

War God 1931

Chapter 1931 - I Want to Go Back

The demon race that had followed them were basically below two meters of tribulation of reincarnation. In their eyes, the strongest Ling Xi and Long Chen only had one yuan of tribulation of reincarnation left, which they were completely able to handle.

The Sword Tiger Clan, Moon Bear Clan and the Giant Rock Beast Clan, they had arrived in an aggressive manner, and before they could even show their beast form, they were slashed and killed by Long Chen in succession. Long Chen's speed could only be described as terrifying.

Shua shua shua!

Before the dozen or so demon clan members could even display their strength, they collapsed on the ground, completely devoid of the ability to deal with Long Chen.

In the end, Long Chen's God Slaying Sword stopped right in front of the Giant Rock Beast Tribe warrior. The Spirit Demon warrior looked at Long Chen in fear, the panic in his heart making him anxious to transform into a beast form, and as he saw that a huge beast was about to appear, Long Chen quickly slashed his sword downwards, cutting the beast into two halves. Under the Death Force of the God Slaying Sword, the beast completely lost its life, turning into ashes and floating away with the wind.

In just a short moment, it was over.

Maybe the Spirit Demon beings who had caught up hadn't thought about this, because with the agreement between the Spirit Demon beings, they couldn't attack Long Chen and the other two openly, but they still dared to secretly take advantage of them.

"Let's go."

Long Chen turned around and together with Ling Xi, they floated into the deep forest. The mountains and rivers of the demon race were very vast, and were incomparably huge. From the summit of the mountain, Long Chen could see a dark yellow sea of clouds everywhere.

This demon race world was even more terrifying than Dragon God Domain.

Long Chen had used a star talisman in a mountain stream to contact Mo Xiaolang.

Among the star runes, Mo Xiaolang's expression was dispirited.

Long Chen said in excitement, "Little Wolf, we have finally entered the Demon God Area. We will immediately head to the Heavenly Devouring Palace in the northwest direction to look for you. You wait for us. "

Mo Xiaolang hesitated for a moment, and said: "Big Brother, do you really want to come over? I feel meaningless. Even if you come, what can I do? I can't even solve this matter myself. And you actually don't need to worry too much about it, because for now, at least, I have no problems. "

Long Chen did not expect him to answer in such a manner.

He was silent for a moment, and then said seriously: "Regardless of the outcome, regardless of whether I can do it or not, these are not things I need to consider. I just want to work hard for you. I'll try to get there as soon as possible. "

"Big brother!"

Mo Xiaolang was confused.

On one hand, it was despair. On the other hand, it was Long Chen's effort.

Mo Xiaolang knew that in the past few days, Long Chen had encountered a lot of trouble in the Prestigious Spirit City, but he still managed to barge into the Demon God Area, and informed himself as soon as he entered.

The other party's hard work had also moved the dispirited him.

His eyes became determined as he said, "Fine, we'll stay in the forest of the Devouring God Mansion. When you reach it, we'll meet up in pairs."

Long Chen was finally relieved. He said: "Remember, wait for me to come. Before I come, be careful."

To be honest, Long Chen knew that he might not be a match for the Infernal Queen Mo Xiaolang, but Mo Xiaolang's power was unstable and it was likely for him to lose his sanity.

After closing the Star Talisman, Long Chen held onto Ling Xi's hand, and looked at the vast land.

"Let's go." Ling Xi smiled gently. Her beauty was changing along with her strength. Perhaps one day, she would be able to topple all the men in the world.

Long Chen's wish was actually very simple. He wanted to accompany those he cared about and roam the mountains and rivers, living a peaceful life that she liked.

Her hundred lifetimes of reincarnation had all been with him.

"Wait until I let Little Wolf get better, wait until I become stronger, until I have the capital to return to the Dragon God Domain, until I let the people from the Dragon God Domain know that my father and I have never been traitors, wait until I wash off the grievances and humiliation my father suffered, then I can go along with you and live under the heavens with no worries or worries. Little Xi, I owe you too much."

On their way.

Facing the gale, Long Chen's blood was boiling as he spoke to the lady beside him.

"Actually, that's not the case."

Ling Xi's long skirt fluttered in the wind along with her long hair. She had hidden herself in the wind, and no matter her demeanor or or behavior, they all underwent a large transformation, perhaps it was because she had grown up.

She said, "In the past, I did blame you for carrying too many responsibilities with you. I wanted to live a peaceful life and live a prosperous life with you, but now I understand. Men become great because of their perseverance and goal. I want you to be a great person just like you saved Three Great Imperial Domains. I felt the greatest happiness back then. "

She closed her eyes and enjoyed the baptism of the violent wind as she said, "I am a fortunate person. Fate has bestowed upon me."

Long Chen was panicking a little. It was true that Ling Xi had grown a little, but she was still her.

"You should also have your own goals in your world, otherwise you would have become my follower." Long Chen laughed and said.

Ling Xi smiled, then said in satisfaction: "You don't understand, my goal is to be with you for the rest of my life, I am not afraid of suffering, am not afraid of sadness, I am only afraid that you will not exist in this world."

After saying that, Long Chen's eyes turned red.

She was so perfect that it made Long Chen even more apologetic in his heart, but also made him more satisfied. If her goal was like this, then he should protect her even more.

"Don't worry. Even if I die, my soul will accompany you for life." Long Chen forced himself to laugh out loud.

"You're annoying. Don't talk about death." Ling Xi's face darkened, regaining her original cute and charming look.

Long Chen said angrily: "You little brat, you still dare to pretend to be mature in front of me, watch me beat you up."

Long Chen carried her in his arms, and carried her from head to toe. Her smooth and tender body, exquisite curves, and the snowy white rabbit that was even more plump were all filled with endless charm, causing Long Chen to never get tired of it.

Along the way, although the road ahead was uncertain, it was still full of laughter.

When late summer appeared, they had already traveled a long distance. After a short rest, Long Chen stood at the peak of the mountain. According to the map, the eastern side should be the direction of the Dragon God Domain.

At that time, Long Chen had escaped from the battlefield of the Gods.

There were only two things that happened. One of them was that he was the son of an eternal sinner, a person whose name was Long Chen, and he had grown up in the Dragon Sacrifice Continent. Secondly, he had killed the human race's future divine spirit, Di Yu, in the battlefield of the gods, right in front of the human warriors.

These two things were enough to make Long Chen bear the same crime as Long Qinglan.

Long Chen could imagine how much disdain the people there would have for him.

"Dragon God Domain, Five Dragon Cities, that is my true homeland!"

Long Chen clenched his fist and stared at the east.

To the east, where the sun was rising.

He was forced to come here, to be scolded, to live in no fixed place, to be a wanderer.

He carried too much anger and humiliation with him.

When he had left the battlefield of the gods, he had remembered every single one of their curses, and they had been played back again and again in his head.

If he returned to the Dragon God Domain, he would definitely be a street rat. The danger level of the Dragon God Domain was even higher than the Demon God Area to him!

In fact, it would be best for Long Chen not to step into that place in his entire life.

Otherwise, it was very likely that he would have lost his life.

But, he had to return, even in his dreams, because that was the place that belonged to him. He was a dragon, he was the son of the Eternal Dragon Emperor.

"There will be a day when I return!"

Long Chen softly said these words.

In his mind, the images of human faces kept flashing.

It finally stopped on Di Yu's face.

"Peerless genius, future deity, does the human race have any hope?"

He might be dead, but Long Chen could replace him and become the new hope for him. He didn't want to work for these people with his life, but he wanted to take back the glory and glory of those things that belonged to them!

If not for his unwillingness, why would Long Qinglan still be breathing!

If not for his unwillingness, why would he have appeared in Long Chen's life time and time again!

He didn't want to give his son too much pressure, it was just that the fog he was trying to explore was still shrouded in mist. The people who were backing him up didn't support him, they even despised him.

What he wanted to know was also what Long Chen wanted to know.

"What kind of secret is there in this world? How did the divine dragon disappear? In order to explore this secret, my father killed him. Is he dead?"

The reason why Long Chen pursued his so tirelessly was because he wanted to know the truth.

The truth of his father's death.

If he did not solve this problem, one day, the Dragon Sacrifice Continent would completely collapse and the dragon-shaped continent would disappear, losing its existence in the long river of history.

Thinking of this, the body of Long Chen, this young life form, burned with raging flames.

Ling Xi came from behind and used her white arms to hug his waist. Her beautiful face was pressed against his back as she said softly, "It's time to go. "Husband."

This was the first time she had called Long Chen that.

Long Chen woke up from his discontent and looked at the east side once more. In the end, he shook his head and no longer paid attention to it. He knew that what he needed to do the most right now was to make his brother Mo Xiaolang return to his original self.

"One day, you will return. The people of the world do not trust you, and the people of the world misunderstand you, but you still have the group of people that believe in you: me, xuanji sister, Little Wolf, Cat, Yan Er, your sisters from the Goddess Heart, as well as our friends who are still waiting for us, and your father."

"Yes!"

Long Chen suddenly understood.

Life should be for the sake of caring for one's own people.

Chapter 1932 - Assault

In the vast Demon God Area, Long Chen only chose to advance in places with fewer people.

He would choose to fly past any place where the demon race gathered.

And during this period, he and Mo Xiaolang had kept in contact.

Mo Xiaolang's mood was slightly downcast, so he kept on warning him. He was not willing to let him continue walking down this path to the depths, because it was very likely that he would suffer irreparable consequences.

Demons were not good things after all.

The Three Great Imperial Domains was almost exterminated by the City Lord.

That was the biggest fight that Long Chen had ever been under so far.

"We've arrived at the Jiang Lan Divine Palace. Wait for us, Little Wolf." After passing through another Divine Palace, they were getting closer and closer to each other as Long Chen's inner heart gradually relaxed.

"Thank you, Big Brother." Mo Xiaolang said as his voice choked with emotions.

To receive such a response, Long Chen was already satisfied. What he was worried about the most was Mo Xiaolang resisting him.

"Yan Er is also very rare, her cultivation has increased very quickly recently and she's already undergoing tribulation consecutively. "The basics are also very good." Unknowingly, the cute girl who accompanied him had already become a very important person in his life, and Long Chen was even more grateful to Long Chen for giving him the Ancient Breaking Dawn Dragon's Inherited Blood.

That was the inherited blood essence of the Ultimate Dragon.

It was priceless.

Even people like Di Yu felt that it was very precious.

Even the Five Dragon Cities rarely inherited this kind of Inherited Blood.

After cutting off the connection between the star talismans, Mo Xiaolang looked at the tall and dark forest, and his eyes flashed with tears.

"wolf cub, you actually cried, you're embarrassed."

Su Yan said while grinning.

"I have failed my big brother." Mo Xiaolang choked up.

"No, you haven't said anything discouraging recently, Big Brother Long Chen will not be angry." Su Yan coiled on top of a tree branch, her long tail continuously changing colors, making her look extremely beautiful. Her originally jagged snake scales had now all become regular dragon scales, and her dragon's and snake's mixed aura didn't seem weird at all.

Su Yan's appearance also changed a little. Her lips and eyes could change nine different colors, becoming more flirtatious and feminine.

Stepping down from the tree branch, she walked to Mo Xiaolang's side and said: "wolf cub, I think that big tail is really ugly. Do you really think that looks good?"

Mo Xiaolang said: "You've almost asked this question ten thousand times."

"Is there that much?" Su Yan tilted her head and said while grinning.

Mo Xiaolang couldn't help but laugh.

"Wow, you're finally going to laugh. That's great." Su Yan was so happy that she was dancing with joy. Her dancing posture was extremely beautiful, Long Chen would never have thought that a drop of the Ultimate Dragon's inherited blood essence could actually cause such a huge change for this little girl.

