

War God 1981

Chapter 1981 - Survival

In fact, many of the Luan Trees understood that even though the Blood Weeping Dragon souls and the Luan Trees had crushed the Yaksha Clan on the battlefield, it was only a matter of time before all the Yaksha Clan members were wiped out.

However, if no one could deal with Yaksha King, as long as Yaksha King charged into the battlefield and killed Long Chen, the Luan Tree Race would gain the advantage for a short period of time and would eventually die.

As expected, many people discovered that the ferocious Yaksha King had already waved the terrifying Styx Halberd towards Long Chen. As he waved it around, a gray river wrapped around Yaksha King and endless death aura flowed out from within, as if billions of vengeful spirits were wailing and howling within the river, causing their scalps to go numb. Wherever the halberd went, all the trees were instantly corroded by the gray, becoming riddled with holes and the green color also completely disappeared.

"That human youth is in danger!"

"He's dead for sure!"

A short period of panic appeared in the hearts of the Luan Trees. They had been stimulated by Long Chen's hot-bloodedness and had forgotten to fight.

They didn't even dare to think about what would happen next.

But reality cannot be stopped.

What Yaksha King did not expect was that Ling Xi would actually stand in front of her at this time. She did not understand how a mere girl with two levels of tribulation of reincarnation could have such guts!

Of course, the most terrifying thing was still Long Chen, who was not in the tribulation of reincarnation.

"Get out of the way!"

Yaksha King and Ling Xi were not modest at all. Almost the moment they met Ling Xi, their killing moves would come at him.

Ling Xi was free to do whatever it takes, her long hair fluttering in the wind, her eyes calm and composed.

"Revolving Star Passage Formation!"

In a short span of time, she had already released the array formation she had prepared. Yaksha King was just like the rest of the practitioners in the five elements tribulation of reincarnation.

Yaksha King's situation had scared everyone!

Why would a perfectly fine person disappear into thin air?

No matter if it was the Yaksha Clan or the Luan Tree Clan, they couldn't figure it out at all.

"Yaksha King is dead! Quickly kill him!" They have already lost! "

Long Chen shouted loudly, with his Divine Dragon Body, his voice instantly spread throughout the entire battlefield, the disappearance of Yaksha King, along with his words, instantly brought about a huge panic to the Yaksha Clan, and also brought about a very strong battle intent to the Luan Tree Clan. All of the people seemed to have revived from the dead, as their fighting spirit became even more terrifying!

They saw the light of hope!

Everyone was shocked, they never thought that Ling Xi could kill Yaksha King. However, Yaksha King had already disappeared, and the facts were in front of them, and no one dared to disbelieve him!

After this event, the Yaksha Clan, who had initially been defeated under Long Chen's attacks, even lost their will to fight. Under the attacks of the Luan Tree Clan and the Blood Weeping Dragon Soul, they retreated step by step, they would be terrified, and they would also be afraid of death. It was just that they were not afraid of death compared to the Luan Tree Clan. However, at this moment, the Yaksha race, who were not afraid of death, began to retreat in panic!

"Kill!" The Yaksha Clan is about to be completely wiped out. Kill all remaining evildoers and get them out of your homes! "

Although many Yaksha Clan commanders were still calling out to them, still telling them that Yaksha King was not dead, but Long Chen had the Blood Weeping Dragon Soul to lead. Only he could guarantee that in this extremely chaotic battlefield, he would be able to spread his voice to everyone!

If it weren't for the appearance of the Yaksha race, everything would have been under his control in this battle.

Although the hope of victory was right in front of him, Long Chen's heart was still heavy. That was because Yaksha King could not possibly die, he was right nearby, and might come back in the next moment. And when she came here again, she would definitely not let Ling Xi succeed again.

He and Ling Xi looked at each other in the air, their eyes filled with helplessness.

This battle was much more difficult than he had imagined. The biggest difficulty was caused by Yaksha King's Styx Halberd and more than 300 dao inscriptions. This resulted in an absolute crushing defeat, causing Luan Tree King to be the first to be defeated. No one could stop her anymore!

"Brother Chen, if it's really impossible, let's give up."

Ling Xi was not being selfish. She was only thinking for Long Chen and to be honest, this had nothing to do with him. He did not need to shoulder this kind of hatred.

"Wait a little longer."

In just a few quarters of an hour, under Long Chen's scam, the situation had undergone a huge reversal. The Yaksha Clan were either dead or fleeing, a total of four hundred thousand Yaksha Clan members.

The Luan Tree clansmen thought that the Yaksha Clan was already dead and were celebrating with all they had.

At this moment, a sense of danger struck him once again.

Long Chen turned into a human and stood together with Ling Xi. The two million Blood Weeping Dragon souls were still fighting, but the two of them were facing the west. From that direction, a blood-colored direction was shooting over at a terrifying speed.

"Damn it!"

Yaksha King let out a sharp roar that almost made the entire battlefield tremble. Countless people looked to the west, and they all knew what that red dot meant. Yaksha King was not dead!

Long Chen's scam could only be maintained for a short period of time.

Yaksha King's attack once again shifted all of his despair from the Yaksha Clan to the Luan Tree Race. They stopped their escape and became even more vicious. They blocked the attacks of the Blood Weeping Dragon Soul and the Luan Tree Race and almost reversed the situation on the battlefield.

"You two little bastards, you angered me! Very good, you have angered me! "

Yaksha King roared, as her targets were Long Chen and Ling Xi.

"Is there really no other way?"

In the end, Long Chen could only feel that it was a pity.

If Yaksha King made a move on him, he definitely wouldn't be able to fight to the death, because there would be no hope at all. He could only use the Time Traversing Dragon to hide himself, but if that were to happen, the Blood Weeping Dragon Soul would disappear.

"Kid, no matter who you are, you must pay the price!"

Yaksha King flew into a rage.

She hated being tricked the most.

Long Chen's face did not show the slightest hint of panic, and he laughed coldly: "Come at me if you want, not to mention imprisoning me, even if you were to touch a single hair on my head, my elder would have completely exterminated this little Yaksha Clan, and would have skinned and cramped your skin, and cut you into ten thousand pieces. You could have just given it a try! Yaksha King, why don't you try? "

His many years of experience had allowed his heart to be as calm as water. Although Yaksha King was strong and cunning, he was still hesitant because of Long Chen's arrogance. Long Chen was too similar to him, and only people in places like the Five Dragon Cities would look down on others and not place Yaksha King in their eyes.

Yaksha King stopped right in front of Long Chen, gritted his teeth, and said, "Little guy, you have to go against me no matter what? There is a limit to my patience! "

Her sharp teeth were exposed like a beast's.

Long Chen was still as proud as ever. He revealed a relaxed smile and said: "You'll know once you try it, I promise I won't move, I forgot to tell you, I've already told my seniors about this matter, I've also told them about Yaksha King's name, they're currently approaching, and maybe in the next moment, they'll appear in front of you. If you dare to touch me, I'm sure you can escape from Treant."

At this moment, her gaze left Long Chen's body and landed on the Right General, the powerful generals of the Left Premier and the others. She suddenly laughed coldly and said: "You've succeeded, and it's true that I don't dare to touch you. However, these weak Luan Tree clansmen have no chance of surviving."

She stretched out her hand and grabbed. On the battlefield far away, a figure landed in her hands while screaming. In an instant, it was the princess of the Luan Tree Clan, Yin Luan.

She stretched out her devil claw and grabbed Yin Luan's head. Her sharp nails were about to pierce into Yin Luan's skull. In a flash, blood started to flow from Yin Luan's head, and her complexion turned deathly pale.

Yaksha King laughed out loud. She looked down at the battlefield below her and laughed sharply: "The cowards of the Luan Tree Clan, your king has almost died in my hands, your princess is about to be killed by me, your Luan Tree Green World has also been destroyed by me. You have all failed thoroughly, now, please look at me, and swallow your princess into my body bit by bit!"

She laughed wildly.

The two massive blood colored lights in front of his chest trembled, and his killing intent was astonishing.

Her words once again shattered the Luan Tree Clan's confidence, and also fuelled the Yaksha Clan's arrogance. The Yaksha Clan was completely crazy, and as long as Yaksha King did not fall, they would not be afraid.

The Yaksha race began to reverse the tide of the battlefield and turn the Yaksha race into their victor.

Yaksha King laughed loudly as he looked at Long Chen with a face filled with provocation, and said, "Little fellow from the human race, although I can't touch you, what can you do to me!"

As she spoke, she ignored Yin Luan's miserable shriek and slowly put her opponent into her mouth.

Yin Luan's despairing gaze caused a monstrous rage to burn at the bottom of Long Chen's heart. This feeling of being unable to help the friends beside him made him especially angry and resentful, but he was still too young.

Neither he nor Ling Xi had the ability to save Yin Luan from Yaksha King.

At the most desperate moment for all of the Luan Trees, in the air above the Ancestral Tree City, the floating green light spots that came from the destroyed green world suddenly converged towards a certain direction.

Billions of light spots were like fireflies as they headed towards the battlefield. While the light spots were moving, an ancient music was playing, and for a moment, all of the Luan Trees were in a state of oblivion. They couldn't help but start humming.

The entire battlefield was filled with that ancient and eternal song.

It was the symbol of a race.

"Ancestors!"

Tears fell from the eyes of countless members of the Luan Tree Clan. They could sense that their ancestor's soul was descending.

The green light dot was converging towards Long Chen.

Chapter 1982 - Strength of the Ancestors

never thought that these green specks of light would actually gather towards him. This was because after the Green World was destroyed, it would form into fragments, and the Green World was created by the ancestor of the Luan Tree Clan. When he heard these ancient songs, he could roughly imagine what would happen next.

The sudden change attracted everyone's attention. The originally lively battlefield suddenly became quiet. Many people stopped fighting and looked at the countless green dots of light.

Even Yaksha King stopped. Her gaze became incomparably heavy.

Below, under the protection of a portion of the Luan Tree Clan's Rankers, the heavily injured clan members opened their eyes. When they saw the countless green light spots converging towards Long Chen, they started to cry profusely.

"My ancestor was useless! Ancestor, please save my Luan Tree Clan! "

This was the power left behind by the ancestors!

Perhaps back when they were building the Green World, they had already considered what would happen today.

Long Chen was already surrounded by countless green specks of light. He gently touched those green specks of light only to discover that those specks of light had actually fused into his body. At the same time, a very powerful green energy appeared within his body, filled with vitality, and spread endlessly.

This was just the power of a green dot of light.

It fused into Long Chen's body and separated independently with his original Tai Chi Nirvana Force in his body, forming a new energy circulation. In reality, it was a new meridian.

Starting from the first green spot, hundreds of millions of green dots merged into his body. The surging power in his body started to form a sea of strength.

Long Chen's entire body was about to explode, he could not use any words to describe the power, he only knew why chose to use this power for him to use, and that was because in the arena, his body was the strongest, and only he could use this power!

Vast amounts of energy majestically flowed through the completely new green veins in his body, exceeding Long Chen's original strength by countless times, reaching the limit that his body could endure, but those green specks of light were still rushing towards his body.

In everyone's astonished field of vision, Long Chen had already completely turned into a green person. He was like a green sun, gathering countless specks of light.

When all the green light dots converged onto his body, Long Chen realized that he had never felt such a strong power before. Of course, this power did not belong to him, he could only use this power for a short period of time.

He, who was like a green sun, looked at Yaksha King, who was still in control of Yin Luan. The green power began to rage, frantically engulfing everything.

