### Chapter 1101 - Rebirth Sword

On top of the grade seven divine sword, the gray mist condensed to form the long snake.

Without saying a word, Ye Zheng waved the sword in his hand, releasing a burst of gray Qi that caused people to tremble in fear, which emitted out from his body, it was a type of deathly still killing intent.

This was very different from Long Chen's bloodthirsty killing intent.

The path of Ye Zheng's Divine Martial Stage was also a path of death, but it was an Asura path of killing that belonged solely to the Asura Sword Prison.

"Asura Hell's Seven Swords, Light of Death!"

Everyone looked at Ye Zheng with anticipation. Ye Zheng was the only hope left, if even he could not destroy this cage made of Purple Flame Divine Iron, then everyone would very likely die here.

Ye Zheng's aura had undergone a huge change at this moment. Under his control, the longsword in his hand turned into an ice-cold gray ray of light, which was actually the light of death. In an instant, it had struck one of the Purple Flame Divine Iron and, as long as one of them was destroyed, everyone could successfully escape!

Clang!

The gray light had a strange fatal force, if it hit the body, it was very likely that the body would rot, but Ye Zheng's attacks were useless against anything other than the flesh, the greater the hope, the greater the disappointment. Although Ye Zheng was very strong, but there was nothing he could do about this cage.

The material of this cage could only be destroyed by a level eight Divine Weapon. The Rebirth Sword Technique might be very effective at killing people, but it was more ordinary to have it destroy objects.

Ye Zheng was sent flying backwards. The Purple Flame Divine Iron seemed to be enraged, purple flames rushed towards Ye Zheng with the intent to kill, wanting to encircle him. Right at this moment, Wu Yue arrived in front of Ye Zheng and waved his hand.

Wu Yue trained in the Great Yin Heaven Decapitation Water Art, which was the coldest cultivation technique, and all the primordial spirit in her body had this property. It was the exact opposite of the purple flames, and thus had a very strong resistance against the purple flames.

Seeing that, everyone's face became ashen, even the strongest Ye Zheng could not do it, and the others could not.

Therefore, if there was no other way, they would definitely be wiped out and die before leaving the division.

Not only would he not be able to complete the mission, this kind of death method might cause the Evil Dragon Palace to become the laughing stock of the many halls.

So far, they had only killed a few monsters and the completion of the quest was close to zero.

Besides, the enemy didn't even come out. They just sent out a little rascal and successfully tricked a bunch of idiots like them.

This was the biggest joke, and it could even be said that he had disgraced the True Martial Imperial Palace. A dignified True Martial Imperial Palace had actually produced such a group of fools.

Seeing that Ye Zheng did not succeed, Yang Xiong and the others who were at the side laughed out loud and said: "Don't struggle anymore, just obediently enjoy your last moments. Once our three-hole master arrives, every single one of you will die, of course if there is a pretty girl that my cave master sees in us, it will be a different story.

"Despicable and shameless!" Wu Yang was furious, he punched the Purple Flame Divine Iron with his fist, the power of his fist was also burning with a temperature that was not lower than Purple Flame, but the Purple Flame Divine Iron was just too hard.

He would definitely be able to break out of the cage in less than half a day, but by that time, the three-hole master, whose cultivation level was almost equal to Ye Zheng's, would have arrived. By the time he arrived, everyone would still be trapped in the cage, who would be his match?

"Second senior brother!" Wu Yang and Wu Yue were together with Ye Zheng and the other two. The three of them had extremely ugly expressions on their faces, and as for the others, they looked even more terrified.

"I don't want to die here. Isn't it too meaningless to just die like this?" Chen Peiqi said somewhat fearfully. The other vases were also frightened out of their wits.

"Shut up!" Wu Yang roared at them.

"Just what use would it have to be to me? If you have the ability, you can split this crappy cage apart. Long Chen had dealt with the opponent earlier and killed them all in one move, how could such a situation happen?" When Du Yilang said this, her eyes suddenly widened and she shouted, "Long Chen was not trapped, where did he go?"

Ye Zheng and the others also suddenly thought of Long Chen.

Ye Zheng knew his own limits. He knew that he was not weak, but the requirement to destroy this Purple Flame Divine Steel was just too harsh.

"Long Chen has a weapon, it's pretty powerful too, but I wonder what grade it is!" Yao Bitong quickly said.

When Ye Zheng was at his wit's end, everyone began to think of Long Chen, and for a moment, everyone felt as if they could see hope.

Although that brat left us first, we don't know where he got lost now, and with his primordial spirit, he isn't even at the peak of the Sixth Stage of the Divine Martial Stage, how could he possibly save us! " Wu Yang's words caused everyone to wake up from their beautiful dreams. Everyone looked at each other, feeling defeated.

Yes, wanting Long Chen to help them was a complete fantasy.

At that moment, everyone became silent. The feeling of waiting for death was undoubtedly very uncomfortable. All sorts of negative emotions welled up from the bottom of their hearts, so they did not like anyone else.

"If you didn't believe this guy, we wouldn't have been tricked." Du Yiping muttered to herself, expressing her dissatisfaction with Wu Yang and the others.

That's right, Long Chen must have realized that this group of people were scammers, that's why he left first. Yao Bitong also said in a low voice, with a hint of complaint.

The others started to berate him, and the faces of Wu Yang and the others became even uglier.

"Long Chen? Are you sure he wasn't cheated? If you have the ability, you can just lead the way. Don't blame others if something happens." Wu Yang was so angry that his face turned red, and he roared at them.

Wu Yue said: "Now is not the time to argue, we must quickly think of a way to escape, only trash will blame their own people after something happens, you guys better not make me look down on you."

Amongst the female disciples of the Evil Dragon Palace, Wu Yue was the most beautiful, and her cultivation was also the highest. She had always been the target of envy for Du Yiliang and the others, and also one of fear.

Most likely, every single one of them had clashed with Wu Yue before, but they were basically beaten black and blue.

At this moment, he could only swallow his anger and accept it. However, he was still unwilling to accept it in his heart.

"Why don't you guys start an internal conflict? It's best if you kill each other. It seems that someone escaped, right? You can forget about it, he won't come to save you. Our Moon Demonic Cave is so complicated, if he were to come alone, he would have to go around it for several years. How could he have the time to save you?"

After he finished speaking, Yang Xiong laughed loudly.

Ye Zheng and the others did not hold much hope in Long Chen either.

"The ten of us will take turns using our strongest moves. I won't believe that I can't break through one of them!" Wu Yang clenched his teeth, he could only use such a stupid method.

He might as well just sit there and wait for death to come.

They started to move, but after a few rounds, they realized how difficult it was.

"Don't struggle anymore. Our three-hole master has received the news. It should be about time." As Yang Xiong was laughing, suddenly, the sound of footsteps came from behind him.

Yang Xiong laughed sinisterly, and said: "As you say, now that our three-hole master is here, you all can just wait to die!"

Ye Zheng and the others were extremely anxious, a warrior of the same level had appeared, yet they were trapped inside, unable to resist at all. Other than Ye Zheng, the others had no power to resist, and Ye Zheng reckoned that he could not hold on for long!

"What should we do?!"

Everyone was anxious, like ants on a hot pan, their hearts were filled with regret. The footsteps in front of them were getting closer and closer, and a shadow was being cast from the depths of the cave. The shadow was lengthening, and seeing this shadow, everyone's hearts immediately turned cold!

"Welcome, three-hole master!"

Yang Xiong and the others immediately lowered their heads in salute. The Moon Demon Cave's etiquette was relatively larger, they were kneeling down and bowing, with their heads touching the ground deeply, as if they were bowing to the moon in the sky.

Tat tat tat.

The footsteps became faster and faster, and that silhouette that made Ye Zheng and the others suffocate suddenly appeared. Before anyone could clearly see what the three-hole master looked like, the three-hole master had already disappeared, and a blood-red figure instantly flashed towards Yang Xiong and the others who were kneeling on the ground.

"Billions of killing!"

A stream of sword balloon instantly surrounded all those who were kneeling. No one expected that their three-hole master would attack them, and for a moment, all of the people kneeling on the ground had a slow reaction speed. Moreover, this three-hole master's speed was simply too fast.

In a very short span of time, all the other people aside from Yang Xiong had been killed. Yang Xiong's cultivation was very strong, before the arrival of the sword balloon, he had already used his battle skill to surround himself, and had escaped from this calamity. At this point, Yang Xiong had no choice but to be dumbstruck.

Of course he knew that the person who had suddenly appeared from behind wasn't some three-hole master!

Just a misunderstanding like this, was used by the opponent, and all of Yang Xiong's subordinates were killed in a single move.

How hard would it be to react to a person kneeling on all fours?

Therefore, other than Yang Xiong, everyone else had a line of blood between their eyebrows and they all fell to the ground with pale expressions.

On Yang Xiong's body, there were also many sword wounds that were currently bleeding.

This Yang Xiong could be compared to Wu Yang's Fifth Stage of the Divine Martial Realm, as well as the practitioners who had trained in Nine Heavens Thunder Tribulations.

And Long Chen right now, was merely at the perfection-stage of the Second Stage of the Divine Martial Realm!

"Long Chen!"

When they were at their most desperate, the one that appeared was not three-hole master, but the cold-blooded but intelligent Long Chen. Just when he appeared, Long Chen accurately grabbed onto this opportunity and killed all the people beside Yang Xiong!

## Chapter 1102 - Earth Demon Bear

The blood-red tip of the sword was still dripping with blood.

"Long Chen, come and save us." These disciples all shouted Long Chen's name one after another.

The expressions of Wu Yang and the others also changed, they looked at each other in dismay, but they were not too happy, after all, Long Chen did not have the power to destroy the Purple Flame Divine Steel, if the real three-hole master appeared, he would be done for.

Even Long Chen himself didn't know if he could handle this Yang Xiong in front of him.

Yang Xiong looked at Long Chen for a while, took a deep breath, and still smiled. He was still confident, and didn't care about some small deaths, and looked at Long Chen with interest: "I really don't understand, how did you see through my weakness?"

Long Chen was indeed the only one, and had already known since a long time ago that this fellow was a swindler. It was just that at that time, Wu Yang and the others fundamentally wouldn't believe Long Chen, so Long Chen didn't bother to tell him.

At this time, Long Chen pointed the tip of the Crimson Sky Kingdom's sword at Yang Xiong and said, "Yang Xiong, one of the ten Vice cave master s of the Moon Demon Cave is known as the Great Earth Demon Bear. This feeling is really nostalgic. "

Yang Xiong was startled, even Wu Yang and the rest looked at each other.

"How did he know?" asked in shock. There was absolutely no news about this, the information in the True Martial Imperial Palace only contained information about the three cave master s, and there were very little about the vice cave master s. There were a total of seven vice cave master s in the records, but he did not expect to hear a total of ten of them from Long Chen's mouth.

"Earth Demon Bear, a sixth-grade God level vicious beast. It is incomparably brutal and powerful. Let's not talk about nonsense and learn from it?"

Long Chen had already asked a lot of things from the warriors in the Moon Demon Cave using the soul controlling method. He knew that half of the passages in the cave were sealed, and the night of the full moon was about to arrive, so they left a few people to deal with the True Martial Imperial Palace

youths. The others all went into the sealed area, waiting for the full moon night to open the so-called Moonlight Box.

