

W. Secret 611

Chapter 611: Great Wizard Saturn

A fat figure scuttled out from behind Merlin. It was one of the few Potential Wizards Merlin had known in Arcane City, Wizard Arrot.

Arrot's plump face was beaming fully, and he said, "It's been so long. Wizard Merlin is finally back."

"Yes, it's been decades..."

Merlin looked closely at Arrot, noticing that his Elemental fluctuations had already reached the Ninth-level. It looked like in the past years, Arrot's progress was not insignificant either.

"Huh? Wizard Merlin, you're no longer a Seventh-level Wizard?"

Arrot could not discern Merlin's current Spell Caster level, and could only sense that there seemed to be a faint oppressive feeling coming from Merlin, making him feel a sense of pressure.

"Arrot, Wizard Merlin's progress is much faster than yours. If I'm not mistaken, Wizard Merlin, you should be a Ninth-level Spell Caster now, right?"

In front of Arrot, came another Spell Caster who smiled as he moved forward. His smile was one of confidence.

"Wizard Saturn, congratulations. It's not common for a Six-Elemental Spell Caster to become a Great Wizard!"

At one glance, Merlin recognized this Spell Caster and his powerful force. It was the Six-Elemental Wizard, who was like Merlin, with extraordinary talents. Moreover, in just a few decades, Saturn had advanced at an incredible pace as well. He had already managed to fuse his Six-Elemental spells, and become a Great Wizard.

It must be known that now Merlin was a Ninth-level Spell Caster, he knew profoundly how difficult it was to fuse Spell Models. It was completely different from spell fusion. Back then, Wizard Midnight who was merely a Five-Elemental Spell Caster had not fused as quickly as Saturn had done.

The plump Wizard Arrot hurriedly told Merlin, “Wizard Merlin, you haven’t been in Arcane City these years, so of course you don’t know that our batch of Potential Wizards owes so much to Wizard Saturn. After he became a Great Wizard, his powers reached an unimaginable stage, coming infinitely close to a Great Legend. He’s dubbed one of the strongest existences below the level of Legends! Heh heh, in Arcane City, Wizard Saturn is fully deserving of the title of the strongest within our batch of Potential Wizards. One time, Wizard Saturn was besieged by five members of a foreign tribe who were comparable to the most preeminent Great Wizards. He killed them all, and even captured one of them alive!”

Upon mentioning Wizard Saturn’s past glory, Arrot was like a babbling torrent, talking with excited vigor.

A smile had appeared on Merlin’s face. Saturn’s progress was rapid indeed. Becoming a Great Wizard successfully was already a unique feat among ten thousand others, to say nothing of being a Six-Elemental Wizard.

Presently, Saturn was like Wizard Kubale whom Merlin had met back in the Inceptive Dimension. Both were Six-Elemental Spell Casters, and even if they were not like Merlin who had so many Perfect-grade spells, once a Six-Elemental Spell Caster had fused all their Spell Models, they became rather fearsome. Instantly, they were one of the mightiest existences beneath Legends.

It was not surprising that Saturn was calm and collected even when dealing with five members of a foreign tribe on par with the most preeminent Great Wizards, and could even capture one of them alive.

“Merlin, you’ll surely fuse your Spell Models soon as well. At that point, when you become a Great Wizard, you won’t be inferior to me at all!”

Saturn still had such confidence. In the past in Arcane City, he was always secretly measuring himself against Merlin trying to see who was really the foremost genius of Arcane City.

After so many years, he had finally gone through countless hardships to become a Great Wizard, turning into one of the mightiest beings below the Legends. Now, he saw that although Merlin had advanced quickly too to become a Ninth-level Spell Caster, Merlin obviously still had not fused his Spell Models, and had fallen behind Saturn.

As he received Saturn's "encouragement", Merlin simply smiled easily, and did not mind the self-assured tone of Saturn's words.

"Alright, let's go in. I believe that Wizard Merlin has received the message from Arcane City?"

Merlin bobbed his head. "I have indeed but I don't exactly know what happened."

This turn of events had occurred very suddenly. Arrot and Saturn were also hurriedly summoned back. In fact, it was not just Arrot, Saturn, and Merlin. Even some unknown Great Legends had all made their way to Arcane City.

In his short time in Arcane City, Merlin had already bumped into more than ten Great Legends. Previously, when he had stayed in Arcane City for such a long time, he had not even seen this many Legends.

When he noticed how many Legends there were, Merlin and the rest grew somber. Something momentous must have happened, otherwise, there would not be so many Great Legends.

"Swish."

A familiar figure materialized before Merlin.

"Teacher Zado!"

"Legend Zado!"

Arrot and Saturn bowed toward Wizard Zado, who waved his hand lightly. Thereafter, he spoke to Merlin quietly, "Merlin, follow me."

“Yes.”

After bidding farewell to Arrot and Saturn, Merlin quickly followed behind Zado. He knew that Zado must have something urgent to say.

After Merlin followed the Legend Zado to the castle. Zado’s expression turned even more serious as he said slowly, “Merlin, the Blackfire Lord had followed the Arcane Wizard Setoh to the Seely Dimension. Before he left, the Blackfire Lord had asked me to tell you how dangerous this whole affair is.”

“What’s really going on? Is it really a civilization war?”

Merlin drew in a deep breath and asked softly.

“A civilization war... Indeed, such a cruel phrase but it’s true. This time, it could very well be a civilization war. The Rock Tribe can no longer bear to keep the peace. Beginning with the Seely Dimension, they have been making preparations. At last, not long ago, they started a full-on war. As we weren’t ready, things don’t look too good. Therefore, the three Ultimate Arcane Wizards finally started to summon all of the Great Legends in the Spell Caster civilization, asking them to each bring Spell Casters above the Seventh-level, to hurry to the frontlines.

“As for Spell Casters from Arcane City, if they’re above the Seventh-level, they must also follow Arcane City’s arrangement, and rush to the Seely Dimension.”

Merlin finally knew the severity of the situation. It was not just a mere civilization war. From the very start, the Spell Caster civilization was already at an absolute disadvantage, leaving the three Great Ultimate Arcane Wizards with no choice but to mobilize the full strength of the Spell Caster civilization. The forces of Arcane City alone were unable to turn things around.

“Teacher Zado, hasn’t Arcane Wizard Setoh been keeping watch over the Seely Dimension long ago? With an Arcane Wizard overseeing things, how can the situation be so bad?”

Merlin was somewhat puzzled. Back when the Arcane Wizard Setoh had used his spatial avatar to save Merlin from the Slothful Beast's body, he was already managing the Seely Dimension. Unexpectedly, things still went badly.

The Legend Zado shook his head helplessly as well. "As for what happened exactly, I'm not clear..."

"Bong bong bong."

Just then, a bell tolled deafeningly. This was to gather all the Spell Casters of Arcane City.

"Merlin, go ahead. A war between civilizations is ruthless. Remember, don't try to show off. Even Great Legends, Honored Legends, and Lords might die. All you can do is try your best to survive!"

The Legend Zado's voice was gravely admonishing. Faced with the brutality of a civilization war, not even a Great Lord could afford to let down their guard.

Merlin nodded and took his leave, flying toward the square where the bell was rung.

Chapter 612: A Team of Seven!

In the public square of Arcane City, Spell Casters stood in tightly packed crowds. At the front were a few Great Honored Legends, behind whom were some Great Legends, and at the back were the Spell Casters of Arcane City.

It was the first time Merlin had seen so many Great Legends gathered together. The terrifying bursts of Elemental fluctuations and force of Maxims practically caused the Spell Models in his body to tremble slightly. This was a natural suppressive effect.

Besides Merlin, some other Spell Casters wore uncomfortable expressions as well. Evidently, they were similarly affected.

"Wizard Merlin, come over here."

Wizard Saturn said to Merlin. Merlin looked at the crowd, which contained Arrot and the rest who had grouped together, so he nodded and headed over.

“Wizard Merlin, what did the Legend Zado say to you? Did he mention anything about the Rock Tribe?”

The plump Wizard Arrot, upon seeing Merlin coming over, asked eagerly.

After a moment of consideration, Merlin felt that it did not matter if he told Saturn and the rest, so he nodded. “The situation is bad indeed. The Rock Tribe has likely prepared for this a long time. I’m afraid that a civilization war is necessary at this point!”

“A civilization war!!!”

Everyone was astounded at this phrase, and countless thoughts flashed across their minds. Who knew how many powerful Spell Casters had been buried behind this phrase?

After Merlin spoke, Saturn and the rest fell silent, unable to speak. The atmosphere became rather stifling.

After a short moment, a vortex appeared above the square. Wild winds spun around as a figure emerged from the center of the vortex.

“Boom.”

As soon as this figure appeared, the entire square became restless. Many Honored Legends stared at this figure with trembling gazes.

“Who is he?”

“What a formidable force. Although the space in Arcane City isn’t that solid, no one would dare to traverse through space in Arcane City.”

Many Wizards did not recognize the figure who had suddenly appeared from the vortex but when Merlin looked, he shuddered fiercely.

“Huh? Wizard Merlin, you know who this is?”

The observant Wizard Saturn seemed to notice the change in Merlin’s expression, and questioned softly.

Merlin’s eyes were fixed stubbornly on the figure descending from the vortex as he said hoarsely, “If I’m not wrong, he must be the wind avatar of the Arcane Wizard Setoh!”

“Arcane Wizard Setoh?”

When Saturn, Arrot, and the rest heard Merlin’s reply, their mouths fell open, and their eyes shone with an incredulous light.

“It must be the wind avatar of the Arcane Wizard Setoh! It’s rumored that the Arcane Wizard Setoh has many avatars, and this is one of them!”

Merlin continued speaking. The one who had gone to the Slothful Beast to save Merlin was the Arcane Wizard Setoh’s spatial avatar. As for the Arcane Wizard Setoh’s real body, he must be overseeing things at the actual frontlines.

When the Arcane Wizard Setoh’s avatar landed, the entire square burst into an uproar. The Ultimate Arcane Wizard was a pillar of the entire Spell Caster civilization, and the three Great Arcane Wizards served as the guardians of the Spell Caster civilization.

The Arcane Wizard Setoh was one of the three Great Arcane Wizards, the final one to become an Ultimate Arcane Wizard. Nonetheless, his level of prestige was not any lesser compared to the other two Arcane Wizards. In fact, he was the one who suggested the establishment of the three great Arcane Cities.

Therefore, only did the Spell Caster civilization flourish from day to day.

“Everyone!”

Although this was simply an avatar of the Arcane Wizard Setoh, to the crowds of Spell Casters in the square, he was no different from the real body as he still represented the Ultimate Arcane Wizard.

“Everyone, I’ve summoned you here today. I believe everyone has already learned of the news. The Rock Tribe has already erupted in vicious conflict against our Spell Caster civilization in the frontlines of the Seely Dimension, and we’ve lost a few dimensions in succession! Therefore, Spell Casters above the level of Legends should each return and gather Spell Casters above the Seventh-level, and hurry to the frontlines where the Seely Dimension is, in the shortest time possible! I hope everyone keeps in mind that this is a real war, and is likely to develop into a civilization war!”

“Rumble.”

Even the Great Legends were now feeling flabbergasted. In the stories of all civilizations, a “civilization war” was something terrifying and brutal.

Following that, these Great Legends took their leave, each returning to their own dimension to begin rounding up Spell Casters above the Seventh-level. When these Great Legends had gone away, news of the war that had erupted between the Spell Caster civilization and the Rock Tribe civilization would quickly be spread.

