

## War God 1111

### Chapter 1111 - Subtracted version of Spirit Devouring Demon Pupil

Long Chen laughed indifferently, without saying a word, he turned into a ray of golden lightning and returned to the original pathway. After making a few turns, he pulled Wu Yue out of the tunnel, and at the moment, she was still in deep sleep, but the life and death snow symbol on her forehead had already disappeared, and her body's condition was also improving, but she was still unable to make a move for a short period of time.

Long Chen hugged her horizontally like this, walked in front of everyone, and handed the unconscious Wu Yue over to the nervous Wu Yang, then said: "She was hit by Xue Yazi's life and death snow talisman, I saved her behind it, and now everything is fine. When she wakes up, all of you will know whether what I've said is true or not."

Everyone suddenly realised, everything that Long Chen said was true, Xue Yazi was actually chasing them down.

After finally completing a mission, Long Chen breathed a sigh of relief in his heart and said: "The passage has already been opened. I don't know what the path inside is, so everyone should hurry up."

After saying this, Long Chen felt two sudden situations. One was that two groups of people appeared within the limits of his Spirit Devouring Demon Pupil, the other was Jiang Qing, and they finally saw him. He stood at a corner where no one could see him, and looked at Long Chen from afar.

At this moment, he was smiling as he looked in Long Chen's direction. Long Chen understood, he must be following him, but why was he following him in the Moon Demon Cave? Could it be that his cultivation had already surpassed the Seventh Stage of the Divine Martial Stage?

The appearance of these two groups of people was one of the situations for Long Chen and the other was Ye Zheng's reaction. After everything was over, Long Chen suddenly felt a murderous intent behind him.

"What's the matter?" Long Chen could feel his strong killing intent, this was not an act, at this time, Long Chen was holding Wu Yue tightly, handing her over to Wu Yang.

Ye Zheng did not say anything, he slowly walked towards Long Chen. The others did not know what Ye Zheng was doing, but right at this moment, Ye Zheng's Rebirth Sword Technique aimed at him, and with a swoosh, he rushed over.

Long Chen's expression changed as the speed beneath his feet turned into golden lightning, and he instantly escaped Ye Zheng's attack range. Long Chen turned around and looked at him, a little confused, and asked: "Are you serious?"

Long Chen was a little confused. Was this guy sick? If he were to finish off his opponent at this moment, would he just show off to himself? In order to take revenge on the actions that Long Chen had just taken against him, he had even made a joke with Long Chen. But Long Chen felt that Ye Zheng's killing intent was real.

"If you hurt her, you will die." Ye Zheng was still cold and detached, walking step by step towards Long Chen.

Long Chen was still confused, but he quickly reacted, this her, seemed to be talking about Wu Yue?

"Idiot, you don't even know this? You must have just seen you taking advantage of this girl, I don't think she has even touched her waist before. How could you not be angry if you touched her first?" Little Cat said gloatingly in the Great Void Realm.

Long Chen was convinced, was there a need to kill them all just like that?

However, this Ye Zheng's temperament had always been strange, even Long Chen was unable to figure him out.

It just so happened that at this time, Wu Yue faintly woke up. The moment she saw Ye Zheng actually making a move on her, she did not care about anything else and immediately said: "Second Senior Brother, what are you doing? Long Chen is our partner."

Without saying a word, Ye Zheng continued to attack Long Chen. Long Chen knew how powerful Ye Zheng was, and was even stronger than Xue Yazhi, but Long Chen was not his opponent at the moment, so he did not choose to clash head on with him.

Long Chen's speed, was even faster than Ye Zheng's!

This space was extremely large, so Ye Zheng was fundamentally unable to touch his body in this short period of time.

Seeing that Ye Zheng was actually still going to attack Long Chen, Wu Yue immediately understood a lot of things about Wu Yang, and she finally understood in his heart. Her second senior brother had been extremely hardworking since he was young. Even though his appearance and body were average, because he had been very hardworking, he quickly surpassed them and became a dragon amongst the people of Evil Dragon Palace.

It should have been a long time ago, she had felt that this Second Senior Brother was very considerate to her and had let her take care of everything to protect herself. Yet today Long Chen actually let her get injured, that was why he was so angry right?

However, Wu Yue knew that Long Chen was completely innocent.

"Second senior brother, stop!" From the other mouths, she knew that just now, Long Chen had teamed up with Ye Zheng and killed Xue Yazhi.

Gray and blood-red shadows flashed rapidly in the cave.

Wu Yue's voice did not have any effect, but instead made Ye Zheng jealous of him in her heart. He was not good with words, and did not even know how to express her love and love, so she had always been a bit hazy with Wu Yue.

But how long had Long Chen been together with Wu Yue before she had a good impression of him, so even though he was cold and calm on the outside, he actually had a kind of innate jealousy toward him in his heart.

The current Long Chen, because of his long period of training and the nurturing of his ancestral dragon bloodline, had become more and more prominent in terms of appearance. He was extraordinarily handsome, and his figure could already be considered tall and strong, especially his pair of red eyes, which exuded a strange evil aura.

Therefore, Ye Zheng was jealous.

"He's sick." Long Chen was too lazy to continue fighting with Ye Zheng. He knew his own limits, and his battle with Xue Yazi had already used up a lot of primordial spirit s.

The more they fought, the more difficult it was to explain, thus, without saying a word, Long Chen directly rushed into the opened tunnel, with these tens of slashes, every path could only be passed by one person, and after Long Chen rushed in, he actually went ahead and killed his way in without saying a word.

The others looked at each other.

"Follow me!" Wu Yang immediately said.

Everyone squeezed into the same passage and headed deeper into the Moon Demon Cave. After they walked far away, Jiang Qing finally came down from the other passages and caught up with Long Chen and the rest. His face was gloomy, after observing all the way, he was extremely satisfied with Long Chen's performance, but he was extremely dissatisfied with their performance.

Jiang Qing did not have any Spirit Devouring Demon Pupil, and his mind was also suppressed. Therefore, he could only see with his eyes, which was why he did not see much.

Only after Jiang Qing entered did the three people return to the cave. One of the servants said: "Young Master, did you notice something similar to us on the youth?"

I really want to ask, this young man is obviously not from our Li Family, or even from the Grand Moon Demon World, why does he have a Spirit Devouring Demon Pupil? Of course, it is only a modified version of the Spirit Devouring Demon Pupil. "

"Spirit Devouring Demon Pupil?" The three of them were confused and chased after him. However, he did not approach them.

They did not have any ill intentions towards Long Chen.

In this dense tunnel, it was simply a paradise for Long Chen. In here, no matter how fast Ye Zheng was, he would not be able to catch up to him because Long Chen had Spirit Devouring Demon Pupil s and he

did not have any. The Spirit Devouring Demon Pupil could allow Long Chen to accurately grasp all life within a radius of one kilometer.

This narrow passageway was more than one kilometer.

Long Chen realized that he had already walked into a true maze, within a sphere region of about ten miles, there were countless passages filling the area, and the size of each passage was about the same. These passages were all connected and complicated, like the intestines of a human body, and were even more complicated than this.

Not long after Long Chen walked forward, he still did not find a way out, but there was an interesting thing that happened. In order to chase after Long Chen, Ye Zheng was still following behind Long Chen, while the others were still following behind him, and the rest of them were lost. Some of them, because of their haste, split into several groups in the passage, and then followed each other.

Everyone had the urge to go crazy because they couldn't get out at all.

Along the way, Long Chen had already killed three battle puppets, encountered several steel needle traps and several poison gas traps. There was even the most frightening one where corrosive flames suddenly descended from above his head.

This kind of dark green flame was called the corrosive fire, and it had huge damage to the body. Even Long Chen did not dare to carelessly touch it, and with his speed, he rushed out, but his body was still stained with quite a bit of it. Ye Zheng, who was following closely behind him, almost lost track, but this tenacious fellow, in the end, still managed to catch up.

"What an annoying fellow, then I'll teach you a lesson." Originally, it was just a misunderstanding. He and Wu Yue did not have any relationship at all, but this fellow actually continued to chase after him.

When he was passing by the corrosive fire's mechanism earlier, Long Chen had roughly remembered what it was like to trigger the mechanism.

The ground beneath the corrosive fire was around five centimeters taller than the rest. Previously, Long Chen did not know, but after stepping on it, the ground on top of the corrosive fire would fly up, and the corrosive fire would land.

In order to get rid of this troublesome fellow, Long Chen had also conveniently given him a small, but potentially disastrous, lesson, he had always been searching for the mechanism of the corrosive fire, and hard work paid off. After half an hour, Long Chen finally found someone who was similar to him.

#### Chapter 1112 - Moonfiend Altar

As a result, Long Chen directly stepped over the mechanism and stopped behind him. When Ye Zheng had almost arrived and reached a place where he could almost step on, Long Chen rushed over with his Taibai Sword Prison and trapped him when he reached the bottom of the corrosive fire. At the same time, Long Chen's other sword energy activated the mechanism of the corrosive fire.

With Ye Zheng's power, destroying this Taibai Sword Prison was very simple, but at this time, when Long Chen saw that the mechanism of the corrosive fire had truly been activated, he immediately removed the Taibai Sword Prison. When Ye Zheng was stunned, the dark green flame above his head immediately poured over his head and completely engulfed him!

An earth-shattering scream rang out.

Seeing that the corrosive fire were like a flood that was also engulfing him, Long Chen immediately escaped. This time, Ye Zheng did not chase after them, there were more corrosive fire this time, so it was likely that it would deal a huge blow to Ye Zheng. From the Spirit Devouring Demon Pupil's perspective, Ye Zheng was not dead, but he was definitely in a miserable state.

"You, Ye Zheng, are not someone who can kill me as he pleases." Long Chen laughed coldly in his heart. He also had a temper, he did not kill people just because they wanted to, but Ye Zheng's relentless pursuit had already angered him.

After getting rid of this follower, he would be looking for an exit.

No matter if it was the others in the Moon Demon Cave, they had to continue to kill, and the man who was about to sacrifice for the Moonlight Box, they had to be saved. This was something that Long Chen had to do right now, and he believed that Han Yunxing would definitely be watching over everything. At that time, if he could get a set of dragon scales to let Long Chen cultivate the Nine Dragon Scripture, then it would be perfect.

However, it's not so easy to get into these complicated tunnels.

The person controlled by Long Chen had actually only entered the true interior of the Moon Demon Cave once. That time, someone else had still brought him in from here, so he was not familiar with the map, and Long Chen could only rely on himself to explore. His only advantage was that it was a Spirit Devouring Demon Pupil, but it was obviously ineffective.

In this direction, Long Chen was much stronger than others. Very quickly, there was no one in a radius of a kilometer, so Long Chen was able to roughly guess that he was walking in front of everyone.

Continuing forward, around the densely packed passage, Long Chen kept going in a fixed direction. Even if he went in that direction, it still took him 6 hours to go out, this place was simply too complicated. However, six hours later, Long Chen discovered a huge turning point.

That was, within a radius of a kilometer, the people of the Moon Demon Cave had appeared!

Long Chen knew that these people must be people who were guarding the passage. Upon thinking of this, Long Chen immediately walked towards this person, even though it was only within the radius of one Li, it still took Long Chen about half an hour to gradually approach them. When he neared, the cave in front of him started to shine with a blinding light, and Long Chen knew that he had finally walked out.

