

War God 1741

Chapter 1741 - Ripples

Other than Su Yan, the others helped out as well. After a day, a small and exquisite courtyard was formed in everyone's hands. This life seemed very comfortable.

With Long Chen's capabilities, as long as outsiders approached, he would be able to detect it.

After they were done, everyone sat at the back of the mountain, watching the sunset which was about to fall upon the western mountain.

"So beautiful." Su Yan leaned on Mo Xiaolang's furry back, both of her hands pulling at her chin, and looked at the moonlight in the sky. She said: "Since I'm already here, I have to work hard too.

Everyone laughed.

Perhaps they would never forget that evening when they were quietly watching the setting sun.

Ling Xi also leaned on Long Chen's leg, and quietly sat on a large cyan colored rock.

This was a rare day of peace and quiet, and they were quietly enjoying this brand-new world.

The kitten was the only one who fell asleep, feeling bored.

Two hours later, Long Chen stood up. He gathered everyone and said: "This place may seem peaceful and peaceful, but in reality, the waves are surging and turbulent. We appear to be free, but in reality, we have already been imprisoned. However, it is not our fault. It is just because we are still young. "

"From today onwards, we will begin a new campaign to let this world understand that if we can climb to the peak of Dragon Sacrifice Continent, the Immortal God Realm can too. It will also let them understand that taking control of our lives, is their biggest mistake in life. "

He wasn't just warning everyone, he was also warning himself.

He couldn't just forget that he was actually in hell because of his comfort.

"Dawn Mountain is the only pure land for us in this hell."

Under the setting sun, they swore an oath.

No matter how much effort they put in, they had never felt the slightest bit of fear. Whether it was the descendants of the War God or the 72 - The Ancient City of God's descendants, neither of them were able to stop their growth.

"The five of us will never be separated." Su Yan said slyly.

"That's right." Mo Xiaolang revealed a smile, and looked at Long Chen with a sincere gaze, saying: "I only hope that the next time Big Brother goes all out, don't block me too much."

He was still preoccupied with the last incident.

Long Chen did not know if he was right or wrong, but he thought that there wouldn't be a next time.

"I have a plan. Both of us are about to pass through the sixth stage of the Nirvana Tribulation. Maybe we can try to cross it together." Long Chen suddenly said.

"In that case, no matter who reaches that critical point first, they will still benefit each other."

Everyone laughed out loud.

Forward, Brilliance was waiting for them.

Just as Long Chen and the others were planning to enter Dawn Mountain, a mysterious girl came to the area controlled by the Demon Bear The War God's Team. The three War God's Guard were cultivating, but the mysterious girl had barged into the place Jiang Yan was cultivating.

"Who is it!" Jiang Yan suddenly stood up.

Standing in front of her was a graceful and outstanding young lady. However, there was a dense hostility between her brows, causing people to feel fear in their hearts.

Jiang Yan vaguely remembered this appearance. She knelt on the ground with incomparable excitement and said with a trembling voice: "War God's Guard Jiang Yan greets Miss Yao!"

Su Yuyao sat on a luxurious bench and said with an air of energy, "Go and call the other two over. Hurry!"

"Yes sir!" After Jiang Yan received the order, she immediately went to call Xiong Ba and Li Chongfeng over. At the same time, she was extremely shocked, why would Miss Yao's clone suddenly come to The War God's Team with such a precious treasure?

When the three of them kneeled in front of Miss Yao, they still didn't understand. As for the words Long Chen said, after a day had passed, they had all long since forgotten about it.

"I don't know what Miss Yao ordered, but as long as the three of us can do it, we will definitely go through fire and water." I won't give up even if I die. "

Xiong Ba said in fear.

He was worried that Miss Yao was targeting the three of them.

But no matter how she thought about it, she didn't seem to have the ability to attract her attention.

Su Yuyao looked at the three of them with slight disdain, then said, "Let me ask you, is your The War God's Team called Long Chen here today?"

So it really was that guy!

The three of them were astonished. Only then did they remember what Long Chen had said today, saying that he had offended Miss Yao, that he had overstepped his limits and was now being imprisoned by Su Zhen.

"Miss, there is indeed such a person, he was brought by the Dragon Soul Divine General, Lord Ao Chong." Xiong Ba answered as a First Commander.

Su Yuyao's eyes lit up.

"May I ask for your instructions, Miss?" Xiong Ba did not dare to raise his head and continued to ask while trembling.

They were all shocked, looking at Miss Yao's face, could it be that Long Chen was speaking the truth? Was that spoiled brat really that awesome?

The young city lord had personally imprisoned him?

She had received her father's warning not to disturb Long Chen and the others. However, she was unwilling, how could she let them get away with it like that?

"I'll give you a mission." Miss Yao said coldly.

"Go ahead." Xiong Ba continued to lower his head.

It's fine as long as you don't kill him, and you can't let him escape either. You have to make him regret coming to this world, for example, you can marry his woman, and you can even throw them in front of him, or you can throw them in the wok to cook them, and you can strip them all off and put them in front of everyone, and you have to do whatever you can for him to kneel down and beg for forgiveness. Can you do it? "

The three War God's Guards raised their heads and looked at Su Yuyao in astonishment.

When they heard these words, how could they not understand that what Long Chen had said today was definitely not nonsense, but something that had truly happened? He had truly offended Miss Yao, moreover, he had offended Miss Yao in an extremely serious manner, and his innate talent was outstanding. Why didn't he just kill Long Chen?

This young man really had such shocking power that even this Miss Yao didn't dare to kill him. She could only entrust this power to him.

"Can you do it!?" Su Yuyao berated loudly.

The three War God's Guards hurriedly kneeled on the ground and said, "Yes, we can definitely do it!"

Su Yuyao giggled and said, "That's good. I know you animals are the best at it." I'll tell you guys, if he doesn't suffer enough, I'll annihilate you guys. In order to protect your dog heads, you must think of a way anxiously. "

The three of them did not dare to raise their heads. They were drenched in sweat.

They mourned for Long Chen in their hearts, they never thought that after offending Miss Yao, they would meet such a tragic end. The ideas that Miss Yao had mentioned just now could only be described as extremely poisonous. But if he could only do this much, it didn't seem to be enough to satisfy this Miss Yao.

"Remember, you can't be too frequent. You have to bring despair to them every few days. At the same time, don't let them escape the area controlled by your team. I'll come over every ten days to check on your results. "You have to make it beautiful for me, otherwise."

"Yes, yes!" Xiong Ba, Jiang Yan and Li Chongfeng kept on kowtowing.

After a long time without a sound, they raised their heads and saw that Su Yuyao had already left.

The three of them looked at each other with cold sweat all over their bodies.

Jiang Yan laughed bitterly: "I never thought that what Long Chen said was true. Not only must we prevent him from escaping, but we must also prevent him from committing suicide from grief. "

"Yeah, if I were you, I'd rather kill myself." Li Chongfeng laughed bitterly.

Xiong Ba stood up and said: "Don't spout nonsense. From today onwards, our mission will be to torture Long Chen to the point where he wants to die. Only then can we survive and be valued by Miss Yao. To torture you once every ten days, you have to change your methods. Quickly go back and think of a solution.

"Yes sir!" Jiang Yan and Li Chongfeng answered while trembling.

Just as Long Chen had imagined, silence was temporary. The War God's Ancient City was turbulent and disaster would soon befall.

On Long Chen's side, it was the early morning of another day.

They were all near the place where the Nirvana Qi would erupt. Su Yan entered the Divine Kingdom to cultivate. The little wolf transformed into a Sun Devouring Demonic Wolf and absorbed the essence of heaven and earth, strengthening itself, while Long Chen and Ling Xi sat at the center of the Nirvana Qi.

Long Chen had the body of an Ancestral Dragon, and the blood of the Goddess of Su in his body which was of a high concentration. Long Chen had to experience the power of the War God's Ancient City before he realized how strong the Misty Sect, which was able to fight against the ancient city of god's descendants, was.

Of course, to the current them, tribulation of reincarnation was just a dream.

Long Chen was only at the late stage of the second stage of Nirvana Tribulation Realm.

They formed a cocoon of light and surrounded the two of them. Even if they didn't have a room, they could still combine Yin and Yang to speed up their cultivation.

Under the light of the morning sun, everything was flourishing.

Right at this moment, Long Chen stopped his cultivation and threw the sleeping kitten into the God Nation. As for Mo Xiaolang, he had to reveal himself after all, as long as he could maintain his Sun Devouring Demonic Wolf's shape and ruthlessness, Long Chen would call him a tamed dire beast. No one would doubt that he had tamed even the Wolf Fang Army.

The reason why they were on guard was that someone had arrived.

Long Chen, Ling Xi and Mo Xiaolang were the Iron Triangle of their current fighting strength.

The people at the bottom of the mountain faced the sun and saw the cold Long Chen, the beautiful Ling Xi and the ferocious black demon wolf.

"It's them, let's go!"

A dozen or so The War God's Team black armored warriors came rushing forward with a loud noise. Their leaders had all reached Seven stages of Nirvana Tribulation, and it was unknown what they were up to.

Chapter 1742 - The Fairy Tale

More than a dozen warriors from Devil Bear The War God's Team rushed up to Dawn Mountain.

Long Chen stared fixedly at them as they rushed to his front, his expression unperturbed, but he could roughly guess that these people were ferocious, and definitely did not have any good intentions coming up.

Very quickly, the dozen or so fierce black armored warriors reached the peak of Dawn Mountain, arriving in front of Long Chen and the others. The leading practitioner had full Seven stages of Nirvana Tribulation, and although it was only at the early stages, it was still extremely extraordinary. It was a man dressed in fiery red beast skin with a large number of human skulls wrapped around his body. His head was completely bald, his skin was slightly gray, and he looked extremely ferocious.

And before that, it was relatively difficult for Long Chen to kill the Chief of the Wolf Fang Army.

The group of practitioners that he had brought along all possessed Sixth Stage of Nirvana Tribulation. Although they could not compare to Qin Fengxue, who possessed the Snow Wind Spiritual Dragon's lineage, their ferocious fighting capabilities were not far off.

Long Chen did not say anything, but the group of people looked at them coldly, walked around them, and arrived at the back mountain of Dawn Mountain, then arrived in front of the warm little house that Long Chen and the others had built, the place where the Nirvana Qi had erupted.

The man in animal skin turned around and his fierce gaze landed on Long Chen. He spoke with a voice as loud as a wild bear: "You two, could it be that you don't know that no one can live next to the Spirit Dragon Cave? Don't tell me you're new and don't know the rules. Young masters like you know much more about this than us! "

Previously, he had looked at with envy, but now, his eyes were fearless. How could Long Chen not know what had happened?

He said indifferently: "What Spirit Dragon Cave? Do you mean the place where the Nirvana Qi erupted?"

"Pretend you're playing dumb!" His eyes narrowed and he said: "Since you have played the fool, I will tell you the rules. Within the Spirit Dragon Cave area, the concentration of the Nirvana Qi is ten times higher than that of normal cities, and our Devil Bear Martial God District only has a total of ten odd Spirit Dragon Cave. Everyone used it, yet you are building a house in front of the Spirit Dragon Cave, doesn't that mean you want to monopolize the Spirit Dragon Cave? Brothers, this little guy doesn't understand the rules. Let's tear down his old house and let him understand the rules. "

The moment this person finished speaking, the other people seemed to have made all their preparations and rushed towards the wooden house Long Chen had just built. Based on logic, Long Chen could not stop them at all. After all, in front of them, he at most had Fifth Stage of Nirvana Tribulation.

"I'll kill whoever moves my thing." Long Chen stood in front of them, his body was filled with an aggressive aura, his words were full of weight, and this sentence actually made everyone stand in their original place in fear.

"I have already occupied this Spirit Dragon Cave. If you guys are not convinced, you can either defeat me or complain to Xiong Ba and the others. "Of the two choices, you can choose any one of them."