After the Great Legends left, the square was only left with a small group. These were Spell Casters of Arcane City. They had been summoned by the Arcane Wizards through various methods. Perhaps some still had not gotten the message while some were still on their way back but there should not be many left. Most of the Potential Wizards of Arcane City were now congregated in the square.

The Arcane Wizard Setoh looked toward these Potential Wizards in the square, and his voice boomed impressively, filled with gravity, “You’re all Potential Wizards of Arcane City, the most outstanding Spell Casters among the infinite dimensions. At first you’re the future of our Spell Caster civilization. However, a war between civilizations has begun. As a member of the Spell Casters, you should contribute your strength. Potential Wizards above the Seventh-level must head to the frontlines and enter the fight! Nonetheless, you can form your own teams. After two hours, I’ll personally send you to the frontlines.”

“Two hours?”

Many Spell Casters felt that this was far too short a time but with this command from the Arcane Wizard, they dared not delay any longer. Many Spell Casters began to team up with Wizards with whom they were mutually acquainted.

Some groups had only two or three while others had seven to eight.

“Wizard Merlin, I, Arrot, Wizard Rael, Olga, Seddon, Vic – seven of us in a team. What do you think?”

Merlin carefully looked at them. These Wizards were the ones with the best abilities among the same batch, and could be considered the strongest combination!

Both Saturn and Rael were most preeminent Great Wizards, Saturn in particular, who was the strongest existence beneath Legends. As for Vic, Seddon, and Olga, three of them were exceptional too, all having fused their Spell Models to become Great Wizards. In one leap, they had become beings on par with peak Great Wizards.

Presently, judged solely on Spell Caster level, only Arrot and Merlin were slightly inferior, being Ninth-level Spell Casters.

“Haha, with seven of us, if we’re at the frontlines, we’ll surely be the scariest team. Two preeminent Great Wizards, and three peak Great Wizards. Even if Arrot and Merlin aren’t Great Wizards for now, once they are, Wizard Merlin would be the most preeminent Great Wizard, even the mightiest existence below Legends! Arrot can become a peak Great Wizard too. With power like this, I bet the Rock Tribe would be frightened out of their wits, haha...”

Wizard Rael was as forthright as ever, showing not the slightest sign of unhappiness over the fact that Arrot and Merlin were merely Ninth-level Spell Casters.

“Very well, we’ll do it this way then. We’ll form a team, and support and assist each other. First, we’d better sign a contract!”

Saturn immediately took out a sheet of contract paper. When Spell Casters formed a team, no matter how close they were, only by signing a contract would they really be united in heart and mind. Otherwise, troubles were bound to arise, especially when joining in a war against foreign tribes, which meant they would be faced with constant danger.

“Okay, we’ll sign a contract! We voluntarily form a team. We’ll support and assist each other. Between team members, no matter what the situation, no one must be abandoned...”

The stipulations of the contract were detailed. Evidently, Saturn, Rael, and the rest were very experienced. Conversely, for Merlin, when he looked at this contract, he felt that it hugely differed from the contents of the oath of the Ultimate Order between foreign tribes in the open territory.

The biggest difference was that, between team members, no one was left behind. No matter what danger they were facing, they must face it together!

“Wizard Merlin, is there anything else you’d like to add?”

Saturn saw that Merlin was lost in thought, and asked softly.

“This contract is well drawn up. There’s nothing else I wish to add.”

Following that, Merlin extracted a portion of his Mind Power, and signed the contract. Instantly, seven of them were bound by the contract. From now on, they would battle side by side for a very long time.

“Alright, the two hours are up. Everyone, follow me.”

The square boomed with the voice of the Ultimate Arcane Wizard once more. Following that, he stretched out one hand and an extremely enormous flying ship appeared. It flickered with many Runic Magic Circles and was more than a hundred times bigger than Merlin’s Aurora Ship.

Moreover, what was significant was that it carried the force of a Maxim. This was a casting tool that was far more powerful than anything Merlin had ever seen.

“Absorb!”

A vortex appeared on the giant flying ship and immediately stretched to the square. The teeming crowds of Potential Wizards were sucked onto the flying ship. There was no lack of

preeminent Great Wizards among these Potential Wizards but they too were unable to resist at all.

“Boom.”

With that, the flying ship shuddered, and started to leave Arcane City slowly, flying into the black, icy depths of the Void Zone.

Within the flying Ship, Merlin looked at his surroundings. He was with Saturn and the rest.

“Teacher Zado, we Potential Wizards have strong abilities but we can’t compare to Great Legends. What meaning is there in sending us to the frontlines for us to join the civilization war?”

At last, Merlin could not help but put this question to the Maxim avatar of the Legend Zado in his Spatial Ring. From his perspective, no matter how many Ninth-level Spell Casters or Great Wizards, they would not be much of influence against Great Legends.

He did not think that with these few Great Wizards, even preeminent ones, they would be able to defeat a Great Legend. In the open territory, Nestia, Kubale, and Luca were all the mightiest existences below Legends but they were crushed by a single palm of a mysterious Giant King.

The disparity between Legends and those below them was gargantuan. This was not something that could be remedied by a sheer number unless they were the most demonic genius Spell Casters like Alcra or Tuota. Nonetheless, in the entire Tree Tribe civilization, there was only one Alcra.

“Hehe, what purpose, you ask? All of you serve a great function. If you perform well, and thoroughly suppress the Rock Tribe, this war of civilizations might not necessarily take place!”

The Legend Zado’s face was calm, and his eyes probed into Merlin’s meaningfully. Conversely, Merlin felt even more baffled.

Chapter 613: Front Line

“We might not have to fight?”

Legend Zado saw Merlin’s puzzled face, and continued to explain, “It’s simple. It’s not that easy for fights between civilizations to blow up. Although the Rock Tribe has prepared for a long time, they’re still afraid. Our Spell Caster civilization isn’t a weak civilization. If both sides really suffer losses, other foreign tribes will not be polite.”

“That’s why at this stage, neither of the Great Legends of both sides have truly got involved. Those fighting at the front line are all below Legends. It was something tacitly agreed by both sides. The Rock Tribe has developed over the years, and feel like their strength is already very strong, which is why they’ll make further moves. However, if our Spell Caster civilization completely suppresses them in a battle with Spell Casters below Legend, do you think they’ll continue to take risks?”

Merlin then realized that the situation had not developed to such a terrible point. Great Legends had not really intervened yet, and the civilization war had not truly broken out.

Otherwise, if the civilization war broke out, Great Legends, Honored, Legends, Lords, and even the great Ultimate Arcane Wizards would take action. Countless dimensions would be crushed in an instant. At that time, both sides would definitely suffer losses.

Thus, controlling the situation and completely suppressing the Rock Tribe while it was below Legend level became the best choice for the Ultimate Arcane Wizards. It was not surprising that all Potential Wizards of the Three Great Arcane Wizards were transferred. After all, the Potential Wizards in Arcane City were extremely gifted. Many preeminent Great Wizards were in Arcane City.

Merlin could even foresee that with the arrival of Arcane City’s Potential Wizards, the unfavorable situation at the front line would definitely be reversed.

Knowing the general situation at the front line, Merlin was completely relieved. Then, he extended his Mind Power into the Illusory World, where Titus had been waiting for him for a long time.

“How is it? Isn’t the power of the Illusory World great? Unfortunately, your Mind Power is too weak... Your state is too low and unable to exert the full power of the Illusory World.”

Titus shook his head helplessly.

“Titus, I’m here today to tell you that it’s very likely that a civilization war will break out between the Spell Caster civilization and the Rock Tribe civilization!”

“What? A civilization war?”

Titus was also shocked. He understood clearly what a civilization war meant.

“That’s right, a civilization war! That’s why I want you to explain the Illusory Heart in detail...”

Merlin’s current power had already been increased to the limit. It was impossible for it to increase any further in a short amount of time. Thus, he could only exchange experience with Titus.

Even though Arcane Wizards Setoh’s flying ship was very fast, it would still take a long while before they could reach the Seely Dimension. The many Spell Casters on the flying ship were all silently making preparations.

Merlin also thought about the energy stored inside the Matrix that had almost been completely consumed after constructing six Ninth-level spells. The Matrix’s greatest use was to construct Spell Models. It had helped Merlin all the way up to a Ninth-level Spell Caster.

However, afterward, everything would rest on Merlin’s shoulders. The Matrix was no longer a big help to Merlin anymore. No matter if it were combined Spell Models to become a Great Wizard or perfecting the Mind Power system, the Matrix was no longer helpful.

...

“Rumble.”

The gigantic flying ship shook, causing the Potential Wizards on it to be startled. When they went to look, they saw a dimension emitting white light.

“We’ve reached the Alabaster Dimension, the closest dimension to the Seely Dimension.”

Saturn also stood up. He was more familiar with the Seely Dimension.

The huge flying ship slowly flew into the Alabaster Dimension. Over the dimension, there were many Spell Casters shuttling back and forth. However, they were all below Legends but above the Seventh-level.

These Spell Casters were all in groups of three to five and seemed to all be heading toward the Seely Dimension.

“Alright, we’ve arrived at the Alabaster Dimension. As Spell Casters of our Arcane City, you’re naturally different. Now, there are ten dimensions that are caught up in the war with the Rock Tribe, including the Seely Dimension. For the time being, Legends from both sides haven’t involved yet. What you need to do is exert your best to expel the Rock Tribe, and prevent them from occupying the dimension. This is likely to be a very difficult battle but we’ll definitely emerge victorious!”

Then, Arcane Wizard Setoh announced the punishment method. Recruiting these Potential Wizards to the front line was not a request but an order. If they did not enter the front line dimensions within a month, they would receive punishment. This punishment was extremely severe, and with repeated offenses, one would be denied their rights as a Spell Caster, and have the Spell Models in their bodies crushed.

By depriving Magic Power, they would become an ordinary person. Although it was not death, it was a punishment that scared Spell Casters even more than death. Therefore, when Arcane Wizard Setoh finished speaking, most Potential Wizards left one after another, and prepared to enter the front line dimensions.

“Wizard Saturn, which dimension are we going to?”

Arrot took out a few free dimension maps. They were all dimensions in the front line, and were distributed free-of-charge by Arcane City. There were about eighteen dimensions that were caught up in the war. Thirteen of them were dimensions previously controlled by the Spell Caster organization.

Seeing this dimension map, Saturn and the others’ expression became grim.

“How did we lose so many dimensions?”

Wizard Rael could not help but say lowly.

“It can’t be helped. The Rock Tribe has prepared for a long time, and we neglected to take precautions. It’s normal to lose a few dimensions in the beginning. However, we’re not giving up on these dimensions. We’ll still fight for them. Wizard Saturn, which are you planning to choose?”

Arrot muttered a question.

Among these dimensions, many dimensions were already completely occupied by the Rock Tribe. They were even transformed to be a dimension suitable for the Rock Tribe to survive. There were no Elements, and was very disadvantageous to Spell Casters.

“Everyone, we’re different from your run-of-the-mill Spell Casters. As Potential Wizards from Arcane City, it’s our first time to the front line. Hehe, it’s not the first time we’ve encountered foreign tribes before. Since we need to fight, then let’s make it a big one. What about the Seely Dimension? It’s a dimension long since occupied by the Rock Tribe, and has been transformed into a Rock Tribe dimension. However, it’s the heart of the numerous dimensions in the front line. Once we hold the Seely Dimension, we’ll be holding the initiative of the war situation.”

Saturn pointed directly at the Seely Dimension. As the proud Saturn, he naturally would not remain a nobody in the civilization war. His aim was the Seely Dimension from the start.