Long Chen had a feeling that if he completely vented out all of this power, he would probably be able to destroy this Luan Shuxing!

The ancient song of the Luan Tree Clan resounded in his ears.

Long Chen was extremely moved. At this very moment, he was the one who carried the strength of his entire clan! It also carried the hope and anger of an entire race!

Yaksha Clan!

They were demons who had returned kindness with enmity. They were bloody and ruthless, and all of this was vividly displayed on Yaksha King's body.

A green light shone onto Yaksha King's body.

"A bunch of old bastards, this is no longer your era. You have all died countless years ago, yet you still want to fight in the left and right sides. What a joke!"

Yaksha King brandished her Dark River Halberd, and with her teeth bared, the Dark River Halberd slashed towards Yin Luan's neck!

So what if something had happened? She wanted to establish her might, wanted Long Chen to be afraid of her.

The Styx Halberd was unstoppable.

The Luan Tree clansmen clamored as they looked at this scene in fear.

Swish!

In the instant that Yaksha King made his move, Long Chen drew out the God Slaying Sword that was of the same attribute as the Styx Halberd, but far weaker.

"My food!"

The small skeleton drooled as it stared at the Styx Halberd, its gaze unable to move away.

It was just like a small lion cub, while the Styx Halberd was an elephant.

But, the small skeleton was still unable to endure its thirst.

What Long Chen bore is the power of the ancestor of the Luan Tree Clan!

Just when all the Luan Trees were nervous about Yin Luan's safety, the Styx Halberd was blocked by a grey sword. Dang! The small skeleton cried out painfully, it was unable to eat the ferocious weapon, the Death God Slaying Sword, if not for the powerful green energy coming from Long Chen's body, it would have been destroyed!

Face to face!

The crowd burst into an uproar.

Long Chen's boldness and decisiveness was especially admirable to everyone. Not only did he block the Netherriver Halberd, he also quickly snatched Yin Luan from the other party's hands and threw her towards the Luan Tree King!

This green sun seemed to possess even more power than Yaksha King!

This was the power of the ancestor of the Luan Tree Clan.

When Yaksha King was pushed back, the Luan Tree clansmen shed tears. They understood that they would have to fight to the death with Yaksha King if they wanted to bear the burden of the Luan Tree Clan. At that moment, everyone was in an uproar.

The two races quickly separated from each other on the battlefield.

The countless Sobbing Blood Dragons were still standing in front of the Luan Trees, staring at the Yaksha Clan who were eyeing them covetously. This time, the Yaksha Clan suffered great losses, and more than half of the casualties were caused by Long Chen.

Above them, Long Chen was engaged in the most intense battle with Yaksha!

Yaksha King was indeed a fierce beast, but Long Chen's fighting style was even more ferocious. He was born to be a killing machine, and after he inherited the power of Green realm, his fighting strength increased sharply, and in terms of strength, he had actually suppressed Yaksha King!

However, Long Chen knew that the amount of power in the Green Realm was decreasing. If he could not defeat the opponent in the end, he would have failed the expectations of the Luan Tree Clan.

He could not lose!

Long Chen gritted his teeth.

The power of the green realm surged within his body. He bore the anger of the Luan Tree Clan ancestor, and every time he attacked, he would continuously push Yaksha King back!

He was using the Killing Sword Technique!

Everyone could clearly see that the previously invincible Yaksha King had been completely defeated by Long Chen. It was extremely miserable, and a large amount of blood shot out from her body.

"That damnable Luan Tree Clan old ghost!" And you, damn you! When you run out of strength, you'll know how to write the word death! Today, I will definitely exterminate the Luan Tree Clan, and will not leave a single person alive! "

Yaksha King clamored in anger.

Her River Styx Halberd was still quite terrifying. The God-Slaying Sword's appetite was too great, but swallowing it was impossible. The God-Slaying Sword was more than two hundred runes away, yet it still did not shatter. It was already a miracle.

At the same time Yaksha King was shouting from the slaughter sword art, the small skeleton that had beheaded the God Slaying Sword was also cheering loudly.

Long Chen's attack could only be described as terrifying. After the unstoppable Killing Sword Technique had clashed with the hundred swords, it had truly unleashed its deadly strength, and from that moment onwards, although the power of Green Realm was still being consumed, Yaksha King was almost unable to resist Long Chen's berserk attack!

"No one has the ability to exterminate an entire race!"

"Your Yaksha King doesn't either! Every race was the most precious life created by the heavens and earth! You have no right to dictate their right to live! "

"Two hundred slashes!"

The soaring gray sword qi mixed with the green, producing a huge explosion. It swept past Yaksha King's body, and immediately, balls after balls of blood mist exploded from his body. She screamed miserably, and was struck by Long Chen!

"Just you wait, your strength will be depleted!"

Yaksha King climbed back up in a sorry state. Her eyes were bloodshot as she patiently waited, but she realized that Long Chen was becoming more and more terrifying. His power that was inherited from the green realm was simply endless.

Lowering their heads, countless people of the Yaksha Clan started to panic. In their eyes, Yaksha King was basically a god, but at this time, the god was being trampled on like this, causing them to feel fear in their hearts. Many people once again had the thought of escaping, and when Long Chen's swords pierced into Yaksha King's body, they also pierced into the heart of the Yaksha Clan.

"We've lost! The king is going to lose!"

"No, Wang is waiting for that brat to exhaust his strength!"

As for those people of the Luan Tree Clan, they could only hold their hands tightly, their eyes glistening with tears. They would pray for Long Chen, and for the Luan Tree Clan.

To be honest, the power of the Green World was almost there.

"Three Hundred Swords!"

However, at this time, Long Chen's Killing Sword Technique had also progressed to its limit, the three hundred swords were undoubtedly even more terrifying than all the previous attacks. Upon reaching this level, the power of the Killing Sword Technique increased by another level, and when the green sword qi swept past, Yaksha King was in extreme pain. His entire body was torn to pieces, his flesh and blood exploding.

"You're finished, your strength is almost exhausted!"

Her laughter made the Yaksha Clan members excited, and made the Luan Tree Clan even more worried.

There were countless teary eyes of the Luan Trees, staring at the green sun. Even at such a crucial moment, his eyes were still as calm as water.

"Brother Chen!"

However, Ling Xi was filled with anticipation.

She knew that Long Chen was waiting for this final moment. He was a person who was used to adventure, but every time he took a risk, he was very confident.

The God Slaying Sword was lifted high into the air. He rushed into the skies, falling down like a comet. The God Slaying Sword drew a brilliant trajectory in the air!

Yaksha King licked his tongue. Victory was in her hands.

But right at this moment, Long Chen gave his opponent his own deathblow!

"Eye of Hell!"

The clouds changed and the Eye of Hell appeared. The green eye in the sky that only Yaksha King could see suddenly appeared. Those eyes were like an endless abyss that attracted even the soul of Yaksha King.

At this moment, Long Chen unleashed his next sword strike. He poured all of his remaining green realm energy together with his own power into one strike, and then chopped down!

Chapter 1983 - Sword Kill Yaksha King

This strike was Long Chen's final strike as he fought with his all.

Everyone was staring at him, because he was the Luan Tree Clan's final hope, even the Yaksha Clan clansmen were afraid. From the very beginning, Long Chen had completely suppressed Yaksha King, and they were worried that he would be torn to shreds by Long Chen!

But! Under everyone's watchful eyes, the last thing the Yaksha race wanted happened! Yaksha King, who had been intimidated by the Eye of Hell, was completely in a dazed state. In this state, she had no way of protecting herself, and in the end, it was still the Styx Halberd that protected itself against Long Chen's sword attack!

A terrifying gray sword qi tore through half the sky, carrying with it the power of heaven and earth as it hacked down with a loud bang, colliding with the Styx Halberd! A grey aura emanated from the Styx Halberd, forming a grey river. Water demons rushed out from the river; that was the spirit of the Styx Halberd!

The River Styx's Water Demon blocked in front of Long Chen's final strike!

"My darling!"

The Infinite Sword Qi of the god slaying sword burst out, condensing into a skeleton made of Slaughter Sword Qi. The skeleton gave off a green glow and pounced towards the Styx water demon with the god slaying sword. The two monsters clashed madly in the air!

Long Chen poured all of the green realm's energy out, the terror could be imagined. Under normal circumstances, small skeleton would not have the strength to resist the water demon of the Styx, but the power of the green realm strengthened it. And the water demon of the Styx fought alone, in a short period of time, it was completely defeated!

"Give me a bite!"

The small skeleton rushed forward excitedly!

The God Slaying Sword hacked down onto the Styx Halberd, emitting an earth-shattering explosion. Everyone could not believe their eyes as they saw the three hundred dao tools, its front end, which was also the tip of the halberd, actually had a huge hole cut through it!

The River Styx Halberd suffered a wound and its light dimmed for a moment. It no longer had the arrogance of air and flame from before, and the broken piece of the halberd had already been devoured

by the God Slaying Sword, the vast and mighty power made the God Slaying Sword look like it had obtained a treasure, the small skeleton devoured the energy from the River Styx battle excitedly!

The God-Slaying Sword had actually defeated the Styx Halberd!

Of course, this was all thanks to the support of the energy of the green world. That was why such a glorious battle skill was produced!

"No!"

Under the attack of the Eye of Hell, the temporarily deranged Yaksha King was jolted awake, but the Styx Halberd in her hand had already been blasted away by Long Chen, causing her fighting strength to plummet. And at this time, Long Chen's sword officially struck over, shrouding Yaksha King in the shadows of his sword, leaving her no room to escape!

A loud rumble came from below. No matter if it was the Yaksha Clan or the Luan Tree Clan, they were both extremely nervous. The Luan Tree Clan's clansmen were all silently praying.

"Don't touch me, or else I'll die with you!" Since you wish to protect the Luan Tree Clan, I can promise you that you will retreat immediately! "

Yaksha King retreated in panic. She was truly afraid.

"Bullshit."

Long Chen rushed over. He was terrifyingly calm, and did not seem to have any fluctuations at all. The Killing Sword Technique that he gathered all his energy for became even more powerful, and as Long Chen unleashed it, Yaksha King was in imminent danger.

"You forced me to do this!"

Blood flowed from Yaksha King's eyes as he mournfully shouted.

Long Chen sneered, and said: "Don't overestimate yourself, they told me to kill you."

They were the ancestors of the Luan Tree Clan.

What Long Chen inherited were their strengths and wills, and also inherited their hatred!

The God Slaying Sword had no regrets and killed Yaksha King. It tore apart his flesh and primordial spirit, causing it to explode into a bloody light that filled the sky, there was no way to leave a path for the opponent under the Killing Sword Technique. Long Chen's sword strike, in front of Yaksha King's despairing eyes, had completely killed Yaksha King in front of everyone!

As for her words, it was merely to scare Long Chen to death.

Yaksha King had died!

The bloody light that covered the sky announced Yaksha King's death to everyone.

The young man with the grey sword stood in mid air. His expression was indifferent, but it made people afraid, he was the savior of the Luan Tree Clan, and today, he had to rely on Long Chen to turn the tide, if not the Luan Tree Clan would definitely die!

Only Long Chen could perfectly endure the power of the Green World.

This scene made all of the Luan Trees tear up.

To the Yaksha Clan, this was simply a nightmare. They were ambitious and wanted to rise up again. They were the great Yaksha King, yet they were killed in the first battle. Yaksha King was completely finished.