In front of him, there were a total of about seven to eight Fifth Stage of the Divine Martial Realm s. There were warriors who had just passed through the wind tribulation.

A bloody tornado instantly rushed out, and the Taibai Sword Prison completely surrounded them at the first moment. With the Crimson Sky Desolate Blood Sword in hand, Long Chen sliced the center of everyone's brows with the sharp tip of the sword, and in a short period of time, killed all of them, leaving only one alive.

The place Long Chen was at right now was inside the Moon Demon Cave. The terrain here was similar to the outside, and there were no longer any dense passages like the one before. This was actually not a safe place to be found. After Long Chen brought the warrior away, he found a slightly remote area and started to control his soul.

With Long Chen's current ability, he could easily control the severely injured man's soul and succeed.

"Where are your Great cave master s now?" Long Chen had already thought of the questions long ago, so he asked them one by one. In the end, he even asked them to draw out the locations of the Great

cave master and the locations of the methods used to get there. After approximately half an hour, Long Chen finally finished questioning them.

Of course, there were no survivors.

From the information that he had gathered, Long Chen learned a lot of things. He found out that the Great cave master called Li Qingyue was about to hold the Moon Demon Sacrifice. By now, the 999 people who had sacrificed their lives had probably already arrived at a place known as an 'altar'. Basically, the rest of the people of the Moon Demon Cave were waiting there.

Along the way, there were many other martial artists on guard.

They didn't know that Long Chen and the rest had already killed Xue Yazi and activated the mechanism. Originally, the reason they left Xue Yazi there was to let him settle Long Chen and the rest.

After receiving all the information, Long Chen started to head towards the direction of the altar. As for Wu Yang and the others, in this chaotic place, it was impossible for them to find the altar in a few days.

And there was also that mysterious violet-eyed youth. Just who was he?

As Long Chen was walking forward, he imagined this violet-eyed youth. Suddenly, he felt the violet-eyed youth appear within his field of vision once again, and quickly headed in his direction. Long Chen was shocked, "Could it be that he's really able to grasp my position, and has been following me all this time?"

Otherwise, it would be very difficult for him to pass through the tens of thousands of narrow tunnels to find Long Chen.

Since he was so powerful, and he had no ill intentions, Long Chen did not leave, there were too many strong people in the world, but he was not weak either.

After a while, the violet-eyed youth had already appeared behind Long Chen, a cute little servant and a servant were following him. After seeing Long Chen, the violet-eyed youth flew over with an evil smile, and sized Long Chen up: "Do you know the way to the altar?"

altar

It was obvious that this person knew quite a bit.

Thinking about it, Long Chen could only nod his head and ask: My name is Long Chen, may I know what your name is?

"It's good that you know it. Then we don't need to trouble ourselves and just follow you there. You won't mind, will you?" The purple-eyed youth did not answer Long Chen's question, but said so instead.

"Of course not." This was a natural protective talisman. Even now, Long Chen still could not understand this fellow's strength.

"That's good, thank you." "By the way, let's introduce ourselves." Pointing to himself, he said, "My name is Li Tianji, and I come from the Grand Moon Demon World. This is something from my Li Family, if you have any plans for this magic moon box, you can tell me straight, I will take care of you, but if you do not have any plans for the magic moon box, seeing you leading the way for us, I can promise to help you with some requests. "

This youth named Li Tianji, should be considered a very straightforward person. The moment he opened his mouth, he had explained everything clearly.

The servant girl by the side clenched her fists as she threatened Long Chen and said: "It's best if you don't have any designs on the magic moon box, that's the Li family's inheritance treasure. It was stolen by cave master Li Qingyue from the Moon Demon Cave.

Long Chen had the True Martial Emperor's Soul, and this was something even more precious than the purple colored devil moon diagram. It was obvious that that thing was useless against Long Chen, so of course Long Chen wouldn't go and offend Li Tianji just because of the magic moon box.

Therefore, Long Chen was very frank, and said: "I am also going to say it directly, I am a disciple of the True Martial Imperial Palace, and coming to the Moon Demon Cave is a trial battle for my Evil Dragon Palace, my mission is to settle the people inside the Moon Demon Cave, the magic moon box that you are talking about, we do not know anything, we just have to complete the mission, we have already killed Xue Yazi."

Li Tianji's eyes lit up, and he said: "If that's the case, then we're still on the same side, this is even better, let's go down the road, let me experience the power of the True Martial Imperial Palace's disciples.

According to the legends, the strength of the three great Imperial Palaces are quite a bit stronger than our nine great realms."

Long Chen was also relieved, and said: "I cannot represent the True Martial Imperial Palace, and the true geniuses of our Imperial Palace are all within the War God Palace."

Li Tianji nodded his head: "I actually know of a place like the War God Palace."

As he was speaking, he got closer and closer to the altar, and as long as he could identify the route, he wouldn't be too far away. However, a situation had happened midway, and that was Jiang Qing had appeared as well. Seeing that Long Chen was actually together with him, he originally wanted to help him, but seeing that the two of them weren't clashing and were happily chatting, Jiang Qing followed behind him without interfering.

Jiang Qing's eyes flickered with a strange light.

As for Wu Yang and the others, they were probably still wandering around in the dense tunnel. Who knew when they would be able to make it out again, and the only reliable Ye Zheng, was under the attack of Long Chen's corrosive fire, whether he lived or died was unknown.

He never thought that these three people were actually people from the so-called Grand Moon Demon World. No wonder they all had a faintly discernable yin aura on them. This aura was very similar to Li Xuanji's back then. The two names Li Xuanji and Li Tianji seemed to be similar, but Long Chen did not dare to ask this right now, so he was not sure.

The altar was right in front of them. When they were about five kilometers from there, Li Tianji suddenly said, "I already know the location of the altar. Goodbye!"

With that, he brought along two servants and disappeared from Long Chen's sight. After they had left, Jiang Qing rushed over to Long Chen's side and asked anxiously: "Long Chen, who were those three people?"

"People of the Grand Moon Demon World." Long Chen answered truthfully.

"The people of the Grand Moon Demon World, what is your purpose for coming here?" Jiang Qing asked suspiciously.

Long Chen then explained his purpose for coming to the Moon Demon Cave. After hearing everything, Jiang Qing frowned and said, "magic moon box? He had never heard of such a thing before. At that time, if he had to use so many lives to fill it in, it shouldn't have been anything good. When the time comes, if possible, do your best to destroy it. "

During the conversation with Li Tianji earlier, Long Chen had already talked about this issue with him, but he didn't expect Li Tianji to answer them like this: "This is my Li Family's stuff, it belongs to my Li Family's martial arts, and only our bloodline can open the magic moon box.

#### Chapter 1113 - Lion

Jiang Qing nodded in satisfaction, and said: "You are right, this person named Li Tianji should have a high position in the Grand Moon Demon World, his strength is even stronger than mine, I do not even dare to approach him, the magic moon box is his, let's not lose our lives because of some greed."

When Jiang Qing finished saying this sentence, Long Chen was currently smiling as he looked at him, and said: "That's right, you're right. Things that don't belong to you.

Jiang Qing was startled. He saw a kind of power that understood everything from Long Chen's eyes.

This time, if you go back, you will receive a lot of rewards. The condition is that you have to survive the final attack, and Ye Zheng and the others are still trapped here, this is a very big opportunity for you. Furthermore, there is also the possibility that Li Tianji has killed the remaining two cave master s, although it is not yours, but this is still considered an irresistible external factor, and a part of the credit will be given to you. "

Long Chen reckoned that if Li Tianji wanted to obtain the magic moon box, he would definitely have a conflict with the Moon Demon cave master Li Qingyue. With Li Tianji's strength, killing him wouldn't be difficult at all.

"Oh right, I haven't met Senior Han Yunxing in the past few days, so I think it's possible that he hasn't come. This guy never does things as expected, so you need to be mentally prepared. Jiang Qing said with a strange expression.

Since the Supervisor did not come, this should be a huge matter, but from Jiang Qing's expression, it did not seem to be a big matter.

Long Chen had a general idea of what he was thinking, and said: "Relax, I am only concerned with doing my own thing. Also, I can save so many people, save lives, and become a level seven Buddha."

"It's good that you're open-minded, but it's not appropriate for me to interact too much with you. You should be the first one, and Senior alcoholism is only speculating on it myself, he is a warrior at the peak of War God Palace, the Soul Suppressing Stone of the Moon Demon Cave definitely cannot suppress his consciousness. With his consciousness, even if she doesn't enter the Moon Demon Cave, she would be able to grasp everything."

An expert of this level was the true target of Long Chen's yearning.

"Let's go."

However, he could not make a move on the surface, so Long Chen did not say anything else, and headed towards the direction of the altar. He had originally thought that Li Tianji would immediately make a move, but after saying that, he did not realize it at all, and continued to move forward. Finally, Long Chen saw a flash of light in front of him.

This was the biggest cave Long Chen had ever seen. Most importantly, the walls of this cave was decorated with beautiful gold and silver bricks, it didn't look like a cave at all, but rather, the interior of a palace.

This was the true core of the Moon Demon Cave. Long Chen had thought wrongly before, everyone would enjoy this place, the people of the Moon Demon Cave wouldn't want to live inside the cave, and in front of him was the Underground City that they built in the cave.

Jiang Qing, Li Tianji and the others were not far away from Long Chen, and on the way here, Long Chen and Li Tianji had killed a lot of people from the Moon Demon Cave. Now, other than the people in front of them, there should not be anyone else left from the Moon Demon Cave.

The center of Underground City in front of him was an altar, and on it were large censers, tables and so on. Beneath the censer was a pit that was more than ten meters deep.

It was a pit with a circumference of a hundred metres, it was filled with people, all of their faces were deathly gray, there were a total of 999 of them, Long Chen deduced that these people were probably people from the nearby cities, they were all here as sacrifices.

They could not escape because there was a layer of golden light enveloping the entire pit. These ordinary citizens, whose cultivations were not even close to Divine Martial Stage, had no way to leave this place at all, and seeing that there was not much time left until the Moon Demon Sacrifice, those who were weaker than them knew that death was at hand, all began to cry. Those who were unwilling, began to curse in one direction!

In another direction of the giant pit, there were three golden Thrones, as well as ten silver Thrones. Amongst the ten silver Thrones, seven of them were seated, and within the golden Thrones, there were only two people sitting. One of the seats was empty, and there was no doubt that this empty seat was given to Xue Yazi.

At the center, there sat a woman wearing a purple dress and a veil. Her figure was graceful and her curves were astonishing, she was a mature woman, her entire body emitted an enticing aura, but under the veil, the coldness in her eyes was terrifying, this person was most likely the Great cave master of the Moon Demon Cave, Li Qingyue.

From Li Tianji's words, he knew that she should have been someone from the Grand Moon Demon World.

Although he was sitting on a chair, one could see that his body was extremely majestic, as if he was a lion. In particular, he had a head of unkempt golden hair, and that arrogant and disdainful gaze of his, was exactly the same as the lion who was examining his own territory on the prairie.