Arrot had just gone out to collect information before seeing Saturn point at the Seely Dimension. He then explained, “The Seely Dimension has been completely transformed by the Rock Tribe. There are no Elements left. Even if we occupy it, it’s a barren dimension! However, we aren’t giving up on the Seely Dimension. After all, the Seely Dimension is the Center Dimension of the front lines, and the other dimensions also regard the Seely Dimension as their core. Therefore, occupying the Seely Dimension really can affect the situation of the war... However, the Rock Tribe naturally knows how important the Seely Dimension is. There are many strong members both from the Rock Tribe and our Spell Caster civilization there. They’ll be very difficult to deal with.”

Rael laughed and declared, “Haha, the Seely Dimension is good. We went to the Seely Dimension the previous time, so it’s like going down memory lane this time! Besides, Saturn has also said that we’re Potential Wizards of Arcane City. We’re the cream of the crop of the Spell Caster civilization. With our team’s strength, we belong to the top of the battlefield. It’s nothing much to get involved in the battle for the Seely Dimension.”

With the stance of two preeminent Great Wizards, Saturn, and Rael, the others also naturally agreed.

Seeing that no one had opposed, Saturn revealed a smile. “Very good, since everyone has agreed, we’ll set off immediately. Our objective — the Seely Dimension! We’ll let the Rock Tribe know that we, Arcane City, is coming!”

Chapter 614: First Battle

When Merlin, Saturn, and five others arrived at the Seely Dimension, they could not believe the scene before them.

Yellow sand danced, and the ground was covered solid boulders like glaciers. Solid rocks piled up one after another, and even the huge mountain peaks were piled up with rocks.

Moreover, the terrifying part was that these rocks were like living creatures and could grow like plants. Some plants had already become rock flowers or rock trees, and they were icy cold. It was like a deathly still world.

This was a world after the Rock Tribe had transformed it. There were no Elements here in the Seely Dimension at all, only rocks that looked icy cold.

The Rock Tribe was a tribe without life. They did not require a dimension with life. The dimensions they lived in were all cold worlds like this one. This suited them the most.

These cold rocks would slowly give birth to another Rock Tribe in the future. This was the basis of the continuation of the Rock Tribe. They were slowly born from countless rocks in the dimensions over a long period of time.

“D*mn it, the Seely Dimension has been reduced to this state. Even if we control the Seely Dimension in the future, we won’t be able to survive here.”

Arrot's expression darkened as he cursed lowly.

Saturn's expression was not good either. He looked around and said, "Even if it's useless, we need to control the Seely Dimension. Otherwise, even more dimensions will be transformed into cold worlds like this by the Rock Tribe! Saving the Seely Dimension means saving even more of our dimensions!"

Everyone nodded. This was also the fundamental reason why there was such a fierce battle between both sides over the Seely Dimension. The Seely Dimension was a pedal in which more Spell Caster dimensions could be reached. Therefore, no matter what, the Seely Dimension could not be lost.

The Seely Dimension was vast yet there was no figure in sight and no signs of life. The Wizards all flew toward a mountain range.

Suddenly, a small hill appeared in front of them. However, when they had passed it, they discovered that it was not a hill but a gigantic tomb. Written on a stone-carved tablet in front of it were the words "Tomb of the Seely people"!

Although the words inscribed into this ghastly tombstone were simple, anyone would understand without a detailed introduction that under this small hill, no one knew how many bodies were buried.

The Seely people were all born in the Seely Dimension. Unfortunately, the Seely people did not walk out of the dimension like the Spell Caster civilization, and step into the Void Zone. They did not become a powerful civilization, and were left at the mercy of the Rock Tribe and the Spell Caster civilization.

Like Spell Casters, the Seely people were a living tribe, so they were naturally opposed to the Rock Tribe. After the Rock Tribe transformed the Seely Dimension, the Seely people were no longer able to survive, and thousands upon thousands of Seely people died. This was one of the sorrows of a weak civilization.

"There are still a few people left from the Seely Dimension who were sent to other Spell Caster civilizations. A few geniuses among them had even become Great Wizards and joined the Spell Caster civilization in the fight against the Rock Tribe. However, their homes can't be restored..."

Hearing Arrot's words, everyone seemed to quiet down. The atmosphere became somewhat depressing.

"If we can't suppress the Rock Tribe, then we Spell Casters might also follow in the steps of the Seely people..."

Saturn's low voice jolted their hearts awake. Perhaps they still had relaxed moods when first arriving at the front line.

However, now, Merlin and the others felt heavy. This was very possibly a civilization war. From the perspective of civilizations and tribes, both parties were not in the wrong. They were just trying to develop their own civilization, and fight for a place to survive.

There was no right or wrong but there were standpoints. Therefore, this battle was doomed to be a very cruel war!

"Arrot, where do we go now?"

Saturn asked Arrot, who had collected a lot of information regarding the Seely Dimension.

"We should head East now. The Southeast is where our Spell Casters are the most active. Many Spell Casters will go to the Northeast after entering the Seely Dimension. The Rock Tribe's defenses are generally the strongest in the North, and there are also a few powerful Rock Creatures there. Generally, the situation of our Spell Casters in the Seely Dimension doesn't look optimistic."

Arrot frowned while speaking.

"Not optimistic? That's because the Spell Casters from our Arcane City hadn't arrived! We'll head North. We'll expel those Rock Creatures, and re-occupy the Seely Dimension. We'll just keep heading North!"

Saturn's tone was full of determination and arrogance. Almost every Spell Caster who was Potential Wizard from Arcane City were extremely prideful, especially in front of other Spell Casters.

The Spell Caster civilization's situation was in a bad situation in the Seely Dimension, causing Saturn and the others to feel discontented. As proud Potential Wizards from Arcane City, and forming such a strong team, they were also eager to sweep the Rock Tribe away before the Legends got involved, and regain control of the Seely Dimension.

"What do you think?"

Saturn asked Rael and the others. Although Rael and Saturn still had a competitive relationship, now, Saturn was the strongest being below Legends. He was entirely worthy of being the leader of the group.

"Haha, I don't have any opinions. Legends from both sides haven't involved themselves yet, so who else can stand up to us?"

"Indeed. We'll head North and directly expel the Rock Tribe!"

Those who were able to enter Arcane City were all very confident. The seven of them as a group had two preeminent Great Wizards and three peak Great Wizards. With such a team, as long as Legends were not involved, they could be considered to be the finest team, able to sweep everything away.

"Alright, since everyone has agreed, we'll head North!"

Saturn waved his hand, and everyone started to fly toward the North.

After flying for around an hour, a huge noise suddenly sounded from the front, accompanied by intense Elemental fluctuations. The wind roared wildly, and fiery red lights shot up to the sky.

"What a powerful Elemental fluctuation. It must be one of our Spell Caster teams engaging with the Rock Tribe. Everyone, let's hurry!"

Saturn raised his head to look at the red lights in the sky. The Elemental fluctuations were just like guiding lights to the Spell Casters. Thus, they sped up and flew to the direction of the Elemental fluctuation.

...

At the foot of an empty hill were five Spell Casters with disheveled hair, looking very pitiful.

Among the five Spell Casters, three were Great Wizards. They were not ordinary Great Wizards but relatively powerful Great Wizards, second only to peak Great Wizards.

The other two were Ninth-level Spell Casters. They were both female Wizards but they seemed to be particularly proficient in runes. These two female Ninth-level Wizards were arranging a Runic Magic Circle, protecting the five of them.

However, even so, their current situation was quite precarious. They were faced with hundreds of Rock Creatures led by five Rock Creatures comparable to peak Great Wizards.

In the Seely Dimension, the Rock Tribe had already occupied an absolute advantage in numbers. After all, they had prepared for a long time, and the Spell Casters' strongest force, like Arcane City, had not arrived at the front line yet.

"Hold on a little longer. I've already sent out a signal. I believe there'll definitely be reinforcements."

A white-robed Wizard among the five Spell Casters gnashed his teeth, obviously under great pressure. Outside were countless Rock Creatures frantically attacking, especially the five Rock Creatures that were comparable to peak Great Wizards. Each time they pounded the Runic Magic Circle, it seemed that it would cause the Runic Magic Circle to sway as if it could collapse at any moment.

"Reinforcements? How could there be reinforcements? In the Seely Dimension, all Spell Caster teams are fighting for themselves. The difference in strength between us and the Rock Tribe is just too great. There won't be reinforcements coming for us..."

Another Spell Caster said with a look of despair.

The atmosphere immediately became dreary. Indeed, they had heard of too many teams that were destroyed in the Seely Dimension. Now, they were about to become one of those teams.

“Ka-cha.”

Fine cracks finally appeared on the Runic Magic Circle, and spread rapidly. The Runic Magic Circle looked like a spider web at that time, with many cracks spreading across it.

The two female Wizards paled, and said in trembling voices, “It won’t hold on. The Runic Magic Circle can’t take it anymore!”

“It won’t hold on? Then, we’ll fight. It’ll be our last stand...”

The three Great Wizards made their preparations. The Elemental fluctuations on their bodies faintly stirred up violent winds.

“Wait, leader, we seem to have reinforcements. There are seven Spell Caster fluctuations behind us. A Spell Caster team came for us!”

The two female Wizards suddenly cried out, a trace of joy revealing themselves on their faces.

“There’s a Spell Caster team?”

The three Great Wizards looked behind, and sure enough, seven Spell Casters appeared behind them, swiftly heading toward them.

“It’s only seven Wizards... They should be a team that just happened to be nearby. We’ll hold on for a little longer. Their numbers are few but these Rock Creatures are incredibly strong. It won’t be easy for us to escape from these Rock Creatures!”

The three Great Wizards did not dare to relax. They were very clear that their team was considered to be relatively powerful among the Spell Caster teams in the Seely Dimension. The team coming to help them might not be too strong, and might only be able to barely

attract some of the Rock Creatures' attention. If they wanted to break through, they would still have to rely on themselves!

Very quickly, seven unfamiliar Spell Casters approached the five surrounded Spell Casters. The Rock Tribe sent two Rock Creatures comparable to peak Great Wizards, leading a total of thirty Rock Creatures to pounce on the unfamiliar Spell Caster team.

"Haha, it really is the Rock Tribe! Saturn, it's the first time we're meeting Rock Creatures. Allow me."

Wizard Rael had an expression of eagerness. Saturn glanced at the thirty Rock Creatures, two of which were Rock Creatures comparable to peak Great Wizards. Although they could be considered strong, to a preeminent Great Wizard like Rael, it was nothing at all.

Therefore, Saturn nodded and said, "Wizard Rael, this is our first fight. Make it a swift victory!"

"Haha, don't worry."

Saying that, Rael went ahead to face the enemies alone.

"Is he mad? There are two Rock Creatures comparable to peak Great Wizards"

"He must be a Spell Caster who had just arrived in the Seely Dimension, and thinks that these Rock Creatures are as weak as the foreign tribes that they usually kill in border areas... They're finished. Even if they don't die, they'll suffer heavy losses. We'll have to find a way out by ourselves."

Seeing the unfamiliar Spell Caster team suddenly send one Spell Caster to fight, the five Spell Casters felt cold. There were too many Spell Casters who had underestimated the Rock Tribe, and led to the collapse of the entire team.

Only after experiencing several deadly battles would a Spell Caster finally understand how cruel this war was.

However, just as they finished speaking, from that lone Spell Caster body, a gigantic Fireball emerged from the sky like a palm blocking out the sky. There were even Wind-type, Ice-type, and other Elements fused inside it.

“Boom.”

When the palm fell, everyone could not help but feel shocked as if the palm had slapped the bottom of their hearts.

The five Spell Casters openly gaped, and stared dumbstruck at the “reckless” figure who “did not know the immensity between heaven and earth”.