How could Long Chen not understand that the Spirit Dragon Cave was just an excuse? His true purpose was to teach them a lesson. And no ordinary lesson.

After hearing Long Chen's straightforward and direct words, they looked at each other in dismay.

The Grey-skinned Beastskin warrior was even more surprised. He didn't think that the mission would be so easy to find an excuse for, he still wanted to give Long Chen a chance to slowly adapt.

"A hothead that was raised by a large clan." After sizing up Long Chen for a while and reaching this conclusion, the man in animal skin didn't hesitate anymore. He grabbed out a young warrior who had just stepped into the Sixth Stage of Nirvana Tribulation and joined the War God's Ancient City not long ago, and said: "Jiang Lei, go and clean him up, and let him know the rules of the The War God's Team.

This is not your home, so you can do whatever you want. Even if it's your introduction, Lord Mortal Dragon Soul General, you will still have to follow the rules of the War God's Ancient City. "

He was born in poverty, and in order to enter the War God's Ancient City, he had even put his life on the line. He finally succeeded and brought honor to his ancestors, so what he detested the most was a trash like Long Chen, who had relied on his connections to get here.

When the leader shouted his name, he was so happy that he had no choice but to do so. In his mind, he had already imagined himself ruthlessly beating up Long Chen, causing the beauty beside him to have a whole new level of respect for him.

What he wanted to prove was that even though he was born into a low family, he was still far, far stronger than a greenhouse flower like Long Chen!

Towards a person like Long Chen, he was truly disdainful deep down in his bones.

"Boss, don't worry. I will definitely complete the mission perfectly. We'll just watch." Against a mere Long Chen, there was naturally no need for everyone to do anything.

Jiang Lei trained in the Way of Heavenly Thunder, and it was pure thunder elemental energy. As he advanced, purple lightning surged around him, surrounding him and causing the ball of lightning to explode on his body again and again. The surrounding plant spirits were trembling, and the air was hot and dry.

If this fellow was placed in Dragon Sacrifice Continent, he would be able to kill True Martial Emperor.

But now ...

His field of vision had grown higher, and the mountain peak back then was now just a joke. Facing such a strong enemy, Long Chen said to Ling Xi in a soft voice, "Sixth Stage of Nirvana Tribulation, they are the weakest, try practicing."

Ling Xi had inherited the highly concentrated blood of the Goddess of Su, the legacy of the Piaomiao Immortal Sect, and even eighty lines of palaeogeostats. Although it was only in Fifth Stage of Nirvana Tribulation, in terms of fighting strength, it already possessed the qualifications to fight those above its level!

"It depends on my performance." Ling Xi smiled peacefully. In front of that fierce looking Jiang Lei, her face was already filled with coldness, and in her hands, two Heavenly Swords appeared. The eight Heavenly Swords were all under Ling Xi's control, but the one she could control was less, and currently, she was using the Immortal Execution Archipelago and the Burning Heaven Sword!

The Divine Punisher Blade was the strongest killing sword, it was extremely similar to the God-Slaying Sword!

Right now, it was equivalent to an enhanced version of the God-Slaying Sword!

When it was used, it combusted in Ling Xi's hand, turning into an extremely high temperature fire crystal. When the Burning Heaven Sword appeared, the surrounding temperature shockingly increased, and the Burning Heaven Sword formed into a fireball, surrounding Ling Xi within.

Seeing Ling Xi make her move, for the first time, everyone was stunned.

At the start, they only wanted to mock Long Chen's cowardice. However, after the appearance of the two heavenly swords, the slaughter of the Immortal Execution Archipelago and the power of the Burning Heaven Sword shook them.

Jiang Lei retracted the lightning energy from his body, putting all of the explosive power back into his body, he waved his hand and said: "I am not fighting with women, trash who is hiding behind women, coward, quickly come out. Do you really only know how to grow up with nothing but a woman's crotch and belly? "

Everyone laughed, feeling embarrassed for Long Chen.

To dare to speak so arrogantly to a woman to take part in a battle, his guts were truly unbearable to look at.

However, no matter how much they laughed, in their eyes, Long Chen was just a clown. Ling Xi did not get angry because of this, she just followed her original movements, and when the other party was laughing, her figure quickly changed!

In that instant, the entire Dawn Mountain was filled with Ling Xi's snow-white goddess-like figure. It was extremely fleeting, and even Long Chen was unable to tell where Ling Xi's real body was in such a short amount of time.

"This innate Tao technique is the most famous and classic among the entry level innate Tao technique, it is a Hallucination Steps technique. With the cooperation of the Nine Hell Illusory Butterfly, this innate Tao technique will have a two hundred percent effectiveness. I remember its name, it should be the Immortal Mystery Trail."

There was only one more word to the Misty Sect.

Back then, he had taken the name Misty Sect because of this footwork.

The crowd burst into an uproar the moment she appeared.

"An insignificant skill!"

Jiang Lei knew that his brothers were waiting to see his performance. After Ling Xi made her move, his face was full of smiles as she displayed the Way of Thunder. She gathered all the thunder and lightning in the world into her hands, forming two fully meter long purple lightning balls.

"Where is the real body?" Jiang Lei sneered and looked around coldly.

"Right here!" His eyes lit up, he saw that Ling Xi, who was in front of him, was wielding a pair of swords and was rushing towards him. His opponent's two swords were both palaeogeostats s, with a total of 10 lines, he did not dare to be careless, and she gathered her fists together.

But what made him stunned was that the Thunder Lightning Ball had actually destroyed Ling Xi.

The living women vanished in an instant.

"Damn it, I underestimated her power!" "Kill that beauty!" Jiang Lei was stunned.

At this moment, two sword Qis rushed into his body, causing blood to drip down his back. At the same time, one Murderous Sword Qi and another overbearing flaming sword Qis destroyed all of his meridians and bones at the same time, causing him to suffer extremely heavy injuries in that short moment. The intense pain drowned out his nerves, causing him to let out an unprecedented scream!

Jiang Lei weakly fell to the ground, and when he landed, Ling Xi was completely unharmed. He had only used two simple strikes, and had completely defeated his opponent.

The twitching Jiang Lei on the ground formed a huge contrast with the floating Ling Xi.

The black armoured warriors who were still laughing, all of their expressions were stiff as they sucked in a breath of cold air. They swore that they had never seen such an unexpected scene in their lives.

Ling Xi fluttered in the forest, kept her two swords and was pulled into Long Chen's embrace. She asked in anticipation: "Brother Chen, did you perform well?"

Her expression was savage, causing others to be unable to resist kissing her on the cheek.

The last time he lost to Su Yuyao was an unbearably heavy blow to her, so she had been working even harder than Long Chen during this period.

Everything that had happened today was the result of her hard work.

"As expected of my family's darling, you performed very well." Long Chen completely ignored the others and kissed Ling Xi on the cheek. The aftertaste was endless, causing Ling Xi to giggle.

Chapter 1743 - Tri-coloured Halberd

"You're courting death!" He helped Jiang Lei up, and the two wounds on his back was enough for him to recuperate for a month. The current Jiang Lei was already unconscious, so the man threw him into the God Kingdom. The group of people looked at each other, and all of them looked at Long Chen with extreme viciousness, as they approached Long Chen.

The man said, "Long Chen, and this little girl Ling Xi, listen carefully. All of you had just arrived and yet you dare speak such arrogant words about seizing Spirit Dragon Cave and now you have even injured Jiang Lei severely. You are already committing a heinous crime by killing all of your compatriots and acting so arrogantly. As one of the captains of the The War God's Team, I, Xiong Pi, have the authority to imprison you and to put emphasis on punishing you. You better not resist, otherwise, it will bring about even more severe punishments. You must always remember, the The War God's Team is an army, not a place where you can do whatever you want. This time, even Senior Ao Chong cannot protect you. "

If they wanted to kill Long Chen, they would need a reasonable excuse. Now, the reason was valid. Xiong Pi no longer had to be courteous, and directly instigated a group of people to surround and attack Long Chen and Ling Xi.

"You and the wolf cub watch, I will deal with it myself. If I don't get rid of this kind of trouble, then there will be no end to it." Long Chen and Ling Xi said a few words softly before they gently swung Ling Xi around, allowing her to stay beside the Sun Devouring Demonic Wolf that was ferociously staring at them.

The current Mo Xiaolang, was extremely ruthless, completely like a dire beast.

"Let's cripple Long Chen first. Brothers, take revenge for Jiang Lei!" Since Ling Xi was so beautiful, torturing her was indeed a mental barrier, so everyone decided to settle this matter with Long Chen first. This time's mission was also like that, and the only way to torture him was to control Long Chen first.

A group of warriors who were much stronger than Jiang Lei came charging in like a swarm of bees.

Ling Xi was not at all afraid, because Long Chen had the most life-saving ultimate, the Time Traversing Dragon.

Thus, he was even less afraid of a group battle.

The group of warriors all took out their own Dao artifacts. Among them, some of them even had palaeogeostats s. What Xiong Pi held in his hand was a deathly gray battle blade, and it was extremely similar to Long Chen's Godslayer Sword.

The Dao Xiong Pi trained in was the Dao of Death.

Xiong Pi was a capable general under Xiong Ba, who ruled over life and death. Basically, when he attacked, the other party was bound to die, and his way could be said to be the path with the most astonishing destructive power. Otherwise, Xiong Ba would not have let him take the lead.

The others weren't too weak either.

There were even three martial artists that held three colors, but all of them looked the same. All of them were ten lines of palaeogeostats with three different types of poison, fire, ice, and ice. The three of them combined to form a battle formation that had combat strength that was not weaker than Xiong Pi!

As for the others, they were just itinerant soldiers to Long Chen.

Ling Xi's fighting strength was unexpected, but no one overestimated Long Chen. The only reason why they attacked together was to ensure that the situation was safe. Xiong Pi and the other experts were mostly just watching from the back.

In the blink of an eye, two warriors arrived in front of Long Chen.

To the current him, other than Xiong Pi, everyone else had come to chop vegetables. Long Chen took out the God Slaying Sword, and in the blink of an eye, five people swept past, and the Dao Artifact in their hands shattered in an instant, turning into dust. And in the next moment, they discovered that each of their chests had an additional wound that was quickly corroding, which was practically taking their lives.

The speed and might of the Deity Slaying Incantation was precisely this powerful.

When Long Chen held the God Slaying Sword horizontally in front of the remaining six people, his expression was cold and indifferent as he took a step forward, yet everyone subconsciously took a step back. Seeing the blood dripping from the God Slaying Sword in his hand, even Xiong Pi was stunned for a moment and couldn't react for a long while.

"He's actually this strong?"

Ling Xi's performance was breathtaking, but Long Chen was nearly ten times more breathtaking than her. Previously, the killing moves of the Deity Slaying Incantation were quick, accurate and ruthless, and the speed at which she swung her sword, surpassed their speed of resistance.

It was just a moment!

Even Xiong Pi wasn't sure that he would be able to do this.

"Calm down!"

However, his trembling body still showed how nervous he was right now. It was not because he felt that Long Chen was too shocking, but he suddenly remembered something. A youth that even Miss Yao hated to the point of gnashing her teeth in anger and being powerless, who was known to be so gifted that even Young City Lord Su Zhen was tempted, should have a very terrifying side to him, right?

Unfortunately, he had never thought about it before.

Now that I think about it, it becomes a spell that I can't stop myself from chanting.

"Attack!" He used a roar that shook the forest to increase his courage.

At his command, the rest of the warriors moved at the same time.

The three halberds rushed forward, forming a super array with three different types of powers, expanding to the gigantic circular array formation that was a hundred meters wide. Within the indistinct array, Long Chen was unable to see where the killing intent was coming from!

"Kill!"

The explosion of the Diagram Array had brought the three powers within reach. This was the power of the Heavenly Dao. As long as it was related to the Heavenly Dao, its might would not be simple.

Rip!

Fire, frost, and deadly poison struck him.

