

## War God 1731

### Chapter 1731 - Su Yuyao

This inheritance would take a very long time to complete, so he wanted Miss Yao to stay here. Once the effects of the Sea Frog Poison in her body wore off, it would be a disaster, but when Ling Xi was accepting the inheritance, Long Chen came to Miss Yao's side.

"What's your name? Why are you called Miss Yao?" Long Chen had nothing else to ask.

Miss Yao's gaze was cold as her chest heaved. She was obviously trying to conceal the fear in her heart.

"Su Yuyao." The other party replied coldly.

"Then wouldn't there be another Su Yuji?" Long Chen acted as though he was not paying attention and asked.

Su Yuyao coldly said, "Could it be that you know my sister?"

Long Chen laughed: "Who doesn't know of Miss Ji's big name?"

It turned out that the woman who had lost her Psychic Snow Dog was her elder sister. It was just that her luck was bad. She had just become enemies with Su Yuji, and now she wants to become enemies with you, Su Yuyao.

While speaking, he walked over to Bladeriver's corpse and picked up Cymbidium's tongue that was stuck on his abdomen. After pulling the tongue out, he discovered that there was still a lot of poison at the tip of the tongue, and it did not flow into Bladeriver's body.

With the power of rebirth, Long Chen gathered the venom and formed a small droplet of water that was around two centimeters in diameter. He held the venom ball in his hand and walked towards Su Yuyao.

"What are you going to do?" Su Yuyao struggled to retreat backwards as she looked at the Sea Frog Poison in Long Chen's hands in fear.

"This venom is really powerful. It can even make warriors of your level unable to move." Long Chen could not help but say with a sigh.

In reality, if he could kill the other party, he probably wouldn't hesitate at all.

After all, the opponent wanted to kill him as well.

Ling Xi didn't know how long she would have to pass on her legacy, so she could only use this method to deal with her. Without saying a word, he walked up and used her fingers to pinch her face, and then pried open her mouth.

After finishing, Long Chen let go of his finger.

Su Yuyao stooped down and vomited in pain, but she was still unable to spit out the poison. Her face turned ghastly green, and the amount of Sea Frog Poison that rushed into her body this time was even greater than last time. Her entire body trembled, and she wished she were dead.

She kept retching until she leaned against the wall.

"No matter what, you're dead." Su Yuyao suddenly became very cold and detached, but she became even more frightening.

"Based on the current situation, I estimate that you will need eight hours to completely remove the poison?" Long Chen calculated before saying: "You should stay here, we are cooperating together, don't shout and kill me, I'm just letting you stay here quietly for a while, if not, will I kill you while waiting for you to recover?" With that, he returned to the side of the White Array.

Su Yuyao's eyes were gloomy, filled with endless hatred and malevolence.

Long Chen knew that the killing intent this woman had for him had reached an unresolvable degree.

But, as long as Ling Xi accepts the inheritance, he would bring them far away. With his Time Traversing Dragon, who could catch up to him?

Everything was under his control.

"I hope that Lil 'Xi can finish it within eight hours. Otherwise, I really cannot treat this woman." Long Chen's gaze passed through layers upon layers of White Array's immortal qi and looked at the lady standing in the center of the White Array with the eight great heavenly swords surrounding her. Her black hair moved to the side, her skin was as smooth as milk and her beauty capable of toppling nations.

"Xiao Xi is so wonderful, no wonder when I look at other women, I feel that there's a huge gap between them."

Ling Xi was as beautiful as a goddess from the very beginning, but after Goddess Su had awakened her blood, her beauty had not changed in any way, but it had become more and more beautiful. Her pure and tranquil temperament was just like the most beautiful virgin in the legends, something no one could compare to.

Her perfect body had attracted Long Chen's gaze, and it made Long Chen feel as if he was infatuated.

In these few days, there were other people in the God Kingdom, so it was not good to 'cultivate' with Ling Xi. Once things stabilized and no one chased them, Long Chen would be able to let them leave the Divine Kingdom. When that time came, they would be able to live in their own world.

It seemed like he had come to the Immortal God Realm to fight.

At this moment, he seemed to finally be able to heave a sigh of relief.

was sincerely happy for her to be able to obtain such great benefits.

The inheritance of the Misty Sect all gathered on her Immortal Sword Dao Seal. Gradually, her Immortal Sword Dao Seal took shape, and the eight great Heavenly Swords became more and more proficient under her control.

Ling Xi closed her eyes and floated in the air, her long hair fluttering, her long skirt swaying, like a goddess.

The killing intent of the eight Heavenly Swords flickered as they circled around her. The immortal energy condensed into a large number of flowers that floated around her. Every petal of the flower condensed with the dao of the Misty Sect, and in the end, all of them entered Ling Xi's body. As the inheritance continued, her temperament and so on were all changing.

From a virgin's gentleness and purity, to an increase in Sword Fighter's righteous killing intent!

After today, she would become a peerless swordsman.

This kind of Ling Xi made Long Chen even more obsessed.

Seeing her beauty get more and more powerful with his help, Long Chen's heart was filled with a sense of accomplishment. This also proved how capable and powerful he was.

It was a belated gift.

As the inheritance continued, the shiny glow of the White Array dimmed a little. In the corner, Su Yuyao was also trying hard to recover. If she recovered, she would probably be able to interrupt the inheritance.

Inheritance was only a change in talent, it could not immediately allow Ling Xi to have the power to surpass them.

After around six hours, Long Chen started to become nervous, and was on his guard against Su Yuyao at all times. However, at this time, the White Array's light was dim, and with a tremble, the white monument burrowed into the ground, and the light around Ling Xi who looked like a goddess also started to dissipate, the eight heavenly swords disappearing from her fingers.

Aside from the thumb, on every slender, pure white finger was a small, beautiful sword. The words could be vaguely seen on the small sword.

Ling Xi extended his hand out and clenched it, and the Sword Qi immediately surged.

Seeing this scene, the kitten laughed again, and said, "I really look forward to the scene when I saw my big brother having a secret affair, only to be caught by Big Sister Ling Xi, and then to be able to cut off my little brother with a sword!"

The Sword Qi that was being blown around in Ling Xi's hands had indeed left him speechless.

Very strong, even if Ling Xi were to use it, it would be able to pose a great threat to her current self.

Ling Xi gradually opened her eyes. When she opened her eyes, she could also see the sword qi surging, with murderous intent filling every corner. It was only after seeing Long Chen that it turned into wireless and gentle.

She returned back to her original look, walked in front of Long Chen and knocked her head and said: "It's so painful."

"What's wrong?" Long Chen hugged her with a bit of heartache.

"There's too much information regarding the legacy. It's all squeezed into the Immortal Sword Sect's Dao Seal now. It looks like I'll have to digest it for a while." Ling Xi said softly.

"This is a good thing. Do you know how to leave this place?" Long Chen knew that time was of the essence, hence he hurriedly asked.

"I can open the door, but it seems that the moment I go out, the Giant Thunder Beast of the Ninth Heaven will descend." Ling Xi said with a slight headache.

Nirvana Tribulation!

Hearing that, Long Chen's heart tensed up, and he immediately asked: "Are you confident?"

Seeing him so concerned about himself, Ling Xi giggled with incomparable beauty and said, "Of course, I'm very strong now, a mere Nirvana Tribulation like this would not be too hard for me. After crossing this level of Giant Thunder Beast of the Ninth Heaven and supporting the inheritance of the Eight Heavenly Swords and the Misty Sect, I can help a lot in the future."

Long Chen believed this.

The Misty Sect was comparable to an ancient city of God's descent. Even if they were destroyed, they wouldn't necessarily be poor.

"This girl still has about two hours to recover. Let's leave quickly and go out to face the Giant Thunder Beast of the Ninth Heaven. We'll leave then." Long Chen instructed.

"Alright."

There was no time to lose.

"What's your name!" Just as Long Chen and his group reached the door, Su Yuyao shouted coldly.

Long Chen asked for her name, and now that she asked for it himself, he was about to leave the War God's Ancient City. Long Chen was originally wanted outside, so he replied: "My name is Long Chen, remember it well."

"Long Chen? I'll remember." Su Yuyao struggled to get up from the ground.

Ling Xi gently tugged on Long Chen's clothes, and said: "If I were to open this door, even if this door connects to the cave, it will automatically be destroyed. At that time ..."

"It's fine. This woman won't be able to move for at least an hour. Once you've crossed the fifth stage of Nirvana Tribulation, we can leave immediately."

Amongst this group of people, Ling Xi's true realm was actually the highest.

Long Chen also only had two stages of Nirvana Tribulation.

"Yes."

Ling Xi nodded her head, she was the controller here, to open the door, she only needed a command.

The Bronze Gate shattered into pieces.

The entire cave began to crumble.

As for Su Yuyao, although she had been buried here, it would be very easy for her to leave once she recovered.

When the cave shattered, Long Chen left the cave. When he turned around, he saw a pair of eyes filled with extreme hatred inside the cave.

"The blow you gave her should be quite heavy, right?" Ling Xi looked inside with some sympathy.

Long Chen shook his head and said: "You don't understand this kind of person. If I kill her, I definitely won't hold back. If I don't act carefully, she will definitely bring about a fatal crisis for us. "Let's go."

The Giant Thunder Beast of the Ninth Heaven was about to descend, and it was taking advantage of the time before the matter here had been discovered that it was about to pass through this major calamity, enter the state of Time Traversing Dragon, and escape from the War God's Ancient City. Even the Ancient City of Dark Underworld was not Long Chen's goal, Long Chen was going to a place near the Demon God Area. Stay away from here.

After moving about fifty kilometers, the Giant Thunder Beast of the Ninth Heaven suddenly descended.

Long Chen could not help but heave a sigh of relief, Ling Xi's Giant Thunder Beast of the Ninth Heaven was not even a quarter of her original size.

#### Chapter 1732 - Unexplained Crisis

"Brother Chen, don't worry. I will definitely be able to pass through this crisis." After going through the Misty Sect's inheritance, Ling Xi had become a little different. She should be more confident now.

With her potential and talent, coupled with the cooperation of the Nine Hell Illusory Butterfly, she would definitely grow into a terrifying fighting strength in the future. It could be said that as long as she followed Long Chen, her future would be limitless.

They planned to stay at the bottom of the River of the War God's River. They planned to endure the Giant Thunder Beast of the Ninth Heaven tribulation. There were many dire beasts at the bottom of the River of the War God's River.

But for some reason, Long Chen felt that he was slightly uneasy, as if he was missing something.

"Could it be that Su Yuyao?" The last moment of her resentful gaze appeared in Long Chen's mind.

It was something that could only be displayed with extreme hatred. Perhaps it was the look Feng Zhiling had given him at the beginning, but it had changed. However, Su Yuyao's resentment was far greater than Feng Zhiling's hatred.

Long Chen didn't have any good impression of this kind of woman.

No matter what, the matter of Ling Xi going through the tribulation was an accident. To escape quickly, Ling Xi had to stay outside the Divine Kingdom because she had to undergo the tribulation. Long Chen could escape by herself using the Time Traversing Dragon, but Ling Xi could not.

While he was thinking, the bottom of the river suddenly lit up with a terrifying rumbling sound as the sky above him descended with a loud rumble. A gigantic lightning beast from the starry sky crashed down and charged into the Martial God Astral River, instantly causing a large amount of river water to splash out.

Roar!

The Giant Thunder Beast of the Ninth Heaven roared loudly.

The water rippled, and a large amount of lightning swam across the surface of the water, turning the entire area of countless miles into a sea of thunder. If any Divine Martial Stage warrior were to fall into this area, they would probably be charred by the electricity.

Within his field of vision, all he could see were electric snakes soaring in the water!

The Giant Thunder Beast of the Ninth Heaven from the starry sky started to fight intensely with Ling Xi.

Long Chen had no choice but to worry for Ling Xi, but seeing that Ling Xi was able to handle it calmly and gradually use the inheritance power of the Misty Sect, Long Chen was a lot more at ease.