Just as Yaksha King's blood fell onto the ground, they began to flee.

Long Chen gazed down below him. The power of the green realm on his body had almost been exhausted, and he was unable to kill all of the two hundred thousand Yaksha Clan members. However, he was able to do this, and that was to deal with the three Four Divisions tribulation of reincarnation warriors of the Yaksha Clan.

The Left Premier and the Right General were fighting against each other.

The remaining one was still unwillingly slaughtering the Luan Tree Race.

Under the gaze of the crowd, Long Chen exhausted all of his remaining strength and killed the Yaksha Clan's higher ups, while the other two started to flee. With the arrival of the four hundred thousand Yaksha Clan members, the remaining two hundred thousand or so handicapped veterans ran in panic and completely disappeared from the Luan Tree Clan's sight.

However, the Luan Tree Race did not have the strength to chase after them anymore.

Yaksha King was already dead, and only two warriors of the Four Symbols tribulation of reincarnation were left. As for the Luan Tree Race, as long as Luan Tree King recovered, she would still be able to suppress the Yaksha Clan within more than ten years.

After experiencing today's crushing defeat, the Yaksha Clan had suffered a great loss of strength for at least ten years. They were not a match for the Luan Tree Clan.

Even though the Luan Tree Clan had lost their Green Realm today, they did not die a lot. All of the battles were led by Long Chen.

When all the Yaksha Clan members fled, the Luan Tree King had already mustered the strength to stand up. However, he led the group and knelt towards Long Chen. With the Luan Tree King leading the way, all the Luan Tree Clan members kneeled reverently in front of Long Chen.

Long Chen did not aim to kill Yaksha King for nothing. He only wanted to save their race for the sake of those pitiful Luan Tree clansmen. He wasn't too used to this sort of kneeling.

"Everyone, get up first."

The power of the Green World had completely disappeared, leaving Long Chen himself behind.

Luan Tree King raised his head, and shouted loudly: "You are my Luan Tree Clan's savior, and also my savior. From today onwards, my savior will give me any orders, and we are all willing to serve you."

Everyone in the Luan Tree clan was convinced.

That included the Minister of the Left.

Facing these countless sincere eyes, and seeing the reverence and gratitude in their eyes, Long Chen suddenly felt that, in reality, being a good person and being a savior also gave him an extraordinary sense of accomplishment.

He had obtained the heart of the ancestral tree.

"Father, don't let the halberd escape!"

The small skeleton hurriedly reminded.

Long Chen suddenly looked over, and the Styx Halberd was stabbed into the ground while struggling. Long Chen rushed over and grabbed it before the Styx Halberd could escape, as the injured Styx Halberd was missing a piece, causing its fighting strength to drop greatly. This, coupled with the fact that he was afraid of Long Chen, caused it to tremble uncontrollably and did not dare to flee.

"You better behave, or else I'll kill you."

Long Chen threatened.

Yaksha King was already dead, who could the Styx Halberd belong to? Logically, Long Chen was just a person who could bear the power of the Green Realm. In actuality, the real reason why he had defeated Yaksha King was because of the power of the ancestor of the Luan Tree Clan.

The Luan Tree King quickly said: "The Styx Battle Halberd is useless to us, it is a precious treasure, but our benefactor saved our Luan Tree Clan, we are unable to repay him, so no matter what, we will give you the Heart of the Ancestral Tree!"

Everyone in the Luan Tree clan was convinced.

Long Chen deserved the Heart of the Ancestral Tree, and this halberd should actually be his spoils of war.

The Luan Treant Clan had thought of the consequences of extermination countless times, but they had never thought that it would be this young human warrior who turned the tide and saved the entire Luan Treant Clan.

"Thank you, Tree King Luan."

He was lucky to be able to acquire the Styx Halberd, and so the Green World chose him.

This was a great harvest for Long Chen. After devouring a small piece of the Styx Halberd, the God Slaying Sword had grown to more than 120 lines. If he swallowed all of the River Styx Halberd, the God Slaying Sword would become even stronger!

Following which, the Luan Tree clansmen tidied up the mess in the battle.

In the next ten years, the Yaksha Clan would no longer be a threat.

Of course, the Luan Trees had undergone a metamorphosis. Their future prosperity would be brought into the near future because of their efforts in training!

This transformation of the strong from the weak to the strong was also bestowed to them by Long Chen. They had no reason to not thank Long Chen.

While the Luan Tree Clan was tidying up the battlefield, the Luan Tree King who had just recovered a little brought Long Chen to the bottom of the ancestral tree. He walked through the small door and handed the heart of the ancient tree to Long Chen.

A quarter of an hour later, the Luan Tree King came out.

The heart of the Ancestral Tree released a majestic life force, as though it was alive. The power and the power of the Green Realm came from the same origin, although the power of the Green Realm had completely disappeared from the body, the imprint was still there, and the heart of the Ancestral Tree did not reject Long Chen at all.

This was only a tenth of the heart of the ancestral tree.

"Use it carefully." Luan Tree King reluctantly reminded Long Chen as he handed the heart of the Ancestral Tree over to Long Chen.

"Of course."

Long Chen caught the heart of the Ancestral Tree and placed it inside the God Nation.

He said: "I have delayed at Luan Tree Star for a period of time and am currently heading to chaotic star field. If there is nothing else, Ling Xi and I will probably be leaving first."

Long Chen had already made his decision, the Luan Tree King asked him to stay for a while, but it was to no avail. He could only say: "There is no such thing as an endless banquet in the world, let us citizens of the Luan Tree Clan send you off, if there is a chance in the future, you can come visit at any time, although our Ancestral Tree City is simple, but we will still welcome the two of you with great enthusiasm."

Long Chen left with a smile.

Chapter 1984 - Bright Stars

Luan Shuxing was a place that Long Chen had a very deep impression of.

From today onwards, he would understand the true meaning behind the rules of the Primordial Blood Spirit Dragon's cultivation.

Although he was very relaxed, only by going to Mo Xiaolang's side could he truly be at ease. Therefore, after he settled the matters for the Luan Tree Clan, he basically did not stay for long, and immediately left Luan Tree Star, heading towards the depths of the starry sky.

That was the chaotic star field!

chaotic star field, the ten great planets revolved around a single center.

"The place Little Wolf is currently at is called the 'Resplendent Star', it is the outermost planet in the core region, but it is almost one of the three largest in terms of size. There are tens of thousands of races reproducing on it, and its territory is countless times the size of Luan Shrine, it is equivalent to the size of the ten ancient cities of Dragon God Domain, but the resplendent star does not have a Star Lord. It's obvious that hiding in this place is quite safe. Since Little Wolf has chosen this place, there must be a reason for it.

and Ling Xi travelled quickly through the endless starry sky. Their speed was extremely fast, and they left afterimages in the sky, that were as bright as shooting stars. The deepest part of the starry sky was their target.

During Ling Xi's journey, she spent most of her time researching the Sector lord's Divine Arts and the Piaomiao Immortal Sect's strongest level of innate Tao technique. Even if she didn't cultivate her cultivation, she could quickly become stronger, and would also be of great help to Long Chen at the same time.

As for the small skeletons that were part of the God Slaying Sword, Long Chen seemed to have prepared sufficient rations. It stayed in the God Kingdom and would occasionally bite on the Styx Halberd, which was becoming weaker and weaker, while the God Slaying Sword became stronger and stronger, the Dao patterns on it increasing rapidly. The strength of the God Slaying Sword also meant that Long Chen would become more powerful in the future.

"I really wonder, what kind of fate would we encounter in the chaotic star field?"

Long Chen became excited. Since that was the most chaotic place, there must be something that he could not imagine.

Before leaving Luan Tree Star, Long Chen had asked the Luan Tree King about the core region of the chaotic star field. He found out about the 'resplendent stars', the 'Rakshasi Clan', the 'Asura God Clan' and so on. The excitement and excitement of the chaotic star field was far beyond his imagination. Luan Shuxing was only a very small place in the chaotic star field, a very small planet.

Just when Long Chen and Ling Xi were about to reach the central region, after a long trek, Mo Xiaolang and Su Yan finally arrived at the resplendent star. They were looking at the gigantic planet from the starry sky and their eyes were filled with shock, because the resplendent star in front of their eyes was just too huge and beautiful.

It was a planet that looked like a gem. It flickered with a misty white and gentle radiance, sparkling in the starry sky. It was pure and natural, no wonder it had the name of a resplendent star.

This was the biggest and most beautiful planet Mo Xiaolang had ever seen.

If Luan Shuxing could only fit a million people in there, then the number of creatures this bright star could hold would probably be one billion. To the Five Great Clans of the Immortal God Region, the chaotic star field they spoke of was actually the planet in the central region. Compared to the ten great planets in the central region, the other hundreds of planets were simply too small.

"What a beautiful and resplendent star!"

Su Yan cupped her face with both hands and revealed a surprised smile.

"wolf cub, are we going to stay here from now on?" Su Yan asked expectantly.

Mo Xiaolang said, "This is the outermost star in the central area, it is simply impossible for the Nine Tailed Heavenly Tigers to find me even if they chase me here. Furthermore, they would probably think that for insurance's sake, I would definitely travel deeper into the stars, the most dangerous place is, in fact, the safest place. Yan Er, from today onwards, we will hide ourselves amongst these bright stars and live a peaceful life, okay?"

Su Yan nodded heavily, her eyes filled with yearning.

Mo Xiaolang held her hand and started to enter the bright stars. The bright stars had a mist that was as bright as white jade, it was something that was transparent like a crystal, it surrounded the entire bright star like a fog, but more like crystal sand surrounding the entire bright star. To enter the bright stars, one had to pass through this layer of mist that was as shiny as crystal.

Below it was the real mountains and rivers of the resplendent stars.

The bright stars were not much different from other planets, except that they were covered in a layer of crystal-like grains of sand, making them very beautiful.

Mo Xiaolang easily passed through this place, and the two of them truly released him. When they passed through the crystal grain, they couldn't help but feel shocked by the magnificent mountains and

rivers below them. Although the Immortal God Realm was complete, but most of the places were in the desert, the bright stars were filled with vitality.

The two of them descended from the sky and headed towards an oasis in the prairie.

Every day, there were around a hundred thousand people entering and exiting the Brilliant Stars. Of course, if they were born and bred in a clan with bright stars, it would be difficult to resist the attraction of the bright stars without reaching Fifth Stage of Nirvana Tribulation. They didn't have the ability to leave the bright stars.

Su Yan had yet to reach this standard, but she was safely arrived at the resplendent star with Mo Xiaolang's lead, so there shouldn't be a problem.

The two people were able to see less and less, and the area of their field of vision was also becoming less and less. After approximately half an hour, Mo Xiaolang and Mo Xiaolang finally descended from the sky into the endless green wilderness.

Surrounding him was an endless expanse of grasslands. The grass was both high and low, reaching up to a hundred meters in height, with the lowest reaching only to the ankles.

"This grassland should be around the same size as the Demon God Area's Heavenly Cry Prairie, right? There are many races within the grassland, and seems to be able to coexist harmoniously with one another. Yan Er, let's just stay here for now."

On Mo Xiaolang's body, there was no longer any trace of the devilish quality of a devil. His eyes were pure and pure, as he looked around the place brimming with joy.

"Alright, no matter where you go, I will follow you."

Her slender and powerful waist was extremely enchanting. She was born to dance, and was even a fairy that had merged with the heaven and earth. In the midst of her bell-like laughter, many living beings on the grassland were slowly attracted by her.