Yang Xiong was known for being mysterious. Due to the scam and the Purple Flame Divine Iron, many strong warriors had died in his hands.

Previously, the reason he was able to precisely grasp the position of Long Chen and the others and appear in front of them at the end was because in the sky above, there was a puppet bird that they had created. This kind of special puppet bird was like an eagle, and its eyes were sharp enough to transmit information on the location of Long Chen and the others.

"Since that's the case, then I will take care of this accident on my own before the three-hole master appears."

In the Beast Fighters, the most powerful thing was one's physical body!

At this moment, Brother Yang was in a rage. His body was undergoing a tremendous change, which could be seen with the naked eye. This was a horrifying change, a vicious and beastly aura was being emitted from his body like smoke.

Crack, crack, crack. When his originally black skin turned even darker, his body also started to expand, and the sound of his bones growing was exceptionally ear-piercing. Dark black hair started to grow out of his body, densely packed, and his fingers started to turn into thick claws, like a sharp blade.

The transformation from a human to this, was even more terrifying than a real beast. The violent aura made some of the girls here scream out in fear, the most terrifying thing about a beast was its physical body. Yang Xiong was now a humanoid beast, and in terms of physical body, he had reached an extremely strong level.

Roar!

The berserk roar was charging towards Long Chen, its thick feet moving forward, causing the Moon Demon Cave to rumble with vibrations, as a large amount of dust directly fell from the sky.

But what Yang Xiong did not know was that the beast that Long Chen was least afraid of was a wild beast.

"Trying to compete in strength?" Long Chen immediately tidied up Scarlet Sky Desolate Blood, and with his weak body, he clashed against Yang Xiong's terrifying body. The scene that everyone originally imagined where Long Chen was sent flying did not happen.

At this time, Yang Xiong's body was twice as tall as Long Chen.

Yang Xiong's large and small arms suddenly entangled together, his thick claws broke through the air and emitted an ear-piercing piercing sound of an explosion, while Long Chen's speed was much faster than the Earth Demon Bear's.

In the blink of an eye, Long Chen had already charged directly to his back. Sweeping the air with his feet, compared to Yang Xiong, his extremely small and skinny legs suddenly released an explosive power that directly shook Yang Xiong's enormous body to the ground.

It could be said that although Yang Xiong had increased his power by countless, his speed and agility had been restricted. For a Beast Fighters like this, Long Chen was practically his nemesis, and in front of Long Chen, he didn't even have the chance to retaliate.

As they watched Long Chen defeat such a huge beast, everyone felt that the current Long Chen was actually a truly humanoid beast. He was incomparably terrifying, and after defeating the other party, he turned around and pressed down on the other party's head, fist after fist smashing on it. What caused them to be even more alarmed was that even though Yang Xiong had been suppressed by him, he was unable to move, and after a short period of time, he was already completely drenched in blood.

Those terrifying claws and legs unsteadily smashed onto the ground. Yang Xiong struggled and screamed in fear, but to no avail. The most he could do was to cause the entire Moon Demon Cave to tremble!

Everyone was stupefied, especially Wu Yang and the rest. They never thought that Long Chen would be so strong, even if it was Ye Zheng who dealt with this Yang Xiong, it probably wouldn't be that easy. Even someone like Wu Yang might not be a match for this Earth Demon Bear.

Long Chen was originally having fun, but he had already rushed over within the range of his Spirit Devouring Demon Pupil, so he was sure that it was that so-called three-hole master. Long Chen knew that he could not drag it out any longer, at the last moment, the tip of the Crimson Sky Kingdom's sword

appeared at his fingertips, Long Chen tightly held onto the struggling Yang Xiong with one hand while the other hand's sword tip directly pierced into Yang Xiong's head, piercing a hole!

Only then did his huge and violent body gradually calm down.

Everyone stared dumbfoundedly at the boy who calmly stood up. After killing such a powerful opponent, it was as if nothing had happened to him.

's physical body was already close to the seventh stage of the body tempering technique. Honestly speaking, it was even stronger than Hall Master Chen Yuantong, but in front of Long Chen's body of an Ancestral Dragon, it was nothing. Especially in terms of speed, even if Long Chen did not make a move, he would not be able to understand Long Chen.

"I didn't expect him to be so strong. I reckon even we aren't his match." Wu Yue looked at Long Chen in shock, his beautiful eyes flickering with dazzling light.

"It's just luck. If I was fast enough, I would have been able to do this. This big stupid bear can only scare people." Wu Yang said in disdain.

Wu Yue was startled, and did not say anything.

"Long Chen, come and help us, quickly break out of this cage!"

"That's right, quickly come and help!" They all looked at Long Chen with anticipation, and from Long Chen's body, they discovered another kind of charm. What was different from Wu Yang's sunlight was that Long Chen's temperament was cold, and this kind of temperament was even more attractive to girls.

Even Wu Yue had to admit that the violent Long Chen was extremely charming at this time. Previously, they had hated Yang Xiong to the bones, and even if Long Chen killed him, it would have vented everyone's anger.

However, they did not have much hope that Long Chen would be able to break this Purple Flame Divine Iron.

After killing Yang Xiong, Long Chen seemed to ignore them, but instead walked towards the Purple Flame Divine Iron with his back to them. He stared at the cave in the distance.

Everyone was startled. Could it be ...

Long Chen looked at him carefully. This middle-aged man was very skinny, tall and thin, with a pale face and a sickly look. He had a kind of cold temperament, as if he was a person who was about to die, but he had never thought that such a person would be the three-hole master of the Moon Demon Cave, Xue Yazhi.

Xue Yazhi, also known as the mechanical genius of the Moon Demon Cave, owned all of it including the Purple Flame Divine Iron that had trapped Ye Zheng and the others.

No matter what, the Sixth Stage of the Divine Martial Stage, the Unparalleled Golden Body warrior still gave Long Chen a lot of pressure. Honestly speaking, could still be considered as an easy opponent to deal with, but to reach the sixth stage, that was basically a realm he could not touch.

After overcoming the Wind Fire Thunder Tribulations, one would gain a supreme golden body, and their physical body would almost never die, unless the enemy's head was completely destroyed.

In fact, if he cultivated to the end and his head was destroyed, he could be reborn as long as he had a bit more left. At this point, he was simply a monster.

The moment Xue Yazhi came out, he looked around and roughly knew what was going on.

She raised her head, and her cold and detached eyes looked at Long Chen, as though she had just crawled out of a coffin. Compared to Ye Zheng's killing intent, her gaze was even more terrifying, and this Xue Yazhi seemed to be a corpse.

"You killed my men."

Xue Yazhi approached Long Chen step by step, giving him a lot of pressure. Long Chen realized that this was not the time to show off. He could not handle this warrior.

Xue Yazi's appearance had also made the other people tense up. If Long Chen died, then it was their turn. Long Chen's appearance was useless.

The danger of death once again descended upon their heads.

At this time, Long Chen replied to them.

"They're all men, how could they be yours? Could it be that your interests and interests are different from ordinary people? Do you like men so much?"

The people inside the Purple Flame Divine Iron were all dumbstruck. In their eyes, Long Chen was such a cold-hearted person, why would he say such rogue words?

Xue Yazi stopped in his tracks. The moment he appeared, the sinister and terrifying atmosphere was completely destroyed by Long Chen's joke.

Chapter 1103 - Strong Alliances

At this time, Long Chen smiled and looked at Xue Yazi playfully, sizing him up and saying: "I never thought that the rumored mechanical genius would actually look like this, skinny and emaciated, with a body that has probably been hollowed out by a man all these years. I don't have the luck or courage to be your person, but don't be sad, we still have a type that suits you very well.

Saying that, Long Chen raised the Crimson Sky Kingdom high up in the air.

Everyone was shocked when they heard Long Chen's words. Could it be that Long Chen was confident in being able to get rid of the Purple Flame Divine Iron?

"Without the complete mastery of the Sixth Stage of the Divine Martial Stage and a Divine Level 8 Divine Weapon, you wouldn't be able to cut apart the Purple Flame Divine Metal." Xue Yazi said with incomparable confidence. Even though the middle-aged man had said those words, he still felt as stiff as a corpse.

"Is that so?"

In the next moment, Long Chen gave them his answer.

He suddenly turned around and roared, and the Crimson Sky Desolate Blood Dragon in his hand turned into a blood-red ray of light, quickly flying past the Violet Flame Divine Iron. Everyone could not imagine the sharpness of the Crimson Horn Demon Dragon's horn, as the blood-red light directly flew past the Violet Flame Divine Iron, as if it did not receive any resistance.

Everyone sucked in a breath of cold air.

Although there were no changes to the Purple Flame Divine Iron, everyone could still see that Long Chen had cut off the Purple Flame Divine Iron. With just a single slash, he had cut it off!

The expressions on everyone's faces became very rich.

It was not because Long Chen had left, but because the Crimson Sky Kingdom was simply too sharp. In terms of sharpness, the Crimson Sky Kingdom was a weapon that had once chopped apart the Divine level eight Clear Sky Sword!

Xue Yazhi's eyeballs were practically going to fall out.

All of this was within Long Chen's expectations. Taking advantage of this opportunity, he hurriedly used more strength as he waved the Scarlet Sky Desolate Blood Sword in his hand again, slashing below the same Purple Flame Divine Iron. It took two slashes to completely take the Purple Flame Divine Iron out of the cage.

The moment Long Chen brandished the sword, Ye Zheng's eyes began to shine brightly. He had already made preparations, when the Scarlet Blood Sky Desolate Spirit rushed past the Purple Flame Divine Iron, his body suddenly charged over, and instantly knocked away the already chopped out Purple Flame Divine Iron, a distance of twenty centimeters, was enough for him to dash to his side. As for the flames burning within such a short period of time, they were completely unable to harm him.

"Thanks, I'll deal with him!"

Ye Zheng escaped!

Long Chen was not confident in dealing with Xue Yazhi, but Ye Zheng was a true Sixth Stage of the Divine Martial Stage warrior, after he rushed out, he immediately stood in front of Long Chen. Long Chen's Crimson Sky Kingdom had given him a huge surprise, and during this period of time, Long Chen had once

again chopped off a few pieces of Purple Flame Divine Iron, allowing the people inside to safely come out.

Under Ye Zheng's protection, everyone fought to be the first to flee from the cage of the Purple Flame Divine Iron, escaping from death. Everyone felt like they were dreaming, and the eyes they looked at Long Chen with were also filled with reverence and respect. If not for Long Chen today, all of them would have been done for.

Xue Yazhi watched on helplessly.

A pale rage was emitted from his body.

Long Chen's speed was too fast, and by the time he had reacted, Ye Zheng, the expert who could be compared to him, had already come out. He was fighting Ye Zheng alone, and Long Chen was also an expert staring at him covetously from the side.

"In all these years, you're the first person to destroy my treasure. I'll remember you." Xue Yazhi looked at Long Chen with cold eyes.

"You want to run?!" Ye Zheng understood his intention and immediately chased after him. But right at this time, Xue Yazhi acted like a ghost and in a short period of time, he had rushed into a cave with a diameter of around three meters, Ye Zheng followed closely behind, but right at this moment, the cave actually started to surge at a very fast speed, and completely sealed off the cave in an instant. Ye Zheng was enraged, his sword slashing down straight at the cave, and even more soil started to fall down, in that short period of time, Xue Yazhi had already escaped far away.