It would take about a quarter of an hour.

It was much easier than when Long Chen had gone through the tribulation.

Ling Xi should be able to pass through this stage of Nirvana Tribulation before Su Yuyao recovers.

Right at this moment, the ominous premonition in Long Chen's heart grew even stronger. He suddenly remembered that last time when Miss Ji was traveling, she had a total of eighteen divine dragons guarding her.

If Su Yuyao's identity was the same as hers, would she have a guardian following her?

"I don't think so. If not, I would have followed Su Yuyao into the cave." Long Chen comforted himself.

And at this time, the battle between Ling Xi and the Giant Thunder Beast of the Ninth Heaven, had completely held the upper hand.

Just at that moment, countless terrifying Qi swept over, in that moment Long Chen felt as if his entire body was being sliced by blades, it was extremely cold. This was definitely the gaze of an expert!

An accident!

Long Chen instantly became alert.

But it was too late.

When he raised his head, he saw that there were eighteen gigantic dragon heads in all directions, each of which was more than a thousand meters long!

Half of the divine dragons were pure gold in color. They looked like dragons cast from gold, and their bodies were incomparably hard.

The other half of the divine dragon's body was black, like a devil in the dark, sinister and terrifying, extremely vicious!

These eighteen divine dragons suddenly appeared like this, surrounding Long Chen and sealing all his escape routes.

Those were the Azure Dragon and Red Dragon, while the ones in front of him were the Gold Dragon and Black Dragon, both of which were of low level. However, their cultivation realms were quite high, and all of them were probably close to the tribulation of reincarnation, which made them at least stronger than Cymbidium and the others.

If Ling Xi had not gone through the tribulation, the other party might not have been able to find him, and she had disappeared into the river of time.

However, at this time ...

This huge change in events confirmed the foreboding feeling in Long Chen's heart.

At this moment, he almost suffocated. Even a fool would know that this was definitely a dangerous situation. Before one wave had even calmed down, another wave had occurred. Long Chen was able to rely on his intelligence to obtain the eight Heavenly Swords, but under such a situation that he was at death's door, he was unable to escape ...

It would have been fine if he was alone, but at this time, Ling Xi's Giant Thunder Beast of the Ninth Heaven tribulation, had only just passed through half of it.

"Long Chen!"

A familiar but sharp voice came over.

The eighteen divine dragons turned into eighteen majestic elders, narrowing the encirclement and surrounding Long Chen and Ling Xi. With their strength, they could control the surrounding area completely.

Next to one of the divine dragon elders was Su Yuyao, who had a ghastly pale face and a sinister smile. Under the support of the old man, she barely managed to stand. The girl who was looking at Long Chen with despair in her eyes a moment ago was now incomparably excited. She stared fixedly at Long Chen, and somewhat lost her composure, and said in a stern voice: "I have to say, your luck is really bad, this woman is actually going to undergo Nirvana Tribulation at this time, and the guard that my father prepared for me just happened to come out to look for me, to find the cave nearby! You can only blame your bad luck. If you have the guts, let me see you escape now. "

When they were in the cave, she had sworn to never let Long Chen leave here alive as long as she had the chance.

No one can be proud of the fact that it has been thirty years.

This time, Long Chen's luck was bad, these eighteen Divine Dragons were coincidentally nearby. Even if he killed Su Yuyao in the cave, because he needed to undergo tribulation, Long Chen would still encounter the current situation.

This could also be fate.

Su Yuyao had already recovered most of her health. She clenched her teeth and steadied herself, recovering before looking at Ling Xi and saying, "What a wonderful woman. When she succeeds in her tribulation, I'll make you suffer."

Sure enough, she really hated herself.

Her desire for revenge was stronger than anyone else's.

In the God Kingdom, everyone's faces had already changed.

The kitten said in a speechless manner, "Dead. I touched this woman's breasts. If I were to be caught by her, my hands would probably be chopped off."

Su Yan's face was filled with fear.

Only Mo Xiaolang was still able to stay calm. He said, "Big Brother, there is no other way, we can only fight with our lives on the line. This was a great calamity. I'll fight with you guys. "

Long Chen shook his head.

He could only wait in the silence and see if there were any other methods. After all, while Ling Xi was undergoing her tribulation, they did not wish to interfere on the side. If they were to provoke the wrath of the Nirvana Tribulation, it would not be good.

"What should I do? What should I do?"

To be honest, Long Chen himself was in a dilemma.

In the middle of the encirclement, Ling Xi was also aware of the situation here. What made Long Chen gratified was that she was still able to perform normally, and with a little bit of help from the eight heavenly swords that she still could not control, he was able to defeat the other party step by step.

"Just surround her and let Long Chen escape. I want to see where he can run to." Su Yuyao had gained power now. She would not be polite if she did not torture Long Chen to death and ask for everything that had happened to her to be returned to him.

She clearly remembered that in the cave, Long Chen schemed against her to seriously injure her and then personally feed her that disgusting venom, and even had a wretched child insult her ... ..

The third type of enmity, wouldn't stop until one of them was dead.

They had squeezed out of the encirclement around Long Chen, and then encircled him. From what Su Yuyao had said, Long Chen possessed a supernatural ability that was similar to Shadow Cloak s, and his ability to escape was extremely strong.

This was a dead end.

Mo Xiaolang also realized that there was no chance of victory in this battle. If everyone was going to die, Mo Xiaolang would rather die together with them. That would be the best outcome of all.

The Immortal God Realm was powerful and cruel. After coming here and experiencing so many life-and-death battles, they had understood this principle.

Long Chen was still restraining himself.

He would not choose that road of no return unless he had no other choice.

Very quickly, the other party was in control of Ling Xi's movements.

"Why aren't you running? Are you going to watch me kill her?" Su Yuyao said coldly.

Long Chen said: I've offended you, it has nothing to do with her, can you target me?

Su Yuyao laughed coldly and said, "To you? Wouldn't that be letting you off too easily? I am a woman, not a man, I am the narrowest, I know that to a person like you, physical harm is nothing, the pain of the soul is only a blow, you hurt me, I want to return it to you double, I want to see, how much do you love her? "

There was a saying that was called 'Only a vile person and a weak woman are hard to raise'.

Su Yuyao was such a woman.

Long Chen bit his lips, as the other party had almost forced him to his death.

If he begged for mercy, the other party would look down on him even more.

"I won't retaliate. I'll let you torture me. Let her go." Long Chen said helplessly.

After saying this, he wanted to shut his mouth, because Su Yuyao didn't take this lying down.

She suddenly shouted crazily, "Cut the crap, I'm going to kill her right in front of you! I'm going to take out her heart and let you eat it!"

"Are you still human? Your humanity?" Long Chen's expression became colder and colder.

"You ate it." Su Yuyao giggled. Having changed back into her fiery-red dress, she appeared both seductive and cold.

At this time, Ling Xi held onto the two heavenly swords and unleashed a sword technique from the Misty Sect, ripping the Giant Thunder Beast of the Ninth Heaven apart. All of the Nirvana Qi was swept into her body, and her body began a new round of transformations, truly reaching the level of the great Emperor of the Three Regions Nine Realms!

Turbulent sword intent exploded from her body, and wherever it went, water would gush forth.

## Chapter 1733 - Thousand Mountain Twilight Snow

If the previous battle could be said to be on the eve of a storm, then Ling Xi's successful tribulation right now was the moment of the storm's assault.

It was obvious that to the eighteen divine dragons, even if it was a Giant Thunder Beast of the Ninth Heaven, they would not dare to carelessly touch it.

"Brother Chen" Ling Xi slowly opened her eyes, her body had transformed into a Nirvana Rebirth once again, and he had reached an extremely deep realm. That stern sword intent, the eight Heavenly Swords tattooed on his fingers, was extremely terrifying.

It's just that her situation was similar to Long Chen's, so her realm was inferior.

Although Su Yuyao was young, she was at the very least a practitioner of Eight stages of Nirvana Tribulation.

When she was still in Dragon Sacrifice Continent, the Great Elder of True Martial Imperial Palace's Three Thousand Great Palace had said that it was very common for people from the Immortal God Realm to finish walking the Divine Martial Stage at the age of a few dozen. However, people like Su Yuyao, who had reached the eighth stage of Nirvana Tribulation Realm at the age of a hundred, were absolute geniuses.

Long Chen and Ling Xi were only in their twenties, both being top geniuses in the Immortal God Realm.

By the time Ling Xi had completed her tribulation and the Giant Thunder Beast of the Ninth Heaven had dispersed, Su Yuyao had already completely recovered. She threatened Long Chen coldly, "You just have to watch on, it's about to start."

After saying this, she walked over to Ling Xi, who was surrounded by eighteen divine dragons.

Amongst the eighteen divine dragons, any one of them had a higher level of strength and battle prowess than Su Yuyao.

Separated by a long distance, in reality, Ling Xi just wanted Long Chen to leave first. She only knew Long Chen well, and knew that no matter how she begged him, he would never agree. He was such a man, in front of his own woman, no matter how dangerous it was, he would never take a step away.

"Long Chen!"

Su Yu Yao was only thirty meters away from Ling Xi. The surging power on her body surfaced once again, and her golden power spread out. Her purest will of a warrior, her way of fighting, and how to use battle to become a god was fully displayed on her body.

At this time, with every movement of Su Yuyao's, Long Chen felt that she was like a god amongst martial arts, with his fists containing the laws of heaven and earth.

A faint Buddhist chant sounded from her body.

The inheritance that Su Yuyao had received was from the Eighteen War God. The eighteen clones of the Eighteen Martial Gods had all transformed into illusions beside her. Any casual punch would be able to

explode with eighteen levels of power. As one grew older, the advantage of having the War God's bloodline would grow stronger and stronger.

And since Ling Xi came from the Dragon Sacrifice Continent, her starting point was inferior to the other party.

The more she saw the killing intent in her eyes, the more Su Yuyao hated her. She said to Long Chen once again, "Open your eyes wide, and watch how this young miss will kill your woman!"

Weng! \*

After escaping the cave, she was finally able to unleash her powers to her heart's content. During the moment she was gathering her power, the surrounding water had also been forced open by her, forming a space at the bottom of the river with a diameter of a few thousand meters. Without saying a word, her fists shone with an astonishing golden light as she launched a storm of attacks at Ling Xi.

Long Chen was simply unable to watch as Ling Xi was attacked. Just as he was about to stop him, the eighteen divine dragons, which were so strong that Long Chen was completely unable to resist, blocked in front of him.

These eighteen experts, who far surpassed him, could definitely firmly control his movements!

Long Chen clenched his teeth, his gaze sinister!

It was impossible for this journey to be smooth sailing. They had come to the Immortal God Realm and were constantly going through ups and downs. And right now, they were facing the greatest danger!

Seeing the fight between Ling Xi and Su Yuyao, Long Chen's heart tightened to the extreme. He knew Su Yuyao's personality very clearly.

"Big brother, let's fight! "Let's fight!" Mo Xiaolang could no longer bear to watch any further.

At this time, maybe maintaining his rationality was more important. Long Chen didn't want himself to go crazy so quickly, since it might lead to an even worse result.

Long Chen's heart was beating so hard that it was hard for him to breathe. His eyes were filled with veins of blood, and as Su Yuyao made her move, the killing intent in his eyes gradually surfaced.

Ling Xi had just passed through five stages of Nirvana Tribulations and also had the legacy of the Misty Sect. In addition, she also had the eight heavenly swords, but her strength was still too young compared to Su Yuyao's and she was also too young, so she wasn't too familiar with the legacy of the Misty Sect. If she had a few years, Ling Xi would naturally be able to defeat her.

The reason she could stay in a stalemate with Su Yuyao for so long was purely because of her perseverance, as well as her desire to help Long Chen and reduce the trouble she had gotten herself in.