"It's just that on the west side of this forest, there's always a group of mice children playing. Recently, they've run into this forest, as if they're looking for something. Are we going to be affected if we hide here?" Su Yan recalled another matter and said with some distress.

Mo Xiaolang muttered to himself for a moment, then said: "A few little fellows, there's no need to be afraid of them."

Travelling between the mountains, crossing over the rivers, and avoiding the demons, this was the longest distance assault Long Chen had ever made.

Amongst the Demon God Area, there were many great demons from the depths of the mountains. They were extremely powerful and would be difficult to detect at times.

In front of him was a bottomless abyss with a width of more than a kilometer. One could not see the other side, it was filled with green clouds and there were even golden flames in the depths, making it seem rather eerie.

"We'll cross over."

Long Chen held Ling Xi's hand and advanced forward at high speed.

This abyss was simply too long. One could only cross it.

When they were ready, they rushed into the sky and forcefully passed through.

Normally, the higher one flew, the easier it would be for one to be discovered, thus under normal circumstances, Long Chen would only be walking on the surface. Although Mo Xiaolang had not been in any danger recently, it was not good to delay the time.

This kind of abyss could be seen everywhere in the Demon God Area. It was not surprising, as Long Chen's entire body and mind was inside the Devouring God's Divine Palace.

The Heaven-Devouring Divine Palace was one of the Archeozoic era, the descendant of the legendary beast Heaven-Devouring Mouse. Of course, there weren't any Heaven-Devouring Mice left in the Heaven-Devouring Divine Palace right now, and the Heaven-Devouring Mouse race was one of the many.

As he was pondering about these things, Ling Xi suddenly reminded him, "There's movement below!"

Just then he was on alert, and the mist below him suddenly changed, as a terrifying gust of wind swept over. Long Chen promptly pulled Ling Xi back and pulled out the battle sword, and at that moment, a

gigantic black shadow, whose size was comparable to a mountain, rushed out from the endless abyss. What Long Chen felt first, was a tongue that was over a thousand meters long, covered with blood colored thorns and barbs.

Incomparable disgust!

The spirit demon race member's speed was not very fast, but the scarlet tongue's speed was extremely fast, and was simply unstoppable. In the blink of an eye, that tongue that reeked of blood shot towards Long Chen.

In that moment, Long Chen saw the owner of the tongue clearly. It was a golden toad, with its entire body covered in lumps, and each lump was burning with golden flames. There were three jade colored eyes on top of its head, and each of them had a diameter of tens of metres.

There was no need to even mention the huge mouth. It was simply a blood-red abyss, incomparably huge.

This demon clan had a profound cultivation base that was tens of thousands of years old. It had endured many tribulations, and its body was as majestic as an enormous mountain. With just a slight movement, the earth quaked and the mountains quaked.

Haha!

Long Chen heard that fellow's deafening laughter.

His tongue quickly entangled with each other. Just as Long Chen slashed out a ray of sword qi, that thick tongue came flying over, ignoring Long Chen's God Slaying Sword. It collided with that terrifying force and sent both Ling Xi and herself flying!

In this demon race, the power of a single round of body was unquestionably quite terrifying, and his cultivation was at least above tri-level tribulation of reincarnation, so much so that he might be a member of the Four Symbols tribulation of reincarnation.

Encountering this kind of demon clan, one could only say that their luck was too great.

The other party's tongue was pulling Long Chen and Ling Xi towards his mouth, and at the same time, he had already rushed out of the abyss. He opened his mouth wide, revealing his bottomless pit, wanting to swallow Long Chen and Ling Xi into his stomach.

"There are actually two tender Spiritual Clans, my luck is truly too good!"

The demon clan member laughed loudly.

"Are you going to eat us?" Although it was disgusting, the other party had underestimated him. For Long Chen to be able to come back to life in the stomach of a Dragon Devouring Beast, the situation was even more so of this frog. This frog was strong enough to instantly kill him, but if it could swallow him into its stomach, that was not certain.

Although the demons had a powerful physical body, they were not invincible.

Long Chen held Ling Xi's hand. The other party was extremely fast, and did not even give Long Chen and Ling Xi a chance to retaliate, he had already swallowed into his stomach. Shut up, that enormous being that was tens of thousands of metres wide landed on the ground, causing the entire world to tremble.

and Ling Xi had probably entered each other's esophagus as they stared into the sky filled with the stench of blood and darkness. To have such a pure and holy girl like Ling Xi here, Long Chen felt somewhat guilty, but there was nothing she could do. Although this demon clan looked too ugly, but her opponent was a great demon who had cultivated for ten thousand years, her strength was truly terrifying.

"Brother Chen, let me do it!"

Ling Xi's hand gesture changed, and suddenly, the two of them were enveloped by a transparent ball of light, completely isolating themselves from the outside world.

The transparent ball of light was unexpectedly quite stable.

Ling Xi said: "Don't worry, this is a 'protective barrier'. As long as my energy is not exhausted, it will not be broken. This demon beast can't eat us. "

Sure enough, no matter if it was the bodily fluids, digestive juices or some strange parasitic beasts, they were all unable to break through Ling Xi's protective barrier.

Long Chen touched the barrier, and the barrier isolated the world they occupied from the outside world, forming a new world that was not affected by any outside interference. The power of the outside world was at least several times greater than Ling Xi's, so in the outside world, it was possible for the giant toad to destroy this barrier.

Long Chen had already realized that with the Sector lord Divine Arts, Ling Xi was gradually changing.

In the future, she would definitely help him even more.

Under the protection of the protective barrier, the two of them headed towards the endless abyss. Their destination should be the stomach of the toad.

It was too disgusting.

Long Chen said: "I'll directly transform into a Divine Dragon and then tear his body apart from the inside. Even though it's a bit disgusting, hiding is not a solution."

To be honest, if it was outside, it would be difficult for Long Chen to defeat the Goblin Tribe. The opponent's level was obviously very high, and the only chance he had of killing him was if he was eaten by the Goblin Tribe.

"Let's go to his stomach. It is slightly wider there and easier to use. It's also easy to resist the power of this demon clan. "

His Four Great Power of Reincarnation could also completely act on the inside of his body.

If Long Chen wanted to kill him internally, he would have to face a considerable challenge.

This path was destined to never be smooth.

Fortunately, there was a protective barrier.

In the outside world, when the giant toad had crushed the earth to pieces, he was very satisfied, and let out a carefree cry. Then, his giant body turned into a tiny human form, and he stood on top of a large tree. He turned into a very handsome young man.

"Eating a Spirit Race snack early in the morning is indeed a great feeling."

He patted his stomach and said with a smile, "Two pitiful little fellows, just obediently be digested in the old ancestor's stomach. Being eaten by the Jade-Eyed Golden Flame Toad is also an honor for you two."

Chapter 1933 - 700 dao traces

Long Chen could hear the other party's words.

Jade-eyed Golden Flame Toad?

He had already made his preparations, once he reached his tail, he would unleash a massacre like thunder, and if there was no one nearby, he could safely transform into a Divine Dragon to tear his opponent to shreds. Of course, the opponent was strong, it was very likely that he could directly use the Four Symbols Power of Reincarnation to fight him, but he had no choice, he could only fight, otherwise, when Ling Xi's energy was exhausted, the two of them would be eaten by this ugly thing.

He hadn't even seen Mo Xiaolang, how could he have eaten it?

Turning his head to look, Ling Xi actually felt very calm, and didn't frown because the surroundings were too disgusting.

In front of him was an endless abyss. The disgusting liquid pushed the protective enchantment deeper into the abyss, and with a rumbling sound, Long Chen arrived at a huge space. After the protective enchantment stabilized, it floated above the green liquid.

If not for the protective barrier, Long Chen would have already been disgusted to death by the strong stench and the liquid.

"Actually, there's no need to be anxious. We can just wait for that guy to loosen up first. Right now, he's definitely still on his guard." Ling Xi said softly.

She was right.

Long Chen asked suspiciously: "Don't you feel disgusted with this place, you don't want to stay for even a quarter of an hour."

Ling Xi shook her head with a gentle smile. She had already transformed into a very tasty little woman, and said: "As long as you are here, I feel that everything is beautiful. In the future, I might very well be old, and I can also remember that we once stayed in the stomach of a toad."

Long Chen caressed her long hair. He was already satisfied in his heart, and did not say much.

They waited in silence.

At this time, the Jade-Eyed Golden Flame Toad, who had transformed into a handsome youth, muttered to itself, "Tian Songzi, you actually have the guts to invite me to Cloud Piercing Peak? Furthermore, I heard that quite a few people were invited? Isn't it just a archaic instrument? Is it worth it to gather so many people? "

He started his journey and headed northwest, just in the direction that Long Chen was heading in. He was faster than Long Chen and by a little, and that was even better.

Of course, it would have been better if his stomach hadn't been so disgusting.

While it was moving at high speeds, the Jade-eyed Golden Flame Toad would laugh out loud from time to time to amuse itself.

He said, "Tian Songzi, ah Tian Songzi, don't tell me you have gone mad. You have a set of destroyed archaic instrument s, but they have now become palaeogeostats s. They only have 99 dao patterns on them, yet you want to trade with us for 200 or more dao patterns on them. Cloud Peak Crane Clan, your brain is indeed not good. "

"Since he invited quite a few people, I might as well join in the fun. It's been a long time since I've seen those old friends of his, probably hundreds of years since I last saw him. Half of them died under the five elements tribulation.

It looked like a trade party for an old friend.

"The archaic instrument that was destroyed, only has 99 dao patterns left, and it became a palaeogeostats?" Long Chen did not mind, as far as he was concerned, the God-Slaying Sword was the most awesome dao tool, there would be a day when it would become the king of dao tools.

The potential of the God Slaying Sword was the same as Long Chen.

At this moment, the toad suddenly said, "Could it be that Tian Song Zi's brain is muddled? Oh, right, this guy is even faster than me. He's about to undergo that terrifying Five Elements Tribulation." "He probably knows that his chances aren't high, so he wanted to trade for more than two hundred Dao Protectors to save his life. But who would be so foolish as to give him such a life saving item?"

Speaking up to here, the Jade-Eyed Golden Flame Toad started laughing out loud, and said: "And you still said that before the sword was destroyed, there were a total of 700 Dao patterns, which were divine weapons equipped by a Star Lord of the chaotic star field. After that Star Lord perished, the Dao artifacts were destroyed, and in the end, the archaic instrument remains were obtained by him? "Even if the weapon originally had seven hundred terrifying Dao patterns, but the wreckage is just the wreckage, only the value of the collection, the value of not being used, he's hidden this remains for so many years, it's probably pretty bad, if it was given to those big figures, those big figures would certainly take out two hundred Dao patterns, but the probability of them killing people and taking their treasures, it seems like he's scared of the five element tribulation, he can only ask us old friends for help."

The Jade-Eyed Golden Flame Toad was used to living its own life. Lonely people all liked to talk to it, so it was happy for itself. As it spoke, it mocked Tian Song Zi.

"chaotic star field, Star Lord? the wreckage of seven hundred dao device? "

Long Chen and Ling Xi looked at each other in dismay.

The strongest Dao Artifact Long Chen had ever seen were the Supreme One Emperor Bell of the Taiyi City Lord, the Mystical Heaven Silk of the Holy Spirit Realm, and of course, the ninety thousand level Thunder Spirit Tower. These were all things used by supreme experts of the Seven Stars tribulation of reincarnation, and were basically all items with at least five hundred Dao patterns.