Long Chen was completely focused on the sword, the God Slaying Sword immediately turned blood-red, it was completely covered by the Ancient Slaughterer Symbol. The God Slaying Sword this time was

undoubtedly the king of the slaughter swords, the killing intent from the Primordial Blood Spirit Dragon was able to make others submit without even fighting.

"Eternity in an instant!"

This voice that sounded like sleep talk suddenly sounded out. It was like a nightmare. Everyone discovered that they could not move. Nothing was more frightening than being unable to move, because anyone could be killed at this time.

Honestly speaking, these people's Nirvana Qi were way stronger than Long Chen's. Long Chen was simply unable to restrict them for long, and in the blink of an eye, he had already completed his attack.

Wherever the Heaven Slaughter Blood Sword went, the Dao weapons would be devoured by the sword, including the three palaeogeostats halberds. The Heaven Slayer Sword could be said to be the terminator of all the Dao weapons, and after destroying the Dao weapons, Long Chen realised that the Nine Dao Mark on the Heaven Slayer Sword was only one step away from becoming a palaeogeostats.

Long Chen disdained killing them, and didn't want to let them find an even bigger excuse, but he still fiercely taught them a lesson. Besides Xiong Pi, everyone else had their hands and legs broken. While that Xiong Pi was a true expert, Long Chen's simple method of fighting was still unable to defeat him!

In the blink of an eye, what was placed before Xiong Pi was his subordinate that was screaming miserably.

From the start of the battle until now, only twenty breaths had passed.

It was as if Long Chen did all of this effortlessly, he wiped the blood off the Immortal Execution Archipelago's blade and looked at the ninth dao device, thinking to himself: I wonder, when the Heaven Slaying Sword forms the tenth dao pattern, what kind of changes will occur after it becomes a palaeogeostats?

Only he could think of this insignificant question at this moment.

Xiong Pi trembled as he watched all of this. His heart was already filled with an insane amount of hatred, and this hatred was born from his fear. He noticed that Long Chen wasn't the greenhouse flower he had

imagined at all, but was instead someone who was close to becoming a monster. Xiong Pi walked with caution with every step, as the person he feared the most was precisely this kind of monster.

"In the end, you're the only one left." Long Chen wiped away the blood on the God Slaying Sword, the incomparably sharp sword tip pointing towards his opponent.

The grey colored battle saber in Xiong Pi's hand seemed to have felt the provocation of the God-Slaying Sword, and it emitted a savage howl. It wasn't like a wild beast, but instead a person in times of despair, and the grey colored aura suffused out, forming countless ghostly figures on the battle saber.

"You, you!"

Xiong Pi retreated two steps, then he barely managed to raise his grey battle saber.

He doted on his warblade, and when he saw that everyone else's Dao-seals were shattered, he felt as if he himself had seen that scene as well.

"Everyone fell, only you survived. What do you think Xiong Ba and the others would think of you? If you retreat without fighting, in their hearts, perhaps you are just a coward? "

Long Chen said indifferently.

Xiong Pi's face was filled with fear, like a cat whose tail has been stepped on, and he cried out in surprise. "How did you know it was the Grand Commander who asked me to come!"

Long Chen laughed in disdain, and said: "I already indicated that this woman only knows how to act like dog shit when that bitch Su Yuyao is asking you to mess with me. Otherwise, with her crippled brain, what good plan could she come up with? Go back and tell Xiong Ba what I said, and let him think of an exciting idea next time. "

In the entire team, only Xiong Pi truly knew that this order to find trouble was personally given by Su Yuyao, but Long Chen easily found out. In the entire outer city of War God's Ancient City, perhaps only Long Chen would dare to say such things to Su Yu Yao.

Xiong Pi's expression was lifeless.

He was hesitating as to whether he should take the final gamble.

After all, he was stronger than the others. But he was afraid, afraid that he would lose too quickly. Not only was he losing face, he was also losing his weapon. In that case, his battle prowess would be greatly reduced.

Should they fight or not?

"You don't want to go?" As long as Long Chen held the God Slaying Sword, he could move closer to his opponent.

"Let's go!" Xiong Pi was shocked and hurriedly brought all the martial artists into the Divine Kingdom as he fled in panic. Although it looked fierce, in reality, it was good at bullying the weak and afraid of the strong. Long Chen had a clear understanding of its temper, and didn't even need to beat it up to scare it away.

If he really wanted to fight, it would take a lot of effort, and he might even need to use up a lot of energy to transform his Divine Dragon Body.

"But unfortunately, it caused you to miss a chance to drink blood." Long Chen looked at the Heaven Slaying Sword, anticipating its tenth dao pattern.

The three of them gathered.

Long Chen said: "I have to step up my efforts, Su Yuyao will not give up. Even though I have the Time Traversing Dragon, she can't do anything to me, but since I'm here, I can't let this woman toy with me anymore."

Chapter 1744 - framing

Xiong Pi brought along a type of brother as he fled in panic and returned.

When they saw that it was only the pale-faced Xiong Pi, the three War God's Guards were shocked. They were currently drinking tea, and currently, the three of them had practiced to their limits as they stood up and stared fiercely at Xiong Pi. Xiong Ba picked him up and asked, "Where's the others?"

Xiong Pi was so frightened that he quivered, releasing the others from the Divine Kingdom. More than a dozen martial artists, severed arms, and serious injuries caused by them were all screaming miserably.

Li Chongfeng said with a heavy face: "Isn't it just a guy who cleaned up a Fifth Stage of Nirvana Tribulation? How did it end up like this? According to your orders, what did you do to Long Chen?"

Xiong Pi trembled and stuttered for a long time. Only under the coercion of the Three Commanders did he explain everything that had happened.

"You piece of trash, you ran back here in advance without even fighting him?" The three of them looked at Xiong Pi with gazes of disbelief.

"Yes. Although he didn't fight, I feel that as long as we fight, his miraculous weapon will cut my Soul Severing Blade. This is a weapon that I inherited from my ancestors."

"My family has your mother!" Xiong Ba roared angrily and kicked Xiong Pi flying. After falling to the ground, he only had half his life remaining. Although this punishment was severe, Xiong Pi still felt that it was much better than having his Dao Artifact destroyed.

He gloomily kneeled on the ground, not regretting his actions at all.

"This piece of trash, cultivated to the Seven stages of Nirvana Tribulation for nothing, no wonder he couldn't reach the late stage even if he was dead." The black-faced Xiong Ba was so angry that he almost died.

"Big brother, let's sit down and discuss." Jiang Yan sat upright, with her chest on the tea table, she attracted the attention of the other two leaders.

Jiang Yan said, "It looks like this Long Chen at least has the power of Seven stages of Nirvana Tribulation. But since he chose to scare Xiong Pi off, his combat power should be around the same as his, so it's unlikely for both sides to suffer injuries."

"That makes sense." Xiong Ba nodded his head, and said: "Since that's the case, then only the three of us can join hands and move out. This is a mission given by Miss Yao. Since Long Chen knew that it was Miss Yao's orders, then we don't need too many excuses.

Li Chongfeng clapped his hands, and said: "Alright, just with the matter of him killing his compatriots, we can find an excuse to make him suffer time and time again, give him a terrible lesson, and make him regret coming to this world."

Jiang Yan looked at the injured people and said, "But, these non-fatal injuries don't seem to be serious enough."

Three Commanders squinted his eyes, roughly understanding what the other party meant.

"Let me do it." Jiang Yan smiled charmingly, and revealed a dozen plum shaped crystals in his hand. With a flick, the plum shaped crystals disappeared from his hands, and the ten over warriors who were kneeling in front of them all stared blankly, their eyes opened wide and fell on the ground.

A fist-sized hole of blood appeared on each of their foreheads.

Blood flowed everywhere.

Xiong Pi, the only one who was safe and sound, was trembling all over and incomparably puzzled as he blankly and shockingly watched this scene. His entire body was trembling as he struggled to move his body.

And at this time, Three Commanders was already standing in front of him.

"Xiong Pi, all these years, I've been treating you pretty well, right?" Xiong Ba said in a serious tone. He lowered his head, pulled up Xiong Pi, and patted away the dust on his body.

"Commander, you're my mentor, my parents!" Xiong Pi hurriedly cried out.

"That's it." He pointed to the corpses and said, "You guys have just returned from the Dawn Mountain and met with a life-and-death battle. Your brothers were all killed by Long Chen and your opponent's methods were extremely cruel.

Xiong Pi was startled for a moment, then he nodded with all his might and said, "Grand Commander, I understand. I'll definitely tell everyone the truth in front of the Devil Bear The War God's Team, and tell them the truth. That kid is arrogant and despotic, and he looks down on no one else.

"Yes, we want revenge." Xiong Ba and the other two smiled at each other.

Not long after, Long Chen heard an urgent bell chime. This was the bell chime that summoned the Demonic Bear The War God's Team, and after it finished ringing the bell twenty times, it was clear that all the warriors would have to rush to the plaza within twenty breaths of time after the bell chime ended.

"Big brother, this is against us, right?" Mo Xiaolang said casually.

Long Chen nodded his head, and said: "The gathering of the bell, and everyone present, should be to judge my crimes."

"Go?" Mo Xiaolang asked.

"Of course. I am now a member of the The War God's Team, how can I not listen to orders?" The corner of Long Chen's mouth revealed a slight smile.

In reality, he felt helpless, because he enjoyed the peace at that moment very much. But as long as Miss Yao was around, Long Chen would never be at peace. Since the three War God's Guards could not calm down, Long Chen could only let them calm down first.

Of course, in terms of fighting strength, Long Chen was indeed not as good as the three War God's Guards.

Being able to lead a huge army of a thousand people was not a simple matter. All the War God's Guards were the core of the outer city and were immediately under the orders of the Martial God's descendants.

and Ling Xi quickly approached the plaza as they travelled through the forest. Mo Xiaolang, on the other hand, had entered the Divine Kingdom, so this was not a real battle.

The three great War God's Guards stood on the tall mountains beside the plaza with their hands behind their backs. Their eyes were fierce, and very few people below had seen the three of them being so serious, so they were all somewhat terrified. Everyone knew that something must have happened.

"What happened to Three Commanders?"

"It's those blind people who actually provoked them?"

"Back then, before Three Commanders even joined the War God's Ancient City, he had already formed a very famous force and went on a campaign against the entire world. Commander Xiong Ba had even single-handedly killed a hundred members of the battle team and the three of them teamed up to kill a dire beast with Eight stages of Nirvana Tribulation."

"Our thousand man team, even added together, isn't a match for the Three Commanders."

Long Chen and Ling Xi stood in the middle of the crowd, quietly listening to their laments.

They were right, just in terms of fighting strength, they had completely suppressed Long Chen, someone who could not even be confined for an instant by eternity. It was likely that even Long Chen's strongest, the Heavenly Slaughter Blood Sword, would not be able to do anything to them. Especially that Xiong Ba, he was even more so to the extent of suppressing Long Chen with all his might.

Just like Su Yuyao, even if Ling Xi obtained the eight heavenly swords, he still wouldn't be able to defeat her.

It was very hard to make up for the enormous disparity in levels.

Long Chen was only at the second stage of Nirvana Tribulation Realm.

Compared to everyone else, his cultivation was pitifully low.

Very quickly, everyone had arrived.

Before this, Three Commanders did not set his gaze on Long Chen.

However, since they had just arrived, the commotion caused by their arrival was so great that even among the crowd, they were still extremely dazzling.

Buzz.

Xiong Ba clenched his fist. Everyone felt a wave of overwhelming aura sweeping over as they all took a few steps back. Most of their faces were already pale, and that divine might also caused Long Chen to take a step back.

Under his control, everyone seemed to be stuck in a quagmire, unable to move and having difficulty breathing. He felt that the person before him wasn't a human, but rather a primordial beast.

"Everyone!"

Xiong Ba's voice was like a bomb, ringing in everyone's ears, drawing everyone's attention to him.

Everyone felt their mouths go dry.

"This guy's fighting strength is so terrifying, he's almost at the galactic octophore level." Long Chen squinted his eyes.

