

## W. Secret 871

### Chapter 871: Departure II

Finally, the Glory Alliance was established. Thus, Merlin retrieved some information regarding the different levels of ultimate existences which he had obtained from the Light Guardians as well as some of their personal experiences.

This was precious information that many of the ultimate existences could only dream of obtaining. Merlin shared the information with every ultimate existence in the Glory Alliance. Therefore, even those who were slightly disgruntled were appeased by this lode of information. This was definitely worth the price they had to pay.

Once the Glory Alliance was stable, Merlin moved the Glorious Land and placed it next to Glory City. Among them, the Wilson clan was placed in Glory City. It was at this point that the Great Wizards from the Glorious Land realize how inadequate they had been before. Compared to the rest of the Spell Caster civilization, the entire Glorious Land was not even worth a mention.

What astonished them most was Merlin. Surprisingly, he was already comparable to an ultimate existence and stood at the pinnacle of the Spell Caster civilization!

Currently standing in front of the Glory Tower in Glory City, facing Merlin, was a Great Wizard dressed in a sacred golden armor and a crown. He was Bhutto XVII of the Kingdom of Blackmoon.

However, Bhutto XVII was looking grim. Ever since Merlin had relocated the Glorious Land and removed the seal over it, the Great Wizards from the Glorious Land had gradually departed from the Glorious Land to mingle with the outside world. They had realized how insignificant they were, not even the level of a Legend.

The same was true for Bhutto XVII. He was a Great Wizard in his own right, and by his brazen conquests, managed to lead the Kingdom of Blackmoon to such heights. This achievement was his life work.

“Your Majesty, what are your plans for the future?”

Merlin still used the same honorific as the past, which Bhutto XVII was extremely grateful. By now, he knew that Merlin's status was at the pinnacle of the entire Spell Caster civilization. Not only did Merlin controlled a dimension but he had also founded the Mind Power system. Merlin's achievements were far beyond the grasps of a king like him.

"Glory Lord, now that the Glorious Land has been unsealed, I finally saw the outside world. I now know that the glory of the Spell Casters had never faded but became even more dazzling than before. I've done what I can for the Glorious Land. This vast world is a challenge for me. I'll leave the Glorious Land and explore the outside world, just like what the Glory Lord did before. I'll leave as a Great Wizard and come back as a Great Legendary Wizard!"

Bhutto XVII did not falter. Once the Glorious Land was unsealed, his position as a king no longer held any significance. Hence, he quickly passed the throne to his successor, and prepared to leave the Glorious Land.

Moreover, ever since Merlin became the Glory Lord and seized control over Glory City, many of his past adventures had gradually come to light, such as his fearless exploration of numerous dangerous places while still being a Great Wizard. This became the inspiration for many other Spell Casters and Mind Power Masters. As a result, several people had followed in Merlin's footsteps and embarked on their exploration ahead of time. Bhutto XVII also wanted to do so.

"That's good, you should indeed explore and gain some experiences. Perhaps, you'll encounter a stroke of luck that helps you consolidate a Maxim and become a Legend! No matter what, you and I are close acquaintances. Here, this is a puppet that you can control. Its ability is comparable to a Legendary Wizard. However, don't abuse it. At critical moments, it can save your life. I'm also giving you the cultivation method of the complete Mind Power system. If you ultimately fail to consolidate a Maxim, you might want to consider cultivating the Mind Power system."

Merlin immediately retrieved a Legend-level puppet and transferred its control over to Bhutto XVII, and also passed the complete teaching of the Mind Power system to him.

The most precious gift was the Mind Power system. This was because only a precious few could receive personal instruction from Merlin regarding the Mind Power system.

Bhutto XVII was very grateful. He knew that it was because he kept his promise and took care of the Wilson clan. As a result, this highly respected Glory Lord, Merlin, gave him so much help.

Following that, Bhutto XVII left. However, there were still a lot of things Merlin had to prepare before leaving the Spell Caster civilization. The most important issue was the safety of the Spell Caster civilization.

At present, the Spell Caster civilization was indeed thriving but there were only two ultimate existences – Augustus and Ceci. Once Merlin had left, the Spell Caster civilization would return to its original state, and was weaker than before.

The growth period of the Spell Caster civilization was simply too short. It was extremely difficult to give birth to a new ultimate existence, and certainly not within a short period.

Therefore, Merlin must leave behind some trump cards for the Spell Caster civilization, so that if they encounter any danger, they would be able to overcome it.

After long consideration, Merlin carefully compartmentalized all his abilities, and decided to leave behind the Slothful Beast. If the Slothful Beast remained in the Spell Caster civilization, it would deter many ultimate existences.

However, the old Maxim avatar would not be able to control the Slothful Beast, so Merlin first had to enhance his Maxim avatar.

The only way to do that was to give a portion of the Illusory World to his Maxim avatar. It was unrealistic to expect a Maxim avatar to consolidate his own Illusory World.

Merlin's approach was to detach a portion of his Illusory World. Not too much, just enough to control the Slothful Beast. This was a self-inflicted handicap. Detaching just a tiny portion of the Illusory World, even the tiniest speck, would have a great impact on the progress of Merlin's Illusory World.

Nevertheless, this was still the best approach. Otherwise, Merlin would not be truly assured when he left the Spell Caster civilization.

Thus, Merlin recalled his Maxim avatar and began to detach a small portion of the Illusory World. Then, he began to merge it with the Maxim avatar.

Since Merlin's Maxim avatar originated from his own body, although just a little bit less powerful, and the Illusory World was also detached from himself, there were no problems merging a small portion of the Illusory World to his Maxim avatar. Very soon, the merging was a success.

"Try it and see."

Merlin said to his Maxim avatar. The feeling was a little strange because his Maxim avatar was himself. Understandably, it was bizarre to talk to himself.

The Maxim avatar stood up. An extraordinary glint glowed in his eyes. Subsequently, an invisible fluctuation wrapped around the Slothful Beast summoned by Merlin.

"Hibernate..."

Merlin's Maxim avatar's Mind Power fluctuated incessantly, and a small portion of the Illusory World enveloped the Slothful Beast. Immediately, the Slothful Beast seemed to be affected and began to look drowsy.

"Not bad, you can control the Slothful Beast now."

Merlin heaved a breath of relief. Now that his Maxim avatar had merged with a small portion of the Illusory World, it was able to control the Slothful Beast and become the most powerful force of the Spell Caster civilization.

Moreover, if any ill were to befall, the Slothful Beast would be able to hold on for a while. In the meantime, Merlin's real person would be able to return quickly.

"It's time to leave!"

Merlin stood up, and cast one last glance at the Slothful Beast. Then, with a flash of his figure, left Glory City.

“Swish swish.”

He did not alert anyone except for Wizards Augustus and Ceci. Upon receiving Merlin’s message, the two of them promptly rushed outside of Glory City.

“Glory Lord, are you going to the Great Light Region alone?”

Augustus asked with a troubled expression.

“I can go alone. I still have four Aurora warships. I’m keeping one for myself and leaving one in Glory City. There are two more, so I’m giving it to each of you. If you encounter any danger, you’ll be able to escape in time.”

Merlin retrieved two Aurora ships from his ring. These were valuable treasures that many second-grade ultimate existences did not have. Even the three Great Light Envoys’ Aurora warships were temporarily lent to them by the Great Light Honorable Lord. They would have to return it upon their return to the Great Light Region.

The two Aurora warships were extremely beneficial to Wizards Augustus and Ceci so they accepted the Aurora warships.

Merlin nodded and did not say anything. He flew directly into the Aurora warships, after which he transformed into a ray of light that quickly vanished into the Void Zone.

Augustus and Ceci looked at one another with a hopeful look. “I hope the Glory Lord succeeds.”

...

In the Great Light Region, everything looked calm but the Seventy-two Light Envoys and Eighteen Light Guardians seemed intensely pressured, like something big was about to happen.

A total of fifteen Light Guardians and seventy Light Envoys had received the Great Light Honorable Lord's commands, requesting for them to return to the Great Light Dimension as soon as possible.

The Great Light Honorable Lord had never issued such an urgent command. All the Light Envoys and Light Guardians knew that something major must have happened to the Great Light Region.

Hence, the Light Envoys and Light Guardians had arrived in the Great Light Region in succession. The palace contained dozens of Light Envoys and Light Guardians but there was not a din. It was incomparably quiet, perhaps even to a frightening degree.

The crowd's eyes were transfixed on the Great Light Honorable Lord.

After a long time, the Great Light Honorable Lord finally spoke, "Three Light Guardians, Laerin, Sirin, and Hayrin, are dead!"

"Rumble."

The Great Light Honorable Lord's words attracted the commotion of the entire hall. Three Light Guardians were second-grade ultimate existences. Who would dare to provoke the Great Light Region?

Seeing the reaction of the people gathered below, the Great Light Honorable Lord nodded with satisfaction. His voice turned icy. "I've decided to lead a troop consisting of ten Light Guardians and forty Light Envoys, to avenge our three Light Guardians. Not just the assailant but his entire civilization and whatever method he used to kill the three Light Guardians. We must destroy them completely!"

Ever since they had fought over a Vestigial Tribe's confinement dimension with another large region, which was tens of thousands of years ago, there had never been such a massive-scale attack. Not only was it personally led by the Great Light Honorable Lord but he had also brought with him numerous Light Guardians and Light Envoys.

"No matter who killed the three Light Guardians, he has angered the Great Honorable Lord. Whatever civilization or force that stands behind him will suffer the consequences."

Many Light Guardians and Light Envoys knew that the Great Light Honorable Lord was downright furious, which was the most terrifying part. Wherever he was, there would be endless bloodshed!

Chapter 872: Challenger on the Doorstep!

“Swish.”

In the pitch-black Void Zone, a warship glowing with flowy lights was speeding forward.

In the Aurora warship, Merlin’s eyes were shut, his consciousness buried deep in the Illusory World. Ever since he had detached a small portion of the Illusory World, it had been slightly affected, so he had to mend it.

“Finally mended!”

Merlin heaved a long breath of relief. He did not expect that detaching such a small portion of the Illusory World would have such a huge impact. He had to spend a very long time to mend it completely.

Presently, the Illusory Tribe Civilization had progressed past their mother star and was beginning to conquer several other planets. Following the progress of the Illusory Tribe Civilization, the Illusory World would also gradually be perfected. Then one day, the Illusory World would not merely be a Mind Power construct but no different than a real world.

Nonetheless, this was a long, drawn-out process. Perhaps a few hundred years, a few thousand years, tens of thousands of years or even longer...

Merlin glanced at the Void Zone outside the Aurora warship. The vast and endless Void Zone seemed to stretch forever, with no end in sight. Even with the Aurora ship, it would be challenging, downright impossible, to traverse the Void Zone and visit every place.

“Stop. Have we reached the Great Light Region?”

Merlin suddenly stopped the Aurora warship. He gazed at the Void Zone outside. Numerous dimensions filtered into view. Moreover, these dimensions emitted an aura of light.

However, this aura was completely different from the gods. It was like an eternal light that glowed unwaveringly as if it would never fade.

“The Great Light Dimension where the Great Light Honorable Lord is, shines bright all the time.”

Merlin retrieved the dimension maps and made a comparison. True enough, he was very near the Great Light Dimension.

“This place is indeed enormous, and far more developed than the Spell Caster civilization!”

Merlin gradually entered the Great Light Region. He noticed that each dimension emitted a dominating aura, no less than the ordinary Legends and Honored Legends, some even more powerful.

Furthermore, the life forms in these dimensions possessed auras that were significantly more powerful than those in the Spell Caster dimensions. This also meant that the number of strong contenders from just a single dimension in the Great Light Region would already outnumber the entire Spell Caster civilization.

After all, in the Spell Caster civilization’s dimensions, only one Legend was born for every dozen or so dimensions. On the other hand, in the Great Light Region, Legends were not considered rare. A single dimension could give birth to multiple Legend-level existences.

Merlin thought for a moment, and continued flying toward the brightly shining dimension which contained the strongest power. That would be the Great Light Dimension where the Great Light Honorable Lord was.

Merlin stowed his Aurora warship, and his body naturally exuded a Lord’s aura. In the Spell Caster civilization, a Lord was considered quite powerful and would be noticed wherever he went but in the Great Light Dimension, Lord-level existences were plentiful.

Occasionally, there would be some ultimate existences in the Great Light Dimension.

“Look, the Great Light Tower is activated. Does it mean that an ultimate existence is challenging the tower in hopes of becoming one of the Seventy-two Light Envoys?”

“The Great Light Tower usually isn’t activated. There are only two possibilities if it’s activated. Either someone is challenging one of the Seventy-two Light Envoys to vie for a position or they are recruiting new Light Envoys.”

“It doesn’t seem like anyone is challenging the Seventy-two Light Envoys. After all, each of the Seventy-two Light Envoys is a first-grade ultimate existence. No ordinary ultimate existence can compare to them.”

“I heard that a while ago, two of the Seventy-two Light Envoys were killed, though I don’t know why. So, they must be recruiting new Light Envoys. This is a golden opportunity.”

“What? Two of the Seventy-two Light Envoys were killed? Who in the world dares to lay a hand on the Great Light Region’s Light Envoys?”

Many of the foreign tribe creatures were engaged in fervent discussions. These foreign tribe creatures were not composed of just a single civilization but all kinds of different civilizations. The entire Great Light Region was comprised of countless foreign tribes.