The chaotic star field was at the northern part of the Demon God Area, which was the border of the Immortal God Realm and belonged to the starry sky region. There were a lot of continents that the Immortal God Realm divided into planets, and the entire chaotic star field was made up of countless large and small planets.

The other races had very few foundations, and the Immortal God Realm had a myriad of races. Aside from the Five Great Races, there were also tens of thousands of other special races, such as the Spirit of Life. All of them were in the chaotic star field. As the name implied, there were no absolute rulers there, and countless great races were fighting against each other over the land. In order to fight for power over the land, the ones who could occupy the largest planets were all called Star Lords, Star Lords.

If it really was the remains of a Star Lord's archaic instrument, then its value should be great.

Ling Xi said: The Sector lord Divine Arts have recorded many miraculous techniques. As far as I know, as long as the traces of the destroyed Dao patterns are still there, even if it's just the remains of the Dao tools, it's still possible for them to recover their original might. This group of Spirit Demon beings can conclude that the archaic instrument originally possessed seven hundred Dao patterns, which means that the Dao patterns are already dead and the power is dissipating.

After Long Chen heard it, he was pleasantly surprised, and said: "You mean to say, as long as we obtain this artifact, if we add on many other rare and precious materials, you will be able to make it recover?"

Ling Xi shook her head slightly, and said: "The possibility is not high, first of all I need to learn this Sector lord Divine Technique, and the materials recorded here are all natural treasures, so searching for them is extremely difficult. It's basically impossible to recover to seven hundred dao patterns, and it would need too many things, but to make it back into a archaic instrument, or to recover two hundred dao patterns, or even three hundred dao patterns, is still possible."

Long Chen had a rough understanding of the situation.

He decided: "Let's not attack this stinky toad first, let's go through Cloud Piercing Peak and see what the situation is like. If this Jade-eyed Golden Flame Toad is able to obtain that archaic instrument, then it would be ours, but of course, if he is not able, and the person we obtain is not strong enough, we can give it a try. If he is too strong, then we won't be able to do anything about it."

After all, the main purpose of this trip was to find Mo Xiaolang, and he could not delay this matter for too long.

For now, at least, they didn't count as delaying.

The demons of the Demon God Area, all the greater demons, would definitely occupy the entire Thousand Miles Rivers and Mountains, because their size was simply too huge.

The Jade-eyed Golden Flame Toad took a whole day to get to Cloud Piercing Mountain. Long Chen and Yue Yang stayed in his stomach for a whole day, if not for the protective barrier, they wouldn't have been able to hold on for that long.

If Long Chen and Yue Yang were to rush to this place, it would probably take them two days.

Long Chen could not see the situation outside.

However, according to the Jade-Eyed Golden Flame Toad's muttering, he knew that he was almost at Cloud Piercing Mountain.

He also knew that most of the people participating in this time's Greater Demon Meeting were demons from the tri-level tribulation of reincarnation to the Four Symbols tribulation of reincarnation. There were more than ten of them who had once ventured out together, and now that they were old, they occupied their own mountains and became kings.

A towering mountain appeared in front of them, shooting straight into the clouds. This mountain peak was incredibly straight, like a long sword.

"This fellow, Tian Songzi, loves to live in a high place. If this were the case, the Five Elements Tribulation would definitely be more deadly than you. This is a power that comes from the essence of Heaven and Earth. Many brothers have died in this place."

BOOM!

The Viridian Golden Flame Toad charged upwards.

"Who are you? Oh, it's Green Eyes. You're here too. It seems like you're interested in those 700 Dao Rune items?"

someone mocked from the outside.

The Jade-Eyed Golden Flame Toad laughed heartily and said, "My ass, I've only come to see if this Tian Songzi is dead or not." As for those seven hundred Dao patterns, fart, I'm not in the mood to simply use two hundred Dao patterns to exchange for a single collection. Ninety-nine Dao patterns? Can you kill chickens? "

Another person said, "Almost everyone is here. You can come up."

In the blink of an eye, the Jade-Eyed Golden Flame Toad had moved to another place. It should be the summit of Cloud Piercing Mountain. In front of it was a snow-white immortal palace that lingered in the mist.

"This guy, Tian Songzi, is really shameless and petty. Last time, he asked for a few beautiful immortal cranes, but I refused. This time, this old man came to see him make a fool of himself." The Jade-Eyed Golden Flame Toad said in an impressive manner.

"Haha, I'm quite interested in that Dao item. I want to see if there's any chance of it recovering. If it can recover, then I'll be rich."

The Viridescent Golden Flame Toad ridiculed, "Go back to your Lava Cave and sleep. A treasure of heaven and earth, those who are powerful will be there. Those who aren't, scam. Even if you are lucky, you will lose your life."

"Old Toad, do you dare to say that I am weak? Before everyone was present? You want to fight with me? "

"Fuck you, I'm afraid you won't do!"

In the blink of an eye, a third party had joined the fray.

"You two, please give me, Tian Songzi, some face, and don't fight. Please come into my Immortal Crane Palace and let this old man entertain you two."

Chapter 1934 - The reunion of old friends

On the Cloud Piercing Peak, the immortal qi was dense.

Long Chen and Ling Xi were hiding in the abdomen of the Jade-eyed Golden Toad. They were listening quietly to what was happening outside and communicated with each other with just their eyes.

archaic instrument that had seven hundred dao patterns before, if this item could be repaired, its value would be too great. Almost immeasurable. Therefore, at this time, they were also a bit nervous, because with their strength, there was no way they could deal with any of these people.

Within their group, there was at least a late stage tri-level tribulation of reincarnation. Any slight difference in tribulation of reincarnation would be able to create a large gap, so even if he exhausted all of his strength, he might not be able to obtain anything from this group of greater demons.

At this time, a tall and skinny man with long black hair and an immortal demeanor, also known as the Yunji Crane Heavenly Pine Seed, brought everyone to the Immortal Crane Palace.

In the palace, there were already many people enjoying delicious food.

"So it's the old toad. Oh, there's also the old centipede."

Everyone laughed out loud. They had not seen each other for so many years, and for a time, they were happy.

After transforming into a human form, he was also more than three meters tall. His skin was all silver, and a silver lightning bolt was flashing across his skin. His silver eyes were filled with luster, and lightning was crackling within it.

This person was one of the famous centipedes of the demon clan, the Silver Lightning Centipede.

Under the treatment of the pine nuts, he sat down proudly and enjoyed the delicacies prepared by the pine nuts. As soon as he tasted them, he praised, "Not bad, not bad, it's better than the baby from the Spirit Race."

The crowd smiled at him.

"Old Toad, you ate the Spirit Race?"

The Jade-Eyed Golden Flame Toad said proudly, "Just as I stepped out of the door, I saw two small spirit race flies fly past me and I swallowed them. I was in too much of a hurry so I couldn't taste the food clearly."

Someone laughed, "Old Toad, I think you are afraid that someone will cut off your tongue?"

"Bullshit. Do you believe that if I spit it out, I'll give you a taste?"

The green-eyed Golden Flame Toad said vulgarly.

The two sides soon started quarreling. The Cloud Peak Crane Pine Seed immediately tried to reconcile the situation. A short while later, he lightly counted the number of people and said, "Not bad, not bad at all. We've all come."

"That's right. We haven't seen each other in so many years, nor have we gone out adventuring. We won't go back until we're drunk."

"That Tian Songzi guy must have stored quite a lot of good wine. If I don't let him finish it all, then I'm not from the Moon Bear Clan!"

The one who spoke was a tanned, tall and sturdy man who was also more than three meters tall. However, his body was four to five times bigger than that silver electric centipede, and he was extremely heavy. His voice was very loud as well, and when he spoke, even the protective enchantment that Ling Xi had activated was trembling.

"Can you hold on?" Long Chen asked with concern.

Ling Xi smiled charmingly and said: "Even if you can endure for another ten days, it won't be a problem."

In reality, there were acid attacks from time to time, and many parasitic beasts wanted to break the protective barrier. There was also a type of golden flame inside the Jade-eyed Golden Flame Toad's body, which would attack from time to time in an attempt to melt Long Chen and the others.

With Ling Xi's words, Long Chen felt more at ease.

They continued to follow developments outside.

At this time, under the treatment of the pine nuts, they began to reminisce about the past and talk about their adventures that year. Even an arrogant existence like the Jade-Eyed Golden Flame Toad was caught up in warm memories.

He said, "Remember that time in the Dead Soul Abyss, if I didn't stop you, you would all be dead now."

"Bullshit, old toad, you were a coward back then. It just so happened that by luck, you bumped into him." The big man from the Moon Bear Tribe said.

The two sides were once again in a debate.

He thought that it was something good to eat, so he did not pay it much attention. He turned to look at the Heavenly Pine Tree and said: "Old bird, quickly take out your archaic instrument and show it to the brothers. After chatting for so long, it's time to get to the main topic at hand."

He stood up and sincerely looked at the crowd, saying, "Brothers, the reason I've invited you all here today is because I, Tian Songzi, trust you all. In the blink of an eye, we have been friends for thousands of years, and today, I, Tian Songzi, am about to face the five elements calamity. Many of us have already died due to the five elements, and I, Tian Songzi, still wish to endure another thousand years."

The Moon Bear Clan man patted his chest and said, "Old bird, I support you. Quickly take out your treasure to have a look. The Five Elements Tribulation is indeed terrifying, but I am not afraid."

The others looked at each other without saying anything.

Tian Songzi cast a grateful glance at the Moon Bear clansman. He was of the Moon Bear Clan and did not have a high IQ. He was irritable, but he still valued his brothers at critical moments.

Tian Songzi continued, "First, let me make things clear. If I don't have two hundred Dao-seals for you, I won't trade with you. But of course, if I have a treasure that can allow me to transcend the five elements tribulation, that is also fine. Everyone, this was once the weapon of a Star Lord in the chaotic star field, with 700 Dao patterns on it, and can be seen today as the traces of Dao patterns, it was once a terrifying divine weapon capable of tearing the heavens and tearing the earth apart, shattering the planet. Rumor has it that the Star Lord held this weapon in his hand, and swept away all heroes, even though it is just a wreckage, although only 99 Dao patterns can be used, but it's definitely worth more than 200 dao patterns.

After he finished speaking, he looked at the crowd and asked: "The reason why I invited everyone here today, is mainly because of this deal. I know that there are a few among you who truly possess two hundred lines of archaic instrument, I wonder who would be willing to exchange with me?"

Tian Songzi only had two to three years before reaching the thousand year limit. He had to completely master the dao spirit in this period of time before he could fully utilize it. He could only exchange for such precious items and could not borrow them.

After saying this, everyone looked at each other without saying anything.

The Moon Bear clansman said, "Brother, even if we want to exchange, we should at least let us take a look at that treasure, right?"

However, Tian Songzi did not dare to easily show them off. He said, "First of all, I want to know who is the one who is interested in exchanging blows with me. This Dao item of mine will only be shown to those who want to exchange."

The Jade-eyed Golden Flame Toad sneered and said, "Tian Song, don't take a piece of scrap metal as a treasure. If you don't show it to us, we won't. Useful? We are almost at the level of Five Elements tribulation of reincarnation, are we still going to use palaeogeostats? This item has only the value of collection, and has no value in usage. "

Many people did not have the intention to exchange their items. After all, how could one of their most valuable items be returned to them as a collector's item?

Then wouldn't his own strength have been greatly reduced?

However, Tian Song Zi still refused to let go. Those without the will to exchange wouldn't be able to look at him.

Just as the conflict was about to end, the Moon Bear clansman suddenly said, "Tian Song Zi, I want to take a look and decide whether to exchange you or not. I am a man, and my words are as good as gold, but if your things are too substandard, I will go back on my word."

