

War God 1961

Chapter 1961 - Rebirth of a Demonic Wolf

Long Chen stalling for time was because he believed that Mo Xiaolang would succeed and turn the tide this time.

The reason why the opponent was stalling for time was because they knew how powerful the Red Lotus Fire was. It was much more powerful than the Heavenly Fox Demon Flame. One could tell from the flame pillars that formed around the Red Lotus Fire.

They had only mocked that Long Chen was ignorant to be willing to buy time with them.

In this period of time, Ling Xi and Su Yan had slowly recovered, and the two girls waited patiently.

They knew what Long Chen was thinking.

"Until now, he still believes in the wolf cub the most." Ling Xi whispered into Su Yan's ear.

"Yeah, despite what happened just now, they had some small conflicts."

Su Yan nodded her head. It was still a critical moment, whether she was dead or alive was unknown, but with Long Chen's shock, even if Long Chen was not the opponent of those old monsters, they still felt at ease.

This was the belief that Long Chen had brought to them!

Time was passing quietly!

The remaining three members of the Nine Tailed Heavenly Fox had already informed the others, but the others were far away. To rush over here, it would take at least a few days, and they would not be able to rescue him.

"Second brother, should we sacrifice him and get rid of these three people?"

Amongst the three of them, the weakest person said softly to the strongest person.

The strongest expert was indeed tempted, they did not need to drag things out with Long Chen, as it would cause unnecessary trouble ...

However, the brother who was imprisoned by Long Chen was not willing to give up. After all, who was willing to let their own brother die?

"That wolf clan might be able to hold on for too long, so we can make our preparations."

Everyone hurriedly looked in the direction of the flame pillar, only to see that the riot at the flame pillar had increased by almost ten times, the entire pillar had twisted, and the flames that exploded seemed to be on the verge of collapsing, countless flames soared into the sky and fell from the sky, causing the fire rain to fall onto the ground, causing the surrounding magma to spread even further, exploding!

Huge continuous booms rang out from the direction of the fire pillar. It was as if the world had been destroyed, and it gave off the feeling that the end of the world had arrived. Lava and the sea of fire in the sky charged up, blurring everyone's vision.

Right at this moment, the crowd heard a horrifying wolf howl coming from within the pillar of fire. The howl shook the world and was accompanied by the explosion of the pillar of fire. A sea of fire shot into the sky.

The only thing left around them was the flames.

"This wolf tribe is quite capable, but they have angered the red lotus flower fire. It should be time for them to burn to death."

"The Red Lotus Fire was a strange fire that the Red Lotus Demonic Lord had left behind tens of thousands of years ago." The Red Lotus Fire was a strange fire that the Red Lotus Demonic Lord had left behind here tens of thousands of years ago.

"That scream was issued by him. He should be dead by now."

They obviously didn't want Mo Xiaolang to die, as they still wanted to act as hostages and call out to Long Chen. Therefore, when the flames were in turmoil, they seized the opportunity to quietly leave Long Chen's sight and rushed towards the direction of the flame pillar's riot.

They had never thought of letting Long Chen and the other two leave.

In terms of power, they stood at the position of absolute rulers.

"Little Wolf!"

In the midst of the endless sea of flames, Long Chen passed through layers after layers of flames. The first thing he saw was a peerless enormous beast slowly walking over from that direction, looking casual but also giving the current Long Chen a lot of pressure.

"He succeeded!"

Long Chen was faster than anyone, and he already knew this fact, because he understood Mo Xiaolang, any flame, no matter how strong they were, would always be his food. In front of this ferocious flame, they would always be like lambs in front of him.

Half a day had already passed since Mo Xiaolang entered the flame pillar.

Long Chen knew that the Nine Tailed Heavenly Foxes had already charged over to kill them. He was not anxious at all, but rather, had entangled his enemies tightly, and was praying silently in his heart.

"I hope that at this moment, you are awake and that the demon remembrance is unable to defeat you!"
"Little Wolf!"

Years of brotherhood.

The fire raged, it was no different from the sea, the entire world was a blazing sea of fire, the fire pillar seemed to have exploded, the soaring fire pillar, from today onwards, this vast scene, would disappear from Demon God Area!

The three Nine Tailed Heavenly Foxes stopped in shock. At this moment, they had already seen the figure walking out of the flames. They didn't know why, but fear had suddenly appeared in their hearts!

In terms of bloodlines, there were not many demons they were afraid of. There was definitely none of them in the previous Mo Xiaolang, but now that he walked over from the direction of the fire pillar, the figure shrouded in a sea of fire actually made the three Nine-tailed Heavenly Fox elders feel an indescribable sense of danger.

"He doesn't seem to have been killed by the Red Lotus Karmic Flame, and he hasn't been defeated either!"

"What's going on? Did the Red Lotus Fire not kill it and let it out?"

The three elders were puzzled.

"Don't hesitate, before Long Chen finds out, we need to capture the wolf clan quickly and exchange for my brother!"

After he had finished speaking, the late stage Four Symbols tribulation of reincarnation warrior immediately dashed towards the black shadow within the flames without saying a word.

In order to achieve victory, they attacked victorious, especially the expert from the five elements tribulation of reincarnation, who was proficient in the origin of the world, possessed the power of reincarnation, and could change the physical structure of mountains and fill the sea, there was nothing he couldn't do. Although he was not a fire demon, he could control the flames in the sky and condense them into a fist-sized flame sphere. With a casual toss, the fireball that was gathered in large numbers tore through the space, charging towards the direction of the Sun Devouring Demonic Wolf in shock!

The battle was about to begin!

BOOM!

The small ball of fire, however, caused the sea of flames to explode countless times. A hurricane swept the area, and the fireball carried countless flames as it shot towards the Sun Devouring Demonic Wolf!

It was only at this moment that the silhouette of the black demon wolf appeared from within the boundless flames.

Long Chen squinted his eyes.

The huge black beast that walked out of the flames had blood-red flames burning on its body. The flames formed a red lotus that looked very demonic, but it was also very hot. Two red lotuses could be seen in its originally black eyes, and they contained an extremely explosive flame power.

The Sun Devouring Demonic Wolf's might covered the entire world, it had the power to rule over all living beings!

With his eyes, the first thing he saw were the two experts from the Nine Tailed Heavenly Fox, he saw their incoming flame sphere, and facing such an attack, the Sun Devouring Demonic Wolf did not panic at all, he opened his ferocious wolf mouth and swallowed the attack, the attack from the Nine Tailed Heavenly Fox, completely into his stomach.

The surrounding flames subsided.

What was happening in front of them, shocked them too much. They had originally thought that even if Mo Xiaolang did not die, he would at least be severely injured by the attacks of the Red Lotus Fire, but the him in front of them, in terms of just that sense of danger, was already several times stronger than before. What made the three Nine Tailed Heavenly Foxes unable to endure even more was the aura of the Red Lotus Flame on Mo Xiaolang's body!

It shouldn't have appeared on him!

It was a scorching fire, a violent fire, and also a mysterious fire. Over the past tens of thousands of years, people who were much stronger than Mo Xiaolang had not been able to reclaim the flames of the Red Lotus Industry!

The flame pillar seemed to have disappeared, so did the red lotus karmic fire also disappear. Could it be that the red lotus karmic fire had truly been devoured by this monster like the heavenly fox's?

The three Nine Tailed Heavenly Fox elders looked at each other. They discovered that their other two companions had the same thoughts as them.

They felt a deep terror.

This kind of wolf clan was his enemy. Thinking about it, the old man from the Five Elements tribulation of reincarnation knew that he could not delay this further.

He gave the order.

"Notify the clan elders and the clan leader of everything here, and then fight to the death!"

When this notification was given, the one who executed it was the weakest out of the three, who was also the one who was at the early stage of the Four Symbols tribulation of reincarnation.

The battle was about to begin!

At this point, they no longer had the time to care about the Nine-tailed Sky Fox that was being controlled by Long Chen. They deeply understood how terrifying the Sun Devouring Demonic Wolf was, at least in the direction of their fighting strength.

"I'm sorry, but your clansmen don't seem to have the intention of saving you!"

Long Chen naturally could not just watch like this. Although due to the dual characteristics of the devil and Sun Devouring Demonic Wolf, Mo Xiaolang had grown limitless and became stronger, the other party was, after all, a warrior of the Five Elements tribulation of reincarnation.

He was decisive, decisive, and wanted to kill!

After enduring for a long time, the battle finally started!

Mo Xiaolang, Long Chen had been waiting for him for a long time!

Even if they had fallen victim to the devils, even if they had fought side by side in Demon God Area where danger lurked everywhere, even if the two of them had fought previously, no one could stop them from fighting side with each other again!

Long Chen's sturdy body suddenly applied force, and the sword like dragon tail pierced deeply into the opponent's body, ending the life of the captive.

With the body that Tai Su nurtured, if it was in a humanoid state, Long Chen would not be able to defeat the demons with the Four Symbols tribulation of reincarnation. In the human form, the limit was tri-level tribulation of reincarnation, almost invincible!

After taking care of his opponent, he rushed towards the blood-soaked battlefield without any hesitation!

The last old man at the early stage of the Four Symbols tribulation of reincarnation had just spread the news and was about to participate in the battle when a crisis suddenly struck him!

Chapter 1962 - Death of the Nine-tailed Sky Fox

"Too terrifying." The old fox watched the battle between Mo Xiaolang and the two Rankers. It was obvious that Mo Xiaolang was stronger than the Flame Emperor Giant Snake. The Flame Emperor Giant Snake was a dire beast with low intelligence and could still be used to play around, but the Sun Devouring Demonic Wolf was completely useless.

"Wolf Pack is not stupid. He has already been possessed. If I go up, I think he will be treated as a soft persimmon."

He was hesitating whether he should go up and help.

Suddenly, he thought of Long Chen.

The Nine-tailed Heavenly Fox shivered. When he looked behind Long Chen, what he saw was the corpse of a Nine-tailed Heavenly Fox, quickly descending.

"You actually killed him!"

Long Chen and Mo Xiaolang had gained the strength to fight on his side the moment he saw Mo Xiaolang successfully return, so how could he obediently comply with the previous agreement?

Unless Long Chen was an idiot.

"Don't go up, I'm your opponent."

Long Chen concentrated on the opponent in front of him.

After transforming into a Divine Dragon Body, this was the third opponent he would fight with with the Four Symbols tribulation of reincarnation!

His opponent was afraid of Mo Xiaolang, but he was also afraid of Long Chen, because Long Chen had already killed a Nine-tailed Sky Fox who was similar to him.

"Don't underestimate me!" We didn't think highly of you before, which is why we gave you an opportunity. With my Nine Tailed Heavenly Fox's methods, how could I lose to you! "

The Nine-tailed Heavenly Fox roared, and its nine tails stood up straight, becoming a death whip. Its glazed fox claws also extended out, and after extending for a hundred meters, they were as sharp as a Dao item, covered in blood stains and full of Blood Qi. The Nine-tailed Heavenly Fox's eyes were filled with blood threads, it bit at them, and went berserk in its heart, as it charged towards Long Chen!

"Fighting with my ancestral dragon body is pure suicide."

In this world, there was no one who could surpass Long Chen. Of course, that was only if they were of the same strength.

"Let's go!"

The gigantic dragon rolled in the blood mist, countless of Blood Weeping Dragon souls formed a sea tide that slaughtered small dragons, immediately causing terrifying roars to shake the world. The Blood Weeping Dragon Soul was Long Chen's strongest move so far, it was terrifying enough to be used by Divine Dragon Body s.