Mo Xiaolang saw many strange races.

There was a tall and thin race with green skin and veins in their leaves.

There was a strange race with a body that was made of rock, but a mouth and nose.

Only then did he remember that the chaotic star field was the domain of tens of thousands of clans, the demi-humans were relatively rare here, which meant that in this place, Su Yan's half demon identity was nothing at all.

The eyes of these races flashed with a curious light, and they did not have the slightest bit of malicious intent, causing Mo Xiaolang to heave a sigh of relief.

They walked in front of Mo Xiaolang and carefully asked: "Hello, welcome to our grassland. We are of the Jade Grass Clan, we have lived here with the Cliff Race, Bright Moon Clan, Star Clan and others for hundreds of thousands of years, and we are very hospitable. Do you want to stay here too?"

No wonder the Bluegrass tribe was so similar to the grass on the ground.

This Jadegrass clan and the Luan Tree Clan that Long Chen had met were both part of the Tree Clan.

Mo Xiaolang wished that he could live here, so he started to converse happily with the aboriginals. The characteristics of the races on the plains were extremely good, and battles rarely occurred.

The Green Grass Clan, the locust clan, the Moon clan, the Rock clan, the Black Sky clan, and so on.

They were considered to be a weak race in the chaotic star field. Although the grass and trees were flourishing in this area, the Nirvana Qi was slightly thin, so no one cared about this place. Thus, they were able to live on in peace.

In a short period of time, Mo Xiaolang and Su Yan had melded into their group.

The races of this prairie didn't have much of a racial concept. In their eyes, they only had friends.

Living here was undoubtedly carefree.

Here, Mo Xiaolang returned to his original state. He could calm down, and whenever this happened, the martial magic seed would disappear without a trace from his body.

"Perhaps this is the right life for me."

Mo Xiaolang thought.

"wolf cub, come and dance with me!"

Su Yan's dancing skills had attracted many children. She had gotten into a fight with other children, so no one bothered to look down on her because she was a half demon. At this place, Su Yan could show her snake tail.

That was the fragrance of flowers and plants. Lifting his head, he saw that the crystal sand filled the sky, and there would never be a night sky for the entire resplendent star, just like Mo Xiaolang's current heart, which was bright and open.

While he was happily interacting with everyone, he discovered that he seemed to have already defeated the inner demons.

During this period of time, a Jadegrass clansman called 'Bluegrass' liked to entangle Mo Xiaolang and let him show the flames. At the same time, Mo Xiaolang could also get more information about the resplendent stars from his mouth.

"wolf cub, do you think our prairie is fun?" Green Grass laid on the ground and stretched her back comfortably.

Seeing Su Yan being so happy in front of him, Mo Xiaolang chuckled and said, "Of course it's alright, I'm very honored to be able to come to the world here."

The green grass looked sad.

They were the core strength of the Nine Tailed Heavenly Fox, so they naturally came here to chase after Mo Xiaolang. However, they did not search the entire starry sky for him, as that would be akin to a pipe dream.

It was simply impossible to find Mo Xiaolang among such a gigantic and resplendent star.

After all, they were not part of the forces of the Brilliant Stars.

Furthermore, Mo Xiaolang might not even stay on this bright star.

These Nine Tailed Heavenly Foxes were there to directly place the mysterious existence on top of the resplendent star.

Amongst them, if Zilan was an elder of the Nine Tailed Heavenly Fox, she would have an extremely high position in the entire clan. She was one of the few supreme experts of the Nine Tailed Heavenly Fox, and in order to take revenge, two of the Nine Tailed Heavenly Fox's powerful experts had been dispatched.

His hair had already turned white, and his body was starting to bend, making it obvious that he would not be able to go through the next stage of the reincarnation tribulation. But even so, his eyes were still bright and spirited, he was one of the few experts of the Nine Tailed Heavenly Fox tribe with six tribulation of reincarnation, and although it was only the early stage, he was still very strong. It had to be known that at the level of the six tribulation of reincarnation, it was basically impossible to reach the late stage before the time limit of one thousand years had passed.

Only a few people had a chance of overcoming the Seven Star Tribulation.

This did not affect the authority of Ruo Zilan in the Nine Tailed Heavenly Fox Tribe.

However, he was an influential figure in the Nine Tailed Heavenly Fox tribe. Today, he had no choice but to be careful as he entered a dark void. Even the Nine Tailed Heavenly Fox that accompanied him did not have the qualifications to enter.

He advanced through this endless void, surrounded by endless darkness. He was strong, but after arriving here, his face was still pale. His eyes constantly scanned the surroundings, as if he was searching for something.

The endless darkness around him was truly frightening.

A short while later, he stopped in mid-air and looked up respectfully, "Forcefully pushing the grand elder of the Nine-tailed Heavenly Fox family, Ruo Zhi Lan, to pay a visit to the two wolf lords with the supreme wolf lineage, would you like to show yourself?"

In the Demon God Area, although the Nine Tailed Heavenly Fox was considered to be the top bloodline among the fox race, in the entire Demon God Area, it was at most comparable to a Tong Tian Mouse, so it was nothing much. In the entire Demon Clan, there were several extremely strong races, and among them, ordinary bloodline could even surpass the Nine Tailed Heavenly Fox.

In the entire Demon God Area, amongst the huge wolf tribe, they were ranked in the top five in terms of overall strength. There were a few demon clan members who were rare but still strong, but they were still inferior to the wolf clan.

The wolf clan possessed three supreme bloodlines.

Wolf Lord, only the three supreme bloodlines of the wolf clan could be called Wolf Lord. However, Zilan's words revealed the existence of the other two of the three supreme bloodlines: Wolf Lord.

Every wolf lord was a top-notch figure in the wolf clan.

After Zilan finished her sentence, she closed her mouth and waited in peace.

Suddenly, two rays of light flashed in this black space. One was golden, the other was silver. Two rays of light converged above Zilan's eyes, and the golden light suddenly expanded, transforming into a golden sun. The blazing sun burned with golden flames, and the extremely high temperature caused Zilan's face to turn rosy red.

A magnificent blazing sun suddenly appeared in this dark space. Strangely, the boundless raging flames didn't illuminate this space.

The other silver ray of light turned into a beautiful silver moon on the other side. The silver moon was about the same size as the golden sun, and it was releasing that terrifying cold air.

With his Six Paths of Reincarnation's strength, he was actually somewhat out of breath in front of the golden sun and silver moon. He was currently using the Nine Tailed Heavenly Fox's strength to resist.

The golden sun and silver moon became bigger and bigger, gradually forming the entire world. If one were to look at them, they would see that within the golden sun, there were actually dozens of golden little wolves crawling around.

On the other side of the silver moon, there were tens of other silver wolves. Their deep silver eyes proudly stared at the Nine-tailed Sky Fox.

If Zilan had found it easy, she would have found the two wolf-lords among the wolves on both sides.

He knew that the other party was above him. Although he had shown him some respect, he still said respectfully, "I am Ruo Zilan. I have seen the two wolf lords of the Haoyue and the Eclipse Wolves."

The Haoyue Wolf Clan and the Moon-Erosion Wolf Clan were two of the three supreme bloodlines of the wolf clan. According to legend, they were both descendants of the ancient beast, the Sun Moon Wolf, and each inherited half of its power.

The Haotian Wolf Clan and the Eclipse Moon Wolf Clan were the most famous Demon Race's individuals. Their strength was great, and their numbers were numerous. They had a great reputation, making other races fear them.

At this moment, among the pack of little golden wolves, there was an especially different wolf that was standing on top of another wolf pack, looking down at the Nine Tailed Heavenly Fox from above.

These two were obviously the wolf lords.

The Haotian Wolf Chief asked, "Nine-tailed Sky Fox, why have you come looking for us?"

Ruo Ruo calmed down and said, "Wolf owners, I came this time to ask you to help my Nine Tailed Sky Fox with a small favor. To thank you, we will reward you accordingly."

The wolf master of the Moon-Devouring Wolf tribe was a female. She laughed softly and said, "You, Nine Tailed Heavenly Fox, what can you take out that would make us be tempted?"

Ruo Zhi Lan quickly replied, "ing to the two wolf lords, it is not a big deal. We just want to borrow their power in the Brilliant Stars to help us find a young demon clan member. However, the Nine Tailed Heavenly Fox will still offer a set of three hundred Dao Inscriptions as thanks. "

Three hundred dao tools were already very precious, but these two wolf lords only needed to use a little of their power.

The two wolf lords immediately lost their interest. The Golden Wolf said, "Ruo Ruo, you are too boring. You came to bother us with such a small matter. Just tell the people below to do it, and ask the Golden War God clan to help as well "

Luo Zhi Lan gritted her teeth and said: "This young demon had offended us, the Nine-tailed Sky Fox, and escaped to the chaotic star field. This is a huge blow to our Nine-tailed Sky Fox, so this is a huge matter for us.

"Can't you thank me enough?" The two Wolf Masters looked at each other.

To them, a Dao Artifact with three hundred dao patterns was simply nothing. However, if they could receive a favor from the Nine-tailed Sky Fox, that would also be very good. After all, the Nine-tailed Sky Fox also had a Seven Star tribulation of reincarnation expert, which was not considered weak.

That Lunar Eclipse Wolf turned and said: "Tell us the reason why you didn't do anything. We don't want to offend others."

They were still very careful.

This was the wolf clan's usual style.

At first, Zilan didn't want to say too much, but if she wanted to get their help, there was nothing she could do. Without the two wolf packs' power, it would be difficult for them to move an inch within the Brilliant Stars.

Thus, if Chi Lan told the two wolf lords everything that happened with Mo Xiaolang, that included news that Mo Xiaolang had very possibly become a devil, then everything that happened with Mo Xiaolang completely attracted the attention of the two wolf lords.

After talking for a while, Ruo Lin finally finished talking. He asked, "What do you two think? If the two of you are able to help my Nine Tailed Heavenly Fox, then I, the Nine Tailed Heavenly Fox, will not hesitate to help you two in the future if you have any instructions. "

Powerful races would not reject the effectiveness of others.

After the two Wolf Lords heard this, they looked at each other, and the Haotian Wolf Lord decided: "If there is such a problem, we should get rid of it, so as to avoid tarnishing our wolf clan's reputation, if it is Zilan, we will help you with this matter, but as for the 300 Dao Inscriptions, forget about them, you can leave first. According to our agreement with the Golden War God Tribe, you should leave the Brilliant Stars as soon as possible. If there is any news, I will naturally inform you with my Star Talisman."

Ruo Luo finally breathed a sigh of relief. He sincerely said, "Thank you so much. I will take my leave first."

With that, he left the space.

"This little fellow, how did he know that my demon clan also has its own force in the chaotic star field! With their help, even if you escape to the ends of the earth, you will not be able to escape from the palms of my Nine-tailed Sky Fox.

Whether it was the death of a Five Elements tribulation of reincarnation martial practitioner or the disappearance of the Heavenly Fox's demonic fire, both were a huge blow to the Nine Tailed Heavenly Fox. The Nine Tailed Heavenly Fox had no face to see anyone.

After Zilan left, the Haotian Wolf Clan and Moon-Erosion Wolf Tribe began to gloomily laugh. In the middle of the golden sun and silver moon, the two Wolf Masters were talking.

"This guy really gave us a huge piece of good news," the Haotian Wolf pack said.

