have long been summoned by the Path to Heaven, but Yan had always been hiding in the Firing Dragon Mountain Range.

I wonder why?

"Xiao Budian..." After about 10 breaths of time, Tang Huan finally came back to his senses, but just as he opened his mouth, his voice suddenly stopped.

"Slash!"

The piercing yet familiar sound of silk ripping rang out once more.

In the air in front of Tang Huan and Xiao Budian, another long and narrow crack appeared, and in a flash, Yan's burly red figure came out from the crack. When the cracks closed again, Tang Huan and Xiao Budian saw Yan's elderly face clearly.

"Buzz!"

Right at this moment, within Tang Huan's Dantian, the "Nine Yang Divine Furnace" suddenly revolved at a rapid speed, and that "Flame Heart" actually had a strange sensation at the same time.

"There's a Spiritual Fire!"

With this thought in mind, Tang Huan's gaze almost reflexively fell on Yan Shi Yan's right hand. In his palm, he was holding a round yellow thing.

No Qi leaked out from it, but Tang Huan immediately understood, what was being grabbed was a ball of extremely condensed yellow flames.

Soil Attribute Spirit Fire!

In this Forging God Great World, there were many Spiritual Fire s, but even if Tang Huan possessed "Flame Heart s", he still could not sense their existence. This could only be explained in one way, and that was that the location of the Spiritual Fire had long since exceeded the limit of what the "Flame Heart" could sense.

And now, in just a short span of time, the flame had torn open the void and travelled an unknown distance, bringing back a type of Soil Attribute Spirit Fire!

To others, thinking of using a hand as a Spiritual Fire was extremely difficult, but to a flame, it was as easy as reaching out with one's hand.

"I don't have one now, but I'll have one soon!"

Thinking back to what he had said before Flame Ripping the Void, then looking at the Soil Attribute Spirit Fire that he had brought back with him, Tang Huan was incomparably shocked.

"Little guy, catch!"

With a toss of his right hand, the yellow object was thrown over.

As if he had awoken from a dream, Tang Huan subconsciously reached out and caught it. That ball of flames seemed to have been bound by a tyrannical force, with no way of resisting.