He did not underestimate his opponent. After all, he was an expert who possessed the power of the Four Directions Reincarnation, and in that instant, Long Chen had summoned a million Blood Weeping Dragons.

"Die!" "Die!"

The Nine-tailed Heavenly Fox used its Glass Fox Claw and pierced through countless small dragons, but there were even more small dragons that pounced on him and bit off pieces of his flesh. A million Blood Weeping Dragon souls covered the sky and earth, it was not easy to deal with!

Long Chen transformed into a ruler of countless small dragons, ruling over a million dragon clansmen. He quietly went closer to his opponent, and when his opponent became terrified and crazed because of the Blood Weeping Dragon's soul, he began to display the divine ability of a Great Void Cosmic Dragon, unleashing it eternally!

Long Chen rushed out from within the group that had killed the little dragon. Under the despairing gaze of the Nine-tailed Heavenly Fox, his slender dragon tail shot up into the sky, turning into a sky-upholding blood sword, the Ancient Slaughtering Runes transforming into a bloody dot. The sword blade hacked down without any resistance, directly splitting the Nine-tailed Heavenly Fox into two halves!

The Taiji Nirvana Qi and the body that contained the power of Tai Su were both unstoppable. As the Nine Tailed Heavenly Fox cried out miserably, it died in an instant and never had the chance to make a comeback again!

Only a small part of the million dragons had been lost.

Long Chen's Ancestral Dragon body had dealt with his opponent with incomparable power. This kind of speed was extremely terrifying, and it was obviously only displayed with the fusion of Tai Su's power.

If it was in human form, Long Chen would definitely not be a match for the Nine-tailed Sky Fox.

Luckily this was a very remote place, otherwise Long Chen would not dare to reveal his identity as the Dragon Fighter, since he was a member of the Spirit Demon race!

The flames were still spreading!

Long Chen's battle part was only a small part of the battlefield. The biggest battlefield was where the Sun Devouring Demonic Wolf fought the two Nine-tailed Sky Fox!

Amongst them, there was also an expert who was proficient in the five elements!

But the Sun Devouring Demonic Wolf was also the master of flames. After it swallowed the Red Lotus Fire, the destructive power on his body rose once again, and with a raise of his hand, the sky crumbled and the earth cracked!

Long Chen knew that he wouldn't be able to help on this battlefield.

Mo Xiaolang's growth was even faster than his, and at this moment, he was no longer his match.

Of course, Long Chen was not the least bit discouraged. Firstly, the other party was his own brother, and there was no comparison between them, and secondly, the reason why Mo Xiaolang could grow like this, was mostly because of the dual innate gifts of the devil and Sun Devouring Demonic Wolf. It was true that he could explosively increase his strength, but the devil escaping from his Eighteen Major Tribulations, what kind of ending would it be.

If he was still within the rules, he would definitely not be able to keep up with the speed of Ling Xi and Long Chen.

Long Chen thought to himself that he would do his best to save him.

Demons were destined to never return.

Of course, if they did not have Mo Xiaolang's power, the four of them would be dead, so Long Chen was actually quite conflicted.

The only one who could understand him, was probably Ling Xi.

At this moment, the three of them were anxiously watching the battle on the other side.

Long Chen removed the Divine Dragon Body, and the three of them stood side by side, nervously watching Mo Xiaolang's battle.

In the distance, Ruo Xi watched all of this with a dumbfounded expression. She didn't know what to do.

"Big brother Long Chen, can he win?"

Su Yan looked at the ferocious beast shrouded in blood colored flames. She clenched her hands and placed them on top of her chest.

"If he can't do it, who else can?"

Long Chen said with a smile.

Ling Xi looked over, and the two of them held each other's hands.

"He's awake, I can feel it!"

Long Chen was extremely gratified in his heart, and even had the impulse to cry from joy. This was still his brother Mo Xiaolang, he had never changed.

"Am I being too hard on him?" he asked Ling Xi.

"No. He can understand. " Ling Xi gave her an encouraging look.

He had begun to dominate the battlefield, and had used his absolute flame power to fight the Four Symbols Power of Reincarnation and the Five Elements Power of Reincarnation. His destructive power could eliminate all illusions and techniques, and he was now berserk and fierce, frantically fighting against the two elders!

In terms of strength, he seemed to be about the same as the Flame Emperor's Giant Serpent, but in terms of danger, the current Sun Devouring Demonic Wolf far surpassed the Flame Emperor's Giant Snake!

His Nine Hell Devil Ancestral Fire and the Red Lotus Karma Flame mixed together and rushed into the other party's body, causing a huge explosion. In that instant, the Nine Tailed Heavenly Fox shattered into pieces and was engulfed by the endless sea of flames!

"You!"

In the end, only the experts from the five tribulation of reincarnation remained.

His three brothers had all died!

Ruo Xi had also lost, he no longer had the will to fight.

He did not believe that such a thing would happen to him. Only by killing all the people on the other side would he be able to take revenge and wash away his shame. Only then would he have the face to meet the other experts in the clan.

"No one can safely live in this world after taking the risk of the Nine Tailed Heavenly Fox. Even if your innate talent is heaven-defying, we will not allow you to roam free!" You killed three of my brothers today, and have already formed a blood feud with me. Even if you can escape today, I, the Nine Tailed Heavenly Fox, will spend ten thousand years just to kill you and wash away my shame! "

"A mere nameless wolf clan would turn into devils and kill you whenever the world sees you! You've already stirred up a disaster, don't expect to get away with it! And also that Eternal Dragon Emperor's son! Today, you can forget about escaping. Your father has long since passed away. This is no longer his era! Your identity is no different from a normal mortal's. If I want to kill you, it will be an easy task! "

This last Nine Tailed Heavenly Fox was almost driven mad by Long Chen and Yue Yang!

The more berserk he was, the more his battle would be, the more he would disregard life and death, and the more powerful he would become, the body of the Nine-tailed Sky Fox was even twice as big as Mo Xiaolang!

The Sun Devouring Demonic Wolf had just absorbed the Red Lotus Fire, so it was not easy for her to face him. After all, this was a super expert of the Five Elements tribulation of reincarnation!

In the Immortal God Realm, the five element tribulation of reincarnation could absolutely be considered the level of hegemons!

Amongst the Dragon God Domain, there were about ten people at this level, and every Divine Ancient City, and all of them were old people. In the generation of the young city lords of War God's Ancient City, the strongest was probably only at the Four Symbols tribulation of reincarnation!

But even so, Mo Xiaolang's conviction was not extinguished!

This was his last opponent.

Even though he was engulfing the Red Lotus Flame, he knew everything that had happened outside like the back of his hand. He knew that Long Chen and the other two had gone through a lot and were waiting for him in the end!

He had indeed made them wait for a long time ...

"Kill!"

Only by killing this Nine-tailed Sky Fox would he be able to prove himself!

His conviction supported him in battle. He had boundless courage, and this was the key to his victory. He was still young, and he had countless lives to fight for. However, that old man was different.

At this time, Ling Xi was slightly recovered.

"I can use the butterfly illusion sword to help the little wolf."

She whispered into Long Chen's ear.

"Then let's give it a try."

Long Chen protected Su Yan as he brought Ling Xi closer to the battlefield quietly.

The two giant creatures that were fighting didn't sense their approach at all. Their battle had caused the sky to fall and the earth to turn dark.

At this time, Ling Xi took out the archaic instrument that was covered in butterfly patterns.

"Lost illusion array!"

Sector lord Divine Arts, activate!

Chapter 1963 — The Devil of Freedom

Using the Butterfly Illusory Sword, he activated the Sector lord Divine Technique!

Illusion techniques were something that the Nine Hell Illusory Butterfly was proficient in. The Butterfly Illusory Sword Technique using the Nine Hell Illusory Butterfly as a Dao Spirit was very suitable.

The Sector lord Divine Arts contained a lot of mysterious Spiritualism s, and inside it was a vast amount of information. Although the things that Ling Xi had learned were miraculous, but in reality, it was just a hair of nine oxen.

The lost illusion array was only used against the Nine-tailed Sky Fox.

The tip of the sword pointed towards the sky, and issued a command. The hand seal and chant went parallel to each other, and the power was released through the butterfly illusion sword, causing an invisible formation to pervade the air. The only one who could experience the power of the illusion formation was the Nine-tailed Sky Fox.

In front of his eyes, the scenery around him began to change.

It was undoubtedly an exquisite illusion array that could confuse the eyes of the practitioners of the tribulation of reincarnation of the five elements. Only the Sector lord Divine Arts could do such a thing.

In the eyes of the Nine-tailed Heavenly Fox, the scenery changed from a sea of fire to an endless prairie. The surroundings were filled with birdsong and the fragrance of flowers; it was like a paradise on earth.

"Damn the Spirit Race!"

Ling Xi didn't even want to fight him. She only needed to confuse the other party for an instant before she was able to withdraw from the illusion array, preventing her from getting injured. Even if she was panting hard, in reality, she had already achieved her goal.

She, who looked weak but seemed weak, had actually played a great role in this disaster. If Long Chen didn't have her protection, he would have been done for a long time ago.

She had managed to buy the Sun Devouring Demonic Wolf some time.

The environment broke, and the Sun Devouring Demonic Wolf suddenly appeared in front of him. The sharp wolf teeth tore apart his neck, and fiercely smashed into the ground, causing the ground to shake, and the Nine Tailed Heavenly Fox was thrown into a complete mess. He was about to counterattack, when the Sun Devouring Demonic Wolf held him down like a madman, its wolf claws piercing deep into his flesh.

The flames of the Red Lotus were extremely scorching.

As for the Nefarious Spectral Demon Ancestral Fire, it was a yin fire. When it was mixed in, it immediately produced an incomparably violent explosion. Countless bloody lights burst out from the Nine Tailed Heavenly Fox's body, instantly riddling it with thousands of holes.

"Damn it!" Get lost! "

Due to his severe injuries, the old man was extremely berserk. He attempted to penetrate Mo Xiaolang's body with a few thick tail and glazed fox claws to break him open and regain his freedom.

But just at this moment, countless Slaughter Dragons rushed over and stopped the Nine-tailed Sky Fox's attack. After blocking only one attack, Long Chen had lost a hundred thousand Slaughter Dragons, but the results were undoubtedly great!

Taking advantage of Long Chen's help, Mo Xiaolang became even more ruthless. The Nine Hell Devil Ancestral Fire and the Red Lotus industrial fire had almost taken over the other party's body, and the Nine Tailed Heavenly Fox's desperate struggles caused the lava to rage like an ocean under a storm. However, under Mo Xiaolang's forceful pressure, it struggled for a long time and finally stopped moving.

The Nether Demon Ancestral Fire spread out, turning the other party's corpse into an ice sculpture.

Although the lava was still flowing, it was all over.

The fire pillar had been completely destroyed as well, but it had created an endless sea of flames.

The blood lotus in his eyes had already disappeared. He looked at the corpse under his feet blankly, then looked at the endless sea of flames around him. Finally, amidst the countless flames, he found the man who was incomparably small to him.

He choked up a bit, and his eyes trembled lightly.

As the Sun Devouring Demonic Wolf disappeared, he transformed into a graceful youth, appearing pure and natural. Standing above the boundless sea of flames, he silently looked in Long Chen's direction.