The Great Light Honorable Lord himself was a special life form. He was alone and did not have any tribe. Therefore, when he established the Great Light Region, he had assembled countless foreign tribe creatures from countless civilization. As long as their abilities were sufficiently powerful and professed loyalty to the Great Light Honorable Lord, they would qualify as a member of the Great Light Region.

Among them, the most coveted positions belonged to the Seventy-two Light Envoys and Eighteen Light Guardians. Thus, many ultimate existences dreamt of becoming a Light Guardian. Yet, the requirements of becoming a Light Guardian was extremely rigorous, which was to achieve the level of a second-grade ultimate existence. Such a contender would surely be the topmost existence of any civilization. As a result, very few people could fulfill such requirements.

The Seventy-two Light Envoys, on the other hand, only stipulated being an ultimate existence, and could be challenged at will. If not for the fact that the Seventy-two Light Envoys needed to sign a contract with the Great Light Honorable Lord and surrender their lives and deaths in his hands, many more ultimate existences would have challenged the Seventy-two Light Envoys.

Regardless, the number of ultimate existences willing to become one of the Seventy-two Light Envoys was endless. Due to this reason, the entry barriers for the Seventy-two Light Envoys were getting more stringent. Currently, almost every single Light Envoy was a first-grade ultimate existence.

“A Light Envoy, how enviable! If you become one of the Seventy-two Light Envoys of the Great Light Region, not only will you receive guidance from the Great Light Honorable Lord but there’s also a great chance of advancing to second-grade. You will also be able to enjoy the Vestigial Tribe’s phenomenal ‘virtual wonderland’. You can even simulate a second-grade or third-grade ultimate existence in the virtual wonderland.”

“Yes, the confinement dimensions controlled by the Great Light Honorable Lord contains the Vestigial Tribe’s ‘virtual wonderland’ treasures which drive countless ultimate existences crazy. I heard that three out of the Eighteen Light Guardians relied on the Vestigial Tribe’s ‘virtual wonderland’ and successfully advanced to second-grade.”

“The Light Envoys and Light Guardians are way too far out of our reach right now. We should think of joining the Light Sentinels, which is more realistic. The Light Sentinels are made up of the top contenders under the level of an ultimate existence. Although you won’t be as powerful as an ultimate existence, you’ll still be noticed by the Great Light Honorable Lord and receive many benefits.”

Merlin committed all these conversations to memory. The Great Light Region was indeed very powerful that some ultimate existences would take the initiative to join them.

The Spell Caster civilization, on the other hand, had to use various forms of compensation to request assistance from a few ultimate existences. Even then, it was limited to helping the Spell Caster civilization fend-off the Atlan civilization. As for having ultimate existences join the Spell Caster civilization willingly on their own accord, it was completely impossible.

Yet, this was a feat accomplished by the Great Light Honorable Lord. The Seventy-two Light Envoys of the Great Light Region had never fallen short of manpower. Even if some Light Envoys were killed, soon enough, new ultimate existences would fill the vacancy.

The true reason was that becoming the Seventy-two Light Envoys brought all kinds of perks, especially the Vestigial Tribe’s confinement dimensions which were controlled by the Great Light Honorable Lord. Inside, there were many treasures which were extremely enticing to

many ultimate existences. This was the reason why numerous ultimate existences constantly desired to become one of the Seventy-two Light Envoys.

Merlin followed the crowd toward the Great Light Tower. Outside the Great Light Tower, there were indeed a few ultimate existences who were gazing at the tower with determination.

This was recruitment for new Light Envoys, so they did not have to challenge the actual Seventy-two Light Envoys. As long as they could clear the nine floors of the Great Light Tower, they would qualify to become a new member of the Seventy-two Light Envoys.

“Big brother, if the Great Light Region is recruiting new Light Envoys, does it mean that a Light Envoy was killed? Who would dare to attack a Light Envoy?”

A foreign creature with a not-so-powerful aura, about the level of an ordinary Lord, asked curiously.

“Perhaps the Light Envoy was killed when he embarked on an outside mission. After all, the Great Light Region’s reputation is infamous. I’ve never heard of any person or force that dares to provoke the Great Light Region.”

“So, are we safe here?”

“Of course, we’re safe. It’s forbidden to fight in the Great Light Dimension. Even if the Blueblood Tribe were to catch-up to us here, they wouldn’t dare to attack.”

This foreign tribe man declared confidently. Anyone who had entered the Great Light Dimension was safe. The two of them had worked hard to escape to the Great Light Region to evade the Blueblood Tribe’s murderous pursuit.

In the Great Light Dimension, no one dared to fight. This was an iron-clad rule. Once upon a time, two second-grade ultimate existences who were seeking revenge fought fiercely in the Great Light Dimension, almost causing the entire Great Light Dimension to fall apart.

This infuriated the Great Light Honorable Lord. He personally killed the two second-grade ultimate existences. From then onward, no one dared to launch an attack in the Great Light Region.

“Swish swish.”

Suddenly, beside these two foreign creatures, a few burly-looking foreign creatures appeared. Their bodies exuded powerful auras, one of them was even an ultimate existence.

“It’s the Blueblood Tribe!”

“Hehe, don’t worry, they won’t dare to attack!”

Although there were numerous Blueblood Tribe members as well as an ultimate existence, what this foreign creature said was right. They did not dare to attack and could only watch irately as the two foreign creatures walked past them.

“Elder, are we just going to let them go?”

Some of the Blueblood Tribe members felt vexed.

“This is the Great Light Dimension, who would dare to attack? Are you looking for death? Even a second-grade ultimate existence wouldn’t dare to attack in the Great Light Dimension.”

The ultimate existence from the Blueblood Tribe appeared frustrated as well. Although he could kill those two foreign creatures easily, as they were in the Great Light Dimension, he dared not act.

This was the Great Light Honorable Lord’s authority!

“It seems like this is indeed the Great Light Dimension. I can’t be wrong. Hence, I might as well start the fire.”

Merlin had learned that this was indeed the place where the Great Light Honorable Lord lived. Thus, he did not hold back any longer. His purpose of coming here was the Great Light Honorable Lord!

Therefore, Merlin's Mind Power immediately shrouded the entire dimension. The invisible fluctuation was felt by almost everyone in the dimension.

"Great Light Honorable Lord, come out!"

Merlin's body emitted a golden light as he stood high up in the air. Dominance rolled off his body in waves. Such a sudden disruption shocked all the foreign creatures in the dimension!

This was the first time someone dared to land on the doorstep of the Great Light Region and provoked the Great Light Honorable Lord.

Chapter 873: Forced Hand!

"Great Light Honorable Lord, come out!"

The booming voice resounded across the entire Great Light Dimension. The previous cacophony quietened in an instant.

Everyone stared at the golden figure suspended in the air. No one had ever picked a fight so brazenly in the Great Light Dimension.

"Big Brother, I thought you said that no one dares to launch an attack in the Great Light Dimension?"

The two foreign creatures who were targeted by the Blueblood Tribe looked extremely embarrassed. He just mentioned that the Great Light Dimension was very safe, and no one would dare to attack in the Great Light Dimension. Yet, unpredictably, they had encountered someone who was publicly challenging the Great Light Honorable Lord.

Especially since the Blueblood Tribe, too, began to sport hostile looks at them.

"Calm down, this is just a freak accident. Soon, the Light Guardians will appear and kill this person. He's just an insane lunatic."

This foreign creature put up a brave expression but he could not help but gaze at the golden figure in the air who had publicly issued a challenge to the Great Light Honorable Lord. Even if he died, it was still admirable.

“Who are you?”

“How dare you wreak havoc in the Great Light Dimension?”

Immediately, the five Light Guardians who stayed back in the Great Light Dimension as well as almost thirty Light Envoys appeared in the Great Light Dimension. Their overwhelming power surrounded the Great Light Tower firmly.

“Five Light Guardians and thirty Light Envoys... Since when were there so many strong contenders in the Great Light Dimension?”

Seeing such a massive number of Light Guardians and Light Envoys, everyone in the Great Light Dimension felt slightly confused. After all, the Great Light Honorable Lord’s summon was only known to the Seventy-two Light Envoys and Eighteen Light Guardians.

Merlin looked at the numerous Light Guardians and Light Envoys but he did not see the Great Light Honorable Lord. Although Merlin did not know the Great Light Honorable Lord per se, he knew that a third-grade ultimate existence’s aura would not be of this level. If the Great Light Honorable Lord stood among the crowd, he would be instantly noticeable.

“Where’s the Great Light Honorable Lord? Didn’t he hear me? Ask him to show himself!”

Merlin could not be bothered to waste his time. Once he had killed the Great Light Honorable Lord, naturally, the people of the Great Light Region would also be wiped out. The Great Light Region would cease to exist.

“Who are you to see the Great Light Honorable Lord? You must be a nut job. Hmph, once I catch you, you’ll suffer the consequences!”

One of the Light Envoys stepped forward, and transformed into a giant roc shrouded in a black glisten. He consolidated a huge amount of the power of the natural order, also in the shape of a giant roc, and hurtled toward Merlin.

“That’s the Dark Roc Light Envoy! According to rumors, he’s a special life form from the Void Zone – the Dark Roc! Their natural abilities are superbly powerful. As long as they reach maturity, they would become ultimate existences and possess incredible speed.”

This Light Envoy seemed extraordinary. Many people knew about him.

Faced against the Dark Roc Light Envoy, Merlin felt impatient. It appeared that unless he killed some people, the Great Light Honorable Lord would not show up.

“Hum.”

Merlin gripped with his huge hand. An invisible power shrouded the Dark Roc Light Envoy. Consequently, the Dark Roc Light Envoy felt as if he was bound by an invisible force. Following that, a tremendous gravitational force pressed upon him from every direction and squeezed his body painfully, like he was going to be crushed.

“Bang.”

Merlin did not delay. After wielding the gravitational field to imprison the Dark Roc Light Envoy, he brandished a punch.

This simple punch contained pure terrifying power that could shatter hundreds and thousands of dimensions. More importantly, it contained the Vestigial Tribe’s mystifying power which could disintegrate the power of the natural order.

Therefore, the power of the natural order that swathed the Dark Roc Light Envoy was smashed in an instant and the tremendous impact killed the Dark Roc Light Envoy.

“Hoo...”

The Dark Roc Light Envoy’s aura dissipated completely. From the people’s perspective, they could not see the gravitational field. Therefore, they only saw Merlin who was bathed in a golden light kill the Dark Roc Light Envoy with a single punch. Chills ran down everyone’s spine!

“It seems he came prepared...”

Putting away their initial contempt, the highly exalted Light Guardians’ expressions turned grievous.

“Who are you?”

The Light Guardian asked gravely.

“Merlin!”

“Merlin? I don’t think the Great Light Region has any conflict with Your Excellency?”

Upon hearing Merlin’s name, the Light Guardians cracked their heads but did not recall any powerful enemies of the Great Light Region named “Merlin”.

“Summon your Great Light Honorable Lord. He knows the reason!”

Merlin’s Mind Power shrouded the area, so everyone’s movements were evident to him.

The five Light Guardians glanced at one another. They had sensed Merlin’s formidable prowess. Therefore, they replied, “Your Excellency Merlin, not too long ago, the Great Light Honorable Lord led a troop of Light Guardians and Light Envoys and left the Great Light Region. We also don’t know where he’ll be going.”

“What? He left?”

Merlin’s face paled slightly. He immediately realized that the Great Light Honorable Lord must be heading toward the Spell Caster civilization. Moreover, with the Aurora warships, Merlin would not be able to catch up with them.

Based on the power of the Spell Caster civilization, it would be impossible to resist the Great Light Honorable Lord.

“If he has left, ask him to return. I believe you have a way to make the Great Light Honorable Lord return. I give him a month. For every single day he doesn’t return, I’ll kill a Light Guardian. If all the Light Guardians have been killed and still he hasn’t returned, I’ll destroy the entire Great Light Region!”

As soon as Merlin finished speaking, he did not hold back on his energy and wielded the gravitational field to seal the entire Great Light Dimension. Only a second-grade ultimate existence would be able to forcibly tear apart Merlin’s gravitational field.

However, if they tried, Merlin would not be polite.

“It’s really sealed.”

“The Great Light Dimension is sealed? This is the first time...”

“Amazing. Not only did he pick a fight on the doorstep of the Great Light Region but he’s also forcing the Great Light Honorable Lord to show up. I wonder if the Great Light Honorable Lord will appear?”

“I’m sure he will. However, as soon as the Great Light Honorable Lord shows up, this man is dead meat. Never has anyone provoked the Great Light Honorable Lord and lived to tell the tale. The Great Light Honorable Lord had even vanquished an ultimate existence of his level before!”

Anyone who could be in the Great Light Dimension was a powerful foreign creature by their own right. Naturally, they were able to sense that the Great Light Dimension had been sealed.

Some people were panicky but most of them remained calm. They believed that the Great Light Honorable Lord would surely return. In the face of such a brazen provocation, if the Great Light Honorable Lord did not return, he would become the laughingstock of the powerful factions around him.

“D\*mn it, just one measly person dares to seal the Great Light Dimension. What is left of the Light Guardians and Light Envoy’s reputation? If we attack together, do you think we can’t defeat one person?”

Seeing that Merlin had sealed the entire Great Light Dimension, the remaining Light Envoys and Light Guardians were irked.

“Everyone, silence! I’ll report this matter to the Great Light Honorable Lord. Unless we have no choice, don’t attack. This person is too powerful. Perhaps, he has reached the same level as the Great Light Honorable Lord.”