In his hands were War Heavenly Sword and Immortal Slaughtering Sword. The two swords had different natures, their battle auras were surging and surging, while the Immortal Slaughtering Sword was filled with killing intent. However, these two archaic instruments were heavily injured time and time again by time by Su Yuyao's martial god fist intent.

"He can still persist until now? What a miracle! You must know, this lady is at the late stage of the Eight stages of Nirvana Tribulation. I am someone who has crossed the eighth stage of Nirvana Tribulation. I am a thousand times stronger than you! "

Su Yuyao just couldn't accept it. She wanted to compare!

In terms of realm, Ling Xi was miles away from her!

Why was she able to easily obtain the eight Heavenly Swords and the legacy of the Misty Sect? Furthermore, why would that detestable and shameful man treat her with such tender affection?

She just couldn't stand it!

Most importantly, why was she so beautiful?

A woman's jealousy could destroy the entire world. Su Yuyao had completely turned into a devil, and under the intense attacks, she attacked Ling Xi violently again and again, just like a ferocious bear, using her terrifying strength to force Ling Xi to her limits time and time again.

"Thousand Mountain Snow Sword Formation!"

Ling Xi activated the first innate Tao technique that came from the Misty Sect, she had inherited the divine blood, so her perception was equally astonishing. With this display, a million sword qi formed tens of thousands of mountain peaks, covered by snow shadows, densely packed sword beams enveloped the surrounding thousands of meters, and also enveloped Su Yu Yao completely within the sword formation.

"Damn it! "You're courting death!"

Although Thousand Sunset Snow was exquisite and the eight Heavenly Swords' sword Qis were weak, she did not dare to carelessly touch them.

"This woman must definitely be killed. Otherwise, if she grows stronger ..." The killing intent in Su Yuyao's eyes grew stronger and stronger.

With the evolution of the Thousand Mountains Twilight Sword Formation, the countless mountains under the sunset were covered in snow. The scene was extremely magnificent, but it was filled with killing intent.

"Break!"

Su Yuyao punched out, and the exquisite sword formation shattered under the force of absolute strength. Receiving such a huge shock, red blood flowed out of the corner of Ling Xi's mouth, and her face immediately became much paler.

However, her gaze was resolute, and even at this moment, she did not admit defeat.

"Xiao Xi!"

It was as if millions of ants were crawling all over his body, he had been enduring it all the while, but when he saw Ling Xi being injured and his reverse scale being touched, his body was about to explode, her dignity as a Dragon ancestor was provoked by the ignorant, and his anger was like a volcano, she could no longer suppress it, causing the surrounding water to surge!

Roar!

When he raised his head, everyone was shocked to find that his body was emitting a murderous aura. The rage of the most powerful Archaic experts caused the hearts of the eighteen divine dragons, who were at the lowest level among the divine dragons, to tremble.

"Haha, you stinking woman, you can still escape from my palms!"

Su Yuyao didn't care about anything else at this point. After defeating Ling Xi, she had even more so snatched the eight heavenly swords from, who could only pack them up. This battle was simply too large, no matter how unwilling Ling Xi was, there was nothing she could do!

The failure this time had brought her a huge blow, but it had also strengthened her resolve. That was, she couldn't let Long Chen only protect her again, if she had the chance, she would definitely take revenge today!

Su Yuyao broke through the sword intent and reached out to grab Ling Xi's snow-white neck. She was brought before Long Chen in an instant, and the eighteen divine dragons tactfully surrounded them, then stared at Long Chen like tigers stalking their prey.

"Brother, let me out as well!"

In the Divine Kingdom, everyone was no longer able to sit still. This was a hopeless situation!

In his fury, Mo Xiaolang had already become a Sun Devouring Demonic Wolf. If even he was like this, then there was no need to talk about Long Chen. His beloved woman was now being controlled by someone else.

"Long Chen!"

Su Yuyao kept repeating this name, the name that made flames burn in her heart. Her finger had strangled a bloody scar on Ling Xi's snow-white neck, imprisoning any movement of his. She then showed it to Long Chen and said, "Do you understand now, who exactly is the last person laughing? There was a saying, "The person who laughs the last time is the person who laughs the best." "In the cave, you have humiliated me and played tricks on me. Do you have the awareness you have now?"

Long Chen suppressed his voice as much as he could, but he still let out a low growl.

"Let her go!"

Other than City Master Bastard, very few people could cause Long Chen to reach this state anymore.

Long Chen had never underestimated her.

"Let her go? Dream on! At most, I will give you back a corpse, but before that, I will let you experience what is called powerlessness, and what is called repentance. I am the Miss Yao of the War God's Ancient City, a dog stuff who had eaten a leopard's gall bladder, you dare to humiliate me! "

She took out a knife with blood-red runes on it and said, "This is a curse. A curse that can destroy a woman's appearance. I just need to cut her face and she'll turn into an ugly thing. Say, when the time comes, will you still like her that much? "

Long Chen had underestimated her abnormal strength.

This kind of woman, if there was a chance, Long Chen would rather be hunted by the War God's Ancient City than be killed by her.

He was no longer able to control his hands. He opened his arms, and his cold eyes suddenly became calm, even indifferent.

He said, "You can try."

#### Chapter 1734 - Divine Dragon Rank

With Long Chen's fury, saying those words, Su Yuyao was truly frightened.

However, she immediately reacted, her eyes revealed ridicule, and the small blade in her hand actually slashed towards Ling Xi's face. At that moment, Long Chen saw that even in such a situation, Ling Xi still did not reveal the slightest hint of fear, and she still trusted herself as usual.

She even trusted that even if she did not have her current beauty, Long Chen would still love her forever.

Su Yuyao's attack this time, had completely ignited Long Chen's bloodline of pride. He was not weak, it was just that he was too young, which was why he allowed this group of ants to climb on his body and show off!

"If you dare attack, I swear, I will destroy your War God's Ancient City! "Slaughter them all!"

BOOM!

The waters of the Stellar River of the War God exploded.

Long Chen's body continued to transform, instantly transforming into a two hundred meter long blood-colored dragon. Her fierce dragon claw, sharp and pointed dragon tail, these sinister killing weapons appeared in front of Su Yu Yao and the Eighteen Divine Dragons!

Long Chen's brain had already been ignited by the boiling blood. He had forgotten everything, and only Ling Xi, who was in Su Yuyao's hands, was left!

"What are you doing? So it's a low level red dragon? " Su Yuyao was incomparably disdainful, even laughing loudly. Her War God's Ancient City still had quite a bit of the inherited blood essence of a lowly red dragon, but it was just that she didn't like it.

The Dragon Fighter was not a good thing. The Nirvana Tribulation was too strong, and it was not the high-grade inheritance blood essence.

So when she saw that Long Chen was only a Red Dragon, Su Yuyao didn't care about him at all.

"I actually pestered a red dragon for so long." Su Yuyao laughed at herself.

Then, she ordered, "Everyone, you are all seniors of Dragon Fighter, go and scare this little dragon."

They separated out a golden dragon that was a thousand meters long, blocking Long Chen's path. As for Su Yu Yao, she played with the small blade in her hand, no longer paying attention to Long Chen, and instead used it to slide across Ling Xi's flawless white face, and said coldly: "What a perfect face, how did it grow out of? It's really enviable, but it's a pity that you followed a useless man. "

However, Ling Xi revealed an indifferent expression, and said: "If you didn't lose so miserably in front of this man, would you have revealed such an ugly and evil beast personality? I don't see the nobility that you belong to, but rather, I see your hysteria and brutality. "

"What did you say!" Su Yuyao was simply angered to the point of exploding.

Ling Xi's words stabbed into the weakest part of her heart.

The hand holding the knife was trembling.

"So what if you disfigured me? It only proves that you are jealous of me and afraid of me. " Ling Xi's eyes were filled with killing intent. She hated Su Yuyao.

Because, she was currently forcing Long Chen.

"How dare you look at me that way. I will dig out your eyes! "

Su Yuyao hysterically roared.

Ling Xi no longer looked at her, but used her boundless gentleness and placed her gaze on Long Chen, completely ignoring the fellow who was controlling him.

She saw that man fighting again for her!

That golden dragon was at least in the Nine Layered Nirvana Tribulations Realm, which was about the same as the Dragon Soul Divine General. Long Chen was probably familiar with both him and Ao Zhan, but he was also a Dragon Fighter of the War God's Ancient City.

However, there was only one thought in his mind, kill!

A mere golden dragon could actually block his path!

The golden dragon was a steel dragon. Long Chen felt as if he was looking at a steel wall, and no matter how hard he tried, he could not penetrate its defense!

"Kid, where is your flame?" Facing him, the golden dragon disdainfully laughed.

In front of him was a long body, Long Chen was simply a toy.

This fellow was able to block each of his attacks. In fact, even eternal life wouldn't be able to stop him for a single moment. He would be broken free immediately!

Ling Xi is in her hands!

Charge!

Long Chen seemed to have exhausted all his strength, using the Sky Slaughter Blood Sword to slash on his opponent's dragon claw, for the first time making his opponent's arm tremble and retract, but he was unable to cut off the dragon claw!

"What a powerful attack!" The golden dragon looked at Long Chen in shock. It couldn't imagine how Long Chen could unleash such a shocking power, and wasn't the red dragon an expert in flames?

"Let her go!"

Long Chen's eyes continued to stare at Su Yuyao.

What Su Yuyao wanted to see was how he looked right now. She laughed out loud and said, "Shave all of his dragon scales for me. I'm going to boil him like a fish!"

The golden dragon received the order and threw everything else aside. A huge golden dragon claw swiped towards Long Chen, with his power, he could probably tear Long Chen into two.

Long Chen squinted his eyes, he did not retreat, but rushed towards the golden dragon!

Right at this moment, the Divine Kingdom opened, and Long Chen did not let Mo Xiaolang out. Instead, he let the Twin-headed Snake Sacred Soul rush out, taking Long Chen's place to rush into the 1000

meter long golden dragon's claws, and Long Chen used the Time Traversing Dragon, causing his body to immediately disappear!

"He escaped?" Su Yuyao said in astonishment.

While she was still stunned, the blood-colored divine dragon broke through the encirclement of the eighteen divine dragons and instantly appeared in front of her. The Heaven Slaughter Blood Sword flew towards Su Yuyao's head!

Su Yuyao was stunned!

Indeed, it was impossible for Long Chen to retreat!

"That final struggle?" Su Yuyao continued to sneer, using Ling Xi's body to block Long Chen's Slaughter Blood Sword.

His only chance still failed.

On the other side, the Holy Spirit was torn to pieces by the golden dragon!

If he let Mo Xiaolang out, he would probably meet the same fate.

When Long Chen had penetrated through the encirclement and approached Su Yuyao, the Eighteen Divine Dragons were all greatly shocked and they all turned around to attack. Although they maintained their humanoid forms, their speed was still astonishing.

Eighteen experts that were a hundred times stronger than him!

They were all existences like Ao Zhan!

This was not a victory that could be achieved with just willpower!

Long Chen could only fight to the death!

His dragon tail and dragon claws swept out in every direction, but it couldn't avoid the fate of being heavily injured. The golden dragon's steel blows very quickly caused his entire body to drip with blood, and the black dragon's dark attacks also invaded his body.

In a short moment, Long Chen was heavily injured like never before.

His consciousness blurred, but his pride allowed him to hold on.

"Don't kill him for me!" She was proud and pleased, this was her revenge.

When the eighteen divine dragons heard the order, they slowly attacked, just controlling Long Chen. However, the more they attacked, the more shocked they became, how could this tiny little red dragon look like it wouldn't die, what about his flames!

Long Chen was completely enveloped by a blood mist.

He was like a young tiger, weak in front of an adult goat, but the pride and dignity in his bones was slowly dug out as the battle continued.

Long Chen felt that his body was undergoing an urgent process of growth. That was the spirit and will of the Ancestral Dragon, but it had grown even stronger in this tragic defeat. The eighteen Divine Dragons stopped their attacks in shock, as they could see that there was an aura within the blood mist that caused them to tremble.

