

War God 1091

Chapter 1091 - Asura Killing Path

This skinny man was probably only as tall as Long Chen's chest. He wore a set of simple and crude grey long robes and coarse trousers that were completely out of place with the two handsome men and women around him. If they didn't know his identity, they would have thought that he was a beggar who had snuck into the Evil Dragon Palace. However, as long as one observed carefully, they would be able to tell the difference between this guy and the others. There was a grey stream of air circling around his body and a thin layer of air covering his body, giving him a mysterious and indiscernible feeling.

This man's eyes, in particular, were lifeless and filled with a mysterious grey light. If one looked closely at his eyes, they would be horrified.

Long Chen understood, this man was the number one disciple of the Evil Dragon Palace, the second junior brother that Liu Qingfeng had spoken of.

The arrival of the Demonic Dragon Hall Master's disciples attracted the attention of the Vice Hall Master and their disciples. They were the most arrogant group of people within the Evil Dragon Palace. Other than the three being more low-key, the rest of the people, such as Zheng Dongyang and Yang Yu, were all arrogant and despotic. Although Liu Qingfeng was the oldest with them, he was also the weakest, so they really felt incompatible.

Jiang Qing was currently in front of Long Chen. He nudged Long Chen on the elbow and introduced him to Long Chen with a lowered head, "You and Zheng Dongyang are at loggerheads. Let me introduce them to you."

Long Chen nodded as he looked at the outstanding disciples. He could feel a killing intent from the grey robed man in the middle. The only difference was that the killing intent coming from the grey robed man was grey, a type of killing intent that would cause people to feel dead and dead.

"This grey robed man is the second disciple of the Palace Master, and also the number one person among the disciples of my Evil Dragon Palace. His strength is at the early stage of Sixth Stage of the Divine Martial Stage and he has already cultivated the Infinite Gold. The Asura Sword Prison is one of the Nine Realms, like the Sword Soul Imperial Palace, it is the world of the Soldier. As for the people in the Asura Sword Prison, they usually cultivate the way of the Asura, which is cold, heartless, and speechless. I have also experienced the terror of the Asura's way of killing.

"The Asura Sword Prison's human Asura Path?" Long Chen secretly noted down all of this information. This way, in this battle of trials, not only would he have to be careful of Jiang Qing, but he would also have to be careful of this second disciple who trained in the Shura's Death Domain.

"His name is Ye Zheng. Even though I am the leader of the team, I will be in charge of bringing you all to the place of training, and then, you guys will almost disappear. Only if you encounter danger that is not planned, will I have the authority to show myself, and Ye Zheng is your captain. Jiang Qing added in the end.

"Him?" With regards to this point, Long Chen did not mean anything. Everything he did was to become stronger, and this trial by fire was also an opportunity for him. He even had the chance to come into contact with the War God Palace, who was surrounded by the ninety-nine golden demonic pillars.

It had to be known that from the Sword Soul Imperial Palace on the other side, Ling Xi was already at the pinnacle of disciples.

Only by reaching the pinnacle would he be qualified to be on par with her.

However, Long Chen believed that for a decision maker, they had to first have an analytical mind and be able to speak a few words. However, looking at Ye Zheng's appearance, he should only have a few words, could he really become a good team leader?

"Let me introduce the two people below to you." As Long Chen was thinking, Jiang Qing looked towards the other two young talents, the extremely moving handsome man and woman.

"Wu Yang and Wu Yue. They were siblings and were of the same father and mother, and Wu Yang was ten years older than Wu Yue. Although they were siblings, their bodies were the opposite of each other. Wu Yang possessed the Sacred Flame Yang Body, his attribute was masculine and fiery, and had the strongest yang attribute, while Wu Yue had the opposite. His physique was Gui Shui Yin Body, and his attribute was yin and water. Among them, Wu Yang cultivates my Evil Dragon Palace's most powerful secret scripture, the Sacred Solar Flame Technique, while Wu Yue cultivates my Evil Dragon Palace's most yin and gentlest battle skill — — Celestial Yin Decapitation Water Technique. The realm of both of them is Fifth Stage of the Divine Martial Realm and both of them have passed through there. When combined, their fighting strength is extraordinary and catching up to the Sixth Stage of the Divine Martial Stage is not impossible. "

Ye Zheng, Wu Yang, and Wu Yue, were the three great disciples of the Demonic Dragon Hall Master s from the others.

didn't dare to be careless when treating them. After all, a level like Wu Yang and Wu Yue could already be considered as Palace Chief in the Eastern Emperor Region, and they were merely a small disciple here. Their attributes could even allow them to have super strong battle prowess after joining hands.

As for Ye Zheng, there was even less of a need to talk about him.

In a short period of time, Jiang Qing had already finished introducing the disciples of the Vice Hall Master to Long Chen. As for the disciples of the Vice Hall Master, he did not introduce them, as long as the disciples of the Vice Hall Master were present, they would at least be able to pass through the wind tribulation.

They were all Fifth Stage of the Divine Martial Realm, strong practitioners of the Wind Fire Thunder Tribulation. When Long Chen was at the perfection-stage of the Second Stage of the Divine Martial Realm, he was already on par with these warriors, and was separated by a few ranks. From this, it could be seen how terrifying the ancestral dragon blood he carried with him, was.

Naturally, the disciples of the Demonic Dragon Hall Master had also come to wait for the return of the Demonic Dragon Hall Master.

However, when Jiang Qing was introducing him to Long Chen, Zheng Dongyang also saw Long Chen, the person who had almost pierced his heart with a sword. was still lying on his bed recuperating, such a deep hatred that Zheng Dongyang remembered it every single moment. Seeing Long Chen now, he did not walk over to Ye Zheng, but went to's side and whispered to him in the direction of Long Chen.

Actually, he had thought that it was Zhao Xueji who had come, and therefore Long Chen's arrival made him extremely excited!

This was a chance for revenge!

Zheng Dongyang and Wu Yue hurriedly followed. Liu Qingfeng looked left and right and had no choice but to follow as well, and the only person who remained outside was Ye Zheng, who had his arms crossed and had been silent all this time. Even if they approached Long Chen, Ye Zheng didn't have any expression on his face.

A group of four arrived in front of Jiang Qing.

"Vice Hallmaster Jiang." Wu Yang first cupped his hands towards Jiang Qing, then said, "When Junior Disciple went into closed door cultivation, I heard that you accepted a young disciple called Long Chen. Your cultivation is extremely outstanding, so you must be this person, right?"

Jiang Qing is an old cunning fox, so how could this kind of battle formation scare him? He laughed lightly and said: "That's right, he is indeed a talented person, if we are not about to participate in the Trial's War and not suffer any losses, you can spar with him and test his strength."

Jiang Qing's words had hit right into Wu Yang's heart.

He smiled awkwardly and said, "Compared to him, I am already considered a senior. How could I fight against him? It's not easy to cultivate to this level, but if you get crippled, it won't be worth it, right? "

With that, he looked towards Zheng Dongyang, Wu Yue and the rest. Wu Yue looked to be a gentle and gentle woman. At this time, she smiled faintly, and a tranquil temperament was born.

She said, "Brother has cultivated for many years, so it is indeed not appropriate to fight with juniors. With a trial by fire battle at hand, you can display how much strength you have by then. "

Wu Yang laughed heartily: "Alright, then let's wait for the battle of the trial. If fate wills it, then come and teach me some moves."

They were used to Ye Zheng not making any movements, and in their eyes, Ye Zheng was such a person. However, when it was time for him to make a move, he would definitely not be vague.

They knew that this time, the one leading the group was Jiang Qing, and that it would be difficult for him to kill Long Chen under Jiang Qing's watch, but no one knew what would happen next, or perhaps, they might really be able to unknowingly kill Long Chen.

However, he was not afraid. As long as he left the Emperor Star Realm, under his Blood Escape, no one on the scene would be able to catch up to him. This was his undefeatable ability.

Back then, Chu Tiange did not even kill Long Chen, let alone them.

He continued to smile as he waited for the return of the Demonic Dragon Hall Master. Very quickly, he smiled, because in the range of his divine sense, the Demonic Dragon Hall Master had already appeared.

"Greetings hall master!"

Following Jiang Qing, everyone saluted towards the legendary hall master, it was the same for Long Chen, he raised his head slightly, in the sky far away, a figure was rapidly approaching, his speed was extremely fast, in the blink of an eye, he had already traveled from the distant sky, to climbing platform, and in front of everyone's eyes!

Long Chen's eyes twitched, he was a little dazed. In his imagination, this Demonic Dragon Hall Master should be a person who was even more imposing and domineering than Jiang Qing, with a kind of evil dragon and tiger aura, an extremely majestic type, but he never would have thought that he would actually be an absolute fatty, moreover a huge fatty. His fat body was wrapped in beautiful silk clothing, and his body was like a ball.

Chapter 1092 - Moon Demon Cave

This fatty was simply like a rich upstart, and wasn't like the hall master of one of the three thousand great halls.

However, regarding his appearance, no one was surprised. This was the first time Long Chen had seen him, and it was also logical for him to be a little surprised. He deeply understood the principle that a person could not judge a book by their appearance, so he quickly lowered his head and did not speak again.

Sure enough, Demonic Dragon Hall Master was able to discover the existence of a stranger in an instant. A hint of doubt flashed in his eyes, and then, he did not bother with it, but looked around at the crowd, especially his own disciples, all of them were already present. In three days, all of you will depart. "

"Master, may I ask what our mission is?" Wu Yang asked quickly.

Usually, if a difficult task was completed, the points obtained would be more, and the ranking would be very high, but if this was the case, the probability of death would be higher, but if it was an easy task, then it would be the opposite, and even if the task was completed, the score would probably not be high.

Of course, since it was a war of trials, there were no easy missions, and missions had levels. Evil Dragon Palace could only go out from the middle tier, and the top tier halls could directly select super difficult missions with high points!

Everyone was anticipating the answer of this Demonic Dragon Hall Master who had a very happy appearance.

As he spoke, the flesh on his face trembled, as if he was a busy rich man without much pressure. He said, "I don't know if this luck is good or bad, but the task chosen is rather difficult for you!"

"Difficult?" Amongst the disciples, only the disciples of the Vice Hall Master did not have a good expression, but disciples of the Palace Master level, with a figure like Ye Zheng leading them, were extremely daring. The more difficult the mission, the more points and rewards they would receive! The War God Palace's reward was not that simple. Countless disciples would go crazy for the War God Palace's reward, and if one's performance was very outstanding, there would even be a chance to enter the War God Palace!

Every trial by fire would be a grand occasion for the three thousand grand hall disciples!

Everyone would go crazy for a chance like this, so the harder the mission, the better it was. As long as it was a strong martial artist, there was still a little bit of spirit to challenge them!