The Light Guardian leader’s sight was tightly trained on the golden figure in the air. He could vaguely sense that there were some secrets hidden within the golden light. It was obvious that Merlin was hiding something, yet he could not tell what it was.

Merlin had indeed concealed the Golden Ray Armor. Ever since he fought the two Curved Horn Tribe creatures and the three Light Guardians, Merlin knew that the Golden Ray Armor was well-known in the Great Light Region. Hence, in order not to attract unnecessary attention as well as preventing the Great Light Honorable Lord from seeing through him, he had concealed himself from the very beginning.

Unless the Great Light Honorable Lord showed up in person, no one would be able to see that he was wearing the legendary Golden Ray Armor.

“Not bad, he can practice self-control.”

Merlin looked at the Light Guardian who had stopped the Light Envoys, and nodded to himself. If they were to attack, Merlin did not mind killing more people and smearing fresh blood across the Great Light Dimension.

...

In the icy darkness of the Void Zone, countless streams of light broke through the Void Zone. Anyone who saw this scene would be irrevocably shaken because in these streams of light was eighteen Aurora warships.

Eighteen Aurora warships. In the glorious days of the Vestigial Tribe, this would already be an expedition army. It was due to this expedition army that they were able to conquer countless dimensions. Wherever they went, no power could stand against them.

However, ever since the Vestigial Tribe was wiped out, such a magnificent scene became a rare occurrence. Eighteen Aurora warships was an unimaginably large move.

However, if someone were to look closely, they would see that these Aurora ships carried some unique aura imprints, which belonged to the Great Light Honorable Lord. These were the Great Light Region's Aurora warships.

Only the Great Light Honorable Lord of the Great Light Region, who controlled two Vestigial Tribe confinement dimensions, could dispatch eighteen Aurora warships in one go.

At this moment in the Aurora warship, the Great Light Honorable Lord suddenly opened his eyes. A terrifying deadliness appeared on his body. This burst of deadliness even extended beyond his Aurora warship, causing all the Light Guardians and Light Envoys in the other Aurora warships to tremble.

"Sir Honorable Lord, what happened?"

Many of the Light Guardians and Light Envoys immediately activated the communication channels and asked.

The Great Light Honorable Lord's face was thunderous as he roared, "Turn back to the Great Light Region, now! The person we're looking for has reached our doorstep..."

Immediately, everyone exchanged looks of bewilderment. Using all kinds of exclusive means, they had finally learned of the current situation in the Great Light Region.

A mysterious person by the name of Merlin had arrived in the Great Light Dimension, and had sealed it to force the Great Light Honorable Lord to appear.

If he did not appear within a month, one person would be killed every single day.

Such insanity, such brazenness, such impudence! Since when had the Great Light Honorably Lord been provoked in such a manner?

It was not surprising that the Great Light Honorable Lord was so enraged.

“This Merlin is going to suffer the Great Honorable Lord’s endless wrath. He’s dead for sure...”

Many of the Light Guardians shook their heads. Regardless of how powerful Merlin was, they believed that once the Great Light Honorable Lord had returned, Merlin would surely be put to death!

Chapter 874: Great Light Honorable Lord

In the immense Illusory World, Merlin was carefully gauging the expansion of the Illusory World. Using his previous life as a blueprint, Merlin’s Illusory World was gradually resembling the universe in his past.

The universe and the Void Zone were two completely different concepts because their preliminary natural orders were different. Therefore, if these two worlds met, there would be a clash.

However, at present, the Illusory World was still purely Mind Power. As long as he did not initiate any contact with the power of the natural order or tried to challenge it, the Illusory World was safe.

The Illusory World was still expanding. His past life’s universe was also limitless. Compared to that, Merlin’s Illusory World was still a long way behind.

However, Merlin was considering an intricate question. When would the Illusory World become truly perfect? If the Illusory World continued to expand forever and ever, then how would he achieve success?

Previously, Merlin thought that once the Illusory World had expanded to a certain size, perhaps comparable to the Void Zone, then it would naturally be successful. However, it was not as simple as it seemed.

A perfect Illusory World was something that neither Titus nor Merlin had ever encountered. So, every accomplishment had to rely upon Merlin’s own experiment.

“One month and one day. The Great Light Honorable Lord hasn’t shown up. So, someone must die today!”

Merlin opened his eyes. He had been in the Great Light Dimension for a month and a day. According to his declaration, he would kill one person each extra day.

“Swoosh.”

Merlin gazed at the Light Guardians. Five Light Guardians remained. Upon seeing the look on Merlin’s face, their faces shifted drastically.

“One month and one day. The Great Light Honorable Lord hasn’t returned. Therefore, I’ll kill one person!”

Merlin’s gaze was filled with ruthlessness. With that, he straightened himself, and looked toward a blue-robed Guardian.

When the blue-robed Guardian saw Merlin’s gaze directed at him, the power of the natural order surged out rapidly and formed an armor around his body. He yelled, “Let’s attack together. The Great Light Honorable Lord will return soon. Surely, he’ll kill Merlin!”

Nonetheless, the blue-robed Guardian’s words were not quite effective. It did not attract many responses. On the contrary, they withdrew a distance away from the blue-robed Guardian, and watched the development of events.

Although Merlin had demonstrated powerful strength before this, many of them were uncertain how much stronger he was compared to a second-grade ultimate existence. Thus, this was a perfect observation opportunity.

If Merlin’s ability was unable to suppress a second-grade, then most probably the four Light Guardians and thirty Light Envoys would attack simultaneously.

“You won’t last till the Great Light Honorable Lord returns! Even he if returns, you’ll die!”

Merlin’s gaze was filled with ruthlessness. The invisible gravitational field instantly wrapped around the blue-robed Guardian.

“Gravitational field? This is the Vestigial Tribe’s gravitational field. You want to bind me with this? Impossible!”

The blue-robed Guardian roared. The next moment, the power of the natural order burst out from his body like blazing flames and began to burn. He was then able to break free of Merlin’s gravitational field.

Merlin was not surprised. He could only wield a small portion of the Golden Ray Armor’s strength, so the gravitational field only had a negligible effect on a second-grade ultimate existence. It was impossible to bind him.

Whereas if he had activated the full power of the Golden Ray Armor, just the gravitational field alone could kill a second-grade ultimate existence. After all, it was the Vestigial Tribe’s ultimate weapon!

Although the gravitational force field did not manage to subdue his opponent, Merlin attacked directly. With a step forward, his figure seemed to disappear suddenly.

This was not traversing space but instead, extreme speed. His speed was too fast for a second-grade ultimate existence to capture his trajectory.

Merlin’s Golden Ray Armor detonated its strongest ability. Waves of petrifying fluctuations began to roll off Merlin’s body.

“Annihilation function!”

To defeat a second-grade ultimate existence, he had to wield the annihilation function. It could kill a second-grade ultimate existence without any resistance.

The annihilation function usually appeared in circular ripples but Merlin had controlled it to only head in one direction, which was toward the blue-robed Guardian. Hence, the annihilation function only turned the blue-robed Guardian into ashes.

This time, Merlin did not save his opponent’s ring. Under the annihilation function, everything was annihilated. No force could withstand it.

Silence. The entire Great Light Dimension was silent. Even the Light Guardians and Light Envoys who were initially worked up, fell silent.

There was not even a fierce battle before their eyes. All they felt was a gust of spine-tingling power, then a Light Guardian who was a second-grade ultimate existence, was quietly reduced to ashes.

Only someone who possessed superior power could achieve such an effect! Any power that was superior to a second-grade ultimate existence must belong to a third-grade ultimate existence, which meant that he was equivalent to the Great Light Honorable Lord.

“Everyone, don’t act rashly. Merlin’s ability is comparable to the Great Light Honorable Lord!”

At this point, no one dared to act rashly any longer. If Merlin had possessed powers equivalent to a third-grade ultimate existence like the Great Light Honorable Lord, then their numbers were meaningless. This was a contender who stood at the pinnacle of the Void Zone. They could only wait until the Great Light Honorable Lord returned, then see whether the Great Light Honorable Lord or this mysterious Merlin was more powerful.

“That’s third-grade level power! However, in the past, the Great Light Honorable Lord has killed a similar third-grade contender. Although this Merlin is powerful, he probably isn’t a worthy opponent compared to the Great Light Honorable Lord.”

“Whether or not he’s a worthy opponent for the Great Light Honorable Lord is none of our business. This is a fight between third-grade ultimate existences. For now, we can only wait quietly. It’s just that, tomorrow, Merlin will kill another person. I wonder whose turn will be next?”

Now, everyone knew that Merlin at least possessed powers comparable to a third-grade ultimate existence. No one doubted Merlin’s words anymore. As long as the Great Light Honorable Lord had exceeded the time frame given to him, Merlin would kill another person.

Now was already one day late, and a Light Guardian was dead. If the Great Light Honorable Lord did not arrive by tomorrow, the next victim would be one of the four remaining Light Guardians.

Therefore, these four Light Guardians were very anxious.

The next day, the Great Light Honorable Lord still did not return. Therefore, Merlin continued his carnage and killed another Light Guardian. This was also a second-grade ultimate existence but he failed to put up a single ounce of resistance before Merlin.

On the third day, another Light Guardian was killed. In the blink of an eye, out of the five Light Guardians left in the Great Light Dimension, only two were left.

In the icy dark Void Zone, eighteen streams of light were flying at incredible speed. However, the Aurora ships encapsulated in these streams of light were filled with tension.

“The third Light Guardian is dead. Sir Honorable Lord, if we don’t arrive soon, I’m afraid even the Great Light Dimension wouldn’t be able to hold on...”

In the Aurora warships, utilizing some special means, the Great Light Honorable Lord had already learned of the events which had transpired in the Great Light Dimension. Merlin had fulfilled his promise. For every day of delay, he would kill one Light Guardian.

Once all the Light Guardians were killed, he would kill the Light Envoys. If the Great Light Honorable Lord had not returned by the time all the Light Envoys were killed, Merlin was going to destroy the entire Great Light Region.

Regarding this threat, the Great Light Honorable Lord did not doubt Merlin. He now knew that Merlin was at least comparable to his level, which was a third-grade ultimate existence. Hence, destroying the Great Light Region was as easy as crushing an ant.

Therefore, the Great Light Honorable Lord also calmed down completely. Any opponent in the form of a third-grade ultimate existence was not easy to handle. Although he had once killed another third-grade ultimate existence, he had to pay a great price to kill him.

“He’s a third-grade ultimate existence... However, so what? He dares to challenge the Great Light Region so he must die!”

The Great Light Honorable Lord’s eyes flashed coldly. At this moment, he was no longer in a hurry. Even if all the Light Guardians were dead and the Great Light Region was destroyed, as long as he could kill Merlin, the Great Light Region could be rebuilt!

...

A few more days passed by. However, to those living in the Great Light Dimension, these were days that they would not forget for the rest of their lives as they filled with horrifying scenes of bloodshed.

All five Light Guardians were dead. The final Light Guardian even managed to rally a dozen Light Envoys to attack jointly but the outcome was still the same. All of them were killed.

Now, the Great Light Dimension only had a dozen Light Envoys left remaining. All of them had completely lost the will to fight.

Merlin was unmoved. Without employing such a method, he would not be able to aggravate the Great Light Honorable Lord. Then, the Spell Caster civilization would be in danger. Therefore, Merlin continued to wait for the Great Light Honorable Lord. He knew that his opponent would appear!

“It has been another day...”

Merlin opened his eyes. Just as his gravitational field had imprisoned a Light Envoy and was about to kill him, eighteen light streams appeared in the Void Zone not far from the Great Light Dimension.

“Finally here?”

Merlin’s mouth quirked into a delighted smile.

“The Great Light Honorable Lord has arrived. We’re saved.”

Seeing the eighteen streams of light, hope began to rise in the eyes of the remaining Light Envoys.

Merlin's figure gradually flew out of the Great Light Dimension and stood in the Void Zone. Quietly, he watched one of the light streams. He could sense that in that particular light stream, there was a terrifying power that caused even him to feel threatened!

“Swish.”

The Great Light Honorable Lord wore long robes as white as snow, and his entire body was encapsulated in a layer of white light. Added with Merlin's golden radiance, the resulting illumination formed a breathtaking scene.

Chapter 875: An Encounter and A Vicious Battle!

“The Golden Ray Armor... I see!”

The Great Light Honorable Lord stood quietly in the void. His gaze seemed to bore holes into everything. Even Merlin felt an inkling of threat.

With just a single glance, the Great Light Honorable Lord was able to tell that Merlin was wearing the Golden Ray Armor and could wield its strength. Although the Great Light Honorable Lord appeared unfazed on the outside, his heart underwent a massive lurch.

The Great Light Honorable Lord had controlled two of the Vestigial Tribe's confinement dimensions. Naturally, he knew of the formidable prowess of the Golden Ray Armor. The armor was used by the Vestigial Tribe to fight against supreme existences such as the ancient Thirty-six Emperors. Such powers had far exceeded even the third-grade ultimate existences.

All these years, the reason for his continuous search for the Vestigial Tribe's confinement dimensions could be summed up to one main reason – to locate the Vestigial Tribe's Golden Ray Armor.

Now, the Golden Ray Armor had finally appeared before his eyes. Moreover, Merlin was able to operate it despite not possessing any Vestigial Tribe blood, so the Great Light Honorable Lord was even more thrilled.