This was the second cave master of the Moon Demon Cave, named Qin Shi. He possessed the 'Royal Lion's Bloodline', and in the information, he cultivated the 'Shocking Emperor's Lion Fist'. This was an extremely powerful attack and destructive cultivation technique, just like Qin Shi's body, which was filled with power.

Aside from these two, the other seven were all Vice cave master s of the Moon Demon Cave. Everyone's strength was around the same as Wu Yang, or perhaps the Yang Xiong from before.

The Divine Sense Realm was equivalent to Divine Martial Spirit having eyes. Other than the amplification from the primordial spirit, it had no other effect on the battle, but as long as Long Chen entered the celestial realm, his combat power would definitely increase greatly.

The reason he was able to go across so many levels to deal with these experts was all because of the Ancestral Dragon Fighter's heaven-defying power, the amplification from the Sword Fighter, and the might of the Crimson Sky Kingdom.

But he knew that as his level increased, every single martial artist above the Sixth Stage of the Divine Martial Stage would all be at a heaven-defying level. When Long Chen fought against such a martial artist, the advantages were not that obvious.

Under the effects of the Soul Suppressing Stone, even Li Qingyue from the Moon Demon Cave did not know that someone had entered this place, and even more so did not know that there were people monitoring their every move. Long Chen originally thought that Li Tianji would make her move the moment she came in, but he did not expect him to stay still, waiting to watch the show.

"Could he be waiting for the full moon, for Li Qingyue to take out the Moonlight Box, which is to say, the magic moon box, before making his move?" Long Chen thought.

The more powerful one was, the more one would not care about the lives of the weak. Li Tianji might not necessarily be a bad person, but he might not necessarily take action in advance out of pity for the weak.

However, when Li Qingyue took out the magic moon box, who could be sure if she had given the order to kill at that time?

Long Chen could only wait silently.

Ye Zheng and the others probably wouldn't be able to find him here, and everything would depend on Long Chen himself. Furthermore, Long Chen had placed the corrosive fire on Ye Zheng, so if they met again, it would definitely be a battle of life and death!

For the current Long Chen, the Sixth Stage of the Divine Martial Stage was a huge threshold.

Time slowly passed. The full moon was probably almost up, and the moon could not be seen in the cave. However, the full moon probably had a huge impact on the magic moon box.

Long Chen had been holding his breath the entire time to watch, and at this time, Li Qingyue and the others thought that it was probably time, and their faces revealed expressions of joy, but the 999 people in the pit all revealed expressions of terror.

Li Qingyue did not take out the magic moon box.

Long Chen looked at Li Tianji's side again. There was no reaction, he should still be at Li Qingyue's place taking out the magic moon box.

With the Moon Demon Cave's warriors' strength, killing these commoners was very easy. At this point in time, Long Chen already had no other choice, so without any hesitation, he suddenly appeared, turned into a streak of golden lightning, and instantly landed in front of the seven Vice cave masters. Behind Long Chen, were the commoners who were trapped.

"Who is it!"

They looked at Long Chen in a daze. They extremely believed in Xue Yazi's mechanism, so they did not believe that someone could actually come to this place, and that it was a young man at that. Therefore, Long Chen's appearance was truly too unexpected for them.

"Who are you?" Li Qingyue asked with a calm expression.

In front of her, the seven Vice cave masters glanced at each other, stood up, and walked towards Long Chen. No matter who Long Chen was, he had to take care of Long Chen.

"Don't kill him first. Ask him where he came from." Qin Shi said in a low voice. As he spoke, the surrounding air began to vibrate.

This was the power of the voice.

Long Chen's appearance interrupted the progress of Li Qingyue and the others. At this moment, one of the vice cave masters walked towards Long Chen, as he was a sullen man, giving Long Chen a pressure

that was not inferior to someone like Su Xiaodie, but someone who was not of the genius type like Su Xiaodie.

When they were about ten meters in front of Long Chen, a cold and gloomy pressure was applied to Long Chen's body. They could only see that Long Chen's realm was only Second Stage of the Divine Martial Realm, so they could only imagine that the current Long Chen was probably already afraid of his pressure.

Chapter 1114 - Killing seven people in a row

"Kid, where did you come from?" Covering the killing intent in his heart, the gloomy martial artist said in a relatively gentle tone.

The outside passage had already been sealed by Xue Yazi, so it was impossible for them to come in. They were very worried that there would be another passage, so they didn't want their secret anymore.

What made him suspicious was that Long Chen didn't say a word. This youth was a little strange, and the Black clothed warrior was slightly angered in his heart. He went a thousand times to grab Long Chen, and just at this moment, a flash of golden lightning instantly soared up to his eyes!

Fast, it was too fast!

It could be said that in terms of speed and body, Long Chen had surpassed the Sixth Stage of the Divine Martial Stage.

With a sou sound, Crimson Sky Kingdom's Desolate Blood Sword appeared in front of Black clothed warrior's palm. The blood-red colored sword tip made all of the's eyes widen.

Long Chen's performance, was truly too unexpected!

When the blood red sword tip appeared, a white sword light suddenly shot out from Long Chen's eyes. That white light instantly exploded, transforming into tens of thousands of white sword beams, forming

a white ball, surrounding Long Chen and the Black clothed warrior in a narrow space with a diameter of less than two meters!

This unforeseen event left everyone stunned. Within such a narrow range, there were many skills that could not be used. This meant that they would have to engage in a close combat with each other!

How could this practitioner, who was only a practitioner of Second Stage of the Divine Martial Realm, have such capability?

Therefore, everyone unanimously agreed that Long Chen simply wasn't a Second Stage of the Divine Martial Realm at all, and definitely had some sort of concealed method!

At this time, everyone realized that their great enemy had arrived. The other six cave masters all stood up and rushed towards Long Chen, but they never expected that they were one step too late!

The Taibai Sword Prison exploded again and again, showing that a fierce battle was going on inside. Before anyone arrived, the Taibai Sword Prison exploded, revealing two people, one standing, and the other kneeling in front of him!

The person who was standing there was the young man. At this moment, he was using a disdainful gaze to scan the crowd, his eyes were blood-red, and a bloody, fiendish aura burst out from his body. An intimidating aura spread out from his body.

And the one kneeling, was none other than the Vice cave master of their Moon Demon Cave.

His face was pale, and he hung his head low. Blood dripped down from his forehead, and his body gradually lost its life force.

The Divine Martial Spirit was immediately minced to nothingness by Long Chen.

Seeing this scene, the six Vice cave masters were stunned. Their brother for so many years had died right in front of their eyes without any warning. What they were sure of was that if they had stood up first, they would have been the ones to die.

When they looked at Long Chen again, they had already changed their gaze. The Vice cave master s, who were all initially joking around, now all looked at Long Chen with grim eyes.

"Who the hell are you?" Second cave master was also alarmed, his eyes that were as sharp as a lion's eyes stared straight at Long Chen, causing Long Chen to feel as if he was being stared at by the king of ten thousand beasts.

Xue Yazi was an expert in mechanisms, but the feeling Qin Shi gave Long Chen was the same as the martial arts fanatic Nangong Lie.

"The one who will take your lives." The more dangerous the situation was, the more relaxed Long Chen became. Li Tianji and the others actually did not make the first move, so Long Chen decided to make the first move. Long Chen believed that if he was not a match for the other party, they would definitely save him.

Therefore, since he wanted to play, he had to play like a madman!

"You have committed so many evil deeds, there will definitely be someone who comes to collect your corpses, so I came today to remember my name," Long Chen looked around, that contempt in his eyes caused the other cave master s to feel extremely uncomfortable, and he said proudly: "I am Long Chen, this is the name of the person who sent you to the west, just like your brother here."

After saying that, Long Chen casually kicked the warrior in front of him away, smashing into the six Vice cave master s, and at the same time, followed the corpse. Long Chen's powerful body suddenly moved, with a loud charge, the golden lightning rushed into the crowd even faster than the corpse.

"He actually wants to fight six!"

The servant girl beside Li Tianji used his chubby hands to cover his mouth as he stared blankly at Long Chen's figure that was already surrounded by the six Vice cave master s.

The young man today was no longer the young man from before!

The six Vice cave master s acting against Long Chen had already given Long Chen enough face, so Qin Shi and Li Qingyue did not move, and only stared at him. They were curious, under the scrutiny of these two experts, on what grounds did Long Chen have to be so arrogant?!

One of them had just entered the Sixth Stage of the Divine Martial Stage.

One of them was a warrior at the peak of the Sixth Stage of the Divine Martial Stage.

It could be said that both of them could kill Long Chen at will.

In an instant, Long Chen fell into a fierce battle. This was a huge challenge for him, but the current Long Chen, was extremely charming.

He was deeply moved, these people who had cultivated for over a thousand years, and he himself only had seven years, in seven years, Long Chen had already reached such a level!

Shua shua shua!

Each of the Fifth Stage of the Divine Martial Realm s had their own trapping skills, and they were all practitioners who had gone through the Nine Heavens Thunder Tribulations. Their innate constitution could fully display its might, and they could use their own bloodline as well as the sacred arts within their bloodlines to cause fatal attacks!

Honestly speaking, dealing with six experts who could compare to him in a row was extremely difficult. For a moment, Long Chen felt like he was wandering around the gates of hell.

However, he remained calm throughout the battle. As he retreated, he quickly arrived in front of the large pit that was imprisoning over a thousand people. Sensing Long Chen's emotions, the Crimson Sky Kingdom seemed to be extremely furious as well. Blood-red mist shrouded the surroundings and the images of the divine dragons roared out one after another.

"It's time to act."

The God Slaughtering Sword Formation was the most suitable sword move for chaotic battles, because at this time, no one knew where Long Chen's next sword move was being released.

The crimson formation had surrounded the positions of these seven people.

"Such insignificant skill, look at my Great Wisdom Fist!"

Under the suppression from the six of them, the entire underground space was enveloped by a stifling atmosphere. The six auras formed into one, and like the weight of a mountain, they pressed down towards Long Chen. It was extremely terrifying!

Usually, even if it were a Sixth Stage of the Divine Martial Stage warrior, they would feel overwhelmed while being surrounded, but Long Chen did not, because his physical body and speed was too outstanding. Even if there were six warriors, they would not be able to catch the lightning-fast Young Fighters!

He was like a swimming dragon, disappearing from everyone's sight.

"Billions of killing!"

Even if it was a third grade Divine Skill, when released by Long Chen's hands, it would still possess a terrifying power. That thick and dense blood-colored primordial spirit surged within his trillions of meridians, causing mountains to topple and seas to overturn, and the body of her Divine Martial Stage itself was extremely huge. Long Chen's boundless Dragon Blood and Divine Energy was released, forming a blood-colored wave.

The blood-red colored sword flower quickly circled around everyone.

"God Slaughtering Sword Formation, Sword Sea!"

This God Slaughtering Sword Formation was the true attack. With his current strength, using the God Slaughtering Sword Formation to such an extent was simply heaven defying to others!

The blood colored sword light shot up into the sky, and the entire cave trembled under Long Chen's attacks. Countless sword lights not only attacked the six warriors, they also headed towards other directions, such as the golden light circle that enveloped thousands of people.

This was also a part of Long Chen's goal.