There were no longer any obstacles in Long Chen's heart. Being able to see Mo Xiaolang become stronger and still remain awake, even if he still had concerns for his future, it was not suitable for him to say anymore.

He brought Ling Xi's Su Yan across the sea of flames and arrived in front of Mo Xiaolang.

Mo Xiaolang was the main force behind this killing of the strongest warriors, but it could not not not be separated from Long Chen and Ling Xi's help.

Long Chen said straightforwardly: "Even though the process is very complicated and dangerous, fortunately the outcome was perfect. You say that, don't you? "

This was the process. At first, he couldn't control himself, so he wanted to devour the Red Lotus Fire, then attract the Nine Tailed Heavenly Fox, and Long Chen coincidentally encountered the god of tai-su. Under such a dangerous situation, when they thought back to it, they couldn't help but feel fear and trepidation.

There was another very important person here.

"What are you going to do with her?"

Long Chen pointed to the distant Ruo Xi.

She was looking at him with a pale face, and there were tears on her cheeks.

Her grudge with this place was mostly with Mo Xiaolang.

Mo Xiaolang clenched his teeth and said: "I'll go."

He controlled the sea of flames and arrived before Ruo Xi. This peerless beauty, who had been so magnificent in front of the two brothers back then, was now a little pitiful. She was grateful to Long Chen for not killing her, but she also felt that she had let them down.

"Kill me."

Ruo Xi looked at his opponent, and no longer dodged.

However, Mo Xiaolang said: "I am here to apologize to you. As for the matter of the Sky Fox Demon Fire, I was really unable to control it, and at that time when Yan Er was taken away by the snake tribe, I was worried in my heart, but a young Nine-tailed Sky Fox was bullying me, and did not let me leave, and went to save Yan Er. My mood changed, and I couldn't control myself, and you probably knew that that was when I first fell into the Demonic Dao, and later on you thought that the Devouring Sky Fox Demon Fire, and saved Yan Er.

Ruo Xi looked at him blankly.

The most moving quality should be forgiveness.

After hearing that news, Ruo Xi was indeed furious and resentful. Mo Xiaolang had practically destroyed her future, causing her pain in her heart and the thought of killing him.

She laughed helplessly: "So it turns out that all of you have your own difficult spots. If you want to escape in this Demon God Area, the process is dangerous, and your lives are in danger, it is even harder than mine. This is all fate, you can't blame anyone else. "I'm afraid I'll never be able to be friends again."

Friend, perhaps it is already impossible.

At the very least, Long Chen and Mo Xiaolang could not openly appear in front of her and her clansmen.

"I hope there will be a chance to meet again."

Mo Xiaolang bade farewell to her and returned to their side. Ruo Xi did not stay any longer and turned around to leave, quickly disappearing into the sea of fire, leaving the four people safe and sound.

"Let's go."

With such a large commotion, it was still not a safe place.

After the calamity, should he welcome a new life?

When he left the sea of flames and once again entered the vast forest, Mo Xiaolang suddenly stopped and said: "Big Brother, it's time to part ways now."

There was no room for redemption.

Long Chen turned around to look at him, and said. "You don't want to go to the Spirit God Realm, but the chaotic star field, or the devil star?"

Mo Xiaolang shook his head. "chaotic star field is suitable for me, but I won't go to the devil star. I only think of a free place to live quietly with Yan Er.

Long Chen clenched his teeth, and said with difficulty: "Go ahead."

Mo Xiaolang was also in a difficult situation, but he still said: "If the martial magic seed is a type of sickness, then I am incurable, it has already completely become a part of my body, and has merged with me extremely closely, and today, I am the martial magic seed, and the martial magic seed is me. In my life, I am already unable to get rid of it, there is no other way in this world. Only I know that, and you won't know it. "

Long Chen was silent for a moment, then said: "Definitely not, the human Martial God, didn't he remove his martial magic seed and ultimately become a god?"

Mo Xiaolang laughed helplessly: "God, not everyone can succeed, I don't think I have the chance, that is to say, unless I transform into a god, there is no way to let me get rid of it, so, I have already cut off the meaning of getting rid of it, I want to control it, and conquer it. Big brother, do you believe in me!"

His eyes burned with anticipation as he looked at Long Chen. This was the time he needed confirmation the most.

This question was undoubtedly the hardest for Long Chen.

Mo Xiaolang had always been a persistent person, but this time, it was the time he was the most persistent. Long Chen started to recall this matter from the start to the end, it was true that it was very difficult for Mo Xiaolang to control this matter, but it was true that he was growing stronger and stronger.

He continued, "You might not understand, the devil is not like the City Lord, the devil will only expand his humanity, if he wants to kill, he will ignore the lives of tens of thousands of people, and I only want freedom, the word freedom, can you understand that? "Sometimes I feel that it's not necessarily a bad thing for the demonic nature to be used properly. At the very least, I get endless power."

"Freedom of the devil?"

Long Chen remembered that long, long ago, in a small corner of the Dragon Sacrifice Continent, Zhao Qingyun had told him this exact thing.

What they wanted was only freedom.

From Mo Xiaolang's burning gaze, he could see the desire and pursuit in his heart.

"I will return with you to the Spirit Realm. With your status, I will once again survive in the waves, my mentality will change very quickly, and it won't be beneficial for me. I want a free place to change my life, and the chaotic star field is undoubtedly my first choice, but I definitely won't go to the devil star. The Devil of Freedom! "

He was filled with anticipation, waiting for Long Chen's answer.

Chapter 1964 - Separating paths

In truth, the so called devil nature also made Long Chen feel that it was mysterious.

But because the first demon he had seen was the one that had caused the city lord to die in vain, he felt as if he had been bitten by a snake for ten years.

When Mo Xiaolang was controlled by the martial magic seed, he was so nervous.

Hearing Mo Xiaolang's explanation, and also hearing his revenge, and hearing his sincerity, Long Chen felt a lot more relaxed in his heart. He was thinking about whether or not he was worried too quickly, and if Mo Xiaolang wanted to go through this kind of trouble, and if he desperately needed his trust, why didn't he give it to him?

Thinking of this, he suddenly smiled.

During the most nervous moment for Mo Xiaolang, he waved his hand and said: "Forget it, since I have already trusted you so many times, I won't miss this one time either. "I believe that you will be able to control yourself. If you are unable to eradicate the devil nature and it is already a part of you, then I will let you become a free devil."

He had already thought it through. These words of his, was Mo Xiaolang's greatest comfort and greatest strength. From the bottom of his heart, he was waiting for Long Chen's approval.

His tense face revealed an endless smile. He said in pleasant surprise, "Thank you, Big Brother! "Thank you for believing me. I swear, I will not let you down in this life. I will make you regret your trust in me today!"

At this moment, he actually had the impulse to cry with joy!

Long Chen smiled as he looked at him, feeling a lot more at ease.

"Then, we will leave first." Mo Xiaolang said.

He knew that Long Chen was able to protect himself, and was not willing to implicate Long Chen in his own matters. The Nine-tailed Sky Fox Clan was sure to know what had happened here, and the commotion this time was even worse. Mo Xiaolang had to hurry to head towards the chaotic star field.

Long Chen still had thousands of words in his heart, so he felt that if he could translate them into one sentence, it would be to take care.

"When you return to the Dragon God Domain, tell me one thing. If possible, I can still accompany you in battle."

Mo Xiaolang said sincerely.

martial magic seed had changed many things between the two of them, but the only thing that had not changed was their relationship.

"Be at ease and control yourself. I will inform you."

Long Chen said with a light smile.

As he said this, it was time to part.

"Yan Er." Mo Xiaolang looked at this girl in deep love. In his heart, Su Yan's position was already comparable to Long Chen, and was also the hope for him to become strong. Sometimes, he would become strong in order to protect her.

When Su Yan and Ling Xi stood together, they were reluctant to part. No matter what, she would always follow Mo Xiaolang, forever.

Of course, Su Yan liked living a happy life together with four people, but Mo Xiaolang had his own helplessness. He had already entered another state, and only by leaving Long Chen, could he start a new life, and he didn't want to be the core of Long Chen's life. After all, Long Chen still had more important things to do!

That would be to cultivate, and fight my way back to Dragon God Domain!

Bye again.

Inside the vast forest, Long Chen and Ling Xi stood shoulder to shoulder, watching the other party slowly disappear into the distance.

Life, is just like this unceasing reunion and separation.

Until they completely disappeared from Long Chen and Fatty Hai's sight.

"Should we return to the Spirit Realm? Brother Chen. "

After coming out of Dragon God Domain, he suddenly had a feeling that he was living in an unsettled place. Although the Spirit Realm was good, it wasn't his territory after all. In that place, he was still an outsider.

As for the Demon God Area, there was no need to talk about him.

Demi-humans were savage and cruel in nature, and this place was a place of slaughter.

"Spirit Realm?" Long Chen wrapped his arms around Ling Xi's slender waist and said, "No, we can't go back for the time being."

Ling Xi was a little confused. Long Chen had already told Mo Xiaolang to go to the chaotic star field and he wasn't going back to the Spirit God Realm.

Long Chen looked in the direction that Mo Xiaolang had disappeared in and continued to speak: "The place we are going, is the chaotic star field!"

These words stunned Ling Xi, she could not come up with anything, so she asked: "chaotic star field? Then why did you separate from the wolf cub?"

Long Chen shook his head: "He wants to live a free life, and start anew. I can give it to him, and if I am by his side, he will worry about implicating me, so it is useless for his rebirth and control of the devils, thus, I let him leave on his own, I have indeed trusted him, but I am still worried that something might happen to him. Because in the chaotic star field, things like the devil star, sometimes do not work for him, and definitely will not happen."

"Oh, so you want to secretly follow me to the chaotic star field?"

Ling Xi understood.

Long Chen nodded: "I think before we head back to the Dragon God Domain, we should all be homeless children. Since we're wandering, then I might as well go to that place near him and not let him know. Once he's in danger, I can help him out. She wasn't afraid of ten thousand, but she was afraid of a chance that wasn't the case. If he is truly able to control the devils at ease, then I won't appear around him again. "

That was his idea.

He looked into the sky and said: "Actually, before I came to the Demon God Area, I had already decided to go there. It was just that a few twists and turns and the appearance of a magic star in the process disrupted my plans. Xiao Xi, although the Spirit God Realm has Goddess Sisters, but that place is not our territory. We are always on the passive side, always being outsiders, but chaotic star field is different, the fish and dragons are chaotic, and among them, tens of thousands of races are contending for power, not only are there Five Great Clans moving forward, there are also experts from myriad races, and since we do not belong to the Dragon God Domain, then it is best for us to go to that chaotic star field. As for the Spiritual God Realm, I won't be going back! "

That was what he thought was the right decision.

In the Spirit God Realm, his identity as the son of the Eternal Dragon Emperor had already been made known to all the spirit race members. This caused them to be stuck in a whirlpool, and they might even come into contact with the Spirit King in the future.

There was only one place that suited him!

That was the chaotic star field that could make him disappear and start anew!

Moreover, Mo Xiaolang was also there, taking care of him in the dark.

After hearing what he had to say, Ling Xi smiled and nodded, saying, "Alright, then let's go to chaotic star field. We will hide our identities and start over, our only goal is to become strong, and then return to Dragon God Domain! I am your father's daughter-in-law, so I will do my best. "

The two of them smiled at each other.