BOOM!

A spiritual attack erupted.

The eighteen divine dragons all had pale faces, as if they had suffered an invisible attack from Long Chen. All of their expressions were extremely ugly, their eyes staring fixedly at the ball of blood mist, their eyeballs bulging, as though they were all gulping down a mouthful of saliva.

The aura that caused people to be terrified, and they couldn't help but kneel down and kowtow to him, was getting stronger and stronger.

All of the fatal wounds on Long Chen's body were swiftly healing themselves.

"Hey, why did you stop? If he were to continue beating them, as long as they didn't get beaten to death, he wouldn't mind beating them up no matter what. I'll let him watch the show after I've been good to him. " Su Yuyao asked, puzzled.

One of the Divine Dragon Elders turned around. When she saw his pale face, Su Yuyao was slightly stunned.

"Little miss, he is not a red dragon, but a divine dragon that controls the path of slaughter. Although I don't know what kind of dragon that is, but I'm afraid it will be above the high level divine dragon! "

"Right. It should be a bloodline above a high level divine dragon. A very rare type of bloodline."

They were all low level Divine Dragons. It was very difficult for them to continue fighting in the face of such explosive bloodline pressure. Great resistance and guilt arose in their bodies. The struggling Divine Dragons in the blood mist made them feel great fear.

"What?" No matter what kind of dragon it is, so what if it's a high level dragon? Continue, do you want to disobey my order? "

Under Su Yuyao's berating, the Eighteen Divine Dragons could only endure the pain and fear of being suffocated as they attacked Long Chen once again. However, Long Chen was being attacked again and again in the midst of the blood mist.

"Brother Chen!"

That God Dragon struggling in the blood mist made Ling Xi's eyes fill with tears.

His life was filled with battles! His journey was filled with endless battles! He had failed before, but he had never given in. Even at this moment, his blood-red eyes were still staring in this direction.

Roar!

The angry roars of the upper class caused the eighteen divine dragons to tremble again. Their attack power was also greatly reduced. Everyone's faces became paler and paler. They were truly afraid. Once this giant beast grew, they would be finished.

Roar!

The unyielding fighting spirit and the blood mist that filled the sky caused Ling Xi to fall into a state of madness. At this time, an endless amount of power surged out from her body, Ling Xi bit her lips, and tried her best to mobilize the power of the eight heavenly swords!

Rip!

Those eight Heavenly Swords had all been miraculously summoned by her.

Logically, with her current strength, she would not be able to use the eight heavenly swords, but Long Chen had already fought to this extent, even if she did not want everything, even her life, so what?

#### Chapter 1735 - Super Dragons

The moment the eight big Heavenly Swords appeared, they released a shocking burst of sword force, causing Su Yuyao, who was beside her, to be the first to be pushed back. The vast watch carried the power of the palaeogeostats and sent her flying, if she did not defend in time, with her strength surpassing Ling Xi's by a lot, she would definitely have died right now.

Even if they did not die, the eight heavenly swords had already left many bloody wounds on their bodies!

Ling Xi's face was cold, her body emitted a bright white light, like a moth without a trace of regret, the eight great heavenly swords under her control continued to fly about, bringing the eight great heavenly swords, she charged crazily towards Long Chen, wherever she went, the sword qi that was quickly expanding, would split open a pathway!

The eighteen divine dragons had always been especially resistant to killing Long Chen, and when Ling Xi came over to kill him, it was even more unexpected. Even they could not casually touch the power of the eight great heavenly swords, so at this critical moment, Ling Xi had arrived in front of Long Chen to kill him!

"Capture me and kill them!" Su Yuyao was already furious to the extreme as she crazily chased after Ling Xi.

She never thought that Ling Xi would have such a power, and she had no idea where it came from.

Everyone has times of forgetting life and death, and Ling Xi was like this as well. This young lady who seemed to be floating like a fairy, charged all the way to Long Chen's eyes, and only when she touched Long Chen's bloodied body, did she finally slacken down onto Long Chen's huge dragon claw with satisfaction. With tears in his eyes, she said, "If you must die, I want to get closer to you ..."

However, she was unwilling to faint. She hugged Long Chen's claws tightly and placed her face on the dragon claw that was covered with blood. At this moment, they were actually so beautiful.

Long Chen was trembling from head to toe.

He turned into a human and hugged Ling Xi.

Fortunately, she was not seriously injured, and her injuries were not as serious as his own. Under the siege of eighteen divine dragons, it could be considered a miracle for Long Chen to not die yet.

He held his beloved woman across his chest, the blood staining her snow-white dress.

"Kill them!" Don't let him escape! " Su Yuyao was about to go crazy. Without Ling Xi as a hostage, they might have been able to escape!

The eighteen divine dragons endured the fear in their hearts and surrounded Long Chen.

The young man who was carrying the girl was completely drenched in blood. His gaze was cold as it swept across the area. The killing aura from the archaic era made the eighteen divine dragons' hearts turn cold. They didn't understand where this undefeated mind consciousness came from, despite the fact that the young man was close to death.

Su Yuyao's heart trembled as well. She had been scared witless by Long Chen's gaze before, as if she was already a dead person. During the most fearful moment, only Long Chen's death could give her a sense of security!

She berated the eighteen divine dragons, saying, "Kill him! He's going to escape!"

Long Chen could not escape, only he knew what kind of state he was in, the opponent was too strong, he was exhausted, he could no longer use Time Traversing Dragon, even if he did die, it would be a miracle.

The eighteen divine dragons did not attack, but one of them took out a golden cage and used it. The palaeogeostats turned into a golden divine bell and trapped Long Chen inside it.

Hatred was planted deep within Long Chen's heart.

When Ling Xi was tired, she slowly sat on the ground and leaned on the inner wall of the golden clock and closed her eyes. In his mind, scenes of him getting along with each other flashed across her mind.

The girl in his embrace was a girl who would at least die close to him.

Hugging her body, Long Chen felt that it was much more stable.

His body was recovering quickly, but he was confused as to why the eighteen divine dragons did not kill him, and instead used these golden clock to imprison him. Could it be that they were afraid of him?

Su Yuyao also wanted to know the answer. She rushed to the front of the golden clock, and looked at the eighteen divine dragons in astonishment, asking, "What's going on with you guys? Didn't you hear me? I want you to kill them! "

The eighteen divine dragons lowered their heads in silence.

"If you won't kill me, then kill me! Open this for me!" Su Yuyao could only use her hysteria to cover up the fear in her heart.

"Miss, he can't kill her."

One of the divine dragon elders said.

"Why?" Su Yuyao could not understand no matter how much she thought about it.

These eighteen divine dragons were sent by her father to protect her, so they weren't completely under her control.

The eighteen divine dragons looked at each other, and one of them said, "Ancient Dragon God, the lowest grade is the low level dragon race, such as my Black Gold Dragon, or the Azure Dragon Red Dragon. The higher level is called the medium dragon race, which is the evolution of the normal dragon race, such as the five-clawed dragon. The eight-winged red dragon and the others. Right now, these two types of Dragon Fighter are relatively common in the Immortal God Realm. "

"So what?" Su Yuyao was still in a hurry to kill Long Chen.

The old man said, "In the Immortal God Realm, the high-grade dragon clans have less inherited blood essence. We are the descendants of dragons, so protecting the inherited blood essence is our mission. The so-called high level dragon race was a divine dragon that was independent of the Heavenly Dao, reaching its peak in ancient times and entering the God Realm. Although Dragon Fighter was different from a real Divine Dragon, it was still impossible for him to reach the Divine Realm. However, the Dragon Fighter created by the high leveled dragon race could be considered as a precious treasure. The Wind Dragon of the Nine Heavens, the Sky Profound Jade Fire Dragon, the Snow Wind Spiritual Dragon, the Void Demon Dragon, and so on all belonged to the high level dragon race. There is an essential difference between us. Among the Dragon God Domain, Five Dragon Cities had once ordered that if one wanted to kill this kind of Dragon Fighter, they might anger the Five Dragon Cities! "

Only then did Su Yuyao understand. She was still unwilling to accept the fact and said, "Even if this kid is a high level dragon, so what? There have been many people who have been killed in secret over the years. Who would know that we have killed him here? "

If this was the reason, she would not be willing to accept it.

The eighteen elders all shook their heads. Another said, "Miss, you are wrong. He is not a high level dragon."

Su Yuyao said, "Isn't that easier to kill?"

The elders did not know whether to laugh or cry, and one of them said: "He is indeed not a high level dragon, and I do not know who he is, but the pressure he gives us in terms of bloodlines, can be said to be unprecedented, and only that Astral Soul Supervisor — — — 3000 Astral Soul Dragons can give us pressure, and that brat is still young, and 3000 Star Soul Dragons is one of the super divine dragons."

Su Yuyao took a few steps back and looked at the golden clock in disbelief. "This guy inherited blood essence, passed down from a super divine dragon? Didn't they say that in the entire War God's Ancient City, there are less than three inheritors? "

The other party said, "As Dragon Fighter, we can roughly determine from the pressure on his bloodline that he is likely to be the inheritor of the supreme divine dragon. Outside the Five Dragon Cities, the supreme divine dragon bloodline was already at its peak. It's very rare, if we were to kill him here, in a hurry, and let Five Dragon Cities know, our War God's Ancient City would probably be in trouble as well. After all, the Five Dragon Cities is the ruler of the Dragon God Domain. "

Although Su Yuyao knew that this was the case, she was still unwilling. She said, "He is obviously not a member of my War God's Ancient City's territory, so who knows that he is the successor of a super dragon? Even he probably doesn't know about it. If such a person were to become our enemy, wouldn't it be better to kill him?"

The expression in Long Chen's eyes before, caused her to be afraid even to this day when he thought about it.

The eighteen divine dragons helplessly said, "Miss, although you have a point, we still feel that it's better to be careful. Your father should be the one to decide, so we decided to bring him back to the War God's Ancient City. In addition, your father had also warned us before, if we were to find out that Dragon Fighter has inherited a supreme divine dragon, we must bring him back. Transforming it into our War God's Ancient City's weapon is also a way to curry favor with our Five Dragon Cities. "

When Su Yuyao heard this, her expression became unsettled. She clenched her fists tightly. It wasn't easy for her to turn the situation around, but she had tormented this fellow for a while. She hadn't even had her fill, but she was going to let him escape? With Long Chen, if he did not kill him, what kind of disaster would he bring to him in the future?

Su Yuyao was extremely frustrated.

"No, I must kill him, or else he will kill me." Su Yuyao gritted her teeth as she spoke.

"If Miss insists on doing so, we can only restrain you and bring you back to the War God's Ancient City."  
One of the old men said.

They directly listened to Su Yuyao's father. In the face of such a huge matter, they still had the power to make decisions.

Su Yuyao raged, "A bunch of lowly servants!"

Although she was cursing, she temporarily gave up.

Their conversation this time was naturally confidential, and Long Chen, who was amongst the golden clock, could not hear anything.

How was he a supreme divine dragon? He was an ancestral dragon, and a dual one at that.

The eighteen divine dragons looked at the golden clock in amazement. One of them said: "I never thought that we would actually meet the inheritor of the super divine dragon. A super dragon is very rare even in the Five Dragon Cities. "

"Yes, from ancient times, The Absolute Beginning Period, that kind of pure dragon race, not a Dragon Fighter created from inherited essence blood, a high level divine dragon that can reach the early stage of the Divine Realm, a super divine dragon that can reach the middle stage of the Divine Realm, and above the super divine dragon, there is still the Ultimate Dragon, and above the Ultimate Dragon, there is also the Unparalleled Dragon, but instead, the pinnacle of the Divine Realm. Of course, the rumors said that there were Ten Great Ancestor Dragon s above the Unparalleled Dragon and their realms were ancestral realm. "However, these are just legends!"