Even an ice-cold person like Ye Zheng was extremely furious in his heart.

"Second Brother, don't chase him. This person is a mechanical master, and this Moon Demon Cave is his territory. He has it all under his control. We are chasing him here, so it is easy to find his path."

Wu Yue then stopped him.

A group of people gathered together, and couldn't help but look at Long Chen. Judging from his previous performance, it was clear that Long Chen knew more than them, and even Ye Zheng and the rest had no

choice but to take Long Chen seriously. Long Chen's previous performance had already completely impressed them.

Wu Yue smiled lightly, and said: "Previously, we had quite a few attitudes towards you, but you did not bother us with small matters. If not for you this time, we would have lost our lives, thank you very much!"

Even though Long Chen saved everyone once, he still hated Long Chen to the bones. At this time, when he saw that Wu Yue had actually apologized to Long Chen, he was not convinced, but he did not dare show it.

Wu Yang patted his shoulder but did not say anything.

"Third senior doesn't seem to like this Long Chen." Zheng Dongyang was overjoyed, there was someone standing on his side.

Long Chen had never planned to save these people, but after thinking about it, mission was more important, he did not know what the judgement of the prizes were like. If he were to complete all the missions by himself and leave his comrades behind, or even if his points were not that high, he would still come back here.

"Let's go, it's not safe here. We'll talk about it somewhere else." Vaguely, he had formed a force that could contend against Ye Zheng and the others. After saying a few words, he turned around and left, Du Yishuang and the others hurriedly following behind him. From now on, they even felt that it would be safer to follow Long Chen.

"Brother, there's also second senior brother. Eldest senior brother, let's follow him. He knows more than us, so he probably has a plan as well." Wu Yue turned around and smiled sweetly, before following Long Chen and advancing. After going through a series of events, she had a good impression of Long Chen, and felt that this kind of person should be a trustworthy partner.

Wu Yang and Zheng Dongyang looked at each other. They were not very happy, but they still followed him. After Long Chen brought them to walk a few rounds around, everyone was confused. Wu Yue caught up to Long Chen and asked curiously: "Why do you look so familiar with this place?"

"I am from the Moon Demon Cave, do you believe me?" Long Chen laughed, looked ahead, and did not say anything.

"Definitely not." Wu Yue knew that he was joking.

"Wait." suddenly stopped in his tracks, and the others also stopped. They were even more dissatisfied with Long Chen's actions, they were clearly the leaders, why did everyone follow Long Chen and follow him?

"What are you doing?" Wu Yang walked up and said somewhat unhappily.

"Mechanism, step back a bit." Long Chen waved his hand, and he also retreated a lot of distance away. Then, he pinched off a piece of soil from the side and threw it with all his might, flying towards the ground in front of him.

Bang!

With a light touch, the ground actually caved in. At the same time, with a few ear-piercing whistles, dozens of steel needles that were only ten centimeters long shot out from the caved in area, directly piercing through the ceiling of the cave. With the force of these needles, it was unknown just how many meters they stabbed into the ground.

Such a force was enough to pierce through everyone's bodies before they could even react.

Everyone looked at each other in fear, speechless.

Without saying a word, Long Chen took a few steps forward and looked at the top of the cave wall. There were a total of tens of small holes, and every hole had a bit of green mucus on it.

The green liquid landed on the ground, making a sizzling sound.

"Extremely poisonous."

When everyone saw this, their faces changed drastically. Needless to say, they knew that this was extremely poisonous. If they had rushed forward hastily just now, they might have been pierced by these needles or even infected by the poison.

Fortunately, Long Chen had called them.

He could actually even detect this mechanism, and the way everyone looked at him started to change again. Ye Zheng and the others were very strong, but they were not as strong as the sense of security Long Chen gave them.

Almost everyone looked at Long Chen with astonished eyes.

Of course there was an exception, and that person was Wu Yang. He pointed at Long Chen somewhat unhappily, and said: "Just where are you bringing us to? Bring us here to try out this poisonous steel needle? "

"If you were to leave alone, you would already be a honeycomb." Long Chen mocked and laughed, then changed to another path to continue walking. Very quickly, they arrived at a hollow cave, it was larger than the others, and was enough for them to rest.

Seeing that Long Chen was no longer leaving, Wu Yang walked in front of him and said: "Our whereabouts have been completely exposed today, and all sorts of traps are waiting for us. It's already not appropriate to attack today, the most pressing priority right now is to withdraw.

Everyone thought that Wu Yang was right, the mechanisms here were terrifying, if they stayed here, they would die.

Long Chen stood up, looked around and said: "No, we don't have time, within three days, it will be the full moon. If we are late, there will be a lot of loss of life, you all are all used to seeing life and death, so if you do not care about the lives of thousands of people, but with so many people dying, if the Supervisor finds out, it will definitely cause our Evil Dragon Palace to lose points, so, we cannot retreat."

"What are you talking about on the full moon?" Wu Yang glared at Long Chen.

"Alright, I'll tell you what I know. Let's work together, and we might be able to complete the mission." Long Chen sat down and took out a pen and paper from Great Void Realm.

Chapter 1104 - Split Soldiers

"What do you mean?" Regarding Long Chen's words, Wu Yang was simply in a fog, and did not understand at all.

Long Chen thought like this. His goal this time, was mainly to receive a very high evaluation, so if he could get the chance to obtain the dragon's scale to cultivate the Nine Dragons Scripture, then that would be very good. Because of Ling Xi, his only mission now was to go to True Martial Imperial Palace, and regardless of strength or status, he would have to climb up.

Thus, he had to make this trial's battle a beautiful one.

However, he was still able to complete the mission with his current strength. Furthermore, by cooperating with them slightly, not only would it increase one's own score, it would also increase the Evil Dragon Palace's score, which was reasonable but not impossible.

In Supervisor's ranking, there must also be the performance of everyone. The Moon Demon Cave was suppressed due to the existence of the Soul Suppressing Stone, so it might be difficult to rate the participants. But what Long Chen was even more certain of, was that the Soul Suppressing Stone here was definitely unable to suppress the alcoholism's super powerful consciousness that was close to a hundred thousand miles in radius.

If there was such a terrifying Soul Suppressing Stone, it would have been dug out long ago.

The Soul Suppressing Stone was at most at the seventh level. It was naturally formed, and no one knew where in the Moon Demon Cave it was located.

Thus, if Han Yunxing came here, every single movement of Long Chen and the rest were all under his observation. Long Chen was a smart person, he knew how to use his outstanding performance to exchange for the things that he needed.

Working with his teammates was also one of his missions.

Therefore, he shared what he knew with the others.

Long Chen did not speak first. Previously, he used his soul controlling skills to let the warrior draw out the maps of the Moon Demon Cave that he was familiar with. By the time he reached Divine Martial Stage, his life would have already transcended, and his human consciousness and memory would

increase to a terrifying level. Although the Moon Demon Cave had tens of thousands of passages, he would live here throughout the years, and after tens of thousands of years, any Divine Martial Stage cultivator could draw a picture of their own impressions.

As for Long Chen, he was now using his own methods to draw out the map he stole from him. In terms of the original True Martial Imperial Palace's information, Long Chen had refined this map at least ten times better.

Those people who were wondering what Long Chen was doing in the beginning, felt admiration for him once again when they saw that this map was gradually improving. In their hearts, Long Chen had completely stolen the limelight from Wu Yang and the others, and there was even a mysterious feeling about him.

When Long Chen drew the map, even Wu Yang was left speechless. As for Ye Zheng, he had been silently watching Long Chen's actions the entire time, without saying a word, and had occasionally looked at the solemn Wu Yue beside him. The girl's long hair at her temples fluttered gently, her white and tender skin was like a pure white baby's skin.

The first doubt was that his map looked like a gourd and was split into two parts. Long Chen had drawn one part very clearly, while the other part was completely blank. The narrowest part of the gourd was in the middle, and Long Chen had cut the gourd into two halves.

And the second doubt, was that part of the bottle gourd that was distinct. Long Chen used the heavy colored pen, and marked out a total of nine points. These nine points were very scattered.

"There's still half left. Why didn't you draw it?" Wu Yang urged.

"I'm not too sure about this part, so I don't need to use it for now. If you trust me, I'll tell you what to do next." Long Chen grandly laid the map on the ground, while the others all surrounded him, showing their belief in him. Although Wu Yang was unwilling, he had no choice but to admire Long Chen, and they did know a lot of things.

Long Chen didn't talk about the map, but started with the layout of the Moon Demon Cave, and said: "Everyone must be very strange, why did so many people from those small cities get grabbed onto by the Moon Demon Cave? We have only met a few people so far. That's because they are already here, the only ones left to stop us are Yang Xiong and the other scammers and Xue Yazi. "Everyone else is here."

Long Chen's finger pointed to another blank spot on the map of the bottle gourd.

"You don't even know yet, but the people of the Moon Demon Cave, have obtained a treasure, and if we can't get the full moon night, they will close up half of the cave, and then use the lives of thousands of people to activate the treasure, in order to achieve their goal of cultivation. Right now, it is only two to three days away from the full moon, so if we leave now, the lives of more than a thousand people inside will disappear like smoke into thin air. At that time, you will have failed to live up to the expectations of the Hall Master and Vice Hall Master, this is inevitable. "

Long Chen did not leak out the information regarding 'Moonlight Box' and 'purple devil moon diagram', instead, he said it in a very vague manner. This Moonlight Box should be the same type of evil being, and Long Chen did not want some people to abandon their initial intentions of cultivating the martial way and become the next month's Devil Cave.

None of the others knew anything about this information. They looked at each other, not knowing what to do. At this time, Zheng Dongyang sneered, and said: "Are you trying to flirt with the masses, or are you planning some other scheme? Why do you know so many things? I think you must have some evil intentions, right? "

"Dongyang, if he had evil intentions, he wouldn't have saved us just now." Wu Yue could still see it clearly.

Wu Yang, who was at the side, shook his head and said: "You can't say that, who knows what plan he has, and what he has said is also like a fantasy, which one of you believe what he has said?"

Wu Yang was just casually saying it, he did not think that Du Yilan and the others would actually just say that I believed it. For a moment, everyone believed it, only the disciples who were part of the Palace Master's bloodline and had no authority were left, Liu Qingfeng was the most familiar with Long Chen, hence they all chose to believe him.

"I believe him too." Wu Yue remained silent for a moment, stretching his brows, and said.

"You ..." Wu Yang was at a loss for words.

Long Chen glanced at him, then continued: "In this position, it is now sealed."

The location he mentioned was the thin spot between the two ends of the gourd.

"Xue Yazhi has put down a lot of Purple Flame Divine Metal here, and has completely sealed off all escape routes. Other than destroying these Purple Flame Divine Metal, we have no way to get to them.

"Purple Flame Divine Iron? Then what should he do? Doesn't that mean we'll never be able to enter this place? Can't kill them?" Wu Yue entered into the discussion state with Long Chen.

This is the key to drawing so many points on the map. Each of the nine points on the map have a hidden mechanism, and only by finding this mechanism and continuously opening the nine points will the steel wall formed by the Purple Flames Divine Iron open. Only then will we be able to enter that sealed area and truly complete the mission. With that, Long Chen stood up.