"chaotic star field, contending for hegemony among all races, hot-blooded passion, mixed battles between several great Star Lords, hegemony in the Star Domain, and even countless treasures, existing in the endless starry sky. Legend has it that the Archeozoic era is also a part of the Immortal God Realm, and it's just that it's been destroyed by some unknown force."

The chaotic star field was a battlefield made from stars!

However, to Long Chen and Mo Xiaolang, the chaotic star field that looked to be the most dangerous was actually the safest, because no one knew them there.

After Mo Xiaolang set off, Long Chen and Ling Xi also set out with the same goal in mind!

Long Chen leisurely hung back behind Mo Xiaolang, and did not approach.

As for Mo Xiaolang, he naturally thought that Long Chen had already set off for the Spirit God Realm.

A new journey!

His only purpose was to improve himself! and he was still fighting for the return of the Dragon God Domain! Long Chen looked towards the east while he was on his way, his heart was already ready to move!

"Five Dragon Cities, 72 - The Ancient City of God's descendants, the day I leave chaotic star field is the day I will return to Dragon God Domain. Just you wait!"

His hot blood and his roars were released just for that moment!

The events that had occurred at the side of the red lotus flower's fire pillar infuriated the Nine Tailed Heavenly Fox. It had finally dispatched its entire clan to kill Long Chen and his.

However, from Ruo Xi's words and their speculations, the two should be headed for the Spirit God Realm. The Nine-tailed Sky Fox spent a large amount of people and headed towards the Supreme

Demon City, at the same time, got in contact with the commander of the Supreme Demon City and told them to stop the two. Hence, Long Chen not returning to the Spirit God Realm was the right choice.

It was just that the Dreamy Fox Divine Palace was located in the southeast, and to reach the northwest of the Demon God Area, it would still take a long time. At least Long Chen, Mo Xiaolang and the others had become a lot stronger, and could reach the checkpoint to the chaotic star field before this period of time.

Of course, amongst all the demons, the Nine Tailed Heavenly Fox was not a very special character. The demon clan 'Northwest Army' who was stationed in the northwest direction, naturally did not give them much face, but only intercepted them a little within the hundred or so checkpoints. If the Nine Tailed Heavenly Fox really wanted to intercept and kill Long Chen, it would have to wait for them to arrive on their own.

But today, Mo Xiaolang's strength was already at the peak of the Nine Tailed Heavenly Fox. Amongst the Nine Tailed Heavenly Fox, there were not many who could stop him.

In just a few days, they had already crossed a large amount of distance.

On top of a wide lake, Long Chen was flying around with Ling Xi. The lake was like an ocean, seemingly limitless and extremely clear.

Mo Xiaolang and the rest had already crossed over the lake.

Halfway there, Ling Xi suddenly stopped in her tracks. She looked at Long Chen apologetically and said: "Brother Chen, it seems like I'm going to give you trouble ..."

"What's wrong?" Long Chen asked quickly.

Her strength was originally inclined to gentleness, but at this moment, it was extremely passionate and fierce. As though a flame demon was being born inside Ling Xi's body, the masculine strength of the heavens and the earth converged into the inside of Ling Xi's body! Ling Xi's heart was filled with emotions.

"This is ..."

Long Chen's heart tightened at first, but when he thought about it, he realized why ...

Chapter 1965 - Two Elements of yang demon

Ling Xi's yang demon, which was also known as the Two Elements of Calamity, had arrived so quickly.

When she was in Supreme Spirit City, she had only just entered the One Yuan tribulation of reincarnation.

The reason why she could be so fast was largely due to her eighty percent of the blood of the Goddess of Light. Her talent was similar to Di Yu's, as if she was a favored one of the heavens. The other reason was because of her Pure Maiden Dao Seal and her relationship with the Ancestral Dragon Lord. The reason Ling Xi could progress so fast was actually because half of it was Long Chen, who had initially wanted to use all sorts of heavenly treasures, including Ultimate Dragon Inherited Blood Essence s, to reach the tri-level tribulation of reincarnation within a year. However, to Ling Xi, Long Chen's role had far surpassed that of other heavenly treasures.

Thirdly, even if it was the Di Jun's divine blood that Long Chen had been digesting, he wouldn't have much use of it himself so he had transferred it into Ling Xi's body as well. While Long Chen was improving, Ling Xi was also working hard, and while she was silently improving, the difficulty in her growth was far smaller than Long Chen's. Even Long Chen had crossed the realm of the god of tai-su in about three months.

However, there was something amiss with the Two Elements of Creation.

But he was not as cunning as god of tai-su Long Chen.

"Then let's not chase after the wolf cub and the others. It's fine if we're a step behind them."

Long Chen immediately said.

The most urgent matter right now was still to let Ling Xi pass through these two heavenly tribulations. He immediately made a decision, and said to Ling Xi: "You deal with the yang demon peacefully. With me here, there won't be any danger."

Ling Xi was suppressing the birth of the yang demon in her body. It was a type of negative attribute energy which had suddenly been gathered in her body by the heaven and earth. Ling Xi's strength was slightly gentle, and the negative attribute yang demon that appeared was as strong as the sun and turned into a torrent of flames.

Long Chen could not help but feel anxious in his heart. He could feel how terrifying the power that had suddenly appeared in Ling Xi's body, that she was unable to control, was. Since ancient times, a large number of people had died under the Two Elements of Calamity.

No matter how strong a warrior was, no matter how talented they were, if they were able to balance themselves well, it was very likely that their meridians would be directly torn apart by the yang demon and they would die on the spot.

A warm feeling spread out from within Ling Xi's body, forcing Long Chen to move away. Countless energies of heaven and earth rushed into Ling Xi's body, forming a brand of flame on her skin, the mysterious golden symbols instantly engulfed Ling Xi's body, burning her clothes clean. That beautiful body of hers appeared in front of Long Chen, burning red.

With her long hair fluttering in the wind, Ling Xi closed her eyes, making her look even more beautiful.

Fortunately, it was still deep in the mountains, so very few people came.

Long Chen had once been most worried about Ling Xi's Eighteen Major Tribulations. Back then, when they encountered the One Yuan tribulation, due to the Reincarnation Heart, Long Chen did not use the God's Karma. Now, with a face full of worry, he rushed forward and said: "Xiao Xi, I'll let the God's Karma be used on you, so that you will be safe and sound, and pass through the Two Elements of Calamity!"

When he had obtained three great treasures, he had given each of them to the two women. Long Chen had left behind the god's spirit liquid, but this god's spirit liquid was actually not prepared for him.

He wasn't afraid of death himself, but what he was afraid of was the people around him being killed by Eighteen Major Tribulations.

He was incapable of doing it. He could only watch his beloved girl die under the Heavenly Tribulation! After experiencing the god of tai-su, Long Chen had personally experienced the terror of the might of the heavens, and that was basically putting people at death's door. If ten people were to encounter that kind of tribulation together, then in reality, they would only have a narrow chance of survival!

Therefore, only the god's soul liquid could make him feel at ease!

But unexpectedly, Ling Xi actually rejected it.

Amidst the golden flames, she opened her eyes and revealed a sweet and warm smile, causing Long Chen's heart to feel incomparably warm. She softly said, "Brother Chen, I know you're worried about me, but Xiao Xi doesn't want to be a greenhouse flower. I want to become stronger myself.

She said it with determination.

Long Chen replied, "In order to prevent accidents, or ..."

She said: "I think that you can trust me as if you trust the little wolf. I have a hundred percent confidence in facing the Two Elements of Calamity and I have already figured it out, so your Calamity of Samsara will definitely be countless times more difficult than mine. I am already very lucky to be able to be with you and to be nourished by you, so how could I possibly waste such a precious thing?"

Her gentleness and indifference was a testament to her growth.

Long Chen was stunned and remained in place. However, at this time, Ling Xi had already closed her eyes and started to focus on fighting against the yang demon, the golden flames surrounded his beautiful body, allowing Long Chen to sense that there was a gigantic beast hidden inside her body. The Miracle of Samsara was countless times more terrifying than the Nirvana Tribulation, and the Hundred Samsara was able to block nine out of ten people's path of progress.

But, Ling Xi was not moved at all.

From her, Long Chen could also see her unyielding conviction.

Unknowingly, this little girl had already grown up.

Long Chen kept the God's End Spirit Liquid and stood by the side in peace. Even though he was still very nervous, he still clenched his fists tightly, but at least in his eyes, there was still a lot of faith in Ling Xi.

His mission was to ensure that Ling Xi was not disturbed.

The golden flame gradually formed into a cocoon, and this golden cocoon grew larger and larger, floating above the lake. The golden flame gradually formed a cocoon, and this golden cocoon became larger and larger, and floated above the lake.

Ling Xi's strength was not weak, so the so-called Two Elements of Calamity was almost equivalent to using her own body as a battlefield.

The tribulations of the two Tribulations, even Long Chen felt that they were terrifying. Therefore, this time, it was practically a torture to him.

He could only hope that Ling Xi was truly as she said, that she would be able to safely pass through it.

Time passed quietly.

Fortunately, the two tribulations only caused some changes to occur in the surroundings, but did not create any loud sounds. Instead, it attracted the attention of the other spectators.

What she wanted to do was to use her own strength to defeat the yang demon's power, and at the same time control it and merge it into her own.

In reality, what Ling Xi had said was the truth. Perhaps to everyone under the heavens, yang demon s were very scary, but to her, yang demon s were actually very ordinary. This was because she had a Pure Maiden Dao Seal, and the existence of a Pure Woman Dao Seal, in reality, had the property of neutralizing a part of the Yang energy.

It was precisely because of this that Long Chen's strong and unyielding strength, which came from the Divine Dragon, was able to communicate with Ling Xi's virgin power, fuse and master it, and was ultimately used by Ling Xi. Whether it was his yang demon or his masculine strength, Ling Xi was already familiar with the way.

This yang demon was none other than the negative attribute power produced by her own body, it was her own body. It would be better to say that he defeated the yang demon, rather than himself, who had another attribute.

In Ling Xi's sea of consciousness, stood such an enemy. Her entire body was bathed in golden flames, but her appearance, was exactly the same as Ling Xi.

The fight between the two sides in the Sea of Consciousness was basically equivalent to the fight between the forces of the outside world.

Long Chen almost suffocated as he watched nervously.

From his point of view, he could barely see any progress.

In actuality, in a short period of time, Ling Xi had gained the absolute advantage. It could be said that these two stages of tribulation were the easiest that she had experienced, and were even simpler than a few Nirvana Tribulations. That yang demon could completely decompose the power of a virgin, and then, fuse together with her own strength.

In a short two to four hours, a large amount of yang demon's power had been completely melted by Ling Xi. It was only at this time that the golden flame cocoon outside started to shrink.

After experiencing the battle with the Nine Tailed Heavenly Fox, Ling Xi's potential had also been greatly stimulated. At this time, the yang demon's power had converged, and its power had doubled, but the level of its fighting strength had increased by even more. The power of the two stages, had always been stronger than a single point of strength.

The Dual Tribulations had transformed her greatly!

Indeed, she was safe and sound, and had survived the Two Elements of Calamity.

She, who had achieved the Two Elements of Calamity, took another step towards the direction of the gods. She already had the demeanor of a goddess, and when the golden flames dissipated, the beautiful girl floating in the air could only be described as perfect. At this moment, her temperament was out of the mortal world, and her attraction to Long Chen was already not any weaker than that of the god of tai-su.