Tian Songzi smiled and said, "Don't worry about it. As long as you have the intention of exchanging your items, you'll be tempted once you take a look. Follow me. Brothers, please wait outside."

With that, he led the big man from the Moon Bear Clan into the palace, where they were isolated. Long Chen and Ling Xi were still in the Jade-eyed Golden Flame Toad's stomach, so they naturally couldn't see anything.

The people who were still in the main hall looked at each other in dismay.

The Jade-Eyed Golden Flame Toad ridiculed, "Tian Song Zi, you can only tease the idiots of the Moon Bear Clan and use two hundred archaic instrument lines to trade for accessories? This guy must have had his head caught by the door. "

The others also added, "What the toad said makes sense. This Moon Bear is really too stupid. When we were travelling together, we were almost killed several times. Who would have thought that after so many years, he still hasn't become smarter."

"Tian Songzi has made a killing this time. In my opinion, these seven hundred dao tools might not be real. Perhaps he was the one who invented them in order to deceive this stupid bear."

Everyone burst out in laughter.

They mocked him without restraint, yet they were also curious about what the Moon Bear Clan and Tian Songzi were talking about. Why hadn't they come out yet?

Roughly a quarter of an hour later, everyone was stunned.

They could sense the fluctuations of a Dao-spirit.

The Jade-Eyed Golden Flame Toad muttered, "Is this stupid bear really going to use two hundred lines of archaic instrument to exchange for that useless thing with Tian Song Zi?"

"Is this stupid bear really that stupid?"

"Tian Songzi is really lucky this time. If he manages to overcome the five elements tribulation, he'll become the strongest amongst us brothers. I'm afraid he'll have to be the leader of the group in the future."

Previously, in order to limit the possibility of anyone becoming too powerful, they had decided not to exchange for the fruits with Tian Songzi. However, they had never expected that the Moon Bear Clan would be stupid to such an extent.

The Moon Bear Clan was pleasantly surprised, and Tian Songzi's mood was also very good. He said, "Although it's not two hundred archaic instrument, it still has one hundred and eighty dao patterns. Brother Yue Xiong has given me, Tian Songzi, the most face today. If I am able to step into the tribulation of reincarnation of the five elements in the future, I will definitely repay you well!"

The Moon Bear Clan laughed. "No no, I won't be at a disadvantage. I heard that the Great Yan Clan has the method to repair Daos. In the future ..."

Chapter 1935 - Enmity

The moment those words were spoken, it caused a huge commotion. Although the crowd did not move, their eyes were sharp and they held their breath for a moment.

Even Tian Pine Zi was dumbfounded.

The Moon Bear clansman was completely unaware of the changes in his surroundings. He continued to excitedly say, "I am about to achieve great success this time, although the Great Yan Clan is almost extinct, and it is very difficult to find their descendants, but I heard that there are still quite a few of them. If we can find them and let them recover this weapon, it will definitely be very difficult, and they will definitely need a lot of materials, but I can work hard to prepare for it. One day, I will restore seven hundred dao patterns and let it shine again.

As he spoke, he laughed heartily, immersing himself in happiness.

The people around him stared at him without making a sound. The expression on everyone's face gradually changed to shock and greed, they never thought that the archaic instrument remains, would have the hope of being reborn, then it would no longer be a piece of scrap iron, but a priceless treasure.

"Are you saying that it's possible for this archaic instrument to recover all of its Dao patterns?" The others almost suffocated as they asked.

The Moon Bear Clan man was overjoyed. He laughed out loud and said, "That's right, brother, I have already asked a lot of people and looked through a lot of information. The Great Yan Demon Clan had done a lot of repairs and also had a lot of success stories. From today onwards, I will be leaving you guys to find the Great Flame Demon. Congratulations, brothers! "

He stood up, all smiles.

Everyone stared at him, their fists already clenched.

The men of the Moon Bear Clan died for money and the birds for food. He told them his secret in his excitement and was completely unaware of the fact that his' brothers' had already been moved by his words.

Among them was the Jade-Eyed Golden Flame Toad that mocked the big man of the Moon Bear Tribe for his foolishness.

At this moment, Tian Songzi tried his best to calm down. He said, "Brother, don't go yet."

The big man from the Moon Bear Clan asked in confusion, "Tian Song Zi, is there a problem?" It was you who said that archaic instrument with 180 dao patterns can also do it. "

He rubbed his head in a daze.

What he did not know was that his unintentional announcement had already shocked everyone.

Tian Songzi looked at the crowd warily. He shook his head and said, "That's not it. It's just that I suddenly don't want to change. Return that treasure to me." Our deal is not valid. "

He shook his head. "No way. You were just thanking me for saving your life, why did you go back on your word? I know, you must have heard from me that this treasure could recover, so you want to take it back. Tian Song, you are so despicable!"

He finally understood the truth. With his temper, the moment he got angry, it would be very scary, right now he would grit his teeth, panting heavily, and growl in a low voice, "We've already exchanged the money, and we've already exchanged the goods, and I've also released my control over the Dao Spirit, and it's not easy to regain control of it. Tian Song, if you were my brother, then you wouldn't have teased me, and I was kind enough to exchange with you and let you go through the Five Elements Calamity.

The Moon Bear said angrily.

However, no one around him said a word and silently watched the show.

"This idiot!"

Everyone present was moved. He had protected this treasure for thousands of years, so how could it fall into someone else's hands? Hence, he quickly walked over to the big man and growled, "Give me back this item. Besides returning the Dao item to you, I will also give you other compensation!"

The Moon Bear clansman took a few steps back. He became furious as his thick nostrils flared with white light. His fangs were revealed, becoming extremely vicious. He roared, "Tian Song, this is definitely not possible! This is already mine!" Don't think about taking it away, brothers.

In the same way, no one paid any attention to him.

The Moon Bear Clan took a few steps back. He clenched his fists and said angrily, "I understand now. It seems like all of you have no conscience. You want this treasure?! Thousands of years of brotherhood, and it's all dog shit?!" I believe you all too much, you bunch of animals! "

Long Chen could feel the Jade-eyed Golden Flame Toad's huge movement and said to Ling Xi: "This guy is very cunning, he is already prepared to fight to the death. "Clearly, this will be a chaotic battle soon."

Ling Xi shook her head, and said, "That Moon Bear Clan is truly pitiful. How could they become like this, with such a good brotherly relationship?"

This was indeed a heavy topic.

From White Yang Town, Long Chen saw how the brothers of Bai Family Head and Yang Ancestor broke off.

"Brother Chen, are you worried about your relationship with Little Wolf?"

Ling Xi asked softly.

Long Chen shook his head and said decisively: "No, I'm not worried. I believe in myself, and I believe in Little Wolf even more, and he is a stubborn person, but his determination, will not waver, even if he becomes a demon, he is also himself. This time, I will definitely let him recover, and I will do my best for you, Xiao Xi, if I die because of this, don't blame me.

In your life, there are many things that you can't control and it's hard to make a decision about. It's like back then, when you entered the Eternal Hell for Little Cat, when you knew that you were going to die and let all the lives in the world die, you still chose to enter, there was no right or wrong, and the only thing you chose to do was to be honest with yourself. If you died because of Little Cat, I'm willing to follow you to the next world.

"In order for you to live well, I will not die." Long Chen laughed faintly.

Suddenly, he felt incomparably happy.

He had a father who would protect him and teach him how to grow up.

He had a woman who would live and die with him.

There were also two brothers who were fighting side by side.

There were also many others. Being able to live like this, it was enough. These were all eternal feelings that would never change even if they died. They would not be like the group of people outside, where their so-called brothers were just a joke.

They were already fighting.

Firstly, Tian Songzi started to attack the big guy from the Moon Bear Clan in a hurry. One wanted to take the man back, while the other didn't want to return him. After the two argued, they started to fight, and

as both of them were warriors at the late stage of the Four Symbols tribulation of reincarnation, they were extremely powerful.

"Stop, stop it!"

The others hurriedly rushed forward to try to persuade them, but in reality, they were trying to kill the Moon Bear Tribe who possessed the treasure. The battle between the two of them was just as Long Chen had imagined, instantly turning into a chaotic battle!

More than ten people, all of them were peerless great demons. When the battle had just started, everything within a radius of a thousand miles had become their battlefield, and all the tall mountains and rivers had been destroyed in a short period of time.

In the midst of this fierce battle, Long Chen noticed two people who were exceptions.

One of them was the Silver Electra Centipede. He charged into the clouds and turned into a silver flash of lightning, disappearing in an instant without leaving a trace. This Silver Electra Centipede was also at the late stage of the Four Symbols tribulation of reincarnation.

The other one was the cunning Jade-eyed Golden Flame Toad. It had brought Long Chen and the other two into the depths of Cloud Piercing Mountain, hiding in the darkness, watching what was happening outside. At this time, everyone was fighting, fighting for the treasure that could recover seven hundred dao patterns, while the two of them were completely hiding.

"The mantis stalks the cicada and the oriole. These two fellows are in cahoots because they want to seize the opportunity when everyone is fighting to the death." Long Chen said softly.

They could not see what was happening outside, but they could guess quite a bit from the voices. They understood what was going on outside. At the very least, for now, most of the greater demons were madly attacking the Moon Bear tribe in an attempt to take something from him.

Amongst them, Tian Song Zi turned into a crane that blotted out the sun, soaring through the air and releasing the most violent attacks!

"The treasure is mine, and I'll return it to you. None of you are taking it from me!"

Tian Songzi tore his heart out and roared angrily.

"I've already exchanged blows with you, it's mine!" The big moon bear man had already transformed into a beast, turning into a huge and ferocious looking moon bear. This was a ferocious beast, with thick claws like blades, and a tough body that was filled with endless power, simple and rough, able to directly suppress an opponent with just his body. Although Tian Song Zi's realm was similar to his, he didn't dare to come down, because if he did, he would be easily torn in half!

"Fucking brothers, go to hell!"

The Moon Bear had gone completely crazy.

From afar, the entire area looked like it was affected by the battle, this battle was extremely huge. The Jade-eyed Golden Flame Toad exchanged places to hide, and those places were all blown to pieces. Even Cloud Piercing Mountain, which had shot into the sky, fell to the ground.

Rumble rumble rumble!

Mountains cracked and rivers reversed.

Those terrifying beast roars traveled a long way. When the weak demons in the distance heard them, they all trembled and didn't dare to move.

BOOM!

The moon bear's eyes were blood-red. It tore a snow-white tiger into two halves, shocking everyone.

Chapter 1936 - Final Yellow Sparrow

After the death, everyone went silent for a moment, and then an even greater slaughter began. "Kill them!" "Kill them all!" "" Kill them all! "" BOO! "

"This stupid bear actually killed his own brother for the sake of a treasure. Such a heartless and unscrupulous thing, let us exterminate him together!"

In the sky, Tian Songzi attacked as he incited the others. He did not dare to strike too fiercely. Three years later was his time limit of a thousand years. If he was injured today, he would not recover for three years and would definitely die in the future!

For a time, the flames of war burned once more.

In the belly of the Jade-eyed Golden Flame Toad, Long Chen could only hear the sounds of battle and the roars of their group of huge beasts. The earth shook as if the world was collapsing and the world was ending.

After several members of the demon race successively died, they completely went mad, especially when Tian Songzi was still fanning the flames, promising to go with the crowd to search for the Great Flame Demon, sharing the treasures. The Moon Bear, on the other hand, had already been driven mad, and in his world, he had been betrayed by his brothers.

"Die, die!" "All of you, go to hell!"