"Wait, you must be joking. Since they have sealed off the inside, why did they leave nine traps outside for us to open?" Wu Yang frowned, and said with distrust.

"It's very simple, because it was designed by Xue Yazhi. Xue Yazhi is still outside. Furthermore, who knew and who could find nine mechanisms here? Xue Yazhi was the one who set up the mechanism, so there are times when the mechanism might not work. If the experienced switch failed, wouldn't they all be trapped inside?" Long Chen said straightforwardly without even looking at Wu Yang.

"Then how did you know?" Wu Yang's problem was probably other people's problem as well.

"Why should I tell you?" Long Chen asked.

"You!" Wu Yang was speechless.

Long Chen had already said what he needed to say. He pointed to the nine points on the map and said: "Considering the speed problem, we will split up into two groups. I will go through the four mechanisms here while you guys will go through the other four. Is there a problem with that?"

Everyone looked at each other.

"I've told you everything I should've said. If you guys don't believe me, you can take the map and walk around by yourself to see if this is what I'm talking about in the Moon Demon Cave." If you guys are afraid, you can come back in a few days. After the full moon has passed, thousands of people have died, and their strength has improved once again. Long Chen mocked.

Everyone blushed.

Du Yifan was the first to speak, "I feel that Long Chen's words are very reasonable, and his analysis is clear as well. It doesn't seem to be false, and he is the disciple of Hall Master Jiang. This information, might be possible."

Upon mentioning Jiang Qing, everyone finally understood why Long Chen knew so much. So it was Jiang Qing who had told Long Chen, and he alone was not able to get hold of so much information, since Jiang Qing had secretly instructed him to do so, there was no problem with Wu Yang. He took the map from Long Chen's hands and said: "Since that's the case, let's split up into two groups.

Wu Yue, who was at the side, had an inspiration and said: "Long Chen and I will go together, the others will go together, and then we will gather at the last location.

"Yue'er" allowed Wu Yue and Long Chen to be together, this uncertain factor. Wu Yang was a little worried, but seeing that her sister had already decided on it, he knew that Wu Yue's temper was actually very stubborn.

#### Chapter 1105 - Ten Directions Frozen Devil Dao

"Alright then." Wu Yang looked at Ye Zheng, and in the end, he still needed his consent. At this time, Ye Zheng's gaze was on Wu Yue, and he gently bit his lips. A grey light flashed in his eyes, and then, he slowly nodded.

"Xue Yazi is still on this side, and there's also his mechanism. The locations of the mechanisms in my memory have all been marked, so be careful." Long Chen didn't have any objections, Wu Yue wasn't a weakling, he could just follow him and not become a burden.

In this place, the soldiers split into two, heading towards their first target.

Long Chen did not even need to use a map, he only had a map in his head. After separating with the rest, Wu Yue followed closely behind Long Chen, and Long Chen's speed was not slow, so Wu Yue found it difficult to follow him. This made her even more curious about this man, just what kind of strength did he have, how did he have such speed?

After struggling for a bit, Wu Yue finally arrived at Long Chen's side. She turned her head to look at Long Chen, and her beautiful eyes shone with a light as bright as water.

"Why?" Long Chen still had some good feelings towards her. After all, amongst Wu Yang and his teammates, she could be considered the one who supported him the most.

"No, I'm just curious about you." Wu Yue smiled.

"There's nothing to be curious about. It's just that there was a person who was left alive in that small city and interrogated him for a period of time." Long Chen continued to advance.

Wu Yue lightly bit down on her soft and pure lips. She really thought that Jiang Qing had told her about it, but she did not allow it. Although they thought they were the strongest disciples in the Evil Dragon Palace, facing off against enemies, they did not think that they would use this method of interrogation. Basically, they killed as many enemies as they saw on their way.

Long Chen's speed was extremely fast, and this place was just like his family's. Occasionally, he would come across any kind of mechanism, and he could bring Wu Yue along with him and easily dodge them.

As Wu Yue advanced, she looked at Long Chen curiously. She had a feeling that behind this man's back, she didn't need to worry about anything, the other party could take care of everything. This sense of security was something that even Ye Zheng and Wu Yang had never given her before.

"Forget it, feeling safe is just an illusion." Wu Yue laughed bitterly and followed after Long Chen.

Long Chen judged from the surrounding terrain that they should already be close to the location of the first activation mechanism. Right in front of him, Long Chen who was rushing over was stunned, because the place in front of him was a wall.

"Here?" Wu Yue came to his side, and curiously looked at the wall in front of him. There was nothing here but this wall.

"Stand still, I'll do it." Long Chen said that, and immediately headed towards that area, he did not step on the ground, but floated in the air, and when he approached the wall, he extended his hand out, and with a slight tremble, the entire wall fell!

"Be careful!" In that instant, Wu Yue had already felt that there was something behind the wall and her reaction was actually even faster than hers. When she was born, Long Chen had already almost charged past the place she was at.

"Let's go!"

It was at this critical moment that Long Chen gave her a hand. Right at this moment, the wall suddenly exploded, and a dark green colored airflow spread towards the two of them at an extremely fast speed. This dark green colored fog turned into a long snake, screaming as it chased after Long Chen and Wu Yue.

"Over here!"

Long Chen and Wu Yue suddenly turned around and entered into a passage. At this time, Long Chen suddenly turned his head back, and two rays of white sword beams appeared in his hands. He used the Taibai Sword Prison as a defensive offensive skill and formed a small white sword balloon to trap the two of them.

"Can we go out now?" Wu Yue was not used to having the two of them in such a small space.

"That's poisonous gas. In a while, use primordial spirit to wrap yourself in it." Long Chen said without expression, then closed his eyes. Roughly a quarter of an hour later, Long Chen put away the Supreme White Sword Prison.

"Why don't you use the primordial spirit to surround yourself?" Wu Yue did as she was told, but she didn't expect Long Chen to not have one himself.

Long Chen laughed, and said: "This thing still can't hurt me." Behind the wall, there was a weirdly shaped mechanism, and below it were two gigantic iron chains. It was extremely sturdy, and when Long Chen found a handle to activate the mechanism, he used all his strength. The entire Moon Demon Cave was actually trembling.

"It's done. "Next!"

After he was done, Long Chen headed to the next location without a second word. She ran behind Long Chen and looked at the young man in a speechless manner.

"His speed really is fast."

She liked Long Chen's capable and decisive character.

Along the way, the two of them did not speak at all, but while they were travelling at full speed, this was the first time Wu Yue had seen such an unromantic person. Under this kind of situation where only a man and woman were together, even Ye Zheng would force himself to say a few words to liven up the atmosphere.

The second mechanism was a bit far, so the two of them had to travel at full speed for about an hour before they finally arrived at this place. The terrain of the Moon Demon Cave was too complicated, and many places seemed to be very close, but they had to travel a long way to reach it.

This was precisely the reason why this place had become their headquarters.

The countless people who came to exterminate them returned in defeat.

The second mechanism seemed to be safe as it was in an empty underground world. It was very vast and had a circumference of over a thousand meters. Even the ceiling of the cave was about 30 meters away, and the activation mechanism was right in the middle of this huge cave.

The interior was completely empty.

Long Chen was still very careful as he slowly entered, at the same time, he vigilantly looked around. Even after he turned on the activation switch, there were still no signs of anything happening, so Long Chen was no longer worried.

"Let's go to the next place." He raised his head and saw that there were more than 50 tunnels extending from this huge cave. In one of the tunnels, there was a tall and skinny man with pale skin standing there like a corpse.

Long Chen and Wu Yue both took in a breath of cold air.

He never thought that he would meet him here, or it could be said that he had already been waiting for Long Chen here for a long time.

At this moment, his eyes were blinking at Long Chen, and he said in surprise: "Looks like you know the method to open it."

Without saying a word, Long Chen activated the activation mechanism, and immediately destroyed it with a punch, if not, even if he wanted to escape with Wu Yue, since this place was closed by Xue Yazi, it would be a wasted trip. Xue Yazi had to die, but Long Chen did not have any methods to deal with him.

He wasn't sure if he could handle him.

"You're quite smart, knowing that I can't shut down the mechanism once you destroy it." Xue Yazi continued to speak with an expressionless face.

Long Chen and Wu Yue looked at each other. They both knew that they were going to give it their all. Long Chen was also very troubled, he was unable to use his blood escape skill here, but that did not matter, he wanted to try and see if working with Wu Yue could take his life.

Xue Yazi might not be able to catch up to him in terms of speed, but it would still be troublesome with Wu Yue by her side.

At this moment, Xue Yazi jumped down from the top and walked towards Long Chen step by step, saying at the same time: "The grand event of our Moon Demon Cave, you children shouldn't be messing it up, you must be participating in the True Martial Imperial Palace's trial war, Imperial Palace's collection is truly huge, any other hall's young disciples have almost the power to destroy my Moon Demon Cave, I, Xue Yazi, am incomparably impressed, it seems like after this, we will have to change our position and run away from home, it's your fault."

"Don't be so pitiful. You're scum. Since we didn't come, someone will naturally come and take care of you." Wu Yue said stubbornly.

"Little girl, you look pretty good. It's a pity that I'm not interested in you. You won't live for long." Xue Yazi had sufficient confidence in himself.

"This is my world. It would be weird if you could escape."

With a slight wave of his hand, it was as if Zhao Xueji's frozen bloodline had sealed the entire cave with snow. The fatal cold energy had completely surpassed the coldness of Zhao Xueji's frozen bloodline.

Without saying a word, Long Chen took out the Crimson Sky Desolate Blood Art that he held in his hand. Long Chen's ice-cold eyes flashed within the ice-cold, blood-colored light.

To be able to make Long Chen's blood boil, he clearly knew that he was not his match, but he was actually interested in such a battle!

True Martial Emperor's Soul, open!

That grey light appeared between his eyebrows. No one knew what it was.

This grey light caused Xue Yazhi to be confused for a while, and he quickly laughed weirdly, and said: "I smell the smell of your corpses, on your bodies."

"Pretend to be struck by lightning!" Long Chen reached out his left hand and let out a furious roar. The golden lightning completely wrapped around his arm and the roaring Golden Thunder Prison dragon expanded in a flash, turning into a golden lightning dragon that covered the sky and blotted out the sun. It charged towards Xue Yazhi in an instant to swallow him up!

It really was a lightning strike!

He did not have much left in his pockets. Previously, when he used 20,000 God Crystals, he pretty much killed Chu Tiange with them. Although he only had 10,000 God Crystals now, it was still enough to deal with Xue Yazhi!

The golden lightning engulfed the entire cave in an instant. Different to Chu Tiange, when Xue Yazhi had a reaction time, when the Golden Thunder Prison Dragon pounced in front of him, at the same time that he was shocked, he used a battle skill.

"The Ten Directions Frozen Devil Dao, Ice and Snow Cliff!"

Chapter 1106 - Snow Sky Moon Armor

Under Xue Yazi's display, a solid ball of ice and snow formed around his body, and when the hard ball was formed, the suffocating golden Thunder Prison dragon directly smashed onto the ice and snow sphere. The golden lightning, and the divine dragon that bared its fangs and brandished its claws, directly cracked the ice and snow sphere in the first moment, and with a kacha sound, the ball of ice and snow exploded.