“That's right. Since you know it's the Golden Ray Armor, why did you come to die?”

Merlin's tone was also very calm.

“Haha, come to die? You may be wearing that armor but you're not really from the Vestigial Tribe. How much of the Golden Ray Armor can you possibly wield? At best, you're just another third-grade ultimate existence like me. Why should I be afraid? However, it's such a waste for the Golden Ray Armor to be worn by you. If I obtain it and study it for a long time, I'm sure that I'll be able to discover the true use of the Golden Ray Armor. By then, I'll be comparable to the Thirty-six Emperors!”

The ancient Thirty-six Emperors were widely recognized by the entire Void Zone as the pinnacle existences.

However, the war with the Vestigial Tribe saw not only the extermination of the Vestigial Tribe but also heavy losses suffered by the ancient Thirty-six Emperors. As to how many of them were left today, no one knew.

Nowadays, even the fourth-grade Emperor Lords were few and far in between, much less the Thirty-six Emperors.

It was far too difficult for the Great Light Honorable Lord to achieve the fourth grade Emperor Lord just relying on himself. However, if he had obtained the Golden Ray Armor, his powers would soar. Not only would he be comparable to the fourth-grade ultimate existences, but even the ancient Thirty-six Emperors.

Seeing the greed surfacing in the Great Light Honorable Lord's eyes, Merlin smiled. Back then, the two Curved Horn Creatures and the three Light Guardians as well as the Great Light Honorable Lord now, would reveal their greed upon spotting his Golden Ray Armor.

Nevertheless, the two Curved Horn Creatures and three Light Guardians were dead!

Battle. There were no more words wasted. They descended into battle – a legendary battle between third-grade ultimate existences!

“Boom.”

The Great Light Honorable Lord initiated an attack. He transformed into a source of light and began to pour forth a scorching ray that burned everything!

Originally, the Great Light Honorable Lord's light rays were very warm and genial. However, these rays now had metamorphized into a deadly force that emitted infinite powers.

At this moment, the Great Light Honorable Lord did not care about the Great Light Dimension, the Great Light Region or any of his subordinates. All he saw was Merlin!

After all, the Great Light Region, even added with the two Vestigial Tribe's confinement dimensions, was not as precious as a Golden Ray Armor.

“Chi chi chi.”

On the surface of Merlin's Golden Ray Armor, the golden rays were suppressed. A layer of white flames appeared and burned continuously. Merlin felt a slight trace of heat.

Merlin finally put away his slack and heightened his guard. This was the first time he was completely suppressed in the Golden Ray Armor. If he continued down this path, the Golden Ray Armor might not be damaged but he would be injured.

“Gravitational field!”

Merlin growled softly. A twisted vortex appeared before him. Once the white rays were sucked into this vortex, they appeared to be twisted and swallowed, thus disappearing without a trace.

This not only contained the gravitational field but also the ability to disintegrate the power of the natural order. Otherwise, he would not be able to battle a third-grade ultimate existence like the Great Light Lord God.

Moreover, Merlin had also activated the Golden Ray Armor fully. Faced against the Great Light Honorable Lord, he would have to give his all.

“Gravitational field? I have it too!”

The Great Light Honorable Lord looked calm. A huge piece of shimmering inky-black metal appeared before him.

“Anti-gravitational field!”

The huge black metal vibrated gently. Then, an invisible surge of power rushed into Merlin’s vortex. The vortex paused slightly, and instantly broke apart.

“The Vestigial Tribe’s gravitational field device?”

Merlin knew that the Vestigial Tribe’s most powerful gravitational field devices could resist gravitational force. Merlin’s Golden Ray Armor was also capable of resisting gravitational force. It was just that no one had ever wielded a gravitational field on him.

The Golden Ray Armor was merely a combination of all the Vestigial Tribe’s most powerful abilities. Combined, they possessed a virtually unstoppable force.

Without the gravitational field, Merlin was not deterred. The golden radiance on his body seemed to shine even brighter. He gave up using other tactics, and took a step forward.

“Swish.”

Merlin’s figure disappeared. Following that, he appeared in front of the Great Light Honorable Lord and, without any hesitation, simply threw a punch at the Great Light Honorable Lord.

“Thud.”

The Great Light Honorable Lord was prepared. The power of the natural order inside his body sprang out, melded into a fist, and met Merlin’s punch head-to-head. This was the formidableness of the third-grade ultimate existences. The power of the natural order inside their bodies had been transformed into an entire subspace. It was not the power of the natural order that had to accumulated bit by bit but had already been accumulated to unimaginable levels.

Therefore, even if they were to rely on the power contained within their bodies alone, the amount of the power of the natural order available to the third-grade ultimate existences was essentially endless. They did not have to worry about running out of the power of the natural

order. Moreover, due to the long-term accumulation inside their bodies, their power of the natural order was even more solid.

Merlin's punch was ineffective but he did not stop at one. He launched consecutive punches. Every direction was filled with the swing of his fist.

This was an attack of pure strength. Every hit would consume a lot of energy but could also easily kill a second-grade ultimate existence. In addition, this was an attack of tens of thousands of punches that came from every direction. It seemed like the air was filled with the shadow of his swinging fists.

The Great Light Honorable Lord's expression grew grimmer. He also had many different abilities from the Vestigial Tribe but Merlin had the Vestigial Tribe's ultimate weapon. Thus, in comparison, his weapons would not be useful.

Therefore, the Great Light Honorable Lord could only rely upon his own inherent strength. Even so, the Great Light Honorable Lord was a force to be reckoned with. The power of the natural order inside his body was accumulated layers upon layers, seemingly inexhaustible.

Furthermore, as long as the Great Light Honorable Lord willed, the Void Zone would concoct a massive clout of the power of the natural order. The power of the natural order had been brewing from the very beginning, gathering its strength. Normally, in a battle between third-grade ultimate existences, they would not mobilize the power of the natural order. This was because if both opponents were third-grade ultimate existences, both sides were able to mobilize the power of the natural order, so such a move was meaningless.

Merlin, however, was different. He was not a real ultimate existence but merely a Lord. He could not mobilize the power of the natural order. It was only due to the Golden Ray Armor that catapulted him into becoming a mighty existence which was comparable to a third-grade ultimate existence.

"Thud thud thud thud."

One punch after another landed. Merlin's speed increased but the Great Light Honorable Lord's defense was also extremely durable. The white light rays grew intense. Throughout this entire time, the Great Light Honorable Lord did not attack but merely defended himself.

However, it did not mean that he was not going to attack. Instead, he was gathering strength. In the Void Zone, the power of the natural order was gradually converging menacingly. The ominous force caused even the second-grade ultimate existences to feel powerless. Merlin, too, raised his head to look at the power of the natural order converging in the Void Zone.

Merlin also felt the incredible force. Ultimately, the power of the natural order was the most powerful force in the Void Zone. The power of the natural order that a third-grade ultimate existence had spent so much time mobilizing was certainly terrifying!

According to rumors, when the ancient Thirty-six Emperors had mobilized the power of the natural order, no matter how powerful the defense of the Vestigial Tribe's dimensions, all of them would be annihilated in an instant. No power could withstand it!

While a third-grade Great Light Honorable Lord was far from comparable to the ancient Thirty-six Emperors, the power of the natural order that he had mobilized was still relatively horrifying. Regardless of Merlin's frenzied attacks, it did not seem to disrupt the Great Light Honorable Lord from mobilizing the power of the natural order.

"Haha, enjoy the Void Zone's power of the natural order."

The Great Light Honorable Lord waved his hand. Suddenly, the terrifying power of the natural order exploded.

"Boom."

Merlin's figure was completely submerged under the power of the natural order. It was akin to being crushed by a gigantic mountain. For a moment, the destructive aura even overshadowed Merlin's aura.

It was difficult to imagine that Merlin would survive this blow.

The power of the natural order surged menacingly. Any dimension that was grazed even the slightest, was instantaneously destroyed. The fluctuation of the power of the natural order rippled endlessly in every direction.

"Crack."

Just the aftershocks alone had destroyed millions of dimensions around them, including the Great Light Dimension. Additionally, the destruction was unleashed by the Great Light Honorable Lord himself. This was because in the Great Light Honorable Lord's eyes, there was only Merlin and the Golden Ray Armor!

Even if the entire Great Light Region was destroyed, as long as he could obtain the Golden Ray Armor, it was worth it. The Great Light Region could be rebuilt but if he missed the Golden Ray Armor, he would never be able to obtain it ever again.

For this reason, the Great Light Honorable Lord chose to kill Merlin no matter what the cost, to obtain the Golden Ray Armor!

Under the shroud of the power of the natural order, Merlin's aura could no longer be detected.

"After all, you're not an ultimate existence. So, what if you've obtained the Golden Ray Armor?"

A smile appeared between the Great Light Honorable Lord's lips.

"Is that so? I may not be an ultimate existence but still, you can't kill me!"

An icy voice reverberated from the chaotic aftermath around them, freezing the smile on the Great Light Honorable Lord's face.

Chapter 876: A Peek at the Void Zone's Secret!

"What? Not dead yet?"

The Great Light Honorable Lord's face shifted dramatically. Unquestionably, his last attack could not have been withstood by any third-grade ultimate existence. However, there Merlin was, standing unharmed before him.

Merlin's expression was very calm but his gaze was extremely harsh as he watched the Great Light Honorable Lord like a hawk. To be honest, the Great Light Honorable Lord's last attack indeed had made Merlin feel threatened.

If he was an ordinary third-grade ultimate existence, for sure he would not be able to withstand the hit. Even if he somehow did not die, he would have been grievously injured and unable to fight the Great Light Honorable Lord.

Nevertheless, Merlin was wearing none other than the Golden Ray Armor. Perhaps, Merlin could only manipulate the Golden Ray Armor's abilities up to the level of a third-level ultimate existence. However, the Golden Ray Armor could only be destroyed by a supreme existence such as the ancient Thirty-six Emperors.

Therefore, Merlin was not severely injured, merely shaken. With the Golden Ray Armor in hand, Merlin held an impregnable edge in his fight with the Great Light Honorable Lord.

"It's my turn!"

A cold glint flashed past Merlin's eyes. His figure instantly multiplied into countless duplicates. Endless fists began to rain down relentlessly on the Great Light Honorable Lord's body.

This violent attack was made up of pure power. Not only a second-grade ultimate existence but even an ordinary third-grade ultimate existence would not be able to withstand it.

"Haha, I couldn't kill you but what makes you think you can harm me? Your abilities may be powerful but my power of the natural order is incomparably immense. Your attacks are far from the power of the natural order on my body. So, you can't harm me either!"

The Great Light Honorable Lord exuded a white light. Regardless of hundreds of thousands of Merlin's fists slamming down on the Great Light Honorable Lord, he was unable to injure him. Just like the Great Light Honorable Lord had said, despite Merlin's abilities, he was not powerful enough to crush the Great Light Honorable Lord.

Furthermore, the Great Light Honorable Lord's power of the natural order was incredibly immense. The subspace which was consolidated by the power of the natural order inside his body was unbelievably enormous. Hence, even if Merlin were to spend a few months constantly attacking the Great Light Honorable Lord, his power of the natural order would not be exhausted.

Moreover, the Great Light Honorable Lord was able to continuously consolidate more power of the natural order from the Void Zone. Thus, there was no point for Merlin to continue attacking him in this manner.

“Swish.”

Hence, Merlin stopped. He looked at the Great Light Honorable Lord disdainfully.

“I can’t harm you? Don’t be too sure of that!”

Merlin took a deep breath. Although he had colossal amounts of energy transmuted by the original Dimension Core, Merlin was unwilling to use this energy unless he had no other choice. Hence, there was still a lot of energy left, at least ninety percent of it.

Right now, however, Merlin could no longer save it for another day. He had to kill the Great Light Honorable Lord. Thus, he must unleash his most powerful strength.

“Annihilation function!”

As soon as Merlin’s voice fell, the energy inside his body began to combust. At least thirty percent of the energy was consumed by Merlin to unleash the annihilation function.

The annihilation function was pure destruction and obliteration. Therefore, just its aura alone was enough to make anyone’s blood run cold. Even the Great Light Honorable Lord, who was initially unconcerned, gradually turned fearful.

This aura struck fear into his heart!

This was not the first time Merlin had wielded the annihilation function. However, unleashing an annihilation function that consumed so much energy felt completely different than before. From Merlin’s perspective, the world seemed to transform before his eyes. All he saw now was threads of the power of the natural order.

The power of the natural order was like faint threads which connected every dimension. Even the Void Zone which did not have any time and space was filled with the power of the natural order.

“It turns out that the power of the natural order indeed controls everything...”

Merlin was contemplative. Such a sight could not be seen by a third-grade ultimate existence but instead, only the legendary Emperor Lords or fourth-grade ultimate existences.

The first-, second-, and even third-grade ultimate existences were accumulating the power of the natural order. Even though the power of the natural order accumulated by the third-grade ultimate existences could evolve into a subspace, it was still for the purpose of collecting more power of the natural order.

At fourth-grade, it was a substantive transformation which was different than all the other ultimate existences.

However, in the past, despite having the Golden Ray Armor, Merlin’s abilities had never achieved the level of a fourth-grade ultimate existence. Right now, as he had spent almost thirty percent of energy to wield the annihilation function, he had finally broken through the critical point and achieved the level of a fourth-grade ultimate existence. The faint threads of the power of the natural order before his eyes could only be seen by a fourth-grade ultimate existence.