With just one palm, the thirty Rock Creatures on the ground were completely crushed into powder. They scattered in the breeze with just a gentle blow...

“A preeminent Great Wizard. He’s a preeminent Great Wizard! Haha, what kind of reinforcement Spell Caster team did we encounter?”

The eyes of the five Spell Casters glazed over before, but now, they became extremely enthusiastic.

Chapter 615: Sweep Away I

“Haha, these Rock Creatures aren’t that bad. I thought they’d have some formidable abilities that make them unable to be killed...”

Wizard Rael rubbed his bald head. For some unknown reason, ever since Wizard Rael started combining Spell Models and succeeded in becoming a preeminent Great Wizard, his hair had been decreasing. In the end, Rael simply shaved off his hair and became bald but it added a fierce touch to him.

Specifically, when he crushed thirty Rock Creatures with one palm, it made others feel overwhelmed.

Saturn and the others were not surprised. One preeminent Great Wizard could go against ten peak Great Wizards or even more. After all, an ordinary Spell Caster could only reach peak

Great Wizard if they cultivated step by step. They needed extremely high gifts and destiny to become a preeminent Great Wizard.

The remaining seventy Rock Creatures now focused on Wizard Rael's figure. Rael wanted to act again but was stopped by Saturn, who smiled and said, "Rael, you've done your part in the first battle. Let me handle the rest."

Without waiting for Rael to respond, Saturn pointed a finger, and a vortex formed by highly condensed Wind Elementals instantly appeared in the air.

The vortex was also quite mysterious. It was as if it was alive. It breathed continuously, contracting, and expanding ten times in a row before suddenly rumbling and swelling. A dazzling fiery red light accompanied the terrifying shock wave, heading toward the seventy Rock Creatures.

"Crack."

These Rock Creatures, without the slightest resistance, were all blown to pieces instantly by Wizard Saturn's attack. They were directly annihilated and crumbled into ashes which scattered away.

Seventy Rock Creatures disappeared in the blink of an eye. Even Wizard Rael's speed was not that quick. This also indirectly proved that Saturn really was stronger than Wizard Rael. Although they were both preeminent Great Wizards, Saturn was right below Legends, and was an extremely powerful being!

"Wizard Saturn, Wizard Rael, you two took all the limelight. We haven't done anything at all but there's already nothing left..."

Wizard Vic and the others swiftly flew over and shook their heads after seeing the fine powder on the ground.

"Haha, there'll be more chances later. However, these Rock Creatures really aren't that strong!"

Saturn was the strongest being under Legends, so he naturally felt that these Rock Creatures were not strong. For Rock Creatures like these, even a thousand or ten thousand of them were of no threat to him.

“Everyone, don’t let your guard down. This Rock Tribe team was, at best, a relatively stronger group in the Seely Dimension. They’re not the most powerful!”

The five Spell Casters at the side returned to their senses. They immediately went over when they had heard Saturn and the others mention that the Rock Creatures were not strong.

Saturn and the others seemed to only just recall that there were other Spell Casters, and directed their attention toward the five Spell Casters.

These five Spell Casters felt a little uncomfortable but they adjusted their mood quickly, knowing that this team in front of them was terrifyingly powerful. They might have just arrived at the Seely Dimension.

“Did you all just arrive at the Seely Dimension?”

Saturn nodded and said calmly. “How did you know? We indeed just hurried over to the front line from Arcane City...”

“What? You’re Spell Casters from Arcane City?”

The five Spell Casters were pleasantly surprised to hear Saturn said that they were sent from Arcane City to the front line.

“We’re indeed from Setoh Arcane City!”

Rael also said with a low voice, keeping his sharp eyes on the five Spell Casters.

“Fellow Wizards, please don’t misunderstand. We’re very happy about your arrival. All the Spell Casters at the Seely Dimension are very happy that you’ve rushed over. The dimension battle at the front line is very difficult, and we’re at a disadvantage in almost every battle for dimensions. The main reason is that there are just too few powerful Wizards. However, Arcane City is a place where geniuses gather, and every Potential Wizard there is

outstanding. We've long expected you to come. Haha, now that you're here, our days will be much better."

Each of the five Spell Casters showed smiles on their faces. As the war in the front line broke out too suddenly, the three great Arcane Cities did not mobilize on a large scale. As a result, there were very few strong Spell Casters under Legend.

"You don't have to worry now. The Ultimate Arcane Wizards have already begun to call upon Spell Casters from Arcane City. We're the first to arrive!"

Saturn explained simply to the five.

After chatting for a while, the white-robed Wizard among the five Spell Casters said quietly, "Gentlemen, it's not safe here. Why don't you come back with us to the Spell Caster gathering area? We can take our time making decisions there."

However, Saturn and Rael shook their heads. "We came to the Seely Dimension to find Rock Creatures, and expel all of them from the Seely Dimension as soon as possible. Right, you should have been in the Seely Dimension for a while. Do you know any places nearby where Rock Creatures gather?"

"There are places where the Rock Creatures gather. It's in the Northwest, and you'll reach it in about half a day's journey. It's called Tanloan City, and it's the largest Rock Tribe stronghold in the vicinity. However, there are three powerful Rock Creatures comparable to preeminent Great Wizards in Tanloan City as well as eight comparable to peak Great Wizards, and more than twenty comparable to ordinary Great Wizards.

"Furthermore, the entire Tanloan City has its own defense system unique to the Rock Tribe, making it even harder to breach. There are nearly twenty thousand Rock Creatures living in there. Together, they're a terrifying force!"

The five Spell Casters told Merlin and the others about Tanloan City.

"Three upper rank Rock Creatures comparable to preeminent Great Wizards?"

Saturn, Rael, and the others glanced at each other, and felt their eyes brighten. A defensive power like this really was powerful. In the Seely Dimension, with the Rock Tribe's current strength, no one would be able to go against them.

However, Saturn got more excited the more he thought about it. He was the strongest being below Legends. Even in the chaotic and bloody open territory, strong beings below Legends like Luca and Nestia ran rampant. Apart from freaks like Tuota and Alcra who were comparable to Great Legends, Luca, Nestia, and Saturn were almost the strongest beings.

Therefore, even if it were ten preeminent upper rank Rock Creatures, much less three, Saturn did not care as long as he would not encounter strong Wizards below Legends like Luca.

"Good, we'll go to Tanloan City, and directly destroy the Rock Tribe's stronghold in the Seely Dimension. It's better than going around randomly and ending up not finding any Rock Creatures."

Saturn's eyes swept over Rael and the others.

"I agree. Destroying Tanloan City huh. I believe that'll cause a sensation."

"Haha, once Tanloan City is destroyed, the seven of us will become a thorn in the Rock Tribe's side but isn't that exactly what we want? We'll use the shortest time possible to drive out the Rock Tribe from the Seely Dimension. The Seely Dimension will fall into us Spell Casters' hands!"

The group of seven all agreed to Saturn's plan. Even Merlin did not feel threatened by the three preeminent upper rank Rock Creatures.

Hearing Merlin and the other's relaxed laughter as if they did not care about Tanloan City, the five Spell Casters glanced at each other in surprise but could not help but say, "Fellow Wizards, could our Mystic Squad follow you to Tanloan City?"

"Follow us? Aren't you afraid of danger?"

Saturn seemingly smiled as he looked at the five Spell Casters. Although they called themselves "Mystics", they did not have any mystical powers.

“Haha, although we’re weak, we still have three peak Great Wizards. I believe that we’ll be able to help a little at that time. If it really fails, we might be able to safely withdraw with us leading.”

In reality, the Mystic Squad just wanted to see if the Potential Wizards of Arcane City could really destroy the Rock Tribe’s strongest stronghold.

“It’ll indeed be more convenient with you around. Since you also want to go, then lead the way. We’ll be able to reach Tanloan City quicker.”

Saturn hesitated for a moment before finally agreeing to their request.

“Alright, we’ll lead the way now!”

The five Spell Casters were all very excited to be able to rush into such a deep place belonging to the Rock Tribe. They had some adventurous spirits, so they naturally were not afraid. Thus, they swiftly brought Merlin and the others and flew to Tanloan City as fast as they could.

...

The spacious plain was full of solid black stones. In the past, this was a vast grassland in the Seely Dimension but now, the grass was no longer there. There were only cold, lifeless rocks.

Somewhere in the plains stood a small city surrounded by tall walls. It looked like an oval ball.

In the sky, there was a gray protective shroud of light, like an eggshell, that hung over the small city. A few powerful Rock Creatures walked in and out of the city.

“There seems to be a fight not far from here. I can still clearly feel loathsome Spell Casters’ Elemental fluctuations. Which team is patrolling nearby?”

A Rock Creature glowing with dim light closed its eyes, and asked the Rock Creature in front of it.

“The nearby patrol is Squad Five. They most likely encountered some Spell Casters but with Squad Five’s strength, they should have already dealt with those Spell Casters by now.”

A tall Rock Creatures replied respectfully.

“Well, let’s go. Those Spell Casters have been becoming more active recently. Although those cowardly Spell Casters don’t dare to come to Tanloan City, we’ll still send out a patrol to be safe!”

“Yes, I’ll arrange it immediately!”

Then, the Rock Creature glowing dimly slowly disappeared...

...

“Fellow Wizards, the small city in front is Tanloan City. However, we can’t approach any further, otherwise, we’ll easily be discovered.”

The Mystic Squad brought Saturn and the others to a place not far from Tanloan City.

The two teams stopped, and Saturn and Rael took a closer look at the defense measures around Tanloan City. Wizard Rael’s expression gradually became solemn as he said, “These Rock Creatures do know some strange tricks. I won’t be able to break such a defensive power in a short amount of time. Saturn, I’ll leave this to you instead.”

Everyone looked nervously at Saturn. If even Saturn had no way of breaching the Tanloan City’s defenses, then coming here was for nothing.

Saturn silently looked at Tanloan City, and hesitated for a moment before saying, “Three tries. It’ll only take three tries, then I’ll be able to break through Tanloan City’s defenses. All of you, prepare yourselves!”

Everyone felt pleased. Saturn then fiercely flew alone to Tanloan City.

Arrot's current expression was rather downcast, and he said to Merlin who was standing beside him, "Merlin, we haven't done anything at all. To be honest, there are not many opportunities for us to make any moves in this team."

Merlin knew that Arrot was referring to how the both of them were just Ninth-level Spell Casters. They would not be able to help much.

However, Merlin laughed as he looked at the distant Tanloan City. "There are twenty thousand Rock Creatures in Tanloan City. Don't worry, we'll definitely have the chance!"

Then, everyone's attention focused on the air. The Elemental fluctuations on Saturn's body were getting more intense!

Chapter 616: Sweep Away II

The quiet Tanloan City was like before. Many Rock Creatures started to merge inside the rock ley lines, slowly absorbing the strength of the rock ley lines, and increasing their power.

This was how Rock Creatures cultivated. In the end, the power of rock ley lines was limited, so they needed to transform the entire dimension from a dimension full of life and vitality into a cold world of rock. As a result, the power of the rock ley lines would increase greatly, and even if the Rock Creatures slowly absorbed them for tens of thousands of years, it would not dry up the strength of a dimension's rock ley line.

In Tanloan City, almost all the Rock Creatures were preparing to draw upon the power of the rock ley lines in the afternoon. That was the time where the strength of the rock ley line was relatively active, and most suitable for Rock Creatures to cultivate.

"Huh? What's that?"

Suddenly, a few Rock Creatures saw a flame rising from the distance, flying toward Tanloan City at an extremely fast speed. Moreover, the closer the fire, the larger it became. It started off looking like the size of a fist but in the end, it seemed to envelop half of Tanloan City.