At this time, Xiong Ba opened his Divine Kingdom, and a total of eleven corpses fell to the ground.

For a moment, there was complete silence.

Everyone looked at these corpses in a daze. They were very familiar with these dead people, and the looks in their eyes when they died filled their hearts with grievance, causing the flames in their hearts to blaze. What The War God's Team valued the most were brotherly feelings and honor!

"Who did it!"

For a time, over a thousand disciples roared.

"Killed him?" Long Chen was getting angry, for the sake of an excuse to make a move, they treated human life as grass, the way these three War God's Guards acted, was truly something that he loathed.

He was a man of fair and square conduct, and did not care about these unorthodox things.

But he knew that today, the other party was determined not to give up.

Sure enough, at this time, Xiong Pi walked over to those corpses. His eyes were bloodshot, and there were two lines of hot tears in his eyes as he said in an angry and miserable voice, "Those who died were all brothers of my squad. It's all my, Xiong Pi's, incompetence, but this matter needs to be resolved.

"Xiong Pi, tell us clearly, who exactly killed them!"

"That's right, we are all brothers, we absolutely cannot let them die in vain. Tell us, where did this beast come from? No matter who it is, we, thousands of people, will not rest until we die!"

At this moment, Xiong Pi waved his hand and interrupted everyone's words. Then he said in a heavy tone, "Four hours ago, I brought them to Dawn Mountain."

Xiong Pi briefly described the situation and slightly changed his appearance to become Long Chen who was arrogant and tyrannical. Relying on his background, he simply didn't put anyone in his eyes and started killing whenever there was a disagreement;

Xiong Pi spoke until tears streamed down his cheeks. His bloodshot eyes stared fixedly at a certain direction within the crowd as he said, "Although everyone is clear in their hearts about who he really is, he has the Dragon Soul Divine General backing him up! How can we, people with no background, fight against him! We were born low, he is born noble, I just want to say, we should bury this matter in the bottom of our hearts, don't easily bring it up, our brother died in vain, after all, can't we fight against the Dragon Soul Divine General? "

This last sentence completely ignited the bomb.

The scene exploded, the eyes of the thousand people turning red, they turned and stared at Long Chen like wild beasts.

When the time for the fire was almost up, Xiong Ba and the other two jumped to the front of the crowd.

"Commander, if we let go of these two animals, I will withdraw from the demon bear."

"Yes, all of us will withdraw!"

Chapter 1745 - Lying on the Couch

The level of the three great War God's Guards had already exceeded the limit of Long Chen's capabilities. After all, he was only at the second stage of Nirvana Tribulation Realm.

And the limit, was exactly what Long Chen wanted to pursue. So at this time, he had let Ling Xi return to the Divine Kingdom first. This way, no matter what happened, the others would be fine.

At this time, the three great War God's Guards pretended to be attacked by over a thousand The War God's Team members. Their expressions were grim as they surrounded Long Chen, and Jiang Yan among them said, "Long Chen, a few days ago, you had just arrived at my Devil Bear The War God's Team. The three of us have treated you quite well. "Now that the evidence is conclusive, we have decided to arrest you and severely punish you. Do you have anything else to say?"

Li Chongfeng continued: "Even though most of our The War God's Teams are born into poverty, that's still life. Since you ignore us like ants, it seems like we were being courteous to you for nothing previously, we don't have any background or backing, but we do have guts!"

Long Chen smiled calmly: "You three can do it, we are all people who know the truth, as long as you torture me to death, Su Yuyao will definitely give you guys many benefits. For her benefit, what are you hesitating for?"

Long Chen stood at the absolute peak, so he was too lazy to even explain himself to them.

The three War God's Guards looked at each other. They knew that Long Chen would definitely be able to see through their plans easily.

Therefore, Xiong Ba waved his hands, his face becoming heavy, and said: "Even if you were recommended by Senior Ao Chong, but as the commander of the The War God's Team, I, Xiong Ba, am not going to repent at all. As such, I, Xiong Ba, will naturally be able to face these brothers of mine who are going through life and death situations, and today, the three of us will personally take action!"

Xiong Ba's words made everyone in The War God's Team shed tears.

Being oppressed by power, the War God's Ancient City s were not as free as they had imagined. It was as if they had the hard work of becoming the descendants of the Martial God here, and they were filled with resentment towards this guy who came from a noble family.

"Great commander is mighty!" That's right! You absolutely cannot be polite with him. Otherwise, how many more of my Devil Bear The War God's Team can die? "

"That's right. Even if he has Lord Dragon Soul Divine General, we can also imagine that Lord Dragon Soul Divine General would not cover up such trash!"

"Three commanders, let's all attack together and avenge our brothers! Commander, give the order! "

Everyone was filled with righteous indignation, they looked at Long Chen with incomparably furious eyes, and wished that they could eat him alive.

When Xiong Ba saw that the time was coming, he shouted loudly: "Everyone surround him, don't let him escape, the three of us will take action ourselves, we do not want to be unable to capture him."

"Yes sir!"

Hearing such an order, everyone's blood boiled.

They all spread out, tightly surrounding Long Chen.

At this time, the Three Commanders, which was three War God's Guard s, similarly encircled Long Chen from three different directions. Xiong Ba wore a ghastly expression as he glared at the other two commanders.

The moment they acted, Long Chen felt an incomparably heavy pressure.

He had only been in the Immortal God Realm for a short amount of time, yet he had already entered the super core of War God's Ancient City. There were countless experts around him, and if he was in another place and didn't have a Spirit Snow Dog, he would not have met such a strong opponent so quickly.

Xiong Ba, Jiang Yan and Li Chongfeng were all once famous figures in the War God's Ancient City. It wouldn't be an exaggeration to say that he was a grandmaster of the outside world.

Pressure!

Three beams of light shot towards him.

Although Li Chongfeng's cultivation was the shallow, he was the fastest. In the blink of an eye, he appeared before Long Chen and gently pointed towards his forehead.

"A hundred fingers of light!"

This was a very clever innate Tao technique, Li Chongfeng trained in the way of light, the speed was extremely fast and the attack power was equally astonishing, at his fingertips, over a hundred rays of light rushed over, instantly enveloping more than a hundred acupoints in Long Chen's body.

"Late stage Seven stages of Nirvana Tribulation."

Long Chen originally wanted to struggle and challenge his limits, but he found that he was too naive. Since he had come to the Immortal God Realm, even this small War God's Guard meant that he would definitely not be a match for him. The hundred fingers of light from the Wheel of Light had quite a high level of mastery in the Dao of Light.

It would be an extremely unwise decision to fight the other party today, not to mention facing three of them at once!

It was just that at this moment, in order to challenge his limits, Long Chen had instigated the strength in his bones, so he could only brace himself and go forward!

This was the Slaughter Dragon Seal, and its power was not much weaker than the Celestial Slaughter Blood Sword. Furthermore, this was a double attack, where two Dragon Seal's and the opponent's light rays clashed with each other. It could be said that although Long Chen was stronger than his opponent in terms of innate Tao technique, in other aspects, he was completely defeated!

"He can't even withstand a single blow!" Li Chongfeng laughed disdainfully, sending Long Chen flying in Xiong Ba's direction.

Long Chen's fighting strength was a lot stronger than he expected, but he had definitely not reached that level yet. Right at this moment, the tall and sturdy Xiong Ba was like a demonic bear, afraid that he would tear Long Chen into two!

Xiong Ba had once received the War God's Blood descendant's War God's War God's Fist, a top-grade innate Tao technique that had been passed down since the War God's era. But now, in order to intimidate Long Chen once, Xiong Ba had used the Su Family's War Demon God Fist!

The so called Battle Demon, was using battle as a demon. The moment he displayed this fist technique, he matched it well with Xiong Ba's fighting style, and as though he was a demon god descending to the world, numerous battle runes appeared on his body and congealing into an array formation, all of them condensing onto his fist. In that instant, a gigantic and unstable black sphere appeared on Xiong Ba's fist, followed by Xiong Ba's fist attack!

BOOM!

Wherever the Battle Demon God's Fist landed, the ground would be covered with depressions, as dust and dirt madly swept towards Long Chen.

In this critical moment, Long Chen had just recovered from Li Chongfeng's attack and was now facing such a terrifying attack.

"This might be the true limit!"

The stronger the enemy, the more excited and berserk he would become. Although he knew that it was impossible for him to receive such an attack, Long Chen still wanted to give it a try!

Under the loathing eyes of the thousand The War God's Team disciples, Long Chen turned into a terrifying dragon that was two hundred meters long. In that instant, other than Three Commanders, everyone hurriedly backed off as shock and horror filled their faces.

"Red Dragon?"

This was the most basic of Dragon Fighter. There were tens of thousands of them in the entire Immortal God Realm, so it was not strange at all.

"Under the War God Fist, the enemy's internal organs must be destroyed, their bones should be shattered, and all the meridians in their body should be broken. Even if this guy turns into a divine dragon, he should still die a miserable death!"

Seeing that Long Chen was actually trapped and fighting with his beasts, everyone was even more excited, and could not help but rush forward to help.

Buzz! Buzz!

Such a noise sounded out beside Long Chen's ears. This was the result of the Battle Demon God's Fist, in his eyes, that simple fist power had turned into an astonishing berserk devil, disappearing in the silt and reaching towards!

"Illusory Bubble!"

The Time Dao Seal vibrated, and its chaotic energy immediately blocked off the Demon God of War Fist. In terms of nature, Long Chen's attack was thousands of times stronger than his opponent's, but the opponent's Nirvana Power was just too strong, so all the illusions and illusions that only shattered a few attacks was completely broken!

"Break!"

Xiong Ba shouted coldly, and his voice shook in Long Chen's ears, deafening him.

This was the sound produced by the internal organs, and it also had an offensive effect.

Long Chen clenched his teeth forcefully. He couldn't suppress the combat genes in his bones anymore, so even if he had to face such an opponent, he would still be stuck in a dream as he unleashed the Heavenly Slaughter Blood Sword!

Rip!

The giant dragon's tail rose into the sky.

The blood-colored ancient symbols gathered on the Heavenly Slaughter Blood Sword until they were densely packed.

"This aura of slaughter!"

Everyone was an expert as they stared blankly at the Heaven Slaughter Blood Sword. Only then did they remember that the Red Dragon was not a dragon made of fire. How could it be like this?

Just as they were wondering, the Heavenly Slaughter Blood Sword came crashing down, colliding with the Demon God of War Fist. A whistling sound filled the air, and the entire sky was drowned in a sea of blood.

"Is Long Chen dead?" Everyone could not help but ask.

The nature of the Heaven Slaughter Blood Sword was strange, but compared to the Demon God of War Fist, its weakness was extremely obvious.

Everyone was clearly able to see that Long Chen had regained his human form and was blown away. He crashed into a small mountain and sunk deep into it. His face was slightly pale, with some blood at the corner of his mouth.

This Xiong Ba's strength was too overbearing, Long Chen's internal organs had already suffered a certain amount of injury, his entire body was still trembling, but it was definitely not as serious as other people thought, because even though Long Chen was injured, he was still able to break through his opponent's fist technique, if not, it would not be a simple matter of lightly injuring him.

"Is he dead?"

The warriors of the The War God's Team were all happy as they surrounded Long Chen and pointed at him, as if they wanted to take revenge.

Just at this moment, Long Chen broke free from his restraints and walked out of the short mountain. Other than his pale face, he did not notice anything major.

In front of him stood Three Commanders with an indifferent expression, with only surprise in his eyes. Xiong Ba was shocked, he knew how strong his own strength was.

"He is indeed worthy of being called a genius that even Young City Master Su Zhen wants to imprison. A mere Fifth Stage of Nirvana Tribulation is enough to block my attack. If I don't kill him today, given enough time, what will happen?"

Chapter 1746 - Su Yuji

They could only roughly tell that Long Chen's Nirvana Power was around the level of a Giant Thunder Beast of the Ninth Heaven, so they underestimated him quite a bit. And just before, Long Chen, with less than one twentieth of his Nirvana power, had actually broken through his Demon God of War Fist. Such a feat caused Xiong Ba's heart to tremble even more.