"That's right, the inherited blood essence that's left behind right now, the highest level is nothing but Ultimate Dragon, and it only exists in the Five Dragon Cities. As for Unparalleled Dragon, even Five Dragon Cities would not be able to find them, and only appear a few times in the past. Our human race must obtain the Unparalleled Dragon's inherited blood essence. That is the true chance of becoming a god! "

"Don't say anymore. Bring him back."

## Chapter 1736 - Consecutive Fighting

Long Chen had once fallen into a coma.

It was just that when he was unconscious, he recovered even more quickly. Ling Xi possessed the blood of the Innate Goddess, so her physique was equally astonishing. Before Long Chen had fully recovered, she had already awakened, and looked at the golden clock blankly. This was a completely sealed off world.

Faintly, there seemed to be a quarrel outside.

It's just not clear.

Outside of the golden clock, sixteen Divine Dragons were flying in the sky. They had left the War God's River and were flying over the land of the Immortal God Region, attracting countless shock. The golden clock was caught by one of the divine dragons.

Su Yuyao was right around the corner. At this time, she said somewhat angrily: "Everyone, even if I can't kill Long Chen, I can at least kill that woman, right?"

She was extremely afraid of these two.

The old man with the golden clock shook her head: "Miss, I think your father will do everything possible to keep this boy in the War God's Ancient City and train him as a shocking weapon, so that she can help the three siblings in the future. If the super divine dragon's bloodline was completely unearthed, then it could be said that its future would be limitless. Its talent would be much greater than yours. Even though it was a misunderstanding in the beginning, in the end, it did not cause death. As the saying goes, if you don't fight, you don't know each other.

"What!"

If she wanted Long Chen to grow up in the War God's Ancient City, Su Yuyao definitely wouldn't be able to accept it.

To the point of even letting Long Chen become his friend ...

Not mentioning her, Su Yuyao knew that after this incident, Long Chen would definitely not be willing to die. His final vicious gaze told Su Yuyao that there would be a day when Long Chen would kill her.

At this time, the flying old dragon chattered on: "Our War God's Ancient City doesn't lack any resources, why is it still weaker than the other God's Ancient Cities? That's because we lack talent. This Long Chen is the talent your father is looking for. He is also a rare genius. If they, a couple, can be used by our War God's Ancient City, and if they can be used by you three siblings, then you will definitely have a huge advantage in the competition! Second Miss, this is a great thing, don't make a ruckus. Just let your father handle this matter peacefully. With master's abilities, taming these two little fellows is a simple matter.

"Can't I take back the eight Heavenly Swords, the inheritance of the Misty Sect, and a Sword Fighter that I trust?" Su Yuyao still refused to give up.

The other party chuckled, "Of course not. The Misty Sect's inheritance has already entered her Dao Seal, so no one can take it away from her. If you kill her, everything will disappear with her. Therefore, in this aspect, don't try to scheme anything. It's more important that you have a good relationship with them. "

Su Yuyao angrily threw a Dao Artifact with seven patterns that she randomly took out onto the ground, causing it to explode into a cloud of smoke.

"I can't even kill two people. I'm so angry!"

The image of Long Chen's astonishing eyes and the killing intent in his eyes caused her to feel extremely frustrated.

"Hmph, it's best if it's not a super dragon, my dad will definitely listen to me, he won't let two people who want to kill me stay by my side. Once we return, once we get to my territory, I will not kill you, but once we get to my territory, I will have a thousand ways to torture you!"

The experience this time had made her anxious.

Violent winds raged.

Long Chen gradually woke up, and the injuries on his body had already healed up quite a bit.

"The Euphorbid Finger's Time Reversal is too shallow. In the end, I can't let this Ancestral Dragon's body go against its will, and the path of Time Reversal is actually much more difficult than the Time Traversing Dragon."

The Time Traversing Dragon just disappeared into the river, but the reverse flow of time made it extremely difficult for the river to flow.

This was also the reason why Long Chen couldn't recover quickly.

"Brother Chen." Ling Xi snuggled comfortably in his embrace, and like a cute cat, looked at Long Chen with wide eyes.

"We aren't dead yet, right?" Long Chen struggled to sit up, his arms wrapped around Ling Xi's slender waist as he hugged her tightly. Long Chen's brain was constantly replaying the scene when he had charged towards him righteously without any hesitation, as he hugged the woman he loved and hugged her tightly. I made you suffer. "

"No, you didn't lose. Besides, we faced everything together."

Ling Xi revealed a faint smile, which was very intoxicating.

This time it was really bad luck.

Of course, there were also reasons why his strength was lacking. It was just that he had not been able to find an opportunity to quietly cultivate and improve. As soon as he came to the Immortal God Realm, he came into contact with the people from the War God's Ancient City, and he suffered a great loss.

Even if he cultivated for three to five years and met Su Yuyao again, he wouldn't be at such a disadvantage.

The two didn't know what was waiting for them in front of them, but at least they weren't killed right away.

"That woman is probably mad to death now." Ling Xi suddenly giggled.

It could be said that he was enjoying himself during his time of suffering.

But even so, as long as there was a chance to escape, Long Chen would definitely take revenge.

"Big brother!"

Mo Xiaolang sat powerlessly in the Divine Kingdom. This time, he did not help with the crisis, nor did he seem to.

"Don't be discouraged. The reason we failed was because we were young. However, we had to kowtow time and time again when we were young. Otherwise, how could we have welcomed the dawn and dawn? We did not lose." Long Chen moved his muscles and bones, standing up from within the golden clock.

As long as he was alive, the battles would never stop.

At least, that was what Long Chen firmly believed.

They were all extraordinary people and definitely wouldn't fall to such a small calamity!

Time passed by, day by day, everyone's mental state had also calmed down. Their bodies were more or less recovered, and after going through this last battle, Long Chen and Ling Xi's mental state had improved a lot.

The relationship between the woman in his arms and the melting of his soul had risen to yet another level.

"Brother Chen, where do you think they are taking us?" Ling Xi asked curiously.

They were all very open about it and were not scared.

They were all people who were willing to risk their lives.

After experiencing life and death situations, one's heart would become even more determined.

Long Chen said: "It must be the War God's Ancient City. I don't know the specific reason, but from their faint conversation, I can roughly feel that Su Yuyao is very angry. The more angry she is, the more it proves that she can't do anything to us. "

As for why he was bringing them to the War God's Ancient City, no one knew.

Just then, the runic array formation inside the golden clock changed, and the sound outside became clearer.

"Little friends."

This was the voice of the divine dragon that led the golden clock forward. This golden clock was a Dao Artifact that he controlled, so it was naturally easy for him to talk to Long Chen.

The other party's tone of voice was so friendly that Long Chen had no choice but to suspect.

"What exactly do you want us to do?" Long Chen went straight to the point.

The other party said, "I would like to ask you a question. What kind of dragon did you obtain the inherited blood essence from? I presume it isn't the Red Dragon?"

Long Chen's heart moved. At first, he thought that the other party had discovered her ancestral dragon-inherited blood, but if it was him, he would not use such a relaxed tone.

The other party was unrelenting and laughed, "I knew that you wouldn't say it, but it should be the legacy blood essence of a supreme divine dragon. And only the super dragon race that stands above the high level Divine Dragons will cause us to feel fear. "

Long Chen had previously understood the approximate level of The Absolute Beginning Period and divine dragons. Basically, it could be divided into six ranks, with the exception of the ancestor dragon.

They were low level dragon, medium level dragon and high level dragon. There were also super divine dragons, Ultimate Dragon s, and Unparalleled Dragon s.

The higher the level of the The Absolute Beginning Period, the better it would be to reach the Divine Spirit Realm.

In that case, the other party mistook him for a super dragon?

Or perhaps, this was the reason why he didn't kill him.

After Long Chen caught hold of this point, he finally reacted. He coldly snorted and did not answer the other party's question.

The divine dragon laughed: "Since you are a super divine dragon, you should know the value of your bloodline. This time, you and my young miss have created such a huge conflict between you and me, so you should be put to death, but seeing that you are a super divine dragon, I can give you a chance to resolve this conflict. Furthermore, we will bring you to see our master, maybe he will allow you to stay in the War God's Ancient City and let you join the glorious god race's ancient city. At that time, you and my Young Miss might be good friends. "

Long Chen and Ling Xi looked at each other. They were very smart, and they could roughly deduce the result from these words.

"So he valued my potential, wanted me to join the War God's Ancient City, and do something for him? And become friends with that Su Yuyao? " Long Chen secretly sneered.

The other party continued to speak: "When the time comes, you have to think about it carefully, this world does not have any relationship, if you are not an enemy, then you are a friend. If you cannot become a friend, then you are an enemy, our 72 - The Ancient City of God's descendants has never been merciful with our enemies."

With that, the entire golden clock transformed again, the light dimmed, and the voice from outside could no longer be heard.

Everyone looked at each other.

Long Chen analyzed: "If it's true, we are temporarily in no danger. But they had to join the War God's Ancient City, and they had to stay by Su Yuyao's side. Furthermore, they probably didn't have the chance to leave. But we don't seem to have a choice. Let's see what kind of person Su Yuyao's father is before we make any detailed plans. If nothing unexpected happens, we might stay in the War God's Ancient City for a while, then look for an opportunity to leave. "

Everyone nodded.

Ling Xi hesitated for a while, then asked: "Then, will you and that Miss Yao be good friends, regardless of the past?"

Long Chen was startled for a moment, then patted her head and laughed: "Silly girl, if there is a chance, once I pass through one or two stages of Nirvana Tribulations, I will find a chance to teach her a lesson. Besides, I think she must hate me to the bone. "

#### Chapter 1737 - Su Zhen

The War God's Ancient City seemed to be quite far away, with the speed of these eighteen divine dragons, it had been about ten days but they still had not arrived.

In this period of time, Long Chen and the rest had completely recovered back to their perfect condition.

As long as he opened up the golden clock, Long Chen would be able to use Time Traversing Dragon to escape. However, the other party definitely wouldn't be that stupid. Presumably, the only way he would be able to open the golden clock was to bring him in front of Su Yuyao's father.

In the cave, Su Yuyao had suffered a crushing defeat to Long Chen. However, she had reversed her revenge with just a chance of survival, causing Long Chen and Ling Xi to almost lose their lives.

With Long Chen's personality, he had thought about many things very clearly, and buried them deep inside his heart as if they were nothing, and only at that time, would he let the other party repay the humiliation he had suffered this time with blood. Enemies did not need to show mercy.

Perhaps it was because they were near the War God's Ancient City. On this day, the golden clock had changed and Su Yuyao's voice sounded. This is the first time she had an exchange with Long Chen, she

could not help but laugh proudly, and said: "This time, I beat her half to death, injured and captured, and even brought her back to the War God's Ancient City. Long Chen, I would like to ask, how do you feel?"

In the God Kingdom, no matter who it was, they all hated this woman.

However, Long Chen was able to speak to her calmly. "This feels very wonderful, and I'll let you experience it again when I have the chance."

She liked to see Long Chen's flustered and exasperated expression more.

"Truly, dogs cannot change their way of eating feces. When you come to my War God's Ancient City, that is my world. Do you think you can turn the tables?" she said sarcastically.

Long Chen said: "Don't scare me, I remember they said your father lacks a talent like me. I will perform well in the War God's Ancient City. With my super divine dragon's inherited blood, I think I will surpass you in a few years. At that time, maybe I will be even more valued than you. "

"In your dreams!" Su Yuyao yelled in exasperation.

She discovered that no matter what, she couldn't let this man show her fear. Yet, in this cave, she was actually so afraid of him. This was simply shameful.

"You truly are a frog in the well. Do you know that the density of God's Blood in my body surpasses ten percent?" In our clan of the descendants of the War God, there are less than twenty people who have a divine blood concentration that exceeds ten percent. Although you have the super divine dragon's legacy blood essence, so what? Your Nirvana Tribulation is countless times stronger than mine. I have God's Blood, so I can increase my realm quickly. However, your fate is only to be chopped to death by the Nirvana Tribulation. The god blood descendant is much stronger than your Dragon Fighter! "

Was the god blood descendant strong, or was the Dragon Fighter strong?