"You're right, a wolf that has been possessed?" Not even a thousand years old, or even less than a hundred years old. To be able to kill a practitioner of the Five Elements tribulation of reincarnation, and even become stronger by consuming flames, and not even having to go through a tribulation of reincarnation, isn't this kind of wolf tribe something that we need? "

The master of the Eclipse Wolf tribe chuckled, she was extremely cold.

The Haotian Wolf Clan member said, "This young man is an anomaly in our wolf clan. He has even become a demon. I want to see how terrifying he really is. If this kind of child is used properly, it will create a terrifying amount of value. Fortunately, he was not killed by those idiots, the Nine-tailed Sky Fox, and even escaped to the resplendent stars. We need to use all of our strength to search for this child. "

The Moon-Corroding Wolf Tribe sneered, "That's right, a genius of our Wolf Tribe, although he has been possessed, he is not a person whose life is in the hands of the Nine-tailed Heavenly Fox. I want to see what it means to be bedeviled. Even if I am bewitched, I am not afraid. I can make this child yield! "

Of course they wouldn't give Mo Xiaolang to the Nine-tailed Sky Fox.

Chapter 1986 - Fate

The pitiful Nine-tailed Sky Fox really thought that the two wolf lords of the wolf clan's supreme bloodline would help them.

To the two Wolf Masters, Mo Xiaolang was a miracle and a miracle. As for the matter of becoming a demon, they did not value it because they were not afraid.

"To be able to swallow the flames and level up, there's no tribulation of reincarnation? If it truly is that heaven-defying, as long as this child can grow up, it will definitely become a legend of our Wolf Tribe. Since he can defeat the warriors of the five element tribulation of reincarnation, at least for now, it will be of great use to us.

The Haotian Wolf pack began to give the order.

Right at this moment, the sound of grinding steel suddenly sounded from within the endless black abyss.

The Haoyue Wolf Tribe and the Moon-Eclipsing Wolf Tribe all quieted down.

The endless darkness began to emit such a terrifying sound, and a huge golden object stood up in the darkness, faintly discernible. The golden steel was very ancient, and there were strange symbols from ancient times on it, gently twisting and turning.

The two Wolf Lords stared at the steel that had awakened in the darkness.

"Old friends of the Allies, what is the good thing for you to wake me up together?" Suddenly, a robotic and cold voice was emitted from the enormous metal object. That voice was especially ear-piercing. Other than the two Wolf Masters, the rest of the wolf tribe members were all howling as they protected themselves with the golden and silver brilliance.

"Of course it's a good thing. If it's true, we have a 100% chance of winning the first battle of the Star Lord's Hegemony."

"Oh?" The huge steel machine was very curious. It asked, "What kind of existence could give you such confidence?"

"Don't worry about that. Be at ease and prepare for other battles. When you become the first Star Lord of the Golden War God Clan, our demon clan's power in the chaotic star field will be even greater. Our cooperation will be a win-win situation, so let's work hard together."

That steel machine used an emotionless mechanical voice and said, "The first battle between the Star Lords was a battle of geniuses. I believe the two of you have already found the Gold Wargod Clan's Allied Geniuses. Are they the young demi-humans with the three supreme bloodlines in your wolf clan?"

The two wolf lords looked at each other, and the Moon-Corroding Wolf Lord said, "You will know when we go and find him." Just focus on your cultivation and leave this genius battle to us, the wolf clan. "

Steel Machine replied: "Alright, I'll thank my two old friends first. I'll wait and see."

The Haotian Wolf Master said, "This time, no matter what kind of genius powerhouse the Illusory Immortal Clan send, even if I have to invite the number one genius of the human Five Dragon Cities over, I can still make them cry and return. This bright star belongs to the Golden War God Clan and the Demon Race! "

Steel Machinery said, "Of course, you shouldn't underestimate the Nightmare Race. After all, their allied forces are the overlords of the chaotic star field — — the Chaos royal clan. The Lifestyle Race remained silent throughout the year. The Dragon Fighter of the Heavenly Dragon Star never took charge of things, and this Chaos royal clan is just around the corner.

The mechanical sound reverberated in this dark space.

There were hundreds of thousands of creatures living on this vast prairie. Most of them had migrated to their hometown after it had been taken over. For example, the Jade Grass Clan, the Luan Tree Clan and the Rock Clan. Although the Rock Clan was powerful, they were too few in number, with less than two hundred people in the entire grassland.

Over the years, they had migrated to countless homes, and in the end, they settled down in this vast grassland that no one cared about. They did not fight, and only lived together harmoniously and happily, because no one cared about this grassland.

He had many friends, and this kind of life made him feel incomparably relaxed and happy. He liked everyone here, they were so free and pure, their souls seemed to not have any magazines.

Mo Xiaolang could call out the names of many people, and the green grass that the outside world was extremely curious about was following by his side everyday, allowing Mo Xiaolang to narrate the stories of the outside world. In reality, Mo Xiaolang did not know much either.

He began to indulge in this life as the martial magic seed gradually disappeared from his entire body, never to be found again. Even Mo Xiaolang himself had forgotten about it.

"wolf cub, quickly tell me, is your big brother Dragon Fighter powerful? Or are you powerful?" Greengrass and a few of his good brothers looked eagerly at Mo Xiaolang, waiting for his reply.

They longed for strong rankers, they had heard their elders say that Mo Xiaolang might be very strong, so they would ask similar questions everyday.

Mo Xiaolang happily replied them. He did not say who was stronger, there was no meaning in that, he just modified them a little and told them about their journey.

The green grass remembered every single word he said, and its expression was extremely serious.

After a while, they were playing by the side. Mo Xiaolang was lying on the vast grassland, surrounded by laughter and laughter, but his brows were knitted slightly. He recalled the conversation between him and Qing Yao a few days ago.

On that day, the green grass had a sorrowful expression as it looked at the boundless grassland. "I like this place too much. I was born here, and this is my home. I feel that this place is incredibly happy."

They did live easily.

However, he was still sad and said, "If only there wasn't so much desire in this world. Everyone is happily together, just like all our friends on the prairie. "

Mo Xiaolang saw that his expression was bitter and asked: "Did something happen?"

The green grass swayed her thin neck, looked at Mo Xiaolang, and said: "You didn't know? "The battle for supremacy for the position of Star Lord is about to begin. A year from now, there will be an absolute power of the Star Lord, and the free, resplendent star will soon be ruled by them."

He had chosen to come to the resplendent star, not the Asura Star or the Rakshasi Star, precisely because there was no Star Lord here. If he had known in advance, he wouldn't have come here to join in on the fun.

Qing Zhi lowered his head, playing with the grass on the ground, and choked with sobs: "My mother said, if the Brilliant Stars have a Star Lord, then everyone must live under his rule and listen to his commands, and at that time we will all lose our freedom in the Great Prairie, and our Jade Grass Clan's gifts are too low, if the Star Lord is not satisfied with us, then it is very likely that he will expel us all from the Brilliant Stars, or even kill us all, because weak races will be looked down on by people and be looked down on by people. but we were born weak. "

The young him was filled with bewilderment and couldn't help but shed tears. Mo Xiaolang didn't know how he should console him;

Green Grass crawled on the ground and kissed the ground. He said softly, "I love this place, I have never left this place, I am afraid to go anywhere else, afraid to go wandering, I heard from my elders that it was very difficult for us to reach tens of thousands of people, if we go wandering in the stars, we are too weak, no one will accept us, at that time, it is very likely that all of us will die in the stars. If there really is a Star Lord, we can only pray that this Star Lord does not despise us too much and will allow us to live on this grassland."

His shoulders trembled as he said, "But, this is only one percent possible. Our Jadegrass tribe and all the other weak races will not be able to escape the fate of death."

He was still very young, but was actually so sensitive to this situation, and so powerless at the same time. From this blade of grass, Mo Xiaolang felt a kind of sorrow for the weak, they were only born weak, and were destined to never have the chance to become strong, just like the Long Chen before the age of sixteen.

That period of time was undoubtedly the hardest to bear.

Only Mo Xiaolang felt very uncomfortable in his heart. He always felt that he should do something for this new companion of his on the grassland, and not leave immediately after realizing that trouble was about to befall him.

Mo Xiaolang suddenly thought of a word, which was fate.

He stood up and rushed into the clouds, looking down upon this land. He saw countless weak races playing merrily on this plain, while those powerful individuals fought endlessly for the sake of their desire.

This peaceful moment was like a poison, attracting his feet and preventing him from leaving the resplendent stars.

He returned safely to the grassland.

"wolf cub, do you like it here?" Su Yan sat on the shoulders of a member of the Cliff Race. That Cliff Race looked like a big round boulder, with a simple and honest personality. They were also kids, but when they saw Mo Xiaolang, they became a little nervous and kept laughing.

"I like it." Mo Xiaolang was infected by her smile.

"Then we'll stay here forever, with the green grass and little Yuan Yuan." Su Yan said happily.

"I'm not Little Yuan Yuan, my name is Ma Ke." The Cliff Race defended themselves.

"But I think Little Yuan is cuter." Su Yan said while grinning.

Logic told him that the war for the Star Lord position would very likely affect him, but he was unable to give in to reason. Deep in his bones, he felt that this place was filled with beautiful things, just like Su Yan's smile.

Therefore, he had to protect this place.

At the same time, Long Chen had already reached part of the Central Star Region. As long as he travelled a bit longer, he would be able to see the incomparably resplendent stars in the starry sky.

Chapter 1987 - Devouring Demon

In the center of chaotic star field, was a vast expanse of land.

Long Chen looked over, the stars that were as bright as gems were extremely obvious, they were the most outer star of chaotic star field. Mo Xiaolang ended up here.

This was also Long Chen's destination.

After the chaotic star field, there were still six or seven stars that could be seen temporarily. As for the Primal Chaos Emperor and Star of Destiny, these stars, because they were too far away and weren't really that big of a size, could not be seen at the moment.

The devil star was the core of the chaotic star field, and the entire chaotic star field was even revolving around the devil star.

After resting for a while, just as he was about to set out again, Long Chen discovered something unexpected. He looked towards the direction of the bright stars, and studied there for a while, and asked: "Xiao Xi, do you feel that these super planets are about to form a straight line?"

Ling Xi curiously looked at it and said with a hint of surprise and joy, "Indeed, it has almost formed a straight line. I just don't know if the Primal Chaos Emperor, Star of Destiny, and Heavenly Dragon Star, are also on this straight line."

Long Chen had asked around about everything in the central core region from the Luan Tree Clan. The current him had a general idea of the power branches in the central region, and knew that 5 of the super planets did not have masters, and the Primal Chaos Emperor Star, Star of Destiny, Luo Sha Star and the Asura Star were respectively occupied by the Chaos royal clan, Life Clan, Luo Sha Clan and Asura God Clan who were related to the Yaksha Clan. There were four planets on these four super planets, and Sky Dragon Star, which was located in the deepest part of the planet, was occupied by a group of Dragon Fighter that were exiled by the Five Dragon Cities.

This was the first time Long Chen heard of the Heavenly Dragon Star, and was very surprised, he never thought that the chaotic star field would have so many Dragon Fighter s, and they were even exiled by the Five Dragon Cities, this group of Dragon Tribes were very mysterious, the Luan Tree Clan did not know much, and it seemed like at some point in time they had already quietly arrived there. They were extremely powerful, and the Yaksha Clan was destroyed by the group of Dragon Fighter s.