After successfully attracting everyone's attention, Demonic Dragon Hall Master then said: "Our mission this time is to head to the Northern Royal Territory and destroy the Moon Demon Cave at the edge of the Broken Star Sea! You may not have heard of the Moon Demon Cave, but it is a self-made power, and I have already gathered all the information I can. This is an evil organization, and it uses some brutal training methods to massacre the people, making it very chaotic, and the most famous is the Moon Demon Sacrifice ceremony. Every time, tens of thousands of people would be captured by the Moon Demon Cave, and used as sacrifices for the Moon Demon Cave. Imperial Palace has also sent out experts to exterminate the Moon Demon Cave, and North Palace is also working hard to do so. However, because the terrain of the Moon Demon Cave is too complicated, it is close to a maze, and there is a natural Soul Suppressing Stone inside, so every extermination will have remnants, and our mission is to exterminate the Moon Demon Cave thoroughly.

After saying that, the Demonic Dragon Hall Master looked around and said, "The Moon Demon Cave is currently controlled by three Sixth Stage of the Divine Martial Stage s. The strongest is at the peak of the Sixth Stage of the Divine Martial Stage and there are at least thirty of them in Fifth Stage of the Divine Martial Realm. With this kind of combination, honestly speaking, if there wasn't a peak Sixth Stage of the Divine Martial Stage cultivator, it would be twice as much as yours. I need you guys to get rid of him. I don't have enough control over him right now, and it will still take a day or two, but I am sure that this person can control the Moon Demon Cave and has an evil cultivation method. Her fighting strength must be very strong, even Ye Zheng, with the difference of primordial spirit s strength of ten times, would probably not be his match, and there are two new disciples in the Sixth Stage of the Divine Martial Stage! "

Hearing this information, everyone looked at each other. Even with Fifth Stage of the Divine Martial Realm, there were more than thirty of them, and they only had fifteen disciples in total.

Long Chen was fine, but to him, the people of the Moon Demon Cave were his enemies, and the disciples of the palace master's bloodline could attack him. Jiang Qing had to be careful, and with that, the battle in the Moon Demon Cave might really be chaotic!

Long Chen never thought that there would be such a complicated situation, but the harsher the challenge, the more excited he would be for him. Therefore, even if he heard that the people in the Moon Demon Cave were strong, he would still remain expressionless.

As for the others, even Ye Zheng could not help but frown at this moment.

With the combined forces of Wu Yang and Wu Yang, they estimated that they could barely drag one Sixth Stage of the Divine Martial Stage martial artist out, and since the others were unable to deal with them, he himself had to face two Sixth Stage of the Divine Martial Stage s, and there was even one who had attained perfection.

"This mission, those super palaces can easily complete it, but it will be much harder for us," Demonic Dragon Hall Master's fat body trembled, and said excitedly: "The battle for the trial, not only is it your place to rise up, it is also where the Evil Dragon Palace stands up for. The mission has already been drawn out, this is a matter of luck, our luck is over, no matter what happens next, we will fight for the glory of Evil Dragon Palace! And fight for his own glory! The Moon Demon Cave is indeed very strong, but only because of the difficulty can it be considered a challenge, a real trial, so our luck is not bad, this is the most important opportunity for us to get into the top 1000! "

"Our Evil Dragon Palace has never entered the top one thousand ever since we were established. This time, we must succeed!"

Although Demonic Dragon Hall Master was honest and silly, he had his own way of instigating the atmosphere. Under his encouragement, everyone gradually gained confidence and even became ambitious. Yes, that was right, this was definitely the best time to prove themselves.

"Although the mission is difficult, if we can complete it, the rewards given by the War God Palace will be very generous. Through the internal news, I found out more or less about the rewards, including various level seven godly skills, precious elixirs, and even level eight godly weapons! If your performance is very good, it's not impossible for you to be an eighth-grade Divine Technique! Do you all know what a Grade 8 Divine Skill is? "

Seeing that no one spoke, the Demonic Dragon Hall Master laughed and said: "I have spent my entire life cultivating to this level, Seventh Stage of the Divine Martial Stage and Heaven and Earth Appearance Mantra, but I have never owned a single set of level eight divine skills! The higher the level of divine skills you possess, the more precious they are. To possess a grade eight divine skill, one can imagine that your fighting strength must have skyrocketed by then, so children, all of you work hard for the Evil Dragon Palace and yourselves, don't let down the years your masters have spent on you! "

"Don't worry, Master. We've been preparing for decades. We've been waiting for this moment!" Wu Yang raised his arms high up, and said flirtatiously.

The others also joined in.

The scene was very lively.

Demonic Dragon Hall Master laughed, and said: "You all must work hard, I have always wanted the Ancient Dragon Scales. This time, in the prizes list, there will be the Jade Dragon Scales, the Yi Wood Dragon Scales, and so on. If you all can obtain the dragon scales, I will exchange them for something that will satisfy you all!"

was truly shocked, the dragon's scale was something he yearned for day and night. Only by obtaining the dragon's scale would he be able to obtain his Nine Dragon Scripture and begin to cultivate. What was the Nine Dragon Scripture? Just now, Demonic Dragon Hall Master said that a grade eight divine skill was already so precious, but the Nine Dragons Scripture was a super divine skill that surpassed even a grade eight or nine divine skill!

Only the Crimson Blood Desolate can display it!

Back then, Ye Wushang had simply not displayed the true might of the Nine Dragons Scripture and the Scarlet Sky Desolate Blood, and had already been honored as the god of death of his generation. Ye Wushang was the kind of person who, after entering the True Martial Imperial Palace, would become at least of the super strong hall master level even if he was unable to enter the War God Palace.

"If I still have more dragon scales to obtain, then not only will I have to be careful of my own people, but I'll also have to work even harder to complete this mission!"

Long Chen had a premonition, because of his appearance, that the battle for the trials this time around would become unusually chaotic. Even though it was led by Jiang Qing, it was clear that the disciples of the Palace Master's bloodline did not listen to Jiang Qing's management.

In addition, it was very likely that Jiang Qing was eyeing him covetously.

The battle for the trial this time will definitely be very exciting!

"We will be leaving in three days. In these three days, I will deliver all the information I have gathered from the Moon Demon Cave to you. You should prepare well and then step onto our Evil Dragon Palace's road of glory."

"Yes sir!"

Seeing that the disciples were not scared by the difficulties, the Demonic Dragon Hall Master was very pleased. He suddenly thought of one thing, and said: "Everyone, pay attention to one thing, the Supervisor that we are fighting in, is a great character from the War God Palace, I believe you all know him, and that is the alcoholism — Han Yunxing, although I do not know his specific strength, but he is definitely stronger than me. At the peak of the Eighth Stage of the Divine Martial Stage, it is very possible that he is at the Ninth Stage of the Divine Martial Stage.

Chapter 1093 - Grand Moon Demon World

Hearing this, everyone looked at each other. The alcoholism and the martial fanatic were the two most active people in the world outside the War God Palace.

The most astonished one was actually Jiang Qing. His face changed, although he quickly covered it up, Long Chen was still able to see the uneasiness in his heart.

There must be a problem!

In Jiu Chi Han Xing, Long Chen had entered the True Martial Imperial Palace because of him. He never thought that Yue Yang would once again become the Supervisor of the Evil Dragon Palace. Long Chen didn't know if this would have anything to do with him.

Peak of the 9th Stage of the Divine Martial Realm, a Nirvana Golden Wheel Ranker, they were already at the same level as Ling Xi. This kind of warrior was already an existence that went against the heavens, and was countless times stronger than the Seventh Stage of the Divine Martial Stage Ranker in front of Long Chen. Long Chen didn't know if it was a good thing or bad thing for such a person to be concerned about him at this moment.

However, from Han Yunxing's gaze, although it was cloudy, Long Chen still did not feel anything amiss.

After listening to Demonic Dragon Hall Master's narration for a while, everyone had already gone back to make preparations. Before they left, Demonic Dragon Hall Master finally noticed Long Chen and said: "Jiang Qing, who is this youth?"

"My new disciple's name is Long Chen. Senior martial arts fanatic had personally recommended me to come here." Jiang Qing said, already prepared.

"Oh, not bad, not bad." Demonic Dragon Hall Master looked at Long Chen thoughtfully, nodded, and then called his group of disciples to leave.

"Let's go." Jiang Qing brought Long Chen and headed in the direction of the River Heart Pavilion. On the other side, Demonic Dragon Hall Master brought his disciples and left.

In one breath, Zheng Dongyang recounted everything that had happened recently to the Demonic Dragon Hall Master. Because he was injured and Yang Yu was still recuperating, he was very excited, and wished that the Demonic Dragon Hall Master could immediately turn around and kill him.

After hearing that, the Demonic Dragon Hall Master was silent for a moment. It was a rare moment.

"Master, can you kill that Long Chen for me?" Zheng Dongyang said anxiously.

A slap landed on his face, causing Zheng Dongyang's face to immediately turn red.

The Demonic Dragon Hall Master looked down at him from above and said: "A true Ranker will only take revenge on their own. After being defeated by someone, they will not work harder but will instead find a way to beg others to teach them a lesson. This is only the behavior of a weak person, Zheng Dongyang, if you continue to act like this, I will expel you from my sect."

After he finished speaking, Demonic Dragon Hall Master moved in a flash, leaving this place. Right now, he was a little angry in his heart.

Wu Yang and the rest looked at each other.

"Junior Apprentice Brother, it's alright. There are plenty of opportunities. In the smelting trial battle, senior will fight for you." Wu Yang patted his shoulder, and said softly.

Wu Yue frowned, she knew that the Demonic Dragon Hall Master would not want him to do this, but since her junior brother was being bullied so badly, she had to work hard.

As for Ye Zheng, from start to finish, he did not say a single word.

"Second Brother, what plans do you have for the Moon Demon Cave?" Wu Yang looked at the Ye Zheng who had been silent all this time.

Ye Zheng raised his head, looked at him, and said: "Leave the three Sixth Stage of the Divine Martial Stage s to me."

Within three days, all sorts of information regarding the Moon Demon Cave appeared in Long Chen's hands. The True Martial Imperial Palace's information was extremely powerful, and among this information, there was information on every single warrior with Divine Martial Stage in the Moon Demon Cave. The information included his appearance, age, strength, battle skills he cultivated, his past battle achievements, etc.

There were more than a hundred people in the Moon Demon Cave, and only those with Fourth Stage of the Divine Martial Realm above the Fourth Stage of the Divine Martial Realm could enter the Moon Demon Cave. It could be seen that the Moon Demon Cave was still a very strong force, and was at least

a lot stronger than the entire Nether Realm. And Evil Dragon Palace's mission was to kill all the people on this list!

Especially the three people from the Sixth Stage of the Divine Martial Stage, they were definitely going to be killed!

The War God Palace's ranking was mainly based on these three Great Rankers.

In the Moon Demon Cave, there was a natural Soul Suppressing Stone that could not be used with one's divine sense. Inside of the huge maze, the people of the Moon Demon Cave were familiar with the terrain, and could fight according to it. There were also many mechanisms that could be used, and even many forces that had surpassed the Moon Demon Cave to attack them, would end up losing in the end, let alone the young disciples of the Demonic Dragon Hall Master.