“Boom.”

The roaring fireball was like a living creature, breathing, absorbing, expanding, and constantly changing. When the fireball hit the protective shroud over Tanloan City, the fireball expanded instantly, and turned into a curtain of flames, crazily attacking Tanloan City.

“Enemy attack!”

“What’s going on?”

Many Rock Creatures looked at the flames in the sky nervously. The protective shroud was constantly changing, like water ripples, getting rid of the fireball’s violent attacks.

“Swoosh.”

Three figures immediately flew out from the main hall of Tanloan City, and stared straight at the sky.

“Rumble.”

Many Rock Creatures were still dazed. This was the second attack. However, after this attack, the ripples stirred up over the eggshell protective shroud over Tanloan City grew more intense, and a faint crack spread.

“Not good, Tanloan City’s defenses won’t hold for much longer. Everyone, get ready. It’s those d*mned Spell Casters!”

The three tall Rock Creatures acting as leaders were all powerful upper rank Rock Creatures. The dim lights on their bodies flashed, and their figures became much larger. Moreover, the dim light on their bodies seemed to be glowing with a golden light that was full of power.

“Those d*mned Spell Casters, how do they have the power to attack Tanloan City?”

The three upper ranked Rock Creatures expressed anxiousness. Two attacks on Tanloan City's defenses were enough for it to form cracks, and almost shattered it. Such a power definitely belonged to a preeminent Spell Caster or perhaps even higher!

"Hmph, we have two hundred thousand Rock Creatures. If necessary, we can use the joint attack technique. We won't let a single one of those vile Spell Casters leave alive.

"That's right, we still have the joint attack technique. Haha, those Spell Casters will run with their tails tucked between their legs when they see our joint attack technique."

The three upper ranked Rock Creatures were full of confidence when they mentioned the "joint attack technique", their eyes flashing with madness.

"Break!"

With a cold voice, another fireball instantly burst out. This time, the impact on the protective shroud over Tanloan City was exceedingly great.

"Crack."

The protective shroud produced cracking sounds, just like an eggshell, and instantly shattered. Rolling heat waves swept down, and a few Rock Creatures were burnt to ashes even though only a little Magic Energy was left.

As the dust settled, a thin figure was seen standing on air, his cold eyes staring at all the Rock Creatures in Tanloan City.

"Haha, it really broke. Wizard Saturn, you're amazing!"

Wizard Rael brought over the remaining Wizards, and immediately flew behind Saturn. Looking down at Tanloan City, they instantly saw the three preeminent upper rank Rock Creatures and the eight peak upper rank Rock Creatures. Behind them were more than twenty upper rank Rock Creatures as well.

With such a large force, it was not surprising that the Spell Caster teams in the Seely Dimension did not dare to provoke them.

“Remember, we’re from Setoh Arcane City!”

Saturn’s eyes directly locked on the three preeminent upper rank Rock Creatures. They immediately felt a dangerous terror.

“How is he so strong?”

The three preeminent upper rank Rock Creatures were shocked but before they could make any moves, Saturn acted first, and a fiery red light flashed on his body. A powerful pressure, seemingly from all directions, suppressed the three preeminent upper rank Rock Creatures.

“Have a taste of a Six-Elemental combined spell!”

Saturn revealed a cold smile from the corners of his mouth. Then, a multicolored light appeared in his hand, flashing with frightening Magic Power fluctuations. It was fused by Six-Elemental spells.

The multicolored light turned into a giant net and blanketed the three preeminent upper rank Rock Tribe. This was a peculiar fused spell used by Great Wizards that could change countless times. It could transform into various forms, making it impossible to defend against effectively.

Furthermore, the more a spell is fused, the more varied the final form of the fused spell. It would also imperceptibly increase the power of Five-Elemental and Six-Elemental Great Wizards.

Saturn obviously had suppressed the three preeminent upper rank Rock Creatures, who were immediately put in a disadvantageous position. Moreover, they were surrounded by perils and were in danger. Their gap from Saturn was too obvious.

As for the eight peak upper rank Rock Creatures, Rael could not help but rush in and trap them all with a spell.

For the remaining twenty or so Rock Creatures, around a dozen were captured by Vic and Seddon. The most powerful forces in Tanloan City were almost completely suppressed by Saturn and four others.

However, there were still a few upper rank Rock Creatures that escaped, and rushed directly toward Arrot and Merlin. Instead of being surprised, Arrot rejoiced and said, “Wizard Merlin, get ready. These are upper rank Rock Creatures, comparable to a regular Great Wizard. Haha, we can finally stop just standing by the sidelines.”

Arrot looked very excited. Two upper rank Rock Creatures broke free from Vic and the others’ binds, and once again moved toward Arrot and Merlin.

Although Wizard Arrot believed that he could go against one upper rank Rock Creature, he immediately felt some pressure since there were three.

“Wizard Merlin, I’ll pin down two upper rank Rock Creatures, and you’ll handle the last one, alright?”

Arrot’s tone was dignified. Although he was also a Ninth-level Spell Caster, he had already combined Three-Elemental Spell Models, and was not an ordinary Ninth-level Spell Caster. He could be considered to be almost a Great Wizard already.

Merlin only smiled, and raised a white palm, revealing a strange blood-red eye in the middle of his palm.

“Darkness Demon Spirit, appear!”

“Hum.”

From the boundless darkness manifested a terrifying and rampaging Darkness Spirit. Crimson light stretched out of the darkness, and it stepped in front of Arrot, and threw a fist.

“Bang.”

The power of the Darkness Demon Spirit was comparable to a peak Great Wizard. Furthermore, it was a strength-type and could compete with the powerful Giant Tribe. Its

strength was no inferior to peak upper rank Giants, much less three ordinary upper rank Rock Creatures.

As a result, it only took one blow from the Darkness Demon Spirit to crush the three upper rank Rock Creatures, leaving scattered debris all over the ground.

“Oh? Wizard Merlin... So, you also have the strength of a peak Great Wizard. You hid it quite well. However, I heard that the sixth form of Darkness Eye carries hidden dangers. You...”

Arrot looked at Merlin with astonishment. He naturally recognized Darkness Eye but he had not expected Merlin to have cultivated Darkness Eye to its sixth form.

However, considering the hidden dangers of Darkness Eye, Arrot was full of worries.

“It’s of no matter. I’ve already resolved Darkness Eye’s hidden danger. The Legend of Darkness can no longer control me!”

Merlin explained succinctly.

However, Arrot revealed a bitter smile. “I thought that in this team, you and I were the weakest, not even reaching Great Wizards. However, I never expected that you’re already comparable to a peak Great Wizard. Amazing. Truly amazing!”

Merlin smiled and said, “You’re not bad yourself. In a while, you’ll combine Four-Elementals spells and become a Great Wizard. With what you’ve accumulated, you’ll become a peak Great Wizard in one shot!”

Then, Merlin controlled the Darkness Demon Spirit, and rushed toward the ordinary Rock Creatures in Tanloan City. With the power gap, each punch from the Darkness Demon Spirit could smash dozens of Rock Creatures. Although the Darkness Demon Spirit was surrounded by countless Rock Creatures, they were of no threat to it at all.

On the contrary, the Darkness Demon Spirit had a great momentum!

“Bang.”

Saturn cast a multicolored spell that trapped one of the preeminent upper rank Rock Creatures. The spell exploded, and immediately, the preeminent upper rank Rock Creature's solid body was blown into numerous tiny pieces of gravel.

A preeminent upper rank Rock Creature had died!

“Anmoloch! D*mn it, you've killed Anmoloch. All you foolish Spell Casters are going to die... Stop hesitating, Rock Creatures, we respectfully request the Progenitor's Body!”

After Saturn had killed a preeminent upper rank Rock Creature, the remaining two finally decided to use their most powerful move.

“We respectfully request the Progenitor's Body!”

In Tanloan City, the remaining ten thousand Rock Creatures that the Darkness Demon Spirit had not killed yet roared out loud together when they heard the cry of the two preeminent upper rank Rock Creatures.

“Boom.”

Countless Rock Creatures began to merge one after another as if a world-shaking power was awakening. Countless Rock Creatures fused together, and soon formed a hundred-meter tall Giant Rock Creature dark as ink.

“The Rock Tribe's joint attack technique. I didn't expect that the Rock Creatures in the Seely Dimension would have been taught such a secret technique. However, so what if you have the Progenitor's Body?”

Looking at the terrifying Giant Rock Creature in the sky, the aura on Saturn's body increased again. The Elements shook violently as they flew to the air, confronting the Progenitor's Body formed by the Rock Creatures.

The two sides were preparing their strongest attack!

Chapter 617: Progenitor's Body!

Merlin's eyes also narrowed slightly as he looked at the tall Progenitor's Body in the distance. The life force of the Progenitor's Body made by more than ten thousand Rock Creatures as well as two preeminent upper rank Rock Creatures violently rose to be comparable to the strongest Spell Casters below Legends.

This was a unique joint attack technique of the Rock Tribe. Generally, only a few in the Rock Tribe knew about it but now, more than ten thousand ordinary Rock Creatures knew as well. It seemed that this was something the Rock Tribe Ancestor prepared for the war with the Spell Caster civilization.

"Wizard Merlin, can Wizard Saturn deal with this big guy?"

Arrot looked at Wizard Saturn in front of the Progenitor's Body with worry. The grandiose life force released by the Progenitor's Body made everyone feel uneasy.

"Saturn is the strongest Wizard below Legend. As for the big guy in this group... Although its life force is comparable to those below Legend, there are too many holes, and many places can't harmonize. It'll be easy for Saturn to deal with the Progenitor's Body in front of him!"

Merlin replied with confidence.

The Progenitor's Body formed by ten thousand Rock Creatures plus two preeminent upper rank Rock Creatures could instantly burst with power comparable to those below Legend. This obviously showed the Rock Creatures' increase in strength.

However, it still could not rival the most powerful being under Legend!

A multicolored light appeared on Saturn's body, completely enveloping him, looking incomparably sacred. The multicolored light contained world-shaking power, and was Saturn's strongest power after combining Six-Elemental spells.

"Six-Elemental Storm, go!"

Saturn's long hair fluttered in the wind. With a loud roar, the multicolored light instantly turned into a shockwave and swelled wildly, almost enveloping the entire Tanloan City in it.

The Progenitor's Body was not to be undone. It raised a heavy arm and launched a punch toward Saturn. In the showdown between one big and one small, it was ten thousand Rock Creatures against Saturn alone.

“Boom!”

The earth-shattering force tore space to shreds, and formed pitch-black passages. Their destructive force had already caught up to Great Legends. After all, both were the strongest beings below Legend.

As the shockwave spread out and dissipated, and the air quietened down again, Saturn's eyes looked very calm. He did not have any intention of making another move, and the corners of his mouth lifted into a smile.

“Crack.”

After a moment, small cracks started appearing on the giant Progenitor's Body. It started from the chest and rapidly spread to the rest of the body like a spiderweb. It was shocking and horrible to see.

“Bang.”

Finally, the Progenitor's Body could no longer sustain itself and collapsed loudly. Countless Rock Creatures were reduced into tiny gravel that almost piled up into a hill.

As for the two preeminent upper rank Rock Creatures, their eyes were full of shock. “The strongest being under Legends... A Spell Caster from Arcane City. Amazing, truly amazing.”

Then, the two preeminent upper rank Rock Creatures could no longer sustain themselves, and instantly shattered into countless pieces on the ground.

Mystic Squad, which had retreated far away long ago, were stunned by the pile of gravel on the ground as well as that imposing figure standing in the air.