"My treasures, you actually do not care about your brotherly relations, to think that I would believe you so much! You all deserve to die! "

The fighting talent of the Moon Bear Clan was even greater than that of the others, especially when some people only had tri-level tribulation of reincarnation. They were simply not Yue Xiong's match, and after a fierce battle, their flesh and blood were all over the surrounding rivers.

It could be said that blood flowed like a river.

RUU...!

The Jade-Eyed Golden Flame Toad was extremely excited. It had been enduring for a long time as it watched everyone work together to finally kill the Moon Bear. That huge bear corpse fell onto the ground, exploding into countless rocks.

Everything within a radius of five kilometers was covered in blood.

Although the Moon Bear was dead, under his berserk attacks, six more demons had died. Besides Tian Songzi, only four were left on the scene. Everyone was stunned at first, but now that the battle had reached this point, no one could give up. They continued to fight, but this time, they were directly fighting for the treasure!

"Everyone, there's chaos. I promised you that we would search for the Great Yan Demon together!"

"Tian Song, it's not like I don't know you. You'll definitely take it for yourself when you have the chance!"

Yet another battle royale broke out. In fact, this time, it was even more desperate. In order to snatch that treasure, the remaining five Diremonsters continued to battle. After an hour, another two or three people fell.

At this moment, Tian Songzi, who had been dodging, suddenly made a move. He suppressed himself for a long time, and finally unleashed an attack. In a short period of time, he actually swept through everyone.

"I ... I ..."

So many people had died, all of them brothers who had fought alongside him. Tian Songzi was at a loss, the bloodlust in his eyes gradually disappearing. He was deeply regretful.

"But, this treasure is mine, I must find the Great Yan Devil and let it recover 700 dao patterns. I still have the Moon Bear Clan's dao tool, I'm definitely going to become a powerhouse of the Five Elements tribulation of reincarnation, I'm definitely going to rule the world!"

Tian Songzi was immersed in his joy. He descended from the sky and walked towards the Moon Bear's corpse. After the Moon Bear died, everyone wanted to get close to this place. Unfortunately, they had not reached this place yet. They were all dead.

Right at this moment, Tian Songzi swept his eyes over the crowd. He suddenly froze.

"Where are the old centipede and the old toad?"

During the battle just now, everyone's emotions had sunk into a state of nervousness and insanity. After all, no one had thought that such a battle would occur. After all, they had thousands of years of friendship ...

This battle had caused them to lose the ability to think.

Only now did he realize that he was missing two people, and they weren't weak either.

Just as Tian Songzi was in a daze, a bolt of silver lightning abruptly flashed from above the clouds and enveloped his exhausted body. Under the incomparably powerful electric current, Tian Songzi screamed miserably, and all the snow-white feathers on his body were blasted away.

He was very clear where the silver lightning came from. He raised his head and saw that a silver centipede, over 20,000 meters long, had wrapped itself around his body. The countless centipedes' feet were like sharp knives, piercing into the pine nuts' body.

"Goodbye, old friend."

The centipede that was wrapped by the silver lightning moved closer to Tian Songzi's ear and laughed.

Rip!

All of the centipedes exerted force through their legs and ripped it apart like an upside-down silver hook. Tens of thousands of silver hooks exerted force at the same time and instantly tore the pine nuts into pieces of flesh and blood.

"Despicable!"

Tian Songzi finally said two words.

"Old Toad, come out!"

The gigantic centipede landed on the ground, causing the earth to shake and the mountains to shake.

Silver lightning coiled around his several tens of thousands of hook-like sharp legs. There were quite a few pieces of flesh and blood dripping from them. It appeared extremely terrifying.

All of a sudden, the earth shook, and the ground within a radius of more than five kilometers caved in, entering the sea of golden flames. This included the corpses of Yue Xiong and the others, all of them burned clean in the blink of an eye.

Long Chen knew that the Jade-eyed Golden Flame Toad was about to take action.

He swallowed the treasure that the Moon Bear had hidden in one gulp and then disappeared into the ground, frantically trying to escape. He had already obtained the item and did not want to get entangled with the centipede anymore.

"You want to leave?"

The silver electric centipede turned into a streak of silver lightning and began to chase crazily.

The Jade-Eyed Golden Flame Toad was overjoyed as it quickly fled.

"As long as I get rid of this annoying fellow, I'll be able to obtain this treasure. The feeling of not wasting any time at all is truly great."

He was laughing inside.

"This bunch of retards have all been blinded by the treasures. It's all because of my intelligence!"

When the Jade-Eyed Golden Flame Toad and the Silver Lightning Centipede started their pursuit, the mysterious treasure, under the impact of countless disgusting liquids, arrived at the tail of the Jade-Eyed Golden Flame Toad.

It was a longsword that was suspended at its tail by the golden flames. As long as the Jade-Eyed Golden Flame Toad wanted to, it could completely spit it out. This was the safest place for him.

"Don't move first. If you move now, it will attract his attention. Let's wait until both of them are injured."

Ling Xi said, "If we lose the battle against the Jade-eyed Golden Flame Toad, we might die."

Indeed, the victor would not let Long Chen and the others off.

Long Chen said: "Their strengths are about the same, whoever dies will depend on luck, but don't worry, even if one side dies, the other side will definitely be severely injured, and might not be able to do anything to me. As for this thing, I'm definitely going to take it. "

In fact, he didn't hold much hope in the beginning, but as the situation progressed, it seemed to become more and more advantageous for him. If he didn't decisively take it away now, he would probably regret it for a long time in the future.

After all, this was something that triggered over a dozen old brothers to kill each other.

If this thing could recover to seven hundred dao patterns, it would definitely be able to shake the entire Demon God Area and cause all the demons to go crazy.

Long Chen looked at the mysterious sword through the golden flames.

The sword was faintly discernible, and was extremely illusory.

Each type of Divine Weapon had their own unique characteristics, such as the four death traits of the God-Slaying Sword, namely Devour, Corrosion, Darkness and Slaughter.

And the special characteristic of this godly weapon should be illusion.

"If you can get it and let it recover, you can try to use it to replace the eight Heavenly Swords." Long Chen said softly.

"What about me?" Ling Xi was slightly pleasantly surprised.

Long Chen chuckled: "Of course it's you, could it be that there's something more suitable for me than the Godslayer Sword?"

Hearing this, the small skeleton chattered excitedly. It was a critical time now, so Long Chen forbade him from causing trouble.

After a long chase, the Jade-Eyed Golden Flame Toad finally discovered that it was unable to throw off its opponent. The speed of the lightning was really too fast.

"Looks like I have to show the success of my years of training."

The Jade-Eyed Golden Flame Toad laughed coldly.

Long Chen noticed all of this and whispered, "Get ready, this guy is going to duel with the silver centipede."

Indeed, as he expected, a large amount of change happened to the Gold-Eyed Golden Flame Toad's body. Its stomach rolled and golden flames rolled within its body as a huge power engulfed everything.

Rip!

There wasn't a silver flash of lightning that struck the body of the Jade-Eyed Golden Flame Toad.

Long Chen used his protective barrier to ensure that the two of them would not be discovered, and he would not be injured.

In the chaos, Long Chen and Ling Xi approached the Divine Weapon.

Separated by the protective barrier, Long Chen could still feel a kind of indistinct pull.

"It's calling me." Ling Xi said softly.

"Well, maybe he likes you." Long Chen laughed.

Given Ling Xi's pure physique and power, it was normal for everything to want to get close to her.

The battle between the Jade-eyed Golden Flame Toad and the Silver Lightning Centipede was getting fiercer and fiercer. Soon enough, it reached the stage of a life-and-death battle, the surroundings were in a mess and Ling Xi had no choice but to spend her energy to control the protective enchantment while Long Chen was prepared to fight.

The moment the centipede died, or the Jade-Eyed Golden Flame Toad died, he would instantly grab the treasure and use the Divine Dragon's body to inflate the body of the Jade-Eyed Golden Flame Toad and fight it to the death!

In this battle to the death, his heartbeat sped up.

After all, these two experts were close to the Five Elements Tribulation!

If it was outside, they could kill Long Chen anytime.

Time passed in the raging waves.

"Old Centipede, I awakened the Three-Eyed divine ability! Do you know!?"

In the outside world, the Viridescent Golden Flame Toad's mad laughter rang out.

With a flash of green light, the entire body of the Jade-Eyed Golden Flame Toad turned green, even its stomach was the same.

Following that, the silver centipede's miserable shriek could be heard.

"I want to perish together with you, don't take it for yourself first!"

"Nonsense, even you want to die with me, do you have the qualifications? Go to hell! The Tri-Colored Wheel Eye! "

Rumble rumble rumble!

This was a terrifying shock. The two of them were in a disarray.

Rip!

A silver tail pierced through the stomach of the Jade-Eyed Golden Flame Toad. The lightning on the silver tail exploded, but it instantly disappeared and the tail softened as well.

At this time, the Jade-Eyed Golden Flame Toad was twitching and laughing loudly.

Chapter 1937 - New students

With his Three Eyes Divine Powers, although the silver centipede almost pierced through his body, causing serious injuries to the Jade-Eyed Golden Flame Toad, it still died at the last moment. In the competition, the Jade-Eyed Golden Flame Toad became the final victor.

More than a dozen of his old brothers had died in the fight.

He pulled the Silver Electra Centipede's corpse out of his body and laughed loudly, "This group of idiots dared to fight me. They deserved to die early. This treasure is mine. Wait until I find the Great Yan Clan and recover these 700 dao traces!"

Thinking that not only would he be able to enter the tribulation of reincarnation of the five elements, becoming a peerless expert, but he would also be able to wield such a peerless divine weapon. His reputation would definitely rise dramatically, and his wish that he had been unable to fulfill for many years would actually reawaken in his old age.

What he did not know was that Long Chen had already held his breath.

Right now, it was the old toad that was in its weakest and most relaxed state. In this state, he was the weakest.

This was a golden opportunity, placed in front of Long Chen.

In the face of this opportunity, he did not hesitate at all!

"Attack!"

Hearing his soft shout, Ling Xi immediately decided to cooperate with him and moved him outside the barrier. In an instant, countless golden flames and dirty liquid poured out, Long Chen was only around 10 metres away from the treasure, but he was not in a rush to touch it. If he did, the other party would be alerted, so his first priority was to kill the other party!

It had not been a long time since he transformed into a dragon!

If he transformed into the dragon form, Long Chen would become much stronger. Previously, he had his reservations in the spirit race, but in this vast and empty wasteland, it was different!

He made a prompt decision and transformed into a Divine Dragon Body!

Thick blood colored mist instantly suffused into the air, filling up the opponent's entire stomach. Long Chen swiftly transformed into the body of an Ancestral Dragon, his own size becoming much larger than the opponent's stomach, so during the moment of transformation, Long Chen had already unleashed his deadly move!

Eternal!

Heavenly Slaughter Blood Sword!

He used the power of time to stop his opponent for just a moment, and then, he activated the Sky Slaughter Blood Sword, which was located inside his weak body. At this critical moment, Long Chen quickly entered his craziest state, his dragon tail became an absolute killing sword, and there was no way to resist it. Wherever the Sky Slaughter Blood Sword went, countless blood-red lights would explode, and in the first moment, Long Chen had completely destroyed his opponent's stomach!

"Ah, what's wrong with the treasure!"

While the Jade-Eyed Golden Flame Toad was rejoicing, an unbearable pain suddenly came from its stomach, making it fall to the ground and howl miserably. It rolled on the ground as blood rushed out without regard for its life.

However, he still thought that it was because of the treasure.