This was a topic that had been circulating for a long time. The god blood descendant had a faster rate of improvement, and was much faster than the others of the same age. After the awakening of the bloodline, one could even comprehend the innate Tao technique exclusive to all types of gods. Of

course, there was a difference in the density of the divine blood in the god blood descendant and there was also a difference in the inherited essence blood in the Dragon Fighter. If it was a super dragon of the same level compared to a high concentration of god blood descendant, then a super dragon would be a lot stronger. may not even be able to reach the same level as god blood descendant.

This was also the comparison between Long Chen and his current situation.

Ling Xi was also a god blood descendant, and the density of her bloodline would probably be very high.

The War God's bloodline had been passed down for countless generations. Right now, the highest concentration of the War God's bloodline in the entire War God's Ancient City didn't exceed fifteen percent.

That was why Su Yuyao was so proud.

To her words, Long Chen could only reply with a cold laugh: "According to what you have said, 72 - The Ancient City of God's descendants has long ruled over Dragon God Domain, what other matters does Five Dragon Cities have?"

The Five Dragon Cities were all Dragon Fighter, standing above them all!

This was the ultimate power of the human race.

Su Yuyao was rendered speechless by the argument.

"Just you wait, when you come to my War God's Ancient City, you will forever be an outsider. "Don't think I really can't take care of you."

After threatening again, she was unable to gain anything, but she was infuriated by Long Chen, and could only vent out her anger.

Long Chen clenched his fist, and then released it again.

"This feeling of being imprisoned and being controlled by someone is really hard to bear!"

He raised his head and looked at the empty top of the golden clock. With a grim gaze, he said to himself, "Since I have been forced into this trap, if you dare to nurture me, you better prepare yourself for the day when I will pierce through your entire world!"

The failure this time was a lesson, and was also the reason for Long Chen's rise.

From today onwards, he would no longer evade, but face it bravely.

"I have a premonition that the old assembly will turn the War God's Ancient City upside down. Even 72 - The Ancient City of God's descendants who share a common enemy. " The kitten chuckled and said.

In fact, he wasn't nervous at all, because Long Chen had always avoided danger.

"If they knew that you are an Ancestral Dragon, and a combination of two Ancestral Dragons, they would definitely go crazy."

This was Long Chen's capital.

Let the War God's Ancient City become their name that can shake the world.

"We're at the War God's Ancient City." Finally, this day came. The golden dragon that imprisoned Long Chen gave a reminder.

Long Chen had already made his preparations. If he discovered that something was amiss, he could only use the Time Traversing Dragon to escape with all his might. Therefore, at this time, he had already allowed Ling Xi and the others to enter the Divine Kingdom.

The War God's Ancient City was obviously very big, because even after walking for half a day, they still did not reach their destination.

The golden dragon seemed to be muttering to itself as it explained for Long Chen, "The War God's Ancient City is the territory controlled by the blood descendant of the Martial God, the Su Family. There were differences between the inner and outer cities. The War God's descendants resided in the inner city. The inner city was where the Nirvana Qi broke out from, and the density of the Nirvana Qi was ten

times that of the outer city, a hundred times higher than the Immortal God Realm's wilderness. Only the pure blooded warriors of the Su Family and the strong warriors who have been added to the Su Family can qualify to enter the inner city. We were personally trained by the Su Family, so we can be considered half members of the Su Family. "

"As for the other people who are not members of the Su Family, those whose strength is not even at the Nine Layered Nirvana Tribulations Realm, they are all considered outer city disciples. They live in the outer city, listen to the commands of the inner city's Su Family, and serve the Su Family. Because the Eighteen War Gods have eighteen clones, the Outer City is divided into Eighteen Regions. We are currently in the air above the eleventh region, and it will take us roughly two hours to reach the inner city. "

Long Chen quietly listened, and did not interrupt.

"The descendant of the Martial God, the Su Family, has undergone millions of years of evolution and inheritance. There is also a difference between the Zongjia and the branch family. The Zongjia only had around a hundred people, who were the direct descendants of the War God, while the branch family had a total of more than five thousand people. The concentration of Martial God Bloodline in Zongjia disciples was much higher than that in branch families. Our master also has Miss Yao, who is also a member of the Su Family's Zongjia, so her position is incomparably noble. Miss Yao's grandfather is also the supreme city lord of our War God's Ancient City, he is one of the hegemony of the Dragon God Domain. "

The reason he mentioned all these was to scare Long Chen, and to give him a deterrent, so that it could be considered a show of power.

Long Chen had already known that Su Yuyao's position was noble, and as expected, it was as he had expected. The Immortal Divine Region and the Dragon Sacrifice Continent are not on the same level. Presumably, the city lord of this War God's Ancient City is someone on a level equal to the city lord's full time. Just thinking about it in this direction was enough to make one feel terrified.

Long Chen was simply too far away from that level, and he could only look up at it now. In fact, he might not even reach that level in his entire life.

Jin Long continued to sigh with emotion, "The seniors at the City Lord's generation did not ask about the matters of the War God's Ancient City long ago. The ones in control of the War God's Ancient City now are the five children of the City Lord, all of whom are of the bloodline of the Zongjia. Among them, Miss Yao's father was the son of the City Lord, ranked third. His name was Su Zhen. When you see him, you must be careful and respectful. He loves Miss Yao the most, and although you have talent, if you do not

know what's good for you, I'm afraid the Lord will not let you leave here alive, or else he will not leave you for the rest of his life. "It's best to think about it for yourself."

Long Chen did not know that the Five Dragon Cities did not allow anyone to kill the super dragon. The eighteen divine dragons also noticed it, so they wouldn't tell Long Chen more. Furthermore, even if they could not kill him, they could still use other methods to threaten Long Chen when they reached War God's Ancient City, which was a place where strong warriors were all over the place.

This old dragon's display of power was extremely impressive.

It was a pity that Long Chen had already figured it out already. If someone came to train him, why not? Only, because of Su Yuyao's matter, Long Chen would never have any feelings of belonging towards this War God's Ancient City, as this was different from the True Martial Imperial Palace!

His ultimate goal was the Everlasting Dragon City!

"Father, one day, I will set foot there alive and wash away everything for you!"

This was his fate, and was the biggest perseverance he had in his heart. Everything he had was created by Long Qinglan, and perhaps, only by fulfilling his last wish, would Long Chen be able to fulfill the filial duty and responsibility a son should do.

"We have arrived at the inner city. I'll bring you to Master's study, little friend Long Chen. You must remember what I said to you, to consider your own future. "

"Although Miss Yao's temper isn't good, she's still a good master. At least she treats her own people well. When you become strong in the future, do not forget to repay your gratitude and assist Miss Yao. "If you didn't have someone you like, when you grow stronger, perhaps Master would have betrothed Miss Yao to you."

All this is nonsense.

Long Chen really wanted to see just what kind of person this Su Zhen, who had protected him, was.

With a boom, the golden clock disappeared.

Long Chen hadn't seen eye contact for a long time, so he squinted his eyes to look at this dazzling world.

## Chapter 1738 - Samsara of the Heavenly Dao

What made him surprised was that he was actually surrounded by a small forest. The trees were tall, and ancient trees that Long Chen couldn't identify were all purple in color, emitting a refreshing fragrance.

Staying in such an environment, he suddenly felt a comfortable feeling spread throughout his body. The main reason was that a large amount of Nirvana Qi was emerging from the ground.

The Nirvana Qi rose, forming yellow clouds in the sky.

Just by breathing, he could absorb a large amount of Nirvana Qi.

"The 72 - The Ancient City of God's descendants were all built near the dragon head of the dragon vein. The inner city of the War God's Ancient City was built with the power of the earth vein divine dragon raising its head, swallowing and spitting out the Nirvana Qi. The Nirvana Qi has not stopped for tens of thousands of years, and it was because of this that the god blood descendant families were strong and flourishing." The eighteen divine dragons turned into eighteen old men in front of him.

Long Chen raised his head and looked over the mountains and rivers. A large amount of Nirvana Qi was being produced, if one could cultivate in this place, the effect would definitely be many times better, no wonder so many people looked forward to the God's descendants ancient city. One had to know that the Nirvana Qi was a type of natural spiritual energy that could directly transform into Nirvana Power, and was the highest level spiritual energy in the world.

Compared to the collapsed Dragon Sacrifice Continent, where the spirit energy was dissipating, this was the true heaven. No wonder the people here call the Dragon Sacrifice Continent a lower realm.

To the Dragon Sacrifice Continent, this was the Heavenly Palace, the place where the gods lived.

The entire Immortal God Realm was filled with experts and no civilians.

With the convergence of the Nirvana Qi, with just a wave of her hands, Long Chen could achieve enormous progress. When she started cultivating, her speed would increase by at least a hundred times.

With a glance, he could tell that even the purple trees there were a few Immortal Marks. All the plants in the entire inner city probably belonged to the Immortal Spirit Realm, and even Long Chen was shocked by the Snow Lotus Lake beside Ling Xi's house back then, let alone here.

However, there were different levels to the world. Perhaps it was really common here.

In the depths of the forest, there was a small courtyard surrounded by bamboo. It was elegant and fragrant; it was Su Yuyao's father, the third son of the War God's Ancient City's City Lord, Su Zhen.

Su Yuyao had already left. If not, she would have started a fight the moment Long Chen appeared.

"Follow me to see the Lord. He already knows of your existence. Just call him Mr. Su." One of the golden dragons brought Long Chen to the little courtyard in the middle of the bamboo forest.

The bamboo forest was Tian Xiao Yu Zhu!

Some of them were only two or three sections, which meant that they had two or three Immortal Marks, but there were some that had more than ten sections, which was comparable to the Immortal Mark that Long Chen had gotten, which had more than ten sections of them.

"It shouldn't be surprising that there are so many immortal spirits where the Nirvana Qi is constantly erupting." Long Chen saw too many things that surprised him. As his level rose, his heart calmed down.

He reckoned that all of the forests in the inner city were probably formed of immortal spirits and Daoist items.

Following that quiet path, they arrived at that courtyard that reeked of books. The golden dragon knelt on the ground at the entrance, and said while kneeling: "Master, I have already brought Long Chen here."

It was because of the existence of Su Zhen, a practitioner of tribulation of reincarnation that Long Chen did not dare to use the Time Traversing Dragon to escape.

He reckoned that this Su Zhen was more than half a star stronger than the Wind Dragon Muldoon Master.

With Long Chen's current level of strength, he might not be able to escape the other party's eyes with the Time Traversing Dragon.

If not for the fact that Su Yuyao had someone like Su Zhen backing her up, Long Chen would not have let her off in the cave. After he killed Qin Fengxue, even the Wind Dragon River Lord would be able to find him within ten days. It was even more likely that it would be this Su Zhen, or even the entire War God's Ancient City.

"Come in."

A gentle and refined voice rang out from the courtyard, yet it did not lose its severity, and it somewhat resembled a teacher from a private school.

After Long Chen heard this, he walked into the center of the courtyard. After passing through the bamboo door, he suddenly felt like he had walked into another world.

Runes swam in the sky, and it seemed as if countless characters were moving around in the surroundings. In this small courtyard, Long Chen almost suffocated, he had a feeling as if he had lived for several lifetimes in this world, as some unfathomable memories appeared in his mind.

"This is the reincarnation of the Heavenly Dao!"

Long Chen muttered to himself.

"Brother Chen." Ling Xi saw that he was looking at his surroundings with a strange expression and asked.

Only then did Long Chen come to his senses, and he looked in shock at Su Zhen's courtyard. The bamboo door gently opened, and an invisible force brought Long Chen into the bamboo house.

At first glance, the furnishings in the bamboo house were not surprising, but upon closer inspection, one could see that they contained a profound meaning. Regardless of the furniture, they all contained the Dao of formations, making it difficult to understand them.