“The strongest being under Legend. He’s the strongest being under Legend... Haha, Arcane City. This is the true Potential Wizard in Arcane City! We’ll no longer be in a disadvantage from now on.”

There were three peak Great Wizards among the Spell Casters in Mystic Squad, so they naturally heard of Arcane City before. They only knew that all Potential Wizards in Arcane City were geniuses but no one had any specific knowledge of those “geniuses”.

However, now, Saturn alone had killed more than twenty thousand Rock Creatures, and destroyed the firm Tanloan City. At this moment, the Wizards in Mystic Squad truly realized how frightening Saturn was, and how terrifying Saturn’s team was.

The strongest existence below Legend was almost invincible as long as Legends did not intervene! In their situation, such power was enough to reverse their disadvantage in the front line battles.

At the very least, they would have a very large chance of reversing the situation in the Seely Dimension. They could completely expel the Rock Tribe from the Seely Dimension, and regain the Seely Dimension back into Spell Caster hands.

“Haha, Saturn, if not for you this time, we might really have been in trouble. I couldn’t have dealt with that big guy earlier! Who would have thought that the Rock Tribe would disseminate the joint attack technique? Or perhaps I should say, who would have thought that all the Rock Creatures sent to the front line would have the joint attack technique? That battle would have been very troublesome.”

Rael expressed his concern. In fact, the other Spell Casters also had this concern. The Rock Tribe must have done it, otherwise, the joint attack technique would never end in the hands of twenty thousand ordinary Rock Creatures.

Presently, there was only one explanation. In this war between the Rock Tribe and the Spell Caster civilization, they had been actively plotting and scheming. They had prepared for a very long time, and all their preparations were thorough.

The Rock Tribe only needed five Rock Creatures that could use the joint attack technique to form the Progenitor's Body. The stronger the Rock Creature's individual power, the stronger the Progenitor's Body that was formed. This increase would be large enough to rival Spell Caster's special and powerful Runic Magic Circles.

However, this kind of Runic Magic Circle was rare. It required certain attainments in Runology to be able to master it, and was far more complicated than the Rock Tribe's joint attack technique.

This was especially true for the joint attack technique in a powerful Rock Creature's hands. For example, a Progenitor's Body formed by a few preeminent upper rank Rock Creatures, and was led by a powerful being under Legend could burst with power comparable to Great Legends!

"Haha, Saturn, I'm afraid it'll be hard for our team to find an opponent in the Seely Dimension. Why don't we take advantage of this period to easily sweep the entire Seely Dimension, and completely occupy the Seely Dimension?"

Wizard Rael's eyes flashed as he said loudly.

"My thoughts exactly..."

Saturn glanced at Merlin and then laughed. "I didn't expect Wizard Merlin to have hidden his power so deeply, and cultivated Darkness Eye all the way to its sixth form. However, that's a good thing. Now, we have four peak Great Wizards. If Arrot can combine a Five-Elemental spell, he'll instantly become a peak Great Wizard! Our strength will be enough to sweep the entire Seely Dimension."

Merlin smiled but remained silent. In a cruel civilization war, it was always better to hide power than reveal it. Darkness Eye used to be considered as Merlin's strongest power. However, following his breakthrough in Mind Power, his Hallucinating Spells had also made great progress. In addition, his Spell Caster level had risen to the Ninth-level so Darkness Eye had become his weakest power instead.

Therefore, Merlin could continue to hide his strength by using Darkness Eye. There really was no force that could hinder Saturn in the Seely Dimension, so it was not necessary for Merlin to reveal his power.

“Sweep the entire Seely Dimension?”

Mystic Squad’s eyes also revealed a pleasant surprise. Before they arrived at Tanloan City, they still did not believe Saturn’s words. However, after personally seeing Saturn and the others’ terrifying power, they no longer had any concerns.

“Wizard Saturn, let our Mystic Squad come along with you. Our understanding of the Seely Dimension is clearer than yours. We know of some powerful Rock Tribe strongholds.”

Wizard Beyna from Mystic Squad pleaded earnestly.

“We also need your help. Otherwise, we don’t know how many pointless trips we’ll take in such a large Seely Dimension.”

Saturn also did not refuse. With Mystic Squad leading the way, they could sweep all Rock Tribe strongholds in the Seely Dimension in the shortest time possible.

Thus, days passed one after another, and a month passed in the blink of an eye.

The Seely Dimension was huge, and the Rock Tribe had made thorough preparations. Therefore, even with the most conservative estimate, there were at least twenty strongholds in the Seely Dimension.

Each stronghold was extremely powerful or perhaps even stronger than Tanloan City. However, under Mystic Team’s lead, Saturn and the others destroyed one stronghold almost every few days. So far, eleven strongholds had been annihilated.

These strongholds were very difficult to deal with. There were six preeminent upper rank Rock Creatures, and more than fifty thousand ordinary Rock Creatures. Perhaps because the news had been leaked out, the Rock Creatures in these strongholds had long been ready. They left Saturn and the others without the chance to launch a sneak attack hence they could only forcefully fight it head-on.

That battle had lasted for three days. Saturn had fought the Progenitor’s Body formed by the Rock Creatures in that stronghold for more than two days before finally catching an opening, and completely defeating the Progenitor’s Body.

That battle let Saturn and the others put away their contempt, and grow unusually careful. Even their speed had slowed a lot, they still went to weed out the Rock Tribe's strongholds one after another. In the Seely Dimension, most places had fallen into the hands of the Spell Casters.

Furthermore, because Saturn's Six-Elemental spell fusion formed multiple colors, the group Saturn had led began to be known as the Rainbow Squad. The name caused a huge sensation among the Rock Tribe and Spell Caster civilization in the Seely Dimension.

This was especially true for the Spell Caster civilization. After discovering that the Rainbow Squad were the first batch of Potential Wizards from Setoh Arcane City, the Spell Casters' morale soared, and they began to take the initiative to enter the Seely Dimension to press hard against the Rock Tribe.

It was unknown if it was because of the advantages of the Seely Dimension or due to the strength of the Potential Wizards from Arcane City, after they had arrived at the front line, the situation in dimensions in the front line except for the Seely Dimension all began to reverse. The Spell Casters switched from defending to attacking, and the general circumstances were all very good.

However, this was only the arrival of Potential Wizards from one of the Arcane Cities, Setoh Arcane City. There were still two great Arcane Cities that had not sent any Potential Wizards.

This directly showed that the legacy of Spell Caster civilization from three thousand years ago was also extraordinary to compare with the legacy of foreign tribes from tens of thousands or even hundreds of thousands of years ago.

...

In a palace floating in the air, one of the great Rock Progenitors, praised at the first, and known as Progenitor Hanra, sat in the palace and watched the situation on the front line closely.

Soon, a tall Rock Creature wearing golden armor entered the palace respectfully. He knelt on the ground and shouted, "Great Progenitor, what are your orders?"

Seeing the golden-armored Rock Creature on the round, Progenitor Hanra slowly said, “Eli, how’s your Progenitor Squad?”

“Honorable Progenitor, the Progenitor Squad has been successfully formed. It’s led by me personally in addition to six preeminent upper rank Rock Creatures. Once the Progenitor’s true body is formed, it can rival a true Ancestor-level!”

The golden-armored Rock Creature replied respectfully.

Progenitor Hanra’s mouth revealed a smile as he nodded with satisfaction. “Good, we’ve prepared for such a long time so we mustn’t fall short at the beginning! I have a mutual agreement with Setoh not to let Legends get involved, and let beings like you under Ancestor-level to try instead. If we can occupy or control the Seely Dimension, then even if the war expands in the future, it wouldn’t matter as we’d certainly be able to have the advantage!

“Recently, the Spell Caster civilization had mobilized Potential Wizards from an Arcane City. Arcane City is known as a sacred place for the Spell Caster civilization. All the Spell Casters there are geniuses among geniuses. The leader of the Rainbow Squad who had appeared in the Seely Dimension should be similar to you. You’re both the strongest beings under Ancestor-level. You can’t deal with him alone. This time, take your Progenitor Squad with you to the Seely Dimension, kill the Rainbow Squad, and completely regain the initiative!”

The golden-armored Rock Creature fiercely raised his head and shouted, “Don’t worry, Great Progenitor, my Progenitor Squad will annihilate the Rainbow Squad and regain control over the Seely Dimension!”

“Good, then go prepare. The quicker, the better!”

Progenitor Hanra waved his hand, and the golden-armored Rock Creature silently withdrew.

“Rainbow Squad? I’ll make you a stepping stone for my Progenitor Squad’s fame. The Progenitor Squad will make you, cowardly Spell Casters, tremble in fear...”

The golden-armored Rock Creature looked at the azure sky outside the palace, and a gleam of excitement flashed in his narrow eyes.

Chapter 618: Crisis I

“Blackfire, it’s been such a long time since my Setoh Arcane City disciples left for the front line but you haven’t asked about your disciple Merlin at all.”

In a resplendent palace, white-robed Arcane Wizard Setoh chatted like an old man with the Blackfire Lord about “daily family affairs”.

“Meow, old fart, how’s Merlin?”

As if it heard the word “Merlin”, the black cat Didimoss immediately opened its eyes with excitement. Now, Didimoss had become a real fat cat. It was almost bigger than a dog, and looked quite amusing. However, from its size, it could be seen that Didimoss spent its days quite well. It had devoured some powerful foreign tribes.

Arcane Wizard Setoh did not care about the black cat’s “disrespectful” address. Instead, he gently grabbed the black cat Didimoss, and stroke its smooth fur. He said slowly, “Didimoss, you haven’t forgotten your old friend. Very good, your friend Wizard Merlin is very safe. He formed a very impressive team with Saturn and the others, and caused a storm in the Seely Dimension. They’re almost reversing the situation in the Seely Dimension, and giving our Spell Casters the upper hand...”

Arcane Wizard Setoh spoke to both the black cat Didimoss as well as the Blackfire Lord.

“Hm? Hanra finally made his move. Blackfire, your disciple might be in trouble!”

Arcane Wizard Setoh seemed to have sensed something as his expression slowly darkened.

“Whoosh.”

The Blackfire Lord whipped his head up and said, “The Rock Tribe is preparing for a decisive battle?”

“Decisive battle? No, they haven’t prepared for that, and neither have we. Hanra will not be that hasty. However, Merlin’s squad has caused too much disturbance in the Seely Dimension which resulted in a huge impact. Hanra won’t let something like that go. Earlier, he had sent his secret squad, the Progenitor Squad, out of their hideout. They’re heading toward the Seely Dimension.”

“The Progenitor Squad? That’s somewhat troubling. This team was specially set up by Hanra and has great strength. It’s not something that any of our current squads can contend against. Why don’t you send a Legend over? Since Hanra is so unscrupulous, we don’t have to be courteous anymore.”

A hint of anger seeped into the Blackfire Lord’s tone.

“Let me go then, old fart. I’ll eat up that whatever Progenitor Squad!”

The black cat Didimoss quickly perked up, and said “fiercely”.

Arcane Wizard Setoh shook his head lightly and said, “Didimoss, you can’t be exposed yet. While you’re here, no one will know your existence but the moment you’re exposed, I’m afraid that old coot Hanra will kill you at all costs. Your potential is limitless. I won’t let you leave until there’s something to protect you.”

After a pause, Arcane Wizard Setoh continued. “Blackfire, the situation between the Rock Tribe and us is on the verge of exploding but Hanra is still holding back. We have no plans to involve Legends yet. Once they’re involved, I’m afraid it’ll really become a civilization war. At that time, it’ll be beyond Hanra’s and my control... That’s why we can’t send out Legends. Hanra has the Progenitor Squad but don’t we have something as well?”