At the same time, the information contained information on some of the evil deeds that the Moon Demon Cave had done, which were extremely tragic and heartless. Long Chen looked at the information and felt a lot of anger in his heart, remembering that when he was in Source Spirit City, the High Priestess of the Red Blood Church used the blood of a young lady to conduct the Blood Sacrifice ceremony, and the Moon Demon Sacrifice at the Moon Demon Cave was even more brutal than before.

And finally, there was the temptation of the Nine Dragons Scripture.

Therefore, Long Chen tensed up. The battle for the trial this time, was definitely going to be his very important battle!

Three days later, fifteen disciples, who were familiar with all the information, gathered at the climbing platform. Under Jiang Qing's lead, they prepared to set off. Demonic Dragon Hall Master, as well as the various auxiliary hall masters, elders and hall masters were all present.

The crowd waited for a while, and then the Demonic Dragon Hall Master helplessly said: "It has already been two hours, senior alcoholism has always been carefree, maybe he is already secretly following you guys, if she doesn't appear, then you all can leave first."

Everyone nodded.

Long Chen was a little disappointed. He thought that he would have a chance to see Han Yunxing again.

I want to emphasize one more thing, during this battle, all of you have to listen to Hall Master Jiang, when the true battle starts, Hallmaster Jiang cannot take action, but you all have to listen to his orders as well, and because Hallmaster Jiang is not around, Ye Zheng holds the authority, if you all return to Evil Dragon Palace, you will be severely punished!

"Yes sir!" Everyone nodded.

Jiang Qing bade farewell to everyone one by one, then turned and left. Of course Long Chen was following him, but the disciples of the other auxiliary hall masters should have received a lot of education, their eyes lingered for a bit, but it was still better to follow Jiang Qing. As for the disciples of the Demonic Dragon Hall Master bloodline, they hesitated for a moment, but Wu Yang took the lead, Ye Zheng was at the back, and had no intentions of leading.

A group of sixteen people was divided into two small groups.

The first step was to leave the Emperor Star Realm, and after a month or so, Long Chen stepped into the Heavenly Dao. This time, he was even more powerful, and was already one step closer to his goal.

As he turned around to look at the Emperor Star that was getting smaller and smaller, Long Chen could not believe that this planet was the place where he used to live. The Emperor Star was spinning, and in a corner far away, a gold light shot up into the sky, it was a kind of soul-shaking power. Countless generations of mighty warriors had been born and fallen here!

Trial battles, 3000 great halls, 3000 missions. This time, the actions of the True Martial Imperial Palace would definitely cause a storm of blood and gore in the entire True Martial Emperor Domain, and some of the missions might even directly surpass the boundaries of the True Martial Emperor Domain.

Walking out of the Emperor Star and from one of the Sacred Martial Palaces, Long Chen and the rest were all silent. The atmosphere was oppressive as they arrived in front of the teleportation circle leading to the Northern Royal Territory. It was a huge teleportation formation, glowing with a golden light. Occasionally, a snowflake would appear in the middle of the teleportation formation.

"Northern Royal Territory is the northernmost area of the entire True Martial Emperor Domain. It has been snowing all year round and its temperature is extremely low, making it extremely cold and gloomy, where ghosts and monsters abound, and only then will there be an organization like the Moon Demon Cave, a sinister force like the Moon Demon Cave. Most of the Northern Royal Territory is a barbaric land, and once we reach there, everyone must remember to keep a low profile, and not let anyone know of your whereabouts, and not expose yourself.

In front of the teleportation circle, Jiang Qing looked around and explained.

I know that many of you are proud and arrogant people, but under my, Jiang Qing's command, even if it's a dragon, you have to lie down and even if it's a tiger, you have to lie down. The Moon Demon Cave is not a simple power, and there's even a, they have their eyes set on us, so if you go through the market, what is waiting for you are the death traps set up by the Moon Demon Cave, so you must not cause any trouble, through the teleportation circle, we must immediately leave the North Palace and not find the teleportation circle that leads to the Moon Demon Cave.

Jiang Qing had told him about these things before, but now that he said it again, it showed how important he was to them.

"Also, the Moon Demon Cave is at the northernmost part of the True Martial Emperor Domain, and after the Moon Demon Cave is the endless Broken Star Sea, one of the Nine Realms. The entrance to the Grand Moon Demon World is right in the middle of all the Broken Star Sea, and there has been a huge commotion recently, so there might be a large number of people running into the Northern Royal Territory, and the power of the Grand Moon Demon World is very strong, so all of you have to be careful not to clash with the people of the Grand Moon Demon World. Remember, this is a very important mission!"

"Grand Moon Demon World?"

Every time he heard about Grand Moon Demon World, he would feel a bit touched. This was because Li Xuanji had once said that his sister possessed the power of the Grand Moon Demonic Body, a rare type of super strong physique that was on par with her Nine Yin Meridians. This Grand Moon Demon World and the Great Demonic Yin Body, who knows what kind of relationship they would have?

In other words, would Li Xuanji place his sister, Yang Lingqing, in the Grand Moon Demon World?

When he thought about this, Long Chen became excited. Yang Lingqing was his most beloved younger sister, someone he had protected since he was young. He really didn't know how she was doing ...

"I wonder how this girl is doing. If there's not a few, I will definitely skin Li Xuanji alive!"

Thinking back to back then, Li Xuanji was saved by Ling Xi by accident.

Chapter 1094 - Northern Royal Territory

This was Jiang Qing's last explanation. In this trial, he was only the leader, and didn't even have the strength to make decisions. Once he arrived at a certain place, he would have to temporarily hide in the shadows, not easily taking action.

While he was speaking, Ye Zheng, Wu Yang and the group of people mixed together, simply did not listen to Jiang Qing at all. Because they were very dissatisfied with Jiang Qing injuring Zheng Dongyang.

In any case, in their eyes, Jiang Qing was only the one leading the group. Only if the other party suddenly had a strong enemy outside of their intelligence network would Jiang Qing have the chance to take action. The true power of decision-making was actually in Ye Zheng's hands.

"Let's go." Jiang Qing's face was expressionless as he took the lead to enter the gigantic Universe Teleportation Formations. This teleportation formation directly went from the True Martial Emperor Domain to the Northern Royal Territory's North Palace. There was a distance of five million kilometers between the two of them. If not for the Universe Teleportation Formations, who knew how long it would take.

With Long Chen's current degree of physical toughness, he was not worried about the tearing of this level of Universe Teleportation Formations.

When he followed Jiang Qing and walked into the golden array, the originally quiet Universe Teleportation Formations suddenly started to spin.

A total of sixteen people stood in the Universe Teleportation Formations and Jiang Qing took out no less than five hundred Divine Crystals from the ring. With a casual flick of his hand, these five hundred Divine Crystals, under his control, fell into the eyes of the Universe Teleportation Formations's formation.

Immediately, the teleportation formation erupted with a strong golden light, and the speed at which the light rotated instantly increased by several tens of thousands of times.

Of course, Long Chen could still hold on to that power, so for the others, they would have to use primordial spirits to protect their bodies. In terms of their bodies, it could be said that even Jiang Qing could not compare to Long Chen, because Long Chen's body right now was equivalent to Grade Seven Divine Technique, or maybe even stronger!

When the Ancestral Dragon's bloodline opened up his terrifying physical body, it solidified his blood channels, causing his primordial spirits to be ten thousand times stronger than warriors of the same level. At the same time, it was also extremely helpful to his Divine Martial Spirit and his physical body, not just a strengthening of his physical body, but a transformation of his life.

The distance between the Northern Royal Territory and the Northern Royal Territory was even further than the distance between the Eastern Emperor Region and the True Martial Emperor Domain. Long Chen didn't know how much time had passed, perhaps it was several days, or perhaps it was just an instant.

Suddenly, in the distance of the dark tunnel filled with the power of ripping, a gold light appeared. Everyone's face revealed a happy expression, because this meant that the North Palace had arrived.

Everyone had suffered enough. Now that they had finally arrived, it meant that their chance to spread their ambitions had finally arrived.

As everyone touched the golden light, a golden light flashed and they appeared in a golden formation. This golden formation was similar to the one before, but the surrounding scenery had already undergone a drastic change.

The Universe Teleportation Formations from before was surrounded by sand and dust, and this Universe Teleportation Formations was in a city with a size similar to the East Palace. There were guards guarding the area, but their cultivation level was not high.

Normally, when warriors came from the direction of the True Martial Emperor Domain, they did not search strictly, and it was because of this that Jiang Qing led Long Chen and the others and blended into the crowd, and quickly left the Guard's area.

"It's snowing." Long Chen raised his head. This North Palace was a vast, white world, with snow that covered tens of thousands of miles. The sky was currently covered with snow that looked like goose feather, and the ground was covered with a thick layer of snow that was almost a meter thick. The temperature had fallen to an extremely low level, even lower than some of the dark and cold little worlds that Long Chen had experienced before.

The entire city, whether it was the rooftops or the trees, was covered in snow. The entire city had turned completely white and was being submerged by this heavy snow.

After reaching the Divine Martial Stage, a warrior's life would rise to a whole new level, as if he was a god. This was a type of escape, snow, this kind of snow, could only belong to mortals, but when Long Chen looked at the snow falling from the sky, he would also remember the days when he was still a weakling, hiding in the eaves of White Poplar Town with his neck shrunk.

In those days, there were no Ling Xi nor any martial skills. There was only bewilderment and Dugu, but now he was different. He had already transcended from her former self and became the same godlike existence she was back then.

Only seven years had passed.

Long Chen did not speak, and followed closely behind Jiang Qing, quickly and quietly leaving the North Palace. Originally, if they had come normally, the people of the North Palace would definitely have welcomed them with dignity, but the situation was different now. In order to complete the mission, they could not reveal their identity.

Fortunately, he was able to leave the North Palace safely. In front of him was a vast expanse of white snow, and Jiang Qing remembered the direction of the Moon Demon Cave on the map. Of course, with their speed, Long Chen wouldn't have to worry about being left behind.

The group of people were split into two groups. The disciples of the Demonic Dragon Hall Master were still all standing together, and when they walked out of the North Palace, Wu Yang and the rest actually did not say a single word, and rushed past Jiang Qing's side, with a total of four people who left first. Only Liu Qingfeng stayed behind, feeling extremely embarrassed, and said: "Hall Master Jiang, I can't persuade them, what do you think?"

Jiang Qing did not have any expression, but in his eyes, it was just the battle qi of a child, so he smiled and said: "Let them be, since they are following me, they will not submit to me, Qing Feng, you are more sensible, follow them, and do not let them do any unwise things, do you understand?"

Liu Qingfeng nodded his head helplessly, and said: "Thank you hall master Jiang for your magnanimity, when we return to Evil Dragon Palace, I will definitely bring them to you to apologize, these few people are really too disobedient."