After all, he didn't even know that Long Chen and Yue Yang had yet to die. In his mind, the only thing in his stomach were the treasures that he had just swallowed.

"Does the treasure not like me?"

He first had this thought, but very quickly, the feeling of having his abdomen swelled up told him that the thing that was playing in his stomach was not a treasure!

"What the hell!"

The Jade-eyed Golden Flame Toad recovered from its shock.

But it was already too late. After Long Chen brandished the first sword, with the Heavenly Slaughter Blood Sword in his tail, he unleashed the Killing God Slaying Sword Technique. The Killing Sword Technique was the most suitable for the God Slaying Sword, and using the God Slaying Sword was much more mysterious.

In a short moment, Long Chen slashed out more than ten times with a terrifying speed, each sword strike becoming stronger than the last. The Jade-eyed Golden Flame Toad trembled in pain and rolled on the ground, roaring crazily, and what could be seen was that on its golden skin, there were actually blood-red sword tips from time to time, leading the blood flower to rush out!

"It's you, Spirit Race!" No, it's the human Dragon Fighter! "

The Jade-eyed Golden Flame Toad finally found Long Chen.

But it was already too late as Long Chen's Killing Sword Technique had already entered its state. In a short moment, the Jade-eyed Golden Flame Toad was severely injured and full of holes. It had become a pile of rotten meat.

"NO!" I won't die! You fragile little worm! "

As long as Long Chen was forced out, it might not be impossible for him to survive. But Long Chen was simply too cunning, he made the Jade-eyed Golden Flame Toad unable to retaliate, and could only wait for death!

Shua shua shua!

When the opponent roared in anger and caused a huge commotion, causing many of the surrounding mountains to be squashed to the ground, Long Chen unleashed the Heavenly Slaughter Blood Sword to its fiftieth strike. Finally, the Jade-Eyed Golden Flame Toad released a roar of unwillingness, and weakly fell to the ground.

His three jade eyes lost their luster.

Only after the other party was dead did Long Chen come out from his stomach. He had changed back to the appearance of a spirit race member and was holding onto Ling Xi, while Ling Xi was holding onto the treasure.

"Let's go first."

Time was too urgent, Long Chen was also afraid that if such a big commotion was to occur, other strong warriors would come along, and at that time, he would not be the last victor.

Bringing Ling Xi along, he passed through countless of mountains and rivers. In the end, the two of them ran into a large river flowing northwest, and with the protection of a protective barrier, they hid themselves in the water and flowed along the large river heading northwest. It was only at this moment that Long Chen was certain that it was safe.

He and Ling Xi looked at each other and heaved a sigh of relief.

Both of their gazes landed on the treasure at the same time.

Ling Xi was currently holding onto this item unharmed, obviously the treasure did not reject her. Long Chen was also very curious, if it was a peerless divine weapon with 700 Dao patterns, what would it look like?

This Divine Weapon was also a treasure sword.

It was a long and narrow treasure sword about 1.5 meters long, but it was less than two centimeters wide. To a colossus, it was just a slender needle. The blade of the sword was extremely sharp, and one could tell with a glance that the material was extraordinary. It was just that this longsword appeared slightly ancient. Although the blade was still very sharp, it was filled with the marks of time and was beginning to rust.

The sword hilt was long, it was almost twenty centimeters long, and in this twenty centimeter long area, it was wrapped with seven hundred rings. Clearly, every ring was a Dao pattern, and Ling Xi's hand was currently on these Dao patterns.

"Indeed, many of the patterns lost their power and were just for decoration." Long Chen counted them one by one. There were only 99 dao patterns and it was still useful, the rest were already dim and dull, but luckily, there were still traces. As long as he found those precious materials that Ling Xi talked about, he would be able to recover them.

"It seems that even the Dao Spirit is dead."

Therefore, it had transformed from a archaic instrument to a palaeogeostats.

This extremely slender killing sword had clearly experienced a great battle.

"99 dao patterns. Right now, it's even more powerful than the 8 Heavenly Swords." Long Chen said in satisfaction.

"Thank you Brother Chen. I haven't even become familiar with the eight heavenly swords, and I've already gotten something even better." Ling Xi knew clearly in his heart that everything he had obtained, had all been fought for by Long Chen.

Long Chen laughed: "A Dao Artifact is like this. If this guy doesn't work hard and has no chance of recovery, sooner or later, he will be replaced."

Hearing that, the sword actually swayed, as if it was resisting Long Chen's words.

At this time, Ling Xi's eyes suddenly shone.

The tattoo of a butterfly covered her smooth back. Right at this moment, the long-dormant ancient variant, the Nine Hell Illusory Butterfly, finally woke up. It came out from Ling Xi's back, turning into a beautiful nine-colored butterfly that danced between the two of them.

"Hehehehe."

The Nine Hell Illusory Butterfly fluttered for a long time before saying, "It's so comfortable to sleep for a long time again."

This sleep of his was really long. It had been a long time since he last saw this little fellow.

The Nine Hell Illusory Butterfly was partially related to Ling Xi's Blood of the Goddess. It had appeared because it had followed the blood of the goddess, or it might have been attracted by the blood of the goddess.

"Yi, it's calling me."

The Nine Hell Illusory Butterfly circled around the long and thin sword in Ling Xi's hand, opening its eyes wide, it watched curiously.

"Is it calling for you?" Ling Xi was slightly curious and asked: "Die'er, what does it want you to do?"

The Nine Hell Illusory Butterfly tilted its head and said, "For others to become its dao spirit, its dao spirit has already died. As long as it has a Dao Spirit, it can become a archaic instrument. "

So that's how it is?

Ling Xi and Long Chen looked at each other, then asked again, "Die'er, can you become a Dao Spirit? "How did the Dao Spirit come about?"

"All living things can become Dao Spirits. Humans, demi-humans, Shaman Tribes, Sea Spirits, etc. Huang Beasts can also do, as long as they are living, they can choose Dao Artifacts and become Dao Spirits, Die

is no exception, the advantage of becoming Dao Spirits is to gain eternal life, but they will lose the body and use Dao Treasures as the body. Generally speaking, you will not be willing to become Dao Spirits."

Losing his physical body?

This really wasn't a good thing.

"In that case, you can't become a Dao Spirit." Ling Xi shook her head. She was not willing to let the Nine Hell Illusory Butterfly lose its flesh.

"Who said it wasn't appropriate? "We are of an ancient race and are not the same as you. We were born with a Dao soul and our relationship with Dao artifacts is the same as your relationship with your families. If you can enter or leave, I'll turn into a Dao spirit for you to see."

After saying that, it turned into a colorful ray of light and charged into the sword.

The things that the Nine Hell Illusory Butterfly was talking about were inconceivable for Long Chen and Ling Xi. In reality, they were not the only ones, there were not many people who understood the relationship between an ancient beast and a Dao Artifact, and did not even know that humans could become Dao Spirits.

No matter what, there were huge benefits for Ling Xi in making this treasure become a archaic instrument.

Furthermore, she was the owner of the Nine Hell Illusory Butterfly. Since her dao soul had pledged its allegiance to her, the Dao Artifact naturally belonged to her as well.

Your old treasure, after the Nine Hell Illusory Butterfly joined in, actually started glowing with nine colors, becoming exceptionally beautiful.

Long Chen was looking forward to the birth of the new archaic instrument.

Chapter 1938 - Butterfly Illusory Sword

The broken treasure had long since disappeared into the vast river of history.

But at that moment, it once again began to emit a new power, a new life.

Its glory had long passed, but now, it was being reborn. The treasure in front of his eyes had already become a living baby, and the dim dao patterns were the hope for it to grow.

With the addition of the Nine Hell Illusory Butterfly, the runes on the long sword hilt began to change.

The original 99 dao patterns now had colors.

Scarlet, orange, yellow, green, cyan, blue, blue, purple, black, and white, there were nine different types of Dao patterns. According to the order, these Dao patterns became exceptionally dazzling and powerful.

Indeed, this treasure had a chance of recovery.

At least in front of Long Chen's eyes, it was currently recovering its hundredth dao pattern. Once it succeeded, it would be a archaic instrument.

Although there was only a single Dao Rune between the two, it was a transformation to the life of the palaeogeostats.

From unconscious to conscious.

Time passed.

Long Chen and Long Chen watched the change in the treasure nervously.

The 100th Dao mark finally regained its radiance and strength, merging with the other 99 Dao marks. It was a hope.

Although the remaining 600 Dao patterns were completely dim and had destroyed the aesthetic feeling, they believed that there would be a day when the treasure would be restored.

The light on the blade of the sword gradually dissipated.

What surprised the two of them was that the originally greyish blade started to emit a new luster, becoming exceptionally exquisite and sharp. The blade that should have been shiny was actually covered with butterfly wings patterns. It did not look like a sword, but a work of art.

The patterns on the butterfly's wings were vivid and lifelike, with nine different colors. They were exactly the same as the Nine Hell Illusory Butterfly's wings, looking extremely lifelike.

This archaic instrument, was exploding with power comparable to the power of the God-Slaying Sword.

This sword displayed a mystical quality, and it actually became faintly discernible.

Ling Xi had obviously held onto the sword, but it had so much time that it seemed like it could not see it, and it was even difficult for it to sense its existence.

Ling Xi grasped the sword, and she said somewhat excitedly: "No matter what its name was in the past, I will now give it a new name, and it will be called 'Butterfly Illusory Sword'. Brother Chen, what do you think? "

Long Chen nodded in satisfaction.

On top of the butterfly illusion sword, the Nine Hell Illusory Butterfly's tiger-like head ran out as it flew around Ling Xi's body. It smiled and asked: "Big Sister Ling Xi, am I very powerful, am I not very powerful?"

"Die'er must be very powerful!"

Ling Xi chuckled.

The Nine Hell Illusory Butterfly that was praised, was ecstatic to the point that she couldn't find the right answer.

This time, since he had obtained the butterfly illusion sword, he did not waste any time.

The small skeleton ran out from the God-Slaying Sword. Its green eyes stared dumbly at the Nine Hell Illusory Butterfly that was floating on the Butterfly's Illusory Sword. It mumbled, "Daddy, is this little sister?"

Long Chen's face darkened, and said. "I'm not your father."

The small skeleton cried out a few times, not changing its dead nature. It looked at the Misty Butterfly Sword with envy, ready to make a move.

"So beautiful." It sincerely sighed in admiration before looking at its own skeleton and gray broadsword. It wanted to cry but had no tears.

Inside the God Kingdom, the Psychic Snow Dog was rolling on the ground in excitement after sensing the existence of the Butterfly Illusory Sword. It was just that because of the God Kingdom's Sealing Spell, Long Chen was unable to take it out of the God Kingdom.

Otherwise, a skeleton, a butterfly, and a small dog, these three small mischievous things, could bore them to death.

"Alright, let's go!"

After tidying everything up, the two began their journey towards their destination, the Heavenly Devouring Manor!

Dragon Forest.

This was the largest forest in the Heavenly Devouring Manor. It was endless, and very few people dared to pass through it. It was filled with boundless killing intent.

A tree called the Dragon's Nether Tree existed here. It was as vigorous as a dragon, soaring straight into the clouds. It was thousands of meters high, and every tree was almost like a forest.

This was an extremely dangerous place, but to Mo Xiaolang, this was a safe place.

This was because they had already spent a long time here.

The two of them got along peacefully, which was rare for them to be in peace.

The love of suffering and sharing is always unforgettable for the rest of one's life.

Su Yan carefully took care of him. In her gentleness and happiness, Mo Xiaolang gradually forgot about the evil energy flowing within his body.