“Oh? Setoh, you’ve already prepared for this?”

The Blackfire Lord raised his head, his face expressing doubt. He had always been at the front line but he did not see any particularly powerful squad.

“Bolt, come in.”

Arcane Wizard Setoh suddenly shouted at the door.

“Creak.”

The huge palace doors opened, and a handsome and extremely young Spell Caster wearing pale blue Wizard robes walked in. However, there was a peculiar life force around him. Runes revolved around his body constantly.

“A preeminent Great Wizard? No, it should be the strongest being below Legend!”

The Blackfire Lord said with certainty after carefully sensing the mysterious Wizard.

“That’s right. Bolt is a Six-Elemental Spell Caster. A few decades ago when I was overseeing the Seely Dimension, I found him and told him to look for some extremely gifted Spell Casters, especially those gifted in Runology. Thereafter, I spent a few decades devoting myself to the study of Runic Magic Circles. Finally, on the foundation of multilayer Runic Magic Circles, I’ve improved an even more powerful multilayer Runic Magic Circle and let Bolt and the others learn. Bolt, how is the Mille Squad’s practice going?”

Arcane Wizard Setoh asked calmly.

The Blackfire Lord’s eyes narrowed slightly, constantly looking at Bolt. An Ultimate Arcane Wizard seemed to be proficient in everything about Spell Casters. Even if Arcane Wizard Setoh was not an expert in Runology, if he had a few decades to specially study Runic Magic Circles, it would be very frightening as well.

It turns out that Arcane Wizard Setoh had already started making preparations decades ago.

Multilayer Runic Magic Circles itself could multiply a Spell Caster’s power. However, a Spell Caster had to have extremely high attainments in Runology. If a Spell Caster did not profoundly study Runology, it was impossible to use a multilayer Runic Magic Circle.

The blue-robed Wizard Bolt respectfully answered, “Great Arcane Wizard Setoh, as per your instructions, I’ve found several Spell Casters with extremely high Runology attainments. They’re all preeminent Great Wizards and have been practicing the multilayer Runic Magic Circle that you gave us for a long time. According to our previous demonstrations, with one strongest being below Legend, he just needs another four preeminent Great Wizards

proficient in Runology to deploy a multilayer Runic Magic Circle, and release the power of a Great Legend!”

“Oh, only five Spell Casters are needed. Not bad, Bolt. Not bad at all. You’ve practiced for a long time. Now’s the time for you to show your abilities.”

Arcane Wizard Setoh’s tone gradually became solemn.

However, Bolt became excited, and quickly said, “Please give us your instructions, Arcane Wizard Setoh!”

“The Rock Tribe has a Progenitor Squad that’s currently heading toward the Seely Dimension for one of our powerful squads. Your task is to stop the Progenitor Squad. If condition permits, it’s best to defeat the Progenitor Squad!”

“Please be rest assured, Arcane Wizard Setoh. We’ll definitely do our best to stop the Progenitor Squad!”

Saying that, Bolt stood up excitedly, and quickly left the hall.

The Blackfire Lord looked at Bolt’s leaving figure, and said thoughtfully, “If there were more Wizards like Bolt, we would’ve got the advantage even without Legends interfering.”

“More? Blackfire, how many can you find in the entire Spell Caster civilization who are proficient in Runology and become a Great Wizard, particularly preeminent Great Wizards?”

Arcane Wizard Setoh also looked helpless. Runology involved a large amount of energy, and Spell Casters would generally focus their energy on constructing spells. Thus, there was no or little energy to study Runology.

Spell Casters like that were truly difficult to find. That was why even after looking for so long, only a few of such teams were formed. Bolt was the only one below Legend who was proficient in runes.

...

In the dark and gloomy Void Zone, a special group of Rock Creatures silently flew into the Seely Dimension.

“Whoosh.”

This special squad of Rock Creatures stood mid-air in the Seely Dimension.

“What a familiar feeling... This really isn’t any different from our hometown. The Seely Dimension has already been transformed and should be a dimension belonging to our Rock Tribe. Those Spell Casters should all scram! Do you know our target, the Progenitor Squad?”

The Rock Creature taking the lead stared at the other six Rock Creatures with cold eyes.

“Captain Eli, we know. We’re here to kill the Rainbow Squad.”

Eli nodded. “Yes, it’s that hateful Rainbow Squad. The Progenitor had sent us here with high hopes for us, so we mustn’t fail. The Spell Casters would already know our situation. Our movements won’t be hidden from them. However, I have a way to distract them. Each of you, take out a small piece of your Heart Core.

“Ah? Captain, the Heart Core is our foundation. Once damaged, it’ll have a huge impact on us...”

Hearing Eli telling them to take out a piece of their Heart Core, the other six Rock Creatures turned pale, slightly unwilling.

“Hmph, take out a little of the Heart Core to transform them into us. That’ll be enough to confuse those Spell Casters! Remember, this time, our task can only succeed. I cannot fail. What’s losing just a little of your Heart Core? When we go back, we’ll naturally get a reward. Our Heart Cores will soon be replenished!”

Saying that, Eli formed a pitch-black piece of rock the size of a fist, emitting intense life force. A black light flashed on his hand and gradually, the stone quickly melted, and began to take shape.

Before long, the cold stone became another “Eli”. Even its life force was the same, making it impossible to distinguish between the two.

It was made from a Rock Creature’s Heart Core, and was no different from the Rock Creature itself. The only difference was that Rock Creatures formed by such a little Heart Core was extremely weak.

Seeing that Captain Eli had already done it, the other six Rock Creatures could only grit their teeth, and take out a small portion of their Heart Cores, which then transformed to their appearance.

Before long, another “Progenitor Squad” appeared.

“Very good. Now, we’ll go in two directions. The Heart Cores will make some noise to attract the Spell Caster squads. Hehe, we’ll attack the Rainbow Squad first. If the other party still finds us, we’ll fight a good fight with them but before that, we still have to ensure that we complete the task the Progenitor gave us!”

Captain Eli slightly narrowed his eyes, having full confidence in this plan.

Then, the two identical “Progenitor Squads” split into two directions and flew deeper into the Seely Dimension...

Chapter 619: Crisis II

Another unfamiliar Spell Caster squad was soon welcomed in the Seely Dimension.

Ever since the Rainbow Squad had rapidly eliminated Rock Tribe strongholds in the Seely Dimension with irresistible force, more and more Spell Caster squads have entered the Seely Dimension. However, this squad seemed to be slightly different, only having five members. Nevertheless, the Elemental fluctuations on each of their bodies were very strong, and their bodies were protected by runes.

There were many squads that could use Runic Magic Circles but few Spell Casters could use it so skillfully to protect themselves constantly.

This squad was led by a young man in a pale blue Wizard robe, who had a confident look in his sharp eyes.

“Captain, the Progenitor Squad had arrived at the Seely Dimension before us. We should quickly find the Rainbow Squad. I believe the Progenitor Squad will definitely come, so that saves us the trouble of looking for them everywhere.”

A beautiful female Wizard said coldly. She was also the only female Wizard among the five Spell Casters.

“That’s true but it’ll cause too much delay. Besides saving the Rainbow Squad, we also have to defeat the Progenitor Squad.”

This squad was the Mille Squad led by Wizard Bolt was sent by Arcane Wizard Setoh. The five were all proficient in Runology, and were also preeminent Great Wizards.

“What then? We don’t know the whereabouts of the Progenitor Squad... Oh, wait, there seems to be something.”

The beautiful female Wizard was suddenly startled, and waved her hand. A mirror emerged, covered in numerous runes.

“Whoosh.”

When the female Wizard poured her Magic Power into the “mirror”, a dazzling white light flashed, and several figures vaguely appeared inside. It seemed to be a Rock Creature squad.

“Wizard Bolt, I just felt a very intense Rock Creature life force. It’s very strong, far exceeding regular Rock Creature squads. One of the life forces seems to be similar to yours, both strongest existences below Legends. I’m afraid that’s the Progenitor Squad!”

The female Wizard said solemnly.

“The Progenitor Squad? Would they really release their life force with such fanfare? Is it a problem?”

Another Spell Caster also raised an objection. The Progenitor Squad is here to deal with the Rainbow Squad. According to common sense, they won't be this aggressive but would hide their life force, and act quietly instead.

Bolt hesitated for a moment before a smile slowly appeared on his lips. “The Progenitor Squad believes that they have Ancestor-level power. They think there's no one in the Seely Dimension who can contend with them, and so it doesn't matter if they show off so ostentatiously. Alright, there's no need to argue anymore. Whether or not they're scheming, won't everything be clear as soon as we find the Progenitor Squad?”

Bolt also had absolute confidence in the Mille Squad's power. No matter what scheme there was, they would crush it with absolute strength.

“Find out where they are. We'll set off immediately!”

Bolt had made a decision, so the Mille Squad quickly sensed the position of the Progenitor Squad, and quickly chased after them.

...

“We've removed so many strongholds along the way. Look, this stronghold is empty. The Rock Creatures have already withdrawn.”

Arrot pointed at a small city in front of him. Inside, he could still see traces of the Rock Creatures living here but now it was deserted, and all the Rock Creatures had moved away.

This was also the influence caused by Saturn's “Rainbow Squad”. Some Rock Creatures felt that they could not resist, so they simply withdrew first. This was also a good thing as it saved them some time.

“There are still several strongholds ahead, all of which have been removed. The entire Seely Dimension is in our hands. I hope they'll all leave quickly.”

Saturn smiled. It had been a long time since they had arrived in the Seely Dimension. At first, they were nameless and unknown, but now, their fame alone was enough to make the Rock Creatures voluntarily withdraw from their strongholds. They had achieved their goals.

“There should still be some strongholds ahead but I feel that something’s off. We should be careful!”

Arrot said cautiously.

“Yes, I feel the same. The Rock Tribe can’t be indifferent to how aggressive we are in removing their strongholds in the Seely Dimension. However, so far, no powerful Rock Creatures have appeared, and they even voluntarily withdrew from their strongholds. There’s something off indeed.”

Wizard Vic and the others also nodded, feeling that there was something wrong recently.

Saturn was not blind either. He knew that there definitely was a being comparable to him in the Rock Tribe, so he nodded and said, “Since everyone thinks there’s a problem, then be careful. It’ll be best if...”

Before he had finished speaking, Saturn suddenly stopped, his eyes staring intently at the small city which was still empty moments earlier.

In the small city, seven strange Rock Creatures slowly emerged. The golden-armored Rock Creature in the lead even looked at Saturn, and smiled relaxedly. “You’re finally here. We’ve been waiting for you for a few days now...”

“Rock Creatures!”

Saturn and the others immediately became on alert.

...

“Found them. The Progenitor Squad is just ahead!”

The beautiful female Wizard of the Mille Squad was pleased. They had been chasing after the Progenitor Squad for several days, and had finally caught up to it.

“Whoosh.”

Bolt took the lead and flew over. In the air, he saw the Progenitor Squad in front of him, and laughed loudly. “Haha, Progenitor Squad, come. Let’s see just how strong your joint attack technique is. Arrange the Runic Magic Circle!”

With Bolt’s shout, dense runes immediately flew out from the four other Spell Casters’ bodies. It shrouded the five Wizards with Bolt in the middle of the Runic Magic Circle.

Suddenly, a humanoid figure gradually appeared behind Bolt. This was the power of those five Wizards seemingly overlapping on Bolt’s body, causing him to burst with a power that was comparable to a Great Legend.

“Very good. What a powerful feeling!”