A frail middle-aged man was sitting in front of a desk and reading a book. After seeing Long Chen come in, he closed the book in his hand and looked towards Long Chen: "On the path of martial arts, on the way of heaven. The Heavenly Dao we cultivate is also the path of martial dao, the path of the War God. "

Long Chen knew that this was a peerless Ranker, and when he sized him up with a calm mind, he discovered that this man was not out of the ordinary. What impressed him was the mustache man. There were also eyes that were as deep as a pool. The more he stared at them, the more confused he would be. It was as if there was a world in his eyes that would cause others to sink in.

Was he an enemy or a friend?

Treat him as an enemy for the time being.

Long Chen knew the rules very well, and cupped his hands: "Junior Long Chen greets Mr. Su."

He stood up and walked around Long Chen with a strange expression. In the end, he said, "Although the entry into the martial way is fast, and one has to comprehend the comprehension of Divine Martial Stage, to comprehend it deeply, and even become a god, is too difficult."

Long Chen had a feeling that he didn't have any secrets in his body, even under his eyes.

"Mr. Su, what orders do you have for me to come here?" Long Chen tried his best to ignore this guy.

"Sir? I like it when people call me sir. "Very good, very good." Su Zhen returned to the side of the desk and sat down before saying, "Welcome to War God's Ancient City. Even I haven't seen your inherited blood essence. There's also a young lady who received the inheritance of the Misty Sect. Let me take a look as well.

Long Chen consciously protected Ling Xi and said: "She obtained the eight heavenly swords and the inheritance. I wonder what Mr. Su thinks of me? What are you going to do with me? "

He had always felt that Su Zhen was somewhat strange.

Long Chen did not let Ling Xi appear, and it was as if he had immediately forgotten about this matter, as if he was in a trance as he opened the black clothed book on the table and read for a while without eating or sleeping. Even if you escape to the ends of the earth, I can still find you within ten days. You can try. "

Long Chen's expression was still calm, but he sucked in a breath of cold air in his heart.

Could this weirdo really capture me no matter where I run off to? Was he really so magical?

Just when Long Chen was suspecting something, as if he had found some useful information in a book, he revealed a smile and said: "I understand, this mysterious power is actually time!"

Path of Time!

Long Chen was even more shocked.

This was the first person to recognize his path of time.

"From ancient times until now, I have heard of the Dao of Space, the Dao of Soul Controlling, and other kinds of mysterious Heavenly Daos. This kind of power might have come from your comprehension, or it might have come from the inherited blood essence? "

As he spoke, he seemed to have forgotten about Long Chen, as he busied himself around the entire study room. Finally, he got tired and sat on a chair.

"Is there anything Mr. Su needs to tell me?"

Since the other party was unwilling to let him leave the War God's Ancient City, this was enough. It meant that Long Chen would have to stay here in the future.

He could only raise his strength first.

Su Zhen stood up and said, "There's nothing else. Since you've just arrived, you can only start from the outer city disciples. I'll have you put out. War God's Ancient City will be your future home. You'll love it here, because it's a family of honor and purpose. "It's the place where the controllers gather."

What was this fellow thinking?

Long Chen was unable to understand his leaping thoughts.

However, this only made him feel that this person was even more terrifying. In such a short period of time, Long Chen did not dare to try to flee. But the problem was, what was the other party's goal?

Could it be that if he used his potential, he could help his children in the future and seize the position of the Zongjia?

According to the rules of the ancient cities, of the five children of the War God's Ancient City's City Lords, only one would be able to become the new City Lord and the other four would have to be allocated to a branch family. It was just like how princes fought for power. The strength of the younger generation was indeed very important.

But Long Chen had a nagging feeling that this was not just a simple matter.

In a daze, Long Chen left Su Zhen's courtyard.

"What the hell is this stupid thing doing?" Cat disdainfully said.

In the Divine Kingdom, no one was clear.

Everyone looked at each other.

Having randomly come to this War God's Ancient City, Long Chen also had a feeling that he didn't know what to do. If he didn't work hard enough, he would probably be imprisoned here forever? Until he was able to kill Su Zhen?

It seemed a little long.

But at least his life was still there.

"Long Chen, my little friend, I will bring you to the outer city now. After arranging for you to stay in the outer city for a few decades, your strength will increase and you will be able to contribute greatly to the War God's Ancient City. Naturally, you will be promoted to the inner city.

"That's right. It's our honor to be able to do something for the Zongjia, a descendant of the War God. This was an honor that ordinary people would not be able to obtain. The Su Clan's reputation is still pretty good. "

"72 - The Ancient City of God's descendants is a common enemy. In Dragon God Domain, other than Five Dragon Cities, all the other powers are just ants in front of the God Ancient City. So from today onwards, you don't have to be afraid of anything."

#### Chapter 1739 - 3000 Samsara Soldiers

Since he was already here, he might as well settle for now.

"Since that's the case, I'll bring you to the outer city and arrange for you to be among the outer city disciples." One of the golden dragons separated, and the others dispersed one after the other. They were all Nine Layered Nirvana Tribulations Realm warriors who were about to face the tribulation of reincarnation. To them, perhaps that was the greatest tribulation of their lives.

Long Chen followed the golden dragon elder, and quickly rushed towards the outer city. The reason the golden dragon elder told Long Chen to rush there on his own, was actually to let Long Chen have a good look at the inner city of War God's Ancient City, and how grand it was.

Long Chen ran around the endless forest. He realized that, as he had guessed, in the encirclement of the Nirvana Qi, all the plants had grown into Celestial Spirits. A year of growth in this place was equivalent to dozens of years of growth.

The medicinal power of the Celestial Beast mixed together with the Nirvana Qi, producing a great deal of benefits.

"These are all small things, the descendants of the War God simply look down on them. In the depths of the inner city, there is a large patch of land where the Immortal Spirit is planted, that is the treasure of the War God's Ancient City, and the Ancient Immortal Spirit can be seen everywhere.

The golden dragon elder said with a smile.

To him, Long Chen was like a lucky child that had just walked out of a forest deep in the mountains. Saying all this to him would cause him to yearn for and honor the War God's Ancient City, and would allow him to wholeheartedly follow the War God's Ancient City in the future.

But Long Chen took these things very lightly.

No matter how terrifying the War God's Ancient City was, it couldn't compare to the freedom in his heart. He was brought here by force, and just on this point, the War God's Ancient City would never be able to obtain his good impression.

As the old man spoke, he smiled and nodded.

In the depths of the forest by the side of the road, buildings formed from Dao artifacts would occasionally appear. It was just like the Five Elements Pagoda, but it was very common in the Martial God City. Some of the buildings had the appearance of palaces.

"The inner city is very big. There are nearly ten thousand people living there. They were all separated. There are still many forbidden areas for clan members. With my current authority, I can only move half of the inner city's area. I can't get close to many ancient ruins, forbidden grounds for clans, immortal spirit plantations, etc. If you are able to achieve great things in the future, perhaps you can even obtain these privileges. You can casually enter any forbidden land and benefit from it for your entire life. "

The old man stroked his beard and said with a smile.

He pointed ahead and said, "There's a small forbidden area. We can't go near the three thousand meters radius around the 'Reincarnation Soldier'."

"What is a Reincarnator?" Long Chen asked curiously.

The other party smiled and said, "We'll be close soon. You should be able to see it."

While speaking, Long Chen followed his instructions and looked towards the north. In the depths of the rolling forest, a large amount of runes suddenly surrounded a region, and a golden pillar of light rose up

into the sky, forming a dense and dense circular array formation in the sky. In the middle of the golden array formation, there was a faint, hundred meter tall strange statue.

"This is the Reincarnation Weapon." The old man said proudly.

Long Chen was even unable to shift his gaze away as he sunk deep into his thoughts. This was clearly just a statue, yet it made Long Chen feel as if he was facing Su Zhen.

"In the inner city of the War God's Ancient City, three thousand Reincarnation Soldiers have formed the War God's Reincarnation Formation and are guarding the War God's Ancient City. Normal people would not be able to break in. Demon, Sea and Spirit Race Witch Clan's Xiao Xiao Xiao, even more so don't think of sneaking in. It is said that they are warriors of the Eighteen Martial Gods who have sat down for three thousand tribulation of reincarnation. They have followed the Martial God to war with the world, and in the end, left with the Martial God to the world, leaving behind a golden image in the War God's Ancient City. I heard that in the depths of the inner city of the Martial God, there is a Martial God Tablet that was personally left behind by the Eighteen Martial God, recording the True Martial Heavenly Dao. "It's a pity that I'm not qualified to see it!"

Three thousand Reincarnation Soldiers, figures of the Archeozoic era?

Only gods could live forever, and even warriors with tribulation of reincarnation could be killed by the tribulation of reincarnation. What happened to the golden body art he left behind?

Long Chen suddenly thought of something. Since the gods were said to be immortals, then where could the Archeozoic era s who had followed after the disappearance of the divine dragon, such as the Eighteen Martial Gods, go?

Divine beings, weren't they all immortal?

Moreover, most of the billions of dragons were immortal, so where did they go?

There was no one who could solve this eternal mystery. It was likely that even these god blood descendant s did not know where their ancestors went.

Three thousand Samsara Soldiers, Martial God Tablet.

As they hurried along, Long Chen very quickly tossed the Reincarnator to the back of his mind. Before he left the inner city, he saw it again.

"I don't know when you will be able to return to the inner city after leaving the inner city this time. My lord will let you stay in the inner city." The eighteen divine dragons had high hopes for Long Chen.

"Thank you, senior."

It's just that Long Chen was not interested in the inner city at all.

After leaving the inner city, the concentration of Nirvana Qi had indeed dropped by ten times, and the area on the ground where it would erupt had become much less.

Although there were a lot fewer Nirvana Qi s, it was still very common to see Celestial Spirits of one or two Immortal Mark s. The inner city was a forest, but the outer city stretched for countless of miles. It was more like a wilderness, ten times the size of Nirvana Qi, filled with immortal spirits, and there were even dire beasts running wild.

"This is the eleventh region." You'll live here from now on. I will bring you to one of the The War God's Team s. Each The War God's Team has approximately a thousand people, and is commanded by three of them. As for the over a hundred thousand people in the entire eleventh region, they were all controlled by a branch family in the Su Clan. Remember when you were in the outer city, it was best not to offend branch family members. After all, in the eyes of the Su family, outsiders like us are like subordinates, and we are also like slaves. Only a well-behaved person can survive, do you understand what I mean? "

The golden dragon elder repeatedly reminded him.

"Got it." Long Chen looked at the vast wilderness and nodded with a smile.

The wilderness in front of him was a pretty good world. It was huge without borders, and the only pity was that there were too many restrictions.

After he finished speaking, the golden dragon elder brought Long Chen to patrol the skies of the eleventh region. The The War God's Team concealed himself in the wilderness to cultivate, fight and carry out missions.

It was a The War God's Team with a thousand people. Most of them were cultivating in seclusion, and when they saw a thousand-meter-long golden dragon passing by, three warriors in golden armor rushed up. Two men and one woman came up to welcome the golden dragon elder.

"Greetings, Lord Dragon Soul Divine General!"

Indeed, this golden dragon was one of the Dragon Soul Divine Generals.

At this time, Long Chen also called Ling Xi out. After all, from today onwards, he and Ling Xi could be considered to have joined the ranks of the outer city disciples.

Long Chen was young and mature, his temperament was extraordinary, but her beauty was so beautiful that it quickly attracted the attention of the three War God's Guards. It was just that these two were brought here by the Dragon Soul Divine General, they already knew what to do. Normally, the Dragon Soul Divine General was not a real Su Family member. They had relatives outside, so it was normal for them to bring people to the War God's Ancient City.

Being able to take care of the Dragon Soul Divine General's relatives was also a great thing.