"Go." Jiang Qing did not say anything, but he would not urge anyone who was disobedient to stay. Before the battle even began, the person would be split into two groups, and if the Supervisor saw this, his points would definitely be cut, and if it was an organization, then solidarity was a powerful force, and internal strife was the root of their destruction. Thus, in this situation, as long as it was someone from the upper echelons, they would definitely not like it.

But Jiang Qing didn't care, the one who came to Supervisor this time was Han Yunxing, he was a mysterious figure who had never seen his shadow, it was even possible that he did not come at all. After all, which of the people who were called crazy were normal?

Just like this, Ye Zheng, Wu Yang and the other Successor Disciples of the Demonic Dragon Hall Master began to advance first. Perhaps from a different angle, Jiang Qing didn't worry about them at all as he brought Long Chen and the disciples of the other nine Vice Hall Masters towards the Moon Demon Cave.

Honestly speaking, the other nine disciples had also formed a small group and didn't think much of Long Chen. The Zhao Xueji from before could also be considered to be their friend, but who was Long Chen, a newcomer? On what basis did he deserve such a favor from Jiang Qing, and he even replaced Zhao Xueji in this trial to fight in this trial?

And, who was Long Chen? If his strength was only at the level of how it was when he defeated Zheng Dongyang, although it couldn't be considered as a burden, it wasn't at least as useful as Zhao Xueji in the eyes of the crowd.

Long Chen followed behind Jiang Qing, walking alone, and did not pay much attention to them.

Amongst these nine disciples, six of them had just passed the wind tribulation, and three of them had just passed the Fire Devouring Calamity, so they were on par with Zhao Xueji. Coincidentally, these three were all women, who were all either beautiful, cute, mature, charming, or unruly.

The eyes of these three women were filled with arrogance.

Other than those three warriors, they and Zheng Dongyang could be considered as the people from the second realm. If they could perform well this time, it would be normal for their talents to soar, and with their good looks, it would be even better if there were any stronger and higher ranked young warriors that would fancy them. Basically, even if they did not cultivate, they would not have to worry about anything for the rest of their lives.

At this time, Wu Yang and the others had already left. As long as Jiang Qing left, the three women would immediately rope the other six warriors onto the same line as them. In their eyes, Long Chen was a person who was related to them in a way.

Perhaps, in their hearts, only those who had connections with the inside would be able to easily fight their way into the Evil Dragon Palace and occupy Zhao Xueji's position.

It was bustling with noise and excitement.

"They don't seem to like you very much?" While advancing, Jiang Qing suddenly whispered into Long Chen's ear.

"They?" Long Chen was startled, he was actually not interested in these people, but in terms of his current combat strength, Long Chen could kill all of them in the span of ten breaths at any time.

Of course, they were the disciples of the other Vice Hall Masters, so an instant kill wasn't an option.

"I'll make them like me. Depend on me." Long Chen understood what Jiang Qing meant, and he did not wish for Long Chen to be isolated by them.

Jiang Qing nodded his head in satisfaction. Long Chen was really a smart person, he could understand everything in a short time.

It was because of this intelligence that Jiang Qing faintly felt uneasy. He did not know why, but he suddenly felt this way.

The journey from the Northern Royal Territory to the Moon Demon Cave was not a small one. They chose to keep a low profile, and with their current speed, they still spent a month and rarely rested on the way. Finally, when the disciples were complaining, they arrived at a mountain close to the Moon Demon Cave.

From here to the Moon Demon Cave, if they travelled at full speed, it would still be a full day.

Chapter 1095 - Du Yiliang

They were almost at their destination, almost at the northernmost area of True Martial Emperor Domain. The temperature had dropped to an extremely terrifying level and snowstorm covered everyone's field of vision. The snow on the ground probably hadn't melted for countless years.

The strange thing was that the sky here was wrapped in a layer of purple light. The sun during the day and the moon during the night both looked like they were completely purple. It revealed a strange feeling.

Along the way, they basically travelled with great intensity.

With such a high level of speed, everyone was at their limits. Of course, Long Chen was still alright, his physique was stronger than everyone else. This part of the journey was like a piece of cake for him, so when the fat and skinny girls were all tired out and lied down, he saw that Long Chen was still standing lively and cultivating, an expression of disbelief filled his face.

In a place where Long Chen couldn't see, they were softly discussing. Of course, for the sake of Long Chen's Divine Sense detection, they used it to communicate.

Amongst the nine of them, the three strongest women had already joined forces. The three of them had pretty good looks, and the cute one named Yao Bitong was one of them. That sexy and frivolous person was Du Yiliang. And the last one who looked so unruly and wild, was called Chen Peiqi.

The strength of these three people were estimated to be around the same. Although they were at Zhao Xueji's level, their true combat strength might be a little weaker than Zhao Xueji's.

At this moment, Yao Bitong looked at Long Chen's back figure in the distance with slight disdain, and said: "This guy has traveled for so many days, yet he's still not tired. He's really a humanoid monster!"

She blinked her eyes as she looked at Long Chen, and said: "It shouldn't be an act, I think it's very tiring. Men are always like this, and like to display their most perfect side in front of women. When the two of you grow up a little, you'll probably understand."

As for the problem with Long Chen, I have heard that his physical body is very strong, probably at least at the sixth stage of body tempering technique. He is even stronger than Hall Master Chen Yuan, but hehe, if it is not the strong physical body, then the battle will definitely be fierce! "

Du Yi Shuang looked at Chen Peiqi flirtatiously, and laughed: "That's not necessarily true, given how strong his body is, she must be very strong. Her skills in bed must be pretty good as well."

"Is your heart beating?" Chen Peiqi looked at her in disdain.

Du Yshuang smiled.

"What are you saying? Is he even worthy enough to make my heart flutter?" The thing that makes my heart wave is Wu Yang, the aura on his body that is like the blazing sun, is burning my body all the time. "

As soon as he finished speaking, Jiang Qing gathered everyone and said, "Walk in this direction, and in about a day's time, we will be able to reach the Moon Demon Cave, which is a vast and endless group. The Moon Demon Cave is a world under the group, a world under the ground, this is a very huge underground world, with hundreds of thousands of underground tunnels, it could be a huge cave, and it could also be the path that can only be passed by one person. The people of the Moon Demon Cave are extremely familiar with the environment, and you guys don't even know a single thing, so the difficulty of this mission is very high.

After saying all that, Jiang Qing's face became a little serious. He looked coldly at the crowd and said: "Everyone must pay the price for their past. You were a hardworking person, and you are an expert. If you are inferior to others, your death cannot be regretted. If you die, the world will not change in any way, and even your master will be able to accept a disciple who can surpass you in the future. As a result, you will forget that the True Martial Imperial Palace has never lacked geniuses, and even a few geniuses will die, but no one will feel sorry for you. "

This should be the last time Jiang Qing will speak.

"I remember there is a small city ahead of us. You can rest for a bit and plan your battle strategy there. With your current strength, how are you going to defeat the powerhouses from the Moon Demon Cave?" Everything is up to you. Farewell everyone, I hope you all can live on. "

Jiang Qing smiled and left with a relaxed expression. He did not say much to Long Chen, but Long Chen was actually more mature than them, he understood everything without saying.

Jiang Qing's figure quickly disappeared. Everyone looked at each other, and finally, their gazes fell upon the three women.

"Since Hall Master Jiang has mentioned that there's a small city up ahead, we should head there to rest first. At the same time, we should inquire about the Moon Demon Cave." Yao Bitong said.

Du Yilan was not willing to be robbed like this. In order to establish her position, she hurriedly said, "Since that's the case, we'll listen to Hall Master Jiang and head towards that small city."

"Everyone, remember, when you get there, you must keep a low profile and not attract the attention of the Moon Demon Cave. Furthermore, we need to disperse ourselves into the city, and try our best to conceal our appearances and strength. " Chen Peiqi said.

They had thought it through thoroughly. They had nothing else to say, so they followed them. The feeling of being in control of their own power was so great that the three women who had been tired previously were now full of energy and seemed to be overjoyed. Very quickly, they discovered that Long Chen was following behind them. If that was the case, wouldn't they have to play with him?

However, the thing that the three women wanted to do the most was to kick Long Chen out of their organization. The nine of them were solid, and there was only a stranger who was standing in their way.

The distance between them and the small city wasn't far. The three women's divine intents were about ten li away as well. Their eyes were close to the city within the snow before they quickly approached. When they neared each other, they were all stunned before looking at each other in the eye and saying, "Everyone, stop for a moment."

The others stopped and stared at the three women.

"There's not a single person in this huge city, what's going on?"

"Yeah, there's no one here, is there a problem?"

This was the first time they had such a competition, allowing them to make decisions. After thinking for a long time, Chen Peiqi was the more straightforward one as she said: "No matter what happens, no one is better, we have been travelling for so many days, and we need to rest and enter the city to discuss further!"

"That's right, I haven't had a proper bath in days." Du Yushuang said gloomily.

"Then let's go in." Yao Bitong did not forget to interject as well, proving that she herself had a decision-making position.

With the three of them leading the way, the group could only enter the city.

Long Chen walked at the back. In his eyes, these three women were just flowers that he had never seen on the market before. They could be tit for tat, but he was too lazy to bother with them.

"Many of the places in this small city are still clean. I think there were houses there not long ago, but now there's no one here. Why is there no one here?"

As he followed the large group forward, Long Chen carefully observed and realised a few small details. Every family had many traces of battles, and the city itself had been damaged to a certain extent.

"This means that everyone here has probably been snatched away." Recalling the information about the Moon Demon Cave, Long Chen was more or less clear that this place had suffered from the wanton looting of the Moon Demon Cave.

"This group of fiendish scum are not easy to deal with. If Ye Zheng's group is not bad, then these few fellows have obviously met with opponents who kill people easily since young, so the situation is not looking good."

Long Chen really wanted to complete this challenge. However, all his current teammates were pigs, and he really didn't know what would happen if the other party came looking for him. Furthermore, these pigs might even personally run into the den of wolves.

"Long Chen, come over here!" Just as Long Chen was thinking about this, the sexy Du Yiliang looked at him and shouted.

"What is it?" Long Chen walked over.

"We've decided to use the lobby as a conference room to discuss specific matters. You should clean up here." Du Yiliang ordered.

"Are you sick? You won't do it yourself." Long Chen rolled his eyes at her, then turned and left.

"You!" This was the first time she had seen someone reject a goddess like her. With her current cultivation level, she was considered one of the best amongst the younger generation, not a vase. She had the qualifications to be proud of her.

"Enough, don't trouble the disciples of the Great Hall Master Jiang Qing, we will do it ourselves, but if you do not help now, when you encounter trouble, don't count on us to help." Chen Peiqi said coldly.

The group of them were slightly busy in the big hall, so they managed to clean up the place. Long Chen then moved to the city, continuing to see if he could find any clues.