When she finally subdued the power of the yang demon in her body and slowly opened her eyes, a ball of golden flames burned fiercely in her eyes. After a long time, it finally disappeared, and at this time, Long Chen was already standing right in front of her eyes, looking at his young wife.

Ling Xi's face turned slightly red, she could not stand Long Chen's fiery gaze, and said shyly: It's only a Two Elements of Calamity, why are you looking at me like that?

The corner of Long Chen's mouth hung in a smile. Looking at his own woman, he extended his hands out to embrace her and then wrapped his arms around her soft and silky waist. Although he said that her life was very easy, in Long Chen's eyes, it was still extremely hair-raising.

"We can't mess around in the future." Long Chen caressed her smooth long hair and whispered into her ear.

"I want to wear clothes!"

Ling Xi's face flushed red as she whispered.

"You only know how to wear clothes, you haven't even done anything serious yet!"

Long Chen said with an evil smile.

Chapter 1966 - Mysterious God crevice

Of course, teasing was another form of teasing. Long Chen naturally did not think he would do anything rash at this time.

Ling Xi had already taken a bit of time to transcend the Two Elements of Calamity, but right now, the most important thing was to catch up to Mo Xiaolang and the others, and head towards the chaotic star field. Because of this short delay, Long Chen was no longer able to catch up to him.

After Ling Xi finished wearing the clothes and accessories, she looked even more beautiful than before. The two of them did not linger and once again sped towards the chaotic star field.

had indeed become a lot stronger after transcending the second heavenly tribulation. After defeating the god of tai-su, the primal chaos's power had limited increase while Ling Xi's power had increased explosively, so at least in terms of power, Ling Xi had already surpassed him. In addition to her godly Sector lord Divine Arts, it was extremely difficult to deal with.

"If we can stay in chaotic star field for a period of time, we can look for rare materials to restore the Butterfly Illusory Sword. I can try to repair it."

Ling Xi and Long Chen discussed.

"No problem."

If the Butterfly Illusory Sword grew stronger, Ling Xi's safety would be guaranteed.

"I can take advantage of this time to learn some powerful sword techniques from the Misty Sect. Although the Sector lord Divine Technique is profound, the parts I can touch upon right now aren't all that special.

This time, they had once more traversed countless mountains and rivers.

After leaving Palace of Goddess, Long Chen had always been stuck in this state of travel and killing, rarely stopping. This time, he would only be able to have the chance to settle down after arriving at chaotic star field.

The Nine-tailed Sky Fox would probably give out bounty to chase after Long Chen and the other three, so to them, any demon clan would be dangerous. On the road ahead, Long Chen never entered the gathering grounds of the demon clan, and he never let any demon clan see him.

After journeying for a long time, he finally arrived at the northwest side of Demon God Area. Even they would be tired after traveling for so long, so when they reached the edge of Demon God Area, they stopped.

This was the border of the Immortal God Realm.

If he continued forward, he would reach the endless starry sky. If he continued forward in this endless starry sky, he would reach the chaotic star field where tens of thousands of clans fought to be the hegemon.

Of course, the prerequisite was that they had to safely pass through the hundred over gates of the Northwest Army of the Demon Clan. There were a lot of army stationed here, just like the Sacred Snow Spirit Army of the Prestigious City. The Northwest Army's main function was to prevent the other races of the chaotic star field from rushing to the Demon God Area, and also to restrict the number of Demon Clan in the Demon God Area.

Only those who had passed through hundreds of these checkpoints would be able to leave the Demon God Area. The other vast expanse of land would be locked up by the demon race's ancestors, and those who weren't powerful experts of the Seven Stars tribulation of reincarnation or above would basically be able to pass through these checkpoints.

Half a month ago, the Nine-tailed Sky Fox had received communication with the Northwest Army and told them to pay attention to intercept Long Chen and the others. Under the big gift the Nine-tailed Sky Fox sent, the Northwest Army had recorded down their information. Of course, they wouldn't be able to send troops to guard this place.

To them, spending so much effort on two little fellows was inconceivable.

At this time, Long Chen had arrived at the border of the Immortal God Realm.

Every checkpoint was separated by a long distance. Long Chen had chosen this place, then he could choose to pass one of the surrounding five checkpoints. If it was the others, then it would be way too time-consuming.

"Let's pass here. If we drag it out any longer, it'll be even harder to pass with the experts of the Nine Tailed Sky Fox and the others guarding here."

Fortunately, there were more than a hundred checkpoints. If there was only one checkpoint, like in the Supreme Demon City, Long Chen and the others would not be able to escape even if they had wings.

There were more than a hundred obstacles that the Nine Tailed Heavenly Fox could not take into account.

The border guards of the entire demon clan were involved, so they couldn't act rashly.

The first thing to do was to ask for information.

After the checkpoint, there were many people from the Demon God Area who wanted to pass through this place, the chaotic and prosperous chaotic star field in front.

Long Chen casually restrained the two Goblin Tribe members. The two of them were in the same group, so when he brought them to a dark corner, Long Chen began to ask them questions.

He and Ling Xi separated the two Goblin Tribe members separately, then said to them: "We will ask you two the same question, when that happens, we will realize that there is anything wrong with what you two have said, so don't think about living anymore."

Such a way of questioning was the most frightening.

Long Chen first asked the Goblin Tribe member, "Do you know who I am?"

The appearance of other people could be said to be quite obvious.

The Goblin Tribe was of the tiger race, they were strong and tall, but in Long Chen's hands they were as weak as little birds. He should be a local person, otherwise Long Chen would not have chosen him.

He stammered and finally said, "I know, the Monster race has made a huge ruckus recently. They have asked the Northwest Army to intercept you."

It seemed that many people from the Monster race were alarmed.

"Has the Nine-tailed Sky Fox's people come yet?"

Long Chen asked coldly.

After pausing for a moment, he continued: Don't worry about it, I just want to know some information. If you answer honestly, I won't make things difficult for you, and will only let you sleep peacefully for a few days, and when you wake up, we will have already left the Demon God Area.

The tiger tribe weighed the pros and cons for a moment and decided to trust Long Chen. In front of Long Chen, he was indeed insignificant.

He replied, "There are two Nine-tailed Heavenly Foxes here, both of them at the late stage of the Four Symbols tribulation of reincarnation. They are coordinating with the Northwest Army, so the other Nine-tailed Heavenly Foxes probably haven't arrived yet. It is said that they have already dispatched their entire clan, so they will definitely obtain your lives."

"Oh?"

So it turned out that Mo Xiaolang had already left early.

Since he was safe, Long Chen was much more at ease.

He said, "Explain things clearly."

The other party said, "Aren't you two together? I wonder why you haven't left yet? Just a day ago, the wolf clan brought along a snake clan half demon and forcefully broke through the 'Mysterious God crevice'. The two Nine-tailed Heavenly Foxes had already chased after them, but there was no other news. Now that the Northwest Army has almost let their guard down, it's a good time for you to leave. "

The main target of the Nine-tailed Sky Fox was Mo Xiaolang. Mo Xiaolang and Su Yan left first, so they naturally thought that Long Chen had returned to the Spirit God Realm. They did not expect that they would be separated into two groups.

After obtaining everything he needed to know, Long Chen said: "Thank you very much, but I will have to trouble you for a few days."

With Long Chen's current strength, dealing with him was as easy as flipping his hand.

With Ling Xi's ability, she could firmly imprison the two of them for at least five or six days before they could leave.

The two of them looked at the information they had gathered. There was almost no difference between them.

Of course, we are only trying to charge out, and the difficulty isn't too high. Furthermore, they have already let their guard down, and we should finish this quickly, or else when the other Nine-tailed Sky Fox comes, it'll be troublesome if we want to leave. "Yun Che said in a low voice.

The two of them decided to rush out immediately.

As for the selection of the checkpoint, there was actually nothing to talk about.

"With my current strength, it won't be difficult for me to use the Revolving Star Passage Technique. After I reach this place, I'll first throw out the strongest expert. As for the others, they shouldn't be able to catch up to you."

Ling Xi said weirdly.

In truth, they had relaxed a lot as they traveled. This long journey was like a sightseeing trip.

"The question is, which checkpoint are we going to get out of?"

Long Chen said without hesitation: "Profound God Cave."

"Why don't they increase their defenses? After all, the wolf cub just got out from there yesterday. "

Long Chen laughed: "Actually, it's all the same. The Nine-tailed Sky Fox's main target is the Little Wolf, but we are the secondary, their main focus is on chasing the Little Wolf. As for why they chose the Profound God Cave, it's because it's the closest to us!"

He was finally going to leave the demon territory and embrace the vast world.

After coming to the Immortal God Realm, he went from the Dragon God Domain to the Spirit God Realm, then to the Demon God Area and finally to the chaotic star field! Long Chen believed that he would rise to prominence here and return to the Dragon God Domain!

His heart was full of passion!

"chaotic star field, beckon to me!"

This time, not only for the wolf cub, but also for himself!

Perhaps the world where no one knew his identity was the most suitable battlefield for him!

Pulling Ling Xi along, the two of them ran through the vast expanse of heaven and earth. To Long Chen, there was nothing that could compare to a constant companion like this.

She smiled as she looked at the man in front of her. It was as if with him in front, even if the sky were to collapse and the earth were to shatter, even if the person in front of her was a mountain of blades and a sea of flames, she would not be the slightest bit moved.

She had followed Long Chen for a hundred lives, but only this moment was the clearest.

Half a day later, they had arrived at one of the borders of the Demon God Area, the Profound God Cave!

The borders of the Mysterious God crevice were completely black. Countless vortexes spun in the sky, creating a massive suction force that sucked in everyone that came and went. This territory was even more terrifying than the abyss of Divine Flame.

As for the Mysterious God crevice, it was right in the middle of those countless black vortexes.

It was like a mouth.

In the Mysterious God crevice, the Northwest Demon Legion stood majestically on guard.

"Let me check first."

Ling Xi reached out his hand, and a Hallucination Butterfly appeared in it. That butterfly was extremely beautiful.

"little butterfly, go."

Following Ling Xi's gentle call, that hallucinating butterfly gradually disappeared into the light, as if it had disappeared, heading towards the Profound God Cave ...

Reddit

Chapter 1967 - New Journey

This was also one of the Sector lord Divine Arts.

In this period of time, Ling Xi's Inherent Skill had been developed to a large extent. She was eagerly trying to learn the Sector lord Divine Technique, and those that were easier to master could be learned quickly. Her desire for strength was not weaker than Long Chen's, because she wanted to help his man.

"This is similar to the Spirit Touch Array. In reality, it's another use of the Spirit Touch Array, allowing the Spirit Touch Array to move. That butterfly's appearance was only an illusion created by me."

Ling Xi was a little proud as she spoke sweetly to Long Chen.

Roughly a quarter of an hour later, Ling Xi said: "In this Profound God Stream, there is one of the warriors of the early stage of the Five Elements tribulation of reincarnation, two of the warriors of the late stage of the Four Symbols, and several other experts of the early stage of the Four Divisions, as well as many other experts of the tri-level tribulation of reincarnation. It's just that they are relatively scattered, so long as we are not blocked, they should be able to rush through.

The size of the forces in the Profound God River was just as Long Chen had imagined.

They did not want to defeat these experts, they just wanted to rush over, so it was actually not difficult. Moreover, these experts would not chase after them.

After all, their mission was to guard this place.