"I will listen to Miss Yao's orders and deal with this guy. If I don't kill him in the end and he becomes stronger, I'm afraid I will die without a doubt."

This worried him.

Therefore, his eyes became ruthless as he thought to himself, "Since I've done it, I might as well go all the way." He was merely a prisoner, and Miss Yao was the beloved daughter of the young master of Su Zhen City. If he were to offend Miss Yao, the chances of him surviving would be very small. "

"Commander!"

Everyone was waiting for Xiong Ba's orders.

They were also waiting for Xiong Ba to end Long Chen's life so they wouldn't know that the order Xiong Ba had received right now was to torture him to death.

Under the The War God's Team's attentive gaze, Xiong Ba and the other two had already reached Long Chen.

"I'll deal with him."

With that said, Xiong Ba attacked again.

Under the opponent's shocking pressure, although Long Chen was unwilling, he could only retreat.

Twenty times the difference in strength!

It was just like a child facing an adult brute. The gap in strength was irreparable.

Xiong Ba said indifferently, he did not make a sound, and grabbed towards Long Chen with both of his large hands. He knew clearly that after that battle, Long Chen had almost used up all of his strength, and with that light injury, his ability to resist was no longer the same as before.

"Since you offended her, you should obediently follow the arrangements of fate." Thinking about Miss Yao, Xiong Ba's heart trembled, so he became even more cautious.

Long Chen laughed coldly, then said: "It's also just a group of people like you who are willing to be enslaved."

Even if he had fallen into a trap of beasts, Long Chen was not afraid in the slightest. That was because he had the Time Traversing Dragon.

Just as Long Chen was about to leave with the Time Traversing Dragon, he suddenly felt a miraculous existence.

Someone had arrived.

Xiong Ba had discovered him even more before he did, and everyone had raised their heads. They discovered that high up in the sky, there was a girl wearing a fiery-red long skirt. This woman's aura was truly enchanting. She gave off a feeling of extreme tranquility.

It was like a thousand year old unmoving lake, deep and perfect.

"Su Yuyao? "No!"

Her appearance was very similar to Su Yu Yao, she was almost carved out of the same mold. However, Long Chen still found that there was a huge difference, and that was that Su Yu Yao was tough and unruly.

"It should be Miss Ji, Su Yuji."

Long Chen had heard her voice before, but he had never seen anyone as this Su Yuji looked similar to what he had imagined.

He also knew why this woman had come here.

"Miss Ji!"

"I pay my respects to Miss Ji!"

The Demonic Bear The War God's Team s quickly regained their senses, and one by one, they frantically knelt on the ground, incomparably excited, and completely forgot about the death of their brothers. There was only this quiet and intelligent woman in his eyes.

Compared to Miss Yao, Miss Ji held a higher position in the War God's Ancient City and had a broader reputation. It was not only because she was an elder sister, but also because she was close to the tribulation of Samsara.

Basically, all the warriors in the outer city of War God's Ancient City had a strange feeling towards this Miss Ji.

Therefore, when Miss Ji appeared, and had completely forgotten about Long Chen.

She lightly parted her red lips, and spoke with a voice like heavenly music: "This War God's Guard, Long Chen is someone that my father left in the War God's Ancient City, my father once said, no one can touch him. On the account that you were bewitched by my sister, this matter can't be considered as a dispute for the time being, but there definitely won't be a next time, do you understand?"

Xiong Ba inhaled a breath of cold air.

He was not in a dilemma. Compared to Miss Yao, Miss Ji's authority was much higher. Furthermore, the person standing behind Miss Ji was the Young City Lord of Su Zhen. This meant that Xiong Ba could only stop, although he understood that if Miss Yao were to appear next, she would definitely make things difficult for him, and this was all Long Chen's fault.

Xiong Ba immediately kowtowed and said: "ing to Miss Ji, Xiong Ba does not dare to do it anymore, I thank Miss Ji for her forgiveness. There definitely won't be a next time. "

Only then did Miss Ji nod in satisfaction.

On the surface, they seemed to yield, but in reality, their hearts were already bursting with anger. They still thought that Long Chen had killed their brother, and this was a blood feud, and it was impossible for it to disappear just because of a few words from Miss Ji. It was just that even Xiong Ba had lost the courage to resist, and they could only hold this blood and tears in their hearts.

Humiliation!

Just then, Miss Ji spoke to Long Chen: "Follow me."

After speaking, she landed on the ground and walked towards the depths of the mountain range.

Long Chen's expression was calm as he walked past the people who gnashed their teeth with him, following Miss Ji's alluring and lovely body through the forest. Not long after, they arrived at a quiet pavilion on the mountainside, with a white jade table in the middle.

Miss Ji sat down on the opposite side of the table and made a gesture of 'please'. Her movements were graceful and she possessed a noble bloodline temperament. Her temper was very comfortable compared to Miss Yao's.

Long Chen then sat opposite to her.

Although she looked casual on the surface, she was still secretly wary of this Miss Ji. After all, Su Yuji was much stronger than Su Yuyao.

Su Yuji said. "I was looking for you in the entire War God's Ancient City's territory but you suddenly disappeared without a trace, and I didn't expect you to actually come to my War God's Ancient City."

Long Chen laughed helplessly, he never thought that he would actually be so dramatic.

The other party continued: "I suddenly have a question for you, and that is, when I arrived at Jiangyue Fringe City and met with the Wind Dragon Clan's Muldoon Master, were you in the middle of the Jiangyue Fringe City?"

Otherwise, Long Chen would not have disappeared so quickly.

Long Chen nodded. "Yes."

There was nothing to hide.

Su Yuji suddenly realized something, and she had some respect for Long Chen as she said: "Don't worry, I don't believe in the words of the Mullaney Master. You were the one who found the Spirit Snow Dog, you have already given me the favor of taking this single round. Speaking of which, do you know why I've come to find you? "

Ever since he came to the War God's Ancient City, Long Chen understood that the Spirit Snow Dog did not belong to him.

This was also something that others loved and doted on, and it didn't seem right for him to forcefully occupy it. Moreover, right now he could be considered a prisoner, so he could only listen to her.

Suddenly, he saw Su Yuji. Long Chen originally thought that it would happily charge over, but who would have thought that the Treasure Seeking Dog would actually let out a terrified scream, as if it had encountered the most terrifying thing it had ever encountered. It shrank towards Long Chen, its face filled with terror as it looked at Su Yuji.

Su Yuji rolled up her long skirt and stored the Coiled Snow Dog into the God Nation. She laughed bitterly: "Previously, it was extremely mischievous and mischievous during the Primordial Era, so I only punished it a little. I didn't expect it to have such a big temper and ran away from home in such a manner. "Thank you so much for finding it."

Long Chen was actually immersed in the details just now.

He knew clearly in his heart that Su Yuji's explanation was just a lie. The truth was that the Coin Snow Dog did not seem to like this woman at all, and that frightened expression on its face was not something that could be created with just a small punishment.

But in the end, it still belonged to Su Yuji, and the other party was strong.

Long Chen could only suppress this matter in his heart and dryly laugh for a while.

Su Yuji changed the topic and said: "Since you are already in my War God's Ancient City, with your talent, as long as you work hard, you will definitely achieve outstanding results within ten years. When you join my Su Family, you will also be able to enjoy the boundless glory and resources.

Nurturing?

Long Chen could only sneer in his heart. He naturally did not believe that this family would have such kind intentions, until that moment, he would never know what kind of scheme they were plotting.

He pretended to be surprised: "Cultivate me?" "Looks like I really have to work hard. But ... that Miss Yao and I have a grudge ..."

Su Yuji said with a stern face, "Yao'er was spoiled so much by my father, and I will teach her a good lesson when I get back. You actually disagreed with her, so you shouldn't interact more with her in the future. Long Chen, remember this. In this War God's Ancient City, in the Su Family, descendants of the Martial God, only my father Su Zhen and I are people you can trust. As for my little sister, just take her as an unruly little girl. "

From those words, Long Chen could tell that this woman was still rejecting him, her own sister.

If it was Su Zhen's intention to have Long Chen support the three siblings, then Su Yuji had tied Long Chen to his body. With her sincere invitation, Long Chen could only nod his head when she looked at him in anticipation.

Su Yuji stood up, her long skirt fluttered, her temperament was elegant and graceful, she smiled faintly, like a flower in full bloom, she spoke with her beautiful voice: "Since that's the case, I will take my leave

first. As long as you have me, your future in War God's Ancient City is limitless. You even have the chance to truly become part of our Su Family. "

With that, she floated away with a slightly red face.

"What does that last sentence mean?" In the God Kingdom, the kitten cried out again.

"That seems to be marrying Brother Chen into the family. Could it be that I want to marry her?" Ling Xi realised and her face turned ugly.

However, Long Chen's face darkened, and said: "Don't think too much into it, she is much more terrifying than Su Yuyao. Maybe it's a poisonous snake with a beautiful appearance. "

This was intuition ...

Chapter 1747 - Moonlight

As expected, after Miss Ji had left, the three War God's Guards did not come to target Long Chen anymore.

Long Chen and the others were finally able to enjoy their quiet time at Dawn Mountain. Long Chen thought that the trouble in this battle would be endless, he never expected that Su Yuji's appearance would resolve all these matters.

Su Yuji had finally rescued Long Chen.

Darkness descended. Long Chen and Ling Xi sat on a tree branch at the top of Dawn Mountain, looking at the beautiful night sky, the moonlight poured down and the ground was covered in silvery-white, while the young girl beside her looked especially beautiful under the moonlight.

Under the moonlight, Ling Xi's body became even more graceful and graceful, her skin was like cream, and flowing light revolved, her clear and exquisite facial features revealed a kind of beauty that made people unable to breathe, and a faint fragrance came from the side, causing Long Chen, who had not brought his spear up for a long time, to be somewhat moved.

It was a rare quiet night.

"It seems that the Spirit Snow Dog does not like Su Yuji. Brother Chen, if there is a chance in the future, can you bring the Spirit Snow Dog back?" Ling Xi opened her eyes wide, looking at the bright moon in the distance, she acted as if she was not paying attention and asked.

"Of course." But Long Chen's answer surprised her.

"Really?" The girl's eyes were bright as she looked at Long Chen lovingly. Long Chen could feel her little heart beating rapidly.

"Anyway, there will be a day when we fall out, won't there?" Long Chen laughed dryly.

Ling Xi was relieved at this moment as she sighed with emotion, "In the blink of an eye, such a long time had passed since I came to the Immortal God Realm. It's really hard to predict what really happened. "

"Yeah. Just like a headless fly, with no direction at all, I only remember that I want to go to Everlasting Dragon City. " That was the place he should be going to. Once he reached the tribulation of reincarnation, or even possess the fighting strength of the tribulation of reincarnation, it might not be impossible.

In the silent night, they gradually lost themselves in the attraction of each other. His movements were extremely slow, just so that Ling Xi could enjoy the process. This was not only the deepest part of the communication, it was the most hysterical communication, allowing the two's feelings and romance to completely fuse together, it was also a method for them to become strong.

Upon encountering the Ancestral Dragon, the blood of Goddess Su had fully displayed her superhuman abilities. Especially when she came to the Immortal God Realm, a place filled with Nirvana Qi s.

A large amount of Nirvana Qi s sprayed out from the Spirit Dragon Cave, forming a beautiful cocoon around them, blocking all the movements inside. Under the huge encirclement of the Nirvana Qi, Long Chen was replenished and the circulation speed increased.

Under his eyes, his snow-white body was undulating like a snake as he moved. His translucent skin made it difficult for others to resist swallowing it into their mouths. This was like a work of art.

A pair of delicate pigeons transformed in Long Chen's hands.