What made him disappointed was that even though he attacked with the God Slaughtering Sword Formation, the golden light did not explode. If that was the case, saving them would be more troublesome, Long Chen was not someone who did not have good intentions, those people were

currently looking at Long Chen with eyes filled with hope and anticipation. They were innocent, even though the weak did not have the qualifications to live, Long Chen was willing to fight for them.

It was just that after he polished his techniques, his life became like grass as more and more people died in his hands. And to this day, this feeling of being hoped for, although he had never met them before, Long Chen was still very touched.

This kind of feeling stimulated him to burst out, and he even displayed an abnormal fighting stance that was even more desperate than before!

Long Chen's gaze locked onto Qin Shi and thought: "Since I am unable to break through this barrier of light and save them, he definitely has a way.

The current Long Chen was insane, it was this madness that had long ago created the current him.

"Indestructible Sword Physique!"

The Grade Seven Divine Technique was the strongest skill that Long Chen could currently use!

That strong and profound sword move had instantly blocked three opponents for Long Chen. Although the opponent had passed through Nine Heavens Thunder Tribulations, in terms of killing intent, they simply could not block Long Chen!

"Beast tide!"

Tens of thousands of beasts charged together, and an earth-shattering sound appeared. Amidst the two similar attacks of the God Slaughtering Sword Formation, the mountain cave started to erupt violently again and again, and two divine dragons made entirely out of sword blades wreaked havoc in the crowd. This was a kind of devastating attack, even Wu Yang was unable to stop it, much less this kind of attack.

After using this move, Qin Shi's expression had already changed.

"So powerful!"

Unfortunately, it was already too late.

## Chapter 1115 - Unparalleled Lion Fist

Until the very end, when Long Chen used the Eternal Sword Body, he had displayed the strongest battle power. In an instant, within the range of the God Slaughtering Sword Formation, a total of six people, under unexpected circumstances, attacked Long Chen with their sword moves, and then killed him millions of times!

Every single Divine Dragon was made from Long Chen's sword, and each one was a terrifying Sword Qi.

The Eternal Sword Physique had a might similar to that of Long Chen's. Especially since the Crimson Sky Kingdom was a first-rate super divine weapon!

Combined with the Eternal Sword Body, in a short period of time, Long Chen's sharp Crimson Sky Kingdom had swept past almost everyone's body!

The Golden Thunder Prison Dragon in his left hand rushed out madly. Golden lightning wrapped around the six of them, restricting their speed and even numbing their bodies completely.

Lightning was a type of berserk power. The golden lightning charged into their bodies and completely destroyed their bodies in a very short period of time!

The most primitive sword strike, with its profound sword moves, had pierced through the center of everyone's brows. Blood spurted out wildly, and the current Long Chen was like a demon in blood, causing everyone to tremble in fear.

Pah pah pah pah pah!

Six consecutive bodies fell to the ground. At the same time Long Chen killed them, he also accepted their Emperor Crystal s with a smile on his face. These guys didn't have much money, so after adding all of them together and adding Long Chen's original remaining, it would only be 10,000 God Crystals.

The six Vice cave masters of the Moon Demon Cave didn't stand up again after falling.

The fighting strength Long Chen had suddenly displayed at the last moment instantly broke through their defense line. In terms of primordial spirits, Long Chen couldn't compare to them, but the Ancestral Dragon's blood essence had become Long Chen's valiant body, and the Golden Thunder Prison Dragon had given him speed!

His physical body and speed had broken the rules, and together with the heaven-defying Crimson Blood Desolate.

Until now, Long Chen still did not have the power to activate the true might of the Scarlet Blood Sky Desolate Land. The Scarlet Blood Sky Desolation and the Nine Dragon Scripture were the best things that Ye Wushang had left him.

Long Chen understood that the further he went, the more terrifying the Divine Martial Stage would be. The Sixth Stage of the Divine Martial Stage would appear very soon, needless to say, the Seventh Stage of the Divine Martial Stage that could use the will of the heaven and earth. Every single one of them was like the heaven and earth, able to suppress the opponent while standing still.

Long Chen could only play with anyone below the Fifth Stage of the Divine Martial Realm.

Of course, this was also extremely heaven-defying.

At least, not many present thought that he was a practitioner of Second Stage of the Divine Martial Realm.

Killing seven people in a row caused Long Chen and Li Qingyue to be extremely shocked. Even Li Tianji and the others who were still observing couldn't help but feel a little uncomfortable from Long Chen's bloodshed and massacre, or perhaps this was fear!

Qin Shi had already stood up with a whooshing sound. He had underestimated Long Chen, so he was a step too slow. He turned around to look at Li Qingyue and ask for his opinion.

To them, death was a very normal thing. In their hearts, it was probably only the three cave masters, Xue Yazhi, Qin Shi and Li Qingyue, who were their true brothers and sisters. No matter what, the others were not their core members.

To have the qualifications to view the purple Demon Moon Diagram, that was already not bad at all.

"It's troublesome. If you're careful, you might as well kill him." No need to ask where it came from, I think Xue Yazi has screwed up this time. " Li Qingyue said indifferently.

"You mean?" Qin Shi actually already understood in his heart, when he said till here, his eyes flashed with a cruel light, and he said: "Alright, then let's take revenge for this trash."

As he said that, this warrior with the supreme golden body of the Sixth Stage of the Divine Martial Stage walked towards Long Chen step by step.

Long Chen was thinking about how to destroy the golden light behind him. He couldn't let the other party know that his goal was to save the people behind him, or else, he would be caught red-handed. If the other party used the lives of these people to threaten Long Chen, that would be a very troublesome matter.

A golden lion stood in front of Long Chen in the blink of an eye. That golden eye looked at Long Chen and its pupils became vertical, turning into a sharp blade.

Long Chen seemed to see a golden lion that could cover the sky roar in front of him. When the beasts submitted, the supreme power of the Sixth Stage of the Divine Martial Stage was faintly emitted from his body, forming a suppression force that surpassed the combined power of the few just now. It could be said that just Qin Shi alone, the ten Vice cave master s were not his match.

Every single move he made contained an aura of destruction. If even Xue Yazi was able to make Long Chen into such a sorry state, then there was no need to even mention the current Qin Shi.

At this time, on Long Chen's left arm, a golden divine dragon was coiled around it, and Long Chen was currently using a large amount of divine crystals to feed it.

"What is this?" Qin Shi was very curious. This was similar to the legendary Divine Dragon, but it was formed from golden lightning.

"Something that wants your life."

Long Chen laughed softly, raising his head. His hot eyes looked at Qin Shi and his fighting spirit ignited. In between his brows, the True Martial Emperor's Soul had already opened, forming a grey light, as if Long Chen had a third eye.

Qin Shi spat on the ground, wiping his hands, and said expressionlessly: "I have seen many youths like you, very arrogant and proud, but in the end, very few can survive, I, Qin Shi, have never had outstanding talent since young, but when all of you geniuses died because of your pride, I survived, and have even become a Ranker specializing in killing geniuses."

"Then, let's see whether I'll kill you or if you'll kill me."

Under the nourishment of the divine crystal, the Golden Thunder Prison Dragon grew larger and larger. The golden lightning stared at Qin Shi and an aura from the Ancient Desolation was emitted from the Golden Thunder Prison Dragon's body. Crimson Sky Kingdom, who was held in Long Chen's right hand, also revealed the figure of the Crimson Horn Demon Dragon.

A real dragon!

A lion or a king of beasts, but compared to a dragon, it was nothing. Qin Shi possessed the royal bloodline, and he was very strong. He didn't know why, but when he looked at Long Chen, he felt like he was being suppressed by a natural bloodline.

"When a martial practitioner reaches the realm of the Unparalleled Golden Body, they have already transcended. Because we have endured three great tribulations, and are no longer the same realm as we were in before Fifth Stage of the Divine Martial Realm."

While speaking, Qin Shi's fists collided with each other, the muscles on his hands became extremely rough, the power of both fists clashed together, forming a light wave that scattered in all directions, and all four sides started to tremble, an explosive force started to gather on his body.

This lion that covered the skies and blotted out the sun had an untamed aura that came from the Wilderness. Its golden eyes were like the sun, bursting forth with a terrifying and glaring radiance that made it impossible to dodge!

This was the true Sixth Stage of the Divine Martial Stage!

Unparalleled Golden Body!

It could even be said that it was an undying body.

Crack.

This was the sound of Qin Shi clenching his fists.

Long Chen was completely enveloped by the blood red fog. Although the power was very strong, it still did not intimidate him. He realized that this was an opponent that had challenged his limits, one that had surpassed his current limits.

The Eternal Sword Body was expressionlessly right beside Long Chen.

Holding the Scarlet Blood Sky Desolate, the God Slaughtering Sword Formation gradually condensed under Long Chen's sword. This time, the God Slaughtering Sword Formation did not disperse, but instead shifted from the ground to Long Chen's sword. A blood-colored array formation was formed on the edge of the Crimson Sky Kingdom's sword. This was the ultimate strength of the God Slaughtering Sword Formation!

It was only when he truly had not taken a step back that Long Chen would move the God Slaughtering Sword Formation to this place. This was because it signified a terrifying power that was about to appear in his hand.

"What a terrifying sword force." Qin Shi's eyes burned with passion as he looked at Long Chen. He was also a person who loved to fight.

In Long Chen's hands, the God Slaughtering Sword Formation had fused into the blade of the Crimson Sky Kingdom, forming sword runes. Long Chen could even feel that he was no longer able to hold onto the Desolate Scarlet Blood Sword anymore.

Next to him, the Eternal Sword Body was also trembling. This was a miraculous doppelganger battle skill!

The battle was about to begin!

At this time, Long Chen suddenly retreated. The instant he retreated, due to the momentum of the explosion, Qin Shi's body exploded like a bomb as he charged towards Long Chen. In this retreat, the distance between them did not change, but they did change.

This is the spot.

Reaching here, Long Chen revealed a faint smile.

With the Golden Thunder Prison Dragon in his left hand and the God Slaughtering Sword Formation in his right, he was already prepared.

Qin Shi stood in front of him, using a condescending gaze to focus on him. His hands slowly moved, and the golden primordial spirit swirled around his body, forming a golden tornado that completely surrounded his body. A storm formed from energy swept out in all directions, causing the golden light underground to vibrate slightly.

A berserk aura, full of wildness, exploded from Qin Shi's body.

And the Long Chen at this time, wasn't weak in the slightest. After feeding tens of thousands of divine crystals, the golden Thunder Prison dragon was hibernating, staring at Qin Shi. It was already in a berserk state, and upon Long Chen's command, would definitely pounce at him at the first possible moment.

In his right hand, the God Slaughtering Sword Formation had been prepared as well.

Weng! \*

Seemingly at the same time, the two of them attacked at the same time. On Long Chen's side, there was a golden and blood-red brilliance, filled with killing intent.

"Shocking the world!" Imperial Lion Fist! "

With a roar, a fist turned into a golden lion that covered the sky and had a horn on its head. It released an earth-shattering roar and rushed towards Long Chen as it engulfed him.

Sixth Stage of the Divine Martial Stage, but that portion of primordial spirit, was countless times more powerful than Long Chen.

Fortunately, there was the Gold Thunder Prison Dragon that could block it for a while.