“These faint threads, I’m afraid, represents that the entire Void Zone will eventually meet the same outcome, which is becoming part of the Void Zone... Overcoming the power of the natural order is to break every constraint!”

It was at this very moment that Merlin had realized how difficult it was to overcome or reverse the natural order. It was virtually impossible. This was because any life form which was born in the Void Zone was already a part of the Void Zone to begin with. So, it was impossible to detach every single constraint.

The power of the natural order was created as an enticement to induce life forms in the Void Zone to integrate themselves with the origin of the natural order. This denoted placing one’s personal imprint into the origin of the natural order and becoming inextricably linked with the Void Zone. In other words, they would rise and fall with the Void Zone!

This was the true reason why the Void Zone could not give birth to any existence which could overcome the natural order. Previously, Merlin did not know what overcoming or reversing the natural order signified.

Right now, however, he finally understood. Moreover, he understood why Aruba warned him not to integrate with the natural order and become an ultimate existence. The reason was that any life form which was born in the Void Zone was already inextricably linked to the Void Zone. So, overcoming the natural order, in the first place, was already a monumental challenge.

Subsequently, integrating with the natural order and becoming an ultimate existence was further entrenching the linkages with the Void Zone. Hence, taking this step meant that it was impossible to overcome the natural order. Even the powerful ancient Thirty-six Emperors would not be able to overcome it.

Multiple threads of the power of the natural order materialized before Merlin, allowing him to examine himself properly. His connection with the Void Zone was indeed quite entrenched but compared to his surroundings, his linkages seemed to be the least.

In contrast, the person with the deepest linkages was the Great Light Honorable Lord a distance away. Since he was already a third-grade ultimate existence, he was inextricably linked to the Void Zone. There was no way for him to overcome the natural order.

“The power of the natural order threads connecting my body and the Void Zone is much less. Firstly, it’s because I haven’t become an ultimate existence but most importantly, it’s probably because my consciousness came from another world.”

Merlin now discovered his advantage. He had originated from a different world hence, his connection with the Void Zone was very limited. It was only because he had occupied the body of a life form born in this Void Zone thus, he was somewhat linked.

However, compared to a life form which was born in the Void Zone, Merlin possessed a distinctive advantage.

“Annihilate!”

Merlin resumed his focus. He saw that the Great Light Honorable Lord’s face finally showed a hint of fear. A highly respected ruler of a region – a third-grade ultimate existence who controlled two Vestigial Tribe’s confinement dimension – finally sensed the danger of death.

“No...”

The Great Light Honorable Lord roared as he mobilized every last ounce of the power of the natural order. The subspace inside his body which contained the power of the natural order almost manifested itself. Therein contained an endless supply of the power of the natural order which would never run out.

Nonetheless, a gap in power was not something that could be compensated by mere numbers. By relying on the Golden Ray Armor, Merlin’s abilities had been enhanced to a fourth-grade ultimate existence. As a result, the Great Light Honorable Lord could barely put up any resistance. As soon as the power of the natural order on his body came into contact with the annihilation function, they melted away like snowflakes under the sun.

The Great Light Honorable Lord was truly terrified now. Ever since he had created the Great Light Region and controlled two of the Vestigial Tribe’s confinement dimensions as well as amassed countless first- and second-grade ultimate existences under him, he had never felt the threat of death.

No one dared to provoke the Great Light Honorable Lord. Right now, however, he was going to be defeated by Merlin. Surely, this battle was destined to propel Merlin from a nobody to a famous legend!

On the other hand, the Great Light Honorable Lord would only be mentioned occasionally, in passing, when people spoke about Merlin.

“Phew...”

Merlin’s annihilation function, upon consuming nearly one-third of his energy source, was forcibly enhanced to nearly on par with a fourth-grade existence. The resulting power was beyond imagination. Even the Great Light Honorable Lord could not put up any resistance. Wherever the annihilation function traveled, everything was annihilated and turned into ashes!

Slowly, the golden light on Merlin’s body dimmed and dissipated, revealing the magnificent Golden Ray Armor underneath. Earlier, when he was battling the Great Light Honorable Lord, his Golden Ray Armor could no longer remain concealed. Hence, the Golden Ray Armor had been exposed to everyone.

Regardless, at this moment, the Void Zone was inexplicably silent. There was no noise, and almost no looks of greed. So, what if that was the Golden Ray Armor? Who could take it away from Merlin?

Moments ago, Merlin had just vanquished the Great Light Honorable Lord. If even the Great Light Honorable Lord was dead, who would dare to covet Merlin's Golden Ray Armor? It would not be just greed but absolute foolishness!

Merlin still did not open his eyes. He was carefully savoring the wonderful sensation from earlier. There was certainly a substantial difference between a fourth-grade ultimate existence and the other grades.

Once his annihilation function was unleashed, his power had diminished rapidly, and the faint threads of the power of the natural order, too, disappeared without a trace.

Merlin knew that it was not because the threads had disappeared but because he no longer had the ability to see the "threads" that connected the Void Zone.

Chapter 877: The Vestigial Dimension!

The Void Zone regained its peacefulness after a part of the Great Light Region was destroyed. After all, whether it was Merlin's annihilation function or the Great Light Honorable Lord's vast power of the natural order, they were both incredibly frightening. If they could manipulate it, it would not be tough to destroy the entire Great Light Region.

Although almost half of the Great Light Region was destroyed, most of the Light Guardian second-grade ultimate existences were not lost but almost all the Light Envoy first-grade ultimate existences were killed.

That was because the Seventy-two Light Envoys had signed a slave contract with the Great Light Honorable God. If the Great Light Honorable God died, they would not live either.

As for the rest of the second-grade Light Guardians, they were terrified and did not dare to leave. Instead, they looked toward Merlin and listened to his orders.

Merlin hesitated for a moment before making the arrangements, and calmly said, "The Great Light Region no longer exists. Everyone has obtained freedom. Those who wish to stay can stay, and those who wish to leave can also leave. However, before leaving, I want to know

about the two Vestigial Tribe confinement dimensions that the Great Light Honorable God controlled.”

Merlin also wanted to force these Great Light Region ultimate existences into the Spell Caster civilization but finally gave up after careful consideration. If so many ultimate existences, especially second-grade ones appeared, they would not have a sense of belonging in the Spell Caster civilization and instead, become prone to problems.

Therefore, Merlin allowed them to leave on their own.

Many Light Guardians chose to leave but when they left, they told Merlin about the two Vestigial Tribe confinement dimensions the Great Light Honorable God possessed.

In the end, there was only one Light Guardian called Tuos, who stayed behind. He was shrouded in a black robe, and looked rather thin.

“Tuos, why didn’t you leave?”

Merlin calmly looked at Tuos.

“I’m willing to follow Sir Merlin!”

“Follow me?”

Tuos’ answer was fascinating. “Follow” meant that he would not be signing a contract but instead, take the initiative to take refuge under Merlin. This was very different from the other Light Guardians who had left one after another.

“Tuos, I’ve just killed your Great Light Honorable Lord but you still want to follow me?”

Merlin coldly asked.

“The Great Light Honorable Lord only has some restrictions over the Light Guardians and can’t control us. Now that he’s dead, our relationship with him has also ended. There’s nothing wrong with following Sir Merlin.”

Tuos replied evenly, his eyes flashing with a strange glint. This was undoubtedly a very bold contender.

“You’re very good at seizing opportunities... Very well. First, follow me to the two Vestigial Tribe confinement dimensions. If you’re satisfied, then I’ll leave the rest of the Great Light Region in the Vestigial Tribe confinement dimensions to you!”

Merlin had no intention of controlling the Great Light Region. Perhaps Tuos had also honed in on this point, and took the initiative to stay and follow Merlin. Once he took control of the Great Light Region, even if some parts were lost, the majority was still around. Tuos would undoubtedly instantly become a powerful presence in charge of a region.

This was Tuos’ ambition!

“Sir Merlin, I’ll take you to the two Vestigial Tribe confinement dimensions.”

Tuos was extremely excited as Merlin nodded. He put away the eighteen Aurora warships from the Great Light Honorable Lord, and casually gave Tuos an Aurora warship. Then, they flew toward the two Vestigial Tribe confinement dimensions that belonged to the Great Light Honorable Lord.

“Whoosh whoosh.”

The two streams of light were incredibly swift. In the Aurora warship, Merlin and Tuos soon reached the two Vestigial Tribe confinement dimensions. According to Merlin’s senses, these dimensions were almost the same as the Spell Caster civilization’s Glory City.

No power of the natural order could be sensed inside. This was a dimension used by the Vestigial Tribe specifically to imprison ultimate existences.

“Sir Merlin, this is where the Vestigial Tribe confinement dimensions the Great Light Honorable Lord possessed are.”

Tuos looked at the two confinement dimensions with envy. The reason why the Great Light Honorable Lord was so powerful, and how the Great Light Region could develop so quickly, was because of these two confinement dimensions.

The entire confinement dimension contained a large number of various warships as well as knowledge left behind by the Vestigial Tribe. For example, the Aurora warship was obtained by one of the confinement dimensions.

The other dimension was even more magical and had a mysterious virtual wonderland in it. Through the virtual wonderland, ultimate existences could simulate breaking through to the second-grade or even the third-grade. This was immensely useful to an ultimate existence.

Therefore, with these two Vestigial Tribe confinement dimensions, the Great Light Honorable Lord's position was extremely stable. Great Light Region had also attracted many powerful ultimate existences with the two confinement dimensions.

However, no matter how much he envied, Tuos did not dare to have any other ideas. Merlin had taken a fancy to the two confinement dimensions, so even if they were incredibly precious, Tuos did not dare to have any plans.

Furthermore, when it came to how precious something was, what could compare to the Golden Ray Armor on Merlin's body?

"Alright. You can go to the Great Light Region to integrate your forces. I'll go to these confinement dimensions."

Saying that, Merlin no longer bothered with Tuos, and directly flew into the first confinement dimension.

The moment he entered the dimension, an air similar to Glory City appeared, which indeed cut off the power of the natural order. If there were any differences, it would be that in this dimension, there were no signs of any living creatures. There was only dead silence.

Merlin was slightly disappointed. He did not sense any energy in this dimension. In other words, there was no energy that Merlin needed. The one-third of energy the Golden Ray Armor had lost would be difficult to replenish.

When Merlin flew over to a large piece of land, he suddenly felt a heavy pressure.

“Gravitational field?”

Merlin was surprised. This gravitational field was strong enough to make it difficult for Lords to move but it had no effect on ultimate existences. Furthermore, it could not be compared to the gravitational field on Merlin’s Golden Ray Armor.

This continent was covered with the gravitational field, which must have been arranged by the Vestigial Tribe. The Vestigial Tribe had arranged countless such gravitational fields that left the Void Zone civilizations helpless. Only ultimate existences could ignore gravitational fields of this level.

Merlin traveled around the continent and swept his Mind Power wide before finding a base. There were many warships there but since there was no one to operate them, they were left behind in the base.

Only warships like the Aurora warship that could be operated by just one person were needed by the Great Light Honorable God. As for the other terrifying warships, even if he had them, he could not use them either.

After all, not everyone had the Matrix. The void-level warships Merlin’s Glory City had manufactured were useful because the Atlans were helping the Spell Casters to master these warships. Otherwise, the Spell Caster civilization would not be able to use them no matter how many they had.

“This Vestigial Dimension has been completely emptied by the Great Light Honorable Lord. It’s of no value anymore.”

Merlin shook his head. There was nothing in this confinement dimension that caught his eye or had value. The warships might be very strong and be able to go against ultimate existences but they were useless to the current Merlin. Furthermore, the Spell Caster civilization was stable now and did not need these warships.

As a result, Merlin went directly to the second confinement dimension. He attached more importance to the second confinement dimension because there was the Vestigial Tribe’s mysterious power – the virtual wonderland!

What was the virtual wonderland? Well, it was not clear either. Although Tuos had mentioned it before, Merlin was still confused. Was it similar to his Illusory World?

People who have not experienced it would not understand how mysterious the virtual wonderland was.

“The virtual wonderland is on the continent in the middle of the dimension!”

Merlin entered the dimension and immediately moved toward the middle of the dimension. Soon, he saw a grand hall which had an architectural style typical of the Vestigial Tribe.

However, Merlin noticed that there was energy here. Furthermore, it was not weak.

“Energy? The Vestigial Tribe left energy in this dimension?”

Merlin was overjoyed. He quickly followed the direction of the energy and began to search. Soon, he found out that there was an incomparably large energy block connected under this magnificent building.

The high condensation of this energy block seemed to and embody the Vestigial Tribe’s frightening power system that could compress endless terrifying power.

At first, Merlin felt that this energy was not considered larch but he was shocked when he came into contact with it. This energy was more terrifying than the energy he had obtained in Glory City.

After all, that energy more specifically left behind by the Vestigial Tribe as the Golden Ray Armor’s energy source. Furthermore, the energy was not condensed, so it had almost covered the entire dimension.

This energy was only the size of a palace but it contained more energy than the Dimension Core of Glory City. Merlin was naturally overjoyed. He entered the confinement dimensions controlled by the Great Light Honorable Lord because he wanted to find something to supplement the Golden Ray Armor’s energy.

Now, he had finally found it!

“It’s not an accident that such a large amount of energy would be left here. Could it have something to do with this hall?”