"Since it's the Dragon race that was exiled from Five Dragon Cities, then it should be around the same level as the Five Dragon Cities. My current strength is insufficient for me to uphold my father's honor, so it's better for me to not provoke these proud Dragon races."

Hearing what the Luan Tree Clan said, Long Chen could feel that this group of Dragon Fighter was very proud and aloof. They should still be considered part of the Five Dragon Cities, and up until now, Long Chen's relationship with the Five Dragon Cities was still quite troublesome.

Therefore, he had temporarily ignored the news about Sky Dragon Star, but if there was a chance in the future, he would definitely take a look.

"If the 10 super planets joined together into a single line, plus the demon star system, I wonder what kind of strange phenomenon would happen?"

Ling Xi blinked her bright eyes and guessed softly.

Long Chen laughed: "Who knows? Let's just wait and see. For us, the most important thing right now is to find a place to stay in the resplendent stars and then wander around here! "

The passionate life had begun again!

hot-blooded, battling, chasing, and becoming stronger, all of these were things that Long Chen liked to do.

Together with Ling Xi, the two of them rushed towards the Starry Gem, the Brilliant Stars.

At the same time, on the other side of the resplendent star, there was a beautiful woman with long blue hair and blue eyes. Her figure was graceful and full of allure, and she could make any man go crazy for her.

Her face was exquisite and delicate, fair and delicate. No matter if it was her eyes, nose, or pink lips, they were all perfect. Her hot figure, and her perky, round buttocks, all gave off an alluring aura.

She was a ghostly woman.

If Long Chen saw her, he would definitely be able to recognize her as the woman from the Spirit of Life race. After leaving Long Chen, she would return to the Immortal God Realm, and chaotic star field was the place where these small races lived.

However, compared to before, this blue-haired woman was much different. She was still as charming as ever, but there was a black abyss hidden deep within her watery blue eyes. Only by looking deeply into her eyes could one feel the terror in the deepest depths.

She lightly raised her finger and her bright red lips slightly lifted, revealing a charming smile. She softly muttered to herself, "It's here?"

When she said 'it', the blue haired woman's eyes revealed extreme excitement. She used her pink, moist tongue to lightly lick her lips and charmingly said, "The Demon Masters guessed correctly, he is the Devouring Demon! "This is our oddity, and also our hope. I must find it! This is the only chance for us free people to be free! I absolutely cannot fail!"

She had made sufficient preparations for this mission.

"The devils have already been imprisoned for too long, they can't be prisoners anymore. This world lives under the extremely heavy rules of the Heavenly Dao, which limits the possibility for living beings to

evolve into deities. They want to save the world, and they want this destroyed Dragon Sacrifice Continent to regain its vitality."

Such an important mission made the blue-haired woman tremble with excitement.

"Devouring Demon Swallowing Demon, I'm coming!"

Her eyes were filled with excitement as she pounced towards the gigantic, resplendent star.

The planet in front of her was growing larger and larger, until it became a whole world in front of her eyes. Speaking of devouring devils, the blue-haired woman was actually extremely curious, she still remembered her two small opponents in Dragon Sacrifice Continent, the two who almost killed her.

One of the two was a wolf. It could actually devour flames to enhance itself. This method was quite heaven-defying. Of course, it was impossible for the wolf to become a demon, so she was very curious about this new demon, and the one that was responsible for saving the lives of the people.

"What kind of guy is he?"

The blue haired woman thought as she rushed into the middle of the stars, faster than Long Chen by a lot.

Heavenly Dragon Star.

To all those who were not Dragon Fighter, Heavenly Dragon Star was undoubtedly a terrifying place, because that was the Five Dragon Cities's banished land. Those who dared to defy the, this kind of peak power, actually had a rather bad temper, because as long as someone sneakily ran into Heavenly Dragon Star without having eyes, they would be caught, imprisoned at least for the rest of their lives, and at the very least, killed on the spot.

As for people like the Yaksha Clan, they were practically exterminated.

As such, up till today, there was almost no one who came to Sky Dragon Star.

In the air above Sky Dragon Star, there was a huge black whirlpool, almost like a mouth, within it were countless people screaming in madness.

Those wails and howls were something that the divine dragons were used to hearing.

There had never been such a grand occasion on Sky Dragon Star.

In the midst of the endless black mountains, there was a group of dragons dancing in the air. All of the Divine Dragons on Sky Dragon Star numbered close to a hundred thousand, but these hundred thousand Divine Dragons were all flying towards that black mountain. Every Divine Dragon had an excited expression on their faces, so much so that they were speechless.

Their eyes were burning with passion as they stared in the direction of the black mountain.

There was a straight black peak that soared into the clouds, shrouded in clouds.

The black gas surrounded them.

At this moment, everyone had gathered together. They were gathered in the middle of the black mountain, and then, they took on the human form. Nearly a hundred thousand Dragon Fighter were half-kneeling on the ground in the middle of the mountain, their eyes devout as they stared at the lone mountain.

Amongst these one hundred thousand Dragon Fighter, there were even some that had exceeded Seven Star tribulation of reincarnation and Spirit Realm. Those were people that truly stood at the peak of the Immortal God Realm.

But at this very moment, such a person led a hundred thousand dragons and half-knelt before the lone peak.

Everyone could see a person standing on the peak. That person wore a black-coloured long robe, and even his head was enveloped within it. Strong gales surged, and his robe fluttered.

Under the lead of the strongest person in the world, all the divine dragons knelt down towards the black figure. They were very quiet, but they could not suppress the excitement in their hearts. Was this terrifyingly strong Divine Dragon army going to start a new style?

When they thought that the waiting had finally ended, all the divine dragons were extremely excited.

"Welcome back Eternal Dragon Emperor!"

The leader was a Ultimate Dragon, and there were countless experts in the world. He knelt on the ground.

The other divine dragons echoed and knelt on the ground.

The king of the lone mountain didn't move at all. He was looking at this vast land without saying a word for a long time. As for the divine dragons, they also maintained their kneeling positions, not moving at all.

Finally, the man on the lone peak spoke.

He spoke in a very ordinary and gentle voice, "Our goal is the resplendent stars."

All the Divine Dragons raised their heads. They naturally did not know what to do with the resplendent stars. However, they would not act excessively, because in their hearts, this man's decision would never be wrong.

"Yes sir!"

All the divine dragons nodded.

On top of the lone mountain, a man looked down at all the living things in the world, and said once again, "The day where ten stars are linked together is about to descend. When that time comes, the heavens and earth will give birth to an unprecedented treasure, something that belongs to our dragon race. There's not much time left, we have to get it. "

This news deeply shocked all the divine dragons. Of course they knew that the Ten Star Linked Pearl's day was very special, but they didn't know that the Eternal Dragon Emperor would give such a high evaluation of it. The first thing he did after returning was actually for the Ten Star Linked Pearl's day?

But no matter what, they would only follow him. The person in front of them possessed unrivaled intelligence. He didn't need to question or doubt, he only needed to obey.

Everyone was thinking, if I go to the resplendent stars, does that mean that the so-called Dragon Clan's great treasure will appear in the resplendent stars?

No one asked.

They naturally did not know that Long Chen was also on the resplendent star.

Chapter 1988 - The Great Wolf Race

Time passed day by day, and Mo Xiaolang lived an extremely comfortable life on this vast prairie.

The prairie was cool and breezy, and the climate pleasant.

Most of the races on these plains knew Mo Xiaolang. After all, he was a demon, and he often helped others.

Mo Xiaolang had completely blended into the life here, carefree and carefree. Sometimes he would even think that he might just stay here for the rest of his life.

Although the Star Lord Battle was going on here, at least for now, there were no signs of movement.

Mo Xiaolang had once asked before, there were a total of three races that had the qualification to participate in the Star Lord's War, one of which was the Great Tyrant of the Bright Star, one of which was the Illusory Immortal Clan. The Illusory Immortal Clan had a very long history, and it was said that they had once been the masters of the brilliant stars, and at that time, the brilliant stars were known as the Illusory Star, and after the death of the Illusory Immortal Clan's Star Lord, the Star Lord died, the

Illusory Star might change generations, but until now, no one had been able to control over this place again.

The Illusory Immortal Clan was extremely famous in the chaotic star field, and the warriors of the clan were similar to the human spirit race. They were extremely proficient in illusion techniques, almost invincible in this field, and there were rumors saying that the Illusory Immortal Clan was one of the Spiritual Race. The Illusory Immortal Clan was terrifyingly strong, but the strangest thing was that every time they were born, they would have a Smoke Cloud Beast accompanying them, and every Illusory Immortal Clan had a Smoke Cloud Beast by their side. Although Mo Xiaolang had never seen them before, but he had heard of them before.

Other than the Illusory Immortal Clan, there was another giant being on the bright stars, and that was the Golden War God Clan!

The gold war god race was an extremely terrifying battle race in space. Originally, they didn't belong to the Brilliant Stars, but they came to the Brilliant Stars within tens of thousands of years. However, the gold war god race was very powerful, after a short while, they already developed enough strength to contend with the Illusory Immortal Clan.

The Golden War God Clan was an iron clan, all of their members were made of iron, a rare steel life form, it was especially similar to the Octopus that Long Chen had fought before. Their bodies were comparable to the toughest of Dao weapons, and their lethality was extremely strong. If it weren't for the fact that the Illusory Immortal Clan was proficient in illusions and could target them, this resplendent star would have belonged to the Golden War God Clan long ago.

This Star Lord Battle was a battle between the traditional Illusory Immortal Clan and the Golden War God Clan, but there was another side that was qualified to participate in the Star Lord Battle, and that was the Nightmare Race. The Nightmare Race was an ancient race on resplendent planets, and even before the appearance of the Illusory Immortal Clan's Star Lord, they had been fighting against the Illusory Immortal Clan.

The Nightmare Race's body was very small, not even half a meter long, and they had a black head with a goat's horn protruding from its head. The upper half of the head and two arms, and the lower half of the body was made up of black clouds.

Whether it was the Illusory Immortal Clan or the Golden War God Clan, both were in fact brutal powerhouses. No matter which of them's strongest warriors became the Star Lord, it was not a good thing for the residents of the prairie.

Seeing that the Star Lord Battle was getting closer and closer, the residents of the prairie became more and more worried. The green grass that had been glued to Mo Xiaolang also became quieter.

Mo Xiaolang decided that if he had the ability at that time, he could help them a little.

In order to make everyone forget their worries and be happy, the residents of the prairie gathered together and began to perform. As they watched those strange races perform funnily in front of the crowd, everyone laughed happily.

"wolf cub, we're coming too!"

Su Yan held his hand, and walked to the center of the encirclement of over a thousand people, where everyone started shouting. Su Yan's face turned slightly red, but she was still very bold, and continued to lead Mo Xiaolang, dancing in front of everyone.

His embarrassed appearance caused the people on the prairie to roar with laughter.

This joyous gathering attracted more and more people to attend. People from all over the world quickly became friends here, and because of Mo Xiaolang's special circumstances, many people also chatted with him.

"Little brother, are you from the Immortal God Realm, Demon God Area?"

Mo Xiaolang nodded, shook his head, and said: "No, it's in an even further place."

"Oh!"

Everyone nodded.

When this gathering was about to end, Mo Xiaolang felt a chill run down his spine, he felt a sense of deadly crisis. After coming to this resplendent star, he had never felt such a degree of danger before.

Su Yan also nervously stood up, and asked, "wolf cub, what's wrong?"

The surrounding people looked at each other, not knowing why Mo Xiaolang would suddenly undergo such a change.