However, Long Chen was still the first one to activate the God Slaughtering Sword Formation!

"God Slaughtering Sword Formation, Sword Explosion!"

#### Chapter 1116 - God Slayer Sword Explosion

This was a move that would trigger the entire formation within the God Slaughtering Sword Formation, causing the sword formation to explode. Long Chen had trained the God Slaughtering Sword Formation to its most thorough state, so the method to use this move had finally appeared in his mind.

The sword explosion was several times stronger than the beast tide. After activating the God Slaughtering Sword Formation, neither the Sword Sea nor the beast tide would close down the God Slaughtering Sword Formation and disappear.

Using this kind of method to deal with Qin Shi, was the only way Long Chen could do it!

His opponent was too strong, an opponent that had cultivated for more than a thousand years, countless of things piled up on top of each other, Long Chen wanted to catch the World Shaking Lion Fist that he had trained on a thousand times, it was impossible to not use this sword explosive!

Long Chen's Crimson Sky Kingdom seemed to have exploded as rumbling sounds rang out. The God Slaughtering Sword Formation attached to the Crimson Sky Kingdom was completely destroyed, turning into a blood-red sword aura. A wave of qi that was mixed with countless amounts of blood colored sword qi rushed towards the horrifying fist technique of the King Lion's Fist!

At this time, Long Chen was very calm.

Fighting with an expert like Qin Shi was not his goal. Long Chen's real goal was to, at the same time as blocking the enemy's attacks, guide the intense battle aftermath towards the group of so called Moon Demon Sacrifice, who were completely trapped inside.

Long Chen wanted to save them, but they were actually inside the golden light barrier. Long Chen had already tried it out earlier, and he knew what he should not be able to break through by relying solely on his own attacks!

No one knew what kind of light barrier it was, but it was surprisingly able to resist in such a terrifying manner.

From this, it could be seen that Li Qingyue and the others valued this offering quite a bit.

What Long Chen did not know was that this shield of light was the key to completing the Moon Demon Worship. If this golden shield of light was destroyed, the Moonlight Box would not be able to open it.

When the God Slaughtering Formation's explosion of swords collided with the opponent's Hanshi Lion's Fist, the long-dormant Golden Thunder Prison Dragon finally could not resist anymore. With a world-shaking roar, under Long Chen's guidance, the Golden Thunder Prison Dragon soared into the sky and its golden lightning body became extremely huge, before diving down once more!

This has a purpose.

The Golden Thunder Prison Dragon and the God Slaughtering Sword Formation fought against the Unrivaled Emperor Lion Fist at the same time, but because of the Golden Thunder Prison Dragon's existence, because of the angle, the aftermath of the battle would be pushed towards the golden light barrier!

Everything were going according to Long Chen's plan, his speed was extremely fast, even surpassing the speed of the energy ripples. Qin Shi did not use his full strength in this punch, it could be said that Long Chen's two moves, could completely break his opponent's King Monarch Lion Fist. Of course, this was not something to be proud of.

The energy of the three forces intersected, and the terrifying battle caused the entire cave to rumble. The luxurious bricks on the initially built walls all fell to the ground, falling down like rain for a moment.

Qin Shi's eyes were filled with shock, he never thought that this brat would actually have the power to block his famous consummate technique, the Unparalleled Lion Fist, it was not only his famous consummate technique, but also his current strongest technique!

Countless warriors had died from the tyrannical power of the Hanwu Emperor Fist.

"Boom!"

Under the berserk guidance of the Golden Thunder Prison Dragon, a huge explosion occurred. The attack, mixed with all kinds of energy, advanced in the direction that Long Chen had guided, and that was the golden light membrane.

At this moment, Long Chen's mind was extremely tense. He had already rushed to the vicinity of the light barrier, and was only waiting for the light barrier to explode. He would rush in immediately, and protect the others at the same time.

Just as he had expected, when the three forces converged and exploded, the golden barrier finally could not withstand the power and exploded!

"Taibai Sword Prison!"

Not only could the Supreme White Sword Prison trap others, it could also be used to defend them.

At this time, Long Chen wanted to let those white colored Sword Qis block out the thousands of people, so that these innocent people wouldn't be harmed by the aftermath of the battle.

Long Chen's move was just too dangerous. Although the people from before knew that the golden light was enveloping them, they were still so frightened that their faces turned pale, especially after the last light barrier had been destroyed.

"I'll save you, don't resist!"

With their strength, Long Chen could directly take them in and take them in. This was a matter of thousands of lives, and he had no choice but to expose Great Void Realm.

Generally speaking, only warriors of the Eighth Stage of the Divine Martial Stage would have the Qiankun in their bodies, which was also the Divine Kingdom. Only the Divine Kingdom could let people enter, but there were also some rare treasures that had this kind of effect. Others probably wouldn't

spend too much attention on this matter, but the most they would be shocked that Long Chen actually had this kind of mystical treasure.

Everyone was clear that Long Chen was the only chance for them to get out of this place alive. Thinking about that, everyone subconsciously followed Long Chen's instructions, and when the suction force landed on them, they did not resist, so over a thousand people all entered Long Chen's Great Void Realm in an instant. Occasionally, there would be a few foolish people who resisted Long Chen's absorption, and Long Chen forcefully swallowed them all.

Using the Great Void Qi to surround them, Long Chen said, "Everyone, don't panic. Stay here for a while, after I escape, I will release you all."

In the Great Void Realm, everyone was already discussing.

"What is this place?" Why are we here? "

"How about saving our boy?"

"Are we already dead, wuu?!"

Thus, Long Chen was born to let them be patient.

"I got it!" Suddenly, someone exclaimed loudly. With a gaze of worship, he looked towards the direction of Long Chen's voice and said fanatically, "Has everyone forgotten? Only those Eighth Stage of the Divine Martial Stage warriors that are like gods have their own God Nation. Right now, we are in a place that is similar to ring s, but we are still able to live, doesn't this mean that this place is the God Nation of that young man! "

"So that's how it is. This youth is actually so powerful!"

"A divine-like person, he can only be our senior. Many martial arts seniors have strength that defies the heavens, and his appearance also maintains the appearance of a young man. This young man should be someone like that!"

As they discussed animatedly and worshipped each other, Long Chen heaved a sigh of relief. At the same time that he had finally completed the mission, he also felt Qin Shi's pressure and with a loud explosion, the Taibai Sword Prison was easily broken by Qin Shi.

Qin Shi saw that the person inside was no more at first glance, and his eyes became even more serious. He stared at Long Chen, and the pressure on his body felt like a mountain!

"You actually have such a treasure on you, and it can even block my 'Hanshi' Lion Fist. I have underestimated you." Qin Shi sighed, then his golden eyes lit up, he was truly angry.

"It seems that you will only let them out if I kill you. I hate people who do bad things. We have prepared a Moon Demon Sacrifice for such a long time, but you have come to disturb us. You really have no morals."

In midair, Qin Shi was like a god looking down on him from above, his voice was loud and deafening.

If Qin Shi were to attack again, Long Chen would only be left with a dead end. Therefore, he soared into the sky, stood ten meters in front of Qin Shi, and said without any pressure: "Old bastard, don't be too arrogant, do you think that everything is under your control?"

"Otherwise?" Qin Shi sneered.

"Come chase me." Long Chen suddenly said.

"What do you think?" Before Qin Shi could finish his words, Long Chen transformed into a streak of golden lightning and instantly disappeared from Qin Shi's sight. Only then did Qin Shi understand that Long Chen had succeeded in his attempt and had prepared to escape.

He thought that Long Chen had come for the Moonlight Box and would definitely not leave if he didn't get it. He didn't think that Long Chen would actually escape at full speed at this critical moment.

Although Long Chen was not as familiar with the terrain here as he was with Qin Shi, his speed was still faster than Qin Shi's. However, Qin Shi was not an ordinary person as well, golden lines emerged from his body, and he was currently like a lion on the prairie. Suddenly, he dropped to the ground with both hands, and crazily chased after Long Chen as if he was a beast with four legs!

"Get it done earlier, there's not much time left."

Li Qingyue's dissatisfied voice resounded beside Qin Shi's ears. Qin Shi knew that Li Qingyue was already angry, and immediately increased his speed crazily, wanting to catch up to Long Chen and kill him. At the same time, he would also save all the people he brought away.

A streak of golden lightning headed forward through the countless densely packed tunnels, taking a turn at a time when a golden lion was pursuing it relentlessly.

After Long Chen left, Jiang Qing immediately followed. His eyes flashed with hesitation.

"Han Yunxing should not have come, perhaps this is the best chance I have to figure out the secret on Long Chen's body, I definitely cannot miss it, if not I will live to regret it, this brat is just over twenty years old, with his current strength, it is definitely because of the mysterious thing in his forehead, the value of that thing definitely surpasses that of the Moonlight Box!"

Thinking about it, Jiang Qing followed behind Qin Shi, hiding from his eyes and madly chased after him. As he was at the perfection-stage of the Sixth Stage of the Divine Martial Stage, his speed was also top-notch, so he quickly followed behind Qin Shi. As long as he could find any traces left behind from Qin Shi, he would not lose Long Chen.

Seeing the three of them leave, the servant by Li Tianji's side asked: "Young Master, do you want to make a move now?"

Li Tianji laughed and said: "Wait, you must wait until the magic moon box is taken out by her. This woman is known for being careful, and before she takes out the magic moon box, I won't do anything.

"Wow, the young master is really powerful." The little girl beside him said in admiration.

## Chapter 1117 - Truly Powerful

Li Tianji laughed awkwardly, he turned and looked at the young maid lecherously, and said: "Xiao Yu'er, my skills in bed are even better, I am practically the champion of the Dragon Sacrifice Continent, a spear against the Three Regions Nine Realms, no one can defeat me, do you want to try?"

"Go, the Young Lord is a bad guy!" The young maid was not afraid at all as she winked at Li Tianji.

"Aiya, aren't you afraid of this young master? See if I take you right or not."

"If you dare, I'll say it loudly!" She was holding onto Li Tianji's weakness, and if she were to speak loudly at this time, Li Qingyue, who was still seated quietly, would immediately notice her.

Li Tianji immediately looked dejected, while the servant girl beside smiled proudly.

"What are you so proud of? When I return with the magic moon box, I will definitely make you cry like a pig." Li Tianji threatened.

It was only then that the young maid was shocked.

On the other side, Long Chen gradually pulled apart the distance between him and Qin Shi. Although Qin Shi's speed was pretty good, it was still a bit too inexperienced compared to Long Chen's. If it wasn't for this unfamiliar passage, Long Chen's speed would have been reduced.

Behind Qin Shi, Jiang Qing followed closely behind as his eyes revealed a greedy light.

His thoughts were meticulous. If it wasn't for those truly heaven-defying treasures, he wouldn't have minded them, but it was obvious that they were those things that defied the will of the heavens.

True Martial Emperor's Soul!

Although Jiang Qing did not know what it was called, he roughly knew its effects. All of this was what Long Chen had seen when he was in trial tower.

In the trial tower, he was the only one standing guard and his eyes were everywhere.

As long as they killed Qin Shi and Li Qingyue, the mission in the Moon Demon Cave would be completed. However, Long Chen himself did not plan to fight the two of them head on.