Merlin narrowed his eyes. He felt that the traces of energy emitted by the energy block was directly absorbed by the magnificent hall above. There must be something in that hall that was constantly consuming a large amount of energy.

“Let’s take a look.”

Merlin was not in a hurry to absorb this energy but he became interested in the contents of the hall, especially the virtual wonderland, which had attracted many ultimate existences. Merlin also wanted to see with his own eyes how mysterious the Vestigial Tribe’s virtual wonderland was.

“Swoosh.”

Without any hesitation, Merlin stepped into the Vestigial Tribe’s hall.

Chapter 878: The Foundation of a Civilization!

“Beep, welcome to the Virtual Wonderland!”

The moment Merlin entered the hall, a mechanical female voice sounded, causing Merlin to jump in surprise.

“Please select from various programs in the Virtual Wonderland.”

Merlin then saw many strange projections appear in front of him. Fortunately, he had received a lot of knowledge regarding the Vestigial Tribe, so he naturally did not find this system strange.

The following programs were simulations of actual combat and harsh living environments. Most importantly, one could simulate an ultimate existence's power of the natural order as well as the origin of the natural order.

“Simulation, become an ultimate existence!”

Merlin hesitated for a moment before choosing to simulate an ultimate existence. Previously, Flarite failed to merge with the natural order and did not integrate his will into the origin of the natural order. Therefore, he could not become an ultimate existence.

Merlin had formed two ultimate Maxims to become a Lord but he had stopped there. Previously, Aruba had warned Merlin not to become an ultimate existence.

However, Merlin relied on the Golden Ray Armor to force his strength to reach a fourth-grade ultimate existence, barely reaching the “Emperor” level. Therefore, he finally knew the reason Aruba had warned him, and he also completely rejected the thought of becoming an ultimate existence.

However, to better understand the origin of the natural order and the power of the natural order as well as the entire Void Zone, it was naturally appropriate to simulate using this Virtual Wonderland.

“Choosing the simulation program, please wait...”

The mechanical female voice was very sweet. Merlin felt his vision turn black before his consciousness fell into a special state.

“Hum hum hum.”

At this time, Merlin's Darkness Maxim and Flame Maxim broke out from his body. Layers of light hung over his head, forming a powerful Lord's life force.

This was just the beginning. Following the Darkness Maxim and the Flame Maxim, the Ice, Earth, and Thunder ultimate Maxims also appear on his body.

Merlin had a total of six elements. He had originally combined six completely different Spell Models. Therefore, his limit was forming six ultimate Maxims, and becoming a Greatest Lord.

Even without Mind Power, just by relying on these six ultimate Maxims, Merlin would not have to fear any ultimate existences. That was because an ordinary ultimate existence cannot kill him, a Lord with six ultimate Maxims.

“How strange. Even ultimate Maxims can be simulated so realistically.”

Merlin felt amazed. He also knew that the “Virtual Wonderland” was more terrifying than his Illusory World. That was because not even Merlin could tell that the simulation was unreal. Furthermore, this was not controlled using Mind Power, so Merlin did not find anything wrong with it.

Merlin felt the power of the six ultimate Maxims in his body. Although Merlin had already possessed power beyond an ordinary ultimate existence, he had never experienced six ultimate Maxims. Now that he had the opportunity, he naturally had to experience it.

This feeling was indeed very real. Merlin could feel that there was a huge force constantly by his side. Now, he could draw out this force with just a simple thought.

Merlin knew that this was the origin of the natural order! Only quasi-ultimate existences who were ready to integrate their will into the origin of the natural order and become an ultimate existence could sense it.

Of course, a fourth-grade Emperor-level contender would also be able to sense the origin of the natural order. However, how many Emperor-level beings were there in the entire Void Zone?

“Merge!”

Merlin felt the great force and focused his will. Suddenly, the force burst out in an instant as if nothing could stop it from arriving.

It was the origin of the natural. However, the origin of the natural order which Merlin had drawn out was at least ten times larger than the one Flarite had drawn out. The mighty force seeped out, causing others to be at awe.

It turned out that drawing out the origin of the natural order was related to the strength of the creature who wanted to become an ultimate existence. Those who were already very strong, like Merlin who had six ultimate Maxims and became a Greatest Lord, could compete with an ordinary ultimate existence. The origin of the natural order that they drew out would naturally be stronger.

For such a strong contender, once they become an ultimate existence, their strength would grow even stronger. Rumor had it that the strongest beings below ultimate existences could directly become close to a second-grade ultimate existence once they had become an ultimate existence. Furthermore, compared to other ultimate existences, it would also be easier for them to reach the third-grade from the second-grade.

Good preparation was the key to success. Countless beings below ultimate level constantly accumulated, just to explode at the final moment.

Merlin had already fully immersed himself in the simulation. His will quickly extended into the origin of the natural order. Instantly, the black and vast feeling of merging with the Void Zone appeared in Merlin's heart.

At this time, as long as he willed it, he could mobilize the power of the Void Zone to destroy countless dimensions and kill any powerful existence.

This powerful force was the power of the natural order!

“Have I successfully merge with the natural order?”

Merlin was moved. When his will merged into the origin of the natural order, there were no earth-shattering changes. There was only an incredibly unique feeling before he naturally became an ultimate existence.

Subsequently, Merlin simulated the process from first-grade to second-grade, and the simulation was also very smooth. Merlin had become a second-grade ultimate existence without encountering any difficulties. The power of the natural order in his body accumulated continuously, making Merlin feel as if he was becoming stronger every day.

However, this simulation could only reach the second-grade. The third-grade involved the evolution of the power of the natural order into space, which the Virtual Wonderland could not simulate. As for the legendary fourth-grade, the Virtual Wonderland could not do it at all.

It turned out that the Vestigial Tribe's Virtual Wonderland also had its limits. If so, the third-grade and fourth-grade Emperor-level existences existed.

Even so, the Virtual Wonderland was quite mystical and terrible. If Flarite had a simulator in the Virtual Wonderland beforehand, his chances of success would have increased greatly.

Moreover, the Virtual Wonderland had already deeply researched the power of the natural order, the origin of the natural order, and ultimate existences and was very knowledgeable. Otherwise, the Virtual Wonderland could not simulate such a realistic feeling.

“We must keep this Virtual Wonderland! It's best to leave it to the Spell Caster civilization and be used as the foundation of the Spell Caster civilization!”

Merlin was also very excited. He did not need those warships and could even give up a few Aurora warships but the Virtual Wonderland was too important. It could be used as the foundation of a civilization.

With the Virtual Wonderland, many Spell Casters in the Spell Caster civilization would be able to simulate spell construction. Although it was not as good as Merlin's automatic construction with the Matrix, it was far better than continuously perfecting the Spell Models manually, where they would fail if they were careless.

Perhaps the Vestigial Tribe only used the Virtual Wonderland to have a deeper understanding of the relationship between ultimate existences and the Void Zone or to pry into the secrets of the Void Zone.

However, this Virtual Wonderland perfectly matched the Spell Casters' weakness and was sufficient to become the foundation of the Spell Caster civilization.

Although Merlin had founded the Mind Power system, many Mind Power Masters were still juggling Spell Model construction as well. With the Virtual Wonderland, even those who had little talent for constructing Spell Models would have enough opportunities to try in the Virtual Wonderland. They could simulate the most suitable Spell Model for themselves, and no one would suffer from the collapse of Spell Models because of unstable Spell Model.

Upon this thought, Merlin began to check the entire hall and spread his Mind Power in all directions. There were no illusions here, so his Mind Power could examine the entire hall.

“It’s an independent space!”

Merlin was shocked to realize that this hall was an independent space. It seemed that this space was the “Virtual Wonderland”, and what was connecting this Virtual Wonderland with the Vestigial Dimension was the large energy under this hall.

Merlin finally understood why the Vestigial Tribe put such a huge amount of energy here. It was to maintain the connection between the Virtual Wonderland and the dimension. He did not know how the Vestigial Tribe created the “Virtual Wonderland” but the Vestigial Tribe had too many secrets and too knowledgeable. Merlin could not become all-knowing even with the Golden Ray Armor.

The Vestigial Tribe’s power system was very complex, and the more complex it was, the more complex the knowledge system would be. The Vestigial Tribe divided their work from an early age based on the Brain of Life. Some people specialized in new technology and some more suitable for fighting and were trained to be the most powerful warriors. Others were suitable for being managers, and so on. Everyone in the Vestigial Tribe had their own duties. No one could learn everything about the Vestigial Tribe, let alone become all-knowing.

“I’ll just move the entire dimension to the Spell Caster civilization!”

Merlin’s only choice was to move this dimension back to the Spell Caster civilization and merge it with Glory City. Glory City would then truly become the center of the Spell Caster civilization, and its position would be incomparably strong and unshakable.

With the Virtual Wonderland, Glory City’s attraction would become incomparable anywhere. Then, as long as there was enough time, it would not be too difficult for the Spell Caster civilization to develop to a scale like the Great Light Region.

Chapter 879: Return!

In the quiet Void Zone, the Spell Caster civilization was flourishing again. Although there were only two ultimate existences, Merlin, the contender who had killed countless ultimate

existences, was in charge. The surrounding foreign civilizations also quietly followed the Spell Caster civilization.

More importantly, the Glory Alliance was formed, tying the surrounding foreign civilizations together with the Spell Caster civilization. There was no need to be chaotic as before. The Spell Caster civilization had plenty of dimensions and only need time to slowly develop them.

Arcane Wizards Augustus and Ceci had learned how powerful ultimate existences were in the outside world, and knew that they only belonged to the weakest among them. They were at the bottom of the first-grade, but there was still the second-grade, third-grade, and even fourth-grade. Therefore, they also worked hard to accumulate the power of the natural order, storing it into their bodies, and reach the second-grade.

However, this could not be done overnight and took a long time. Fortunately, the Spell Caster civilization's environment was very stable now. However, no one knew where Merlin went.

“Boom.”

Suddenly, Wizards Augustus and Ceci opened their eyes. They always paid attention to the movements around the Spell Caster civilization. Therefore, they would instantly know if any large movements occurred. This was also because the Great Light Honorable Lord that Merlin went up against was not to be trifled with, and the Spell Caster civilization was always on guard.

“What happened?”

Wizard Ceci asked in a low voice.

“I’m not sure. Let’s go see.”

Augustus and Ceci directly summoned the Aurora warships which transformed into two streams of light and flew toward the boundary of the Spell Caster civilization. The Aurora warship was naturally much faster than the power of the natural order.

As a result, the two did not spend much time and had reached the boundary of the Spell Caster civilization. At this time, they saw a huge dimension unexpectedly appear in the Spell Caster

civilization. The dimension was faintly wrapped with a huge force and was constantly moving toward the Spell Caster civilization.

“Glory Lord?”

Wizards Augustus and Ceci both felt the familiar life force but were not certain, so they called out doubtfully.

“Wizard Augustus, Wizard Ceci, the three of us will work together to move this Vestigial Dimension to Glory City.”

A familiar figure indeed had appeared behind this huge dimension. It was Merlin, who had left the Spell Caster civilization a long time ago.

“This is a Vestigial Dimension?”

Wizards Augustus and Ceci both looked at this huge dimension with shock. They had never thought that the dimension that Merlin was painstakingly moving would be a Vestigial Dimension.

“That’s right. This is a Vestigial Tribe confinement dimension I took from the Great Light Honorable Lord after killing him! There are some things inside that can become the foundation of our Spell Caster civilization!”

Merlin said mysteriously.

“You’ve killed the Great Light Honorable Lord? This can become the foundation of the Spell Caster civilization?”

Wizards Augustus and Ceci cast a glance at each other as if they could not keep up with the information. The news that came one after another was too shocking.

What kind of existence was the Great Light Honorable Lord? They were not ignorant now, and they knew that ultimate existences were divided into several grades. The Great Light Honorable Lord was a third-grade ultimate existence, and was a contender who controlled the Great Light Region with an iron fist.

When Merlin went, they were even worried about his safety. However, not only did Merlin return now but he had also killed the Great Light Honorable Lord and seized his Vestigial Dimension.

After a long moment, Augustus sighed, “Glory Lord, the Blackfire Lord and Arcane Wizard Setoh weren’t wrong about you...”

Merlin’s expression grew melancholic at the mention of the Blackfire Lord and Arcane Wizard Setoh, but he soon regained his composure. There were very few things that could cause his emotions to fluctuate now.

“Gentlemen, Teacher Blackfire and Arcane Wizard Setoh both wished that the Spell Caster civilization will continue to flourish. The dimension I’m moving this time can become the foundation of the Spell Caster civilization. As long as there’s enough time, our Spell Caster civilization can develop into a force as large as or perhaps even stronger than Great Light Region!”

Merlin’s tone was full of confidence.

Although Merlin used to support the Spell Caster civilization by himself before, the Spell Caster civilization at that time was strong on the outside but weak on the inside. Without Merlin, the Spell Caster civilization would return to its original scenario immediately. It was not the strength of the Spell Caster civilization but Merlin himself.

However, if there was the Vestigial Tribe Virtual Wonderland, in a few million years, the Spell Caster civilization would surely have many ultimate existences, and there would be a large number of Lords, Honorable Legends, and Legendary Wizards. By that time, the Spell Caster civilization would be strong as a whole. Even without Merlin, the Spell Caster civilization would be able to stand in the Void Zone and become a powerful civilization!