If it was only Long Chen himself, he could have teleported through the Time Traversing Dragon. When he left the Demon God Area and reached the other side, without the Divine Kingdom's Sealing Spell, it would be even more wishful thinking to find those warriors who have not been reincarnated into the Six Paths of Reincarnation. "

After they were ready, Long Chen and Ling Xi were ready to break through.

They stealthily crept closer to the Mysterious God crevice.

In the Profound God Crevice, many soldiers were solemnly garrisoned. Most were from the Nirvana Tribulation Realm's Goblin Tribe, and there were more than ten thousand of them.

"Illusion for a moment."

Amongst the Sector lord's divine arts, there was a portion of it related to illusions, which were also specialised in by the Nine Hell Illusory Butterflies. Ling Xi once again used the "Illusory Formation", which even the Nine-tailed Sky Fox of the Five Elements tribulation of reincarnation had been defeated by.

Everything was going very well.

Long Chen immediately used his Time Traversing Dragon to hide himself while Ling Xi used his illusion technique. The two of them passed through the demon clan Northwest Army's heavy encirclement, and stepped into the Profound God Cave, where they were greeted with a tight military fort with many experts patrolling around. had just rushed out from the place the day before and the Profound God Cave lost face, but in reality, they thought that no one would come here, it was just that they were still patrolling very seriously.

Many commander ranked tribulation of reincarnation experts were hidden amongst the many concealed Dao artifacts, peacefully cultivating within them. If something were to happen, they would wake up.

The two of them quietly followed the group that passed through the Mysterious God crevice.

Within the demon race, every single person who passed through these hundred stages would be subjected to a strict investigation, but Long Chen and Yue Yang easily passed through them. The Mysterious God crevice ended up in the starry sky.

Long Chen could almost see the endless space in front of him.

Just like the Dragon Sacrifice Continent's Broken Stars.

The aura of an expert was heavily suppressed.

There was a palace in the sky, patrolling above the Mysterious God crevice. It looked a little like the Blizzard Imperial Palace, but it was a little inferior to the Blizzard Imperial Palace. The commanders of the five tribulation of reincarnation and the other four tribulation of reincarnation practitioners were all on it.

The tribulation of reincarnation of the five elements, was already considered one of the top powers in the world!

In the 72 - The Ancient City of God's descendants, these were all top figures!

There were billions of demons in the entire Demon God Area, but the number of experts in the tribulation of reincarnation of the Five Elements was still limited.

In the eyes of all the demons, this kind of expert was the overlord of a region!

"Everyone, be careful!"

High up in the sky, a majestic voice rumbled.

The demon soldiers were as quiet as cicadas in winter.

"Yes sir!"

Long Chen and Ling Xi continued to advance, just as the palace reached them, the two of them did not waste any time, the exit was right in front of them.

"Who's in my territory, using such an unconventional illusion technique!"

All of a sudden, a few roaring demons rushed out from within the palace. They were all extremely tyrannical people. Although they were old, each of them was tall and sturdy, ferocious to the extreme, not showing any signs of their old age.

The leader was completely white, and there was a black 'King' word on his forehead. It was clear that he was a member of the Feral Tiger Tribe, and his eyes were the most furious. Roaring, he immediately woke up the soldiers who were bewitched by Ling Xi.

Ling Xi also reverted back to her human form.

"You want to escape from me? No way! Block your way out!" Four little things trying to run away in two groups, that was too despicable! I almost lost another person! "

However, he was still unable to move. He displayed the divine might of the Beast King and brought the other four warriors to attack Long Chen's direction, this team was not weaker than the Nine Tailed Heavenly Fox's team, especially the leading team, they were definitely even more terrifying than the leader of the Nine Tailed Heavenly Fox team. The tiger tribe was originally better at fighting than the fox race, and this commander had even the noble bloodline of the tiger tribe!

A crisis came at once!

Long Chen naturally knew that it was impossible to hide from the other party.

The other party was indeed terrifying, and had the power to instantly kill him. When these people rushed over, they immediately had the power of being suppressed by the heavens, but thankfully Long Chen was already prepared for it, and Ling Xi was already waiting for this moment!

The Revolving Star Passage Formation was abruptly activated.

Back then, when Ling Xi had almost used up all her cultivation on the array formation, today, it only required less than half of her strength, and it was even more perfect. That transparent array formation was activated, and just like the appearance of a new year, everyone thought that Long Chen and his group were going to be imprisoned, those few super strong warriors suddenly disappeared from everyone's sight, not even a single Four Symbols tribulation of reincarnation warrior remained!

Long Chen naturally understood that the Ling Xi today had indeed given her a huge help; she had learnt many things that she was unable to execute.

He had already made his preparations beforehand. When Ling Xi executed the Sector lord Divine Arts, he had brought Ling Xi along to use the God Slaying Sword Technique to execute the Slaughter Sword Art and move quickly. In a short moment, Long Chen used the Slaughter Sword Art and cut a bloody path through the Nirvana Tribulation Realm demons.

brought Ling Xi and quickly rushed out of the Mysterious God crevice, reaching the endless starry sky. Turning their heads to look, they saw a large number of demon clan soldiers chasing after them, following Long Chen's footsteps, the Demon God Area behind them became smaller and smaller, and in the sky above the Demon God Area, a large number of whirlpools were still moving, the Mysterious God crevice was like one of them.

In Long Chen's hands, he caught hold of another Spirit Demon being, who bared his fangs and brandished his claws, screaming in pain. But under Long Chen's imprisonment, he couldn't even change his beast form.

"Sorry, it's your turn to experiment."

Long Chen caught him and threw him into the God Kingdom.

This was outside of the Demon God Area, but Long Chen did not dare to act rashly. He had to give it a try to confirm whether or not the Divine Kingdom's Sealing Curse had been removed.

Indeed, that demon clan had safely entered the Divine Kingdom.

Long Chen heaved a sigh of relief and pulled him out. After a few tries, there was no problem at all. It was obvious that the God Kingdom's seal no longer existed in this starry sky.

He tossed the demon clan member back into the Mysterious God crevice.

A large number of demon clan soldiers were still chasing them.

"Get out of my way!"

In the middle of the Mysterious God crevice, the roars of several experts could be heard. They had already returned from their teleportation earlier, their speed so fast, it was evident how terrifying they were.

Yesterday, Mo Xiaolang's attempt to escape was already a humiliation to them, but now, he was letting someone escape, which was even more so a humiliation.

If the Divine Kingdom's Seal Curse was not removed, Long Chen would only be able to compete with them in endurance.

BOOM!

A few experts charged out of the Mysterious God crevice.

Long Chen calmly faced them.

"Tell the Nine Tailed Heavenly Fox to never find us again."

Long Chen laughed loudly.

"You're courting death!" To those Rankers, for Long Chen to actually have the mind to turn around and talk to them, he was definitely courting death!

This was especially true for the supreme expert of the tiger tribe who had arrived in an instant!

Long Chen laughed and brought her into the Divine Kingdom. Then, under the gazes of tens of thousands of people, they instantly entered the state of Time Traversing Dragon, and following his increase in strength, they became more and more proficient in the way of time. Until now, only practitioners at least six cycles of reincarnation or higher would be able to see through his Time Traversing Dragon!

After transforming into a Time Traversing Dragon, Long Chen slipped into the river of time and disappeared before everyone's eyes.

Even the demons of the five element tribulation of reincarnation were unable to sense his existence.

This could only be described as terrifying.

When Ling Xi used the Stellar Transposition formation to move the demon clan experts out, it had already given them a deep shock. But at this time, Long Chen had actually disappeared in front of everyone.

It was only then that the Omnipotent Expert remembered. Previously, he had only discovered Ling Xi, but he did not know where Long Chen came from. Evidently, this youth had been stuck in a state where he could not see through him ...

"He actually did it!"

They were completely shocked.

The space in front of them was empty. The stars were so big, where were they going to catch Long Chen?

This time, he suffered a loss, which made him extremely angry. He took the form of a beast, wantonly destroying the entire area outside of the Mysterious God crevice to vent his anger, while the others quickly dodged.

And the bizarre things that happened today, would be quietly spread to the Demon God Area along with the demon soldiers' mouths.

Yesterday, Mo Xiaolang had forcefully passed through this place.

And today, Long Chen had left in an even more baffling manner, causing everyone to feel even more stifled!

While they were venting, Long Chen had already set out on his journey, and was heading towards chaotic star field!

Chapter 1968 - Green Planet

The starry sky was endless and limitless.

No matter how chaotic the chaotic star field was, at the very least, it was exceptionally beautiful from afar.

"At this time, the wolf cub should be charging towards the chaotic star field like us."

Now, they were completely out of danger. They could start a new journey with a new identity, and the information between the chaotic star field and the Immortal God Realm would basically not interfere with each other.

Even though he had come to the chaotic star field, Long Chen would never forget the day that he came here to improve himself, and to return to the Dragon God Domain!

"Fight!"

Holding hands with Ling Xi, they walked through this vast star field.

Because there were two Nine-tailed Demon Foxes that had chased after Mo Xiaolang before, after Long Chen stabilized himself and used the Star Rune to contact Mo Xiaolang, after he connected the call, he could tell from Mo Xiaolang's peaceful expression that he was already safe.

"What's the situation?"

Long Chen asked.

Mo Xiaolang said: "I have already left the Demon God Area, there were two Nine Tailed Heavenly Foxes chasing after me, but they were thrown off by me. I am safe and sound now, and am heading towards the chaotic star field.

Long Chen made it up a little and said that he had already returned to the Spirit Realm and was in the Prestigious City.

"The Nine Tailed Heavenly Fox will probably intercept you in the Supreme Demon City, right?"

Mo Xiaolang said worriedly.

Long Chen laughed, then said: "The main reason is because they want to kill you, they do want to stop me, but I have helpers at the Prestigious Spirit City, even if there's danger, it's safe now."

Hearing this news, Mo Xiaolang finally relaxed.

He never could have imagined that Long Chen would actually follow in his footsteps, and also head towards the chaotic star field!

"Where are you going?" Long Chen asked.

Mo Xiaolang said: "chaotic star field, there are hundreds of planets, I will go to the central core region, and that is the core of the chaotic star field, which also possesses the power to form its own system. If the Nine-tailed Sky Fox catches up, on the outer planet, if they are powerful, they will create trouble for me, but in the core region, which is occupied by a few Star Lords, they will definitely not dare to mess around, otherwise it would be courting death."

After Long Chen heard everything, he nodded and said, "If you decide where to go, just let me know, perhaps I will also go to chaotic star field in the future."

Mo Xiaolang laughed innocently: "Alright! I'll tell you right away when I'm done. "

After a short discussion, the two began to focus on travelling.

Even though the chaotic star field seemed to be very close, it was actually quite a distance away. Given Long Chen's current leisurely speed, even though it could be considered fast, it would at least take him a month or even two months to reach that place.

There was no trace of people in the surrounding space, and many fragmentary stars were quietly floating there. The resplendent starry sky was undoubtedly the scene that captivated one and it was without a doubt the most beautiful background. Any place under the river of stars would look wonderful in this way, and this was the most peaceful environment.

On the Shattered Stars, they were talking and laughing, sharing a peaceful life, cultivating together, and loving each other. Ling Xi's peerless Pure Maiden Dao Seal was truly a heaven defying item, and through their interaction, Long Chen's Tai Chi Nirvana Power increased once again within two months, and Ling Xi received an even greater help, which was Tai Su's power.

Tai Su's power helped Ling Xi solidify her physical body.