"There's no one in the city. If some powerful martial artist with powerful soul consciousness were to pass, they would definitely notice us. This is not a good thing. These idiots really came here and used this place as a base of operations."

Long Chen didn't know whether to laugh or cry.

When they returned to the conference room, they were all gathered around a stone table, and had placed a map of the Moon Demon Cave's location and part of the cave's interior on top of the stone table. At this time, they were intensely discussing about it, and when Long Chen returned, everyone turned white like him, and continued their discussion.

Chapter 1096 - Ambush

said: I think that Ye Zheng and the rest have already killed their way in, it is merely a little bit, what use is it if their realm is higher? We are the disciples of one of the few Vice Hall Masters in the 3000 Great Hall, we have the strongest resources to cultivate, can't we even beat a few grass bandits?

Du Yiliang frowned and said, "That won't do. The Moon Demonic Cave is so deceitful and has so many people. We can't kill that many even if we have to kill ourselves. I think we should find a place to lure them out and ambush them one by one."

Chen Peiqi laughed from the side, and said: "Based on your actions, we probably won't be able to complete the mission until next year, and next year's battles will all be over! The shorter the time it takes to finish the mission, the higher the points. For some small things, we even used up our points, is that worth it? "

The others looked at each other, but didn't have the chance to say a word. They just let the three of them arrange their own plans. The three of them had the same thoughts, but unfortunately, the three of them had completely different thoughts.

The argument gradually escalated. Everyone had their own reasons, and they kept arguing for this reason. At the same time, they were also trying to prove their dominance.

Beside their argument, the others were all envious of Long Chen for being able to stand so far away, as if this matter had nothing to do with them.

Long Chen was using the Spirit Devouring Demon Pupil to look at his surroundings. Just when they were at their most intense from their argument, Long Chen was shocked. He could acutely sense that someone had already entered this small city and was heading in their direction.

There were approximately twenty odd people in this group, and most of their strengths were in Fifth Stage of the Divine Martial Realm. There were a total of five people who had endured the Fire Devouring Calamity, and the rest had all been through the wind tribulation.

As for Du Yiping and the others, they were still in the midst of an argument. No one used their spiritual sense to observe their surroundings, so Long Chen was the first one to notice this situation.

"Stop arguing, enemies are coming." When they were arguing the most intensely with each other, Long Chen said this and everyone stopped in their tracks in an instant. They looked at Long Chen in a daze and then used their soul consciousness to change their expressions greatly.

"There are so many enemies. Everyone, don't panic. Let's go out together and face them head-on!"

Chen Peiqi took the lead and rushed out, her courage appearing to be not bad, Yao Bitong hesitated for a moment before calling for the rest to follow her, the sexy Du Yilang was the one who was least willing to face a head-on clash with her, after thinking for a while, the others all went out, and she did not want them to get out of the limelight, so she also rushed out.

The faces of the remaining six paled. They could already sense that the situation wasn't looking good.

As soon as they arrived at the main street, a group of people appeared in front of them. They were all wearing tight purple clothing, and their entire bodies were wrapped in tight clothing. Even their heads were covered with a purple scarf, as if they couldn't see the sun in the snow.

The only things that were revealed were their slightly purplish eyes, as well as a purple moon pattern on their foreheads.

Those who had seen the information all knew that these were people from the Moon Demon Cave, and amongst them were a few who were standing at the front, a total of five, each of them with the same strength as Yao Bitong and the rest. Sensing this, the few people who were talking extravagantly earlier all looked at each other in dismay, and took in a breath of cold air.

"True Martial Imperial Palace, are you looking down on us, the Moon Demon Cave people, for sending trash like you to deal with us?" Just as everyone was panicking, the other side said something that made everyone panic even more. Immediately, everyone's heart thumped wildly.

Long Chen also felt that the people in the Moon Demon Cave were not simple, they even knew about the mission of the True Martial Imperial Palace's Trial and Battle. Along the way, Jiang Qing was already very careful, he didn't know where he made a mistake.

"You even know this? It's not bad, isn't it? We originally wanted to charge into your Moon Demon Cave, but who would've thought that you guys actually came here to die first! " Chen Peiqi tried to put on a brave front but her heart was beating fast.

Her heart palpitated as she looked at the group of people in front of her with cold eyes. This kind of cold gaze was like looking at a monkey, at the people of True Martial Imperial Palace.

They were silent for a while, then someone suddenly laughed: "Since True Martial Imperial Palace has sent a bunch of beautiful women to our doorstep, we can only obey respectfully and enjoy ourselves well. Brothers, the men will kill, and the women will be captured by me.

As soon as he said that, the people of the Moon Demon Cave spread out and charged towards Du Yilan and the others!

That boundless aura and cruel killing intent was something that many would only possess if they were killed. Even if Du Yilan and the others did not have this killing intent, they would not be able to withstand the impact.

"To think that all of you would attack at the same time. You're really disrespectful, despicable!" Yao Bitong was so angry that she almost fainted as she spoke while grinding her teeth. She thought that she could still exchange pointers with her brothers in True Martial Imperial Palace.

Thinking back to what they had said before, there were a total of six women in the group, and their hearts turned cold. If they had won, then it would have been fine, but if they had lost, then even if they had survived and been humiliated by these despicable people, they wouldn't be able to see anyone for the rest of their lives.

At this time, they finally remembered what Jiang Qing had said before, that everyone had to pay the price for their past.

"Let's go all out!" In front of these vicious and cruel martial artists, their momentum had already dropped by half. They had no intention of fighting; it was very dangerous.

The people of the Moon Demon Cave basically didn't care about morality and gentility at all. They had twice the number of disciples in the Evil Dragon Palace, so they were basically all at the same level of fighting two against one. The disciples of the Evil Dragon Palace, although they had good combat skills and teachers, they didn't necessarily have their own killing methods!

In a fight just now, the Evil Dragon Palace disciples were basically losing. This group of people did not even have any real experts, and they were already powerless.

Du Yiliang and Yao Bitong were a little more beautiful, so they were surrounded and attacked by two warriors who had just survived the Fire Devouring Tribulations, causing them to feel a sense of danger for a moment. However, the other party did not kill them at all, his every move was aimed at their clothes.

The disciples of the Evil Dragon Palace would be completely annihilated before long. The man's fault was that the woman had lost her ability to resist and had suffered the abuse of the people of the Moon Demon Cave.

The other party's strength was not as simple as they thought it to be, it was even far stronger than what they imagined. They might not even be able to handle one person alone, let alone two people!

When the other party didn't kill them, but tore off their clothes, tearing off a piece of their white skin, they let out a cry. When the other party didn't kill them, but tore off their clothes, ripping off a piece of their white skin, they let out a scream.

There were a total of six dainty female disciples. They were all virgin daughters of Huang Hua, and at this moment, they were all in danger of being humiliated. Men, on the other hand, were basically the victims of murder.

Long Chen was also one of the four male disciples. He had long known that these three women did not do anything well, and seeing their expressions of fear and despair, he couldn't help but find it funny.

These overbearing and overbearing flowers in the greenhouse were indeed going to use this method to scare them. Only then would they be able to retract their proud hearts. For them, this was also beneficial.

"You are courting death!" What do you want! Let me tell you this, I am a disciple of the True Martial Imperial Palace, and if you all are to act recklessly, our Master will take your dog life, ah! "

While Yao Bitong was speaking, a piece of her clothes had been ripped off her chest once again, and the belly pockets of the mandarin duck that was embroidered on it was even exposed.

He was even trembling.

The men from the Moon Demon Cave didn't say anything, but coldly tugged at their clothes.

On the other side, Du Yishuang was in an even worse situation. Because of her seductive appearance, she was the most excited of the two men. The two martial artists were also a bit anxious, and at this time, they had more or less pulled it off.

Du Yiping was crying, her face covered in tears. He was in an extremely sorry state.

"This lesson is about right." No matter what, they were disciples who completed missions with him, and he could not allow the people of the Moon Demon Cave to kill or humiliate them. Otherwise, it would be hard for him to explain to Jiang Qing, and Jiang Qing would have to do a lot of things to the other disciples as well.

Although these three women were a little arrogant and overbearing, they had a high status in the Evil Dragon Palace. This was a small sickness and not death, and after today's events, they would realize the consequences of looking down on others.

Under the force of his fists, the internal organs of the two warriors were shattered. At this moment, fresh blood gushed out of their mouths and covered their scarves with fresh blood.

The battle was reaching its conclusion, so Long Chen had no choice but to take action, the Scarlet Sky Desolate Blood Sword in his hand had appeared. At this time, in front of everyone, Long Chen seemed to have become a completely different person, the killing intent that was even stronger than the ones in the Moon Demon Cave burst out, enveloping everyone, a Killing God was born.

"Taibai Sword Prison!"

The white sword qi gushed out and instantly evolved. Within a short period of time, the white sword qi formed a huge egg and surrounded everyone inside. No one present was able to escape without using a level six divine skill.

Everyone knew that this was caused by Long Chen.

Whether it was the people from the Moon Demon Cave or the women from the Evil Dragon Palace, everyone looked at Long Chen in confusion.

Hiss!

Right at this moment, in the blink of an eye, Long Chen's Crimson Sky Kingdom had already passed through the forehead of one of the Months Demon Cave's warriors.

No one could see his speed clearly.

Chapter 1097 - One Strike Total Destruction

Previously, Long Chen did not truly make a move, but he never expected that this move, would actually be so shocking.

To the people from the Moon Demon Cave, the sudden appearance of such an expert caused them to immediately become vigilant. Realizing how powerful Long Chen was, in the blink of an eye, a Fifth Stage of the Divine Martial Realm, wind, fire and lightning tribulation martial practitioner died at Long Chen's hands.

"Leave one to deal with his opponent while the rest kill him with all their might!"

As expected of a group of fugitives, they reacted at the first moment. The warriors, who were originally two people attacking one of them, all let out one after another.

The remaining one was enough to restrain their opponent. As long as they could kill Long Chen, the additional factor that suddenly appeared, they could continue with their original plan of besieging two people.

Because of the opponent's decrease in strength, the pressure on Yao Bitong, Du Yilang, Chen Peiqi and the others decreased instantly, but they were already frightened, their minds were still blank for a moment, and did not care if it was the spring break, or if they were too lustful. As they dealt with their remaining opponent, their eyes were all staring in Long Chen's direction in shock.

In their eyes, this youth was just like a death god. Wherever he went, blood splattered everywhere, and one after another, members of the Moon Demon Cave casually fell at his feet.

Their greatest advantage was that they could only restrain the opponent in front of them. In truth, with all of their strength, killing the opponent wasn't difficult at all. It was just that their quality was a bit lacking.

In the midst of everyone's shocked gazes, Long Chen seemed like a bloody tornado. His speed had already surpassed the opponent's eye catching speed, and the most terrifying thing was that Long Chen had used the Divine Breath Technique that Cat had given him during the battle. This Divine Breath Technique could blind the opponent's consciousness, and completely relied on his eyes to catch any signs of Long Chen.