This was the power of 10,000 divine crystals!

With Xue Yazi's sudden appearance, at such a critical juncture, Long Chen couldn't care about that much anymore, and directly released the Golden Thunder Prison Dragon. If he could heavily injure or even die Xue Yazi at the first possible moment, that would be for the best.

Of course, Xue Yazi blocked the ice and snow wall once, so it was not easy to kill this practitioner with supreme golden body. The supreme golden body was a heaven defying ability that could not be defeated, so Long Chen could only destroy him once, and that would be very difficult to kill!

was currently at the threshold of celestial realm. If not for the various methods of the Ancestral Dragon, he would only be able to deal with Second Stage of the Divine Martial Realm and anyone present could easily kill him. It was precisely because of the shocking nature of the Ancestral Dragon that Long Chen was able to have such an attack!

Otherwise, he would have been able to kill the other martial artists with just the 'one with the world' and mobilize the Emperor's spirit energy.

After the Golden Thunder Prison Dragon's power had destroyed its opponent, it returned to Long Chen's side. Beside him, Wu Yue's face was filled with shock, her white and tender face was full of astonishment, and her eyes flickered with a tender light. Her body was long and slender, with many curves, and all of this attracted the gazes of the men.

"You killed him?" Wu Yue's beautiful face was filled with disbelief.

"Nope." Long Chen's gaze turned deep. He was using a Spirit Devouring Demon Pupil, and when he saw that Xue Yazi was still alive, one third of the gigantic cave was destroyed by the Golden Thunder Prison Dragon, so Xue Yazi was pressed into the soil that had fallen. When Long Chen took back the Golden Thunder Prison Dragon, a head that held half of his body within it suddenly appeared from the ground.

At this moment, he looked at Long Chen with an unparalleled hatred. That crazed gaze of his wished for nothing more than to swallow Long Chen whole.

Long Chen and Wu Yue saw a very terrifying scene. It was that the other party's body was actually growing at a speed visible to the naked eye, and his hands and legs were slowly growing out. The new limbs that grew out were practically all white and tender, just like an infant's skin.

The surrounding environment of ice and snow had yet to disappear. At the same time Xue Yazhi recovered his body to prevent Long Chen from attacking again, his newly formed arm instantly formed another snow cliff, surrounding him once more.

Without saying a word, Long Chen changed his body in an instant, and without any hesitation, he rushed to the air above the ice and snow cliff.

Clang!

It was indeed worthy of being called a battle skill used by a Sixth Stage of the Divine Martial Stage Ranker. Long Chen did not break this room, but he did not lose heart, and turned the slash into a thrust. Crimson Blood Desolate's sprinting strength was the strongest, and a streak of golden lightning instantly appeared in front of the ice and snow cliff.

"A good chance!" There was an opening that was easily opened. Long Chen smashed his fist against the ice cliff, and the force of the impact caused the ice cliff to shatter with a loud rumble, the sharp ice shards dropping onto the ground one by one, producing dang dang dang sounds.

"You're too late!" The other party's arrogant laughter came from within the snow cliff. Long Chen obviously knew that he had already recovered and did his best.

At this critical juncture, Long Chen could only dodge. In terms of speed, Long Chen was not weaker than his opponent, he might even be stronger. 's figure appeared again. He looked similar to before, but Long Chen knew that in his current condition, he had already consumed a lot of his energy and could be considered to have suffered a certain degree of injury!

Even so, Wu Yue was still very shocked by Long Chen's mysterious attack just now.

Even her, Wu Yue, was far from being able to crush a body of the Sixth Stage of the Divine Martial Stage. She was even able to see the mysteriousness and power of the youth beside her.

At the same time, Wu Yue had also made her preparations. For real experts of the Sixth Stage of the Divine Martial Stage, even she and Long Chen did not have much of a plan.

"You guys are still too naive, thinking that you can defeat me like this." Xue Yazhi's tone became a little crazy. He concentrated on Long Chen and suddenly took out a snow-white crystal.

"I am a genius and you will never understand my intelligence. I know that your body is very strong, but "at this time, he suddenly crushed the snow-white golden crystal. The crystal shattered, turning into a snow-white ray of light that surrounded Xue Yazhi.

Very quickly, the snow-white light evolved into a set of snow-white armor that completely surrounded Xue Yazhi. This snow-white armor was made entirely out of metal, but Xue Yazhi actually wore it on his body.

At the same time, as Xue Yazhi panted and donned the armor, he moved freely, which also meant that this metal had an extremely strong flexibility, and it was even a set of extremely exquisite and beautiful armor.

"This is the work that I am most proud of in my life. I am a puppet master, and at the same time, I am also an alchemist. I am even a Symbol Master, but in the end, I became the current me. This was the Snow Heaven Moon Armor. As for its effect ...

Long Chen could feel that this Snow Heaven Moon Armor was stuck firmly on his body, as if it had become a part of his body.

He and Wu Yue looked at each other and saw the heaviness in each other's eyes.

"I'll stop him. You go first. As long as you leave, I'll be able to catch up immediately." Long Chen whispered into Wu Yue's ear.

Wu Yue was a little dazed. She had never met Long Chen before, and they could even be said to be in conflict with each other. However, Long Chen was speaking to her in a protective posture, this feeling of being protected was really strange.

Wu Yue did not say anything, but prepared to fight. She also wanted to use her actions to prove that she was not a weak girl.

"No one can escape." A destructive aura burst forth from Xue Yazi's eyes, and in a moment, his speed increased by several folds as he rushed towards Long Chen and Wu Yue. A white ray of light swept towards the two of them, and instantly, they felt the stinging pain of a sharp light on their faces.

Kcha! \*

As the opponent advanced, over a thousand poisonous needles shot out in Long Chen and Wu Yue's direction. The strength of these needles were extremely strong, even if it was a precious metal, it could easily pierce through them. Of course, Long Chen and Wu Yue did not dare to use their own bodies to withstand the needles.

Long Chen's Crimson Sky Kingdom was extremely fast, so when he used it, the thousands of steel needles were all sent flying and pierced into the cave wall.

This was nothing, because to Xue Yazi, this was just a small trick.

However, from this exchange, Long Chen realized that Xue Yazi was not someone he could handle right now. He had already developed the intention to retreat, and the most important thing right now should be to activate the remaining two organs!

Previously, Long Chen had indeed wanted to try and see if he could kill his opponent with his own attacks.

Xue Yazi had already attacked, the two sides were engaged in a tragic battle, for a moment, golden lightning bolts, blood colored longswords and snow white metal light clashed with each other. Beside him, Wu Yue did not stay idle, he also used the Tai Yin Gui Water Arts, and fought shoulder to shoulder with Long Chen!

"God Slaughtering Sword Formation, Sword Sea!"

"Celestial Yin Decapitation Water Art, Watermark of the Gui!"

To deal with these Sixth Stage of the Divine Martial Stage warriors, Long Chen and Wu Yue had already unleashed their trump card skills. Although the cave was big, but in a short period of time, they were beaten up by these fast moving warriors to the point that they were trembling incomparably. Large amounts of soil started to fall, and in a short period of time, more than half of the cave collapsed.

"Not only did this Snow Heaven Moon Armor give him a large amount of support from the primordial spirit, it also increased his speed and strength, and at the same time, it also seemed to increase the strength of his body. Normal attacks can't break through it, and my Crimson Sky Kingdom can't even get close to his body."

Most importantly, steel needles and poisonous gases would frequently appear on his armor. It was simply impossible to guard against them. Forget about Long Chen, even ordinary Sixth Stage of the Divine Martial Stage warriors might not be his match.

This battle was extremely difficult for Long Chen. Even with all his strength, he was not a match for his opponent, and was forced to retreat step by step! Although Wu Yue was assisting, she was in an even more sorry state!

"Your name is Long Chen, right? You can die now!" The greatest threat to Xue Yazi was still Long Chen, and he was most afraid of Long Chen, so at this moment, all of his attacks were directed at Long Chen.

"I'll block him first. You find a chance to escape, but if you leave, he won't be able to catch me!" At this critical juncture, Long Chen whispered to Wu Yue.

Wu Yue saw that his eyes were sharp, and did not look like she was lying, and nodded.

"Seize the opportunity!" In this battle, Long Chen learned a lot, the True Martial Emperor's Soul was still open, so he was not discouraged. After all, the opponent was a Ranker who had cultivated the Sixth Stage of the Divine Martial Stage for more than a thousand years, he was still far from that realm.

With his strong will, he was truly a person who stood at the pinnacle of the world!

Chapter 1107 - Life and Death Snow Talisman

"If that's all you've got, you can go die." A cold light flashed in Xue Yazi's eyes. When he used his true strength, he was like a monkey that was trying to deal with Long Chen.

"Even if it's the Sixth Stage of the Divine Martial Stage, it might not be able to withstand this move!" Xue Yazi let out a cold laugh as both his hands clasped together. Ice and snow energy converged onto his body.

"Ten Directions Frozen Devil Dao, Cross Seal!"

In an instant, even Long Chen and Wu Yue found it difficult to open their eyes. Long Chen knew that this was a part of the opponent's cross mark, and the body of an Ancestral Dragon was not that easy to deal with. Although Long Chen could not win against the opponent, he would definitely not die in the hands of the opponent.

He forcefully opened his eyes, and could still hold on. At this time, Xue Yazi laughed out loud, and a cross imprint erupted from his hands, the cross imprint, was like two crossed blades, revealing its edge, it was filled with ice energy, and could even make people's hair stand on ends!

The Ten Directions Frozen Devil Dao that Xue Yazi trained in was definitely a sixth-grade Divine Skill, and he could even unleash the full might of the Ten Directions Frozen Devil Dao.

A cold light flashed through Long Chen's eyes. At this critical moment, he already had no choice but to use this move.

The strongest combat skill he obtained from Chu Tiange, Grade Seven Divine Technique — Immortal Sword Physique!

Back then, Chu Tiange did not even have the chance to unleash the full power of the Eternal Sword Body and was directly beheaded by Long Chen. At this moment, in front of the cross mark, a strand of mist formed from sword beams gathered in front of Long Chen's eyes. In a short span of an instant, another cold and detached Long Chen gathered in front of Long Chen.

"God Slaughtering Sword Formation, Beast Upheaval!"

Ten Thousand Beasts Charge!

At this moment, the Immortal Sword Body had the same movement as Long Chen. Under Long Chen and the Immortal Sword Body's feet, two identical blood colored formations appeared, and as the two of them displayed their powers, the figures of ten thousand beasts exploded forth from within the two

God Slaughtering Sword Formations. The ten thousand beasts merged together to form a blood colored divine dragon.

"What a strong attack!" At the same time, Wu Yue understood that this was the best time for Long Chen to fight and escape. Thinking of this, she clenched her teeth, looked at Long Chen who was trying very hard, and her eyes glowed with sparkling light, and after gritting her teeth, she turned and left!

BOOM!

That large piece of soil fell to the ground. Wu Yue did not manage to escape for more than a few steps, but the moment she thought that the person behind her might have died here, she panicked and actually turned around and charged back!

With his weak strength, Long Chen was actually able to resist Xue Yazi's full-power attack. This was basically something that Xue Yazi thought was impossible, as he had seen Long Chen's Indestructible Sword Physique and knew that it was a powerful avatar combat skill.