Fighting a life and death battle before his strength was insufficient was truly something stupid. He would leave this Qin Shi to the fierce guy, Ye Zheng, to deal with.

Even if he moved at full speed, it would still take around fifteen minutes. Long Chen was originally prepared to go around to the exit, but after he passed through a passage, a person suddenly stood in front of him without any signs. Long Chen did not even see this person, he was so scared that he almost fainted.

Fortunately, he had clearly seen this person's appearance. His heart, which had been violently beating from the shock, slightly calmed down.

This man was sitting on the ground with his legs up high, with a wine pot hanging above his head, pouring wine into his mouth. A pungent, pungent, and pungent smell of alcohol entered Long Chen's nose at this moment.

This man reeked of alcohol. His blue, coarse clothes were sometimes completely drenched. His hair was also moist from being stained with wine for a long time. It was unbearably slovenly as it was dyed with some dirt.

Through the gaps in his hair, Long Chen saw a pair of turbid eyes. His handsome face had become unsightly due to his slovenly appearance.

alcoholism, Han Yunxing!

Seeing this person, Long Chen was initially frightened, but then he gradually relaxed. He knew that there was definitely a reason why the other party was sitting here.

Han Yunxing was the Supervisor that participated in the trial. Jiang Qing reckoned that he did not come, but in the end, he came.

Furthermore, Long Chen had a feeling that this Han Yunxing's arrival was definitely related to him. Otherwise, why would such a mighty warrior of the Eighth Stage of the Divine Martial Stage or above come to be this Supervisor?

A normal Supervisor's Seventh Stage of the Divine Martial Stage would have reached the heavens.

The experts of the War God Palace did not have as many as those people who were in the mood and sent out three thousand super strong warriors to supervise the battle for the trial.

However, even the powerful Spirit Devouring Demon Pupil could not feel the existence of this Ranker at this time. Back then, at Sacred Martial Palace, Long Chen could still see him, but now, he could no longer.

From this point, Long Chen could roughly tell the limit of the Spirit Devouring Demon Pupil and what kind of places Li Xuanji's strength was at back then.

Li Xuanji was someone who could probably catch up to Ling Xi's level. She was definitely one of the best in the Grand Moon Demon World. Her cultivation should have also obtained Eighth Stage of the Divine Martial Stage to Ninth Stage of the Divine Martial Stage.

And Ling Xi's strength, was at the perfection-stage of the Ninth Stage of the Divine Martial Stage!

At the level of Ninth Stage of the Divine Martial Stage, there was a huge gap between the heavens and the earth between the initial stage and the perfect stage!

However, Long Chen County cast these thoughts aside.

"Senior alcoholism." Long Chen cupped his hands towards him, stood in his original position, and did not escape just because of Qin Shi. Although he said that the alcoholism was the Supervisor, and he would definitely not make a move, if that was the case, why would he sit here drinking while blocking Long Chen's path?

alcoholism did not move, he continued to drink, and when the spicy liquid entered his mouth, he smiled, completely enjoying it.

Right at this moment, Qin Shi rushed behind Long Chen. He admired Long Chen's speed so much that he prostrated himself on the ground, and in the process of crazily chasing after him, he was already panting, but at this moment, he realized that Long Chen had strangely stopped. His many years of experience told him that this might not be a good thing, so he immediately halted his steps.

"Who is this?" Qin Shi thought that it was a senior level figure of Long Chen's master, so he hurriedly retreated when he thought of this, but in that moment of life and death, a drop of wine fell outside from the wine jar. The drop was a little white on Han Yunxing's finger, but it was filled with mud and wine.

Han Yunxing lightly flicked it.

The transparent wine, in an instant, pierced through Qin Shi's head and directly entered the ground behind him, disappearing without a trace. Qin Shi's eyes turned white, his eyes opened wide, staring straight at alcoholism, his mouth slightly opened, and before he could even utter out the last word, he fell flat on the ground.

Using the Spirit Devouring Demon Pupil, he could see that the aura of his soul had completely disappeared.

In front of an expert on the level of Jiu Chi Han Xing, this fellow had no way of resisting. Even with that unparalleled golden body, which could be said as undying, Han Yunxing had still easily crippled that unparalleled golden body.

At this moment, Long Chen's mind felt as if it had been struck by lightning. He finally understood what a true Ranker was.

He was a Supervisor, but he could help Long Chen, and kill the person in the mission whenever he wanted. And Jiang Qing, the one who led the team, did not dare to, because the difference between the two of them was this.

The Jiu Chi Han Xing were super experts who were a level stronger than Jiang Qing.

Long Chen deeply bowed in admiration. At the same time, he was also very curious as to why Yun Che had helped him by directly killing this Qin Shi. Long Chen could not understand no matter how hard he thought.

It was at this moment that alcoholism drank her last mouthful of wine, and when the wine jar could no longer hold anything else, he stood up in a daze. After swaying for a while, she saw Long Chen in front of him.

A gust of wind surrounded Long Chen, and the two of them instantly disappeared from their original location. In the moment they disappeared, Jiang Qing's figure appeared in the middle of the tunnel.

However, when he saw Qin Shi lying on the ground with his eyes wide open, staring straight at him, Jiang Qing was stunned and she knelt on the ground.

Touching the wound on Qin Shi's forehead, Jiang Qing's body trembled all over, his face was pale white, without saying a word, he immediately turned around and ran, no matter who it was that saw this situation, it would all be the same. The Sixth Stage of the Divine Martial Stage's warriors, were all killed silently without any movement, the person who killed him was at least above Eighth Stage of the Divine Martial Stage.

Jiang Qing did not want to die just because of his greed.

When he was escaping, his mind was in a mess, he had even forgotten that Long Chen was still there.

However, Jiang Qing would never have thought that the person who struck just now was the Han Yunxing that he thought did not exist.

Long Chen realized that he was standing in the middle of a wooden house. The wooden house wasn't very big, it was only around ten meters in length and width, and through the small window, he could see that it was already night time. There were a few stars in the sky, and other than that, everything else was extremely quiet.

Other than Long Chen, the only other thing in this hut was probably the Jiu Chi Han Xing standing in front of him right now. Long Chen looked at Han Yunxing and he was a little dazed because he suddenly realized that he seemed to be different.

There was a huge change in his temperament. Although he wore the same appearance and clothes, he seemed like a beggar just now. But now, he was like a bright star in the sky.

Long Chen quickly saw the difference, and realized that it was his eyes. Originally, his eyes were cloudy, but right now, they were like stars in the sky, dazzling and overflowing with color.

Long Chen was full of respect for martial skills and experts, especially this kind of expert who took care of himself. At the same time, Long Chen was also a little suspicious, what difference did he have to make Han Yunxing treat him like this?

Back then, it was also him who directly sent Long Chen into the True Martial Imperial Palace.

On this point, Long Chen owed Han Yunxing a favor.

So Long Chen didn't say much first, he knew that Han Yunxing definitely had a reason why he brought him here. If Long Chen's guess was not wrong, this place should be his Divine Kingdom.

In the God Nation, Han Yunxing was the god here.

At this time, this beautiful man with bright eyes was sizing up Long Chen, and said: "This year, you are already twenty-three years old, close to twenty-four, right?"

"Yes." Long Chen nodded.

#### Chapter 1118 - Godlike Men

Twenty years ago, when you were three years old, I think Nangong Lie and I encountered a fatal crisis. We were on the verge of dying, and we might even die for sure, but how can we describe the gap between him and I that was saved by a mysterious expert? "Han Yunxing racked his brain and thought for a while before saying," It's just like how I looked up to the current me and you. "

Long Chen was curious, what does Han Yunxing saying have to do with him? It didn't matter.

So he asked, "What does that have to do with me?"

Han Yunxing swept away the long hair in front of his forehead, stared at Long Chen and said: "What is related is that this is the greatest benefactor Nangong Lie and I have ever given us. When we were abandoned by our faith and our lives were the most defeated, he gave us the reason to continue living. It can be said that in our current world, this benefactor is more important to us than anything else, including the True Martial Imperial Palace! "

At this moment, the aura coming from Han Yunxing's body caused Long Chen to feel deep veneration.

"So what does it have to do with me?" Long Chen cautiously asked.

"Yes, it's related." Han Yunxing seemed to have fallen into a trance as he said: "Before he left, we asked about how we could repay him. He said, if one day a youth comes to this place, his name is Long Chen.

Speaking of which, Long Chen's mind went blank, as if he was struck by lightning from a clear sky.

If there was a young man who came to this place, his name would be Long Chen.

These words continuously echoed in Long Chen's mind, because these words could only describe Long Chen himself!

This was something that happened twenty years ago. Twenty years ago, when Long Chen was still only three years old, there was actually one person who talked about his own matters to the two super strong rankers in Three Great Imperial Domains. At that time, Long Chen was only a three-year-old child, a child who didn't know anything!

He even knew Long Chen's personality!

How could Long Chen not be excited!

It was as if his chest was clogged up, and he couldn't breathe, he couldn't even cry if he wanted to. The crystal clear tears swirled in his ears, and it had already been a long time since Long Chen was this excited, if not for him trying his best to hold it in, Long Chen would have charged up to Han Yunxing and asked him, this man, just who was he?

's reaction was something Han Yunxing had predicted. Han Yunxing suddenly laughed, and said: "Indeed, you're right, he is a god like man, he even knows what will happen in twenty years. A three year old child, yet he is actually able to know that he will be a Dragon Fighter in the future.

As he said that, Han Yunxing's eyes also seemed to be filled with tears. He looked at Long Chen, his eyes blazing as he said, "From your tears and excitement, I can already tell, you probably already know who he is. If I say his name, he will definitely know, and it took me a long time to find out the name of this benefactor."

"His name is Long Qinglan right?"

Long Chen wiped the tears off his red eyes, stabilizing his emotions and said with a slightly hoarse voice.

After experiencing so many things, the current Long Chen was already a true man. He could bear with many things, but no matter what, his father was still the weakest part of his heart.

Long Chen's impression of this man was exactly the same as Han Yunxing's. The day that he had the clearest impression of his mind was the final day, when he jokingly told Long Chen that he was going to die, and then, he was really going to die.

Long Chen buried him with his own hands.

If he had not experienced so much and grew so much, Long Chen would not have been able to use such a calm tone to say his name.

"If I'm not wrong, he's your father." revealed a slight smile at the corner of his mouth. His words indirectly confirmed what Long Chen had just said.

That man who came to the Imperial Domain twenty years ago when Long Chen was three years old and helped Nangong Lie and Han Yunxing before, was his father, Long Qinglan.

In Long Chen's memories, when he was three years old, Long Qinglan had already started to become a cripple and became a huge trash. He became the laughing stock of White Yang Town and the target of everyone's scorn.

From this point onwards, Long Chen became a little agitated. This could mean that the father in his eyes was not as weak as he had imagined.

He must be a super expert, and there were a lot of things that were hiding from Long Chen. An ordinary person simply wouldn't have the heaven defying like Mysterious Dragon Jade, and in a small clan's combat skills, there definitely wouldn't be any ancestral dragon blood hidden, and that must have been arranged by someone. This person could only be Long Qinglan.

The figure of this man appeared in Long Chen's mind and was extremely blurry. Long Chen could not even remember what his father looked like, but this blurry person was firmly engraved in his heart.