Speaking of primordial spirit, Long Chen was actually not stronger than them. At most, he had Fifth Stage of the Divine Martial Realm, so the number of warriors who had trained in the wind tribulation were about the same, not even as strong as Yao Bitong and the others.

The people of the Moon Demon Cave were afraid. Two of the warriors who were free to deal with Long Chen had survived the fire devouring tribulation. Their strength was comparable to Zhao Xueji, but they could not catch up to him at all. They could only watch as one of their subordinates died under Long Chen's sword move.

"Brat, if you have the guts then come and fight us fair and square. What's the point of bullying weak people with your speed?" One of the warriors said coldly.

When he was dealing with Du Yilang before, he would occasionally touch her body. He was very happy, but ever since he met Long Chen, it had become a tragedy. He couldn't even see where Long Chen was.

"Do you think you're qualified to fight me?" At this time, Long Chen stopped in the middle of the formation. He did not make another move, and the blood red longsword in his hand, which was also known as the Scarlet Sky Desolate Blood, dripped blood.

As long as it was someone from the Moon Demon Cave, they would all be shocked when they saw Long Chen's gaze. They seemed to have seen someone who surpassed them in terms of killing intent, this kind of killing intent, they had probably only seen from those three people.

"This is a great opportunity!" The people from the Moon Demon Cave finally stopped when Long Chen finally did. Everyone looked at each other, and saw the meaning behind each other's eyes, so they quickly gave up their original opponents and gathered together. There were a total of eighteen or nineteen people left, and rushed towards Long Chen from all directions.

In that moment, everyone revealed their trump card skills. Basically, they were all Rank 5 Divine Skills, and every move had been honed by them for over a hundred years, they were extremely proficient and had killed countless people. In order to kill Long Chen, this additional factor, they had given their all.

"Long Chen, be careful!" The blank look in their heads gradually disappeared. The gazes they used to look at Long Chen with never looked at him in disdain, had now turned into a deep reverence, especially the three women. They all blushed, knowing how clown they were before in front of Long Chen.

And at this time, seeing Long Chen in danger and the organization that had suddenly appeared in the Moon Demon Cave, causing them to not even have time to react, they had already launched a fatal attack on Long Chen. The combined attack of over a dozen people was just too terrifying.

Du Yiping and the others definitely knew that if Long Chen died, all of their hopes would be destroyed, and their ending would be very miserable. Hence, they were extremely anxious, and at this moment, they could only distract their attention while was being attacked.

Basically, their eyes were filled with tears.

In the past, they would definitely understand that being arrogant would only bring destruction.

What was different from their imaginations was that Long Chen, who was being surrounded, did not seem to panic at all. He had even killed a thousand people before, and this power was nothing but a piece of cake to him.

"God Slaughtering Sword Formation, Sword Sea!"

The Crimson Sky Kingdom, which was in his hands, struck the ground with a loud bang under his control. In an instant, a blood-red formation appeared in the vicinity of the Taibai Sword Prison. The formation was filled with surging blood-red sword Qis.

"Die." Long Chen twisted the Crimson Sky Kingdom in his hands, and instantly, the entire area within the God Slaughtering Sword Formation underwent a tremendous change. Countless sword beams shot up into the sky, converging into a dozen or so soaring sword blades.

"God Slaughtering Sword Formation, Beast Upheaval!"

The blood-red divine dragon rose up, releasing a heaven-shaking dragon roar, howling as it charged towards those people. The people from the Moon Demon Cave were currently dealing with the sea of swords in shock, and in the next instant, the beast tide swallowed up every single one of them!

Even the five warriors who had endured the Fire Devouring Calamity, were basically unable to resist Long Chen's God Slaughtering Sword Formation. The power of the Sword Sea was mainly applied to their bodies, instantly breaching their defenses, and that beast tide, which contained the power of thousands of beast spirits, shattered their bodies and Divine Martial Spirit!

In an instant, everyone was killed!

In front of his eyes were the bodies of the nineteen months old devil cave martial practitioners. There was a line of blood between their eyebrows, and the insides of their bodies were also completely destroyed and destroyed by Long Chen. Only their outer appearances seemed normal.

At this moment, their corpses were collapsing one by one. Every time a corpse fell, the eyes of the disciples from the Evil Dragon Palace would twitch once. Knowing that all their corpses had fallen, they looked at the man in the middle with blank eyes.

Putting aside their strength, they realized that Long Chen was actually very handsome as well. Compared to that whatever Wu Yang, he was not one bit inferior, and even that cold and devilish temperament had a kind of fatal attraction. At this moment, Du Yilan and the others felt their hearts breaking.

"Is her heart beating?" Chen Peiqi saw Du Yiliang's red face and asked in ridicule.

"Dang." These two simple words expressed her restless heart.

In her eyes, even Long Chen retracting the Crimson Sky Desolate Blood was a perfect move.

It was a good result to have the opponent completely wiped out, but it was a pity that it was only Long Chen's creation. After a short period of shock and coldness, Du Yiping and the others finally understood the truth. That was, Long Chen was much stronger than them, at least at Wu Yang's or Wu Yue's level.

It was no wonder that he was brought here by Jiang Qing. It was also no wonder that he was able to defeat a person like Zheng Dongyang. When they thought about how they looked down upon Long Chen and claimed that they would not help him, the girls felt that their faces were currently burning with anger.

When they got close to Long Chen, everyone was bashful and awkward. They had said so much previously, but now they really did not know what to say. Du Yiliang's little heart was beating crazily, she finally mustered her courage and said: "That Long Chen, thank you for saving us, we are truly sorry for offending you before. I hope you can forgive us."

"Yeah, it's all our fault. I'll leave the command of this team to you. You're stronger than us anyway, and you're also calmer than us. As for us women, we'd better stand at the back." It was not just Du Yiping, even the cute Yao Bitong was not to be outdone, she could not allow Long Chen to be snatched away by her, as she hurriedly said.

"Do you want to put your clothes on before you speak?" Only now did Long Chen say a single sentence. Originally, their hearts were wildly beating with anticipation for Long Chen's answer. With Long Chen's strength, it wouldn't be a problem for him to abandon them and leave on his own.

"Huh?" The three women screamed out and rushed back into the house. After a while, they changed into their clothes and walked out, all of them were beautiful and beautiful, letting the king pick them up, their faces were red and they emitted an intoxicating fragrance, giving Long Chen a strong signal.

In fact, Long Chen did not kill everyone. He still had one person left, but he had already lost the power to resist, and he could not even move. At this moment, Long Chen was in the middle of the corpses, dragging the warrior out.

Du Yiliang and the others followed him in distress.

"Don't come in." With a "peng" sound, Long Chen closed the door and placed the warrior onto a chair. The warrior could not move at all and could only stare at Long Chen with eyes full of hatred, laughing coldly: "Don't think about knowing anything from my mouth!"

Chapter 1098 - Soul Control Again

"Who wants to know?" Long Chen stood in front of him and used his hands to raise his head so that he could see his own eyes. Under Long Chen's control, he could only watch in this manner.

Bang.

Long Chen gave him a heavy blow on his head. Although he was originally close to unconsciousness, he was even more confused now, and although Long Chen's Sword Sea did not mainly attack him, it had still caused him severe injuries. If he did not continue holding on, he would have probably fallen down.

At this time, a pair of misty eyes were floating above him, looking at him. Those eyes were like a whirlpool, gradually sucking in the mind of a warrior.

"Soul control successful."

This was the fourth floor of the Spirit Devouring Demon Pupil, it had been a long time since Long Chen had used this move. He had fought quite a lot in his life, he had killed most of the opponents, he did not even need to use soul control at all, what did he know from the other party's mouth? And to deal with the Moon Demon Cave, because the Moon Demon Cave was too complicated, although Long Chen had a lot of information, he could not know everything.

After successfully controlling his soul, the following steps were much easier. Long Chen asked all the questions that he had prepared beforehand, the other party had already entered into a state under Long Chen's control. No matter what question Long Chen asked, he would answer them in the same amount, and in the most detail.

This process continued for an entire hour.

Everyone was quietly waiting for Long Chen outside the door, no one daring to speak. If this was in the past, it would have been impossible, but now, Du Yilan and the others were willing to do this, Long Chen's previous performance was simply too cool. They didn't know what they were talking about with the people inside. They roughly understood that Long Chen was interrogating them, and were unsure if the other party had replied them.

And without Long Chen's permission, they didn't even dare to use their divine senses to check.

An hour had passed before Long Chen finally walked out. Everyone looked at his gloomy face in fear, and then looked inside, only to see that the warrior had already died.

"Long Chen, did you ask about anything?" Yao Bitong asked somewhat nervously.

Long Chen currently had a lot of information in his mind, and needed a lot of time to organize them. From the other party's words, he already knew where the small city and many people from the nearby small cities were.

Ye Zheng and the others arrived here relatively early, and in the past few days, they had already started fighting with the people from the Moon Demon Cave. There were even more people in the Moon Demon Cave than in the intelligence .

It would be useless even if he told these things to Yao Bitong and the others. Long Chen had his own plans.

At the same time, the map of the Moon Demon Cave had a clear impression in Long Chen's mind. Through Soul Controlling Technique, Long Chen roughly knew how to leave the Moon Demon Cave.

Right now, everyone was anxiously looking at Long Chen, waiting for his decision.

Long Chen was a little angry in his heart. From the warriors of the Moon Demon Cave, he found out about this matter. Since this warrior wasn't in the upper echelons, he didn't know much.

More or less, in the hands of the higher-ups of the Moon Demon Cave, there was a miraculous treasure that they called the Moonlight Box. As long as the Moonlight Box was placed under the full moon and sacrificed to the souls of 999 people, the Moonlight Box would open. After opening, the Moonlight Box would map out a picture in the sky and the warriors of the Moon Demon Cave would call it the Purple Demon Moon Diagram.

According to legends, there was a martial artist practicing martial arts. When the purple Demon Moon Diagram appeared, everyone would suddenly improve by leaps and bounds, and the speed of their cultivation would far surpass an ordinary person's.

The reason why the people in this small city had disappeared was because the full moon was about to arrive. The Moon Demon Cave was a long way away, but everyone who could escape had already fled, or had been captured long ago. The remaining people were all people who loved their home, so they were all in trouble.

This Moonlight Box, the Moon Demon Cave had already been here for a very long time, at least ten years, and every month, there would be a thousand people dying. In ten years, the number of people that the Moon Demon Cave had massacred, could be imagined.

This was the secret that couldn't be revealed in the Moon Demon Cave.

The Moonlight Box was the key for them to become strong, it was an extremely mysterious thing. Even their three leaders did not know the true name of this treasure.

Therefore, regardless if this was a mission from the Evil Dragon Palace or not, since Long Chen knew about it, he also had this responsibility in his heart. This Moon Demon Cave, there was really no need for it to exist. Every time the so called Moonlight Box opened, it would require the souls of over a thousand people to be sacrificed. This was not a good thing at all.