Su Yan transformed into a half human, half snake, running through the forest, releasing a bell-like laughter, Mo Xiaolang laid on the tree trunk, looking at the gigantic leaves above his head.

"Big brother!"

He was thinking, "That person must be trying very hard to get here."

"I can't let him down!"

Mo Xiaolang stood up. In fact, he was already driven mad by the desire to fight, but he had no choice but to overcome himself. Every time he was about to become blurry, he would think of Long Chen and think of Su Yan.

"wolf cub!"

Su Yan suddenly ran over from behind him to scare him.

"Yan Er." The wolf cub turned around, his eyes filled with boundless tenderness.

"I really hope that I can continue living a carefree life like this." Su Yan said somewhat bashfully.

"I will." Mo Xiaolang nodded with all his might.

Thousands of meters high, the dragon and the tree covered the sky, forming a new sky.

What they didn't know was that not far away, there was a group of demons approaching. They were a group of rodents, a group of children. Their bodies were round and their eyes shined with a cunning light.

"That's right, it's the smell of a snake."

"That damned snake race, they actually dared to barge into our playground. We've been looking for her for a long time."

"The Snake Tribe has always loved to bully us, and they even ate our comrades. This time, we were alone and wanted to eat her. The elders would definitely praise us for our bravery!"

The smell of this natural enemy caused their young blood to boil, and their hearts to become restless. They were both scared and excited, their eyes bursting with an aggressive light as they headed deeper into the forest.

"The elders said that we better not go too deep into the forest. There are some very cruel things inside. Brothers and sisters, are we really going to defeat that snake tribe?"

a young child asked nervously.

"Yes, of course we will, we have chased all the way here, we are the Tong Tian Mouse, how can we be afraid of a mere snake tribe? If we eat that snake race, we will be heroes, and the people will no longer call us cowards!"

"You're right. Charge!"

The young demon clan members revealed sharp claws and fangs. In order to prove themselves, they became ruthless and bloodthirsty.

They gradually delved deeper.

"Surrounding her, aside from the Naga tribe, there seems to be the smell of a wolf."

"Damned wolf pack, they're all very overbearing, we can't let them go this time."

"Surround them! Quickly surround them!"

The youngsters of the Celestial Mouse Tribe all spread out and gradually approached the center in a circle. This was not the first time they had launched a siege of this scale, but they were still very nervous.

"This group of the Celestial Mouse Tribe!"

Mo Xiaolang found them.

However, they discovered it a bit too late. The ten or so opponents had already surrounded them.

"What should I do? The Celestial Mouse is the ruler of the Heavenly Devouring Divine Palace, and their numbers are enormous. If they were to get tangled up with us, we will be exposed. "

Mo Xiaolang was also aware of this point.

At the moment, they could not expose themselves. After all, the Nine-tailed Sky Fox was very likely still chasing them.

"Let's hurry up and escape, we can't let them see us like this, we need to go back and spread the news."

Su Yan held onto Mo Xiaolang's arm, and said nervously.

Mo Xiaolang shook his head: "It's too late, they already saw us."

They could see that a lot of eyes had appeared in the many corners below, and were all glaring at Su Yan. This was the feeling of a snake tribe, making young people anxious to prove themselves as crazy as they were insane.

"It really is the Snake clan!"

"Eat her, eat her!"

They saw Su Yan's long snake tail.

"Then what should I do?" Su Yan had no idea.

Mo Xiaolang said: "If they want to take action, we can only kill them all, if not we can't guarantee our safety."

"No." Su Yan said anxiously, this kind of extermination, she was worried that Mo Xiaolang would fall into the Demonic Dao again, and it would be difficult for him to recover.

Mo Xiaolang looked at her with clear eyes, and said: "Yan Er, it's not that I'm confused, but Big Brother is rushing over right now, we cannot let anything happen to him, if not we will implicate him. These Celestial rats are not good, they want to kill us."

Just as he finished speaking, a dozen of Heavenly Mouse Tribe's youths had already agreed. They appeared at the same time and rushed towards Mo Xiaolang and Su Yan.

"Damned snake clan and wolf clan, accept your death!"

"We're going to eat you!"

The dozen or so children bared their fangs and brandished their claws in an extremely vicious manner.

Mo Xiaolang's expression remained indifferent as he watched them approach. To be honest, the Tong Tian Mouse tribe inherited the Heaven Devouring Mice, they ruled over the Heavenly God Palace, had a powerful bloodline, and were of the same level as the Nine-tailed Sky Fox. However, these children were too young, even though there were more than ten of them, they did not even reach the tribulation of reincarnation.

Therefore, it was extremely easy for Mo Xiaolang to kill them.

"Die!"

They charged forward and were just about to attack. Without saying a word, Mo Xiaolang controlled the flames of the Nine Hell Devil Ancestor and turned them into flames and rushed out, wrapping around the little fellows. The Celestial Mice all felt the extreme coldness and started to scream miserably, resisting with all their might.

"Everyone use your strength to break this flame. These two fellows aren't strong enough!"

They tore at each other, preparing to transform into beasts and force the Nether Demon Ancestral Fire apart. However, they quickly discovered that this was all in vain. The Nether Demon Ancestral Fire was simply too terrifying; it was not something they could withstand.

Only now did they realize that this youth was actually so formidable.

A moment of deadly crisis had arrived.

Chapter 1939 - Dragon's Nether Cave

These young Celestial rats only knew that Mo Xiaolang did not have the same kind of terrifying reincarnation ability as their elders, and they already thought that he was about the same as them. They also didn't understand how ruthless the destructive power of the devils were on Mo Xiaolang's body.

When their life and death were under someone else's control, they, who were a group of Celestial Mouse infants, were completely terrified. Their viciousness and bloodlust were completely gone and their faces were filled with fear as they looked at Mo Xiaolang, who was in charge of controlling their life and death.

"Quickly inform the elders to come save us!"

"Kid, you better not touch us. When our clan elders arrive, you will definitely die without a burial ground! Let me tell you, we are heavenly mice, and the Heavenly God Palace is our territory. If you dare to make a move on me, you will definitely die a horrible death! "

They had always been tyrannical and tyrannical in the Eclipse Palace, but they had never once met the other party. They didn't think that with their bloodline and background, they would dare to lay their hands on anyone.

Moving out of the backstage after losing the battle was a tactic that they came through.

It looked like they were about to connect with their seniors using the star runes.

Mo Xiaolang originally wanted to let them go, if their attitude was slightly better, but the other party's actions of taking out the Star Talisman was obviously forcing him into a corner. No matter who it was, he couldn't let this group of Heavenly Mouse live.

"Die!"

All of the star runes were burnt to ashes at the first moment. The extreme cold of the flames' explosive power was bone-chilling, and their bodies were very strong, but they were too young, so under the burning of Mo Xiaolang's flames, they let out an earth-shattering scream. However, very quickly, that scream completely disappeared, indicating that their life had already left them.

"wolf cub!"

Su Yan watched on helplessly.

"Yan Er, I'm fine." With a casual wave of his hand, all of the Nefarious Spectral Devil Ancestral Fire returned to her side. A dozen ice sculptures appeared, and when Mo Xiaolang tried to pull them out, the black ice sculptures fell to the ground, turning into black particles of ice. They gradually melted and entered the ground.

A thick layer of powder covered the ground.

"Yan Er, it's not that I'm bloodthirsty, it's just that I'm responsible for you."

Su Yan nodded her head, and said: "I know, I just don't really like seeing slaughter."

After she finished speaking, she nodded and said, "wolf cub, what should we do next? Sooner or later, their elders will come looking for us. "

Mo Xiaolang muttered to himself for a moment, looked towards the depths of Dragon Forest, and said: "There's no other way, follow me."

What he meant was, he wanted to enter the depths of the forest.

Su Yan's eyes widened as she looked at the pitch black forest. That dragon's Nether Wood was really too tall, and too big. It shrouded the entire world in darkness, making it difficult to see its fingers in the deepest parts of the forest.

There should be something terrifying inside.

Another half a month passed while they were on their way.

Fortunately, ever since the last time he met the Jade-eyed Golden Flame Toad, Long Chen was even more careful. In the past half month, he basically had not encountered any dangers.

Continuously travelling would naturally lead to exhaustion due to the depletion of energy. Resting was a must, and during the time taken for them to rest, the two of them could simultaneously recover and raise their strength.

In the past few days, he had made some attempts.

From time to time, there would be fellows blocking their way. Long Chen had defeated these fellows, and had once tried to let them enter the Great Void Realm.

However, every time, the end result was that the dire beasts would die under the God Kingdom's Sealing Spell.

Their deaths started when a four-colored symbol appeared on their forehead. The symbol didn't flicker once, but instead changed colors. When all four colors disappeared, it would be their time of death.

Long Chen gave up.

This meant that as long as they were in this crappy place like Demon God Area, he would not be able to think of using either the Divine Kingdom or the Great Void Realm to protect Ling Xi.

Of course, he didn't need to worry about the current Ling Xi.

In terms of fighting one on one, this girl with countless of skills, with the addition of the mysterious butterfly illusion sword, her fighting strength was already extremely tyrannical. Although her fighting strength was not as strong as Long Chen, but it was even more strange, making it hard for people to figure it out.

Along the way, he kept in contact with Mo Xiaolang at all times.

"Like this, we still need a month's time to arrive at their place. Last time, Little Wolf killed a few little fellows from the Celestial Mouse, so we had no choice but to enter deeper into the forest. It's extremely dangerous, so we have to arrive as soon as possible. "

Who knows what might happen in a month?

Also, with my current strength, it's more than enough to deal with a young warrior, but the young wolf's opponents should be the strong warriors of the older generation. They have cultivated for ten thousand years, and their strength is still lacking.

Those were the two things he was worried about.

Along the way, Long Chen did not give up cultivating. After passing through the Primal Chaos Deity, his strength had already steadily increased, and the primal chaos energy had been increasing continuously, especially after he had dual cultivated with Ling Xi, who had transformed into a tribulation of reincarnation, the two of them had also received huge benefits. Long Chen received a lot of reincarnation strength, while Ling Xi received the Monarch Occult Force from his body.

By then, his power would increase once more.

"I can use the Imperial Sword Technique. It will be a bit faster."

Ling Xi used it lightly, and the butterfly illusion sword floated in midair. When Long Chen and Ling Xi stepped on it, the butterfly illusion sword turned into a beautiful and gigantic nine-colored butterfly.

"Let's go."

Sword Kinesis Divine Technique activated.

The butterflies flew in the air as they brought Long Chen and Yue Yang through countless of mountains and rivers. Their speed was indeed faster now, and Long Chen also had enough time to rest.

"I hope he will be safe and sound when we arrive."

The two of them silently prayed.

The deeper they went, the denser and more difficult it became for them to advance.

Just that, if the Celestial Mouse found out that there were few people in the clan, he would definitely be able to reach this place. This was not a safe place, so Mo Xiaolang had no choice but to bring Su Yan and continue moving deeper.

Vaguely, they discovered that their surroundings were incomparably quiet. Even the sound of their footsteps on thick leaves could be heard from a distance.

The thick layer of leaves on the ground was probably more than a dozen meters long. Every single dragon's Nether Wood had fallen from the sky, and the roots on the ground were like ancient trees that reached the sky, one could not see the end of them if one looked up.

The so-called sky was actually made up of dense foliage.

This quiet environment made Su Yan a little afraid, so she pulled Mo Xiaolang's arm and nervously looked around.

"Don't be afraid. If we go another 30 miles we'll find a place to hide. They are only looking for the missing Celestial Mouse; they might not be able to find such a deep place."

Mo Xiaolang turned his head and said gently.

"I'm not afraid!" Su Yan bolstered his courage and said.