Arcane Wizards Augustus’ and Ceci’s expressions gradually became solemn. They were slightly curious about what exactly was in the dimension Merlin was moving for him to be so confident.

Thus, the three of them worked together to move the Vestigial Dimension. With two extra ultimate existences, Merlin’s speed naturally increased greatly. After only half a month, it was moved beside Glory City.

“Merge!”

Merlin controlled Glory City and knew that these two dimensions were two halves of one whole, and were created by the Vestigial Tribe. However, Merlin was not clear if they could merge or not. Therefore, he carefully observed the merging process of the dimensions. If anything odd happened, he would immediately stop merging.

Perhaps it was Merlin’s luck or perhaps it was because the dimensions were created by the Vestigial Tribe, the two dimensions merged easily without any hiccups.

“Swoosh.”

Merlin directly stepped into Glory City, and felt an extremely obvious change the moment he entered Glory City.

“Elements? The Mother Tree worked so quickly?”

How sensitive was Merlin’s Mind Power? He immediately sensed that there were Elements in Glory City. They were the foundation of the Spell Caster civilization.

If there were Elements, then Glory City could truly become the sacred land of the Spell Caster civilization, and become the well-deserved core of the Spell Caster civilization.

Merlin remembered the Mother Tree once said that it would take a long time for the transformation to succeed, and not even he knew if it would succeed or not.

“Glory Lord, the Mother Tree is truly amazing. He showed his real body and changed into countless offshoot trees which deeply rooted themselves in every continent in Glory City. That’s why Glory City also began to have a trace of Elements after so many years. However, these Elements are still rare, and a very long time is needed for it to increase just a little. Therefore, the transformation is only just beginning...”

Wizard Ceci explained with a smile. After Merlin left the Spell Caster civilization, it was Arcane Wizard Ceci who had looked after Glory City. He would often visit Glory City to

check the situation and communicate with the Mother Tree. Therefore, he knew all about the Elements being produced in Glory City.

Merlin nodded. He was very satisfied with the Mother Tree. Although it would take a long time to transform Glory City into a regular Spell Caster civilization dimension, having the Elements now was undoubtedly a very good start.

“Gentlemen, don’t you want to know what I brought back that I’d even dare call it the foundation of the Spell Caster civilization? I’ll take you there now. This treasure will be a great help to let you reach the second-grade.”

Merlin’s mysterious smile made Wizards Augustus and Ceci more confused, so they simply followed Merlin and flew to the depths of Glory City.

Glory City had merged with the Vestigial Dimension. Since Merlin controlled Glory City, he naturally knew where the “Virtual Wonderland” in the Vestigial Dimension was.

Soon, Merlin brought the two to the front of the shrine.

“This is the treasure I brought back. From this day onward, this place will become a forbidden area. No one can enter here without the authorization of us three!”

Merlin’s expression was very solemn. What was inside this shrine was not simple.

“To be able to become the foundation of the Spell Caster civilization... What is it? You must be exaggerating...”

Augustus and Ceci exchanged a glance. Both of them did not believe him. Even the land of origin could not become the foundation of the civilization.

Even the Giant Tribe’s ancestral land could not be said to be the foundation. To become the foundation, it must benefit the entire civilization and enable the overall strength of the civilization to be enhanced. Only something extremely important to the civilization could be called the foundation.

Merlin revealed a smile at the corners of his mouth but did not explain further. He merely pointed at the shrine and said, “You’ll know what it is when you go in and try.”

Augustus and Ceci walked into the shrine with suspicion. Merlin believed that when they had felt how mystical the “Virtual Wonderland” was, they would be more excited than he was.

For the Spell Caster civilization, Spell Casters constructing a Spell Model was the foundation. If anyone solved the difficulty of constructing a Spell Model, then it could be called the foundation of the Spell Caster civilization. The Virtual Wonderland perfectly solved this problem.

Merlin’s Matrix could only help him alone in building Spell Models, and was only of use to Merlin. Therefore, it was far from being the foundation of the Spell Caster civilization.

However, the Virtual Wonderland could benefit every Spell Caster. It was not an exaggeration to call it the foundation of the civilization.

The Virtual Wonderland was just as important to the Spell Caster civilization as the Brain of Life was to the Vestigial Tribe. It was because of the Brain of Life that the civilization gradually grew stronger and eventually engulfed the entire Void Zone.

However, the Spell Caster civilization would surely become stronger in the near future by relying on the “Virtual Wonderland”!

Chapter 880: Far-famed!

Merlin had already returned to the Spell Caster civilization but his deeds continued to spread. The entire Void Zone was too large. The Spell Caster civilization might not be known at all but the Great Light Region and the Great Light Honorable Lord were famous.

The Great Light Region had been in existence for millions of years, and the Great Light Honorable Lord was at the peak of third-grade and controlled two Vestigial Dimensions. If there was no Emperor-level, he was invincible.

However, the Great Light Honorable Lord was dead now. Moreover, he was killed by the hands of someone who had never been heard of. The impact was far beyond Merlin’s imagination.

In particular, Merlin still had the Vestigial Tribe's legendary ultimate weapon- the Golden Ray Armor! Therefore, Merlin's legend was even more eye-catching.

In a deep and dark area known as the dark territory, regular contenders would not be willing to approach this territory, much less stay here.

However, there was a monster like a giant tortoise here. It quietly lay in the Void Zone, seemingly deep in sleep.

“Rumble.”

A terrible shock caused the giant tortoise to slowly awaken. Then, a strange man with three heads stepped forward to the giant tortoise.

“Awaken, Sarsen Tortoise. Something major has happened.”

The Three-headed man cried, and the giant tortoise finally opened its huge eyes and looked at the man doubtfully. “Something major? What happened?”

“Haha, do you know the Great Light Region and the Great Light Honorable Lord?”

The Three-headed man laughed.

“Of course, I do. The Great Light Honorable Lord once wanted to capture me, and we even retaliated but we couldn't do anything against him. He's a very troublesome person. What about it?”

“The Great Light Honorable Lord is dead!”

The Three-headed man said a shocking piece of news.

“What? The Great Light Honorable Lord died? He was so difficult to deal with and controlled two Vestigial Dimensions. His strength even reached the peak of the third-grade. Who could have killed him? Did a fourth-grade Emperor-level contender appear?”

The giant tortoise also became alert. Its huge body only moved slightly but the Void Zone surrounding it seemed to shake.

“Would a fourth-grade Emperor-level contender appear so easily? Do you think the Great Light Honorable Lord would offend a fourth-grade Emperor-level contender? This time, it wasn’t even an ultimate existence who had killed the Great Light Honorable Lord.”

The giant tortoise’s body shook even more violently. Its limbs stretched out and its body trembled. “Not even an ultimate existence but able to kill the Great Light Honorable Lord. There’s nothing else that can do that except the Vestigial Tribe’s ultimate weapon. Speak, is it the Vestigial Tribe’s ultimate weapon?”

The Three-headed man nodded in surprise and said, “Yes, you’re right. This person is called Merlin. It’s said that he came from a very remote territory. He was lucky enough to obtain the Vestigial Tribe’s ultimate weapon, a Golden Ray Armor that was comparable to the ancient Thirty-six Emperors!”

The Golden Ray Armor was a terrifying weapon that was comparable to the ancient Thirty-six Emperors. It was not surprising that even the Great Light Honorable Lord was killed. However, the giant tortoise knew about the Vestigial Tribe’s secrets and said doubtfully, “He doesn’t have the Vestigial Tribe’s bloodline but he can use the Vestigial Tribe’s Golden Ray Armor?”

“That’s what we’re confused about. There might be some hidden dangers. Merlin, who obtained the Golden Ray Armor, can’t fully utilize its power. Otherwise, the Great Light Honorable Lord wouldn’t have been so bold as to fight with him.”

A strange glint flashed in the Three-headed man’s eyes.

“The Great Light Honorable Lord was foolish. Just because the other party couldn’t fully utilize the power of the Golden Ray Armor, he attacked him? That’s the height of foolishness. Besides the ancient Thirty-six Emperors, even an ordinary Emperor-level contender would find it difficult to destroy the Golden Ray Armor. In my opinion, the Great Light Honorable Lord grew greedy and thought he could obtain the Golden Ray Armor, and ended up getting himself killed. By the way, is the reason you woke me up to take his Golden Ray Armor? I won’t go...”

The giant tortoise glanced at the Three-headed man. This news was truly shocking. The appearance of the Golden Ray Armor can cause people to go insane but he was not crazy

enough to think that he could obtain the Golden Ray Armor. After all, the Great Light Honorable Lord's fate was left out in the open for all to see. He did not want to become the second Great Light Honorable Lord.

"Haha, although the Golden Ray Armor has appeared, I'm not as ambitious as the Great Light Honorable Lord. He wanted to control everything he could see. Would it be that easy to kill someone possessing the Golden Ray Armor?"

"If you didn't wake me up for the Golden Ray Armor, then what do you want?"

The giant tortoise was suspicious.

"Sarsen Tortoise, you were born with a special life, and finally reached the peak of third-stage after a long time. Although I'm a weak creature, I've reached this point today step by step but I've lost the possibility of advancing further. The legendary fourth-stage, huh. Rumor has it that only after reaching the fourth-stage can one understand the secret of the Void Zone. Only Emperor-level contenders, like the ancient Thirty-six Emperors, can grasp the secret of the Void Zone. We've lived long enough, and you've been sleeping for a long time. Don't you have any desires?"

"Desire?"

The giant tortoise seemed to fall into its memories. A long time passed before it raised its head and asked, "You mean, to enter that place?"

"Yes. Only then can we go further!"

A trace of madness crept into the Three-headed man's eyes.

"You're insane... However, it seems to be worth looking forward to!"

The giant tortoise also revealed a little smile. Just like the Three-headed man had said, he had lived long enough. For a long time, all that he did was sleep, to the point where he lost the meaning of life. That was because he could no longer go any further.

However, only fourth-grade ultimate existences could truly know the mystery of the Void Zone and stand at the apex. He was willing to take risks to get just a glimpse of this mystery.

“That place is too dangerous for both of us. We’ve invited the Great Light Honorable Lord before but he didn’t have the guts to go in. Hmph, now he tried to be brave and obtain the Golden Ray Armor but the results caused a fatal disaster for himself. However, this person who has the Golden Ray Armor is more suitable than the Great Light Honorable Lord. With him around, we’ll have more assurance when entering that place.”

There was a faint hint of expectation in the Three-headed man’s eyes. He had waited too long for this day. Even if there was only a glimmer of hope, he would not give up.

“Alright, then let’s go find the person who had killed the Great Light Honorable Lord...”

The giant tortoise and the Three-headed man swiftly left the dark territory.

...

In a prosperous territory, in a grand hall, an ultimate existence with a single horn on his head was indulging himself in a few concubines. At this moment, a purple light suddenly entered the palace, and a burly foreign person with a domineering life force appeared.

“Violefire King, why have you come to my shrine?”

This purple figure was the Violefire King of Violefire Region and was also a peak third-grade ultimate existence.

“Honorable God Blackfrost, as one of the most powerful gods in the Void Zone, don’t you want to go one step further and command the gods’ territory, and reproduce the glory created by the Darkness God Emperor, one of the original Thirty-six Emperors?”

The Honorable God Blackfrost’s face was cold. He was the strongest existence among the gods in the Void Zone and was at the peak of the third-grade. In the past, he also had fought under the only God Emperor of the Thirty-six Emperors against the Vestigial Tribe.

Unfortunately, there was only one Emperor-level god in the war, and the Darkness God Emperor – one of the Thirty-six Emperors, died in the hands of the Vestigial Tribe. From then on, the gods also declined. Now, many foreign civilizations in the Void Zone were not afraid of gods at all.

“Boom.”

The Honorable God Blackfrost’s body was covered with a layer of black ice. The temperature of the entire shrine plummeted as if able to freeze even consciousnesses.

“Violefire King, get to the point!”

The Honorable God Blackfrost was very impolite. The mention of the Darkness God Emperor hit a sore nerve, and he did not allow anyone to speak about the Darkness God Emperor. As one of the most powerful gods under the Darkness God Emperor, the Honorable God Blackfrost was very eager to reproduce the Darkness God Emperor’s glory. However, after so many years, he knew that he would never enter the realm of a God Emperor.

After all, there were many gods in the Void Zone but only the Darkness God Emperor became a God Emperor. Since there was no more hope, the Honorable God Blackfrost naturally stopped trying, and indulged himself every day in a stupor.

“Haha, Honorable God Blackfrost, if you can still get mad, then that means you haven’t let it go yet. Do you know about the Great Light Honorable Lord?”

“The Great Light Honorable Lord? Why are you mentioning him?”

The Honorable God Blackfrost asked coldly. Although he had not met the Great Light Honorable Lord before, as someone who was also a peak third-grade ultimate existence, the Honorable God Blackfrost naturally had heard of him before.

“The Great Light Honorable Lord is dead! Furthermore, he was killed by someone who wasn’t even an ultimate existence.”

The Violefire King delivered a piece of shocking news.

“The Great Light Honorable Lord is dead? He was killed by someone who wasn’t even an ultimate existence? Did the Vestigial Tribe reappear?”

As an ultimate existence who had fought with the Vestigial Tribe in the past, the Honorable God Blackfrost was very familiar with the Vestigial Tribe. Moreover, he did not want to encounter that powerful civilization again in his life.

After all, the Darkness God Emperor died in the hands of the Vestigial Tribe.