After the two men and one woman bowed to the golden dragon, the golden dragon went straight to the point. He pointed at Long Chen and Ling Xi and said, "This youth is called Long Chen and this girl is named Ling Xi. From today onwards, they will join the The War God's Team led by the three of you. I am Dragon Soul Divine General Ao Chong. From today onwards, I hope the three of you will take care of them. "

Although it was not said clearly, it was clear that they were Ao Chong's relatives. The three War God's Guards said excitedly, "Lord Dragon Soul Divine General, the three of us must not have failed our mission. Take good care of the two of them. Give them the best resources. "

They clearly saw the appearance of Long Chen and Yue Yang, the two of them. Both of them seemed to not have much Nirvana Qi, as though they had just passed through the Giant Thunder Beast of the Ninth Heavens and had not reached the standard of War God's Ancient City yet.

Long Chen was also sizing up the War God's Guard. His strength was estimated to be at the late stage of the Seven stages of Nirvana Tribulation. Chief of the Wolf Fang Army was in the early stages of Seven stages of Nirvana Tribulation.

In terms of fighting alone, Long Chen might not even be their match. Back then, the Chief of the Wolf Fang Army fought with a lot of effort. And the baby had been slaughtered.

"War God's Guard is the elite of the outer city disciples. Only one thousand outer city disciples can produce two or three War God's Guard s. Their strength must at least reach the late stage of Seven stages of Nirvana Tribulation. After that, the three of them will be your commanders. You all have to listen to their orders, understand? " Ao Chong warned Long Chen.

Long Chen nodded quietly.

After giving further instructions, Ao Chong returned to War God's Ancient City.

After Ao Chong left, the three War God's Guard s hurriedly began to introduce themselves.

A black faced muscular man said: "My name is Xiong Ba. It's the First Commander. "

The average looking but attractive body of the lady said: "I am Jiang Yan, you can just call me Big Sister Jiang Yan from now on, I am Second Commander."

The last young man said: "My name is Li Chongfeng, but other than these two, my brothers and sisters all like to call me Third Brother. We'll take care of each other in the future. "

Maybe it was because of Ao Chong, the three of them were all very polite.

Jiang Yan cordially pulled Long Chen and Ling Xi, and said: "You have just arrived and are still not familiar with this place yet, we will immediately gather all of you brothers and sisters to introduce you guys to them. In the future, we will be on the same team, sharing honor and disgrace, fighting together, you will be my little brothers and sisters, we will take care of you."

Chapter 1740 - Our Sunrise Mountain

Ling Xi didn't really like them, nor did she like this environment.

Long Chen lightly released the other party's hand that was pulling him, then pulled Ling Xi into his embrace and calmly said. "Three commanders, there's no need for introductions.

Long Chen was brought here by Ao Chong. If they were slightly overbearing, the other side wouldn't dare to do anything to them. In reality, coming to a place like The War God's Team was basically a fate of being beaten up.

After all, everyone will need to move together, and they will have to get to know each other. Don't worry, this process is very quick, and they might not be used to it just now, but they still need to quickly assimilate into the life here. Child, you might have been spoiled too much at home and became spoiled. But War God's Ancient City is a cruel place, you have to work hard at it. "

Seeing Long Chen and Ling Xi's delicate skin, he automatically thought so.

In the eyes of the three War God's Guards, Long Chen and Ling Xi could not fall in love with the pampered Young Noble and Eldest Miss.

Very quickly, they arrived at a huge open space. Because of Ao Chong's arrival, over a thousand The War God's Team people had already gathered in the middle of the plaza. Xiong Ba and Li Chongfeng walked up to a high ground while Jiang Yan brought Long Chen and to an exquisite hut.

From today onwards, you will be members of the eighty-third The War God's Team of the Eleventh District. Our The War God's Team has a very pleasant name, and that is Demon Bear. The Demon Bear The War God's Team is under the title of our boss. " Jiang Yan smiled brilliantly.

Long Chen and Yue Shuang didn't really look at her, but they started bullshitting the two tables with Fifth Stage of Nirvana Tribulation. After receiving the forms, Jiang Yan helped them change it to Sixth Stage of Nirvana Tribulation, and wrote the words 'Dragon Soul Divine General Ao Chong's Recommendation 'at the end of the forms.

This was probably their relationship.

If not for Su Zhen, Long Chen would have escaped long ago.

At this time, Third Commander Li Chongfeng was introduced to Long Chen and Ling Xi in front of thousands of people outside.

The power and prosperity of the War God's Ancient City still caused Long Chen to feel deep shock.

Very quickly, he arrived at the stage beside Xiong Ba.

Below, over a thousand black armored warriors were looking at them with cold, sharp, and envious eyes.

These people all had a savage aura, a thick aura of martial arts, surging power of Nirvana, and a shocking fighting strength. They were all warriors that had passed through at least the sixth stage of Nirvana Tribulation. In the Dragon Sacrifice Continent, they were existences that had surpassed the True Martial Emperor. There was even a late stage Sixth Stage of Nirvana Tribulation, which was equivalent to the Snow Wind Spiritual Dragon Qin Fengxue, as well as Seven stages of Nirvana Tribulation, which was equivalent to a Chief of the Wolf Fang Army.

A thousand Rankers was just a The War God's Team!

They were the squadron numbered 83 of the eleventh region!

God knows how many powerful teams like this in the entire War God's Ancient City!

This was only the lowest level of War God's Ancient City.

Looking at the experts below, Long Chen finally understood how miserable the Dragon Sacrifice Continent had become, and the Immortal God Realm could only be considered a truly complete world.

The power of over a thousand people Nirvana Qi swept out, giving Long Chen a huge impact.

He held Ling Xi's hand.

Both of them had determined looks in their eyes as they stood in front of the thousand strong warriors.

"Gentlemen, these two are our new comrades, our new comrades. This is Long Chen, this is Ling Xi. They are all not older than fifty years old and are rare talents. From today onwards, we have to take good care of them. They are the younger brothers and sisters of our entire The War God's Team. At the same time, we also know that they were brought here by Lord Dragon Soul Divine General. Lord Dragon Soul Divine General had instructed us to take care of them, so brothers and sisters, don't make things difficult for them. Otherwise, my, Xiong Ba's, fists will not be for nothing. " First Commander was dressed in gold armor and stood on top of a tall mountain.

Below them, more than a thousand experts knew what to do when they heard that it was the Dragon Soul Divine General. Although they were somewhat disdainful in their hearts, they knew what to do.

Jiang Yan smiled from the side: "This is your first time here. If there's anything you don't understand, you can ask us. Within a circumference of three hundred kilometers, you are all within the range of my Demon Bear The War God's Team, and you can freely move about within this range. But if we want to reach other places, we need the permission of the three of us, so we cannot act recklessly. After all, that is the territory of the other The War God's Team.

Long Chen was unwittingly standing there and being observed, he nodded his head.

At this time, someone spoke up from below: "Little brother Long Chen, can you reveal what kind of relationship you have with Senior Ao Chong? I heard that Senior Ao Chong is one of Miss Yao's eighteen guardians, and is a very popular person! "

Everyone showed envious expressions.

"Yeah, can you tell Big Sister Jiang Yan, what's your relationship with Senior Ao Chong?"

Jiang Yan asked curiously.

The closer their relationship was, the better they would treat Long Chen. If their relationship was estranged, then there would be no need to serve them like an ancestor.

Long Chen was disgusted by being treated as a fool by this group of people. Since he had lost his temper, he sneered: "Do you really want to hear the truth?"

"Of course I do." Everyone showed an expression of anticipation.

Long Chen was silent for a while, and then said with an indifferent tone: "I have nothing to do with Ao Chong, I offended Miss Yao, and Miss Yao was originally going to kill me, but her father, Su Zhi, thought that I was a genius, killed me, a pity, and imprisoned me in this War God's Ancient City, unable to leave for the rest of my life, and then let Ao Chong arrange me here. Do you believe that?"

After saying that, everyone's expression froze, including the three War God's Guard s.

In their eyes, Long Chen was just a little kid who was used to being pampered, and relied on relationships to enter the War God's Ancient City.

"Long Chen, stop joking around. This kind of joke isn't funny, what do you think?" Jiang Yan laughed awkwardly.

The people below also started to laugh, and thought that Long Chen was making a joke.

"In addition, the young master is one of the War God's Ancient City's Paragons, a god-like existence. It's best if you don't call him by his full name, otherwise, even senior Ao Chong will not be able to protect you." Xiong Ba reminded her.

Regardless of whether they trust him or not, Long Chen was not so much of a threat. He directly asked Jiang Yan: "As long as you don't leave a three hundred mile radius, it should be fine, right? "And where do we live?"

Jiang Yan said: "En, however, when you hear the whistle for me, you need to immediately rush over here to gather. As for the residences, you just need to build one nearby, but Sister Jiang Yan's house has some spare time beside it.

She hadn't even finished speaking when Long Chen directly said: "There's no need, I like the peace and quiet. If there's nothing else, we'll be leaving first."

Finished speaking, he did not stop, held Ling Xi's hand and just like that, they left the crowd's field of vision, their faces full of shock as they watched them leave.

Pow!

Xiong Ba smashed a boulder beside him and cursed: "Damned family member, I spent so much effort just to get the chance to enter the War God's Ancient City, but he came all the way. We suffered so much humiliation when we came in, but this brat has been dragged into the sky. If he wasn't brought here by the Dragon Soul Divine General ... "

Jiang Yan was so angry that she clenched her teeth and said: "Truly a little brat who doesn't know what's good for himself. This kind of little thing joining our team would be troublesome. If something happens, it'll be up to us. "

The people below cursed as well. "This kind of kid, as long as he comes out for the battle, there's an 80% chance that something bad will happen. It's even more impossible to get him to cooperate with us in the battle."

Li Chongfeng said: "Forget it, let him be, as long as he does not cause trouble. When the time comes, we can just let him stay. In any case, there will be a dozen or so people guarding it at a time. "

Jiang Yan placed her hands on her waist and said angrily: "Damn it, I had wanted to properly entertain these two little ancestors and set up a feast for them."

Xiong Ba said: "Forget it, leave the good wine to our brothers."

Jiang Yan suddenly thought of what Long Chen had said and she asked doubtfully: "This little guy is also very strange, why would he have anything to do with Miss Yao?"

"He must be crazy." Xiong Ba scolded before roaring, "Dismissed! All of you, scram back to cultivate. Whoever gets killed by the Nirvana Tribulation again, I am not responsible for expressing my condolences!"

Long Chen brought Ling Xi and wandered around in the mountain forest. This wilderness felt much better than the wilderness outside. There were countless waterfalls in the surrounding area, and it could be said that birds were singing and the flowers were fragrant. As they walked up a lofty mountain, just

as the sun was about to rise, a fiery red sun rose from the distant sea of clouds, illuminating the entire world.

As Long Chen bathed in the light, he suddenly felt that this place was quite wonderful.

"When I came up earlier, the name of this place seemed to be written on the stone tablet. Brother Chen, will we stay here from now on?" Ling Xi danced in the forest like a fairy that had descended to the mortal realm.

"Alright."

From now on, they would be using this place as their temporary base.

When Long Chen was still building the simple wooden house, Ling Xi suddenly called out to him, and he immediately rushed over. Following Ling Xi's instructions, he saw that on the waist of one of the mountains facing the sun in Dawn Mountain, there was a spot about a dozen meters in diameter where a large amount of Nirvana Qi s had erupted.

Such a location was rather rare in the entire outer city.

"It's good now, we need to build our home here, and it will take half the effort to cultivate. In this place, the level of Nirvana Qi is almost at the level of the inner city." Long Chen said with a face full of smiles.

Everyone in the Divine Kingdom was also very annoyed after a long time. Mo Xiaolang could pretend to be a Huang Beast, but the kitten looked like a human child. As long as he did not run around, no one would pay attention to him, but Su Yan was more troublesome.

Seeing that everyone was working hard, she also trained hard in the God Nation and was about to reach Nirvana Tribulation Realm.