And this time, because of the imminent arrival of the next full moon, the Moon Demon Cave had already entered a completely sealed state, and the people of the True Martial Imperial Palace had broken their peace, so they split up a portion to deal with the people of the True Martial Imperial Palace, while the rest went into the sealed Moon Demon Cave.

The Moon Demon Cave was so large that it had been operated by warriors for over a hundred years. If it was an outsider, no matter how strong they were, they wouldn't be able to find them inside.

Long Chen came to understand that amongst these three leaders, one was a genius craftsman who had grown up in research. The Moon Demon Cave was filled with his works. From the warrior's words, Long Chen could hear the deep respect he had for this genius. There were definitely countless dangers waiting for Long Chen and the others in the Moon Demon Cave.

But no matter what, Long Chen was going to enter the Moon Demon Cave to give it a try.

"Big brother Long Chen, what should we do now?" Now, they saw Long Chen was silent and did not dare to disturb him. It was only when they could not resist that one of them asked carefully.

If it was just him alone, Long Chen would directly enter the Moon Demon Cave without hesitation. But with so many people, it would not be easy to lead his group of idiots.

Just as Long Chen didn't know what to do, another group of people barged into his perception. As if Yao Bitong and the others had also discovered this, their expressions changed as they said, "It's Ye Zheng, Wu Yang and the others!"

They had come over first, causing Long Chen and the others to be ambushed this time. Now they had reappeared. Although Long Chen was strong, Yao Bitong and the others did not think that Long Chen was a match for the number one disciple of the Evil Dragon Palace, Ye Zheng. Furthermore, Long Chen did not even bother with them, so the moment Ye Zheng and the others came out, they immediately shifted their focus towards them. After all, at this time, Jiang Qing did not know where she was.

Ye Zheng's group quickly arrived in front of everyone. and Wu Yue were the ones leading the group, while Ye Zheng was like a ghost that was just hiding in their midst. This was the only person that Long Chen was truly afraid of.

In his impression, Yao Bitong and the rest could not do this, his own team was fine, but the Moon Demon Cave's people had all been annihilated, which was obviously not their doing. And the most important point was, everyone's method of death was about the same, and the sword wound on their forehead meant that everyone had been killed by the same person, and it was Sword Fighter.

If Ye Zheng was not always beside him, he would have thought that it was Ye Zheng who did it.

"Who did it!" Wu Yang looked around and asked.

Everyone silently looked at each other, then shifted their gazes onto Long Chen. Before Ye Zheng and the others came, they were afraid of Long Chen, but at this time, of course, it was the Ye Zheng whose strength was even more terrifying.

Everyone's gazes had already told Wu Yang that everything was Long Chen's doing.

Jiang Qing was not present, and now was the moment when his enemies met. His eyes were exceptionally red, and Zheng Dongyang's eyes were filled with a cruel and fiendish grin. He immediately said to Wu Yang: "Third Senior Brother, Hall Master Jiang is not here, this is a good opportunity."

"Don't spout nonsense, Hall Master Jiang is definitely in the vicinity." Wu Yue stopped him in time. Although they did not like Jiang Qing either, they had to admit that Jiang Qing had trained for thousands of years, and after training for thousands of years, he was just like the Demonic Dragon Hall Master, one

of the old cunning men. It was difficult for their strength to advance any further since a thousand years ago, but they were already stuck at the current realm.

It was obviously not a wise decision to make a move against Long Chen at this point of time.

"We'll see." Wu Yang waved his hand, making Zheng Dongyang shut his mouth. He knew from Liu Qingfeng's words that Long Chen was probably someone who was obsessed with martial arts and protected by the alcoholism, and this time, the Supervisor was the Jiu Chi Han Xing. If Jiang Qing was very mysterious at the side, then the alcoholism was even more mysterious.

Ye Zheng didn't say a word. He was completely focused, his pair of grey eyes devoid of any color. Amongst this group, the ones who were temporarily in charge of the matter were Wu Yang and his sister Wu Yue.

"Did you kill these people?" Wu Yang and the rest slowly walked over, and the fifteen of them finally gathered together.

"Right." Long Chen said somewhat indifferently.

Honestly speaking, he did not have any hatred towards Wu Yang and the others, but if the other party had evil intentions towards him, Long Chen would not be courteous at all.

Putting all these aside, Long Chen was willing to cooperate with them for the sake of the Moon Demon Cave.

"Your strength is quite good. There are a total of five martial artists that have passed through the Fire Devouring Calamity. Even I don't know if I can perfectly kill them like you." Wu Yang's words contained true admiration.

Chapter 1099 - The Way of Heaven

At the very least, Long Chen had already entered the group with the highest level of people. This group was comprised of Ye Zheng, Wu Yang, Wu Yue and him. are eligible to be part of the decision-making community.

Wu Yang no longer looked at Long Chen, but shifted his gaze and said clearly: "Since we are once again walking together, then let's move out together. We have already been here for three days, and we have not killed as many as you have. Today, we are preparing to enter the Moon Demon Cave, and coincidentally, you have arrived, so let's move out together. Follow us, and you all must follow our orders, otherwise, don't blame me, Wu Yang, for not showing any mercy. "

He looked around and saw that no one disagreed, especially Long Chen, it did not matter, so Wu Yang said: "Since it's like this, there's no one in this small city. It's extremely dangerous here, we have to leave quickly and follow me!"

With that, Wu Yang and the rest left the place. Yao Bitong and Chen Peiqi looked at each other, since being at Wu Yang's side guaranteed their safety. Thus, they followed along without hesitation, leaving Long Chen with the group of people.

"This kid is very arrogant, he probably won't follow us." Looking at Long Chen behind him, Wu Yang mocked.

"You're wrong." Wu Yue, who was at the side, covered her mouth and laughed, shocking everyone, because Long Chen was firmly following behind them.

"He really has no backbone." Wu Yang said angrily.

had the widest range of consciousness, and with his protection, everyone's safety increased by a lot. Of course, this was only useful outside of the Moon Demon Cave, and after entering the Moon Demon Cave, there was no use for their divine sense at all. This was also the reason why the Moon Demon Cave could exist for such a long time.

In front of him was a vast expanse of white mountains. Traces of purple could be seen in the mountains, creating a beautiful scene. This mountain range was at least half the size of the forest, and the shape of the mountain was a bit strange. The mountain range was at least half the size of the forest, and the shape of the mountain was a bit strange. The difficulty of finding a group of people in these countless tunnels was extremely high.

Their group of outsiders were weaker than their opponents. It was already a blessing for them to not only kill their opponents, but also to not be completely annihilated by them.

Of course, Ye Zheng and the others were much more reliable than Du Yilan and the others.

Amongst the materials from the True Martial Imperial Palace, there were more than thirty of them. Before the mountain, Wu Yang and Wu Yue had studied for a period of time and selected one of the tunnels, then led the group towards the direction of the Moon Demon Cave. The Moon Demon Cave was so large that it could attract people from within to come out and kill them one by one.

Other than that, the warriors who were still lingering outside the Moon Demon Cave had basically been killed by Long Chen and the others.

The terrain here was very complicated, and there were still many emerald green trees on the mountain with heavy snow on top. To be able to grow like this in such a harsh environment showed the vitality of the trees here.

Their target was a cave entrance at the bottom of a cliff. This cave entrance was relatively hidden, and upon closer inspection, there were indeed fewer people entering and exiting. This place was extremely remote.

Reaching this place, because of the Soul Suppressing Stone, everyone's divine sense was basically ineffective, they could only rely on their eyes and other senses to sense. The person who was probably still one kilometer away from the entrance of the cave, Long Chen, who had been silent all this while, suddenly spoke: "Everyone, not far from the front of this cave, is a group of people."

When he said this, everyone was stunned for a moment. Even though everyone had lost their consciousness, Long Chen could tell that he was lying or something.

Wu Yang and Wu Yue looked at each other, and Wu Yang said: "Since that's the case, lead the way, we'll go take a look first. If you're messing with us, then we can only ask you to leave our team."

Long Chen was too lazy to bother with him, he was actually not very interested in this team, it was just that after thinking about it, Ye Zheng was very strong, and he knew that the two of them working together should have a good effect, he could complete the mission as quickly as possible, and if he were to do it alone, he did not know how long it would take for him to complete the mission.

In order to complete the mission and the reward from the dragon scale, Long Chen had to endure this matter.

He took the lead and headed towards the group of people he discovered. After a while, no one said anything, because they could see a group of people heading towards the cave at the top of the cliff from the bottom of their vision.

The appearance of Long Chen and the others caught their attention, the few people who were originally about to go in immediately turned around and rushed towards Long Chen and the others.

"Prepare to attack." Relying on the large number of people, Wu Yang did not seem to be afraid, waiting for the opponent to come.

However, upon closer inspection, they did not make any moves, because the two sides were not from the Moon Demon Cave, and the newcomers were a few tall youths, who were slightly older than Ye Zheng's group by a hundred years. In Three Great Imperial Domains, this age could be considered as just reaching the young age, and as for strength, it was mostly in the Fifth Stage of the Divine Martial Realm.

It was an expert!

The two of them met, and after inspecting each other for a while, the dark skinned youth asked, "From your clothes and age, you shouldn't be from the Moon Demon Cave, right?"

"Of course we're not. Who are you?" Wu Yang raised his head, he looked like he was going to kill his opponent in an instant.

"Us?" The tanned youth smiled and said, "We are from the Demonic Bear Gang. Have you heard of it? "

Of course Wu Yang had never heard of it, he shook his head, and at the same time, the other party asked: "Since there is no respect, then let me ask, who exactly are you two?"

Wu Yang was unable to answer that question. True Martial Imperial Palace's identity could not be leaked, not to anyone. Thus, he silently looked at the other person and did not speak.

"We all self-destructed, yet you all remained silent. Don't you think that's a bit too much?" The tanned man was somewhat displeased.

"If you're here to exterminate the Moon Demon Cave, then don't ask where you came from. Just work together, won't you?" Wu Yue laughed and said. That sweet look of hers had a huge impact on the Demonic Bear Gang.

I am the Demon Bear Gang's Sect Leader, Yang Xiong, and these are all my brothers. Speaking of this, you should also understand that the Demon Bear Gang only has us, the few of us, brothers, who have come to represent the heaven and earth together. "

"Acting on behalf of the heavens? [What you are after is the Moon Demon Cave. Don't you know how powerful the three of you are?] With your strength, the strongest one will only be able to cross Nine Heavens Thunder Tribulations, what basis do you have to deal with the Moon Demon Cave? " Wu Yang was a little doubtful of their intentions.

Yang Xiong scoffed at Wu Yang's words, he snorted and said, "A man only wants to live a life that is worth value, not asking about life and death, the people of the Moon Demon Cave are merciless and cruel to their own people. As a martial artist, I am sure I have eliminated them. "We didn't plan to completely destroy the Moon Demon Cave, but we will do our best to kill as many of them as possible. My brothers!"