In this War God's Ancient City, Long Chen could only try his best to make the commotion here as small as possible. In the recent days, many of the battles that he had fought in a powerless manner allowed Long Chen to fully utilize his powers. He had long since reached the peak of his power, and had even charged towards the peak.

This mysterious divine bloodline could reconcile the berserk masculine energy in the divine dragon's body, release Yin and Yang into the two of them on an average, and even formed an unprecedented devouring force towards the Nirvana Qi in the outside world.

Weng! *

Long Chen felt his power tremble.

In this kind of strong impact state, all the pores on his body opened up in a comfortable state, like a mouth swallowing all the surrounding Nirvana Qi. Compared to his usual cultivation speed, it was hundreds to thousands of times faster.

Although Ling Xi did not have such speed, the enormous strength that she received from Long Chen allowed her to quickly improve.

When Goddess Su's blood clashed with the ancestral dragon's bloodline, the reaction she produced could only be described as terrifying.

Naturally, the virgin of the gods back then had never seen a Ancestral Dragon before.

After a wonderful moment, the young girl in Long Chen's embrace had already fallen asleep. Her face was blushing red, the redness spreading across her entire body as he slept lazily in Long Chen's embrace. Long Chen's battle intent was still surging, but at this time, he had already levelled up to the limit, and had no choice but to let Ling Xi return to his Divine Kingdom to rest.

No matter if it was Ling Xi or Long Chen, both of them possessed astonishing power in their bodies. Ling Xi had started off rather late, and now that she was so close to the Purgatory Flame Star Beast, she was facing a calamity. However, Long Chen had truly arrived at this moment, and he was already close to it.

A large amount of Nirvana Qi s turned into Long Chen's power of rebirth.

As his power grew, Long Chen could already feel a kind of explosive growth in his body. The senses of the Nirvana Tribulation had clearly appeared as well. Because Long Chen's strength was increasing too quickly, he reckoned that the Star Colossus would descend in less than an hour.

Since he was unable to leave the War God's Ancient City, he might as well continue his tribulation here.

"We've finally arrived at this moment."

Long Chen squinted, tidied up the traces left behind by Ling Xi in the surroundings, and then rushed in the direction of Mo Xiaolang and the others. They were all in the middle of the wooden house built by the group. Long Chen and Ling Xi were sneaking around, naturally they wouldn't let them know what they were doing.

Everyone stared blankly at him as he opened the door.

Long Chen did not have time to be embarrassed, he immediately said to Mo Xiaolang: "Nirvana Tribulation is about to arrive, let's begin our plan."

Mo Xiaolang hurriedly followed behind Long Chen, heading towards the back of Dawn Mountain. As for the others, he would let Cat take care of them for the time being.

In reality, in the entire War God's Ancient City, there were many people who went through tribulation on a daily basis. After staying here for a few days, Long Chen had sensed the aura of a lot of Nirvana Tribulations.

These were all extraordinary tribulations.

It was precisely because of the frequency of the Nirvana Tribulations that Long Chen was not worried about others making a sensation because of the Inferno Star Colossus. After all, there were quite a few people who had yet to enter the Sixth Stage of Nirvana Tribulation realm and within the Su Family, there were also many children who only had Divine Martial Stage s.

Once they arrived at the location, the Inferno Star Colossus would descend immediately.

Looking up in the sky, there was already a star in the sky that had been turned into flames. This was a giant beast that was at least four times bigger than the other Inferno Star Beasts, and its energy was astonishing. Although it was still deep in the void, Long Chen could already feel the astonishing heat.

"According to plan!"

He notified Mo Xiaolang.

Mo Xiaolang expanded his body, the Sun Devouring Demonic Wolf was able to prop up the heavens and prop up the earth.

A vicious aura was released from his body.

If it were any other disaster, Long Chen wasn't sure if Mo Xiaolang would be able to survive it or not, and wouldn't use such a situation to make his Nirvana Tribulation come early.

Long Chen still had a lot of confidence that he would be able to tide through the calamity of the Inferno Star Colossus.

But when the Hellfire Star Beast truly descended, he realized that the divine might of the heavenly tribulation was really not to be underestimated. The Hellfire Star Beast in front of him was ruthless, symbolizing the divine might of the heavens, and there was still a special ability in its bones that caused all living beings to tremble. In that moment, Long Chen felt as if he had become enemies with the entire starry sky.

BOOM!

A bright light streaked across the sky.

Crack! Crack!

That galloping beast had already landed in front of Long Chen from the sky, like a flaming meteor coming from the stars. It wasn't until it reached right in front of Long Chen that it formed a flaming divine beast made of stellar rocks and hellstar fire.

Long Chen stood at the peak of the mountain with both hands behind his back, exuding a heroic aura.

Many nearby The War God's Team s had noticed this place. Of course, only the Devil Bear The War God's Team could make it here in a short amount of time, they were far away and they had finally confirmed Long Chen's identity.

"It's Long Chen!"

"I never thought that his realm, would actually be Fifth Stage of Nirvana Tribulation!"

"He hasn't even reached the Sixth Stage of Nirvana Tribulation yet, and is already so powerful. He truly isn't simple. What do you think, that he will be able to overcome this tribulation? "

Many warriors from the Devil Bear The War God's Team were watching.

They had discovered the existence of Mo Xiaolang.

"Is this the Huang Beast that Long Chen tamed? Seems like I've seen it before. "

"This guy has the skills to tame the Huang Beast, even during the Nirvana Tribulation, the beast is willing to follow."

Right at this moment, the Sun Devouring Demonic Wolf made an impulse that they were puzzled about, because it suddenly seemed to lose control of itself and charged towards the Inferno Star Beast, trying to stop it in the sky.

"Phew ..."

The Sun Devouring Demonic Wolf spewed out a ball of multi-coloured flames, and smashed into the Purgatory Flame Star Beast, causing the Purgatory Flame Star Beast to let out a shocking roar. It stared at the Sun Devouring Demonic Wolf with its fiery red eyes, and it was filled with boundless divine might.

And at this time, above the endless starry sky, another star was falling downwards.

"This Huang Beast is actually this stupid to go stop Long Chen's tribulation?"

Everyone was extremely shocked.

"It seems like Long Chen's ability to tame a Huang Beast is average, to think that he would fall at the most crucial moment like this, it's too laughable."

"To think that two gigantic Inferno Star Colossus would come at the same time. It's really because this time, I don't think this Long Chen will be able to get through this calamity."

Just as everyone was discussing, Long Chen and Mo Xiaolang took their opponents away.

Chapter 1748 - Triple Nirvana Tribulation

The situation this time could be said to be extremely similar to the last time, it was just that the two of them were positioned in opposite directions. But even so, the Hellfire Star Colossus that Long Chen welcomed was twice as strong as Mo Xiaolang himself. Perhaps this was the extent to which he was envied by the heavens.

For example, Ling Xi and most of the god blood descendants, the Nirvana Tribulations they had to face were of a normal standard, so it was not difficult for the god blood descendant to pass them. As for the Nirvana Tribulation that Long Chen had encountered, it could be said that other than him, almost no one else would be able to pass it.

Mo Xiaolang was the nemesis of fire. He brought the Inferno Star Colossus that was chasing him and quickly disappeared into the forest. Wherever he went, the entire forest was destroyed.

Long Chen and Mo Xiaolang had already chosen a good place long ago. In order to prevent Mo Xiaolang's astonishing flame devouring ability from spreading, at this time Mo Xiaolang brought the Purgatory Flame Star Beast into a deep ravine. With Mo Xiaolang's speed, it could be said that he was much faster than Long Chen in dealing with that Purgatory Flame Star Beast.

In the end, it did not stop them and stared deadly at Long Chen. The majority of its body was made of stiff rocks and its eyes burned with raging flames.

Because it was in the Immortal God Realm, a place of high level, the size of the Inferno Star Colossus was also almost a hundred times smaller than before. Otherwise, with so many of them landing, the Immortal God Realm would have been destroyed long ago.

Although the size had decreased, the lethality had not decreased at all.

Most of the people present were only at Sixth Stage of Nirvana Tribulation, but they were still afraid when facing this gigantic Hellfire Star Beast. They tried their best to escape from places that might affect them.

But Long Chen was fearless.

He needed to release the energy that exploded in his body, he needed to fight. This Hellfire Star Colossus had hit his head!

Long Chen was shrouded in a bloody light, making him look as terrifying as the gigantic Hellfire Star Beast.

Just at this moment, the Purgatory Flame Star Beast let out an angry roar and sprinted towards Long Chen with its hellstar fire along with it. Everywhere it went, everything within thousands of meters was turned into ashes.

Compared to a normal person who was five times stronger, the Inferno Star Colossus was attracting more and more people's attention. "Hualala!" "Hualhh!"

They were even more afraid. They could faintly feel that even with their current state, they would not be able to face such a huge beast. How could Long Chen survive such a heavenly tribulation?

In the blink of an eye, the Inferno Prison Star Colossus appeared in front of Long Chen.

It opened its huge mouth, and under its four claws, the earth quaked and the mountains shook. The hellstar fire s that filled the sky, in a short instant, completely submerged Long Chen.

Long Chen originally wanted to directly resist, but a thought suddenly occurred to him.

"Let me see how powerful this gigantic Hellfire Star Beast is."

What he wanted was not only to survive, but to temper himself to the fullest extent. Only by facing the bravest of enemies would he be able to make the greatest progress.

So what everyone saw was that Long Chen didn't even have the chance to move before he was directly engulfed by the gigantic beast. He was completely burnt by the hellstar fire and even turned into ashes.

Looking at the incomparably proud Hellfire Star Colossus howling towards the sky, everyone was dumbfounded. They looked at each other in dismay, they could not imagine that this peerless genius, who could even protect the young master of Su Zhen City, had even obtained the favor of Miss Ji. And he just died like that?

This is too useless, too dramatic!

The crowd was stunned for a moment before they recovered from the shock.

"He's not dead yet. The Inferno Star Colossus hasn't disappeared. He must still be struggling in the belly of the Inferno Star Colossus!"

One of them said.

The crowd discussed passionately.

"The belly of the Inferno Star Colossus is at the deepest part of the stellar nucleus and its temperature is also the hottest and most lethal part of it. Although it's struggling, from the looks of it, it won't be long before it turns into charcoal."

"He is a Dragon Fighter, how could he become a charcoal dragon? "Haha!"

In short, after Long Chen killed their brother, they still had a lot of grievances in their hearts.

Seeing that Long Chen was in an extremely miserable state, everyone was overjoyed.

"What did he say? There will be retribution for evil, there will be retribution for good. This is retribution!"

Everyone found it hard to suppress their laughter as they began to roar with laughter.

It was as if they had seen a joke that was as big as the heavens.

However, what they didn't know was ...

Indeed, Long Chen was currently enduring the heaviest torture in his entire life. Inside the body of the Hellfire Star Beast, he had already transformed into his original body, the blood-colored Divine Dragon Body was completely surrounded by the extremely hot smelting furnace. The body of the Hellfire Star Beast seemed to have a huge world inside it, a huge world of fire that seemed to be limitless.

The torment of the hellstar fire s was endless.

That Purgatory Flame Star Beast had even gathered all of its firepower, wanting to burn Long Chen into powder!

In the midst of the excruciating torture, Long Chen heard its proud roar and the ridicule from the crowd outside. Only, he did not agree with it, although he was in extreme pain, and every part of his body was being burnt to pieces, but he was also being reborn from the powerful vitality and the power of rebirth. This was exactly the same with the laws of rebirth of the Nirvana, and in this cycle, as long as Long Chen could persevere, the benefits he received would be endless.

Collapse, regroup.

With each cycle, Long Chen's astonishing Nirvana Rebirth body was created. His ancestral dragon body continued to transform and grow, from a young dragon to a young one, advancing towards the stage of childhood.

"Persist!"

The recent series of events had caused Long Chen to be unable to control his own life. These were all humiliation, and Long Chen deeply understood that the only way to wash away these humiliation was to be strong, to knock out others, and even that mysterious Su Zhen was unable to control his own life!