After he finished speaking, he once again gloomily hid behind Mo Xiaolang.

As they continued to move forwards, they felt that their surroundings became increasingly quiet. After walking another 10 miles or so, the surroundings had become completely silent. Under the cover of the thick and serene trees and the incomparably weak light, it was difficult to see their surroundings clearly anymore.

Mo Xiaolang's eyes belonged to the dark night, so he continued onward.

This place couldn't give him a sense of security.

The dense forest of roots dropped down from the sky. Part of it was tens of meters in diameter, and it was just a tree root, not a tree trunk. As for the tree trunk of the Serene Dragon Wood, it was basically like a wall.

Suddenly, an open space appeared in front of them. There was such a large open space in such a dense forest, so the timing was abnormal.

Mo Xiaolang noticed this, and an aura that made him feel uneasy existed underground.

"Take a detour."

"No," he said.

The empty space was covered with deep leaves. Long Chen had a feeling that there was something hidden within those leaves.

Thus, he chose to avoid them.

Right at this moment, the surroundings had changed from being extremely quiet to extremely noisy.

Mo Xiaolang pulled Su Yan back.

BOOM!

At that moment, the black hole transmitted a strong attractive force. The suction force was too strong, the surrounding dragon wood started to shatter, and with cracking sounds, countless leaves were minced into pieces and swallowed into the black hole. In the midst of the black hole, a creepy sound could be heard.

"Yan Er!"

Mo Xiaolang was able to stabilize his own body for the time being, but Su Yan was not, and in the next moment, Su Yan was sucked in.

Mo Xiaolang was shocked, he immediately grabbed onto the screaming Su Yan, but the moment his feet left the ground, it was as if all the suction force in the black hole had landed on him, the terrifying force was like a ten thousand meter long beast pulling Mo Xiaolang, in that short period of time, he was swallowed into the black hole, and disappeared.

The black hole's devouring did not stop until the surrounding several kilometers high trees were completely torn apart and poured into the black hole. Only after the black hole was completely filled did this unforeseen event stop.

In the same forest, dozens of sky reaching rat race martial artists were looking at the depths of the forest.

"Has the Dragon's Nether Cave been activated again? Looks like someone approached the Dragon's Nether Cave and triggered it. It can't be those little bastards! "

Shocked, everyone quickly headed in that direction.

Chapter 1940 - Underworld Blood Ants

BOOM!

Countless fragments of the Serene Dragon Wood fell to the ground.

In the incomparably dark world, water splashed everywhere.

Mo Xiaolang carried Su Yan and gently stepped on the surface of the water. The bottom of the water was only about a meter deep, and perhaps it was because no one had come here for a long time, it was filled with a rotten stench.

The moment he was sucked in, he wanted to rush out, but when he raised his head, a large amount of dragon dark wood descended from the sky, blocking off the entrance of the cave completely. There was a distance of at least ten thousand meters between this place and the ground, and within ten thousand meters, all the dragon dark wood was blocked off.

"What the hell is this place?"

He looked around and discovered that this was a very large subterranean world. It was thousands of meters high and he could not see the end of the subterranean world. It was extremely spacious here.

Rumble rumble rumble!

Although it was completely blocked, a lot of the fragments of the Serene Dragon Wood fell into the water, causing a large amount of water to splash out.

"Wait for me for a while. It's not appropriate to stay here any longer. I'll use the fire from the Nine Hell Devil Ancestor to create a path so we can leave."

Mo Xiaolang softly said to Su Yan.

He did not panic. Holding Su Yan in one hand and manipulating the Nine Hell Devil Ancestral Fire with the other, he formed a flame sphere and surrounded the two of them. Then, he rushed towards the tunnel filled with dragon Nether Trees.

"Charge!"

Under the attack of the Demon Ancestral Fire, even more trees fell into this enormous subterranean world.

Suddenly, the surroundings seemed to have many blood-red shadows.

"Be careful!"

Su Yan saw it first and quickly reminded her.

In the direction that Mo Xiaolang was heading in, there was actually a large number of red figures blocking his path. These red figures let out sharp hissing sounds, it was extremely terrifying, extremely savage, they rushed towards Mo Xiaolang like they did not care about their lives. These unknown creatures, as they moved, emitted a sound akin to steel rubbing against each other, and in a short moment, there were thousands of them blocking Mo Xiaolang's path!

"What the hell!"

Mo Xiaolang carried the Nine Serenities Devil Ancestral Fire, and the Nine Serenities Devil Ancestral Fire condensed into a giant flame wolf beside him. It roared and collided with a large amount of red figures, and from the opponent's body came a terrifying power, directly smashing Mo Xiaolang down, while a large portion of the red figures were burned by Mo Xiaolang until they screamed miserably!

BOOM!

The endless water had already completely turned red, and the several thousand meters high walls of the cave were also completely filled with red shadows. Every red shadow, was around the size of Mo Xiaolang's body, and if one were to roughly calculate, it would fill up the entire endless water area and the entire walls of the cave, would amount to at least a few hundred thousand of these creatures.

Endless and dense.

Their voices were the sharpest ones Mo Xiaolang had ever seen, like two pieces of steel rubbing against each other. Countless sharp sounds combined together could only be described as terrifying, it was almost comparable to the roar of Long Chen's Blood Weeping Dragon soul.

This kind of voice made even Mo Xiaolang feel extremely uncomfortable, let alone Su Yan.

"wolf cub, it feels so bad."

Su Yan covered her ears, her face pale as she said.

Mo Xiaolang protected her, and said: "Hold on a little longer, let me see what these things are."

"Yeah, I'm fine." Su Yan's physique was very strong now, and her adaptability was very strong. At the beginning, the cries of these damned things had indeed had a huge impact on her, but now it was much better.

The red shadow drew closer.

Mo Xiaolang took a closer look and discovered that it was actually an ant.

The blood-red ants had long legs that were like sharp arrows, and a pair of blood-red iron pincers that were extremely sharp. Their mouths were terrifyingly sharp, and glowed with a blood-red light in the dark.

There were tens of thousands of these ants.

Mo Xiaolang could not help but have a headache. The hole above his head was almost completely filled with blood coloured ants, was it possible that he had to kill all of these ants before he could charge out?

At this time, the endless waves of blood-red ants began to assault Lin Ming!

Those mysterious blood ants were too savage, even Su Yan did not dare to look at them.

"Forging Furnace Formations of Heaven and Earth!"

Mo Xiaolang used his sacred art, and instantly, everything within a thousand meters around him was engulfed in flames. The blood ants that rushed in let out shrilling hisses under the blazing fire, and were

burnt into charcoal, but there were still countless of them rushing in. They didn't look like living beings, but more like machines that didn't care about their lives!

The berserk wave of blood ants descended!

"Die!"

The huge threat forced Mo Xiaolang to exhaust all his strength to deal with these fellows. He spat out a large amount of flames, and wherever he went, those steel-like blood ants turned into charcoal, before exploding into smithereens. Even so, tens of thousands of blood ants still rushed forward without even taking half a step back from the death of their companions.

"Damn thing!"

Mo Xiaolang clenched his teeth tightly. Everywhere he went, blood ants died one after another, but there were also those who bore with the flames and charged towards him. They bit at him with their steel pincers, and were instantly ripped into two pieces by Mo Xiaolang.

"Kill!"

More and more blood ants broke through the Forging Furnace Formations of Heaven and Earth and engaged in a close combat with Mo Xiaolang.

In this battle, Su Yan had been protected the entire time, causing her to be extremely anxious. On one hand, she was worried that Mo Xiaolang would be harmed, but on the other hand, she was worried that there would be a change in his emotions.

"wolf cub!"

While Mo Xiaolang was fighting, Su Yan stopped him.

"What's wrong?" Mo Xiaolang unleashed the Nine Serenities Demon Ancestral Fire. As it swept across, at least a few hundred blood ants immediately turned into ice sculptures.

"Don't become bewitched. "I'm scared."

Su Yan bit her lips as tears flickered in her eyes.

"I won't!"

Mo Xiaolang's eyes were still clear and he saw Su Yan's tears. This cleared his mind quite a bit, and in her life, he would always find herself in desperate straits, just like now, when she knew that Su Yan was relying on him to bring her to the Immortal God Realm, she must treat her well.

"I absolutely cannot be bewitched!"

"Absolutely not!"

He knew that the more people cared about him, the more he needed to control himself!

"I need to stay awake."

As he fought, he warned himself.

Thousands upon thousands of corpses piled up around him as he was engulfed by the Nine Hell Devil Ancestral Fire. There were even more blood ants that weren't completely killed. Even though they were heavily injured, they were still screaming as they pounced on him.

Suddenly turning his head, Mo Xiaolang saw a blood ant descending from the skies, pouncing towards the top of Su Yan's head.

"No!"

He roared, his eyes half red.

In that moment of life and death, Su Yan suddenly waved her long snake tail, and sent that blood ant flying. She looked at Mo Xiaolang with a determined gaze, and said: "wolf cub, I can protect myself too, but you have to live up to expectations!"

To be successful

Yes, he had to work hard, and not be easily defeated by the demon in his body.

Thinking about it, Mo Xiaolang calmed himself down and started to deal with the Steel Blood Ants, who seemed to want their lives.

Their numbers were simply too great.

Rumble ... yet another wave of blood ants descended. There was no end to this.

"If this goes on, I will have to exhaust all of my strength. It seems like I have to turn into a Sun Devouring Demonic Wolf and push this ten thousand meter deep ground away before I can rush out."

Mo Xiaolang quickly made his plans.

If he transformed into a wolf, it was very likely that he would cause a huge commotion. However, there was no other way. If he didn't, he might have been killed here.

Su Yan, on the other hand, read silently: "I want to help, I want to help ..."

She was thinking of a way to help.

Mo Xiaolang pushed back his opponent, carried Su Yan, and told her his plan once. He told her to be ready, and then, he prepared to charge out right away!

At this moment, the blood ants started to retreat.

The dense, blood-red light finally dissipated into the surroundings.

The vast underground world finally quieted down.

Mo Xiaolang heaved a sigh of relief, but was still on guard. Today, he had made a huge progress, and that was that even now, his emotions were still calm and his eyes were clear.

"Leave as soon as possible."

After the blood ants retreated, Mo Xiaolang rushed into the sky.

Suddenly, a stiff laughter was heard. The owner of this voice was a woman.

"You want to leave after killing so many of my descendants?"

This sinister voice echoed in this huge underground world. The person who spoke seemed to be far away, but also seemed to be nearby.

It looked like the boss had appeared behind the scenes.

In the dark night, a woman wearing a blood-red long skirt suddenly appeared. He was sexy and alluring, his eyes blood-red and extremely cold.

She had the same aura as the blood ant just now, and it was several times stronger.

"Kid, no one told you that this place is the territory of my Underworld Blood Ants. "How dare you come here and slaughter my descendants?"

Mo Xiaolang did not dare to clash with her, and apologized: "I'm truly sorry, we were sucked in here, and then they attacked me. It was only because I did not want to die that I resisted."

"Heh heh."

The blood-red woman sneered, and said: "Since you've come, then become my food. You've killed so many of my treasures, isn't it better to just leave here safely? Otherwise, how disgraceful would I be? I am a Hell's Queen, aren't I? "

Obviously, she wasn't going to let this go easily.

"Yan Er, get ready."

Mo Xiaolang realized that this might be another impossible death match.

At that time, the reason why Mo Xiaolang had defeated the Sky Fire Azure Dragon who had four kinds of tribulation of reincarnation was because the other party was of the fire attribute, and was about to be suppressed by him. However, the woman in front of him was obviously not.