Bolt raised a finger, and a flame slowly grew larger, instantly engulfing half the sky like a firestorm, surrounding the Progenitor Squad like a raging inferno.

“Crack.”

To the surprise of the Spell Casters of the Mille Squad, the Progenitor Squad they regarded as powerful enemies were easily trapped and burned to ashes. Their life force rapidly weakened, and finally even disappeared.

“They’re dead?”

Everyone looked at each other, some even in disbelief.

“Whoosh.”

Bolt stopped the spell but his expression changed when he saw the charred and scattered pieces of rock on the ground.

“Oh no, we were fooled. These are Rock Creatures’ Heart Cores! D*mn it, they must’ve gone to kill the Rainbow Squad. Hurry, we must rush to the Rainbow Squad as soon as possible!”

The Spell Casters of the Mille Squad immediately realized that they had been fooled. They were made into fools by the Progenitor Squad using their Heart Cores. In their confrontation, the Mille Squad had already lost once.

“Please be alright. The Rainbow Squad has a Wizard who’s strongest under Legend. You must hold on for a moment longer...”

Bolt deeply blamed himself in his heart. He could only hope that the Rainbow Squad could hold on for a moment. Otherwise, his task of saving the Rainbow Squad would fail.

As if they all thought about the consequences of failing their mission, the Mille Squad Spell Casters frantically flew in the opposite direction.

...

“Oh? Captain, the Heart Cores have been destroyed. We should hurry.”

The Rock Creatures in the Progenitor Squad were aware that their Heart Cores had been destroyed. They all knew that at that very moment, there was a powerful Spell Caster team rushing here after realizing that they had been fooled. The Rock Creatures’ time was running out.

“They only realized they were fooled now? It doesn’t matter. We have time. Let’s go!”

The Progenitor Squad Rock Creatures let out roars one after another. Their bodies emitted dim light, and they started to slowly merge together, gradually forming a colossal Progenitor’s Body.

However, the Progenitor’s Body this time was much more powerful than any other Progenitor’s Bodies Saturn and the others had seen so far.

“Legend! We’re in trouble...”

Saturn muttered in a low voice, feeling that this Progenitor’s Body was unusual. An uncertain expression appeared on his face for the first time.

Chapter 620: Wizard Heart

“Quick, quick. We must hurry!”

Sitting in a fast traveling flying ship, Bolt was still anxious. He did not expect that they would be fooled by the Progenitor Squad. The consequences were disastrous, and were likely to lead to the Rainbow Squad’s complete annihilation!

The Rainbow Squad was not what it used to be. They were no longer unknown but possessed a huge influence in the Seely Dimension or even the entire front line. They were crucial to the Spell Caster civilization in regaining the flow in the front line.

The Rainbow Squad’s downfall would be a great psychological blow to all Spell Caster squads in the front line. Furthermore, they would have to bear the wrath of the Great Arcane Wizards.

“No, we have to report to the Arcane Wizards.”

Seeing how they were still a distance away from the Rainbow Squad, Bolt guessed that the Rainbow Squad was now in jeopardy. At this time, he had to report the situation to the Arcane Wizards as soon as possible.

Thus, Bolt took out a communication tool given by the Arcane Wizards, and gently input his Magic Power. Before long, Arcane Wizard Setoh’s apparition appeared in front of Bolt.”

“Bolt, how is it?”

Arcane Wizard Setoh asked calmly.

Bolt knelt on one knee on the ground, and said solemnly, “Great Arcane Wizard Setoh, we fell into the Progenitor Squad’s trap. They used their Heart Cores to form a squad to lure us away. By this time, they should have already intercepted the Rainbow Squad!”

Arcane Wizard Setoh’s face turned grave. Then, the apparition collapsed without saying a word.

However, this made the Mille Squad even more nervous. A trace of frenzy appeared on Bolt’s face and he shouted, “Quick, I don’t care what it takes. We have to reach the Rainbow Squad!”

In the resplendent and magnificent palace, Arcane Wizard Setoh’s face was grim. He looked at the Blackfire Lord, and seemed to hesitate.

“Setoh, what happened?”

The Blackfire Lord asked slowly. Only the Blackfire Lord could speak this way to Setoh. They were both disciples from the same teacher, growing older and stronger together. It was just that the Blackfire Lord was much more inferior than Setoh, so he could not reach Arcane!

Arcane Wizard Setoh said lowly, “There’s some trouble. Bolt’s squad was fooled by the Progenitor Squad. Currently, I’m afraid the Progenitor Squad has already obstructed the Rainbow Squad.”

“What?”

A terrifying force flashed on the Blackfire Lord’s body. Then, he clenched his fists tightly, unable to flare up.

“Meow.”

The black cat Didimoss also woke up and hurriedly said, “Old fart, you need to save Merlin!”

To Didimoss, the deaths of anyone else in the Rainbow Squad had nothing to do with it, but Merlin could not die.

Arcane Wizard Setoh hesitated for a long moment. Although the Rainbow Squad had a place in his mind, it could not compare to Merlin, who was related to both the black cat Didimoss as well as the Blackfire Lord.

After consideration, Arcane Wizard Setoh said gravely, "I'll go take a look. If there's danger, I'll help them in secret."

Then, Arcane Wizard Setoh's huge consciousness directly enveloped the entire Seely Dimension.

However, just as Arcane Wizard Setoh was looking for the Rainbow Squad in the Seely Dimension, he encountered another large consciousness.

"Haha, Setoh, are you preparing to act personally so quickly? If either of us acts, tens or even hundreds of these dimensions won't be able to handle it."

This consciousness was Progenitor Hanra, who was guarding the Rock Creatures on the front line. He was a powerful being comparable to Ultimate Arcane Wizards.

"Hanra! Are you trying to stop me?"

"Of course, I am. Just let those children fight it out for now. We won't join in. If you interfere, then I won't be polite anymore!"

Two beings the level of Arcane Wizards opposed each other equally, their consciousnesses confronting each other virtually in the Seely Dimension. Even if it was just their consciousnesses, it could still stir up a terrifying storm in the Seely Dimension.

If it lasted for a long time, then even the Seely Dimension would be destroyed!

This was the horror of Ultimate Arcane Wizards. The moment they start, tens or even hundreds of dimensions would easily be destroyed. Therefore, as long as a civilization war

had not reached the final juncture, Arcane Wizards would never act because once they did, both sides would definitely suffer. It would be more harm than good.

“Hmph!”

Arcane Wizard Setoh ignored Progenitor Hanra but the other party’s consciousness continued to follow him around, constantly interfering with Arcane Wizard Setoh. Arcane Wizard Setoh was also quite fearful.

After all, even during the most intense civilization wars, Arcane Wizards had never taken part in them. They would not act until civilizations were completely destroyed. Once they took part, it did not matter how many Legends or Spell Casters there were as they would all be useless.

There were once two large foreign civilizations that started a civilization war. Although one of the civilizations only had a single being comparable to an Arcane Wizard while the other had four. In the end, the civilization that had four beings like Arcane Wizard did not spare even a single dimension. Three Arcane Wizards were even heavily injured, and from then on, that powerful civilization was thoroughly weakened.

When Arcane Wizards went all out, it would be extremely terrifying. That was why Arcane Wizards would never interfere in battles unless absolutely necessary.

Arcane Wizard Setoh had some fears, and did not dare to interfere. However, he very quickly found the Rainbow Squad, and as expected, they had already encountered the Progenitor Squad. The situation was critical.

“I found the Rainbow Squad but the Rock Tribe’s Progenitor Hanra keeps following me. I can’t interfere, otherwise, the consequences will be unpredictable. Take a look.”

Arcane Wizard Setoh waved his hand, and an image appeared in the air. It showed the situation between the Rainbow Squad and the Progenitor Squad.

“Merlin. It’s Merlin!”

The black cat Didimoss could not help but cry out loudly. However, it was only a projection, and they were too far apart. Merlin could not hear the black cat Didimoss’ call anyway.

“All we can do now is wait. I’ll urge the Mille Squad to rush over with any means possible. I hope the Rainbow Squad can hang in there.”

Arcane Wizard Setoh also said helplessly. He could not risk starting a war with Progenitor Hanra for Merlin alone or even for the entire Rainbow Squad.

...

Saturn’s body emitted multicolored light as the Elemental fluctuation reached its pinnacle. It was obvious that Saturn was going all out.

However, that Progenitor’s Body’s humongous palm was like a dark cloud. Without any techniques, it viciously slammed down.

“Bang.”

Saturn’s multicolored spell contained terrifying power but under this palm, it could not exert any strength at all or possibly, it was easily resisted by the Progenitor’s Body’s hand.

Furthermore, it directly slapped Saturn away, and the defenses that covered every inch of his body was shattered. He suffered a serious injury immediately.

“How... How could this be?”

Rael and the others glanced at each other. They thoroughly knew Saturn’s strength. He was the strongest being below Legends. They had encountered many Progenitor’s Bodies in the past but even if the battle was difficult, it always ended up with his victory. Besides a Legend, who could beat Saturn so easily and severely?

“A Legend. This is a Progenitor’s Body comparable to a Legend!”

Saturn stood up again. Although he was heavily wounded, to Spell Casters, as long as the Spell Models inside their bodies did not crumble, it would not be serious.

“Comparable to a Legend? How are we supposed to resist?”

At this moment, the Rainbow Squad that was proceeding favorably seemed to encounter a dilemma.

Run? Looking at that terrifying Progenitor’s Body, no one would believe that they would be able to escape. Their only option was to stand and fight.

“The Progenitor’s Body isn’t truly a Legend. They were assembled, so there must be a weakness.”

Saturn glared at the huge Progenitor’s Body. He knew clearly that there had to be a weakness, and it was impossible for it to truly match a Great Legend. However, even if there was a weakness, it was not something they could deal with.

They had to stand and fight. Perhaps besides him, everyone else would end up dying. Even he might not be able to hold on for long.

“Puny Spell Casters. What will you do in the face of death? We’re all very interested, haha...”

The large voice boomed in their ears.

At the same time, the Progenitor’s Body’s hands clenched, and the entire land seemed to tremble. The Progenitor’s Body was comparable to an Ancestor-level Rock Creature, and an Ancestor-level Rock Creature could mobilize rock ley lines to a certain extent.

This was also something unique to Ancestor-level Rock Creatures. Battling with Ancestor-level Rock Creatures in a dimension that had been transformed, even Great Legends would be greatly disadvantaged.

“Rumble.”

The earth shook, and the rock ley lines mobilized, transforming into Giants, surrounding the Rainbow Squad and the Progenitor Squad. They used the entire ley line to trap the Rainbow Squad.

“We can’t run even if we want to now... They’ve cut off all our escape routes. In that case, we can only do one thing. Fight!”

Trying to break the ley line blockade would not take a short amount of time. The Rainbow Squad had been completely surrounded, and was now turtles in a jar.

The huge Progenitor’s Body raised its hands, which whistled as it slammed down. That terrifying momentum fell from the air, causing people to feel suffocated.

Everyone felt despair. Before such absolute power, what was the point of determination?

“Rael, we’re both preeminent Great Wizards. Only if both our Models explode, perhaps we’ll be able to harm the Progenitor’s Body!”

Saturn became calm, and looked at Rael.

Rael shivered but seeing the frightening palm in the air, he smiled serenely and said, “Saturn, when both of us came to the front line, weren’t we already prepared to die?”

“Hum hum.”

Saturn and Rael grinned at each other. Immediately, intense Elemental fluctuations appeared on their bodies, and a heart-like multicolored Model emerged.

This was the foundation of all Great Wizards. When Spell Models were combined, it would form a multicolored Model, also known as Wizard Heart!