"Blocking me in, no matter if it's to win me over or to make use of me, has violated my taboo. I want to resist!"

Long Chen's eyes were bloodshot. While he was struggling, he was looking in the direction of the War God's Ancient City's inner city.

As he struggled and clenched his teeth and persevered, the people outside began to shake even more.

"Why isn't he dead yet?"

"Within the body of the Inferno Star Colossus, I can't believe that it was able to resist for so long. I really admire this guy."

"Haha, is it useful? I'm still going to die. I bet he won't last a quarter of an hour. "

The other one laughed out loud and said, "The Hellfire Starbeast is going to go crazy. I think it will only take twenty breaths of time."

Limit!

When the Hell Fire Star Colossus was only able to refine Long Chen with all its might and get more and more angry, Long Chen had successfully crossed that critical point. He had already achieved his goal and it was time to counterattack.

Under the other party's refinement, it instead resulted in Long Chen's even stronger physical body.

Not only did the so called refinement not kill Long Chen, it was even absorbed by Long Chen as it was being refined, becoming his Nirvana Rebirth.

The time had come

"Die!"

In that moment, the huge dragon tail swept across the body of the Inferno Star Colossus.

The Sky Slaughter Blood Sword had already formed, its power had increased by several times. Under Long Chen's control, the sword brought along a shocking momentum and broke through the defenses of the Inferno Star Beast, piercing out from its abdomen!

Everyone suddenly encountered an unexpected turn of events as they all looked towards the sky slaughtering sword that they swallowed from the Inferno Star Colossus!

What greeted him was a thick layer of blood.

Rip!

However, it was still unable to stop the injuries that came from its own body. Under the fierce attacks of the Heaven Slaughter Blood Sword, its body very quickly became riddled with thousands of holes, and all the rocks and flames were completely split by Long Chen into the purest form of Nirvana Qi. This was the true origin of the Nirvana Tribulation.

And these Source energy, it was as if the heavens had bestowed upon those who passed through tribulation, after the death of the Hellfire Star Colossus, they all entered Long Chen's body, allowing him to undergo his last round of metamorphosis and evolution!

His entire body was shrouded in blood and there was even an illusory mist. He swallowed all of the Nirvana Power directly into his body and quickly digested it, causing a new round of transformations in his combat ability.

Long Chen was immersed in the joy of success.

His progress this time was far greater than when he was in the Great Dreamland. Right now, it was equivalent to having passed through the Sixth Stage of Nirvana Tribulation, but in reality, he had the equivalent of late stage Sixth Stage of Nirvana Tribulation of the Nirvana Force. In terms of nature, he was far superior to the others, and with the Ancestral Dragon Art and his strong physical body, his fighting strength could be imagined.

Long Chen's true realm was Triple Nirvana Tribulation.

If Mo Xiaolang was able to survive the calamity of the Inferno Star Beast, then his true realm would only be Fifth Stage of Nirvana Tribulation.

This was their shocking aspect.

Absorbing a large amount of energy and feeling his battle power grow, Long Chen was shrouded in clouds and mist. He knew that he had already taken another step forward in his dream and desire.

"F * ck off."

In the last moment before he finished his transformation, Long Chen said a word to the warriors who were watching him.

Everyone was still in shock, frightened by Long Chen's cold rebuke. They looked at each other, and although they said that they really wanted to retaliate, their mouths were dry, so they left in embarrassment.

"I have just reached the Sixth Stage of Nirvana Tribulation, there's nothing to be arrogant about."

"That's right. In front of us Three Commanders, we are nothing."

"Let's go. There's going to be a bonfire party tonight. That Snake-Dark Wine is so delicious. We can't let the other brothers take the lead."

They left pretending to be indifferent.

It finally quieted down.

Long Chen completed his transformation and landed on the ground.

In the God Nation, Ling Xi had already slowly woken up. The blush on her face had already faded, but her bashful look was still intoxicating.

In the depths of the mountain stream, Mo Xiaolang had long since completed his transformation and rushed over at this time.

Everyone gathered together once again.

"Well?" Long Chen asked.

"Swallow it." Mo Xiaolang said somewhat embarrassedly.

Everyone was speechless. This was truly abnormal.

"The battle during the day is not over yet. To make those three guys shut up completely, for the sake of our peace, let's see who can improve the most. How about it?"

Long Chen looked in the direction of the three War God's Guards.

Chapter 1749 - Rollover

Today, Xiong Ba had already promised Miss Ji that he wouldn't cause trouble for Long Chen in the future.

However, these were words spoken in front of Su Yuji. If Su Yuyao came again, under her pressure, Xiong Ba would have no choice but to leave.

Long Chen wanted peace and quiet.

Furthermore, he had already experienced his power during the day, so Long Chen wanted to see whether the other party could still restrain him after such a huge change occurred.

Although Long Chen did not place those three War God's Guards in his eyes, he could not deny that they were indeed very powerful.

This was the best candidate for practice.

If they could defeat Xiong Ba and the others today, perhaps in a few more days, it would be Miss Yao's turn.

The square was ablaze.

The torches were burning, the people drinking and making merry were laughing and making noise, this was the best way for The War God's Team to relieve his boredom.

And the three great War God's Guards, mixed in with the crowd, accepted the admiration of everyone.

At this time, Xiong Ba and the others were sitting in the center, treating everyone with wine.

One of them went close to Xiong Ba's ears and said: "Great Commander, we just received news that the one who passed through the Inferno Star Colossus is Long Chen."

Xiong Ba acted as if he had expected it, and said: "Then what about the other one, is it Ling Xi?"

The other party replied, "No, it seems to be a dire beast that Long Chen tamed."

"Humph, they are all animals! In the future, if Miss Yao tries to vent her anger on me, it will all be this fellow's fault!" Xiong Ba threw the wine bowl in his hands onto the ground, the sound of it breaking was not enough for the crowd to hear.

"Boss, calm down. It's only two children, is there really a need?"

Jiang Yan chuckled.

At this moment, there was a commotion at the outer perimeter. The crowd opened up a path.

"That kid is here." Xiong Ba's gaze was calm as he poured the fine wine in the jug into another wine bowl. He drank by himself, not putting Long Chen's arrival in his eyes at all.

Long Chen brought Ling Xi and Mo Xiaolang, who had transformed into his Sun Devouring Demonic Wolf form, closer.

Everyone thought about how Long Chen had killed their brother and glared at him. There were even some who clenched their fists with fierce eyes.

The noisy scene quickly quieted down.

Jiang Yan seemed to have forgotten about the conflict during the day. She laughed like an old turtledove and said: "So it's actually my little brother and little sister. I thought that you cold and noble young masters and mistresses were not interested in our chaotic meeting.

Third Commander Li Chongfeng burst out into laughter as he spat out a large mouthful of wine. He said: "It's obvious that someone who has crossed the first stage of Nirvana Tribulation is filled with confidence. She should be here to cause trouble."

Hearing this, the members of the The War God's Team became even more indignant.

Xiong Ba placed the wine bowl on the table, and said to himself: "It's best if the two of you do not disturb our fun. "Miss Ji and Young City Lord Su Zhen are both protecting you. We don't dare to move against you, but you've killed us brothers and yet you're walking back and forth in front of our eyes. Could it be that you feel a sense of accomplishment?"

Amidst the hatred filled gaze of the Demon Bear The War God's Team, Long Chen walked in front of the three great War God's Guards.

He said, "Stop bullshitting. Whoever kills someone will know the truth. I don't have the time to waste on you. I only came here today for one reason, and that is to let the three of you know that you are no match for me. If Su Yuyao still wants to bother me, tell her to find a suitable opponent for me. "

When these words left his mouth, the three War God's Guards were all stunned.

Long Chen knew that the other party would drag it out for a long time, and his blood boiled from the battle, so at this moment, he immediately took action, charging straight into the eyes of the three War God's Guards.

For a time, the scene was in an uproar.

"Long Chen, you started it yourself! If Miss Ji wants to pursue this matter, I am not responsible! "

Xiong Ba was proud, but after getting angered, his face quickly turned dark.

The other two people's faces were livid as well.

Long Chen did not give them any face at all by publicly smashing their faces like this.

"Don't worry, if she wants to pursue the matter, I will tell her that I want to beat you up. "None of your business." Long Chen said with a smile.

The other martial artists continued to retreat in the face of their imposing aura.

Mo Xiaolang held him down, pointed at Li Chongfeng, and said: "I'll leave this to you."

In everyone's eyes, the Sun Devouring Demonic Wolf seemed to have understood what Long Chen was saying, and it glared at him.

Ling Xi could not let her take the risk, so Long Chen's target this time was naturally Xiong Ba and Jiang Yan's two opponents!

He told Ling Xi to retreat, and at this time, the Sun Devouring Demonic Wolf had already uncontrollably charged towards Li Chongfeng. A man and a beast quickly formed their own battlefield, and when Jiang Yan wanted to help Li Chongfeng, Long Chen suddenly appeared in front of them.

"Your opponent is me!"

The most primitive fighting factors, after becoming strong, were being released unrestrainedly, holding onto Ling Xi's sword with one hand and the God Slaying Sword with the other, holding both of the swords horizontally across her chest, releasing a sharp killing intent.

"You want to deal with the two of us?" Jiang Yan was stumped.

Long Chen did not say anything. Just as the other party had finished speaking, he turned into a streak of blood light and instantly rushed towards Jiang Yan, slashing God Slaying Sword as she unleashed Wordless Formula. Eighty-one death sword energies enveloped Xiong Ba, clearly showing that they were going to fight one on two!

During the day, all that Long Chen was able to do was resolve one of Xiong Ba's attacks!

At this time, he was still facing two enemies at once!

"Wishful thinking!"

The crowd below looked forward to his miserable defeat.

But Jiang Yan felt an astonishing sense of danger at this moment.

"The path of ghosts and spirits is filled with countless phantom images!"

Sensing a fatal crisis, she displayed the dao that she was most adept at. Her entire body seemed to disappear into the darkness, creating countless unreal ghost shadows that no one could discern.

The people of The War God's Team exclaimed in surprise, they realized that the entire sky was Jiang Yan's devil. Her enchanting laughter reverberated in the sky, causing people's hearts to turn cold.

"Underestimating a woman?" Jiang Yan attacked first, and at the moment she finished speaking, Long Chen noticed that there were countless crystal hidden weapons surrounding him from all directions. These purple crystals were all astonishing Dao Artifacts, and even though they were spread out, they were filled with destructive force, but the magnificent appearance of the stars, allowed people to relax their hearts, as though they were within the resplendent starry sky.

Tens of thousands of purple star weapons charged towards Long Chen at the same time.

These hidden weapons looked beautiful, but in reality, they were filled with killing intent and destructive powers. Jiang Yan was a killing machine, and often carried out missions, causing a majority of her enemies to die in her hands.

But when the Star Hidden Weapons approached Long Chen, they were all sent flying by the two swords in Long Chen's hands, and most of them were immediately grabbed by his fingers.

His powerful physical strength had been completely revealed.

This scene caused Xiong Ba to pay more attention to him, let alone the dazed crowd below him. They had personally witnessed how the dire beasts that had passed through the Seven stages of Nirvana Tribulation were beaten into a hornet's nest by Jiang Yan's Star Hidden Weapons.

"Not bad?" Jiang Yan laughed coldly, her ghostly figure continued to change, making it impossible to see her figure. Right at this moment, a purple moon appeared in the sky, shining brightly, and in an instant, it arrived above Long Chen.

Long Chen raised his head and could clearly see a total of twenty Dao Inscriptions on the crystal moon.

"Oh my god, Sister Jiang Yan used the crystal moon!"

The crowd below cried out in alarm.

Perhaps this was her secret dao tool. Twenty dao marks were already pretty good. At her level, there were many martial artists that didn't even have one.

"Jiang Yan, don't kill him!" Xiong Ba, who held his strength to be high, was disdained to make a move, but instead reminded his.