However, after Tai Su's power nourished her, in terms of the body, she was similarly much stronger than humans of the same level. Although she was a woman, she still possessed the power to shatter mountains and rivers with a raise of her hand!

Long Chen didn't have any specific goal in mind.

His thoughts were that wherever Mo Xiaolang went, he would go, as long as the other party didn't find out.

Therefore, he calmly waited for Mo Xiaolang to tell him where he was going.

It was just that during this long journey, the chaotic star field had begun to get closer and closer to him, until those planets gradually became very large and began to evacuate. From one planet to another, it would at least take a few days, or even more than ten days.

The entire chaotic star field's territory was almost half of the Immortal God Realm.

However, the size of the land mass was naturally far inferior to the Immortal God Region.

Unknowingly when, Long Chen had already stepped into the chaotic star field's territory.

At the same time, he obtained the position that Mo Xiaolang had given him. Seems like Mo Xiaolang had been in a hurry during this period of time.

As for the avengers of the Nine Tailed Heavenly Fox, they had probably reached the chaotic star field already. It was just that the chaotic star field was very big, it was really difficult to find someone, especially in the central region.

During the journey, a green planet suddenly appeared in front of them.

This was the first planet Long Chen had come across since arriving in the chaotic star field. The Emperor Star of the True Martial Imperial Palace was once a planet that could accommodate one hundred million True Martial Imperial Palace disciples. This emerald green planet was obviously not as large as the Emperor Star, but it was not a problem to accommodate tens of millions of people.

"How beautiful."

The two swept past the planet, with no intention of getting any closer. This planet had a huge number of trees. There were no mountains, no seas, and no grasslands. There were only green trees. Even though they were still quite a distance away, they were full of vitality. It was very comfortable.

"I heard that on the planets surrounding the chaotic star field, the strongest warriors are only around the Five Elements tribulation of reincarnation." Long Chen said casually.

The Five Elements tribulation of reincarnation was already strong, above a million people and above ten million people.

chaotic star field could also be considered a part of the Immortal God Realm. The so-called million people, were all at least from Divine Martial Stage, which was not something that Dragon Sacrifice Continent could compare to.

"The further in we go, the more experts there are, and the more battles there are."

Even though this emerald green planet was only in the outer regions, it was extremely restrictive. If one could live on this lush and verdant planet, it would be a type of enjoyment.

Ling Xi really wanted to go down and see. Unfortunately, this place wasn't their target.

He was just about to miss this place when Ling Xi suddenly stopped and looked at the emerald green planet with a bit of surprise. She pointed to a certain location on that planet and asked: "Brother Chen, did you see that tree?"

Long Chen looked towards the direction she was pointing with, and realized that the place he originally thought it was was a vast forest, it was actually just a big tree. That was the biggest tree Long Chen had ever seen, and it was incredibly ancient, and it spread out for tens of thousands of miles, and its height was at least ten thousand meters.

The forest propped up by that ancient tree was like the hair on a planet.

"Such a tall tree is indeed quite rare."

Long Chen said as he nodded his head.

Ling Xi was a little surprised and said: "Normally, being able to grow to this realm means that one must have the heart of the Ancestral Tree, which is a divine object bred at the core of an ancient tree. It has been born along with an ancient tree for at least ten million years, and it might be even more precious than an ordinary Primordial Immortal spirit."

"Is the heart of the Ancestral Tree useful to us?"

Long Chen asked with concern.

"Of course."

Ling Xi laughed mischievously, and said: "Actually, I do not know about the Ancestral Tree Heart. It's just that among the Sector lord Divine Arts, there are some secret methods to restore the Butterfly Illusory Sword Technique. There are records about the heart of the Ancestral Tree, which also introduces the source of the Ancestral Tree Heart. The Heart of the Ancestral Tree contains vigorous life force, it contains the 'Way of Life', and the Butterfly Illusory Sword is in a state close to death, so being able to use the Heart of the Ancestral Tree as the main ingredient, as long as I find other side effects, it is basically not a problem. With the Heart of the Ancestral Tree, I want to use it appropriately, I can at least restore the 100 Dao patterns on the Butterfly Illusory Sword.

Although the amount of recovery was small, it was at least a form of hope.

If it was successful, it would also mean that in the future, the Butterfly Illusory Sword would most likely be able to recover its original seven hundred lines of super archaic instrument!

This was a good news, a good start.

Originally, Long Chen did not plan to enter this emerald planet, but he had changed his mind now, since he no longer had any pressure while coming to the chaotic star field. He could be at ease, and there was no need to rush any further.

The two of them looked at each other, and then quietly descended towards the planet. Although the planet wasn't big, it was still much bigger compared to their small size, and the planet that wasn't big in their eyes gradually became bigger and bigger, bigger and bigger, until it penetrated through the layers of clouds, until the planet turned into a vast continent in front of them.

There was a huge suction force from the planet, but they could still control it.

The two of them floated into this world.

Indeed, as far as the eye could see, all that could be seen was a boundless sea of trees without anything else.

The trees were green and at least a few hundred meters tall. Any one of them could make a forest.

"The biggest tree should be in this direction."

The two of them looked towards the east, and sure enough, there seemed to be an insurmountable mountain peak. However, it was not a mountain, but a treetop that spanned thousands of miles. The treetop was shrouded in clouds and could not be seen clearly.

"Go over there."

The two of them did not go down to the mainland. Instead, they treated the treetops as land. On this planet, there was no need for them to fear. After all, they were already rarely seen experts.

If this was the level of strength they had at the start of their journey to the Immortal God Realm, they would have had to be very low profile and be very careful. But after a short period of time, they had unknowingly surpassed the majority of the people here.

The ancient tree seemed to be very close, but in reality, it was very far away.

The two of them shot through the sky. After a short period of time, they were already very close, but without any accidents, this was the most obvious place on the entire planet. A large portion of the creatures here should be gathered here.

Chapter 1969 - Heavenly Dragon Star

Right at the moment Long Chen stepped onto the beautiful, emerald green planet, a strange thing happened in the center of chaotic star field. If Long Chen knew about this, he would probably go crazy from excitement.

chaotic star field, from the legends, could be said to be a part of the Immortal God Realm. But after a mysterious war, they separated out and those shattered continents formed a planet under the guidance of power. After tens of millions of years, they once again became a gathering ground for the living.

Initially, there were more than ten thousand races in the Immortal God Realm, and all of them were extremely bizarre. However, due to the Five Great Clans' strength, most of the weak races were chased

out of the Immortal God Realm, and a large portion of them gathered in the chaotic star field to dominate them.

Amongst the chaotic star field, the area with the most abundant resources was naturally the central core region. The planets here were also much larger than the planets in the outskirts, and one of the biggest was located in a region that was at least equivalent to seven or eight ancient god cities. Some of them were even larger, almost equivalent to a third of the Dragon God Domain s.

The core of the chaotic star field was a place to truly contend for hegemony.

In the core portion, there were a total of ten planets that were called super planets, and these ten planets were the largest in the entire chaotic star field. What was even more strange was that they would circle around the same core all year round, and this was a mysterious core, not many people dared to approach it. In these tens of thousands of years, countless explorers had tried to figure out what was revolving around these ten super planets, but the truth was only spread among the strong, so most people did not know.

For example, the experts of the Nine Tailed Heavenly Fox knew that the core of the ten great super planets was in fact the terrifying devil star. There were many legends about the devil star and many people knew of it, but they just did not know that it was the core of the entire chaotic star field.

Rumor has it that the ancient devils that were imprisoned on the demonic planet were immortal and extremely dangerous. If these devils were to escape, it would be a catastrophe.

It was rumored that many years ago, when the Dragon God Domain encountered a great calamity, it was actually the Eternal Dragon Emperor that had broken the restrictions of the devil star, allowed a group of devils to be reborn, and brought about a great calamity to the Dragon God Domain. Although the loss caused when the Eternal Dragon Emperor sealed them back wasn't as great as imagined, it was enough to frighten the entire upper echelons of the Dragon God Domain.

Of course, these were all rumors, and the authenticity of the rumors had yet to be verified.

The Immortal God Realm was still intact, it was much better than the collapsed world of the Dragon Sacrifice Continent. Even in chaotic star field, there were geniuses, who were not necessarily weaker than the geniuses from the five clans.

In chaotic star field, almost everyone cultivates martial arts, and every person is a strong Ranker. When they were just born, they at least have the ability to use their Divine Martial Stage.

In the entire chaotic star field, most of the people were gathered on one of the ten great planets.

The reputations of the 10 great super planets were like thunder in the ears even in the Immortal God Realm.

Only the hegemon of these ten super planets could have the title of Star Lord!

The Star Lord, symbolized supreme power, symbolized supreme combat power! It was a symbol of prestige and authority! Every Star Lord could easily control the life and death of a million people! The Star Lord has the right to challenge the five clans! Their position in the entire Immortal Divine Region was only slightly lower than the level of the Spirit King, number one Dragon Emperor, and the Great Demon Lord!

In such a big chaotic star field, a few Star Lords were the ones in charge.

But in reality, not every superplanet had a Paragon, and not every planet had a Star Lord. Half of the ten superplanets were in a state of chaos, and these five planets had yet to determine who was the most powerful to rule.

The remaining five super planets had four Star Lords.

At present, there were only four Star Lords in the entire chaotic star field.

One of them was the ancient evil ghost clan — Raksha Clan. They occupied a super planet and changed its name to Raksha.

The slaughter of an entire race. The terrifying Asura God clan occupied all of Asura planet. The Asura Star Lord's name shocked the entire world.

And there was also the 'Chaos royal clan' that had been passed down since the time of the gods, which occupied the Primal Chaos Emperor Star. The Primal Chaos Emperor planet had always been under the control of the Chaos royal clan, and in these tens of millions of years, it had never changed its owner. Every single Primal Chaos Star Lord was basically the strongest person in the entire chaotic star field, and this was different from the Raksha Star and Asura Star.

Just like the Primal Chaos Emperor, there was also the most mysterious of the ten super planets, the 'Star of Destiny', which had never changed owners in tens of thousands of years. They never participated in any activities, and never showed themselves, they never welcomed any guests, and any warrior who tried to enter the Star of Destiny, they basically mysteriously went missing without bringing any news, and the so-called Life Clan, no one even saw their appearance, they were a group of people even more mysterious than the Chaos royal clan!

There were many legends about the Star of Destiny, but no one could be sure whether or not these legends were true.

In fact, no one knew whether the Star Lord of Fate really existed or not.

Therefore, the chaotic star field's Star Lord should be between three to four people.

On the two planets, the Primal Chaos Emperor Star and Star of Destiny were the closest to the Demon Star. On the two planets, one could even see the darkness in the direction of the Demon Star, but they were not as close to the Demon Star as on the last planet. That was the last one among the top ten super planets, it was a planet with a master, just that it did not have a Star Lord.

This super planet, its current name was Sky Dragon Star.

The masters of Sky Dragon Star, were a group of Dragon Fighters, with nearly a hundred thousand divine dragons lying in hibernation in the middle of the Sky Dragon Star, from low level Red Dragon Azure Dragon, to medium level Dragon, to high level dragon like Golden Thunder Prison dragon, there were all of them on Sky Dragon Star, there were even many super divine dragons, and Ultimate Dragon existences that were rare even in Five Dragon Cities!

Heavenly Dragon Star, is the world of Dragon Fighters!