Turning his head back, Yang Xiong looked at his own brothers firmly and said: "We are actually youths who have grown up nearby. We went out to train, but when we returned, we found out that our homeland had already been slaughtered clean.

Yang Xiong's eyes spewed fire of hatred.

Wu Yang and the others looked at each other, from Yang Xiong's words, they could tell that it was not fake. Yang Xiong's Devil Bear Gang had good fighting strength, at least Yang Xiong should be able to fight with Wu Yang and the others, and the mission of the trial was to test disciple's mentality and social skills.

At this time, Yang Xiong looked at the crowd and continued, "From what I see, you must have all come from afar and heard about the brutal actions of the Moon Demon Cave. "You guys have a good conscience. I have sneaked into the Moon Demon Cave several times in the past few days and killed a lot of people inside, so I am more familiar with the route than anyone else. Since we are all here for the same purpose, why don't we move forward together and take care of each other?"

could not make a decision, at the moment, he still believed in Ye Zheng. Turning his head to look, Ye Zheng did not say anything, but nodded. It could be seen that the three experts of the Sixth Stage of the Divine Martial Stage's supreme golden body had given him a lot of pressure.

"Lead the way." Wu Yang did not say anything else, but nodded at Yang Xiong.

Yang Xiong did not say anything else and called out to the rest of the people. He rushed up to the entrance of the cliff, the disciples of Evil Dragon Palace did not want to be outdone, and all rushed up to it. This was a decaying cave, and it was likely that no one had passed this place in a long time, in this place, the width of the cave was around twenty meters, which was enough for everyone to go forward.

They had finally reached the territory of the Moon Demon Cave. Under the effects of the many Soul Suppressing Rocks buried underground, their spiritual sense was completely useless. In this gloomy cave, they could only rely on their eyes and ears to sense. Very quickly, the entrance was far behind him and the cave extended downwards. In a short period of time, there were more than ten forks in the road, Yang Xiong was relatively familiar with this place and had always chosen the larger path. He was very cautious, and did not turn his head to look at Wu Yang and the others.

Chapter 1100 - Purple Flame Divine Iron

Long Chen walked at the very back, observing this group of people without saying a single word. After Ye Zheng's group arrived, Long Chen's position in the group once again disappeared, falling to a point where no one was paying attention to it. He silently advanced himself, even if he left the group on his own accord, no one would know about him at this time.

Long Chen had really left the party.

Standing far away, only after they had walked far away did Long Chen catch up. Her Spirit Devouring Demon Pupil was inspecting the surroundings, and even though she couldn't see the passage, she could clearly see everyone within a kilometer.

In actuality, when Du Yiping saw that Long Chen did not continue forward, she thought that he was afraid and escaped right before the battle. The influence he had on her heart decreased greatly as she muttered to herself.

"You don't even have this much courage. It seems like you still don't have the qualifications to compare yourself with Ye Zheng and Wu Yang."

Previously, she had even regarded Long Chen as one of her targets. If he became powerful in the future, and climbed up to him, his future would definitely be bright.

"What's wrong?" Chen Peiqi realised her strangeness.

"Long Chen has escaped." Du Yiliang said nonchalantly. As the crowd drew closer, everyone could hear the voice. Wu Yang and Wu Yue turned around, and Wu Yue asked curiously: "Why does he want to leave us, to travel alone? Does he have the ability to do so? "

Little sister, you think too highly of him. Wu Yang said with a gloomy face. He was extremely dissatisfied with Long Chen's action of fleeing before the battle.

"Just watch." Wu Yue kept feeling that Long Chen was not the type of person to run before a battle.

"One left." Beside Yang Xiong, one of the sturdy warrior said softly.

"He's lucky." Yang Xiong said expressionlessly.

The group continued forward, and very quickly, they reached an extremely deep depth. Around them, there were many criss-crossing tunnels, some of which were extremely large, with a width of over a hundred meters. There was a huge underground cave here, with countless tunnels extending from within it, with no end in sight.

After arriving here, the map in everyone's mind had been destroyed. Wu Yue took out the map that was drawn out by the True Martial Imperial Palace, but they had no idea where she was right now.

Everyone walked very carefully, not making even the slightest sound.

After walking around, Yang Xiong kept on moving forward silently. He seemed to be very familiar with this place, and sometimes, he would directly bring everyone into a small path that only had three people walking in parallel.

Seeing the figure that was proficient in walking, the people of Evil Dragon Palace gradually felt that something was wrong. At this moment, they had arrived at a circular cave with a radius of a hundred

meters, and the height was only ten meters. On the opposite side of the cave, about a dozen tunnels extended out.

Ye Zheng raised his hand, causing everyone to stop. His face was gloomy, he looked around, and at this time, Yang Xiong immediately turned his head and asked: Brothers, why aren't you leaving? Those people's lair is still very far from here. You all are unable to understand how big the Moon Demon Cave is, there are hundreds of thousands of tunnels inside it. "

Ye Zheng looked at him gloomily, and after about a breath of time, Ye Zheng suddenly shouted: "Everyone, go back!"

Everyone was confused. Just what in the world was going on? Was he going back there?!

Yang Xiong has a problem?

What Yang Xiong said was very true, and they didn't seem like people from the Moon Demon Cave either. The people from the Moon Demon Cave should have at least the image of the moon on their forehead, so how did they know the whereabouts of Ye Zheng and the others?

No matter what, Ye Zheng's orders were to be carried out immediately. In an instant, everyone was rushing to be the first to retreat, and they were frantically retreating in the direction that they were heading, one faster and one faster. Ye Zheng did not retreat immediately, but chose to stay at the back.

"Have you finally discovered it? But it's already over. " It could only be said that this person's acting skills were simply too outstanding. No one would have thought that he was actually a scammer, that everyone had been tricked by him, even the calm Ye Zheng was no exception.

At this time, Yang Xiong raised both his arms, and suddenly the entire cave began to shake. Looking at the soil that was falling down, everyone could not help but think of one word, that was a mechanism!

It was precisely because of his existence that the Moon Demon Cave had been turned into an impregnable fortress. And now, it was obvious that Yang Xiong was activating the mechanism, which meant that this Yang Xiong was definitely from the Moon Demon Cave, and Ye Zheng and the rest were just fooled by him. Using the words he had just spoken, they had probably fooled quite a few people.

As the crowd retreated, with a loud bang, in the area with a radius of over a hundred meters, at the edge of the ground, purple colored Steel Columns s, burning with purple flames, shot out from the ground and pierced directly into the ceiling, trapping everyone there. The soil on the ceiling fell and

everyone looked up, and not only the surrounding area, even the ceiling and floor were filled with purple colored Steel Columns, each pillar was only as thick as an arm, the difference between the two Steel Columns was around ten centimeters.

A cage burning with purple flames had completely sealed off all of them, turning them into trapped beasts. The purple flame was at a very high temperature, so if they were to approach it physically, they would probably be roasted. As a result, in this cage, everyone had no choice but to wrap the primordial spirit around themselves and float in the air.

Not only was it ugly, it was also sullen.

Everyone would be angry, especially Wu Yang and the others. They were the decision makers, and it was also them who chose to believe in Yang Xiong. Right now, they were being tricked, but they could not escape the responsibility.

Not to mention all of this, Wu Yang coldly snorted and said: "Don't worry everyone, there's no broken cage to stop us. First we'll break this cage, then we'll kill this guy!"

Those who were deceived were all furious. Those who used weapons had already crazily chopped down the purple flame cage, and those who weren't had to use their fists to do so. At this dangerous moment, everyone had a tacit understanding, they were all dealing with the same purple flame pillar.

While everyone was in a state of madness, Yang Xiong laughed and said: "Don't waste your time, this cage is made from Purple Flame Divine Iron, it naturally burns Purple Flame Essence Fire. If you guys had the power of the peak of the Sixth Stage of the Divine Martial Stage, you would be holding a Divine Level 8 Divine Weapon, or you could even split this cage. But if you didn't, you guys should be able to destroy this cage with all your effort, but at least a day will be enough time.

The few people beside Yang Xiong also laughed arrogantly.

Let me tell you this, this Purple Fire Cage is the most important treasure of our three-hole master, and serving you today can be considered your luck. You have to know, there were two experts at the Great Circle of the Sixth Stage of the Divine Martial Stage who died under this Purple Fire Cage, and the ones who were killed were only three-hole master who had just entered the Sixth Stage of the Divine Martial Stage.

When it came to three-hole master, everyone was incomparably respectful.

Only a Grade Eight Divine Weapon would be able to destroy it. This meant that the material used to make this Purple Flame Divine Iron was simply too heaven-defying. Without being aware of it, it was indeed easy to follow their path in the Moon Demon Cave.

The purple flame divine iron's cage was not damaged in the slightest, and Yang Xiong and the rest were probably worried about Ye Zheng's attack, standing right at a very far distance. Although there was a cage that trapped Ye Zheng, the Sixth Stage of the Divine Martial Stage, but they were also worried that an expert of this level would use a method to attack them.

"Don't have brains. Isn't the Sixth Stage of the Divine Martial Stage still in the hands of I, Yang Xiong? Children of the True Martial Imperial Palace, you're still too inexperienced," Yang Xiong said with incomparable emotion.

He did not do anything, locking Ye Zheng and the rest up, obviously waiting for their boss's arrival. Ye Zheng and the others were like fishes on the chopping block, waiting for the opponent to come and kill them.

"Let me try." He was a warrior from the Asura Sword Prison, a natural born sword cultivator, his cultivation in the way of the sword was already at the fourth stage of the way of the sword, which was a whole level higher than the current Long Chen. However, his attack power had increased by ten times!

Therefore, when Ye Zheng used a weapon, his fighting strength was extremely close to being at the peak of the Sixth Stage of the Divine Martial Stage!

Clang!

Ye Zheng took out his own weapon, it was a grey sword, his entire body releasing a death aura, causing people's hairs to stand on end. Everyone believed that if they were to be covered by this weapon, their bodies would definitely rot, and if there were any plants in the area, this weapon would be able to corrode it, causing it to wither.

When Wu Yang had first seen the Rebirth Sword Technique, Wu Yang was somewhat sorrowful. Back then, he had lost to this Rebirth Sword Technique, thus becoming the third disciple, and had never

caught up to Ye Zheng before. This Rebirth Sword, was brought over by Ye Zheng himself to the True Martial Imperial Palace, and was a divine weapon of the seventh grade Divine level.

Seeing the sword, Yang Xiong frowned, but he was not afraid, he still believed in the treasure of the heaven's genius three-hole master.

"I've said it already. It's useless, so don't try in vain. Of course, this sword of yours is still not bad." Yang Xiong said coldly.

"We'll know once we try." Ye Zheng said indifferently, as he stood in front of the Purple Flame Divine Iron, the Rebirth Sword in his hand, completely filled with gray mist.

This was the power of the number one disciple in Evil Dragon Palace!