"Not bad, it was just an appetizer just now. Brat, you are imagining things, do you really know how powerful the Sixth Stage of the Divine Martial Stage is?"

A ray of blood red light rushed towards the exhausted Long Chen. Long Chen was just about to use his speed to leave, but his expression quickly changed.

"This idiot!" Long Chen could have left now, but the other party couldn't catch him at all. However, Wu Yue didn't know this, so she ran away and came back.

Time had already passed.

"I'll let you fall into a world of eternal torture and ice. The Ten Directions Frozen Demon Dao and the Life and Death Talisman!"

At this time, Xue Yazi just so happened to be laughing crazily, casually releasing an even more powerful attack, to be taken into consideration by both sides, it was extremely troublesome.

"This is the Life and Death Snow Talisman!" Long Chen's sharp senses sensed that this was a very terrifying thing, but he was not afraid, as long as he was prepared to break the opponent's attack, it would not be difficult.

Maybe Xue Yazhi knew, that this Life and Death Snow Talisman might not affect Long Chen, but the Wu Yue who had already escaped did not want this woman to escape again. As a result, he actually controlled the Life and Death Talisman to temporarily fly towards Wu Yue!

"Be careful!" Long Chen had initially resisted, and everything was over for a moment. Long Chen could only watch as Wu Yue mysteriously got struck by the Life and Death Snow Talisman, and then fell onto the ground. The power of the ice and snow was wreaking havoc on her body.

"Haha, you will be tortured by my Life and Death Talisman for the rest of your life, but you won't die! Enjoy this feeling! Boy, look at your beloved's pain. You must be in even more pain!"

Xue Yazhi seemed to have been wounded by love, hence his heart was in a frenzy. Rather than just killing him straight away, he wanted to make his lover suffer.

But he was wrong, Long Chen and Wu Yue had no relationship at all.

Previously, Long Chen trusted Ye Xuan and his sister, which was why he let them in. If Wu Yue could escape by himself, Long Chen would have just followed behind her, but now that she was injured, Long Chen had no choice but to put her in the Great Void Realm.

Of course, he used the Great Void Technique to block her vision. Long Chen's Great Void Realm had many secrets.

"Another pretty girl came in. Brat, you're not bad at all. Your family's little Xi Xi Xi had just left, and she couldn't help but vent out." The kitten was alarmed and immediately woke up from its sleep to gloat.

Wu Yue's disappearance caused him to be stunned.

Long Chen was actually a little regretful. If he had let her in earlier, she wouldn't need to be injured. Thinking about this, he felt a little guilty. However, the most important thing was to escape. Without Wu Yue's trouble, Long Chen could actually run away easily.

Close True Martial Emperor's Soul.

From Xue Yazhi, the things that he needed to learn were more or less finished. If he continued to waste more time, it would become a waste of time. Long Chen used the Immortal Sword Body to block his opponent, then turned into a bolt of lightning, and instantly escaped!

When Long Chen left the vicinity of a few hundred metres, the Immortal Sword Body would naturally disappear, and at that time, if Xue Yazhi wanted to chase after him, it would be difficult to catch up.

"You want to run? Dream on!" Xue Yazhi immediately chased after him, but the wild attacks of the Eternal Sword Physique was simply no different from that of the other Long Chen, who was even more fearless than him.

Xue Yazhi could only watch as Long Chen left. After the Immortal Sword disappeared, Xue Yazhi was so angry that he could only follow the traces Long Chen left behind and chase after him.

Through the Spirit Devouring Demon Pupil, Long Chen could very clearly grasp the other party's position.

"You actually know that I'm heading towards the third mechanism, huh?" Xue Yazhi was very smart, he knew where Long Chen was heading to, but it was useless to be smart. Long Chen's speed was much faster than his.

With regards to this, Long Chen felt a little guilty, but if he had to blame something, would he have to blame her for running back to him, concerned about his safety?

"Where am I, Long Chen?" At this moment, Wu Yue was lying down horizontally, her body full of curves, there were curves everywhere around her, she was exquisite and clear, but under the encirclement of the Life and Death Runes, her entire body was covered in a thin layer of ice and snow, which made her originally cold body even more frightening, her face pale white. The most obvious point was at the center of her brows where an ice and snow rune was flashing, and as long as this rune existed, that ice and snow would continue to accompany her, freezing her meridians and primordial spirit, turning her into a cripple.

Fortunately, Wu Yue had an innate cold constitution and had a strong resistance to the Life and Death Talisman, otherwise, it would be very troublesome.

"Never mind where this is, how do you feel?" Long Chen's voice came from the sky above.

"It's not good, my entire body is frozen, the primordial spirit is unable to circulate, my body is gradually frozen, I'm dead, my head is dizzy." At this moment, Wu Yue was like a helpless little kitten. Long Chen's voice was the only thing she could rely on.

Long Chen frowned. The Life and Death Talisman was originally meant to be Xue Yazi's attack, but Wu Yue had taken it on her behalf.

's Spirit Devouring Demon Pupil could completely grasp his position, but he could only head towards the third mechanism. No matter what, Long Chen had to hurry to the third mechanism, otherwise, if she were to destroy the activation mechanism, no one would be able to enter the depths of the Moon Demon Cave.

Long Chen's speed was extremely fast. He could easily maintain his own speed at the level where Xue Yazi was unable to catch up to, and could always maintain a distance of more than three hundred meters. This distance was enough for Long Chen to activate the mechanism, destroy it, and also grasp onto Xue Yazi's position.

The only troublesome thing was Wu Yue's injuries.

In the process of advancing, Long Chen saw that her body was gradually weakening, yet he was forcefully holding on.

"This time, it's all my fault. If I had brought you here earlier and didn't fight with him, I wouldn't have injured you." Long Chen said somewhat guiltily.

"No worries, I've been tricked. I can only blame myself for not being able to accomplish it." In truth, she didn't have a good impression of Long Chen at the beginning, because Long Chen had severely taught her two junior brothers a lesson with his strength, but from the way they were getting along, Long Chen was actually a good person.

Under the effect of the [Life and Death Talisman], the misty snowflakes had covered her entire body. Even her speech had become shaky. Her snow-white skin was covered in a layer of misty snow.

"It's so cold." When Long Chen was silently advancing, although Wu Yue let out a soft moan, he still let out a vague sound.

## Chapter 1108 - Purple Eyed Young Man

"Cold?" Long Chen suddenly had an idea. She felt cold right now because of the Life and Death Talisman, and Long Chen also had something that was extremely Yang in his body. It was his blood, the boiling dragon's blood. Although the Archaic Blood Spirit Dragon was an evil dragon, giving people a cold and murderous feeling, its blood was truly masculine, able to dispel all forms of time filth and cold.

"fat cat, does my blood have any effect on her injuries?" Long Chen asked as he walked forward.

"Of course it's useful." Cat's face was filled with an ambiguous expression. "What's wrong, brat? You want to be the hero again, and you're using your own blood to save the beauty?" Using your own blood to save others sounds really touching. Furthermore, you have already absorbed 2% of the ancestral dragon blood, so every drop of blood is extremely precious. If that's the case, then don't be courteous with my cat-lord, he will immediately leave and leave you with space to enjoy yourself. "

"Scram!" This guy really liked to talk nonsense. Long Chen knew that he had nothing to do with Wu Yue, but she had merely followed his actions and was instead injured. He was just feeling a little sorry for himself.

However, Cat's words did remind Long Chen that he currently had 2% of the dragon blood in his blood, and he definitely could not help Wu Yue the same way he had helped her heal her injuries back then. The violent energy within the ancestral dragon blood would probably burst Wu Yue's body.

He controlled the blood into the Great Void Realm, and it floated before Wu Yue's eyes. Wu Yue's mind was already a little hazy, and in front of him was a blazing power that made people worship him, and it had a very ancient aura. Wu Yue gently opened her eyes, and her long eyelashes trembled slightly as snow covered her entire body, creating a sense of beauty.

"Try drinking it." Long Chen's voice echoed in the air.

"Hmm?" Wu Yue blinked her eyes and asked: "What is this thing?"

"Don't ask so much."

In her memory, Long Chen was such a tyrannical person. At this moment, that drop of blood was like a thing made of fresh blood, rushing towards Wu Yue's cherry lips. Actually, this was blood.

It was a blazing energy.

The drop of blood entered her body, but was not digested by her. Instead, it entered his blood, and in a short amount of time, it had already spread throughout his entire body, causing an incomparably fiery energy to burn Wu Yue's body. Covered in the power of ice and snow, she let out a comfortable moan.

As Long Chen travelled, he also grasped the distance between him and Xue Yazhi. At the same time, he was also nervously paying attention to Wu Yue's movements, and as expected, dragon blood had a great effect. The fiery energy that erupted from within caused the ice on Wu Yue's body to gradually disappear, and his snow-white skin once again regained its rosy color.

This was the key to eliminating the Life and Death Snow Talisman. One could see that under the attack of Long Chen's blood, the Life and Death Talisman was shrinking in size, and it could be seen that the Life and Death Talisman would probably completely disappear after a period of time.

"I feel much more comfortable now. It should be about time, right? It's really miraculous. Just what kind of thing could break this Life and Death Snow Symbol?"

Among the True Martial Imperial Palace's information, there was a person called Xue Yazhi, and there was a section where the life and death snow talisman was introduced. Wu Yue had read it before, and knew that this move was actually very terrifying.

Long Chen did not answer, he had finally settled Wu Yue's matter, and concentrated on completing the remaining two organs. As for Wu Yue, although she had taken the dragon blood, which was the equivalent of medicine to the patient, she still needed a period of time to make her completely recover.

Although it was only a drop of Long Chen's blood, and the essence within it belonged to the Primordial Blood Spirit Dragon, it would also be of great help to Wu Yue in her future cultivation.

The current Long Chen, even if it was only a single drop of blood, the essence of the dragon's blood within it surpassed the blood all over his body.

A fifth of the inheritance was no joke.

When he absorbed it one hundred percent, Long Chen would be able to obtain the true inheritance of the Primordial Blood Spirit Dragon.

"Thank you." After experiencing what had just happened, Wu Yue's attitude towards Long Chen had changed greatly.

Using the Spirit Devouring Demon Pupil, Xue Yazhi was still relentlessly chasing after him. At this time, Xue Yazhi's heart was already filled with anger and shock, but if one were to look at his strength, Long Chen should only be around the level of Fifth Stage of the Divine Martial Realm. However, his speed was nearly twice that of Xue Yazhi's, so much so that he was almost at the perfection-stage of the Sixth Stage of the Divine Martial Stage.

To Xue Yazhi, this could only be described as monstrous.

"Long Chen!"

He gritted his teeth as he chased frantically after Xue Yazhi. He could not let Long Chen activate these mechanisms, otherwise, the opening of the pathway would eventually affect the Moon Demon Worshiper inside!

Thinking about it, Xue Yazhi fought with his life on the line.

He probably didn't know that in the other direction, another group of people had also almost all of the mechanisms activated.

As Wu Yue entered a resting state, her rate of concentration was extremely terrifying. In an instant, he and Xue Yazhi had pulled apart a distance of nearly one kilometer, which was already extremely close to the third mechanism.