But at this critical moment, Long Chen, who was about to die in the crystal moon, had actually disappeared in front of everyone's eyes.

Time Traversing Dragon!

This swim allowed him to swim out of everyone's perception.

When the crystal moon struck thin air and no one knew what was happening, Long Chen's blood red figure appeared behind Jiang Yan. The two swords quickly swept across the other party's body, and Ling Xi's sword had even pierced into their bodies.

The destruction of both the physical body and primordial spirit!

But Long Chen did not kill her, he just made her lose her fighting strength!

Jiang Yan let out a shocking scream, she was completely exhausted, falling from the sky and landing on the ground. The scar on her back dyed her clothes red, and although the wound looked small, it was actually difficult to recover from, especially from the spirit wound, causing her to be in torment, unable to recover her strength for a short period of time.

This was the terror of the God Slaying Sword and Ling Xi's sword.

In less than an instant, Long Chen had already defeated an opponent.

In front of the shocked eyes of the devil bear The War God's Team member below, he appeared in front of Xiong Ba. His eyes were calm and natural. Now, do you think that I have the qualifications to fight with you? "

Xiong Ba's body trembled. He restrained the unease in his heart and coughed twice before saying, "Indeed, as expected of the person whom Young City Master Su Zhen wants to protect. But if that's the case, you would think that you are invincible, and would be extremely wrong. In this War God's Ancient City, you are nothing but an ant. "

On the other side, the Sun Devouring Demonic Wolf and Li Chongfeng's battle was extremely intense.

Long Chen kept his God Slaying Sword and Ling Xi's sword, with a shake of his body, a blood-colored dragon appeared in front of everyone.

This red dragon was something they couldn't understand no matter how hard they tried.

Xiong Ba's pupils contracted.

He threw caution to the wind, clenching his fist, which was the size of a claypot, causing black Nirvana Qi to swirl around him. Like a demon god, he stood arrogantly in front of Long Chen.

His Dao was that of berserk, berserk devils. This was a branch of the Way of Combat, and was very similar to Long Chen's Way of Slaughter. However, when the opponent was fighting, he would be the first to go crazy, and could not compare to Long Chen's calmness in slaughtering.

"I will, I'll give you a chance."

Long Chen only wanted to test his strength, so he used the Sky Slaughter Blood Sword and slashed down!

Chapter 1750 - Battling

What was unimaginable was that this was a crushing battle.

To Long Chen, the progress he had made after passing through the first stage of Nirvana Tribulation was simply too great. He had fully absorbed the Nirvana Power brought about by the Heavenly Dao and gave him a chance for a Nirvana Rebirth.

Facing Long Chen's Heaven Ripping Sword, Xiong Ba's five senses were mixed. He had received this move from Long Chen earlier in the day, but now, this move's destructive power had not only increased by several times, even Long Chen's Divine Dragon Body had grown to three hundred meters, becoming more corporeal and full of energy!

The Divine Dragon Body was spinning in the sky, the way of slaughter converged together. The Ancient Slaughter Runes formed into a blood colored light sword, carrying Long Chen's body's power, it erupted and rushed towards Xiong Ba's head!

"War Demon God Fist, second layer, I want to become a demon!"

At this most tense moment, Xiong Ba's heart trembled, he was about to go crazy. He frantically channeled all the Nirvana Power in his body, and the black demonic god aura rolled back from his body, finally condensing into a black skull on his fist. Following Xiong Ba's punch, the dark skull exploded!

Weng! *

Space began to tremble.

Tens of thousands of black torrents rose up into the sky as the unstoppable fist intent surged forward, and what Long Chen could see were billions of creatures charging madly towards him from below. It had to be said that even if Xiong Ba was considered an extraordinary expert within the Seven stages of Nirvana Tribulation, it was a pity that he had met Long Chen!

Long Chen didn't use Great Void Cosmic Dragon's Divine Dragon at all. The Heavenly Slaughter Blood Sword slashed down with extreme force, using its crushing strength to tear the Demon God of War Fist in half. It was as if it was tearing the sky in half!

Crash! *

Battle Demon God's Fist exploded. In the strong tremors, Xiong Ba's internal organs were severely injured, and he coughed out a mouthful of blood. He fell from the sky and crashed into the ground, creating a huge pit with blood all over the ground.

In the end, Long Chen took away the Heavenly Slaughter Blood Sword, not wanting to take their lives.

On the other side, Mo Xiaolang was also controlling it very well. In the eyes of everyone, he was just a Huang Beast, so he would not be merciful, so when Long Chen finished off the opponent, it was also the time when Mo Xiaolang was about to kill Li Chongfeng. At that moment, Long Chen whistled, and said: "Little Wolf, come over here."

In order to not reveal his identity as a Goblin Tribe member, Long Chen had been extremely careful.

This action also explained why Li Chongfeng was able to survive after being killed by the dire beasts.

But since it was this timely, the three great War God's Guard s had completely failed.

They lay on the ground and struggled for a long time before finally regaining consciousness.

As for the thousands of warriors, when they saw Three Commanders being heavily injured, their hearts were defeated. To them, this was an unimaginable humiliation, but they had no choice but to imagine, Long Chen had really become this strong. That's right, he could be at a stalemate with Xiong Ba while he was at Fifth Stage of Nirvana Tribulation, and the situation could even be worse now.

Everyone's mouths were dry as they looked up at Long Chen and his dire beasts.

Although Long Chen, who had defeated the Three Commanders with a strong and calm expression, made them feel fear from the bottom of their hearts. It was as if Long Chen was the god of death, as this was the pressure brought by the bloodline of the Ancestral Dragon.

Looking at the crowd below, Long Chen said, "Three Commanders is no longer my match. I hope that during my stay in the Demon Bear The War God's Team, none of you will disturb us. Furthermore, perhaps you do not know that there is enmity between me and Miss Yao, and that Three Commanders listened to her orders and specially sought to cause trouble for me. But I did not kill anyone, and someone had instead framed me.

He had only said it symbolically, he did not expect these guys to believe him. After he finished speaking, sure enough, everyone below started clamoring and berating Long Chen.

"Let's go." Long Chen shrugged his shoulders indifferently. He just wanted to have some peace and quiet in the future.

Just as she was about to leave, Long Chen stopped in her tracks. In the east, a fiery-red figure was approaching her at an incredible speed. Her target was Ling Xi.

"Is it happening again?" Long Chen sneered. Before Su Yuyao had arrived, he had already embraced Ling Xi tightly and allowed her and Mo Xiaolang to enter the Divine Kingdom together. At this critical moment, Su Yuyao had finally arrived at a distance twenty meters away from him.

She originally thought that she could suppress Ling Xi again, because that would be more than enough to restrain him. But now, she was anxious and angry, her chest heaving up and down as she coldly looked at Long Chen.

"Miss Yao!"

Everyone was terrified as they once again kneeled down on the ground with fear and trepidation.

Even if the people in the inner city were weaker than them, they would still be their masters.

However, Long Chen disapproved and sneered, and said: "It's only a once, you still think you can succeed for good? Su Yuyao, you don't need to look at me like that. With your ability, what can you do to me? "

Su Yuyao gritted her teeth as she looked at him, then looked down at the defeated Three Commanders. Her face instantly turned livid with anger, and just as she was about to raise her fist to kill the Three Commanders below.

Three Commanders and The War God's Team both saw Miss Yao aiming her attacks at them.

They panic, they don't understand

But at this time, Long Chen suddenly blocked in front of her, and said coldly: "Su Yuyao, there is a grudge between you and I, but it would be best if you don't drag this grudge onto anyone else. Otherwise, I will despise you, and look down on you.

The Three Commanders was stunned, they did not expect that the one who would protect them in the end was Long Chen.

There was complete silence below.

Su Yuyao was so angry that her entire body was trembling. She said coldly, "You bastard, you're only a dog imprisoned by my Su Clan. How dare you be so arrogant!"

This sentence was indeed vicious enough. This was the current situation Long Chen was in.

To be honest, Long Chen really wanted to leave this damned place immediately. He would beat the hell out of anyone who dared to stop him, but War God's Ancient City was so strong that he couldn't fight against him right now.

However, he had already taken the first step.

Long Chen did not mind, and laughed: "So what? You are my defeated opponent, as the young miss of the War God's Ancient City's main bloodline, you are actually powerless against me, isn't this the proof of your powerlessness? "Since you don't dare to do anything to me, can you be any more stupid than when you sent your three lackeys to deal with me?"

"Long Chen!"

Su Yuyao's anger reached its peak, and her gaze turned ice-cold.

Her strength should be at the late stage of the Eight stages of Nirvana Tribulation.

Long Chen needed to reach the Fourth Stage of Nirvana Tribulation in order to deal with her.

When she unleashed her power, she had completely suppressed Long Chen, and had also caused the people below to be unable to move.

Just as she was about to attack, Long Chen said with a smile: "Are you flustered and exasperated? I'm telling the truth. "But can you touch me?"

When Su Yuyao threw out her purest martial arts punch, Long Chen quietly walked in the middle of the river of time, and disappeared without a trace in front of Su Yuyao.

Everyone was stunned.

Especially Three Commanders, whose eyes were filled with tears and had a complicated look in them.

They finally understood that although Miss Yao was much stronger than Long Chen, with Long Chen's miraculous powers, Miss Yao couldn't do anything to him. With the protection of Young Master Su Zhen, that was why Long Chen was able to fight against Miss Yao in such a way.

Living in the outer city of War God's Ancient City, who would not have their own resentments towards the cruel Su Clan disciples? Just like earlier, Su Yuyao wanting to kill Three Commanders was just a matter of thought.

Seeing that Long Chen dared to go against her, everyone suddenly felt that he was not that annoying anymore.

Except for the fact that he killed his own people ...

Su Yuyao nearly exploded with rage.

"Damned Long Chen, come out here right now, you're just a coward and a coward. You're even inferior to a woman, do you dare to fight me in broad daylight!?" "You piece of trash!"

Su Yuyao was flustered and exasperated, her face flushed red as she scolded the surroundings.

However, Long Chen didn't mind, and said: "What's the rush, it's still early. Since you're so anxious, I'll give you a chance. Three months later, today, I will give you a chance to fight with me, and promise that it will definitely be a fair and honorable battle. Do you dare to accept it in front of so many people? "

Reaching the Fourth Stage of Nirvana Tribulation in three months time could be considered as Long Chen's test.

This woman had to be defeated, or she would never stop.

"Three months?" Su Yuyao was stunned at first, but after that, she revealed a strange smile. She quieted down and asked word by word: "Long Chen, are you sure that you want to challenge me in three months? Then I'm going to pick a good place to let more people see that I beat you up. I will also prove that my Divine bloodline is not worse than your dragon blood! "

"Then let's make an agreement. Prepare well." Long Chen did not mind.

But the people below were completely shocked, just where did Long Chen get the guts to say such words?

"Although he passed through the calamity of the Inferno Star Beast today, this must have been accumulated for a long time. To grow to the point of defeating Miss Yao three months ago, this is simply a joke!"

"Yeah, three months of time, I could pass it even if I slept." Is it still not enough to stabilize Long Chen's current power? "

Everyone looked at each other, puzzled.

But they could feel that with Su Yuyao's personality and her hatred for Long Chen, it wasn't easy for her to grab this opportunity to battle Long Chen. She would definitely cause a huge commotion, letting everyone in War God's Ancient City know of the existence of Long Chen.

Hearing Long Chen's reply, all of Su Yu Yao's anger was suppressed deep within her heart. She became sinister, laughed softly, and said: "These are your words, with so many people as witnesses, when the time comes don't regret it. In order to deal with you, I need to go back and properly prepare."

After speaking, she directly left.

Only then did Long Chen appear in the sky.

"Big Brother, are you sure it's three months? Isn't it a bit too much? " Mo Xiaolang asked.

Long Chen said quietly: "I'm not sure either, give yourself a bit of pressure, this is my goal for three months! "Forward!"

Just as he was about to leave, another red figure suddenly appeared.