In this lifetime, Long Chen seemed to have only given him a few fathers.

If it wasn't for the experiences of his childhood, Long Chen wouldn't have such a tenacious personality. It was precisely because he was looked down upon by others that he knew that men could not lack anything when they were finally reborn.

If one wasn't ruthless to oneself, one couldn't be ruthless to others.

Perhaps all of this was part of his plan, just to cultivate his personality.

He left the Mysterious Dragon Jade for himself.

The inheritance blood essence of the Primordial Blood Spirit Dragon, he left behind for himself the thing that would cause the entire Dragon Sacrifice Continent to go crazy.

What else wasn't arranged by him?

Then, there was still the most important question in Long Chen's mind, was he really dead?

Bai Yang Town's death evidently did not seem like it was real, but one could not say that Long Qinglan had pretended to die.

Could that Long Qinglan be some sort of clone? Even Sword Emperor's Sword Emperor had two bodies, let alone Long Qinglan.

However, if he wasn't dead, why would he have given birth to a son, and then give the Primordial Blood Spirit Dragon's blood essence and Mysterious Dragon Jade to Long Chen? A cultivator has billions of years, wouldn't it be better for him to dominate the world?

No matter what, Long Chen hoped that he was still alive.

With a fiery gaze, he looked at Han Yunxing, and Long Chen asked word by word: "Ever since then, has he ever seen him before? Is he still alive? "

Long Chen's gaze of anticipation made Han Yunxing feel somewhat helpless. He bitterly shook his head and said: "I've never seen it before. I also want to ask you this question, but it's obvious that you and I are living in a fog. "The only thing I can tell you is that your father is definitely not an ordinary person. No matter how you look at it, no matter how you look at the path of martial arts, you will still find someone stronger up there."

"In our True Martial Imperial Palace, the strongest is bound to be the True Martial Emperor, but I have never truly seen the True Martial Great Emperor in my entire life. I have seen several experts under the True Martial Great Emperor, but I still have the feeling that even though I haven't fought, your father is still above them. This can be considered as a type of intuition, perhaps it's just an illusion, or perhaps he's more than just a tiny bit stronger. However, he definitely isn't the True Martial Emperor. I've heard the voice of the True Martial Great Emperor, and the feelings I have after hearing it are completely different. "

These chain of words also made Long Chen give up.

But he did not give up.

"If I'm under my father's control and I continue to grow stronger along this path, then one day, I will be able to come into contact with his level. At that time, I will know whether he is dead or not, and if he is still alive, where is he? Why does he want to give me these things?"

Long Chen heaved a sigh of relief. Today's words from Han Yunxing had further stimulated his fighting spirit, causing his entire person to undergo a huge transformation.

From today onwards, Long Chen would not only live for himself, but also have Little Xi. He would fight for Long Qinglan, and Mo Xiaolang, Yang Lingqing, and the others would all be waiting for Long Chen's strength.

It was not easy to reach his current stage.

After being silent with Han Yunxing for a long time, both of their hearts were extremely heavy.

After a while, as if he suddenly remembered something, he interrupted Long Chen's train of thought and said seriously: "Back then, I was willing to be a slave to my benefactor, but he politely rejected it. He told me, if you could come in the future, then let me and Nan Gong Lie properly help you.

Speaking to this point, Han Yunxing knelt on one knee. He was normally like a madman, but this was the first time he was so serious. Your orders are to follow my orders, to go through fire and water, to not refuse! At the same time, I spoke up for Nangong Lie. "Even though this guy is simple-minded, his fanaticism for his benefactor far surpasses mine."

Long Chen blushed with shame, he did not expect this situation to happen, and immediately helped Han Yunxing up, and Long Chen quickly said: "Senior, please get up first."

After helping him up, Long Chen felt a slight headache. With this kind of strong warrior protecting him, he would definitely become a gold medal for life. It was an extremely good thing, in the future, in True Martial Imperial Palace, Long Chen would definitely be able to do whatever he wanted.

However, was not used to having such an expert take him as their young master, act humbly while he commanded others to do so. With his personality, he also rejected the possibility of such a thing happening.

He was very clear in his heart that if he wanted to keep Han Yunxing at a distance from him, he would have to pretend to not know him in the future. Don't call him Young Master anymore, he definitely wouldn't agree.

## Chapter 1119 - The Child of Heaven and Earth

Protecting Long Chen was something that Long Qinglan had instructed him to do, and to Han Yunxing, this was something that could not be changed, it was the truth that he followed. Furthermore, Long Chen had also accepted the other party's help, this was an extremely good thing for him.

However, the form had to change.

At this time, Long Chen said: "Senior is older than me, I will call you Uncle Han. You are a senior and I am a junior. You can just call me by my name. If my father truly favors you, that is also my father's matter, and it doesn't matter much to me. However, since Uncle Han is willing to help me in the future, I am also very willing to accept it. Is that good? "

Of course, Han Yunxing wasn't the kind of person who would become bashful and shy just for the sake of etiquette. He suddenly laughed and said: "To be honest, if you really treat yourself as your father, and ignore our feelings and command a round without any effort, and disrespect us, we, your benefactors, will definitely teach you a lesson. But I knew you weren't like that. No matter what, in the future, as long as Nan Gong and I are present, no one will be able to touch you, even if you are in True Martial Imperial Palace. "

's last sentence was enough.

Long Qinglan established this strong relationship for Long Chen twenty years ago, one that couldn't be destroyed by anything.

Han Yunxing had already observed Long Chen for a period of time and understood his personality very well. In time, the brat would become a god-like man like Long Qinglan, and it would be within reach.

"Today is the day I've been the most talkative in the past twenty years. If it wasn't for you, I wouldn't have said so much." Looking at the stars outside the window, Han Yunxing felt some regret.

"No matter what, I have to thank the Uncle Han for protecting me. This has nothing to do with my father, the friendship is my own, but the cultivation is also my own. In the future, when I train, I will temper myself even more." Speaking to there, Long Chen didn't need to say anymore, he would just be boasting if he said too much.

Work hard, as long as he could see it for himself.

What Long Chen meant was that in the future, he might not need the two of them to protect him at all times.

"We will be your solid support, young man. Courage and adventure." Han Yunxing smiled faintly. From Long Chen's body, he could see himself back then.

With the sudden appearance of two more powerful practitioners protecting him, Long Chen had a dream-like feeling. He, who had always been like duckweed, now seemed to have a foundation today. With these two uncles, he could truly roam around True Martial Emperor Domain to his heart's content! From today onwards, there would be nothing to worry about.

With two firm backing, from today onwards, Long Chen would unrestrainedly raise his own strength. His progress, would not slow because of his high level!

The two of them stood under the window and casually chatted. The main reason was because Han Yunxing was asking Long Chen about some of his experiences.

Long Chen explained everything briefly. At the beginning, when he talked about Long Qinglan, Han Yunxing seemed to have thought of something, but when he talked about Ling Xi and her wife, and his brothers, Han Yunxing's brows revealed a deeply moved and praising look.

"I never thought that our lives would be similar. Nangong, this reckless fellow, is my brother for life. We risked our lives for 7000 years. If not for me, he would have died long ago. If not for him, I would have died long ago." "This brother's friendship is the best gift the heavens have ever given to me, and on the other hand ..."

As he spoke till here, Han Yunxing lowered his head, his expression a little lonely, and said: "Everyone has their sad past, right? I wasn't very ambitious before, so when the woman I love left me, and I became a strong warrior, I couldn't find any more news of her. I used a thousand years to search for her, but in the end, I found her grave."

This Han Yunxing, his thoughts were many times more meticulous than Nan Gong Lie. Long Chen felt that this man had a story and a goal. He had pursued love for more than a thousand years and even today, he had yet to give up.

"No matter how strong a person is, he still can't defeat Samsara."

Han Yunxing closed his eyes and all of a sudden, the corner of his mouth hooked up. After a long while, he said: "I really envy you. The woman you are chasing after actually has such a high status. Such a good girl, you should work ten thousand times harder to kill off the Sword Soul Imperial Palace. When the time comes, Nan Gong and I will be your strong arms. In the past, I was too obedient, so I regretted it for the rest of my life. I really look forward to that day. Don't let me down. "

"Don't worry." Long Chen smiled. When he rushed towards Sword Soul Imperial Palace, he would definitely bring Han Yunxing along to let him know that Long Chen was Long Qinglan's son. There was nothing he couldn't do.

"Talk about something else." Han Yunxing's gaze shifted away from the window and landed on the center of Long Chen's brows. He suddenly said, "A thousand years ago, the True Martial Emperor personally sent a sound transmission to the entire Sword Soul Imperial Palace and they were able to hear it.

Long Chen's heart trembled.

All of this was within Han Yunxing's expectations. He looked deeply at Long Chen, and said: "I never thought that this thing would actually be in your hands, I can see that you can use this thing to analyze other people's martial arts and raise your own cultivation when fighting with them. However, what the True Martial Emperor wants to retrieve through sound transmission should be more than just that. Speaking of which, this thing belongs to you and others can't take it away, but it is indeed a troublesome matter. "

Hearing that Han Yunxing did not have any intentions of taking it away, Long Chen could be considered relieved. From this, it could be said that Han Yunxing's loyalty to him far surpassed his loyalty to True Martial Imperial Palace.

He frowned as well. This was indeed a troublesome matter.

"But you don't have to worry for now. Among the War God Palace, there are less than ten people who can see that you have this thing, and I am one of them. I actually don't know what this True Martial Emperor's Soul is, but I can feel the existence of this thing on your body. Nangong could not tell. As long as you don't enter the War God Palace for the time being, it won't be a problem. Moreover, it's not meant to be used in battles. It's not a problem to let others see it. In the future, I'll think of a way to cover it up for you. "

"Thank you, Uncle Han."

Long Chen was so frightened that he broke out in a cold sweat. If he didn't know anything, if he had hastily entered War God Palace and used True Martial Emperor's Soul in front of everyone, then there

would definitely be a huge problem. True Martial Emperor's Soul was Long Chen's biggest reliance in quickly levelling up.

In fact, I'm also not very clear on this thing, but to be able to increase the speed of one's martial arts cultivation, the effect is much better than the 'Purple Demon Moon Diagram' from before. This is definitely a heaven-defying treasure, and once I return to True Martial Emperor wants this thing, then I'll think about it with Nangong.

Long Chen nodded.

When you enter the Third Stage of the Divine Martial Realm, I can even give you a hand. The Dragon Fighter's bloodline, the Scarlet Blood Heavenly Desolate, and the Sword Fighter's Sword Soul can actually increase your fighting strength to such a degree, it's really shocking, your identity as a Dragon Fighter is actually just a guess, what caught my attention first is actually your name. There aren't many people who look like him and are called Long Chen. " Han Yunxing said.

"Help me reach the celestial realm?" Long Chen asked somewhat excitedly.

He was indeed an expert, and his methods were so heaven-defying.

"Right."

Han Yunxing smiled faintly, "With your current cultivation, completing the mission in the competition will not be easy. Adding a little more would at least give you some strength to protect yourself, if Nan Gong and I were to stay by your side at all times, it would also affect your cultivation."

Long Chen nodded. It was this question.