From the map, the third mechanism was right in front of him, it was also dangerous with poison, but Long Chen himself was not afraid of it, he rushed into the poisonous miasma directly, in a short period of time, Long Chen activated the mechanism, and only after the trembling of the cave and the mechanism was completely closed did he destroy it.

Using a Spirit Devouring Demon Pupil's eye view, Xue Yazhi was five hundred meters away.

On Long Chen's mission, there was only one mechanism, and the last mechanism was the place where the two squads of people would converge. These two mechanisms were pretty close to Long Chen's location.

"Xue Yazhi is chasing me according to the location of the mechanism. It's very likely that he's heading towards my next target, but at the same time, it's also likely that he's also going to meet us at our final rendezvous point. If he goes to the rendezvous point first and destroys the mechanism, it'll be troublesome."

However, Long Chen had an extremely fast speed. He had the confidence that when Xue Yazhi rushed to the final meeting point, he would be able to activate the last mechanism of his, and then rush to the meeting point before Xue Yazhi.

Thinking about this, Long Chen felt a sense of Wu Yue's situation. She seemed to have already fallen asleep, and was in the process of slowly transforming and recovering, the life and death snow runes on her forehead had already decreased by more or less. Thinking about this, Long Chen activated his final speed, turned into a streak of golden lightning, and headed in that direction.

Sure enough, as he had expected, after Xue Yazhi arrived at the location of the mechanism Long Chen had activated just now, he headed directly towards the place where Long Chen and Long Chen had reunited in the air.

Or maybe it was his intuition.

Like this, Long Chen had to burst out with an even faster speed. The distance he had to travel, was about three times that of Xue Yazhi!

A streak of golden lightning swept across the complex Moon Demon Cave. Long Chen had a weakness, which was his familiarity with the Moon Demon Cave, which was far from comparable to Xue Yazhi's!

"Quick, quick, quick!"

Therefore, he needed to be fast!

Within this peaceful Moon Castle, the sound of howling wind could be heard.

Roughly a quarter of an hour later, Long Chen finally reached the last location with shocking speed and activated the last mechanism. This meant that he had completed his mission, and he only needed to meet up with Ye Zheng and the rest at the location of the last mechanism.

"Move!"

Without a second word, Long Chen continued to advance towards the meeting point, he could not let Xue Yazhi take the lead!

Just when Long Chen had walked the last third of the distance, three people suddenly appeared within the boundaries of his Spirit Devouring Demon Pupil. Furthermore, these three people seemed to have discovered him as they headed towards him to intercept him. These three people were completely unfamiliar with each other.

"It should be a coincidence. Under the Soul Suppressing Stone, my Divine Sense is useless. They can't see me at all." Long Chen comforted himself and continued forward, but right at this moment, the person whose strength Long Chen was unable to fathom suddenly dropped the others as he quickly rushed towards Long Chen. His speed shocked Long Chen, because this person's speed was even faster than Long Chen's!

"At least above Seventh Stage of the Divine Martial Stage, an expert with Heaven and Earth Appearance Mantra, and even if it isn't Demonic Dragon Hall Master, who exactly is it, in this Moon Devil Cave?" Under the pursuit of this level of expert, Long Chen had no way of dodging. The opponent's target was obviously him, and after rushing forward with all his might for a period of time, the opponent still managed to catch up.

Long Chen was helpless. In this Moon Demon Cave, the tunnels were extremely complicated, it was not realistic to use a blood escape technique. The moment he used it, he would sink his head into the ground.

A binding force was acting on Long Chen's body, causing him to be unable to move. He was wondering why this person was able to find him, could it be that he was also similar to the abilities of Spirit Devouring Demon Pupil s?

Long Chen carefully sized up this youth. He had a head of long purple hair and a pair of purple eyes that were as bright as the stars in the sky, and even his lips were a demonic purple color. His appearance was

extremely strange, and had a kind of beauty that was even more beautiful than most girls, but he was definitely a man.

Long Chen kept having the feeling that he had seen this youth before in the depths of his memories, but if he had to recall who it was, it would be extremely difficult.

What shocked Long Chen the most was that this frivolous youth's strength was definitely not just limited to the Sixth Stage of the Divine Martial Stage. It was very likely that he was a practitioner of Seventh Stage of the Divine Martial Stage or Heaven and Earth Appearance Mantra.

Warriors of this level were relatively close to Ling Xi's level. In True Martial Imperial Palace, amongst the disciples of the Three Thousand Temples, she could be considered outstanding. However, this person should not be a disciple of the Three Thousand Temples.

#### Chapter 1109 - Purple Demon Moon Diagram

Long Chen was actually very anxious. After all, Xue Yazi was already rushing to the final meeting place, if he was allowed to rush there first, he could easily destroy the mechanism he established. Not only was it the Evil Dragon Palace's mission, but there were also the lives of thousands of people in Long Chen's hands.

At this time, this youth was also sizing up Long Chen. His face was full of smiles, but he did not speak. It was just that under his control, this entire region seemed to completely listen to him, it was extremely difficult for Long Chen to even make a single movement.

"Who are you?" The other party was currently binding him, there must be a reason for this. At this critical moment, Long Chen could only try his best to calm himself down.

This strong youth that suddenly appeared didn't seem to have any ill intentions towards him.

"Me?" The mysterious youth pointed to himself and suddenly said with a smile, "Who am I? I don't know either, but this has nothing to do with you. From the looks of it, you don't seem to be from this Moon Demon Cave.

After hearing this sentence, Long Chen's mind was racing.

"This person is obviously not from the Moon Demon Cave, then why did he come here?" Long Chen thought about it for a moment and roughly knew that the most magical thing in this Moon Demon Cave was the 'Moonlight Box'. The teenager's hair and eyes were purple, the Moonlight Box's purple devil moon diagram was also purple, was it possible that there was a connection?

With that in mind, Long Chen had a general idea of the situation, and said with a calm voice: "I'm here to save the person who was captured. There are many people from the small cities around here who have been captured, and my family is inside!"

"Oh?" The mysterious youth looked at Long Chen for a while. He did not seem to be lying as he nodded and said, "So it wasn't for the 'magic moon box'. Then, I'll ask you a question, do you know where they went to hide? I searched for a long time, but I couldn't find any trace of them. "

Long Chen said: "If I had known, I wouldn't have wandered around here."

At this time, the other two warriors with Sixth Stage of the Divine Martial Stage s arrived. Both of them were dressed like servants, one was a charming servant girl, and the other one was a middle-aged servant.

"Young Lord, Young Lord, who is this?" The servant girl rushed forward and stood behind the mysterious youth, curiously looking at Long Chen, while the other servant quietly stood behind him.

"It's not our goal. Go." The mysterious youth waved his hand lightly, causing the pressure on Long Chen's body to suddenly clear. He heaved a sigh of relief, said goodbye to the other party, and immediately left. After such a short delay, Xue Yazhi was sure that he had advanced a lot, maybe even nearing the meeting point.

After Long Chen left, the mysterious young man said: "This guy is a bit strange, his strength seems to be only at Second Stage of the Divine Martial Realm, how can he have such terrifying speed? Could it be that he has a method to conceal his strength, a method that even I, Li Tianji, do not know about?"

"Young master, let's keep up with him. The information I got was definitely not wrong, the 'magic moon box' is definitely here, the cave master of the Moon Demon Cave is called Li Qingyue, isn't Li Qingyue the one who stole the magic moon box?" The servant said.

"Alright, I'll listen to you." After Long Chen left, the mysterious youth's purple eyes flickered with a light as a mysterious power appeared. As if he had seen Long Chen's existence, he followed Long Chen forward.

Within one Li of Long Chen's Spirit Devouring Demon Pupil, there was no one around, so he was very assured; the mysterious youth shouldn't have caught up.

Wu Yue had already recovered most of her energy, so she could rush to the last area with the fastest speed possible. At this moment, he was extremely nervous, if she let Xue Yazhi go a step faster, it would be troublesome.

At the last moment, when he was just about to get close, Long Chen finally heaved a sigh of relief, because within a mile of him, Xue Yazhi had already appeared. The distance between him and Xue Yazhi was about the same, and Long Chen was confident that he could catch up to Xue Yazhi at the final moment.

This meant that there was still hope.

In a short span of time, he had already caught up to Xue Yazhi on another path. Suddenly, another pleasant surprise appeared, and that was that Ye Zheng's group was actually heading in the same direction, towards the final meeting point. If this was the case, the three parties would have met at the same time at the same location.

Ye Zheng was someone who could deal with Xue Yazhi, but for the current Long Chen, he did not feel any pressure when dealing with Wu Yang. However, the experts of the Sixth Stage of the Divine Martial Stage were indeed hard to deal with.

At the last moment, Long Chen took the lead, and compared to the others, he was the fastest. At this time, a streak of golden lightning instantly charged into the vast cave.

This cave was inside the Moon Demon Cave, and the largest Long Chen had seen was around a few thousand meters wide. As for the last mechanism, it was located at the corner of the cave, and on the other side of the wall was a wall that was burning with purple flames. This sturdy wall was entirely made of Purple Flame Divine Iron, so such a huge amount of Purple Flame Divine Iron, in order to block the way for outsiders to enter, it must be very thick.

"Long Chen!"

When Long Chen rushed into the cave and rushed towards the last mechanism to activate, Xue Yazi also came out from another passage. At the same time, Ye Zheng also rushed out from another passage, although he did not have a consciousness, his sharp intuition sensed that this was the moment of life and death!

Long Chen was at the very front, and Xue Yazi was a hundred meters behind him. He was not even twenty meters behind him, and without even thinking, Ye Zheng took out his Rebirth Sword, releasing a gray sword beam that shot straight towards Xue Yazi!

"Your opponent is me!" With just a sword move, Ye Zheng blocked in front of Xue Yazi. A grey killing intent surged out and countless sword qi erupted, blocking Xue Yazi's path.

The others also came out from the tunnel. Long Chen had no time to see how their injuries were, he blocked them off, so the only thing he needed to do was to activate the last mechanism!

Long Chen had already seen the gigantic wall of Purple Flame Divine Iron. Indeed, only by opening this giant wall would one have a chance of finally entering the wall, otherwise, there was no other way.

With Ye Zheng blocking them, Long Chen unsurprisingly appeared next to the switch. Without saying a word, Long Chen activated the switch, and then destroyed the switch. After he activated the mechanism, the entire Moon Demon Cave trembled, and everyone had a feeling that they were unsteady from standing for a moment. However, when Xue Yazi saw this scene, he went completely crazy.

"You're courting death!" Xue Yazi and Ye Zheng were evenly matched, and were frantically fighting.

At this time, everyone was nervously looking at the wall of Purple Flame Divine Iron. This wall was extremely wide, and at this moment, countless mud had rained down from above from the Purple Flame Divine Iron. The huge wall that was formed from Purple Flame Divine Iron was currently slowly descending, and a cave that only one person could pass through, was revealed in front of Long Chen and the others. In total, there were more than twenty entrances.

These very small entrances were all leading to the Moonfiend Cave.

Such a great shock, I believe everyone in the Moon Demon Cave must have felt it.

When he finally finished this step, Long Chen heaved a sigh of relief. At the moment, Ye Zheng and Xue Yazi were in an intense battle, and the passage had already been opened. Xue Yazi's only option was to kill Long Chen and the others one by one, and not let them in.