"Let's go."

With a heavy face, he pulled Su Yan and rushed out of the crowd, leaving thousands of people behind who were incomparably shocked. Looking at Mo Xiaolang blankly, some of the green grasses seemed to be very blurry as they also ran over with Mo Xiaolang.

However, he had not gone far, so Mo Xiaolang could only stop in his tracks helplessly. He was being watched, although he did not know who, but he himself could not implicate his friends in the grasslands, thus, Mo Xiaolang quickly told them: "You guys hurry up and leave, I have something to take care of."

He only looked at Mo Xiaolang worriedly. The others also moved closer and surrounded Bluegrass from behind.

"wolf cub, what's going on?" Bluegrass asked nervously.

Right at this moment, the entire world seemed to have suddenly changed. Mo Xiaolang looked around him in alarm, and very quickly, a strange phenomenon appeared in the sky above him. The space above him twisted, and a golden light suddenly appeared.

At the top right, a silver moon appeared, emitting a large amount of cold air that instantly occupied half of the sky, opposing the golden sun on the left from afar. When the two forces combined, it produced a terrifying impact, and those weak races on the grassland were the first to bear the brunt.

"Don't hurt them!"

Mo Xiaolang clenched his teeth, roared, and instantly gathered his courage in the gale, dispersing the scorching sun and cold air around him. He was about to transform into a beast to protect them, but fortunately for him, he did not seem to have any intent to kill.

The grassland had finally returned to normal.

However, even though it was timely, there were still large areas of grass surrounding the area, turning it into a pitch-black land.

They felt a deep fear and for a moment, a large majority of them wasted their energy in fleeing. There were still more than a thousand people left who were worried about Mo Xiaolang's safety and did not leave immediately.

Their lives were simply too fragile, so Mo Xiaolang could not implicate them. He said in a stern voice, "This is my personal matter, you all go first, you are too weak, if you are affected by it, there will be only death."

He was usually very amiable, rarely being this serious.

Hearing his words, although everyone was reluctant, their fear still prevailed. They listened to Mo Xiaolang and started to escape, but as for Qing Yao and Little Yuan, they were still worried about Mo Xiaolang and didn't want to leave, so they allowed their parents to drag them away.

This was because their parents knew what these experts meant to them. Even if they were to casually blow the wind, they would still be able to annihilate the races of the plains. The disparity between strength and weakness was always like this, making one feel despair.

"It seems that you are a good person who loves to protect the weak."

Suddenly, a wonderful sound came from the silver moon.

Mo Xiaolang looked over, only to see dozens of silver demon wolves crawling out from the silver moon, crawling in the silver cold mist. A mature and charming woman who was dressed in revealing clothes and only wore bright silver armor, covering most of her vital parts and revealing a large portion of her snow-white skin, walked out from the silver moon. The silver wolves had constructed a silver, comfortable reclining chair behind her, allowing her to lean lightly on it.

On the other side, dozens of golden colored demon wolves walked out from the golden sun. The demon wolves had golden flames on their bodies, and a not very tall, muscular and strong blond man walked out from the golden sun.

Regardless of whether it was the golden wolf pack or the silver wolf pack, regardless of whether it was the golden haired man or the silver armored woman, they were both extremely terrifying.

The golden-haired man looked Mo Xiaolang up and down with his burning golden eyes, and said in a deep voice, "Child, you are the person we are looking for. "Don't worry, we won't hurt you."

Although she said that, Mo Xiaolang did not dare to let his guard down.

He protected Su Yan and asked solemnly: "You two are looking for me, do you have any instructions?"

Within the resplendent stars, it was beyond Mo Xiaolang's expectations to be able to see the wolf tribe within the demons. He never would have thought that there would be a demon race expert here. He thought about it for a moment, if these two ridiculously powerful wolf races interacted with the Nine Tailed Heavenly Fox, then wouldn't he be in trouble today?

Thus, his mood was extremely heavy.

Seeing how nervous he was, the silver-armored woman chuckled and said, "Let's introduce ourselves first." We are one of the three great bloodlines of the wolf clan, the Moon-Eclipsing Wolf Clan, and I am a Wolf King of the Moon-Eclipsing Wolf Clan. "

Those silver demonic wolves that she sat on were in fact her clansmen.

Chapter 1989 - The Battle of the Three Wolves

On the left, the golden man was still speaking in a low voice. Flames flickered in his eyes as he said, "We are also of the three supreme bloodlines of the wolf clan. As a member of the wolf clan, you naturally know what a Paragon's bloodline means. Originally, the normal wolf clan's sword would have to kneel before the supreme wolf clan, but today, I can exempt you from this kind of etiquette. "

When they were speaking, they had actually been observing Mo Xiaolang the entire time.

Mo Xiaolang had heard of the Wolf Clan's Supreme Bloodline. The Goblin Tribe, who were usually called the Supreme Bloodline, were all terrifying. They had the noble lineage of the Nine Tailed Heavenly Fox, but still did not have the qualifications to become a Sovereign Bloodline.

Within the territory of the wolf clan, the three great bloodlines were the absolute rulers, lofty and exalted.

For example, the Haotian and Moon-Eclipsing Wolf clans had been inherited from the Primordial Divine Beast, the Sun Moon Divine Wolf.

However, they seemed to know him. Why would they come to him?

Mo Xiaolang said in a calm voice, raising his own doubt, and asked: "Junior Mo Xiaolang, has seen the two wolf lords, and would like to know why the two wolf lords are personally looking for me today?"

Fortunately, for the time being, they didn't seem to have any great malice towards him.

Only, Mo Xiaolang could not see through them.

The Clear Sun Wolf Lord's expression was majestic and domineering, while the Moon-Devouring Wolf Lord was devilishly alluring, making it even more difficult to see through him.

It should be a preliminary confirmation of Mo Xiaolang's ability, so we can begin to move. "Wolf Lord Haotian stared at Mo Xiaolang with his pair of golden fire eyes, and said word by word," We, the two Wolf Lords, are the allies of the resplendent Starry Gold War God Tribe. We were sent by the Demon race to assist the Golden War God Clan in their fight for the Star Lord's position. The six tribulation of reincarnation warriors of the Nine Tailed Heavenly Fox came to our door to look for us, wanting to borrow our power to get us to help search for you. They are willing to repay us with their three hundred Dao Veins, so I agree. "

If it was an ordinary person, they would have already been scared witless by the Haotian Wolf Master. When Mo Xiaolang heard about the Nine Tailed Heavenly Fox, he knew that he was probably done for.

Therefore, it was impossible for him to know that there were Monster race members here.

However, he heard something else from Lord Hao Ri's words.

"How precious are the identities of these two wolf lords? If it was just to capture me, they wouldn't need to come personally to hand me over to the people of the Nine Tailed Heavenly Fox, and the Nine Tailed Heavenly Fox definitely doesn't have that much face. Then, since they were here personally, they must have had some sort of motive for talking with me for such a long time."

Although he had other plans, he wouldn't at least hand Mo Xiaolang over to the Nine-tailed Sky Fox.

Therefore, Mo Xiaolang was not flustered.

At this time, the Moon-Devouring Wolf Lord suddenly laughed, and said: "Truly a clever child, you know that we won't give you to the Nine Tailed Heavenly Fox right? But I want to tell you, you guessed wrong. If we find that you are unable to satisfy our needs, we will of course give you to the Nine Tailed Heavenly Fox in exchange for a favor. "

Even though Mo Xiaolang did not speak, he knew in his heart that the two wolf lords wanted him to accomplish something. They must have known that he was being affected by the martial magic seed, but they did not care at all.

"Big brother, I originally thought that I would be free after arriving at the chaotic star field, but fate will make a fool of me. I feel that there are still loopholes in the safest place, if it's the Nine Tailed Heavenly Fox, no matter how long I searched, it would be impossible to find me here. Moreover, these two wolf lords are deeply rooted in the resplendent stars, and they have the help of the Gold War God Clan.

Sometimes, fate was like this. No matter how hard he tried to dodge it, he couldn't avoid it. His life was a fight, so he couldn't escape it.

Speaking to this point, Mo Xiaolang knew that the other party would definitely give him a test.

He raised his head and asked in a neither humble nor haughty manner, "May I ask, two wolflords, what exactly do I need to do for you?"

The Mighty Sun Wolf's face was expressionless as he said, "This will happen in the future. You must first pass our test before you have the qualification to continue living. What we want is the world's most terrifying genius, the most invincible genius, not just trash. Do you think that you are invincible among your peers? "

Mo Xiaolang did not dare to answer this question.

Amongst everyone of the same generation, he was considered an anomaly because he no longer had the tribulation of reincarnation.

However, he was certain that, in terms of battle, among his peers, there weren't many who could stand shoulder to shoulder with him.

Seeing that Mo Xiaolang did not answer, the Mighty Sun Wolf was expressionless. He extended a finger shrouded in golden flames and pointed at a golden little wolf, which immediately ignited a golden flame in its eyes. With a howl, it jumped down from the golden sun and instantly, all the flowers and plants within a thousand meters of it turned into ashes in an instant and were blown away by the fierce wind.

On the other side, the Moon-Devouring Wolf King also signaled to a silver wolf cub. That Moon-Devouring Wolf Clan member also jumped down from the silver moon. After landing on the ground, its area was frozen over a thousand meters in radius.

Mo Xiaolang stood in the center of the encirclement.

A Haotian Wolf Clan and an Eclipse Moon Wolf Clan stepped forward, staring at Mo Xiaolang with their golden and silver eyes, filled with a murderous aura.

"If you are able to defeat these two wolf brothers, then even if you pass the test, we will absolutely not let the Nine Tailed Heavenly Fox know of your existence in the Brilliant Stars."

This test wasn't too troublesome, but the opponent had the bloodline of a Martial Saint, and there were two of them in total. Obviously, they were difficult to deal with. The level that the two wolf lords set up for Mo Xiaolang had almost reached Mo Xiaolang's limit.

The problem was that he was worried about Su Yan.

"If I do not defeat these two wolf tribe members, it will be the fate of death for me. I have no value in their eyes. As the Wolf Lord, they look down on the entire world. If they really need my help, they shouldn't treat me too badly, I hope they won't go overboard! "

Mo Xiaolang quickly firmed his heart.

He knew that when fate couldn't change, he should have no fear. If he kept walking, then those who cared about him would not have let their care for him go to waste.

His opponents were all at the late stage of the Four Symbols tribulation of reincarnation, but because they all had the bloodline of Zhi Zun, they should be stronger than the Nine-tailed Sky Fox's level of demon clan. Furthermore, if he were to take on two of them at once, Mo Xiaolang would not dare to relax.

"Be at ease and show your worth. We won't make things difficult for you. As for the person beside you, is that your little lover? In order for you to fight in peace, I can protect her. "

The crescent wolf leader laughed tenderly and waved his hand. A silver moon surrounded Su Yan, and although Mo Xiaolang was originally protecting her, he was pushed aside by the power of the silver moon. He was so shocked that he resisted with all his strength, but was still unable to save Su Yan.

"wolf cub, I'm fine. I have to win."

Su Yan was trapped in the silver moon, but she was not flustered. The silver moon mainly separated Mo Xiaolang from her, and did not have any intention of tormenting Su Yan, under the control of the Moon-Devouring Wolf Lord, the moon that surrounded Su Yan arrived at her side. She gave an ambiguous smile: "The love between youngsters truly makes people envious, don't worry, as long as you can pass through our test, we won't make things difficult for you."