They rarely appeared, and did not participate in the chaotic star field's battles. They were extremely low-profile, but they were also powerful, and could casually live on Sky Dragon Star. They were very relaxed, as if they were protecting or waiting for something, but if they looked down on Sky Dragon Star because of this, they would definitely suffer a miserable fate.

Tens of thousands of years ago, the Rakshasi brothers clan, the Yaksha clan, attacked Heavenly Dragon Star, attempting to occupy a super planet like the Rakshasi clan. However, the result was that they

angered the dragon clan, and their fighting strength was almost comparable to the Rakshasi clan's Yaksha clan.

As for the mysterious Star of Destiny, he was completely unable to compare to it. They are more mysterious.

On Sky Dragon Star, the Demon Star could be clearly seen. It was a pitch black vortex, occupying half of the sky.

To the divine dragons of the Heavenly Dragon Star, the core of the chaotic star field, which was also the demon star, was locked up by a group of madmen. They would mutter all day long, torturing themselves, saying some unfathomable things, crying and howling, but no matter what, they could only go crazy, but they could not lose it, because their lives had escaped the laws of the Heavenly Dao, and they could not die!

Although Sky Dragon Star was the planet closest to the Demon Star, under the protection of a large amount of energy, it was not affected by the Demon Star at all. Here, the mountains were beautiful, the grass were green, the rivers were clear and transparent, and flowers bloomed everywhere.

The only flaw was that the sky was actually occupied by the dark star and the shadows surrounding it, making it look extremely disgusting.

The Dragon Fighter on Sky Dragon Star liked to roam the planet using Divine Dragon Body.

The only terrifying estimate was that it would be the once a thousand year cycle of reincarnation tribulation. The Heavenly Dao was very harsh on the dragon race, so most of the time, they would diligently train in order to live longer.

Of course, there were also the Long Clan members who roamed leisurely, experiencing the joys of life.

On Sky Dragon Star, on a vast mountain forest, there were two Divine Dragons coiled around a tall mountain peak. Two Divine Dragons stared into the distance, they seemed to be quite old, their expressions seemed to be a bit old, and one of the Divine Dragons, its entire body was blood-red, its skeleton was thick, and in front of its forehead was a sharp red horn. It was over a hundred meters long, and could easily tear apart a mountain peak.

The other divine dragon was dark green all over. It looked like bamboo, and it had a slender figure. Although it was not as thick as the other dragon beside it, its body was nearly two times as long.

Mythical dragons like them could be found everywhere on the planet.

If Long Chen was here, he would definitely be able to recognize that the blood-colored divine dragon was the Scarlet Horn Demon Dragon and the other was the Sky Profound Jade Fire Dragon. They were all high level dragons.

"In the blink of an eye, so much time has passed. We were once just children of the Divine Martial Stage, but today, we have become like old dragons, giving out our blood essences and handing them over to the children to pass on."

"Yeah, such a long time has passed since I came to planet Sky Dragon." The Sky Profound Jade Fire Dragon repeatedly sighed.

If the Dragon Fighter was killed, the inherited blood essence would disappear.

The inheritance couldn't be broken, so when they realized that they couldn't withstand the next tribulation, they would basically let the inherited blood essence continue.

"It's really nostalgic to follow that great figure and see him rise up like the sun, becoming an invincible existence in this world ..." Speaking to this point, the Crimson Horn Demon Dragon felt a bit sad.

Chapter 1970 - Reappearance of the Dragon Emperor

"That was our era! Now, our time has passed!" The Sky Profound Jade Fire Dragon said somewhat excitedly when it thought of the past.

They remembered too many stories.

After staying on Sky Dragon Star for so long, they only had memories left.

The Blood Horn Demon Dragon sighed and said, "Let's not talk about the glory from before. Right now, we are just a group of people exiled. In the eyes of our hometown, we are just a group of human traitors. This life shall go by like this. Brilliance will not reappear. It will only be history. "

Even if everyone despise him and misunderstand him, even if we don't have the slightest opportunity to refute his words, the things that I have in my heart will not change. He is an unprecedented hero of the human race, and he is trying his best to prevent the destruction of this world. "Compared to him, the Paragons are nothing."

Unfortunately, only we, the followers, would be able to understand him. As for the Five Dragon Cities, which one of them wasn't completely suppressed by the Eternal Dragon Emperor in the first place? They hated this genius and thus tried their best to discredit him, but what can we do? We can only listen to his last wish and stay on this damn Heavenly Dragon Star, listening to those lunatics and ghosts everyday, it makes me want to cough out blood! "

The Sky Profound Jade Fire Dragon shook its head: "No, I believe him. He definitely has a reason for letting us guard here, but don't forget that he can predict that the future in this world does not have any secrets in his eyes, other than the God Dragon Extinction Mystery."

It is a pity that it has nothing to do with me. I have lived for far too long, and ten years later, before the next reincarnation tribulation arrives, I will have to leave this place forever and die in the endless stars. You're the one that belongs to me, it's a pity that I haven't returned home in my life! I want to go home! My loved ones, they should already be dead, and they must definitely be blamed for me. I, as a coward, actually don't dare to return to meet them! "

At this point, the Crimson Horn Demon Dragon's eyes filled with tears.

"Go home!"

He had been an orphan since he was young, and because he admired the fact that the Eternal Dragon Emperor had come here, he followed him for the rest of his life. Born in the Dragon God Domain, he had the deepest feelings for that land, and after coming here many years ago, he had never returned.

And on Sky Dragon Star, there lived close to a hundred thousand such Dragon Fighter.

They had stayed here until today for the sake of a promise. They were very relaxed, but after all these years, they had lost all their passion.

"What are we waiting for?"

The two divine dragons left the mountain peak and shot into the clouds, dancing in the air.

They were a group of exiled Divine Dragons. They came from the Five Dragon Cities, from the Dragon God Domain, but these two words no longer had anything to do with them. They were just supporters of a historical sinner.

As they flew, they raised their heads and looked at the demonic star covered by the vortex.

The Blood Horn Demon Dragon suddenly laughed and said, "Haha, we are still lucky. Compared to those undead bastards on the Demon Star, what are our boredom and grievance? Even in their dreams, they would want to die. To them, loneliness was the most painful poison. This kind of torture was the most terrifying torture! I told you guys to become bedeviled, told you guys to want to live forever, now you know how to write the word miserable! "

He laughed loudly as he looked at the black vortex.

At that moment, his smile froze.

What he saw, was that in the very center of the black vortex, a cold light suddenly flashed out, that cold light had almost blinded them, and caused the two of them to feel an excruciating pain in their eyes, as though they were facing a great enemy, and immediately entered a state of battle, but their hearts were very blurry, the devil star was already completely imprisoned by the Eternal Dragon Emperor, how could they think of a way to escape from the demon star?

They struggled to open their eyes.

But at this moment, something happened that nearly made their hearts stop beating.

In a split-second, that figure floated in front of the two divine dragons. It was a middle-aged man, dressed in an azure embroidered robe, with a handsome appearance. The most special thing about him was his eyes, which were deep and vast like the entire starry sky.

The two Divine Dragons only remembered seeing this face many years ago.

This was a face that caused them to be dumbstruck, confused, and crazed. Countless times in their dreams, this person had appeared before them, a person they had respected since they were young. How much time had passed?

No matter how hard they tried, they could not make a sound, their chests were about to explode, hot tears were flowing down their faces, their breathing had stopped, and their bodies were trembling. Finally, they returned to their human forms, and in the sky, they prostrated themselves on the ground, as though they were worshipping.

Oh my god!

He actually didn't die, he actually came back!

In that moment, the planet with billions of tons of fertile land, the Sky Dragon Star, was in an unprecedented level of excitement. This planet closest to the Demon Star, was emitting the crazy roars of countless dragons, and even the super planets countless miles away seemed to hear it, such crazy roars made everyone tremble in fear.

"That bunch of terrifying Dragon Fighters, what are they going crazy about?"

Most of the people in the ten super planets of chaotic star field had this thought.

Long Chen, who was far away from the chaotic star field, naturally couldn't hear such a voice. He and Ling Xi both headed towards the huge ancient tree.

In the process, they had also seen the living beings on this planet. They had only seen two species of beasts, one of which was a race that was associated with an ancient tree, their appearances were similar to the Tree Spirit Race of the Spirit Race, but Long Chen guessed that they were probably a part of a Spirit Demon Race. Back when they were in the Desolate Imperial Domain, there were also plant type monsters, their main forms were all kinds of divine trees, but the Demon God Area did not have such a race, so they did not seem to agree that the plant race was a member of the Spirit Demon Race.

On the chaotic star field's side, this kind of race was known as the Tree Race.

They were separated from the demons.

On many planets in chaotic star field, the treant race's shadows could be found.

On the other hand, Long Chen did not know about the other type of beast, it was similar to the Ghost King in a dead city, with a fierce face and fierce teeth, not tall, and stooped figure. They had long blood-red hair that was messy, dirty, and extremely ferocious, and basically had a forked type of Dao Artifact in their hands, with green scales on their bodies, their bodies were comparable to that of a demon, and because they were small in size, they were extremely fast and agile, but they were too vicious, and were obviously incompatible with this emerald green planet.

This planet was too small, and up till now, Long Chen had only seen these two creatures.

These were all members of the countless races in the Immortal God Realm.

Long Chen had a premonition that there were definitely many such creatures surrounding the heart of the Ancestral Tree.

As they got closer and closer to the heart of the ancient tree, just as Long Chen and Luo Hua City Mistress were about to go into hiding, someone suddenly saw them flying through the sky in the forest below and immediately shouted, "Help! Help! I am the princess of the Luan Tree Clan, quickly come and save me! "

Long Chen was too fast, when he heard the sound, he had already rushed far away, and the two of them stopped in mid air.

"It seems to be some princess of the Luan Tree Clan?"

Long Chen confirmed something with Ling Xi.

"Yes, we have to save her."

Ling Xi nodded.

Long Chen thought about it carefully. Thinking that it would be good to have a guide, he immediately returned with Ling Xi. The woman who was crying for help earlier should be hiding, but when she called out for help, she immediately attracted the attention of her enemies.

When Long Chen landed between the trees, he saw a dozen red-haired guys with a green face and fangs fighting a young lady who looked very similar to the Tree Spirit Race of the Spirit Race. Although they were similar, they were completely different from each other, and the Luan Tree Race's cultivation system was not that surprising to them, it was actually a branch of the Spirit Race of the Demon Race.

The one who called out to Long Chen was this young lady.

The people who surrounded her were like wild beasts, and they were extremely fierce. Under their attacks, the little girl cried as she ran backwards, and the trees that were a hundred meters long and several hundred meters in the surroundings shattered one after another under the hands of the attackers.

A large part of the forest fell at their hands.

"The Ancestral Tree City is right in front of us, don't run back and stop her!"

When she said that, the girl started crying. She did not know that Long Chen and Long Chen were back.

A group of people charged towards Long Chen.

The assailants were surrounded by iron tridents, forming a blood colored domain, completely trapping the little girl. Each of them had their own position, their bodies transforming from a meter tall body to ten meters tall, opening their huge fangs, dripping with green saliva, heading towards the little girl to swallow her whole!

The Luan Tree girl was shocked, but she was unable to move because of the blood colored domain. At this moment, she turned into a strong and big tree, the iron-like tree branches wanted to twitch, but they were blocked off again, and she was about to be torn apart by those guys.

Long Chen had no choice but to take action, he rushed forward and saved the little girl.