“It’s not the Vestigial Tribe but it’s related to them. When the Vestigial Tribe was annihilated, not a single drop of their bloodline was left behind. How can the Vestigial Tribe appear again? That person is called Merlin. He’s from a remote territory but for some reason, he possesses a Golden Ray Armor. Furthermore, he can even use the Golden Ray Armor. Although he can’t utilize its full strength, he still killed the Great Light Honorable Lord with the special and powerful Golden Ray Armor.”

The Violetfire King explained in detail.

The Honorable God Blackfrost suddenly raised his head and sneered, “Violetfire King, you want to seize the Golden Ray Armor? Haha, you don’t know how powerful the Vestigial Tribe is? Even the Great Light Honorable Lord was killed. That Golden Ray Armor is comparable to the ancient Thirty-six Emperors, but you still dare to seize it?”

“Honorable God Blackfrost, Merlin can’t fully utilize the power of his Golden Ray Armor, and he’s not a descendant of the Vestigial Tribe. According to my observation, he can only use it a few times and barely reach the strength of a fourth-grade Emperor-level. You used to be under the Darkness God Emperor and had seen many fourth-grade Emperor-level contenders. I also know you have life-saving methods that can temporarily resist a fourth-grade force. If you and I work together, won’t our chances at success be much higher?”

“Is that so? What if we obtain the Golden Ray Armor? There’s two of us, but only one Golden Ray Armor!”

“I’m different from you. I only want to obtain the Golden Ray Armor and experience the feeling of my strength increasing to the fourth-grade. Thereafter, I’ll give you the Golden Ray Armor. How about that?”

The Violetfire King's words deeply moved the Honorable God Blackfrost. He also knew that the Violetfire King's understanding was very high, and that he always wanted to enter the fourth-grade but had never succeeded.

He only took a fancy to the Golden Ray Armor because it would let his strength reach the fourth-grade. Furthermore, the Violetfire King was very powerful as well. If the two of them worked together, they were very likely to succeed.

Furthermore, the Honorable God Blackfrost had some life-saving methods. Even if it was against an Emperor-level ultimate existence, he could calmly escape.

"Fine, it's a deal. I'll go!"

After pondering for a long time, the Honorable God Blackfrost finally raised his head. His heart had moved long ago and already returned to the Spell Caster civilization but his deeds continued to spread. The entire Void Zone was too large. The Spell Caster civilization might not be known at all but the Great Light Region and the Great Light Honorable Lord were famous.

The Great Light Region had been in existence for millions of years, and the Great Light Honorable Lord was at the peak of third-grade and controlled two Vestigial Dimensions. If there was no Emperor-level, he was invincible.

However, the Great Light Honorable Lord was dead now. Moreover, he was killed by the hands of someone who had never been heard of. The impact was far beyond Merlin's imagination.

In particular, Merlin still had the Vestigial Tribe's legendary ultimate weapon- the Golden Ray Armor! Therefore, Merlin's legend was even more eye-catching.

In a deep and dark area known as the dark territory, regular contenders would not be willing to approach this territory, much less stay here.

However, there was a monster like a giant tortoise here. It quietly lay in the Void Zone, seemingly deep in sleep.

"Rumble."

A terrible shock caused the giant tortoise to slowly awaken. Then, a strange man with three heads stepped forward to the giant tortoise.

“Awaken, Sarsen Tortoise. Something major has happened.”

The Three-headed man cried, and the giant tortoise finally opened its huge eyes and looked at the man doubtfully. “Something major? What happened?”

“Haha, do you know the Great Light Region and the Great Light Honorable Lord?”

The Three-headed man laughed.

“Of course, I do. The Great Light Honorable Lord once wanted to capture me, and we even retaliated but we couldn’t do anything against him. He’s a very troublesome person. What about it?”

“The Great Light Honorable Lord is dead!”

The Three-headed man said a shocking piece of news.

“What? The Great Light Honorable Lord died? He was so difficult to deal with and controlled two Vestigial Dimensions. His strength even reached the peak of the third-grade. Who could have killed him? Did a fourth-grade Emperor-level contender appear?”

The giant tortoise also became alert. Its huge body only moved slightly but the Void Zone surrounding it seemed to shake.

“Would a fourth-grade Emperor-level contender appear so easily? Do you think the Great Light Honorable Lord would offend a fourth-grade Emperor-level contender? This time, it wasn’t even an ultimate existence who had killed the Great Light Honorable Lord.”

The giant tortoise’s body shook even more violently. Its limbs stretched out and its body trembled. “Not even an ultimate existence but able to kill the Great Light Honorable Lord.

There's nothing else that can do that except the Vestigial Tribe's ultimate weapon. Speak, is it the Vestigial Tribe's ultimate weapon?"

The Three-headed man nodded in surprise and said, "Yes, you're right. This person is called Merlin. It's said that he came from a very remote territory. He was lucky enough to obtain the Vestigial Tribe's ultimate weapon, a Golden Ray Armor that was comparable to the ancient Thirty-six Emperors!"

The Golden Ray Armor was a terrifying weapon that was comparable to the ancient Thirty-six Emperors. It was not surprising that even the Great Light Honorable Lord was killed. However, the giant tortoise knew about the Vestigial Tribe's secrets and said doubtfully, "He doesn't have the Vestigial Tribe's bloodline but he can use the Vestigial Tribe's Golden Ray Armor?"

"That's what we're confused about. There might be some hidden dangers. Merlin, who obtained the Golden Ray Armor, can't fully utilize its power. Otherwise, the Great Light Honorable Lord wouldn't have been so bold as to fight with him."

A strange glint flashed in the Three-headed man's eyes.

"The Great Light Honorable Lord was foolish. Just because the other party couldn't fully utilize the power of the Golden Ray Armor, he attacked him? That's the height of foolishness. Besides the ancient Thirty-six Emperors, even an ordinary Emperor-level contender would find it difficult to destroy the Golden Ray Armor. In my opinion, the Great Light Honorable Lord grew greedy and thought he could obtain the Golden Ray Armor, and ended up getting himself killed. By the way, is the reason you woke me up to take his Golden Ray Armor? I won't go..."

The giant tortoise glanced at the Three-headed man. This news was truly shocking. The appearance of the Golden Ray Armor can cause people to go insane but he was not crazy enough to think that he could obtain the Golden Ray Armor. After all, the Great Light Honorable Lord's fate was left out in the open for all to see. He did not want to become the second Great Light Honorable Lord.

"Haha, although the Golden Ray Armor has appeared, I'm not as ambitious as the Great Light Honorable Lord. He wanted to control everything he could see. Would it be that easy to kill someone possessing the Golden Ray Armor?"

"If you didn't wake me up for the Golden Ray Armor, then what do you want?"

The giant tortoise was suspicious.

“Sarsen Tortoise, you were born with a special life, and finally reached the peak of third-stage after a long time. Although I’m a weak creature, I’ve reached this point today step by step but I’ve lost the possibility of advancing further. The legendary fourth-stage, huh. Rumor has it that only after reaching the fourth-stage can one understand the secret of the Void Zone. Only Emperor-level contenders, like the ancient Thirty-six Emperors, can grasp the secret of the Void Zone. We’ve lived long enough, and you’ve been sleeping for a long time. Don’t you have any desires?”

“Desire?”

The giant tortoise seemed to fall into its memories. A long time passed before it raised its head and asked, “You mean, to enter that place?”

“Yes. Only then can we go further!”

A trace of madness crept into the Three-headed man’s eyes.

“You’re insane... However, it seems to be worth looking forward to!”

The giant tortoise also revealed a little smile. Just like the Three-headed man had said, he had lived long enough. For a long time, all that he did was sleep, to the point where he lost the meaning of life. That was because he could no longer go any further.

However, only fourth-grade ultimate existences could truly know the mystery of the Void Zone and stand at the apex. He was willing to take risks to get just a glimpse of this mystery.

“That place is too dangerous for both of us. We’ve invited the Great Light Honorable Lord before but he didn’t have the guts to go in. Hmph, now he tried to be brave and obtain the Golden Ray Armor but the results caused a fatal disaster for himself. However, this person who has the Golden Ray Armor is more suitable than the Great Light Honorable Lord. With him around, we’ll have more assurance when entering that place.”

There was a faint hint of expectation in the Three-headed man's eyes. He had waited too long for this day. Even if there was only a glimmer of hope, he would not give up.

“Alright, then let's go find the person who had killed the Great Light Honorable Lord...”

The giant tortoise and the Three-headed man swiftly left the dark territory.

...

In a prosperous territory, in a grand hall, an ultimate existence with a single horn on his head was indulging himself in a few concubines. At this moment, a purple light suddenly entered the palace, and a burly foreign person with a domineering life force appeared.

“Violefire King, why have you come to my shrine?”

This purple figure was the Violefire King of Violefire Region and was also a peak third-grade ultimate existence.

“Honorable God Blackfrost, as one of the most powerful gods in the Void Zone, don't you want to go one step further and command the gods' territory, and reproduce the glory created by the Darkness God Emperor, one of the original Thirty-six Emperors?”

The Honorable God Blackfrost's face was cold. He was the strongest existence among the gods in the Void Zone and was at the peak of the third-grade. In the past, he also had fought under the only God Emperor of the Thirty-six Emperors against the Vestigial Tribe.

Unfortunately, there was only one Emperor-level god in the war, and the Darkness God Emperor – one of the Thirty-six Emperors, died in the hands of the Vestigial Tribe. From then on, the gods also declined. Now, many foreign civilizations in the Void Zone were not afraid of gods at all.

“Boom.”

The Honorable God Blackfrost's body was covered with a layer of black ice. The temperature of the entire shrine plummeted as if able to freeze even consciousnesses.

“Violetfire King, get to the point!”

The Honorable God Blackfrost was very impolite. The mention of the Darkness God Emperor hit a sore nerve, and he did not allow anyone to speak about the Darkness God Emperor. As one of the most powerful gods under the Darkness God Emperor, the Honorable God Blackfrost was very eager to reproduce the Darkness God Emperor’s glory. However, after so many years, he knew that he would never enter the realm of a God Emperor.

After all, there were many gods in the Void Zone but only the Darkness God Emperor became a God Emperor. Since there was no more hope, the Honorable God Blackfrost naturally stopped trying, and indulged himself every day in a stupor.

“Haha, Honorable God Blackfrost, if you can still get mad, then that means you haven’t let it go yet. Do you know about the Great Light Honorable Lord?”

“The Great Light Honorable Lord? Why are you mentioning him?”

The Honorable God Blackfrost asked coldly. Although he had not met the Great Light Honorable Lord before, as someone who was also a peak third-grade ultimate existence, the Honorable God Blackfrost naturally had heard of him before.

“The Great Light Honorable Lord is dead! Furthermore, he was killed by someone who wasn’t even an ultimate existence.”

The Violetfire King delivered a piece of shocking news.

“The Great Light Honorable Lord is dead? He was killed by someone who wasn’t even an ultimate existence? Did the Vestigial Tribe reappear?”

As an ultimate existence who had fought with the Vestigial Tribe in the past, the Honorable God Blackfrost was very familiar with the Vestigial Tribe. Moreover, he did not want to encounter that powerful civilization again in his life.

After all, the Darkness God Emperor died in the hands of the Vestigial Tribe.

“It’s not the Vestigial Tribe but it’s related to them. When the Vestigial Tribe was annihilated, not a single drop of their bloodline was left behind. How can the Vestigial Tribe appear again? That person is called Merlin. He’s from a remote territory but for some reason, he possesses a Golden Ray Armor. Furthermore, he can even use the Golden Ray Armor. Although he can’t utilize its full strength, he still killed the Great Light Honorable Lord with the special and powerful Golden Ray Armor.”

The Violetfire King explained in detail.

The Honorable God Blackfrost suddenly raised his head and sneered, “Violetfire King, you want to seize the Golden Ray Armor? Haha, you don’t know how powerful the Vestigial Tribe is? Even the Great Light Honorable Lord was killed. That Golden Ray Armor is comparable to the ancient Thirty-six Emperors, but you still dare to seize it?”

“Honorable God Blackfrost, Merlin can’t fully utilize the power of his Golden Ray Armor, and he’s not a descendant of the Vestigial Tribe. According to my observation, he can only use it a few times and barely reach the strength of a fourth-grade Emperor-level. You used to be under the Darkness God Emperor and had seen many fourth-grade Emperor-level contenders. I also know you have life-saving methods that can temporarily resist a fourth-grade force. If you and I work together, won’t our chances at success be much higher?”

“Is that so? What if we obtain the Golden Ray Armor? There’s two of us, but only one Golden Ray Armor!”

“I’m different from you. I only want to obtain the Golden Ray Armor and experience the feeling of my strength increasing to the fourth-grade. Thereafter, I’ll give you the Golden Ray Armor. How about that?”

The Violetfire King’s words deeply moved the Honorable God Blackfrost. He also knew that the Violetfire King’s understanding was very high, and that he always wanted to enter the fourth-grade but had never succeeded.

He only took a fancy to the Golden Ray Armor because it would let his strength reach the fourth-grade. Furthermore, the Violetfire King was very powerful as well. If the two of them worked together, they were very likely to succeed.

Furthermore, the Honorable God Blackfrost had some life-saving methods. Even if it was against an Emperor-level ultimate existence, he could calmly escape.

“Fine, it’s a deal. I’ll go!”

After pondering for a long time, the Honorable God Blackfrost finally raised his head. His heart had moved long ago!