When Han Yunxing did something, he was equally swift and decisive. After he finished speaking, he immediately demonstrated to Long Chen: "This is the so called oneness of man and nature, the heaven and earth, the parents of all living things, the one with one. It is like asking one's own parents for power, the key to celestial realm, is to use your consciousness to communicate with this world. Even at my current level, while we are fighting, I am also channeling Emperor's spirit energy, but much more than you guys, we are still using the martial will. "

"You must remember one thing, every realm of the Divine Martial Stage is useful, the stars form the meridians in the body, the second stage is when the consciousness is born, then man and nature become one, warriors have the channel of communication with the heavens and earth, then they will

reach the peak of martial arts, they will have the martial will, and the martial will, will become the key to the will of the world in the later stages of the Seventh Stage of the Divine Martial Stage. At the same time, the Wind Fire and Thunder Tribulations, will completely unearth the power of the innate constitution.

"Heaven Man Unity is also the key to communicate with Heaven and Earth, to form the martial will into the will of Heaven and Earth. Even when establishing the Divine Kingdom, you have to communicate with Heaven and Earth!"

"The world is the peak existence of this world. We are all the sons of heaven and earth, or chess pieces. Our power comes from the world in the end!"

Han Yunxing's words had greatly helped him. It could be said that it had broadened his vision and allowed him to see a very long path.

Your path is a path of death, which is different from mine. Therefore, you have to communicate with the killing will of the heaven and earth in the midst of slaughter, causing the torrential floods, earthquakes, volcanic eruptions, these are all the most violent slaughters in the world, the most brutal world is your target, and if you want to achieve Heaven and Earth Unity, you have to become a part of the world. You have to break through and enter the situation first.

Han Yunxing's words were enlightened, and Long Chen suddenly realized.

#### Chapter 1120 - celestial realm

On the road of martial arts, if there was a truly strong senior who explained it all to Long Chen, it would also be a fast way for him to improve. It was precisely because all of those genius experts in the War God Palace had their own master to teach them, that they were able to far surpass other people's strength.

Han Yunxing's explanation and guidance, to Long Chen, was not compared to the True Martial Emperor's Soul. It was another way for him to comprehend the martial way, after all, Han Yunxing was someone who had passed through the past. He was already standing at the peak of the Divine Martial Stage, with a cultivation level of a few thousand years.

The path of killing.

He comprehended martial dao from the slaughter.

Back then, Han Yunxing had also walked down this path before, but this path was not the most suitable for him. However, with his current cultivation, it was enough for him to explain to Long Chen what the true meaning of celestial realm was!

Heaven Man Unity!

With the heavens and earth as his parents.

These words were something that Long Chen could not comprehend from the fight, and the True Martial Emperor's Soul could not give him. If Long Chen had been using the True Martial Emperor's Soul, he estimated that he would need a very long time to comprehend this path, and truly reach the Third Stage of the Divine Martial Realm.

But it was different now.

What Han Yunxing had said, was imparted to him as a part of what the True Martial Emperor's Soul could not bring to him.

"On the path of martial arts, especially after one reaches the Divine Martial Stage, they can be considered to have truly stepped into the next realm. Right now, you can only be considered to have entered the initial stages of the Martial Arts Hall. Martial arts and the higher level heavenly laws are mutually compatible. Only when one cultivates the martial way well will one be able to cultivate the next Heavenly Dao. Of course, this is still very far for you. "

"In the True Martial Imperial Palace, I'm talking about the War God Palace, that's the real True Martial Imperial Palace. In the eyes of the people in the War God Palace, the three thousand great halls are just an outer sect. If one doesn't enter the War God Palace, it's absolutely impossible to come into contact with the core and essence of the real True Martial Imperial Palace. In the War God Palace, Master will always give lessons for disciples, and there will even be special lectures, for martial skills are far from being as simple as you imagine. In the midst of martial arts, there will be countless complex and obscure information, and what is more necessary is your own comprehension.

As he said that, Han Yunxing actually began to demonstrate for Long Chen.

"You can feel the connection between the heaven and earth and my minute movements. "How did I transfer the Emperor's Spiritual Qi? These methods are extremely important to you!"

In front of Long Chen, although Han Yunxing's movements were extremely slow, he was able to complete his goal of transferring the Emperor's spirit energy. This was a rare chance, so Long Chen immediately focused his mind, the ancestral dragon blood had brought him back, along with countless times the comprehension ability of an ordinary person. Compared to others, he was more like a favored child of the martial way.

Han Yunxing did not speak, but Long Chen immediately felt that his entire person had disappeared before his eyes, and was assimilated into the world. Only those one movement after another, and most importantly, the feeling of those movements, was firmly memorized by Long Chen.

"One with the world, that's what it means to truly enter Divine Martial Stage. At the end of the day, when you comprehend the martial way, your talent and foundation will be countless times stronger than others. Your comprehension ability is also the same, so make good use of it."

While Han Yunxing was narrating, Long Chen watched his detailed disintegration movements, and gradually, he had already entered into a state where he was completely immersed, with only Han Yunxing's movements remaining in his mind. This man's every move, was firmly engraved into his memories.

The power of this world was at his disposal.

With him as the center, a Field was formed in this world. It was completely under his control, and this was his territory. Long Chen gained enlightenment and stretched out his hands. He used the power of his soul to sense the existence of the emperor's spirit.

The Divine Martial Spirit was everyone's core, and also the bridge between Long Chen and the Heaven and Earth.

Long Chen closed his eyes. He already had a lot of confidence in himself.

This part of the world belonged to him.

Han Yunxing was a very competent guide, explaining and guiding at the same time. After half a day had passed, he suddenly realized that there was movement from Long Chen's side, as a tornado formed by emperor's spirit energy was surrounding Long Chen.

Han Yunxing laughed. As expected of that man's son, even if he could comprehend power, he would still be extraordinary.

"If this continues, in a while, he will be able to break through the Third Stage of the Divine Martial Realm." Han Yunxing stopped what he was doing, his eyes revealing a look of satisfaction.

Long Chen was transforming step by step. At this time, it was as if he had fallen into a cradle, and also as if he was in warm water. The emperor's spirit energy around him swam around excitedly, and it was within his reach, like a group of joyous spirits. In this place, however, Long Chen felt a sense of reverence, as if he was facing his own parents.

had almost mastered the essence of celestial realm by now and his Divine Martial Spirit was currently undergoing a new round of transformation. As long as he finished his transformation, he would be able to successfully reach the Third Stage of the Divine Martial Realm.

"Let me help you."

Under Han Yunxing's control, a large amount of emperor's spirit energy rushed toward Long Chen within the God Nation and was turned into Dragon Blood and Divine Energy by him into Dragon Blood and Divine Energy, which then stored into the innumerable acupoints in his body. The one hundred million acupoints frantically devoured the energy, strengthening Long Chen's body. The current Long Chen, in terms of primordial spirit s, after experiencing ten thousand times amplification, had already reached the same level as his Fifth Stage of the Divine Martial Realm.

The Sword Fighter had an increase in strength by ten times. In addition to his extremely powerful super body, there was also the Scarlet Blooded Sky Desolate Demon Dragon's horn. It was likely that Long Chen could even fight against a warrior with the supreme body of the Sixth Stage of the Divine Martial Stage.

Of course, it was not that simple for Long Chen to reach the Third Stage of the Divine Martial Realm. Other than the range of his spiritual sense being over a hundred meters, he also had the ability to control the spiritual energy of the Emperor of Long Chen so that he could use the power of the Emperor

of Long Chen's spiritual energy to reduce his own consumption and increase his endurance in battle. This was another method that he had awakened.

That was the domain.

Only when one reached Third Stage of the Divine Martial Realm would one's domain finally take shape, just like the Su Family's purple flame domain before.

Possessing the bloodline of an Ancestral Dragon, the domain that Long Chen had awakened was related to the Devouring Blood Realm. The Devouring Blood Realm could be said to be the enlarged version of Blood Refinement Qi, but when Long Chen reached celestial realm, he could control the surrounding domain and control it to a different degree.

"Originally, Devouring Blood Realm used primordial spirit. If the opponent's primordial spirit was far stronger than the user, the effect of the Devouring Blood Realm would not be obvious, but it is different now. "My upgraded Devouring Blood Realm can actually reach such a heaven defying level!"

Honestly speaking, even if it was Long Chen himself, he was also in an extremely strong realm. He never thought that his own domain, when combined with the Devouring Blood Realm s, would have such an effect.

When Long Chen fought, as long as he activated the Devouring Blood Realm, he would be able to constantly absorb the other party's blood. This tiny amount of blood was irresistible, unless his strength surpassed Long Chen's by a lot, otherwise, as long as he fought with Long Chen, his blood would gradually enter Long Chen's body, and Long Chen would refine his blood and Qi, and become the Dragon Blood and Divine Energy.

As a result, at the same time Long Chen's Dragon Blood and Divine Energy was being depleted, there would be a way to recover. As for his opponents, the longer they fought with Long Chen, the less blood he had, and even though Divine Martial Stage warriors had huge amounts of blood, which was comparable to Spirit Demon beings, it was still not enough for Long Chen to absorb, right?

If their strengths were equal, meeting Long Chen would be very dangerous, because Long Chen would constantly devour his opponents' blood and strengthen himself, while his opponents would become weaker and weaker!

This sort of domain seemed unremarkable, but it actually had a heaven-defying effect!

This was the result of Long Chen combining his control over his own domain with the Devouring Blood Realm.

When Long Chen was as strong as an Ancestral Dragon, covering half of her Devouring Blood Realm, at that time, just by swallowing, he would cause billions of deaths, filling his own strength up. Along the way, the Devouring Blood Realm had also brought Long Chen a lot of victories, but now, the Devouring Blood Realm had gained a new round of improvement!

Long Chen was ecstatic!

This way, his battle endurance would further increase, and it might even become an enemy's nightmare!

Upon reaching the celestial realm, one would think that Long Chen would absorb three-tenths of blood essence. At this moment, another tenth of the Primordial Blood Spirit dragon essence blood would enter Long Chen's body, and the blood that was filled with bloodshed and killing intent would turn into streaks of blood colored divine dragons, reaching into every corner of Long Chen's body.

This terrifying aura that originated from the Ancient Desolation scared Han Yunxing by retreating two steps. His face was pale as he muttered: "Is this the dragon's inherited blood? It seems like the young master doesn't have the energy to completely absorb the inherited blood essence. This inherited blood essence should be something he left for the young master.

Han Yunxing was experienced and knowledgeable, but he had never seen such a terrifying inherited blood essence. Even the current him felt weak and powerless.

In Han Yunxing's heart, Long Chen was his Young Master. This could not be changed.

The ancient Qi formed a blood cocoon around Long Chen, causing him to immediately slip out. He knew that if he absorbed more Inherited Blood Essences, Long Chen would definitely undergo a transformation, and the opponents that he could not handle before would now be dealt with.

At that time, perhaps Long Chen would truly become strong.

It could be said that Long Chen had way too many things on him. If Han Yunxing was his enemy, his heart would definitely be moved. If people from the Crimson Sky Kingdom knew that the value of this item surpassed that of the level eight divine sword, the Clear Sky Sword, there would probably be many people fighting over it.