Although Ye Zheng was not as old as him, he cultivated the Shura's Killing Path and was also a Sword Fighter. He was born with an advantage, and Xue Yazi had even been injured by Long Chen's Golden Thunder Prison.

This was an intense battle, Long Chen tensed up.

The problem on Ye Zheng's side shouldn't be too big. Long Chen turned to look at Wu Yang, probably because of the mechanism for the formation, out of the original fifteen people, only thirteen were left. There should be two people who had died in the Moon Demon Cave. felt slightly affected, but as for the other three, although their faces were a little covered in dust, they were not injured.

While others were watching Ye Zheng fight intensely with Ye Zheng, Wu Yang looked to Long Chen with bloodshot eyes, and asked: "Long Chen, where's my sister?"

"I'm hurt. I will leave her in a safe place, and after we kill Xue Yazi, I will bring her here. " Long Chen said.

This was simply a joke to Wu Yang. He didn't have any good impression of Long Chen, and there was even hostility, he didn't believe that what Long Chen had said was true, but after hearing what he said, he looked at Long Chen with anger and said coldly: "Kid, don't talk nonsense in front of me. Quickly hand over my sister, or else I'll kill you!"

Right now, Wu Yue was resting, so who knows what might happen between them? Moreover, Long Chen did not want the existence of the Great Void Realm to be known by others.

At the same time, he coldly said: "What are you worrying about, I can guarantee that she will be fine now. When we activated the mechanism, we were chased by Xue Yazi, and I think if it was you, you might not necessarily have the ability to bring your sister out."

"What?" Everyone was still a little shocked, Long Chen completed the mission after being chased by Xue Yazi?

Chapter 1110 - The Road to Rebirth

"Do you take me for a fool? Hand over my sister, and I will spare your life, or else ..." Wu Yang's face was extremely ugly, as he walked closer and closer to Long Chen. By his side, Zheng Dongyang was also using his power to attack Long Chen, but Liu Qingfeng's face was extremely ugly, as he continuously tried to reconcile the two parties being of no use.

During the life and death battle between Ye Zheng and Xue Yazhi, a dispute started between Wu Yang and himself.

Honestly speaking, Long Chen had wanted to beat this fellow up a long time ago, but the other party actually dared to threaten him at this moment. Long Chen was too lazy to be courteous with him and said with a sneer: "You better not do anything, otherwise I will beat you up so badly that even your mother won't be able to recognize you?"

"Hand over my sister." Wu Yang was already right in front of him. He was cultivating the Sacred Sun Fire Arts, and also the Sacred Flame's Yang Body. Now that he was angry, a blazing aura rushed towards Long Chen, as if Wu Yang was completely burning.

Seeing Wu Yang and Long Chen's actions, Du Yilang and the others immediately advised: "We are all partners, we cannot make a move at this time, why not take one step back, in case both of us get hurt, what about that?"

"Both of us were defeated, are you thinking too highly of him?" Wu Yang laughed coldly, and without any hesitation, he directly struck out, releasing a golden flame that covered his body surface, the blazing aura was the same as Xue Yazhi's before. Wu Yang being able to be ranked second in Evil Dragon Palace, was undoubtedly strong, and his Sacred Sun Fire Arts was also one of the top six divine skills. The physique of the innate Sacred Flame Yang Body was even more heaven-defying!

When they saw Wu Yang make his move, the rest of them were all frightened and retreated fearfully. Unavoidably, they prayed for Long Chen and in the Evil Dragon Palace, there were many hall masters who were defeated by Wu Yang. Basically, other than the level of auxiliary hall masters, there were not many elders who could deal with Wu Yang!

"Brilliant Fist Seal!"

The moment Wu Yang attacked, a terrifying heat wave formed on his arm. Roaring loudly, a sharp golden light rushed towards Long Chen, the air lightly trembled, and an astonishing power formed a fist

imprint on Wu Yang's fist. The golden fist imprint was filled with explosive power, if Long Chen got struck, then it would definitely end up splitting into pieces!

However, they thought that Long Chen was too simple.

When Long Chen first came to Three Great Imperial Domains, he could only look up at this kind of person for an unlimited time. But now it was different, his own strength had already reached the perfection stage of the Second Stage of the Divine Martial Realm!

Furthermore, with the added bonus from the Sword Fighter's attack and the heaven-defying might of the Scarlet Blooded Sky Desolate, the Dragon's Will was even stronger than his opponent's martial will!

"God Slaughtering Sword Formation!" Without saying a word, Long Chen's blood red sword formation instantly appeared a kilometer in radius, and even Ye Zheng could probably directly stand on top of the sword formation. At the start, Xue Yazhi was shocked, but he felt that Long Chen had clashed with someone else, and only then did he heave a sigh of relief, and concentrated on dealing with the troublesome Ye Zheng!

The battle madman from the Asura Sword Prison!

Although there weren't many people in the Asura Sword Prison, they were all very terrifying!

Seeing that Long Chen was really fighting with Wu Yang, the others were all extremely shocked and quickly retreated, afraid that they would be affected by the two. However, they were still more looking forward to see who would be stronger between Long Chen and Wu Yang.

"Sword Sea!"

The gigantic sword that soared to the sky, completely formed by a dense amount of Sword Qi, came crashing down with a loud bang, colliding with Wu Yang's Radiant Fist Seal. A huge explosion sounded, and in terms of this attack, the two were almost equal.

However, even with Long Chen's God Slaughtering Sword Formation, the sharp sword energy, coupled with the nature of the Crimson Blood Desolate, still blasted Wu Yang flying like a hot knife cutting

through butter. And Long Chen was even more unforgiving as the longsword in his hand smashed onto the ground with a bang, causing the entire God Slaughtering Sword Formation to instantly erupt!

"Beast tide!"

The roaring divine dragon roared out from within the God Slaughtering Sword Formation, its huge body chasing after Wu Yang with a loud bang. This was the first time it had felt Long Chen's terrifying power, so Wu Yang's face changed, he immediately retreated, but he did not yield, he was not willing to lose to Long Chen, the newbie brat!

"World Exterminating Sacred Flame Seal!"

Golden flames burned in each of his hands, and when the two golden flames clashed against each other under Wu Yang's control, an even bigger explosion occurred. That resplendent golden light exploded out, forming a palm that burned with golden flames that grabbed towards the divine dragon that was Long Chen's beast wave.

"You want to catch me based on this?" Long Chen laughed, his entire body trembling, the roaring divine dragon suddenly broke through the World Exterminating Holy Fire Seal and descended in front of Wu Yang. In that moment, seeing the terrifying divine dragon in front of him, Wu Yang finally understood the difference between him and Long Chen.

This was a tragic fact, he was not Long Chen's opponent!

Seeing Wu Yang about to be submerged by the blood colored Divine Dragon Sword Qi, the others, who were still in shock, had a deathly pale face. If Long Chen really went all out to kill Wu Yang, then there would be no end to it, and Wu Yang was also a disciple of the Demonic Dragon Hall Master.

"Long Chen, stop!" Liu Qingfeng and the rest shouted with all their might.

Wu Yang's face had already completely flushed red. He was incomparably terrified in his heart and knew that death was at hand, so Long Chen was a ruthless person. Since he had made a move, there was no reason for him to take it back!

In the middle of Great Void Realm, Wu Yue was still deep in sleep.

Long Chen reckoned that she had woken up and was about to kill Wu Yang who was standing so high up in the sky. Long Chen laughed and laughed: "Then I shall add fuel to the fire!"

Everyone was suspicious, what did Long Chen mean?

Very soon, they understood that he was completely composed of blood-colored sword Qis. He was very lifelike, and the sword Qis were emitting from the Immortal Sword Body. Looking at the Immortal Sword Body, everyone felt pain in their eyes.

"God Slaughtering Sword Formation, Beast Upheaval!"

In the next moment when the Eternal Sword Physique appeared, he followed Long Chen's original movements and unleashed another powerful attack.

Everyone was shocked, at the same time, they could not help but feel strange, why did Long Chen still need to use the Immortal Sword Body to kill Wu Yang?

Soon, everyone had an answer!

"No!" Right at this moment, Wu Yang was about to be engulfed by the beast tide, but right at this moment, the enormous pressure suddenly disappeared.

Wu Yang was suspicious, what exactly had happened?

"Turn!" Under the control of Long Chen and the Immortal Sword Body, the two Divine Dragons that were made up of Sword Qi changed their direction and crashed into the ground with a loud bang. Everyone watched with their eyes wide open as their hearts trembled and they panted for breath.

Very soon, they understood. When they truly understood, they all sighed with emotion. So it was actually like that!

They had underestimated Long Chen!

The two Sword Qi Dragon did not enter the ground at all. Instead, when they had entered the God Slaughtering Sword Formation, they had simultaneously appeared in another area of the God Slaughtering Sword Formation. That place, was right below Xue Yazhi!

At this moment, Xue Yazhi and Ye Zheng was engaged in an intense battle, and Long Chen's God Slaughtering Sword Formation was always right below his. However, he didn't pay it any attention, because who would have thought that Long Chen would make use of the opportunity to battle with Wu Yang to scare him and shift the true attack to Xue Yazhi's side?

Although he was dressed in the Snow Heaven Moon Armor, under Ye Zheng's suppression, the two Divine Dragons were too close together, which was a little too unexpected. He did not even use the ultimate skill that he was most proficient in, the Ice Snow Cliff, as the Divine Dragon, which was entirely made up of sword energy, had smashed onto his body!

Xue Yazhi let out a world-shaking shriek. In front of everyone's stupefied eyes, his Snow Moon Armor had completely exploded, and even a portion of his body had been destroyed by Long Chen!

"Long Chen!" Xue Yazhi's eyes turned blood-red!

"Your opponent is me!" At this time, Ye Zheng was exceptionally calm, and this was a huge opportunity for him. He could completely grab hold of it, and when Xue Yazhi was about to be destroyed by Long Chen, he changed his sword moves, and the gray air around him wrapped him completely.

"Asura's Seven Swords, the path of rebirth!"

The long grey road directly passed through Xue Yazhi's head. After being struck by Long Chen, Xue Yazhi momentarily lost the ability to defend himself. Under Ye Zheng's chain of attacks, his head slowly started to shatter.

Because he was a warrior with the supreme golden body of the Sixth Stage of the Divine Martial Stage, Ye Zheng had to use a huge amount of energy to kill him completely. Only after Xue Yazhi had completely disappeared did everyone feel like they were going to sit on the ground and breathe.

Although Ye Zheng had killed Xue Yazhi in the end, everyone knew that it was all because of him. If it wasn't for the fact that Long Chen had played a beautiful trick on him, who knew how long it would take before he could kill Xue Yazhi.

From the looks of it, from the very beginning, Long Chen didn't plan to kill Wu Yang, but rather, charged straight for him. Thinking about it, everyone could not help but feel admiration for Long Chen's intelligence. What they did not know was that killing Xue Yazhi was one of his goals, but giving Wu Yang a shock was another of his goals.

And now, both had been completed.

The gazes of everyone present were fixed on Long Chen in a daze, and the aim of the move included Wu Yang, who had almost been killed by Long Chen. Even now, he still could not understand Long Chen's previous goal: to teach him a lesson or to truly deal with Xue Yazi.