At most, it was only used as a bargaining chip. Just in case, the wolf clan had always been cautious in their actions, and even though the Moon Corrosion Wolf Lord was stronger, he did not underestimate Mo Xiaolang.

Mo Xiaolang took a deep breath!

He knew what he had to do.

"Kid, your opponent is us!"

The Shadowless Wolves shrouded in golden flames were just like their wolf lords. They were arrogant and domineering, their bodies burning with incomparable heat.

"That's right. What we want to test is whether or not you killing a practitioner of the Five Elements tribulation of reincarnation is right."

The Moon-Corroding Wolf Tribe replied from behind Mo Xiaolang.

In terms of age, they could be considered Mo Xiaolang's seniors. However, by the standards of the Immortal God Realm, they could only be considered youths. However, they had indeed slightly surpassed the age of one of the Star Lord Battle of Geniuses.

Of course, they were only at the late stage of Four Symbols tribulation of reincarnation. Amongst the pack of wolves with two supreme bloodlines, their strength could be considered to be slightly weaker.

Mo Xiaolang became quiet.

The other party's intention was to engage in a wolf-shaped battle, while maintaining a smaller physique.

Mo Xiaolang crawled down and changed his body. He became a Sun Devouring Demonic Wolf with a similar body to the other party. Without a doubt, the Sun Devouring Demonic Wolf had undergone a great transformation and had become very shocking. In front of the two supreme wolf bloodlines, the current Sun Devouring Demonic Wolf was not the slightest bit weaker than the opponent.

"He possesses a talent not inferior to that of the Supreme Bloodline." The two wolf-lords looked at each other, but in reality, they were shocked.

In such a big wolf race, there had never been a fourth kind of Innate Elder bloodline before. It could only be said that although Mo Xiaolang did not have the Innate Sovereign bloodline, there was almost no difference.

It was even stronger!

Especially after Mo Xiaolang had revealed his Nine Hell Devil Ancestral Fire and that destructive devilish power! In front of the other two wolves, he had the absolute advantage.

Under the gazes of the wolf lords, the Haoyue Wolf Tribe and the Moon-Corroding Wolf Tribe immediately pounced towards Mo Xiaolang. Although their bodies were small at the moment, the commotion caused by their battle was almost no different.

But to Mo Xiaolang, this was just the beginning!

Su Yan is in her hands!

Just this matter alone was enough to make Mo Xiaolang go crazy. His long dormant fighting bloodline burned up, and that sinister face was just like Long Chen. Even before fighting, he had already felt a bloodline pressure, a type of fear!

Chapter 1990 - Sun Fall

To the races of the prairie, the Haotian Wolf Clan and the Moon-Eclipsing Wolf Clan were considered to be high and mighty gods. Any one of them could control the life and death of any living creature on the prairie.

Many people were unwilling to leave the homeland that they had built with great difficulty, but their lives were even more important. For example, Bluegrass and the others, who had interacted with Mo Xiaolang often, they were completely worried about Mo Xiaolang's safety, but they still allowed their parents to take them away.

That sorrowful boy looked at the distant scorching sun and the cold moon, his eyes filled with confusion.

What he did not know was that from today onwards, the entire chaotic star field would be in chaos.

Green Grass and the others had never seen such a fierce battle before. It was as if the heaven and earth were being torn apart. Black and gold flames soared into the sky, and as the silver streams of cold spread out, their power was also boundless.

Rumble rumble rumble!

The commotion caused Bluegrass to feel terror in his heart.

"wolf cub, you must survive!"

He clenched his fists and had his parents carry him away from his hometown.

Mo Xiaolang felt their distance, and he was extremely sorry. He was the one who caused them to be displaced, the weak could only flee for their lives, but he was also very angry, if not for the two noble wolves finding him, why would he implicate them?

Fighting was the easiest way to make him crazy, and that was his life! Of course, he was sure that the martial magic seed seemed to have disappeared, and he was also sure that he was awake.

To be honest, these two guys were especially hard to deal with.

Perhaps because of their Sovereign bloodline, although they were only at the late stage of the Four Symbols tribulation of reincarnation, their fighting strength had already neared the Five Elements tribulation of reincarnation. The two great wolf races had completely opposite attributes, but they were able to complement each other and they were well versed in teamwork.

This battle could be said to be extremely intense. The surrounding plains had already been turned into a wasteland.

"Although this wolf clan is not bad, but our Haotian Wolf clan and the Moon-Corroding Wolf Clan have teamed up in combat. They can even resist warriors of the Five Elements tribulation of reincarnation. It seems that he can't hold them off."

"Of course, since we have the supreme bloodline, we will definitely have many advantages. Of course, this wolf pack is also not bad. "He might have the potential to complete the mission."

The members of the two great noble wolves watched the battle and discussed it softly. The two great wolf lords, on the other hand, did not say a word.

"An ordinary wolf bloodline will never be able to defeat a Paragon bloodline!"

His body carried a large amount of flames, filling Mo Xiaolang's field of vision. On the other side, the Moon-Devouring Wolf tribe member rushed out from the darkness, the freezing cold air assaulted him, instantly attacking him with both heat and cold. It was the power of the sun and moon!

Weng! *

Sand flew wildly in the air as the Sun Devouring Demonic Wolf quickly retreated. From the start, his eyes did not reveal the slightest hint of fear, and although this battle had been going on for a period of time, seemingly because two large wolf races were suppressing him, in reality, everything was under Mo Xiaolang's control!

Wolf Head finally said, "If he doesn't perform well, then although he is not bad, it seems like there are some in our Haotian wolf pack who can replace him. This kid's value isn't that great."

In their eyes, there was no such thing as affection, only value.

Mo Xiaolang was not valuable enough, so they would treat it as a favor.

"Let's keep watching."

The Moon-Corroding Wolf said.

In truth, she was also a little disappointed. Looks like the matter of Mo Xiaolang defeating the Five Elements tribulation of reincarnation was made up by Zilan.

Su Yan pouted, she wanted to refute them, but she knew it was unnecessary, Mo Xiaolang would definitely prove it to them!

He was looking for the feeling of a battle!

He had been resting for a long time.

When he once again stepped onto the road of no return, causing his comrades to have no choice but to leave his hometown, when Su Yan was still under the other party's control, when he was no longer able to control his own destiny, the unwillingness and anger in his heart burned fiercely.

"Sun Rain!"

All the fur on the Haotian Wolves' bodies shot out in all directions as they transformed into countless sharp thorns in the sky. Those thorns came from all directions and could easily penetrate the ground. The flames on them became even more intense.

"Clothes wrapped in silver!"

Wherever it went, it seemed as if the entire world was dyed with silver. The terrifying cold air was released without any care for life, and if it was frozen, it could create a similar effect to the Nine Hell Devil Ancestral Flame.

"Phew!"

Mo Xiaolang took a deep breath, he started his journey once again, stepped onto the battlefield, when it was inevitable that a battle would happen, he would definitely not retreat!

At this time, he completely ignored the Moon-Eclipsing Wolf tribe's attack. His bloody eyes were staring at the Haoyue Wolf tribe. He was a Sun Devouring Demonic Wolf. At the very least, in terms of name, he was definitely their natural nemesis!

Facing the countless amount of sun showers, he rushed towards there without hesitation, he almost did not care about his own life, when everyone thought that he had gone mad, he suddenly roared, a pitch black vortex appeared in his mouth, it was Tun Yue's sacred art, when the sacred art was activated, countless of sun rain specks of light were actually sucked in by the vortex!

In that moment, the Sun Devouring Demonic Wolf quickly transformed into a golden color. It was practically no different from the Haotian Wolf Clan, but very quickly, the black flames once again combusted and started to fuse with the golden flame!

"Have you forgotten my opponent!"

What surprised him was that right after the Sun Devouring Demonic Wolf caught the attacks of the Haoyue Wolves, it instantly turned around and let out an earthshaking roar. With its terrifying speed, it rushed towards the Eclipse Wolf tribe and with a spray of its mouth, the flames of the Haoyue Wolf tribe had already merged with the Ancestral Devil Fire, forming a terrifying destructive force. This was the enhancement of double power, causing the attack power to be beyond his imagination!

BOOM!

A dazzling light flashed across the prairie, and the heaven shaking explosion caused an earthquake, knocking all the tribes of the prairie, who were still running away, onto the ground. Large areas of the ground were cracked open.

Under that situation, he could only retreat, but he was still blown away by Mo Xiaolang. The power of the dual flames caused the Yue Clan to explode with a large amount of blood, falling onto the ground, the black Sun Devouring Demonic Wolf rushed past layer after layer of flames and stepped on the Moon Eclipsing Wolf Clan's body. Its black claws grabbed onto the enemy, and its sharp teeth had already bit into the enemy's neck, sinking deep into their teeth.

"You've lost." Mo Xiaolang only said one sentence and then released him. His eyes fell on his other opponent who was looking at him in shock — the Haotian Wolf pack.

That dark and bloodthirsty gaze made the Haotian Wolf tribe take three steps back.

Mo Xiaolang's performance at the start was average, but he suddenly displayed such power, instantly reversing the outcome of the battle. Defeating one person caused the wolves to be shocked, and even the two great wolf masters were rather surprised.

"I was lucky." The Mighty Sun Wolf Clan knew that they couldn't allow their opponent to scare them like this.

Golden flames appeared in his eyes once more. Facing the Sun Devouring Demonic Wolf's body that was getting closer and closer, he bowed without fear and attacked again.

The wolf clan was not afraid of risking their lives!

As for that defeated Corrupted Moon Wolf, although his injuries were not serious, if Mo Xiaolang wanted to kill him, he would already be a corpse, so he stood up and returned to where the Corrupted Moon Wolf Lord was.

A cruel smile appeared on his face as he said, "The bloodline of the supreme wolf clan does not need to lose to ordinary wolf clan members like you. Even if you are an outsider, you can't do it. Don't think that you can look down on me just because you luckily beat me. Let me teach you how to write the word death!"

The Sun Devouring Demonic Wolf raised its head up high, looking up at him. It did not make a sound, but the black flames continued to burn unrestrainedly, proving its terror.

He had probably used his full strength for the sake of winning. The golden flames on his body swept out and formed a huge flame sphere that completely surrounded him. Very soon, his appearance could no longer be seen.

The golden sun looked no different from the sun in the sky, and this sun was even hotter. If it was only a Divine Martial Stage practitioner, they would probably be roasted to death by this sun.

The two great wolf clansmen were looking forward to their final performance. They were arrogant and pampered, so Mo Xiaolang had to submit to them!

In actuality, what Mo Xiaolang desired most was to take revenge on them. No matter what, they had disturbed his life, used such a haughty tone to speak to him and even controlled Su Yan to threaten him.

BOOM!

Countless golden symbols appeared on the scorching sun and revolved around the golden sun. The symbols increased its power and stabilized its energy!

On the golden flame sphere, a wolf's face appeared, it was extremely ferocious!

"The sun has set!"

The Howling Firmament Wolf Clan was not willing to be defeated, so he displayed this move, 'The Sun falls'. Just based on this name alone, it was obvious that this was a terrifying attack.

The golden sun in the sky actually began to roll, and smashed towards Long Chen with a loud bang, as if it was the true setting sun. It had to be said that this was a rather terrifying attack, and was more or less the same as the attacks that ordinary practitioners of the Five Element tribulation of reincarnation had executed.

The sun had set and Mo Xiaolang was in grave danger.
